9. Other Business

10. Adjournment

REQUEST FOR ACTION

Minutes of the Rochester Public Utility Board Meeting
of December 16, 2025

MEETING DATE:

January 27, 2026

ORIGINATING DEPT:

Rochester Public Utilities

AGENDA SECTION:

Consent Agenda

PRESENTER:

Tim McCollough, General
Manager

Action Requested:

Approve the minutes and video of the December 16, 2025, meeting of the Rochester Public Utility (RPU) Board.

Report Narrative:

Official minutes of the RPU Board are published in accordance with the Open Meeting Law, capturing the official record of the RPU Board.

Policy Considerations & DEI Impact:

Minutes and video of the appointed boards of the City provide access and transparency to RPU systems, processes, and decision making.

Prior Legislative Actions & Community Engagement:

Minutes of the previous RPU Board meeting are generated monthly.

Fiscal & Resource Impact:

No fiscal impact of publishing minutes.

REQUEST FOR ACTION

2026-2029 ESRI Citywide Small Government Enterprise Agreement Renewal

MEETING DATE:

January 27, 2026

ORIGINATING DEPT:

Rochester Public Utilities

AGENDA SECTION:

Consent Agenda

PRESENTER:

Ryan Moore, Manager of
Geographic Information
Services

Action Requested:

Approve a resolution to enter into the Agreement with Environmental Systems Research Institute, Inc. in the amount of \$390,740 and authorize the Mayor and City Clerk to execute the Agreement, subject to Council approval.

Report Narrative:

Environmental Systems Research Institute, Inc. (ESRI) has provided a City-wide Small Government Enterprise Agreement (SGEA) for most of our core GIS software products since 2008. The software is used on desktop PCs and laptops. ArcGIS Enterprise is used to serve GIS web applications that can be consumed on mobile devices. RPU also uses ESRI technology as a prerequisite for all of its Schneider Electric GIS products, such as ArcFM, Designer, Fiber Manager, and Responder. These products serve our outage management system, providing infrastructure improvement estimates and track our infrastructure assets for accounting purposes.

The current license will expire on February 8th, 2026. RPU will be the holder of the contract. Fifty percent (50%) of the license, \$195,370, is reimbursed by Public Works, resulting in a four-year out-of-pocket cost to RPU of \$195,370. The Council is expected to approve Public Works' share in February.

Fiscal & Resource Impact:

The first two years of the four-year agreement are included in the 2026-27 budget. The final two years, 2028-2029, are contingent upon future budget approval.

Prepared By:

Ryan Moore

[20260127 - Resolution - ESRI City-Wide Small Government Enterprise Agreement Renewal](#)

RESOLUTION

BE IT RESOLVED by the Public Utility Board of the City of Rochester to approve the 2026-2029 Citywide Small Government Enterprise Agreement with Environmental Systems Research Institute, Inc. in the amount of \$390,740.

BE IT FUTHER RESOLVED by the Public Utility Board of the City of Rochester to authorize the Mayor and City Clerk to execute the Agreement, subject to Council approval.

PASSED AND ADOPTED BY THE PUBLIC UTILITY BOARD OF THE CITY OF
ROCHESTER, MINNESOTA, THIS 27th DAY OF January 2026.

PRESIDENT

SECRETARY

REQUEST FOR ACTION

Generation Fuel Purchases

MEETING DATE:

January 27, 2026

ORIGINATING DEPT:

Rochester Public Utilities

AGENDA SECTION:

Consent Agenda

PRESENTER:

Peter Hogan

Action Requested:

Approve a resolution to purchase fuel from HTP Energy up to \$500,000, plus applicable taxes, and delegate authority to the General Manager or their appointee to purchase generation fuel as needed, up to the approved amount in the current and subsequent years' budgets.

Report Narrative:

During the weekend of January 24, 2026, the central and northern regions of MISO received an Energy Emergency Alert (EEA2). This type of alert is triggered when MISO is facing an energy shortage and needs to increase generation available to meet demand. During this time natural gas supplies were not available for power generation. RPU bid our dual fuel unit, GT2, into the market running on fuel oil. This bid was picked up, and GT2 ran on fuel oil between Friday and Sunday for 49 hours.

The cost of the fuel oil purchase from HTP Energy during this period is estimated to be up to \$500,000. While the funding is included within the current approved budget and the cost of the fuel purchase is recovered through the MISO market energy sale, this single group of purchases exceeds the Board delegated purchase authority of the General Manager of \$175,000.

Management is seeking the Board's approval of this fuel oil purchase and is seeking the Board's support to delegate authority to the General Manager to approve fuel purchases up to the amount approved in the budget each year.

Policy Considerations & DEI Impact:

None.

Prior Legislative Actions & Community Engagement:

The 2026 and 2027 Electric Utility operating budget was approved by the RPU Board on October 28, 2025, with concurrence by the City Council on December 1, 2025.

Fiscal & Resource Impact:

The current action has no incremental impact on the approved budget.

The operation of the generation assets during high energy price periods is a hedge that limits the energy price to the cost of our generation.

Prepared By:

Peter Hogan

Attachments:

[20260127 - Resolution - 2026 Generation Fuel Purchases](#)

RESOLUTION

BE IT RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to approve the purchase of fuel from HTP Energy up to \$500,000 plus applicable taxes, and

BE IT FURTHER RESOLVED by the Public Utility Board of the City of Rochester, Minnesota, to delegate authority to the General Manager or their appointee to purchase generation fuel up to the level approved within the budget each year.

PASSED AND ADOPTED BY THE PUBLIC UTILITY BOARD OF THE CITY OF

ROCHESTER, MINNESOTA, THIS 27th DAY OF JANUARY, 2026.

PRESIDENT

SECRETARY

REQUEST FOR ACTION

2026 Strategic Initiatives, Year Ahead Review

MEETING DATE:

January 27, 2026

ORIGINATING DEPT:

Rochester Public Utilities

AGENDA SECTION:

Informational

PRESENTER:

Rochester Public Utilities
Executive Team

Action Requested:

Informational only. No action required.

Report Narrative:

The Rochester Public Utilities General Manager and Executive Team will review each department's 2026 Strategic Initiatives to ensure alignment with organizational priorities, operational readiness, and measurable outcomes.

[Exhibit - January General Managers Report](#)

JANUARY 2026

GENERAL MANAGER'S REPORT

Meeting Reports & Current Activity:

New GM Report Template

Beginning with this meeting and going forward, this GM Report in the published Board packet will no longer include the typical attached slide graphics. This change supports our preparation for the U.S. Department of Justice's updated ADA Title II requirements for state and local governments. Under the DOJ's final rule, public entities serving a population of 50,000 or more must ensure that public-facing web content and mobile apps they provide or make available, including documents posted online, conform to WCAG 2.1 Level A and Level AA (commonly referenced as WCAG 2.1 AA) starting April 24, 2026.

To support consistent, sustainable compliance, we are standardizing how information is presented in the published packet, using formats that are easier to make accessible and maintain over time. When visuals are helpful, they may be used during the meeting or shared separately in an accessible format, rather than embedded as slide graphics in the publicly posted packet. This approach also aligns the GM Report with how the City Administrator and Mayor reports are typically documented for City Council.

Advanced Metering Go-Live

On January 10, 2026, The RPU team successfully completed the Advanced Metering go-live. This initiative modernizes electric and water metering so usage data can be securely communicated between customer locations and RPU, supporting faster outage detection and improved customer service.

The go-live weekend went extremely well. As part of the initial deployment, 500 electric meters and 50 water meters were brought online in NW Rochester. Since go-live, electric meters have been installed in the pilot area. Water meters in the pilot area were installed prior to go-live and will be switched to network mode following electric meter installation.

Next, the project will run a roughly three-month pilot in NW Rochester. During the pilot, teams will monitor meter and communications performance, billing accuracy and system integrations, operational items like remote connects and outage detection, customer feedback, and data quality and cybersecurity.

Scott Nickels will provide a full project update as an information item at the February 17, 2026, board meeting.

A special thank you to Bria Riess, Greg Sanders, Jessica Drugg, and Mac Johnson for the dedication and hard work over the go-live weekend! Their efforts were invaluable to a successful launch

APPA Joint Action Conference Report (Jan 11-13):

I attended the APPA Joint Action Conference as a SMMPA board member (travel not directly funded from RPU budgets). This event convened Joint Action Agency executives and governance members to share practical lessons on reliability, markets, transmission, regulation, large-load growth, and cost management. The most useful value for RPU was continuing education on fast-changing system risks and direct relationship-building with peers and vendors who are actively solving similar problems.

Top ten takeaways (with who said it and why it matters to RPU)

1. Reliability risk is becoming “mainstream” because multiple trends are converging

Speaker: Jim Robb, President & CEO, NERC | **Why it matters to RPU:** Robb's framing was that reliability risk is no longer niche: retirements, changing resource characteristics, and renewed load growth are colliding. That reinforces that RPU should plan for more volatility in adequacy, fuel, and extreme-weather performance, not less.

2. Cyber risk is now operational reliability risk, and the basics still win

Speaker: Jim Robb, NERC | **Why it matters to RPU:** NERC's message was practical: disciplined cyber hygiene and response readiness reduce the odds that a cyber event becomes a service interruption. (See the “Top 10 NERC actions” embedded below.)

3. MISO reliability narratives differ, but cost pressure is the near-term certainty

Speaker: Dr. David Patton (market monitor perspective) | **Why it matters to RPU:** Patton disputed some broad “high risk” characterizations for MISO near-term, but he was clear that customer cost pressure is real. For RPU, this translates to focusing on affordability resilience even while we monitor adequacy indicators.

4. Interconnection timelines are a constraint that can drive scarcity pricing

Speakers: Patton and panelists | **Why it matters to RPU:** Five to six year timelines to interconnect new resources do not match today's load growth pace. That mismatch can tighten reserve margins and contribute to higher market prices, which affects our portfolio strategy and risk posture.

5. Transmission is the biggest long-run cost swing factor for customers

Speakers: Patton plus the transmission panel (NextEra Transmission and WPPI) | **Why it matters to RPU:** Multiple speakers converged on the same conclusion: transmission buildout and cost allocation outcomes may be the most material long-run driver of customer bills. RPU needs to treat transmission as a primary cost trajectory issue, not a background assumption.

6. Advanced transmission technologies can defer some upgrades but must be embedded early

Speakers: MISO discussion (dynamic line ratings, topology optimization concepts) | **Why it matters to RPU:** If planning processes do not incorporate these tools early, savings are missed and bigger buildouts become “inevitable.” RPU benefits by supporting approaches that wring more capacity out of existing infrastructure where feasible.

7. New gas generation is getting slower and more expensive, which increases the value of existing assets

Speaker: Tom Freeman, gas turbine coach and former GE services leader | **Why it matters to RPU:** Freeman's core point was that lead times, supply chain constraints, and pricing have changed. The practical takeaway is to prioritize life-extension, uprates, and performance improvements on dependable assets where cost-effective while newbuild timelines remain uncertain.

8. Environmental rules are whipsawing, and that volatility is itself a planning risk

Speaker: Michael Nasi, Jackson Walker | **Why it matters to RPU:** The conference emphasized that executive-order pendulum swings and litigation cycles make long-lived investment decisions harder. The near-term strategy is to stay nimble, avoid triggering unnecessary permitting barriers, and track the specific rules most likely to affect retirements and cost.

9. Data centers are real load with upside, but utilities must manage concentration and “proof of seriousness”

Speakers: Data Center Coalition plus Fitch perspective (credit and risk framing) | **Why it matters to**

RPU: The repeated theme was risk allocation: who pays if load ramps slower, pauses, or leaves. Contract protections, settlement discipline, and avoiding stranded-cost exposure are central. Even if RPU doesn't serve a large load directly, regional market impacts can still raise costs.

10. Transmission and partnerships are becoming the “new normal” for getting projects done

Speakers: NextEra Transmission leadership and WPPI leadership | **Why it matters to RPU:** The transmission session reinforced that partnership models, cost-of-capital advantages, and shared planning tools are increasingly part of the playbook. RPU should expect more collaboration across utilities, developers, and transmission entities as constraints increase.

11. Conclusion (this goes to 11): “These go to 11” and the biggest strategy opportunity for RPU

The “amp that goes to 11” from this conference is **energy prepays**: a practical, near-term affordability tool that aligns directly with RPU's direction on PPAs.

Energy prepays in plain language

Energy prepays are a structure that allows public power to use the advantage of **tax-exempt financing** to reduce the cost of **purchased power**, resulting in a **contractual discount** on electricity bought through PPAs (and in some cases certain market purchases). Think of it as applying public power's lower cost of capital to the “power we buy,” not only to “assets we build.”

Key points from the conference panel (Energy Southeast, The Energy Authority, PFM, Goldman Sachs):

- **Not a new concept:** these are the electric version of gas prepay structures that have existed for years. The panel described multiple recent examples of utilities implementing power prepays successfully.
- **Why it matters for RPU:** this is not a question of “if we are doing PPAs.” It is a question of: since we are doing PPAs, is it prudent to evaluate a structure that could reduce those PPA costs by roughly 6–10% over the contract life (range discussed at the conference, dependent on interest rates, counterparties, and structure). For PPAs representing a large share of a supply portfolio, that is meaningful ratepayer money.
- **What it looks like to a utility:** the stated goal is to keep operational and physical delivery processes essentially unchanged. The complexity (tax, bond issuance mechanics, title transfer requirements) is handled by experienced advisors and the issuer/aggregator.
- **What the board should know up front:** these are typically long-term structures (often 20–30 years), and the value depends on interest rate conditions. The key governance work is understanding structure, protections, flexibility if resource plans change, and how risk is allocated if something at the aggregator level unwinds.
- **Next step for governance:** The GM will introduce the concept of energy prepays at an upcoming meeting and request scheduling a future, ad hoc board review and discussion session to review the structure, recent utility examples, fit with RPU's pending PPA strategy, and a high-level estimate of potential savings.

Embedded: NERC's top ten "do this now" cyber and operating readiness actions (Jim Robb)

- ✓ Ensure applicable operating systems are in compliance with NERC CIP standards.
- ✓ Use strong access authentication, including complex passwords and multi-factor authentication.
- ✓ Change all default passwords and close all non-necessary ports.
- ✓ Drill staff routinely on phishing, smishing, and vishing.
- ✓ Strengthen third-party and supply chain controls, including vendor notification obligations if compromised.
- ✓ Patch or mitigate promptly when new vulnerabilities are announced.
- ✓ Baseline normal network activity and continuously monitor for abnormalities.
- ✓ Build and maintain key emergency response relationships (local, state, federal, mutual aid).
- ✓ Drill response and recovery regularly, including operating in degraded states.
- ✓ Engage with and share actionable information through E-ISAC.

Southeast Minnesota Municipal Power Agency (SMMPA) Board Report:

At the January 15, 2025 meeting, the SMMPA Board approved the resolution to establish the Sherco Unit 3 Retirement or Decommissioning Fund as proposed, by a 5–1 vote. The resolution creates a dedicated fund to accumulate and hold monies for Sherco 3 retirement, decommissioning, or disposal costs, with amounts to be allocated by Board direction from time to time.

The identified funding source is the staged release of Sherco 3 Debt Service Reserve (DSR) funds totaling \$58,160,000: \$12,374,003 released in October 2025 with the 2025A bonds, \$7,765,997 scheduled for release in January 2026, and \$38,020,000 scheduled for release in January 2027. Unless the Board takes other action, the resolution adopted this month directs that these released DSR amounts be designated as the funding source for the Sherco 3 retirement obligation and, through the scheduled releases, the fund will be fully capitalized by January 2027.

The Board also approved SMMPA's participation in the Grid North Partners project by a full member vote.

On January 23, 2026 we expect to receive a cash distribution in the amount of \$1,098,411 from SMMPA for refunding general operating reserves above the maximum bandwidth. This decision was made by the SMMPA board in October of 2025 and set to be distributed after year end on the basis of 2025 load ratio share with Rochester being 42.82%

Other Items:

See below for the schedule ahead. Note that the February meeting is a week earlier than normal due to conflicts with conference travel.

What's Ahead:

Wed, Feb 11	SMMPA Board Meeting	McCollough	Spring Valley, MN
Tue, Feb 17	**RPU Board Meeting**	Board – All, McCollough	RPU
Mon, Feb 23 – Thu, Feb 26	APPA Legislative Rally	McNeilus, McCollough	Washington, DC
Mon, Mar 2 – Fri, Mar 6	The Energy Authority Symposium	McCollough	Jacksonville, FL
Wed, Mar 11	SMMPA Board Meeting	McCollough	Waseca, MN
Wed, Mar 18	Employee Recognition Breakfast	McNeilus, Keane, Turri, Vaszily, McCollough	RPU
Tue, Mar 23 – Fri, Mar 27	WEF/AWWA Executive Management Conference	McCollough	Charlotte, NC
Sun, Mar 29 – Tue, Mar 31	TAPS Spring Conference	McCollough	Washington, DC
Tue, Mar 31	***RPU Board Meeting***	Board – All, McCollough	RPU
Wed, Apr 8	SMMPA Board Meeting	McCollough	Wells, MN
Fri, Apr 24	Arbor Day Celebration	Board – TBD	Rochester, MN
Tue, Apr 28	RPU Board Meeting	Board – All, McCollough	RPU

REQUEST FOR ACTION

Division Reports and Metrics for January 2026

MEETING DATE:

January 27, 2026

ORIGINATING DEPT:

Rochester Public Utilities

AGENDA SECTION:

Division Reports & Metrics

PRESENTER:

General Manager, Tim
McCollough

Action Requested:

Review the reports from each of RPU's divisions: Safety, Water Division, Power Delivery, Power Resources, Customer Relations, Information Technology, and Corporate Services.

Report Narrative:

Each division of RPU reports monthly on its metrics and activities to the Board.

Prepared By:

Erin Henry-Loftus

Attachments:

[Exhibit - January Division Report](#)

JANUARY 2026

SAFETY

SAFETY:

TRAINING	Total Required Enrollments	Completions as of 12/31/2025	Percent Complete
December 2025	545	545	100%
Calendar Year to 12/31/2025	6750	6750	100%

SAFETY TEAMS	Total Members	Members Attending	Percent Attending
December 2025	30	20	66.7%
Calendar Year to 12/31/2025	331	268	81.0%

INCIDENTS	Reports Submitted	OSHA Cases ¹	RPU RIR ²	BLS RIR ³
December 2025	6	1	--	--
Calendar Year to 12/31/2025	21	5	2.52	1.7

- ¹ Deemed to meet OSHA criteria as a recordable case by RPU Safety Manager, subject to change
- ² Recordable Incident Rate – Number of OSHA Recordable Cases per 100 employees.
- ³ Bureau of Labor Statistics nonfatal illnesses and injuries in the utility sector

23 of RPU's 24 departments are recordable injury free in 2025
 214 of RPU's 219 teammates are recordable injury free in 2025.

SAFETY

2025 OSHA RECORDABLE CASE DETAIL

Work Area	Incident Date	Description	Primary Reason it's a Recordable	Corrective Action
T&D	3/29/2025	Laceration to head while participating in line worker's rodeo	Medical treatment beyond first aid	Researching head protection options
T&D	4/23/2025	Airborne particles blew into eye (L) behind safety glasses requiring medical intervention to remove.	Medical treatment beyond first aid	Reviewed eye protection options
T&D	5/31/2025	Pain in elbow (R) while pulling/stripping cable.	Restricted duty	Researching additional tools for this task
T&D	7/20/2025	Pain in lower back due to lifting armored cable from truck.	Restricted duty	Task will be performed by 2 people or using powered lift
T&D	12/10/2025	Lower back pain while lifting wire out of switch basement.	Restricted duty	Reviewed work process with safety team

SAFETY INITIATIVES:

1. All RPU staff successfully completed the annual OSHA-required Hazard Communication training.
2. City wellness staff conducted Safe Movement training sessions to help reduce the risk of musculoskeletal injuries.
3. A new cleat design was ordered for evaluation to better mitigate slip-and-fall incidents.

WATER

WATER UTILITY:

- 1. Water Outage Calculations for the month and year to date(December 2025 Data)
 - a. Reliability=99.99944353% Year-to-date Reliability =99.99865078%
 - b. 139 Customers Affected by Outages Year-to-date Customers Affected by Outages = 2,718
 - c. 175.4 Customer Outage Hours Year-to-date Customer Outage Hours = 5,007.3
 - d. SAIDI= 0.2 min Year-to-date SAIDI = 7.1 min
 - e. CAIDI= 75.7 min Year-to-date CAIDI = 110.5 min

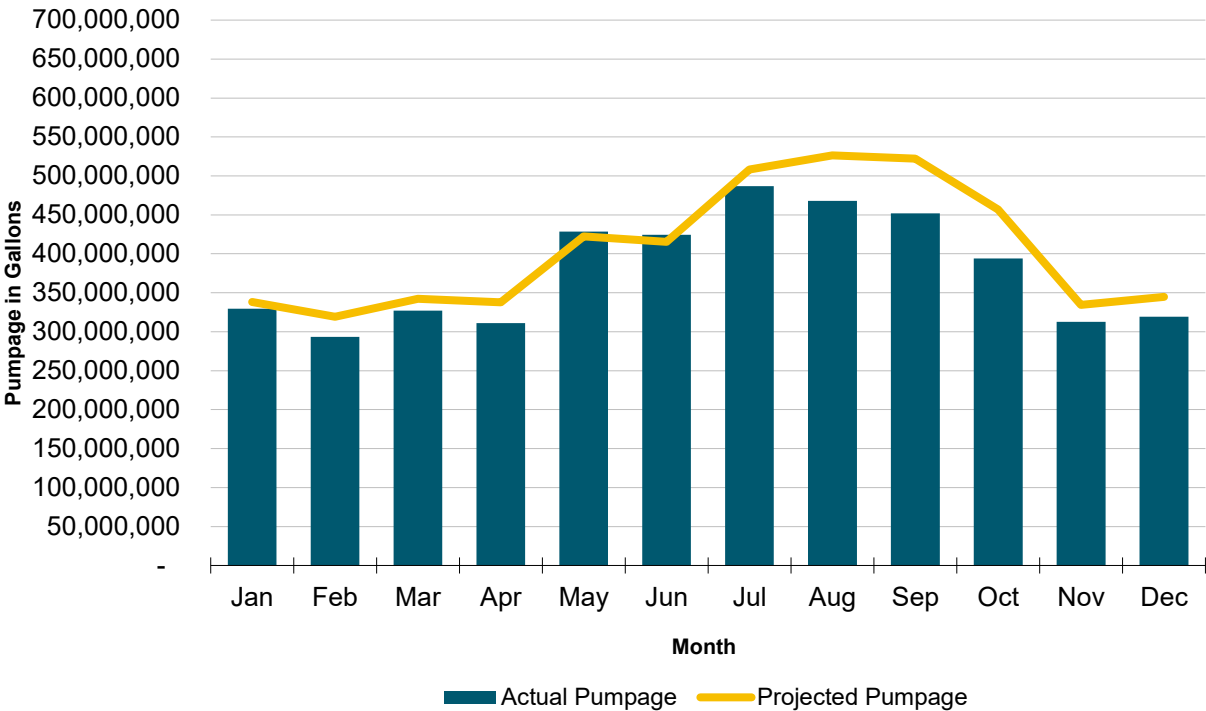

- Performed 404 Gopher State water utility locates during the month for a total of 16,247 for the year.

- There are currently 204 Water ERTs that were unable to be read in the system. We are experiencing approximately 28-30 new non-reads per week. The stockroom has the following products available:

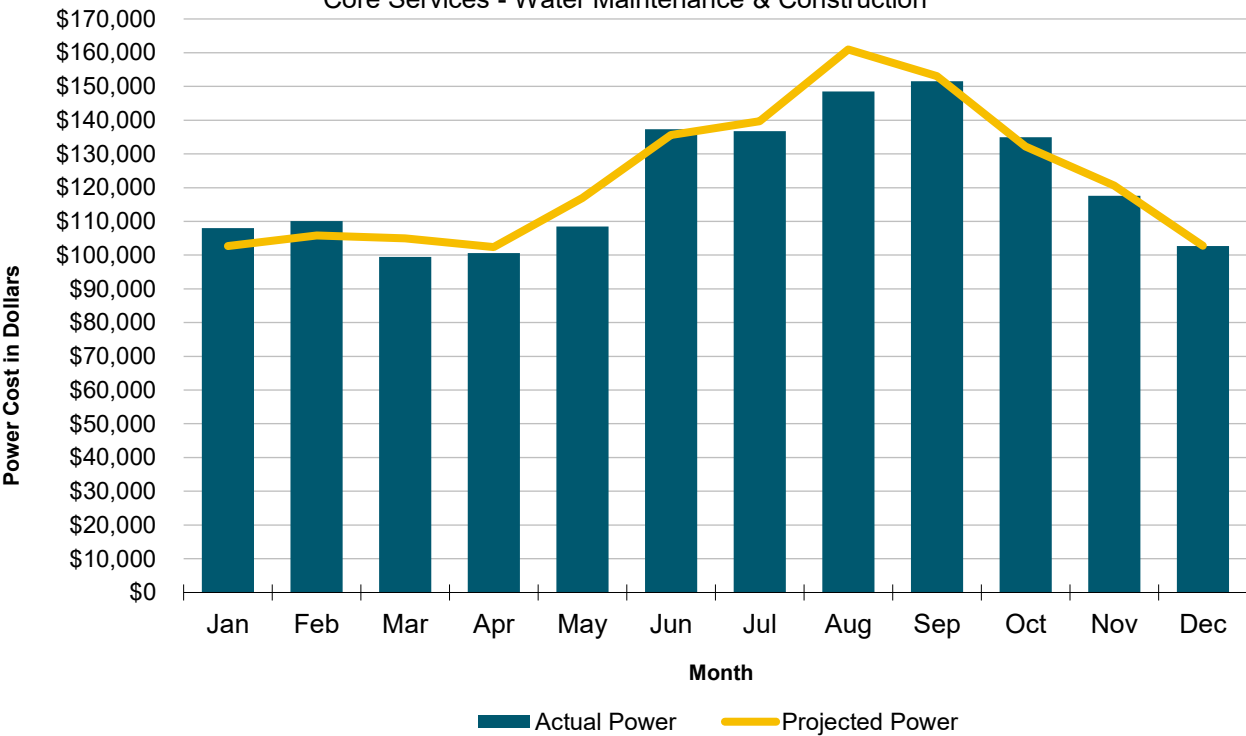

500W ERTS:	8,613 available, 29,037 on order
Ultrasonic meters, 5/8" x 1/2":	7,251 available, 1,154 on order
Ultrasonic meters, 5/8" x 3/4":	9,441 available, 13,141 on order

- Repaired water distribution system failures or maintenance at the following locations during the month:
 - 1724 9th Ave SE (Water Main Break) – 12/1
 - 839 11 1/2 St SW (Water Main Break) – 12/13
 - 1st St NW & 5th Ave NW (Water Main Break) – 12/18
 - 4001 41st St NW (Water Main Break) – 12/19
 - 1675 9th Ave SE (Water Main Break) – 12/29

Actual vs. Projected Pumpage: 2025
Core Services - Water Maintenance & Construction

Actual vs. Projected Power Cost for Wells: 2025
Core Services - Water Maintenance & Construction

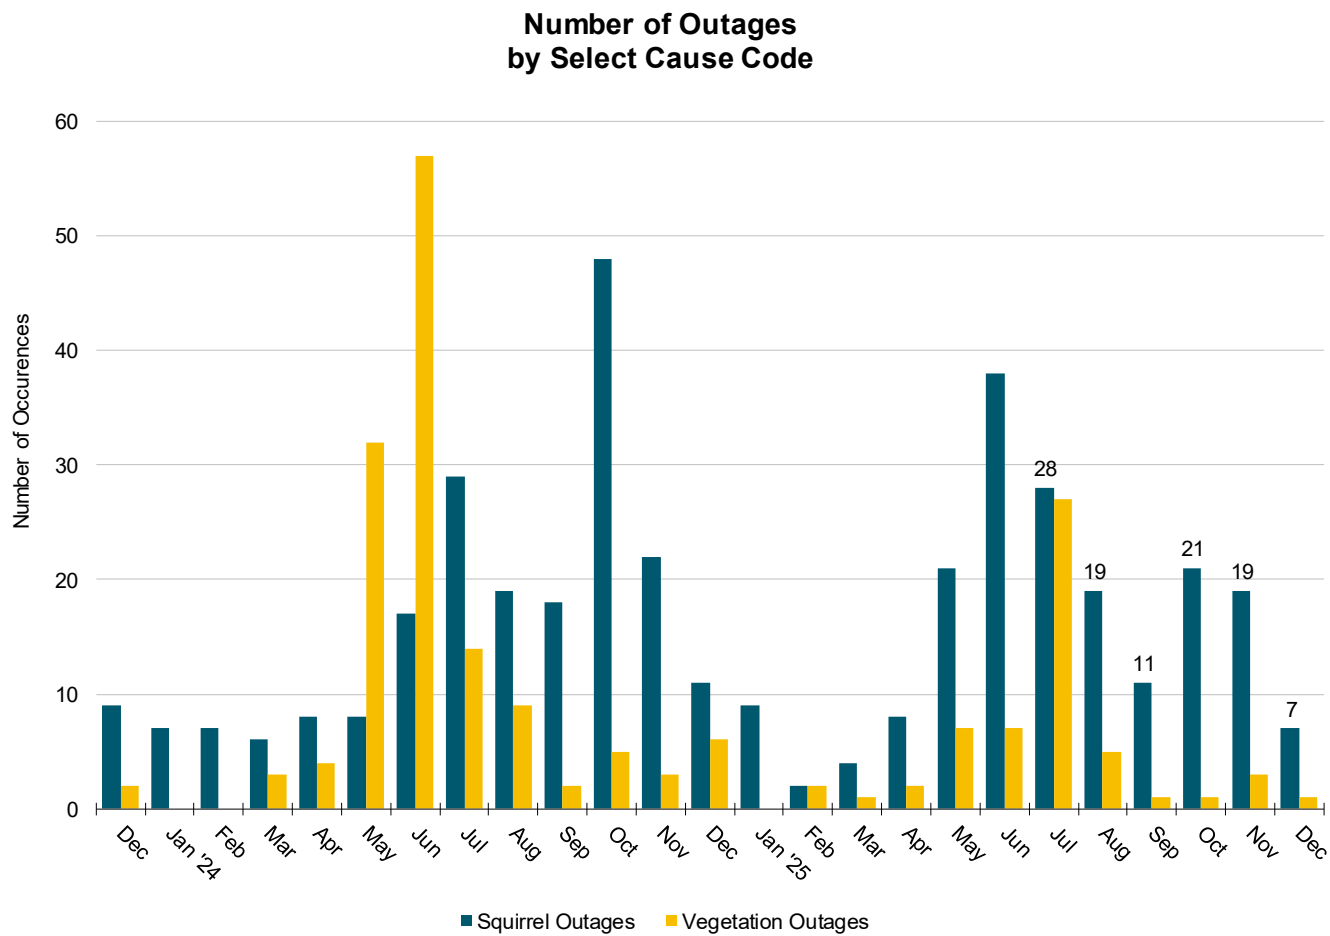

POWER DELIVERY**ELECTRIC UTILITY:****1. Electric Outage Calculations for the month and year to date (December 2025 Data)**

a. Reliability= 99.99853%	Year-to-date Reliability = 99.99532%
b. 398 Customers Affected by Outages	Year-to-date Customers Affected by Outages = 22,897
c. SAIDI= 0.66 min	Year-to-date SAIDI = 24.45 min
d. CAIDI= 101.55 min	Year-to-date CAIDI = 56.61 min

2. Electric Utility Operations – T&D, Engineering, System Ops, GIS, Tech Services:

- The Midcontinent Independent System Operator (MISO) have reviewed and accepted RPU's Power System Restoration Plan Procedure as part of the MISO regional power system restoration drill conducted in October 2025.
- GIS has completed the data reconfiguration portion for the ESRI upgrade project for electric utility. Final data clean-up needs to be completed prior to migrating to the new ESRI version.
- AMI project team completed the configuration, integration, and testing phase of the project in December 2025. The system underwent a successful go-live on Saturday 1/10/26. The next phase of the project will be to perform a pilot deployment of 500 electric meters and 50 water meters in NW Rochester. The pilot will run for roughly 3 months. During that time, the project staff will be monitoring and evaluating the following:
 - Technical Performance of meters, communication system, bill accuracy, and system integrations
 - Operational Impact of remote connects/disconnect, move-in/move-out, and outage detection
 - Customer Impact and feedback
 - Risk and Security on data quality, data compliance, and cybersecurity
 - Communication network gaps

If the pilot is successful, mass deployment of electric and water meters would begin in May 2026. The mass deployment will take roughly 2 years to change all electric meters and 3 years to change all water meters.

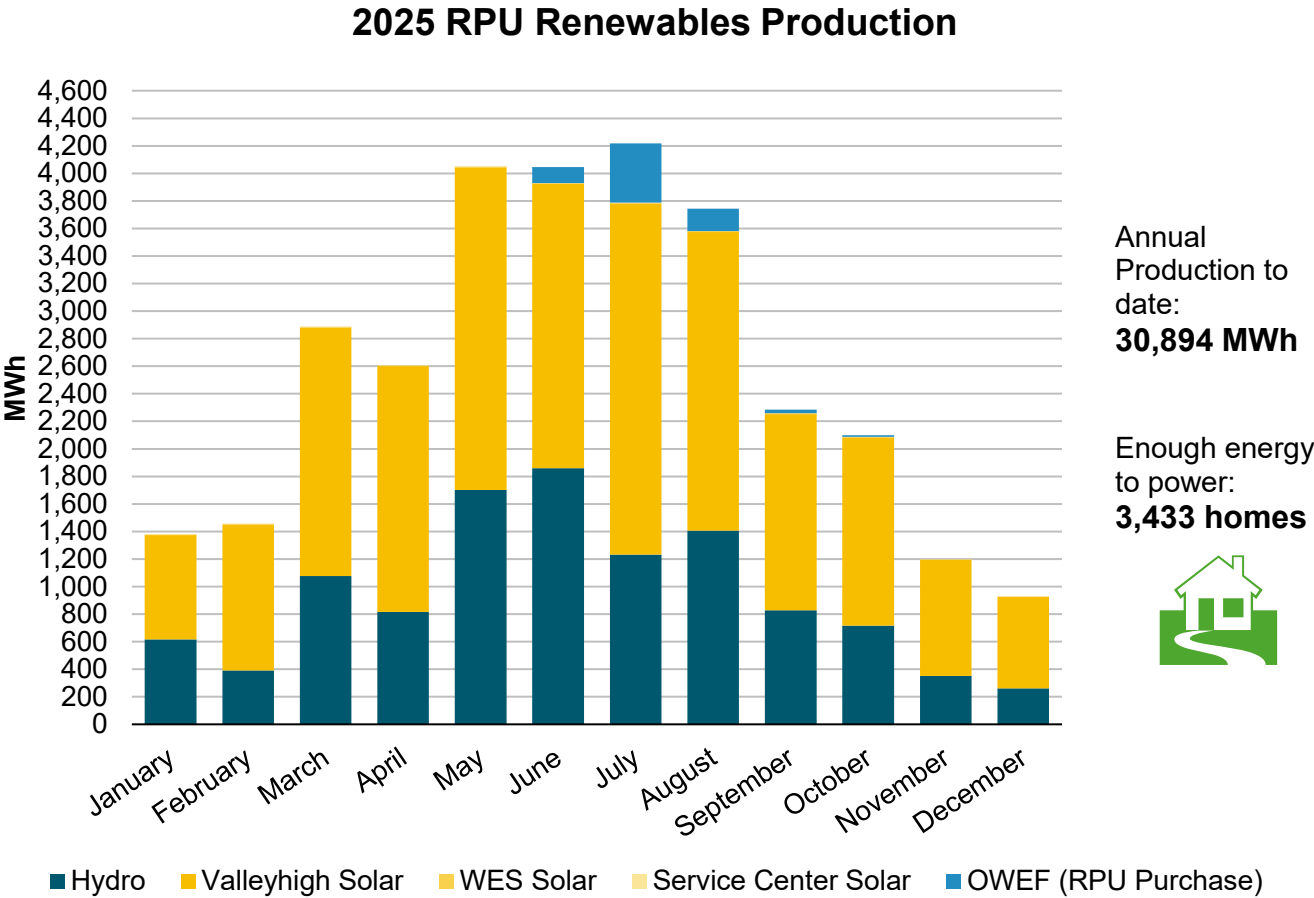

Summary of individual electrical outages (greater than 200 customers – December 2025 data)

# Customers	Date	Duration	Cause
None			

Summary of aggregated incident types (greater than 200 customers – December 2025 data)

# Customers	Total # of Incidents	Cause
None		

POWER RESOURCES**WHOLESALE OPERATIONS:**

1. INSERT

a. Ancillary Service Market – Supplemental Reserves

- i. Cleared DA
 - 1. GT2 – 26 days
 - 2. WES – 29 days
- ii. Deployment YTD
 - 1. GT2 – 0
 - 2. WES – 1

b. Dispatched by MISO

i. GT1	– 0 times	YTD	12 times
ii. GT2	– 7 times	YTD	150 times
iii. WES	– 13 times	YTD	237 times

c. Hours of Operation

i. GT1	– 0 hours	YTD	67 hours
ii. GT2	– 27 hours	YTD	994 hours
iii. WES	– 53 hours	YTD	1810 hours

d. Electricity Generated

i. GT1	– 0 MWh	YTD	1386 MWh
ii. GT2	– 442 MWh	YTD	31305 MWh
iii. WES	– 1579 MWh	YTD	56920 MWh

e. Forced Outage

i. GT1	– 744 hours	YTD	5258 hours
ii. GT2	– 0 hours	YTD	445 hours
iii. WES	– 18 hours	YTD	688 hours

MISO market Real-Time Price averaged \$ 38.91 /MWh and Day Ahead Price averaged \$ 41.99/MWh.

STAKEHOLDER ENGAGEMENT, FORUMS, AND MEETINGS:

1. Josh Mason will attend the Drive Electric MN Steering Committee meeting on January 22. The meeting will cover topics including the 2026 membership drive, feedback from the annual meeting, and 2026 legislative priorities.
2. Alex Pruett and Josh Mason will attend the Energy Integration Committee Action Plan Workshop on January 28. The group has hired the Center for Energy and Environment to facilitate a series of workshops focused on aligning the group's five-year goals with the City of Rochester's sustainability goals.

EVENTS/OPPORTUNITIES FOR CUSTOMERS:

1. Customer Care and Collections continue to make outreach calls to customers with past due balances on their accounts. The intent is to be proactive and connect these customers with outside resources for financial assistance. In December, a total of 875 customers were contacted.
2. Our Annual Trade Ally & Commercial Customer Meeting is scheduled for January 21, in collaboration with Minnesota Energy Resources. This event will provide an opportunity for RPU and Minnesota Energy Resources to share program updates for 2026 and express appreciation to our stakeholders for their participation in the 2025 programs.
3. On January 24, Marketing & Energy Services will host a Neighborhood Energy Challenge (NEC) workshop. As of January 15, 10 households are registered. The NEC is a partnership between RPU, Minnesota Energy Resources, and the Center for Energy and Environment focused on improving residential energy efficiency through home energy audits.

COMMUNICATIONS:

1. RPU welcomed Tom Jorgenson as the new Communications Coordinator. A Rochester native, Tom, joins RPU from Mayo Clinic, where he spent eight years in communications roles, with experience leading communications and public engagement across digital, print, and social channels.
2. Tom Jorgenson, Josh Mason, and Patty Hanson will attend the City of Rochester and Olmsted County Emergency Management 3-day Public Information Officer (PIO) Training at the City's Emergency Operations Center (Jan. 21–23) to strengthen joint crisis communications coordination and partnership with the City.
3. Tim McCollough will join Andy Brownell on Rochester Today to discuss RPU's new customer portal and how customers can use it to manage their account and services. The interview will be recorded on January 16 and is scheduled to air on January 21.

ENERGY CONSERVATION KWH YEAR TO DATE SAVINGS: 101.2% to goal for 2025

WATER CONSERVATION GALLONS YEAR TO DATE SAVINGS: 299.3% to goal for 2025

INFORMATION SERVICES:

Prepared: Mid-January 2026

Executive Summary

Since the December division report, IT activity has focused on three themes: (1) continuing cybersecurity incident remediation and stronger incident-response alignment with our cyber insurer, (2) progressing ERP contracting and Statement of Work (SoW) clarifications, and (3) continuing operational readiness (remote-work, service continuity, grants and regulatory participation). Highlights and next steps are below.

1) Cybersecurity & Compliance — key actions and status

a. CodeRED (OnSolve) Response and Remediation

Continued follow-up after the vendor CodeRED breach described in the December report: IT performed forced credential resets for internal CodeRED users, completed manual account adjustments, and provided guidance on credential hygiene and user awareness to reduce secondary compromise risk.

b. Incident Response Plan (IRP) Development & Tabletop Planning

IT continued work to update and test the Incident Response Plan. Scheduling and planning for a tabletop exercise are in progress to ensure the IRP and recovery plans are coordinated.

c. Cyber Insurance Engagement

IT engaged with cyber insurance providers/brokers to align our IRP to the claims handling and incident response services offered by prospective insurers.

Net Effect / Risk Posture: Continuing remediation actions reduced exposure from the CodeRED event; IRP maturity and alignment with insurers is improving readiness for future incidents. Next steps are completing the IRP tabletop exercise and capturing lessons learned to update incident playbooks.

2) ERP Program — Procurement, SoW, and Steering Committee Work

a. SoW Updates and Vendor Contracting

The ERP program remains a major IT priority. IT has been actively engaged in ERP Steering Committee meetings, reviewing Statements of Work and negotiating scope/contingency items.

b. Cost, Contingency, and Hyperscaler Considerations

Discussions continue around project contingency (20% referenced) and hyperscaler migration costs/options for data and historical system migration; these are being examined as part of SoW/contract review.

c. Resourcing and Coordination

IT continues to identify internal SMEs and resources who will participate in the ERP implementation. Office-hours sessions and team calls are used to answer SoW questions for internal stakeholders.

Net Effect / Status: SoW clarifications and financial/contingency planning are advancing; next steps are final SoW approval, confirming internal staffing, and establishing implementation governance.

3) Modernization & Productivity Tools / Remote Operations

a. Inclement-Weather / Remote-Work Readiness

IT reinforced inclement-weather remote-work operations and issued authorizations/guidance for IT staff to work from home when weather conditions warrant. Discussions included secure remote desktop and field device usage.

b. Productivity & Modernization Activities

IT supports enterprise modernization efforts for remote and field operations (e.g., addressing VPN/iPad connectivity issues in the field as noted in GM Q&A). The General Manager's report also highlights IT/security grant activity.

Net Effect / Status: Remote-work and field connectivity posture strengthened; additional optimization work remains.

4) IT Operations / Service Continuity

a. Maintenance & Infrastructure

Core infrastructure and operations work has continued (maintenance windows, hardware refreshes, and upgrades as summarized in the December report). Planning continues to minimize service impact during required maintenance.

b. Grants & Capital Programs Supporting Resilience

The GM report highlights the RMUC grant to extend IT security monitoring at substations. Update: IT has purchased the substation security equipment funded by the grant and is awaiting contractor installation to complete deployment of monitoring capability.

Net Effect / Status: Infrastructure upgrades and maintenance are continuing with careful scheduling to preserve service continuity. Substation security procurement is complete; contractor installation and commissioning are the remaining tasks.

5) Regulatory & Industry Engagement (NERC / SWG)

a. NERC Security Working Group (SWG) Participation

IT staff continued active participation in NERC/SWG work. Topics included tool updates reported at NERC Security Working Group (SWG) (e.g., ERT tool v10 and virtualization standards). Preparations are underway for Q1 MRO SAC reporting.

Net Effect / Status: Continued regulatory engagement keeps RPU aligned with NERC guidance and upcoming standards.

6) Communications, Training & People

a. Internal Communications

IT continues targeted communications to keep SMEs and operational teams informed.

b. Training & Exercises

Planning for IRP tabletop exercises and recovery plan testing is underway; these exercises will test response coordination across IT and operational teams.

7) Upcoming / Near-Term Items for the Board

- Complete IRP tabletop exercise and report lessons learned and any policy/controls changes.
- Finalize ERP SoW approvals, confirm contingency governance, and present high-level implementation timeline/impacts once SoW is executed.
- Substation security installation: contractor installation and commissioning of the already-purchased equipment; provide schedule and completion report (installation is pending). (Update: equipment purchased; awaiting contractor installation.)
- Continue CodeRED long-term remediation and review of vendor reliance/alternatives; summarize control improvements for Board review.
- Prepare NERC SWG update for the Q1 2026 MRO SAC inputs (February).

CORPORATE SERVICES**BUSINESS SERVICES:**

- Conducted cyber security and NERC compliance training due by 12/31/2025. One person did not complete their training by the deadline and their access to NERC regulated systems and facilities were removed until the training was completed in compliance with regulatory requirements.
- Currently working to make system changes to remove income taxes on overtime in compliance with changes in labor laws.

PURCHASING AND MATERIALS MANAGEMENT:

- Applied for and received 16 State grants for solar on public buildings. Two are RPU building locations and the remaining 14 are city facilities. This was a collaborative effort with the City Facilities Manager, Power Resources Team, Marketing Team and Purchasing Teams at RPU. The initial funding is provided through our current resource plan budget which will be reimbursed once the grant funds have been received. Once the State grant approvals were received in December, we worked with the solar installer to identify and purchase qualifying assets that they have control over before December 31, 2025. This was done to ensure we meet the requirement to also qualify for Federal direct pay credits of up to 30%. Two additional locations were approved by the State in January, however we do not expect these two locations to qualify for Federal tax credits.

FINANCE AND ACCOUNTING:

- Enterprise Resource Planning (ERP) software – During December the ERP team interviewed and selected a Contract Project Manager. This contract is scheduled to be submitted to the Council on January 21, 2026. This is part of the already approved ERP budget. We are currently working on hiring the eight (8) budget-approved limited term employees to backfill team members that will be working on the project on a full-time basis.
- Auto Payment Issue – following the customer portal conversion at the beginning of November, we identified a few customers where their payment information did not transfer as expected to the new system. We are currently reaching out to about 560 customers to help them re-enroll in auto payment.

FINANCIAL RESULTS:

Note: Budget numbers are compared to the Board approved 2025 budget. The 2025 budget has been updated to reflect 2024 projects that were not completed in 2024

November 2025

(In Thousands)	Current Month			Year to Date
