- Prepare Request for Proposals (RFP)s for master planning, engineering design, services for construction management and inspection services, select consultants, prepare contracts, etc.
- Conduct meetings with LBWD staff, outside consultants and contractors during planning, design, and construction projects
- Review deliverables for design and perform constructability reviews to ensure the contracts are bid ready
- Train LBWD Project Managers and/or provide advice for resolving technical and/or construction issues as they arise
- Constructability Reviews
- Review of 30% PDR, 60%, 90%, 100%, and Bid Ready plans and specifications
- Coordinating and supervising all inspections for in-house inspection staff and outside consultants
- Processing all RFIs, Progress Payments, etc. and conducting all Progress Meetings
- Coordinating all communications with the Engineers of Record (EORs) and CM staff
- Performing public outreach tasks
- Labor Compliance, performed in-house by the Z&K Team for various projects and the Z&K Team managing LBWD's Labor Compliance consultant
- Acting as the SMARTS system Legally Responsible Party (LRP) and performing all Qualified SWPPP Practitioner (QSP) inspections
- Performing all Claims Management
- Acting as coordinator with the various jurisdictions such as RCFCWCD, Caltrans, RWQCB, ACOE, CDFG, and other agencies to complete permits.
- Coordinating with SCE to secure new electrical service for the various facilities.

PROJECTS

- LADWP Haynes Generating Station Sewer Pipeline Project ($20M)
- LADWP Haynes Generating Station Recycled Water Pipeline Project ($17M)
- O-0750: 2021 New Wells Project ($25M)
- MC-5223: Golden Ave Water Main Replacement ($5M)
- Well Commission 22A ($3M)
- EO-3501: 32nd St BPS Rehabilitation ($9M)
- O-0751: LBWD GWTP-1 and GWTP-2 New Wells ($12M)
- REO-0208 Alamitos Tank 19 and 20 Conversion ($6M)
- O-0748: NLB-13 & NLB-14 Equipping ($5M)
- Groundwater Treatment Plant HVAC Replacement Project ($8M)
- EO-3585: LBWD Admin Bldg Roof Improvements ($1M)
- 2021 Four New Wells – El Dorado 1, El Dorado 2, Citizens 8A, Commission 23 ($22M)
- New Wells Alamitos 9A and Alamitos 14 ($12M)
- New Wells Comm 23A and Comm 26 ($11M)
- Water Main Replacement - Spinnaker Bay Ph 1 ($4M)
- S-25 Sewer Lift Station Rehabilitation ($4M)
- S-8 Sewer Lift Station Rehabilitation ($4M)
- Sanitary Sewer Rehabilitation and Replacement Projects 7 & 8 ($2M/$2M)
- Cathodic Protection Phases 5 & 6 ($1.5M/$1.5M)
- Large Valve Replacement FY22/23 (Willow St) ($1M)
- O-0745: West Coast Basin Well Equipment ($2M)
- EO-3583: JWJ Reservoir Chemical Dosing System ($3M)
- EO-3557: Cathodic Protection Phase 6 ($2M)

ON-CALL PROGRAM & PROJECT MANAGEMENT SERVICES

City of Chino | Public Works Department 13220 Central Ave, Chino, CA 91710 *Amer Jakher, PE, Special Projects Manager* Phone: (909) 334-3250 ajakher@cityofchino.org	**Firm's Role:** Program Management, Project Management, Construction Management, Construction Inspection **Relationship to Client:** On-Call Program & Project Management Consultant **Start:** 07/2020 **Complete:** Ongoing **Value:** $5.5M **Dollar Value of Services:** ~160M	Crystal Fraire, PE, QSD/P, Senior Project Manager Brittany Duhn, PE, QSP/P, Senior Project Manager Anthony Flores, Senior Project Manager Lisa Naslund, PE, QSD/P, Senior Project Manager Pernilla Brandt, Senior Project Manager Eduardo Davalos, Project Manager

DESCRIPTION OF SERVICES

The Z&K Team provides Qualified, Project Managers and Construction Managers to serve as an extension of City Staff, to manage engineering, design, bidding, and construction of concurrent CIP Projects. Staff Augmentation to provide Qualified Engineering, Project Management, and Construction Management Professional Staff on a regular basis. Z&K provides Program Management, Project Management, and Construction Management Services for the City of Chino projects for **over 4 years** from the inception through design and during construction, which generally includes the following steps:

- Prepare Request for Proposals (RFP)s for master planning, engineering design, services for construction management and inspection services, select consultants, prepare contracts, etc.
- Conduct meetings with LBWD staff, outside consultants and contractors during planning, design, and construction projects
- Review deliverables for design and perform constructability reviews to ensure the contracts are bid ready
- Train staff Project Managers and/or provide advice for resolving technical and/or construction issues as they arise
- Constructability Reviews
- Review of 30% PDR, 60%, 90%, 100%, and Bid Ready plans and specifications
- Coordinating and supervising all inspections for in-house inspection staff and outside consultants
- Processing all RFIs, Progress Payments, etc. and conducting all Progress Meetings
- Coordinating all communications with the Engineers of Record (EORs) and CM staff
- Performing public outreach tasks
- Labor Compliance, performed in-house by the Z&K Team for various projects and the Z&K Team managing
- Performing all Claims Management
- Acting as coordinator with the various jurisdictions such as Caltrans, SCE, and other agencies for permitting

PROJECTS

Transportation Projects

- R2401 Euclid Bridge
- ST-061 Pine Avenue Extension
- ST-203 Pine Avenue Widening & Pine/Euclid Intersection
- NC231 Slurry Seal Program
- ST232 - Kimball Ave. Preserve Improvements
- ST241 Ramp Improvements
- ST203 - Pine Widening
- ST233 - Yorba Ave Improvements
- G6220 - Alley Improvements
- ST 232 Kimball Ave Widening and SD Improvements
- SD211 - 11th Street/B Street Project
- ST232 - Kimball Ave Street Improvement Project
- Chino HS Improvements
- MS 222 Slurry Seal Program
- MS 202 & ST 221 Chino Avenue Accessibility and Curb Ramp Improvements at 15th,17th and 19th Streets and Norton Avenue PCC Walk and Curb Ramps
- NC231 Schaefer Ave Localized Asphalt Repairs
- ST162 Localized Asphalt Repairs Various Locations
- R7200 Masonry Block Wall at Chino Police Depart
- Yorba Ave Street Improvements – From Midblock between Chino Ave to Schaefer Ave
- F Street, G Street, 5th Street - Street Improvements
- City Hall EMT Parking Lot Improvements
- Fern & Eucalyptus Traffic Signal Modifications
- SN231 - Alley Rehabilitation Project CA - Pioneer St. from Monte Vista to 5th St
- SN221 - FY 21/22 Alley Reconstruction Project
- G6220 - CDBG Alley Project, East-West North Chino Avenue
- SN231 - Alley Rehabilitation Project - Pioneer St from Monte Vista Ave to 5th St.
- SN221 - FY21/22 Alley Reconstruction Project
- ST222 - Kimball/El Prado/Central Traffic Improvement Project
- MS202 - ADA Grievance 21-004 Curb Ramps at Olive Place & Walnut Avenue
- ST223 - Madison St & Kellogg Ave Gap Closure
- SN211 – Alley Sanitation Rehab 20-21 Phase I,II,III

Enterprise Fund Projects

- WA224 - B Street Alley Water Main Line Replacement Project
- WA223 - Russell Ave Waterline Replacement Project
- SW211 - Yorba Ave. & Eucalyptus Ave Sewer Main
- SD223 - Chino Avenue Storm Drain Improvement Plan System
- SD222 - Philadelphia Street and Monte Vista Avenue Storm Drain Extension Project
- WA212 - State Street Water Treatment Plant
- WA214 – Well 17 Equipping Project
- WA224 - B Street Alley Water Main Line Replacement Project
- WA231 - Wells 4 & 6 Treatment Plant Project
- WA223 - Russell Ave Waterline Replacement Project
- WA17B - Chino Quad 1.2
- SW211 – Yorba Avenue & Eucalyptus Avenue Sewer Main Line Replacement Project
- WA221 & WA222 - Central Avenue and Dupont Avenue Waterline Project
- WA211 - Well 11 Pipeline Project
- WA231 - Wells 4 & 6 Treatment Plant
- WA233 Well 20 Bonvew/Schaefer
- D4215 Prado Inundation Area Remediation - Watertight Sewer Manhole

ON-CALL PROJECT MANAGEMENT SERVICES

City of San Bernardino | Public Works Department 290 North D Street San Bernardino, CA 92401 *Alex Qishta, PE, Director of Public Works (Since moved to the City of Yucca Valley)* Phone: (760) 369-0801 x306 aqishta@yucca-valley.org	**Firm's Role:** Program Management, Project Management, Construction Management, Construction Inspection **Relationship to Client:** On-Call Project Management Consultant **Start:** 08/2019 **Complete:** Ongoing **Value:** $5M **Dollar Value of Services:** ~150M	Nadeem Syed, PE, QSD/P, Senior Project Manager Crystal Fraire, PE, QSD/P, Senior Project Manager Brittany Duhn, PE, QSP/P, Senior Project Manager Omar Sharabi, EIT, Senior Public Works Inspector Patrick Fraire, Senior Public Works Inspector Zack Faqih, PE, QSD/P Senior Project/Construction Manager Amber Garcia, Project Manager Thomas Russell, Senior Construction Inspector Dion Castro, QSD/P, SWPPP/Environmental Jasmine Pate, Drone Pilot

DESCRIPTION OF SERVICES

The Z&K Team provides Project Management, Construction Management, and Construction Inspection Services for the City of San Bernardino projects from the inception through design and during construction, **for over 5 years,** which generally includes the following steps:

- Prepare Request for Proposals (RFP)s for master planning, engineering design, services for construction management and inspection services, select consultants, prepare contracts, etc.
- Conduct meetings with City staff, outside consultants and contractors during planning, design, and construction projects
- Review deliverables for design and perform constructability reviews to ensure the contracts are bid ready
- Train staff Project Managers and/or provide advice for resolving technical and/or construction issues as they arise
- Constructability Reviews
- Review of 30% PDR, 60%, 90%, 100%, and Bid Ready plans and specifications
- Coordinating and supervising all inspections for in-house inspection staff and outside consultants
- Processing all RFIs, Progress Payments, etc. and conducting all Progress Meetings
- Coordinating all communications with the Engineers of Record (EORs) and CM staff
- Performing public outreach tasks
- Performing all Claims Management
- Acting as coordinator with the various jurisdictions such as Caltrans and other agencies to complete permits.
- Coordinating with SCE to secure new electrical service for the various facilities.

PROJECTS

- **Mt. Vernon Bridge Replacement Project** | This Project consists of the removal and reconstruction of the 2,200 feet long Mt. Vernon Bridge over the BNSF Railyard, BNSF Intermodal facilities and Metrolink Tracks. The bridge is located on Mt. Vernon Avenue between 2nd Street and 5th Street with a total project cost of $6.6M.
- **State Street Extension Phase I Baseline to 16th Street Project** | This is Phase 1 of 4 phases. This phase consists of extending State Street as a four (4) lane highway from 16th Street to Baseline Street. The one (1) mile extension of State St requires design, utility relocations, CEQA/NEPA clearance, and 408 permit from ACOE. Project cost $5.3M.
- **2nd Street Bridge Replacement at Warm Creek Project |** This project involves the replacement of existing bridge at 2nd Street over Warm Creek, located on 2nd Street between Arrowhead Avenue and Sierra Way. The removal and reconstruction of the 80 feet long Bridge includes design, NEPA/CEQA, 401, 404, 1602 permits, Caltrans coordination, construction. The Project cost is approximately $4M.
- **40th Street Widening from Johnson to Electric Avenue Project |** This project includes the widening of 40th Street from two (2) to four (4) lanes from Johnson to Electric Avenue including upgrade of the existing traffic signal at Electric Avenue. This includes finalizing the street and sewer design, right of way acquisition, and undergrounding of the overhead lines under Rule 20-A. The Project cost is approximately $4.5M.
- **"H" Street Widening from Kendall to 40th Street Project |** This project involves widening and improving "H" Street between Kendall and 40th Street. Services include finalizing the street design and acquiring right of way from 12 properties, including a restaurant. The Project cost is about $2.1M.
- **Sierra Way Storm Drain Project |** This Project includes the installation of Master Plan Storm Drain No. 7-B23 in Sierra Way, Lugo Avenue and Sepulveda Avenue between 37th Street and 44th Street.
- **Kendall Drive Slope Stabilization Rehabilitation Project |** Kendall Drive Slope in the vicinity of 670 Kendall Drive is not stable, failing and is a safety hazard. Soil investigation is being conducted to have a slope stabilization plan which will be implemented to eliminate unsafe condition in the area. Services include the managing the design to slope stabilization along Kendall Dr with wire mesh and installation of soldier pile slough wall to keep debris falling on to the roadway. The project cost was $500K.
- **Citywide Pavement Rehabilitation Project (SB1) |** This project consists of citywide pavement rehabilitation. Accessibility improvement will be installed or upgraded as part of the project. The project is funded through SB1 funding. There is the rehabilitation of 15 streets which include reconstruction of AC, overlay, sidewalk, curb, gutters, and access ramps. The total project cost is approximately $3.7M.
- **Parking Lot Improvement at Various Locations Project |** This Project includes the rehabilitation of five (5) parkinglots with an approximate Project cost of $1M.
- **ATP Cycle 2 – Safe Routes to Schools Project at Three (3) Locations Project |** This project is to widen and improve streets at three locations to provide safe routes to school for students. The locations to be improved are 48th Street between Western Avenue and Magnolia Avenue, Magnolia Avenue between 48th Street and Reservoir Drive, Randall Avenue between Pepper Avenue and Meridian Avenue, Meridian Avenue between Randall Avenue and Los Robles Street, Pepper Avenue between Randall Avenue and Los Robles Street and Perris Hill Park Road between Gilbert Street and Pacific Street. This project consists of street widening, sidewalks, curb and gutter, and access ramps. The approximate Project cost is $2.5M.

7. PROPOSED METHOD TO ACCOMPLISH THE WORK

Z&K understands the nature of on-call contracts and has the depth of resources and expertise required to properly service those contracts. Z&K has managed numerous on-call contracts throughout the region, and because of this experience, Z&K has a strong understanding of how to effectively address project issues and the needs of public agencies, and we are keenly aware of community impact. With a large contingent of local resources to draw from, the Z&K project team can respond to whatever needs may arise. By effectively managing a balanced client workload among our staff, Z&K can respond within a day to meet with the City. This helps keep the project momentum moving forward so that the Z&K team is in place and ready to work within days of receiving a Notice to Proceed. Consistent with our proven long-term approach to large municipal on-call contracts, Z&K has the technical expertise and experience to provide all project types as requested in the RFP.

Z&K accepts the proposed scope of services as presented in the City's RFP Exhibit "A," to include the following:

- Architectural projects
- Capital Improvement projects
- Design and Construction projects
- Facilities Maintenance projects
- Public Works projects
- Water and Wastewater Distribution
- Water Facilities including pressure reducing stations, reservoirs, treatment plants, etc.
- As-Needed Project / Construction Management Services (Extended Staff Services)
- The City desires to obtain the services of a maximum of four (4) qualified firms to assist with On-Call Project Management Services.

Below we have outlined Z&K's approach to the scope of work using our general task order procedure. The Z&K team fosters productive collaboration and cooperation—from stakeholders to the City and public utilities, to the contractor, and to local businesses and residents. Our firm uses proven methods for performing the multitude of tasks that dictate the success of a construction project.

TASK ORDER PROCEDURE

Z&K's keys to success on this on-call contract includes our responsiveness, understanding of the City's needs, capability and availability of qualified staff, and our historically successful comprehensive project management approach for on-call, multiple-task, multiple-year contracts. Z&K will commit sufficient resources to adequately handle varying workloads that may result from multiple task orders progressing simultaneously, but technical strengths and resources are only of value if those resources can be well managed. The Z&K approach to effective project management starts with scope, schedule, and budget development, signed contracts, and kickoff meetings. The project management concepts for the duration of each task and the overall contract are then organized around a core framework of communication, coordination, thorough documentation, and quality control for each submittal on each task. The Z&K team understands the importance of meeting deadlines in a timely manner. We commit to providing adequate staffing (both as to number of personnel and their qualifications) for every task. Our approach is flexible and adaptive to each task, and we can also commit to making use of personnel from other offices throughout the company and bringing on additional staff. Z&K is capable to scale up or down as needed with a focus on our unmatched responsiveness. Through our current on-call contracts, we have developed a task order process that has proven successful. It is an organized and streamlined approach for requesting, developing, and completing task order assignments. The purpose of this process is to be able to provide the City with teams available for multiple tasks off the on-call contract and a formal approach to respond to each task. Below is a summary of our proposed approach for completing the task orders.

Step 1. Initial Meeting with City Project Manager and Task Managers. A meeting between the City's project manager and the Z&K manager to be assigned to the work will be set up. Our project manager will discuss the request with the City's project manager and discuss your goals and expectations, key project issues, appropriate personnel from our team to be assigned, services needed, schedule, approximate budget available, and assumptions for completing the work order.

Step 2. Develop Scope of Work and Team. Our project manager will then coordinate with the appropriate key persons from our team, which may include a multi-discipline team, to prepare and submit a proposal for completing the work. Each team member will submit their scope to our project manager, who will then combine the individual scope into an overall scope and proposal for review by the City. This procedure has worked successfully on our current and past on-call contracts.

Step 3. Notice to Proceed. Once the task order is reviewed, negotiated, and executed, a notice to proceed will be given to Z&K to begin work.

Step 4. Monthly Coordination/Progress Meetings. We will hold meetings at the appropriate frequency to keep City staff apprised of the progress of the work. We will develop and maintain schedules to identify allowable work windows for completing project tasks and to keep the City's project manager aware of the project progress.

PROJECT MANAGEMENT APPROACH

Z&K's project management approach is derived from many years of experience and proven success and includes very specific strategies: coordination, communication, and documentation.

Coordination | All task orders will require coordination. That can come in the form of coordination with other City departments, local agencies, and stakeholders. The Z&K team has years of experience with major on-call contracts with other Southern California agencies. These on-call contracts require similar coordination efforts in which Z&K has established and maintained outside-agency contacts, coordinated designs with their staff, and obtained necessary approvals to move the project forward. This knowledge and understanding of working with other agencies will provide great benefit to you on each project.

Communication | Z&K has a formal, proactive communication plan to share critical project information as soon as possible and to make sure there are no surprises. We continuously report progress, identify problems, assign priorities, receive feedback, and document progress. From project start-up through project closeout, we will prioritize our communication to make sure all required actions are documented and addressed in a timely manner. The City can be assured that both the City and all team members will always be aware of the status. This level of coordination, coupled with the project progress meetings, helps avoid project issues and delays, and monitors the project schedule and budget.

Documentation | Proper documentation is critical for all projects. We have a thorough understanding of the document control procedures required for public works projects for a variety of funding sources. Z&K's document control management policies are prepared to comply with the City's requirements. Our typical monthly project progress reports include the status of deliverables, utility and outside-agency efforts, cost and schedule snapshot and analysis, issues discussion and recommended resolution actions. Monthly progress reports will be tailored to the needs of the City for each project. In combination, Z&K's tools and efficiency in coordination, communications, and documentation will provide the City with a transparent process for the the contract.

Quality Assurance and Quality Control | QA/QC will be an ongoing task throughout the duration of the project. Z&K's project and construction management QA/QC process starts with standardization of successful procedures. All projects utilize Z&K's standardized project electronic filing system, which is mirrored with a binder-based hard copy indexed system. Z&K's electronic filing system is a cloud-based system accessible in real-time to all Z&K project team members as well as its client as requested. Daily, weekly, and periodic correspondence, logs and reports are regularly reviewed for accuracy, up-to-date maintenance, aging, and escalation of issues, appropriateness, potential changes and/or claims and contract compliance.

Schedule | Our project manager will prepare and maintain a Microsoft Project schedule. The schedule, task lists, deliverables, agency review time, and progress reports will be used to list each task in the project to enable our project manager to hold members accountable for delivery. We will provide a summary report regularly that shows tasks completed, items that may have changed, and schedule updates if needed.

MANAGEMENT APPROACH

We have successfully utilized CM Agency delivery on a host of projects. Through this experience we have developed management procedures that promote collaboration and teamwork, improve quality and maximize the value of the above project. Z&K's past performance with Cities, Counties, and other agencies show our remarkable ability to control costs, guarantee great quality of work, and meet all project deadlines.

MANAGEMENT APPROACH | Z&K Consultants, Inc. provides proven professional construction management techniques to ensure the safe construction of a quality project completed on time and within budget. Z&K accomplished this by establishing the systems, policies, and procedures necessary to ensure adequate project controls are in place. The Construction Manager must ensure all parties understand the basic responsibilities and interrelationships of all team member such as the Owner (both project management and operations), the Design Engineer, the Contractor, the construction management team, and the subconsultants. Additionally, a good Construction Manager must have the knowledge and experience to effectively understand the interrelationships between the key management components of time, information, cost, and quality. Decision making, including obtaining sufficient information to make reasoned decisions, is the key element leading to a successful project. the project. The Z&K approach is founded on a thorough understanding of each of the management components critical to the project.

TIME MANAGEMENT | Time management uses scheduling to accurately manage and track the restrictive elements of time and resources throughout the project. The key to a successfully implemented and managed schedule is the development of an accurate, detailed, and realistic baseline schedule. Z&K will review the Contractor's baseline schedule to ensure it is accurate and reasonable. Activity durations and logic ties may be examined for accuracy and constructability. The schedule logic and activity durations may also be analyzed to ensure the Contractor does not use float suppression techniques. Schedule float is a valuable resource for the Owner and the Contractor.

Schedule implementation and administration is the next step in proper time management. The Contractor's actual progress will be documented daily. The Z&K Team will review the progress with the Contractor at the weekly meetings. The Contractor's three-week-look-ahead schedule will be compared with the work plan on the record schedule to ensure the Contractor continues to use the record schedule as a management tool. We will check the record schedule for activities with start dates that did not begin during the review period. This proactive approach flags potential delay issues for further discussion.

INFORMATION MANAGEMENT | Proper information flow is crucial to the success of a project. A construction project generates a large amount of information, which must be distributed to all parties on a timely basis. The source of this information will cover the full spectrum including contracts, meeting minutes, drawings and specifications, submittals, requests for information (RFIs), pay requests, invoices, inspection reports, and so forth. Z&K will act as the hub for the management of all information flow. Z&K has extensive experience providing document management solutions for its clients. Z&K's approach to information management also includes building a communication framework to continually foster partnering and teamwork relationships for all the project stakeholders. Z&K builds this framework from the start of the project with an all-inclusive kick-off meeting where the lines of communication and project responsibilities will be clearly explained to all the project stakeholders.

The emphasis on project communication continues throughout the project with the weekly construction meetings. At each weekly meeting, all ongoing issues will be reviewed and discussed. All project stakeholders will be invited to the meetings. An agenda of meeting topics will be distributed in advance and include items such as safety, old business, updated progress of the work, RFIs, submittals, testing and inspection reports, non-conformance notices, environmental monitoring, change orders, three-week-look-ahead schedule, pay requests, and so forth. Unresolved issues will be carried over to the next week's meeting until a final resolution is obtained.

FUNDING MANAGEMENT | Z&K will ensure that the City has all necessary information to comply with funding requirements. Our team is experienced in complying with funding reporting and filing requirements. We pay close attention to these requirements and deadlines so that project funding remains unaffected and so that file audits are conducted quickly and efficiently. Our team is also experienced in ensuring that project documents show compliance with DBE reporting requirements, DBE goals, and/or good faith effort documented. Proper Project documentation is key in any audits.

COST MANAGEMENT | Z&K will take the lead to ensure a cost management system is properly implemented and maintained. Z&K's cost management role will be in two parts. The first is to track the value of the completed work to ensure accurate and detailed monthly progress billing by the contractor. Secondly, Z&K will proactively manage the change order process. The monthly progress billing may be tied to the construction schedule. A cost loaded critical path method (CPM) schedule is a valuable management tool.

Each month, the Construction Inspector will review and approve the updated cost loaded CPM. Work activities and material deliveries will be assigned the correct completion percentage by the Contractor. This will be reviewed by the Construction Inspector and discrepancies will be addressed. If necessary, the Contractor will revise and resubmit the schedule of values. This process ensures the Owner is accurately billed for the completed work monthly. Changes in work and unforeseen conditions will be closely monitored. Any costs for changes will be managed by the Z&K construction management team. An ongoing log of potential change issues will be maintained. These issues will be discussed and updated at each weekly meeting.

QUALITY MANAGEMENT | Quality management is an inherent CM responsibility. Z&K is knowledgeable and capable in all aspects of quality management. Quality assurance is the application of systematic methods to verify the effective implementation of quality control procedures. Z&K will manage the quality of the project by taking the quality assurance lead role and implementing the Z&K quality assurance program, which allocates quality control responsibilities to the various project participants to ensure the constructed product conforms to the contract plans and specifications. This includes a detailed inspection plan, inspection procedures, and documentation procedures for all inspection and test reports. Z&K will review the Contractor's quality control procedures to ensure adequacy. Quality control issues will be discussed at each weekly meeting. An ongoing deficiencies/corrective items list will be maintained, reviewed, and updated weekly.

Quality assurance includes quality of the constructed work as well as the quality of the Contractor's document processes (such as the Contractor's submittals and RFIs). In Z&K's experience, lack of quality in the paperwork with items such as poor submittals and unanswered RFIs may lead to lack of quality in the constructed product.

Deficiencies in submittal quality control by the Contractor often leads to incorrect or inferior equipment and materials being installed. Z&K will be proactive with the Contractor to ensure the quality of their submittals. Likewise, lax procedures for the processing of RFIs may lead to misunderstandings and delays. Z&K will take a proactive approach with the Contractor and the Design Engineer to ensure the quality of the RFI process is maintained. Finally, Z&K regularly performs internal audits of its field operations to ensure the proper implementation of procedures for Z&K's quality assurance program.

CODES & PROCEDURES MANAGEMENT | Z&K has a strong knowledge of the City, County, State, and Federal codes and procedures that are required to deliver a successful project. Z&K will ensure that all codes and procedures are properly followed for the City's Project.

Some of the requirements are as follows:

- Project Construction Documents
- City Standards and Design Manuals
- California Building Code
- California Plumbing Code
- California Mechanical Code
- California Electrical Code
- California Building Energy Efficiency Standards
- California Disabled Regulations
- City Codes & Ordinances
- City Grading Code & Manual
- APWA "Greenbook" Standard Specifications for Public Works Construction
- Caltrans Standards, Specifications, and Procedures
- Caltrans Construction Manual
- Caltrans Safety Manual
- OSHA Construction Safety Orders
- California Green Building Code
- 10/30-hr OSHA Training Certification
- Local Assistance Procedures Manual (LAPM)
- State and Federal Building Codes (Site Accessibility)
- County Procedures and Guidelines
- Work Area Traffic Control Handbook (WATCH) Manual
- Manual of Uniform Traffic Control Devices (MUTCD)
- Project Safety Plan (PSP)
- Site Health and Safety Plan
- Activity Hazard Analysis (AHA)
- Title 24, Part 2, 2.5, 3, 4, 5, 6, 11
- California Fire Code
- California Residential Code

SCOPE OF WORK

Quality assurance includes quality of the constructed work as well as the quality of the Contractor's document processes (such as the Contractor's submittals and RFIs). In Z&K's experience, lack of quality in the paperwork with items such as poor submittals and unanswered RFIs may lead to lack of quality in the constructed product. Deficiencies in submittal quality control by the Contractor often leads to incorrect or inferior equipment and materials being installed. Z&K will be proactive with the Contractor to ensure the quality of their submittals. Likewise, lax procedures for the processing of RFIs may lead to misunderstandings and delays. Z&K will take a proactive approach with the Contractor and the Design Engineer to ensure the quality of the RFI process is maintained. Finally, Z&K regularly performs internal audits of its field operations to ensure the proper implementation of procedures for Z&K's quality assurance program.

ACHITECTURAL PRE-QUALIFICATION | Z&K will attend meetings and provide Meeting Minutes; Review and prepare draft RFQ and provide comment; Prepare Spreadsheet evaluating responses; and Provide support as required.

ARCHITECTURAL BIDDING AND SELECTION | We will Attend meetings and provide Meeting Minutes; Review and prepare draft RFP and provide comments; Prepare Spreadsheet evaluating responses; and Provide support as required.

DESIGN AND CONSTRUCTION DOCUMENTS | Our Team will Attend meetings and prepare Meeting Minutes; Attend job-walks with architect and engineers; Review plans at various stages and provide comments; Provide support as required; Review the 60 and 90% Plans and Specifications to identify potential errors, omissions, National Electric Code and coordination issues (Detailed review of the Electrical drawings, Latter Logic, Relay logic, Control Logic, verification of the Instrumentation and Mechanical Drawings, and confirm that all electrical equipment are properly shown at their corresponding placements with their required signals, tagging,

SCADA network connectivity, Verify all needed points and PLC Address on a list etc.); and Ensure all submittal comments have been addressed in the 100% package.

CONTRACTOR PRE-QUALIFICATION | Our Personnel will attend meetings and provide Meeting Minutes; Review and prepare draft RFQ and provide comments; Prepare Spreadsheet evaluating responses; and Provide support as required.

CONTRACTOR BIDDING and SELECTION | We will attend meetings and provide Meeting Minutes; Review and prepare draft RFP and provide comments; Attend Mandatory Pre-Bid Conference, Bid Scrub, and job-walks; Assist with RFI responses, keep logs as required; Prepare Spreadsheet evaluating responses; and Provide support as required.

PRE-CONSTRUCTION | Z&K will develop and update the over-all Project Schedule; Develop and update the overall Project Budget; Work with City staff and vendors to prepare the construction site for closure and construction; Provide support as needed relating to Contractor Mobilization, administrative tasks; Facility Rules and Regulations for Contractors, etc.; Attend job-walks as required to familiarize contractor with the facility and job-site; Attend staff presentations to familiarize the affected staff as to expectations; Attend planning meetings; Meet with vendors as needed and as directed to obtain quotes, coordination, etc.; and Provide support as needed

CONSTRUCTION | We will Monitor quality of construction via regular job-site inspections; Prepare, monitor, report periodically, and revise, as needed the Project Schedule;• Prepare, monitor, report periodically, and revise, as needed the Project Budget; Attend weekly construction meetings, and provide meeting minutes, distributed to all parties; Photograph site weekly and archive photos; Monitor all standard construction documentation, including submittals, RFI's, etc; Review all contractor change orders for scope and cost approval; Review and monitor payment of all contractor and vendor invoices; Attend punchwalk on behalf of Client; Monitor punch-list progress and completion to 100%; Assist during punchlist period for complaints, modifications, etc; Provide support as needed; amd On-site inspection services to ensure all electrical scope of work complies with the conformed set of plans and specifications. (Inspection team to be knowledgeable of all electrical, instrumentation, control logical, Discrete Input/Outputs, Analog (4-20ma) Inputs/Outputs and all SCADA/RTU systems at the project site.

FIXTURIZATION | Z&K will assist Client with de-install and removal of existing furniture, and installation of new furniture and fixtures by Client's furniture vendor; Obtain competitive bidding for any items or services, as directed by Client; Prepare punchlists for furniture and fixtures; Provide support as needed; and Attend jobwalks and/or meet vendors on site as needed.

POST-CONSTRUCTION | We will attend meetings and provide Meeting Minutes; Review requests for additional scope or services; obtain pricing, and implement, if so directed; and Provide support as required.

ACCOUNTING AND PROJECT CLOSE-OUT | Z&K will obtain close-out package from General Contractor including but not limited to as-built bdrawings, air-balance reports, warranty, maintenance and operations manuals, etc.; Assist with coordination of final payment to General Contractor; Assist with completion of Lien Release process; Provide summary documentation, spreadsheets, analysis, etc, as directed; and Archive all electronic and paper files; provide copies of key documents and photos to Client.

We understand that we will be expected to perform work on the specified project for the entire duration of the project unless requested or approved by the City. No staff substitution is allowed. We will monitor his/her approved budget and notify the City of additional work outside the contracted scope of work prior to performing such additional work. Z&K will ensure all work conforms with applicable City, State and Federal laws, latest versions of City Design Manuals, City Standard Plans, Caltrans manuals and policies, Caltrans Standard Plans and Specifications, APWA Standard Specifications for Public Works Construction "Greenbook," Manual of Uniform Traffic Control Devices and California Building Codes, all as revised and amended.

RISK MANAGEMENT LOG

Based on a comprehensive review of the project documents, Z&K has identified the following potential risks and response strategies.

ID	Risk Description	Risk Area	Response Strategy
1	Pre-Purchasing Materials	Schedule & Budget	We have had a lot of success with pre-purchasing long lead item materials on our projects. We work with the architect/designer to identify the crucial long lead items and procure these items around the 90% design. This helps architects since they will be able to review the long lead item submittals prior to construction and will not be bombarded with all submittals at once. This also helps the project budget because the City avoids mark up on these items. The contractor also does not have to build in the risk of guaranteeing the price of the items for longer than the 30 days that vendors quote, so it provides less risk to the contractor and a better priced bid.
2	Constructability Review	Budget	The constructability review at the 90% design will be crucial to the project success. A thorough constructability review of the improvements and the project specifications will be central to construction running smoothly. Z&K will have our proposed CM team, made up of licensed Professional Engineers and certified building officials, certified plan examiners, and certified building/structural/mechanical/electrical and plumbing inspectors perform the constructability review. In addition to the CM teams review, we will have our in-house architects and structural and MEP designers perform a thorough constructability review.
3	ADA Path of Travel/Access Compliance	Budget & Schedule	Per the California Building Code, there are requirements for ADA improvements when providing structural improvements to facilities. Upon our reviews, the Building Department may enforce this requirement. We will work with the Architect to ensure that we are in compliance. Otherwise, this can delay the project.
4	Concurrent Use	Community Outreach	We will work with the administrators and operators to ensure continuity for any projects that may stay in use during construction. We will ensure a separation of all construction activities from users of the facility. Z&K is very experienced on working on projects with concurrent use.
5	Engineer's Estimate Accuracy	Budget	In the current bidding environment, we have noticed that bids have been coming in significantly higher than the engineer's estimate. This creates problems and delays since the project funding was based on the engineer's estimate. Due to the current bidding environment, the engineer's estimate becomes outdated quickly. We have many options for addressing this. Z&K will thoroughly analyze the engineer's estimate at 90% design and 100% design. Z&K has in-house designers in addition to our strong project management team that are very familiar with cost estimating and the current bidding environment. We will also discuss bidding strategies with the City to help mitigate the effects of the bidding environment. Z&K provides program and project management for many agencies and have created great bidding strategies to keep the bids within budget.
7	Administrative Notice to Proceed for Long Lead Items	Schedule & Budget	Z&K has success on recent projects issuing an Administrative Notice to Proceed for the Contractor to begin on submittals for long lead items while the PWA is being drafted and executed. We will ensure the contractor begins process to order/procure possible long lead items or items that require coordination such as the fire alarm, high performance sports lighting, mechanical equipment, etc. Long lead item procurement is essential to project schedule as the industry has been heavily impacted by material shortages.
8	California Building Code and	Budget	The projects may require a multidisciplined team for the numerous types of specialty inspection. We have Senior Project Manager/Senior Construction Managers that are licensed Professional Engineers, Certified Building Officials, Certified structural/mechanical/electrical/ and plumbing inspectors and plan examiners and have worked for public agencies as Deputy Building Official for many years.

	Multidisciplined Inspection		Our team is multidisciplined and experts of the California Building Code. This team will ensure that the construction is built correctly and will coordinate with the City's building department for any required inspections.
9	Public Safety & Concurrent Occupancy	Safety	Z&K has worked on numerous building and facility improvement projects that have remained operational during the improvements. This adds a layer of required expertise to ensure that the safety of the public. Z&K Consultants take extreme pride for being a very safety conscious organization implementing a safe environment both in our offices and on our project sites. We monitor the Contractor and their subcontractors for safety compliance for meeting local, state, and federal safety requirements. Z&K will review the contractor's safety program for compliance with Cal/OSHA.
10	Public Outreach & Weekly Newsletter	Safety & Public Inconvenience	Z&K will provide concierge-level service to the community and residents. Ongoing contact and communication with local residents and business impacted by construction activity is crucial. This will include notification prior to the commencement of construction and throughout the entire process. Outreach will not be limited to minimum City requirements but will be a daily ongoing pursuit. Z&K provides the City with a Weekly Newsletter including construction activities performed the week prior, construction activities scheduled for the week after, and all important project progress and updates. We have included an example of our firms Weekly Newsletters in Appendix A.
11	Agency Coordination	Schedule & Budget	Our Team will ensure that all agencies affected by this Project are invited to the pre-construction conference and informed of the Project schedule and progress. Z&K will ensure that the Project complies with all permit requirements and environmental mitigation measures.
12	Utility Coordination	Schedule & Budget	It is critical to ensure that all coordination with utilities that may conflict with the new improvements is completed prior to starting construction. If this is not possible, the contractor must demonstrate that all utility relocation is coordinated and incorporated into the base line schedule. The contractor must verify all existing utilities are per plans. The contractor must start potholing as the first construction activity. If the contractor hits a utility, they will not be able to claim that the City is liable for the cost of repairs.
13	Change Orders	Schedule & Budget	To assist in controlling cost, Z&K will conduct a pre-construction site walk with City staff members to identify areas that could potentially result in unanticipated costs. During construction, Z&K will conduct site visits with City staff, as needed, to minimize change orders and cost increases. Z&K will closely monitor the work and proactively manage the change order process. We will identify potential change orders early and proactively develop solutions.
14	Weekend Work/Overtime Requested by Contractor	Budget	All overtime shall be approved by the City prior to the commencement of work and all associated costs for inspection/construction management shall be at the expense of the contractor. This item shall be included as a discussion item in the pre-construction conference. Due to unforeseen issues when scheduling manpower and materials, it may be necessary for the contractor to work evenings or weekends. This provision is important to minimize any additional costs to the City for the benefit of the contractor.

9. INSURANCE

Z&K Consultants, Inc will meet the insurance requirements attached in Exhibit "B" of this RFQ upon award of contract.

10. LITIGATION

Z&K Consultants, Inc has zero claims filed by Z&K Consultants, Inc or against Z&K Consultants, Inc.

11. OTHER INFORMATION

Z&K Consultants has a proven track of record of staffing tasks efficiently and completing projects on time and within the allocated budget. Z&K Consultants, Inc does not have prior work with the City of Ontario. Our subconsultant, Ardurra, has worked with the City of Ontario.

Community involvement: Z&K Consultants staff are local to the City of Ontario and know the community well.

Z&K Consultants has no conflicts of interest in connection with providing the services.

12. CERTIFICATION OF PROPOSAL

The undersigned hereby submits its proposal and, by doing so, agrees to furnish services to the City in accordance with the Request for Qualifications (RFQ), and to be bound by the terms and conditions of the RFQ."

APPENDIX A - RESUMES

Z&K CONSULTANTS
BUILDING SOLUTIONS

Crystal Fraire, PE, QSD/QSP

Z&K CONSULTANTS
BUILDING SOLUTIONS

Senior Principal Project Manager

EDUCATION
» BSCE - Civil Engineering, California State Polytechnic University, Pomona

LICENSES & REGISTRATION
» Professional Engineer, P.E. State of California, #91674
» SWPPP (QSD) & (QSP) Certificate #27614
» 30-Hr. Cal OSHA
» Defensive Driving Training

Ms. Fraire has provided Program and Project Management for numerous projects totaling over $600M. She has successfully delivered over 300 capital improvement projects ranging from water/wastewater projects, street improvements, pavement rehabilitations, storm drain improvements, parks, bridges, culverts, traffic signal improvements, pipeline projects, wells, tanks, and various other public works projects. She has thorough knowledge of project management of public works and capital improvement projects including street improvements, parks, water and wastewater projects, involving flood risk management, water conservation facilities, water mains, pressure regulating and pumping stations, wells, valves, fittings, and other appurtenances, reservoirs, channels, and storm drains, as well as access roads, culverts, and bridges. She is knowledgeable of the latest construction practices and requirements, communicates effectively, and possesses computer usage and writing skills. Her experience includes an extensive background in construction management and inspection, construction contracting, project management, quality control and assurance, and project coordination She has excellent skills in understanding construction contracts, review and control project cost and schedule, coordinate and assist in negotiating change orders, provide project updates to the client, ensure timely review of critical path method schedule to track any changes in critical path and delays, maintain project as-builts, managing multiple subconsultants and supervise inspection staff.

RELEVANT PROJECT EXPERIENCE

Long Beach Utilities: City of Long Beach, CA | Senior Project Manager: Ms. Fraire has provided the following services for Long Beach Utilities to successful deliver over 50 projects. Prepare Request for Proposals (RFP)s for master planning, engineering design, services for construction management and inspection services, select consultants, prepare contracts, etc, conduct meetings with LBWD staff, outside consultants and contractors during planning, design, and construction projects, review deliverables for design and perform constructability reviews to ensure the contracts are bid ready, train LBWD Project Managers and/or provide advice for resolving technical and/or construction issues as they arise, constructability Reviews, review of 30% PDR, 60%, 90%, 100%, and Bid Ready plans and specifications, coordinating and supervising all inspections for in-house inspection staff and outside consultants, processing all RFIs, Progress Payments, etc. and conducting all Progress Meetings, coordinating all communications with the Engineers of Record (EORs) and CM staff, performing public outreach tasks, performing all Claims Management, acting as coordinator with the various jurisdictions such as RCFCWCD, Caltrans, RWQCB, ACOE, CDFG, and other agencies to complete permits, coordinating with SCE to secure new electrical service for the various facilities, and performing construction management services for projects in the construction phase. The projects include:

- LADWP Haynes Generating Station Sewer Pipeline Project ($20M)
- LADWP Haynes Generating Station Recycled Water Pipeline Project ($17M)
- O-0750: 2021 New Wells Project ($25M)
- MC-5223: Golden Ave Water Main Replacement ($5M)
- Well Commission 22A ($3M)
- EO-3501: 32nd St BPS Rehabilitation ($9M)
- O-0751: LBWD GWTP-1 and GWTP-2 New Wells ($12M)
- REO-0208 Alamitos Tank 19 and 20 Conversion ($6M)
- O-0748: NLB-13 & NLB-14 Equipping ($5M)
- Groundwater Treatment Plant HVAC Replacement Project ($8M)
- EO-3585: LBWD Admin Bldg Roof Improvements ($1M)
- 2021 Four New Wells – El Dorado 1, El Dorado 2, Citizens 8A, Commission 23 ($22M)
- New Wells Alamitos 9A and Alamitos 14 ($12M)
- New Wells Comm 23A and Comm 26 ($11M)
- Water Main Replacement - Spinnaker Bay Ph 1 ($4M)
- S-25 Sewer Lift Station Rehabilitation ($4M)
- S-8 Sewer Lift Station Rehabilitation ($4M)
- Sanitary Sewer Rehabilitation and Replacement Projects 7 & 8 ($2M/$2M)
- Cathodic Protection Phases 5 & 6 ($1.5M/$1.5M)
- Large Valve Replacement FY22/23 (Willow St) ($1M)
- O-0745: West Coast Basin Well Equipment ($2M)
- EO-3583: JWJ Reservoir Chemical Dosing System ($3M)
- EO-3557: Cathodic Protection Phase 6 ($2M)

Additional Projects for various agencies | *Senior Project Manager*

- City of Tustin: Veteran Sports Park at Tustin Legacy, Tustin, CA
- City of Lake Forest: Street Resurfacing and Slurry Seal Program, Lake Forest, CA
- City of Norwalk: CDBG Local Streets Rehabilitation Project, Norwalk, CA
- SR-91 Corridor Operations Project, Riverside County Transportation Commission, Corona, CA
- Magnolia Ave. Grade Separation, County of Riverside, Corona, CA
- City of Costa Mesa: Citywide Parkway Maintenance & Street Rehabilitation Project, Costa Mesa, CA
- City of San Marino | Street Rehabilitation Program Phase 1 & Phase 2

Nadeem Syed, PE, QSD/P

Z&K CONSULTANTS
BUILDING SOLUTIONS

Senior Principal Project Manager

EDUCATION
» BS, Civil Engineering, California State University Long Beach, 1990
» BA, Business, Punjab University, Pakistan

LICENSES & REGISTRATION

» QSP/D Certified

Mr. Syed has over **29 years** of experience in project management, construction management, civil engineering, and traffic engineering, with expertise in Capital Improvement Program (CIP) development and management and has successfully delivered over 30 street rehabilitation projects. He spent 20+ years in engineering and implementing various CIP projects for municipalities, including the cities of San Bernardino, El Monte, Rialto, Fontana, Corona, Diamond Bar, San Marcos, and Baldwin Park. These capital projects have included parks, storm drain, street improvement, pavement rehabilitations, slurry seal, traffic signal, ADA improvements, pedestrian safety, concrete work including sidewalk, curb, gutter, ADA ramps, grade separations, interchanges, lift stations, sewer and water systems, park rehabilitation and municipal buildings. Mr. Syed participates in developing department budgets, conducts training and performance evaluations to staff, establishes an Assessment District for construction of sewer main line and streetlights, develops master plans for citywide projects, and he successfully applies for various grants such as HES, SR2S, and ATP grants.

RELEVANT PROJECT EXPERIENCE

City of San Bernardino, Various Projects | *Senior Project Manager*
Mr. Syed is providing Project Management and Construction Management services to the City of San Bernardino for the following CIP Projects:

- Mt. Vernon Bridge Replacement Project
- State Street Extension Phase I Baseline to 16th Street Project
- 2nd Street Bridge Replacement at Warm Creek Project
- 40th Street Widening from Johnson to Electric Avenue Project
- "H" Street Widening from Kendall to 40th Street Project
- Sierra Way Storm Drain Project
- Kendall Drive Slope Stabilization Rehabilitation Project
- Citywide Pavement Rehabilitation Project (SB1)
- Parking Lot Improvement at Various Locations Project
- ATP Cycle 2 – Safe Routes to Schools Project at Three (3) Locations Project

City of Montebello, 10th Street Improvements Project | *Senior Project Manager*
The Project consisted of removal and reconstruction of existing concrete sidewalks, curb and gutters, driveway approaches, curb ramps, cold milling existing AC pavement, adjustment of sewer manholes frames and covers, raising water valve covers to finished grade, installation of detectable warning surface on existing curb ramps, and installation of pavement markings and curb painting. This project consisted of design, project management, bidding, award of contract, construction management and inspection of the 10th Street Improvements from Whittier Boulevard to Cleveland Avenue.

City of Montebello, Pavement Rehabilitation, Various Streets (CDBG Zone) | *Senior Project Manager*
The City completes pavement rehabilitation projects along residential, commercial, and alley corridors. The general improvements for pavement rehabilitation projects include cold mill and AC overlay, removing and replacing concrete sidewalks, curb and gutters, upgrading and constructing new access ramps, adjusting manholes to grades, and installing striping and pavement messages. The project consisted of design, project management, bidding, award of contract, construction management and inspection as well as federal fund administration and labor compliance of various streets pavement repairing and skin patching.

City of Bell Gardens, Alley Improvements Project | *Senior Project Manager*
This project consisted of citywide alley improvement projects. The general improvements for pavement rehabilitation projects include cold mill and AC overlay, removing and replacing concrete sidewalks, curb and gutters, upgrading and constructing new access ramps, adjusting manholes to grades, and installing striping and pavement messages. This project consisted of project management, construction management, inspection, and administration during the construction phase.

City of Baldwin Park, Storm Drain Improvement Project | *Senior Project Manager*
The Baldwin Park drainage project included installation of storm and water mains along Atlantic Avenue, 40th Street and Live Oak Street, as well as the repair, replacement and restoration of curbs, concrete sidewalks, driveways and wheelchair ramps. The scope of the work included reviewing the design produced by another consultant and preparing complete bid package (plans, specifications and cost estimate) for the City to advertise the last section of the project for construction bidding.

City of Baldwin Park, Various Projects | *Senior Engineer/Project Manager*
Provided administration of NPDES requirements, including the permit process, conducted inspections and issued notices of violation for illicit discharges. Responsible for the MS4 permit program and implementation of its compliance through outsourcing. Managed capital projects such as street overlay, slurry seal, sidewalk installation, sewer main construction etc.; involved in Land Development section, processed tentative maps, final maps and lot line adjustments.

City of Fontana, Various Projects | *Senior Engineer/Project Manager*
Managed over $100M in redevelopment CIP projects and engaged in at CIP projects per fiscal year, including preparation of specifications, bid openings, award of contracts, and finally construction including management and inspection. Involved in relinquishment of Foothill Boulevard from Caltrans and San Bernardino County, street widening project ($15M), Baseline Avenue widening ($19M), CDBG and Safe Route to School (SB281) sidewalk programs, construction of new streets, slurry seal program, and projects funded through various grants including OTS, SR2S, STP, and other federal funds.

Amy Czaikowski. PE. CCM. QSD/P

Senior Principal Project Manager
Constructability Reviewer

ARDURRA

Education:
BS/1982/Civil Engineering/Virginia Polytechnic Institute and State University, VA

Registrations:
1999/PE/CivilEngineering/ CA # C59082

Certifications:
CMCI Certified Construction Manager (A1762)
Qualified SWPPP Developer (QSD) Certification #24758
Legally Responsible Party (LRP) - City of Oceanside

Awards and Recognition
West Lift Station Force Main CWEA
Twin Oaks Reservoir – ASCE/APWA/CELSOC
Lake San Marcos Lift Station APWA/CWEA
Loretta Street Waterline Replacement –APWA/ASCE

Years of Experience
Entered the profession in 1993; Ardurra year of hire 2020

In her 30 years of serving municipalities, water districts, and purveyors, Amy Czajkowski has gained recognition for system planning, design engineering, and construction management of public water and wastewater infrastructure projects. She is an instructor for the CMAA Certified Construction Manager "Contract Administration" class. This teaching requires expertise in contract administration, change order management and, most importantly, the roles and responsibilities of complex construction. Amy has also contributed to the ASCE class for "Construction Claims Avoidance" and keeps up to date on the latest legal judgements from participating in the monthly podcasts offered by "Construction Claims Monthly."

RELEVANT PROJECT EXPERIENCE

As-Needed Project Management, City of Oceanside Water Utilities Department ($1.1 million). Program manager provided in-house project management services to assist with the execution of several capital improvement projects. Assisted with the management of all phases of water, sewer, and recycled water projects, from the budgetary and planning phases, into design, and through construction and project closeout. Management duties have included the development of project budgets and schedules; preparation of RFPs; proposal reviews and recommendations for consultant selection; close coordination with stakeholders and vendors; contract administration duties; preparation of reports for City committees, commission, and City Council meetings; oversight of CEQA and other regulatory compliance process; preparation of bid documents and technical specifications; bidding assistance, bid evaluations, and award recommendations; CM and reviews of RFIs, submittals, Proposed Change Order Requests, Progress Payments; and management of emergency projects.

On-Call Project Management Support Services, Coachella Valley Water District. Program manager that expedited the completion of CIP projects located throughout CVWD's service area for domestic water, general district, sanitation, non-potable water, irrigation and drainage, stormwater, and groundwater replenishment infrastructure, in an effort to achieve a minimum 70% execution rate for the FY 2018 capital improvement budget, identified as one of CVWD's strategic goals. Assisted with the management of all phases of water, sewer, and recycled water projects, from the budgetary and planning phases, into design, and through construction and project closeout. Management duties have included the development of project budgets and schedules; preparation of RFPs; proposal reviews and recommendations for consultant selection; close coordination with stakeholders and vendors; contract administration duties; preparation of reports for City committees, commission, and City Council meetings; oversight of CEQA and other regulatory compliance process; preparation of bid documents and technical specifications; bidding assistance, bid evaluations, and award recommendations; CM and reviews of RFIs, submittals, Proposed Change Order Requests, Progress Payments; and management of emergency projects.

As-Needed Program Management, City of Oceanside Water Utilities Department ($25 million). CIP manager for this program for the City of Oceanside Water Utilities Department. This contract included the preparation of over 15 in-house designs, RFP preparation, managing consultant contracts, preparation of staff reports and other Council documents, as well as all other functions to complete all projects listed on the City's Capital Improvement Program.

Near Term Water Supply CIP, Elsinore Valley Municipal Water District ($25 million). CIP construction manager/program manager for over 40 CIP projects ranging in construction value from $300K to $10M. The CIP execution rate was over 90% and all projects were completed on time and with an overall 2% change order rate. The projects, totaling over $25M, encompass a wide range of work. Services included coordinating and supervising all inspections for in-house inspection staff and outside consultants; processing all RFIs, progress payments, and conducting all progress meetings; managing three emergency construction projects including the repair of a sewer force main in Highway 74; public outreach; overseeing the District's Labor Compliance Program; acting as the SMARTS system Legally Responsible Party and performing all QSP inspections; performing all claims management; coordinating with jurisdictions to complete permits; and coordinating with SCE to secure new electrical service.

Brittany Duhn, PE, QSD/P

Z&K CONSULTANTS
BUILDING SOLUTIONS

Senior Project Manager

EDUCATION
» BSCE - Civil Engineering, California State Polytechnic University, Pomona

LICENSES & REGISTRATION
» Professional Engineer, P.E. State of California, #91078
» SWPPP (QSD) & (QSP) Certificate #27609
» 30-Hr. Cal OSHA

Ms. Duhn has extensive experience in project management, program management, construction management, office engineering, contract administration, document control, and labor compliance oversight. She has successfully managed streets, CIPs, Public Works Projects, Water/Wastewater Projects, bridges, bike trails, drainage improvements, parks, buildings, open space amenities, landscaping, traffic signals, playground equipment, shade structures, and sports fields projects. She has managed over $500M in Projects during the design and construction phases.

Her experience includes an extensive background in construction management and inspection, construction contracting, project management, quality control and assurance, and project coordination. She has excellent skills in understanding construction contracts, review and control project cost and schedule, coordinate and assist in negotiating change orders, provide project updates to the client, ensure timely review of critical path method (CPM) schedule to track any changes in critical path and delays, maintain project as-builts, managing multiple subconsultants and supervise inspection staff. She has provided Project Management services for all stages of projects, from design to construction. Brittany manages and oversees the discretionary review process of CEQA guidelines and requirements, manages budgets and schedules, assists with the development of budgets, prepares RFPs, prepares sewer rate fees, provides public assistance and information affecting the community, prepares reports for City Council, prepares staff reports, and makes oral presentations.

RELEVANT PROJECT EXPERIENCE

City of Chino, On-Call Project & Construction Management | *Senior Project Manager*
Ms. Duhn is the designated Project Manager for this contract and is the Senior Project/Program Manager for the City of Chino's CIP Program. She has provided project management services on various transportation, enterprise (water, sewer, storm drain, and sanitation projects), parks/facilities projects, and bridge projects, including:

- SD223 - Chino Avenue Storm Drain Improvement Plan System
- SD222 - Philadelphia Street and Monte Vista Avenue Storm Drain Extension Project
- WA212 - State Street Water Treatment Plant
- WA214 – Well 17 Equipping Project
- WA224 - B Street Alley Water Main Line Replacement Project
- WA223 - Russell Ave Waterline Replacement Project
- WA17B - Chino Quad 1.2
- SW211 – Yorba Avenue & Eucalyptus Avenue Sewer Main Line Replacement Project
- WA221 & WA222 - Central Avenue and Dupont Avenue Waterline Project
- WA211 - Well 11 Pipeline ProjectG6220 - CDBG Alley Project, East-West North Chino Avenue
- SN231 - Alley Rehabilitation Project - Pioneer St from Monte Vista Ave to 5th St.
- SN221 - FY21/22 Alley Reconstruction Project
- ST222 - Kimball/El Prado/Central Traffic Improvement Project
- City of Chino – 16th, 17th, and 18th Street between Tronkeel Avenue and Serene Avenue & Tangerine Avenue Street Widening
- FY 20/21 Alley/Sanitation Rehab Project, Phase II
- Philadelphia Street and Monte Vista Avenue Storm Drain Extension Project
- 11th Street Pavement Reconstruction Alley Accessibility and Intersection Accessibility Project
- CDBG Alley Project and Alley/Sanitation Rehab FY2021-22 Various Locations Project
- Ramona Avenue & Walnut Avenue Street Rehabilitation and Traffic Signal Modifications Project
- SD211 – 11th Street/B Street Project
- ST232 – Kimball Ave Street Improvement
- MS202 – ADA Grievance 21-004 Curb Ramps at Olive Place & Walnut Ave
- SN211 – Alley Sanitation Rehab 20-21 Phase 1, II, and III

Additional Projects for various agencies | *Senior Project Manager*

- City of Beaumont | Wastewater Treatment Plant Expansion/Renovation and Brine Pipeline Installation Project
- City of Compton | Annual Residential Rehabilitation Project (Phases. 1 & 2)
- City of Lake Forest | Street Resurfacing & Slurry Seal Projects (Streets Program); Arbor Mini Parks & Neighborhood Park Renovations Project; Arbor Access Mini Ramp Project; and Slurry Sela Zones A, D, E, B, & C
- City of Costa Mesa | Jack Hammett Sports Complex Improvement Project & Citywide Parkway Maintenance & Street Rehabilitation Project
- City of Beaumont | Wastewater Treatment Plant Expansion & Brine Pipeline Project ($110M Project)
- City of South Gate | Hollydale Community Park Improvements Project; East Alameda Steet Sidewalk Improvement Project; and South Gate Park Fencing Improvement Project

Lisa Naslund, PE, QSD/P

Z&K CONSULTANTS
BUILDING SOLUTIONS

Senior Project Manager
SWPPP/Environmental Specialist

EDUCATION
» BSCE – California State University – Long Beach

LICENSES & REGISTRATION
» Professional Engineer, P.E. State of California, #67989
» SWPPP (QSD) & (QSP) Certificate #23613
» 30-Hr. Cal OSHA

Ms. Naslund has over 28 years of project management experience for various major capital improvement projects. Projects Ms. Naslund have successfully delivered are bridges, interchanges, transportation, street improvements, roadway widenings, bridges, water and wastewater projects, involving flood risk management, water conservation facilities, water mains, pressure regulating and pumping stations, wells, valves, fittings, and other appurtenances, reservoirs, channels, and storm drains, as well as access roads, and culverts. Ms. Naslund has extensive experience performing design reviews, constructability reviews, scheduling, managing consultants, interfacing with permitting agencies, reviewing billings and contracts for scope of work, preparing staff reports, preparing RFPs, preparing and administering bids, creating LID reports, performing hydrology calculations, preparing SWPPP, plan check, and designing and preparing tract and parcel maps. Ms. Naslund has extensive experience delivering projects within schedule and budget and collaboratively assisting agencies as an extension of staff.

Relevant Project Experience

City of Chino, Pine Avenue at Chino Creek | *Senior Project Manager*
Remove washed-out roadway material, debris, and CMP pipe from Chino Creek and reconstruct corrugated metal pipes and roadway. Restripe traffic delineation and place metal beam guardrail. Responsibilities include perform design reviews, constructability reviews, manage project schedules, ensure project technical consultants provide deliverables on time, follow up with agencies for permitting and requirements, review billing and contracts for scope of work and level of effort. Assist in staff report and RFIs to obtain bids and City approvals for projects and amendments.

City of Chino, SR-71 Pine Avenue Interchange | *Senior Project Manager & SWPPP Compliance*
Widen the SR-71 northbound and southbound off-ramps to increase the ramp capacities, construct a retaining wall with concrete barrier at northbound off-ramp, install a traffic signal at the intersection of SR-71 northbound off-ramp and Pine Avenue, and restripe the Pine Avenue bridge to provide two through lanes in each direction. Responsibilities include perform design reviews, constructability reviews, manage project schedules, ensure project technical consultants provide deliverables on time, follow up with agencies for permitting and requirements, review billing and contracts for scope of work and level of effort. Assist in staff report and RFIs to obtain bids and City approvals for projects and amendments.

City of Chino, Pine Avenue Widening from Euclid Avenue to Johnson Avenue | *Senior Project Manager*
Widen road from 2 lanes to 6 lanes and raise above El Prado Basin flood elevation. perform design reviews, constructability reviews, manage project schedules, ensure project technical consultants provide deliverables on time, follow up with agencies for permitting and requirements, review billing and contracts for scope of work and level of effort. Assist in staff report and RFIs to obtain bids and City approvals for projects and amendments.

City of Chino, Pine Avenue Widening Euclid Intersection | *Senior Project Manager/SWPPP Compliance*
Widen the Euclid Avenue/Pine Avenue Intersection to add dedicated through lanes, turn lanes, and a bike lane to increase existing traffic flow efficiency at the intersection. Responsibilities include perform design reviews, constructability reviews, manage project schedules, ensure project technical consultants provide deliverables on time, follow up with agencies for permitting and requirements, review billing and contracts for scope of work and level of effort. Assist in staff report and RFIs to obtain bids and City approvals for projects and amendments.

City of Chino, State Street Treatment Plant | *Senior Project Manager*
The proposed project consists of development of a State Street Water Treatment Facility (State Street WTF), which will be a new centralized treatment project that will treat water from Wells 12 and 14 for nitrate, perchlorate, and 1,2,3-TCP. The project also includes installation of offsite water transmission and brine pipelines, improvements to the existing wells, and site improvements. The water treatment facility will have a capacity to treat up to 4,000 gallons per minute (gpm) and the anticipated extraction rate from each well is 2,000 gpm. Responsibilities include perform design reviews, ensure project technical consultants provide deliverables on time, follow up with agencies for permitting and requirements, review billing and contracts for scope of work and level of effort. Assist in staff report and RFIs to obtain bids and City approvals for projects and amendments.

Pernilla Brandt, BSCE

Z&K CONSULTANTS
BUILDING SOLUTIONS

Senior Project Manager

EDUCATION
» BSCE – California State University – Long Beach

LICENSES & REGISTRATION
» 30-Hr. Cal OSHA

Ms. Brandt is a seasoned engineer with over 20 years of experience in engineering design and management specializing in municipal, commercial and residential projects. Extensive experience in all aspects of engineering project leadership including strategic planning, engineering and architectural specifications and drawings, scheduling, resource allocations, reporting, and cross-functional team collaboration. Continually exceeds expectations by building valuable relationships and works well with people at all levels of an organization including management, team members, contractors, and clients.

Relevant Project Experience

City of Chino, Pine Avenue Widening-Street Improvement | *Senior Project Manager*
Pine Avenue, between Euclid and Hellman Avenues (Pine Avenue), is a master-planned facility included in the City's Development Impact Nexus and Calculation Report, which will be a six-lane arterial roadway with a raised landscaped median. Pine Avenue is being constructed in phases. The segment of Pine Avenue from Euclid Avenue to Johnson Avenue is proposed to be constructed under the City's Pine Avenue Widening Project – ST203. Completing the ultimate configuration of Pine Avenue for this segment includes the following; demolition of existing roadway, additional rights-of-way acquisition on both the north and south sides of Pine Avenue to widen road and raise above flood elevation, relocation of existing utilities, changes in vertical profile, modification of intersections, new pavement and striping, provisions for new sewer, domestic water, recycled water, drainage, storm drain improvements including culvert crossing and rip rap across Pine Avenue and relocation of overhead utilities.

City of Chino, Euclid & Pine Intersection Street Improvement | *Senior Project Manager*
This major capital improvement project for the Pine Avenue and Euclid Avenue Intersection Improvements proposes to widen Pine Avenue and Euclid Avenue from 2 lanes to 6 lanes at this intersection. Overhead SCE lines and other utilities will be relocated as needed to accommodate new improvements. Provide drainage facilities. Adjust, remove, or relocate as needed water and gas utilities. Install street lighting, signage, and traffic controls. Traffic control and construction phasing will be provided to maintain a minimum of 1 lane in both directions at all times.

City of Chino, Wells 4 & 6 Water Treatment Facility | *Senior Project Manager*
This Capital Improvement Project for the City of Chino includes the City-owned groundwater Well 4 (700 gpm), located at 13504 Central Avenue, Chino, CA 91710 and Well 6 (660 gpm) is located at Villa Park (13515 3rd Street, Chino, CA 91710) and have been inactive for some time due to regulation updates to increase higher drinking water standards of SWRWQCB. The City's goal as stated in the City of Chino Water Master Plan Update dated January 2020, is to reduce reliance on imported water and expand access to local groundwater supplies. In addition, the City's Strategic Plan core organizational values strives to establish the allocation and investment of our City resources in a manner that is effective, efficient, and transparent. These two wells have been identified as priority CIP Projects in the City of Chino Water Master Plan updated in January 2020. To that end, the City is embarking on a new centralized groundwater treatment plant to bring Wells 4 and 6 back into service reducing the currently purchased water supply approximately up to a quarter. The proposed treatment plant will be located at a City-owned property and treat 1,700 gallons per minute (gpm) contributing to approximately 34% of the average day demand within the located pressure zone which supplies 52% of the overall service area. The project includes a new 2 million gallon per day (MGD) groundwater treatment facility to address water supply needs from Wells 4 and 6 and pipe connection of Wells 4 and 6. Currently, the wells are inactive due to water quality contamination. Chino Basin historically has been a center of agricultural and manufacturing activities that have contributed significantly to the contamination of the basin.

City of Chino, Benson Reservoir and Site Improvements | *Senior Project Manager*
This Capital Improvement Project for the City of Chino include the replacement of Reservoir 3 and general site improvements. Major improvements on this project include: Demolish and removal of existing welded steel 1.5 MG capacity reservoir. Design new reservoir in accordance with Title 22, CCR, Section 64585 and regulations pursuant to AWWA Standard D100 at the northwest (NW) corner of the site at the maximum storage capacity which meets seismic requirements with accounting for sloshing. Review capacity of booster station to make sure it is adequate. Prepare recommendation for the reservoir material type and corrosion prevention Install necessary SCADA and telemetry equipment on new reservoir (communication antennas and transducers) and ensure all equipment is operational prior to demolition of existing reservoir. General site improvements: Grading, security and communication equipment (electrical including low voltage), perimeter block wall, identify need for adding storm drain connections and removal of existing pond/retention basin, gate replacement, Mural conceptual design-exterior of new reservoir.

City of Chino, Well 20 Bon View Schafer | *Senior Project Manager*
This Groundwater Well Feasibility Study for Well 20 is included in the City of Chino's Capital Improvement Program Budget for fiscal year 2023-24, as project No. *WA233-Well 20 Bon View/Schaefer Project*. The site for the proposed well is located at 13715 Bon View, the northeast corner of Bon View and Schaefer avenues in the City of Ontario.If feasible, Well 20 will supply groundwater (estimated 1,600 gpm) to the City's existing Eastside Water Treatment Facility (EWTF) in the future. Major improvements on this project include: Research and study of site conditions. Collect and review existing hydrogeological data, environmental data, geotechnical data, historical data, and groundwater reports. Utility and permitting research for proposed well site. Geotechnical and ground water testing.

» Sexual Harassment Prevention Training

Mr. Flores is currently running the City of Chino Pavement Management Program and has been managing this program for over 2 years. He is also managing the slurry seal program for the City of Lake Forest. Mr. Flores has experience in project management, construction management, contracting, field investigation, project management, and quality control for numerous capital improvement projects and federally funded projects, involving street improvement, bridge construction, storm drains, traffic signals, traffic signs, streetlights, pavement markings, construction projects, and maintenance projects. Mr. Flores has a thorough understanding of Cal-OSHA practices and procedures, ADA and Caltrans ADA requirements, as well as extensive knowledge of Caltrans construction practices, physical characteristics and properties of highway construction materials, and approved methods and equipment used in making physical tests of construction materials. Additionally, Mr. Flores is familiar with Caltrans field and construction office procedures, with experience assisting in inspection to assure compliance with plans and specifications, assisting in preparation of contract change orders, contract estimates, and progress payments, coordinating field testing of materials for compliance with project specifications and the Caltrans Quality Assurance Program, maintaining accurate project records, performing analytical calculations, and monitoring Contractor progress by preparing progress reports as required.

RELEVANT PROJECT EXPERIENCE

City of Alhambra, Street Rehabilitation Projects | *Senior Project Manager/Senior Construction Manager*
These street improvement programs for FY 19-20 & 20-21 consist of the pavement and street rehabilitation of 23 local street segments. Improvements included slurry seal treatment, varying depths of cold million and overlay, full depth removal and reconstruction, concrete improvements to ADA curb ramps, curb and gutters, and driveway approaches, intersection improvements, traffic signal hardware installation, fiber optic utility coordination, traffic signal loops, driveway aprons in need of repairs, and concrete cross gutter reconstruction.

City of Norwalk, CDBG Local Streets Rehabilitation Project | *Senior Project Manager*
This project is part of a local street rehabilitation program within Zone 28 of the City of Norwalk and is Community Block Development Grand funded. The project's scope includes repairs and reconstruction of concrete appurtenances, including cross gutters, curb and gutters, upgrades of ADA ramps to be compliant with ADA standards.

City of Chino, On-Call Project & Construction Management | *Senior Project Manager/Senior Construction Manager*

- SD211 – 11th Street/B Street Project
- ST232 – Kimball Ave Street Improvement
- MS202 – ADA Grievance 21-004 Curb Ramps at Olive Place & Walnut Ave

BS/1993/Civil Engineering/
California State University, Chico
Registrations:
1997/PE/Civil Engineering/
CA #57710

Certifications:
Envision Sustainability Professional/Institute for Sustainable Infrastructure
Qualified SWPPP Developer/
California Stormwater Quality Association

Years of Experience:
Entered the profession in 1994; Ardurra year of hire 2019

Anissa Voyiatzes has 29 years of experience in civil engineering planning, design, program and project management for transportation and public works facilities. These projects have included bikeway, roadway widening, rehabilitation, ADA compliance evaluation and improvements, complete streets and streetscape projects, utility engineering, site grading, traffic engineering, flood control facilities, drainage systems, sewer and water systems, parking lots and retaining walls. Anissa specializes in public works engineering projects that incorporate sustainable design practices.

RELEVANT PROJECT EXPERIENCE

Market Street Pedestrian and Streetscape Enhancements Project, (LA River to Cherry Avenue), City of Long Beach, CA. Quality control manager and group leader for the design of the roadway and for a pedestrian and streetscape enhancement project, an approximate 1.9-mile stretch of corridor. The project consists of complete street improvements including Class II/IV bike lanes and other new bike/pedestrian facilities, bulbouts, wayfinding signage, sidewalk widening, crosswalk and transit stop enhancements, construction/reconstruction of curb ramps for ADA compliance, repairing sidewalks, curbs, and gutters, reconstructing/ resurfacing roadway pavement, pedestrian lighting, traffic signal installation/upgrades, flashing beacons, landscaping and street trees, removing/relocating obstructions and utilities, and miscellaneous sustainable design features for improved mobility and safety.

Long Beach Pedestrian Accessibility Improvements Design, Long Beach, CA. Senior project manager responsible for evaluation and design of curb ramps to support the Citywide Curb Ramp program. Anissa previously managed the development of the City's Self Evaluation/Transition plans and is continuing that work with the citywide implementation for the placement and upgrade of all curb ramps at approximate 22,000 locations. The project includes ramp evaluation for ADA compliance, schematic and final design, and cost estimating.

2019 Cycle 1 Residential Street Improvements City of Manhattan Beach, CA. Senior project manager responsible overseeing the design and management for five miles of street improvements at various locations around the city. Design work included pavement rehabilitation, curb and gutter construction, sidewalk construction, and driveway construction. The project also included reconstruction of 61 curb ramps.

Plaza Del Amo at Western Mobility Enhancement, T-177, City of Torrance, CA. Senior project manager for the preparation of construction documents for the roadway widening of Plaza Del Amo from 223rd Street to Western Avenue to improve circulation and safety. Improvements include widening of the roadway on the north side, addressing roadway and stormwater deficiencies, restriping, curb and sidewalk and ADA-compliant ramp upgrades. Processed Caltrans Encroachment Permit for modifications and improvements at Western.

I-210 Soundwalls, Supplemental Environmental Report (NBSSR) and Plans, Specifications and Estimates (PS&E) Phase II, III and IV, City of La Cañada Flintridge, CA. Senior project manager for the design of eight soundwalls for the three separate projects, totaling $27 million, along the I-210 freeway. The projects have included soundwall design located along the hillside slopes and edge of travel ways, including bridge crossings. As part of this design, the project involved significant coordination with the City of La Cañada Flintridge and Caltrans.

ADA Ramp Program, City of Long Beach, CA. Senior program manager for the overall management and design of curb ramps for the City's ramp program. To date her team has designed approximately 185 ramps throughout the city.

Staff Augmentation for Design Support and Construction Engineering Services (TOS No 111), City of Los Angeles, CA. Senior project manager and program manager for the overall management of the Staff Augmentation Program. Provided design support in the form of both onsite and offsite design staff for approximately 10 ATP grant-funded projects.

OMAR ALAMEDDINE. EIT

Senior Project Manager

ARDURRA

Education:
BS/2009/CivilEngineering/
California State Polytechnic University, Pomona
Registration:
EIT/CA #151070
Years of Experience:
Entered the profession in 2006; Ardurra year of hire 2016

Omar Alameddine brings an extensive background in construction management and inspection on public works and Caltrans projects. Omar has delivered projects to renew city streets and freeways, applying his firm grasp of Caltrans and Greenbook standards. He has also managed and inspected construction of recreational facilities such as soccer fields, public parks and a dog park, public facilities, domestic water, sewer, and drainage improvements. Clients appreciate Omar's penchant for precision and thorough documentation.

RELEVANT EXPERIENCE

Orangewood Avenue Improvements (from State College Boulevard to the Santa Ana River), City of Anaheim, CA. Contract administrator/construction manager for this $17 million multifaceted road widening project on Orangewood Avenue that spans a largely commercial area within proximity to several freeways along the south entrance to Angel Stadium of Anaheim. Improvements include road widening and paving, sidewalks, slough walls, curbs and gutters, retaining/block/sound walls, driveways, cross gutters and spandrels, drainage improvements, catch basins, WQMP BMP improvements, Disney Resort-Style hardscape and landscaping, irrigation improvements, and signing and striping, as well as electrical undergrounding with telecommunication lines relocation, installation of new City of Anaheim and City of Orange water mainline, traffic signal improvements, and a new variable message board.

Capital Improvement Projects, City of Anaheim, CA. Contract administrator/construction manager augmenting the City's Public Works staff to expedite the completion of more than $57 million in projects that have included Fire Station No. 5 *(2018 BEST Award, APWA Southern California chapter),* Indiana Street Water Main Replacement, Santa Ana Street Railroad Water Main Crossing with Metrolink/SCRRA, Citywide Sanitary Sewer Improvement Program/Projects – Group 6, and Underground Conversion Plan Projects.

Antonio Parkway/Santa Margarita Parkway Rehabilitation, City of Rancho Santa Margarita, CA. Construction manager for the $834,000 federally funded rehabilitation of two busy arterials. The project resurfaced a portion of Antonio Parkway and made improvements to Santa Margarita Parkway's eastbound lanes. Ensured compliance with federal, DBE and labor compliance requirements.

Polliwog Park Lower Playground Replacement Project, Manhattan Beach, CA. Construction manager for this $3.7-million project that includes removal and replacement of out-of-service play equipment, play surface, fencing, as well as renovation of parking lots and walkways. The new playground will include a pirate and beach themed design using a community consensus process, complete with new play surfaces and shade structures.

Parking Structure Lot 4 Repairs Project, City of Manhattan Beach, CA. Inspection services manager to provide inspection services and special inspections for the repairs to the functional life of Parking Structure Lot 4 (Project No. D-936) to confirm contractor compliance with the construction documents. These items include concrete repairs, sealants, and waterproofing coating of the upper deck, striping new pavement, and accessibility related improvements to the parking stalls and path of travel.

Firestone Blvd Regional Corridor Capacity Enhancements, City of South Gate, CA. *APWA Award Winner.* Assistant construction manager/lead inspector for a $20-million project to improve three segments of Firestone Blvd to increase traffic capacity and improve the road's appearance. Ensured project compliance with plans and specs. Provided fast-track design efforts for newly proposed bus pullouts, median construction, and drainage facilities. Observed utility potholing, traffic control and stormwater practices. Maintained personnel and equipment logs. Negotiated and reviewed potential change orders, orchestrated utility coordination, and collaborated with City staff. Provided public relations and progress reports. Participated and led progress meetings. Pre-construction duties included documenting existing conditions, such as tree wells to be removed.

Subject: Request for Qualifications for On-Call Project Management Services

Dear Purchasing Department ,

Z&K Consultants Inc. (Z&K) proudly presents our fee proposal for On-Call Engineering Services, Project Management, Construction Management, and Inspection Services. Rates included in our fee proposal contains fully billable rates. All overhead costs are included. All insurance will be in force at the time of contract execution. Z&K has carefully selected this **"A-Team"** and committed our most qualified staff for the duration of the contract to deliver successful projects. We understand the importance of meeting budgets and schedules; we have a strategic plan in place to deliver projects.

Z&K has successfully held **over 50 On-Call** (Engineering Services, Project Management, Construction Management, Inspection) contracts in the last 5 years.

Z&K Consultants, Inc Hourly Rates (Project Management, Construction Management & Inspection Services):

Senior Project Manager	$160
Project Manager	$152
Senior Construction Manager	$166
Construction Manager	$158
Senior Construction Inspector	$148
Construction Inspector	$142
Deputy/Special Inspector	$148
Office Engineer/Document Control	$138
Labor Compliance Officer	$135
Scheduler/Estimator	$145
Surveyor	$159
Drone Pilot	$135
SWPPP/Environmental Specialist	$158
Landscape Architect	$162
Senior Highway & Bridge Designer/Structural Engineer	$165
Public Relations/Community Outreach	$135

Z&K Consultants commits that all assigned personnel will not be removed or replaced without prior City approval. Key personnel will be available to the extent proposed for the duration of the contract. Our proposed and fully committed team is fully capable and exceptionally qualified.

I will serve as the contact person for the full duration on the contract and I am authorized to bind the firm to the terms of the proposal. By signing below, I attest that all information submitted is true and accurate. This proposal shall remain valid for a period of not less than 90 days from the date of submittal. The payment terms shall be net thirty (30) days. **We are excited about this opportunity to serve the City and are committed to the successful completion the City's important projects.**

Sincerely,

Zack Faqih, PE

CITY OF ONTARIO
PROFESSIONAL SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____ ___, **2024**, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Ardurra Group, Inc.**, a **CORPORATION**, with its principal place of business at **3737 Birch St, Suite 250, Newport Beach CA 92660** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **construction management and inspection services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the **On-Call Project Management Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **construction management and inspection** consulting services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All

Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **June 4, 2024** to **June 4, 2027,** unless earlier terminated as provided herein The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **two** additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Thousand Dollars ($600,000)** without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of

Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: **Scott Adamson, PE, QSD/P, Omar Alameddine, EIT, Amy Czajkowski, PE, CCM, QSD/P, and Chuck Reuck.**

3.3.5 City's Representative. The City hereby designates **Dennis Mejia (Utilities Engineering Division Manager)** or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates **Scott Adamson, PE, QSD/P, Contract Manager**, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation.

Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq.*); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's

failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $2,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on

a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. "Covered Professional Services" as designated in the policy must specifically include work performed under this Agreement. The policy must "pay on behalf of" the insured and include a provision establishing the insurer's duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations

otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or

"maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903

(2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: **Ardurra Group, Inc.**
3737 Birch St, Suite 250
Newport Beach, CA 92660
ATTN: **Scott Adamson**

City: City of Ontario
303 East "B" Street
Ontario, CA 91764
ATTN: **Dennis Mejia, P.E., Utilities Engineering Division Manager, OMUC**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required

by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has

become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

SCOPE OF SERVICES

EXHIBIT "A"

RFQ PROPOSED SCOPE OF SERVICES

The City of Ontario is seeking Statement of Qualifications from qualified consulting project management to provide On-Call Services for three (3) years, with an option of renewing for two (2) consecutive one (1) year terms. The City desires to obtain the services of a maximum of four (4) qualified firms to assist with On-Call Project Management Services. At least ten (10) years of experience providing similar services is required to oversee the work, stamp, and sign all project related documents as required.

Request for Qualifications (RFQ) for various services in various project disciplines (e.g. Architecture, Capital Improvement, Facilities Maintenance, Public Works, Water and Wastewater Distribution, Water Facilities, Extended Staff Services, etc.) with the intention of maintaining a list of multiple qualified prime consulting firms, with subconsultant support services as needed. Task orders will be issued to firms on a competitive basis based on the qualifications and expertise of the firm and their subconsultants. There is no designated minimum nor maximum value of services to be awarded to any one consultant.

Each Prospective Consultant needs to be able to provide all the services (or provide sub-consultants that must also be listed as part of their statement of qualifications) listed in this RFQ.

The following scope of services provides general categories of services that may be required for each task order requested. The categories are not an exhaustive list of services but rather a sampling of the services that are typically included, but not limited to, within that area of the scope in order to demonstrate the qualifications needed for that scope of services.

Specific services requested under these agreements shall be identified by the City at the time of the request for a specific task order. For each task order requested by the City, the Consultant shall provide a task order proposal that identifies the specific scope of services to be performed, the necessary project management activities, task budget, and task schedule. Upon City's approval of the proposed task's scope of services, the City will issue a notice to proceed with purchase order requisition for the work. The Consultant is encouraged to provide recommendations with respect to scope and order of completion.

No task order or scope of services shall be performed without first receiving authorization from the City and notice to proceed with the task order.

GENERAL REQUIREMENTS.

Consultant will be expected to work closely with staff for the duration of the assigned projects (i.e. task orders), and attend all meetings and workshops, as necessary. Any adjustments can be verified based on the need of City Project Managers. All field services must include appropriate traffic control.

Some or all of the following General Requirements and Services may be incorporated into specific tasks orders generated from the On-Call contract. The applicable General Requirements shall be based on needs of specific tasks and the City Project Managers:

Refer to Professional Services Agreement in Exhibit "B" to review the General Requirements and other conditions.

ON-CALL PROJECT MANAGEMENT SERVICES

The City of Ontario is seeking Statement of Qualifications from firms for On-Call Project Management Services:

Consultant shall be aware that certain labor categories above may be subject to prevailing wage rates as identified in the California Labor Code commencing Section 1770 et Seq. Determination of whether or not Prevailing Wages shall apply will be determined when the City's Project Manager identifies the scope of specific task orders. Please refer to Paragraph XI.11 "Prevailing Wage and Contractor Registration" of this RFQ, and Paragraph 3.10.6 "Prevailing Wages" of the Professional Services Agreement for further requirements.

Expected services to be provided under this on-call contract are as followed:

ACHITECTURAL PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

ARCHITECTURAL BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

DESIGN and CONSTRUCTION DOCUMENTS

- Attend meetings and prepare Meeting Minutes.
- Attend job-walks with architect and engineers
- Review plans at various stages and provide comments
- Provide support as required
- Review the 60 and 90% Plans and Specifications to identify potential errors, omissions, National Electric Code and coordination issues.
    - Detailed review of the Electrical drawings, Latter Logic, Relay logic, Control Logic, verification of the Instrumentation and Mechanical Drawings, and confirm that all electrical equipment are properly shown at their corresponding placements with their required signals, tagging, SCADA network connectivity, Verify all needed points and PLC Address on a list etc.
- Ensure all submittal comments have been addressed in the 100% package.

CONTRACTOR PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

CONTRACTOR BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Attend Mandatory Pre-Bid Conference, Bid Scrub, and job-walks
- Assist with RFI responses, keep logs as required
- Prepare Spreadsheet evaluating responses
- Provide support as required

PRE-CONSTRUCTION

- Develop and update the over-all Project Schedule
- Develop and update the overall Project Budget
- Work with City staff and vendors to prepare the construction site for closure and construction
- Provide support as needed relating to Contractor Mobilization, administrative tasks, Facility Rules and Regulations for Contractors, etc.
- Attend job-walks as required to familiarize contractor with the facility and job-site
- Attend staff presentations to familiarize the affected staff as to expectations
- Attend planning meetings
- Meet with vendors as needed and as directed to obtain quotes, coordination, etc. Provide support as needed

CONSTRUCTION

- Monitor quality of construction via regular job-site inspections.
- Prepare, monitor, report periodically, and revise, as needed the Project Schedule.
- Prepare, monitor, report periodically, and revise, as needed the Project Budget.
- Attend weekly construction meetings, and provide meeting minutes, distributed to all parties
- Photograph site weekly and archive photos
- Monitor all standard construction documentation, including submittals, RFI's, etc.
- Review all contractor change orders for scope and cost approval.
- Review and monitor payment of all contractor and vendor invoices.
- Attend punchwalk on behalf of Client
- Monitor punch-list progress and completion to 100%
- Assist during punchlist period for complaints, modifications, etc.
- Provide support as needed
- On-site inspection services to ensure all electrical scope of work complies with the conformed set of plans and specifications.
    - Inspection team to be knowledgeable of all electrical, instrumentation, control logical, Discrete Input/Outputs, Analog (4-20ma) Inputs/Outputs and all SCADA/RTU systems at the project site.

FIXTURIZATION

- Assist Client with de-install and removal of existing furniture, and installation of new furniture and fixtures by Client's furniture vendor
- Obtain competitive bidding for any items or services, as directed by Client
- Prepare punchlists for furniture and fixtures
- Provide support as needed
- Attend jobwalks and/or meet vendors on site as needed

POST-CONSTRUCTION

- Attend meetings and provide Meeting Minutes
- Review requests for additional scope or services; obtain pricing, and implement, if so directed
- Provide support as required

ACCOUNTING AND PROJECT CLOSE-OUT

- Obtain close-out package from General Contractor including but not limited to as-built drawings, air-balance reports, warranty, maintenance and operations manuals, etc.
- Assist with coordination of final payment to General Contractor
- Assist with completion of Lien Release process
- Provide summary documentation, spreadsheets, analysis, etc, as directed
- Archive all electronic and paper files; provide copies of key documents and photos to Client

RE: STATEMENT OF QUALIFICATIONS TO PROVIDE ON-CALL PROJECT MANAGEMENT SERVICES (RFQ NO. 1739)

Dear Mr. Gonzalez and Selection Panel Members:

The Ardurra Group, Inc. (Ardurra) team is poised and prepared to provide project management, construction management, and inspection support services for the City of Ontario's (City) On-Call Project Management Services contract. With a history of providing similar services to Southern California agencies, Ardurra is the ideal firm to successfully deliver your Project and offers you the following:

Multi-Discipline Team to Meet Task Order Needs. The core of Ardurra's overriding approach to managing the tasks included as part of this contract will be our lead management staff. We have assembled a veteran group of engineers who have long histories of providing similar services throughout the Southern California region. Our team will be led by our Contract Manager/Senior Construction Manager, Scott Adamson, PE, QSD/P. He will be supported by a team of experienced project managers, construction managers, inspectors, and subconsultants. Ardurra maintains a local staff of over 30 in house project management and construction management professionals available to assist the City with delivery of its Capital Improvements Program. In addition to our in house staff, we have included a specialized subconsultant to provide more niche type services such as electrical and controls inspection and 3rd party plan review. Ardurra maintains a database of additional seasoned subconsultants of whom can be called upon on a project-by-project basis.

Successful Performance History with On-Call Contracts. On-Call contracts require a unique approach and an ability to adapt to the Client's needs. Ardurra has been the On-Call PM/CM firm on over 20 large contracts for five (5) separate agencies in the past five (5) years. The goal of these contracts is to supplement City staff where needed to effectively manage the lifecycle of CIP projects and keep the design and construction process moving effectively. This requires the ability to meet daily needs, weekly needs, and ultimately the needs of the entire duration of the project from concept to acceptance. In order to meet this expectation, Ardurra has the depth of resources and the ability to meet all expectations for demand and workload.

Ardurra's proposed team of professionals have built their careers providing the type of services requested as part of this request for proposal. We have managed all types of water/wastewater and public works infrastructure projects, including small and large diameter pipelines, pump stations, steel and concrete reservoirs, and treatment facilities. Our team of specialized subconsultants are all considered the best in their respective fields and have a proven track record of working hand in hand with our management staff. Our team has been called on again and again by our clients to manage projects ranging from less than 1 million to more than 50 million dollars. We bring the experience the City is looking for and are perfectly suited to assist the City with management of its capital improvements program.

A Collaborative Partner to Meticulously Manage Costs, Scheduling, and Quality Control. Ardurra's approach to project management is to implement a concise program that protects the client's interests and provides a quality product. We are committed to the City's success with our tried and true management processes to deliver complex projects while keeping the City informed and your funding protected. Ardurra will effectively and expeditiously communicate with City Staff, design consultants, and contractors as applicable to identify conflicts, coordinate issues, and obtained the needed action to keep the project on track.

On behalf of our team, we look forward to the opportunity to work with you to execute your upcoming projects. Please contact Scott Adamson at (858) 243-4977 should you have any questions regarding our proposal.

Sincerely,

Scott Adamson, PE, QSD/P

3. IDENTIFICATION OF RESPONDER

MEET ARDURRA

Ardurra Group, Inc. (Ardurra) is a relationship-based, professional services organization primarily serving public water and wastewater agency clients for the past 45 years. With 1450+ employees in 78 offices nationwide, Ardurra is a Top 500 ENR-ranked, rapidly growing company of experts, engineers, and design professionals committed to delivering quality services and practical solutions. Over the last three years, we have tripled in size through organic growth and strategic acquisitions that have expanded our resources, capabilities, and geographic reach. Our staff is our greatest resource, and we continue to grow to meet the needs of our clients.

Responsiveness – We Are There When You Need Us!

As we intend to demonstrate, Ardurra is proud of the reputation we have established and the style in which we deliver our services based on the investment and ownership responsibility we place on every single project. We are motivated to exceed the City of Ontario's (City) expectations. With offices throughout California, the Ardurra team provides local subject matter experts with the availability and resources to be responsive to the City's needs. We are a full staff of engineering, environmental, and construction professionals, including project managers, construction managers, engineers, environmental compliance specialists, designers, and construction inspectors. We strive to develop close working relationships with our clients so we can move quickly in response to client needs. We can provide on-the-spot assistance with an emergency situation or a fast-track project while maintaining sufficient staff and resources to manage large multi-discipline projects.

Local In-House Capabilities to Meet Task Order Needs

Our in-house capabilities include project management, construction management and inspection, civil, mechanical, electrical engineering and design, as-needed municipal "staff extension" services, water and wastewater master planning and hydraulic modeling, traffic and transportation engineering, plan checking, CEQA/NEPA compliance, regulatory permitting, GIS design and implementation, sewer flow monitoring, and survey services. We also have established relationships with several recognized specialty firms that support us with additional disciplines and services as needed. Our experienced construction management staff is capable of managing various complex infrastructure projects.

Our Commitment

Ardurra provides full-spectrum services to assist our clients from planning through construction. From our substantial experience in planning, designing, and managing public infrastructure undertakings, we understand that projects today are driven by a balance of economic, environmental, social, and political factors. We believe in working in partnership with our clients to meet these challenges. We offer the City a commitment to responsiveness, quality, and forward-thinking solutions to deliver innovative projects. We will exceed your expectations.

4. STAFFING RESOURCES

ARDURRA

4. STAFFING RESOURCES

A. FIRM STAFFING & KEY PERSONNEL

Staff Assigned to Perform Services & Firm Capacity

Ardurra brings the right expertise to execute related scope of services for this project. Ardurra has over 60 professionals proposed to perform the requested services for this contract. Should the need arise, we are open to engaging firm-wide resources.

Team Organization

Ardurra's team will be led by Contract Manager Scott Adamson, PE, QSD/P, who has successfully acted as lead Senior Construction Manager/Project Manager on as-needed projects for southern California agencies such as Elsinore Valley Municipal Water District, Vista Irrigation District, the City of La Mesa, the City of Carlsbad, the City of Oceanside, and the City of San Diego. Mr. Adamson will be the primary point of contact for the City with Ardurra and will coordinate Ardurra's staffing assignments.

With a vast pool of resources, Mr. Adamson will draw on our experienced in-house staff of engineering professionals to provide project management, construction management, and inspection services. The members of our team have multiple years of experience providing these services.

To round out our team and provide the requested specialty services, Ardurra has teamed with Rockwell Construction Services to provide electrical, controls, and instrumentation inspection. In addition to the individuals proposed, Ardurra maintains a database of additional professionals and subconsultant firms who regularly work with Ardurra on a project-to-project basis. These services include materials testing and specialty inspection, corrosion/cathodic protection, and coating inspection.

The organization chart below illustrates the roles and relationships between the City, our key personnel, and subconsultant. The personnel are presented below with their current official titles, however billing rates are based on the type of work being performed. Should one of our higher-level team members be called on to provide services, the appropriate billing rate for that category of work will be applied. This goes for all team members, including our Senior Managers, who routinely step in due to unexpected peaks or short notice assignments. We have included our entire local team in our organization chart, but have only included introductions on the following pages for key personnel. Resumes for those individuals have been included in an Appendix; resumes for additional personnel are available upon request.

We are committed to providing the right person for the job and have the resources to do so!

SCOTT ADAMSON, PE, QSD/P

CONTRACT MANAGER/SENIOR CONSTRUCTION MANAGER

Scott is an expert in providing construction management, resident engineering, inspection, and design of small and large civil engineering public works projects with an emphasis in water/wastewater infrastructure, storm drain construction, and street improvements. During his career he has had the opportunity to work on a number of reservoir and tank rehabilitation projects, valve replacement projects, and pump station upgrades. He is familiar with challenging public works engineering issues such as: franchise utilities; NPDES requirements; public relations; right-of-way and private property issues; council concerns; and various types of outside grant and funding requirements, including SRF and FHWA funding programs.

YEARS OF EXPERIENCE

27 years

VALUE TO THE CITY

- ✓ Practical, real world construction experience that will prove invaluable to any task order
- ✓ Lead Project Manager/Contract Manager for 8 multi-year on-call construction management contracts; managing City of La Mesa's as-needed contract for 15 years
- ✓ Current on Caltrans Local Assistance Procedures and Water Pollution Control requirements

RELEVANT PROJECTS

- As-Needed Construction Management and Inspection Services, *City of La Mesa*
- Lower 1 Recycled Water Conveyance System, *City of Oceanside*
- As-Needed Engineering and Design, *City of Anaheim*
- On-Call Construction Management and Inspection Services, *Rainbow Municipal Water District*
- On-Call Inspection Support Services, *Rincon del Diablo Municipal Water District*
- On-Call Construction Inspection Services, *Elsinore Valley Municipal Water District*
- As-Needed Construction Management Serivces, *Eastern Municipal Water District*
- On-Call CIP Construction Management Consulting Services, *City of Chula Vista*
- Engineering Construction Inspection of Private Development Projects, *City of Encinitas*

OMAR ALAMEDDINE, EIT

SENIOR CONSTRUCTION MANAGER

Omar brings an extensive background in construction management and inspection on public works and Caltrans projects. Omar has delivered projects to renew city streets and freeways, applying his firm grasp of Caltrans and Greenbook standards. He has also managed and inspected construction of recreational facilities such as soccer fields, public parks and a dog park, public facilities, domestic water, sewer, and drainage improvements. Clients appreciate Omar's penchant for precision and thorough documentation. He is able to lead diverse teams consisting of contractor(s), district staff, and construction management personnel teams to successfully achieve the common goal on any task order.

YEARS OF EXPERIENCE

18 years

VALUE TO THE CITY

- ✓ High proficiency in client and personnel management
- ✓ Contract Manager for multiple on-call construction management and inspection services contracts with various districts and municipalities in California
- ✓ Practical experience successfully delivering projects of various sizes using multiple contract delivery methods.

RELEVANT PROJECTS

- As-Needed Engineering and Design, *City of Anaheim*
  - Olive Street Water Main Replacement
  - Indiana Street Water Main Replacement
  - Imperial Highway and Big Sky Lane Water Main Replacement
  - Santa Ana Street Railroad Water Main Crossing with Metrolink/SCRRA
- On-Call Construction Inspection and Project Management Services, *City of Corona*
- On-Call Municipal Engineering Services and Public Works Inspection, *City of Lake Forest*
- On-Call Inspection Services, *Irvine Ranch Water District*
- Staff Augmentation for Construction Inspection Services, *City of Duarte*
- Field Inspections and Special Inspections Services, *County of San Diego*

AMY CZAJKOWSKI, PE, CCM, QSD/P

SENIOR PROJECT MANAGER

In her 30 years of serving water districts, municipalities, and purveyors, Ms. Czajkowski has gained recognition for system planning, design engineering, and construction management of public water and wastewater infrastructure projects. For the last 15 years, she has successfully managed large CIP programs for her clients. The key to her success has been the ability to prepare large scale planning documents, as discussed in our project approach, and then continual updates to these spreadsheets to achieve an execution rate of over 90% for each of our clients.

Acting as an extension of their staff, Ms. Czajkowski has applied her expertise to municipal utility departments and water districts through As-Needed Service Agreements. Acting in behalf of the department or district, she conducted studies and designs, prepared improvement projects, managed consultant projects, coordinated maintenance activities, and inspected, checked and reviewed plans and designs. Studies she has conducted include siting of pipeline and facilities, and energy pumping analysis. Designs have consisted of emergency repair and replacement, and small works projects. She has developed disinfection programs and managed on-site capital improvement projects. Her "as-needed" service to clients has afforded her a unique user/operator perspective in planning and designing water and wastewater infrastructure projects for municipalities and districts.

YEARS OF EXPERIENCE

30 years

VALUE TO THE CITY

- ✓ Successfully managed large CIP programs for multiple clients
- ✓ Committed to the programs she manages; served as the Program Manager for three (3) large programs holding each position between 4 and 10 years
- ✓ Certified Construction Manager to verify compliance, maintain safety and quality
- ✓ Extensive experience with CM for grant funded projects and compliance requirements

RELEVANT PROJECTS

- As-Needed Engineering and Design, *City of Anaheim*
- Third-Party CM & Inspection Services at Margaret H. Chandler Water Reclamation Plant, *San Bernardino Municipal Water Department*
- Program & Project Management of Capital Improvement Plan, *Long Beach Water Utilities Department*
- Program Management for Near Term Water Supply & CIP, *Elsinore Valley Municipal Water District*
- On-Call Project Management Services, *Coachella Valley Water District*
- As-Needed Program Management, *City of Oceanside*
- As-Needed Project Management, *City of Oceanside*
- As-Needed Project Management, *Vallecitos Water District*

CHUCK REUCK

START-UP & COMMISSIONING/SCADA

Chuck is a highly experienced professional in the planning, design, construction, and implementation of instrumentation and control systems, particularly in the water and wastewater industry. This specialized service brings a specific skill set and is invaluable during the constructability review stage. Prior project successes have made Chuck the regional go to person for complex SCADA/HMI/Integration issues. He works also works directly with IT departments to streamline and troubleshoot problems in the field and works with Operations departments to develop detailed start-up and testing requirements.

YEARS OF EXPERIENCE

27 years

VALUE TO THE CITY

- ✓ Brings diverse experience to solving problems
- ✓ Helps keep contractors focused on proper execution while not interfering with operations
- ✓ Advocates full end-to-end testing, with little to no simulation

RELEVANT PROJECTS

- SCADA Extension of Staff, *City of Oceanside*
- DCS System Upgrade Project, *Elsinore Valley Municipal Water District*
- Northwest Recycled Water SCADA Top-End Design and Implementation, *Inland Empire Utilities Agency*

B. IDENTIFICATION OF SUBCONSULTANT

ROCKWELL CONSTRUCTION SERVICES

ELECTRICAL AND INSTRUMENTATION & CONTROLS

The individuals at Rockwell Construction Services, LLC (RCS) have played a key role in the construction, start-up, commissioning, and close-out on several hundred projects over the 45 plus years that they have been involved in the water/wastewater industry. Their involvement with the industry was originally as an Electrical Contractor (Rockwell Electric, Inc.). Over the past eighteen (18) years, they have been providing electrical, instrumentation/control, and SCADA construction management services as a consultant. During this time, they have provided their services on several projects where they were contracted to Ardurra. These projects have ranged in size from smaller projects such as pressure reducing stations to larger projects such as overall plant upgrades, including, but not limited to the A-2 Lift Station Rehabilitation for Elsinore Valley Municipal Water District, Olivenhain Municipal Water District's Unit Z Pump Station, the City of Lomita's Cypress Street Reservoir/Well Treatment Facility, Vallecitos Water District's North Twin Oaks Pump Station, the City of Del Mar's 21st Street Pump Station, and the City of Oceanside's 511 Pump Station. Most recently, RCS provided electrical QA/QC review as part of Ardurra's Third Party Construction Management & Inspection Services contract at San Bernardino Municipal Water Department's Margaret H. Chandler Water Reclamation Plant for the Digester Gas Beneficial Use Program.

RCS's recent City of Ontario project experience includes providing onsite inspection and start-up services on the Chino/Haven Pressure Reducing Station project and documentation review services on the Well 50 ION Exchange Treatment Facilities Project.

6. EXPERIENCE AND TECHNICAL COMPETENCE

ARDURRA

6. EXPERIENCE AND TECHNICAL COMPETENCE

A. EXPERIENCE

The following section highlights Ardurra's proven capabilities providing similar expertise working on On-Call Project Management Services contracts.

Experience, Technical, and Professional Skills to Meet Goals and Fulfill General Functions Identified in the RFP	✓ Ardurra has a successful history of providing project management, construction management, and inspection services on multiple on-call contracts for municipalities across California specializing in water, wastewater, and recycled water infrastructure ✓ The variety of projects we have managed gives our firm not only the expertise in water, wastewater, and recycled water improvements needed to successfully manage what takes place inside the trench, but also the experience with large roadway improvement and traffic control issues in order to address the operations and issues surrounding the trench.
Past Staff Experience Performing Similar Services	✓ Veteran team lead by two (2) Senior Construction Managers and a Senior Project Manager that has managed over 20 on-call contracts for separate agencies in the past five (5) years. ✓ Our team has been repeatedly engaged by our clients to manage projects ranging from less than 1 million to more than 50 million dollars. ✓ Proposed team of professionals have built their careers providing the type of services requested as a part of this statement of qualifications.
21+ Number of Years the Firm has Conducted Business in Southern California	✓ Over 21 years providing exceptional project management, construction management, inspection, and related services to Southern California. Our success is based on long-term working relationships with public agencies, developed through our water, wastewater, and recycled water expertise and cemented with our commitment to deliver quality products and unmatched dedication to be responsive to our client services. Ardurra was started in 1977 as King Engineering Associates in the State of Florida. We have been providing services to the City since 2019.
Five (5) References Demonstrating Experience and Performance Providing Similar Services	✓ Ardurra is proud of the successful projects we have accomplished and the agencies that have placed their confidence in our services. ✓ We highly encourage the City to contact our references to confirm the efficiency, attention to detail, communication skills, and commitment of our team in successfully completing every project. ✓ *Please see the reference table on the following page for Ardurra's references demonstrating experience and performance providing similar services.*
Local Experience and Knowledge of the City	✓ Ardurra has successfully performed several projects for the City of Ontario/ Ontario Municipal Utilities Company including the following: • UT1032 On-Call Professional Engineering Services • UT1013 San Antonio Transmission Watermain, Phase 1 • UT1046 San Antonio Transmission Watermain, Phase 2 - 8th Street • UT1038 Risk & Resilience • UT1050 Ontario Ranch Phase 2 Water Improvements • UT1065 FY2023-2024 Water Main Improvements • UT1066 Downtown Water Main Improvements • UT1067 Laurel Avenue Sewer Main Improvements • UT1069 Sultana Avenue Sewer Main Improvements • UT1070 Nocta Street Sewer Main Improvements • UT1077 Nocta Street Sewer Lateral • 935 E Hold Blvd Demolition • SM2302 Sultana Storm Drain • Ontario Regional Sports Complex • City's Annual Land Use Control Inspection - Bon View • SD063 Fourth Street Storm Drain • On-Call Construction Management and Inspection for Various Projects ✓ No learning curve – we will leverage our previous experience to streamline the process.

References

Ardurra is proud of the successful projects we have accomplished and the agencies that have placed their confidence in our services. As demonstrated within our five project references included on the following pages, several of our team members have worked together on similar projects. We highly encourage the City to contact our references to confirm the efficiency, attention to detail, communication skills, and commitment of our team in successfully completing every project.

B. PROJECT SPECIFIC EXPERIENCE

The Ardurra Team brings an outstanding record of providing project management and construction management (PM/CM) services on similar On-Call contracts for municipalities throughout Southern California. Many of these clients have again and again chosen Ardurra over the course of multi-year contracts to assist them with managing their capital improvement programs. Ardurra specializes in the project management and construction management of public works infrastructure projects. We aren't just an engineering firm that offers PM/CM services, almost one half of all of our business comes from these services and we pride ourselves on being one of the locally recognized leaders in the field.

As a firm dedicated to local infrastructure engineering and construction, we have a proven track record of providing responsive experienced staff for all levels of service including Project Managers, Construction Managers, Resident Engineers, and Field Inspectors. We are known for providing staff experienced and familiar with the particular aspects of municipal engineering such as familiarity with Agencies' Standards, "Greenbook" and the regional standards, sensitivity to public convenience and access, and inter-agency coordination.

Our Contract Manager/Senior Construction Manager, Scott Adamson PE, QSD/P, has overseen a number of similar contracts for Ardurra over the past ten years. He understands the cyclic nature of an as-needed role and the need to quickly respond to the City's requests should it be for a long-term assignment or a short emergency repair. In order to accomplish this, Mr. Adamson will call on our team of experienced Project Managers, Construction Managers, and Inspectors. Ardurra strives to maintain a diverse group of personnel both in-house as well as an extended group of more specialized subconsultants in order to provide the right skills for the services requested. Our team of professionals has the knowledge and technical experience to provide the services we would anticipate being requested as part of this contract.

On-Call/As-Needed Services

Our reputation for providing quality As-Needed services has been confirmed by our on-going relationships with agencies throughout Southern California. Below we have provided an abbreviated list of some of the clients we have provided On-Call/As-Needed services for. We have also included short descriptions of our recent clients and a summary of the services we have been providing for them.

On-Call /As-Needed Services

Our team of professionals has the knowledge and technical experience to provide the services we would anticipate being requested as part of this contract. Ardurra is primarily a water and sewer infrastructure engineering company and our staff has spent the majority of their careers providing project

management, construction management, and inspection in these fields. Our experience includes steel and concrete reservoirs, large and small diameter pipeline installations, pipeline rehabilitation, trenchless and tunneling installations, pump stations, and treatment facilities.

Elsinore Valley Municipal Water District

Ardurra has previously provided development and CIP inspection services to the Elsinore Valley Municipal Water District (EVMWD/District) as part of an ongoing as-needed contract, as well as through job specific RFPs. Our inspectors have supplemented EVMWD's staff, allowing the District to more easily handle the peaks and valleys in inspection needs that come with these types of projects. EVMWD has complimented Ardurra a number of times on our ability to respond quickly to their needs and do our best to provide the right person for the job.

Elsinore Valley Municipal Water District	
Project	**Project Type**
City Reservoir and Clay Canyon Tank Rehabilitation	Steel Tank Rehabilitation Project
A-2 Lift Station Upgrade	Lift Station Improvements, Pumps, Wet-well Rehab, New Controls
Hwy 74 Sewer Main Installation	Sewer Installation as Part of Caltrans Project
Monte Vista Water & Sewer	Private Development Water & Sewer Main Installation
Meadowbrook Tank Demolition	Steel Tank Removal and Yard Piping
Single Check Backflow Improvement Program	Upgrade Commercial Backflow Preventers

City of Carlsbad

Ardurra has also been providing As-Needed CM and Inspection services for the City of Carlsbad since 2008. We have provided CM, Resident Engineering, and Inspection service on a range of projects including water improvements, sewer replacement, storm drain improvements, street resurfacing, and private development inspection. Over the course of our relationship with Carlsbad we have provided everything from short term emergency needs to a full-time extension-of-staff position filling a need for a Construction Manager to oversee and manage their in-house inspection staff and workload.

City of Carlsbad	
Project	**Project Type**
La Costa Water Main Replacement	8-inch PVC Water Pipeline, Directional Drill Tunneling
Foxes Landing Lift Station Upgrades	Lift Station Construction, Sensitive Environmental Habitat at Lagoon, Large Bypass System

LA COSTA WATER MAIN REPLACEMENT

CITY OF CARLSBAD

INSTALLATION OF 577 LF 8-INCH HDPE WATERLINE VIA HORIZONTAL DIRECTIONAL DRILLING, 352 LF 8-INCH PVC WATERLINE VIA OPEN TRENCH, AND TIE-INS. NEW HDPE WATERLINE WAS HORIZONTALLY DIRECTIONAL DRILLED UNDERNEATH A GOLF COURSE AND CONNECT TO WATER SYSTEM ON OTHER SIDE USING NEW PVC.

City of Carlsbad	
Project	**Project Type**
Poinsettia Lift Station Replacement	Mechanical, Structural, and Electrical Inspections
Recycled Water Pipeline, Phase III, Segment 1A & 7	12-inch Recycled Water Main Installation, Cross Connection Inspection
Pressure Control Hydroelectric Facility at Maerkle Reservoir	Hydroelectric Retrofit
Tri-Agency Water Transmission Pipeline Reach 2 - Phase 1	18-inch CLM&C Water Pipeline

City of La Mesa

Ardurra has consistently been chosen by the City of La Mesa to be their preferred provider of As-Needed CM and Inspection services for more than 15 years. Our staff of professionals has provided services on CIP projects including large diameter sewers, storm drain replacements, streetscape improvements, street resurfacing projects, and multi-lot development inspection. Our level of service has included long term extension of staff positions, project to project inspection services, and supplemental inspection for night work and emergencies. Our CM staff regularly works with the City's engineering staff to provide construction management services from constructability reviews on upcoming projects through close-out documentation, including funding documentation reporting for State Revolving Fund (SRF) sources and Caltrans administered FHWA funding.

City of La Mesa	
Project	**Project Type**
Alvarado Channel Sewer Replacement	Large Diameter Sewer Main Replacement, Open Channel Construction
Inflow and Infiltration Phase 5 Sewer Improvements	Sewer Main Replacement
SRS-Funded Sewer Replacement/ Rehabilitation Project (Phases 1-4)	Open-Cut, Pipebursting, CIPP Lining, Jack & Bore
University Avenue Median Improvements	Streetscape: ADA, Overlay, Signals, LID Construction, Landscaping, Striping
Downtown Village Streetscape Improvements	Streetscape: ADA, Overlay, Signals, LID Construction, Landscaping, Striping
Johnson Avenue Storm Drain	Storm Drain, Sewer

City of Oceanside

The City of Oceanside is another agency that Ardurra has been providing As-Needed CM and Inspection services for since 2008. We have traditionally worked primarily with the Public Utilities department on water and sewer improvements but have also provided inspection on municipal CIP projects for the engineering department as well. Through our current as needed, Ardurra is providing an in-house extension of staff project manager assisting the Public Utilities department with managing the CIP program and meeting project completion goals. We have provided CM, Resident Engineering, and Inspection service on a range of projects including water improvements, sewer replacement, storm drain improvements, and surface improvements.

City of Oceanside	
Project	**Project Type**
Lower 1 Recycled Water Conveyance	Recycled Water Replacement
Lake Boulevard 14-inch Water Main Replacement	Water Main Replacement
Loretta Street Waterline Replacement	Water Main Replacement
South Oceanside Water & Sewer Replacement Project	Water and Sewer Main Replacement
Fire Mountain and Guajome Concrete Tank Rehabilitation	Prestressed Tank Re-Wrapping and Stressing
Lake Boulevard Sewer Replacement	Sewer Main Replacement

City of San Diego

In conjunction with Harris and Associates and Arcadis, Ardurra has provided Resident Engineering services to the City of San Diego, sometimes providing up to three resident engineers at one time. These positions have been full-time extension-of-staff positions with the City of San Diego Field Engineering department. Our Resident Engineers have managed and inspected a number of projects including large diameter trunk sewer rehab, collector sewer system rehabilitation, and water improvement projects. Below is a table listing the projects we have provided these services on.

LORETTA STREET WATERLINE REPLACEMENT
CITY OF OCEANSIDE

AWARD WINNER
APWA San Diego/ Imperial Counties Chapter
Project of the Year Award, 2008
ASCE San Diego Section
Award of Merit, 2007

1,600 LF 12-INCH STEEL PIPE INSTALLED VIA HORIZONTAL DIRECTIONAL DRILL (HDD) UNDER HIGHWAY 76 WITH MAXIMUM DEPTH OF 70 FEET; 2,150 LF 12-INCH STEEL WATERLINE INSTALLED VIA CONVENTIONAL OPEN TRENCH METHODS .

City of San Diego	
Project	**Project Type**
Group Job 954 Water & Sewer Replacement	Large Diameter Water & Sewer Replacements, Jack & Bore
East Point Loma Trunk Sewer	Large Diameter CIPP Rehabilitation
P-1/Q-1 Sewer Rehabilitation	CIPP Lining, "Rib-Lock"
Group 935 Water Replacement	Large Diameter Water
Group 941 Water Replacement	Large Diameter Water
Camino Del Sur Recycled Water Conversion	Large Diameter Water

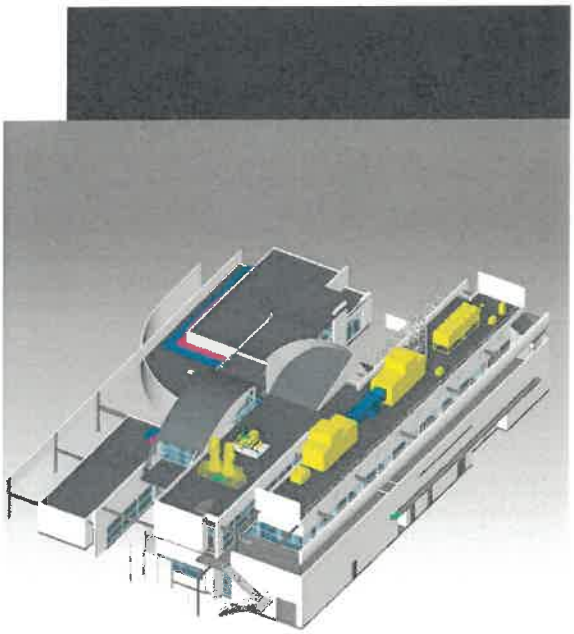
1 PROJECT MANAGEMENT & CONSTRUCTION MANAGEMENT FOR NEAR TERM WATER SUPPLY & CIP

ELSINORE VALLEY MUNICIPAL WATER DISTRICT | LAKE ELSINORE, CA



DESCRIPTION OF SERVICES

Ardurra was engaged by the Elsinore Valley Municipal Water District (EVMWD) to provide project and construction management for over 40 CIP projects ranging in construction value from $300K to $10M. The CIP execution rate was over 90% and all projects were completed on time and with an overall 2% change order rate. Under this contract, a wide range of services were successfully provided:

- Coordinated and supervised all inspections for in-house inspection staff and outside consultants
- Processed all RFIs, Progress Payments, etc. and conducted all Progress Meetings
- Managed (3) emergency construction projects including the repair of a sewer force main in Highway 74
- Coordinated all communications with the Engineers of Record (EORs) and CM staff
- Performed public outreach tasks
- Performed all Claims Management
- Oversaw the District's Labor Compliance Program
- Acted as the SMARTS system Legally Responsible Party (LRP) and performed all Qualified SWPPP Practitioner (QSP) inspections
- Acted as coordinator with the various jurisdictions such as RCFCWCD, Caltrans, RWQCB, ACOE, CDFG, and other agencies to complete permits.
- Coordinated with SCE to secure new electrical service for the various facilities

The projects, totaling over $45M, encompassed a wide range of work and are identified in the District's Fiscal Year 2015-2018 budgets. Projects included:

- **Temescal Canyon Roadway Improvements - Water Main Relocations –** Prepared plans and specifications to relocate approximately 100 lf of this major 42-inch diameter CML&C potable water main, and provided construction management and inspection services during the construction phase for this segment and other relocations along the entire roadway project where EVMWD's facilities were impacted.
- **Flagler Well Project –** Provided construction management for the rehabilitation of two (2) deep wells and the treatment systems and booster station to discharge into the 42-inch Temescal Canyon Pipeline. Project included obtaining two permits from the County of Riverside Transportation Department and the City of Corona and coordination with Caltrans.
- **Palomar Well Project –** Provided construction management for the three-phased project:
  - **Phase 1**: Construction of 2,520 lf of 16-inch PVC well flushing pipeline with the connection to the County of Riverside Flood Control channel, 1,960 lf of 8-inch sewer, and a 12-inch waterline to be a primary feed from the well station. Procurement of several permits were required: City of Wildomar encroachment permit and TCP review, County of Riverside Flood Control encroachment permit, and DEH septic tank abandonment.
  - **Phase 2**: Construction of a 20-inch 1,000 deep new potable well (designed at 1,200 gpm) at the existing EVMWD site.
  - **Phase 3**: Construction of Wellhead and chloramination Disinfection Facilities

IM MODEL OF NEW HVAC SYSTEM AT THE GWTP

2 PROGRAM & PROJECT MANAGEMENT OF CAPITAL IMPROVEMENT PLAN

LONG BEACH WATER UTILITIES DEPARTMENT | LONG BEACH, CA

DESCRIPTION OF SERVICES

Ardurra provides Program Management, Project Management, and Construction Management Services for Long Beach Water Department (LBWD) projects from the inception through design and during construction, which generally includes the following steps:

- Prepare Request for Proposals (RFP)s for master planning, engineering design, services for construction management and inspection services, select consultants, prepare contracts, etc.
- Conduct meetings with LBWD staff, outside consultants and contractors during planning, design, and construction projects
- Review deliverables for design and perform constructability reviews to ensure the contracts are bid ready
- Train LBWD Project Managers and/or provide advice for resolving technical and/or construction issues as they arise
- Constructability Reviews
- Review of 30% PDR, 60%, 90%, 100%, and Bid Ready plans and specifications
- Coordinating and supervising all inspections for in-house inspection staff and outside consultants
- Processing all RFIs, Progress Payments, etc. and conducting all Progress Meetings
- Coordinating all communications with the Engineers of Record (EORs) and CM staff
- Performing public outreach tasks
- Labor Compliance, performed in-house by Ardurra for various projects and Adrurra managing LBWD's Labor Compliance consultant
- Acting as the SMARTS system Legally Responsible Party (LRP) and performing all Qualified SWPPP Practitioner (QSP) inspections
- Performing all Claims Management
- Acting as coordinator with the various jurisdictions such as RCFCWCD, Caltrans, RWQCB, ACOE, CDFG, and other agencies to complete permits.
- Coordinating with SCE to secure new electrical service for the various facilities.

PROJECTS

- Well Commission 22A ($3M)
- Groundwater Treatment Plant HVAC Replacement Project ($8M)
- LADWP Haynes Generating Station Sewer Pipeline Project ($20M)
- LADWP Haynes Generating Station Recycled Water Pipeline Project ($17M)
- 2021 Four New Wells – El Dorado 1, El Dorado 2, Citizens 8A, Commission 23 ($22M)
- New Wells Alamitos 9A and Alamitos 14 ($12M)
- New Wells Comm 23A and Comm 26 ($11M)
- Water Main Replacement - Spinnaker Bay Ph 1 ($4M)
- S-25 Sewer Lift Station Rehabilitation ($4M)
- S-8 Sewer Lift Station Rehabilitation ($4M)
- Sanitary Sewer Rehabilitation and Replacement Projects 7 & 8 ($2M/$2M)
- Cathodic Protection Phases 5 & 6 ($1.5M/$1.5M)
- Large Valve Replacement FY22/23 (Willow St) ($1M)

3 AS-NEEDED CONSTRUCTION MANAGEMENT & INSPECTION SERVICES

CITY OF LA MESA | LA MESA, CA

DESCRIPTION OF SERVICES

Ardurra has consistently been chosen by the City of La Mesa to be their preferred provider of As-Needed Construction Management and Inspection services for more than 18 years. Our staff of professionals has provided services on Capital Improvement Projects, including large-diameter sewers, storm drain replacements, streetscape improvements, street resurfacing projects, and multi-lot development inspections. Our level of service has included a long-term extension of staff positions, project-to-project inspection services, and supplemental inspection for night work and emergencies.

Our staff regularly works with the City's engineering staff to provide construction management services from constructability reviews on upcoming projects through close-out documentation, including funding documentation reporting for State Revolving Fund (SRF) sources and Caltrans-administered FHWA funding. Projects have included:

- Alvarado Channel Sewer Replacement
- University Avenue Median Improvements
- Downtown Village Streetscape Improvements
- West La Mesa Street Improvements
- 2011 Collector Street Rehabilitation/Utility Undergrounding
- SRF-Funded Sewer Replacement/ Rehabilitation Project (Phases 1-5)
- Johnson Avenue Storm Drain

HIGHLIGHTED PROJECT

- **SRF-Funded Sewer Replacement/Rehabilitation Project** – Over the past 18 years, the City of La Mesa has continued to work toward the goal of replacing all concrete sewer mains with the goal of greatly reducing inflow and infiltration in these aging lines that has led to system spills during large rain events. As a part of our long held as-needed contract, Ardurra has provided contract administration, inspection services, and quality control for multiple phases of this sewer replacement/rehabilitation project. This project was implemented in order to replace or rehabilitate old 6-inch concrete sewer mains with new 8-inch PVC mains throughout the City of La Mesa. Significant construction activities managed as part of this project included traditional open trench replacement, 30-inch jack and bore installation under railroad tracks, and "pipebursting" techniques; most of which was installed in narrow easements along property lines. Ardurra was responsible for all coordination with affected utilities including, AT&T, SDG&E and Helix Water District, as well as provided the necessary reporting and coordination with the Water Resources Control Board, State Revolving Fund program. To date, this six (6) phased program has included the following project components: replacement/rehabilitation of 64,000 lf sewer; 6,200 lf of Cured-in-Place Polyester Lining; 7,800 lf HDPE "pipebursting"; and 200 lf 30-inch jack & bore.

4 LOWER 1 RECYCLED WATER CONVEYANCE

CITY OF OCEANSIDE | OCEANSIDE, CA

DESCRIPTION OF SERVICES

In order to expand its availability of recycled water and take advantage of the City of Oceanside's (City) new upgraded treatment facility, the City undertook this major pipeline project. This project installed 7+ miles of 8- to 16-inch PVC recycled water main from the San Luis Rey treatment plant to a reservoir on Fire Mountain Drive along El Camino Real. The project began in the residential neighborhoods surrounding the treatment plant and eventually progressed to one of the City's busiest arterial roadways. In addition, the pipeline alignment crossed under the San Luis Rey River via Horizontal Directional Drilled HDPE sleeve. The alignment also included two Jack & Bore tunneled sections involving both NCTD and Caltrans right of way encroachment permits.

Ardurra provided a complete construction management and inspection team for this project. Ardurra's field team consisted of a full-time construction manager and one to two site inspectors depending on the volume of work being performed or number of shifts. In addition, the City requested that the CM team include environmental services and geotechnical and special inspection services. Ardurra teamed with Helix Environmental and Ninyo & Moore for these respective services.

Due to the location of the project, within the San Luis Rey river valley, the project had a significant environmental component. The project MMRP required a number of different bird and plant surveys, as well as sound mitigation measures during breeding seasons. Though most of the alignment was in previously disturbed soils, there were a number of areas that required paleontological and archeological monitoring as well. Ardurra worked with our subconsultant, Helix Environmental to provide the required studies and monitoring, and coordinate efforts required by the Contractor.

PROJECT HIGHLIGHTS

- Traffic control on major arterial roadway
- Caltrans and NCTD encroachment permits
- Large diameter HDD
- Environmentally sensitive habitat
- Long term night operations

5 AS-NEEDED ENGINEERING AND DESIGN

CITY OF ANAHEIM - PUBLIC UTILITIES DEPARTMENT | ANAHEIM, CA

DESCRIPTION OF SERVICES

The Ardurra team is currently providing water engineering services in support of the City of Anaheim's Public Utilities Water capital improvement program. For the last five years Ardurra has served as the City's on-call consultant. Projects have included design of pipelines, wells, pump stations, pressure regulation stations, water mains, water quality and treatment, and reservoirs. Other work has included planning studies, hydraulic modeling, feasibility studies, and construction management and inspection. As a result of Ardurra's successful record of performance, the City extended our agreement based on the successful completion of various projects. Ardurra provided construction management and/or resident engineering services on the following:

HIGHLIGHTED PROJECTS

- **Construction Management and Inspection Services for Santa Ana Street Railroad Water Main Crossing with Metrolink/SCRRA** – Bore and jack trenchless installation method, furnishing, and installation of approximately 70 lf of 24-inch steel casing pipe (1/2-inch thickness) welded joints and 12-inch zinc-coated ductile iron pipe class 56; open-cut construction method furnishing and installation of approximately 75 lf of 12-inch zinc-coated ductile iron pipe class 52.
- **Felicidad Water Main Replacement Design-Build** – Installation of 630 LF of 12-inch and 3,960 LF of 8-inch ductile-iron pipe (DIP) as well as new water services and appurtenances at two project sites: Site 1 – 1,350 LF of 8-inch DIP and Site 2 630 LF of 12-inch DIP and 2,610 LF of 8-inch DIP. The project also included traffic control, removal and restoration of existing improvements, excavation, backfill, shutdowns, dewatering, temporary high-lining of water service, hydrant installation, coordination with water service customers, chlorination, dechlorination, pressure testing, and site cleanup.
- **Engineering and Construction Support Services M-Vault Nos. 26, 33, and 55 Rehabilitation** – Rehabilitation or abandonment of three access vaults located along water transmission lines throughout Anaheim. The work consists of replacing electrical facilities inside vault including sump pump, lighting, blower, switches, junction box, receptacle outlet, and conduit, as well as installing water line connections.
- **Engineering and Construction Support Services M-Vault Nos. 10, 25, 49, and 94 Rehabilitation** – Rehabilitation of four vaults located on water transmission lines throughout Anaheim. The work consists of demolition/removal and installation of vaults and associated pipes and appurtenances, as well as replacing electrical facilities, installing water line connections, potholing, and pavement restoration.
- **Olive Street 16-inch Water Main Replacement** – Installation of approximately 1,220 lf of 16-inch and 650 lf of restrained ductile iron pipe, that included approximately 64 lf of 16-inch with 28-inch ID steel casing mainline pipeline jack and bore under BNSF railroad, service lateral tie-in connections, replacement of isolation valves, constructing water service replacements and fire hydrant assemblies, removal of existing fire hydrant assemblies, abandon in place existing water main and appurtenances, main line shut-down/tie-in connection coordination with local businesses, and paving and striping restoration. This project increased system reliability by replacing aging infrastructure. Ardurra also provided As-Built review and AutoCAD drafting of final as-built project drawings as part of project.

Other Requested Information

RFP CRITERIA		RESPONSE
(a)	Failure to enter into a contract or professional services agreement once selected.	N/A
(b)	Withdrawal of a proposal as a result of an error.	N/A
(c)	Termination or failure to complete a contract.	• Buena Sanitation District terminated IEC for convenience *(2019, before Ardurra acquisition)* • Gila River Indian Community terminated Ardurra for convenience
(d)	Debarment by any municipal, county, state, federal or local agency.	N/A
(e)	Involvement in litigation, arbitration or mediation. Conviction of the firm or its principals for violating a state or federal antitrust law by bid or proposal rigging, collusion, or restrictive competition between bidders or proposers, or conviction of violating any other federal or state law related to bidding or professional services performance. Knowing concealment of any deficiency in the performance of a prior contract.	Please see **Section 10. Litigation.**
(f)	Falsification of information or submission of deceptive or fraudulent statements in connection with a contract.	N/A
(g)	Willful disregard for applicable rules, laws or regulations.	N/A

C. TECHNICAL COMPETENCE

Technical Resources

Ardurra is a fully operating organization with the latest innovative technologies and licenses required to plan, prepare, design, model, and execute pipeline projects. Our staff is proficient in utilizing these software tools to analyze and create the most favorable solutions aligned with project goals. Programs include but are not limited to:

- Microstation and pipeline design programs
- AutoCAD, Civil3D, Geographic Information (GIS)
- Inroads, a program that prepares grading plans, plan and profile sheets, and roadway designs. InRoads also computes cut and fill quantities and automatically determines roadway (and pipeline) stations and creates sections.
- ArcMap (ArcInfo) to support water and wastewater system master planning efforts
- Water modeling software including: H20Net, H20Map Water, InfoWater, EPANet, WaterCAD, WaterGEMS
- Sewer modeling sofwater including: H20Map Sewer, InfoSewer, InfoSWMM, XP-SWMM, SewerCAD, and SewerGEMS
- The latest hydraulic parameters for both open channel and pressure pipe
- Licenses for the full spectrum of Microsoft Office applications
- Adobe licenses for Acrobat and Creative Cloud (e.g. Photoshop, Illustrator, InDesign)
- Web-based capabilities such as Virtual Project Manager (VPM) for construction and project management that provides a single repository for all project related information, accessible anywhere with internet connection. Company-wide subscription with no additional cost to the Client.

Ability to Draw Upon Multi-Disciplinary Staff

Ardurra is a full service firm providing broad-based solutions tailored to the specific needs of each Client. As a responsive and nimble partner, we take ownership of every project to maintain project momentum and success. We leverage the depth of our professional and technical expertise, as well as our integrated structure, to deliver practical, innovative solutions for our clients. Utilizing primarily in-house staff allows us to more efficiently manage projects and respond quickly to new tasks. With more than 1,450 employees and 78 offices across the United States, Ardurra has the ability to provide local subject matter experts, with national backing.

7. PROPOSED METHOD TO ACCOMPLISH THE WORK

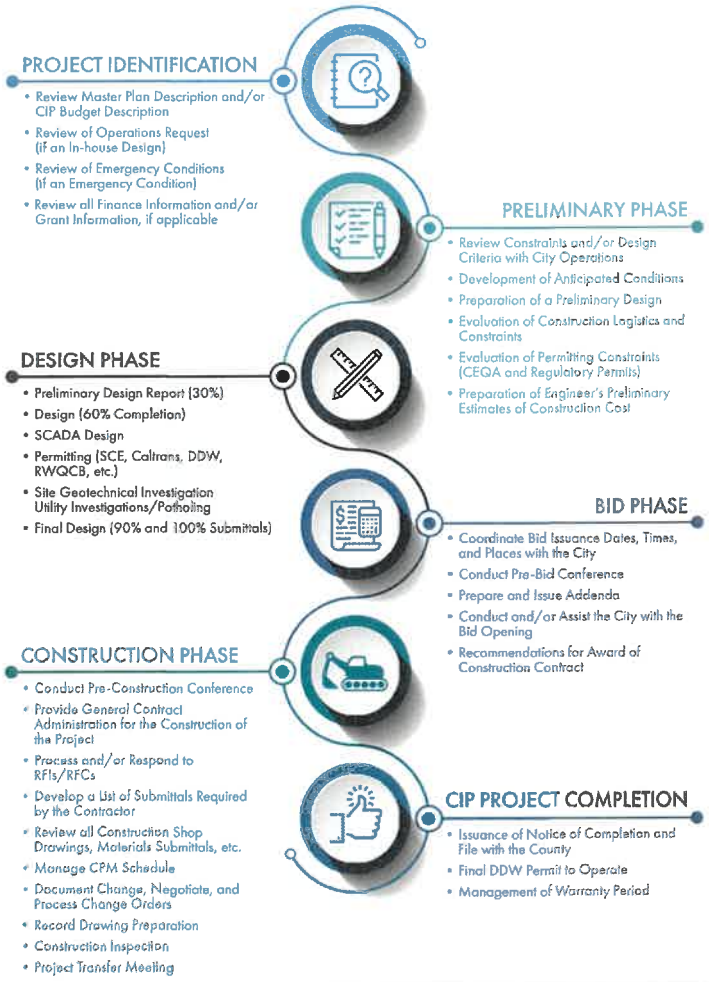
ARDURRA

7. PROPOSED METHOD TO ACCOMPLISH THE WORK

INTRODUCTION

The Ardurra project and construction management approach and methodology are designed to safely deliver a high-quality project, on time and within budget. The firm uses proven methods for performing the multitude of tasks that dictate the success of a capital improvement project. Potential challenges are proactively identified and addressed before they become significant budget issues and schedule delays. Services are delivered by proven, licensed, and credentialed professionals with solid track records of success. By utilizing Ardurra, clients are kept informed on a real-time basis and know that Ardurra's guiding principle is to always act in their best interest.

Ardurra, and its team of professionals, understands that timely response and communication is vital to the successful implementation of any assignment, and incorporates all facets of communication for interacting with City staff including phone, email, texting, and teleconference abilities. Communication and correspondence will always be handled in a professional and respectful manner. Detailed below is Ardurra's approach and ability to assist the City with this as-needed contract.



PROJECT MANAGEMENT APPROACH

To effectively meet the needs of the City, we are proposing a seasoned team of capital improvements project managers led by Amy Czajkowski, PE, CCM, QSD/P. Our proposal includes an organizational structure which will allow Ms. Czajkowski to call on the most qualified team member with the right level of experience to manage the different types of projects that we may be asked to take the lead on. Ardurra also maintains relationships with a number of specialty consultants who can be called on to provide expertise in more specific fields of engineering such as instrumentation and controls, and electrical engineering.

Ms. Czajkowski has 30 years of experience managing CIP programs. She understands how to efficiently plan and distribute work to make everyone successful. In addition, Ardurra brings a full slate of complementary services. The benefits Ms. Czajkowski and her team bring to the City include:

- A proven PM/CM leader who has successfully implemented a complex water/wastewater CIP with the City's Engineering Manager at multiple municipalities and water agencies.
- Short- and long-term cost savings through a well planned and executed CIP.
- Efficient delivery of individual CIP projects by staff who understand how to manage a large CIP and manage projects through all phases.
- Accelerated project execution through the use of alternative delivery methods such as design-build that will allow the City to show immediate progress in key areas such as water supply, treatment plant upgrades, and pipeline replacement.

SAMPLE PROJECT LIFE CYCLE

As services are identified and requested by City staff, Ms. Czajkowski will select the most qualified team member and assist in developing a work plan that will identify the major tasks and milestones, prioritize tasks, and provide for the most efficient delivery and management of the project. Based on our previous experience in assisting clients with managing CIP programs we would anticipate providing the following services:

- Prepare Management Plans for completing projects as requested by the City.
- Management and oversight of the CEQA discretionary review process and, if needed, internal approvals
- Project budgeting
- Preparation of Requests for Proposals and recommendation for selection of engineering firms who not only are proficient technically, but have demonstrated the ability to meet these tight deadlines and desire to be a true partner with the City and program management team
- Contract administration including the preparation of Staff Reports, Pass Through Memos, and budget transfer requests

- Preparation of reports for internal City committees, and the Council; oral presentations at committee, commission, and Council meetings
- Ability to prepare Front End Documents for bids and ability to assist and provide feedback in the determination of bidding strategies and bid item list preparation
- Assistance for routine field operational needs
- Management of emergency projects
- Prepare CIP Program Management Procedures including the following:
    1. CIP Project Schedule
    2. CIP Update List
    3. CIP Resource Planning List

CONSTRUCTION MANAGEMENT & INSPECTION APPROACH

Ardurra's approach to Construction Management is divided into three phases; Pre-Construction, Construction, and Post-Construction. Illustrated in the flow chart to the right are the primary activities during each of these phases. The flow chart below graphically depicts the integrated services that we will provide throughout the duration of the projects. By having Ardurra serve as the single source of responsibility acting as an extension of the City staff, the Construction Management activities will be well coordinated and proceed expeditiously. Our Senior Construction Managers, Scott Adamson, PE, QSD/P and Omar Alameddine, EIT, will call on our veteran staff of over 30 construction management and inspection (CM&I) in-house professionals to assist the City with its construction management needs. In addition to our in-house staff, Ardurra maintains a group of industry leading subconsultants for more specialized fields such as instrumentation and controls.

At the core of our approach is communication. Our Construction Managers, Resident Engineers, and Inspection staff will serve as agents and team members of the City staff. We will maintain regular and frequent communication with the City, nearby community, Contractor, and other parties throughout the duration of these projects. Our Construction Managers/Resident Engineers or Inspectors will conduct regularly scheduled progress meetings, maintain project documentation files, submittal logs, RFI and contract modification logs, and coordinate/conduct field inspections and necessary field surveys and testing. Our staff will always have current knowledge and information on the project status at all times.

PRE-CONSTRUCTION PHASE

DOCUMENT CONTROL

As part of the pre-construction phase, Ardurra will develop, for the City's approval, construction forms and communication processes that will be used on the project. Our approach during the pre-construction phase is to clearly establish the responsibilities, lines of communication, and procedures to the Contractor. We will also develop a detailed filing system and document control procedures for approval by the City. Ardurra recommends the use of a web-based project management system to assist with document control. Our staff is experienced with a number of different systems and has the licensing to provide a number of different options for the City's approval.

CONSTRUCTION MANAGEMENT APPROACH

CPM SCHEDULE

Prior to the pre-construction conference, Ardurra will develop a draft CPM schedule based on our understanding of the project. Our schedule will be closely compared to the Contractor's initial CPM schedule, submitted at the pre-construction conference, to evaluate that contract items are listed, milestones are met, and the project will be completed within the allotted Contract duration.

PROCUREMENT SCHEDULE

Based on the Contractor's CPM schedule Ardurra will also develop a proposed submittal list and procurement schedule. This schedule will be utilized to identify and track long lead time items. Estimated submittal and delivery durations will be entered in the schedule against the latest date the items may need to be on site in order to avoid delaying the project. The procurement schedule will be an item added to the bi-weekly progress meeting agenda and the Contractor will be held accountable for staying ahead of their procurement process.

SCHEDULE OF VALUES

Ardurra will request that the Contractor submit a detailed schedule of values for all items as well as verify that progress payments will be made on approved City forms. The schedule of values will also be reviewed for compliance to the Contract Specifications to assess whether the project costs are unusually front end loaded as opposed to distributed equitably in compliance with the approved CPM schedule. Since procurement has been so difficult our CM Team will ensure that a more detailed breakdown for more critical materials is accounted for.

CONSTRUCTION PHASE

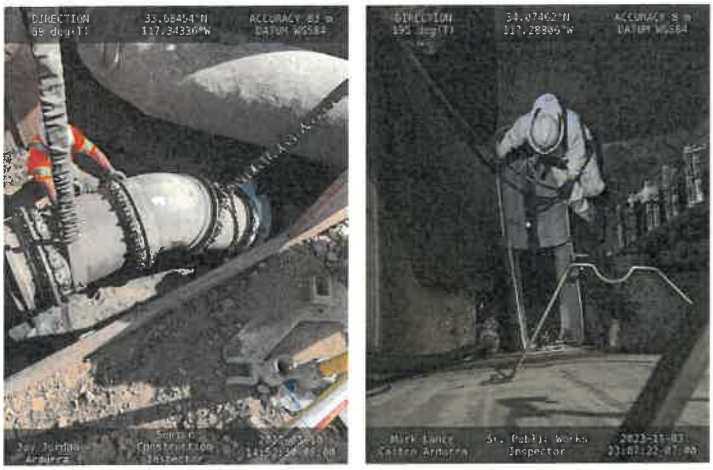
CONTRACT ADMINISTRATION

During the construction phase of the project, our Construction Managers will maintain our firm but fair policy in dealing with the Contractor. Our approach is to be diligent in observing the work and documenting good workmanship. We will stay ahead of the Contractor by alerting them of special project requirements such as the standards and testing requirements, public notification requirements, and coordination with other outside agencies and subconsultants. Ardurra's Construction Managers will also make a point of working closely on a day-to-day basis with the Construction team to anticipate and overcome obstacles that may adversely affect the schedule or impact public convenience.

Our Construction Managers will be responsible for coordinating and leading bi-weekly progress meetings with the City, Design Engineer, Contractor, and outside agencies representatives, such as franchise utility representatives when applicable. Meeting items will include, at a minimum, a three-week look ahead review of the Contractor's schedule, current submittals and RFIs, outstanding change order or field order issues, review of safety and stormwater issues on the site, and discussion of public outreach efforts that may need to be made.

Ardurra's construction management team will be responsible for initial review of material submittals as well as review and comment on RFI's. Our Construction Managers will work closely with the City's engineers to document that Contractor submittals and RFIs are dealt with expeditiously in order to help facilitate the Contractor's work efforts and reduce any possible delays. Our construction administrator will keep logs of all submittals and documentation and track the review progress of each item to help ensure items are returned in the allotted time specified in the contract documents.

The Contractor's monthly CPM schedules will be closely reviewed by our Construction Manager for project items and dates and compliance with the Contract Documents including time for submittal reviews, long lead items, coordination with City forces, and disinfection and testing procedures. These reviews will be performed and submitted with each monthly progress payment. If discrepancies are discovered, the Contractor will be notified to re-submit an accurate CPM schedule. In addition, the Construction Managers will review the Contractor's as-built drawings. If the updated schedule and as-built drawings are not adequate, a delay in the progress payment may occur.



Ardurra's Construction Managers will review the Contractor's monthly pay requests. Ardurra will require detailed descriptions and locations for quantities requested and review these against our own field records to document that only items installed are being invoiced. An initial Schedule of Values (SOV) will need to be submitted and approved for each Lump Sum item in the contract and progress payments will be approved in accordance with the items of work completed per the approved SOV. Unless approved by the City, no "materials on site" will be paid until installed without the City's prior approval.

CONSTRUCTION INSPECTION

Ardurra's construction inspection staff has successfully provided inspection services on projects similar to those we would anticipate to be called on to oversee with this program. We have achieved this success by monitoring construction activities and materials for compliance with approved plans, specifications, and submittals, documenting that the proper QA/QC testing and inspection is done, maintaining constant communication with the contractor and CM staff, and documentation of daily activities through the preparation of a detailed daily report and photo documentation. The following is a list of the minimum items our inspectors will be monitoring on a daily basis and noting in their dailies:

- Review that Potholing of existing utilities has been completed and conflicts have been checked prior to allowing trenching operations.
- Verify that proper notification and "No Park" procedures are being followed.
- Verify proper signage, detours, and road closures have been installed per the approved Traffic Control Plan.
- Review the Bypass system on a daily basis to observe that the Contractor is operating according to the approved Bypass plan and that the system is in good working order.
- Verify that Materials and Equipment match the Approved Submittals.
- Document that Materials arrive at the site undamaged and are properly stored.
- Track the Contractor's labor, equipment, and materials used on the project.
- Verify job-site conditions and activities are in conformance with the various encroachment permit requirements.

- Spot-check elevations and staking in order to verify installations match the approved plans.
- Document that construction activities are not violating environmental or discharge requirements.
- Track time and materials utilized in Force Account work or disputed work for future evaluation of Change Requests.
- Maintain a separate red-line set of drawings detailing actual construction of the alignment for review with the Contractor's own red-lines.
- Provide daily photo documentation of the construction activities taking place. Photo documentation will be done on digital format and provided to the City.

EXAMPLES OF PHOTOS TAKEN WITH CONTEXT CAMERA APPLICATION

ELECTRICAL, CONTROLS, AND INSTRUMENTATION INSPECTION

Ardurra has teamed with Rockwell Construction Services (RCS) to provide electrical project review, inspection, and general construction management assistance specializing in electrical and control systems. We have a long-standing relationship with RCS and consider them to be the best there is in their field. RCS's experience with controls and communication protocols is invaluable when equipping a pump or treatment facility. RCS are not only experts in the field, but are regularly called on by agencies throughout southern California to join design teams and perform 3rd party review of electrical and controls drawings and specifications. We have found that RCS's experience with controls and communication protocols is invaluable on projects such as this. It will be our intention to include RCS early in the submittal and procurement phase to review products and materials in order to minimize any delays that may be caused by compatibility issues.

POST-CONSTRUCTION PHASE

STARTUP AND COMMISSIONING

Ardurra's philosophy regarding the startup and commissioning phase of a project is that this phase starts right from the beginning of the project. Right from the start our construction management team will be pushing the contractor to make sure all necessary submittals are accounted for on the project schedule as well as requesting a preliminary testing and commissioning schedule in order to identify any unforeseen hurdles as soon as possible. Ardurra advocates holding separate start-up and commissioning meetings with the project team throughout the life of the project in order to assist with keeping all parties on the same page regarding the sequence of testing that needs to be addressed and hitting the milestones necessary to keep the process moving smoothly. Our team of construction management, electrical and controls specialists, and SCADA experts will be available to review these critical and usually challenging aspects of these types of projects. These experts have years of experience in successfully assisting with troubleshooting and providing practical real world solutions resolving issues as expeditiously as possible.

PROJECT CLOSE-OUT

Ardurra's construction management team understands the critical nature of this phase. Our goal is a clean and efficient close-out process absent of lingering dispute resolutions, permit finalization, etc. Our construction manager will take a proactive approach at processing close out documentation including completion of final punch list items, guarantees/warranties, subcontractor liens, retention, and final acceptance/certificates of completion, orderly transfer of key records and documents, resolution of outstanding issues, final payment preparation and processing along with final acceptance of record drawings. Close-out items are important to address fully so the City has a final project that is free from encumbrances. Upon completion of the project, Ardurra will provide the City with both hard and electronic copies of project documentation.

10. LITIGATION

ARDURRA

10. LITIGATION

Ardurra Group, Inc., along with firm officers and directors, have no ongoing criminal or civil litigation, investigations, arbitration or administrative proceedings that would affect the successful delivery of this contract. The following is list of claims from the past five (5) years:

- 2022 Bowen and Kron Enterprises Inc. and Vapor Industries, LLC vs. Ardurra Group, Inc. – Legal Action Still Active
- 2020 Promontory at Innisbrook Homeowners Association. Status: 558 Notice – Notice, no further correspondence has been received
- 2019 Deerfoot Point Condominium Association. Status: 558 Notice– Notice, no further correspondence has been received
- 2019 Woods of Ortega Floor Plate, Multi-Party 558 Notice, CA – Notice, no further correspondence has been received – Voluntary Dismissal as of 10/26/21
- 2019 Gilberti v. Ardurra Group – Legal Claim dismissed – Dismissed as of 10/2019

11. OTHER INFORMATION

ARDURRA

11. OTHER INFORMATION

A. ABILITY TO STAFF TASKS EFFICIENTLY & COMPLETE PROJECTS ON TIME AND WITHIN BUDGET

Ardurra's wide range of in-house capabilities makes us capable of providing the right staff for each task. This allows us to tailor every project and work with clients to reasonably obtain budget and schedule objectives. Our flexibility is a reason clients continually return to Ardurra for their professional engineering needs.

B. COMMUNITY INVOLVEMENT

Ardurra employees actively participate and contribute to the communities where we live and work. By pursuing leadership opportunities within engineering organizations, our employees have influenced programs that reach out to a diverse population. Moreover, by volunteering as leaders, Ardurra employes directly contribute their time and energy to the benefit of the engineering community and communities in which we work.

Ardurra Employee Community Service Involvement

DIVERSITY, EQUITY, AND INCLUSION

Dolores Salgado, PE has been serving as Chair for the DEI committee since 2020. The American Council of Engineering Companies in California (ACEC-CA) consists of more than 22 chapters in the state. As a statewide organization, they are dedicated to enhancing the consulting engineering and land surveying professions, protecting the public and promoting use of the private sector in the growth and development of our state. The mission of the DEI committee is to promote diversity, equity, and inclusion with ACEC-CA member firms and public agencies by increasing awareness, demonstrating value, and providing resources to support member firms seeking to implement diversity, equity, and inclusion strategies. The committee hosts webinars and serves as a resources to member firms seeking to diversify their workforce and retain their employees by creating a culture of inclusion within their organization.

INTRODUCE A GIRL TO ENGINEERING DAY

Dolores Salgado, PE, spearheaded the second annual "Introduce a Girl 2 Engineering" (IGE) event held at Bakersfield College. The event concept was derived by the American Council of Engineering Companies California (ACEC-CA) in support of their Diversity, Equity, and Inclusion Committee's initiatives. ACEC-CA was interested in sponsoring an event to increase the number of women entering engineering careers to meet the demand of our industry. Dolores serves as the DEI Committee Chair for ACEC-CA. We partnered with the Bakersfield College Math Engineering and Science Achievement Program (BC-MESA) because the BC-MESA Program outperforms the College STEM Program in student retention, grade point average and transfer rates. The event targeted 9th and 10th grade girls from schools in Kern County that feed into this community college. More than 140 girls attended and met professional women engineers, learned about different engineering careers, toured the college campus, and participated in a hands-on competition. Ten scholarships were raffled off and competition winners received prizes!

C. PREVIOUS INVOLVEMENT WITH THE CITY

Our team has been involved in several projects for the City of Ontario/Ontario Utilities company including the following:

- UT1032 On-Call Professional Engineering Services
- UT1013 San Antonio Transmission Watermain, Phase 1
- UT1046 San Antonio Transmission Watermain, Phase 2 - 8th Street
- UT1038 Risk & Resilience
- UT1050 Ontario Ranch Phase 2 Water Improvements
- City's Annual Land Use Control Inspection - Bon View
- On-Call Construction Management and Inspection for Various Projects
- UT1065 FY2023/24 Water Main Improvements
- UT1066 Downtown Water Main Improvements
- UT1067 Laurel Avenue Sewer Main Improvements
- UT1069 Sultana Avenue Sewer Main Improvements
- UT1070 Nocta Street Sewer Main Improvements
- UT1077 Nocta Street Sewer Lateral
- 935 E Hold Blvd Demolition
- SM2302 Sultana Storm Drain
- Ontario Regional Sports Complex
- SD063 Fourth Street Storm Drain

D. CONFLICT OF INTEREST

Ardurra Group, Inc. has no conflict of interest in connection with providing the services listed in the RFQ for the City of Ontario's On-Call Project Management Services, RFQ No. 1739.

12. CERTIFICATION OF PROPOSAL

ARDURRA

12. CERTIFICATION OF PROPOSAL

"The undersigned hereby submits its proposal and, by doing so, agrees to furnish services to the City in accordance with the Request for Qualifications (RFQ), and to be bound by the terms and conditions of the RFQ."

YEARS OF EXPERIENCE
27 years

SCOTT ADAMSON, PE, QSD/P

CONTRACT MANAGER & CONSTRUCTION MANAGEMENT & INSPECTION - WATER TASK LEADER/SENIOR CONSTRUCTION MANAGER

Mr. Adamson has 27 years of construction management, resident engineering, inspection and design of small and large civil engineering public works projects. He began his career in the geotechnical field as a soils technician and progressed steadily through the ranks of inspection and construction quality control to the position of Sr. Construction Manager. During his career he has worked as an extension of staff for such agencies as the City of La Mesa, and City of San Diego as well as water districts such as Oceanside Water Utilities, Elsinore Valley Water District, and Vista Irrigation District. As a lead construction manager, he is responsible for the day-to-day management of the department as well as actively managing his own projects. He is in the field on a daily basis providing guidance to our staff of construction professionals.

PROJECT EXPERIENCE

W. Anaheim Water Valve Replacement, *City of Anaheim* – Senior Construction Manager for this valve replacement project which included 4 valve clusters located throughout the City of Anaheim. Valve sizes ranged from 6- to 12-inch gate valves. The biggest challenge was coordination with the different parties involved with, and affected by, the shut-downs. In particular, this included a kidney dialysis clinic that operated almost 24-hrs a day, seven days a week, and had a very short window in which to even install a high-line. The Ardurra construction team coordinated with the Contractor, City of Anaheim water operations department, and the surrounding residents and businesses throughout the project to deliver an efficient process.

Lower 1 Recycled Water Conveyance System, *City of Oceanside* – Senior Construction Manager for the installation of 7+ miles of 8- to 16-inch PVC recycled water main, as a part of the City's ongoing pure water program. The project also includes two Jack & Bore installations beneath the NCTD right of way, a horizontal directional drill component below the San Luis Rey River, and installation along the City's major arterial roadway, El Camino Real. As senior advisor to Ardurra's on site field staff, Mr. Adamson coordinated subcontracts with specialty consultants and also oversaw contract funding compliance issues, such as environmental reporting, American Iron and Steel documentation, and labor compliance monitoring.

Sewer Improvements Inflow/Infiltration, *City of La Mesa* – Construction Manager/ Inspector for this $4.6 million dollar sewer main replacement and rehabilitation program which took place at various locations throughout the City. This was a four phase project, replacing or rehabilitating approximately 43,000 lf of concrete sewer main. Replacement operations included traditional cut and cover, CIPP lining, Pipebursting, and Jack and Bore. These locations included sewer mains located in the street as well as challenging easements along canyons and on hillsides. Mr. Adamson provided construction management services as well as inspection during all four phases. In addition to typical construction management services he was also called on to provide creative solutions, based on field experience, for difficult replacements below structures and in limited access locations.

7th Avenue & Broadway Water Main Replacement, *City of Escondido* – Construction Manager for the of the installation of approximately 5,000 lf of 10-inch PVC water main in the older residential portions of the City as well as the historic downtown district. The historic nature of the streets affected meant that there were a large number of unknown, abandoned utilities.

Graeber Street Watermain Replacement, *Western Municipal Water District* – Senior Construction Manager for the installation of the 7,000 lf water main replacement project located on March Air Reserve Base in Riverside County. The project consisted primarily of installing new 12-inch water main along the main arterial through the base. Challenges encountered as part of this project included limited personnel access due to security, an unusually high number of unknown live and abandoned conflicting utilities, and unforeseen base activities which impacted construction.

OMAR ALAMEDDINE, EIT

CONSTRUCTION MANAGEMENT TASK LEADER – PUBLIC WORKS/ SENIOR CONSTRUCTION MANAGER

Omar Alameddine, EIT, brings an extensive background in construction management and inspection on public works and Caltrans projects. Omar has delivered projects to renew city streets and freeways, applying his firm grasp of Caltrans and Greenbook standards. He has also managed and inspected construction of recreational facilities such as soccer fields, public parks and a dog park, public facilities, domestic water, sewer, and drainage improvements. Clients appreciate Omar's penchant for precision and thorough documentation.

PROJECT EXPERIENCE

Olive Street Water Main Replacement Construction Management, *City of Anaheim* – Construction Manager for the improvement of water system reliability by replacing old 10- and 6-inch cast iron pipe with new 16-inch ductile iron pipe. The project also included the replacement of fire hydrants, valves, water services, and appurtenant structures.

Santa Ana Street Railroad Water Main Crossing with Metrolink/SCRRA, *City of Anaheim* – Contract Administrator/Construction Manager. This project consists of boring and jacking trenchless installation method, furnishing, and installing approximately 70 lf of 24-inch steel casing pipe (1/2-inch thickness) welded joints and 12-inch zinc-coated ductile iron pipe class 56 and by open-cut construction method, furnishing and installing approximately 75 LF of 12-inch zinc-coated ductile iron pipe class 52. Work also consisted of installing fittings, appurtenances, all valves, and thrust blocks, abandon in place existing water main and water services including interfering portions removal and disposal, pressure test and disinfect the water pipeline, and restoring the site to the original conditions including paving and striping restoration and disposal off site.

Atlantic Avenue Water Main Replacement Project (Liberty Court Phase 2), *Long Beach Water (Long Beach, CA)* – Assistant Construction Manager and documents control specialist for a $1-million project to install a 1,200-foot long water main under a busy arterial, Atlantic Avenue, and connect it to private service lines and other water mains. Duties included monitoring work progress, updating the schedule, filing daily reports and ensuring compliance with plans and specifications. The project was in the Liberty Court area of Long Beach.

Indiana Street Water Main Replacement, *City of Anaheim* – Contract Administrator/ Construction Manager for one of the City's first design-build projects. This design-build project consists of the construction of approximately 2,400 LF of 6-inch ductile iron CL 52 zinc-coated water main, and 200 LF of 8-inch ductile iron CL 52 zinc-coated water main located along Indiana Street between Broadway and South Street. The project also included the replacement of fire hydrants, valves, water services, and appurtenant structures.

On-Call Construction Inspection and Project Management Services, *City of Corona, CA* – Inspection services manager for inspection services of augmentation for City staff and provide construction inspection and project management services for the City CIP's roads, water and wastewater projects. The on-call contract inspection services include, but are not limited to, a variety of public works and public utilities construction and maintenance projects, such as sidewalks, concrete structures, driveways, water main and service installations; reclaimed water facilities and mainlines; sewer main and lateral installations; utility projects including mechanical, electrical, and structural work; curbs and gutters, retaining walls, earthwork, street excavation and patchwork; drainage facilities, storm drains; landscape irrigation; underground conduit installations; and street marking, and traffic sign installation to ensure construction and materials comply with contract standards and specifications, state laws, local ordinances, NPDES requirements and proper construction practices.

AMY CZAJKOWSKI, PE, CCM, QSD/P

PROJECT MANAGEMENT TASK LEADER/SENIOR PROJECT MANAGER

In her 30 years of serving water districts, municipalities, and purveyors, Ms. Czajkowski is an industry expert in program management and construction management of public water and wastewater infrastructure projects. Ms. Czajkowski's specialty is program and construction management for large CIP Programs. She also has demonstrated commitment to her programs as she has served in three large programs as the Program Manager and held the position between 4 and 10 years. Her background is very diverse (expertise in feasibility work, groundwater modeling, detailed design, construction management, and environmental and regulatory compliance) which makes her an extremely effective Program Manager. Ms. Czajkowski develops complex programmatic schedules for multi-year programs and also prepares fully executable project schedules. She is a recognized expert in the development of Agency processes and Program Management tools uniquely tailored for each agency. She also conducts trainings for all facets of Program Management and is a certified instructor through CMAA for the Certified Construction Manager (CCM) training courses. In her extension of staff Program Management roles, she trains the agency staff so at the end of the Program Management Contract, the agency PM staff can transition seamlessly into the roles.

PROJECT EXPERIENCE

Program & Project Management of Capital Improvement Plan, *Long Beach Water Utilities Department* – Program Manager. Providing program management services for Long Beach Water Department (LBWD) projects from inception through design and during construction which generally include the following steps: preparation of request for proposals for master planning, engineering design, services for construction management and inspection services; preparation of contracts; conduct meetings with LBWD staff, outside consultants, and Contractors during planning, design, and construction projects; review of deliverables for design and perform constructability reviews to ensure the contracts are bid ready; and train LBWD Project Managers and/or provide advice for resolving technical and/or construction issues as the arise. To date, managed six (6) potable water wells for both drilling and equipping and performed specialized constructability reviews for any type of water, wastewater, or recycled water project. Ms. Czajkowski prepared the overall programmatic schedule and associated Pivot Table for the staffing of projects and developed the standard CIP schedule for a typical well project from siting to completely operational.

Program Management for Near Term Water Supply & CIP, *Elsinore Valley Municipal Water District* – Program Manager. Provided Program Management for over 40 CIP projects ranging in construction value from $300K to $10M. The main focus was the construction of four new potable water supply projects, Indirect Potable Reuse (IPR) Study, groundwater basin studies and the preparation of Facilities Needs Assessments for their water and wastewater treatment plants. The contract included project budgeting; preparation of request for proposals; preparation of reports for internal District committees, and the District council; oral presentations at committee, commission, and Council meetings; and management of emergency situations. The CIP execution rate was over 90% and all projects were completed on time and with an overall 2% change order rate.

As-Needed Program Management, *City of Oceanside* – CIP Manager. This contract included the preparation of over 15 in house designs, Request for Proposal preparation, managing consultant contracts, preparation of Staff Reports and other Council documents, and all other functions to complete all of the projects listed on the Year 15/16 Capital Improvement Program (CIP).

As-Needed Project Management Services, *Vallecitos Water District* – Project Manager for the preparation of in-house designs, RFP preparation, managing consultant contracts, preparation of Staff Reports and other Council documents, and other functions to complete projects lists.

CHUCK REUCK

START-UP & COMMISSIONING/SCADA

Chuck Reuck is a highly experience SCADA specialist with 20 years of experience in the design, construction, and implementation of instrumentation and control systems. This specialized service brings a specific skill set and is invaluable during the constructability review stage. His successes have made him the regional go-to person for complex SCADA/HMI/Integration issues. Mr. Reuck also works directly with IT Departments to streamline and troubleshoot problems in the field and works with Operation's Departments to develop detailed Start-up and testing requirements.

PROJECT EXPERIENCE

1724 – Electrical Infrastructure Improvements & Digester Gas Beneficial Use Program SCADA Integration and Coordination, *San Bernardino Municipal Water Department* – SCADA Integration Manager for the project which involved installing over 4,000 LF of mega duct bank in order to energize the new equipment constructed as a part of SBMWD's Digester Gas Beneficial Use Program. This project also included the addition of a Switchgear and a new transformer to switch the power from SCE to Plant power. Mr. Reuck assisted the Department in completing this project, coordinating with SCE and ultimately transferring the electrical power to the Department's on-site Fuel cell which takes digester gas and converts this to electricity to be used on site for the WRF. Chuck performed all of the SCADA Integration work to make all of the projects operational.

DCS System Upgrade Project, *Elsinore Valley Municipal Water District* – Acted as Owner's representative during DCS upgrades of District's largest Wastewater Treatment Plant, ensuring vendor performed upgrades with minimal impacts to operations. Oversaw all upgrades and coordinated all commissioning efforts with staff. This included replacing legacy Modicon PLCS with remote I/O.

SCADA Upgrade, *City of Oceanside* – Acting as an extension of staff, provided project management and design services for the upgrade of the City's SCADA system. Responsible for upgrades to software and hardware for 4 treatment plants and over 70 remote sites. The work involved replacing two legacy iFix systems and one standalone Intouch system with Wonderware System Platform as well replacing over 100 PLCs. Designed new network layouts that increase system autonomy and redundancy and was heavily involved in troubleshooting new 2.4 GHz radio network connectivity issues. Additionally, assisted with implementation of new WIMs for department wide use.

Northwest Recycled Water SCADA Top-End Design and Implementation, *Inland Empire Utilities Agency* – Assistant Project Engineer; responsible for the design and implementation of SCADA servers, software, networking, and Microsoft operating systems. Other responsibilities included the development of the Operational Database Management System (ODMS) based on Rockwell Software's OSI-PI database, testing and commissioning procedures, O&M manuals, reporting, and fully commissioning a pilot SCADA system. Inland Empire Utilities Agency has put very high importance on this project due to it being the basis for the new SCADA system that will control their entire system.

SCADA System Upgrade Project, *City of Ottawa* – Assistant Project Engineer; responsible for the implementation of SCADA servers, including SQL server failover clusters, Active Directory and group policy design, and Network Access Protection (NAP) using 802.1x security.

Integration Manager – Mr. Reuck was responsible for managing ten system integrators responsible for SCADA design and implementations for water and wastewater agencies. Other responsibilities were to manage multiple projects to ensure they met schedule, scope, and budgets using earned value techniques. He also assisted in proposal development, company corporate strategies, and company business development.

JAMES E. HUDSON

ELECTRICAL, CONTROLS, AND INSTRUMENTATION INSPECTION

ROCKWELL CONSTRUCTION SERVICES – PRESIDENT, MANAGING PARTNER

Jim co-founded Rockwell Construction Services (RCS) in September of 2006 after a 30-year career in electrical contracting. Jim is actively involved with oversight of all operations of the Company and has been involved with all Company projects to date. As of January 1, 2024, RCS has provided Electrical, Instrumentation/Control and SCADA construction management, oversight, and commissioning services on over 400 water/wastewater infrastructure projects. Jim has established long-standing relationships with many Municipalities, Engineers, and Construction Management firms during this time. Jim and the employees of RCS are focused on not only maintaining our great reputation but also improving our methods daily.

Mr. Hudson's career began in 1975 as an electrical apprentice working predominantly in the greenhouse industry with a focus on automation and control. In 1978 he became the first employee of Rockwell Electric, Inc. of Escondido, CA. and became the Vice President and Field Operations Manager a short time later. Jim was instrumental in building Rockwell Electric, Inc. into a large and well-respected organization servicing the Water/Wastewater industry. The company provided both electrical contracting capability as well as process control and system integration services for the water/wastewater construction and service industry.

Mr. Hudson left Rockwell Electric, Inc. in 1983 and was employed by Alyeska Pipeline Service Company as an Electrical, Instrumentation and Controls Inspector on the Alaska Pipeline. He returned to San Diego in 1984 and founded North Coast Electric. North Coast Electric also concentrated solely in the Water/Wastewater industry.

Jim returned to Rockwell Electric, Inc. in 1991 and resumed his position as Vice President/Field Operations Manager. He left in 2001 and became employed by Rock Electric, Inc. as the Vice President until the inception of Rockwell Construction Services in 2006. Rock Electric also became involved with Water/Wastewater projects at this time and executed many successful projects.

PROJECT EXPERIENCE

The list of projects below is a sample of various Water/Wastewater Projects where RCS has provided Electrical and Instrumentation/Control Construction management, Oversight, and Startup Services over the course of the last 19 years. These facilities were often new, however, in many cases, included keeping an existing facility in operation while the new project was being integrated.

David C. McCollom Water Treatment Plant LT2 Upgrades, *Olivenhain Municipal Water District (Olivenhain, CA)* – Performed construction management and engineering assistance on this major upgrade project. The $16 million project upgrades the facility to comply with the EPAs Long Term 2 (LT2) Enhanced Surface Water Treatment Rule. The project includes a new energy recovery facility including two new energy recovery turbines, new raw water eq. tanks, modifications to 13 membranes, new raw water eq. tanks, new backwash eq. basin and pump station, new strainers. Involvement with the instrumentation and controls design and participation in the startup and commissioning, as-built reviews and punchlist development/resolution.

Wastewater Treatment Plant Upgrade, *Goleta Sanitary District (Goleta, CA)* – RCS provided Construction Management and inspection services on what is one of the most challenging electrical and instrumentation & control projects we have encountered. The Goleta sewage treatment facility is an existing plant. This project includes not only major new construction of expanded process capabilities, but also a complete change-out of all the plant Electrical Switchgear and Motor Control Centers (MCCs). Detailed planning and coordination are of the utmost importance during phased cutover of process areas while maintaining a fully operational plant.

RCS

AREAS OF EXPERTISE

- Construction Management
- Project Management
- Constructability Reviews
- Engineering Assistance
- Change Order Pricing Review and Negotiations
- Record As-built Documentation
- Electrical, I&C, and SCADA Inspection
- Project Cost Estimation
- Field Instrumentation Measurement and Analytical Equipment
- Water/Wastewater Industry Processes and Control
- Client Training
- Startup and Commissioning Services
- Project Closeout Services
- Facility Assessments

YEARS OF EXPERIENCE

40+ years

THOMAS M. KLEIN

ELECTRICAL, CONTROLS, AND INSTRUMENTATION INSPECTION
ROCKWELL CONSTRUCTION SERVICES – VICE PRESIDENT, SENIOR CONSTRUCTION SERVICES AND PROJECT MANAGER

Over 40 years of experience in Electrical, Instrumentation and Controls & SCADA system design, development and implementation and project/construction management. Projects primarily focused on Water / Wastewater industry. Mr. Klein has been involved in all aspects of control system development including feasibility studies, design, construction management, and field assistance including startup & commissioning, punch list resolution and final project acceptance, as well as post-acceptance support.

From 1987 to 2003 Mr. Klein was employed at Rockwell Electric, Inc. of Escondido, CA as the engineering manager. Mr. Klein's duties at Rockwell Electric included project design, project management, engineering/programming staff management, submittal preparation, UL508 Industrial Panel Shop oversight, factory testing, startup & commissioning services, O&M manuals preparation, training, and closeout activities.

From 2003-2009 Mr. Klein was employed at CyberNet Consulting Services. Mr. Klein was a senior engineer at CyberNet Consulting Services and was involved in design, construction management, and startup & commissioning activities primarily related to I&C and SCADA projects.

In 2009, Mr. Klein joined the Rockwell Construction Services, LLC (RCS) team as a principal. Mr. Klein's duties at RCS are design, design "constructability" review, change order evaluation, project schedule review and coordination, Electrical and I&C project inspection and quality assurance, testing and startup & commissioning services, and existing site investigation and evaluation. Mr. Klein also provides expertise in PLC's/RTU's, HMI's, communications and networking, and SCADA.

PROJECT EXPERIENCE

David C. McCollom Water Treatment Plant LT2 Upgrades, *Olivenhain Municipal Water District (San Diego, CA)* – Performed construction management and engineering services on this major upgrade project. The $16 million project upgrades the facility to comply with the EPA's Long Term 2 (LT2) Enhanced Surface Water Treatment Rule. The project includes a new energy recovery facility including two new energy recovery turbines, new raw water eq. tanks, modifications to 13 membranes, new raw water eq. tanks, modifications to Clean in Place facilities, new backwash eq. basin and pump station, new strainers and new chemical feed systems.Involvement with the instrumentation and controls design, submittal reviews, startup & commissioning services, as-built reviews and punchlist development/resolution. Project completed in 2013. The facility utilizes Allen-Bradley PLC's and Inductive Automation Ignition HMI.

SCADA Master Plan and Design, *City of Carlsbad (Carlsbad, CA)* – This project consisted of providing technical guidance services to the Carlsbad Municipal Water District related to their SCADA Master Planning and Design efforts. Involvement includes participating in the consultant firm selection process, project scoping assistance, and providing review and feedback during master planning efforts. As part of the design assistance, RCS prepared existing I/O signal lists for 51 water/recycled water distribution sites and 11 wastewater collection sites. The existing I/O lists were completed by gathering existing PLC Panel as-built documentation, preparing draft I/O list from gathered documentation, conducting site visits to field verify I/O and preparing a final I/O list report. The in-process design utilizes Allen-Bradley PLC's and Inductive Automation HMI.

NOTES AND ASSUMPTIONS

Engineering, Municipal, Environmental, Traffic, & Survey Notes:
* Positions noted with an asterisk are subject to overtime rates billed at 1.5 times regular rates for all time over eight (8) hours in a single day or work performed on Saturday; and double time rates for work performed on Sundays and holidays.
Other Direct Costs: Reimbursement of identifiable non-salary costs that are directly attributable to the project such as oversized and/or color reproduction costs, overnight postage, or couriers, etc., are billed at actual cost, plus fifteen percent (15%) to cover overhead and administration. Mileage required for travel are billed at the allowable IRS mileage reimbursement rate.
Fees for subconsultant services: Billed at actual cost, plus fifteen percent (15%) to cover overhead and administration.
Exclusions to Scope and Fee: The following items are specifically excluded:
– Legal advice
– Specialized software (other than MS Office Suite and MS Project)
– Expert witness services
Project, Construction Management & Inspection Notes:
[1] The above hourly rates include wages, fringe and general and administrative overhead and fee, as well as typical supplies, tools and equipment required to perform services. Construction management software is not included in the base rate.
[2] Rate applies to the first four hours of overtime during the week and /or first eight hours of overtime on Saturdays; all overtime in excess of four hours during the week or eight hours on Saturdays is paid at the Sunday/holiday rate.
[3] Prevailing Wage Rates are subject to increases pursuant to the State of California's Department of Industrial Relations Wage Rate Determinations. Ardurra's Billing Rates will increase in proportion to the DIR increase, plus overhead and profit. The current rates are based on Determination SD-23-63-3-2023-2D, issued 8/22/2023. The above billing rates increase by $5/hour on July 1, 2024 to adjust for a predetermined increase.
[4] A Special Shift is any shift that starts after 5:00PM and before 6:00 AM.
[5] The following minimum callout applies to Inspection staff, in accordance with Industrial Welfare Commission Order #16-2001: • Cancellation of 8 hours scheduled inspection after inspector's arrival on site: 4-hour minimum • Cancellation of 4 hours scheduled inspection after inspector's arrival on site: 2-hour minimum.
[6] For contracts involving public works inspection services, Ardurra requires the awarding public agency to complete DIR form PWC-100 solely for Ardurra as the prime contractor specific to the awarded contract name and amount. A half-hour per week, per inspector labor compliance charge will be billed for all Prevailing Wage inspection assignments.

Overall Notes:
Reimbursable Expenses (Other Direct Costs): Ordinary identifiable non-salary costs that are directly attributable to the project, such as regular commuter travel costs, standard equipment, tools and software, etc., are included in the fee estimated above. Extraordinary expenses, such as oversized and/or color reproduction costs, vehicle identification decals, site facility hard phone line and/or internet service charges, non-commuter project miles and/or other travel expenses to remote (over 50 miles one-way) fabrication yards / batch plants, overnight postage / couriers, etc., are billed at actual cost plus fifteen percent (15%) to cover overhead and administration. Travel charges to a casting / fabrication yard or batch plant will include the hourly billing rate plus travel expenses as listed in the Caltrans Travel Guide (State rates). Mileage is billed at the current IRS rate (currently $0.655/mile). An allowance for Extraordinary charges is included as Other Direct Costs (ODC) in the fee table above. Extraordinary charges above and beyond the estimated ODC allowance will not be billed to the Client unless specifically included in the contract or requested and approved by the Client in writing prior to incurring the additional expense.
Fees for Subconsultant Services: Billed at actual cost, plus fifteen percent (15%) to cover overhead and administration.
Web Based Contract Administration: Selected / specified cloud based service billed at cost plus fifteen percent (15%).
Escalation: Unless specified otherwise (such as for prevailing wage personnel), all billing rates are subject to annual review for Consumer Price Index escalation or 3%, whichever is greater.

RATE SCHEDULE

TASK	HOURLY RATE
Standard Professional Services (All Activities)	$195

This Rate Sheet is effective beginning January 1, 2024 through December 31, 2026 or, 3-years from the contract date of a particular project where this has been submitted as the identification of rates to be held for the project duration.

1. All effort expended will be billed at the standard rate listed above.
2. Overtime work above 8 hours per day will be charged at $390 per hour.
3. Any project that is over a 100 mi (round trip) from San Marcos, CA will be billed based on a 4-hour minimum related to field activities.
4. Drive time not included in the 4-hour minimum above, will be billed at an hourly rate of $97.50 per hr.
5. The above rates are all inclusive and include overhead.

CITY OF ONTARIO
PROFESSIONAL SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____ ___, **2024**, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **FCG Consultants, Inc.**, a **CALIFORNIA S CORPORATION**, with its principal place of business at **22885 Savi Ranch Pkwy, Suite G, Yorba Linda CA 92887** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **construction management and inspection services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the **On-Call Project Management Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **construction management and inspection** consulting services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All

Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **June 4, 2024** to **June 4, 2027,** unless earlier terminated as provided herein The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **two** additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Thousand Dollars ($600,000)** without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of

Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: **A.B. Fakhouri, PE, QSD, QSP, Kal S Lambaz, and Donald Lewis.**

3.3.5 City's Representative. The City hereby designates **Dennis Mejia (Utilities Engineering Division Manager)** or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates **Maha Alfakhouri, President/CEO**, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all

Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation.

Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq.*); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's

failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $2,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on

a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. "Covered Professional Services" as designated in the policy must specifically include work performed under this Agreement. The policy must "pay on behalf of" the insured and include a provision establishing the insurer's duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations

otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or

"maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903

(2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: **FCG Consultants, Inc.**
2285 Savi Ranch Pkwy, Suite G
Yorba Linda, CA 92887
ATTN: **Maha Alfakhouri**

City: City of Ontario
303 East "B" Street
Ontario, CA 91764
ATTN: **Dennis Mejia, P.E., Utilities Engineering Division Manager, OMUC**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required

by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has

become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

SCOPE OF SERVICES

EXHIBIT "A"

RFQ PROPOSED SCOPE OF SERVICES

The City of Ontario is seeking Statement of Qualifications from qualified consulting project management to provide On-Call Services for three (3) years, with an option of renewing for two (2) consecutive one (1) year terms. The City desires to obtain the services of a maximum of four (4) qualified firms to assist with On-Call Project Management Services. At least ten (10) years of experience providing similar services is required to oversee the work, stamp, and sign all project related documents as required.

Request for Qualifications (RFQ) for various services in various project disciplines (e.g. Architecture, Capital Improvement, Facilities Maintenance, Public Works, Water and Wastewater Distribution, Water Facilities, Extended Staff Services, etc.) with the intention of maintaining a list of multiple qualified prime consulting firms, with subconsultant support services as needed. Task orders will be issued to firms on a competitive basis based on the qualifications and expertise of the firm and their subconsultants. There is no designated minimum nor maximum value of services to be awarded to any one consultant.

Each Prospective Consultant needs to be able to provide all the services (or provide sub-consultants that must also be listed as part of their statement of qualifications) listed in this RFQ.

The following scope of services provides general categories of services that may be required for each task order requested. The categories are not an exhaustive list of services but rather a sampling of the services that are typically included, but not limited to, within that area of the scope in order to demonstrate the qualifications needed for that scope of services.

Specific services requested under these agreements shall be identified by the City at the time of the request for a specific task order. For each task order requested by the City, the Consultant shall provide a task order proposal that identifies the specific scope of services to be performed, the necessary project management activities, task budget, and task schedule. Upon City's approval of the proposed task's scope of services, the City will issue a notice to proceed with purchase order requisition for the work. The Consultant is encouraged to provide recommendations with respect to scope and order of completion.

No task order or scope of services shall be performed without first receiving authorization from the City and notice to proceed with the task order.

GENERAL REQUIREMENTS.

Consultant will be expected to work closely with staff for the duration of the assigned projects (i.e. task orders), and attend all meetings and workshops, as necessary. Any adjustments can be verified based on the need of City Project Managers. All field services must include appropriate traffic control.

Some or all of the following General Requirements and Services may be incorporated into specific tasks orders generated from the On-Call contract. The applicable General Requirements shall be based on needs of specific tasks and the City Project Managers:

Refer to Professional Services Agreement in Exhibit "B" to review the General Requirements and other conditions.

ON-CALL PROJECT MANAGEMENT SERVICES

The City of Ontario is seeking Statement of Qualifications from firms for On-Call Project Management Services:

Consultant shall be aware that certain labor categories above may be subject to prevailing wage rates as identified in the California Labor Code commencing Section 1770 et Seq. Determination of whether or not Prevailing Wages shall apply will be determined when the City's Project Manager identifies the scope of specific task orders. Please refer to Paragraph XI.11 "Prevailing Wage and Contractor Registration" of this RFQ, and Paragraph 3.10.6 "Prevailing Wages" of the Professional Services Agreement for further requirements.

Expected services to be provided under this on-call contract are as followed:

ACHITECTURAL PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

ARCHITECTURAL BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

DESIGN and CONSTRUCTION DOCUMENTS

- Attend meetings and prepare Meeting Minutes.
- Attend job-walks with architect and engineers
- Review plans at various stages and provide comments
- Provide support as required
- Review the 60 and 90% Plans and Specifications to identify potential errors, omissions, National Electric Code and coordination issues.
    - Detailed review of the Electrical drawings, Latter Logic, Relay logic, Control Logic, verification of the Instrumentation and Mechanical Drawings, and confirm that all electrical equipment are properly shown at their corresponding placements with their required signals, tagging, SCADA network connectivity, Verify all needed points and PLC Address on a list etc.
- Ensure all submittal comments have been addressed in the 100% package.

CONTRACTOR PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

CONTRACTOR BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Attend Mandatory Pre-Bid Conference, Bid Scrub, and job-walks
- Assist with RFI responses, keep logs as required
- Prepare Spreadsheet evaluating responses
- Provide support as required

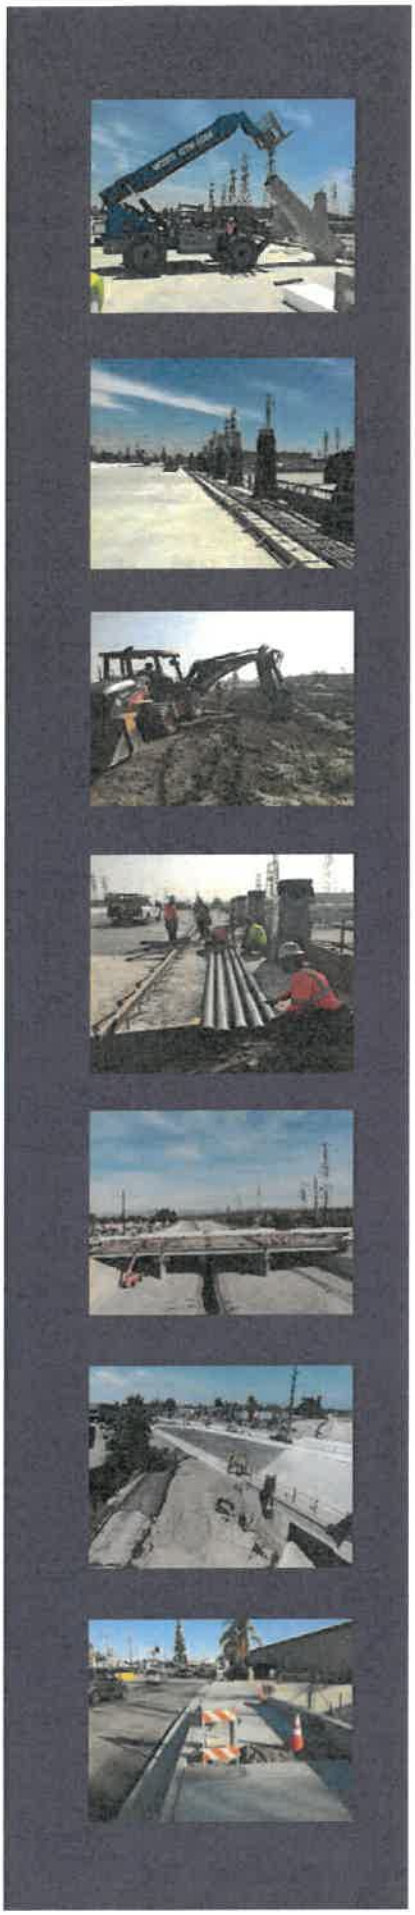
PRE-CONSTRUCTION

- Develop and update the over-all Project Schedule
- Develop and update the overall Project Budget
- Work with City staff and vendors to prepare the construction site for closure and construction
- Provide support as needed relating to Contractor Mobilization, administrative tasks, Facility Rules and Regulations for Contractors, etc.
- Attend job-walks as required to familiarize contractor with the facility and job-site
- Attend staff presentations to familiarize the affected staff as to expectations
- Attend planning meetings
- Meet with vendors as needed and as directed to obtain quotes, coordination, etc. Provide support as needed

CONSTRUCTION

- Monitor quality of construction via regular job-site inspections.
- Prepare, monitor, report periodically, and revise, as needed the Project Schedule.
- Prepare, monitor, report periodically, and revise, as needed the Project Budget.
- Attend weekly construction meetings, and provide meeting minutes, distributed to all parties
- Photograph site weekly and archive photos
- Monitor all standard construction documentation, including submittals, RFI's, etc.
- Review all contractor change orders for scope and cost approval.
- Review and monitor payment of all contractor and vendor invoices.
- Attend punchwalk on behalf of Client
- Monitor punch-list progress and completion to 100%
- Assist during punchlist period for complaints, modifications, etc.
- Provide support as needed
- On-site inspection services to ensure all electrical scope of work complies with the conformed set of plans and specifications.
    - Inspection team to be knowledgeable of all electrical, instrumentation, control logical, Discrete Input/Outputs, Analog (4-20ma) Inputs/Outputs and all SCADA/RTU systems at the project site.

FIXTURIZATION



- Assist Client with de-install and removal of existing furniture, and installation of new furniture and fixtures by Client's furniture vendor
- Obtain competitive bidding for any items or services, as directed by Client
- Prepare punchlists for furniture and fixtures
- Provide support as needed
- Attend jobwalks and/or meet vendors on site as needed

POST-CONSTRUCTION

- Attend meetings and provide Meeting Minutes
- Review requests for additional scope or services; obtain pricing, and implement, if so directed
- Provide support as required

ACCOUNTING AND PROJECT CLOSE-OUT

- Obtain close-out package from General Contractor including but not limited to as-built drawings, air-balance reports, warranty, maintenance and operations manuals, etc.
- Assist with coordination of final payment to General Contractor
- Assist with completion of Lien Release process
- Provide summary documentation, spreadsheets, analysis, etc, as directed
- Archive all electronic and paper files; provide copies of key documents and photos to Client

Ontario, CA 91764

Subject: **On-Call Project Management Services – RFQ No. 1739**

Purchasing Department,

The City of Ontario (City) is seeking proposals from consultants for On-Call Project Management. FCG Consultants, Inc. (FCG) has been providing on-call project management, construction management, and inspection services to California cities and counties for 14 years. Highlighted below are just a few of the advantages that FCG offers.

- **Local Knowledge.** FCG has provided construction management and inspection services throughout the Orange, Los Angeles, Riverside, and San Bernardino Counties since our inception. Our proposed team members are highly familiar with the City's policies and procedures, funding sources, and state and federal guidelines and standards. This knowledge and experience will enable us to quickly initiate projects and respond appropriately to City staff input and/or concerns.
- **Highly Skilled Construction Manager/Inspectors**. Our proposed Project Manager, A.B. Fakhouri, PE, is a former Resident Engineer of Caltrans District 7 and has nearly 27 years of experience specializing in public works capital improvement projects. Supported by experienced teams of Construction Inspectors, Electrical Inspectors, and Permit Inspectors. Our team members are highly knowledgeable of local codes and regulations. All our proposed staff have experience working on public works projects involving transportation and water infrastructure, utilities, and facilities/structures.
- **Staffing Resources.** Our corporate-wide bench of staffing resources encompasses licensed and certified technical experts and specialists in project management, construction management, and construction inspection services. We offer technical experts in the construction management field specializing in constructability reviews, contract administration, cost estimating, and inspection. FCG has the in-house resources to provide all the services necessary for the City's inspection services contract.

FCG is a woman-owned California Corporation and certified Small Business Enterprise/Disadvantaged Business Enterprise focused on providing client-driven solutions. Founded in 2009, FCG is headquartered in Yorba Linda, California, with a staff of 30 fully dedicated personnel providing construction management, construction inspection, and construction engineering services to clients throughout California. The firm specializes in project and construction management and inspection for various types of public works clients utilizing assorted standards such as Caltrans Local Assistance Procedures Manual, FHWA, Greenbook, and AWWA.

FCG has read and will comply with all terms and conditions of the RFP. We acknowledge receipt of addenda 1 on January 17, 2024. Our team has reviewed the RFP and all addenda for this procurement and together our team will provide the City of Ontario with the consulting services you deserve. If there are any questions regarding this proposal, please contact me at (714) 312-0317 or maha.fakhouri@fcgconsultants.com with any questions you may have.

Sincerely,

Maha Fakhouri
President & CEO

FIRM PROFILE

FCG Consultants, Inc. (FCG) a woman-owned California Corporation and Certified Small Business (SBE) and Disadvantaged business Enterprise (DBE), is focused on providing client-driven solutions to assist clients in navigating through a very challenging economy. FCG, founded in 2009, is headquartered in Yorba Linda, California with a staff of twenty-three fully dedicated personnel providing Construction Engineering, Construction Management, and Construction Inspection to clients throughout California. The firm specializes in Project and Construction Management and Inspection for various types of public works clients utilizing assorted standards such as Caltrans, Local Assistance Procedures Manual, FHWA, Greenbook, and AWWA. FCG staff are highly experienced with inspection of roadway improvements, traffic signal improvements, drainage systems, utilities, facilities, ADA ramps, retaining walls, MSE walls, soil nail walls, Structural Steel/Bolting/Welding, pedestrian/bikeways, wet CIDH pile, stainless steel, electrical, landscape, SWPPP, and Safety.

FCG serves its clients from two locations, Yorba Linda and Norwalk. With thirty (30) employees in both locations, we can cover a larger geographic market to better serve our clients. FCG's construction engineering and inspection team provides a full scope of services, from project development through project closeout to providing cost-effective and functional solutions. The FCG Team carefully plans and tailors the scope for each assignment, specific to the client and project needs. **We are fully dedicated to achieving every project and client goal and standard.**

Financial Condition: FCG is financially sound and has no bankruptcy, pending litigation, planned office closures, or impending mergers. FCG is not prohibited from professional practice or working with any Federal, State, local or public agency.

We firmly believe that with each passing year and the completion of each job for our various clients, the satisfaction of our clients will begin to further reflect the condition of our company as well as our ability to provide our clients with the professionalism and superior customer service they deserve.

Similar and Government Agency Experience: Our previous experience and ability to mobilize quickly and keep the project momentum moving forward allows us to present City of Ontario with a quality team that can work together to deliver a project successfully and on-time. The FCG Team members have extensive experience with construction management and inspection services. Each of us is familiar with construction management and inspection contracts and understands the importance of assembling a solid team. For this effort, we have selected highly qualified key staff, and additional as-needed staff, working together as a team to ensure the City of Ontario is getting the highest quality candidates and service to successfully complete any project on time. In this proposal, FCG will discuss several successfully delivered projects that are similar to this project.

Our personnel are our greatest strength and therefore our greatest asset. Our success is based on our hiring the best people in the industry to produce the highest quality results at the most reasonable price. This practice continues throughout our internal comprehensive training program that can get inspectors up to speed on any work assignment and in any work environment, concluding with our quality maintenance process. **Our employees and subconsultants have a depth of knowledge and experience that sets us apart from our competitors.**

Our personnel are highly qualified and experienced in their respective disciplines. Each of their qualifications illustrate multiple projects, past and present, they have worked on. We are proposing a sum of experienced candidates with the appropriate experience, as per the city's requirements and the RFP, who are ready and available to be deployed. This pursuit is a team effort and FCG is committed to ensuring the City of Ontario receives the highest quality service from the appropriate. ***Our team is always equipped and ready to tackle all projects within hours.***

FIRM STAFFING AND KEY PERSONNEL

The FCG team is committed to quality work, efficiency in staffing and budgeting, and delivering a successful project. FCG staff ensure this by making sure our team is selected based on availability and relevant experience, full understanding of the scope of services, and knowledge of the needs of the stakeholders. We realize our people are our greatest strength and therefore our greatest asset. Our success is based on our hiring the best people to produce the highest quality results at the most reasonable price and continues through our internal comprehensive training program that can get inspectors up to speed on any work assignment and in any work environment, concluding with our quality maintenance processes. This training program enables us to propose cross-trained staff that can cover multiple disciplines of the work, i.e., structures and roadway, electrical and landscape, etc. Cross-trained staff are key to efficiently budgeting for our services and providing clients with competitive fees.

FCG provides an array of services such as project management, construction management, and construction inspection services. Our goal as the construction management consultant is to successfully deliver projects on time, within budget, and according to plans and specifications. FCG provides construction inspection services for various projects including roadways, utilities, street lighting, traffic signals, and various other public works developments. FCG has extensive public works experience, civil engineering construction expertise, depth of resources, and knowledge of local and regulatory issues. Projects may be funded through various state, local, and federal funds and it is important for the consultant team to have knowledge of City/County Standards, Greenbook Caltrans design procedures, Caltrans Local Assistance Procedures Manual (LAMP), Caltrans Local Assistance Program Guidelines (LAPG), Caltrans Standard Plans and Specifications, and state regulatory requirements. FCG provides a team of qualified construction inspectors experienced in street, bridge, water, sewer, storm drain, safety lighting, and traffic signal inspection.

A.B. FAKHOURI, PE, QSD, QSP
Project Manager / Construction Manager

Mr. Fakhouri is a Registered Professional Engineer licensed in the State of California, and a former Resident Engineer of Caltrans District 7, Los Angeles, CA. He has worked on various interchange projects of similar nature that included bridge demolition and widening, interchange widening, relocation of utilities, electrical, 55-hour closures, and more. As a Project Manager, duties included, but were not limited to, interfacing with clients, managing and training personnel, managing subconsultants, performing construction management, and construction inspection. As a Resident Engineer, duties included identifying problems and recommending solutions, ensuring compliance with safety requirements and contract provisions, preparing calculations, reports, and correspondence, reviewing submittals and RFI's, change orders, conducting meetings, coordination, overseeing inspection, ensuring compliance to safety, SWPPP and labor laws.

KAL S. LAMBAZ
PM/CM, Quality Manager

Leveraging over 35 years of extensive experience, Mr. Lambaz has demonstrated proficiency in Construction Contracts Administration as evidenced by his tenure as a former Construction Contracts Administrator for the City of Anaheim, Senior Project Manager for the City of Irvine, and Resident Engineer at Caltrans District 7 in Los Angeles, CA. In his role as Construction Contract Administrator, Mr. Lambaz effectively oversaw the rehabilitation of 426 miles of local streets, showcasing his expertise in managing complex projects from design inception to final inspection and acceptance. Serving as a Senior Project Manager and Resident Engineer, he successfully led initiatives encompassing bridge, facilities, and road construction.

DONALD LEWIS
Construction Inspector

Mr. Lewis has over 27 years of experience in the heavy civil construction industry. He has been involved as a Project Engineer, Quality Control Manager, Superintendent and Project Manager. He has worked on freeways, highways, railroads, underground utilities, pump stations and bridges. Experience includes inspection of underground sewer, water and drainage lines. Inspection in excavations, backfill and grading. Inspection of bridge construction from pile driving, footings, bents, abutments, soffits and deck. He has most recently been involved in concrete paving from set up to hand and machine paving. Others areas of inspection and quality control include curbs, ramps, sidewalks and driveways. Mr. Lewis has extensive experience with Caltrans, flood control districts and various City and County projects.

RESUMES OF KEY PERSONNEL

A.B. FAKHOURI, PE, QSD, QSP
Project Manager / Construction Manager

Mr. Fakhouri is a Registered Professional Engineer licensed in the State of California, and a former Resident Engineer at Caltrans District 7, Los Angeles, CA. His experience encompasses various public works projects including bridges, widening, Caltrans right-of-way projects, roadways, parks, playgrounds, bike and pedestrian trails, traffic signals, ramp construction and widening, retaining wall construction, traffic control, night work, landscape, irrigation, sewer, drainage, tie-back walls, buildings and facilities, tenant improvements work and various other public works developments.
In his role as a Project Manager, Mr. Fakhouri's responsibilities included, but were not limited to, client interface, personnel management and training, oversight of subconsultants, and the proficient execution of construction management and inspection tasks.
During his tenure as a Resident Engineer, Mr. Fakhouri demonstrated a keen ability to identify and address problems, ensuring rigorous compliance with safety requirements and contractual provisions. His duties extended to the preparation of detailed calculations, reports, and correspondence, as well as the meticulous review of submittals, Requests for Information (RFIs), change orders, and the facilitation of meetings. Additionally, his role encompassed effective coordination, thorough inspection oversight, and ensuring adherence to safety protocols, Stormwater Pollution Prevention Plan (SWPPP) guidelines, and labor laws.

RELEVANT EXPERIENCE

Whittier Greenway Trail Extension Gap Closure Project, City of Whittier, CA
Construction Inspector: Project consisted of developing a 2.7-mile-long easement into a 15 ft wide walking trail along Union Pacific Railroad owned property in the City of Whittier, CA. This project also includes the Lambert Road Traffic Signal Synchronization Project. Work also included assisting the Resident Engineer with filing, public relations, produce daily diaries and photos, monitor contractor progress, and produce pay estimates, conduct employee interviews, review Change Orders, and correspondences. ***Duration:*** 01/2021 - Ongoing. ***Cost:*** $5.8 Million.

SR-210 Widening and Rehabilitation Project, Caltrans District 7, Sylmar, CA
Construction Inspector: Project consists of 10 miles of concrete pavement rehab and replacement. Work includes, but not limited to, traffic control, mass excavation, median barrier removal and replacement, electrical, drainage, overhead signage, grading, asphalt and concrete pavement and striping. Duties include field inspection of all work performed, SWPPP oversite, producing daily reports, including photos. Inspection of traffic control and equipment. Tracking and recording daily quantities. Safety oversight and implementation, including production of the Job Hazard Analysis. Coordination with testing firm for batched concrete and aggregates. ***Duration:*** 07/2020 – 01/2021. ***Cost:*** $120 Million.

LAX / APM, Los Angeles World Airports, Los Angeles, CA
Construction Inspector: Project consists of a 3-mile elevated light rail from CONRAC (Consolidated Rental Car Facility) to Tom Bradley International Terminal. Duties included but were not limited to the following: Inspection of and coordination with QA personnel on work being performed. Coordinate material orders, deliveries, and placement. Assist with 60% and 90% plan reviews for accuracy and constructability. Met with LAWA personnel on upcoming work and conducted meetings on critical topics in relation to road closures and possible impacts to travelers. Inspected pothole activities and coordinated existing conditions with the designers. Coordinated and conducted meetings between the demolition contractor and LAWA personnel. ***Duration*** *06/2018 – 05/2019.* ***Cost:*** $4 Billion.

Raymond Bridge Grade Separation, Fullerton, CA
Construction Inspector: Project consisted of the following: Construction of two bridges that allowed Raymond Ave to pass under the BNSF railway and Valencia Blvd. Utility relocations including water, storm drain, gas, sewer, and fiber. Inspection of soil excavation and logging and documentation of hazardous material. Organized manifests and created logs for the City of Fullerton. Coordinated the construction of the bridge structures and material testing. Attended weekly progress meetings. Organized extra work documentation and discussed with Agency personnel. Inspected jobsite for SWPPP BMP's and relayed information to the QSP. Relayed progress with local neighbors and businesses and addressed any issues. Conducted JHA paperwork. ***Duration:*** 12/2015 06/2018. ***Cost:*** $47 Million.

I-5 Camp Pendleton Pavement Rehab and Replacement, CA
Construction Inspector: Project consisted of twelve miles of two-lane complete replacement in both directions, including individual slab replacements. Served as aggregate quality control manager at the batch plant. Built and maintained daily production logs of concrete paving. Insured crews were performing work of high quality and in a safe manner. Project also included shoulder widening with new base and asphalt structural sections. Verified excavation limits were accurate as the area was within the Coastal Commission boundaries. Produced daily diaries of work performed and logged daily photos. ***Duration:*** 02/2015 – 12/2015. ***Cost:*** $32 Million.

ORGANIZATIONAL CHART

FCG has assembled an in-house team of experienced construction management and inspection professionals that will successfully deliver this project on time and within budget. The organizational chart below shows our project team as follows:

City of Ontario

Purchasing Department

Project Manager

A.B. Fakhouri, PE

LEGEND
FCG = FCG Consultants, Inc. (Prime)
PPI = Pacific Pros, Inc. (Sub)
Samsa = Samsa Engineering, Inc (Sub)
PMCS = PMCS Group Inc. (Sub)
DE = Destination Enterprise, Inc. (Sub)
CEMS = Const. Eng. Mgmt. Solutions, Inc. (Sub)
Hill = Hill International, Inc.

Project Team

Project Managers / Construction Managers

A.B. Fakhouri, PE FCG
Fabian Aoun, PE FCG
Kal Lambaz FCG
Saeid Asgari, PE CEMS
Bob Bazargan, PE CEMS
Bridget Day, PE Hill

Ryan Kash, PE PPI
Ghassan Haidar PMCS
Alex Nunez PMCS
Raymond Delgadillo PMCS
Azzam Saad, PE Samsa
Matthew McMenamin, PE Hill

Samar Saad, PE Samsa
Jeff Cooper DE
Jaz Jahazi DE
Robert Fahim DE
Emmanuel Lamento DE
Michael Wycoff Hill

Construction Inspectors

Anthony Moussa FCG

SWPPP Inspectors

Talal Alfakhouri FCG
Bill Fernandez FCG
Tyler Haddadin FCG
James Bonelli FCG

Office Engineers/ Labor Compliance

Jasmine Fakhouri FCG
Majed Moussa FCG
Mansi Desai Samsa

Cost Estimator

Hennie Degenaar DE
Emmanuel Lamento DE

The key personnel proposed for this project will be available to the extent proposed for the duration of the required services. No person designated as "key" will be removed or replaced without the prior written concurrence of the City of Ontario.

SUBCONSULTANTS

Hill International, Inc. – Project Management / Construction Management

Hill International, Inc. (Hill) is an international construction consulting firm that provides program and project management, construction management, cost engineering and estimating, quality assurance, inspection, scheduling, risk management, and claims avoidance to clients involved in major construction projects worldwide. Hill has participated in over 90,000 project assignments, with a total construction value of more than $1 trillion. Hill is the 4th largest project and construction management firm in the U.S., as featured in Building Design + Construction magazine. We are also ranked the 8th largest overall U.S. construction management firm by Engineering News-Record magazine. Our staff includes professionals in all construction and building-related disciplines, including planners, schedulers, estimators, value engineering specialists, construction managers, resident engineers, construction inspectors, and a full range of technical and support staff to represent owners. Our depth of expertise means we will always be able to support your project, regardless of manpower needs. The table on the following page provides a breakdown of our professional staff by discipline. DIR Registration # 1000019597

PMCS Group, Inc. – Project Management

PMCS Group, Inc. (PMCS), a Long Beach based SBE firm, brings over 18 years of providing successful project and construction management support to Southern California cities, counties, and other public entities. Our team of over 120 professionals have delivered numerous similar projects in the Orange County, Los Angeles, and surrounding areas, including street widening, repaving, and resurfacing; traffic signal improvements; parks; pump stations; water resources; facilities (fire stations, police stations, educational buildings); sports fields and playgrounds; and additional infrastructure projects. In addition to PM/CM services, our team provides project engineering, scheduling, estimating, document control, constructability and biddability review, design management, inspection, surveying, and safety compliance. Throughout our project experience, PMCS and our proposed team members have overseen projects with local, state, and federal funding, ensuring our team can deliver any capital improvement projects for the City of Ontario on schedule, on budget, safely, and to the quality standards set by the City. DIR Registration # 1000017900

Pacific Pros, Inc. – Project Management / Structures

Pacific Pros is a firm specializing in bridge construction, especially steel bridges with extensive experience in inspection of pedestrian bridges/bike path, all structural elements, elevators, architectural features, accessibility, and design of pedestrian bridges. Pacific Pros' Headquarters is in Aliso Viejo with a strong local presence. Pacific Pros has extensive experience on major California bridge projects with key project credit of the International Gateway Bridge, aka, the Gerald Desmond Replacement Bridge. Pacific Pros has extensive Caltrans experience. Pacific Pros provide construction managers, specialty inspectors and seasoned inspectors that can support any project in the City. DIR Registration # 1000059027

CEM, Inc. – Claims Management / Scheduling

CEMS is a certified SBE providing vital Construction Management Support on various projects with various agencies such as OCTA, LA Metro, Caltrans, and Contractors providing support services that includes Program/ Project/ Construction Management, Construction Quality Validation Management, Claims Support Services, Claims Avoidance, Claims Resolution, and CPM Scheduling Review and Analysis. CEMS, Inc. will bring to Our clients the Lesson Learned Experience we have gained by providing comprehensive inspection/ Construction Management services within the Southern California region for over 30 years. Our team has significant experience on local freeway widenings and Bridge structure projects. DIR Registration # 1000046494

Samsa Engineering – Project Management – Construction Management

Samsa Engineering (Samsa) is a corporation founded in 2023 as a DBE/SBE/WBE firm. Samsa provides construction/project management, construction inspection, office engineering, and claims expertise for projects involving streets, bridges, bike trails, and drainage improvements. The Samsa Engineering team brings a wealth of diverse experience to successfully deliver public infrastructure projects. Our team members have cultivated expertise from both the contractor and owner representative perspectives, offering a well-rounded understanding of the intricacies involved in each individual project from inception to close-out.
DIR Registration # PW-LR-1001044844; DBE 51588

Destination Enterprises, Inc. – Project Management – Construction Management

Destiantion Enterprises, Inc. (DE) a corporation founded in 2005 as a WBE, SB, and LGBTBE firm. DE provides project management, construction management, inspection services, scheduling, estimating, constructability reviews, utility coordination, document control, labor compliance, and claims management. Our CM experience includes providing construction managers, Resident Engineers, Office Engineers, safety managers, and inspectors to support owners in the oversight of general contractors and subcontractors, providing superior specialized expertise in the field to ensure that projects are safely constructed to meet the plans, specifications, and requisite quality.
DIR Registration # 1000035864; WBE 13090030

EXPERIENCE

FCG Consultants, Inc. (FCG) is a highly experienced company that has been serving California Cities and Counties for over a decade. With a focus on on-call project management, construction management, and inspection services, FCG has established a strong reputation in the industry. Our expertise extends to projects funded at the local, state, and federal levels, ensuring that we are well-versed in the diverse requirements and regulations that accompany these projects. With 14 years of experience under our belt, FCG is committed to delivering top-notch services and helping our clients achieve their project goals. Mr. A.B. Fakhouri, PE, QSD, is our proposed Project Manager and will be assigned for the duration of the project. He is a former Resident Engineer of Caltrans District 7 with more than 27 years of project management, design, and construction experience on transportation infrastructure, water infrastructure, and various other public works projects. He gained his experience working for Caltrans, County Departments of Transportation, Transportation Authorities, and local cities. His project management experience includes contract administration and on-site management involving multiple contractors, and he is highly experienced with the Caltrans Construction Manual and Local Procedures Assistance Manual. He will provide quality control over construction inspection services and will manage the contract and the budget. FCG's relevant project experience is a demonstration of the different projects we have worked on from bridge widening to Caltrans right-of-way, utility relocation, traffic signals, building and widening ramps, building retaining walls, traffic control, night work, and 55-hour closures. We have completed this work enforcing different specifications, including Caltrans Standard Plans and Specifications, Greenbook Standard Plans and Specifications, SWPPP, Safety, Cal-OSHA, Caltrans Safety Requirements, and Caltrans Structures Safety Requirements.

The following table shows some of the On-Call projects FCG and the Project Manage are managing:

Agency	Project
Construction Management and Inspection	
City of Irwindale	On-Call PM/CM/Inspection Contracts
City of Downey	On-Call PM/CM/Inspection Contracts
City of Burbank	On-Call PM/CM/Inspection Contracts
City of Bellflower	On-Call PM/CM/Inspection Contracts
City of Anaheim	On-Call PM/CM/Inspection Contracts
City of Santa Clarita	On-Call PM/CM/Inspection Contracts
City of Santa Fe Springs	On-Call PM/CM/Inspection Contracts
City of Glendale	On-Call PM/CM/Inspection Contracts
City of Culver City	On-Call PM/CM/Inspection Contracts
City of San Fernando	On-Call PM/CM/Inspection Contracts
City of Fontana	On-Call PM/CM/Inspection Contracts
City of Diamond Bar	On-Call PM/CM/Inspection Contracts
Caltrans Districts 4, 7, 8, 11, 12, and 59	Various On-Call PM/CM/Inspection Contracts – State & Fed. Funds
Various Counties: Los Angeles, Orange, & San Diego	On-Call PM/CM/Inspection Contracts – State & Fed. Funds
Various Ports: SD, LA, & Long Beach	3 On-Call PM/CM/Inspection Contracts – State & Fed. Funds

PROJECT SPECIFIC EXPERIENCE

City of Downey On-Call Public Works Construction Management and Inspection Services

Services Description

This contract includes performing construction management and construction inspection on the city's various capital improvement projects. The construction manager is responsible for the administrative aspects of the projects, and the inspectors are responsible for overseeing the construction of the various projects according to the project's plans and specifications, work permits, and day to day inspection activities on construction jobs. Capital improvements projects includes street and intersection widening, pavement rehabilitation and reconstruction, water and sewer improvements, streetscape enhancements, landscaping and irrigation, drainage, sidewalks, curb ramps, and other pedestrian improvements. Duties and responsibilities of the construction manager and inspectors include, but not limited to project review and plan check, construction observation, project coordination including communications with the city, meetings, and keeping projects on schedule and within budget, and administrative.

Scope of Services

FCG performes construction management and inspection services on various CIP projects for the City of Downey. Work included traffic control, removals, concrete and asphalt paving, curb and gutter, ADA ramps, sidewalk, street lighting, traffic signals, service connections, drainage, landscape, and striping.

Sample Projects

- **Florence Avenue Pavement Rehabilitation Project**: Project consisted of removal and replacement of existing asphalt pavement, striping and installation of pavement marking, curb, gutter, cross gutters, sidewalk, ADA ramps.
- **5th Street Pavement Rehabilitation Project**: Project consisted of pavement rehabilitation of 5th Street, between Brookshire Avenue and Lakewood Boulevard including 3 cul-de-sacs. This project included reconstruction of failed pavement areas, cold milling of asphalt pavement, construction of asphalt concrete (AC) base course and asphalt rubber hot mix (ARHM) overlay, striping, and installation of pavement markings.
- **Woodruff Avenue Traffic Signal Fiber Optic Communication System and Upgrades Project**: Project consisted of upgrading the existing fiber optic system and traffic signal at various signalized intersections. This project also included installation of conduits, innerducts, pull boxes, various fiber optic cables, communication equipment, hub cabinets, controllers, and traffic signal modification integration.

City of Irwindale As-Needed Construction Inspection Services

Services Description

This contract includes performing construction inspection on the city's various public works projects in the City of Irwindale. The construction manager is responsible for the administrative aspects of the projects, and the inspectors are responsible for overseeing the construction of the various projects according to the project's plans and specifications, work permits, and day to day inspection activities on construction jobs. The various projects in the City of Irwindale involve all local utility companies as well as small city projects.

Scope of Services

FCG performes construction management and inspection services. Work included traffic control, removals, concrete and asphalt paving, curb and gutter, ADA ramps, sidewalk, street lighting, traffic signals, service connections, drainage, landscape, striping, and more.

Sample Projects

- **Senior Center Interior Remodel Improvements Project**: Project consisted of remodeling improvements on the center's interior. FCG's inspector performed inspection in accordance with the project plans and special provisions, the standard specifications, and the "Los Angeles County Building Code".
- **Water Pipeline Extension Project**: Project consisted of construction management and inspection for the Water Pipeline Extension Project located on Live Oak Avenue
- **Off-Site Improvements at the Park at Live Oak Project**: Project consisted of construction of new sidewalk, median and parkway landscaping / irrigation, two new traffic signal intersections, on traffic signal intersection modification, resurfacing and restriping, and water and sewer pipe installation.
- **2022-2023 Resurfacing Project, Residential Resurfacing Phase II:** Project consisted of resurfacing eight (8) residential streets, improving the striping at an arterial intersection, and minor concrete removal and restorations.
- **Constructability Review Services for Irwindale Park Improvements Phase IV & V Project**

City of Burbank On-Call Construction Management and Construction Inspection Services

Services Description

This contract includes performing construction inspection on the city's various public works projects in the City of Burbank. The various projects in the City of Burbank include Traffic Signals installation and modification, Street Pavement and Rehabilitation and Improvements.

Scope of Services

FCG performes construction management and inspection services. Work included traffic control, removals, concrete and asphalt paving, curb and gutter, ADA ramps, sidewalk, street lighting, traffic signals, service connections, drainage, landscape, striping, and more.

Sample Projects

- **Bid Schedule 1426 – Media District Traffic Signal Improvements Project**: Project consisted of street improvements at 3 locations, traffic signal modifications at 8 locations and signing and striping modifications.
- **Bid Schedule 1461 – Traffic Responsive Signal System Project**: Project consisted of reconstruction of three traffic signals and installation of 8000 feet of conduit for fiber optic cable, new poles, pull boxes, conduits, conductions, video cameras, loops, and curb ramps
- **Bid Schedule 1462 – Midtown Commercial Corridors Improvement Project**: Project consisted of reconstruction of 6 traffic signals, removal and replacement of poles at 8 traffic signals, and install LED lighting and loop detector conduits at 29 traffic signals.
- **Bid Schedule 1454 – Glenoaks Blvd Arterial and First Street Signal Improvements Project:** Project is funded by Metro Measure R and consists of traffic signal modification for 13 intersections along Glenoaks Blvd, and 1 intersection on Orange Grove Ave. and 1st Street. Improvements include removing and installing new signal poles, signal heads, pull boxes, conduits, LED luminaires, markings, audible pedestrian signals (APS). detection loops. ADA ramps, AC pavement restoration, and signage.
- **Bid Schedule 1436 – City Parking Lot Resurfacing**: Project consisted of resurfacing of Parking Lot
- **Bid Schedule 1458 – Various Streets Improvements**
- **Bid Schedule 1506 - Annual Arterial Pavement Rehabilitation Project**
- **Bid Schedule 1427 – Construction Management services for the Measure R I-5 Project**

METHODOLOGY & WORK PLAN

SCOPE OF WORK

FCG proposes to provide the City with staff augmentation services for Construction Management, Inspection, and Sampling Services.

Understanding of Need

FCG will provide the City of Ontario with as-needed Construction Management, Inspection, and Sampling Services for capital improvement projects at the City's request. FCG provides services including roadways, structures, utilities, street lighting, traffic signals, Irrigation and landscaping, and various other public works developments. We are ready to assist the City with constructability reviews, contract administration, construction management, cost estimating, inspection, collaboration with stakeholders to solve problems, maintaining records, and reporting, as well as document control, claims mitigation, utility coordination, and project acceptance. FCG has extensive public works experience, civil engineering construction expertise, depth of resources, and knowledge of local and regulatory issues. Projects may be funded through various state, local, and federal funds and it is important for the consultant team to have knowledge of City/County Standards, Greenbook Caltrans design procedures, Caltrans Local Assistance Procedures Manual (LAMP), Caltrans Local Assistance Program Guidelines (LAPG), Caltrans Standard Plans and Specifications, and state regulatory requirements.

Specific services FCG offers the City to assist in managing its capital improvement program include but not limited to:

Project Management

Our goal as the Project Management and Construction Management consultant is to successfully deliver projects on time, within budget, and according to plans and specifications. The tables below briefly list the construction management services provided by The FCG Team:

Project Management Services
Provide support to the Director or Designee to administer the CWA; assist with interpretations and notices
Work with City staff to discuss, develop solutions and resolve issues of concern
Facilitate the orderly settlement of labor disputes and grievances without strikes or lockouts
Monitor relations between unions and contractors; maintain grievance documentation
Monitor contractors' compliance with worker utilization goals and work with contractors to meet or exceed goals; work with local organizations to support worker utilization goals
Collect, analyze, and maintain files related to the CWA, including, but not limited to, Letters of Assent, evidence of core worker qualifications, veteran status, and workforce compliance
Provide CWA status update reports for each project, as directed by City staff
The Consultant shall also monitor and enforce labor compliance requirements, unless otherwise directed by the City, including, but not limited to:
Development of labor compliance administration structure and program implementation
Monitor and enforce compliance with the California Labor Code, the California Code of Regulations, and if applicable, the Davis-Bacon and Related Acts
Visit project construction sites to conduct labor compliance interviews, and if federal, Equal Employment Opportunity (EEO) interviews and observations
Work with contractors and subcontractors who are delinquent with prevailing wage requirements toward prompt resolution
Process, investigate, resolve, and recommend referral to the State Labor Commissioner when wage violations occur; recommend withhold of contractor payments as necessary

Designed Support

Design Support
FCG offers Specifications Development and review and can generate project specific special provisions (Green Book – 2021 or older).
FCG Offers Peer Design review.
FCG will conduct complete constructability and buildability reviews of proposed projects to conform with the PCC, Standard Specifications, and Design Standards. Information will be inputted on a spreadsheet for easy follow up.

Construction Management

Construction Management Services
Conduct a pre-construction meeting and bi-weekly construction meetings with the contractor, the City, and all other involved parties. Prepare and distribute meeting agendas and minutes.
Manage and coordinate all aspects of the project including coordinating with City staff, multiple contractors, agencies, and project stakeholders.
Prepare Weekly Status Reports and Statements of Working Days.
Coordinate design changes with the Engineer of Record.
Participate in field meetings and document issues, findings, directions, changes, etc., and develop solutions.
Prepare, monitor, and update the construction schedule.
Prepare change orders in the City's standard format.
Maintain a record of accounting costs including approved change orders.
Review payment requests, make payment recommendations, and prepare progress payments in the City's standard format.
Review and coordinate the approval of shop drawings with the design consultant.
Review and approve materials submittals.
Log, track, and process submittals, Requests for Information (RFIs), Requests for Changes (RFCs), Contract Change Orders (CCOs), field directives, Notices of Potential Claims (NOPCs), Non-Conformance Reports (NCRs), construction schedules, and detailed traffic control plans.
Provide the City with As-Built and electronic sets of drawings at project completion.
Monitor materials documentation and testing results as well as enforce corrections.
Conduct labor compliance per LAMP requirements. Maintain project files per LAMP guidelines.
Review and approve the contractor's safety program and traffic control plan.
Review and respond to all RFCs.
Process all project documentation per City and Caltrans guidelines.
Perform a constructability review of the 100% plans, specifications, and estimates.
Prepare cost estimates.
Verify contractor conformance with the City's Community Workforce Agreement (CWA).

Maintenance and Facilities Construction Support

FCG staff have managed Maintenance and Facilities for municipalities and will perform the following:

Assessment
FCG will assess the current concrete condition (damaged, cracked, displaced, and ADA) of the entire length of proposed project and other miscellaneous areas concrete facilities (sidewalks, curbs and gutters, ramps, driveway approaches, spandrels, and cross gutters, etc.) and other areas as assigned. This assessment will include determining if the sidewalks and other facilities need replacement, grinding, temporary ramps, etc. for the consultant to generate lists of actions needed. The process and techniques used to evaluate the concrete facilities will be explained in a report.
FCG will input information that includes location, measurements, etc. on a spreadsheet.
FCG will generate a google map that lists the addresses of locations identified, list of items for bidding purposes.

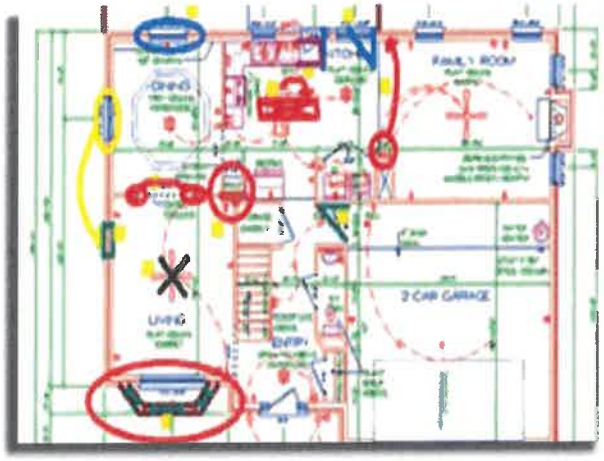
Utility & Agency Coordination

The FCG team is highly experienced in coordinating with utility companies and third parties to achieve successful project completion. Third-party coordination services include the following tasks:

Utility & Outside Agency Coordination Services
Send notification of the pre-construction meeting to all affected utility companies, the Sheriff's Department, the Orange County Fire Department, and other project stakeholders prior to construction.
Review project scope of work with each utility company at the construction conference and review possible conflicts. Work with each utility to ensure that specific needs of the project are understood.

Labor Compliance

The FCG team is highly experienced enforcing labor compliance in accordance with State and Federal requirements, specifically LAMP and Community Block Development Grant (CBDC) program requirements:



Labor Compliance Services
Verify eligibility of selected contractor and its subcontractors to receive contract awards by confirming current, active license status with Contractors State License Board; current, valid contractor's bond and workers' compensation coverage; LAPM submittal requirements; non-appearance on Federal List of Parties Excluded and State Division of Labor Standards Enforcement lists.
Attend preconstruction meeting to present federal labor compliance requirements to contractor and subcontractors; prepare minutes and attendance record.
Verify and document jobsite posting of wage rate information and required labor compliance posters. Conduct site visits to monitor workforce utilization; perform labor compliance interviewing of employees on site, using appropriate forms, in the proper frequency and of the proper work classifications required by governmental authorities.
Receive and review labor compliance documentation from public works observers or inspectors and compare with contractor-submitted documents and interviews and information obtained from site visits. Monitor contractor payroll documentation of certified payroll reports, fringe benefit statements, apprenticeship documentation, and payroll deduction authorizations.
Review and verify the contractor's skilled and trained workforce certification and monthly skilled and trained workforce reports.
Follow up with contractor by telephone, email, and/or certified mail regarding required document submittals and payroll discrepancies. Provide detailed description of deficiencies; outline corrective actions; and enforce deadlines for compliance.
Receive, pursue, and document labor complaints and/or violations; prepare violation reports to oversight entities as required; recommend special action to be taken if contractor continuously fails to comply with requests and requirements.
Coordinate with City staff the withholding of progress payments if contractor fails to abide by labor compliance requirements.
Maintain content and format of federal labor compliance file in conformance with applicable government requirements.
Coordinate project file reviews by authorized county, state, and federal agencies.
Submit complete federal labor compliance file to City for retention.

Project Close-Out

The FCG team will assist the City with all aspects of project close-out, including, but not limited to, the following tasks:

Project Close-Out Services
Coordinate a final walk-through with all affected stakeholders, prepare the punch list, certify completion of the project, and recommend acceptance.
Transmit the contractor's approved Record Drawings (As-Builts) to the City. Provide an electronic version of all drawings. Provide paper and electronic files of all construction documents in the City's approved format.
Finalize record drawings, contract bid items, claims, change orders, and punch list items.
Prepare all final reports, including report of completion for acceptance of the project.
Finalize and deliver all construction files to the City for archives.
Address any unresolved issues including, but not limited to, change orders, claims, etc.
Complete documentation required by LAPM.

METHODOLOGY

1) **Constructability/Biddability Reviews -** The FCG Team will review the plans and special provisions during design for errors and constructability and biddability issues, report those findings to City of Ontario, and will coordinate with the design team to eliminate such issues. By being active during design, these findings typically provide for accurate and concise bids that eventually reduce RFI's, changes or claims during construction. Most importantly, bid items in the Special Provisions must be clear as they describe the work, measurement of the work, and what is included in the payment of each item.

2) **Value Engineering (VE) -** The FCG Team will conduct value engineering as requested by the city. We will follow the FHWA VE process during the concept and design phases, by using a multidiscipline team of engineers not involved in the project, that will provide recommendations for:

- the needed functions safely, reliably, efficiently, and at the lowest overall cost.
- improving the value and quality of the project.
- reducing the time to complete the project.

3) **Public Bidding Phase Support -** The FCG Team will assist the City of Ontario in the construction bid procurements, including contract documents, Federal and State requirements, Plans and Special Provisions, and permit requirements. We will perform all work per the City and Caltrans Construction Manual and Local Assistance Procedure Manual.

4) **Submittal Tracking and Reviews -** The FCG Team will provide the contractor with a list of submittals as per the Special Provisions, then perform a thorough, comprehensive review of the contractor's submittals. We will work closely with City of Ontario to determine which submittals the design consultant will review, and which will be reviewed by the FCG Team. A Submittal log will be developed, maintained, and tracked according to when they are received and returned to the contractor and a copy will be included with each transmittal and at the weekly meetings. Materials releases and certificates of compliance will be kept in the appropriate filing categories, and materials summary sheets will have a running total of materials used on the Project. Anticipated submittals include, but are not limited to, baseline schedule, bi-weekly lookahead schedules, shoring plans, falsework plans, demolition plan, bridge materials, concrete mix designs, HMA job mix, shop drawings, quality control plans, traffic handling plans, piling plans, health and safety plan, lead compliance plan, and temporary lighting plan.

5) **Construction Staking –** Surveying Services will be provided by our sub-consultant West Land group, Inc.

- Under the direction of the Resident Engineer and FCG inspector will coordinate with the Contractor for verification of Contractor's staking, layouts, controls, spot check reference points, and finished work. The Surveyor will acquire the horizontal control and record maps from the City and identify existing survey monuments/right-of-way.
- The FCG Team will verify contractor's surveyor staking and layout to ensure compliance with State's requirements in terms of preservation and/or re-establishment of survey monuments, including recordation requirements.
- The FCG Team will verify contractor's surveyor work to ensure compliance with all required construction survey requirements including, but not limited to, setting lines and grades, construction staking, preparation of cut sheets, etc.
- The FCG Team will prepare and file any documentation required for recordation with the LA County Recorder's Office.
- The FCG Team will perform any other survey activities as deemed necessary by the City to ensure construction of the Project is following the PS&E.

6) **Construction Management & Controls -** Our goal as the construction management consultant is to successfully deliver projects on time, within budget, and according to plans and specifications. The FCG Team will provide the following services:

- Conduct a pre-construction meeting and bi-weekly construction meetings with the contractor, the City, and all other involved parties. Prepare and distribute meeting agendas and minutes.
- Manage and coordinate all aspects of the project including coordinating with City staff, multiple contractors, agencies, and project stakeholders.
- Prepare Weekly Status Reports and Statements of Working Days.
- Coordinate design changes with the Engineer of Record.
- Participate in field meetings and document issues, findings, directions, changes, etc., and develop solutions.
- Prepare, monitor, and update the construction schedule.
- Work with the City of Ontario during the construction Contract Award and Change Order process to assist City of Ontario in controlling the costs of the Project and controlling the factors that may escalate Project costs. The FCG Team will receive, process, track, and document Project requests for Contract Change Orders from the Contractor and a CCO log will be established at the beginning of the Project and will be continuously maintained and updated by the RE. To the delegated level of approval, and under the City of Ontario's direction, the FCG Team will determine the need, merit, scope, estimated cost, and schedule impacts to the project because of potential contract change orders. The FCG Team will also negotiate change orders with Contractor as directed. Once merit is established, The RE will prepare change orders based on the Contract Documents and in close coordination with the Design Engineer and City Project Manager.
- FCG's CM will manage the Project's budget and will set up an internet-based document controls system. The team will prepare independent monthly estimates for the Project duration, review payment requests, make payment recommendations, and prepare progress payments in the City's standard format monitoring both the Project and contingency budgets. Our report to City of Ontario will include amount paid to contractor to date, previously paid amount to contractor, percent complete of each bid item, executed change orders, and retention withheld from each pay estimate. Our intent is to keep the City of Ontario fully informed of the financial status of the project.
- Provide the contractor with a list of submittals as per the Special Provisions, then perform a thorough, comprehensive review of the contractor's submittals. We will work closely with City of Ontario to determine which submittals the design consultant will review, and which will be reviewed by the FCG Team. A Submittal log will be developed, maintained, and tracked according to when they are received and returned to the contractor and a copy will be included with each transmittal and at the weekly meetings. Materials releases and certificates of compliance will be kept in the appropriate filing categories, and materials summary sheets will have a running total of materials used on the Project. Anticipated submittals include, but are not limited to, baseline schedule, bi-weekly lookahead schedules, shoring plans, falsework plans, demolition plan, bridge materials, concrete mix designs, HMA job mix, shop drawings, quality control plans, traffic handling plans, piling plans, health and safety plan, lead compliance plan, and temporary lighting plan.
- Provide construction staking.
- Log, track, and process submittals, Requests for Information (RFIs), Requests for Changes (RFCs), Contract Change Orders (CCOs), field directives, Notices of Potential Claims (NOPCs), Non-Conformance Reports (NCRs), construction schedules, and detailed traffic control plans.
- Provide the City with As Built and electronic sets of drawings at project completion.
- Monitor materials documentation and testing results as well as enforce corrections.
- The FCG Team will conduct labor compliance per LAMP requirements. Maintain project files per LAMP guidelines.
- Review and approve the contractor's safety program and traffic control plan.
- Review and respond to all RFCs.
- Process all project documentation per City and Caltrans guidelines.
- Provide community public relations and outreach services.

7) **Contract Administration –** The FCG's CM/RE and Office Engineer will establish and maintain a filing system in hard copy as well as electronically, using the Caltrans Construction Manual as a guideline to ensure compliance with Federal funding requirements. FCG typically utilizes the Caltrans filing system on projects. Additionally, FCG's Office Engineer will upload the electronic data documentation to the City. All hard copy files will be scanned as PDF files and stored digitally on a server with a filing structure duplicating the hard copies and will provide regular reports as required by the funding agreements.

8) **Inter-agency and Third-Party Utility Coordination -** The FCG's Team will manage the Project's utility coordination efforts with the contractor and the local utility companies. A critical factor for constructing any project is early partnering with utility companies within the project limits. Our CM and the FCG Team will coordinate with each utility company and work diligently to communicate, schedule, and achieve the timeline for each relocation or new construction. For utilities planned for relocation during construction, the FCG Team will initiate coordination with the contractor and the respective utility to plan for USA Dig Alert, potholing, and scheduling of the relocation work of the facilities. The CM will verify the Contractor incorporates work related to the utilities in the baseline schedule. The FCG team is currently providing these same types of services to Cities of Irwindale, Downey, Burbank, and other municipalities and agencies throughout the state. The FCG Team utilizes a system for tracking building and public works permits using a spreadsheet. This system is simple and allows the permittee and City officials to view the current budget and status of each permit. The FCG Team will keep every agency involved should any changes or modifications are needed. The FCG Team will ensure that the baseline schedule submitted by the contractor includes the permits requirements.

9) **Construction Inspection -** FCG will provide the City with a team of qualified construction inspectors experienced in street, bridge, water, sewer, storm drain, safety lighting, utility relocation, street rehabilitation, pavement preservation, traffic signals, constructing and widening ramps, signing and striping, retaining walls, parks and trails, irrigation & landscaping, traffic control, drainage systems, and asset assessment and reports. We have completed this work enforcing different specifications, including Caltrans Standard Plans and Specifications, Greenbook Standard Plans and Specifications, SWPPP, Safety, Cal-OSHA, Caltrans Safety Requirements, and City of Ontario Safety Requirements. The construction inspection services FCG provides are listed below.

- Ensure project construction in accordance with approved plans, specifications, and estimates; City standards; Standard Plans and Specifications for Public Works Construction; and Caltrans Standard Plans and Specifications.
- Coordinate with City staff, including emergency responders and utility companies, and other project stakeholders.
- Coordinate construction activities inclusive of temporary parking restrictions, temporary traffic control, etc.
- Complete daily measurements of quantities of work with the contractor and daily inspector reports. Provide complete and documented measurements and calculations to administer progress payments, change orders, extra work, etc.
- Provide daily reports to City staff on a weekly basis.
- Attending all project meetings such as pre-construction, field, and progress meetings.
- Prepare in-progress punch lists at the completion of each phase of the project.
- Ensure all construction activities are witnessed. If deemed necessary, inspection for night work shall be performed.
- Ensure compliance with the NPDES program, and the Construction Site Best Management Practices (BMP) Manual.
- Inspect materials and equipment upon delivery for compliance with construction contract documentation.
- Each working day, meet with the Contractor to review proposed work plans, including specific details that may affect progress. Inform City's Project Manager of any work which may result in a noteworthy impact to the City.
- Document field changes and maintain red-line as-built set of construction drawings.
- Closely monitor compaction, material, and other necessary testing results and require the Contractor to provide corrective measures to achieve compliance.
- Maintain copies of all permits needed to construct the project and enforce special requirements of each.

10) **Labor Compliance –** The FCG team is highly experienced in enforcing labor compliance in accordance with State and Federal requirements, specifically LAMP and Community Block Development Grant (CBDC) program requirements. The FCG Team will:

- Verify eligibility of selected contractor and its subcontractors to receive contract awards by confirming current, active license status with Contractors State License Board; current, valid contractor's bond and workers' compensation coverage; LAPM submittal requirements; non-appearance on Federal List of Parties Excluded and State Division of Labor Standards Enforcement lists.
- Attend preconstruction meeting to present federal labor compliance requirements to contractor and subcontractors; prepare minutes and attendance record.
- Verify and document jobsite posting of wage rate information and required labor compliance posters. Conduct site visits to monitor workforce utilization; perform labor compliance interviewing of employees on site, using appropriate forms, in the proper frequency and of the proper work classifications required by governmental authorities.
- Receive and review labor compliance documentation from public works observers or inspectors and compare with contractor-submitted documents and interviews and information obtained from site visits. Monitor contractor payroll documentation of

certified payroll reports, fringe benefit statements, apprenticeship documentation, and payroll deduction authorizations.

- Review and verify the contractor's skilled and trained workforce certification and monthly skilled and trained workforce reports.
- Follow up with contractor by telephone, email, and/or certified mail regarding required document submittals and payroll discrepancies. Provide detailed description of deficiencies; outline corrective actions; and enforce deadlines for compliance.
- Receive, pursue, and document labor complaints and/or violations; prepare violation reports to oversight entities as required; recommend special action to be taken if contractor continuously fails to comply with requests and requirements.
- Coordinate with City staff the withholding of progress payments if contractor fails to abide by labor compliance requirements.
- Maintain content and format of federal labor compliance file in conformance with applicable government requirements.
- Coordinate project file reviews by authorized county, state, and federal agencies.
- Submit complete federal labor compliance file to City for retention.

11) **Storm Water Quality Inspections** – The FCG team includes members certified as Qualified Stormwater Developers (QSD) with applicable certifications. We will review the contractor's SWPPP to ensure compliance with the Regional Water Quality Control Board (RWQCB) permit requirements. We will conduct regular inspections of the site with the contractor and upload reports and documents to the SMARTS database. Our team will ensure the contractor adheres to the approved SWPPP plan and installs and maintains appropriate BMPs. FCG inspectors understand the importance of managing the SWPPP. All FCG inspection staff have completed their Qualified SWPPP Practitioner (QSP) and/or Qualified SWPPP Developer (QSD) training and are QSP/D certified. The inspectors are trained in the preparation of SWPPP diaries including the on-line reporting, review of Best Management Practices (BMP's), and erosion control measures both during the rainy season and throughout the year. They will immediately notify the Resident Engineer of any problems during the implementation of the SWPPP. Proper implementation is especially important on all inlets and discharge points.

12) **Multi-Trades Materials Testing (asphalt, concrete, masonry, steel) –** FCG Team includes our sub-consultant MB Pro that will provide inspection and material testing and inspection in accordance with generally accepted professional engineering principles and practices. Material testing shall conform to all Caltrans Standards and the LAPM The services include but are not limited to:

- Review and approve AC mix designs.
- Review and approve PCC mix designs. Consult with City for approval of PCC mix for the Project.
- Provide all material source inspection, sampling and testing by a qualified materials engineer as required.
- Provide requested miscellaneous consultation during the Project, including discussion with the contractor to emphasize proper treatment of concrete. Provide all compaction tests per plan, specifications, and regulations per LAPM and contract documents. Provide nuclear compaction testing and provide geotechnical soil testing as necessary.
- Provide coordination for traffic controller testing and other traffic signal equipment as needed.

13) **Progress Meetings and Reporting -** The Resident Engineer will conduct weekly progress and field meetings with the contractor, City of Ontario, as necessary and appropriate, and the inspectors, Office Engineer, and other subconsultants will attend and participate in the discussions and documentation of the meetings. Our RE will prepare the meeting agendas, which will include reviews of the Project schedules, a summary of submittals and RFI's, unresolved issues, and new issues requiring follow-up. Our RE will produce meeting minutes for each meeting. In addition, The FCG Team will coordinate and meet with residents, business owners, utility firms, and other agencies involved with this project as needed. The RE will discuss issues with the Inspectors, and Office Engineer to ensure previous meeting minutes have been documented and distributed and an agenda with logs is prepared for the current meeting to discuss project status and schedule.

14) **Public Community Relations/Outreach** - The FCG Team believes that public outreach is essential to the success of any project that will have an impact on motorists, residents, businesses, and schools. A sample public outreach plan is summarized as follows:

- Traffic Control – If the Contractor is required by contract to submit a Traffic Control Plan (TCP). Coordination between the TCP and the construction staging proposed by the contractor is imperative. There are some issues to be considered and resolved during construction and the FCG Team will look forward to assisting with constructible solutions that will help avoid any extra cost or inefficiency claims. Per specifications, the job site shall be maintained in a neat and orderly condition and safe pedestrian pathways always provided along all sidewalks, without exception. The FCG Team will coordinate all efforts with the City and the Contractor to ensure full compliance with the requirements of MUTCD, WATCH Manual, and project specifications.
- The FCG team will coordinate with any schools and the Contractor to incorporate their schedule and activities as part of the TCP and project schedule.
- The FCG Team will coordinate with the Contractor and residents and businesses regularly through flyers, weekly and monthly

meetings as needed to mitigate concerns, traffic impacts, noise, and dust control. FCG will contact managers of each establishment in the area and explain to them the nature of closures and detours, and on-street parking restrictions.

15) **Progress Payments and Grant/Fund Tracking -** The FCG's CM will manage the project's budget and will set up an internet-based document controls system. The team will prepare independent monthly estimates for the Project duration, review payment requests, make payment recommendations, and prepare progress payments in the City's standard format monitoring both the project and contingency budgets. Our report to City of Ontario will include amount paid to contractor to date, previously paid amount to contractor, percent complete of each bid item, executed change orders, and retention withheld from each pay estimate. Our intent is to keep the City of Ontario fully informed of the financial status of the project.

16) **Change Order Management -** The FCG Team will work with the City of Ontario during the construction contract award and change order process to assist City of Ontario in controlling the costs of the project and controlling the factors that may escalate project costs. The FCG Team will receive, process, track, and document project requests for contract change orders from the Contractor and a CCO log will be established at the beginning of the Project and will be continuously maintained and updated by the RE. To the delegated level of approval, and under the City of Ontario's direction, the FCG Team will determine the need, merit, scope, estimated cost, and schedule impacts to the project because of potential contract change orders. The FCG Team will also negotiate change orders with Contractor as directed. Once merit is established, The RE will prepare change orders based on the Contract Documents and in close coordination with the Design Engineer and City Project Manager.

17) **Permit Monitoring -** The FCG team is highly experienced in coordinating with regulatory agencies and R/W permits and understands the criticality of keeping them informed and involved during the project, The FCG team is currently providing these same types of services to Cities of Irwindale, Downey, Burbank, and other municipalities and agencies throughout the state. The FCG Team utilizes a system for tracking regulatory, building and public works permits using a spreadsheet. This system is simple and allows the permittee and City officials to view the current budget and status of each permit. The FCG Team will keep every agency involved should any changes or modifications are needed. The FCG Team will ensure that the baseline schedule submitted by the contractor includes the permits requirements.

18) **SWPPP & Erosion/Sediment Control Monitoring –** As previously stated, the FCG Team includes members certified as Qualified Stormwater Developers (QSD) with applicable certifications. We will review the contractor's SWPPP to ensure compliance with the Regional Water Quality Control Board (RWQCB) permit requirements. We will conduct regular inspections of the site with the contractor and upload reports and documents to the SMARTS database. Our team will ensure the contractor adheres to the approved SWPPP plan and installs and maintains appropriate BMPs.

19) **Claims & Disputes Prevention/Mitigation -** The FCG Team's renowned claims division and our claims experts have a proven track record with Caltrans and other public agencies on similar projects. We will monitor all site records of events, labor, materials and equipment for potential claims or dispute issues. This data will be essential when analyzing contractor's CPM schedule and claims. Our team will address every issue that will contain all relevant RFI's, change orders, correspondence, pictures, inspector's dairies, cost analysis and schedule analysis. Our objective will be to minimize issues by providing concise analysis of all issues on the project. Our Resident Engineer will establish an open communication plan with the Contractor to discuss all project matters and will respond to all issues timely to minimize any potential for claims. Typically, claims arise from lack or shortage of communication and delay in response to RFI's and change order requests. The FCG Team will address all concerns, RFI's, and change order requests in a timely manner and will document all matters in case a claim is submitted. The FCG Team has experience reviewing and responding to claims along with representing clients in mediation or arbitration to resolve such matters.

20) **Comply with Federal and State Grant Requirements Including Reimbursements –** The FCG Team has extensive experience working on federally funded projects that utilize FHWA and Local Assistance Procedures Manual requirements for documentation and filing, verifying certified payroll of contractors, and producing documentation and reports accordingly. We estimate that **90% of the projects we manage are Federally funded projects.**

21) **Comply with CDBG Requirements -** The FCG Team has extensive experience working on CDBG grants and will submit all required quarterly reports, project performance measurement plan, preconstruction checklist, amendment to the original agreement, etc. In addition, the FCG Team will assist the City in incorporating the CDBG requirement in the contract special provisions

22) **Project Closeout -** The FCG Team will recommend to City of Agoura Hills that final acceptance be issued to the contractor when all punch-list work is completed, and all issues and Project walks are signed off by City of Agoura Hills, LACFCD, LVMWD, and Utility Companies. Finally, all as-builts will be inventoried and verified completely prior to final acceptance and recommendation of final payment to the contractor. The FCG Team will perform the project closeout as follows:

- Coordinate a final walk-through with all affected stakeholders, prepare the punch list, certify completion of the project, and recommend acceptance.
- Transmit the contractor's approved Record Drawings (As-Builts) to the City. Provide an electronic version of all drawings. Provide paper and electronic files of all construction documents in the City's approved format.
- Finalize record drawings, contract bid items, claims, change orders, and punch list items.
- Prepare all final reports, including report of completion for acceptance of the project.
- Finalize and deliver all construction files to the City for archives.
- Address any unresolved issues including, but not limited to, change orders, claims, etc.
- Complete documentation required by LAPM.
- Prepare and submit the final payment package to the contractor.
- Submit final project records to the City of Ontario.
- Collect and submit to the City of Ontario release of any liens from the contractor.
- FCG Team will prepare the Notice of Completion as part of project closeout and will coordinate with permittees and City for acceptance of improvements.
- Submit final funding reimbursement request to the State and any other funding sources.

23) **On-Call Services -** Staff augmentation is very important to many public agencies for various reasons, including lack of funding for procurement of agency staff, and/or the immediate need based on the number of projects or the funding. In many instances there may be a combination of reasons why public agencies refer to procuring on-call contracts that produce a level of comfort through hiring outside agencies. FCG fully understands the on-call business and will implement this knowledge to meet the needs of the City.

On-call contracts can be very dynamic in nature. As projects surface for construction so does the need for additional staff. FCG understands that a well-defined communication plan with the agencies can achieve better results. As the need for additional staff increases, our responsiveness to meet the need is imperative for the success of the project. Responsiveness to immediate and/or planned need for staffing is key since the need may not always be planned. FCG is always ready to provide staff for agencies, planned or otherwise.

24) **Design Support Services -** FCG offers Specifications Development and review and can generate project specific special provisions (Green Book – 2021 or older). FCG also offers Peer Design review.

25) **Asset Assessment and Report -** FCG will assess the current concrete conditions (damaged, cracked, displaced, and ADA) of the entire length of proposed project and other miscellaneous areas concrete facilities (sidewalks, curbs and gutters, ramps, driveway approaches, spandrels, and cross gutters, etc.) and other areas as assigned. This assessment will include determining if the sidewalks and other facilities need replacement, grinding, temporary ramps, etc. for the consultant to generate lists of actions needed. FCG will input information that includes location, measurements, etc. on a spreadsheet. FCG will generate a google map that lists the addresses of locations identified, list of items for bidding purposes. The process and techniques used to evaluate the concrete facilities will be explained in a report.

QUALITY ASSURANCE / QUALITY CONTROL (QA/QC) PROGRAM

EMPHASIS ON QUALITY

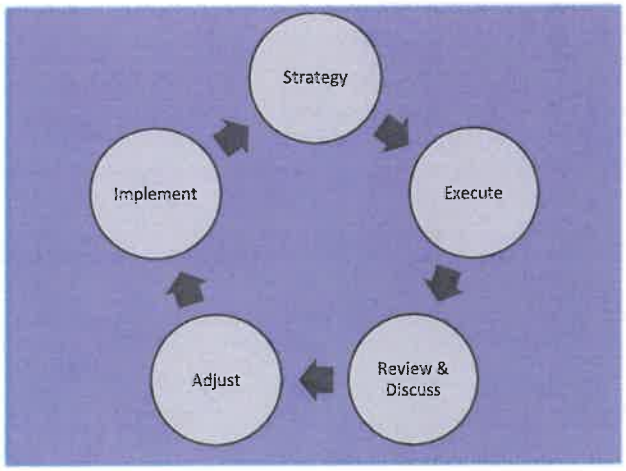
We believe that quality is not static in nature, but rather the result of continuous improvement. Quality is a business decision to continually improve every process with every project for every client, every time. Our emphasis on quality with a customer focus sets us apart from our peers. Our quality is improved through the building of relationships, our core business practices, teamwork and an emphasis on continual improvement. Our individual quality control for each project's documentation is listed in the previous section; however, we have found that client satisfaction and quality control hold a crucial place at the center of our business planning.

Relationship Building

Imperative to every good relationship is communication. Our team members understand the importance of this and strive to provide thorough and timely communication. Equally as important is setting expectations up front. As described in our Scope of Work section of this proposal, we hold a pre-construction meeting to introduce the project team members to each other, to establish communication protocols and identify lines of communication. If each team member understands the expectations of the others up front, there are no unmet expectations, and the team is set up to succeed in their deliveries.

Core Business Practices

At the core of our business practices is quality assurance. We practice this with every employee and every process, project and client with whom we interact. At the close of each project, we hold meetings to review what went well, what needs improvement and what we can do differently. We interact with our clients to verify and improve upon these same elements.



Teamwork

The FCG team has worked together on multiple projects and has come from a myriad of backgrounds, including government, public and private agencies. This, together with our unwavering dedication to our clients, gives us a depth of expertise and experience that sets us apart from our competitors.

- Set Expectations
- Choose the Right People
- Have Clear Processes
- Solicit Feedback

Continual Improvement

Our strategy to implement processes of continual improvement keeps us consistently improving upon our processes for our clients. With each strategy we carry out, we review and discuss the successes and areas of improvement needed and then adjust the strategy for a more successful outcome. We then implement the new strategy where we begin the same process. Through this review process, we continually improve and come up with new ideas of how to better meet the needs of our clients. Our job is to successfully meet and/or exceed the needs of the City of Whittier with the multiple capital improvement projects they are engaged in, while ensuring their success with their stakeholders.

INSURANCE

A sample certificate of insurance is provided below which shows FCG carries the required insurance for this project.

ACORD®

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 11/8/2023

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

LITIGATION

FCG has a clean litigation history with no past or pending litigation. There are no planned office closures or impending mergers. FCG is not prohibited from professional practice or working with any Federal, State, local, or public agency.

OTHER INFORMATION

CG has a strong working relationship and a rich history with our subconsultant team. Our previous experience, mutual trust, and ability to mobilize quickly enable us to maintain project momentum and deliver successful projects on time. The FCG Team members have extensive experience in construction management services, having worked with various clients and agencies such as the City of Norwalk, City of Downey, City of Whittier, City of Irwindale, City of Pico Rivera, Caltrans, and many others. We understand the importance of assembling a solid team and are familiar with construction management and inspection contracts. For this project, we have three highly qualified key staff members, along with additional as-needed staff, working together as a cohesive team to ensure that the City of Ontario receives the highest quality candidates and service to successfully complete the project on time. In our proposal, we will discuss several similar projects that we have successfully delivered, highlighting their adherence to plans, specifications, and FHWA requirements.

Our team has extensive experience in a wide range of projects, including bridge widening, Caltrans right-of-way, utility relocation, traffic signals, ramp building and widening, retaining wall construction, traffic control, night work, and 55-hour closures. We have successfully completed these projects while adhering to various specifications such as Caltrans Standard Plans and Specifications, Greenbook Standard Plans and Specifications, SWPPP, Safety, Cal-OSHA, Caltrans Safety Requirements, and Caltrans Structures Safety Requirements.

Our experience also includes working in environmentally sensitive areas, near bodies of water, challenging interchanges surrounded by businesses and residences, as well as congested interchanges, freeways, and live traffic. We have successfully executed projects in Orange County, Riverside, Los Angeles counties, and other parts of the state. This exposure has given us a deep understanding of the unique requirements and challenges associated with these types of projects, which we can bring to the table for this project.

Our personnel at FCG are indeed highly qualified and experienced in their respective disciplines. Their qualifications demonstrate their involvement in multiple projects, both past and present. We are proposing a team of experienced candidates who meet the city's requirements and the RFQ and are ready and available to be deployed. FCG is committed to ensuring that the City of Ontario receives the highest quality service from the most suitable candidates, whether they are prime or subconsultants. This pursuit is a collaborative effort from our team.

CONFLICT OF INTEREST

The undersigned hereby submits its proposal and, by doing so, agrees to furnish services to the City in accordance with the Request of Qualifications (RFQ), and to be bound by the terms and conditions of the RFQ.

Maha Alfakhouri, President / CEO

City of Ontario

NONCOLLUSION DECLARATION TO BE EXECUTED BY BIDDER AND SUBMITTED WITH BID

The undersigned declares:

I am the President / CEO of FCG Consultants, Inc., the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or to refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder. All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on 2/2/2024 [date], at Yorba Linda [city], CA [state].

Name of Bidder FCG Consultants, Inc.

Title President / CEO

Dated 2/2/2024

FABIAN AOUN, PE
Project Manager / Construction Manager

With an extensive professional tenure spanning over 8 years, Mr. Aoun has cultivated a wealth of experience in both design and construction, notably contributing to diverse projects for local municipalities and government agencies. Serving as an Engineer within a local municipality and later transitioning to a role as a designer in the private sector, Mr. Aoun has lent his expertise to an array of public works initiatives, encompassing the rehabilitation of roadways, park enhancements, and the rejuvenation of trails.

His design proficiency spans a spectrum of disciplines, including but not limited to grading, drainage, utilities, and water quality considerations. On the construction front, Mr. Aoun's knowledge extends to grading, drainage, pavement, concrete works, removals, excavation, trenching, storm drains, water/sewer lines, sidewalk construction, curb and gutter installations, traffic elements, and ADA compliance measures.

Education
B.S. Civil Engineering, Cal Poly University, Pomona

Licensing
PE License # C89086

In assuming various responsibilities, Mr. Aoun has seamlessly undertaken roles in project management, construction management, inspection, quality control, daily reporting, quantities take-offs, schedule monitoring, plan and specification compliance, certification processes, shop drawings, change order management, submittals, and Requests for Information (RFIs), safety adherence, as-built plan preparation and review, and final punch list compilation.

RELEVANT EXPERIENCE

Firestone Blvd. Regional Corridor Capacity Enhancements Project, South Gate, CA
PM/CM: This Federally Funded Project consists of implementing roadways, median landscaping, and pedestrian improvements for the Long Beach Boulevard Green Street Project. This project includes pedestrian improvements, median improvements, landscape and irrigation improvements, and pavement rehabilitation. Duties included construction management of various work items; overseeing field interviews; office engineering; conducting meetings; reviewing submittals and Requests for Information (RFIs), Construction Change Orders, and daily photos; coordinating materials testing and lane closures; reviewing contractor as-builts. **Cost: $5 Million.**

Spring Street Gap Closure Project, Signal Hill, CA
PM/CM: This Federally Funded Project consisted of enhancing safety along Spring Street from Atlantic Boulevard to Junipero Avenue. This project provides Class 2 bike lanes, countdown ped heads, ADA curb ramps, and sidewalk lights along the corridor to enhance safety for pedestrians and bicyclists. Duties included construction management of various work items; overseeing field interviews; office engineering; conducting meetings; reviewing submittals and Requests for Information (RFIs), Construction Change Orders, and daily photos; coordinating materials testing and lane closures; reviewing contractor as-builts. **Cost: $3 Million.**

New Park Construction Project (Larkstone Park), Diamond Bar, CA
PM/CM: Project consisted of mass grading, installation of drainage and water treatment facilities, walkways, playground area, benches, landscape, irrigation, parking lots, and restroom structures for a new 3.8-acre park in Diamond Bar, CA. Work included a mill and overlay of access driveways and parking lots, concrete improvements (sidewalk, curb & gutter, curb ramps), electrical, lighting, landscape, irrigation, hardscape, new playground equipment, rubberized surfacing, signage, retaining walls, drainage, and shade structures. Duties included construction management and inspection of various work items; overseeing field interviews and conducting field reviews of certified payroll; office engineering; conducting meetings; reviewing submittals and Requests for Information (RFIs), Construction Change Orders (CCOs), and daily photos; coordinating materials testing and lane closures; reviewing contractor as-builts. **Cost: $3 Million.**

Canyon Loop Trail Improvements, Diamond Bar, CA
PM/CM: Project consisted of widening and improvements of widening Canyon Loop trail, drainage improvements, stairs, and amenities. Work included cutting into the existing slope and installing Gabion walls, grading, cobble drainage swales, wooden stairways along the trail, benches, trash bins, and picnic shelters. Duties included managing the civil design, geotechnical review, and construction management which included reviewing submittals and Requests for Information (RFIs) and coordinating materials testing. **Cost: $1,111,123**

CASEY MORALES
Construction / Electrical / Permit Inspector

Mr. Morales has more than 50 years of construction inspection experience as a consultant and a former City of Santa Fe Springs employee. His wide construction inspection experience includes, but not limited to, inspection of traffic control, signage, striping, asphalt concrete, minor and structural concrete, ADA, roadway excavation, trenching, storm drains, sewer lines, water lines, various parks components, buildings, various private properties components, electrical and landscaping. Duties included construction inspection and Quality Control, producing daily reports and quantities calculations, producing progress photos, review and monitor schedule of work, ensure compliance with plans and specifications and certificates. He possess the ability to:

Education
Highschool Diploma.

Licensing
Various Cal-OSHA Safety Trainings.

- Review project plans, specifications, and maps.
- Read, interpret and work from engineering plans and specifications.
- Read, interpret, and apply a wide variety of technical information.
- Work effectively with contractors in enforcing contract provisions.
- Establish and maintain a cooperative working relationship with those contacted in the course of work, including contractors and the general public.
- Communicate effectively, both orally and in writing.
- Effectively handle multiple priorities, organize workload and meet strict deadlines.
- Survey techniques and practices.
- Materials and methods used in a wide variety of public works construction.
- City policies, procedures, and regulations regarding contracts for Public Works construction.
- Laws, regulations, and ordinances governing installation of PW facilities and subdivisions.
- Basic mathematics as applied in construction inspection work.
- Materials sampling, testing, and estimating procedures.
- The CAL OSHA Construction Safety Orders and traffic safety procedures in construction areas.
- Environmental and safety practices, e.g. confined space and trench safety.

Work included, but not limited to, traffic control, minor concrete, earthwork and grading, asphalt paving, drainage, major structures, retaining walls, bridge demo, electrical, traffic signals, striping, and SWPPP Duties included inspection of construction work, coordinating with all field staff, producing daily dairies and quantities, assist the RE with office work and coordination in the field per Caltrans Standards. **Duration:** 01/2014 – 12/2015. **Cost:** $130 Million

DAVID P. ALCALA
Construction Inspector

Mr. Alcala has over **31 years** of inspection experience, including construction of traffic signals, and ITS communication/fiber systems projects. He has worked for cities throughout Los Angeles, Orange, San Bernardino and Riverside Counties and other agencies in southern California. In addition, he has significant experience with Caltrans Districts 7, 8 & 12 and very familiar with the State of California Standards, Specifications and the latest version of the CA-MUTCD. Duties include construction inspection, obtaining work permits, and interviewing. He is also proficient in MS Office, CAD, AutoCAD, and Microstation.

Education
Westech College, ACCSCT-1994.

Licensing
Traffic Signal Operation Specialist – TSOS.
Traffic Signal Inspection – TSI.
Certified Public Infrastructure Inspector – CPII.

RELEVANT EXPERIENCE

Downtown Riverside Fiber Optic Project for Various Facilities; County of Riverside
Construction Inspection: Project consisted of installation of the F/O conduit, vaults, manholes, pull boxes and cable for Riverside County Information Technology. This project connected several county buildings including the DA's office, courthouse, and jail. Responsible for the preparation of daily logs and the inspection of installed elements of the project including the proper staging of traffic control, work site safety, water/storm water drains, and verification of manpower used on the project. Mr. Alcala has also worked on the construction and modification of numerous intersections within the City of Riverside in coordination with this project. **Cost:** $2 Million.

Metrolink Crossings at San Fernando Road/Broadway-Brazil Street and Chevy Chase Drive; City of Glendale, CA
Construction Inspector: Project consisted of traffic signal/interconnect system and street improvement project. In addition to the signal construction, the project consisted of the installation of AC pavement, curb and gutter, catch basins, and drop inlets as well as the construction of an 18" storm drain along San Fernando Road. Broadway-Brazil Street was widened at the Metrolink grade crossing with AC on the approaches and transitioned to PCC adjacent the railroad track. On San Fernando Road, a new southbound 14' wide right-turn pocket was installed. **Cost:** $7.5 Million.

Multiple CIP Street Improvement Project; City of Downey
Construction Inspection: This project constructed several traffic signals and minor street-widening improvements, including curb and gutter, sidewalk, and ADA compliant accessible ramps. Street widening included the installation of cross gutter and spandrel, water/stormwater drains. Duties included coordinating the overall work effort of the contractor to ensure the schedule was maintained, scheduling employee interviews, answering RFI's and approving minor changes in the field. Collaboration with the design engineers, the city PM, and construction foreman was necessary to keep delays to a minimum. **Cost:** $1.5 Million.

JASMINE FAKHOURI
Office Engineer / Labor Compliance

Ms. Fakhouri has more than 5 years of experience as an Office Engineer on public works projects for public works agencies and construction contractors. Her responsibilities include, but are not limited to, reviewing certified payroll, employee interviews, maintaining accurate and complete project records and files; maintaining contract records; assisting the Project Manager with change orders, submittals, and RFIs; assisting in preparing quantity calculations and cost estimates; coordinating with various agencies; reviewing and preparing correspondence; preparing and updating spreadsheets; converting working files to PDF; and preparing various reports. Ms. Fakhouri has extensive experience working on federally funded projects that utilize FHWA and Local Assistance Procedures Manual requirements for documentation and filing, verifying certified payroll of contractors, and producing documentation and reports accordingly.

Traffic Signal Improvements on Rosecrans Avenue Project – City of Norwalk, CA
Office Engineer/Labor Compliance: This Federally Funded project consisted of enhancing safety along Rosecrans Avenue from Studebaker Road to Carmenita Road. Duties included, but were not limited to, verifying the contractor's certified payroll, preparing and maintaining project files; performing document control; creating and updating correspondence logs; preparing and updating submittal logs; maintaining logs; preparing progress reports; assisting the Resident Engineer with reviewing CCO and pay estimate requests; and collecting inspector reports and quantities. **Cost:** $1.7 Million.

Traffic Signal Improvements on San Antonio Drive Project, City of Norwalk, CA
Office Engineer/Labor Compliance: This Federally-Funded project consisted enhancing safety along San Antonio Drive-Norwalk Blvd. between Rosecrans Ave. and Civic Center Drive, and on Civic Center Drive Between Norwalk Blvd. and Bloomfield Ave; Duties included, but were not limited to, verifying the contractor's certified payroll, preparing and maintaining project files; performing document control; creating and updating correspondence logs; preparing and updating submittal logs; maintaining logs; preparing progress reports; assisting the Resident Engineer with reviewing CCO and pay estimate requests; and collecting inspector reports and quantities. **Cost:** $1 Million.

Irwindale Park Improvements Project, Phase III, City of Irwindale, CA
Office Engineer/Labor Compliance: This project consists of demolition of existing concrete walks, planters, existing tennis courts, and retaining walls. Work also included electrical, architectural / structural, Irrigation, landscape, and permit work. Duties included, but were not limited to, verifying the contractor's certified payroll, conducting employee interviews, preparing and maintaining project files; performing document control; creating and updating correspondence logs; preparing and updating submittal logs; maintaining submittals logs, RFI logs, Contractor Change Order logs, and testing logs; preparing progress reports; assisting the Resident Engineer with reviewing CCO and pay estimate requests; and collecting inspector reports and quantities. **Cost:** $8 Million.

I-605/Live Oak Ramp Widening & Rehabilitation Project, Caltrans District 7 & City of Irwindale, CA
Office Engineer/Labor Compliance: his Federally Funded project consisted of major roads grind and overlay asphalt paving, curb ramps, materials testing, surveying and electrical. Duties included, but were not limited to, verifying the contractor's certified payroll, preparing and maintaining project files; performing document control; creating and updating correspondence logs; preparing and updating submittal logs, RFI logs, CCO logs, and materials testing report logs; preparing progress reports; assisting the Resident Engineer with reviewing CCO and pay estimate requests; and collecting inspector reports and quantities. **Cost:** $1.8 Million

Matthew McMenamin, PE, QSP, QSD
Construction Manager

Matthew (Matt) McMenamin has over 37 years of experience in civil, transportation construction, and design projects for rail (light, heavy, and commuter) roadways, bridges, facilities, structures, and other civil projects. Matt has been responsible for all aspects of construction and project management, including departmental, project and construction management, procurement, design development, constructability reviews, construction quality oversight, and project and change controls. Matt has also pursued won and worked domestically and internationally on large-scale projects. As Project Manager, Matt oversees the Hill team, verifying our resources are assigned as-needed to support safe and timely project delivery. He is responsible for monitoring project budget and schedule, reviewing contractor plans, enforcing the contract documents, and representing the client as needed at meetings and presentations. In addition, Matt coordinates with team subconsultants to confirm specialty resources are available to meet the project's requirements. He is also a key component of our team's work coordinating with pertinent Authorities Having Jurisdiction (AHJs), to make certain the project proceeds smoothly. His industry software program skills include Unifier/CM13, PMWeb, InEight, Procure, and Munis.

Sylva Nwankwo, PE, QSD
Structure Rep

Sylva has extensive Caltrans, Port experience and public agency experience in various aspects of civil engineering practice. He has extensive background in infrastructure construction projects with strong capabilities in managing a project from start to finish. He is able to collaboratively address complex challenges at the pre- and post-contract stages and even after successful completion of project (i.e., contractual maintenance period). Fundamental in engineering project management and administration is quality customer service. Swift response to customer inquiries, concerns and complaints in a timely fashion has been an essential aspect of his various work attributes. He has been involved in interacting with the public as well as regulating agencies with a controlled synergy while working simultaneously on several infrastructure projects with the ultimate aim on achieving the desired deliverables.

After a successful tenure in construction management career in Nigeria, Sylva has returned to the US and has been with Pacific Pros ever since as he got his education and professional engineering licensure in California. He is fluent in English, and enjoys a strong reference from his Caltrans supervisors. He has ACI, QSD, OSHA 10, 1st Aid, and Defensive Driving certificates.

Sylva has many projects under his belt including bridges, buildings, Marine/Port structures and roadway projects. Below are just representative projects for Sylva.

Mansi Desai, E.I.T.
Office Engineer/ Construction Inspector

Mansi Desai has a broad understanding of roadway and structures work on large infrastructure projects through her hands-on experience in the civil, environmental, and central engineering group of the I-405 Improvement Project. Through her 6+ years of working for the contractor on this project, she has directly managed several subcontractors including those for clear and grub, environmental monitoring, management of cultural resources, and vibration and noise monitoring, and maintained comprehensive project files and records. Her expertise in SWPPP, regulatory compliance, environmental impact mitigation, and stakeholder engagement allows her to navigate complex construction projects.

I-405 Improvement Project (Orange County Transportation Authority) – Orange County, CA: Project involves 16+ miles of roadway work and 18 bridges. Prepare various engineering submittals for review and approval including formwork, excavation, demolition, and pile stabbing plans. Maintain project documents and records. Perform constructability review. Oversee and enforce environmental compliances and SWPPP. Work with consultant paleontologist and archeologist to ensure safe handling of cultural resources. Work with biologists to ensure protection of species on job sites. Obtain encroachment and environmental permits required for the project. Manage multiple subcontractors' scope of work including for clear and grab activities and noise and vibration monitoring. Coordinate project with partnering agencies and public entities. Manage field crews and coordinate work. Assist in developing schedule and monitoring critical path activities. Assist Project Manager in forecasting and tracking several cost codes.

Jeff Cooper, ICC, OSHPD
MEP Inspector

Jeffrey has over 25 years of experience in construction and is proficient in construction management, inspections, standards, and practices. He has proven knowledge of construction codes, regulations, compliance procedures, and record keeping. In addition, he is an ICC certified Commercial building inspector and has an OSPHD building license which was obtained while working on the SoFi stadium for the City of Inglewood. He is a self-starter, detail oriented, and a problem solver. Jeffrey is always open to learning new ways of doing things and increasing his knowledge base. He is also experienced in document management, project management, commissioning, and steel inspection. Additionally, Jeffrey is knowledgeable of Fire Life Safety as well as building plumbing systems.

CITY OF ONTARIO
PROFESSIONAL SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____ ___, **2024**, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **AKM Consulting Engineers, Inc.**, a **CALIFORNIA CORPORATION**, with its principal place of business at **553 Wald, Irvine CA 92618** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **construction management and inspection services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the **On-Call Project Management Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **construction management and inspection** consulting services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All

Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **June 4, 2024** to **June 4, 2027,** unless earlier terminated as provided herein The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **two** additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Thousand Dollars** (**$600,000**) without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of

Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: **Emin Kayiran, CPII, Jacob Lillengreen, EIT, Steve Patterson, and Mike Fredriksz.**

3.3.5 City's Representative. The City hereby designates **Dennis Mejia (Utilities Engineering Division Manager)** or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates **Emin Kayiran, CPII, Vice President/Director of Construction Management**, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all

Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation.

Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq.*); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's

failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $2,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on

a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. "Covered Professional Services" as designated in the policy must specifically include work performed under this Agreement. The policy must "pay on behalf of" the insured and include a provision establishing the insurer's duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations

otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or

"maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903

(2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: **AKM Consulting Engineers, Inc.**
553 Wald
Irvine, CA 92618
ATTN: **Emin Kayiran**

City: City of Ontario
303 East "B" Street
Ontario, CA 91764
ATTN: **Dennis Mejia, P.E., Utilities Engineering Division Manager, OMUC**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required

by City. City reserves the right to select the method of document reproduction and to establish where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has

become known, to the related industry shall be deemed confidential. Consultant shall not use City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

SCOPE OF SERVICES

EXHIBIT "A"

RFQ PROPOSED SCOPE OF SERVICES

The City of Ontario is seeking Statement of Qualifications from qualified consulting project management to provide On-Call Services for three (3) years, with an option of renewing for two (2) consecutive one (1) year terms. The City desires to obtain the services of a maximum of four (4) qualified firms to assist with On-Call Project Management Services. At least ten (10) years of experience providing similar services is required to oversee the work, stamp, and sign all project related documents as required.

Request for Qualifications (RFQ) for various services in various project disciplines (e.g. Architecture, Capital Improvement, Facilities Maintenance, Public Works, Water and Wastewater Distribution, Water Facilities, Extended Staff Services, etc.) with the intention of maintaining a list of multiple qualified prime consulting firms, with subconsultant support services as needed. Task orders will be issued to firms on a competitive basis based on the qualifications and expertise of the firm and their subconsultants. There is no designated minimum nor maximum value of services to be awarded to any one consultant.

Each Prospective Consultant needs to be able to provide all the services (or provide sub-consultants that must also be listed as part of their statement of qualifications) listed in this RFQ.

The following scope of services provides general categories of services that may be required for each task order requested. The categories are not an exhaustive list of services but rather a sampling of the services that are typically included, but not limited to, within that area of the scope in order to demonstrate the qualifications needed for that scope of services.

Specific services requested under these agreements shall be identified by the City at the time of the request for a specific task order. For each task order requested by the City, the Consultant shall provide a task order proposal that identifies the specific scope of services to be performed, the necessary project management activities, task budget, and task schedule. Upon City's approval of the proposed task's scope of services, the City will issue a notice to proceed with purchase order requisition for the work. The Consultant is encouraged to provide recommendations with respect to scope and order of completion.

No task order or scope of services shall be performed without first receiving authorization from the City and notice to proceed with the task order.

GENERAL REQUIREMENTS.

Consultant will be expected to work closely with staff for the duration of the assigned projects (i.e. task orders), and attend all meetings and workshops, as necessary. Any adjustments can be verified based on the need of City Project Managers. All field services must include appropriate traffic control.

Some or all of the following General Requirements and Services may be incorporated into specific tasks orders generated from the On-Call contract. The applicable General Requirements shall be based on needs of specific tasks and the City Project Managers:

Refer to Professional Services Agreement in Exhibit "B" to review the General Requirements and other conditions.

ON-CALL PROJECT MANAGEMENT SERVICES

The City of Ontario is seeking Statement of Qualifications from firms for On-Call Project Management Services:

Consultant shall be aware that certain labor categories above may be subject to prevailing wage rates as identified in the California Labor Code commencing Section 1770 et Seq. Determination of whether or not Prevailing Wages shall apply will be determined when the City's Project Manager identifies the scope of specific task orders. Please refer to Paragraph XI.11 "Prevailing Wage and Contractor Registration" of this RFQ, and Paragraph 3.10.6 "Prevailing Wages" of the Professional Services Agreement for further requirements.

Expected services to be provided under this on-call contract are as followed:

ACHITECTURAL PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

ARCHITECTURAL BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

DESIGN and CONSTRUCTION DOCUMENTS

- Attend meetings and prepare Meeting Minutes.
- Attend job-walks with architect and engineers
- Review plans at various stages and provide comments
- Provide support as required
- Review the 60 and 90% Plans and Specifications to identify potential errors, omissions, National Electric Code and coordination issues.
    - Detailed review of the Electrical drawings, Latter Logic, Relay logic, Control Logic, verification of the Instrumentation and Mechanical Drawings, and confirm that all electrical equipment are properly shown at their corresponding placements with their required signals, tagging, SCADA network connectivity, Verify all needed points and PLC Address on a list etc.
- Ensure all submittal comments have been addressed in the 100% package.

CONTRACTOR PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

CONTRACTOR BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Attend Mandatory Pre-Bid Conference, Bid Scrub, and job-walks
- Assist with RFI responses, keep logs as required
- Prepare Spreadsheet evaluating responses
- Provide support as required

PRE-CONSTRUCTION

- Develop and update the over-all Project Schedule
- Develop and update the overall Project Budget
- Work with City staff and vendors to prepare the construction site for closure and construction
- Provide support as needed relating to Contractor Mobilization, administrative tasks, Facility Rules and Regulations for Contractors, etc.
- Attend job-walks as required to familiarize contractor with the facility and job-site
- Attend staff presentations to familiarize the affected staff as to expectations
- Attend planning meetings
- Meet with vendors as needed and as directed to obtain quotes, coordination, etc. Provide support as needed

CONSTRUCTION

- Monitor quality of construction via regular job-site inspections.
- Prepare, monitor, report periodically, and revise, as needed the Project Schedule.
- Prepare, monitor, report periodically, and revise, as needed the Project Budget.
- Attend weekly construction meetings, and provide meeting minutes, distributed to all parties
- Photograph site weekly and archive photos
- Monitor all standard construction documentation, including submittals, RFI's, etc.
- Review all contractor change orders for scope and cost approval.
- Review and monitor payment of all contractor and vendor invoices.
- Attend punchwalk on behalf of Client
- Monitor punch-list progress and completion to 100%
- Assist during punchlist period for complaints, modifications, etc.
- Provide support as needed
- On-site inspection services to ensure all electrical scope of work complies with the conformed set of plans and specifications.
    - Inspection team to be knowledgeable of all electrical, instrumentation, control logical, Discrete Input/Outputs, Analog (4-20ma) Inputs/Outputs and all SCADA/RTU systems at the project site.

FIXTURIZATION

- Assist Client with de-install and removal of existing furniture, and installation of new furniture and fixtures by Client's furniture vendor
- Obtain competitive bidding for any items or services, as directed by Client
- Prepare punchlists for furniture and fixtures
- Provide support as needed
- Attend jobwalks and/or meet vendors on site as needed

POST-CONSTRUCTION

- Attend meetings and provide Meeting Minutes
- Review requests for additional scope or services; obtain pricing, and implement, if so directed
- Provide support as required

ACCOUNTING AND PROJECT CLOSE-OUT

- Obtain close-out package from General Contractor including but not limited to as-built drawings, air-balance reports, warranty, maintenance and operations manuals, etc.
- Assist with coordination of final payment to General Contractor
- Assist with completion of Lien Release process
- Provide summary documentation, spreadsheets, analysis, etc, as directed
- Archive all electronic and paper files; provide copies of key documents and photos to Client

City of Ontario
303 East B. Street
Ontario, CA 91764
Subject: Proposal to Provide On-Call Project Management

In response to your Request for Proposal and Addendum 1, AKM Consulting Engineers (AKM), a SBA certified Small Business Enterprise, is pleased to submit this proposal to provide on-call project management for the City of Ontario (City). Our proposal reflects our understanding of the scope of work based upon the RFP, review of the Contract Documents, insurance documents, and information provided by the City. Contact information for this proposal is:

Emin Kayiran, CPII – Vice President / Director of Construction Management
AKM Consulting Engineers, Inc. - 553 Wald, Irvine, CA 92618
Phone: 949-753-7333 – FAX: 949-753-7320 – email: ekayiran@akmce.com

Included in our proposal are the following items: Executive summary, table of contents, identification of proposer, staffing resources including resumes, fiscal stability, experience and technical competence, proposed method to accomplish work, hourly rate schedule, insurance, litigation, other information, and certification of proposal.

Identification of Proposer (Qualifications and Capabilities)
As specialists in public infrastructure engineering for public agencies, AKM has successfully performed a wide array of Project Management, Construction Management and Inspection services under on-call contracts. Our proposal highlights recent projects which involve similar elements to those anticipated by the City, as well as displays our long history of providing on-call project management, construction management and inspection services. AKM pledges the timely deployment of resources to successfully undertake any task that the City may assign. We also note that AKM will responded to every task order request that may be distributed, as we have done during our previous on-call engagement with the City.

Staffing Resources
AKM has assembled a Project Team with extensive experience and expertise in all facets of planning, design, and construction management of public infrastructure projects. The proposed Project Team will be under the direction of Mr. Emin Kayiran, CPII, as Project Manager. He possesses over 19 years of public works infrastructure construction management and inspection expertise. He also serves, or served, as AKM's Project Manager for On-Call Construction Management Contracts for the City of Cypress, City of Stanton, City of Long Beach, City of Santa Ana, Ontario Municipal Utilities Company, West Basin Municipal Water District, and Water Replenishment District. Additionally Mr. Kayiran served as a Subject Matter Expert for the American Public Works Association in support of an overhaul of their public infrastructure inspection training and certification material including co-authoring a new module on the inspection of treatment and pumping facilities.

The team has been assembled based familiarity and knowledge with the City and their system, as well as technical expertise such as specific recycled water facilities construction experience, experience in coordinating with multiple outside agencies, treatment experience, proficiency in electrical and automation systems such as programmable logic controllers, variable frequency drives and integration of electrical and instrumentation components into existing SCADA systems. The team also includes multiple experts in scheduling and delay analysis using Primavera P6, steel and concrete tank construction, as well as specialty coating applications.

Fiscal Stability

AKM is, and has always been in excellent financial standing. We have provided a statement from Bank of America regarding our line of credit and available credit. We have also included a letter from Collie Accountancy regarding our compilation report.

Experience and Technical Competence

From the time of our Firm's inception, AKM has always been a relationship based business, relying on forging lasting relationships with our clients and repeatedly providing great service. We therefore believe there is no greater indicator of future success than past performance. Within this proposal, we have provided the names and contact information for clients who can attest to our level of service working in a similar capacity during on-call service engagements. We also highlight similar projects and engagements that we have recently completed.

Proposed Method to Accomplish the Work

As we understand, the City of Ontario plans to engage the services of qualified Project and Construction Management consulting firms to partner with the City in delivering a variety of planned projects. The projects with vary in size and scope and will be initiated via task orders. Selected consultants will respond to task order requests via a concise, yet complete proposal. Responsiveness to task order requests is vital in order for the City to successfully deliver planned projects on time. In this section of our proposal, we present AKM's specific approach to administering our construction management services. We detail how AKM's ability to adapt and evolve, responsiveness, meticulous attention to detail, commitment to documentation, and our proposed web-based document control systems, provide for effective and efficient projects.

Hourly Rate Schedule

AKM has included our proposed rate schedule for AKM which includes any mark-ups on services and other direct costs.

AKM is willing and able to provide the required insurance coverage and Accord insurance form. The undersigned certifies that AKM meets the minimum requirements of this solicitation. Our proposal will be valid for 12 months from the date of this submittal. As the Vice President of AKM, the undersigned is authorized to bind the firm as set forth in the California Corporations Code.

We appreciate the opportunity to submit our proposal and look forward to being of service to the City of Ontario on this most important project. Should you have any questions regarding our submittal or require additional information, please do not hesitate to contact the undersigned.

Sincerely,

AKM Consulting Engineers

Emin Kayiran, CPII
Vice President / Director of Construction Management

SECTION 3: IDENTIFICATION OF PROPOSER

AKM, a SBA Certified Small Business Enterprise, is a multi-disciplined professional organization that specializes in providing water resource infrastructure engineering and related services to public agencies. AKM has a current staff of thirty (30) employees who operate out of our office strategically located in Irvine at the intersection of the 5 and 405 Freeways. The scope of services offered by AKM includes all facets of planning, design and construction management for public works infrastructure.

The focus of our experience is within Southern California, and all key project team members are fully acquainted with the local and regional issues affecting the planning, design and construction of water resource infrastructure in the area. This, along with the technical and managerial depth of the team, will ensure the successful implementation of any project assigned under this contract. Having been providing construction management related services since the firm's inception in 1990, AKM has completed construction management and inspection assignments for the following agencies:

- City of Alhambra
- City of Arcadia
- City of Cypress
- City of Corona
- City of El Segundo
- City of Fountain Valley
- City of Garden Grove
- City of Long Beach
- City of Newport Beach
- City of Ontario
- City of Palos Verdes Estates
- City of San Clemente
- City of San Juan Capistrano
- City of Santa Ana
- City of Santa Fe Springs
- City of Seal Beach
- City of Stanton
- City of Tustin
- Bellflower Somerset MWC
- Garden Grove Sanitation District
- Moulton Niguel Water District
- Orange County Water District
- South Coast Water District
- West Basin MWD

QUALIFICATIONS

AKM Consulting Engineers, by virtue of its extensive relevant experience, specialized training, local knowledge, and technical competence, can provide the City with high quality construction management, and inspection services, quickly, and at a lower overall cost than our competitors. Our staff members possess experience directly related to all facets of construction management and inspection with significant experience with water, recycled water, wastewater, stormwater and stormdrain facilities.

Further, AKM has been providing construction management services to the City of Ontario since 2017. During that time, AKM has successfully partnered with the City staff to complete several successful projects, while at times navigating through complex project issues. By virtue of this experience, our construction management staff possess intimate knowledge of the City's infrastructure, their organizational structure, and has a strong feel for the pulse of the residents and the community where their facilities are located

Because AKM is a full service engineering firm, our team has an extremely well rounded background in all facets of public infrastructure engineering, many having worked on multiple design and master planning assignments. This level of experience enables our team to approach construction projects on a much deeper level, since they understand design and overall planning implications on City infrastructure and systems as a whole. AKM also retains an in-house staff of

computer-aided drafting professionals and can support the District with any of their CAD needs.

Full client satisfaction is a corporate commitment at AKM. This is reflected in a very high repeat client base (over 92%), our standing in the industry as a premier public infrastructure engineering company, low insurance rates, and a very stable work force.

Summary of Unique Qualifications
• ***All*** proposed team members have served as both a construction inspector and construction manager, bringing a well-rounded background to projects
• AKM team members are recognized experts specializing in the field of public works infrastructure with an emphasis in water resource related projects
• We understand the organizational structure of the City as AKM specializes in public infrastructure and only works for public agencies
• Proposed team members have a strong feel for the pulse of the residents and the community where projects are expected to take place
• Unrivaled responsiveness to the City and project needs. Our day does not end at 5:00 PM
• Proven track record of being able to respond to both large projects spanning years, as well as small projects lasting only a few days
• The City will have access to a full service engineering firm who can also provide engineering support, design, CAD and planning

COMPANY PROFILE

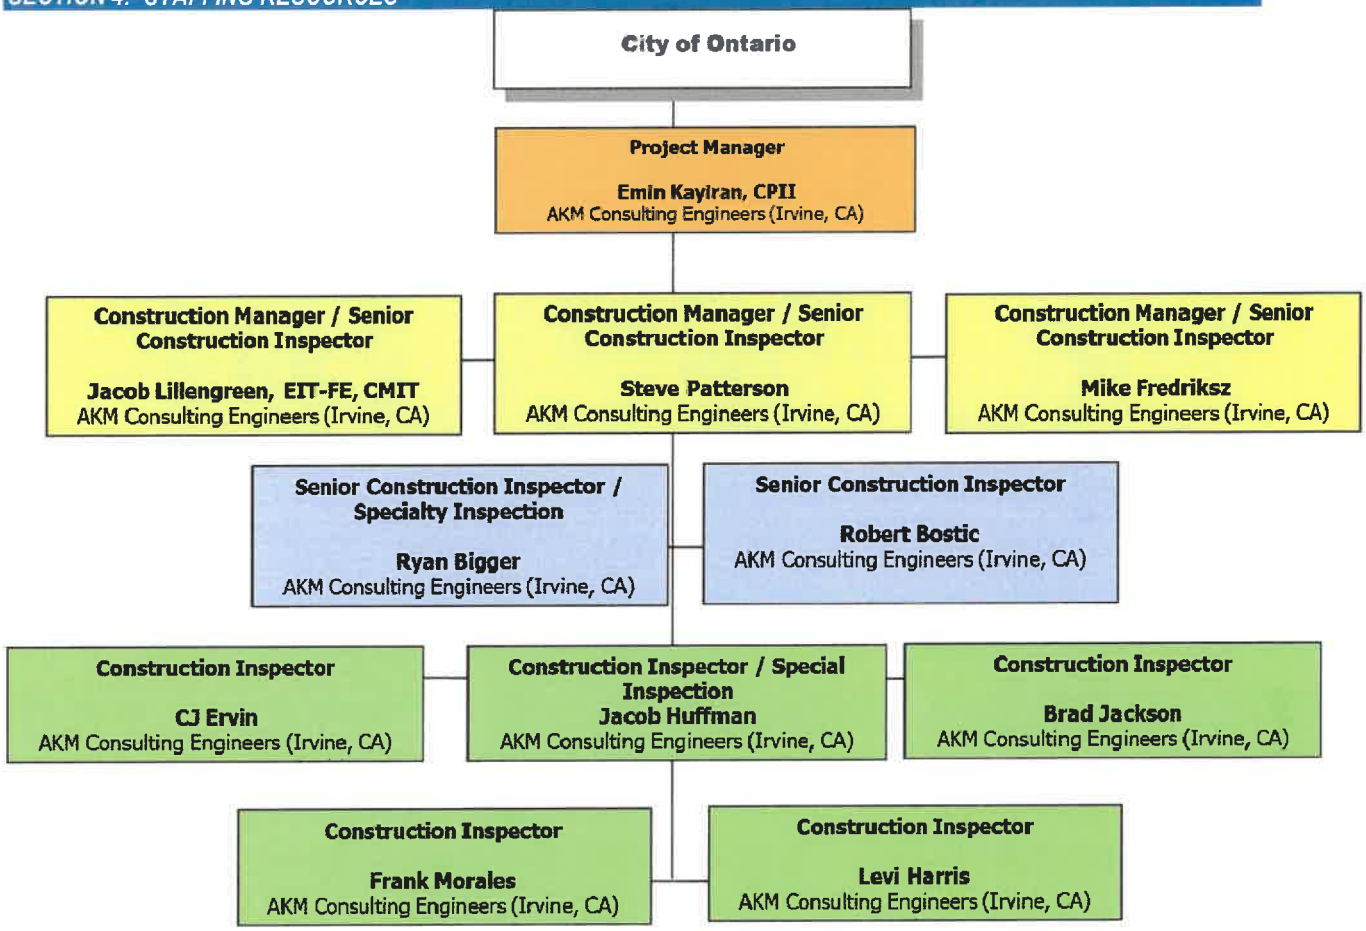
The scope of services offered by AKM includes all facets of planning, design and construction management for public works construction projects. We have a long and distinguished record of providing on-call services to public agencies. A full listing of services offered by AKM is as follows:

CONSTRUCTION MANAGEMENT AND SUPPORT

- Contract Administration
- Inspection
- Construction Management
- Resident and Field Services
- Procurement
- Start-Up and Acceptance
- Project Close-Out
- Estimating
- Schedule and Delay Analysis

STORMWATER, WASTEWATER, POTABLE WATER, AND RECYCLED WATER

- Master Plans
- Water Treatment
- Water Reclamation
- Odor Control
- Solids Handling
- Outfalls
- Collection Facilities
- Pump and Lift Stations
- Storm Drains and Channels
- Detention Basins
- Permitting and Regulatory Compliance
- Pipeline and Transmission Facilities
- Wells
- Storage Facilities
- Deficiency Reports and Inventories
- Capital and Facilities Plans
- Improvement Plans
- Hydraulic Analysis
- Hydraulic Structures
- Reservoirs and Lakes
- Water Quality



TECHNICAL SERVICES

- Supervisory Control and Data Acquisition (SCADA)
- Geographic Information Systems
- Operations and Maintenance
- CADD (Microstation, AutoCAD)
- Scheduling

PLANNING

- Project Planning
- Potable Water, Recycled Water, Waste Water, and Storm Water Master Plans
- Facility Planning
- Economic and Financial Planning
- Conjunctive Use Planning
- Sewer System Management Plans (SSMP)
- Rate Studies
- Urban Water Management Plans
- Water Supply Assessments

SECTION 4: STAFFING RESOURCES

AKM Consulting Engineers provides an in-house multi-disciplinary staff of professionals who are recognized specialists in public infrastructure planning, design, and construction management. The staff members have superb technical training and academic backgrounds. Furthermore, they regularly attend technical seminars to keep abreast of the professional developments in their fields.

AKM's proposed Project Team members have a long and distinguished track record in the performance of high quality services, especially with respect to program/project management, construction management and inspection of public infrastructure improvements. The Project Team is well qualified to undertake the work and provide superior technical services. All key members will be made fully available to serve on any assigned project under the proposed on-call services contract. Key team members will not be substituted without prior written approval from the City. In the very unlikely event a key project team member becomes unavailable during a project due to an unforeseen circumstance, an equally or superiorly qualified replacement will be provided. AKM will submit a situation and project specific transition plan for the City's consideration in such an event. Resumes with relevant experience of key project personnel are included in an Appendix A.

The key to successful completion of the work for the City will be the Construction Managers and Resident Engineers/Inspectors. These team members will be responsible for day-to-day communications with Contractors during projects, and in many ways, their effectiveness will dictate how efficiently the projects are completed. The position requires persons who are knowledgeable of the project's plans and specifications; possess excellent communication skills, and are confident and capable of exercising basic fairness when confronted with conflicts or differences of opinions, while still protecting the City's interests and those of the projects at large. We have assigned eleven (11) highly skilled, senior level construction professionals to this assignment. AKM construction management and inspection team includes the following members:

- Emin Kayiran, CPII, Project Manager / Vice President / Director of Construction Management Services ***(Primary point of contact)***
- Steve Patterson, Senior Construction Manager/Senior Construction Inspector ***(Secondary point of contact)***
- Mike Fredriksz, Construction Manager / Senior Construction Inspector
- Jacob Lillengreen, EIT-FE, CMIT, Construction Manager
- Ryan Bigger, Senior Construction Inspector / Specialty Inspection
- Robert Bostic, Senior Construction Inspector
- Brad Jackson, Construction Inspector
- Jacob Huffman, Construction Inspector / Special Inspection
- Frank Morales, Construction Inspector
- Craig Ervin, Construction Inspector
- Levi Harris, Construction Inspector

All construction management and inspection services performed by AKM are structured to respond to the technical and managerial requirements of the project by assigning senior, highly qualified personnel to the scope of work tasks. They function in a simple organization with clear lines of delegated authority and responsibility. Our assigned Project Manager, Mr. Emin Kayiran, CPII, will be the principal point of contact with the City and have full technical and administrative responsibility for the projects. In the very unlikely event that Mr. Kayiran is temporarily unavailable, Mr. Steve Patterson will be the associate in charge and the City's contact. AKM's staff has the unique ability to inspect electrical and control systems, as well as coating and lining systems for water, wastewater and treatment applications. It is a requirement for all AKM Construction Management Team Members to possess the ability to inspect these aspects of construction. As such, there is a greater level of inspection continuity and quality assurance amongst the various aspects of construction since it inspected by the same individual. Often times when projects are staffed with multiple inspectors assigned to individual trades, inspection responsibilities become blurred and important details are over-looked. This also enables AKM to have greater control over the quality of inspections and translates to cost savings for the City.

Our construction management and inspection team is represented in the organization chart in this Section. The key team members for this project are listed at the end of this Section along with their detailed description and biography. We are able to provide additional superbly qualified resources that work with AKM on select projects if need be.

MR. EMIN KAYIRAN, CPII - Role: Project Manager / Director of Construction Management Services **Years of Experience:** 19 **Years with AKM:** 19
Mr. Emin Kayiran, CPII, who has been a Construction Manager and Senior Resident Engineer with AKM for over 19 years, has a broad background in construction management, inspection, and scheduling. Mr. Kayiran's experience includes management and inspection of treatment facilities; wells; pipelines; pump and lift stations; street improvements including traffic striping; rehabilitation and slurry seal; reservoirs; concrete structures; protective coatings and linings; electrical, control and SCADA systems; management of hazardous materials removal; shoring systems; dewatering; and ground settlement monitoring. Additionally, Mr. Kayiran has provided shop drawing review, claims management, cost control, change order preparation, change order negotiation, startup testing and inspections, warrantee

inspections, warrantee work coordination with contractors, utility coordination and constructability review services to municipal agencies. He is trained in schedule and delay analysis and well versed in Primavera P6.

Mr. Kayiran has served as an on-call construction manager for West Basin Municipal Water District, South Coast Water District, Ontario Municipal Utilities Company, the City of Cypress, the City of Santa Ana, the City of Fontana, the City of Stanton, Water Replenishment District, the City of Long Beach and an on-call construction inspector for the City of Seal Beach.

Mr. Kayiran recently served as a Subject Matter Expert for the American Public Works Association in support of an overhaul of their public infrastructure inspection training and certification material. During this effort, he co-authored a new training module on the inspection of pumping and treatment facilities for inclusion in the updated manual which was published in 2019. He was a co-presenter and speaker for "De-mystifying Risk" an Engineering News Record webinar.

Mr. Kayiran will be responsible for developing project specific construction management and inspection procedures for any assignment. He will also ensure that field construction management and inspection work is being carried out in strict accordance with the project goals and scope of work.

MR. STEVE PATTERSON - Role: Construction Manager / Senior Construction Inspector
Years of Experience: 34 **Years with AKM**: 15

Mr. Steve Patterson, a Construction Manager/Senior Resident Engineer with AKM since 2008, has over 30 years of public infrastructure construction, operation, maintenance, and design experience. Mr. Patterson has significant experience managing and inspecting construction with an emphasis in public works capital improvement projects. He has served as a Utilities Operations Supervisor for a municipally owned water/wastewater utility in a coastal community. Additionally, Mr. Patterson has thorough knowledge of, and training in occupational hazards and safety precautions and requirements as they pertain to the construction, operations and repair of public works infrastructure. Mr. Patterson is also thoroughly familiar with the requirements of both Caltrans and the U.S. Army Corp. of Engineers for State and Federally funded local projects.

MR. MIKE FREDRIKSZ - Role: Senior Construction Manager / Senior Construction Inspector
Years of Experience: 30 **Years with AKM**: 6

Mr. Mike Fredriksz has more than 30 years of experience providing construction oversight of Capital Improvements and large residential development projects. Prior to joining AKM, he served as the Inspection Services Supervisor for Irvine Ranch Water District. Mike's project experience includes water, recycled water and wastewater facilities, reservoirs, pipelines, pump stations, sewer lift stations, buildings, treatment plants, street rehabilitation and slurry seal. He has been extensively involved with multiple stakeholders including the public, elected officials, developers, contractors, engineers and architects. His responsibilities have included monitoring construction activities, traffic control, preparing daily construction reports, verifying compliance with plans and specifications, maintaining record drawings, performing final inspections and presiding over facility startups. Mike has knowledge and experience with project management, submittal process, RFI and change orders.

MR. JACOB LILLENGREEN, EIT-FE, CMIT - Role: Construction Manager **Registration**: Engineering in Training (CA); Fundamentals of Engineering; CMIT Level 3 **Years of Experience**: 6 **Years with AKM**: 2

Mr. Lillengreen has 6 years' experience in engineering and construction management working on various public works projects. He possesses communication and organizational skills to provide valuable support for construction projects. He is well versed in processing RFIs, submittals and change orders in a timely matter. Mr. Lillengreen has an extensive computing background and is highly proficient in AutoCAD, Bluebeam, and a range of Microsoft programs. He has experience in multiple project management software as well including Procore, EADOC, VPO and Unifier.

MR. RYAN BIGGER - Role: Senior Construction Inspector / Specialty Inspection
Registration: ICC Special Inspector Certification – Reinforced Concrete; Pre-Stressed Concrete; Structural Masonry; Spray Applied Fire Proofing; Structural Steel and Bolting **Years of Experience**: 10 **Years with AKM**: 3

Mr. Ryan Bigger is an experienced Construction Inspector who began his career as a materials testing technician and Special Inspector. Mr. Bigger has a strong background in reinforced concrete structures, geotechnical remediation, structural bolting, piping and protective coatings. Mr. Bigger has provided inspection services for pipelines, treatment plants, pump stations, road and highway work, grading operations, municipal buildings and airports. He applies a meticulous attention to detail to all of his projects.

MR. ROBERT BOSTIC - Role: Senior Construction Inspector
Registration: SWRCB Grade IV Water Treatment Operator; SWRCB Grade IV Water Distribution Operator
Years of Experience: 18 **Years with AKM**: 4

Mr. Robert Bostic, a former United States Marine Corps Sergeant, has more than 17 years of experience providing construction management, inspection services and operations and maintenance services. Robert's project experience includes water treatment facilities, natural gas systems, street maintenance, desalination plants, as well as operations, and management. He is a licensed Grade

IV Water Treatment Operator and Grade IV Water Distribution Operator. Having served as a construction manager and inspector, as well as a treatment plant and water distribution operator, Mr. Bostic brings a uniquely well rounded perspective to the projects he serves.

MR. BRAD JACKSON - Role: Construction Inspector
Years of Experience: 30+ **Years with AKM**: 1

Mr. Jackson has spent the past 30 years with the Irvine Ranch Water District. He has progressed from a position in the warehouse learning the basics of pipes, fittings and appurtenances to managing a team of dedicated construction inspectors overseeing and inspecting projects from housing tracts to the construction of District pipelines, reservoirs, pump stations, well rehabilitations and chemical feed facilities. He possesses excellent oral and written communication skills and take great pride in composing documentation and reports. Collectively, with his experience and education, he will provide excellence in inspection services. Mr. Jackson has inspected several pipelines, many of which required close coordination with the staff of other involved agencies, and were constructed within major arterial roads.

MR. JACOB HUFFMAN - Role: Construction Inspector / Special Inspector
Years of Experience: 20+ **Years with AKM**: 2

Mr. Jacob Huffman, a seasoned construction inspector, is a certified ACI Concrete Field Testing Technician, ICC Certified, and Caltrans Certified inspector who possesses over 20 years of experience in construction inspection for underground water, sewer, storm drain, and other utility work, as well as water resource related facilities such a pump stations, treatment plants and reservoirs. His experience also includes a variety of street rehabilitation work and municipal buildings. Mr. Huffman has inspected all phases of construction of new facilities, as well as rehabilitation of existing facilities from inception to completion. His in-depth knowledge of soils and construction related materials such as asphalt concrete, concrete and structural metals, make him a valuable asset to all projects he serves on.

MR. FRANK MORALES - Role: Construction Inspector
Years of Experience: 30+ **Years with AKM**: 4

With more than three decades of performance-based progression to senior-level executive management, Mr. Morales has a well-honed and proven background in construction management, construction supervision, inspector of record, owners' representative, architectural, civil engineering design skills, sales and customer service. His strengths include the ability to communicate on every level required to perform any given task. Mr. Morales is a inspector who is a highly motivated and results oriented professional possessing exceptional leadership and communications skills. He has a solid track record of consistently meeting and exceeding individual, departmental and company goals and expectations. His experience ranges from treatment plants, recycled water pipelines and pumping facilities to large commercial buildings and tenant improvements.

MR. CRAIG (C.J.) ERVIN - Role: Construction Inspector
Registration: Grade 3 California Water Treatment Operator; AWWA Grade 2 Distribution Operator **Years of Experience**: 30+ **Years with AKM**: 8

Mr. Craig (CJ) Ervin, a licensed Grade 3 California Water Treatment Operator who possesses over 30 years of experience in construction inspection for water reclamation plants, water and sewer pump stations, street improvements, building projects, pipelines and infrastructure. As a Construction Inspector, Mr. Ervin has inspected all phases of construction of new facilities, as well as rehabilitation of existing facilities from inception to completion, working closely with Contractors, Developers, public agency engineering teams and utilities. Additionally, Mr. Ervin has provided claims management, cost control, change order preparation, change order negotiation, warrantee inspections, warrantee work coordination with contractors and constructability review services to municipal agencies.

MR. LEVI HARRIS - Role: Construction Inspector
Years of Experience: 4 **Years with AKM**: 1

Levi Harris is seasoned construction professional who has a broad background in pipeline construction, treatment facilities, as well as building, programming, retrofitting, and repairing electrical and control panels. Mr. Harris previously worked for a construction contractor specializing in oil and gas pipelines. He leverages his well-rounded experience to provide exceptional inspection service to AKM's clients, and prides himself in thorough documentation practices.

SECTION 6 EXPERIENCE AND TECHNICAL COMPETENCE

The scope of services offered by AKM includes all facets of planning, design and construction management for public works construction projects. We have a long and distinguished record of providing on-call services to public agencies and have been providing Project Management, Construction Management and Inspection Services for over 25 years. A full listing of services offered by AKM is as follows:

CONSTRUCTION MANAGEMENT AND SUPPORT

- Contract Administration
- Inspection
- Construction Management
- Resident and Field Services
- Procurement
- Start-Up and Acceptance
- Project Close-Out
- Estimating
- Schedule and Delay Analysis

STORMWATER, WASTEWATER, POTABLE WATER, AND RECYCLED WATER

- Master Plans
- Water Treatment
- Water Reclamation
- Odor Control
- Solids Handling
- Outfalls
- Collection Facilities
- Pump and Lift Stations
- Storm Drains and Channels
- Detention Basins
- Permitting and Regulatory Compliance
- Pipeline and Transmission Facilities
- Wells
- Storage Facilities
- Deficiency Reports and Inventories
- Capital and Facilities Plans
- Improvement Plans
- Hydraulic Analysis
- Hydraulic Structures
- Reservoirs and Lakes
- Water Quality

TECHNICAL SERVICES

- Supervisory Control and Data Acquisition (SCADA)
- Geographic Information Systems
- Operations and Maintenance
- CADD (Microstation, AutoCAD)
- Scheduling

PLANNING

- Project Planning
- Potable Water, Recycled Water, Waste Water, and Storm Water Master Plans
- Facility Planning
- Economic and Financial Planning
- Conjunctive Use Planning
- Sewer System Management Plans (SSMP)
- Rate Studies
- Urban Water Management Plans
- Water Supply Assessments

ON-CALL SERVICES CONTRACTS

AKM entered into on-call contracts for construction management and inspection with the following agencies:

- City of Ontario
- City of Anaheim
- City of Corona
- City of Cypress
- City of Fontana
- City of Huntington Beach
- City of Long Beach
- City of Los Angeles
- City of Seal Beach
- City of Stanton
- Camarillo Sanitary District
- County of Orange
- Garden Grove Sanitation District
- LACDPW
- South Coast Water District
- Water Replenishment District
- West Basin MWD

Construction Cost:$20,000,000 for projects completed to-date **A/E Fees**:$1,200,000 **Completion**:2018-Present

LOCAL EXPERIENCE AND KNOWLEDGE OF THE CITY

AKM has been working for the City of Ontario for over 20 years, primarily on planning assignments for its sewer system. AKM's first planning assignment was the New Model Colony 2001. This plan was the beginning stages of the backbone sewer system in the Ontario Ranch area that today is rapidly being developed from agricultural lands into a residential, commercial, and industrial community. AKM next assisted the City with the phasing of sewer pump station improvements and removals in 2003. Over the next 20 years, AKM prepared multiple Sewer Master Plans, Water Master Plans, and special studies. Due to the extensive amount of planning work AKM has completed for the City over the years, AKM staff has extensive knowledge of the City's water and sewer systems as well as the regional/local issues. AKM staff is also extremely familiar with the water and sewer hydraulic models.

For the past 5 years, AKM has been providing Construction Management and Inspection Services to Ontario under an on-call services contract. In this time AKM has been retained for the following projects

- Riverside-Jurupa Recycled Water Project – Constructability Review
- Equipping of Well 43 – Construction Management and Inspection (*Currently in the Startup Phase*)
- Pressure Reducing Valve (PRV) Rehabilitation Phase 1 – Construction Management and Inspection (*Currently in the Preconstruction Phase*).
- Mercedes Lane and Ferrari Lane Sewer Improvements – Construction Management and Inspection (*Currently in the Preconstruction Phase*).

PROJECT SPECIFIC EXPERIENCE

AKM Consulting Engineers has a long and distinguished track record in providing quality engineering services, especially with respect to planning, design, and construction support of water, recycled water, and wastewater systems. Specific examples of

AKM's experience related to on-call water engineering services are listed below.

EQUIPPING OF WELL NO. 43
City of Ontario – 1425 S. Bon View Avenue, Ontario, CA 92761
Contact: Mr. Thomas Palmieri, 909-395-2688 tpalmieri@ontarioca.gov
Role: Prime Construction Management / Inspection **Contractor**: RC Foster
AKM Staff: E. Kayiran (PM); M. Fredriksz (CM); R Bigger (Inspector); R. Bostic (Inspection)
COMPLETE UNDER THE ON-CALL SERVICES CONTRACT

AKM Consulting Engineers is currently completing construction management and inspection services for the project which includes construction of a new water production well facility including a block building, installation of a 800kW emergency stand-by generator, installation of a vertical turbine pump and motor, onsite piping, onsite hypochlorite generation system and equipment, electrical controls, and site work.

LONG BEACH MUNICIPAL STORMWATER TREATMENT FACILITY (LB-MUST)
City of Long Beach – 411 W. Ocean Blvd., 5th Floor, Long Beach, CA 90805
Contact: Mr. Colin Averill (562) 570-6679 colin.averill@longbeach.gov
Role: Prime Construction Management / Inspection Contractor: Phase I – All American, Phase II – Sully-Miller/Keller, Phase III – Shimmick Construction Co./E2 Construction
AKM Staff: E. Kayiran (PM); S. Patterson (CM), J. Lillengreen (CM); CJ Ervin (Inspection); M. Fredriksz (Inspection); R. Bostic (Inspection); J. Huffman (Inspection); L. Harris (Inspection)
COMPLETE UNDER THE ON-CALL SERVICES CONTRACT

AKM is currently providing construction management, inspection, and design quality control services for the City of Long Beach Municipal Urban Stormwater Treatment (LB-MUST) Facility. The project will intercept non-stormwater runoff and a percentage of the first-flush storm flows generated within the City of Long Beach urban watersheds prior to discharging to existing storm drain outfalls flowing into the Los Angeles (LA) River and the Los Angeles River Estuary.

A majority of the City's urban drainage systems are older facilities, which were originally designed with the focus on flood protection and are not currently equipped to address urban stormwater pollution. The proposed LB-MUST facility will assist in the compliance with stormwater pollution and discharge regulations requirements and potentially provide the opportunity as a source for alternative water supply in the future. The intercepted flows from different locations within the City's urban watersheds will be collected and diverted to a centralized downstream advanced treatment facility and storage pond. The key elements of this system include:

- Multiple upper watershed diversions to intercept and collect flows located "in-line" along each of the existing storm drains tributary to the LA River and small diversion pump stations at each diversion structure;
- Diverting flows from existing stormwater pump stations through their sump pumps
- Hydraulic conveyance systems (pipes and/or open channel) to deliver captured runoff for downstream treatment
- Advanced water treatment facility composed of multiple treatment elements and ponds / wetlands
- Upper watershed BMPs / storage basin facilities; and
- Potential future benefit as an alternative water supply source.

The project is divided into three (3) phases (clearing and grubbing/ initial site preparation (underground utilities and ground stabilization), treatment facility construction, and conveyance system construction).

LB-MUST Street Improvements - AKM completed the construction management and inspection of the clearing and grubbing/initial site preparation phase in 2018. This phase included clearing and grubbing of the proposed site, initial rough grading of the site, removal of buried railroad tracks and ties, installation of K-rail and fencing around the site, establishment of long term stormwater best

management practices (BMPs) for the disturbed area and weekly BMP inspections. The work also required the City to relocate a homeless encampment within the work zone. In 2020, AKM completed providing construction management services for Phase II of the program which included the construction of a new low voltage electrical service, reconstruction and realignment of the roadway fronting the proposed treatment plant site, underground utilities such as water, storm drain and recycled water, as well as the installation of 3,100 linear feet of the conveyance pressure pipe system.

LB-MUST Ground Improvements – This phase of the project was completed in January 2021. Work included furnishing all plant, labor, equipment, and materials; performing all operations as required to construct the deep soil mixing (DSM) ground improvements; and providing all associated testing, monitoring, sampling, and recording. Specific work included: mobilization/demobilization; SWPPP; excavation and placement of 2 stockpiles; disposal of hazardous soil; surveying; Deep Soil Mixing construction in full compliance with bid documents; quality control; and construction of a load transfer platform

LB-MUST Treatment Plant and Wetlands - AKM provided quality control and constructability review of the proposed treatment plant and conveyance system design of the 90 percent design package and is currently providing construction management and inspection during construction. The treatment is designed with the ability to treat both brackish and non-brackish influent flows through separate treatment trains. The treatment process train consists of influent strainers, ceramic membrane ultra-filtration (UF), and an advanced oxidation process (UV/AOP). The ancillary processes include process pumping, process storage tanks, chemical feeding, and air supply. An RO system can be added to the treatment train in the future, downstream of the UV/AOP, to reduce TDS of the effluent and/or provide additional barriers for potential potable reuse. The ceramic membrane system, which consists of two (2) 1 million gallon per day (MGD) units as well as the UV/AOP were pre-purchased by the City. The treatment facility will be housed within a 9,000 square foot cement masonry unit building with electrical, chemical and control rooms, and will include an HVAC system. Also being constructed is a wetlands and walking path.

JOINT TRANSMISSION MAIN VAULTS UPGRADE
South Coast Water District – 31592 West Street, Laguna Beach, CA 92651
Contact: Ms. Taryn Kjolsing, Engineering Manager (949) 499-4555 x3171 tkjolsing@scwd.org
Role: Prime Construction Management / Inspection **Contractor:** W.A. Rasic
AKM Staff: E. Kayiran (PM); M. Fredriksz (CM/Inspector)
COMPLETE UNDER THE ON-CALL SERVICES CONTRACT

AKM provided construction management and inspection services for the Joint Transmission Main Vault Upgrade Project for South Coast Water District. Work included construction of structural and mechanical improvements to four valve vaults, one water meter vault, and one drain unit. Scope of work included: removal of large diameter ball valves (24" and 30"), removal of 42" ball valve, removal of 24" water meter, extension of existing concrete vaults walls to above ground and installation of aluminum access hatches, installation of new ladders, vent pipes in the vaults, construction of 24" steel pipe spools in the place of removed water meter and valve, installation of Owner provided 30" ball valve and miscellaneous site work.

Problems/Issues: The major mechanical work was completed during a 14-day shutdown of the JTM line which required coordination with both SCWD and Moulton Niguel Water District operations staff as the JTM line is jointly owned and operated. In order for all work to be completed within the shutdown duration, and to the quality standards set forth in the Contract Documents, AKM's team conducted pre-shutdown field meetings and inspected all materials required for the work prior to the shutdown. The work during the shutdown was completed one day earlier than anticipated.

During the project, a section of pipe that was scheduled to be removed was discovered to be concrete encased and extend into two vaults. This required the pipe and concrete encasement to be removed and resulted in a much deeper excavation than anticipated. The deeper excavation extended below the groundwater table and the Contractor experinced trouble controling the groundwater and

providing dry conditions within the excavation. AKM's field team made recommendation and suggestions which, when implemented by the Contractor, improved the handling of groundwater and excelerated the construction in the deep excavation.

The project was located within a private gated retirement community and required close coordination with the property management company and community representatves. With consistent and clear communication regarding the construction activities and their potential impacts, the community representatives were able to properly plan and communicate with residents. As a result, the project received no resident complaints.

LEO J. VANDER LANDS WATER TREATMENT FACILITY CALCIUM CHLORIDE BULK STORAGE EXPANSION
Water Replenishment District - 4040 Paramount Blvd., Lakewood, CA 90712
Contact: Jessica Koop (562) 275-4219 jkoop@wrd.org
Role: Prime Construction Management / Inspection **Contractor**: Pascal and Ludwig
AKM Staff: E. Kayiran (PM). S. Patterson (CM/Inspector); C. Ervin (Inspector); R. Bostic (Inspection) ***COMPLETE UNDER THE ON-CALL SERVICES CONTRACT***

AKM provided Construction Management and Inspection services for the LVL Calcium Chloride Bulk Storage Expansion Project which entailed an expansion of the existing calcium chloride bulk storage system within the Leo J. Vander Lans Advanced Water Treatment Facility (LVLAWTF). The Project provided a new 5,000 gallon tank resulting in total storage capacity of 10,000 gallons. Construction elements necessary for completion of the system expansion included demolition work and clearing of the proposed location of the expanded bulk storage system, relocation of an existing RO pilot system and termination of associated piping, conduit and wire; potholing of existing utilities and verification of the availability of existing spare electrical conduits; construction of a steel framed canopy and roof including a reinforced concrete slab and containment wall coated with a corrosion resistant coating; new double containment piping, chemical pipe trench, and valves including a new calcium chloride fill station and a connection to the calcium chloride metering system; installation of a new 5,000 gallon high density polyethylene calcium chloride storage tank; new electrical conduit and conductors, new instrumentation, as well as integration with the existing SCADA system.

LOS ANGELES "SOFI" STADIUM AND ENTERTAINMENT DISTRICT AT HOLLYWOOD PARK RECLAIMED WATER PLANS PHASE 1 - West Basin Municipal Water District – 17140 South Avalon Blvd., Suite 210, Carson, CA 90746
Contact: Mr. Kevin Cullen (310) 217-2411 kevinc@westbasin.org
Role: Prime Construction Management / Inspection **Contractor**: Ferreira Costal Construction
Construction Cost: $10,000,000 **A/E Fee**: $175,000
AKM Staff: E. Kayiran (PM); M Fredriksz (Inspection); F. Morales (Inspection)
COMPLETE UNDER THE ON-CALL SERVICES CONTRACT

AKM provided Construction Inspection for the project which involved the construction of approximately 13,500 lineal feet of 8 inch to 12 inch PVC recycled water pipe. Also included were valves, air/vacs and blow-offs, as well as hydrostatic testing and flushing of the completed pipeline. The pipeline serves recycled water for irrigation at the new Los Angeles Rams/ Los Angeles Chargers "SoFi" Stadium and Entertainment District, as well as filling a lake within the entertainment district. The pipeline was constructed by Turner/AECOM, the developer of the stadium and entertainment district; yet will be owned and operated by West Basin Municipal Water District. With 49 different contractors working on the site each day, communication and coordination at the field level was critical to maintain schedule. The work on this portion of the project started and stopped at times to accommodate other work on the stadium. AKM therefore had to be extremely responsive to schedule changes and restarting work on short notice.

AKM has entered into On-Call Contracts with the following agencies in the past 5 years:

Agency	Dates	Type of Service
City of Fontana	2020-Current	On-Call (Construction Management and Inspection)
City of Paramount	2020-Current	On-Call (Construction Management and Inspection)
City of Santa Ana	2020-Current	On-Call (Construction Management and Inspection)
City of Corona	2019-Current	On-Call (Inspection Services)
West Basin Municipal Water District	2016-Current (third Term)	On-Call Construction Management
Water Replenishment District of Southern California	2018-Current	On-Call (Construction Management Services)
City of Cypress	2013-Current (third Term)	On-Call Construction Management/Engineering Support/ Testing and Inspection Services
South Coast Water District	2020-Current	On-Call (Construction Management and Inspection)
City of Long Beach	2016-Current	On-Call (Construction Management and Inspection Services)
Ontario Municipal Utilities Company	2016-Current	On-Call (Engineering Services for Construction Management and Inspection)

TECHNICAL COMPETENCE

COMPUTER APPLICATIONS

The achievement of superior construction management and inspection services is in-part assisted by the continued implementation of advanced computer applications, techniques and products. The office maintains in-house CADD capabilities, and engineering design work and computations are computer based. An in-house library of standard software application packages is maintained and continually updated. AKM also owns multiple ArcGIS, InfoWaterPro, InfoSewer, and InfoAsset software licenses.

AKM's Construction Management Team are equipped with tablets while in the field performing inspections. Unlike laptop computers, tablets are small, lightweight and therefore can accompany the field staff while inspecting most all locations on the project site, including excavations. This enables our field staff to document events in as close to real time as possible, as opposed to waiting for a break in the work and returning to the field office to utilize a laptop. It also allows field staff to send and receive emails while on site and complete the daily report as the day progresses. An additional benefit is that all project files will be stored on the tablet so that all project related documents can be accessed from anywhere on the site as opposed to keeping large, hard to transport file boxes requiring returning to the field office to search for documents.

The tablets are all wi-fi enabled allowing direct access to our server and web based project document control system. This way, daily reports, photos and all other field generated documentation can be entered directly into the system rather than being saved on the laptop and then copied into the particular document control system.

ELECTRONIC DOCUMENT CONTROL

Regardless of the type or size of the project, AKM's goal is to always be effective. In order to be effective, our time and effort must be focused on items and tasks that advance project progress. AKM knows how important documentation is to the construction process. So to marry these two objectives, effectiveness and well organized documentation, AKM employs electronic document control systems to assist in managing projects. Our team has been successfully leveraging electronic document control systems to execute projects for over a decade, and have found success with Procore.

Procore is designed to track, manage and store all project documentation. The System is web-based, requiring no enterprise software or servers, providing for turnkey deployment. System server hardware is managed by an independent third party avoiding any potential appearances of a conflict of interest.

AKM has recently used Procore in support of the City Projects. Our team is intimately familiar with the system, and is able to provide hands on training to the City staff.

The goals of implementing an electronic document control system will be to reduce document response turnaround time, eliminate redundant record keeping and data entry, improve transparency and accountability across project participants, and provide the City real-time access to all project information, documentation and overall project status. The City will receive an archived version of the entire system via a flash drive at the conclusion of each project. Training of all project users will be provided.

TECHNICAL STAFF

The staff presented in the Staffing Resources section of this proposal are the core planning and modeling staff at AKM. The entire

technical staff of AKM is comprised of recognized experts in water resources construction, operations and management. As needed, other AKM staff will be called upon for their expertise in any given project. Every assignment is managed by principals of the firm to ensure that the project receives detailed attention. All work is thoroughly reviewed by senior company officers prior to any milestone submittal or issuance of project documents.

STRENGTH AND STABILITY OF THE FIRM

AKM Consulting Engineers has been providing water resources engineering planning, condition assessment, design, and construction management/inspection services for over 33 years. Over 92% of our work has consistently been with repeat clients, which is a testament to the quality of our work. AKM has no bankruptcy, planned office closure or impending mergers that may impede AKM's ability to complete the project.

Our staff is made up of seasoned professionals who have worked together on numerous projects. They have been with the company for many years and have worked together even longer. They are experts in their fields. Our work is of very high quality, resulting in minimal, if any, change orders in implementation.

We provide as-needed/on-call planning, engineering, and construction management/inspection services to many agencies involving potable water, recycled water, wastewater, and stormwater projects.

PROJECT MANAGEMENT

AKM Consulting Engineers employs an "integrated project management" approach for each project. To ensure that the project delivers successful results, a work plan is established at the inception, and resource loaded work elements and a schedule are prepared. This schedule and work elements are integrated with the special needs of the project and the Client. Regular reporting of project status is accomplished by routine monitoring of progress against the established work elements and resource allocations by task. Any slips in schedule, technical difficulties, or unforeseen conditions are promptly recognized, quantified and addressed, and the Client is appraised. This approach results in technically superior work products completed within schedule and budget to full satisfaction of the clients.

SECTION 7: PROPOSED METHOD TO ACCOMPLISH THE WORK

As we understand, the City plans to engage the services of qualified Project and Construction Management consulting firms to partner with the City in delivering a variety of planned projects. The projects will vary in size and scope and will be initiated via task orders. Selected consultants will respond to task order requests via a concise, yet complete proposal. Responsiveness to task order requests is vital in order for The City to successfully deliver planned projects on time. AKM has a long history of providing first rate service to our clients through on-call engagements. We are therefore mindful of the need to maintain adequate resources to always be able to respond to the City when needed.

Project Management & QA/QC

Our Construction Management Team will diligently manage the project budgets so not to create budget overruns during the prosecution of our services. Although our assigned Project Manager will have ultimate responsibility for tracking, managing and reporting budget status to the City, every team member participates in project/budget management. Our Construction Managers, Field Engineers and Inspectors are required to thoroughly review and understand the project specific scope of work prior to beginning our services, and to log hours spent on the project daily. Our Project Manager reviews accrued project hours weekly. Additionally, the Project Manager carefully analyzes project costs and staffing requirements and assigns work hours to project team members the week before services are scheduled to be rendered. Adherence to our project budgets relative to construction percent completion based on schedule will be communicated to the City monthly for larger projects, weekly for shorter projects, or at any other interval desired by the City. The City will be notified in writing when reaching budget milestones of 25-percent, 50-percent and 75-percent of total cost exhausted. AKM will not exceed the budget limits agreed to.

Schedule Management

A critical component to any construction project, is the development and regular maintenance of a well-defined and coordinated Critical Path Method Schedule. The baseline CPM schedule will be the barometer from which Contractor's performance is evaluated. On any assigned project, as one of the first tasks, AKM will review the submitted qualifications of the Contractor's proposed Scheduler and address any issues regarding compliance with the Contract requirements. During the preconstruction phase of the project, the Contractor will be required to submit a baseline CPM schedule. For large complex projects, the baseline schedule will be refined following a scheduling meeting conducted between the AKM Construction Management Team, the City and the Contractor. The project specific scheduling requirements will be reviewed at the meeting. The goal of this very important meeting is to communicate all project requirements related to the development of the baseline schedule, as well as clarify any questions that the Contractor has. It will also serve as an initial review of the Contractor's proposed Work Breakdown Structure and activity ID/code structure. During this period, AKM will review the schedule for the overall feasibility and duration of specific

activities as well as evaluate interrelated activity constraints and carefully verify all predecessor and successor activities. We will also verify that the baseline schedule does not contain unnecessary lead/lags, level of effort or hammock activities, and does not contain preferential logic and float suppression techniques.

When reviewing a baseline schedule, it is critical that our team meticulously reviews the specifications to verify that all contractual work constraints are built into the schedule. For example, having the submission, review and approval of the MOP documents and subsequent safety checklists, tied to the actual shut downs when shutdowns are required on a project. This is also critical for startup activities including activities for pre-installation meetings, as well as activities for installation verification by manufacturer's representatives. Verifying that these critical activities and milestones are included in the baseline schedule and properly tied to other activities, is essential so that they can be carefully monitored during construction.

When critical activities approach their completion dates, or when non-critical activities begin to use up the allotted float, AKM will immediately bring such issues to the attention of both the City and the Contractor. Such schedule issues will proactively be discussed during Schedule Progress Meetings or if necessary, special scheduling meetings to determine causes of potential or actual delays, as well as solutions to avoid delays or account for time lost due to a delay. All changes made to the schedule will be carefully evaluated for acceptability each month. We will also verify all as-built information included in the updates against information included in the daily reports and daily tracking.

Our Project Manager and all of our Construction Managers are well trained and versed in Primavera P6. They will review time impact analysis (TIA) when submitted.

It is acknowledged that smaller projects may be assigned that do not require the use of scheduling software. However, review and maintenance of the schedule during construction remains important despite the simplicity of the schedule. A scaled approach, similar to the one described above, will be implemented for smaller projects.

METHODOLOGY

Our goal on any project is to see that quality facilities are constructed on time and within budget, so that such facilities will be a benefit to the City's customers for their full useful life. In order to effectively complete projects, AKM's Construction Management Team becomes a close partner and extension of our clients. We are sensitive to the fact that the City's internal staff has a variety of day-to-day responsibilities beyond any particular construction project. That being said, we have been extremely successful handling the project management workload for our clients during construction, yet still keeping assigned client staff fully abreast of project progress and status. AKM understands that no two agencies or projects are the same, all containing their own unique challenges and nuances. Our Construction Management services are specifically tailored for each client and project to properly serve their best interest and overall project success. For any task order assignment, the project is carefully examined so that the client's goals and objectives are clearly understood by the AKM Team prior to beginning our services. For proposed projects to be successful, detailed and timely attention must be given to the key issues unique to each project. Our methodology for successfully completing any assigned project involves promptly identifying and addressing the key project issues. AKM will begin all projects with identifying key project issues and take proactive measures and planning to mitigate potential impacts. The following describes our methodology for handling common issues that occur during construction projects:

Changes in the Construction Industry

The engineering and construction industry has seen more change during the past three years, than it had in perhaps the previous 10 years. Two of the most influential factors driving this rapid change have been the global COVID-19 pandemic, and world-wide supply chain issues/shortages of materials and equipment. Both of these factors have required a new way of planning, and approaching projects ranging from on-site safety, to dealing with abnormally long lead-times for materials and equipment. These impacts have required project teams to be adaptable and collaborative to overcome day-to-day effects on projects. The teams that have learned, adapted, and evolved, remain the best positioned to guide their clients through the obstacles that today's construction industry are now faced with.

Construction Inconvenience

The City's service area encompasses residential, commercial, industrial and retail areas and high traffic roads. All projects within the public right-of-way present a traffic burden to residents and businesses near the project areas. Projects near residents and business can affect normal traffic flows, parking, as well as impede ingress and egress to properties. Although Contractors are required to mitigate construction nuisances, it is the Construction Management Team's responsibility to enforce such mitigation measures. The potential always exists for dust and fine debris to create unfavorable conditions for the nearby public. Utility services may be interrupted at times during construction for activities such as tie-ins, service switch-overs and startup testing. The greater the inconvenience to the public, the more the public will become discontent with the projects. Minimizing the burden to the public during construction is instrumental in achieving successful projects.

Construction Completion Time

In construction, time is always of the essence. Due to the magnitude and potential impacts to the public of capital improvement projects and impacts while working with the City's existing facilities, there is an even greater need for completing the work within the allotted contract duration. Additionally, the longer projects extend, the greater the burden is to the public, increasing complaints, and overall dissatisfaction. This also holds true for the existing facilities as projects may require shutdowns to equipment or entire processes which can disrupt normal operations. Projects which overrun the schedule also tend to result in a higher overall cost when finally completed.

Potential for Utility and Other Conflicts

Anytime construction occurs within public right-of-way, or involves subsurface construction, an elevated level of risk for conflicts exists. Utility locations shown on the Contract Drawings usually are carefully located and plotted based on the available existing records. The accuracy of the locations represented on the Contract Drawings is contingent upon the accuracy of the available utility records, and potholing conducted during design. A potential utility conflict could result in a redesign of proposed facilities and/or relocation of interfering utilities creating schedule delays, increased costs and longer impacts to the public at large. Conflicts can also occur with nearby residential, commercial, and retail property owners where construction impacts to them are not realized until after construction commences. This can create public resistance to the projects and may cause delays while the impacts are mitigated.

Coordination with Multiple Project Participants

As AKM has learned on our previous construction management assignments, projects require close and cooperative coordination with outside agencies, the City's other departments, as well as the many utility agencies owning facilities within City boundaries.

Different entities may have different project concerns and require varying levels of communication. Outside agencies will feel the most at ease and comfortable with projects when they receive clear, timely and accurate information regarding the project. It will also be paramount to understand each party's unique concerns and perspective regarding the project prior to the start of construction, to be able to best plan how to keep them informed.

Construction Management Methodology

What are evident in the paragraphs above are the interrelationships of the key project issues. A direct effect of one of the issues results in an unintended effect to the others. As the City's Construction Management Consultant, AKM will effectively, promptly, and proactively monitor and manage project issues for the entire duration of our services on the projects. Our approach to our services is described in the paragraphs below.

Evolve and Adapt

In a rapidly changing construction industry, where wide ranging material cost fluctuations, local mandates and material shortages have become commonplace, the standard "playbook" often times does not apply, or does not produce results. For this reason, AKM adopts an "evolve and adapt" philosophy in the performance of our services. AKM carefully monitors trends in the industry and communicates regularly with our clients regarding how current events/industry changes might affect projects. When challenges on projects arise that are a result of such industry changes, we partner with our clients to suggest the best path forward. Often times this involves thinking differently about solutions and not being constrained by past ways of resolving such matters. In all cases, AKM always advocates for solutions that serve the best interest of the City and the project.

A Commitment to Documentation

AKM takes great pride in our project document control believing that effectively managing project documents reduces our client's risk, can help avoid and resolve project disputes, improves project lifecycles, and promotes Contractor accountability. We will keep project documentation in strict accordance with the project requirements. Such diligence is a representation to involved parties that prudent project management and administration is being implemented. Project documents will be ready for review and/or audit anytime one is mandated or requested. Our commitment to documentation will also allow the Construction Management Team to verify that all required submittals, schedule updates, schedule narratives, monthly reports, shutdown plans/MOPs as well as red line drawings are being submitted in a timely manner by the Contractor so that construction progresses as planned.

Be Responsive

Capital improvement construction projects are a dynamic and ever evolving endeavor. Circumstances can change without warning and as previously mentioned, time is always of the essence. It is therefore a hallmark of the AKM Construction Management Team to be extremely responsive to the Contractor, the City, other City departments, Design Engineer, utility companies owning facilities within the project boundaries, as well as any other project stakeholders. We are committed to the projects we serve day and night; our day does not end at 5:00 PM. AKM will diligently and expeditiously respond to project participants, transmit necessary information, and coordinate between various project participants throughout the project. Our commitment to be as responsive as

possible will aid in avoiding delays, as well as maintaining good project relationships with all involved parties.

Being responsive also means that we are there for the City when needed, even when we are not actively working on a project. AKM will always respond to task order requests and has a history of quick turnarounds for task order proposals. We are also able to respond to work requests and mobilize on short notice.

Communicate Early and Often

AKM understands that it is part of a team that includes the Contractor, the City, the Design Engineer, residents, as well as the general public sharing in the common goal of project completion on time and within budget. Our communication efforts will begin from the commencement of projects, during preconstruction activities, and continue through completion. Coordination and cooperation amongst project participants is best achieved when relationships founded on open communication are established. Such communications will allow AKM to most effectively deal with problems identified with the schedule, delays, utility conflicts, differing site conditions and concerns related to construction and working with all involved parties.

AKM employs a productive and efficient approach to project meetings in order to maximize communication. To accomplish this, all meetings hosted by AKM have a purpose and direction. A well thought-out agenda is prepared to facilitate meaningful discussions that inform the processes and are geared towards resolution of issues, rather than gathering a group of people in a room and permitting a free-for-all discussion.

AKM advocates meeting with Contractors informally prior to the preconstruction meeting, so that our teams can meet and begin building a working relationship. This provides an opportunity for the Contractor to share project concerns, and AKM to express expectations prior to being in a room full of the design engineers, the City and outside agencies. The practice of this informal meeting has paid dividends on past projects, building trust between the construction management team and Contractor, as well as setting a collaborative tone for the project.

Diligently Pursue Project Completion

A lagging or drawn out project completion period can create a perception that an otherwise successful project is not successful. Project closeout within the schedule is of the utmost importance to AKM. We will diligently pursue all completion activities including collection of all final compliance paperwork from the Contractor, final payment quantities, operation and maintenance manuals, completion of as-built record drawings, final guarantees, warrantees, and final lien releases. Our diligence will help ensure that the project comes to an expeditious closure, that permit requirements are met and closed-out within the time limits specified, that the project presents no further burden to the public or existing facilities, and that the completed improvements turned over to the City for beneficial use is of the highest quality, and is properly tested to function as intended by the design.

We understand that abbreviated proposals will be solicited from each selected Consultant for each specific Task Order.

Scope of Services and Schedule

As previously mentioned in the scope of work section, AKM has a strong history of being able to quickly respond and mobilize for resolution of all issues. AKM is able to do this by not over committing our resources. We have analyzed our current workload and are offering an elite team who will maintain the necessary availability for the life of the Contract. Additionally, responsiveness is a hallmark of our team. We understand the importance of being responsive to our clients in order to facilitate timely commencement, progress, and conclusion of any assigned project.

While project schedules will largely be driven by contractually required milestone dates, and construction schedules developed by the awarded contractor, AKM will maintain consistency in our response timeframes to ensure we are playing an active role in advancing projects forward. The following are our proposed response times or deliverable timeframes.

- **Response to Change Order Proposals**: 1 to 3 business days depending on size, scope and complexity of the change order.
- **Submission of Daily Reports**: All Daily Reports will be submitted by 9:00 AM the following business day. In most cases, the Daily Report will be provided the same day.
- **Baseline Schedule Review**: 1 to 5 business days depending on size and complexity of the schedule submitted.
- **CPM Schedule Update**: 1 to 2 business days depending on number of changes made in the schedule.
- **Monthly Report**: 5 business days following the last working day of the Month.
- **Field Compliance Documents**: Field compliance documents such as materials certificates, material tickets and testing reports will be kept in the master project file and made available to the City within 2 business days. Additionally, a copy of the documents will be included as an attachment in the Inspector's Daily Report.
- **As-Built Drawings**: 2 business days once reconciled with the Contractor's records.
- **Closeout Documents**: 1 business day once received from the Contractor.
- **Request to Mobilize for the Project**: 1 business day.

- **Deployment of Web Based Project Management or Document System**: 2 to 4 business days.
- **Meeting Minutes**: 1 to 3 business days depending on length and complexity of the meeting.

SECTION 8: HOURLY RATE SCHEDULE

AKM's proposed Rate Schedule is presented below.

Labor Classification	Hourly Rate 2024	Hourly Rate 2025	Hourly Rate 2026
Principal	$253	$261	$269
Principal Engineer	$253	$261	$269
Project Manager	$246	$253	$261
Project Engineer	$234	$241	$248
Senior Construction Manager	$233	$240	$247
QA/QC Manager	$233	$240	$247
Senior Engineer	$215	$221	$228
Construction Manager	$200	$206	$212
Senior Field Engineer / Inspector	$197	$203	$209
Field Engineer / Inspector	$173	$178	$184
Associate Engineer	$167	$172	$177
Staff Engineer	$148	$153	$157
Financial Analyst	$136	$140	$144
Senior Designer / Senior CADD Technician	$117	$121	$124
Designer / CADD Technician	$109	$112	$115
Assistant Engineer	$107	$111	$114
Engineering Technician	$99	$102	$105
Engineering Aide	$84	$86	$89
Office Support	$84	$86	$89
Data or Word Processing	$81	$84	$86

Out of pocket expenses (blueprinting, reproduction and printing, delivery, etc.) will be invoiced at cost plus 10%. Subcontracted services will be marked up 10% in order to cover costs associated with administration, coordination and management of subcontractors. Mileage will be invoiced at $0.75/mile. This schedule of rates is in effect until December 31, 2026, at which time it may be adjusted.

SECTION 9: INSURANCE

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 9/16/2019

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

SECTION 10: LITIGATION

AKM has no history of any claims filed in the past five years.

SECTION 11: OTHER INFORMATION

A. Demonstration of record of staffing tasks efficiently and completing projects on time and within the allocated budget.

AKM Consulting Engineers has provided services to public agencies for over 33 years. Over 92% of our work is with repeat clients, such as the City of Ontario (23 years), City of San Clemente (33 years). This is because we complete our work efficiently, within budget to the extent that it is within our control, and to very high quality. On all of our On-Call PM and CM Agreements with Public Agencies, AKM has always responded to every task order request sent to us.

B. Description of community involvement.

AKM Consulting Engineers has been a sponsor of the City of Ontario's State of the City for several years. Our staff volunteers time in mentoring and teaching civil and environmental engineering students in project design classes. We offer internships to civil engineering students.

C. Description of any previous involvement with the City.

AKM Consulting Engineers has been providing services to the City of Ontario for over 23 years. The list below is a partial list of past engineering services provided to the City. Additional information can be provided, if such is requested.

Sewer Projects	Water Projects
Sphere of Influence Master Plan (2000)	Water Master Plan (2012, 2020)
Sewer Pump Station Phasing Plan (2003)	Recycled Water Model Update
New Model Colony Sewer Master Plan (2001, 2006, 2007)	Recycled Water Pressure Zone 930 Study (2014)
IEUA Connections (2004)	Urban Water Management Plan (2010)

D. AKM declares that it has no Conflict of Interest in connection with providing services to the City.

SECTION 12: CERTIFICATION OF PROPOSAL

The undersigned hereby submits its proposal and, by doing so, agrees to furnish services to the City in accordance with the Request for Qualifications (RFQ), and to be bound by the terms and conditions of the RFQ.

EMIN KAYIRAN, CPII

Project Manager

PROFESSIONAL REGISTRATION

APWA – Certified Public Infrastructure Inspector

YEARS OF EXPERIENCE

19 years (19 with AKM)

EDUCATION

Civil Engineering Studies – CSU Long Beach

B.S. Business Administration – University of Arizona

CAREER HIGHLIGHTS

Subject Matter Expert for the American Public Works Association

Co-Author of a new training module on the inspection of pumping and treatment facilities – Published in 2019

Authored "CPII as a standard of practice" – Published September 2014

Mr. Emin Kayiran, CPII, is the Director of Construction Management Services with AKM. He has over 19 years of responsible experience in the inspection and construction management of pump stations and pumping facilities, pipelines, treatment facilities, forcemains, complex reinforced concrete structures including, concrete tanks within treatment facilities, sumps, wet wells and valve vaults, sheet piling, deep excavations, ground remediation, dewatering, shut-downs, tie-ins, commissioning and testing, installation of emergency power generators and automatic transfer switches, electrical and control systems for water resource facilities, as well as special protective linings and coatings.

- Fire Station #1 Seismic Retrofit Project for the City of El Segundo – Project Manager
- Bellflower and Spring Bridge Repair for the City of Long Beach – Project Manager and Inspection Supervisor
- North Health Facility for the City of Long Beach – Project Manager
- WRF-3 Sewer Lift Station for the City of Corona – Project Manager
- West Pump Station for AES North America –Construction Manager
- East Pump Station for AES North America – Construction Manager
- Elimination of Sewer Pump Station 7 and Improvements to Sewer Pump Station 1 for the City of El Segundo – Project Manager and Construction Manager
- Alhambra Lift Station 7 for the City of Alhambra – Project Manager
- Leahy Well for Bellflower Somerset Mutual Water Company – Project Manager
- Equipping of Well 43 for Ontario Municipal Utilities Company – Project Manager
- Rehabilitation of Water Wells Wilson 1A and Citizens 9 for Long Beach Water Department – Project Manager
- Alamitos Seawater Barrier Improvement Project for the Orange County Water District – Construction Manager and Inspector
- Microfiltration Steel Break (Filtrate) Tank Replacement at the Carson Reclamation Facility for West Basin Municipal Water District – Project Manager
- LVL Calcium Chloride Tank Replacement Project for Water Replenishment District of Southern California – Project Manager
- Structural Improvements and Recoating of Colima Reservoirs No. 2 and No. 3 for the Orchard Dale Water District – Project Manager and Inspection Supervisor
- Jameson Reservoir for the City of Corona – Construction Inspector
- Los Angeles Stadium and Entertainment District at Hollywood Park Reclaimed Water Plans Phase I for West Basin Municipal Water District – Project Manager
- Cathodic Protection Improvements Project for West Basin Municipal Water District – Project Manager
- Joint Transmission Main Vault Upgrades for South Coast Water District – Project Manager
- Watermain Improvements at Center, Walnut, and Maple for the City of El Segundo – Project Manager
- Watermain Improvements at Virginia, Oak, and Bayonne for the City of El Segundo – Project Manager/Construction Manager
- Lift Station No. 6 Forcemain Replacement Project for the South Coast Water District – Project Manager
- AES Sewer Design Revision 1 project for Alamitos Energy, LLC – Construction Manager
- Chevron Forcemain for the City of El Segundo – Construction Manager
- Ross Avenue Sewer Improvements Project for the City of Alhambra – Construction Manager
- Myra 3 In-Line Detention Basin, Storm Drain, and Sewer Improvements for the City of Cypress - Construction Manager
- Myra Pump Station No. 3 for the City of Cypress - Construction Manager
- West End Stormwater Pump Station for the City of Seal Beach – Resident Engineer
- Long Beach Municipal Stormwater Treatment Facility for the City of Long Beach – Project Manager
- Cypress Water Production Facility for the City of Lomita – Project Manager
- PFAS Treatment System for Wells 5A, 8, and 11 for Pico Water District – Project Manager
- Microfiltration Steel Break (Filtrate) Tank Replacement at the Carson Reclamation Facility for West Basin Municipal Water District – Project Manager
- Equipping of Well 16 and Treatment Plan for the City of Paramount – Project Manager / Construction Manager
- Title 22 Filter 9 and 8 Repair for West Basin Municipal Water District – Project Manager
- East of Sepulveda Street Rehabilitation Project for the City of El Segundo – Project Manager
- Maple Avenue Street and Storm Drain Improvements for the City of El Segundo – Project Manager
- Imperial Highway Street Improvements for the City of El Segundo – Construction Manager

STEVE PATTERSON

Construction Manager

YEARS OF EXPERIENCE

40 years (15 with AKM)

Certifications / Affiliations

AWWA Cross Connection Control Specialist; NPDES Storm Water Quality Training for Construction Site Activities; California Department of Public Health Water Treatment Operator; California Department of Public Health Water Distribution Operator; Orange County Health Department Backflow Device Tester; Cla-Val, Engineering, Maintenance and Design; California Rural Water Distribution System Maintenance and Design; OSHA HAZWOPER; NIMS 700; CJPIA Management Academy; Haestad Methods; Water System Design and Hydraulic Modeling; First Aide & CPR

Mr. Patterson is a Construction Manager with AKM Consulting Engineers, and has over 35 years experience in the Water/Wastewater Utilities field, during which time water distribution system design, construction, operations, maintenance, and repair, of water and wastewater infrastructure have been the emphasis of his career. He has numerous certifications, training and knowledge pertaining to the safe and reliable construction, operation and maintenance of water and wastewater infrastructure.

Mr. Patterson served for 18 years with a municipally owned water and wastewater utilities department as an Operations Supervisor, responsible for the supervision and operations of a comprehensive repair, inspection and monitoring program. (50,000 customers, 18,000 service connections,1.5MGD Ground Water Treatment plant, 2 ground water wells, 200 miles of pipe from 6" to 30", 33 pressure zones, 16 water storage facilities, 15 pump stations, 88 pressure/flow regulating stations, and upwards of 20 subordinate employees). Mr. Patterson has participated in the design, construction, inspection, implementation and management of numerous operational, rehabilitation, and capital improvement projects. Examples of these projects are as follows:

- Torrance Recycled Water Booster Station for West Basin Municipal Water District – Provided Engineering Support and Inspection
- Navy Booster Station & Reservoir Upgrade for the City of Seal Beach – Inspector
- Schlegel Booster Pump Station Replacement for the City of San Clemente – Provide Utility Management and Field Engineering.
- Northrop Grumman Recycled Water Lateral for West Basin Municipal Water District – Construction Manager/Inspector
- Butterfield Chino Creek 10 inch Forcemain Relocation Project for the City of Chino Hills – Construction Manager/Resident Engineer
- Well 9 Discharge Pipeline on Gardenia Avenue and Bushard Street for the City of Fountain Valley - Construction Inspector
- Watermain Improvements at Virginia, Oak, and Bayonne for the City of El Segundo – Senior Inspector
- Watermain and Street Improvements at Center Street and Pine Avenue for the City of El Segundo – Senior Inspector
- Dace Well No. 2 for Golden State Water Company – Field Engineer
- Well 12 for the City of Santa Fe Springs - AKM provided construction management and inspection
- Well 9 Discharge Pipeline on Gardenia Avenue and Bushard Street for the City of Fountain Valley – Resident Engineer
- Carson Advanced Water Treatment Plant Microfiltration (Break) Water Tank Replacement, West Basin Municipal Water District - Construction Manager and Resident Engineer
- Leo J. Vander Lans Water Treatment Facility Calcium Chloride Bulk Storage Expansion - Construction Manager and Resident Engineer
- Structural Improvements and Recoating of Colima Reservoirs No. 2 and No. 3 for the Orchard Dale Water District – Construction Manager and Resident Engineer
- Steel Tank Inspection for the City of Corona - Potable Water Steel Tank Inspection
- WRF 3 Lift Station for the City of Corona - Construction Manager and Resident Engineer
- Lift Station No. 7 for the City of Alhambra – Construction Manager
- Del Avion Wastewater Wet Well Rehabilitation for Moulton Niguel Water District - Construction Manager and Resident Engineer
- Sewer Lift Station No 3 Project for the City of Alhambra – Construction Manager
- Paseo Del Mar Sewer Pump Station for the City of Palos Verdes Estates – Construction Manager and Resident Inspector
- Sewer Spot Repairs for the City of Alhambra – Construction manager/inspector
- Sewer System Repair, Relining, and Replacement Project for City of El Segundo (EPA FUNDED) – Construction manager/inspector
- Imperial Headgates and Weir Pond Project for Orange County Water District – Field Engineer
- Myra Avenue Storm Drain, Sewer and Street Improvements #2 for the City of Cypress – Construction Resident Engineer
- Long Beach Municipal Stormwater Treatment Facility for the City of Long Beach – Project Manager
- Orange County Water District Imperial Headgates and Weir Pond Project - Resident Engineer
- Edward C. Little WRF Clean-in-Place Waste Discharge Project – Chief Field Engineer

MIKE FREDRIKSZ

Construction Manager / Inspector

YEARS OF EXPERIENCE

35+ years (6 with AKM)

HIGHLIGHTS

Construction oversight of capital improvements and large residential development projects

Previously Inspection Services Supervisor for Irvine Ranch Water District

Experience includes: water, recycled water, and wastewater facilities

Reservoirs, pipelines, pump stations, lift stations, buildings, treatment plants, street rehabilitation, slurry seal

Mike Fredriksz has more than 35 years of experience providing construction oversight of Capital Improvements and large residential development projects. Mike's project experience includes water and wastewater facilities, reservoirs, pipelines, pump stations, sewer lift stations, buildings, treatment plants, street rehabilitation and slurry seal. He has been extensively involved with multiple stakeholders including the public, elected officials, developers, contractors, engineers and architects. His responsibilities have included monitoring construction activities, traffic control, preparing daily construction reports, verifying compliance with plans and specifications, maintaining record drawings, final inspections and project startups. Mike has knowledge and experience with project management, submittal process and requests for information and change orders.

- Walnut Park Mutual Water Company Meter Replacement Project for Water Replenishment District – Construction Manager
- SA-5 Vault Replacement Project for the City of Santa Ana – Construction Manager
- Cathodic Protection Improvements Project for West Basin Municipal Water District – Construction Manager
- Lift Station No. 6 Forcemain Replacement Project for the South Coast Water District – Inspector
- Joint Transmission Main Vault Upgrades for South Coast Water District – Inspector
- Bellflower and Spring Bridge Repair for the City of Long Beach – Construction Inspector f
- Watermain Improvements at Center, Walnut, and Maple for the City of El Segundo – Construction Manager
- Alamitos Seawater Barrier Improvement Project for the Orange County Water District – Construction Inspector and Inspector f
- Thunderbird Sewer and Street Improvement Project, City of Stanton, CA – Construction Inspector
- Capital Improvements, Portola Parkway for the Irvine Ranch Water District - Lead construction inspector
- Jeffrey Road South Domestic and Reclaimed Water Mains, City of Irvine, CA. Provided construction inspection
- Villages of Turtle Rock, Quail Hill and Woodbury, City of Irvine, CA. Provided construction inspection
- Jeffrey Road Grade Separation, City of Irvine, CA. Provided construction inspection
- Alton Roadway, City of Irvine, CA. Provided construction inspection
- The Irvine Company and Five Points Development, City of Irvine, CA.
- Zone 1 and 3 Emergency South County Booster Pump Station for IRWD – Construction Inspector
- Tomato Springs - PA 6 Zone 4 and C Reservoirs, Zone 4-6 Potable Water Booster Pump Station, Zone C-D Recycled Water Booster Pump Station for the Irvine Ranch Water District – Lead Construction Inspector
- Zone 3 to Zone 5 (Domestic) and Zone A to Zone C (Recycled) Dual Pump Station for Irvine Ranch Water District - Construction Inspector
- Dyer Road Well No. 6 for Irvine Ranch Water District – Construction Inspector
- Pump Station 1 and 7 for the City of El Segundo – Resident Engineer
- Portola Hills Sewer Lift Station Abandonment and Gravity Sewer, City of Irvine, CA. Provided construction inspection
- City Of Paramount - Equipping Well N0. 16 and Treatment Plant
- Torrance Refinery Water Recycling Plant, Surge Arrest System Pipe Modifications for West Basin Municipal Water District – Construction Inspector
- Deep Aquifer Treatment System, City of Santa Ana, CA . Provided construction inspection
- Chlorine Analyzer and Reservoir Mixer at Ten Domestic Reservoirs, City of Irvine, CA Provided construction inspection
- Michelson Water Recycling Plant – Reinforced Concrete Clarifier Rehabilitation for the Irvine Ranch Water District –lead inspector
- Michelson Water Recycling Plant – Chlorine Contact Chamber Construction for the Irvine Ranch Water District –construction inspection
- Dyer Road Initial Disinfection Facility for the Irvine Ranch Water District – Served as the lead inspector
- Dyer Road PDF Ammonia Disinfection Facility for the Irvine Ranch Water District (2012) – Lead inspector

JACOB LILLENGREEN, EIT-FE, CMIT

Construction Inspector

YEARS OF EXPERIENCE

6 years (1 with AKM)

REGISTRATIONS / LICENSES

Engineer in Training

Fundamentals of Engineering

CMIT Level 3

EDUCATION

B.S. – Civil Engineering, University of California Irvine

Mr. Lillengreen has 6 years' experience in engineering and construction management working on various public works projects. He possesses communication and organizational skills to provide valuable support for construction projects. He is fully capable of processing RFIs, submittals and change orders in a timely matter. Mr. Lillengreen has an extensive computing background and is highly proficient in AutoCAD, Bluebeam, Primavera P6, Microsoft Project, and a range of Microsoft programs. He has experience in multiple project management software applications including Procore, EADOC, VPO and Unifier.

- ***Title 22 Converted Filters Booster Pump Station at Edward C. Little Water Recycling Facility for West Basin Municipal Water District*** – Construction Manager – AKM provided construction management and inspection services for the Title 22 Converted Filters Booster Pump Station. Work included construction of new pump station and appurtenances; connecting intake and outflow piping to existing pipeline including cleaning and pipe preparation; construction of new pump station foundation; installation and integration of all required electrical, I&C, and SCADA improvements; and testing and commissioning newly constructed facilities including training personnel and providing training materials and documentation.
- ***PFAS Treatment System for Wells 5A, 8, and 11 for Pico Water District*** – Construction Manager – AKM provided construction management and inspection services for the project which included a 1500 gpm, 1100 gpm, and 3000 gpm wellhead treatment facilities for Wells 5A, 8, and 11, respectively. The project also included the construction of lead-lag dual media pressure vessel systems with PFAS selective ion exchange resins, pre-treatment cartridge filters, and piping and appurtenances for PFAS treatment facilities at Pico Water District's Wells 5A, 8, and 11. The improvements included new reinforced concrete foundation slabs, 2 to 4 ion exchange vessels and 2 to 3 cartridge filters per site, as well as new instrumentation and appurtenances, and relocation of the disinfection chemical injection locations.
- ***Equipping of Well 16 and Treatment Plan for the City of Paramount*** – Construction Manager for the project which included equipping City Well No. 16 with pump, motor, building, piping and appurtenances, and the construction of a Manganese (MN) and future Arsenic (AR) Treatment System to treat approximately 3400 gpm of flow from City Well No. 16. The treatment system raw water quality for design purposes was assumed to have an arsenic (AR) concentration of 12 µg/lit, and a manganese concentration of 59 µg/lit. Removals should provide a finished water quality with an MN of 2 µg/lit. The facility is designed for expansion to be able to treat and remove AR down to 2 µg/lit if in the future it exceeds the primary MCL level of 10 µg/lit in the well water. In addition, the work of this Contract will include the destruction of Well No. 13 and the demolition of the Well No. 13 site. The Contractor will be required to remove, salvage and transport to Well No. 16 several of the existing facilities/equipment at Well No. 13 including treatment vessels and the existing backwash tank.
- ***LB MUST Treatment Plant and Wetlands*** – Assistant Construction Manager for the Treatment Plant Phase, and Construction Manager for the Wetlands Phase. The treatment process train consists of influent strainers, ceramic membrane ultra-filtration (UF), and an advanced oxidation process (UV/AOP). The ancillary processes include process pumping, process storage tanks, chemical feeding, and air supply. An RO system can be added to the treatment train in the future, downstream of the UV/AOP, to reduce TDS of the effluent and/or provide additional barriers for potential potable reuse. The treatment facility is housed within a 9,000 square foot cement masonry unit building with electrical, chemical and control rooms, and will include an HVAC system.
- ***Equipping Well No. 43 for the City of Ontario*** – Assistant Construction Manager for the project which includes construction of a block building, installation of a 800kW emergency stand-by generator, installation of a vertical turbine pump and motor, onsite piping, onsite hypochlorite generation system and equipment, electrical controls, and site work.
- ***Pier G Wharf Improvement Project, Port of Long Beach***- Mr. Lillengreen worked with the Port of Long Beach on the $35 million Pier G Wharf Improvements Project as an office engineer. The project included demolition of an existing wharf and the construction of a rock dike, backland, and crane stop. Mr. Lillengreen is tasked with document control duties and general coordination.
- ***Seal Beach Municipal Pier Improvements, City of Seal Beach***- Engineering intern responsible for providing flexible support services. Mr. Lillengreen was tasked with document control duties including the organization and processing of daily reports.

RYAN BIGGER

Construction Inspector

YEARS OF EXPERIENCE

10 years (2+ with AKM)

REGISTRATIONS / LICENSES

- ICC Reinforced Concrete Special Inspector
- ICC Pre-Stressed Concrete Special Inspector
- ICC Structural Masonry Special Inspector
- ICC Spray Applied Fire Proofing Special Inspector
- ICC Structural Steel and Bolting special Inspector
- **Independently certified as a special inspector in the County of Orange, County of Los Angeles, and City of Long Beach through the District of State Architects (Grades k - 12)*

Mr. Ryan Bigger has more than 10 years of experience providing construction management and inspection services. Ryan's project experience includes pipeline, pump stations, treatment facilities, reservoirs, roads, highways, buildings and airports. He has performed construction special inspection and geotechnical soils testing services throughout Southern California, including special inspection services for reinforced concrete structures, including pre-stressed, shotcrete, masonry, bolting and spray applied fire proofing construction.

- John Wayne Airport – Terminal C Exterior Expansion – Special Inspection
- City of South Pasadena – Wilson Reservoir Project – Special and Soils Inspection
- City of Yorba Linda – Yorba Linda Towne Center Parking Structure Project – Special Inspection
- City of Yorba Linda – Yorba Linda Library and Arts Center Buildings Project – Special and Soils Inspection
- Los Angeles County Metropolitan Transportation Authority – Crenshaw/LAX Transit Corridor Project – Special and Soils Inspection
- City of Palos Verdes – San Ramon Canyon Storm Drain System – Special Inspection
- Santa Monica School District — Special Inspection
- ***Equipping of Well 43 for Ontario Municipal Utilities Company*** – Project Inspector for the project which includes construction of a block building, installation of a 800kW emergency stand-by generator, installation of a vertical turbine pump and motor, onsite piping, onsite hypochlorite generation system and equipment, electrical controls, and site work.
- ***Title 22 Converted Filters Booster Pump Station at Edward C. Little Water Recycling Facility for West Basin Municipal Water District*** – Project Inspector – AKM provided construction management and inspection services for the Title 22 Converted Filters Booster Pump Station. Work included construction of new pump station and appurtenances; connecting intake and outflow piping to existing pipeline including cleaning and pipe preparation; construction of new pump station foundation; installation and integration of electrical, I&C, and SCADA improvements; testing and commissioning newly constructed facilities including training personnel.
- ***Leahy Well for Bellflower Somerset Mutual Water Company*** – Resident Engineer and Inspector - AKM provided construction management and inspection services for the Leahy Ave Water Well Facility which included construction of new domestic water well and appurtenances with a new 1855 square foot masonry block building and pump station, new electrical (SCE) service, along with various site improvements such as concrete masonry walls, standby generator and automatic transfer switch, gates, site demolition, grading, right-of-way improvements, paving, vehicle canopy, landscaping and percolation basin.
- ***Imperial Headgates and Weir Pond Project for Orange County Water District*** – Special Inspector - AKM provided construction management and field engineering for the Imperial Headgates and Weir Pond Rehabilitation Project. The project included the following: supply and installation of a new trash rack and monorail gripper system for river debris removal; removal and replacement of electrical conduits and panels inside the Control Building; removal and replacement of Control Building and Generator Building roofs, access hatches, and ventilation fans; replacement of three (3) 54-inch square cast-iron slide gates and five (5) electrical actuators; installation of two Doppler flow meters in the Bypass Conduits; integration of new signals from cleaning system and flow meters to existing SCADA system; construction of concrete retaining walls and slab in support of new monorail and gripper trash racks cleaning system; demolition of existing flume structure, Weir No. 1 and drain pipe slide gate and structure, and existing Weir No. 2 and drain pipe slide gate and structure; construction of new flume structure and related pressure transducer system, new Weir No. 1 with new drain slide gate and structure, new sharp crested Weir No. 2 with new drain slide gate and structure, and related pressure transducer system; regrading of existing Weir Ponds 1 and 2; and testing, training and startup.
- ***Microfiltration Steel Break (Filtrate) Tank Replacement at the Carson Reclamation Facility for West Basin Municipal Water District*** – Inspector
- ***WRF-3 Sewer Lift Station for the City of Corona – Inspector***
- ***Myra 3 In-Line Detention Basin, Storm Drain, and Sewer Improvements for the City of Cypress*** – Special Inspector

ROBERT BOSTIC

Construction Inspector

YEARS OF EXPERIENCE

17 years (3 with AKM)

HIGHLIGHTS

SWRCB Grade IV Water Treatment Operator

SWRCB Grade IV Water Distribution Operator

Experience includes water treatment facilities, natural gas systems, street maintenance, desalination plants, operations and management

Former US Marine Corps Sergeant

Mr. Robert Bostic has more than 17 years of experience providing construction management and inspection services. Robert's project experience includes water and natural gas systems, street maintenance, desalination plants, treatment plants, operations, and management. He is a licensed Grade IV Water Treatment Operator and Grade IV Water Distribution Operator.

- ***Cypress Water Production Facility Upgrades for the City of Lomita – Inspector -*** AKM Consulting Engineers is currently providing construction management and inspection for the project which includes construction of a Granular Activated Carbon (GAC) treatment facility and associated ancillary equipment at the City of Lomita's Cypress Water Production Facility. The existing facility is comprised of a deep well pump, discharge piping, treatment facilities for the well water, and a 10 million gallon reservoir. The facility is currently inoperable due to high sulfides which cannot be removed with the existing treatment equipment. The new GAC system will remove sulfides to within acceptable levels. Additional work also includes design, installation and commissioning of a security system; site work (demolition, work, excavations); pipelines; canopy; electrical, controls and instrumentation; startup testing, and training; potholing; a portable generator relocation; and site shoring.
- ***PFAS Treatment System for Wells 5A, 8, and 11 for Pico Water District –*** Project Inspector – AKM is providing construction management and inspection services for the project which includes a 1500 gpm, 1100 gpm, and 3000 gpm wellhead treatment facilities for Wells 5A, 8, and 11, respectively. The project also included the construction of lead-lag dual media pressure vessel systems with PFAS selective ion exchange resins, pre-treatment cartridge filters, and piping and appurtenances for PFAS treatment facilities at Pico Water District's Wells 5A, 8, and 11. The improvements included new reinforced concrete foundation slabs, 2 to 4 ion exchange vessels and 2 to 3 cartridge filters per site, as well as new instrumentation and appurtenances, and the relocation of the disinfection chemical injection locations.
- ***Rehabilitation of Water Wells Wilson 1A and Citizens 9*** – Inspector - The project entailed the rehabilitation of two municipal water supply wells which included the following: Removal of the existing well pump, column piping and discharge head at each location, clean and redevelopment of the wells, the installation of new mechanical piping and valves, as well as the replacement of the existing well starter with variable frequency drives. AKM was responsible for the mechanical and electrical inspections. Once the well pumps, column piping and discharge heads were removed, the Contractor delivered the existing equipment to their facility. AKM inspected the condition of the pumps and equipment and determined that while the discharge heads could be refurbished, that the pump and column piping should be replaced. AKM inspected the installation of the new well pump, column piping and refurbished well discharge head at both well sites. Client were proactive in meeting regulatory requirements and water quality targets.
- ***Microfiltration Steel Break (Filtrate) Tank Replacement at the Carson Reclamation Facility for West Basin Municipal Water District*** – Inspector for the project which consisted of the following work at the Juanita Millender- McDonald Carson Regional Water Recycling Plant, demolition of an existing 194,000-gallon welded steel tank, tank foundation, and appurtenances; installation of temporary above-ground bolted steel storage tank and process piping; design and installation of pressure grout soils stabilization for the area underneath the proposed replacement tank; construction of a new 194,000-gallon welded steel tank, foundation, and appurtenances; cathodic protection; connection of tank piping; and site grading and drainage improvements.
- ***Barrier Blend Station Modifications for West Basin Municipal Water District –*** Inspector for the Project which involved modifications to an existing blending station to accommodate a new development. Work elements included the relocation of the existing telemetry cabinet, a new electrical service and meter section, modifications to the existing blending vault, new cathodic protection test stations, grading and construction of a new retaining wall.
- ***Santa Barbara Desalination Plant for IDE Americas -*** Plant Manager/Chief Plant Operator. In this role, Mr. Bostic oversaw all projects and maintenance within the plant including observation of the quality of construction. He worked closely with Clients to ensure consistent and reliable operation of reactivated seawater desalination plant. Ensured DBO entity and

BRAD JACKSON

Construction Inspector

YEARS OF EXPERIENCE

30 years (1 with AKM)

HIGHLIGHTS

Previously with Irvine Ranch Water District

Worked his way up the ladder to managing teams of dedicated construction inspectors

Oversaw projects: housing tracts, pipelines, reservoirs, pump stations, well rehabilitations, chemical feed facilities

Mr. Jackson has spent the past 30 years with the Irvine Ranch Water District. He has progressed from a position in the warehouse learning the basics of pipes, fittings and appurtenances to managing a team of dedicated construction inspectors overseeing and inspecting projects from housing tracts to the construction of District reservoirs, pump stations, well rehabilitations and chemical feed facilities. He possesses excellent oral and written communication skills and take great pride in composing documentation and reports. Collectively, with his experience and education, he will provide excellence in inspection services.

- ***Orange Park Acres Transmission Pipeline Installation for Irvine Ranch Water District*** - Provided inspection services
- ***Water Re-Use Project for Irvine Ranch Water District*** - Provided inspection services
- ***Sand Canyon Grade Separation for Irvine Ranch Water District*** - Provided inspection services
- ***Wells 21 and 22 Pipelines to the Desalter Treatment Plant for Irvine Ranch Water District*** - Provided inspection services
- ***Desalter Treatment Plant to the Zone 1 System for Irvine Ranch Water District*** - Provided inspection services
  - Well Pump to Waste Pipeline: Inspections provided for the installation of 1,300 L.F. of fully welded 12" C.M.L.& C pipe for a pump-to-waste pipeline connecting to an existing 66" County of Orange storm drain.
  - Product Water – Inspections provided for the installation of a product water pipeline consisting of approximately 13,026 L.F. of fully welded 24-inch C.M.L.& C pipe. Installation included jack and bore operations at the BNSF railroad, across arterial street intersections, under the Santa Fe Channel box culvert and under Peters Canyon Wash. The 24" product water pipeline connected to an existing 42" prestressed concrete cylinder steel pipeline.
  - Brine Pipeline - Observed and inspected the installation of the brine disposal force main consisting of approximately 1,570 L.F. of 10" HDPE pipe from the Wells 21 and 22 Treatment Plant terminating at the existing Orange County Sanitation District (OCSD) 36-inch trunk sewer located near the intersection of Red Hill Avenue and Edinger.
- ***Orange Park Acres Reservoir Demolition*** *for Irvine Ranch Water District* - Provided inspection services
- ***Orange Park Acres Well Destruction and Installation for Irvine Ranch Water District*** - Provided inspection services
- ***Orange Park Acres Well Site, Demolition and Re-development for Irvine Ranch Water District*** - Provided inspection services
- ***Initial Disinfection Facility Chlorine Injection Line Replacement for Irvine Ranch Water District*** - Provided inspection services
- ***Initial Disinfection Facility (IDF) for Irvine Ranch Water District*** - Provided inspection services
- ***Tustin Ranch Road DW, RW and Sewer Installation for Irvine Ranch Water District*** - Provided construction inspection services to ensure installation was to specification for IRWD including: *Potable Water* - 1,146 L.F. of 16" CL-200 PVC pipe; 181 L.F. of 16" fully welded C.M.L.& C. steel pipe; 195 L.F. of 12" fully welded C.M.L.& C. steel pipe; 210 L.F. of 12" D.I. CL-200 fully restrained pipe; 7,245 L.F. of 12" C-900 CL-200 PVC pipe; 195 L.F. of 10" C-900 CL-200 pipe; all related fittings, thrust restraints, valves and cathodic protection systems. Oversaw the hydrostatic testing of the pipeline and fittings, captured water samples for bacteriological testing and followed the chain-of custody to the laboratory. *Recycled Water* – 211 L.F. of 16" CL-200 PVC pipe; 530 L.F. of 6" fully welded C.M.L.& C. steel pipe; 14,920 L.F. of 6" CL-200 PVC pipe; 361 L.F. of 4" C-900 PVC CL-200 pipe; all related fittings, thrust restraints, valves and cathodic protection systems. Oversaw the hydrostatic testing of the pipeline and fittings. *Sewer System* - 2,815 L.F. of 20" PVC SDR-35 sewer pipe; 558 L.F. of 10" PVC SDR-35 pipe; 1,194 L.F. of 8" PVC SDR-35 pipe; 30 L.F. of steel casing for sewer piping; construction of 48" and 60" sewer manholes and demolition and abandonment of a sewer lift station and facilities. Oversaw the testing and CCTV of installed sewer piping.
- ***Various Housing Tract Development and Commercial Development for Irvine Ranch Water District*** - Provided inspection services
- ***Wells 1, 5 and 13 Redevelopment for Irvine Ranch Water District*** - Provided inspection services

CRAIG (CJ) ERVIN

Construction Inspector

YEARS OF EXPERIENCE

34 years (8 with AKM)

REGISTRATIONS / LICENSES

Grade 3 California Water Treatment Operator

American Water Works Association Grade 2 Distribution Operator

HIGHLIGHTS

Water Reclamation Plants

Water And Sewer Pump Stations

Street Improvements

Buildings

Pipelines

Infrastructure

Mr. Craig (CJ) Ervin, is a licensed Grade 3 California Water Treatment Operator who possesses over 30 years of experience in construction inspection for water reclamation plants, water and sewer pump stations, pipelines and infrastructure for new tract developments.
Additionally, Mr. Ervin has provided claims management, cost control, change order preparation, change order negotiation, warrantee inspections, warrantee work coordination with contractors, and constructability review services to municipal agencies.

- SA-5 Vault Replacement Project for the City of Santa Ana - Inspector
- AES Sewer Design Revision 1 project for Alamitos Energy, LLC – Field Engineer
- Ross Avenue Sewer Improvements Project for the City of Alhambra – Construction Inspector
- Forcemain Improvements for the Paseo Del Mar and Rocky Point Sewer Pump Stations – Construction Inspector
- Various Projects throughout Orange County for the Irvine Ranch Water District - Provided inspection services
- Tustin Ranch Development Sewer Improvements for the Irvine Ranch Water District – Lead Resident Engineer
- Marine Corp Base Tustin for the Irvine Ranch Water District - Provided inspection and participated in project management
- Newport Coast Development Sewer Improvements for the Irvine Ranch Water District - Lead Resident Engineer

CITY OF ONTARIO
PROFESSIONAL SERVICES AGREEMENT

1. PARTIES AND DATE.

This Agreement is made and entered as of _____ ____, **2024**, by and between the City of Ontario, a municipal corporation organized under the laws of the State of California with its principal place of business at 303 East "B" Street, Ontario, California 91764-4196, County of San Bernardino, State of California ("City") and **Anser Advisory Management, LLC**, a **LIMITED LIABILITY COMPANY**, with its principal place of business at **300 Spectrum Drive, Suite 1400, Irvine CA 92618** ("Consultant"). City and Consultant are sometimes individually referred to herein as "Party" and collectively as "Parties."

2. RECITALS.

2.1 Consultant.

Consultant desires to perform and assume responsibility for the provision of certain professional services required by the City on the terms and conditions set forth in this Agreement. Consultant represents that it is experienced in providing **construction management and inspection services** to public clients, is licensed in the State of California, and is familiar with the plans of City.

2.2 Project.

City desires to engage Consultant to render such professional services for the **On-Call Project Management Services** project ("Project") as set forth in this Agreement.

3. TERMS.

3.1 Scope of Services and Term.

3.1.1 General Scope of Services. Consultant promises and agrees to furnish to the City all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately supply the professional **construction management and inspection** consulting services necessary for the Project ("Services"). The Services are more particularly described in Exhibit "A" attached hereto and incorporated herein by reference. All

Services shall be subject to, and performed in accordance with, this Agreement, the exhibits attached hereto and incorporated herein by reference, and all applicable local, state and federal laws, rules and regulations.

3.1.2 Term. The term of this Agreement shall be from **June 4, 2024** to **June 4, 2027,** unless earlier terminated as provided herein The City shall have the unilateral option, at its sole discretion, to renew this Agreement automatically for no more than **two** additional one-year terms. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the Services.

3.2 Compensation.

3.2.1 Compensation. Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Six Hundred Thousand Dollars ($600,000)** without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.2.2 Payment of Compensation. Consultant shall submit to City a monthly invoice which indicates work completed and hours of Services rendered by Consultant. The invoice shall describe the amount of Services provided since the initial commencement date, or since the start of the subsequent billing periods, as appropriate, through the date of the invoice. City shall, within 30 days of receiving such invoice, review the invoice and pay all non-disputed and approved charges. If the City disputes any of Consultant's fees, the City shall give written notice to Consultant within thirty (30) days of receipt of an invoice of any disputed fees set forth therein. Payment shall not constitute acceptance of any Services completed by Consultant. The making of final payment shall not constitute a waiver of any claims by the City for any reason whatsoever.

3.2.3 Reimbursement for Expenses. Consultant shall not be reimbursed for any expenses unless authorized in writing by City, or included in Exhibit "C" of this Agreement.

3.2.4 Extra Work. At any time during the term of this Agreement, City may request that Consultant perform Extra Work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the Parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, Extra Work without written authorization from the City.

3.3 Responsibilities of Consultant.

3.3.1 Independent Contractor; Control and Payment of Subordinates. The Services shall be performed by Consultant or under its supervision. Consultant will determine the means, methods and details of performing the Services subject to the requirements of this Agreement. City retains Consultant on an independent contractor basis and not as an employee. Any personnel performing the Services on behalf of Consultant shall not be employees of City and shall at all times be under Consultant's exclusive direction and control. Neither City, or any of its officials, officers, directors, employees or agents shall have control over the conduct of

Consultant or any of Consultants officers, employees or agents, except as set forth in this Agreement. Consultant shall pay all wages, salaries, and other amounts due such personnel in connection with their performance of Services under this Agreement and as required by law. Consultant shall be responsible for all reports and obligations respecting such additional personnel, including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation insurance.

3.3.2 Schedule of Services. Consultant shall perform the Services in a prompt and timely manner and in accordance with the Schedule of Services set forth in Exhibit "B" attached hereto and incorporated herein by reference. Consultant represents that it has the professional and technical personnel required to perform the Services expeditiously. Upon request of City, Consultant shall provide a more detailed schedule of anticipated performance to meet the Schedule of Services.

3.3.3 Conformance to Applicable Requirements. All work prepared by Consultant shall be subject to the approval of City.

3.3.4 Substitution of Key Personnel. Consultant has represented to City that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. In the event that City and Consultant cannot agree as to the substitution of key personnel, City shall be entitled to terminate this Agreement for cause. The key personnel for performance of this Agreement are as follows: **Jonathan Smith, PE, Stephen Mutch, PE, and Kamran Panah, PE.**

3.3.5 City's Representative. The City hereby designates **Dennis Mejia (Utilities Engineering Division Manager)** or his/her designee, to act as its representative in all matters pertaining to the administration and performance of this Agreement ("City's Representative"). City's Representative shall have the power to act on behalf of the City for review and approval of all products submitted by Consultant but not the authority to enlarge the Scope of Services or change the total compensation due to Consultant under this Agreement. The City Manager shall be authorized to act on City's behalf and to execute all necessary documents which enlarge the Scope of Services or change the Consultant's total compensation subject to the provisions contained in this Agreement. Consultant shall not accept direction or orders from any person other than the City Manager, City's Representative or his/her designee.

3.3.6 Consultant's Representative. Consultant hereby designates **Jonathan Smith, Principal-in-Charge**, or his/her designee, to act as its representative for the performance of this Agreement ("Consultant's Representative"). Consultant's Representative shall have full authority to represent and act on behalf of the Consultant for all purposes under this Agreement. The Consultant's Representative shall supervise and direct the Services, using his/her best skill and attention, and shall be responsible for all means, methods, techniques, sequences, and procedures and for the satisfactory coordination of all portions of the Services under this Agreement.

3.3.7 Coordination of Services. Consultant agrees to work closely with City staff in the performance of Services and shall be available to City's staff, consultants and other staff at all reasonable times.

3.3.8 Standard of Care; Performance of Employees. Consultant shall perform all

Services under this Agreement in a skillful and competent manner, consistent with the standards generally recognized as being employed by professionals in the same discipline in the State of California. Consultant represents and maintains that it is skilled in the professional calling necessary to perform the Services. Consultant warrants that all employees and subconsultants shall have sufficient skill and experience to perform the Services assigned to them. Consultant represents that it, its employees and subconsultants have all licenses, permits, qualifications and approvals of whatever nature that are legally required to perform the Services, and that such licenses and approvals shall be maintained throughout the term of this Agreement. Consultant shall perform, at its own cost and expense and without reimbursement from the City, any services necessary to correct errors or omissions which are caused by the Consultant's failure to comply with the standard of care provided for herein. Any employee of the Consultant or its subconsultants who is determined by the City to be uncooperative, incompetent, a threat to the adequate or timely completion of the Project, a threat to the safety of persons or property, or any employee who fails or refuses to perform the Services in a manner acceptable to the City, shall be promptly removed from the Project by the Consultant and shall not be re-employed to perform any of the Services or to work on the Project.

3.3.9 Period of Performance.

3.3.9.1 Consultant shall perform and complete all Services under this Agreement within the term set forth in Section 3.1.2 above ("Performance Time"). Consultant shall also perform the Services in strict accordance with any completion schedule or Project milestones described in Exhibits "A" or "B" attached hereto, or which may be separately agreed upon in writing by the City and Consultant ("Performance Milestones"). Consultant agrees that if the Services are not completed within the aforementioned Performance Time and/or pursuant to any such Performance Milestones developed pursuant to provisions of this Agreement, it is understood, acknowledged and agreed that the City will suffer damage.

3.3.9.2 Neither City nor Consultant shall be considered in default of this Agreement for delays in performance caused by circumstances beyond the reasonable control of the non-performing Party. For purposes of this Agreement, such circumstances include a Force Majeure Event. A Force Majeure Event shall mean an event that materially affects a Party's performance and is one or more of the following: (1) Acts of God or other natural disasters; (2) terrorism or other acts of a public enemy; (3) orders of governmental authorities (including, without limitation, unreasonable and unforeseeable delay in the issuance of permits or approvals by governmental authorities that are required for the services); (4) strikes and other organized labor action occurring at the site and the effects thereof on the services, only to the extent such strikes and other organized labor action are beyond the control of Consultant and its subcontractors, and to the extent the effects thereof cannot be avoided by use of replacement workers; and (5) pandemics, epidemics or quarantine restrictions. For purposes of this section, "orders of governmental authorities," includes ordinances, emergency proclamations and orders, rules to protect the public health, welfare and safety, and other actions of a public agency applicable to the services and Agreement.

3.3.9.3 Should a Force Majeure Event occur, the non-performing Party shall, within a reasonable time of being prevented from performing, give written notice to the other Party describing the circumstances preventing continued performance and the efforts being made to resume performance of this Agreement. Force Majeure Events and/or delays, regardless of the Party responsible for the delay, shall not entitle Consultant to any additional compensation.

Notwithstanding the foregoing in this section, the City may still terminate this Agreement in accordance with the termination provisions of this Agreement.

3.3.10 Laws and Regulations; Employee/Labor Certification.

3.3.10.1 Compliance with Laws. Consultant shall keep itself fully informed of and in compliance with all local, state and federal laws, rules and regulations in any manner affecting the performance of the Project or the Services, including all Cal/OSHA requirements, and shall give all notices required by law. Consultant shall be liable for all violations of such laws and regulations in connection with the Services and this Agreement. All violations of such laws and regulations shall be grounds for the City to terminate the Agreement for cause.

3.3.10.2 Employment Eligibility; Consultant. Consultant certifies that it fully complies with all requirements and restrictions of state and federal law respecting the employment of undocumented aliens, including, but not limited to, the Immigration Reform and Control Act of 1986, as may be amended from time to time and shall require all subconsultants and sub-subconsultants to comply with the same. Consultant certifies that it has not committed a violation of any such law within the five (5) years immediately preceding the date of execution of this Agreement, and shall not violate any such law at any time during the term of the Agreement.

3.3.10.3 Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subconsultant, employee or applicant for employment because of race, religion, color, national origin, handicap, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan or other related programs or guidelines currently in effect or hereinafter enacted.

3.3.10.4 Air Quality. To the extent applicable, Consultant must fully comply with all applicable laws, rules and regulations in furnishing or using equipment and/or providing services, including, but not limited to, emissions limits and permitting requirements imposed by the South Coast Air Quality Management District (SCAQMD) and/or California Air Resources Board (CARB). Consultant shall indemnify City against any fines or penalties imposed by SCAQMD, CARB, or any other governmental or regulatory agency for violations of applicable laws, rules and/or regulations by Consultant, its subconsultants, or others for whom Consultant is responsible under its indemnity obligations provided for in this Agreement.

3.3.10.5 Water Quality Management and Compliance. Consultant shall keep itself and all subcontractors, staff, and employees fully informed of and in compliance with all local, state and federal laws, rules and regulations that may impact, or be implicated by the performance of the Services including, without limitation, all applicable provisions of the City's ordinances regulating water quality and storm water; the Federal Water Pollution Control Act (33 U.S.C. § 1251, *et seq.*); the California Porter-Cologne Water Quality Control Act (Water Code § 13000 *et seq.*); and any and all regulations, policies, or permits issued pursuant to any such authority. Consultant must additionally comply with the lawful requirements of the City, and any other municipality, drainage district, or other local agency with jurisdiction over the location where the Services are to be conducted, regulating water quality and storm water discharges. City may seek damages from Consultant for delay in completing the Services caused by Consultant's

failure to comply with the laws, regulations and policies described in this Section, or any other relevant water quality law, regulation, or policy.

3.3.10.6 Safety. Consultant shall execute and maintain its work so as to avoid injury or damage to any person or property. In carrying out its Services, the Consultant shall at all times be in compliance with all applicable local, state and federal laws, rules and regulations, and shall exercise all necessary precautions for the safety of employees appropriate to the nature of the work and the conditions under which the work is to be performed.

3.3.11 Insurance.

3.3.11.1 Time for Compliance. Consultant shall not commence work under this Agreement until it has provided evidence satisfactory to the City that it has secured all insurance required under this section. In addition, Consultant shall not allow any subconsultant to commence work on any subcontract until it has provided evidence satisfactory to the City that the subconsultant has secured all insurance required under this section. Failure to provide and maintain all required insurance shall be grounds for the City to terminate this Agreement for cause.

3.3.11.2 Types of Insurance Required. As a condition precedent to the effectiveness of this Agreement for work to be performed hereunder, and without limiting the indemnity provisions of the Agreement, the Consultant, in partial performance of its obligations under such Agreement, shall procure and maintain in full force and effect during the term of the Agreement the following policies of insurance. If the existing policies do not meet the insurance requirements set forth herein, Consultant agrees to amend, supplement or endorse the policies to do so.

(A) Commercial General Liability: Commercial General Liability Insurance which affords coverage at least as broad as Insurance Services Office "occurrence" form CG 00 01, or the exact equivalent, with limits of not less than $2,000,000 per occurrence and no less than $4,000,000 in the general aggregate. Defense costs shall be paid in addition to the limits. The policy shall contain no endorsements or provisions (1) limiting coverage for contractual liability; (2) excluding coverage for claims or suits by one insured against another (cross-liability); (3) products/completed operations liability; or (4) containing any other exclusion(s) contrary to the terms or purposes of this Agreement.

(B) Automobile Liability Insurance: Automobile Liability Insurance with coverage at least as broad as Insurance Services Office Form CA 00 01 covering "Any Auto" (Symbol 1), or the exact equivalent, covering bodily injury and property damage for all activities with limits of not less than $2,000,000 combined limit for each occurrence.

(C) Workers' Compensation: Workers' Compensation Insurance, as required by the State of California and Employer's Liability Insurance with a limit of not less than $1,000,000 per accident for bodily injury and disease.

(D) Professional Liability (Errors & Omissions): Professional Liability insurance or Errors & Omissions insurance appropriate to Consultant's profession with limits of not less than $2,000,000. Covered professional services shall specifically include all work to be performed under the Agreement and delete any exclusions that may potentially affect the work to be performed (for example, any exclusions relating to lead, asbestos, pollution, testing, underground storage tanks, laboratory analysis, soil work, etc.). If coverage is written on

a claims-made basis, the retroactive date shall precede the effective date of the initial Agreement and continuous coverage will be maintained or an extended reporting period will be exercised for a period of at least five (5) years from termination or expiration of this Agreement.

3.3.11.3 Insurance Endorsements. Required insurance policies shall contain the following provisions, or Consultant shall provide endorsements on forms approved by the City to add the following provisions to the insurance policies:

(A) Commercial General Liability: (1) Additional Insured: The City, its officials, officers, employees, agents, and volunteers shall be additional insureds with regard to liability and defense of suits or claims arising out of the performance of the Agreement. Additional Insured Endorsements shall not (1) be restricted to "ongoing operations"; (2) exclude "contractual liability"; (3) restrict coverage to "sole" liability of Consultant; or (4) contain any other exclusions contrary to the terms or purposes of this Agreement. For all policies of Commercial General Liability insurance, Consultant shall provide endorsements in the form of ISO CG 20 10 10 01 and 20 37 10 01 (or endorsements providing the exact same coverage) to effectuate this requirement. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(B) Automobile Liability: (1) Additional Insured: The City, its directors, officials, officers, employees, agents, and volunteers shall be covered as additional insureds with respect to the ownership, operation, maintenance, use, loading or unloading of any auto owned, leased, hired or borrowed by the Vendor or for which the Vendor is responsible. (2) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium.

(C) Professional Liability (Errors & Omissions): (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) This insurance shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the Consultant. "Covered Professional Services" as designated in the policy must specifically include work performed under this Agreement. The policy must "pay on behalf of" the insured and include a provision establishing the insurer's duty to defend.

(D) Workers' Compensation: (1) Cancellation: Required insurance policies shall not be canceled or the coverage reduced until a thirty (30) day written notice of cancellation has been served upon the City except ten (10) days shall be allowed for non-payment of premium. (2) Waiver of Subrogation: A waiver of subrogation stating that the insurer waives all rights of subrogation against the City, its officials, officers, employees, agents, and volunteers.

3.3.11.4 Primary and Non-Contributing Insurance. All policies of Commercial General Liability and Automobile Liability insurance shall be primary and any other insurance, deductible, or self-insurance maintained by the City, its officials, officers, employees, agents, or volunteers shall not contribute with this primary insurance. Policies shall contain or be endorsed to contain such provisions.

3.3.11.5 Waiver of Subrogation. All required insurance coverages, except for the professional liability coverage, shall contain or be endorsed to waiver of subrogation in favor of the City, its officials, officers, employees, agents, and volunteers or shall specifically allow Consultant or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Consultant hereby waives its own right of recovery against City, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

3.3.11.6 Deductibles and Self-Insured Retentions. Any deductible or self-insured retention must be approved in writing by the City and shall protect the City, its officials, officers, employees, agents, and volunteers in the same manner and to the same extent as they would have been protected had the policy or policies not contained a deductible or self-insured retention.

3.3.11.7 Evidence of Insurance. The Consultant, concurrently with the execution of the Agreement, and as a condition precedent to the effectiveness thereof, shall deliver either certified copies of the required policies, or original certificates on forms approved by the City, together with all endorsements affecting each policy. Required insurance policies shall not be in compliance if they include any limiting provision or endorsement that has not been submitted to the City for approval. The certificates and endorsements for each insurance policy shall be signed by a person authorized by that insurer to bind coverage on its behalf. At least fifteen (15 days) prior to the expiration of any such policy, evidence of insurance showing that such insurance coverage has been renewed or extended shall be filed with the City. If such coverage is cancelled or reduced and not replaced immediately so as to avoid a lapse in the required coverage, Consultant shall, within ten (10) days after receipt of written notice of such cancellation or reduction of coverage, file with the City evidence of insurance showing that the required insurance has been reinstated or has been provided through another insurance company or companies.

3.3.11.8 Acceptability of Insurers. Each such policy shall be from a company or companies with a current A.M. Best's rating of no less than A:VII and authorized to transact business of insurance in the State of California, or otherwise allowed to place insurance through surplus line brokers under applicable provisions of the California Insurance Code or any federal law.

3.3.11.9 Enforcement of Agreement Provisions (non estoppel). Consultant acknowledges and agrees that actual or alleged failure on the part of the City to inform Consultant of non-compliance with any requirement imposes no additional obligation on the City nor does it waive any rights hereunder.

3.3.11.10 Requirements Not Limiting. Requirement of specific coverage or minimum limits contained in this Section are not intended as a limitation on coverage, limits, or other requirement, or a waiver of any coverage normally provided by any insurance.

3.3.11.11 Additional Insurance Provisions

(A) The foregoing requirements as to the types and limits of insurance coverage to be maintained by Consultant, and any approval of said insurance by the City, is not intended to and shall not in any manner limit or qualify the liabilities and obligations

otherwise assumed by the Consultant pursuant to this Agreement, including but not limited to, the provisions concerning indemnification.

(B) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, City has the right but not the duty to obtain the insurance it deems necessary and any premium paid by City will be promptly reimbursed by Consultant or City will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, City may cancel this Agreement.

(C) The City may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Project.

(D) Neither the City nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

(E) The limits set forth herein shall apply separately to each insured against whom claims are made or suits are brought, except with respect to the limits of liability. Further the limits set forth herein shall not be construed to relieve the Consultant from liability in excess of such coverage, nor shall it limit the Consultant's indemnification obligations to the City and shall not preclude the City from taking such other actions available to the City under other provisions of the Agreement or law.

(F) Consultant shall report to the City, in addition to Consultant's insurer, any and all insurance claims submitted by Consultant in connection with the Services under this Agreement.

3.3.11.12 Insurance for Subconsultants. Consultant shall include all subconsultants engaged in any work for Consultant relating to this Agreement as additional insureds under the Consultant's policies, or the Consultant shall be responsible for causing subconsultants to purchase the appropriate insurance in compliance with the terms of these Insurance Requirements, including adding the City, its officials, officers, employees, agents, and volunteers as additional insureds to the subconsultant's policies. All policies of Commercial General Liability insurance provided by Consultant's subconsultants performing work relating to this Agreement shall be endorsed to name the City, its officials, officers, employees, agents and volunteers as additional insureds using endorsement form ISO CG 20 38 04 13 or an endorsement providing equivalent coverage. Consultant shall not allow any subconsultant to commence work on any subcontract relating to this Agreement until it has received satisfactory evidence of subconsultant's compliance with all insurance requirements under this Agreement, to the extent applicable. The Consultant shall provide satisfactory evidence of compliance with this section upon request of the City.

3.4 Labor Code Requirements.

3.4.1 Prevailing Wages. Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the Services are being performed as part of an applicable "public works" or

"maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is $1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws. City shall provide Consultant with a copy of the prevailing rates of per diem wages in effect at the commencement of this Agreement. Consultant shall make copies of the prevailing rates of per diem wages for each craft, classification or type of worker needed to execute the Services available to interested parties upon request, and shall post copies at the Consultant's principal place of business and at the project site. It is the intent of the parties to effectuate the requirements of sections 1771, 1774, 1775, 1776, 1777.5, 1813, and 1815 of the Labor Code within this Agreement, and Consultant shall therefore comply with such Labor Code sections to the fullest extent required by law. Consultant shall defend, indemnify and hold the City, its officials, officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

3.4.2 Registration/DIR Compliance. If the Services are being performed on a public works project of over $25,000 when the project is for construction, alteration, demolition, installation, or repair work, or a public works project of over $15,000 when the project is for maintenance work, in addition to the foregoing, then pursuant to Labor Code sections 1725.5 and 1771.1, the Consultant and all subconsultants must be registered with the Department of Industrial Relations ("DIR"). Consultant shall maintain registration for the duration of the Project and require the same of any subconsultants.

3.4.3 Compliance Monitoring. This Project may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR. Any stop orders issued by the DIR against Consultant or any subconsultant that affect Consultant's performance of services, including any delay, shall be Consultant's sole responsibility. Any delay arising out of or resulting from such stop orders shall be considered Consultant caused delay and shall not be compensable by the City. Consultant shall defend, indemnify and hold the City, its officials, officers, employees and agents free and harmless from any claim or liability arising out of stop orders issued by the DIR against Consultant or any subconsultant.

3.4.4 Labor Certification. By its signature hereunder, Consultant certifies that it is aware of the provisions of Section 3700 of the California Labor Code which require every employer to be insured against liability for Worker's Compensation or to undertake self-insurance in accordance with the provisions of that Code, and agrees to comply with such provisions before commencing the performance of the Services.

3.5 Termination of Agreement.

3.5.1.1 Grounds for Termination. City may, by written notice to Consultant, terminate the whole or any part of this Agreement at any time and without cause by giving written notice to Consultant of such termination, and specifying the effective date thereof, at least seven (7) days before the effective date of such termination. Upon termination, Consultant shall be compensated only for those Services which have been adequately rendered to City, and Consultant shall be entitled to no further compensation. Consultant may not terminate this Agreement except for cause. The rights and remedies of the City provided in this section shall not be exclusive and are in addition to any other rights and remedies provided by law, equity or under this Agreement.

3.5.1.2 Effect of Termination. If this Agreement is terminated as provided herein, City may require Consultant to provide all finished or unfinished Documents and Data and other information of any kind prepared by Consultant in connection with the performance of Services under this Agreement. Consultant shall be required to provide such document and other information within fifteen (15) days of the request.

3.5.1.3 Additional Services. In the event this Agreement is terminated in whole or in part as provided herein, City may procure, upon such terms and in such manner as it may determine appropriate, services similar to those terminated.

3.6 Indemnification.

3.6.1 To the fullest extent permitted by law, Consultant shall defend (with counsel of City's choosing), indemnify and hold the City, its officials, officers, employees, volunteers, and agents free and harmless from any and all claims, demands, causes of action, costs, expenses, liability, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's Services, the Project or this Agreement, including without limitation the payment of all damages, expert witness fees and attorney's fees and other related costs and expenses except such loss or damage caused by the sole negligence or willful misconduct of the City. Consultant's obligation to indemnify shall survive expiration or termination of this Agreement and shall not be restricted to insurance proceeds, if any, received by Consultant, the City, its officials, officers, employees, agents, or volunteers.

3.6.2 If Consultant's obligation to defend, indemnify, and/or hold harmless arises out of Consultant's performance as a "design professional" (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, Consultant's indemnification obligation shall be limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Consultant, and, upon Consultant obtaining a final adjudication by a court of competent jurisdiction, Consultant's liability for such claim, including the cost to defend, shall not exceed the Consultant's proportionate percentage of fault.

3.7 General Provisions.

3.7.1 Accounting Records. Consultant shall maintain complete and accurate records with respect to all costs and expenses incurred under this Agreement. All such records shall be clearly identifiable. Consultant shall allow a representative of City during normal business hours to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement. Consultant shall allow inspection of all work, data, documents, proceedings, and activities related to the Agreement for a period of three (3) years from the date of final payment under this Agreement.

3.7.2 Independent Contractors and Subcontracting.

3.7.2.1 Use of Consultants. Consultant is aware of statutory and case law regarding classification of workers as independent contractors, including California Labor Code Section 2750.3 and Dynamex Operations West, Inc. v. Superior Court, 4 Cal. 5th 903

(2018). To ensure that Consultant is in compliance with the California Labor Code, Consultant shall only utilize its employees to provide the Services. Consultant may not provide the services through any independent contractor, subcontractor or subconsultant ("Subcontractor(s)") unless approved by the City as set forth in Section 3.7.2.2 below. Consultant represents and warrants that all personnel who perform the Services on Consultant's behalf are Consultant's employees, and that Consultant complies with all applicable laws, rules and regulations governing its employees, including, but not limited to, the California Labor Code, Unemployment Insurance Code and all applicable Industrial Welfare Commission Wage Orders.

3.7.2.2 Prior Approval Required. Consultant shall not use any Subcontractor to provide the Services, or any portion of the work required by this Agreement, without prior written approval of City. In the event that City authorizes Consultant to use a Subcontractor, Consultant shall enter into a written agreement with the Subcontractor, which must include all provisions of the Agreement, including a restriction on the Subcontractor's use of further independent contractors, subcontractors or subconsultants without the City's prior written consent.

3.7.3 Delivery of Notices. All notices permitted or required under this Agreement shall be given to the respective parties at the following address, or at such other address as the respective parties may provide in writing for this purpose:

Consultant: **Anser Advisory Management, LLC**
300 Spectrum Drive, Suite 1400
Irvine, CA 92618
ATTN: **Jonathan Smith**

City: City of Ontario
303 East "B" Street
Ontario, CA 91764
ATTN: **Dennis Mejia, P.E., Utilities Engineering Division Manager, OMUC**

Such notice shall be deemed made when personally delivered or when mailed, forty-eight (48) hours after deposit in the U.S. Mail, first class postage prepaid and addressed to the party at its applicable address. Actual notice shall be deemed adequate notice on the date actual notice occurred, regardless of the method of service.

3.7.4 Ownership of Materials and Confidentiality.

3.7.4.1 Documents & Data; Licensing of Intellectual Property. This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Consultant under this Agreement ("Documents & Data"). All Documents & Data shall be and remain the property of City, and shall not be used in whole or in substantial part by Consultant on other projects without the City's express written permission. Within thirty (30) days following the completion, suspension, abandonment or termination of this Agreement, Consultant shall provide to City reproducible copies of all Documents & Data, in a form and amount required

where the reproduction will be accomplished. The reproduction expense shall be borne by City at the actual cost of duplication. In the event of a dispute regarding the amount of compensation to which the Consultant is entitled under the termination provisions of this Agreement, Consultant shall provide all Documents & Data to City upon payment of the undisputed amount. Consultant shall have no right to retain or fail to provide to City any such documents pending resolution of the dispute. In addition, Consultant shall retain copies of all Documents & Data on file for a minimum of fifteen (15) years following completion of the Project, and shall make copies available to City upon the payment of actual reasonable duplication costs. Before destroying the Documents & Data following this retention period, Consultant shall make a reasonable effort to notify City and provide City with the opportunity to obtain the documents.

3.7.4.2 Subconsultants. Consultant shall require all subconsultants to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subconsultant prepares under this Agreement. Consultant represents and warrants that Consultant has the legal right to license any and all Documents & Data. Consultant makes no such representation and warranty in regard to Documents & Data which were prepared by design professionals other than Consultant or its subconsultants, or those provided to Consultant by the City.

3.7.4.3 Right to Use. City shall not be limited in any way in its use or reuse of the Documents and Data or any part of them at any time for purposes of this Project or another project, provided that any such use not within the purposes intended by this Agreement or on a project other than this Project without employing the services of Consultant shall be at City's sole risk. If City uses or reuses the Documents & Data on any project other than this Project, it shall remove the Consultant's seal from the Documents & Data and indemnify and hold harmless Consultant and its officers, directors, agents and employees from claims arising out of the negligent use or re-use of the Documents & Data on such other project. Consultant shall be responsible and liable for its Documents & Data, pursuant to the terms of this Agreement, only with respect to the condition of the Documents & Data at the time they are provided to the City upon completion, suspension, abandonment or termination. Consultant shall not be responsible or liable for any revisions to the Documents & Data made by any party other than Consultant, a party for whom the Consultant is legally responsible or liable, or anyone approved by the Consultant.

3.7.4.4 Indemnification. Consultant shall defend, indemnify and hold the City, its directors, officials, officers, employees, volunteers and agents free and harmless, pursuant to the indemnification provisions of this Agreement, for any alleged infringement of any patent, copyright, trade secret, trade name, trademark, or any other proprietary right of any person or entity in consequence of the use on the Project by City of the Documents & Data, including any method, process, product, or concept specified or depicted.

3.7.4.5 Confidentiality. All ideas, memoranda, specifications, plans, procedures, drawings, descriptions, computer program data, input record data, written information, and other Documents & Data either created by or provided to Consultant in connection with the performance of this Agreement shall be held confidential by Consultant. Such materials shall not, without the prior written consent of City, be used by Consultant for any purposes other than the performance of the Services. Nor shall such materials be disclosed to any person or entity not connected with the performance of the Services or the Project. Nothing furnished to Consultant which is otherwise known to Consultant or is generally known, or has become known, to the related industry shall be deemed confidential. Consultant shall not use

City's name or insignia, photographs of the Project, or any publicity pertaining to the Services or the Project in any magazine, trade paper, newspaper, television or radio production or other similar medium without the prior written consent of City.

3.7.4.6 Confidential Information. The City shall refrain from releasing Consultant's proprietary information ("Proprietary Information") unless the City's legal counsel determines that the release of the Proprietary Information is required by the California Public Records Act or other applicable state or federal law, or order of a court of competent jurisdiction, in which case the City shall notify Consultant of its intention to release Proprietary Information. Consultant shall have five (5) working days after receipt of the release notice to give City written notice of Consultant's objection to the City's release of Proprietary Information. Consultant shall indemnify, defend and hold harmless the City, and its officers, directors, employees, and agents from and against all liability, loss, cost or expense (including attorney's fees) arising out of a legal action brought to compel the release of Proprietary Information. City shall not release the Proprietary Information after receipt of an objection notice unless either: (1) Consultant fails to fully indemnify, defend (with City's choice of legal counsel), and hold City harmless from any legal action brought to compel such release; and/or (2) a final and non-appealable order by a court of competent jurisdiction requires that City release such information.

3.7.5 Cooperation; Further Acts. The Parties shall fully cooperate with one another, and shall take any additional acts or sign any additional documents as may be necessary, appropriate or convenient to attain the purposes of this Agreement.

3.7.6 Entire Agreement. This Agreement contains the entire agreement of the Parties with respect to the subject matter hereof, and supersedes all prior negotiations, understandings or agreements.

3.7.7 Attorneys' Fees. If either party commences an action against the other party, either legal, administrative or otherwise, arising out of or in connection with this Agreement, the prevailing party in such litigation shall be entitled to have and recover from the losing party reasonable attorneys' fees and all costs of such action.

3.7.8 Governing Law. This Agreement shall be governed by the laws of the State of California. Venue shall be in San Bernardino County. In addition to any and all contract requirements pertaining to notices of and requests for compensation or payment for extra work, disputed work, claims and/or changed conditions, Consultant must comply with the claim procedures set forth in Government Code sections 900 et seq. prior to filing any lawsuit against the City. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to extra work, disputed work, claims, and/or changed conditions have been followed by Consultant. If no such Government Code claim is submitted, or if any prerequisite contractual requirements are not otherwise satisfied as specified herein, Consultant shall be barred from bringing and maintaining a valid lawsuit against the City.

3.7.9 Time of Essence. Time is of the essence for each and every provision of this Agreement.

3.7.10 City's Right to Employ Other Consultants. City reserves right to employ other consultants in connection with this Project.

3.7.11 Successors and Assigns. This Agreement shall be binding on the successors and assigns of the parties.

3.7.12 Assignment or Transfer. Consultant shall not assign, sublet, or transfer this Agreement or any rights under or interest in this Agreement without the written consent of the City, which may be withheld for any reason. Any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for termination. Consultant shall not subcontract any portion of the Services required by this Agreement, except as expressly stated herein, without prior written approval of City. Subcontracts, if any, shall contain a provision making them subject to all provisions stipulated in this Agreement.

3.7.13 Construction; References; Captions. Since the Parties or their agents have participated fully in the preparation of this Agreement, the language of this Agreement shall be construed simply, according to its fair meaning, and not strictly for or against any Party. Any term referencing time, days or period for performance shall be deemed calendar days and not work days. All references to Consultant include all personnel, employees, agents, and subconsultants of Consultant, except as otherwise specified in this Agreement. All references to City include its elected officials, officers, employees, agents, and volunteers except as otherwise specified in this Agreement. The captions of the various articles and paragraphs are for convenience and ease of reference only, and do not define, limit, augment, or describe the scope, content, or intent of this Agreement.

3.7.14 Amendment; Modification. No supplement, modification, or amendment of this Agreement shall be binding unless executed in writing and signed by both Parties.

3.7.15 Waiver. No waiver of any default shall constitute a waiver of any other default or breach, whether of the same or other covenant or condition. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

3.7.16 No Third-Party Beneficiaries. There are no intended third party beneficiaries of any right or obligation assumed by the Parties.

3.7.17 Invalidity; Severability. If any portion of this Agreement is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.7.18 Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subconsultants to file, a Statement of Economic Interest with the City's Filing Officer as required under state law in the performance of the Services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

3.7.19 Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each Party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and bind each respective Party.

3.7.20 Counterparts. This Agreement may be signed in counterparts, each of which shall constitute an original.

3.7.21 Survival. All rights and obligations hereunder that by their nature are to continue after any expiration or termination of this Agreement, including, but not limited to, the indemnification obligations, shall survive any such expiration or termination.

SCOPE OF SERVICES

EXHIBIT "A"

RFQ PROPOSED SCOPE OF SERVICES

The City of Ontario is seeking Statement of Qualifications from qualified consulting project management to provide On-Call Services for three (3) years, with an option of renewing for two (2) consecutive one (1) year terms. The City desires to obtain the services of a maximum of four (4) qualified firms to assist with On-Call Project Management Services. At least ten (10) years of experience providing similar services is required to oversee the work, stamp, and sign all project related documents as required.

Request for Qualifications (RFQ) for various services in various project disciplines (e.g. Architecture, Capital Improvement, Facilities Maintenance, Public Works, Water and Wastewater Distribution, Water Facilities, Extended Staff Services, etc.) with the intention of maintaining a list of multiple qualified prime consulting firms, with subconsultant support services as needed. Task orders will be issued to firms on a competitive basis based on the qualifications and expertise of the firm and their subconsultants. There is no designated minimum nor maximum value of services to be awarded to any one consultant.

Each Prospective Consultant needs to be able to provide all the services (or provide sub-consultants that must also be listed as part of their statement of qualifications) listed in this RFQ.

The following scope of services provides general categories of services that may be required for each task order requested. The categories are not an exhaustive list of services but rather a sampling of the services that are typically included, but not limited to, within that area of the scope in order to demonstrate the qualifications needed for that scope of services.

Specific services requested under these agreements shall be identified by the City at the time of the request for a specific task order. For each task order requested by the City, the Consultant shall provide a task order proposal that identifies the specific scope of services to be performed, the necessary project management activities, task budget, and task schedule. Upon City's approval of the proposed task's scope of services, the City will issue a notice to proceed with purchase order requisition for the work. The Consultant is encouraged to provide recommendations with respect to scope and order of completion.

No task order or scope of services shall be performed without first receiving authorization from the City and notice to proceed with the task order.

GENERAL REQUIREMENTS.

Consultant will be expected to work closely with staff for the duration of the assigned projects (i.e. task orders), and attend all meetings and workshops, as necessary. Any adjustments can be verified based on the need of City Project Managers. All field services must include appropriate traffic control.

Some or all of the following General Requirements and Services may be incorporated into specific tasks orders generated from the On-Call contract. The applicable General Requirements shall be based on needs of specific tasks and the City Project Managers:

Refer to Professional Services Agreement in Exhibit "B" to review the General Requirements and other conditions.

ON-CALL PROJECT MANAGEMENT SERVICES

The City of Ontario is seeking Statement of Qualifications from firms for On-Call Project Management Services:

Consultant shall be aware that certain labor categories above may be subject to prevailing wage rates as identified in the California Labor Code commencing Section 1770 et Seq. Determination of whether or not Prevailing Wages shall apply will be determined when the City's Project Manager identifies the scope of specific task orders. Please refer to Paragraph XI.11 "Prevailing Wage and Contractor Registration" of this RFQ, and Paragraph 3.10.6 "Prevailing Wages" of the Professional Services Agreement for further requirements.

Expected services to be provided under this on-call contract are as followed:

ACHITECTURAL PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

ARCHITECTURAL BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

DESIGN and CONSTRUCTION DOCUMENTS

- Attend meetings and prepare Meeting Minutes.
- Attend job-walks with architect and engineers
- Review plans at various stages and provide comments
- Provide support as required
- Review the 60 and 90% Plans and Specifications to identify potential errors, omissions, National Electric Code and coordination issues.
    - Detailed review of the Electrical drawings, Latter Logic, Relay logic, Control Logic, verification of the Instrumentation and Mechanical Drawings, and confirm that all electrical equipment are properly shown at their corresponding placements with their required signals, tagging, SCADA network connectivity, Verify all needed points and PLC Address on a list etc.
- Ensure all submittal comments have been addressed in the 100% package.

CONTRACTOR PRE-QUALIFICATION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFQ and provide comments
- Prepare Spreadsheet evaluating responses
- Provide support as required

CONTRACTOR BIDDING and SELECTION

- Attend meetings and provide Meeting Minutes
- Review and prepare draft RFP and provide comments
- Attend Mandatory Pre-Bid Conference, Bid Scrub, and job-walks
- Assist with RFI responses, keep logs as required
- Prepare Spreadsheet evaluating responses
- Provide support as required

PRE-CONSTRUCTION

- Develop and update the over-all Project Schedule
- Develop and update the overall Project Budget
- Work with City staff and vendors to prepare the construction site for closure and construction
- Provide support as needed relating to Contractor Mobilization, administrative tasks, Facility Rules and Regulations for Contractors, etc.
- Attend job-walks as required to familiarize contractor with the facility and job-site
- Attend staff presentations to familiarize the affected staff as to expectations
- Attend planning meetings
- Meet with vendors as needed and as directed to obtain quotes, coordination, etc. Provide support as needed

CONSTRUCTION

- Monitor quality of construction via regular job-site inspections.
- Prepare, monitor, report periodically, and revise, as needed the Project Schedule.
- Prepare, monitor, report periodically, and revise, as needed the Project Budget.
- Attend weekly construction meetings, and provide meeting minutes, distributed to all parties
- Photograph site weekly and archive photos
- Monitor all standard construction documentation, including submittals, RFI's, etc.
- Review all contractor change orders for scope and cost approval.
- Review and monitor payment of all contractor and vendor invoices.
- Attend punchwalk on behalf of Client
- Monitor punch-list progress and completion to 100%
- Assist during punchlist period for complaints, modifications, etc.
- Provide support as needed
- On-site inspection services to ensure all electrical scope of work complies with the conformed set of plans and specifications.
    - Inspection team to be knowledgeable of all electrical, instrumentation, control logical, Discrete Input/Outputs, Analog (4-20ma) Inputs/Outputs and all SCADA/RTU systems at the project site.

FIXTURIZATION

- Assist Client with de-install and removal of existing furniture, and installation of new furniture and fixtures by Client's furniture vendor
- Obtain competitive bidding for any items or services, as directed by Client
- Prepare punchlists for furniture and fixtures
- Provide support as needed
- Attend jobwalks and/or meet vendors on site as needed

POST-CONSTRUCTION

- Attend meetings and provide Meeting Minutes
- Review requests for additional scope or services; obtain pricing, and implement, if so directed
- Provide support as required

ACCOUNTING AND PROJECT CLOSE-OUT

- Obtain close-out package from General Contractor including but not limited to as-built drawings, air-balance reports, warranty, maintenance and operations manuals, etc.
- Assist with coordination of final payment to General Contractor
- Assist with completion of Lien Release process
- Provide summary documentation, spreadsheets, analysis, etc, as directed
- Archive all electronic and paper files; provide copies of key documents and photos to Client

EXECUTIVE SUMMARY

Anser Advisory (Anser) is pleased to present our proposal to provide project/construction management services for the City of Ontario (The City). Anser recognizes that the City is seeking project/construction management specialists to provide professional management services on assigned City projects, including, Architectural, Capital Improvement, Design and Construction, Facilities, Public Works, Water and Wastewater Distribution, Water Facilities, and As-Needed Project/Construction Management. Our team also acknowledges and has reviewed the City's Capital Improvement Program Budget, which largely focuses on improvements for parks, various facilities, storm drains, and street projects. As you will observe in this proposal, Anser is a local leader in performing these exact services on similar projects for public agencies and cities throughout Southern California, including The City and City of Ontario Municipal Utilities Company (OMUC).

ABOUT ANSER ADVISORY

Our mission has always been to provide cost-effective project implementation, construction phase services and staff augmentation solutions for public agencies. Our experience, coupled with a competitive rate structure, is what sets us apart from our competitors. Anser is committed to providing highly qualified project managers, construction managers, inspectors, project engineers, office engineers, labor compliance and administrative staff for a wide range of CIP and development projects. Currently, Anser has a large team of professionals with varied backgrounds and deep experience in public works. Our proposal demonstrates Anser's experience in providing construction management and inspection services on similar projects, highlights our staff's qualifications and experience, and presents our cost-effective approach to staffing projects and managing resources. Our clients have continued to choose Anser for our high level of service and quality, our experience, and commitment to the success of every project.

APPROACH OVERVIEW

Anser's management approach is derived from the success and experience of our experienced staff working directly for a California public entities, and additionally combines many years of experience working with and for several districts in California both as internal staff (owners) and as consultants. Our management style reflects similar beliefs to those of the City of Ontario: transparency, honesty, and connection to the community. We'll assure the City and all stakeholders that every dollar is tracked and that project execution creates the maximum value for the City. The City will receive principal-level involvement and commitment on this project backed by a depth of resources who are each readily available to begin work immediately. The Anser staff that will be directly interacting with have decades of relevant experience, and will readily apply this experience to expertly execute your projects.

A successful project is centered on mutual trust, open communication, and the freedom to express ideas and hold each other accountable. It must be founded on the belief that each party has valuable insight and experiences that, when combined, provide the best value and outcome for the owner. On every project, we not only promote collaboration but verify that it remains in place throughout the project duration to enable the highest level of project success for all stakeholders.

Tried and true processes coupled with good planning and communication enables us to determine the answers to the following questions early in each project:

- Program needs: What needs to be accomplished?
- Project budget: How many construction dollars are available?
- Project schedule and interdependencies: When is it required?
- Appropriate assignment: Who will execute the work?
- Deliverables required: What is the end product?

Anser will utilize the answers to these questions to employ a proactive approach which guarantees the strategies developed around these answers are implemented, while also eliminating waste and bloat to maximize efficiency in design and construction.

STAFFING RESOURCES

A. FIRM STAFFING AND KEY PERSONNEL

We have assembled a highly experienced team of experts to provide the City with Project/Construction Management Services. Our three personnel that will be principally responsible for working with the City will be: **Jonathan Smith, PE, QSD, Stephen Mutch, PE, CCM, ASSOC. DBIA, QSD,** and **Kamran Panah, PE, QSP.** Brief biographies and qualifications of these individuals are presented on the subsequent page. Additionally, we have included key personnel listed in our organizational chart that align with the services requested in the RFQ.

We have additional staff that can be placed as-needed per project. We have over 200+ technical staff available in Southern California that can be available as-needed.

B. SUBCONTRACTORS/SUBCONSULTANTS

We will be partnering with Rockwell Construction Services, LLC (RCS) to provide electrical and instrumentation components as-needed.

PRINCIPAL INDIVIDUALS

JONATHAN SMITH, PE, QSD | PRINCIPAL-IN-CHARGE

Education:
BS, Civil Engineering

Licenses/Certs:
CA Engineer#c61253
SWPPP NO.23727

Experience:
30+ years

Jonathan is a hands-on, results-oriented leader with a proven history of productivity and an ability to take complex issues and get to a consensus quickly. During his 30 plus-year career, he has worked for numerous agencies throughout Southern California in roles varying from Director of Public Works to Senior Civil Engineer. He has experience related to construction management and design, water/wastewater projects, roadways, sound walls, retaining walls , public facilities, and various other public works projects. Jonathan is a highly effective manager with an extensive amount of experience and skills.

REPRESENTATIVE EXPERIENCE:

- Buccaneer Park Restroom (PSA) - Project Manager
- College Blvd. Widening Waring - Old Grove (CIP# 20-00013) (SB-1 Funds), City of Oceanside, CA - Project Manager
- City of Menifee, CIP 21-04 Fire Station No. 5 - Principal-In-Charge
- Lindley Reservoir, City of Escondido, CA -Project Manager

STEPHEN MUTCH, PE, CCM, ASSOC. DBIA,QSD | SENIOR PROJECT MANAGER

Education:
BS, Civil Engineering

Licenses/Certs:
CMAA #2384
CA Engineer#66757
SWPPP #01240

Experience:
30+ years

Stephen has over 34 years of broad civil design and construction management experience for various types and sizes of public agency capital improvement projects and Federal facilities. His background includes environmental system design and operations, vertical building, heavy horizontal, and underground utility projects. Clients rely on his expertise in permitting, sighting of facilities, project commissioning, and coordination/oversight of design teams. With Stephen's depth of experience in leading teams, he offers another level of redundancy in the overall program management of our team.

REPRESENTATIVE EXPERIENCE:

- SGVCOG, Diamond Bar Golf Course Project, Diamond Bar, CA - Senior Construction Manager
- County of Santa Barbara Department of Public Works, Tajiguas Resource Recovery Project - Construction Manager
- City of Seal Beach, Seal Beach Pier Renovation Project, Seal Beach, CA - Senior Program Manager
- Signal Hill Police Station & Emergency Operations Center, Signal Hill, CA -Program/Construction Manager

KAMRAN PANAH, PE, QSP | SENIOR PROJECT MANAGER

Education:
PhD Eng.
MS Engineering

Licenses/Certs:
PE California#41483
SWPPP NO.21523

Experience:
35+ years

Kamran Panah is a skilled water engineer/project manager with over 35 years of experience in planning, design, project management, and construction management of various capital water projects. He has experience across both private and public sector such as with water districts, cities, and counties, each requiring special considerations with multiple stakeholders. Kamran has extensive knowledge of design of water transmission and distribution facilities, pre-construction planning, construction contracts, procurement, project execution, financial management, and project closeout.

REPRESENTATIVE EXPERIENCE:

- Golden State Water Company, Torrance, CA - Program Engineer
- Ontario Municipal Utility Company, Ontario, CA Capital Project Engineering/Management Integrated Staff Augmentation Services - Engineer/Project Manager
- Camrosa Water District, Camarillo, CA - Construction Manager

EXPERIENCE AND TECHNICAL COMPETENCE

A. EXPERIENCE

Anser has established a reputation for providing superior services on the most technically challenging projects by implementing a proactive approach to all our projects. Having worked on programs of all sizes, our staff has experience delivering multi-billion-dollar programs and many limited-scale projects concurrently. We provide specialized training to our staff and equip them with the tools they need to succeed in any short-term or long-term construction project. Regardless of project scope or size, the fundamentals associated with successful project delivery remain the same; they involve conducting proactive risk analyses, constructability reviews, and proactive cost and schedule management.

Anser will also leverage its dynamic and flexible company structure to provide the right resources at the right time to deliver on any civil engineering needs throughout the lifecycle. We have demonstrated this capability through our vast number of years managing similar projects and implementing Owner's Representative best practices throughout our client's project lifecycle, from conception to post-construction.

Experience with California Municipalities

For over 28 years, Anser has provided construction management services to hundreds of municipalities throughout California. We are familiar with the complexities of these municipalities, including permitting and regulatory compliance, environmental compliance, quality control and inspection, community engagement, stakeholder coordination, and timeline and budget management. We have built strong relationships to facilitate the progress of their projects and achieve compliance with all regulations. An abbreviated list of our current municipal clients includes:

- City of Anaheim
- City of Chino
- Coachella Valley Water District
- City of Corona
- Crescenta Valley Water District
- City of El Monte
- City of Escondido
- Eastern Municipal Water District
- Elsinore Valley Municipal Water District
- City of Gardena
- City of Huntington Beach
- Inland Empire Utilities Agency
- City of Irvine
- City of Laguna Beach
- City of Laguna Niguel
- City of Lake Forest
- City of Menifee
- City of Oceanside
- City of Murrieta
- Moulton Niguel Water District
- City of Ontario
- City of Pasadena
- City of San Diego
- City of Santa Ana
- City of Temecula

Local Experience

Anser has excellent similar professional and field-oriented qualifications, relevant local experience, and familiarity with the geographic area of Ontario. We have been providing on-call construction management and inspection services on projects for the City of Ontario's Municipal Utilities Company since 2016. As a result, we are familiar with the City's internal processes and staff. With our steady growth and expansion in the region, including surrounding public agencies, we are more than capable of managing this on-call project for the City. In fact, we are the perfect fit in size, expertise, and capabilities—we are large enough to successfully provide the right staff at the right time, yet small enough to make quick decisions and nimble adjustments which ensures the best quality service to support the City with their project. Our team is eager to deliver high-quality projects and staffing solutions to the City of Ontario.

B. PROJECT SPECIFIC EXPERIENCE

ON-CALL PROJECT MANAGEMENT AND CONSTRUCTION MANAGEMENT SERVICES

City of Long Beach, CA

RELEVANT PROJECT HIGHLIGHT: CITY OF LONG BEACH, EL DORADO PARK ARTIFICIAL TURF SOCCER FIELD

The project provided an artificial turf soccer field with an integrated high pressure cooling system, new portable goals, new protective netting behind goal, and new decorative fencing. New ADA curb ramps, pathways, and parking were also added. Landscaping and site improvements included trees, sod, irrigation, multiple retention basins, field drainage network, decorative etched boulders, sidewalks, parking lot speed bumps, and a new hydration station. The project also included adding a new City meter, backflow, and wi-fi landscape irrigation controllers. Anser was able to completed construction under budget by $1.2M, and did so on schedule and coordinated with the city to add a scope for a new water meter and backflow assembly.

RELEVANT PROJECT HIGHLIGHT: CITY OF LONG BEACH, DAVENPORT PARK PHASE II - PARK EXPANSION

This project will expand upon the existing 5.5-acre park to 11.5 acres of total park area. The project will include a natural turf sports field, lighting, outdoor seating, fitness stations, walking trails, storm water improvements, new landscaping, and a new asphalt road and parking area. This project is currently in the pre-construction phase and is part of a multiphase program to improve this site. Anser is actively providing preconstruction planning and construction management services.

B. PROJECT SPECIFIC EXPERIENCE

ON-CALL PROJECT MANAGEMENT, CONSTRUCTION MANAGEMENT, INSPECTION, AND LABOR COMPLIANCE SERVICES

City of Murrieta, CA

RELEVANT PROJECT HIGHLIGHT: CITY OF MURRIETA, TOWN SQUARE PARK PROJECT PHASES 1, 2, AND 3

Anser provided construction management, inspection, and labor compliance services on this three-phase project for the City of Murrieta. **Phase 1:** Design and build a 4-acre park, which included landscape, irrigation, lighting, restroom and an amphitheater. Additionally, designed and built the loop and entry roads, potable water well and reclaimed water connections. **Phase 2:** Designed and constructed a semi-circular backdrop and covering for the amphitheater that incorporated high quality sound and lighting for the various concerts, productions and events that take place at Town Square Park. Constructed an enclosed storage area and dressing/green room (off-stage area) for performers. **Phase 3:** Redesigned the lighting surrounding the park by allowing for individual lighting controls. Installed a sound system, security cameras, and Wi-Fi.

RELEVANT PROJECT HIGHLIGHT: CITY OF MURRIETA, MURRIETA SPORTS PARKS

Anser provided services for new synthetic turf football and soccer fields. Project features include grading, sub-drain system, landscaping, irrigation fencing, lighting, bleachers and ancillary facilities to support the park. Duties included preparing daily reports with workforce, equipment, operation description, materials incorporated into the work and photographic records of the site. Duties also included quality assurance and compliance with public works and building code requirements. Inspection included landscaping, irrigation, minor structures, water system, grading, curb and gutter, irrigation, SWPPP/NPDES inspections and documentation.

B. PROJECT SPECIFIC EXPERIENCE

ON-CALL PROJECT MANAGEMENT SERVICES

City of Ontario, CA

RELEVANT PROJECT HIGHLIGHT: CITY OF ONTARIO (OMUC), UT1046 SAN ANTONIO TRANSMISSION WATER MAIN

Anser provided construction management and inspection services for the UT1046 San Antonio Transmission Water Main project. The construction took place in the City of Upland along 8th Street, between San Antonio Avenue and South Fern Avenue. The work consisted of the installation of approximately 85 linear feet of 60-inch diameter steel casing, approximately 60 linear feet of 48-inch diameter steel casing, approximately 200 linear feet of 30-inch diameter CML&C WSP and approximately 1,290 linear feet of 36-inch diameter CML&C WSP potable water transmission main; ground improvements by permeation grouting, including subsurface investigations, installation of water appurtenances connections to existing pipelines; pipeline abandonments and removals, temporary water supply line (highline); implementation of traffic control during construction, pavement repair, grinding and overlays, and striping restoration.

RELEVANT PROJECT HIGHLIGHT: CITY OF ONTARIO (OMUC), UT1050 ONTARIO RANCH PHASE 2 WATER MAIN IMPROVEMENT PROJECT

Anser provided construction management and inspection services for the UT1050 Ontario Ranch Phase 2 Water Main Improvement Project. The construction took place in the City of Ontario along Grove Avenue between Eucalyptus Avenue and Chino Avenue and Chino Avenue between Grove Avenue and the Chino Avenue Bridge (Cucamonga Creek). The work consisted of the installation of approximately 7,900 linear feet of 30-inch diameter cement-mortar lined & coated (CML&C) Water System Planning (WSP) water main , and 8,600 linear feet of 18-inch diameter CML&C WSP water mains and a Pressure Reducing Station; installation of water appurtenances; connections at various street intersections; implementation of traffic control during construction, temporary paving, pavement repair and street restoration.

ADDITIONAL PROJECTS UNDER THIS CONTRACT

- Water Main Replacement Phase 1, UT 1027
- Well House Roof Replacement Project, UT 1036
- Recycled Water Improvements for Riverside Drive
- UT1016 Archibald Sewershed
- UT1018 North Vineyard Sewer
- UT1060 Water Replacement

a. Role of the firm
Project Management, Construction Management, and Inspection Services

b. Dollar value of the services
$6M -Services

c. Dollar value of the fee
$500K- Fees

d. Description of services
Varied by project, see specific examples below.

e. Staffing
Pedram Abbassi, Bryan Tuschhoff, Barry Safa, Kamran Panah, Michelle Rios, Rachael Highley

f. Duration of providing services 2
016-Ongoing

g. Relationship to client
Long Term consultant to the City of Ontario

h. Contact
see reference chart on pg. 5 for contact information

(ii) a-g.
None of the items in section (ii) a-g has occured

B. PROJECT SPECIFIC EXPERIENCE

ADDITIONAL RELEVANT PROJECTS

CITY OF SIGNAL HILL, SIGNAL HILL LIBRARY | $16.7M | COMPLETED 2020

Anser provided program and construction management services for the design of a new Leadership in Energy and Environmental Design (LEED) certified Library in the City of Signal Hill, California. The Library was planned as a 14,900 square foot, two-story structure. The facilities are located on the ground floor and include a kids' reading area, with a cave-door for an entry and a colorful landscape mural incorporating elements from prehistoric times and the history of Signal Hill. It's framed by "Daisy," a giant apatosaurus-like dinosaur whose name was chosen in a community contest, a learning lab for individual and team study; a first-floor courtyard; a top-floor terrace, which can be reserved for events, that offers a stunning hilltop view of the region; a room devoted to history with rotating cultural and historical exhibits; and a "Teen Village" aimed at young people. The second story is occupied by Signal Hill's Community Services Department. Given the existing ground slope at the site, the second story of the structure is level with the first floor of City Hall, improving direct pedestrian access into the Community Services Department. The library boasts sustainable energy, with electric-charging stations and California native landscape.

CITY OF LONG BEACH, SCHERER PARK COMMUNITY CENTER RENOVATION | $1.5M | 2022-CURRENT

The project provides full interior and exterior renovations to the existing community center and public restrooms, public breezeway, new ADA parking, and hardcape improvements. This project Is currently nearing the award phase and will require multi-level coordination to minimize the impact to the public's use of this site. The City actively holds after school tutoring sessions and will also hold summer community programming making it important to properly coordinate the exterior lead abatement while keeping adjacent playgrounds and basketball courts open and partial public use of the building.

Anser has been providing constructability reviews, cost estimating, scope phasing plans, proposal reviews, and recommendations to scope to minimize community programming interruptions. Our team will continue to provide construction management services throughout all phases of this project. JOC project delivery.

CITY OF LORAIN, WATER MAIN REPLACEMENT | $2M | COMPLETED 2023

Anser was retained by The City of Lorain for preconstruction Services—including constructability and schedule reviews, and the subsequent Construction Management and Inspection Services on the Water Main Replacement Year 1 Project for the City of Lorain. This project replaced ~6,000 linear feet (LF) of 8-inch and 12-inch watermain. In addition to the new watermain, 44 new water line valves, 12 new fire hydrants, and the reconnection of approximately 80 water services to residential customers was also performed.

This project was the inaugural year of an annual water main replacement project to replace a selection of small diameter water mains throughout different parts of the City having experienced either an increased break rate, low pressure issues, or poor services conditions. With consideration to setting precedent, site restoration was of high importance. Work included asphalt and concrete pavement replacement, concrete sidewalks, and landscape repairs. Extensive coordination and public outreach was required on this project due to the amount of service connections and resident involvement.

COUNTY OF RIVERSIDE TRANSPORTATION DEPARTMENT, SLURRY SEAL PROJECTS FOR FY'S 18/19, 19/20, 20/21, AND 22/23 | $5M | COMPLETED 2023

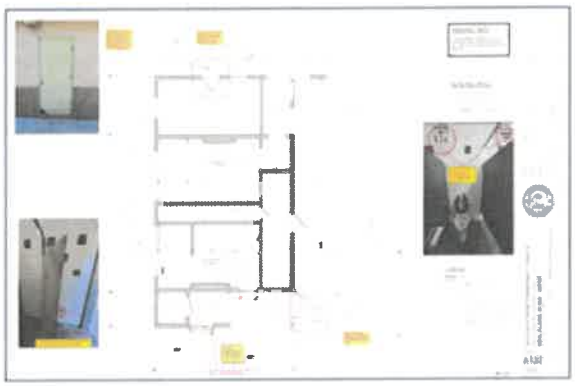
Anser has provided inspection services on various road improvement projects in Riverside County since 2018. Roadway improvements include Slurry Seal Type I, II, III with Polymer Modified CQS-1h asphalt emulsion, Microsurfacing Type II, PCC minor concrete removal/grading/form/pour/finish/strip, traffic control, shoring, and backfill of pressurized gas lines. Projects consisted of over 100 miles of roadway and over 30,000 tons of slurry.

C. TECHNICAL COMPETENCE

Managing and Executing an On-Call Contract

The Anser team is ready whenever you need us. With our extensive experience managing resources for various agency on-call contracts, we recognize that services of this nature may range from full-time to intermittent support. Additionally, we understand that the nature of the request may be on short notice. The Anser team has a deep bench of qualified professionals that are ready to provide the City with resources for any project, no matter the size, and within a moment's notice. Anser is prepared to deliver highly trained and energetic engineers and inspectors to complete the City projects on time, within budget, and of the highest quality.

When Anser is called on by the City to assemble a project team, we will present both its approach to successfully complete the project along with the resumes of multiple staff capable of executing the project. We will present only resumes of qualified candidates for the specific needs of the project. When assembling a team, our proposed Principals, will internally interview multiple candidates and select the best and most qualified for the proposed project.



In-House Resources

Approach to Civil Integrated Management

Anser effectively leverages tools available today, including bringing our projects successfully into the future by implementing Civil Integrated Management (CIM). CIM is the technology-enabled collection, organization, managed accessibility, and the use of accurate data and information throughout the lifecycle of a project. Our aspirations are to make incremental improvements to functions in workflow and enable full digital workflows from project inception to project delivery. Our team is encouraged to always find cost and time savings on all projects and CIM is proving to be a true value add to our clients that brings those benefits. We have and continue to work with different technologies that best fit our projects and have identified BlueBeam, Virtual Project Office (VPO), OpenSpace, and C-MIS project management software technology to be two tools that we believe can bring value to the City's projects.

BlueBeam

Anser utilizes Bluebeam Revu software for its constructability review comments on the project plans and specifications. Anser will mark up a set of plans on the PDF editor, as shown in the example drawing. There are two benefits with this software which can improve efficiency and reduce review times between the project team.

BLUEBEAM BENEFITS

- Cloud-based server lets multiple team members to comment directly on the PDF. Allowing simultaneous reviews.
- Once all the comments are compiled on the marked-up PDF set, the software can export a review sheet that identifies the page number, comment, and, most importantly, a picture of the discussed item, eliminating an Excel spreadsheet log.

Virtual Project Office

Anser has leveraged a Microsoft SharePoint-based Project Management Information System (PMIS) called Virtual Project Office (VPO) which can be deployed to facilitate project tracking, administration, and management reporting. The VPO is a secure, easy-to-use, web-based workspace that all project stakeholders (City and Anser staff, general contractor, etc.) can use to streamline and automate processes and accelerate productivity and storage of all design and construction documents by leveraging leading cloud-based solutions.

OpenSpace

Anser can provide 360-degree image captures via OpenSpace. These 360-degree images are stitched to create a virtual walk (think google maps for the project). The pictures are geotagged allowing users to locate exact locations on the plans via the site plan and provide split-screen images of current-day activities and any other past-day activities in the same exact area. This tool has been proven invaluable in pre-construction services, in claims avoidance or dispute resolution, and serving as a historical record, which provides information for as-built designs in the future, if needed. Anser successfully utilized this for multiple clients such as RCTD's Avenue 66 Grade Separation Project and I-215 Scott Road Interchange Project. An example of the before/after comparison of our Scott Road Interchange Project is shown to the right.

PROPOSED METHOD TO ACCOMPLISH THE WORK

A successful project is achieved by fostering good relationships between project team members, including City staff, the design firm, and the Contractor. As the Owner's Representative, we will help establish good relationships with all team members, creating efficient chains of communication and treating all parties fairly and with respect. Our goal is for all parties to work cohesively as one project team to make sure that the project is constructed to the required quality, economic, and safety standards. Before we can accomplish these goals, we must first understand the viewpoints of not only the City but also, just as important, perspectives of the design firm. This allows us to analyze critical situations from all views and work with the project team to develop the best solutions throughout the project lifecycle, from design to commissioning and close-out.

The Anser team is a proponent of *partnering*, a project approach structured to allow the design and construction process to be performed within an environment of mutual trust, commitment to shared goals, and open communication among the client, design firm, and Contractor. Those who agree to work under a partnering approach, work to create an atmosphere in which all parties are working in harmony toward mutual goals to avoid claims and mitigation. Close communication and establishing mutually agreeable goals at the beginning of the project can achieve great results while reducing the need for claims and litigation lawyers. The objective is a *win-win* attitude between all parties due to the design and construction process.

PROJECT MANAGEMENT KICK-OFF

Upon contract award, our project manager will lead a series of kick-off meetings with the City and the design firm. The kick-off meetings will provide an opportunity to align on the project scope, communication protocols, project risk, safety, security, and schedule. They will also be a pivotal opportunity to level-set the roles and responsibilities between the City, Anser, and the design firm. A successful project is centered around four key principles: collaboration, cooperation, communication, and chemistry. A clear understanding of all team's primary responsibilities and interrelationships is critical and must be identified early.

Anser can assist in developing a Responsibility Assignment (RACI) Chart (below). We can use our RACI Chart to track stakeholder commitments and obligations as contained in all applicable agreements by using team member responsibilities and functional relationship skills to set forth the project objectives and team control mechanisms.

ROLE R A C I	Task 1		Task 2

DESIGN AND CONSTRUCTION DOCUMENTS

Design Phase

Anser has in-depth experience in guiding and supporting clients through initial phases of the project i.e., scope identification, preliminary estimates and schedules. The scope definition project will be the north star in defining project goals and milestones.

With our expertise in design management, our team has been successfully able to assist many cities to create multi-million-dollar scoped projects. After determining scope of projects, we will be able to guide the client and the design team through an initial intake meeting to eliminate any concerns that might arise down the road.

We will verify that the construction documents meet the standards and guidelines by conducting reviews of drawings and specs. This process will verify that construction documents have gone through the quality assurance and quality check prior to submittal. Our goal is always to identify any issues and hurdles prior to construction to alleviate major cost impacts down the road.

Once the project's construction documents have been reviewed, we will assist in review of shop drawings and product submittals to align with compliance with is within standards and guidelines.

We will be teaming up with the individuals at **Rockwell Construction Services, LLC (RCS)** who have played a key role in the Construction, Start-up, Commissioning and Close-out on several hundred projects over the 45 plus years that they have been involved in the Water /

Wastewater industry. RCS' involvement with the industry was originally as an Electrical contractor (Rockwell Electric, Inc.). Over the past eighteen years they have been providing Electrical, Instrumentation/ Control, and SCADA construction management services as a consultant. During this time, RCS has provided services on several projects where they were contracted to Anser. These projects have ranged in size from smaller projects such as Pressure Reducing Stations to larger projects such as the construction of new Pump Stations.

Review of Plans and Specifications

RCS personnel have been involved with building several hundred projects over the course of our careers. When reviewing plans and specifications we look at them through the eyes of the contractor. We ask ourselves, is it buildable? Are the plans technically accurate and do they follow the NEC and building code requirements? Might there be another way to build it that may have advantages in both cost and operations. Are there areas where the contractor could have a good case for a change order? Have we experienced issues in the past with similar designs or equipment? Typically, our customers find that by engaging our services early in the design phase we can help provide a solid design that benefits them not only monetarily but functionally as well.

Investigation and Assessment of Elecrtrical, Instrumentation and Control Systems

RCS has provided treatment plant assessments for several entities over the years. Again, they rely on their experience and industry standards to assess installations and systems to provide a qualified evaluation. As Journeyman Electricians, their teamcan access electrical and instrumentation components in an educated and safe manner to support investigations.

Assistance with Project Planning

Anser has gained experience by building projects for many years provides us with a strong background with which to help with project planning. Whether it be aiding with a construction sequence in the specifications, or the review of a construction schedule provided by the contractor, our background allows us to evaluate the plan using our real-world experience

Constructability/Biddability Reviews

Anser's team stands ready to review the Construction Documents at key milestone dates to confirm that all major features of the design are progressing in accordance with Value Engineering decisions made. Periodic Design Reviews verify the technical accuracy of design and progress cost estimates and prepare comments for clarifications by the A&E and corrective actions. The Anser team is a firm believer in the ongoing review of the project documents during this phase. These reviews provide a structured format to evaluate the project plans technical specifications, contract documents, and bid schedules which are all critical in supporting construction and getting competitive bids. The Construction Documents need to be coordinated so that the construction contractor has a complete understanding of the requirements of the project. This effort will lead to more accurate bids, reduce project impacts, and ultimately save time and money during the construction phase.

A Constructability Workshop can also be organized by the construction manager with the A&E firm or Design-build Designer of Record to expedite the verification that the design is biddable, buildable, and in compliance with the City's requirements This workshop will also serve to identify any discrepancies between drawings, which can help minimize future change orders. In support of bid document preparation, Anser will perform a final verification that all design and constructability/ biddability review comments have been addressed and incorporated.

The Anser team stands ready to utilize a variety of web-based Project Management Platforms that might be at the disposal of the City. If no specific platform is required, Anser will deploy Bluebeam RevuTM. It has industry-tested features that well manage design and constructability reviews, comments, and communications.

Capabilities

We can place the drawings in a cloud-based server where multiple team members can comment directly on the PDF. This will allow simultaneous reviews rather than back-and- forth commenting between the team.

Once all the comments are compiled on the marked-up PDF set, the software can export a review sheet that identifies the page number, comment, and, most importantly, a picture of the discussed item.

This report supplements or replaces the Microsoft (MS) Excel spreadsheet typically issued as the tracking log for the constructability comments. When reviewing comments, there is no need for a separate set of plans and an MS Excel sheet. This report will combine both and make for more efficient, productive meetings with the team. Additional sketches and drawing details containing recommendations for package improvements will be provided to supplement the comment log to verify clarity. The comment/response log will be supplemented with full-size sheet plans with markups for each project.

ARCHITECTURAL/CONTRACTOR PRE-QUALIFICATION, BIDDING, AND SELECTION

Bidding Phase Support

Anser has managed public contracting processes and requirements for a variety of public agencies in California and nationwide. The Anser team has extensive knowledge of the requirements and regulations of public contracting codes. In fact, Anser has an in-house team of contract specialists who review all contracts prior to recommendation and implementation.

We are aware of the various project delivery methods such as Design-Bid-Build, Design-Build and we have extensive experience in developing best value (design-bid-build) and both traditional and progressive Design-Build methods. We can help support the City in exploring various options within these two procurement methods which will lead to better management of the projects from design to completion. Various projects based on size, type and complexity will align with different and various options of the delivery methods and Anser has the knowledge and experience in successfully delivering the projects to these clients.

Services for Procurement:

- Meet with the City's Program Manager / Contracts Department to discuss the type of procurement method to be used. Anser has experience using the traditional Low Bid, Design Build, Lease-Lease back, Job Order Contracting (JOC), Best Value Bid, A/B letters, etc. Based on the type and size of project, Anser will make a recommendation of procurement to the Program Manager.
- Conduct outreach and develop a list of qualified contractors including key critical sub-contractors such as concrete, steel, framing, mechanical, electrical, low voltage, and plumbing trades.
- Prepare and assist in preparation of the Request for Proposal (RFP) in the case of Lease-Lease Back or Design Build procurement Projects.
- Prepare bid documents and coordinate with the Business/ Contracts department to advertise the project.
- Conduct job site meetings with the potential bidders. Inform the potential bidder of special conditions (if any) such as phasing, working hours, PSA requirements, relocation of property and materials, interim housing, local ordinances, certified payroll requirements
- Track and monitor the status of the Request for Information/ Clarifications (RFI/C) from potential bidders; review and coordinate with A/E and program managers to prepare response. Issue Addendum as necessary during the Bid process.
- Support and assist in evaluation of the bids and to validate the accuracy of the bids.
- Conduct post-bid interviews as necessary to validate bids.
- Support and assist in issuing Notice of Award (NOA) and Notice to Proceed (NTP) to the successful bidder.
- Coordinate with the Project Inspector (PI) to set up the testing lab and any other special inspection services

PRE-CONSTRUCTION

Pre-Construction Conference

Anser will coordinate and conduct the pre-construction conference with the City, contractor, and all applicable partners to discuss the project. During this meeting, we will review the proposed baseline schedule with the contractor, establish an understanding of the sequencing of work, and develop a plan to minimize resubmissions of the baseline schedule. We will also identify opportunities to reduce the overall schedule and reduce the risk of schedule delays. It is imperative to the project's success for the parties to agree upon a reasonable baseline schedule; this is the basis of regularly evaluating progress and apportioning responsibility for any delays.

The pre-construction conference agenda and minutes will include:

- Overview of project
- Introduction of key personnel and discussion of key roles and past project experience
- Responsibilities of the City
- Safety responsibilities of the contractor
- Confirmation of fully executed contract documents and NTP
- Discussion of master schedule
- Establishment of contract time and completion date
- Review of working day definition and holiday schedule
- Identification of overall project goals
- Establishment of chain of communication and key contacts
- Overview of public relations
- Discussion and definition of scope, critical design elements, schedule and cost factors
- Identification of potential issues and critical items and jurisdictional agencies
- Review of sub-contracts
- Integration of utility coordination activities into schedule
- Discussion of documentation and tracking controls
- Establishment of progress payment and change order procedures, scope, schedule and cost change administration, notification requirements, controls, submittal, and RFI processes
- Identification of long lead and/or any potential substitution or equivalent items as well as required testing
- Review of call-out requirements and deputy/ special and testing requirements
- Review of survey for consistency with the design
- Establishment of procedures for labor compliance monitoring and reporting
- Establishment of understanding of right-of-way, easements, and special access considerations, traffic control, placement of signs, etc.
- Discussion of action item assignments and procedures

Anser considers the pre-construction meeting to be our first progress meeting. All items discussed are designated as *open* or *closed*. All open items are carried forward to subsequent progress meetings until resolved and closed. Action items are assigned to a specific responsible party and with a deadline for resolution. The pre-construction meeting and site meeting minutes will be distributed via email to meeting participants and to courtesy recipients identified by the City.

Value Engineering

Provide Innovative, Best Value, and Compliance-Based Design Support

A value engineering workshop can be organized by the construction manager with the A&E firm or contractor to brainstorm and investigate cost-effective design responses that provide for technical and process innovation while providing the optimal value for the project. This can be an important step in guiding the design team toward a solution that is in the best interest of city and their project partners.

Permitting

Coordinate Permits from Regulatory Agencies

Our experience with permitting projects will allow our staff to closely monitor the progress of the design through permitting. Applicable permits with local and state agencies are carefully determined and monitored. Coordination during design with the various agencies in the permitting is critical to make sure that we take advantage of every opportunity. Hence, you get the project out to bid as soon as possible and keep the various permitting phases from slowing down the pre-construction, and construction phases.

CONSTRUCTION

Progress Meetings & Reporting

Regular periodic progress meetings will be established with City staff, design team/Designer of Record, the contractor, and applicable partners at intervals commensurate to the project demands-usually every week or every two weeks. All participants are invited to attend in person or via remote. Meeting minutes are distributed to all team members.

Special meetings may be required to address significant events or findings during construction that warrant special attention or pose potential problems or hazards to the completion of the project, particularly those which may result in substantial change orders or claims. Special issues will be discussed as they arise and addressed during the regularly weekly construction progress meetings. We will promptly investigate each issue and recommend a possible resolution.

When and if a particular matter is in dispute, early identification and settlement of the conflicting problems will be sought by conferring with the design firm and contractor. If necessary, resolution meetings will be scheduled. Detailed documentation will be maintained. Each special issue will be flagged, carefully tracked, and logged. Periodic summaries of special issues, including each disposition, will be generated, and used for discussion with the City and during the progress meetings.

Anser's Construction manager will prepare a monthly report covering :

- Summarized report of construction activities including significant events and accomplished goals
- Identification and discussion of current issues, and actions taken
- Construction observation reports
- Description of progress with photos
- Description of equipment used in construction
- Comparison of baseline vs. actual schedule and recovery efforts
- The latest detailed four-week look ahead schedule submitted by the contractor and reviewed by the construction manager
- Weather/rain days, delays and time extensions
- Pending Change Orders
- Comparison of planned vs. actual budget expenditures
- Report of progress payments made to date and invoices in process
- Safety compliance and labor compliance reports for contractor and subcontractor employees (as required)
- QA/QC addressing testing and regulatory compliance issues

Submittal Tracking & Reviews

The construction manager will process all correspondence and submittals on this project with assistance from our project administrator. The construction manager will maintain the current submittals for verification that work in the field is following the approved submittals. All shop drawings, samples and other submittals received from the contractor will be logged in and evaluated to see if we can review them or if additional reviewers are needed. If it is determined that Anser staff would not review the submittal, we will quickly discuss the item with the City Project Manager to assure that we agree.

Prior to starting the work, we will go through the submittal list and work out any issues with the content prior to the start of work. If we do need the submittal reviewed by the designer or another party, it will be logged in and routed to the reviewer with a desired response. Responses will be logged in and transmitted to the contractor. Submittals will be tracked throughout the project to enable timely response to avoid contractor claims for delay. All submittals will be expedited utilizing electronic delivery whenever possible (except for shop drawings, large format documents, etc.). Additionally, Anser will recommend key contractual requirements for the contractor to clearly indicate submittal processing requirements in the project schedule. Submittal comments will be monitored to identify potential impacts on quality, cost, or schedule, with recommended alternatives and/or solutions.

RFIs

Upon receipt, the construction manager will log, distribute and respond to each Request for Information (RFI) as required. It is anticipated that most will be handled upon receipt. However, if the design engineer or the City staff is required to answer questions, the construction manager will coordinate a timely resolution. This may involve preparing clarifying correspondence, illustrations, or documents. Anser will identify potential impacts to cost or time that may result due to issues identified in RFIs, with recommended alternatives or solutions to mitigate the potential impacts.

The contractor will submit any RFIs to the Anser team for review and response. RFIs requiring the approval of the City, or the A&E firm will be forwarded for review and response. Anser will maintain an RFI log for the project's duration to verify that contractual response times are being met.

Progress Payments

A cost control system based on the contractor's schedule of values, (or Bid Items) approved change orders and the contract amount will be developed and implemented to monitor progress costs. Upon submittal of the contractor's monthly invoice, the Anser construction manager will review the payment applications submitted by the contractor, check and or verify quantities using measurement of items and verification of the quantities computed and noted in their signed daily reports. The construction manager's daily reports and measurements will determine whether the amount requested reflects the progress of the contractor's work. Anser will resolve discrepancies with the contractor. Appropriate adjustments to each payment application will be required by the contractor. When the payment application has been checked, it will be presented to the City for processing.

Construction Inspections

Anser has a depth of resources available to provide inspection for every type of project and stand ready to fill assignments as they arise. We utilize a project 14-week look-ahead schedule to track staff availability with project assignments. A systematic monitoring and compliance process to enable resolution of all non-conforming work items

Anser will review and monitor the contractor's Quality Control Plan, in conformance with the City's Quality Assurance Manual or as developed by Anser and the City for the specific needs of the project. We will perform and/or coordinate QA/QC activities daily and review activities as they happen to verify that QA/QC procedures are followed, and deficiencies are monitored and resolved in a timely and efficient manner. The construction manager will maintain a chronological log of all records.

Contract Conformance

Anser will walk the site during the normal working hours (and when critical activities warrant it) to verify construction progress and to verify that all work conforms to contract requirements. Our construction manager will note work that does not conform to the requirements of the contract documents and will promptly report unacceptable work to the City and contractor. Rejected work will be thoroughly documented, photographed, and tracked until repaired or replaced to the satisfaction of the City.

Anser believes punch list items should begin well before the completion of a project. Following this logic, a punch list of required completion items will be maintained and electronically shared with the contractor throughout the project duration. Completing these items as the project progresses minimizes added punch list items during final job walks with the City and applicable project stakeholders. In addition, this open communication helps minimize disputes on the contractor's behalf at the project end, ensuring a quick project closeout.

Photographs

Anser will prepare and maintain an electronic photo journal documenting the construction progress as well as all key milestones and events on each project. Photos will be taken of each job site before construction begins, during construction and upon completion of the project. Each project can also be filmed or videoed in addition to photography to enable full capture of all project details.

Daily Extra Work Reports

Our construction manager will oversee the assigned construction inspector in verifying and signing the contractor's daily extra work reports documenting force account (time and materials) work on a daily basis. Anser will make sure that only appropriate worker classifications necessary for approved time and materials work are included on extra work reports. Any inappropriate workforce and/or equipment charges will be promptly rejected and removed from extra work reports.

Jobsite Safety

Safety is Anser's number one priority. This includes the safety of the traveling public, the contractor, and our team. We adopt a zero-tolerance culture for preventable accidents to verify that every team member and public drivers goes home at the end of the day. Every member of our construction team has an obligation to never walk by an unsafe act. We will require the contractor to submit an Injury and Illness Protection Plan (IIPP) for all their operations for the project and make sure the contractor is held accountable for enforcing their plan. If we see something that goes against the contractor's plan, we will shut down the operation and call a meeting to make sure safety is the number one goal of the project. We also utilize safety checklists to align with all safety protocols are being adhered to and if something is found out of compliance, contact the contractor to make an immediate correction.

Materials Testing and Observations

The Inspector will monitor testing services, track documentation, and record testing results in weekly construction progress meetings. When necessary, corrective measures will be implemented and re-inspected to verify acceptable completion.

Stormwater Inspections/ Stormwater Pollution Prevention Plan (SWPPP) & Erosion Control Monitoring

Anser construction managers will enforce the approved SWPPP to be distributed to the contractor and City staff, check that the project is loaded on the state database and that the project complies with the approved Water Quality Management Plan (WQMP). Anser will verify to comply with all provisions of the Plan and/or other requirements set forth in the specifications. Anser staff is well versed in National Pollutant Discharge Elimination System (NPDES) monitoring through the provision of dedicated services for oversight of developers and contractors on behalf of several public agencies. In addition, our Qualified Stormwater Practitioners/Developers (QSP/QSD) staff can prepare and execute the necessary weekly reports as well as mandated pre, during and post-storm reporting if requested.

Construction Management & Project Controls

Implementation of a hands-on and forward-looking approach to problem-solving and issue resolution

Anser will monitor closely the work of the contractor. The contractor will be required to submit a four-week look ahead of schedule at the weekly meetings. This is a very effective tool in helping to coordinate the construction operation, particularly in relation to any interface operations with the City's activities. Anser will assist the City to minimize disruption to both City and construction operations. Our staff will communicate openly with the project team and continually keep project partners fully apprised and heading in the same direction.

The Anser proactive approach serves to anticipate and expeditiously resolve field problems. Our team is well trained in problem solving. These issues could be between any of the project team/partner members. All issues will be evaluated and processed with a sense of urgency and presented to the City with suggested alternatives, cost and schedule impacts and recommended solutions. The Anser staff will quickly implement the alternative which suits the best interests of the project and the City. Anser will effectively and quickly communicate with City staff, design consultants and the contractor to identify conflicts construction problems, coordination issues, and will obtain the needed action and response to submittals and RFI's. Cost can be a major factor so issues will be evaluated for cost as well as time considerations during the evaluation process.

Prevention/Mitigation

Anser practices a style of construction management – called active risk mitigation management – that emphasizes implementing best practices, recognizing change, actively managing risk mitigation (i.e., averting claims), and maintaining comprehensive progress documentation. Anser has a proven track record of proactively helping public agencies mitigate and resolve disputes during the construction period. Anser strongly advocates the use of the project critical path method (CPM) schedule as the primary tool for collaborative planning and coordination with the general contractor, documenting and reporting progress, scenario-testing, decision-making, and measuring delays.

The Anser team believes it is imperative to the success of any construction project for the parties to eventually agree upon a reasonable baseline schedule, even if it takes several revisions of the original schedule to reach a consensus. Establishing a reasonable and logical baseline schedule provides a basis to evaluate progress and regularly apportion responsibility for any delays.

While our proposed construction managers are well-versed in the practical application of time management techniques during construction, one of Anser's main advantages is that we have a dedicated scheduling division. Anser's project control professionals are dedicated construction practitioners first and foremost. Because many of our practitioners bring experience from the general contracting industry, we are familiar with general-contractor-means-and-methods, bid item structuring of contract pricing, bottom-up estimating from quantity take-offs, field quantity measurement techniques, as well as the intricacies of CPM calculations using Primavera P6.

Throughout the project, the construction manager, with assistance from our scheduling experts, will review, analyze, and comment on the contractor's weekly and monthly updates submitted. Anser will closely monitor the contractor's activities and verify that the field activities and the duration of those activities match the information presented in the construction schedule. Any deviations should be incorporated into the contractor's subsequent monthly update. This includes the cause of the delay, the duration of the delay, the corrective action planned by the contractor, and the budget and schedule impacts on the City. The Anser team is very familiar with preparing and reviewing Time Impact Fragnets and Analysis.

Schedule Control

Anser is very familiar with the leading scheduling software used by the public works contracting industry including, but not limited to, Primavera P6®, Suretrak® and Microsoft Project®. The construction manager will review the baseline construction schedule, including

activity sequences and duration, schedule of submittals and schedule of delivery for products with long lead-times. The schedule will not be approved as the baseline until all discrepancies are resolved.

The construction manager will also evaluate the baseline project schedule for the following:

- Consistency with the contract schedule (completion within the contract time)
- Accurate start dates, completion dates, other dates detailed in the contract
- Any impacts of weather and change orders
- Sufficient detail - including submittal process and procurement requirements
- Sequence of construction and correct schedule logic
- Identification of the critical path and project float
- Cost spread allocation

As construction progresses, we will compare the contractor's monthly schedule updates to the baseline schedule and any approved time extensions, note any shortcomings, and monitor and track corrections by the contractor to keep the project schedule on track. The four-week "look-ahead" schedule will be updated and presented at the construction progress meetings. This tool will keep the entire team looking one month ahead of the project and will facilitate proactive handling of project activities and issues. If necessary, Anser will negotiate time extensions due to change orders or other delays.

Cost Control

Anser will establish a cost control system for monitoring and updating the status of the project costs and budget throughout the project. The cost control system shall be automated and shall integrate cost and schedule. Monthly reports will be issued to detail the status of the project cost and budget. Anser will coordinate with the City on any actual cost and budget variances.

Change Orders

Negotiate, Prepare, and Administer Change Orders

Change is inevitable. In the construction industry, however, changes can cause costly delays and challenge the team from fulfilling contractual obligations. At Anser, we understand that changes in the requirements of a project, the availability of resources and other unforeseen conditions can create real problems for your construction project. The combination of our, project managers for design and construction, and the Cost Estimating Group has the proven experience and the expertise you need to help you navigate these issues and to provide you with the change order analysis you need to determine whether the changes have merit and are fair and reasonable so that costs are kept under control.

Anser will establish, implement, and coordinate systems for processing all contract change orders. Each issue which is identified as a potential change to the design, scope, cost or contract time will generate a change notice. The construction manager will determine whether a change notice should be considered. The plans and specifications will be reviewed against the change notice. If the issue does not appear to be included in the plans or specifications, a Request for Quotation (RFQ) will be sent to the contractor. Any credits for work deleted because of the change will be required then as well. The contractor's response to the RFQ will be evaluated for reasonableness and completeness.

The construction manager will maintain an Issue Log, listing potential changes as identified, either formally or informally. This Issue Log will be used such that potential change items are not overlooked or deferred until the end of the job. Anser will prepare independent cost estimates as required for contract change orders. Upon approval by the City, the Inspector will prepare, log and process change orders for full execution, and administer their implementation. Once fully executed, the construction manager team will review the timely completion of the work and coordinate inclusion of the change order in the appropriate payment application.

Changes often originate from the consultant or contractor for unexpected project impacts. We assist our clients in resolving all change orders, regardless of the reason, so that the client is aware of the fairness and reasonableness of any change order requests for the program and can receive their approval. The Anser team can guide you on the legitimacy/merit of the change order and if the cost is fair and reasonable. We provide you with the most effective strategies to address cost issues and to make sure schedule impacts include a recovery plan. Our change order evaluation team can assist you in identifying the most appropriate solutions and the best way to approach potential change- related issues. Based on our recommendations, the City will direct changes to add, remove, or alter a portion of the contract (A&E or Construction Contract).

We take pride in helping our clients receive fair and reasonable change order pricing while achieving greater project productivity in a competitive marketplace. Our goal is always to add value to the program's bottom line. Suppose you need help in figuring out change orders and ensuring the most cost-effective solutions for these unexpected situations. In that case, we have the experience and can help with the best options in the industry. Leveraging in-house dispute resolution and claims management specialists, the Anser team enables the best possible outcomes

Claims & Disputes

The Anser team provides two key differentiators that deliver value to our clients: First, our team is dedicated to *Project First* thinking. This means we consistently observe the project's best interests in every action. Second, we practice a style of contract administration that emphasizes the implementation of best practices, recognizing change, mitigating risk (i.e., averting claims), and maintaining comprehensive progress documentation.

The Anser construction manager will work to resolve all project issues as they occur. Sometimes contractors will decide not to resolve an issue and bring it forward as a claim. Should an identified issue not be resolved, Anser will immediately begin tracking any contractor costs, labor and equipment related to this issue. Anser would also be available to support any litigation though our records and personal knowledge of the claim. The best defense in these cases is to provide quantifiable documentation of anything associated with the issue so that any resolution could be substantiated.

Anser's goal is to resolve disputes at the field level as much as possible by facilitating an understanding of the contractual obligations and providing creative opportunities to achieve win-win outcomes. If appropriate, we will work with the contractor to come to a fair and reasonable settlement of the issues, which are acceptable to all parties. Anser believes in and practices proactive communication and proactive management, which promotes collaboration on the job, and we will make every attempt to resolve issues before they become disputes. We will vigorously defend the interests of the City and explicitly enforce the contract documents. Our team employs claims experts with a proven track record with public agencies on projects of all sizes. The Anser team brings valuable "lessons learned" and as-needed advice on resolving and mitigating potential contractor claims.

Document Control and Record-Keeping

Upon initiation of each work assignment, the Anser team will establish with the City appropriate systems for document storage as well as intervals for purging of construction documents following the conclusion of work. All documentation is typically stored digitally for a minimum of ten years following the conclusion of construction, at which time it is later archived through digital means.

Our project controls philosophy is based on the belief that comprehensive documentation of all aspects of the project will maintain the accountability of all partners. Anser staff know that comprehensive documentation on each project is the best technique available for avoiding and defending against change orders and claims, and managing project time, cost, and quality.

Anser's VPO can be used to streamline and automate processes and accelerate productivity and storage of all design and construction documents by leveraging leading cloud-based solutions from the Microsoft Office 365 Suite.

Complete and current project files will be kept at the job site, or at a location agreeable to the City, and these will always be available to the City. Electronic copies of files will be accessible to the City on our cloud storage site. These files will consist of the contract, correspondence relating to or modifying the contract, proposal requests, clarifications, permits, logs, reports, RFIs, field orders, change orders, claims information, daily inspection reports, quantity calculations, test reports, etc. The Anser team will prepare a detailed file indexing system for all project hard files, and we would offer an industry-standard system for contract administration for logging and tracking of critical issues, change management, RFIs, submittals, digital data and scanned documents. Anser can use City standard or customized forms. We will adapt our system to the specific needs of the project to monitor, track and control the project. This detailed tracking system will enable us to provide an accurate assessment of the progress of the City with recommendations to maintain or improve adherence to the approved project schedule.

FURNITURE, FIXTURES, & EQUIPMENT (FF&E)

Coordination with City Staff for Move-Ins and Relocation of Essential Furniture and Equipment

Our construction managers will work closely with the City staff during this process. Our team monitors the schedule for timely completion of moves to make sure that each move completed within time and under budget.

Our team will be focused on:

- The determination of site placement for relocatable buildings; and coordination of activities of Maintenance and Operations Branch personnel, architects, building manufacturers, and contractors.
- The coordination of the effort in the design and installation of portable buildings, relocation of existing rooms/offices/facilities to other areas, or the alteration of facilities.
- The move through established procedures, maintain databases for tracking furniture and equipment procurement, relocations, purchase orders, and financial closeouts supporting the City.
- The timely delivery of FF&E and any other purchase orders required to successfully complete the move.

POST-CONSTRUCTION

Our goal for the Project Closeout phase is to provide the City with a complete, value-added, set of documents and tools to manage your projects well into the future. We will make sure the quality of the final output is aligned with the project requirements and your vision. We will perform project closeout in compliance with the Construction Contract Documents.

Preliminary and Final Punch Lists

We will conduct inspections of the Project site to determine dates of substantial completion. We will continuously coordinate with all project stakeholders, so we have preliminary and final punch list walks documented that comply with the Construction Contract Documents. Throughout the project, we will communicate efficiently with the Design Consultant so that we have the preliminary and final punch lists prepared and delivered to the contractor. As the construction manager, it is our responsibility to communicate with both the designer and the contractor. We will monitor and verify that the contractor addresses all punch list items in compliance with Construction Contract Documents and Design Consultant's comments and recommendations.

Finally, we will review written guarantees and related documents assembled by contractor and shall recommend to Project Manager the issuance of the final certificate for payment.

ACCOUNTING AND PROJECT CLOSE-OUT

Anser begins a project with the end in mind, so we will be prepared to close out this project seamlessly. Our goal for the Project Closeout phase is to leave the City with a complete, value- added, set of documents and tools to manage your project well into the future. We will make sure the quality of the final output is aligned with the project requirements and your vision. We will perform project closeout in compliance with the Construction Contract Documents. Below is a general outline of steps we will take to complete this final task and an overview of all deliverables.

As-Builts and Close-Out Documents

Anser will periodically review the contractor's as-built updates on the approved job plan set, identify missing items, and require the contractor to keep as-built records up to date throughout the project. At the City's option, Anser will keep its own set of as-built plans, which will note the location of subsurface utilities encountered and/or installed, identify where any design or field changes were required (utilizing the corresponding RFI and/or change order numbers), and note the location of critical building components that are covered by finish work. At the end of the project the final as-built plans are submitted to the City within thirty (30) days of construction completion.

Anser will review as-built plans and prepare as-built reports. Anser will assist the contractor in maintaining a field set of as-built plans to be updated daily and delivered to the City upon project completion. Anser will continually document changed field conditions and not rely on the contractor to document as-built conditions. The construction manager will report and photograph field condition changes. The construction manager will document and keep these as-built conditions on plans in his office. Anser will review the contractor's submittal of as-built conditions and compare this submittal to Anser's own documentation. Discrepancies will be discussed, resolved, and recorded. Completed as-built plans will be submitted to the City.

Operations and Maintenance Manuals

Anser will administer the provisions of the specifications and require the contractor to submit well- coordinated operations and maintenance manuals, warranties and guarantees, bonds, extra stock and/or other items required by the contract documents such that a timely close-out of the project is implemented. Our team will also perform closeout duties including final organization of project files and submit to the City for final approval and assist with the filing of the notice of completion and release of retention.

Our construction manager will confirm that the contractor provides the proper number of specified Operations and Maintenance manuals within the time frame requirements in the contract. Anser will enforce the provisions of the specifications to require the contractor to submit well documented operations and maintenance manuals, warranties and guarantees, bonds, extra stock and/or other items required by the contract documents such that a timely close-out of the project is implemented.

In coordination with the contractor and the design team, Anser will prepare and submit all O&M manuals and training program documentation and confirm all specified training programs for the City's staff are completed per the contract requirements. The specifications will address the systems and subsystems for which manuals and training are required, the media for these materials, quantity, schedule, formatting standards, and other detailed requirements. Anser will document all closeout procedures and submit appropriate documentation to the City.

Preliminary Notice and Lien Releases

After all requirements have been met, the construction manager will sign off on the appropriate form to recommend approval to recommend release of funds.

Final Payment

When the contractor has notified Anser and has confirmed that all punch list items are complete, we will make a recommendation, in writing to the City, in connection with the final payment to the contractor. To support this recommendation, Anser will assemble all documents relating to final payment, including retention, unresolved change orders, and unpaid invoices, for approval by the owner. Once approval is received for the final payment, which resolves all outstanding financial obligations with the contractor, the payment is processed, and the contract closed. If the contractor requests any claims or adjustments, the contract cannot be closed until these are completely resolved.

Final Cost Report

Anser will summarize total project costs in a final report, listing all change orders, and identifying any unresolved issues, which may have a post-construction cost impact, such as a claim or other dispute. Anser will communicate this information in a summary narrative, including assumptions on any post-construction cost impacts, and support this information with a cost and change spreadsheet of final project accounting.

Warranties and Guarantees

We will track all material warranties and guarantees identified in the specifications and verify that we receive the required scope of these as well as the correct number of these documents with contact information, product names and manufacturer's representative and contact information. It is recommended that the City include a follow up schedule to have warranty items checked prior to their anniversary date so that any issues can be resolved under the contract warranty. These will be included in a binder as well as electronically stored for the City.

LITIGATION

LITIGATION, CONTRACT HISTORY, AND FINANCIAL CONDITION

Anser is financially healthy and has an excellent credit rating. Anser has never been in bankruptcy or defaulted on a contract. There is no pending litigation or plans to close any office.

OTHER INFORMATION

A. DEMONSTRATION OF RECORD OF STAFFING TASKS EFFICIENTLY AND COMPLETING PROJECTS ON TIME AND WITHIN THE ALLOCATED BUDGET

Anser is committed to supporting the staffing needs of any contract that we commit to. We continuously provide the highest quality personnel with the specific experience necessary to complete any project assigned to us, drawing from our over 900 employees nationwide. Each Anser office has the ability to add staff, as needed, through high-level collaboration from regional and corporate management. If there is a significant demand for resources, we can quickly adapt to meet our client's project needs and workload requirements by drawing upon other Anser professionals companywide working on similar contracts.

Anser's staff and resources provide maximum flexibility to meet our clients' scheduling needs. The nature of our work requires us to periodically provide services on an expedited basis. Our typical backlog is made up of many variable duration assignments and therefore, our workload varies on a weekly basis. That being said, the Anser Team workload capacity is sufficiently large to enable us to respond successfully to short turnaround assignments or urgent project needs. Based on our prior experience, we believe our present and future workload capacity is more than adequate to conduct the required services for our clients in a prompt (timely), efficient manner.

B. DESCRIPTION OF COMMUNITY INVOLVEMENT

Our proactive approach to communication and community engagement assists and supplements the City's efforts to best provide transparency and enable holistic support for your the project. Our members of our CM team will be able to attend and co-lead a pre-consrruction meeting with the community to discuss the major anticipated construction impacts. Our PM and PIC will coordinate with the city's community liaison and communicate with the community reguarding impacts related to the construction project.

C. DESCRIPTION OF ANY PREVIOUS INVOLVEMENT WITH THE CITY

Anser has been working with the City of Ontario Municipal Utility Company since February 2016. Our On-Call contract mentioned on pg.8 shows our past and current relationship with the City.

D. A STATEMENT THAT THE PROPOSER HAS NO CONFLICTS OF INTEREST IN CONNECTION WITH PROVIDING THE SERVICES

Anser Advisory has no conflicts of interest in connection with providing the Services in this contract.

CERTIFICATION OF PROPOSAL

We at Anser Advisory hereby submit this proposal and, by doing so, agree to furnish services to the City in accordance with the Request for Qualifications (RFQ), and to be bound by the terms and conditions of the RFQ.

APPENDICES

Education

BS, Civil Engineering; San Diego State University

Licenses/Certifications

Registered Civil Engineer, CA #C61253

Qualified SWPPP Developer No. 23727

Experience

Years' Experience: 30+

Years with Anser: 2+

JONATHAN SMITH, PE, QSD

PRINCIPAL-IN-CHARGE

Jonathan is a hands-on, results-oriented leader with a proven history of productivity and an ability to take complex issues and get to a consensus quickly. During his 30 plus-year career, he has worked for numerous agencies throughout Southern California in roles varying from Director of Public Works to Senior Civil Engineer. Jonathan is experienced at analyzing complex budgets and technical reports, and developing and revising contracts and legal documents using federal, state, and local laws, rules and regulations. He has experience related to construction management and design of water/wastewater projects, roadways, sound walls, retaining walls and buildings. He has served as Project Manager, Resident Engineer, Construction Scheduler, Estimator and Construction Inspector. Jonathan has been responsible for roadway design and construction, supervision of technical and field staff, change order negotiation and preparation, contract administration, critical path schedule reviews, storm water pollution prevention plan preparation and compliance, claims mitigation, selection committee interviews, cost estimate preparation, reviewing and designing structure-related shop drawings and assuring compliance with plans, specifications and various agency regulations, presentations to city councils and other stakeholder groups. He is a highly effective manager who possesses the ability to develop both entry-level and experienced staff into participatory teams by using strong organizational, interpersonal and critical thinking skills.

REPRESENTATIVE EXPERIENCE

Buccaneer Park Restroom (PSA) (CIP# 19-00017), City of Oceanside, CA
Project Timeline: 04/2021 – 06/2025
Project Manager overseeing the remodel design of the park. Through community input managed by Jonathan, the "Buccaneer Theme" emerged as the preferred park concept. This concept includes new park restrooms, a Loma Alta Creek deck and boardwalk overlook, basketball and pickleball courts, exercise station, expanded playground, lawn picnic area, bike racks, new seating, shade structure and remodel of the Buccaneer Park Café.

College Blvd. Widening Waring – Old Grove (CIP# 20-00013) (SB-1 Funds), City of Oceanside, CA
Project Timeline: 10/2021 – 06/2024
Project Manager overseeing the widening design of College Blvd. from Waring Road to Old Grove Road. The design to widen College Boulevard is proposed to a 6-lane major arterial from Olive Drive to Old Grove Road, which would be consistent with the City of Oceanside's Circulation Element Year 2030 classification of the road. Improvements to the corridor are proposed to enhance existing and future traffic operations, provide congestion relief, and reduce queue lengths, improve safety conditions for the unsignalized intersections and access points along the corridor, and provide safer travel routes for bicyclists and pedestrians. In addition to widening of College Boulevard, the proposed project would include curb/gutter improvements and relocation of utilities to accommodate the widened roadway segment, installation of retaining walls and new landscape parkways, and relocation of bike lanes, lighting, and sidewalks in various locations along College Boulevard between Waring Road/Barnard Drive and Marcella Street and between Olive Drive and Old Grove Road. Expansion of the existing College Boulevard right-of-way to accommodate proposed improvements would require ROW acquisition along segments of the corridor.

Cleveland Storm Drain Upgrade (CIP# CIP 17-00007), City of Oceanside, CA
Project Timeline: 06/2022 – 06/2024 | Construction Cost: $6M
Project Manager overseeing the Cleveland Street Storm Drain Upgrade project which includes trunk storm drain upgrades (upsizing) in Cleveland Street from Mission Avenue north to Surfrider Way, and upgrades in Surfrider Way from Cleveland Street west to the outlet at the beach. In addition, the design includes the reconstruction of the existing ocean outfall structure at the Surfrider Way. The reconstruction of the outfall requires approval by the California Coastal Commission (CCC). Jonathan is currently working with the CCC to approve the outfall reconstruction at the August CCC board meeting.

Project Management for The City of Oceanside – SIFI Networks Oceanside, LLC and Ubiquity, Inc.
City of Oceanside, CA
Project Timeline: 04/2023 – 06/2026
Project Manager overseeing the overseeing construction permit issuance, construction Inspection and utility plan review services for installation of fiber optic cable and supporting infrastructure throughout the City of Oceanside by SiFi Networks Oceanside, LLC and Ubiquity, Inc. This is a 3 year project that requires coordination with all city departments as well as regular communication and coordination with business owners and residents.

City of Menifee, CIP 21-04 Fire Station No. 5 - Construction Management and Inspection Services
Construction Timeline: 12/2022 - 01/2024
Anser is providing construction management and inspection services on the Quail Valley Fire Station No. 5, a new state-of-the-art facility that will provide a significant increase in the amount of personnel and equipment that can be utilized at the station. The new fire station will replace the existing Quail Valley Fire Station No. 5, located at the intersection of Goetz Road and Palm Drive/Ave Roble. The current station was built in the 1950s and is limited in capacity, housing only a few firefighters and two small-size fire trucks. The new, modern Fire Station No. 5 will be a 9,000-square-foot facility that can house up to 6 fire personnel and has a three-bay garage that can house large equipment, with room for future expansion. The new fire station has been designed to meet the needs of the community for at least the next fifty years.

Canyon Lake Sewer Rehabilitation Project, Elsinore Valley Municipal Water District, CA
Senior Construction Manager acting as the Owner's Representative on the $800K Canyon Lake Sewer Rehabilitation Project. The project will rehabilitate approximately 3,700' of pipe in critical condition using cured-in-place pipe (CIPP) lining method with six locations requiring spot repairs prior to performing the lining. Duties include providing constructability review of the plans and specifications and ensuring the work is performed as designed, within budget and within schedule. The work will include coordinating the work with the existing EVMWD operations and providing field inspection for the construction contracts. Will also provide resident engineering services for submittals review, pay requests, quality control and general construction management services to support the construction efforts.

Lindley Reservoir, City of Escondido, CA
Project Manager overseeing the construction of the $13.7M Lindley Reservoir Replacement Project which includes two new partially backfilled 1.5 M gallon prestressed concrete potable water reservoirs, approximately 1,500' of new 18" diameter inlet pipeline along Hubbard Lane; inlet, outlet, overflow, tank drain, under slab drain and site storm drain yard piping; an above ground valve vault with outlet isolation and inlet control valves and air gap sump for drain lines; site excavation, earthwork, finish grading, access roads, landscaping and chain link fencing; tank and control valve electrical and instrumentation work and demolition of the existing 2M gallon steel reservoir, piping, valves and appurtenances and re-grading the existing tank site.

Director of Public Works/City Engineer, City of Menifee, CA
Planned, organized, directed and integrated the City of Menifee's public works and engineering activities and functions; provided expert professional assistance to City management in areas of expertise, including engineering, municipal water, wastewater collection, stormwater, street and landscape maintenance; and performed related duties as required and took a leadership role in implementation of the goals and objectives of the Public Works and Engineering Department. Oversaw/managed more than $6M of SB1-funded projects combined with $8M in local special sales tax funds. The projects included various street maintenance projects, including slurry seal, cape seal, Class I bike paths, Class II bike lanes, and Class IV separated bike lanes. Designed and constructed various traffic-calming improvements on existing streets throughout the 46.6 square mile City, including:

- Conditioned 217-acre master-planned Legado development, which consisted of 1,016 single-family homes, to provide roundabouts and curve linear streets with curb bulb-outs at

intersections to increase safety for all modes of travel.

- Designed a solution at an intersection to eliminate rear-end collisions by utilizing a glue-down protected berm, which also avoided impacting the railroad right-of-way.
- Improved pedestrian safety by designing and constructing traffic-calming improvements that popped out curbs and installed rectangular rapid flashing beacons (RRFB) at park entrances.
- Developed unique solutions to add additional bike lanes within the existing right-of-way. One example is the Goetz Road resurfacing and restriping improvement project that utilized road dieting to eliminate a travel lane and add a two-mile bike path. Another example is the McCall Road and Newport Road Bike Lane Project, which utilized road dieting to reduce lane widths on a four-lane major road to gain enough width to construct over a mile of buffered bake lanes. This was accomplished without negatively impacting roadway capacity.
- Due to various budget challenges, many schools are eliminating bus programs, which has resulted in larger traffic volumes. Jonathan utilized a traffic-calming measure called "Leading Pedestrian Interval" (LPI). This gives pedestrians the opportunity to enter an intersection three to seven seconds before vehicles are given a green indication, allowing pedestrians to better establish their presence in the crosswalk before vehicles have priority to turn left. LPI's provided increased visibility of students crossing the street, and enhanced safety.

Other services provided to the City included:

- Calibrated with Caltrans, County of Riverside and other stakeholders to acquire funding for infrastructure projects.
- Managed a successful highway improvement safety grants program that acquired over $5M in grant funding to construct various traffic safety improvement projects.
- Directed and oversaw engineering and public works staff of 32, with 15 contractors, consultants and engineering firms.
- Implemented 1,000+ policies and procedures that led to the establishment of the City's first street maintenance section of the Public Works Department.
- Developed City standards, guidelines, policy and procedures for efficient entitlement processing and final engineering of land development projects.
- Assisted in the delivery of various economic development projects.
- Implemented a $256M CIP program, which included the Newport Road/I-215 Interchange Project ($47M) and the Scott Road/I-215 Interchange Project ($57.8M).
- Negotiated development agreements and conditions of approval with developers to create projects that met the goals of the City Council and expectations of the community.
- Implemented emergency operating procedures to manage emergencies.
- Interfaced with the public and City Council regarding problems or questions about projects and infrastructure.
- Maintained positive working relationships with Fish and Wildlife, Army Corps of Engineers, Caltrans and other agencies.
- Reviewed and prepared long-range goals and objectives to meet City Council goals and objectives.

SDCE Pipeline and Old Julian Tank Pump Station, City of Ramona, CA
Construction Manager for the SDCE pipeline project which includes the installation of 15,000' of 16" cement mortar lined and coated pressure pipe along Old Julian Highway and connection to SDCE Tank #1. The Old Julian Tank Pump Station consists of the construction of a 6 MGD potable water pump station and connection to the SDCE pipeline.

San Marcos Water Transmission Pipeline Replacement and Street Improvements, City of San Marcos, CA
Construction Manager for a $1.4M 27" steel cement mortar lined and coated potable water transmission pipeline replacement project. The pipeline was approximately 4,000' long within the right-of-way of San Marcos Boulevard in the City of San Marcos and includes roadway widening after completion of the pipeline installation. The pipeline connection point was the San Diego County Water Authority's (SDCWA) second aqueduct. Due to the high traffic volume, all of the work was performed at night which required proactive public relations due to the proximity of the

residents.

High Valley Waterline Replacement and Pump Station Upgrades, City of Poway, CA
Project Manager for the $2.2M design, construction and inspection of over two miles of cement mortar lined and coated pipeline, PVC pipeline, temporary bypass line and related gate valves, altitude valves, blow offs and other appurtenances. The project also included the rehabilitation of an existing pump station, hydropneumatic tank and piping, electrical and instrumentation, retaining walls, access road improvements. Negotiated with private property owners to gain additional easements to allow the construction of the waterlines. The project required extensive negotiations and collaboration with the San Diego County Water Authority (SDCWA) to encroach into the first aqueduct easement and cross the aqueduct's two pipelines with the new waterline. Also, special procedures had to be followed during construction that required the coordination of construction activities with the SDCWA's water inspection staff.

Green Valley Waterline Upgrades, City of Poway, CA
Construction Manager for the $850K design, construction and inspection of over three miles of PVC pipeline, temporary bypass line and related gate valves, altitude valves, blow offs, water meter relocations, and other appurtenances. Microtunneling was utilized to install water services. This project required coordinating shutdowns with over two hundred customers.

San Diego County Estates Pipeline and Old Julian Tank Pump Station, City of Ramona, CA
Construction Manager for the $4M San Diego County Estates (SDCE) pipeline project which included the installation of 15,000' of 16" CML&C pressure pipe along Old Julian Highway and connection to SDCE Tank #1. The Old Julian Tank Pump Station consisted of the construction of a 6 MGD potable water pump station and connection to the SDCE pipeline. This project required extensive blasting and public relations due to its location on a two-lane road that provides the main access to 4,000 rural homes.

Seismic Retro Fitting of Water Storage Tanks, City of Poway, CA
Construction Manager for the design, construction and inspection of seven water storage tanks. These projects involved the removal the in-flow and out-flow piping and replacing the piping using seismic connections. This project also involved electrical up-grades.

Tank Relining and Corrosion Protection Upgrades, City of Poway, CA
Construction Manager for the design, construction and inspection of the relining and corrosion protection of various water storage tanks. These projects involved the removal and replacement of the existing tank lining, repair of major areas of rust, hatches and other appurtenances and installation of new corrosion protection.

Welton Lane Water Storage Tank Forensic Investigations, City of Poway, CA
Managed the forensic investigation, design, inspection and repair of the water storage tank. This project required the investigation of why the foundation ring was separating from the tank. Established and led a team of investigators that included geotechnical engineers, geologist, civil engineers and a contractor to find the cause of the problem.

STEPHEN MUTCH, PE, CCM, ASSOCIATE DBIA, QSD
SENIOR PROJECT MANAGER

Stephen has more than 34 years of broad civil, environmental remediation, and construction management experience for various types and sizes of public agency capital improvement projects. His environmental experience includes the identification, assessment, management, and disposal of hazardous waste. His broad experience includes vertical building, heavy horizontal, and underground utility projects. Clients rely on his expertise in permitting, project commissioning, stakeholder and third-party coordination, and environmental compliance.

Education

Bachelor of Science., Civil Engineering, California State University, Long Beach, 1990

Licenses/Certifications

Certified Construction Manager (CCM), Construction Management Association of America (CMAA), #2384 (renewal in process)

Registered Civil Engineer, California, #66757

Qualified SWPPP Developer (QSD), #01240

Organizations/Affiliations

Building Commissioning Authority

Years Experience: 34

Years with Anser: 20

Work History

Anser Advisory, LLC, Principal Program Manager, 2002 to Current

PROGRAM/CONSTRUCTION MANAGEMENT EXPERIENCE

SGVCOG, Diamond Bar Golf Course Project, Diamond Bar, CA | 2021

As Senior Construction Manager, Stephen is responsible for
Anser Advisory is SGVCOGs' representative on the re-construction of the Diamond Bar Golf Course (DBGC) to reconfigure/construct new fairways, greens and other golf amenities. The reconfiguration also requires construction of two major box culverts to capture and discharge 1100CFS of storm flows and surface grading and improvements to allow positive drainage in these areas. Other project aspects include replacing the existing golf course irrigation system with new pipe, watering heads and controllers, install new potable and fire water services, construct a new 9000 Sf golf maintenance facility. Demolition of existing structures and clearing and grubbing of large areas as part of the reconfiguration efforts. All work must be coordinated with other major roadway widening projects and tight construction schedules.

As Senior Construction Manager, Stephen is overseeing the relocation of a Southern California Edison 66kV Tubular Steel Pole that supports overhead conductors. The project will grade an area for the new pole and allow SCE access for construction of the pole foundation and restringing the conductions. Because the golf course is being reconfigured, the existing 12kV overhead power line will be relocated underground. Stephen is also overseeing the construction of a about 2,800 LF of 12kV duct back, multiple manholes and junction structures through the Northeast portion of the project.

County of Santa Barbara Department of Public Works, Tajiguas Resource Recovery Project, Santa Barbara, CA | 2017-2020

Anser Advisory dba Simplus is the County Department of Public Works representative on the construction of a material recovery and anaerobic digester facilities totaling 95,000 square feet. The projects goal is to achieve source reduction of the Tajiguas landfill to extend the operational times of the landfill. The project entails the coordination with the design build firm to resolve plan check, permitting and approvals of building plans; updates and reconfiguration of the landfill gas systems; expansion of the landfill gas collection and reuse systems to generate about 1 mega-watt of power production for the site. Additional efforts include evaluation of groundwater sources to serve the new facilities and disposal options.

City of Seal Beach, Seal Beach Pier Renovation Project, Seal Beach, CA | 2018-2019

Mr. Mutch was the senior program manager for the reconstruction of the Seal Beach Pier damaged in the 2016 fire which destroyed the Ruby's restaurant and several hundred feet of wooden pier structure and deck. Anser provided contract management, construction inspection and observation, and monitoring for this challenging project which required the pier to remain open to the public throughout the reconstruction process. The project required the pier to be completely refitted with new utilities, installation of a new transformer and main gear compound, new fire distribution systems, new pier supports, piles, and hardwoods sourced from South America. Permitting and oversight was required from the California Coastal Commission, Regional Water Quality Control Board (RWQCB), Air Quality Management District (AQMD), Orange County Fire Authority, and the City of Seal Beach. The project also included community outreach programs to respond to questions or concerns from local businesses and residents.

City of Long Beach, Los Cerritos Channel Stormwater Diversion Project, Long Beach, CA | 2018-2019
The project included the construction of a stormwater collection system that holds 30 acre-feet of stormwater. Construction entailed cast-in-place concrete walls and deck, wick drains, access hatches, manholes, soil excavation and backfill, and a monitoring system that allows water levels to be monitored and controlled. The project included coordination with airport staff, Federal Aviation Administration, City of Long Beach and City of Signal Hill staff, and the contractor. Mr. Mutch worked with the project team to monitor overall progress and documentation processes.

City of Long Beach, Willow Springs Wetland Restoration, Long Beach, CA | 2016-2017
Anser provided construction management services for the Willow Springs Wetland Restoration which included the construction of a stormwater collection system, vegetated bioswales, inlet structure, habitat planting, rip rap inlet structures, stormwater detention basin, and groundwater infiltration system. As Senior Construction Manager, Mr. Mutch was responsible for assisting the City in reviewing the plans and specifications and procuring native California plants. He assisted with coordinating the contract award, daily reporting monitoring construction, facilitating meetings, and reviewing and processing change orders, submittals, schedules, and monthly payments.

Trans Pacific Container Service Corp., Tra-Pac Container Terminal Administration Building, Port of Los Angeles, CA | 2014-2016
Stephen served as the as the Port's construction manager responsible for contract management, construction inspection and observation, and monitoring commissioning efforts for the new LEED Gold-certified building. Special effort was required to resolve several hundred outstanding change order requests submitted by the contractor. The close-out phase included inspection, permitting, and monitoring the Certificate of Occupancy process. The building construction is a steel-framed structure and glass curtain wall. Environmental issues included drainage control SWPPP management in compliance with the Port's Green Port objectives.

Terminals A & T, Shore to Ship Power Systems, Port of Long Beach, CA | 2012-2014
Mr. Mutch was the Senior Construction Manager for the project which constructed four 25kVA power substations and 15 shore to ship power access vaults along the 4,000-foot wharf. The projected received grant funding through South Coast Air Quality Management District to remove idling container ships and provide cleaner shore power. The project required an extensive commissioning program to coordinate equipment both land based and ship side, developing compatible power frequencies, and startup and operations program and training for the terminal crews. The project required coordination between terminal operations, construction crews, and third-party inspection firms for the movement of large container ships and loading/unloading of ships 24/7. Mr. Mutch worked closely with the terminal owner, POLB, to ensure the contractor adhered to project requirements and maintained compliance with all the permitting, environmental, and public utilities agencies including RWQCB, AQMD, U.S. Army Corps of Engineers, and various City agencies. This project required extensive coordination with SCE.

Port of Long Beach, Maintenance Facility Complex, Long Beach, CA | 2010-2013
The maintenance facility complex included the construction of a 56,651-square-foot maintenance building, 49,363-square-foot equipment and vehicle canopy wash building, 30,943 square-foot fuel station, staff vehicle surface parking, pedestrian/bike path along Harbor Plaza, and landscape improvements. As an Assistant project manager, Mr. Mutch was responsible for constructability reviews and preliminary comments during the design phase.

Port of Los Angeles, Cabrillo Way Marina, Los Angeles, CA | 2010-2012
Project and construction management services were performed for the construction of a 750-slip, small craft marina and 2,000 linear-foot pedestrian promenade along a new waterfront. Major project elements included harbor and marina dredging, installation of 9,000 concrete piles, installation of a 1,000-linear-foot sheet pile wall, placement of quarry and armor stone, protection

and reuse of historical wood truss structures, and segregation, testing, and disposal of contaminated soil.

As Senior Construction Manager, Mr. Mutch was responsible for overseeing the abatement of several buildings slated for demolition; reviewing and evaluating contaminated soils encountered during the construction process including abandoned oil pipelines, existing fuel lines, and former underground fuel tank locations; managing the master schedule; coordinating with the Department of Water and Power for the construction of major new utilities, i.e. 16-inch water mains, new fire water services, and a new electrical backbone; and undergrounding of existing overhead 35KVA power lines, new phone, and Homeland Security backbones. He also assisted with the construction of six lanes of new arterial street, curb, gutter, and sidewalks.

55th Way Landfill Closure & Ed Davenport Park Project, Long Beach, CA | 2010
Mr. Mutch was the Project Manager and Resident Engineer for this $3.9 million, five-acre, landfill closure and neighborhood park project. Responsibilities included project management of the A-E firms; review of plans and specifications; and coordination of activities with local community groups, Regional Water Quality Control Board, Local Enforcement Agency (LEA), and various City departments, including Public Works, Buildings, and Parks, Recreation, and Marine. The work included air monitoring of landfill gas; sampling of leachate; construction of retaining walls; installation of storm drain facilities, potable water, sanitary sewer, and irrigation systems; site lighting and electrical utilities; construction of a restroom and other park structures; and installation of play equipment, basketball courts, soccer fields and other landscaping. The work also included AC paving, curb, gutter, and sidewalk for parking areas as well as removal and complete reconstruction of 55th Way leading into the park.

Signal Hill Police Station & Emergency Operations Center, Signal Hill, CA | 2006-2008
Program and construction manager for a new 22,000 s.f. police facility. The work included design review of plans and specifications, coordinating design and construction activities with the local community and several City, County and State agencies, including the Corrections Standards Authority (CSA) and the County of Los Angeles. The police facility includes 14 jail cells, detox rooms, 911 communications department, live scan facilities and emergency power systems. The work also included on and offsite improvements for a storm drain system, new intersections, sidewalks and driveway access. Communication and security systems include digital recording and communications equipment, installation of cameras and sound equipment in the interview areas of the facility and phone systems. Simplus also coordinated the upgraded electrical power systems.

North Police Station, Long Beach, CA | 2004-2005
Resident engineer of a new 22,000 s.f. police facility in an urban park setting. The work included design review of plans and specifications, coordinating construction activities with the local community and several City agencies, including the Parks, Recreation and Marine Department and the Long Beach Emergency Communications and Operations Center (911). The police facility work included over 1,600 l.f. of CMU retaining walls, a 1,300 s.f. vehicle maintenance facility, installation of a fueling system to support the police cars and emergency power systems, construction of over $100,000 of ADA improvements within Scherer Park, oversight for the design and construction of a storm drain system capable of handling 15 cfs flow and coordination with Los Angeles County agencies. Communication and security systems included digital recording and communications equipment, live scan equipment, installation of cameras and sound equipment in the interview areas of the facility and phone systems. Simplus also coordinated the selection and installation of the furniture systems.

City of Long Beach, Temple Willow Fleet Services Facility, Long Beach, CA | 1998-2000
This $22M design-build project included the construction of a 500,000-square-foot fleet services facility and adjacent street improvements. As the Assistant Construction Manager, Mr. Mutch was responsible for as built, sumps, and underground storage equipment/tanks for the service center

and coordination efforts between subcontractors, City staff, permitting agencies, and utility companies.

City of Huntington Beach Program Management, Huntington Beach, CA | 2000
Inspection services contract administrator and program manager for various projects outlined in the capital improvement program. Tasks included preparing plans and specifications, bidding and selection of consultants and contractors for arterial street repairs, overlay of residential streets, Energy Retrofit Program, HVAC improvements/upgrades and painting of the Civic Center Complex. Work also included evaluation of building exterior structure, damage due to rusted rebar, cracked concrete columns, developing methods to repair damages, directing contractors through all phases of work, maintaining project logs, approving and processing change orders, invoices, maintaining communications through several different levels of the City, including the Director of Maintenance Operations, Director of Public Works, City Administrator, City Attorney's Office and selected Council Members.

Mall of Orange, Orange, CA | 2002
Construction manager for 30,000 square feet of tenant improvements due to fire. Work areas consisted of roofing and canopies around the main steel moment frame structure at the main entrance. Evaluation of fire damage of structural elements. Made recommendations for code upgrades. Work included installation of fire and draft stops, upgrade of the fire sprinkler system, inspection for fungus, dry rot of the facility, seismic retrofit of the structure to comply with current building codes. Installation of glulam and paralam beams for structural support of the front main entrance façade. Work also included the installation of new columns, lighting and signage.

Lilly Industries, Montebello, CA | 1998
Construction manager for installation of a new chemical processing area that included 24 underground tanks, piping systems, electronic monitoring systems. Project included evaluation of the existing structure and LA County Fire permit to store and handle hazardous or noxious materials. Work included design of process systems, tanks, reinforced concrete retaining walls and seismic restraint of existing facilities to support the new systems. Coordinated selection of subcontractors and interfaced with owners for continued plant operations during construction.

Amtrak Redondo Engine Facility, Los Angeles, CA | 1996
Project manager/construction manager for $3.0 million of general construction and site improvements. Activities included evaluation of existing facilities, coordination with Amtrak officials for scheduling inspection/work efforts; preparing scopes of work; selecting engineering firms, general contractors, surveyors, tunneling and drilling subcontractors; permitting (through LA City, Santa Fe, Union Pacific, MTR Rail Roads) for buildings, foundations, grading, storm drain, and track layout following appropriate standards; demo of existing facilities; re-route of electrical, water and storm drains keeping normal operations during construction; Health and Safety Coordinator for the site prepared health and safety plan for handling lead contaminated soils for disposal, general engineering and construction activities.

Quality Paper Fibers, Pico Rivera, CA | 1999
Design and permitting of municipal recycling facility. Project consisted of new 24,000 square foot steel building, new foundations, placement of bailing equipment, fire flow study and location of new fire hydrants, layout and permitting of fire sprinkler and deluge system/equipment. Design and layout of new parking area following local codes and ADA requirements. Coordinated selection of subcontractors and interfaced with owners for continued plant operations during construction.

Quality Paper Fibers, Santa Clarita, CA | 2000
Design and permitting of municipal recycling facility. Project consisted of sorting and bailing equipment, electrical controls, sizing of wire, conduits etc.. 3,050 square foot tenant improvement including HVAC, interior space layout, Title 24 report, ADA compliant bathrooms, design and permitting of new sewer connection. Coordinated selection of subcontractors and interfaced with

owners for continued plant operations during construction of sorting and office facilities.

Fueling & Chemical Storage Systems
Mr. Mutch has extensive experience in the design, installation, and removal of underground and above ground tanks, piping, pumping and monitoring systems. For several years Mr. Mutch worked for SCE, Verizon, Arco, Texaco, Signal Hill Petroleum, and many other firms on the changeout and clean-up of leaking underground storage tanks, compressed gas systems, and cleanup of spills and leaks. Mr. Mutch has also worked on several military bases around CA, NY, and AZ addressing similar issues. This experience has allowed Mr. Mutch to gain knowledge of the federal and local standards for operation of these systems as well as design requirements specific to handling of the various materials. Tank systems have included compressed gas; auto and aviation fuels and coolants; chemicals for the production of paints, plastics, storage, and conveyance of solvents; and cleaning fluids and acids. Experience includes:

- Amtrak Redondo Engine Facility, Los Angeles, CA
- Lilly Industries, Montebello, CA
- City of Long Beach 911 Facility, Long Beach, CA
- Liquid Natural Gas Recovery Plant, Signal Hill, CA
- Santa Monica Airport Fueling Facility, Santa Monica, CA
- SCE, Service Facility, Irvine, CA
- SCE, Service Facility, Huntington Beach, CA
- SCE Service Facility, Pomona, CA
- North Island Navel Air Station, San Diego, CA
- Point Loma Navel Facility, Point Loma, CA
- U.S Air Force Base, Plattsberg, NY
- Edwards Air Force Base, CA
- Naval Air Facility, El Centro, CA
- San Diego Naval Facility 32nd Street, San Diego, CA
- U.S. Marine Air Base Yuma, AZ
- U.S. Marine Logistics Base, Yermo, CA

GENERAL ENVIRONMENTAL EXPERIENCE

Amtrak Redondo Engine Facility, Los Angeles, CA
Project manager/construction manager for $3.0 million cleanup of lead contaminated soils and subsurface cleanup of diesel fuel spill from a 20,000 gallon rail car and site improvements. Activities included preparing scopes of work, selected engineering firms, general contractors, surveyors, tunneling and drilling subcontractors. Permitting (through, LA City, Santa Fe, Union Pacific, MTA Rail Roads), for buildings, foundations, grading, storm drain, and track layout following appropriate standards. Demo of existing facilities, re-rout electrical water and storm drains keeping normal operations during construction. Health and Safety Coordinator for the site prepared health and safety plan for handling soils for disposal of 40,000 cubic yards of lead contaminated soil via rail to Class I landfill, general engineering and construction activities.

North Island Naval Air Station, San Diego, CA
Project manager/technical design, $0.5 M Pilot Study to test innovative technologies. System included extraction and flaring of volatile organic compounds permitting, design, and utility setup for 2,000 SCFM system, which required acid scrubber for system discharge. System was designed with remote access ability. Work also included coordination of the project through the Navy, County of San Diego, Air Pollution Control District and Community action groups.

Naval Air Facility, El Centro, CA
Construction manager for environmental investigation of base fueling areas. Schedule called for non-interference with normal base operations to support training of helicopter and fixed wing aircraft. Investigation required use of innovative technologies (cone penetrometer testing) to investigate soil

and groundwater. Presented projects scope and schedule for investigation of base fueling area. Provided daily field reports to Naval Command and Brown & Root Services Corp.

Lilly Industries, Montebello, CA
Construction and design manager for installation of 24 tank UST new chemical processing area. Project included design of process systems, tanks, monitoring systems, coordination with local building and fire agencies, reinforced concrete retaining walls and seismic restraint of existing facilities. Coordinated selection of subcontractors and interfaced with owners for continued plant operations during construction.

Liquid Natural Gas Recovery Plant for Signal Hill Petroleum, Signal Hill, CA
Prepared plans and specifications for liquid natural gas recovery plant at Signal Hill refinery. The plant collects gases from oil drilling operations and processes these for sale as liquefied natural gas. Processes included gas duster, two-stage compression, scrubbers, and gas-liquid separators, surge tanks and dispensing equipment. Design included careful attention to containment requirements, drainage and site and structural layout as well as extensive process and fire piping.

Santa Monica Airport Fueling Facility, Santa Monica, CA
Design engineer for $3.0 million construction of a dual high flow, high capacity airport fueling facility, including dispensing equipment, 2 underground 10,000 gallon tanks, metering and monitoring devices for AV gas and jet fuel, aircraft rated concrete aprons. Additional design efforts included perimeter drainage and hydrology study for the surrounding areas.

Liquid Natural Gas Recovery Plant for Signal Hill Petroleum, Signal Hill, CA
Prepared plans and specifications for liquid natural gas recovery plant at Signal Hill refinery. The plant collects gases from oil drilling operations and processes these for sale as liquefied natural gas. Processes included gas duster, two-stage compression, scrubbers, and gas-liquid separators, surge tanks and dispensing equipment. Design included careful attention to containment requirements, drainage and site and structural layout as well as extensive process and fire piping.

Loma Linda University, Service Station Retrofit, Loma Linda, CA
Project manager for design and installation of drive slab, tanks and monitoring systems. Concrete work including grading and drainage for the site. System included dispensers, piping, pumps, and tank replacement for fueling university vehicles.

Program Management, Inspection Services, Contract Administrator for the City of Huntington Beach, CA
Program manager for various projects outlined in the capital improvement program. Tasks included preparing plans and specifications, bidding and selection of consultants and contractors for arterial street repairs, overlay of residential streets, Energy Retrofit Program, HVAC improvements/upgrades and painting of the Civic Center Complex. Work also included directing contractors through all phases of work, maintaining project logs, approving and processing change orders, invoices, etc., maintaining communications through several different levels throughout the City, including the Director of Maintenance Operations, Director of Public Works, City Administrator, City Attorney's Office and selected Council Members.

US Air Force Base, Plattsberg, NY
Construction and safety manager for soil and groundwater investigation at 7 sites around Plattsberg Air Force Base. Investigation was conducted for the base closure commission. Activities included coordination, construction and investigation activities with AFCEE and base command personnel, developing work plan, detailing field activities, sample collection and analysis procedures. Developed scopes of work and selection of subcontractors using FAR's. Coordinated with base personnel for site access, use of facilities. Prepared environmental reports detailing sample protocols, results and findings. Presented project scope and schedule updates weekly to each

affected Command of the base. Presentations included selection of contractors, working hours, effect of work on base operations. Arrangements for inspection of work activities by base personnel. Work also included coordination of work activities related to mothballing of housing, warehouse and hanger facilities.

Point Loma Naval Facility, San Diego, CA
Construction manager and safety officer for $1.8 M environmental investigation of 13 sites at the Naval Facility. Coordinated investigation with three individual commands on base. Developed work plan for sample collection, handling and testing coordination of field investigation to develop method of sample collection, and address safety issues. Prepared written reports weekly for the individual commands, prepared environmental impact report of sensitive species and human health concerns for local residents and day care facilities.

San Diego Naval Facility 32nd Street, San Diego, CA
Conducted emergency response to delineate and cleanup of a JP-5 release from the Southwest Fire Fighting Training Center. Review of geotechnical information for design soil drainage for fuel collection and pumping system to deal with tidal fluctuations of the water. System was designed and installed within one week allowing the training center to continue operations during construction. System removed over 1,000 gallons of free product over the first three weeks of operations.

Marine Corps Logistics Base, Barstow, CA
Design of groundwater treatment systems for diesel fuel spill. Design included concrete slabs and retaining walls for water treatment system, sizing of pump and holding tanks, develop sampling protocols and layout equipment, design treatment scenario for discharge of treated water to surrounding channels.

Marine Corps Logistics Base, Barstow, CA
Design of soil vapor extraction system for fuel impacted soils. Design included construction of noise insulated housing, slab and masonry walls for housing of equipment. House required ventilation and noise abatement materials due to location to existing homes.

US Marine Air Base, Yuma, Arizona
Construction manager for $2.5M hazardous waste storage area and decontamination facility. Work also included coordination of EPA and military specifications for design as well as construction of concrete slabs, concrete and masonry walls and installation of mechanical systems. Base operations were maintained during construction and re-routing of utilities.

GTE Central Office Chino, CA
Project manager for UST replacement program for GTE. Projects required removal and reinstallation of new tanks at over 150 locations in southern California. Projects required preparation of budgets, oversight and agency interaction, design of soil and groundwater treatment systems and presenting year-end budgetary and progress of schedule to the client.

GTE Central Office Pomona, CA
Project manager for demolition of a six bay service facility. Design of friction pile shoring system to maintain building foundation. Construction of new footing and building foundations. Assist with new building improvements, and scheduling of construction personnel. Construction of reinforced concrete and masonry walls and slabs. Construction was performed without interrupting GTE personnel.

GTE Service Facility, Irwindale, CA
Project manager for construction services for a 12 bay, fleet vehicle service facility. Construction was conducted with partial impact to normal vehicle repair operations. Design of shoring system to

maintain building foundation during excavation of contaminated soils. Construction of new reinforced concrete retaining wall and drive slab.

Health & Safety Training
Assisted in the preparation and publishing of the company's first Health and Safety Manual. Assisted in 40 hour OSHA worker training for hazardous waste sites. Duties included setting up and moderating trainees in use of SCBA's, level B and Level A hazardous equipment. Also monitored individuals for heat stress and other basic first aid procedures. Taught first Aid and CPR.

Geotechnical Laboratory
Performed all manners of geotechnical testing of soils and soil classification. Prepared laboratory reports for review by the head of the geotechnical department.

TECHNICAL PAPERS

Presentation of Technical Paper to the American Chemical Association, Ad-hock Committee Fullerton, California:

Presented technical paper on MTBE contamination in groundwater supply. Attendees include RWQCB, Orange County Water, City of Santa Monica, MWD, Oil Companies. Presentation included background information on MTBE, application and impact on local groundwater.
Presentation of Technical Paper to the Central Coast Groundwater Resource Association, Santa Barbara, California

Presented technical to the Groundwater Resources Association. Presentation included background information on site specific applications and impact on local groundwater. Addressed concerns of local agencies, resolved outstanding questions and provided details for safety methods to be incorporated into the remediation methods.

Presented project scope and periodic updates to the Environmental Community Action Group and Command of the North Island Naval Air Base. Presentations included issues on sensitive species, human health, and treatment of contaminated air, soil and groundwater.

KAMRAN PANAH, PHD, MPA, PE

SENIOR PROJECT MANAGER

Kamran is a skilled water engineer/project manager with over 35 years of experience in planning, design, project management, and construction management of various capital water projects. He has experience across both private and public sector such as water districts, cities, and counties each requiring special considerations with multiple stakeholders. Kamran has extensive knowledge of design of water transmission and distribution facilities, pre-construction planning, construction contracts, procurement, project execution, financial management, and project closeout.

REPRESENTATIVE EXPERIENCE

Golden State Water Company, Torrance, CA
Capital Program Engineer - Staff Augmentation Services
9/23 – 12/23.
Providing integrated staff augmentation services to fulfill the role Capital Program Engineer (CPE) for successful delivery of potable water including water well treatment facility, water distribution and transmission facilities.

Ontario Municipal Utility Company, Ontario, CA
Capital Project Engineering/Management Integrated Staff Augmentation Services.
3/22 – 8/30/23.
Providing integrated staff augmentation services to fulfill the roles of Capital Project Engineer/Project Manager for successful delivery of potable water capital projects including water well treatment facility, water distribution and transmission facilities, and SCADA systems. Currently managing several consulting engineering design contracts close to $2 million for total estimated construction cost of approximately $30 million.

Camrosa Water District, Camarillo, CA
Construction Manager
06/2021 - 06/2023
Provided project engineering and construction management consulting services for PV Water Well No. 2 Treatment Facility. Project Construction cost $6 million

Ventura County Water and Sanitation Department, Moorpark, CA
Engineering Manager
09/2018 - 06/2020
Responsible for the design and construction management of a broad range of water capital improvement projects and land developments. He oversaw consultants, and managed the design of complex civil, environmental, water supply, water wells, groundwater replenishments systems, including the development of PS&E and construction bidding documents (CSI, and Greenbook formats). Kamran also oversaw permit compliance with US Army Corps of Engineers 404 Permit, Water Board/LRWQCB 401 Permit, US Fish and Wildlife Streambed Alteration 1602 Permit, and Ventura County Flood Control/Watershed Protection District permit, and other permitting and reviewing agencies.

City of Simi Valley, Simi Valley, CA
Principal Engineer/ Capital Projects
02/1998 - 08/2018
Supervised the design and construction management of the City's Capital Improvement Program (CIP) including water and sanitation capital projects. Kamran supervised the implementation of labor compliance, and all other CIP related requirements of local, state, and federal programs; inspected project sites and attended field meetings, as necessary, interpreted, negotiated, and resolved construction disputes; responded to and resolved difficult and sensitive citizen inquiries and complaints; oversaw, reviewed, and approved progress payments and change orders to the contractors and consultants; monitored and tracked the design and construction progress schedules; and prepared periodic status reports for the Director of Public Works.

City of Simi Valley, Simi Valley CA
Senior Engineer/ Waterworks
02/1988-02/1998

As a Senior Engineer for Utilities, Kamran's responsibilities included managing design and construction of various water and sanitary sewer capital projects; supervising in-house and consultants' preparation of the design and construction drawings, specifications, bid documents, progress payments, negotiating change orders; reviewing material submittals, construction site visit, and construction dispute resolutions, preparing technical and staff reports; and performing all other pertinent construction management tasks.

CHRIS HEIDEL, MBA, CCM

CONSTRUCTION MANAGER

Chris is a highly skilled project program management professional who possesses a diverse background in successful project management with over 15 years of experience in the construction management industry with acute knowledge and expertise in a variety of civil works projects focused on potable, storm drain, sewer, and recycled water. His work on several high-profile and programmatically phased projects for the new construction and rehabilitation of pump stations, pipelines, storm drains, sewers, reclamation plants, and related utilities infrastructure contributes to his subject matter expertise in underground utilities and public social infrastructure. Chris is exceptionally capable at managing subcontractors and project stakeholders, tracking work progress, preparing and maintaining project documentation, and cost estimating, making him an invaluable asset throughout the lifecycles of any project. As a US Marine Corps Veteran, Chris is equipped with the vision and purpose to drive process improvement and is a natural relationship builder. He is an adaptable and decisive leader, comfortable making difficult decisions and taking ownership of key issues.

REPRESENTATIVE EXPERIENCE

San Gabriel Valley Council of Governments, Diamond Bar Golf Course Renovation Project, Diamond Bar, CA | 2021 – Present

Chris is the Assistant Resident Engineer for the Diamond Bar Golf Course Project, a 169 acre site which consists of 18-inch to 120-inch RCP installation, 1 million square feet of clear and grubbing, single to triple RCB box, demolition and new construction of a golf course maintenance facility, tree removal and replacement, netting pole removal and replacement, Southern California Edison Transmission pole relocation coordination, other third party utility coordination, permanent take and diversion of the Diamond Bar Creek, fire water and recycled water systems, approximately 200,000 cubic yards of site grading, new tee boxes, bunkers and greens. Currently in the construction phase, Chris has been responsible for constructability reviews, coordinating with the owner, San Gabriel County of Governments, designers, third-party utilities, state regulating agencies, and CQA consultants. Chris also oversees project controls, including cost, schedule control and quality assurance, submittals, inspections, RFI's and change order requests.

West Los Angeles Veterans Affairs, Phase 0 Infrastructure, Los Angeles, CA | 2020 - 2022

Chris is the Resident Construction Manager for the West Los Angeles Veterans Affairs (West LA VA) Infrastructure project that includes linear construction of a Southern California Edison ductbank and manholes, Spectrum and Frontier Communications ductbanks and pull boxes, and a Southern California Gas mainline, steam utilidor demolition and steam line construction, and electrical relocations. In the pre-bid phase, Chris was responsible for constructability reviews, contractor prequalification, project specifications, general conditions generation, contract document development and distribution. During the procurement and construction phase, Chris was responsible for coordinating with principal developers, designers, third-party utilities, state regulating agencies, and CQA consultants. Chris will also oversee project controls, including cost, schedule control and quality assurance, submittals, inspections, RFIs, and change order requests.

Los Angeles Department of Water and Power, MWD LA-30 Water Connection, Los Angeles, CA | 2018 - 2020

Chris was the Contractor's Project Manager for the LADWP MWD LA-30 Water Connection project which consisted of the construction of an inter-agency 1,800 linear foot 48-inch diameter welded steel water pipeline, cathodic protection, steel stand pipes for valve access and new precast manholes, pressure regulating station, pressure relief station and tie-in to LADWP's LA-30 trunk line. Chris was responsible for subcontractor management and oversaw a 30-man crew, working diligently to ensure safety on the high-traffic project site. Chris also maintained the project budget and schedule, prepared payment applications, drafted change orders, tracked work progress and coordinated with several permitting agencies such as Los Angeles Department of Transportation, Caltrans, LABOE, LADWP, and the City of Culver City.

City of El Segundo, Pump Stations 1 & 7 Modification & Lift Station, El Segundo, CA | 2018
Chris was the Contractor's Project Manager for the City of El Segundo Pump Station and Lift Station Project in 2018. The work included modification of two pump stations, installation of a syphon manhole system via jack and bore method, three new precast manholes, new 40k gallon cast-in-place T-Lock lined wet well, retrofit of the existing pump station, construction of an emergency pump station, and construction of 800 linear feet of ductile-iron sewer force main. As project manager, Chris was responsible for managing numerous subcontractors, maintaining budget and schedule, and drafting change order requests.

City of Los Angeles, Slauson Compton Sewer Rehabilitation, Los Angeles, CA | 2015-2017
As the Contractor's Project Manager, Chris oversaw the construction of over 21,000 linear feet of trenchless sewer rehabilitation on a live 100-year-old brick sewer pipe. Work included the reconnection of over 350 live sewer laterals connected by manned entry inside live sewer pipes, or through excavation. Chris also provided critical input on the design of various project elements including 85% Hydrogen Peroxide Chemical Dosing Stations, granulated carbon odor scrubbers, and sewer bypass' for sewer lines over 25 MGD. Additionally, Chris managed numerous subcontractors, tracked work progress, prepared payment applications and submittals, conducted cost benefit analysis, obtained permits, and coordinated with various permitting agencies including LADOT, City of Vernon, LABOS, LABOE, and LAFD.

City of Los Angeles, West LA Interceptor Sewer Rehabilitation, Los Angeles, CA | 2014-2015
Chris was the Contractor's Project Manager for the West LA Interceptor Sewer Rehab project with consisted of rehabilitation of 1,800 linear feet of the aging West LA Interceptor Sewer from Overland to Kelton via slipline rehabilitation. Chris was instrumental in overseeing the challenging installation of the semi-elliptical 90-degree radius across Venice Blvd, requiring not only a difficult installation process but also the management of the procurement, material approvals, testing, shipment from Poland via cargo ships, and rail transport from Texas to the Port of Los Angeles. As project manager, Chris also managed the project's traffic control, shutting down multiple lanes of Venice Blvd during peak and off-peak hours while maintaining site and worker safety. Chris was also responsible for managing subcontractors, budget, schedule, payment applications, change orders, work progress, and permits.

City of Los Angeles, Hyperion Water Reclamation Plant Digestor Gas Utilization Project, Los Angeles, CA | 2014
Chris was the Contractor's Project Manager for the construction of 702 linear feet of 72-inch RCP and the removal, rehabilitation, and reinstallation of five 16" pumps at City of Los Angeles' Hyperion Water Reclamation Plant. Chris oversaw the construction and managed several excavation challenges, including a precariously located 24-inch branching steel line, a trench excavation in beach sand at a depth of 22 feet directly between Primary Battery's A & B and a 1-mile outfall. In addition to construction oversite and crew management, Chris was also responsible for managing subcontractors, budget, schedule, payment applications, change orders, work progress, and coordinating with various permitting agencies such as LABOE and LABOS.

City of Los Angeles, Lakme Avenue Storm Drain, Los Angeles, CA | 2014
Chris was the Contractor's Project Manager for the installation of a new 3,000 linear foot HDPE storm drain, three new catch basins, four cast in place manhole structures, and asphalt overlay of approximately 35,000 square feet on East 246th street from Avalon to Lakme Ave. Chris was responsible for managing subcontractors, monthly billings, subcontractor utilization, change orders and City of Los Angeles required reporting documents.

City of Los Angeles, CISCO 8 Infrastructure Upgrades, Los Angeles, CA | 2013-2016
Chris was the Contractor's Project Manager on various on-call projects throughout the City of Los Angeles. Projects include:

- New construction of a traffic island at Jefferson Blvd and Rodeo
- Ferris Chloride (FeCl2) Dosing Station at the Terminal Island Water Reclamation Plant

- Various upgrades at Hyperion Water Reclamation Treatment Plant including upgrades or repairs to the 1-mile outfall, 5-mile outfall, and secondary treatment clarifiers
- Upgrades to both headwork facilities at Hyperion and Terminal Island Water Reclamation Plants
- Upgrades to Tillman Water Reclamation Plant
- Upgrades to Terminal Island Water Reclamation Plant Clarifiers and Aeration Tanks
- Landslide repairs at White Point Nature Preserve

City of San Diego, Q-1, T-1 & G-2 Sewer Rehabilitations, San Diego, CA | 2013-2015
Chris oversaw the repair and installation of over 6,200 residential sewer laterals and point repairs throughout the City of San Diego. Due to the quantity of laterals installed and terrain constraints, these sewer rehabilitation projects required meticulous planning and record keeping. As Project Manager, Chris was responsible for generating as-built plans, schedule and budget management, change order requests, T&M work and payment applications. In addition, Chris was also responsible for working with the public and residential communities, as most of the laterals were installed in backyards and easements.

City of San Clemente, 18201 C&D Recycled Water Expansion Project, Sam Clemente, CA | 2013-2014
Chris was the Contractor's Project Manager for the City of San Clemente Recycled Water Expansion Project that included the installation of 37,000 linear feet of 6-inch, 8-inch, and 12-inch DR-14 C900 recycled water pipeline, including 2,500 linear feet 16-inch of restrained ductile iron pipe via open cut and 2,200 linear feet of 16-inch purple HDPE via slipline method. Chris managed crews, tracked construction progress, oversaw safety, and managed numerous subcontractors. Chris was also responsible for budget and cost management, preparing payment applications, drafting change orders, pricing extra work, generating T&M tickets, and coordinating with local agencies such as Caltrans and the Capistrano Unified School District. Distinct challenges on this project included excavation under the 5-Freeway (Caltrans ROW), installation of cathodic protection, anodes, and test stations, installation of a pressure reducing station, working around school schedules, and coordinating with local agencies for street closures.

City of Los Angeles, SZC 12176 – SSRP N-12 Parkview & Beverly Boulevard, Los Angeles, CA | 2013 – 2014
Chris was the Contractor's Project Manager for the City of Los Angeles for the sanitary sewer replacement program of approximately 2,000 linear feet of 8-inch sewer main, eight sewer manholes, and a number of lateral connections to residential and businesses.

Education

BS, Civil Engineering, Amir Kabir University of Technology, Tehran, Iran, 1996

Licenses/Certifications

LEED AP BD+C

Qualified SWPPP Practitioner (expired June 2021)

Certified Erosion, Sediment and Storm Water Inspector No. 3524

Experience

Years' Experience: 22

PEDRAM ABBASSI, LEED AP BD+C, QSP, CESSWI

CONSTRUCTION MANAGER

Mr. Abbassi has successfully completed several large-scale public works improvements projects. His skills in the development of project control procedures and methodologies for cost and schedule control have been implemented on several recent large-scale projects. Pedram has accrued more than 22 years of construction industry experience, demonstrating his expertise in a range of responsibilities. He has served as a primary point of contact between design team members, general contractors and owner representatives. Pedram's responsibilities have included onsite owner representation, change management processing, project administration, schedule and budget analysis, safety and security for prime contractors, daily communication with the owner, engineering department, architect, consultants and prime contractors regarding plans and specification compliance. Responsibilities have also included chairing weekly meetings, managing the project budget and schedule. He has performed all project administration functions such as submittals, RFC's, billings and contract close out. Pedram has been in charge of managing all aspects of construction on the site including, but not limited to, pre-planning, phasing, coordinating with contractors, subcontractors, coordinating for permits and coordinating with adjacent owners. He also conducts constructability reviews and provides technical support during project bidding and award. Pedram has completed projects as both a Construction Manager and an Inspector, possessing office and administrative skills, as well as field experience. He possesses a thorough knowledge of the Standard Specifications for Public Works Construction, OSHA requirements, as well as all the CA MUTCD and WATCH Manual standards for traffic control. Pedram holds QSP and CESSWI certifications and is working on his QSD certification for CCTV sewer video review and evaluation.

REPRESENTATIVE EXPERIENCE

Water Main Improvements Project on Grand Ave, City of El Segundo, CA
Senior Construction Inspector for this $2 Million project the improvements on Grand Ave from Center Street to Pacific Coast Highway. This project involves the abandonment of the existing asbestos pipe and installation of new 10-inch ductile iron water main and all service lines for the city of El Segundo. Grind and overlay along Grand Ave between PCH and Center Street. Removal of PCC sidewalks were also done.

Buccaneer Park Beachfront Improvements, City of Oceanside, CA
Construction Manager for the project which will emphasize improvements to the old park restrooms and the park's connections to the Loma Alta Slough and the Coastal Rail Trail. The partially completed trail for pedestrians and cyclists will eventually extend 44 miles from Oceanside to San Diego. Based on ana analyss of existing park conditions and community input from public meetings and surveys, the staff will develop a conceptual design for the park's future configuration.

Palm Court Stockpile Relocation, City of Irvine, CA
Project Manager for the relocation of approximately 200,000 CY of earth from an existing stockpile less than a mile away to a new location. This project includes clearing and grubbing, excavation, export, placement of export, basins, storm drain, storm drain inlets and outlets, base paving, erosion control, project mobilization, Storm Water Prevention Plan, and Traffic Control.

2020-01 Street Pavement Maintenance Rehabilitation, City of Corona, CA
Construction Inspector on this $3.4M project which includes the rehabilitation of approximately 43 lane miles of local and major streets. The scope of work consists of grinding and overlaying, application of ARAM, slurry seal, and restriping. The project also included PCC replacement including sidewalks, ADA ramps, and curb and gutter.

2017-2018 Electrical Distribution Equipment Replacements, Moulton Niguel Water District, Laguna Niguel, CA
Senior Construction Inspector for this $500K capital improvement project which is replacing utility

service sections at five sites that have reached the end of their useful lives. The 2017-18 Electrical Distribution Equipment Replacements project consists of electrical equipment replacements at five of the District's potable water pump stations: Beacon Hill, Bear Brand, Big Niguel, Pacific Island Drive No. 1 and Valencia. Each of the pump stations receive electrical utility power from San Diego Gas & Electric, with the lone exception of Big Niguel which is served by Southern California Edison. Other electrical and structural improvements will be completed to accommodate the new service sections.

University Drive Widening (Campus to MacArthur), City of Irvine, CA
Construction Manager/Senior Construction Inspector for the University Drive Widening Project ($16M) which included parkway improvements, street improvements, storm drain improvements, water improvements and landscape and irrigation for the adjacent bike trail. His services included bid management, construction management, daily inspection services and project closeout. The project consisted of traffic control, unclassified excavation, unclassified fill, construction of PCC curb ramps, median curb, curb and gutter, sidewalk, crack sealing, uniform depth cold milling, asphalt base course, asphalt concrete surface course, adjusting utility manholes and valves to grade, installation of traffic signs, striping, pavement markings, and raised pavement markers, installation of new traffic signals, traffic signal modifications, SCE coordination and installation of new streetlight infrastructure, storm drain installation, landscaping, irrigation system and water quality BMP's.

Adventure Playground, City of Irvine, CA
Construction Manager/Senior Construction Inspector for this $3M park project located on a 4.5-acre site within University Community Park that served to reconstruct and rehabilitate the playground area to provide updated amenities that complied with existing playground safety standards. The scope of work included installation of new play equipment, construction of a new restroom and storage building, construction of concrete walkways, decorative walkways, retaining walls, slides and benches, landscaping and irrigation. The project also included off-site water, sewer and storm drain improvements.

Santa Ana Stadium Structural Concrete Repair, City of Santa Ana, CA
Construction Manager on behalf for the City of Santa Ana and oversaw the $2.5M repair of the Santa Ana Stadium. The structural concrete retrofit included the design and installation of temporary support, replacement of the parapet wall and degraded beams with 4,000 PSI concrete, sandblast rebar and applying rust inhibitor, corrosion-related spall repairs, cracks epoxy injection, U-shaped galvanized plate at post and joint seal with backer rod. The project also featured a complete interior remodeling of the media box included drywall, epoxy floor, fixtures, door and locks.

Former YMCA Building Materials Abatement & Environmental Remediation, City of Santa Ana, CA
Construction Manager on behalf for the City of Santa Ana and oversaw the materials abatement and environmental remediation of the YMCA building ($2.5M). The project included the abatement of asbestos-containing materials (ACM's), asbestos-containing construction materials (ACCM's) and assumed ACM's that may be disturbed in association with upcoming renovation or demolition activities for structures associated with the Young Men's Christian Association (YMCA) Building Renovation Project. Four structures were planned for renovation or demolition, including the main building, southwest building, concrete block building and the handball courts per South Coast Air Quality Management District (SCAQMD) Procedure 5 (PS) Plan.

Signal Hill Police Station, City of Signal Hill, CA
Project Manager for the new $8.5M police station which earned LEED certification and included a jail, police records archives, an investigation division, administrative offices and an adjacent property storage building.

Pier G Administration and Operations Buildings, Port of Long Beach, CA

Project Manager for the $45.9M improvements which included the phased construction of an approximately 46K sq ft Silver LEED-certified administration building, an approximately 30K sq ft Silver LEED-certified operations building, an approximately 800 sq ft driver services building, temporary guard shacks, and associated employee/visitor parking.

The Broad Stage and Edye Second Space, Santa Monica Community College District, CA
Project Manager for this $34.3M project which consisted of state-of-the-art performance, rehearsal and dressing rooms, practice facilities, orchestra lift, technologically advanced sound and performance lighting systems. The project was awarded "Project of the Year" in Higher Education from California Construction Magazine.

Norwalk Transportation and Public Service Facility, City of Norwalk Department of Public Transportation, CA
Project Manager for the $13.7M project from inception through completion, which formulated the basis of a professional relationship with the City that continues today. Effectively completed the construction of the Norwalk Transportation Center in 2002. Off-site improvements consisted of the construction of street and underground utilities; asphalt concrete sidewalk, curb and gutter; landscape, hardscape and irrigation; the installation of traffic striping and markings; and all other associated work. Professional services included programming, master planning, architecture and interior design.

Restroom Facility at 3rd Street and Bush Street, City of Santa Ana, CA
Construction Manager for this project and acted as staff for the City of Santa Ana. Oversaw the design-build of a new restroom facility ($1M). The project included connection to new utility services (water, electrical, sewer), CMU structure and foundation with metal roof and all features, demolition of existing parking area, importing soil, compaction, new concrete pavement and drinking fountain, new irrigation station and landscaping, and parking lot lighting modifications, including removing two light pole standards and replacing all light standard fixtures.

Pasadena High School, Pasadena Unified School District, Pasadena, CA
Project Manager for this $23.5M improvement project which required the modernization of facilities, including new elevators, boiler and chiller lines, fire alarm and sprinkler systems, framing, hardware, and irrigation, in addition to electrical, mechanical and plumbing systems.

Rio Del Norte Elementary School, Rio School District, Oxnard, CA
Assistant Project Manager for this $9.6M project. Scope required the new construction of seven buildings, including administrative offices, classrooms, an auditorium theater and outdoor playground.

Santa Ana Police Station South Entrance Security Improvements, City of Santa Ana, CA
Construction Manager that acted as staff for the City of Santa Ana and oversaw the security improvements for the south entrance of the Santa Ana Police Station. This $1.2M project included furnishing and installing a crash-rated drop arm beam barrier system Model TT212E, integrating and programming the new drop arm beam barrier system with the existing south entry gate card reader for timing synchronization, loop detector in place and synchronization with beam barrier/gate, flush-mounted spike unit, installing/upgrading slide gate operators, HySecurity Slide Driver 80 222 x1 ST (with UPS Backup), relocating card reader (including PCC curb and median island), traffic signal unit and post, steel post bollards, pavement striping and prefab guardhouse by "Allied Modular" (including repairing/relocating irrigation, concrete slab and electrical connection).

3rd Street Traffic Calming Project (Birch Street to Spurgeon Street), City of Santa Ana, CA
Construction Manager oversaw the traffic-calming street improvement in the Santa Ana downtown area. The project with budget of $1.5M included AC pavement, PCC sidewalk, PCC curb ramp, PCC curb and gutters, AC DIKE traffic circle, brick paver band, adjusting manhole, water valve, and pull box frame/cover to grade, constructing new median with landscaping, signing and

striping, furnishing and installing bike racks, furnishing and installing bench, and installing tree grates and wayfinding markers in downtown sidewalks.

Trabuco Roadway Widening and Streetscape, City of Lake Forest, CA
Served as Assistant Construction Manager on this one-mile roadway widening and streetscape project. The project with budget of $5M included asphalt overlay and reconstruction; construction of curbs and gutters, enhanced crosswalks, bike lanes, sidewalks, driveways and driveway approaches, several block walls, and a wrought iron fence; pavement striping and markings; traffic signal improvements; installation of roadway signs and lighting; installation of a raised and landscaped median; and the installation of parkway landscaping and irrigation.

El Toro/Aliso Creek Widening Phase II, City of Laguna Woods, CA
Served as Assistant Construction Manager on this federally funded roadway-widening project. This project was Phase II of a two-phase capital improvement program to widen El Toro Road and accommodate a paved 6' wide Class II bike trail and a sidewalk that varied in width from 6' to 9'. The work consisted of construction of the sidewalk, retaining wall, and associated drainage structures, and the relocation of the existing Class II bike lane, in addition to cold milling the existing curb ADA access ramps, adjusting utilities to finish grade, applying traffic striping with pavement markers and legends (stenciling) and reinstalling traffic detector loops.

Antonio Parkway Rehabilitation, City of Rancho Santa Margarita, CA
Served as Construction Manager on this street improvement project with budget of $1.4M. Improvements included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; roadway reconstruction and resurfacing; traffic signage and striping; and traffic signal modifications.

Robinson Ranch Road Traffic Calming Improvements, City of Rancho Santa Margarita, CA
Served as Assistant Construction Manager on this street improvement project. Improvements with budget of $1M included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; roadway reconstruction and resurfacing; traffic signage and striping; and traffic signal modifications.

El Toro Road and Jeronimo Streetscape Improvements, City of Lake Forest, CA
Served as Assistant Construction Manager on this streetscape improvement project. Improvements with budget of $2M included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; new raised medians; roadway reconstruction and resurfacing; traffic signage and striping; traffic signal modifications; and median and parkway landscaping and irrigation. The project also included construction of new monument signage along the El Toro Road Bridge.

Rockfield Streetscape Improvements, City of Lake Forest, CA
Served as Assistant Construction Manager on this streetscape improvement project. Improvements included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; new raised medians; roadway reconstruction and resurfacing; traffic signage and striping; traffic signal modifications; and median and parkway landscaping and irrigation.

Harbor Boulevard Beautification, City of Costa Mesa, CA
Construction Inspector on this federally funded streetscape improvement project designed to enhance the landscape and overall streetscape of Harbor Boulevard with budget of $1.3M. The work consisted of constructing landscape buffers between the street curb and the sidewalks with drought-tolerant landscaping, state-of-the- art irrigation and the planting of mature palm trees to create a more comfortable pedestrian atmosphere. Improvements included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; roadway reconstruction and resurfacing; traffic signage and striping; and median and parkway landscaping and irrigation. Work also included installing a monument sign with solar-powered lighting.

Paving and Sidewalk Repairs, City of Santa Monica, CA
Assistant Construction Manager on this citywide street and sidewalk rehabilitation project. Improvements with budget of $3M included reconstruction of curb and gutter, sidewalks, driveways, and ADA curb ramps; roadway reconstruction and resurfacing; crack seal and slurry seal; and traffic striping and signage.

I-5 Mitigation Rehabilitation of Union Street and Paddison Avenue, City of Norwalk, CA
Construction Manager on this street improvement project. Improvements with budget of $1M included reconstruction of curb and gutter, sidewalks, driveways and ADA curb ramps; roadway reconstruction and resurfacing; crack seal and slurry seal; and traffic striping and signage.

Commercial/Industrial Stormwater Inspection, City of Laguna Hills, CA
Stormwater Inspector for the City of Laguna Hills. Provided the City with stormwater inspection services for various commercial and industrial facilities throughout the City, including restaurants, automotive facilities, shopping centers, medical buildings, schools, churches, banks, churches, grocery stores, movie theaters and hotels. Thorough BMP inspection reports included date, time and weather during the inspection; management name and contact information; condition of BMP; action required; and whether a follow-up visit would be necessary. Detailed photos were taken to accompany each report. Also provided business-relevant BMP educational materials to assist with understanding and future compliance.

NPDES Compliance Inspection, City of Santa Ana, CA
Construction Manager/Inspector for the City of Santa Ana and inspected facilities and construction sites for NPDES compliance. Thorough BMP inspection reports included date, time and weather during the inspection; management name and contact information; condition of BMP; action required; and whether a follow-up visit would be necessary. Detailed photos were taken to accompany each report. Our staff also provided business-relevant BMP educational materials to assist with understanding and future compliance.

JOHN REIDINGER, CCM, B-LIC
CONSTRUCTION MANAGER

John Reidinger has over 28 years of experience in construction and project management for public and private projects within Southern California and internationally. He has experience in a variety of construction projects including construction management, personnel management, environmental compliance, city and agency permitting, plant science, management of site staff and contractor's staff, coordination with agency/owner staff for operational start up and design implementation. John's extensive background in managing all facets of major public projects has allowed him to build a successful track record in completed complex projects. He is a seasoned self-starter who will represent our clients whole heartedly and will get the job done.

REPRESENTATIVE EXPERIENCE

City of Huntington Beach, McFadden Sewer Lift Station Replacement Project, Huntington Beach, CA

Construction Manager on this $3.12M project that consists of the abandonment and demolition of an existing sewer lift station, and the installation of a new 120 gpm submersible sewer lift station, wet well, valve vault, force main, and emergency generator. The project includes the construction of new gravity sewers, as well as curb, gutter, sidewalk and AC paving.

City of Huntington Beach, Slater Sewer Lift Station Replacement Project, Huntington Beach, CA

Construction Manager on this $4M project which consists primarily of the abandonment and demolition of an existing sewer pump lift station and various sections of existing sewer lines, removal of existing electrical panels and conduit, sidewalk, pavement, and surface improvements, sewer bypassing and traffic control. The project also includes the installation of new sanitary sewer lines, installation of a new sewer lift station and valve vault, installation of new wet well submersible pumps, replacement of a force main, asphalt paving and removal, restoration of existing public and private improvements and related appurtenant work.

City of Corona, Citrus Circle Utility Project, Corona, CA

Construction Inspector for this $400K utility project providing new fire service lines, new potable water lines and irrigation lines for development project. Duties include ensuring contractor compliance with plans and specifications; prepare daily documentation of the project, coordinating with City operations staff and project manager.

City of Corona, West Rincon Malloy Sewer Project, Corona, CA

Construction inspector for this $300K new sewer line that supported new development in the City. Duties included ensuring contractor compliance with project plans and specifications, prepared daily documentation of the project, coordinated with City operations staff and project manager.

City of Manhattan Beach, 2013 Annual Sewer Manhole Rehabilitation Project, Manhattan Beach, CA

Resident Inspector for this $300K Rehabilitation of sewer manholes and lid replacements throughout the City. Work included primary arterials like Sepulveda Street which required Caltrans coordination and traffic control. Duties include ensuring contractor compliance with plans and specifications, prepare daily documentation of the project, administer the contract, prepare and negotiate contract change orders, respond to RFI's, process submittals, coordinate materials testing sub-consultant, and coordinate with City departments

City of Corona, Green River Road Widening Project, Corona, CA

Construction Manager/Construction Inspector for this $6.2M roadway project. Green River Road was widened from Palisades Road to State Route 91 from four lanes to six lanes. The street widening also included a new traffic signal at Palisades Road and a signal modification at Dominguez Ranch Road, new medians with drought resistant plants, new sidewalk on the south side from Dominquez Ranch Road to State Route 91 and other ancillary improvements including new storm drain improvements, curb and gutter. This project was funded in part by Measure A, Gas Tax Major Rehabilitation Fund and Santa Ana River Trail (SART) Interim Bike Align Route. Duties included administering construction contract, oversight of City staff inspector, managing materials testing and survey QA, preparing daily reports, processing project documents, reviewing and

approving progress payments, managing change order process, reviewing and approving submittals, responding to RFI's, preparing project as-builts and close out documentation. Project features included arterial road widening, utility relocations, storm drain and traffic signal work.

BENJAMIN TORRES, CMIT, CPSI, LEED GA
CONSTRUCTION MANAGER

Ben has over seven years of experience in construction and construction management, representing both owners and contractors on a variety of residential, commercial, utility, and public works projects of various scale. He is experienced with site observations for pre-construction assessments and dispute resolutions. Mr. Torres is familiar with conducting document control on projects including project records, payment applications, change orders, RFI's, schedule review and closeout. His diverse background managing projects from both the contractor perspective and owner perspective, brings a unique, well-rounded understanding to a project.

RECENT PROJECT EXPERIENCE

City of Seal Beach Public Works Division, Pier Emergency Repairs,
Seal Beach, CA
Construction Cost: $1.3M | Project Timeline: 2023 – Present
Project consists of Project Management and Construction Management services to repair storm damaged piles, bracing, railings, and gangway to the wooden sections of the Seal Beach Pier. Mr. Torres is also coordinating structural assessment reporting to support City's insurance claim for the storm damaged scope of work. Site management of the contractor is performed regularly in coordination with the Lifeguard, Police, and City Facility Department staff.

City of Seal Beach Public Works Division, Tennis Center Improvement Project,
Seal Beach, CA
Construction Cost: $3M | Project Timeline: 2022 – Present
Project consists of Project Management and future Construction Management services to renovate the Seal Beach Tennis Center clubhouse, court lighting, and demolition of existing locker room building. Upgrades to facility telecommunications, and security systems will also be added. Mr. Torres is also providing constructability review of the plans and technical specification in coordination with the design team. Bidding phase coordination is also being provided by Mr. Torres, as well as the future Construction Management services thorough all construction phases of the project.

City of Seal Beach Public Works Division, Pier Abutment & Restroom Restoration,
Seal Beach, CA
Construction Cost: $1.3M | Project Timeline: 2022 – Present
Project consists of Project Management and future Construction Management services to restore the Seal Beach pier concrete abutment and pier restrooms. Mr. Torres is also coordinating the development of the pier abutment specifications along with the inspection and testing scope of work to develop a construction assessment. Bidding phase support and review will also be provided by Mr. Torres, as well as Construction Management services thorough all construction phases of the project.

Thomas Safran & Associates, Inglewood Market Gateway Development,
Inglewood, CA
Construction Cost: Est. $200K | Project Timeline: 2022
Project consists of site observations to document the project's T&M work to complete the installation of a new sewer lateral lines, three sewer manholes, new domestic water main line laterals, relocation of an existing fire hydrant, a new fire hydrant lateral line, and city street demo and grading operations. Mr. Torres is functioning as a third-party observer to document all details of this work to provide legal documentation for the project developer. Strict adherence to communication and reporting followed to properly support the developer and their representatives.

City of Long Beach Public Works Division, Recreation Park Playground,
Long Beach, CA
Construction Cost: $1.9M | Project Timeline: 2021 – 2022
Project consisted of the removal of the existing playground and import 700CY of soil to regrade site, install new play equipment, new rubber surfacing, 3 GFRC dinosaur installations, new hydration

station, ADA access ramp and walkway from parking lot, new ADA parking stalls, new skateboarding area with grind rail and manual pad, new ADA picnic tables, new sidewalks, new landscape irrigation systems, new trees, seed and sod installations, and water cross-connection compliance. As Construction Manager, Mr. Torres was responsible for document control, payment, contract review, design coordination, cost dispute negotiations, and closeout. In addition, he was responsible for vendor and contractor coordination, material tracking, change management, schedule review, QC, progress payments, field dispute resolution, inspector compliance, site meetings, routine coordination between the City's Parks, Recreation, Street Light, Technology & Innovation, Health, and Water Departments.

City of Long Beach Public Works Division, Colorado Lagoon Playground, Long Beach, CA
Construction Cost: $754K | Project Timeline: 2021-2022
Project consisted of the removal of the existing playground and regrade site, new playground equipment and rubber surfacing, new ADA walkway, new sidewalks, tiered bench seating, new ADA picnic tables, new landscape irrigation controller and equipment, new seed & turf installations, and coastal commission compliance. As Construction Manager, Mr. Torres was supported the training of a new City project manager with document control, payment, contract review, cross departmental coordination, cost dispute negotiations, design change review, and closeout process. In addition, he was responsible for vendor and contractor coordination, material tracking, schedule review, QC, change management, progress payments, field dispute resolution, inspector compliance, site meetings, routine coordination between the City's Parks, Recreation, Marine, Technology & Innovation, Public Transit, Health, and Water Departments.

City of Long Beach Public Works Division, El Dorado Park West Artificial Turf Soccer Field, Long Beach, CA
Construction Cost: $3.1M | Project Timeline: 2021
Project consisted of clearing and regrading of existing site, new artificial turf soccer field, new field goals and backstop netting, new perimeter railing, new artwork boulders, new ADA sidewalk approaches, new sidewalks, new below grade electrical lines, upgrades to electrical switchgear, new water main laterals for new high pressure cooling system, new landscape irrigation controller and backflow equipment, new catch basins, new trees, seed and sod installations, new hydration station and water cross-connection compliance. As Construction Manager, Mr. Torres was responsible for coordination of multiple prime contracts, schedule review, QC, change order negotiations, progress payments, weekly meetings, field resolution, project documentation, regular communication with contractors and city inspector, coordination between City's Parks, Recreation, Health, and Water Departments.

Southern California Edison, 12kV Cap Bank 1 & 2 Relocation, San Bernardino, CA
Construction Cost: $152K | Project Timeline: 2020
Project consisted of emergency concrete repair work to remove all existing concrete footings and below grade material to install new foundations. Installed eight new concrete foundations for two capacitor banks, along with new perimeter fence enclosures. As Construction Site Rep, Mr. Torres was responsible for project scope verification and approval, daily communication with contractor to ensure project success, coordination with supporting SCE members and vendors, project document control, ensure project schedule and work was delivered as planned, change order management and project scheduling.

Southern California Edison, Chase & Databank SPCC Mitigations, Corona, CA
Construction Cost: $50K | Project Timeline: 2020
Project consisted of demo existing SPCC asphalt berms and installation of new SPCC asphalt berms per current SCE standards at both substation locations. As Construction Site Rep, Mr. Torres was responsible for project scope verification and approval, daily communication with contractor to

ensure project success, coordination with supporting SCE members and vendors, project document control, ensure project schedule and work was delivered as planned and project scheduling.

Southern California Edison, Safari Greenfield, Irvine, CA
Construction Cost: $8M | Project Timeline: 2019-2020
Project consisted of a new 33kV low profile substation, 14' high block wall, below grade conduit banks & vaults. As Construction Site Rep, Mr. Torres was responsible for project scope verification and approval, daily communication with contractors to ensure project success, coordination with supporting subcontractors and vendors to work alongside prime contractors, ensure construction work could continue uninterrupted, and project scheduling.

Southern California Edison, Windhub 220kV Seismic Upgrade, Mojave, CA
Construction Cost: $500K | Project Timeline: 2019
Project consisted of seismic upgrade work was repeated within seven 220kV energized positions. Scope included the installation of new CCVTs, steel, conduit runs & wiring, 12' deep concrete footings. As Construction Site Rep, Mr. Torres was responsible for project scope verification and approval, daily communication with contractor to ensure project success, coordination with supporting SCE members and vendors, project document control and ensure project schedule and work was delivered as planned.

The Learning Group, Toddler Room Remodel, Longmont, CO
Construction Cost: $100K | Project Timeline: 2019
Project consisted of new children's restroom, interior walls, new security door, interior painting, tile and carpet flooring, and concrete sidewalk. As the Project Engineer, Mr. Torres worked closely with the Superintendent, and Project Manager to support subcontractor site management and reporting, QC/QA of subcontractor performance, material procurement, project scheduling, subcontractor bidding, review and selection, contract review, change management, project budget management, document control, system testing and closeout. In addition, routine coordination with the city and fire department for permitting and inspections.

BREG, Broe Corporate Point Refresh, Colorado Springs, CO
Construction Cost: $1.3M | Project Timeline: 2019
Project consisted of commercial tenant improvements within the lobby and corridors of a three-story functioning office building. Scope included tile and carpet flooring, drop ceiling, interior paint, art wall murals, light fixtures, telecommunication wiring, coffee bar, and digital message board and digital display installation. As the Project Engineer, Mr. Torres worked closely with the Superintendent, and Project Manager to support subcontractor site management and reporting, QC/QA of subcontractor performance, material procurement, project scheduling, subcontractor bidding, review and selection, contract review, change management, project budget management, document control, system testing and closeout. In addition, routine coordination with the city and fire department for permitting and inspections.

GCC, 1811 Lefthand Circle Tenant Improvement, Longmont, CO
Construction Cost: $1.4M | Project Timeline: 2019
Project consisted of commercial tenant improvements to create a new warehouse space and new fire suppression system. Utility scope included a new water main to the existing public line, street and parking lot trenching to extend new water line to the building; traffic control; QC/QA of all roadway repair and new plumbing installation. The building improvement scope consisted of new warehouse loading ramp & door, restroom remodel, interior wall partitions, interior paint, exterior & interior security doors, and fire suppression system. As the Project Engineer, Mr. Torres worked closely with the Superintendent, and Project Manager to support subcontractor site management and reporting, QC/QA of subcontractor performance, material procurement, project scheduling, subcontractor bidding, review and selection, contract review, change management, project budget management, document control, system testing and closeout. In addition, routine coordination with the city and fire department for permitting and inspection approvals.

Work History

Anser Advisory, LLC (formerly DHS Consulting, LLC), Resident Engineer, 09/2014 to Current

TYSON ATWOOD, PE, QSD

CONSTRUCTION MANAGER

Tyson has nearly 20 years of experience successfully providing engineering construction management services for a wide variety of capital improvement projects including: substation construction, railroad grade separations, airport rehabilitations, highway construction, wastewater treatment facilities, water supply infrastructure, utility undergrounding, and general roadwork. Tyson also has vast experience in Active Transportation (ATP) construction having managed over 50 miles of Class I, II, and IV facilities. Tyson's main focus has been working with federal funds and is an expert in administering projects utilizing the Caltrans Local Assistance Procedures Manual (LAPM). He is highly experienced with both the Caltrans Standard Specifications and "Greenbook." Tyson is also an advanced user with software such as: Bluebeam Revu, Primavera P6, e-Builder, AutoCAD, Microsoft Word, and Excel.

SELECT PROJECT EXPERIENCE

San Diego Association of Governments, Bayshore Bikeway – Barrio Logan Project, San Diego, CA
Construction Cost: $19M | Project Timeline: 03/2022 – Current

Tyson serves as the Resident Engineer responsible for the overall management and coordination of project operations, including the management of the contractor. The Barrio Logan Bikeway will make it safer and easier for people of all ages and abilities to bike along Harbor Dr. in Barrio Logan. Features include traffic roadway improvement, signal improvements, safer crossings, and other streetscape enhancements that make streets more pleasant for everyone – people who bike, walk, work, and live there.

San Bernardino County Transportation Authority, I-10 at Alabama Street Interchange Project, Redlands, CA
Construction Cost: $14.38M | Project Timeline: 03/2020 – 06/2023

Tyson is the resident engineer on this $14.38 Million project which widens two existing off-ramps from two to four lanes to relieve traffic congestion in the City of Redlands. Project elements to achieve this goal are to construct Type 1 Retaining Walls, install new drainage systems, ADL excavation and handling, HMA mill/overlay, Rapid Set JPCP, new signal poles, ramp metering system, signage, striping, landscaping and irrigation and SWPPP Risk Level 1 Compliance. Tyson is responsible for the day-to-day coordination and management of the contractor which includes duties such as weekly statement of working days, pay quantity calculation and estimates, drafting change orders, reviewing project schedules, oversight of inspection staff, surveyors, biologists, and material testers, conducting weekly meetings, Caltrans LCS coordination, and public outreach coordination with SBCTA Public Relations.

Coachella Valley Association of Governments (CVAG), CV Link Multi-Modal Transportation Facility, Coachella Valley, CA
Construction Cost: $130M+ | Project Timeline: 03/2020-Current

Senior Resident engineer responsible for construction of 41.1 miles of combination bikeway and NEV path construction throughout the Coachella Valley. Major project highlights include, 40+ miles of concrete path, two new bridges, park like improvements including shade structures, and flood channel improvements. Major stakeholders include: City of Palm Springs, City of Palm Desert, City of La Quinta, City of Indio, City of Coachella, and Coachella Valley Water District.

City of Palm Desert, CV Link Project No. 707-20, Palm Desert, CA
Construction Cost: $3M+ | Project Timeline: 10/2019-2021

Tyson was the Resident Engineer responsible for all aspects of the project which included over 3.1 miles of combination on Class IV bikeway and NEV path construction on. Project also includes construction on of an architectural access point and traffic signal improvements. Project requires coordination on with various agencies included Coachella Valley Water District (CVWD) and College of the Desert. During the pre-construction phase, Tyson lead the CM team with

constructability review, advanced development of project specifications, utility coordination, and project scheduling.

County of San Diego, AC Overlay FY '17/18 – Segment 'C', San Diego, CA
Construction Cost: $9.2M | Project Timeline: 09/2018-07/2019
Tyson was the Resident Engineer responsible for all aspects of the project which included over 122 locations, totaling over 30 miles of roadway improvements. The program consisted of a combination of asphalt overlays and mill and inlays which utilized both Type A Hot Mix Asphalt (HMA) and Polymer Modified Asphalt Concrete (PMAC). The project also included AC dike replacement, fog seal, ADA ramp improvements, video detection signal improvements, and striping. Responsible for ensuring that traffic control was setup and maintained based on the approved traffic control plans. Although there were significant additional costs during construction, due to advanced forecast modeling by Tyson, the project scope was altered on several roadways, allowing the overall project to come in under budget.

SANDAG, North Park | Mid-City Georgia – Meade and Landis Bikeway Projects, San Diego, CA
Construction Cost: $16.4M | Project Timeline: 09/2019-12/2021
Tyson was the resident engineer responsible for the construction of over 6.5 miles of new bikeway through two parallel streets in the urban area of North Park in San Diego. The projects are designed to enable people to bike and walk safely on more direct and convenient routes within and between major regional destinations and activity centers. The main feature of the project is the addition of 18 neighborhood traffic circles. Other features include buffered bike lanes, raised crosswalks, reverse angle parking, and other traffic calming measures.

SANDAG, Hill Street Slope Repair and Stabilization, San Diego, CA
Construction Cost: $3.1M | Project Timeline: 08/2018-05/2020
Tyson was the Resident Engineer in charge of the project which stabilized over half a mile of failing slope along an active MTS trolley track. The slope was step graded during construction in order to achieve stability. Daily coordination with MTS was required in order to ensure proper flagging and safety measures are in place related to specific daily tasks. The project also included streets improvements and coordination with local commercial buildings in the area. A VECP change order was executed which changed the retaining wall from soldier piles to gravity retaining wall system, saving the project significant funds. The project had federal funds and was managed under the SANDAG and Caltrans LAPM guidelines for federally funded projects.

County of Imperial, CMAQ Various Unpaved Roads, Imperial County, CA
Construction Cost: $1M | Project Timeline: 02/2018-01/2019
Tyson was the Resident Engineer responsible for all aspects of project which constructs three-inch AC Grindings Caps on six various unpaved roads throughout various locations of Imperial County. Project consists of minor grading, compacted Class II Base, and placement of SS1h oil prime coat. Project had to work around several environmental mitigation issues, including a partial project suspension due to nesting burrowing owls. Project managed under guidelines specified in the Caltrans LAPM.

SANDAG, Bayshore Bikeway Segments 4B and 5, San Diego, CA
Construction Cost: $2M | Project Timeline: 12/2016-07/2018
Tyson was the Resident Engineer responsible for all aspects of the project which included 2.2 miles of a combination of Class I, II, and III type bicycle facility, security fence replacement, and bridge work. Project went through various agencies right-of-way and/or property which required the coordination with: National City, Port of San Diego, San Diego Gas & Electric, BNSF, and the Navy. The project also included a gravity retaining wall, metal beam guardrail, AC improvements, and a new Navy/SDG&E security fence. Major project responsibilities included: monitoring safety, develop progress payments, answering RFIs and submittals, contract change orders, weekly and monthly reporting, monitoring contract compliance with the plans and specifications, schedule review, managing field personnel, communication among all project stakeholders.

SBCTA (formerly SANBAG), North Milliken Avenue Grade Separation, San Bernardino, CA
Construction Cost: $27M | Project Timeline: 06/2010-08/2013
Assistant resident engineer on a team providing construction management and inspection services for the construction of the new Union Pacific Railroad (UPRR) bridge over north Milliken Avenue in the City of Ontario. The bridge was a two-span precast concrete box beam structure that was 52 feet wide and 168 feet in length. The project involves elevating the profile of the railroad track up to 28 feet in height so that the trains will travel over the existing roadway at north Milliken Avenue. Over 300,000 square feet of T-Wall retaining wall panels will be placed on the project to elevate the tracks and support the UPRR freight trains. The T-Wall retaining wall panels are an AREMA approved proprietary wall system with over 7,000 individual panels placed over a four-mile stretch. The project also involved: utility relocations, PCC paving, asphalt paving, shoofly track, traffic signals, electrical, lighting, stage construction, traffic control, landscape and irrigation, signing and striping.

SDG&E, Ocean Ranch Substation, Oceanside, CA
Construction Cost: $10M+ (Confidential) | Project Timeline: 01/2018-12/2019
Senior resident engineer for new greenfield 69kV/12kV substation. Project developed a 10-acre site with storm drain improvements which included the construction of three detention basins totaling over two acres in size. Project included over 11,000 SF of new CMU screen walls, equipment foundations, storm drain, and landscape. In addition to site development, the project included the installation of two new underground 69kV circuits as well as four new underground 12kV circuits to various offsite locations. Mr. Atwood successfully rephased the original construction schedule and completed the project over a month ahead of schedule.

SDG&E, SONGS Synchronous Condenser, San Diego, CA
Construction Cost: $100M+ (Confidential) | Project Timeline: 03/2015-12/2018
Construction manager and site development engineer for Design-Build project which included mass grading, over 17,000 SF of soil nail wall,2,000 SF of soldier pile wall, 2,000 SF of CIP wall, equipment foundations, and equipment shelters. Tyson managed the development of the concept drawings, developed the site development schedule and cost estimate, put together exhibits for several permits including the California Coastal Commission. During the design phase, Tyson reviewed civil and structural drawings related to site development, including constructability reviews. Tyson was the Resident Engineer for the utility relocation package and site development portion of project. Soldier Pile wall was constructed next to a 230kV bus system which required coordinated outage efforts with SDG&E. He successfully worked with the Contractor to find scheduling solutions which brought the schedule in after a two month delay due to weather.

SDG&E, Mira Sorrento Substation, San Diego, CA
Construction Cost: $8M (Confidential) | Project Timeline: 07/2013-01/2015
Resident engineer/inspector for project which exported and imported 35,000 cubic yards of material in a 65-foot cut zone. Dewatering was required to remove 3,000 cubic yards shallow landslide at the toe of the cut. Installed over 30,000 square feet of a two tiered, Verdura MSE Retaining Wall at heights of 35 and 25-feet, respectively. Over 12,000 square feet of CMU screen wall was installed around the perimeter of the site. The project also involved: storm drain, asphalt paving, two retention basins, miscellaneous concrete, planting and landscaping, and irrigation. Project was awarded the ASCE "Outstanding Project" in 2015.

SDG&E, Wabash Substation Modification, San Diego, CA
Construction Cost: $3.5M (Confidential) | Project Timeline: 01/2014-01/2016
Resident engineer for site development project which consisted of nearly 10,000 square feet of a combination soil nail and soldier pile retaining wall with a Boulderscape finish, Class II base grading, security fencing, and drainage improvements. Project built with an accelerated schedule and despite rain and utility delays, finished on time. Coordination between five main phases was required throughout the length of the project. Successfully negotiated a differing site conditions delay claim down to less than 20% of the original claim amount.

Point Loma Soldier Pile Retaining Wall Project, San Diego Gas and Electric (SDG&E), San Diego, CA
Construction Cost: $1.2M | Project Timeline: 01/2014-01/2015
Resident engineer for 1,500 square foot retaining wall project that was less than 25 feet away from live equipment inside of an active substation. Extensive coordination was required in order to plan for required outages throughout various stages of construction.

San Luis Rey Synchronous Condenser, San Diego Gas and Electric (SDG&E), Oceanside, CA
Construction Cost: $200M+ (Confidential) | Project Timeline: 08/2015-06/2018
Site development engineer for Design-Build project which included 42,000 cubic yards of mass grading, over 10,000 square feet of Verdura MSE Retaining walls, equipment foundations, equipment shelters, and storm drain improvements. Provided onsite quality assurance during the construction of both the GIS and SynCon buildings. Worked extensively with the contractor to help mitigate errors is the previously established baseline CPM schedule. Due to scheduling expertise, was able to show where logic ties were incorrect with the overall critical path of the project, which lead to the contractor extending work hours and bringing in additional crews in order to complete the project on time.

SONGS Erosion Repair Project, San Diego Gas and Electric (SDG&E), San Onofre, CA
Construction Cost: $500K (Confidential) | Project Timeline: 01/2016 – 05/2016
Project manager and resident engineer for emergency erosion repair project. Tasked to develop project scope, manage design drawings, and procurement of contract by an authorized SDG&E contractor. Worked with SDG&E environmental group to obtain environmental release as well as coordinated with South California Edison (SCE) to make sure work was completed in compliance with all the rules of their facility.

Talega Substation Improvements Project – Phase I, San Diego Gas and Electric (SDG&E), San Clemente, CA
Construction Cost: $1M (Confidential) | Project Timeline: 09/2015-01/2016
Resident engineer for improvement project that took place inside a live 230/138kV substation. Many aspects of the project were ultimately field designed due to the fact that the drawings were not 100% due to the need to start construction. Project started over a month late, but was ultimately completed by the originally needed in-service date due to extended hours and a close working relationship with the Contractor.

Caltrans, Project Cuesta Grade, San Luis Obispo, CA
Construction Cost: $12M | Project Timeline: 08/2001-06/2003
As inspector, provided construction inspection for Caltrans on all aspects of this project which included seven retaining walls totaling two miles in length (four MSE and three tieback), 450,000 cubic yards of earthwork, 80,000 tons of asphalt paving, pipe jacking, geogrid reinforcement fills, a box culvert with the dimensions of 3.0 meters x 3.0 meters x 87 meters. The project added two truck lanes while widening both the inside and outside shoulders of Highway 101 through a pass sloped at 7%. The western most lanes were built up nearly 50-feet using fill from cut slopes on the eastside of the highway. This fill was transported from one side of the freeway to the other using a temporary bridge conveyor system. The box culvert which ran underneath the highway doubled as a recreational bike trail. The construction project total was over $40 million. The project was given the Caltrans Excellence in Transportation Award for Rural Highway in 2004.

AIRPORT

Imperial County Airport Terminal Apron and Taxilane Rehabilitation, County of Imperial, Imperial, CA
Inspector | 2007

Provided inspection for 10,390 square yards of structural pavement removal and replacement. Project was completed in two phases, requiring coordination between the contractor and the Airport Authority.

Imperial County Airport Cargo Apron Construction, County of Imperial, Imperial, CA
Inspector | 2007
Provided inspection for 10,000 square yards of structural pavement and 750 square yards of structural concrete. Project also included 24" slotted drain pipe and other minor concrete work.

Imperial County Airport Pavement Preservation, County of Imperial, Imperial, CA
Inspector | 2007
Provided inspection for 145,000 linear feet of crack seal (¼" – 2"), 198,000 square yards of asphalt slurry seal, and 100,000 square feet of striping. Project required daily coordination between the contractor and Airport Authority due to multiple shutdowns of taxiways and runways.

WATER & SEWER INFRASTRUCTURE

Lower Ridge Reservoir, Hi-Desert Water District, Yucca Valley, CA
Construction Cost: $2.7M | Project Timeline: 2010
Resident engineer and inspector for project which replaced an existing 30,000 gallon structurally deficient tank with a new 250,000 gallon steel water storage reservoir. Site was located on an old fill slope and required a 30' over excavation to meet the geotechnical requirements for the tank foundation.

Lake Morena Oak Shores Water System Improvements, Lake Morena Water Company, Campo, CA
Construction Cost: $1.4M | Project Timeline: 02/2009-11/2010
Resident engineer and inspector for project which installed over 20,000 linear feet of 6" and 8" PVC pipe through paved streets and shoulders, removing deteriorating pipelines from backyards, and added 20 new fire hydrants throughout the town. Project also replaced an 80,000 gallon bolted steel storage tank and rehabilitated a 240,000 gallon tank. Successfully able to negotiate several change orders which allowed for the addition of nearly 2,000 linear feet of pipe while still being under the original contract bid price.

Mesa Verde Water System Improvements, Riverside County EDA, Mesa Verde, CA
Construction Cost: $1M | Project Timeline: 07/2007-03/2008
Resident engineer for project consisting of over 10,000 linear feet of pipe ranging in size from 8 to 12 inches throughout the town of Mesa Verde.

Ocotillo Water System Improvements, Coyote Valley Mutual Water District, Ocotillo, CA
Construction Cost: $700M | Project Timeline: 2008
Resident engineer and inspector for a project consisting of 5,500 linear feet of 10" pipe. Project included the erection of two 100,000 gallon tanks and foundations, as well as the demolition of an existing tank. Project was fully funded by USDA.

Palo Verde Water System Improvements, Palo Verde Water District, Palo Verde, CA
Construction Cost: $1.2M | Project Timeline: 2007
Resident engineer for project which included nearly 5,000 linear feet of 8" PVC, the installation of a new pump station, as well as various improvements to the existing water treatment plant.

Niland Collection System Improvements Project, Niland Water District, Niland, CA
Construction Cost: $700M | Project Timeline: 07/2010-05/2011

Resident engineer and inspector for sewer rehabilitation project which included CIPP installation, recoat manholes with mortar and epoxy, replacement of VCP with PVC lines, various treatment plant upgrades, and sludge removal of a treatment pond.

San Marcos Water Transmission Pipeline Replacement and Street Improvements, City of San Marcos, San Marcos, CA
Project Timeline: 2016
Construction inspector for a 27-inch steel cement mortar lined and coated potable water transmission pipeline replacement project. The pipeline is approximately 4,000 feet long within the right-of-way of San Marcos Boulevard in the City of San Marcos and included roadway widening after completion of the pipeline installation. The pipeline connection point was the SDCWA's Second Aqueduct.

CLAIMS

Santa Maria River Bridge – Caltrans District 5 Claims Analysis, Santa Maria, CA
Construction Cost: $1.7M Claim | Project Timeline: 07/2015 – 08/2015
As part of the claims analysis team, Tyson was responsible for reviewing the total cost claim submitted by the contractor to develop a Claim Findings report for Caltrans. He reviewed the project documentation including INOPC's, NOPC's, Supplemental NOPC's, baseline schedules, schedule updates, bid items, payroll registers, and project correspondence. He was also responsible for the write-up in relation to a number of issues in accordance with the Caltrans Construction Manual.

Hwy 246 Widening; SB-246-12.3/R16.7 – Caltrans District 5 Claims Analysis, Santa Maria, CA
Construction Cost: $1.5M Claim | Project Timeline: 07/2018 – 08/2018
As part of the claims analysis team, Tyson was responsible for reviewing various claims submitted by the contractor to develop a Claim Findings report for Caltrans. The majority of cost associated with the claims were due to impacts associated with nesting birds and other environmental related delays. He reviewed the project documentation including INOPC's, NOPC's, Supplemental NOPC's, baseline schedules, schedule updates, bid items, payroll registers, and project correspondence. He was also responsible for the write-up in relation to a number of issues in accordance with the Caltrans Construction Manual.

CONSTRUCTABILITY REVIEW

Monte Vista Grade Separation, San Bernardino County Transportation Authority, Montclair, CA
Construction Cost: $17.3M | Project Timeline: 01/2016 – 07/2016
Member of CM team responsible for the review the 90% drawing package. As constructability review, direct responsibilities included the review of the following sections: Civil Grading, Storm Drain, Roadway, Construction Staging, Traffic Control, and Striping. Nearly all comments provided were implemented as part of the final design drawings.

LUCAS RATHE, PE, QSD

CONSTRUCTION MANAGER

Lucas Rathe is a multi-disciplined resident engineer and project manager who possesses the experience, lessons learned, and communication skills to lead and manage any construction project. Lucas has managed a large variety of construction projects of various sizes and scopes. Regardless of the cost, scope or complexity, Lucas implements the fundamentals of construction management to maintain safety, quality, schedule and compliance on any project. These fundamentals are rooted in communication and decision making for what is best for the project to move forward to maintain schedule, reduce risk, and maintain budget.

Lucas' expertise is in federally funded transportation projects with Caltrans Local Assistance oversight. He understands that document control and following the process of the Local Assistance Procedures Manual (LAPM) or Caltrans Construction Manual is paramount for Caltrans or Local Agencies to maintain their level of funding. In addition, following the process of the LAPM ensures all aspects of the project are maintained and administered correctly. As a result, the quality of the final product complies with the specified standards and always meets or exceeds the expectations of the communities where the projects are built.

Education

Bachelor of Science, Civil Engineering, University of Pittsburgh, 2003 - 2007

Bachelor of Arts, Mathematics, Seton Hill University, 2003 - 2007

Licenses/Certifications

CA Professional Engineer No. 76273

Qualified SWPPP Developer No. 21590

Experience

Years' Experience: 16

Years with Anser: 9

Work History

Anser Advisory, LLC (formerly DHS Consulting, LLC), Construction Manager, 2014 to Current

SELECT PROJECT EXPERIENCE

County of San Diego, Gillespie Field Vehicle Service Road to West Transient Ramp
Construction Cost: $1.2M | January 2023 – June 2023 (estimated)
Lucas was the resident engineer of this FAA funded contract to construct a new 1,110 linear foot by 12-foot-wide vehicle service road (VSR) along Taxiway D. The VSR was supported by a 12-inch over excavated and recompacted subgrade, 6-inches of P-208 aggregate base, and 6-inches of hot mix asphalt with Recycled Aggregate Product (RAP). Other project elements included drainage upgrades, SWPPP, permanent erosion control, precast biofiltration, Portland Cement Concrete (PCC) apron paving, and new taxiway striping. As resident engineer, Lucas was responsible for the contractor's compliance with the Construction Safety and Phasing Plan (CSPP), coordination with Airport Operations, and general contract administration. The project overcame issues such as Burrowing Owl management, asbestos pipe remediation and necessary drainage and grade changes due to existing conditions as well as working along active hangers and taxiways.

City of Indio, Herbert Hoover Elementary School Pedestrian Improvement Project
Construction Cost: $5.5M | August 2022 – March 2023
Lucas was the resident engineer on this Caltrans Local Assistance project for the City of Indio. The project constructed nearly 4 miles of sidewalk behind existing curb and gutter and reconstructed 278 driveways to the city standard to tie into the new sidewalk as well as 64 new ADA curb ramps. The project also was responsible for relocating 269 water meters and 17 fire hydrants for the Indio Water Authority. As resident engineer, Lucas oversaw day to day administration of the contract but was mostly involved in the constant design changes due to unforeseen existing conditions to ensure proper slopes and ADA provisions were met. In addition, Lucas worked closely with public relations to quickly resolve resident issues or questions as part of the project.

Mission Springs Water District, Regional Water Reclamation Facility
Construction Cost: $41M | December 2021 – September 2023
Lucas is the resident engineer on this 1.5 million gallon per day (MGD) sequencing batch reactor (SBR) style wastewater treatment plant. Project elements include SBR Structure, headworks facility, lift station, prefabricated steel administration building and 4 acres of infiltration basins. In addition to contract administrative items, Lucas oversaw all design changes, schedule management, commissioning, testing and RFI and management of over 300 project structural, mechanical, and electrical submittals. Lucas helped resolve and project issues relating to a nesting burrowing owl, MCC delivery/procurement delays, and design conflicts in the plans.

City of Menifee, CIP 17-05 Citywide ADA and Pedestrian Safety Improvements
Construction Cost: $680k | April 2020 – July 2021
Project consisted of replacing existing pedestrian push buttons to APS and replacing existing pedestrian signal heads to countdown type at 47 intersections around the City. The scope of the project either creates or replaces new ADA compliant curb ramps at 11 locations around the city. As Resident Engineer, Lucas was responsible for the project coordination, project schedule, quality assurance, and administration per the Caltrans LAPM.

City of Menifee, CIP 16-08 Citywide Traffic Signal Project (EAST)
Construction Cost: $413k| November 2019 –June 2020
The Traffic Signal East project scope required the installation of series of wireless radios to existing traffic signal poles around the city. Each radio was connected directly with the controller at each intersection. The radios all communicated back to a main hub at the City Hall to create a Traffic Management Center. As Resident Engineer, Lucas was responsible for the project schedule, quality assurance, and administration per the Caltrans LAPM.

SANDAG, I-805 Transit Only Lane, San Diego, CA
Construction Cost: $3M | Project Timeline: September 2020 – April 2021
Lucas was Resident Engineer of the construction portion of this cooperative demonstration project between SANDAG, Caltrans, MTS, and CHP created a dedicated "Transit Only Lane (TOL)" for busses to reduce ridership times during heavy traffic congestion periods. MTS Rapid vehicles will utilize designated freeway shoulders/Transit Only Lanes when freeway speeds fall below 35mph. To achieve this, four interchanges along the NB 805, the project installed detection cameras and new traffic loops that communicate with the ramp metering system to notify drivers of oncoming busses using the TOL. Along the WB 94, 1600 feet of the existing Type 50 median barrier was replaced with a Type 60M barrier using a slip form machine. Additionally, 1.5 miles of shoulder asphalt was milled 0.15 feet and replaced with new asphalt. Additional work upgraded project signage, striping, pavement markings and communication devices.

RCTD, Avenue 66 Grade Separation Project, Mecca, Riverside, CA
Construction Cost: $36.8M | Project Timeline: October 2019 – April 2022
Lucas served as resident engineer on this $36.8M construction project. Lucas was responsible for the contract administration in accordance with Caltrans Local Assistance. He led a team of inspectors and subconsultants whose scopes are in the areas of material testing, source inspection, public outreach, and environmental compliance. The project constructed a grade separation bypass connecting SR-111 to Avenue 66 with a new 780 LF cast in place railroad grade separation bypass over UPRR, SR-111, and Hammond Road in the community of Mecca, California. Driven steel pile supports the abutment and bent footings. There is 1700 LF of MSE Wall to support the embankment to the abutments with a 4-month settlement period prior to wall construction. Other proposed improvements included construction of a new road with HMA and Class 2AB, construction of a 175 LF simple span cast-in-place bridge to cross CVWD's Lincoln Irrigation Channel, construction of Traffic Signals, Drainage Improvements and Relocate over 20 utilities for IID, CVWD, Kinder Morgan, Spectrum and Frontier. Other notable project elements included a $250k VECP, 2500 LF 30" CVWD domestic waterline, a 55-hour weekend closure to mitigate a maternity colony of bats, and coordination of IID relocation of transmission and distribution power.

Riverside County Transportation Department (RCTD), Scott Road Interchange Project, Menifee, CA
Construction Cost: $57.8M | Project Timeline: 11/2017 – 06/2020
Lucas was the resident engineer for the reconstruction of the existing Scott Road diamond interchange into a partial cloverleaf interchange configuration. Elements of this project includes: over 102,000 CY of excavation and 100,000 CY of import borrow, traffic control, SWPPP Risk Level 1, construction of a 6 lane x 350LF long cast in place bridge, demo of existing bridge and roadway elements, guardrail, JPCP pavements, highway lighting, landscaping and utility relocations. As resident engineer, Lucas was responsible for inspection, materials testing, source inspection, public

relations and environmental compliance. The project relocated SCE, EMWD, Frontier, and Spectrum utilities. The major project challenge was coordinating the required 6 traffic stage changes, night work, lane and ramp closures for the thousands of residents and college student who utilized the interchange daily. Lucas worked close with the City to ensure all project impacts were clearly communicated.

Riverside County Transportation Department (RCTD), Newport Road Interchange Project, Menifee, CA
Construction Cost: $42M | Project Timeline: 07/2014 - 06/2017
Lucas was the deputy resident engineer for reconstructing the existing Newport Road diamond interchange into a partial cloverleaf interchange configuration. He was also the project's utility contact and successfully oversaw the relocation of 9 separate utility facilities without any impact to the project's schedule. Lucas was responsible for leading a team of inspectors to ensure the public safety, QA/QC, environmental compliance and all other facets of the Project Specifications are met by the Contractor. To facilitate the construction of this Caltrans Local Assistance Project, the contractor had to build the work within eight individual traffic stages. Lucas' primary role in the project was constant coordination and communication during the stages of the work to the contractor, stakeholders and the public in order for the project to be built safely and minimize impacts to the community. The project consisted of reconstructing the existing Newport Road diamond interchange into a partial cloverleaf interchange configuration. The interchange's design includes bridge reconstruction and widening, concrete pavement, retaining walls and over 130,000 CY of import material.

RCTC, Mid County Parkway "Sweeney" Mitigation, Riverside, CA
Construction Cost: $1.8M | Project Timeline: 02/2019 – 12/2020
Lucas was the resident engineer of this $1.8M grading project that was a prerequisite for mitigating the larger Mid County Parkway improvement project. The goal of this this Risk Level 2 project was to turn an existing farmland into a thriving wetland for plant and animal habitat. The project excavated 250,000 CY of dirt on a 36 acre site, creating a basin to retain water when the San Jacinto River floods in the rainy season. Other project elements include fencing, SWPPP maintenance, hydroseeding, and plant establishment. Lucas oversaw all coordination in accordance with ACOE, Regional Water Quality Control Board and Riverside County Flood Control permit requirements. In addition, he coordinated tribal monitoring with 5 different tribes. Lucas led a team of inspectors, biologists, public outreach and Landscape Architects to successfully deliver this project to RCTC.

RCTD, Temescal Canyon Widening Project, Corona, CA
Construction Cost: $20M | Project Timeline: 05/2018 – 08/2018
As Lead Constructability Reviewer, Lucas worked closely with the County and Designer, MCM Civil, to develop a PS&E package for the project. Lucas developed staging plans for the project that focused on providing optimal construction with minimal traffic changes and provided a benefit to the Public at each stage change. Lucas also worked with SCE to plan out utility relocation specifications and utility drawings to the contractor to clearly identify quantity, scope and schedule of each relocated line. Lucas performed an independent cost estimate to compare to the Engineer's estimate. In addition, he put together a CPM schedule to determine working days and wrote specification language for multiple facets of the project to reduce risk to the County and encourage expedited schedule.

San Diego Trolley Inc. (MTS), Green Line Station Rehabilitation Project, San Diego, CA
Construction Cost: $2M | Project Timeline: 11/2017 – 09/2018
As resident engineer, Mr. Rathe managed the Contract and supervised inspection of the installation of 8 bus shelters and 23 trolley shelters of 5 stations along the Green Line. He administered the Job Order Contract (JOC) in accordance to the SANDAG/MTS construction manual. He reviewed submittals, approved progress payment, negotiated CCOs and managed a team of inspectors during the construction. Elements included, CIDH Piles, structural steel shop inspections, erection

of steel, roofing and finishes, electrical LED lighting, coordination with MTS facilities, Rail Road flagging and public safety.

SANDAG, Broadway Wye and Orange Line Maintenance Project, San Diego, CA
Construction Cost: $3.9M | Project Timeline: 04/2017-11/2018
The work consisted of upgrading portions of the Overhead Catenary System (OCS) on the San Diego Trolley, Inc. Light Rail Transit (LRT) system. The OCS work was located along the Orange and Green Lines from 12th & Imperial to Santee and from the Broadway Wye to Mission San Diego. The work consisted of the following: OCS Work: Replacing aging fiberglass strain insulators with porcelain Johnny Ball insulators, resetting balance weight heights per the setting chart, adding catch cables to balance weight assemblies, section insulator assemblies, fixed anchor assemblies, mid-point anchor assemblies, and in-span assemblies. The work also consists of checking the condition of existing balance weight pulleys, regreasing the bearings where possible, and replacing worn pulleys. As resident engineer, Lucas administered the contract under the SANDAG Construction Manual and oversaw contract schedule and budget, monthly quantities, ran weekly project meetings, reviewed submittals and RFIs, coordinated work between MTS and SANDAG, performed constructability reviews, and managed a group of inspectors and office staff to administer the project.

City of Menifee, Newport Road Rehabilitation Project, Menifee, CA
Construction Cost: $857K | Project Timeline: 11/2016 – 03/2017
This Federally Funded, Caltrans Local Assistance Oversight Project consisted of rehabilitating about 1.0 miles of an undivided arterial road. The project generally consisted of a 0"-2" edge grind and overlay with 2" rubberized asphalt concrete, crack filling, striping, detection loop replacement, installation of new bicycle loop detection, adjusting existing manholes and valves to grade and re-striping. Concrete repair work will include ADA ramp replacements, curb repairs, and cross gutter replacements. As deputy resident engineer, Lucas administered the contract under the Caltrans Local Assistance Procedures Manual. Materials testing for HMA/RHMA was done in accordance with the standard QA process of the Caltrans Standard Specifications, section 39. Responsibilities also included ensuring proper traffic control was maintained during the project, preparing monthly pay estimates, writing CCOs, CPM Scheduling Reviews, verifying ADA compliance.

County Wide Asphalt Concrete Overlay Project, County of San Diego, San Diego, CA
Construction Cost: $7.5M | Project Timeline: 12/2016 – 01/2017
As resident engineer, Mr. Rathe was responsible for the contract management and inspection oversight of this County of San Diego asphalt concrete resurfacing project. The work took place at varying locations in the County of San Diego. Items of work for the project include: cold in place recycling, digouts, tire rubber modified asphalt concrete, asphaltic emulsion fog sealing, adjust manhole and survey monument covers, rumble strip, paint traffic striping, thermoplastic pavement markings and concrete work. This project qualified for the CALRECYCLE grant funding program which required Mr. Rathe to ensure that the Contractor provided all supporting documentation and conformed to all the requirements of the program.

Rancho San Diego Pump Station, County of San Diego, San Diego, CA
Construction Cost: $1.8M | Project Timeline: 04/2018 - 09/2018
As resident engineer, Mr. Rathe oversaw all aspects of the construction of the 1MGD Pump Station including, site grading, Asphalt Concrete pavement, horizontal chopper pump installation, MCC and Switchgear installation, mechanical piping, commissioning and testing. Lucas administered the contract under the San Diego County Resident Engineer manual and was responsible for all aspects of job progress, safety, quality, punchlist, and job reporting. Lucas oversaw a group of inspectors and coordinated material testing and site survey utilizing the County's forces.

RCTD, 60% Constructability Review for Van Buren Blvd Improvements Project, Riverside, CA
Construction Cost: $10M | Project Timeline: 11/2016 - 12/2016

Riverside County Transportation Department (RCTD) assigned the 60% Constructability Review of the Van Buren Boulevard Widening and Improvements Project to Mr. Rathe as the lead constructability reviewer. This project is anticipated to cost approximately $10 Million. Mr. Rathe is also reviewing the anticipated construction schedule to determine working shifts and number of working days to accomplish the work. He is developing a schedule of activities to identify not only overall duration but the ideal time of year to perform the work in consideration of school traffic and holiday seasons.

Poseidon Resources, Carlsbad Desalination Project, Carlsbad, CA
Construction Cost: $500M EPC | Project Timeline: 05/2013 – 07/2014
As pump station construction manager, Mr. Rathe led a team of design engineers, field superintendents and construction labor throughout the design and construction of the 100 MGD Intake Pump Station. During the design phase, the team was able to reduce initial construction costs by $150,000 by value engineering the structure and challenging design assumptions. The team worked injury free and exceeded the project CPM schedule. Construction management decisions included, Sequencing of Work Schedule, Operation reviews to improve costs, specification reviews for quality and constructability, installation of 90'x90'x50' sheet pile shoring system, coordinated subcontractors, oversaw the design and construction of a 250ft x 72" Jack and Bore Pipeline, designed temporary construction devices (concrete formwork and falsework), and Installation of concrete structures, mechanical FRP piping, and 5kv vertical turbine pumps.

NRG Energy, Marsh Landing Generating Station, Antioch, CA
Construction Cost: $490M EPC | Project Timeline: 05/2011 – 05/2013
Provided start up services to the project from design throughout commissioning. As assistant start-up manager, Mr. Rathe reviewed P&ID and electrical one line drawings during the design phase to identify conflicts in the system where operation could be compromised due to improper pipe routing or wiring. While on site, he led a team of engineers and instrumentation, electrical, controls and mechanical contractors to commission the plant while maintaining project schedule and cost. Mr. Rathe developed written procedures to aid the start-up team and client to ensure a quality and reliable system. These procedures were developed based on performance criteria set forth by the client. During the commissioning process Mr. Rathe inspected the mechanical and electrical checkout per the developed procedures. Inspection included vibration testing, rotation verification, megger & hi-pot electrical checks, voltage and amperage checkout, transformer, breaker and switchgear checkout. Finally, Lucas ensured the commissioning data and testing results were properly documented and organized for turnover to the client.

Eastern Municipal Water District, Perris Valley Regional Water Reclamation Facility, Perris, CA
Construction Cost: $150M Bid-Build | Project Timeline: 06/2007 – 05/2011
As project engineer / field superintendent, Mr. Rathe inspected structural, mechanical and electrical work on multiple systems in the wastewater treatment process focusing on safety, schedule, quality and cost. Such systems included: Pump Stations, Headworks and Grit Facilities, Clarifiers, Electrical Buildings, Solids Handling Facilities, Digesters and Clarifiers. He also was responsible for the oversight of pre-commissioning activities which included: mechanical equipment checkout and alignment, electrical loop checks, instrumentation and equipment troubleshooting, valve operation and SCADA verification. Lucas's mechanical and electrical checkout inspections took place on the following types of equipment: Pumps (Centrifugal, Submersible, Vertical Turbine, Progressive Cavity, Chemical Metering, Chopper), Blowers, HVAC Units, Fans, Clarifiers, 12kv NG Generator, VFDs, 480V MCCs, Switchgear, DC Battery Backup, Valves, Flow meters, Boilers, and Air Compressors. Mr. Rathe also was in charge of maintaining day to day project controls such as: preparing and reviewing submittals to the client, pricing change orders, asking/responding to RFIs, reviewing project CPM schedules and monthly progress payments.

Resume

James E. Hudson
Rockwell Construction Services, LLC
President, Managing Partner
jim.hudson@rockwell-cs.com

EXPERIENCE SUMMARY

Jim co-founded Rockwell Construction Services (RCS) in September of 2006 after a 30-year career in electrical contracting. Jim is actively involved with oversight of all operations of the Company and has been involved with all Company projects to date. As of January 1, 2024, RCS has provided Electrical, Instrumentation/Control and SCADA construction management, oversight, and commissioning services on over 400 water/wastewater infrastructure projects. Jim has established long-standing relationships with many Municipalities, Engineers, and Construction Management firms during this time. Jim and the employees of RCS are focused on not only maintaining our great reputation but also improving our methods daily.

Mr. Hudson's career began in 1975 as an electrical apprentice working predominantly in the greenhouse industry with a focus on automation and control. In 1978 he became the first employee of Rockwell Electric, Inc. of Escondido, CA. and became the Vice President and Field Operations Manager a short time later. Jim was instrumental in building Rockwell Electric, Inc. into a large and well-respected organization servicing the Water/Wastewater industry. The company provided both electrical contracting capability as well as process control and system integration services for the water/wastewater construction and service industry.

Mr. Hudson left Rockwell Electric, Inc. in 1983 and was employed by Alyeska Pipeline Service Company as an Electrical, Instrumentation and Controls Inspector on the Alaska Pipeline. He returned to San Diego in 1984 and founded North Coast Electric. North Coast Electric also concentrated solely in the Water/Wastewater industry.

Jim returned to Rockwell Electric, Inc. in 1991 and resumed his position as Vice President/Field Operations Manager. He left in 2001 and became employed by Rock Electric, Inc. as the Vice President until the inception of Rockwell Construction Services in 2006. Rock Electric also became involved with Water/Wastewater projects at this time and executed many successful projects.

Areas of Expertise

All areas of expertise are in the field of Electrical, Instrumentation and Control

- Construction Management
- Project Management
- Constructability Reviews
- Engineering Assistance
- Change Order Pricing Review and Negotiations
- Record As-built Documentation
- Electrical, I&C, and SCADA Inspection
- Project Cost Estimation
- Field Instrumentation Measurement and Analytical Equipment
- Water/Wastewater Industry Processes and Control
- Client Training
- Startup and Commissioning Services
- Project Closeout Services
- Facility Assessments

The list of projects below is a sample of various Water/Wastewater Projects where RCS has provided Electrical and Instrumentation/Control Construction management, Oversight, and Startup Services over the course of the last 19 years. These facilities were often new, however, in many cases, included keeping an existing facility in operation while the new project was being integrated.

- **Olivenhain Municipal Water District – David C. McCollom Water Treatment Plant LT2 Upgrades (Olivenhain, CA)**
  - Performed construction management and engineering assistance on this major upgrade project. The $16 million project upgrades the facility to comply with the EPAs Long Term 2 (LT2) Enhanced Surface Water Treatment Rule. The project includes a new energy recovery facility including two new energy recovery turbines, new raw water eq. tanks, modifications to 13 membranes, new raw water eq. tanks, new backwash eq. basin and pump station, new strainers. Involvement with the instrumentation and controls design and participation in the startup and commissioning, as-built reviews and punchlist development/resolution.

- **Goleta Sanitary District – Wastewater Treatment Plant Upgrade (Goleta, CA).**
  - RCS provided Construction Management and inspection services on what is one of the most challenging electrical and instrumentation &

control projects we have encountered. The Goleta sewage treatment facility is an existing plant. This project includes not only major new construction of expanded process capabilities, but also a complete change-out of all the plant Electrical Switchgear and Motor Control Centers (MCCs). Detailed planning and coordination are of the utmost importance during phased cutover of process areas while maintaining a fully operational plant.

- **City of Oceanside – Water and Sewer Major SCADA Upgrades and Advanced Plant Automation (Oceanside, CA).**
  - This project included SCADA and automation upgrades at the Weese Water Filtration Plant, Mission Bay Groundwater Purification Facility, San Luis Rey Wastewater Treatment Plant, and 77 remote water and sewer remote facilities. Involvement includes installation inspection services, startup planning and schedule coordination, controls clarifications, local network communications integration coordination, SCADA coordination, and startup & commissioning services.

- **County of San Diego/Standard Pacific Homes – Harmony Grove Pump Station and Wastewater Treatment Plant (City of Escondido)**
  - This project consisted of a completely new Water Treatment/Reclamation Plant and new Sewer Lift Station. The new facilities are being built to provide sewer treatment for the Harmony Grove Village development in the County of San Diego. Involvement included development of system startup and closeout plan for both facilities, schedule coordination, controls clarifications, SCADA coordination, and startup & commissioning services.

- **County of San Diego – Jamacha Pump Station (Spring Valley, CA).**
  - The project included the demolition of the existing sewer pump station, construction of a new sewer pump station, including sewer bypass to allow the sewer pump station to always stay in continuous operation. Involvement included coordinating and conducting PLC and SCADA Standards meetings, coordination with County of SD regarding SCADA integration, startup & commissioning services, and final punch list preparation.

- **Padre Dam Municipal Water District – Advanced Water Purification Demonstration Project (Santee, CA).**
  - This is a demonstration project for an Advanced Water Purification (AWP) System. The AWP system consists of free chlorine contact system, MF System, RO System and UV Reactor system. Involvement included Factory Acceptance Test coordination and witnessing services, startup & commissioning services, and final punch list preparation.

- **City of Corona – Ion Exchange Treatment Plant (Corona, CA).**
  - This project consisted of a new water treatment plant building, including cartridge filters, perchlorate removal system, nitrate removal system, brine system, air compressors, and ammonia and sodium hypochlorite injection system. Involvement included development of loop drawings, development of system startup and closeout plan, schedule coordination, controls clarifications, local network communications integration coordination, SCADA coordination, and startup & commissioning services.

- **City of Corona – Water Reclamation Facility No. 2 (WRF2) Tertiary Filtration and WRF2 Headworks Upgrades (Corona, CA).**
  - The Tertiary project included 4MGD filter feed pumps, Granular Media Filtration System, air blowers, backwash supply pump station, backwash wastewater pump station, chemical facility, and Tertiary area generator and ATS. The Headworks Upgrades project included new bar screens, screenings wash press, bar screen inlet and outlet slide gates with DeviceNet controlled electric actuators, grit system blowers, grit classifier, and rewiring of the primary clarifiers. Involvement included startup planning and schedule coordination, controls clarifications, local network communications integration coordination, SCADA coordination, and startup & commissioning services.

- **City of Carlsbad – CMWD Water Recycling Facility Phase 3 Expansion Project (Carlsbad, CA).**
  - This project provided expansion of CMWD's recycled water program by the installation of a microfiltration system, to accommodate increasing demand for recycled water. The microfiltration system consists of secondary effluent feed pumps and booster pumps, three microfiltration trains, Clean-in-Place chemicals/tank/pumps, back pulse pumps, and chlorine contact tank expansion & instrumentation upgrade. Involvement includes startup planning and schedule coordination, SCADA coordination, and startup & commissioning services, O&M reviews, and closeout assistance.

- **City of Escondido – Escondido-Vista Water Treatment Plant Disinfection and Electrical System Upgrades (Escondido, CA).**
  - The project included installation of a new on-site sodium hypochlorite generation (OSG) system to replace the existing gaseous chlorine system for disinfection, installation of a new chlorine dioxide generation system to replace the existing system, and upgrades to the plant electrical systems including main switchgear, standby engine generators, and MCC's for new equipment. Involvement includes startup planning and schedule coordination, controls clarifications, SCADA coordination, and startup & commissioning services.

- **City of Carlsbad – Home Plant Sewer PS.**
- **City of Carlsbad - Terramar Sewer Lift Station.**
- **City of San Diego – Sewer Pump Station #92**
- **City of Huntington Beach – Algonquin Sewer PS.**
- **City of Huntington Beach – Trinidad Sewer PS.**
- **City of Huntington Beach – Warner Ave Gravity Sewer Lift Station**
- **San Elijo Joint Powers Authority – Solana Beach Pump Station 2013 Upgrades.**
- **City of Escondido – HARRF Influent Pump Station Replacement Project**
- **City of Escondido – HARRF Phase 2 Primary Treatment Building & Odor Control Modifications**
- **City of Corona – WRF2 Headworks Upgrades Project**

Resume

Thomas M. Klein, Principal
Rockwell Construction Services, LLC
Vice President
Senior Construction Services and Project Manager
thomas.klein@rockwell-cs.com

EDUCATION / REGISTRATION / LICENSES

- University of Wisconsin Parkside: Electrical Engineering, Applied Computer Science
- San Diego State University: Project Management Professional Certification
- University of California San Diego: Advanced Networking, Digital Logic
- Palomar College San Marcos, CA: Business Management

EXPERIENCE SUMMARY

Over 40 years of experience in Electrical, Instrumentation and Controls & SCADA system design, development and implementation and project/construction management. Projects primarily focused on Water / Wastewater industry. Mr. Klein has been involved in all aspects of control system development including feasibility studies, design, construction management, and field assistance including startup & commissioning, punch list resolution and final project acceptance, as well as post-acceptance support.

From 1987 to 2003 Mr. Klein was employed at Rockwell Electric, Inc. of Escondido, CA as the engineering manager. Mr. Klein's duties at Rockwell Electric included project design, project management, engineering/programming staff management, submittal preparation, UL508 Industrial Panel Shop oversight, factory testing, startup & commissioning services, O&M manuals preparation, training, and closeout activities.

From 2003-2009 Mr. Klein was employed at CyberNet Consulting Services. Mr. Klein was a senior engineer at CyberNet Consulting Services and was involved in design, construction management, and startup & commissioning activities primarily related to I&C and SCADA projects.

In 2009, Mr. Klein joined the Rockwell Construction Services, LLC (RCS) team as a principal. Mr. Klein's duties at RCS are design, design "constructability" review, change order evaluation, project schedule review and coordination, Electrical and I&C project inspection and quality assurance, testing and startup & commissioning services, and existing site investigation and evaluation. Mr. Klein also provides expertise in PLC's/RTU's, HMI's, communications and networking, and SCADA.

RATE SCHEDULE

TASK	HOURLY RATE
Standard Professional Services (All Activities)	$195

This Rate Sheet is effective beginning January 1, 2024 through December 31, 2026 or, 3-years from the contract date of a particular project where this has been submitted as the identification of rates to be held for the project duration.

1. All effort expended will be billed at the standard rate listed above.
2. Overtime work above 8 hours per day will be charged at $390 per hour.
3. Any project that is over a 100 mi (round trip) from San Marcos, CA will be billed based on a 4-hour minimum related to field activities.
4. Drive time not included in the 4-hour minimum above, will be billed at an hourly rate of $97.50 per hr.
5. The above rates are all inclusive and include overhead.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Utilities Prepared By: Dennis Mejia Staff Member Presenting: Scott Burton, Utilities General Manager Reviewed By: Dennice Raygoza, Albert G Gastelum, Michael Sigsbee Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 21

SUBJECT: **A CONTINGENCY INCREASE TO THE CONSTRUCTION CONTRACT WITH JAMES FOWLER CO. AND AN AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH PETRA GEOSCIENCES INC. FOR GEOTECHNICAL AND MATERIAL TESTING SERVICES FOR UT1046 SAN ANTONIO TRANSMISSION WATER MAIN PHASE 2 PROJECT**

RECOMMENDATION: That the City Council take the following actions:

A. Approve and authorize the City Manager, or designee, to increase the Construction Contract contingency with James Fowler Co., of Dallas, Oregon, in the amount of $399,763, increasing the overall construction contingency from 10% ($799,526) to 15% ($1,199,288), for a new total not-to-exceed contract authorization of $9,194,544.
B. Approve and authorize the City Manager, or designee, to execute Amendment No. 1 to the Professional Services Agreement with Petra Geosciences, Inc., of Costa Mesa, California, to amend the Agreement by $241,269 for a new total not-to-exceed amount of $498,444, and a term from October 29, 2022, to September 30, 2024.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Operate in a Businesslike Manner
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The proposed contingency increase to the Construction Contract with James W. Fowler is $399,763. This action would increase the original approved contingency amount from 10% ($799,526) to 15% ($1,199,288). The Original Contract was approved for $7,995,255, plus a 10% contingency of $799,526, for a total not-to-exceed amount of $8,794,781. With the proposed change, the total not-to-exceed Contract amount would increase to a new not-to-exceed contract authorization of $9,194,544.

Proposed Amendment No. 1 to Petra Geosciences, Inc., is for $241,269 for a new total not-to-

Proposed Amendment No. 1 to Petra Geosciences, Inc., is for $241,269 for a new total not to exceed amount of $498,444. The total cost for the recommended action amounts to $641,032.

The Fiscal Year 2023-24 Budget includes appropriations from the Water Capital Fund and Old Model Colony (OMC) Regional Water Development Impact Fee (DIF) Fund for this project. The Water Capital Fund provides 25% of the funding for this project and the OMC Regional Water Development DIF Fund will provide 75% of the funding (Capital Improvement Project No. WA1401 and DIF Project No. WT04). There is no impact on the General Fund.

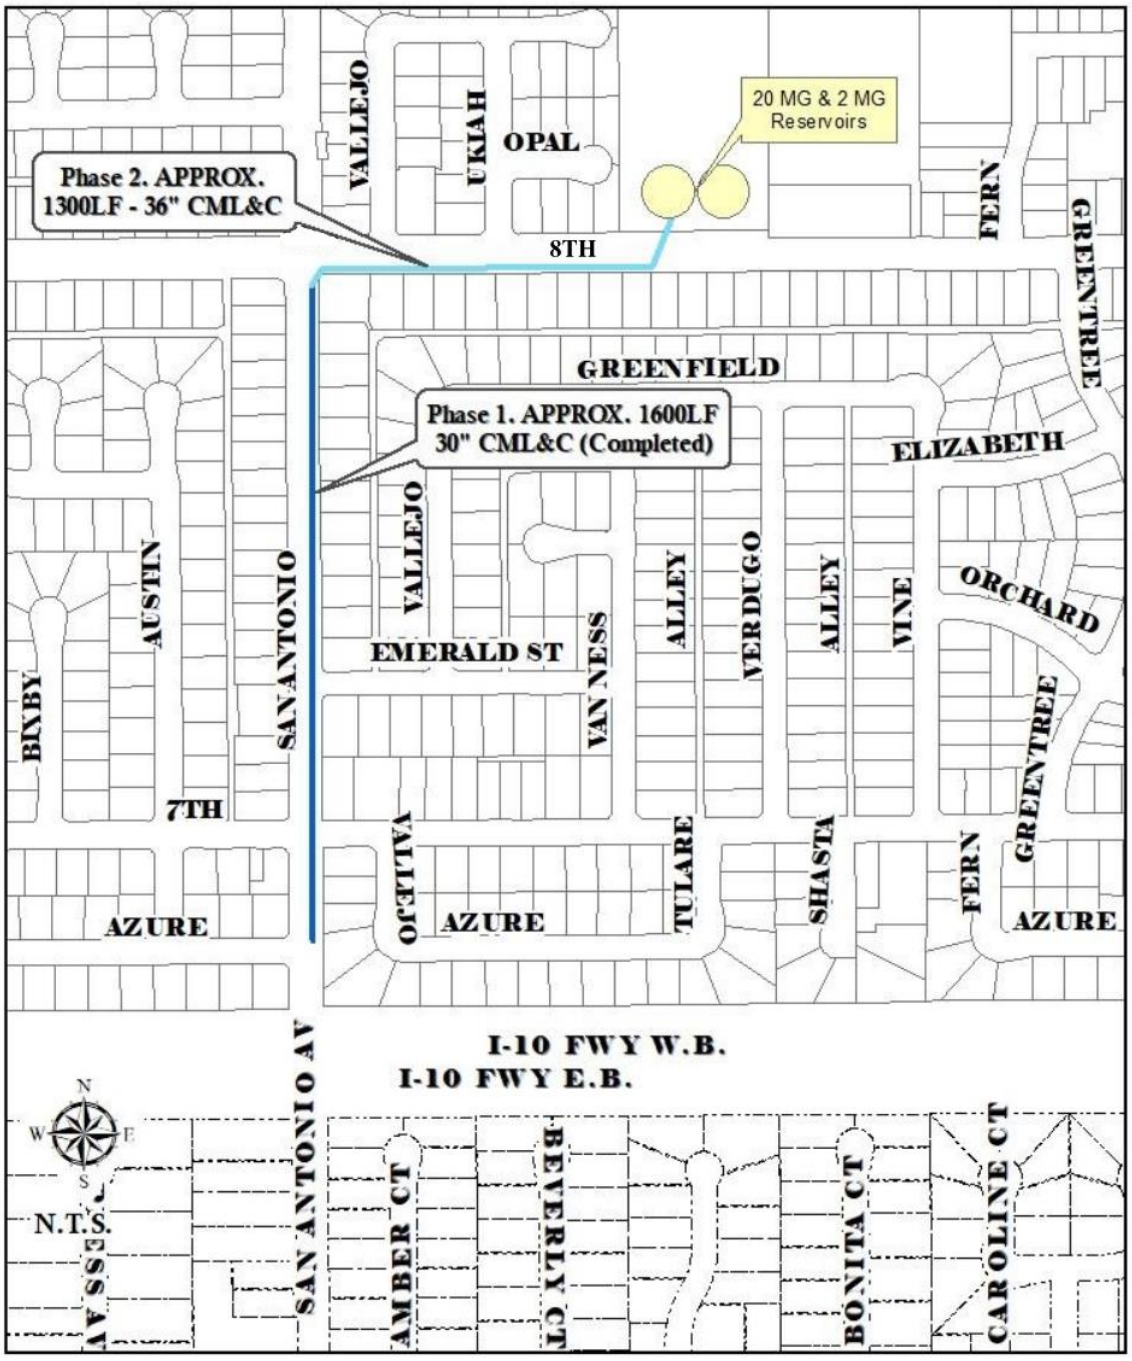
BACKGROUND & ANALYSIS: The Contracts were approved by City Council on September 20, 2022. The project includes upsizing the existing 18-inch diameter transmission main connecting a 20-million-gallon (MG) reservoir and a 2 MG reservoir, located at Fern Reservoir Park in the City of Upland, which serves the northern part of the City of Ontario. The work under the project consists of installation of approximately 1,490 linear feet of 30-inch & 36-inch diameter potable water transmission main along 8th Street, between San Antonio Avenue and the City owned reservoirs, installation of appurtenances, connections to the reservoir outlet pipe and the Phase-1 30-inch main on San Antonio Avenue, and pavement and striping restoration (See Exhibit A).

This work upgrades aging pipelines serving City of Ontario customers to maintain the reliability of water services to portions of the northernmost Ontario community and improves service pressure and fire flow availability. Improvements were prioritized based on capacity deficiencies, condition assessments, and current level of maintenance activities. Most of the work has been completed.

Due to unanticipated subsurface conditions and work required to mitigate encountered unstable soil conditions and substructures, there is a need to increase the cost of the Construction Contract contingency to cover overall mitigation measures in the amount of $399,763 and added geotechnical and material testing professional services work in the amount of $241,269. Efforts to safely and quickly minimize the impacts of construction on City of Upland residences and local traffic flow were a priority and reasonable mitigation measures were executed.

The depth of the new pipe, predominantly 20-feet to 35-feet below the surface, and soil containing many large cobblestones complicated the progress of work and required soil stabilizing measures and greater excavation support than originally anticipated. Actual soil conditions required approximately double the volume of stabilizing grout than was reasonably estimated during design. Additionally, existing storm drain structures in the stabilization area were larger than indicated on record drawings. To stabilize the material under the structures, an alternate grouting technique was added to the scope of work. Finally, inoperable water valves in the existing water system required additional excavation and replacements to support the planned work.

The Professional Services Agreement with Petra provided expert oversight and compaction testing of tunneling, soil stabilization, and pipeline installation. During construction, existing utilities were found to obstruct a greater extent of the project site than was discovered during records research and potholing investigations. Adjustments in the work approach and additional efforts were needed to safely stabilize the existing soil throughout the duration of the project. Progress during pipeline installation was also slowed by the contractor's need to modify the sequence of work to



accommodate site conditions and deviations in location of existing utilities. These factors all resulted in much greater levels of necessary work to conduct soil remediation, pipe installation, and compaction oversight.

AMENDMENT NO. 1 TO THE PROFESSIONAL SERVICES AGREEMENT BETWEEN THE CITY OF ONTARIO AND PETRA GEOSCIENCES, INC.

1. Parties and Date.

This **Amendment No. 1** to the Agreement (as defined herein) is made and entered into as of this ____ day of _____, 2024, by and between the City of Ontario ("City") and **Petra Geosciences, Inc., a California Corporation** with its principal place of business at **3186 Airway Avenue, Suite K, Costa Mesa, CA 92626** ("Consultant"). City and Consultant are sometimes individually referred to as "Party" and collectively as "Parties."

2. Recitals.

2.1 Agreement. The City and Consultant have entered into an agreement entitled "Professional Services Agreement" dated September 20, 2022 ("Agreement") for the purpose of retaining the services of CONSULTANT to provide geotechnical testing and inspection services for the San Antonio Transmission Water Main – 8th Street Project, UT 1046.

2.2 Amendment Purpose. The City and Consultant desire to amend the Agreement to revise the scope of services and increase the compensation amount by **Two Hundred Forty One Thousand Two Hundred Sixty Nine Dollars ($241,269)** for a total not-to-exceed compensation amount of **Four Hundred Ninety Eight Thousand Four Hundred Forty Four Dollars ($498,444)** for the **San Antonio Transmission Water Main – 8th Street Project, UT 1046**. This increase in compensation is for unanticipated factors that led to unplanned effort on scope of work items listed in the attached Consultant's Proposal titled "Second Revised Request for Amendment to Existing Agreement (Amendment Request No. 1) for Additional Geotechnical Oversight Services During Construction and Materials Testing, OMUC Contract No. 1046, San Antonio Transmission Water Main – 8th Street (San Antonio to Eighth) Phase 2, City of Ontario, California" and dated March 29, 2024.

2.3 Amendment Authority. This Amendment No. 1 is authorized pursuant to Section 3.2.4 of the Agreement.

3. Additional Work (Term).

3.1 Section 3.1.2 of the Agreement is hereby amended in its entirety to read as follows:

3.1.2 Term.

The term of this Agreement shall be from **October 29, 2022 to September 30, 2024**, unless earlier terminated as provided herein. Consultant shall complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extent the term of this Agreement if necessary to complete the Services.

3.2 Section 3.2.1 of the Agreement is hereby amended in its entirety to read as follows:

3.2.1 Compensation.

Consultant shall receive compensation, including authorized reimbursements, for all Services rendered under this Agreement at the rates set forth in Exhibit "C" attached hereto and incorporated herein by reference. The total compensation shall not exceed **Four Hundred Ninety Eight Thousand Four Hundred Forty Four Dollars ($498,444)** without written approval of the City Council or City Manager, as applicable. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement.

3.3 Continuing Effect of Agreement. Except as amended by this Amendment No. 1, all other provisions of the Agreement remain in full force and effect and shall govern the actions of the parties under this Amendment No. 1. From and after the date of this Amendment No. 1, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this Amendment No. 1.

3.4 Adequate Consideration. The Parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment No. 1.

3.5 Severability. If any portion of this Amendment No. 1 is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.6 Integration. This Amendment represents the entirety of the Parties' understanding relating to the subject of this Amendment, including written or verbal communications between the Parties, which shall have no relevance unless expressly incorporated herein. This is an integrated amendment.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Public Works Prepared By: Manuel Rebolledo Staff Member Presenting: Tito Haes, Executive Director Public Works Reviewed By: Bonnie Tam, Gina Gomez Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 22

SUBJECT: A MAINTENANCE SERVICES AGREEMENT WITH UBICQUIA, INC., FOR SMART CITY STREETLIGHT CONTROL SYSTEM SERVICES

RECOMMENDATION: That the City Council authorize the City Manager or his designee to execute a Maintenance Services Agreement with Ubicquia, Inc., of Fort Lauderdale, Florida, to provide Smart Streetlight Monitoring Software and Data Retention Services for a total contract amount not-to-exceed $470,000 for up to five (5) years.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

FISCAL IMPACT: The recommended contract award to Ubicquia, Inc., is for $94,000 annually for a total not-to-exceed contract amount of $470,000 over the five-year term. If approved, appropriations will be included in future Annual Budgets to City Council for approval as needed for Smart City Streetlight Control System Services.

BACKGROUND & ANALYSIS: The Municipal Services Department is responsible for the maintenance and repairs of 12,507 City-owned streetlights. On July 21, 2019, the City Council approved an Energy Services Contract with Climatec, LLC that included the conversion of City Streetlights to Light-Emitting Diode (LED) lights and the installation of the Smart City Control System with Ubicquia, Inc. The Climatec, LLC contract included the installation of the LED lights and smart nodes on the streetlights, and a 3-year connectivity and data retention with Ubicquia, Inc. The City has saved $1,326,288 in streetlight electricity costs with the conversion to LED lights and $528,000 with Yunex, Inc., by the elimination of night light surveys that were discontinued with the implementation of Ubicquia's Smart City Streetlight Control System. Staff recommends awarding the Maintenance Services Agreement to Ubicquia, Inc. to allow access to view real-time streetlight information; improving the response time to the maintenance and repairs of City streetlights.

STANDARD TERMS AND CONDITIONS OF SALE

1. Applicability.
These Terms and Conditions of Sale ("Terms") apply to the purchase of Seller's products and services (collectively the "Products"). As used herein: (1) "Seller" means Ubicquia, Inc., its respective subsidiaries, affiliates, successors and assigns and their respective directors, officers, shareholders, employees and contractors; (2) "Buyer" means the purchasing individual or entity as identified in the Sales Order; and (3) "Purchase Order" means the purchase order, electronic order or any other order submitted by Buyer. By submitting a Purchase Order, Buyer accepts and agrees to be bound by these Term sin their entirety. These Terms and the sales order issued by Seller in response to Buyer's Purchase Order (the "Sales Order") comprise the entire agreement between the Buyer and Seller (collectively the "Agreement"). This Agreement shall take precedence over any terms and conditions contained in Buyer's Purchase Order or other similar form or in any documentation incorporated by reference in Buyer's Purchase Order. No other terms, conditions or warranties shall be valid if not included in this Agreement, and no other agreement or understanding, oral or written, in any way purporting to modify this Agreement shall be binding on Seller. Neither Seller's subsequent lack of objection to any terms, nor the delivery of the Products, shall constitute an agreement by Seller to any terms inconsistent with this Agreement. In the event of any conflicting terms between these Terms and the Sales Order, the terms of the Sales Order shall prevail.

2. Orders. Acceptance of any Purchase Order is subject to credit approval by Seller and acceptance of the Purchase Order by Seller. No Purchase Order, whether or not submitted in response to a quotation by Seller, shall be binding upon Seller until Seller has accepted such Purchase Order by issuing a Sales Order. Purchase Orders must be signed by a duly authorized representative of Buyer and shall be sent to Seller's appointed representative. Provided the Purchase Order is acceptable, Seller will issue a Sales Order within seven (7) calendar days from receipt of the Purchase Order. Notwithstanding any dates specified in a Purchase Order, all purchase orders are subject to Seller's standard lead-times then in effect.

3. Price. The prices of the Products (including any discounts) are those prices specified in the Sales Order. Price quotations shall automatically expire in ninety (90) calendar days from the date issued, or as otherwise stated in the quotation. Unless provided otherwise, all currency stated shall be in U.S. Dollars. All prices are exclusive of any freight, shipping and handling, insurance, federal, state or local taxes, fees and duties, or any other similar amounts, all of which shall be at Buyer's exclusive cost. To the extent shipping costs are provided in a quote or Sales Order, such prices are estimates only and subject to change until date of shipment. Any shipping costs are based on single shipment. Any taxes, including without limitation sales, use or similar tax applicable to the Products purchased pursuant to this Agreement are the responsibility of Buyer (excluding taxes based on Seller's net income), unless Buyer presents an exemption certificate acceptable to Seller and the applicable taxing authorities. If any exemption certificate presented by Buyer is held to be invalid, then Buyer will pay Seller the amount of the tax and any penalties and interest related thereto.

4. Payment Terms. Unless provided otherwise in the Sales Order, a fifty percent (50%) deposit (as specified in the Sales Order) is due within thirty (30) calendar days from issuance of the Sales Order. The remaining balance is due within thirty (30) calendar days from issuance of Seller's final invoice, which shall be issued upon shipping. Such invoice will include any unbilled amounts, including without limitation, costs listed in Section 3 above. Payments shall not be subject to offset or setoff. Acceptance of partial payment by Seller shall not be a waiver of the right to be paid the remainder due. If Seller, in its sole discretion, determines that Buyer's ability to pay or credit becomes unsatisfactory or it has reasonable grounds for to be insecure as to payment, Seller reserves the right upon notice to Buyer, to demand adequate assurance of due performance from Buyer and/or terminate this Agreement with no liability to Seller. In addition to all other remedies available to Seller (which Seller does not waive by the exercise of any rights hereunder), Seller may suspend shipment of any Products until any past due amounts are received. Seller reserves the right to charge interest on all overdue accounts from the payment due date until paid at a rate of one and one-half percent (1.5%) per month or the maximum rate permitted by applicable law, whichever is less, plus all costs associated with the collection of such overdue accounts (including, without limitation, attorneys' fees). Seller shall have, and Buyer hereby grants to Seller, a security interest in all Products and all proceeds therefrom until such time as the entire purchase price is paid in full to Seller.

5. Cancellation. Once shipped, all sales are final and subject to Seller's Warranty, return and exchange policies. Buyer may cancel an order without any penalty within two (2) business days of placing a Purchase Order (the "Grace Period"). Any order cancelled after the Grace Period shall be subject to the following cancellation and restocking fee: (i) 50% of the deposit for any orders cancelled within four (4) weeks after the Grace Period; and (ii) 100% of the deposit for any order cancelled after four (4) weeks from the Grace Period and up to ten (10) calendar days from the expected shipping date. No cancellation will be allowed any time after ten (10) calendar days prior to the expected shipping date. Notwithstanding the foregoing, Buyer shall remain liable for any cost and out-of-pocket expenses incurred by Seller due to the cancellation.

6. Equal Functionality. While Seller intends to provide parts in accordance with original design requirements, Seller reserves the right to make part or product substitutions, provided that such substituted part or product has equal functionality as the item it replaces.

7. Delivery & Title. All deliveries shall be Ex Works (Incoterms 2010) Seller (or Seller agent/manufacturer) plant or warehouse. Subject to Seller's security interest pursuant to Section 4 hereunder, title and risk of loss shall transfer to Buyer upon delivery, which shall be deemed to occur upon tendering of the Products to the carrier. Shipping dates will be specified by Seller in Sales Order and are subject to Seller's current shipping schedule. Shipping dates are estimates only and shall not constitute a binding commitment on Seller's part. Seller shall not be liable for any loss, damages or penalty resulting from any delayed shipment or for failure to perform due to causes beyond the reasonable control of Seller, nor shall the carrier be deemed an agent of the Seller. A delayed delivery of any part of an order does not entitle Buyer to cancel other ordered Products except as pursuant to terms of the cancellation policy stated in Section 5 above. Unless specified otherwise in the Sales Order, Buyer is responsible for all shipping and handling, and insurance costs. Buyer is liable for any cost and out-of-pocket expenses incurred by Seller as a result of delayed shipment attributable in whole or in part to Buyer. Buyer must request any delay of shipment in writing. Any request to delay a shipment beyond thirty (30) days must be pre-approved in writing by Seller and may result in additional storage fees.

8. Intellectual Property. Buyer acknowledges and agrees that Seller has and retains an interest in certain "Intellectual Property" associated with the Product(s), which Intellectual Property may include or, as the case may be, take one or more forms of: inventions, information, technical data and/or drawings, copyrights and applications therefore, patents and applications therefore, trademarks and applications therefore, knowhow, trade secrets, and other related tangible and intangible intellectual property and proprietary rights throughout the world. All right, title and interest to said Intellectual Property remains with Seller unless otherwise affirmatively and expressly granted to another entity in writing in another agreement, and Buyer agrees it shall not, and it shall not attempt to, and it shall not direct or permit anyone else to, and it shall not direct or permit anyone else to attempt to, directly or indirectly: (i) copy, reverse engineer, decompile, translate, decrypt, disassemble, or circumvent any of the Product(s) or parts thereof; (ii) modify, adapt, or create derivative works of the Product(s) or documentation; (iii) remove, modify or conceal any product identification, copyright, confidential, proprietary or intellectual property notices or other marks; (iv) use the Product(s) in violation of any third party rights, or any local, state, national, or international law, rule or regulation; or (v) directly or indirectly violate or infringe any patent, license or other right of Seller pertaining to any of said Product(s).

9. Services. All Services are provided subject to Seller's standard Terms of Services located at https://www.ubicquia.com/sites/default/files/Ubicquia-Terms-of-Services.pdf, the terms of which are incorporated herein by reference as if fully set forth herein. Additional agreements may be executed between the parties. In the event of any conflict between these Terms and the terms of Terms of Services, the terms of the Terms of Services shall prevail.

10. SIM Card; Connectivity & Data Usage. To the extent that Buyer is supplying SIM cards for use with the Products, Seller's standard lead time will begin upon receipt of such SIMs by or on behalf of Buyer. Any delay in Seller's receipt of the SIM cards will result in delayed shipment of the Products. Seller shall not be responsible or liable for any costs or otherwise associated with any services or SIM cards provided by Buyer's mobile carrier. Each of Seller's products and services are programed to establish standard connectivity and regular node check-ins("Standard Usage"). Buyer acknowledges and agrees that any changes to the Standard Usage made by or at the direction of Buyer, or the use of additional sensors or third party applications may increase airtime and result in data overages and/or additional fees.

11. Limited Warranty & RMA. Product warranties are available at https://www.ubicquia.com/sites/default/files/Ubicquia-Warranty-Policy.pdf. Prior to accepting any warranty claim, Seller reserves the right to determine if the reported problem is hardware, power or network related. Buyer may not return any Products, under warranty claim or otherwise, without first reporting to Seller the reasons for such return and obtaining Seller's prior approval therefor, and then observing such reasonable instructions as Seller may give in authorizing any return. All claims must be sent to support@ubicquia.com. Defective Products must be returned to Seller within 30 days from a warranty claim. To the extent a Product is eligible for warranty repair or replacement,

Seller shall be responsible for shipping and handling fees associated with any such Product; otherwise, Buyer is responsible for risk of loss, shipping and handling fees associated with any returned Products. Buyer shall be solely responsible and liable for the removal of the malfunctioning Product and installation of the replacement unit. SELLER DISCLAIMS ANY AND ALL OTHER REPRESENTATIONS OR WARRANTIES OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, WITH RESPECT TO SELLER'S PRODUCTS OR SERVICES, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OR OTHER WARRANTIES. BUYER ACKNOWLEDGES THAT (A) NEITHER SELLER NOR SELLER'S THIRD- PARTY PROVIDERS CONTROL THE TRANSFER OF DATA OVER COMMUNICATION FACILITIES, INCLUDING THE INTERNET, AND (B) SELLER'S PRODUCTS AND SERVICES MAY BE SUBJECT TO LIMITATIONS, INTERRUPTIONS, DELAYS AND OTHER PROBLEMS INHERENT IN THE USE OF COMMUNICATION FACILITIES. SELLER'S AND SELLER'S THIRD-PARTY PROVIDERS ARE NOT RESPONSIBLE FOR ANY INTERRUPTIONS, DELAYS, DELIVERY FAILURES, DATA LOSS, LOSS OF PROFIT, LOSS OF USE OR OTHER DAMAGE RESULTING FROM ANY OF THE FOREGOING AND FROM ANY ACTS OF GOD. IN ADDITION, SELLER DOES NOT WARRANT THAT THE OPERATION OF THE PRODUCTS AND SERVICES WILL BE ERROR-FREE OR THAT OPERATION WILL BE UNINTERRUPTED.

12. Indemnification. Buyer will defend, indemnify, and hold harmless Seller from and against any losses, expenses (including reasonable attorneys' fees), claims and liability arising out of or occurring in connection with (i) the gross negligence or willful misconduct of Buyer, its employees or agents; (ii) any misuse or unauthorized modification of the Product(s) by Buyer, its employees or agents; (iii) any act (or failure to act) by Buyer, its employees or agents in contravention of any safety procedures or instructions provided by Seller; or (iv) the failure to store, install, operate, or maintain the Product(s) in accordance with Seller's instructions. Seller will defend, indemnify, and hold harmless Buyer from and against any losses, expenses (including reasonable attorneys' fees), claims and liability arising out of or occurring in connection with the gross negligence or willful misconduct of Seller.

13. Service & Support. All service and support requests shall be sent to support@ubicquia.com.

14. Confidentiality. All non-public, confidential or proprietary information of Seller, including but not limited to specifications, designs, plans, drawings, pricing, discounts or rebates, data, and other documents Seller discloses to Buyer, whether in writing or orally, electronically or other form or media and regardless whether marked, designated or otherwise identified as "confidential," or "proprietary," in connection with the Agreement is confidential, solely for the use of performing the Agreement, and may not be disclosed or copied unless authorized in advance by Seller in writing. Buyer will promptly return, upon Seller's request, or destroy, upon Seller's request, all documents and other materials received from Seller. Seller will be entitled to injunctive relief for any violation of this Section 15, without having to post bond or establish the insufficiency of a remedy at law. This Section does not apply to any information that is: (i) in the public domain; (ii) known to Buyer at the time of disclosure; or (iii) rightfully obtained by Buyer on a non-confidential basis from a third party.

15. Limitation of Liability. UNDER NO CIRCUMSTANCES WHATSOEVER SHALL SELLER BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER FORESEEABLE OR UNFORESEEABLE, INCLUDING, WITHOUT LIMITATION, BUSINESS INTERRUPTION COST, LOSS OF DATA, REMOVAL OR REINSTALLATION COSTS, INJURY TO REPUTATION OR LOSS OF BUYERS, LOSS OF PROFITS OR REVENUE, COST OF CAPITAL, LOST GOODWILL, COST OF PURCHASED OR REPLACEMENT PRODUCTS, CLAIMS FOR SERVICE INTERRUPTIONS, IMPAIRMENT OF OTHER ASSETS, OR OTHERWISE, AND IRRESPECTIVE OF THE NATURE OF THE CLAIMWHETHER INCONTRACT, TORT, WARRANTY, OROTHERWISE. TOTHE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT SHALL SELLER'S TOTAL LIABILITY TO BUYER, BUYER'S CUSTOMERS OR TO ANY OTHER PERSON EXCEED THE PURCHASE PRICE PAID FOR THE PRODUCT GIVING RISE TO THE CLAIM.

16. Governing Law. This Agreement shall be governed by the laws of the State of Florida (without regard to the conflicts of laws provisions thereof or the UN Convention on the International Sale of Goods, and any rules of private international law or the conflict of laws that would lead to the application of any other laws). Any dispute arising under or relating to the Agreement or the transactions contemplated therein shall be litigated in the state or federal courts of Broward County, Florida. Buyer voluntarily and irrevocably submits to the jurisdiction of such courts in any action or proceeding and hereby waives any objection it may now or hereafter have to venue or to convenience of forum. Buyer and Seller hereby knowingly and willingly waive their right to trial by jury.

17. Trade Compliance. Seller's Products and technology are subject to U.S. and local export control laws and regulations. Buyer agrees to ascertain and comply with all applicable export and re-export laws and regulations, including without limitation any U.S. export and re-export controls and economic sanctions, regulations and restrictions. In addition, Buyer will review and comply with any applicable national export compliance laws and regulations in Buyer's home country that may impact the importation of the sale of the Products to Buyer. Buyer shall obtain all permits, authorizations or licenses necessary to perform its obligations hereunder. Customs duties, taxes, tariffs, import fees, premiums or other surcharges (if any) shall be paid by Buyer.

18. Force Majeure. Seller shall not be liable for any default or delay in performance if caused directly or indirectly by acts of God, war, force or arms, riots, revolution, strikes, labor disputes, sabotage, civil commotion, pandemic, national health crisis, fire, flood, assertions by third parties of infringement claims, late or non-delivery by suppliers to Seller, lack of adequate production capacity, failure or delay in plant startup, breakdown of machinery or shortages of raw materials, power, or equipment, local, federal, or foreign governmental prohibitions or limitations on performance, and all other contingencies beyond the reasonable control of Seller which render performance commercially impracticable.

19. Miscellaneous.

a. Independent Contractors. Nothing contained herein shall create a partnership, joint venture or other relationship. Neither Buyer or Seller shall assume or create any obligation of any nature whatsoever on behalf of the other party or bind the other party in any respect whatsoever.

b. Severability. If any provision of this Agreement is determined to be unenforceable or invalid for any reason whatsoever, in whole or in part, such invalidity or unenforceability shall attach only to such provision or part thereof and the remaining part thereof and all other provisions shall continue in full force and effect.

c. Assignment. Neither this Agreement nor any right or obligation under this Agreement may be assigned by a party without the other's prior written consent, such consent not to be unreasonably withheld or delayed. Any attempted assignment shall be void and of no effect. Notwithstanding the foregoing, Seller may freely assign this Agreement or any of its rights or obligations to any corporation, firm, company or other entity that directly or indirectly controls, or is controlled by, or is under common control with Seller.

d. Notices. All notices shall be in writing and to the addresses set in the sale order. Notices shall be deemed to have been given (i) one day after deposit with a commercial overnight express courier, or (ii) 5 days for international express courier with written verification of receipt.

e. Survival. Any provision of this Agreement which expressly or by implication from its nature is intended to survive the termination or completion of this Agreement will continue in full force and effect after such termination, expiry or completion.

f. Entire Agreement. This Agreement shall constitute the entire agreement between the parties, and no other terms and conditions, whether oral or written, shall have any force and effect unless agreed to in writing by Seller.

g. Amendment. These Terms may be amended or supplemented only by a separate, signed agreement expressly amending or supplementing one or more of these terms and conditions and signed by a duly authorized representative of Seller and Buyer.

Re: Sole Source Letter

Dear Manuel,

This letter shall confirm that Ubicquia, Inc. ("**Ubicquia**") has developed and exclusively maintains, manages, operates, runs, and provides its UbiVu® cloud-based monitoring and asset management platform under a Software-as-a-Service (SaaS) model for use with Ubicquia's lines of smart city and smart grid products, including the UbiCell® networked lighting controller.

The UbiVu platform is proprietary to Ubicquia, hosted exclusively by Ubicquia, and the only existing system enabling end users of Ubicquia® products to access all data input, data output, data storage, and data processing services provided by Ubicquia in connection with such products. There are no other like services available to purchase that would serve the same purpose or function.

Should you have any questions regarding this letter, the UbiVu platform, or Ubicquia's products, please do not hesitate to contact me at any time, or visit our website at www.ubicquia.com.

Thank you for your interest in our products and services.

Sincerely,

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Fire Department Prepared By: Nereida Medrano Staff Member Presenting: Mike Gerken, Fire Chief Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 23

SUBJECT: **AN AMENDMENT TO THE GOODS AND SERVICES AGREEMENT WITH CALIFORNIA PPE RECON. INC. FOR RENTAL AND MAINTENANCE OF PERSONAL PROTECTIVE EQUIPMENT FOR THE ONTARIO FIRE DEPARTMENT**

RECOMMENDATION: That the City Council authorize the City Manager, or his designee, to execute Amendment No. 1 to the Goods and Services Agreement with California PPE Recon. Inc., of Riverside, California for rental and maintenance of personal protective equipment (PPE) to increase the current contract by $85,000, plus a 10% contingency for a new not to exceed amount of $247,500 per contract year, for a total contract amount not to exceed $1,237,500

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety

FISCAL IMPACT: The Fiscal Year 2023-24 Adopted Budget includes appropriations in the General Fund for the rental and maintenance of PPE within the Fire Department operating budget. The recommended Amendment would increase the existing Agreement to $225,000 per year plus a 10% contingency of $112,500 for a total contract amount over a five-year period, not-to-exceed $1,237,500. If approved, appropriations will be included in future annual budgets to City Council for approval as needed for PPE.

BACKGROUND & ANALYSIS: The Ontario Fire Department has a longstanding commitment to the safety of its firefighters, consistently striving to meet and exceed the standards set by the National Fire Protection Association (NFPA). In compliance with the 2020 amendment to NFPA Standard 1851, which governs the maintenance of firefighter protective gear, the Ontario Fire Department has adopted more stringent inspection requirements. This NFPA amendment mandates that advanced inspections of protective gear, including comprehensive liner inspections and hydrostatic testing, be conducted annually. This is a significant change from the previous three-year requirement. This change inevitably led to higher costs associated with maintaining compliance and ensuring the safety of firefighter gear.

In an ongoing effort to provide exceptional service, the Ontario Fire Department recognizes the importance of rigorous training. The Department introduced the Fire Basic Academy last year, which is a thorough 16-week program, designed to equip recruits with no fire experience the skills

and knowledge necessary for the demanding nature of firefighting. However, this intense training regimen has accelerated the wear and tear on structural firefighting gear, prompting the Ontario Fire Department to explore more sustainable solutions.

To address the challenges, the Fire Department initiated a rental program for turnout gear during the first year of a firefighter's service. This innovative approach not only mitigates the costs associated with premature gear degradation, but also offers firefighters the opportunity to train with gear that meets the latest NFPA safety standards. By doing so, firefighters are better prepared to face the evolving challenges and hazards of modern firefighting. Specifically, this rental program was initiated soliciting proposals through the City's bid management system in March 2023 to adhere to the compliance requirements of NFPA 1851. One proposal was submitted from the potential 205 bidders. Staff reviewed the proposal and recommended California PPE Recon, Inc. of Riverside, CA, to provide the necessary services. Over the course of the year, Staff has had an exceptional experience with the vendor who has ensured efficient turnaround times for gear inspections, repairs, and rentals, thereby enhancing our operational readiness. As such, Staff is recommending Amendment No. 1 with California PPE Recon, Inc. to increase and extend the contract amount from $140,000 per year to $225,000 per year plus a 10% contingency of $112,500, for a contract amount of over a five-year period, not-to-exceed $1,237,500.

AMENDMENT NO. 1 TO THE GOODS & SERVICES AGREEMENT BETWEEN THE CITY OF ONTARIO AND CALIFORNIA PPE RECON. INC.

1. Parties and Date.

This Amendment No. **1** to the Agreement (as defined herein) is made and entered as of _____, by and between the City of Ontario ("City") and **California PPE Recon. Inc.**, a **CORPORATION ("Vendor")**. City and **Vendor** are sometimes individually referred to as "Party" and collectively as "Parties."

2. Recitals.

2.1 Agreement. The City and **Vendor** have entered into an agreement entitled **"Goods & Services Agreement"** dated **April 18, 2023** ("Agreement").

2.2 Amendment Purpose. The City and **Vendor** desire to amend the Agreement to **increase compensation and extend term**.

2.3 Amendment Authority. This Amendment No. **1** is authorized pursuant to Sections **2.1 and 3.1** of the Agreement.

3. Terms.

3.1 Amendment. Sections **2.1 and 3.1** of the Agreement is hereby amended in its entirety to read as follows:

> "2.1 The term of this Agreement shall be from **April 10, 2023 to June 30, 2028**, unless earlier terminated as provided herein. Vendor shall provide all Goods and complete the Services within the term of this Agreement, and shall meet any other established schedules and deadlines. The Parties may, by mutual, written consent, extend the term of this Agreement if necessary to complete the work."
>
> "3.1 Compensation. Vendor shall receive compensation, including authorized reimbursements, for all Goods provided and Services rendered under this Agreement at the rates set forth in Exhibit "A" attached hereto and incorporated herein by reference. The total

compensation shall not exceed **Two Hundred Twenty-Five Thousand dollars ($225,000.00) annually with a total not to exceed One Million One Hundred Twenty-Five Thousand dollars ($1,125,000), for the term of the contract** without written approval of **City Manager**. Extra Work may be authorized, as described below, and if authorized, will be compensated at the rates and manner set forth in this Agreement."

Attachment A will replace fee schedule in Exhibit A hereto and incorporated herein by reference.

3.2 Continuing Effect of Agreement. Except as amended by this Amendment No. **1**, all other provisions of the Agreement remain in full force and effect and shall govern the actions of the parties under this Amendment No. **1**. From and after the date of this Amendment No. **1**, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this Amendment No. **1**.

3.3 Adequate Consideration. The Parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment No. **1**.

3.4 Severability. If any portion of this Amendment No. **1** is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.5 Integration. This Amendment represents the entirety of the Parties' understanding relating to the subject of this Amendment, including written or verbal communications between the Parties, which shall have no relevance unless expressly incorporated herein. This is an integrated amendment.

Attachment A

A minimum of 26 sets of PPE (jacket and trousers) must be in stock by April 1, 2023 and remain in stock and available for delivery within forty-five (45) business days of the order being placed.

California PPE Recon, Inc. is a qualified contractor to perform turnout gear cleaning and inspection services in accordance with the most current NFPA 1851 standards. The rental term must include necessary repairs to keep turnouts in compliance with NFPA 1971 standards. If repairs are necessary during the rental term, the vendor must be able to supply an exact equivalent for use during the repair period. Initial delivery, advance cleaning pickup and delivery and repair pickups and delivery will be provided by the vendor to a single site as determined by Ontario Fire Department. All pickup and delivery will be at the cost of California PPE Recon, Inc. Initial delivery will be a one-time occurrence. Advance cleanings per NFPA 1851 standard will be done annually and as needed, but is expected to be infrequent. Infrequent can be defined as no more than six (6) times per year, including the initial delivery. Repairs will be as needed, but also expected to be infrequent and no more than six (6) times per year.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Police Department Prepared By: Lizceth Zazueta Staff Member Presenting: Mike Lorenz, Chief of Police Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 24

SUBJECT: A COST SHARING AGREEMENT WITH CHAFFEY JOINT UNION HIGH SCHOOL DISTRICT FOR SCHOOL RESOURCE OFFICERS

RECOMMENDATION: That the City Council approve and authorize the City Manager or his designee to execute a Cost Sharing Agreement with the Chaffey Joint Union High School District for three School Resource Officers for a total revenue amount of $1,381,163.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Maintain the Current High Level of Public Safety
Pursue City's Goals and Objectives by Working with Other Governmental Agencies
Operate in a Businesslike Manner

FISCAL IMPACT:

The School Resource Officer Cost Sharing Agreement will recoup 50 percent of the costs to provide services of three Police Officers placed at Chaffey Joint Union High School District schools to the General Fund. The revenue amount for year one is $255,000, year two is $265,200, and year three is $275,808, for a total revenue amount of $796,008. If the two additional option years are exercised, the revenue amount of option year four is $286,841 and option year five is $298,314, for a total revenue amount of $1,381,163 for School Resource Officers (SRO) to the General Fund. Revenues for future fiscal years will be included in the respective fiscal year's budgets for City Council consideration and approval.

BACKGROUND & ANALYSIS: School districts nationwide have come to see the benefits of having a School Resource Officer (SRO) on campus. The presence of SROs has been proven to deter behavior that is not normally accepted by society. The SRO Program creates an environment that adds to the safety of our school campuses. The SRO is involved in a variety of functions aimed at prevention and on-site crisis intervention, as well as a resource for students, parents, teachers, and administration regarding law issues. SROs have become positive role models for the students of Ontario and work hand in hand with the administrators in each school finding solutions to problems affecting school children of today. The result is that when children feel safe about their

learning environment, they are more likely to learn what is being taught.

The Ontario Police Department has assigned one SRO at Chaffey High School, Colony High School, and Ontario High School. The Cost Sharing Agreement will allow Chaffey Joint Union High School District to share in the cost of maintaining the three Officers placed under this Agreement at 50 percent of the Officer's collective total salary and benefits costs. The City of Ontario Police Department has provided Chaffey Joint Union High School District SRO services since 2001. Continuing SRO services brings value to the City of Ontario, not only sharing in salary costs to maintain services, but in shaping the future of our children and how they interact with Law Enforcement.

AGREEMENT
FOR SCHOOL RESOURCE OFFICER(S)
BETWEEN
THE CITY OF ONTARIO AND
THE CHAFFEY JOINT UNION HIGH SCHOOL DISTRICT

This Agreement for the Provision of School Resource Officer(s) (the "Agreement") is made and entered into this _____ day of _____, _____ by and between the CITY OF ONTARIO, hereinafter referred to as "CITY," and the CHAFFEY JOINT UNION HIGH SCHOOL DISTRICT, hereinafter referred to as "DISTRICT." The CITY and the DISTRICT may be referred to in this Agreement individually as "PARTY" or collectively as "PARTIES."

NOW, THEREFORE, in consideration of the premises and mutual conditions hereinafter provided, it is agreed by and between the PARTIES as follows:

1. **RECITALS.** This Agreement is entered into with reference to the following facts and objectives:

   a. The PARTIES desire the CITY through its Police Department to place a sworn Police Officer ("Officer") at Chaffey High School, Ontario High School, and Colony High School as assigned to the School Resource Officer Program ("Program") for the ten (10) months of the regular school year. A total of three (3) Officer(s) will be placed under this Agreement for the Agreement Term.

   b. The Program will allow for an immediate and appropriate police response to calls for service generated from the campuses of Chaffey High School, Ontario High School, and Colony High School and for an Officer's presence at Chaffey High School, Ontario High School, and Colony High School campuses.

   c. The Program provides a means for positive student, faculty, staff, and law enforcement interaction and crises intervention.

   d. The Program provides a positive role model for students.

2. **TERM AND TERMINATION.**

   a. Term. The term of this Agreement for Fiscal Year 2024-2025 ("Fiscal Year") is for the ten (10) month period beginning August 01, 2024, and ending on May 31, 2025; for Fiscal Year 2025-2026 ("Fiscal Year") is for the ten (10) month period beginning August 01, 2025, and ending on May 31, 2026 ("Program End Date"); for Fiscal Year 2026-2027 ("Fiscal Year") is for the ten (10) month period beginning August 01, 2026, and ending on May 31, 2027 ("Program End Date"). The City shall have the unilateral option, by mutual written consent of the PARTIES, to renew this Agreement automatically for no more than two (2) additional one (1)-year terms.

   b. Termination. The CITY or DISTRICT may terminate all or any portion of this Agreement at any time upon providing ten (10) days prior written notice to the other

Party. The PARTIES may agree to terminate with shorter notice upon the PARTIES mutual written consent.

3. SCOPE OF SERVICES.

The Officer shall provide services to the DISTRICT pursuant to the terms of this Agreement, as described in Exhibit A which is attached hereto and incorporated herein by reference.

4. CITY EMPLOYEE.

It is understood by both PARTIES that the Officer(s) shall remain the CITY's employee(s) during the term of this Agreement. City shall therefore pay the salary, insurance, and other related benefits/pension plan the CITY provides to employees. Nothing contained in this Agreement shall create an employer-employee relationship between the DISTRICT and any Officer.

5. GENERAL ADMINSTISTRATION, SUPERVISION AND MANAGEMENT

The CITY Chief of Police shall have the primary administrative responsibility under this Agreement for the City. The Chief of Police or his/her designee shall consult with the Superintendent of the DISTRICT or his or her designee on matters that pertain to this Agreement.

Any complaint or allegations of misconduct involving or against the OFFICER arising out of the performance of this Agreement shall be reported to the Chief of Police and shall be handled in accordance with the policies, procedures, and practices applicable to the OFFICER as a CITY employee. However, DISTRICT retains the right to request that OFFICER be removed or reassigned from the performance of this Agreement at DISTRICT's sole discretion.

6. COST SHARING.

a. The CITY and DISTRICT will share the cost of the three (3) Officer(s) placed under this Agreement at 50% of the Officer's collective total salary and benefits costs. The estimated cost for the period of ten (10) months per fiscal years is $510,130.00.

b. The DISTRICT agrees to pay an annual amount of $255,000.00 for the Fiscal Year 2024-25; $265,200.00 for Fiscal Year 2025-26; $275,808.00 for Fiscal Year 2026-27 of this Agreement, which is approximately 50% of the estimated cost of an SRO at each of the three schools

c. The CITY will invoice the DISTRICT for its share of the annual costs $255,000.00 on March 1, 2024. The DISTRICT agrees to pay the invoice within thirty (30) days.

d. In the event this Agreement is terminated by either party prior to the Program End Date, DISTRICT agrees to pay for its share of costs, which shall be prorated and invoiced accordingly by the CITY.

COMPLIANCE WITH FEDERAL AND STATE LAW

CITY shall ensure that OFFICER complies with applicable federal, state and local laws and regulations including, but not limited to the Family Educational Rights and Privacy Act (FERPA") 20 USC 1232g, 34 CFR, Part 99 and California Education Code sections 49073 to 49079.7 et. seq. which pertains to the privacy of pupil records

7. **INSURANCE.** The PARTIES shall each maintain adequate insurance coverage for the activities contemplated herein for the duration of this Agreement.

8. **INDEMNIFICATION.**

To the extent permitted by law, DISTRICT hereby agrees to and shall indemnify, defend, and hold CITY, its elective and appointive boards, officers, agents, volunteers, and employees harmless for any and all claims, actions, losses, liability or damages or claims for damage for personal injury, including death, as well as from claims from breach of confidentiality or property damage which may arise from DISTRICT's negligent or intentional acts, errors or omissions under this Agreement, except where such indemnification is prohibited by law.

To the extent permitted by law, CITY hereby agrees to and shall indemnify, defend, and hold DISTRICT, its elective and appointive boards, officers, agents, volunteers, and employees harmless for any and all claims, actions, losses, liability or damages or claims for damage for personal injury, including death, as well as from claims from breach of confidentiality or property damage which may arise from CITY's negligent or intentional acts, errors or omissions under this Agreement, except where such indemnification is prohibited by law.

9. **NOTICE.**

All notices to be given hereunder shall be in writing and may be made either by personal delivery or by registered or certified mail, postage prepaid, return receipt requested. Mailed notices shall be addressed to the PARTIES at the addresses listed below, but each PARTY may change the address by written notice to the other PARTY. Notices delivered personally will be deemed communicated as of actual receipt; mailed notices will be deemed communicated as of two (2) days after mailing:

If to the CITY**:**
City of Ontario – Ontario Police Department
2500 S, Archibald Avenue
Ontario, CA 91761
Attn: Thomas O'Dell
Phone: (909) 408-1859
E-mail:TODell@ontariopolice.org

If to the DISTRICT:
Chaffey Joint Union High School District
211 West 5th Street
Ontario, CA 91762
Attn: Robert McCoy
Phone: (909) 988-8511 ext. 2620

E-mail:Robert.mccoy@cjuhsd.net

10. GENERAL TERMS.

a. Relationship of the Parties. Nothing contained in this Agreement shall be construed as creating a joint venture, partnership, or any other similar arrangement between the PARTIES. No PARTY to this Agreement shall be deemed to be a representative, an agent, or an employee of the other PARTY.

b. No Third-Party Beneficiaries. This Agreement and the performance of the PARTIES' obligations hereunder are for the sole and exclusive benefit of the PARTIES. No person or entity who or which is not a signatory to this Agreement shall be deemed to be benefited or intended to be benefited by any provision hereof, and no such person or entity shall acquire any rights or causes of action against either PARTY hereunder as a result of a PARTY's performance or non-performance of its responsibilities under this Agreement.

c. Entire Agreement. This Agreement constitutes the entire understanding between the PARTIES with respect to the matters set forth above and supersede all prior or contemporaneous understanding or agreements between the PARTIES with respect to the subject matter, whether oral or written.

d. Amendments. Modifications or amendments to the terms of this Agreement shall be in writing and executed by both PARTIES.

e. Non-assignability. Neither this Agreement nor any duties or obligations under this Agreement may be assigned, in whole or in part, by the DISTRICT without prior written consent of the CITY.

f. Governing Law and Venue. This Agreement and all rights and obligations arising out of it shall be construed in accordance with the laws of the State of California, without reference to conflict of laws principles, and any arbitration, mediation, litigation, or other proceeding arising out of this Agreement shall be conducted only in the County of San Bernardino.

g. Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original and all of which, taken together, shall be deemed to be one and the same document.

h. Electronic Signature/Transmission. This Agreement may be signed using an electronic signature. A manually or electronically signed copy of this Agreement which is transmitted by facsimile, email or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original executed copy of this Agreement for all purposes.

[SIGNATURES ON FOLLOWING PAGE]

IN WITNESS WHEREOF, the PARTIES hereto have executed this Agreement as of the day and year first written above.

Scope of Services

- Build professional relationships with students, teachers, administrators, counselors, and other school staff.
- Assist school psychologist and Therapist to conduct mental health evaluations.
- Offer resources and guidance to all students and staff.
- Protect life and property on school campus.
- Respond to calls for service in/around the school, especially those outside of the school that directly affect students.
- Enforce the law and conduct thorough investigations as they are reported.
- Work with school discipline administrators to assist in correcting bad behavior.
- Understand and assist with school safety plans. (I.E. Active Shooter training).
- Offer mentorship and be a positive role model to all students on campus.
- Educate staff and students on several community dangers such as: Drugs, crime awareness and behaviors.
- Participate in student functions such as Career Day, College Day, and various other school events.
- Build positive, healing relationships among Law Enforcement, the youth, and their families.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **CONSENT CALENDAR**
Department: Planning Prepared By: Diane Ayala Staff Member Presenting: Scott Murphy, Executive Director Community Development Reviewed By: Kimberly Ruddins, Henry Noh Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 25

SUBJECT: **AN AMENDMENT TO THE DESIGN SERVICES AGREEMENT WITH THIRTIETH STREET ARCHITECTS, INC., FOR THE DOWNTOWN A1 BLOCK PRESERVATION PROJECT DESIGN**

RECOMMENDATION: That the City Council take the following actions:

A. Authorize the City Manager or his designee to execute Amendment No. 5 to the Design Services Agreement with Thirtieth Street Architects, Inc., of Newport Beach, California, in the amount of $147,300 for a total not-to-exceed $706,600; and
B. Authorize the City Manager or his designee to execute all documents required for the completion of the project including, but not limited to, contracts, agreements, assessments, easements, reduction of retention accounts, and filing a notice of completion at the conclusion of all construction related activities.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the Growth and Evolution of the City's Economy
Operate in a Businesslike Manner

FISCAL IMPACT: The Fiscal Year 2023-2024 Adopted Budget includes appropriations in the General Fund for the Downtown A1 Block Mothball project design. The proposed Amendment would increase the contract amount by $147,300 for a not-to-exceed contract amount of $706,600.

BACKGROUND & ANALYSIS: The historic Citizens Bank, Lerch Building, and the Commercial Hotel are located within the Civic Center Planned Unit Development and are bordered by Euclid Avenue to the west, Holt Boulevard to the south, B Street to the north, and Lemon Avenue to the east, also referred to as the A1 Block. The City Council designated the buildings as local historic landmarks on January 20, 1998. The buildings provide a visual history of early twentieth-century commercial development in Ontario which is evident by the survival of prominent architectural features. Preservation and adaptive reuse of the buildings are integral to the implementation of the Downtown Civic Center Project and can contribute to downtown revitalization.

The acquisition of the A1 Block began in 2003 with the last few remaining properties acquired in 2016 by the City of Ontario for the purpose of land assembly. This assemblage is part of the Downtown Civic Center Project for future sale to, and adaptive reuse by, a private investor. Unfortunately, deterioration and vandalism of these historic buildings are continuing to occur. Therefore, to secure the preservation of these historic buildings until funding and development of the site, the A1 Block would benefit from the development of a security plan, maintenance and monitoring plan, and the identification of temporary/interim repairs through a process known as "mothballing." Mothballing is a widely practiced preservation treatment that requires identification and assessment of the existing building conditions and sets priorities for repairs that are necessary to stabilize the building and arrest rapid deterioration. It is the practice of closing up a building temporarily to protect it from the weather as well as to secure it from vandalism for short or long term (2 to 10 years) until such time funding and development of the site can occur.

The mothball plan is prepared by an architect or preservation specialist and, in some cases a structural engineer, to evaluate the age and condition of the major elements of the buildings including foundations, structural systems, exterior materials, roofs and gutters, interior finishes, staircases, plumbing, electrical, and mechanical systems, and site drainage. The three highest priorities for the building while mothballed are to: 1) protect the building from sudden loss; 2) weatherize and maintain the property to stop moisture penetration; and 3) control the humidity levels inside once the building has been secured, positioning the historic buildings for successful adaptive reuse development.

AMENDMENT NO. 5 TO THE DESIGN SERVICES AGREEMENT BETWEEN THE CITY OF ONTARIO AND THIRTIETH STREET ARCHITECTS, INC.

1. Parties and Date.

This Amendment No. 5 to the Agreement (as defined herein) is made and entered as of _____, by and between the City of Ontario ("City") and Thirtieth Streets Architects, Inc. a Corporation ("Consultant"). City and Consultant are sometimes individually referred to as "Party" and collectively as "Parties."

2. Recitals.

2.1 Agreement. The City and Consultant have entered into an agreement entitled "Design Services Agreement" dated February 15, 2021 ("Agreement").

2.2 Amendment Purpose. The City and Consultant desire to amend the Agreement to revise the scope of services for the Downtown Mothball Plan set forth in Amendment No. 5 – Attachment "A" and increase the not-to-exceed compensation amount by **One Hundred Forty Seven Thousand Three Hundred Dollars ($147,300)**. The Parties have heretofore entered into Amendment No. 1 dated April 19,2022, Amendment No. 2 dated March 21, 2023, Amendment No. 3 dated November 1, 2023, and Amendment No. 4 dated March 19, 2024.

2.3 Amendment Authority. This Amendment No. 5 is authorized pursuant to Section 3.8.1 of the Agreement.

3. Terms.

3.1 Amendment. Section 3.10.1 of the Agreement is hereby amended in its entirety to read as follows:

> "3.10.1 Consultant's Compensation for Basic Services. City shall pay to consultant, for the performance of all Services rendered under this Agreement, with the total not to exceed amount of **Seven Hundred Six Thousand Six Hundred Dollars ($706,600)** ("Total Compensation"). This Total Compensation amount shall be based upon, and may be adjusted according to, the fee schedule and related terms and conditions attached hereto as Exhibit "B" and incorporated herein by reference. The Total Compensation, as may be adjusted upon mutual agreement, shall constitute complete and adequate payment for Services under this Agreement."

Exhibit A is hereby deleted in its entirety and replaced with Attachment A attached hereto and incorporated herein by reference.

3.2 Continuing Effect of Agreement. Except as amended by this Amendment No. 5, all

other provisions of the Agreement remain in full force and effect and shall govern the actions of the parties under this Amendment No. 5. From and after the date of this Amendment No. 5, whenever the term "Agreement" appears in the Agreement, it shall mean the Agreement as amended by this Amendment No. 5.

3.3 Adequate Consideration. The Parties hereto irrevocably stipulate and agree that they have each received adequate and independent consideration for the performance of the obligations they have undertaken pursuant to this Amendment No. 5.

3.4 Severability. If any portion of this Amendment No. 5 is declared invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions shall continue in full force and effect.

3.5 Integration. This Amendment represents the entirety of the Parties' understanding relating to the subject of this Amendment, including written or verbal communications between the Parties, which shall have no relevance unless expressly incorporated herein. This is an integrated amendment.

AGREEMENT

The following is an agreement dated March 26, 2024, between the City of Ontario, 303 East "B" Street, Ontario, CA and Thirtieth Street Architects, Inc., 2821 Newport Boulevard, Newport Beach, CA 92663 to prepare a Mothballing Plan consistent with the City of Ontario Historic Preservation Ordinance and National Park Service Bulletin 34, Mothballing Historic Buildings, for the following existing buildings located on the east side of the 100 N. Block of Euclid Avenue in Ontario, CA hereinafter referred to as the project.

The following buildings addresses are included in this study:

114 -118	North Euclid Avenue
122	North Euclid Avenue
124-126	North Euclid Avenue
128 -132	North Euclid Avenue

Project Team

Preservation Architect Prime Consultant	Thirtieth Street Architects, Inc. 2821 Newport Boulevard Newport Beach, CA 92663 949) 673-2643
Structural Engineer	Grimm and Chen 17500 Redhill Ave. Suite 240 Irvine, CA. 92614 (949) 250-3150
MEP Engineer	NV-5 163 Technology Dr. Irvine, CA 92618 (714) 478-6155

Services Provided by the City

- Providing access to the buildings as required.

Base Services Included

SCOPE OF WORK

Phase I, Prepare As-Built Drawings for Lerch Building at 122 N. Euclid Avenue only, Prepare Conditions Assessment and Mothballing Recommendations for all four buildings listed above.

Prepare "As-Built" Drawings of the existing Lerch Building at 122 N. Euclid Avenue only.

The Team shall provide the following services for each building:

The Architect shall have the following reports prepared for all the buildings in this study:

- Providing a Hazardous Materials Study
- Providing a Termite and Mold/Mildew Reports
- Providing services of a Security Systems Consultant

(Please note that the cost of these reports will be billed as reimbursable costs.)

The Team shall conduct a cursory, on-site investigation to verify existing conditions relating to the following mothballing issues:

Evaluate how and where to Secure the Building
Eradication of Vermin or Birds and droppings
Structural Stability of the Structures and any needed shoring
Condition and functionality of any existing utilities or interim utility replacement.
Methods of providing ventilation to all levels of existing buildings
Identify all needed building exterior water proofing improvements.
Identify methods to secure all exterior window and door openings.
Identify secure point of entry for on-site surveillance and monitoring.
Discuss the need for an on-site security system with direct-dial notification to the police and fire departments.
Make recommendation regarding physical appearance of the building exterior during duration of mothballing.
Discuss surveillance and monitoring schedule appropriate for the buildings.
Make recommendations on hazardous materials, mold and mildew, and termite treatments.

All recommendations should be designed to remain functional for a minimum period of ten years with reasonable maintenance.

Summarize findings and recommendations in a brief written report.

Based on the Conditions Assessment and Mothballing Report, the Architect shall prepare cursory Conceptual Drawings to illustrate the proposed scope of work. These drawing shall also show proposed exterior changes and/or aesthetic enhancement treatments such as securing existing openings and boarding up storefronts so that the visual character of the 100 block is preserved and is compatible with adjacent blocks.

Include a Cost Estimate for all mothballing recommendations for each address.

The City shall then review the Conceptual Mothballing Drawings and shall make any suggested modifications or changes to the scope of work.

Meet with the City to review any comments or recommended revisions to the study.

Make all necessary revisions as required.

Phase I Products:

As-built drawings including floor plans of all levels, roof plan, exterior elevations and two building sections for 122 N. Euclid Avenue only.
Hazardous materials study, mold and mildew study termite study and Security Consultant recommendations.
Conditions Assessment and Moth Balling Recommendations for each building
Conceptual Mothballing Drawings
Cost Estimates for the work on each building

Phase II, Prepare Construction Documents for Implementation of Mothballing Recommendations (Optional)

After the review and approval of the Mothballing Recommendations Study by the City, the Team shall prepare construction documents including working drawings and specifications to construct the recommended improvements including Structural, Mechanical and Electrical Engineering as required.

The Team shall prepare a Construction Document Statement of Probable Costs for the project.

The Team shall submit the Construction Documents for Plan Check and make all necessary revisions.

Phase II Products

Construction Documents for Mothballing
Construction Document Statement of Probable Cost

Phase III, Construction Observation (Optional)

The Team shall provide Construction Observation services for the construction of the project.

The Architect shall visit the site at intervals appropriate to the stage of construction or as otherwise agreed by the Architect in writing to become generally familiar with the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of such on-site observations as an Architect, the Architect shall keep the Owner informed of the progress and quality of the Work, and shall endeavor to guard the Owner against defects and deficiencies in the Work of the Contractor.

The Architect does not guarantee the performance of contracts by the construction contractor(s), or other third parties, nor is the Architect responsible for their acts or omissions. The Architect has not been retained or compensated to provide design and construction review services relating to the Contractor's safety precautions or to means, methods, techniques, sequences, or proceedings required for the Contractor to perform his work but not relating to the final or completed structure; omitted services include but are not limited to shoring, scaffolding, underpinning, temporary retainment of excavations and any erection methods and temporary bracing.

The Architect shall be the interpreter of the requirements of the Contract Documents and the judge of the performance thereunder by both the Owner and Contractor. The Architect shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written decisions, within a reasonable time, on all claims, disputes, and other matters in question between the Owner and the Contractor relating to the execution or progress of the Work or the interpretation of the Contract Documents.

Interpretations and decisions of the Architect shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in written or graphics form. In the capacity of interpreter and judge, the Architect shall endeavor to secure faithful performance by both the Owner and the Contractor, shall not show partiality to either, and shall not be liable for the result of any interpretation or decision rendered in good faith in such capacity.

The Architect’s decisions in matters relating to artistic effect shall be final if consistent with the intent of the Contract Documents. The Architect’s decisions on any other claims, disputes, or other matters, including those in question between the Owner and the Contractor, shall be subject to arbitration as provided in the Agreement and in the Contract Documents.

The Architect shall have authority to reject Work which does not conform to the Contract documents, as agreed upon with the Owner. Whenever, in the Architect's reasonable opinion, it is necessary or advisable for the implementation of the intent of the Contract Documents, the Architect will have authority to require special inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work be then fabricated, installed or completed.

The Architect shall review and approve or take other appropriate action upon the Contractor's submittals such as shop drawings, product data, and samples, but only for conformance with the design concept of the Work and with the information given in the Contract Documents. Such action shall be taken with reasonable promptness so as to cause no delay. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

It is agreed that the Owner shall hire all Contractors/Subcontractors, and handle all certificates for payments. The Owner shall file Notice of Completion and shall be responsible for all matters regarding liens.

The extent of the duties, responsibilities, and limitation of authority of the Architect as the Owner's representative during construction shall not be modified or extended without written consent of the Owner, the Contractor, and the Architect.

The Architect shall meet with the Clients periodically.

Phase III, Products:

- Miscellaneous documents.

ADDITIONAL SERVICES

The following services are not included in Basic Services.

Providing any other services not otherwise included in this Agreement or not customarily furnished in accordance with generally accepted Architectural practice.

OWNER'S RESPONSIBILITIES

The Owner shall provide full information regarding his requirements for the Project. The Owner shall designate, when necessary, a representative authorized to act in his behalf with respect to the Project. The Owner or his representative shall examine documents submitted by the Architect and shall render decisions pertaining thereto promptly, to avoid unreasonable delay in the progress of the Architect.

The Owner shall furnish full access to the buildings as requested by the Team.

The Owner shall furnish information required of him expeditiously as necessary for the orderly progress of the Work.

PROFESSIONAL FEES

The Professional Fee for Phase I through III shall be as listed below, plus reimbursable expenses:

Phase	Fee
Phase I, As-Built Drawings for 122 N. Euclid, Conditions Assessment and Mothballing Recommendations for all Buildings	Lump Sum of $46,000
Phase II, Construction Documents (Optional)	NTE $48,500
Phase III, Construction Observation (Optional)	NTE $18,800
Reimbursable Allowance	NTE $34,000*

*Includes technical studies.

Total	NTE $147,300

HOURLY FEE SCHEDULE:

Hourly Billing Rates

If additional services are requested, they shall be billed at the following hourly rates:

Architect

Principal	$225/hr.
Licensed Architect	$200/hr.
Draftsperson	$175/hr.
Structural Engineer	$230/hr.
MEP Engineer	$220/hr.

Billings shall be made to the Owner monthly in proportion to the Work completed plus reimbursable expenses and are to be paid within fifteen (15) days of receipt.

Reimbursable expenses shall be billed at a multiple of 1.1 x cost to cover processing and bookkeeping.

Reimbursable Cost Schedule

Blueprinting	Invoice
In-house photo-copying	.25/page
In-house blueprints	$1/sheet
In-house color copies	$1/sheet
Other Expenses	Cost

The fees listed above and the hourly rates listed are subject to a cost of living increase two years from the date of this Agreement.

TIME OF PERFORMANCE

We estimate the following time frame to complete the work:

Phase	Time
Phase I, Conditions Assessment and Mothballing Recommendations	9 weeks
Phase II, Construction Documents (Optional)	4-6weeks
Phase III, Construction Observation (Optional)	As needed

It is agreed that if suit is filed or informal proceedings are needed to obtain or to enforce payment of the statement, Owner is to pay the Architect, in addition to the amount of the statement and interest thereon, all costs of collection including court costs, and such reasonable attorney's fees as the court may fix, or if collection is obtained without court action, then in the amount of fifteen (15) percent of the total amount due, including interest.

Owner hereby agrees that the balance as stated on the billing from the Architect to Owner is correct, conclusive and binding on the Owner unless Owner, within ten (10) days from the date of the making of the billing, notifies the Architect in writing of the particular item that is alleged to be incorrect. Payment for the Architect's services are not contingent upon the Owner's ability to collect monies due the Owner.

No deductions shall be made from the Architect's compensation on account of penalty, liquidated damages or other sums withheld from payments to Contractors.

If the Project is suspended by the Owner or abandoned in whole or in part, the Architect shall be paid his compensation for services performed prior to receipt of written notice from the Owner of such suspension or abandonment, together with reimbursable expenses then due.

DEFAULT

In the event Owner fails to pay the Architect within thirty (30) days after invoices are rendered, Owner agrees that the Architect shall have the right to consider said default a total breach of this Agreement and, upon written notice, the duties, obligations and responsibilities of the Architect under this Agreement are terminated. In such event, Owner shall then promptly pay the Architect all of the fees and charges for services rendered by the Architect.

DELAYS

Neither party shall hold the other responsible for damages or delay in performance caused by acts of God, strikes, lockouts, accidents, or other events beyond the other's control.

TERMINATION

This Agreement may be terminated by either party upon seven days written notice should the other party fail substantially to perform in accordance with its terms through no fault of the other. In the event of termination due to the fault of others than the Architect, the Architect shall be paid his compensation for services performed to termination date, including reimbursable expenses then due and all terminal expenses.

SUCCESSORS AND ASSIGNS

The Owner and Architect each binds himself, his partners, successors, assigns and legal representatives to the other party to this Agreement. Neither the Owner or the Architect shall assign, sublet, or transfer his interest in this Agreement without the written consent of the other.

CLAIMS BY PARTIES

All claims, disputes, and other matters in question arising out of or relating to, this Agreement or the breach thereof, shall be decided by arbitration in accordance with the Construction Industry Arbitration rules of the American Arbitration Association then obtaining. This Agreement so to arbitrate shall be specifically enforceable under the prevailing arbitration law.

Notice of the demand for arbitration shall be filed in writing with the other party to the contract and with the American Arbitration Association. The demand shall be made within a reasonable time after the claim, dispute or other matter in question has arisen. In no event shall the demand for arbitration be made after institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statute of limitations.

Should arbitration occur between the two parties relating to the provisions of this Agreement, or any act arising out of the performance of this Agreement, all expenses, collection expenses, witness fees, court costs and attorney's fees shall be paid by the non-prevailing party to the prevailing party.

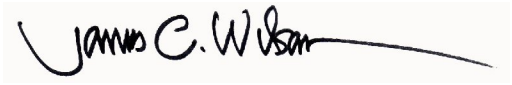
The Owner agrees that the Architect cannot be joined with any other person that is not a party to this Agreement either by joiner or consolidation except by the Architect's written consent.

APPLICABLE LAW

Unless otherwise specified, this Agreement shall be governed by the law of the principal place of business of the Architect.

WARRANTY OF AUTHORITY TO SIGN

The person signing this Agreement warrants he has authority to sign as, and on behalf of, the Owner for whom or for whose benefit Thirtieth Street Architect's services are rendered. If such person does not have such authority, he agrees that he is personally liable for all breaches of this Agreement, and that in any action against him for breach of such warranty a reasonable attorney's fee shall be included in any judgment rendered.



The undersigned hereby acknowledges that he or she has reviewed and accepts all provisions of this Agreement including the payment schedule.

The confirmation is valid for a period of thirty (30) days from the date shown above. If not accepted within thirty (30) days, it is void.

This Agreement executed on the day and year first written above.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **PUBLIC HEARINGS**
Department: Financial Services Prepared By: Cruz Torres Staff Member Presenting: Armen Harkalyan, Executive Director of Finance Reviewed By: Claudia Hernandez, . . Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 26

SUBJECT: **A PUBLIC HEARING TO CONSIDER A RESOLUTION REGARDING THE FORMATION OF THE CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 65 (FALLONCREST); ADOPTION OF A RESOLUTION DEEMING IT NECESSARY TO INCUR BONDED INDEBTEDNESS; AND INTRODUCTION OF AN ORDINANCE LEVYING SPECIAL TAXES**

RECOMMENDATION: That the City Council consider and:

A. Adopt a Resolution of Formation of Community Facilities District No. 65 (Falloncrest), proposing that the community facilities district be authorized to levy a special tax and proposing that an appropriations limit of the community facilities district be established;
B. Adopt a Resolution deeming it necessary for the district to incur bonded indebtedness within Community Facilities District No. 65 (Falloncrest);
C. Adopt a Resolution calling a special election for City of Ontario Community Facilities District No. 65 (Falloncrest);
D. Adopt a Resolution declaring the results of the special election and directing the recording of a Notice of Special Tax Lien;
E. Introduce and waive further reading of an ordinance levying special taxes within City of Ontario Community Facilities District No. 65 (Falloncrest); and
F. Adopt a Resolution authorizing the execution and delivery of an acquisition and funding agreement with Lennar Homes of California, LLC, a California limited liability company.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)
Ensure the Development of a Well Planned, Balanced, and Self-Sustaining Community in Ontario Ranch

FISCAL IMPACT: The use of Mello-Roos financing in the Falloncrest residential development is

projected to generate approximately $430,266 per year, at buildout, to fund administrative fees and municipal services; and approximately $14.6 million in bond proceeds to be used to fund a portion of the public infrastructure improvements needed to serve the project. Mello-Roos bonds are not a direct obligation of the City and are paid from special taxes levied on each taxable parcel in the district; therefore, there is no fiscal impact to the General Fund from the issuance of Mello-Roos bonds. City Council approval will be required in future years to process annual special tax levies.

BACKGROUND & ANALYSIS: The Mello-Roos Community Facilities Act of 1982 provides local government, with the consent from a majority of the property owners, the authority to establish community facilities districts for the purpose of levying special taxes to finance various kinds of public infrastructure facilities and municipal services. Under the Mello-Roos Act the initial steps in the formation of a community facilities district to finance public improvements and municipal services are to adopt resolutions declaring the intention to establish a community facilities district, authorize the levy of special taxes, and issue bonds. Accordingly, on April 16, 2024, the City Council approved Resolution No. 2024-017, a Resolution of Intention to establish City of Ontario Community Facilities District No. 65 (Falloncrest) and authorize the levy of special taxes; and Resolution No. 2024-018 declaring the City Council's intention to issue bonds for the district. The Resolution of Intention set the public hearing date for the regularly scheduled City Council meeting on May 21, 2024, to consider formation matters. City Council opened the hearing on May 21, 2024, and continued the hearing to Tuesday, June 4, 2024.

In the First Amended and Restated Agreement for the Financing and Construction of Limited Infrastructure Improvements to Serve an Easterly Portion of the New Model Colony ("First Amended and Restated Construction Agreement") between the City of Ontario and NMC Builders, LLC, the City agreed to cooperate with the members of NMC Builders, LLC in the formation of community facilities districts to assist in the financing of the public improvements included in the agreement. The Falloncrest project addresses the development is approximately 22.65 gross acres located south of Ontario Ranch Road, north of Grand Park Street, west of Broadway Avenue, and east of Archibald Avenue. At build out, the project is expected to include 362 attached units.

Included, as part of the Resolution of Formation is the proposed Rate and Method of Apportionment of Special Tax for the District. Under the proposed Rate and Method of Apportionment, the portion of the maximum annual special tax rates which will be used to fund debt service payments on the bonds is fixed and will not increase over time. As proposed, the amount of bonds authorized for the district ($60 million) is set intentionally higher than the current estimated bond amount (approximately $14.6 million) in order to allow future City Council the option, without increasing the amount of the annual special taxes, to issue additional bonds to replace and/or construct new public infrastructure improvements in the future, or to fund municipal services. The term and structure of the Rate and Method of Apportionment of Special Tax for the Falloncrest project is consistent with those of previously adopted Rates and Methods of Apportionment for Ontario Ranch community facilities districts. This ensures that the special tax rates levied on all residential property owners in community facilities districts in Ontario Ranch are developed in a consistent and equivalent manner. In addition, under the provisions of the Mello-Roos Act, to ensure that home buyers are making an informed decision, all residential builders in the Ontario Ranch districts are required to disclose the maximum annual special tax amount to

each homeowner before entering into a sales contract.

Attached are five Resolutions and an Ordinance. The first attached Resolution establishes the community facilities district, with the rate and method of apportionment of special taxes, and authorizes the levy of special taxes within the district. The second attached Resolution deeming it necessary to incur bonded indebtedness for the district. The third attached Resolution calls for a special landowner election to be held on June 4, 2024. The fourth attached Resolution declares the results of the election, including a statement from the City Clerk as to the canvass of ballots, and directs the recording of the Notice of Special Tax Lien. The attached Ordinance authorizes the levying of special taxes, and the final attached, fifth Resolution authorizes the execution and delivery of an acquisition and funding agreement with Lennar Homes of California, LLC.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, OF FORMATION OF CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 65 (FALLONCREST), PROPOSING THAT THE COMMUNITY FACILITIES DISTRICT BE AUTHORIZED TO LEVY A SPECIAL TAX AND PROPOSING THAT AN APPROPRIATIONS LIMIT OF THE COMMUNITY FACILITIES DISTRICT BE ESTABLISHED

WHEREAS, on April 16, 2024, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein" (the "Resolution of Intention"), stating its intention to establish City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), to authorize the Community Facilities District to levy a special tax within the Community Facilities District for the purpose of financing certain public facilities and services and setting May 21, 2024 as the date for a public hearing to be held on the establishment of the Community Facilities District; and

WHEREAS, pursuant to the Resolution of Intention, notice of said public hearing was published in the *Inland Valley Daily Bulletin*, a newspaper of general circulation published in the area of the Community Facilities District, in accordance with the Act; and

WHEREAS, on May 21, 2024, the City Council opened said public hearing and continued said public hearing to this date; and

WHEREAS, on this date, the City Council opened, conducted and closed said public hearing; and

WHEREAS, pursuant to the Resolution of Intention, each officer of the City who is or will be responsible for providing one or more of the proposed types of public facilities or services to be financed by the Community Facilities District was directed to study, or cause to be studied, the proposed Community Facilities District and, at or before said public hearing, file a report with the City Council containing a brief description of the public facilities and services by type that will in his or her opinion be required to adequately meet the needs of the Community Facilities District, and his or her estimate of the cost of providing such public facilities and services; such officers were also directed to estimate the fair and reasonable cost of the public facilities proposed to be purchased as completed public facilities and of the incidental expenses proposed to be paid; and

WHEREAS, said report was so filed with the City Council and made a part of the record of said public hearing; and

WHEREAS, at the hearing, the testimony of all persons for or against the establishment of the Community Facilities District, the extent of the Community Facilities

District and the furnishing of the specified types of public facilities and services was heard; and

WHEREAS, written protests against the establishment of the Community Facilities District, the furnishing of any specified type or types of facilities and services within the Community Facilities District or the levying of a specified special tax were not made or filed at or before said hearing by 50% or more of the registered voters, or six registered voters, whichever is more, residing within the territory proposed to be included in the Community Facilities District, or the owners of one-half or more of the area of land in the territory proposed to be included in the Community Facilities District and not exempt from the special tax; and

WHEREAS, there has been filed with the City Clerk of the City a letter from the Registrar of Voters of the County of San Bernardino indicating that no persons were registered to vote within the territory of the proposed Community Facilities District as of May 2, 2024, which demonstrates that 12 or more persons have not been registered to vote within the territory of the proposed Community Facilities District for each of the 90 days preceding the close of said public hearing; and

WHEREAS, Section 53314.9 of the Act provides that, at any time either before or after the formation of a community facilities district, the legislative body may accept advances of funds from any source, including, but not limited to, private persons or private entities and may provide, by resolution, for the use of those funds for any authorized purpose, including, but not limited to, paying any cost incurred by the local agency in creating a community facilities district; and

WHEREAS, Section 53314.9 of the Act further provides that the legislative body may enter into an agreement, by resolution, with the person or entity advancing the funds, to repay all or a portion of the funds advanced, as determined by the legislative body, with or without interest, under all the following conditions: (a) the proposal to repay the funds is included in both the resolution of intention to establish a community facilities district adopted pursuant to Section 53321 of the Act and in the resolution of formation to establish a community facilities district pursuant to Section 53325.1 of the Act, (b) any proposed special tax is approved by the qualified electors of the community facilities district pursuant to the Act, and (c) any agreement shall specify that if the qualified electors of the community facilities district do not approve the proposed special tax, the local agency shall return any funds which have not been committed for any authorized purpose by the time of the election to the person or entity advancing the funds; and

WHEREAS, the City and Lennar Homes of California, LLC (“Lennar”), have entered into the Deposit and Reimbursement Agreement, dated as of April 1, 2022 (the “Deposit Agreement”), that provides for the advancement of funds by Lennar to be used to pay costs incurred in creating the Community Facilities District and the incurrence of bonded indebtedness thereby, and provides for the repayment to Lennar of such funds advanced, without interest, from the proceeds of any such bonded indebtedness incurred by the Community Facilities District; and

WHEREAS, the City desires to include in this Resolution, in accordance with Section 53314.9 of the Act, the proposal to repay funds pursuant to the Deposit Agreement;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. The Community Facilities District is hereby established.

Section 3. The name for the Community Facilities District is "City of Ontario Community Facilities District No. 65 (Falloncrest)."

Section 4. The public facilities (the "Facilities") proposed to be financed by the Community Facilities District pursuant to the Act are described under the caption "Facilities" on Exhibit A hereto, which is by this reference incorporated herein. Those Facilities proposed to be purchased as completed public facilities are identified under the caption "Facilities to be Purchased" on Exhibit A hereto. The services (the "Services") proposed to be financed by the Community Facilities District pursuant to the Act are described under the caption "Services" on Exhibit A hereto. The incidental expenses proposed to be incurred are identified under the caption "Incidental Expenses" on Exhibit A hereto. All or any portion of the Facilities may be financed through a financing plan, including, but not limited to, a lease, lease-purchase or installment-purchase arrangement.

Section 5. The proposed special tax to be levied within the Community Facilities District has not been precluded by majority protest pursuant to Section 53324 of the Act.

Section 6. The City Council proposes that, except where funds are otherwise available, the Community Facilities District be authorized to annually levy within the Community Facilities District a special tax (the "Special Tax") sufficient to pay for all Facilities and Services, secured by recordation of a continuing lien against all nonexempt real property in the Community Facilities District. The rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay, is specified in the Rate and Method of Apportionment of Special Tax (the "Rate and Method") attached hereto as Exhibit B, which is by this reference incorporated herein. The conditions under which the obligation to pay the Special Tax to be levied to pay for Facilities may be prepaid and permanently satisfied are specified in the Rate and Method. The Special Tax will be collected in the same manner as ordinary *ad valorem* property taxes or in such other manner as the City Council shall determine, including direct billing of the affected property owners.

Section 7. The Special Tax may only finance the Services to the extent that they are in addition to those provided in the territory of the Community Facilities District before the date the Community Facilities District is created. The Services may not supplant services already available within that territory when the Community Facilities District is

created. Bonds of the Community Facilities District may not be issued to fund any of the Services.

Section 8. The tax year after which no further Special Tax to pay for Facilities shall be levied against any parcel used for private residential purposes is specified in the Rate and Method. Under no circumstances shall the Special Tax to pay for Facilities in any fiscal year against any parcel used for private residential purposes be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within the Community Facilities District by more than 10% above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. For purposes of this paragraph, a parcel shall be considered "used for private residential purposes" not later than the date on which an occupancy permit for private residential use is issued. The Special Tax to pay for Services will be levied in perpetuity, as provided in the Rate and Method.

Section 9. Pursuant to Section 53344.1 of the Act, the City Council hereby reserves to itself the right and authority to allow any interested owner of property within the Community Facilities District, subject to the provisions of said Section 53344.1 and to those conditions as it may impose, and any applicable prepayment penalties as prescribed in the bond indenture or comparable instrument or document, to tender to the Community Facilities District treasurer in full payment or part payment of any installment of the Special Tax or the interest or penalties thereon that may be due or delinquent, but for which a bill has been received, any bond or other obligation secured thereby, the bond or other obligation to be taken at par and credit to be given for the accrued interest shown thereby computed to the date of tender.

Section 10. The name, address and telephone number of the office, department or bureau that will be responsible for preparing annually a current roll of Special Tax levy obligations by assessor's parcel number and that will be responsible for estimating further Special Tax levies pursuant to Section 53340.2 of the Act are as follows: Management Analyst, Financial Services, City of Ontario, 303 East B Street, Ontario, California 91764, (909) 395-2341.

Section 11. Upon recordation of a notice of special tax lien pursuant to Section 3114.5 of the California Streets and Highways Code, a continuing lien to secure each levy of the Special Tax shall attach to all nonexempt real property in the Community Facilities District and this lien shall continue in force and effect until the Special Tax obligation is prepaid, permanently satisfied and canceled in accordance with law or until the Special Tax ceases to be levied and a notice of cessation of the Special Tax is recorded in accordance with Section 53330.5 of the Act.

Section 12. The boundary map of the Community Facilities District has been recorded in San Bernardino County in Book 91 at Page 58 of Maps of Assessments and Community Facilities Districts in the San Bernardino County Recorder's Office (Document No. 2024-0090697).

Section 13. The City Council proposes that the annual appropriations limit, as defined by subdivision (h) of Section 8 of Article XIII B of the California Constitution, of the Community Facilities District be established at $60,000,000.

Section 14. Pursuant to the provisions of the Act, the propositions to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District specified above shall be subject to the approval of the qualified electors of the Community Facilities District at a special election. The City Council hereby finds and determines that no persons were registered to vote within the territory of the proposed Community Facilities District as of May 2, 2024, and that 12 or more persons have not been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearing held by the City Council on the establishment of the Community Facilities District. Accordingly, pursuant to Section 53326 of the Act, the vote shall be by the landowners of the Community Facilities District and each person who is the owner of land as of the close of said public hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre that he or she owns within the Community Facilities District not exempt from the Special Tax. The voting procedure shall be by mailed or hand-delivered ballot.

Section 15. Lennar has heretofore advanced certain funds, and may advance additional funds, that have been or may be used to pay costs incurred in creating the Community Facilities District and the incurrence of bonded indebtedness thereby. The City Council has previously approved the acceptance of such funds for the purpose of paying costs incurred in creating the Community Facilities District and the incurrence of bonded indebtedness thereby. The City Council proposes to repay Lennar all or a portion of such funds so advanced, without interest, solely from the proceeds of any such bonded indebtedness incurred by the Community Facilities District, pursuant to the Deposit Agreement. The Deposit Agreement is hereby incorporated herein as though set forth in full herein.

Section 16. The City Council hereby finds and determines that all proceedings, up to and including the adoption of this Resolution, were valid and in conformity with the requirements of the Act. In accordance with Section 53325.1 of the Act, such finding shall be final and conclusive.

Section 17. All actions heretofore taken by the officers, employees and agents of the City with respect to the establishment of the Community Facilities District, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 18. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 19. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

EXHIBIT A

FACILITIES, SERVICES AND INCIDENTAL EXPENSES

Facilities

The types of public facilities to be financed by the Community Facilities District are street and bridge improvements, including grading, paving, curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, park and recreation facilities and equipment, aquatic facilities and equipment, fire facilities and equipment, police facilities and equipment, library facilities and equipment, fiber optic telecommunication, wireless communication and public safety camera facilities and equipment, general governmental office, administrative and meeting facilities, and land, rights-of-way and easements necessary for any of such facilities.

Facilities to be Purchased

The types of public facilities to be purchased as completed facilities are street and bridge improvements, including grading, paving, curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, and land, rights-of-way and easements necessary for any of such facilities.

Services

The types of City services to be financed by the Community Facilities District are police protection services, fire protection and suppression services, ambulance and paramedic services, maintenance and lighting of parks, parkways, streets, roads and open space, flood and storm protection services, maintenance and operation of fiber optic telecommunication, wireless communication and public safety camera systems and maintenance and operation of any real property or other tangible property with an estimated useful life of five or more years that is owned by the City.

Incidental Expenses

The incidental expenses proposed to be incurred include the following:

(a) the cost of planning and designing public facilities to be financed, including the cost of environmental evaluations of those facilities;

(b) the costs associated with the creation of the Community Facilities District, issuance of bonds, determination of the amount of taxes, collection of taxes, payment of taxes, or costs otherwise incurred in order to carry out the authorized purposes of the Community Facilities District; and

(c) any other expenses incidental to the construction, completion, and inspection of the authorized work.

EXHIBIT B

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

Special Taxes shall be levied on all Assessor's Parcels in the City of Ontario Community Facilities District No. 65 (Falloncrest) ("CFD No. 65") and collected each Fiscal Year, commencing in Fiscal Year 2024-25, in an amount determined by the City Council of the City of Ontario through the application of the Rate and Method of Apportionment, as described below. All of the real property in CFD No. 65, unless exempted by law or by the provisions hereof, shall be taxed for the purposes, to the extent, and in the manner herein provided.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre" or **"Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Subdivision Map, parcel map, condominium plan, or other recorded County map.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5 of Part 1 of Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD No. 65: the costs of computing the Special Taxes and preparing the annual Special Tax collection schedules (whether by the City or CFD No. 65 or both); the costs of collecting the Special Taxes (whether by the County or otherwise); the costs of remitting the Special Taxes to the Trustee; the costs of the Trustee (including its legal counsel) in the discharge of the duties required of it under the Indenture; the costs to the City or CFD No. 65 of complying with arbitrage rebate requirements; the costs to the City or CFD No. 65 of complying with City, CFD No. 65, or obligated persons disclosure requirements associated with applicable federal and state securities laws and of the Act; the costs associated with preparing Special Tax disclosure statements and responding to public inquiries regarding the Special Taxes; the costs of the City or CFD No. 65 related to the analysis and reduction, if any, of the Special Tax A on Single Family Property in accordance with Section C.1 herein; the costs of the City or CFD No. 65 related to an appeal of the Special Tax; the costs associated with the release of funds from any escrow account; the City's administration fees and third party expenses; the costs of City staff time and reasonable overhead relating to CFD No. 65; and amounts estimated or advanced by the City or CFD No. 65 for any other

administrative purposes of the CFD, including attorney's fees and other costs related to commencing and pursuing to completion any foreclosure of delinquent Special Taxes.

"Assessor's Parcel" means a lot or parcel shown in an Assessor's Parcel Map with an assigned Assessor's Parcel Number.

"Assessor's Parcel Map" means an official map of the Assessor of the County designating parcels by Assessor's Parcel Number.

"Assessor's Parcel Number" means, with respect to an Assessor's Parcel, that number assigned to such Assessor's Parcel by the County for purposes of identification.

"Assigned Special Tax A" means the Special Tax A for each Land Use Class of Developed Property, as determined in accordance with Section C.1.a.2 below.

"Backup Special Tax A" means the Special Tax A for each Land Use Class of Developed Property, as determined in accordance with Section C.1.a.3 below.

"Bonds" means any bonds or other debt (as defined in Section 53317(d) of the Act) issued by CFD No. 65 under the Act and payable from Special Tax A.

"Buildable Lot" means an individual lot, within a Final Subdivision Map or an area expected by CFD No. 65 to become Final Mapped Property, such as the area within a Tentative Tract Map, for which a building permit may be issued without further subdivision of such lot.

"CFD Administrator" means an official of the City responsible for determining the Special Tax A Requirement and Special Tax B Requirement, providing for the levy and collection of the Special Taxes, and performing the other duties provided for herein.

"CFD No. 65" means City of Ontario Community Facilities District No. 65 (Falloncrest).

"City" means the City of Ontario, California.

"City Council" means the City Council of the City, acting as the legislative body of CFD No. 65.

"Contractual Impositions" means (a) a voluntary contractual assessment established and levied on an Assessor's Parcel pursuant to Chapter 29 of Part 3 of Division 7 of the California Streets and Highways Code (commencing with Section 5898.10 *et seq.*), as amended from time to time, (b) a special tax established and levied on an Assessor's Parcel pursuant to Section 53328.1 of the California Government Code and related provisions of the Act, as amended from time to time, and (c) any other fee, charge, tax, or assessment established and levied on an individual Assessor's Parcel pursuant to a contractual agreement or other voluntary consent by the owner thereof (e.g., property owner association assessments).

"County" means the County of San Bernardino.

"Designated Buildable Lot" means a Buildable Lot for which a building permit has not been issued by the City as of the date of calculation of the Backup Special Tax A.

"Developed Property" means for each Fiscal Year, all Taxable Property, exclusive of Final Mapped Property, Taxable Property Owner Association Property, and Taxable Public Property, for which a building permit or other applicable permit for new construction was issued after January 1, 2023, and before May 1 of the prior Fiscal Year.

"Expected Residential Lot Count" means 362 Buildable Lots of Single Family Property or, as determined by the CFD Administrator, the number of Buildable Lots of Single Family Property based on the most recent Tentative Tract Map(s) or most recently recorded Final Subdivision Map(s) or modified Final Subdivision Map(s).

"Facilities" means the public facilities authorized to be financed, in whole or in part, by CFD No. 65.

"Final Mapped Property" means, for each Fiscal Year, all Taxable Property, exclusive of Developed Property, Taxable Property Owner Association Property, and Taxable Public Property, which as of January 1 of the previous Fiscal Year was located within a Final Subdivision Map. The term Final Mapped Property shall include any parcel map or Final Subdivision Map, or portion thereof, that creates individual lots for which a building permit may be issued, including Parcels that are designated as a remainder Parcel (i.e., one where the size, location, etc., precludes any further subdivision or taxable use).

"Final Subdivision Map" means a final tract map, parcel map, or lot line adjustment approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 et seq.) or a condominium plan recorded pursuant to California Civil Code Section 4285 that, in either case, creates individual lots for which building permits may be issued without further subdivision.

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Gated Community Attached Dwelling Unit" means, with respect to Special Tax B, a Unit within any residential building containing two or more dwelling units (including attached condominiums, townhouses, duplexes, triplexes, and apartments) within a gated community that, within such community, is primarily served by private interior streets.

"Indenture" means the indenture, fiscal agent agreement, resolution, or other instrument pursuant to which Bonds are issued, as modified, amended, and/or supplemented from time to time.

"Land Use Class" means any of the classes listed in Tables 1 and 2 below.

"Lower Income Household Welfare Exemption Property" means, for each Fiscal Year, an Assessor's Parcel within the boundaries of CFD No. 65 that is subject to a

welfare exemption under subdivision (g) of Section 214 of the California Revenue and Taxation Code (or any successor statute), as indicated in the most recent County assessor's roll finalized prior to such Fiscal Year.

"Maximum Special Tax A" means, with respect to an Assessor's Parcel of Taxable Property, the Maximum Special Tax A determined in accordance with Section C.1 below that can be levied in any Fiscal Year on such Assessor's Parcel of Taxable Property.

"Maximum Special Tax B" means, with respect to an Assessor's Parcel of Taxable Property, the Maximum Special Tax B determined in accordance with Section C.2 below that can be levied in any Fiscal Year on such Assessor's Parcel of Taxable Property.

"Minimum Sale Price" means the minimum price at which Units of a given Land Use Class have sold or are expected to be sold in a normal marketing environment and shall not include prices for such Units that are sold at a discount to expected sales prices for the purpose of stimulating the initial sales activity with respect to such Land Use Class.

"Multiple Family Dwelling Unit" means, with respect to Special Tax B, a Unit within any residential building containing two or more dwelling units, including attached condominiums, townhomes, duplexes, triplexes, and apartments, but excluding Gated Community Attached Dwelling Units.

"Non-Residential Property" means all Assessor's Parcels of Developed Property for which a building permit was issued by the City permitting the construction of one or more non-residential structures or facilities.

"Other Residential Property" means, with respect to Special Tax A, all Assessor's Parcels of Developed Property for which a building permit was issued by the City for purposes of constructing Units, excluding Single Family Attached Property and Single Family Detached Property.

"Outstanding Bonds" means all Bonds which are outstanding under and in accordance with the provisions of the Indenture.

"Price Point Consultant" means any consultant or firm of such consultants selected by CFD No. 65 that (a) has substantial experience in performing price point studies for residential units within community facilities districts established under the Act or otherwise estimating or confirming pricing for residential units in such community facilities districts, (b) has recognized expertise in analyzing economic and real estate data that relates to the pricing of residential units in such community facilities districts, (c) is in fact independent and not under the control of CFD No. 65 or the City, (d) does not have any substantial interest, direct or indirect, with or in (i) CFD No. 65, (ii) the City, (iii) any owner of real property in CFD No. 65, or (iv) any real property in CFD No. 65, and (e) is not connected with CFD No. 65 or the City as an officer or employee thereof, but who may be regularly retained to make reports to CFD No. 65 or the City.

"Price Point Study" means a price point study or a letter or report updating a previous price point study prepared by the Price Point Consultant pursuant to Section C herein.

"Property Owner Association Property" means, for each Fiscal Year, any property within the boundaries of CFD No. 65 that was owned by a property owner association, including any master or sub-association, as of January 1 of the prior Fiscal Year.

"Proportionately" means (a) for Developed Property in the first step of Section D.1 below, that the ratio of the actual Special Tax A levy to the Maximum Special Tax A is equal for all Assessor's Parcels of Developed Property; however, for Developed Property in the fourth step of Section D.1 below, Proportionately means that the amount of the increase above the Assigned Special Tax A, if necessary, is equal for all Assessor's Parcels of Developed Property, except that if the Backup Special Tax A limits the increase on any Assessor's Parcel(s), then the amount of the increase shall be equal for the remaining Assessor's Parcels; (b) with respect to Special Tax B, that the ratio of the actual Special Tax B levy to the Maximum Special Tax B is equal for all Assessor's Parcels of Developed Property; (c) for Final Mapped Property, that the ratio of the actual Special Tax A levy to the Maximum Special Tax A is equal for all Assessor's Parcels of Final Mapped Property; (d) for Undeveloped Property, that the ratio of the actual Special Tax A levy to the Maximum Special Tax A is equal for all Assessor's Parcels of Undeveloped Property; (e) for Taxable Property Owner Association Property, that the ratio of the actual Special Tax A levy to the Maximum Special Tax A is equal for all Assessor's Parcels of Taxable Property Owner Association Property; and (f) for Taxable Public Property, that the ratio of the actual Special Tax A levy to the Maximum Special Tax A is equal for all Assessor's Parcels of Taxable Public Property.

"Public Property" means, for each Fiscal Year, property within the boundaries of CFD No. 65 that is (a) owned by, irrevocably offered to, or dedicated to the federal government, the State, the County, the City, or any local government or other public agency or (b) encumbered by an easement for purposes of public or utility right-of-way that makes impractical its use for any purpose other than that set forth in such easement; provided that any property leased by a public agency to a private entity and subject to taxation under Section 53340.1 of the Act shall be taxed and classified according to its use.

"Rate and Method of Apportionment" means this Rate and Method of Apportionment of Special Tax.

"Residential Floor Area" means all of the Square Footage of living area within the perimeter of a Unit, not including any carport, walkway, garage, overhang, patio, enclosed patio, or similar area. The determination of Residential Floor Area shall be as set forth in the building permit(s) issued for such Assessor's Parcel, or as set forth in other official records maintained by the City's Building Department or other appropriate means selected by CFD No. 65. The actual Square Footage shall be rounded up to the next whole square foot. Once such determination has been made for an Assessor's Parcel, it shall remain fixed in all future Fiscal Years unless an appeal pursuant to Section F below is approved that results in a change in the actual Square Footage.

"Residential Property" means, for each Fiscal Year, an Assessor's Parcel for which a building permit for new construction of one or more Units was issued after January 1, 2023, and before May 1 of the prior Fiscal Year.

"Services" means the services authorized to be financed, in whole or in part, by CFD No. 65.

"Single Family Attached Property" means all Assessor's Parcels of Developed Property for which a building permit or use permit was issued for construction of a residential structure consisting of two or more Units that share common walls, have separate Assessor's Parcel Numbers assigned to them (except for a duplex unit, which may share an Assessor's Parcel with another duplex unit), and may be purchased by individual homebuyers (which shall still be the case even if the Units are purchased and subsequently offered for rent by the owner of the Unit), including such residential structures within a condominium project as defined in Civil Code Section 4125.

"Single Family Detached Property" means all Assessor's Parcels of Developed Property for which a building permit was issued for construction of a Unit, on one legal lot, that does not share a common wall with another Unit.

"Single Family Detached Dwelling Unit" means a Unit of Single Family Detached Property.

"Single Family Property" means all Assessor's Parcels of Single Family Attached Property and Single Family Detached Property.

"Special Taxes" means, collectively, Special Tax A and Special Tax B.

"Special Tax A" means the special tax authorized by the qualified electors of CFD No. 65 to be levied within the boundaries of CFD No. 65 to pay for Facilities and Services.

"Special Tax A Requirement" means for any Fiscal Year that amount required, after taking into account available amounts held in the funds and accounts established under the Indenture, for CFD No. 65 to: (i) pay debt service on all Outstanding Bonds which is due in the calendar year that commences in such Fiscal Year; (ii) pay periodic costs on the Bonds, including, but not limited to, credit enhancement and rebate payments on the Bonds; (iii) pay a pro rata share of Administrative Expenses; (iv) provide any amounts required to establish or replenish any reserve fund for the Bonds; (v) pay directly for acquisition or construction of Facilities, or the cost of Services, to the extent that the inclusion of such amounts does not increase the Special Tax A levy on Final Mapped Property or Undeveloped Property; and (vi) provide an amount equal to Special Tax A delinquencies based on the historical delinquency rate for Special Tax A as determined by the CFD Administrator.

"Special Tax B" means the special tax authorized by the qualified electors of CFD No. 65 to be levied within the boundaries of CFD No. 65 to pay for Services.

"Special Tax B Requirement" means for any Fiscal Year that amount required, after taking into account available amounts in any funds and accounts established to pay for Services, to pay the cost of Services, a pro rata share of Administrative Expenses, and an amount equal to Special Tax B delinquencies based on the historical delinquency rate for Special Tax B as determined by the CFD Administrator.

"Square Footage" or **"Sq. Ft."** means the floor area square footage reflected on the original construction building permit, or as set forth in other official records maintained by the City's Building Department or other appropriate means selected by CFD No. 65, issued for construction of Residential Property or Non-Residential Property, plus any square footage subsequently added to a building of Non-Residential Property after issuance of a building permit for expansion or renovation of such building.

"State" means the State of California.

"Taxable Property" means, for each Fiscal Year, all of the Assessor's Parcels within the boundaries of CFD No. 65 that are not exempt from the Special Taxes pursuant to law or Section E below.

"Taxable Property Owner Association Property" means, for each Fiscal Year, all Assessor's Parcels of Property Owner Association Property that are not exempt from the Special Taxes pursuant to Section E below.

"Taxable Public Property" means, for each Fiscal Year, all Assessor's Parcels of Public Property that are not exempt from the Special Taxes pursuant to law or Section E below.

"Tentative Tract Map" means a map: (i) showing a proposed subdivision of an Assessor's Parcel(s) and the conditions pertaining thereto; (ii) that may or may not be based on a detailed survey; and (iii) that is not recorded by the County to create legal lots.

"Total Tax Burden" means, for a Unit within a Land Use Class, for the Fiscal Year in which the Total Tax Burden is being calculated, the sum of (a) the Assigned Special Tax A for such Land Use Class for such Fiscal Year, plus (b) the Special Tax B for such Land Use Class for such Fiscal Year, plus (c) the *ad valorem* property taxes, special assessments, special taxes for any overlapping community facilities districts, and any other governmental fees, charges (other than fees or charges for services such as sewer and trash), taxes, and assessments (which do not include Contractual Impositions) collected by the County on *ad valorem* tax bills, plus (d) property owner association assessments (but excluding the refuse collection portion of such assessments), and that the CFD Administrator estimates would be levied or imposed on such Unit in such Fiscal Year if the residential dwelling unit thereon or therein had been completed and sold, and was subject to such fees, charges, taxes, and assessments in such Fiscal Year.

"Trustee" means the trustee or fiscal agent under the Indenture.

"TTM 20399" means Tentative Tract Map No. 20399, the area of which is located within CFD No. 65.

"Undeveloped Property" means, for each Fiscal Year, all Taxable Property not classified as Developed Property, Final Mapped Property, Taxable Public Property, or Taxable Property Owner Association Property.

"Unit" means an individual single-family detached or attached home, townhome, condominium, apartment, or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure.

B. ASSIGNMENT TO LAND USE CATEGORIES

Each Fiscal Year, beginning with Fiscal Year 2024-25, all Taxable Property within CFD No. 65 shall be classified as Developed Property, Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, or Undeveloped Property, and shall be subject to Special Taxes in accordance with the Rate and Method of Apportionment as determined pursuant to Sections C and D below.

Assessor's Parcels of Developed Property shall be further classified as: Single Family Property (and further classified as Single Family Attached Property or Single Family Detached Property, as needed) or Other Residential Property (for Special Tax A); Single Family Detached Dwelling Unit, Multiple Family Dwelling Unit, or Gated Community Attached Dwelling Unit (for Special Tax B); or Non-Residential Property. For Special Tax A, Assessor's Parcels of Single Family Property shall be assigned to Land Use Classes 1 through 8, as listed in Table 1 below based on the Residential Floor Area of the Units on such Assessor's Parcels. Also for Special Tax A, Other Residential Property and Non-Residential Property shall be assigned to Land Use Classes 9 and 10, respectively.

C. MAXIMUM SPECIAL TAX

1. Special Tax A

At least 30 days prior to the issuance of Bonds, the Assigned Special Tax A on Developed Property (set forth in Table 1 below) shall be analyzed in accordance with and subject to the conditions set forth in this Section C. At such time, CFD No. 65 shall select and engage a Price Point Consultant and the CFD Administrator shall request the Price Point Consultant to prepare a Price Point Study setting forth the Minimum Sale Price of Units within each Land Use Class.

If based upon such Price Point Study the CFD Administrator calculates that the Total Tax Burden, excluding property owner association assessments, applicable to Units within one or more Land Use Classes of Single Family Property to be constructed within CFD No. 65 exceeds 1.95% of the Minimum Sale Price of such Units, the Assigned Special Tax A shall be reduced to the extent necessary to cause the Total Tax Burden, excluding property owner association assessments,

that shall apply to Units within such Land Use Class(es) not to exceed 1.95% of the Minimum Sale Price of such Units.

Each Assigned Special Tax A reduction for a Land Use Class shall be calculated by the CFD Administrator separately, and it shall not be required that such reduction be proportionate among Land Use Classes. In connection with any reduction in the Assigned Special Tax A, the Backup Special Tax A shall also be reduced by the CFD Administrator based on the percentage reduction in Maximum Special Tax A revenues within the Tentative Tract Map area(s) where the Assigned Special Tax A reductions occurred. Upon determining the reductions, if any, in the Assigned Special Tax A and Backup Special Tax A required pursuant to this Section C, the CFD Administrator shall complete the Certificate of Modification of Special Tax substantially in the form attached hereto as Exhibit A (the "Certificate of Modification"), shall execute such completed Certificate of Modification, and shall deliver such executed Certificate of Modification to CFD No. 65. Upon receipt thereof, if in satisfactory form, CFD No. 65 shall execute such Certificate of Modification. The reduced Assigned Special Tax A and Backup Special Tax A specified in such Certificate of Modification shall become effective upon the execution of such Certificate of Modification by CFD No. 65.

The Special Tax A reductions required pursuant to this section shall be reflected in an amended notice of Special Tax lien, which CFD No. 65 shall cause to be recorded with the County Recorder as soon as practicable after execution of the Certificate of Modification by CFD No. 65. The reductions in this section apply to Single Family Property, but not to Other Residential Property or Non-Residential Property.

a. Developed Property

1) *Maximum Special Tax A*

The Maximum Special Tax A that may be levied in any Fiscal Year for each Assessor's Parcel classified as Developed Property shall be the greater of (i) the amount derived by application of the Assigned Special Tax A or (ii) the amount derived by application of the Backup Special Tax A. The Maximum Special Tax A shall not increase in future years, other than as calculated pursuant to Section C.1.a.3 below.

2) *Assigned Special Tax A*

The Assigned Special Tax A that may be levied in any Fiscal Year for each Land Use Class is shown below in Table 1.

TABLE 1
ASSIGNED SPECIAL TAX A – DEVELOPED PROPERTY

Land Use Class	Description	Residential Floor Area (Square Footage)	Assigned Special Tax A
1	Single Family Property	< 801	$2,718 per Unit
2	Single Family Property	801 – 1,000	$2,875 per Unit
3	Single Family Property	1,001 – 1,200	$3,188 per Unit
4	Single Family Property	1,201 – 1,400	$3,580 per Unit
5	Single Family Property	1,401 – 1,600	$3,822 per Unit
6	Single Family Property	1,601 – 1,800	$3,909 per Unit
7	Single Family Property	1,801 – 2,000	$4,135 per Unit
8	Single Family Property	> 2,000	$4,226 per Unit
9	Other Residential Property		$95,803 per Acre
10	Non-Residential Property		$95,803 per Acre

3) Backup Special Tax A

The Backup Special Tax A shall be $3,701 per Unit for Single Family Property in CFD No. 65. However, if the Expected Residential Lot Count of Single Family Property does not equal 362, and the City has not issued Bonds, then the Backup Special Tax A for Designated Buildable Lots of Single Family Property in CFD No. 65 shall be calculated according to the following formulas:

Backup Special Tax A = $1,339,902 ÷ Expected Residential Lot Count for Single Family Property

If any portion of a Final Subdivision Map, or any area expected by CFD No. 65 to become Final Mapped Property – such as the area within TTM 20399, or any other Tentative Tract Map – changes any time after the City has issued Bonds, causing an adjustment to the number of Designated Buildable Lots, then the Backup Special Tax A for all Designated Buildable Lots of Single Family Property subject to the change shall be calculated according to the following steps:

Step 1: Determine the total Backup Special Tax A that could have been collected from Designated Buildable Lots of Single Family Property, prior to

the Final Subdivision Map or expected Final Mapped Property change.

Step 2: Divide the amount determined in Step 1 by the number of Designated Buildable Lots of Single Family Property that exists after the Final Subdivision Map or expected Final Mapped Property change.

Step 3: Apply the amount determined in Step 2 as the Backup Special Tax A per Unit for Single Family Property.

The Backup Special Tax A for an Assessor's Parcel shall not change once an Assessor's Parcel is classified as Developed Property.

b. Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, and Undeveloped Property

The Maximum Special Tax A for Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, and Undeveloped Property shall be $95,803 per Acre, and shall not be subject to increase or reduction and, therefore, shall remain the same in every Fiscal Year.

2. Special Tax B

The Maximum Special Tax B for each Assessor's Parcel classified as Developed Property shall be determined by reference to Table 2 below.

TABLE 2
MAXIMUM SPECIAL TAX B – DEVELOPED PROPERTY

Land Use Class	Maximum Special Tax B Fiscal Year 2024-25
Residential Property	
Single Family Detached Dwelling Unit	$1,501.46 per Unit
Multiple Family Dwelling Unit	$1,301.51 per Unit
Gated Community Attached Dwelling Unit	$1,091.38 per Unit
Non-Residential Property	$0.273800 per Sq. Ft.

On January 1 of each Fiscal Year, commencing January 1, 2025, the Maximum Special Tax B to be applied in the next Fiscal Year shall be subject to an automatic increase at a rate equal to 4.0% of the amount in effect for the prior Fiscal Year.

3. Multiple Land Use Classes on an Assessor's Parcel

In some instances an Assessor's Parcel of Developed Property may contain more than one Land Use Class. The Maximum Special Tax A levied on such Assessor's Parcel shall be the sum of the Maximum Special Tax A for all Units of Single Family Property and Acres of Other Residential Property and Non-Residential Property (based on the pro rata share of Square Footage between Other Residential Property and Non-Residential Property, according to the applicable building permits, Final Subdivision Map, parcel map, condominium plan, or other recorded County map) located on that Assessor's Parcel. The Maximum Special Tax B levied on such Assessor's Parcel shall be the sum of the Maximum Special Tax B for all Units of Residential Property and all Square Footage of Non-Residential Property (based on the applicable building permits, Final Subdivision Map, parcel map, condominium plan, or other recorded County map) located on that Assessor's Parcel.

4. Developed Property Special Tax Obligation

Once an Assessor's Parcel has been taxed in any Fiscal Year as Developed Property, the Assessor's Parcel shall continue to be taxed as Developed Property regardless of changes to or expiration of the original building permit, and regardless of revisions to or destruction of the structure that was, or was expected to be, constructed pursuant to the original building permit.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

1. Special Tax A

Each Fiscal Year, beginning with Fiscal Year 2024-25, the CFD Administrator shall determine the Special Tax A Requirement for such Fiscal Year. The Special Tax A shall then be levied as follows:

First: If needed to satisfy the Special Tax A Requirement, Special Tax A shall be levied Proportionately on each Assessor's Parcel of Developed Property up to 100% of the applicable Assigned Special Tax A;

Second: If additional monies are needed to satisfy the Special Tax A Requirement after the first step has been completed, then Special Tax A shall be levied Proportionately on each Assessor's Parcel of Final Mapped Property up to 100% of the Maximum Special Tax A for Final Mapped Property;

Third: If additional monies are needed to satisfy the Special Tax A Requirement after the first two steps have been completed, then Special Tax A shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property up to 100% of the Maximum Special Tax A for Undeveloped Property;

Fourth: If additional monies are needed to satisfy the Special Tax A Requirement after the first three steps have been completed, then the levy of Special Tax A on each Assessor's Parcel of Developed Property whose Maximum Special Tax A is determined through the application of the Backup Special Tax A shall be increased Proportionately from the Assigned Special Tax A up to the Maximum Special Tax A for each such Assessor's Parcel;

Fifth: If additional monies are needed to satisfy the Special Tax A Requirement after the first four steps have been completed, then Special Tax A shall be levied Proportionately on each Assessor's Parcel of Taxable Property Owner Association Property up to the Maximum Special Tax A for Taxable Property Owner Association Property;

Sixth: If additional monies are needed to satisfy the Special Tax A Requirement after the first five steps have been completed, then Special Tax A shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property up to the Maximum Special Tax A for Taxable Public Property.

Notwithstanding the above, under no circumstances shall Special Tax A levied in any Fiscal Year on any Assessor's Parcel of Single Family Property or Other Residential Property for which an occupancy permit for private residential use has been issued be increased as a result of delinquency or default by the owner or owners of any other Assessor's Parcel or Assessor's Parcels within CFD No. 65 by more than ten percent above the amount that would have been levied in that Fiscal Year had there never been any such delinquencies or defaults.

2. Special Tax B

Each Fiscal Year, beginning with Fiscal Year 2024-25, the CFD Administrator shall determine the Special Tax B Requirement. The Special Tax B shall then be levied Proportionately on each Assessor's Parcel of Developed Property up to 100% of the applicable Maximum Special Tax B for such Assessor's Parcel, until the Special Tax B Requirement is satisfied. However, the Special Tax B levied in any Fiscal Year shall not increase by more than 4.0% of the amount of the Special Tax B levied in the prior Fiscal Year.

E. EXEMPTIONS

No Special Tax shall be levied on up to 7.11 Acres of Property Owner Association Property. Tax-exempt status will be assigned by the CFD Administrator in the chronological order in which property becomes Property Owner Association Property.

Property Owner Association Property or Public Property that is not exempt from the Special Tax A under this section shall be subject to the levy of Special Tax A and shall be

taxed Proportionately as part of the fifth or sixth step, respectively, in Section D above, up to 100% of the applicable Maximum Special Tax A for Taxable Property Owner Association Property and Taxable Public Property. No Special Tax A shall be levied in any Fiscal Year on Assessor's Parcels that have fully prepaid the Special Tax A obligation pursuant to the formula set forth in Section H.

No Special Tax shall be levied on Lower Income Household Welfare Exemption Property; provided, however, that if, in any Fiscal Year, applicable law does not require that Lower Income Household Welfare Exemption Property be exempt from some portion, or all, of the Special Tax, such portion, or all, of the Special Tax shall be levied on such property in accordance with this Rate and Method of Apportionment based on the Land Use Class to which the Assessor's Parcel is assigned.

F. APPEALS

Any property owner may file a written appeal of the Special Tax with CFD No. 65 claiming that the amount or application of the Special Tax is not correct. The appeal must be filed not later than one calendar year after having paid the Special Tax that is disputed, and the appellant must be current in all payments of Special Taxes. In addition, during the term of the appeal process, all Special Taxes levied must be paid on or before the payment date established when the levy was made.

The appeal must specify the reasons why the appellant claims the Special Tax is in error. The CFD Administrator shall review the appeal, meet with the appellant if the CFD Administrator deems necessary, and advise the appellant of its determination.

If the property owner disagrees with the CFD Administrator's decision relative to the appeal, the owner may then file a written appeal with the City Council whose subsequent decision shall be final and binding on all interested parties. If the decision of the CFD Administrator or subsequent decision by the City Council requires the Special Tax to be modified or changed in favor of the property owner, then the CFD Administrator shall determine if sufficient Special Tax revenue is available to make a cash refund. If a cash refund cannot be made, then an adjustment shall be made to credit future Special Tax levy(ies).

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

G. MANNER OF COLLECTION

The Special Taxes shall be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that the Special Taxes may be collected in such other manner as the City Council shall determine, including direct billing of affected property owners.

H. PREPAYMENT OF SPECIAL TAX A

The following definitions apply to this Section H:

"CFD Public Facilities" means $16,259,000 for each Prepayment Period, or such lower number as determined by the City Council to be sufficient to fund the Facilities and Services to be provided by CFD No. 65.

"Expenditures Fund" means funds or accounts, regardless of their names, that are established to hold moneys that are available to acquire or construct Facilities and to fund Services.

"Future Facilities Costs" means the CFD Public Facilities minus (i) Facilities and Services costs previously paid from the Expenditures Fund during the Prepayment Period in which the prepayment is being made, (ii) moneys currently on deposit in the Expenditures Fund from deposits made during the Prepayment Period in which the prepayment is being made, and (iii) moneys currently on deposit in an escrow fund that are expected to be available to finance Facilities costs. In no event shall the amount of Future Facilities Costs be less than zero.

"Prepayment Period" means one of three periods of time during which a Special Tax prepayment may be made.

"Prepayment Period 1" means July 1, 2024, through June 30, 2058.

"Prepayment Period 2" means July 1, 2058, through June 30, 2091.

"Prepayment Period 3" means July 1, 2091, through June 30, 2125.

Only Special Tax A may be prepaid; Special Tax B shall continue to be levied on an annual basis on all Developed Property in CFD No. 65.

1. Prepayment in Full

The obligation of an Assessor's Parcel to pay the Special Tax A may be prepaid as described herein, provided that a prepayment may be made only for Assessor's Parcels for which a building permit for new construction was issued after January 1, 2023, and only if there are no delinquent Special Taxes with respect to such Assessor's Parcel at the time of prepayment. An owner of an Assessor's Parcel intending to prepay the Special Tax A obligation shall provide the CFD Administrator with written notice of intent to prepay. Within 30 days of receipt of such written notice, the CFD Administrator shall notify such owner of the prepayment amount for such Assessor's Parcel. The CFD Administrator may charge a fee for providing this service. Prepayment in any six month period must be made not less than 45 days prior to the next occurring date that notice of redemption of Bonds from the proceeds of such prepayment may be given to the Trustee pursuant to the Indenture.

The Special Tax A Prepayment Amount (defined below) shall be calculated as summarized below (capitalized terms as defined below):

Bond Redemption Amount	
plus	Redemption Premium
plus	Future Facilities Amount
plus	Defeasance Amount
plus	Administrative Fees and Expenses
less	Reserve Fund Credit
Total	Prepayment Amount

As of the proposed date of prepayment, the Special Tax A Prepayment Amount (defined below) shall be calculated by the CFD Administrator as follows:

Paragraph No.

1. Confirm that no Special Tax delinquencies apply to such Assessor's Parcel, and determine the Prepayment Period for the proposed prepayment.

2. Compute the Assigned Special Tax A and Backup Special Tax A for the Assessor's Parcel to be prepaid based on the Developed Property Special Tax A which is, or could be, charged in the current Fiscal Year. For Assessor's Parcels of Final Mapped Property (for which a building permit has been issued but which is not yet classified as Developed Property) to be prepaid, compute the Assigned Special Tax A and Backup Special Tax A for that Assessor's Parcel as though it was already designated as Developed Property, based upon the building permit which has already been issued for that Assessor's Parcel.

3. (a) Divide the Assigned Special Tax A computed pursuant to Paragraph 2 by the total estimated Assigned Special Tax A for CFD No. 65 based on the Developed Property Special Tax A which could be charged in the current Fiscal Year on all expected development through buildout of CFD No. 65, excluding any Assessor's Parcels which have been prepaid, and

   (b) Divide the Backup Special Tax A computed pursuant to Paragraph 2 by the estimated total Backup Special Tax A at buildout of CFD No. 65, excluding any Assessor's Parcels which have been prepaid.

4. Multiply the larger quotient computed pursuant to Paragraph 3(a) or 3(b) by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the "Bond Redemption Amount").

5. Multiply the Bond Redemption Amount computed pursuant to Paragraph 4 by the applicable redemption premium (e.g., the redemption price minus 100%), if any, on the Outstanding Bonds to be redeemed (the "Redemption Premium").

6. Compute the Future Facilities Costs for the applicable Prepayment Period.

7. Multiply the larger quotient computed pursuant to Paragraph 3(a) or 3(b) by the amount determined pursuant to Paragraph 6 to compute the amount of Future Facilities Costs to be prepaid (the "Future Facilities Amount").

8. Compute the amount needed to pay interest on the Bond Redemption Amount from the first bond interest and/or principal payment date following the current Fiscal Year until the earliest redemption date for the Outstanding Bonds.

9. Determine the Special Tax A levied on the Assessor's Parcel in the current Fiscal Year which has not yet been paid.

10. Add the amounts computed pursuant to Paragraphs 8 and 9 to determine the "Defeasance Amount".

11. Verify the administrative fees and expenses of CFD No. 65, including the costs to compute the prepayment, the costs to invest the prepayment proceeds, the costs to redeem Bonds, and the costs to record any notices to evidence the prepayment and the redemption (the "Administrative Fees and Expenses").

12. If reserve funds for the Outstanding Bonds, if any, are at or above 100% of the reserve requirement (as defined in the Indenture) on the prepayment date, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "Reserve Fund Credit"). No Reserve Fund Credit shall be granted if reserve funds are below 100% of the reserve requirement on the prepayment date or the redemption date.

13. The Special Tax A prepayment is equal to the sum of the amounts computed pursuant to Paragraphs 4, 5, 7, 10, and 11, less the amount computed pursuant to Paragraph 12 (the "Prepayment Amount").

14. From the Prepayment Amount, the amounts computed pursuant to Paragraphs 4, 5, 10, and 12 shall be deposited into the appropriate fund as established under the Indenture and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to Paragraph 7 shall be deposited into the Expenditures Fund. The amount computed pursuant to Paragraph 11 shall be retained by CFD No. 65.

The Special Tax A Prepayment Amount may be sufficient to redeem other than a $5,000 increment of Bonds. In such cases, the increment above $5,000, or integral multiple thereof, will be retained in the appropriate fund established under the Indenture to be used with the next prepayment of Bonds or to make debt service payments.

As a result of the payment of the current Fiscal Year's Special Tax A levy as determined under Paragraph 9 (above), the CFD Administrator shall remove the current Fiscal Year's Special Tax A levy for such Assessor's Parcel from the County tax rolls. With respect to any Assessor's Parcel that is prepaid during Prepayment Period 3, the CFD Administrator shall cause a suitable notice to be recorded in compliance with the Act to indicate that

Special Tax A has been prepaid and that the obligation of such Assessor's Parcel to pay Special Tax A shall cease.

With respect to Special Tax A for any Assessor's Parcel that is prepaid during Prepayment Period 1 or Prepayment Period 2, the obligation of such Assessor's Parcel to pay Special Tax A shall be tolled, or suspended, through the end of such Prepayment Period, but shall resume in the first Fiscal Year of the subsequent Prepayment Period. The CFD Administrator shall cause a suitable notice to be recorded in compliance with the Act to indicate that Special Tax A has been satisfied for the remainder of the applicable Prepayment Period but has not been permanently satisfied and the obligation to pay Special Tax A will resume in the first Fiscal Year of the Prepayment Period following the Prepayment Period in which the prepayment was made. Once the obligation of an Assessor's Parcel to pay Special Tax A resumes, Special Tax A for the then applicable Prepayment Period may be prepaid.

Notwithstanding the foregoing, no Special Tax A prepayment shall be allowed unless the amount of Maximum Special Tax A that may be levied on Taxable Property within CFD No. 65 (after excluding 1.86 Acres of Public Property and 3.58 Acres of Property Owner Association Property) both prior to and after the proposed prepayment is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

2. Prepayment in Part

The Special Tax A on an Assessor's Parcel for which a building permit for new construction was issued after January 1, 2023, may be partially prepaid. The amount of the prepayment shall be calculated as in Section H.1, except that a partial prepayment shall be calculated by the CFD Administrator according to the following formula:

$$PP = (PF - AE) \times \% + AE.$$

The terms above have the following meaning:

PP = the partial prepayment
PF = the Prepayment Amount (full prepayment) for Special Tax A calculated according to Section H.1
AE = the Administrative Fees and Expenses determined pursuant to paragraph 11 above
% = the percentage by which the owner of the Assessor's Parcel(s) is partially prepaying Special Tax A

The Special Tax A partial prepayment amount must be sufficient to redeem at least a $5,000 increment of Bonds.

The owner of any Assessor's Parcel who desires such prepayment shall notify the CFD Administrator of such owner's intent to partially prepay Special Tax A and the percentage by which Special Tax A shall be prepaid. The CFD Administrator shall provide the owner with a statement of the amount required for the partial prepayment of Special Tax A for an Assessor's Parcel within thirty (30) days of the request and may charge a fee for providing this service. With respect to any Assessor's Parcel that is

partially prepaid, the CFD Administrator shall (i) distribute the remitted prepayment funds according to Section H.1, and (ii) indicate in the records of CFD No. 65 that there has been a partial prepayment of Special Tax A and that a portion of Special Tax A with respect to such Assessor's Parcel, equal to the outstanding percentage (100% - "%", as defined above) of the Maximum Special Tax A, shall continue to be levied on such Assessor's Parcel pursuant to Section D during the Prepayment Period in which the partial prepayment is made.

For partial prepayments made during Prepayment Period 1 or Prepayment Period 2, the full amount of Special Tax A shall resume in the first Fiscal Year of the Prepayment Period following the Prepayment Period in which the partial prepayment was made. Once the obligation of an Assessor's Parcel to pay Special Tax A resumes, Special Tax A for the then applicable Prepayment Period may be prepaid.

I. TERM OF SPECIAL TAX

The Fiscal Year after which no further Special Tax A shall be levied or collected is Fiscal Year 2124-2125, except that Special Tax A that was lawfully levied in or before such Fiscal Year and that remains delinquent may be collected in subsequent years. Special Tax B shall continue to be levied indefinitely on an annual basis on all Developed Property in CFD No. 65.

EXHIBIT A

CERTIFICATE OF MODIFICATION OF SPECIAL TAX A
(PAGE 1 OF 2)

CITY OF ONTARIO AND CFD NO. 65 CERTIFICATE

1. Pursuant to Section C.1 of the Rate and Method of Apportionment of Special Tax (the "Rate and Method") for City of Ontario Community Facilities District No. 65 (Falloncrest) ("CFD No. 65"), the Assigned Special Tax A and the Backup Special Tax A for Developed Property within CFD No. 65 has been modified.

    a. The information in Table 1 relating to Assigned Special Tax A for Developed Property within CFD No. 65, as stated in Section C.1.a.2 of the Rate and Method of Apportionment, has been modified as follows:

TABLE 1
ASSIGNED SPECIAL TAX A – DEVELOPED PROPERTY

Land Use Class	Description	Residential Floor Area (Square Footage)	Assigned Special Tax A
1	Single Family Property	< 801	$[ ] per Unit
2	Single Family Property	801 – 1,000	$[ ] per Unit
3	Single Family Property	1,001 – 1,200	$[ ] per Unit
4	Single Family Property	1,201 – 1,400	$[ ] per Unit
5	Single Family Property	1,401 – 1,600	$[ ] per Unit
6	Single Family Property	1,601 – 1,800	$[ ] per Unit
7	Single Family Property	1,801 – 2,000	$[ ] per Unit
8	Single Family Property	> 2,000	$[ ] per Unit
9	Other Residential Property		$[ ] per Acre
10	Non-Residential Property		$[ ] per Acre

EXHIBIT A

CERTIFICATE OF MODIFICATION OF SPECIAL TAX A
(PAGE 2 OF 2)

b. The Backup Special Tax for Developed Property, as stated in Section C.1.a.3, shall be modified as follows:

The Backup Special Tax A shall be $[___] per Unit for Single Family Property. However, if the Expected Residential Lot Count of Single Family Property does not equal 362, and the City has not issued Bonds, then the Backup Special Tax A for Designated Buildable Lots of Single Family Property in CFD No. 65 shall be calculated according to the following formulas:

Backup Special Tax A = $[_____] ÷ Expected Residential Lot Count for Single Family Property

2. The Special Tax A for Developed Property may only be modified prior to the first issuance of CFD No. 65 Bonds.

3. Upon execution of this certificate by CFD No. 65, CFD No. 65 shall cause an amended notice of Special Tax lien for CFD No. 65 to be recorded reflecting the modifications set forth herein.

Capitalized undefined terms used herein have the meanings ascribed thereto in the Rate and Method. The modifications set forth in this Certificate have been calculated by the CFD Administrator in accordance with the Rate and Method.

The undersigned acknowledges receipt of this Certificate and of the modification of the Assigned Special Tax A and Backup Special Tax A for Developed Property as set forth in this Certificate.

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

By:_____ Date:_____

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, DEEMING IT NECESSARY FOR CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 65 (FALLONCREST) TO INCUR BONDED INDEBTEDNESS

WHEREAS, on April 16, 2024, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein," stating its intention to establish City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") and to authorize the Community Facilities District to levy a special tax (the "Special Tax") within the Community Facilities District for the purpose of financing certain public facilities (the "Facilities") and services; and

WHEREAS, on April 16, 2024, the City Council also adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Declaring it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Declaring Necessity"), declaring it necessary for the Community Facilities District to incur bonded indebtedness and setting May 21, 2024 as the date for a public hearing to be held on the proposed debt authorization; and

WHEREAS, pursuant to the Resolution Declaring Necessity, notice of said public hearing was published in the *Inland Valley Daily Bulletin*, a newspaper of general circulation published in the area of the Community Facilities District, in accordance with the Act; and

WHEREAS, on May 21, 2024, the City Council opened said public hearing and continued said public hearing to this date; and

WHEREAS, on this date, the City Council opened, conducted and closed said public hearing; and

WHEREAS, at said public hearing, any person interested, including persons owning property within the area and desiring to appear and present any matters material to the questions set forth in the Resolution Declaring Necessity appeared and presented such matters; and

WHEREAS, oral or written protests against the proposed debt issue were not made or filed at or before said public hearing by 50% or more of the registered voters, or six registered voters, whichever is more, residing within the territory proposed to be included in the Community Facilities District, or the owners of one-half or more of the area

of land in the territory proposed to be included in the Community Facilities District and not exempt from the Special Tax; and

WHEREAS, the City Council deems it necessary for the Community Facilities District to incur bonded indebtedness; and

WHEREAS, on this date, the City Council adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District Be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District Be Established;" and

WHEREAS, the City Clerk of the City (the "City Clerk") is the election official that will conduct the special election on the proposition to authorize the Community Facilities District to incur bonded indebtedness; and

WHEREAS, there has been filed with the City Clerk a letter from the Registrar of Voters of the County of San Bernardino indicating that no persons were registered to vote within the territory of the Community Facilities District as of May 2, 2024, which demonstrates that 12 or more persons have not been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of said public hearing; and

WHEREAS, there has been filed with the City Clerk consents and waivers of all of the landowners of record in the Community Facilities District consenting to the waiver of, and waiving, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of said special election, including any time limit or requirement applicable to an election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), consenting to the holding of said special election on June 4, 2024, and consenting to the waiver of, and waiving, any impartial analysis, arguments or rebuttals, as set forth in Sections 53326 and 53327 of the Act; and

WHEREAS, the City Clerk has concurred in said waivers and has concurred in holding said special election on June 4, 2024;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. The City Council deems it necessary for the Community Facilities District to incur the bonded indebtedness.

Section 3. The bonded indebtedness will be incurred for the purpose of financing the costs of the Facilities, including all costs and estimated costs incidental to, or connected with, the accomplishment of said purpose, including, but not limited to, such costs and estimated costs as are described in Section 53345.3 of the Act.

Section 4. In accordance with the previous determination of the City Council, the whole of the Community Facilities District will pay for the bonded indebtedness.

Section 5. The maximum amount of debt to be incurred is $60,000,000.

Section 6. The maximum term the bonds to be issued shall run before maturity is 40 years.

Section 7. The maximum annual rate of interest to be paid shall not exceed the maximum interest rate permitted by applicable law at the time of sale of the bonds, payable semiannually or at such times as the City Council or its designee shall determine, the actual rate or rates and times of payment of such interest to be determined by the City Council or its designee at the time or times of sale of the bonds.

Section 8. The proposition to authorize the Community Facilities District to incur the bonded indebtedness shall be submitted to the qualified electors of the Community Facilities District.

Section 9. The City Council hereby finds and determines that no persons were registered to vote within the territory of the Community Facilities District as of May 2, 2024, and that 12 or more persons have not been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearing held by the City Council on the proposed debt issue for the Community Facilities District. Accordingly, pursuant to Section 53326 of the Act, the vote shall be by the landowners of the Community Facilities District and each person who is the owner of land as of the close of said public hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre that he or she owns within the Community Facilities District not exempt from the Special Tax.

Section 10. The City Council hereby finds and determines that the qualified electors of the Community Facilities District have (a) unanimously consented to the waiver of, and have waived, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of said election, including any time limit or requirement applicable to an election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), (b) unanimously consented to the holding of said election on June 4, 2024, and (c) unanimously consented to the waiver of, and have waived, any impartial analysis, arguments or rebuttals, as set forth in Sections 53326 and 53327 of the Act. The City Council hereby finds and determines that the City Clerk has concurred in said waivers and has concurred in holding said election on June 4, 2024.

Section 11. The date of the special community facilities district election (which shall be consolidated with the special district election to authorize the Community Facilities District to levy the Special Tax) at which time the proposition to authorize the Community Facilities District to incur the bonded indebtedness shall be submitted to the voters is June 4, 2024.

Section 12. As authorized by Section 53353.5 of the Act, the propositions to authorize the Community Facilities District to incur such bonded indebtedness, to authorize the Community Facilities to levy the Special Tax and to establish an appropriations limit of the Community Facilities District shall be combined into one ballot proposition.

Section 13. Pursuant to Section 53326 of the Act, the election shall be conducted by mail or hand-delivered ballot. The voted ballots are required to be received in the office of the City Clerk no later than 7:30 p.m. on June 4, 2024; provided, however, that if all of the qualified electors have voted prior to such time, the election may be closed with the concurrence of the City Clerk.

Section 14. All actions heretofore taken by the officers, employees and agents of the City with respect to the incurrence of bonded indebtedness by the Community Facilities District, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 15. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 16. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, CALLING SPECIAL ELECTION FOR CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 65 (FALLONCREST)

WHEREAS, on this date, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District Be Established" (the "Resolution of Formation"), establishing City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), proposing that the Community Facilities District be authorized to levy a special tax (the "Special Tax") within the Community Facilities District for the purpose of financing certain public facilities (the "Facilities") and services and proposing that an appropriations limit of the Community Facilities District be established at $60,000,000; and

WHEREAS, on this date, the City Council also adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Deeming Necessity"), deeming it necessary for the Community Facilities District to incur bonded indebtedness in a maximum amount of $60,000,000; and

WHEREAS, pursuant to the provisions of the Act and said resolutions, the propositions to authorize the Community Facilities District to incur such bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish such appropriations limit of the Community Facilities District are to be submitted to the qualified electors of the Community Facilities District at a special election; and

WHEREAS, the City Council desires to designate the City Clerk of the City (the "City Clerk") as the election official for such special election; and

WHEREAS, there has been filed with the City Clerk a letter from the Registrar of Voters of the County of San Bernardino indicating that no persons were registered to vote within the territory of the Community Facilities District as of May 2, 2024, which demonstrates that 12 or more persons have not been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearings on the establishment of the Community Facilities District and the proposed debt issue for the Community Facilities District; and

WHEREAS, there has been filed with the City Clerk consents and waivers of all of the landowners of record in the Community Facilities District consenting to the waiver of, and waiving, any time limit specified by Section 53326 of the Act and any requirement

pertaining to the conduct of said special election, including any time limit or requirement applicable to an election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), consenting to the holding of said special election on June 4, 2024 and consenting to the waiver of, and waiving, any impartial analysis, arguments or rebuttals, as set forth in Sections 53326 and 53327 of the Act; and

WHEREAS, the City Clerk has concurred in said waivers and has concurred in holding said special election on June 4, 2024;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. Pursuant to Sections 53351, 53326 and 53325.7 of the Act, the propositions to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District shall be submitted to the qualified electors of the Community Facilities District at an election called therefor as provided below.

Section 3. The City Clerk is hereby designated as the official to conduct said election.

Section 4. As authorized by Section 53353.5 of the Act, the propositions to authorize the Community Facilities District to incur such bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish such appropriations limit of the Community Facilities District shall be combined into one ballot proposition.

Section 5. The City Council hereby finds and determines that no persons were registered to vote within the territory of the Community Facilities District as of May 2, 2024, and that 12 or more persons have not been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearings heretofore held by the City Council on the establishment of the Community Facilities District and the proposed debt issue for the Community Facilities District. Accordingly, pursuant to Section 53326 of the Act, the vote shall be by the landowners of the Community Facilities District and each person who is the owner of land as of the close of said public hearings, or the authorized representative thereof, shall have one vote for each acre or portion of an acre that he or she owns within the Community Facilities District not exempt from the Special Tax.

Section 6. The City Council hereby finds and determines that the qualified electors of the Community Facilities District have (a) unanimously consented to the waiver of, and have waived, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of said election, including any time limit or requirement applicable to an election pursuant to Article 5 of the Act (commencing with

Section 53345 of the Act), (b) unanimously consented to the holding of said election on June 4, 2024, and (c) unanimously consented to the waiver of, and have waived, any impartial analysis, arguments or rebuttals, as set forth in Sections 53326 and 53327 of the Act. The City Council hereby finds and determines that the City Clerk has concurred in said waivers and has concurred in holding said election on June 4, 2024.

Section 7. The City Council hereby calls a special election to submit to the qualified electors of the Community Facilities District the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness in a maximum amount of $60,000,000, to authorize the Community Facilities to levy the Special Tax and to establish the appropriations limit of the Community Facilities District at $60,000,000, which election shall be held at 303 East B Street, Ontario, California, on June 4, 2024, provided, that, in the event the June 4, 2024 City Council meeting is held via teleconference and/or videoconference only, the means by which the public may observe such public hearings and offer public comment would be as prescribed in the notice and agenda for such City Council meeting. The City Council has caused to be provided to the City Clerk, as the official to conduct the election, the Resolution of Formation, the Resolution Deeming Necessity, a certified map of sufficient scale and clarity to show the boundaries of the Community Facilities District and a sufficient description to allow the City Clerk to determine the boundaries of the Community Facilities District.

The voted ballots shall be returned to the City Clerk not later than 7:30 p.m. on June 4, 2024; provided, however, that if all of the qualified electors have voted prior to such time, the election may be closed with the concurrence of the City Clerk.

Section 8. Pursuant to Section 53326 of the Act, the election shall be conducted by mail or hand-delivered ballot pursuant to Section 4000 *et. seq.* of the California Elections Code. Except as otherwise provided in the Act, the provisions of law regulating elections of the City, insofar as they may be applicable, shall govern the election.

Section 9. The form of the ballot for the election, which sets forth the measure to be submitted to the voters, is attached hereto as Exhibit A and by this reference incorporated herein, and such form of ballot is hereby approved. The City Clerk shall cause to be delivered to each of the qualified electors of the Community Facilities District a ballot in said form, together with all supplies and written instructions necessary for the use and return of the ballot. The number of votes to be voted by a particular landowner shall be specified on the ballot provided to that landowner.

The identification envelope for return of a ballot shall be enclosed with such ballot, shall have the return postage prepaid, and shall contain: (a) the name and address of the landowner, (b) a declaration, under penalty of perjury, stating that the voter is the owner of record or the authorized representative of the landowner entitled to vote and is the person whose name appears on the identification envelope, (c) the printed name and signature of the voter, (d) the date of signing and place of execution of the declaration described in clause (b) above, and (e) a notice that the envelope contains an official ballot and is to be opened only by the canvassing board.

Analysis and arguments with respect to the measure submitted to the voters are hereby waived, as provided in Section 53327 of the Act.

Section 10. The City Clerk shall accept the ballots of the qualified electors in the office of the City Clerk at 303 East B Street, Ontario, California, to and including 7:30 p.m. on June 4, 2024, whether said ballots be personally delivered or received by mail. The City Clerk shall have available ballots that may be marked at said location on the election day by said qualified electors.

Section 11. The City Council hereby determines that the facilities and services financed by the Community Facilities District are necessary to meet increased demands placed upon local agencies as a result of development occurring in the Community Facilities District.

Section 12. The specific purpose of the bonded indebtedness that the Community Facilities District is proposed to be authorized to incur is the financing of the Facilities, including all costs and estimated costs incidental to, or connected with, the accomplishment of such purpose, and the proceeds of such bonded indebtedness shall be applied only to such specific purpose.

Upon approval of the proposition to authorize the Community Facilities District to incur bonded indebtedness, and the sale of any bonds evidencing such indebtedness, the City Council shall take such action as may be necessary to cause to be established an account for deposit of the proceeds of sale of the bonds. For so long as any proceeds of the bonds remain unexpended, the Management Analyst, Financial Services of the City shall cause to be filed with the City Council, no later than January 1 of each year, a report stating (a) the amount of bond proceeds received and expended during the preceding year, and (b) the status of any project funded or to be funded from bond proceeds. Said report may relate to the calendar year, fiscal year, or other appropriate annual period, as the Management Analyst, Financial Services of the City shall determine, and may be incorporated into the annual budget, audit, or other appropriate routine report to the City Council.

Section 13. All actions heretofore taken by the officers, employees and agents of the City with respect to the special election called pursuant hereto, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 14. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 15. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

OFFICIAL BALLOT

CITY OF ONTARIO
June 4, 2024

SPECIAL ELECTION

This ballot is for a special, landowner election. The number of votes to be voted pursuant to this ballot is ____.

INSTRUCTIONS TO VOTERS:

To vote on the measure, mark a cross (+ or X) in the voting square after the word "YES" or after the word "NO". All distinguishing marks or erasures are forbidden and make the ballot void. If you wrongly mark, tear or deface this ballot, return it to the City Clerk of the City of Ontario and obtain another.

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

MEASURE: Shall the measure to authorize City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") to incur bonded indebtedness in a maximum amount of $60,000,000, to authorize the Community Facilities District to levy a special tax in order to finance certain facilities and services and to establish the annual appropriations limit of the Community Facilities District at $60,000,000, as specified in the resolutions adopted by the City Council of the City of Ontario on June 4, 2024 entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District Be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District Be Established" and "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness," be adopted?

Yes: ☐

No: ☐

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, DECLARING RESULTS OF SPECIAL ELECTION AND DIRECTING RECORDING OF NOTICE OF SPECIAL TAX LIEN

WHEREAS, on June 4, 2024, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Calling Special Election for City of Ontario Community Facilities District No. 65 (Falloncrest)" (the "Resolution Calling Election"), calling a special election to submit to the qualified electors of City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy a special tax and to establish the appropriations limit of the Community Facilities District; and

WHEREAS, pursuant to the terms of the Resolution Calling Election and the provisions of the Act, the special election was held on June 4, 2024; and

WHEREAS, the City Clerk of the City (the "City Clerk") has certified the canvass of the returns of the election and has filed a Canvass and Statement of Results of Election (the "Canvass"), a copy of which is attached hereto as Exhibit A;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. The City Council has received, reviewed and hereby accepts the Canvass.

Section 3. The City Council hereby finds and declares that the ballot proposition submitted to the qualified electors of the Community Facilities District pursuant to the Resolution Calling Election has been passed and approved by such electors in accordance with Section 53355, Section 53328 and Section 53325.7 of the Act.

Section 4. The City Clerk is hereby directed to execute and cause to be recorded in the office of the County Recorder of the County of San Bernardino a notice of special tax lien in the form required by the Act, said recording to occur no later than 15 days following adoption by the City Council of this Resolution.

Section 5. All actions heretofore taken by the officers, employees and agents of the City with respect to the special election, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 6. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 7. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, LEVYING A SPECIAL TAX WITHIN CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 65 (FALLONCREST)

WHEREAS, on April 16, 2024, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein," stating its intention to establish City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") and to authorize the Community Facilities District to levy a special tax (the "Special Tax") within the Community Facilities District for the purpose of financing certain public facilities (the "Facilities") and services (the "Services"); and

WHEREAS, on June 4, 2024, the City Council held a noticed public hearing on the establishment of the Community Facilities District, as required by the Act; and

WHEREAS, subsequent to the close of said hearing, the City Council adopted resolutions entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District Be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District Be Established" (the "Resolution of Formation"), "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" and "A Resolution of the City Council of the City of Ontario, California, Calling Special Election for City of Ontario Community Facilities District No. 65 (Falloncrest)," which resolutions established the Community Facilities District, proposed that the Community Facilities District be authorized to levy the Special Tax within the Community Facilities District, proposed that an appropriations limit of the Community Facilities District be established and called a special election to submit to the qualified electors of the Community Facilities District the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District; and

WHEREAS, on June 4, 2024, an election was held in which the qualified electors of the Community Facilities District approved said proposition by more than the two-thirds vote required by the Act; and

WHEREAS, the City Council is the legislative body of the Community Facilities District;

THE CITY COUNCIL OF THE CITY OF ONTARIO DOES ORDAIN AS FOLLOWS:

Section 1. The City Council hereby authorizes and levies the Special Tax within the Community Facilities District pursuant to Sections 53328 and 53340 of the Act, at the rate and in accordance with the method of apportionment set forth in Exhibit B to the Resolution of Formation (the "Rate and Method"). The Special Tax is hereby levied commencing in fiscal year 2024-25 and in each fiscal year thereafter until the last fiscal year in which the Special Tax is authorized to be levied pursuant to the Rate and Method.

Section 2. The City Council may, pursuant to subdivision (b) of Section 53340 of the Act, provide, by resolution, for the levy of the Special Tax in the current tax year or in future tax years at the same rate or at a lower rate than the rate provided by this Ordinance. In no event shall the Special Tax be levied on any parcel within the Community Facilities District in excess of the maximum tax specified therefor in the Rate and Method.

Section 3. The Special Tax shall be levied on all of the parcels in the Community Facilities District, unless exempted by law or by the Rate and Method.

Section 4. The proceeds of the Special Tax shall only be used to pay, in whole or in part, the cost of providing the Facilities and Services and incidental expenses pursuant to the Act.

Section 5. The Special Tax shall be collected in the same manner as ordinary *ad valorem* property taxes are collected and shall be subject to the same penalties and the same procedure, sale and lien priority in the case of delinquency as is provided for *ad valorem* taxes or in such other manner as the City Council shall determine, including direct billing of the affected property owners.

Section 6. If for any reason any portion of this Ordinance is found to be invalid, or if the Special Tax is found inapplicable to any particular parcel within the Community Facilities District, by a court of competent jurisdiction, the balance of this Ordinance and the application of the Special Tax to the remaining parcels within the Community Facilities District shall not be affected.

Section 7. The Mayor shall sign this Ordinance and the City Clerk shall certify as to the adoption and shall cause a summary thereof to be published at least once, in a newspaper of general circulation in the City of Ontario, California within fifteen (15) days of the adoption. The City Clerk shall post a certified copy of this ordinance, including the vote for and against the same, in the Office of the City Clerk, in accordance with Government Code Section 36933.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, AUTHORIZING THE EXECUTION AND DELIVERY OF AN ACQUISITION AND FUNDING AGREEMENT WITH LENNAR HOMES OF CALIFORNIA, LLC

WHEREAS, certain real property within the boundaries of the City located generally south of State Route 60 is commonly known as the New Model Colony; and

WHEREAS, the City has approved a General Plan Amendment for the New Model Colony, which has been supplemented by certain water, recycled water and sewer master plans (as so supplemented, the "General Plan Amendment") and has certified an Environmental Impact Report and adopted a Mitigated Negative Declaration in connection with the General Plan Amendment (together, the "Environmental Impact Report"); and

WHEREAS, the City has specified in the General Plan Amendment and the Environmental Impact Report the major backbone transportation, water, sewer, storm drainage, parks, public safety infrastructure and fiber optic systems required to serve the New Model Colony; and

WHEREAS, the New Model Colony is now commonly referred to as Ontario Ranch; and

WHEREAS, Lennar Homes of California, LLC, a California limited liability company ("Lennar"), is developing certain of the property within Ontario Ranch (the "Property"); and

WHEREAS, certain of such major backbone infrastructure is required to serve the Property; and

WHEREAS, the City and Lennar desire to provide a mechanism to fund, in a timely manner, the costs of certain of such major backbone infrastructure required to serve Ontario Ranch (the "Facilities") so that such development may occur; and

WHEREAS, in order to provide such a mechanism, the City has, pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act"), established City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), the boundaries of which include the Property; and

WHEREAS, the Community Facilities District is authorized to levy a special tax (the "Special Tax") within the Community Facilities District and issue special tax bonds (the "Bonds") secured by the Special Tax in order to finance certain of the Facilities; and

WHEREAS, it is anticipated that the Special Tax will be levied by the Community Facilities District and that, from time to time, Bonds will be issued by the Community Facilities District; and

WHEREAS, Lennar proposes to construct, or cause to be constructed, certain of the Facilities proposed to be financed by the Community Facilities District pursuant to the Act, and the City proposes to purchase such Facilities from Lennar pursuant to an Acquisition and Funding Agreement by and between the City and Lennar (such Acquisition and Funding Agreement, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Acquisition Agreement"); and

WHEREAS, the City Council is the legislative body of the Community Facilities District;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The Acquisition Agreement, in substantially the form submitted to this meeting and made a part hereof as though set forth herein, be and the same is hereby approved. Each of the Mayor of the City, and such other member of the City Council as the Mayor may designate, the City Manager of the City and the Executive Director of Finance of the City, and such other officer or employee of the City as the City Manager may designate (the "Authorized Officers") is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the City, to execute and deliver the Acquisition Agreement in the form submitted to this meeting, with such changes, insertions and omissions as the Authorized Officer executing the same may require or approve, such requirement or approval to be conclusively evidenced by the execution of the Acquisition Agreement by such Authorized Officer.

Section 2. All actions heretofore taken by the officers, employees and agents of the City with respect to the Acquisition Agreement, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 3. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 4. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

CONCURRENCE OF ELECTION OFFICIAL

I, Sheila Mautz, City Clerk of the City of Ontario (the "City"), hereby certify as follows:

(a) that I am the election official responsible for conducting special elections in the City; and

(b) that, pursuant to Section 53326(a) of the Mello-Roos Community Facilities Act of 1982 (the "Act"), I do hereby concur in (i) the holding on the date hereof of the special election to submit to the qualified electors of City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy a special tax and to establish an appropriations limit of the Community Facilities District, as provided in the resolution entitled "A Resolution of the City Council of the City of Ontario, California, Calling Special Election for City of Ontario Community Facilities District No. 65 (Falloncrest)," proposed to be adopted by the City Council of the City on the date hereof, and (ii) the waiving by the unanimous consent of the qualified electors of the Community Facilities District of any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of the election, including any time limit or requirement applicable to any election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act).

NOTICE OF SPECIAL TAX LIEN

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

Pursuant to the requirements of Section 3114.5 of the California Streets and Highways Code and Section 53328.3 of the Mello-Roos Community Facilities Act of 1982 (the "Act"), the undersigned City Clerk of the City of Ontario, State of California, hereby gives notice that a lien to secure payment of a special tax is hereby imposed by the City Council of the City of Ontario, County of San Bernardino, State of California. The special tax secured by this lien is authorized to be levied for the purpose of (a) paying the principal of and interest on bonds, the proceeds of which are being used to finance the facilities described in Exhibit A attached hereto and hereby made a part hereof, (b) providing such facilities, and (c) providing the services described in Exhibit A.

The special tax is authorized to be levied within City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") that has now been officially formed and the lien of the special tax is a continuing lien that shall secure each annual levy of the special tax and that shall continue in force and effect until the special tax obligation is prepaid, permanently satisfied and canceled in accordance with law or until the special tax ceases to be levied and a notice of cessation of special tax is recorded in accordance with Section 53330.5 of the Act.

The rate, method of apportionment and manner of collection of the authorized special tax is as set forth in Exhibit B attached hereto and hereby made a part hereof. Conditions under which the obligation to pay the special tax for facilities may be prepaid and permanently satisfied and the lien of the special tax canceled are as set forth in Exhibit B. No provision has been made for the prepayment of the special tax for services.

Notice is further given that upon the recording of this notice in the office of the County Recorder of the County of San Bernardino, the obligation to pay the special tax levy shall become a lien upon all nonexempt real property within the Community Facilities District in accordance with Section 3115.5 of the California Streets and Highways Code.

The name(s) of the owner(s) and the assessor's tax parcel number(s) of the real property included within the Community Facilities District and not exempt from the special tax are as set forth in Exhibit C attached hereto and hereby made a part hereof.

Reference is made to the boundary map of the Community Facilities District recorded at Book 91 of Maps of Assessment and Community Facilities Districts at Page 58, in the office of the County Recorder for the County of San Bernardino, State of California (Document No. 2024-0090697), which map is now the final boundary map of the Community Facilities District.

For further information concerning the current and estimated future tax liability of owners or purchasers of real property subject to this special tax lien, interested persons should contact the Management Analyst, Financial Services, City of Ontario, 303 East B Street, Ontario, California 91764, (909) 395-2341.

Dated: June ___, 2024

ACQUISITION AND FUNDING AGREEMENT

THIS ACQUISITION AND FUNDING AGREEMENT (this "Acquisition Agreement"), dated as of June 1, 2024, is by and between the CITY OF ONTARIO, a general law city organized and existing under the laws of the State of California (the "City"), and LENNAR HOMES OF CALIFORNIA, LLC, a limited liability company organized and existing under the laws of the State of California (the "Developer").

W I T N E S S E T H:

WHEREAS, certain real property within the boundaries of the City located generally south of State Route 60 is commonly known as the New Model Colony;

WHEREAS, the City has approved a General Plan Amendment for the New Model Colony, which has been supplemented by certain water, recycled water and sewer master plans (as so supplemented, the "General Plan Amendment") and has certified an Environmental Impact Report and adopted a Mitigated Negative Declaration in connection with the General Plan Amendment (together, the "Environmental Impact Report");

WHEREAS, the City has specified in the General Plan Amendment and the Environmental Impact Report the major backbone transportation, water, sewer, storm drainage, parks, public safety infrastructure and fiber optic systems required to serve the New Model Colony;

WHEREAS, the New Model Colony is now commonly referred to as Ontario Ranch;

WHEREAS, the Developer is developing certain of the property within Ontario Ranch (the "Property");

WHEREAS, certain of such major backbone infrastructure is required to serve the Property;

WHEREAS, the City and the Developer desire to provide a mechanism to fund, in a timely manner, the costs of certain of such major backbone infrastructure required to serve the Ontario Ranch (the "Facilities") so that such development may occur;

WHEREAS, in order to provide such a mechanism, the City has, pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act"), established City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), the boundaries of which include the Property;

WHEREAS, pursuant to the Act, the proceedings of the City Council of the City and an election held within the Community Facilities District, the Community Facilities District is authorized to levy a special tax (the "Special Tax") within the Community Facilities District and issue special tax bonds (the "Bonds") secured by the Special Tax in order to finance certain of the Facilities;

WHEREAS, it is anticipated that the Special Tax will be levied by the Community Facilities District and that, from time to time, Bonds will be issued by the Community Facilities District;

WHEREAS, it is anticipated that, in accordance with the terms set forth in this Acquisition Agreement, the Developer will construct or cause to be constructed certain of the Facilities, that, upon satisfaction of the conditions specified herein, the City will acquire such Facilities and take title thereto and that the Developer will be paid the purchase price thereof, determined as set forth herein, from certain proceeds of the Special Tax, if any, and certain proceeds of the Bonds;

WHEREAS, Section 53313.5 of the Act provides that a community facilities district may only finance the purchase of facilities whose construction has been completed, as determined by the legislative body, before the resolution of formation to establish the community facilities district is adopted pursuant to Section 53325.1 of the Act, except that a community facilities district may finance the purchase of facilities completed after the adoption of the resolution of formation if the facility was constructed as if it had been constructed under the direction and supervision, or under the authority of, the local agency; and

WHEREAS, the Facilities are to be acquired by the City pursuant to this Acquisition Agreement pursuant to the Act and, specifically, pursuant to the provisions of Sections 53313.5 thereof;

NOW, THEREFORE, for and in consideration of the mutual promises and covenants contained herein, the parties hereto agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions. Unless the context otherwise requires (a) the terms defined in this Section shall, for all purposes of this Acquisition Agreement, have the meanings herein ascribed thereto, and (b) capitalized undefined terms used herein that are defined in the Indenture shall have the respective meanings ascribed thereto in the Indenture.

"Acceptable Title" means title to land, or an easement therein, delivered free and clear of all liens, taxes, assessments, leases, easements and encumbrances, whether any such item is recorded or unrecorded, except those non-monetary items that are reasonably determined by the City not to interfere with the intended use of such land or easement and therefore are not required to be cleared from title.

"Acceptance Date" means (a) with respect to a Segment, the date on which such Segment is accepted by the City pursuant to Section 2.2(e) hereof, and (b) with respect to a Component, the date on which the last Segment that is part of such Component is accepted by the City pursuant to Section 2.2(e) hereof.

"Acquisition Agreement" means this Acquisition and Funding Agreement, dated as of June 1, 2024, by and between the City and the Developer, as originally executed or as the same may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Act" means the Mello-Roos Community Facilities Act of 1982, constituting Section 53311 *et seq.* of the California Government Code.

"Actual Cost" means, with respect to a Segment, as the description thereof is reflected in the then current Plans therefor, an amount equal to the sum of (a) the Developer's actual, reasonable cost of constructing such Segment (including grading for such construction), including labor, material and equipment costs and professional services directly related to materials testing, (b) the Developer's actual, reasonable cost of designing and preparing the Plans for such Segment, including engineering services provided in connection with designing and preparing such Plans, (c) the Developer's actual, reasonable cost of any performance and maintenance bonds and insurance, including title insurance, required hereby for such Segment, (d) the Developer's actual, reasonable cost of any real property or interest therein, other than any such real property or interest therein to be conveyed with a Circulation System Segment, which real property or interest therein is either necessary for the construction of such Segment (*e.g.*, temporary construction easements, haul roads, etc.) or is required to be conveyed with such Segment in order to convey Acceptable Title thereto to the City or its designee, (e) the Developer's actual, reasonable cost of environmental evaluations required in the City's reasonable determination specifically for such Segment, (f) the amount of any fees actually paid by the Developer to governmental agencies in order to obtain permits, licenses or other necessary governmental approvals and reviews for such Segment, including City plan check, processing and inspection fees for such Segment, (g) the Developer's actual, reasonable cost for construction management services for such Segment, which cost shall not exceed 5% of the cost

of constructing such Segment, as determined pursuant to clause (a) of this definition, and (h) the Developer's actual, reasonable cost for professional services directly related to the construction of such Segment, including engineering, inspection, construction staking and similar professional services, all as specified in a Payment Request that has been reviewed and approved by the City Engineer; provided, however, that (i) no item of cost relating to a Segment shall be included in more than one category of cost specified in clauses (a) through (h) of this definition, (ii) except with respect to items of cost for construction management services specified in clause (g) that are provided by the Developer or an Affiliate thereof rather than a third party, each item of cost shall include only amounts actually paid by the Developer to third parties, other than Affiliates of the Developer, and shall not include overhead or other internal expenses of the Developer, and (iii) the aggregate cost of items specified in clauses (e) through (h) shall not exceed 30% of the cost of constructing such Segment, as determined pursuant to clause (a) of this definition.

"Affiliate" of another Person means (a) each Person that, directly or indirectly, owns or controls, whether beneficially or as trustee, guardian, or other fiduciary, 50% or more of any class of equity securities of such other Person, and (b) each Person that controls, is controlled by or is under common control with or by such Person or any Affiliate of such Person. For the purpose of this definition, "control" of a Person shall mean the possession, directly or indirectly, of the power to direct or cause the direction of its management or policies, whether through the ownership of voting securities, by contract or otherwise.

"Bonds" means bonds, notes or other obligations of the Community Facilities District payable from the Special Tax and issued under the Indenture.

"Circulation System Segments" means Segment Nos. ST-1 through ST-9 inclusive.

"City" means the City of Ontario, a general law city organized and existing under the laws of the State, and its successors.

"City Council" means the City Council of the City.

"City Engineer" means the City Engineer of the City.

"City Event of Default" means any event or circumstance specified in Section 5.3 hereof.

"Community Facilities District" means City of Ontario Community Facilities District No. 65 (Falloncrest), a community facilities district organized and existing under the laws of the State, and its successors.

"Complete" means, with respect to a Segment, that the construction of such Segment (including all ancillary, non-essential items included in such Segment) by the Developer is, in the reasonable judgment of the City Engineer, in all respects complete.

"Components" means the related groups of Segments identified as such and described in Exhibit A hereto; each Component is comprised of the Segments listed thereunder in Exhibit A.

"Conditions of Approval" means, with respect to any portion of the Property, the conditions of approval of all land use entitlements approved by the City for such portion of the Property and the conditions of any Development Agreement, subdivision improvement agreement or other agreement between the Developer and the City relating to such portion of the Property, which conditions the Developer must satisfy or cause to be satisfied in order to develop such portion of the Property.

"Construction Agreement" means the First Amended and Restated Agreement for Financing and Construction of Limited Infrastructure Improvements to Serve an Easterly Portion of the New Model Colony, made as of August 21, 2012, by and between the City and NMC Builders, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Developer" means Lennar Homes of California, LLC, a limited liability company organized and existing under the laws of the State of California, and its successors and assigns.

"Developer Acquisition Account" means (a) prior to the initial issuance of Bonds, the fund or account established for the Community Facilities District by the City, howsoever denominated, into which the Net Proceeds of the Special Tax are to be deposited, and (b) from and after the initial issuance of Bonds, the account by that name within the Improvement Fund established and held by the Trustee pursuant to the Indenture, into which the Net Proceeds of Bonds available to pay the Purchase Prices of the Segments purchased by the City pursuant hereto are to be deposited.

"Developer Event of Default" means any event or circumstance specified in Section 5.1 hereof.

"Developer Representative" means the person or persons designated as such in a certificate signed by the Developer and delivered to the City, which certificate shall contain an original or specimen signature of each person so designated.

"Development Agreement" means a statutory development agreement between the City and the Developer, entered into pursuant to California Government Code Section 65864 *et seq.*, relating to the development of a portion of the Property.

"DIF Program Costs" has the meaning ascribed thereto in the definition of "Program Costs" or "DIF Program Costs" in the Construction Agreement.

"Effective Date" means June 4, 2024.

"Facilities" means the facilities that are described on Exhibit A hereto.

"General Prevailing Wage Rates" means those rates as determined by the Director of the Department of Industrial Relations of the State of California.

"Hazardous Material" means any hazardous or toxic substance, material or waste that is regulated by any local governmental authority, the State or the United States Government, including any material or substance that is (a) designated as a "hazardous substance" pursuant to

Section 311 of the Federal Water Pollution Control Act, 33 U.S.C. § 1251 *et seq.* (33 U.S.C. § 1321), (b) defined as a "hazardous waste" pursuant to Section 1004 of the Federal Resource Conservation and Recovery Act, 42 U.S.C. § 6901 *et seq.* (42 U.S.C. § 6903), (c) defined as a "hazardous substance" pursuant to Section 101 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. § 9601 *et seq.*, (d) petroleum, or (e) asbestos.

"Improvement Fund" means the fund or account established under the Indenture, howsoever denominated, into the accounts established within which the Net Proceeds of Bonds are to be deposited.

"Indenture" means the indenture, trust agreement, fiscal agent agreement or similar instrument, howsoever denominated, pursuant to which Bonds of the Community Facilities District are issued, as originally executed and as it may be amended, supplemented or otherwise modified in accordance with its terms.

"Member" means a member of NMC Builders.

"Memorandum of Agreement" means the Amended and Restated Memorandum of Agreement, dated as of November 1, 2022, by and between the City and NMC Builders, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Net Proceeds" means (a) the proceeds, if any, of the Special Tax received prior to the initial issuance of Bonds and remaining after the payment or setting aside of, or provision for, administrative expenses of the Community Facilities District, and (b) the proceeds of Bonds remaining after the payment or setting aside of, or provision for (i) the underwriter's discount for such Bonds, (ii) the costs of issuance of such Bonds, including the costs of formation of the Community Facilities District, (iii) any required reserve fund deposit for such Bonds, (iv) capitalized interest on such Bonds, and (v) pre-funded administrative expenses of the Community Facilities District.

"NMC Acquisition Account" means the account by that name within the Improvement Fund established and held by the Trustee pursuant to the Indenture.

"NMC Builders" means NMC Builders, LLC, a limited liability company organized and existing under the laws of the State of California, and its successors and assigns.

"Payment Request" means the document to be provided by the Developer to substantiate the Purchase Price of one or more Segments, which shall be substantially in the form of Exhibit B attached hereto.

"Person" means an individual, a corporation, a partnership, an association, a limited liability company, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof.

"Plans" means the plans and specifications for the Facilities prepared or to be prepared by or on behalf of the Developer pursuant to Section 3.1 hereof.

"Property" means the real property located within the boundaries of the Community Facilities District.

"Purchase Price" means, with respect to a Segment, subject to the provisions of Section 2.3 hereof, the Actual Cost of such Segment.

"Rate and Method" means the rate and method of apportionment of the Special Tax approved by the qualified electors of the Community Facilities District.

"Related Property" means, with respect to a Segment, the property on, in or over which such Segment is located, which property, or an easement thereon or other interest therein, is dedicated or otherwise conveyed to the City as provided in Section 2.2(d) hereof.

"Segments" means the discrete portions of the Components identified as such and described in Exhibit A hereto as Segments; provided, however, that each such Segment described therein shall constitute a Segment for purposes of this Acquisition Agreement only if such Segment was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders.

"Special Tax" means the special tax approved by the qualified electors of the Community Facilities District to be levied therein.

"State" means the State of California.

"Substantially Complete" means, with respect to a Circulation System Segment, that the construction of such Circulation System Segment by the Developer has, in the reasonable judgment of the City Engineer, reached a stage of completion sufficient to allow such Circulation System Segment to be utilized for the purpose for which it is intended and that only the construction of ancillary, non-essential items remains incomplete; provided, however, that a Circulation System Segment shall not be deemed to be Substantially Complete if, in the reasonable judgment of the City Engineer, the cost to complete the construction of such ancillary, non-essential items would exceed 15% of the Purchase Price of such Circulation System Segment.

"Trustee" means the commercial bank or trust company initially designated as trustee under the Indenture, and any successor thereto thereunder substituted in its place as provided therein.

Section 1.2. Rules of Construction. (a) The terms defined herein expressed in the singular shall, unless the context otherwise indicates, include the plural and vice versa.

(b) The use herein of the masculine, feminine or neuter gender is for convenience only and shall be deemed and construed to include correlative words of the masculine, feminine or neuter gender, as appropriate.

(c) References herein to a document shall include all amendments, supplements or other modifications to such document, and any replacements, substitutions or novation of, that document.

(d) Any term defined herein by reference to another document shall continue to have the meaning ascribed thereto whether or not such other document remains in effect.

(e) The use herein of the words "including" and "includes," and words of similar import, shall be deemed to be followed by the phrase "without limitation."

(f) Headings of Articles and Sections herein and the table of contents hereof are solely for convenience of reference, do not constitute a part hereof and shall not affect the meaning, construction or effect hereof.

(g) All references herein to designated "Articles," "Sections," "Exhibits," "subsections," "paragraphs," "clauses," and other subdivisions are to the designated Articles, Sections, Exhibits, subsections, paragraphs, clauses, and other subdivisions of this Acquisition Agreement.

(h) The words "hereof" (except when preceded by a specific Section or Article reference) "herein," "hereby," "hereunder," "hereinabove," "hereinafter," and other equivalent words and phrases used herein refer to this Acquisition Agreement and not solely to the particular portion hereof in which any such word is used.

(i) Any reference to a Person, or a Person in a specified capacity, shall be construed to include such Person's successors or such Person's successors in such capacity, as the case may be.

ARTICLE II

ACQUISITION OF FACILITIES

Section 2.1. Acquisition of Facilities; Limited Source of Payments. (a) Subject to the terms and conditions hereof, the Developer hereby agrees to sell to the City, and the City hereby agrees to purchase from the Developer, each Segment for the Purchase Price thereof.

(b) The Purchase Prices of Segments are to be paid from Net Proceeds of the Special Tax, if any, and Net Proceeds of Bonds deposited in the Developer Acquisition Account. Notwithstanding anything to the contrary contained herein, the City shall not be obligated to pay the Purchase Price of any Segment except from the Net Proceeds of the Special Tax and the Net Proceeds of the Bonds so deposited in the Developer Acquisition Account. The City makes no warranty, either express or implied, that the Community Facilities District will be able to issue and sell any Bonds or that the Net Proceeds of the Special Tax and the Net Proceeds of the Bonds so deposited in the Developer Acquisition Account and available for the payment of the Purchase Price of the Segments will be sufficient for such purpose.

(c) The Net Proceeds of the Special Tax and the Net Proceeds of the Bonds shall be applied to the uses in the priorities set forth in the Memorandum of Agreement. If amounts remain in the Developer Acquisition Account after the Purchase Prices of all of the Segments have been paid, such remaining amounts shall be deposited in the NMC Acquisition Account.

Section 2.2. Segment Review; Payment Requests. (a) When the Developer has concluded that the construction of a Segment by the Developer is in all respects complete, the Developer shall deliver to the City Engineer (i) a Payment Request for such Segment, together with all attachments and exhibits to be included therewith, (ii) a copy of the documents conveying, or that previously conveyed, to the City Acceptable Title to the Related Property of such Segment, as described in subsection (d) of this Section, and (iii) a copy of the Notice of Completion of such Segment that will be filed in accordance with Section 3093 of the California Civil Code, if applicable; provided, however, that, if, during the process of designing a Segment, obtaining bids for construction of a Segment or during construction of a Segment, the Developer determines that, because of changed conditions or circumstances, the actual cost of constructing such Segment may materially exceed the Developer's originally estimated cost thereof, the Developer shall, in order to facilitate and expedite the City Engineer's review and verification with respect to such Segment pursuant to subsection (b) of this Section, as soon as practicable, deliver to the City Engineer a written statement describing (i) such changed conditions or circumstances, (ii) the Developer's original estimated cost of constructing such Segment, (iii) the anticipated effect of such changed conditions or circumstances on the Actual Cost of such Segment, and (iv) an explanation as to why including the increased cost resulting from such changed conditions or circumstances would result in the Actual Cost of such Segment being no greater than the actual, reasonable cost thereof, determined in accordance with the provisions of the definition of Actual Cost set forth herein.

(b) Upon receipt of a completed Payment Request (and accompanying documentation) for a Segment, the City Engineer shall conduct a review in order to confirm that such Segment is Complete and was constructed in accordance with the Plans therefor and to

verify and approve the Actual Cost of such Segment specified in such Payment Request. As a reference in determining the reasonable cost of constructing such Segment, the City Engineer may use the most recently updated DIF Program Costs of such Segment, which reflect the City Engineer's determination, as of the date of such update, of the reasonable cost of constructing such Segment, recognizing that, depending on the date of such most recent update, such DIF Program Costs may not reflect the reasonable cost of constructing such Segment at the time it was constructed. The Developer agrees to cooperate with the City Engineer in conducting each such review and to provide the City Engineer with such additional information and documentation as is reasonably necessary for the City Engineer to conclude each such review. The City agrees to cause the City Engineer to conduct such review without unreasonable delay. If the City Engineer determines that the Actual Cost specified in such Payment Request as initially submitted exceeds the Developer's actual, reasonable cost of constructing such Segment, the Developer shall resubmit such Payment Request, with the Actual Cost specified therein modified so as to take into account such determination by the City Engineer. Upon confirmation that such Segment is Complete and has been constructed in accordance with the Plans therefor, and verification and approval of the Actual Cost of such Segment, the City Engineer shall sign the Payment Request, indicating thereon that such Segment is Complete and that the full amount of the Purchase Price of such Segment is eligible for payment, and forward the same to the City.

(c) With respect to a Circulation System Segment, if, as a result of the review described in subsection (b) of this Section, the City Engineer (i) determines that such Circulation System Segment, while not Complete, is Substantially Complete, (ii) confirms that such Circulation System Segment has been constructed in accordance with the Plans therefor, and (iii) verifies and approves the Actual Cost of such Circulation System Segment, the City Engineer shall sign the Payment Request, indicating thereon that such Circulation System Segment is Substantially Complete and that an amount equal to 85% of the Actual Cost of such Circulation System Segment is eligible for payment, and forward the same to the City.

When the Developer completes or causes to be completed all work with respect to such Circulation System Segment and concludes that such Circulation System Segment is Complete, the Developer shall deliver to the City Engineer (i) if as-built drawings or similar plans and specifications for such Circulation System Segment have not previously been submitted to the City Engineer, such drawings or plans and specifications, together with a certification of the Developer that such drawings or plans and specifications are true, correct and complete, and (ii) such information and documentation as is reasonably required by the City Engineer in order for the City Engineer to determine whether such Circulation System Segment is Complete. Upon receipt of such information and documentation, the City Engineer shall conduct a review in order to confirm that such Circulation System Segment is Complete. If, as a result of such review, the City Engineer determines that such Circulation System Segment is Complete, the City Engineer shall sign a copy of the original Payment Request therefor, indicating thereon that such Circulation System Segment is Complete and that the full amount of the Purchase Price of such Segment is eligible for payment, and forward the same to the City.

(d) Acceptable Title to all property on, in or over which each Segment will be located shall be conveyed to the City by way of grant deed, quitclaim, or dedication of such property, or easement thereon, if such easement is approved by the City as being a sufficient interest therein to permit the City to properly own, operate and maintain such Segment located therein, thereon

or thereover, and to permit the Developer to perform its obligations as set forth in this Acquisition Agreement.

Upon the request of the City, the Developer shall furnish to the City a title report for such property not previously dedicated or otherwise conveyed to the City or its designee, for review and approval at least 20 calendar days prior to the transfer of Acceptable Title to a Segment to the City or its designee. The City shall approve the title report unless it reveals a matter that, in the reasonable judgment of the City, could materially affect the City's or its designee's use and enjoyment of any part of the property or easement covered by the title report. In the event the City does not approve the title report, the City shall not be obligated to accept title to such Segment until such objections to title have been cured to the reasonable satisfaction of the City.

(e) Upon (i) the execution by the City Engineer of a Payment Request for a Segment indicating that such Segment is Complete, and (ii) the City's determination that Acceptable Title to the property on, in or over which each Segment is located has been or is being conveyed to the City, such Segment shall be accepted by the City. The Developer shall transfer to the City, by appropriate instrument in accordance with the Conditions of Approval, title to each Segment accepted by the City pursuant hereto; provided, however, that notwithstanding such transfer, as provided in Section 3.6 hereof, the Developer shall be responsible for the maintenance of such Segment until the Acceptance Date of the Component of which such Segment is a part.

Section 2.3. Payment of Purchase Price. (a) Upon receipt of a reviewed and fully signed Payment Request pursuant to Section 2.2(b) hereof indicating that a Segment is Complete and that the Purchase Price of such Segment is eligible for payment, the City shall, within five business days of the approval and confirmation thereof by the City Engineer, by written request, direct the Trustee to pay from the Developer Acquisition Account such Purchase Price. If the Payment Request for a Segment requests that the Purchase Price requested to be paid pursuant thereto be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached thereto as Attachment B, the City shall direct the Trustee to pay from the Developer Acquisition Account such Purchase Price or portion thereof to such Person or Persons.

(b) Upon receipt of a reviewed and fully signed Payment Request pursuant to Section 2.2(c) hereof indicating that a Circulation System Segment is Substantially Complete and that an amount equal to 85% of the Purchase Price of such Circulation System Segment is eligible for payment, the City shall, within five business days of the approval and confirmation thereof by the City Engineer, by written request, direct the Trustee to pay from the Developer Acquisition Account 85% of the Purchase Price of such Circulation System Segment. If the Payment Request for a Circulation System Segment requests that the 85% of the Purchase Price of such Circulation System Segment requested to be paid pursuant thereto be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached thereto as Attachment B, the City shall direct the Trustee to pay from the Developer Acquisition Account such 85% of such Purchase Price or portion thereof to such Person or Persons.

ARTICLE III

CONSTRUCTION OF FACILITIES

Section 3.1. Preparation and Approval of Plans and Specifications. The Developer shall cause Plans to be prepared for the Facilities to be acquired pursuant hereto in accordance with the Conditions of Approval. The Developer shall obtain the written approval of the Plans from all appropriate departments of the City or from any other public agency or public utility from which such approval must be obtained. The Developer shall provide copies of all such Plans to the City Engineer. The Plans for a Segment shall be updated from time to time to reflect changed conditions or circumstances with respect thereto, the Developer shall obtain the written approval of such updated Plans from all appropriate departments of the City and the Developer shall provide copies of all such updated Plans to the City Engineer.

Section 3.2. Duty of the Developer to Construct. The Developer shall construct or cause to be constructed the Segments in accordance with the Conditions of Approval and the approved Plans. The Developer shall perform all of its obligations hereunder and shall conduct or cause to be conducted all operations with respect to the construction of the Segments in a good, workmanlike and commercially reasonable manner, with the standard of diligence and care normally employed by duly qualified Persons utilizing commercially reasonable efforts in the performance of comparable work and in accordance with generally accepted practices appropriate to the activities undertaken. Notwithstanding the foregoing, the Developer shall not be required to construct any Facilities or cause such Facilities to be constructed other than at the time required by, and in accordance with, the Conditions of Approval or to perform any work requiring a contractor's license, nor shall the Developer be deemed to be performing construction services pursuant to this Acquisition Agreement.

Section 3.3. Public Works Requirements. (a) In order to ensure that the Segments that are acquired by the City pursuant to this Acquisition Agreement are constructed as if they had been constructed under the direction and supervision, or under the authority of, the City, so that they may be acquired pursuant to California Government Code Section 53313.5, the Developer shall comply with or cause to be complied with all of the requirements of this Section for each Segment for which the Developer submits a Payment Request.

(b) Notice inviting sealed bids for the construction of each Segment shall be given as required for public works projects in conformance with the California Public Contracts Code.

(c) The contract for the construction of each Segment shall be awarded to the responsible bidder submitting the lowest responsive bid for the construction of such Segment.

(d) The Developer shall require, and the specifications and bid and contract documents shall require, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to pay at least General Prevailing Wage Rates to all workers employed in the execution of the contract, to post a copy of the General Prevailing Wage Rates at the job-site in a conspicuous place available to all employees and applicants for employment, and to otherwise

comply with applicable provisions of the California Labor Code, the California Government Code and the California Public Contracts Code relating to public works projects of cities.

The Developer shall require, and the specifications and bid and contract documents shall require, for all contracts involving in excess of $30,000 or 20 working days, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to comply with the provisions of Section 1777.5 of the California Labor Code with respect to all apprenticeable occupations upon the project.

(e) In performing its obligations under this Acquisition Agreement, the Developer shall comply with, or cause to be complied with, the applicable nondiscrimination and affirmative action provisions of the laws of the United States of America, the State and the City. In performing its obligations under this Acquisition Agreement, the Developer shall not discriminate in its employment practices against any employee, or applicant for employment, because of such person's race, religion, national origin, ancestry, sex, sexual orientation, age, physical handicap, marital status or medical condition. The Developer shall require that any contract for the construction of any Segment subject the contractor thereunder to the provisions of this subsection.

(f) The Developer shall require that each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, provide proof of insurance coverage satisfying the requirements of Section 3.7 hereof throughout the term of the construction of such Segment; provided, however, that, rather than requiring such contractors, subcontractors, vendors, equipment operators and owner operators to provide such insurance, the Developer may provide the same for the benefit of such contractors, subcontractors, vendors, equipment operators and owner operators.

(g) The Developer shall comply, and shall cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, to comply, with such other requirements relating to the construction of the Segments as the City may impose by written notification delivered to the Developer, to the extent legally required as a result of changes in applicable federal, State or City laws.

(h) The Developer shall require, and the specifications and bid and contract documents shall require, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to submit certified weekly payroll records to the Developer for inspection by the City, and to furnish certified payroll records to the City promptly upon request.

The Developer shall provide proof to the City, at such intervals and in such form as the City may reasonably require, that the foregoing requirements have been satisfied as to all of the Segments for which a Payment Request is submitted pursuant hereto.

Section 3.4. Bonding Requirements. Prior to the commencement of construction of a Segment, the Developer shall secure, or shall cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on such Segment to secure, appropriate bonds for the construction and completion of construction of such Segment, a faithful performance bond and a bond for the security of laborers and materialmen, each in an amount that is equal to 100% of the contract price for such Segment. If any such bonds for a Segment are provided by such a contractor, subcontractor, vendor, equipment operator or owner operator, the City shall be named as an additional insured on such bonds. Each issuer of any such bond shall be duly authorized to issue such bond in the State. Each such bond shall comply with the provisions of California Government Code Sections 66499.1 and 66499.2.

Section 3.5. Inspection; Completion of Construction. The City shall have primary responsibility for providing inspection of the work of construction of the Segments to ensure that the work of construction is accomplished in accordance with the Plans. The City's personnel shall have access to the site of the work of construction at all reasonable times for the purpose of accomplishing such inspection. Upon the completion of the construction of a Segment to the satisfaction of the City's inspectors, the Developer shall notify the City and the City Engineer in writing that the construction of such Segment has been completed in accordance with the Plans.

No later than ten days after receiving notification pursuant to Section 2.2(b) or Section 2.2(c) hereof that a Segment was constructed in accordance with the Plans therefor, the Developer shall forthwith file with the San Bernardino County Recorder a Notice of Completion, in form acceptable to the City Engineer, pursuant to the provisions of Section 3093 of the California Civil Code, if applicable. The Developer shall furnish to the City a duplicate copy of each such Notice of Completion showing thereon the date of filing with said County Recorder.

Section 3.6. Maintenance of Facilities; Warranties. The Developer shall maintain each Segment in good and safe condition until the Acceptance Date of the Component of which such Segment is a part. Prior to the Acceptance Date of the Component of which such Segment is a part, the Developer shall be responsible for maintaining such Segment in proper operating condition, and shall perform such maintenance on such Segment as the City Engineer reasonably determines to be necessary. As of the Acceptance Date of the Component of which a Segment is a part, the Developer shall assign to the City all of the Developer's rights in any warranties, guarantees, maintenance obligations or other evidence of contingent obligations of third Persons with respect to such Segment. The Developer shall warrant each Segment to be free from construction defects (and shall correct or cause to be corrected any such defects) for a period of one year from the Acceptance Date of the Component of which such Segment is a part, or alternatively, shall provide a bond reasonably acceptable in form and substance to the City and the Developer for such period and such purpose to ensure that such defects that appear within said period will be repaired, replaced or corrected by the Developer, at its own cost and expense, to the reasonable satisfaction of the City. The Developer shall continue to repair, replace or correct any such defects within 30 Days after written notice thereof by the City to the Developer, and shall complete such repairs, replacement or correction as soon as practicable.

Section 3.7. Insurance Requirements. The Developer shall, at all times prior to the final Acceptance Date of all Segments, maintain, deliver to the City and keep in full force and

effect, the following insurance policies or, pursuant to Section 3.3(f) hereof, cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, to so maintain, deliver and keep the same in full force and effect:

(a) a protective liability policy providing for not less than the following amounts:

Bodily Injury	$1,000,000 each person $2,000,000 each occurrence $1,000,000 each accident for products and completed operations
Property Damage	$1,000,000 each accident
Workers' Compensation	Statutory, with a waiver of subrogation in favor of the City

(b) Automobile Liability Insurance to include all owned, non-owned or non-hired vehicles, including loading and unloading thereof:

Automobile Bodily Injury	$1,000,000 each person $2,000,000 each occurrence
Automobile Property Damage	$1,000,000 each accident

Each liability insurance policy shall bear an endorsement or shall have attached a rider whereby it is provided that, in the event of expiration or proposed cancellation of such policy for any reason whatsoever, the City shall be notified by registered mail, return receipt requested, giving a sufficient time before the date thereof to comply with any applicable law or statute, but in no event less than 30 days before expiration or cancellation is effective.

The following statement shall be included on the insurance certificate:

Additional Insured: The insurer agrees that the City, its City Council, and/or all City Council appointed groups, committees, boards and any other City Council appointed body, and/or elective and appointive officers, servants, agents or employees of the City, when acting as such, are additional insureds hereunder, for the acts of the insured, and such insurance shall be primary to any insurance of the City.

The Developer may effect such coverage under blanket insurance policies; provided, however, that (a) such policies are written on a per occurrence basis, (b) such policies comply in all other respects with the provisions of this Section, and (c) the protection afforded the City under any such policy shall be no less than that which would be available under a separate policy relating only to the Segments. All policies of insurance shall be with companies licensed or approved by the California Commissioner of Insurance and rated A-VII or better in the most recent edition of Best's Insurance Guide and shall be issued and delivered in accordance with State law and regulations.

If the Developer fails to maintain or cause to be maintained any insurance required hereby, the City may, but shall not be obligated to, procure such insurance and recover the amount of the premiums therefor from the Developer or retain such amount from any monies due to the Developer under this Acquisition Agreement. The failure of the City to procure any such insurance shall in no way relieve the Developer of any of its obligations under this Acquisition Agreement.

Section 3.8. Ownership of Facilities. Notwithstanding the fact that some or all of the Facilities may be constructed in dedicated street rights-of-way or on property that has been or will be dedicated to the City, the Facilities shall be and remain the property of the Developer until title thereto is conveyed to and accepted by the City as provided herein and in the Conditions of Approval. Such ownership by the Developer shall likewise not be affected by any agreement that the Developer may have entered into or may enter into with the City pursuant to the provisions of the Subdivision Map Act, Section 66410 *et seq.* of the California Government Code, and the provisions of this Section and the Conditions of Approval shall control.

ARTICLE IV

REPRESENTATIONS, WARRANTIES AND COVENANTS; INDEMNIFICATION

Section 4.1. Representations and Warranties of the Developer. The Developer makes the following representations and warranties for the benefit of the City:

(a) *Organization*. The Developer represents and warrants that the Developer is a limited liability company duly organized, validly existing and in good standing under the laws of the State, is authorized to conduct business and is in good standing under the laws of the State, and has the power and authority to own its properties and assets and to carry on its business as now being conducted and as now contemplated.

(b) *Authority*. The Developer represents and warrants that the Developer has the power and authority to enter into this Acquisition Agreement, and has taken all action necessary to cause this Acquisition Agreement to be executed and delivered, and this Acquisition Agreement has been duly and validly executed and delivered on behalf of the Developer.

(c) *Binding Obligation*. The Developer represents and warrants that this Acquisition Agreement is a valid and binding obligation of the Developer and is enforceable against the Developer in accordance with its terms, subject to bankruptcy, insolvency, reorganization or other similar laws affecting the enforcement of creditors' rights in general and by general equity principles.

(d) *Environmental Matters Relating to Segments*. The Developer represents and warrants that none of the Developer, any Affiliate of the Developer, or any subcontractor, agent or employee of the Developer or an Affiliate thereof, has used, generated, manufactured, procured, stored, released, discharged or disposed of (whether accidentally or intentionally) any Hazardous Material on, under or in any Segment or the Related Property of such Segment, or transported (whether accidentally or intentionally) any Hazardous Material to or from such Segment or such Related Property, in violation of any federal, state or local law, ordinance, regulation, rule or decision regulating Hazardous Material.

The Developer represents and warrants that, as of the Acceptance Date of each Segment, there will not be present on, under or in such Segment or the Related Property of such Segment, or any portion thereof, any Hazardous Materials, except for (i) any types or amounts that do not require remediation or mitigation under federal, state or local laws, ordinances, regulations, rules or decisions, (ii) those that have been remediated or mitigated in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, or (iii) those with respect to which ongoing remediation or mitigation is being performed in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions.

The Developer represents and warrants that neither the Developer nor any Affiliate thereof has received notice of, and, to the best of the Developer's knowledge,

there is not, any proceeding or formal inquiry by any governmental authority, body or agency with respect to the presence of Hazardous Materials on, under or in any Segment or the Related Property of such Segment, or any portion thereof, or any structure, fixtures, equipment or other objects thereon, or the migration thereof from or to other property.

Section 4.2. Covenants of the Developer. The Developer makes the following covenants for the benefit of the City:

(a) *Completion of Segments*. The Developer covenants that it will use its reasonable and diligent efforts to do all things that may be lawfully required of it in order to cause the Segments to be completed in accordance with this Acquisition Agreement and the Conditions of Approval.

(b) *Compliance with Laws*. The Developer covenants that, while any of the Facilities are owned by the Developer or required pursuant to this Acquisition Agreement to be maintained by the Developer, it will not commit, suffer or permit any of its agents, employees or contractors to commit any act to be done in, upon or to such Facilities in violation in any material respect of any law, ordinance, rule, regulation or order of any governmental authority or any covenant, condition or restriction now or hereafter affecting such Facilities or the Property on, in or over which such Facilities are located.

(c) *Payment Requests*. The Developer covenants that (i) it will not request payment pursuant to this Acquisition Agreement for the acquisition of any improvements that are not part of a Segment, and (ii) it will diligently follow all procedures set forth in this Acquisition Agreement with respect to Payment Requests.

(d) *Financial Records*. Until the Acceptance Date of the last Segment accepted by the City pursuant hereto, the Developer covenants to maintain proper books of record and account for the Facilities and all costs related thereto. The Developer covenants that such accounting books will be maintained in accordance with generally accepted accounting principles and will be available for inspection by the City within a reasonable time after the City submits a written request to the Developer requesting that such books be made available for inspection.

(e) *Environmental Matters Relating to Segments*. The Developer covenants that none of the Developer, any Affiliate of the Developer or any subcontractor, agent or employee thereof, will use, generate, manufacture, procure, store, release, discharge or dispose of (whether accidentally or intentionally) at any time on or prior to the Acceptance Date of each Segment any Hazardous Material on, under or in such Segment or the Related Property of such Segment, or transport (whether accidentally or intentionally) any Hazardous Material to or from such Segment or such Related Property, in violation of any federal, state or local law, ordinance, regulation, rule or decision regulating Hazardous Material in effect at the time of such use, generation, manufacturing, procurement, storage, release, discharge, disposal or transportation.

(f) *Permits*. The Developer covenants that it will obtain all governmental or other permits required to proceed with the construction of the Facilities, and that it will pay all fees relating thereto that are required to be paid, in accordance with the Conditions of Approval.

Section 4.3. Covenants of the City. The City makes the following covenants for the benefit of the Developer:

(a) *Completion of Segments*. The City covenants that it will use its reasonable and diligent efforts to take all actions that may be lawfully required of it in issuing permits, processing and approving Plans and inspecting the Segments in accordance with this Acquisition Agreement.

(b) *Payment Requests*. The City covenants that it will diligently follow all procedures set forth in this Acquisition Agreement with respect to Payment Requests.

(c) *Developer Acquisition Account*. The City covenants (i) that, if the Special Tax is to be levied and collected prior to the issuance of Bonds, the City will, at or prior to the first receipt of proceeds of the Special Tax, establish the Developer Acquisition Account, (ii) that the City will deposit the Net Proceeds received prior to the issuance of Bonds in the Developer Acquisition Account, and (iii) that upon the issuance of Bonds, the City will transfer or cause to be transferred any Net Proceeds remaining in the Developer Acquisition Account to the Trustee for deposit in the Developer Acquisition Account established under the Indenture.

(d) *Accounting*. The City covenants to provide the Developer, within 30 days following the Developer's written request, an accounting of the Developer Acquisition Account, showing the current balance therein and all deposits thereto and disbursements therefrom since the last such accounting. The Developer shall not make more than two such written requests in any calendar year.

Section 4.4. Indemnification. The Developer agrees to protect, indemnify, defend and hold the City and the Community Facilities District, and its respective officers, employees and agents (the "Indemnified Parties"), and each of them, harmless from and against any and all claims, losses, expenses, suits, actions, decrees, judgments, awards, attorney's fees and court costs that any Indemnified Party may suffer or that may be sought against or recovered or obtained from any Indemnified Party as a result of or by reason of or arising out of or in consequence of (a) the acquisition, construction, installation or financing of the Facilities, (b) the untruth or inaccuracy of any representation or warranty made by the Developer in this Acquisition Agreement or in any certifications delivered by the Developer pursuant hereto or in connection with the issuance of any Bonds, (c) the release, threatened release, storage, treatment, transportation or disposal (as such terms are defined in applicable law) of any Hazardous Materials on, under, in, from or to any portion of the Property while such portion of the Property is owned by the Developer or an Affiliate thereof, and (d) any act or omission of the Developer, any Affiliate of the Developer or any of their subcontractors, or their respective officers, employees or agents, in connection with the Facilities, including noncompliance with any covenants made by the Developer in this Acquisition Agreement. If the Developer fails to do so,

the Indemnified Party shall have the right, but not the obligation, to defend the same and charge all of the direct or incidental costs of such defense, including any fees or costs, to and recover the same from the Developer.

Upon receipt by an Indemnified Party of notice of any claim, loss, expense, suit, action, decree, judgment or award for which the Developer is obligated to protect, indemnify, defend and hold such Indemnified Party harmless pursuant to this Section, such Indemnified Party shall promptly notify the Developer in writing of such claim, loss, expense, suit, action, decree, judgment or award. Neither the Developer nor an Indemnified Party shall, without the other's written consent, settle, compromise or consent to the entry of judgment with respect to any claim, suit or action for which the Developer is obligated to protect, indemnify, defend and hold such Indemnified Party harmless pursuant to this Section.

No indemnification is required to be paid by the Developer for any claim, loss or expense (a) arising from the willful misconduct or negligence of an Indemnified Party, or (b) arising from the use or operation of a Segment after the Acceptance Date of the Component of which such Segment is a part, unless such claim, loss or expense results from the defective or improper design, construction or installation of such Segment.

The provisions of this Section shall survive the termination of this Acquisition Agreement.

ARTICLE V

EVENTS OF DEFAULT AND REMEDIES; FORCE MAJEURE

Section 5.1. Developer Events of Default. The following shall be Developer Events of Default:

(a) the Developer shall voluntarily file for reorganization or other relief under any Federal or state bankruptcy or insolvency law;

(b) the Developer shall have any involuntary bankruptcy or insolvency action filed against it, or shall suffer a trustee in bankruptcy or insolvency or receiver to take possession of the assets of the Developer, or shall suffer an attachment or levy of execution to be made against its property unless, in any of such cases, such action, possession, attachment or levy shall have been terminated or released within 60 days after the commencement thereof;

(c) except to the extent that the Developer's obligation to construct or cause to be constructed the Facilities is excused pursuant to Section 5.5 hereof, the Developer shall abandon construction of the Facilities that, as of the time of such abandonment, the Developer is required to construct or cause to be constructed in accordance with the Conditions of Approval (failure for a period of three consecutive months or failure for two periods of two consecutive months to undertake substantial work related to the construction of the Facilities shall constitute a non-exclusive example of such abandonment);

(d) the Developer shall breach any covenant or default in the performance of any obligation under this Acquisition Agreement and such breach or default shall have continued for a period of 60 days after written notice thereof, specifying such breach or default and requiring the same to be remedied, shall have been given to the Developer by the City; provided, however, that, if in the reasonable opinion of the City such breach or default can be corrected, but not within such 60 day period, such breach or default shall not constitute a Developer Event of Default if corrective action is instituted by the Developer within such 60 day period and the Developer thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the City to be appropriate under the circumstances;

(e) any representation or warranty of the Developer set forth herein or in any certifications delivered by the Developer hereunder shall prove to have been false or misleading in any material respect when made or deemed made;

(f) the Developer shall transfer any of its rights or obligations under this Acquisition Agreement, without the prior written consent of the City, as provided in Section 6.3 hereof;

(g) the Developer shall have made any material misrepresentation or material omission in any written materials furnished in connection with any preliminary official

statement, official statement or bond purchase contract that has not been corrected and is used in connection with the sale of any Bonds;

(h) the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement shall at any time bring any action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body that in any way seeks to challenge or overturn the Community Facilities District, the levy of the Special Tax in accordance with the Rate and Method or the validity of the Bonds or the proceedings leading up to their issuance; provided, however, that the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement that owns any of the Property may bring an action or suit contending that the Special Tax has not been levied in accordance with the methodology contained in the Rate and Method;

(i) the Developer shall materially fail to complete the Facilities as contemplated by this Acquisition Agreement and the Conditions of Approval and such failure shall have continued for a period of 60 days after written notice thereof, specifying such failure and requiring the same to be remedied, shall have been given to the Developer by the City; provided, however, that, if in the reasonable opinion of the City such failure can be corrected, but not within such 60 day period, such failure shall not constitute a Developer Event of Default if corrective action is instituted by the Developer within such 60 day period and the Developer thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the City to be appropriate under the circumstances; or

(j) the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement that owns any of the Property on which the Special Tax has been levied shall fail to pay such Special Tax as and when due and such failure shall have continued for a period of 60 days after written notice thereof, specifying such failure and requiring the same to be remedied, shall have been given to the Developer by the City.

Section 5.2. Remedies for Developer Events of Default. (a) If a Developer Event of Default described in subsection (a), (b) or (h) of Section 5.1 hereof occurs, this Acquisition Agreement shall automatically terminate.

(b) If a Developer Event of Default described in subsection (c), (d), (e), (f), (g), (i) or (j) of Section 5.1 hereof occurs and is continuing, the City may terminate this Acquisition Agreement by delivering a written notice of such termination to the Developer.

(c) If a Developer Event of Default occurs and is continuing, the City may pursue any other remedy at law or equity available with respect thereto.

(d) If this Acquisition Agreement is terminated pursuant to this Section, the City may, but shall not be obligated to, complete the acquisition, construction and installation of any Segment not theretofore acquired from the Developer pursuant hereto, and the City may use all or any portion of the monies in the Developer Acquisition Account to pay for such acquisition,

construction and installation. In the event of such termination, the Developer shall have no claim or right to any further payment of the Purchase Price of any Segment.

Section 5.3. City Events of Default. The following shall be City Events of Default:

(a) the City shall voluntarily file for reorganization or other relief under any Federal or state bankruptcy or insolvency law;

(b) the City shall have any involuntary bankruptcy or insolvency action filed against it, or shall suffer a trustee in bankruptcy or insolvency or receiver to take possession of the assets of the City, or shall suffer an attachment or levy of execution to be made against its property, in any of such cases, such action, possession, attachment or levy shall have been terminated or released within 60 days after the commencement thereof;

(c) the City shall breach any covenant or default in the performance of any obligation under this Acquisition Agreement and such breach or default shall have continued for a period of 60 days after written notice thereof, specifying such breach or default and requiring the same to be remedied, shall have been given to the City by the Developer; provided, however, that, if in the reasonable opinion of the Developer such breach or default can be corrected, but not within such 60 day period, such breach or default shall not constitute a City Event of Default if corrective action is instituted by the City within such 60 day period and the City thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the Developer to be appropriate under the circumstances;

(d) any representation or warranty of the City set forth herein shall prove to have been false or misleading in any material respect when made; and

(e) the City shall transfer any of its respective rights or obligations under this Acquisition Agreement, without the prior written consent of the Developer, as provided in Section 6.3 hereof.

Section 5.4. Remedies for City Events of Default. (a) If a City Event of Default occurs and is continuing, the Developer may terminate this Acquisition Agreement by delivering a written notice of such termination to the City.

(b) If a City Event of Default occurs and is continuing, the Developer may pursue any other remedy at law or equity available with respect thereto; provided, however, that the City shall not be liable in damages to the Developer. In light of the foregoing, the Developer shall not sue for or claim any damages for any alleged breach of, or dispute that arises out of, this Acquisition Agreement.

(c) The Developer understands and acknowledges that the City would not have entered into this Acquisition Agreement if it were to be liable in damages under or with respect to this Acquisition Agreement. Any and all obligations of the City hereunder shall be payable only from amounts on deposit in the Developer Acquisition Account. The City shall have no

pecuniary liability under this Acquisition Agreement for any act or omission of the City, except as set forth in this Section.

Section 5.5. Force Majeure. (a) Except as may be specifically provided in this Acquisition Agreement, the performance by the City or the Developer of its respective obligations hereunder shall be excused during, and the period of time for performance of its respective obligations hereunder shall be extended for a period of time equal to, any period of delay caused by reason of (i) acts of God or civil commotion, (ii) riots, strikes, picketing or other labor disputes, (iii) shortages of materials or supplies, (iv) damage to work in progress by reason of fire, floods, earthquakes or other casualty, (v) enactment of laws that prevent or preclude compliance by the City or the Developer with a material provision of this Acquisition Agreement, (vi) administrative proceedings challenging the Community Facilities District, any Bonds, this Acquisition Agreement or a Payment Request brought by Persons other than the City or the Developer, or any Affiliate thereof, (vii) litigation, including the pendency thereof, brought by Persons other than the City or the Developer, or any Affiliate thereof, including litigation challenging the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement or a Payment Request, (viii) pendency of initiatives or referenda affecting the Community Facilities District, the development of the Property, the Bonds, this Acquisition Agreement or a Payment Request, or (ix) any other cause beyond the reasonable control of the City or the Developer, respectively; provided, however that, as to any party (A) the financial inability of such party itself to perform under this Acquisition Agreement, and (B) the negligence or willful misconduct of such party shall not constitute a permitted delay for purposes of this Section and, provided, further, that any action, omission, or failure to approve a Payment Request, or the imposition of additional requirements or restrictions in connection therewith by the City, caused by the Developer's actual failure to comply with applicable laws or regulations or the provisions of this Acquisition Agreement (other than an actual failure to comply that results from the enactment of laws that prevent or preclude compliance by a party with a material provision of this Acquisition Agreement, administrative proceedings challenging the Community Facilities District, any Bonds, this Acquisition Agreement, a Payment Request, litigation brought by Persons other than a party hereto, or an Affiliate of a party hereto, including litigation challenging the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement, a Payment Request, or initiative or referenda affecting the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement, a Payment Request), shall not constitute a permitted delay for the Developer for purposes of this Section.

(b) If the City or the Developer shall claim that performance of its respective obligations hereunder is excused by a permitted delay pursuant to this Section, such party shall give the other party hereto written notice of the commencement of such permitted delay within 30 days after first gaining knowledge of such permitted delay.

(c) If the City or the Developer shall claim that performance of its respective obligations hereunder is excused by a permitted delay pursuant to this Section, such party's performance shall only be excused during, and the period of time for performance of its obligations hereunder shall only be extended for a period of time equal to, the period of time for which the cause of such permitted delay is in effect and is actually causing a delay in performance by such party of its obligations hereunder.

(d) The City and the Developer shall act diligently and in good faith to avoid foreseeable delays in performance and to remove the cause of any permitted delay under this Section or develop a reasonable alternative means of performance of its respective obligations hereunder.

ARTICLE VI

MISCELLANEOUS

Section 6.1. Developer as Independent Contractor. Each of the City and the Developer hereby acknowledges and agrees that the Developer, in performing its obligations under this Acquisition Agreement, is acting as an independent contractor and not an agent of the City. The City shall not have any responsibility for payment to any contractor, subcontractor or supplier of the Developer.

Section 6.2. Other Agreements. Nothing contained herein shall be construed as affecting the City's or the Developer's respective duty to perform its respective obligations under other agreements, land use regulations or subdivision requirements relating to the development of the Property, which obligations are and shall remain independent of the Developer's rights and obligations, and the City's rights and obligations, under this Acquisition Agreement; provided, however, that the Developer shall use its reasonable and diligent efforts to perform each and every covenant to be performed by it under any lien or encumbrance, instrument, declaration, covenant, condition, restriction, license, order or other agreement, the nonperformance of which could reasonably be expected to materially and adversely affect the acquisition, construction and installation of the Segments.

Section 6.3. Binding on Successors and Assigns. Neither this Acquisition Agreement nor the duties and obligations of the Developer hereunder may be assigned to any Person without the written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed. Neither this Acquisition Agreement nor the duties and obligations of the City hereunder may be assigned to any Person, without the written consent of the Developer, which consent shall not be unreasonably withheld, conditioned or delayed. The agreements and covenants included herein shall be binding on and inure to the benefit of any partners, permitted assigns, and successors-in-interest of the parties hereto.

Section 6.4. Amendments. This Acquisition Agreement may be amended, supplemented or otherwise modified only by an instrument in writing executed and delivered by the City and the Developer.

Section 6.5. Waivers. No waiver of, or consent with respect to, any provision of this Acquisition Agreement by a party hereto shall in any event be effective unless the same shall be in writing and signed by such party, and then such waiver or consent shall be effective only in the specific instance and for the specific purpose for which it was given.

Section 6.6. Third-Party Beneficiaries. The Community Facilities District shall be a third-party beneficiary hereof. No other Person shall be deemed to be a third-party beneficiary hereof, and nothing in this Acquisition Agreement, either express or implied, is intended to confer upon any Person, other than the City, the Developer and the Community Facilities District and their respective successors and assigns, any rights, remedies, obligations or liabilities under or by reason of this Acquisition Agreement.

Section 6.7. Notices. Any written notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication to be given hereunder shall be given to the party entitled thereto at its address set forth below, or at such other address as such party may provide to the other party in writing from time to time, namely:

City:	City of Ontario 303 East "B" Street Ontario, California 91764 Attention: Executive Director of Finance
Developer:	Lennar Homes of California, LLC 4140 Temescal Canyon Road, Suite 410 Corona, California 92883 Attention: Geoffrey Smith, Vice President

Each such notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication hereunder shall be deemed delivered to the party to whom it is addressed (a) if given by courier or delivery service or if personally served or delivered, upon delivery, (b) if given by registered or certified mail, return receipt requested, deposited with the United States mail postage prepaid, 72 hours after such notice is deposited with the United States mail, (c) if given by electronic mail, on the date sent, but only if confirmation of the receipt of such electronic mail is received or if notice is concurrently sent by another means specified herein, and (d) if given by any other means, upon delivery at the address specified in this Section.

Section 6.8. Attorneys' Fees. If any action is instituted to interpret or enforce any of the provisions of this Acquisition Agreement, the party prevailing in such action shall be entitled to recover from the other party thereto reasonable attorney's fees and costs of such suit (including both prejudgment and postjudgment fees and costs) as determined by the court as part of the judgment.

Section 6.9. Severability. If any term or provision of this Acquisition Agreement, or the application of the term or provision to any Person or circumstance is, to any extent, held to be invalid or unenforceable in any jurisdiction, but the extent of such invalidity or unenforceability does not destroy the basis of the bargain between the parties as contained herein, the remainder of this Acquisition Agreement, or the application of the term or provision to Persons or circumstances other than those as to which the term or provision is held invalid or unenforceable, shall not be affected by such invalidity or unenforceability, and each remaining term or provision of this Assignment Agreement shall be valid and will be enforced to the fullest extent permitted by law.

Section 6.10. Governing Law. This Acquisition Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of the State.

Section 6.11. Jurisdiction and Venue. Each of the City and the Developer (a) agrees that any suit, action or other legal proceeding arising out of or relating to this Acquisition Agreement shall be brought in a state or local court in the County of San Bernardino or in the

Courts of the United States of America in the district in which said county is located, (b) consents to the jurisdiction of each such court in any such suit, action or proceeding, and (c) waives any objection that it may have to the laying of venue of any suit, action or proceeding in any of such courts and any claim that any such suit, action or proceeding has been brought in an inconvenient forum. Each of the City and the Developer agrees that a final and non-appealable judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.

Section 6.12. Electronic Signature. Each of the parties hereto agrees that the transaction consisting of this Acquisition Agreement may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent, that if such party signs this Acquisition Agreement using an electronic signature, it is signing, adopting and accepting this Acquisition Agreement and that signing this Acquisition Agreement using an electronic signature is the legal equivalent of having placed its handwritten signature on this Acquisition Agreement on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this Acquisition Agreement in a usable format.

Section 6.13. Counterparts. This Acquisition Agreement may be executed in counterparts, each of which shall be deemed an original.

Section 6.14. Effective Date. This Acquisition Agreement has been dated for convenience purposes only. Notwithstanding the stated date of this Acquisition Agreement, this Acquisition Agreement shall be effective on the Effective Date.

IN WITNESS WHEREOF, the parties hereto have executed this Acquisition Agreement as of the day and year first hereinabove written.

FACILITIES

The Facilities consist of the following Components and Segments; provided, however, that each such Segment described below shall constitute a Segment for purposes of this Acquisition Agreement only if such Segment was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders:

Storm Drain System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
SD-1	N/A	Storm Drain Facilities	Storm Drain in Grand Park Street from Archibald Avenue to Broadway Avenue

Water and Recycled Water System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
WT-1	N/A	Water System Facilities	8 to 12 inch Water Line in Grand Park Street from Archibald Avenue to Turner Avenue
WT-2	N/A	Water System Facilities	8 to 12 inch Water Line in Broadway Avenue from Ontario Ranch Road to Grand Park Street
WT-3	N/A	Water System Facilities	6 inch Recycled Water Line in Grand Park Street from Archibald Avenue to Turner Avenue
WT-4	N/A	Water System Facilities	6 inch Recycled Water Line in Broadway Avenue from Ontario Ranch Road to 450 linear feet S/O Ontario Ranch Road

Streets and Traffic Circulation System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
ST-1	ST-024	Ontario Ranch Traffic Control System	Signalized Intersection at Archibald Avenue and Grand Park Street
ST-2	ST-024	Ontario Ranch Traffic Control System	Signalized Intersection at Ontario Ranch Road and Broadway Avenue
ST-3	ST-025	Non-Developer ROW, Frontage Improvements	Construct the full width street improvements including curb adjacent lane improvements and full frontage improvements on Grand Park Street along the 1,600 LF of future high school frontage between Broadway Avenue and Turner Avenue
ST-4	N/A	Street System Facilities	Construct the full width street improvements including curb adjacent lane improvements and full frontage improvements on Broadway Avenue, from Ontario Ranch Road to Grand Park Street
ST-5	Last Lane	Construction of last lane improvements	Construction of last-lane street improvements along Tract frontage of Ontario Ranch Road to achieve ultimate half-width. Appropriate pavement transitions shall be designed. These improvements shall include, but not be limited to, concrete curb and gutter, sidewalk, street lights, and signing and striping
ST-6	Last Lane	Construction of last lane improvements	Construction of last-lane street improvements along Archibald Avenue from Eucalyptus Avenue to Ontario Ranch Road to achieve ultimate half-width. Appropriate pavement transitions shall be designed. These improvements shall include, but not be limited to, concrete curb and gutter, sidewalk, street lights, and signing and striping
ST-7	Neighborhood Edge	Neighborhood edge improvements	Construction of neighborhood edge, landscaping, multi-purpose trail, and public improvements in the right-of-way along Tract frontage of Ontario Ranch Road

Streets and Traffic Circulation System Facilities			
ST-8	Neighborhood Edge	Neighborhood edge improvements	Construction of neighborhood edge, landscaping, and public improvements in the right-of-way along Archibald Avenue from Grand Park Avenue to Ontario Ranch Road
ST-9	Neighborhood Edge	Neighborhood edge improvements	Construction of neighborhood edge, landscaping, and public improvements in the right-of-way along Grand Park Avenue from Archibald Avenue to Turner Avenue

Fiber Optic System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
FO-1	FO-004	Distribution Network - Major Streets Conduit System	Fiber conduit in Ontario Ranch Road from Broadway Avenue to Archibald Avenue
FO-2	FO-004	Distribution Network - Major Streets Conduit System	Fiber conduit in Archibald Avenue from Ontario Ranch Road to Eucalyptus Avenue
FO-3	N/A	Fiber Optic System Facilities	Fiber conduit in Grand Park Street from Archibald Avenue to Broadway Avenue
FO-4	N/A	Fiber Optic System Facilities	Fiber conduit in Broadway Avenue from Ontario Ranch Road to Grand Park Street

EXHIBIT B

FORM OF PAYMENT REQUEST

City of Ontario
Community Facilities District No. 65
(Falloncrest)

The City of Ontario (the "City") and Lennar Homes of California, LLC, a California limited liability company (the "Developer"), are parties to the Acquisition and Funding Agreement, dated as of June 1, 2024 (the "Acquisition Agreement"). Capitalized undefined terms use herein shall have the meanings ascribed thereto in the Acquisition Agreement. Pursuant to the Acquisition Agreement, the Developer hereby requests confirmation that the Segment described in Attachment A attached hereto (the "Segment") is [Complete] [Substantially Complete] and hereby further requests approval of the Purchase Price of the Segment. In connection with this Payment Request, the Developer hereby represents and warrants to the City as follows:

(a) The person executing this Payment Request on behalf of the Developer is a Developer Representative, qualified to execute this Payment Request on behalf of the Developer and knowledgeable as to the matters set forth herein.

(b) The Developer has submitted or submits herewith to the City Engineer as-built drawings or similar plans and specifications for the Segments for which payment is requested, and such drawings or plans and specifications, as applicable, are true, correct and complete; provided, however, that if such Segment is a Circulation System Segment, and certification is being requested that such Segment is Substantially Complete but not Complete, such drawings or plans and specifications need not be submitted to the City Engineer until certification is being requested that such Segment is Complete.

(c) Each of the Segments described in Attachment A has been constructed in accordance with the Plans therefor, and in accordance with all applicable City standards and the requirements of the Acquisition Agreement, and the as-built drawings or similar Plans and specifications referenced in paragraph (b) above.

(d) The true and correct Actual Cost of each Segment is set forth in Attachment A.

(e) The Developer has submitted or submits herewith to the City Engineer invoices, receipts, worksheets and other evidence of costs that are in sufficient detail to allow the City Engineer to verify the Actual Cost of each Segment for which payment is requested.

(f) There are no liens, rights to lien or attachment upon, or claims affecting the right to receive the payment requested herein that has not been released or will not be released simultaneously with the payment of such obligation, other than materialmen's or

mechanics' liens accruing by operation of law. Copies of lien releases for all work for which payment is requested hereunder are attached hereto.

(g) No Developer Event of Default has occurred and is continuing.

(h) The representations and warranties of the Developer set forth in Section 4.1 of the Acquisition Agreement are true and correct on and as of the date hereof with the same force and effect as if made on and as of the date hereof (except that no certification is made with respect to the representations and warranties contained in subsection (d) of said Section 4.1).

(i) As of the date hereof, there is not present on, under or in the Segment or the Related Property of the Segment, or any portion thereof, any Hazardous Materials, except for (i) any types or amounts that do not require remediation or mitigation under federal, state or local laws, ordinances, regulations, rules or decisions, (ii) those that have been remediated or mitigated in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, (iii) those with respect to which ongoing remediation or mitigation is being performed in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, or (iv) any types or amounts that do not present a human health risk or hazard to the public.

(j) Each of the Segments described in Attachment A was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders.

The Developer hereby declares under penalty of perjury that the above representations and warranties are true and correct.

The Developer hereby requests that the Purchase Price be paid to the Person or Persons, in the amounts, set forth in Attachment B hereto.

CONFIRMATION AND APPROVAL BY THE CITY ENGINEER

[The City Engineer has (a) confirmed that the Segment described in Attachment A is Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Complete and the Purchase Price therefor described in Attachment A is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

[The City Engineer has (a) confirmed that the Segment described in Attachment A, which is a Circulation System Segment, is Substantially Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Substantially Complete and $_____, an amount equal to 85% of the Purchase Price therefor described in Attachment A, is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

[The City Engineer previously confirmed that the Segment described in Attachment A was Substantially Complete, and previously indicated that $_____, an amount equal to 85% of the Purchase Price therefor described in Attachment A, was eligible for payment to the Developer pursuant to the Acquisition Agreement. The City Engineer has (a) now confirmed that such Segment is Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Complete and $_____, an amount equal to the remaining 15% of the Purchase Price therefor described in Attachment A is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

INTRODUCTION. The City Council of the City of Ontario (the "City Council") did, pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act"), on April 16, 2024, adopt a resolution entitled, "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein" (the "ROI"). In the ROI, the City Council expressly ordered the preparation of a written formation hearing report (the "Hearing Report") for the proposed City of Ontario Community Facilities District No. 65 (Falloncrest) (the "District"), as required by Section 53321.5 of the Act.

Section 53321.5 of the Act does direct that the Hearing Report generally contain the following:

1. A brief description of the public facilities and services by type which will, in the opinion of each officer of the City who is or will be responsible for providing one or more of the types of facilities or services proposed to be financed by the District, be required to adequately meet the needs of the District; and

2. An estimate of the fair and reasonable cost of providing such public facilities and services, including an estimate of the fair and reasonable cost of the incidental expenses proposed to be paid, including any administrative costs, and an estimate of the fair and reasonable cost of all other related expenses.

For particulars, reference is made to the ROI for the District, as previously approved and adopted by the City Council.

NOW, THEREFORE, the following data is submitted pursuant to the direction of the City Council:

A. AUTHORIZED FACILITIES AND SERVICES. A general description of the public facilities and services, and incidental expenses, are as shown in Exhibit "A" and Exhibit "B" attached hereto and hereby made a part hereof.

B. COST ESTIMATE. The cost estimates for the public facilities and services are set forth in Exhibit "C" attached hereto and hereby made a part hereof. Supplemental cost information is provided in Exhibit "E" for reference.

C. PROPOSED BOUNDARIES OF THE COMMUNITY FACILITIES DISTRICT. The proposed boundaries of the District are those properties and parcels in which special taxes may be levied to pay for the costs and expenses of the authorized public facilities and services. The proposed boundaries of the District are as shown on the boundary map recorded in Book 91 of Maps of Assessment and Community Facilities Districts at Page 58 in the office of the County Recorder for the County of San Bernardino. The boundary map is attached hereto as Exhibit "D" and hereby made a part hereof.

Dated: June 4, 2024

EXHIBIT A

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

DESCRIPTION OF AUTHORIZED FACILITIES AND SERVICES

A. Facilities to be Financed

The types of public facilities to be financed by the Community Facilities District are street and bridge improvements, including grading, paving, curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, park and recreation facilities and equipment, aquatic facilities and equipment, fire facilities and equipment, police facilities and equipment, library facilities and equipment, fiber optic telecommunication, wireless communication and public safety camera facilities and equipment, general governmental office, administrative and meeting facilities, and land, rights-of-way and easements necessary for any of such facilities.

B. Facilities to be Purchased

The types of public facilities to be purchased as completed facilities are street and bridge improvements, including grading, paving, curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, and land, rights-of-way and easements necessary for any of such facilities.

C. Services

The types of City services to be financed by the Community Facilities District are police protection services, fire protection and suppression services, ambulance and paramedic services, maintenance and lighting of parks, parkways, streets, roads and open space, flood and storm protection services, maintenance and operation of fiber optic telecommunication, wireless communication and public safety camera systems and maintenance and operation of any real property or other tangible property with an estimated useful life of five or more years that is owned by the City.

EXHIBIT B

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

INCIDENTAL EXPENSES

The incidental expenses proposed to be incurred include the following:

(a) The cost of planning and designing public facilities to be financed, including the cost of environmental evaluations of those facilities;

(b) The costs associated with the creation of the Community Facilities District, issuance of bonds, determination of the amount of taxes, collection of taxes, payment of taxes, or costs otherwise incurred in order to carry out the authorized purposes of the Community Facilities District; and

(c) Any other expenses incidental to the construction, completion, and inspection of the authorized work.

EXHIBIT C

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLOMCREST)

COST ESTIMATE

A. ***Facilities (Special Tax A)***

1.	ESTIMATED COST OF FACILITIES [1]	$14,648,000
2.	REPLACEMENT FACILITIES	$37,987,000
3.	INCIDENTALS	
	(a) Bond Reserve Fund [2]	$ 4,163,000
	(b) Bond Discount/Issuance Costs [2]	$ 2,328,000
	(c) Capitalized Interest	$ 874,000
	TOTAL BOND AMOUNTS NEEDED	$60,000,000

[1] All of the facilities may be purchased as completed facilities.
[2] Assumes three series of bonds over 100 years.

B. ***Services (Special Tax B)***

Subject to any land use changes or future annexations, the services cost estimate will not exceed the expected revenues from Residential Property and Non-Residential Property (capitalized terms as defined in the Rate and Method of Apportionment of Special Tax) within the District. However, actual revenues collected and service costs funded each Fiscal Year will depend on development that has taken place in the District, as well as service requirements and related costs. Based on current projections, revenues generated at buildout of the property in the District will be as shown in the table below. If a land use change causes the dwelling unit or building square footage estimates to change, the services cost estimate shall adjust accordingly.

Land Use	Units or Sq. Ft. in Tax Zone 2	Maximum Special Tax Rates Fiscal Year 2024-25 [2]	Maximum Special Tax Revenue Fiscal Year 2024-25
Residential Property			
Single Family Detached Dwelling Unit	0	$1,501.46 per Unit	$0
Multiple Family Dwelling Unit	362	$1,301.51 per Unit	$471,147
Gated Community Attached Dwelling Unit	0	$1,091.38 per Unit	$0
Non-Residential Property	0	$0.273800 per Sq. Ft.	$0
Annual Services Cost Estimate [1]			$471,147

[1] Total incidental expenses for the services component of the CFD, estimated at $30,000, are included in the amount shown.

[2] On January 1 of each Fiscal Year, commencing January 1, 2025, the Maximum Special Tax to be applied in the next Fiscal Year shall be subject to an automatic increase at a rate equal to 4.0% of the amount in effect for the prior Fiscal Year.

Note: Any residual special tax revenue from facilities Special Tax A (primarily, after debt service and District administration) may be used by the City of Ontario to pay for services in accordance with the Rate and Method of Apportionment.

SUPPLEMENTAL INFORMATION

A. Developer's Estimated Construction Costs

The following table sets forth the estimated construction costs of the public facilities expected to be financed by the District and acquired by the City from Lennar Homes of California, LLC (the "Developer") pursuant to the Acquisition and Funding Agreement (the "Acquisition Agreement"), by and between the City and the Developer, expected to be entered into at the time of formation of the District. The estimated construction costs have been provided by the Developer. Such estimated construction costs are intended to be used solely to facilitate the acquisition process pursuant to the Acquisition Agreement and to assist in confirming the Actual Costs (as defined in the Acquisition Agreement) of the respective Segments (as defined in the Acquisition Agreement) in accordance with the Acquisition Agreement. The City has not evaluated the reasonableness of the Developer's estimated construction costs, takes no responsibility for such estimated construction costs and, in confirming the Actual Costs of a Segment pursuant to the Acquisition Agreement, will not be bound by such estimated construction costs.

Segment No.	Segment Description	Developer's Estimated Construction Costs
SD-1	Storm Drain in Grand Park Street from Archibald Avenue to Broadway Avenue	$586,363
WT-1	8 to 12 inch Water Line in Grand Park Street from Archibald Avenue to Turner Avenue	$449,448
WT-2	8 to 12 inch Water Line in Broadway Avenue from Ontario Ranch Road to Grand Park Street	$218,302
WT-3	6 inch Recycled Water Line in Grand Park Street from Archibald Avenue to Turner Avenue	$352,033

TIER I: Payment of Actual Costs of Member Specific Improvements	$6,930,507
PARK FACILITIES: Payment of costs of public improvements constructed by or on behalf of the City in lieu of Park Fees	$4,876,140
TIER II: Payment of Actual Costs of Eligible CFD Facilities that are intended to be acquired by the City from NMC Builders pursuant to the NMC Acquisition Agreement	$2,841,353

CERTIFICATE OF ACKNOWLEDGEMENTS, REPRESENTATIONS, WARRANTIES, CONSENTS AND WAIVERS

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

City Council
City of Ontario
303 East B Street
Ontario, California 91764

Members of the City Council:

This Certificate of Acknowledgements, Representations, Warranties, Consents and Waivers (this "Certificate") is delivered by the undersigned, Lennar Homes of California, LLC, a California limited liability company (the "Landowner"), in connection with the special election referred to herein and is submitted to the City Council (the "City Council") of the City of Ontario (the "City") upon and as of the adoption on the date hereof of the resolution of the City Council entitled "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness."

1. Petition. The Landowner hereby acknowledges, confirms and agrees (a) that the Landowner submitted to the City Council the Landowner's Petition to Create a Community Facilities District, dated as April 16, 2024 (the "Petition"), requesting that the City Council institute proceedings under the Mello-Roos Community Facilities Act of 1982 (the "Act") (i) to establish a community facilities district proposed to be named City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), (ii) to authorize the Community Facilities District to levy a special tax (the "Special Tax") within the Community Facilities District, (iii) to establish an appropriations limit of the Community Facilities District, and (iv) to authorize the Community Facilities District to incur bonded indebtedness in a maximum amount of $60,000,000, and (b) that, pursuant to the Petition, the City Council initiated such proceedings.

The Landowner hereby acknowledges, confirms and agrees (a) that the Petition described the real property owned by the Landowner that was to be included within the proposed boundaries of the Community Facilities District, which real property is described in Exhibit A attached hereto and made a part hereof (the "Property"), (b) that the Petition described the boundaries of the territory proposed for inclusion in the Community Facilities District, which boundaries are described in Exhibit B attached hereto and made a part hereof (the "Boundaries of the Community Facilities District"), (c) that the Petition stated the types of public facilities to be financed by the Community Facilities District, which facilities are described under the caption "Facilities" on Exhibit C attached hereto and made a part hereof (the "Facilities"), (d) that the Petition stated the types of services to be financed by the Community Facilities District, which services are described under the caption "Services" on Exhibit C attached hereto and made a part hereof (the "Services"), and (e) that, pursuant to the Petition, the Landowner consented to the waiver of, and waived, all

time limits and all requirements pertaining to the conduct of the election specified in the Act, all notices with respect thereto (other than published notices required under the Act), all voter qualification requirements, all requirements as to the form or content of election materials, all voting procedures (other than the right to vote), all canvass, recount and tie vote procedures, all requirements that there be prepared and included in the ballot material provided to each voter an impartial analysis and arguments and rebuttals, if any, and all requirements as to the form and content of the ballot for the election, including any requirement that the ballot include the type or amount or rate of the Special Tax, the duration of the Special Tax, the use of the revenue derived from the Special Tax or the amount of money to be raised annually from the Special Tax.

2. Proceedings. The Landowner hereby acknowledges, confirms and agrees (a) that, on April 16, 2024, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein" (the "Resolution of Intention"), stating its intention to establish the Community Facilities District, to authorize the Community Facilities District to levy the Special Tax within the Community Facilities District and setting May 21, 2024 as the date for a public hearing to be held on the establishment of the Community Facilities District, (b) that the Landowner had actual notice of said public hearing and that notice of said public hearing has been given in accordance with the Act, (c) that on May 21, 2024, the City Council opened and continued said public hearing to the date hereof, (d) that on the date hereof, the City Council opened, conducted and closed said public hearing, and (e) that none of the establishment of the Community Facilities District, the furnishing of any specified type or types of Facilities or Services within the Community Facilities District or the levying of a specified special tax was precluded by majority protest pursuant to 53324 of the Act. The Landowner hereby acknowledges, confirms and agrees that the rate and method of apportionment of the Special Tax (the "Rate and Method") was set forth in the Resolution of Intention and that the Rate and Method specifies the rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay.

The Landowner hereby acknowledges, confirms and agrees (a) that, on April 16, 2024, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Declaring it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Declaring Necessity"), declaring it necessary for the Community Facilities District to incur bonded indebtedness, stating the purpose for which the proposed debt will be incurred, stating the maximum amount of the proposed debt and setting May 21, 2024 as the date for a public hearing to be held on the proposed debt authorization, (b) that the Landowner had actual notice of the said public hearing and that notice of said public hearing has been given in accordance with the Act, (c) that on May 21, 2024, the City Council opened and continued said public hearing to the date hereof, and (d) that on the date hereof, the City Council opened, conducted and closed said public hearing.

The Landowner hereby acknowledges, confirms and agrees that, on the date hereof, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District

No. 65 (Falloncrest), Proposing that the Community Facilities District be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District be Established" (the "Resolution of Formation"), establishing the Community Facilities District, proposing that the Community Facilities District be authorized to levy the Special Tax within the Community Facilities District, proposing that an appropriations limit of the Community Facilities District be established and stating that the propositions to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District shall be subject to the approval of the qualified electors of the Community Facilities District at a special election. The Landowner hereby acknowledges, confirms and agrees that the Rate and Method was set forth in the Resolution of Formation and that the Rate and Method specifies the rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay.

The Landowner hereby acknowledges, confirms and agrees that, on the date hereof, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Deeming Necessity"), deeming it necessary for the Community Facilities District to incur bonded indebtedness, stating the purpose for which the bonded indebtedness will be incurred, stating the maximum amount of debt to be incurred, stating the maximum term the bonds to be issued shall run before maturity, stating the maximum annual rate of interest on the bonds and stating that the proposition to authorize the Community Facilities District to incur the bonded indebtedness shall be submitted to the qualified electors of the Community Facilities District.

3. Special Election. The Landowner hereby acknowledges, confirms and agrees (a) that there has been prepared and included in the agenda for the meeting of the City Council on the date hereof a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Calling Special Election for City of Ontario Community Facilities District No. 65 (Falloncrest)" (the "Resolution Calling Election"), calling a special election (the "Special Election") to submit to the qualified electors of the Community Facilities District the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District, (b) that the form of the official ballot for the Special Election (the "Ballot") is attached as an exhibit to the Resolution Calling Election, and (c) that the measure to be submitted to the voters, as set forth in the Ballot, is as follows:

> Shall the measure to authorize City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") to incur bonded indebtedness in a maximum amount of $60,000,000, to authorize the Community Facilities District to levy a special tax in order to finance certain facilities and services and to establish the annual appropriations limit of the Community Facilities District at $60,000,000, as specified in the resolutions adopted by the City Council of the City of Ontario on June 4, 2024 entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities

District be Authorized to Levy a Special Tax and Proposing that an Appropriations Limit of the Community Facilities District be Established" and "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness," be adopted?

The Landowner hereby represents and warrants (a) that, as of the date hereof, it is the legal owner of the fee interest in all of the Property and that no other person or entity is the legal owner of all or any portion of the fee interest in any of the Property, (b) that all of the Property is included within the Boundaries of the Community Facilities District, (c) that the Property consists of approximately 15.68 acres not exempt from the Special Tax and comprises approximately 69.2% of the area of land included within the Boundaries of the Community Facilities District and not exempt from the Special Tax, (d) that the Boundaries of the Community Facilities District, as described in Exhibit B hereto, constitute the boundaries of the territory that is included in the Community Facilities District, and (e) that such territory consists of approximately 22.66 acres not exempt from the Special Tax.

The Landowner hereby represents and warrants that, to the best knowledge of the Landowner (a) as of the date hereof, there are no registered voters residing within the Boundaries of the Community Facilities District, and (b) there have been fewer than 12 registered voters residing within the Boundaries of the Community Facilities District during each of the 90 days preceding the date of the close of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District, which date is the date hereof.

The Landowner hereby acknowledges, confirms and agrees that, pursuant to Section 53326(b) of the Act, if fewer than 12 persons have been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District, the vote on the ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District shall be by the landowners of the Community Facilities District and each person who is the owner of land at the close of said public hearings, or the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Community Facilities District not exempt from the Special Tax. The Landowner hereby acknowledges, confirms and agrees that said vote shall, pursuant to Section 53326(b) of the Act, be by the landowners of the Community Facilities District.

The Landowner hereby requests that the Special Election be held on the date hereof. The Landowner hereby acknowledges, confirms and agrees that the Special Election is being expedited at the particular request of the Landowner.

The Landowner hereby requests that the Special Election be conducted using mailed or hand-delivered ballots, that such ballots be opened and canvassed at the Special Election and that the results of the Special Election be certified at the meeting of the City Council being held on the date hereof.

4. Consents and Waivers. The Landowner hereby acknowledges, confirms and agrees that if the Special Election is held on the date hereof, the Special Election will be held less than 90 days after the close, on the date hereof, of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District. The Landowner hereby acknowledges, confirms and agrees that, pursuant to Section 53326 of the Act, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of the Special Election, including any time limit or requirement applicable to any election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), may be waived with the unanimous consent of the qualified electors of the Community Facilities District and the concurrence of the election official conducting the election. The Landowner hereby consents to the waiver of, and hereby waives, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of the Special Election (other than the right to have ballots accurately counted), including any time limit or requirement applicable to any election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), including, but not limited to, all notices with respect thereto (published, mailed or otherwise to be given), any voter qualification requirements, any time limitations, all publication requirements, all pre-election, election or voting procedures (other than the right to vote) and all canvass, recount and tie vote procedures.

The Landowner hereby acknowledges, confirms and agrees that, as the Special Election vote is to be by the landowners of the Community Facilities District, any impartial analysis, arguments or rebuttals, if any, with respect to the Special Election may, pursuant to Section 53327(b) of the Act, be waived with the unanimous consent of all the landowners of the Community Facilities District. The Landowner hereby consents to the waiver of, and hereby waives, the requirements of Section 53327(a) of the Act that there be prepared and included in the ballot material provided to each voter an impartial analysis pursuant to Section 9160, 9280 or 9500 of the California Elections Code (the "Elections Code"), and arguments and rebuttals, if any, pursuant to Sections 9162 to 9167, inclusive, and Section 9190 of the Elections Code or pursuant to Sections 9281 to 9287, inclusive, and Section 9295 of the Elections Code, or pursuant to Sections 9501 to 9507, inclusive, of the Elections Code, or pursuant to other provisions of law applicable to other special districts as appropriate.

The Landowner hereby waives any and all defects in notice or procedure in any proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy the Special Tax and to authorize the Community Facilities District to incur bonded indebtedness, or in the conduct of the Special Election, whether known or unknown.

The Landowner hereby waives all requirements as to the form and content of the Ballot and the Ballot measure for the Special Election, including, without limitation, all requirements that the Ballot measure be condensed, abbreviated or summarized in the Ballot, the requirements in Section 9051 of the Elections Code, the requirements in Section 13119(b) of the Elections Code that the Ballot measure include the amount of money to be raised annually from the Special Tax and the rate and duration of the Special Tax, the provisions of the Taxpayer Protection and Government Accountability Act that would, if enacted, require that the Ballot measure include the type and amount or rate of the Special Tax, the duration of the Special Tax and the use of revenue derived from the Special Tax; provided, however, that, notwithstanding the foregoing, the Landowner is not waiving, and does not waive, the requirement in Section 13247 of the Elections

Code that the Ballot label be followed with the words "Yes" and "No" or the requirements in subsections (a), (c) or (d) of Section 13119 of the Elections Code.

The Landowner hereby waives all requirements as to the preparation, printing and delivery of election materials for the Special Election (other than delivery of the Ballot to each voter as provided in the Act) and the form and content of such election materials, including, without limitation, that a fiscal impact report or statement be prepared, delivered or referenced, that a voter information guide or pamphlet be prepared, printed, delivered or made available and that the full Ballot measure be printed in materials, other than the Ballot, delivered or made available to voters.

The Landowner hereby waives its right to make any protest or complaint or to undertake any legal action challenging the validity of the Special Election.

5. Landowner Fully Informed; Waivers Knowing, Intelligent and Voluntary. The Landowner's request, pursuant to the Petition, that the Community Facilities District be established, that the boundaries of the territory included in the Community Facilities District be the Boundaries of the Community Facilities District, that the territory in the Community Facilities District include the Property (which is real property owned by the Landowner), that the Community Facilities District be authorized to levy the Special Tax, that an appropriations limit of the Community Facilities District be established, that the Community Facilities District be authorized to incur bonded indebtedness in a maximum amount of $60,000,000, that the facilities to be financed by the Community Facilities District be the Facilities and that the services to be financed by the Community Facilities District be the Services, evidences, and the Landowner hereby represents and confirms, that the Landowner was in possession of such information and knowledge as it deemed necessary or appropriate with respect to such matters. The Landowner hereby represents and confirms that it is fully informed with respect to such matters, has a thorough understanding thereof and fully understands the consequences thereof.

The Landowner hereby acknowledges, confirms and agrees that that the Landowner and representatives thereof, including its financial advisor and legal counsel, received, reviewed, participated in discussions regarding, and provided comments and input on the documents and instruments constituting the proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy of the Special Tax, to authorize the Community Facilities District to incur bonded indebtedness and to establish an appropriations limit of the Community Facilities District, including, without limitation, the Petition, the Resolution of Intention, the Resolution Declaring Necessity, the Resolution of Formation, the Resolution Deeming Necessity, the Rate and Method, this Certificate, the Resolution Calling Election, the form of the Ballot, the description of the Facilities and Services to be financed by the Special Tax and the Special Tax analysis prepared by the Landowner's financial advisor.

The Landowner hereby represents and confirms that, by virtue of the Landowner and representatives thereof, including its financial advisor and legal counsel, having received, reviewed, participated in discussions regarding and provided comments and input on the documents and instruments constituting the proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy of the Special Tax, to authorize the Community Facilities District to incur bonded indebtedness and to establish an appropriations limit of the Community Facilities District, and the Landowner's and such representatives' independent

inquiries, investigations and research with respect thereto, the Landowner is in possession of such information and knowledge with respect to such matters as it has deemed necessary or appropriate. The Landowner hereby represents and confirms that it is fully informed with respect to such matters, has a thorough understanding thereof and fully understands the consequences thereof.

The Landowner hereby acknowledges, confirms and agrees (a) that the Rate and Method was set forth in the Petition, the Resolution of Intention and the Resolution of Formation, and (b) that the Rate and Method contains detailed provisions specifying (i) the type of the Special Tax (a special tax) and the amount or rate of the Special Tax to be levied on each parcel of property in the Community Facilities District, (ii) the duration of the Special Tax (the fiscal year after which the Special Tax would no longer be levied), and (iii) the use of the revenue derived from the Special Tax (to pay costs of Facilities, or debt service on debt issued to pay costs of Facilities, to pay costs of Services, to pay administrative costs and to pay or provide for other related costs or expenses). The Landowner hereby acknowledges, confirms and agrees that by virtue of the Ballot's reference to the Resolution of Formation, which sets forth the Rate and Method, and by virtue of the Landowner and representatives thereof, including its financial advisor and legal counsel, receiving, reviewing, participating in discussions regarding and providing comments and input on the Rate and Method, the Landowner has such information and knowledge about the matters described in clause (b) of this paragraph that is at least equal to that it would have had if such matters had been set forth in the Ballot, as the Taxpayer Protection and Government Accountability Act, if enacted, would require.

The Landowner hereby represents and confirms that it has obtained, and is in possession of, such information and knowledge with respect to the Landowner's representations, warranties, acknowledgements, confirmations, agreements, consents and waivers contained in this Certificate as it has deemed necessary or appropriate. The Landowner hereby represents and confirms that it is fully informed with respect to such representations, warranties, acknowledgements, confirmations, agreements, consents and waivers and fully understands the consequences thereof. The Landowner hereby represents and confirms that each such waiver by the Landowner is a knowing, intelligent and voluntary waiver.

6. Authorized Representative. The Landowner hereby states and confirms (a) that the undersigned, Geoffrey Smith, is an authorized representative of the Landowner and has been duly authorized by the Landowner to execute such documents and instruments on behalf of the Landowner as are necessary or appropriate in connection with the Special Election, including this Certificate and the Ballot envelope, and (b) that the signature set forth opposite the name of the undersigned is the genuine signature of such person:

Name	Signature
Geoffrey Smith	

7. Mailing Address. The address of the Landowner for receiving notices and ballots is: Lennar Homes of California, LLC, 4140 Temescal Canyon Road, Suite 410, Corona, California 92883, Attention: Geoffrey Smith, Vice President.

This Certificate of Acknowledgements, Representations, Warranties, Consents and Waivers is dated June 4, 2024.

EXHIBIT C

FACILITIES AND SERVICES TO BE FINANCED

Facilities

The types of public facilities to be financed by the Community Facilities District are street and bridge improvements, including grading, paving, curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, park and recreation facilities and equipment, aquatic facilities and equipment, fire facilities and equipment, police facilities and equipment, library facilities and equipment, fiber optic telecommunication, wireless communication and public safety camera facilities and equipment, general governmental office, administrative and meeting facilities, and land, rights-of-way and easements necessary for any of such facilities.

Services

The types of City services to be financed by the Community Facilities District are police protection services, fire protection and suppression services, ambulance and paramedic services, maintenance and lighting of parks, parkways, streets, roads and open space, flood and storm protection services, maintenance and operation of fiber optic telecommunication, wireless communication and public safety camera systems and maintenance and operation of any real property or other tangible property with an estimated useful life of five or more years that is owned by the City.

CERTIFICATE OF ACKNOWLEDGEMENTS, REPRESENTATIONS, WARRANTIES, CONSENTS AND WAIVERS

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)

City Council
City of Ontario
303 East B Street
Ontario, California 91764

Members of the City Council:

This Certificate of Acknowledgements, Representations, Warranties, Consents and Waivers (this "Certificate") is delivered by the undersigned, KL LHB DSD AIV LLC, a Delaware limited liability company (the "Landowner"), in connection with the special election referred to herein and is submitted to the City Council (the "City Council") of the City of Ontario (the "City") upon and as of the adoption on the date hereof of the resolution of the City Council entitled "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness."

1. **Petition.** The Landowner hereby acknowledges, confirms and agrees (a) that the Landowner submitted to the City Council the Landowner's Petition to Create a Community Facilities District, dated as April 16, 2024 (the "Petition"), requesting that the City Council institute proceedings under the Mello-Roos Community Facilities Act of 1982 (the "Act") (i) to establish a community facilities district proposed to be named City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District"), (ii) to authorize the Community Facilities District to levy a special tax (the "Special Tax") within the Community Facilities District, (iii) to establish an appropriations limit of the Community Facilities District, and (iv) to authorize the Community Facilities District to incur bonded indebtedness in a maximum amount of $60,000,000, and (b) that, pursuant to the Petition, the City Council initiated such proceedings.

The Landowner hereby acknowledges, confirms and agrees (a) that the Petition described the real property owned by the Landowner that was to be included within the proposed boundaries of the Community Facilities District, which real property is described in Exhibit A attached hereto and made a part hereof (the "Property"), (b) that the Petition described the boundaries of the territory proposed for inclusion in the Community Facilities District, which boundaries are described in Exhibit B attached hereto and made a part hereof (the "Boundaries of the Community Facilities District"), (c) that the Petition stated the types of public facilities to be financed by the Community Facilities District, which facilities are described under the caption "Facilities" on Exhibit C attached hereto and made a part hereof (the "Facilities"), (d) that the Petition stated the types of services to be financed by the Community Facilities District, which services are described under the caption "Services" on Exhibit C attached hereto and made a part hereof (the "Services"), and (e) that, pursuant to the Petition, the Landowner consented to the waiver of, and waived, all time limits and all requirements pertaining to the conduct of the election specified in the Act, all

notices with respect thereto (other than published notices required under the Act), all voter qualification requirements, all requirements as to the form or content of election materials, all voting procedures (other than the right to vote), all canvass, recount and tie vote procedures, all requirements that there be prepared and included in the ballot material provided to each voter an impartial analysis and arguments and rebuttals, if any, and all requirements as to the form and content of the ballot for the election, including any requirement that the ballot include the type or amount or rate of the Special Tax, the duration of the Special Tax, the use of the revenue derived from the Special Tax or the amount of money to be raised annually from the Special Tax.

2. Proceedings. The Landowner hereby acknowledges, confirms and agrees (a) that, on April 16, 2024, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein" (the "Resolution of Intention"), stating its intention to establish the Community Facilities District, to authorize the Community Facilities District to levy the Special Tax within the Community Facilities District and setting May 21, 2024 as the date for a public hearing to be held on the establishment of the Community Facilities District, (b) that the Landowner had actual notice of said public hearing and that notice of said public hearing has been given in accordance with the Act, (c) that on May 21, 2024, the City Council opened and continued said public hearing to the date hereof, (d) that on the date hereof, the City Council opened, conducted and closed said public hearing, and (e) that none of the establishment of the Community Facilities District, the furnishing of any specified type or types of Facilities or Services within the Community Facilities District or the levying of a specified special tax was precluded by majority protest pursuant to 53324 of the Act. The Landowner hereby acknowledges, confirms and agrees that the rate and method of apportionment of the Special Tax (the "Rate and Method") was set forth in the Resolution of Intention and that the Rate and Method specifies the rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay.

The Landowner hereby acknowledges, confirms and agrees (a) that, on April 16, 2024, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Declaring it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Declaring Necessity"), declaring it necessary for the Community Facilities District to incur bonded indebtedness, stating the purpose for which the proposed debt will be incurred, stating the maximum amount of the proposed debt and setting May 21, 2024 as the date for a public hearing to be held on the proposed debt authorization, (b) that the Landowner had actual notice of the said public hearing and that notice of said public hearing has been given in accordance with the Act, (c) that on May 21, 2024, the City Council opened and continued said public hearing to the date hereof, and (d) that on the date hereof, the City Council opened, conducted and closed said public hearing.

The Landowner hereby acknowledges, confirms and agrees that, on the date hereof, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District be Authorized to Levy a

Special Tax and Proposing that an Appropriations Limit of the Community Facilities District be Established" (the "Resolution of Formation"), establishing the Community Facilities District, proposing that the Community Facilities District be authorized to levy the Special Tax within the Community Facilities District, proposing that an appropriations limit of the Community Facilities District be established and stating that the propositions to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District shall be subject to the approval of the qualified electors of the Community Facilities District at a special election. The Landowner hereby acknowledges, confirms and agrees that the Rate and Method was set forth in the Resolution of Formation and that the Rate and Method specifies the rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay.

The Landowner hereby acknowledges, confirms and agrees that, on the date hereof, the City Council, pursuant to the Act, adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution Deeming Necessity"), deeming it necessary for the Community Facilities District to incur bonded indebtedness, stating the purpose for which the bonded indebtedness will be incurred, stating the maximum amount of debt to be incurred, stating the maximum term the bonds to be issued shall run before maturity, stating the maximum annual rate of interest on the bonds and stating that the proposition to authorize the Community Facilities District to incur the bonded indebtedness shall be submitted to the qualified electors of the Community Facilities District.

3. Special Election. The Landowner hereby acknowledges, confirms and agrees (a) that there has been prepared and included in the agenda for the meeting of the City Council on the date hereof a resolution entitled "A Resolution of the City Council of the City of Ontario, California, Calling Special Election for City of Ontario Community Facilities District No. 65 (Falloncrest)" (the "Resolution Calling Election"), calling a special election (the "Special Election") to submit to the qualified electors of the Community Facilities District the combined ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District, (b) that the form of the official ballot for the Special Election (the "Ballot") is attached as an exhibit to the Resolution Calling Election, and (c) that the measure to be submitted to the voters, as set forth in the Ballot, is as follows:

> Shall the measure to authorize City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") to incur bonded indebtedness in a maximum amount of $60,000,000, to authorize the Community Facilities District to levy a special tax in order to finance certain facilities and services and to establish the annual appropriations limit of the Community Facilities District at $60,000,000, as specified in the resolutions adopted by the City Council of the City of Ontario on June 4, 2024 entitled "A Resolution of the City Council of the City of Ontario, California, of Formation of City of Ontario Community Facilities District No. 65 (Falloncrest), Proposing that the Community Facilities District be Authorized to Levy a Special Tax and Proposing that an

Appropriations Limit of the Community Facilities District be Established" and "A Resolution of the City Council of the City of Ontario, California, Deeming it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness," be adopted?

The Landowner hereby represents and warrants (a) that, as of the date hereof, it is the legal owner of the fee interest in all of the Property and that no other person or entity is the legal owner of all or any portion of the fee interest in any of the Property, (b) that all of the Property is included within the Boundaries of the Community Facilities District, (c) that the Property consists of approximately 6.98 acres not exempt from the Special Tax and comprises approximately 30.8% of the area of land included within the Boundaries of the Community Facilities District and not exempt from the Special Tax, (d) that the Boundaries of the Community Facilities District, as described in Exhibit B hereto, constitute the boundaries of the territory that is included in the Community Facilities District, and (e) that such territory consists of approximately 22.66 acres not exempt from the Special Tax.

The Landowner hereby represents and warrants that, to the best knowledge of the Landowner (a) as of the date hereof, there are no registered voters residing within the Boundaries of the Community Facilities District, and (b) there have been fewer than 12 registered voters residing within the Boundaries of the Community Facilities District during each of the 90 days preceding the date of the close of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District, which date is the date hereof.

The Landowner hereby acknowledges, confirms and agrees that, pursuant to Section 53326(b) of the Act, if fewer than 12 persons have been registered to vote within the territory of the Community Facilities District for each of the 90 days preceding the close of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District, the vote on the ballot proposition to authorize the Community Facilities District to incur bonded indebtedness, to authorize the Community Facilities District to levy the Special Tax and to establish the appropriations limit of the Community Facilities District shall be by the landowners of the Community Facilities District and each person who is the owner of land at the close of said public hearings, or the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Community Facilities District not exempt from the Special Tax. The Landowner hereby acknowledges, confirms and agrees that said vote shall, pursuant to Section 53326(b) of the Act, be by the landowners of the Community Facilities District.

The Landowner hereby requests that the Special Election be held on the date hereof. The Landowner hereby acknowledges, confirms and agrees that the Special Election is being expedited at the particular request of the Landowner.

The Landowner hereby requests that the Special Election be conducted using mailed or hand-delivered ballots, that such ballots be opened and canvassed at the Special Election and that the results of the Special Election be certified at the meeting of the City Council being held on the date hereof.

4. Consents and Waivers. The Landowner hereby acknowledges, confirms and agrees that if the Special Election is held on the date hereof, the Special Election will be held less than 90 days after the close, on the date hereof, of the public hearings on the establishment of the Community Facilities District and the proposed debt authorization of the Community Facilities District. The Landowner hereby acknowledges, confirms and agrees that, pursuant to Section 53326 of the Act, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of the Special Election, including any time limit or requirement applicable to any election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), may be waived with the unanimous consent of the qualified electors of the Community Facilities District and the concurrence of the election official conducting the election. The Landowner hereby consents to the waiver of, and hereby waives, any time limit specified by Section 53326 of the Act and any requirement pertaining to the conduct of the Special Election (other than the right to have ballots accurately counted), including any time limit or requirement applicable to any election pursuant to Article 5 of the Act (commencing with Section 53345 of the Act), including, but not limited to, all notices with respect thereto (published, mailed or otherwise to be given), any voter qualification requirements, any time limitations, all publication requirements, all pre-election, election or voting procedures (other than the right to vote) and all canvass, recount and tie vote procedures.

The Landowner hereby acknowledges, confirms and agrees that, as the Special Election vote is to be by the landowners of the Community Facilities District, any impartial analysis, arguments or rebuttals, if any, with respect to the Special Election may, pursuant to Section 53327(b) of the Act, be waived with the unanimous consent of all the landowners of the Community Facilities District. The Landowner hereby consents to the waiver of, and hereby waives, the requirements of Section 53327(a) of the Act that there be prepared and included in the ballot material provided to each voter an impartial analysis pursuant to Section 9160, 9280 or 9500 of the California Elections Code (the "Elections Code"), and arguments and rebuttals, if any, pursuant to Sections 9162 to 9167, inclusive, and Section 9190 of the Elections Code or pursuant to Sections 9281 to 9287, inclusive, and Section 9295 of the Elections Code, or pursuant to Sections 9501 to 9507, inclusive, of the Elections Code, or pursuant to other provisions of law applicable to other special districts as appropriate.

The Landowner hereby waives any and all defects in notice or procedure in any proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy the Special Tax and to authorize the Community Facilities District to incur bonded indebtedness, or in the conduct of the Special Election, whether known or unknown.

The Landowner hereby waives all requirements as to the form and content of the Ballot and the Ballot measure for the Special Election, including, without limitation, all requirements that the Ballot measure be condensed, abbreviated or summarized in the Ballot, the requirements in Section 9051 of the Elections Code, the requirements in Section 13119(b) of the Elections Code that the Ballot measure include the amount of money to be raised annually from the Special Tax and the rate and duration of the Special Tax, the provisions of the Taxpayer Protection and Government Accountability Act that would, if enacted, require that the Ballot measure include the type and amount or rate of the Special Tax, the duration of the Special Tax and the use of revenue derived from the Special Tax; provided, however, that, notwithstanding the foregoing, the Landowner is not waiving, and does not waive, the requirement in Section 13247 of the Elections

Code that the Ballot label be followed with the words "Yes" and "No" or the requirements in subsections (a), (c) or (d) of Section 13119 of the Elections Code.

The Landowner hereby waives all requirements as to the preparation, printing and delivery of election materials for the Special Election (other than delivery of the Ballot to each voter as provided in the Act) and the form and content of such election materials, including, without limitation, that a fiscal impact report or statement be prepared, delivered or referenced, that a voter information guide or pamphlet be prepared, printed, delivered or made available and that the full Ballot measure be printed in materials, other than the Ballot, delivered or made available to voters.

The Landowner hereby waives its right to make any protest or complaint or to undertake any legal action challenging the validity of the Special Election.

5. Landowner Fully Informed; Waivers Knowing, Intelligent and Voluntary. The Landowner's request, pursuant to the Petition, that the Community Facilities District be established, that the boundaries of the territory included in the Community Facilities District be the Boundaries of the Community Facilities District, that the territory in the Community Facilities District include the Property (which is real property owned by the Landowner), that the Community Facilities District be authorized to levy the Special Tax, that an appropriations limit of the Community Facilities District be established, that the Community Facilities District be authorized to incur bonded indebtedness in a maximum amount of $60,000,000, that the facilities to be financed by the Community Facilities District be the Facilities and that the services to be financed by the Community Facilities District be the Services, evidences, and the Landowner hereby represents and confirms, that the Landowner was in possession of such information and knowledge as it deemed necessary or appropriate with respect to such matters. The Landowner hereby represents and confirms that it is fully informed with respect to such matters, has a thorough understanding thereof and fully understands the consequences thereof.

The Landowner hereby acknowledges, confirms and agrees that that the Landowner and representatives thereof, including its financial advisor and legal counsel, received, reviewed, participated in discussions regarding, and provided comments and input on the documents and instruments constituting the proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy of the Special Tax, to authorize the Community Facilities District to incur bonded indebtedness and to establish an appropriations limit of the Community Facilities District, including, without limitation, the Petition, the Resolution of Intention, the Resolution Declaring Necessity, the Resolution of Formation, the Resolution Deeming Necessity, the Rate and Method, this Certificate, the Resolution Calling Election, the form of the Ballot, the description of the Facilities and Services to be financed by the Special Tax and the Special Tax analysis prepared by the Landowner's financial advisor.

The Landowner hereby represents and confirms that, by virtue of the Landowner and representatives thereof, including its financial advisor and legal counsel, having received, reviewed, participated in discussions regarding and provided comments and input on the documents and instruments constituting the proceedings to establish the Community Facilities District, to authorize the Community Facilities District to levy of the Special Tax, to authorize the Community Facilities District to incur bonded indebtedness and to establish an appropriations limit of the Community Facilities District, and the Landowner's and such representatives' independent

inquiries, investigations and research with respect thereto, the Landowner is in possession of such information and knowledge with respect to such matters as it has deemed necessary or appropriate. The Landowner hereby represents and confirms that it is fully informed with respect to such matters, has a thorough understanding thereof and fully understands the consequences thereof.

The Landowner hereby acknowledges, confirms and agrees (a) that the Rate and Method was set forth in the Petition, the Resolution of Intention and the Resolution of Formation, and (b) that the Rate and Method contains detailed provisions specifying (i) the type of the Special Tax (a special tax) and the amount or rate of the Special Tax to be levied on each parcel of property in the Community Facilities District, (ii) the duration of the Special Tax (the fiscal year after which the Special Tax would no longer be levied), and (iii) the use of the revenue derived from the Special Tax (to pay costs of Facilities, or debt service on debt issued to pay costs of Facilities, to pay costs of Services, to pay administrative costs and to pay or provide for other related costs or expenses). The Landowner hereby acknowledges, confirms and agrees that by virtue of the Ballot's reference to the Resolution of Formation, which sets forth the Rate and Method, and by virtue of the Landowner and representatives thereof, including its financial advisor and legal counsel, receiving, reviewing, participating in discussions regarding and providing comments and input on the Rate and Method, the Landowner has such information and knowledge about the matters described in clause (b) of this paragraph that is at least equal to that it would have had if such matters had been set forth in the Ballot, as the Taxpayer Protection and Government Accountability Act, if enacted, would require.

The Landowner hereby represents and confirms that it has obtained, and is in possession of, such information and knowledge with respect to the Landowner's representations, warranties, acknowledgements, confirmations, agreements, consents and waivers contained in this Certificate as it has deemed necessary or appropriate. The Landowner hereby represents and confirms that it is fully informed with respect to such representations, warranties, acknowledgements, confirmations, agreements, consents and waivers and fully understands the consequences thereof. The Landowner hereby represents and confirms that each such waiver by the Landowner is a knowing, intelligent and voluntary waiver.

6. **Authorized Representative.** The Landowner hereby states and confirms (a) that the undersigned, Nathan Holt, is an authorized representative of the Landowner and has been duly authorized by the Landowner to execute such documents and instruments on behalf of the Landowner as are necessary or appropriate in connection with the Special Election, including this Certificate and the Ballot envelope, and (b) that the signature set forth opposite the name of the undersigned is the genuine signature of such person:

Attn: Ms. Melissa Eickman

Re: Registered Voters in the
City of Ontario Community Facilities District No. 65 (Falloncrest)

Dear Ms. Eickman:

The owners of property in the City of Ontario Community Facilities District No. 65 (Falloncrest) ("District No. 65") have petitioned for proceedings to levy a special tax under the Mello-Roos Community Facilities Act of 1982 in District No. 65.

The boundaries of the territory within District No. 65 are identified by the following San Bernardino County Assessor Parcel Numbers:

0218-324-10 through and including 0218-324-13
0218-324-21 through and including 0218-324-22
0218-324-24 through and including 0218-324-43
0218-325-01 through and including 0218-325-54
0218-326-01 through and including 0218-326-49
0218-334-01 through and including 0218-334-81
0218-335-01 through and including 0218-335-85
0218-336-01 through and including 0218-336-48
0218-337-01 through and including 0218-337-82

Such boundaries are further shown on the enclosed boundary map.

The property owners have indicated that there are no registered voters within District No. 65, and you confirmed that in your April 17 certificate. I would appreciate your reviewing your records and confirming that there are still no registered voters encompassed by the parcels, or in the alternative, if there are registered voters, the number of persons registered to vote in District No. 65. **I would appreciate a response to this request by Friday, May 3, if possible. It is OK if the certification date needs to be sooner to provide a response by Friday, May 3, 2024**. We would appreciate it if you would please direct the invoice, when available, to the following address: Cruzita O. Torres, Special Districts, City of Ontario, 415 East "B" Street, Ontario, CA 91764.

Please let me know if you have any further questions. My telephone number is (213) 612-2171 and my e-mail is sbaxter@orrick.com. Thank you for your assistance.

Sincerely,

/s/ Sean J. Baxter

**NOTICE OF PUBLIC HEARING
REGARDING ESTABLISHMENT OF
COMMUNITY FACILITIES DISTRICT**

**CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)**

Notice is hereby given that on April 16, 2024, the City Council (the "City Council") of the City of Ontario (the "City") adopted a Resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein" (the "Resolution"). Pursuant to Section 53322 of the Mello-Roos Community Facilities Act of 1982, the City Council hereby gives notice as follows:

A. The text of the Resolution is as follows:

WHEREAS, Section 53318 of the Mello-Roos Community Facilities Act of 1982 (the "Act") provides that proceedings for the establishment of a community facilities district shall be instituted by a legislative body of a local agency when a petition requesting the institution of the proceedings signed by the owners of not less than 10% of the area of land proposed to be included within the community facilities district and not proposed to be exempt from the special tax, describing the boundaries of the territory that is proposed for inclusion in the area and specifying the type or types of facilities and services to be financed by the community facilities district is filed with the clerk of the legislative body; and

WHEREAS, Section 53318 of the Act further provides that such a petition may not be acted upon until the payment of a fee in an amount that the legislative body determines, within 45 days of receiving such petition, is sufficient to compensate the legislative body for all costs incurred in conducting proceedings to create a community facilities district pursuant to the Act; and

WHEREAS, the City Council (the "City Council") of the City of Ontario (the "City") has received from each of Lennar Homes of California, LLC ("Lennar") and KL LHB DSD AIV LLC (collectively, the "Landowners") a written petition (together, the "Petitions"), requesting the City Council to institute proceedings pursuant to the Act to establish a community facilities district (the "Community Facilities District") and to authorize the Community Facilities District to levy a special tax within the Community Facilities District, describing the boundaries of the territory that is proposed for inclusion in the Community Facilities District and specifying the types of facilities and services to be financed by the Community Facilities District; and

WHEREAS, in connection with such request to institute proceedings to establish the Community Facilities District, Lennar paid a fee in an amount that the City Council has determined is sufficient to compensate the City Council for all cost incurred in conducting proceedings to create the Community Facilities District pursuant to the Act; and

WHEREAS, the Landowners have represented and warranted to the City Council that the Landowners are the owners of 100% of the area of land proposed to be included within the Community Facilities District and not proposed to be exempt from the special tax; and

WHEREAS, Section 53314.9 of the Act provides that, at any time either before or after the formation of a community facilities district, the legislative body may accept advances of funds from any source, including, but not limited to, private persons or private entities and may provide, by resolution, for the use of those funds for any authorized purpose, including, but not limited to, paying any cost incurred by the local agency in creating a community facilities district; and

WHEREAS, Section 53314.9 of the Act further provides that the legislative body may enter into an agreement, by resolution, with the person or entity advancing the funds, to repay all or a portion of the funds advanced, as determined by the legislative body, with or without interest, under all the following conditions: (a) the proposal to repay the funds is included in both the resolution of intention to establish a community facilities district adopted pursuant to Section 53321 of the Act and in the resolution of formation to establish a community facilities district pursuant to Section 53325.1 of the Act, (b) any proposed special tax is approved by the qualified electors of the community facilities district pursuant to the Act, and (c) any agreement shall specify that if the qualified electors of the community facilities district do not approve the proposed special tax, the local agency shall return any funds which have not been committed for any authorized purpose by the time of the election to the person or entity advancing the funds; and

WHEREAS, the City and Lennar have entered into the Deposit and Reimbursement Agreement, dated as of April 1, 2022 (the "Deposit Agreement"), which provides for the advancement of funds by Lennar to be used to pay costs incurred in creating the Community Facilities District and the incurrence of bonded indebtedness thereby, and provides for the repayment to Lennar of such funds advanced, without interest, from the proceeds of any such bonded indebtedness incurred by the Community Facilities District;

proceeds of any such bonded indebtedness incurred by the Community Facilities District; and

WHEREAS, the City desires to include in this Resolution, in accordance with Section 53314.9 of the Act, the proposal to repay funds pursuant to the Deposit Agreement;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. The City Council hereby finds that the Petitions are signed by the landowners owning the requisite area of land proposed to be included within the Community Facilities District and not proposed to be exempt from the Special Tax.

Section 3. The City Council proposes to establish the Community Facilities District under the terms of the Act. The boundaries of the territory proposed for inclusion in the Community Facilities District are described in the map showing the proposed Community Facilities District (the "Boundary Map") on file in the office of the City Clerk of the City (the "City Clerk"), a copy of which is attached hereto as Exhibit A, which boundaries are hereby preliminarily approved and to which map reference is hereby made for further particulars. The City Clerk is hereby directed to sign the original Boundary Map and record, or cause to be recorded, the Boundary Map with all proper endorsements thereon in the office of the San Bernardino County Recorder within 15 days of the date of adoption of this Resolution, all as required by Section 3111 of the California Streets and Highways Code.

Section 4. The name proposed for the Community Facilities District is "City of Ontario Community Facilities District No. 65 (Falloncrest)."

Section 5. The public facilities (the "Facilities") proposed to be financed by the Community Facilities District pursuant to the Act are described under the caption "Facilities" on Exhibit B hereto, which is by this reference incorporated herein. Those Facilities proposed to be purchased as completed public facilities are identified under the caption "Facilities to be Purchased" on Exhibit B hereto. The services (the "Services") proposed to be financed by the Community Facilities District pursuant to the Act are described under the caption "Services" on Exhibit B hereto. The incidental expenses proposed to be incurred are identified under the caption "Incidental Expenses" on Exhibit B hereto. All or any portion of the Facilities may be financed through a financing plan, including, but not limited to, a lease, lease-purchase or installment-purchase arrangement.

Section 6. The City Council proposes that, except where funds are otherwise available, the Community Facilities District be authorized to annually levy within the Community Facilities District a special tax (the "Special Tax") sufficient to pay for all Facilities and Services, secured by recordation of a continuing lien against all nonexempt real property in the Community Facilities District. The rate, method of apportionment and manner of collection of the Special Tax in sufficient detail to allow each landowner or resident within the proposed Community Facilities District to estimate the maximum amount that he or she will have to pay, is specified in the Rate and Method of Apportionment of Special Tax (the "Rate and Method") attached hereto as Exhibit C, which is by this reference incorporated herein. The conditions under which the obligation to pay the Special Tax to be levied to pay for Facilities may be prepaid and permanently satisfied are specified in the Rate and Method. The Special Tax will be collected in the same manner as ordinary ad valorem property taxes or in such other manner as the City Council shall determine, including direct billing of the affected property owners.

Section 7. The Special Tax may only finance the Services to the extent that they are in addition to those provided in the territory of the Community Facilities District before the Community Facilities District is created. The Services may not supplant services already available within that territory when the Community Facilities District is created. Bonds of the Community Facilities District may not be issued to fund any of the Services.

Section 8. The tax year after which no further Special Tax to pay for Facilities shall be levied against any parcel used for private residential purposes is specified in the Rate and Method. Under no circumstances shall the Special Tax to pay for Facilities in any fiscal year against any parcel used for private residential purposes be increased as a consequence of delinquency or default by the owner or owners of any other parcel or parcels within the Community Facilities District by more than 10% above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. For purposes of this paragraph, a parcel shall be considered "used for private residential purposes" not later than the date on which an occupancy permit for private residential use is issued. The Special Tax to pay for Services will be levied in perpetuity, as provided in the Rate and Method.

Section 9. Pursuant to Section 53344.1 of the Act, the City Council hereby reserves to itself the right and authority to allow any interested owner of property within the Community Facilities District, subject to the provisions of said Section 53344.1 and to those conditions as it may impose, and any applicable prepayment penalties as prescribed in the

Advertising Order Confirmation

bond indenture or comparable instrument or document, to tender to the Community Facilities District treasurer in full payment or part payment of any installment of the Special Tax or the interest or penalties thereon that may be due or delinquent, but for which a bill has been received, any bond or other obligation secured thereby, the bond or other obligation to be taken at par and credit to be given for the accrued interest shown thereby computed to the date of tender.

Section 10. The City Council hereby fixes Tuesday, May 21, 2024, at 6:30 p.m., or as soon thereafter as the City Council may reach the matter, at 303 East B Street, Ontario, California, as the time and place when and where the City Council will conduct a public hearing on the establishment of the Community Facilities District; provided, that, in the event the May 21, 2024 City Council meeting is held via teleconference and/or videoconference only, the means by which the public may observe such public hearing and offer public comment shall be prescribed in the notice and agenda for such City Council meeting.

Section 11. The City Clerk is hereby directed to publish, or cause to be published, a notice of said public hearing one time in a newspaper of general circulation published in the area of the proposed Community Facilities District. Publication of said notice shall be completed at least seven days prior to the date herein fixed for said public hearing. Said notice shall contain all of the information prescribed by Section 53322 of the Act.

Section 12. The authorization to levy the Special Tax shall be submitted to the qualified electors of the Community Facilities District at a special election. The proposed voting procedure shall be a vote by the landowners in the Community Facilities District conducted by mail or hand-delivered ballots, with each owner having one vote for each acre or portion of an acre such owner owns in the Community Facilities District.

Section 13. Each officer of the City who is or will be responsible for providing one or more of the proposed types of Facilities or Services is hereby directed to study, or cause to be studied, the proposed Community Facilities District and, at or before said public hearing, file a report with the City Council containing a brief description of the Facilities and Services by type that will in his or her opinion be required to adequately meet the needs of the Community Facilities District, and his or her estimate of the cost of providing the Facilities and Services. Such officers are hereby also directed to estimate the fair and reasonable cost of the Facilities proposed to be purchased as completed public facilities and of the incidental expenses proposed to be paid. Such report shall be made a part of the record of said public hearing.

Section 14. Lennar has heretofore advanced certain funds, and may advance additional funds, that have been or may be used to pay costs incurred in connection with the creation of the Community Facilities District and the incurrence of bonded indebtedness thereby. The City Council proposes to repay all or a portion of such funds so advanced, without interest, solely from the proceeds of such bonded indebtedness, pursuant to the Deposit Agreement. The Deposit Agreement is hereby incorporated herein as though set forth in full herein.

Section 15. All actions heretofore taken by the officers, employees and agents of the City with respect to the establishment of the Community Facilities District, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 16. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 17. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

B. The map of the Community Facilities District and the exhibits to the Resolution which describe the Facilities and Services proposed to be financed by the Community Facilities District and the Rate and Method are on file in the office of the City Clerk and are hereby referred to for detail.

C. The time and place of the hearing on the establishment of the Community Facilities District are Tuesday, May 21, 2024, at 6:30 p.m., or as soon thereafter as the City Council may reach the matter, at 303 East B Street, Ontario, California; provided, that, in the event the May 21, 2024 City Council meeting is held via teleconference and/or videoconference only, the means by which the public may observe such public hearing and offer public comment shall be prescribed in the notice and agenda for such City Council meeting.

D. At the hearing, the testimony of all interested persons or taxpayers for or against the establishment of the Community Facilities District, the extent of the Community Facilities District or the furnishing of specified types of public facilities or services will be heard. At the hearing, protests against the establishment of the Community Facilities District, the extent of the Community Facilities District or the furnishing of specified types of public facilities or services within the Community Facilities District may be made orally or in writing by any interested person, as provided in Section 53323 of the Act. If 50 percent or more of the registered voters, or six registered voters, whichever is more, residing within the territory proposed to be included in the Community Facilities District, or the owners of one-half or more of the area of land in the territory proposed to be included in the Community Facilities District and not exempt from the special tax, file written protests against the establishment of the Community Facilities District, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to create the Community Facilities District or to authorize the special tax may be taken for a period of one year from the date of the decision of the City Council. If the majority protests of the registered voters or of the landowners are only against the furnishing of a specified type or types of facilities or services within the Community Facilities District, or against levying a specified special tax, those types of facilities or services or the specified special tax will be eliminated from the resolution of formation.

E. The proposed voting procedure for the Community Facilities District is by mailed or hand-delivered ballot among the landowners in the Community Facilities District, with each owner having one vote for each acre or portion of an acre such owner owns in the Community Facilities District.

If the City Council meeting scheduled for May 21, 2024 is cancelled, the public hearing on the establishment of the Community Facilities District will be continued to the next regular City Council meeting and, in accordance with Section 54955.1 of the California Government Code, a notice of continuance will be delivered to each local newspaper of general circulation and radio or television station requesting notice in writing, will be posted on the City's internet website and will be posted at least 24 hours prior to the date to which the public hearing is continued in a location that is freely accessible to members of the public.

**NOTICE OF PUBLIC HEARING
REGARDING BONDED INDEBTEDNESS
FOR COMMUNITY FACILITIES DISTRICT**

**CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 65
(FALLONCREST)**

Notice is hereby given that on April 16, 2024, the City Council (the "City Council") of the City of Ontario (the "City") adopted a Resolution entitled "A Resolution of the City Council of the City of Ontario, California, Declaring it Necessary for City of Ontario Community Facilities District No. 65 (Falloncrest) to Incur Bonded Indebtedness" (the "Resolution"). Pursuant to Section 53346 of the Mello-Roos Community Facilities Act of 1982, the City Council hereby gives notice as follows:

A. The text of the Resolution is as follows:

WHEREAS, the City Council (the "City Council") of the City of Ontario (the "City"), pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), has this date adopted a resolution entitled "A Resolution of the City Council of the City of Ontario, California, of Intention to Establish a Community Facilities District Proposed to be Named City of Ontario Community Facilities District No. 65 (Falloncrest) and to Authorize the Levy of a Special Tax Therein," stating its intention to establish City of Ontario Community Facilities District No. 65 (Falloncrest) (the "Community Facilities District") and to authorize the Community Facilities District to levy a special tax within the Community Facilities District for the purpose of financing certain public facilities (the "Facilities") and services; and

WHEREAS, the City Council deems it necessary for the Community Facilities District to incur bonded indebtedness;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. The City Council declares it necessary for the Community Facilities District to incur bonded indebtedness.

Section 3. The proposed debt will be incurred for the purpose of financing the costs of the Facilities, including all costs and estimated costs incidental to, or connected with, the accomplishment of said purpose, including, but not limited to, such costs and estimated costs as are described in Section 53345.3 of the Act.

Section 4. The maximum amount of the proposed debt is $60,000,000.

Section 5. The City Council hereby fixes Tuesday, May 21, 2024, at 6:30 p.m., or as soon thereafter as the City Council may reach the matter, at 303 East B Street, Ontario, California, as the time and place when and where the City Council will conduct a public hearing on the proposed debt authorization; provided, that, in the event the May 21, 2024 City Council meeting is held via teleconference and/or videoconference only, the means by which the public may observe such public hearing and offer public comment shall be prescribed in the notice and agenda for such City Council meeting.

Section 6. The City Clerk of the City is hereby directed to publish, or cause to be published, a notice of said public hearing one time in a newspaper of general circulation published in the area of the proposed Community Facilities District. Publication of said notice shall be completed at least seven days prior to the date herein fixed for said public hearing. Said notice shall contain all of the information prescribed by Section 53346 of the Act.

Section 7. All actions heretofore taken by the officers, employees and agents of the City with respect to the incurrence of bonded indebtedness by the Community Facilities District, or in connection with or related to any of the matters referred to herein, are hereby approved, confirmed and ratified.

Section 8. The officers, employees and agents of the City are hereby authorized and directed to take all actions and do all things that they, or

Advertising Order Confirmation

authorized and directed to take all actions and do all things that they, or any of them, may deem necessary or desirable to accomplish the purposes of this Resolution and not inconsistent with the provisions hereof.

Section 9. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

B. The time and place of the hearing on the proposal to issue debt of the Community Facilities District are Tuesday, May 21, 2024, at 6:30 p.m., or as soon thereafter as the City Council may reach the matter, at 303 East B Street, Ontario, California; provided, that, in the event the May 21, 2024 City Council meeting is held via teleconference and/or videoconference only, the means by which the public may observe such public hearing and offer public comment shall be prescribed in the notice and agenda for such City Council meeting.

C. At the hearing, the testimony of all interested persons, including all persons owning property in the area of the Community Facilities District, for and against the proposed Community Facilities District debt issuance will be heard.

If the City Council meeting scheduled for May 21, 2024 is cancelled, the public hearing on the proposed debt authorization for the Community Facilities District will be continued to the next regular City Council meeting and, in accordance with Section 54955.1 of the California Government Code, a notice of continuance will be delivered to each local newspaper of general circulation and radio or television station requesting notice in writing, will be posted on the City's internet website and will be posted at least 24 hours prior to the date to which the public hearing is continued in a location that is freely accessible to members of the public.

2034

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **PUBLIC HEARINGS**
Department: Economic Development Prepared By: Charity Hernandez Staff Member Presenting: Jennifer McLain Hiramoto, Economic Development Director Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 27

SUBJECT: **A PUBLIC HEARING TO CONSIDER ADOPTING A RESOLUTION OF NECESSITY FOR THE ACQUISITION BY EMINENT DOMAIN OF A FEE SIMPLE INTEREST IN CERTAIN REAL PROPERTY LOCATED AT 301 NORTH EUCLID AVENUE FOR THE GRANADA THEATER REVITALIZATION PROJECT**

RECOMMENDATION: That the City Council conduct a public hearing and adopt a Resolution of Necessity declaring that the acquisition of a fee simple interest in certain real property located at 301 North Euclid Avenue, more particularly described as Assessor Parcel No. 1048-566-07 (the Property), is necessary for the rehabilitation of the Historic Granada Theater.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Encourage, Provide or Support Enhanced Recreational, Educational, Cultural and Healthy City Programs, Policies and Activities
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the Growth and Evolution of the City's Economy

FISCAL IMPACT: If approved, appropriations will be included in the Fiscal Year 2024-25 Proposed Budget to the City Council for approval for acquisition costs. The deposit necessary to file the Resolution of Necessity for prejudgment possession of the Property is approximately $3,295,000.

BACKGROUND & ANALYSIS: The City of Ontario is in the process of revitalizing its historic downtown into an 18-hour day, which means there will be a variety of eateries, retailers, and activities from morning to night. As part of this, the City is also attracting day-time employees and more residents through new mixed-use and apartment development to support the new businesses anticipated to open in Ontario.

The Property, at 301 North Euclid Avenue, consists of one parcel located on the northwest corner of Euclid Avenue and “C” Street in Ontario, California, as shown in Exhibit 1.

The City obtained an appraisal of the Property from Bradford D. Thompson, MAI, AI-GRS, SR/WA, and Scott J. Thompson, MAI, AI-SRS, SR/WA of Thomson & Thompson Real Estate Valuation and Consulting Inc., and made an offer of just compensation to the property owners for the acquisition pursuant to California Government Code section 7267.2.

A litigation guarantee was ordered to determine and confirm the identity of the record owner. Following

a standard public records request and due diligence search for ownership information, a notice of this public hearing was mailed to the affected property owner.

The power of eminent domain is used by the City only as a last resort to obtain interests necessary for projects after 1) negotiations have stalled, or 2) the owner has requested that the City proceed directly to eminent domain for tax or other advantages, or 3) the eminent domain process is necessary to clear title to the property. In this case, an offer of just compensation was made to the owner for the full Fair Market Value, as determined by an independent appraisal. California's definition of Fair Market Value is one of the most inclusive definitions in the United States and requires the appraiser to consider the highest and best use of the property and to consider the highest price a willing buyer and seller would agree to. The City's appraisal must use this definition of Fair Market Value.

Here, the property is currently the subject of a quiet title lawsuit, which resulted in the property being placed in receivership. The City's offer was communicated to both the receiver and the owner. The receiver is in the process of being discharged, and City Staff and legal counsel will continue with efforts to negotiate a voluntary acquisition with the owner.

DESCRIPTION OF PROPERTY TO BE ACQUIRED: The Property affected by the proposed acquisition is located within the City of Ontario, 301 North Euclid Avenue, Ontario, California 91764, and more particularly described as Assessor Parcel Number 1048-556-07.

HEARINGS AND REQUIRED FINDINGS: The recommended actions of the City Council pertain to the acquisition of a fee simple interest in the Property owned by Overland Direct, Inc., a Nevada corporation. A true and correct of the legal definition, legal description, and map of the Property sought to be acquired is attached to the Resolution of Necessity as Exhibit A.

California eminent domain law provides that a public entity may not commence an eminent domain proceeding until its governing body has adopted a Resolution of Necessity, which resolution may only be adopted after the governing body has given each party with an interest in the affected property or their representatives a reasonable opportunity to appear and be heard on the following matters:

1. The public interest and necessity require the proposed project.
2. The project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury.
3. The real property to be acquired is necessary for the project.
4. The offer of just compensation has been made to the property owner.

Since an agreement has not been reached with the property owner, it is necessary to acquire the property by eminent domain to meet critical project deadlines. Pursuant to Section 1245.235 of the California Code of Civil Procedures, a notice of this hearing was sent by first class mail on May 3, 2024, to the record owner, and stated the City's intent to consider the adoption of a resolution, the right of the property owner to appear and be heard and notice that failure to file a written request to appear may result in a waiver of the right to appear and be heard.

The above four required findings are addressed as follows:

The Public Interest and Necessity Require the Proposed Project

Property is improved with a historic commercial/office/theater building known as the Historic Granada Theater, Local Landmark No. 23, designated on January 20, 1998. The building contains 22,000 gross

square feet, has three floors and a small basement area and was built between 1926 and 1927. In its current state, the Property is underutilized and dilapidated. The Theatre is an important element to the future of Downtown Ontario. Given its rich history dating back to the 1920s, and the potential to offer community programming that will support the economic development goals of downtown, the City seeks to acquire a full fee interest in the Property to allow for the rehabilitation and activation of the Historic Granada Theater. Essential public programming in the theater will include activities such as practices and performances by our local symphony, use by our Recreation & Community Services Theater troupe, hosting authors and scholars for lecture series, and hosting library summer reading performers.

The Project is Planned or Located in a Manner That Will be Most Compatible With the Greatest Public Good and the Least Private Injury

The proposed Project will support the City Council's goals and objectives and implement land use and development goals as stated in the Policy Plan component of the General Plan. The proposed Project is intended to minimize impacts on performing private assets in Historic Downtown Ontario particularly along Euclid Avenue while allowing for joint development opportunities with investment partners. The Property to be acquired is best suited for the Project and will cause the least private injury. To move this Project elsewhere would require significant land use policy changes, cause a greater impact on local property owners, and would effectively be cost prohibitive.

The Real Property to be Acquired is Necessary for the Proposed Project

The Property affected by the proposed acquisition is located within the City of Ontario, at 301 North Euclid Avenue, Ontario, CA 91764, Assessors Parcel No. 10480-566-07 (owned by Overland Direct Inc.). The acquisition is necessary to allow for the Historic Granada Theater Rehabilitation Project, in Ontario, California.

The Offer of Just Compensation Has Been Made

Appraisals were prepared by Bradford D. Thompson, MAI, AI-GRS, SR/WA, and Scott J. Thompson, MAI, AI-SRS, SR/WA of Thomson & Thompson Real Estate Valuation and Consulting Inc., to establish the Fair Market Value of the fee interest of each Property the City is seeking to acquire. An offer of just compensation was made to the record owners to purchase the fee interest in the Property to be acquired, as established by the approved appraisal and as required by Section 7267.2 of the California Government Code. Although negotiated settlements may still be possible for the fee interests cited above, it would be appropriate to commence the procedures to acquire the necessary interest through eminent domain.

ENVIRONMENTAL ANALYSIS: Pursuant to the State of California Environmental Quality Act Guidelines Section 15183 there has been compliance by the City with the requirements of the California Environmental Quality Act.

RESOLUTION NO. _____

A RESOLUTION OF NECESSITY OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, FOR THE ACQUISITION BY EMINENT DOMAIN OF A FEE SIMPLE INTEREST IN CERTAIN REAL PROPERTY LOCATED AT 301 NORTH EUCLID AVENUE, IN ONTARIO, SAN BERNARDINO COUNTY, CALIFORNIA, MORE PARTICULARLY DESCRIBED AS APN: 1048-566-07, FOR PUBLIC PURPOSE.

WHEREAS, the City of Ontario (the "City") proposes to acquire, by eminent domain, a fee simple interest in certain real property located at 301 North Euclid Avenue, in the City of Ontario more particularly described as Assessor Parcel Number 1048-566-07, for the Granada Theater Revitalization Project in the City of Ontario, San Bernardino County, California, pursuant to the authority granted to it by Section 37350.5 of the California Government Code; and

WHEREAS, pursuant to Section 1245.235 of the California Code of Civil Procedure, the City scheduled a public hearing for Tuesday, May 21, 2024, at 6:30 p.m. at the Ontario City Hall, Council Chambers, 303 East “B” Street, Ontario, California, and gave to each person whose property is to be acquired and whose name and address appeared on the last equalized county assessment roll, notice and a reasonable opportunity to appear at said hearing and be heard on the matters referred to in Section 1240.030 of the California Code of Civil Procedure; and

WHEREAS, said hearing has been held by the City and each person whose property is to be acquired by eminent domain was afforded an opportunity to be heard on said matters; and

WHEREAS, the City may now adopt a Resolution of Necessity pursuant to Section 1240.040 of the California Code of Civil Procedure.

NOW, THEREFORE, THE CITY DOES HEREBY RESOLVE AND DECLARE AS FOLLOWS:

SECTION 1. **Compliance with California Code of Civil Procedure and California Environmental Quality Act.** There has been compliance by the City with the requirements of Section 1245.235 of the California Code of Civil Procedure and is found to be categorically exempt pursuant to State Guidelines Section 15331 of the California Environmental Quality Act.

SECTION 2. **Public Use.** The public use for which the real property interest is being acquired is for the Granada Theater Revitalization Project in the City of Ontario, San Bernardino County, California. Section 37350.5 of the California Government Code authorizes the City to acquire by eminent domain real property necessary for such purposes.

SECTION 3. **Description of Property.** Attached and marked as Exhibit A is

the legal definition, legal description and map of the interest to be acquired by the City, which describes the general location and extent of the property to be acquired with sufficient detail for reasonable identification.

SECTION 4. **Findings.** The City hereby finds and determines each of the following:

(a) The public interest and necessity require the proposed project;

(b) The proposed project is planned or located in the manner that will be most compatible with the greatest public good and least private injury;

(c) The property defined, described and depicted in Exhibit A is necessary for the proposed project;

(d) The offer required by Section 7267.2 of the California Government Code was made.

SECTION 5. **Use Not Unreasonably Interfering with Existing Public Use:** Some or all of the real property to be acquired may be subject to easements and rights-of-way appropriated to existing public uses. The legal descriptions of these easements and rights-of-way are on file with the City and describe the general location and extent of the easements and rights-of-way with sufficient detail for reasonable identification. In the event the herein described use or uses will not unreasonably interfere with or impair the continuance of the public use as it now exists or may reasonably be expected to exist in the future, counsel for the City is authorized to acquire the fee interest subject to such existing public use(s) pursuant to Section 1240.510 of the California Code of Civil Procedure.

SECTION 6. **More Necessary Public Use.** Some or all of the real property to be acquired may be subject to easements and rights-of-way appropriated to existing public uses. To the extent that the herein described use or uses will unreasonably interfere with or impair the continuance of the public use as it now exists or may reasonably be expected to exist in the future, the City finds and determines that the herein described use or uses are more necessary than said existing public use. Counsel for the City is authorized to acquire the real property appropriated to such existing public use(s) pursuant to Section 1240.610 of the California Code of Civil Procedure. Staff is further authorized to make such improvements to the real property being acquired that it determines is reasonably necessary to mitigate any adverse impact upon the existing public use.

SECTION 7. **Further Activities.** Counsel for the City is hereby authorized to file legal proceedings necessary to acquire the hereinabove described real property in the name of and on behalf of the City by eminent domain, and counsel is authorized to institute and prosecute such legal proceedings as may be required in connection therewith. Legal counsel is further authorized to take such steps as may be authorized and required by law, and to make such security deposits as may be required by order of court, to permit the City to take possession of and use said real property at the earliest

possible time. Counsel is further authorized to correct any errors or to make or agree to non-material changes in the legal description of the real property that are deemed necessary for the conduct of the condemnation action or other proceedings or transaction required to acquire the subject real property.

SECTION 8. **Effective Date.** This Resolution shall take effect upon adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

301 NORTH MOUNTAIN AVENUE

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **PUBLIC HEARINGS**
Department: Planning Prepared By: Thomas Grahn Staff Member Presenting: Scott Murphy, Executive Director Community Development Reviewed By: Kimberly Ruddins, Henry Noh, Rudy Zeledon Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 28

SUBJECT: **A PUBLIC HEARING TO CONSIDER AN URGENCY ORDINANCE TO IMPLEMENT MULTIPLE-FAMILY RESIDENTIAL AND MIXED-USE RESIDENTIAL OBJECTIVE DESIGN AND DEVELOPMENT STANDARDS, FILE NO. PDCA24-001**

RECOMMENDATION: That the City Council take the following actions:

A. Consider and waive further reading of an Urgency Ordinance amending the reference document section of the City's Development Code.
B. Consider and adopt a Resolution to implement Objective Development and Design Standards for multiple-family and mixed-use residential development.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Invest in the Growth and Evolution of the City's Economy
Operate in a Businesslike Manner
Focus Resources in Ontario's Commercial and Residential Neighborhoods

FISCAL IMPACT: There is not a direct fiscal impact associated with this action. The City budgeted $310,000 from the Senate Bill (SB) 2 Grant to develop Objective Development and Design Standards (ODDS). These funds will be reimbursed by the HCD over the project timeline, ensuring full cost recovery through the SB 2 Grant.

BACKGROUND & ANALYSIS:

Background: On September 17, 2019, the City Council authorized the City Manager to submit an application for SB 2, the City of Ontario was eligible for an award of $310,000. These funds were utilized to develop Objective Development and Design Standards (ODDS) for various types of residential projects, including multiple-family and mixed-use development. The purpose of the ODDS is to facilitate housing growth by streamlining processes and enhancing current development standards.

In October 2019, the Planning Department staff issued a Request for Proposals (RFP) seeking consultant services and solicited proposals from qualified firms specializing in General Plan updates, including the preparation of ODDS. Following the evaluation of the proposals, Staff recommended to the City Council, on May 19, 2022, that PlaceWorks be selected to update the General Plan and develop the ODDS. The ultimate goal of the project was to incorporate the envisioned design standards into the Ontario Development Code (ODC) as a reference document.

Objective Development and Design Standards: The City's SB 2 Planning Grant application drives the development of Objective Development and Design Standards (ODDS). The primary aim of ODDS is to set standards for streamlined ministerial residential projects. All applicable projects under ODDS must adhere to architectural styles from the standards to establish impartial residential development criteria for streamlined approvals. ODDS will cover various residential types, design and development standards for multiple-family and mixed-use areas currently lacking specific standards.

The Urgency Ordinance will incorporate ODDS for multiple-family and mixed-use development types featuring a compliance checklist and style sheet for diverse architectural styles. The checklist outlines minimum design requirements, while style sheets illustrate traditional and modern interpretations. Comprehensive numerical standards for setbacks, building heights, and more are established for mixed-use and detached multiple-family areas, aligning with Housing Element Programs 9.19 and 9.21.

The Urgency Ordinance would be effective immediately and will remain in effect until September 3, 2024 (unless repealed). During this time, Staff will make refinements to the ODDS and will bring the revised ordinance back to the City Council for adoption.

HCD Review: As part of the Housing Element implementation, the City will provide the State Department of Housing and Community Development (HCD) with a copy of the ordinance and the finalized Standards once adopted. This will fulfill the necessary Housing Element policy actions to establish multiple-family and mixed-use standards.

Environmental: The proposed action is exempt from the California Environmental Quality Act (CEQA) as this project meets the required actions of CEQA Guidelines Section 15183 – Projects Consistent with a Community Plan, General Plan, or Zoning, because it involves direction to staff to adopt and implement design standards, which will not cause significant environmental impact and implements a uniformly applied development policy or standard that is consistent with the General Plan Housing Element policy to further regulate multi-family residential development. This determination is predicated on Section 15004 of the CEQA Guidelines, which provides direction to lead agencies on the appropriate timing for environmental review. The project(s) for which the proposed design standards are utilized or are intended for may require the preparation of an environmental.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, APPROVING FILE NO. PDCA24-001 AMENDING THE REFERENCE DOCUMENT SECTION OF THE ONTARIO DEVELOPMENT CODE, TO AUTHORIZE OBJECTIVE DEVELOPMENT AND DESIGN STANDARDS FOR MULTIPLE-FAMILY AND MIXED-USE DEVELOPMENT, AND FINDING THE ACTION TO BE EXEMPT FROM CEQA

WHEREAS, for the last several years, the State has enacted housing-related statutes that either limit or prohibit the use of local subjective standards for new development; and

WHEREAS, the City has historically regulated new housing development through a mix of subjective and objective standards to ensure that each project is reasonable and compatible with surrounding uses and City goals and objectives; and

WHEREAS, the City's current objective standards on their own are not sufficient to ensure that new housing development is reasonable or compatible; and

WHEREAS, as state law has evolved to increasingly limit the City's use of subjective standards, the need for more and more-thoughtful objective standards has become urgent; and

WHEREAS, specifically the approval of multiple-family residential and mixed-use residential development projects in various zoning districts based solely on the default standards currently in the Ontario Development Code, without additional appropriate objective regulations governing project design, site planning, building massing, height, setback, landscape, building type, architectural review, and similar criteria, threatens to adversely impact the character of existing neighborhoods and to negatively impact property values, personal privacy, and fire safety; and

WHEREAS, the City desires now to amend its local regulatory scheme to provide reasonable and appropriate objective standards, in compliance with state law and the City's own adopted housing element; and

WHEREAS, to protect public safety, health, and welfare, the City Council may adopt this resolution as an urgency measure in accordance with Government Code section 36937(b) and the City of Ontario Municipal Code; and

WHEREAS, as part of the implementation of the City's Housing Element Update the City prepared this Development Code Amendment to implement multiple-family residential and mixed-use residential objective development and design standards consistent with the policy program for these standards; and

WHEREAS, on June 4, 2024, the City Council of the City of Ontario conducted a hearing to consider an Urgency Ordinance amending the reference document section of the City's development code, attached as Appendix A, to authorize objective development and design standards for multiple-family and mixed-use developments, and concluded said hearing on that date; and

WHEREAS, the urgency ordinance will allow the City to respond and impose consistent development standards to address the anticipated increase in housing development project applications. The ODDS adoption by urgency ordinance be followed at the earliest possible time by a non- urgency ordinance that will be considered for adoption by the City Council; and

WHEREAS, the Urgency Ordinance is exempt from CEQA pursuant to the California Environmental Quality Act (Public Resources Code Section 21000, et seq.) ("CEQA"); and

WHEREAS, all legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, IT IS HEREBY FOUND, DETERMINED, AND RESOLVED by the City Council of the City of Ontario, as follows:

SECTION 1: ***Environmental Determination and Findings.*** Adoption of this urgency ordinance has been assessed under CEQA and is deemed exempt based on CEQA Guidelines Section 15183, as it involves the adoption and implementation of Design Standards. This falls under the exemption for Projects Consistent with a Community Plan, General Plan, or Zoning, as it directs staff to adopt standards aligned with the General Plan Housing Element policy for multiple-family residential development. The determination relies on Section 15004, providing guidance on the timing of environmental review. While projects using the Design Standards may need environmental documents, the adoption of Objective Development and Design Standards is exempt from CEQA as it won't significantly impact the environment. Staff recommends City Council acknowledge the exemption, accept the NOE, and instruct staff to file the document under CEQA and the CEQA Guidelines (14 CCR Section 1500, et seq.).

SECTION 2: ***Concluding Facts and Reasons.*** Based upon the substantial evidence presented to the City Council during the above-referenced hearing, and upon the specific findings set forth in Sections 1, above, the City Council hereby concludes as follows:

The proposed Urgency Ordinance is consistent with the goals and policies of The Ontario Plan; and, as a matter of law, consistent with the City's General Plan under the principles, goals and policies contained within the Vision, Governance, Policy Plan (general plan), and City Council Priorities components of The Ontario Plan ("TOP"). More specifically, the goals and policies of TOP that are furthered by the proposed Project are as follows:

(1) City Council Goals.

- Invest in the Growth and Evolution of the City's Economy

- Operate in a Businesslike Manner

(2) Vision.

Distinctive Development:

- Commercial and Residential Development

  - Development quality that is broadly recognized as distinctive and not exclusively tied to the general suburban character typical of much of Southern California.

(3) Policy Plan (General Plan)

Land Use Element:

- Goal LU-1 Balance. A community that has a spectrum of housing types and price ranges that match the jobs in the City and that make it possible for people to live and work in Ontario and maintain a quality of life.

  - LU-1.1 Strategic Growth. We concentrate growth in strategic locations that help create place and identity, maximize available and planned infrastructure, foster the development of transit, and support the expansion of the active and multimodal transportation networks throughout the City.

Housing Element:

- Goal H-2 Housing Supply & Diversity. Diversity of types of quality housing that are affordable to a range of household income levels, accommodate changing demographics, and support and reinforce the economic sustainability of Ontario.

  - H-2.5 Housing Design. We require architectural excellence through adherence to City design guidelines, thoughtful site planning, environmentally sustainable practices, and other best practices.

  - H-2.6 Infill Development. We support the revitalization of neighborhoods through the construction of higher-density residential developments on underutilized residential and commercial sites.

Community Economics Element:

- Goal CE-1 Complete Community: A complete community that provides for all incomes and stages of life.

- CE-1.6 Diversity of Housing. We collaborate with residents, housing providers, and the development community to provide housing opportunities for every stage of life; we plan for a variety of housing types and price points to encourage the development of housing supportive of our efforts to attract business in growing sectors of the community while being respectful of existing viable uses.

- Goal CE-2 Placemaking: A City of distinctive neighborhoods, districts, corridors, and centers where people choose to be.

  - CE-2.1 Development Projects. We require new development and redevelopment to create unique, high-quality places that add value to the community.

  - CE-2.4 Protection of Investment. We require that new development and redevelopment protect existing investment by providing architecture and urban design of equal or greater quality.

Community Design Element:

- Goal CD-1 Image & Identity: A dynamic, progressive city containing distinct and complete places that foster a positive sense of identity and belonging among residents, visitors, and businesses.

  - CD-1.1 City Identity. We take actions that are consistent with the City being a leading urban center in Southern California while recognizing, enhancing, and preserving the character of our existing viable neighborhoods.

  - CD-1.2 Place Types. We establish Place Types in urban, mixed use, and transit-oriented areas to foster the City's identity as a premier community and require new development within each Place Type to incorporate prescribed urban patterns, forms, and placemaking priorities.

- Goal CD-2 Design Quality. A high level of design quality resulting in neighborhoods, public spaces, parks, and streetscapes that are attractive, safe, functional, human-scale, and distinct.

  - CD-2.1 Quality Building Design and Architecture. We encourage all development projects to convey visual interest and character through:

    - Building volume, massing, and height to provide context-appropriate scale and proportion;

- A true architectural style which is carried out in plan, section, and elevation through all aspects of the building and site design and appropriate for its setting; and
- Exterior building materials that are articulated, high quality, durable, and appropriate for the architectural style.

➢ CD-2.8 Safe Design. We incorporate defensible space design into new and existing developments to ensure the maximum safe travel and visibility on pathways, corridors, and open space and at building entrances and parking areas by avoiding physically and visually isolated spaces, maintaining visibility and accessibility, and using lighting.

➢ CD-2.9 Landscape Design. We encourage durable, sustainable, and drought-tolerant landscaping materials and designs that enhance the aesthetics of structures, create and define public and private spaces, and provide shade and environmental benefits.

➢ CD-2.10 Parking Areas. We require all development, including single-family residential, to minimize the visual impact of surface, structured, and garage parking areas visible from the public realm in an aesthetically pleasing, safe and environmentally sensitive manner. Examples include:

- Structured parking: facade articulation, screening, appropriate lighting, and landscaping; and
- Garage parking: providing access to single-family residential garages through alley access, recessing garages from the frontage to emphasize front doors or active living spaces.

▪ Goal CD-3 Urban, Mixed Use, and Transit-Oriented Place Types: Vibrant urban environments that are organized around intense buildings, pedestrian and transit areas, public plazas, and linkages between and within developments that are conveniently located, visually appealing and safe during all hours.

➢ CD-3.4 Context-Aware and Appropriate Design. We require appropriate building and site design that complements existing development, respects the intent and identity of the Place Type, and provides appropriate transitions and connections between adjacent uses to ensure compatibility of scale, maintain an appropriate level of privacy for each use, and minimize potential conflicts.

- CD-3.5 Active Frontages. We create lively pedestrian streetscapes by requiring primary building, business, and residential entrances, outdoor dining, and storefronts be located on ground floors adjacent to sidewalks or public spaces and designed to maximize safety, comfort, aesthetics, and the intended functionality (as defined by the Place Type).

SECTION 3: ***Code Amendment.*** The REFERENCE section of the Ontario Development Code is hereby amended to read in its entirety as follows:

Reference J – Objective Development & Design Standards.

This section incorporates by reference the Objective Development and Design Standards, or "ODDS," that are adopted and amended by the City Council by resolution. The ODDS are binding requirements and standards.

SECTION 4: ***Effective Date.*** This resolution takes effect immediately upon its adoption.

SECTION 5: ***Severability.*** If any provision of this resolution or its application to any person or circumstance is held to be invalid, such invalidity has no effect on the other provisions or applications of the resolution that can be given effect without the invalid provision or application, and to this extent, the provisions of this resolution are severable. The City Council declares that it would have adopted this resolution irrespective of the invalidity of any portion thereof.

SECTION 6: ***City Council Action.*** Based upon the findings and conclusions set forth in Sections 1 through 5, above, the City Council hereby APPROVES the proposed Resolution, as depicted in Attachment A (Reference J - Objective Development & Design Standards) of this Resolution.

SECTION 6: ***Custodian of Records.*** The documents and materials that constitute the record of proceedings on which these findings have been based are located at the City of Ontario City Hall, 303 East "B" Street, Ontario, California 91764. The custodian for these records is the City Clerk of the City of Ontario.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

WHEREAS, as part of the implementation of the City's Housing Element Update the City prepared this Development Code Amendment to implement multiple-family residential and mixed-use residential objective development and design standards consistent with the policy program for these standards; and

WHEREAS, the urgency ordinance will allow the City to respond and impose consistent development standards to address the anticipated increase in housing development project applications. The ODDS adoption by urgency ordinance be followed at the earliest possible time by a non- urgency ordinance that will be considered for approval by the Planning Commission before returning to the City Council for ultimate adoption; and

WHEREAS, on June 4, 2024, the City Council of the City of Ontario conducted a hearing to consider the Project, and concluded said hearing on that date; and

WHEREAS, all legal prerequisites to the adoption of this Ordinance have occurred; and

NOW, THEREFORE, IT IS HEREBY FOUND, DETERMINED, AND ORDAINED by the City Council of the City of Ontario, as follows:

SECTION 1: ***Incorporation of Recitals.*** The recitals above are each incorporated by reference and adopted as findings by the City Council.

SECTION 2: ***Environmental Determination and Findings.*** Adoption of this urgency ordinance has been assessed under CEQA and is deemed exempt based on CEQA Guidelines Section 15183, as it involves the adoption and implementation of Design Standards. This falls under the exemption for Projects Consistent with a Community Plan, General Plan, or Zoning, as it directs staff to adopt standards aligned with the General Plan Housing Element policy for multiple-family residential development. The determination relies on Section 15004, providing guidance on the timing of environmental review. While projects using the Design Standards may need environmental documents, the adoption of Objective Development and Design Standards is exempt from CEQA as it won't significantly impact the environment. Staff recommends City Council acknowledge the exemption, accept the NOE, and instruct staff to file the document under CEQA and the CEQA Guidelines (14 CCR Section 1500 et seq.).

SECTION 3: ***General Plan Consistency.*** This ordinance is, as a matter of law, consistent with the City's General Plan under the principles, goals and policies contained within the Vision, Governance, Policy Plan (general plan), and City Council Priorities components of The Ontario Plan ("TOP"). More specifically, the goals and policies of TOP that are furthered by the proposed Project are as follows:

(1) City Council Goals.

- Invest in the Growth and Evolution of the City's Economy
- Operate in a Businesslike Manner

(2) Vision.

Distinctive Development:

- Commercial and Residential Development

- Development quality that is broadly recognized as distinctive and not exclusively tied to the general suburban character typical of much of Southern California.

(3) Policy Plan (General Plan)

Land Use Element:

- Goal LU-1 Balance. A community that has a spectrum of housing types and price ranges that match the jobs in the City and that make it possible for people to live and work in Ontario and maintain a quality of life.

  - LU-1.1 Strategic Growth. We concentrate growth in strategic locations that help create place and identity, maximize available and planned infrastructure, foster the development of transit, and support the expansion of the active and multimodal transportation networks throughout the City.

Housing Element:

- Goal H-2 Housing Supply & Diversity. Diversity of types of quality housing that are affordable to a range of household income levels, accommodate changing demographics, and support and reinforce the economic sustainability of Ontario.

  - H-2.5 Housing Design. We require architectural excellence through adherence to City design guidelines, thoughtful site planning, environmentally sustainable practices, and other best practices.

  - H-2.6 Infill Development. We support the revitalization of neighborhoods through the construction of higher-density residential developments on underutilized residential and commercial sites.

Community Economics Element:

- Goal CE-1 Complete Community: A complete community that provides for all incomes and stages of life.

  - CE-1.6 Diversity of Housing. We collaborate with residents, housing providers, and the development community to provide housing opportunities for every stage of life; we plan for a variety of housing types and price points to encourage the development of housing supportive of our efforts to attract

business in growing sectors of the community while being respectful of existing viable uses.

- Goal CE-2 Placemaking: A City of distinctive neighborhoods, districts, corridors, and centers where people choose to be.

  - CE-2.1 Development Projects. We require new development and redevelopment to create unique, high-quality places that add value to the community.

  - CE-2.4 Protection of Investment. We require that new development and redevelopment protect existing investment by providing architecture and urban design of equal or greater quality.

Community Design Element:

- Goal CD-1 Image & Identity: A dynamic, progressive city containing distinct and complete places that foster a positive sense of identity and belonging among residents, visitors, and businesses.

  - CD-1.1 City Identity. We take actions that are consistent with the City being a leading urban center in Southern California while recognizing, enhancing, and preserving the character of our existing viable neighborhoods.

  - CD-1.2 Place Types. We establish Place Types in urban, mixed use, and transit-oriented areas to foster the City's identity as a premier community and require new development within each Place Type to incorporate prescribed urban patterns, forms, and placemaking priorities.

- Goal CD-2 Design Quality. A high level of design quality resulting in neighborhoods, public spaces, parks, and streetscapes that are attractive, safe, functional, human-scale, and distinct.

  - CD-2.1 Quality Building Design and Architecture. We encourage all development projects to convey visual interest and character through:

    - Building volume, massing, and height to provide context-appropriate scale and proportion;
    - A true architectural style which is carried out in plan, section, and elevation through all aspects of the building and site design and appropriate for its setting; and

- Exterior building materials that are articulated, high quality, durable, and appropriate for the architectural style.

➢ CD-2.8 Safe Design. We incorporate defensible space design into new and existing developments to ensure the maximum safe travel and visibility on pathways, corridors, and open space and at building entrances and parking areas by avoiding physically and visually isolated spaces, maintaining visibility and accessibility, and using lighting.

➢ CD-2.9 Landscape Design. We encourage durable, sustainable, and drought-tolerant landscaping materials and designs that enhance the aesthetics of structures, create and define public and private spaces, and provide shade and environmental benefits.

➢ CD-2.10 Parking Areas. We require all development, including single-family residential, to minimize the visual impact of surface, structured, and garage parking areas visible from the public realm in an aesthetically pleasing, safe and environmentally sensitive manner. Examples include:

- Structured parking: facade articulation, screening, appropriate lighting, and landscaping; and
- Garage parking: providing access to single-family residential garages through alley access, recessing garages from the frontage to emphasize front doors or active living spaces.

▪ Goal CD-3 Urban, Mixed Use, and Transit-Oriented Place Types: Vibrant urban environments that are organized around intense buildings, pedestrian and transit areas, public plazas, and linkages between and within developments that are conveniently located, visually appealing and safe during all hours.

➢ CD-3.4 Context-Aware and Appropriate Design. We require appropriate building and site design that complements existing development, respects the intent and identity of the Place Type, and provides appropriate transitions and connections between adjacent uses to ensure compatibility of scale, maintain an appropriate level of privacy for each use, and minimize potential conflicts.

➢ CD-3.5 Active Frontages. We create lively pedestrian streetscapes by requiring primary building, business, and residential entrances, outdoor dining, and storefronts be located on ground floors adjacent to sidewalks or public

spaces and designed to maximize safety, comfort, aesthetics, and the intended functionality (as defined by the Place Type).

SECTION 4: ***Code Amendment.*** The REFERENCE Section of the Ontario Development Code is hereby amended to read in its entirety as follows:

Reference J – Objective Development & Design Standards.

This section incorporates by reference the Objective Development and Design Standards, or "ODDS," that are adopted and amended by the City Council by resolution. The ODDS are binding requirements and standards.

SECTION 5: ***Effective Date.*** This ordinance takes effect immediately upon its adoption.

SECTION 6: ***Submittal to HCD.*** The City Clerk shall submit a copy of this ordinance along with the ODDS and the resolution adopting the ODDS to the Department of Housing and Community Development within 60 days after adoption.

SECTION 7: ***Severability.*** If any provision of this ordinance or its application to any person or circumstance is held to be invalid, such invalidity has no effect on the other provisions or applications of the ordinance that can be given effect without the invalid provision or application, and to this extent, the provisions of this ordinance are severable. The City Council declares that it would have adopted this ordinance irrespective of the invalidity of any portion thereof.

SECTION 8: ***Publication and Posting.*** The Mayor shall sign this Ordinance and the City Clerk shall certify as to the adoption and shall cause a summary thereof to be published at least once, in a newspaper of general circulation in the City of Ontario, California within 15 days following the adoption. The City Clerk shall post a certified copy of this ordinance, including the vote for and against the same, in the Office of the City Clerk, in accordance with Government Code Section 36933.

PASSED, APPROVED, AND ADOPTED this 4th day of June 2024.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **ADMINISTRATIVE REPORTS/DISCUSSION/ACTION**
Department: Financial Services Prepared By: Jennifer Schaefer Staff Member Presenting: Armen Harkalyan, Executive Director of Finance Reviewed By: Claudia Hernandez, Doreen Nunes Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 29

SUBJECT: **A RESOLUTION AUTHORIZING THE ISSUANCE OF CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES) SPECIAL TAX BONDS, SERIES 2024 AND RELATED MATTERS**

RECOMMENDATION: That the City Council take the following actions:

A. Consider and adopt a Resolution authorizing the issuance of City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Bonds"), in an aggregate principal amount not-to-exceed $12.5 million, authorizing the execution and delivery of an Indenture, a Bond Purchase Agreement, a Continuing Disclosure Agreement and an Amended and Restated Acquisition and Funding Agreement, authorizing the distribution of an Official Statement and related actions;
B. Consider and adopt a Resolution of the City of Ontario making a declaration of official intent to reimburse facilities expenditures with bond proceeds and related actions;
C. Authorize the issuance of special tax bonds for public improvements required to facilitate the development of the Countryside Phase 2 South - Facilities project and the Ontario Ranch development;
D. Approve the forms of the Indenture, the Bond Purchase Agreement, the Continuing Disclosure Agreement, an Amended and Restated Acquisition and Funding Agreement, and the Preliminary Official Statement;
E. Authorize a negotiated sale of the special tax bonds to Samuel A. Ramirez & Co., in accordance with the terms of the Bond Purchase Agreement; and
F. Authorize the execution of the Indenture, the Bond Purchase Agreement, the Continuing Disclosure Agreement, a deemed final certification in connection with the Preliminary Official Statement, a final Official Statement and other documents in connection with the issuance of the bonds by the City Manager or the other specified authorized officers.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Focus Resources in Ontario's Commercial and Residential Neighborhoods
Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public

Facilities)

Ensure the Development of a Well Planned, Balanced, and Self-Sustaining Community in Ontario Ranch

FISCAL IMPACT: The use of Mello-Roos financing for public facilities in the residential development of the Countryside Phase 2 South - Facilities project in the Ontario Ranch development, is estimated to generate approximately $12.5 million in bond proceeds based on current market interest rates. These funds will be used to help fund a portion of the public infrastructure improvements that will serve the project area. The Resolution authorizing the issuance of City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024, and related matters, limits the principal amount of the bonds to $12.5 million. The City currently expects the bonds to be sold no later than December 2024; however, such schedule could change based on market volatility and market conditions. Since Mello-Roos bonds are not a direct obligation of the City and are paid from special taxes levied on each taxable parcels in the applicable community facilities district, there is no direct impact to the General Fund from the issuance of Mello-Roos bonds. Annual approval by the City Council will be required to process the special tax levies necessary to fund the ongoing debt service obligations of the Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities).

BACKGROUND & ANALYSIS: The Mello-Roos Community Facilities Act of 1982 provides local government, with the requisite consent and approval from the property owners, the authority to establish community facilities districts for levying special taxes to fund governmental services and finance various kinds of public infrastructure facilities. Under the Mello-Roos Act, the initial steps in the formation of a community facilities district to finance public improvements are adopting a Resolution declaring the City's intention to establish a community facilities district and levy special taxes, a Resolution to issue bonds, and a Resolution of the City of Ontario making a declaration of official intent to reimburse facilities expenditures with bond proceeds and related matters. On September 5, 2017, the City Council, in accordance with the Mello-Roos Act, took the initial steps in the formation of the District with the adoption of Resolution No. 2017-108, declaring the City's intention to establish the District and to authorize the levy of special taxes, and Resolution No. 2017-109 deeming it necessary for the District to incur bonded indebtedness. On October 17, 2017, the City Council adopted Resolution No. 2017-123 forming the District. Based on a successful property owner election held on October 17, 2017, the City Council adopted Ordinance No. 3082 on November 7, 2017, authorizing the levy of special taxes within the District to finance public improvements related to the Countryside Phase 2 South - Facilities project. On June 7, 2022, the City Council initiated change proceedings to amend the Original Rate and Method and increase the maximum bonded indebtedness. On August 2, 2022, the City Council adopted Ordinance No. 3221 amending and restating Ordinance No. 3082 authorizing the levy of special taxes in accordance with the Rate and Method.

The public improvements to be financed by the District are as follows:

- Water and Recycled Water System Facilities;
- Fiber Optic System Facilities;
- Streets and Traffic Circulation System Facilities; and
- Storm Drain Facilities.

The Countryside Phase 2 South - Facilities project addresses the residential development of approximately 34.00 gross acres located west of Archibald Avenue, east of the Cucamonga Creek Channel, south of Chino Avenue and generally north of Schaefer Avenue. At build out, the project is projected to include 235 single-family residential units.

The proposed Resolutions references several bond documents and other matters related to the proposed issuance of bonds by City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities). The documents are listed below and are on file with the Records Management Department:

- Indenture;
- Bond Purchase Agreement;
- Continuing Disclosure Agreement;
- Amended and Restated Acquisition and Funding Agreement; and
- Preliminary Official Statement.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, AUTHORIZING THE ISSUANCE OF CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES) SPECIAL TAX BONDS, SERIES 2024, IN AN AGGREGATE PRINCIPAL AMOUNT OF NOT TO EXCEED $12,500,000, AUTHORIZING THE EXECUTION AND DELIVERY OF AN INDENTURE, A BOND PURCHASE AGREEMENT, A CONTINUING DISCLOSURE AGREEMENT AND AN AMENDED AND RESTATED ACQUISITION AND FUNDING AGREEMENT, AUTHORIZING THE DISTRIBUTION OF AN OFFICIAL STATEMENT IN CONNECTION THEREWITH AND AUTHORIZING THE EXECUTION OF NECESSARY DOCUMENTS AND CERTIFICATES AND RELATED ACTIONS

WHEREAS, the City Council (the "City Council") of the City of Ontario (the "City") has formed City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "Community Facilities District") under the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act");

WHEREAS, the Community Facilities District is authorized under the Act to levy a special tax (the "Special Tax") to pay for the costs of certain public facilities (the "Facilities") and to issue bonds payable from the Special Tax;

WHEREAS, in order to provide funds to finance certain of the Facilities, the Community Facilities District proposes to issue its City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Series 2024 Bonds"), in the aggregate principal amount of not to exceed $12,500,000;

WHEREAS, in order to provide for the authentication and delivery of the Series 2024 Bonds, to establish and declare the terms and conditions upon which the Series 2024 Bonds are to be issued and secured and to secure the payment of the principal thereof, premium, if any, and interest thereon, the Community Facilities District proposes to enter into an Indenture with Zions Bancorporation, National Association, as trustee (the "Trustee") (such Indenture, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Indenture");

WHEREAS, Samuel A. Ramirez & Co., Inc. (the "Underwriter"), has presented the Community Facilities District with a proposal, in the form of a Bond Purchase Agreement, to purchase the Series 2024 Bonds from the Community Facilities District (such Bond Purchase Agreement, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Purchase Agreement");

WHEREAS, Rule 15c2-12 promulgated under the Securities Exchange Act of 1934 ("Rule 15c2-12") requires that, in order to be able to purchase or sell the Series 2024 Bonds, the underwriter thereof must have reasonably determined that the Community Facilities District, as the issuer of the Series 2024 Bonds, has undertaken in a written agreement or contract for the benefit of the holders of the Series 2024 Bonds to provide disclosure of certain financial information and certain listed events on an ongoing basis;

WHEREAS, in order to cause such requirement to be satisfied, the Community Facilities District desires to enter into a Continuing Disclosure Agreement with the Trustee (such Continuing Disclosure Agreement, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Continuing Disclosure Agreement");

WHEREAS, a form of the Preliminary Official Statement to be distributed in connection with the public offering of the Series 2024 Bonds has been prepared (such Preliminary Official Statement, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Preliminary Official Statement");

WHEREAS, the City and Forestar Countryside, L.L.C. ("Forestar") previously entered into the Acquisition and Funding Agreement, dated as of October 1, 2017 (the "Original Acquisition Agreement"), pursuant to which, in accordance with the terms set forth therein, Forestar is to construct or cause to be constructed certain of the Facilities that, upon satisfaction of the conditions specified therein, the City is to acquire and take title to, and Forestar is to be paid the purchase price of, determined as set forth therein, which purchase price is to be paid from the proceeds of the special tax or bonds of the Community Facilities District;

WHEREAS, Forestar and Lennar Homes of California, LLC (the "Developer") previously entered into the Assignment and Assumption Agreement, dated as of February 7, 2022, pursuant to which, in accordance with the terms set forth therein, the Developer accepted the assignment of the Original Acquisition Agreement from Forestar and unconditionally assumed all of the obligations, liabilities and responsibilities and agreed to perform all of the obligations of Forestar under the Original Acquisition Agreement;

WHEREAS, the Original Acquisition Agreement provides that the Original Acquisition Agreement may be amended by an instrument in writing executed and delivered by the City and the Developer;

WHEREAS, the City and the Developer desire to amend certain provisions of, and restate, the Original Acquisition Agreement;

WHEREAS, there has been presented to this meeting a form of an Amended and Restated Acquisition and Funding Agreement that so amends and restates the Original Acquisition Agreement (such Amended and Restated Acquisition and Funding

Agreement, in the form presented to this meeting, with such changes, insertions and omissions as are made pursuant to this Resolution, being referred to herein as the "Amended and Restated Acquisition Agreement");

WHEREAS, there have been prepared and submitted to this meeting forms of:

(a) the Indenture;

(b) the Purchase Agreement;

(c) the Continuing Disclosure Agreement;

(d) the Preliminary Official Statement; and

(e) the Amended and Restated Acquisition Agreement;

WHEREAS, Kitty Siino & Associates, Inc. has prepared and provided to the Community Facilities District an appraisal report, dated May 6, 2024 (the "Appraisal"), providing an opinion of value of the property in the Community Facilities District, which has been submitted to this meeting;

WHEREAS, Section 5852.1 of the California Government Code requires that the City Council obtain from an underwriter, financial advisor or private lender and disclose, in a meeting open to the public, prior to authorization of the issuance of the Series 2024 Bonds, good faith estimates of (a) the true interest cost of the Series 2024 Bonds, (b) the sum of all fees and charges paid to third parties with respect to the Series 2024 Bonds, (c) the amount of proceeds of the Series 2024 Bonds expected to be received net of the fees and charges paid to third parties and any reserves or capitalized interest paid or funded with proceeds of the Series 2024 Bonds, and (d) the sum total of all debt service payments on the Series 2024 Bonds calculated to the final maturity of the Series 2024 Bonds plus the fees and charges paid to third parties not paid with the proceeds of the Series 2024 Bonds;

WHEREAS, in compliance with Section 5852.1 of the California Government Code, the City Council has obtained from Urban Futures, Inc., as the Community Facilities District's municipal advisor (the "Municipal Advisor"), the required good faith estimates, which the Municipal Advisor has prepared in consultation with the Underwriter, and such estimates are disclosed and set forth in Exhibit A attached hereto;

WHEREAS, the Community Facilities District desires to proceed to issue and sell the Series 2024 Bonds and to authorize the execution of such documents and the performance of such acts as may be necessary or desirable to effect the offering, sale and issuance of the Series 2024 Bonds; and

WHEREAS, the City Council is the legislative body of the Community Facilities District;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. Subject to the provisions of Section 3 hereof, the issuance of the Series 2024 Bonds, in an aggregate principal amount of not to exceed $12,500,000, on the terms and conditions set forth in, and subject to the limitations specified in, the Indenture, be and the same is hereby authorized and approved. The Series 2024 Bonds shall be dated, shall bear interest at the rates, shall mature on the dates, shall be subject to call and redemption, shall be issued in the form and shall be as otherwise provided in the Indenture, as the same shall be completed as provided in this Resolution.

Section 3. The Indenture, in substantially the form submitted to this meeting and made a part hereof as though set forth herein, be and the same is hereby approved. Each of the Mayor of the City, and such other member of the City Council as the Mayor may designate, the City Manager of the City, the Assistant City Manager of the City, the Executive Director of Finance of the City, the Deputy City Treasurer of the City, and such other officer or employee of the City as the City Manager may designate (the "Authorized Officers") is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the Community Facilities District, to execute and deliver the Indenture in the form submitted to this meeting, with such changes, insertions and omissions as the Authorized Officer executing the same may require or approve, such requirement or approval to be conclusively evidenced by the execution of the Indenture by such Authorized Officer; provided, however, that such changes, insertions and omissions shall not authorize an aggregate principal amount of Series 2024 Bonds in excess of $12,500,000, shall not result in a final maturity date of the Series 2024 Bonds later than September 1, 2055, and shall not result in a true interest cost for the Series 2024 Bonds in excess of 6.00%.

Section 4. The Purchase Agreement, in substantially the form submitted to this meeting and made a part hereof as though set forth in full herein, be and the same is hereby approved. Each of the Authorized Officers is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the Community Facilities District, to execute and deliver the Purchase Agreement in the form presented to this meeting, with such changes, insertions and omissions as the Authorized Officer executing the same may require or approve, such requirement or approval to be conclusively evidenced by the execution of the Purchase Agreement by such Authorized Officer; provided, however, that such changes, insertions and omissions shall not result in an aggregate underwriter's discount (not including any original issue discount) from the principal amount of the Series 2024 Bonds in excess of 1.50% of the aggregate principal amount of the Series 2024 Bonds. The City Council hereby finds and determines that the sale of the Series 2024 Bonds at negotiated sale as contemplated by the Purchase Agreement will result in a lower overall cost.

Section 5. The Continuing Disclosure Agreement, in substantially the form submitted to this meeting and made a part hereof as though set forth in full herein, be and the same is hereby approved. Each of the Authorized Officers is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the Community Facilities District, to execute and deliver the Continuing Disclosure Agreement in the form presented to this meeting, with such changes, insertions and omissions as the Authorized Officer executing the same may require or approve, such requirement or approval to be conclusively evidenced by the execution of the Continuing Disclosure Agreement by such Authorized Officer.

Section 6. The Preliminary Official Statement, in substantially the form presented to this meeting and made a part hereof as though set forth in full herein, with such changes, insertions and omissions therein as may be approved by an Authorized Officer, be and the same is hereby approved, and the use of the Preliminary Official Statement in connection with the offering and sale of the Series 2024 Bonds is hereby authorized and approved. Each of the Authorized Officers is hereby authorized, and any one of the Authorized Officers is hereby directed, to certify on behalf of the Community Facilities District that the Preliminary Official Statement is deemed final as of its date, within the meaning of Rule 15c2-12 (except for the omission of certain final pricing, rating and related information as permitted by Rule 15c2-12).

Section 7. The preparation and delivery of a final Official Statement (the "Official Statement"), and its use in connection with the offering and sale of the Series 2024 Bonds, be and the same is hereby authorized and approved. The Official Statement shall be in substantially the form of the Preliminary Official Statement, with such changes, insertions and omissions as may be approved by an Authorized Officer, such approval to be conclusively evidenced by the execution and delivery thereof. Each of the Authorized Officers is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the Community Facilities District, to execute the final Official Statement and any amendment or supplement thereto.

Section 8. The Amended and Restated Acquisition Agreement, in substantially the form submitted to this meeting and made a part hereof as though set forth in full herein, be and the same is hereby approved. Each of the Authorized Officers is hereby authorized, and any one of the Authorized Officers is hereby directed, for and in the name of the City, to execute and deliver the Amended and Restated Acquisition Agreement in the form presented to this meeting, with such changes, insertions and omissions as the Authorized Officer executing the same may require or approve, such requirement or approval to be conclusively evidenced by the execution of the Amended and Restated Acquisition Agreement by such Authorized Officer.

Section 9. Based upon the value of the property within the Community Facilities District reported in the Appraisal and the value-to-lien information for such property set forth in the Preliminary Official Statement, the City Council, for purposes of Section 53345.8 of the Act, hereby finds and determines that the value of the real property that would be subject to the Special Tax to pay debt service on the Series 2024 Bonds will be at least three times the principal amount of the Series 2024 Bonds

to be sold and the principal amount of all other bonds outstanding that are secured by a special tax levied pursuant to the Act on property within the Community Facilities District or a special assessment levied on property within the Community Facilities District.

Section 10. If and to the extent that any feature or aspect of the Series 2024 Bond structure, the rate and method of apportionment of the Special Tax, the method of financing the Facilities, the appraisal, the absorption study or other components of the Series 2024 Bond issue approved and authorized hereby is inconsistent or in conflict with any requirement, standard, measure or procedure set forth in the City's Mello-Roos Community Facilities Act of 1982 Local Goals and Policies, such requirement, standard, measure or procedure is, to the extent necessary to eliminate such inconsistency or conflict, hereby waived, and the City Council hereby finds and determines that benefit inures to the ultimate property owners, the Community Facilities District and/or the City as a result of such waiver.

Section 11. The City Council hereby approves the execution and delivery of all agreements, documents, certificates and instruments referred to herein with electronic signatures as may be permitted under the California Uniform Electronic Transactions Act and digital signatures as may be permitted under Section 16.5 of the California Government Code using DocuSign.

Section 12. All actions heretofore taken by the officers, employees and agents of the City with respect to the issuance and sale of the Series 2024 Bonds, or in connection with or related to any of the agreements, documents, certificates or instruments referred to herein, are hereby approved, confirmed and ratified.

Section 13. The Authorized Officers and the officers, employees and agents of the City are, and each of them is, hereby authorized and directed, for and in the name of the Community Facilities District to take all actions and do any and all things and to execute and deliver any and all agreements, documents, certificates or instruments that they, or any of them, may deem necessary or advisable in order to consummate the transactions contemplated by this Resolution and otherwise to carry out, give effect to and comply with the terms and intent of this Resolution not inconsistent with the provisions hereof.

Section 14. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

EXHIBIT A

GOOD FAITH ESTIMATES

The good faith estimates set forth herein are provided with respect to the Series 2024 Bonds in accordance with Section 5852.1 of the California Government Code. Such good faith estimates have been provided to the Community Facilities District by the Municipal Advisor, which the Municipal Advisor has prepared in consultation with the Underwriter.

Principal Amount. The Municipal Advisor has informed the Community Facilities District that, based on the Community Facilities District's financing plan and current market conditions, its good faith estimate of the aggregate principal amount of the Series 2024 Bonds to be issued and sold is $11,040,000 (the "Estimated Principal Amount"), which does not include approximately $82,906 of net premium estimated to be generated based on current market conditions. Net premium is generated when, on a net aggregate basis for a single issuance of bonds, the price paid for such bonds is higher than the face value of such bonds. Such Estimated Principal Amount and such estimated net premium amount would produce approximately $1,122,906 of gross proceeds.

True Interest Cost of the Series 2024 Bonds. The Municipal Advisor has informed the Community Facilities District that, assuming that the Estimated Principal Amount of the Series 2024 Bonds is issued and sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the true interest cost of the Series 2024 Bonds, which means the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the purchase price received for the Series 2024 Bonds, is 5.22%.

Finance Charge of the Series 2024 Bonds. The Municipal Advisor has informed the Community Facilities District that, assuming that the Estimated Principal Amount of the Series 2024 Bonds is issued and sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the finance charge for the Series 2024 Bonds, which means the sum of all fees and charges paid to third parties (or costs associated with the Series 2024 Bonds), is $440,600.

Amount of Proceeds to be Received. The Municipal Advisor has informed the Community Facilities District that, assuming that the Estimated Principal Amount of the Series 2024 Bonds is issued and sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the amount of proceeds expected to be received by the Community Facilities District for sale of the Series 2024 Bonds, less the finance charge of the Series 2024 Bonds, as estimated above, and any reserves or capitalized interest paid or funded with proceeds of the Series 2024 Bonds, is $9,944,269.

Total Payment Amount. The Municipal Advisor has informed the Community Facilities District that, assuming that the Estimated Principal Amount of the Series 2024 Bonds is issued and sold, and based on market interest rates prevailing at the time of preparation of such estimate, its good faith estimate of the total payment amount, which means the sum total of all payments the Community Facilities District will make to pay debt service on the Series 2024 Bonds, plus the finance charge for the Series 2024 Bonds, as described above, not paid with the proceeds of the Series 2024 Bonds, calculated to the final maturity of the Series 2024 Bonds, is $22,069,473, which excludes any reserves (or interest accrued thereon) or capitalized interest funded or paid with proceeds of the Series 2024 Bonds (which may offset such total payment amount).

The foregoing estimates constitute good faith estimates only and are based on market conditions prevailing at the time of preparation of such estimates. The actual principal amount of the Series 2024 Bonds issued and sold, the true interest cost thereof, the finance charges thereof, the amount of proceeds received therefrom and total payment amount with respect thereto may differ from such good faith estimates due to (a) the actual date of the sale of the Series 2024 Bonds being different than the date assumed for purposes of such estimates, (b) the actual principal amount of Series 2024 Bonds issued and sold being different from the Estimated Principal Amount, (c) the actual amortization of the Series 2024 Bonds being different than the amortization assumed for purposes of such estimates, (d) the actual market interest rates at the time of sale of the Series 2024 Bonds being different than those estimated for purposes of such estimates, (e) other market conditions, or (f) alterations in the Community Facilities District's financing plan, or a combination of such factors. The actual date of sale of the Series 2024 Bonds and the actual principal amount of Series 2024 Bonds issued and sold will be determined by the Community Facilities District based on the timing of the need for proceeds of the Series 2024 Bonds and other factors. The actual interest rates borne by the Series 2024 Bonds will depend on market interest rates at the time of sale thereof. The actual amortization of the Series 2024 Bonds will also depend, in part, on market interest rates at the time of sale thereof. Market interest rates are affected by economic and other factors beyond the control of the Community Facilities District.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, MAKING A DECLARATION OF OFFICIAL INTENT TO REIMBURSE FACILITIES EXPENDITURES WITH BOND PROCEEDS AND RELATED ACTIONS

WHEREAS, the City Council (the "City Council") of the City of Ontario (the "City") has formed City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "Community Facilities District") under the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act");

WHEREAS, the Community Facilities District is authorized under the Act to levy a special tax (the "Special Tax") to pay for the costs of certain public facilities (the "Facilities") and to issue bonds payable from the Special Tax;

WHEREAS, in order to provide funds to finance certain of the Facilities, the Community Facilities District proposes to issue its City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Series 2024 Bonds");

WHEREAS, beginning the 60-day period prior to the date hereof, the City has paid or incurred, or expects to pay or incur, costs with respect to the Facilities prior to the issuance of the Series 2024 Bonds in order to finance the Facilities;

WHEREAS, the City also may pay or incur certain 'preliminary expenditures' in connection with the Facilities, which term includes architectural, engineering, surveying, soil testing, reimbursement bond issuance, and similar costs that are incurred prior to commencement of acquisition, construction, or rehabilitation of a project, other than land acquisition, site preparation, and similar costs incident to commencement of construction;

WHEREAS, in order to reimburse itself for the payment, or pay unpaid costs, of the Facilities, the City anticipates it will issue Series 2024 Bonds in an amount not expected to exceed $12,500,000 for the purpose of financing costs of the Facilities;

WHEREAS, proceeds of the Series 2024 Bonds will be allocated to reimbursement expenditures no later than 18 months after the later of (i) the date the cost is paid, or (ii) the date the Facilities (or each component thereof) is placed in service or abandoned (but in no event more than three years after the cost is paid);

WHEREAS, Section 1.150-2 of the Treasury Regulations requires the City to declare its reasonable official intent to reimburse prior expenditures for the Facilities with proceeds of indebtedness; and

WHEREAS, the City wishes to declare its official intent to use proceeds of indebtedness (such as the Series 2024 Bonds) to reimburse expenditures of the Facilities paid before its obligations are issued and to finance the Facilities costs on a long-term

basis with the proceeds of such indebtedness.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Ontario as follows:

Section 1. The foregoing recitals are true and correct, and the City Council so finds and determines.

Section 2. This Resolution is adopted by the City Council solely for purposes of establishing compliance with the requirements of Section 1.150-2 of the Treasury Regulations. Unless otherwise defined, terms used herein shall have the meaning set forth in the Internal Revenue Code of 1986 and in Section 1.150-2 of the Treasury Regulations. This Resolution does not bind the City to make any expenditure, incur any indebtedness, or proceed with construction of the Facilities.

Section 3. All actions heretofore taken by the officers, employees and agents of the City with respect to the actions set forth above are hereby approved, confirmed and ratified.

Section 4. The officers, employees and agents of the City are, and each of them is, hereby authorized and directed, for and in the name of the Community Facilities District to take all actions and do any and all things that they, or any of them, may deem necessary or advisable in order to consummate the transactions contemplated by this Resolution and otherwise to carry out, give effect to and comply with the terms and intent of this Resolution not inconsistent with the provisions hereof.

Section 5. This Resolution shall take effect immediately upon its adoption.

The City Clerk of the City of Ontario shall certify as to the adoption of this Resolution.

PASSED, APPROVED, AND ADOPTED this 4th day of June, 2024.

INDENTURE

THIS INDENTURE (this "Indenture"), dated as of _____ 1, 2024, is by and between CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES), a community facilities district organized and existing under the laws of the State of California (the "Community Facilities District"), and ZIONS BANCORPORATION, NATIONAL ASSOCIATION, a national banking association organized and existing under the laws of the United States of America, as trustee (the "Trustee").

W I T N E S S E T H:

WHEREAS, the City Council of the City of Ontario has formed the Community Facilities District under the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act");

WHEREAS, the Community Facilities District is authorized under the Act to levy a special tax (the "Special Tax") to pay for the costs of certain public facilities (the "Facilities") and to issue bonds payable from the Special Tax;

WHEREAS, in order to provide funds to finance a portion of the Facilities, the Community Facilities District desires to provide for the issuance of its City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Series 2024 Bonds"), in the aggregate principal amount of not to exceed $_____;

WHEREAS, the Community Facilities District desires to provide for the issuance of additional bonds (the "Additional Bonds") for refunding purposes payable from the Special Tax on a parity with the Series 2024 Bonds, provided that said issuance is in accordance with the Act and this Indenture (the Series 2024 Bonds and any such Additional Bonds being collectively referred to as the "Bonds");

WHEREAS, in order to provide for the authentication and delivery of the Bonds, to establish and declare the terms and conditions upon which the Bonds are to be issued and secured and to secure the payment of the principal thereof, premium, if any, and interest thereon, the Community Facilities District has authorized the execution and delivery of this Indenture; and

WHEREAS, the Community Facilities District has determined that all acts and proceedings required by law necessary to make the Bonds, when executed by the Community Facilities District, authenticated and delivered by the Trustee and duly issued, the valid, binding and legal special, limited obligations of the Community Facilities District, and to constitute this Indenture a valid and binding agreement for the uses and purposes herein set forth in accordance with its terms, have been done and taken, and the execution and delivery of this Indenture has been in all respects duly authorized;

NOW, THEREFORE, THIS INDENTURE WITNESSETH, that in order to secure the payment of the principal of, premium, if any, and the interest on all Bonds at any time issued and outstanding under this Indenture, according to their tenor, and to secure the performance and observance of all the covenants and conditions therein and herein set forth, and to declare the terms and conditions upon and subject to which the Bonds are to be issued, and in consideration of the premises and of the mutual covenants herein contained and of the purchase and acceptance of the

Bonds by the owners thereof, and for other valuable consideration, the receipt whereof is hereby acknowledged, the Community Facilities District does hereby covenant and agree with the Trustee, for the benefit of the respective owners from time to time of the Bonds, as follows:

ARTICLE I

DEFINITIONS; RULES OF CONSTRUCTION; EQUAL SECURITY

Section 1.01. Definitions. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this Indenture and of any certificate, opinion or other document herein or therein mentioned, have the meanings herein specified.

"Accounts" means the accounts from time to time established pursuant to this Indenture in any of the Funds established and maintained by the Trustee pursuant hereto.

"Act" means the Mello-Roos Community Facilities Act of 1982, constituting Sections 53311 *et seq.* of the California Government Code.

"Additional Bonds" means Bonds other than Series 2024 Bonds issued hereunder in accordance with the provisions of Sections 3.05 and 3.06.

"Administrative Expense Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.07.

"Administrative Expenses" means any reasonably necessary or appropriate expenses incurred in the administration of the Community Facilities District and the Bonds, including (a) the administrative and legal costs of levying and collecting the Special Tax (including costs incurred in connection with any appeals relating thereto and litigation expenses incurred in connection with the collection of such Special Tax), (b) the fees, costs and indemnifications due the Trustee, (c) the costs incurred with on-going disclosure in connection with the Bonds, (d) the costs incurred in connection with the disclosure of the Special Tax to property owners and potential purchasers of property, (e) the amounts required to calculate and pay arbitrage rebate payments to the federal government, and (f) an allocable share of the salaries of the City staff providing services on behalf of the Community Facilities District directly related to the foregoing and an allocable share of City general administrative overhead related thereto.

"Affiliate" of another Person means (a) each Person that, directly or indirectly, owns or controls, whether beneficially or as trustee, guardian, or other fiduciary, 50% or more of any class of equity securities of such other Person, and (b) each Person that controls, is controlled by or is under common control with or by such Person or any Affiliate of such Person. For the purpose of this definition, "control" of a Person shall mean the possession, directly or indirectly, of the power to direct or cause the direction of its management or policies, whether through the ownership of voting securities, by contract or otherwise.

"Annual Debt Service" means, for each Bond Year, the sum of (a) the interest due on the Outstanding Bonds in such Bond Year, assuming that the Outstanding Bonds are retired as scheduled (including by reason of mandatory sinking fund redemptions), and (b) the principal of the Outstanding Bonds due in such Bond Year (including by reason of mandatory sinking fund redemptions).

"Authorized Denominations" means (a) with respect to the Series 2024 Bonds, $5,000 and any integral multiple thereof, and (b) with respect to each Series of Additional Bonds, the

authorized denominations for such Series of Additional Bonds specified in the Supplemental Indenture pursuant to which such Additional Bonds are issued.

"Authorized Representative" means, with respect to the Community Facilities District, the Mayor of the City, the City Manager of the City, the Assistant City Manager of the City, the Executive Director of Finance of the City and the Deputy City Treasurer of the City, and any other Person designated as an Authorized Representative of the Community Facilities District in a Written Certificate of the Community Facilities District submitted to the Trustee.

"Average Annual Debt Service" means the average of the Annual Debt Service for all Bond Years, including the Bond Year in which the calculation is made.

"Beneficial Owners" means those Persons for which the Participants have caused the Depository to hold Book-Entry Bonds.

"Bond Counsel" means a firm of nationally recognized bond counsel selected by the Community Facilities District.

"Bond Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.03.

"Bond Year" means the twelve-month period beginning on September 2 in each year and extending to the next succeeding September 1, both dates inclusive, except that the first Bond Year shall begin on the Closing Date and end on September 1, 2024.

"Bonds" means the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds issued hereunder, and includes the Series 2024 Bonds and any Additional Bonds.

"Book-Entry Bonds" means the Bonds of a Series registered in the name of the Depository, or the Nominee thereof, as the registered owner thereof pursuant to the terms and provisions of Section 2.07.

"Business Day" means a day that is not (a) a Saturday, Sunday or legal holiday in the State, (b) a day on which banking institutions in the State, or in any state in which the Office of the Trustee is located, are required or authorized by law (including executive order) to close, or (c) a day on which the New York Stock Exchange is closed.

"Cede & Co." means Cede & Co., the nominee of DTC, and any successor nominee of DTC with respect to a Series of Book-Entry Bonds.

"Circulation System Facility" has the meaning ascribed to the term "Circulation System Segment" in the NMC Acquisition Agreement.

"City" means the City of Ontario, a general law city organized and existing under the laws of the State, and its successors.

"City Council" means the City Council of the City.

"City Facilities Account" means the Account by that name within the Improvement Fund established and held by the Trustee pursuant to Section 3.04.

"City Park Account" means the Account by that name within the Improvement Fund established and held by the Trustee pursuant to Section 3.04.

"Closing Date" means the date upon which the Series 2024 Bonds are delivered to the Original Purchaser, being _____, 2024.

"Code" means the Internal Revenue Code of 1986.

"Community Facilities District" means City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities), a community facilities district organized and existing under the laws of the State, and its successors.

"Continuing Disclosure Agreement" means the Continuing Disclosure Agreement, dated as of _____ 1, 2024, by and between the Community Facilities District and Zions Bancorporation, National Association, as Trustee, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with the terms thereof.

"Corresponding Bond Year" means, with respect to any Fiscal Year, the Bond Year that commences in such Fiscal Year.

"Costs of Issuance" means all items of expense directly or indirectly payable by or reimbursable to the Community Facilities District relating to the authorization, issuance, sale and delivery of the Bonds, including printing expenses, rating agency fees, filing and recording fees, initial fees, expenses and charges of the Trustee and its counsel, including the Trustee's first annual administrative fee, fees, charges and disbursements of attorneys, municipal advisors, accounting firms, consultants and other professionals, fees and charges for preparation, execution and safekeeping of the Bonds, any premium for a bond insurance policy securing payment of the Bonds, and any other cost, charge or fee in connection with the original issuance of the Bonds.

"Costs of Issuance Fund" means the Fund by that name established and held by the Trustee pursuant to Section 3.03.

"County" means the County of San Bernardino, a county and political subdivision of the State organized and existing under the laws of the State, and any successor thereto.

"County Assessor" means the Assessor of the County.

"County Auditor" means the Auditor-Controller of the County.

"Defeasance Securities" means (a) non-callable direct obligations of the United States of America ("United States Treasury Obligations"), and (b) evidences of ownership of proportionate interests in future interest and principal payments on United States Treasury Obligations held by a bank or trust company as custodian, under which the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor and the underlying

United States Treasury Obligations are not available to any person claiming through the custodian or to whom the custodian may be obligated.

"Depository" means DTC, and its successors as securities depository for any Series of Book-Entry Bonds, including any such successor appointed pursuant to Section 2.07.

"DTC" means The Depository Trust Company, a limited-purpose trust company organized under the laws of the State of New York.

"Electronic Means" means e-mail, facsimile transmission, secure electronic transmission containing applicable authorization codes, passwords and/or authentication keys issued by the Trustee, or another method or system specified by the Trustee as available for use in connection with its services hereunder.

"Event of Default" means any event specified in Section 7.01.

"Facilities" means the public facilities authorized to be financed by the Community Facilities District, as described in the Resolution of Formation.

"Fiscal Year" means the period beginning on July 1 of each year and ending on the next succeeding June 30, or any other twelve-month period hereafter selected and designated as the official fiscal year period of the Community Facilities District.

"Funds" means the separate funds from time to time established and maintained by the Trustee pursuant hereto.

"Improvement Fund" means the Fund by that name established and held by the Trustee pursuant to Section 3.04.

"Indenture" means this Indenture, dated as of _____ 1, 2024, by and between the Community Facilities District and Zions Bancorporation, National Association, as Trustee, as originally executed and as it may be amended, supplemented or otherwise modified from time to time by any Supplemental Indenture.

"Independent Consultant" means any consultant or firm of such consultants selected by the Community Facilities District and who, or each of whom (a) is generally recognized to be qualified in the financial consulting field, (b) is in fact independent and not under the control of the Community Facilities District, the City, NMC Builders, Lennar or any Affiliate thereof, (c) does not have any substantial interest, direct or indirect (i) with or in the Community Facilities District, the City, NMC Builders, Lennar or any Affiliate thereof, (ii) with or in any owner of real property in the Community Facilities District, or (iii) in any real property in the Community Facilities District, and (d) is not connected with the Community Facilities District, the City, NMC Builders, Lennar or any Affiliate thereof as an officer or employee thereof, but who may be regularly retained to make reports to the Community Facilities District or the City.

"Interest Account" means the Account by that name within the Bond Fund established and held by the Trustee pursuant to Section 5.03.

"Interest Payment Dates" means March 1 and September 1 of each year, commencing March 1, 2025.

"Lennar" means Lennar Homes of California, LLC, a limited liability company organized and existing under the laws of the State, and any successor thereto.

"Lennar Acquisition Account" means the Account by that name within the Improvement Fund established and held by the Trustee pursuant to Section 3.04.

"Lennar Acquisition Agreement" means the Amend and Restated Acquisition and Funding Agreement, dated as of _____ 1, 2024, by and between the City and Lennar, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with the terms thereof.

"Lennar Facilities" has the meaning ascribed to the term "Facilities" in the Lennar Acquisition Agreement.

"Lennar Payment Request" has the meaning ascribed to the term "Payment Request" in the Lennar Acquisition Agreement.

"Letter of Representations" means the Letter of Representations from the Community Facilities District to the Depository, in which the Community Facilities District makes certain representations with respect to issues of its securities for deposit by the Depository.

"Maximum Annual Debt Service" means the largest Annual Debt Service for any Bond Year, including the Bond Year in which the calculation is made.

"Moody's" means Moody's Investors Service, Inc., a corporation duly organized and existing under the laws of the State of Delaware, and its successors and assigns, except that if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, then the term "Moody's" shall be deemed to refer to any other nationally recognized securities rating agency selected by the Community Facilities District.

"Net Special Tax Revenues" means Special Tax Revenues, less amounts required to pay Administrative Expenses.

"NMC Acquisition Account" means the Account by that name within the Improvement Fund established and held by the Trustee pursuant to Section 3.04.

"NMC Acquisition Agreement" means the Amended and Restated Acquisition and Funding Agreement, dated as of November 1, 2022, by and between the City and NMC Builders, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with the terms thereof.

"NMC Builders" means NMC Builders, LLC, a limited liability company organized and existing under the laws of the State of California, and any successor thereto.

"NMC Facilities" has the meaning ascribed to the term "Facilities" in the NMC Acquisition Agreement.

"NMC Payment Request" has the meaning ascribed to the term "Payment Request" in the NMC Acquisition Agreement.

"Nominee" means the nominee of the Depository, which may be the Depository, as determined from time to time pursuant to Section 2.07.

"Office of the Trustee" means the principal corporate trust office of the Trustee in Los Angeles, California, or such other office as may be specified to the Community Facilities District by the Trustee in writing; provided, however, that with respect to presentation of Bonds for payment or for registration of transfer and exchange, such term shall mean the office or agency of the Trustee at which, at any particular time, its corporate trust agency business shall be conducted, which other office or agency shall be specified to the Community Facilities District by the Trustee in writing.

"Ordinance" means any ordinance adopted by the City Council levying the Special Tax.

"Original Purchaser" means the original purchaser of the Series 2024 Bonds from the Community Facilities District.

"Outstanding" means, when used as of any particular time with reference to Bonds, subject to the provisions of Section 11.07, all Bonds theretofore, or thereupon being, authenticated and delivered by the Trustee under this Indenture except (a) Bonds theretofore canceled by the Trustee or surrendered to the Trustee for cancellation, (b) Bonds with respect to which all liability of the Community Facilities District shall have been discharged in accordance with Section 10.01, and (c) Bonds in lieu of which other Bonds shall have been authenticated and delivered by the Trustee, or that have been paid without surrender thereof, pursuant to Section 2.08.

"Owner" means, with respect to a Bond, the Person in whose name such Bond is registered on the Registration Books.

"Participant" means any entity that is recognized as a participant by DTC in the book-entry system of maintaining records with respect to Book-Entry Bonds.

"Participating Underwriter" has the meaning ascribed to such term in the Continuing Disclosure Agreement.

"Permitted Investments" is defined in Exhibit A hereto.

"Person" means an individual, corporation, limited liability company, firm, association, partnership, trust or other legal entity or group of entities, including a governmental entity or any agency or political subdivision thereof.

"Principal Account" means the Account by that name within the Bond Fund established and held by the Trustee pursuant to Section 5.03.

"Rate and Method" means the rate and method of apportionment of the Special Tax approved by the qualified electors of the Community Facilities District.

"Rebate Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.06.

"Rebate Requirement" has the meaning ascribed to such term in the Tax Certificate.

"Record Date" means, with respect to interest payable on any Interest Payment Date, the 15th calendar day of the month preceding such Interest Payment Date, whether or not such day is a Business Day.

"Redemption Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.05.

"Redemption Price" means the aggregate amount of principal of and premium, if any, on the Bonds upon the redemption thereof pursuant hereto.

"Registration Books" means the records maintained by the Trustee for the registration of ownership and registration of transfer of the Bonds pursuant to Section 2.05.

"Reserve Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.04.

"Reserve Requirement" means, as of the date of any calculation, the least of (a) "10% of the proceeds of the issue," within the meaning of Section 148 of the Code, with respect to the Bonds (excluding from such calculation Bonds refunded with the proceeds of subsequently issued Bonds), (b) Maximum Annual Debt Service, and (c) 125% of Average Annual Debt Service.

"Resolution of Formation" means Resolution No. 2017-123, adopted by the City Council on October 17, 2017, as originally adopted and as it may be amended, supplemented or otherwise modified from time to time.

"S&P" means S&P Global Ratings, a business unit of Standard and Poor's Financial Services, LLC, and its successors and assigns, except that if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, then the term "S&P" shall be deemed to refer to any other nationally recognized securities rating agency selected by the Community Facilities District.

"Series" means the initial series of Bonds executed, authenticated and delivered on the date of initial issuance of the Bonds and designated pursuant to this Indenture as the Series 2024 Bonds, and any Additional Bonds issued pursuant to a Supplemental Indenture and identified as a separate Series of Bonds.

"Series 2024 Bonds" means the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024, issued hereunder.

"Services" has the meaning ascribed to such term in the Rate and Method.

"Special Tax" means the special tax described and defined in the Rate and Method as "Special Tax" approved by the qualified electors to be levied within the Community Facilities District pursuant to the Act and the Rate and Method.

"Special Tax Fund" means the Fund by that name established and held by the Trustee pursuant to Section 5.02.

"Special Tax Revenues" means the proceeds of the Special Tax received by or on behalf of the Community Facilities District, other than proceeds of the Special Tax levied to pay the costs of Services received by or on behalf of the Community Facilities District, including any prepayments thereof, interest and penalties thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Tax, which shall be limited to the amount of said lien and interest and penalties thereon.

"State" means the State of California.

"Supplemental Indenture" means any supplemental indenture modifying or amending this Indenture, but only if and to the extent that such Supplemental Indenture is specifically authorized hereunder.

"Tax Certificate" means the Tax Certificate executed by the Community Facilities District at the time of issuance of the Series 2024 Bonds relating to the requirements of Section 148 of the Code, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with the terms thereof.

"Trustee" means Zions Bancorporation, National Association, a national banking association organized and existing under the laws of the United States of America, or any successor thereto as Trustee hereunder substituted in its place as provided herein.

"Verification Report" means, with respect to the deemed payment of Bonds pursuant to clause (ii) of Section 10.02(a), a report of a nationally recognized certified public accountant, or firm of such accountants, verifying that the Defeasance Securities and cash, if any, deposited in connection with such deemed payment satisfy the requirements of clause (ii) of Section 10.02(a).

"Written Certificate" and **"Written Request"** of the Community Facilities District mean, respectively, a written certificate or written request signed in the name of the Community Facilities District by an Authorized Representative. Any such certificate or request may, but need not, be combined in a single instrument with any other instrument, opinion or representation, and the two or more so combined shall be read and construed as a single instrument.

Section 1.02. Rules of Construction. (a) The terms defined herein expressed in the singular shall, unless the context otherwise indicates, include the plural and vice versa.

(b) The use herein of the masculine, feminine or neuter gender is for convenience only and shall be deemed and construed to include correlative words of the masculine, feminine or neuter gender, as appropriate.

(c) References herein to a document shall include all amendments, supplements or other modifications to such document, and any replacements, substitutions or novation of, that document.

(d) Any term defined herein by reference to another document shall continue to have the meaning ascribed thereto whether or not such other document remains in effect.

(e) The use herein of the words "including" and "includes," and words of similar import, shall be deemed to be followed by the phrase "without limitation."

(f) Headings of Articles and Sections herein and the table of contents hereof are solely for convenience of reference, do not constitute a part hereof and shall not affect the meaning, construction or effect hereof.

(g) All references herein to designated "Articles," "Sections," "Exhibits," "subsections," "paragraphs," "clauses," and other subdivisions are to the designated Articles, Sections, Exhibits, subsections, paragraphs, clauses, and other subdivisions of this Indenture.

(h) The words "hereof" (except when preceded by a specific Section or Article reference) "herein," "hereby," "hereunder," "hereinabove," "hereinafter," and other equivalent words and phrases used herein refer to this Indenture and not solely to the particular portion hereof in which any such word is used.

(i) Any reference to a Person, or a Person in a specified capacity, shall be construed to include such Person's successors or such Person's successors in such capacity, as the case may be.

Section 1.03. Equal Security. In consideration of the acceptance of the Bonds by the Owners thereof, this Indenture shall be deemed to be and shall constitute a contract among the Community Facilities District, the Trustee and the Owners from time to time of all Bonds authorized, executed, issued and delivered hereunder and then Outstanding to secure the full and final payment of the principal of, premium, if any, and interest on all Bonds that may from time to time be authorized, executed, issued and delivered hereunder, subject to the agreements, conditions, covenants and provisions contained herein; and all agreements and covenants set forth herein to be performed by or on behalf of the Community Facilities District shall be for the equal and proportionate benefit, protection and security of all Owners of the Bonds without distinction, preference or priority as to security or otherwise of any Bonds over any other Bonds by reason of the number or date thereof or the time of authorization, sale, execution, issuance or delivery thereof or for any cause whatsoever, except as expressly provided herein or therein.

ARTICLE II

THE BONDS

Section 2.01. Authorization of Bonds; Special, Limited Obligations. (a) The Community Facilities District hereby authorizes the issuance of the Bonds under and subject to the terms of this Indenture, the Act and other applicable laws of the State. The Bonds may consist of one or more Series of Bonds of varying denominations, dates, maturities, interest rates and other provisions, subject to the provisions and conditions contained herein. The Bonds shall be designated generally as the "City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds," each Series thereof to bear such additional designation as may be necessary or appropriate to distinguish such Series from every other Series of Bonds.

(b) The Bonds shall be special, limited obligations of the Community Facilities District, payable, as provided herein, solely from Net Special Tax Revenues and the other assets pledged therefor hereunder. Neither the faith and credit nor the taxing power of the Community Facilities District (except to the limited extent set forth herein), the City or the State, or any political subdivision thereof, is pledged to the payment of the Bonds.

Section 2.02. Terms of Series 2024 Bonds. (a) The Series 2024 Bonds shall be designated "City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024." The aggregate principal amount of Series 2024 Bonds that may be issued and Outstanding under this Indenture shall not exceed $_____, except as may be otherwise provided in Section 2.08.

(b) The Series 2024 Bonds shall be issued in fully registered form without coupons in Authorized Denominations, so long as no Series 2024 Bond shall have more than one maturity date. The Series 2024 Bonds shall be dated as of the Closing Date, shall be in the aggregate principal amount of $_____, shall mature on September 1 of each year, shall bear interest at the rates per annum (calculated on the basis of a 360-day year comprised of twelve 30-day months) and shall be in the principal amounts as follows:

Maturity Date (September 1)	Principal Amount	Interest Rate
	$	%

(c) Interest on the Series 2024 Bonds shall be payable from the Interest Payment Date next preceding the date of authentication thereof unless (i) a Series 2024 Bond is authenticated on or before an Interest Payment Date and after the close of business on the preceding Record Date, in which event interest thereon shall be payable from such Interest Payment Date, (ii) a Series 2024 Bond is authenticated on or before the first Record Date, in which event interest thereon shall be payable from the Closing Date, or (iii) interest on any Series 2024 Bond is in default as of the date of authentication thereof, in which event interest thereon shall be payable from the date to which interest has previously been paid or duly provided for. Interest shall be paid in lawful money of the United States on each Interest Payment Date. Interest shall be paid by check of the Trustee mailed by first-class mail, postage prepaid, on each Interest Payment Date to the Owners of the Series 2024 Bonds at their respective addresses shown on the Registration Books as of the close of business on the preceding Record Date. Notwithstanding the foregoing, interest on any Series 2024 Bond that is not punctually paid or duly provided for on any Interest Payment Date shall, if and to the extent that amounts subsequently become available therefor, be paid on a payment date established by the Trustee to the Person in whose name the ownership of such Series 2024 Bond is registered on the Registration Books at the close of business on a special record date to be established by the Trustee for the payment of such defaulted interest, notice of which shall be given to such Owner not less than ten days prior to such special record date.

(d) The principal of the Series 2024 Bonds shall be payable in lawful money of the United States of America upon presentation and surrender thereof upon maturity or earlier redemption at the Office of the Trustee.

(e) The Series 2024 Bonds shall be subject to redemption as provided in Article IV.

(f) The Series 2024 Bonds shall be in substantially the form set forth in Exhibit B hereto, with appropriate or necessary insertions, omissions and variations as permitted or required hereby.

Section 2.03. Execution of Bonds. The Bonds shall be executed in the name and on behalf of the Community Facilities District with the manual or facsimile signature of the Mayor of the City attested by the manual or facsimile signature of the City Clerk of the City. The Bonds shall then be delivered to the Trustee for authentication by it. In case any of such officers who shall have signed or attested any of the Bonds shall cease to be such officers before the Bonds so signed or attested shall have been authenticated or delivered by the Trustee, or issued by the Community Facilities District, such Bonds may nevertheless be authenticated, delivered and issued and, upon such authentication, delivery and issue, shall be as binding upon the Community Facilities District as though those who signed and attested the same had continued to be such officers, and also any Bonds may be signed and attested on behalf of the Community Facilities District by such Persons as at the actual date of execution of such Bonds shall be the proper officers of the City although at the nominal date of such Bonds any such Person shall not have been such officer of the City.

Section 2.04. Authentication of Bonds. Only such of the Bonds as shall bear thereon a certificate of authentication substantially in the form as that set forth in Exhibit B hereto for the Series 2024 Bonds, manually executed by the Trustee, shall be valid or obligatory for any

purpose or entitled to the benefits of this Indenture, and such certificate of the Trustee shall be conclusive evidence that the Bonds so authenticated have been duly executed, authenticated and delivered hereunder and are entitled to the benefits of this Indenture.

Section 2.05. Registration Books. The Trustee shall keep or cause to be kept, at the Office of the Trustee, sufficient records for the registration and transfer of ownership of the Bonds, which shall be open to inspection during regular business hours and upon reasonable notice by the Community Facilities District. Upon presentation for such purpose, the Trustee shall, under such reasonable regulations as it may prescribe, register or transfer or cause to be registered or transferred, on such records, the ownership of the Bonds.

Section 2.06. Transfer and Exchange of Bonds. (a) Any Bond may be transferred upon the Registration Books by the Person in whose name it is registered, in person or by such Person's duly authorized attorney, upon surrender of such Bond to the Trustee for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form acceptable to the Trustee. Whenever any Bond or Bonds shall be so surrendered for transfer, the Community Facilities District shall execute and the Trustee shall authenticate and shall deliver a new Bond or Bonds of the same Series and maturity in a like aggregate principal amount, in any Authorized Denomination. The Trustee shall require the Owner requesting such transfer to pay any tax or other governmental charge required to be paid with respect to such transfer.

(b) The Bonds may be exchanged at the Office of the Trustee for a like aggregate principal amount of Bonds of the same Series and maturity of other Authorized Denominations. The Trustee shall require the payment by the Owner requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange.

(c) The Trustee shall not be obligated to make any transfer or exchange of Bonds of a Series pursuant to this Section during the period established by the Trustee for the selection of Bonds of such Series for redemption, or with respect to any Bonds of such Series selected for redemption.

Section 2.07. Book-Entry System. (a) Prior to the issuance of a Series of Bonds, the Community Facilities District may provide that such Series of Bonds shall initially be issued as Book-Entry Bonds, and in such event, the Bonds of such Series for each maturity date shall be in the form of a separate single fully registered Bond (which may be typewritten). Upon initial issuance, the ownership of each such Bond of such Series shall be registered in the Registration Books in the name of the Nominee, as nominee of the Depository. The Series 2024 Bonds shall initially be issued as Book-Entry Bonds.

Payment of principal of, and interest and premium, if any, on, any Book-Entry Bond registered in the name of the Nominee shall be made on the applicable payment date by wire transfer of New York clearing house or equivalent next day funds or by wire transfer of same day funds to the account of the Nominee. Such payments shall be made to the Nominee at the address that is, on the Record Date, shown for the Nominee in the Registration Books.

(b) With respect to Book-Entry Bonds, the Community Facilities District and the Trustee shall have no responsibility or obligation to any Participant or to any Person on behalf of

which such a Participant holds an interest in such Book-Entry Bonds. Without limiting the immediately preceding sentence, the Community Facilities District and the Trustee shall have no responsibility or obligation with respect to (i) the accuracy of the records of the Depository, the Nominee or any Participant with respect to any ownership interest in Book-Entry Bonds, (ii) the delivery to any Participant or any other Person, other than an Owner as shown in the Registration Books, of any notice with respect to Book-Entry Bonds, including any notice of redemption, (iii) the selection by the Depository and its Participants of the beneficial interests in Book-Entry Bonds of a maturity to be redeemed in the event such Book-Entry Bonds are redeemed in part, (iv) the payment to any Participant or any other Person, other than an Owner as shown in the Registration Books, of any amount with respect to principal of, or premium, if any, or interest on Book-Entry Bonds, or (v) any consent given or other action taken by the Depository as Owner.

(c) The Community Facilities District and the Trustee may treat and consider the Person in whose name each Book-Entry Bond is registered in the Registration Books as the absolute Owner of such Book-Entry Bond for the purpose of payment of principal of, and premium, if any, and interest on such Bond, for the purpose of selecting any Bonds, or portions thereof, to be redeemed, for the purpose of giving notices of redemption and other matters with respect to such Book-Entry Bond, for the purpose of registering transfers with respect to such Book-Entry Bond, for the purpose of obtaining any consent or other action to be taken by Owners and for all other purposes whatsoever, and the Community Facilities District and the Trustee shall not be affected by any notice to the contrary.

(d) In the event of a redemption of all or a portion of a Book-Entry Bond, the Depository, in its discretion (i) may request the Trustee to authenticate and deliver a new Book-Entry Bond, or (ii) if the Depository is the sole Owner of such Book-Entry Bond, shall make an appropriate notation on the Book-Entry Bond indicating the date and amounts of the reduction in principal thereof resulting from such redemption, except in the case of final payment, in which case such Book-Entry Bond must be presented to the Trustee prior to payment.

(e) The Trustee shall pay all principal of, and premium, if any, and interest on the Book-Entry Bonds only to or "upon the order of" (as that term is used in the Uniform Commercial Code as adopted in the State) the respective Owner, as shown in the Registration Books, or such Owner's respective attorney duly authorized in writing, and all such payments shall be valid and effective to fully satisfy and discharge the obligations with respect to payment of principal of, and premium, if any, and interest on the Book-Entry Bonds to the extent of the sum or sums so paid. No Person other than an Owner, as shown in the Registration Books, shall receive an authenticated Book-Entry Bond. Upon delivery by the Depository to the Owners, the Community Facilities District and the Trustee of written notice to the effect that the Depository has determined to substitute a new nominee in place of the Nominee, and subject to the provisions herein with respect to Record Dates, the word Nominee in this Indenture shall refer to such nominee of the Depository.

(f) In order to qualify the Book-Entry Bonds for the Depository's book-entry system, the Community Facilities District shall execute and deliver to the Depository a Letter of Representations. The execution and delivery of a Letter of Representations shall not in any way impose upon the Community Facilities District or the Trustee any obligation whatsoever with respect to Persons having interests in such Book-Entry Bonds other than the Owners, as shown

on the Registration Books. Such Letter of Representations may provide the time, form, content and manner of transmission, of notices to the Depository. In addition to the execution and delivery of a Letter of Representations by the Community Facilities District, the Community Facilities District and the Trustee shall take such other actions, not inconsistent with this Indenture, as are reasonably necessary to qualify Book-Entry Bonds for the Depository's book-entry program.

(g) In the event the Community Facilities District determines that it is in the best interests of the Beneficial Owners that they be able to obtain certificated Bonds and that such Bonds should therefore be made available and notifies the Depository and the Trustee of such determination, the Depository will notify the Participants of the availability through the Depository of certificated Bonds. In such event, the Trustee shall transfer and exchange certificated Bonds as requested by the Depository and any other Owners in appropriate amounts. In the event (i) the Depository determines not to continue to act as securities depository for Book-Entry Bonds, or (ii) the Depository shall no longer so act and gives notice to the Trustee of such determination, then the Community Facilities District shall discontinue the Book-Entry system with the Depository. If the Community Facilities District determines to replace the Depository with another qualified securities depository, the Community Facilities District shall prepare or direct the preparation of a new single, separate, fully registered Bond of the appropriate Series for each maturity date of such Book-Entry Bonds, registered in the name of such successor or substitute qualified securities depository or its nominee. If the Community Facilities District fails to identify another qualified securities depository to replace the Depository, then the Book-Entry Bonds shall no longer be restricted to being registered in the Registration Books in the name of the Nominee, but shall be registered in whatever name or names the Owners transferring or exchanging such Bonds shall designate, in accordance with the provisions of Sections 2.06, 2.08 and 2.09. Whenever the Depository requests the Community Facilities District to do so, the Community Facilities District shall cooperate with the Depository in taking appropriate action after reasonable notice (i) to make available one or more separate certificates evidencing the Book-Entry Bonds to any Participant having Book-Entry Bonds credited to its account with the Depository, and (ii) to arrange for another securities depository to maintain custody of certificates evidencing the Book-Entry Bonds.

(h) Notwithstanding any other provision of this Indenture to the contrary, if the Depository is the sole Owner of the Bonds of a Series, so long as any Book-Entry Bond of such Series is registered in the name of the Nominee, all payments of principal of, and premium, if any, and interest on such Book-Entry Bond and all notices with respect to such Book-Entry Bond shall be made and given, respectively, as provided in the Letter of Representations or as otherwise instructed by the Depository.

(i) In connection with any notice or other communication to be provided to Owners pursuant to this Indenture by the Community Facilities District or the Trustee, with respect to any consent or other action to be taken by Owners of Book-Entry Bonds, the Trustee shall establish a record date for such consent or other action and give the Depository notice of such record date not less than 15 calendar days in advance of such record date to the extent possible.

Section 2.08. <u>Bonds Mutilated, Lost, Destroyed or Stolen</u>. If any Bond shall become mutilated, the Community Facilities District, at the expense of the Owner of said Bond, shall

execute, and the Trustee shall thereupon authenticate and deliver, a new Bond of the same Series and maturity in a like principal amount in exchange and substitution for the Bond so mutilated, but only upon surrender to the Trustee of the Bond so mutilated. Every mutilated Bond so surrendered to the Trustee shall be canceled by it and delivered to, or upon the order of, the Community Facilities District. If any Bond shall be lost, destroyed or stolen, evidence of such loss, destruction or theft may be submitted to the Trustee and, if such evidence and indemnity reasonably satisfactory to the Trustee shall be given, the Community Facilities District, at the expense of the Owner, shall execute, and the Trustee shall thereupon authenticate and deliver, a new Bond of the same Series and maturity in a like aggregate principal amount in lieu of and in replacement for the Bond so lost, destroyed or stolen (or if any such Bond shall have matured or shall have been selected for redemption, instead of issuing a replacement Bond, the Trustee may pay the same without surrender thereof). The Community Facilities District may require payment by the Owner of a sum not exceeding the actual cost of preparing the replacement Bond delivered thereto under this Section and the expenses incurred by the Community Facilities District and the Trustee in connection therewith. Any Bond of a Series issued under the provisions of this Section in lieu of any Bond of such Series alleged to be lost, destroyed or stolen shall constitute an original additional contractual obligation on the part of the Community Facilities District whether or not the Bond so alleged to be lost, destroyed or stolen be at any time enforceable by anyone, and shall be entitled to the benefits of this Indenture with all other Bonds of such Series secured by this Indenture.

Section 2.09. Temporary Bonds. The Bonds of a Series may be issued in temporary form exchangeable for definitive Bonds of such Series when ready for delivery. Any temporary Bonds may be printed, lithographed or typewritten, shall be of such Authorized Denominations as may be determined by the Community Facilities District, shall be in fully registered form without coupons and may contain such reference to any of the provisions of this Indenture as may be appropriate. Every temporary Bond shall be executed by the Community Facilities District and authenticated by the Trustee upon the same conditions and in substantially the same manner as the definitive Bonds. If the Community Facilities District issues temporary Bonds of a Series it shall execute and deliver definitive Bonds of such Series as promptly thereafter as practicable, and thereupon the temporary Bonds of such Series may be surrendered, for cancellation, at the Office of the Trustee and the Trustee shall authenticate and deliver in exchange for such temporary Bonds an equal aggregate principal amount of definitive Bonds of such Series and maturities in Authorized Denominations. Until so exchanged, the temporary Bonds of such Series shall be entitled to the same benefits under this Indenture as definitive Bonds of such Series authenticated and delivered hereunder.

ARTICLE III

ISSUANCE OF SERIES 2024 BONDS; APPLICATION OF PROCEEDS; ADDITIONAL BONDS

Section 3.01. Issuance of Series 2024 Bonds. The Community Facilities District may at any time execute the Series 2024 Bonds and deliver the same to the Trustee. The Trustee shall authenticate the Series 2024 Bonds and deliver the Series 2024 Bonds to the Original Purchaser upon receipt of a Written Request of the Community Facilities District and upon receipt of the purchase price therefor.

Section 3.02. Application of Proceeds. (a) On the Closing Date, the proceeds of the sale of the Series 2024 Bonds received by the Trustee, $_____, shall be deposited by the Trustee as follows:

(i) the Trustee shall deposit the amount of $_____ in the Costs of Issuance Fund;

(ii) the Trustee shall deposit the amount of $_____ in the Reserve Fund, which is equal to the Reserve Requirement;

(iii) the Trustee shall deposit the amount of $_____ in the Lennar Acquisition Account;

(iv) the Trustee shall deposit the amount of $_____ in the NMC Acquisition Account;

(v) the Trustee shall deposit the amount of $_____ in the City Park Account; and

(vi) the Trustee shall deposit the amount of $_____ in the City Facilities Account.

(b) [On the Closing Date, the amount transferred by the Community Facilities District to the Trustee, $_____, which consists of amounts of the Special Tax collected by the Community Facilities District, shall be deposited by the Trustee as follows:

(i) the Trustee shall deposit the amount of $_____ in the Administrative Expense Fund;

(ii) the Trustee shall deposit the amount of $_____ in the Special Tax Fund; and

(iii) the Trustee shall deposit the amount of $_____ in the Lennar Acquisition Account.]

Section 3.03. Costs of Issuance Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Costs of Issuance Fund." On the Closing Date, the Trustee shall

deposit in the Costs of Issuance Fund the amount required to be deposited therein pursuant to Section 3.02. There shall additionally be deposited in the Cost of Issuance Fund the portion, if any, of the proceeds of the sale of any Additional Bonds required to be deposited therein under the Supplemental Indenture pursuant to which such Additional Bonds are issued.

(b) The moneys in the Costs of Issuance Fund shall be used and withdrawn by the Trustee from time to time to pay the Costs of Issuance upon submission of a Written Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred, (iv) that such payment is a proper charge against the Costs of Issuance Fund, and (v) that payment of such amount has not been the subject of a prior disbursement from the Costs of Issuance Fund, in each case together with a statement or invoice for each amount requested thereunder. On the last Business Day that is no later than six months after the Closing Date, the Trustee shall transfer any amount remaining in the Costs of Issuance Fund to the NMC Acquisition Account, and, upon making such transfer, the Costs of Issuance Fund shall be closed.

(c) If the Costs of Issuance Fund has been closed in accordance with the provisions hereof, the Costs of Issuance Fund shall be reopened and reestablished by the Trustee in connection with the issuance of any Additional Bonds, if so provided in the Supplemental Indenture pursuant to which such Additional Bonds are issued.

Section 3.04. Improvement Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Improvement Fund." Within the Improvement Fund, the Trustee shall establish and maintain a separate Account designated the "Lennar Acquisition Account," a separate Account designated the " NMC Acquisition Account," a separate Account designated the "City Facilities Account," and a separate Account designated the "City Park Account." On the Closing Date, the Trustee shall deposit in each of the Accounts within the Improvement Fund the amount, if any, required to be deposited therein pursuant to Section 3.02. There shall additionally be deposited in each of the Accounts within the Improvement Fund (i) the portion, if any, of the proceeds of the sale of any Additional Bonds required to be deposited therein under the Supplemental Indenture pursuant to which such Additional Bonds are issued, and (ii) amounts received by the Trustee when accompanied by a Written Request of the Community Facilities District that such amounts are to be deposited in such Account, which amounts may include Special Tax Revenues collected and received by the Community Facilities District prior to the Closing Date.

(b) The moneys in the Lennar Acquisition Account shall be used and withdrawn by the Trustee from time to time to pay the costs of the Lennar Facilities upon submission of a Written Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred, (iv) that such payment is for costs of the Lennar Facilities and is a proper charge against the Lennar Acquisition Account, (v) that payment of such costs has not been the subject of a prior disbursement from any of the Accounts within the Improvement Fund, and (vi) whether or not such costs of the Lennar Facilities are to be paid pursuant to a Lennar Payment Request submitted in accordance with the Lennar Acquisition Agreement, in each case together with a statement or invoice for each amount requested thereunder. If costs of the Lennar

Facilities are to be paid pursuant to a Lennar Payment Request submitted in accordance with the Lennar Acquisition Agreement, a duplicate original of the signed and approved Lennar Payment Request relating to such costs of the Lennar Facilities, together with all exhibits and attachments thereto, must accompany such Written Request of the Community Facilities District.

Upon the submission of a Written Certificate of the Community Facilities District stating (i) that the portion of the Lennar Facilities to be financed from the Lennar Acquisition Account has been completed and that all costs of such Lennar Facilities have been paid, or (ii) that such portion of the Lennar Facilities has been substantially completed and that all remaining costs of such portion of the Lennar Facilities have been determined and specifying the amount to be retained therefor, the Trustee shall transfer all of the amount remaining in the Lennar Acquisition Account (less any such retention) to the NMC Acquisition Account.

(c) The moneys in the NMC Acquisition Account shall be used and withdrawn by the Trustee from time to time to pay the costs of the NMC Facilities upon submission of a Written Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred, (iv) that such payment is for costs of the NMC Facilities and is a proper charge against the NMC Acquisition Account, (v) that payment of such costs has not been the subject of a prior disbursement from any of the Accounts within the Improvement Fund or from any other fund or account established with respect to a community facilities district formed by the City Council and from which costs of NMC Facilities are authorized to be paid, and (vi) whether or not such costs of the NMC Facilities are to be paid pursuant to a NMC Payment Request submitted in accordance with the NMC Acquisition Agreement, in each case together with a statement or invoice for each amount requested thereunder. If costs of the NMC Facilities are to be paid pursuant to a NMC Payment Request submitted in accordance with the NMC Acquisition Agreement, a duplicate original of the signed and approved NMC Payment Request relating to such costs of the NMC Facilities, together with all exhibits and attachments thereto, must accompany such Written Request of the Community Facilities District.

If, on the date the Community Facilities District submits to the Trustee a Written Request of the Community Facilities District to pay costs of the NMC Facilities, there are insufficient moneys in the NMC Acquisition Account to pay such costs in full, the amount remaining unpaid shall be paid as and to the extent that moneys are subsequently deposited in the NMC Acquisition Account, but only after the payment in full of all amounts that the Community Facilities District, by a Written Request of the Community Facilities District, previously directed the Trustee to pay from the NMC Acquisition Account.

If the NMC Payment Request submitted to the Trustee pursuant to this subsection requests that the costs of the NMC Facilities to be paid thereunder be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached to such NMC Payment Request as Attachment B, the Trustee shall, as and when amounts become available in the NMC Acquisition Account to pay all or a portion of such costs, pay from the NMC Acquisition Account such costs or portion thereof to such Person or Persons. If the NMC Payment Request submitted to the Trustee pursuant to this subsection indicates that the costs of the NMC Facilities to be paid thereunder be paid to the Person or Persons, in the amounts, to be set forth in Purchase Price Payment Instructions to be submitted to the Trustee as and when amounts become available in the

NMC Acquisition Account to pay all or a portion of such costs, the Trustee shall, as and when such amounts become available, notify NMC Builders in writing of (i) the number or other designation of the NMC Payment Request pursuant to which such payment of such costs is requested to be made, (ii) the amount available in the NMC Acquisition Account to pay such costs or portion thereof, and (iii) the name of the Community Facilities District, and, upon submission to the Trustee by NMC Builders of completed and signed Purchase Price Payment Instructions in the form attached to such NMC Payment Request as Attachment B, the Trustee shall pay from the NMC Acquisition Account such costs or portion thereof to the Person or Persons, in the amounts, set forth in such Purchase Price Payment Instructions.

If, on the date the Community Facilities District submits to the Trustee a Written Request of the Community Facilities District to pay 85% of the costs of a Circulation System Facility, there are insufficient moneys in the NMC Acquisition Account to pay such portion of such costs in full, the amount remaining unpaid shall be paid as and to the extent that moneys are subsequently deposited in the NMC Acquisition Account, but only after the payment in full of all amounts that the Community Facilities District, by a Written Request of the Community Facilities District, previously directed the Trustee to pay from the NMC Acquisition Account.

If the NMC Payment Request submitted to the Trustee pursuant to this subsection requests that 85% of the costs of a Circulation System Facility to be paid thereunder be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached to such NMC Payment Request as Attachment B, the Trustee shall, as and when amounts become available in the NMC Acquisition Account to pay all or a portion of such costs, pay from the NMC Acquisition Account such costs or portion thereof to such Person or Persons. If the NMC Payment Request submitted to the Trustee pursuant to this subsection indicates that 85% of the costs of a Circulation System Facility to be paid thereunder be paid to the Person or Persons, in the amounts, to be set forth in Purchase Price Payment Instructions to be submitted to the Trustee as and when amounts become available in the NMC Acquisition Account to pay all or a portion of such costs, the Trustee shall, as and when such amounts become available, notify NMC Builders in writing of (i) the number or other designation of the NMC Payment Request pursuant to which such payment of such costs is requested to be made, (ii) the amount available in the NMC Acquisition Account to pay such costs or portion thereof, and (iii) the name of the Community Facilities District, and, upon submission to the Trustee by NMC Builders of completed and signed Purchase Price Payment Instructions in the form attached to such NMC Payment Request as Attachment B, the Trustee shall pay from the NMC Acquisition Account such costs or portion thereof to the Person or Persons, in the amounts, set forth in such Purchase Price Payment Instructions.

Upon the submission of a Written Certificate of the Community Facilities District stating (i) that the portion of the NMC Facilities to be financed from the NMC Acquisition Account has been completed and that all costs of such NMC Facilities have been paid, or (ii) that such portion of the NMC Facilities has been substantially completed and that all remaining costs of such portion of the NMC Facilities have been determined and specifying the amount to be retained therefor, the Trustee shall (A) if the amount remaining in the NMC Acquisition Account (less any such retention) is equal to or greater than $25,000, transfer the portion of such amount equal to the largest integral multiple of $5,000 that is not greater than such amount to the Redemption Fund, to be applied to the redemption of Bonds as directed by the Community Facilities District, and (B) after making the transfer, if any, required to be made pursuant to the preceding clause (A), transfer all of

the amount remaining in the NMC Acquisition Account (less any such retention) to the Interest Account, to be applied to the payment of interest on the Bonds.

(d) The moneys in the City Facilities Account shall be used and withdrawn by the Trustee from time to time to pay the costs of the Facilities upon submission of a Written Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred, (iv) that such payment is for costs of the Facilities and is a proper charge against the City Facilities Account, and (v) that payment of such costs has not been the subject of a prior disbursement from any of the Accounts within the Improvement Fund, in each case together with a statement or invoice for each amount requested thereunder.

Upon the submission of a Written Certificate of the Community Facilities District stating (i) that the portion of the Facilities to be financed from the City Facilities Account has been completed and that all costs of such Facilities have been paid, or (ii) that such portion of the Facilities has been substantially completed and that all remaining costs of such portion of the Facilities have been determined and specifying the amount to be retained therefor, the Trustee shall (A) if the amount remaining in the City Facilities Account (less any such retention) is equal to or greater than $25,000, transfer the portion of such amount equal to the largest integral multiple of $5,000 that is not greater than such amount to the Redemption Fund, to be applied to the redemption of Bonds as directed by the Community Facilities District, and (B) after making the transfer, if any, required to be made pursuant to the preceding clause (A), transfer all of the amount remaining in the City Facilities Account (less any such retention) to the Interest Account, to be applied to the payment of interest on the Bonds.

(e) The moneys in the City Park Account shall be used and withdrawn by the Trustee from time to time to pay the costs of the Facilities upon submission of a Written Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred, (iv) that such payment is for costs of the Facilities and is a proper charge against the City Park Account, and (v) that payment of such costs has not been the subject of a prior disbursement from any of the Accounts within the Improvement Fund, in each case together with a statement or invoice for each amount requested thereunder.

Upon the submission of a Written Certificate of the Community Facilities District stating (i) that the portion of the Facilities to be financed from the City Park Account has been completed and that all costs of such Facilities have been paid, or (ii) that such portion of the Facilities has been substantially completed and that all remaining costs of such portion of the Facilities have been determined and specifying the amount to be retained therefor, the Trustee shall (A) if the amount remaining in the City Park Account (less any such retention) is equal to or greater than $25,000, transfer the portion of such amount equal to the largest integral multiple of $5,000 that is not greater than such amount to the Redemption Fund, to be applied to the redemption of Bonds as directed by the Community Facilities District, and (B) after making the transfer, if any, required to be made pursuant to the preceding clause (A), transfer all of the amount remaining in the City Park Account (less any such retention) to the Interest Account, to be applied to the payment of interest on the Bonds.

Section 3.05. Conditions for the Issuance of Additional Bonds. The Community Facilities District may at any time issue one or more Series of Additional Bonds payable from Net Special Tax Revenues as provided herein on a parity with all other Bonds theretofore issued hereunder, but only subject to the following conditions, which are hereby made conditions precedent to the issuance of such Additional Bonds:

(a) upon the issuance of such Additional Bonds, no Event of Default shall have occurred and be continuing hereunder;

(b) the issuance of such Additional Bonds shall have been authorized under and pursuant to this Indenture and the Act and shall have been provided for by a Supplemental Indenture, which shall specify the following:

(i) the purposes for which the proceeds of such Additional Bonds are to be applied, which purposes may only include one or more of (A) providing funds to refund any Bonds previously issued hereunder, (B) providing funds to pay Costs of Issuance incurred in connection with the issuance of such Additional Bonds, and (C) providing funds to make any deposit to the Reserve Fund required pursuant to paragraph (viii) below;

(ii) the designation of such Series of Additional Bonds, the aggregate principal amount of the Additional Bonds of such Series, and the principal amount of, and the interest rate to be borne by, each maturity of such Additional Bonds;

(iii) that such Additional Bonds shall be payable as to interest on the Interest Payment Dates, except that the first installment of interest may be payable on either March 1 or September 1 and shall be for a period of not longer than twelve months;

(iv) the date, the maturity date or dates and the dates on which mandatory sinking fund redemptions, if any, are to be made for such Additional Bonds; provided, however, that each such maturity date and date on which a mandatory sinking fund redemption is to be made shall be a September 1 and, provided, further, that serial maturities of serial Bonds or mandatory sinking fund redemptions for term Bonds, or any combination thereof, shall be established to provide for the redemption or payment of such Additional Bonds on or before their respective maturity dates;

(v) the Authorized Denominations of such Additional Bonds;

(vi) the redemption premiums and terms, if any, for such Additional Bonds;

(vii) the form of such Additional Bonds;

(viii) the amount, if any, to be deposited from the proceeds of sale of such Additional Bonds in the Reserve Fund; provided, however, that the amount

on deposit in the Reserve Fund at the time that such Additional Bonds become Outstanding shall be at least equal to the Reserve Requirement; and

(ix) such other provisions that are appropriate or necessary and are not inconsistent with the provisions hereof;

(c) The Community Facilities District shall have received a certificate from an Independent Consultant certifying that Annual Debt Service in each Bond Year, calculated for all Bonds that will be Outstanding after the issuance of such Additional Bonds, will be less than or equal to Annual Debt Service in such Bond Year, calculated for all Bonds that are Outstanding immediately prior to the issuance of such Additional Bonds.

Nothing contained herein shall limit the issuance of any special tax bonds payable from the Special Tax if, after the issuance and delivery of such special tax bonds, none of the Bonds theretofore issued hereunder will be Outstanding.

Section 3.06. Procedure for the Issuance of Additional Bonds. At any time after the sale of any Additional Bonds in accordance with the Act, such Additional Bonds shall be executed by the Community Facilities District for issuance hereunder and shall be delivered to the Trustee and thereupon shall be authenticated and delivered by the Trustee, but only upon receipt by the Trustee of the following:

(a) a certified copy of the Supplemental Indenture authorizing the issuance of such Additional Bonds;

(b) a Written Request of the Community Facilities District as to the delivery of such Additional Bonds;

(c) a Written Certificate of the Community Facilities District stating that the conditions precedent to the issuance of such Additional Bonds specified in Section 3.05 have been satisfied;

(d) an opinion of Bond Counsel substantially to the effect that (i) this Indenture, as modified and amended by all Supplemental Indentures theretofore, or thereupon being, entered into has been duly authorized, executed and delivered by, and constitutes the valid and binding obligation of, the Community Facilities District, (ii) such Additional Bonds constitute valid and binding special, limited obligations of the Community Facilities District, and (iii) the issuance of such Additional Bonds, in and of itself, will not adversely affect the exclusion of interest on the Bonds Outstanding prior to the issuance of such Additional Bonds from gross income for federal income tax purposes;

(e) the proceeds of the sale of such Additional Bonds; and

(f) such further documents or money as are required by the provisions hereof or by the provisions of the Supplemental Indenture pursuant to which such Additional Bonds are issued.

Section 3.07. Additional Bonds. The Community Facilities District shall not incur any obligations payable from Net Special Tax Revenues on a parity with the Bonds, except as provided in Sections 3.05 and 3.06.

ARTICLE IV

REDEMPTION OF BONDS

Section 4.01. Redemption of Series 2024 Bonds. (a) *Optional Redemption.* The Series 2024 Bonds maturing on and after September 1, 20__, shall be subject to optional redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date on or after September 1, 20__ from any source of available funds, at the following respective Redemption Prices (expressed as percentages of the principal amount of the Series 2024 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
September 1, 20__ and March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and any Interest Payment Date thereafter	100

The Community Facilities District shall give the Trustee written notice of its intention to redeem Series 2024 Bonds pursuant to this subsection not less than 45 days prior to the applicable redemption date, unless a later date is agreed to by the Trustee.

(b) *Mandatory Redemption from Special Tax Prepayments.* The Series 2024 Bonds shall be subject to mandatory redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date, from and to the extent of Special Tax prepayments required to be applied thereto pursuant to Section 5.02(a) and any amount required to be applied thereto pursuant to Section 5.04(c), at the following respective Redemption Prices (expressed as percentages of the principal amount of the Series 2024 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
March 1, 20__ through March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and any Interest Payment Date thereafter	100

(c) *Mandatory Sinking Fund Redemption.* The Series 2024 Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__, at a Redemption Price equal to the principal amount of the Series 2024 Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	Principal Amount to be Redeemed
	$

(Maturity)

If some but not all of the Series 2024 Bonds maturing on September 1, 20__ are redeemed pursuant to Section 4.01(a), the principal amount of the Series 2024 Bonds maturing on September 1, 20__ to be redeemed pursuant to Section 4.01(c) on any subsequent September 1 shall be reduced, by $5,000 or an integral multiple thereof, as designated by the Community Facilities District in a Written Certificate of the Community Facilities District submitted to the Trustee; provided, however, that the aggregate amount of such reductions shall not exceed the aggregate amount of the Series 2024 Bonds maturing on September 1, 20__ redeemed pursuant to Section 4.01(a). If some but not all of the Series 2024 Bonds maturing on September 1, 20__ are redeemed pursuant to Section 4.01(b), the principal amount of the Series 2024 Bonds maturing on September 1, 20__ to be redeemed pursuant to Section 4.01(c) on any subsequent September 1 shall be reduced by the aggregate principal amount of the Series 2024 Bonds maturing on September 1, 20__ so redeemed pursuant to Section 4.01(b), such reduction to be allocated among redemption dates as nearly as practicable on a pro rata basis in amounts of $5,000 or integral multiples thereof, as determined by the Trustee, notice of which determination shall be given by the Trustee to the Community Facilities District.

The Series 2024 Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__, at a Redemption Price equal to the principal amount of the Series 2024 Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	Principal Amount to be Redeemed
	$

(Maturity)

If some but not all of the Series 2024 Bonds maturing on September 1, 20__ are redeemed pursuant to Section 4.01(a), the principal amount of the Series 2024 Bonds maturing on September 1, 20__ to be redeemed pursuant to Section 4.01(c) on any subsequent September 1 shall be reduced, by $5,000 or an integral multiple thereof, as designated by the Community Facilities District in a Written Certificate of the Community Facilities District submitted to the Trustee; provided, however, that the aggregate amount of such reductions shall not exceed the aggregate amount of the Series 2024 Bonds maturing on September 1, 20__ redeemed pursuant to Section 4.01(a). If some but not all of the Series 2024 Bonds maturing on September 1, 20__ are redeemed

pursuant to Section 4.01(b), the principal amount of the Series 2024 Bonds maturing on September 1, 20__ to be redeemed pursuant to Section 4.01(c) on any subsequent September 1 shall be reduced by the aggregate principal amount of the Series 2024 Bonds maturing on September 1, 20__ so redeemed pursuant to Section 4.01(b), such reduction to be allocated among redemption dates as nearly as practicable on a pro rata basis in amounts of $5,000 or integral multiples thereof, as determined by the Trustee, notice of which determination shall be given by the Trustee to the Community Facilities District.

Section 4.02. Notice of Redemption. The Trustee on behalf and at the expense of the Community Facilities District shall mail (by first-class mail) notice of any redemption to the respective Owners of any Bonds designated for redemption at their respective addresses appearing on the Registration Books and to the Original Purchaser, at least 30 but not more than 60 days prior to the date fixed for redemption. Such notice shall state the date of the notice, the redemption date, the redemption place and the Redemption Price and shall designate the CUSIP numbers, if any, the Bond numbers and the maturity or maturities of the Bonds to be redeemed (except in the event of redemption of all of the Bonds of such maturity or maturities in whole), and shall require that such Bonds be then surrendered at the Office of the Trustee for redemption at the Redemption Price, giving notice also that further interest on such Bonds will not accrue from and after the date fixed for redemption. Neither the failure to receive any notice so mailed, nor any defect in such notice, shall affect the validity of the proceedings for the redemption of the Bonds or the cessation of accrual of interest thereon from and after the date fixed for redemption. With respect to any notice of any optional redemption of Bonds, unless at the time such notice is given the Bonds to be redeemed shall be deemed to have been paid within the meaning of Section 10.02, such notice shall state that such redemption is conditional upon receipt by the Trustee, on or prior to the date fixed for such redemption, of moneys that, together with other available amounts held by the Trustee, are sufficient to pay the Redemption Price of, and accrued interest on, the Bonds to be redeemed, and that if such moneys shall not have been so received said notice shall be of no force and effect and the Community Facilities District shall not be required to redeem such Bonds. In the event a notice of redemption of Bonds contains such a condition and such moneys are not so received, the redemption of Bonds as described in the conditional notice of redemption shall not be made and the Trustee shall, within a reasonable time after the date on which such redemption was to occur, give notice to the Persons and in the manner in which the notice of redemption was given, that such moneys were not so received and that there shall be no redemption of Bonds pursuant to such notice of redemption.

Section 4.03. Selection of Bonds for Redemption. Whenever provision is made in this Indenture for the redemption of less than all of the Bonds, the Trustee shall select the Bonds to be redeemed from all Bonds not previously called for redemption (a) with respect to any optional redemption of Bonds of a Series, among maturities of Bonds of such Series as directed in a Written Request of the Community Facilities District, (b) with respect to any redemption pursuant to Section 4.01(b) and the corresponding provisions of any Supplemental Indenture pursuant to which Additional Bonds are issued, among maturities of all Series of Bonds on a *pro rata* basis as nearly as practicable, and (c) with respect to any other redemption of Additional Bonds, among maturities as provided in the Supplemental Indenture pursuant to which such Additional Bonds are issued, and by lot among Bonds of the same Series with the same maturity in any manner that the Trustee in its sole discretion shall deem appropriate. For purposes of such selection, all Bonds shall be deemed to be comprised of the greatest number of separate

denominations that would result in each such denomination being an Authorized Denomination and each such separate denomination shall be treated as a separate Bond that may be separately redeemed.

Section 4.04. Partial Redemption of Bonds. Upon surrender of any Bonds redeemed in part only, the Community Facilities District shall execute and the Trustee shall authenticate and deliver to the Owner thereof, at the expense of the Community Facilities District, a new Bond or Bonds of the same Series in Authorized Denominations in an aggregate principal amount equal to the unredeemed portion of the Bonds surrendered.

Section 4.05. Effect of Notice of Redemption. (a) Notice of redemption of the Bonds subject to redemption having been mailed as aforesaid, and moneys for the Redemption Price thereof, and the interest thereon to the applicable date fixed for redemption, having been set aside with the Trustee, such Bonds shall become due and payable on said date, and, upon presentation and surrender thereof at the Office of the Trustee, said Bonds shall be paid at the Redemption Price thereof, together with interest accrued and unpaid to said date.

(b) If, on said date fixed for redemption, moneys for the Redemption Price of all the Bonds to be redeemed, together with interest to said date, shall be held by the Trustee so as to be available therefor on such date, and, if notice of redemption thereof shall have been mailed as aforesaid and not canceled, then, from and after said date, interest on said Bonds shall cease to accrue and become payable. All moneys held by or on behalf of the Trustee for the redemption of Bonds shall be held in trust for the account of the Owners of the Bonds so to be redeemed without liability to such Owners for interest thereon.

(c) All Bonds paid at maturity or redeemed prior to maturity pursuant to the provisions hereof shall be canceled upon surrender thereof and destroyed.

ARTICLE V

SECURITY FOR BONDS; FLOW OF FUNDS; INVESTMENTS

Section 5.01. Pledge. Subject only to the provisions of this Indenture permitting the application thereof for the purposes and on the terms and conditions set forth herein, in order to secure the payment of the principal of, premium, if any, and interest on the Bonds in accordance with their terms, the provisions of this Indenture and the Act, the Community Facilities District hereby pledges to the Owners, and grants thereto a lien on and a security interest in, all of the Net Special Tax Revenues and any other amounts held in the Special Tax Fund, the Bond Fund and the Reserve Fund. Said pledge shall constitute a first lien on and security interest in such assets, which shall immediately attach to such assets and be effective, binding and enforceable against the Community Facilities District, its successors, purchasers of any of such assets, creditors and all others asserting rights therein, to the extent set forth in, and in accordance with, this Indenture, irrespective of whether those parties have notice of the pledge of, lien on and security interest in such assets and without the need for any physical delivery, recordation, filing or further act.

Section 5.02. Special Tax Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Special Tax Fund." [On the Closing Date, the Trustee shall deposit in the Special Tax Fund the amount required to be deposited therein pursuant to Section 3.02.] As soon as practicable after the receipt by the Community Facilities District of any Special Tax Revenues, but in any event no later than the date ten Business Days after such receipt, the Community Facilities District shall transfer such Special Tax Revenues to the Trustee for deposit in the Special Tax Fund; provided, however, that with respect to any such Special Tax Revenues that represent a Special Tax prepayment (i) said Special Tax prepayment shall be identified as such in a Written Certificate of the Community Facilities District submitted to the Trustee at the time such Special Tax prepayment is transferred to the Trustee, (ii) the portion of such Special Tax prepayment that is to be applied to the Redemption Price of the Bonds shall be identified in such Written Certificate of the Community Facilities District, shall be deposited by the Trustee in the Redemption Fund and shall be applied to the redemption of Bonds pursuant to Section 4.01(b) and the corresponding provisions of any Supplemental Indenture pursuant to which Additional Bonds are issued, and (iii) the portion of such Special Tax prepayment that is to be applied to the payment of interest on the Bonds to be so redeemed shall be identified in such Written Certificate of the Community Facilities District, shall be deposited by the Trustee in the Interest Account and shall be applied to the payment of such interest.

(b) Upon receipt of a Written Request of the Community Facilities District, the Trustee shall withdraw from the Special Tax Fund and transfer to the Administrative Expense Fund the amount specified in such Written Request of the Community Facilities District as the amount necessary to be transferred thereto in order to have sufficient amounts available therein to pay Administrative Expenses.

(c) No later than the Business Day immediately preceding each Interest Payment Date, after having made any requested transfer to the Administrative Expense Fund, the Trustee shall withdraw from the Special Tax Fund Net Special Tax Revenues in an amount sufficient to enable the Trustee to make the following transfers in the following order of priority:

(i) *Interest Account*. To the Interest Account, the amount, if any, necessary to cause the amount on deposit in the Interest Account to be equal to the interest due on the Bonds on such Interest Payment Date;

(ii) *Principal Account*. To the Principal Account, the amount, if any, necessary to cause the amount on deposit in the Principal Account to be equal to the principal, if any, due on the Bonds on such Interest Payment Date, including principal due and payable by reason of mandatory sinking fund redemption of such Bonds; and

(iii) *Reserve Fund*. To the Reserve Fund, the amount, if any, necessary to cause the amount on deposit in the Reserve Fund to be equal to the Reserve Requirement.

(d) So long as the City Facilities Account has not been closed pursuant to Section 3.04(d), on each September 2, after having made any requested transfer to the Administrative Expense Fund, the Trustee shall transfer from the Special Tax Fund to the City Facilities Account any amount remaining in the Special Tax Fund; provided, however, that the Community Facilities District may, in a Written Request of the Community Facilities District submitted to the Trustee prior to such September 2, direct the Trustee to retain in the Special Tax Fund all or a portion of such remaining amount.

Section 5.03. Bond Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Bond Fund." Within the Bond Fund, the Trustee shall establish and maintain a separate Account designated the "Principal Account" and a separate Account designated the "Interest Account." The Trustee shall deposit in the Interest Account and the Principal Account from time to time the amounts required to be deposited therein pursuant to Section 5.02. There shall additionally be deposited in the Interest Account the portion, if any, of the proceeds of the sale of Additional Bonds required to be deposited therein under the Supplemental Indenture pursuant to which such Additional Bonds are issued.

(b) In the event that, on the Business Day prior to an Interest Payment Date, after the deposit in the Interest Account of the amounts required to be deposited therein pursuant to Section 5.02, amounts in the Interest Account are insufficient to pay the interest on the Bonds due and payable on such Interest Payment Date, the Trustee shall withdraw from the Reserve Fund, to the extent of any funds therein, the amount of such insufficiency, and shall transfer any amounts so withdrawn to the Interest Account.

(c) On each Interest Payment Date, the Trustee shall withdraw from the Interest Account for payment to the Owners of the Bonds the interest on the Bonds then due and payable.

(d) In the event that, on the Business Day prior to a September 1 on which principal of the Bonds is due and payable, after the deposit in the Principal Account of the amounts required to be deposited therein pursuant to Section 5.02, including principal due and payable by reason of mandatory sinking fund redemption of the Bonds, amounts in the Principal Account are insufficient to pay such principal, after having withdrawn any amounts from the Reserve Fund required to be withdrawn therefrom on such date pursuant to subsection (b) of this Section, the Trustee shall withdraw from the Reserve Fund, to the extent of any funds therein, the amount of such insufficiency, and shall transfer any amounts so withdrawn to the Principal Account.

(e) On each September 1 on which principal of the Bonds is due and payable, including principal due and payable by reason of mandatory sinking fund redemption of the Bonds, the Trustee shall withdraw from the Principal Account for payment to the Owners of the Bonds such principal then due and payable.

Section 5.04. Reserve Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Reserve Fund." On the Closing Date, the Trustee shall deposit in the Reserve Fund the amount required to be deposited therein pursuant to Section 3.02. The Trustee shall deposit in the Reserve Fund from time to time the amounts required to be deposited therein pursuant to Section 5.02(c). There shall additionally be deposited in the Reserve Fund, in connection with the issuance of Additional Bonds, the amount required to be deposited therein under the Supplemental Indenture pursuant to which such Additional Bonds are issued.

(b) Except as otherwise provided in this Section, amounts in the Reserve Fund shall be used and withdrawn by the Trustee solely for the purpose of (i) making transfers to the Interest Account in accordance with Section 5.03(b) in the event of any deficiency in the Interest Account of the amount then required for payment of the interest on the Bonds, (ii) making transfers to the Principal Account in accordance with Section 5.03(d) in the event of any deficiency in the Principal Account of the amount then required for payment of the principal of the Bonds, and (iii) redeeming Bonds in accordance with the provisions of this Section.

(c) Whenever Bonds are to be optionally redeemed or redeemed from Special Tax prepayments, a proportionate share, determined as provided below, of the amount on deposit in the Reserve Fund shall, on the date on which amounts to redeem such Bonds are deposited in the Redemption Fund or otherwise deposited with the Trustee pursuant to Section 10.02, be transferred by the Trustee from the Reserve Fund to the Redemption Fund or to such deposit held by the Trustee and shall be applied to the redemption of said Bonds; provided, however, that such amount shall be so transferred only if and to the extent that the amount remaining on deposit in the Reserve Fund will be at least equal to the Reserve Requirement (excluding from the calculation thereof said Bonds to be redeemed). Such proportionate share shall be equal to the largest integral multiple of the minimum Authorized Denomination for said Bonds that is not larger than the amount equal to the product of (i) the amount on deposit in the Reserve Fund on the date of such transfer, times (ii) a fraction, the numerator of which is the principal amount of Bonds to be so redeemed and the denominator of which is the principal amount of Bonds to be Outstanding on the day prior to the date on which such Bonds are to be so redeemed.

(d) Whenever the balance in the Reserve Fund exceeds the amount required to redeem or pay all Outstanding Bonds, including interest accrued to the date of payment or redemption and premium, if any, due upon redemption, the Trustee shall, upon receipt of a Written Request of the Community Facilities District, transfer the amount in the Reserve Fund to the Interest Account, Principal Account and/or Redemption Fund, as applicable, to be applied, on the next succeeding Interest Payment Date to the payment and redemption of all of the Outstanding Bonds.

(e) If, as a result of the scheduled payment of principal of or interest on the Bonds, the Reserve Requirement is reduced, the Trustee shall transfer an amount equal to the amount of such reduction to the Interest Account.

Section 5.05. Redemption Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Redemption Fund." The Trustee shall deposit in the Redemption Fund (i) amounts received from the Community Facilities District in connection with the Community Facilities District's exercise of its rights to optionally redeem Bonds, (ii) the portion of Special Tax prepayments required to be deposited therein pursuant to Section 5.02(a), (iii) amounts required to be transferred to the Redemption Fund from the Improvement Fund (or Accounts therein) pursuant to Section 3.04, (iv) amounts required to be transferred to the Redemption Fund from the Reserve Fund pursuant to Section 5.04(c) or Section 5.04(d), and (v) amounts required to be deposited therein pursuant to any Supplemental Indenture.

(b) Amounts in the Redemption Fund shall be disbursed therefrom for the payment of the Redemption Price of Series 2024 Bonds redeemed pursuant to Section 4.01(a) or Section 4.01(b) and for the payment of the Redemption Price of Additional Bonds redeemed under the Supplemental Indenture pursuant to which such Additional Bonds are issued (other than mandatory sinking fund redemptions thereof).

Section 5.06. Rebate Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Rebate Fund." There shall be deposited in the Rebate Fund such amounts as are required to be deposited therein pursuant to the Tax Certificate, as specified in a Written Request of the Community Facilities District. All money at any time deposited in the Rebate Fund shall be held by the Trustee in trust, to the extent required to satisfy the Rebate Requirement, for payment to the United States of America. Notwithstanding defeasance of the Bonds pursuant to Article X or anything to the contrary contained herein, all amounts required to be deposited into or on deposit in the Rebate Fund shall be governed exclusively by this Section and by the Tax Certificate, which is hereby incorporated herein as if fully set forth herein. The Trustee shall be deemed conclusively to have complied with such provisions if it follows the written directions of the Community Facilities District, and shall have no liability or responsibility to enforce compliance by the Community Facilities District with the terms of the Tax Certificate. The Trustee may conclusively rely upon the Community Facilities District's determinations, calculations and certifications required by the Tax Certificate. The Trustee shall have no responsibility to independently make any calculation or determination or to review the Community Facilities District's calculations.

(b) Any funds remaining in the Rebate Fund after payment in full of all of the Bonds and after payment of any amounts described in this Section, shall, upon receipt by the Trustee of a Written Request of the Community Facilities District, be withdrawn by the Trustee and remitted to the Community Facilities District.

Section 5.07. Administrative Expense Fund. (a) The Trustee shall establish and maintain a separate Fund designated the "Administrative Expense Fund." [On the Closing Date, the Trustee shall deposit in the Administrative Expense Fund the amount required to be deposited therein pursuant to Section 3.02.] The Trustee shall deposit in the Administrative Expense Fund the amounts transferred from the Special Tax Fund and required to be deposited therein pursuant to Section 5.02.

(b) The moneys in the Administrative Expense Fund shall be used and withdrawn by the Trustee from time to time to pay the Administrative Expenses upon submission of a Written

Request of the Community Facilities District stating (i) the Person to whom payment is to be made, (ii) the amount to be paid and instructions for such payment, (iii) the purpose for which the obligation was incurred and that such purpose constitutes an Administrative Expense, (iv) that such payment is a proper charge against the Administrative Expense Fund, and (v) that payment of such amount has not been the subject of a prior disbursement from the Administrative Expense Fund, in each case together with a statement or invoice for each amount requested thereunder.

Section 5.08. Investment of Moneys. (a) Except as otherwise provided herein, all moneys in any of the Funds or Accounts shall be invested by the Trustee solely in Permitted Investments, as directed in a Written Request of the Community Facilities District received by the Trustee no later than two Business Days prior to the making of such investment. Moneys in all such Funds and Accounts shall be invested in Permitted Investments maturing not later than the date on which it is estimated that such moneys will be required for the purposes specified in this Indenture; provided, however, that Permitted Investments in which moneys in the Reserve Fund are so invested shall mature no later than the earlier of five years from the date of investment or the final maturity date of the Bonds and, provided, further, that if such Permitted Investments may be redeemed at par so as to be available on each Interest Payment Date, any amount in the Reserve Fund may be invested in such redeemable Permitted Investments maturing on any date on or prior to the final maturity date of the Bonds. Absent a timely Written Request of the Community Facilities District with respect to the investment of moneys in any of the Funds or Accounts, the Trustee shall invest such moneys in Permitted Investments described in paragraph (7) of the definition thereof; provided, however, that any such investment shall be made by the Trustee only if, prior to the date on which such investment is to be made, the Trustee shall have received a Written Request of the Community Facilities District specifying a specific money market fund that satisfies the requirements of said paragraph in which such investment is to be made and, if no such Written Request of the Community Facilities District is so received, the Trustee shall hold such moneys uninvested.

(b) Subject to the provisions of Section 5.06, all interest, profits and other income received from the investment of moneys in any Fund or Account (other than the Reserve Fund) shall be retained therein. Subject to the provisions of Section 5.06, all interest, profits or other income received from the investment of moneys in the Reserve Fund shall be transferred to the Interest Account; provided, however, that, notwithstanding the foregoing, any such transfer shall be made from the Reserve Fund only if and to the extent that, after such transfer, the amount on deposit in the Reserve Fund is at least equal to the Reserve Requirement.

(c) Permitted Investments acquired as an investment of moneys in any Fund or Account shall be credited to such Fund or Account. For the purpose of determining the amount in any Fund or Account, all Permitted Investments credited to such Fund or Account shall be valued by the Trustee at the market value thereof, such valuation to be performed not less frequently than semiannually on or before each February 15 and August 15. In determining the market value of Permitted Investments, the Trustee may use and rely upon generally recognized pricing information services, including brokers and dealers in securities, available to it.

(d) The Trustee may act as principal or agent in the making or disposing of any investment. Upon the Written Request of the Community Facilities District, the Trustee shall sell

or present for redemption any Permitted Investments so purchased whenever it shall be necessary to provide moneys to meet any required payment, transfer, withdrawal or disbursement from the Fund or Account to which such Permitted Investments are credited, and the Trustee shall not be liable or responsible for any loss resulting from any investment made or sold pursuant to this Section. For purposes of investment, the Trustee may commingle moneys in any of the Funds and Accounts. The Trustee, in making or disposing of any investment permitted by this Section, may deal with itself (in its individual capacity) or with any one or more of its affiliates, whether it or such affiliate is acting as an agent of the Trustee or for any third person or dealing as a principal for its own account but only if such dealing is not in conflict with, contrary to or in violation of any of the Trustee's fiduciary obligations as Trustee hereunder.

(e) The Community Facilities District acknowledges that to the extent regulations of the Comptroller of the Currency or other applicable regulatory entity grant the Community Facilities District the right to receive brokerage confirmations of security transactions as they occur, at no additional cost, the Community Facilities District specifically waives receipt of such confirmations to the extent permitted by law. The Trustee shall furnish the Community Facilities District periodic cash transaction statements, which shall include detail for all investment transactions made by the Trustee hereunder.

ARTICLE VI

COVENANTS

Section 6.01. Collection of Special Tax Revenues. (a) The Community Facilities District shall comply with all requirements of the Act so as to assure the timely collection of Special Tax Revenues, including the enforcement of delinquent Special Tax payments.

(b) Prior to August 1 of each year, the Community Facilities District shall ascertain from the County Assessor the relevant parcels on which the Special Tax is to be levied, taking into account any parcel splits during the preceding and then current year. The Community Facilities District shall effect the levy of the Special Tax each Fiscal Year in accordance with the Ordinance by each August 10, or otherwise such that the computation of the levy is complete before the final date on which the County Auditor will accept the transmission of the Special Tax amounts for the parcels within the Community Facilities District for inclusion on the next real property tax roll. Upon the completion of the computation of the amounts of the levy, the Community Facilities District shall prepare or cause to be prepared, and shall transmit to the County Auditor, such data as the County Auditor requires in order to include the levy of the Special Tax on the next real property tax roll.

(c) The Community Facilities District shall fix and levy the Special Tax within the Community Facilities District in each Fiscal Year in accordance with the Rate and Method and, subject to the limitations in the Rate and Method as to the maximum Special Tax that may be levied on each parcel, in an amount sufficient to yield Special Tax Revenues in the amount required for (i) the payment of principal of and interest on any Outstanding Bonds becoming due and payable during the Corresponding Bond Year, (ii) any necessary replenishment of the Reserve Fund, and (iii) the payment of Administrative Expenses estimated to be paid from such Special Tax Revenues, taking into account the balances in the Funds and Accounts.

(d) The Special Tax shall be payable and be collected in the same manner and at the same time and in the same installment as the general taxes on real property are payable (or in such other manner as the City Council shall determine, including direct billing of the affected property owners), and have the same priority, become delinquent at the same time and in the same proportionate amounts and bear the same proportionate penalties and interest after delinquency as do the *ad valorem* taxes on real property.

Section 6.02. Foreclosure. Pursuant to Section 53356.1 of the Act, the Community Facilities District hereby covenants with and for the benefit of the Owners that it will determine or cause to be determined, no later than August 15 of each year, whether or not any owners of property within the Community Facilities District are delinquent in the payment of the Special Tax levied thereon and, if such delinquencies exist, the Community Facilities District will order and cause to be commenced no later than October 1, and thereafter diligently prosecute, an action in the superior court to foreclose the lien of the Special Tax or installment thereof not paid when due; provided, however, that the Community Facilities District shall not be required to order the commencement of foreclosure proceedings if (a) the total Special Tax delinquency in the Community Facilities District for such Fiscal Year is less than 5% of the total amount of the Special Tax levied in such Fiscal Year, and (b) the amount then on deposit in the Reserve Fund

is equal to the Reserve Requirement. Notwithstanding the foregoing, if the Community Facilities District determines that any single parcel in the Community Facilities District is delinquent in excess of $7,500 in the payment of the Special Tax, then the Community Facilities District shall diligently institute, prosecute and pursue foreclosure proceedings against such parcel.

Section 6.03. Compliance with Act. The Community Facilities District shall comply with all applicable provisions of the Act.

Section 6.04. Punctual Payment. The Community Facilities District shall punctually pay or cause to be paid the principal, premium, if any, and interest to become due in respect of all the Bonds, in strict conformity with the terms of the Bonds and of this Indenture, according to the true intent and meaning thereof, but only out of Net Special Tax Revenues and other assets pledged for such payment as provided in this Indenture and received by the Community Facilities District or the Trustee.

Section 6.05. Extension of Payment of Bonds. The Community Facilities District shall not directly or indirectly extend or assent to the extension of the maturity of any of the Bonds or the time of payment of any claims for interest by the purchase of such Bonds or by any other arrangement, and in case the maturity of any of the Bonds or the time of payment of any such claims for interest shall be extended, such Bonds or claims for interest shall not be entitled, in case of any default hereunder, to the benefits of this Indenture, except subject to the prior payment in full of the principal of all of the Bonds then Outstanding and of all claims for interest thereon that shall not have been so extended. Nothing in this Section shall be deemed to limit the right of the Community Facilities District to issue Bonds for the purpose of refunding any Outstanding Bonds in accordance with the provisions hereof, and such issuance shall not be deemed to constitute an extension of maturity of the Bonds.

Section 6.06. Against Encumbrances; Defense of Pledge. The Community Facilities District shall not create, or permit the creation of, any pledge of, lien on, security interest in or charge or other encumbrance upon the assets pledged under this Indenture, except as permitted hereby. The Community Facilities District shall at all times, to the extent permitted by law, defend, preserve and protect said pledge of such assets, and the lien thereon and security interest therein created hereby, against all claims and demands of all Persons whomsoever.

Section 6.07. Tax Covenants. (a) The Community Facilities District shall not take any action, or fail to take any action, if such action or failure to take such action would adversely affect the exclusion from gross income of interest on the Series 2024 Bonds under Section 103 of the Code. Without limiting the generality of the foregoing, the Community Facilities District shall comply with the requirements of the Tax Certificate, which is incorporated herein as if fully set forth herein. This covenant shall survive payment in full or defeasance of the Series 2024 Bonds.

(b) In the event that at any time the Community Facilities District is of the opinion that for purposes of this Section it is necessary or helpful to restrict or limit the yield on the investment of any moneys in any of the Funds or Accounts, the Community Facilities District shall so instruct the Trustee in writing, and the Trustee shall take such action as may be necessary in accordance with such instructions.

(c) Notwithstanding any provisions of this Section, if the Community Facilities District shall provide to the Trustee an opinion of Bond Counsel to the effect that any specified action required under this Section is no longer required or that some further or different action is required to maintain the exclusion from federal income tax of interest on the Series 2024 Bonds, the Trustee may conclusively rely on such opinion in complying with the requirements of this Section and of the Tax Certificate, and the covenants hereunder shall be deemed to be modified to that extent.

Section 6.08. Non-Cash Payments of Special Tax. The Community Facilities District shall not authorize owners of taxable parcels within the Community Facilities District to satisfy Special Tax obligations by the tender of Bonds unless the Community Facilities District shall have first obtained a report of an Independent Consultant certifying that doing so would not result in the Community Facilities District having insufficient Special Tax Revenues to pay the principal of and interest on all Outstanding Bonds when due.

Section 6.09. Reduction in Special Tax. The Community Facilities District shall not initiate proceedings under the Act to modify the Rate and Method if such modification would adversely affect the security for the Bonds. If an initiative is adopted that purports to modify the Rate and Method in a manner that would adversely affect the security for the Bonds, the Community Facilities District shall, to the extent permitted by law, commence and pursue reasonable legal actions to prevent the modification of the Rate and Method in a manner that would adversely affect the security for the Bonds.

Section 6.10. Continuing Disclosure. Each of the Community Facilities District and the Trustee shall comply with and carry out all of the provisions of the Continuing Disclosure Agreement applicable to it. Notwithstanding any other provision of this Indenture, failure of the Community Facilities District or the Trustee to comply with the Continuing Disclosure Agreement shall not be considered an Event of Default; provided, however, that the Trustee may (and, at the written direction of any Participating Underwriter or the Owners of at least 25% aggregate principal amount of Outstanding Series 2024 Bonds, and upon receipt of indemnification reasonably satisfactory to the Trustee, shall) or any Owner or Beneficial Owner of the Series 2024 Bonds may, take such actions as may be necessary and appropriate to compel performance, including seeking mandate or specific performance by court order.

Section 6.11. Accounting Records. The Community Facilities District shall keep or cause to be kept appropriate accounting records in which complete and correct entries shall be made of all transactions relating to the Special Tax, which records shall be available for inspection by the Trustee at reasonable hours and under reasonable conditions.

Section 6.12. State Reporting. If at any time principal or interest due on any scheduled payment date for the Bonds is not paid, or if funds are withdrawn from the Reserve Fund to pay principal of or interest on the Bonds, the Trustee shall notify the Community Facilities District in writing of such failure or withdrawal, and the Community Facilities District shall notify the California Debt and Investment Advisory Commission of such failure or withdrawal within ten days of the failure to make such payment or the date of such withdrawal.

Section 6.13. Annual Reports to the California Debt and Investment Advisory Commission. Not later than October 30 of each year, commencing October 30, 2025 and continuing until the October 30 following the final maturity of the Bonds, the Community Facilities District shall supply to the California Debt and Investment Advisory Commission the information required to be provided thereto pursuant to Section 53359.5(b) of the Act. Such information shall be made available to any Owner upon written request to the Community Facilities District accompanied by a fee determined by the Community Facilities District to pay the costs of the Community Facilities District in connection therewith. The Community Facilities District shall in no event be liable to any Owner or any other person or entity in connection with any error in any such information.

Section 6.14. Further Assurances. The Community Facilities District shall make, execute and deliver any and all such further agreements, instruments and assurances as may be reasonably necessary or proper to carry out the intention or to facilitate the performance of this Indenture and for the better assuring and confirming unto the Owners of the rights and benefits provided in this Indenture.

ARTICLE VII

EVENTS OF DEFAULT AND REMEDIES

Section 7.01. Events of Default. The following events shall be Events of Default:

(a) failure to pay any installment of principal of any Bonds when and as the same shall become due and payable, whether at maturity as therein expressed, by proceedings for redemption or otherwise;

(b) failure to pay any installment of interest on any Bonds when and as the same shall become due and payable;

(c) failure by the Community Facilities District to observe and perform any of the other covenants, agreements or conditions on its part in this Indenture or in the Bonds contained, if such failure shall have continued for a period of 30 days after written notice thereof, specifying such failure and requiring the same to be remedied, shall have been given to the Community Facilities District by the Trustee, or to the Community Facilities District and the Trustee by the Owners of not less than 5% in aggregate principal amount of the Bonds at the time Outstanding; provided, however, that, if in the reasonable opinion of the Community Facilities District the failure stated in the notice can be corrected, but not within such 30 day period, such failure shall not constitute an Event of Default if corrective action is instituted by the Community Facilities District within such 30 day period and the Community Facilities District shall thereafter diligently and in good faith cure such failure in a reasonable period of time, provided, further, that, unless otherwise consented to by the Trustee, such period of time shall not exceed 180 days; or

(d) the commencement by the Community Facilities District of a voluntary case under Title 11 of the United States Code or any substitute or successor statute.

Section 7.02. Foreclosure. If an Event of Default shall occur under Section 7.01(a) or Section 7.01(b) then, and in each and every such case during the continuance of such Event of Default, the Trustee may, or at the written direction of the Owners of not less than a majority in aggregate principal amount of the Bonds at the time Outstanding, and upon being indemnified to its satisfaction therefor, shall, commence foreclosure against any parcels of land in the Community Facilities District delinquent in the payment of the Special Tax, as provided in Section 53356.1 of the Act; provided, however, that the Trustee shall not be required to pursue a foreclosure action against any such parcel if the Trustee would be required to take title to, or an ownership interest in, such parcel in connection with or as a result of such foreclosure action.

Section 7.03. Other Remedies. If an Event of Default shall have occurred and be continuing, the Trustee shall have the right:

(a) by mandamus, suit, action or proceeding, to compel the Community Facilities District and its officers, agents or employees to perform each and every term, provision and covenant contained in this Indenture and in the Bonds, and to require the carrying out of any or all such covenants and agreements of the Community Facilities District and the fulfillment of all duties imposed upon it by this Indenture and the Act;

(b) by suit, action or proceeding in equity, to enjoin any acts or things that are unlawful, or the violation of any of the rights of the Trustee or the Owners; or

(c) by suit, action or proceeding in any court of competent jurisdiction, to require the Community Facilities District and its officers and employees to account as if it and they were the trustees of an express trust.

Section 7.04. Remedies Not Exclusive. No remedy herein conferred upon or reserved to the Trustee or to the Owners is intended to be exclusive of any other remedy or remedies, and each and every such remedy, to the extent permitted by law, shall be cumulative and in addition to any other remedy given hereunder or now or hereafter existing at law or in equity or otherwise.

Section 7.05. Application of Net Special Tax Revenues After Default. If an Event of Default shall occur and be continuing, all Net Special Tax Revenues and any other funds thereafter received by the Trustee under any of the provisions of this Indenture shall be applied by the Trustee as follows and in the following order:

(a) to the payment of any expenses incurred by the Trustee necessary in the opinion of the Trustee to protect the interests of the Owners and payment of reasonable fees, charges and expenses of the Trustee (including reasonable fees and disbursements of its counsel) incurred in and about the performance of its powers and duties under this Indenture;

(b) to the payment of the principal and interest then due with respect to the Bonds (upon presentation of the Bonds to be paid, and stamping thereon of the payment if only partially paid, or surrender thereof if fully paid) subject to the provisions of this Indenture, as follows:

First: to the payment to the Persons entitled thereto of all installments of interest on the Bonds then due in the order of the maturity of such installments and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon, to the Persons entitled thereto, without any discrimination or preference; and

Second: to the payment to the Persons entitled thereto of all installments of principal of the Bonds then due, whether at maturity or by call for redemption, with interest on the overdue principal at the rate borne by the respective Bonds on the date of maturity or redemption, and, if the amount available shall not be sufficient to pay in full all the Bonds, together with such interest, then to the payment thereof ratably, according to the amounts of principal due on such date to the Persons entitled thereto, without any discrimination or preference;

(c) any remaining funds shall be transferred by the Trustee to the Special Tax Fund.

Section 7.06. Power of Trustee to Enforce. All rights of action under this Indenture or the Bonds or otherwise may be prosecuted and enforced by the Trustee without the possession of any of the Bonds or the production thereof in any proceeding relating thereto, and any such suit, action or proceeding instituted by the Trustee shall be brought in the name of the Trustee for the benefit and protection of the Owners of such Bonds, subject to the provisions of this Indenture. Nothing herein shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Owner any plan of reorganization, arrangement, adjustment, or composition affecting the Bonds or the rights of any Owner thereof, or to authorize the Trustee to vote in respect of the claim of any Owner in any such proceeding without the approval of the Owners so affected.

Section 7.07. Owners' Direction of Proceedings. Anything in this Indenture to the contrary notwithstanding, the Owners of a majority in aggregate principal amount of the Bonds then Outstanding shall have the right, by an instrument or concurrent instruments in writing executed and delivered to the Trustee, and upon indemnification of the Trustee to its reasonable satisfaction, to direct the method of conducting all remedial proceedings taken by the Trustee hereunder; provided, however, that such direction shall not be otherwise than in accordance with the provisions of this Indenture, the Act and other applicable law and, provided, further, that the Trustee shall have the right to decline to follow any such direction that in the opinion of the Trustee would be unjustly prejudicial to Owners not parties to such direction.

Section 7.08. Limitation on Owners' Right to Sue. No Owner of any Bond shall have the right to institute any suit, action or proceeding at law or in equity, for the protection or enforcement of any right or remedy under this Indenture, the Act or any other applicable law with respect to such Bond, unless (a) such Owner shall have given to the Trustee written notice of the occurrence of an Event of Default, (b) the Owners of a majority in aggregate principal amount of the Bonds then Outstanding shall have made written request upon the Trustee to exercise the powers hereinbefore granted or to institute such suit, action or proceeding in its own name, (c) such Owner or said Owners shall have tendered to the Trustee indemnity reasonably satisfactory to the Trustee against the costs, expenses and liabilities to be incurred in compliance with such request, and (d) the Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Trustee.

Such notification, request, tender of indemnity and refusal or omission are hereby declared, in every case, to be conditions precedent to the exercise by any Owner of any remedy hereunder or under law; it being understood and intended that no one or more Owners shall have any right in any manner whatever by such Owner's or Owners' action to affect, disturb or prejudice the security of this Indenture or the rights of any other Owners, or to enforce any right under the Bonds, this Indenture, the Act or other applicable law with respect to the Bonds, except in the manner herein provided, and that all proceedings at law or in equity to enforce any such right shall be instituted, had and maintained in the manner herein provided and for the benefit and protection of all Owners, subject to the provisions of this Indenture.

Section 7.09. Absolute Obligation. Nothing in this Indenture or the Bonds contained shall affect or impair the obligation of the Community Facilities District, which is absolute and unconditional, to pay the principal of and interest on the Bonds to the respective Owners as the

same become due, as herein provided, but only out of the Net Special Tax Revenues and other assets pledged therefor hereunder, or affect or impair the right of such Owners, which is also absolute and unconditional, to enforce such payment by virtue of the contract embodied in the Bonds.

Section 7.10. Termination of Proceedings. In case any proceedings taken by the Trustee or any one or more Owners on account of any Event of Default shall have been discontinued or abandoned for any reason or shall have been determined adversely to the Trustee or the Owners, then in every such case the Community Facilities District, the Trustee and the Owners, subject to any determination in such proceedings, shall be restored to their former positions and rights hereunder, severally and respectively, and all rights, remedies, powers and duties of the Community Facilities District, the Trustee and the Owners shall continue as though no such proceedings had been taken.

Section 7.11. No Waiver of Default. No delay or omission of the Trustee or of any Owner to exercise any right or power arising upon the occurrence of any default or Event of Default shall impair any such right or power or shall be construed to be a waiver of any such default or Event of Default or an acquiescence therein, and every power and remedy given by this Indenture to the Trustee or to the Owners may be exercised from time to time and as often as may be deemed expedient.

ARTICLE VIII

TRUSTEE

Section 8.01. Duties and Liabilities of Trustee. The Trustee shall, prior to an Event of Default, and after the curing or waiver of all Events of Default that may have occurred, perform such duties and only such duties as are expressly and specifically set forth in this Indenture. The Trustee shall, during the existence of any Event of Default that has not been cured or waived, exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in their exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

Section 8.02. Qualifications; Removal and Resignation; Successors. (a) The Trustee initially a party hereto and any successor thereto shall at all times be a trust company, national banking association or bank having trust powers in good standing in or incorporated under the laws of the United States or any state thereof, that is (or if such trust company, national banking association or bank is a member of a bank holding company system, its parent bank holding company is) (i) a national banking association that is supervised by the Office of the Comptroller of the Currency and has at least $250 million of assets, or (ii) a state-chartered commercial bank that is a member of the Federal Reserve System and has at least $1 billion of assets. If such trust company, national banking association or bank publishes a report of condition at least annually, pursuant to law or to the requirements of any supervising or examining agency above referred to, then for the purpose of this subsection the combined capital and surplus of such trust company, national banking association or bank shall be deemed to be its combined capital and surplus as set forth in its most recent report of condition so published.

(b) The Community Facilities District may, by an instrument in writing, upon at least 30 days' notice to the Trustee, remove the Trustee initially a party hereto and any successor thereto unless an Event of Default shall have occurred and then be continuing, and shall remove the Trustee initially a party hereto and any successor thereto if (i) at any time requested to do so by an instrument or concurrent instruments in writing signed by the Owners of not less than a majority in aggregate principal amount of the Bonds then Outstanding (or their attorneys duly authorized in writing), or (ii) the Trustee shall cease to be eligible in accordance with subsection (a) of this Section, or shall become incapable of acting, or shall be adjudged a bankrupt or insolvent, or a receiver of the Trustee or its property shall be appointed, or any public officer shall take control or charge of the Trustee or of its property or affairs for the purpose of rehabilitation, conservation or liquidation, in each case by giving written notice of such removal to the Trustee.

(c) The Trustee may at any time resign by giving written notice of such resignation by first-class mail, postage prepaid, to the Community Facilities District, and to the Owners at the respective addresses shown on the Registration Books. In case at any time the Trustee shall cease to be eligible in accordance with the provisions of subsection (a) of this Section, the Trustee shall resign immediately in the manner and with the effect specified in this Section.

(d) Upon removal or resignation of the Trustee, the Community Facilities District shall promptly appoint a successor Trustee by an instrument in writing. Any removal or

resignation of the Trustee and appointment of a successor Trustee shall become effective upon acceptance of appointment by the successor Trustee; provided, however, that any successor Trustee shall be qualified as provided in subsection (a) of this Section. If no qualified successor Trustee shall have been appointed and have accepted appointment within 45 days following notice of removal or notice of resignation as aforesaid, the removed or resigning Trustee or any Owner (on behalf of such Owner and all other Owners) may petition any court of competent jurisdiction for the appointment of a successor Trustee, and such court may thereupon, after such notice, if any, as it may deem proper, appoint such successor Trustee. Any successor Trustee appointed under this Indenture shall signify its acceptance of such appointment by executing and delivering to the Community Facilities District and to its predecessor Trustee a written acceptance thereof, and thereupon such successor Trustee, without any further act, deed or conveyance, shall become vested with all the moneys, estates, properties, rights, powers, trusts, duties and obligations of such predecessor Trustee, with like effect as if originally named Trustee herein; but, nevertheless at the Written Request of the Community Facilities District or the request of the successor Trustee, such predecessor Trustee shall execute and deliver any and all instruments of conveyance or further assurance and do such other things as may reasonably be required for more fully and certainly vesting in and confirming to such successor Trustee all the right, title and interest of such predecessor Trustee in and to any property held by it under this Indenture and shall pay over, transfer, assign and deliver to the successor Trustee any money or other property subject to the trusts and conditions herein set forth. Upon acceptance of appointment by a successor Trustee as provided in this subsection, the successor Trustee shall, within 15 days after such acceptance, mail, by first-class mail postage prepaid, a notice of the succession of such Trustee to the trusts hereunder to the Owners at the addresses shown on the Registration Books.

(e) Any trust company, national banking association or bank into which the Trustee may be merged or converted or with which it may be consolidated or any trust company, national banking association or bank resulting from any merger, conversion or consolidation to which it shall be a party or any trust company, national banking association or bank to which the Trustee may sell or transfer all or substantially all of its corporate trust business, provided such trust company, national banking association or bank shall be eligible under subsection (a) of this Section, shall be the successor to such Trustee, without the execution or filing of any paper or any further act, anything herein to the contrary notwithstanding.

Section 8.03. Liability of Trustee. (a) The recitals of facts herein and in the Bonds contained shall be taken as statements of the Community Facilities District, and the Trustee shall not assume responsibility for the correctness of the same or incur any responsibility in respect thereof, other than as expressly stated herein in connection with the respective duties or obligations herein or in the Bonds assigned to or imposed upon it. The Trustee shall, however, be responsible for its representations contained in its certificate of authentication on the Bonds.

(b) The Trustee makes no representations as to the validity or sufficiency of this Indenture or of any Bonds, or in respect of the security afforded by this Indenture and the Trustee shall incur no responsibility in respect thereof. The Trustee shall be under no responsibility or duty with respect to the issuance of the Bonds for value, the application of the proceeds thereof except to the extent that such proceeds are received by it in its capacity as Trustee, or the

application of any moneys paid to the Community Facilities District or others in accordance with this Indenture.

(c) The Trustee shall not be liable in connection with the performance of its duties hereunder, except for its own negligence or willful misconduct.

(d) No provision of this Indenture or any other document related hereto shall require the Trustee to risk or advance its own funds.

(e) The Trustee may execute any of its powers or duties hereunder through attorneys, agents or receivers and shall not be answerable for the actions of such attorneys, agents or receivers if selected by it with reasonable care.

(f) The Trustee shall not be liable for any error of judgment made in good faith by a responsible officer, unless it shall be proved that the Trustee was negligent in ascertaining the pertinent facts.

(g) The immunities and protections extended to the Trustee also extend to its directors, officers, employees and agents.

(h) Before taking action under Article VII, under this Article or upon the direction of the Owners, the Trustee may require indemnity reasonably satisfactory to the Trustee be furnished to it to protect it against all fees and expenses, including those of its attorneys and advisors, and protect it against all liability it may incur.

(i) The Trustee shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the Owners of not less than a majority in aggregate principal amount of the Bonds at the time Outstanding relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee under this Indenture.

(j) The Trustee may become the Owner of Bonds with the same rights it would have if it were not Trustee and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as a member of, or in any other capacity with respect to, any committee formed to protect the rights of Owners, whether or not such committee shall represent the Owners of a majority in aggregate principal amount of the Bonds then Outstanding.

(k) The Trustee shall have no responsibility with respect to any information, statement, or recital in any official statement, offering memorandum or any other disclosure material prepared or distributed with respect to the Bonds.

(l) The Trustee shall not be liable for the failure to take any action required to be taken by it hereunder if and to the extent that the Trustee's taking such action is prevented by reason of an act of God, terrorism, war, riot, strike, fire, flood, earthquake, epidemic or other, similar occurrence that is beyond the control of the Trustee and could not have been avoided by exercising due care.

(m) The Trustee shall not be deemed to have knowledge of an Event of Default hereunder unless it has actual knowledge thereof.

(n) The permissive right of the Trustee to do things enumerated in this Indenture shall not be construed as a duty and it shall not be answerable for other than its negligence or willful misconduct.

(o) The Trustee shall not be responsible for or accountable to anyone for the subsequent use or application of any moneys that shall be released or withdrawn in accordance with the provisions hereof.

Section 8.04. Right to Rely on Documents and Opinions. (a) The Trustee shall be protected in acting upon any notice, resolution, request, requisition, facsimile, consent, order, certificate, report, opinion, bond or other paper or document believed by it to be genuine and to have been signed or presented by the proper party or parties. Each statement of facts contained in a Written Request of the Community Facilities District or a Written Certificate of the Community Facilities District shall be sufficient evidence to the Trustee of the facts so stated and the Trustee shall have no duty to confirm the accuracy of such facts.

(b) The Trustee shall have the right to accept and act upon a Written Request of the Community Facilities District delivered using Electronic Means. If the Community Facilities District elects to deliver a Written Request of the Community Facilities District to the Trustee using Electronic Means and the Trustee acts upon such Written Request, the Trustee's understanding of such Written Request shall be deemed controlling. The Community Facilities District understands and agrees that the Trustee cannot determine the identity of the actual sender of such Written Request and that the Trustee shall conclusively presume that Written Requests of the Community Facilities District that purport to have been sent by an Authorized Representative of the Community Facilities District have been sent by such Authorized Representative. The Community Facilities District shall be responsible for ensuring that only Authorized Representatives transmit such Written Requests of the Community Facilities District to the Trustee and that the Community Facilities District is solely responsible to safeguard the use and confidentiality of applicable user and authorization codes, passwords and/or authentication keys upon receipt thereof by the Community Facilities District. The Trustee shall not be liable for any losses, costs or expenses arising directly or indirectly from the Trustee's reliance upon and compliance with such Written Requests of the Community Facilities District delivered using Electronic Means notwithstanding such directions conflict or are inconsistent with a subsequent written Written Requests of the Community Facilities District. The Community Facilities District agrees (i) to assume all risks arising out of the use of Electronic Means to submit Written Requests of the Community Facilities District to the Trustee, including the risk of the Trustee acting on unauthorized Written Requests of the Community Facilities District, and the risk of interception and misuse by third parties, (ii) that it is fully informed of the protections and risks associated with the various methods of transmitting Written Requests of the Community Facilities District to the Trustee and that there may be more secure methods of transmitting Written Requests of the Community Facilities District than the method selected by the Community Facilities District, (iii) that the security procedures, if any, to be followed in connection with its transmission of Written Requests of the Community Facilities District provide to it a commercially reasonable degree of protection in light of its particular needs and

circumstances, and (iv) to notify the Trustee immediately upon learning of any compromise or unauthorized use of the security procedures. Notwithstanding the foregoing, the provisions of this subsection, and the Trustee's actions pursuant hereto, are subject to the Trustee's standard of care and limitations on liability set forth in Sections 8.03 and 8.04; provided, however, that the Trustee's reliance on a Written Request of the Community Facilities District that purports to have been sent by an Authorized Representative of the Community Facilities District delivered in accordance with this Section using Electronic Means shall not, in and of itself, be construed as negligence.

(c) Whenever in the administration of the duties imposed upon it by this Indenture the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or suffering any action hereunder, such matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a Written Certificate of the Community Facilities District, and such Written Certificate shall be full warrant to the Trustee for any action taken or suffered in good faith under the provisions of this Indenture in reliance upon such Written Certificate, but in its discretion the Trustee may, in lieu thereof, accept other evidence of such matter or may require such additional evidence as it may deem reasonable.

(d) The Trustee may consult with counsel, who may be counsel to the Community Facilities District, with regard to legal questions, including with respect to compliance herewith of amendments hereto, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance therewith.

Section 8.05. Accounting Records and Financial Statements. The Trustee shall at all times keep, or cause to be kept, proper books of record and account, prepared in accordance with prudent corporate trust industry standards, in which accurate entries shall be made of all transactions made by it relating to the proceeds of the Bonds, the Special Tax Revenues received by it and all Funds and Accounts established by it pursuant to this Indenture. Such books of record and account shall be available for inspection by the Community Facilities District during regular business hours and upon reasonable notice and under reasonable circumstances as agreed to by the Trustee. The Trustee shall deliver to the Community Facilities District a monthly accounting of the Funds and Accounts; provided, however, that the Trustee shall not be obligated to deliver an accounting for any Fund or Account that (a) has a balance of zero, and (b) has not had any activity since the last reporting date.

Section 8.06. Preservation and Inspection of Documents. All documents received by the Trustee under the provisions of this Indenture shall be retained in its possession and shall be subject during business hours and upon reasonable notice to the inspection of the Community Facilities District, the Owners and their agents and representatives duly authorized in writing.

Section 8.07. Compensation and Indemnification. The Community Facilities District shall pay to the Trustee from time to time from Special Tax Revenues all reasonable compensation pursuant to a pre-approved fee letter for all services rendered under this Indenture, and also all reasonable expenses, charges, legal and consulting fees pursuant to a pre-approved fee letter and other disbursements pursuant to a pre-approved fee letter and those of its attorneys,

agents and employees, incurred in and about the performance of their powers and duties under this Indenture. The Community Facilities District shall, to the extent permitted by law, from Special Tax Revenues, indemnify and save the Trustee and its officers, directors and employees harmless against any costs, suits, judgments, damages, liabilities, claims, expenses, including legal fees and expenses, and liabilities that it may incur in the exercise and performance of its powers and duties hereunder, including the enforcement of any remedies and the defense of any suit, and that are not due to its negligence or its willful misconduct. The duty of the Community Facilities District to indemnify the Trustee shall survive the resignation or removal of the Trustee and the discharge and satisfaction of this Indenture.

ARTICLE IX

SUPPLEMENTAL INDENTURES

Section 9.01. Supplemental Indentures. (a) This Indenture and the rights and obligations of the Community Facilities District, the Trustee and the Owners hereunder may be amended, supplemented or otherwise modified from time to time and at any time by a Supplemental Indenture, which the Community Facilities District and the Trustee may enter into when there are submitted to the Trustee the written consents of the Owners of a majority of the aggregate principal amount of the Bonds then Outstanding, exclusive of Bonds disqualified as provided in Section 11.07. No such modification or amendment shall (i) extend the fixed maturity of any Bond, reduce the amount of principal thereof or the rate of interest thereon, extend the time of payment thereof or alter the redemption provisions thereof, without the prior written consent of the Owner of each Bond so affected, (ii) permit any pledge of, or the creation of any lien on, security interest in or charge or other encumbrance upon the assets pledged under this Indenture prior to or on a parity with the pledge contained in, and the lien and security interest created by, this Indenture or deprive the Owners of the pledge contained in, and the lien and security interest created by, this Indenture, except as expressly provided in this Indenture, without the prior written consents of the Owners of all Bonds then Outstanding, or (iii) modify or amend this Section without the prior written consents of the Owners of all Bonds then Outstanding.

(b) This Indenture and the rights and obligations of the Community Facilities District, the Trustee and the Owners hereunder may also be amended, supplemented or otherwise modified from time to time and at any time by a Supplemental Indenture, which the Community Facilities District and the Trustee may enter into without the consent of any Owners for any one or more of the following purposes:

(i) to add to the covenants and agreements of the Community Facilities District in this Indenture contained, other covenants and agreements thereafter to be observed, to pledge or assign additional security for the Bonds (or any portion thereof), or to surrender any right or power herein reserved to or conferred upon the Community Facilities District;

(ii) to make such provisions for the purpose of curing any ambiguity, inconsistency or omission, or of curing or correcting any defective provision contained in this Indenture, provided that such modification or amendment does not materially adversely affect the rights or interests of the Owners hereunder;

(iii) to provide for the issuance of one or more Series of Additional Bonds, and to provide the terms and conditions under which such Series of Additional Bonds may be issued, subject to and in accordance with the provisions of Article III;

(iv) to permit the qualification of this Indenture under the Trust Indenture Act of 1939, as amended, or any similar federal statute hereafter in effect;

(v) to cause interest on the Bonds to be excludable from gross income for purposes of federal income taxation by the United States of America; and

(vi) in any other respect whatsoever as the Community Facilities District may deem necessary or desirable, provided that such modification or amendment does not materially adversely affect the rights or interests of the Owners hereunder.

(c) Promptly after the execution by the Community Facilities District and the Trustee of any Supplemental Indenture, the Trustee shall mail a notice (the form of which shall be furnished to the Trustee by the Community Facilities District), by first-class mail postage prepaid, setting forth in general terms the substance of such Supplemental Indenture, to the Owners at the respective addresses shown on the Registration Books. Any failure to give such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such Supplemental Indenture.

Section 9.02. Effect of Supplemental Indenture. Upon the execution of any Supplemental Indenture pursuant to this Article, this Indenture shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties and obligations under this Indenture of the Community Facilities District, the Trustee and the Owners shall thereafter be determined, exercised and enforced hereunder subject in all respects to such modification and amendment, and all the terms and conditions of any such Supplemental Indenture shall be deemed to be part of the terms and conditions of this Indenture for any and all purposes.

Section 9.03. Endorsement of Bonds; Preparation of New Bonds. Bonds delivered after the effective date of any Supplemental Indenture pursuant to this Article may and, if the Community Facilities District so determines, shall bear a notation by endorsement or otherwise in form approved by the Community Facilities District and the Trustee as to any modification or amendment provided for in such Supplemental Indenture, and, in that case, upon demand of the Owner of any Bond Outstanding at the time of such effective date and presentation of such Bond for such purpose at the Office of the Trustee a suitable notation shall be made on such Bonds. If the Supplemental Indenture shall so provide, new Bonds so modified as to conform, in the opinion of the Community Facilities District and the Trustee, to any modification or amendment contained in such Supplemental Indenture, shall be prepared and executed by the Community Facilities District and authenticated by the Trustee and, in that case, upon demand of the Owner of any Bond Outstanding at the time of such effective date, and presentation of such Bond for such purpose at the Office of the Trustee, such a new Bond in equal principal amount of the same Series, interest rate and maturity shall be exchanged for such Owner's Bond so surrendered.

Section 9.04. Amendment of Particular Bonds. The provisions of this Article shall not prevent any Owner from accepting any amendment, supplement or other modification as to any particular Bond owned by it, provided that due notation thereof is made on such Bond.

ARTICLE X

DEFEASANCE

Section 10.01. Discharge of Indenture. (a) If the Community Facilities District shall pay or cause to be paid or there shall otherwise be paid to the Owners of all Outstanding Bonds the principal thereof and the interest and premium, if any, thereon at the times and in the manner stipulated herein and therein, then the Owners shall cease to be entitled to the pledge of the Net Special Tax Revenues and the other assets pledged therefor hereunder, and all agreements, covenants and other obligations of the Community Facilities District hereunder shall thereupon cease, terminate and become void and this Indenture shall be discharged and satisfied. In such event, the Trustee shall execute and deliver to the Community Facilities District all such instruments as may be necessary or desirable to evidence such discharge and satisfaction, and the Trustee shall pay over or deliver to the Community Facilities District all money or securities held by it pursuant hereto that are not required for the payment of the principal of and interest and premium, if any, on the Bonds.

(b) Subject to the provisions of subsection (a) of this Section, if the Community Facilities District shall pay or cause to be paid to the Owner of an Outstanding Bond the principal thereof and the interest and premium, if any, thereon at the times and in the manner stipulated herein and therein, such Owner shall cease to be entitled to the pledge of the Net Special Tax Revenues and the other assets pledged therefor hereunder and all agreements, covenants and other obligations of the Community Facilities District hereunder shall thereupon cease, terminate and become void and this Indenture shall be discharged and satisfied as to such Bond.

(c) Notwithstanding the discharge and satisfaction of this Indenture or the discharge and satisfaction of this Indenture in respect of any Bond, those provisions of this Indenture relating to the maturity of the Bonds, interest payments and dates thereof, exchange and transfer of Bonds, replacement of mutilated, destroyed, lost or stolen Bonds, the safekeeping and cancellation of Bonds, non-presentment of Bonds, and the duties of the Trustee in connection with all of the foregoing, shall remain in effect and shall be binding upon the Trustee and the Owner of such Bond, and the Trustee shall continue to be obligated to hold in trust any moneys or investments then held by the Trustee for the payment of the principal of and interest and premium, if any, on such Bond, and to pay to the Owner of such Bond the funds so held by the Trustee as and when such payment becomes due. Notwithstanding the discharge and satisfaction of this Indenture, the obligation of the Community Facilities District to indemnify the Trustee pursuant to Section 8.07 shall remain in effect and be binding upon the Community Facilities District.

Section 10.02. Bonds Deemed To Have Been Paid. (a) If moneys shall have been set aside and held by the Trustee for the payment or redemption of any Bond and the payment of the interest thereon to the maturity or redemption date thereof, such Bond shall be deemed to have been paid within the meaning and with the effect provided in Section 10.01. Any Outstanding Bond shall prior to the maturity date or redemption date thereof be deemed to have been paid within the meaning of and with the effect expressed in Section 10.01 if (i) in case such Bond is to be redeemed on any date prior to its maturity date, the Community Facilities District shall have

given to the Trustee in form satisfactory to it irrevocable instructions to mail, on a date in accordance with the provisions of Section 4.02, notice of redemption of such Bond on said redemption date, said notice to be given in accordance with Section 4.02, (ii) there shall have been deposited with the Trustee either (A) money in an amount that shall be sufficient, or (B) Defeasance Securities, the principal of and the interest on which when due, and without any reinvestment thereof, together with the money, if any, deposited therewith, will provide moneys that shall be sufficient to pay when due the interest to become due on such Bond on and prior to the maturity date or redemption date thereof, as the case may be, and the principal of and premium, if any, on such Bond, and (iii) in the event such Bond is not by its terms subject to redemption within the next succeeding 60 days, the Community Facilities District shall have given the Trustee, in form satisfactory to it, irrevocable instructions to mail as soon as practicable, a notice to the Owner of such Bond that the deposit required by clause (ii) above has been made with the Trustee and that such Bond is deemed to have been paid in accordance with this Section and stating the maturity date or redemption date upon which money is to be available for the payment of the principal of and premium, if any, on such Bond.

(b) No Bond shall be deemed to have been paid pursuant to clause (ii) of subsection (a) of this Section unless the Community Facilities District shall have caused to be delivered to the Community Facilities District and the Trustee (i) an executed copy of a Verification Report with respect to such deemed payment, addressed to the Community Facilities District and the Trustee, in form and in substance acceptable to the Community Facilities District, (ii) a copy of the escrow agreement entered into in connection with the deposit pursuant to clause (ii)(B) of subsection (a) of this Section resulting in such deemed payment, which escrow agreement shall be in form and in substance acceptable to the Community Facilities District and which escrow agreement shall provide that no substitution of Defeasance Securities shall be permitted except with other Defeasance Securities and upon delivery of a new Verification Report, and no reinvestment of Defeasance Securities shall be permitted except as contemplated by the original Verification Report or upon delivery of a new Verification Report, and (iii) a copy of an opinion of Bond Counsel, dated the date of such deemed payment and addressed to the Community Facilities District and the Trustee, in form and in substance acceptable to the Community Facilities District, to the effect that such Bond has been paid within the meaning and with the effect expressed in this Indenture, all agreements, covenants and other obligations of the Community Facilities District hereunder have ceased, terminated and become void and the Indenture has been discharged and satisfied as to such Bonds.

Section 10.03. Unclaimed Moneys. Any moneys held by the Trustee in trust for the payment of the principal of, or premium or interest on, any Bond that remain unclaimed for two years after the date when such principal, premium or interest has become payable, if such moneys were held by the Trustee at such date, or for two years after the date of deposit of such moneys if deposited with the Trustee after the date when such principal, premium or interest become payable, shall be repaid by the Trustee to the Community Facilities District as its absolute property free from trust, and the Trustee shall thereupon be released and discharged with respect thereto and the Owner of such Bond shall look only to the Community Facilities District for the payment of such principal, premium or interest. The Trustee shall hold any such moneys uninvested.

ARTICLE XI

MISCELLANEOUS

Section 11.01. Successor Is Deemed Included in All References to Predecessor. Whenever in this Indenture either the Community Facilities District or the Trustee is named or referred to, such reference shall be deemed to include the successors or assigns thereof, and all the covenants and agreements in this Indenture contained required hereby to be performed by or on behalf of the Community Facilities District or the Trustee shall bind and inure to the benefit of the respective successors and assigns thereof whether so expressed or not.

Section 11.02. Limitation of Rights. Nothing in this Indenture or in the Bonds expressed or implied is intended or shall be construed to give to any Person other than the Trustee, the Community Facilities District and the Owners, any legal or equitable right, remedy or claim under or in respect of this Indenture or any covenant, condition or provision therein or herein contained, and all such covenants, conditions and provisions are and shall be held to be for the sole and exclusive benefit of the Trustee, the Community Facilities District and the Owners.

Section 11.03. Destruction of Bonds. Whenever in this Indenture provision is made for the cancellation by the Trustee and the delivery to the Community Facilities District of any Bonds, the Trustee shall, in lieu of such cancellation and delivery, destroy such Bonds.

Section 11.04. Severability of Invalid Provisions. If any term or provision of this Indenture or the Bonds, or the application of the term or provision to any Person or circumstance is, to any extent, held to be invalid or unenforceable in any jurisdiction, but the extent of such invalidity or unenforceability does not destroy the basis of the bargain between the parties as contained herein, the remainder of this Indenture or the Bonds, as applicable, or the application of the term or provision to Persons or circumstances other than those as to which the term or provision is held invalid or unenforceable, shall not be affected by such invalidity or unenforceability, and each remaining term or provision of this Indenture and the Bonds shall be valid and will be enforced to the fullest extent permitted by law.

Section 11.05. Notices. Any written notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication to be given hereunder shall be given to the party entitled thereto at its address set forth below, or at such other address as such party may provide to the other parties in writing from time to time, namely:

If to the Community Facilities District:

City of Ontario Community Facilities District
No. 35 (Countryside Phase 2 South - Facilities)
c/o City of Ontario
303 East "B" Street
Ontario, California 91764
Attention: Executive Director of Finance

If to the Trustee:

Zions Bancorporation, National Association
550 South Hope Street, Suite 2875
Los Angeles, California 90071
Attention: Corporate Trust Services

If to NMC Builders:

NMC Builders, LLC
c/o SC Ontario Development Corporation
1156 North Mountain Avenue
Upland, California 91786
Attention: Administrative Member

Each such notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication hereunder shall be deemed delivered to the party to whom it is addressed (a) if given by courier or delivery service or if personally served or delivered, upon delivery, (b) if given by electronic mail, on the date sent, but only if confirmation of the receipt of such electronic mail is received or if notice is concurrently sent by another means specified herein, (c) if given by registered or certified mail, return receipt requested, deposited with the United States mail postage prepaid, 72 hours after such notice is deposited with the United States mail, or (d) if given by any other means, upon delivery at the address specified in this Section.

Section 11.06. Evidence of Rights of Owners. (a) Any request, consent or other instrument required or permitted by this Indenture to be signed and executed by Owners may be in any number of concurrent instruments of substantially similar tenor and shall be signed or executed by such Owners in person or by an agent or agents duly appointed in writing. Proof of the execution of any such request, consent or other instrument or of a writing appointing any such agent shall be sufficient for any purpose of this Indenture and shall be conclusive in favor of the Trustee and the Community Facilities District if made in the manner provided in this Section.

(b) The fact and date of the execution by any Person of any such request, consent or other instrument or writing may be proved by the certificate of any notary public or other officer of any jurisdiction, authorized by the laws thereof to take acknowledgments of deeds, certifying that the Person signing such request, consent or other instrument acknowledged to such notary public or such officer the execution thereof, or by an affidavit of a witness of such execution duly sworn to before such notary public or other officer.

(c) The ownership of Bonds shall be proved by the Registration Books.

(d) Any request, consent or other instrument or writing of the Owner of any Bond shall bind every future Owner of the same Bond and the Owner of every Bond issued in exchange therefor or in lieu thereof, in respect of anything done or suffered to be done by the Trustee or the Community Facilities District in accordance therewith or reliance thereon.

Section 11.07. Disqualified Bonds. In determining whether the Owners of the requisite aggregate principal amount of Bonds have concurred in any demand, request, direction, consent or waiver under this Indenture, Bonds that are actually known by the Trustee to be owned or held by or for the account of the Community Facilities District, or by any other obligor on the Bonds, or by any Person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Community Facilities District or any other obligor on the Bonds, shall be disregarded and deemed not to be Outstanding for the purpose of any such determination; provided, however, that if 100% of the Bonds are so owned or held, such Bonds shall be deemed to be Outstanding. Bonds so owned that have been pledged in good faith may be regarded as Outstanding for the purposes of this Section if the pledgee shall establish to the satisfaction of the Trustee the pledgee's right to vote such Bonds and that the pledgee is not a Person directly or indirectly controlling or controlled by, or under direct or indirect common control with, the Community Facilities District or any other obligor on the Bonds. In case of a dispute as to such right, any decision by the Trustee taken upon the advice of counsel shall be full protection to the Trustee. Upon request of the Trustee, the Community Facilities District shall specify in a Written Certificate of the Community Facilities District submitted to the Trustee those Bonds, if any, that are, as of the date of such Written Certificate, owned or held by or for the account of the Community Facilities District.

Section 11.08. Money Held for Particular Bonds. The money held by the Trustee for the payment of the interest, principal or premium due on any date with respect to particular Bonds (or portions of Bonds in the case of Bonds redeemed in part only) shall, on and after such date and pending such payment, be set aside on its books and held in trust by it for the Owner entitled thereto, subject, however, to the provisions of Section 10.03, but without any liability for interest thereon.

Section 11.09. Funds and Accounts. Any Fund or Account required by this Indenture to be established and maintained by the Trustee may be established and maintained in the accounting records of the Trustee, either as a fund or an account, and may, for the purposes of such records, any audits thereof and any reports or statements with respect thereto, be treated either as a fund or as an account, but all such records with respect to all such Funds and Accounts shall at all times be maintained in accordance with prudent corporate trust industry standards, and with due regard for the requirements hereof and for the protection of the security of the Bonds and the rights of every Owner thereof. The Trustee may establish any such additional Funds or Accounts as it deems necessary to perform its obligations hereunder.

Section 11.10. Business Days. If the date for making any payment or the last date for performance of any act or the exercising of any right, as provided in this Indenture, shall not be a Business Day, such payment may be made or act performed or right exercised on the next succeeding Business Day, with the same force and effect as if done on the nominal date provided in this Indenture and, unless otherwise specifically provided in this Indenture, no interest shall accrue for the period from and after such nominal date.

Section 11.11. Waiver of Personal Liability. No member, officer, agent or employee of the Community Facilities District or the City shall be individually or personally liable for the payment of the principal of or premium or interest on the Bonds or be subject to any personal liability or accountability by reason of the issuance thereof, but nothing herein contained shall

relieve any such member, officer, agent or employee from the performance of any official duty provided by any applicable provision of law or by this Indenture.

Section 11.12. Conflict with Act. In the event of any conflict between any provision of this Indenture and any provision of the Act, the provision of the Act shall prevail over the provision of this Indenture.

Section 11.13. Conclusive Evidence of Regularity. Bonds issued pursuant to this Indenture shall constitute evidence of the regularity of all proceedings under the Act relative to their issuance and to the levy of the Special Tax.

Section 11.14. Governing Laws. This Indenture shall be governed by and construed in accordance with the laws of the State.

Section 11.15. Electronic Signature. Each of the parties hereto agrees that the transaction consisting of this Indenture may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent, that if such party signs this Indenture using an electronic signature, it is signing, adopting and accepting this Indenture and that signing this Indenture using an electronic signature is the legal equivalent of having placed its handwritten signature on this Indenture on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this Indenture in a usable format.

Section 11.16. Execution in Several Counterparts. This Indenture may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original, and all such counterparts shall together constitute but one and the same instrument.

IN WITNESS WHEREOF, the Community Facilities District has caused this Indenture to be signed in its name by its representative thereunto duly authorized, and the Trustee, in token of its acceptance of the trusts created hereunder, has caused this Indenture to be signed in its corporate name by its officer thereunto duly authorized, all as of the day and year first above written.

EXHIBIT A

PERMITTED INVESTMENTS

"Permitted Investments" means the following:

(1) (a) Direct obligations (other than an obligation subject to variation in principal repayment) of the United States of America ("United States Treasury Obligations"), (b) obligations fully and unconditionally guaranteed as to timely payment of principal and interest by the United States of America, (c) obligations fully and unconditionally guaranteed as to timely payment of principal and interest by any agency or instrumentality of the United States of America when such obligations are backed by the full faith and credit of the United States of America, or (d) evidences of ownership of proportionate interests in future interest and principal payments on obligations described above held by a bank or trust company as custodian, under which the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor and the underlying government obligations are not available to any person claiming through the custodian or to whom the custodian may be obligated.

(2) Federal Housing Administration debentures.

(3) The listed obligations of government-sponsored agencies which are not backed by the full faith and credit of the United States of America:

- Federal Home Loan Mortgage Corporation (FHLMC)
  Senior debt obligations and participation certificates (excluded are stripped mortgage securities which are purchased at prices exceeding their principal amounts)
- Farm Credit System (formerly: Federal Land Banks, Federal Intermediate Credit Banks and Banks for Cooperatives)
  Consolidated system wide bonds and notes
- Federal Home Loan Banks (FHL Banks)
  Consolidated debt obligations
- Federal National Mortgage Association (FNMA)
  Senior debt obligations
  Mortgage-backed securities (excluded are stripped mortgage securities which are purchased at prices exceeding their principal amounts)

(4) Unsecured certificates of deposit, time deposits or other bank deposit products, and bankers' acceptances (having maturities of not more than 365 days) of any bank, the short-term obligations of which are rated "A-1+" or better by S&P and "Prime-1" by Moody's.

(5) Deposits the aggregate amount of which are fully insured by the Federal Deposit Insurance Corporation, in banks which have capital and surplus of at least $15 million.

(6) Commercial paper (having original maturities of not more than 270 days) rated at the time of purchase "A-1+" by S&P and "Prime-1" by Moody's.

(7) Money market mutual funds rated "AAm" or "AAm-G" by S&P, or better and, if rated by Moody's, rated "Aa2" or better, including a fund for which the Trustee, its parent holding company, if any, or any affiliates or subsidiaries of the Trustee provide transfer agency, custodial, investment advisory or other management services, and, subject to the prior written consent of S&P and Moody's, the investment pool maintained by the county in which the Community Facilities District is located or other investment pools, in either case so long as such pool is rated in one of the two highest rating categories by S&P and Moody's.

(8) State Obligations, which means

(a) Direct general obligations of any state of the United States of America or any subdivision or agency thereof to which is pledged the full faith and credit of a state the unsecured general obligation debt of which is rated at least "A3" by Moody's and at least "A-" by S&P, or better, or any obligation fully and unconditionally guaranteed by any state, subdivision or agency whose unsecured general obligation debt is so rated.

(b) Direct, general short-term obligations of any state agency or subdivision or agency thereof described in (a) above and rated "A-1+" by S&P and "MIG-1" by Moody's.

(c) Special Revenue Bonds (as defined in the United States Bankruptcy Code) of any state or state agency in (a) above and rated "AA-" or better by S&P and "Aa3" or better by Moody's.

(9) Pre-refunded municipal obligations rated "AA+" by S&P and "Aaa" by Moody's meeting the following requirements:

(a) the municipal obligations are (i) not subject to redemption prior to maturity or (ii) the trustee for the municipal obligations has been given irrevocable instructions concerning their call and redemption and the issuer of the municipal obligations has covenanted not to redeem such municipal obligations other than as set forth in such instructions;

(b) the municipal obligations are secured by cash or United States Treasury Obligations which may be applied only to payment of the principal of, interest and premium on such municipal obligations;

(c) the principal of and interest on the United States Treasury Obligations (plus any cash in the escrow) has been verified by the report of

independent certified public accountants to be sufficient to pay in full all principal of, interest, and premium, if any, due and to become due on the municipal obligations ("Verification Report");

(d) the cash or United States Treasury Obligations serving as security for the municipal obligations are held by an escrow agent or trustee in trust for owners of the municipal obligations;

(e) no substitution of a United States Treasury Obligation shall be permitted except with another United States Treasury Obligation and upon delivery of a new Verification Report; and

(f) the cash or the United States Treasury Obligations are not available to satisfy any other claims, including those by or against the trustee or escrow agent.

(10) Repurchase agreements:

A. With (i) any domestic bank, or domestic branch of a foreign bank, the long term debt of which is rated at least "A-" by S&P and "Aa3" by Moody's; (ii) any broker-dealer with "retail customers" or a related affiliate thereof which broker-dealer has, or the parent company (which guarantees the provider) of which has, long-term debt rated at least "A-" by S&P and "Aa3" Moody's, which broker-dealer falls under the jurisdiction of the Securities Investors Protection Corporation; or (iii) any other entity rated at least "A-" by S&P and "A3" by Moody's (each, an "Eligible Provider"), provided that:

a. The (i) permitted collateral shall include U.S. Treasury Obligations, or senior debt obligations of GNMA, FNMA or FHLMC (no collateralized mortgage obligations shall be permitted for these providers), and (ii) collateral levels must be at least 102% of the total principal when the collateral type is U.S. Treasury Obligations, 103% of the total principal when the collateral type is GNMAs and 104% of the total principal when the collateral type is FNMA and FHLMC ("Eligible Collateral");

b. The Trustee or a third party acting solely as agent therefor or for the Community Facilities District (the "Custodian") has possession of the collateral or the collateral has been transferred to the Custodian in accordance with applicable state and federal laws (other than by means of entries on the transferor's books);

c. The collateral shall be marked to market on a daily basis and the provider or Custodian shall send monthly reports to the Trustee and the Community Facilities District setting forth the type of collateral, the collateral percentage required for that collateral type, the market value of the collateral on the valuation date and the name of the Custodian holding the collateral;

d. The repurchase agreement shall state, and an opinion of counsel shall be rendered at the time such collateral is delivered that the Custodian has a perfected first priority security interest in the collateral, any substituted collateral and all proceeds thereof; and

e. The repurchase agreement shall provide that if during its term the provider's rating by either Moody's or S&P is withdrawn or suspended or falls below "A-" by S&P or "A3" by Moody's, as appropriate, the provider must, notify the Trustee and the Community Facilities District within five days of receipt of such notice. Within ten days of receipt of such notice, the provider shall either (i) post Eligible Collateral, or (ii) assign the agreement to an Eligible Provider. If the provider does not perform a remedy within ten business days, the provider shall, at the direction of the Trustee or the Community Facilities District repurchase all collateral and terminate the repurchase agreement, with no penalty or premium to the Trustee or the Community Facilities District.

(11) Investment agreements with a domestic or foreign bank or corporation the long-term debt of which, or, in the case of a guaranteed corporation the long-term debt, or, in the case of a monoline financial guaranty insurance company, claims paying ability, of the guarantor is rated at least "AA-" by S&P and "Aa3" by Moody's (each, an "Eligible Provider"); provided, that, by the terms of the investment agreement:

(a) interest payments are to be made to the Trustee at times and in amounts as necessary to pay debt service on the Bonds;

(b) the invested funds are available for withdrawal without penalty or premium, at any time upon not more than seven days' prior notice; the Trustee and the Community Facilities District hereby agree to give or cause to be given notice in accordance with the terms of the investment agreement so as to receive funds thereunder with no penalty or premium paid;

(c) the provider shall send monthly reports to the Trustee and the Community Facilities District setting forth the balance the Community Facilities District or the Trustee has invested with the provider and the amounts and dates of interest accrued and paid by the provider;

(d) the investment agreement shall state that it is an unconditional and general obligation of the provider, and is not subordinated to any other obligation of, the provider thereof or, if the provider is a bank, the agreement or the opinion of counsel shall state that the obligation of the provider to make payments thereunder ranks pari passu with the obligations of the provider to its other depositors and its other unsecured and unsubordinated creditors;

(e) the Trustee and the Community Facilities District shall receive an opinion of domestic counsel to the provider that such investment agreement is

legal, valid and binding and enforceable against the provider in accordance with its terms;

(f) the Trustee and the Community Facilities District shall receive an opinion of foreign counsel to the provider (if applicable) that (i) the investment agreement has been duly authorized, executed and delivered by the provider and constitutes the legal, valid and binding obligation of the provider, enforceable against the provider in accordance with its terms, (ii) the choice of law of the state set forth in the investment agreement is valid under that country's laws and a court in such country would uphold such choice of law, and (iii) any judgment rendered by a court in the United States would be recognized and enforceable in such country;

(g) the investment agreement shall provide that if during its term (i) the provider's rating by either S&P or Moody's falls below "AA-" or "Aa3", respectively, the provider shall, at its option, within ten days of receipt of publication of such downgrade, either (A) post Eligible Collateral with the Trustee, the Community Facilities District or a third party acting solely as agent therefor (the "Custodian") free and clear of any third party liens or claims, (B) assign the agreement to an Eligible Provider, or (C) repay the principal of and accrued but unpaid interest on the investment, and (ii) the provider's rating by either S&P or Moody's falls below "A-" or "A3", respectively, the provider must, at the direction of the Trustee or the Community Facilities District, within ten days of receipt of such direction, repay the principal of and accrued but unpaid interest on the investment, in either case with no penalty or premium to the Trustee or the Community Facilities District;

(h) in the event the provider is required to collateralize, permitted collateral shall include U.S. Treasury Obligations, or senior debt obligations of GNMA, FNMA or FHLMC (no collateralized mortgage obligations shall be permitted for these providers) and collateral levels must be 102% of the total principal when the collateral type is U.S. Treasury Obligations, 103% of the total principal when the collateral type is GNMAs and 104% of the total principal when the collateral type is FNMA and FHLMC ("Eligible Collateral"). In addition, the collateral shall be marked to market on a daily basis and the provider or Custodian shall send monthly reports to the Trustee and the Community Facilities District setting forth the type of collateral, the collateral percentage required for that collateral type, the market value of the collateral on the valuation date and the name of the Custodian holding the collateral;

(i) the investment agreement shall state, and an opinion of counsel shall be rendered, in the event collateral is required to be pledged by the provider under the terms of the investment agreement, at the time such collateral is delivered, that the Custodian has a perfected first priority security interest in the collateral, any substituted collateral and all proceeds thereof; and

(j) the investment agreement must provide that if during its term (i) the provider shall default in its payment obligations, the provider's obligations under the investment agreement shall, at the direction of the Trustee or the Community Facilities District, be accelerated and amounts invested and accrued but unpaid interest thereon shall be repaid to the Trustee or the Community Facilities District, as appropriate, and (ii) the provider shall become insolvent, not pay its debts as they become due, be declared or petition to be declared bankrupt, etc. ("event of insolvency"), the provider's obligations shall automatically be accelerated and amounts invested and accrued but unpaid interest thereon shall be repaid to the Trustee or the Community Facilities District, as appropriate.

EXHIBIT B

FORM OF SERIES 2024 BOND

No. _____ $_____

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
SPECIAL TAX BOND, SERIES 2024

INTEREST RATE	MATURITY DATE	DATED DATE	CUSIP
_____%	September 1, 20__	_____, 2024	_____

REGISTERED OWNER:

PRINCIPAL AMOUNT:

City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "Community Facilities District"), for value received, hereby promises to pay, solely from the sources hereinafter described, to the Registered Owner identified above or registered assigns (the "Registered Owner"), on the Maturity Date identified above or on any earlier redemption date, the Principal Amount identified above in lawful money of the United States of America; and to pay interest thereon at the Interest Rate identified above in like lawful money from the date hereof payable semiannually on March 1 and September 1 in each year, commencing March 1, 2025 (the "Interest Payment Dates"), until payment of such Principal Amount in full.

This Bond is one of a series of a duly authorized issue of bonds approved by the qualified electors of the Community Facilities District, pursuant to the Mello-Roos Community Facilities Act of 1982, constituting Sections 53311 *et seq*. of the California Government Code (the "Act"), and issued for the purpose of financing certain public facilities, and is one of the series of bonds designated "City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024" (the "Series 2024 Bonds") in the aggregate principal amount of $_____. The Series 2024 Bonds are issued pursuant to the Indenture, dated as of _____ 1, 2024 (the "Indenture"), by and between the Community Facilities District and Zions Bancorporation, National Association, as trustee (said entity or any successor thereto as trustee under the Indenture, the "Trustee"), and this reference incorporates the Indenture herein, and by acceptance hereof the owner of this Bond assents to said terms and conditions. Pursuant to and as more particularly provided in the Indenture, additional bonds ("Additional Bonds") may be issued by the Community Facilities District on a parity with the Series 2024 Bonds. The Series 2024 Bonds and any Additional Bonds are collectively referred to as the "Bonds." The Indenture is

entered into, and this Bond is issued under, the Act and the laws of the State of California. Capitalized undefined terms used herein shall have the meanings ascribed thereto in the Indenture.

Interest on the Series 2024 Bonds shall be payable from the Interest Payment Date next preceding the date of authentication thereof unless (a) a Series 2024 Bond is authenticated on or before an Interest Payment Date and after the close of business on the preceding Record Date, in which event interest thereon shall be payable from such Interest Payment Date, (b) a Series 2024 Bond is authenticated on or before the first Record Date, in which event interest thereon shall be payable from the Closing Date, or (c) interest on any Series 2024 Bond is in default as of the date of authentication thereof, in which event interest thereon shall be payable from the date to which interest has previously been paid or duly provided for. Interest shall be paid in lawful money of the United States on each Interest Payment Date. Interest shall be paid by check of the Trustee mailed by first-class mail, postage prepaid, on each Interest Payment Date to the Owners of the Series 2024 Bonds at their respective addresses shown on the Registration Books as of the close of business on the preceding Record Date. Notwithstanding the foregoing, interest on any Series 2024 Bond that is not punctually paid or duly provided for on any Interest Payment Date shall, if and to the extent that amounts subsequently become available therefor, be paid on a payment date established by the Trustee to the Person in whose name the ownership of such Series 2024 Bond is registered on the Registration Books at the close of business on a special record date to be established by the Trustee for the payment of such defaulted interest, notice of which shall be given to such Owner not less than ten days prior to such special record date. The principal of the Series 2024 Bonds shall be payable in lawful money of the United States of America upon presentation and surrender thereof upon maturity or earlier redemption at the Office of the Trustee.

The Bonds are special, limited obligations of the Community Facilities District, payable, as provided in the Indenture, solely from Net Special Tax Revenues and the other assets pledged therefor thereunder. Neither the faith and credit nor the taxing power of the Community Facilities District (except to the limited extent set forth in the Indenture), the City of Ontario or the State of California, or any political subdivision thereof, is pledged to the payment of the Bonds.

Pursuant to and as more particularly provided in the Indenture, subject only to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein, in order to secure the payment of the principal of, premium, if any, and interest on the Bonds in accordance with their terms, the provisions of the Indenture and the Act, the Community Facilities District pledges to the Owners, and grants thereto a lien on and a security interest in, all of the Net Special Tax Revenues and any other amounts held in the Special Tax Fund, the Bond Fund and the Reserve Fund. Said pledge constitutes a first lien on and security interest in such assets, which shall immediately attach to such assets and be effective, binding and enforceable against the Community Facilities District, its successors, purchasers of any of such assets, creditors and all others asserting rights therein, to the extent set forth in, and in accordance with, the Indenture, irrespective of whether those parties have notice of the pledge of, lien on and security interest in such assets and without the need for any physical delivery, recordation, filing or further act.

The Series 2024 Bonds are subject to redemption on the dates, at the Redemption Prices and pursuant to the terms set forth in the Indenture. Notice of redemption of any Series 2024 Bond or any portion thereof shall be given as provided in the Indenture.

The Series 2024 Bonds are issuable as fully registered Bonds without coupons in Authorized Denominations ($5,000 and any integral multiple thereof).

Any Series 2024 Bond may be transferred upon the Registration Books by the Person in whose name it is registered, in person or by such Person's duly authorized attorney, upon surrender of such Series 2024 Bond to the Trustee for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form acceptable to the Trustee. Whenever any Series 2024 Bond or Series 2024 Bonds shall be so surrendered for transfer, the Community Facilities District shall execute and the Trustee shall authenticate and shall deliver a new Series 2024 Bond or Series 2024 Bonds of the same maturity in a like aggregate principal amount, in any Authorized Denomination. The Trustee shall require the Owner requesting such transfer to pay any tax or other governmental charge required to be paid with respect to such transfer. The Series 2024 Bonds may be exchanged at the Office of the Trustee for a like aggregate principal amount of Series 2024 Bonds of the same maturity of other Authorized Denominations. The Trustee shall require the payment by the Owner requesting such exchange of any tax or other governmental charge required to be paid with respect to such exchange.

The Indenture and the rights and obligations of the Community Facilities District, the Owners and the Trustee may be modified or amended in the manner, to the extent, and upon the terms provided in the Indenture.

The Indenture contains provisions permitting the Community Facilities District to make provision for the payment of the principal of and the interest and premium, if any, on any of the Bonds so that such Bonds shall no longer be deemed to be Outstanding under the terms of the Indenture.

Unless this Bond is presented by an authorized representative of The Depository Trust Company to the Trustee for registration of transfer, exchange or payment, and any Bond issued is registered in the name of Cede & Co. or such other name as requested by an authorized representative of The Depository Trust Company and any payment is made to Cede & Co., ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL since the registered owner hereof, Cede & Co., has an interest herein.

IN WITNESS WHEREOF, the Community Facilities District has caused this Bond to be signed in its name and on its behalf by the manual or facsimile signature of the Mayor of the City of Ontario, attested by the manual or facsimile signature of the City Clerk of the City of Ontario, all as of the Dated Date identified above.

BOND PURCHASE AGREEMENT

_____, 2024

City of Ontario
Community Facilities District No. 35
(Countryside Phase 2 South - Facilities)
303 East "B" Street
Ontario, California 91764

Ladies and Gentlemen:

Samuel A. Ramirez & Co., Inc., as underwriter (the "Underwriter"), acting not as a fiduciary or agent for you, but on behalf of itself, offers to enter into this Bond Purchase Agreement (this "Purchase Agreement") with City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "Community Facilities District"), which upon acceptance will be binding upon the Underwriter and the Community Facilities District. The agreement of the Underwriter to purchase the Bonds (as hereinafter defined) is contingent upon the Community Facilities District satisfying all of the obligations imposed upon them under this Purchase Agreement. This offer is made subject to the Community Facilities District's acceptance by the execution of this Purchase Agreement and its delivery to the Underwriter at or before 11:59 p.m., local time, on the date hereof, and, if not so accepted, will be subject to withdrawal by the Underwriter upon notice delivered to the Community Facilities District at any time prior to the acceptance hereof by the Community Facilities District. All capitalized terms used herein, which are not otherwise defined, shall have the meaning provided for such terms in the Indenture, dated as of _____ 1, 2024 (the "Indenture"), by and between the Community Facilities District and Zions Bancorporation, National Association, as trustee (the "Trustee").

1. Purchase, Sale and Delivery of the Bonds.

Subject to the terms and conditions and in reliance upon the representations, warranties and agreements set forth herein, the Underwriter hereby agrees to purchase from the Community Facilities District and the Community Facilities District hereby agrees to sell to the Underwriter all (but not less than all) of the $_____ aggregate principal amount of the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Bonds"), dated the Closing Date (as hereinafter defined), bearing interest at the rates and maturing on the dates and in the principal amounts set forth in Exhibit A hereto. The purchase price for the Bonds shall be $_____ (being 100% of the aggregate principal amount thereof, [plus/less] net original issue [premium/discount] of $_____ and less an Underwriter's discount of $_____).

The Underwriter agrees to make a bona fide public offering of all of the Bonds initially at the public offering prices (or yields) set forth in Exhibit A attached hereto and incorporated herein by reference. Subsequent to the initial public offering, the Underwriter reserves the right to change the public offering prices (or yields) as it deems necessary in connection with the marketing of the Bonds subject to Section 4 hereof, provided that the Underwriter shall not change the interest rates set forth in Exhibit A. The Bonds will be offered and sold to certain dealers at prices lower than such initial offering prices.

The Bonds shall be substantially in the form described in, shall be issued and secured under the provisions of, and shall be payable from the Net Special Tax Revenues as provided in the Indenture, the Preliminary Official Statement (as hereinafter defined), and the Mello-Roos Community Facilities Act of 1982, as amended (Section 53311 *et seq*. of the Government Code of the State of California) (the "Community Facilities District Act"). The issuance of the Bonds has been duly authorized by the City Council of the City of Ontario (the "City"), as the legislative body for the Community Facilities District, pursuant to a resolution (the "Community Facilities District Resolution of Issuance") adopted on _____, 2024.

The net proceeds of the Bonds will be used to (i) provide financing for certain public facilities and costs with respect thereto related to the development within the Community Facilities District, (ii) fund a reserve fund with respect to the Bonds, and (iii) pay the costs of issuance with respect to the Bonds.

A. The Community Facilities District hereby acknowledges that the Underwriter is entering into this Purchase Agreement in reliance on the representations, warranties and agreements made by the Community Facilities District herein, and the Community Facilities District shall take all action necessary to enforce its rights hereunder for the benefit of the Underwriter and shall immediately notify the Underwriter if it becomes aware that any representation, warranty or agreement made by the Community Facilities District herein is incorrect in any material respect.

The Community Facilities District acknowledges and agrees that (i) the purchase and sale of the Bonds pursuant to this Purchase Agreement is an arm's-length commercial transaction between the Community Facilities District and the Underwriter, (ii) in connection therewith and with the discussions, undertakings and procedures leading up to the consummation of such transaction, the Underwriter is and has been acting solely as principal and is not acting as the agent or fiduciary of, or a municipal or financial advisor of, the Community Facilities District and has not assumed any advisory or fiduciary responsibility to the Community Facilities District with respect to the transaction contemplated hereby and the discussions, undertakings and procedures leading thereto (irrespective of whether the Underwriter has provided or is currently providing other services to the Community Facilities District on other matters), (iv) the Underwriter has financial interests that differ from those of the Community Facilities District, (v) the only obligations the Underwriter has to the Community Facilities District with respect to the transaction contemplated hereby are expressly set forth in this Purchase Agreement, except as otherwise provided by applicable rules and regulations of the Securities and Exchange Commission or the rules of the MSRB (as defined below) or other law, and (vi) the Community Facilities District has consulted its own legal, financial, accounting, tax, and other advisors to the extent they have deemed appropriate in connection with this transaction. The Community Facilities District acknowledges that it has previously provided the Underwriter with an acknowledgement of receipt of the required Underwriter disclosure under Rule G-17 of the Municipal Securities Rulemaking Board ("MSRB"). The Community Facilities District acknowledges and represents that it has engaged Urban Futures, Inc. as its municipal advisor (as

defined in Securities and Exchange Commission Rule 15Ba1) and will rely solely on the financial advice of Urban Futures, Inc. with respect to the Bonds.

B. Pursuant to the authorization of the Community Facilities District, the Underwriter has distributed copies of the Preliminary Official Statement dated _____, 2024, relating to the Bonds, which, together with the cover page, inside cover page and appendices thereto is herein called the "Preliminary Official Statement." By its acceptance of this Purchase Agreement, the Community Facilities District hereby ratifies the use by the Underwriter of the Preliminary Official Statement, and the Community Facilities District agrees to execute a final official statement relating to the Bonds (the "Official Statement") which will consist of the Preliminary Official Statement with such changes as may be made thereto, with the approval of Orrick Herrington & Sutcliffe LLP, Bond Counsel ("Bond Counsel"), Best Best & Krieger LLP, Disclosure Counsel ("Disclosure Counsel"), and the Underwriter, and to provide copies thereof to the Underwriter as set forth herein. The Community Facilities District hereby authorizes and requires the Underwriter to use and promptly distribute, in connection with the offer and sale of the Bonds, the Preliminary Official Statement, the Official Statement and any supplement or amendment thereto. The Community Facilities District further authorizes the Underwriter to use and distribute, in connection with the offer and sale of the Bonds, the Indenture, the Continuing Disclosure Agreement executed by the Community Facilities District in connection with the Bonds (the "Continuing Disclosure Agreement"), this Purchase Agreement and all information contained herein, and all other documents, certificates and statements furnished by or on behalf of the Community Facilities District to the Underwriter in connection with the transactions contemplated by this Purchase Agreement.

C. To assist the Underwriter in complying with Securities and Exchange Commission Rule 15c2-12(b)(5) (the "Rule"), the Community Facilities District will undertake pursuant to the Continuing Disclosure Agreement, in the form attached as an appendix to the Official Statement, to provide annual reports and notices of certain enumerated events. A description of this undertaking is set forth in the Preliminary Official Statement and will also be set forth in the Official Statement.

D. Except as the Underwriter and the Community Facilities District may otherwise agree, the Community Facilities District will deliver to the Underwriter, at the offices of Bond Counsel in Los Angeles, California, or at such other location as may be mutually agreed upon by the Underwriter and the Community Facilities District, the documents hereinafter mentioned; and the Community Facilities District will deliver to the Underwriter through the facilities of The Depository Trust Company ("DTC"), the Bonds, in definitive form (all Bonds bearing CUSIP numbers), duly executed by the Community Facilities District and authenticated by the Trustee in the manner provided for in the Indenture and the Community Facilities District Act at 8:00 a.m. California time, on [Closing Date] (the "Closing Date"), and the Underwriter will accept such delivery and pay the purchase price of the Bonds as set forth in paragraph (A) of this Section by wire transfer, payable in federal or other immediately available funds (such delivery and payment being herein referred to as the "Closing"). The Bonds shall be in fully registered book-entry form (which may be typewritten) and shall be registered in the name of Cede & Co., as nominee of DTC.

2. Representations, Warranties and Covenants of the Community Facilities District. The Community Facilities District represents, warrants and covenants to the Underwriter on behalf of itself and the City that:

A. The City is duly organized and validly existing as a general law city under the Constitution and laws of the State of California and has duly authorized the formation of the Community Facilities District and the incurring of bonded indebtedness thereby pursuant to resolutions duly adopted by the City Council (collectively, the "Community Facilities District Formation Resolutions" and, together with the Community Facilities District Resolution of Issuance, the "Community Facilities District Resolutions") and the Community Facilities District Act. The City Council, as the legislative body of the City and the Community Facilities District, has duly adopted the Community Facilities District Formation Resolutions and an ordinance of the City Council levying the Special Tax within the Community Facilities District (the "Ordinance"), and has caused to be recorded in the real property records of the County of San Bernardino, a notice of special tax lien, and any required amendments thereof (collectively, the "Notice of Special Tax Lien" and, together with the Community Facilities District Formation Resolutions and the Ordinance, the "Formation Documents"), and has duly adopted the Community Facilities District Resolution of Issuance. Each of its Formation Documents remains in full force and effect as of the date hereof and has not been amended or rescinded. The Community Facilities District is duly organized and validly existing as a Community Facilities District under the laws of the State of California. The Community Facilities District has, and at the Closing Date will have, as the case may be, full legal right, power and authority: (i) to execute, deliver and perform its obligations under this Purchase Agreement, the Continuing Disclosure Agreement and the Indenture, and to carry out all transactions contemplated by each of such agreements; (ii) to issue, sell and deliver the Bonds as provided herein; and (iii) to carry out, give effect to and consummate the transactions contemplated by the Formation Documents, the Indenture, the Bonds, the Continuing Disclosure Agreement, this Purchase Agreement, the Amended and Restated Acquisition and Funding Agreement dated as of _____, 2024 (the "Lennar Acquisition Agreement"), by and between the City and Lennar Homes of California, LLC, a California limited liability company ("Lennar Homes"), the Amended and Restated Acquisition and Funding Agreement, dated as of November 1, 2022, by and between the City and NMC Builders (the "NMC Builders Acquisition Agreement" and together with the Lennar Acquisition Agreement, the "Acquisition Agreements") and the Official Statement.

This Purchase Agreement, the Indenture, the Bonds, the Continuing Disclosure Agreement, and the Acquisition Agreements are collectively referred to herein as the "Community Facilities District Documents."

B. The Community Facilities District and the City, as applicable, have each complied, and will at the Closing Date be in compliance in all material respects, with the Formation Documents and the Community Facilities District Documents, and any immaterial noncompliance by the Community Facilities District and the City, if any, will not impair the ability of the Community Facilities District and the City, as applicable, to carry out, give effect to or consummate the transactions contemplated by the foregoing. From and after the date of issuance of the Bonds, the Community Facilities District will continue to comply with the covenants of the Community Facilities District contained in the Community Facilities District Documents.

C. The information in the Preliminary Official Statement and in the Official Statement relating to the Community Facilities District and the Bonds (other than statements pertaining to the book-entry system, as to which no view is expressed), is true and correct in all material respects and does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; and, upon delivery and up to and including 25 days after the End of the Underwriting Period (as defined in paragraph (D) below), the Official Statement will be amended

and supplemented so as to contain no misstatement of any material fact or omission of any statement necessary to make the statements contained therein, in the light of the circumstances in which such statements were made, not misleading.

D. Up to and including 25 days after the End of the Underwriting Period (as defined below), the Community Facilities District will advise the Underwriter promptly of any proposal to amend or supplement the Official Statement and will not affect or consent to any such amendment or supplement without the consent of the Underwriter, which consent will not be unreasonably withheld. The Community Facilities District will advise the Underwriter promptly of the institution of any proceedings known to it by any governmental agency prohibiting or otherwise materially affecting the use of the Official Statement in connection with the offering, sale or distribution of the Bonds. As used herein, the term "End of the Underwriting Period" means the later of such time as: (i) the Bonds are delivered to the Underwriter; or (ii) the Underwriter does not retain, directly or as a member of an underwriting syndicate, an unsold balance of the Bonds for sale to the public. Unless the Underwriter gives notice to the contrary, the End of the Underwriting Period shall be deemed to be the Closing Date. Any notice delivered pursuant to this provision shall be written notice delivered to the Community Facilities District at or prior to the Closing Date, and shall specify a date (other than the Closing Date) to be deemed the "End of the Underwriting Period."

E. Except as described in the Preliminary Official Statement, the Community Facilities District is not, in any respect material to the transactions referred to herein or contemplated hereby, in breach of or in default under, any law or administrative rule or regulation of the State of California, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the Community Facilities District is a party or is otherwise subject or bound, and the performance of its obligations under the Community Facilities District Documents and compliance with the provisions of each thereof, or the performance of the conditions precedent to be performed by the Community Facilities District pursuant to this Purchase Agreement, will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the Community Facilities District is a party or is otherwise subject or bound, in any manner which would materially and adversely affect the performance by the Community Facilities District of its obligations under the Community Facilities District Documents or the performance of the conditions precedent to be performed by the Community Facilities District pursuant to this Purchase Agreement.

F. Except as may be required under the "blue sky" or other securities laws of any jurisdiction, all approvals, consents, authorizations, elections and orders of, or filings or registrations with, any governmental authority, board, agency or commission having jurisdiction which would constitute a condition precedent to, or the absence of which would materially adversely affect, the performance by the Community Facilities District of its obligations under the Community Facilities District Documents, and the performance of the conditions precedent to be performed by the Community Facilities District pursuant to this Purchase Agreement, have been or will be obtained at the Closing Date and are or will be in full force and effect at the Closing Date.

G. The Community Facilities District Documents conform as to form and tenor to the descriptions thereof contained in the Official Statement.

H. The Bonds are payable from the Net Special Tax Revenues of the Community Facilities District, as set forth in the Indenture, the levy of which has been duly and validly authorized pursuant to the Community Facilities District Act and the Special Tax within the Community Facilities District will be fixed and levied in an amount which, together with other available funds, is required for the payment of the principal of, and interest on, the Bonds when due and payable, all as provided in the Indenture. The Community Facilities District has covenanted to cause the Special Tax to be levied and collected at the same time and in the same manner as ordinary *ad valorem* property taxes or in such other manner as the City Council shall determine.

I. The Indenture creates a valid pledge of, first lien upon and security interest in, the Net Special Tax Revenues of the Community Facilities District, and in the moneys in the Special Tax Fund, the Bond Fund, and the Reserve Fund established pursuant to the Indenture, on the terms and conditions set forth in the Indenture.

J. Except as disclosed in the Preliminary Official Statement, there are, to the best of the Community Facilities District's knowledge, no entities with outstanding assessment liens against any of the properties within the Community Facilities District or which are senior to or on a parity with the Special Tax of the Community Facilities District referred to in paragraph (H) hereof.

K. The information contained in the Preliminary Official Statement and in the Official Statement (other than statements therein pertaining to the DTC and its book-entry system, as to which no view is expressed) is true and correct in all material respects and such information does not and shall not contain any untrue or misleading statement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

L. The Preliminary Official Statement was deemed final by a duly authorized officer of the Community Facilities District prior to its delivery to the Underwriter, except for the omission of such information as is permitted to be omitted in accordance with paragraph (b)(1) of the Rule. The Community Facilities District hereby covenants and agrees that, within seven (7) business days from the date hereof, or upon reasonable written notice from the Underwriter within sufficient time to accompany any confirmation requesting payment from any customers of the Underwriter, the Community Facilities District shall cause a final printed form of the Official Statement to be delivered to the Underwriter in sufficient quantity to comply with paragraph (b)(4) of the Rule and Rules G-12, G-15, G-32 and G-36 of the MSRB.

M. At the time of acceptance hereof there is and as of the Closing there will be no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, government agency, public board or body (collectively and individually, an "Action") pending (notice of which has been served on the City or the Community Facilities District) or to the best knowledge of the Community Facilities District or the City threatened, in which any such Action: (i) in any way questions the existence of the Community Facilities District or the titles of the officers of the Community Facilities District to their respective offices; (ii) affects, contests or seeks to prohibit, restrain or enjoin the issuance or delivery of the Bonds or the payment or collection of Special Tax or any amounts pledged or to be pledged to pay the principal of and interest on the Bonds, or in any way contests or affects the validity of the Community Facilities District Documents or the consummation of the transactions on the part of the Community Facilities District contemplated thereby; (iii) contests the exemption of interest on the Bonds from federal or State income taxation or contests the powers of the Community Facilities District which may result in any

material adverse change relating to the financial condition of the Community Facilities District; or (iv) contests the completeness or accuracy of the Preliminary Official Statement or the Official Statement or any supplement or amendment thereto or asserts that the Preliminary Official Statement or the Official Statement contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; and as of the time of acceptance hereof there is and, as of the Closing Date, there will be no basis for any action, suit, proceeding, inquiry or investigation of the nature described in clauses (i) through (iv) of this sentence.

N. Any certificate signed on behalf of the Community Facilities District by any officer or employee of the Community Facilities District authorized to do so shall be deemed a representation and warranty by the Community Facilities District to the Underwriter on behalf of itself and the Community Facilities District as to the statements made therein.

O. At or prior to the Closing, the Community Facilities District will have duly authorized, executed and delivered the Continuing Disclosure Agreement in substantially the form attached as an appendix to the Official Statement. Based upon a review of its previous undertakings, and except as disclosed in the Preliminary Official Statement, the City and the City Entities (as defined in the Preliminary Official Statement) have not failed to comply in all material respects with any previous undertakings with regard to the Rule to provide annual reports or notices of enumerated events in the last five years. The Community Facilities District has not previously entered into any undertaking pursuant to the Rule.

P. The Community Facilities District will apply the proceeds of the Bonds in accordance with the Indenture and as described in the Preliminary Official Statement and Official Statement.

Q. Until such time as moneys have been set aside in an amount sufficient to pay all then outstanding Bonds at maturity or to the date of redemption if redeemed prior to maturity, plus unpaid interest thereon and premium, if any, to maturity or to the date of redemption if redeemed prior to maturity, the Community Facilities District will faithfully perform and abide by all of the covenants, undertakings and provisions contained in the Indenture.

R. Between the date of this Purchase Agreement and the date of Closing, the Community Facilities District will not offer or issue any bonds, notes or other obligations for borrowed money not previously disclosed to the Underwriter.

S. The City, on behalf of the Community Facilities District, has adopted local debt policies in accordance with Section 8855(i) of the California Government Code.

The Community Facilities District hereby approves the preparation and distribution of the Official Statement, consisting of the Preliminary Official Statement with such changes as are noted thereon and as may be made thereto, with the approval of Bond Counsel, Disclosure Counsel and the Underwriter, from time to time prior to the Closing Date.

The Community Facilities District hereby ratifies any prior use of and authorizes the future use by the Underwriter, in connection with the offering and sale of the Bonds, of the Preliminary Official Statement, the Official Statement, this Purchase Agreement and all information contained herein, and all other documents, certificates and written statements furnished by the Community

Facilities District to the Underwriter in connection with the transactions contemplated by this Purchase Agreement.

The execution and delivery of this Purchase Agreement by the Community Facilities District shall constitute a representation by the Community Facilities District to the Underwriter that the representations and warranties contained in this Section 2 with respect to the Community Facilities District are true as of the date hereof.

3. Conditions to the Obligations of the Underwriter. The obligation of the Underwriter to accept delivery of and pay for the Bonds on the Closing Date shall be subject, at the option of the Underwriter, to the accuracy in all material respects of the representations and warranties on the part of the Community Facilities District contained herein, to the accuracy in all material respects of the statements of the officers and other officials of the Community Facilities District made in any certificates or other documents furnished pursuant to the provisions hereof, to the performance by the Community Facilities District of their obligations to be performed hereunder at or prior to the Closing Date, and in reliance upon the representations and covenants of Lennar Homes contained in the certificate(s) delivered as of the Closing Date, and to the following additional conditions:

A. At the Closing Date, the Community Facilities District Resolutions, the Community Facilities District Documents shall be in full force and effect, and shall not have been amended, modified or supplemented, except as may have been agreed to in writing by the Underwriter, and there shall have been taken in connection therewith, with the issuance of the Bonds and with the Bonds, and with the transactions contemplated thereby, and by this Purchase Agreement, all such actions as, in the opinion of Bond Counsel, shall be necessary and appropriate.

B. At the Closing Date, except as described in the Preliminary Official Statement, the City shall not be, in any respect material to the transactions referred to herein or contemplated hereby, in breach of or in default under, any law or administrative rule or regulation of the State of California, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City is a party or is otherwise subject or bound, and the performance of the conditions precedent to be performed hereunder will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State of California, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the City is a party or is otherwise subject or bound, in any manner which would materially and adversely affect the performance of the conditions precedent to be performed by the City hereunder.

C. At the Closing Date, except as described in the Preliminary Official Statement, the Community Facilities District shall not be, in any respect material to the transactions referred to herein or contemplated hereby, in breach of or in default under, any law or administrative rule or regulation of the State of California, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the Community Facilities District is a party or is otherwise subject or bound, and the performance by the Community Facilities District of its obligations under the Bonds, the Community Facilities District Resolutions, the Indenture, and any other instruments contemplated

by any of such documents, and compliance with the provisions of each thereof, or the performance of the conditions precedent to be performed hereunder, will not conflict with or constitute a breach of or default under any applicable law or administrative rule or regulation of the State of California, the United States of America, or of any department, division, agency or instrumentality of either thereof, or under any applicable court or administrative decree or order, or under any loan agreement, note, resolution, indenture, contract, agreement or other instrument to which the Community Facilities District is a party or is otherwise subject or bound, in any manner which would materially and adversely affect the performance by the Community Facilities District of its obligations under the Indenture, the Bonds or the performance of the conditions precedent to be performed by the Community Facilities District hereunder.

D. The information contained in the Official Statement is, as of the Closing Date and as of the date of any supplement or amendment thereto pursuant hereto, true and correct in all material respects and does not, as of the Closing Date or as of the date of any supplement or amendment thereto, contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

E. Between the date hereof and the Closing Date, the market price or marketability, at the initial offering prices set forth on the cover page of the Official Statement, of the Bonds or the ability of the Underwriter to enforce contracts for the sale of the Bonds, shall not have been materially adversely affected, in the reasonable judgment of the Underwriter (evidenced by a written notice to the Community Facilities District terminating the obligation of the Underwriter to accept delivery of and pay for the Bonds), by reason of any of the following:

1. Legislation introduced in or enacted (or resolution passed) by the Congress of the United States of America or recommended to the Congress by the President of the United States, the Department of the Treasury, the Internal Revenue Service, or any member of Congress, or favorably reported for passage to either House of Congress by any committee of such House to which such legislation had been referred for consideration, or a decision rendered by a court established under Article III of the Constitution of the United States of America or by the Tax Court of the United States of America, or an order, ruling, regulation (final, temporary or proposed), press release or other form of notice issued or made by or on behalf of the Treasury Department of the United States of America or the Internal Revenue Service, with the purpose or effect, directly or indirectly, of imposing federal income taxation upon such interest as would be received by any owners of the Bonds beyond the extent to which such interest is subject to taxation as of the date hereof;

2. Legislation introduced in or enacted (or resolution passed) by the Congress or an order, decree or injunction issued by any court of competent jurisdiction, or an order, ruling, regulation (final, temporary or proposed), press release or other form of notice issued or made by or on behalf of the Securities and Exchange Commission ("SEC"), or any other governmental agency having jurisdiction of the subject matter, to the effect that obligations of the general character of the Bonds, including any or all underlying arrangements, are not exempt from registration under or other requirements of the Securities Act of 1933, as amended, or that the Indenture is not exempt from qualification under or other requirements of the Trust Indenture Act of 1939, as amended, or that the issuance, offering or sale of obligations of the general character of the Bonds, including any or all underlying arrangements, as contemplated hereby or by the Official Statement or otherwise is or would be in violation of the federal securities laws as amended and then in effect;

3. A general suspension of trading on the New York Stock Exchange or other major exchange shall be in force, or minimum or maximum prices for trading shall have been fixed and be in force, or maximum ranges for prices for securities shall have been required and be in force on any such exchange, whether by virtue of determination by that exchange or by order of the SEC or any other governmental authority having jurisdiction;

4. The introduction, proposal or enactment of any amendment to the federal or California Constitution or any action by any federal or California court, legislative body, regulatory body or other authority materially adversely affecting the tax status of the Community Facilities District, its property, income, securities (or interest thereon), the validity or enforceability of the Special Tax, or the ability of the Community Facilities District to construct or acquire the improvements as contemplated by the Formation Documents, the Community Facilities District Documents or the Official Statement or the right of any owner of the property within the Community Facilities District to develop such property in the manner described in the Official Statement, or the ability of the Community Facilities District to issue the Bonds as contemplated by the Indenture and the Official Statement;

5. Any event occurring, or information becoming known which, in the judgment of the Underwriter, makes untrue in any material respect any statement or information contained in the Preliminary Official Statement or in the Official Statement, or has the effect that the Preliminary Official Statement or the Official Statement contains any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading;

6. Any national securities exchange, the Comptroller of the Currency, or any other governmental authority, shall impose as to the Bonds, or obligations of the general character of the Bonds, any material restrictions not now in force, or increase materially those now in force, with respect to the extension of credit by, or the charge to the net capital requirements of, the Underwriter;

7. There shall have occurred (1) an outbreak or escalation of hostilities or the declaration by the United States of a national emergency or war, (2) any other calamity or crisis in the financial markets of the United States or elsewhere, or (3) the sovereign debt rating of the United States is downgraded by any major credit rating agency or a payment default occurs on United States Treasury obligations;

8. Except as disclosed in or contemplated by the Official Statement, any material adverse change in the affairs of the City or Community Facilities District shall have occurred;

9. Any event or circumstance shall exist that either makes untrue or incorrect in any material respect any statement or information in the Official Statement (other than any statement provided by the Underwriter) or is not reflected in the Official Statement but should be reflected therein in order to make the statements therein, in the light of the circumstances under which they were made, not misleading and, in either such event, the Community Facilities District refuses to permit the Official Statement to be supplemented to supply such statement or information, or the effect of the Official Statement as so supplemented is to materially adversely affect the market price or marketability of the Bonds or the ability of the Underwriter to enforce contracts for the sale of the Bonds;

10. A general banking moratorium shall have been declared by federal or State authorities having jurisdiction and be in force;

11. A material disruption in securities settlement, payment or clearance services affecting the Bonds shall have occurred;

12. Any new restriction on transactions in securities materially affecting the market for securities (including the imposition of any limitation on interest rates) or the extension of credit by, or a charge to the net capital requirements of, underwriters shall have been established by the New York Stock Exchange, the SEC, any other federal or State agency or the Congress of the United States, or by Executive Order;

13. A decision by a court of the United States shall be rendered, or a stop order, release, regulation or no-action letter by or on behalf of the SEC or any other governmental agency having jurisdiction of the subject matter shall have been issued or made, to the effect that the issuance, offering or sale of the Securities, including the underlying obligations as contemplated by this Purchase Agreement or by the Official Statement, or any document relating to the issuance, offering or sale of the Securities, is or would be in violation of any provision of the federal securities laws at the Closing Date, including the Securities Act, the Exchange Act and the Trust Indenture Act;

14. Any proceeding shall have been commenced or be threatened in writing by the Securities and Exchange Commission against the City or the Community Facilities District; or

15. The commencement of any Action.

F. At or prior to the Closing Date, the Underwriter shall have received a counterpart original or certified copy of the following documents, in each case satisfactory in form and substance to the Underwriter:

1. The Official Statement, executed on behalf of the Community Facilities District by an authorized officer;

2. The Indenture, duly executed and delivered by the Community Facilities District and the Trustee;

3. The Community Facilities District Resolutions and the other Formation Documents, and the Community Facilities District Documents, together with a certificate dated as of the Closing Date of the City Clerk to the effect that the Community Facilities District Resolutions and the Ordinance are true, correct and complete copies of the ones duly adopted by the City Council;

4. The Continuing Disclosure Agreement executed and delivered by the Community Facilities District and the Trustee, as dissemination agent, and the Continuing Disclosure Certificate dated the Closing Date of Lennar Homes (the "Developer Continuing Disclosure Certificate"), in each case substantially in the respective forms attached as appendixes to the Official Statement;

5. An unqualified approving opinion for the Bonds, dated the Closing Date and addressed to the Community Facilities District, of Bond Counsel, to the effect that the

Bonds are the valid, legal and binding obligations of the Community Facilities District and that the interest thereon is excluded from gross income for federal income tax purposes and exempt from personal income taxes of the State of California, in substantially the form included as an appendix to the Official Statement, together with a letter of Bond Counsel, dated the Closing Date and addressed to the Underwriter and the Trustee, to the effect that such opinion addressed to the Community Facilities District may be relied upon by the Underwriter and the Trustee to the same extent as if such opinion was addressed to it;

6. A supplemental opinion or opinions of Bond Counsel dated the Closing Date and addressed to the Underwriter to the effect that:

(i) this Purchase Agreement and the Continuing Disclosure Agreement have been duly executed and delivered by the Community Facilities District and, assuming due authorization, execution and delivery by the other parties thereto, constitute the valid and binding obligations of the Community Facilities District, except to the extent that enforceability may be limited by moratorium, bankruptcy, reorganization, insolvency or other similar laws affecting creditors' rights generally or by the exercise of judicial discretion in accordance with general principles of equity or otherwise in appropriate cases and by limitations on legal remedies against public agencies in the State;

(ii) the Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Indenture is exempt from qualification under the Trust Indenture Act of 1939, as amended;

(iii) the statements contained in the Official Statement under the captions "THE SERIES 2024 BONDS" (except information relating to DTC and its book-entry system and information under the caption "Debt Service Schedule," as to which no opinion is expressed), "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS," (except information under the captions "Special Tax" and "Amended and Restated Rate and Method of Apportionment" as to which no opinion is expressed), "TAX MATTERS," and Appendix F - "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE," excluding any material that may be treated as included under such captions by cross-reference or reference to other documents or sources, insofar as such statements expressly summarize certain provisions of the Indenture and certain matters addressed in Bond Counsel's final approving opinion, are accurate in all material respects.

7. A letter, dated the Closing Date and addressed to the Underwriter and the Community Facilities District, of Disclosure Counsel, to the effect that no facts have come to the attention of the attorneys in such firm rending legal services in connection with the Bonds that cause them to believe that the Preliminary Official Statement as of its date and as of the date of this Purchase Agreement and the Official Statement, as of its date or as of the Closing Date, contained or contains any untrue statement of a material fact or omitted or omits to state any material fact necessary to make the statement made therein, in light of the circumstances under which they were made, not misleading (except that no opinion or belief need be expressed as to any appendices, CUSIP numbers, financial, accounting, statistical, economic, engineering or demographic data or forecasts, numbers, charts, tables, graphs, estimates, projections, assumptions or expressions of opinion, any determinations regarding valuation, real estate, and environmental matters, or any basis therefor; information about the Underwriter, underwriting; statements relating to the treatment of the Bonds or the interest, discount or premium related thereto for tax purposes under the laws of any

jurisdiction and statements contained in the Official Statement under the caption "TAX MATTERS" and any information about the Depository Trust Company or the book-entry system);

8. A certificate dated the Closing Date and signed by an authorized representative of the Community Facilities District or an authorized designee, on behalf of the Community Facilities District to the effect that: (i) the representations and warranties made by the Community Facilities District contained herein are true and correct in all material respects on and as of the Closing Date with the same effect as if made on the Closing Date; (ii) to the best knowledge of such officer, no event has occurred since the date of the Official Statement which should be disclosed in the Official Statement for the purpose for which it is to be used or which it is necessary to disclose therein in order to make the statements and information therein not misleading in any material respect; (iii) the Community Facilities District has complied with all the agreements and satisfied all the conditions on its part to be satisfied under this Purchase Agreement, the Community Facilities District Resolutions, the Community Facilities District Documents and the Official Statement at or prior to the Closing Date; and (iv) all information in the Official Statement relating to the Community Facilities District (other than information therein provided by the Special Tax Consultant) is true and correct in all material respects as of the date of the Official Statement and as of the Closing Date;

9. An opinion of Issuer's Counsel dated the date of Closing and addressed to the Underwriter, the Trustee and the City, substantially in the form attached hereto as Exhibit D;

10. A certificate dated the Closing Date from Kitty Siino & Associates, Inc., as appraiser (the "Appraiser"), addressed to the Community Facilities District and the Underwriter substantially to the effect that (i) the assumptions made in the appraisal of the taxable properties within the Community Facilities District, dated May 6, 2024 (the "Appraisal Report"), prepared by the Appraiser are reasonable; the Appraisal Report fairly and accurately described, as of the stated date of value, the market values of the properties in the Community Facilities District that are subject to the Special Tax, (ii) the Appraiser is not aware of any event or act which occurred since the date of value of the Appraisal Report which, in its opinion, would materially and adversely affect the conclusions as to the market value of the appraised property in the Community Facilities District, (iii) the Appraiser consents to the reproduction of the Appraisal Report as an appendix to the Preliminary Official Statement and the final Official Statement, each with respect to the Bonds, and to the references to the Appraiser and the Appraisal Report made in the Preliminary Official Statement and the Official Statement, (iv) the Appraisal Report complies with the Appraisal Standards for Land-Secured Financings issued by the California Debt and Investment Advisory Commission dated July, 2004, (v) a true and correct copy of the Appraisal Report is attached as an appendix to the Preliminary Official Statement and the Official Statement; and (vi) neither the Appraisal Report nor the information in the Preliminary Official Statement or the Official Statement referring to it contains any untrue statement of a material fact or omits to state a material fact necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading;

11. A certificate dated the Closing Date from Goodwin Consulting Group, Inc. addressed to the Community Facilities District and the Underwriter to the effect that: (i) the Special Tax, if levied and collected in the maximum amounts permitted pursuant to the Amended and Restated Rate and Method of Apportionment of Special Tax of the Community Facilities District, as of the Closing Date, would generate at least 110% of the annual debt service

payable with respect to the related issue of Bonds, net of estimated Administrative Expenses, based on such assumptions and qualifications as shall be acceptable to the Underwriter; (ii) the statements in the Preliminary Official Statement and the Official Statement provided by Goodwin Consulting Group, Inc. concerning the Special Tax in the Community Facilities District and all information supplied by it for use in the Official Statement were as of the date of the Preliminary Official Statement, the date of the Official Statement and are as of the Closing Date true and correct, and do not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading; (iii) all information supplied by Goodwin Consulting Group, Inc. to the Appraiser is true and correct as of the date of the Preliminary Official Statement and the date of the Official Statement and as of the Closing Date, based on such assumptions as may have been supplied by it; and (iv) the information contained in the Appraisal Report with respect to taxes and tax rates applicable, and projected to be applicable, to the property in the Community Facilities District is consistent with such information provided by Goodwin Consulting Group, Inc. to the Appraiser, which information so provided was based on information obtained by Goodwin Consulting Group, Inc. from the Community Facilities District, Lennar Homes, and the City;

12. Certified copies of the general resolution of the Trustee authorizing the execution and delivery of certain documents by certain officers of the Trustee, which resolution authorizes the execution of the Indenture and the authentication of the Bonds;

13. A certificate of the Trustee, addressed to the Underwriter, and the Community Facilities District dated the Closing Date, to the effect that: (i) the Trustee is authorized to carry out corporate trust powers, and has full power and authority to perform its duties under the Indenture and the Continuing Disclosure Agreement; (ii) the Trustee is duly authorized to execute and deliver the Indenture and the Continuing Disclosure Agreement, to accept the obligations created by the Indenture and the Continuing Disclosure Agreement and to authenticate the Bonds pursuant to the terms of the Indenture; (iii) no consent, approval, authorization or other action by any governmental or regulatory authority having jurisdiction over the Trustee that has not been obtained is or will be required for the authentication of the Bonds or the consummation by the Trustee of the other transactions contemplated to be performed by the Trustee in connection with the authentication of the Bonds and the acceptance and performance of the obligations created by the Indenture; and (iv) to the best of its knowledge, compliance with the terms of the Indenture will not conflict with, or result in a violation or breach of, or constitute a default under, any material agreement or material instrument to which the Trustee is a party or by which it is bound, or any law or any rule, regulation, order or decree of any court or governmental agency or body having jurisdiction over the Trustee or any of its activities or properties;

14. An opinion of counsel to the Trustee dated the Closing Date, addressed to the Underwriter, and the Community Facilities District to the effect that (i) the Trustee is a national banking association duly organized and validly existing under the laws of the jurisdiction of its organization and has the corporate power to execute and deliver the Indenture, the Continuing Disclosure Agreement, and any other documentation relating to the Indenture, (ii) the execution and delivery by the Trustee of the Indenture, the Continuing Disclosure Agreement, and any other documentation relating to the Indenture, and its performance of its obligations under the Indenture, have been and are as of the date hereof duly authorized by all necessary corporate action, (iii) the Indenture and the Continuing Disclosure Agreement have been duly executed and delivered and constitute the valid and legally binding obligations of the Trustee enforceable against it in accordance with their terms except as such enforceability may be limited by applicable bankruptcy,

insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and by general principles of equity (regardless of whether enforcement is sought as a proceeding in equity or at law), and (iv) the Bonds have been duly authenticated and delivered by the Trustee;

15. A certificate of the Community Facilities District dated the Closing Date, in a form acceptable to Bond Counsel and the Underwriter, that the Bonds are not arbitrage bonds within the meaning of Section 148 of the Internal Revenue Code of 1986, as amended;

16. From counsel to Lennar Homes, (i) a negative assurance letter of such counsel, dated the date of the Closing, in form and substance acceptable to the Underwriter and Bond Counsel, and (ii) an opinion letter of such counsel, dated the date of the Closing, in form and substance acceptable to the Underwriter and Bond Counsel, to the effect that the Developer Continuing Disclosure Certificate has been duly authorized, executed and delivered by Lennar Homes;

17. A Letter of Representations from Lennar Homes dated the date of printing the Preliminary Official Statement, substantially in the form attached hereto as Exhibit B;

18. A Closing Certificate from Lennar Homes dated the Closing Date, substantially in the form attached hereto as Exhibit C, or as such Closing Certificate may be modified with the approval of the Underwriter and Disclosure Counsel;

19. A certificate dated the Closing Date from Empire Economics, Inc. addressed to the Community Facilities District and the Underwriter to the effect that the statements in the Official Statement provided by Empire Economics, Inc. and all information supplied by it for use in the Official Statement were as of the date of the Official Statement and are as of the Closing Date true and correct, and do not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading;

20. An opinion of Kutak Rock LLP, counsel to the Underwriter, dated the date of Closing and addressed to the Underwriter in form and substance acceptable to the Underwriter;

21. A certificate of Urban Futures, Inc., the City's municipal advisor (the "Municipal Advisor") to the effect that the Municipal Advisor has participated in the preparation of the Preliminary Official Statement and the Official Statement and nothing has come to the attention of the Municipal Advisor which would lead it to believe that the Preliminary Official Statement or the Official Statement contain any untrue statement of a material fact or omits to state a fact necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading; and

22. Such additional legal opinions, certificates, instruments and other documents as the Underwriter may reasonably request to evidence the truth and accuracy, as of the date hereof and as of the Closing Date, of the material representations and warranties of the Community Facilities District contained herein, and of the statements and information contained in the Official Statement and the due performance or satisfaction by the Community Facilities District at or prior to the Closing of all agreements then to be performed and all conditions then to be

satisfied by the Community Facilities District in connection with the transactions contemplated hereby and by the Indenture and the Official Statement.

If the Community Facilities District shall be unable to satisfy the conditions to the obligations of the Underwriter to purchase, accept delivery of and pay for the Bonds contained in this Purchase Agreement, or if the obligations of the Underwriter to purchase, accept delivery of and pay for the Bonds shall be terminated for any reason permitted by this Purchase Agreement, this Purchase Agreement shall terminate and neither the Community Facilities District nor the Underwriter shall be under any further obligation hereunder, except that the respective obligations of the Underwriter and the Community Facilities District set forth in Section 5 hereof shall continue in full force and effect.

4. Establishment of Issue Price.

A. The Underwriter agrees to assist the Community Facilities District in establishing the issue price of the Bonds and shall execute and deliver to the Community Facilities District at Closing an "issue price" or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit E, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Underwriter, the Community Facilities District and Bond Counsel (as defined herein), to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Bonds. All actions to be taken by the Community Facilities District under this section to establish the issue price of the Bonds may be taken on behalf of the Community Facilities District by the Municipal Advisor and any notice or report to be provided to the Community Facilities District may be provided to the Community Facilities District's Municipal Advisor.

B. Except as otherwise set forth in Exhibit A attached hereto, the Community Facilities District will treat the first price at which 10% of each maturity of the Bonds (the "10% test") is sold to the public as the issue price of that maturity. At or promptly after the execution of this Purchase Agreement, the Underwriter shall report to the Community Facilities District the price or prices at which it has sold to the public each maturity of Bonds. If at that time the 10% test has not been satisfied as to any maturity of the Bonds, the Underwriter agrees to promptly report to the Community Facilities District the prices at which it sells the unsold Bonds of that maturity to the public. That reporting obligation shall continue, whether or not the Closing Date (as defined herein) has occurred, until the 10% test has been satisfied as to the Bonds of that maturity or until all Bonds of that maturity have been sold to the public, provided that the Underwriter's reporting obligation after the date of the Closing may be at reasonable periodic intervals or otherwise upon request of the Community Facilities District or Bond Counsel. For purposes of this Section, if Bonds mature on the same date but have different interest rates, each separate CUSIP number within that maturity will be treated as a separate maturity of the Bonds. For clarity, and notwithstanding any other condition to Closing set forth in this Purchase Agreement, the sale of 10% of each maturity of the Bonds to the public prior to the Closing Date shall not be a condition to Closing.

C. The Underwriter confirms that it has offered the Bonds to the public on or before the date of this Purchase Agreement at the offering price or prices (the "initial offering price"), or at the corresponding yield or yields, set forth in Exhibit A attached hereto. Exhibit A also sets forth, as of the date of this Purchase Agreement, the maturities, if any, of the Bonds for which the 10% test has not been satisfied and for which the Community Facilities District and the Underwriter agree that the restrictions set forth in the next sentence shall apply, which will allow the Community Facilities District to treat the initial offering price to the public of each such maturity as

of the sale date as the issue price of that maturity (the "hold-the-offering-price rule"). So long as the hold-the-offering-price rule remains applicable to any maturity of the Bonds, the Underwriter will neither offer nor sell unsold Bonds of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

(1) the close of the fifth (5th) business day after the sale date; or

(2) the date on which the Underwriter has sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The Underwriter will advise the Community Facilities District promptly after the close of the fifth (5th) business day after the sale date whether it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

D. The Underwriter confirms that:

(1) any selling group agreement and any third-party distribution agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer who is a member of the selling group and each broker-dealer that is a party to such third-party distribution agreement, as applicable:

(a)(i) to report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing has occurred, until either all Bonds of that maturity allocated to it have been sold or it is notified by the Underwriter that the 10% test has been satisfied as to the Bonds of that maturity, provided that the reporting obligation after the date of the Closing may be at reasonable periodic intervals or otherwise upon request of the Underwriter, and (ii) to comply with the hold-the-offering-price rule, if applicable, in each case if and for so long as directed by the Underwriter,

(b) to promptly notify the Underwriter of any sales of Bonds that, to its knowledge, are made to a purchaser who is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below), and

(c) to acknowledge that, unless otherwise advised by the dealer or broker-dealer, the Underwriter shall assume that each order submitted by the dealer or broker-dealer is a sale to the public.

(2) any selling group agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer that is a party to a third-party distribution agreement to be employed in connection with the initial sale of the Bonds to the public to require each broker-dealer that is a party to such third-party distribution agreement to (A) report the prices at which it sells to the public the unsold Bonds of each maturity allocated to it, whether or not the Closing has occurred, until either all Bonds of that maturity

allocated to it have been sold or it is notified by the Underwriter or the dealer that the 10% test has been satisfied as to the Bonds of that maturity, provided that the reporting obligation after the date of the Closing may be at reasonable periodic intervals or otherwise upon request of the Underwriter or the dealer, and (B) comply with the hold-the-offering-price rule, if applicable, if and for so long as directed by the Underwriter or the dealer and as set forth in the related pricing wires.

E. The Community Facilities District acknowledges that, in making the representations set forth in this subsection, the Underwriter will rely on (i) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the requirements for establishing the issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in a selling group agreement and the related pricing wires, and (ii) in the event that a third-party distribution agreement was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the requirements for establishing the issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule, if applicable to the Bonds, as set forth in the third-party distribution agreement and the related pricing wires. The Community Facilities District further acknowledges that the Underwriter shall not be liable for the failure of any dealer who is a member of a selling group, or of any broker-dealer that is a party to a third-party distribution agreement, to comply with its corresponding agreement to comply with the requirements for establishing the issue price of the Bonds, including, but not limited to, its agreement to comply with the hold-the-offering-price rule if applicable to the Bonds.

F. The Underwriter acknowledges that sales of any Bonds to any person that is a related party to an underwriter participating in the initial sale of the Bonds to the public (each such term being used as defined below) shall not constitute sales to the public for purposes of this section. Further, for purposes of this section:

(1) "public" means any person other than an underwriter or a related party;

(2) "underwriter" means (A) any person that agrees pursuant to a written contract with the Community Facilities District (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a third-party distribution agreement participating in the initial sale of the Bonds to the public);

(3) a purchaser of any of the Bonds is a "related party" to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (i) more than 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (ii) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (iii) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership

(including direct ownership of the applicable stock or interests by one entity of the other); and

(4) "sale date" means the date of execution of this Purchase Agreement by all parties.

5. Expenses. Whether or not the Bonds are delivered to the Underwriter as set forth herein:

A. The Underwriter shall be under no obligation to pay, and the Community Facilities District shall pay or cause to be paid (out of any legally available funds of the Community Facilities District) all expenses incident to the performance of the Community Facilities District's obligations hereunder, including, but not limited to, the cost of printing, engraving and delivering the Bonds to DTC, the cost of preparation, printing, distributing and delivering of the Indenture, the Preliminary Official Statement, the Official Statement, any amendment or supplement to the Preliminary Official Statement or the Official Statement and this Purchase Agreement, and all other agreements and documents contemplated hereby (and drafts of any thereof) in such reasonable quantities as requested by the Underwriter; and the fees and disbursements of the Trustee, Bond Counsel, Disclosure Counsel and any financial advisors, special tax consultants, appraisers, accountants, engineers or any other experts or consultants the City or the Community Facilities District may have retained in connection with the Bonds; and

B. The Community Facilities District shall be under no obligation to pay, and the Underwriter shall pay, any fees of the California Debt and Investment Advisory Commission, the cost of preparation of any "blue sky" or legal investment memoranda and this Purchase Agreement; expenses to qualify the Bonds for sale under any "blue sky" or other state securities laws; and all other expenses incurred by the Underwriter in connection with its public offering and distribution of the Bonds (except those specifically enumerated in paragraph (a) of this section), including the fees and disbursements of its counsel, meals, transportation and lodging (but not entertainment expenses), and any advertising expenses in connection with the public offering of the Bonds.

6. Notices. Any notice or other communication to be given to the Community Facilities District or the Community Facilities District under this Purchase Agreement may be given by delivering the same in writing to the City of Ontario, 303 East "B" Street, Ontario, California 91764, Attention: City Manager; any notice or other communication to be given to the Underwriter under this Purchase Agreement may be given by delivering the same in writing to Samuel A. Ramirez & Co., Inc., 633 W. 5th, Suite 2693, Los Angeles, California 90071, Attention: Public Finance.

7. Parties In Interest. This Purchase Agreement is made solely for the benefit of the Community Facilities District and Underwriter (including any successors or assignees of the Underwriter) and no other person shall acquire or have any right hereunder or by virtue hereof.

8. Survival of Representations and Warranties. The representations and warranties of the Community Facilities District under this Purchase Agreement shall not be deemed to have been discharged, satisfied or otherwise rendered void by reason of the Closing and regardless of any investigations made by or on behalf of the Underwriter (or statements as to the results of such investigations) concerning such representations and statements of the Community Facilities District and regardless of delivery of and payment for the Bonds.

9. Execution in Counterparts. This Purchase Agreement may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered shall be an original, but all such counterparts shall together constitute but one and the same instrument.

10. Effective. This Purchase Agreement shall become effective and binding upon the respective parties hereto upon the execution of the acceptance hereof by the Community Facilities District and shall be valid and enforceable as of the time of such acceptance.

11. No Prior Agreements. This Purchase Agreement supersedes and replaces all prior negotiations, agreements and understanding among the parties hereto in relation to the sale of the Bonds by the Community Facilities District.

12. Governing Law. This Purchase Agreement shall be governed by the laws of the State of California.

13. Effective Date. This Purchase Agreement shall become effective and binding upon the respective parties hereto upon the execution of the acceptance hereof by the Community Facilities District and shall be valid and enforceable as of the time of such acceptance.

Very truly yours,

SAMUEL A. RAMIREZ & CO., INC.

(C) Priced to optional redemption date of September 1, 20__, at [par].
* At the time of execution of this Purchase Agreement and assuming orders are confirmed immediately after the execution of this Purchase Agreement.

REDEMPTION PROVISIONS

Optional Redemption. The Bonds maturing on and after September 1, 2032, shall be subject to optional redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date on or after September 1, 2031 from any source of available funds, at the following respective Redemption Prices (expressed as percentages of the principal amount of the Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
September 1, 2031 and March 1, 2032	103%
September 1, 2032 and March 1, 2033	102
September 1, 2033 and March 1, 2034	101
September 1, 2034 and any Interest Payment Date thereafter	100

Mandatory Redemption from Special Tax Prepayments. The Bonds shall be subject to mandatory redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date, from and to the extent of Special Tax prepayments required to be applied thereto pursuant to the Indenture and any amount required to be applied thereto pursuant to the Indenture, at the following respective Redemption Prices (expressed as percentages of the principal amount of the Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
September 1, 2031 and March 1, 2032	103%
September 1, 2032 and March 1, 2033	102
September 1, 2033 and March 1, 2034	101
September 1, 2034 and any Interest Payment Date thereafter	100

Mandatory Sinking Fund Redemption. The Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__ at a Redemption Price equal to the principal amount of the Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	Principal Amount to be Redeemed

The Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__ at a Redemption Price equal to the principal amount of the Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	Principal Amount to be Redeemed

The Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__ at a Redemption Price equal to the principal amount of the Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	Principal Amount to be Redeemed

The Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__ at a Redemption Price equal to the principal amount of the Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

SPECIAL TAX BONDS, SERIES 2024

LETTER OF REPRESENTATIONS OF
LENNAR HOMES OF CALIFORNIA, LLC

[POS Date]

City of Ontario Community Facilities District
No. 35 (Countryside Phase 2 South - Facilities)
303 East B Street
Ontario, California 91764

Samuel A. Ramirez & Co., Inc.
633 W. 5th, Suite 2693
Los Angeles, California 90071

Ladies and Gentlemen:

Reference is made to the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "**Bonds**") and to the Bond Purchase Agreement to be entered into in connection therewith (the "**Bond Purchase Agreement**"). This Letter of Representations of Lennar Homes of California, LLC (the "**Letter of Representations**") is delivered pursuant to and in satisfaction of Section 3(F)(17) of the Bond Purchase Agreement. Capitalized terms used herein and not otherwise defined have the meanings ascribed to them in the Bond Purchase Agreement.

The undersigned certifies that he or she is familiar with the facts herein certified and is authorized and qualified to certify the same as an authorized officer or representative of Lennar Homes of California, LLC, a California limited liability company (the "**Developer**"), and the undersigned, on behalf of the Developer, further certifies as follows:

1. The Developer is duly organized and validly existing under the laws of the State of California and has all requisite right, power and authority (i) to execute and deliver this Letter of Representations, and (ii) to develop its property in the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "**Community Facilities District**") as described in the Preliminary Official Statement.

2. As set forth in the Preliminary Official Statement, title to a certain portion of the property within the Community Facilities District is held in the name of the Developer (herein, the "**Property**"). The undersigned, on behalf of the Developer, makes the representations herein with

respect to all such Property. Except as otherwise described in the Preliminary Official Statement, the Developer's current expectation is that the Developer shall remain the party responsible for the construction and sale of homes within the Property. Except as disclosed in the Preliminary Official Statement, the Developer has not entered into an agreement for development or management of the Property by any other entity, except such subcontracts, consultant agreements and similar agreements for land development activities associated with the Developer's development plan as are entered into in the ordinary course of business.

3. Except as set forth in the Preliminary Official Statement, no action, suit, proceeding, inquiry or investigation at law or in equity, before or by any court, regulatory agency, public board or body is pending against the Developer (with proper service of process to the Developer having been accomplished) or, to the Actual Knowledge of the Undersigned,[1] is pending against any current Affiliate[2] (with proper service of process to such Affiliate having been accomplished) or to the Actual Knowledge of the Undersigned is threatened in writing against the Developer or any such Affiliate (a) to restrain or enjoin the collection of the special tax levied on the Property by the Community Facilities District (the "**Special Tax**") or other sums pledged or to be pledged to pay the principal of and interest on the Bonds (e.g., the reserve fund established under the Indenture (herein, the "**Reserve Fund**")), (b) to restrain or enjoin the development of the Property as described in the Preliminary Official Statement, (c) to materially adversely affect the ability of the Developer to perform its obligations under the Continuing Disclosure Certificate (as hereinafter defined), (d) in any way contesting or affecting the validity of the Special Tax, or (e) which is reasonably likely to materially and adversely affect the Developer's ability to develop and sell the Property as described

1 "**Actual Knowledge of the Undersigned**" means, as of the date of this Letter of Representations, the actual (as opposed to constructive) knowledge that the individual signing on behalf of the Developer currently has or has obtained through (i) interviews with such current officers and responsible employees of the Developer and its Affiliates as the undersigned has determined are reasonably likely, in the ordinary course of their respective duties, to have knowledge of the matters set forth in this Letter of Representations, and/or (ii) review of documents that were reasonably available to the undersigned and which the undersigned has reasonably deemed necessary for the undersigned to obtain knowledge of the matters set forth in this Letter of Representations. The undersigned has not conducted any extraordinary inspection or inquiry other than such inspections or inquiries as are prudent and customary in connection with the ordinary course of the Developer's current business and operations. Individuals who are no longer employees of the Developer and its Affiliates have not been contacted. The Developer further notes that Lennar Corporation, a Delaware corporation ("**Lennar Corporation**"), completed a merger with CalAtlantic Group, Inc., a Delaware corporation (now CalAtlantic Group, LLC, herein "**CalAtlantic**") in February, 2018, pursuant to which CalAtlantic merged with and into Lennar Corporation, with Lennar Corporation being the surviving entity. Separate and apart from Lennar Corporation's due diligence efforts for purposes of completing the acquisition of CalAtlantic, individuals who were employees and officers of CalAtlantic and its subsidiaries prior to the merger have not been consulted or contacted and documents entered into by CalAtlantic and its subsidiaries or related to their properties and projects have not been reviewed.

2 "**Affiliate**" means, with respect to the Developer, any other Person (i) who directly, or indirectly through one or more intermediaries, is currently controlling, controlled by or under common control with the Developer, and (ii) for whom information, including financial information or operating data, concerning such Person is material to potential investors in their evaluation of the Community Facilities District and investment decision regarding the Bonds (i.e., information relevant to (a) the Developer's development plans with respect to the Property and ability to pay its Special Taxes on the Property (to the extent the responsibility of the Developer) prior to delinquency, or (b) such Person's assets or funds that would materially affect the Developer's ability to develop the Property as described in the Preliminary Official Statement or to pay its Special Taxes on the Property (to the extent the responsibility of the Develop) prior to delinquency. "**Person**" means an individual, a corporation, a partnership, a limited liability company, an association, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof. For purposes hereof, the term "**control**" (including the terms "**controlling**," "**controlled by**" or "**under common control with**") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a Person, whether through the ownership of voting securities, by contract or otherwise. Due to the merger, and for purposes hereof, the term Affiliate shall exclude CalAtlantic and its direct and indirect subsidiaries.

in the Preliminary Official Statement or to pay the Special Tax due with respect to the Property (to the extent the responsibility of the Developer) prior to delinquency.

4. As of the date of the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, the information contained therein solely with respect to the Developer, its Affiliates, the proposed development of the Property, ownership of the Property, the Developer's development plan, the Developer's financing plan, the Developer's lenders, if any, and contractual arrangements of the Developer or any Affiliates (including, if material to the Developer's development plan or the Developer's financing plan, other loans of such Affiliates) as set forth under the sections of the Preliminary Official Statement captioned "PROPERTY OWNERSHIP AND THE DEVELOPMENT" and "CONTINUING DISCLOSURE – Developer Continuing Disclosure Certificate" (but in all cases under all captions excluding therefrom (i) information regarding the Appraisal Report (as defined herein), market value ratios and annual special tax ratios, and (ii) information which is identified as having been provided by a source other than the Developer), is true and correct in all material respects and did not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

5. Except as described in the Preliminary Official Statement, there are no material loans outstanding and unpaid and no material lines of credit of the Developer or its Affiliates, that are secured by an interest in the Property. Neither the Developer nor, to the Actual Knowledge of the Undersigned, any of its Affiliates is currently in material default on any loans, lines of credit or other obligation related to the development of the Property or any other project which default is reasonably likely to materially and adversely affect the Developer's ability to develop the Property as described in the Preliminary Official Statement or to pay the Special Tax due with respect to the Property (to the extent the responsibility of the Developer) prior to delinquency.

6. To the Actual Knowledge of the Undersigned, other than as disclosed in the Preliminary Official Statement, the Developer is not aware that any of the Property has a current liability with respect to the presence of a substance presently classified as hazardous under the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 or applicable California law or is adversely affected by the presence of endangered or threatened species or habitat for endangered or threatened species.

7. The Developer covenants that, while the Bonds or any refunding obligations related thereto are outstanding, the Developer and its Affiliates which it controls will not bring any action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body, that in any way seeks to challenge or overturn the formation of the Community Facilities District, to challenge the adoption of the ordinance of the Community Facilities District levying Special Tax within the Community Facilities District, to invalidate the Community Facilities District or any of the Bonds or any refunding bonds related thereto, or to invalidate the special tax liens imposed under Section 3115.5 of the Streets and Highways Code based on recordation of the notices of special tax lien relating thereto. The foregoing covenant shall not prevent the Developer in any way from bringing any other action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body including, without limitation, (a) an action or suit contending that the Special Tax has not been levied in accordance with the methodologies contained in the Amended and Restated Rate and Method of Apportionment of Special Tax pursuant to which Special Tax is levied, (b) an action or suit with respect to the application or use of the Special Tax levied and collected or (c) an action or suit to enforce the obligations of the City and/or

the Community Facilities District under the Community Facilities District Resolutions, the Ordinance, the Indenture, or any other agreements among the Developer, an Affiliate, the City and/or the Community Facilities District or to which the Developer or an Affiliate is a party or beneficiary.

8. The Developer consents to the issuance of the Bonds. The Developer acknowledges and agrees that the proceeds of the Bonds will be used as described in the Preliminary Official Statement.

9. The Developer intends to comply with the provision of the Mello-Roos Community Facilities Act of 1982, as amended relating to the Notice of Special Tax described in Government Code Section 53341.5 in connection with the sale of the Property, or portions thereof.

10. To the Actual Knowledge of the Undersigned, the Developer is able to pay its bills as they become due and no legal proceedings are pending against the Developer (with proper service of process having been accomplished) or, to the Actual Knowledge of the Undersigned, threatened in writing in which the Developer may be adjudicated as bankrupt or discharged from any and all of its debts or obligations, or granted an extension of time to pay its debts or obligations, or be allowed to reorganize or readjust its debts, or be subject to control or supervision of the Federal Deposit Insurance Corporation.

11. The Developer agrees to execute at Closing the Continuing Disclosure Certificate, substantially in the form attached as Appendix H to the Preliminary Official Statement (the "**Continuing Disclosure Certificate**"), with such additional changes as may be agreed to by the Developer and the Underwriter. Except as disclosed in the Preliminary Official Statement, to the Actual Knowledge of the Undersigned, the Developer is not aware of any material failures by it or any entity under managerial control of the Developer to comply in all material respects with previous continuing disclosure undertakings in a written certificate or agreement executed by it or an entity under the managerial control of the Developer to provide periodic continuing disclosure reports or notices of material events respecting securities offerings in California within the past five years.

12. To the Actual Knowledge of the Undersigned, execution and delivery of the Continuing Disclosure Certificate, and the performance by the Developer of its obligations under the Continuing Disclosure Certificate, will not conflict with or constitute a breach of or default under any loans, lines of credit, agreements, or other contractual or financial obligations of the Developer, or any applicable law, regulation, judgment or decree.

13. To the Actual Knowledge of the Undersigned, Affiliates of the Developer are able to pay their bills as they become due and no legal proceedings are pending against any Affiliate of the Developer (with proper service of process having been accomplished) or to the Actual Knowledge of the Undersigned, threatened in writing in which the Affiliates of the Developer may be adjudicated as bankrupt or discharged from any or all of their debts or obligations, or granted an extension of time to pay their debt or obligations, or be allowed to reorganize or readjust their debts or obligations, or be subject to control or supervision of the Federal Deposit Insurance Corporation which is reasonably likely to have a materially adverse impact on the ability of the Developer to develop the Property as described in the Preliminary Official Statement, to perform its obligations under the Continuing Disclosure Certificate, or to pay the Special Tax or ad valorem tax obligations with respect to the portion of the Property then owned by the Developer (to the extent the responsibility of the Developer) prior to delinquency.

14. The Developer has been developing or has been involved in the development of numerous projects over an extended period of time. It is likely that the Developer and its Affiliates have been delinquent at one time or another in the payment of ad valorem property taxes, special assessments or special taxes. However, to the Actual Knowledge of the Undersigned, during the last five years, neither the Developer nor any current Affiliate has, during the period of its ownership, been delinquent to any material extent in the payment of any *ad valorem* property tax, special assessment or special tax on property included within the boundaries of a community facilities district or an assessment district in California that (a) caused a draw on a reserve fund relating to such assessment district or community facilities district financing or (b) resulted in a foreclosure action being commenced against the delinquent Developer or such Affiliate in a court of law.

15. The Developer has not filed for the reassessment of the assessed value of any portions of the Property, other than in connection with the sale of homes to individual homebuyers.

16. To the Actual Knowledge of the Undersigned, there are no claims, disputes, suits, actions or contingent liabilities by and among the Developer, its Affiliates or any contractors working on the development of the Property which is reasonably likely to materially and adversely affect the Developer's development of the Property as described in the Preliminary Official Statement, the performance of its obligations under the Continuing Disclosure Certificate, or the payment of the Special Tax due with respect to the Property (to the extent the responsibility of the Developer) prior to delinquency.

17. Based upon the current development plans, including, without limitation, the current budget and subject to economic conditions and risks generally inherent in the development of real property, including, but not limited to, the risks described in the Preliminary Official Statement under the section entitled "SPECIAL RISK FACTORS," the Developer presently anticipates that it will have sufficient funds to develop the Property as described in the Preliminary Official Statement and to pay Special Tax levied against the Property (to the extent the responsibility of the Developer) prior to delinquency and does not anticipate that the City or the Community Facilities District will be required to resort to a draw on the Reserve Fund for payment of principal of or interest on the Bonds due to the Developer's nonpayment of Special Tax. However, neither the Developer nor any of its Affiliates are obligated to make any additional capital contribution or loan to the Developer at any time, and the Developer reserves the right to change its development plans and financing plans for the Property at any time without notice.

18. An appraisal of the taxable properties within the Community Facilities District, dated May 6, 2024 (the "**Appraisal Report**"), was prepared by Kitty Siino & Associates, Inc. (the "**Appraiser**"). The Appraisal Report estimates the market value of the taxable properties within the Community Facilities District as of April 1, 2024 (the "**Date of Value**"). To the Actual Knowledge of the Undersigned, all information submitted by, or on behalf of and authorized by, the Developer to the Appraiser and contained in the sections of the Appraisal Report highlighted in yellow or circled in Exhibit A attached hereto, was true and correct in all material respects as of the Date of Value.

19. Solely as to the limited information described in the sections of the Preliminary Official Statement indicated in Paragraph 4 herein (and subject to the limitations and exclusions set forth in Paragraph 4), the Developer agrees to indemnify and hold harmless, to the extent permitted by law, the City, the Community Facilities District, and their officials and employees, and each Person, if any, who controls any of the foregoing within the meaning of Section 15 of the Securities Act of 1933, as amended, or of Section 20 of the Securities Exchange Act of 1934, as amended

(each, an "**Indemnified Party**" and, collectively, the "**Indemnified Parties**"), against any and all losses, claims, damages or liabilities, joint or several, to which such Indemnified Party may become subject under any statute or at law or in equity and shall reimburse any such Indemnified Party for any reasonable legal or other expense incurred by it in connection with investigating any such claim against it and defending any such action, insofar as and solely to the extent such losses, claims, damages, liabilities or actions, or legal or other expenses, arise out of or are based upon any untrue statement or alleged untrue statement of a material fact or the omission or alleged omission of a material fact by the Developer in the above-referenced information in the Preliminary Official Statement, as of its date, necessary to make the statements made by the Developer contained therein, in light of the circumstances under which they were made not misleading. This indemnity provision shall not be construed as a limitation on any other liability which the Developer may otherwise have to any Indemnified Party, *provided* that in no event shall the Developer be obligated for double indemnification, or for the negligence or willful misconduct of an Indemnified Party.

If any suit, action, proceeding (including any governmental or regulatory investigation), claim or demand shall be brought or asserted against any Indemnified Party in respect of which indemnification may be sought pursuant to the above paragraph, such Indemnified Party shall promptly notify the Developer in writing; provided that the failure to notify the Developer shall not relieve it from any liability that it may have hereunder except to the extent that it has been materially prejudiced by such failure; and provided, further, that the failure to notify the Developer shall not relieve it from any liability that it may have to an Indemnified Party otherwise than under the above paragraph unless such liability was also conditioned upon such notice. If any such proceeding shall be brought or asserted against an Indemnified Party and it shall have notified the Developer thereof, the Developer shall retain counsel reasonably satisfactory to the Indemnified Party and approved thereby to represent the Indemnified Party in such proceeding and shall pay the fees and expenses of such counsel related to such proceeding, as incurred. In any such proceeding, any Indemnified Party shall have the right to retain its own counsel, but the fees and expenses of such counsel shall be at the expense of such Indemnified Party unless (i) the Developer and the Indemnified Party shall have mutually agreed to the contrary; (ii) the Developer has failed within a reasonable time to retain counsel reasonably satisfactory to the Indemnified Party; (iii) the Indemnified Party shall have reasonably concluded that there may be legal defenses available to it that are different from or in addition to those available to the Developer such that a material conflict of interest exists for such counsel; or (iv) the named parties in any such proceeding (including any impleaded parties) include the Developer and the Indemnified Party and representation of both parties by the same counsel would be inappropriate due to actual or potential differing interest between them. It is understood and agreed that the Developer shall not, in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the fees and expenses of more than one separate firm (in addition to any local counsel) for all Indemnified Parties, and that all such fees and expenses, to the extent reasonable, shall be paid or reimbursed as they are incurred. Any such separate firm shall be designated in writing by such Indemnified Parties. The Developer shall not be liable for any settlement of any proceeding effected without its written consent, but if settled with such consent or if there be a final judgment for the plaintiff, the Developer agrees to indemnify each Indemnified Party from and against any loss or liability by reason of such settlement or judgment as set forth above. If the Developer shall, after receiving notice of the indemnification obligation of the Developer and within a period of time necessary to preserve any and all defenses to any claim asserted, fails to assume the defense or to retain counsel for that purpose satisfactory to the Indemnified Party, the Indemnified Party shall have the right, but not the obligation, to undertake the defense of, and to compromise or settle the claim or other matter on behalf of, for the account of and

at the risk of, the Developer. The Developer shall not, without the written consent of the Indemnified Party, effect any settlement of any pending or threatened proceeding in respect of which any Indemnified Party is a party and indemnification could have been sought hereunder by such Indemnified Party, unless such settlement (x) includes an unconditional release of such Indemnified Party, in form and substance reasonably satisfactory to such Indemnified Party, from all liability on claims that are the subject matter of such proceeding and (y) does not include any statement as to or any admission of fault, culpability or a failure to act by or on behalf of any Indemnified Party.

20. If between the date hereof and the Closing Date any event relating to or affecting the Developer, its Affiliates, the proposed development of the Property, ownership of the Property, the Developer's development plan, the Developer's financing plan, the Developer's lenders, if any, and contractual arrangements of the Developer or any Affiliates (including, if material to the Developer's development plan or the Developer's financing plan, other loans of such Affiliates) shall occur of which the undersigned has actual knowledge which would cause the information under the sections of the Preliminary Official Statement indicated in Paragraph 4 hereof (and subject to the limitations and exclusions contained in Paragraph 4 hereof), to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, the Developer shall notify the City, the Community Facilities District and the Underwriter and if in the opinion of counsel to the City or the Underwriter such event requires the preparation and publication of a supplement or amendment to the Preliminary Official Statement, the Developer shall reasonably cooperate with the City and the Community Facilities District in the preparation of an amendment or supplement to the Preliminary Official Statement in form and substance satisfactory to counsel to the City, the Community Facilities District and to the Underwriter.

21. The Developer agrees to deliver a Closing Certificate dated the date of issuance of the Bonds at the time of issuance of the Bonds in substantially the form attached as Exhibit C to the Bond Purchase Agreement. If any event related to or affecting the Developer, its Affiliates, or the ownership, development, or sale of the Property occurs, as a result of which it is necessary to modify the Closing Certificate, the Developer agrees to deliver a new Closing Certificate revised to reflect such event.

22. On behalf of the Developer, I have reviewed the contents of this Letter of Representations and have had the opportunity to discuss with counsel to the Developer the meaning of the contents of this Letter of Representations. The Developer acknowledges and understands that a variety of state and federal securities laws, including, but not limited to the Securities Act of 1933, as amended, and Rule 10b-5 promulgated under the Securities Exchange Act of 1934, as amended, may apply to the Developer and that under some circumstances, certification as to the matters set forth in this Letter of Representations, without additional disclosures or other action, may not fully discharge all duties and obligations of the Developer under such securities laws.

[Remainder of Page Intentionally Left Blank; Signature Page Follows]

The undersigned has executed this Letter of Representations solely in his or her capacity as an authorized officer or representative of the Developer and he or she will have no personal liability arising from or relating to this Letter of Representations. Any liability arising from or relating to this Letter of Representations may only be asserted against the Developer.

CLOSING CERTIFICATE OF
LENNAR HOMES OF CALIFORNIA, LLC

[Closing Date]

City of Ontario Community Facilities District
No. 35 (Countryside Phase 2 South - Facilities)
303 East B Street
Ontario, California 91764
Attn: City Manager

Samuel A. Ramirez & Co., Inc.
633 W. 5th, Suite 2693
Los Angeles, California 90071

Ladies and Gentlemen:

Reference is made to the above-captioned bonds (the "**Bonds**") and to the Bond Purchase Agreement, dated [BPA Date] (the "**Bond Purchase Agreement**"), entered into in connection therewith. This Closing Certificate of Lennar Homes of California, LLC (the "**Closing Certificate**") is delivered pursuant to Section 3(F)(18) of the Bond Purchase Agreement. Capitalized terms used herein and not otherwise defined have the meanings ascribed to them in the Letter of Representations of Lennar Homes of California, LLC (the "**Letter of Representations**"), dated [POS Date], delivered by Lennar Homes of California, LLC, a California limited liability company (the "**Developer**").

The undersigned certifies that he or she is familiar with the facts herein certified and is authorized and qualified to certify the same as an authorized officer or representative of the Developer, and the undersigned, on behalf of the Developer, further certifies as follows:

1. The Developer has received the final Official Statement dated [BPA Date] relating to the Bonds (the "**Official Statement**"). To the Actual Knowledge of the Undersigned, each statement, representation and warranty made in the Letter of Representations is true and correct in all material respects on and as of the date hereof with the same effect as if made on the date hereof, except that all references therein to the Preliminary Official Statement shall be deemed to be

references to the Official Statement and all references to the Continuing Disclosure Certificate herein shall be deemed to be references to the Continuing Disclosure Certificate as executed by the Developer in connection with the sale of the Bonds.

2. To the Actual Knowledge of the Undersigned, no event has occurred since the date of the Preliminary Official Statement affecting the statements and information described in Paragraph 4 of the Letter of Representations (and subject to the limitations and exclusions contained in Paragraph 4 of the Letter of Representations) relating to the Developer, its Affiliates, the proposed development of the Property, ownership of the Property, the Developer's development plan, the Developer's financing plan, the Developer's lenders, if any, and contractual arrangements of the Developer or any Affiliates (including, if material to the Developer's development plan or the Developer's financing plan, other loans of its Affiliates), which should be disclosed in the Official Statement for the purposes for which it is to be used in order to make such statements and information contained in the Official Statement not misleading in any material respect.

3. For the period through 25 days after the "**End of the Underwriting Period**" as defined in the Bond Purchase Agreement (provided the Developer may assume the End of the Underwriting Period is the Closing Date (as defined in the Bond Purchase Agreement), unless it receives written notice from the Underwriter that the End of the Underwriting Period is later than the Closing Date), if any event relating to or affecting the Developer, its Affiliates, the proposed development of the Property, ownership of the Property, the Developer's development plan, the Developer's financing plan, the Developer's lenders, if any, and contractual arrangements of the Developer or any Affiliates (including, if material to the Developer's development plan or the Developer's financing plan, other loans of its Affiliates) shall occur as a result of which it is necessary, in the opinion of the Underwriter or counsel to the City or the Community Facilities District, to amend or supplement the Official Statement in order to make the information under the sections of the Official Statement indicated in Paragraph 4 of the Letter of Representations (and subject to the limitations and exclusions contained in Paragraph 4 of the Letter of Representations) not misleading in the light of the circumstances under which they were made, the Developer shall reasonably cooperate with the City, the Community Facilities District and the Underwriter in the preparation and publication of a supplement or amendment to the information under the sections of the Official Statement indicated in Paragraph 4 of the Letter of Representations (and subject to the limitations and exclusions contained in Paragraph 4 of the Letter of Representations), in form and substance satisfactory to the Underwriter and counsel to the City and the Community Facilities District which will amend or supplement the Official Statement so that it will not contain an untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

4. The Developer has duly authorized the execution and delivery of the Continuing Disclosure Certificate and is duly authorized to perform the obligation on its part to be performed thereunder, and the Continuing Disclosure Certificate constitutes the legal, valid and binding obligation of the Developer, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization, arrangement, moratorium, fraudulent conveyance and other similar laws affecting the rights of creditors and certain equitable, legal or statutory principles affecting enforcement of contractual rights generally, regardless of whether such enforcement is considered in a proceeding of law or equity.

[Remainder of Page Intentionally Left Blank; Signature Page Follows]

The undersigned has executed this Closing Certificate solely in his or her capacity as an authorized officer or representative of the Developer and he or she will have no personal liability arising from or relating to this Closing Certificate. Any liability arising from or relating to this Closing Certificate may only be asserted against the Developer.

ISSUER'S COUNSEL OPINION

Re: $_____ City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024

Ladies and Gentlemen:

We have acted as issuer's counsel ("Issuer's Counsel") to the City of Ontario (the "City") and the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South – Facilities) (the "Community Facilities District"), in connection with the issuance of the $_____ City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South – Facilities) Special Tax Bonds, Series 2024 (the "Bonds"). In such capacity, we have been asked to render this opinion in connection with Section 3(F)(9) of that certain Bond Purchase Agreement, dated [BPA Date] (the "Bond Purchase Agreement"), by and between Samuel A. Ramirez & Co., Inc., as underwriter, and the Community Facilities District relating to the Bonds. All capitalized terms used herein but not otherwise defined shall have the meanings ascribed to them in the Bond Purchase Agreement.

In rendering this opinion, we have examined and relied upon originals or copies of the following documents upon which we are relying, without further inquiry or investigation (although we advise you that we have no actual knowledge to the contrary of any matters related thereto): (i) the Community Facilities District Resolution of Issuance, (ii) Resolution No. 2017-108, adopted by the City Council of the City (the "City Council") on September 5, 2017 (the "Resolution of Intention"), (iii) Resolution No. 2017-109, adopted by the City Council on September 5, 2017 (the "Resolution to Incur Indebtedness"), (iv) Resolution No. 2017-123, adopted by the City Council on October 17, 2017 (the "Resolution of Formation"), (v) Resolution No. 2017-124, adopted by the City

Council on October 17, 2017 (the "Resolution Deeming it Necessary to Incur Indebtedness"), (vi) Resolution No. 2017-125, adopted by the City Council on October 17, 2017 (the "Resolution Calling Election"), (vii) Resolution No. 2017-126, adopted by the City Council on October 17, 2017 (the "Resolution Declaring Results"), (viii) Ordinance No. 3082, adopted by the City Council on November 7, 2017 (the "Ordinance"), (ix) Resolution No. 2022-048, adopted by the City Council on June 7, 2022 (the "Resolution of Consideration to Change Rate and Method of Apportionment"), (x) Resolution No. 2022-049, adopted by the City Council on June 7, 2022 (the "Resolution of Intention to Increase Maximum Debt Amount"), (xi) Resolution No. 2022-120, adopted by the City Council on July 19, 2022 (the "Resolution Deeming it Necessary to Increase the Maximum Aggregate Amount of Bonded Indebtedness"), (xii) Resolution No. 2022-121, adopted by the City Council on July 19, 2022 (the "Resolution Calling Special Election Relating to Debt Increase"), (xiii) Resolution No. 2022-118, adopted by the City Council on July 19, 2022 (the "Resolution Calling Special Election for Proposed Changes to the Rate and Method of Apportionment"), (xiv) Resolution No. 2022-122, adopted by the City Council on July 19, 2022 (the "Resolution Declaring Results of Special Election Relating to Debt Increase"), (xv) Resolution No. 2022-119, adopted by the City Council on July 19, 2022 (the "Resolution of Change Declaring Results of Special Election"), (xvi) Ordinance No. 3221, adopted by the City Council on August 2, 2022 (the "Ordinance Amending and Restating Ordinance No. 3082", and, together with the Resolution of Intention, the Resolution to Incur Indebtedness, the Resolution of Formation, the Resolution Deeming it Necessary to Incur Indebtedness, the Resolution Calling Election, and the Resolution Declaring Results, Resolution of Consideration to Change Rate and Method of Apportionment, Resolution of Intention to Increase Maximum Debt Amount, Resolution Deeming it Necessary to Increase the Maximum Aggregate Amount of Bonded Indebtedness, Resolution Calling Special Election Relating to Debt Increase, Resolution Calling Special Election for Proposed Changes to the Rate and Method of Apportionment, Resolution Declaring Results of Special Election Relating to Debt Increase, Resolution of Change Declaring Results of Special Election, the "Formation Documents"), (xvii) the Community Facilities District Documents, and (xviii) the Official Statement, relating to the Bonds, and we have made such other investigations of law and facts as we have deemed necessary to render the following opinions.

In rendering this opinion, we have assumed, without independent investigation, that all documents submitted to or reviewed by us are accurate and complete and, if not originals, are true and correct copies of originals and the accuracy of the statements and representations contained in such documents. As to questions of fact material to this opinion letter, we have relied upon representations and information supplied to us by the City and the Community Facilities District and their respective officers, employees, and representatives and upon representations and certificates of various public officials. In addition, we have assumed the authority of and due execution by each of the parties to the documents other than the City and the Community Facilities District. In the course of our representation, nothing has come to our attention that caused us to believe that any of the factual representations upon which we have relied are not true, but we have made no other factual investigations.

When used herein, the phrase "current actual knowledge" means knowledge as we have obtained from (i) the incumbency and signature certificate of the Community Facilities District, (ii) the representations and warranties contained in each closing certificate of the City or the Community Facilities District, (iii) knowledge of facts or other information currently known to lawyers in our firm who have performed legal services for the City or the Community Facilities District, and (iv) a litigation search in California State and federal court conducted on _____, 20___.

Based on the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The City is a municipal corporation and general law city, duly organized and validly existing pursuant to the Constitution and laws of the State of California (the "State").

2. The Community Facilities District is duly organized and validly existing as a community facilities district under the Constitution and laws of the State.

3. The Community Facilities District Resolution of Issuance and the Formation Documents have been duly adopted at meetings of the City Council, which were called and held pursuant to law and with all public notice required by law and at which a quorum was present and acting throughout, and the Community Facilities District Resolution of Issuance and the Formation Documents are in full force and effect and have not, other than as described in the Official Statement, been modified, amended, rescinded or repealed since the respective dates of their adoption.

4. The Community Facilities District Documents and the Official Statement have been duly authorized, executed and delivered by the Community Facilities District and constitute the legal, valid and binding obligations of the Community Facilities District enforceable against the Community Facilities District in accordance with their terms, subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights, to the application of equitable principles where equitable remedies are sought and to the exercise of judicial discretion in appropriate cases or seeks to restrain or to enjoin the development of property within the Community Facilities District.

5. Except as may be stated in the Official Statement, to our current actual knowledge, there is no action, suit, proceeding or investigation before or by any court, public board or body pending (notice of which has been served on the City or the Community Facilities District) or threatened wherein an unfavorable decision, ruling or finding would: (a) affect the creation, organization, existence or powers of the City or the Community Facilities District, or the titles of their members and officers to their respective offices; or (b) affect the validity of the Community Facilities District Documents or restrain or enjoin the repayment of the Bonds or in any way contest or affect the validity of the Community Facilities District Documents or contest the authority of the Community Facilities District to enter into or perform its obligations under any of the Community Facilities District Documents or under which a determination adverse to the City or Community Facilities District would have a material adverse effect upon the financial condition or the revenues of the City or Community Facilities District, questions the right of the Community Facilities District to use the Special Tax levied within the Community Facilities District for the repayment of the Bonds or affects in any manner the right or ability of the Community Facilities District to collect or pledge the Special Tax levied within the Community Facilities District for the repayment of the Bonds.

6. To our current actual knowledge, the execution and delivery of the Bonds and the Community Facilities District Documents, and compliance with the provisions of each, will not conflict with or constitute a breach of or default under any loan agreement, note, ordinance, resolution, indenture, contract, agreement or other instrument of which the Community Facilities District is a party or is otherwise subject or bound, a consequence of

which could be to materially and adversely affect the ability of the Community Facilities District to perform its obligations under the Bonds or the Community Facilities District Documents.

7. All approvals, consents, authorization, elections and orders of or filings or registrations with any governmental authority, board, agency or commission having jurisdiction which would constitute a condition precedent to, or the absence of which would materially adversely affect, the ability of the Community Facilities District, to perform its obligations under the Bonds or the Community Facilities District Documents, have been obtained or made, as the case may be, and are in full force and effect.

The opinions set forth above are subject to the following additional qualifications:

(a) We express no opinion with respect to the laws of any state or jurisdiction other than California and the United States regarding the enforceability of any transaction mentioned herein or the interpretation, authorization, execution, validity, enforceability or effect of any of the documents mentioned herein; provided further that we express no opinion with respect to California or federal tax and securities law.

(b) As Issuer's Counsel in this matter, we have not rendered financial advice to the Community Facilities District and do not represent by this opinion, or otherwise, that we reviewed or made any assessment about, nor do we express any opinion about, the ability of the Community Facilities District to pay debt service or amounts due under the Indenture, and accordingly, we offer no opinion whatsoever regarding such financial feasibility or ability to repay the Bonds.

(c) We express no opinion with respect to any indemnification, contribution, lien priority or choice of law provisions contained in the foregoing documents.

(d) General principles of equity, regardless of whether such enforceability is considered in a proceeding in equity or at law; and limitations imposed by bankruptcy, insolvency, fraudulent conveyance, receivership, conservatorship, reorganization, arrangement, liquidation, moratorium or other similar laws affecting the enforcement of creditors' rights in general heretofore or hereafter enacted, as such laws may be applied in the event of bankruptcy, insolvency, reorganization, arrangement, receivership, conservatorship, liquidation, readjustment of debt or other similar proceedings of, or moratorium or similar occurrence affecting municipal corporations in the State.

No attorney-client relationship exists between you and us (other than the City and Community Facilities District). This opinion is solely for the benefit of the addressees in connection with the transactions covered by the first paragraph of this letter and may not be relied upon or used by, circulated, quoted or referred to, nor may copies hereof be delivered to, any other person or for any other purpose without our prior written approval; provided, however, copies of this opinion may be included in the closing transcripts for the transactions connected with the issuance of the Bonds.

This opinion letter speaks only as of its date, and we disclaim any obligation to update this opinion letter for events occurring or coming to our attention after the date hereof. The opinions herein are limited to the matters expressly set forth herein, and no opinion is to be implied or may be inferred beyond the matters expressly so stated.

We bring to your attention the fact that our conclusions are an expression of professional judgment and are not a guarantee of a result.

Respectfully submitted,

EXHIBIT E

$_____
CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
SPECIAL TAX BONDS, SERIES 2024

FORM OF ISSUE PRICE CERTIFICATE

The undersigned, Samuel A. Ramirez & Co., Inc. ("Ramirez"), hereby certifies as set forth below with respect to the sale and issuance of the above-captioned obligations (the "Bonds").

1. ***Bond Purchase Agreement.*** On [BPA Date] (the "Sale Date"), Ramirez and the Issuer executed a Bond Purchase Agreement (the "Purchase Agreement") in connection with the sale of the Bonds. Ramirez has not modified the Purchase Agreement since its execution on the Sale Date.

2. ***Price.*** As of the date of this Certificate, for each Maturity of the Bonds, the first price at which at least 10% of each such Maturity of the Bonds was sold to the Public was the respective price for such Maturity listed in Schedule A attached hereto.

3. ***Defined Terms.***

   (a) *"Issuer"* means the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities).

   (b) *"Maturity"* means Bonds with the same credit and payment terms. Bonds with different maturity dates, or Bonds with the same maturity date but different stated interest rates, are treated as separate Maturities.

   (c) *"Public"* means any person (including an individual, trust, estate, partnership, association, company, or corporation) other than an Underwriter or a related party to an Underwriter. The term "related party" for purposes of this certificate generally means any two or more persons who have greater than 50 percent common ownership, directly or indirectly.

   (d) *"Underwriter"* means (i) any person that agrees pursuant to a written contract with the Issuer (or with the lead Underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the Public, and (ii) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (i) of this paragraph to participate in the initial sale of the Bonds to the Public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the Public).

4. ***Reserve* Fund.** The funding of the Reserve Fund under the Indenture, and as provided in the Tax Certificate, is reasonably required, was a vital factor in marketing the Bonds, facilitated the marketing of the Bonds at an interest rate comparable to that of bonds and other tax-exempt obligations of a similar type, and is not in excess of the amount necessary for such purpose.

5. The representations set forth in this certificate are limited to factual matters only. Nothing in this certificate represents Ramirez's interpretation of any laws, including specifically Sections 103 and 148 of the Internal Revenue Code of 1986, as amended, and the Treasury Regulations thereunder. The undersigned understands that the foregoing information will be relied upon by the Issuer with respect to certain of the representations set forth in the Tax Certificate of the Issuer dated [Closing Date] and with respect to compliance with the federal income tax rules affecting the Bonds, and by Bond Counsel, in connection with rendering its opinion that the interest on the Bonds is excluded from gross income for federal income tax purposes, the preparation of the Internal Revenue Service Form 8038-G, and other federal income tax advice that it may give to the Issuer from time to time relating to the Bonds.

CONTINUING DISCLOSURE AGREEMENT

by and between

CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)

and

ZIONS BANCORPORATION, NATIONAL ASSOCIATION,
AS TRUSTEE

Dated as of _____ 1, 2024

City of Ontario
Community Facilities District No. 35
(Countryside Phase 2 South - Facilities)
Special Tax Bonds, Series 2024

CONTINUING DISCLOSURE AGREEMENT

THIS CONTINUING DISCLOSURE AGREEMENT (this "Disclosure Agreement"), dated as of _____1, 2024, is by and between CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES), a community facilities district organized and existing under the laws of the State of California (the "Community Facilities District"), and ZIONS BANCORPORATION, NATIONAL ASSOCIATION, a national banking association organized and existing under the laws of the United States of America, as Trustee (the "Trustee").

W I T N E S S E T H :

WHEREAS, the Community Facilities District has issued its City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Series 2024 Bonds"), in the aggregate principal amount of $_____, pursuant to the Indenture, dated as of _____ 1, 2024 (the "Indenture"), by and between the Community Facilities District and the Trustee; and

WHEREAS, this Disclosure Agreement is being executed and delivered by the Community Facilities District and the Trustee for the benefit of the owners and beneficial owners of the Series 2024 Bonds and in order to assist the underwriter of the Series 2024 Bonds in complying with Securities and Exchange Commission Rule 15c2-12(b)(5);

NOW, THEREFORE, for and in consideration of the mutual promises and covenants herein contained, the receipt whereof is hereby acknowledged, the parties hereto agree as follows:

Section 1. Definitions. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this Disclosure Agreement have the meanings herein specified. Capitalized undefined terms used herein shall have the meanings ascribed thereto in the Indenture.

"Annual Report" means any Annual Report provided by the Community Facilities District pursuant to, and as described in, Sections 2 and 3 hereof.

"Annual Report Date" means the date in each year that is the first day of the month following the ninth month after the end of the Community Facilities District's fiscal year, which date, as of the date of this Disclosure Agreement, is April 1.

"Community Facilities District" means City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities), a community facilities district organized and existing under the laws of the State, and its successors.

"Disclosure Representative" means the Deputy City Treasurer of the City, or his or her designee, or such other person as the Community Facilities District shall designate in writing to the Trustee from time to time.

"Dissemination Agent" means the Trustee, acting in its capacity as Dissemination Agent hereunder, or any successor Dissemination Agent designated in writing by the Community Facilities District and which has filed with the Trustee a written acceptance of such designation.

"Financial Obligation" means (a) a debt obligation of the Community Facilities District, (b) a derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation of the Community Facilities District, or (c) a guarantee of (i) a debt obligation of the Community Facilities District, or (ii) a derivative instrument described in clause (b), above; provided, however, that the term "Financial Obligation" shall not include "municipal securities" (as such term is defined in the Securities Exchange Act of 1934, as amended) as to which a "final official statement" (as such term is defined in the Rule) has been provided to the MSRB consistent with the Rule.

"Indenture" means the Indenture, dated as of _____ 1, 2024, by and between the Community Facilities District and Zions Bancorporation, National Association, as Trustee, as originally executed and as it may be modified or amended from time to time in accordance with its terms.

"Listed Events" means any of the events listed in subsection (a) or subsection (b) of Section 4 hereof.

"MSRB" means the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive reports pursuant to the Rule. Until otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at http://emma.msrb.org.

"Participating Underwriter" means the original underwriter of the Series 2024 Bonds required to comply with the Rule in connection with the offering of the Series 2024 Bonds.

"Rule" means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

"Trustee" means Zions Bancorporation, National Association, as Trustee under the Indenture, or any successor thereto as Trustee thereunder substituted in its place as provided therein.

Section 2. Provision of Annual Reports. (a) The Community Facilities District shall, or shall cause the Dissemination Agent to, provide to the MSRB an Annual Report that is consistent with the requirements of Section 3 hereof, not later than the Annual Report Date, commencing with the report for the 2023-24 Fiscal Year. The Annual Report may include by reference other information as provided in Section 3 hereof; provided, however, that the audited financial statements of the Community Facilities District, if any, may be submitted separately from the balance of the Annual Report, and later than the date required above for the filing of the Annual Report if they are not available by that date. If the Community Facilities District's fiscal year changes, it shall, or it shall instruct the Dissemination Agent to, give notice of such change in a filing with the MSRB.

(b) Not later than 15 business days prior to the date specified in subsection (a) of this Section for the providing of the Annual Report to the MSRB, the Community Facilities District shall provide the Annual Report to the Dissemination Agent and the Trustee (if the Trustee is not the Dissemination Agent). If by such date, the Trustee has not received a copy of the Annual Report, the Trustee shall contact the Community Facilities District and the Dissemination Agent to determine if the Community Facilities District is in compliance with the first sentence of this subsection (b).

(c) If the Trustee is unable to verify that an Annual Report has been provided to the MSRB by the date required in subsection (a) of this Section, the Trustee shall, in a timely manner, send a notice to the MSRB in substantially the form attached as Exhibit A.

(d) The Dissemination Agent shall:

(i) provide each Annual Report received by it to the MSRB, as provided herein; and

(ii) file a report with the Community Facilities District and (if the Dissemination Agent is not the Trustee) the Trustee certifying that such Annual Report has been provided pursuant to this Disclosure Agreement and stating the date it was provided to the MSRB.

Section 3. Content of Annual Reports. The Community Facilities District's Annual Report shall contain or incorporate by reference the following:

(a) The Community Facilities District's audited financial statements, if any, prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board. If the Community Facilities District's audited financial statements, if any, are not available by the time the Annual Report is required to be filed pursuant to subsection (a) of Section 2 hereof, the Annual Report shall contain unaudited financial statements, in a format similar to that used for the Community Facilities District's audited financial statements, and the audited financial statements, if any, shall be filed in the same manner as the Annual Report when they become available.

(b) The following information:

(i) The principal amount of Series 2024 Bonds Outstanding as of the December 31 next preceding the Annual Report Date;

(ii) The principal amount of Additional Bonds, if any, Outstanding as of the December 31 next preceding the Annual Report Date;

(iii) The balance in (A) the Lennar Acquisition Account, and (B) the NMC Acquisition Account, as of the December 31 next preceding the Annual Report Date;

(iv) The balance in the Reserve Fund, and a statement of the Reserve Requirement, as of the December 31 next preceding the Annual Report Date;

(v) The total assessed value of all parcels within the Community Facilities District on which the Special Tax is levied, as shown on the assessment roll of the San Bernardino County Assessor last equalized prior to the December 31 next preceding the Annual Report Date, and a statement of assessed value-to-Bonded debt ratios therefor, either by individual parcel or by categories (e.g., "below 3:1," "3:1 to 4:1," etc.);

(vi) The Special Tax delinquency rate for all parcels within the Community Facilities District, as shown on the assessment roll of the San Bernardino County Assessor last equalized prior to the December 31 next preceding the Annual Report Date, the number of parcels within the Community Facilities District delinquent in payment of the Special Tax as of the December 31 next preceding the Annual Report Date, the amount of each delinquency, the length of time delinquent and the date on which foreclosure was commenced, or similar information pertaining to delinquencies deemed appropriate by the Community Facilities District; provided, however, that parcels with aggregate delinquencies of $2,000 or less (excluding penalties and interest) may be grouped together and such information may be provided by category;

(vii) The status of foreclosure proceedings and a summary of the results of any foreclosure sales as of the December 31 next preceding the Annual Report Date;

(viii) The identity of any property owner representing more than 5% of the Special Tax levy delinquent in payment of the Special Tax as of the December 31 next preceding the Annual Report Date;

(ix) A land ownership summary listing property owners responsible for more than 5% of the annual Special Tax, as shown on the assessment roll of the San Bernardino County Assessor last equalized prior to the December 31 next preceding the Annual Report Date; and

(x) A description of any changes to the Rate and Method approved by, or submitted for approval to, the qualified electors of the Community Facilities District during the period from the date of filing the prior year's Annual Report to the date of filing such Annual Report.

Any or all of the items listed above may be included by specific reference to other documents, including official statements of debt issues of the Community Facilities District or related public entities that have been made available to the public on the MSRB's website. The Community Facilities District shall clearly identify each such other document so included by reference.

Section 4. Reporting of Significant Events. (a) Pursuant to the provisions of this Section, the Community Facilities District shall give, or cause to be given, notice of the

occurrence of any of the following events with respect to the Series 2024 Bonds in a timely manner not later than ten business days after the occurrence of the event:

(i) Principal and interest payment delinquencies.

(ii) Unscheduled draws on debt service reserves reflecting financial difficulties.

(iii) Unscheduled draws on credit enhancements reflecting financial difficulties.

(iv) Substitution of credit or liquidity providers, or their failure to perform.

(v) Adverse tax opinions or issuance by the Internal Revenue Service of proposed or final determination of taxability or of a Notice of Proposed Issue (IRS Form 5701 TEB).

(vi) Tender offers.

(vii) Defeasances.

(viii) Rating changes.

(ix) Bankruptcy, insolvency, receivership or similar event of the Community Facilities District.

(x) Default, event of acceleration, termination event, modification of terms or other similar events under the terms of a Financial Obligation, any of which reflect financial difficulties.

For purposes of the event identified in paragraph (ix) of this subsection, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the Community Facilities District in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Community Facilities District, or if such jurisdiction has been assumed by leaving the existing governmental body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Community Facilities District.

(b) Pursuant to the provisions of this Section, the Community Facilities District shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Series 2024 Bonds, if material, in a timely manner not later than ten business days after the occurrence of the event:

(i) Unless described in paragraph (v) of subsection (a) of this Section, material notices or determinations by the Internal Revenue Service with respect to the tax status of the Series 2024 Bonds or other material events affecting the tax status of the Series 2024 Bonds.

(ii) Modifications to rights of holders of the Series 2024 Bonds.

(iii) Series 2024 Bond calls.

(iv) Release, substitution, or sale of property securing repayment of the Series 2024 Bonds.

(v) Non-payment related defaults.

(vi) The consummation of a merger, consolidation, or acquisition involving the Community Facilities District or the sale of all or substantially all of the assets of the Community Facilities District other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms.

(vii) Appointment of a successor or additional Trustee or the change of name of a Trustee.

(viii) Incurrence of a Financial Obligation, or agreement to covenants, events of default, remedies, priority rights or other similar terms of a Financial Obligation, any of which affect holders of the Series 2024 Bonds.

(c) The Trustee shall, within one business day of obtaining actual knowledge of the occurrence of any of the Listed Events, contact the Disclosure Representative and inform such person of the event. The Trustee shall have no responsibility for determining the materiality of any such event, or whether any such event reflects financial difficulties.

(d) Whenever the Community Facilities District obtains knowledge of the occurrence of a Listed Event described in subsection (b) of this Section, the Community Facilities District shall determine if such event would be material under applicable Federal securities law.

(e) Whenever the Community Facilities District obtains knowledge of the occurrence of a Listed Event described in subsection (a) of this Section, or determines that knowledge of a Listed Event described in subsection (b) of this Section would be material under applicable Federal securities law, the Community Facilities District shall, or shall cause the Dissemination Agent to, file a notice of the occurrence of such Listed Event with the MSRB, within ten business days of such occurrence.

(f) Notwithstanding the foregoing, notice of Listed Events described in paragraph (iii) of subsection (b) of this Section need not be given any earlier than the notice (if any) of the underlying event is given to holders of affected Series 2024 Bonds pursuant to the Indenture.

Section 5. Format for Filings with MSRB. Any report or filing with the MSRB pursuant to this Disclosure Agreement must be submitted in electronic format, accompanied by such identifying information as is prescribed by the MSRB.

Section 6. Termination of Reporting Obligation. The Community Facilities District's obligations under this Disclosure Agreement shall terminate upon the legal defeasance, prior redemption or payment in full of all of the Series 2024 Bonds. If such termination occurs prior to the final maturity of the Series 2024 Bonds, the Community Facilities District shall give, or cause to be given, notice of such termination in a filing with the MSRB.

Section 7. Dissemination Agent. The Community Facilities District may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Agreement, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent may resign by providing 30 days' written notice to the Community Facilities District. If at any time there is not any other designated Dissemination Agent, the Trustee shall be the Dissemination Agent.

Section 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Agreement, the Community Facilities District and the Trustee may amend this Disclosure Agreement (and the Trustee shall agree to any amendment so requested by the Community Facilities District, so long as such amendment does not adversely affect the rights or materially increase the obligations of the Trustee), and any provision of this Disclosure Agreement may be waived, provided that the following conditions are satisfied:

(a) if the amendment or waiver relates to the provisions of subsection (a) of Section 2 hereof, Section 3 hereof or subsection (a) or (b) of Section 4 hereof, it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of an obligated person with respect to the Series 2024 Bonds, or the type of business conducted;

(b) the undertakings herein, as proposed to be amended or waived, would, in the opinion of nationally recognized bond counsel, have complied with the requirements of the Rule at the time of the primary offering of the Series 2024 Bonds, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

(c) the proposed amendment or waiver (i) is approved by Owners of the Series 2024 Bonds in the manner provided in the Indenture for amendments to the Indenture with the consent of Owners, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of Owners or Beneficial Owners of the Series 2024 Bonds.

In the event of any amendment or waiver of a provision of this Disclosure Agreement, the Community Facilities District shall describe such amendment or waiver in the next Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type (or in the case of a change of accounting principles, on the presentation) of financial information or operating data being presented by the Community

Facilities District. In addition, if the amendment relates to the accounting principles to be followed in preparing financial statements (i) notice of such change shall be given in a filing with the MSRB, and (ii) the Annual Report for the year in which the change is made shall present a comparison (in narrative form and also, if feasible, in quantitative form) between the financial statements as prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

Section 9. Additional Information. Nothing in this Disclosure Agreement shall be deemed to prevent the Community Facilities District from disseminating any other information, using the means of dissemination set forth in this Disclosure Agreement or any other means of communication, or including any other information in any Annual Report or notice required to be filed pursuant to this Disclosure Agreement, in addition to that which is required by this Disclosure Agreement. If the Community Facilities District chooses to include any information in any Annual Report or notice in addition to that which is specifically required by this Disclosure Agreement, the Community Facilities District shall have no obligation under this Disclosure Agreement to update such information or include it in any future Annual Report or notice of occurrence of a Listed Event or any other event required to be reported.

Section 10. Default. In the event of a failure of the Community Facilities District, the Trustee or the Dissemination Agent to comply with any provision of this Disclosure Agreement, the Trustee may (and, at the written direction of any Participating Underwriter or the Owners of at least 25% of the aggregate principal amount of Outstanding Series 2024 Bonds, shall, upon receipt of indemnification reasonably satisfactory to the Trustee), or any Owner or Beneficial Owner of the Series 2024 Bonds may, take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Community Facilities District, the Trustee or the Dissemination Agent, as the case may be, to comply with its obligations under this Disclosure Agreement. A default under this Disclosure Agreement shall not be deemed an Event of Default under the Indenture, and the sole remedy under this Disclosure Agreement in the event of any failure of the Community Facilities District, the Trustee or the Dissemination Agent to comply with this Disclosure Agreement shall be an action to compel performance.

Section 11. Duties, Immunities and Liabilities of Trustee and Dissemination Agent. Article VIII of the Indenture is hereby made applicable to this Disclosure Agreement as if this Disclosure Agreement were (solely for this purpose) contained in the Indenture. The Dissemination Agent shall be entitled to the protections and limitations from liability afforded to the Trustee thereunder. Neither the Trustee nor the Dissemination Agent shall be responsible for the form or content of any Annual Report or notice of Listed Event. The Dissemination Agent shall receive reasonable compensation for its services provided under this Disclosure Agreement and shall be reimbursed for its reasonable expenses (including attorneys' fees and expenses) incurred by it in the exercise or performance of its powers and duties hereunder. The Dissemination Agent (if other than the Trustee or the Trustee in its capacity as Dissemination Agent) shall have only such duties as are specifically set forth in this Disclosure Agreement. To the extent permitted by law, the Community Facilities District agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities that any such Person may incur in the exercise or performance of the Dissemination Agent's powers and duties hereunder, including the costs and expenses (including

attorneys' fees and expenses) of defending against any claim of liability, and that are not due to such Person's negligence or its willful misconduct. The obligations of the Community Facilities District under this Section shall survive resignation or removal of the Dissemination Agent and the termination of this Disclosure Agreement.

Section 12. Beneficiaries. This Disclosure Agreement shall inure solely to the benefit of the Community Facilities District, the Trustee, the Dissemination Agent, the Participating Underwriter and the Owners and Beneficial Owners from time to time of the Series 2024 Bonds, and shall create no rights in any other person or entity.

Section 13. Governing Laws. This Disclosure Agreement shall be governed by and construed in accordance with the laws of the State of California.

Section 14. Electronic Signature. Each of the parties hereto agrees that the transaction consisting of this Disclosure Agreement may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent, that if such party signs this Disclosure Agreement using an electronic signature, it is signing, adopting and accepting this Disclosure Agreement and that signing this Disclosure Agreement using an electronic signature is the legal equivalent of having placed its handwritten signature on this Disclosure Agreement on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this Disclosure Agreement in a usable format.

Section 15. Counterparts. This Disclosure Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

IN WITNESS WHEREOF, the parties hereto have executed this Disclosure Agreement as of the date first above written.

CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)

AMENDED AND RESTATED ACQUISITION AND FUNDING AGREEMENT

THIS AMENDED AND RESTATED ACQUISITION AND FUNDING AGREEMENT (this "Acquisition Agreement"), dated as of June 1, 2024, is by and between the CITY OF ONTARIO, a general law city organized and existing under the laws of the State of California (the "City"), and LENNAR HOMES OF CALIFORNIA, LLC, a limited liability company organized and existing under the laws of the State of California (the "Developer").

W I T N E S S E T H:

WHEREAS, certain real property within the boundaries of the City located generally south of State Route 60 is commonly known as the New Model Colony;

WHEREAS, the City has approved a General Plan Amendment for the New Model Colony, which has been supplemented by certain water, recycled water and sewer master plans (as so supplemented, the "General Plan Amendment") and has certified an Environmental Impact Report and adopted a Mitigated Negative Declaration in connection with the General Plan Amendment (together, the "Environmental Impact Report");

WHEREAS, the City has specified in the General Plan Amendment and the Environmental Impact Report the major backbone transportation, water, sewer, storm drainage, parks, public safety infrastructure and fiber optic systems required to serve the New Model Colony;

WHEREAS, the New Model Colony is now commonly referred to as Ontario Ranch;

WHEREAS, the Developer is developing certain of the property within Ontario Ranch (the "Property");

WHEREAS, certain of such major backbone infrastructure is required to serve the Property;

WHEREAS, in order to provide a mechanism to fund, in a timely manner, the costs of certain of such major backbone infrastructure required to serve Ontario Ranch (the "Facilities") so that such development may occur, the City and Forestar Countryside, L.L.C. ("Forestar") entered into the Acquisition Agreement and Funding Agreement, dated as of October 1, 2017 (the "Original Acquisition Agreement");

WHEREAS, in order to provide such a mechanism, the City has, pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Act"), established City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "Community Facilities District"), the boundaries of which include the Property;

WHEREAS, Forestar and the Developer previously entered into the Assignment and Assumption Agreement, dated as of February 7, 2022, pursuant to which, in accordance with the terms set forth therein, the Developer accepted the assignment of the Original Acquisition Agreement from Forestar and unconditionally assumed all of the obligations, liabilities and

responsibilities and agreed to perform all of the obligations of Forestar under the Original Acquisition Agreement;

WHEREAS, the City and the Developer desire to amend certain provisions of, and restate, the Original Acquisition Agreement;

WHEREAS, Section 6.4 of the Original Acquisition Agreement provides that the Original Acquisition Agreement may be amended by an instrument in writing executed and delivered by the City and the Developer;

WHEREAS, pursuant to the Act, the proceedings of the City Council of the City and an election held within the Community Facilities District, the Community Facilities District is authorized to levy a special tax (the "Special Tax") within the Community Facilities District and issue special tax bonds (the "Bonds") secured by the Special Tax in order to finance certain of the Facilities;

WHEREAS, the Special Tax has been levied by the Community Facilities District and it is anticipated that, from time to time, Bonds will be issued by the Community Facilities District;

WHEREAS, it is anticipated that, in accordance with the terms set forth in this Acquisition Agreement, the Developer will construct or cause to be constructed certain of the Facilities, that, upon satisfaction of the conditions specified herein, the City will acquire such Facilities and take title thereto and that the Developer will be paid the purchase price thereof, determined as set forth herein, from certain proceeds of the Special Tax, if any, and certain proceeds of the Bonds;

WHEREAS, Section 53313.5 of the Act provides that a community facilities district may only finance the purchase of facilities whose construction has been completed, as determined by the legislative body, before the resolution of formation to establish the community facilities district is adopted pursuant to Section 53325.1 of the Act, except that a community facilities district may finance the purchase of facilities completed after the adoption of the resolution of formation if the facility was constructed as if it had been constructed under the direction and supervision, or under the authority of, the local agency; and

WHEREAS, the Facilities are to be acquired by the City pursuant to this Acquisition Agreement pursuant to the Act and, specifically, pursuant to the provisions of Sections 53313.5 thereof;

NOW, THEREFORE, the Original Acquisition Agreement is hereby amended and restated to read in full as follows:

ARTICLE I

DEFINITIONS

Section 1.1. Definitions. Unless the context otherwise requires (a) the terms defined in this Section shall, for all purposes of this Acquisition Agreement, have the meanings herein ascribed thereto, and (b) capitalized undefined terms used herein that are defined in the Indenture shall have the respective meanings ascribed thereto in the Indenture.

"Acceptable Title" means title to land, or an easement therein, delivered free and clear of all liens, taxes, assessments, leases, easements and encumbrances, whether any such item is recorded or unrecorded, except those non-monetary items that are reasonably determined by the City not to interfere with the intended use of such land or easement and therefore are not required to be cleared from title.

"Acceptance Date" means (a) with respect to a Segment, the date on which such Segment is accepted by the City pursuant to Section 2.2(e) hereof, and (b) with respect to a Component, the date on which the last Segment that is part of such Component is accepted by the City pursuant to Section 2.2(e) hereof.

"Acquisition Agreement" means this Amended and Restated Acquisition and Funding Agreement, dated as of June 1, 2024, by and between the City and the Developer, as originally executed or as the same may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Act" means the Mello-Roos Community Facilities Act of 1982, constituting Section 53311 *et seq.* of the California Government Code.

"Actual Cost" means, with respect to a Segment, as the description thereof is reflected in the then current Plans therefor, an amount equal to the sum of (a) the Developer's actual, reasonable cost of constructing such Segment (including grading for such construction), including labor, material and equipment costs and professional services directly related to materials testing, (b) the Developer's actual, reasonable cost of designing and preparing the Plans for such Segment, including engineering services provided in connection with designing and preparing such Plans, (c) the Developer's actual, reasonable cost of any performance and maintenance bonds and insurance, including title insurance, required hereby for such Segment, (d) the Developer's actual, reasonable cost of any real property or interest therein, other than any such real property or interest therein to be conveyed with a Circulation System Segment, which real property or interest therein is either necessary for the construction of such Segment (*e.g.*, temporary construction easements, haul roads, etc.) or is required to be conveyed with such Segment in order to convey Acceptable Title thereto to the City or its designee, (e) the Developer's actual, reasonable cost of environmental evaluations required in the City's reasonable determination specifically for such Segment, (f) the amount of any fees actually paid by the Developer to governmental agencies in order to obtain permits, licenses or other necessary governmental approvals and reviews for such Segment, including City plan check, processing and inspection fees for such Segment, (g) the Developer's actual, reasonable cost for construction management services for such Segment, which cost shall not exceed 5% of the cost of constructing such Segment, as determined pursuant to clause (a) of this definition, and (h) the

Developer's actual, reasonable cost for professional services directly related to the construction of such Segment, including engineering, inspection, construction staking and similar professional services, all as specified in a Payment Request that has been reviewed and approved by the City Engineer; provided, however, that (i) no item of cost relating to a Segment shall be included in more than one category of cost specified in clauses (a) through (h) of this definition, (ii) except with respect to items of cost for construction management services specified in clause (g) that are provided by the Developer or an Affiliate thereof rather than a third party, each item of cost shall include only amounts actually paid by the Developer to third parties, other than Affiliates of the Developer, and shall not include overhead or other internal expenses of the Developer, and (iii) the aggregate cost of items specified in clauses (e) through (h) shall not exceed 30% of the cost of constructing such Segment, as determined pursuant to clause (a) of this definition.

"Affiliate" of another Person means (a) each Person that, directly or indirectly, owns or controls, whether beneficially or as trustee, guardian, or other fiduciary, 50% or more of any class of equity securities of such other Person, and (b) each Person that controls, is controlled by or is under common control with or by such Person or any Affiliate of such Person. For the purpose of this definition, "control" of a Person shall mean the possession, directly or indirectly, of the power to direct or cause the direction of its management or policies, whether through the ownership of voting securities, by contract or otherwise.

"Bonds" means bonds, notes or other obligations of the Community Facilities District payable from the Special Tax and issued under the Indenture.

"Circulation System Segments" means Segment Nos. ST-1 through ST-6 inclusive.

"City" means the City of Ontario, a general law city organized and existing under the laws of the State, and its successors.

"City Council" means the City Council of the City.

"City Engineer" means the City Engineer of the City.

"City Event of Default" means any event or circumstance specified in Section 5.3 hereof.

"Community Facilities District" means City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities), a community facilities district organized and existing under the laws of the State, and its successors.

"Complete" means, with respect to a Segment, that the construction of such Segment (including all ancillary, non-essential items included in such Segment) by the Developer is, in the reasonable judgment of the City Engineer, in all respects complete.

"Components" means the related groups of Segments identified as such and described in Exhibit A hereto; each Component is comprised of the Segments listed thereunder in Exhibit A.

"Conditions of Approval" means, with respect to any portion of the Property, the conditions of approval of all land use entitlements approved by the City for such portion of the

Property and the conditions of any Development Agreement, subdivision improvement agreement or other agreement between the Developer and the City relating to such portion of the Property, which conditions the Developer must satisfy or cause to be satisfied in order to develop such portion of the Property.

"Construction Agreement" means the First Amended and Restated Agreement for Financing and Construction of Limited Infrastructure Improvements to Serve an Easterly Portion of the New Model Colony, made as of August 21, 2012, by and between the City and NMC Builders, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Developer" means Lennar Homes of California, LLC, a limited liability company organized and existing under the laws of the State of California, and its successors and assigns.

"Developer Acquisition Account" means the account by that name within the Improvement Fund established and held by the Trustee pursuant to the Indenture, into which the Net Proceeds of the Special Tax collected prior to the issuance of Bonds and Net Proceeds of Bonds available to pay the Purchase Prices of the Segments purchased by the City pursuant hereto are to be deposited.

"Developer Event of Default" means any event or circumstance specified in Section 5.1 hereof.

"Developer Representative" means the person or persons designated as such in a certificate signed by the Developer and delivered to the City, which certificate shall contain an original or specimen signature of each person so designated.

"Development Agreement" means a statutory development agreement between the City and the Developer, entered into pursuant to California Government Code Section 65864 *et seq.*, relating to the development of a portion of the Property.

"DIF Program Costs" has the meaning ascribed thereto in the definition of "Program Costs" or "DIF Program Costs" in the Construction Agreement.

"Effective Date" means [June 4], 2024.

"Facilities" means the facilities that are described on Exhibit A hereto.

"General Prevailing Wage Rates" means those rates as determined by the Director of the Department of Industrial Relations of the State of California.

"Hazardous Material" means any hazardous or toxic substance, material or waste that is regulated by any local governmental authority, the State or the United States Government, including any material or substance that is (a) designated as a "hazardous substance" pursuant to Section 311 of the Federal Water Pollution Control Act, 33 U.S.C. § 1251 *et seq.* (33 U.S.C. § 1321), (b) defined as a "hazardous waste" pursuant to Section 1004 of the Federal Resource Conservation and Recovery Act, 42 U.S.C. § 6901 *et seq.* (42 U.S.C. § 6903), (c) defined as a "hazardous substance" pursuant to Section 101 of the Comprehensive Environmental Response,

Compensation and Liability Act of 1980, as amended, 42 U.S.C. § 9601 *et seq.*, (d) petroleum, or (e) asbestos.

"Improvement Fund" means the fund or account established under the Indenture, howsoever denominated, into the accounts established within which the Net Proceeds of Bonds are to be deposited.

"Indenture" means the indenture, trust agreement, fiscal agent agreement or similar instrument, howsoever denominated, pursuant to which Bonds of the Community Facilities District are issued, as originally executed and as it may be amended, supplemented or otherwise modified in accordance with its terms.

"Member" means a member of NMC Builders.

"Memorandum of Agreement" means the Amended and Restated Memorandum of Agreement, dated as of November 1, 2022, by and between the City and NMC Builders, as originally executed and as it may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Net Proceeds" means (a) the proceeds, if any, of the Special Tax received prior to the initial issuance of Bonds and remaining after the payment or setting aside of, or provision for, administrative expenses of the Community Facilities District, and (b) the proceeds of Bonds remaining after the payment or setting aside of, or provision for (i) the underwriter's discount for such Bonds, (ii) the costs of issuance of such Bonds, including the costs of formation of the Community Facilities District, (iii) any required reserve fund deposit for such Bonds, (iv) capitalized interest on such Bonds, and (v) pre-funded administrative expenses of the Community Facilities District.

"NMC Acquisition Account" means the account by that name within the Improvement Fund established and held by the Trustee pursuant to the Indenture.

"NMC Builders" means NMC Builders, LLC, a limited liability company organized and existing under the laws of the State of California, and its successors and assigns.

"Original Acquisition Agreement" means the Acquisition and Funding Agreement, dated as of October 1, 2017, by and between the City and Forestar Countryside, L.L.C.

"Payment Request" means the document to be provided by the Developer to substantiate the Purchase Price of one or more Segments, which shall be substantially in the form of Exhibit B attached hereto.

"Person" means an individual, a corporation, a partnership, an association, a limited liability company, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof.

"Plans" means the plans and specifications for the Facilities prepared or to be prepared by or on behalf of the Developer pursuant to Section 3.1 hereof.

"Property" means the real property located within the boundaries of the Community Facilities District.

"Purchase Price" means, with respect to a Segment, subject to the provisions of Section 2.3 hereof, the Actual Cost of such Segment.

"Rate and Method" means the rate and method of apportionment of the Special Tax approved by the qualified electors of the Community Facilities District.

"Related Property" means, with respect to a Segment, the property on, in or over which such Segment is located, which property, or an easement thereon or other interest therein, is dedicated or otherwise conveyed to the City as provided in Section 2.2(d) hereof.

"Segments" means the discrete portions of the Components identified as such and described in Exhibit A hereto as Segments; provided, however, that each such Segment described therein shall constitute a Segment for purposes of this Acquisition Agreement only if such Segment was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders.

"Special Tax" means the special tax approved by the qualified electors of the Community Facilities District to be levied therein.

"State" means the State of California.

"Substantially Complete" means, with respect to a Circulation System Segment, that the construction of such Circulation System Segment by the Developer has, in the reasonable judgment of the City Engineer, reached a stage of completion sufficient to allow such Circulation System Segment to be utilized for the purpose for which it is intended and that only the construction of ancillary, non-essential items remains incomplete; provided, however, that a Circulation System Segment shall not be deemed to be Substantially Complete if, in the reasonable judgment of the City Engineer, the cost to complete the construction of such ancillary, non-essential items would exceed 15% of the Purchase Price of such Circulation System Segment.

"Trustee" means the commercial bank or trust company initially designated as trustee under the Indenture, and any successor thereto thereunder substituted in its place as provided therein.

Section 1.2. Rules of Construction. (a) The terms defined herein expressed in the singular shall, unless the context otherwise indicates, include the plural and vice versa.

(b) The use herein of the masculine, feminine or neuter gender is for convenience only and shall be deemed and construed to include correlative words of the masculine, feminine or neuter gender, as appropriate.

(c) References herein to a document shall include all amendments, supplements or other modifications to such document, and any replacements, substitutions or novation of, that document.

(d) Any term defined herein by reference to another document shall continue to have the meaning ascribed thereto whether or not such other document remains in effect.

(e) The use herein of the words "including" and "includes," and words of similar import, shall be deemed to be followed by the phrase "without limitation."

(f) Headings of Articles and Sections herein and the table of contents hereof are solely for convenience of reference, do not constitute a part hereof and shall not affect the meaning, construction or effect hereof.

(g) All references herein to designated "Articles," "Sections," "Exhibits," "subsections," "paragraphs," "clauses," and other subdivisions are to the designated Articles, Sections, Exhibits, subsections, paragraphs, clauses, and other subdivisions of this Acquisition Agreement.

(h) The words "hereof" (except when preceded by a specific Section or Article reference) "herein," "hereby," "hereunder," "hereinabove," "hereinafter," and other equivalent words and phrases used herein refer to this Acquisition Agreement and not solely to the particular portion hereof in which any such word is used.

(i) Any reference to a Person, or a Person in a specified capacity, shall be construed to include such Person's successors or such Person's successors in such capacity, as the case may be.

ARTICLE II

ACQUISITION OF FACILITIES

Section 2.1. Acquisition of Facilities; Limited Source of Payments. (a) Subject to the terms and conditions hereof, the Developer hereby agrees to sell to the City, and the City hereby agrees to purchase from the Developer, each Segment for the Purchase Price thereof.

(b) The Purchase Prices of Segments are to be paid from Net Proceeds of the Special Tax, if any, and Net Proceeds of Bonds deposited in the Developer Acquisition Account. Notwithstanding anything to the contrary contained herein, the City shall not be obligated to pay the Purchase Price of any Segment except from the Net Proceeds of the Special Tax and the Net Proceeds of the Bonds so deposited in the Developer Acquisition Account. The City makes no warranty, either express or implied, that the Community Facilities District will be able to issue and sell any Bonds or that the Net Proceeds of the Special Tax and the Net Proceeds of the Bonds so deposited in the Developer Acquisition Account and available for the payment of the Purchase Price of the Segments will be sufficient for such purpose.

(c) The Net Proceeds of the Special Tax and the Net Proceeds of the Bonds shall be applied to the uses in the priorities set forth in the Memorandum of Agreement. If amounts remain in the Developer Acquisition Account after the Purchase Prices of all of the Segments have been paid, such remaining amounts shall be deposited in the NMC Acquisition Account.

Section 2.2. Segment Review; Payment Requests. (a) When the Developer has concluded that the construction of a Segment by the Developer is in all respects complete, the Developer shall deliver to the City Engineer (i) a Payment Request for such Segment, together with all attachments and exhibits to be included therewith, (ii) a copy of the documents conveying, or that previously conveyed, to the City Acceptable Title to the Related Property of such Segment, as described in subsection (d) of this Section, and (iii) a copy of the Notice of Completion of such Segment that will be filed in accordance with Section 3093 of the California Civil Code, if applicable; provided, however, that, if, during the process of designing a Segment, obtaining bids for construction of a Segment or during construction of a Segment, the Developer determines that, because of changed conditions or circumstances, the actual cost of constructing such Segment may materially exceed the Developer's originally estimated cost thereof, the Developer shall, in order to facilitate and expedite the City Engineer's review and verification with respect to such Segment pursuant to subsection (b) of this Section, as soon as practicable, deliver to the City Engineer a written statement describing (i) such changed conditions or circumstances, (ii) the Developer's original estimated cost of constructing such Segment, (iii) the anticipated effect of such changed conditions or circumstances on the Actual Cost of such Segment, and (iv) an explanation as to why including the increased cost resulting from such changed conditions or circumstances would result in the Actual Cost of such Segment being no greater than the actual, reasonable cost thereof, determined in accordance with the provisions of the definition of Actual Cost set forth herein.

(b) Upon receipt of a completed Payment Request (and accompanying documentation) for a Segment, the City Engineer shall conduct a review in order to confirm that such Segment is Complete and was constructed in accordance with the Plans therefor and to verify and approve the Actual Cost of such Segment specified in such Payment Request. As a

reference in determining the reasonable cost of constructing such Segment, the City Engineer may use the most recently updated DIF Program Costs of such Segment, which reflect the City Engineer's determination, as of the date of such update, of the reasonable cost of constructing such Segment, recognizing that, depending on the date of such most recent update, such DIF Program Costs may not reflect the reasonable cost of constructing such Segment at the time it was constructed. The Developer agrees to cooperate with the City Engineer in conducting each such review and to provide the City Engineer with such additional information and documentation as is reasonably necessary for the City Engineer to conclude each such review. The City agrees to cause the City Engineer to conduct such review without unreasonable delay. If the City Engineer determines that the Actual Cost specified in such Payment Request as initially submitted exceeds the Developer's actual, reasonable cost of constructing such Segment, the Developer shall resubmit such Payment Request, with the Actual Cost specified therein modified so as to take into account such determination by the City Engineer. Upon confirmation that such Segment is Complete and has been constructed in accordance with the Plans therefor, and verification and approval of the Actual Cost of such Segment, the City Engineer shall sign the Payment Request, indicating thereon that such Segment is Complete and that the full amount of the Purchase Price of such Segment is eligible for payment, and forward the same to the City.

(c) With respect to a Circulation System Segment, if, as a result of the review described in subsection (b) of this Section, the City Engineer (i) determines that such Circulation System Segment, while not Complete, is Substantially Complete, (ii) confirms that such Circulation System Segment has been constructed in accordance with the Plans therefor, and (iii) verifies and approves the Actual Cost of such Circulation System Segment, the City Engineer shall sign the Payment Request, indicating thereon that such Circulation System Segment is Substantially Complete and that an amount equal to 85% of the Actual Cost of such Circulation System Segment is eligible for payment, and forward the same to the City.

When the Developer completes or causes to be completed all work with respect to such Circulation System Segment and concludes that such Circulation System Segment is Complete, the Developer shall deliver to the City Engineer (i) if as-built drawings or similar plans and specifications for such Circulation System Segment have not previously been submitted to the City Engineer, such drawings or plans and specifications, together with a certification of the Developer that such drawings or plans and specifications are true, correct and complete, and (ii) such information and documentation as is reasonably required by the City Engineer in order for the City Engineer to determine whether such Circulation System Segment is Complete. Upon receipt of such information and documentation, the City Engineer shall conduct a review in order to confirm that such Circulation System Segment is Complete. If, as a result of such review, the City Engineer determines that such Circulation System Segment is Complete, the City Engineer shall sign a copy of the original Payment Request therefor, indicating thereon that such Circulation System Segment is Complete and that the full amount of the Purchase Price of such Segment is eligible for payment, and forward the same to the City.

(d) Acceptable Title to all property on, in or over which each Segment will be located shall be conveyed to the City by way of grant deed, quitclaim, or dedication of such property, or easement thereon, if such easement is approved by the City as being a sufficient interest therein to permit the City to properly own, operate and maintain such Segment located therein, thereon

or thereover, and to permit the Developer to perform its obligations as set forth in this Acquisition Agreement.

Upon the request of the City, the Developer shall furnish to the City a title report for such property not previously dedicated or otherwise conveyed to the City or its designee, for review and approval at least 20 calendar days prior to the transfer of Acceptable Title to a Segment to the City or its designee. The City shall approve the title report unless it reveals a matter that, in the reasonable judgment of the City, could materially affect the City's or its designee's use and enjoyment of any part of the property or easement covered by the title report. In the event the City does not approve the title report, the City shall not be obligated to accept title to such Segment until such objections to title have been cured to the reasonable satisfaction of the City.

(e) Upon (i) the execution by the City Engineer of a Payment Request for a Segment indicating that such Segment is Complete, and (ii) the City's determination that Acceptable Title to the property on, in or over which each Segment is located has been or is being conveyed to the City, such Segment shall be accepted by the City. The Developer shall transfer to the City, by appropriate instrument in accordance with the Conditions of Approval, title to each Segment accepted by the City pursuant hereto; provided, however, that notwithstanding such transfer, as provided in Section 3.6 hereof, the Developer shall be responsible for the maintenance of such Segment until the Acceptance Date of the Component of which such Segment is a part.

Section 2.3. Payment of Purchase Price. (a) Upon receipt of a reviewed and fully signed Payment Request pursuant to Section 2.2(b) hereof indicating that a Segment is Complete and that the Purchase Price of such Segment is eligible for payment, the City shall, within five business days of the approval and confirmation thereof by the City Engineer, by written request, direct the Trustee to pay from the Developer Acquisition Account such Purchase Price. If the Payment Request for a Segment requests that the Purchase Price requested to be paid pursuant thereto be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached thereto as Attachment B, the City shall direct the Trustee to pay from the Developer Acquisition Account such Purchase Price or portion thereof to such Person or Persons.

(b) Upon receipt of a reviewed and fully signed Payment Request pursuant to Section 2.2(c) hereof indicating that a Circulation System Segment is Substantially Complete and that an amount equal to 85% of the Purchase Price of such Circulation System Segment is eligible for payment, the City shall, within five business days of the approval and confirmation thereof by the City Engineer, by written request, direct the Trustee to pay from the Developer Acquisition Account 85% of the Purchase Price of such Circulation System Segment. If the Payment Request for a Circulation System Segment requests that the 85% of the Purchase Price of such Circulation System Segment requested to be paid pursuant thereto be paid to the Person or Persons, in the amounts, set forth in the completed Purchase Price Payment Instructions attached thereto as Attachment B, the City shall direct the Trustee to pay from the Developer Acquisition Account such 85% of such Purchase Price or portion thereof to such Person or Persons.

ARTICLE III

CONSTRUCTION OF FACILITIES

Section 3.1. Preparation and Approval of Plans and Specifications. The Developer shall cause Plans to be prepared for the Facilities to be acquired pursuant hereto in accordance with the Conditions of Approval. The Developer shall obtain the written approval of the Plans from all appropriate departments of the City or from any other public agency or public utility from which such approval must be obtained. The Developer shall provide copies of all such Plans to the City Engineer. The Plans for a Segment shall be updated from time to time to reflect changed conditions or circumstances with respect thereto, the Developer shall obtain the written approval of such updated Plans from all appropriate departments of the City and the Developer shall provide copies of all such updated Plans to the City Engineer.

Section 3.2. Duty of the Developer to Construct. The Developer shall construct or cause to be constructed the Segments in accordance with the Conditions of Approval and the approved Plans. The Developer shall perform all of its obligations hereunder and shall conduct or cause to be conducted all operations with respect to the construction of the Segments in a good, workmanlike and commercially reasonable manner, with the standard of diligence and care normally employed by duly qualified Persons utilizing commercially reasonable efforts in the performance of comparable work and in accordance with generally accepted practices appropriate to the activities undertaken. Notwithstanding the foregoing, the Developer shall not be required to construct any Facilities or cause such Facilities to be constructed other than at the time required by, and in accordance with, the Conditions of Approval or to perform any work requiring a contractor's license, nor shall the Developer be deemed to be performing construction services pursuant to this Acquisition Agreement.

Section 3.3. Public Works Requirements. (a) In order to ensure that the Segments that are acquired by the City pursuant to this Acquisition Agreement are constructed as if they had been constructed under the direction and supervision, or under the authority of, the City, so that they may be acquired pursuant to California Government Code Section 53313.5, the Developer shall comply with or cause to be complied with all of the requirements of this Section for each Segment for which the Developer submits a Payment Request.

(b) Notice inviting sealed bids for the construction of each Segment shall be given as required for public works projects in conformance with the California Public Contracts Code.

(c) The contract for the construction of each Segment shall be awarded to the responsible bidder submitting the lowest responsive bid for the construction of such Segment.

(d) The Developer shall require, and the specifications and bid and contract documents shall require, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to pay at least General Prevailing Wage Rates to all workers employed in the execution of the contract, to post a copy of the General Prevailing Wage Rates at the job-site in a conspicuous place available to all employees and applicants for employment, and to otherwise comply with applicable provisions of the California Labor Code, the California Government Code and the California Public Contracts Code relating to public works projects of cities.

The Developer shall require, and the specifications and bid and contract documents shall require, for all contracts involving in excess of $30,000 or 20 working days, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to comply with the provisions of Section 1777.5 of the California Labor Code with respect to all apprenticeable occupations upon the project.

(e) In performing its obligations under this Acquisition Agreement, the Developer shall comply with, or cause to be complied with, the applicable nondiscrimination and affirmative action provisions of the laws of the United States of America, the State and the City. In performing its obligations under this Acquisition Agreement, the Developer shall not discriminate in its employment practices against any employee, or applicant for employment, because of such person's race, religion, national origin, ancestry, sex, sexual orientation, age, physical handicap, marital status or medical condition. The Developer shall require that any contract for the construction of any Segment subject the contractor thereunder to the provisions of this subsection.

(f) The Developer shall require that each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, provide proof of insurance coverage satisfying the requirements of Section 3.7 hereof throughout the term of the construction of such Segment; provided, however, that, rather than requiring such contractors, subcontractors, vendors, equipment operators and owner operators to provide such insurance, the Developer may provide the same for the benefit of such contractors, subcontractors, vendors, equipment operators and owner operators.

(g) The Developer shall comply, and shall cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, to comply, with such other requirements relating to the construction of the Segments as the City may impose by written notification delivered to the Developer, to the extent legally required as a result of changes in applicable federal, State or City laws.

(h) The Developer shall require, and the specifications and bid and contract documents shall require, all contractors, subcontractors, vendors, equipment operators and owner operators, in each such case to the extent such Persons are engaged to perform work on a Segment, to submit certified weekly payroll records to the Developer for inspection by the City, and to furnish certified payroll records to the City promptly upon request.

The Developer shall provide proof to the City, at such intervals and in such form as the City may reasonably require, that the foregoing requirements have been satisfied as to all of the Segments for which a Payment Request is submitted pursuant hereto.

Section 3.4. Bonding Requirements. Prior to the commencement of construction of a Segment, the Developer shall secure, or shall cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on such Segment to secure, appropriate bonds for the construction and

completion of construction of such Segment, a faithful performance bond and a bond for the security of laborers and materialmen, each in an amount that is equal to 100% of the contract price for such Segment. If any such bonds for a Segment are provided by such a contractor, subcontractor, vendor, equipment operator or owner operator, the City shall be named as an additional insured on such bonds. Each issuer of any such bond shall be duly authorized to issue such bond in the State. Each such bond shall comply with the provisions of California Government Code Sections 66499.1 and 66499.2.

Section 3.5. Inspection; Completion of Construction. The City shall have primary responsibility for providing inspection of the work of construction of the Segments to ensure that the work of construction is accomplished in accordance with the Plans. The City's personnel shall have access to the site of the work of construction at all reasonable times for the purpose of accomplishing such inspection. Upon the completion of the construction of a Segment to the satisfaction of the City's inspectors, the Developer shall notify the City and the City Engineer in writing that the construction of such Segment has been completed in accordance with the Plans.

No later than ten days after receiving notification pursuant to Section 2.2(b) or Section 2.2(c) hereof that a Segment was constructed in accordance with the Plans therefor, the Developer shall forthwith file with the San Bernardino County Recorder a Notice of Completion, in form acceptable to the City Engineer, pursuant to the provisions of Section 3093 of the California Civil Code, if applicable. The Developer shall furnish to the City a duplicate copy of each such Notice of Completion showing thereon the date of filing with said County Recorder.

Section 3.6. Maintenance of Facilities; Warranties. The Developer shall maintain each Segment in good and safe condition until the Acceptance Date of the Component of which such Segment is a part. Prior to the Acceptance Date of the Component of which such Segment is a part, the Developer shall be responsible for maintaining such Segment in proper operating condition, and shall perform such maintenance on such Segment as the City Engineer reasonably determines to be necessary. As of the Acceptance Date of the Component of which a Segment is a part, the Developer shall assign to the City all of the Developer's rights in any warranties, guarantees, maintenance obligations or other evidence of contingent obligations of third Persons with respect to such Segment. The Developer shall warrant each Segment to be free from construction defects (and shall correct or cause to be corrected any such defects) for a period of one year from the Acceptance Date of the Component of which such Segment is a part, or alternatively, shall provide a bond reasonably acceptable in form and substance to the City and the Developer for such period and such purpose to ensure that such defects that appear within said period will be repaired, replaced or corrected by the Developer, at its own cost and expense, to the reasonable satisfaction of the City. The Developer shall continue to repair, replace or correct any such defects within 30 Days after written notice thereof by the City to the Developer, and shall complete such repairs, replacement or correction as soon as practicable.

Section 3.7. Insurance Requirements. The Developer shall, at all times prior to the final Acceptance Date of all Segments, maintain, deliver to the City and keep in full force and effect, the following insurance policies or, pursuant to Section 3.3(f) hereof, cause each contractor, subcontractor, vendor, equipment operator and owner operator, in each such case to the extent such Person is engaged to perform work on a Segment, to so maintain, deliver and keep the same in full force and effect:

(a) a protective liability policy providing for not less than the following amounts:

Bodily Injury	$1,000,000 each person $2,000,000 each occurrence $1,000,000 each accident for products and completed operations
Property Damage	$1,000,000 each accident
Workers' Compensation	Statutory, with a waiver of subrogation in favor of the City

(b) Automobile Liability Insurance to include all owned, non-owned or non-hired vehicles, including loading and unloading thereof:

Automobile Bodily Injury	$1,000,000 each person $2,000,000 each occurrence
Automobile Property Damage	$1,000,000 each accident

Each liability insurance policy shall bear an endorsement or shall have attached a rider whereby it is provided that, in the event of expiration or proposed cancellation of such policy for any reason whatsoever, the City shall be notified by registered mail, return receipt requested, giving a sufficient time before the date thereof to comply with any applicable law or statute, but in no event less than 30 days before expiration or cancellation is effective.

The following statement shall be included on the insurance certificate:

> Additional Insured: The insurer agrees that the City, its City Council, and/or all City Council appointed groups, committees, boards and any other City Council appointed body, and/or elective and appointive officers, servants, agents or employees of the City, when acting as such, are additional insureds hereunder, for the acts of the insured, and such insurance shall be primary to any insurance of the City.

The Developer may effect such coverage under blanket insurance policies; provided, however, that (a) such policies are written on a per occurrence basis, (b) such policies comply in all other respects with the provisions of this Section, and (c) the protection afforded the City under any such policy shall be no less than that which would be available under a separate policy relating only to the Segments. All policies of insurance shall be with companies licensed or approved by the California Commissioner of Insurance and rated A-VII or better in the most recent edition of Best's Insurance Guide and shall be issued and delivered in accordance with State law and regulations.

If the Developer fails to maintain or cause to be maintained any insurance required hereby, the City may, but shall not be obligated to, procure such insurance and recover the amount of the premiums therefor from the Developer or retain such amount from any monies due to the Developer under this Acquisition Agreement. The failure of the City to procure any such

insurance shall in no way relieve the Developer of any of its obligations under this Acquisition Agreement.

Section 3.8. Ownership of Facilities. Notwithstanding the fact that some or all of the Facilities may be constructed in dedicated street rights-of-way or on property that has been or will be dedicated to the City, the Facilities shall be and remain the property of the Developer until title thereto is conveyed to and accepted by the City as provided herein and in the Conditions of Approval. Such ownership by the Developer shall likewise not be affected by any agreement that the Developer may have entered into or may enter into with the City pursuant to the provisions of the Subdivision Map Act, Section 66410 *et seq.* of the California Government Code, and the provisions of this Section and the Conditions of Approval shall control.

ARTICLE IV

REPRESENTATIONS, WARRANTIES AND COVENANTS; INDEMNIFICATION

Section 4.1. Representations and Warranties of the Developer. The Developer makes the following representations and warranties for the benefit of the City:

(a) *Organization*. The Developer represents and warrants that the Developer is a limited liability company duly organized, validly existing and in good standing under the laws of the State, is authorized to conduct business and is in good standing under the laws of the State, and has the power and authority to own its properties and assets and to carry on its business as now being conducted and as now contemplated.

(b) *Authority*. The Developer represents and warrants that the Developer has the power and authority to enter into this Acquisition Agreement, and has taken all action necessary to cause this Acquisition Agreement to be executed and delivered, and this Acquisition Agreement has been duly and validly executed and delivered on behalf of the Developer.

(c) *Binding Obligation*. The Developer represents and warrants that this Acquisition Agreement is a valid and binding obligation of the Developer and is enforceable against the Developer in accordance with its terms, subject to bankruptcy, insolvency, reorganization or other similar laws affecting the enforcement of creditors' rights in general and by general equity principles.

(d) *Environmental Matters Relating to Segments*. The Developer represents and warrants that none of the Developer, any Affiliate of the Developer, or any subcontractor, agent or employee of the Developer or an Affiliate thereof, has used, generated, manufactured, procured, stored, released, discharged or disposed of (whether accidentally or intentionally) any Hazardous Material on, under or in any Segment or the Related Property of such Segment, or transported (whether accidentally or intentionally) any Hazardous Material to or from such Segment or such Related Property, in violation of any federal, state or local law, ordinance, regulation, rule or decision regulating Hazardous Material.

The Developer represents and warrants that, as of the Acceptance Date of each Segment, there will not be present on, under or in such Segment or the Related Property of such Segment, or any portion thereof, any Hazardous Materials, except for (i) any types or amounts that do not require remediation or mitigation under federal, state or local laws, ordinances, regulations, rules or decisions, (ii) those that have been remediated or mitigated in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, or (iii) those with respect to which ongoing remediation or mitigation is being performed in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions.

The Developer represents and warrants that neither the Developer nor any Affiliate thereof has received notice of, and, to the best of the Developer's knowledge,

there is not, any proceeding or formal inquiry by any governmental authority, body or agency with respect to the presence of Hazardous Materials on, under or in any Segment or the Related Property of such Segment, or any portion thereof, or any structure, fixtures, equipment or other objects thereon, or the migration thereof from or to other property.

Section 4.2. Covenants of the Developer. The Developer makes the following covenants for the benefit of the City:

(a) *Completion of Segments*. The Developer covenants that it will use its reasonable and diligent efforts to do all things that may be lawfully required of it in order to cause the Segments to be completed in accordance with this Acquisition Agreement and the Conditions of Approval.

(b) *Compliance with Laws*. The Developer covenants that, while any of the Facilities are owned by the Developer or required pursuant to this Acquisition Agreement to be maintained by the Developer, it will not commit, suffer or permit any of its agents, employees or contractors to commit any act to be done in, upon or to such Facilities in violation in any material respect of any law, ordinance, rule, regulation or order of any governmental authority or any covenant, condition or restriction now or hereafter affecting such Facilities or the Property on, in or over which such Facilities are located.

(c) *Payment Requests*. The Developer covenants that (i) it will not request payment pursuant to this Acquisition Agreement for the acquisition of any improvements that are not part of a Segment, and (ii) it will diligently follow all procedures set forth in this Acquisition Agreement with respect to Payment Requests.

(d) *Financial Records*. Until the Acceptance Date of the last Segment accepted by the City pursuant hereto, the Developer covenants to maintain proper books of record and account for the Facilities and all costs related thereto. The Developer covenants that such accounting books will be maintained in accordance with generally accepted accounting principles and will be available for inspection by the City within a reasonable time after the City submits a written request to the Developer requesting that such books be made available for inspection.

(e) *Environmental Matters Relating to Segments*. The Developer covenants that none of the Developer, any Affiliate of the Developer or any subcontractor, agent or employee thereof, will use, generate, manufacture, procure, store, release, discharge or dispose of (whether accidentally or intentionally) at any time on or prior to the Acceptance Date of each Segment any Hazardous Material on, under or in such Segment or the Related Property of such Segment, or transport (whether accidentally or intentionally) any Hazardous Material to or from such Segment or such Related Property, in violation of any federal, state or local law, ordinance, regulation, rule or decision regulating Hazardous Material in effect at the time of such use, generation, manufacturing, procurement, storage, release, discharge, disposal or transportation.

(f) *Permits*. The Developer covenants that it will obtain all governmental or other permits required to proceed with the construction of the Facilities, and that it will pay all fees relating thereto that are required to be paid, in accordance with the Conditions of Approval.

Section 4.3. Covenants of the City. The City makes the following covenants for the benefit of the Developer:

(a) *Completion of Segments*. The City covenants that it will use its reasonable and diligent efforts to take all actions that may be lawfully required of it in issuing permits, processing and approving Plans and inspecting the Segments in accordance with this Acquisition Agreement.

(b) *Payment Requests*. The City covenants that it will diligently follow all procedures set forth in this Acquisition Agreement with respect to Payment Requests.

(c) *Developer Acquisition Account*. The City covenants that, upon the issuance of Bonds, the City will transfer or cause to be transferred any Net Proceeds collected prior to the issuance of Bonds to the Trustee for deposit in the Developer Acquisition Account established under the Indenture.

(d) *Accounting*. The City covenants to provide the Developer, within 30 days following the Developer's written request, an accounting of the Developer Acquisition Account, showing the current balance therein and all deposits thereto and disbursements therefrom since the last such accounting. The Developer shall not make more than two such written requests in any calendar year.

Section 4.4. Indemnification. The Developer agrees to protect, indemnify, defend and hold the City and the Community Facilities District, and its respective officers, employees and agents (the "Indemnified Parties"), and each of them, harmless from and against any and all claims, losses, expenses, suits, actions, decrees, judgments, awards, attorney's fees and court costs that any Indemnified Party may suffer or that may be sought against or recovered or obtained from any Indemnified Party as a result of or by reason of or arising out of or in consequence of (a) the acquisition, construction, installation or financing of the Facilities, (b) the untruth or inaccuracy of any representation or warranty made by the Developer in this Acquisition Agreement or in any certifications delivered by the Developer pursuant hereto or in connection with the issuance of any Bonds, (c) the release, threatened release, storage, treatment, transportation or disposal (as such terms are defined in applicable law) of any Hazardous Materials on, under, in, from or to any portion of the Property while such portion of the Property is owned by the Developer or an Affiliate thereof, and (d) any act or omission of the Developer, any Affiliate of the Developer or any of their subcontractors, or their respective officers, employees or agents, in connection with the Facilities, including noncompliance with any covenants made by the Developer in this Acquisition Agreement. If the Developer fails to do so, the Indemnified Party shall have the right, but not the obligation, to defend the same and charge all of the direct or incidental costs of such defense, including any fees or costs, to and recover the same from the Developer.

Upon receipt by an Indemnified Party of notice of any claim, loss, expense, suit, action, decree, judgment or award for which the Developer is obligated to protect, indemnify, defend and hold such Indemnified Party harmless pursuant to this Section, such Indemnified Party shall promptly notify the Developer in writing of such claim, loss, expense, suit, action, decree, judgment or award. Neither the Developer nor an Indemnified Party shall, without the other's written consent, settle, compromise or consent to the entry of judgment with respect to any claim, suit or action for which the Developer is obligated to protect, indemnify, defend and hold such Indemnified Party harmless pursuant to this Section.

No indemnification is required to be paid by the Developer for any claim, loss or expense (a) arising from the willful misconduct or negligence of an Indemnified Party, or (b) arising from the use or operation of a Segment after the Acceptance Date of the Component of which such Segment is a part, unless such claim, loss or expense results from the defective or improper design, construction or installation of such Segment.

The provisions of this Section shall survive the termination of this Acquisition Agreement.

ARTICLE V

EVENTS OF DEFAULT AND REMEDIES; FORCE MAJEURE

Section 5.1. Developer Events of Default. The following shall be Developer Events of Default:

(a) the Developer shall voluntarily file for reorganization or other relief under any Federal or state bankruptcy or insolvency law;

(b) the Developer shall have any involuntary bankruptcy or insolvency action filed against it, or shall suffer a trustee in bankruptcy or insolvency or receiver to take possession of the assets of the Developer, or shall suffer an attachment or levy of execution to be made against its property unless, in any of such cases, such action, possession, attachment or levy shall have been terminated or released within 60 days after the commencement thereof;

(c) except to the extent that the Developer's obligation to construct or cause to be constructed the Facilities is excused pursuant to Section 5.5 hereof, the Developer shall abandon construction of the Facilities that, as of the time of such abandonment, the Developer is required to construct or cause to be constructed in accordance with the Conditions of Approval (failure for a period of three consecutive months or failure for two periods of two consecutive months to undertake substantial work related to the construction of the Facilities shall constitute a non-exclusive example of such abandonment);

(d) the Developer shall breach any covenant or default in the performance of any obligation under this Acquisition Agreement and such breach or default shall have continued for a period of 60 days after written notice thereof, specifying such breach or default and requiring the same to be remedied, shall have been given to the Developer by the City; provided, however, that, if in the reasonable opinion of the City such breach or default can be corrected, but not within such 60 day period, such breach or default shall not constitute a Developer Event of Default if corrective action is instituted by the Developer within such 60 day period and the Developer thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the City to be appropriate under the circumstances;

(e) any representation or warranty of the Developer set forth herein or in any certifications delivered by the Developer hereunder shall prove to have been false or misleading in any material respect when made or deemed made;

(f) the Developer shall transfer any of its rights or obligations under this Acquisition Agreement, without the prior written consent of the City, as provided in Section 6.3 hereof;

(g) the Developer shall have made any material misrepresentation or material omission in any written materials furnished in connection with any preliminary official

statement, official statement or bond purchase contract that has not been corrected and is used in connection with the sale of any Bonds;

(h) the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement shall at any time bring any action, suit, proceeding, inquiry or investigation at law or in equity, before any court, regulatory agency, public board or body that in any way seeks to challenge or overturn the Community Facilities District, the levy of the Special Tax in accordance with the Rate and Method or the validity of the Bonds or the proceedings leading up to their issuance; provided, however, that the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement that owns any of the Property may bring an action or suit contending that the Special Tax has not been levied in accordance with the methodology contained in the Rate and Method;

(i) the Developer shall materially fail to complete the Facilities as contemplated by this Acquisition Agreement and the Conditions of Approval and such failure shall have continued for a period of 60 days after written notice thereof, specifying such failure and requiring the same to be remedied, shall have been given to the Developer by the City; provided, however, that, if in the reasonable opinion of the City such failure can be corrected, but not within such 60 day period, such failure shall not constitute a Developer Event of Default if corrective action is instituted by the Developer within such 60 day period and the Developer thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the City to be appropriate under the circumstances; or

(j) the Developer, any Affiliate thereof or any permitted assign or successor-in-interest under this Acquisition Agreement that owns any of the Property on which the Special Tax has been levied shall fail to pay such Special Tax as and when due and such failure shall have continued for a period of 60 days after written notice thereof, specifying such failure and requiring the same to be remedied, shall have been given to the Developer by the City.

Section 5.2. Remedies for Developer Events of Default. (a) If a Developer Event of Default described in subsection (a), (b) or (h) of Section 5.1 hereof occurs, this Acquisition Agreement shall automatically terminate.

(b) If a Developer Event of Default described in subsection (c), (d), (e), (f), (g), (i) or (j) of Section 5.1 hereof occurs and is continuing, the City may terminate this Acquisition Agreement by delivering a written notice of such termination to the Developer.

(c) If a Developer Event of Default occurs and is continuing, the City may pursue any other remedy at law or equity available with respect thereto.

(d) If this Acquisition Agreement is terminated pursuant to this Section, the City may, but shall not be obligated to, complete the acquisition, construction and installation of any Segment not theretofore acquired from the Developer pursuant hereto, and the City may use all or any portion of the monies in the Developer Acquisition Account to pay for such acquisition,

construction and installation. In the event of such termination, the Developer shall have no claim or right to any further payment of the Purchase Price of any Segment.

Section 5.3. City Events of Default. The following shall be City Events of Default:

(a) the City shall voluntarily file for reorganization or other relief under any Federal or state bankruptcy or insolvency law;

(b) the City shall have any involuntary bankruptcy or insolvency action filed against it, or shall suffer a trustee in bankruptcy or insolvency or receiver to take possession of the assets of the City, or shall suffer an attachment or levy of execution to be made against its property, in any of such cases, such action, possession, attachment or levy shall have been terminated or released within 60 days after the commencement thereof;

(c) the City shall breach any covenant or default in the performance of any obligation under this Acquisition Agreement and such breach or default shall have continued for a period of 60 days after written notice thereof, specifying such breach or default and requiring the same to be remedied, shall have been given to the City by the Developer; provided, however, that, if in the reasonable opinion of the Developer such breach or default can be corrected, but not within such 60 day period, such breach or default shall not constitute a City Event of Default if corrective action is instituted by the City within such 60 day period and the City thereafter diligently and in good faith cures such breach or default in a period of time reasonably determined by the Developer to be appropriate under the circumstances;

(d) any representation or warranty of the City set forth herein shall prove to have been false or misleading in any material respect when made; and

(e) the City shall transfer any of its respective rights or obligations under this Acquisition Agreement, without the prior written consent of the Developer, as provided in Section 6.3 hereof.

Section 5.4. Remedies for City Events of Default. (a) If a City Event of Default occurs and is continuing, the Developer may terminate this Acquisition Agreement by delivering a written notice of such termination to the City.

(b) If a City Event of Default occurs and is continuing, the Developer may pursue any other remedy at law or equity available with respect thereto; provided, however, that the City shall not be liable in damages to the Developer. In light of the foregoing, the Developer shall not sue for or claim any damages for any alleged breach of, or dispute that arises out of, this Acquisition Agreement.

(c) The Developer understands and acknowledges that the City would not have entered into this Acquisition Agreement if it were to be liable in damages under or with respect to this Acquisition Agreement. Any and all obligations of the City hereunder shall be payable only from amounts on deposit in the Developer Acquisition Account. The City shall have no

pecuniary liability under this Acquisition Agreement for any act or omission of the City, except as set forth in this Section.

Section 5.5. Force Majeure. (a) Except as may be specifically provided in this Acquisition Agreement, the performance by the City or the Developer of its respective obligations hereunder shall be excused during, and the period of time for performance of its respective obligations hereunder shall be extended for a period of time equal to, any period of delay caused by reason of (i) acts of God or civil commotion, (ii) riots, strikes, picketing or other labor disputes, (iii) shortages of materials or supplies, (iv) damage to work in progress by reason of fire, floods, earthquakes or other casualty, (v) enactment of laws that prevent or preclude compliance by the City or the Developer with a material provision of this Acquisition Agreement, (vi) administrative proceedings challenging the Community Facilities District, any Bonds, this Acquisition Agreement or a Payment Request brought by Persons other than the City or the Developer, or any Affiliate thereof, (vii) litigation, including the pendency thereof, brought by Persons other than the City or the Developer, or any Affiliate thereof, including litigation challenging the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement or a Payment Request, (viii) pendency of initiatives or referenda affecting the Community Facilities District, the development of the Property, the Bonds, this Acquisition Agreement or a Payment Request, or (ix) any other cause beyond the reasonable control of the City or the Developer, respectively; provided, however that, as to any party (A) the financial inability of such party itself to perform under this Acquisition Agreement, and (B) the negligence or willful misconduct of such party shall not constitute a permitted delay for purposes of this Section and, provided, further, that any action, omission, or failure to approve a Payment Request, or the imposition of additional requirements or restrictions in connection therewith by the City, caused by the Developer's actual failure to comply with applicable laws or regulations or the provisions of this Acquisition Agreement (other than an actual failure to comply that results from the enactment of laws that prevent or preclude compliance by a party with a material provision of this Acquisition Agreement, administrative proceedings challenging the Community Facilities District, any Bonds, this Acquisition Agreement, a Payment Request, litigation brought by Persons other than a party hereto, or an Affiliate of a party hereto, including litigation challenging the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement, a Payment Request, or initiative or referenda affecting the Community Facilities District, the development of the Property, any Bonds, this Acquisition Agreement, a Payment Request), shall not constitute a permitted delay for the Developer for purposes of this Section.

(b) If the City or the Developer shall claim that performance of its respective obligations hereunder is excused by a permitted delay pursuant to this Section, such party shall give the other party hereto written notice of the commencement of such permitted delay within 30 days after first gaining knowledge of such permitted delay.

(c) If the City or the Developer shall claim that performance of its respective obligations hereunder is excused by a permitted delay pursuant to this Section, such party's performance shall only be excused during, and the period of time for performance of its obligations hereunder shall only be extended for a period of time equal to, the period of time for which the cause of such permitted delay is in effect and is actually causing a delay in performance by such party of its obligations hereunder.

(d) The City and the Developer shall act diligently and in good faith to avoid foreseeable delays in performance and to remove the cause of any permitted delay under this Section or develop a reasonable alternative means of performance of its respective obligations hereunder.

ARTICLE VI

MISCELLANEOUS

Section 6.1. Developer as Independent Contractor. Each of the City and the Developer hereby acknowledges and agrees that the Developer, in performing its obligations under this Acquisition Agreement, is acting as an independent contractor and not an agent of the City. The City shall not have any responsibility for payment to any contractor, subcontractor or supplier of the Developer.

Section 6.2. Other Agreements. Nothing contained herein shall be construed as affecting the City's or the Developer's respective duty to perform its respective obligations under other agreements, land use regulations or subdivision requirements relating to the development of the Property, which obligations are and shall remain independent of the Developer's rights and obligations, and the City's rights and obligations, under this Acquisition Agreement; provided, however, that the Developer shall use its reasonable and diligent efforts to perform each and every covenant to be performed by it under any lien or encumbrance, instrument, declaration, covenant, condition, restriction, license, order or other agreement, the nonperformance of which could reasonably be expected to materially and adversely affect the acquisition, construction and installation of the Segments.

Section 6.3. Binding on Successors and Assigns. Neither this Acquisition Agreement nor the duties and obligations of the Developer hereunder may be assigned to any Person without the written consent of the City, which consent shall not be unreasonably withheld, conditioned or delayed. Neither this Acquisition Agreement nor the duties and obligations of the City hereunder may be assigned to any Person, without the written consent of the Developer, which consent shall not be unreasonably withheld, conditioned or delayed. The agreements and covenants included herein shall be binding on and inure to the benefit of any partners, permitted assigns, and successors-in-interest of the parties hereto.

Section 6.4. Amendments. This Acquisition Agreement may be amended, supplemented or otherwise modified only by an instrument in writing executed and delivered by the City and the Developer.

Section 6.5. Waivers. No waiver of, or consent with respect to, any provision of this Acquisition Agreement by a party hereto shall in any event be effective unless the same shall be in writing and signed by such party, and then such waiver or consent shall be effective only in the specific instance and for the specific purpose for which it was given.

Section 6.6. Third-Party Beneficiaries. The Community Facilities District shall be a third-party beneficiary hereof. No other Person shall be deemed to be a third-party beneficiary hereof, and nothing in this Acquisition Agreement, either express or implied, is intended to confer upon any Person, other than the City, the Developer and the Community Facilities District and their respective successors and assigns, any rights, remedies, obligations or liabilities under or by reason of this Acquisition Agreement.

Section 6.7. Notices. Any written notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication to be given hereunder shall be given to the party entitled thereto at its address set forth below, or at such other address as such party may provide to the other party in writing from time to time, namely:

City:	City of Ontario 303 East "B" Street Ontario, California 91764 Attention: Executive Director of Finance
Developer:	Lennar Homes of California, LLC 4140 Temescal Canyon Road, Suite 410 Corona, California 92883 Attention: Geoffrey Smith, Vice President

Each such notice, statement, demand, consent, approval, authorization, offer, designation, request or other communication hereunder shall be deemed delivered to the party to whom it is addressed (a) if given by courier or delivery service or if personally served or delivered, upon delivery, (b) if given by registered or certified mail, return receipt requested, deposited with the United States mail postage prepaid, 72 hours after such notice is deposited with the United States mail, (c) if given by electronic mail, on the date sent, but only if confirmation of the receipt of such electronic mail is received or if notice is concurrently sent by another means specified herein, and (d) if given by any other means, upon delivery at the address specified in this Section.

Section 6.8. Attorneys' Fees. If any action is instituted to interpret or enforce any of the provisions of this Acquisition Agreement, the party prevailing in such action shall be entitled to recover from the other party thereto reasonable attorney's fees and costs of such suit (including both prejudgment and post judgment fees and costs) as determined by the court as part of the judgment.

Section 6.9. Severability. If any term or provision of this Acquisition Agreement, or the application of the term or provision to any Person or circumstance is, to any extent, held to be invalid or unenforceable in any jurisdiction, but the extent of such invalidity or unenforceability does not destroy the basis of the bargain between the parties as contained herein, the remainder of this Acquisition Agreement, or the application of the term or provision to Persons or circumstances other than those as to which the term or provision is held invalid or unenforceable, shall not be affected by such invalidity or unenforceability, and each remaining term or provision of this Assignment Agreement shall be valid and will be enforced to the fullest extent permitted by law.

Section 6.10. Governing Law. This Acquisition Agreement and any dispute arising hereunder shall be governed by and interpreted in accordance with the laws of the State.

Section 6.11. Jurisdiction and Venue. Each of the City and the Developer (a) agrees that any suit, action or other legal proceeding arising out of or relating to this Acquisition Agreement shall be brought in a state or local court in the County of San Bernardino or in the

Courts of the United States of America in the district in which said county is located, (b) consents to the jurisdiction of each such court in any such suit, action or proceeding, and (c) waives any objection that it may have to the laying of venue of any suit, action or proceeding in any of such courts and any claim that any such suit, action or proceeding has been brought in an inconvenient forum. Each of the City and the Developer agrees that a final and non-appealable judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.

Section 6.12. Electronic Signature. Each of the parties hereto agrees that the transaction consisting of this Acquisition Agreement may be conducted by electronic means. Each party agrees, and acknowledges that it is such party's intent, that if such party signs this Acquisition Agreement using an electronic signature, it is signing, adopting and accepting this Acquisition Agreement and that signing this Acquisition Agreement using an electronic signature is the legal equivalent of having placed its handwritten signature on this Acquisition Agreement on paper. Each party acknowledges that it is being provided with an electronic or paper copy of this Acquisition Agreement in a usable format.

Section 6.13. Counterparts. This Acquisition Agreement may be executed in counterparts, each of which shall be deemed an original.

Section 6.14. Effective Date. This Acquisition Agreement has been dated for convenience purposes only. Notwithstanding the stated date of this Acquisition Agreement, this Acquisition Agreement shall be effective on the Effective Date.

IN WITNESS WHEREOF, the parties hereto have executed this Acquisition Agreement as of the day and year first hereinabove written.

EXHIBIT A

FACILITIES

The Facilities consist of the following Components and Segments; provided, however, that each such Segment described below shall constitute a Segment for purposes of this Acquisition Agreement only if such Segment was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders:

Storm Drain System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
SD-1	SD-48	Chino Avenue Storm Drain; From Cucamonga Creek Channel to north of Chino Avenue - CHIN-XI-1 in Master Plan of Drainage	Storm Drain in Chino Avenue from Cucamonga Creek to north of Chino Avenue

Fiber Optic System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
FO-1	FO-004	Distribution Network - Major Streets Conduit System	Installation of approximately 1,350 linear feet of Fiber optic conduit in Chino Avenue from bridge at the Cucamonga Creek Channel and continuing East to the transition East of Kinglet Avenue in Tract 17449

Water and Recycled Water System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
WT-1	WT-011	Francis 925' Zone Distribution Mains	Approximately 1,303 Linear Feet of 12-inch Master Planned Water Main in Chino Avenue from the Eastern Boundary of Tract 18855 to the connection at Archibald Avenue Acquisition Cost allocable to Design paid by NMC Builders is $23,735
WT-2	WT-011	Francis 925' Zone Distribution Mains	Approximately 2,303 Linear Feet of 12-inch Master Planned Water Main in Archibald Avenue from Chino Avenue to Schaefer Avenue Acquisition Cost allocable to Design paid by NMC Builders is $41,951
WT-3	WT-016	NMC Recycled Water System	Approximately 1,254 Linear Feet of 36 inch and approximately 33 Linear Feet of 8-inch Master Planned Recycled Water line in Chino Avenue (930 Zone) from 55 Feet East of IEUA Recycled Water line to East Eastern Boundary of Tract 17449
WT-4	WT-016	NMC Recycled Water System	Approximately 330 Linear Feet of 8-inch Master Planned Recycled Water line in Chino Avenue (1050 Zone) from Eastern Boundary of Tract 18855 to Eastern Boundary of Tract 17449
WT-5	WT-016	NMC Recycled Water System	Approximately 1,979 Linear Feet of 8-inch Master Planned Recycled Water line in Chino Avenue (1050 Zone) from West of the bridge at the Cucamonga Creek to the connection at Archibald Avenue

Streets and Traffic Circulation System Facilities			
No.	**DIF Program Project No.**	**Component**	**Segment**
ST-1	ST-005	Chino Avenue from Euclid Avenue to Milliken Avenue	Approximately 800 Linear feet of Chino Avenue Improvements on South Side of Chino Avenue from bridge at the Cucamonga Creek Channel and continuing East to the transition East of Kinglet Avenue in Tract 17449
ST-2	ST-120	Chino Avenue Bridge over the Cucamonga Creek Channel	Construction of the remainder of the widening of the Southern half of the Chino Avenue Bridge over the Cucamonga Creek Channel
ST-3	Last Lane	Last Lane Improvements on Chino Avenue - South Side	Construction of the curb adjacent lane, including curb, gutter, sidewalk and street lighting on South side of Chino Avenue from bridge at the Cucamonga Creek Channel and continuing East to the transition of Kinglet Avenue in Tract 17449
ST-4	Parkway	Parkway Improvements on Chino Avenue - South side	Construction of the landscaped Parkway on the south side of Chino Avenue from bridge at the Cucamonga Creek Channel and continuing East to the transition of Kinglet Avenue in Tract 17449
ST-5	Last Lane	Last Lane Improvements on Archibald Avenue - West side at Dolomite Avenue	Construction of approximately 428 Linear feet of curb adjacent lane, including curb, gutter, sidewalk and street lighting on West side of Archibald Avenue at Dolomite Avenue intersection
ST-6	Parkway	Parkway Improvements on Archibald Avenue - West side at Dolomite Avenue	Construction of approximately 428 Linear feet of landscaped Parkway on the West side of Archibald Avenue at Dolomite Avenue intersection

EXHIBIT B

FORM OF PAYMENT REQUEST

City of Ontario
Community Facilities District No. 35
(Countryside Phase 2 South - Facilities)

The City of Ontario (the "City") and Lennar Homes of California, LLC, a California limited liability company (the "Developer"), are parties to the Amended and Restated Acquisition and Funding Agreement, dated as of June 1, 2024 (the "Acquisition Agreement"). Capitalized undefined terms use herein shall have the meanings ascribed thereto in the Acquisition Agreement. Pursuant to the Acquisition Agreement, the Developer hereby requests confirmation that the Segment described in Attachment A attached hereto (the "Segment") is [Complete] [Substantially Complete] and hereby further requests approval of the Purchase Price of the Segment. In connection with this Payment Request, the Developer hereby represents and warrants to the City as follows:

(a) The person executing this Payment Request on behalf of the Developer is a Developer Representative, qualified to execute this Payment Request on behalf of the Developer and knowledgeable as to the matters set forth herein.

(b) The Developer has submitted or submits herewith to the City Engineer as-built drawings or similar plans and specifications for the Segments for which payment is requested, and such drawings or plans and specifications, as applicable, are true, correct and complete; provided, however, that if such Segment is a Circulation System Segment, and certification is being requested that such Segment is Substantially Complete but not Complete, such drawings or plans and specifications need not be submitted to the City Engineer until certification is being requested that such Segment is Complete.

(c) Each of the Segments described in Attachment A has been constructed in accordance with the Plans therefor, and in accordance with all applicable City standards and the requirements of the Acquisition Agreement, and the as-built drawings or similar Plans and specifications referenced in paragraph (b) above.

(d) The true and correct Actual Cost of each Segment is set forth in Attachment A.

(e) The Developer has submitted or submits herewith to the City Engineer invoices, receipts, worksheets and other evidence of costs that are in sufficient detail to allow the City Engineer to verify the Actual Cost of each Segment for which payment is requested.

(f) There are no liens, rights to lien or attachment upon, or claims affecting the right to receive the payment requested herein that has not been released or will not be released simultaneously with the payment of such obligation, other than materialmen's or

mechanics' liens accruing by operation of law. Copies of lien releases for all work for which payment is requested hereunder are attached hereto.

(g) No Developer Event of Default has occurred and is continuing.

(h) The representations and warranties of the Developer set forth in Section 4.1 of the Acquisition Agreement are true and correct on and as of the date hereof with the same force and effect as if made on and as of the date hereof (except that no certification is made with respect to the representations and warranties contained in subsection (d) of said Section 4.1).

(i) As of the date hereof, there is not present on, under or in the Segment or the Related Property of the Segment, or any portion thereof, any Hazardous Materials, except for (i) any types or amounts that do not require remediation or mitigation under federal, state or local laws, ordinances, regulations, rules or decisions, (ii) those that have been remediated or mitigated in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, (iii) those with respect to which ongoing remediation or mitigation is being performed in full compliance with applicable federal, state or local laws, ordinances, regulations, rules or decisions, or (iv) any types or amounts that do not present a human health risk or hazard to the public.

(j) Each of the Segments described in Attachment A was constructed by or on behalf of the Developer singly and not jointly or in conjunction with another Member or NMC Builders.

The Developer hereby declares under penalty of perjury that the above representations and warranties are true and correct.

The Developer hereby requests that the Purchase Price be paid to the Person or Persons, in the amounts, set forth in Attachment B hereto.

CONFIRMATION AND APPROVAL BY THE CITY ENGINEER

[The City Engineer has (a) confirmed that the Segment described in Attachment A is Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Complete and the Purchase Price therefor described in Attachment A is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

[The City Engineer has (a) confirmed that the Segment described in Attachment A, which is a Circulation System Segment, is Substantially Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Substantially Complete and $_____, an amount equal to 85% of the Purchase Price therefor described in Attachment A, is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

[The City Engineer previously confirmed that the Segment described in Attachment A was Substantially Complete, and previously indicated that $_____, an amount equal to 85% of the Purchase Price therefor described in Attachment A, was eligible for payment to the Developer pursuant to the Acquisition Agreement. The City Engineer has (a) now confirmed that such Segment is Complete and was constructed in accordance with the Plans therefor, and (b) reviewed, verified and approved the Actual Cost of such Segment described in Attachment A. Such Segment is Complete and $_____, an amount equal to the remaining 15% of the Purchase Price therefor described in Attachment A is eligible for payment to the Developer pursuant to the Acquisition Agreement.]

Note: If Exhibit A to the Acquisition Agreement indicates that the Segment being acquired includes design costs that have been paid by NMC Builders, the Payment Instructions must include an instruction to pay NMC Builders the portion of the Purchase Price allocable to such design costs.

EXHIBIT C

DEVELOPER'S ESTIMATED ACTUAL COSTS OF SEGMENTS

(NOT A PART OF ACQUISITION AGREEMENT PROVISIONS)

The following table sets forth the estimated construction costs of the Facilities expected to be financed by the Community Facilities District and acquired by the City from the Developer pursuant to the Acquisition Agreement. The estimated construction costs have been provided by the Developer. Such estimated construction costs are intended to be used solely to facilitate the acquisition process pursuant to the Acquisition Agreement and to assist in confirming the Actual Cost of the respective Segments in accordance with the Acquisition Agreement. The City has not evaluated the reasonableness of the Developer's estimated construction costs, takes no responsibility for such estimated construction costs and, in confirming the Actual Cost of a Segment pursuant to the Acquisition Agreement, will not be bound by such estimated construction costs.

Storm Drain System Facilities		
No.	**Segment**	**Developer's Estimated Actual Cost**
SD-1	Storm Drain in Chino Avenue from Cucamonga Creek to north of Chino Avenue	$1,492,423

ST-6	Construction of approximately 428 Linear feet of landscaped Parkway on the West side of Archibald Avenue at Dolomite Avenue intersection	$19,650

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation, or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

PRELIMINARY OFFICIAL STATEMENT DATED _____, 2024

NEW ISSUE – BOOK ENTRY-ONLY **NO RATING**

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the District, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2024 Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 and is exempt from State of California personal income taxes. In the further opinion of Bond Counsel, interest on the Series 2024 Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Bond Counsel observes that interest on the Series 2024 Bonds is included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Series 2024 Bonds. See "TAX MATTERS" herein.

$11,040,000*
CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
SPECIAL TAX BONDS, SERIES 2024

Dated: Date of Delivery **Due: September 1, as shown on the inside cover page**

The City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "Series 2024 Bonds") are being issued and delivered by the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "District") to (i) provide financing for certain authorized facilities and costs with respect thereto related to the development within the District, (ii) fund a reserve fund with respect to the Series 2024 Bonds, and (iii) pay the costs of issuance with respect to the Series 2024 Bonds. See "ESTIMATED SOURCES AND USES OF FUNDS" herein. The District has been formed by and is located in the City of Ontario, California (the "City").

The Series 2024 Bonds are authorized to be issued pursuant to the Mello Roos Community Facilities Act of 1982, as amended (Section 53311 et seq. of the Government Code of the State of California), and pursuant to an Indenture, dated as of _____ 1, 2024, by and between the District and Zions Bancorporation, National Association, as trustee (the "Trustee"). The Series 2024 Bonds are special, limited obligations of the District and are payable solely from Net Special Tax Revenues (as defined herein), and the other assets pledged therefor under the Indenture, all as further described herein. A Special Tax (as defined herein) is to be levied according to the rate and method of apportionment, as amended, approved by the City Council of the City and the qualified electors within the District. The City Council is the legislative body of the District.

The Series 2024 Bonds are issuable in fully registered form and when issued will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). Individual purchases of Series 2024 Bonds may be made in principal amounts of $5,000 and integral multiples thereof. Purchasers of Series 2024 Bonds will not receive certificates representing their beneficial ownership of the Series 2024 Bonds but will receive credit balances on the books of their respective nominees. Interest on the Series 2024 Bonds will be payable on each March 1 and September 1, commencing March 1, 2025. Principal of and interest on the Series 2024 Bonds will be paid by the Trustee to DTC for subsequent disbursement to DTC Participants who are expected to remit such payments to the beneficial owners of the Series 2024 Bonds. See "THE SERIES 2024 BONDS — General Provisions" and APPENDIX I — "INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM" herein.

The Series 2024 Bonds are subject to optional and mandatory redemption as described under the caption "THE SERIES 2024 BONDS — Redemption."

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE DISTRICT (EXCEPT TO THE LIMITED EXTENT SET FORTH IN THE INDENTURE), THE CITY OR THE STATE OF CALIFORNIA, OR ANY POLITICAL SUBDIVISION THEREOF, IS PLEDGED TO THE PAYMENT OF THE SERIES 2024 BONDS. EXCEPT FOR NET SPECIAL TAX REVENUES, NO OTHER TAXES ARE PLEDGED TO THE PAYMENT OF THE SERIES 2024 BONDS. THE SERIES 2024 BONDS ARE NOT GENERAL OR SPECIAL OBLIGATIONS OF THE CITY BUT ARE SPECIAL, LIMITED OBLIGATIONS OF THE DISTRICT PAYABLE SOLELY FROM NET SPECIAL TAX REVENUES AND THE OTHER ASSETS PLEDGED THEREFOR UNDER THE INDENTURE AS MORE FULLY DESCRIBED HEREIN.

The purchase of the Series 2024 Bonds involves certain risks. See the section of this Official Statement entitled "SPECIAL RISK FACTORS" for a discussion of certain risk factors that should be considered, in addition to the other matters set forth herein, in evaluating the investment quality of the Series 2024 Bonds.

This cover page contains certain information for general reference only. It is not a summary of this issue. Investors are advised to read the entire Official Statement to obtain information essential to the making of an informed investment decision.

The Series 2024 Bonds are offered when, as and if issued and accepted by the Underwriter, subject to approval as to their legality by Orrick, Herrington & Sutcliffe LLP, Los Angeles, California, as Bond Counsel, and subject to certain other conditions. Certain legal matters will be passed on for the City and the District by Best Best & Krieger LLP, Ontario, California, as Issuer's Counsel, and by Best Best & Krieger LLP, Riverside, California, as Disclosure Counsel. Certain legal matters will be passed upon for the Underwriter by its counsel, Kutak Rock LLP, Irvine, California. It is anticipated that the Series 2024 Bonds will be available for delivery to DTC or its agent in book-entry form on or about _____, 2024.

Except where otherwise indicated, all information contained in this Official Statement has been provided by the City and the District. No dealer, broker, salesperson or other person has been authorized by the City, the District, the Trustee or the Underwriter to give any information or to make any representations in connection with the offer or sale of the Series 2024 Bonds other than those contained herein and, if given or made, such other information or representations must not be relied upon as having been authorized by the City, the District, the Trustee or the Underwriter. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the Series 2024 Bonds by a person in any jurisdiction in which it is unlawful for such person to make such an offer, solicitation or sale.

This Official Statement is not to be construed as a contract with the purchasers or owners of the Series 2024 Bonds. Statements contained in this Official Statement which involve estimates, forecasts or matters of opinion, whether or not expressly so described herein, are intended solely as such and are not to be construed as representations of fact.

The Underwriter has provided the following sentence for inclusion in this Official Statement:

The Underwriter has reviewed the information in this Official Statement in accordance with, and as a part of, its responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriter does not guarantee the accuracy or completeness of such information.

The information and expressions of opinion herein are subject to change without notice and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or any other parties described herein since the date hereof. All summaries of the Indenture or other documents are made subject to the provisions of such documents respectively and do not purport to be complete statements of any or all of such provisions. Reference is hereby made to such documents on file with the District for further information in connection therewith.

Certain statements included or incorporated by reference in this Official Statement constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, Section 21E of the United States Securities Exchange Act of 1934, as amended, and Section 27A of the United States Securities Act of 1933, as amended. Such statements are generally identifiable by the terminology used such as a "plan," "expect," "estimate," "project," "budget" or similar words. Such forward-looking statements include, but are not limited to certain statements contained in the information under the captions "THE COMMUNITY FACILITIES DISTRICT" and "PROPERTY OWNERSHIP AND THE DEVELOPMENT."

The achievement of certain results or other expectations contained in such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements described to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Except as set forth in the District's Continuing Disclosure Agreement, a form of which is attached hereto as APPENDIX G, neither the District nor the City plans to issue any updates or revisions to the forward-looking statements set forth in this Official Statement. Lennar Homes of California, LLC, a California limited liability company, has agreed to provide certain continuing disclosure information concerning Lennar Homes of California, LLC and its property within the District in the form attached hereto as APPENDIX H.

A wide variety of other information, including financial information concerning the City, is available from publications and websites of the City and others. No such information is a part of or incorporated into this Official Statement.

IN CONNECTION WITH THE OFFERING OF THE SERIES 2024 BONDS, THE UNDERWRITER MAY OVERALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF SUCH SERIES 2024 BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THE SERIES 2024 BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, IN RELIANCE UPON AN EXEMPTION CONTAINED IN SUCH ACT. THE SERIES 2024 BONDS HAVE NOT BEEN REGISTERED OR QUALIFIED UNDER THE SECURITIES LAWS OF ANY STATE.

SPECIAL TAX BONDS, SERIES 2024

INTRODUCTION

This introduction is not a summary of this Official Statement. It is only a brief description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement, including the cover page and appendices hereto, and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of the Series 2024 Bonds to potential investors is made only by means of the entire Official Statement.

The purpose of this Official Statement, which includes the cover page, the table of contents and the attached appendices, is to provide certain information concerning the issuance of the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 in the aggregate principal amount set forth on the front cover page (the "Series 2024 Bonds"). The proceeds of the Series 2024 Bonds will be used to finance certain public facilities and costs with respect thereto related to the development within the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (Countryside Phase 2 South - Facilities) (the "District"), to fund a reserve fund for the Series 2024 Bonds (the "Reserve Fund"), and to pay costs of issuance of the Series 2024 Bonds.

The Series 2024 Bonds are being issued pursuant to the Mello Roos Community Facilities Act of 1982, as amended (Section 53311 *et seq.* of the Government Code of the State of California) (the "Act"), and pursuant to the Indenture, dated as of _____ 1, 2024 (the "Indenture"), by and between the District and Zions Bancorporation, National Association, as trustee (the "Trustee"). The Series 2024 Bonds are secured under the Indenture by a pledge of, constituting a lien on and security interest in, the Net Special Tax Revenues (as defined herein) and any other amounts held in the Special Tax Fund, the Bond Fund and the Reserve Fund established pursuant to the Indenture.

This introduction is not a summary of this Official Statement. It is only a brief description of and guide to, and is qualified by, more complete and detailed information contained in the entire Official Statement and the documents summarized or described herein. A full review should be made of the entire Official Statement. The sale and delivery of the Series 2024 Bonds to potential investors is made only by means of the entire Official Statement. All capitalized terms used in this Official Statement and not defined shall have the meaning set forth in APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE — Definitions" herein.

The District

The District is located in the southwestern portion of the County of San Bernardino (the "County"), in the southwestern portion of the City of Ontario (the "City") within an area known as "Ontario Ranch." The District consists of two neighborhoods known as "Shady Tree" and "Whispering Wind," within a master planned community known as "Country Lane." The District is located on the south side of Chino Avenue, west of Archibald Avenue, and just north of Schaefer Avenue. The Shady Tree site consists of approximately 18.723 gross acres, with all lots located within Final Tract Map No. 17449. Whispering Wind site consists of approximately 16.827 gross acres, with all lots located within Final Tract Map 17450.

The property within the District is currently under the ownership of Lennar Homes of California, LLC, a California limited liability company (the "Developer" or "Lennar Homes"), and individual homeowners. Lennar Homes purchased the property within the District for the Shady Tree and Whispering Wind sites from Forestar

* Preliminary, subject to change.

Countryside, LLC, a Delaware limited liability company, for $25,154,265 on December 31, 2020. The Developer is developing the District into two neighborhoods consisting of 235 single family detached residential units. The Shady Tree neighborhood is planned for 97 single family homes and the Whispering Wind neighborhood is planned for 138 single family homes. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — The Developer."

Country Lane is part of a multiple phase, multiple master-planned community development known as "Ontario Ranch." Ontario Ranch is a multiple phase, multiple master-planned community development. Ontario Ranch is planned to contain over 3,500 acres. At full buildout, Ontario Ranch is expected to include approximately 24,000 dwelling units, approximately 7.6 million square feet of industrial space, approximately 2.0 million square feet of commercial and retail space and approximately 1.6 million square feet of business park space. While much of Ontario Ranch is raw vacant land, many planned communities within the east side of Ontario Ranch have been completed or are currently under construction.

As mentioned above, the Developer is building and selling homes in the District within two neighborhoods named "Shady Tree" and "Whispering Wind." At full buildout the District is anticipated to include 235 single-family detached dwelling units. As of April 1, 2024, the date of value of the Appraisal (defined herein), the District included 137 completed residential units which had closed escrow to individual homeowners, and the Developer owned 6 completed model units (none of which were in escrow), 12 residential units that were over 95% complete (all of which were in escrow), 44 residential units that were in various stages of construction but less than 95% complete (26 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). As of April 1, 2024, building permits had been issued for all 235 units within the District. As of May 6, 2024, a total of 148 residential units had been conveyed to individual homeowners, and the Developer owned 10 completed production units (all of which are in escrow), 6 model units (none of which were in escrow), 35 residential units that were in various stages of construction (24 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). Homes under contract may not result in closed escrows as sales contracts are subject to cancellation. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — Lennar Homes' Development Plan" and "SPECIAL RISK FACTORS — Increasing Mortgage Interest Rates."

The District was formed to finance certain services, facilities and costs with respect thereto related to the development within the District. The Act was enacted by the California legislature to provide an alternative method of financing certain capital facilities and services, especially in developing areas of the State of California (the "State"). Any local agency (as defined in the Act) may establish a community facilities district to provide for and finance the cost of eligible facilities and services. The legislative body of the local agency which forms a community facilities district acts on behalf of such district as its legislative body. Subject to approval by two thirds of the votes cast at an election and compliance with the other provisions of the Act, a legislative body of a local agency may issue bonds for a community facilities district and may levy and collect a special tax within such district to repay such indebtedness.

Pursuant to the Act, on September 5, 2017 the City Council of the City (the "City Council") adopted the necessary resolutions stating its intent to establish the District, to authorize the levy of a special tax on taxable property within the boundaries of the District based on a rate and method of apportionment, and to have the District incur bonded indebtedness.

Following public hearings conducted pursuant to the provisions of the Act, the City Council adopted resolutions establishing the District and calling a special election to submit the levy of a special tax and the incurring of bonded indebtedness to the qualified voters of the District. On October 17, 2017, at an election held pursuant to the Act, the qualified voter within the District at the time of the election, authorized the District to incur bonded indebtedness in the aggregate principal amount of not to exceed $27,000,000 and approved a rate and method of apportionment of the special tax for the District to pay, among other things, the principal of and interest on the bonds of the District (the "Original Rate and Method").

A Notice of Special Tax Lien was recorded in the office of the Assessor-Recorder-County Clerk's office of the County of San Bernardino (the "County Assessor") on October 19, 2017 as Doc# 2017-0432322 (the "Notice of Special Tax Lien"). On November 7, 2017, the City Council adopted Ordinance No. 3082 authorizing the levy of the special tax in accordance with the Original Rate and Method.

On June 7, 2022, the City Council initiated change proceedings to amend the Original Rate and Method and increase the maximum bonded indebtedness to $45,000,000 by adopting the necessary resolutions stating its intention to implement such changes. On July 19, 2022, at an election held pursuant to the Act, Lennar Homes, the qualified voter within the District at the time of the election, authorized the District to modify the Rate and Method (the "Rate and Method") and authorized an increase to the maximum indebtedness to $45,000,000. On July 20, 2022, recorded Amendment No. 1 to the Notice of Special Tax in the officer of the County Assessor as Doc# 2022-0252284. On August 2, 2022, the City Council adopted Ordinance No. 3221 amending and restating Ordinance No. 3082 authorizing the levy of special taxes in accordance with the Rate and Method.

The Rate and Method provides for a special tax (the "Special Tax") to be levied for the Special Tax Requirement. Under the Rate and Method, "Special Tax Requirement" is defined to mean for any Fiscal Year that amount required, after taking into account available amounts held in the funds and accounts established under the Indenture, for the District to: (i) pay debt service on all Outstanding Bonds (as defined herein) which is due in the calendar year that commences in such Fiscal Year; (ii) pay periodic costs on the Bonds, including, but not limited to, credit enhancement and rebate payments on the Bonds; (iii) pay Administrative Expenses (as defined in the Rate and Method); (iv) provide any amounts required to establish or replenish any reserve fund for the Bonds; (v) pay directly for acquisition or construction of Facilities (as defined in the Rate and Method), or the cost of Services (as defined in the Rate and Method), to the extent that the inclusion of such amounts does not increase the Special Tax levy on Final Mapped Property (as defined in the Rate and Method) or Undeveloped Property (as defined in the Rate and Method); (vi) provide an amount equal to Special Tax delinquencies based on the historical delinquency rate for the Special Tax as determined by the CFD Administrator (as defined in the Rate and Method). The Special Tax will be levied against certain property within the District pursuant to the Act, the Ordinance approving the levy of the Special Tax and the Indenture and in accordance with the Rate and Method. Under the Indenture, the portion of the Special Tax levied under the Rate and Method to pay for Services is not pledged to the payment of the Series 2024 Bonds or any Additional Bonds.

Upon the issuance of the Series 2024 Bonds, a principal amount of $33,960,000* will remain authorized but unissued. Pursuant to the Indenture, the District shall not issue additional indebtedness secured by the Net Special Tax Revenues (as such term is defined herein) on a parity with the Series 2024 Bonds except to refund the Series 2024 Bonds in whole or in part, and only in circumstances where the issuance of such Additional Bonds does not result in an increase in the amount of Annual Debt Service on the outstanding Series 2024 Bonds and the Additional Bonds (together, the "Bonds") in each Bond Year so long as any Bonds are outstanding. Other taxes and/or special assessments with liens equal in priority to the continuing lien of the Special Tax may be levied on the property within the District. See "SECURITY AND SOURCES OF PAYMENT FOR THE 2024 BONDS — Additional Bonds" and "SPECIAL RISK FACTORS — Parity Taxes and Special Assessments."

Security and Sources of Payment for the Series 2024 Bonds

Under the Indenture, the District has pledged to repay the Bonds from Net Special Tax Revenues and any other amounts held in the Special Tax Fund, the Bond Fund and the Reserve Fund. The Indenture defines "Net Special Tax Revenues" to mean Special Tax Revenues less amounts required to pay Administrative Expenses. The term "Special Tax Revenues" is defined in the Indenture to mean the proceeds of the Special Tax received by or on behalf of the District, other than proceeds of the Special Tax levied to pay the costs of Services received by or on behalf of the District, including any prepayments thereof, interest and penalties thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Tax, which will be limited to the amount of said lien and interest and penalties thereon. "Services" has the meaning set forth in the Rate and Method. See APPENDIX A — "AMENDED AND RESTATED RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX." "Administrative Expenses" is defined in the Indenture to mean any

reasonably necessary or appropriate expenses incurred in the administration of the District and the Bonds, including, but not limited to (a) the administrative and legal costs of levying and collecting the Special Tax (including costs incurred in connection with any appeals relating thereto and litigation expenses incurred in connection with the collection of such Special Tax), (b) the fees, costs and indemnification due the Trustee, (c) the costs incurred with on-going disclosure in connection with the Bonds, (d) the costs incurred in connection with the disclosure of the Special Tax to property owners and potential purchasers of property, (e) the amounts required to calculate and pay arbitrage rebate payments to the federal government, and (f) an allocable share of the salaries of the City staff providing services on behalf of the District directly related to the foregoing and an allocable share of City general administrative overhead related thereto.

"Special Tax" is defined in the Indenture to mean the special tax described and defined in the Rate and Method as "Special Tax" approved by the qualified electors to be levied within the District pursuant to the Act and the Rate and Method.

Net Special Tax Revenues are the primary security for the repayment of the Bonds. In the event that Net Special Tax Revenues are not paid when due, the only sources of funds available to pay the debt service on the Bonds are the amounts held by the Trustee for such purpose in the Special Tax Fund, the Bond Fund and the Reserve Fund. See "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS" herein.

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE DISTRICT (EXCEPT TO THE LIMITED EXTENT SET FORTH IN THE INDENTURE), THE CITY OR THE STATE, OR ANY POLITICAL SUBDIVISION THEREOF, IS PLEDGED TO THE PAYMENT OF THE BONDS. EXCEPT FOR THE NET SPECIAL TAX REVENUES, NO OTHER TAXES ARE PLEDGED TO THE PAYMENT OF THE BONDS. THE BONDS ARE NOT GENERAL OR SPECIAL OBLIGATIONS OF THE CITY BUT ARE SPECIAL, LIMITED OBLIGATIONS OF THE DISTRICT PAYABLE SOLELY FROM NET SPECIAL TAX REVENUES AND THE OTHER ASSETS PLEDGED THEREFOR UNDER THE INDENTURE AS MORE FULLY DESCRIBED HEREIN.

Description of the Series 2024 Bonds

The Series 2024 Bonds will be issued and delivered as fully registered bonds, registered in the name of Cede & Co. as nominee of The Depository Trust Company, New York, New York ("DTC"), and will be available to actual purchasers of the Series 2024 Bonds (the "Beneficial Owners") in the denominations of $5,000 and any integral multiple thereof under the book-entry system maintained by DTC, only through brokers and dealers who are or act through DTC Participants as described herein. Beneficial Owners will not be entitled to receive physical delivery of the Series 2024 Bonds. In the event that the book-entry only system described herein is no longer used with respect to the Series 2024 Bonds, the Series 2024 Bonds will be registered and transferred in accordance with the Indenture. See APPENDIX I — "INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM" herein.

Principal of, premium, if any, and interest on the Series 2024 Bonds is payable by the Trustee to DTC. Disbursement of such payments to DTC Participants is the responsibility of DTC and disbursement of such payments to the Beneficial Owners is the responsibility of DTC Participants. In the event that the book-entry only system is no longer used with respect to the Series 2024 Bonds, the Beneficial Owners will become the registered owners of the Series 2024 Bonds and will be paid principal and interest by the Trustee, all as described herein. See APPENDIX I — "INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM" herein.

The Series 2024 Bonds are subject to optional redemption, mandatory redemption from Special Tax prepayments and mandatory sinking fund redemption as described herein. For a more complete description of the Series 2024 Bonds and the basic documentation pursuant to which they are being sold and delivered, see "THE SERIES 2024 BONDS" and APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE" herein.

Appraisal Report

The District has obtained an appraisal of the Taxable Property (as defined herein) included in the District with a date of value as of April 1, 2024 (the "Appraisal" or "Appraisal Report"). The Appraisal was prepared for the District by Kitty Siino & Associates, Inc., Tustin, California (the "Appraiser"). Subject to the limitations set forth in the Appraisal, the Appraiser is of the opinion that, as of April 1, 2024, the minimum market value of the property within the District was not less than $117,479,057 (the "Appraised Value"). See "THE COMMUNITY FACILITIES DISTRICT— Property Values" and "THE COMMUNITY FACILITIES DISTRICT — Value-to-Lien Ratios." A copy of the Appraisal is included as APPENDIX B to this Official Statement. It is a condition precedent to the issuance of the Series 2024 Bonds that the Appraiser deliver a certificate stating that nothing has come to the attention of the Appraiser subsequent to the date of value of the Appraisal that would lead the Appraiser to believe that the value of the Taxable Property in the District is less than the minimum market value of such property reported in the Appraisal. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — Lennar Homes' Development Plan."

Price Point Study

In connection with the approval of the amendment to the Rate and Method, the City hired Empire Economics, Inc., Capistrano Beach, California (the "Price Point Consultant"), to prepare a price point study of the prices of the homes planned within the District, dated January 18, 2022 (the "Original Price Point Study"). The Special Tax rates set forth in the Rate and Method were based in part on the prices set forth in the Original Price Point Study. In connection with and in preparation for the issuance of the Series 2024 Bonds, the City hired the Price Point Consultant to conduct an update to the Original Price Point Study within the District, dated March 28, 2024 (the "Updated Price Point Study"). Pursuant to Section C of the Rate and Method, upon the issuance of Bonds, the City is required to amend the Assigned Special Tax (as defined in the Rate and Method) to the extent necessary to cause the total effective tax burden for residential property in the District to not exceed 1.95% of the minimum sales prices set forth in the Updated Price Point Study. Based on the Updated Price Point Study provided by the Price Point Consultant, the City will not reduce the Assigned Special Tax rates set forth in Section C of the Rate and Method, as the total effective tax burden applicable to each land use class of residential property to be constructed within the District will not exceed 1.95% of the minimum sales prices set forth in the Updated Price Point Study. A copy of the Updated Price Point Study is included as APPENDIX C to this Official Statement. See "SECURITY AND SOURCES FOR THE SERIES 2024 BONDS — Amended and Restated Rate and Method of Apportionment."

Professionals Involved in the Offering

Zions Bancorporation, National Association, Los Angeles, California, will act as Trustee under the Indenture. Samuel A. Ramirez & Co., Inc. is the Underwriter of the Series 2024 Bonds. The validity of the Series 2024 Bonds and certain other legal matters are subject to the approving opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the District. Urban Futures, Inc., Walnut Creek, California, is acting as Municipal Advisor for the District in connection with the Series 2024 Bonds. Kitty Siino & Associates, Inc., Tustin, California, is acting as the Appraiser to the District. Goodwin Consulting Group, Inc. is acting as the Special Tax Consultant to the District. Empire Economics, Inc. is acting as the Price Point Consultant to the District. Certain legal matters will be passed on for the City and the District by Best Best & Krieger LLP, Ontario, California, in its capacity as Issuer's Counsel, and Best Best & Krieger LLP, Riverside, California, as Disclosure Counsel. Certain legal matters will be passed upon for the Underwriter by its counsel, Kutak Rock LLP, Irvine, California.

For information concerning respects in which certain of the above mentioned professionals, advisors, counsel and agents may have a financial or other interest in the offering of the Series 2024 Bonds, see "FINANCIAL INTERESTS" herein.

Continuing Disclosure

The District will agree to provide, or cause to be provided, to the Municipal Securities Rulemaking Board's Electronic Municipal Market Access system available on the Internet at http://emma.msrb.org ("EMMA") certain annual financial information and operating data. The District will further agree to provide notice of certain listed events. These covenants will be made in order to assist the Underwriter in complying with Securities and Exchange Commission Rule 15c2 12(b)(5) (the "Rule"). See "CONTINUING DISCLOSURE — District Continuing Disclosure Agreement" herein. See the form of District Continuing Disclosure Agreement attached as APPENDIX G hereto (the "District Continuing Disclosure Agreement") for a description of the specific nature of the annual reports to be filed by the District and notices of listed events to be provided by the District.

In addition, the Developer will agree to provide or cause to be provided to EMMA certain information on a semi-annual basis with respect to the Developer and its property ownership and development within the District and notice of certain listed events until satisfaction of certain conditions set forth in the Developer Continuing Disclosure Agreement (the "Developer Continuing Disclosure Agreement"). See "CONTINUING DISCLOSURE — Developer Continuing Disclosure Certificate" herein. See the form of the Developer Continuing Disclosure Certificate attached as APPENDIX H hereto for a description of the specific nature of the semi-annual reports to be filed by the Developer, and notices of listed events to be provided by the Developer.

Series 2024 Bond Owners' Risks

Certain events could affect the ability of the District to pay the principal of and interest on the Series 2024 Bonds when due. See the section of this Official Statement entitled "SPECIAL RISK FACTORS" for a discussion of certain factors which should be considered, in addition to other matters set forth herein, in evaluating an investment in the Series 2024 Bonds.

Other Information

This Official Statement speaks only as of its date, and the information contained herein is subject to change.

Brief descriptions of the Series 2024 Bonds and the Indenture are included in this Official Statement. Such descriptions and information do not purport to be comprehensive or definitive. All references herein to the Indenture, the Series 2024 Bonds and the constitution and laws of the State as well as the proceedings of the City Council, acting as the legislative body of the District, are qualified in their entirety by references to such documents, laws and proceedings, and with respect to the Series 2024 Bonds, by reference to the Indenture.

Copies of the Indenture, the District Continuing Disclosure Agreement and other documents and information referred to herein are available for inspection and (upon request and payment to the City of a charge for copying, mailing and handling) for delivery from the City at 303 East "B" Street, Ontario, California 91764, Attention: City Manager.

Special Tax Fund	_____
Administrative Expense Fund	_____
Reserve Fund[(4)]	_____
Costs of Issuance Fund[(5)]	_____
Total	$_____

(1) Includes a portion of the Special Tax collected for Fiscal Year 2023-24.
(2) Reflects amounts owed or to be owed to Lennar Homes, for the construction of eligible facilities under the Act.
(3) Reflects amounts owed or to be owed to NMC Builders, LLC for the construction of eligible facilities under the Act.
(4) Equal to the initial Reserve Requirement.
(5) Includes fees of Bond Counsel and Disclosure Counsel, printing costs, municipal advisor fees, Trustee fees, Appraiser fees, Price Point Consultant fees and other costs of issuance of the Series 2024 Bonds.

THE SERIES 2024 BONDS

General Provisions

The Series 2024 Bonds will be issued in fully registered form without coupons in denominations of $5,000 and any integral multiple thereof ("Authorized Denominations"). The Series 2024 Bonds will be dated the date of issuance thereof. The Series 2024 Bonds are scheduled to mature on September 1, in the years and in the principal amounts, and will bear interest at the rates per annum, shown on the inside front cover page of this Official Statement. Interest on the Series 2024 Bonds will be computed on the basis of a 360-day year comprised of twelve 30-day months and will be payable on March 1 and September 1 of each year, commencing March 1, 2025 (each an "Interest Payment Date"). Interest on each Series 2024 Bond will be payable from the Interest Payment Date next preceding the date of authentication thereof unless (i) such Series 2024 Bond is authenticated on or before an Interest Payment Date and after the close of business on the fifteenth calendar day of the month preceding such Interest Payment Date, whether or not such day is a Business Day (the "Record Date") in which event interest thereon will be payable from such Interest Payment Date, (ii) such Series 2024 Bond is authenticated on or before the first Record Date, in which event interest thereon will be payable from the Closing Date or (iii) interest on such Series 2024 Bond is in default as of the date of authentication thereof, in which event interest thereon will be payable from the date to which interest has been previously paid or duly provided for.

The interest on, and principal of and redemption premiums, if any, on the Series 2024 Bonds are payable in lawful money of the United States of America. Interest is payable by check of the Trustee mailed by first class mail, postage prepaid, on each Interest Payment Date to the Owners of the Series 2024 Bonds at their respective addresses shown on the Registration Books as of the close of business on the preceding Record Date (except that interest on any Series 2024 Bond which is not punctually paid or duly provided for on any Interest Payment Date will, if and to the extent that amounts subsequently become available therefor, be payable on a payment date

established by the Trustee to the Person in whose name the ownership of such Series 2024 Bond is registered on the Registration Books at the close of business on a special record date to be established by the Trustee pursuant to the Indenture). Payment of principal of any Series 2024 Bond will be made only upon presentation and surrender thereof at maturity or upon earlier redemption at the Office of the Trustee.

The Series 2024 Bonds will initially be issued in book-entry form, and DTC will act as securities depository. So long as the Series 2024 Bonds are held in book-entry form, principal of, premium, if any, and interest on the Series 2024 Bonds will be paid by the Trustee directly to DTC for distribution to the Beneficial Owners of the Series 2024 Bonds in accordance with procedures adopted by DTC. See APPENDIX I — "INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM."

The Bonds are not general or special obligations of the City but are special, limited obligations of the District payable solely from Net Special Tax Revenues and the other amounts held under the Indenture in the Special Tax Fund, the Bond Fund and the Reserve Fund. Neither the faith and credit nor the taxing power of the District (except to the limited extent set forth in the Indenture), the City, the State or any political subdivision thereof, is pledged to the payment of the Bonds. See "SPECIAL RISK FACTORS — Bonds Are Limited Obligations."

Redemption*[*]

Optional Redemption. The Series 2024 Bonds maturing on and after September 1, 2032, shall be subject to optional redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date on or after September 1, 2031 from any source of available funds, at the following respective Redemption Prices (expressed as percentages of the principal amount of the Series 2024 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
September 1, 20__ and March 1, 20__	103%
September 1, 20__ and March 1, 20__	102
September 1, 20__ and March 1, 20__	101
September 1, 20__ and any Interest Payment Date thereafter	100

Mandatory Redemption from Special Tax Prepayments. The Series 2024 Bonds are subject to mandatory redemption, in whole, or in part in Authorized Denominations, on any Interest Payment Date, from and to the extent of Special Tax prepayments required to be applied thereto and any related proportional amounts in the Reserve Fund required to be applied thereto pursuant to the Indenture (see "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Reserve Fund") at the following respective Redemption Prices (expressed as percentages of the principal amount of the Series 2024 Bonds to be redeemed), plus accrued interest thereon to the date of redemption:

Redemption Dates	Redemption Price
September 1, 2031 and March 1, 2032	103%
September 1, 2032 and March 1, 2033	102
September 1, 2033 and March 1, 2034	101
September 1, 2034 and any Interest Payment Date thereafter	100

[*] Preliminary, subject to change.

See the caption "SPECIAL RISK FACTORS — Potential Early Redemption of Bonds from Special Tax Prepayments" for a discussion of the potential for a lower than expected yield on the Series 2024 Bonds as a result of a special mandatory redemption from Special Tax prepayments.

Mandatory Sinking Fund Redemption. The Series 2024 Bonds maturing September 1, 20__ shall be subject to mandatory sinking fund redemption, in part, on September 1 in each year, commencing September 1, 20__, at a Redemption Price equal to the principal amount of the Series 2024 Bonds maturing September 1, 20__ to be redeemed, without premium, plus accrued interest thereon to the date of redemption, in the aggregate respective principal amounts in the respective years as follows:

Sinking Fund Redemption Date (September 1)	**Principal Amount to be Redeemed**
20__	$
20__	
20__	
20__	
20__ (Maturity)	

If some but not all of the Series 2024 Bonds maturing September 1, 20__ are redeemed pursuant to the optional redemption provisions of the Indenture described above, the principal amount of the Series 2024 Bonds maturing September 1, 20__ to be redeemed pursuant to mandatory sinking fund redemption as described above on any subsequent September 1 shall be reduced, by $5,000 or an integral multiple thereof, as designated by the District in a Written Certificate of the District filed with the Trustee; provided, however, that the aggregate amount of such reductions shall not exceed the aggregate amount of the Series 2024 Bonds maturing September 1, 20__ so optionally redeemed. If some but not all of the Series 2024 Bonds maturing September 1, 20__ are redeemed pursuant to the mandatory redemption from Special Tax prepayments provisions of the Indenture described above, the principal amount of the Series 2024 Bonds maturing September 1, 20__ to be redeemed pursuant to mandatory sinking fund redemption as described above on any subsequent September 1 shall be reduced by the aggregate principal amount of the Series 2024 Bonds maturing September 1, 20__ so redeemed, such reduction to be allocated among redemption dates as nearly as practicable on a *pro rata* basis in amounts of $5,000 or integral multiples thereof, as determined by the Trustee, notice of which determination shall be given by the Trustee to the District.

Selection of Bonds for Redemption. Whenever provision is made in the Indenture for the redemption of less than all of the Bonds, the Trustee will select the Bonds to be redeemed from all Bonds not previously called for redemption (i) with respect to any optional redemption of Bonds of a Series, among maturities of the Bonds of such Series as directed in a Written Request of the District, and (ii) with respect to any mandatory redemption of Bonds from Special Tax prepayments, among maturities of all Series of Bonds on a *pro rata* basis as nearly as practicable. The Trustee shall select for redemption the Bonds of the same Series with the same maturity by lot in any manner that the Trustee, in its sole discretion, shall deem appropriate. For purposes of such selection, all Bonds shall be deemed to be comprised of the greatest number of separate denominations that would result in each such denomination being an Authorized Denomination and each such separate denomination shall be treated as a separate Bond that may be separately redeemed.

Notice of Redemption. If the Bonds are held in book entry form, notice of redemption will be mailed to DTC and not to the Beneficial Owners of the Bonds under the DTC book entry system. Neither the District nor the Trustee is responsible for giving notice of redemption to the Beneficial Owners. See APPENDIX I — "INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM" herein.

The Indenture provides that the Trustee on behalf and at the expense of the District will give notice of any redemption by first class mail to the respective Owners of any Bonds designated for redemption at their respective addresses appearing on the Registration Books at least 30 but not more than 60 days prior to the date fixed for redemption. Such notice of redemption will state the date of the notice, the redemption date, the redemption place

and the Redemption Price and shall designate the CUSIP numbers, if any, the Bond numbers and the maturity or maturities of the Bonds to be redeemed (except in the event of redemption of all of the Bonds of such maturity or maturities in whole). The notice of redemption will require that the Bonds to be redeemed be surrendered at the Office of the Trustee for redemption at the Redemption Price, and give notice that further interest on such Bonds will not accrue from and after the date fixed for redemption. Neither the failure to receive any notice so mailed, nor any defect in such notice, will affect the validity of the proceedings for the redemption of the Bonds or the cessation of accrual of interest thereon from and after the date fixed for redemption.

If, on said date fixed for redemption, moneys for the Redemption Price of all the Bonds to be redeemed, together with interest to said date, is held by the Trustee so as to be available therefor on such date, and, if notice of redemption thereof will have been mailed as aforesaid and not canceled, then, from and after said date, interest on said Bonds will cease to accrue and become payable. All moneys held by or on behalf of the Trustee for the redemption of Bonds will be held in trust for the account of the Owners of the Bonds so to be redeemed without liability to such Owners for interest thereon. With respect to any notice of any optional redemption of Bonds, unless at the time such notice is given the Bonds to be redeemed shall be deemed to have been paid within the meaning of the Indenture, such notice will state that such redemption is conditional upon receipt by the Trustee, on or prior to the date fixed for such redemption, of moneys that, together with other available amounts held by the Trustee, are sufficient to pay the Redemption Price of, and accrued interest on, the Bonds to be redeemed, and that if such moneys shall not have been so received said notice shall be of no force and effect and the District will not be required to redeem such Bonds. In the event a notice of redemption of Bonds contains such a condition and such moneys are not so received, the redemption of Bonds as described in the conditional notice of redemption will not be made and the Trustee will, within a reasonable time after the date on which such redemption was to occur, give notice to the Persons and in the manner in which the notice of redemption was given, that such moneys were not so received and that there shall be no redemption of Bonds pursuant to such notice of redemption.

SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS

General

The Bonds are special, limited obligations of the District payable solely from Net Special Tax Revenues and the other assets pledged therefor under the Indenture. The Indenture defines "Net Special Tax Revenues" to mean Special Tax Revenues less amounts required to pay Administrative Expenses. Under the Indenture, the portion of the Special Tax levied under the Rate and Method to pay for Services (as defined in the Rate and Method) is not pledged to the payment of the Bonds. Accordingly, the term "Special Tax Revenues" is defined in the Indenture to mean the proceeds of the Special Tax received by or on behalf of the District, other than proceeds of the Special Tax levied to pay the costs of Services received by or on behalf of the District, including any prepayments thereof, interest and penalties thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Tax (which shall be limited to the amount of said lien and interest and penalties thereon). The Indenture defines the term "Special Tax" as the special tax described and defined in the Rate and Method as "Special Tax" approved by the qualified electors to be levied within the District pursuant to the Act and the Rate and Method. "Services" has the meaning set forth in the Rate and Method. See APPENDIX A — "AMENDED AND RESTATED RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX." "Administrative Expenses" is defined in the Indenture to mean any reasonably necessary or appropriate expenses incurred in the administration of the District and the Bonds, including, but not limited to (a)

the administrative and legal costs of levying and collecting the Special Tax (including costs incurred in connection with any appeals relating thereto and litigation expenses incurred in connection with the collection of such Special Tax), (b) the fees, costs and indemnification due the Trustee, (c) the costs incurred with on-going disclosure in connection with the Bonds, (d) the costs incurred in connection with the disclosure of the Special Tax to property owners and potential purchasers of property, (e) the amounts required to calculate and pay arbitrage rebate payments to the federal government, and (f) an allocable share of the salaries of the City staff providing services on behalf of the District directly related to the foregoing and an allocable share of City general administrative overhead related thereto.

Under the Rate and Method, parcels of Taxable Property are classified as Developed Property (each as defined in the Rate and Method) if a building permit has been obtained for such parcel by May 1 of the fiscal year preceding the Special Tax levy. In Fiscal Year 2023-34, the first year the Special Tax was levied in the District, the Special Tax was levied in the amount of $282,165.00 on 73 parcels classified as Developed Property. As of May 1, 2024, all 235 parcels of Taxable Property were classified as Developed Property for Fiscal Year 2024-25. See "THE COMMUNITY FACILITIES DISTRICT — Delinquency History." Under no circumstances may the amount of Special Tax levied by the District in any year exceed the maximum rates approved by the qualified electors within the District, as set forth in the Rate and Method. A copy of the Rate and Method is attached to this Official Statement as APPENDIX A.

In addition to the Net Special Tax Revenues, any other amounts held by the Trustee in the Special Tax Fund, the Bond Fund and the Reserve Fund are pledged pursuant to the Indenture to secure the payment of the principal of, premium, if any, and interest on the Series 2024 Bonds and any Additional Bonds in accordance with their respective terms, the Indenture and the Act. However, those amounts are pledged subject to the provisions of the Indenture permitting the application thereof for the purposes set forth in the Indenture. Amounts on deposit in the Improvement Fund, the Costs of Issuance Fund, the Redemption Fund, the Administrative Expense Fund and the Rebate Fund are not pledged to the payment of any of the Series 2024 Bonds or any Additional Bonds.

NEITHER THE FAITH AND CREDIT NOR THE TAXING POWER OF THE DISTRICT (EXCEPT TO THE LIMITED EXTENT SET FORTH IN THE INDENTURE), THE CITY OR THE STATE, OR ANY POLITICAL SUBDIVISION THEREOF, IS PLEDGED TO THE PAYMENT OF THE BONDS. EXCEPT FOR THE NET SPECIAL TAX REVENUES, NO OTHER TAXES ARE PLEDGED TO THE PAYMENT OF THE BONDS. THE BONDS ARE NOT GENERAL OR SPECIAL OBLIGATIONS OF THE CITY BUT ARE SPECIAL, LIMITED OBLIGATIONS OF THE DISTRICT PAYABLE SOLELY FROM NET SPECIAL TAX REVENUES AND THE OTHER ASSETS PLEDGED THEREFOR UNDER THE INDENTURE AS MORE FULLY DESCRIBED HEREIN.

Special Tax

Pursuant to the Act, on September 5, 2017 the City Council of the City (the "City Council") adopted the necessary resolutions stating its intent to establish the District, to authorize the levy of a special tax on taxable property within the boundaries of the District based on a rate and method of apportionment, and to have the District incur bonded indebtedness.

Following public hearings conducted pursuant to the provisions of the Act, the City Council adopted resolutions establishing the District and calling a special election to submit the levy of a special tax and the incurring of bonded indebtedness to the qualified voters of the District. On October 17, 2017, at an election held pursuant to the Act, the qualified voter within the District at the time of the election, authorized the District to incur bonded indebtedness in the aggregate principal amount of not to exceed $27,000,000 and approved the Original Rate and Method for the District to pay, among other things, the principal of and interest on the bonds of the District.

On June 7, 2022, the City Council initiated change proceedings to amend the Original Rate and Method and increase the maximum bonded indebtedness to $45,000,000 by adopting the necessary resolutions stating its

intention to implement such changes. On July 19, 2022, at an election held pursuant to the Act, Lennar Homes, the qualified voter within the District at the time of the election, authorized the District to modify the Rate and Method (the "Rate and Method") and authorized an increase to the maximum indebtedness to $45,000,000.

Pursuant to Section C of the Rate and Method, prior to the issuance of the Series 2024 Bonds, the City is required to determine if the Assigned Special Tax (as defined in the Rate and Method) is required to be reduced to the extent necessary to cause the total effective tax burden for single family property in the District to not exceed 1.95% of the minimum sales prices set forth in the Updated Price Point Study, all as further described in Section C of the Rate and Method. A copy of the Updated Price Point Study is included as APPENDIX C to this Official Statement. Based on the conclusions of the Updated Price Point Study, the City will not amend the Rate and Method in connection with the issuance of the Series 2024 Bonds. See "— Amended and Restated Rate and Method of Apportionment" below.

Pursuant to the Indenture, the District has covenanted that it will fix and levy the Special Tax in each Fiscal Year in accordance with the Rate and Method in an amount sufficient (subject to the limitations contained in the Rate and Method as to the maximum Special Tax that may be levied on each parcel) to yield Special Tax Revenues in the amount required for (i) the payment of principal of and interest on any Outstanding Bonds becoming due and payable during the Corresponding Bond Year, (ii) any necessary replenishment of the Reserve Fund, and (iii) the payment of Administrative Expenses estimated to be paid from such Special Tax Revenues, taking into account the balances in the Funds and Accounts. See APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE — Certain Covenants Under the Indenture." Notwithstanding this covenant, the amount of Special Tax actually collected each year may be less than the amount described for a variety of different reasons. See "SPECIAL RISK FACTORS — Levy of the Special Tax."

The Series 2024 Bonds have been structured so that Assigned Special Tax rates set forth in the Rate and Method that may be levied within the District, based on the expected buildout of the District, are at least 110% of debt service on the Series 2024 Bonds in each Bond Year, net of estimated Administrative Expenses. The Special Tax levied in any fiscal year may not exceed the maximum rates authorized pursuant to the Rate and Method. See APPENDIX A - "RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX." There is no assurance that the Net Special Tax Revenues will, in all circumstances, be adequate to pay the principal of and interest on the Series 2024 Bonds when due. Pursuant to the Act, the Special Tax levied in any fiscal year against any parcel of residential property in the District may not be increased as a consequence of delinquency or default by the owners of any other parcels within the District by more than 10% above the amount that would have been levied in that fiscal year had there never been any such delinquencies or default. See "SPECIAL RISK FACTORS — Levy of the Special Tax" and "SPECIAL RISK FACTORS — Exempt Properties."

Amended and Restated Rate and Method of Apportionment

General. The Rate and Method is to be applied by the District each Fiscal Year for the purpose of determining the amount of the Special Tax to be levied against each Assessor's Parcel of Taxable Property within the District. For purposes of the discussion of the Rate and Method only, terms with initial capital letters that are not otherwise defined in this Official Statement shall have the respective meanings assigned to them in the Rate and Method, a copy of which appears in APPENDIX A.

Under the terms of the Indenture, prior to August 1 of each year, the District will ascertain from the County Assessor the relevant parcels on which the Special Tax is to be levied, taking into account any parcel splits during the preceding and then current year. The District will levy the Special Tax by August 10 of each Fiscal Year that the Bonds are Outstanding, or otherwise such that the computation of the levy is complete before the final date on which the auditor of the County (the "Auditor") will accept the transmission of the Special Tax amounts for the parcels within the District for inclusion on the next real property tax roll. Upon the completion of the computation of the amounts of the levy, the District will prepare, or cause to be prepared, and shall transmit to the Auditor, such data as the Auditor requires to include the levy of the Special Tax on the next real property tax roll.

The Special Tax levied in any Fiscal Year may not exceed the maximum rates authorized pursuant to the Rate and Method. See APPENDIX A — "RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX" hereto. There is no assurance that the proceeds of the Special Tax will, in all circumstances, be adequate to pay the principal of and interest on the Series 2024 Bonds when due. See "SPECIAL RISK FACTORS — Levy of the Special Tax" herein.

Rate and Method of Apportionment of Special Tax. The District is legally authorized and has covenanted to cause the levy of the Special Tax in an amount determined according to a methodology, i.e., the Rate and Method, which the City Council and the qualified elector within the District have approved. The Rate and Method apportions the total amount of the Special Tax to be collected among the Taxable Property in the District as more particularly described below.

The following is a synopsis of the provisions of the Rate and Method, which should be read in conjunction with the complete text of the Rate and Method which is attached as APPENDIX A — "RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX." The meanings of the capitalized but undefined terms used in this section are as set forth in APPENDIX A — "RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX" hereto. This section provides only a summary of the Rate and Method, and is qualified by more complete and detailed information contained in the Rate and Method attached as APPENDIX A.

"*CFD Administrator*" means an official of the City responsible for determining the Special Tax Requirement, providing for the levy and collection of the Special Taxes, and performing the other duties provided for in the Rate and Method.

"*Developed Property*" means for each Fiscal Year, all Taxable Property, exclusive of Final Mapped Property, Taxable Property Owner Association Property, and Taxable Public Property, for which a building permit or other applicable permit for new construction was issued after January 1, 2017, and before May 1 of the prior Fiscal Year.

"*Final Mapped Property*" means, for each Fiscal Year, all Taxable Property, exclusive of Developed Property, Taxable Property Owner Association Property, and Taxable Public Property, which as of January 1 of the previous Fiscal Year was located within a Final Subdivision Map. The term Final Mapped Property shall include any parcel map or Final Subdivision Map, or portion thereof, that creates individual lots for which a building permit may be issued, including Parcels that are designated as a remainder Parcel (i.e., one where the size, location, etc., precludes any further subdivision or taxable use).

"*Lower Income Household Welfare Exemption Property*" means, for each Fiscal Year, an Assessor's Parcel within the boundaries of the District that is subject to a welfare exemption under subdivision (g) of Section 214 of the California Revenue and Taxation Code (or any successor statute), as indicated in the most recent County assessor's roll finalized prior to such Fiscal Year.

"*Residential Floor Area*" means all of the Square Footage of living area within the perimeter of a Unit, not including any carport, walkway, garage, overhang, patio, enclosed patio, or similar area. The determination of Residential Floor Area shall be as set forth in the building permit(s) issued for such Assessor's Parcel, or as set forth in other official records maintained by the City's Building Department or other appropriate means selected by the District. The actual Square Footage shall be rounded up to the next whole square foot. Once such determination has been made for an Assessor's Parcel, it shall remain fixed in all future Fiscal Years unless an appeal pursuant to Section F of the Rate and Method is approved that results in a change in the actual Square Footage.

"*Special Tax*" means, the special tax authorized by the qualified electors of CFD No. 35 to be levied within the boundaries of the District.

"*Special Tax Requirement*" means, for any Fiscal Year that amount required, after taking into account available amounts held in the funds and accounts established under the Indenture, for the District to: (i) pay debt service on all Outstanding Bonds which is due in the calendar year that commences in such Fiscal Year; (ii) pay periodic costs on the Bonds, including, but not limited to, credit enhancement and rebate payments on the Bonds; (iii) pay Administrative Expenses; (iv) provide any amounts required to establish or replenish any reserve fund for the Bonds; (v) pay directly for acquisition or construction of Facilities, or the cost of Services, to the extent that the inclusion of such amounts does not increase the Special Tax levy on Final Mapped Property or Undeveloped Property; (vi) provide an amount equal to Special Tax delinquencies based on the historical delinquency rate for the Special Tax as determined by the CFD Administrator.

"*Taxable Property*" means, for each Fiscal Year, all of the Assessor's Parcels within the boundaries of the District which are not exempt from the Special Tax pursuant to law or described below under the subheading "— Exempt Property."

"*Taxable Property Owner Association Property*" means, for each Fiscal Year, all Assessor's Parcels of Property Owner Association Property that are not exempt from the Special Tax pursuant to Section E of the Rate and Method.

"*Taxable Public Property*" means, for each Fiscal Year, all Assessor's Parcels of Public Property that are not exempt from the Special Tax pursuant to Section E of the Rate and Method.

"*Undeveloped Property*" means, for each Fiscal Year, all Taxable Property not classified as Developed Property, Final Mapped Property, Taxable Public Property, or Taxable Property Owner Association Property.

Exempt Property. No Special Tax shall be levied on up to 2.44 Acres of Public Property and up to 14.12 Acres of Property Owner Association Property. Tax-exempt status will be assigned by the CFD Administrator in the chronological order in which property becomes Public Property or Property Owner Association Property.

Property Owner Association Property or Public Property that is not exempt from the Special Tax under this section shall be subject to the levy of the Special Tax and shall be taxed Proportionately as part of the fifth or sixth step, respectively, in Section D of the Rate and Method, up to 100% of the applicable Maximum Special Tax for Taxable Property Owner Association Property and Taxable Public Property. No Special Tax shall be levied in any Fiscal Year on Assessor's Parcels that have fully prepaid the Special Tax obligation pursuant to the formula set forth in Section H of the Rate and Method.

Under the Rate and Method, no Special Tax shall be levied on Lower Income Household Welfare Exemption Property; provided, however, that if, in any Fiscal Year, applicable law does not require that Lower Income Household Welfare Exemption Property be exempt from some portion, or all, of the Special Tax, such portion, or all, of the Special Tax shall be levied on such property in accordance with the Rate and Method based on the Land Use Class to which the Assessor's Parcel is assigned. Senate Bill 1473, the "Local Government Omnibus Act of 2020," amended Government Code Section 53340(c) to provide that in a community facilities district in which the levy of a special tax is authorized by an ordinance adopted on or after January 1, 2020, a property receiving a welfare exemption under subdivision (g) of Section 214 of the California Revenue and Taxation Code shall be exempt from the special tax unless debt is outstanding and the property was subject to the special tax prior to receiving the exemption, in which case the property shall remain subject to the special tax and the special tax shall be enforceable against the property. Therefore, pursuant to the Rate and Method and California law, and given that no property is subject to the welfare exemption as of the date hereof, the Special Tax shall be applicable to Lower Income Household Welfare Exemption Property so long as the Bonds are outstanding.

Maximum Special Tax, Assigned Special Tax and Backup Special Tax. The Maximum Special Tax, Assigned Special Tax and Backup Special Tax for the Special Tax provided for in the Rate and Method is as follows:

Special Tax

Developed Property. The Maximum Special Tax that may be levied in any Fiscal Year for each Assessor's Parcel classified as Developed Property shall be the greater of (i) the amount derived by application of the Assigned Special Tax or (ii) the amount derived by application of the Backup Special Tax. The Maximum Special Tax shall not increase in future years, other than as calculated pursuant to Section C.1.a.3 of the Rate and Method.

Assigned Special Tax. The Assigned Special Tax will be determined based on Land Use Class. Single Family Property will be assigned to Land Use Classes 1 through 7, Other Residential Property will be assigned to Land Use Class 8 and Non-Residential Property shall be assigned to Land Use Class 9 as listed in Table 1 in Section C of the Rate and Method. The Assigned Special Tax applicable to an Assessor's Parcel classified as Single Family Property ranges from $3,342 per unit for units with a Residential Floor Area of less than 1,501 square feet to $4,262 per unit for units with a Residential Floor Area greater than 2,500 square feet. The Assigned Special Tax applicable to an Assessor's Parcel classified as Other Residential Property and Non-Residential Property is $52,912 per acre. Based on the Updated Price Point Study provided by the Price Point Consultant, the Assigned Special Tax rates set forth in Section C of the Rate and Method are not required to be reduced so that the total effective tax burden applicable to each land use class of residential property to be constructed within the District will not exceed 1.95% of the minimum sale prices set forth in the Updated Price Point Study, as required by Section C of the Rate and Method. A copy of the Updated Price Point Study is included as APPENDIX C to this Official Statement.

Backup Special Tax. The Backup Special Tax for an Assessor's Parcel of Developed Property is $3,846 per Unit for Single Family Property, although subject to adjustment as set forth in Section C.1.a.(3) of the Rate and Method.

Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property and Undeveloped Property. The Maximum Special Tax for Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, and Undeveloped Property is $52,912 per acre, and shall not be subject to increase or reduction and, therefore, shall remain the same in every Fiscal Year.

Multiple Land Use Classes on an Assessor's Parcel. In some instances an Assessor's Parcel of Developed Property may contain more than one Land Use Class. The Maximum Special Tax levied on such Assessor's Parcel shall be the sum of the Maximum Special Tax for all Units of Single Family Property and Acres of Other Residential Property and Non-Residential Property (based on the pro rata share of Square Footage between Other Residential Property and Non-Residential Property, according to the applicable building permits, Final Subdivision Map, parcel map, condominium plan, or other recorded County map) located on that Assessor's Parcel.

Method of Apportionment of Special Tax. Each Fiscal Year, beginning with Fiscal Year 2018-19, the CFD Administrator will determine the Special Tax Requirement and, subject to the Maximum Special Tax rates described above, the Special Tax will then be levied as follows:

First: If needed to satisfy the Special Tax Requirement, the Special Tax shall be levied Proportionately on each Assessor's Parcel of Developed Property up to 100% of the applicable Assigned Special Tax;

Second: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Final Mapped Property up to 100% of the Maximum Special Tax for Final Mapped Property;

Third: If additional monies are needed to satisfy the Special Tax Requirement after the first two steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property up to 100% of the Maximum Special Tax for Undeveloped Property;

Fourth: If additional monies are needed to satisfy the Special Tax Requirement after the first three steps have been completed, then the levy of the Special Tax on each Assessor's Parcel of Developed Property whose Maximum Special Tax is determined through the application of the Backup Special Tax shall be increased Proportionately from the Assigned Special Tax up to the Maximum Special Tax for each such Assessor's Parcel;

Fifth: If additional monies are needed to satisfy the Special Tax Requirement after the first four steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Property Owner Association Property up to the Maximum Special Tax for Taxable Property Owner Association Property; and

Sixth: If additional monies are needed to satisfy the Special Tax Requirement after the first five steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property up to the Maximum Special Tax for Taxable Public Property.

Notwithstanding the above, under no circumstances shall the Special Tax levied in any Fiscal Year on any Assessor's Parcel of Single Family Property or Other Residential Property for which an occupancy permit for private residential use has been issued be increased as a result of delinquency or default by the owner or owners of any other Assessor's Parcel or Assessor's Parcels within the District by more than ten percent above the amount that would have been levied in that Fiscal Year had there never been any such delinquencies or defaults.

Special Tax used in this Official Statement, including the description of the apportionment of the Special Tax, the term "Special Tax Revenues" means the proceeds of the Special Tax received by or on behalf of the District, other than proceeds of the Special Tax levied to pay the costs of Services received by or on behalf of the District, including any prepayments thereof, interest and penalties thereon and proceeds of the redemption or sale of property sold as a result of foreclosure of the lien of the Special Tax, which will be limited to the amount of said lien and interest and penalties thereon.

Prepayment of Special Tax. The Special Tax obligation for an Assessor's Parcel of Taxable Property for which a building permit has been issued, may be prepaid in full, or in part, and only if there are no delinquent Special Tax with respect to such Assessor's Parcel at the time of prepayment, provided that the terms set forth under Section H of the Rate and Method are satisfied. The Prepayment Amount is calculated based on the Bond Redemption Amount plus Redemption Premium plus the Future Facilities Amount plus the Defeasance Amount plus the Administrative Fees and Expenses, less a credit for the resulting reduction in the Reserve Requirement for the Bonds (if any), all as specified in APPENDIX A — "AMENDED AND RESTATED RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX — Section H."

Mandatory redemption of Series 2024 Bonds from Special Tax prepayments may result in the reduction in the otherwise expected yield on such Series 2024 Bonds if the Series 2024 Bonds were purchased at a price greater than par. See "SPECIAL RISK FACTORS — Potential Early Redemption of Bonds from Special Tax Prepayments."

Estimated Debt Service Coverage. The principal amount of the Series 2024 Bonds has been established to produce debt service coverage on the Series 2024 Bonds from Net Special Tax Revenues of at least 110%. The District may levy up to the Maximum Special Tax rates on Taxable Property within the District. See "— Rate and Method of Apportionment — Maximum Special Tax, Assigned Special Tax and Backup Special Tax" and "— Rate and Method of Apportionment — Exempt Property."

Pursuant to the Rate and Method, the status of Developed Property is based on building permits issued as of May 1 of the Fiscal Year preceding the Fiscal Year for which the Special Tax is levied. Based on the development status within the District as of May 1, 2023, 73 parcels of Taxable Property were classified as Developed Property for Fiscal Year 2023-24. Between May 1, 2023 and April 1, 2024, permits were issued the remainder of the 162 single family residential units, resulting in all 235 parcels of Taxable Property being

classified as Developed Property for Fiscal Year 2024-25. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT" and "SPECIAL RISK FACTORS — Failure to Develop Properties."

In Fiscal Year 2023-24, the first year Special Tax was levied in the District. A Special Tax in the amount of $282,165.00 was levied on 73 parcels classified as Developed Property. As of April 1, 2024, building permits had been issued for all 235 units within the District. See "THE COMMUNITY FACILITIES DISTRICT — Delinquency History."

Table 1 below sets forth the projected Special Tax levy for Fiscal Year 2024-25 by property classification as of April 1, 2024 and as expected at build out.

		Acres				Acres			
Final Mapped Property[6]		0	$52,912	per Acre	$ 0	0	$52,912	per Acre	$ 0
Undeveloped Property[7]		0	$52,912	per Acre	$ 0	0	$52,912	per Acre	$ 0
Grand Total					**$901,171**				**$901,171**

(1) Based on the building permits issued as of May 1, 2024 and assumes no further development. Includes the debt service due in 2025 on the Series 2024 Bonds, estimated CFD administrative expenses in the amount of $89,244, and approximately $78,279 to directly fund facilities.
(2) Reflects the final Assigned Special Tax rates. No reductions were required pursuant to Section C.1 of the RMA.
(3) For Developed Property, the Assigned Special Tax rates are shown. For Final Mapped Property, the Maximum Special Tax rate is shown.
(4) Does not include potential revenues from a Backup Special Tax Levy on Single Family Property.
(5) For the projected Fiscal Year 2024-25 Special Tax levy, includes all taxable parcels which have had a building permit issued by the City prior to May 1, 2024 and assumes no further development.
(6) For the projected Fiscal Year 2024-25 Special Tax levy, includes all taxable parcels which were located within a final subdivison map as of December 31, 2023 and assumes no new final maps will be recorded.
(7) For the projected Fiscal Year 2024-25 Special Tax levy, no Special Tax is anticipated to be levied on Taxable Public Property, Taxable Property Owner Association Property, or Undeveloped Property.

Sources: City of Ontario; Goodwin Consulting Group, Inc.

Collection and Application of the Special Tax

The Special Tax is levied and collected by the Treasurer-Tax Collector of the County in the same manner and at the same time as *ad valorem* property taxes; provided, however, that the District may directly bill the Special Tax, may collect the Special Tax at a different time or in a different manner if necessary to meet its financial obligations, and may covenant to foreclose and may actually foreclose on delinquent Assessor's Parcels as permitted by the Act.

The District has made certain covenants in the Indenture for the purpose of ensuring that the current maximum rates and method of collection of the Special Tax are not altered in a manner that would impair the District's ability to collect sufficient Special Tax to pay debt service on the Bonds and Administrative Expenses when due. First, the District has covenanted that it will not initiate proceedings under the Act to modify the Rate and Method if such modification would adversely affect the security for the Bonds and if an initiative is adopted that purports to modify the Rate and Method in a manner that would adversely affect the security for the Bonds, the District shall, to the extent permitted by law, commence and pursue reasonable legal actions to prevent the modification of the Rate and Method in a manner that would adversely affect the security for the Bonds. See "SPECIAL RISK FACTORS — Constitutional Limitations on Taxation and Appropriations." Second, the District has covenanted not to authorize owners of taxable parcels within the District to satisfy Special Tax obligations by the tender of Bonds unless the District shall have first obtained a report of an Independent Consultant certifying that doing so would not result in the District having insufficient Special Tax Revenues to pay the principal of and interest on all Outstanding Bonds when due.

Although the Special Tax constitutes a lien on Taxable Property within the District, it does not constitute a personal indebtedness of the owners of such property within the District. Moreover, other overlapping general obligation debt already exists on the property located within the District and other future special tax and assessment liens and overlapping general obligation debt could come into existence in the future in certain situations without the consent or knowledge of the City or the landowners therein. See "SPECIAL RISK FACTORS — Parity Taxes and Special Assessments" herein. There is no assurance that property owners will be financially able to pay the annual Special Tax or that they will pay such taxes even if financially able to do so, all as more fully described in the section of this Official Statement entitled "SPECIAL RISK FACTORS."

Under the terms of the Indenture, the Trustee shall establish and maintain a separate fund designated the "Special Tax Fund." As soon as practicable after the receipt by the District of any Special Tax Revenues, but in any event no later than the date ten Business Days after such receipt, the District shall transfer such Special Tax Revenues to the Trustee for deposit in the Special Tax Fund; provided, however, that any portion of any such Special Tax Revenues that represent a Special Tax prepayment that is to be applied to the payment of the redemption price of Bonds in accordance with the provisions of the Indenture shall be identified to the Trustee as such by the District and shall be deposited in the Redemption Fund. See "— Special Tax Fund" below, "THE SERIES 2024 BONDS — Redemption — Mandatory Redemption from Special Tax Prepayments" and APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE."

Covenant for Superior Court Foreclosure

Pursuant to Section 53356.1 of the Act, the District has covenanted in the Indenture that it will determine or cause to be determined, no later than August 15 of each year, whether or not any owners of property within the District are delinquent in the payment of the Special Tax levied thereon and that, if such delinquencies exist, the District will order and cause to be commenced no later than October 1, and thereafter diligently prosecute, an action in the superior court to foreclose the lien of the Special Tax or installment thereof not paid when due. Notwithstanding the foregoing, the District is not required under the Indenture to order the commencement of foreclosure proceedings if (a) the total Special Tax delinquency in the District for such Fiscal Year is less than 5% of the total amount of the Special Tax levied in such Fiscal Year, and (b) the amount then on deposit in the Reserve Fund is equal to the Reserve Requirement. Notwithstanding the foregoing, if the District determines that any single parcel is delinquent in excess of $7,500 in the payment of the Special Tax, then the District will diligently institute, prosecute and pursue foreclosure proceedings against such parcel.

The mere commencement of foreclosure proceedings will not assure a prompt and favorable resolution of Special Tax delinquencies. The ability of the District to foreclose the lien of delinquent unpaid Special Tax may be limited. See "SPECIAL RISK FACTORS — Bankruptcy and Legal Delays" and "— FDIC/Federal Government Interests in Properties." Moreover, even if a judgment of foreclosure and order of sale is obtained, the District must cause a notice of levy to be issued. Under current law, the property owner has 120 days from the date of service of the notice of levy in which to redeem the subject property. If the property owner fails to

redeem the property and it is sold, the property owner's only remedy is an action to set aside the sale, which action must be brought within 90 days of the date of sale. If such an action results in the setting aside of the foreclosure sale, the judgment is revived, and the District would be entitled to receive interest on the revived judgment as if the sale had not been made. Under former law a property owner had a period of one year within which to redeem property to be sold, and the constitutionality of the legislation that eliminated the one year redemption period has not been tested.

There can be no assurance that, even if the subject property is sold, the proceeds from such sale will be sufficient to pay the delinquent installments of the Special Tax. The Act does not require the District or any other governmental agency to purchase or otherwise acquire any Assessor's Parcel being sold if there is no other purchaser at such sale. The Act does require that property being sold pursuant to foreclosure under the Act must be sold for not less than the judgment amount (which must include reasonable attorneys' fees, together with interest, penalties, and other authorized charges and costs) plus post judgment interest and authorized costs, unless a lower bid price is authorized by the Owners of not less than 75% by value of the Series 2024 Bonds Outstanding.

Special Tax Fund

The Indenture provides that the Trustee will establish and maintain a separate Fund designated the "Special Tax Fund." The Indenture requires that the District transfer Special Tax Revenues (other than Special Tax prepayments) to the Trustee for deposit into the Special Tax Fund as soon as practicable after the District's receipt thereof, but in any event no later than ten Business Days after such receipt. No later than the Business Day immediately preceding each Interest Payment Date, after having made any requested transfers to the Administrative Expense Fund, as requested by the District, to have sufficient amounts available therein to pay Administrative Expenses, the Trustee is required by the Indenture to make transfers from the Special Tax Fund to the Interest Account in the Bond Fund, the Principal Account in the Bond Fund and the Reserve Fund in the amounts and in the priority specified in the Indenture. See APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE."

As soon as practicable after the District's receipt of Special Tax prepayments, but in any event no later than ten Business Days after such receipt, the District is required to transfer any Special Tax prepayments to the Trustee and, in connection therewith, submit to the Trustee a Written Certificate identifying such amounts as Special Tax prepayments, identifying the portion of such Special Tax prepayments so transferred that is to be applied to the Redemption Price of the Bonds and identifying the portion of such Special Tax prepayments that is to be applied to the payment of interest on the Bonds to be so redeemed. The portion of such Special Tax prepayments that is to be applied to the Redemption Price will be deposited by the Trustee in the Redemption Fund and will be applied to the redemption of the Bonds pursuant to the Indenture. The portion of such Special Tax prepayments that is to be applied to the payment of interest on the Bonds to be so redeemed will be deposited by the Trustee in the Interest Account and will be applied to the payment of such interest.

Reserve Fund

The Indenture provides that the Trustee will establish and maintain a separate Fund designated the "Reserve Fund." On the Closing Date, the Trustee will deposit in the Reserve Fund the amount specified under the caption "ESTIMATED SOURCES AND USES OF FUNDS." The Trustee is also required, no later than the Business Day immediately preceding each Interest Payment Date, to transfer from the Special Tax Fund (after the requisite transfers to the Administrative Expense Fund, the Interest Account and the Principal Account) the amount, if any, necessary to cause the amount on deposit in the Reserve Fund to be equal to the Reserve Requirement. The Indenture defines "Reserve Requirement" to mean, as of the date of any calculation, the least of (i) "10% of the proceeds of the issue," within the meaning of Section 148 of the Code, with respect to the Bonds (excluding from such calculation Bonds refunded with the proceeds of subsequently issued Bonds), (ii) Maximum Annual Debt Service and (iii) 125% of Average Annual Debt Service.

Except as otherwise provided in the Indenture, all amounts in the Reserve Fund are to be used and withdrawn by the Trustee solely for the purpose of (i) making transfers to the Interest Account in accordance with the Indenture in the event of any deficiency in the Interest Account of the amount then required for payment of the interest on the Bonds, (ii) making transfers to the Principal Account in accordance with the Indenture in the event of any deficiency in the Principal Account of the amount then required for payment of the principal of the Bonds, and (iii) redeeming Bonds in accordance with the Indenture as described in the following paragraph.

Whenever Bonds are to be optionally redeemed or redeemed from Special Tax prepayments, a proportionate share (determined as provided below) of the amount on deposit in the Reserve Fund will, on the date on which amounts to redeem such Bonds are deposited in the Redemption Fund or otherwise deposited with the Trustee, be transferred by the Trustee from the Reserve Fund to the Redemption Fund or to such deposit held by the Trustee and will be applied to the redemption of said Bonds; provided that, such amount will be so transferred only if and to the extent that the amount remaining on deposit in the Reserve Fund will be at least equal to the Reserve Requirement (excluding from the calculation thereof said Bonds to be redeemed). Such proportionate share will be equal to the largest integral multiple of the minimum Authorized Denomination for said Bonds that is not larger than the amount equal to the product of (i) the amount on deposit in the Reserve Fund on the date of such transfer, times (ii) a fraction, the numerator of which is the principal amount of Bonds to be so redeemed and the denominator of which is the principal amount of Bonds to be Outstanding on the day prior to the date on which such Bonds are to be so redeemed.

Whenever the balance in the Reserve Fund exceeds the amount required to redeem or pay the Outstanding Bonds, including interest accrued to the date of payment or redemption and premium, if any, due upon redemption, the Trustee will, upon receipt of a Written Request of the District, transfer the amount in the Reserve Fund to the Interest Account, Principal Account and/or Redemption Fund, as applicable, to be applied, on the next succeeding Interest Payment Date to the payment and redemption of all of the Outstanding Bonds. If, as a result of the scheduled payment of principal of or interest on the Bonds, the Reserve Requirement is reduced, the Trustee will transfer an amount equal to the amount of such reduction to the Interest Account.

Investment of Moneys

All moneys held by the Trustee in any of the Funds or Accounts are required to be invested by the Trustee solely in Permitted Investments, as directed in writing by the District. As used in the Indenture, the phrase "Permitted Investments" includes a variety of investments, some of which may not be rated by a national rating service. See APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE — Definitions."

No Additional Bonds Except for Refunding Bonds

So long as any of the Series 2024 Bonds remain Outstanding, the District will not issue any Additional Bonds or obligations payable from Net Special Tax Revenues senior to the Series 2024 Bonds. The District may issue Additional Bonds or obligations payable on a parity with the Series 2024 Bonds, if, among other things: (i) upon the issuance of such Additional Bonds, no Event of Default will occur or be continuing under the Indenture; (ii) the proceeds of the Additional Bonds will be applied to refund the Series 2024 Bonds or Additional Bonds previously issued under the Indenture, pay Costs of Issuance incurred in connection with the issuance of such Additional Bonds, and/or make any requisite deposit to the Reserve Fund; and (iii) the Annual Debt Service in each Bond Year, calculated for all Bonds that will be Outstanding after the issuance of such Additional Bonds, will be less than or equal to Annual Debt Service in such Bond Year, calculated for all Bonds that are Outstanding immediately prior to the issuance of such Additional Bonds. Nothing contained in the Indenture limits the issuance of any special tax bonds payable from the Special Tax if, after the issuance and delivery of such special tax bonds, none of the Bonds theretofore issued under the Indenture will be Outstanding. See APPENDIX F — "SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE."

THE COMMUNITY FACILITIES DISTRICT

General Information Regarding the District

The District was formed to finance certain services, facilities and costs with respect thereto related to the development within the District. The qualified electors within the boundaries of the District, being the then owners of property in the District, authorized the District to incur bonded indebtedness to finance certain facilities to meet the needs of new development within the District and approved the Rate and Method for, and authorized the levy of, the Special Tax.

The District is located in the southwestern portion of the County, in the southwestern portion of the City within an area known as "Ontario Ranch." The District consists of two neighborhoods known as "Shady Tree" and "Whispering Wind," within a master planned community known as "Country Lane." The District is located the south side of Chino Avenue, west of Archibald Avenue, just north of Schaefer Avenue. The Shady Tree site consists of approximately 18.723 gross acres, with all lots located within Final Tract Map No. 17449. The Whispering Wind site consists of approximately 16.827 gross acres, with all lots located within Final Tract Map 17450 .

The property within the District is currently under the ownership of Lennar Homes and individual homeowners. Lennar Homes purchased the property within the District for the Shady Tree and Whispering Wind sites from Forestar Countryside, LLC, a Delaware limited liability company, for $25,154,265 on December 31, 2020. The Developer is developing the District into two neighborhoods consisting of 235 single family detached residential units. The Shady Tree neighborhood is planned for 97 single family homes and the Whispering Wind neighborhood is planned for 138 single family homes. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — The Developer."

Country Lane is part of a multiple phase, multiple master-planned community development known as "Ontario Ranch." Ontario Ranch is planned to contain over 8,200 acres. Within the Ontario Ranch, out of the total 8,200 acres, approximately 4,026 acres are approved within the above 18 specific plans. Within the approved 4,026 acres are 10,455 single family residences, 10,659 multi-family residences, 1.63 million square feet of commercial, 16.35 million square feet of industrial and 3.88 million square feet of business park. There is an additional 314 acres and 574 single family units in process for approval along with 4.42 million square feet of industrial space and nearly 920,000 square feet of business park. There are ten residential specific plans currently with approvals which include Grand Park, The Avenue, Parkside, Subarea 29, Rich Haven, Parkside, Esperanza, West Haven, Edenglen, Armstrong Ranch and Countryside.

As mentioned above, the Developer is building and selling homes in the District within two neighborhoods named "Shady Tree" and "Whispering Wind." At full buildout the District is anticipated to include 235 single-family detached dwelling units. As of April 1, 2024, the date of value of the Appraisal (defined herein), the District included 137 completed residential units which had closed escrow to individual homeowners, and the Developer owned 6 completed model units (none of which were in escrow), 12 residential units that were over 95% complete (all of which were in escrow), 44 residential units that were in various stages of construction but less than 95% complete (26 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). As of May 6, 2024, a total of 148 residential units had been conveyed to individual homeowners, and the Developer owned 10 completed production units (all of which were in escrow), 6 completed model units (none of which were in escrow), 35 residential units that were in various stages of construction (24 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). Homes under contract may not result in closed escrows as sales contracts are subject to cancellation. At full buildout the District is anticipated to include 235 single-family detached dwelling units. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — Lennar Homes' Development Plan." A detailed description of the status of the construction as of the date of value of the Appraisal is included in APPENDIX B — "APPRAISAL REPORT."

Under the City's General Plan (Land Use Plan LU-01) land within the District is designated as "Low Medium Density Residential," which allows for 5.1-11.0 dwelling units per acre. The General Plan Land Use Map also shows the southern portion of Tract No. 17450 as partially falling within the Chino Airport Influence Area overlay. As built and proposed, development within the District legally conforms to these requirements.

Water and sewer service to the property within the District will be supplied by the City. Electricity will be supplied by Southern California Edison, gas by Southern California Gas Company and schools by Mountain View District and Chaffey Joint Union High School District.

Like all of Southern California, the land within the District is subject to seismic activity. The District is not located in a designated Earthquake Study Zone and there are no known active faults crossing the site. However, the Chino Fault is located approximately 6.6 miles southwest of the District and the Cucamonga Fault Zone is located approximately 12.6 miles north of the District. See "SPECIAL RISK FACTORS — Geologic, Topographic and Climatic Conditions."

The Federal Emergency Management Agency has determined that the District is located in a Zone "X" flood area (an area of minimal flooding, within the 500-year flood plain), and flood insurance will not be required. See "SPECIAL RISK FACTORS — Geologic, Topographic and Climatic Conditions."

An aerial photo showing the property within the District and a map showing the general location of the District and the surrounding area appears on the pages before Page 1 of this Official Statement. More detailed information about the property therein is contained in APPENDIX B — "APPRAISAL REPORT," and information about the ownership of such property is set forth under the caption "PROPERTY OWNERSHIP AND THE DEVELOPMENT." General information about the City is set forth in APPENDIX E.

The Facilities

The City and Forestar Countryside LLC ("Forestar") entered into an Acquisition and Funding Agreement, dated as of October 1, 2017 (the "Original Acquisition Agreement"), which provides, among other things, the means by which certain facilities will be financed in connection with the development within the District, including water and recycled water improvements, fiber optic network improvements, street and traffic circulation system improvements (the "Facilities"). Pursuant to the Original Acquisition Agreement, Forestar agreed to construct, and the City agreed to accept, certain Facilities to be acquired with the proceeds of the Series 2024 Bonds and available Special Tax proceeds deposited into the Acquisition Account of the Improvement Fund under the Indenture pursuant to certain requirements contained in the Acquisition Agreement and the Indenture. The Acquisition Agreement also provides guidelines pursuant to which the City may acquire completed segments of the Facilities with the proceeds of the Series 2024 Bonds and available Special Tax proceeds deposited into Acquisition Account of the Improvement Fund. The Acquisition Agreement may be amended from time to time by the parties thereto.

Pursuant to the Original Acquisition Agreement, Forestar has agreed to pay all costs of the Facilities that it constructs pursuant to the Acquisition Agreement in excess of the moneys available therefor in the Acquisition Account of the Improvement Fund. Further, the Original Acquisition Agreement states any lack of availability of amounts in the Acquisition Account of the Improvement Fund to pay the acquisition costs of the Facilities shall in no way diminish any obligation of Forestar with respect to the construction of or contributions for public facilities and mitigation measures required by the conditions of approval or any subdivision, development, or other agreement to which Forestar is a party, or any governmental approval to which Forestar or any land within the District was subject, except to the extent expressly set forth in such agreement or approval.

Subsequently, Forestar and the Developer entered into the Assignment and Assumption Agreement, dated as of February 7, 2022, pursuant to which, in accordance with the terms set forth therein, the Developer accepted the assignment of the Original Acquisition Agreement from Forestar and unconditionally assumed all of the

obligations, liabilities and responsibilities and agreed to perform all of the obligations of Forestar under the Original Acquisition Agreement

The Original Acquisition Agreement was amended and restated by the Amended and Restated Acquisition and Construction Agreement dated _____ 1, 2024 by and between the City and Lennar Homes to, among other things, expand the Facilities authorized to be purchased by the City through the proceeds of the Series 2024 Bonds.

As of April 1, 2024, all of the Facilities to be constructed by Lennar Homes that are required to serve the development within the District have been substantially completed, pending final approval and acceptance by the City.

Certain facilities (the "NMC Facilities") were constructed pursuant to that certain First Amended and Restated Agreement for Financing and Construction of Limited Infrastructure Improvements to Serve an Easterly Portion of the New Model Colony, made as of August 21, 2012, by and between the City and NMC Builders (the "NMC Agreement"), by and between the City and NMC Builders, LLC, a California limited liability company ("NMC Builders"). Pursuant to the NMC Agreement bond proceeds may be deposited into an NMC Acquisition Account of the Improvement Fund under the Indenture to finance the costs of certain NMC Facilities constructed by NMC Builders and acquired by the City pursuant to the NMC Acquisition Agreement. NMC Builders is an entity established by certain current and previous landowners within Ontario Ranch for the purpose of jointly funding and managing the construction of much of the major public infrastructure required for the development of the eastern portion of Ontario Ranch, including some of the facilities being financed through the issuance of the Series 2024 Bonds.

Direct and Overlapping Debt

The District is included within the boundaries of numerous overlapping local agencies providing governmental services. Some of these local agencies have outstanding bonds, and/or the authority to issue bonds, payable from taxes or assessments. The existing and authorized indebtedness payable from taxes and assessments that may be levied upon the property within the District is shown in Table 2 below. In addition to current debt, new community facilities districts and/or special assessment districts could be formed in the future encompassing all or a portion of the property within the District; and such districts or the agencies that formed them could issue more bonds and levy additional special taxes or assessments.

Source: California Municipal Statistics, Inc.

As shown in Table 3, the projected Fiscal Year 2024-25 average total effective tax rate for completed single family homes conveyed to individual homeowners as of April 1, 2024 in the District range from approximately 1.84% to 1.90% of the base sales price of sample lots within the Shady Tree and Whispering Wind neighborhoods. The following table sets forth sample tax bills for selected completed homes owned by individual homeowners within the Shady Tree and Whispering Wind neighborhoods of the District for Fiscal Year 2024-25.

Property Values

Appraisal. In order to provide information with respect to the value of the land within the District, the District engaged the Appraiser to prepare the Appraisal. The principal of the Appraiser, who was actively involved in the preparation of the Appraisal, has an "MAI" designation from the Appraisal Institute and has prepared numerous appraisals for the sale of land secured municipal bonds. The Appraiser was selected by the District and has no material relationships with the City, the District or the owners of the land within the District other than the relationship represented by the engagement to prepare the Appraisal and other similar engagements for the City. The City instructed the Appraiser to prepare its analysis and report in conformity with City-approved guidelines and the Appraisal Standards for Land Secured Financings published in 1994 and revised in 2004 by the commission now known as California Debt and Investment Advisory Commission. A copy of the Appraisal is included as APPENDIX B to this Official Statement.

The purpose of the Appraisal was to estimate the minimum market value of the fee simple estate, subject to special tax and special assessment liens, of the property within the District in its current condition. Subject to the contingencies, assumptions and limiting conditions set forth in the Appraisal, the Appraiser concluded that, as of April 1, 2024, the minimum market value of the property within the District was not less than $117,479,057 including $88,072,375 for the 137 completed units conveyed to individual homeowners and $29,406,682 for the homes and lots owned by the Developer as of such date. See APPENDIX B — "APPRAISAL REPORT."

Reference is made to APPENDIX B for a complete list and full discussion of the applicable contingencies, assumptions and limiting conditions and the methodology employed by the Appraiser. In the event that any of the contingencies, assumptions and limiting conditions are not actually realized, the value of the property within the District may be less than the amount reported in the Appraisal. In any case, there can be no assurance that any portion of the property within the District would actually sell for the amount indicated by the Appraisal.

The Appraisal merely indicates the Appraiser's opinion as to the minimum market value of the property referred to therein as of the date and under the conditions specified therein. The Appraiser's opinion reflects conditions prevailing in the applicable market as of the date of value. The Appraiser's opinion does not predict the future value of the subject property, and there can be no assurance that market conditions will not further adversely change in the future. See "SPECIAL RISK FACTORS."

It is a condition precedent to the issuance of the Series 2024 Bonds that the Appraiser deliver to the District a certification to the effect that nothing has come to the attention of the Appraiser subsequent to the date of value of the Appraisal that would cause the Appraiser to believe that the value of property in the District is less than the minimum value reported in the Appraisal. See "PROPERTY OWNERSHIP AND THE DEVELOPMENT — Lennar Homes' Development Plan — Shady Tree."

Value-to-Lien Ratios

The value of the property within the District is significant because, in the event of a delinquency in the payment of the Special Tax, the District may foreclose only against delinquent parcels. Likewise, the ratio of the value of a parcel to its "share" of the Series 2024 Bonds is important because it provides an indication of the extent of the relative burden imposed on each parcel by the applicable Special Tax. As indicated above, the minimum appraised value of the property within the District is not less than $117,479,057. The ratio of that value to the $11,040,000* total principal amount of the Series 2024 Bonds is approximately 10.64*-to-1. Taking other overlapping tax and assessment debt within the District into account, the ratio of the minimum appraised value to the total amount of existing tax and assessment debt for the District plus the Series 2024 Bonds of $11,370,027 is approximately 10.33-to-1. See "— Direct and Overlapping Debt." Table 4 sets forth the appraised value to lien ratios of all the taxable property within the District by ownership and development status as of April 1, 2024.

Additionally, Table 5 below sets forth the stratification of value-to-liens of the parcels within the District, based on the appraised value of such parcels set forth in the Appraisal and such parcels' respective shares of the principal amount of the Series 2024 Bonds (allocated to each parcel based upon its respective share of the total projected Fiscal Year 2023-24 Special Tax levy) and the ratio of the appraised value to its share of the Series 2024 Bonds.

APPRAISED VALUE-TO-LIEN RATIOS BY OWNERSHIP AND STATUS OF DEVELOPMENT

Owner	Status of Development[1]	No. of Planned Units	Projected Fiscal Year 2024-25 Special Tax Levy[2]	Percent of Projected Fiscal Year 2024-25 Special Tax Levy	Appraised Value[3]	District Debt[4]*	Average Appraised Value-to-Lien*
Individual Homeowners	Completed and Sold	137	$528,586	58.66%	$ 88,072,375	$ 6,475,563	13.60
Lennar Homes	Model Homes	6	$ 23,491	2.61%	$ 2,875,503	$ 287,782	9.99
	Over 95% Complete	12	44,592	4.95	5,008,023	546,284	9.17
	Under Construction	44	169,745	18.84	11,837,736	2,079,500	5.69
	Finished Lots[5]	36	134,757	14.95	9,685,420	1,650,871	5.87
Subtotal – Lennar Homes		98	$372,585	41.34%	$29,406,682	$ 4,564,437	6.44
Grand Total		**235**	**$901,171**	**100.00%**	**$117,479,057**	**$11,040,000**	**10.64**

* Preliminary, subject to change.
(1) Construction status as provided in the Appraisal Report. May not reflect classification of properties for purposes of the Special Tax levy.
(2) Based on the building permits issued as of December 31, 2023 and assumes no further development. Includes the debt service due in 2025 on the Series 2024 Bonds, estimated CFD administrative expenses in the amount of $89,244, and approximately $78,279 to directly fund facilities.
(3) Represents an allocation of the bulk market values reported in the Appraisal Report. The allocated values are not indicative of the market values of the groupings or the individual lots.
(4) Equal to the principal amount of the Series 2024 Bonds. Does not include overlapping debt secured by ad valorem taxes on the property. Allocated based on the proportionate share of the Projected Fiscal Year 2024-25 Special Tax Levy.
(5) Under the Rate and Method, parcels of Taxable Property are classified as Developed Property if a building permit has been obtained for such parcel by May 1 of the fiscal year preceding the Special Tax levy. Accordingly, because all 235 parcels of Taxable Property have obtained building permits prior to May 1, 2024, all such lots will be classified as Developed Property for the Fiscal Year 2024-25 Special Tax levy.

Delinquency History

The District commenced the levy of Special Taxes within the District in Fiscal Year 2023-24. The amount levied for Fiscal Year 2023-24 was $282,165.00 on 73 parcels of Taxable Property. The total delinquency amount for Fiscal Year 2023-24 was $5,816.50 accounting for approximately two percent (2%) of the total Special Tax levy for Fiscal Year 2023-24.

PROPERTY OWNERSHIP AND THE DEVELOPMENT

The information provided in this section has been included because it may be considered relevant to an informed evaluation and analysis of the Series 2024 Bonds and the District. No assurance can be given, however, that the proposed development of the property within the District will occur in a timely manner or in the configuration or to the density described herein, or that Lennar Homes, any owners or affiliates thereof, or any other property owner will or will not retain ownership of its respective property within the District. There may be material adverse changes to this information after the date of the Official Statement. Neither the Series 2024 Bonds nor any of the Special Tax are personal obligations of any property owner within the District and, in the event that any property owner defaults in the payment of its Special Tax, the District may proceed with judicial foreclosure on the delinquent property but has no direct recourse to the assets of any property owner or any affiliate thereof. The Series 2024 Bonds are secured solely by the Net Special Tax Revenues and amounts on deposit in certain of the funds and accounts maintained by the Trustee under the Indenture. See "SPECIAL RISK FACTORS" for a discussion of certain of the risk factors that should be considered in evaluating the investment quality of the Series 2024 Bonds. The following information regarding ownership and planned development of the District has been provided by Lennar Homes. No representation is made by the District or the Underwriter as to the accuracy or adequacy of such information so provided.

The Developer

Lennar Homes of California, LLC, a California limited liability company (previously defined as "Lennar Homes") is based in Irvine, California, and has been in the business of developing residential real estate communities in California since 1996. Lennar Homes is wholly-owned by U.S. Home, LLC, a Delaware limited liability company ("U.S. Home"). U.S. Home is wholly-owned by Lennar Corporation, which is based in Miami, Florida ("Lennar Corporation"). Founded in 1954, Lennar Corporation completed its initial public offering in 1971 and listed its common stock on the New York Stock Exchange in 1972. Lennar Corporation's Class A and Class B common stock are listed on the New York Stock Exchange under the symbols "LEN" and "LEN.B." respectively. Lennar Corporation is one of the largest homebuilders in the United States based on home sales revenues and net earnings, and operates under a number of brand names, including Lennar Homes and U.S. Home. Lennar Corporation primarily develops residential communities both within the Lennar Corporation family of builders and through consolidated and unconsolidated partnerships in which Lennar Corporation maintains an interest.

Lennar Corporation is subject to the informational requirements of the Securities Exchange Act of 1934, as amended, and, in accordance therewith, files reports, proxy statements, and other information, including financial statements, with the Securities and Exchange Commission (the "SEC"). Such filings, particularly Lennar Corporation's annual report on Form 10-K and its most recent quarterly report on Form 10 Q, may be inspected and copied at the public reference facilities maintained by the SEC at 450 Fifth Street, N.W., Washington, D.C. 20549 at prescribed rates. Such filings can also be accessed over the internet at the SEC's website at www.sec.gov. *This internet address is included for reference only and the information on the internet site is not a part of this Official Statement and is not incorporated by reference into this Official Statement. No representation is made in this Official Statement as to the accuracy or adequacy of the information contained on the internet site.*

Copies of Lennar Corporation's annual report and related financial statements are available from Lennar Corporation's website at www.lennar.com. This internet address is included for reference only and the information on the internet site is not a part of this Official Statement and is not incorporated by reference into this Official Statement.

Lennar Homes' Development Plan

General Description of the District. The District includes approximately 35.550 gross acres and approximately 33.116 net acres and is located in the southern portion of the City. Lennar Homes is developing the property within the District into two neighborhoods, "Shady Tree," and "Whispering Wind," within a master

planned community known as "Country Lane." Country Lane is part of a multiple phase, multiple master-planned community development known as "Ontario Ranch." Ultimately, Ontario Ranch is planned to contain over 8,200 acres developed as single family residences, multi-family residences, and commercial, industrial and business park property.

Tract Map Status. On December 16, 2021, Final Map Nos. 17449 (Shady Tree) and 17450 (Whispering Wind) for the District were recorded in the recorder's office of San Bernardino County, creating the 235 residential lots that comprise the District.

Current Activity. As of April 1, 2024, the date of value of the Appraisal (defined herein), the District included 137 completed residential units which had closed escrow to individual homeowners, and the Developer owned 6 completed model units (none of which were in escrow), 12 residential units that were over 95% complete (all of which were in escrow), 44 residential units that were in various stages of construction but less than 95% complete (26 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). As of May 6, 2024, a total of 148 residential units had been conveyed to individual homeowners, and the Developer owned 10 completed production units (all of which were in escrow), 6 model units (none of which were in escrow), 35 residential units that were in various stages of construction (24 of which were in escrow), and 36 finished lots without any home construction thereon (none of which were in escrow). Homes under contract may not result in closed escrows as sales contracts are subject to cancellation.

Shady Tree. The Shady Tree neighborhood includes 97 proposed single-family dwellings. As of May 6, 2024, Lennar Homes has pulled all 97 building permits in the Shady Tree neighborhood.

The following table sets forth the estimated number of lots, home sizes, and base sales prices for the Shady Tree product line as of May 6, 2024. Sales of homes within the Shady Tree neighborhood began in October 2022 and Lennar Homes expects that construction will be complete within the Shady Tree neighborhood in November 2024.

TABLE 6
CITY OF ONTARIO
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
STATUS OF OWNERSHIP – SHADY TREE
(AS OF MAY 6, 2024)

Floor Plan	Approximate. Square Footage	Total Number of Planned Units[1]	Units Closed to Homeowners	Units Completed But Not Closed to Homeowners[2]	Units Under Construction[3]	Finished Lots[4]	Estimated Base Price[5]
1	2,213	48	34	6	6	2	$733,000
2	2,315	22	15	2	3	2	799,000
3	2,409	27	19	4	3	1	809,000
Totals		**97**	**68**	**12**	**12**	**5**	

[1] The number of units in each plan is an estimate and is subject to change as the market dictates.
[2] Includes 3 model units (completed) owned by Lennar Homes.
[3] Of the 29 Shady Tree residential units owned by Lennar Homes as of May 6, 2024, 21 were under contract to be sold to homeowners.
[4] Finished lot means that such lot has finish grade certification and is able to start home construction.
[5] Base sale prices are estimated as of May 6, 2024. Base sales prices are subject to change and exclude any lot premiums, options, upgrades, incentives and any selling concessions or price reductions which may be offered.

Source: The Developer.

No assurance can be given that home construction and sales will be carried out on the schedule and according to the plans described herein, or that the home construction and sale plans or base prices set forth above will not change after the date of this Official Statement. Additionally, homes under contract to be sold may not result in closed escrows as sales contracts are subject to cancellation. See "SPECIAL RISK FACTORS — Failure to Develop Properties." Moreover, rising interest rates may affect prospective buyers' willingness

or ability to close escrow or enter into future sales contracts. See "SPECIAL RISK FACTORS — Increasing Mortgage Interest Rates."

Whispering Wind. The Whispering Wind neighborhood includes 138 proposed single family dwellings. As of April 1, 2024, Lennar Homes has pulled all 138 building permits in the Whispering Wind neighborhood..

The following table sets forth the estimated number of lots, home sizes, and base sales prices for the Whispering Wind product line as of May 6, 2024. Sales of homes within the Whispering Wind neighborhood began in October 2022 and Lennar Homes expects that construction will be complete within the Whispering Wind neighborhood in April 2025.

COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
STATUS OF OWNERSHIP – WHISPERING WIND
(AS OF MAY 6, 2024)

Floor Plan	Approximate. Square Footage	Total Number of Planned Units[1]	Units Closed to Homeowners	Units Completed But Not Closed to Homeowners[2]	Units Under Construction[3]	Finished Lots[4]	Estimated Base Price[5]
1	1,618	33	19	1	5	8	$644,250
2	1,800	38	21	1	6	10	689,000
3	2,067	34	20	1	6	7	703,000
4	2,202	33	20	1	6	6	732,000
Totals		**138**	**80**	**4**	**23**	**31**	

(1) The number of units in each plan is an estimate and is subject to change as the market dictates.
(2) Includes 3 model units (completed) owned by Lennar Homes, one in each Floor Plan 2, 3 and 4.
(3) Of the 58 Whispering Wind residential units and lots owned by Lennar Homes as of May 6, 2024, 13 homes were under contract to be sold to homeowners.
(4) Finished lot means that such lot has finish grade certification and is able to start home construction.
(5) Base sale prices are estimated as of May 6, 2024. Base sales prices are subject to change and exclude any lot premiums, options, upgrades, incentives and any selling concessions or price reductions which may be offered.

Source: The Developer.

No assurance can be given that home construction and sales will be carried out on the schedule and according to the plans described herein, or that the home construction and sale plans or base prices set forth above will not change after the date of this Official Statement. Additionally, homes under contract to be sold may not result in closed escrows as sales contracts are subject to cancellation. See "SPECIAL RISK FACTORS — Failure to Develop Properties."

Entitlements and Infrastructure. Lennar Homes has obtained all approvals and permits required for development of property within the District except for the remaining approvals required in the normal course of home construction. As of May 6, 2024, all approvals and all construction on backbone infrastructure was complete. Final approval and take over by agencies is pending.

Lennar Homes has completed the major infrastructure (sewer, water, storm drains, utilities, and arterial roads) necessary to develop the property within the District. The substantial majority of the in-tract infrastructure within the District, which primarily consists of streets for individual lot access and associated gutters and landscape improvements, is complete. Other than in-tract infrastructure, no other significant site work infrastructure remains to be constructed in order to complete the development in the District. Lennar Homes expects to complete construction of the in-tract improvements associated with the remaining lots that it owns within the District as home construction on such lots is completed.

Lennar Homes' Financing Plan

To date, Lennar Homes has financed its land acquisition and various site development and home construction costs related to its property in the District through internally generated funds and homes sales revenues. As of May 6, 2024, Lennar Homes had expended approximately $_____ on land acquisition, land development, homebuilding, marketing and sales costs. As of May 6, 2024, Lennar Homes expected to incur approximately $_____ on remaining homebuilding, marketing, and sales costs for its property in the District.

Lennar Homes expects to use home sales revenues and internal funding to complete its development in the District. Lennar Homes believes that it will have sufficient funds available to complete its planned development in the District in accordance with the development schedule described in this Official Statement.

Notwithstanding the belief of Lennar Homes that it will have sufficient funds to complete its planned development in the District, no assurance can be given that sources of financing available to Lennar Homes will be sufficient to complete the property development and home construction as currently anticipated. While Lennar Homes has made such internal financing available in the past, there can be no assurance whatsoever of its willingness or ability to do so in the future. Neither Lennar Homes nor any of its affiliates has any legal obligation of any kind to make any such funds available or to obtain loans. Other than pointing out the willingness of Lennar Homes to provide internal financing in the past, Lennar Homes has not represented in any way that it will do so in the future. If and to the extent that internal financing and home sales revenues are inadequate to pay the costs to complete Lennar Homes' planned development in the District and other financing by Lennar Homes is not put into place, there could be a shortfall in the funds required to complete the proposed development by Lennar Homes and portions of the project may not be developed.

SPECIAL RISK FACTORS

The principal source of payment of debt service on the Series 2024 Bonds will be payments of the Special Tax made with respect to the Taxable Property. As discussed under "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Special Tax," the Special Tax is to be levied annually against all such Taxable Property either at the maximum rate authorized by the Rate and Method or at such lower rates as are determined by the District Administrator to raise sufficient funds to comply with the agreements, conditions, covenants and terms contained in the Indenture, and in accordance with the Act. The Special Tax is to be collected on the tax roll of the District at the same time and in the same manner as general *ad valorem* real property taxes are collected. The Special Tax cannot be levied at a tax rate higher than the maximum tax rate even if the maximum tax rate will not produce sufficient Net Special Tax Revenues to pay the principal and interest then payable with respect to the Series 2024 Bonds. See discussions below under "— Levy of the Special Tax" and "— Collection of the Special Tax."

Payment of the Special Tax levied on a parcel is secured by a continuing lien against such parcel. In the event an installment of the Special Tax included in the tax bill for a parcel of Taxable Property is not paid when due, the District has covenanted to institute foreclosure proceedings in court to cause the parcel to be sold in order to attempt to recover the delinquent amount from the sale proceeds. Foreclosure and sale may not always result in the recovery of the full amount of delinquent installments of the Special Tax. See "— Collection of the Special Tax." The sufficiency of the foreclosure sale proceeds to cover the delinquent amount depends in part upon the market for and the value of the parcel at the time of the sale. Sufficiency of the foreclosure sale proceeds to cover a delinquency may also depend upon the value of prior or parity liens and similar claims. Further, other governmental claims, such as hazardous substance claims, may affect the realizable value even though such claims may not rise to the status of liens. See "— Hazardous Substances."

Timely foreclosure and sale proceedings with respect to a parcel of Taxable Property may be forestalled or delayed by a stay in the event the owner of the parcel becomes the subject of bankruptcy proceedings. Not only may foreclosure and sale proceedings be forestalled or delayed, but the sale of a parcel may also be similarly

affected by a bankruptcy stay. Further, should the stay not be lifted, payment of the Special Tax may be subordinated to bankruptcy law priorities. See "— Bankruptcy and Legal Delays."

Although bankruptcy proceedings may forestall or delay a foreclosure and sale or a tax sale of a delinquent parcel of Taxable Property, the Special Tax is secured by a lien which, assuming proper procedures are followed, may be enforced against the parcel. There may not be any recourse against a bankrupt property owner since the owner is not personally obligated to pay the Special Tax. Further, if proper disclosure of the authorization of the Special Tax is not made to the owner, the willingness or ability of an owner to pay the Special Tax may be adversely affected. See "— Payment of the Special Tax is Not a Personal Obligation of the Owners."

The District is not obligated to advance funds to pay such debt service except from moneys on deposit in the Reserve Fund. See "— Bonds Are Limited Obligations."

Even if debt service is timely paid, interest on the Series 2024 Bonds may have to be included in the gross income of the owner of the Series 2024 Bonds by reason of some circumstance occurring subsequent to issuance of the Series 2024 Bonds, thereby reducing the after-tax yield. See "— Loss of Tax Exemption."

Risks of Real Estate Secured Investments Generally – Declines in Value

Purchasers of the Series 2024 Bonds will be subject to the risks generally incident to an investment secured by real estate, including, without limitation, (i) adverse changes in local market conditions, such as changes in the market value of real property in the vicinity of the District, the supply of or demand for competitive properties in such area, and the market value of property in the event of sale or foreclosure; (ii) changes in real estate tax rates and other operating expenses, governmental rules and fiscal policies; and (iii) natural disasters (including, without limitation, earthquakes, wildfires and floods), which may result in uninsured losses. See the caption "— Increasing Mortgage Interest Rates" below.

No assurance can be given that the individual property owners within the District will pay the Special Tax in the future or that they will be able to pay the Special Tax on a timely basis. See the caption " Bankruptcy and Legal Delays" for a discussion of certain limitations on the District's ability to pursue judicial proceedings with respect to delinquent parcels within the District.

Levy of the Special Tax

The principal source of money with which to pay debt service on the Series 2024 Bonds is the proceeds derived from the annual levy and collection of the Special Tax applicable to the Taxable Property in the District. The amount of the Special Tax that can be levied is limited to the maximum tax rates authorized pursuant to the Rate and Method. Additionally, pursuant to Section 53321(d) of the Act, the Special Tax levied against any Assessor's parcel for which an occupancy permit for private residential use has been issued shall not be increased as a consequence of delinquency or default by the owner of any other Assessor's parcel within the District by more than ten percent above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. As a result, it is possible that the District may not be able to increase the tax levy to the Assigned Special Tax on residential parcels in all years. The levies cannot be made at higher rates even if the failure to do so would result in insufficient Net Special Tax Revenues to pay the principal of and interest on the Series 2024 Bonds as the same become due and payable.

The levy of the Special Tax will rarely, if ever, result in a uniform relationship between the value of a particular parcel and the amount of the levy of the Special Tax against such parcel. Thus, there will rarely, if ever, be a uniform relationship between the value of a parcel and its proportionate share of the debt service on the Series 2024 Bonds. The Special Tax levied in any particular Fiscal Year on a parcel is based upon the revenue needs of the District and the application of the Rate and Method. The application of the Rate and Method will, in turn, be dependent upon certain development factors with respect to each parcel by comparison with similar development factors with respect to the other parcels in the District. Thus, in addition to annual variations in the revenue needs

of the District that must be met from the Special Tax, the following are some of the factors which might cause the levy of the Special Tax on any particular parcel to vary from the Special Tax that might otherwise be expected:

Reduction in the number of parcels of Taxable Property, for reasons such as acquisition of such parcels by a governmental entity and failure of the governmental entity to pay the Special Tax based upon a claim of exemption or, in the case of the federal government or an agency thereof, immunity from taxation, thereby resulting in an increased tax burden on the remaining parcels of Taxable Property; and

Failure of the owners of certain parcels of Taxable Property to pay the applicable Special Tax and delays in the collection of or inability to collect such Special Tax by tax sale or foreclosure and sale of the delinquent parcels, thereby resulting in an increased tax burden on the remaining parcels of Taxable Property.

Collection of the Special Tax

The timely payment of the principal of and interest on the Series 2024 Bonds is ultimately dependent upon the timely payment of the Special Tax. Any money on deposit in the Reserve Fund can be used to make such payment in the event of delinquencies, but the replenishment of the Reserve Fund will be dependent on the recovery of such delinquencies. The Indenture provides that the Special Tax is to be collected in the same manner and at the same time and in the same installment as the general taxes on real property are payable (or in such other manner as the City Council shall determine, including direct billing of the affected property owners) and, except as provided in the special covenant for foreclosure described under the caption "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Covenant for Superior Court Foreclosure" and in the Act, is to be subject to the same proportionate penalties and the same procedure, sale and lien priority in case of delinquency as is provided for *ad valorem* taxes on real property.

Pursuant to the Act, in the event of any delinquency in the payment of the Special Tax, the District may order the institution of a superior court action to foreclose the lien therefor within specified time limits. In such an action, the real property subject to the unpaid amount may be sold at judicial foreclosure sale. Such judicial foreclosure action is not mandatory. However, the District has covenanted for the benefit of the owners of the Series 2024 Bonds that it will institute foreclosure proceedings as authorized by the Act in order to enforce the lien of the delinquent installments of the Special Tax under certain circumstances. See "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Covenant for Superior Court Foreclosure." In the event that foreclosure proceedings are commenced, such foreclosure proceedings could be stayed by the commencement of bankruptcy proceedings by or against the owner of the property being foreclosed. In the event that sales or foreclosures of property are necessary, there could be a delay in payments to Owners of the Series 2024 Bonds pending such sales or the prosecution of foreclosure proceedings and receipt by the District of the proceeds of sale if the Reserve Fund is depleted.

The District may be unable to make full or timely payment of debt service on the Series 2024 Bonds if property owners in the District fail to pay installments of the Special Tax when due, if the Reserve Fund is depleted, or if the District is unable to sell foreclosed parcels for amounts sufficient to cover the delinquent installments of the Special Tax.

Failure to Develop Properties

Development of property within the District may be subject to unexpected delays, disruptions and changes which may affect the willingness and ability of the Developer or any other property owner to pay the Special Tax prior to delinquency. Land development is subject to comprehensive federal, State and local regulations. Approval is required from various agencies in connection with the layout and design of developments, the nature and extent of improvements, construction activity, land use, zoning, school and health requirements, as well as numerous other matters. There is always the possibility that such approvals will not be obtained or, if obtained, will not be obtained on a timely basis. Failure to obtain any such agency approval or satisfy such governmental

requirements would adversely affect planned land development. Development of land in the District is also subject to the availability of water. Finally, development of land is subject to economic considerations.

As of April 1, 2024, the District included 137 completed residential units which had closed escrow to individual homeowners and the Developer owned 6 completed model homes (none of which were in escrow) 12 residential units that were over 95% complete (12 which were in escrow), 44 residential units in various stages of construction but less than 95% complete (26 of which were in escrow) and 36 finished lots without any home construction thereon (none of which were in escrow). See "PROPERTY OWNERSHIP AND THE DEVELOPMENT." A detailed description of the status of the construction as of the date of value of the Appraisal is included in APPENDIX B — "APPRAISAL REPORT."

As of April 1, 2024, all of the property within the District had been rough-graded and all sewer, water, storm drains, streets, curbs and gutters were complete to serve all 235 homes planned within the District. See "THE COMMUNITY FACILITIES DISTRICT" and "PROPERTY OWNERSHIP AND THE DEVELOPMENT." However, no assurance can be given that the remaining planned residential development will be partially or fully completed; and for purposes of evaluating the investment quality of the Series 2024 Bonds, prospective purchasers should consider the possibility that such parcels will remain vacant and unimproved.

Undeveloped or partially developed land is inherently less valuable than developed land and provides less security to the Series 2024 Bond Owners should it be necessary for the District to foreclose on the property due to the nonpayment of the Special Tax. The failure to complete development in the District as planned, or substantial delays in the completion of the development may reduce the value of the property within the District and increase the length of time during which the Special Tax will be payable from undeveloped property, and may affect the willingness and ability of the owners of property within the District to pay the Special Tax prior to delinquency.

There can be no assurance that land development operations within the District will not be adversely affected by a future deterioration of the real estate market and economic conditions or future local, State and federal governmental policies relating to real estate development, an increase in mortgage interest rates, the income tax treatment of real property ownership, or the national economy. A slowdown of the development process and the absorption rate could adversely affect land values and reduce the ability or desire of the property owners to pay the annual Special Tax. In that event, there could be a default in the payment of principal of, and interest on, the Series 2024 Bonds when due.

Series 2024 Bond Owners should assume that any event that significantly impacts the ability to develop land in the District would cause the property values within the District to decrease substantially from those estimated by the Appraiser and could affect the willingness and ability of the owners of land within the District to pay the Special Tax prior to delinquency.

The payment of principal of and interest on the Series 2024 Bonds is dependent upon the receipt of the Special Tax levied on Developed Property, which includes lots in a finished lot condition. Lots in a finished lot condition also provide less security to the Series 2024 Bond Owners should it be necessary for the District to foreclose on such lot due to the nonpayment of the Special Tax. Furthermore, an inability to develop the land within the District as currently planned will make the Series 2024 Bond Owners dependent upon timely payment of the Special Tax levied on Developed Property, which includes lots in a finished lot condition. A slowdown or stoppage in the continued development of the District could reduce the willingness and ability of the Developer to make Special Tax payments on lots in a finished lot condition and could greatly reduce the value of such property in the event it has to be foreclosed upon.

Concentration of Property Ownership

Based on the ownership status as of April 1, 2024, the Developer is projected to be responsible for approximately 41.34% of the total projected Fiscal Year 2024-25 Special Tax to be levied within the District.

Based on the ownership status as of June 1, 2024, the Special Tax Consultant estimates that the Developer is projected to be responsible for approximately 41.34% of the total projected Fiscal Year 2024-25 Special Tax levy. While the District includes completed homes owned by individual homeowners as of April 1, 2024, the inability or refusal of the Developer to pay the Special Tax applicable to its property when due could result in the depletion of the Reserve Fund prior to replenishment thereof from sale or foreclosure proceedings, and/or insufficient money with which to pay the principal of and interest on the Series 2024 Bonds as the same became due. Additionally, pursuant to the Act, the Special Tax levied in any fiscal year against any parcel of residential property in the District may not be increased as a consequence of delinquency or default by the owners of any other parcels within the District by more than 10% above the amount that would have been levied in that fiscal year had there never been any such delinquencies or default. As a result, while the Maximum Special Tax pursuant to the Rate and Method may be higher, the Maximum Special Tax on parcels of residential parcels cannot be greater than 110% of the projected actual Special Tax levy on such parcels.

Exempt Properties

Certain properties are exempt from the Special Tax in accordance with the Rate and Method. In addition, the Act provides that properties or entities of the State, federal or local government are exempt from the Special Tax; provided, however, that property in the District acquired by a public entity through a negotiated transaction or by gift or devise, which is not otherwise exempt from the Special Tax, will continue to be subject to the Special Tax. In addition, the Act provides that if property subject to the Special Tax is acquired by a public entity through eminent domain proceedings, the obligation to pay the Special Tax with respect to that property is to be treated as if it were a special assessment. The constitutionality and operation of these provisions of the Act have not been tested.

In particular, insofar as the Act requires payment of the Special Tax by a federal entity acquiring property in the District, it may be unconstitutional. If for any reason property in the District becomes exempt from taxation by reason of ownership by a nontaxable entity such as the federal government or another public agency, subject to the limitation of the maximum authorized rates, the Special Tax will be reallocated to the remaining Taxable Properties in the District. This would result in the owners of such property paying a greater amount of the Special Tax and could have an adverse impact upon the timely payment of the Special Tax. Moreover, if a substantial portion of property in the District becomes exempt from the Special Tax because of public ownership, or otherwise, the Maximum Annual Special Tax which could be levied upon the remaining acreage might not be sufficient to pay principal of and interest on the Series 2024 Bonds when due and a default would occur with respect to the payment of such principal and interest.

Constitutional Limitations on Taxation and Appropriations

Articles XIIIA and XIIIB of the California Constitution. On June 6, 1978, California voters approved an amendment to the California Constitution, commonly known as Proposition 13 (the Jarvis/Gann Initiative), which added Article XIIIA to the California Constitution. The effect of Article XIIIA is to significantly limit the imposition of new *ad valorem* taxes, special taxes, transaction taxes, and sales taxes. On November 7, 1978, California voters approved Proposition 8, which made certain clarifications to Article XIIIA.

Article XIIIA of the California Constitution limits the amount of *ad valorem* taxes on real property to 1% of "full cash value" as determined by the county assessor. Article XIIIA defines "full cash value" to mean "the county assessor's valuation of real property as shown on the 1975-76 tax bill under 'full cash value' or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment." The "full cash value" is subject to annual adjustment to reflect increases, not to exceed 2% per year, or decreases in the consumer price index or comparable local data, or to reflect reductions in property value caused by damage, destruction or other factors.

Article XIIIA exempts from the 1% tax limitation any taxes to repay indebtedness approved by the voters prior to July 1, 1978, and allows local governments to raise their property tax rates above the constitutionally

mandated 1% ceiling for the purpose of paying off certain new general obligation debt issued for the acquisition or improvement of real property and approved by two-thirds of the votes cast by the qualified electorate. Article XIIIA requires a vote of two-thirds of the qualified electorate to impose special taxes on real property, while otherwise generally precluding the imposition of any additional *ad valorem* taxes, special taxes, transaction taxes, and sales taxes. In addition, Article XIIIA requires the approval of two-thirds of all members of the California Legislature to change any State laws resulting in increased tax revenues.

Enactment of Article XIIIA has reduced the amount of general property tax revenues received by the City. This reduction in such revenues makes it less likely that the City or the District will have surplus funds, other than the Reserve Fund for the Series 2024 Bonds, with which to advance funds to make any payments or to cure any deficiency in the Interest Account or Principal Account of the Special Tax Fund, should the City or the District, as applicable, in the exercise of its discretion, choose to do so. If there are additional delinquencies after exhaustion of funds in the Reserve Fund for the Series 2024 Bonds, none of the City or the District has any obligation to transfer into the Interest Account or Principal Account of the Special Tax Fund the amount of any such delinquencies out of any surplus moneys of the City.

On July 2, 1979, the Fifth District Court of Appeal rendered a 3-0 decision in the case of *County of Fresno v. Malmstrom* (94 Cal.App.3d 974), that determined that special assessments are not subject to the limitations of Article XIIIA (Proposition 13). The Court held the one percent tax limitation imposed by California Constitution Article XIIIA on *ad valorem* taxes does not apply to special assessments levied pursuant to the Improvement Act of 1911 (Streets and Highways Code, Section 5000 et seq., the relevant portions of which are incorporated in the 1915 Act) and the 1913 Act. The Court further held that because special assessments pursuant to such acts are not within the definition of "special taxes" in Article XIIIA, the Constitution does not require the levy of assessments and the issuance of bonds to be approved by a two-thirds vote of the qualified electors in an assessment district. On September 12, 1979, the California Supreme Court refused to hear an appeal of the lower court's decision.

At the November 6, 1979, general election, Proposition 4 (the Gann Initiative) was approved by the voters of California. Such proposition added Article XIIIB to the California Constitution.

Article XIIIB of the California Constitution limits the annual appropriations of the State and of any city, county, school district, authority, or other political subdivision of the State to the level of appropriations of the particular governmental entity for the prior fiscal year, as adjusted for changes in the cost of living, population and services rendered by the governmental entity. The "base year" for establishing such appropriation limit is the Fiscal Year 1978-79 and the limit is to be adjusted annually to reflect changes in population, consumer prices and certain increases in the cost of services provided by these public agencies.

Appropriations subject to Article XIIIB generally include the proceeds of taxes levied by the State or other entity of local government, exclusive of certain State subventions, refunds of taxes, benefit payments from retirement, unemployment insurance, and disability insurance funds. "Proceeds of taxes" include, but are not limited to, all tax revenues and the proceeds to an entity of government from (i) regulatory licenses, user charges, and user fees (but only to the extent such proceeds exceed the cost of providing the service or regulation), and (ii) the investment of tax revenues. Article XIIIB includes a requirement that if an entity's revenues in any year exceed the amounts permitted to be spent, the excess would have to be allocated to fund schools or be returned by revising tax rates or fee schedules over the subsequent two years.

On December 17, 1980, the Third District Court of Appeal rendered a 3-0 decision in the case *County of Placer v. Corin* (113 Cal. App. 3d 443) that determined that special assessments are not subject to the limitation of Article XIIIB (Proposition 4). The Court held that the definition of "proceeds of taxes" imposed by California Constitution Article XIIIB does not apply to special assessments and improvement bonds issued pursuant to the 1915 Act and the 1913 Act. The decision of the Court was not appealed.

The enactment of Article XIIIA of the California Constitution (Proposition 13) and subsequent legislative enactments effectively repeal the otherwise mandatory duty on the part of the City, under the 1915 Act, to levy and collect a special tax (in an amount necessary to meet delinquencies, but not to exceed ten cents on each $100 of assessable property within the City in any one year) if other funds are not available to cover delinquencies.

In early 1990, the U.S. Supreme Court struck down as a violation of equal protection certain property tax assessment practices in West Virginia, which had resulted in vastly different assessments of similar properties. Since Article XIIIA provides that property may only be assessed up to 2%, per year, except upon change of ownership or new construction, recent purchasers may pay substantially higher property taxes than long-time owners of comparable property in a community. The Supreme Court in the West Virginia case expressly declined to comment in any way on the constitutionality of Article XIIIA.

Based on this decision, however, property owners in California brought three suits challenging the acquisition value assessment provisions of Article XIIIA. Two cases involve residential property and one case involves commercial property. In all three cases, State trial and appellate courts have upheld the constitutionality of Article XIIIA's assessment rules and concluded that the West Virginia case did not apply to California's laws. On June 3, 1991, the U.S. Supreme Court agreed to hear the appeal in the challenge relating to commercial property, but the plaintiff subsequently decided to drop the case.

On October 7, 1991, the U.S. Supreme Court granted the plaintiff's petition for a writ of certiorari and agreed to hear the *Nordlinger v. Lynch* case. On June 18, 1992, the U.S. Supreme Court affirmed the Nordlinger decision (112 U.S. 2326) of the California Court of Appeal, Second Appellate District, which previously held that Article XIIIA does not violate the U.S. Constitution.

The City cannot predict whether any other pending or future challenges to the State's present system of property tax assessment will be successful, when the ultimate resolution of any challenge will occur, or the ultimate effect any decision regarding the State's present system of property tax assessment will have on the City's revenues or on the State's financial obligations to local governments.

Articles XIIIC and XIIID of the California Constitution. Proposition 218, a state ballot initiative known as the "Right to Vote on Taxes Act," was approved by California voters on November 6, 1996. Proposition 218 added Articles XIIIC and XIIID to the State Constitution, and, with the exception of certain provisions, Articles XIIIC and XIIID became effective on November 6, 1996.

Among other things, Proposition 218 imposed certain voting requirements and other limitations on the imposition of new or increased taxes, assessments, and property-related fees and charges. Under Proposition 218 (i) all taxes imposed by local governments are deemed to be either general taxes, or special taxes, (ii) no local government may impose, extend, or increase any general tax unless and until such tax is submitted to the electorate and approved by a majority vote, and (iii) no local government may impose, extend, or increase any special tax unless and until such tax is submitted to the electorate and approved by a two-thirds vote. Special purpose districts, including community facilities districts and assessment districts, have no power to levy general taxes. The City believes that the issuance of the Series 2024 Bonds does not require the conduct of further proceedings under the Mello-Roos Act, or Proposition 218, as applicable, other than as described herein.

Proposition 218 provides that the initiative power shall "not be prohibited or otherwise limited in matters reducing or repealing any local tax, assessment, fee or charge..." Thus, Proposition 218 removes limitations on the initiative power in matters of, among other things, the Special Tax. Consequently, it is conceivable that the voters of the City or the District could, by future initiative, repeal, reduce, or prohibit the future imposition or increase of any Special Tax, subject to overriding federal constitutional principles relating to impairment of contracts.

On November 2, 2010, California voters approved Proposition 26, entitled the "Supermajority Vote to Pass New Taxes and Fees Act." Section 1 of Proposition 26 declares that Proposition 26 is intended to limit the

ability of the State Legislature and local government to circumvent existing restrictions on increasing taxes by defining the new or expanded taxes as "fees." Proposition 26 amended Articles XIIIA and XIIIC of the State Constitution. The amendments to Article XIIIA limit the ability of the State Legislature to impose higher taxes (as defined in Proposition 26) without a two-thirds vote of the Legislature. Article XIIIC requires that all new local taxes be submitted to the electorate before they become effective. Special Taxes for general governmental purposes require a majority vote and taxes for specific purposes require a two-thirds vote.

Although the applicable provisions of Article XIIIC have not been interpreted by the courts, the City believes that the initiative power cannot be used to reduce or repeal the unpaid Special Tax that are pledged as security for payment of the Series 2024 Bonds or to otherwise interfere with the mandatory, statutory duty of the City and the County Auditor with respect to the unpaid Special Tax that are pledged as security for payment of the Series 2024 Bonds.

The Appellate District, Division One, issued its opinion in 2014 in *City of San Diego v. Melvin Shapiro, et al.* (228 Cal. App. 4th 756) (the "San Diego Decision"). The case involved a Convention Center Facilities District (the "CCFD") established by the City of San Diego. The CCFD is a financing district much like a community facilities district established under the provisions of the Act. The CCFD is comprised of all of the real property in the entire City of San Diego. However, the special tax to be levied within the CCFD was to be levied only on hotel properties located within the CCFD.

The election authorizing the special tax was limited to owners of hotel properties and lessees of real property owned by a governmental entity on which a hotel is located. Thus, the election was not a registered voter election. Such approach to determining who would constitute the qualified electors of the CCFD was modeled after Section 53326(c) of the Act, which generally provides that, if a special tax will not be apportioned in any tax year on residential property, the legislative body may provide that the vote shall be by the landowners of the proposed district whose property would be subject to the special tax. The Court held that the CCFD special tax election was invalid under the California Constitution because Article XIIIA, Section 4 thereof and Article XIIIC, Section 2 thereof require that the electors in such an election be the registered voters within the district.

The facts of the San Diego Decision show that there were hundreds of thousands of registered voters within the CCFD (viz., all of the registered voters in the City of San Diego). There were no registered voters in the District at the time of formation. In the San Diego Decision, the Court expressly stated that it was not addressing the validity of landowner voting to impose special taxes pursuant to the Act in situations where there are fewer than 12 registered voters. Thus, by its terms, the Court's holding does not apply to the Special Tax elections in the District. Moreover, Section 53341 of the Act provides that any "action or proceeding to attack, review, set aside, void or annul the levy of a special tax…shall be commenced within 30 days after the special tax is approved by the voters." Similarly, Section 53359 of the Act provides that any action to determine the validity of bonds issued pursuant to the Act be brought within 30 days of the voters approving the issuance of such bonds. On May 19, 2020, Esperanza PA 4 Venture and Esperanza PA 10 Venture, the qualified voters within the District at the time of the election, approved the Special Tax and the issuance of bonds. Based on Sections 53341 and 53359 of the Act and analysis of existing laws, regulations, rulings and court decisions, the City believes the Special Tax is being levied in accordance with the Rate and Method.

The interpretation and application of Proposition 218 will ultimately be determined by the courts with respect to a number of the matters discussed above, and it is not possible at this time to predict with certainty the outcome of such determination.

Taxpayer Protection and Government Accountability Act Initiative

From time to time constitutional initiatives or other initiative measures may be adopted by California voters. The adoption of any such initiative might place limitations on the ability of the State or any political subdivision thereof, including the City, to increase revenues or to increase appropriations, or might affect the ability of the District to collect the Special Taxes.

One such proposed voter initiative, titled "The Taxpayer Protection and Government Accountability Act" ("Initiative 1935") has been determined to be eligible for the November 2024 Statewide general election and, unless withdrawn by its proponent prior to June 27, 2024, will be certified as qualified for the ballot in such election. Initiative 1935 would, among other things, amend the State Constitution to impose additional requirements for the imposition of taxes by State and local governments, such as requirements that the title and summary and ballot label or question for each tax measure identify the type, amount or rate, duration, and use of revenue of the tax (the "Initiative 1935 Ballot Label Requirements"). Additionally, Initiative 1935 would provide that any tax imposed after January 1, 2022, not in compliance with its requirements is void 12 months after the effective date of Initiative 1935 unless subsequently reenacted in accordance therewith. If adopted, the scope and impact of Initiative 1935 would be subject to future judicial interpretation. The District is unable to predict how Initiative 1935, if adopted, might be interpreted by the courts, and there can be no assurance that any such interpretation would not have an adverse impact on the District's ability to levy and collect the Special Taxes.

As described in this Official Statement, at the election held on October 17, 2017, the qualified electors within the District, consisting solely of the landowner that at the time owned all of the property within the boundaries of the District not exempt from the Special Taxes levied pursuant to the Original Rate and Method, voted to approve the measure to levy the Special Taxes pursuant to the Original Rate and Method. The Special Taxes levied pursuant to the Original Rate and Method were imposed prior to January 2, 2022 and, therefore, would not , if Initiative 1935 is adopted, be subject to the provisions thereof. At the election held on July 19, 2022, the qualified electors within the District, consisting solely of the landowner that at the time owned all of the property within the boundaries of the District not exempt from the Special Taxes levied pursuant to the Rate and Method (the "Landowner Elector"), voted to approve the measure to levy the Special Taxes pursuant to the Rate and Method, which increased certain of the rates of the Special Taxes above those in the Original Rate and Method. As the Special Taxes levied pursuant to the Rate and Method were imposed after January 1, 2022, such Special Taxes would, if Initiative 1935 is adopted, be subject to the provisions thereof.

In connection with the July 19, 2022 election to approve the measure to levy the Special Taxes pursuant to the Rate and Method, the Landowner Elector, as the sole qualified elector, waived all requirements as to the form of the ballot for such election, any requirement pertaining to the conduct of such election, including any requirements as to form or content of election materials and any and all defects in procedure in any proceedings to levy the Special Taxes pursuant to the Rate and Method or in the conduct of such election, whether known or unknown (other than, in the case of the election, the right to have ballots accurately counted). In its Affirmation of Waiver, dated March 1, 2024, the Landowner Elector acknowledged, confirmed and agreed that each such waiver the Landowner Elector was a knowing, intelligent and voluntary waiver and that such waivers by the Landowner Elector encompass, and constitute, a waiver of the Initiative 1935 Ballot Label Requirements and the Landowner Elector affirmed therein that it had waived the Initiative 1935 Ballot Label Requirements.

Maximum Special Tax

Within the limits of the Special Tax, the District may adjust the Special Tax levied on all property in the District to provide an amount required to pay interest on and principal of the Series 2024 Bonds, and the amount, if any, necessary to cure delinquencies and replenish the Reserve Fund to an amount equal to the Reserve Requirement for the respective Bonds and to pay Administrative Expenses. However, the amount of the Special Tax that may be levied against any property in the District is subject to the Maximum Special Tax applicable to it. There is no assurance that the Maximum Special Tax on the property in the District will be sufficient to pay the amounts required to be paid by the Indenture at all times. Additionally, pursuant to the Act, the Special Tax levied in any fiscal year against any parcel of residential property in the District may not be increased as a consequence of delinquency or default by the owners of any other parcels within the District by more than 10% above the amount that would have been levied in that fiscal year had there never been any such delinquencies or defaults. See "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Special Tax."

Payment of the Special Tax is Not a Personal Obligation of the Owners

An owner of a parcel of Taxable Property is not personally obligated to pay the Special Tax. Rather, the Special Tax is an obligation only against the parcel of Taxable Property. If the value of a parcel is not sufficient, taking into account other obligations also payable thereby, to fully secure the Special Tax, the District has no recourse against the owner.

Disclosures to Future Purchasers

The District has recorded a notice of the Special Tax lien in the Office of the County Recorder. While title companies normally refer to such notices in title reports, there can be no guarantee that such reference will be made or, if made, that a prospective purchaser or lender will consider such Special Tax obligation in the purchase of a parcel of land, a home or a commercial or industrial facility in the District or the lending of money thereon. The Act requires the subdivider (or its agent or representative) of a subdivision to notify a prospective purchaser or long-term lessor of any lot, parcel, or unit subject to a Mello–Roos special tax of the existence and maximum amount of such special tax using a statutorily prescribed form. California Civil Code Section 1102.6b requires that in the case of transfers other than those covered by the above requirement, the seller must at least make a good faith effort to notify the prospective purchaser of the special tax lien in a format prescribed by statute. Failure by an owner of the property to comply with the above requirements, or failure by a purchaser or lessor to consider or understand the nature and existence of the Special Tax, could adversely affect the willingness and ability of the purchaser or lessor to pay the Special Tax when due.

Parity Taxes and Special Assessments

The ability or willingness of a property owner in the District to pay the Special Tax could be affected by the existence of other taxes and assessments imposed upon the property. The Special Tax and any penalties thereon will constitute a lien against the lots and parcels of land on which they will be annually imposed until they are paid. Such lien is on a parity with all special tax and special assessments levied by other agencies and is co-equal to and independent of the lien for general property taxes, other special taxes, and certain special assessments regardless of when they are imposed upon the same property. The Special Tax has priority over all existing and future private liens imposed on the property. In addition, other public agencies whose boundaries overlap those of the District could, with or in some circumstances without the consent of the owners of the land in the District, impose additional taxes or assessment liens on the property in the District in order to finance public improvements to be located inside or outside of the District.

The District has no control over the ability of other entities and districts to issue indebtedness secured by special tax or assessments payable from all or a portion of the property in the District. In addition, the City is not prohibited itself from establishing assessment districts, community facilities districts or other districts which might impose assessments or taxes against property in the District. In the event any additional improvements are financed pursuant to the establishment of an assessment district, community facilities district or other district, any taxes or assessments levied to finance such improvements will have a lien on a parity with the lien of the Special Tax. The imposition of additional liens on a parity with the Special Tax could reduce the ability or willingness of the property owners to pay the Special Tax and increase the possibility that foreclosure proceeds will not be adequate to pay delinquent Special Tax or the principal of and interest on the Series 2024 Bonds when due.

Depletion of Reserve Fund

The Reserve Fund is to be maintained at an amount equal to the Reserve Requirement. Money in said fund may be used to pay debt service on the Series 2024 Bonds in the event the proceeds of the levy and collection of the Special Tax against property in the District are insufficient. If funds in the Reserve Fund are used to pay debt service on the Series 2024 Bonds, the funds can be replenished from the proceeds of the levy and collection of the Special Tax that are in excess of the amount required to pay all amounts to be paid pursuant to the Indenture. However, no replenishment from the proceeds of a levy of the Special Tax can occur as long as the proceeds that

are collected from the levy of the Special Tax at the maximum tax rates, together with other available funds, remain insufficient to pay all such amounts. Thus, it is possible that the Reserve Fund will be depleted by its use to pay such amounts and will not be replenished by the levy of the Special Tax. There is no assurance that the amount in the Reserve Fund will, at any particular time, be sufficient to pay all such amounts or that any amounts of the Reserve Requirement used for debt service on the Series 2024 Bonds will be fully replenished from the proceeds of the levy and collection of the Special Tax.

Bankruptcy and Legal Delays

The payment of the Special Tax and the ability of the District to foreclose the lien of a delinquent unpaid tax, as discussed in "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS," may be limited by bankruptcy, insolvency or other laws generally affecting creditors' rights or by the laws of the State of California relating to judicial foreclosure. In addition, the prosecution of a foreclosure action could be delayed due to crowded local court calendars or delays in the legal process. The various legal opinions to be delivered concurrently with the delivery of the Series 2024 Bonds (including Bond Counsel's approving legal opinion) will be qualified as to the enforceability of the various legal instruments by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights, by the application of equitable principles and by the exercise of judicial discretion in appropriate cases.

Although bankruptcy proceedings would not cause the obligation to pay the Special Tax to become extinguished, the bankruptcy of a property owner could result in a delay in prosecuting superior court foreclosure proceedings because federal bankruptcy laws may provide for an automatic stay of foreclosure and sale of tax sale proceedings. Any such delays could increase the likelihood of a delay or default in payment of the principal of and interest on the Series 2024 Bonds and the possibility of delinquent tax installments not being paid in full. Moreover, if the value of the subject property is less than the lien of the Special Tax, such excess could be treated as an unsecured claim by the bankruptcy court. Further, should remedies be exercised under the federal bankruptcy laws against Taxable Property, payment of the Special Tax may be subordinated to bankruptcy law priorities. Thus, certain claims may have priority over the Special Tax in a bankruptcy proceeding even though they would not outside of a bankruptcy proceeding.

FDIC/Federal Government Interests In Properties

The ability of the District to collect interest and penalties specified by the Act and to foreclose the lien of delinquent Special Tax may be limited in certain respects with regard to parcels in which the Federal Deposit Insurance Corporation (the "FDIC"), or other federal government entities such as Fannie Mae or Freddie Mac, has or obtains an interest.

In the case of the FDIC, in the event that any financial institution making a loan which is secured by parcels is taken over by the FDIC and the applicable Special Tax is not paid, the remedies available to the District may be constrained. The FDIC's policy statement regarding the payment of state and local real property taxes (the "Policy Statement") provides that taxes other than *ad valorem* taxes which are secured by a valid lien in effect before the FDIC acquired an interest in a property will be paid unless the FDIC determines that abandonment of its interests is appropriate. The Policy Statement provides that the FDIC generally will not pay installments of non-*ad valorem* taxes which are levied after the time the FDIC acquires its fee interest, nor will the FDIC recognize the validity of any lien to secure payment except in certain cases where the Resolution Trust Corporation had an interest in property on or prior to December 31, 1995. Moreover, the Policy Statement provides that, with respect to parcels on which the FDIC holds a mortgage lien, the FDIC will not permit its lien to be foreclosed out by a taxing authority without its specific consent, nor will the FDIC pay or recognize liens for any penalties, fines or similar claims imposed for the nonpayment of taxes.

The FDIC has taken a position similar to that expressed in the Policy Statement in legal proceedings brought against Orange County, California, in United States Bankruptcy Court and in Federal District Court. The Bankruptcy Court issued a ruling in favor of the FDIC on certain of such claims. Orange County appealed that

ruling, and the FDIC cross-appealed. On August 28, 2001, the Ninth Circuit Court of Appeals issued a ruling favorable to the FDIC except with respect to the payment of pre-receivership liens based upon delinquent property tax.

The District is unable to predict what effect the application of the Policy Statement would have in the event of a delinquency with respect to parcels in which the FDIC has or obtains an interest, although prohibiting the lien of the FDIC to be foreclosed out at a judicial foreclosure sale would prevent or delay the foreclosure sale.

In the case of Fannie Mae and Freddie Mac, in the event a parcel of Taxable Property is owned by a federal government entity or federal government sponsored entity, such as Fannie Mae or Freddie Mac, or in the event a private deed of trust secured by a parcel of Taxable Property is owned by a federal government entity or federal government sponsored entity, such as Fannie Mae or Freddie Mac, the ability to foreclose on the parcel or to collect delinquent Special Tax may be limited. Federal courts have held that, based on the supremacy clause of the United States Constitution, in the absence of Congressional intent to the contrary, a state or local agency cannot foreclose to collect delinquent taxes or assessments if foreclosure would impair the federal government interest. This means that, unless Congress has otherwise provided, if a federal government entity owns a parcel of Taxable Property but does not pay taxes and assessments levied on the parcel (including the Special Tax), the applicable state and local governments cannot foreclose on the parcel to collect the delinquent taxes and assessments.

Moreover, unless Congress has otherwise provided, if the federal government has a mortgage interest in the parcel and the District wishes to foreclose on the parcel as a result of delinquent Special Tax, the property cannot be sold at a foreclosure sale unless it can be sold for an amount sufficient to pay delinquent taxes and assessments on a parity with the Special Tax and preserve the federal government's mortgage interest.

The District's remedies may also be limited in the case of delinquent Special Tax with respect to parcels in which other federal agencies (such as the Internal Revenue Service and the Drug Enforcement Administration) have or obtain an interest.

Geologic, Topographic and Climatic Conditions

The District, like all California communities, may be subject to unpredictable seismic activity, fires, flood, or other natural disasters. Southern California is a seismically active area. Seismic activity represents a potential risk for damage to buildings, roads, bridges and property within the District. In addition, land susceptible to seismic activity may be subject to liquefaction during the occurrence of such event. The District is not located within an identified earthquake study zone.

No known active earthquake faults cross the District and the nearest active earthquake fault to the District is the Chino Fault, located approximately 6.6 miles southwest of the District. Other known regional active faults that could affect the site include the Whittier, Elsinore-Glen Ivy, San Jose, Cucamonga, Sierra Madre, San Jacinto-San Bernardino segment, Puente Hills and San Andreas faults.

The Federal Emergency Management Agency has determined that the District is located in a Zone "X" flood area (an area of minimal flooding, within the 500-year flood plain), and flood insurance will not be required. The area is protected by a levee.

In recent years, portions of Southern California have experienced wildfires that have burned thousands of acres and destroyed thousands of homes and structures, even in areas not previously thought to be prone to wildfires. While the District is not aware of any particular risk of wildfire within the District, there can be no assurances that wildfires won't occur within the District. Property damage due to wildfire could result in a significant decrease in the market value of property in District and in the ability or willingness of property owners to pay the Special Tax when due.

In the event of a severe earthquake, fire, flood or other natural disaster, there may be significant damage to both property and infrastructure in the District. As a result, a substantial portion of the property owners may be unable or unwilling to pay the Special Tax when due. In addition, the value of land in the District could be diminished in the aftermath of such a natural disaster, reducing the resulting proceeds of foreclosure sales in the event of delinquencies in the payment of the Special Tax.

Hazardous Substances

While governmental taxes, assessments, and charges are a common claim against the value of a parcel of Taxable Property, other less common claims may be relevant. One example is a claim with regard to a hazardous substance.

In general, the owners and operators of a parcel of Taxable Property may be required by law to remedy conditions of the parcel relating to releases or threatened releases of hazardous substances. The federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, sometimes referred to as "CERCLA" or the "Superfund Act," is the most well-known and widely applicable of these laws, but California laws with regard to hazardous substances are also stringent and similar. Under many of these laws, the owner (or operator) is obligated to remedy a hazardous substance condition of property whether or not the owner (or operator) has anything to do with creating or handling the hazardous substance. The effect, therefore, should any of the Taxable Property be affected by a hazardous substance is to reduce the marketability and value of the parcel by the costs of remedying the condition, because the purchaser, upon becoming owner, will become obligated to remedy the condition just as is the seller. Further, such liabilities may arise not simply from the existence of a hazardous substance but from the method of handling it. All of these possibilities could significantly affect the value of the property that is realizable upon a delinquency and foreclosure.

While the District is not aware that the owner (or operator) of any of Taxable Property has such a current liability with respect to any of the Taxable Property, it is possible that such liabilities do currently exist and that the District is not aware of them. The Developer has also represented to the District that it is not aware of any federally or State classified hazardous substances located on its property within the District.

Further, it is possible that liabilities may arise in the future with respect to any of the Taxable Property resulting from the existence, currently, on the parcel of a substance presently classified as hazardous but which has not been released or the release of which is not presently threatened, or may arise in the future resulting from the existence, currently, on the parcel of a substance not presently classified as hazardous but which may in the future be so classified. Further, such liabilities may arise not simply from the existence of a hazardous substance but from the method of handling it. All of these possibilities could significantly affect the value of a parcel of Taxable Property that is realizable upon a delinquency.

No Acceleration Provision

The Indenture does not contain a provision allowing for the acceleration of the Series 2024 Bonds in the event of a payment default or other default under the terms of the Series 2024 Bonds or the Indenture.

Bonds Are Limited Obligations

Neither the faith and credit nor the taxing power of the District (except to the limited extent set forth in the Indenture), the City, the State, or any political subdivision thereof, is pledged to the payment of the Series 2024 Bonds. The Series 2024 Bonds are limited obligations of the District; and, except as provided in the Indenture, they are payable solely from Net Special Tax Revenues and the other assets pledged therefor under the Indenture. Net Special Tax Revenues could be insufficient to pay debt service on the Series 2024 Bonds as a result of delinquencies in the payment of the Special Tax or the insufficiency of proceeds derived from the sale of land within the District following a delinquency in the payment of the applicable Special Tax. Neither the City nor the District has any obligation to pay debt service on the Series 2024 Bonds in the event of insufficient Net

Special Tax Revenues, except to the extent that money is available for such purpose in the Reserve Fund. The District's only obligation with respect to delinquent Special Tax is to pursue judicial foreclosure proceedings under the circumstances described in the Indenture. See "SECURITY AND SOURCES OF PAYMENT FOR THE SERIES 2024 BONDS — Covenant for Superior Court Foreclosure."

Loss of Tax Exemption

As discussed under "TAX MATTERS," interest on the Series 2024 Bonds could become includable in gross income for purposes of federal income taxation retroactive to the date of issuance, as a result of acts or omissions of the District subsequent to the issuance of the Series 2024 Bonds in violation of the District's covenants with respect to the Series 2024 Bonds. Should interest become includable in gross income, the Series 2024 Bonds are not subject to redemption by reason thereof and will remain outstanding until maturity or unless earlier redeemed pursuant to optional or mandatory redemption or redemption upon prepayment of the Special Tax.

Potential Early Redemption of Bonds from Special Tax Prepayments

Property owners within the District are permitted to prepay their Special Tax at any time. Such payments will result in a mandatory redemption of Series 2024 Bonds from Special Tax prepayments on the Interest Payment Date for which timely notice may be given under the Indenture following the receipt of such Special Tax prepayment. The resulting redemption of Series 2024 Bonds purchased at a price greater than par could reduce the otherwise expected yield on such Series 2024 Bonds. See "THE SERIES 2024 BONDS — Redemption — Mandatory Redemption from Special Tax Prepayments."

No Teeter Plan

Although the San Bernardino County Board of Supervisors has adopted the Alternative Method of Distribution of Tax Levies and Collections and of Tax Sale Proceeds (the "Teeter Plan") which allows each entity levying secured property taxes in the County to draw on the amount of property taxes levied rather than the amount actually collected, as provided for in Section 4701 et seq. of the California Revenue and Taxation Code, the District is not included in the Teeter Plan. Consequently, the District may not draw on the County Tax Loss Reserve Fund in the event of delinquencies in Special Tax payments.

Cybersecurity

Municipal agencies, like other business entities, face significant risks relating to the use and application of computer software and hardware. Recently, there have been significant cybersecurity incidents affecting municipal agencies, including a freeze affecting computer systems of the City of Atlanta, an attack on the City of Baltimore's 911 system, an attack on the Colorado Department of Transportation's computers and an attack that resulted in the temporary closure of the Port of Los Angeles' largest terminal.

The City employs a multi-layer cyber protection scheme that includes third party consultant assistance, next-generation firewalls, anti-virus software, anti-spam/malware software, intrusion detection/prevention, domain name system filtering services, duplicate systems in a disaster recovery site and multiple copies of all information that is backed up. The City implements recommended strategies suggested by security vendors and makes internal system changes as needed. To date, the City has not experienced a significant attack on its computer operating systems. However, there is no assurance that a future attack or attempted attack would not result in disruption of City operations. The City expects that any such disruptions would be temporary in nature.

Impact of Economic Conditions on the Development in the District

Certain events and factors which negatively affect the regional, State and national economies could have an adverse effect on the pace at which the merchant builders are able to complete and sell homes and demand by and the ability of individuals to purchase homes within the District. Such events and factors could include rising

inflation and interest rates, persistent supply chain issues, further impacts of the COVID-19 pandemic and global market instability caused by the war in Ukraine. Any adverse impact of the foregoing and other economic factors on the projects in the District and the real estate market in general cannot be predicted.

Increasing Mortgage Interest Rates

Thirty-year fixed mortgage interest rates have increased substantially within the past year and are expected to continue to increase in the near term. Increases in mortgage interest rates could have a negative impact on the estimated absorption rates of the planned for-sale residential units in the District described herein. With respect to entry-level households, increased mortgage interest rates may adversely impact the affordability of homes and may increase mortgage payment levels for owning a lower-priced home relative to renting a residence, thereby making purchasing less attractive. With respect to move-up households, higher mortgage interest rates may impact the desire of current homeowners to move from their present home due to the fact that their present home likely has a relatively low mortgage interest rate. In addition, the new home would likely have a higher interest rate on a new mortgage loan as well as higher purchase price and property taxes. Such considerations may decrease the desire for move-up households to purchase a new home.

CONTINUING DISCLOSURE

District Continuing Disclosure Agreement

Pursuant to the District Continuing Disclosure Agreement, the District has agreed to provide, or cause to be provided, to the Electronic Municipal Market Access System of the Municipal Securities Rulemaking Board, which can be found on the Internet at www.emma.msrb.org ("EMMA") on an annual basis, commencing April 1, 2025, certain financial information and operating data concerning the District. The District has further agreed to provide notice to EMMA of certain listed events. The District's covenants have been made in order to assist the Underwriter in complying with Rule 15c2-12 adopted by the Securities and Exchange Commission.

The District has not previously entered into any undertaking with respect to Rule 15c2-12. However, the City and its related governmental entities (the "City Entities") for whom City staff is responsible for undertaking compliance with continuing disclosure undertakings have previously entered into numerous disclosure undertakings under the Rule 15c2-12 in connection with the issuance of long-term obligations.

In order to ensure ongoing compliance with its continuing disclosure undertakings, the City has designated staff members within the Financial Services Agency with the responsibility of ensuring timely and complete filings. In addition, the City has retained an outside consultant to conduct periodic reviews of City compliance.

Within the last five years, the City and the City Entities have not failed to timely comply with their respective prior continuing disclosure obligations under Rule 15c2-12 in all material respects except that certain information with respect to outstanding indebtedness of the City was not included in the Fiscal Year 2021 annual report for the Ontario Public Financing Authority 2017 Lease Revenue Refunding Bonds, the City of Ontario 2020 Taxable Pension Obligations Bonds and the Ontario Public Financing Authority 2021 Lease Revenue Refunding Bonds, Series A (Federally Taxable); the City's Fiscal Years 2020-21 and 2022-23 audited financial statements were not available at the time of the filing of 2021 and 2023 respective annual reports. The 2021 audited financial statement has since been posted and such information is included in the notes to the City's Fiscal Year 2020-21 audited financial statements. However, the 2023 audited financial statements have not yet been finalized. The City anticipates filing 2023 audited financial statements upon completion and presentation to the City Council. The full text of the form of the District Continuing Disclosure Agreement is set forth in APPENDIX G.

Developer Continuing Disclosure Certificate

Although the Underwriter has concluded that Lennar Homes is not an obligated person under Rule 15c2-12, pursuant to the Developer Continuing Disclosure Certificate, Lennar Homes has agreed to provide, or cause

to be provided, to EMMA, on a semi-annual basis certain information concerning Lennar Homes and its property ownership and development within the District. Lennar Homes has further agreed to provide notice to EMMA of certain listed events. Lennar Homes' obligation to provide semi-annual reports and notices of certain listed events will terminate upon the earlier to occur of certain events, including at such time as Lennar Homes owns no more than __ of the residential lots in the District subject to the Special Tax levy. A default under the Developer Continuing Disclosure Certificate will not, in itself, constitute an Event of Default under the Indenture, and the sole remedy under the Developer Continuing Disclosure Certificate in the event of any failure of Lennar Homes or the dissemination agent, as applicable, to comply with the Developer Continuing Disclosure Certificate will be an action to compel performance. See APPENDIX H — "FORM OF DEVELOPER CONTINUING DISCLOSURE CERTIFICATE" for a description of the specific nature of the semi-annual reports to be filed by Lennar Homes and notices of listed events to be provided by Lennar Homes.

Neither the District nor the City has considered, or reached any conclusion as to, whether or not Lennar Homes is an obligated person under Rule 15c2-12 and takes no responsibility for any such conclusion. Additionally, neither the District nor the City has participated in the preparation, negotiation or implementation of the Developer Continuing Disclosure Certificate or in discussions regarding the form or content thereof. The District and the City take no responsibility for such form or content or for the adequacy of the Developer Continuing Disclosure Certificate for its intended purpose.

None of the District, the City or the Trustee is a party to the Developer Continuing Disclosure Certificate, and none of the District, the City or the Trustee has any obligation or responsibility to monitor, nor any right or obligation to enforce, compliance by Lennar Homes with its undertaking pursuant to the Developer Continuing Disclosure Certificate, and none of the District, the City or the Trustee will be so monitoring or enforcing such compliance.

Lennar Homes Continuing Disclosure Compliance. To the actual knowledge of Lennar Homes, other than as disclosed below, in the last five years, Lennar Homes has not failed to comply in any material respects with its previous continuing disclosure undertakings, specifically regarding its requirement to provide developer periodic reports or to provide notice of occurrence of enumerated events. However, (i) in connection with the $16,780,000 California Municipal Finance Authority Special Tax Revenue Bonds BOLD Program Series 2020B, Lennar Homes inadvertently failed to file the initial semi-annual report by the due date of May 1, 2021, but filed a curative report on May 21, 2021 and (ii) in connection with the $5,795,000 City of Rancho Cordova Grantline 208 Community Facilities District No. 2018-1 Special Tax Bonds, Series 2021B, Lennar Homes inadvertently failed to file the initial annual report by the due date of April 1, 2023, but filed a curative report on September 21, 2023.

TAX MATTERS

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the District ("Bond Counsel"), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2024 Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the "Code") and is exempt from State of California personal income taxes. Bond Counsel is of the further opinion that interest on the Series 2024 Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Bond Counsel observes that interest on the Series 2024 Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Series 2024 Bonds. A complete copy of the proposed form of opinion of Bond Counsel is set forth in APPENDIX D hereto.

To the extent the issue price of any maturity of the Series 2024 Bonds is less than the amount to be paid at maturity of such Series 2024 Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Series 2024 Bonds), the difference constitutes "original issue discount," the accrual of which, to

the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Series 2024 Bonds which is excluded from gross income for federal income tax purposes and exempt from State of California personal income taxes. For this purpose, the issue price of a particular maturity of the Series 2024 Bonds is the first price at which a substantial amount of such maturity of the Series 2024 Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Series 2024 Bonds accrues daily over the term to maturity of such Series 2024 Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Series 2024 Bonds to determine taxable gain or loss upon trade or business disposition (including sale, redemption, or payment on maturity) of such Series 2024 Bonds. Beneficial Owners of the Series 2024 Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Series 2024 Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Series 2024 Bonds in the original offering to the public at the first price at which a substantial amount of such Series 2024 Bonds is sold to the public.

Series 2024 Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) ("Premium Series 2024 Bonds") will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Series 2024 Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner's basis in a Premium Series 2024 Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium Series 2024 Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Series 2024 Bonds. The District has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Series 2024 Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Series 2024 Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Series 2024 Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel's attention after the date of issuance of the Series 2024 Bonds may adversely affect the value of, or the tax status of interest on, the Series 2024 Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Bond Counsel is of the opinion that interest on the Series 2024 Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Series 2024 Bonds may otherwise affect a Beneficial Owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner's other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Series 2024 Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Series 2024 Bonds. Prospective purchasers of the Series 2024 Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel expresses no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Series 2024 Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the District, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The District has covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Series 2024 Bonds ends with the issuance of the Series 2024 Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the District or the Beneficial Owners regarding the tax-exempt status of the Series 2024 Bonds in the event of an audit examination by the IRS. Under current procedures, Beneficial Owners would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the District legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of the Series 2024 Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Series 2024 Bonds, and may cause the District or the Beneficial Owners to incur significant expense.

Payments on the Series 2024 Bonds generally will be subject to U.S. information reporting and possibly to "backup withholding." Under Section 3406 of the Code and applicable U.S. Treasury Regulations issued thereunder, a non-corporate Beneficial Owner of Series 2024 Bonds may be subject to backup withholding with respect to "reportable payments," which include interest paid on the Series 2024 Bonds and the gross proceeds of a sale, exchange, redemption, retirement or other disposition of the Series 2024 Bonds. The payor will be required to deduct and withhold the prescribed amounts if (i) the payee fails to furnish a U.S. taxpayer identification number ("TIN") to the payor in the manner required, (ii) the IRS notifies the payor that the TIN furnished by the payee is incorrect, (iii) there has been a "notified payee underreporting" described in Section 3406(c) of the Code or (iv) the payee fails to certify under penalty of perjury that the payee is not subject to withholding under Section 3406(a)(1)(C) of the Code. Amounts withheld under the backup withholding rules may be refunded or credited against a Beneficial Owner's federal income tax liability, if any, provided that the required information is timely furnished to the IRS. Certain Beneficial Owners (including among others, corporations and certain tax-exempt organizations) are not subject to backup withholding. The failure to comply with the backup withholding rules may result in the imposition of penalties by the IRS.

ABSENCE OF LITIGATION

In connection with the issuance of the Series 2024 Bonds, Best Best & Krieger LLP ("Issuer's Counsel") will deliver an opinion to the effect that, to Issuer's Counsel's current actual knowledge, there is no action, suit, proceeding or investigation at law or in equity before or by any court, public board or body, pending (notice of which has been served on the City or the District) or to the Issuer's Counsel's current actual knowledge, threatened, wherein an unfavorable decision, ruling or finding, against or affecting the City or the District, would adversely impact the ability of the City or the District to complete the transactions described in, or contemplated by, the Indenture or this Official Statement, restrain or enjoin the collection of the Special Tax, or in any way contest or affect the validity of the Series 2024 Bonds, the Indenture, the Special Tax, or the transactions described herein.

ABSENCE OF RATINGS

The District has not made, and does not contemplate making, application to any rating organization for a rating on the Series 2024 Bonds.

CERTAIN LEGAL MATTERS

The validity of the Series 2024 Bonds and certain other legal matters are subject to the approving opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the District. A copy of the form of such approving opinion is attached hereto as APPENDIX D. Copies of such approving opinion will accompany each Series 2024 Bond. Bond Counsel has not undertaken any responsibility for the accuracy, completeness or fairness of the Official Statement or other offering materials relating to the Series 2024 Bonds and expresses no opinion relating thereto. Certain legal matters will be passed upon for the City and the District by Best Best & Krieger LLP, Ontario, California, as the Issuer's Counsel and by Best Best & Krieger LLP, Riverside, California, as Disclosure Counsel. Certain legal matters will be passed upon for the Underwriter by its counsel, Kutak Rock LLP, Irvine, California.

Although it is serving as Bond Counsel to the District in connection with the issuance and sale of the Series 2024 Bonds, Bond Counsel represents the Underwriter in connection with other financings and matters unrelated to the Series 2024 Bonds.

UNDERWRITING

The Series 2024 Bonds are being purchased by Samuel A. Ramirez & Co., Inc. (the "Underwriter"). The Underwriter has agreed to purchase the Series 2024 Bonds at a price of $_____being the $_____ aggregate principal amount thereof, [plus/less] net original issue [premium/discount] of $_____ and less Underwriter's discount of $_____). The purchase agreement relating to the Series 2024 Bonds provides that the Underwriter will purchase all of the Series 2024 Bonds if any are purchased. The obligation to make such purchase is subject to certain terms and conditions set forth in the purchase agreement, the approval of certain legal matters by counsel and certain other conditions.

The Underwriter may offer and sell the Series 2024 Bonds to certain dealers and others at prices lower than the offering price stated on the cover page thereof. The offering price may be changed from time to time by the Underwriter.

FINANCIAL INTERESTS

The fees being paid to the Municipal Advisor, Bond Counsel, Disclosure Counsel, Underwriter, and Underwriter's Counsel are contingent upon the issuance and delivery of the Series 2024 Bonds.

MUNICIPAL ADVISOR

The District has retained Urban Futures, Inc., Walnut Creek, California, as municipal advisor (the "Municipal Advisor") for the sale of the Series 2024 Bonds. The Municipal Advisor is not obligated to undertake, and has not undertaken to make, an independent verification or to assume any responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement.

Urban Futures, Inc. is an independent advisory firm and is not engaged in the business of underwriting, trading or distributing municipal or other public securities.

ADDITIONAL INFORMATION

The purpose of this Official Statement is to supply information to prospective buyers of the Series 2024 Bonds. Quotations and summaries and explanations of the Series 2024 Bonds and documents contained in this Official Statement do not purport to be complete, and reference is made to such documents for full and complete statements and their provisions.

The execution and delivery of this Official Statement by the City Manager of the City has been duly authorized by the City Council of the City of Ontario acting in its capacity as the legislative body of the District.

CITY OF ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35 (COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)

By: _____
City Manager

APPENDIX A

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

A Special Tax shall be levied on all Assessor's Parcels in the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South – Facilities) ("CFD No. 35") and collected each Fiscal Year, commencing in Fiscal Year 2018-19, in an amount determined by the City Council of the City of Ontario through the application of the Rate and Method of Apportionment, as described below. All of the real property in CFD No. 35, unless exempted by law or by the provisions hereof, shall be taxed for the purposes, to the extent, and in the manner herein provided.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre" or **"Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Subdivision Map, parcel map, condominium plan, or other recorded County map.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5 of Part 1 of Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means the following actual or reasonably estimated costs directly related to the administration of CFD No. 35: the costs of computing the Special Taxes and preparing the annual Special Tax collection schedules (whether by the City or CFD No. 35 or both); the costs of collecting the Special Taxes (whether by the County or otherwise); the costs of remitting the Special Taxes to the Trustee; the costs of the Trustee (including its legal counsel) in the discharge of the duties required of it under the Indenture; the costs to the City or CFD No. 35 of complying with arbitrage rebate requirements; the costs to the City or CFD No. 35 of complying with City, CFD No. 35, or obligated persons disclosure requirements associated with applicable federal and state securities laws and of the Act; the costs associated with preparing Special Tax disclosure statements and responding to public inquiries regarding the Special Taxes; the costs of the City or CFD No. 35 related to the analysis and reduction, if any, of the Special Tax on Single Family Property in accordance with Section C.1 herein; the costs of the City or CFD No. 35 related to an appeal of the Special Tax; the costs associated with the release of funds from any escrow account; the City's administration fees and third party expenses; the costs of City staff time and reasonable overhead relating to CFD No. 35; and amounts estimated or advanced by the City or CFD No. 35 for any other administrative purposes of the CFD, including attorney's fees and other costs related to commencing and pursuing to completion any foreclosure of delinquent Special Taxes.

"Assessor's Parcel" means a lot or parcel shown in an Assessor's Parcel Map with an assigned Assessor's Parcel Number.

"Assessor's Parcel Map" means an official map of the Assessor of the County designating parcels by Assessor's Parcel Number.

"Assessor's Parcel Number" means, with respect to an Assessor's Parcel, that number assigned to such Assessor's Parcel by the County for purposes of identification.

"Assigned Special Tax" means the Special Tax for each Land Use Class of Developed Property, as determined in accordance with Section C.1.a.2 below.

"Backup Special Tax" means the Special Tax for each Land Use Class of Developed Property, as determined in accordance with Section C.1.a.3 below.

"Bonds" means any bonds or other debt (as defined in Section 53317(d) of the Act) issued by CFD No. 35 under the Act and payable from Special Taxes.

"Buildable Lot" means an individual lot, within a Final Subdivision Map or an area expected by CFD No. 35 to become Final Mapped Property, such as the area within a Tentative Tract Map, for which a building permit may be issued without further subdivision of such lot.

"CFD Administrator" means an official of the City responsible for determining the Special Tax Requirement, providing for the levy and collection of the Special Taxes, and performing the other duties provided for herein.

"CFD No. 19" means City of Ontario Community Facilities District No. 19 (Countryside Phase 1 – Services).

"CFD No. 35" means City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South – Facilities).

"City" means the City of Ontario, California.

"City Council" means the City Council of the City, acting as the legislative body of CFD No. 35.

"Contractual Impositions" means (a) a voluntary contractual assessment established and levied on an Assessor's Parcel pursuant to Chapter 29 of Part 3 of Division 7 of the California Streets and Highways Code (commencing with Section 5898.10 *et seq.*), as amended from time to time, (b) a special tax established and levied on an Assessor's Parcel pursuant to Section 53328.1 of the California Government Code and related provisions of the Act, as amended from time to time, and (c) any other fee, charge, tax, or assessment established and levied on an individual Assessor's Parcel pursuant to a contractual agreement or other voluntary consent by the owner thereof (e.g., property owner association assessments).

"County" means the County of San Bernardino.

"Designated Buildable Lot" means a Buildable Lot for which a building permit has not been issued by the City as of the date of calculation of the Backup Special Tax.

"Developed Property" means for each Fiscal Year, all Taxable Property, exclusive of Final Mapped Property, Taxable Property Owner Association Property, and Taxable Public Property, for which a building permit or other applicable permit for new construction was issued after January 1, 2017, and before May 1 of the prior Fiscal Year.

"Expected Residential Lot Count" means 235 Buildable Lots of Single Family Property or, as determined by the CFD Administrator, the number of Buildable Lots of Single Family Property based on the most recent Tentative Tract Map(s) or most recently recorded Final Subdivision Map(s) or modified Final Subdivision Map(s).

"Facilities" means the public facilities authorized to be financed, in whole or in part, by CFD No. 35.

"Final Mapped Property" means, for each Fiscal Year, all Taxable Property, exclusive of Developed Property, Taxable Property Owner Association Property, and Taxable Public Property, which as of January 1 of the previous Fiscal Year was located within a Final Subdivision Map. The term Final Mapped Property shall include any parcel map or Final Subdivision Map, or portion thereof, that creates individual lots for which a building permit may be issued, including Parcels that are designated as a remainder Parcel (i.e., one where the size, location, etc., precludes any further subdivision or taxable use).

"Final Subdivision Map" means a final tract map, parcel map, or lot line adjustment approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 et seq.) or a condominium plan recorded in accordance with California Civil Code Section 4285 that, in either case, creates individual lots for which building permits may be issued without further subdivision.

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Indenture" means the indenture, fiscal agent agreement, resolution, or other instrument pursuant to which Bonds are issued, as modified, amended, and/or supplemented from time to time.

"Land Use Class" means any of the classes listed in Table 1 below.

"Lower Income Household Welfare Exemption Property" means, for each Fiscal Year, an Assessor's Parcel within the boundaries of CFD No. 35 that is subject to a welfare exemption under subdivision (g) of Section 214 of the California Revenue and Taxation Code (or any successor statute), as indicated in the most recent County assessor's roll finalized prior to such Fiscal Year.

"Maximum Special Tax" means, with respect to an Assessor's Parcel of Taxable Property, the Maximum Special Tax determined in accordance with Section C.1 below that can be levied in any Fiscal Year on such Assessor's Parcel of Taxable Property.

"Minimum Sale Price" means the minimum price at which Units of a given Land Use Class have sold or are expected to be sold in a normal marketing environment and shall not include prices for such Units that are sold at a discount to expected sales prices for the purpose of stimulating the initial sales activity with respect to such Land Use Class.

"Non-Residential Property" means all Assessor's Parcels of Developed Property for which a building permit was issued by the City permitting the construction of one or more non-residential structures or facilities.

"Other Residential Property" means all Assessor's Parcels of Developed Property for which a building permit was issued by the City for purposes of constructing Units, excluding Single Family Attached Property and Single Family Detached Property.

"Outstanding Bonds" means all Bonds which are outstanding under and in accordance with the provisions of the Indenture.

"Price Point Consultant" means any consultant or firm of such consultants selected by CFD No. 35 that (a) has substantial experience in performing price point studies for residential units within community facilities districts established under the Act or otherwise estimating or confirming pricing for residential units in such community facilities districts, (b) has recognized expertise in analyzing economic and real estate data that relates to the pricing of residential units in such community facilities districts, (c) is in fact independent and not under the control of CFD No. 35 or the City, (d) does not have any substantial interest, direct or indirect, with or in (i) CFD No. 35, (ii) the City, (iii) any owner of real property in CFD No. 35, or (iv) any real property in CFD No. 35, and (e) is not connected with CFD No. 35 or the City as an officer or employee thereof, but who may be regularly retained to make reports to CFD No. 35 or the City.

"Price Point Study" means a price point study or a letter updating a previous price point study prepared by the Price Point Consultant pursuant to Section C herein.

"Property Owner Association Property" means, for each Fiscal Year, any property within the boundaries of CFD No. 35 that was owned by a property owner association, including any master or sub-association, as of January 1 of the prior Fiscal Year.

"Proportionately" means (a) for Developed Property in the first step of Section D below, that the ratio of the actual Special Tax levy to the Maximum Special Tax is equal for all Assessor's Parcels of Developed Property; however, for Developed Property in the fourth step of Section D below, Proportionately means that the amount of the increase above the Assigned Special Tax, if necessary, is equal for all Assessor's Parcels of Developed Property, except that if the Backup Special Tax limits the increase on any Assessor's Parcel(s), then the amount of the increase shall be equal for the remaining Assessor's Parcels; (b) for Final Mapped Property, that the ratio of the actual Special Tax levy to the Maximum Special Tax is equal for all Assessor's Parcels of Final Mapped Property; (c) for Undeveloped Property, that the ratio of the actual Special Tax levy to the Maximum Special Tax is equal for all Assessor's Parcels of Undeveloped Property; (d) for Taxable Property Owner Association Property, that the ratio of the actual Special Tax levy to the Maximum Special Tax is equal for all Assessor's Parcels of Taxable Property Owner Association Property; and (e) for Taxable Public Property, that the ratio of the actual Special Tax levy to the Maximum Special Tax is equal for all Assessor's Parcels of Taxable Public Property.

"Public Property" means, for each Fiscal Year, property within the boundaries of CFD No. 35 that is (a) owned by, irrevocably offered to, or dedicated to the federal government, the State, the County, the City, or any local government or other public agency or (b) encumbered by an easement for purposes of public or utility right-of-way that makes impractical its use for any purpose other than that set forth in such easement, provided that any property leased by a public agency to a private entity and subject to taxation under Section 53340.1 of the Act shall be taxed and classified according to its use.

"Rate and Method of Apportionment" means this Amended and Restated Rate and Method of Apportionment of Special Tax.

"Residential Floor Area" means all of the Square Footage of living area within the perimeter of a Unit, not including any carport, walkway, garage, overhang, patio, enclosed patio, or similar area. The determination of Residential Floor Area shall be as set forth in the building permit(s) issued for such Assessor's Parcel, or as set forth in other official records maintained by the City's Building Department or other appropriate means selected by CFD No. 35. The actual Square Footage shall be rounded up to the next whole square foot. Once such determination has been made for an Assessor's Parcel, it shall remain fixed in all future Fiscal Years unless an appeal pursuant to Section F below is approved that results in a change in the actual Square Footage.

"Services" means the services authorized to be financed, in whole or in part, by CFD No. 35.

"Single Family Attached Property" means all Assessor's Parcels of Developed Property for which a building permit or use permit was issued for construction of a residential structure consisting of two or more Units that share common walls, have separate Assessor's Parcel Numbers assigned to them (except for a duplex unit, which may share an Assessor's Parcel with another duplex unit), and may be purchased by individual homebuyers (which shall still be the case even if the Units are purchased and subsequently offered for rent by the owner of the Unit), including such residential structures that meet the statutory definition of a condominium contained in California Civil Code Section 4125.

"Single Family Detached Property" means all Assessor's Parcels of Developed Property for which a building permit was issued for construction of a Unit, on one legal lot, that does not share a common wall with another Unit.

"Single Family Property" means all Assessor's Parcels of Single Family Attached Property and Single Family Detached Property.

"Special Tax" means the special tax authorized by the qualified electors of CFD No. 35 to be levied within the boundaries of CFD No. 35.

"Special Tax Requirement" means for any Fiscal Year that amount required, after taking into account available amounts held in the funds and accounts established under the Indenture, for CFD No. 35 to: (i) pay debt service on all Outstanding Bonds which is due in the calendar year that commences in such Fiscal Year; (ii) pay periodic costs on the Bonds, including, but not limited to, credit enhancement and rebate payments on the Bonds; (iii) pay Administrative Expenses; (iv) provide any amounts required to establish or replenish any reserve fund for the Bonds; (v) pay directly for acquisition or construction of Facilities, or the cost of Services, to the extent that the inclusion of such amounts does not increase the Special Tax levy on Final Mapped Property or Undeveloped Property; (vi) provide an amount equal to Special Tax delinquencies based on the historical delinquency rate for the Special Tax as determined by the CFD Administrator.

"Square Footage" or **"Sq. Ft."** means the floor area square footage reflected on the original construction building permit, or as set forth in other official records maintained by the City's Building Department or other appropriate means selected by CFD No. 35, issued for construction of Single Family Property, Other Residential Property, or Non-Residential Property, plus any square footage subsequently added to a building of Non-Residential Property after issuance of a building permit for expansion or renovation of such building.

"State" means the State of California.

"Taxable Property" means, for each Fiscal Year, all of the Assessor's Parcels within the boundaries of CFD No. 35 that are not exempt from the Special Tax pursuant to law or Section E below.

"Taxable Property Owner Association Property" means, for each Fiscal Year, all Assessor's Parcels of Property Owner Association Property that are not exempt from the Special Tax pursuant to Section E below.

"Taxable Public Property" means, for each Fiscal Year, all Assessor's Parcels of Public Property that are not exempt from the Special Tax pursuant to law or Section E below.

"Tentative Tract Map" means a map: (i) showing a proposed subdivision of an Assessor's Parcel(s) and the conditions pertaining thereto; (ii) that may or may not be based on a detailed survey; and (iii) that is not recorded by the County to create legal lots.

"Total Tax Burden" means, for a Unit within a Land Use Class, for the Fiscal Year in which Total Tax Burden is being calculated, the sum of (a) the Assigned Special Tax for such Land Use Class for such Fiscal Year, plus (b) the CFD No. 19 special tax for such Land Use Class for such Fiscal Year, plus (c) the *ad valorem* property taxes, special assessments, special taxes for any other overlapping community facilities districts, and any other governmental fees, charges (other than fees or charges for services such as sewer and trash), taxes, and assessments (which do not include Contractual Impositions) collected by the County on *ad valorem* tax bills and that the CFD Administrator estimates would be levied or imposed on such Unit in such Fiscal Year if the residential dwelling unit thereon or therein had been completed and sold, and was subject to such fees, charges, taxes, and assessments in such Fiscal Year.

"Trustee" means the trustee or fiscal agent under the Indenture.

"TTM 17449" means Tentative Tract Map No. 17449, the area of which is located within CFD No. 35.

"TTM 17450" means Tentative Tract Map No. 17450, the area of which is located within CFD No. 35.

"Undeveloped Property" means, for each Fiscal Year, all Taxable Property not classified as Developed Property, Final Mapped Property, Taxable Public Property, or Taxable Property Owner Association Property.

"Unit" means an individual single-family detached or attached home, townhome, condominium, apartment, or other residential dwelling unit, including each separate living area within a half-plex, duplex, triplex, fourplex, or other residential structure.

B. ASSIGNMENT TO LAND USE CATEGORIES

Each Fiscal Year, beginning with Fiscal Year 2018-19, all Taxable Property within CFD No. 35 shall be classified as Developed Property, Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, or Undeveloped Property and shall be subject to Special Taxes in accordance with the Rate and Method of Apportionment as determined pursuant to Sections C and D below. Assessor's Parcels of Single Family Property shall be assigned to Land Use Classes 1 through 7, as listed in Table 1 below based on the Residential Floor Area of the Units on such Assessor's Parcels. Other Residential Property shall be assigned to Land Use Class 8, and Non-Residential Property shall be assigned to Land Use Class 9.

C. MAXIMUM SPECIAL TAX

1. Special Tax

At least 30 days prior to the issuance of the first series of Bonds, the Assigned Special Tax on Developed Property (set forth in Table 1 below) shall be analyzed in accordance with and subject to the conditions set forth in this Section C. At such time, CFD No. 35 shall select and engage a Price Point Consultant and the CFD Administrator shall request the Price Point Consultant to prepare a Price Point Study setting forth the Minimum Sale Price of Units within each Land Use Class. If based upon such Price Point Study the CFD Administrator calculates that the Total Tax Burden applicable to Units within one or more Land Use Classes of Single Family Property to be constructed within CFD No. 35 exceeds 1.95% of the Minimum Sale Price of such Units, the Assigned Special Tax shall be reduced to the extent necessary to cause the Total Tax Burden that shall apply to Units within such Land Use Class(es) not to exceed 1.95% of the Minimum Sale Price of such Units.

Each Assigned Special Tax reduction for a Land Use Class shall be calculated by the CFD Administrator separately, and it shall not be required that such reduction be proportionate among Land Use Classes. In connection with any reduction in the Assigned Special Tax, the Backup Special Tax shall also be reduced by the CFD Administrator based on the percentage reduction in Maximum Special Tax revenues within the Tentative Tract Map area(s) where the Assigned Special Tax reductions occurred. Upon determining the reductions, if any, in the Assigned Special Tax and Backup Special Tax required pursuant to this Section C, the CFD Administrator shall complete the Certificate of Modification of Special Tax substantially in the form attached hereto as Exhibit A (the "Certificate of Modification"), shall execute such completed Certificate of Modification, and shall deliver such executed Certificate of Modification to CFD No. 35. Upon receipt thereof, if in satisfactory form, CFD No. 35 shall execute such Certificate of Modification. The reduced Assigned Special Tax and Backup Special Tax specified in such Certificate of Modification shall become effective upon the execution of such Certificate of Modification by CFD No. 35.

The Special Tax reductions required pursuant to this section shall be reflected in an amended notice of Special Tax lien, which CFD No. 35 shall cause to be recorded with the County Recorder

as soon as practicable after execution of the Certificate of Modification by CFD No. 35. The reductions in this section apply to Single Family Property, but not to Other Residential Property or Non-Residential Property.

a. Developed Property

1) *Maximum Special Tax*

The Maximum Special Tax that may be levied in any Fiscal Year for each Assessor's Parcel classified as Developed Property shall be the greater of (i) the amount derived by application of the Assigned Special Tax or (ii) the amount derived by application of the Backup Special Tax. The Maximum Special Tax shall not increase in future years, other than as calculated pursuant to Section C.1.a.3 below.

2) *Assigned Special Tax*

The Assigned Special Tax that may be levied in any Fiscal Year for each Land Use Class is shown below in Table 1.

TABLE 1
ASSIGNED SPECIAL TAX – DEVELOPED PROPERTY

Land Use Class	Description	Residential Floor Area (Square Footage)	Assigned Special Tax
1	Single Family Property	< 1,501	$3,342 per Unit
2	Single Family Property	1,501 – 1,700	$3,454 per Unit
3	Single Family Property	1,701 – 1,900	$3,626 per Unit
4	Single Family Property	1,901 – 2,100	$3,849 per Unit
5	Single Family Property	2,101 – 2,300	$3,935 per Unit
6	Single Family Property	2,301 – 2,500	$4,073 per Unit
7	Single Family Property	> 2,500	$4,262 per Unit
8	Other Residential Property		$52,912 per Acre
9	Non-Residential Property		$52,912 per Acre

3) *Backup Special Tax*

The Backup Special Tax shall be $3,846 per Unit for Single Family Property. However, if the Expected Residential Lot Count does not equal 235 for Single Family Property, and the City has not issued Bonds, then the Backup Special Tax for Designated Buildable Lots of Single Family Property shall be calculated according to the following formula:

Backup Special Tax = $903,846 ÷ Expected Residential Lot Count for Single Family Property

If any portion of a Final Subdivision Map, or any area expected by CFD No. 35 to become Final Mapped Property, such as the area within TTM 17449, TTM 17450, or any other Tentative Tract Map, changes any time after the City has issued Bonds, causing an adjustment to the number of Designated Buildable Lots, then the Backup Special Tax for all Designated Buildable Lots of Single Family Property subject to the change shall be calculated according to the following steps:

Step 1: Determine the total Backup Special Taxes that could have been collected from Designated Buildable Lots of Single Family Property prior to the Final Subdivision Map or expected Final Mapped Property change.

Step 2: Divide the amount determined in Step 1 by the number of Designated Buildable Lots of Single Family Property that exists after the Final Subdivision Map or expected Final Mapped Property change.

Step 3: Apply the amount determined in Step 2 as the Backup Special Tax per Unit for Single Family Property.

The Backup Special Tax for an Assessor's Parcel shall not change once an Assessor's Parcel is classified as Developed Property.

b. Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, and Undeveloped Property

The Maximum Special Tax for Final Mapped Property, Taxable Public Property, Taxable Property Owner Association Property, and Undeveloped Property shall be $52,912 per Acre, and shall not be subject to increase or reduction and, therefore, shall remain the same in every Fiscal Year.

2. Multiple Land Use Classes on an Assessor's Parcel

In some instances an Assessor's Parcel of Developed Property may contain more than one Land Use Class. The Maximum Special Tax levied on such Assessor's Parcel shall be the sum of the Maximum Special Tax for all Units of Single Family Property and Acres of Other Residential Property and Non-Residential Property (based on the pro rata share of Square Footage between Other Residential Property and Non-Residential Property, according to the applicable building permits, Final Subdivision Map, parcel map, condominium plan, or other recorded County map) located on that Assessor's Parcel.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

Each Fiscal Year, beginning with Fiscal Year 2018-19, the CFD Administrator shall determine the Special Tax Requirement for such Fiscal Year. The Special Tax shall then be levied as follows:

First: If needed to satisfy the Special Tax Requirement, the Special Tax shall be levied Proportionately on each Assessor's Parcel of Developed Property up to 100% of the applicable Assigned Special Tax;

Second: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Final Mapped Property up to 100% of the Maximum Special Tax for Final Mapped Property;

Third: If additional monies are needed to satisfy the Special Tax Requirement after the first two steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property up to 100% of the Maximum Special Tax for Undeveloped Property;

Fourth: If additional monies are needed to satisfy the Special Tax Requirement after the first three steps have been completed, then the levy of the Special Tax on each Assessor's Parcel of Developed Property whose Maximum Special Tax is determined through the application of the Backup Special Tax shall be increased Proportionately from the Assigned Special Tax up to the Maximum Special Tax for each such Assessor's Parcel;

Fifth: If additional monies are needed to satisfy the Special Tax Requirement after the first four steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Property Owner Association Property up to the Maximum Special Tax for Taxable Property Owner Association Property;

Sixth: If additional monies are needed to satisfy the Special Tax Requirement after the first five steps have been completed, then the Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property up to the Maximum Special Tax for Taxable Public Property.

Notwithstanding the above, under no circumstances shall the Special Tax levied in any Fiscal Year on any Assessor's Parcel of Single Family Property or Other Residential Property for which an occupancy permit for private residential use has been issued be increased as a result of delinquency or default by the owner or owners of any other Assessor's Parcel or Assessor's Parcels within CFD No. 35 by more than ten percent above the amount that would have been levied in that Fiscal Year had there never been any such delinquencies or defaults.

E. EXEMPTIONS

No Special Tax shall be levied on up to 2.44 Acres of Public Property and up to 14.12 Acres of Property Owner Association Property. Tax-exempt status will be assigned by the CFD Administrator in the chronological order in which property becomes Public Property or Property Owner Association Property.

Property Owner Association Property or Public Property that is not exempt from the Special Tax under this section shall be subject to the levy of the Special Tax and shall be taxed Proportionately as part of the fifth or sixth step, respectively, in Section D above, up to 100% of the applicable Maximum Special Tax for Taxable Property Owner Association Property and Taxable Public Property. No Special Tax shall be levied in any Fiscal Year on Assessor's Parcels that have fully prepaid the Special Tax obligation pursuant to the formula set forth in Section H.

No Special Tax shall be levied on Lower Income Household Welfare Exemption Property; provided, however, that if, in any Fiscal Year, applicable law does not require that Lower Income Household Welfare Exemption Property be exempt from some portion, or all, of the Special Tax, such portion, or all, of the Special Tax shall be levied on such property in accordance with this Rate and Method of Apportionment based on the Land Use Class to which the Assessor's Parcel is assigned.

F. APPEALS

Any property owner may file a written appeal of the Special Tax with CFD No. 35 claiming that the amount or application of the Special Tax is not correct. The appeal must be filed not later than one calendar year after having paid the Special Tax that is disputed, and the appellant must be current in all payments of Special Taxes. In addition, during the term of the appeal process, all Special Taxes levied must be paid on or before the payment date established when the levy was made.

The appeal must specify the reasons why the appellant claims the Special Tax is in error. The CFD Administrator shall review the appeal, meet with the appellant if the CFD Administrator deems necessary, and advise the appellant of its determination.

If the property owner disagrees with the CFD Administrator's decision relative to the appeal, the owner may then file a written appeal with the City Council whose subsequent decision shall be final and binding on all interested parties. If the decision of the CFD Administrator or subsequent decision by the City Council requires the Special Tax to be modified or changed in favor of the property owner, then the CFD Administrator shall determine if sufficient Special Tax revenue is available to make a cash refund. If a cash refund cannot be made, then an adjustment shall be made to credit future Special Tax levy(ies).

This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to filing any legal action by such owner.

G. MANNER OF COLLECTION

The Special Tax shall be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that the Special Taxes may be collected in such other manner as the City Council shall determine, including direct billing of affected property owners.

H. PREPAYMENT OF SPECIAL TAX

The following definitions apply to this Section H:

"CFD Public Facilities" means $12,757,000 each Prepayment Period, or such lower number as determined by the City Council to be sufficient to fund the Facilities and Services to be provided by CFD No. 35.

"Expenditures Fund" means funds or accounts, regardless of their names, that are established to hold moneys that are available to acquire or construct Facilities and to fund Services.

"Future Facilities Costs" means the CFD Public Facilities minus (i) Facilities and Services costs previously paid from the Expenditures Fund during the Prepayment Period in which the prepayment is being made, (ii) moneys currently on deposit in the Expenditures Fund from deposits made during the Prepayment Period in which the prepayment is being made, and (iii) moneys currently on deposit in an escrow fund that are expected to be available to finance Facilities costs. In no event shall the amount of Future Facilities Costs be less than zero.

"Prepayment Period" means one of three periods of time during which a Special Tax prepayment may be made.

"Prepayment Period 1" means July 1, 2018, through June 30, 2052.

"Prepayment Period 2" means July 1, 2052, through June 30, 2085.

"Prepayment Period 3" means July 1, 2085, through June 30, 2119.

1. Prepayment in Full

The obligation of an Assessor's Parcel to pay the Special Tax may be prepaid as described herein, provided that a prepayment may be made only for Assessor's Parcels for which a building permit for new construction was issued after January 1, 2017, and only if there are no delinquent Special

Taxes with respect to such Assessor's Parcel at the time of prepayment. An owner of an Assessor's Parcel intending to prepay the Special Tax obligation shall provide the CFD Administrator with written notice of intent to prepay. Within 30 days of receipt of such written notice, the CFD Administrator shall notify such owner of the prepayment amount for such Assessor's Parcel. The CFD Administrator may charge a fee for providing this service. Prepayment in any six month period must be made not less than 45 days prior to the next occurring date that notice of redemption of Bonds from the proceeds of such prepayment may be given to the Trustee pursuant to the Indenture.

The Special Tax Prepayment Amount (defined below) shall be calculated as summarized below (capitalized terms as defined below):

Bond Redemption Amount	
plus	Redemption Premium
plus	Future Facilities Amount
plus	Defeasance Amount
plus	Administrative Fees and Expenses
less	Reserve Fund Credit
Total	Prepayment Amount

As of the proposed date of prepayment, the Special Tax Prepayment Amount (defined below) shall be calculated by the CFD Administrator as follows:

Paragraph No.

1. Confirm that no Special Tax delinquencies apply to such Assessor's Parcel, and determine the Prepayment Period for the proposed prepayment.

2. Compute the Assigned Special Tax and Backup Special Tax for the Assessor's Parcel to be prepaid based on the Developed Property Special Tax which is, or could be, charged in the current Fiscal Year. For Assessor's Parcels of Final Mapped Property (for which a building permit has been issued but which is not yet classified as Developed Property) to be prepaid, compute the Assigned Special Tax and Backup Special Tax for that Assessor's Parcel as though it was already designated as Developed Property, based upon the building permit which has already been issued for that Assessor's Parcel.

3. (a) Divide the Assigned Special Tax computed pursuant to Paragraph 2 by the total estimated Assigned Special Tax for CFD No. 35 based on the Developed Property Special Tax which could be charged in the current Fiscal Year on all expected development through buildout of CFD No. 35, excluding any Assessor's Parcels which have been prepaid, and

   (b) Divide the Backup Special Tax computed pursuant to Paragraph 2 by the estimated total Backup Special Tax at buildout of CFD No. 35, excluding any Assessor's Parcels which have been prepaid.

4. Multiply the larger quotient computed pursuant to Paragraph 3(a) or 3(b) by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the "Bond Redemption Amount").

5. Multiply the Bond Redemption Amount computed pursuant to Paragraph 4 by the applicable redemption premium (e.g., the redemption price minus 100%), if any, on the Outstanding Bonds to be redeemed (the "Redemption Premium").

6. Compute the Future Facilities Costs for the applicable Prepayment Period.

7. Multiply the larger quotient computed pursuant to Paragraph 3(a) or 3(b) by the amount determined pursuant to Paragraph 6 to compute the amount of Future Facilities Costs to be prepaid (the "Future Facilities Amount").

8. Compute the amount needed to pay interest on the Bond Redemption Amount from the first bond interest and/or principal payment date following the current Fiscal Year until the earliest redemption date for the Outstanding Bonds.

9. Determine the Special Tax levied on the Assessor's Parcel in the current Fiscal Year which has not yet been paid.

10. Add the amounts computed pursuant to Paragraphs 8 and 9 to determine the "Defeasance Amount".

11. Verify the administrative fees and expenses of CFD No. 35, including the costs to compute the prepayment, the costs to invest the prepayment proceeds, the costs to redeem Bonds, and the costs to record any notices to evidence the prepayment and the redemption (the "Administrative Fees and Expenses").

12. If reserve funds for the Outstanding Bonds, if any, are at or above 100% of the reserve requirement (as defined in the Indenture) on the prepayment date, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "Reserve Fund Credit"). No Reserve Fund Credit shall be granted if reserve funds are below 100% of the reserve requirement on the prepayment date or the redemption date.

13. The Special Tax prepayment is equal to the sum of the amounts computed pursuant to Paragraphs 4, 5, 7, 10, and 11, less the amount computed pursuant to Paragraph 12 (the "Prepayment Amount").

14. From the Prepayment Amount, the amounts computed pursuant to Paragraphs 4, 5, 10, and 12 shall be deposited into the appropriate fund as established under the Indenture and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to Paragraph 7 shall be deposited into the Expenditures Fund. The amount computed pursuant to Paragraph 11 shall be retained by CFD No. 35.

The Special Tax Prepayment Amount may be sufficient to redeem other than a $5,000 increment of Bonds. In such cases, the increment above $5,000, or integral multiple thereof, will be retained in the appropriate fund established under the Indenture to be used with the next prepayment of Bonds or to make debt service payments.

As a result of the payment of the current Fiscal Year's Special Tax levy as determined under Paragraph 9 (above), the CFD Administrator shall remove the current Fiscal Year's Special Tax levy for such Assessor's Parcel from the County tax rolls. With respect to any Assessor's Parcel that is prepaid during Prepayment Period 3, the CFD Administrator shall cause a suitable notice to be recorded in compliance with the Act to indicate that the Special Tax has been prepaid and that the obligation of such Assessor's Parcel to pay the Special Tax shall cease.

With respect to the Special Tax for any Assessor's Parcel that is prepaid during Prepayment Period 1 or Prepayment Period 2, the obligation of such Assessor's Parcel to pay the Special Tax shall be tolled, or suspended, through the end of such Prepayment Period, but shall resume in the first Fiscal Year of the

subsequent Prepayment Period. The CFD Administrator shall cause a suitable notice to be recorded in compliance with the Act to indicate that the Special Tax has been satisfied for the remainder of the applicable Prepayment Period but has not been permanently satisfied and the obligation to pay the Special Tax will resume in the first Fiscal Year of the Prepayment Period following the Prepayment Period in which the prepayment was made. Once the obligation of an Assessor's Parcel to pay the Special Tax resumes, the Special Tax for the then applicable Prepayment Period may be prepaid.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Maximum Special Tax that may be levied on Taxable Property within CFD No. 35 (after excluding 2.44 Acres of Public Property and 14.12 acres of Property Owner Association Property) both prior to and after the proposed prepayment is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

2. Prepayment in Part

The Special Tax on an Assessor's Parcel for which a building permit for new construction was issued after January 1, 2017, may be partially prepaid. The amount of the prepayment shall be calculated as in Section H.1, except that a partial prepayment shall be calculated by the CFD Administrator according to the following formula:

$$PP = (PF - AE) \times \% + AE.$$

The terms above have the following meaning:

PP = the partial prepayment
PF = the Prepayment Amount (full prepayment) for the Special Tax calculated according to Section H.1
AE = the Administrative Fees and Expenses determined pursuant to paragraph 11 above
% = the percentage by which the owner of the Assessor's Parcel(s) is partially prepaying the Special Tax

The Special Tax partial prepayment amount must be sufficient to redeem at least a $5,000 increment of Bonds.

The owner of any Assessor's Parcel who desires such prepayment shall notify the CFD Administrator of such owner's intent to partially prepay the Special Tax and the percentage by which the Special Tax shall be prepaid. The CFD Administrator shall provide the owner with a statement of the amount required for the partial prepayment of the Special Tax for an Assessor's Parcel within thirty (30) days of the request and may charge a fee for providing this service. With respect to any Assessor's Parcel that is partially prepaid, the CFD Administrator shall (i) distribute the remitted prepayment funds according to Section H.1, and (ii) indicate in the records of CFD No. 35 that there has been a partial prepayment of the Special Tax and that a portion of the Special Tax with respect to such Assessor's Parcel, equal to the outstanding percentage (100% - "%", as defined above) of the Maximum Special Tax, shall continue to be levied on such Assessor's Parcel pursuant to Section D during the Prepayment Period in which the partial prepayment is made.

For partial prepayments made during Prepayment Period 1 or Prepayment Period 2, the full amount of the Special Tax shall resume in the first Fiscal Year of the Prepayment Period following the Prepayment Period in which the partial prepayment was made. Once the obligation of an Assessor's Parcel to pay the Special Tax resumes, the Special Tax for the then applicable Prepayment Period may be prepaid.

I. TERM OF SPECIAL TAX

The Fiscal Year after which no further Special Tax shall be levied or collected is Fiscal Year 2118-2119, except that the Special Tax that was lawfully levied in or before such Fiscal Year and that remains delinquent may be collected in subsequent years.

EXHIBIT A

CERTIFICATE OF MODIFICATION OF SPECIAL TAX
(PAGE 1 OF 2)

CITY OF ONTARIO AND CFD NO. 35 CERTIFICATE

1. Pursuant to Section C.1 of the Amended and Restated Rate and Method of Apportionment of Special Tax (the "Rate and Method") for City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South – Facilities) ("CFD No. 35"), the Assigned Special Tax and the Backup Special Tax for Developed Property within CFD No. 35 has been modified.

    a. The information in Table 1 relating to the Assigned Special Tax for Developed Property within CFD No. 35, as stated in Section C.1.a.2 of the Rate and Method of Apportionment, has been modified as follows:

TABLE 1
ASSIGNED SPECIAL TAX – DEVELOPED PROPERTY

Land Use Class	Description	Residential Floor Area (Square Footage)	Assigned Special Tax
1	Single Family Property	< 1,501	$[ ] per Unit
2	Single Family Property	1,501 – 1,700	$[ ] per Unit
3	Single Family Property	1,701 – 1,900	$[ ] per Unit
4	Single Family Property	1,901 – 2,100	$[ ] per Unit
5	Single Family Property	2,101 – 2,300	$[ ] per Unit
6	Single Family Property	2,301 – 2,500	$[ ] per Unit
7	Single Family Property	> 2,500	$[ ] per Unit
8	Other Residential Property		$[ ] per Acre
9	Non-Residential Property		$[ ] per Acre

    b. The Backup Special Tax for Developed Property, as stated in Section C.1.a.3, shall be modified as follows:

The Backup Special Tax shall be $[____] per Unit for Single Family Property. However, if the Expected Residential Lot Count does not equal 235 for Single Family Property, and the City has not issued Bonds, then the Backup Special Tax for Designated Buildable Lots of Single Family Property shall be calculated according to the following formula:

Backup Special Tax = $[_____] ÷ Expected Residential Lot Count for Single Family Property

2. The Special Tax for Developed Property may only be modified prior to the first issuance of CFD No. 35 Bonds.

3. Upon execution of this Certificate by CFD No. 35, CFD No. 35 shall cause an amended notice of Special Tax lien for CFD No. 35 to be recorded reflecting the modifications set forth herein.

Capitalized undefined terms used herein have the meanings ascribed thereto in the Rate and Method. The modifications set forth in this Certificate have been calculated by the CFD Administrator in accordance with the Rate and Method.

GOODWIN CONSULTING GROUP, INC.
CFD ADMINISTRATOR

By:_____ Date:_____

The undersigned acknowledges receipt of this Certificate and of the modification of the Assigned Special Tax and the Backup Special Tax for Developed Property as set forth in this Certificate.

APPENDIX D

FORM OF OPINION OF BOND COUNSEL

[TO COME FROM BOND COUNSEL]

APPENDIX E

GENERAL INFORMATION CONCERNING THE CITY OF ONTARIO

This appendix sets forth general information about the City of Ontario (the "City") including information with respect to its finances. The following information concerning the City, the County of San Bernardino (the "County") and the State are included only for general background purposes regarding the area encompassing the District. The Series 2024 Bonds are special, limited obligations of the District, payable, as provided in the Indenture, solely from Net Special Tax Revenues and the other assets pledged therefor thereunder. Neither the faith and credit nor the taxing power of the District (except to the limited extent set forth in the Indenture), the City or the State of California (the "State"), or any political subdivision thereof, is pledged to the payment of the Series 2024 Bonds.

The City is located in western San Bernardino County, 35 miles inland from downtown Los Angeles and encompasses 50 square miles. Located in the western part of the Inland Empire region, it lies just east of the Los Angeles county line and is part of the Greater Los Angeles Area. The City is home to the LA/Ontario International Airport which is the 11th busiest cargo airport in the United States. Ontario handles the mass of freight traffic between the ports of Los Angeles and Long Beach and the rest of the country.

Government

The City was incorporated as a general law city in 1891, and is governed by a Mayor and four council members elected at large to serve four-year terms. The City operates under the Council - Manager form of government. The City Council appoints the City Manager who is responsible for the day-to-day administration of City business and the coordination of all departments of the City.

The population growth in the City, County and State is shown on the following chart.

POPULATION ESTIMATES
City of Ontario, County of San Bernardino and State of California
2014-2024

Year[(1)]	City of Ontario	County of San Bernardino	State of California
2014	167,885	2,094,951	38,556,731
2015	169,153	2,112,187	38,865,532
2016	169,491	2,122,579	39,103,587
2017	172,858	2,139,520	39,352,398
2018	175,083	2,150,017	39,519,535
2019	178,606	2,165,876	39,605,361
2020	175,427	2,181,654	39,538,223
2021	176,206	2,179,007	39,286,510
2022	178,682	2,180,777	39,078,674
2023	180,717	2,182,056	38,940,231
2024	179,516	2,187,665	39,185,605

Tax Levy and Tax Collection

Below is a chart which indicates the tax levy and collection records for the City from the 2013-14 through 2022-23 Fiscal Years.

PROPERTY TAX LEVIES AND COLLECTIONS
City of Ontario
Fiscal Years 2013-14 to 2022-23

Fiscal Year	Percent of Levy Collected	Total Tax Collections to Tax Levy to Date[1]
2014	101.90	25,330,619
2015	101.87	26,352,321
2016	101.39	27,777,778
2017	100.94	28,866,121
2018	101.46	30,921,494
2019	100.69	34,087,147
2020	99.67	36,753,080
2021	100.08	39,756,925
2022	101.01	44,111,852
2023	102.62	50,642,654

(1) Beginning with the City's Comprehensive Annual Financial Report for the year ending June 30, 2019, the City did not include in its reported property tax collections pass-through payments related to the former Ontario Redevelopment Agency or Redevelopment Property Tax Trust Fund residual payments. The historical property tax collection amounts have been adjusted to reflect this change.

Transportation

Because Ontario is a major hub for passengers and freight, the City is also served by several major freeways. Interstate 10 and the Pomona Freeway (State Route 60) run east-west through the City. Interstate 10 is north of the Ontario airport while the Pomona freeway is south of the airport. Interstate 15 runs in the north-south directions at the eastern side of the City. State Route 83, also known as Euclid Avenue, also runs in the north-south direction at the western side of the City.

The City maintains an Amtrak station which is served by the Sunset Limited and Texas Eagle lines. Ontario also has a Metrolink station off of Haven Avenue. It connects Ontario with much of the Greater Los Angeles area, Orange County and the San Fernando Valley. Public bus transportation is provided by Omnitrans. Rail service is provided by Burlington Northern Santa Fe and Union Pacific.

The Ontario International Airport is a medium-hub, full-service airport, which offers more than 70 daily flights to cities in the U.S., Mexico and Taiwan and is served by AeroMexico, Alaska Airlines, American Airlines, China Airlines, Delta Air Lines, Frontier, JetBlue, Southwest Airlines, United Airlines/United Express and Volaris. The airport's service area includes a population of approximately six million in San Bernardino and Riverside counties, and portions of Orange and Los Angeles counties. The Ontario International Airport was previously operated by the Department of Airports of the City of Los Angeles (the "Department"). Following protracted litigation among the Department, the City of Ontario and the Ontario International Airport Authority, a joint powers authority was formed by the City of Ontario and the County of San Bernardino (the "Airport Authority"). The Airport Authority assumed ownership and control of the management and operation of the Ontario International Airport on November 1, 2016.

With approximately 570,000 square feet and 26 passenger gates within two terminals, Ontario International Airport is the Western States Regional Terminal for United Parcel Service. In 2021 approximately 4.5 million passengers used the airport and cargo shipments decreased approximately 3.7% from the previous year. In 2020, approximately 2.5 million passengers used the airport and cargo shipments rose more than 18% from the previous year.

APPENDIX F

SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE

The following is a summary of certain provisions of the Indenture which are not described elsewhere in the Official Statement. This summary does not purport to be comprehensive, and reference should be made to the Indenture for a full and complete statement of their provisions.

APPENDIX G

FORM OF DISTRICT
CONTINUING DISCLOSURE AGREEMENT

APPENDIX H

FORM OF DEVELOPER CONTINUING DISCLOSURE CERTIFICATE

CONTINUING DISCLOSURE CERTIFICATE

of

LENNAR HOMES OF CALIFORNIA, LLC

Dated as of _____ 1, 2024

City of Ontario
COMMUNITY FACILITIES DISTRICT NO. 35
(COUNTRYSIDE PHASE 2 SOUTH - FACILITIES)
SPECIAL TAX BONDS, SERIES 2024

CONTINUING DISCLOSURE CERTIFICATE

THIS CONTINUING DISCLOSURE CERTIFICATE (this "**Disclosure Certificate**"), dated as of _____ 1, 2024, is executed by Lennar Homes of California, LLC, a California limited liability company (the "**Developer**"), in connection with the issuance by the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) (the "**Community Facilities District**") of the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) Special Tax Bonds, Series 2024 (the "**Series 2024 Bonds**"), in the aggregate principal amount of $_____ pursuant to the Indenture, dated as of _____ 1, 2024 (the "**Indenture**"), by and between the Community Facilities District and Zions Bancorporation, National Association, a national banking association organized and existing under the laws of the United States of America, as trustee (the "**Trustee**").

W I T N E S S E T H :

WHEREAS, the Series 2024 Bonds are payable from and secured by special taxes levied on certain of the property within the Community Facilities District;

WHEREAS, the Developer is developing a portion of the property within the Community Facilities District that is described in the Official Statement as the "Shady Tree" and "Whispering Wind" neighborhoods; and

WHEREAS, this Disclosure Certificate is being executed and delivered by the Developer for the benefit of the owners and beneficial owners of the Series 2024 Bonds.

NOW, THEREFORE, for and in consideration of the mutual promises and covenants herein contained, the Developer hereby agrees as follows:

Section 1. Definitions. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this Disclosure Certificate have the meanings herein specified. Capitalized undefined terms used herein shall have the meanings ascribed thereto in this Disclosure Certificate or the Indenture.

"Affiliate" of another Person means (a) a Person directly or indirectly owning, controlling, or holding with power to vote, 5% or more of the outstanding voting securities of such other Person, (b) any Person 5% or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote, by such other Person, and (c) any Person directly or indirectly controlling, controlled by, or under common control with, such other Person; for purposes hereof, "control" means the power to exercise a controlling influence over the management or policies of a Person, unless such power is solely the result of an official position with such Person.

"Assumption Agreement" means an undertaking of a Major Developer (or Affiliate thereof) containing terms substantially similar to this Disclosure Certificate, whereby such Major Developer agrees to provide Semi-Annual Reports and notices of significant events with respect to the portion of the Property owned by such Major Developer in the Community Facilities District in form and substance satisfactory to the Participating Underwriter.

"Community Facilities District" means the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities), a community facilities district organized and existing under the laws of the State.

"Development Plan" means, with respect to a Major Developer, the specific improvements such Major Developer intends to make, or cause to be made, in order for such Major Developer's Property to be fully developed within the time frame in which such improvements are intended to be made and the estimated costs of such improvements; the Developer's Development Plan, as of the date hereof, is described in the Official Statement under the caption "PROPERTY OWNERSHIP AND THE DEVELOPMENT – Lennar Homes' Development Plan."

"Dissemination Agent" means, initially, the Developer, or any Dissemination Agent designated in writing by the Developer and which has filed with the Developer and the Community Facilities District a written acceptance of such designation.

"Financing Plan" means, with respect to a Major Developer, the method by which such Major Developer intends to finance its Development Plan, including specific sources of funding for such Development Plan; the Developer's Financing Plan, as of the date hereof, is described in the Official Statement under the caption "PROPERTY OWNERSHIP AND THE DEVELOPMENT – Lennar Homes' Financing Plan."

"First Report Date" means June 1 of each year.

"Indenture" means the Indenture, dated as of _____ 1, 2024, by and between the Community Facilities District and Zions Bancorporation, National Association, as originally executed and as it may be amended or supplemented from time to time in accordance with its terms.

"Listed Events" means any of the events listed in subsection (a) of Section 4 hereof.

"**Major Developer**" means, as of any date, a Person (including the Developer) that owns 46 or more of the planned 235 homes in the Community Facilities District. As of the date of this Disclosure Certificate, the Developer is a Major Developer.

"MSRB" means the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive continuing disclosure reports pursuant to the Rule. Until otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) website of the MSRB, currently located at http://emma.msrb.org.

"Official Statement" means the Official Statement, dated _____, 2024, relating to the Series 2024 Bonds.

"Participating Underwriter" means Samuel A. Ramirez & Company, Inc., the original underwriter of the Series 2024 Bonds.

"Person" means an individual, a corporation, a partnership, an association, a limited liability company, a joint stock company, a trust, any unincorporated organization or a government or political subdivision thereof.

"Planned Development Stage" means the stage of development to which the Developer intends to develop the Property, as described in the Official Statement, which is the construction of finished homes.

"Property" means (i) the real property within the boundaries of the Community Facilities District owned by the Developer or any Affiliate thereof as of the date set forth in the applicable Semi-Annual Report and (ii) when property is conveyed by the Developer to a Major Developer, the real property within the boundaries of the Community Facilities District that was formerly owned by the Developer but with respect to which the Developer's obligations under this Disclosure Certificate have not been assumed by a Major Developer. Property as of any date of determination does not include real property within the boundaries of the Community Facilities District that has been conveyed to individual homeowners or any real property that is the subject of an Assumption Agreement.

"Report Dates" means, collectively, the First Report Dates and the Second Report Dates.

"Rule" means Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

"Second Report Date" means December 1 of each year.

"Semi-Annual Report" means any Semi-Annual Report provided by the Developer pursuant to, and as described in, Sections 2 and 3 hereof.

"Special Taxes" means special taxes of the Community Facilities District.

"Trustee" means Zions Bancorporation, National Association, as Trustee under the Indenture, or any successor thereto as Trustee thereunder, substituted in its place as provided therein.

Section 2. Provision of Semi-Annual Reports. (a) So long as the Developer's obligations hereunder have not been terminated pursuant to Section 7, the Developer shall, or shall cause the Dissemination Agent (if any) to, provide to the MSRB a Semi-Annual Report that is consistent with the requirements of Section 3 hereof, not later than each Report Date, commencing with the December 1, 2024 First Report Date. If, in any year, a Report Date falls on a day that is not a Business Day, such deadline shall be extended to the next following Business Day.

(b) Not later than 15 calendar days prior to the date specified in subsection (a) of this Section for the providing of the Semi-Annual Report to the MSRB, the Developer shall provide the Semi-Annual Report to the Dissemination Agent (if any) or shall provide notification to the Dissemination Agent that the Developer is preparing, or causing to be prepared, the Semi-Annual Report and the date which the Semi-Annual Report is expected to be available. If by such date, the Dissemination Agent has not received a copy of the Semi-Annual Report or notification from the Developer that the Developer intends to file the Semi-Annual Report, the Dissemination Agent shall contact the Developer to determine if the Developer is in compliance with the first sentence of this subsection (b). The Semi-Annual Report may be submitted as a single document or as separate documents comprising a package, and may incorporate by reference other information as provided in Section 3 of this Disclosure Certificate.

(c) If the Developer does not provide, or does not cause the Dissemination Agent to provide, a Semi-Annual Report to the MSRB by the Report Date as required in subsection (a) above, the Developer or the Dissemination Agent shall, in a timely manner, send a notice to the MSRB in substantially the form attached as Exhibit A.

(d) The Dissemination Agent shall:

(i) Provide each Semi-Annual Report received by it to the MSRB, as provided herein; and

(ii) To the extent the Semi-Annual Report has been furnished to it, file a report with the Developer (if the Dissemination Agent is other than the Developer), the Community Facilities District, and the Participating Underwriter certifying that such Semi-Annual Report has been provided pursuant to this Disclosure Certificate and stating the date it was provided to the MSRB.

Section 3. Content of Semi-Annual Reports. Each Semi-Annual Report shall contain or incorporate by reference the following as of a date not more than sixty (60) days prior to the applicable Report Date:

(a) The following information:

(i) A description of the progress made in the Development Plan for the Property since the date of the Official Statement or the most recent Semi-Annual Report, including a description of any significant changes in such Development Plan and the causes or rationale for such changes.

(ii) To the extent not previously disclosed in a prior Semi-Annual Report, a discussion of any material change in the respective sources of funds of each Major Developer to finance their development of the Property as disclosed in their Financing Plan, and an estimate of the remaining costs to be spent by the Developer to reach the Planned Development Stage.

(iii) An update to the following tables:

Status of Ownership

Information as of May 6, 2024	
Owned by Lennar Homes	87
Owned by Homeowners	148

Status of Development of Lots Owned by the Major Developer[1]

Information as of May 6, 2024	
Models	6
Units Under Construction or Completed	45
Finished Lots	36

[1] As of the date of the Official Statement, the Developer is the only Major Developer in the District.

(vi) An update of the status of any previously reported Listed Event described in Section 4 hereof.

(b) In addition to any of the information expressly required to be provided under the preceding paragraph (a), the Developer shall provide such further information, if any, as may be necessary to make the specifically required statements, in the light of the circumstances under which they are made, not misleading. Major Developers that are Affiliates of each other may file a single Semi-Annual Report covering all such entities. Any or all of the items listed above may be included by specific reference to other documents that have been made available to the public on the MSRB's website or through the Securities and Exchange Commission's EDGAR database. The Developer shall clearly identify each such other document so included by reference.

Section 4. Reporting of Significant Events. (a) So long as the Developer's obligations hereunder have not been terminated pursuant to Section 7, pursuant to the provisions of this Section, the Developer shall give, or cause to be given, notice of the occurrence of any of the following events with respect to the Property, if material under clauses (b) and (c), in a timely manner not later than ten business days after obtaining knowledge of the occurrence of the event:

(i) Any conveyance by a Major Developer of any portion of a parcel of Property owned by such Major Developer or any Affiliate of a Major Developer to an entity that is not an Affiliate of a Major Developer, the result of which conveyance is to cause such entity to become a Major Developer.

(ii) Any failure of a Major Developer, or any Affiliate of a Major Developer owning any Property, to pay prior to delinquency any general property taxes or assessments with respect to such Property (to the extent the responsibility of such Major Developer or such Affiliate) that wasn't promptly cured.

(iii) Any denial or termination of credit, any denial or termination of, or default under, any line of credit or loan or any other loss of a source of funds that could have a material adverse effect on a Major Developer's Financing Plan or Development Plan as most recently disclosed in the Official Statement or a Semi-Annual Report or on the ability of a Major Developer, or any Affiliate of a Major Developer owning any Property, to pay the Special Taxes with respect to the Property owned by such Major Developer or such Affiliate prior to delinquency (to the extent the responsibility of such Major Developer or such Affiliate).

(iv) Bankruptcy, insolvency, receivership or similar event of a Major Developer or an Affiliate of a Major Developer owning any Property. For purposes of this paragraph, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for a Major Developer or an Affiliate of a Major Developer owning any Property in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in

which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of a Major Developer or an Affiliate of a Major Developer owning any Property, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of such a Major Developer or an Affiliate of a Major Developer owning any Property.

(v) The sale of all or substantially all of the assets of a Major Developer or an Affiliate of a Major Developer owning any Property, to an entity that is not an Affiliate of a Major Developer.

(vi) Any significant amendments to land use entitlements for the Property, if material.

(vii) Any previously undisclosed governmentally-imposed preconditions to commencement or continuation of development on Property, if material.

(viii) Any previously undisclosed legislative, administrative or judicial challenges to development on Property, if material.

(ix) Any changes, if material, in the alignment, design or likelihood of completion of significant public improvements affecting Property, including major thoroughfares, sewers, water conveyance systems and similar facilities.

(x) The assumption of any obligations by a Major Developer pursuant to Section 6 hereof.

(b) Whenever the Developer obtains knowledge of the occurrence of a Listed Event, the Developer shall as soon as possible determine if such event would be material under applicable federal securities laws.

(c) If the Developer determines that knowledge of the occurrence of a Listed Event would be material under applicable federal securities laws, the Developer shall, or shall cause the Dissemination Agent to, file a notice of the occurrence of such Listed Event with the MSRB, the Community Facilities District, and the Participating Underwriter within ten business days of obtaining knowledge of such occurrence.

Section 5. **Format for Filings with MSRB.** Any report or filing with the MSRB pursuant to this Disclosure Certificate must be submitted in electronic format, accompanied by such identifying information as is prescribed by the MSRB.

Section 6. **Assumption of Obligations.** Prior to termination of the Developer's obligations under this Disclosure Certificate pursuant to Section 7, in the event the Developer conveys any portion of the Property owned by the Developer or any Affiliate of the Major Developer to an entity that is not an Affiliate of the Developer the result of which conveyance is to cause such entity to become a Major Developer, the Developer's obligations under this Disclosure Certificate with respect to such Property shall terminate only upon the execution of an Assumption Agreement by such entity.

Section 7. **Termination of Reporting Obligation.** The obligations of the Developer under this Disclosure Certificate shall terminate upon the earliest to occur of (a) the date on which (i) the Developer is no longer a Major Developer and (ii) the Developer no longer has any obligations under this Disclosure Certificate with respect to Property owned by any Major Developer, or (b) the date on which all of the Series 2024 Bonds have been legally defeased, redeemed, or paid in full. The Developer's obligations under this Disclosure Certificate with respect to a Major Developer shall terminate upon the earliest to occur of (x) the date on which such Major Developer is no longer a Major Developer, as defined herein, or (y) the date on which the Developer's obligation with respect to the Property owned by such Major Developer are assumed under an Assumption Agreement entered into pursuant to Section 6 hereof; provided, however, that upon the occurrence of any of the events described in clauses (x) or (y), the Developer's obligations hereunder with respect to each other Major Developer, if any, shall remain in full force and effect. If the obligations of the Developer under this Disclosure Certificate terminate prior to the final maturity of the Series 2024 Bonds, the Developer shall give, or cause to be given, notice of such termination in a filing with the MSRB, the District, and the Participating Underwriter.

Section 8. **Dissemination Agent.** The Developer may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under this Disclosure Certificate, and may discharge any such Dissemination Agent, with or without appointing a successor Dissemination Agent. The Dissemination Agent may resign by providing 30 days' written notice to the Developer. The Developer shall be responsible for paying the fees and expenses of the Dissemination Agent.

Section 9. **Amendment; Waiver.** Notwithstanding any other provision of this Disclosure Certificate, the Developer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, provided that the following conditions are satisfied:

(a) If the amendment or waiver relates to the provisions of subsection (a) of Section 2 hereof, Section 3 hereof or subsection (a) of Section 4 hereof, it may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature or status of the Developer, or the type of business conducted; and

(b) The proposed amendment or waiver (i) is approved by owners of the Series 2024 Bonds in the manner provided in the Indenture for amendments to the Indenture with the consent of owners, or (ii) does not, in the opinion of nationally recognized bond counsel, materially impair the interests of owners or beneficial owners of the Series 2024 Bonds.

In the event of any amendment or waiver of a provision of this Disclosure Certificate, the Developer shall describe such amendment or waiver in the next Semi-Annual Report, and shall include, as applicable, a narrative explanation of the reason for the amendment or waiver and its impact on the type of financial information or operating data being presented by the Developer.

Section 10. **Additional Information.** Nothing in this Disclosure Certificate shall be deemed to prevent the Developer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any Semi-Annual Report or notice required to be filed pursuant to this Disclosure Certificate, in addition to that which is required by this Disclosure Certificate. If the Developer chooses to include any information in any Semi-Annual Report or notice in addition to that which is specifically required by this Disclosure Certificate, the Developer shall have no obligation under this Disclosure Certificate to update such information or include it in any future Semi-Annual Report or notice of occurrence of a Listed Event or any other event required to be reported.

Section 11. **Default.** In the event of a failure of the Developer or the Dissemination Agent to comply with any provision of this Disclosure Certificate, the Owners of at least 25% of the aggregate principal amount of outstanding Series 2024 Bonds, may take such actions as may be necessary and appropriate, including seeking mandate or specific performance by court order, to cause the Developer or the Dissemination Agent, as the case may be, to comply with its obligations under this Disclosure Certificate. A default under this Disclosure Certificate shall not be deemed an Event of Default under the Indenture, and the sole remedy under this Disclosure Certificate in the event of any failure of the Developer or the Dissemination Agent to comply with this Disclosure Certificate shall be an action to compel performance.

Section 12. **Duties, Immunities and Liabilities of Dissemination Agent.** The Dissemination Agent shall have only such duties hereunder as are specifically set forth in this Disclosure Certificate. The Dissemination Agent shall not be responsible for the form or content of any Semi-Annual Report or notice of Listed Event. The Developer agrees to indemnify and save the Dissemination Agent, and its officers, directors, employees and agents, harmless against any loss, expense and liabilities which it may incur in the exercise or performance of its powers and duties hereunder, including the reasonable costs and expenses (including attorneys' fees) of defending against any claim of liability, and which are not due to its negligence or its willful misconduct. The obligations of the Developer under this Section shall survive the resignation or removal of the Dissemination Agent and the termination of this Disclosure Certificate.

Section 13. **Notices.** Notices should be sent in writing by regular, overnight or electronic mail to the following addresses. The following information may be conclusively relied upon until changed in writing.

Developer:	Lennar Homes of California, LLC 4140 Temescal Canyon Road, Suite 410 Corona, CA 92883 Geoffrey.smith@lennar.com Blaine.humbles@lennar.com
Community Facilities District:	City of Ontario 303 East B Street Ontario, CA 91764 Attn: City Manager sochoa@ontarioca.gov aharkalyan@ontarioca.gov
Participating Underwriter	Ramirez & Co. 633 West Fifth Street, Suite 2693 Los Angeles, CA 90071 Attn: Eric McKean Eric.mckean@ramirezco.com

Section 14. **Beneficiaries.** This Disclosure Certificate shall inure solely to the benefit of the Developer, the Dissemination Agent, the Community Facilities District, the Participating Underwriter and the owners and beneficial owners from time to time of the Series 2024 Bonds, and shall create no rights in any other person or entity.

Section 15. **Governing Laws.** This Disclosure Certificate shall be governed by and construed in accordance with the laws of the State of California.

IN WITNESS WHEREOF, the Developer has executed this Disclosure Certificate as of the date first above written.

APPENDIX I

INFORMATION CONCERNING THE DEPOSITORY TRUST COMPANY AND ITS BOOK-ENTRY SYSTEM

The information in this section concerning DTC and DTC's book-entry only system has been obtained from sources that the District believes to be reliable, but the District takes no responsibility for the completeness or accuracy thereof. The following description of the procedures and record keeping with respect to beneficial ownership interests in the Series 2024 Bonds, payment of principal, premium, if any, accreted value and interest on the Series 2024 Bonds to DTC Participants or Beneficial Owners, confirmation and transfers of beneficial ownership interests in the Series 2024 Bonds and other related transactions by and between DTC, the DTC Participants and the Beneficial Owners is based solely on information provided by DTC to the District which the District believes to be reliable, but the District and the Underwriter do not and cannot make any independent representations concerning these matters and do not take responsibility for the accuracy or completeness thereof. Neither the DTC, Direct Participants, Indirect Participants nor the Beneficial Owners should rely on the foregoing information with respect to such matters, but should instead confirm the same with DTC or the DTC Participants, as the case may be.

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Series 2024 Bonds. The Series 2024 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Bond will be issued for each annual maturity of the Series 2024 Bonds, each in the aggregate principal amount of such maturity, and will be deposited through the facilities of DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.6 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of "AA+." The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at *www.dtcc.com*.

Purchases of Series 2024 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2024 Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2024 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive Series 2024 Bonds representing their ownership interests in Series 2024 Bonds, except in the event that use of the book-entry system for the Series 2024 Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2024 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2024 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2024 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2024 Bonds, such as prepayments, tenders, defaults, and proposed amendments to the Series 2024 Bond documents. For example, Beneficial Owners of Series 2024 Bonds may wish to ascertain that the nominee holding the Series 2024 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2024 Bonds within a maturity are being prepaid, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2024 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Series 2024 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Series 2024 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

A Series 2024 Bond Owner shall give notice to elect to have its Series 2024 Bonds purchased or tendered, through its Participant, to the Trustee, and shall effect delivery of such Series 2024 Bonds by causing the Direct Participant to transfer the Participant's interest in the Series 2024 Bonds, on DTC's records, to the Trustee. The requirement for physical delivery of Series 2024 Bonds in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Series 2024 Bonds are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Series 2024 Bonds to the Trustee's DTC account.

DTC may discontinue providing its services as depository with respect to the Series 2024 Bonds at any time by giving reasonable notice to the District or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, physical certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry only transfers through DTC (or a successor securities depository). In that event, Series 2024 Bonds will be printed and delivered to DTC.

THE TRUSTEE, AS LONG AS A BOOK-ENTRY ONLY SYSTEM IS USED FOR THE SERIES 2024 BONDS, WILL SEND ANY NOTICE OF REDEMPTION OR OTHER NOTICES TO OWNERS ONLY TO DTC. ANY FAILURE OF DTC TO ADVISE ANY DTC PARTICIPANT, OR OF ANY DTC PARTICIPANT TO NOTIFY ANY BENEFICIAL OWNER, OF ANY NOTICE AND ITS CONTENT OR EFFECT WILL NOT AFFECT THE VALIDITY OF SUFFICIENCY OF THE PROCEEDINGS RELATING TO THE REDEMPTION OF THE SERIES 2024 BONDS CALLED FOR REDEMPTION OR OF ANY OTHER ACTION PREMISED ON SUCH NOTICE.

Reference: Appraisal Report
City of Ontario CFD No. 35 (Countryside Phase 2 South-Facilities)
Country Lane by Lennar (Shady Tree and Whispering Wind)
Ontario Ranch, City of Ontario, County of San Bernardino

Dear Mr. Harkalyan:

At the request and authorization of the City of Ontario, we have completed an Appraisal Report for the City of Ontario Community Facilities District No. 35 (Countryside Phase 2 South - Facilities) ("Ontario CFD No. 35") which consists of a residential community known as Country Lane, in the area known as Ontario Ranch in the City of Ontario. Country Lane includes a total of 235 residential units split between two product lines, Shady Tree at Country Lane ("Shady Tree") and Whispering Wind at Country Lane ("Whispering Wind"). Shady Tree is proposed for 97 detached homes arranged on "Z" lots containing a minimum of 3,455 square feet and in a conventional configuration while Whispering Wind is proposed for 138 detached cluster units arranged in a motorcourt configuration on lots with a minimum of 3,000 square feet; all homes are single family detached. Lennar Homes of California, LLC ("Lennar") is developing and marketing the property. Country Lane offers two-story floorplans ranging in size from 2,213 to 2,409 square feet for Shady Tree (conventional small lot product), and 1,618 to 2,202 square feet for Whispering Wind (cluster small lot product). Out of the 235 proposed units within Country Lane, 137 have closed to individual homeowners to date with an additional 38 in escrow which are due to close upon completion. The Lennar-owned property ranges from completed model homes to houses under construction to physically finished pads.

The valuation methods used in this report are the Sales Comparison Approach, a Discounted Cash Flow Analysis and a Mass Appraisal Technique as defined within this report. The fee simple estate of the subject property has been valued, subject to the Ontario CFD No. 35 special tax lien. This report is written with the hypothetical condition that the subject property is enhanced by the improvements and/or fee credits to be funded by the Special Tax Bonds of Ontario CFD No. 35. As a result of our investigation, the concluded minimum market value for the subject property is shown below.

Shady Tree and Whispering Wind at Country Lane:

Lennar Ownership (80 lots & 18 houses)	$ 29,406,682
Individual Owners (137 houses)	$ 88,072,375
Total Aggregate Value Ontario CFD No. 35	**$117,479,057**

The values are stated subject to the Assumptions and Limiting Conditions of this report, the Appraiser's Certification and as of April 1, 2024.

115 East Second Street, Suite 100, Tustin, California 92780
(714) 544-9978 - Phone, (714) 544-9985 – Fax, E-Mail: kssiino@msn.com

Some supporting documentation concerning the data, reasoning and analyses may be retained in the appraiser's files. The information contained in this report is specific to the needs of the client and for the intended use stated in this report. This Appraisal Report is intended to comply with both the Uniform Standards of Professional Appraisal Practice ("USPAP" January 2020/2022) and with the Appraisal Standards of the California Debt and Investment Advisory Commission ("CDIAC"). The appraiser is not responsible for unauthorized use of this report.

This letter of transmittal is part of the attached report, which sets forth the data and analyses upon which our opinion of value is, in part, predicated.

Respectfully submitted,

KITTY SIINO & ASSOCIATES, INC.

ASSUMPTIONS AND LIMITING CONDITIONS

1. This report might not include full discussions of the data, reasoning and analyses that were used in the appraisal process to develop the appraiser's opinion of value. Some supporting documentation concerning the data, reasoning and analyses may be retained in the appraiser's files. The information contained in this report is specific to the needs of the client and for the intended use stated in this report. The appraiser is not responsible for unauthorized use of this report.

2. No responsibility is assumed for legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated in this report.

3. It is assumed that the subject properties are subject to the special tax lien of Ontario CFD No. 35.

4. Responsible ownership and competent property management are assumed unless otherwise stated in this report.

5. The information furnished by others is believed to be reliable; however, no warranty is given for its accuracy.

6. All engineering is assumed to be correct. Any plot plans and illustrative material used in this report are included only to assist the reader in visualizing the property and may not be to scale.

7. It is assumed that there are no hidden or unapparent conditions of either property, subsoil or structures that would render them more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.

8. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless otherwise stated in this report.

9. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless nonconformity has been stated, defined, and considered in this appraisal report.

10. It is assumed that all required licenses, certificates of occupancy or other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimates contained in this report are based.

11. Any sketch or photograph included in this report may show approximate dimensions and is included only to assist the reader in visualizing the properties. Maps, photographs, and exhibits found in this report are provided for reader reference purposes only. No guarantee regarding accuracy is expressed or implied unless

otherwise stated in this report. No survey has been made for the purpose of this report.

12. It is assumed that the utilization of the land and improvements (if any) are within the boundaries or property lines of the property described and that there is no encroachment or trespass unless otherwise stated in this report.

13. The appraiser is not qualified to detect hazardous waste and/or toxic materials. Any comment by the appraiser that might suggest the possibility of the presence of such substances should not be taken as confirmation of the presence of hazardous waste and/or toxic materials. Such determination would require investigation by a qualified expert relating to asbestos, urea-formaldehyde foam insulation or other potentially hazardous materials that may affect the value of the property. The appraiser's value estimate is predicated on the assumption that there is no such material on or in the property that would cause a loss in value unless otherwise stated in this report. No responsibility is assumed for any environmental conditions or for any expertise or engineering knowledge required to discover them. The appraiser's descriptions and resulting comments are the result of the routine observations made during the appraisal process.

14. Proposed improvements, if any, are assumed to be completed in a good workmanlike manner in accordance with the submitted plans and specifications.

15. The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings, if any, must not be used in conjunction with any other appraisal and are invalid if so used.

16. The Americans with Disabilities Act ("ADA") became effective on January 26, 1992 and have been updated several times since then. The appraiser has made no specific compliance survey and analysis of the property to determine whether they conform to the various detailed requirements of the ADA, nor is the appraiser a qualified expert regarding the requirements of the ADA. It is possible that a compliance survey of the property, together with a detailed analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the ADA. If so, this fact could have a negative effect upon the value of the property. Since the appraiser has no direct evidence relating to this issue, a possible noncompliance with requirements of the ADA in estimating the value has not been considered.

17. It is assumed there are no environmental concerns that would slow or thwart development of the subject properties and that the soils are adequate to support the highest and best use conclusions.

18. Possession of this report, or a copy thereof, does not carry with it the right of publication. It may not be used for any purpose by any person other than the party to whom it is addressed without the written consent of the appraiser, and in any event, only with proper qualification and only in its entirety. Permission is given for this appraisal to be published as a part of the Official Statement or similar document for the Ontario CFD No. 35 special tax bonds

19. It is assumed that there are no conditions of approval or hindrances which could slow or thwart the obtaining of occupancy permits on the 235 subject residential units. This is the case per the builders; however, we were unable to verify via the various conditions of approval.

HYPOTHETICAL CONDITION

1. It is assumed that all improvements and benefits to the subject properties, which are to be funded by the City of Ontario CFD No. 35 Special Tax Bond Proceeds are completed and in place.

EXTRAORDINARY ASSUMPTION

1. It is assumed that the sales information and remaining development costs/fees as reported by the builders and summarized in the report are correct. We have not reviewed escrow documents on each home sale however, per our review the sales as reported by the builder appear to be reasonable. We have not received any detail regarding the remaining development costs and have relied upon the builder for this information in the valuation analysis. If the actual land development costs differ, the final values may change.

PURPOSE OF THE APPRAISAL

The purpose of this appraisal report is to estimate the value of the fee simple interest of the subject property, subject to the proposed lien along with the benefits from the Ontario CFD No. 35 Special Tax Bonds.

THE SUBJECT PROPERTY

The subject property consists of 235 proposed single-family detached homes being developed into a community known as Shady Tree and Whispering Wind at Country Lane in the City of Ontario ("City"). Country Lane is located along the south side of Chino Avenue, west of Archibald Avenue, just north of Schaefer Avenue. Country Lane is being built and sold by Lennar and features two product lines: Shady Tree which includes 97 detached conventionally arranged homes sized 2,213 to 2,409 square feet, and Whispering Wind which includes 138 detached homes arranged in a motorcourt configuration with units sized from 1,618 to 2,202 square feet. The subject community is encompassed by two tract maps. Tract Map 17449 covers the northern part of the subject (the Shady Tree product line), with "Z" lots containing a minimum of 3,455 square feet. Tract Map 17450 which covers the southern part of the subject (the Whispering Wind product line), has detached cluster lots containing a minimum of 3,000 square feet. The lots vary in status from completed models, to homes under construction to finished lots. The description, ownership and condition of the lands are detailed in the chart below.

Description	No. Lots	Owner	Product / Condition / Status
Shady Tree at Country Lane (Tract No. 17449)			
Lots 1-32, 52-59, and 70-97 of Tract 17449	68	Individuals	Completed Homes
Lots 42-44 of Tract 17449	3	Lennar	Model Homes (None in Escrow)
	0		Over 95% Complete
Lots 33-39, 48-51, 60-69 of Tract 17449	21	Lennar	Under Construction (19 in Escrow)
Lots 40-41, 45-47 of Tract 17449	5	Lennar	Finished Lots (None in Escrow)
Subtotal – Shady Tree	**97**		

Whispering Wind at Country Lane (Tract No. 17450)			
Lots 52-107, 118-130 of Tract 17450	69	Individuals	Completed Homes
Lots 109-111 of Tract 17450	3	Lennar	Model Homes (None in Escrow)
Lots 40-51 of Tract 17450	12	Lennar	Over 95% Complete (12 in Escrow)
Lots 17-39 of Tract 17450	23	Lennar	Under Construction (7 in Escrow)
Lots 1-16, 108, 112-117, 131-138 of Tract 17450	31	Lennar	Finished Lots (None in Escrow)
Subtotal – Whispering Wind	**138**		
TOTAL CFD No. 35	**235**		

INTENDED USE OF THE REPORT

It is the appraiser's understanding that the client, the City of Ontario, will utilize this report in disclosure documents related to the sale of the Ontario CFD No. 35 Special Tax Bonds. This report may be included in the Official Statement or similar document to be distributed in connection with the marketing and offering of the bonds. It is the appraiser's understanding that there are no other intended uses of this report.

DEFINITIONS

Market Value

The term "Market Value" as used in this report is defined as:

> *"The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:*
>
> 1. *buyer and seller are typically motivated;*
> 2. *both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest;*
> 3. *a reasonable time is allowed for exposure in the open market;*
> 4. *payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and*

5. *the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."*[1]

Inherent in the Market Value definition is exposure time or the time the subject property would have been exposed on the open market prior to the appraisal in order to sell at the concluded values. In the case at hand and considering current market conditions, the exposure time for each individually owned property or each builder-owned ownership in a bulk sale, is estimated at less than one year.

Finished Lot or Pad

The term "Finished Lot or Finished Pad" is defined as:

> *"A parcel which has legal entitlements created by a recorded subdivision map or condominium map, whose physical characteristics are a fine graded level pad or lot with infrastructure contiguous to each individual lot, asphalt paved roads and the necessary utilities. This term assumes the payment of all applicable development fees with the exception of building permit and plan check fees."*

Minimum Market Value

The term "Minimum Market Value" as used in this report is defined as:

> *"The base market value of a new home, less current concessions. That is, most buyers purchase some upgrades, options and/or lot premiums when purchasing a new home. The sales price for the new home typically includes the base price for the plan, plus any upgrades, options or lot premiums, less builder concessions, if any, which were given or paid for by the builder. In the current marketplace, concessions may also include mortgage rate buydowns and help with closing costs which are not typically reflected in the reported sales price of the home; however, are accounted for in the Minimum Market Value. The concluded minimum market value is for the base value of the plan only, not taking into consideration any upgrades, options, or premiums and taking into consideration all concessions."*

Mass Appraisal Technique

The term "Mass Appraisal" as used in this report is defined as:

[1] The Appraisal of Real Estate, 13th Edition

> *"The process of valuing a universe of properties as of a given date using standard methodology employing common data and allowing for statistical testing"*[2]

In the case at hand, the statistical testing included reviewing all original builder sales and reviewing the Multiple Listing Service ("MLS") for any re-sales and/or current listings of each plan type. In addition, we have determined the actual range of sales prices for each plan type which will be utilized in the valuation process. The search of the MLS resulted in no resales and no current resale listings within the subject properties.

Hypothetical Condition

The term "Hypothetical Condition" is defined by USPAP as:

> "*A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis"*

The Hypothetical Condition within this report is that subject property is enhanced by the improvements and/or fee credits to be funded by bonds to be issued by and is subject to the lien of Ontario CFD No. 35.

Extraordinary Assumptions

The term "Extraordinary Assumption" is defined by USPAP as:

> *"An assignment specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions"*

There is one Extraordinary Assumption within this report which is that the sales information and the cost information as received from each builder are true and accurate. We have not reviewed actual escrow documents on the sales of the new homes but we have reviewed each sale as reported by the builder and the sale prices appear reasonable. In addition, we have not received any detail on the remaining land development costs/fees. We have considered within the appraisal the number Lennar has

[2] USPAP 2018-2019 Edition

represented. It should be noted that these costs were relied upon for the value conclusion and, if the remaining land development costs differ, it may change the value conclusions.

PROPERTY RIGHTS APPRAISED

The property rights being appraised are of a fee simple estate interest, subject to easements of record and subject to Ontario CFD No. 35. The definition of "fee simple estate" is defined as:

> *"absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."*[3]

EFFECTIVE DATE OF VALUE

The subject property is valued as of April 1, 2024.

DATE OF REPORT

The date of this report is May 6, 2024.

SCOPE OF APPRAISAL

As previously stated, the purpose of this appraisal is to report the appraiser's best estimate of the market value for the subject property, Ontario CFD No. 35, which is known as the community of Country Lane (specifically, Shady Tree at Country Lane and Whispering Wind of Country Lane). There are a total of 235 proposed homes, 97 at Shady Tree and 138 at Whispering Wind. This appraisal will be presented in the following format:

- County of San Bernardino Area Description
- City of Ontario/Ontario Ranch Description
- Brief Description of Ontario CFD No. 35
- Subject Property Descriptions
- Inland Empire Housing Market Analysis
- Highest and Best Use Analyses
- Valuation Procedures, Analyses and Conclusions
- Appraisal Report Summary

[3] The Appraisal of Real Estate, 13th Edition

In valuing the subject property, the value estimates will be based upon the highest and best use conclusion using the Sales Comparison Approach. The Sales Comparison Approach to value is defined as:

> *"…a set of procedures in which a value indication is derived by comparing the property being appraised to similar properties that have been sold recently, then applying appropriate units of comparison and making adjustments to the sales prices of the comparables based on the elements of comparison. The Sales Comparison Approach may be used to value improved properties, vacant land or land being considered as though vacant; it is the most common and preferred method of land valuation when an adequate supply of comparables is available."*[4]

In the Sales Comparison Approach, market value is estimated by comparing properties similar to the subject that have recently been sold, are listed for sale or are under contract. Neither a cost or income approach was utilized as they were not considered necessary to arrive at credible results. In addition, we have utilized a mass appraisal technique which included reviewing all builder sales and searching the MLS for any resales and/or resale listings.

The due diligence of this appraisal report included the following:

1. Compiled demographic information and related that data to the subject property to perform a feasibility/demand analysis.

2. Gathered and analyzed information on the subject marketplace, reviewed several real estate brokerage publications on historical and projected growth in the subject market and researched the micro- and macro-economic outlook within San Bernardino County and the Ontario area.

3. Inspected the subject property between March 1, 2024 and April 1, 2024.

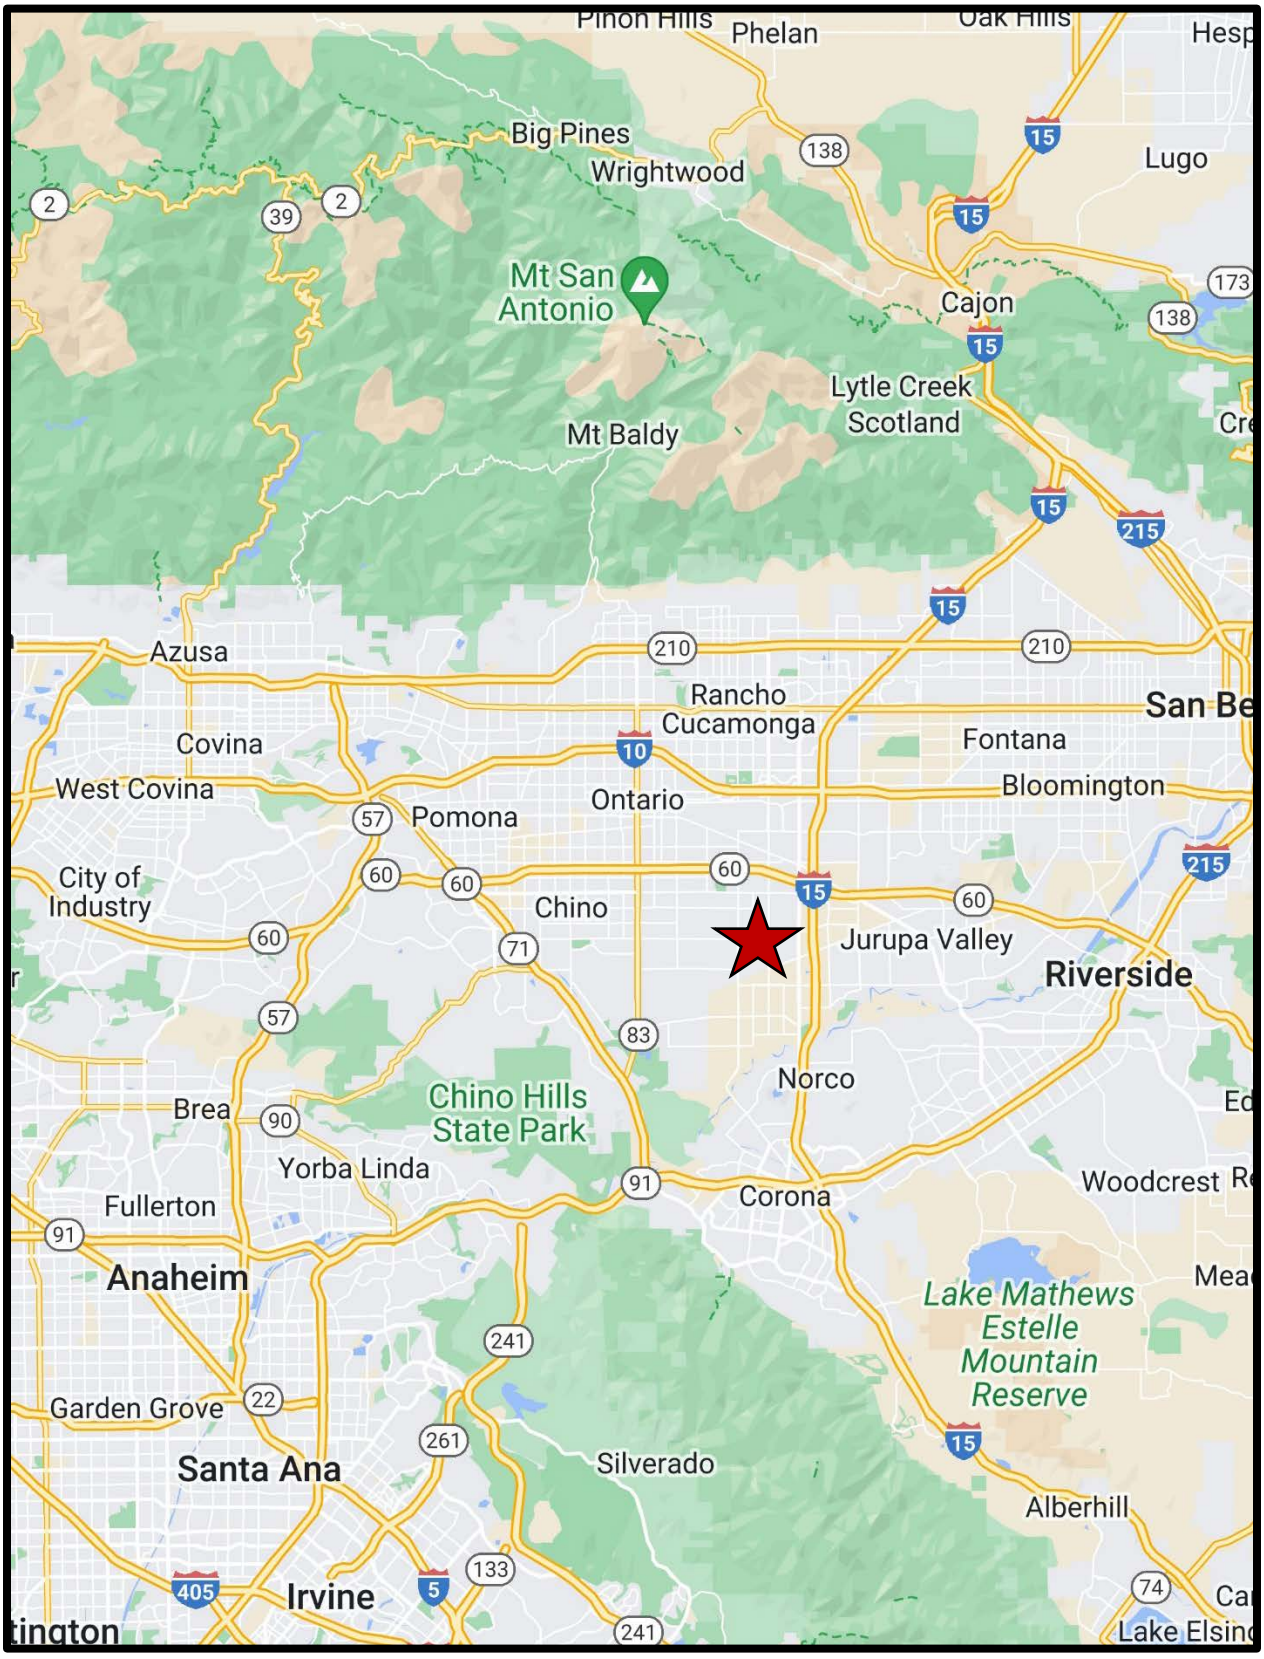
4. Had the site flown by an aerial photographer on March 27, 2024.

5. Interviewed representatives from each of the Builders and/or their consultants to obtain community information.

6. Reviewed a preliminary title report on portions of the majority of the subject properties.

[4] Dictionary of Real Estate Appraisal, Fourth Edition, 2002

7. Searched the area for relevant comparable residential land sales, inspected and verified each sale with a buyer or seller or broker familiar with the transaction.



8. Searched the area for relevant comparable new home residential projects, including sales prices and concessions and interviewed representatives from each comparable project.

9. Reviewed the sales brochures and websites for the subject communities.

10. Reviewed developer sales information on each home within the communities.

11. Reviewed Multiple Listing Service information to determine if there are any resales, pending resales or listings of resale homes.

REGIONAL AREA MAP

COUNTY OF SAN BERNARDINO AREA DESCRIPTION

Location

The subject property is located in the southwestern portion of San Bernardino County, in the southern portion of the City of Ontario within the area known as Ontario Ranch. The subject lies west of Interstate 15 ("I-15") and south of State Route 60 ("SR-60"), specifically on the south side of Chino Avenue, west of Archibald Avenue and north of Schaefer Avenue.

San Bernardino County (the "County") is the largest county in the United States by area, containing over 20,100 square miles, and includes large expanses of undeveloped deserts, valleys, canyons, and mountains with mountains and deserts comprising about 90 percent of the acreage. The County is a major beneficiary of outward urban pressure from Los Angeles, Orange, and Riverside Counties. Although located at the periphery of most urban activity in Southern California, the southwestern portion of San Bernardino County has been a major growth area and is perceived by most observers as an area expected to continue to grow. Riverside and San Bernardino Counties are considered distinct from Los Angeles and Orange Counties and belong to the same Metropolitan Statistical Area ("MSA"). This area, consisting of San Bernardino and Riverside Counties, is commonly referred to as the Inland Empire.

Transportation

The subject property is situated approximately 2.5 miles west of I-15, 1.5 miles south of SR-60, approximately 4.0 miles south of Interstate 10 ("I-10"), and about 8.8 miles north of State Route 91 ("SR-91"). SR-60 is the nearest highway providing access to the subject via the Archibald Avenue exit. The I-15 also provides convenient access to the subject via the Cantu Galleano Ranch Road/Ontario Ranch Road on/off ramps. Cantu Galleano Ranch Road becomes Ontario Ranch Road at the City limits at Hamner Avenue. I-15 travels in a northerly/southerly direction and provides access to Barstow and Nevada to the north and San Diego to the south. I-10 begins from the west in Los Angeles and provides access into Arizona to the east. In the vicinity of the subject, SR-60 provides additional east/west access about 1.5 miles north of the subject, and less than three miles

south of I-10, beginning in downtown Los Angeles, providing access throughout Riverside and San Bernardino counties, and ending in Beaumont.

The County is served by Amtrak and Metrolink as well as several rail-freight lines. The Ontario International Airport provides regional international air service and is located approximately three miles north of the subject property. San Bernardino International Airport is located approximately 20 miles northeast of the subject. In addition, the County has extensive trucking corridors along the previously referred to interstates, highways, and state freeways.

Population

The County has experienced population growth for several decades and is anticipated to continue to do so in the foreseeable future. Per the California Department of Finance, the January 1, 2023 (latest available) County population was 2.182 million. This represents a one-year increase of 0.1 percent. This compares to an average annual growth rate over the past 20 years of 2.1 percent. Current projections for San Bernardino County per the California Department of Finance suggest the population is anticipated to reach approximately 2.32 million by 2030, indicating an average annual increase of approximately 0.9 percent over the next seven years. The current near zero growth rate is lower than the previous 20-year annual average of 2.1 percent, likely due to the disruption of the COVID pandemic. The future growth of 0.9 percent annually was predicted assuming a more stable market than was seen prior to the Great Recession, however doesn't take into effect the COVID pandemic.

Economy

The U.S. economy in the past few years has experienced challenging times due to reactions from the COVID disruption. These economic challenges include significant inflation, increasing interest rates, banks' instability and reaching an agreement on the debt ceiling. During COVID, the Federal, State, County and City Governments ("Governments") originally shut down non-essential businesses and areas where social gatherings occur in order to slow the spread of the virus. This created a strain on small

and large businesses alike. Restaurants and hotels were hit hard and travel reduced drastically as citizens were urged to stay home. Layoffs occurred with reports of 40 million people filing for unemployment the first few months of the pandemic. The Governments attempted to curtail the job losses and hardships with the approval of over 5.6 trillion in COVID relief to our nation. In addition, the Federal Reserve Board ("Board") reduced interest rates and started quantitative easing by buying bonds. This legislation helped shore up the U.S. economy; however, due to the significant amount of new money introduced into the economy, inflation began occurring at a rate not seen for 40 years. As of February 2024, the national inflation rate was at 3.2 percent; up from a low of 2.97 in July 2023, and down from the peak in June 2022 of 9.1 percent. This compares to a 1.24 annual percent rate for 2020 and an average of 1.74 percent annual rate for the previous ten years. Whether it is a result of world turmoil, supply chain issues due to COVID or from the additional money entering the economy, inflation has been hitting Americans hard.

In an effort to curb inflation, the Federal Reserve Board ("Board") began raising interest rates. Between March 2022 and August 2023, there were eleven interest rate increases rising the Federal Funds Rate ("FFR") from 0.25 – 0.50 percent to 5.25 – 5.50 percent. The Board has not increased rates since August 2023, due to the decrease in inflation coupled with other mostly positive signs in the economy. While the eleven increases appeared to help slow inflation, the quick, significant increases strained bank balance sheets. Three major banks failed in early 2023 with the government taking unprecedented action to help shore them up. At the most recent Board meeting (March 19-20, 2024) they continued to pause the increases for the fifth meeting in a row and continued to suggest there still could be three interest rate cuts later this year. After the March Board meeting the stock market increased to an all-time high and bond rates decreased slightly based on the news. The FFR increases over the past couple years increased a typical 30-year fixed mortgage rate from 2.98 percent as of November 10, 2021, to the high of 7.79 percent as of October 2023; however, the rate has dropped to 6.9 percent as of March 21, 2024 (per Federal Reserve Economic Data-St. Louis). This steep increase over the past two years has significantly affected the real estate market.

The COVID disruption to the economy also caused extreme volatility in the stock market with the Dow Jones Industrial Average ("DJIA") dropping from 29,398 in February 2020 to 19,174 in March 2020, a drop of 37 percent. The Government interventions resulted in a bounce back in the DJIA to 27,111 by June 2020 with the stock market then climbing up to a peak of 36,799 in January 2022. In February 2022, Russia began invading Ukraine which caused volatility in world economics followed by U.S. inflation, interest rate increases and instability in the U.S. due to the debt ceiling being reached. In addition, Israel declared war on Hamas on October 7, 2023, which added to the strain. All of these factors caused a drop in the DJIA of over ten percent from January 2022 to the low on October 27, 2023 (32,418); however, the Federal Reserve Board's notes from March coupled with generally strong economic news, brought the stock market to a new all-time high of 39,340 (March 25, 2024). It appears the Board's decision not to increase rates further and their suggestion that decreases may occur in the next nine months has been well received by investors. Current concerns on the U.S. economy include the nation's debt limit which can only be increased through government approvals. The current partisanship in our government caused a stand-off in increasing the debit limit which has been in danger of being reached numerous times with several temporary deals being reached, however, no permanent agreements at this time.

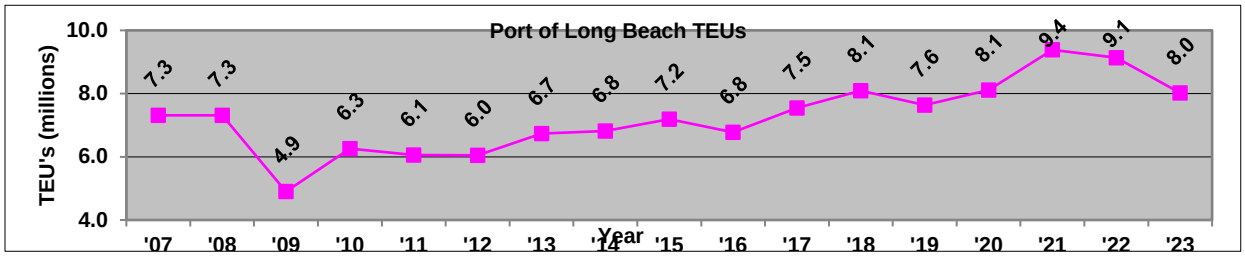
The significant increase in mortgage rates over the past 20 months is just one part of the puzzle affecting the impact of new housing on the broader economy. Additional risks include homebuilders trying to find balanced inventory levels, supply chain issues, both wage and price increases, and persistent inflation. Over the past 25 years, the Inland Empire economy has had significant cycles with home prices almost doubling from 1995 to 2005, then falling by over 50 percent during the Great Recession, taking prices back to 2002 levels. Home values appeared to hit bottom in 2009 then remained essentially flat for two to three years with the majority of the Inland Empire housing market seeing an improvement beginning in mid-2012. Contrary to homebuilder's original thoughts of a slowdown due to the COVID pandemic, new home buyers stepped up in the spring of 2020 and new home sales were significantly higher during the second half of 2020 versus

the previous year and continued extremely strong throughout 2021. This exceptional activity in new home sales was the one bright spot in the COVID disruption and is thought to be due to several factors, including: a tight supply of resale homes; historically low interest rates; millennials finally buying homes; and the work from home factor which began during the pandemic and allowed residents to live in more suburban areas without long commutes. As rates began increasing in early 2022, there was a significant slowdown in sales within the Inland Empire. The high mortgage rates have significantly slowed existing homeowners from moving. The limited availability of existing homes on the market has resulted in new homes capturing a much larger share of the total home sales; however, new home sales are also down year-over-year in the Inland Empire.

While most jobs have come back, job losses were significant during the COVID recession as the Nation's unemployment rate went from 3.5 percent in February 2020 to 14.4 percent in April 2020, with the February 2024 National unemployment rate at 4.2 percent (Employment Development Department, not seasonally adjusted). The unemployment rate for the MSA was estimated at 5.5 percent (as of February 2024 per the Employment Development Department). This reflects a decrease from the peak during the Great Recession of 15.1 percent in 2010 and a decrease from the peak during COVID of 14.9 percent. As of February 2024, Riverside County's unemployment rate was 5.6 and San Bernardino County had a 5.4 percent unemployment rate. The current unemployment rate for the MSA of 5.6 percent is similar to the California rate at 5.6 percent and higher than the February 2024 National rate of 4.2 percent. Below is a table comparing San Bernardino County's unemployment rate to the unemployment rates of the surrounding counties as of February 2024.

Jurisdiction	As of	Unemployment Rate*
Los Angeles County	Feb-2024	5.0%
Riverside County	Feb-2024	5.6%
San Bernardino County	Feb-2024	5.4%
Orange County	Feb-2024	4.2%
San Diego County	Feb-2024	4.7%

Source: State of California E.D.D.; *Not Seasonally Adjusted



The latest UCLA Anderson Forecast ("Forecast") was issued March 13, 2024, and stated the possibility of a recession has faded due to expansionary fiscal policy, new national industrial policy, and the fact that consumers are still spending despite the perception of economic uncertainty. GDP growth in the fourth quarter came in at a higher-than-expected 3.2 percent annual rate of growth that was mostly due to strong consumer spending but also to inventory replacement after the holidays. The Forecast is now for the first quarter 2024 growth to be 2.2 percent. They believe the impact of higher interest rates will restrain growth in 2024. Inflation is still higher than the target 2.0 percent primarily because of residential rents, automobile repair and new health insurance premiums. The upside of the Forecast is productivity growth thanks to new technology that drives higher wages and higher GDP. The Forecast mentions risks to their current forecast include a possible shutdown of government, geopolitical events and the possibility of a different national economic policy in 2025 due to the election.

The UCLA Forecast for California is typically more positive than the overall Nation due to job growth in California; however, this Forecast suggests a slower-growing California economy with the growth not much faster than the U.S. They believe that the unemployment rate for the first quarter of 2024 will average 4.7 percent (currently 5.6 percent) with the 2024 yearly average of 4.6 percent, then 3.8 percent in 2025 and 3.9 percent in 2026. The housing market in California is still misbehaving as higher interest rates should send prices lower; however, the median price of an existing single-family home sold in the state has climbed significantly since December 2022 by 9.3 percent in San Diego; 9.0 percent in Los Angeles and 3.9 percent in San Francisco. With existing home sales numbers at depression levels, builders are responding with new developments with the Forecast stating that 32 percent of all developers interviewed in Northern California and 55 percent in Southern California are planning to begin one or more new multi-family projects in 2024. The Forecast is estimating 123,000 net new units to be permitted in California in 2024 and grow to 159,500 by the end of 2026.

One bright spot in the current economy is sales of new homes. While existing homeowners are reluctant to put their houses on the market due to their under-four

percent mortgages, new home sales continue. Even with rates in the seven percent range, new homes are still selling. This is partially due to the extremely limited availability of existing homes on the market, coupled with homebuilders offering to buy-down interest rates to help new home buyers. While new homes historically captured 10 – 13 percent of total home sales; over the past year new homes are capturing over 30 percent of total home sales. This rush to new home purchases has put pressure on pricing, even while interest rates have soared. During the Great Recession median housing prices (existing) in San Bernardino County dropped from a high of $350,288 in March 2006 to a low of $120,406 in May 2009. Median prices surpassed the pre-recession high in September 2020, hit a peak in April 2022 of $495,000 with the median home price bouncing generally between $475,000 and $500,000 over the past six months (all statistics per the California Association of Realtors). The median home price in San Bernardino County is up 2.3 percent year over year, which will be discussed further in the Inland Empire Housing Market section later within this report.

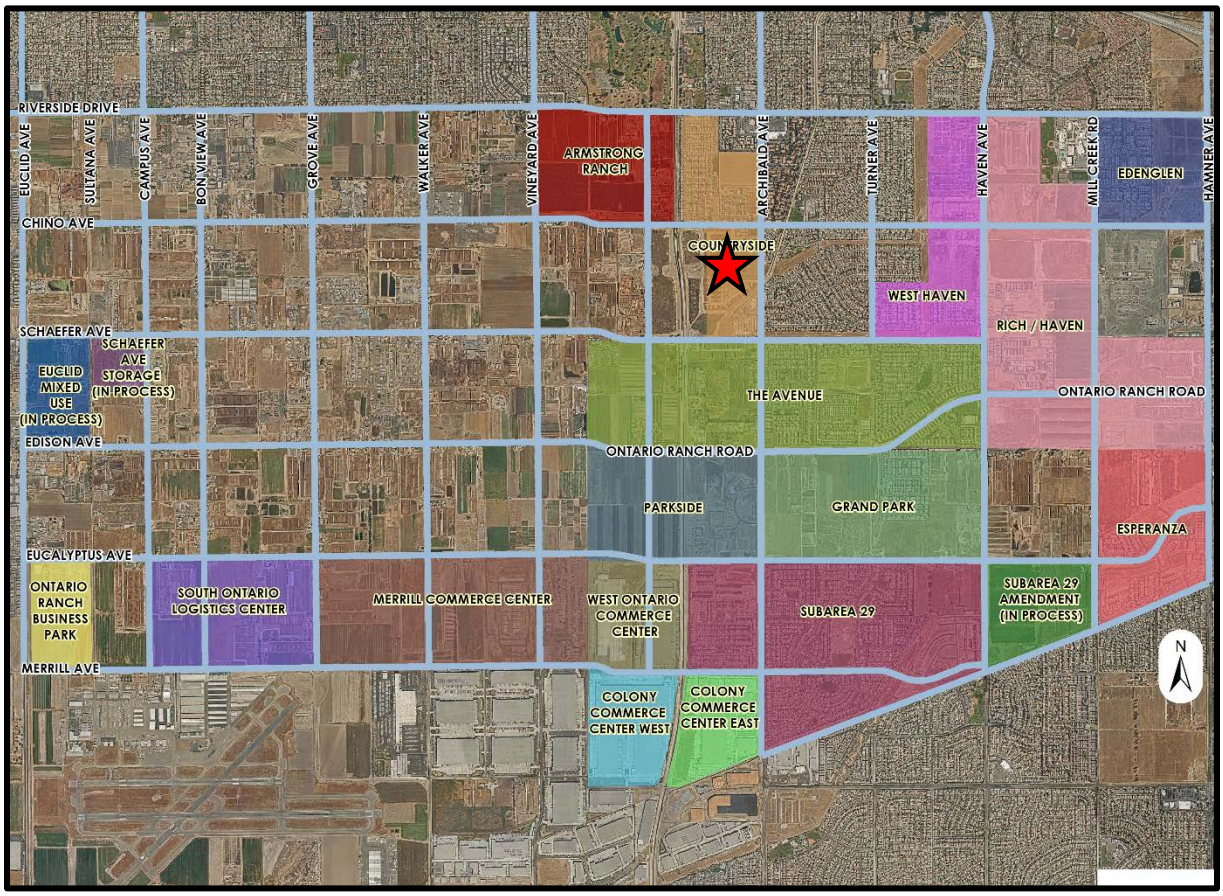
As a final indicator of overall economic activity for the region, we have reviewed the rise and fall of TEUs (Twenty-foot Equivalent Units – i.e., containers) being processed in the local ports. This is especially important for the Inland communities, as it represents much of the growth in development of west coast distribution centers and warehouses in the Inland Empire linked to supply-chain nodes in the Pacific Rim. The chart below shows TEU activity at the Port of Long Beach. Generally, there had been increases since 2009 with the exception of a slight dip in 2016 and again in 2019 which ended with a 5.6 percent downturn. The 2022 calendar year saw a decrease of 2.6 percent from the previous year; however, 2023 saw the largest percentage decrease of 12.2 percent year over year (8,018,668 versus 9,133,657 total TEUs). It should be noted that consumer demand cooled in mid-2022 leaving fewer TEUs needed. For the calendar year 2024, TEUs are up over 20 percent.

Education

The subject area is served by the Mountain View Elementary School District and Chaffey Joint Union High School District. The subject is assigned to Mountain View Elementary, Grace Yokley Middle School, and Colony High School. Mountain View Elementary School District operates a total of five schools (four elementary schools and one middle school) and Chaffey Joint Union High School District operates 12 schools serving students above middle school age. Community Colleges are available near the subject at Chaffey College in Rancho Cucamonga (ten miles north), at Chaffey College's Chino campus (five miles west of the subject in Chino), and San Bernardino Valley College (17 miles northeast). Higher education is available approximately 20 miles to the northeast at California State at San Bernardino, about 15 miles east is University of California at Riverside, ten miles northwest in the private Claremont Colleges area which include Claremont McKenna College, Pitzer College, Harvey Mudd College, Pomona College, and Scripps College, and 13 miles to the northwest at Cal Poly Pomona.

Conclusion

Population in the County has increased over the past 20 years with predictions for continued population growth. The Nation's economy has been slowing after the Board increased the FFR over five percent to fight historical inflation which began during COVID. One bright spot during COVID was housing; the region's relative affordability and low interest rates, coupled with the rising prices in the coastal market and the demand for housing, set up a new housing boom. This was followed by a significant drop in sales due to existing homeowners being unwilling to give up their low-rate mortgages, which turned out to be a boon for new homes. Current concerns for the Inland Empire economy include stubborn inflation, the high prices of homes, higher interest rates, supply chain issues, possible government shutdowns along with the Russian/Ukraine and Israel/Palestine conflicts, which are all creating volatility in both local and global financial markets. In conclusion, the County is expected to continue to grow in population due to its Southern California location, the availability of land, and the relatively lower land and housing prices in comparison to adjacent Orange, Los Angeles, and San Diego Counties.

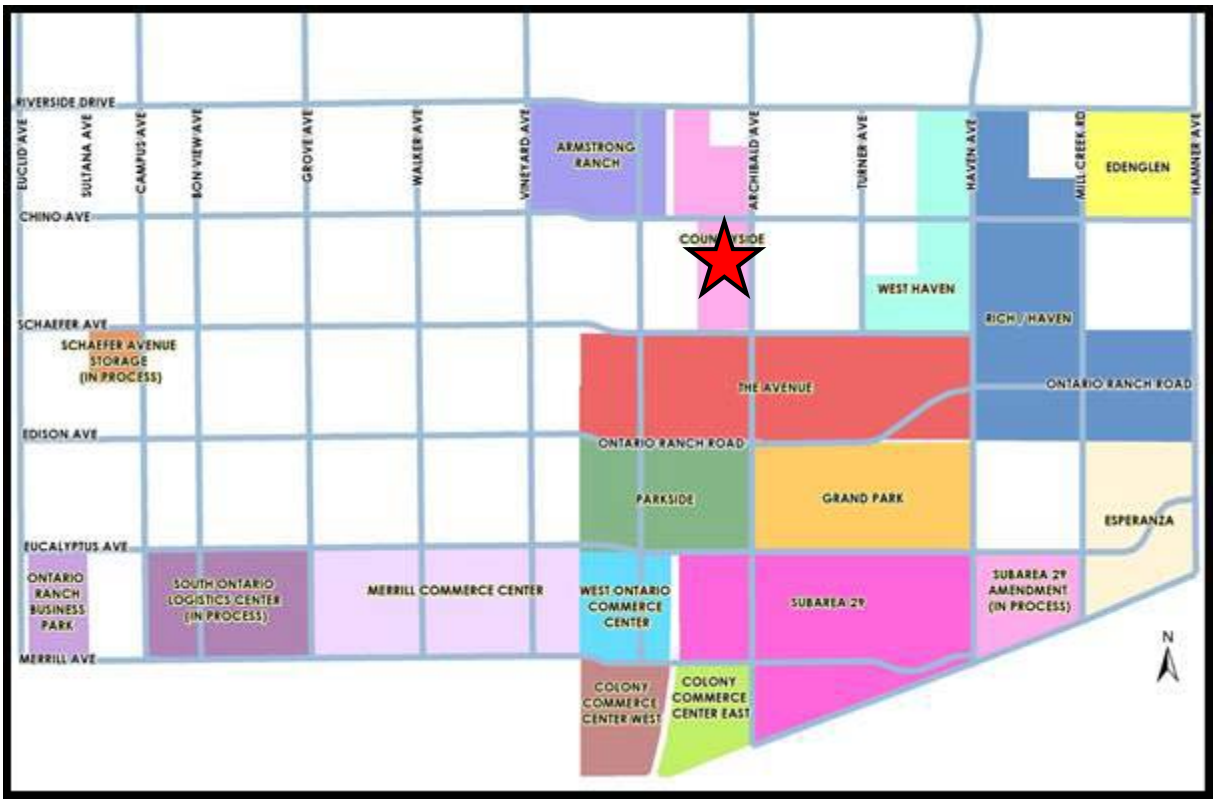


CITY OF ONTARIO / ONTARIO RANCH DESCRIPTION

General Area

The subject property is located in the southern portion of the City of Ontario near the western boundary of San Bernardino County. The City is about 35 miles east of downtown Los Angeles and encompasses approximately 50 square miles of land area. Ontario was established in 1882 by Canadian engineers George and William Chaffey and Charles Frankish. The settlement was originally named Ontario Model Colony after the province in Ontario, Canada where the settlers were from. The subject is located in the area known as the Ontario Ranch (formerly the New Model Colony) which includes approximately 8,200 acres that was formerly a portion of the San Bernardino Agricultural Preserve and was annexed by the City of Ontario in 1999. The Ontario Ranch is generally bounded by Riverside Drive to the north, Milliken Avenue/Hamner Avenue to the east, the Riverside County line and Merrill Avenue to the south, and Euclid Avenue to the west. The area was predominantly dairy farms and agricultural lands until the early 2000s when it began transitioning into residential land use. The Great Recession stopped development in the Ontario Ranch until 2012 when land sales and development began once again. Between the second half of 2020 into 2022, Ontario Ranch benefited from the significant increase in new homes sales due to the COVID pandemic factors. Residential land sales slowed from mid-2022 to mid-2023 with land transactions occurring since that time.

On the following page is a map showing the Ontario Ranch area in the City of Ontario. The map shows the amount of land available for future development in the community. The 8,200 acres of the Ontario Ranch is proposed for over 30,000 new residential units. As a result of the Ontario Ranch, the City is planning on adding 150,000 new residents over the next 20 years which will make it one of the 50 largest cities in the U.S. The map identifies the various specific plans within Ontario Ranch. The subject is located within the Countryside Specific Plan with the subject's approximate location identified by the red star below.



The Ontario Ranch and Surrounding Area

Population

The City of Ontario had a January 2023 estimated population of 180,717 which reflects an increase of 1.1 percent from the year before (per Department of Finance); however, during this time period the majority of cities in the County had a declining population with the overall County showing a slight 0.1 percent increase. Between 2010 and 2020 the City grew at an average annual growth of 1.43 percent. The more recent population increase is mostly due to the new development within the Ontario Ranch which is essentially the last remaining undeveloped residential land within the City. The population is anticipated to continue to increase at a faster rate than the overall County due to the new residential development currently underway in Ontario Ranch; however, with the recent rise in interest rates, the population growth rate may be tempered. Below is a map from the City of Ontario's website showing the various specific plans within the Ontario

Ranch. As mentioned, the subject property is located within the Countryside Specific Plan (pink).

Within the Ontario Ranch, out of the total 8,200 acres, 4,026 acres are approved within the above 18 specific plans (per latest update on City website). Within the approved 4,026 acres are; 10,455 single family residences, 10,659 multi-family residences, 1.63 million square feet of commercial, 16.35 million square feet of industrial and 3.88 million square feet of business park. There is an additional 314 acres and 574 single family units in process for approval along with 4.42 million square feet of industrial space and nearly 920,000 square feet of business park. There are ten residential specific plans currently with approvals which include Grand Park, The Avenue, Parkside, Subarea 29, Rich Haven, Parkside, Esperanza, West Haven, Edenglen, Armstrong Ranch and Countryside (includes the subject property). In addition, there are approvals for the Colony Commerce Center West, the West Ontario Commerce Center, the Colony Commerce Center East, the Merrill Commerce Center, the Ontario Ranch Business Park, and South Ontario Logistics Center. There is one amendment to a specific plan in process, which is in Subarea 29, which includes 574 single family units over 125 acres. There are currently

five specific plans marketing houses: Parkside, Subarea 29, Esperanza, West Haven, and Countryside. Esperanza includes Lennar's Esperanza age qualified community of Vivir as well as Sunset Ranch with two active townhome communities: Belmont and Moonstone, both by KB Home. Subarea 29 has Lennar's Fairhaven. The Avenue has one new home project that recently sold out: Cambridge Court by Woodside. Rich Haven has three new home projects currently selling: Oleander by Shea; Neuhouse by Landsea; and Canvas Park (townhomes) by Brookfield. NUVO (which includes Bryant, Grant, Hyde, and Lincoln) is within Parkside and is being built-out by The New Home Company. Lastly, Countryside currently has two new home communities, Shady Tree at Country Lane, and Whispering Wind at County Lane (subjects), both by Lennar. Park Place was developed by Lewis Community Developers and Stratham Communities in a partnership, previously had over ten new home neighborhoods selling by five different homebuilders, but all have closed out as the original Park Place is built-out.

Ontario Ranch Parkway has on/off ramps from the I-15 about 0.25 miles west of the entrance to Ontario Ranch. Ontario Ranch Parkway is known as Cantu-Galleano Ranch Road in Riverside County. The County line generally runs along Hamner Avenue at Ontario Ranch Parkway with the west side of Hamner Avenue in San Bernardino County and the east side of Hamner Avenue in the panhandle of the City of Eastvale in Riverside County.

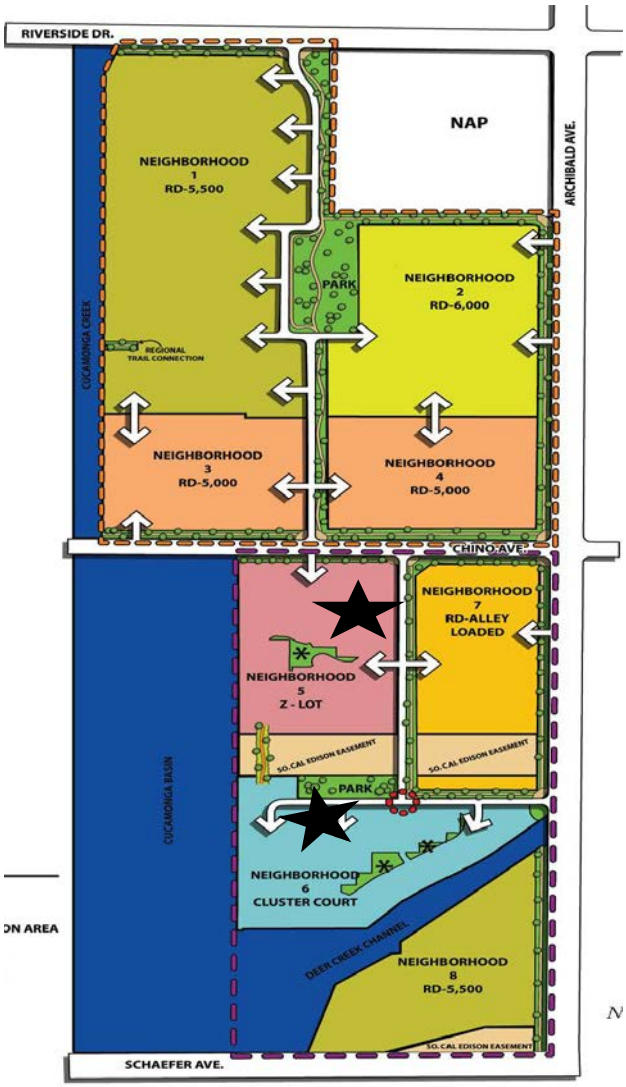
Transportation

The City is served by three major freeways. State Route 60 and Interstate 10 traverse the City in an east west direction while Interstate 15 runs in a north-south direction just east of the City, in the Ontario Ranch area and through the City north of I-10. The Ontario International Airport is located about five miles north of the subject. Ontario International is the 15th busiest airport in the country measured by cargo carried. It is a major hub for freight and is surrounded by one of the largest warehousing/distribution districts in California. This industrial area is divided between the cities of Ontario, Rancho Cucamonga, Jurupa Valley, Fontana and Eastvale

Economy

While the early economy of Ontario was more dairy and agricultural influenced, in the 1970s thru 1990s the development of industrial buildings surrounding the airport fueled the area. This industrial area became built-out leaving little land for development remaining in the late 1990s when the annexation of the Ontario Ranch occurred. Once planning was approved, land began selling to residential home builders in the mid-2000s however the Great Recession stopped development generally from 2006 through 2012.

Over 5,000 homes have been sold in Ontario Ranch since early 2016. There were several land transactions within the Ontario Ranch in 2012 and 2013 however 2014 saw a slow down with little to no finished lot sales in the area. The year 2015 saw no finished lot sales but did include additional construction by Brookfield Homes in the area of The Avenue. The years 2018 through 2021 saw more residential land transactions in Ontario Ranch and synergy in the area began, with five land closings in 2020, four in 2021, none in 2022. In 2023 land sales began in earnest once again as it was recently announced that Ontario Ranch was the top selling Southern California region for the second consecutive year. The sales activity has led builders to jump on new land opportunities as new home pricing and sales rates were both increasing. In 2023 numerous land transactions in the greater Ontario area went under contract with several recent closings due to new home sales occurring at an above average rate. This is thought to be due to the extremely limited supply of existing homes for sale. Historically 10 – 13 percent of total home sales are new homes; however, for the past year, new home sales are capturing 30 – 40 percent of total sales due to the limited availability of existing home sales.



For shopping within Ontario Ranch, the New Haven Marketplace opened with a Stater Bros market, Starbucks, Chase Bank, Brew Haven Tap House, Carl's Jr and Jersey Mike's along with additional in-line space. Adjacent to the Ontario Ranch, immediately to the east, between I-15 and Hamner Avenue is the recently developed industrial area located within the "panhandle" of the City of Eastvale. This area currently houses Costco, an Amazon fulfillment center, and both Walmart and UPS Distribution centers.

Summary

Population in the City of Ontario had continually grown at a slower rate than other areas within the County due to the essential build-out prior to the approval of the Ontario Ranch. Since Ontario Ranch approvals, the growth rate within the City has been significantly higher than that of the County. Predictions are for a stronger population growth due to the transition of lands within the Ontario Ranch from agricultural uses to residential uses. There have been numerous specific plan approvals and residential land sales within Ontario Ranch in the past few years. Ontario has enjoyed strong new home sales and price increases along with the rest of the Inland Empire housing market in the last two years. The neighboring City of Eastvale is essentially built-out with Ontario Ranch in the direct line of development from the more populated coastal areas. While higher interest rates suggest a real estate slowdown, due to the population growth, the need for new homes will continue. The City, and more specifically the Ontario Ranch, are projected to continue to have positive growth into the future.

COUNTRYSIDE SPECIFIC PLAN / IMMEDIATE SURROUNDINGS

The Countryside Specific Plan ("Countryside") encompasses an estimated 178 gross acres and is proposed for 819 residential units within the Ontario Ranch (formerly known as the New Model Colony) in the City of Ontario where it was known as Planning Subarea 5. The vision of the Specific Plan was to create a livable community combining safe and pleasant neighborhoods within walking distance to parks and surrounding commercial and recreational facilities. Countryside is generally bound by Riverside Drive on the north, Archibald Avenue on the east, Schaefer Avenue on the south and the Cucamonga Creek and Cucamonga Basin on the west. Development began in Countryside in 2016 with neighborhoods 1, 3 and 4 (within northern portion) developed between 2016 and 2018. The subject property refers to neighborhoods No. 5 and 6 (identified by the black stars).

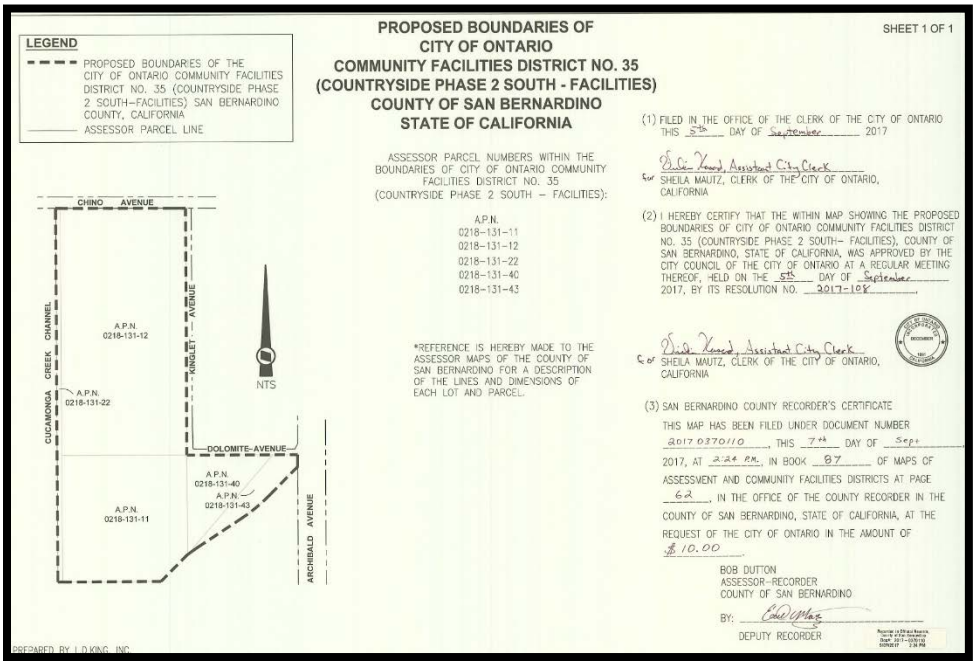
The Countryside Specific Plan was approved in 2006, prior to the Great Recession which halted development. Three neighborhoods (Neighborhood 1, 3 and 4) were developed between 2016 and 2018. Neighborhood 5 and 6 (subject property) were purchased by Lennar over three years ago (per Lennar representatives) and are being developed as Whispering Winds and Shady Tree. The entire Countryside project was original planned as two Planning Areas which are broken out as follows with the subject property being Neighborhoods 5 and 6 in Planning Area 2

Planning Area 1 - North of Chino Avenue				
Neighborhood	**Acres**	**# DU's**	**Type**	**Density**
1	34.09	187	5,500 sf lots	5.49
2	20.46	106	6,000 sf lots	5.18
3	11.45	70	5,000 sf lots	6.11
4	12.43	73	5,000 sf lots	5.87
Subtotal P.A 1	**78.43**	**436**		5.56
Planning Area 2 – South of Chino Avenue				
5	12.76	98	Z-Lot	7.68
6	14.82	141	Cluster Court	9.51
7	11.21	60	Alley Loaded	5.35
8	12.32	84	5,500 sf lots	6.82
Subtotal P.A.2	**51.11**	**383**		7.49
Total Residential	**129.54**	**819**		
Other Land Uses				
Park	5.61			
Paseo	3.78			
Neighborhood Buffers	3.66			
Streets	19.10			
SCE Easement	7.31			
Deer Creek Channel	9.03			
Subtotal Other	48.49			
Project Total	**178.03**	**819**		

The subject site essentially wraps around the southwest corner of Chino and Archibald Avenues with frontage of Neighborhood 5 along Chino Avenue and Neighborhood 6 having frontage along Archibald Avenue. Neighborhood 2 (located at the corner of Chino and Archibald which the subject wraps around) is currently under construction by KB Home as Crestview and is planning for their grand opening the first weekend in April.

The subject is surrounded existing residential to the north (Neighborhoods 1, 3 and 4) and a vacant parcel (Neighborhood 2) which was recently sold to Lennar; existing residential to the east (beyond Archibald, vacant lands to the south along with an industrial building and vacant lands to the west beyond Cucamonga Creek.

Shopping is available about one-half mile north at the southeast corner of Riverside Drive and Archibald Avenue at a Ralph's Supermarket anchored shopping center; about one mile southeast at a Stater Bros anchored shopping center at the corner of Ontario Ranch Road and Haven Avenue or in Eastvale at the northeast corner of Limonite and Archibald Avenues about two miles south of the subject at a Sprout's anchored shopping center. More regional shopping is available within three miles with Costco, Target, Home Depot and Lowes.



ONTARIO COMMUNITY FACILITIES DISTRICT NO. 35

We have reviewed the Formation Hearing Report ("Report") dated October 17, 2017, prepared for Ontario CFD No. 35. Per the Report the City Council of the City of Ontario adopted a Resolution of Intention to establish Ontario CFD No. 35 on September 5, 2017. The Report gives the following description of authorized facilities and services.

Facilities to be Financed or Purchased – The types of facilities to be financed or purchased by Ontario CFD No. 35 are street and bridge improvements, including grading, paving curbs and gutters, sidewalks, street signalization and signage, street lights and parkway and landscaping related thereto, domestic and recycled water distribution facilities, sewer collection facilities, solid waste facilities, storm drainage facilities, park and recreation facilities and equipment, aquatic facilities and equipment, fire facilities and equipment, police facilities and equipment, library facilities and equipment, fiber optic telecommunication system facilities, general governmental office, administrative and meeting facilities, and land, rights-of-way and easements necessary for any of such facilities.

Services – Police protection services, fire protection and suppression services, ambulance and paramedic services, maintenance and lighting of parks, parkways, streets, roads and open space, flood and storm protection services and maintenance and operation of any real property or other tangible property with an estimated useful life of five or more years that is owned by the City.

The boundary map is shown as follows:

THIS MAP HAS BEEN FILED UNDER DOCUMENT NUMBER 2017 0370110, THIS 7th DAY OF Sept. 2017, AT 2:24 P.M., IN BOOK 87 OF MAPS OF ASSESSMENT AND COMMUNITY FACILITIES DISTRICTS AT PAGE 62, IN THE OFFICE OF THE COUNTY RECORDER IN THE COUNTY OF SAN BERNARDINO, STATE OF CALIFORNIA, AT THE REQUEST OF THE CITY OF ONTARIO IN THE AMOUNT OF $ 10.00

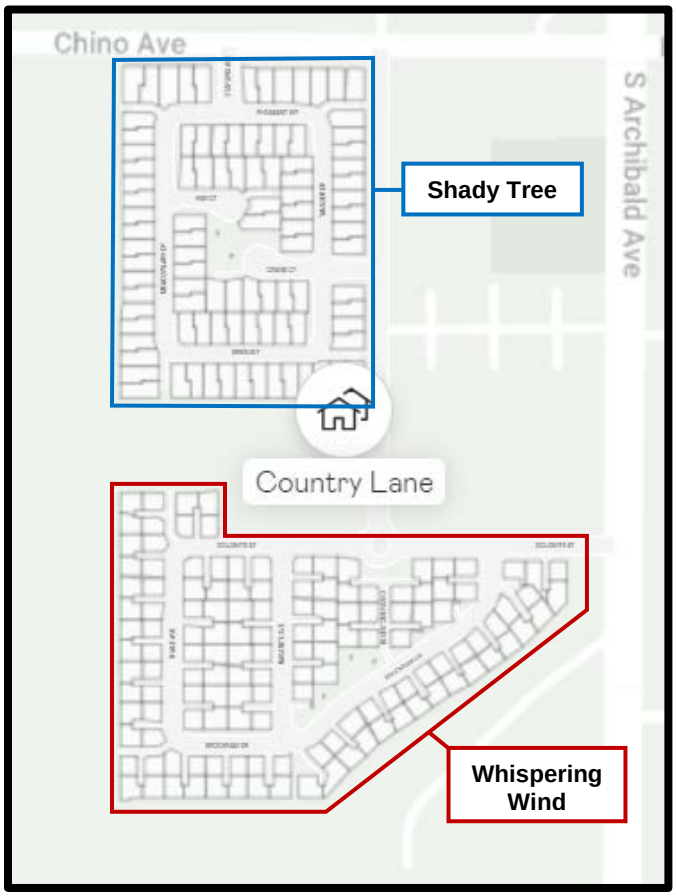
BOB DUTTON
ASSESSOR–RECORDER
COUNTY OF SAN BERNARDINO
BY: _____
DEPUTY RECORDER

PREPARED BY: L.D.KING, INC.

The cost estimate for the Facilities and Services as stated in the Report is shown below.

Estimated Cost of Facilities and Services	$ 6,754,000
Replacement Facilities and Services	$16,359,000
Incidentals:	
Bond Reserve Fund	$ 1,775,000
Bond discount/Issuance Costs	$ 1,053,000
Capitalized Interest	$ 359,000
Total Bond Amounts Needed	$26,300,000

It should be noted that at the time of the Report which included the above cost estimate, the total authorized amount of bonds for Ontario CFD 35 was $27,000,000. On June 7, 2022, the City of Ontario passed, approved, and adopted Resolution No. 2022-049 which amended the total authorized amount of bonds to $45,000,000. It should also be noted that the above amounts assume three series of bonds over 100 years.



The Assigned Special Tax amounts for developed property within Ontario CFD No. 35 as shown in the Rate and Method of Apportionment (recorded July 22, 2022) are shown in the table below.

Land Use Class	Description	Square Footage	Assigned Special Tax
1	Single Family Detached Property	< 1,501	$3,342 per Unit
2	Single Family Detached Property	1,501 – 1,700	$3,454 per Unit
3	Single Family Detached Property	1,701 – 1,900	$3,626 per Unit
4	Single Family Detached Property	1,901 – 2,100	$3,849 per Unit
5	Single Family Detached Property	2,101 – 2,300	$3,935 per Unit
6	Single Family Detached Property	2,301 – 2,500	$4,073 per Unit
9	Single Family Detached Property	> 2,500	$4,262 per Unit
10	Other Residential Property		$52,912 per Acre
11	Non-Residential Property		$52,912 per Acre

Per the latest Sources and Uses of Funds (dated April 17, 2024), the total uses of funds (all amounts subject to change) are anticipated to be $9,944,269 in Project Fund Deposits, $738,037 in Debt Service Reserve Fund, $440,600 in Cost of Issuance and Underwriter's Discount and a deposit to Administrative Expense Fund of $89,244. A copy of the Ontario CFD No. 35 boundary map is located in the Addenda for your review.

SUBJECT PROPERTY DESCRIPTIONS

The subject property consists of the community known as Country Lane by Lennar. Country Lane features two neighborhoods with distinct product lines: Shady Tree, and Whispering Wind. Information specific to each neighborhood is listed below.

Shady Tree at Country Lane

Location:	South side of Chino Avenue, west of Archibald Avenue, Ontario Ranch, Ontario, California.
Legal Property Description:	Lots 1-97 of Tract Map No. 17449.
Property Owner:	Individual Owners as Lots 1-32, 52-59, and 70-97 of Tract 17449; Lennar as to Lots 33-51 and 60-69 of Tract 17449.
Assessors Parcel Nos.:	0218-283-01 through -55; 0218-284-01 through -42.
Property Taxes:	We have attempted to review a sample Shady Tree home tax bill on Assessor Parcel Number 0218-283-53. There were two tax bills

which appeared to have been issued on the subject property for 2023 which totaled $12,404.05 in overall taxes and assessments, based on an assessed value of $662,996. The taxes on this parcel are paid current. This equates to an overall tax rate of 1.87 percent. It is an assumption of this report that the overall tax rate for the subject property, once fully improved, is under two percent.

Three-Year Sales History: Per Lennar representatives, Lennar has owned the subject for longer than three years. Lennar began selling homes at Shady Tree in October 2022. Individual homebuyers have closed on 68 homes between May 16, 2023, and April 1, 2024. There are 19 proposed homes in escrow which are due to close upon completion.

Size and Shape: The subject property is roughly rectangular shaped and contains an estimated 18.723 gross acres and 16.958 net acres per recorded Tract Map No. 17449. Tract Map 17749 includes a 3.767-acre open space lot (a SoCal Edison easement) on the southern portion of the site, which divides Shady Tree from Whispering Wind.

Zoning: Per the City of Ontario's General Plan (Land Use Plan LU-01) the site is designated as LMDR or Low Medium Density Residential, which allows for 5.1-11.0 dwelling units per acre. The General Plan Land Use Map also shows the southern portion of the subject (Tract No. 17450) as partially falling within the Chino Airport Influence Area overlay. Per the current City of Ontario Zoning Map, the site is shown as Specific Plan – Countryside (PSP04-001). Per the Countryside Specific Plan the site is allowed up to 98 units on "Z" lots.

Entitlements: Tract Map No. 17449 encompasses the northern portion of the subject property and covers all of the Shady Tree neighborhood within County Lane. Tract Map 17449 covers 18.723 gross acres and 16.958 net acres, was recorded on December 16, 2021, and divides the northern portion of the subject into 97 numbered "Z" lots and 19 lettered lots. This includes one large 3.767 acre lettered open space lot at the southernmost end of Tract Map 17449 which serves as a SoCal Edison easement that bisects the subject.

The recorded tract maps allow for 97 single family detached "Z" lots with a minimum lot size of 3,455 square feet on the total 16.958 acres resulting in an overall density of 5.7 dwelling units per acre which is within the allowed zoning and general plan designation.

Topography: The topography of the Shady Tree site is generally flat, and at street level of Chino Avenue, the northern border. The lands have been developed into single-family detached "Z" lots with drainage in an engineered street drainage system.

Soils Condition: We have reviewed a "Supplemental Geotechnical Evaluation, Countryside II Project" that covers both Tracts 17449 (Shady Tree) and 17450 (Whispering Wind) prepared by Petra Geosciences of Costa Mesa, and dated November 5, 2020. The report makes recommendations that should be appropriately implemented during remaining grading and construction. The Report references previous soils testing reports that were not provided and have not been reviewed. The Report also mentions recommending methane testing.

It is an assumption of this report that the soils are adequate to support the highest and best use conclusion and that all recommendations in the soil reports were adhered to during construction. This is evidenced by construction of homes on the site and City inspectors on site during construction.

Seismic Information: The subject property is not located in a designated Earthquake Study Zone (Alquist-Priolo Earthquake Fault Zone) as determined by the State of California (via City of Ontario) and there are no known active faults crossing the site.

Environmental Concerns: We have reviewed a "Volume 1 Countryside Specific Plan Final Environmental Impact Report" ("EIR") which includes the subject lands, prepared by EIP Associates of Los Angeles, and March 2006. The EIR provides a summary of impacts and mitigation measures and classifies them into "Less Than Significant," "Potentially Significant," and "Significant and Unavoidable" categories.

It is an assumption of this report that there are no environmental issues which would slow or thwart development of the subject property. This is suggested by construction of homes on the site and City inspectors on site during construction.

Methane Reports: We have not received any Methane Reports to review. It is an assumption of this report that there are no methane issues which would slow or thwart development of the subject property.

Flood Information: Per FEMA Map No. 06071C8638H dated August 28, 2008, the subject is shown as being in Zone X with "Area with Reduced Flood Risk due to Levee."

Easements and Encumbrances: We have reviewed a Preliminary Title Report prepared by Lennar Title that covers Shady Tree at Country Lane, the northern portion of the subject property. Report 192002-001256 dated August 29, 2022, covers Tract Map 17449. The report notes the following exceptions:

Item Nos. 1, 2, 3 and 4 refer to property taxes and the Special Tax Assessment for CFD 19 (Countryside Phase 1 Services) and the subject CFD No. 35. Item No. 5 pertains to water rights. Item Nos. 6, 7, 8, 9, 10, 14, 21 and 22 refer to easements on the property. Item No. 11 pertains to a development agreement with amendments recorded on the site. Item No. 12 and 13 pertain to water quality management plans. Item Nos. 15, 16, 17, 18, 19 and 20 all refer to matters shown or disclosed by the filed map on the site. Item No. 23 states no known matters otherwise appropriate to be shown were deleted from the report.

While the exceptions appear typical for subject-type lands, it is an assumption of this appraisal report that the subject lands are free and clear of any liens and/or encumbrances other than CFD No. 35 and the noted CFD No. 19. The appraisers are not title experts, and it is recommended that any concerns relating to title should be addressed to the appropriate experts.

Utilities: All normal utilities are available to serve the subject site by the following companies:

Electrical:	Southern California Edison Company
Natural Gas:	The Gas Company
Sewer/Water:	City of Ontario
Schools:	Mountain View District and Chaffey Joint Union High School District (Mountain View Elementary, Grace Yokley Middle, Colony High)

Streets/Access: Access to the subject property is convenient via both SR-60 and I-15. From SR-60, exit Archibald Avenue and head south 1.2 miles to Chino Avenue. Head west on Chino Avenue less than one quarter mile; the subject is on the south side of Chino Avenue at Starling Avenue. From I-15, exit Ontario Ranch Road and head west just over 2.5 miles to Archibald Avenue, then north on Archibald for one mile to Chino Avenue. The Shady Tree models are located on Pheasant Way, just east of the Starline Avenue Entrance via Chino Avenue.

SR-60 (1.5 miles north of the subject) provides east/west access from downtown Los Angeles to the city of Beaumont. The subject sits between Archibald Avenue and Haven Avenue on/offramps.

I-15 (2.5 miles east of the subject) is a major north/south freeway, which provides access to both international borders with Mexico and Canada.

I-10 (4.1 miles north of the subject) is a major east/west freeway in San Bernardino across Los Angeles and San Bernardino Counties. I-10 provides access to Los Angeles to the west and through San

Bernardino County and Riverside County to Arizona to the east. I-10 is an interstate providing a southern route across the U.S. to Florida.

Archibald Avenue has on/off ramps at SR-60 and provides access into north Ontario and down into Eastvale. Archibald Avenue's northern terminus is at the Ontario International Airport, approximately three miles north of the subject.

Ontario Ranch Road has on/off ramps to I-15 and is known as Cantu-Galleano Ranch Road east of Hamner Avenue. It is the main access into the newly emerging community of Ontario Ranch. Currently Ontario Ranch Road becomes Edison Road west of Ontario Ranch.

Chino Avenue is a smaller local east/west arterial that provides access through Ontario Ranch and Chino. Chino Avenue begins at Milliken Avenue, west of I-15 (just over two miles east of the subject), and crosses Euclid Avenue and Highway 71, before terminating at Chino Hills Parkway, ten miles west of the subject.

Internal streets within Shady Tree include: Starling Avenue, Pheasant Way, Tanager Drive, Crane Court, Wren Way, Meadowlark Drive, and Kiwi Court.

Current Condition: The subject has been developed into 97 single-family detached lots containing a minimum of 3,455 square feet. The lots are arranged in a convention single family detached configuration. Upon our inspection, 71 of the homes were over 95 percent complete including 68 individually owned homes, three model homes, and no additional production homes owned by the builder. In addition, there were 21 homes under construction (less than 95 percent complete with 19 in escrow) and five finished lots.

Cost to Complete: The entire subject property (Tract 17449 and 17450) has been developed into 235 finished lots/pads with internal streets complete and utilities stubbed to each lot. Per Lennar representatives the remaining hard costs total $6,779,076, however that includes $804,942 in interior walls which is not considered a land development cost. Deducting this amount results in $5,974,134 in remaining land development costs which includes the amenities, landscaping, civil and soils engineering, consultants, storm drain, street improvements, etc. We did not receive a detail on the costs in order to decipher which Tract Map the costs were associated with. Per Lennar representatives, all land development fees have been paid. It is our understanding that the $5,974,134 in remaining land development costs are the builder's responsibility and will be spread between the Lennar owned lots as the individual owners are not responsible. Out of the total 235 lots/pads, 137 are individually

owned leaving 98 lots, pads or homes owned by Lennar. Dividing the $5,974,134 by the 98 lots/pads results in remaining land development costs of $60,960.55 per lot/pad or home.

Homeowner's Association: Per builder representatives, the Country Lane HOA fees (for both Shady Tree and Whispering Wind) are $228 per month at buildout. It is assumed that the HOA maintains the community pool and spa, recreation center, parks and paseos (including the HOA-maintained public park at the northwest corner of Dolomite and Kinglet), internal streets and common area landscaping.

Improvement Description: Shady Tree at Country Lane includes three detached two-story floorplans ranging in size from 2,213 to 2,409 square feet. Exteriors feature Craftsman, Spanish, American Farmhouse, and Colonial influenced architecture. There are three model homes, located on Pheasant Way, east of Starling Avenue at the entrance off Chino Avenue. Shady Tree floorplans offer four to five bedrooms and attached two bay garages. All floorplans at Shady Tree offer open concept living with eat-in kitchens open to great rooms, second floor laundry rooms, as well as owner's suites with separate tub and showers, dual sinks, and walk in closets. Homes at Shady Tree offer ceramic floors at entryways, vinyl flooring at kitchen, dining room, laundry and bathrooms, and wall to wall carpeting with half inch pad in remaining areas. Interiors feature upgraded 3 ½ inch baseboard and 2 ¼ inch door casings, LED recessed lights, upgraded slat-style stair rail system, RG-6 coaxial cable television outlets at select locations, and Moen plumbing and bathroom fixtures. Lennar includes prewiring for ceiling fans in all bedrooms, great rooms, and loft (per plan), tankless water heaters, Honeywell Home T6 Pro Z-Wave smart thermostat, and Legrand On-Q 30" RF Transparent Structured Median Enclosure. Kitchens include thermofoil shaker-style cabinetry (choice of white or gray), GE stainless steel appliances, stainless steel single-basin sink, and slab-granite or quartz countertops with choice of colors. Garages at Shady Tree are fully dry-walled and fog coated, and exteriors include block wall fencing with vinyl side gates, illuminated house numbers and coach lights, and drought tolerant front landscaping. Sixty-eight of the 97 homes in the subject property have closed to individuals with closing dates between May 16, 2023 and April 1, 2024. Closed net sales prices (including premium, upgrades, options, and incentives) within the subject have ranged from $596,665 to $780,023. Current base pricing ranges from $733,000 to $799,000. Per the sales data provided, incentives have ranged from $0 up to $106,652, with an average incentive of $46,354. Our search of the MLS revealed no resales or current resale listings. Our physical search noted all homes appear to be in excellent condition. The houses which are over 95 percent complete are detailed below.

Shady Tree at Country Lane					
Floor Plan	Bed/Bath	Floors/ Parking	Sq. Ft.	Ind. Owned	Bldr. Owned
Plan 1	4 / 2.5	2 / 2	2,213	34	1*
Plan 2	4 + Loft / 4	2 / 2	2,315	15	1*
Plan 3	5 / 4	2 / 2	2,409	19	1*
Total				**68**	**3**

*Each asterisk designates one model home per that plan. In addition to the above there are 21 homes under construction and five additional finished lots.

Whispering Wind at Country Lane

Location: West of Archibald Avenue at Dolomite Street, south of Chino Avenue, Ontario Ranch, Ontario, California.

Legal Property Description: Lots 1-138 of Tract Map No. 17450.

Property Owner: Individual Owners as Lots 52-107 and 118-130 of Tract 17450; Lennar as to Lots 1-51, 108-117, and 131-138 of Tract 17450.

Assessors Parcel Nos.: 0218-293-01 through -75; 0218-294-01 through -63.

Property Taxes: We have reviewed a sample Whispering Wind home tax bill on Assessor Parcel Number 0218-294-29. There are two invoices for the 2023 tax year which total $11,425.73 based on an assessed value of $599,500. The taxes on this parcel are paid current. This equates to an overall all tax rate of 1.91 percent which is typical for the area. It is an assumption of this report that the overall tax rate including all special assessments is under two percent.

Sales History: Per Lennar representatives, they have owned the subject for over three years. Lennar began selling homes at Whispering Wind in October 2022. Individual homebuyers have closed on 69 homes between June 14, 2023, and April 1, 2024. There are 19 proposed homes in escrow which are due to close upon completion.

Size and Shape: The subject property is irregularly shaped and contains an estimated 16.827 gross acres and 16.158 net acres per recorded Tract Map No. 17450. Tract Map 17450 includes a 1.073-acre park lot at the northern portion of the Tract.

Zoning: Per the City of Ontario's General Plan (Land Use Plan LU-01) the site is designated as LMDR or Low Medium Density Residential, which allows for 5.1-11.0 dwelling units per acre. The General Plan Land Use Map also shows the southern portion of the subject (Tract No. 17450) as partially falling within the Chino Airport Influence Area

overlay. Per the current City of Ontario Zoning Map, the site is shown as Specific Plan – Countryside (PSP04-001). Per the Countryside Specific Plan the site has allowances for up to 141 cluster lots.

Entitlements: Tract Map No. 17450 encompasses the southern portion of the subject property and covers all of the Whispering Wind neighborhood within County Lane. Tract Map 17450 covers 16.827 gross acres and 16.158 net acres, was recorded on December 16, 2021 and divides the southern portion of the subject into 138 numbered and 16 lettered lots. This includes one large 1.073-acre lettered park lot at the northern portion of Tract 17450.

The recorded tract maps allow for 138 single family detached lots arranged in motorcourts with a minimum lot size of 3,000 square feet on the total 16.158 acres resulting in an overall density of 8.5 dwelling units per acre which is within the allowed zoning and general plan designation.

Topography: The topography of the Whispering Wind site is generally flat, and at street level of Archibald Avenue, the eastern border. The lands have been developed into single-family detached lots with drainage into an engineered street drainage system.

Soils Condition: We have reviewed a "Supplemental Geotechnical Evaluation, Countryside II Project" that covers both Tracts 17449 (Shady Tree) and 17450 (Whispering Wind) prepared by Petra Geosciences of Costa Mesa, and dated November 5, 2020. The report makes recommendations that should be appropriately implemented during remaining grading and construction. The Report references previous soils testing reports that were not provided and have not been reviewed. The Report also mentions recommending methane testing.

It is an assumption of this report that the soils are adequate to support the highest and best use conclusion and that all recommendations in the soil reports were adhered to during construction. This is evidenced by construction of homes on the site and City inspectors on site during construction.

Seismic Information: The subject property is not located in a designated Earthquake Study Zone (Alquist-Priolo Earthquake Fault Zone) as determined by the State of California (via City of Ontario) and there are no known active faults crossing the site.

Environmental Concerns: We have reviewed a "Volume 1 Countryside Specific Plan Final Environmental Impact Report" ("EIR") which includes the subject lands, prepared by EIP Associates of Los Angeles, and March 2006.

The EIR provides a summary of impacts and mitigation measures and classifies them into "Less Than Significant," "Potentially Significant," and "Significant and Unavoidable" categories.

It is an assumption of this report that there are no environmental issues which would slow or thwart development of the subject property. This is suggested by construction of homes on the site and City inspectors on site during construction.

Methane Reports: We have not reviewed any Methane Reports for the subject property. It is an assumption of this report that there are no methane issues which would slow or thwart development of the subject.

Flood Information: Per FEMA Map No. 06071C8638H dated August 28, 2008, the subject is shown as being in Zone X with "Area with Reduced Flood Risk due to Levee."

Easements and Encumbrances: We have reviewed a Preliminary Title Report prepared by Lennar Title that covers Whispering Wind at Country Lane, the southern portion of the subject property. Report 192002-001257 dated August 29, 2022, covers Tract Map 17450. The report notes the following exceptions:

Item Nos. 1, 2, 3 and 4 refer to property taxes and the Special Tax Assessment for CFD 19 (Countryside Phase 1 Services) and the subject CFD No. 35. Item No. 5 pertains to water rights. Item Nos. 6, 7, 11 and 20 thru 46 refer to easements on the property. Item No. 8 pertains to a development agreement with amendments recorded on the site. Item Nos. 9 and 10 pertain to water quality management plans. Item Nos. 12 thru 19 all refer to matters shown or disclosed by the filed map on the site. Item No. 47 states no known matters otherwise appropriate to be shown were deleted from the report.

While the exceptions appear typical for subject-type lands, it is an assumption of this appraisal report that the subject lands are free and clear of any liens and/or encumbrances other than CFD No. 35 and the noted CFD No. 19. The appraisers are not title experts, and it is recommended that any concerns relating to title should be addressed to the appropriate experts.

Utilities: All normal utilities are available to serve the subject site by the following companies:

Electrical:	Southern California Edison Company
Natural Gas:	The Gas Company
Sewer/Water:	City of Ontario

Schools: Mountain View District and Chaffey Joint Union High School District (Mountain View Elementary, Grace Yokley Middle, Colony High)

Streets/Access: Access to the subject property is convenient via both SR-60 and I-15. From SR-60, exit Archibald Avenue and head south 1.5 miles to Dolomite Street (just south of Chino Avenue). Head west on Dolomite Street into the subject. From I-15, exit Ontario Ranch Road and head west just over 2.5 miles to Archibald Avenue, then north on Archibald for three-quarters of a mile to Dolomite Street. The Whispering Wind models are located on the southwest corner of Dolomite Street and Brockram Drive.

SR-60 (1.5 miles north of the subject) provides east/west access from downtown Los Angeles to the city of Beaumont. The subject sits between Archibald Avenue and Haven Avenue on/offramps.

I-15 (2.5 miles east of the subject) is a major north/south freeway, which provides access to both international borders with Mexico and Canada.

I-10 (4.1 miles north of the subject) is a major east/west freeway in San Bernardino across Los Angeles and San Bernardino Counties. I-10 provides access to Los Angeles to the west and through San Bernardino County and Riverside County to Arizona to the east. I-10 is an interstate providing a southern route across the U.S. to Florida.

Archibald Avenue has on/off ramps at SR-60 and provides access into north Ontario and down into Eastvale. Archibald Avenue's northern terminus is at the Ontario International Airport, approximately three miles north of the subject.

Ontario Ranch Road has on/off ramps to I-15 and is known as Cantu-Galleano Ranch Road east of Hamner Avenue. It is the main access into the newly emerging community of Ontario Ranch. Currently Ontario Ranch Road becomes Edison Road west of Ontario Ranch.

Chino Avenue is a smaller local east/west arterial that provides access through Ontario Ranch and Chino. Chino Avenue begins at Milliken Avenue, west of I-15 (just over two miles east of the subject), and crosses Euclid Avenue and Highway 71, before terminating at Chino Hills Parkway, ten miles west of the subject.

Internal streets within Whispering Wind include: Dolomite Street, Kinglet Avenue, Shale Avenue, Brockram Drive, Bluestone Paseo, and Basanite Avene.

Current Condition: The subject has been developed into 138 single-family detached lots arranged in motorcourts (specially, four pack clusters on paver shared driveways) containing a minimum of 3,000 square feet. The lots are arranged in a convention single family detached configuration. Upon our inspection, 84 of the homes were over 95 percent complete including 69 individually owned homes, three model homes, and 12 additional production homes over 95 percent complete owned by the builder (all in escrow). In addition, there were 23 homes under construction (less than 95 percent complete with seven in escrow) and 31 finished lots.

Cost to Complete: The entire subject property (Tract 17449 and 17450) has been developed into 235 finished lots/pads with internal streets complete and utilities stubbed to each lot. Per Lennar representatives the remaining hard costs total $6,779,076, however that includes $804,942 in interior walls which is not considered a land development cost. Deducting this amount results in $5,974,134 in remaining land development costs which includes the amenities, landscaping, civil and soils engineering, consultants, storm drain, street improvements, etc. We did not receive a detail on the costs in order to decipher which Tract Map the costs were associated with. Per Lennar representatives, all land development fees have been paid. It is our understanding that the $5,974,134 in remaining land development costs are the builder's responsibility and will be spread between the Lennar owned lots as the individual owners are not responsible. Out of the total 235 lots/pads, 137 are individually owned leaving 98 lots, pads or homes owned by Lennar. Dividing the $5,974,134 by the 98 lots/pads results in remaining land development costs of $60,960.55 per lot/pad or home.

Homeowner's Association: Per builder representatives, the Country Lane HOA fees (for both Shady Tree and Whispering Wind) are $228 per month at buildout. It is assumed that the HOA maintains the community pool and spa, recreation center, parks and paseos (including the HOA-maintained public park at the northwest corner of Dolomite and Kinglet), internal streets, front yard and common area landscaping.

Improvement Description: Whispering Wind at Country Lane includes four detached two-story floorplans ranging in size from 1,618 to 2,202 square feet. Exteriors feature Craftsman, Spanish and American Farmhouse influenced architecture. There are three model homes, located on Brockram Drive, just south of Dolomite Street, which provides the entrance from Archibald Avenue. Whispering Wind floorplans offer three to five bedrooms and attached two bay garages. All floorplans at Whispering Wind offer open concept living with eat-in kitchens open to great rooms, second floor laundry rooms, as well as owner's suites with separate tub and showers, dual sinks, and walk in closets.

Homes at Whispering Wind offer ceramic floors at entryways, vinyl flooring at kitchen, dining room, laundry and bathrooms, and wall to wall carpeting with half inch pad in remaining areas. Interiors feature bullnose corners throughout the home, upgraded 3 ¼ inch baseboard and 2 ¼ inch door casings, LED recessed lights, RG-6 coaxial cable television outlets at select locations, and Moen plumbing and bathroom fixtures. Lennar includes prewiring for ceiling fans in all bedrooms, great rooms, and loft (per plan), tankless water heaters, Honeywell Home T6 Pro Z-Wave smart thermostat, and Legrand On-Q 30" RF Transparent Structured Median Enclosure. Kitchens include thermofoil shaker-style cabinetry (choice of white or gray), GE stainless steel appliances (including upgraded GE stainless steel built-in 30" gas cooktop with single base oven below), stainless steel single-basin sink, and granite countertops. Garages at Whispering Wind are fully dry-walled and fog coated, and exteriors include block wall fencing with vinyl side gates, illuminated house numbers and coach lights, and drought tolerant front landscaping. Sixty-nine of the 138 homes in the subject property have closed to individuals with closing dates between June 16, 2023 and March 5, 2024. Closed net sales prices (including premium, upgrades, options, and incentives) within the subject have ranged from $524,210 to $701,500. Current base pricing ranges from $614,000 to $726,000. Per the sales data provided, incentives have ranged from $0 up to $82,617, with an average incentive of $40,043. Our search of the MLS revealed no resales or current resale listings. Our physical search noted all homes appear to be in excellent condition. The houses which are over 95 percent complete are detailed below.

Whispering Wind at Country Lane					
Floor Plan	Bed/Bath	Floors/ Parking	Sq. Ft.	Ind. Owned	Bldr. Owned
Plan 1	3 / 2.5	2 / 2	1,618	17	3
Plan 2	3 / 2.5	2 / 2	1,800	18	4*
Plan 3	4 + Loft / 3	2 / 2	2,067	17	4*
Plan 4	5 / 3	2 / 2	2,202	17	4*
Total				**69**	**15**

*Each asterisk designates one model home per that plan. In addition to the above there are 23 homes under construction and 31 additional finished lots.

THE INLAND EMPIRE HOUSING MARKET

In analyzing the area's housing market, population growth and economic conditions need to first be considered.

Population

The San Bernardino County population showed minimal 0.1 percent growth between January 2022 and January 2023, and an average of about two percent the previous 20 years. The stagnant growth during this time is thought to be due to the disruption during COVID. Prior to the COVID pandemic, predictions were for the County to grow at an average annual rate of 0.75 percent over the next eight years. This equates to an increase of approximately 20,000 residents per year suggesting the need for about 7,000 homes per year within the County. The after-COVID influence is still unknown on the County's population growth. New home sales in most cities in the County from 2020 were higher than the coastal communities due to affordability, the work from home factor, and the fact that millennials are finally entering the housing market. These factors may increase actual County population growth. This has been offset by minimal existing home sales resulting in less overall home sales over the past year as compared to one year ago and also as compared to 2019, before COVID.

Economic Conditions

Over the past twenty years the County has seen various cycles in the housing market as with most of Southern California. The Great Recession impacted the Inland Empire significantly and resulted in a longer recovery period than that of other Southern California regions. Median housing prices (all types) in the County increased almost 300 percent from $120,406 at the lowest point in 2009 to the February 2024, price of $477,070 per the California Association of Realtors. This is lower than the recent December 2023 peak of $506,000 median home price in San Bernardino County: however, 2.3 percent higher than one year ago ($466,500).

Economic growth in the Inland Empire was strong generally between 2015 (after the Great Recession), and until the economic shutdown due to COVID. The second half of

2020 and all of 2021 saw economic growth, however the first two quarters of 2022 saw GDP shrinking. The end of 2022 saw lower unemployment rates (December rate of 3.6%) than the Inland Empire's pre-COVID unemployment rate in February 2020 of 4.0 percent, however 2023 showed unemployment rising slightly with the December 2023 rate for the Inland Empire at 5.1%. Thus far in 2024 the unemployment rate has inched up, with the February 2024 unemployment rate for the Inland Empire at 5.5%. While unemployment rates are still near historical lows, they have risen over the past year and the inflation factor has significantly affected the economy.

The housing market played a large role in the past two recessions. In the Great Recession, due to increased interest rates and rising home prices between June 2004 and mid-2006, the market reaction was to create non-conventional financing alternatives, such as sub-prime and non-conventional mortgages, to artificially maintain the boom housing market of 2004 and 2005. By 2007, the housing market saw a shake-up because of the problems in the sub-prime and non-conventional mortgage markets, which played a role in the 2008 upheaval of Wall Street and contributed significantly to the U.S. economic downturn of the Great Recession. Due to stricter income verification on new loans and the lack of available credit, coupled with job losses and declining home prices, sales of new homes slowed for the next few years and essentially remained flat until mid-2012 when home prices began a steady climb.

During the COVID disruption, new home sales were one of the brightest spots in both the local and national economies. While new home sales slowed in March and April 2020 due to the onset of the COVID pandemic, both sales and prices increased significantly due to strong demand from May 2020 throughout COVID until spring 2022 when interest rate increases began affecting the home-buying market. The rising interest rates alone did not seem to slow sales in Spring 2022. However, a combination of increasing home prices and falling consumer confidence, added to the significant interest rate increases, slowed new home sales significantly beginning in mid-2022. Due to the significantly higher mortgage interest rates, existing homeowners are not moving which has stifled the existing home market, making the new home market the only option for some. In the

Inland Empire there were 44,796 existing homes closings in the past 12 months (down 26.9 percent from one year ago) and 8,195 new home closings in the past 12 months (down 24.1 percent from the previous year), all information as of March 1, 2024 per Zonda Research, a new home market research company. In January 2022, mortgage rates were 3.22 percent (for a typical 30-year fixed conventional mortgage) while as of March 14, 2024, the rate for the same loan is 6.74 percent. On a $500,000 mortgage, the monthly payment for this loan has increased from $2,168 to $3,240 or nearly 50 percent which has hit homebuyers hard.

Per the Zonda National Economic and Housing Market Update in March 2024, the rate of growth of new home sales is off from COVID highs but up from 2022 sales numbers, suggesting a healthy market. Per their survey of over 300 new-home builders nationally, the builders are stating sales are continuing but report they had to adjust pricing and incentives to "find the market." In the January 2023 survey, 50 percent of builders surveyed were lowering their prices and the remaining 50 percent stated their pricing was flat. In March 2024, the survey resulted in 50 percent of the builders stating their pricing was increasing a little, 46 percent of builders stating their pricing was flat and 4 percent dropping prices. This is a very different dynamic than in January 2023 which was partly due to builder's readjusting concessions (interest rate buy-downs), and partly due to the market accepting the mortgage rate increases. In today's market over 60 percent of new-home builders in the U.S. are offering either full-term or temporary interest rate buy-downs (John Burns Research and Consulting) which is helping to sustain new home sales. Per Zonda, in March 2024, 80 percent of new home builders in the Inland Empire are offering incentives.

The larger public homebuilders began offering significant interest rate buy-downs in early 2023 in order to keep absorption rates steady, which reportedly cost between $30,000 and $100,000 in incentives. The builders are attempting to find the "sweet spot" in incentives. In their September 2023, survey of 300 builders nationwide, Zonda asked builders to check all that they were offering and found 70 percent of builders surveyed were offering rate buydowns, 60 percent were offering funds towards closing costs, 33

percent were offering flex dollars, 22 percent were offering lower home prices and 20 percent were offering funds toward options and upgrades. In the subject communities Shady Tree has had an average $46,000 in concessions per sale while Whispering Wind has had an average $40,000 per sale. The question is, how long can builders continue to offer these significant incentives. As rates go higher, the extent that builders can buy-down the mortgage rates goes down.

Home loan mortgage rates have been and are still playing a huge part in the housing market. The Board held mortgage rates at all-time lows after the Great Recession and again after the COVID Recession in an attempt to assist the housing market's recovery. Low rates helped home sales during these times. However, first-time buyers are now having a hard time entering the housing market due to rising prices and rising interest rates. Mortgage applications had been spiking in late 2020 and 2021 due to the low rates and the fear rates were going to start ticking up, which began happening in March 2022. The Board has increased the rate eleven times between March 2022 and August 2023, which increased the FFR from 0-0.25 percent to 5.25-5.50 percent. At the latest Board meeting in March 2024, they paused the FFR increases for the fifth time and suggested decreases in 2024 will begin later in the year. The financial markets had been anticipating a possible March decrease which caused volatility in the financial markets in the past month or so. The FFR increases are supposed to help slow the high inflation rate in the Nation, which appears to be occurring as the latest reports are showing inflation in February 2024 at 3.2 percent, significantly down from a high of 9.1 percent in June 2022.

While new home builders slowed production as sales slowed in 2022, the spring of 2023 brought optimism to builders once again. Sales were up month over month as buyers adjusted to higher mortgage rates and the existing home inventory is at all-time lows. Existing homeowners that are locked into a 3 percent mortgage are not moving up due to the current almost seven percent rates. This is creating a supply issue for existing homes. New home sales are benefiting from this supply issue as in some cases, the only option for homebuyers are new homes. Per Zonda, historically, new homes captured 10 to 13 percent of all home sales; however, due to the limited supply of existing homes currently

on the market, new homes have captured between 12 and 24 percent of all home sales in the Inland Empire over the past year.

Residential Land Development

While there had been little land development going on in most of the Inland Empire during the Great Recession years 2008-2011, the second half of 2012 saw a resurgence in the more coveted areas of the Inland Empire. The increase in housing prices since 2012 combined with the limited availability of supply made land development feasible once again for homebuilders. It is thought that the increase in regulations, which has significantly increased the timeline for processing entitlements, has limited the master developers' further entitlement of developable land in California. While prior to the recession it was not unusual to see numerous large master-planned communities selling lots to various builders (such as Park Place within Subarea 29), there are few currently available in the subject area. The majority of land sales over the past few years include single tracts of land with maps ready to record (such as Lennar's Shady Tree and Whispering Wind) or a public builder buying a larger piece of land but develops the land for its own use, such as NUVO by The New Home Company.

Land sales in the Inland Empire slowly grew from 2012 up to a peak in 2017, with 2018 and 2019 showing lower land transactions. Once home sales exploded in May 2020, land sales followed with a significant number of residential land sales to builders in the Inland Empire during the second half of 2020 and throughout 2021. In late 2021 and early 2022, prior to the FFR increases, builders were paying significantly more for residential land that was ready to develop as demand was up and supply was shrinking. The beginning of 2022 continued with residential land sales going under contract until May, when new home sales began to fall sharply. According to Zonda's survey of builders regarding residential land purchases, as of January 2023 only 2 percent of builders surveyed were "full steam ahead," and almost 40 percent were pausing transactions or bidding lower on land transactions. As of March 2024, these percentages had changed drastically with 49 percent stating they are going "full steam ahead" and 46 percent moving "cautiously forward." The increase in optimism from new home builders outlook is partially due to the

extreme slowdown of existing home inventory which is fueling new home sales. Per Zonda in 2023 there were about 11,245 vacant developed lots in the Inland Empire, which is down 21 percent from the previous year.

New Home Sales and Pricing

We have researched new single-family homes within the subject's market in order to reflect residential trends. It should be noted these sales numbers and prices pertain to new home sales while later in this section we discuss existing home sales. In reviewing new home sales in the Inland Empire market area, per the March 24, 2024, Ryness Report, the year-to-date average sales rate (4.3 sales per month) is slightly higher than the same time period of the previous year (3.9 sales per month). The month of March is typically when sales rates pick up as it marks the beginning of "selling season" and the peak homebuying months of February through July. Surprisingly, even with the increases in pricing and mortgage rates, sales of new homes are occurring at a very good pace; however, this is partially due to the extremely limited supply of existing homes which is creating more demand for new homes. As interest rates rise, purchasing power becomes lower and therefore fewer people purchase new homes. Along with home sales comes a demand for appliances, furniture, building materials and services such as insurance, mortgage services, inspections, interior designers, and landscapers, all contributing to the area economy.

When comparing the March 24, 2024, Inland Empire Ryness Report to one year prior, there are six less projects (251 in March 2023 and 245 in March 2024) and sales are about 11 percent higher year-to-date than the previous year (4.3 sales per month in March 2024 versus 3.9 sales per month in March 2023). Looking back, in February 2022 the Inland Empire average sales rate was 5.4 homes per month; in February 2021 the average sales rate was 5.2 homes per month and in January 2020, prior to the pandemic, the average sales rate in the Inland Empire was 4.1 sales per month, similar to the current absorption rate. This similar sales rate to 2020 suggests new home buyers can weather the higher mortgage rates. However, the reader should note existing home listings are over 30 percent lower than in 2020 which increases the amount of new home buyers.

New single-family home pricing (combines both attached and detached) in the Inland Empire has also seen changes. The median new home price in the Inland Empire changed from the peak value of $437,200 in the third quarter of 2006 to $268,155 in early 2009 (decrease of 39 percent) while the current Inland Empire median new home price is $576,500 which is down from a record high of $650,000 in May 2022 per the California Association of Realtors' ("CAR"). The current median price reflects an increase of over 100 percent from the bottom of the cycle and an increase of more than 32 percent over its peak prior to the Great Recession, however a decrease from the 2022 peak of 11 percent. In reality, this decrease is actually larger as builders are building smaller homes and buying down interest rates which costs the builder at times, up to $100,000, however, the amount is not reflected in the recorded sales price. New home sale prices fluctuate based on the land value and competition more than on the cost of building the home. While finishes and sizes of homes can change, the basic costs on a per square foot basis typically do not fluctuate as much as land values; however, there have been inflationary increases in construction costs adding to this increase. Construction materials have increased an estimated 40 percent since 2019.

We have reviewed Empire Economics' Price Point Review Study on Ontario CFD No. 35 (Countryside Phase 2 South - Facilities) dated March 28, 2024. Empire Economics did an original Price Point Study on the project in January 2022 in order to determine their market value for the various plans within Shady Tree and Whispering Wind. The "Review Study" is to ascertain if the prices have increased or decreased since the original Study. The Empire Economics Price Point Review Study concluded that all plans within Shady Tree had current base price conclusions which are above the original base price conclusions in January 2022 with the increase ranging from 6 - 10 percent. Within Whispering Winds some square footage changed but generally two of the plans had decreases in base price conclusions and two had increases in base price conclusions. The two smallest plans had decreases between 0.5 - 5 percent while the two largest plans had increases between 0.5 to 8 percent. The Review Study took into account the concessions which are included in their net prices. This compares with the CAR's reports which suggest prices have decreased 11 percent since the peak in May 2022.

Within our search for the most comparable actively selling new home communities, we searched the subject's city of Ontario, which currently features a multitude of actively selling new home communities, although many of them are attached product and smaller product than that of the subject property. We extended our search to include communities selling similar product in neighboring Chino. We found nine communities comparable to Shady Tree and Whispering Wind at Country Lane. The comparables have current base prices ranging from $562,990 to $849,990. Both Shady Tree and Whispering Wind's base prices range from $614,000 to $799,000, which falls well within the range of comparable new homes in the area.

Existing Homes Sales and Pricing

While the previous section looked at new home sales and pricing, this section refers to existing homes in the Inland Empire. According to the California Association of Realtors' most recent data, within overall Southern California, the median price paid for an existing single-family detached home in February 2024 ($825,000) is 5.0 percent higher than the month prior median home price, and up 10.8 percent year-over-year from $744,400 in February 2023. These overall Southern California numbers compare to San Bernardino County with $477,070 as the median price paid for an existing detached home in the County in February 2024, down -0.1 percent from January 2024 ($477,500), however up 2.3 percent on a year-over-year basis ($466,500). Below is a table showing the sales and prices for the Southern California area by County per the CAR.

Southern California Existing Home Sales

County	Feb. 2024	Jan. 2024	Feb. 2023	Price MTM % Change	Price YTY % Change	Sales YTY % Change
Los Angeles	$817,100	$833,000	$778,540	-1.9%	12.4%	-2.7%
Orange	$1,350,000	$1,320,000	$1,194,500	2.3%	16.5%	6.3%
Riverside	$636,000	$610,000	$585,000	4.3%	6.9%	12.4%
San Bernardino	$477,070	$477,500	$446,900	-0.1%	2.3%	7.0%
San Diego	$980,000	$925,000	$824,900	5.9%	11.6%	-1.8%
Ventura	$890,000	$870,000	$815,000	2.3%	10.6%	8.1%
Southern Calif.	$825,000	$786,000	$744,400	5.0%	10.8%	14.2%

Source: California Association of Realtors

Based on February 2024 median existing homes prices, in comparison to the majority of the surrounding counties, San Bernardino has a definite price advantage. The "San

Bernardino County Advantage" (price difference between San Bernardino and surrounding counties) is $158,930 as compared to Riverside County, $340,030 as compared to Los Angeles County, $412,930 as compared to Ventura County, $502,930 as compared to San Diego County and $872,930 as compared to Orange County. That is, in February 2024, the median priced home in San Bernardino County was $872,930 less than the median priced home in Orange County ($1,350,000). Typically, as the price advantage widens, homebuyers are more open to commuting to further out areas. With the current work-from-home concept, the suburban areas have seen more growth which put pressure on home prices in the Inland Empire.

In a separate attempt to capture the amount of increase in home prices, the resale activity of existing homes in the subject's immediate area (per Redfin.com) has been reviewed. The number of sales and sale prices of existing homes within market areas surrounding the subject are shown in the table below.

Community Name	Location To Subject	No. of Sales	Feb. 2024 Price Median	Price % Change from Feb. 2023
Ontario Ranch	Subject	91	$633,268	-3.1%
Ontario	North	91	$640,000	6.4%
Eastvale	South	18	$867,500	6.4%
Mira Loma	East	N/A	$755,000	8.6%
Jurupa Valley	Northeast	19	$625,000	5.9%
Chino	Southwest	41	$736,065	9.5%
Rancho Cucamonga	Northwest	54	$704,500	5.1%

Source: Redfin Housing Market Trends February 2024

The median home price of a detached home in Ontario Ranch in February 2024 was $633,268 per Redfin, which makes up the low-end of the range of the resale home prices in the subject area. The lowest prices in the range relate to Ontario and Ontario Ranch, while the highest end of the range relates to Eastvale. It should be noted that the decrease in pricing within Ontario Ranch is due more to smaller homes being sold (higher density and lower square foot product) when compared to a year ago. The peak of the Ontario Ranch median sale price was August 2022 when the median price reached $780,000 which reflected a 19.1 percent increase year-over-year. The above year-to-year price fluctuations relate to the California Association of Realtors overall San Bernardino County

detached home resale price increase of 2.3 percent year-over-year from February 2023 to February 2024.

Country Lane - Sales and Pricing

Country Lane is comprised of 235 proposed single-family detached homes with marketed sizes from 1,618 to 2,409 square feet. Country Lane began sales in both Shady Tree and Whispering Wind in October 2022, with early base pricing ranging from $649,000 to $674,000 for Shady Tree and from $577,000 to $637,000 for Whispering Wind. The latest base pricing at Shady Tree ranges from $733,000 to $799,000 which is 12.9 to 20.3 percent higher than opening base prices. The latest base pricing at Whispering Wind ranges from $614,000 to $726,000 which ranges from 6.4 to 14.0 percent higher than original base pricing. Actual closed prices, including options, upgrades, premiums, and taking into consideration all concessions, have ranged from $596,655 to $780,023 for Shady Tree and $524,210 to $701,500 for Whispering Wind. The significant difference between the base pricing and the actual pricing is options, upgrades and premiums paid by the buyer offset by concessions given by the builder and mortgage companies. The total concessions given by the builder range from zero up to $106,652 with an average on the sales to date of $46,354 per sale at Shady Tree, and zero up to $82,617 with an average on the sales to date of $40,043 per sale at Whispering Wind. A portion of these concessions are not considered in the reported sales prices and are decided on a case-by-case basis. These mortgage concessions have increased and decreased over the past 24 months due to fluctuating mortgage rates. Within the subject, Lennar has sold and closed 137 homes to individuals, with an additional 38 homes in escrow which are due to close at completion. The total of 174 sales since October 2022 equates to an absorption rate of 9.7 sales per month spread across the two product types (4.8 sales per month for Shady Tree and 4.8 sales per month for Whispering Wind). These sales rates are considered to be good for the subject marketplace. Per the Ryness Report, a new home tracking service, as of March 24, 2024, year-to-date average sales per project per month in the Inland Empire is 4.3 homes: slightly lower than the average sales paces of Shady Tree and Whispering Wind. This suggests that Country Lane has found the correct price points for the subject market.

Summary

The Inland Empire had seen substantial increases in pricing since 2012 with most areas, including the subject, showing astronomical increases from mid-2020 through early 2022. While existing home sales were originally down when COVID began in spring/early summer 2020, new home sales subsequently shot up due to the existing home market supply being constrained and interest rates hitting all-time lows. The latest statistics indicate a possible slowdown in sales as interest rates have risen substantially; however, buyers appear to be resilient to the increases. The Ontario new-home submarket is performing in line with the Inland Empire market as a whole. The subject market area saw an increase in pricing consistent with most of Southern California throughout 2020 and 2021 and appeared to be continuing in the beginning of 2022. Late 2022 saw sales slow and prices lowering; followed by price increases as builders offered additional incentives. Builders' optimism appears to have returned with builders generally believing prices will increase slightly in 2024 or remain flat. Despite uncertainty hitting the market due to interest rates and inflation, most observers agree that the Inland Empire housing market is healthy and population growth is still estimated to occur in the area. It is believed that as the population continues to increase, housing growth will also continue, despite a possible economic slowdown.

HIGHEST AND BEST USE ANALYSIS

The highest and best use is a basic concept in real estate valuation due to the fact that it represents the underlying premise (i.e., land use) upon which the estimate of value is based. In this report, the highest and best use is defined as:

> *"the reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible, and that results in the highest value"*[5]

Proper application of this analysis requires the subject properties to first be considered "As If Vacant" in order to identify the "ideal" improvements in terms of use, size, and timing of development. The existing improvements (if any) are then compared to the "ideal" improvements to determine if the use should be continued, altered, or demolished preparatory to redevelopment of the site with a more productive or ideal use.

"As If Vacant"

In the following analysis, we have considered the sites probable uses, or those uses which are physically possible; the legality of use, or those uses which are allowed by zoning or deed restrictions; the financially feasible uses, or those uses which generate a positive return on investment; and the maximally productive uses, or those probable permissible uses which combine to give the owner of the land the highest net return on value in the foreseeable future.

Physically Possible Uses

The subject property is irregular in shape and consists of 35.55 gross and 33.116 net acres per Tract Map Nos. 17449 and 17450. The site is in the Ontario Ranch area of the City of Ontario, specifically on the south side of Chino Avenue, west of Archibald Avenue. The site's original topography was generally level at street grade to surrounding streets. Country Lane is bounded by existing houses to the north, a church and preschool to the east, Deer Creek Channel and industrial lands to the south, and Cucamonga Creek and vacant lands to the west. The neighborhood has been transitioning from dairies and

[5] The Appraisal of Real Estate, 11th Edition

farmlands to the new master planned community of Ontario Ranch. The site has been graded for development into 235 single-family detached lots with a minimum lot size of 3,000 square feet. We have reviewed a soils report on the site, as well as environmental reports for the project. All reports reviewed conclude that development of the site is feasible, however mitigation measures recommended within such reports should be adhered to during construction. The site is still under development with homes ranging in construction status from finished lots to homes under construction, to completed homes and models. It is an assumption of this report that the soils are adequate to support the highest and best use, that there are no environmental issues which would slow or thwart development of the property. This is evidenced by existing homes on the site which were recently built with City inspectors on site during construction. An engineered drainage system appears to have been designed into a street drainage system for the site. All standard utilities are available to serve the subject property. The site has good access via SR-60 to Archibald Avenue to Chino Avenue, and via I-15 to Ontario Ranch Road to Archibald Avenue.

Based on the physical analysis, the size and access make the subject property physically suited for numerous types of development; however, the grading that has occurred on the site suggests residential development.

Legality of Use

The subject property is located within the City of Ontario in the County of San Bernardino. Per the City General Plan, the subject is zoned as LMDR (low to medium density residential) allowing for 5.1 to 11.0 dwelling units per acre. Per the City of Ontario Zoning Map, the site as shown as SP and falls within the Countryside Specific Plan. Per the Countryside Specific Plan Land Use Plan, the subject lands are designated as Neighborhood 5 (Shady Tree, the northern portion) and Neighborhood 6 (Whispering Winds, the southern portion), allowing for up to 98 and 141 residential units respectively, for a total maximum unit count of 239. Tract Map No. 17449, which covers Shady Tree, was recorded on December 16, 2021, and subdivides the northern portion of the site into 97 numbered lots. Tract Map No. 17450, which covers Whispering Wind, was also recorded on December 16, 2021, and subdivides the southern portion of the property into

138 numbered lots. The approved tract maps appear to be consistent with the approved specific plan and the current zoning.

Based on the legality of use analysis, the type of development for which the subject properties can be utilized is narrowed to residential use. This is consistent with the findings of the physically possible uses.

Feasibility of Development

The third and fourth considerations in the highest and best use analysis are economic in nature, i.e., the use that can be expected to be most profitable. As discussed under the Inland Empire Housing Market section earlier within this report, the market showed strong increases in both sales and pricing in 2020, 2021 and the beginning of 2022. The second half of 2022 and the beginning of 2023 reflected a slowdown in sales and a softening in prices as interest rates have risen substantially. The slowdown in the second half of 2022 resulted in builder's either pausing on escrows or dropping escrows resulting in few actual residential land sale closings until the second half of 2023. Currently, builders are once again entering escrows and moving forward on older escrows as new home buyers are continuing to purchase homes, even with the higher mortgage rates. Within Ontario CFD No. 35, out of 235 mapped units, there have been 175 home sales to date including 137 home closings. All structures appear to be in excellent condition with no physical depreciation apparent. Within the new home market in the Ontario area, we found eleven projects (including subject's two product lines) to be comparable to the subject's product lines. Homebuilding had not been able to keep up with the demand in 2020 and 2021 due to several factors including historically low interest rates, millennials joining the home buying market and the work from home factor which all add to the demand. While the market softened in the second half of 2022 through early 2023, the latter half of 2023 and start of 2024 have shown the Inland Empire is still seeing demand and new homes are still selling. Our search for land sales found six land sales in the market area in the past nine months that we consider to be comparable. Population growth is still occurring in the area and will continue to create the need for housing. Based on the above analysis, the highest and best use the subject property appears to be for single-family residential development at the right price points.

Maximum Productivity

Based on the market activity of residential lands in the immediate area, we have concluded there is a need/demand for residential lands.

Highest and Best Use Conclusion – "As If Vacant"

The final determinant of highest and best use, as if vacant, is the interaction of the previously discussed factors (i.e., physical, legal, financial feasibility and maximum productivity considerations). Based upon the foregoing analysis, it is our opinion that the highest and best use for the subject property is for residential land use.

Highest and Best Use – "As Improved"

The subject property consists of Shady Tree at Country Lane and Whispering Wind at Country Lane, with 235 total proposed homes which are currently being marketed by Lennar. Country Lane began selling in October 2022 and has sold 174 homes, reflecting a sales rate of 9.7 sales per month spread across the two product lines. Independently, Shady Tree has an average absorption rate of 4.8 sales per month while Whispering Wind has an average absorption rate of 4.8 homes per month. Base prices at Country Lane have increased since grand opening, with base price increases of 12.9 to 20.3 percent at Shady Tree (with most recent base pricing ranging from $733,000 to $799,000) and an increase of 6.4 to 14.0 percent at Whispering Wind (with most recent base pricing ranging from $577,000 to $637,000). In marketing the homes, the builder is offering concessions, including rate buy-downs and help with closing costs, on a case-by-case basis. These concessions have ranged from $0 to $106,652 with an average of about $46,000 per sale at Shady Tree and $40,000 per sale at Whispering Wind. While the incentives are showing a softening market per Empire Economics' Price Point Review Study, the plan pricing (including incentives being offered) has increased on five if the plans ranging from 0.5 up to 10 percent and decreased on two of the plans on ranging from 0.6 to 5 percent between the concluded base pricing in 2022 and current base pricing. The sales absorption rate within Country Lane is above the average in the market area. As discussed under the Inland Empire Housing Market section, within the Inland Empire, the monthly average sales per project year-to-date is 4.3 homes per month while each of the

subject communities are experiencing 4.8 sales per month. All of the homes are of good design and appear to be of good quality workmanship. It appears that Shady Tree and Whispering Wind at Country Lane are being well received and the communities are selling at the correct price points for the area. Based on the above information, it is concluded that the highest and best use for the subject property, is for the continued use, as improved.

VALUATION ANALYSIS AND CONCLUSIONS

The Sales Comparison Approach will be used to value the subject properties. This approach compares similar properties that have recently sold or are in escrow. In determining the value for the property, a unit of comparison needs to be addressed. For detached residential lands, they are typically sold on the basis of a finished lot. That is, the sales price is determined by the finished lot value and then the remaining costs to develop the property to a finished condition are taken into account in the sales price. Therefore, in determining a current market value for the lands, the current condition of the lots will be considered. In the case of the existing home valuations, a single new-home sale is the unit of comparison. Our search will include all comparable new home projects within the subject's immediate and surrounding market area to find comparable new homes for sale. In determining the value for each house, a base value will be concluded for each plan which will be considered a minimum market value as most buyers typically purchase some premiums, upgrades or options which increase the price of the home.

In the case of the completed (over 95 percent complete) builder-owned models and production houses, the homes will be valued using the Sales Comparison Approach to conclude on a retail value for each plan, followed by a Discounted Cash Flow ("DCF") Analysis due to the single ownership. The DCF will take into account the fair market value of the completed homes (utilizing the Sales Comparison Approach), remaining development costs (if any), the marketing and carrying costs associated with selling off the homes, a profit due to the developer of the homes, and a discount rate reflecting both the risk associated with selling off the homes along with the time value of money during the estimated absorption period. A home under construction (under 95 percent complete) will be valued as a finished lot rather than attribute value to a partially complete improvement. In the case of individually owned homes, the concluded minimum market value will be used for each plan and a mass appraisal technique will be addressed. In determining the concluded minimum market value, new home sales in the area will be reviewed and compared with sales of the subject completed homes using standard methodology and statistical testing. All of the value conclusions will take into

consideration improvements and/or benefits to be funded by the Ontario CFD No. 35 Special Tax Bonds and their lien. A summary of the final value conclusions will be reported at the end of this valuation section.

Market Data Discussion – Residential Lots

Within Ontario CFD 35, there are 235 pads in a generally finished condition, with 137 completed homes individually owned, 18 Lennar-owned homes that are complete or nearly complete (including six model homes and 12 production homes over 95 percent complete – all in escrow), 44 Lennar-owned homes that are under construction (under 95 percent complete with 26 in escrow), and 36 additional finished lots/pads owned by Lennar. As we are valuing a home under construction (under 95 percent complete) on the basis of a finished lot/pad, we will be valuing 80 lots/pads in our analysis.

We have searched the area and found the six transactions summarized below (listed in the Addenda) to be most comparable to the subject property. The sales are reported both on a purchase price basis and on a finished lot basis. Although some sales refer to "finished lots," they are typically physically finished lots with some fees remaining to be paid in order to be considered truly finished lots. At times land sales are for small-lot or attached product and refer to a "blended price" for these two products. The market data refers to mostly higher density products with overall density ranging from 10 to 25 dwelling units per acre while the subject property has an overall density of 7.1 dwelling units per acre which is a lower density than most of the recent land sales in Ontario Ranch. Below are the details of each of the comparable land sales along with a discussion of each transaction in relationship to the subject lands.

Land Sale No. 1 refers to the December 2023 purchase of the 14.6 acre parcel located at the northwest corner of Archibald and Eucalyptus Avenues in the master planned community of Parkside about one mile directly south of the subject. New Home Company is currently selling their NUVO project with four communities (Hyde, Bryant, Lincoln and Grant) adjacent to the north and west of this site. Lincoln and Grant are both sold out with Hyde having eight homes remaining to sell and Bryant currently selling. The parcel has

approvals for 236 units for an overall density of about 16 dwelling units per acre. Lennar purchased the site from Lewis Companies for $35,177,500, closing in December 2023. This equates to a per lot price of $149,057 based on a reported estimated finished lot/pad value of $250,000 blended between the three products. The community will include three distinct products, either two- or three-story cluster homes. In comparison to the subject property, this site has a higher overall density (16.16 dwelling units per acre versus the subject's 7.1 dwelling units per acre) which makes it significantly inferior to the subject.

Land Sale No. 2 pertains to Pulte Homes' purchase of 333 proposed units along the west side of Hamner, north of Eucalyptus Avenue within the Esperanza Specific Plan about two miles southeast of the subject. Pulte purchased the site in December 2023 for $72,527,499 or $217,800 per unit. Per the approved site plan there are 156 townhomes, 82 small, detached cluster lots and 95 large, detached cluster lots. Per brokers familiar with the transaction, the reported blended finished lot price is $315,000 per unit which is broken down as $258,000 for the townhomes, $315,000 for the small cluster lots and $401,000 for the large cluster lots. The site is also known as Planning Area 3 and 4 of the Esperanza Specific Plan. In comparison to the subject property, the blended price on this transaction is considered to be inferior in density (11 dwelling units per acre versus the subject's 7.1 dwelling units per acre). The cluster lots only have a lower density and range from $315,000 to $401,000 per unit which is more like the subject.

Land Sale No. 3 is in reference to another Lennar purchase, this one within Countryside Specific Plan, just north of the subject site. Lennar purchased the site for 265 units in October 2023 for $49,559,000 or $187,015 per unit based upon a reported $297,000 blended per unit finished lot/pad price. The product is estimated for townhomes, cluster units and detached lots with the finished prices estimated as $260,000 for the townhomes, $315,000 for the Cluster lots and $355,000 for the detached conventional lots. The density within the project is estimated to be 12 dwelling units per acre. In comparison to the subject property, the blended price on this transaction is considered to be inferior due to the higher density when compared to the subject property's 7.1 dwelling units per acre.

However, the cluster lots have a lower density and a price range of $315,000 to $355,000 which are considered similar to the subject.

Land Sale No. 4 pertains to the purchase of 191 lots by Landsea Homes located in the Westhaven Specific Plan along the west side of Haven Avenue, north of Chino Avenue in Ontario Ranch about one mile northeast of the subject site. Landsea purchased the 191 lots in August 2023 for $25,234,500 or a blended price of $132,118 per unit based on an estimated finished lot blended price of $280,000. The finished lot per product is estimated at $260,000 for the townhomes and $315,000 for the cluster detached units. The overall density on the site has been estimated at 10 dwelling units per acre. In comparison to the subject property, this transaction is considered to be slightly inferior in density based on the blended price and more similar to the cluster lots.

Land Sale No. 5 is in regard to another Landsea Homes purchase, this one along the west side of Mill Creek Avenue, south of Chino Avenue within the RichHaven Specific Plan about 1.5 miles east of the subject. Landsea purchased the site entitled for 144 townhomes in June 2023 for $16,924,000 or $117,528 per unit based on a reported finished lot price of $235,000. The property has an overall density of about 15 dwelling units per acre which is a higher density than the subject. All 144 units are proposed to be attached townhomes as Landsea is continuing their successful Eave community (adjoining lands to the west) on the site. In comparison to the subject site, this transaction is considered to be significantly inferior due to the higher density when compared to the subject site's overall density of 7.1 dwelling units per acre and the fact that they are all attached units.

Land Sale No. 6 refers to the sale of a high-density property located about five miles north of the subject property along the north side of Concours Street at Duesenberg Drive in Ontario proper, not within the Ontario Ranch community. Shea Homes purchased the property from Lewis Group of Companies in August 2023 for $8,600,000 or $102,381 per unit based on an estimated finished lot price of $198,651. Duesenberg Drive bisects the property with proposed homes on each side of the street. The site contains an estimated

3.3 acres with entitlements for 84 attached units which equates to 25.45 dwelling units per acre. In comparison to the subject properties, this sale has a much higher density which suggests that the per unit or finished lot/pad price is significantly inferior to the subject property with a density of 7.1 dwelling units per acre. Less emphasis is placed on this transaction as it is not located within the Ontario Ranch, however we have included it to show the recent activity in the subject marketplace. The much higher density would set the lower limit based on a per unit value in the current market.

The chart on the following page summarizes the considerations used in adjusting the market data to the subject property.

Data No.	Location	Date of Sale	Density	Finished Lot Price Rangh	Comparison to Subject
1	Ontario Ranch	12/23	16 du/ac	$250,000 (blended)	Significantly Inferior – Density
2	Ontario Ranch	12/23	11 du/ac	$315,000 (blended) ($258,000 - $401,000)	Inferior – Density blended
3	Ontario Ranch	10/23	12 du/ac	$297,000 (blended) $260,000 to $355,000	Inferior – Density blended
4	Ontario Ranch	8/23	10 du/ac	$280,000 (blended $250,000 - $310,000	Inferior – Density blended
5	Ontario Ranch	6/23	15 du/ac	$235,000	Significantly Inferior – Density & Attached
6	Ontario Proper	8/23	25 du/ac	$198,651	Significantly Inferior – Density & Attached

The market data has an overall, unadjusted, finished lot range from $198,651 to $315,000 with the major difference being overall density within the various communities. The lowest prices at $198,651 refers to significantly higher density at 25 dwelling units per acre versus the subject community density which is 7.1 dwelling units per acre. The subject has a lower density than all of the recent sales in the Ontario Ranch area; however, when reviewing the sales, several of the builders have reported their finished lot pricing based on product. The subject Shady Tree lots are generally conventional small lots rather than cluster lots and while Whispering Wind is in a cluster format, they are all detached small lots. We have reviewed Land Data Nos. 2, 3 and 4 which all included some townhome

lots and some either cluster or more conventional single family small lots. The cluster or single family detached lots range from $315,000 to $401,000 with Data No. 3 reporting a $355,000 finished lot price for the single family detached lots, similar to the subject. Data No. 3 is also located within the Countryside Specific Plan, same as the subject property making it the most comparable.

Based on the market data, which is considered to be good, and taking into account the varying factors in the transactions along with the current residential land market, we have concluded that the subject lots have a blended finished lot value of $330,000. However, the lots are not yet in a true finished condition. Based on the above and considering the remaining costs as discussed in the Property Description section, the land value is calculated as follows:

Lennar Ownership of Lots/Pads:

80 Lots/Pads x $330,000	$ 26,400,000
Less: Remaining Costs ($60,960.55 x 80)	(4,876,844)
Current Value of 80 Lots/Pads	$ **21,523,156**

Retail House Valuation Analysis – Shady Tree & Whispering Wind by Lennar

Shady Tree and Whispering Wind at Country Lane are proposed for a total of 235 detached homes with 137 completed and closed to individuals. The builder owns six model homes and 12 production home over 95 percent complete for a total of 18 homes. The homes under construction and the remaining lots were valued above. This section will value the builder-owned homes, followed by a value for the individually-owned homes using a mass appraisal technique. We have searched the local Multiple Listing Service ("MLS") and inspected the property and there has not been any resales or current resale listings within Country Lane. On the following page is a summary of the various floor plans in both Shady Tree and Whispering Wind. A listing of the improved residential comparable properties is located in the Addenda of this report. All improved residential comparable properties are located within the subject City of Ontario or the neighboring City of Chino.

Shady Tree at Country Lane					
Floor Plan	Bed/Bath	Floors/ Parking	Sq. Ft.	Ind. Owned	Bldr. Owned
Plan 1	4 / 2.5	2 / 2	2,213	34	1*
Plan 2	4+ Loft / 4	2 / 2	2,315	15	1*
Plan 3	5 / 4	2 / 2	2,409	19	1*
Subtotal				**68**	**3**
Whispering Wind at Country Lane					
Plan 1	3 / 2.5	2 / 2	1,618	17	3
Plan 2	3 / 2.5	2 / 2	1,800	18	4*
Plan 3	4 + Loft / 3	2 / 2	2,067	17	4*
Plan 4	5 / 3	2 / 2	2,202	17	4*
Subtotal				**69**	**15**
Total				**137**	**18**

*Each asterisk designates one model home per that plan. In addition to the above there are 21 homes under construction and five additional finished lots within Shady Tree and 23 homes under construction and 31 additional lots within Whispering Wind.

The most appropriate new home comparable data for Shady Tree Plan 1 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
1 (Subj.)	1	4 / 2.5	2 / 2	2,213	--
1	2	4+ Loft / 4	2 / 2	2,315	$345.14
1	3	5 / 4	2 / 2	2,409	$328.77
2	3	4 + Loft / 3	2 / 2	2,067	$340.11
2	4	5 / 3	2 / 2	2,202	$329.70
6	4	4 / 3	2 / 2	2,173	$379.66
7	2	4 / 3	2 / 2	2,208	$341.61
9	2	4 / 3	2 / 2	2,200	$364.54

The subject market includes comparable products located within Ontario and Chino. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $328.77 to $379.66 per square foot. The current base asking price for Shady Tree Plan 1 is $331.22 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $46,000 per home which equates to over $20 per square foot on the subject plan. There have been 34 closings of Shady Tree Plan 1 with actual sales prices from $269.61 to $331.91 per square foot. There are nine current escrows of Shady Tree Plan 1 with a sales price range from $301.15 to $329.79 per

square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Shady Tree Plan 1 has a base current market value of $300.00 per square foot. This calculates as follows:

2,213 sf x $300.00 = $663,900

The most appropriate new home comparable data for Shady Tree Plan 2 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
1 (Subj.)	2	4+ Loft / 4	2 / 2	2,315	--
1	1	4 / 2.5	2 / 2	2,213	$331.22
1	3	5 / 4	2 / 2	2,409	$328.77
2	4	5 / 3	2 / 2	2,202	$329.70
6	4	4 / 3	2 / 2	2,173	$379.66
7	3	4 / 3	2 / 2	2,229	$345.14
9	2	4 / 3	2 / 2	2,200	$364.54
9	3	4 / 3	2 / 2	2,465	$344.82

The subject market includes comparable products located within Ontario and Chino. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $328.77 to $379.66 per square foot. The current base asking price for Shady Tree Plan 2 is $345.14 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $46,000 per home which equates to almost $20 per square foot on the subject plan. There have been 15 closings of Shady Tree Plan 2 with actual sales prices from $264.63 to $329.13 per square foot. There are four current escrows of Shady Tree Plan 2 with a sales price range from $307.40 to $330.09 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost

concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Shady Tree Plan 2 has a base current market value of $300.00 per square foot. This calculates as follows:

2,315 sf x $300.00 = $694,500

The most appropriate new home comparable data for Shady Tree Plan 3 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
1 (Subj.)	3	5 / 4	2 / 2	2,409	--
1	1	4 / 2.5	2 / 2	2,213	$331.22
1	2	4+ Loft / 4	2 / 2	2,315	$345.14
2	4	5 / 3	2 / 2	2,202	$329.70
7	3	4 / 3	2 / 2	2,229	$345.14
7	4	4 / 3.5	2 / 2	2,528	$321.02
9	3	4 / 3	2 / 2	2,465	$344.82

The subject market includes comparable products located within Ontario and Chino. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $321.02 to $345.14 per square foot. The current base asking price for Shady Tree Plan 3 is $328.77 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $46,000 per home which equates to over $19 per square foot on the subject plan. There have been 19 closings of Shady Tree Plan 3 with actual sales prices from $262.16 to $323.80 per square foot. There are six current escrows of Shady Tree Plan 3 with a sales price range from $304.66 to $326.75 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Shady Tree Plan 3 has a base current market value of $295.00 per square foot. This calculates as follows:

2,409 sf x $295.00 = $710,655

The most appropriate new home comparable data for Whispering Wind Plan 1 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
2 (Subj.)	1	3 / 2.5	2 / 2	1,618	--
2	2	3 / 2.5	2 / 2	1,800	$357.78
3	H2	3 / 2.5	3 / 2	1,550	$399.99
3	H3	4 / 3.5	3 / 2	1,727	$395.48
4	B2	3 / 2.5	2 / 2	1,536	$417.96
4	B4	3 / 2.5	2 / 2	1,675	$393.43
5	2	3 / 2.5	2 / 2	1,638	$403.25
5	3	3 / 3.5	3 / 2	1,785	$364.21
8	2	3 / 2.5	2 / 2	1,684	$416.86

The subject market includes comparable products located within Ontario. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $357.78 to $417.96 per square foot. The current base asking price for Whispering Wind Plan 1 is $379.48 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $40,000 per home which equates to almost $25 per square foot on the subject plan. There have been 17 closings of Whispering Wind Plan 1 with actual sales prices from $323.99 to $385.82 per square foot. There are three current escrows of Whispering Wind Plan 1 with a sales price range from $358.89 to $400.65 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Whispering Wind Plan 1 has a base current market value of $350.00 per square foot. This calculates as follows:

1,618 sf x $350.00 = $566,300

The most appropriate new home comparable data for Whispering Wind Plan 2 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
2 (Subj.)	2	3 / 2.5	2 / 2	1,800	--
2	1	3 / 2.5	2 / 2	1,618	$379.48
2	3	4 + Loft / 3	2 / 2	2,067	$340.11
3	H3	4 / 3.5	3 / 2	1,727	$395.48
3	H4	4 / 3.5	3 / 2	1,809	$393.03
4	B4X	3 / 2.5	2 / 2	1,754	$379.70
5	3	3 / 3.5	3 / 2	1,785	$364.21
5	4	4 / 3	2 / 2	1,805	$373.78

The subject market includes comparable products located within Ontario. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $340.11 to $395.48 per square foot. The current base asking price for Whispering Wind Plan 2 is $357.78 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $40,000 per home which equates to over $22 per square foot on the subject plan. There have been 18 closings of Whispering Wind Plan 2 with actual sales prices from $310.81 to $354.41 per square foot. There are three current escrows of Whispering Wind Plan 2 with a sales price range from $357.54 to $367.20 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Whispering Wind Plan 2 has a base current market value of $320.00 per square foot. This calculates as follows:

1,800 sf x $320.00 = $576,000

The most appropriate new home comparable data for Whispering Wind Plan 3 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
1 (Subj.)	3	4 + Loft / 3	2 / 2	2,067	--
2	2	3 / 2.5	2 / 2	1,800	$357.78
2	4	5 / 3	2 / 2	2,202	$329.70
6	3	4 / 3	2 / 2	2,133	$382.09
6	4	4 / 3	2 / 2	2,173	$379.66
7	1	4 / 3	2 / 2	2,053	$359.74
8	3	4 / 3	2 / 2	1,955	$389.26
11	3	3 / 2.5	2 / 2	2,046	$383.18
11	4	3 / 2.5	2 / 2	2,100	$378.09

The subject market includes comparable products located within Ontario and Chino. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $329.70 to $389.26 per square foot. The current base asking price for Whispering Wind Plan 3 is $340.11 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $40,000 per home which equates to over $19 per square foot on the subject plan. There have been 17 closings of Whispering Wind Plan 3 with actual sales prices from $271.61 to $339.38 per square foot. There are six current escrows of Whispering Wind Plan 3 with a sales price range from $316.76 to $341.68 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Whispering Wind Plan 3 has a base current market value of $300.00 per square foot. This calculates as follows:

2,067 sf x $300.00 = $620,100

The most appropriate new home comparable data for Whispering Wind Plan 4 is:

Data	Plan	Rm. Ct.	Flrs/Pkg.	Sq. Ft.	Price/SF
1 (Subj.)	4	5 / 3	2 / 2	2,202	--
2	3	4 + Loft / 3	2 / 2	2,067	$340.11
6	3	4 / 3	2 / 2	2,133	$382.09
6	4	4 / 3	2 / 2	2,173	$379.66
7	2	4 / 3	2 / 2	2,208	$341.61
7	3	4 / 3	2 / 2	2,229	$345.14
9	2	4 / 3	2 / 2	2,200	$364.54
11	4	3 / 2.5	2 / 2	2,100	$378.09

The subject market includes comparable products located within Ontario and Chino. All are of similar quality, design, and appeal. Adjustments were considered (when applicable) for location, stories, lot size/density, sales concessions, CFD taxes, common area benefits, total square footage, room count, garage space, and other amenities. The comparable new home sales have base prices ranging from $340.11 to $382.09 per square foot. The current base asking price for Whispering Wind Plan 4 is $329.70 per square foot. It should be noted that the base prices do not take into consideration the mortgage concessions (either rate buy-downs or closing cost assistance) which average about $40,000 per home which equates to over $18 per square foot on the subject plan. There have been 17 closings of Whispering Wind Plan 4 with actual sales prices from $265.93 to $318.23 per square foot. There are six current escrows of Whispering Wind Plan 4 with a sales price range from $307.60 to $343.89 per square foot. It should be noted that the reported sales prices include upgrades, premiums, and options along with all concessions given by the builder, while the concluded value relates to a base price for the plan including closing cost concessions. Closing cost concessions do not show up in the reported sales price of the home, however, are a cost of selling the home. It has been concluded that Whispering Wind Plan 4 has a base current market value of $295.00 per square foot. This calculates as follows:

2,202 sf x $295.00 = $649,590

Builder Owned Retail Value – Country Lane

Within the subject property there are 12 production homes and six models over 95 percent complete owned by Lennar. Per interviews with builders, upgrades, and

landscape/hardscape of over $100,000 are installed in subject-like model homes, however, the builders generally consider this a marketing cost and do not anticipate recovering this investment on a dollar-for-dollar basis. Based on historical information, home sizes and fixtures, actual model home sales within the subject area and the current real estate market, a consideration of a $40,000 premium has been included with each of the model homes. As concluded above, the retail base value conclusions for the builder-owned homes within Country Lane are calculated as follows:

Shady Tree Plan 1 (1 x $663,900)	$ 663,900
Shady Tree Plan 2 (1 x $694,500)	694,500
Shady Tree Plan 3 (1 x $710,655)	710,655
Whispering Wind Plan 1 (3 x $566,300)	1,698,900
Whispering Wind Plan 2 (4 x $576,000)	2,304,000
Whispering Wind Plan 3 (4 x $620,100)	2,480,400
Whispering Wind Plan 4 (4 x $649,590)	2,598,360
Model Upgrades (6 x $40,000)	240,000
Retail Value - Lennar Owned Homes	$11,390,715

Absorption Period

In order to arrive at an absorption period for the 18 builder-owned homes within Country Lane, the absorption rates for the subject and surrounding developments have been reviewed. As discussed under the Highest and Best Use section earlier within this report, there is an average sales rate for Country Lane of 9.7 sales per month, combined across both product lines. The Improved Residential Market Data which are considered competition have sales rates from 2.5 to 6.0 sales per month. We have concluded that the subject 18 homes, 12 of which are currently in escrow, will be absorbed over a three-month period taking into consideration the absorption rate and the current escrows, along with current market conditions and the rising interest rates.

Remaining Costs

As discussed under the remaining development costs section earlier within this report Lennar has stated there are $60,960.55 per unit remaining in land development costs and fees associated with the builder-owned homes and lot. This equates to a total of

$1,097,290 for the builder-owned 18 homes. It is an assumption of this analysis that the costs will be spread evenly over the three-month absorption time period.

Expenses

In determining an expense rate, several builders in the subject area have been interviewed as to their expenses on selling existing inventory. Expenses include marketing and general administrative costs. These costs typically range from six to ten percent depending on varying factors such as absorption period, intensity of marketing, etc. Due to the rapidly changing market with increasing interest rates, an eight percent allowance has been estimated for marketing expenses and two percent for general and administrative costs for a total of ten percent in expenses for this analysis.

Profit

Several interviews with merchant builders in the area were conducted in order to determine an appropriate profit percentage for the subject properties. In the early 2000s, developers typically attempted to achieve a 10 to 12 percent profit based on gross sales proceeds. During the Great Recession this range was lowered considerably to six to 10 percent with some builders drastically lowering their profit potential in order to maintain their workforce. As the market improved, so did the profits. A ten percent profit is considered appropriate in the analysis for this project.

Discount Rate

In selecting a discount rate, the following was completed:

1. Interviews with merchant builders in the Ontario Ranch area
2. Review of current market conditions including current market rates as well as yields reflected in other markets (i.e., municipal bonds, corporate bonds, etc.)
3. The quality, construction, historical sales, and product on the subject property

The homes within the subject property appear to be well constructed and have been selling at good absorption rates. There is minimal remaining development associated with the project. New home sales appear to be withstanding the higher interest rates; however, this may be due to limited existing inventory available. Due to these factors, coupled with the amount of product remaining, a ten percent discount rate is considered appropriate for this analysis.

Discounted Cash Flow Summary

The discounted revenue for the builder-owned homes in Country Lane (see DCF Analysis in Addenda) is **$7,883,526.**

Lennar Ownership Valuation Total – Country Lane

Lennar owns 18 homes over 95 percent complete, including six models, along with 80 lots either with houses under construction (under 95 percent complete) or in a finished lot condition within Ontario CFD No. 35. The homes under construction (under 95 percent) have been valued as a finished lot/pad rather than attribute value to a partially complete improvement. The final value conclusion for the builder owned property is shown below.

80 Lots Valuation	$ 21,523,156
Houses (18 Including 6 models)	7,883,526
Total Lennar Owned Property	**$ 29,406,682**

Individual Owners Value Conclusion – Country Lane

In determining the value for the individually owned homes within Country Lane, we have considered the concluded base price value for the homes, which is considered a minimum market value. This is due to homebuyers typically purchasing some additional upgrades, options or paying some premiums for the home. The concluded values are shown below:

Shady Tree Plan 1 (34 x $663,900)	$ 22,572,600
Shady Tree Plan 2 (15 x $694,500)	10,417,500
Shady Tree Plan 3 (19 x $710,655)	13,502,445
Whispering Wind Plan 1 (17 x $566,300)	9,627,100
Whispering Wind Plan 2 (18 x $576,000)	10,368,000
Whispering Wind Plan 3 (17 x $620,100)	10,541,700
Whispering Wind Plan 4 (17 x $649,590)	11,043,030
Total Individual Ownership Value	**$88,072,375**

In an additional review, we have reviewed the builder sales prices for the homes within Country Lane, where 137 closings occurred between May 16, 2023 and April 1, 2024. The builders' reported net closing prices for the individually owned homes total $88,555,310. The concluded current minimum market value of $88,072,375 equates to less than one percent less than the actual sales prices. The builder's reported prices include premiums,

upgrades and purchased options as well as took into consideration the concessions given by the builder. Due to the options, upgrades and premiums, the actual prices would be more than the base pricing, however base pricing within the project has increased 6.4 to 20.3 percent based on the plan. While this appreciation would have typically been seen in the current market value being higher, the appreciation is offset by the concessions which are determined on a case-by-case basis. As previously stated, the concessions have averages over $40,000 per sale on Whispering Wind and over $46,000 per sale on Shady Tree. Based on the above information and analysis along with our familiarity with the market, it is our conclusion that the original builder's sales prices further substantiate the concluded minimum market value for the individually owned homes.

APPRAISAL REPORT SUMMARY

The appraisal assignment was to value the subject property within Ontario CFD No. 35 which consists of 235 proposed residential units. The 235 units are known as Shady Tree and Whispering Wind at Country Lane, being marketed, and sold by Lennar, and are located in the Ontario Ranch area of the City of Ontario. The subject includes two product lines: Shady Tree, 97 detached homes arranged on "Z" lots; and Whispering Wind, 138 detached cluster homes arranged in motorcourts. As of April 1, 2024, individuals have purchased and closed 137 of the total 235 proposed houses, with an additional 38 homes in escrow which are due to close upon completion. The community has enjoyed a good sales pace. All structures appear to be in excellent condition with no visible depreciation. We have reviewed builder sales and reviewed the local MLS for current re-sale listings or resales and found none.

The subject properties were valued utilizing the Sales Comparison Approach to value, a Discounted Cash Flow Analysis, and a Mass Appraisal Technique for the individually owned homes. A minimum value was determined by concluding at a base value for the individually owned homes. The valuation took into account the improvements/benefits to be funded by the special tax Ontario CFD No. 35 bond proceeds along with the Ontario CFD No. 35 special tax lien. The concluded aggregate value for the subject properties, subject to their respective special tax lien, is:

Shady Tree and Whispering Wind at Country Lane:

Lennar Ownership (80 lots & 18 houses)	$ 29,406,682
Individual Owners (137 houses)	$ 88,072,375
Total Aggregate Value Ontario CFD No. 35	**$117,479,057**

The above values are stated as of said date of value and subject to the attached Assumptions and Limiting Conditions and Appraiser's Certification.

APPRAISER'S CERTIFICATION

The appraiser certifies that to the best of his knowledge and belief:

1. The statements of fact contained in this report are true and correct.

2. The reported analyses, opinions and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased, professional analyses, opinions, and conclusions.

3. The appraiser has no present or prospective interest in the property that is the subject of this report, and no personal interest or bias with respect to the parties involved.

4. The appraiser's compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result or the occurrence of a subsequent event.

5. This appraisal was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

6. Analyses, opinions and conclusions were developed, and this report was prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

7. Kitty Siino has made a personal inspection of the property that is the subject of this report.

8. Kitty Siino has not performed any appraisal services on the subject property in the past three years.

9. No other appraisers have provided significant professional assistance to the persons signing this report.

10. The reported analyses, opinions and conclusions were developed, and this report was prepared, in conformity with the requirements of the Appraisal Institute's Code of Professional Ethics and Standards of Professional Appraisal Practice, which include the Uniform Standards of Professional Appraisal Practice.

11. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

12. As of the date of this report, Kitty Siino has completed the requirements of the continuing education program of the Appraisal Institute.

APPRAISER'S QUALIFICATIONS

QUALIFICATIONS OF KITTY S. SIINO, MAI

Education

Bachelor of Arts in Business Administration, Financial Investments, California State University, Long Beach, California (1980)

Post-Graduate Study, Real Estate Development, University of California, Irvine, California

Appraisal Institute Classes: Uniform Standards of Professional Appraisal Practice, A & B; Appraisal Principles; Appraisal Procedures; Basic Income Capitalization; Advanced Income Capitalization; Narrative Report Writing; Advanced Applications, Case Studies. Successfully completed all classes in addition to successfully completing the writing of a Demonstration Report and taking the Comprehensive Exam. Became a Member of the Appraisal Institute in December 1996. Have completed over 100 hours of continuing education through the Appraisal Institute every five years.

Employment

1988 - Present:

Self-Employed Real Estate Appraiser. Duties include the appraisal of various types of properties such as commercial, retail, industrial and vacant land. More complex assignments include easements, right-of-ways and special assessment districts. From 1996 to present, specialized in special assessment districts and community facilities districts appraisals for public entities, including Jurupa Community Services District, Corona Norco Unified School District, City of Corona, City of Chula Vista, City of San Marcos and City of Moreno Valley.

1986-1988:

Project Manager of Development for Ferguson Partners, Irvine, California. Duties included land acquisitions; review of fee appraisals and valuations; analysis of proposed development; planning and design; and management of development, construction and lease-up. The types of properties developed were commercial and industrial. Duties ranged from raw, vacant site development through property management of recently developed projects.

1981 - 1986

Manager of Finance, Construction for Community Development Division, The Irvine Company, Irvine, California. Duties included originating and managing a newly formed division of finance to bridge between the accounting functions and project management functions. Worked with analysis and budgets for Community Development Division. Coordinated with cities in forming new Assessment Districts and Community Facilities Districts to finance major infrastructure improvements. Types of properties were apartments and single-family residential lots on a for sale basis to apartment and homebuilders.

1980 - 1981

Investment Counselor, Newport Equity Funds, Newport Beach, California. Duties included obtaining private financing for residential properties, working with appraisals of properties and analyzing the investments.

CITY OF ONTARIO *Agenda Report* **June 4, 2024**	**SECTION:** **ADMINISTRATIVE REPORTS/DISCUSSION/ACTION**
Department: Engineering Prepared By: Craig Cruz Staff Member Presenting: Scott Murphy, Executive Director Community Development Approved By:	Submitted To: Council/OHA Approved: _____ Continued To: _____ Denied: _____ Item No: 30

SUBJECT: **AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, ADDING ARTICLE 22 (VALET PARKING) TO CHAPTER 6 (TRAFFIC) OF TITLE 4 (PUBLIC SAFETY) OF THE ONTARIO MUNICIPAL CODE, ESTABLISHING REGULATIONS RELATING TO VALET PARKING**

RECOMMENDATION: That the City Council introduce an Ordinance adding Article 22 (Valet Parking) to Chapter 6 (Traffic) of Title 4 (Public Safety) and amending Section 4-6.1202 of the Ontario Municipal Code, establishing regulations relating to valet parking.

THE FOLLOWING COUNCIL GOALS ARE BEING ACHIEVED:
Operate in a Businesslike Manner
Focus Resources in Ontario's Commercial and Residential Neighborhoods

FISCAL IMPACT: There is not a direct fiscal impact associated with this action. The proposed fee will cover the costs associated with the processing of the valet parking permit application.

BACKGROUND & ANALYSIS: With an increase in development and/or the popularity of certain businesses, an increase of parking demand and decrease of off-street parking facilities, both temporarily and permanently, can occur. Valet parking can provide for efficient use of limited parking spaces and provide an additional visitor/patron amenity.

The Ontario Municipal Code currently does not contain any provisions regulating valet parking. This Ordinance would establish a legal framework to guide the implementation, operation, and regulation of a valet parking permitting system. The Engineering Department would administer the valet parking permit application process, which would include, but not be limited to, establishing fees, reviewing the map of the valet services, and reviewing the placement of signs and pedestals. Valet parking permits would be valid for not more than one year from the date of issuance and can be renewed. Valet parking zone inspections will be conducted to ensure compliance with the ordinance, the permit and any conditions of approval.

The Fiscal Year 2024-25 Proposed Citywide Fee Schedule will include the new fees for a valet parking permit application and will be presented at the June 17, 2024, special City Council budget meeting for Council's consideration.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ONTARIO, CALIFORNIA, ADDING ARTICLE 22 (VALET PARKING) TO CHAPTER 6 (TRAFFIC) OF TITLE 4 (PUBLIC SAFETY) AND AMENDING SECTION 4-6.1202 OF THE ONTARIO MUNICIPAL CODE, ESTABLISHING REGULATIONS RELATING TO VALET PARKING.

WHEREAS, the Ontario Municipal Code currently does not contain any provisions regulating valet parking; and

WHEREAS, the City Council wishes to regulate valet parking and valet parking operators through a permitting system to enhance public safety and to avoid potential public nuisances;

WHEREAS, pursuant to Article XI, Section 7 of the California Constitution, the City has broad discretionary power to make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general laws; and

WHEREAS, this Ordinance establishes a legal framework to guide the implementation, operation, and regulation of a valet parking permitting system.

NOW THEREFORE, THE CITY COUNCIL OF THE CITY OF ONTARIO DOES ORDAIN AS FOLLOWS:

SECTION 1. The Recitals set forth above are incorporated herein and made an operative part of this Ordinance.

SECTION 2. Article 22 (Valet Parking), is hereby added to Chapter 6 (Traffic) of Title 4 (Public Safety) of the Ontario Municipal Code to read in its entirety as follows:

Article 22 (Valet Parking), of Chapter 6 (Traffic), of Title 4 (Public Safety)

Sec. 4-6.2201 Purpose.
Sec. 4-6.2202 Definitions.
Sec. 4-6.2203 Designation of Valet Parking Zones.
Sec. 4-6.2204 High-Visibility Safety Apparel Required.
Sec. 4-6.2205 Rules and Regulations.
Sec. 4-6.2206 Conformance with Applicable Laws.
Sec. 4-6.2207 Permit Required.
Sec. 4-6.2208 Application for Valet Parking Permits.
Sec. 4-6.2209 Duration of Permit.
Sec. 4-6.2210 Insurance
Sec. 4-6.2211 Valet Parking Permit.
Sec. 4-6.2212 Permit Revocation.
Sec. 4-6.2213 Penalties.

Sec. 4-6.2201 Purpose.

The primary purpose of public streets and rights-of-way is the free and unobstructed right of travel. The city recognizes that the use of public streets and rights-of-way for valet parking operations, while providing a public benefit, may impede travel, interfere with rights of others using the streets and rights-of-way, and may affect the public safety and create a public nuisance. The city may therefore permit and restrict valet parking operations as a special privilege, not as a matter of right, in order to foster public safety and to prevent public nuisances. The approval of any permit under this chapter for the use of the public right-of-way is on a temporary and nonpermanent basis and is for a nonexclusive use of that public right-of-way. Permittees shall have neither a property interest in nor any entitlement to the granting or continuation of any permit for the use of any public right-of-way. For the reasons set forth in this article, a system of valet parking permits is enacted for the City of Ontario.

Sec. 4-6.2202 Definitions.

For purposes of this article, the following terms shall have the prescribed meaning:

1. "City council" shall mean the city council of the City of Ontario.

2. "High-visibility safety apparel" means any vest, shirt, or jacket which meets the following conditions: the outer material color shall be fluorescent orange-red, fluorescent yellow-green or a combination of the two as defined by the American National Standards Institute/International Equipment Safety Association for class 2 or 3 risk exposure; the retroreflective material shall be orange, yellow, white, silver, yellow-green, or a fluorescent version of these colors; and the apparel shall be designed to clearly identify the wearer as a person.

3. "Parking facility" shall mean any area dedicated for public parking, including but not limited to dedicated curbside parking areas, parking lots, and parking structures.

4. "Permittee" shall mean any person who holds a valid valet parking permit and who is engaged in running a valet parking operation.

5. "Person" shall mean a natural person, firm, partnership, association, corporation or other business entity, and employees, agents and subcontractors thereof.

6. "Public right-of-way" shall mean any area within the City of Ontario designated for public use as a public street, pedestrian way, or other thoroughfare, including but not limited to roadways, parkways, alleys, sidewalks, and pedestrian ways.

7. "Sponsor" shall mean any person who operates, or causes to be operated, a valet parking operation at the sponsor's place of business or function.

8. “Valet parking” shall mean and include any person, firm or corporation engaged in, conducting or managing the receiving, taking possession of, driving, moving, parking, or leaving standing other persons’ motor vehicles, whether or not a charge is levied, and whether or not such persons are employed by, or under contract to the business for which the vehicles are being parked.

9. “Valet parking attendant” means any employee or agent of a Permittee or Valet Parking Operator, or any employee or agent of a sponsor providing valet parking to its customers, who receives, takes possession of or moves any vehicle, or who handles the keys to any vehicle left with the attendant for valet parking.

10. “Valet parking operator” means any Permittee or person engaged in the business of valet parking operations, including any person contracting with a valet parking operator to provide valet parking, or any person engaged in providing valet parking services to the public.

11. "Valet parking permit" means a permit issued in accordance with this division for the approved use of valet parking in a valet parking zone.

12. "Valet parking zone" means an area for a standard single passenger vehicle on the public right-of-way that has been set aside by the city engineer for valet parking.

Sec. 4-6.2203 Designation of Valet Parking Zones.

1. The city engineer shall consider the following in evaluating approval of valet parking zones:

    a. Safety and convenience for the people of the City of Ontario;

    b. Actual number of passengers to be served by the zone;

    c. Proximity of existing valet parking zones;

    d. Existing demands for curb use such as the number and location of existing transit, taxi, and transportation network company loading zones, and existing commercial loading zones in the general area of the requested zone;

    e. Overall determination of available on street parking for the area; and

    f. Designation of the valet parking zone will cause no significant impact on the environment.

2. Valet parking zones may also be used for on-street public parking, or for loading and unloading of persons or property.

Sec. 4-6.2204 High-Visibility Safety Apparel Required.

1. No Valet Parking Operator shall employ, direct or otherwise permit, a valet parking attendant to park or retrieve any vehicle on, along, or across any public right-of-way, unless that valet parking attendant is wearing high-visibility safety apparel as specified in this chapter.

2. Valet parking attendants shall wear high-visibility safety apparel at all times while valet parking on any public right-of-way, including while walking on, along or across any public right-of-way.

Sec. 4-6.2205 Rules and Regulations.

The city council may establish rules and regulations, by resolution, for the implementation and enforcement of the provisions of this chapter and when duly adopted by the city council such rules shall be in full force and effect.

Sec. 4-6.2206 Conformance with Applicable Laws.

Nothing in this article is intended to authorize the parking of motor vehicles by Valet Parking Operators, their agents, employees, and valet parking attendants in a manner contrary to any applicable state laws and local parking and traffic regulations, including this code.

Sec. 4-6.2207 Permit Required.

No person shall operate, engage in, conduct, manage, or cause to be operated any valet parking operation or any related activity upon any portion of a public street or public right-of-way or other city property, including any city-owned parking facility, except under the terms and conditions of a current valet parking permit and, if using the public street or public right-of-way in any manner for drop-off and pick-up of vehicles, under the terms and conditions of a current sponsor's valet parking permit.

Sec. 4-6.2208 Application for Valet Parking Permits.

1. The city engineer is authorized to issue, upon written application, a valet parking permit in accordance with section 7-3.04. Applications for valet parking shall be made upon application forms provided by the city engineer and shall be accompanied by a filing fee. The fee for each permit application shall be paid at the time of application. The permit fees shall be based on the reasonable cost of application, plan review, study, and other services as required for permit approval. Other fees based on the cost of private usage of the public right-of-way will also be assessed per valet

parking zone spaces. Such fees shall be established by resolution of the City Council.

2. The application shall include:

   a. The business name and address of the corporation, partnership or other business entity seeking the permit;

   b. The identifying number of the applicant's City of Ontario business license;

   c. The business name, address, contact information, and seating capacity of the business served by the valet parking Valet Parking Operator.

   d. Proof of insurance pursuant to Section 4-6.2210.

   e. Any other information consistent with this chapter or Section 7-3.04 of this Code that the city engineer deems necessary for persons applying for valet parking permits.

   f. A map of the immediate area showing the location of the valet service and the off-street parking lot(s) to be used for the storage of vehicles. Any changes in this provision shall require the approval of the city engineer.

   g. Any agreement between the Valet Parking Operator and the off-street parking lot operator for the storage of vehicles.

3. An applicant may appeal the denial of a valet parking permit as set forth in Section 7-3.06 of this Code.

Sec. 4-6.2209 Duration of Permit.

1. Each valet parking permit issued by the city engineer shall be valid for not more than one (1) year from date of issuance. Each application renewal of a valet parking permit will be subject to an annual valet parking zone inspection. All renewals granted under this chapter shall also require a fee as may be set from time to time by the City Council.

Sec. 4-6.2210 Insurance

1. Required Insurance. Permittee shall provide upon request proof of insurance as required by the City Engineer.

Sec. 4-6-2211 Valet Parking Permit And Valet Parking Operator Obligations

1. The valet parking permit shall authorize the Valet Parking Operator to provide valet parking in a designated valet parking zone.

2. The Valet Parking Operator shall operate the valet parking zone in such a manner as to provide ample opportunities for its use by motorists who do not wish to utilize the valet parking service.

3. The Valet Parking Operator shall be the business owner, under contract to or employed by the business or businesses to be served.

4. The Valet Parking Operator shall agree to provide and maintain one moveable ground sign or pedestal sign identifying the availability of valet parking, the Valet Parking Operator's name, the address and telephone number of the business, the hours of operation, the valet parking permit number, and the valet parking fees, if any. If fees are charged, such fees also shall be stated as follows:

   a. Rates per hour;

   b. Rates per fraction of an hour, if any;

   c. Rates for subsequent hours or fractions thereof;

   d. Parking Taxes, if applicable, per the Title 3, Chapter 8 of the Ontario Municipal Code; and

   e. The maximum charge.

   Prior to placement of any sign or pedestal sign in the public right-of-way, the sign owner must first obtain approval of its location and size from the City Engineer. The sign or pedestal sign shall only be visible from the public right-of-way during the approved hours that valet parking is in operation. The sign or pedestal sign shall be no more than twenty-four inches wide and not more than four feet high. The sign or pedestal sign must be located within twenty-four inches of the face of the curb and be placed in such a manner as not to create an impediment to pedestrians. All signs and stands shall be set so that a continuous clear width of pedestrian access complies with the Americans with Disability Act of 1990 and any minimum clearances set forth in this Code.

5. The Valet Parking Operator shall not allow the valet parking zone or any other public right-of-way to be used for the storing of valet parked cars.

6. Valet Parking Operator shall ensure that pedestrian' walkways are not blocked at any time during valet parking operations.

7. The Valet Parking Operator shall at no time allow any patron's vehicle to be parked upon private property without a signed statement of authorization by the owner or other person having legal control of such private property.

8. The Valet Parking Operator shall employ sufficient valet parking attendants to park vehicles so that traffic on streets or sidewalks will not be impeded by the activities of the Valet Parking Operator.

9. The Valet Parking Operator shall ensure that all valet parking attendants who drive a patron's vehicle or who handle a patron's vehicle keys have a current and valid California driver's license and wear a standard uniform that conspicuously identifies the attendant by their full name and the name of the Operator. The Valet Parking Operator shall ensure that all valet parking attendants who receive, take possession of, or move a patron's vehicle upon any portion of the public right-of-way wear high-visibility apparel.

10. The Valet Parking Operator shall not allow any valet parking attendant who has been convicted within the previous seven (7) years of a felony or any offense involving violence, dishonesty, automobile theft, automobile, vandalism, reckless driving or driving under the influence of drugs or alcohol to drive a patron's vehicle or handle a patron's vehicle keys.

11. Every Valet Parking Operator shall maintain:

    a. A continuously updated list of the names and residence addresses of its employees and valet parking attendants who perform valet parking. Such list shall be maintained at the business address listed on the permit application and shall be produced on demand of any peace officer or City official.

    b. All financial records related to the Valet Parking operation for a minimum of three (3) years and shall make them available to the City Engineer for inspection at any time during the Valet Parking Operator's hours of operation.

12. Nothing in this chapter is intended to authorize, or authorizes, the parking of motor vehicles by the Valet Parking Operator in a manner contrary to applicable state laws or local parking and traffic regulations

13. Valet Parking Operators that conduct, manage, or operate a valet parking operation shall comply with all of the requirements set forth in this Article.

Sec. 4-6.2212 Permit Revocation.

1. The Permittee is responsible for the proper operation of the valet parking zone. Any violation of the conditions enumerated in this article shall be

sufficient cause for revocation of the valet parking permit by the city engineer.

2. A valet parking permit may be temporarily suspended without a hearing if the city engineer determines that the continued operation is an immediate hazard to public safety or is in violation of this article. The suspension will be effective for sixty (60) days or until a hearing, whichever is less. Once a hearing has convened, the suspension will continue through its conclusion.

3. The city engineer shall revoke a valet parking permit if, after a hearing on the matter, the hearing officer finds the grounds exist which would have constituted just cause for refusal to issue the permit, or that the Permittee has failed to comply with any requirements imposed by this article or conditions of the permit. Written notice of the revocation hearing, setting forth the time and place of hearing and a brief statement of the reason(s) for the proposed revocation, shall be served on or mailed to the Permittee at the business address listed in the permit application no less than ten (10) days prior to the hearing.

Sec. 4-6.2213 Penalties.

1. The city has determined that this chapter is necessary to protect health, life, and property of the city and its inhabitants.

2. Any violation of the provisions of this chapter by any person shall be subject to the administrative penalty provisions set forth in section 7-3.20 and the Penalty Schedule contained within this code.

3. It is unlawful and a violation of this chapter for any person to operate, engage in, conduct, manage, or cause to be operated on any public street or right-of-way any valet parking without a valid valet parking permit issued by the city engineer.

4. This article authorizes any deputy sheriff, or city employee or agent of the city designated by the director of any city department, to administer, implement, and enforce the provisions of this chapter.

5. It is unlawful and a violation of this chapter for a person to falsely represent themselves as eligible for a valet parking permit or to furnish false information in an application for a valet parking permit.

6. It is unlawful and a violation of this chapter for a person holding a valet parking permit to permit the use or display of the permit for any purpose other than that for which the permit is issued.

7. It is unlawful and a violation of this chapter for a person to copy, produce or otherwise bring into existence a facsimile or counterfeit valet parking permit without written authorization from the city manager. It shall further be

unlawful and a violation of this chapter for a person to transfer the beneficial ownership of or a continuous right to use a valet parking permit.

8. Any person violating any of the provisions of this article or the regulations hereunder or the terms and conditions of any valet parking permit issued hereunder is deemed guilty of a misdemeanor and, upon conviction thereof, shall be punishable in accordance with Title 1, Chapter 2 of this Code.

SECTION 3 Subsection (a)(3) of Section 4-6.1202 of the Ontario Municipal Code is hereby amended to read in its entirety as follows:

(a) The City Traffic Engineer is hereby authorized, subject to the provisions and limitations of this chapter to place, and when required by the provisions of this chapter shall place, the following curb markings to indicate parking or standing regulations, which curb markings shall have the following meanings:

(1) Red shall mean no stopping, standing, or parking at any time except as permitted by the Vehicle Code and except that a bus may stop in a red zone marked or signed as a bus zone.

(2) Yellow shall mean no stopping, standing, or parking at any time between 7:00 a.m. and 6:00 p.m. of any day except Sundays and holidays for any purpose other than the loading or unloading of passengers or materials; provided, however, the loading or unloading of passengers shall not consume more than three (3) minutes, and the loading or unloading of materials shall not consume more than twenty (20) minutes.

(3) White shall mean no stopping, standing, or parking for any purpose other than the loading or unloading of passengers, including valet parking, or for the purpose of depositing mail in an adjacent mailbox, which shall not exceed three (3) minutes, and such restrictions shall apply between 7:00 a.m. and 6:00 p.m. of any day except Sundays and holidays and except as follows:

(i) When such zone is in front of or adjacent to a terminal serving a public transportation agency, a hotel, or a mailbox, the restrictions shall apply at all times.

(ii) When such zone is in front of a theater, the restrictions shall apply at all times except when such theater is closed.

(b) When the City Traffic Engineer, as authorized by the provisions of subsection (a) of this section, has caused curb markings to be placed, no person shall stop, stand, or park a vehicle adjacent to any such legible curb markings in violation of the provisions of this section.

SECTION 4. If any section, sentence, clause, or phrase of this Ordinance of the application thereof to any entity, person, or circumstance is held for any reason to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect other provisions or applications of the Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are severable. The People of the City of Ontario hereby declare that they would have adopted this Ordinance and each section, sentence, clause or phrase thereof, irrespective of the fact that any one or more section, subsections, sentences, clauses, or phrases by declared invalid or unconstitutional.

SECTION 5. The City Council finds that adoption of this Ordinance is exempt from the California Environmental Quality Act ("CEQA") pursuant to Section 15358 (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly. Moreover, the City Council finds that this Ordinance is also exempt under CEQA pursuant to Guidelines Section 15061(b)(3) (there exists no possibility that the activity will have a significant adverse effect on the environment).

SECTION 6. This Ordinance shall become effective thirty (30) days after its adoption by the City Council.

SECTION 7. The Mayor shall sign this Ordinance and the City Clerk shall certify as to the adoption and shall cause a summary thereof to be published at least once, in a newspaper of general circulation in the City of Ontario, California within fifteen (15) days of the adoption. The City Clerk shall post a certified copy of this Ordinance, including the vote for and against the same, in the Office of the City Clerk, in accordance with Government Code Section 36933.

PASSED, APPROVED, AND ADOPTED this _____ day of _____ 2024.
