Sioux City Community School District
Executive Summary
Level I Investigators
October 26, 2026

Purpose:

To provide the Sioux City School Board of Directors with information regarding the trained Level I Investigators that can respond to allegations of abuse of students by school employees and volunteers.

Explanation:

Contact: Barbara Caskey (712) 279-6692
Zarah Simpson (712) 279-6692 x6159

Iowa school districts are required to investigate formal complaints regarding abuse of students by school employees and volunteers, even after the Department of Health and Human Services (HHS) dismisses or deems the allegation unfounded. An investigation is required when the allegations may constitute a violation of District policy and/or may result in the suspension or revocation of the professional license of the accused individual. The District appoints Level 1 investigators to fulfill this obligation. It is the job of these Investigators to determine whether a violation of those policies or regulations has occurred. All principals and assistant principals are relied upon to conduct such investigations in their buildings, and may be appointed by the Director of Student Services to do investigations in other buildings as needed.

Each year we identify multiple individuals who will be trained and who can perform Level I investigations. The following individual is currently trained as a Level I Investigator:

Zarah Simpson Compliance Coordinator

In addition, all elementary and secondary principals and assistant principals are required to complete the Level I Investigator training. They will be relied upon to conduct investigations in their buildings, as well as other buildings as needed.

Impact on Student Achievement:

Level I Investigators assist our schools in maintaining a safe environment for all students.

SIOUX CITY COMMUNITY SCHOOL DISTRICT
CERTIFIED ADMINISTRATOR EARLY RETIREMENT PLAN

Purpose

It is the expressed intent of the Board, through this plan, to provide qualifying District administrators with the option for early retirement from their employment with the District. This plan is designed to show the District's appreciation for the services an administrator has rendered to the District as well as maximize use of District funds through replacement savings to avoid involuntary staff reductions. Thus, there are advantages to both an administrator and the District in the adoption of such plan.

Participation in this plan is voluntary. It is the current intent of the Board to provide this incentive only for the 2026-2027 school year with the understanding that the Board may or may not offer an additional early retirement plan in the future.

Statement of Non-Discrimination

The School District will not discriminate against any employee on the basis of age, sex, sexual orientation, race, color, creed, religion, national origin, disability or any other protected class under state or federal law through the application or administration of this plan.

Eligibility

An administrator is eligible for early retirement under this plan if he/she (i) is a regular full-time administrator, licensed as an administrator and employed by the District pursuant to a 279 administrator contract; (ii) has completed at least 30 years of total service in the District at the time of retirement; and (iii) is at least 55 years of age at the time of retirement. Early retirement is not available to any administrator who is under consideration of contract termination, or has been discharged for cause.

Application Procedure

An application for early retirement by an eligible administrator will be considered by the Board for approval if received by the Board Secretary not later than ___:___ p.m. on _____, 202_. Application materials must include the following completed items:

1. Exhibit A: Resignation and Request for Retirement
2. Exhibit B: Release of Claims
3. Exhibit C: Agreement Not to Apply for Reemployment (this does not prohibit the District from offering employment in the future)

An administrator's application for early retirement is not, in itself, a resignation of employment with the District nor does it require the Board to accept the application. However, approval by the Board of an administrator's application for early retirement will be considered a voluntary resignation of employment and termination of contract.

Retirement Incentive

Upon retirement, an administrator will be allowed to continue participation in the District's group health insurance plan for retiree coverage, at the District's expense, provided that the administrator meets all requirements of the insurer and applicable law. This insurance coverage will cease when the retiree becomes eligible for Medicare, secures other employment in which

the employer provides insurance coverage, or dies. Notwithstanding the foregoing, the Board reserves the right to change insurance carriers and modify or eliminate group health plan coverage. This plan in no way guarantees that the retiree will be provided any certain level of benefits during the time of the retirement incentive.

Miscellaneous

The Board is the final arbiter of all interpretation under this plan including, but not limited to, questions regarding eligibility and benefit calculation.

The Board reserves the right to waive any requirement or condition of this plan at its discretion and at any time. Any decision by the Board to waive a requirement or condition which is a part of this plan shall not establish any precedent with regard to any other request for a waiver.

The adoption of this plan shall not vest any right in any employee whether or not the employee is currently eligible for early retirement. The Board has the complete discretion to amend or repeal this plan or any provisions thereof at any time, with or without notice, and is not obligated to provide any benefits after the date of such amendment or repeal, except to an administrator whose early retirement pursuant to this plan has commenced prior to such amendment or repeal.

Should any portion of this plan be in conflict with state or federal law, that portion of the plan shall be invalid and all other portions shall remain in full force and effect.

Eligible administrators are advised to seek independent advice with regard to tax or financial consequences associated with any action taken by them under this plan.

Our Approach

The Association of Educational Service Agencies (AESA) is pleased to offer executive search services to Sioux City Community School District for the recruitment and selection of its next Director of Operations and Maintenance. As a national organization with an extensive network of educational service agencies and partners, AESA can support a broad search or a more geographically focused recruitment effort, based on the district's preferences.

AESA will collaborate with Iowa's Area Education Agencies (AEAs), district networks, and other professional partners to identify qualified candidates. The board of directors will direct the search, establish its priorities and timeline, and make all selection decisions. AESA will facilitate a transparent, organized process consistent with applicable Iowa requirements and district policies.

Proposed Search Process

The following process is flexible and may be customized in consultation with the district and its board of education.

Site Visit #1 | Planning and Recruitment

- Meet with the board and designated district leadership to establish the desired experience, competencies, and leadership characteristics for the Director of Operations and Maintenance. Confirm that the district owns the process and may adjust the timeline and approach as needed.
- Establish the schedule for subsequent meetings, candidate review, interviews, and selection.
- Meet with administrators or other stakeholder groups identified by the district.
- Review and refine the position description, qualifications, and recruitment materials.
- Advertise through AESA, Iowa AEA networks, district channels, and additional statewide or national partners as appropriate.
- Coordinate the application intake process with the district, including procedures for confidentiality and record management.
- Review applications and conduct preliminary reference inquiries and appropriate background research for leading candidates, consistent with applicable law and district authorization.

Site Visit #2 | Candidate Review and Interview Preparation

- Provide the board and designated district representatives with candidate application materials and a summary of relevant screening information. Conduct additional follow-up on other candidates identified for consideration.
- Facilitate the selection of candidates to interview.
- Develop consistent, position-specific interview questions, assign interviewer roles, and establish interview procedures and evaluation criteria. Provide guidance on lawful and appropriate interview practices.

Site Visit #3 | Interviews and Selection

- Facilitate candidate interviews according to the agreed schedule and procedures.
- Support final interviews, candidate deliberations, and the district's selection decision.
- Provide assistance with offer and contract discussions, if requested.

October 26, 2026

Purpose:

To request the approval of the purchase of professional development services from Solution Tree by Bishop Heelan Catholic Schools for the 2026-2027 school year.

Explanation: **Contact:** Amy Denney at 712-279-6822

A Professional Learning Community (PLC) is an ongoing process in which educators work collaboratively in recurring cycles of collective inquiry and action research to achieve better results for the students they serve. Professional learning communities operate under the assumption that the key to improved learning for students is continuous job-embedded learning for educators. Teachers in our middle schools and high schools will continue to be supported with implementing PLCs through professional development including foundational practices, planning, embedded coaching, learning resources and on-site support.

This specific request is for Bishop Heelan Catholic Schools to participate in PD to support Professional Learning Communities at Work on January 15, 2027.

Impact on Student Achievement:

Systematic processes engage teachers and administrators in an ongoing cycle of:

- Gathering evidence of current levels of student learning
- Developing strategies and ideas to build on strengths and address weaknesses in that learning
- Implementing those strategies and ideas
- Analyzing the impact of the changes to discover what was effective and what was not
- Applying new knowledge in the next cycle of continuous improvement

Guidelines:

1. In keeping with Nebraska Department of Education (NDE) regulations, we are requesting that the placements are full-day experiences that begin in August or January (when teachers return) and run for either 16 weeks or 18 weeks (depending on endorsement combination). Please read this request form carefully to ensure appropriate placement.
2. PK-12 (Art, Music, Health/Physical Education) or the K-12 Special Education requires experience to be divided between elementary and secondary assignments. Most will be 8 weeks and 8 weeks, but other configurations might work, too, e.g. mornings in elementary and afternoons in secondary. Please note that PK-12 Music placements should provide experience in both vocal and instrumental music - if the student is pursuing both disciplines (some are just pursuing Vocal.) They could be Vocal Primary and if that is the case, they can be placed in Vocal at both levels but should still have an instrumental placement for a period of time. Please contact me if you have questions about the configuration of any of the PK-12 placements.
3. For all other endorsements, the clinical practice must include each area indicated, but not necessarily in equal amounts, e.g. if the candidate is pursuing Math and English, the clinical practice could be 2 periods in Math and 4 periods in English each day. Policy Title: Use of Recording Devices / Cameras on School Property

Code Number: 711

District-Generated Recordings/Images

The District believes in the importance of providing a safe and enriching learning environment for its students. The District uses digital recording devices on school property including school transportation vehicles to help protect the safety of students, employees and community members, and to safeguard District property which is funded using public resources. Additionally, District-generated recordings of students engaging in educational and extracurricular programs can be essential to promoting the value of public education with the school community.

In order to balance privacy and safety interests, no recording devices/cameras will be utilized on District property where individuals maintain a reasonable expectation of privacy. These areas include but are not limited to: school nurses' or other private offices, restrooms, locker rooms, changing areas, lactation spaces and employee break areas, or anywhere on District property when the intent or effect of such use is to bully, harass or embarrass another person.

Recordings of students have the potential to be considered education records. Any such recordings will be maintained and accessed in compliance with the requirements of the Family Education Rights and Privacy Act and the District's policy on student records.

Recordings will be digitally maintained and stored for an appropriate amount of time to maintain the safety of the educational environment and to safeguard District property, after which they will be destroyed or retained in accordance with District policy. The Superintendent or his/her designee will establish any necessary regulations related to the secure storage, maintenance, viewing and destruction of digital recordings.

Non-District Generated Recordings/Images

The use of non-District owned recording devices/cameras on school property and at school events will be regulated. Students, parents, volunteers, visitors, and community members will not be permitted to take photographs or recordings of students or employees during school hours unless authorized in advance by the Building Administrator. Students and employees found to violate this policy will be subject to disciplinary measures consistent with Board policy and applicable student and employee handbooks.

~~In addition, students violating this policy shall have their device confiscated and not returned until the end of the school day or after a parent/guardian conference has been held, if such a conference is determined necessary by the Building Administrator or his/her designee.~~ Students violating this policy may also be prohibited from possessing any smartphone or technology device on school property for a reasonable period of time, unless otherwise permitted by the Building Administrator or required by a student's IEP or 504 Plan.

It is important to foster a community spirit and sense of unity within the District. However, the District acknowledges that not every student or staff member feels comfortable or safe being photographed or recorded. On District property or at District-sponsored extracurricular events and activities, the use of non District owned recording devices may be addressed by administration, teachers, coaches or other school officials if a concern is made known to them. Any individual determined to be taking photographs or making recordings considered bothersome to students or staff or disruptive to the District's educational environment may be asked to stop, to destroy the image or recording and/or to leave the premises or event.

This policy will not be construed or enforced in a way that infringes on any activity otherwise protected by law.
