TOWN OF
SAN ANSELMO
EST. 1907

In the Council Chambers and Via Zoom at 525 San Anselmo Avenue, San Anselmo, CA 94960

Town Council
Agenda

Tuesday, July 28, 2026 **6:40 PM**

Meeting held In-Person and via Zoom:

https://us02web.zoom.us/j/88588028086

Or Telephone: +1 669 900 6833 | Webinar ID: 885 8802 8086

How to Submit Comments Before the Meeting: Members of the public are encouraged to submit email correspondence to towncouncil@sananselmo.gov or eComments on the Agendas and Meeting webpage before the meeting begins.

How to Participate During the Meeting: Members of the public will have the option to speak during the meeting through the Zoom application by using their phone or an electronic device.
For PC, Mac, or smart phone, use the Raise Hand function when public comment for an item is requested. It is a button that is located at the top or bottom of your screen, based on your electronic device.

For landline phones, Raise Hand to be recognized with *9

Please be advised that those participating in the meeting remotely via Zoom do so at their own risk. The Town Council's regular meeting will not be cancelled if any technical problems occur during the meeting.

6:40 PM - I. Interviews for Infrastructure and Fiscal Monitoring Committee

2 Interviews by Time, Attachment No. and Applicant Name (10 minutes each)
Staff Report (DOC)
6:40 PM Attachment 1- Ross Asselstine- Application w/Resume (PDF)
6:50 PM Attachment 2- Erik Selvig- Application no Resume (PDF)

7:00 PM - Call to Order. Optional Pledge of Allegiance: The Mayor or a designated Council member will recite the Pledge of Allegiance for members of the Council and the public who wish to join in the recitation.

Open time for public expression.

The public is welcome to address the Council at this time on matters not on the agenda that are within the jurisdiction of the Council. Please be advised that pursuant to Government Code Section 54954.2, Council is not permitted to discuss or take action on any matter not on the agenda unless it determines that an emergency exists, or that there is a need to take immediate action which arose following posting of the agenda. Comments may be no longer than three minutes and should be respectful to the community.

Written Public Comment
Public Comment- Henninger (PDF)

Council requests for future agenda items.

Council committee liaison reports, questions and comments to staff; staff miscellaneous items.

Special Presentation. There are No Special Presentations.

1. Consent Agenda:

The opportunity for public comment on consent agenda items will occur prior to Council discussion of the consent agenda. The Council may approve the entire consent agenda with one action. In the alternative, items on the consent agenda may be removed by any Council or staff member, for separate discussion and vote.

1.1 Approve the Draft Minutes of the Regular Meeting of June 23, 2026
Staff Report (DOC)
Attachment 1- Draft Minutes of the June 23, 2026 Regular Town Council Meeting (DOC)

1.2 Receive and File Report of Checks Issued, June 2026
Staff Report (DOCX)
Attachment 1 Check Report June 2026 (PDF)

1.3 Receive and File Revenue and Expenditure Reports, June 2026
Staff Report (DOCX)
Attachment 1 Budget Comparison Report by Subcategory, June 2026 (PDF)
Attachment 2 Budget Comparison Report by Department, June 2026 (PDF)
Attachment 3 Budget Comparison Report by Subcategory Measure J, June 2026(PDF)
Attachment 4 Budget Comparison Report by Department Measure J, June 2026 (PDF)

1.4 Receive and File the Financial Report on Recreation Fund ending June 30, 2026
Staff Report (PDF)
Attachment 1 - June 2026 Budget Report (PDF)
Attachment 2 - June 2026 Recreation Capital Outlay, Special Event Expense, and Older Adult Programming (PDF)

1.5 Approve Special Event Application – Goblins' BOOtacular 2026
Staff Report (PDF)
Attachment 1 - Event Application (PDF)

1.6 Adopt a Resolution to Repeal Pavement and Drainage Assistance Programs
Staff Report (DOC)
Attachment 1- Draft Resolution (DOC)
Public Comment- Bettini (PDF)

1.7 Adopt an Ordinance of the Town of San Anselmo Amending Title 10 "Planning and Zoning", Chapter 3 "Zoning', Article 13 "Conditional Use Permit"; Removing Title 10, Chapter 3, Article 6, Section 10-3.607 "Nonconforming Uses and Improvements" and Replacing with New Article 29 "Nonconforming Uses, Structures, And Lots"; and Associated CEQA Exemption Findings
Staff Report (PDF)
Attachment 1 - Ordinance (PDF)

2. Council Business Items:

In general, the following procedural order applies to items of business:
•Presentation
•Town Council questions
•PUBLIC COMMENT – limited to 3 minutes/person
•Town Council discussion/action

2.1 Authorize the Town Manager to Negotiate and Execute an Agreement with the Property Owners of 305 San Anselmo Avenue (APN007-282-20) for Public Parking in the Private Lot and Find the Project Exempt from the California Environmental Quality Act (14 Cal. Code Regs. § 15301).
Staff Report (DOC)

Public Hearing:

In general, the following procedural order applies to public hearing items:
•Staff Presentation
•Town Council Questions
•PUBLIC COMMENT – limited to 3 minutes/person
•Town Council discussion/action

2.2 Consideration of an Urgency Ordinance of the Town Council of the Town of San Anselmo Adopting a Temporary Moratorium on New Tobacco Retailer Licenses Pending Study and Possible Adoption of Permanent Regulations. The Urgency Ordinance is not subject to the California Environmental Quality Act ("CEQA") because it does not constitute a "project" within the meaning of Public Resources Code section 21065. The Climate Action Plan is not implicated.
Staff Report (DOC)
Attachment 1- Urgency Ordinance New Tobacco Uses (DOC)

2.3 Introduction and First Reading of an Ordinance Amendment Repealing and Replacing Title 10 "Planning and Zoning", Chapter 11 "Density Bonus" Consistent with State Law. The Ordinance Amendment complies with State Density Bonus law and is not considered a "project" under the California Environmental Quality Act ("CEQA"), Division 13 (commencing with Section 2100) of the Public Resources Code, as provided in Government Code sections 65852.21(j) and 66511.7(n).

Staff Report (DOC)
Attachment 1- Ordinance (DOC)
Attachment 2- Resolution No. 2026-16- ZOA- State Density Bonus (PDF)
Attachment 3- State Density Bonus Law Housing Fact Sheet (PDF)

Council Business Items:

In general, the following procedural order applies to items of business:
•Presentation
•Town Council questions
•PUBLIC COMMENT – limited to 3 minutes/person
•Town Council discussion/action

2.4 Adopt a Resolution of Intent to Abandon a Portion of a Public Easement Adjacent to 250 Redwood Road in San Anselmo. The proposed project is categorically exempt from the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15305, as the proposed right-of-way abandonment consists of the minor alteration in land use limitations, which does not result in any changes in land use or density.
Staff Report (PDF)
Attachment 1 - Proposed Resolution (PDF)
Attachment 2 - Application Letter for Abandonment (PDF)

2.5 Appoint (3) members to the Infrastructure and Fiscal Monitoring Committee (IFMC). Making appointments to serve on a committee is not a "project" under the California Environmental Quality Act (CEQA) because it does not involve an activity that has the potential to cause a direct or reasonably foreseeable physical change in the environment. (Cal. Pub. Res. Code Section 21065).
Staff Report (DOC)
Attachment 1- Marie Henrio- Application (PDF)
Attachment 2- Stan Radtke- Application (PDF)
Attachment 3- Ahmed Abu Aly- Application (PDF)
Attachment 4- Ross Assesltine- Application (PDF)
Attachment 5- Erik Selvig- Application (PDF)

Adjourn

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact Town Staff at email savila@sananselmo.gov. Notification at least 48 hours prior to the meeting will enable the Town to make reasonable accommodations to help ensure accessibility to this meeting.

Any writings or documents provided to a majority of the Town Council regarding any item on this agenda after the distribution of the original packet will be made available for public inspection at the public counter at Town Hall located at 525 San Anselmo Avenue.

Notice is hereby given that Council may discuss and/or take action on any or all of the items listed on this agenda. If any of these matters above are challenged in court, you may be limited to raising only those issues you or someone else raised at any public hearing described on this agenda, or in written correspondence delivered at, or prior to, this Council meeting. Judicial review of an administrative decision of the Town Council must be filed with the Court not later than the 90th day following the date of the Council's decision (Code of Civil Procedure Section 1094.6) Any item not under discussion before 10:00 p.m. may be continued to the next regular meeting. Next

regular meeting is August 25, 2026.

David Donery, Town Manager
Linda Kenton, Assistant Town Manager / Town Librarian
Jeff Zuba, Finance and Admin Services Director
Megan Holt Acevedo, Town Attorney
Serge Avila, Town Clerk
Heidi Scoble, Community Development Director
Scott Schneider, Interm Public Works Director
Mattie O'Grady, Community Services Director
Mike Norton, Chief of Police
Dan Mahoney, Fire Chief

DECLARATION OF POSTING
This Notice is posted in accordance with Government Code §54954.2(a) or §54956. Members of the public can view electronic agendas and staff reports by accessing the Town of San Anselmo website. Under penalty of perjury, this Agenda was posted to the public at least 72 hours prior to the meeting.

STAFF REPORT

TOWN OF SAN ANSELMO Item #: Interviews

MEETING DATE: July 28, 2026

AGENDA TITLE: Conducting Interviews for the Infrastructure & Fiscal Monitoring Committee

FROM: Serge Avila, Town Clerk

RECOMMENDATION: For the Town Council to conduct two (2) interviews:

- Ross Asselstine
- Erik Selvig

A total of (2) applicants scheduled to be interviewed by the Town Council.

Interview Time	Name		Board, Committee or Commission
6:40 PM	Ross Asselstine	Applicant	IFMC
6:50 PM	Erik Selvig	Incumbent	IFMC

Council will have an opportunity to make (3) appointments to the Infrastructure and Fiscal Monitoring Committee at the end of today's the meeting.

FISCAL IMPACT

There would be no direct fiscal impact on the Town to approve this item.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY

The proposed appointment is not a "project" under the California Environmental Quality Act, because it does not involve an activity which has the potential to cause a direct or reasonably foreseeable indirect physical change in the environment. (Cal. Pub. Res. Code § 21065).

Which Boards would you like to apply for?

Infrastructure and Fiscal Monitoring Committee: Submitted

Number of years as resident of San Anselmo?

27

Number of years as a resident in Marin?

27

Name and phone numbers of three San Anselmo residents who can be contacted for referral information about me:

Eileen Burke Jeff Kroot Paul Chignell

Education Level Achieved *

☑ College/University Degree

Interests & Experiences

I would be able to regularly attend the meetings of this Board/Commission/Committee.

◉ Yes ○ No

I would be available to attend additional meetings when they are necessary.

◉ Yes ○ No

I am familiar with the responsibilities and functions of this Board/Commission/Committee.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

I have a background in design, construction and project management. I was Director of Development of numerous high rises that included both complex legal structures, details budget and cost reporting in the hundreds of millions of dollars/

Reasons for this appointment:

I have very deep knowledge of the Flood Fee and the Withdrawal process. I have previously asked the Fiscal Monitoring Committee to consider the current position of the taxpayers of San Anselmo. In absence of any action by them, I wish to be considered to join this committee such that the ratepayers of SA can be treated fairly by a more formal review.

What are your qualifications for this appointment?

1) More than 30 years of experience in contract negotiations and cost management. 2) exceptionally diligent and tenacious.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

I believe that San Anselmo tax payers are due refunds of about $1.2M and no fee imposed in this next fiscal year of 2026/27 (about $0.6M)

E Ross Asselstine

OUTLINE

A design, construction and development professional with more than thirty years of experience including work in the trades, design, design management, construction supervision, construction management, project management and full responsibilities as an Owners' Representative. Projects are all of a major scale.

My experience includes high quality clients in San Francisco including One Oak Partners (GTIS), Emerald Fund and Tishman Speyer. I'm typically responsible for all aspects of design, construction and permitting. Experience includes approximately 1,400 residential units in 2.3M sft of development. Overseas and East Coast work was predominately office related.

I have been fortunate to work with some of the finest professionals in this country and overseas. When managing a project, I bring a strong background of field experience, design, construction, and team-building to the process of delivery of the building. I pride myself in knowledge of detail, experience in managing complex projects, developing cohesive teams and progressing projects with structured, timely decisions.

PROFESSIONAL EXPERIENCE

Development:

Lennar Urban
San Francisco, CA
Consultant 2016

Candlestick Point and Hunters Point Shipyard Developments

One Oak Owners (a JV between Build Inc of SF and GTIS Partners of NYC)
San Francisco, CA
Consultant 2014-15

One Oak Residences: 41 stories of units at the main intersection of San Francisco: Market and Van Ness.

Emerald Fund
San Francisco, CA
Consultant 2010 – 2013

Rincon Green: 326 residential units in the heart of San Francisco
100 Van Ness, a premium 400 unit residential tower retrofit / conversion of a 1970's office tower.

Tishman Speyer
San Francisco, CA
Employee 2004 – 2009

The Infinity, 660 units of condominiums in four buildings: 8, 9, 37 and 42 stories over a five story basement.
201 Folsom, 725 units in two buildings.
Pre-development of 33 story office building: 555 Mission Street
Numerous pre-acquisitions studies.

Owner's Representative
Lehrer McGovern / Bovis / Lend Lease

Sydney, Australia
1995-1999
Owner's Project Manager, AMP.

Complete Renovation of a 30-story office tower, 340,000 sf.
Sydney Opera House Restoration. Selected as Owner's Project Manager, the project was suspended after selection.

Kuala Lumpur, Malaysia
1992-1995
Owner's Project Manager, Kuala Lumpur City Center / Petronas Tower Site
Central City Park of 40 acres

Interests & Experiences

I would be able to regularly attend the meetings of this Board/Commission/Committee.

◉ Yes ○ No

I would be available to attend additional meetings when they are necessary.

◉ Yes ○ No

I am familiar with the responsibilities and functions of this Board/Commission/Committee.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

My civic involvement goes back at least 20 years starting with attending various SA town meetings. My first town appointment was to the Measure G committee. I then was appointed to the Capital Projects Committee and now sit on The Infrastructure and Fiscal Monitoring Committee since its inception.

Reasons for this appointment:

Would like to use my financial and engineering backgrounds to continue to serve the town.

What are your qualifications for this appointment?

I have MBA and engineering degrees and have spent my entire career working in and around both large and small scale private sector construction projects. I also have an extensive background in facilities management.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

The biggest issue facing this committee is to help the town staff and town council continue to build, maintain and operate town owed roads and facilities in a financially prudent and publicly transparent manner. Over the last few years the town has really done a great job improving the physical environment and our financial position. I want to continue to assist in this in any way possible.

Thank you for your interest in serving the Town of San Anselmo and its citizens. For further information, please contact Serge Avila, Town Clerk at savila@sananselmo.gov or 415-258-4660.

I am being assaulted with directed energy and noxious substances by the City and the Central Marin Police Authority (CMPA) through their orginization of the neighborhood (crime) watch and connection to the San Franci- -SCO Fusion Center. I will be advocating for the maximum legal penalties for the personel of the CMPA for their part in the crimes

Attention: City Counsel

My name is Mr. Autumn Forest Henninger, DOB 11/26/76. My email is autumnhenninger@tutanota.com. I am being assaulted with directed energy, noxious substances, and sometimes armed assailants by and at the direction of various government agencies and participants in Neighborhood (Crime) Watch Programs and InfraGard. This is carried out in cooperation through Fusion Centers. These assaults are in relation to an investigation of the Mexican Mafia/Southside neighborhood gangs and associates started in late 2004. These assaults started in March 2017 in Chile with what I reported to Chilean law enforcement as ionizing radiation. This was shortly after I stated that I only left the United States so the government could do whatever it wanted with its investigation/case while I said nothing, but since I had not been left alone (by the United States government operating through proxies) since I was in Venezuela under Chavez, that I was going to return to the United States. There was (is) a pattern of the government trying to establish that I engage in any activities which could cause cancer such as drinking alcohol (they would offer me drinks and invite me to bars) or even drinking yerba mate (there was a study that said it was a carcinogen). It is their MO to try and establish anything that could be used as plausible deniability for my death, for example offering me alcohol when I'm fixing my car or trying to make it seem as if I don't have a torque wrench. I have no vices and am generally risk averse, before the aforementioned assaults started, I exercised frequently. I eat organic and avoid chemicals, perfumes, secondhand smoke and all forms of noxious substances the best I can.

I should advise you that I made sworn video declarations documenting the above description in much greater detail. By all appearances, these sworn Video declarations went into circulation. All indications are that evidence has been obtained, evidence that is no longer exclusively in government(s) possession that would prove in court the truth of what I have stated here. I am certain there are those in the government(s) who know what this evidence is. I believe this evidence includes something like government documents from Chile. Also, I should advise you that although not as brazenly or pervasively I have been assaulted with ionizing radiation in the United States in certain areas under certain circumstances. I have no doubt that I would be assaulted with ionizing radiation again should I find myself in these areas under the circumstances that lead to ionizing radiation assaults on me. You may be thinking: "if this was happening this guy would already be dead". I probably would be if the government successfully used a single lethal dose on me, like was administered to Alexander Litvinenko, but they don't like that hair falls out look. What I have seen is a death by a thousand cuts style attack. Typically, the ionizing radiation assaults are carried out with some sort of pistol like device, a blast that then forms into a cloud which dissipates more slowly or more rapidly depending on airflow. The reaction people have to it varies greatly, I have seen many many people steeped in ionizing radiation during assaults or attempted assaults on myself, some people were repeat victims which is really the tell on how someone reacts to ionizing radiation. Its similar to other noxious substances, some people chain smoke seemingly without bother until they die from cancer and others feel ill from second hand smoke and move away immediately. Some people just sit there in ionizing radiation seemingly not bothered, for the time being, and these people would only require a death by 30 cuts style attack. Perhaps you recall that Hugo Chavez repeatedly claimed the United States was trying to kill him. Hugo Chavez's hair never fell out from radiation assaults; his hair started to fall out as a result of Chemotherapy:

Chavez to Begin New Round of Cancer Treatment

Published December 08, 2015

Associated Press .....Chavez underwent surgery in Cuba that removed a cancerous tumor from his pelvic region in June. He has not specified where the tumor was located but said the latest follow-up tests haven't detected any sign of malignant cells in his body. He said the chemotherapy is a preventive measure.Chavez has appeared with his head shaved the past few weeks after his hair began to fall out as a result of chemotherapy.

The president said during a televised Cabinet meeting on Saturday that he expects to disappear from public view in the coming days but will remain in contact with government officials and his supporters by phone and Twitter.

JUL 23 2025
Town of San Anselmo

For Town Council and Public Comment for next meeting.

described here. I believe the CMPA is particularly Corrupted. I do not think a mere restructuring of personnel or compartment of CMPA will rem the problem. I will be advocating for the maximum legal penalties for the crimes described here for any and all City Council member

Preface to "My name is Mr. Autumn Forest Henninger, DOB 11/26/76." 10-page document.

5-14-2026

My email account became inaccessible not too long after I started sending this document which was originally an email. Every time I have tried to open another email account, I have been unable to due to online interference. Subsequently I started writing my fax number on this 10-page document and it has also become inaccessible.

All statutes that relate to the crimes described here are statues that designate these crimes as crimes. There is no statute that allows any of these crimes. What there must have been at the genesis of these systemic crimes was a conspiracy to commit these crimes by people in the government who designated their planned crimes as "approved". The "approval" of committing crimes punishable by the severest penalties in state and federal statute, legally offers no protection at all. Invoking this "approval" (I was just doing my job or following orders) will provide no protection in any legal process I have heard of, be it our civilian legal system or some sort of tribunal. For anyone involved in these crimes as a perpetrator, facilitator or permissive party, I would think, once the dominoes start to fall their best defense would be the ability to show they were in the top 5 or 10 % of individuals working to end these crimes.

Currently my biggest problem is getting food and water from grocery stores free of Noxious Nanotech and biological agents designed for my DNA. Sometimes it's only on/in the food itself and sometimes it's also airborne in the store. Water from any source, sometimes including tap (nanotech in the area around and on the spigot) is hard to get. These noxious substances are applied in collusion between the local law enforcement agency (they organize the neighborhood watch and connect to the Fusion Center), the landlord, the store itself, and perhaps with InfraGard also having input. This is clear, and although not commonplace I have been assaulted with directed energy and noxious substances by local law enforcement themselves. These noxious substances can make my lungs feel as if they have been shellacked and my blood pressure raised. They can cause shallow breathing, heart problems, stomach problems, and sleeping problems that effect overall health. The next biggest problem currently is noxious substances being put in my car, followed by these noxious substances (which also can include drugs) being used on me in any formulation or concentration by any method of application. There is no safe formula or concentration level. I was put in this program by people attempting to murder me, this continues to be their goal.

approved but never given to me the government tried to establish that I simply didn't want to collect or pay the taxes and build a tax case against me. So, I worked little in order to foil the tax case. This led me to explain to the government through their various proxies that I would not say anything about their investigation or case, and I would never return to the United States. I told them I hoped they were successful so this would all be over and I could get my life back. For perspective, I could have made video declarations years earlier in the United States, the government had already committed many serious crimes in their "investigation," but I did not because I thought it was best to just stay out of their way so they could get what they want, I had been attempting to appease them for years at this point, I never wanted to leave the United States at all. Any country I've been in no matter how dangerous or poor the economy is far far better than the US with the government continually camped out on me for years. And this was before the directed energy and noxious substance assaults on me started, as is the case now.

There is a consistent pattern of members/participants in these "Crime Watch" programs accusing me of being a pedophile and they seem to really believe it , this includes the people speaking through neighborhood watch members either using a tiny earpiece and camera or as increasingly seems to be the case , using other technologies such as the device that induces sound in the head using microwaves (US patent 4877,027) which I included in this email as an attachment. I have increasingly explained to neighborhood watch members, and at the same time those who are speaking through them the real story which has over the years led to a reduction in the number of pedophile accusation events, but they still persist and can sometime be a danger. To be clear I'm not a pedophile. I've never been arrested and have no criminal record apart from rare routine tickets which when they have occurred generally do not seem naturally occurring. They are usually a chance to ask me questions. The most frequently asked is do I have a CA driver license, and on more than one occasion recording my license and address as appears on my old CA driver license despite my explaining I don't have a CA driver license and handing over a valid Nevada driver license. To be Clear I got that California Driver license in 2017, I'm not sure exactly why that expired license is such a subject of interest. I was Long Prevented from getting a California driver license by torturing me with directed energy as usual or common tactics like disconnecting my calls to DMV after being on hold over an hour. I have only recently been able to get a CA driver license because my Nevada driver license finally expired. The address I entered for my current CA driver license was changed from perfectly legible when I entered it into something nonsensical at the next screen where the DMV employee has the customer review the information and it had to be changed back to what I had entered. One reason I was stuck with the Nevada Driver license so long was I went to the Nevada DMV for vehicle registration; it was the end of the day for DMV. The last time I remember seeing my Nevada Driver license was in the hand of the woman helping me at the DMV. I realized just outside the door I didn't have my driver license. I turned to reenter, but the door was locked, the guard said the woman said she didn't have it and they didn't see it on the ground, they would not let me in. The next day the woman said she didn't have it, it was nowhere to be found, I had to get another Nevada driver license and the expiration date started anew extending the governments game with my licensee some years. I believe this license ploy was partly to keep the address from my old California license in the In the DMV and law enforcement systems since that address falls within the Jurisdiction of the Us Attorney -Eastern District of California and the Sacramento Fusion Center. This is the jurisdiction where the majority of the crimes committed by the government some 21 years ago took place. Perhaps this license ploy is so they can cling to "jurisdiction" over me.

here is a list of documents I have included as attachments:

1. The March 14, 2014 affidavit of ex FBI Agent Geral W. Sosbee, 3 pages **2.** The March 7, 2007 affidavit of Geral W. Sosbee, 2 pages **3.** United States Patent Number 4,877,027 Date of Patent Oct. 31, 1989 (sound is induced in the head by radiating the head with microwaves), 1 page **4.** United States Patent number 7,784,390 B1 Date of Patent Aug 31, 2010 (solid State non-lethal directed energy weapon), 1 page **5.** Letter from Richmond City Council Dated May 6, 2015, by Jovanka Beckles addressing the

Preface to "My name is Mr. Autumn Forest Henninger, DOB 11/26/76." 10-page document.

5-14-2026

My email account became inaccessible not too long after I started sending this document which was originally an email. Every time I have tried to open another email account, I have been unable to due to online interference. Subsequently I started writing my fax number on this 10-page document and it has also become inaccessible.

All statutes that relate to the crimes described here are statues that designate these crimes as crimes. There is no statute that allows any of these crimes. What there must have been at the genesis of these systemic crimes was a conspiracy to commit these crimes by people in the government who designated their planned crimes as "approved". The "approval" of committing crimes punishable by the severest penalties in state and federal statute, legally offers no protection at all. Invoking this "approval" (I was just doing my job or following orders) will provide no protection in any legal process I have heard of, be it our civilian legal system or some sort of tribunal. For anyone involved in these crimes as a perpetrator, facilitator or permissive party, I would think, once the dominoes start to fall their best defense would be the ability to show they were in the top 5 or 10 % of individuals working to end these crimes.

Currently my biggest problem is getting food and water from grocery stores free of Noxious Nanotech and biological agents designed for my DNA. Sometimes it's only on/in the food itself and sometimes it's also airborne in the store. Water from any source, sometimes including tap (nanotech in the area around and on the spigot) is hard to get. These noxious substances are applied in collusion between the local law enforcement agency (they organize the neighborhood watch and connect to the Fusion Center), the landlord, the store itself, and perhaps with InfraGard also having input. This is clear, and although not commonplace I have been assaulted with directed energy and noxious substances by local law enforcement themselves. These noxious substances can make my lungs feel as if they have been shellacked and my blood pressure raised. They can cause shallow breathing, heart problems, stomach problems, and sleeping problems that effect overall health. The next biggest problem currently is noxious substances being put in my car, followed by these noxious substances (which also can include drugs) being used on me in any formulation or concentration by any method of application. There is no safe formula or concentration level. I was put in this program by people attempting to murder me, this continues to be their goal.

Town of San Anselmo

I am being assaulted with directed energy and noxious substances by the City and the Central Marin Police Authority (CMPA) through their orginization of the neighborhood (crime) watch and connection to the San Franci-Sco Fusion Center. I will be advocating for the maximum legal penalties for the personel of the CMPA for their part in the crimes described here. I believe the CMPA is particularly Corrupted. I do not think a mere restructuring of personnel or compartment of CMPA will remed the problem. I will be advocating for the maximum legal penalties for ~~all~~ the crimes described here for any and all City council members ~~and City Counsel~~ who do not, as soon as possible cut the Funding and use of CMPA.

23

Attention: City Counsel

My name is Mr. Autumn Forest Henninger, DOB 11/26/76. My email is autumnhenninger@tutanota.com. I am being assaulted with directed energy, noxious substances, and sometimes armed assailants by and at the direction of various government agencies and participants in Neighborhood (Crime) Watch Programs and InfraGard. This is carried out in cooperation through Fusion Centers. These assaults are in relation to an investigation of the Mexican Mafia/Southside neighborhood gangs and associates started in late 2004. These assaults started in March 2017 in Chile with what I reported to Chilean law enforcement as ionizing radiation. This was shortly after I stated that I only left the United States so the government could do whatever it wanted with its investigation/case while I said nothing, but since I had not been left alone (by the United States government operating through proxies) since I was in Venezuela under Chavez, that I was going to return to the United States. There was (is) a pattern of the government trying to establish that I engage in any activities which could cause cancer such as drinking alcohol (they would offer me drinks and invite me to bars) or even drinking yerba mate (there was a study that said it was a carcinogen). It is their MO to try and establish anything that could be used as plausible deniability for my death, for example offering me alcohol when I'm fixing my car or trying to make it seem as if I don't have a torque wrench. I have no vices and am generally risk averse, before the aforementioned assaults started, I exercised frequently. I eat organic and avoid chemicals, perfumes, secondhand smoke and all forms of noxious substances the best I can.

I should advise you that I made sworn video declarations documenting the above description in much greater detail. By all appearances, these sworn Video declarations went into circulation. All indications are that evidence has been obtained, evidence that is no longer exclusively in government(s) possession that would prove in court the truth of what I have stated here. I am certain there are those in the government(s) who know what this evidence is. I believe this evidence includes something like government documents from Chile. Also, I should advise you that although not as brazenly or pervasively I have been assaulted with ionizing radiation in the United States in certain areas under certain circumstances. I have no doubt that I would be assaulted with ionizing radiation again should I find myself in these areas under the circumstances that lead to ionizing radiation assaults on me. You may be thinking: "if this was happening this guy would already be dead". I probably would be if the government successfully used a single lethal dose on me, like was administered to Alexander Litvinenko, but they don't like that hair falls out look. What I have seen is a death by a thousand cuts style attack. Typically, the ionizing radiation assaults are carried out with some sort of pistol like device, a blast that then forms into a cloud which dissipates more slowly or more rapidly depending on airflow. The reaction people have to it varies greatly, I have seen many many people steeped in ionizing radiation during assaults or attempted assaults on myself, some people were repeat victims which is really the tell on how someone reacts to ionizing radiation. Its similar to other noxious substances, some people chain smoke seemingly without bother until they die from cancer and others feel ill from second hand smoke and move away immediately. Some people just sit there in ionizing radiation seemingly not bothered, for the time being, and these people would only require a death by 30 cuts style attack. Perhaps you recall that Hugo Chavez repeatedly claimed the United States was trying to kill him. Hugo Chavez's hair never fell out from radiation assaults; his hair started to fall out as a result of Chemotherapy:

Chavez to Begin New Round of Cancer Treatment

Published December 08, 2015

Associated Press .....Chavez underwent surgery in Cuba that removed a cancerous tumor from his pelvic region in June. He has not specified where the tumor was located but said the latest follow-up tests haven't detected any sign of malignant cells in his body. He said the chemotherapy is a preventive measure.Chavez has appeared with his head shaved the past few weeks after his hair began to fall out as a result of chemotherapy.

The president said during a televised Cabinet meeting on Saturday that he expects to disappear from public view in the coming days but will remain in contact with government officials and his supporters by phone and Twitter.

"In the coming hours, between today and tomorrow we'll be preparing for the third cycle," Chavez said.....

Chavez had a security team checking for radiation with a Geiger counter:

The Strange Death of Hugo Chavez: An Interview with Eva Golinger
Published December 08, 2015

Investigative journalist Eva Golinger argues that the late Venezuelan leader may have been assassinated by close aides who fled the country following his death.

Mike WhitneyMay 3, 2016

.....There was another, lesser-known plot against Chavez discovered in New York City during his visit to the United Nations General Assembly in September 2006. According to information provided by his security services, during standard security reconnaissance of an event where Chavez would address the US public at a local, renowned university, high levels of radiation were detected in the chair where he would have sat. The radiation was discovered by a Geiger detector, which is a handheld radiation detection device the presidential security used to ensure the President wasn't in danger of exposure to harmful rays. In this case, the chair was removed and subsequent tests showed it was emanating unusual amounts of radiation that could have resulted in significant harm to Chavez had it gone undiscovered.....

I would draw your attention to HR 2977 ``Space Preservation Act of 2001''
from the 107th congress which did not pass but would have addressed the assaults/crimes being committed against me, it reads in part:

```
(ii) Inflicting death or injury on, or damaging or
destroying, a person (or the biological life, bodily
health, mental health, or physical and economic well-
being of a person)--
(I) through the use of any of the means
described in clause (i) or subparagraph (B);
(II) through the use of land-based, sea-
based, or space-based systems using radiation,
electromagnetic, psychotronic, sonic, laser, or
other energies directed at individual persons
or targeted populations for the purpose of
information war, mood management, or mind
control of such persons or populations; or
(III) by expelling chemical or biological
agents in the vicinity of a person.
```

Also, S2778 114th congress the "Directed Energy Weapon Systems Acquisition Act of 2016".
which in part state:

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The Committee on Armed Services of the Senate noted in the report accompanying S. 1356 (S. Rept. 114–49; 114th Congress) that since 1960, the Department of Defense has invested more than

Chavez to Begin New Round of Cancer Treatment

Published December 08, 2015

Associated Press

.....Chavez underwent surgery in Cuba that removed a cancerous tumor from his pelvic region in June. He has not specified where the tumor was located but said the latest follow-up tests haven't detected any sign of malignant cells in his body. He said the chemotherapy is a preventive measure.

Chavez has appeared with his head shaved the past few weeks after his hair began to fall out as a result of chemotherapy.

The president said during a televised Cabinet meeting on Saturday that he expects to disappear from public view in the coming days but will remain in contact with government officials and his supporters by phone and Twitter.

$6,000,000,000 in directed energy science and technology initiatives, and that the Committee is concerned that, despite this significant investment, the Department's directed energy initiatives are not resourced at levels necessary to transition them to full-scale acquisition programs.....

.....(4) The Task Force believes that the range of potential application is sufficient to warrant significantly increased attention to the scope and direction of efforts to assess, develop, and field appropriate laser, microwave, and millimeter wave weapons.

I can tell you that the more than $6,000,000,000 the Department of Defense has invested in directed energy science and technology initiatives has not gone to nothing and that microwave and millimeter wave weapons and others have indeed been fielded, unfortunately they have not been fielded appropriately. They have been fielded treasonously, as defined by 18 U.S.C §2331 Definitions:

As used in this chapter-

(1) the term "international terrorism" means activities that-

(A) involve violent acts or acts dangerous to human life that are a violation of the criminal laws of the United States or of any State, or that would be a criminal violation if committed within the jurisdiction of the United States or of any State;

(B) appear to be intended-

(i) to intimidate or coerce a civilian population;..... (targeted individuals being a civilian population).....

(5) the term "domestic terrorism" means activities that—.....same as (A), (B)(i) above.....(C)occur primarily within the territorial jurisdiction of the United States;.....

The Assaults on myself and other targeted individuals meet the 18 U.S.C 2331 definition of terrorism both international and domestic, as well as the following definition in 6 U.S.C. § 101(18):

(18) The term "terrorism" means any activity that—**(A)**involves an act that—**(i)**is dangerous to human life or potentially destructive of critical infrastructure or key resources; and**(ii)**is a violation of the criminal laws of the United States or of any State or other subdivision of the United States; and**(B)**appears to be intended—**(i)**to intimidate or coerce a civilian population;.....(targeted individuals being a civilian population)

Terrorism is Warfare.

The preamble to the United States Constitution reads: We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

The United States/California is "We the People" and Treason is the only crime defined in the United States Constitution in article 3 section 3, but it states, "congress shall have the power to declare the punishment for Treason". They have done so in in 18 U.S.C 2381.

18 U.S.C 2381 Treason: Whoever, owing allegiance to the United States, levies war against them or adheres to their enemies, giving them aid and comfort within the United States or elsewhere, is guilty of treason and shall suffer death, or shall be imprisoned not less than five

years and fined under this title but not less than $10,000; and shall be incapable of holding any office under the United States.

Also

CA Penal Code 37 Treason:

(a)Treason against this state consists only in levying war against it, adhering to its enemies, or giving them aid and comfort, and can be committed only by persons owing allegiance to the state. The punishment of treason shall be death or life imprisonment without possibility of parole. The penalty shall be determined pursuant to Sections 190.3 and 190.4.(b) Upon a trial for treason, the defendant cannot be convicted unless upon the testimony of two witnesses to the same overt act, or upon confession in open court; nor, except as provided in Sections 190.3 and 190.4, can evidence be admitted of an overt act not expressly charged in the indictment or information; nor can the defendant be convicted unless one or more overt acts be expressly alleged therein.

The enemies of the United States/California (We the People) are whomever (foreign or domestic) levies war (terrorism) on them or adheres to their enemies (which is Treason in and of itself).

A few of the many laws violated in the commission of crimes being committed against me are:

18 U.S.C §241. Conspiracy against rights

If two or more persons conspire to injure, oppress, threaten, or intimidate any person in any State, Territory, Commonwealth, Possession, or District in the free exercise or enjoyment of any right or privilege secured to him by the Constitution or laws of the United States, or because of his having so exercised the same; or

If two or more persons go in disguise on the highway, or on the premises of another, with intent to prevent or hinder his free exercise or enjoyment of any right or privilege so secured—They shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill, they shall be fined under this title or imprisoned for any term of years or for life, or both, or may be sentenced to death.

18 U.S.C §242. Deprivation of rights under color of law Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death.

18 U.S.C §2382. Misprision of treason

Whoever, owing allegiance to the United States and having knowledge of the commission of any treason against them, conceals and does not, as soon as may be, disclose and make known the same to the President or to some judge of the United States, or to the governor or to some judge or justice of a particular State, is guilty of misprision of treason and shall be fined under this title or imprisoned not more than seven years, or both.

18 U.S.C §1584. Sale into involuntary servitude
(a) Whoever knowingly and willfully holds to involuntary servitude or sells into any condition of involuntary servitude, any other person for any term, or brings within the United States any person so held, shall be fined under this title or imprisoned not more than 20 years, or both. If death results from the violation of this section, or if the violation includes kidnapping or an attempt to kidnap, aggravated sexual abuse or the attempt to commit aggravated sexual abuse, or an attempt to kill, the defendant shall be fined under this title or imprisoned for any term of years or life, or both.
(b) Whoever obstructs, attempts to obstruct, or in any way interferes with or prevents the enforcement of this section, shall be subject to the penalties described in subsection (a).

Based on my and other targeted individuals experience 18 U.S.C 1584 is applicable because targeted individuals brains are mapped and fed into an Artificial Intelligence computer which has the ability to recognize the targeted individuals thoughts, emotions, and biological activity. There is a bio feedback loop between the targeted individual and the Artificial Intelligence. Probably you have heard of cases of AI software development companies getting into problems for scanning copy written books into their AI software. The AI targeted individuals are connected to scans humans into itself. The AI increases or decreases the Intensity of assault on the targeted individual based on many factors. Targeted individuals conform their thoughts, behaviors and actions attempting to lessen the assaults on them (directed energy and otherwise). Some of what I have explained here is similarly explained By Dr Robert Duncan and an electronics engineer named Dave Chase. In my experience this system functions largely on nanotechnology being introduced into the body of the targeted individual which acts like a transceiver for the directed energy. The following descriptions are somewhat similar to my experience:

AI makes non-invasive mind-reading possible by turning thoughts into text
This article is more than 2 years oldAdvance raises prospect of new ways to restore speech in those struggling to communicate due to stroke or motor neurone disease
The Guardian
Hannah Devlin *Science correspondent*
Mon 1 May 2023 11.00 EDT
Share

An AI-based decoder that can translate brain activity into a continuous stream of text has been developed, in a breakthrough that allows a person's thoughts to be read non-invasively for the first time. The decoder could reconstruct speech with uncanny accuracy while people listened to a story – or even silently imagined one – using only fMRI scan data. Previous language decoding systems have required surgical implants, and the latest advance raises the prospect of new ways to restore.....

Home Exclusive Artificial Intelligence **Researchers combine AI and fMRI to predict the emotional relevance of spontaneous thoughts**

by **Eric W. Dolan**
September 17, 2024
A new study led by researchers from the Center for Neuroscience Imaging Research in South Korea and Dartmouth College has revealed that brain activity can predict how people emotionally experience their thoughts. Using brain scans and personalized story narratives, the team developed a method that combines brain imaging with machine learning to decode the emotional aspects of thoughts in real time. The research was published in the *Proceedings of the National Academy of Sciences*.

This mind reading bio feedback loop torture, including my genitals, and the aggravation and injury of my numerous orthopedic problem areas (this is injurious to all healthy joints also) due to directed energy, as well as all of the types of assaults violates everything in the first section of the first article of the California Constitution:

We, the People of the State of California, grateful to Almighty God for our freedom, in order to secure and perpetuate its blessings, do establish this Constitution.

ARTICLE I DECLARATION OF RIGHTS [SECTION 1 - SEC. 32]

(Article 1 adopted 1879.)

SECTION 1. All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and privacy. *Sec. 1 added Nov. 5, 1974, by Proposition 7. Resolution Chapter 90, 1974.)*

Universal Citation: CA Constitution art XX § 3

SEC. 3. Members of the Legislature, and all public officers and employees, executive, legislative, and judicial, except such inferior officers and employees as may be by law exempted, shall, before they enter upon the duties of their respective offices, take and subscribe the following oath or affirmation:

I, _____, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter.....

18 U.S.C § 241, § 242, and § 1584 subject the perpetrators of these crimes to the possible application of the severest penalties in the legal system due to aggravated sexual abuse (as stated in Jovanka Bickle's letter from the Richmond city council, other targeted individuals (T.I.'s) I have heard, and also my experience) because directed energy hits the TI's genitals. In my case specifically (I can't speak for all other T.I.'s on this matter) due to an attempt to kill (ionizing radiation). Being hit with non-ionizing radiation I believe is cancer causing in the long term, it certainly degrades the health, it is torture on a sliding scale depending on intensity level and type used but the perpetrators of these crimes will claim this is non-lethal weaponry. compared to ionizing radiation it is unless the perpetrators successfully drive a victim to suicide or a mass shooting which seems to be their goal (as stated in Dr. Daniel Lebowitz presentation to the senate, Mayron May etc..) but there is no discussion in the scientific community about whether or not ionizing radiation is cancer causing, it simply is. It depends on many factors if someone dies from it, do they sense it and move away, are their habits healthy (diet and exercises), do they have any vices. Fortunately I was in world class excellent shape when this started in Chile (since I couldn't work much because of the attempt to build a tax case against me, I exercised a lot instead), I had no, nor do I have any vices and I quickly figured out I was being assaulted with ionizing radiation and had all the factors for survival in my favor. I am of course well below the poverty line in California due to the extremely limited income opportunities associated with having to move around all the time trying to limit the assaults on me, my property, and any food I could buy in a store or pick from a tree (all of which

becomes noxious). The government/nongovernment perpetrators of these assaults on me like to portray my poverty-stricken movements (attempting to lessen the severity of the assaults on myself) as me just doing what I love, travelling. These noxious substances are designed for the targeted individuals DNA, being inert to all others. This allows these noxious substances to be applied to or put in any product anywhere in the chain of custody from manufacture to retail through the various businesses participation in their neighborhood watch program or InfraGard. In some areas mice are put into the engine compartment of my car and they make their way through the firewall area to the inside. The mice cause damage by chewing wires but also have a noxious substances applied to them which contaminates my possessions which then have to be put in the trash. My vehicle has had the trim above windows cut into causing them to leak and I found my oil pan drain plug turned out just shy of the leaking point.

The nature of this ongoing 21 year "investigation"

Rather than just playing it straight and prosecuting their case the government started committing crimes pretty much immediately. They tried to get money marked as proceeds from illegal activity into my possession through a variety of means including as payment for a Ford Bronco. I would only except payment by money order with "for Ford Bronco written on it" I wrote this into a brief sales agreement which caused the governments proxy to lose interest in selling the Bronco, the proxy facetiously said, "I will have the buyer write for Ford Bronco and not narcotics on the money order". The proxy had already refused my offer of placing an ad in the newspaper (solely at my expense) and said he wanted to advertise online only. With the sale foiled the government then apparently pivoted to a plan to plant narcotics in the Bronco. Their proxy (my friend who had been busted for mortgage fraud surly, since he told me what he did previously) warned me about it and I moved the Bronco off the street. I then consulted an attorney and tried to have an ad placed in the Sacramento Bee but I was told they would not run such an ad. I had the ad placed in the Sacramento news and review and it also ran in the Chico news and review. The add was not exactly what I had written it was a bit jumbled but it did state my initials AFH and my month and year of birth 11/76, as well as something to the effect that the government was attempting to plant narcotics or marked money on me or otherwise incriminate me in crimes of which they knew I was innocent. This ad ran in 2005. I have no doubt that on more than one occasion the government attempted to get me killed by directing their proxies to try and get me to change my course and put me in a position where waiting would be assigns under surveillance could kill me. While I have no doubt it happened more than once I'm sure it happened at least once because the government's proxy (my ex-housemate) told me about it a bit after attempting to get me to go to the spot (unsuccessfully) where the would-be assassins were waiting for me. The Government had done something similar a few years earlier during an investigation dubbed "Operation Black Widow" when on May 21, 2001 law enforcement surveilled the situation at Caps Saloon in old town Salinas while Armando Frias called Roque "Boxer " Martinez and asked him to bring a gun he then used to shot Ray Sanchez in the Back of the neck. I recall that Frias's Attorney found out that the government surveilled the whole situation and did nothing to warn Sanchez of his impending death. Frias's attorney was then able to make a deal with the government to get Frias a life sentence rather than go to trial and face a possible death sentence due to his having discovered this info. I have no information that the government caused Sanchez's encounter with his assassin as they attempted in my case but if they did lure Sanchez to his death they got away with it because Sanchez is unable to comment, being dead. His death (circumstances left completely undiscovered) would have strengthened the government's case. My death would have strengthened the government's case also. The government would have then had a free hand to invent whatever scenario best suited their ends in presenting their case without having me around as a loose end to possibly cause them problems as they subverted the justice system.

Most of this 21 year "investigation" consists of the government attempting to force me into situations where I will have to break some/any law, rule, or regulation and since 2017 using torture as a means of forcing me to or preventing me from doing whatever it is they want or don't want me to do. I'm the only person I know of who is not being directed by the government, this is why I don't talk to anyone at all unless it's a necessity or occasionally a one-time exchange, I have no personal connections with anyone

anymore because I'm only ever talking to some government employee or contractor for some company participant in the neighborhood "crime watch" program or InfraGard. There have been instances of classifying me as female that I have never experienced before, I am male and have never ever classified myself as anything other than male. Perhaps there is a plan to portray me as transgender as an explanation for my being single and childless. I believe this first occurred after I explained my grandfather wouldn't call me Autumn because it's a girl's name. Things like this commonly occur, I give these perps an idea and they run with it. They always seek to cover up the crimes they commit.

They obviously never want me to work my profession, unless I first go through a training course so they can point to how I learned my work or at least to beg for a chance as an apprentice, the truth is I am excellent at my work. Unfortunately, I can't stay in one place long enough to comply with the requirements to get the license in California or anywhere because I have to move all the time to lessen the assaults on myself. It was also a license issue that forced me out of the US years before, again a situation that seemed impossible to remedy because I have physical limitations (I'm disabled if I don't take care of myself and do work that's suited to my limitations or that I can choose which jobs I take or spend more time to complete tasks). I'm sure I could have passed whatever test to get the license. It seems the government should stick to identifying actual crimes with victims, then investigating and prosecuting rather than just endlessly camping out on someone like vultures (now international vultures with cattle prods, prodding me into impossible situations that I still manage to get through but at the expense of sucking my whole life away. The situation with everybody is like invasion of the body snatchers anyone I know or talk to is somebody(s) else. The government and non-government players here are not a monolith some want to do one thing others something else and they come to a consensus based on certain factors. I've been prevented from/forced into having a Driver's license in one state versus another. The CA franchise tax board told me they filed 3 tax liens based on nothing other than their claim that I had a city business license (which they renew automatically for a number of years), that is they had no indication of either income or expenses. One of the first questions I recall the tax board rep asking me was if I was in the US during their tax assessment years, I told the reps the onus was on them to prove a crime or violation, to show income or expenses. They billed me over $5000. I spent a lot of time dealing with this. By all appearances it was (is) all part of this ongoing 21 year "investigation". I ended up making a complaint about it and sending the FTB the appeal of Blair S Bindley. I got a "we can't comment" response to my complaint and I haven't heard anymore from them. This tax bill seemed to coincide with my name appearing online from a background check company as guilty of something in a laundry list of possible crimes from sex offender to unpaid ticket or debt. I have been written a fix it ticket which was simply never turned in making it unpayable. I checked on it many times, apparently it is material for the online laundry list smear of my reputation.

In Venezuela, when Chavez was finally murdered, I had to switch the type of work I was doing so I could work under another's business license. Mind you I was an undocumented immigrant at the time, still the government was trying to build a tax case against me. Murdering a President is an effective way of getting cooperation from his former Vice President. Prior to my career switch the government was rolling my clients who either worked with them to bust me or attempt to just make me look bad (for example making it hard for me to return books lent me so they could say I was a book thief). I still did not want to return to the United States; I hoped someday the US government would conclude their "investigation" and try their case. In Chile I did The paperwork and paid the fee (which was expense because it's the same price a Chilean pays in the US) for a visa. I was approved but simply never given the visa so I couldn't collect or pay taxes, which nobody I worked with did with no problems, it only seemed to be a thing in the good areas, same as in Venezuela. I often lived in poor areas that many people would not want to even go to out of concern for their safety. I lived in these areas out of economic necessity due to my own poverty created by the government being camped out on me trying to build a tax case or whatever case against me. This limits my income, then as now, unless I just want to live life and get busted like seemingly everybody else does. The government always wants to paint the picture I was running around South America (and now the US) in poverty due to "my love of travel". The truth is I was looking for any place I would be left alone or at least less bothered by the government. In Chile after my visa was

approved but never given to me the government tried to establish that I simply didn't want to collect or pay the taxes and build a tax case against me. So, I worked little in order to foil the tax case. This led me to explain to the government through their various proxies that I would not say anything about their investigation or case, and I would never return to the United States. I told them I hoped they were successful so this would all be over and I could get my life back. For perspective, I could have made video declarations years earlier in the United States, the government had already committed many serious crimes in their "investigation," but I did not because I thought it was best to just stay out of their way so they could get what they want, I had been attempting to appease them for years at this point, I never wanted to leave the United States at all. Any country I've been in no matter how dangerous or poor the economy is far far better than the US with the government continually camped out on me for years. And this was before the directed energy and noxious substance assaults on me started, as is the case now.

There is a consistent pattern of members/participants in these "Crime Watch" programs accusing me of being a pedophile and they seem to really believe it , this includes the people speaking through neighborhood watch members either using a tiny earpiece and camera or as increasingly seems to be the case , using other technologies such as the device that induces sound in the head using microwaves (US patent 4877,027) which I included in this email as an attachment. I have increasingly explained to neighborhood watch members, and at the same time those who are speaking through them the real story which has over the years led to a reduction in the number of pedophile accusation events, but they still persist and can sometime be a danger. To be clear I'm not a pedophile. I've never been arrested and have no criminal record apart from rare routine tickets which when they have occurred generally do not seem naturally occurring. They are usually a chance to ask me questions. The most frequently asked is do I have a CA driver license, and on more than one occasion recording my license and address as appears on my old CA driver license despite my explaining I don't have a CA driver license and handing over a valid Nevada driver license. To be Clear I got that California Driver license in 2017, I'm not sure exactly why that expired license is such a subject of interest. I was Long Prevented from getting a California driver license by torturing me with directed energy as usual or common tactics like disconnecting my calls to DMV after being on hold over an hour. I have only recently been able to get a CA driver license because my Nevada driver license finally expired. The address I entered for my current CA driver license was changed from perfectly legible when I entered it into something nonsensical at the next screen where the DMV employee has the customer review the information and it had to be changed back to what I had entered. One reason I was stuck with the Nevada Driver license so long was I went to the Nevada DMV for vehicle registration; it was the end of the day for DMV. The last time I remember seeing my Nevada Driver license was in the hand of the woman helping me at the DMV. I realized just outside the door I didn't have my driver license. I turned to reenter, but the door was locked, the guard said the woman said she didn't have it and they didn't see it on the ground, they would not let me in. The next day the woman said she didn't have it, it was nowhere to be found, I had to get another Nevada driver license and the expiration date started anew extending the governments game with my licensee some years. I believe this license ploy was partly to keep the address from my old California license in the In the DMV and law enforcement systems since that address falls within the Jurisdiction of the Us Attorney -Eastern District of California and the Sacramento Fusion Center. This is the jurisdiction where the majority of the crimes committed by the government some 21 years ago took place. Perhaps this license ploy is so they can cling to "jurisdiction" over me.

here is a list of documents I have included as attachments:

1. the March 14, 2014, affidavit of ex FBI Agent Geral W. Sosbee 2. United States Patent Number 4,877,027 Date of Patent Oct. 31, 1989 (sound is induced in the head by radiating the head with microwaves) 3. United States Patent number 7,784,390 B1 Date of Patent Aug 31, 2010 (solid State non-lethal directed energy weapon) 4. letter from Richmond City Council Dated May 6, 2015, by Jovanka Beckles addressing the crimes I reported and the systematic coverup of such crimes, as reported by

citizenry to her. 5. Presentation submitted to the Senate Hearing on "The State of Civil and Human Rights in the United States" on Tuesday December 9, 2014, by Dr. Daniel Lebowitz 6. Resolution adopted by the Human rights Council of the United Nations General Assembly on 6 October 2022 51/3 Neurotechnology and human rights. I quote from this resolution .... "Framework sets out that States have a duty to protect and that business enterprises, including technology companies, have a responsibility to respect human rights. Bearing in mind that Neurotechnology allows the connecting of the human brain directly to digital networks through devices and procedures that may be used, among other things, to access, monitor and manipulate the neural system of the person."

I have no reason to question the veracity of the attached documents other than the perpetrators of these crimes against me generally interfere in whatever I'm doing and regularly hack into whatever computer I'm using to erase or change the contents of my emails. You could easily ascertain the veracity of the documents. Just in case the documents attached to this email are sabotaged altogether I have copied and pasted one below.

Presentation submitted to the Senate Hearing on "The State of Civil and Human Rights in the United States"

Tuesday December 9, 2014.

My name is Dr. Daniel Lebowitz. I'm a medical doctor. Over the past two years, I have worked with a Human Rights organization called Freedom From Covert Harassment and Surveillance, or FFCHS. People in this organization state that they are being targeted by an illegal and unethical government program that represents a modern version of COINTELPRO and MK-ULTRA combined. These victims call themselves **targeted individuals, or T.I.'s**.

I have worked with the leadership of FFCHS, and I have worked with the medical committee as well as with the Board of directors. As a result, **I have communicated with hundreds of self-described targeted individuals.**

Additionally, I have worked with two other activist physicians on behalf of targeted individuals: Dr. John Hall and Dr. Terry Robertson. **I have also worked with Dr. Robert Duncan, a scientist turned whistleblower, who states that he has worked on some of the very weapons systems that are used in the remote electronic harassment that many targeted individuals say they experience.**

My presentation today is entitled:

Targeted Individuals: Covert Repression in the 21st Century

OVERVIEW

To understand the Targeted Individual phenomenon, you need to understand several things about it. You need to understand the societal and political and human rights trends which allow it to occur. You need to understand what the program is. You need to understand what the goals and the purpose of the program are. You need to understand who gets targeted. You need to understand where the program came from, in other words, compare it to counterintelligence programs and unethical human experimentation of the past. And you need to understand the implications of the program, and what it means for the future. Finally, we'll take a look about what must be done about it.

STATE OF HUMAN AND CIVIL RIGHTS IN THE US: THE EMERGING POLICE AND SURVEILLANCE STATE

In the United States, in short, we are seeing the emergence of a police and surveillance state. Former **President Jimmy Carter** recently wrote in the *New York Times*, "**The United States is abandoning its role as the global champion of human rights.**" In his article, Carter points out that top US officials are now **openly targeting US citizens for political assassination, "disappearance," unlimited surveillance, and other forms of gross human rights abuse. Are people prepared to call a former U.S. President a conspiracy**

theorist? Or has the U.S. strayed far from its roots as a democracy where rule of law and human rights are uniformly respected?

THE PROGRAM

What is the Targeted Individual program that these people are complaining of? It is many things all at once. It is a discrediting and disruption campaign, similar to COINTELPRO. In some cases (not all) it is a torture/trauma-based brainwashing and mind-control program like MK-Ultra. It is a secret form of repression, persecution and psychological warfare, carried out in the community largely by regular people, along the lines of Stasi or Zersetzen torture. It is a political abuse of psychiatry, as has been carried out in many countries as a way to torture and discredit dissidents. Finally, it is unethical non-consensual human experimentation on unwitting subjects with advanced directed energy and psychotronic weapons systems. **Overall, it represents a coming together of the most vicious and effective tools and weapons for covert harassment and political control of dissidents, activists, whistleblowers, agitators, and other so-called "undesirables" that the world has ever seen.**

What are the goals and purposes of the program? Again, they are many. **But, in a word, the neutralization of the target.** Let's start with understanding the mindset of the state. President Obama's information czar, former Harvard Law professor Cass Sunstein, co-authored a paper in 2008 which advocated that the government should "cognitively infiltrate" and "disable" those who have ideas the government finds threatening, for example, 9/11 truth activists. **Now, at a minimum, this suggests running illegal COINTELPRO-type disruption campaigns against people.** But, more interestingly, let's parse the words carefully: "cognitively infiltrate" and "disable". Cognition refers to the mind, or to thought. Infiltrate means to penetrate with hostile intent. **So, literally, this means to penetrate the minds or thought processes of so-called "troublesome" individuals, with the intent to disable them. Fascinating, in light of what targeted individuals say that they experience.**

So, more specifically, what are the goals of the program?

1. Force the target to stop "unacceptable" activity (whistleblowing, activism, exposing corruption, etc.). Silence the target both about their original activism and about their targeting.
2. Subject target to noise campaigns, swarming, colors, or repetitive behaviors as a form of harassment.
3. Attack any psychological weaknesses. Cause target to blame themselves for their targeting and as such destroy the will to fight back.
4. Create a track record of so-called "mental illness", useful for both discrediting and plausible deniability.
5. Discredit the target.
6. Isolate the target from all forms of support using secret notifications, slander, and covert harassment carried out largely by regular people.
7. Encourage the target to lose hope and lash out in suicidal or homicidal rage secondary to covert harassment, and destruction of the target's life.
8. Set target up for possible institutionalization or arrest.
9. Damage or ruin the career and/or finances. In some cases, break up the family. In

some cases, cause the target to lose their home.

10. After breaking the target's will to fight, in some cases, attempt to change the mindset, politics, ethics of the target. Create a mindset more useful to the state. Evaluate the potential for corruption or even recruitment.
11. **To summarize: the goal is the neutralization of the target. Exactly the goal pursued by the former COINTELPRO.**

THE TARGETS

Ok. So, who gets targeted by this program? There's a lot of overlap with COINTELPRO. COINTELPRO targeted "Perceived threats to the Established Political and Social Order". Which, in practice during COINTELPRO meant primarily those pursuing greater social and economic equality, peace activists, dissidents, so-called "unfriendly" politicians, and even non-conformists. In some cases, it can be proven that counter-intelligence operations have been undertaken against those aware of high-level criminality or wrong-doing. Like everyone else, many targets have weaknesses, foibles, flaws, problems, etc. Some have addictions. Any perceived weaknesses (manufactured, real, or exaggerated) are used viciously to aid in the discrediting of the target. Let's learn from some actual examples of people who became targets for covert operations:

1. **Thomas Drake**, NSA Whistleblower: **Forced out of his job, blacklisted, financially ruined, forced to defend himself against criminal charges, placed under physical and electronic surveillance.**
2. **Jean Seberg**. Actress and civil rights activist. Supporter of the Black Panther Party. Experienced FBI **Surveillance, harassment, stalking, break-ins, intimidation, defamation and discrediting.** Victim of a false FBI story that she was pregnant by a Black Panther Party member, while married to a white husband. The stress of this caused premature delivery of her baby, which died at 2 days of age. The baby was white. Eventually committed suicide.
3. **Arnold Lockshin**. A Cancer researcher and supporter of socialism. **Experienced surveillance, harassment and threats by strangers, break-ins, psychological warfare, implied death threats through the 1970's and 1980's. Eventually sought asylum from Russia and was immediately fired, blacklisted, accused in retrospect of mental instability and deteriorating work performance. Notably, reported that even his children's classmates and his own father had been brought into a Stasi-like campaign against him and his family.** Wrote a book about the ordeal in 1988 called "Silent Terror: One family's history of political persecution in the US." The book was never published or distributed in the US. On the web: ArnoldLockshin.Wordpress.com. By the way, his work performance and mental stability in Russia are apparently just fine.
4. **Adrian Schoolcraft**. Blew the whistle on corruption, wrongful arrests, arrest quotas, and the stop and frisk program within the NYPD in 2009. **Received on the job harassment and was shunted to the NYPD psychologist. Within 3 weeks after reporting corruption he was involuntarily committed to a psychiatric ward, handcuffed to a bed and prevented from using a telephone. He was portrayed as paranoid during his hospital stay, which lasted 6 days. After discharge, he was suspended from the force without pay. Tapes he had made were eventually reported by the New York Times and others and he has been largely vindicated.**
5. **Dr. Lawrence Doerr**. Orthopedic surgeon. As reported in the NY Times, wrote an

open letter to fellow surgeons in 2008 warning about a flawed hip prosthesis. Subsequently **became the target of a whisper-campaign that questioned his skills and competence as a surgeon.**

6. **Russell Roderick**. Insulted a powerful, politically connected firm by refusing continued employment. Unclear if he was aware of high-level wrong-doing. Has been the target of a 25 year, **multi-national campaign (you will find that these programs are multi-national and follow targets wherever they go) including slander, character assassination, allegations of incompetence, paranoia, drug-addiction, sexual deviance, and being "a deranged, suicidal maniac." Has experienced blacklisting, financial devastation, isolation, stalking and overt surveillance, street theather, telephone/computer and mail tampering, Stasi-like manipulation of people into a campaign against him, death threats, intimidation, harassment, and a shut-down of all avenues of support.** He refers to this as Zersetzen torture. On the web: Zersetzen.wikispaces.com.
7. **Greenham Common Women's Peace Protestors**. In the 1980's, were protesting the presence of US cruise missiles at an English air force base. **Came under microwave weapon attack in 1984. Scientists from Electronics Today demonstrated the presence of electromagnetic waves.** Dr. Robert Becker, twice nominated for the Nobel prize, found their symptoms were consistent with exposure to a microwave weapon. Every time a cruise missile convoy was ready to drive by, these women were experiencing severe headaches and unbearable fatigue, etc.
8. **Andy Lewis and friends**. A group of former British soldiers. Became targets of full-on gang stalking in 1996 after attempts to draw attention to what they viewed as an unethical experimental vaccine program that had been given to Gulf War soldiers in 1991. These men have experienced **blacklisting, covert harassment, directed energy and psychotronic weapons attacks, overt and covert surveillance, stalking, secret notifications, etc.** They have made two excellent websites: targeted-individuals.com and gang-stalking.com.
9. **A long list of 9/11 truth activists** have reported being **targeted with electromagnetic weapons and death threats. Some have died under suspicious circumstances. US Army Major Doug Rokke, PhD physics from University of Illinois, former head of the US Army depleted uranium cleanup project after Gulf War I, says these weapons are very real, and commonly used in military circles. He has described how he personally used such weapons on a regular basis while training with Special Forces at US Army facilities: "We had them van-mounted, truck-mounted, plane-mounted, and hand-carried. We would go around zapping each other for fun. This was during exercises, or sometimes just as a practical joke." Rokke further stated that, based on his firsthand knowledge of US military mind-set and capabilities, 9/11 truth activists have undoubtedly been targeted by exotic non-lethal (and lethal) weapons.** Remember again Cass Sunstein, who openly advocated cognitive infiltration and disabling of 9/11 truth activists. Is he talking about psychotronic weapons attacks?
10. **Jill Hansen**. Professional surfer, model and entrepreneur. She received wide acclaim for her performance in a TED speech in 2010 about her spiritual values and altruistic beliefs, Entitled "Open Mind, Open Heart". In the talk she espouses values including compassion, honesty, integrity, generosity, belief in God, charity, hope, faith and love. She concludes by stating that the world would be a more beautiful place if we all thought this way. **Within weeks after this talk, which received a lot of publicity, she found herself the victim of stalking and electronic harassment.** Fast forward

a few years. Unfortunately, In May 2014, she was charged with attempted homicide for allegedly running over a woman intentionally with her car. TI's report that attempting to get them to act out inappropriately with strangers is a common protocol. A couple interesting facts: **1) none of the news stories mention that she considered herself a TI and 2) Interestingly, The local Neighborhood Watch Group's 500 members had been alerted about Hansen—supposedly for reckless driving. A representative of the group was reported as saying, "We need everybody to be on the lookout for her, it's that scary." So here we have someone reporting being a victim of organized stalking, and it turns out that—HELLO—there was a group of at least 500 people deliberately on the lookout for her.**

11. **Ted Gunderson**. Worked for the FBI from 1950 – 1979. Former head of the Los Angeles FBI, where he was in charge of 700 personnel and had a budget of over 22 million dollars. **In 1979 he was one of a handful interviewed for the job of FBI director, which ultimately went to William H. Webster**. He retired and started a private investigation firm. He became a whistleblower and eventually filed an affidavit in support of attorney and targeted individual Keith Labella in his FOIA request from the FBI regarding gang stalking. Gunderson explained: "**It is my professional opinion based on information, knowledge and belief that the information sought by Mr. Labella in this FOIA suit regarding gang stalking...reasonably describes an ongoing, active, covert, nationwide program that is in effect today and...has been in effect since at least the 1980's...[and] has increased in scope, intensity and sophistication by adapting to new communications and surveillance technology.**" As a whistleblower, Gunderson was himself targeted. He experienced whisper campaigns, surveillance, phone tapping, computer hacking, poisonings, group stalking, aerial stalking and more. **Stated that based on his experience, victims are targeted for a variety of reasons including government and corporate whistleblowers, parties to financial and employment disputes, parties to marital disputes (usually divorced women), and even jilted paramours. Journalists covering controversial issues, and, even attorneys and private investigators representing unpopular clients or interests.** Gunderson's affidavit can be viewed on the internet, and in my opinion, is a fascinating read.
12. **William Binney**- An NSA whistleblower. **Has stated he is well-aware of mind control technologies.**
13. There has been a steady increase of **mass shootings** every year since 2000 from 5 per year until now, about 16 per year. Many of them were complaining of electronic harassment and/or organized stalking, stating that this led them to attack. This is being largely ignored and/or covered up by the media. **Does a faction of our government actually want gun violence in the US, perhaps as a pretext to reversing gun rights, or even individual rights in general?** Let's discuss 3 mass shooters.
14. **Jiverly Wong**- Chinese Immigrant. Reported being targeted with covert harassment for 18 years. Reported experiencing: stalking, harassment, chemical attacks, nausea, shortness of breath, job harassment and job loss, spreading of rumors, phantom touching at night while sleeping, home entry and theft of funds from his home, vehicular stalking and harassment, electronic body shocks. Became a mass shooter of 14 people including himself. Blamed his harassers for the killings. **Paranoid? Or victim of a high-tech covert operation that he could not even begin to understand? Let's not forget that some goals of COINTELPRO included trying to get people to commit suicide (e.g. MLK) or trying to get people to commit serious crimes (e.g. Black Panther Party members) in order to discredit and**

destroy them.

15. **Aaron Alexis**- Ex-Navy veteran. Navy yard shooter. Contacted FFCHS stating he was under ELF weapons attack and was being stalked and surveilled, and he believed this was at the hands of the Navy. Interesting things about his case. **1) Although he corresponded with FFCHS, thus identifying himself as a TI, and stating his belief that the Navy was attacking him, the FBI after investigating and speaking with FFCHS Board members, insisted that he was a random shooter with no motive. 2) A heavily armed SWAT team was in the vicinity of the Navy Yard when Alexis started his shooting rampage and was on site within 5 minutes. Inexplicably, they were ordered to stand down and leave the area. The shooting rampage subsequently went on for 45 minutes.**
16. **Myron May**. A promising, young black attorney. Worked first for a well-known law firm and subsequently trying to help disadvantaged children. Cared about people and about God. Reported being recently targeted with directed-energy weapons and law enforcement harassment. Decided to draw attention to the abuse by mailing packages of information to 10 people, shooting people, and "suicide by cop". **He made his goal clear by ending his letter saying, "what targeted individuals need more than anything is media attention." These packages were confiscated by Federal agents.** His suicide note described, "financial, emotional, and psychological pain….a living hell" inflicted upon him as a targeted individual. He stated: "**Our government is able to capitalize on [the] lack of knowledge among the general population to curb sentiments toward questioning the mental health of targeted individuals rather than admitting the truth: that there is a system of covert torture of ordinary innocent citizens that is happening within our borders.**" He believed there was no hope for him and so he stated, "Consequently, I am making a sacrifice so that others in my same position might have a chance at a normal, harassment-free life." **He shot three people. None of them died. I wonder if, even when driven to extremes by secret government torture, whether he was still too moral to bring himself to kill…**

Ok, so we know who it happens to. We know this is the most sophisticated take-down program the world has ever seen. So, where do all these tactics and techniques come from? Well, as I mentioned before, a look at historical programs is highly instructive here.

RELEVANT HISTORY: COINTELPRO, MK-ULTRA, STASI / ZERSETZEN TORTURE

So- COINTELPRO. Known tactics included: Discrediting, smearing, character assassination. Covert campaigns to destroy interpersonal relationships, Harassment, Conspicuous surveillance (also known as stalking), anonymous letters and phone calls, IRS tax audits, legal harassment, Manipulation or strong-arming of parents, employers, landlords, school officials and others to create problems for targets. Threats, intimidation, surreptitious home searches and "black bag" jobs, vandalism, Constant surveillance.

MK-ULTRA features and goals included: Create a subject who is easier to control and manipulate, create programmed assassins, develop more effective means of torture and interrogation, break down the personality of the subject and insert new belief systems, ethics, politics, personality traits; performed on unwitting and unwilling subjects; manipulate mental states and alter brain function; surreptitious drugging; isolation; verbal and sexual abuse; various forms of torture employed; promote illogical thinking and impulsiveness in the subject

so that they will be discredited in public; attempt to produce amnesia for periods of time; surreptitious production of shock or confusion in subject over extended periods of time; attempt to alter the subject's personality to become dependent on the tormentors; attempt to lower the subject's ambition and work efficiency; attempt to impair eyesight and/or hearing; attempt to activate specific behavior by remote means.

Stasi tactics, also known as Zersetzen torture, included such features as: secret persecution, secret methods of control and manipulation, involved even the personal relationships of the target, extensive use of unofficial collaborators--also known as regular people; used the State's influence to turn public and private institutions against the target, psychological attack intended to deprive the target of the ability to mount hostile political action, often causes irreversible damage to the target, attempt to gain influence over the target in in such a way that undesirable attitudes and beliefs would be slowly changed to more preferable traits over time, Attempt to cause fragmentation, paralysis, disorganization and isolation of target, Attempt political and ideological "re-education", used in situations when judicial procedures are not convenient for political reasons, a.k.a. extrajudicial punishment, attempts to frame or entrap targets, slander/character assassination involving some true and some false, but always degrading information, orchestrating a series of social and professional failures in order to damage self-confidence, creation of doubts about future, stimulation of mistrust or paranoia, exploitation of target's personality weaknesses, addictions etc., shaming due to the spreading of rumors to those around the target, overt and covert surveillance, intercepting mail, calls, etc., tampering with property and vehicles, poisoning the food and tampering with medications, entering the residence and leaving traces of evidence in order to threaten or intimidate the target by adding removing or modifying objects.

The items on these lists will sound very familiar to targeted individuals. Nearly all of them apply to the current program. And nearly all of them are reported by Targeted Individuals. I have no reason to not believe them. Now, add in the use of advanced directed energy and neuro-weapons, and you have a very potent takedown program.

THE WEAPONS

Ok so at this point we have a pretty good understanding of the program. But there's one more thing that needs to be understood about this program. The advanced weaponry that is being used.

Evidences/Examples:

1) The Moscow Signal: low-power microwave beams were directed into the US embassy for more than two decades, from 1953 until 1976. Discovered in 1962, US scientists studied the signal until the 1970's before finally telling the diplomats it was there, and offering them hazard pay. Many got sick, some died. Was not exposed to the public until 1976 when unearthed by an investigative reporter. This led to DoD's ARPA Project Pandora

2) From 1965 through to 1970, Defense Advanced Projects Research Agency (DARPA), with up to 70-80% funding provided by the military, set in motion operation **PANDORA** to study the health and psychological effects of low intensity microwaves with regard to the so called "Moscow signal". **This project was quite extensive and included (under US Navy funding) studies demonstrating the ability to: induce heart stoppage, create leaks in**

the blood brain barrier, and production of auditory hallucinations. Nervous system function could easily be degraded with properly pulsed signals. Memoranda of Richard Cesaro, Director, DARPA, confirmed that the program's initial goal was to "discover whether a carefully controlled microwave signal could control the mind." Cesaro urged that further studies be made "for potential weapons applications." This was 1970, and very specific neurological and physiological weapons capabilities of microwaves had already been recognized.

3) **Jose Delgado**—the scientist who stopped the charging bull by remote control. Dr. Jose Delgado's secret work in Project Pandora was directed towards the creation of a "psycho-civilized" society. In his paper "Intracerebral Radio Stimulation and recording in Completely Free Patients", using radio waves, Delgado observed that: "Radio Stimulation on different points in the amygdala and hippocampus in the four patients produced a variety of effects, including **pleasant sensations, elation, deep thoughtful concentration, odd feelings, super relaxation, colored visions (hallucinations), and other responses.**" Speaking in **1966**, Delgado asserted that his research "supported the distasteful **conclusion that motion, emotion and behaviour can be directed by electrical forces and that humans can be controlled like robots by push buttons. Delgado stated that EM weapons were "more dangerous than atomic destruction." "With knowledge of the brain, we may transform, we may shape, direct, roboticize man. I think the great danger of the future is that we will have roboticized human beings who are not aware that they have been roboticized." He created a brain transponder that was IN FACT used to roboticize human subjects.**

4) **Dr Ross Adey**, formerly of the Brain Research Center at the University of Southern California, worked on the CIA's infamous Pandora project. His research involved inducing of specific behavior modifications by electromagnetic means. In his pioneering work, **Dr. Ross Adey determined that emotional states and behavior can be remotely influenced merely by placing a subject in an electromagnetic field. He also demonstrated that EM radiation, properly modulated and pulsed, can induce calcium efflux events to interfere with brain's function---the so-called "confusion weaponry". Again, this is by 1970.**

5) **Lawrence Pinneo**, a neurophysiologist and electronic engineer working for Stanford Research Institute (which is a leading military contractor), "**developed [in 1974] a computer system capable of reading a person's mind. It correlated brain waves on an electroencephalograph (EEG) with specific commands.**

6) **Dr. Eldon Byrd, a Navy medical engineer with a graduate degree from George Washington University,** worked on the Polaris weapon system as an engineer, worked for Naval Surface Weapons Office, **was tasked in 1980- 1981 by the US Marine Corps as Project manager to develop non-lethal electromagnetic weapons for purposes including "riot control", clandestine operations and hostage removal. Worked on ELF, non-linear magnetics**. He worked with Ross Adey, Dr. Elizabeth Roscher, Michael Persinger **on the ability to entrain human brainwaves at a distance. And he said, "We accomplished it." 1980. His project went dark after that. It was taken away from him. He had it confirmed from a senator—Senator Pell—confirmed for him that his project went dark. Byrd was quoted in a lecture around 2001 as saying, "Is Mind Control Possible? Absolutely. There is a mountain of evidence." He went on to say that, "Today we know there are technologies that can induce sound into the brain at a**

distance, can monitor and alter brainwaves at a distance, can alter behavior at a distance, can induce images into the brain at a distance, can target individual organs at a distance. Can disrupt the calcium ions binding on individual cell surfaces at a distance, creating pain and other effects anywhere in the body. Mind control technology exists, without a question." Less than a year later, Dr. Byrd was dead. Maybe it was a coincidence.

7) A 1980 NASA document [*NASA abstract Report Number: AD-A090426*, June 1, **1980]** described that one can **remotely create the perception of noise in the heads of personnel by exposing them to low power, pulsed microwave.... By proper choice of pulse characteristics, intelligible speech may be created.** 1980. Yes, **1980.**

8) For further documentation, I recommend the following webpage: **http://educate-yourself.org/mc/listofmcsymptoms05jun03.shtml**. **This webpage documents that there is truly a mountain of evidence about these terrifying weapons**. Some highlight include the PROVEN capabilities **to induce false memories** in the brain, **Subliminal command implantation into the brain to modify behavior (including suppressing dissidents).**

9) Finally, In July 1996, the Spotlight, a widely circulated right-wing U.S. newspaper, reported that well-placed DoD sources have confirmed a classified Pentagon contract for the development of "high-power electromagnetic generators that interfere with human brain waves."

Dr. Emery Horvath, a professor of physics at Harvard University, has stated in connection to these generators,"**These electronic 'skull-zappers' are designed to invade the mind and short circuit its synapses... in the hands of government technicians, it may be used to disorient entire crowds, or to manipulate individuals into self-destructive acts. It's a terrifying weapon.**"

To quote José Delgado in his book Physical Control of the Mind: Toward A Psychocivilized Society, p. 116:

Individuals whose brain centers are electrically stimulated believe their evoked actions are their own ideas; their conscious mind rationalizes the evoked actions away. People experiencing this electrical stimulation aren't consciously aware of an external influence. **In summary, these weapons have the ability to mentally and physically torture people, and to influence human psychological behavior. With, or even WITHOUT the target's knowledge or awareness.**

SUMMARY OF THE PROGRAM AND ITS IMPLICATIONS

In summary, we have a program which includes the earmarks of past programs including COINTELPRO and MK-Ultra. It also uses collaboration of regular people to carry out much of the harassment, similar to Stasi or Zersetzen torture of the prior East Germany. Furthermore, it uses advanced neuro-weapons to mentally and physically torture victims from a distance--whether in their homes, workplaces, or wherever they may go. The goals of the program are many, but ultimately boil down to torture, control, discrediting, and neutralization--exactly the same goals as the prior COINTELPRO, MK-ULTRA, and Stasi or Zersetzen torture. While some victims may be chosen at random, many cases, upon examination, are shown to be

perpetrated against activists, whistleblowers, and those who have spoken out against corruption. The consequences are severe. Most targets lose their jobs, homes, and/or their families. Many end up on dangerous medications or institutionalized. Some end up committing suicide or homicide.

Of course, the implications for humanity are frightening. Is it possible we are heading toward a synthetic reality, where people's thoughts, conversations, hopes, dreams, illnesses, major life events are controlled by supercomputers and handlers, all without their knowledge? Is our society becoming one in which no-one can be trusted, with everyone spying on everyone else? With a large percentage of the population becoming government informants and spying collaborators?

Are we developing a class of people with "less" rights, who can be harassed at will, even as we all slowly have our rights eroded? If so, doesn't that sound like a totalitarian regime such as Nazi Germany?

WHAT NEEDS TO BE DONE ABOUT THE PROGRAM

Several things. First of all, **targets must speak out. Especially those who have their wits about them. This program is highly disruptive, and is specifically designed to make even the most solid citizen look as if they have become delusional**. Compounding the problem, many targets are either forced to, or willingly take powerful psychiatric medications in hopes of decreasing the severe attacks they are suffering, or to appease skeptical friends and family members. In the case of real mental illness, this should resolve the symptoms. In the case of TI's, it does not stop the torture and harassment and manipulation of their lives.

So, that leads to the next point. **If you know someone who this is happening to—don't count them as crazy. They may be a victim of this program**. Recognize that the issues they were speaking about before they got into their current situation are still just as valid now as they were before. **In fact, it was probably the very legitimacy of their issues that led powerful forces to want to discredit them so thoroughly. Remember that.**

Whistleblowers must come forward who are aware of this program.

Fearless journalists must pursue the story. It was investigative journalists who brought widespread attention to MK-ULTRA, COINTELPRO, and much of the unethical experimentation that has occurred in the USA.
Targets must come together. There is strength in numbers. Targets should never give up the fight.

Finally, Congress MUST thoroughly investigate the intelligence agencies, DOD research programs, and black operations. The targeted individual program is happening. It's not science fiction. It needs to be EXPOSED AND SHUT DOWN FOREVER. Thank you for your attention.

OFFICE OF THE CITY COUNCIL

May 6, 2015

Dear Targeted Individuals,

My first concern is for the safety and wellbeing of all of our residents. As a city official I am requesting that other city officials provide moral support to the Targeted Individual community nationwide. A small group of volunteers, dedicated city residents, and their associates have brought before me troubling information. These individuals have reported the need of support in reducing the stigma placed on them via exposing technology, to alter their minds and covertly deem them mentally ill within society at large.

Three years ago, I met Richmond resident Amy Lee Anderson about this matter. Ms. Anderson informed me she was a survivor of these horrible attacks. According to her description, these government patented technologies and weapons interfere and disrupt the targeted individual's health physically and psychologically by remote transmission. Also, it has been brought to my attention that many survivors have reached out to their city officials peacefully, through numerous avenues of redress and accountability about these types of horrifying abuses, only to experience dismissal, being stonewalled, mocked and ignored, or a level of all out discrimination resulting in these individuals being wrongly labeled as unstable, criminals, or troublemakers.

I am writing this letter in full support, and on behalf of Amy Lee Anderson and other unwitting residents of Richmond, California who believe they are unwilling and unwitting victims. These hostile technologies, as described to me, cause physical, psychological and sexual trauma at times unbearable pain to the body, causing undeserved harm.

In our city, we put forth our best efforts to listen and respect the voices, wisdom, and experiences of our residents. We will not ignore, but support those who suspect they have been exposed to these types of inhumane attacks with the intent to cause them great emotional and bodily harm. I am encouraged by these citizens who have stood up to protect our residents. In response to the Targeted Individuals' concerns, I facilitated a meeting with Captain Gagan from the Richmond Police Department to ensure that reports from the targeted individuals would be accepted and investigated, as any other alleged crime.

440 Civic Center Plaza, P.O. Box 4046, Richmond, CA 94804-1630
Telephone: (510) 620-6861 Fax: (510) 620-6824 www.ci.richmond.ca.us

I would like to encourage other officials at the local, state and national levels to explore methods to extend the listed courtesies below to all residents.

- To reduce and eliminate stigmas or wrongly derived labels of instability against victims of crime.
- Informing others of any abuses or crimes against citizens.
- To listen and encourage participation from all its residents.
- Means to make these abuses visible and recognized as crimes by local, county/parish, state and federal legislators and law enforcement alike.

Best Wishes to all survivors,

Jovanka Beckles
Richmond City Councilmember

United Nations A/HRC/RES/51/3

General Assembly

Human Rights Council
Fifty-first session
12 September–7 October 2022
Agenda item 3
Promotion and protection of all human rights, civil, political, economic, social and cultural rights, including the right to development

Resolution adopted by the Human Rights Council on 6 October 2022

51/3. Neurotechnology and human rights

The Human Rights Council,

Guided by the purposes and principles of the Charter of the United Nations,

Reaffirming the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the International Covenant on Economic, Social and Cultural Rights, the Vienna Declaration and Programme of Action, the Convention on the Rights of the Child and the Convention on the Rights of Persons with Disabilities, and other relevant international and regional human rights instruments,

Recalling all relevant Human Rights Council resolutions, including resolutions 43/13 of 19 June 2020 on mental health and human rights, 47/16 of 13 July 2021 on the promotion, protection and enjoyment of human rights on the Internet, 47/23 of 13 July 2021 on new and emerging digital technologies and human rights, 48/4 of 7 October 2021 on the right to privacy in the digital age, and 50/15 of 8 July 2022 on freedom of opinion and expression,

Recalling also that the obligation and the primary responsibility to promote and protect human rights and fundamental freedoms lie with the State, and that the Guiding Principles on Business and Human Rights: Implementing the United Nations "Protect, Respect and Remedy" Framework sets out that States have a duty to protect, and that business enterprises, including technology companies, have a responsibility to respect human rights,

Bearing in mind that neurotechnology allows the connecting of the human brain directly to digital networks through devices and procedures that may be used, among other things, to access, monitor and manipulate the neural system of the person,

Recognizing that neurotechnology could be promising for human health and innovation, but that, at the same time, the continued development of some of its applications may pose a number of ethical, legal and societal questions that need to be addressed, including in human rights terms,

Mindful that the impact, opportunities and challenges of neurotechnology with regard to the promotion, protection and enjoyment of human rights are not fully understood, and of the need to analyse them further in a coherent, holistic, inclusive and comprehensive manner in order to leverage the full potential of neurotechnology to support human progress and development for all,

Please recycle

Noting that, in his 2021 report entitled "Our Common Agenda", the Secretary-General stated that consideration should be given to updating or clarifying the application of human rights frameworks and standards to address frontier issues and prevent harms in the digital or technology spaces, including in neurotechnology,

1. *Requests* the Human Rights Council Advisory Committee to prepare a study in an accessible format, including an easy-to-read version, on the impact, opportunities and challenges of neurotechnology with regard to the promotion and protection of all human rights, including recommendations on how human rights opportunities, challenges and gaps arising from neurotechnology could be addressed by the Huma Rights Council and its special procedures and subsidiary bodies in a coherent, holistic, inclusive and action-oriented manner, and to present the study to the Council at its fifty-seventh session;

2. *Also requests* the Advisory Committee, when preparing the above-mentioned study, to seek the views and inputs from, and to take into account the relevant work already done by, stakeholders, including Member States, international and regional organizations, the Office of the United Nations High Commissioner for Human Rights, the special procedures of the Human Rights Council, the treaty bodies, other relevant United Nations agencies, funds and programmes within their respective mandates, national human rights institutions, civil society, the private sector, medical and technical communities, academic institutions and other relevant stakeholders;

3. *Invites* the United Nations High Commissioner for Human Rights, the treaty bodies and the special procedures of the Human Rights Council, within their respective mandates, to give due consideration to the impact of neurotechnology on the full enjoyment of all human rights and fundamental freedoms;

4. *Decides* to remain seized of this matter.

40th meeting

(57) **ABSTRACT**

There is disclosed a solid state non-lethal directed energy weapon. The non-lethal weapon may include a solid-state source to generate a high-power millimeter-wave initial wavefront, a main reflector, and a sub-reflector to reflect the initial wavefront to the main reflector. The main reflector may direct the reflected wavefront in a bore-sighted direction toward a target. The wavefront directed by the main reflector may have a power density selected to deliver a non-lethal deterring effect on the target.

[57] **ABSTRACT**

Sound is induced in the head of a person by radiating the head with microwaves in the range of 100 megahertz to 10,000 megahertz that are modulated with a particular waveform. The waveform consists of frequency modulated bursts. Each burst is made up of ten to twenty uniformly spaced pulses grouped tightly together. The burst width is between 500 nanoseconds and 100 microseconds. The pulse width is in the range of 10 nanoseconds to 1 microsecond. The bursts are frequency modulated by the audio input to create the sensation of hearing in the person whose head is irradiated.

AFFIDAVIT

STATE OF TEXAS

COUNTY OF CAMERON

On this 14th day of March, 2014, appeared before me Geral W. Sosbee, an individual known personally to me to be the person who affixed his signature to this document below and who, being by me first duly sworn on his oath, deposed and said:

"My name is Geral W. Sosbee; I am over the age of 18 years. I am fully competent in all manner to make this affidavit. The information contained in this affidavit is within my personal knowledge, and is true and correct to the best of my knowledge. I am referred to below as Affiant.

I hereby incorporate by reference into this affidavit and thereby make a part herein as though fully reproduced herein for all purposes the following documents:

1) My sworn affidavit, dated March 7, 2007, published at http://www.sosbeevfbi.com/affidavit2007.html

2) The contents of my websites (and related links and statements by Affiant therein) located at

a) www.sosbeevfbi.com

b) http://www.newciv.org/nl/newslog.php/_v194/

c) http://sosbeevfbi.ning.com/

This incorporation includes all statements, documents and other corroborating evidence provided, obtained or authorized by Affiant, including all updates by Affiant at the above listed and referenced websites and any other internet site to date.

For the past about twenty-five (25) years, the FBI has engaged in a vendetta or revenge campaign against me for my reporting crimes committed by the FBI during my service as a Special Agent in the FBI and thereafter. For more details see my Writ at http://www.sosbeevfbi.com/sosbeewrit.html and other documents.

The illegal and criminal assaults by the FBI against me include a 24/7 surveillance and assaults by Directed Energy Weaponry, chemicals, psychological operations, and occasional assault and battery by street thugs in the employ of the FBI. Also, the FBI has attempted on some occasions to end my life by causes that may appear to be natural.

The apparent reason for the FBI campaign against me is contained at this site:

http://www.sosbeevfbi.com/thisiswhy.html

On or about April 30, 2013, the FBI and the CJIS (acting on false or unsubstantiated rumor or innuendos and for harassment purposes) caused the following two state and federal government investigators to come to my home in a fraudulent investigation for a crime committed by another person:

Trey Knipfing, Postal Inspector, 14800 Trinity Blvd., Suite 600

Fort Worth TX 76155-2675

(817)359-2765, Fax: (817)359-2708

RMKNIPFING@USPS.GOV

Conrad Rodriguez, Agent, Texas Department of Public Safety, Dallas, Texas

For more on this topic see:http://sosbeevfbi.ning.com/profiles/blogs/police-come-to-my-home-on-fishing-expedition?xg_source=activity

Inspector Knipfing admitted to me during the discussion that someone committed a crime in Dallas, Texas, and planted my name at the scene of the crime. Inspector Knipfing also stated that an employee of the Texas Department of Public Safety is a suspect in the commission of the aforementioned crime and that a possible Public Integrity Investigation against that employee may ensue. During my discussion with Inspector Knipfing, Special Agent Rodriguez abruptly and pointedly attempted an apparent profiling effort against me by asking whether I 'am angry at the FBI' and whether I am online with my reports 'for the benefit of humanity.' Consistent with Agent Rodriguez' adversarial tone, even the local police assist the FBI in fraudulent efforts to arrest me. See false BOLO at: http://www.sosbeevfbi.com/part19c-updatefo.html

I have never been accused of any offense, criminal or civil (that I am aware of) in my life, other than rare routine traffic citations; my medical records show that I have no evidence of any form of communicable disease. I am an attorney in good standing (inactive status) with the Texas State Bar, license number 18855625, and no action has ever been taken against my license to practice law. I am also a member in good standing of the Bar of other courts including The United States Supreme Court.

I estimate the cost of the unlawful FBI program against me over the past 25 years to be less than one million per year, totaling about twenty million dollars to the tax payers.

I hereby further certify and affirm under penalty of perjury of the laws of the United States and the laws of the state of Texas that all statements, including those incorporated by reference and made a part herein for all purposes as though fully reproduced herein are true and correct and that all documents (including those incorporated by reference) are true and correct copies of originals and that they are what they purport to be to the best of my knowledge and ability.

Further, Affiant sayeth Naught."

AFFIDAVIT

STATE OF TEXAS
COUNTY OF CAMERON

On this 7th day of March 2007, appeared before me Geral W. Sosbee, an individual known personally to me to be the person who affixed his signature to this document below and who, being by me first duly sworn on his oath, deposed and said:
"My name is Geral W. Sosbee; I am over the age of 18 years. I am fully competent in all manner to make this affidavit.
The information contained in this affidavit is within my personal knowledge, and is true and correct. I am referred to below as Affiant.

I have documented by direct and incontrovertible evidence and personal testimony the criminal activities of dozens (or perhaps hundreds) of agents, operatives and handlers of the FBI and the CIA of the United States of America, including, but not limited to the following:

A. Obstruction of Justice, Suppression of Evidence, Perjury, Fabrication of Evidence, Criminal Conspiracy, Conspiracy to Violate and the Violation of Civil Rights, Attempted Extortion, Attempted Blackmail, False Arrest, False Imprisonment, Fraud, Burglary, Robbery, Felonious Assault and Battery, Destruction of Personal Property, Petty Theft, Theft of and Tampering with U.S. Mail and a variety of other high crimes and misdemeanors as further described in paragraph "B" below.
B. Abuse of civil process, home and car invasions facilitated by physical and wireless electronic surveillance in home and car and further enhanced by the use of a tracking device implanted in the person of the human experimentee, the Affiant; the surveillance of Affiant is in effect as this affidavit is written and has been in effect twenty four hours a day, seven days a week, three hundred and sixty-five days a year, without cessation and without interruption for well over nine years world wide; all such invasive surveillance is accompanied by various terrorist acts against the Affiant as further described in paragraph "C" below.
C. Repeated assault and battery on the person of the Affiant by street thugs and by the use of high technology authorized by the United States Government under a program known as Non-Consensual Cover Research and Human Experimentation; in this program the FBI and the CIA perform a wide variety of terrorist assaults on the Affiant; one such assault is accomplished by the injection (or placing) into the Affiant various chemicals, bacterial and viral infections; concomitant with the chemical and biological assaults the FBI and the CIA activate against the Affiant advanced Remote Electronic Human Behavior Influence Technology including psychoelectronic and directed energy assaults sometimes coordinated with fraudulently conceived and illegally carried out (with local police authorities world wide) attempted criminal sting operations designed to lead to the imprisonment or death of the Affiant; also in conjunction with such hi-tech experimentations the Affiant is subjected to FBI and CIA psychological operations (including conditioned response and operant conditioning techniques) which are all designed to cause the Affiant to have a nervous breakdown, physical collapse or to otherwise seek final exit from the torturous campaign, the effects of which are often viewed in real time by the FBI/CIA tormentors who actually watch on computer screens the Affiant react to the injurious and painful dirty tricks and provocations described herein; all such treasonous, inhumane and covert operations are carried out with the full support of all government entities at every level of society as

Line-of-Duty Death (LODD)

Calif. cop killer left bizarre suicide note claiming he was hit by 'ultrasonic waves'

The man who killed the Calif. rookie officer left a note on his bed claiming police bombarded him with ultrasonic waves

January 14, 2019 01:31 PM

Associated Press

DAVIS, Calif. — The man who shot and killed a rookie California police officer left a letter on the bed in the home where he lived claiming police bombarded him with ultrasonic waves, officials said.

Police in the college town of Davis near Sacramento on Saturday made public the one-paragraph letter they said was written by Kevin Douglas Limbaugh, 48. He killed himself Thursday after fatally shooting Officer Natalie Corona.

Police spokesman Lt. Paul Doroshov said the paper was found face up on the gunman's bed.

"The Davis Police department has been hitting me with ultra sonic (sic) waves meant to keep dogs from barking," the letter said. "I notified the press, internal affairs, and even the FBI about it. I am highly sensitive to its affect (sic) on my inner ear. I did my best to appease them, but they have continued for years and I can't live this way anymore."

Operation CHAOS

Operation CHAOS or **Operation MHCHAOS** was a Central Intelligence Agency (CIA) domestic espionage project targeting American citizens operating from 1967 to 1974, established by President Lyndon B. Johnson and expanded under President Richard Nixon, whose mission was to uncover possible foreign influence on domestic race, anti-war, and other protest movements. The operation was launched under Director of Central Intelligence (DCI) Richard Helms by chief of counter-intelligence James Jesus Angleton, and headed by Richard Ober.[1][2] The "MH" designation is to signify the program had a global area of operations.[3]

Background

The CIA was charged with the collection, correlation, and evaluation of intelligence. While the Act does not specify a prohibition on collecting domestic intelligence, or a restriction to only collect foreign intelligence, Executive Order 12333 of 1981 added prohibitions to limit CIA activities. The CIA began domestic recruiting operations in 1959 in the process of finding Cuban exiles who could be used in the campaign against Cuba and President Fidel Castro. As these operations expanded, the CIA formed a Domestic Operations Division in 1964. In 1965, President Lyndon Johnson requested that the CIA begin its own investigation into domestic dissent—independent of the FBI's ongoing COINTELPRO, which conducted similar activities.[4]

The CIA developed numerous operations targeting American dissidents in the US. Many of these programs operated under the CIA's Office of Security, including:[2]

- HTLINGUAL – Directed at letters passing between the United States and the then Soviet Union; the program involved the examination of correspondence to and from individuals or organizations placed on a watchlist.
- Project 2 – Directed at infiltration of foreign intelligence targets by agents posing as dissident sympathizers and which, like CHAOS, had placed agents within domestic radical organizations for the purposes of training and establishment of dissident credentials.
- Project MERRIMAC – Designed to infiltrate domestic antiwar and radical organizations thought to pose a threat to security of CIA property and personnel.
- Project RESISTANCE – Worked with college administrators, campus security and local police to identify anti-war activists and political dissidents without any infiltration taking place.

Scale of operations

When Nixon came to office in 1969, existing domestic surveillance activities were consolidated into Operation CHAOS.[5] Operation CHAOS first used CIA stations abroad to report on antiwar activities of American citizens travelling abroad, employing methods such as physical surveillance and electronic eavesdropping, utilising "liaison services" in maintaining such surveillance. The operations

were later expanded to include 60 officers.[3] In 1969, following the expansion, the operation began developing its own network of informants for the purposes of infiltrating various foreign anti-war groups located in foreign countries that might have ties to domestic groups.[2]

Eventually, CIA officers expanded the program to include other leftist or counter-cultural groups with no discernible connection to Vietnam, such as groups operating within the women's liberation movement.[1] The domestic spying of Operation CHAOS also targeted the Israeli embassy, and domestic Jewish groups such as the B'nai B'rith. In order to gather intelligence on the embassy and B'nai B'rith, the CIA purchased a garbage collection company to collect documents that were to be destroyed.[6]

Targets of Operation CHAOS within the anti-war movement included:[5]

- Students for a Democratic Society
- Black Panther Party
- Young Lords
- Women Strike for Peace
- *Ramparts* magazine[7]

At its finality, Operation CHAOS contained files on 7,200 Americans, and a computer index totaling 300,000 civilians and approximately 1,000 groups.[8]

Findings

The aim of the programs was to compile reports on "illegal and subversive" contacts between United States civilian protesters and "foreign elements" which "might range from casual contacts based merely on mutual interest to closely controlled channels for party directives."[8]

DCI Richard Helms informed President Johnson on November 15, 1967, that the CIA had uncovered "no evidence of any contact between the most prominent peace movement leaders and foreign embassies in the U.S. or abroad." Helms repeated this assessment in 1969.[1] In total, 6 reports were compiled for the White House and 34 for cabinet level officials.[2]

Richard Helms

Exposure

The secret program was exposed by investigative journalist Seymour Hersh in a 1974 article in *The New York Times* entitled *Huge CIA Operation Reported in US Against Antiwar Forces, Other Dissidents in Nixon Years*.[1][9] Amid the uproar of the Watergate break-in involving two former CIA officers, Operation CHAOS had been closed in 1973.[4] Further details were revealed in 1975 during Representative Bella Abzug's House Subcommittee on Government Information and individual Rights.[3] The government, in response to the revelations, felt pressured

enough to launch the Commission on CIA Activities Within the United States (The Rockefeller Commission), led by then Vice President Nelson Rockefeller, to investigate the depth of the surveillance.[1] Richard Cheney, then Deputy White House Chief of Staff, is noted as having stated the Rockefeller Commission was to avoid "congressional efforts to further encroach on the executive branch."[1]

Following the revelations by the Rockefeller Commission, then-DCI George H. W. Bush admitted that "the operation in practice resulted in some improper accumulation of material on legitimate domestic activities."[3]

Former United States Marine Corps Criminal Investigator, Secret Service and FBI Intelligence contractor, recognized expert with assets in the field of Technical Surveillance and Counter Measures (TSCM), William ("Bill") J. Taylor, private investigator is advocating for secretly forced brain implanted, Targeted Individual, James Walbert, featured in Part 1 and Part II of this series. In an exclusive Examiner 2-part interview this week with Taylor, he revealed the darkest of all the evil 'war on terror" corners, the Phoenix Program come home to roost and resulting civilian casualties in the domestic terror campaign, Targeted Individuals. (See: *What are the frequently asked questions and answers about Targeted Individuals?*)

Within this Part III of the series, Taylor comments on how "the greatest" American civilians, in their homes and communities, are being remotely neutralized with military grade weaponry under guise of the "war on terror." (Also see: Dupre, D. *Obama targeted individual assassination program includes Americans*, Examiner, April 8, 2010) Taylor touches on the Nazi influence of this program now implemented in the U.S. through the related Nazi-CIA non-consensual human experimentation in the U.S.

Bill Taylor

Chief Investigator of the Karen Silkwood Targeted Individual case (see Youtube below), the Iran Contra and 3-Mile Island investigations, and before that, the Marine investigator who exposed and helped end the infamous Phoenix Program in Vietnam, among other major investigations he has led and leads, Bill Taylor's cases have been depicted in books such as *Who Killed Karen Silkwood?*, *The Phoenix Program* and *The Great American Mail Fraud Trial.*

Among a wide range of investigatory, advisory and security consulting services, Taylor's agency, The William J, Taylor Agency that operates out of a few location in th U.S., also investigates Targeted Individuals' reports. These reports seem to the causal observer influenced by TV that has blacked-out this program, too bizarre to be real. In these cases, however, Taylor uncovers sophisticated surveillance equipment and other remote energy weapons assaulting the targets, defenseless against such technology.

"These are the finest of Americans. Most of the greatest people are being hurt the most," were among Taylor's first words during the interview with him.

Targeted Individuals are subjected to the shocking program used to spy, harass and torture the implanted victim through remote electroshock, burning of skin near postulated implant sites, radio broadcast voices into the skull involving insults and influences for self-destruction for up to twenty-four hours a day plus sexual harassment while the victim is at home, at work or elsewhere.

For fifty years, Taylor has been on the front lines of America's secret under-belly where Nazi human experimentation, torture and energy weapons are applied to American targets to control and kill them through slow-kill or fast-kill means. For the past thirty years as a human rights defender, Taylor has had the professional background and technology to prove remotely applied technological cruel and unusual punishment used in the program to silence whistleblowers, other dissenters and others, mainly ordinary citizens but also some very high-profile persons.

"I started working for the Secret Service and FBI when I was 16 in Cape Canaveral," Taylor said. "My neighbor was an undercover FBI agent, and they needed a young person to go into bars to get served alcohol so they could shut those bars down.

"In those days, so many Nazi scientists worked out of Cape Canaveral," he said, referring to Operation Paperclip. "People thought of that area as having many rocket scientists but they had no idea how much human experimenting was going on there. That's where plenty of the Nazis settled and worked."

Operation Paperclip was the Office of Strategic Services (OSS) program used to recruit Nazi Germany scientists for employment by the U.S. after World War II (1939–45). It was executed by the Joint Intelligence Objectives

Agency (JIOA) by circumventing President Truman's anti-Nazi order, and the Allied Potsdam and Yalta agreements. JIOA created false employment and political biographies for the scientists. (Wikipedia)

Stated in Dupre's article, *Censored Gulf news: State-sponsored terrorism targets Deep South for Agenda 21 (Pt II)* is:

"According to Glen Yeadon and John Hawkins, co-authors of
The Nazi Hydra in America: Suppressed History of a Century relatively few Nazi doctors and scientists responsible for German eugenic crimes were held accountable during Nuremberg Trials; only some found guilty. The U.S. government brought some 12,000 of those key Nazis to the U.S. in Operation Paperclip. They quickly merged with US intelligence to form the Central Intelligence Agency, the CIA that covertly steers the same and worse crimes against Americans and others."

Although only in his teens, Taylor sat next to Nazis in meetings. He sat at the table over dinner with Nazi scientists who spoke of performing experiments on Americans.

"We'd meet at the Mouse Trap Restaurant in Cape Canaveral. There was a lot of talk about their human experiments."

Taylor, now 67 years old said, "I remember them talking about giving LSD to people without them knowing to document the effects.

"One or two of them had been up in Maryland experimenting on inmates. They discussed how much better it was to use non-voluntary subjects and watch how they reacted. When a person knows they're in an experiment, they have more control over what's happening then if they didn't know.

"They've been looking for a way to put chemicals in water systems to control people for decades. Every country tries to find a way to incapacitate armies. They'd already tested LSD in Marine County's water system back in the 50' – 60's. As I recall, that was part of the CIA's Operation Chaos.

Operation Chaos aimed to squelch the student antiwar movement. *(See: Final Report of the Select Committee to Study Governmental Operations with respect to Intelligence Activities: United States Senate – CIA Intelligence Collection about Americans)*

"When I was a kid, they'd just touched on microwave energy. Ten years later, people had microwave ovens in their homes."

At age 17, in height of the "Cuban Crisis," Taylor joined the Marines, soon to be a Marine Corps criminal investigator.

"Like everyone else, I was wanting to be a good patriot and help save the world."

For the next nine years, Taylor would witness the cruel and inhumane standard operative procedures conducted by the U.S. military and intelligence agencies, including in Vietnam.

Even as a child, Taylor's inquiring mind "made people angry," like the time he asked why a certain saint was not in the Bible. That inquiring mind and sense of morality later clashed with military intelligence duty, such as when his superiors ordered him to arrest innocent men so the world would think the perpetrators were caught as media portrayed.

"When someone would say to me, 'This is getting too political. Go arrest this guy to take the heat off the operation,' I said, 'I can't do that.'"

Seeing experimenting on inmates in Lexington was too much for Taylor.

"I saw inmates being experimented on and wanted to get out. I saw all kinds of things. A guy driven crazy with the experiments had scratched up his whole body, scratched up his whole face that was bleeding. And then they put him in a straight jacket and they were still experimenting on him."

"I said, 'You can't do that,' but they were experimenting on him when I left.

Taylor soon resigned from the Marine Corp.

"I left because I felt I could more as a civilian," he stated.

"Men are always told it's for the good of the nation and if we have to spare a few to save many, it's justified. I know we are all created equal, so every life is important."

Out of Marine Intelligence, Taylor worked for an attorney's firm but that inquiring mind and morality drew him to establishing his own PI business to investigate crime,

Targeted Individuals

"Some very high-profile people are being targeted with remote weapons," Taylor said, adding, "I've told some of them that they should come forward and talk to help a lot of other people."

"If you knew some of the people who are targets that I've proven their cases – you'd be surprised. They usually end up with a settlement and agreement to halt the surveillance and injuries.

"One guy, I can't tell you his name, but you know who he is – everyone knows who he is – came to me and said, 'I think satellites are following me.'"

When Taylor's prompt matter of fact response was, "Ok," the man asked, "Don't you think I'm crazy?"

Taylor said "No. Let's check it out."

"As it turned out, in his case, it wasn't a satellite. We found he was being tracked and monitored from an airplane platform. They'd spent a million dollars to build a system to track his every move. He was that important to them."

"Many of them know if they come out and talk about targeting, they could lose credibility and bring huge financial deals down. People wouldn't trust them anymore."

How many bogus "Targeted individuals" have gone to Taylor?

"Very few," he said. "Over all the years I've been taking these cases, only a handful were bogus. I can tell pretty quickly and let them go fast."

Asked how many Targeted Individuals' cases has Taylor taken, after a pause, he said, "Oh, through all these years in private practice, I'd say between 300 to 400.

"I have to turn people being targeted away every day. I just can't take them all. There are too many. People just have no idea how many people are getting this."

At one point, to try to better accommodate all the victims trying to survive this crime against Targeted Individuals, Taylor opened a Hotmail help line but found it too time consuming.

"There were so many legitimate cases, I couldn't answer all the emails. I was spending all my time trying to answer the emails. My server quit working because the inbox was too full from people asking for help. I had to quit that.

"The saddest part of all this is that there are so many people being targeted who have no idea that's what's happening to them."

In terms of mind control, the techniques can be subtle or obvious according to Taylor, but the effect is the same, behavior control.

"What if you were reading a book and someone kept coming up behind you and tapping you on the head. Every time you start to read and concentrate, they come up and start tapping you on your head. You wouldn't be able to concentrate.

"That's one way this works remotely and how it is controlling people's minds."

According to Taylor, "One of the worst things is people being targeted so they get sexually aroused. They begin to think they really are a sexual deviant."

Taylor stated that one of the most tragic parts of the program is "watching its subjects self-destruct."

To be continued. In Part IV, the reader will learn how and why American doctors, health staff and others are secretly and easily implanting children and adults.

NEW GAMES, SAME AIMS: CIA ORGANIZATIONAL CHANGES

GUILLERMO JIMENEZ: Welcome to De-Manufacturing Consent. I am your host, Guillermo Jimenez. Our guest today is Douglas Valentine. How are you today? VALENTINE: I'm well. Thanks for having me on the show. JIMENEZ: The Phoenix Program has recently been republished by Open Road Media as part of their Forbidden Bookshelves series. Would you mind sharing with us how your book was chosen for the series? What do you make of this new-found interest in Phoenix; what the CIA was up to in Vietnam; and what the CIA is up to generally? VALENTINE: When the book came out in 1990, it got a terrible review in The New York Times. Morley Safer, who'd been a reporter in Vietnam, wrote the review. Safer and the Times killed the book because in it I said Phoenix never would have succeeded if the reporters in Vietnam hadn't covered for the CIA. Several senior CIA officers said the same thing, that "So and so was always in my office. He'd bring a bottle of scotch and I'd tell him what was going on." The celebrity reporters knew what was going on, but they didn't report about it in exchange for having access. I said that in the book specifically about The New York Times. So I not only got the CIA angry at me, I also got the Vietnam press corps angry at me too. Between those two things, the book did not get off to an auspicious start. The Times gave Safer half a page to write his review, which was bizarre. The usual response is just to ignore a book like The Phoenix Program. But The New York Times Book Review serves a larger function; it teaches the media elite and "intelligentsia" what to think and how to say it. So Safer said my book was incoherent, because it unraveled the bureaucratic networks that conceal the contradictions between policy and operational reality. It exposed Colby as a liar. Safer was upset that I didn't portray his friend and patron, Bill Colby, as a symbol of the elite, as a modern day Odysseus. Luckily, with the Internet revolution, people aren't bound by The Times and network news anymore. They can listen to Russia Today and get another side of the story. So Mark Crispin Miller and Philip Rappaport at Open Road chose The Phoenix Program to be the first book they published. And it's been reborn. Thanks to the advent of the e-book, we've reached an audience of concerned and knowledgeable people in a way that wasn't possible 25 years ago. It's also because of these Internet developments that John Brennan, the director of CIA, thought of reorganizing the CIA. All these things are connected. It's a vastly different world than it was in 1947 when the CIA was created. The nature of the American empire has changed, and what the empire needs from the CIA has changed. The CIA is allocated about $30 billion a year, so the organizational changes are massive undertakings. If you want to understand the CIA, you have to understand how it's organized. JIMENEZ: Exactly, and that's what I want to talk to you about next. But first I'd like to touch upon the CIA's infiltration of the US media. I find it curious, because the way that you describe it, it's not so much a deliberate attempt to censor the media. There's a lot of self-censorship as a result of that already existing relationship. Is that how you see this? VALENTINE: Yes. The media organizes itself the way the CIA does. The CIA has case officers running around the world, engaged in murder and mayhem, and the media has reporters covering them. The reporter and the case officer both have bosses, and the higher you get in each organization, the closer the bosses become. The ideological guidelines get more restrictive the higher up you go. To join the CIA, you have to pass a psychological assessment test. They're not going to hire anybody who is sympathetic towards poor people. These are ruthless people who serve capitalist bosses. They're very rightwing, and the media's job is to protect them. Editors only hire reporters who are ideologically pure, just like you can't get into the CIA if you're a Communist or think the CIA should obey the law. It's the same thing in the media. You can't get a job at CNN if you sympathize with the Palestinians or report how Israel has been stealing their land for 67 years. The minute you say something that is an anathema

or upsets the Israelis, you're out. The people who enforce these ideological restraints are the editors and the publishers. For example, while covering the merciless Israeli bombardment of civilians in Gaza in 2014, Diana Magnay was harassed and threatened by a group of bloodthirsty Israelis who were cheering the slaughter. Disgusted, Magnay later referred to them as "scum" in a tweet. She was forced to apologize, transferred to Moscow, and banished forever from Israel.**1** In a similar case, NBC correspondent Ayman Mohyeldin was playing soccer with four young boys in Gaza when Israel shelled the playing field. Mohyeldin witnessed their murders, which he reported in a series of tweets. Without ever providing a reason, NBC pulled Mohyeldin from Gaza and prevented him from ever returning. NBC replaced Mohyeldin with Israeli sympathizer Richard Engel. Any dictator would be happy with the way American media is organized. The minute you step out of the box, they fire you or send you off to Siberia. It's a homogenous system. Not just the media and CIA, but politicians too. As the 2016 primaries proved, you can't be a candidate for either party unless you pass the ideological test. You must be a freewheeling capitalist. You must support Israel with billions of tax payer dollars. You must give the military whatever weapons it wants. That's the nature of the American state. These things naturally work together because that is the way it has been structured for 240 years. JIMENEZ: We've seen pseudo alternatives emerge in the Internet posing as adversarial or anti-establishment when they're anything but. We've seen this growing trend, and it's something to be mindful of as we look for these sources on the Internet. VALENTINE: The Internet is a free for all, so you have to approach it the way any enlightened person approaches every part of America, which is buyer beware. Capitalism is not designed to protect poor people or make sure people lead healthy, fulfilling lives. It's designed to make sure the super-rich can steal from the poor. There's only so much wealth and the rich want it. The rich want to monopolize information too. Is a particular piece of information on the Internet coming from a reliable source? Who knows? Just because some of it is true doesn't mean that all of it is true. To be able to discern whether the information is accurate or complete, you must be grounded in the reality that the capitalist system and all its facets are organized to oppress you, keep you in the dark and off balance as much as possible. It's a game of wits and you've got to be smart about it. Buyer beware. JIMENEZ: Exactly. Now I'd like to talk about the recent organizational changes in the CIA. It stems from an article in The Washington Post by Greg Miller. The headline is "CIA Director John Brennan Considering Sweeping Organizational Changes." What the article is saying is that Brennan wants to restructure the CIA using the model of their Counterterrorism Center; merging different units and divisions, combining analysts with operatives into hybrid teams that will focus on specific regions of the world. This sounds to me like the organizational changes that were born out of Phoenix and that were exported to other parts of the world over the years. The CIA appears to be applying the same structure to all of its operations. Is that how you read this? VALENTINE: Yes, and it's something that, from my perspective, was predictable, which is why The Phoenix Program was re-released now, because what I predicted 25 years ago has happened. And you can only predict if you know the history. The CIA initially, and for decades, had four directorates under an executive management staff: Administration, Intelligence, Operations, and Science and Technology. Executive management had staff for congressional liaison, legal issues, security, public relations, inspections, etc. Administration is just that: staff for finance, personnel, and support services like interrogators, translators and construction companies. Science and Technology is self-explanatory too, but with a typical CIA twist – science for the CIA means better ways to kill and control people, like the MKULTRA program. And now there's a fifth directorate, Digital, that keystrokes and hacks foreign governments and corporations. The Operations people overthrew foreign governments the old fashioned way, through sabotage and subversion. The Operations Directorate is now the

National Clandestine Service. The Intelligence Directorate, which is now called Analysis, studied political, economic and social trends around the world so that executive management could mount better operations to control them. The Operations Directorate was divided into several branches. The Counterintelligence (CI) branch detected foreign spies. Foreign Intelligence (FI) staff "liaison" officers worked with secret policemen and other officials in foreign nations. They collected "positive intelligence" by eavesdropping or by recruiting agents. The Covert Action branch engaged in deniable political action. The Special Operations Division (now the Special Activities Division) supplied paramilitary officers. There was also a Political and Psychological branch that specialized in all forms of propaganda. These branches and directorates were career paths for operations officers (operators) assigned to geographical divisions. An FI staff officer might spend his or her entire career in the Far East Asia Division. The managers could move people around, but those things, generally speaking, were in place when the CIA began. The events that led to the formation of the current Counterterrorism Center began in 1967, when US security services began to suspect that the Cubans and the Soviets were infiltrating the anti-war movement. Lyndon Johnson wanted to know the details, so his attorney general, Ramsay Clark, formed the Interdepartmental Intelligence Unit (IDIU) within the Department of Justice. The IDIU's job was to coordinate the elements of the CIA, FBI and military that were investigating dissenters. The White House wanted to control and provide political direction to these investigations. The Phoenix program was created simultaneously in 1967 and did the same thing in Vietnam; it brought together 25 agencies and aimed them at civilians in the insurgency. It's political warfare. It's secret. It's against the rules of war. It violated the Geneva Conventions. It's what Homeland Security does in the US: bringing agencies together and focusing them on civilians who look like terrorists. The goal of this kind of bureaucratic centralization is to improve intelligence collection and analysis so reaction forces can leap into the breach more quickly and effectively. In 1967, the CIA already had computer experts who were traveling around by jet. The world was getting smaller and the CIA, which had all the cutting edge technology, was way out in front. It hired Ivy Leaguers like Nelson Brickham to make the machine run smoothly. Brickham, as I've explained elsewhere, was the Foreign Intelligence staff officer who organized the Phoenix program based on principles Rensis Likert articulated in his book New Patterns of Management. Brickham believed he could use reporting formats as a tool to shape the behavior of CIA officers in the field. In particular, he hoped to correct "the grave problem of distortion and cover-up which a reporting system must address." Likert organized industries to be adaptable, and the CIA organized itself the same way. It was always reorganizing itself to adapt to new threats. And in 1967, while Brickham was forming Phoenix to neutralize the leaders of the insurgency in South Vietnam, James Angleton and the CIA's Counteriintelligence staff were creating the MHCHAOS program in Langley, Virginia, to spy on members of the anti-war movement, and turn as many of them as possible into double agents. Chaos was the codename for the Special Operations Group within Angleton's Counterintelligence staff. The CIA's current Counterterrorism Center, which was established in 1986, is a direct descendent of Chaos. Starting in 1967, White House political cadres, through the IDIU in the Justice Department, coordinated the CIA's Chaos program, the FBI's COINTELPRO Program, and the military's domestic spying programs. When Nixon took office in January 1969, he immediately grasped the partisan political potential of the IDIU and these various domestic spying programs. The Nixon White House expanded Chaos and assigned its chief, Richard Ober, a deputy and a case officer. The Chaos staff occupied a vault in the basement at CIA headquarters in Virginia. It had a room where files were kept and where slides of suspects and potential recruits were viewed. A group of female secretaries managed the super-secret files. Chaos was super-secret because it was illegal for the CIA to engage in domestic

operations. Assignment to it was considered a "command performance." There was a communications system exclusively for Chaos cables and couriers to CIA stations overseas. The Chaos "back-channel" could by-pass the division chiefs and station chiefs and work directly with its unilateral assets in a country. Chaos "traffic" had the highest security classification, was restricted to only those officers involved in the operation, and was inaccessible to everyone but the CIA's top administrators. In October 1969, based on names provided by the FBI, the Chaos case officer began recruiting double agents from the Black Power and anti-war movements. I never learned his name, but the case officer only approached people with "radical" credentials. Radicals who passed polygraph and psychological assessment tests were recruited, trained in the clandestine arts, supplied with gadgetry and cash, given a cover, and sent overseas. The case officer called his 40-50 double agents "dangles" because their job was to act like normal radicals and hope that a gullible KGB agent would make an approach. Chaos dangles also spied and reported on their American colleagues. That's the illegal domestic part. A folder was created for each dissident. The folder contained the dissident's 201 "personality" file from the FBI, and included everything from arrest records to report cards to surreptitious photos taken of the person with other radicals. Some 7,000 -10,000 hard files were eventually assembled. In 1970 the Chaos squad started entering its information on radicals onto IBM cards and compiling it in a data base codenamed HYDRA that ultimately contained the names of some 300,000 people. HYDRA was developed domestically at the same time as the Phoenix information system (PHMIS) in Vietnam, by the same people. Chaos included a mail intercept program codenamed HTLINGUAL. I'm sure the anthrax scare after 9/11 was a CIA provocation designed to justify a mail intercept program similar to HTLINGUAL. All of these things I'm talking about are happening today on a much grander scale within the Muslim American community. In 1971, the IDIU's Intelligence Evaluation Committee was managed by Robert Mardian, the Nixon Administration's assistant attorney general in charge of Internal Security. The Chaos squad was helping the Pentagon track army deserters, as well as foreign nationals who were trying to coax soldiers to desert from US military bases in Germany. Chaos dangles were sent to North Vietnam and Cuba, and one agent, possibly Timothy Leary, was launched against Eldridge Cleaver in Algeria. Another Chaos agent played a critical though undisclosed role at the May 1971 anti-war demonstrations in Washington. Even Nixon's National Security Advisor, Henry Kissinger, monitored Chaos operations in regard to his secret peace negotiations with the North Vietnamese. By 1972, the Chaos squad was working with Nixon's infamous Plumbers. One Chaos agent may have been involved in the botched Watergate burglary that brought Nixon down. The mastermind of the burglary, Gordon Liddy, sat on Mardian's Intelligence Evaluation Committee and leveled requirements on CIA officer Richard Ober at Chaos. Liddy and his partner in crime, CIA officer E. Howard Hunt, are known to have directed Ober to spy on members of other government agencies. They also targeted Nixon's political enemies, including people like Daniel Ellsberg who could in no way be considered terrorists. Which gives you an idea of the prominence of political cadres in these operations, and how they used their power to conduct all manner of dirty tricks. Incredible power was concentrated in the Chaos office. Ober worked with the National Commission on Civil Disorders, the protean Law Enforcement Assistance Administration, and the Special Services units (Red Squads) of America's major metropolitan police departments. The CIA has always recruited cops as contractors to organize and advise foreign police forces, and local police forces certainly helped the CIA amass its Chaos files. As head of the Counterintelligence staff, James Angleton was the CIA's official contact with all federal law enforcement agencies, including the Bureau of Narcotics. Chaos exemplifies how the White House, through the CIA's network of law enforcement contacts, could use the Homeland Security apparatus as a cover to conduct all manner of illegal

domestic operations. It shows how the CIA could use participating Homeland Security agencies for its own insidious institutional purposes, and that individuals like Hunt and Liddy could exploit it for partisan political purposes. Hunt and Liddy's many misadventures resulted in the Watergate scandal, which cast a bright light on CIA's shenanigans and eventually led to the exposure of the Chaos squad. William Colby was the CIA's Executive Director at the time. Colby had returned to the United States in 1971 to testify to Congress about Phoenix, and had stayed on to take charge of the CIA's organizational affairs. After the arrest of the Watergate burglars, Colby worked with the Justice Department to have the IDIU abolished, and he made sure the Chaos "case officer" was reassigned but not disciplined. After he became Director of Central Intelligence in September 1973, Colby personally minimized the damage by leaking some of the gory Chaos details to Seymour Hersh. Colby also sacrificed his bitter rival James Angleton, who as chief of Counterintelligence was held responsible for Chaos and the mail intercept program. Colby's "limited hangout" and scapegoating of Angleton were part of a shell game, however, and the Chaos squad continued to track radicals and respond to FBI and military requirements. Everything was the same as before, including the ultra-secure communications system and restricted filing system, except that now, and from then on, it was done under the aegis of counterterrorism. Colby started the ball rolling in July 1972 when he made Ober chief of the CIA's International Terrorism Group (ITG). Ober's new job was to set up and manage a "central program" on international terrorism and airplane hijackings. Building on the Chaos files, the ITG started penetrating terrorist training camps in Algeria and Libya. It kept track of black militants with international connections, and its reports, like Chaos reports, were sent to Kissinger at the National Security Council. Ober's appointment as chief of ITG coincided with the establishment of Nixon's Cabinet Committee to Combat Terrorism, the first US Government entity of its kind. After the official termination of Chaos in March 1974, the ITG continued to occupy the same space in the CIA's basement. A new ITG chief was assigned and was assisted by the same female secretaries who kept updating the Chaos files and computer tapes. As of 1975, no Chaos files had been destroyed, because the CIA could not adequately define a "dissident." In 1977, veteran CIA officer Howard Bane became the third ITG chief. The notion of state-sponsored terrorism had emerged and was attributed to Libya and Iraq, both of which were said to have Soviet backing. As a result, Jimmy Carter's DCI, Stansfield Turner, directed Bane to organize the CIA against this new threat. According to Bane, counterterrorism was a "hot potato" but a "low priority" because of ongoing Congressional investigations into CIA abuses. Bane said Turner was "hung up" on the legal definition of terror. Turner insisted that CIA officers refer to counterinsurgency as "low intensity warfare," and in his effort to polish the CIA's image, Turner renamed the ITG the Office of Terrorism. Again, it was a shell game. Bane moved into the Chaos/ITG space in Langley's basement. He described it as a windowless room as large as the ground floor of a house, divided into cubicles. "There were ten or twelve little old ladies running around in tennis shoes," he said. Operations were compartmentalized and there was a "vault mentality." Little was happening. The acting chief was the former ITG operations officer and his job was following US citizens overseas. An avid proponent of covert action, Bane had served as chief of the CIA's North Africa Division and in other top operational posts. He was nearing retirement and approached his new assignment with the fervor of a man seeking to enshrine his legacy. He summoned everyone to a staff meeting and said, "Let's advertise ourselves to divisions." He set up a reference system to service each of the CIA's divisions, and each "little old lady" became an expert on a specific geographical area. Bane started meeting with his counterparts at State, Treasury, the FBI, the Pentagon, the White House and the NSA. As the Office of Terrorism began to serve a visible function, he moved the office to a fourth floor suite with windows. He was given an operations officer and recruited young men

to replace the older women as his liaison officers to the divisions. He began working with Jim Glerum, the chief of the CIA's Special Operations Division,**2** paramilitary operational forces at his command. to beef up the Meanwhile, the US Army had created Delta Force to respond to the well publicized terrorist incidents that occurred in the 1970s. Delta and later the Navy's SEAL Team Six served as the CIA's vanguard in the nascent War on Terror. Within the context of "low intensity warfare", the Office of Terrorism and its paramilitary units adopted a new lexicon in which "anti-terrorism" was the term for broad policy, and "counterterrorism" applied to specific, immediate actions. Bane got a bigger budget and high tech gadgets like silenced weapons and bugging equipment for use in hostage rescue operations. He acquired a fleet of black choppers and formed a Crisis Management Training Program team, composed of a psychiatrist and a few case officers, which advised US and foreign law enforcement officers on how to negotiate with terrorists. Bane set up a two-man intelligence unit at Delta headquarters at Fort Bragg, at which point Delta became a "customer" of CIA intelligence. Bane's Office of Terrorism sent daily reports profiling known terrorists and their activities to the Defense Intelligence Agency and the FBI. Very quietly his unit began to coordinate actual counterterror operations. "Say someone in Frankfurt had access to the Red Army," Bane explained. "Then Delta would send a team." Bane's Office of Terrorism handled each incident on a case-by-case basis, depending on whether it was defined as "international terrorism" (meaning the terrorists crossed borders or had foreign support) or "domestic terrorism" if terrorists were operating within their own country. If the incident related to domestic terrorism, the Office of Terrorism could not get involved, unless authorized through a presidential executive order called a "finding." The need for a finding was a stumbling block. Bane cited the time Colombia's M19 terror group took 20 foreign diplomats, including the US ambassador, hostage at a party at the Dominican Embassy. Thinking the transnational nature of the incident qualified it as "international terror," Bane, with the approval of the State Department's terrorism unit, launched a Delta operation in conjunction with the CIA's new SOD chief, Rudy Enders. Bane provided intelligence on the terrorists, while Enders provided Delta with the equipment it needed to stage a rescue operation. Meanwhile the Crisis Management Team assembled in Florida and prepared to jump into Colombia. But the operation came to a screeching halt when the CIA's Assistant Deputy Director of Operations, John Stein, revealed the operation to Turner's Deputy Director of Operations, John McMahon. As Bane recalled, McMahon asked him, "Are you trying to send us all to jail?" McMahon put the operation on hold and Bane was forced to call his officers back to Langley where they waited while "the lawyers" met with Carter's National Security Council staff. Only after the lawyers gave their approval did Carter issue the required "finding." In another instance, Bane was not allowed to mount an operation to rescue Italy's Prime Minister Aldo Moro. According to Bane, his superiors determined that Moro's captors were Italian nationals and thus were deemed to be operating domestically. Let me stress that all this was happening within the context of the Cold War. The Office of Terrorism was a feature of the broader "low intensity warfare" strategy designed to thwart Soviet "aggression" in Third World countries like El Salvador. Not until 4 November 1979, and the takeover of the American Embassy in Tehran, did the context start to change. This seminal event marked the emergence of Islamic "fundamentalists" as America's new bête noire. (And it allowed Ronald Reagan to crush Jimmy Carter in the 1980 presidential election.) In the wake of the Embassy takeover, Carter ordered Bane and the CIA's Office of Terrorism to work with Delta Force to rescue the 53 hostages. Bane told me the plan was based on a covert action plan to obtain "current intelligence" on the status of the hostages, including Tom Ahern, the CIA's station chief in Tehran.**3** Bane needed this information to know where to direct what he called "the black and gray propaganda necessary to disguise the CIA's actual intentions." There was also a need to

quickly train Delta Force to operate in the Iranian desert. The needed intelligence was obtained, but the government's first major counterterror operation, the Desert One rescue mission, failed to get off the ground. Several aircraft malfunctioned and one crashed on 25 April 1980, killing eight soldiers. As with the Benghazi tragedy, Republican politicians jumped for joy at the chance to criticize Democrats; the hostage crisis dragged on for six months and enabled Reagan to characterize Jimmy Carter as weak, which means instant death for any American politician. There was other collateral damage as well. Reagan's flamboyant Director of Central Intelligence, William Casey, fired Bane and replaced him with William Buckley, a veteran CIA officer who had served several tours in Vietnam. From 1969-1971, under his patron Ted Shackley, Buckley had directed the CIA's national counterterror program in Vietnam. In April 1981, Casey and Buckley traveled together to Saudi Arabia to pave the way for the construction of an underground network of secret military bases that would be available to US forces. If the remarks attributed to Osama bin Laden are true, the presence of those bases under Saudi soil was one of the reasons he staged the 1998 Embassy bombings and the 9/11 terror attacks. The War onTerror took its next Great Leap Forward in October 1981 with the assassination of Egyptian President Sadat by his personal bodyguards, whom Buckley had trained. The assassination nullified the Camp David Accords and freed Israel to target PLO bases in Lebanon. In May 1982, Israeli assets in the fascist Christian Phalange militia organized one of the greatest acts of terror of all time – the massacre of hundreds of Palestinians in the Sabra and Shatila refugee camps. In August 1982 Buckley returned to CIA headquarters to coordinate anti terrorism policy through the Domestic Terrorism Group. Meanwhile, Casey appointed veteran CIA officer David Whipple as the CIA's National Intelligence Officer (NIO) for counterterrorism. A veteran operations officer with extensive service in the Far East, Whipple had been serving as CIA station chief in Switzerland. Whipple told me that Casey's executive staff consisted of 16 NIOs; eight handled geographical divisions, while the other eight handled issues like narcotics, nuclear weapons, and in Whipple's case, terrorism. Under Casey's direction, every government agency established a counterterror office as part of a secret apparatus. Whipple as NIO coordinated the CT offices and assisted the CIA's division chiefs, making sure their station chiefs were properly handling counterterror issues in their area of operations. Whipple ran the Office of Domestic Terrorism (ODT) from 1982 until 1986. His staff included an operations chief, intelligence analysts, photo interpreters, and case officers.4 Because it had the authority to access any division's files and co-opt its penetration agents, the ODT was resisted by the divisions – especially the Near East Division, which was on the front lines of the War on Terror. As you can see, the evolution of "offices" and later "centers" that transcended and coordinated the CIA's divisions was well underway by 1982. Throughout this early stage of its evolution, the CIA's terrorism office retained the legal authority to conduct unilateral domestic operations for a specific period of time before being required to notify and involve the FBI. (The guidelines are more honored in the breach than the observance, I'm sure.) The ODT also maintained the super-secret communications system instituted during Chaos that by-passed the CIA's normal chains of command. As part of this back-channel "counterterror network", Casey recruited Oliver North, a doe-eyed Marine lieutenant colonel assigned to the National Security Council (NSC). Whipple served as North's case officer in the monumental political misadventures North embarked upon. Cut from the same fascist cloth as his ideological forefathers Hunt and Liddy, North formed a crisis management center along with REX 84, "a plan to suspend the Constitution in the event of a national crisis such as nuclear war, violent and widespread internal dissent, or national opposition to a U.S. military invasion abroad."**5** North's plan called for "the round-up and internment of large numbers of both domestic dissidents (some 26,000) and aliens (3,000 – 4,000), in camps such as the one in Oakdale,

Louisiana."**6** Certain trusted members of Congress were witting (despite that august body's periodic protestations that the CIA operates as a "rogue elephant") and Senator Daniel Inouye cut off all debate about North's plan to suspend the Constitution when the subject was raised during the televised Iran-Contra Hearings in 1987. In April 1984, North created the Terrorist Incident Working Group (TIWG) specifically to rescue several American hostages held in Lebanon, including the aforementioned William Buckley, who had been kidnapped the month before. North became TIWG's chairman and in October 1985 managed its first successful operation – the capture of the hijackers of the Achille Lauro. A few months earlier, after the June 1985 hijacking of TWA Flight 847 while it was flying from Athens to Beirut, George H. W. Bush had created the Vice President's Task Force on Combating Terrorism. As the NSC's liaison to the Task Force, "North drafted a secret annex for its report which institutionalized and expanded his counterterrorist powers, making himself the NSC coordinator of all counterterrorist actions."**7** North continued to acquire greater and greater powers, and on 20 January 1986, National Security Decision Directive 207 made him "chief coordinator" of Casey's secret counterterror network through the Office to Combat Terrorism (OCT). Working through the NSC's Operations Sub-Group, North coordinated the back-channel CT network with Major General Richard Secord's "off-the shelf" Enterprise in a series of illegal operations. Among them were Israel's facilitation of arms sales to Iran; American civilians supplying arms to the Contras; and Contra drug smuggling into America. North also planned for the repression of domestic dissent and criticism. As P. D. Scott has noted, "the Office to Combat Terrorism became the means whereby North could coordinate the propaganda activities of Carl "Spitz" Channel and Richard Miller (and) the closing of potential embarrassing investigations by other government agencies."**8** The evolution climaxed in 1986 with the creation of the CounterTerror Center under Duane Clarridge. Yet another right wing ideologue, Clarridge had been chief of the CIA's station in Turkey in the late 1960s and early 1970s, when the fascist Grey Wolves went on a terror rampage, bombing and killing thousands of public officials, journalists, students, lawyers, labor organizers, social democrats, left-wing activists and Kurds. Since then, Turkey's military has been one of America's strongest allies, despite the recent coup attempt staged by the America-based, CIA-connected exile, Fethullah Gülen. A body-builder and scion of the old boy clique that runs the CIA, Clarridge was chief of Latin America Division from 1981 until 1984, when Nicaraguan harbors were mined and the CIA's "murder manual" was distributed to the Contras. Clarridge helped Secord's off-the-shelf Enterprise move PLO weapons captured by Israeli forces during their bloody invasion of Lebanon, through ManuelNoriega in Panama, to the Contras. That's the kind of stuff the CT Center still does today; moving weapons from chaotic places like Benghazi in Libya, to deniable terrorist surrogates in Syria. As chief of the Europe Division, Clarridge had also provided the back channel in Lisbon that Secord's Enterprise used to sell HAWK and TOW missiles to the Iranians, in exchange for the release of American hostages. According to Scott, "The intrigues of North, Secord, Clarridge and (Robert) Oakley (at the State Department) at this point showed a concern for politics rather than security."**9** When I interviewed him, Clarridge described the CT Center, which has coordinated CIA back-channel activities since 1986, as a central unit with members from the directorates operating under a committee at the National Security Council. With input from the division chiefs, the CT Center "divines" (as he put it) anti-terrorism policy and then "constructs entities" that conduct operations. It is not a function of US Special Forces, as often portrayed in the media, but of CIA "action teams" trained to capture suspected terrorists and bring them to the United States to stand trial. During his tenure as CT Center chief from 1986 to 1988, Clarridge worked directly with George H. W. Bush. He was lucky in that regard; Clarridge was indicted on seven counts of lying to Congress, but his case never went to trial, thanks to a last minute pardon Bush

issued on 24 December 1992. When called to task about his crimes, North blamed the peaceniks who lost the Vietnam War. If liberal politicians hadn't investigated the CIA, he argued, then fascists like him wouldn't have had to resort to dirty tricks. North's hatred of the peace movement was palpable. North believed that "the most pressing problem is not in the Third World, but here at home in the struggle for the minds of the people."**10** North was out of control; when Jack Terrell told the Justice Department that North was involved in Contra drug smuggling, North labeled Terrell a terrorist and sicced the FBI on him. But neither North nor any of the other Iran-Contra criminals were ever punished, because, as Michael McClintock noted at the time, "the very notion of counterterror as terrorism was forbidden, while circumlocution was the norm."**11** That's how the CIA's CT Center evolved from the Chaos domestic spying mechanism into the nerve center of the CIA's clandestine staff. Same thing happened with the CIA's Counter-Narcotics Center at the same time. Both are modeled on Phoenix, and both are wonderful tools for White House cadres to exercise political control over the bureaucracies they coordinate. These "centers" are the perfect means for policing and expanding the empire; they make it easier than ever for the CIA to track people and events in every corner of the world. The need for the old-fashioned directorates is fading away. You don't need an entire directorate to understand the political, social and economic movements around the world anymore, because the United States is controlling them all. The US has color revolutions going everywhere. It's got the World Bank and the IMF strangling countries with debt, like the banks are strangling college students and home owners here. The War on Terror is the best thing that ever happened to US capitalists and their secret police force, the CIA. Terrorism is the pretext that allows the CIA to coordinate and transcend every government agency and civic institution, including the media, to the extent that we don't even see its wars anymore. Its control is so pervasive, so ubiquitous; the CIA has actually become the Phoenix. JIMENEZ: Right. VALENTINE: It's the eye of god in the sky; it's able to determine what's going to happen next because it's controlling all of these political, social and economic movements. It pits the Sunnis against the Shiites. It doesn't need slow and outdated directorates. These Phoenix centers enable it to determine events instantaneously anywhere. There are now Counterterror Intelligence Centers all over the world. In Phoenix they were called Intelligence Operations Coordinating Centers. So it's basically exactly the same thing. It's been evolving that way and everybody on the inside was gearing themselves for this glorious moment for 30 years. They even have a new staff position called Targeting Officers. You can Google this. JIMENEZ: Right, right, exactly. VALENTINE: The centers represent the unification of military, intelligence and media operations under political control. White House political appointees oversee them, but the determinant force is the CIA careerists who slither into private industry when their careers are over. They form the consulting firms that direct the corporations that drive the empire. Through their informal "old boy" network, the CIA guys and gals keep America at war so they can make a million dollars when their civil service career is over. JIMENEZ: The Washington Post and subsequent articles frame it as if these changes are drastic. But to hear you, it's a natural progression. So what does this announcement mean? Is the CIA putting out their own press release through the Washington Post just to give everyone the heads up? VALENTINE: Well, everybody in the CIA was worried that if the directorates were reorganized, it would negatively affect their careers. But executive management usually does what its political bosses tell them to do, and Brennan reorganized in 2015. He created a fifth directorate, the Directorate for Digital Innovation (DDI) ostensibly as the CIA's "mantelpiece". But, as the Washington Times reported, "it is the formation of the new 'mission' centers – including ones for counterintelligence, weapons and counter-proliferation, and counterterrorism– that is most likely to shake up the agency's personnel around the world."**12** The CIA's "ten new Mission Centers" are

designed to "serve as locations to integrate capabilities and bring the full range of CIA's operational, analytic, support, technical and digital skillsets to bear against the nation's most pressing national security problems."**13** This modernization means the CIA is better able to control people politically, starting with its own officers, then everyone else. That's the ultimate goal. Politicians, speaking in a unified voice, create the illusion of a crime-fighting CIA and an America with a responsibility to protect benighted foreigners from themselves. But they can't tell you what the CIA does, because it's all illegal. Well, it's all a lie. In order for the politicians to hold office, they have to cover for the CIA. Their concern is how to explain the reorganization and exploit it. They squabble among themselves and cut the best deals possible. JIMENEZ: That makes complete sense. Talking about all the illegal activity the CIA is involved in, I couldn't help but think of the drug running. I'd like to point out to our listeners the article you wrote, which offers everything they ought to know as far as the history of the CIA in drugs. It's entitled, "The CIA and Drugs: A Covert History" (Counterpunch, 7 November 2014). Meanwhile, I'd like to hear your opinion on the influence of counterterrorism and counterinsurgency tactics in local law enforcement. Local police departments are adopting many of the same tactics. We're seeing the US government use counterterrorism and counterinsurgency tactics against its own people. Perhaps one of the most vivid examples is what happened in Ferguson, Missouri. Is that too a natural progression of Phoenix? VALENTINE: Absolutely. The very last paragraph in my book The Phoenix Program says you'll know the Phoenix has arrived when you start seeing police forces advancing on protestors in paramilitary formations, and driving around in armored vehicles. That's what the CIA does in foreign nations; it militarizes police forces so it can control that country's political, economic and social movements. The CIA's influence is pervasive here, too; it advises all the major police departments in the US. The Phoenix model of coordinating agencies happens under the "cognizance" of the CIA, because the premier threat is a terrorist infiltrating the US with nukes. It goes back to Chaos thinking: maybe ISIS is recruiting black radicals in Ferguson. If so, we need paramilitary police forces and administrative detention laws to neutralize them. The Missouri governor can say a protester in Ferguson is violating national security laws and hold him indefinitely. The media loves it. FOX News said the Black Lives protesters were holding "us" (meaning white people) hostage. If it's a hostage situation, they're terrorists. Tucker Carlson said (I paraphrase), "You can talk about race all you want. It's a hostage situation and race doesn't matter." So the racists in government and law enforcement are elated. Now they can send in provocateurs (maybe an Afghanistan veteran like Dallas shooter Micah Johnson, who got wiped out by a robot carrying a Claymore mine) and start riots and crush the protestors because they're terrorists. And that's how, over the last 40 years, dissent has come to equal terrorism. It's how the one percent wants us to see non-violent protest. They want the public to believe that anybody who resists law enforcement is a terrorist. All the pieces have been put in place, through the corporate media, to make the lies seem true. These Counterterror Intelligence Centers are already operating in the United States through the Department of Homeland Security's fusion centers, which do the same thing. JIMENEZ: Exactly. VALENTINE: The American empire consists of hundreds of military bases and a CIA station in every country. It's Pepsi being sold in Vietnam. "We are the world." It's not just 50 states and a few protectorates. It's crazy for average Americans to think their fate is not directly connected to the fate of every other person in the world, or that the one percent considers them higher-class peasants than the other worker bees elsewhere around the world. There are diminishing resources and other strategic problems that the CIA is forecasting 20 years into the future. It's planning stratospheric aerosol injections to cure climate change. The reorganization of the CIA is another incremental step in anticipation of America reaching that tipping point. Gated communities are the future; the centers

replicate them. JIMENEZ: Indeed. Something you said just now really struck me. And that's the way that Americans separate themselves from the Other. It reminds me of these arguments we hear in the media regarding the use of militarized police. It's okay in Afghanistan, but not in Ferguson. The use of Predator drones to kill somebody in Yemen is okey, but not in Montana. It's murder either way, but most of the American public doesn't see it that way. We can discuss this, but unless the American people do something to change this, then we run the risk of these things just becoming normal and accepted. For example, the CIA's drug running now we see in feature films, in Hollywood productions. VALENTINE: They think, "Well, that's what the CIA does, everybody knows it." If you watch a pro football game, you know the US military owns the NFL. There's F-14s flying over the stadiums. Every spectator has to stand and salute and plant a big wet kiss on the military's fat bloated butt. In my opinion, what it will take is for the men and women in the military to realize they're part of a self-defeating enterprise. Before you can change the CIA, you have to change some other things. You have to shrink the military establishment and end the war on drugs, which can be done. When given the chance in state referendums, people are voting for medical marijuana and adult recreational use. When given a chance to vote, people express common sense. Marijuana is not going to make you go out and massacre school kids or abortion providers. That happens because we live in a country that glorifies the god of violence and his sacred warriors. Demilitarizing American society is a start, like decriminalizing marijuana is a first step in ending the war on drugs. It's easier than challenging an arcane thing like the CIA that's covered with grey and black propaganda. It's hard for people to understand how huge bureaucratic systems work together. They get frustrated and vote to leave the European Union, or they cling to Trump or Clinton, thinking things will change. Maybe next year all the students will default on their loans and bring the system down. Maybe they'll say to hell with the bankers for mortgaging my future. We're taking it back. If something like that can happen, if that kind of consciousness can spread among young people being held in economic bondage and groomed to administer the empire, then there's hope. If they see they have nothing to lose, they'll come together and start making a fuss. JIMENEZ: That would be something to behold. VALENTINE: You have to use your imagination

HOMELAND SECURITY: THE PHOENIX COMES HOME TO ROOST

The Bureaucratic Method in Their Madness

By Douglas Valentine

Acronyms

CORDS: Civil Operations and Revolutionary Development Support: organization established in May 1967 under MACV, designed to coordinate U.S. military and civilian operations and advisory programs in South Vietnam

MACV: Military Assistance Command Vietnam

PRU: Provincial Reconnaissance Units: mercenary forces under the control of the CIA in South Vietnam

PIC: Province Interrogation Center

GVN: Government of Vietnam

VCI: Vietcong Infrastructure

High level bureaucrats like Dick Cheney and Donald Rumsfeld understand that political, economic and military power is harnessed through complex organizational structures. Their staffs are packed with people like Phoenix program creator Nelson Brickham, who know exactly how to do it. After 9/11, the Ultras began implementing their long-range plans to consolidate power. Bush signed the Homeland Security Act on 25 November 2002, creating the Department of Homeland Security (DHS) to coordinate the anti-terror elements of dozens of federal agencies. The Act created the policy making Homeland Security Council with four standing members: the president as chairman, along with the vice president, secretary of defense and attorney general. The Homeland Security Council is the National Security Council applied domestically. The Homeland Security Council can be understood as grander version of the Phoenix Committee in Vietnam, which consisted of the Deputy for CORDS (William Colby) as chairman, plus the CIA's station chief, MACV's assistant chiefs of staff for intelligence and operations, and the CIA chief of Revolutionary Development. The homeland security apparatus further evolved in May 2003 when, as part of the White House coordinating mechanism, Bush created the Terrorist Threat Integration Center (TTIC) under future DCI John O. Brennan. Based at CIA headquarters, the TTIC was staffed by counterterrorism experts from the CIA, FBI, DOD and DHS. It reported directly to the White House political staff, beyond public and congressional scrutiny. The apparatus congealed in late 2004, when the TTIC was renamed the National Counterterrorism Center (NCTC) and placed under the newly created position of Director of National Intelligence (DNI).**3** Operating like a global Phoenix Directorate with a computerized blacklist of suspects, the NCTC has access to all military and law enforcement databases, foreign as well as domestic, which it skims for High Value targets. High Value targets are captured and incarcerated, and if possible, recruited as penetration agents at home and abroad. Failing that, they are placed on Obama's "kill list" and "neutralized" by the all-seeing "predator" drone or some CIA/Special Forces hit team packed with psycho killers. Instruments like the NCTC facilitate the merging of foreign and domestic counterterror operations. The NCTC collects, stores, and analyzes data on US citizens from every available surveillance data base as a "pre-crime" pacification effort. The CIA manages

the NCTC Operations Center, and if a suspected threat emerges, it is able to direct every homeland component, the same way it used Phoenix to coordinate every cooperating agency in Vietnam. The network extends from the White House into America's tiniest villages, and includes everyone from Congresspersons and corporate executives, to cops shooting black teenagers or chasing homeless veterans off the streets.

Parallel Mechanisms Within the federal bureaucracy, the Department of Justice (DOJ), CIA and military have their own separate chains of command, jealously guarded "parallel mechanisms" that exist apart from their "coordinated" homeland security functions. With 800 military bases around the world, its own legal system, and a budget that devours the highest percentage of federal taxpayer dollars, the military is the elephant in the room. Apart from a mutiny by the lower ranks, as happened in Vietnam, the military and its arms industry sidekicks will continue to be the driving force behind US aggression abroad and mass surveillance at home. The military's Northcom component is the backbone of the homeland security apparatus, alternately intimidating, assisting, and spying on its civilian counterparts. The National Security Agency (NSA) is the apparat's eyes and ears. Instituted by Bush after 9/11, the NSA's Terrorist Surveillance Program was ruled unconstitutional in 2006, but the lawsuit was dismissed on appeal and a similar program called PRISM now exists in its place. As revealed by whistleblower Edward Snowden, PRISM collects communications from major US internet companies.**4** The DOJ operates its back-channel through the FBI's Joint Terrorism Task Forces (JTTF). Based in over 100 cities and at 56 FBI field offices, these Phoenix-style coordination centers focus on "upper tier" targets that cross state lines. The FBI defines the task forces on its website as "small cells of highly trained, locally based, passionately committed investigators, analysts, linguists, SWAT experts, and other specialists from dozens of U.S. law enforcement and intelligence agencies." The FBI has had "internal security" as its mandate since its inception, and in 1996 it launched its InfraGard program in Cleveland. InfraGard is a "nonprofit" organization serving as a public-private partnership between businesses and the FBI. It's a private sector Phoenix in which business people, college presidents, state and local law enforcement agencies, and other civil guardians funnel tips to the FBI to prevent hostile acts against America's "critical infrastructure". It operates in secret and has over 50,000 members. The ACLU described InfraGard as "a corporate TIPS program" and "surrogate eyes and ears for the FBI."**5** Since 2003, the DHS – under FBI supervision – has shared responsibility for InfraGard assets. It is important to note that the FBI has no jurisdiction over the CIA, which, like the military, exists above and beyond the laws the rest of us must obey. But while the military is an elephant trampling on everyone, the CIA is the serpent in the garden. The CIA's back-channel is its Counterterrorism Center (CTC) network. Formed in 1986, it is a direct descendent of Operation Chaos (as outlined in Chapter 11: New Games, Same Aims). The CTC network operates globally through Phoenix-style Counterterrorist Intelligence Centers, in collaboration with the suborned military, police and intelligence services of infected nations. The unilateral CTC network has its own communications system and is used to bypass the DOJ, State Department and Pentagon, as well as the regular CIA bureaucracy. It has its own paramilitary Special Operations Unit that functions like a global PRU team. The CTC works with the CIA's Crime and Narcotics Center (CNC) to manage strategic aspects of the international arms and drug trade out of drug producing nations like Bolivia and Afghanistan. Supposedly there is a legal firewall between the CIA and domestic law enforcement organizations, just as Posse Comitatus laws once banned the military. The CIA, however, infiltrates officers within the FBI's Joint Terrorism Task Forces, and within the DHS. I've described elsewhere how the CIA infiltrated the DEA. CIA officers are not listed on anyone's organizational charts,

in accordance with their status as the Protected Few; but they're there. For example, four months after 9/11, DCI George Tenet personally arranged with New York City's Muslim-hating Mayor Michael Bloomberg to slip senior CIA officer David Cohen inside the NYPD as its deputy commissioner for intelligence. The New York Times and Daily News dutifully buried the story. As Matt Apuzzo noted, "Nobody questioned the wisdom of taking *someone trained to break the laws of foreign nations and putting him in a department responsible for upholding the rule of law* [my italics]. Nobody even checked out Cohen's hand-prepared résumé, which said he had a master's degree in international relations from Boston University.**6** The misstatement itself was inconsequential. That it went entirely unquestioned was indicative of the lack of media scrutiny Cohen could expect in his new job."**7** An expert on Israeli methods of repressing Palestinians, Cohen launched a private, Bloomberg-approved jihad against Muslims in New York City. As he explained: "In the case of terrorism, to wait for an indication of crime before investigating is to wait far too long."**8**

Concepts and Programs Phoenix is the conceptual model for the DHS. Both are based on the principle that governments can manage societies through implicit and explicit terror. The strategic goal is to widen the gap between the elites and the mass of the citizenry, while expunging anyone who cannot be ideologically assimilated. Phoenix, like the DHS, was an organization that evolved. At the top was the Phoenix Committee. Under the Committee was a Directorate in Saigon, managed by a senior CIA officer with a staff of CIA, military, and State Department personnel. The Directorate coordinated intelligence gathering agencies and anti-terror operations in Vietnam's provinces (equivalent to states in America) and districts (counties). The DHS executive management team operates like the Phoenix Directorate, overseeing a jerry-rigged labyrinth of overlapping offices and directorates most Congresspersons can't unravel. Put another way, central power is held by the senior bureaucrats who run federal agencies. The bureaucrats in Washington are held in check by the states, which, as part of a republic, traditionally resist federal intrusion. As a result, the bureaucrats running the DHS (and their White House and Congressional sponsors) are constantly suborning acquisitive state legislators, governors and business leaders with federal pork. Briefly, the DHS has a deputy undersecretary for intelligence and analysis. This deputy reports to the DHS Secretary and manages the Office of Intelligence and Analysis (I&A), which consists of about 1000 analysts, many from contributing agencies. I&A coordinates intelligence with appropriate officials in state, local, tribal and territorial governments. More importantly, it runs vast agent networks like InfraGard with the private sector through what is called, without irony, the Homeland Security Enterprise. Complementing the Office of Intelligence is an Office of Operations Coordination and Planning which oversees the DHS National Operations Center (NOC). The NOC collects and "fuses" information from the same federal, state, territorial, tribal, local, social media, and private sector agencies as I&A. The DHS intelligence and operations offices work together to issue advisories and bulletins relating to perceived or provoked threats. They also organize specific but classified protective measures you have no right to know about. DHS has an Emergency Operations Center (EOC). The EOC is the culmination of decades of devolution, originally manifested as Civil Defense (famous for building bomb shelters and teaching grade school kids how to duck under their chairs in case the Russians nuked America) and later as the Federal Emergency Management Agency (FEMA). Absorbed within the DHS in 2003, FEMA and its predecessor outfits created "continuity of government" plans for press censorship and internment of suspected radicals in times of national crisis. The EOC's tentacles can be found in gentrified bomb shelters and corporate offices everywhere, secretly ingesting rumors about "security risks" by word of mouth and encrypted emails. The DHS has over

250,000 employees, including detectives it deploys within its own departments, every agency it coordinates, and every branch of the military. These DHS employees have vast discretionary powers, including the authority to open mail coming to US citizens from foreign nations whenever it's deemed necessary – another internal security measure once considered illegal. The DHS has another investigations unit that oversees international operations and intelligence functions. This unit has about 7,000 special agents operating in 200 US cities and 60 countries around the world. It works with the CIA and assigns agents to the FBI's Field Intelligence Groups, through which they jointly run vast informant networks. Several DHS investigation units maintain paramilitary Special Response Teams, which are very likely trained and managed by CIA paramilitary officers. The DHS has its very own counterterrorism unit, and a war crimes unit that assiduously avoids the CIA. When an Italian court indicted a group of CIA officers for kidnaping an innocent man in Milan and sending him to Egypt to be tortured, DHS agents looked away. Like FBI agents, DHS agents have no authority over the CIA, which is free to terrorize anyone, anywhere. Last but not least, the DHS has fusion centers which operate in every state and major city, just like Phoenix intelligence and operations coordinating centers were set up in Vietnam. Every law enforcement entity in a state or city sends a representative to the local fusion center, which tries to anticipate threats through analysis of shared intelligence. State and local police provide space and resources (including snitches) for the majority of the fusion centers. There is even a fusion center in Mexico City. The ACLU compared fusion centers with the corporate TIPS program because of the involvement of private Terrorism Liaison Officers (TLO). A TLO is a citizen trained to detect and report suspicious activities. TLOs function like the People's Intelligence Organization cadres mentioned in Chapter 16, paying close attention to what customers, passers-by and neighbors say, and then reporting "suspicious utterances" (or, when bored or nervous, inventing them) for entry into the proper database.**9** By 2014, California had more than 14,000 TLOs. Some are cops, others are wannabe cops; paramedics, utility workers, railroad employees, etc.**10** TLOs have been used to monitor Occupy Wall Street and Black Lives Matter protests and activists.**11** Fusion center employees occupy themselves by playing video war games and fantasizing about being armor-clad super heroes. When bored, they target political activists and despised minorities. The Missouri fusion center targeted supporters of Ron Paul, prolife activists, and so-called conspiracy theorists. Antiwar activists and Islamic lobby groups were targeted in Texas. A DHS analyst in Wisconsin targeted antiabortion activists; a Pennsylvania DHS contractor spied on environmental activists and a Second Amendment rally; the Maryland state police put anti-death penalty and antiwar activists in the FBI's database; and in 2009, the Virginia fusion center published a terrorism threat assessment identifying historically black colleges as potential hubs for terror related activity. It also identified hacktivism as a form of terrorism. Along with the FBI's task forces, fusion centers serve as cover for domestic CIA operations. This is nothing new, as the CIA has always placed officers inside state police forces and the Special Services (aka "Red Squad") units of police forces in major cities. CIA Chaos-style officers specialize in the recruitment of American citizens who travel abroad, as well as foreign students, diplomats, scientists and businesspeople willing to sell out their countries for an SUV or a pat on the back.

Homeland Security as Implicit Terrorism

Ultimately, the DHS is about protecting the haves from the have-nots, just like Phoenix coordinators were protecting large land owners from VCI revolutionaries fighting for agrarian reform. "It's the problem of supporting personalities rather than democratic institutions," Colonel Stan Fulcher explained

when we spoke in 1987, "The Vietnamese were victims of our corruption. We smothered them with money. It's the same thing you see in Central America today. You can't take a Salvadoran colonel in a patron army without the corruption he brings along." The billions of dollars pouring from your pay checks into the DHS "internal security" boondoggle are smothering America in corruption too. Given the dearth of actual terrorist acts in America, the Homeland Security Enterprise exists primarily to protect critical infrastructure assets in the private sector from disenfranchised citizens seeking justice and accountability from government and corporations. In this capitalist sense, DHS is the key component in the state-sponsored legal criminality Johan Galtung spoke about. "Personal violence is for the amateur in dominance," Galtung said, "structural violence is the tool of the professional. The amateur who wants to dominate uses guns; the professional uses social structure. The legal criminality of the social system and its institutions, of government, and of individuals at the interpersonal level, is tacit violence. Structural violence is a structure of exploitation and social injustice." Indeed, the stated goal of the Homeland Security Enterprise is the protection of critical infrastructure assets in the public and private sectors. Not the protection of people. To that end, the DHS assigns Intelligence Officers and Protective Security Advisors to fusion centers. This operation is run out of the DHS National Protection and Programs Directorate and focuses on physical (concrete blocks around buildings) and cyber security. Given that your chance of being killed by a terrorist is less than dying from a bee sting, this joint business venture has achieved nothing in terms of saving lives. Instead, fusion centers and their DHS managers function as political police enforcing the ultra-conservative, freewheeling capitalist ideology that drives corporate America. In advancing this ideology, DHS managers seek to promote public support for, and indeed, reverence toward, cops, soldiers and the Homeland Security Enterprise. They also generate the attendant apprehension within the general public that persons with contrarian views are suspect. You can count on DHS cadres not to support the Constitutional right of anyone, like pro football player Colin Kaepernick, who refuses to stand during the National Anthem. Like the Phoenix program it was modeled on, the DHS helps coordinate the systematic corruption and repression of grassroots American society on behalf of the rich political elite. Consider this: the Act that created the DHS stripped 180,000 government employees of their union rights – because there "might be" an emergency. On behalf of its private sector patrons, Congress eliminated civil service and labor protections for DHS employees, who can be reassigned or dismissed without notifying their union representatives. Emboldened by Congress, DHS executive management sought the power to override any provision in a union contract, but for some reason the federal courts blocked that attempt at union busting. The key stakeholders in the Enterprise are the owners of the private businesses that comprise the critical infrastructure of the National Security Establishment: anything related to war and law enforcement. Their intellectual partners occupy vastly overpaid management positions in elite law firms, hospitals, universities, nongovernmental organizations, and nonprofit groups looking to advance their careers while eliminating the competition. What CIA officer Lucian Conein said to me about Phoenix applies to Homeland Security: it's a great blackmail scheme for the central government: "If you don't do what I want, you're VC." This is what homeland security has become: a protection racket. At the strategic political level it consists of bankers and corporate lobbyists paying elected officials to create tax loop-holes for the rich, blanket domestic surveillance that compels working people to live in terror of being fired if they make suspicious utterances, and corrupt officials rewarding their arms industry contributors by laundering taxpayer dollars into the war machine. For stakeholders in the National Security Establishment, the Enterprise is the biggest boondoggle ever: and not just for the lavish public spending devoted to their military-defense projects; it is a dream come true for their cadres, too people like Bruce Lawlor and Rob

Simmons (see Chapters 15 and 16) who sold their souls to the CIA's Cult of Death, and also understand the arcane mechanics of internal security. Remember, the CIA believed that the US could win the Vietnam War through military force. But the Communists represented the interests of the people and for this reason, the people sided with them. In response, operators like Lawlor, Simmons and Frank Scotton recruited spies to map out the VCI's organization, and then targeted its "upper tier" leaders for neutralization. In the process of going after the enemy's political leadership, they terrorized the leadership's friends and families and supporters as well – the "lower tier" they sought to pacify through psychological warfare. The same pattern is unfolding in America. Homeland Security cadres, through the DHS and the various parallel mechanisms, are identifying and targeting the National Security Establishment's "political and administrative" opponents in America for neutralization. For upper tier dissidents it means being the target of "compromise and discreditation" campaigns launched by Ultras, often through deniable assets like the Association of Former Intelligence Officers (AFIO) and other Swift Boat-style organizations. Since the creation of the Homeland Security protection racket, over eight trillion taxpayer dollars has been moved from social programs into "internal security" programs that have provided the National Security Establishment with over 250,000 cadres to pacify the flag-waving American public. For the average American this means eternal debt and subservience, as their tax dollars are given to their "protectors". The psychological warfare aspect of the pacification program is handled by network news and Hollywood, which erase historical memory and with it, any moral imperative on the part of average Americans to pretend they don't live in segregated communities; all that matters is dominance over some Other, and anyone can dominate others by becoming a spy for homeland security..... Many are veterans who learned pacification techniques while conducting the house-to-house searches that turned Afghanistan and Iraq into human catastrophes unreported in the US press. They even refer to themselves as "door kickers" ..... Madeleine Albright as US Ambassador to the United Nations acknowledged that US sanctions on Iraq had led to the death of half-a-million children. "We think the price is worth it," she said. The same phenomena occurred in July 2016, when police arrested people for criticizing cops on Facebook and Twitter, after the shooting of Dallas cops..... The message is clear to the friends and families of the targeted and arrested people: you are free, up to the point you actually express your freedoms. The purpose of such psyops is to make you believe the authorities know everything about you and will use that information to destroy you.....The counterterror teams created in Vietnam have been perfected and expanded; military veterans populate DHS and police SWAT teams. Many of these vets can't wait to relive their heroic experiences rousting Muslim families in their homes in Iraq and Afghanistan. The PIC program is the model for the network of black sites, detention centers, prisons and jails America builds in every nation it occupies. At the Guantanamo facility in Cuba, the CIA has perfected torture and now punishes suspects by slowly driving them insane. Same thing here. The DHS operates detention centers for illegal immigrants, but not their employers. Empty detention centers on military reservations await the sort of national crisis the CIA routinely provokes overseas to justify military intervention – at which point thousands of citizen suspects on dozens of blacklists shall be rounded up and interned. Administrative detention is the legal nail upon which the pacification of America hangs. In Vietnam, suspects were carted between interrogation centers, detention centers and jails until they confessed, died or defected. Survivors were sent to a military tribunal or a CIA-advised, Stalinist security committee for disposition; for High Value convicts that meant imprisonment on Con Son Island, ninety miles off the southern tip of South Vietnam. Con Son with its tiger cages was the model for Gitmo. In September 1969, the CIA formed the Central Security Committee (CSC) in Saigon to dispose of citizens arrested under the administrative

detention laws. The Central Security Committee was chaired by the Prime Minister and included the Director of Corrections, the director general of the National Police, and five prison wardens. It reviewed cases of Communist offenders considered for conditional or early release. Unless a substantial bribe was paid, the Committee always recommended further detention. It is noteworthy that the National Assembly tried to abolish the CSC in December 1970 – without success. If you don't think it can happen here, think again. Donald Bordenkircher headed the CORDS prison system in Vietnam and served as chief advisor to the Director of Corrections. Bordenkircher began his career in 1957 as a correctional officer at San Quentin State Prison. By 1967 he was an assistant warden. Recruited that year by the Agency for International Development's Office of Public Safety (a frequent cover for the CIA), he spent five years "improving" conditions in Vietnam's prisons and jails. "We were doing a magnificent job with the prisoners and the rest of the war," he claimed.**14** The problem, he said, was that liberal politicians in Washington "handcuffed" the military. After Bush invaded Iraq, Bordenkircher at age 69 volunteered to help bring that benighted nation under American rule. As with many Vietnam veterans, he was dying to win one. He became a contractor with the Department of Justice and, as National Director of Operations for all prisons in Iraq, got the job of shutting down Abu Ghraib. "I was in charge of a team that went into the prison often," he said. "After reading and looking at everything and talking to a hell of a lot of people, I came to the conclusion there wasn't a lot of brutality caused by American troops at Abu Ghraib." Today, the penal system in America resembles the prison regimes it imposed upon Vietnam, Iraq and Afghanistan. The same jailers with the same Ultra attitudes are in charge here, and they are doing well; like the War on Terror, incarceration is a growth industry. Since Nixon declared war on drugs in 1970, the prison population has grown from several hundred thousand to several million, mostly blacks. According to the ACLU, one in 31 adults is in prison or jail, on parole or probation. With only 5% of the world's population, America has 25% of the world's prison population. Ask yourself, how can we be the land of the free and simultaneously the world's largest jailer with its highest per capita incarceration rate? Private as well as publicly-owned prisons are a cornerstone of the critical infrastructure industry of domestic repression, as well as a boundless source of wealth for investors in the legally criminal Homeland Security apparatus. Seen from this pro-business perspective, administrative detention is the growth industry of the future; along with the plea-bargain boondoogle, it is how the National Security Establishment will keep jails packed with people who aren't guilty of any crime.....and "the populace was encouraged to report the activities of the VCI by dropping a note addressed to the police in local mailboxes." This method was credited with approximately 40% of the information used in Phoenix operations in one province. Psyops in support of Phoenix proved to be such a potent weapon in the attack on the VCI that in August 1970, the Pentagon's Special Assistant for Counterinsurgency and Special Activities described Phoenix as "the number one MACV PSYOPS priority." At the same time, Congressional investigators revealed that the CIA used the Phoenix program as "an instrument of mass political murder" to neutralize politicians and activists who opposed the puppet regime or espoused peace.**15** Five years later, the Church Committee revealed the extent of the FBI's similar attempts to suppress the Communist Party in the United States, which it claimed controlled the antiwar and civil rights movements. The FBI used the same kind of illegal operations Phoenix used in Vietnam: spreading lies and using forged documents to break up marriages and otherwise harass people into submission. FBI agents were able to persuade college administrators to prevent dissidents from giving public addresses. There was no evidence that any of them were Soviet agents fomenting armed rebellion; it was their ideas about a just society the FBI was trying to stamp out, along with the First Amendment..... And with advances in technology and 40 years to learn from mistakes, political

neutralizations are easier than ever. Consider the anthrax letters mailed to Democratic senators after 9/11, now recognized as an inside job.**16** It took only a few "black propaganda" terror operations to silence the political opposition's leadership and its resistance to the Patriot Act. Information management – including official secrecy and false accusations is the key to pacifying the people through implicit terror, while making the internal security apparatus appear legal, moral and popular. This is being done against American citizens through the most ambitious psywar campaign ever waged on planet Earth. Another essential ingredient of psychological warfare is properly indoctrinating and organizing political cadres. As Michael Ledeen, former employee of the Pentagon, the State Department and the National Security Council (and involved in the transfer of arms to Iran during the Iran-Contra affair), stated in the days after 9/11, "New times require new people" with the will power to "stamp out" the "corrupt habits of mind" manifest in the thoughts or actions of anyone who can't be assimilated into the Business Party or opposes its aggression disguised as the War on Terror. The military has a lot of experience training political cadres. Soldiers slated to participate in Phoenix were given the CIA's patented "motivational indoctrination" course at Fort Bragg. They were the first political cadres to infiltrate the American military. In return for adopting the Business Party line and violating the laws of warfare by targeting civilians, a successful career was guaranteed. As noted, several CIA and military Phoenix veterans have held important DHS posts. The first chief of DHS counter narcotic operations, CIA officer Roger Mackin, ran Special Police operations in Da Nang. At Fort Bragg, CIA psywar experts taught Phoenix advisors how to wage political warfare. In the early 1980s CIA officer Duane Clarridge had the training manual translated into Spanish and reprinted for use in the Reagan régime's illegal Contra War. Titled "Psychological Operations in Guerrilla Warfare", it stated that "the human being should be considered the priority objective in a political war. And conceived as the military target of guerrilla war, the human being has his most critical point in his mind. Once his mind has been reached, the 'political animal' has been defeated, without necessarily receiving bullets." DHS cadres pass through the same motivational indoctrination courses before they hit the streets. DHS cadres in turn instruct civilian "critical infrastructure" personnel on how to spy and report on colleagues who serve as "terrorist surrogates" by even inadvertently revealing information on infrastructure vulnerabilities. DHS spies monitor private sector terror suspects until it comes time to expose them in the media as being under investigation. The most intimate details of a person's private life, all of which are known through blanket surveillance, become his or her greatest liability. Extramarital affairs, medical marijuana use, or mental health care are revealed, leading to a target being neutralized. In the absence of vulnerabilities, the CIA's Dark Army of computer hackers can create them. Through highly refined motivational indoctrination methods, complacent Americans are converted into Ledeen's "new people" who idolize the CIA, FBI, NSA and DHS. People who aren't DHS cadres but wish to serve the Ultra cause join "front" organizations like the Citizen Corps, or the Office of Social Innovation and Civic Participation, or Community Emergency Response Teams. The ever popular Neighborhood Watch Program supplies overly-aggressive cops at fusion centers with the false rumors they need to detain activists as terrorist surrogates. The Medical Reserve Corps gives overpaid doctors working in hospital emergency rooms the chance to identify suspects among the masses of poor people falling through the safety net at the bottom of the jerry-rigged health care system. The pressure to join the new legions is irresistible. When Bush announced the DHS on 6 June 2002, he stressed that its primary mission was to "mobilize and focus" the American people "to accomplish the mission of attacking the enemy where he hides and plans." By which he meant having Ledeen's "new people" root out the enemy within, just as the CIA roots out insurgents in the colonies. The most highly motivated cadres are trained "in techniques of

persuasion over control of target groups" as outlined in "Psychological Operations in Guerrilla Warfare". In the next national emergency, these cadres will be mobilized, attend mass meetings, carry placards, shout the proper slogans and, if necessary, grab ropes and form lynch mobs. Theoretically, only five percent of the population needs to be organized in this fashion in order to wield control over the indifferent 90% and defeat the five percent that form the resistance. Waging this type of psywar is the maximum danger posed by the Homeland Security apparatus. Blackmail is the key. Hundreds of businesses and institutions across the country have already been placed on the consolidated Terrorist Watch List. One Bush official said that merely being on the list "could destroy the livelihood of all those organizations ... without a bomb being thrown or a spore of anthrax being released."**17** Blacklists abound: the TIPOFF blacklist; the No-Fly blacklist; the CAPPS II blacklist which uses credit card information and secret databases to assess a person's security risk level; and local blacklists like the one kept by the Denver police department.**18** And the secret ones you don't know about. Initially, the proliferation of blacklists had "the leaders of many federal departments and agencies scrambling to figure out how they could influence [Homeland Security] without appearing disloyal."**19** Writing for USA Today in 2002, James Bamford cited a Knight Ridder report saying that, "A growing number of military officers, intelligence professionals and diplomats privately...charge that the administration squelches dissenting views and that intelligence analysts are under intense pressure to produce reports supporting the White House's argument that Saddam poses such an immediate threat to the United States that preemptive military action is necessary."**20** If a dissident or resistant bureaucrat has no past indiscretions, forged documents are used. One political opponent jailed in Vietnam by President Thieu revealed the existence of "a systematic campaign of vilification by use of forged documents." Forged documents used to justify false arrests or conceal illegal operations often emerged as "captured documents." A legislative aide working for the Senate committee investigating Phoenix in 1970 wryly observed that, "There seems to be captured documents to prove any point or to support, retrospectively, almost any conclusion."**21** If what's past is prologue, in the forthcoming national emergency, the paranoia that currently infects the Muslim American community will spread nationwide until no one is sure who is a spy for the Thought Police. Midnight arrests and disappearances into detention centers will be commonplace, as the definition of a terrorist surrogate expands to include people deemed dangerous to the Public Order. As Ambassador Ellsworth Bunker wrote in 1972 about a secret emergency decree issued by the GVN: "This means that virtually any person arrested can now be held on criminal instead of political charges."**22** No specific charge is required: a DHS spy will accuse his neighbor, the one whose dog poops on his lawn, of disturbing the public order; off the unlucky fellow goes into the local Gitmo. Last but not least, the crime of sedition will be resurrected and expanded to include disseminating information about government corruption and undermining the will of the State by challenging its authority. Calling for civil disobedience will be equated with threatening Homeland Security. Cadres in the Office of Cyberspace Security will expose you as a terrorist surrogate for sending sarcastic or satirical emails blaming Bush and Israel for 9/11. In the absence of actual "utterances", cadres will manufacture them. Don't laugh. Anti-terror legislation passed by Congress allows for secret searches of the homes of people who meet the nebulous criteria of "suspected terrorist." Because these secret searches violate the Fourth Amendment, the government is devising "new tools that ease administrative burdens."**23** Remember, CIA legal experts argued that Article 3 of the Geneva Conventions applies "only to sentencing for crimes, and does not prohibit a state from interning civilians or subjecting them to emergency detention when such measures are necessary for the security or safety of the state." In this way indefinite detention, torture and summary execution, all carried out without

previous judgment pronounced by a regularly constituted court, are perfectly legal in the criminal Homeland Security state, because they result from "administrative procedures." This is Phoenix, and this is what the National Security Establishment has in store for America.

CREATING A CRIME: HOW THE CIA COMMANDEERED THE DRUG ENFORCEMENT ADMINISTRATION

By Douglas Valentine

Acronyms

DEACON: Drug Enforcement Administration Clandestine Operations Network

DESOG: Drug Enforcement Administration Special Operations Group

CENTAC: The Central Tactical Program was established by the Drug Enforcement Administration (DEA) to conduct investigations of major drug organizations?

BUNCIN: The Bureau of Narcotics Covert Intelligence Network

NIO: National Intelligence Officers

IGO: Intelligence Group/Operations

BNDD: Bureau of Narcotics and Dangerous Drugs

FBN: Federal Bureau of Narcotics

.....Washington Post columnist Jack Anderson. Anderson's sensational allegation that the DEA was providing cover for a CIA assassination unit was supported by revelations that the Senate had investigated Conein for shopping around for assassination devices, including exploding ashtrays and telephones. Conein kept his job, but the investigation exposed Muldoon and led to Conein's comrade from the OSS, Mitch Werbell. A deniable asset Conein used for parallel operations, Werbell had sold silenced machine pistols to DEACON 1 target Robert Vesco. Then living in Costa Rica, Vesco was surrounded by drug trafficking Cuban exiles from the Trafficante organization. Trafficante was also, at the time, living in Costa Rica as a guest of President Figueres. Figueres' son had purchased weapons from Werbell and used them to arm a death squad he had formed with DEACON 1 asset Carlos Rumbault, a notorious anti-Castro Cuban narco-terrorist and fugitive drug smuggler. Meanwhile, in February 1974, DEA Agent Anthony Triponi, a former captain in the army Special Forces and a Phoenix program veteran, was admitted to a hospital in New York "suffering from hypertension." DEA inspectors found Triponi in the psychiatric ward, distraught because he had broken his "cover" and now his "special code" would have to be changed. Thinking he was insane, the DEA inspectors called former chief inspector Patrick Fuller in California, just to be sure. As it turned out, Triponi was an active member of Operation Twofold and everything he said was true! The incredulous DEA inspectors called the CIA and were stunned when they were told: "If you release the story, we will destroy you."**16** By 1975, Congress and the Justice Department were investigating the DEA's nefarious relations with the CIA. In the process they stumbled upon Tripodi's Medusa Program, as well as DEA plots to assassinate Moises Torrijos (brother of Panamanian President Omar Torrijos) and Panama's chief of military intelligence, Manuel Noriega. In a draft report, DEA Inspector Richard Salmi described Medusa as follows: "Topics considered as options included psychological terror tactics, substitution of placebos to discredit traffickers, use of incendiaries to destroy conversion laboratories, and disinformation to cause internal warfare between

drug trafficking organizations; other methods under consideration involved blackmail, use of psychopharmacological techniques, bribery and even terminal sanctions."

The Cover-Up

Despite the flurry of investigations, Nixon's successor, Gerald Ford, reconfirmed the CIA's arrangement with DEA. The CIA continued to have its way. Much of its success is attributed to Seymour Bolten, whose staff, perhaps not coincidentally, handled all requests for files from the US Senate Select Committee to Study Governmental Operations with Respect to Intelligence Activities. The Church Committee, as it was known, was investigating the CIA's many and varied illegal activities. But rather than bring about the total destruction of the Agency, the Church Committee concluded that allegations of drug smuggling by CIA assets and proprietaries "lacked substance." The Rockefeller Commission likewise gave the CIA a clean bill of health, falsely stating that Operation Twofold was terminated in 1973. As Ingersoll noted, the Commission completely ignored the existence of the CIA's operational unit hidden within the inspections program. However, as a result of the DEASOG assassination scandals, Ford did task the Justice Department to investigate "allegations of fraud, irregularity, and misconduct" in the DEA. Under US Attorney Michael DeFeo, the ensuing investigation examined allegations that DEA officials had discussed killing Omar Torrijos and Manuel Noriega. In March 1976, Deputy Attorney General Richard Thornburgh announced there were no findings to warrant criminal prosecutions. In 1976, Congresswoman Bella Abzug submitted questions to Ford's CIA director, George H.W. Bush, about the CIA's role in international drug trafficking. Bush's response was to cite a 1954 agreement with the Justice Department that gave the CIA the right to block prosecution and keep its crimes secret in the name of national security. In its final report, the Abzug Committee wryly noted: "It was ironic that the CIA should be given responsibility of narcotic intelligence, particularly since they are supporting the prime movers."**17** Acknowledging the operational realities, Congress in 1976 through the Mansfield Amendment sought to curtail extra-legal activities by prohibiting DEA agents from kidnapping suspects without the consent of the host government. The CIA, of course, was exempt and continued to sabotage DEA cases against its "prime movers" while further tightening its stranglehold on DEA executive management. In 1977, having reached the end of his rope, the DEA's enforcement chief, Daniel Casey, sent a memo co-signed by the enforcement division chiefs to DEA Administrator Peter Bensinger. The memo stated, "All were unanimous in their belief that present CIA programs were likely to cause serious future problems for DEA, both foreign and domestic."**18** Casey and his division chiefs specifically cited CIA "controlled deliveries" into the United States, and the fact that the CIA "will not respond positively to any discovery motion," as the biggest impediments. "Many of the subjects who appear in these CIA-promoted or controlled surveillances," the DEA officials complained, "regularly travel to the United States in furtherance of their trafficking activities." The "de facto immunity" from prosecution the traffickers enjoyed, due to the CIA's "electronic surveillance" of the controlled deliveries, enabled the CIA assets to "operate much more openly and effectively." But Bensinger suffered the CIA at the expense of America's public health and the DEA's integrity. Under Bensinger, the DEA created its CENTAC program to target trafficking organization worldwide. But the CIA subverted CENTAC too: as CENTAC chief Dennis Dayle famously said, "The major targets of my investigations almost invariably turned out to be working for the CIA."**19**

Murder and Mayhem

DEACON 1 inherited BUNCIN's anti-Castro Cuban assets from Brigade 2506, which the CIA had organized to invade Cuba in 1960. Controlled by Nixon's secret political police, these CIA assets, operating under DEA cover, had parallel assignments involving "extremist groups and terrorism, and information of a political nature."**20** DEACON 1's downfall, however, had more mundane origins and began when overt agent Bill Logay charged that covert agent Bob Medell's anti-Castro Cuban assets had penetrated the DEA on behalf of the Trafficante organization. In other words, the CIA was using its narco-terrorists to spy on the DEA, so it could better protect its anti-Castro Cuban narco-terrorist networks. DEACON 1 secretary Cecelia Plicet fanned the flames by claiming that Conein and Medell were using Principal Agent Tabraue to circumvent the DEA, and thus more easily bring drugs into the country. In what amounted to an endless succession of controlled deliveries, all monitored by the CIA, Tabraue financed loads of cocaine and used DEACON 1 assets to smuggle them into the US. Plicet told me that Medell and Conein worked for "the other side" and wanted the DEA to fail. These accusations prompted yet another cover-up, in which Logay was reassigned to the DEA's Inspections staff and Medell was replaced by Gary Mattocks, an NIO member of the Dirty Dozen. According to Mattocks, Western Hemisphere Division Chief Ted Shackley (whom Mattocks had worked for in Vietnam) helped Colby set up DEASOG and brought in "his" people, including Tom Clines, whom Shackley placed in charge of the CIA's Caribbean Operations Group. Clines, like Shackley and Bolten, knew all the exile Cuban narco-terrorists on the DEASOG payroll. CIA officer Vernon Goertz, notably, worked for Clines in Caracas as part of the CIA's parallel mechanism under DEASOG cover. As cover for his DEACON 1 activities, Mattocks set up a front company designed to improve relations between Cuban and American businessmen. Meanwhile, he hired members of the Artime organization, including Watergate burglars Rolando Martinez and Bernard Barker, and Che Guevara's killer, Felix Rodriguez. These anti-Castro narco-terrorists were allegedly part of a hit team that Shackley and Clines employed for private as well as professional purposes a distinction no longer relevant in the 21st century. In late 1974, DEACON 1 finally expired when Robert Simon's daughter was murdered in a drive-by shooting by Mattocks' crazed anti-Castro Cubans. Simon at the time was managing the CIA's drug data base and had linked the exile Cuban narco-traffickers with "a foreign terrorist organization." As Mattocks explained, "It got bad after the Brigaders found out Simon was after them." It was bad, yes, but it was business as usual, and none of the CIA's narco terrorists were arrested for murdering Simon's daughter. Instead, Conein issued a directive prohibiting DEACON 1 assets from reporting on domestic political affairs or terrorist activities. The murder was swept under the carpet for reasons of national security. DEACON 1 unceremoniously ended in 1975 after Fred Dick was assigned to head the DEA's Caribbean Basin Group. In that capacity Dick, who hated Seymour Bolten, visited the DEACON 1 safe house and found, in his words, "a clandestine CIA unit using miscreants from Bay of Pigs, guys who were blowing up planes." Dick hit the ceiling and in August 1975 DEACON I was terminated. No new DEACONs were initiated and the rest quietly ran their course. Undeterred, the CIA redeployed its anti-Castro Cuban miscreants to the terror organization CORU in 1977. Others would go to work for Ollie North in the Reagan regime's Iran-Contra narco-terror network. Conein's IGO was disbanded in 1976 after a grand jury sought DEACON I intelligence regarding several drug busts. But, as noted earlier, CIA-acquired intelligence cannot be used in prosecutions, and the CIA refused to identify its assets in court, with the result that 27 prosecutions were dismissed on national security grounds. Gary Mattocks was thereafter unwelcome at the DEA. But his patron Ted Shackley had become DCI George H. W. Bush's assistant deputy director for operations, at which point Shackley rehired Mattocks into the CIA and assigned him to the CIA's narcotics unit in Peru. At the time, drug kingpin Santiago Ocampo was purchasing cocaine in Peru and his partner Matta Ballesteros was flying it

to the usual Cuban miscreants in Miami. One of the receivers, Francisco Chanes, an erstwhile DEACON asset, owned two seafood companies that allegedly served as fronts in North's Contra supply network, receiving and distributing tons of Contra cocaine. Mattocks soon joined the Contra support operation as Nicaraguan guerrilla leader Eden Pastora's case officer. In that capacity Mattocks was present in 1984 when a CIA case officer handed pilot Barry Seal a camera and told him to take photographs of Sandinista official Federico Vaughn loading bags of cocaine onto Seal's plane. A dual CIA/DEA "special employee," Seal was running drugs for Jorge Ochoa Vasquez and using Nicaragua as a transit point for his deliveries. North asked DEA officials to instruct Seal to steal $1.5 million in cash from Ochoa and deliver the money to the Contras instead. When the DEA officials objected, North leaked a blurry photo to the right-wing Washington Times. Purportedly taken by Seal, the photo showed Vaughn loading cocaine onto the plane. For partisan political purposes, North blew the DEA's biggest case at the time. And the DEA did nothing about it, even though DEA Chief Jack Lawn said in 1988, in testimony before the Subcommittee on Crime of the Committee on the Judiciary, that leaking the photo "severely jeopardized the lives" of agents.**21** The criminal conspiracy climaxed in 1989 when the CIA instructed Gary Mattocks to testify as a defense witness at the trial of DEACON 1's Principal Agent Gabriel Tabraue. Although Tabraue had earned $75 million from drug trafficking while working as a CIA/DEA asset, the judge declared a mistrial based on Mattocks' testimony. Tabraue was released without a scratch. Some people inferred that President George H.W. Bush had personally ordered Mattocks to torpedo the case. Other examples of the CIA's use of narco-terrorists abound. In 1981, for example, DEA Agent Dick Salmi recruited Roberto Cabrillo, a drug smuggling member of CORU, another organization of crazed Cuban exiles formed by Frank Castro and Luis Posada while George Bush was Director of Central Intelligence. The DEA had arrested Frank Castro in 1981, but the CIA engineered his release and hired him to establish a Contra training camp in the Florida Everglades. Castro's colleague, Luis Posada, reportedly managed drug shipments for the Contras in cahoots with Felix Rodriguez. Charged in Venezuela with blowing up a Cuban airliner and killing 73 people in 1976, Posada was shielded from extradition by President George W. Bush in the mid 2000s. Having been castrated by the CIA, DEA officials could only ask their CORU assets to please stop blowing up people like Orlando Letelier in the US. They could maim and kill people anywhere else, just not here in the Happy Homeland. By then, Salmi noted, the Justice Department had a special "gray-mail section" to fix cases involving CIA terrorists and drug dealers.

The Joke Is On You

Director of Central Intelligence William Webster formed the CIA's Counter Narcotics Center (CNC) in 1988. Staffed by over 100 agents, it ostensibly became the springboard for the covert penetration of, and paramilitary operations against, top traffickers protected by high-tech security firms, lawyers and well-armed private armies. Under CIA political control, the CNC brought together every federal agency involved in the illusory war on drugs. Former CIA officer and erstwhile Operation Twofold member, Terry Burke, then serving as the DEA's Deputy for Operations, was allowed to send one liaison officer to the CNC. The CNC quickly showed its true colors. In late 1990, Customs agents in Miami seized a ton of cocaine from Venezuela. To their surprise, a Venezuelan undercover agent said the CIA had approved the delivery. DEA Administrator Robert Bonner ordered an investigation and discovered that the CIA had, in fact, shipped the load from its bulging warehouse in Venezuela.**22** The "controlled deliveries" were managed by CIA officer Mark McFarlin, a veteran of Reagan's terror campaign in El Salvador. Bonner wanted to indict McFarlin, but was prevented from doing so because Venezuela was in the process of fighting off a rebellion led by leftist Hugo Chavez. This same scenario has been playing out in

Afghanistan for the last 15 years, largely through the DEA's Special Operations Division (SOD), whose sole purpose is to provide cover for CIA operations worldwide. The ultimate form of imperial corruption, the SOD's job is not simply to "create a crime" as freewheeling FBN agents did in the good old days, but to "recreate a crime" so it is prosecutable, despite whatever extra-legal methods the CIA employs to obtain the evidence. That way, law enforcement agencies can make arrests without probable cause. As Reuters reported in 2013, "The unit of the DEA that distributes the information is called the Special Operations Division, or SOD. Two dozen partner agencies comprise the unit, including the FBI, CIA, NSA, Internal Revenue Service and the Department of Homeland Security. It was created in 1994 to combat Latin American drug cartels and has grown from several dozen employees to several hundred."**23** The utilization of information from the SOD, which like DEASOG operates out of a secret location in Virginia, "cannot be revealed or discussed in any investigative function" according to a DEA document cited by Reuters, which added that officials are specifically directed "to omit the SOD's involvement from investigative reports, affidavits, discussions with prosecutors and courtroom testimony." Agents are told to use "*parallel construction*" (my italics) to build their cases without reference to SOD's tips, which may come from sensitive CIA "intelligence intercepts, wiretaps, informants and a massive database of telephone records," Reuters reported. Citing a former federal agent, Reuters reported that SOD operators would, like Joey DiGennaro's CIA unit, tell law enforcement officials in the US to be at a certain place at a certain time and to look for a certain vehicle which would then be stopped and searched on some pretext. "After an arrest was made, agents then pretended that their investigation began with the traffic stop, not with the SOD tip, the former agent said." An anonymous DEA official told Reuters that this "*parallel construction*" approach is "decades old, a bedrock concept" for law enforcement seeking to avoid probable cause requirements. The SOD's approach does indeed replicate techniques from the early 1970s used in Operation Twofold and Bolten's parallel mechanism. But it is a "bedrock concept" only in so far as revising reports in order to convict defendants, which was always conducted as unstated policy, is now official policy: no longer considered corruption, it is how your government manages the judicial system on behalf of the rich political elite. As FBN Agent Bowman Taylor caustically observed, "I used to think we were fighting the drug business, but after they formed the BNDD, I realized we were feeding it." The corruption was first "collateral" – a function of national security performed by the CIA in secret – but has now become "integral," the essence of an empire run amok. I'll elaborate on that, below.

New Mexico governor says state could seek billions after DEA let fentanyl hit streets

AP

By SUSAN MONTOYA BRYAN, JIM MUSTIAN and JOSHUA GOODMAN

Updated Mon, June 29, 2026 at 5:52 PM PDT

ALBUQUERQUE, N.M. (AP) — New Mexico's governor said Monday that state officials could pursue billions of dollars in civil damages after revelations that U.S. Drug Enforcement Administration agents repeatedly allowed shipments of fentanyl to flow into drug-plagued communities as investigators sought to build bigger cases.

Democratic Gov. Michelle Lujan Grisham vowed to take her outrage "right to the White House and Congress" to seek assurances the DEA is no longer using the risky law enforcement strategy in New Mexico — and that it is not being replicated elsewhere. Overdoses have surged in New Mexico, even as fentanyl deaths declined in other states.

"This is a stunning failure by the federal government," the governor told reporters at a news conference in the state medical examiner's office in Albuquerque, joining a host of state and local law enforcers and officials demanding answers. "It's disgusting and despicable."

The DEA did not immediately respond to a request for comment.

White House spokesperson Abigail Jackson noted that President Donald Trump has classified fentanyl a "weapon of mass destruction" and signed into law legislation cracking down on the synthetic opioid.

"Sadly, the United States is still recovering from Biden's border crisis and the damage it caused," Jackson wrote in an email to The Associated Press. "President Trump has totally secured the border and has taken bold actions to combat the scourge of fentanyl in American society."

Lujan Grisham's remarks came a week after AP reported that DEA agents repeatedly monitored — but did not seize — shipments of fentanyl as part of an effort to build bigger criminal cases between 2023 and 2025.

Current and former DEA agents, including whistleblower David Howell, told AP the strategy amounted to a gamble with public safety and may have violated U.S. Justice Department rules intended to safeguard the public.

The DEA initially denied Howell's allegations in a statement to AP. But the agency later called upon the Justice Department's independent watchdog to conduct its own investigation.

The fentanyl went unseized amid the deadliest drug epidemic in U.S. history and as the DEA led a public awareness campaign — "One Pill Can Kill" — emphasizing that even a few milligrams of the substance can be lethal.

New Mexico has responded swiftly to the revelations. Last week, the state's attorney general announced a criminal investigation to determine whether any federal officials broke state law by knowingly exposing New Mexico residents to the synthetic opioid.

"We're going to protect the rest of the United States from this kind of foul, 'I need a big case' effort no matter what the consequences," Lujan Grisham said. "We're angry because it's immoral."

Albuquerque Mayor Tim Keller said fentanyl represents his city's "No. 1 challenge," driving crime and homelessness and straining health care resources.

"Using us in some sort of uninformed, undisciplined experiment that's literally killing our people — that's what this is," he said. "This should outrage every single New Mexican."

Trump last week shared a link on his Truth Social page to an article attributing the scandal to the "Biden-run Justice Department." In a statement to AP last week, the Justice Department similarly said "the alleged conduct occurred under the Biden Administration's disastrous open border policies."

Howell first came forward during the Biden administration in 2023 — and was sidelined for doing so — but he continued to flag unseized fentanyl shipments as recently as last year, and the largest he documented happened two months into Trump's second term, a 1.8-million pill haul DEA learned about but did not intercept in March 2025.

Howell also revealed that the Justice Department in 2024 changed internal guidelines that had urged agents to seize fentanyl whenever "practicable," affording them more discretion to preserve longer-term investigations. Empower Oversight, the whistleblower advocacy group representing Howell, called on the Justice Department Monday to reinstate those earlier protocols so authorities "try to seize fentanyl whenever there is probable cause."

Lujan Grisham has criticized both administrations as not doing enough to stem the tide of fentanyl in New Mexico, and pointed to the death last year of a 15-month-old girl who reportedly swallowed some of her mother's drugs in Española, a town ravaged by grinding poverty and addiction.

It is not clear whether any fatal overdoses in the state can be directly attributed to the DEA strategy. While overdose deaths nationwide fell 14% last year, government data show New Mexico tallied a 21% spike.

"Somebody must pay for the damage to the state, the public safety risks that will be shared by everyone here for a decade or more, and pay to try to right the wrongs and put people's lives back together," she said.

Lujan Grisham, who will leave office at year's end after two terms as governor, said the worst part of being an elected leader is having to face the victims of what she called "senseless" devastation and loss.

"There are no words that can take away that pain," she said, adding their experiences cannot be dismissed by politics as usual. "Whatever we can do to prevent the next loss for the next family, is the work that we're all collectively doing."

Flight of the Phoenix From Vietnam to Homeland Security

Douglas Valentine

"The implication or latent threat of force alone was sufficient to insure that the people would comply..."

William Colby, RIP

Imagine my surprise to learn that the Bruce Lawlor is serving as the Office of Homeland Security's Senior Director for Protection and Prevention!

I say this in a blatantly exclamatory fashion because I interviewed Lawlor for my book, The Phoenix Program, back in 1988, when he was just a small town lawyer in Vermont. Poor Bruce. He's always had big ambitions, and he'd run for attorney general of Vermont in 1984. But, as he told me with abiding bitterness, his political opponents exploited his self-proclaimed participation in the CIA's Phoenix Program in Vietnam. The bastards had used that awful fact to launch a successful smear campaign against him. And yes, he'd lost the primary election as a result.

Nearly 20 years later Lawlor is still licking his wounds, and there's no doubt that he holds a major general's grudge against the pacifists and peaceniks who smeared him with Phoenix. So now I'm wondering, what's he got in store for people like me?

Here We Go Again

Having former CIA Phoenix officers in important government positions is nothing new in America. I refer you to Congressman Rob Simmons, a friend of Lawlor's, whom Lawlor describes as a "liberal". Simmons, good liberal Episcopalian that he is, ran a CIA Province Interrogation Center in Vietnam. (See The Spook Who Would be a Congressman.)

Having potential war criminals in positions of power is nothing new, but I'm one of those people who believe that all former CIA officers–especially those involved in "extra-legal" counter-terror programs like Phoenix–should not be allowed to hold public office. I believe this, because the CIA is antithetical to democratic institutions. And that's why I was so surprised to see, that the guy I knew as "Bruce", is now Major General Lawlor, and a top-ranking official in the ominous Office of Homeland Security. By which I mean, he's someone who has access to Ashcroft's political blacklist, and he has control over the covert action teams that can be used to neutralize those dissidents.

To get right to the point, I have a sneaking suspicion that Lawlor, like Simmons, is still working for the CIA, and thus poses a major threat to democracy in America.

One of the reasons I have this crazy feeling, is that nowhere in any of Lawlor's official looking, on-line biographies is there any mention of his CIA service. It's like his biographers are deliberately trying to hide his CIA connection from us.

For example, The Executive Session on Domestic Preparedness, "a standing task force of leading practitioners and academic specialists concerned with terrorism and emergency management" (sponsored by Harvard's JFK School of Government, the Department of Defense, and the Department of Justice), posted an official biography of Major General Bruce M. Lawlor. They mention that he was the

"first" commanding general of the Joint Task Force Civil Support (JTF-CS) located at Fort Monroe. This is extremely important, because the JTF-CS was formed specifically to provide "command and control over Department of Defense consequence management forces in support of a civilian Lead Federal Agency (the CIA?) following a weapon of mass destruction incident in the United States, its territories or possessions (italics added)."

This sounds an awful lot like a prelude to the terror attacks of 11 September, and I'll raise the subject of the JTF-CS in a bit, but for now I'd like to point out that nowhere do Lawlor's friends from Harvard (he's a graduate of Harvard's National Security Fellows Program) or the Departments of Defense and Justice, say that Lawlor was once a CIA officer. (Please see https://ksgnotes1.harvard.edu/BCSIA/ESDP.nsf/www/Contact)

Likewise, in an earlier biography posted on the Internet, Lawlor was said to be "assigned as the Deputy Director, Operations, Readiness and Mobilization within the Office of the Deputy Chief of Staff for Operations and Plans in May 1998. As Deputy Director he monitors Army operations worldwide and oversees National Guard and Reserve Forces Integration efforts."

This too is incredibly important, and relates directly to the terror attacks of 11 September, in so far as the National Guard and Reserves are integral parts of Northcom, the military component of the forthcoming Department of Homeland Security, which will manage the "pacification" of the American people. But before we get into that, let's proceed with the problem of Lawlor's official biographies. In this particular biography, which was posted in November 2000, it says "The General's military service began in 1967. After service in Vietnam from 1971 to 1973, he received a Direct Commission in 1974 as an Intelligence Officer."

Once again, and rather conspicuously, there is no mention that Lawlor was a CIA officer in Vietnam. In fact, you get the feeling that he was in the military. You might go so far as to say that the folks at Homeland Security are dissembling, in order to hide the fact that one of their most senior officers probably still is a CIA officer!

Why would Lawlor consent to this subterfuge, if, in fact, he is an honorable man?

The Phoenix Program

I first read about Lawlor in Everything We Had by Al Santoli. I was researching the Phoenix Program at the time, and Santoli's interview with Lawlor was in a section titled "The Phoenix". Santoli identified Lawlor as having been a CIA case officer in I Corps, from November 1971-December 1973, and he quoted Lawlor as saying that in order to win the Vietnam War, "what we had to do was get in and eliminate the ability of the VC to control or influence the people. That's what pacification was all about. The buzzword was "root out." We tried to go in and neutralize their political structure."

For those who are unfamiliar with Phoenix and its jargon, "neutralize" meant to assassinate, imprison, or turn someone into a defector or double agent.

Lawlor apparently made some very provocative statements to Santoli, including this one: "We permitted the Vietnamese to corrupt the system and we did it because we basically were corrupt ourselves." Lawlor's position about Phoenix seemed to be that it was "an extermination program" that was "used to settle old scores."

In an effort to find out if this was Lawlor's position, I wrote to him and requested an interview. Lawlor agreed, and we did taped interviews, portions of which I included in my book, The Phoenix Program, between pages 407-411.

What Lawlor told me basically confirmed everything Santoli had attributed to him. Except there were some additional, startling details. To begin with, Lawlor told me that he joined the CIA in 1967, while he was getting his BA at George Washington University. The CIA hired him to work the night shift, and after he graduated, he was given the chance to become a regular CIA staff officer. He took the paramilitary course, which included instruction in weapons and military tactics, but he was also trained as a foreign intelligence officer, the kind who manages secret agents. After that he was assigned to the Vietnam Desk at Langley headquarters, where he received specialized training in agent operations in Vietnam, and took a language course in Vietnamese. During this time, Lawlor formed a rapport with the Vietnam Desk officer, Al Seal, and when Seal was assigned as the base chief in Danang, he asked that Lawlor accompany him. Lawlor, notably, was just as gung-ho about fighting the Viet Cong as John Kerrey. (See Bob Kerrey, the CIA and War Crimes.)

Lawlor arrived in Vietnam in November 1971 and was assigned as an undercover staff officer at the US Embassy's translation section. He arrived in Danang a few weeks later, at the beginning of 1972, and was assigned to regional headquarters, in the counter-intelligence office. He worked at that job through the Easter Offensive of 1972, but then things changed dramatically. Lawlor became the Police Special Branch advisor in Quang Nam Province, in which capacity, in the summer of 1972, he did what Rob Simmons had done in nearby Quang Ngai Province; he organized the most aggressive Special Branch officers into a paramilitary Special Intelligence Force Unit that hunted members of the Viet Cong Infrastructure in the hamlets and villages. As advisor to the Special Branch, Lawlor also ran the Quang Nam Province Interrogation Center, and there got to know the CIA's regional PRU advisor, Patry Loomis. Bored with merely filing reports, Lawlor jumped at the chance, when Loomis asked him if he'd like to out on some PRU operations. That's when Lawlor started dressing in tiger fatigues and going out on ambushes, and traditional PRU "snuff and snatch" operations.

For those unfamiliar with Phoenix lexicon, the PRU–Provincial Reconnaissance Unit–Program was a unilateral CIA operation, formed by the CIA, paid by the CIA, and staffed by mercenary Vietnamese who worked for the CIA, often against the interests of their own government. The PRU were originally called "counter-terror teams" and, according to Nelson Brickham (the man who created the Phoenix program) their job was to go into VC areas "to do to them what they were doing to us." Which means mutilating people, sticking their heads on poles after they were killed, killing the families of suspected VC terrorists or political chiefs, and other unconventional CIA terror tactics.

After the 1972 Easter Offensive the PRU were ostensibly placed under the jurisdiction of the Special Branch, and were renamed Special Reconnaissance Units. At this point the CIA still controlled the PRU purse strings, but it wasn't providing as much money and as a result, it lost a certain amount of control over the PRU leadership. The top ranking Vietnamese PRU officers turned to graft, drug dealing, and shakedowns to make up the differential. Very bad things started happening. On one unforgettable occasion Lawlor walked into the Hoi An Interrogation Center and saw that a woman, who knew about the regional PRU chief's dirty dealings, had been raped and murdered. Her body was stretched over a table. "All of a sudden," Lawlor told me, "Mr. (Phan Van) Liem (the PRU chief) wants me to go on a mission with him, and the other PRU guys are telling me, 'Don't go!'"

This may seem a minor detail to the people at Homeland Security, or then again, it may be one reason why Lawlor's resume is so lacking in CIA information. You see, all CIA Province Interrogation Center advisors were obligated to report any incidents of torture, murder, or abuse they witnessed. So, where's Lawlor's report?

I believe Lawlor probably filed a report. Back in those rough and tumble Phoenix fighting days he was a man of conscience. For example, when Seal was replaced as the CIA's Regional Officer in Charge (ROIC) of I Corps, the new ROIC, Tom Flores, brought in a new staff. Having worked in the region's counter-intelligence office, Lawlor knew that an NVA spy ring still existed in the area, and that one of these NVA agents was the girl friend of Flores' operations chief. When Lawlor reported this to Flores, he was accused of having "gone native." So Lawlor told the CIA's security chief in Saigon, at which point his office furniture was confiscated and he was handed a ticket home.

"After that I became disillusioned," Lawlor confessed. He tendered his resignation to Ted Shackley in 1974. "The agency betrayed us," he said. "To go after the VCI, we had to believe it was okay. But we were too young to understand what happens when idealism cracks up against reality. We risked our lives to get information on the VCI, information we were told the President was going to read. Then guys who didn't care gave it to superiors more interested in booze and broads."

That's what Bruce Lawlor said to me back in 1988. He was definitely embittered, but there's something weird about him that makes him keep going back for more. When former Director of Central Intelligence William Colby heard that the Phoenix smear campaign had cost Lawlor the 1984 election in Vermont, he offered Lawlor his moral (as it was) support. Lawlor was summoned to Langley and interviewed for a job in the freewheeling Special Operations Division, which was then breaking every international law in places like Nicaragua and Afghanistan. But details of the "gone native" incident surfaced, and Lawlor was not, to his immense disappointment, rehired by the CIA.

Reprisal is the Name of the Homeland Security Game

People look for vindication in many different ways. Take, for example, the reaction of the right wing to America's humiliating defeat at the hands of the Vietnamese. Phoenix creator Nelson Brickham compared that reaction to the frustration and bitterness of the German nation after the First World War. As we all know, that frustration and bitterness enabled Hitler to do his thing.

Since the terror attacks of 11 September, we've seen the same phenomena here in America. Symbolically, that traumatic event wiped the slate clean. As a result, all the moral and psychological prohibitions on the reactionary right have been lifted, and all the anger and frustrations it cultivated during the Vietnam War, and the Carter and Clinton Administrations, is poised to be unleashed under the aegis of counter-terrorism, not only on the usual suspects–foreign enemies sitting on vast oil reserves, suspected terrorists, and domestic dissidents–but on the unwitting, flag-waving American public as well.

I happen to believe that Bruce Lawlor is one of those frustrated, bitter people. And I believe that he subscribes to the fascist theories of Michael Ledeen. A former counter-terror expert in the corrupt Reagan Regime's State Department and National Security Council, Ledeen in a 1 October 2001 article for the National Review blamed the terror attacks of 11 September on Bill Clinton, "for failing to properly organize our nation's security apparatus."

According to Ledeen, Clinton's sneering lack of respect for security took "a terrible toll on the system, and (Tom) Ridge will not find it easy to instill a proper respect for proper secrecy, even in his own offices. It takes quite a while to stamp out corrupt habits of mind and action."

Leeden's solution to the problem of domestic terrorism is ideological. It is "to stamp out" the "corrupt habits of mind (italics added)" that are still lingering around, somewhere. In other words, the reactionary right wing, as represented by the fascist Bush Regime, with its ambitions for a military dictatorship, must impose its "proper" ideology through the institution of an official Thought Police--the current Office of Homeland Security and the forthcoming Department of Homeland Security. Stamping out, or pacification, is what is required to create the politically correct, security conscious, uniform American citizenry, marching in lockstep with their fellow flag waving TIPsters, that is necessary to win the tough eternal war on terror that lies ahead. It's a matter of will power.

"This is time for the old motto, "kill them all, let God sort 'em out." New times require new people with new standards," Ledeen asserts. "The entire political world will understand it and applaud it. And it will give Tom Ridge a chance to succeed, and us to prevail."

It's obvious that many people with an axe to grind are jumping on the Homeland Security bandwagon. Knowing this, and fearing that Bruce Lawlor is of the Ledeen "reprisal" persuasion, I immediately tried to get an interview with him. I called his office at 202-456-5687 and spoke with his secretary. She said he would call me back, but he hasn't responded.

I know he was angry with me after The Phoenix Program was published. He did not like how I portrayed the CIA, or him, personally. He was so upset he helped a CIA-nik write a rebuttal to my book. So I'm a little concerned, not just for myself, but for anyone who opposed the Vietnam War, and now opposes the Bush Regime's blatantly fascist policies at home and abroad. So I'm writing this as an open letter to General Lawlor.

As far as I know, General Lawlor, we still live in a democracy. Although the Bush regime seems hell bent on using the uninvestigated terror attacks of 11 September as a pretext to turn America into a military dictatorship, we are not yet (as far as I know) under martial law. Public officials, like you, still have a responsibility to respond to our concerns. So speaking on behalf of people concerned by the gaping window of opportunity for the abuse of human rights and civil liberties presented by the corrupt Bush Regime, through its Homeland Security apparatus, here are the main questions that need to be answered:

Questions for Major General Bruce Lawlor

1) What happened in July 1995 to make you leave your law practice and go to the Army War College? Did the CIA have a role in that decision?

2) How did your education at the War College pave the way for your assignment as Special Assistant to the Supreme Allied Commander in Europe, from June to October 1996? CIA officers often go by the term "Special Assistant." Were you serving as the CIA's liaison to the Supreme Commander?

3) In May 1998 you got the very important job as Deputy Director of Readiness and Mobilization within the office of the Deputy Chief of Staff for Operations and Plans. Your job was managing the National

Guard and Reserves around the world. Did the CIA help you get this job? How were you involved with the CIA in this position?

4) You were the first commander of the Joint Task Force, Civil Support at Fort Monroe. Your job was to work with civilians. Was this a CIA assignment? How were you involved with the CIA in this position? Was this assignment based in any way upon your Phoenix-related experiences as a CIA officer in Vietnam, and was it precisely that "Phoenix" sensibility that you brought, as your main qualification, to the job? What are your other qualifications? Who else bid for the job? Isn't this where General Wayne Downing was assigned after 11 September, and if so, what was and is your relationship with him, and the CIA, in terms of formulating Homeland Security policy?

5) In a 24 March 2000 statement to Congress, you seemed to be preparing for the Homeland Security job you have now. In a way you predicted the calamitous events of 11 September. Did you, in fact, have any foreknowledge of those attacks?

6) In your statement to Congress you said that as Commanding General of the JTF-CS, you created Civil Support Teams to assist in case of a weapon of mass destruction incident. Formerly known as Rapid Assessment and Initial Detection (RAID) teams, CSTs, you said, "are National Guard assets, and thus can function under state or federal authority. They are equipped with sophisticated communications systems that will enable local first responders to talk with neighboring jurisdictions or link up with federal centers of expertise. CSTs are also being equipped with state of the art detection equipment that will enable them to help local first responders quickly identify potential WMD agents." That's what you told Congress. Would you now please tell us what role the CIA plays in CST operations? It sounds like a great CIA cover outfit to me. Are they? Is there a Civil Support team near me? Will you allow me to observe how it functions?

7) In your role as Senior Director for Protection and Prevention at the Office of Homeland Security, what is your relationship with Northcom and the CIA? In fact, what is it that you do? Is it true that the Office of Homeland Security will be strategy-making part of the Homeland Security apparatus, and that the forthcoming Department of Homeland Security will be the tactical and operational part? What is the function of the Homeland Security Council, and what is your relationship with it? Can we have organization charts of these entities, including ones that show where the CIA is hiding it covert assets?

8) Last but not least, please explain the conspicuous absence of any reference to your CIA background in your official biographies. This seems to suggest that you are still CIA. Are you? And tell us, please, if you and others like intend to use your power to seek revenge against your political opponents?

Lingering Doubts

From mid 1972 through 1973 Bruce Lawlor ran the same sort of anti-terror programs that are now in vogue. The CIA has already launched a worldwide Phoenix Program. Is that why he got the Homeland Security job? Is that why the CIA finally let him back inside the fold? Did he promise to allow the CIA to use his Homeland Security programs as a cover to repress political dissent in America? Will he become one of those corrupt officials he hated in Vietnam, and use his power to take revenge on his personal enemies? Is that what Homeland Security is really all about?

Like most Americans, those of us who oppose the Bush Regime's fascist policies are willing to participate in our own defense, if there is in fact a threat, and if in fact the CIA didn't manufacture the threat. We

just want honest forthright leaders whose first responsibility is to defend the liberties we cherish, and not to subvert them under the aegis of Homeland Security.

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 1.1

MEETING DATE: July 28, 2026

AGENDA TITLE: Approval of the Draft Minutes of the Regular Town Council Meeting of June 23, 2026

FROM: Serge Avila, Town Clerk

RECOMMENDATION: For Council to consider the approval of the Regular Town Council meeting Draft Minutes of June 23, 2026.

ATTACHMENT:

Attachment 1- June 23, 2026 Draft Minutes

San Anselmo Draft Council Minutes
Regular Meeting
Town Council Chambers and via Zoom
Tuesday, June 23, 2026

Interviews for the Infrastructure and Fiscal Monitoring Committee- 6:20 p.m.

The Council interviewed Marie Henrio, Stan Radtke, Ahmed Abu Aly

Call to Order: Optional Pledge of Allegiance

COUNCILMEMBERS PRESENT: Steve Burdo (Mayor)
Chantel Walker (Vice Mayor)
Eileen Burke
Tarrell Kullaway
Yoav Schlesinger

STAFF MEMBERS PRESENT: Dave Donery, Town Manager
Megan Acevedo, Town Attorney
Serge Avila, Town Clerk
Heidi Scoble, Community Development Director
Jackson Dobronyi, Associate Planner
Jeff Zuba, Finance Director
Scott Schneider, Asst. Public Works Director
Linda Kenton, Town Librarian

Open Time for Public Expression

There were no comments.

Council requests for future agenda items; Committee liaison reports; questions and comments to staff; miscellaneous items

Vice Mayor Walker reported she attended the Live on the Avenue Event on Friday; the Ross Valley Fire Authority meeting; the ABAG general meeting; the MCE meeting.

Councilmember Burke reported she attended the Ross Valley Fire Authority Board meeting; Live on the Avenue.

Councilmember Schlesinger stated he attended the Marin Wildfire Prevention Authority (MWPA) meeting; Live on the Avenue; today is National Public Service Day (Si Se Puede!)

Councilmember Kullaway stated she had nothing to report.

Mayor Burdo reported he attended the Marin LAFCO meeting; the Resilence Hub Ribbon Cutting Ceremony is scheduled for Friday, July 17th at 5:00 p.m.; Live on the Avenue was awesome!

Special Presentation

Mayor's Proclamation Recognizing Gene Ng for His Outstanding Service to Our Town

Mayor Burdo and the Council thanked Mr. Ng for serving as the San Anselmo Representative to the Commission on Aging.

Mr. Ng. stated it was a pleasure serving the wonderful Town of San Anselmo.

1. Consent Agenda

1.1 Approved the Draft Minutes of the Regular Meeting of June 9, 2026

1.2 Authorized the Mayor to Execute a Third Amendment to the Community Development Block Grant Cooperation Agreement, adopted Resolution No. 2026-4629

1.3 Received and Filed Revenue and Expenditure Reports, May 2026

1.4 Authorized the Town Manager to Award Construction Contract for the 2026 Slurry Seal Project

1.5 Awarded Construction Contract for the 2026 Street Resurfacing Project

1.6 Adopted Resolution No. 2026-4630 updating the Town's General Fund Reserve Policy

1.7 Authorized a Consulting Agreement with Consor North America, Inc. for NEPA Clearance of the Nokomis and Madrone Avenue Bridges

1.8 Approved an Amendment to the San Anselmo Age and Disability Friendly Committee Operational Guidelines to Establish Recusal Requirement Related to Employment, Contract or Professional Engagement for its Members

1.9 Approved Memorandum of Understanding (MOU) for Shared Public Works Services with the Town of Fairfax

1.10 Approved Resolution No. 2026-4631 Establishing the Fiscal Year 2026/27 Appropriations Limit

1.11 Adopted Resolution No. 2026-4632 Adopting Artificial Intelligence (AI) Acceptable Use Policy

1.12 Approval of Resolution No. 2026-4633 Revising a Statement of Investment Policy for Fiscal Year 2026/27

1.13 Approval of Resolutions Amending Salaries and Benefits for Management (Resolution No. 2026-4634) and Confidential Employees (Resolution No. 2026-4635) to Reflect Marin Wildfire Prevention Authority Financial Services Agreement

1.14 Approved Resolution No. 2026-4636 to Adopt a Publicly Available Pay Schedule in Accordance with California Public Employees Retirement System Regulations

1.15 Adopted Resolution No. 2026-4637 Approving the Fiscal Year 2026/27 Budget and Workplan

1.16 Receive and File the Financial Report on Recreation Fund ending May 31, 2026

Councilmember Schlesinger stated he would like to pull item #1.7

Councilmember Burke stated she would like to pull item #1.3 and #1.5.

Mayor Burdo opened the meeting to public comments.

There were no comments.

Mayor Burdo closed the meeting to public comments.

M/s, Walker/Schlesinger, Motion to approve Consent Calendar items #1.1, #1.2, #1.4, #1.6, and #1.8, through #1.16.
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

1.13 Approval of Resolutions Amending Salaries and Benefits for Management and Confidential Employees to Reflect Marin Wildfire Prevention Authority Financial Services Agreement
nm
Councilmember Burke asked staff about the bonus pay to Finance employees for working on the MWPA finances. She asked about the off-set.

Finance Director Zuba stated the Town would receive $104,080 from the MWPA. The expense would be about $50,000.

1.15 Adopt a Resolution Approving the Fiscal Year 2026/27 Budget and Workplan

Councilmember Burke asked how the Town is spending the $410,000 received from the MWPA.

Finance Director Zuba stated it pays for the Wildfire Preparedness Coordinator and for projects.

1.7 Authorize a Consulting Agreement with Consor North America, Inc. for NEPA Clearance of the Nokomis and Madrone Avenue Bridges

Councilmember Schlesinger asked what would happen if CalTrans required replacement of a bridge.

Assistant Public Works Director Schneider stated CalTrans would come up with the money for that.

Councilmember Schlesinger asked about funding sources and the meaning of the term “scour critical”.

M/s, Walker/Burke, Motion to approve Consent Calendar item #1.3, #1.5, and #1.7.
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

Vice Mayor Walker asked staff about the timeline for bringing back the metrics report for the AI policy. Town Manager Donery stated staff would like to give it a year.

Vice Mayor Walker referred to item #1.8 and asked about the timeline for review of an Action Plan. Town Manager Donery stated staff would look into that.

<u>Council Business Items</u>

2.1 Receive a Presentation from the Marin County Commission on Aging

Mr. Gene Ng, San Anselmo representative to the Commission on Aging, gave a report and a PowerPoint presentation. Mr. Ng answered questions from the Council regarding how he would change the perception of what it means to be aging in Marin County; programs in Town and if more are needed.

Mayor Burdo opened the meeting to public comments.

There were no comments.

Mayor Burdo closed the meeting to public comments.

2.2 Discuss Item Regarding Tobacco Ordinance

Town Librarian Kenton presented the staff report. Staff and Ms. Anita Linsetti, County Tobacco Prevention Program Coordinator, answered questions from the Council regarding how this made its way to the agenda; what enforcement will look like and if volunteers are involved; how often businesses are checked for compliance; the type of violations that are uncovered; on-line purchasing and if they could be banned; if Nicorette Gum would be included; work being done by the County to assist businesses; how to measure the effectiveness of a restricted policy or a ban; fiscal impacts to the Town; what can be done to help retailers deal with the loss in sales; if the model ordinance ends new permits on tobacco of any kind; if the County is starting to produce ordinances; what can be done to make sure kids are not getting access; the reason for requiring purchases in larger amounts; what support is available for people looking to quit and if the County is offering specific programs.

Mayor Burdo opened the meeting to public comments.

Mr. Andrew Darcy, Redwood High School student, stated there is a lot of tobacco use by young people in the community. He supported a full ban on these products.

Kelsey stated the evidence against the tobacco industry is damning. Tobacco is a toxin and damages organs in the body.

Bridgett discussed the environmental piece and stated cigarettes are one of the top causes of wildfire ignition. She supported a complete ban.

Jeremiah stated California leads the nation in tobacco control and prevention and has called on communities to take aggressive action. This is a deadly and highly addictive product that should be banned.

Ms. Pamela Grainger, Co-Chair of the Smoke Free Marin Coalition, gave a history of the tobacco industry's aggressive marketing and development of new products. She supported a ban.

Ms. Jane McDonaugh discussed the impacts from second-hand smoke.

Mr. Bob Curry stated he worked in tobacco control for over thirty years. He supported an end-of-sales policy.

Natalia stated she struggled with nicotine addiction as a teenager. She supported anything that would make it harder for young people to start smoking.

Mayor Burdo closed the meeting to public comments.

Mayor Burdo stated this is an easy policy to support- the data is there. Enforcement is the key. He is open to listening to the business owners.

Councilmember Kullaway stated she is not interested in the County's Model Ordinance and supported an End-of-Sale Ordinance.

Councilmember Burke stated vices are tough to beat and society has tried prohibitions, restrictions, enforcement, and education. Accessibility limitations work but she is not sure about an outright ban. She asked if people have the right to make bad choices. She supports effective enforcement and stated education is the answer.

Vice Mayor Walker stated access limits and the model legislation is a floor. She did not want the Town to offer any more permits for tobacco products. She is open to a full ban but is concerned about the timeline and long-term impacts to businesses.

Councilmember Schlesinger stated these products are unhealthy, addictive, and cause people to die. He is not sure a total sales ban is the right tool since there are no data to demonstrate that it has impacted use by young people. He is open to a sales ban when the data supports that it would be an effective tool for cessation.

Town Manager Donery stated staff would return with the requested information and a revised policy.

The Council took a break at 9:35 p.m.

The Council reconvened in the Council Chambers at 9:43 p.m.

Mayor Burdo stated he would like to move item #2.4 ahead of #2.3.

M/s, Walker/Kullaway, Motion to move item #2.4 ahead of #2.3.
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

2.4 Authorize the Town Manager to Negotiate and Execute a Donation Agreement with a Potential Donor for Completion of Conceptual Drawings for the Creek Park Project

Town Manager Donery presented the staff report. Staff answered questions from the Council regarding how a community process would work; if there is a risk given the donor component.

Mayor Burdo opened the meeting to public comments.

There were no comments

Mayor Burdo closed the meeting to public comments.

M/s, Burke/Walker, Motion to Authorize the Town Manager to Negotiate and Execute a Donation Agreement with a Potential Donor for Completion of Conceptual Drawings for the Creek Park Project
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

<u>Public Hearing Items</u>

2.3 Public Hearing to Adopt an Ordinance Amending Title 10 (Planning and Zoning) to Update Conditional Use Permit Regulations and Replace Nonconforming Uses and Improvements Regulations with New Article on Nonconforming Uses, Structures, and Lots; CEQA

Exemption Findings

Associate Planner Dobronyi presented the staff report and a PowerPoint presentation. Staff answered questions from the Council regarding the role of the Community Development Director and the Planning Commission with respect to rules and expirations; Section 10-3.1305 Findings for Conditional Use Permit and how subsection (F) is defined; if the amendments would slow down the current work being done by the department in terms of expediting permits and communication.

Mayor Burdo opened the meeting to public comments.

There were no comments.

Mayor Burdo closed the meeting to public comments.

M/s, Schlesinger/Walker, Motion to Introduce an Ordinance of the Town Council of the Town of San Anselmo Amending Title 10, Planning and Zoning, Chapter 3, Zoning, Article 3, Conditional Use Permit, removing Title 10, Chapter 3, Article 6, Section 10-3.607, Non-Conforming Uses and Improvements, and Replacing with new Article 29, Non-Conforming Uses, Structures, and Lots, and making associate CEQA Exemption Findings.
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

M/s, Schlesinger/Burke, Motion to approve the first reading of the Ordinance amendments and waive future readings in their entirety.
AYES: Burke, Kullaway, Schlesinger, Vice Mayor Walker, Mayor Burdo

Mayor Burdo re-opened Open Time for Public Expression.

There were no comments.

Mayor Burdo closed Open Time for Public Expression.

M/s, Burke/Kullaway, Motion to adjourn the meeting at 10:04 p.m.
AYES: Burke, Kullaway Schlesinger, Vice Mayor Walker, Mayor Burdo

Respectfully submitted,

Toni DeFrancis,
Recording Secretary

STAFF REPORT

TOWN OF SAN ANSELMO Item #:1.2

MEETING DATE: July 28, 2026

AGENDA TITLE: Report of Checks Issued, June 2026

FROM: Jeff Zuba, Finance & Admin Services Director

RECOMMENDATION: That the Town Council acknowledges, and files warrant numbers 101853 to 102063 issued during the month of June and bank draft numbers DFT06988, DFT07018, DFT07020-DFT07022, DFT07024-DFT07025, DFT07054-DFT07056, DFT07058-DFT07065, DFT07092, DFT07094, and DFT07107, in a total amount of $2,558,122.55.

BACKGROUND

This report is an itemization of payments made to vendors during the months of June 2026. It also includes wires to Bank of America for June 2026 payrolls, including payments for retirement and health benefits. The Bank of America account is used for payroll-related items.

The following warrants were voided or canceled in June 2026: 101858, 101859, 101860, 101904, 101991, and 101992.

STAFF REPORT

TOWN OF SAN ANSELMO Item #1.3

MEETING DATE: July 28, 2026

AGENDA TITLE: Revenue and Expenditure Reports, June 2026

FROM: Jeff Zuba, Finance & Admin Services Director

RECOMMENDATION: That Town Council consider approving the monthly year-to-date Revenue and Expenditure Reports and corresponding activity for the period ending through June 30, 2026.

SUMMARY

Every reporting period end, the Town of San Anselmo presents to the Town Council its operations as shown on the Revenue and Expenditure reports for discussion and approval.

BACKGROUND

The Revenue and Expenditure reports are year-to-date summaries of revenues and expenditures from the Town's financial system (Tyler Incode) for both the current as well as the prior corresponding fiscal year. These reports include the General Fund's operations given that most of the Town-level operational activities are processed through the General Fund either directly or indirectly. The Town Council approves these reports monthly throughout the fiscal year.

DISCUSSION/ANALYSIS

The revenue and expenditure data through June 30, 2026, is a compilation of all operating activity that is year-to-date for the current and prior fiscal year. These reports are sourced directly from the Town's financial system, of which a corresponding analysis has been carried out by identifying the key trends the Town Council should take note of.

Revenues

Overall, through the June 2026 reporting period, the Town's general fund revenue increased its base relative to the prior year by $0.020M. A majority of the Town's revenue is collected at specific times.

Category	JUN YTD FY26	JUN YTD FY25	$ Change	% Change
Property Tax	17,569,451.12	17,194,470.12	374,981.00	2.18%
Sales Tax	1,393,590.33	1,454,484.46	(60,894.13)	-4.19%
Property Transfer Tax	69,387.42	89,801.78	(20,414.36)	-22.73%
Franchise Taxes	894,721.92	939,820.99	(45,099.07)	-4.80%
Licenses & Permits	1,727,312.85	1,493,102.82	234,210.03	15.69%
Fines	11,574.18	97,903.32	(86,329.14)	-88.18%
Cash & Investment Interest	122,915.16	420,448.71	(297,533.55)	-
Intergovernmental	178,066.37	251,356.88	(73,290.51)	-29.16%
Other Fees	607,217.32	494,417.98	112,799.34	22.81%
Transfers In	280,441.38	398,987.58	(118,546.20)	-29.71%
Total	**22,854,678.05**	**22,834,794.64**	**19,883.41**	**0.09%**

As shown above, the Town's overall revenue base increased by $0.020M due to the following:

- The Town receives property tax disbursements from the County of Marin in December (55%), April (40%), and June (5%). Property Tax revenue increased by $0.374M. The Town budgeted a 3.78% increase in property taxes in fiscal year 2025-2026 and is right on track. There are some payments to be received in July from property taxes that related to fiscal year 2025-2026.
- The Town receives disbursements monthly from the State for Sales Tax. The collections for the fiscal year 2025-26 have been higher compared to the prior year and are on track to exceed the budgeted amount by around $50,000. There are still collections from the State in August that related back to this fiscal year and will be recorded.
- Revenue from Licenses & Permits increased by $0.234M compared to the previous period, due to construction permit activity in the Town and collection of business license tax.
- Fines decreased by $0.086M compared to the previous period, due to the transition of these revenues to the parking fund to align with expenditures. The Town funds the Community Service Officer position with Central Marin Police Authority from the parking fund.
- Intergovernmental revenues decreased by $0.073M compared to the previous period due to receiving $0.065M Leap grant for the Housing Element from the State in FY24-25 and no similar grant in FY25-26.
- Other Fees have increased by $0.112M compared to the previous period due to an increase in planning fees, and Friends of the Library donation towards the library refresh project.
- Transfers In is still awaiting the final transfer from the Gas Tax Fund. The Finance team will make this transfer as we close the books for fiscal year 2025-2026 and anticipate being on track with the budget.

As far as the other revenue streams, these changes either decreased or remained flat year-over-year resulting in an immaterial change.

Expenditures
Overall, through the June 2026 reporting period, the Town's General Fund expenditures have increased by $1.900M compared to the prior year. This is primarily from increases in compensation, retirement, outside services, and debt service. All other activity is either flat year-over-year or nets to an immaterial change, all of which are within management's expectations.

Category	JUN YTD FY26	JUN YTD FY25	$ Change	% Change
Compensation	5,055,691.56	4,507,203.71	548,487.85	12.17%
Retirement	579,530.10	407,334.57	172,195.53	42.27%
Training	45,323.34	51,805.43	(6,482.09)	-12.51%
Outside Services	2,280,578.07	2,530,576.25	(249,998.18)	-9.88%
Outside Services - Public Safety	11,731,281.63	10,971,504.08	759,777.55	6.93%
Maintenance	257,568.08	149,130.98	108,437.10	72.71%
Utilities	24,814.71	19,072.48	5,742.23	30.11%
Supplies	156,525.04	231,198.33	(74,673.29)	-32.30%
Debt Service - Pension Bond	680,096.16	638,811.71	41,284.45	6.46%
Other Expenditure	224,639.68	245,600.14	(20,960.46)	-8.53%
Internal Service Charge	1,307,093.92	1,437,811.80	(130,717.88)	-9.09%
Transfers Out	1,380,000.00	640,000.00	740,000.00	0.00%
Total	**23,723,142.29**	**21,830,049.48**	**1,893,092.81**	**8.67%**

As shown above, the Town's expenditures base overall increased by $1.900M, which is driven by compensation, retirement, outside services – public safety, and debt service:

- Compensation (Salaries & Wages and Benefits) increased by $0.548M compared to the prior fiscal year, primarily due to the 6.0% cost of living adjustment effective July 1, 2025, step adjustments, one-time payment upon the signing of the Memorandum of Understanding (MOU) 2025-2028, vacation cashout and sick time roll overs per the MOU and health insurance premiums.
- Retirement increased by $0.172M compared to the prior period due to the Town's CalPERS unfunded liability payment, cost of living, step adjustments, and fully staffed positions.
- Outside Services decreased by $0.249M compared to the previous period due to lower allocated costs for Animal Control Services with the County and Library Marinet Membership, no contracted building inspector, General Plan update project, and fewer plan check fees for third party consultants.
- Outside Services – Public Safety increased by $0.759M compared to the previous fiscal year due to payments for Public Safety JPA's, Central Marin Police Authority, and Ross Valley Fire Department. These increases are in line with the budgeted amounts set by the Police Council and Fire Board.
- Maintenance increased by $0.108M compared to the previous fiscal year due to the Library Project. The funds donated by the Friends of the Library are being expended from this category.

- Debt Service increased by $0.041M compared to the previous fiscal year due to the repayment of the 2021 Pension Obligation Bonds. The bond payments are due in August and February.
- Internal Service Fund Charge decreased by $0.130M compared to the previous period due to decreased payment to the Internal Service Funds for Insurance and vehicle replacement, offset by increases for Building Maintenance and Information Technology.
- Transfers Out increased by $0.740M compared to the previous period due to the Council approved 2025-2026 mid-year budget transfers (Resolution 2026-4609) of a portion of General Fund surplus reserves to the following funds, $500,000 to Park Capital Improvement, $200,000 to Building Maintenance, $75,000 to Information Technology, and $50,000 to Special Events offset by no original budgeted transfers to the Parks Capital Improvement Fund in fiscal year 2025-2026 because of budget constraints.

As far as the other expenditure streams, these changes either slightly changed or remained flat year-over-year, resulting in an immaterial change. All other changes are immaterial for further discussion and are expected given the Town's operations.

MEASURE J

Revenues

Overall, through the June 2026 reporting period, the Town's Measure J Fund's revenue decreased its base relative to the prior year by $0.178M.

Category	JUN YTD FY26	JUN YTD FY25	$ Change	% Change
Sales Tax	2,343,079.97	2,479,818.93	(136,738.96)	-5.51%
Cash & Investment Interest	-	43,562.13	(43,562.13)	-100.00%
Reimbursement	2,390.87	-	2,390.87	
Total	**2,345,470.84**	**2,523,381.06**	**(177,910.22)**	**-7.05%**

- The Town receives disbursements monthly from the State for Sales Tax. The collections for the fiscal year 2025-26 have been higher compared to the prior year and are on track to exceed the budgeted amount by $50,000. There are still collections from the State in August that related back to this fiscal year and will be recorded.
- Miscellaneous Revenue of $0.363M was budgeted for the federal tax credit related to the Resilience Hub project. Due to project delays, these funds will not be collected in FY25-26 and are expected in FY26-27. This represents a $0.363M shortfall against the current year budget; however, no cash impact is anticipated as the Town has sufficient Measure J reserves to cover the timing difference, and recovery is expected in the next fiscal year

Expenditures
Overall, through the June 2026 reporting period end, the Town's Measure J expenditures have increased by $0.817M compared to the prior year. This is primarily from increases in compensation, outside services, and construction. All other activity is either flat year-over-year or nets correspondingly to an immaterial change.

Category	JUN YTD FY26	JUN YTD FY25	$ Change	% Change
Compensation	243,029.41	215,972.21	27,057.20	12.53%
Retirement	18,763.78	16,871.90	1,891.88	11.21%
Training	-	-	-	-
Outside Services	300,990.91	268,757.71	32,233.20	11.99%
Construction	2,993,720.18	2,236,931.98	756,788.20	33.83%
Transfers Out	-	-	-	-
Total	**3,556,504.28**	**2,738,533.80**	**817,970.48**	**29.87%**

- Compensation (Salaries & Wages and Benefits) increased by $0.027M compared to the prior fiscal year, primarily due to the 6.0% cost of living adjustment effective July 1, 2025, step adjustments, one-time payment upon the signing of the Memorandum of Understanding (MOU) 2025-2028, vacation cashout and sick time roll overs per the MOU and health insurance premiums.
- Outside Services increased by $0.032M compared to the prior period due to Ross Valley Fire Department staffing costs, including a 3% COLA, 3% equity adjustment, and continued step increases for Firefighter/Paramedic personnel.
- Construction increased by $0.756M compared to the previous period due to the Fire Station 20 Project and Isabel Cook Community Center Roof Project. In the prior period through September, the Town had completed some bridge design work, repairs on concrete roads, wrapped up of Town Hall roof & HVAC project, minor work at Memorial Park, and slurry seal project. There is no slurry seal project scheduled for FY25 due to major ongoing projects at Fire Station 20 and the Resilience Hub. The Town has gone out for bid on a slurry seal project for fiscal year 2026-2027.

FISCAL IMPACT
None

GENERAL PLAN CONSISTENCY
Not applicable

CEQA AND CLIMATE ACTION PLAN CONSISTENCY

The Council's discussion and approval of this report is not a "project" under the California Environmental Quality Act, because it does not involve an activity which has the potential to cause a direct or reasonably foreseeable indirect physical change in the environment. (Cal. Pub. Res. Code § 21065).

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 1.4

MEETING DATE: 7/28/26

AGENDA TITLE: Financial Report on Recreation Fund

FROM: Mattie O'Grady – Director of Community Services

RECOMMENDATION: That Town Council review the Recreation Fund revenue and expenditure report for the period ending June 30, 2026.

BACKGROUND

The Recreation Department offers a wide variety of fee-based programs throughout the fiscal year including sports programs and leagues, youth and adult classes, and childcare and camps. Additional revenue is generated through facility rentals and administrative fees.

DISCUSSION/ANALYSIS

As of June 30, 2026, 100% of the fiscal year has elapsed and the Recreation Fund is listed at 115% of projected revenues and 102% of projected expenditures.

You will also find attached the capital outlay budget for the department, in addition to the Recreation Fund revenue and expenditure report.

For future historical comparison purposes, staff has developed the following table:

FY		Revenue				Expenditures				Rev Over/(Under) Exp	
		Budget	Actual	%		Budget	Actual	%		$$	%
2025-26		**2,362,320**	**2,716,515**	**115%**		**2,362,320**	**2,418,575**	**102%**		**297,940**	**13%**

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 1.5

MEETING DATE: 7/28/26

AGENDA TITLE: Approve Special Event Application – Goblins' BOOtacular 2026

FROM: Mattie O'Grady – Director of Community Services
Veronica Hillard – Recreation Supervisor

RECOMMENDATION:

That Council approve the San Anselmo Recreation Department's application for the Goblin's BOOtacular event scheduled for Friday, October 23, 2026, from 5:00 – 7:00 pm.

That Council approve closing San Anselmo Avenue between Tunstead Avenue and Tamalpais Avenue on Friday, October 23rd, 2026, beginning with closing the street to incoming traffic at 3:00pm and closing San Anselmo to all vehicles from 4:00pm-8:00pm.

BACKGROUND

For the past many years, the annual Goblin's BOOtacular event has attracted hundreds of families to downtown San Anselmo. Along with Town staff, the event has involved many volunteers who help with participant safety and assistance in handing out treats at "stations" along the Avenue. These stations supplement what is provided by participating merchants and the Fire Department.

DISCUSSION/ANALYSIS

The Goblin's BOOtacular is a popular event and draws up to 1,000 people, and families show up early. Central Marin Police Authority recommends that the streets be closed two hours prior to the event for the safety of the families. The earlier street closure will allow for pedestrians to safely arrive for the event after all vehicles have cleared from San Anselmo Avenue. Therefore, CMPA is recommending that San Anselmo Avenue between Tunstead Avenue and Tamalpais Avenue be closed to incoming traffic at 3:00pm and closing San Anselmo to all vehicles from 4:00pm-8:00pm.

The event will have crossing guards at both the Tunstead intersection and Tamalpais intersection.

FISCAL IMPACT
Due to sponsorship, there would be no direct fiscal impact to the Town to approve this item.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY
The proposed project is exempt from the California Environmental Quality Act (CEQA), under the “common sense” exemption, because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. (Cal. Code Regs. tit. 14, § 15061).

APPLICATION FOR COMMUNITY-BASED EVENTS

Please complete this application if you wish to conduct a community-based event (non-commercial) in San Anselmo on public property for more than 50 people or involving the closure of a downtown street for more than fifteen minutes. The application will be reviewed by staff and forwarded to the Town Council for approval.

EVENT INFORMATION

Name of event: Goblins' BOOtacular 2026

Organization(s) presenting the event: Town of San Anselmo

Other event sponsor(s), if any: Harvest Wealth Management

Contact Person: Dawn Jones **Phone Number:** 415-717-2129

Address: 1000 SFD Blvd, Sutie #14 **Email:** djones@sananselmo.gov

Event Date(s): 10/23/26

Start and end times: 5:00-7:00pm **Number of attendees (estimate):** 700+

Location: San Anselmo Avenue between Tunstead and Tamalpais

Will alcohol be served or sold?

Yes ☐ No ☑

Brief Event Description:

The Goblin's BOOtacular is an annual town-wide Trick or Treat event for children ages 11 and under. Participants will 'trick or treat' along the downtown corridor on San Anselmo Avenue. Staff is asking for Public Works staff begin with closing the street to incoming traffic at 3:00pm and closing/barricading San Anselmo Avenue to all vehicles from 4:00pm-8:00pm from Tunstead to Tamalpais. A-frame signs at the intersections of Cedar Street and, Pine and Tunstead will alert drivers that SA Ave is closed ahead.

Public space requested:

- ☐ **Pine Street Parking Lot**
- ☑ **Town Hall Lawn**
- ☑ **Imagination Park**
- ☐ **Other:** _____
- ☐ **Creek Park Parking Lot**
- ☐ **Magnolia Parking Lot**
- ☑ **Council Chamber**
- ☐ **Memorial Park**

☑ **San Anselmo Avenue: from (cross streets)** Tunstead **to** Tamalpais
☐ **Tunstead Avenue: from (cross streets)** _____ **to** _____
☐ **Other street(s): from (cross streets)** _____ **to** _____
☐ **Other space use (e.g. parking spaces)** _____
☐ **Other Facilities:**_____

Additional Comments on the Public Space Requested:

To be qualified for consideration, applicants must fall into one of the following categories:

- Town-Sponsored Events
- Ross Valley* accredited or licensed schools (pre-kindergarten through 12th grade, (both public and private schools)
- Ross Valley* Youth Organized Sporting of Cultural Events
- Organizations located in the Ross Valley* which have received tax-exempt status pursuant to Internal Revenue Service Code Section 501(c)(6)
- Merchant associations located in incorporated San Anselmo and established as of 2006

*Ross Valley is defined as incorporated and unincorporated areas of San Anselmo, Fairfax, and Ross

Standards & Objectives

The Town Council, with input from downtown merchants, property owners, and local residents, has adopted the following criteria they will consider when reviewing applications for the closure of roadways or other public space in the downtown area.

Does the event:

- ✓ Attract local residents
- ✓ Attract people throughout the Bay Area
- ✓ Attract families
- ✓ Generate interest for people to return and spend money in local businesses
- ✓ Create a positive impact for real estate stimulation
- ✓ Provide a overall positive impact on business
- ✓ Provide an opportunity for downtown merchants to participate in the event
- ✓ Provide access to neighborhood streets during the event
- ✓ Avoid conflicting with a retail holiday
- ✓ Assure public safety
- ✓ Provide adequate parking
- ✓ Benefit the Town
- ✓ Provide access for persons with disabilities
- ✓ Provide for clean-up by event organizers
- ✓ Provide emergency vehicle access
- ✓ Assure that any booths or other structures are designed and placed so that storefronts have access and visibility
- ✓ Allow local businesses to exhibit merchandise on the sidewalk area in front of their stores, without charge, while maintaining wheelchair access

CONDITIONS OF APPROVAL

The following conditions apply to downtown events, unless waived or modified by the Town. Other conditions, as set by the Town Council and staff, may apply to particular events for public safety or other objectives of the Town.

A. **Police**: Off-duty police officers may be required for the event, as determined by the Police Chief, depending on the number of people attending and the nature of the event. Off-duty police officers are required during events where alcohol is served or sold.

B. **Emergency access**: An emergency access lane of at least 14 feet wide must be maintained at all times.

C. **Insurance**: Proof of general liability insurance, naming the Town, its employees, and agents as additional insured, at limits no less than $1,000,000.

D. **Recycling and garbage**: Extra containers for recycling cans and bottles, and garbage cans must be placed throughout the area of the event. Containers and cans are to be emptied when full during the event, and picked up after the event.

E. **Compostable/Disposable Foodware:** In accordance with the Town of San Anselmo's Ordinance 1136 all food vendors will provide takeout food in reusable foodware or compostable disposable foodware, or items composed entirely of aluminum. If a compostable disposable foodware item is not available, an alternative foodware item made of other materials, except polystyrene foam and polystyrene food ware, may be substituted.

F. **Toilet facilities**: Events estimated to attract more than 100 people and lasting more than two hours must provide portable toilets, in the number and location as approved by the Parks superintendent, unless alternate arrangements for toilet facilities are otherwise required or arranged to the approval of the Parks Superintendent. Toilet facilities must be provided for disabled persons at each location where portable facilities are provided. Hand washing facilities must be provided where food is served.

G. **Traffic control**: A traffic and parking control plan, including enforcement measures, must be approved by the Police Chief.

H. **Noticing:** Events that include closure of the street will require advance written notice to businesses and residents on the street(s) that will be closed. These notices must be distributed a minimum of five days prior to the Town Council meeting date that the event application will be considered.

I. **Sales tax**: Persons or businesses selling items as part of the event shall designate San Anselmo as the point of sale for sales tax purposes.

J. **Alcoholic beverages**: A permit is required from the Police Chief and the State Department of Alcohol Beverage Control in order to serve or sell alcoholic beverages. Off-duty police officers are required if alcohol is served or sold.

K. **Fire inspection**: A fire inspection is required of any and all appliances or devices that produce an open or enclosed flame and/or hot materials, including food.

L. **Creek Park**: No more than three booths are allowed inside the turf areas of the park.

M. **Signs and barricades**: Any "No parking signs" that are needed are to be provided by the event organizers, and posted according to the traffic control plan prior to the event. Barricades, detour signs, and other traffic control devices are to be provided by the event organizers.

N. **Parking:** Temporary accessible parking must be provided if a street closure or other event condition renders permanent accessible parking unusable.

O. **Cables**: Cables must be covered so as not to create a tripping hazard. When cable covers are used, they must not create a tripping hazard and must be navigable by wheelchair. The path of travel must be no more than 1:12.

On behalf of the organization applying for the permit to conduct the event, I have read and agree to follow the standards for events, as stated in this application, and have read and agree to follow the permit conditions as stated in this application and those which may be required of me as conditions of approval.

TOWN COUNCIL		

STAFF REPORT

TOWN OF SAN ANSELMO Item # 1.6

MEETING DATE: July 28, 2026

AGENDA TITLE: Repeal Pavement and Drainage Assistance Programs

FROM: Scott Schneider, Public Works Director

RECOMMENDATIONS Adopt Resolution repealing the Pavement and Drainage Assistance Programs.

BACKGROUND AND DISCUSSION

In 1994, the Town Council adopted Resolution No. 3268, which established a program to assist private property owners with repairing non-Town maintained roads. ("Pavement Assistance Program"). The Town established a similar assistance program for drainage improvements in 1996 when the Town Council adopted Resolution No. 3363 ("Drainage Assistance Program"). Under this program, the Town funds and advises on the construction of drainage improvements on private property.

It is uncommon for municipalities to provide funding for roadways that have not been accepted into a municipal road system, or fund the building of drainage facilities on private property. It is staff's understanding that San Anselmo is the only jurisdiction in Marin County to do so. The Town spends both money and staff time on the Pavement and Drainage Assistance Programs.

Staff suggests repealing the Programs to align with other Marin jurisdictions' practice and also save on Town money and staff time. The Public Works Department will continue its regular upkeep, maintenance, and repair of Town roads.

FISCAL IMPACT

Repealing the Pavement and Drainage Assistance Programs would save public funds in the Town.

CEQA AND CLIMATE ACTION PLAN

The repeal of the Programs is not subject to the California Environmental Quality Act ("CEQA") because it does not constitute a "project" within the meaning of Public Resources Code section 21065. The Climate Action Plan is not implicated.

RECOMMENDATION

Adopt Resolution repealing the Pavement and Drainage Assistance Programs.

ATTACHMENTS

Attachment 1- Draft Resolution

RESOLUTION NO. 2026-XXXX

RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO REPEALING PAVEMENT AND DRAINAGE ASSISTANCE PROGRAMS

WHEREAS, in 1994, the Town Council adopted Resolution No. 3268, which established a program to assist private property owners with repairing non-Town maintained roads including providing Town funding, technical support, and staff time; and

WHEREAS, in 1996, the Town Council adopted Resolution No. 3363, which established a program for contributing Town funds for drainage improvements on private property; and

WHEREAS, the Town Council desires to end the above-described programs; and

WHEREAS, the repeal of said programs will not affect the Town's maintenance of Town improvements or Town-maintained streets and roads; and

WHEREAS, the Town Council held a duly noticed public meeting on July 28, 2026 and voted to repeal the Pavement and Drainage Assistance Programs.

NOW, THEREFORE, the Town Council of the Town of San Anselmo resolves as follows:

1. The above recitals are true and correct and incorporated herein by reference.
2. The Pavement Assistance Program as set forth in Town Resolution No. 3268 is hereby repealed in its entirety.
3. The Drainage Assistance Program as set forth in Town Resolution No. 3363 is hereby repealed in its entirety.
4. Town staff is directed and authorized to take all actions necessary to effectuate the actions required in this Resolution.
5. This Resolution shall become effective on September 1, 2026.

INTRODUCED AND ADOPTED AT A PUBLIC HEARING at a regular meeting of the San Anselmo Town Council on July 28, 2026 by the following vote:

AYES:
NOES:
ABSTAIN:

Town of San Anselmo, CA

New eComment for Town Council

Roger Bettini submitted a new eComment.

Meeting: Town Council

Item: 1.6) Adopt a Resolution to Repeal Pavement and Drainage Assistance Programs

eComment: Hello Council. Smith Lane is used extensively by the public in automobiles, on bikes and walking, to avoid Sir Francis Drake and the Hub. In addition Smith Lane is used by delivery trucks, service trucks, garbage trucks and the police. It also contains a large drainage system to the creek for the town's benefit. Other neighborhoods have taken advantage of this assistance plan. I disagree with cutting off the Lincoln Park neighborhood without any notification or discussion on options.

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 1.7

MEETING DATE: July 28, 2026

AGENDA TITLE: Adopt an Ordinance of the Town of San Anselmo Amending Title 10 “Planning and Zoning”, Chapter 3 “Zoning’, Article 13 “Conditional Use Permit”; Removing Title 10, Chapter 3, Article 6, Section 10-3.607 “Nonconforming Uses and Improvements” and Replacing with New Article 29 “Nonconforming Uses, Structures, And Lots”; and Associated CEQA Exemption Findings

FROM: Heidi Scoble, Community Development Director
Jackson Dobronyi, Associate Planner

RECOMMENDATION: Adopt the attached Ordinance entitled, An Ordinance of the Town Council of the Town of San Anselmo Amending Title 10 “Planning and Zoning”, Chapter 3 “Zoning’, Article 13 “Conditional Use Permit”; Removing Title 10, Chapter 3, Article 6, Section 10-3.607 “Nonconforming Uses and Improvements” and Replacing with New Article 29 “Nonconforming Uses, Structures, And Lots”; and Associated CEQA Exemption Findings.

BACKGROUND

On September 23, 2025, and June 23, 2026, the Town Council conducted public hearings to consider proposed amendments to the Zoning Ordinance to update to two sections of Title 10, Chapter 3 of the San Anselmo Municipal Code: (1) the Conditional Use Permit (CUP) regulations, and (2) the Nonconforming Uses and Improvements regulations, to clarify and modernize zoning regulations while furthering the Town’s long-term goals of fostering a vibrant, economically resilient, and pedestrian-oriented downtown. Following the June 23, 2026, hearing, the five present members of the Town Council voted to conduct the first reading of the proposed Ordinance (see **Attachment 1**). The purpose of this consent calendar agenda item is to conduct a second reading to adopt the attached Ordinance to allow text amendments to Title 10, Chapter 3, Articles 6, 13, and new Article 29.

FISCAL IMPACT

No direct fiscal impacts are anticipated from the adoption of these ordinance amendments.

GENERAL PLAN CONSISTENCY

The zoning ordinance amendments are consistent with the goals, policies, and implementation programs of the San Anselmo General Plan, including those related to land use, economic vitality, community character, and sustainability.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY

California Environmental Quality Act (CEQA)

The zoning ordinance amendments are categorically exempt from environmental review under CEQA pursuant to the following exemptions:

- CEQA Guidelines §15061(b)(3). Common Sense Exemption
- CEQA Guidelines §15301. Existing Facilities
- CEQA Guidelines §15303. New Construction or Conversion of Small Structures

Climate Action Plan Conformance

The amendments are consistent with the Town of San Anselmo's adopted Climate Action Plan. The updates support infill development and reuse of existing commercial spaces, reduce long-term vacancies, and promote a walkable, mixed-use downtown. These actions align with the Town's climate goals by minimizing vehicle trips, supporting local economic resilience, and encouraging efficient land use patterns.

ATTACHMENT

Attachment 1 - Ordinance

ORDINANCE NO. 2026-XXXX

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO AMENDING TITLE 10 "PLANNING AND ZONING", CHAPTER 3 "ZONING', ARTICLE 13 "CONDITIONAL USE PERMIT"; REMOVING TITLE 10, CHAPTER 3, ARTICLE 6, SECTION 10-3.607 "NONCONFORMING USES AND IMPROVEMENTS" AND REPLACING WITH NEW ARTICLE 29 "NONCONFORMING USES, STRUCTURES, AND LOTS"; AND ASSOCIATED CEQA EXEMPTION FINDINGS

WHEREAS, a conditional use permit (CUP) allows a use of property that is not in strict compliance with the zoning code with the imposition of certain conditions, which remains in effect so long as the conditions in the permit are satisfied, there is no expiration date in the permit that has expired, and the use is not a public nuisance; and

WHEREAS, the Town desires to ensure compliance with CUPs and provide processes to review CUP compliance in order to promote the stability and consistency of land uses within the Town; and

WHEREAS, the Town desires to update the CUP Ordinance to: allow the inclusion of a CUP expiration date; provide a revocation hearing process for CUPs that are out of compliance with the conditions in the permit, either by violation or by a period of nonuse; and make other clarification and update changes ("CUP Ordinance Amendments"); and

WHEREAS, a legal nonconforming use, structure, or lot (or a "grandfathered" use, structure, or lot) is one that was lawful on the effective date of a new zoning restriction which made it unlawful, and has continued since that time; and

WHEREAS, to ensure the cohesive and predictable development of the Town that is consistent with Town goals, it is desirable that nonconforming uses, structures, and lots be replaced by conforming uses, structures, and lots over time; and

WHEREAS, the Town's nonconforming use ordinance, Municipal Code Section 10-3.607, is outdated and the Town desires to adopt an updated nonconforming use code to provide more predictability, clarity, and the ability for the Town Council to consider revocation of a nonconforming use; and

WHEREAS, the Town desires to update the Town's nonconforming use ordinance, Municipal Code Section 10-3.607 ("Nonconforming Use Ordinance Amendments", collectively with the "CUP Ordinance Amendments" referred to as the "Ordinance Amendments"); and

WHEREAS, pursuant to Article XI, Section 7 of the California Constitution, the Town may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens; and

WHEREAS, the Ordinance Amendments are in the public interest because they will help ensure that land uses remain consistent with their surroundings and provide processes for the Town to revoke noncompliant and nonconforming uses; and

WHEREAS, the Ordinance Amendments are exempt from review under the California Environmental Quality Act (CEQA) pursuant to the "common sense" exemption, CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility that the Ordinance Amendments will have a significant effect on the environment; pursuant to CEQA Guidelines Section 15301 involving the minor alteration of existing facilities involving negligible or no expansion of use beyond that already in existence; and Section 15303 New Construction or Conversion of Small Structures, because it can be seen with certainty that there is no possibility the Amendments would have a significant effect on the environment and they make no or minimal changes to land uses, development intensities, or the rate at which development is expected to occur; and

WHEREAS, the ordinance amendments are consistent with the goals and policies of the San Anselmo General Plan, including maintaining the viability of the Town's commercial core and preserving its small-town character; and by encouraging the monitoring and review of conditional use permits and nonconforming uses, the amendments promote the appropriate use of property, discourage long-term vacancy or disuse, and support the overall health and vitality of the Town's commercial areas; and

WHEREAS, the Ordinance Amendments do not impact the Town's Climate Action Plan; and

WHEREAS, the Planning Commission is responsible for providing recommendations to the Town Council for proposed amendments to the Town's Zoning Code pursuant to Government Code Section 65853 et seq.; and

WHEREAS, the Planning Commission held a duly noticed public hearing on August 18, 2025, to consider the Ordinance Amendments and recommended Town Council adoption of the Amendments; and

WHEREAS, the Town Clerk caused notice of a Town Council public hearing regarding the Town Council's adoption of the Ordinance Amendments in the Marin Independent Journal newspaper, as required by Government Code Section 36933, and published the text of the Ordinance Amendments as required by State law; and

WHEREAS, on September 23, 2025, and June 23, 2026, the Town Council held duly noticed public hearings to consider the introduction of the Ordinance Amendments.

NOW, THEREFORE, THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. The above recitals are true and correct and incorporated as findings herein.

SECTION 2. Environmental Review. The Ordinance Amendments are exempt from review under the California Environmental Quality Act (CEQA) pursuant to the "common sense" exemption, CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility that the Ordinance Amendments will have a significant effect on the environment; pursuant to CEQA Guideline Section 15301 involving the minor alteration of

existing residences involving negligible or no expansion of use beyond that already in existence; and Section 15303 New Construction or Conversion of Small Structures, because it can be seen with certainty that there is no possibility the Amendments would have a significant effect on the environment and they make no or minimal changes to land uses, development intensities, or the rate at which development is expected to occur.

SECTION 3. General Plan Consistency Finding. The ordinance amendments are consistent with the goals and policies of the San Anselmo General Plan, including maintaining the viability of the Town's commercial core and preserving its small-town character; and by encouraging the monitoring and review of conditional use permits and nonconforming uses, the amendments promote the appropriate use of property, discourage long-term vacancy or disuse, and support the overall health and vitality of the Town's commercial areas;

SECTION 4. Ordinance Amendment 1. The following are changes and amendments to the Town of San Anselmo Municipal Code Title 10, "Planning and Zoning," Chapter 3, "Zoning," Article 13, "Conditional Use Permit," as set forth below. Amendments shall be renumbered as appropriate.

Article 13. – Conditional Use Permit

10-3.1301 – Purpose and intent.

The purpose of this Article is to allow for uses within a zoning district that may be made compatible with the primary uses of the district with the imposition of conditions if the findings are satisfied.

10-3.1302 – Initiation of a conditional use permit.

A conditional use permit may be initiated by any of the following:

(a) The owner or owners of record of a lot or lots for which a conditional use permit is sought; or

(b) The Town Council, when such conditional use permit is required for activities taken on behalf of the Town. The initiation of a conditional use permit by the Town Council may be either upon the Council's initiation, or by recommendation of the Community Development Director or the Planning Commission.

10-3.1303 – Application requirements.

An application for a conditional use permit shall be submitted with content specified by the Community Development Director together with such other information as may be required by the hearing body and/or Community Development Director or designee, and the required fees shall be paid. The schedule of fees shall be determined by resolution of the Town Council.

10-3.1304 – Review of conditional use permit.

A conditional use permit may be acted upon either by: (1) the Community Development Director or designee; or (2) the Planning Commission after it conducts one (1) or more public hearings on the conditional use permit. In approving a conditional use permit, the Community Development Director and/or Planning Commission may impose any condition that is reasonably necessary to achieve the objectives of this Title; however, no condition may require the dedication of land for any purpose not reasonably related to the use of the property for which the permit is being requested, nor the posting of a bond to guarantee installation of public improvements not reasonably related to the use of the property for which the permit is requested.

The following identifies which conditional use permit applications may be acted upon by the Community Development Director, or designee, and which use permit applications shall be acted upon by the Planning Commission:

(a) Community Development Director, or designee.

(1) Accessory use, when such a use is very low in scale, will not cause a significant increase in intensity of use of the property, and will not alter the primary use of the facility.

(2) Outdoor storage and display of merchandise, plants, and street furniture based upon one (1) of the following:

(a) Within the "C" Districts, the outdoor display and sale of merchandise for a limited time period; and

(b) Within all Districts, the outdoor placement of plants and street furniture on public or private property in limited quantity which, in the opinion of the Community Development Director, will not hinder the free use of the public sidewalk. Such plants and street furniture shall not bear signs, price tags, or other indications that the plants or street furniture are for sale or rent.

(3) Temporary uses.

(a) Temporary uses. Any use may be authorized on a temporary basis in any commercial zoning district for up to and no more than one (1) year provided the use conforms with the Town's Building and Fire Codes. The Community Development Director may allow a single extension of the original time limits and not to exceed the length of the time originally allowed.

The Community Development Director may refer any of the above to the Planning Commission if, in the opinion of the Community Development Director, review by the commission is desirable.

(b) Planning Commission.

All other conditional use permit applications not identified in subsection (a) of this section. Should a property require more than one (1) planning application and should any of those applications require Planning Commission review, then all planning applications associated with the property shall require Planning Commission review.

10-3.1305 – Required findings for conditional use permit.

The Community Development Director, or designee, or the Planning Commission, as applicable, may grant an application for a conditional permit if all of the following findings can be made:

(a) The proposed location of the conditional use is consistent with the objectives of this Title and the purpose of the zoning district;

(b) The proposed location of the conditional use and the conditions under which the use would be operated or maintained will not be detrimental to the public health, safety, or welfare; and

(c) The proposed conditional use will comply with the general plan and each applicable provision of this Title.

In addition to the foregoing finding, special findings shall be made for certain districts or uses, as follows:

(d) Gasoline Stations—All Districts:

(1) Full Serve and Self-Service Gasoline Stations—ALL DISTRICTS: All operations including storage, excepting service with gasoline, oil, air, and water shall be conducted within a closed building.

(2) Self-Service Gasoline Stations—ALL DISTRICTS: The granting of the conditional use permit will not adversely affect the public health, safety, or welfare by either diminishing the availability of minor emergency health and safety services, including rest rooms and minor automobile repair.

(e) Limited Commercial (C-L) District—All Uses Requiring a Conditional Use Permit: The granting of the conditional use permit will not allow a use which generates traffic at a rate greater than:

(1) Fifty (50) vehicle trip ends for each one thousand (1,000) gross square feet of gross leasable building area; or

(2) The existing number of trips during the a.m. and p.m. peak hours generated by the existing use as of July 22, 1997 (the determination for vacant buildings will be the most recent use between February 26, 1991, and July 22, 1997) on Sir Francis Drake Boulevard. Those numbers of traffic trips typically generated for existing and proposed uses shall be obtained from the current edition of Trip Generation, Institute of Transportation Engineers.

(f) Ground Floor Office Uses—Downtown Commercial (C-2) District:

(1) The proposed office use supports the Town's economic development goals by contributing to a vibrant Downtown Commercial District.

(g) The granting or denying of a conditional use permit for the on-sale and off-sale of beer and wine in conjunction with the sale of motor fuel shall be subject to the following:

(1) The findings shall be based on substantial evidence in view of the whole record to justify the ultimate decision; and

(2) In addition to the standards listed in the state Business and Professions Code Licensing Restrictions, the Town has the authority to further condition the conditional use permit.

(h) The granting of a conditional use permit will not allow a use that diminishes the existing affordable housing stock, including multifamily units and mixed-use units (e.g., residential units above commercial uses).

(i) Animal Boarding: All exterior walls shall be soundproofed to eliminate potential animal noise to the exterior of the building.

(j) Light Manufacturing: The use shall not cause odors, noise, and other factors which make the environment less desirable.

(k) All Commercial Uses: The size and operating characteristics of the proposed development would provide a balanced mix of uses that would be compatible with the existing and future land uses in the vicinity.

(l) Planned Development — All Districts: Refer to the findings in Article 9 of this chapter of the San Anselmo Municipal Code.

10-3.1306 – Revocation of conditional use permit.

(a) A conditional use permit may be revoked or modified for noncompliance with any of the conditions specified in the permit or violation of law. The Planning

Commission shall hold a public hearing to consider the proposed revocation, which hearing shall be noticed in accordance with California Government Code Section 65091. The Planning Commission's decision may be appealed to the Town Council pursuant to Town Municipal Code Section 1-4.01 et seq. Failure to appear at a hearing pursuant to this section shall constitute a waiver of the right to object to the revocation of a conditional use permit under this section.

(b) For the purposes of this section, noncompliance with the conditional use permit shall include the violation of any condition in the conditional use permit and/or any abandonment of the approved use, which includes, without limitation, the replacement of the conditional use with another use and the absence of the use on the site that is the previously approved conditional use.

(c) The Town's right to revocation as provided in this section shall be cumulative to any other remedy allowed by law.

10-3.1307 – Lapse.

A conditional use permit approval shall lapse and become null and void one (1) year following the date on which the permit becomes effective unless: prior to the one (1) year expiration date, a building permit, or related business license, is issued and is active on the site that was the subject of the permit application; a certificate of occupancy is issued for the site or structure that was the subject of the conditional use permit application; or if an alternative period is specified in the conditional use permit. Where a conditional use permit authorizes construction of a new structure or an addition to an existing structure, the failure to secure a building permit and commence construction within the one (1) year period shall be deemed nonuse.

A conditional use permit approval may be renewed for an additional period of one (1) year provided that prior to the expiration of the year from the date when the permit originally became effective, an application for renewal is filed with the Community Development Department. The Community Development Director may grant an application for renewal where there is no change from the original application or condition or refer the matter to the Planning Commission. An application for renewal involving any change from the original application or condition shall be treated as a new application.

10-3.1308 – Expiration and effective date.

(a) The Community Development Director, or designee, or the Planning Commission, as applicable, may set an expiration date for a conditional use permit or may allow it without a specified expiration date. In the case of a conditional use permit with an expiration date, the applicant may apply for a new conditional use permit upon expiration.

(b) The conditional use permit shall become effective upon the expiration of ten (10) days following the date on which the permit was granted unless an appeal has been

made to the Town Council.

SECTION 5. Ordinance Amendment 2. Title 10, Chapter 3, Article 6, Section 607 "Nonconforming uses and improvements" is hereby repealed and replaced with Title 10, Chapter 3, Article 29 "Nonconforming uses, structures, and lots" as set forth below.

Article 29. – Nonconforming Uses, Structures, and Lots

10-3.2900 – Purpose and intent.

The purpose of this Article is to establish uniform provisions for the regulation of nonconforming land uses, structures, and lots.

(a) Within the zoning districts established by the Town's Zoning Ordinance, there exist land uses, structures, and lots that were lawful before the adoption or amendment of the Zoning Ordinance, but which would be prohibited, regulated, or restricted differently under the terms of the current Zoning Ordinance or future amendments.

(b) It is the intent of the Zoning Ordinance to discourage the long-term continuance of nonconformities, but to permit them to exist under limited conditions.

(c) This Article does not apply to land uses, structures, or lots that were illegally established, constructed, or divided.

10-3.2901 – Nonconforming uses of land.

(a) Prohibited activities. A nonconforming use of land, or a nonconforming use within a structure, may be continued, transferred, or sold only as follows:

(i) Owners or tenants of nonconforming uses shall not:

(1) Enlarge or increase the nonconforming use;

(2) Extend the nonconforming use to occupy a greater area of land than that occupied by the use at the time it became nonconforming; or

(3) Move the nonconforming use, in whole or in part, to any other location on the subject parcel.

(b) No change in use. A nonconforming use shall not be changed or expanded, except to reduce the extent of the nonconformity or to remove it from the site.

(c) Loss of legal nonconforming status. A nonconforming use shall not retain the benefits under this Article (unless exempt pursuant to this Article) if:

(i) The nonconforming use has been abandoned or discontinued for a continuous period of ninety (90) days, or if a structure is not occupied by the nonconforming use for a continuous period of ninety (90) days.

(ii) The structure in which the nonconforming use is conducted or maintained is destroyed. For the meaning of this Section, "destroyed" means destruction by any means of 75% or more than the assessed value of the structure excluding the land value, which determination shall be made by the Community Development Director.

(d) Replacement uses. The use of the site after the discontinuance or removal of a nonconforming use shall comply with all applicable requirements of the Zoning Ordinance and the zoning district.

10-3.2902 – Nonconforming structures.

(a) Additions or alterations. A nonconforming structure may be altered only as follows:

(i) A nonconforming structure may undergo additions or alterations, normal maintenance and repairs including painting, interior and exterior wall surface repair, window and roof repair, and fixture replacement provided that:

(1) The additions, alterations, and/or repairs comply with all applicable provisions of the Zoning Code; and

(2) Demolition shall be considered to occur when seventy-five (75%) or more of the existing exterior walls of a structure, measured above the foundation, are removed; and

(3) The structure shall not be enlarged or altered in a manner that increases its nonconformity; however, the structure or any portion thereof may be altered to decrease its nonconformity.

(b) Replacement after destruction. A nonconforming structure that is destroyed by any means, or declared unsafe by the Building Inspector, of 75% or more than the assessed value of the structure excluding the land value, which determination shall be made by the Community Development Director, shall be reconstructed or replaced only in compliance with all applicable provisions of the Zoning Ordinance.

(c) Seismic retrofitting and building code compliance. Repairs or alterations otherwise required by law shall be allowed in the following circumstances:

(i) Reconstruction required to reinforce unreinforced masonry structures shall be allowed without the cost limitations in this Article provided that it is limited exclusively to compliance with earthquake safety standards.

(ii) Reconstruction required to comply with the Town Building Code shall be allowed without the cost limitations in this Article provided that the reconstruction is limited exclusively to the applicable provisions in the Town Building Code.

(d) Exemptions.

(i) Dwellings. Nonconforming single- and multi-family dwellings that have been involuntarily damaged or destroyed may be reconstructed or replaced with a new structure using the same development standards applied to the damage or destroyed structure at the time of construction. If no specific development standards are applicable to the original structure, then it may be reconstructed or replaced as found prior to destruction.

(ii) Public structures and utilities. Nothing in this Article shall be construed to require the discontinuance, removal, or termination, or to prohibit the alteration, expansion, maintenance, rebuilding, reconstruction, repair or replacement of a publicly owned structure or utility.

All new construction under this section shall comply with all applicable current Building and Fire Codes.

10-3.2903 – Termination of nonconforming uses.

A nonconforming use may be terminated subject to the following provisions:

(a) The Town Council may initiate a public hearing to consider termination of a nonconforming use under this section on its own or upon the recommendation of the Planning Commission.

(b) The property owner shall be given notice of the hearing in accordance with California Government Code section 65091.

(c) Failure to appear at a hearing pursuant to this section shall constitute a waiver of a right to object to the termination of a nonconforming use status.

(d) The Town Council shall make the final determination whether to terminate a nonconforming use and shall issue a decision in writing. If the proposed termination is approved by the Council, the use may continue for a period of two (2) years from the date of the decision, after which time the nonconforming use shall cease.

SECTION 6. Severability. The Town Council hereby declares that every section, paragraph, sentence, clause, and phrase is severable. If any section, paragraph, sentence, clause or phrase of these Ordinance Amendments for any reason is found to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining sections, paragraphs, sentences, clauses or phrases.

SECTION 7. Effective Date. These Ordinance Amendments shall go into effect thirty (30) days from their adoption. Prior to the expiration of fifteen (15) days after adoption, these Ordinance Amendments or a summary thereof shall be published at least once in a newspaper of general circulation, along with the names of the members of the Town Council voting for and against its adoption, pursuant to Government Code Section 36933.

INTRODUCED AT A PUBLIC HEARING at a regular meeting of the San Anselmo Town Council on June 23, 2026, **and ADOPTED AT A PUBLIC HEARING** at a regular meeting of the San Anselmo Town Council on July 28, 2026, by the following vote:

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 2.1

MEETING DATE: July 28, 2026

AGENDA TITLE: Authorize the Town Manager to negotiate and execute an agreement with the Property Owners of 305 San Anselmo Avenue (APN007-282-20) for Public Parking in the Private Lot and Find the Project Exempt from the California Environmental Quality Act (14 Cal. Code Regs. § 15301).

FROM: Scott Schneider, Department of Public Works

RECOMMENDATION: That the Town Council 1) authorize the Town Manager to negotiate and execute an agreement with the property owners of 305 San Anselmo Avenue (APN007-282-20) for public parking in the private lot; and 2) find the project exempt from the California Environmental Quality Act (CEQA) under 14 Cal. Code Regs. § 15301.

SUMMARY

Staff has been in discussions with the owners of the US Bank parking lot at 305 San Anselmo Avenue regarding public use of the private lot to enhance available parking for visitors, shoppers and merchants. The lot would remain private, but would offer paid public parking from 9 am to 5 pm similar to other Town lots, and would also allow the owners to use dynamic pricing (for example, higher rates during lunchtime or additional paid hours of 5 pm to 10 pm for Live on the Avenue).

DISCUSSION/ANALYSIS

Town staff seeks Council authorization to enter into an agreement with the property owners whereby the property owners would provide parking available to the public, and the Town would provide pay stations, signage, and other operational support in exchange for the available public parking.

After discussing other options, such as the Town leasing the lot to operate as a public parking lot, staff determined that the best option would be an agreement as described above. Specifically, the Town would lease to the owners two pay stations that match the ones in the Creek Park Lot. The Town would service the pay stations (change paper,

clear jams, etc). The Town would also install new rules signage, Park Mobile signage, and refresh the striping (lines and arrows). Enforcement would be provided by Central Marin Police Authority, with the additional ticket revenue offsetting the increased staff costs to perform the enforcement. The property owners would also receive a portion of the parking revenue.

Staff suggests that the proposed partnership would provide significant benefits to the community by allowing more parking in the downtown area.

FISCAL IMPACT

The Town will be reimbursed by the parking lot owners for usage of two pay stations and associated fees, as well as staff time to monitor and service the pay stations.

All income will be deposited in the Downtown Parking Fund.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY

The Town finds this project to be categorically exempt from the requirement for the preparation of environmental documents under the California Environmental Quality Act (CEQA) under CEQA Guidelines Section 15301 Class 1, because it involves maintenance of existing streets (striping and signage), will not create additional automobile lanes and involves negligible or no expansion of use. (14 Cal. Code Regs. § 15301). None of the exceptions to this Class 1 categorical exemption apply in this instance (14 Cal. Code Regs. § 15300.2). Specifically, successive projects of the same type in the same location will not cause significant cumulative impacts, as there are no successive projects planned at this time. There are no unusual circumstances presented by this project and the project will not result in damage to scenic resources within a designated state scenic highway. Finally, the project will not cause a substantial adverse change in the significance of a historical resource, as no historical resources will be impacted.

The project proposes additional public parking in the downtown area that eases parking and allows for reducing minimum parking requirement for downtown businesses - San Anselmo’s Climate Action Plan 2030, specifically CAP Measures T-7 (parking).

The General Plan’s Land Use Element, F. Implementation, recommends a Central Commercial Circulation and Parking Study inform any recommended changes.

STAFF REPORT

TOWN OF SAN ANSELMO Item #:2.2

MEETING DATE: July 28, 2026

AGENDA TITLE: Adoption of Tobacco Retailer's License Temporary Moratorium Urgency Ordinance.

FROM: Linda Kenton, Assistant Town Manager
Emily Longfellow, Assistant Town Attorney

RECOMMENDATION Adopt Tobacco Retailer's License Temporary Moratorium Urgency Ordinance

BACKGROUND

On June 23, 2026, the Town Council held a discussion item regarding the potential regulation of tobacco, including the County of Marin's model Ordinance, and gave direction to staff to return with regulations for the Council's consideration.

In order to preserve the status quo of tobacco retailers, staff proposes a temporary moratorium on the issuance of Tobacco Retailer's Licenses.

As discussed at the June 23, 2026 meeting, the Marin County Model Ordinance is intended to curb tobacco and nicotine use by implementing a minimum floor price law and related restrictions on tobacco and nicotine products. The County adopted the model Ordinance on November 18, 2025, for Unincorporated Marin. (Marin County Code, Chapter 5-76.)

Neighboring municipalities have adopted, or are considering, the County Model Ordinance and other aligned regulations. For example, Fairfax adopted the County's Model Ordinance on February 4, 2026, with the additional prohibition on tobacco or nicotine pouches. Corte Madera adopted the Model Ordinance with the tobacco/nicotine pouch prohibition on March 17, 2026, and Sausalito adopted the same on May 5, 2026. Additionally, last fall, Tiburon and Ross each adopted ordinances banning the sale of tobacco and nicotine products in their jurisdictions (although neither town had retailers that sold tobacco or nicotine products).[1]

Mill Valley will be considering tobacco regulations in the fall, and Corte Madera may also be considering further regulations.

By way of further background, Manhattan Beach and Beverly Hills both have tobacco bans. In order to ease the impact on retailers, their ordinances had a period of time for retailers to phase out the sale of tobacco products. Case studies for Manhattan Beach and Beverly Hills may be found in the links indicated.

After hearing from members of the public and holding a discussion, the Council gave direction to staff to return with regulations for the Council's consideration in the fall.

DISCUSSION

The Town requires that a business selling tobacco products must first receive a tobacco retailer license. (SAMC Chapter 6-7.)

Government Code section 65858 allows the adoption of an ordinance to become effective immediately upon the passage by a 4/5 council vote, when the ordinance is necessary to protect public safety, health, and welfare, to prohibit uses and allow time to study permanent regulations. An urgency ordinance is initially effective for 45 days, and may be extended.

Here, staff suggests that the Council adopt a temporary moratorium on the issuance of new Tobacco Retailer's Licenses as an urgency ordinance to allow time to study the issue, and return regulations to the Council for its review.

It is well known that tobacco and nicotine products are a significant public health issue, particularly for youth. The World Health Organization estimates that tobacco kills over 7 million people annually worldwide, including approximately 230 deaths in Marin County. Nicotine is highly addictive, particularly for adolescents and young people, and can affect brain development including learning, memory, and attention (Campaign for Tobacco-Free Kids.) According to the American Lung Association, the majority of tobacco use begins in the teen years and people who start smoking at an early age are more likely to develop a severe nicotine addiction. Importantly, the density of retailers selling tobacco near adolescents' homes has been associated with increased youth smoking rates and the initiation of non-cigarette tobacco product use.

Here, staff suggests that a temporary moratorium on the issuance of new Tobacco Retailer's Licenses is necessary pending the study and possible Code amendments to regulate tobacco retailers. Without a temporary moratorium, the number of tobacco retailers is likely to continue to increase, along with the accompanying harms and access to tobacco and nicotine products by young people.

FISCAL IMPACT

There is no fiscal impact to the Town's budget associated with the potential adoption of a temporary moratorium.

CEQA AND CLIMATE ACTION PLAN

The Urgency Ordinance is not subject to the California Environmental Quality Act ("CEQA") because it does not constitute a "project" within the meaning of Public Resources Code section 21065. The Climate Action Plan is not implicated.

RECOMMENDATION

Tobacco Retailer's License Temporary Moratorium Urgency Ordinance

Attachment 1- Urgency Ordinance

ORDINANCE NO. XXX
AN URGENCY ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO ADOPTING A TEMPORARY MORATORIUM ON NEW TOBACCO RETAILER LICENSES PENDING STUDY AND POSSIBLE ADOPTION OF PERMANENT REGULATIONS

WHEREAS, the Town may make and enforce all regulations necessary to protect the public health, safety, and welfare pursuant to its police power under Article XI, Section 7 of the California Constitution; and

WHEREAS, the World Health Organization estimates that tobacco kills over 7 million people annually worldwide[1]; and

WHEREAS, smoking causes approximately 230 deaths in Marin County annually[2]; and

WHEREAS, the majority of tobacco use begins in the teen years and people who start smoking at an early age are more likely to develop a severe nicotine addiction[3]; and

WHEREAS, nicotine is highly addictive, particularly for adolescents and young people, and can affect brain development including learning, memory, and attention[4]; and

WHEREAS, the density of retailers selling tobacco near adolescents' homes has been associated with increased youth smoking rates and the initiation of non-cigarette tobacco product use[5]; and

WHEREAS, in response to significant health threats, the Town of San Anselmo has a history of regulating tobacco and smoking activities including:

- 2007 smoking prohibited in certain public areas and Town parks
- 2015 smoking prohibited in multi-family residential buildings
- 2015 vaping and e-cigarettes included in the definition of smoking
- 2019 sale of flavored tobacco and vaping products banned and tobacco retailer licenses required for sales; and

WHEREAS, San Anselmo Municipal Code, Chapter 6-7, prohibits the sale of tobacco without first obtaining a valid tobacco retailer's license; and

WHEREAS, the Town has a substantial interest in protecting the health and safety of the public, including young people, from the harms of tobacco use; and

WHEREAS, California Government Code section 65858(a) provides that for the purposes of protecting the public health, safety, and welfare, the Town Council may adopt an urgency ordinance, which is an interim ordinance preventing uses that may be in conflict with a land use measure proposal that the Town Council is studying or intends to study within a reasonable time; and

WHEREAS, at its duly noticed June 16, 2026 Town Council meeting, the Town Council held a discussion item related to potential regulations regarding tobacco and nicotine which may include land use regulations, and directed staff to study the issue and return to the Council with further proposals pursuant to its direction; and

WHEREAS, the Town Council finds that an urgency ordinance to become effective immediately imposing a temporary moratorium on the issuance of new tobacco retailer licenses ("Urgency Ordinance") is necessary to prevent the proliferation of tobacco sales pending the study and possible amendments to the San Anselmo Municipal Code to regulate tobacco retailers, including such issues as licensing, zoning, and reasonable regulations regarding tobacco retailers; and

WHEREAS, without the Urgency Ordinance, the number of tobacco retailers is likely to continue to increase, and the significant negative public health impacts as described above will also increase; and

WHEREAS, the Town Clerk caused notice of a public hearing regarding the Town Council's consideration of the Urgency Ordinance as required by State law; and

WHEREAS, the Town Council held a duly noticed public hearing on July 28 2026 and voted to adopt the Urgency Ordinance as required by Government Code section 65858.

NOW, THEREFORE, THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1: RECITALS. The above recitals are true and correct and are incorporated as findings herein.

SECTION 2: ENVIRONMENTAL REVIEW. The Urgency Ordinance is not subject to the California Environmental Quality Act ("CEQA") because it does not constitute a "project" within the meaning of Public Resources Code section 21065 since it does not authorize any construction, physical changes, or alterations to the environment; and CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility it would have a significant effect on the environment because the Urgency Ordinance preserves the existing status quo and does not impact land use or the environment.

SECTION 3: URGENCY. Based on the facts set forth in the recitals and incorporated herein by reference, due to the current and immediate threats to the public health, safety,

and welfare, the Town Council finds, determines, and declares that this Urgency Ordinance is necessary as an emergency measure for the immediate preservation of the public health, safety, and welfare, pursuant to, and as authorized by, California Government Code section 65858(a), and accordingly this Urgency Ordinance shall become effective immediately upon its adoption.

SECTION 4: TEMPORARY MORATORIUM. For the reasons set forth in the recitals and incorporated herein by reference, it is necessary to establish a temporary forty-five (45) day moratorium on the approval or issuance of any new tobacco retailer license pursuant to San Anselmo Municipal Code Chapter 6-7 pending the study and possible adoption of reasonable regulations regarding tobacco retailers including, but not limited to, tobacco retailer location, zoning, siting, and density. During the term of this Urgency Ordinance, as may be extended consistent with Government Code section 65858, the Town shall not issue any new tobacco retailer license. This Urgency Ordinance shall not apply to any application for a tobacco retailer license determined to be complete prior to the effective date of this Urgency Ordinance.

SECTION 5: PUBLICATION. The Town Clerk is directed to certify this Urgency Ordinance and cause it to be published in the manner required by law.

SECTION 6: SEVERABILITY. The Town Council hereby declares every section, paragraph, sentence, clause, and phrase is severable. If any section, paragraph, sentence, clause or phrase of this Urgency Ordinance is for any reason found to be invalid or unconstitutional, such invalidity, or unconstitutionality shall not affect the validity or constitutionality of the remaining sections, paragraphs, sentences, clauses or phrases.

SECTION 7: EFFECTIVE DATE. This Urgency Ordinance enacted under California Government Code section 65858 shall go into effect immediately upon its adoption of at least a four-fifths (4/5) vote of the Town Council.

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 2.3

MEETING DATE: July 28, 2026

AGENDA TITLE: Introduction and First Reading of an Ordinance Amendment Repealing and Replacing Title 10 “Planning and Zoning”, Chapter 11 “Density Bonus” Consistent with State Law.

FROM: Emily Longfellow, Assistant Town Attorney

RECOMMENDATION Town Staff recommends the Town Council take the following actions:

1. Hold a public hearing on the Ordinance Amendment.
2. Make a motion to read the Ordinance Amendment by title only. Staff shall read the full title of the Ordinance Amendment.
3. Make a motion to introduce the Ordinance Amendment, approve its first reading, and waive the second reading. If passed, the Ordinance Amendment will return for a second reading and adoption at the next regular Town Council meeting. (Attachment 1.)

BACKGROUND AND DISCUSSION

Staff brings forward this Ordinance Amendment consistent with the State Density Bonus Law (Gov. Code, § 65915 et seq.) as a clean-up measure to help ensure that the Municipal Code remains consistent with changing State law.

The Town’s Density Bonus Code, Chapter 10-11, was last updated in 2014 and contains language from the State Government Code in effect at that time. Rather than continue to update the Municipal Code as State law changes, staff has streamlined Chapter 10-11 to refer directly to State law.

Originally enacted in 1979, California’s Density Bonus Law (Gov. Code, § 65915 et seq.) allows a developer to build more housing units than a local ordinance allows, a density bonus, if a certain percentage of the units are rented or sold at affordable rates. The density bonus ranges from 5% to 50% based on the percentage of affordable units in a project, or up to 80% if all the total units are affordable. Housing for underserved populations, such as seniors, veterans, and persons experiencing homelessness, as well as developments that include qualifying childcare facilities, may also qualify for a density bonus. The law applies to developments with five or more residential units.

In addition to allowing additional units, State Density Bonus Law requires a local agency to grant developers certain incentives, concessions, and waivers of development standards based on the percentage and level of affordable units provided. These may include modifications or waivers of development standards such as height, floor area ratio (FAR), or setback requirements.

As noted above, the Town's Municipal Code includes Chapter 10-11 to implement the State Density Bonus Law, which was last updated in 2014. Like many housing-related statutes, the State Density Bonus Law has undergone numerous amendments since that time.

To help ensure the Town's Municipal Code remains current and consistent with State law, staff have simplified Chapter 10-11 to refer directly to the applicable provisions of the Government Code. This approach eliminates the need for future amendments each time the State revises the Density Bonus Law and includes language providing that future amendments to State law are automatically incorporated by reference.

On Monday, July 20, 2026, the Planning Commission conducted a duly noticed public hearing on the proposed Ordinance Amendment. Following the public hearing, the Planning Commission voted unanimously (6-0-1) to adopt Planning Commission Resolution No. 2026-16 recommending that the Town Council approve the Ordinance Amendment (See **Attachment 2**).

Staff recommend adoption of the Ordinance Amendment.

FISCAL IMPACT

No new fiscal impacts.

GENERAL PLAN AND CLIMATE ACTION PLAN CONSISTENCY

The proposed Ordinance Amendment is consistent with the General Plan Housing Element because it aligns with the Housing Element and encourages the development of housing at all income levels. The Ordinance Amendment is consistent with the Town’s Climate Action Plan Policy T-9 (Smart Growth Development).

CEQA AND CLIMATE ACTION PLAN

The Ordinance Amendment complies with State Density Bonus Law and is not considered a “project” under the California Environmental Quality Act (“CEQA”), Division 13 (commencing with Section 2100) of the Public Resources Code. The Ordinance Amendment is exempt from CEQA pursuant to CEQA Guidelines section 15301 involving the minor alteration of existing residences involving negligible or no expansion of use beyond that already in existence; and pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility

they would have a significant effect on the environment; the Amendment make minimal changes to land uses, development intensities, and the rate at which development is expected to occur, and are required by State Density Bonus Law Government Code section 65915 *et seq.*

RECOMMENDATION

1. Hold a public hearing on the Ordinance Amendment.
2. Make a motion to read the Ordinance Amendment by title only. Staff shall read the full title of the Ordinance Amendment.
3. Make a motion to introduce the Ordinance Amendment, approve its first reading, and waive the second reading. If passed, the Ordinance Amendment will return for a second reading and adoption at the next regular Town Council meeting. (Attachment 1.)

Alternatively, the Town Council may give direction to staff to return with changes to the proposed Amendment at a future meeting or vote not to adopt the proposed Amendment.

Attachment 3- State Density Bonus Law Housing Fact Sheet

ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO REPEALING AND REPLACING TITLE 10 "PLANNING AND ZONING", CHAPTER 11 "DENSITY BONUS" AND MAKING ASSOCIATED CEQA EXEMPTION FINDINGS

WHEREAS, State Density Bonus Law, Government Code section 65915 *et seq.* allows a developer to build more housing units than allowed by local regulations (a density bonus), provides certain concessions and incentives, and allows for the waiver or reduction of local development standards if the development meets certain requirements regarding the inclusion of affordable housing; and

WHEREAS, the State of California has declared a "housing emergency" and periodically updates State housing laws, including State Density Bonus Law; and

WHEREAS, the Town of San Anselmo has a Density Bonus Ordinance that was last updated in 2014; and

WHEREAS, the Town desires to simplify its Density Bonus Ordinance to help ensure consistency with State law and accommodate future State law modifications; and

WHEREAS, the ordinance amendment would repeal and replace Town Municipal Code, Title 10, Chapter 11 "Density Bonus" consistent with State law ("Ordinance Amendment"); and

WHEREAS, the Planning Commission is responsible for providing recommendations to the Town Council for proposed amendments to the Town's Zoning Code pursuant to Government Code section 65853 *et seq*.; and

WHEREAS, the Planning Commission held a duly noticed public hearing on July 20, 2026 and voted to recommend that the Town Council adopt the Ordinance Amendment; and

WHEREAS, the Town Clerk caused notice of a Town Council public hearing regarding the Town Council's consideration of adoption of the Ordinance Amendment in the Marin Independent Journal newspaper on as required by Government Code section 36933 and published the text of the Ordinance Amendment as required by State law; and

WHEREAS, on July 28, 2026 the Town Council held a duly noticed public hearing to consider introduction of the Ordinance Amendment; and

WHEREAS, the Ordinance Amendment complies with State Density Bonus Law and is not considered a "project" under the California Environmental Quality Act ("CEQA"), Division 13 (commencing with Section 2100) of the Public Resources Code. The Ordinance Amendment is exempt from CEQA pursuant to CEQA Guidelines section 15301 involving the minor alteration of existing residences involving negligible or no expansion of use beyond that already in existence; and pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility they would have a significant effect on the environment; the Amendment make minimal changes to land uses, development intensities, and the rate at which development is expected to occur, and are required by State Density Bonus Law Government Code section 65915 *et seq.*; and

WHEREAS, the proposed Ordinance Amendment is consistent with the General Plan because the General Plan Housing Element encourages the development of new housing and the proposed Amendment will facilitate housing production, and comply with State law; and

WHEREAS, the adoption of the proposed Ordinance Amendment is in the public interest because it encourages the development of increased housing and affordable housing, and is necessary to comply with State law; and

NOW, THEREFORE, THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1: Recitals. The above recitals are true and correct and incorporated as findings herein.

SECTION 2: Environmental Review. The Ordinance Amendment complies with State Density Bonus Law and is not considered a "project" under the California Environmental Quality Act ("CEQA"), Division 13 (commencing with Section 2100) of the Public Resources Code. The Ordinance Amendment is exempt from CEQA pursuant to CEQA Guidelines section 15301 involving the minor alteration of existing residences involving negligible or no expansion of use beyond that already in existence; and pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility they would have a significant effect on the environment; the amendment make minimal changes to land uses, development intensities, and the rate at which development is expected to occur, and are required by State Density Bonus Law Government Code section 65915 *et seq.*

SECTION 3: General Plan Consistency Finding. Ordinance Amendment is consistent with the General Plan because the General Plan Housing Element encourages the development of new housing and the proposed Amendment will facilitate housing production, and comply with State law.

SECTION 4: Ordinance Amendment.

Title 10 of the San Anselmo Municipal Code "Planning and Zoning", Chapter 11 "Density Bonus" is hereby repealed in its entirety and replaced as follows:

DENSITY BONUS

10-11.010 – Title, Purpose, and Incorporation of Amendments.

(a) Title. This chapter shall be known as the "San Anselmo Density Bonus Ordinance".
(b) Purpose. The purpose of this chapter is to comply with State Density Bonus Law, Government Code sections 65915 through 65918, as may be amended from time to time, facilitate the production of affordable housing, and to implement the goals, policies, and programs of the San Anselmo General Plan Housing Element.
(c) If any provisions of the State Density Bonus Law are amended, those provisions shall be automatically incorporated into this chapter. In the event of

any inconsistencies between State Density Bonus Law and the provisions of this chapter, the provisions of the State Density Bonus Law shall apply.

10-11.020 – Definitions. The definitions found in the State Density Bonus Law shall apply to this chapter, unless otherwise specified.

10-11.030 – Applicability. This chapter shall apply to all zoning districts that permit housing under the General Plan Land Use Element designation and/or Zoning District. Where the density allowed under the Zoning District is inconsistent with the density allowed under the General Plan, the General Plan density designation shall prevail.

10-11.040 – Application. An applicant seeking a density bonus, incentive or concession, waiver or modification of a development standard, or a revised parking standard shall submit an application on a form provided by the Community Development Department ("Application"), which shall be processed concurrently with all other applications required for the housing development project. The applicant shall submit reasonable documentation to establish eligibility for the requested density bonus, incentives or concessions, and/or waivers or reductions of development standards and parking ratios to the reasonable satisfaction of the Community Development Director. The Application shall be processed in the same manner, and concurrently with, the application for the development.

10-11.050 – Eligibility Guarantees. Prior to construction of a density bonus development project, the developer shall ensure that the applicable unit(s) retain their affordability consistent with State Density Bonus Law to the satisfaction of the Community Development Director, which may include, but is not limited to, entering into an agreement with the Town in a form acceptable to the Town Attorney providing that the unit(s) will be subject to a deed restriction(s), and recording such deed restriction(s) against the property.

10-11.060 – Review. In reviewing an application for a density bonus, incentive or concession, or waiver or modification of a development standard the following findings and requirements apply:

(1) An application for a density bonus, concession or incentive, and/or waiver or modification of a development standard shall be granted if the requirements of the State Density Bonus Law, as may be amended from time to time, are satisfied.

(2) For a housing development qualifying pursuant to the requirements of Government Code section 65915, the Town shall grant a density bonus in an amount specified by Government Code section 65915. The density bonus units shall not be included when calculating the total number of housing units that qualify the housing development for a density bonus, except as may otherwise be required by Government Code section 65915. All density calculations resulting in a fractional unit shall be rounded up to the next whole number.

(3) The Town shall grant the applicant the number of incentives or concessions as required by Government Code section 65915, and shall grant the specific

concession(s) or incentive(s) requested unless the Town makes written findings based on substantial evidence pursuant to Government Code section 65915(d).

(4) The Town shall grant a waiver or reduction in a development standard if the development standard would have the effect of physically precluding the project at the requested densities and with the concessions or incentives permitted. The Town shall approve the waiver or reduction of the development standard(s) unless the Town makes written findings based on substantial evidence pursuant to Government Code section 65915(e).

(5) The Town shall not condition the submission, review, or approval of an application pursuant to this Chapter on the preparation of an additional report or study that is not otherwise required by State law; provided, however, that the Town may require the applicant to provide reasonable documentation to establish eligibility for a density bonus, an incentive or concession, or a waiver or reduction in development standards.

SECTION 5: Severability. The Town Council hereby declares every section, paragraph, sentence, clause, and phrase is severable. If any section, paragraph, sentence, clause or phrase of this Ordinance Amendment for any reason is found to be invalid or unconstitutional, such invalidity, or unconstitutionality shall not affect the validity or constitutionality of the remaining sections, paragraphs, sentences, clauses or phrases.

SECTION 6: Effective Date. This Ordinance Amendment shall go into effect thirty (30) days from its adoption. Prior to the expiration of fifteen (15) days of adoption, this Ordinance Amendment or a summary thereof pursuant to Government Code section 36933, shall be published at least once in a newspaper of general circulation, along with the names of the members of the Town Council voting for and against its adoption.

INTRODUCED AND ADOPTED AT A PUBLIC HEARING at a regular meeting of the San Anselmo Town Council on July 28, 2026 by the following vote:

SAN ANSELMO PLANNING COMMISSION
RESOLUTION NO. 2026-16

RESOLUTION OF THE PLANNING COMMISSION OF THE TOWN OF SAN ANSELMO RECOMMENDING THE TOWN COUNCIL ADOPT AN ORDINANCE AMENDMENT REPEALING AND REPLACING TITLE 10 "PLANNING AND ZONING", CHAPTER 11 "DENSITY BONUS" CONSISTENT WITH STATE LAW

WHEREAS, State Density Bonus Law, Government Code section 65915 *et seq.* allows a developer to build more housing units than allowed by local regulations (a density bonus), provides certain concessions and incentives, and allows for the waiver or reduction of local development standards if the development meets certain requirements regarding the inclusion of affordable housing; and

WHEREAS, the State of California has declared a "housing emergency" and periodically updates State housing laws, including State Density Bonus Law; and

WHEREAS, the Town of San Anselmo has a Density Bonus Ordinance that was last updated in 2014; and

WHEREAS, the Town desires to simplify its Density Bonus Ordinance to help ensure consistency with State law and accommodate future State law modifications; and

WHEREAS, the ordinance amendments would repeal and replace Town Municipal Code, Title 10, Chapter 11 "Density Bonus" consistent with State law ("Ordinance Amendments"); and

WHEREAS, the Ordinance Amendment complies with State Density Bonus Law and is not considered a "project" under the California Environmental Quality Act ("CEQA"), Division 13 (commencing with Section 2100) of the Public Resources Code. The Ordinance Amendments are exempt from CEQA pursuant to CEQA Guidelines section 15301 involving the minor alteration of existing residences involving negligible or no expansion of use beyond that already in existence; and pursuant to CEQA Guidelines section 15061(b)(3) because it can be seen with certainty that there is no possibility they would have a significant effect on the environment; the amendments make minimal changes to land uses, development intensities, and the rate at which development is expected to occur; and

WHEREAS, the proposed Ordinance Amendment is consistent with the General Plan because the General Plan Housing Element encourages the development of new housing and the proposed Amendments will facilitate housing production; and

WHEREAS, the adoption of the proposed Ordinance Amendment is in the public interest because it encourages the development of increased housing and affordable housing, and is necessary to comply with State law; and

WHEREAS, the Planning Commission is responsible for providing recommendations to the Town Council for proposed amendments to the Town's Zoning Code pursuant to Government Code section 65853 *et seq*.; and

WHEREAS, the Planning Commission held a duly noticed public hearing on July 20, 2026, and voted to recommend that the Town Council adopt the Ordinance Amendment.

NOW, THEREFORE, BE IT RESOLVED that:

1. The above recitals are true and correct and incorporated as findings herein.
2. The Planning Commission of the Town of San Anselmo does hereby recommend that the Town Council adopt the proposed Ordinance Amendment as set forth in **Exhibit A** attached hereto.

RESOLUTION PASSED AND ADOPTED, at the regular meeting of the San Anselmo Planning Commission on the 20th day of July 2026, by the following vote:

AYES: Sheman, Ticknor, Pipkin, Strauss, Asselstine, Heiman
NOES: None
ABSTAIN: None
ABSENT: Thomas
RECUSED: None

Heidi Scoble, AICP
Secretary to the Planning Commission

Exhibit A

Title 10 of the San Anselmo Municipal Code "Planning and Zoning", Chapter 11 "Density Bonus" is hereby repealed in its entirety and replaced as follows:

10-11.010 – Title, Purpose, and Incorporation of Amendments.

(a) Title. This chapter shall be known as the "San Anselmo Density Bonus Ordinance".
(b) Purpose. The purpose of this chapter is to comply with State Density Bonus Law, Government Code sections 65915 through 65918, as may be amended from time to time, facilitate the production of affordable housing, and to implement the goals, policies, and programs of the San Anselmo General Plan Housing Element.
(c) If any provisions of the State Density Bonus Law are amended, those provisions shall be automatically incorporated into this chapter. In the event of any inconsistencies between State Density Bonus Law and the provisions of this chapter, the provisions of the State Density Bonus Law shall apply.

10-11.020 – Definitions. The definitions found in the State Density Bonus Law shall apply to this chapter, unless otherwise specified.

10-11.030 – Applicability. This chapter shall apply to all zoning districts that permit housing under the General Plan Land Use Element designation and/or Zoning District. Where the density allowed under the Zoning District is inconsistent with the density allowed under the General Plan, the General Plan density designation shall prevail.

An applicant seeking a density bonus, incentive or concession, waiver or modification of a development standard, or a revised parking standard shall submit an application on a form provided by the Community Development Department ("Application"), which shall be processed concurrently with all other applications required for the housing development project. The applicant shall submit reasonable documentation to establish eligibility for the requested density bonus, incentives or concessions, and/or waivers or reductions of development standards and parking ratios to the reasonable satisfaction of the Community Development Director. The Application shall be processed in the same manner, and concurrently with, the application for the development.

10-11.050 – Eligibility Guarantees. Prior to construction of a density bonus development project, the developer shall ensure that the applicable unit(s) retain their affordability consistent with State Density Bonus Law to the satisfaction of the Community Development Director, which may include, but is not limited to, entering into an agreement with the Town in a form acceptable to the Town Attorney providing that the unit(s) will be subject to a deed restriction(s), and recording such deed restriction(s) against the property.

10-11.060 – Review. In reviewing an application for a density bonus, incentive or concession,

or waiver or modification of a development standard the following findings and requirements apply:

(1) An application for a density bonus, concession or incentive, and/or waiver or modification of a development standard shall be granted if the requirements of the State Density Bonus Law, as may be amended from time to time, are satisfied.

(2) For a housing development qualifying pursuant to the requirements of Government Code section 65915, the Town shall grant a density bonus in an amount specified by Government Code section 65915. The density bonus units shall not be included when calculating the total number of housing units that qualify the housing development for a density bonus, except as may otherwise be required by Government Code section 65915. All density calculations resulting in a fractional unit shall be rounded up to the next whole number.

(3) The Town shall grant the applicant the number of incentives or concessions as required by Government Code section 65915, and shall grant the specific concession(s) or incentive(s) requested unless the Town makes written findings based on substantial evidence pursuant to Government Code section 65915(d).

(4) The Town shall grant a waiver or reduction in a development standard if the development standard would have the effect of physically precluding the project at the requested densities and with the concessions or incentives permitted. The Town shall approve the waiver or reduction of the development standard(s) unless the Town makes written findings based on substantial evidence pursuant to Government Code section 65915(e).

(5) The Town shall not condition the submission, review, or approval of an application pursuant to this Chapter on the preparation of an additional report or study that is not otherwise required by State law; provided, however, that the Town may require the applicant to provide reasonable documentation to establish eligibility for a density bonus, an incentive or concession, or a waiver or reduction in development standards.

STATE DENSITY BONUS LAW

Government Code §§ 65915, 65914.1, 65915.2, 65915.5

INTRODUCTION

The State Density Bonus Law (SDBL) is a long-standing feature of state law that provides benefits to developers when they agree to include affordable housing in projects of five or more units. The law has undergone numerous changes over the years, maintaining its status as one of California's most frequently used housing laws. Local jurisdictions must adopt a local density bonus ordinance that meets state requirements. Even without such an ordinance, local agencies must provide developers the benefits to which the law entitles them.

The Housing Law Fact Sheets provide an overview of existing laws which the California Department of Housing and Community Development (HCD) has statutory authority to enforce. The fact sheet does not constitute legal advice but is intended to be a resource for local agencies and decision-makers within California, including members of City Councils, Boards of Supervisors, and Planning Commissions.

KEY PROVISIONS

Privileges of State Density Bonus Law

Under the SDBL, developers are entitled to any or all of the following, at their discretion, if they include the requisite percentage of affordable units in a housing development project: an increase in allowable density, concessions and incentives, waivers or reductions of development standards, and reductions in parking requirements.

State Density Bonus Eligibility

The percentage of affordable units is calculated off the base project, meaning the total number of units prior to any units added through additional density or other benefits of the law. The base project's density is based on the gross residential density of the parcel(s) that comprise(s) the housing development site and the highest residential density available under the zoning ordinance, specific plan, or land use element of the general plan.

To qualify for benefits under the law, developers must provide at least one of the following:

- **Very Low-Income.** 5 percent of the units affordable to very low-income households,
- **Low-Income.** 10 percent of the units affordable to low-income households,
- **Moderate-Income**. 10 percent of the units affordable to moderate-income households in a for-sale development,
- **Lower-Income Students.** 20 percent of the "units" affordable to lower-income students in a student housing development (e.g., dorm- or congregate-style buildings where a unit is a bed plus a share of the common facilities), or
- **Seniors**. A senior housing development or senior mobile home park.

Increase in Allowable Density

If a developer has a project that meets the eligibility requirements, jurisdictions must grant an increase in allowable density. A developer can also request a lesser amount of density increase or no density increase at all. In addition, a jurisdiction may adopt an ordinance that offers additional density beyond what is specified in the SDBL.

General Projects

For most projects, the allowable density increase is based on a sliding scale depending on the percentage of affordable units included, as follows:

- **Very Low-Income Projects**. A 20- to 50-percent increase in density for including 5 to 15 percent very low-income units.
- **Low-Income Projects.** A 20- to 50-percent increase in density for including 10 to 24 percent low-income units.
- **Moderate-Income For-Sale Projects**. A 5- to 50-percent density increase for including 10 to 44 percent moderate-income units in a for-sale development.

Jurisdictions must also grant an additional "stacking" density bonus based on a sliding scale if a project would not restrict more than 50 percent of the total pre-density bonus units to moderate- or lower-income households and includes additional affordable units, as follows:

- **Very Low-Income Projects.** An additional 20- to 38.75-percent increase in density for including 5 to 10 percent very low-income units.
- **Moderate-Income Projects.** An additional 20- to 50-percent increase in density for including 5 to 15 percent moderate-income units (either for-sale or rental).

Senior and Student Housing Projects

For senior housing projects, the bonus is 20 percent of the number of senior units in the base project. For student housing projects, the bonus ranges from 35 to 50 percent, increasing based on the percentage of affordable student housing units.

100 Percent Affordable Housing Projects

For 100 percent affordable housing projects—if the final project, counting both base units and bonus units, will include at least 80 percent (and up to 100 percent) lower-income units and no more than 20-percent moderate-income units—the developer is entitled to a bonus equal to 80 percent of the number of lower-income units in the base project.

If an affordable housing project is located within a half mile of a major transit stop, the jurisdiction may not impose any limits on density (i.e., the developer is entitled to as many additional units as can fit on the project site but may be limited by the local government to no more than three additional stories of building height).

Concessions or Incentives

The term "concessions and incentives" is defined broadly to include:

- A reduction in site development standards or a modification of zoning code requirements or architectural design requirements that exceed the minimum building standards approved by the California Building Standards Commission that result in cost reductions.
- Approval of mixed-use zoning in conjunction with the housing project if commercial, office, industrial, or other land uses will reduce the cost of the housing development and the non-housing uses are compatible with the housing project and existing or planned development in the area.
- Any other regulatory incentives or concessions proposed by the developer or the jurisdiction that result in cost reductions.

Jurisdictions are legally obligated to grant requested concessions or incentives (i.e., "shall approve") unless they find, based on substantial evidence, that the concession or incentive does not reduce costs; would have a specific, adverse impact on public health and safety or a historical resource in a way that cannot be mitigated; or is against state or federal law.

Developers using SDBL are entitled to request specific concessions or incentives on a sliding scale as follows:

# of Concessions	Project Affordability
1	At least 5 percent very low-income units, 10 percent low-income units, 10 percent for-sale moderate-income units, or 20 percent lower-income student housing in a student housing project.
2	At least 10 percent very low-income units, 17 percent low-income units, 20 percent for-sale moderate-income units, or 23 percent lower-income student housing in a student housing project.
3	At least 15 percent very low-income units, 24 percent low-income units, or 30 percent for-sale moderate-income units
4	At least 16 percent lower-income units or at least 45 percent for-sale moderate-income units.
5	100 percent affordable.

Jurisdictions cannot limit developers to specific concessions and incentives listed in a local density bonus ordinance. Local density bonus ordinances may have a "menu" of concessions and incentives for developers to choose from, but developers are free to ask for things that are not on that list. Local jurisdictions, however, are not required to grant any concession that would serve to facilitate construction of the portion of a mixed-use development that contains a hotel use. In addition, concessions cannot be used to increase commercial floor area more than 2.5 times the base zone commercial floor area ratio.

Waivers

In addition to concessions and incentives, developers are entitled to relief from development standards that physically preclude development of the project at the density and with the concessions and incentives allowed under the law, either through a reduction in the standard or through a waiver. For example, setback requirements or height limits may create challenges to accommodating a larger building on a site and may need to be reduced or waived entirely.

Jurisdictions may only deny requests for waivers or reductions of development standards for the same limited reasons as for rejecting a concession or incentive. Affordable housing projects within a half mile of a major transit stop that receive unlimited density are entitled to an additional three stories or 33 feet of height. Applicants that seek unlimited density may request additional waivers or reductions of development standards affecting height beyond the prescribed three additional stories, but the jurisdiction is not required to grant them.

Reduction in Parking Requirements

Developers are entitled to reductions in parking requirements. Generally, a jurisdiction may not require a density bonus project to include more than the following number of parking spaces:

- **1 parking space** for studios and 1-bedroom units
- **1.5 parking spaces** for 2- and 3-bedroom units
- **2.5 parking spaces** for 4- or more bedroom units

No parking spaces are required for special-needs housing, supportive housing, and senior housing more than a half mile from transit if served by paratransit, or any student housing development.

Further Reductions in Parking Requirement

- **0.5 parking space per unit** for projects with at least 20 percent low-income units or 11 percent very low-income units within a half mile of a major transit stop.
- **0.5 parking space per bedroom** for projects with at least 40 percent moderate-income units within a half mile of a major transit stop.
- **No parking requirement** for projects within a half mile of a major transit stop in which all units are affordable to lower-income households, including special-needs housing and supportive housing, and senior rental housing. Please note that Government Code section 65863.2 further restricts parking minimum requirements for developments near major transit stops.

Replacement Requirements

Developers must agree to replace certain units that are demolished in conjunction with the project, or that have been demolished on the project site within the last five years. Replacement units count towards meeting the affordable housing set-aside requirement to qualify for benefits under the law. Units that must be replaced include:

- Deed-restricted housing affordable to low- and very low-income households
- Rent-controlled housing
- Housing that is or was occupied by low- or very low-income households

A replacement unit must be affordable at the same or lower income level as the current occupant of the unit it is replacing, or at the most recent former occupant's income level for vacant or already demolished units. In cases where the income level of current or former occupants is unknown, the replacement obligation is determined by formula.

The majority of rental replacement units will be deed-restricted for at least 55 years to be affordable to either low- or very low-income households. The exception is when the rental unit is replacing a rent-controlled unit that is currently occupied by a household with an income above low-income (i.e., above 80 percent of area median income). In this case, it is up to the jurisdiction to decide whether the developer must replace that unit with a deed-restricted unit affordable to low-income households or with a new rent-controlled unit pursuant to the jurisdiction's rent control ordinance.

If the proposed development is for-sale units, the replacement units must also be for-sale units and must be sold to low-, very low-, or moderate-income households at an affordable price.

Replacement units must be of equivalent size to the units they are replacing. However, when a project is replacing multiple units, the "equivalent size" requirement can be met by replacing the total number of bedrooms across multiple units. For example, a project that has an obligation to replace five three-bedroom units and five one-bedroom units could meet the replacement obligation with 10 two-bedroom units.

RECENT OPINION FROM ATTORNEY GENERAL'S OFFICE

In April 2025, the Attorney General's Office issued an opinion that a city or county may not impose its local affordable housing requirements, such as inclusionary zoning, on the density bonus units awarded under SDBL.

RECENT HCD TECHNICAL ASSISTANCE LETTERS

City of San Diego, December 12, 2024	SDBL permits the City to approve the requested incentive and associated waiver or to deny the requested incentive and associated waiver by making a written finding, based on substantial evidence, that the incentive does not result in identifiable and actual cost reductions to provide for affordable housing.
City of Carlsbad, February 16, 2024	Accessory dwelling units (ADUs) may count toward the five-unit eligibility criteria for a housing development project, but ADUs do not count for density bonus calculations.
City of El Cajon, February 16, 2023	A project may use SDBL on a site with existing units. The existing units may be physically altered or deed restricted to qualify as dependent units. SDBL does not contain

	comparability or dispersal requirements. Deed restrictions may float between units.

LEGISLATIVE HIGHLIGHTS

Concessions for Commercial Floor Area Ratio SB 92, Blakespear (2025); amended Gov. Code, § 65915.	Limits the use of concessions that would allow an increase of commercial floor area ratio beyond 2.5 times the current allowed base zone commercial floor area, and jurisdictions are not required to grant any concession that would serve to facilitate hotel or other transient lodging uses that are a part of a mixed-use development.
Maximum Allowable Residential Density, or Base Density AB 1287, Alvarez (2023); amended Gov. Code, § 65915.	Increases the incentives or concessions for a 100% lower income project from 4 to 5. Clarifies that the maximum allowable residential density, or base density, is defined as the greatest number of units allowed by the zoning, specific plan, or general plan land use element and any inconsistency between planning documents is irrelevant.
Parking, Low VMT, Definitions, Thresholds AB 2334, Wicks (2022); amended Gov. Code, § 65915.	Makes the following changes to SDBL: ▶ **Allowances to Low VMT Areas.** Expands the height and density provisions that apply for 100 percent affordable projects within a half mile of a major transit stop to also apply to "very low vehicle travel areas" within designated counties. ▶ **No Parking Minimum Parking Requirements for 100% Affordable Developments Under Certain Conditions.** Eliminates minimum parking requirements where 100 percent of the units are for lower-income households within a half mile of a transit stop or the development is for individuals who are 55 years of age or older where the development has paratransit service or access to transit. ▶ **Minimum Lot Area and Maximum Allowable Density Definitions**. Includes "minimum lot area per unit" and clarified that the definition of "maximum allowable residential density" is the highest available density in the general plan, zoning code, or specific plan applies regardless of document inconsistencies. ▶ **Conditions for 100% Lower Income Developments.** Changes requirements applicable to qualifying developments with 100 percent lower-income developments by allowing the rent to be set at an amount consistent with the maximum rent levels for lower-income households determined by the California Tax Credit

	Allocation Committee. For enforcement of agreements for for-sale units, the local government may defer to the equity sharing recapture provisions.
Imposition of Fees. AB 571, Mayes (2021); amended Gov. Code, § 65915 § 65915.1.	Prohibits a jurisdiction from imposing affordable housing fees (i.e., fees intended to support the development of affordable housing within the jurisdiction) on the affordable units in a density bonus project.
Modifies the Proportions of the Density Bonus. AB 2345, Gonzalez (2020); amended Gov. Code, §§ 65400 and 65915.	Extends the charts that dictate the amount of density a developer gets in exchange for including affordable units to allow up to a 50-percent density bonus. Previously, the tables had stopped at a 35-percent density bonus. Also changes the percentage of affordable units at which a developer is entitled to an additional concession or incentive but did not change the previous statutory maximum of four. Reduces the maximum number of parking spaces a jurisdiction can require for two- and three-bedroom units from 2 to 1.5. Reduces the number of parking spaces a jurisdiction can require for certain projects within a half mile of transit from 0.5 spaces per bedroom to 0.5 spaces per unit.

STAFF REPORT

TOWN OF SAN ANSELMO Item #:2.4

MEETING DATE: July 28, 2026

AGENDA TITLE: Resolution of Intent to Abandon a Portion of a Public Easement Adjacent to 250 Redwood Road in San Anselmo

FROM: Will Messinger, Assistant Civil Engineer

RECOMMENDATION:

Staff recommends that the Council consider adopting the proposed Resolution of Intent to Abandon a portion of the right-of-way adjacent to 250 Redwood Road in San Anselmo. (Attachment 1).

BACKGROUND:

State law provides the exclusive method by which streets and highways, which include public rights-of-way[1], can be vacated.[2] The Public Streets, Highways, and Service Easements Vacation Law spells out the requisite procedures. (Sts. & Hy. Code §§ 8300-8363.)

Following receipt of a complete application and detailed review by staff, the Town Council initiates the formal vacation process by adopting a Resolution of Intent to Abandon a ROW. The Resolution of Intent sets a date for a public hearing on the abandonment. (Str. & Hy. Code § 8320.) Information contained in the Resolution of Intent to Abandon, including the hearing time and date, is posted along the street to be vacated and published in the newspaper for at least two weeks prior to the hearing. (Sts. & Hy. Code §§ 8322, 8323.)

In addition, before the hearing, the Planning Agency must make a finding that the proposed abandonment conforms with the Town's General Plan. (Gov. Code § 65402.) Staff must also contact utilities to ensure that their access rights are preserved following vacation.

[1] Under state law, "Street" and "highway" include all or part of, or any right in, a state highway or other public highway, road, street, avenue, alley, lane, driveway, place, court, trail, or other public right-of-way or easement, or purported public street or highway, and rights connected therewith, including, but not limited to, restrictions of access or abutters' rights, sloping easements, or other incidents to a street or highway. (Str. & H. Code § 8308.)

[2] Under state law, "'Vacation' means the complete or partial abandonment or termination of the public right to use a street, highway, or public service easement." (Str. & H. Code § 8309.)

At the hearing, the Town Council takes evidence presented by interested persons. (Sts. & Hy. Code § 8324.) If the Council finds that the street proposed to be vacated is unnecessary for present or prospective public use, it may adopt a resolution vacating the street. *(Id.)* The abandonment must be in the public interest. The Council may provide that the vacation will occur only after conditions are met and it may reserve from the vacation a right to maintain and operate existing or future utility facilities. (Sts. & Hy. Code §§ 8324, 8340.) If the Council approves the proposed abandonment, it adopts a resolution of vacation that is recorded with the County. (Sts. & Hy. Code § 8324(b).) If the Town vacates a right of way in which it owns only an easement, rather than title to the underlying property, title to the property previously subjected to the easement reverts to the owner of the fee. (Cal. Sts. & Hy Code § 8351.)

Property History

In 1923, the Town accepted an easement adjacent to 250 Redwood Rd in San Anselmo as part of the Floribel Subdivision. The legal description of the portion of that easement currently being considered for abandonment is attached as Attachment 1 ("Lane Segment").

The property owners at 250 Redwood Road ("Applicants") requested that the Town abandon the Lane Segment. (Attachment 2). The proposed right-of-way abandonment and property purchase would give the Applicants an adequate yard setback. The setback would allow the Applicants to meet current setback requirements for future remodel work and/or additions. Currently, the applicants' home sits south of the property line, which limits their ability to add to or remodel their home.

The Lane Segment runs between 176 Floribel Avenue (APN 007-095-58) and 250 Redwood Road (APN 007-095-03). The Lane Segment is 6 feet wide and located on a steep hill.

DISCUSSION:

The Applicants have worked with Town staff to provide all necessary documentation, including the attached legal description of the Lane Segment and the site plan. (Attachment 1, Exhibits A & B).

The Lane Segment appears to be unnecessary for present or prospective public use. The Lane Segment has not been used as a pathway and does not have the potential to be used as a road or driveway due to its steepness and narrow width.

The Applicants have suggested that abandoning the Lane Segment is in the public interest for the following reasons:

1. Removes the Town's responsibility to maintain this portion of the right-of-way. Maintenance would become the responsibility of the owners of 250 Redwood Road's following abandonment.
2. Removes the Town's potential liability for this portion of the right-of-way.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY:

The proposed project is categorically exempt from the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15305, as the proposed right-of-way abandonment consists of the minor alteration in land use limitations, which does not result in any changes in land use or density.

ATTACHMENT:

Exhibit B - Site Plan
Attachment 2 — Application Letter for Abandonment

A RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO DELCARING ITS INTENT TO ABANDON A PORTION OF THE RIGHT OF WAY ABUTTING 250 REDWOOD ROAD

WHEREAS, the portion of the public right-of-way adjacent to 250 Redwood Road in the Town of San Anselmo and described in Exhibit 1 ("Subject Right-of-Way") was accepted by the Town in 1923; and

WHEREAS, the Town Council of the Town of San Anselmo finds that the portion of the Subject Right-of-Way is not presently needed for any public use and no public use will be required in the future; and

WHEREAS, the Town desires to abandon the portion of the Subject Right-of- Way pursuant to Streets and Highways Code section 8300, *et seq*.

NOW, THEREFORE, THE TOWN COUNCIL OF THE TOWN OF SAN ANSELMO DOES HEREBY RESOLVE AS FOLLOWS:

Section 1: Intent to Abandon. Pursuant to the provisions of Section 8300 *et seq*. of the California Streets and Highways Code, the Town Council declares its intention to abandon and vacate the Subject Right-of-Way described in Exhibit A, which is attached and hereby incorporated by reference.

a. The Town will reserve easements for existing utilities satisfactory to the owners thereof.
b. A public hearing for all persons interested in the proposed vacation will take place at the Town Council meeting on Tuesday, September 22, 2026, at 7:00 p.m. in the Town Council Chambers located at 525 San Anselmo Avenue, San Anselmo.
c. Notice of the hearing on the proposed vacation will be published in the manner prescribed by law (Cal. Sts. & Hy. Code § 8322).
d. Notice of the proposed vacation stating the time and place set for the public hearing, will be posted in the manner prescribed by law (Cal. Sts. & Hy. Code § 8323).

Section 2. Environmental Review. The Town Council finds this proposed project categorically exempt from the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15305, as the proposed right-of-way abandonment consists of the minor alteration in land use limitations, which does not result in any changes in land use or density.

The foregoing Resolution was adopted at the regular meeting of the San Anselmo Town Council held on July 28, 2026, by the following vote:

San Anselmo, CA 94960

Re: Proposed 250 Redwood Road Right of Way Street Vacation (APN: 007-095-67)

Dear Mr .Condry:

Our firm continues to represent Jason Yaworski and Romee Ham, the owners of 250 Redwood Road in their request to vacate a strip of land adjacent to their home. It is our hope that the Town will agree to vacate this portion of the right of way with staff's recommendation to do so. In a 2012 resolution, the Town vacated the lower portion of the right-of-way, which was later claimed by the owners of 250 Redwood Rd.

The vacation did not continue to the northeast corner of the Property but stopped midway up the property, which we believe was an oversight. We request that the remainder of the right-of-way be vacated to resolve the side setback inconsistency and for fire prevention and continued maintenance. The upper lane vacation is approximately 390 square feet and would not impede the Town's ability to access the adjacent lands from Redwood Road because of another existing adjacent 6-foot lane (Please see attached survey exhibit).

We understand that the vacation of the public right-of-way is a discretionary determination in the Town of San Anselmo, as previously determined by the referenced resolution. Accordingly, we formally request approval to vacate Town property as identified in the accompanying survey. The public has no use or access to the land to be vacated, and can only be of benefit to the owner of 250 Redwood Road.

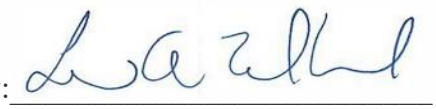

As you know, the California Streets and Highways Code allows public agencies like the Town to "vacate" a right of way and/or surplus land, which means to terminate the agency's interest as outlined in Section 8320 *et seq*. Pursuant to the Streets and Highway Code, a vacation request involves the initial review of the request by Public Works and the adoption of a Resolution of Intention to vacate the right of way by the Town Council. To vacate the land area proposed, the Town would have to make findings that the areas are "unnecessary for present or prospective public use." As detailed above, these findings can be made because there is no public need or

access. As the Town does not require this area for future use, we believe the Town can make the findings to support the vacation request.

Thank you for your attention to this matter; we await your response.

Respectfully,

RIFKIND LAW & MEDIATION, PC

STAFF REPORT

TOWN OF SAN ANSELMO Item #: 2.5

MEETING DATE: July 28, 2026

AGENDA TITLE: Appoint Three Voting Members to the Infrastructure & Fiscal Monitoring Committee

FROM: Serge Avila, Town Clerk

RECOMMENDATION: For the Town Council to consider appointing three (3) voting members to the Infrastructure and Fiscal Monitoring Committee.

BACKGROUND & DISCUSSION

The San Anselmo Infrastructure and Fiscal Monitoring Committee

The objectives of the Infrastructure and Fiscal Monitoring Committee are to review and report on the use of the general purpose revenues generated by local tax measures, review the Town's capital improvement plan and current budget, identify the Town's primary unmet needs, and make recommendations to the Town Council regarding how best to accomplish and fund the Town's priority needs.

The Committee consists of seven voting members, representing a diverse representation of the community, including two Town Council members and three designated Town Staff liaisons (Town Manager, Public Works Director, and Finance & Administrative Services Director) who will service in an advisory capacity only.

Members will serve three-year terms, except when a member is appointed for a shorter period to fill the end of a vacated term.

Currently there are three seats open for appointment and the Committee is composed of the following members with their respective expiring terms:

	Name	***Term***	***Term Expiration***
1	Erik Selvig	Expired	March 31, 2026
2	Marie Henrio	Expired	March 31, 2026
3	Stanley Radtke	Expired	March 31, 2026

4	Bob Marcucci	Current	March 25, 2028
5	Richard Berkson	Current	March 25, 2025
6	Viktoriya Wise	Current	March 25, 2028
7	Russell A. Miller	Current	March 25, 2028

There are three seats open.

The Council may consider making (3) three appointments to the Infrastructure and Fiscal Monitoring Committee from the following list of incumbents and applicants:

List of applicants:

Marie Henrio- Incumbent- Interviewed on June 23, 2026
Stan Radtke- Incumbent- Interviewed on June 23, 2026
Ahmed Abu Aly- Applicant- Interviewed on June 23, 2026
Ross Asselstine- Applicant- Interviewed earlier today
Erik Selvig- Incumbent- Interviewed earlier today

FISCAL IMPACT

There would be no direct fiscal impact on the Town to approve this item.

CEQA AND CLIMATE ACTION PLAN CONSISTENCY

The proposed appointment is not a “project” under the California Environmental Quality Act, because it does not involve an activity which has the potential to cause a direct or reasonably foreseeable indirect physical change in the environment. (Cal. Pub. Res. Code § 21065).

Which Boards would you like to apply for?

Infrastructure and Fiscal Monitoring Committee: Submitted

Number of years as resident of San Anselmo?

23

Number of years as a resident in Marin?

23

Name and phone numbers of three San Anselmo residents who can be contacted for referral information about me:

Steve Burdo Chantel Walker: Richard Berkson

Education Level Achieved *

☑ Master's Degree

Interests & Experiences

I would be able to regularly attend the meetings of this Board/Commission/Committee.

◉ Yes ○ No

I would be available to attend additional meetings when they are necessary.

◉ Yes ○ No

I am familiar with the responsibilities and functions of this Board/Commission/Committee.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

• Chair of San Anselmo Financial Advisory Committee for the past 6? years • Volunteered for and championed the creation of a San Anselmo Finance FAQ meant to address the most common asked questions from our town residents regarding the finances of our town • Volunteered during the November 2022 election campaign for San Anselmo Measure J (Transactions and Use Tax) • Trustee of Ross Valley School District from December 2020 to January 2023 • Currently employed as Chief Business Official at Miller Creek School District

Reasons for this appointment:

I care about and understand the various components of the town budget. I am aware of the general struggles we are facing: increasing pension costs, volatility of certain revenue sources to name a few. I do believe I have been and can continue to be a good thought partner regarding our financial needs and how to resolve them. I am known for questioning the status quo, thinking out of the box and for promoting transparency of finances and the decision-making processes. I am not coming from a position of having all the answers, but rather from a place of curiosity and willingness to learn – together – to support the Town Manager, the Public Works Director and the Finance & Administrative Services team with some more brainpower and new ideas.

What are your qualifications for this appointment?

I have a Master Degree in BA/Finance, I have a strong fiscal background, mainly from years of experience in the corporate sector, and most recently in public education. Some of the challenges the town is facing are fairly similar to what I am dealing with in my current job: • Balance short term and long term needs with resources that are both restricted and unrestricted. • Navigate the needs of multiple departments, the appetite of various special interest groups and the overall long-term finance health of the town. I have been involved in the Finance Advisory committee for the last 3 years (and advocated for the merge of that committee with the Capital Monitoring Committee), I have enjoyed the work and believe this is the right avenue for me to make a difference and keep contributing my fair share to San Anselmo.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

• As a parent, I care about the maintenance and improvement of all our parks and recreation facilities including: Isabel Cook, Robson – how do they serve our community today, and how will they tomorrow? • As a commuter and living in the Sequoia hill, I am interested in hearing about solutions to fix the traffic struggles at Red Hill. • As a resident overall, I want a vibrant town.

- ❑ Accounting
- ❑ Regulatory compliance
- ❑ Systems implementation

MILLER CREEK ELEMENTARY SCHOOL DISTRICT — 2022 - Current

Chief Business Official

Responsible for the organization and administration of the financial and business affairs of the District ($30M budget, 1,800 students, 4 schools): fiscal, maintenance & operations, enrollment, nutrition and transportation. Specific achievements include:

- Planned and co-facilitated a LCAP-Budget committee chartered to identify $1.2M budget reductions necessary to maintain positive certification of the District financials.
- Rebuilt trust and morale in a business office with high personnel rotation and no CBO continuity. Provided enthusiastic direction and training of staff resulting in team members growing into new roles and being promoted.
- Navigated the complexity of long term financial modelling when the District moved in and out of basic aid status, as often as 3 times in a single year.
- Redesigned Home-to-School transportation program due to sudden staffing shortage, and addressed vocal community concerns.
- Launched new vended meal partnership that resulted in a 30% increase in meal participation. Handled urgent change of vendor in the middle of the school year.
- Oversaw facilities projects following a gas leak (no heat in classrooms for an entire winter) and a flood (flooring replacement, asbestos removal) at two of the District rented properties.
- In absence of a Facility Master Plan, designed an interactive Deferred Maintenance Projects List totaling approximately $30M, currently used to support preliminary conversations ahead of a November 2026 Bond measure.
- Prepared new budget narrative summaries and board presentations prioritizing transparency and simplicity to tell compelling stories: retired dated charts, introduced trends and appealing visuals while developing a consistent brand.
- Optimized processes by implementing the following solutions and establishing new protocols:
  - MealTime: Launched new eligibility management and point of services system resulting in error-free audits and smooth CNIPS submissions.
  - Frontline Absence Management (ex-AESOP) and Frontline Time & Attendance: Rolled out to all staff and set up direct upload to QSS.
  - Facilitron: Evaluated and implemented scheduling of our facilities use by community members, generating additional 20% of rental revenue.
  - ProjectionPro: Retired Excel spreadsheets and leveraged FCMAT platform to compute multiyear and cash flow projections based on documented local rules for each resource and major object category.
  - QSS Accounts Receivables module: Replaced past practice of logging all invoices in an outdated version of QuickBooks which did not reconcile with cash in QSS.

SAN RAFAEL CITY SCHOOLS DISTRICT — 2017 - 2022

Director Fiscal Services

Responsible for maintaining budget and closing the books for two separate districts, one State funded, the other Basic Aid funded ($100M budget, 7,000 students, 11 schools). Specific achievements include:

- Corrected position control records for 650 employees, resulting in the elimination of 1,200 dormant/duplicated positions that were rolling annually for at least a decade and had contributed to budgeting errors and endless reconciliations.
- Developed a Fair Share model used during salary negotiations, establishing trust between the business office and labor partners. Worked with Services School of California (SSC) to integrate best practices into the model.

Data Analyst & Coordinator, Education Services

Recognized as a data steward for the District, ensuring highest standards regarding data accuracy, consistency and integrity.

- Leveraged student information (demographics, tests results, transcripts, attendance.) to demonstrate and increase awareness around achievement gaps, patterns to success, and other analysis that influenced the district's educational strategies.
- Coordinated timely records submission for CDE accountability (CALPADS, CBEDS).

Corporate Analytics Work History — 2010 – 2017

- Built a Customer Insights team chartered to design innovative analyses to measure the various components of the end-to-end customer experience.
- Implemented quarterly satisfaction survey in 12 languages which provided executive leadership with visibility into customer loyalty across market segments.
- Rolled out a wide range of methodologies that led to the team establishing itself as the go-to internal group for all quantitative customer research projects.
- Managed data enhancement roadmap and lead a series of Business Intelligence projects around customer retention and segmentation of the various markets.

AUTODESK
Business Analytics Senior Manager

MARIE HENRIO CONSULTING
Clients included: *Salesforce*

Corporate Finance Work History — 1994 - 2010

- Established a reputation as a high integrity finance partner, with a focus on improving financial control and reporting transparency.
- Identified and implemented process improvements to refine and speed up the month-end close processing cycle.
- Worked with department leaders to summarize their individual operational budget requirements, while identifying cost savings to establish optimal budgets.
- Developed financial model to facilitate Customer Service headcount planning (250 agents). This work supported a "follow-the-sun" global implementation.
- Performed business risk assessments and internal audits.

AUTODESK, SF Bay Area, US
Finance Manager, Audit Manager

DISCREET LOGIC, Paris
Finance and Ops Manager

COOPERS & LYBRAND, Paris

Interests & Experiences

I would be able to regularly attend the meetings of this Board/Commission/Committee.

◉ Yes ○ No

I would be available to attend additional meetings when they are necessary.

◉ Yes ○ No

I am familiar with the responsibilities and functions of this Board/Commission/Committee.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

I have been the co-chair of the Open Space Committee for 18 years, actively serving the town in this capacity. Also, I have served on the Infrastructure and Fiscal Monitoring Committee, starting with the Financial Advisory Committee for the past 4 years.

Reasons for this appointment:

I am asking to be reappointed to both boards so that I can continue to serve the community.

What are your qualifications for this appointment?

I have the knowledge of what this position requires, I have the desire to continue to serve the community, and I the experience necessary to be effective in both the roles.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

First, the town is continuing to be under pressure to build and create new housing, which is in tension with our commitment to keep our ridge lines and open spaces free of development. Second, the town's budget is being squeezed by the new agreements with both fire and police, which at this juncture will be unsustainable in the next 4 to 5 years and will require some hard choices.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

I am a registered civil engineer, recently retired from the City of Mill Valley as Project Manager. I have served on the Marin Multi-Jurisdictional Hazard Mitigation Program and the Mill Valley Downtown Revitalization Advisory Committee. Also served on TAM Safe Route to School committee. Currently serves as a board member of the North Bay Conservation Core.

Reasons for this appointment:

I am eager to improve our community's vitality through thoughtful infrastructure enhancements. I aim to focus on developing age-friendly and walkable spaces that prioritize accessibility to key destinations, including downtown, shopping districts, and our natural parks and trails. Improve access for people with disabilities and limited mobility to public facilities and shopping centers

What are your qualifications for this appointment?

I have gained over 35 years of municipal civil engineering experience, managing Capital Improvement Programs and public works projects. Directing the capital improvement division, managing various state and federal grants for environmental and transportation projects. As well as participating in various local community boards and commissions.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

To balance the diverse needs of our community, we must strategically prioritize funding, parking, and transportation while ensuring active resident participation. Our focus includes Enhancing Creek Park, Community Park, and the Senior/Community Center to better serve all residents. Improving roadway pavement quality and expanding our network of bike lanes. Implementing traffic and pedestrian safety measures on local streets to protect all commuters. Provide frequent benches for rest, shaded seating, and updated lighting for safety at night.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

I have a background in design, construction and project management. I was Director of Development of numerous high rises that included both complex legal structures, details budget and cost reporting in the hundreds of millions of dollars/

Reasons for this appointment:

I have very deep knowledge of the Flood Fee and the Withdrawal process. I have previously asked the Fiscal Monitoring Committee to consider the current position of the taxpayers of San Anselmo. In absence of any action by them, I wish to be considered to join this committee such that the ratepayers of SA can be treated fairly by a more formal review.

What are your qualifications for this appointment?

1) More than 30 years of experience in contract negotiations and cost management. 2) exceptionally diligent and tenacious.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

I believe that San Anselmo tax payers are due refunds of about $1.2M and no fee imposed in this next fiscal year of 2026/27 (about $0.6M)

E Ross Asselstine

OUTLINE

A design, construction and development professional with more than thirty years of experience including work in the trades, design, design management, construction supervision, construction management, project management and full responsibilities as an Owners' Representative. Projects are all of a major scale.

My experience includes high quality clients in San Francisco including One Oak Partners (GTIS), Emerald Fund and Tishman Speyer. I'm typically responsible for all aspects of design, construction and permitting. Experience includes approximately 1,400 residential units in 2.3M sft of development. Overseas and East Coast work was predominately office related.

I have been fortunate to work with some of the finest professionals in this country and overseas. When managing a project, I bring a strong background of field experience, design, construction, and team-building to the process of delivery of the building. I pride myself in knowledge of detail, experience in managing complex projects, developing cohesive teams and progressing projects with structured, timely decisions.

I am familiar with the responsibilities and functions of this Board/Commission/Committee.

◉ Yes ○ No

I have attended meetings of the Board/Commission/Committee as a member of the public.

◉ Yes ○ No

List briefly, previous experience serving the public office, and/or civic commissions, boards, or committees:

My civic involvement goes back at least 20 years starting with attending various SA town meetings. My first town appointment was to the Measure G committee. I then was appointed to the Capital Projects Committee and now sit on The Infrastructure and Fiscal Monitoring Committee since its inception.

Reasons for this appointment:

Would like to use my financial and engineering backgrounds to continue to serve the town.

What are your qualifications for this appointment?

I have MBA and engineering degrees and have spent my entire career working in and around both large and small scale private sector construction projects. I also have an extensive background in facilities management.

Briefly, what do you consider to be the most important, one or two current issues facing this Board/Commission/Committee?

The biggest issue facing this committee is to help the town staff and town council continue to build, maintain and operate town owed roads and facilities in a financially prudent and publicly transparent manner. Over the last few years the town has really done a great job improving the physical environment and our financial position. I want to continue to assist in this in any way possible.
