ACTION REQUESTED:
The superintendent is recommending that the board hold a public hearing regarding the proposed maps for potential composition of trustee areas.

RATIONALE/BACKGROUND:
On March 10, 2020, the board adopted Resolution No. 2982, declaring its intent to transition from at-large to by-trustee area board elections, where each board member must reside within the designated trustee-area boundary, and is elected only by the voters in that trustee area. On March 31, 2020, the district's demographer presented information on the process and potential criteria for drawing the trustee-area boundary maps. At the April 14, 2020, meeting, the superintendent pulled the presentation and the second of two statutorily required hearings to evaluate the Governor's Executive Order N-48-20, signed April 9, 2020, and the effect it would have on the district's transition process. At the April 28, 2020, meeting, the board adopted Resolution No. 2991, declaring an intent to temporarily postpone hearings related to the board's transition to by-trustee area elections until such time as neither state nor local public health officials recommend or impose social distancing measures due to the COVID19 pandemic. On June 11, 2021, the Governor executed Executive Order N-08-21, which stated "The following provisions [which include Executive Order N-48-20] shall remain in place and shall have full force and effect through June 30, 2021, upon which time they will expire subject to individual conditions described in the enumerated paragraphs." On July 1, the district's demographer presented information on the process and potential criteria for drawing the trustee-area boundary maps. The board held the second of two statutorily required hearings to receive input from the community on the trustee-area map creation process and elections sequence, pursuant to Elections Code section 10010(a)(1), and passed Resolution No. 3059, Criteria for Developing Trustee-Area Boundaries.

The district's demographer will present drafts of proposed trustee-area boundary maps. Following the presentation, the board will hold a public hearing to receive input from the community on the proposed trustee-area maps.
