# City of South Lake Tahoe
# City Council, South Tahoe Redevelopment Successor Agency, South Tahoe Joint Powers Parking Financing Authority
## Meeting Agenda
## Tuesday, June 18, 2024 at 5:30 pm
## 1901 Lisa Maloff Way

**City Council**
Cody Bass, Mayor
John Friedrich, Mayor Pro Tem
Cristi Creegan, Councilmember
Tamara Wallace, Councilmember
Scott Robbins, Councilmember

**Mission of the City Council**
The City was established to provide essential, outstanding and cost-effective services that enhance environmental sustainability, economic vitality and the quality of life for our residents, businesses and guests.

**Public Participation**
City Council meetings are held in person at the time and location listed on this agenda. Meetings are live-streamed on Channel 21, City website at www.cityofslt.us, YouTube at https://www.youtube.com/channel/UC3LYne8Ih-kTPLnnuyJW9SQ/live and via ZOOM at this link https://us06web.zoom.us/j/82170350835
A public agenda packet is available for review at City Hall, 1901 Lisa Maloff Way, on the City's Website at www.cityofslt.us, or by contacting the City Clerk's Office, (530) 542-6005 or sblankenship@cityofslt.us

Providing Public Comment:

In Person: Every agenda for regular meetings provides an opportunity for members of the public to directly address the legislative body (City Council), on any item of public interest which is within the jurisdiction of the City Council during Public Communications. For items on the agenda or in connection with any item which the City Council will consider, the public is given the opportunity to comment before or during the City Council's consideration of the item [Government Code Section 54954.3(a)].

Remote Participation: If you are joining the meeting via ZOOM and would like to make a comment, press the "raise a hand" button. If you are joining the meeting via Channel 21 or live stream and would like to make a comment, please call (530) 542-6500. The meeting ID is: 821 7035 0835. press *9 to indicate a desire to make a comment. Press *6 to unmute your phone. The Clerk will call you by the last three digits of your phone number when it is your turn to speak. ***Note: The Mayor reserves the right to conduct the meeting with in-person public participation only, if there is a technology malfunction that precludes the use of remote public participation.***

In Writing: Written comments received by 3 p.m. the day before the meeting will be distributed to City

Council prior to the meeting. Written public comment regarding any item on this agenda may be sent to PublicComment@cityofslt.us. When emailing comments, identify the agenda item number in the subject line to which your comments relate. Any such comment that is a public record and is emailed to PublicComment@cityofslt.us or otherwise provided to a majority of the City Council before the meeting will be made available for public inspection during normal business hours at the City Clerk's Office located at City Hall, 1901 Lisa Maloff Way, South Lake Tahoe [Government Code Section 54957.5(b)]. Written comments will not be read out loud during the meeting.

The City Council Chambers meeting facility is accessible to people with disabilities. Every reasonable effort will be made to accommodate any person needing special assistance to attend this meeting. Contact the City Clerk at (530) 542-6005 at least 48 hours in advance of the meeting for assistance [28 CFR 35.102.35.104 ADA Title II and Brown Act Government Code Sections 54953.2, 54954.1, 54954.2, and 54957.5].

Spanish Interpretations: The public may access Spanish interpretation using the ZOOM link listed on the front of the Agenda from an internet device (smartphone, laptop, tablet, home computer) with audio capabilities and selecting the Spanish language option. Persons without an internet device may attend the meeting in-person and a device will be provided while supplies last. Requests for interpreter services to offer public comment may be made by contacting the City Clerk.

**Land Acknowledgement**

Land Acknowledgement - The City of South Lake Tahoe acknowledges the lands we occupy today are the lands and home of the Waší̌iw, the people from here known today as the Washoe Tribe of Nevada and California, a sovereign nation. Since the beginning of time and for thousands of years before the arrival of any other people, the Washoe lived here and cared for this place, with values and intention that we can all learn from. On behalf of the City Council, I would like to acknowledge, thank, and honor the Indigenous Washoe Tribal Communities that are the past, present, and future stewards of the Lake Tahoe Basin.

**Call to Order/Pledge of Allegiance**

**Roll Call**

**Closed Session Report**

**Proclamations**

1. Proclamation Recognizing July 2024, as "Disability Pride Month"
   Requested Action / Suggested Motions: Issue a Proclamation to Access Tahoe, recognizing July 2024, as "Disability Pride Month".
   Responsible Staff Member(s): Susan Blankenship, City Clerk
   Item 1- Executive Summary.pdf
   Proclamation - July 2024 Disability Pride Month.pdf

2. Proclamation Recognizing July 2024, as "Parks Make Life Better Month"
   Requested Action / Suggested Motions: Issue a proclamation to the City of South Lake Tahoe Parks & Recreation Department, recognizing July 2024, as "Parks Make Life Better Month".

**5.** Senate Bill 1 Road Maintenance and Rehabilitation Account Project List for FY24/25
Requested Action / Suggested Motions: Pass a Resolution adopting a List of Projects for the Fiscal Year 2024/2025 Funded by SB 1: The Road Repair and Accountability Act of 2017 and in-part with Fiscal Year 2024-25 Road Maintenance and Rehabilitation Account revenues.
CEQA Determination: This project is exempt from review under CEQA Guidelines section 15301(c) (Existing Facilities).
Responsible Staff Member(s): Stephen Anderjack, Associate Civil Engineer
Item 5- Executive Summary.pdf
01-Staff_Report-RMRA_Project_List 2025.docx
02-Resolution - SB1 Road Maintenance and Rehabilitation.docx
03-RMRA Estimate.pdf

**6.** Amendment to American Rescue Plan Act of 2021 (ARPA) Funding Budget Appropriations
Requested Action / Suggested Motions: Pass a Resolution authorizing Fiscal Year 2023-2024 budget amendments for reallocating American Rescue Plan Act (ARPA) funding, consistent with the requirements of statutory category C, Revenue Loss for the provision of government services, and approving additional budget transfers for active Capital Improvement Projects.
Responsible Staff Member(s): Olga Tikhomirova, Director of Finance
Item 6- Executive Summary.pdf

01-Staff Report ARPA funding budget amendments.docx
02-Resolution - ARPA funding Budget amendments.docx

**7.** Ski Run Park Donation Acceptance
Requested Action / Suggested Motions: Pass a Resolution authorizing and directing the City Manager to accept Grant Deed and accept donation, valued at $175,000, of Ski Run Community Park for dedicated use as a public park from SkiRunPark LLC, upon completion of park improvements and passing inspections.
Responsible Staff Member(s): Hilary Roverud, Assistant City Manager
Item 7- Executive Summary.pdf
01-Staff Report - Ski Run Park Donation Acceptance.docx
02-C-069-2021 Friends of Ski Run MOU
03-Appraisal
04-Resolution Authorizing Acceptance of Ski Run Park.docx
05-Grant Deed (Exh. A to Reso).doc

**8.** Professional Services Agreement with Lumos & Associates for Planning and Design Feasibility Services for the Stateline Complete Streets Project
Requested Action / Suggested Motions: Pass a Resolution authorizing the Director of Finance to reallocate funds from the Linear Park Bike Path Project to the Stateline Complete Streets Project and authorizing and directing the Mayor to execute a Professional Services Agreement with Lumos & Associates for Planning and Design Feasibility Services for the Stateline Avenue Complete Streets Project for the amount of $227,200.

CEQA Determination: This action is statutorily exempt from review under CEQA Guidelines section 15262 (Feasibility and Planning Studies) and Categorically Exempt under section 15305, Class 6 (Information Collection).
Responsible Staff Member(s): Jason Burke, Complete Streets Program Manager
Item 8- Executive Summary.pdf
01-Staff Report - Stateline Complete Streets Project.docx
02-StatelineVicinityMap.pdf
03-Resolution Stateline.docx
04-Professional Services Agreement with Lumos.pdf

**9.** Amendment No. 2 to Agreement with Wildscape Engineering, Inc. for Additional Design Services for the Upper Bijou Park Creek Watershed Restoration Project
Requested Action / Suggested Motions: Pass a Motion authorizing and directing the Mayor to execute Amendment No. 2 to the Agreement with Wildscape Engineering, Inc. for additional design services for the Upper Bijou Park Creek Watershed Restoration Project for the amount of $54,863.40 for a total not-to-exceed contract amount of $538,184.09.
CEQA Determination: The Planning Commission adopted the Initial Study/Mitigated Negative Declaration for the Project on November 19, 2020, and on May 16, 2024, the Planning Commission adopted an addendum to the CEQA Initial Study/Mitigated Negative Declaration. This action does not require additional review under CEQA Guidelines section 15162.
Responsible Staff Member(s): Jason Burke, Complete Streets Program Manager and Brianna Greenlaw, Associate Civil Engineer
Item 9- Executive Summary.pdf
01-Staff Report - Wildscape Amentment No. 2.docx

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**1

**Agenda Item:** Proclamation Recognizing July 2024, as "Disability Pride Month"

**Executive Summary:** On June 4, 2024, City Council provided consensus to bring this Proclamation forward.

**Requested Action / Suggested Motions:** Issue a Proclamation to Access Tahoe, recognizing July 2024, as "Disability Pride Month".

**Responsible Staff Member:** Susan Blankenship, City Clerk

**Attachments:**

Proclamation - July 2024 Disability Pride Month.pdf

# City of South Lake Tahoe
# Proclamation
# Recognizing July 2024 as
# "Disability Pride Month"

**Whereas,** the Americans with Disabilities Act (ADA) was signed into law on July 26, 1990, to ensure the civil rights of individuals with disabilities; and

**Whereas**, Disability Pride Month is celebrated each July to commemorate the anniversary of the ADA and to honor the history, achievements, experiences, and struggles of the disability community; and

**Whereas**, the City of South Lake Tahoe recognizes the importance of inclusion, accessibility, and the diverse contributions of individuals with disabilities to our community; and

**Whereas**, Disability Pride Month is a time to promote visibility, self-advocacy, and pride within the disability community, while also raising awareness and fostering a more inclusive society for all; and

**Whereas**, the City of South Lake Tahoe is committed to ensuring equal opportunities and the full participation of people with disabilities in all aspects of life, including education, employment, recreation, and civic engagement; and

**Whereas**, Disability Pride Month provides an opportunity to celebrate the talents and skills that people with disabilities bring to our community, and to affirm our dedication to creating a more equitable and accessible environment for everyone; and

**Whereas**, the City of South Lake Tahoe encourages all residents to recognize and support the rights, dignity, and independence of individuals with disabilities;

**Now, therefore**, the City Council of the City of South Lake Tahoe does herby proclaim July 2024 as "Disability Pride Month" in the City of South Lake Tahoe, and encourage all residents to join in this observance by celebrating the contributions of individuals with disabilities and promoting a culture of inclusivity and respect.

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**2

**Agenda Item:** Proclamation Recognizing July 2024, as "Parks Make Life Better Month"

**Executive Summary:** On June 4, 2024, City Council provided consensus to bring this Proclamation forward.

**Requested Action / Suggested Motions:** Issue a proclamation to the City of South Lake Tahoe Parks & Recreation Department, recognizing July 2024, as "Parks Make Life Better Month".

**Responsible Staff Member:** Susan Blankenship, City Clerk

**Attachments:**

Proclamation - July 2024 Parks Make Life Better Month.pdf

**City of South Lake Tahoe**
**Proclamation**
**Recognizing July 2024 as**
**"Parks Make Life Better!" Month**

Whereas, Parks and Recreation promotes physical, emotional and mental health and wellness through organized and self-directed fitness, play, and activity; and,

Whereas, Parks and Recreation supports the economic vitality of communities by providing frontline jobs, childcare for the essential work force and promoting community revitalization; and,

Whereas, Parks and Recreation creates memorable experiences through engaging virtual and physically distanced programs, dynamic online events and new learning opportunities designed to keep families active while stay-at-home orders are in place and beyond; and,

Whereas, Parks and Recreation fosters social cohesiveness in communities by celebrating diversity, providing spaces to come together peacefully, modeling compassion, promoting social equity, connecting social networks, and ensuring all people have access to its benefits; and,

Whereas, Parks and Recreation supports human development and endless learning opportunities that foster social, intellectual, physical and emotional growth in people of all ages and abilities; and,

Whereas, Parks and Recreation strengthens community identity by providing facilities and services that reflect and celebrate community character, heritage, culture, history, aesthetics and landscape; and

Whereas, Parks and Recreation facilitates community problem and issue resolution by providing safe spaces to come together peacefully and serving as key points of service, helping our communities heal both physically and emotionally; and,

Whereas, Parks and Recreation sustains and stewards our natural resources by protecting habitats and open space, connecting people to nature, and promoting the ecological function of parkland; and,

Whereas, Parks and Recreation supports safe, vibrant, attractive, progressive communities that make life better through positive alternatives offered in their recreational opportunities; and,

Whereas, Parks and Recreation remains versatile and innovative in providing vital services to communities through local, national, or global emergencies, all while adhering to guidelines set forth by governing agencies; and,

Whereas, The California Park & Recreation Society has released a statewide public awareness campaign, "Parks Make Life Better!®" to inform citizens of the many benefits of utilizing parks, facilities, programs, and services; now, therefore, be it resolved that the citizens of California recognize the importance of access to local parks, trails, open space, and facilities for the health, wellness, development, inspiration, and safety of all Californians.

Therefore, the City Council of the City of South Lake Tahoe recognizes the importance of access to local parks, recreation, trails, open space, and facilities. We therefore declare the month of July 2024 as Parks Make Life Better!® Month.

**City Commission Reports**
None.

**Consent Agenda**
**Action:** Moved/Seconded: Wallace/Creegan
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** Passed the Consent Agenda

**3. City Council Meeting Minutes**
**Action:** Passed **Motion 2024-052** approving the May 7, 2024 Regular City Council meeting minutes.

4. **Investment Portfolio Report - March 31, 2024**
   **Action:** Received and Filed.

5. **Fiscal Year 2023-24 Quarterly Financial Status Report - Quarter Ending March 2024**
   **Action:** Received and filed.

6. **Ordinance Designating Very High Fire Severity Zones (Second Reading)**
   **Action:** Passed **ORD 2024-1186** designating Very High Fire Severity Zones.

7. **Delegation of Authority of City Engineer to the Director of Public Works or Designee**
   **Action:** Passed **Resolution 2024-057** ratifying delegation of authority of City Engineer to the Director of Public Works, effective May 21, 2024.

8. **Amendment to Memorandum of Understanding with the Lake Valley Fire Protection District Regarding Fuels Reduction Work and Reimbursement**
   **Action:** Passed a **Motion 2024-053** authorizing and directing the Mayor and City Manager to execute Amendment No. 1 to Memorandum of Understanding with the LakeValley Fire Protection District **(C-119-2024)** to focus on increasing the capacity of fuels reduction work withinthe South Shore division of the Tahoe Fire and Fuels Team and allowing a funding mechanism between agencies for grant billing and reimbursement.

9. **Amendment No.1 to Agreement with Sosu.TV for Broadcasting, Media, and Video Production Services to Extend for Two Years**
   **Action:** Passed **Motion 2024-054** authorizing and directing the Mayor to execute Amendment No.1 to Professional Services Agreement with Sosu.TV **(C-120-2024)** to extend the terman additional two years to June 7, 2026, with a not to exceed cost of $177,000 ($88,500 annually).

10. **Appropriating $75,000.00 from Airport Available Fund Balance for Terminal Repairs Due to Deferred Maintenance**
    **Action:** Passed **Resolution 2024-058** authorizing the Finance Director to appropriate $75,000.00 from the Airport's Available Fund Balance for Airport Maintenance needs.

11. **Certificate of Sufficiency of a Citizen Initiative Petition Entitled "An Initiative Measure to Establish a Tax on Owners of Vacant Residential Units in the City of South Lake Tahoe**
    **Action**: Received and Filed.

**Public Hearing**

12. **Annual Public Hearing for Continued Snow Removal Equipment Purchase Funded Through the Existing County Service Area No. 3 Parcel Assessment**
    **Action:** Moved/Seconded: Wallace/Creegan
    **Yes:** Bass, Creegan, Wallace, Robbins
    **Abesent:** Friedrich
    **Action:** Passed **Motion 2024-055** directing the City Clerk to prepare and submit a Minute Order, including public comment regarding the current $20 parcel assessment for snow removal equipment to the El Dorado County Board of Supervisors.

**Regular-Unfinished Business**

13. **Ratification of Heavenly Parking Agreement Termination, Amendment to Parking Restrictions in Heavenly Valley Neighborhoods, and Appropriation of Funds for Parking Enforcement Measures**
    **Action:** Moved/Seconded: Wallace/Robbins
    **Yes:** Bass, Creegan, Wallace, Robbins
    **Absent:** Friedrich

**Action:** 1) Passed **Motion 2024-056** ratifying the issuance of a Notice of Termination to Heavenly Valley Limited Partnership and terminating the Parking Agreement 90 days from the notice issuance date; 2) Passed **Resolution 2024-059** replacing Resolution 2024-049 to amend the seasonal or permanent no parking restrictions on certain streets in the Heavenly Valley Neighborhood; and 3) Passed **Resolution 2024-060** directing city staff to bid for the rental of the parking barricades and the restricted parking zone signs and to utlilize budget savings in the project account for any other enforcement and signage.

**Public comment was heard from the following people:**

1. Ed Mosur
2. Allen Masters
3. Brian Bigley, Director of Base Operations for Heavenly Mountain Resort
4. Tom Fortune, Vice President of Heavenly Mountain Resort

**Regular- New Business**

**14. Hazardous Vegetation and Defensible Space Ordinance (First Reading)**

**Action:** Moved/Seconded: Wallace/Creegan
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** Passed **Motion 2024-057** to hold the first reading (by title only) of an Ordinance Amending the South Lake Tahoe City Code to Add Chapter 5.30 (Hazardous Vegetation and Defensible Space) to establish a hazardous vegetation and combustible materialabatement program and vegetation management and defensible space requirements and refer second reading and adoption to the City Council meeting on June 18, 2024.

**Public comment was heard from the following people:**

1. John Messina
2. Ed Mosur
3. Sharon Kerrigan, South Tahoe Association of Realtors
4. Milan Yates, California Tahoe Conservancy Community Forestry Program Supervisor
5. Martin Goldberg, Lake Valley Fire Protection District
6. Melissa Soderston

**15. Agreement with Design Workshop for Assistance with Mid-Town Area Plan**

**Action:** Moved/Seconded: Robbins/Creegan
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** Passed **Motion 2024-058** authorizing the Mayor to execute a Professional Services Agreement with Design Workshop **(C-121-2024)** for consulting services to assist in preparation of the Mid-Town Area Plan for an amount not to exceed $133,014.

**16. Location Advertising Signage by Highway 50**

**Action:** Moved/Seconded: Creegan/Robbins
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** Passed **Motion 2024-059** approving new signage in different locations on Airport property and Highway 50 as presented.

**Public comment was heard from the following person:**

1. Josh Allen, Tahoe Helicopters

**17. Ordinance - Amendments to South Lake Tahoe City Code Chapter 4.150 (Refuse and Garbage) to Implement Residential 3-Cart System for Solid Waste, Recyclables, and Yard Trimmings (First Reading**)

**Action:** Wallace/Creegan
**Yes:** Bass, Creegan, Wallace
**No:** Robbins
**Absent:** Friedrich
**Action:** Passed **Motion 2024-060** to hold a first reading (by title only) of an Ordinance amending South Lake

Tahoe City Code Chapter 4.150 (Refuse and Garbage) to implement residential 3-cart system for solid waste, recyclables, and yard trimmings, and refer second reading and adoption to the City Council meeting on June 18, 2024.

**Public comment was heard from the following people:**

1. David Gregorich *Written material distributed
2. Ed Mosur
3. Jeff Tillman, South Tahoe Refuse
4. Melissa Soderston

**18. Award of 2024 Road Rehabilitation Project to All-American Construction, Inc.**

**Action:** Moved/Seconded: Robbins/Creegan
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** 1) Passed **Resolution 2024-061** authorizing the transfer of $519,161 in SB-1 from Account 301-50024-36304 to 310-50005-36304 and allocating $580,000 in reserve Measure S funds to Account 301-5005-36374; and 2) Passed **Motion 2024-061** authorizing and directing the Mayor to execute a contract with All-American Construction, Inc. for a total of $3,609,812.40, plus a 10% contingency, in the amount of $360,981.24 for City Road Rehabilitation.

**19. Commercial Use of the City's El Dorado Beach Boat Launch**

**Action:** Received and filed.
**Public comment was heard from the following person:**

1. Donny

**20. City Development Rights Annual Report**

**Action:** Moved/Seconded: Wallace/Creegan
**Yes:** Bass, Creegan, Wallace, Robbins
**Absent:** Friedrich
**Action:** Passed **Resolution 2024-062** accepting the development rights appraisal prepared by Johnson Valuation Group Limited and establishing a price point for the calendar year 2024 at one-third of the recommended fair market value outlined in the appraisal.

**Agenda Planning Calendar**

**21. Agenda Planning Calendar**

**Action:** Received and filed.

**Updates and Announcements (City Attorney, City Clerk, City Manager)**

**City Manager Irvin**

1. Airport Master Plan Presentation at August 13 City Council meeting
2. June 12 Pride Cereminy Celebration

**City Clerk Blankenship**

1. Proclamation Request from John Stark, Director of Parks and Recreation, for July as "Parks Make Life Better Month"
2. Proclamation Request from Peace Love Tahoe for July as "Disability Pride Month"
3. Filing period to run for City Council begins July 15, schedule an appointment with the City Clerk if you are interested in running

**Councilmember Reports and Comments**

**Councilmember Robbins**

1. Attending meetings with Lake Tahoe Basin Management Forest Service Unit regarding the possibility of Alpine guiding within the LTBMU
2. Attended "Fire Wise" event

**Councilmember Creegan**

1. Attended “Beam Raising” event at Lake Tahoe Community College
2. South Tahoe Refuse “Dump Day” June 8
3. June 4 “Senior Project Juding Day” at South Lake Tahoe High School

**Councilmember Wallace**

1. Attended “Ed Foundation” event
2. “Momentum” PBS documentary of South Lake Tahoe Locals available starting June 11

**Mayor Bass**

1. Attended Happy Homestead/American Legion Memorial Day event
2. Attended Tahoe Regional Planning Agency retreat
3. Upcoming Tahoe Transportation District meeting
4. Condolences to John Cristando’s family

**Adjournment**

Mayor Bass adjourned the meeting at 11:52 a.m.

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**4

**Agenda Item:** Agreement with Blink Network, LLC for Electric Vehicle Chargers, Operations & Maintenance, and Management Platform

**Executive Summary:** This contract establishes a 10-year relationship with a firm that will furnish, operate, and maintain charging infrastructure as project sites are designed and built. Two public-facing city projects are designed and a first task order is included in this contract for the purchase of: 7 dual-port EV chargers for Bellamy Parking Garage, and 3 dual-port EV chargers for the New Multigenerational Recreation and Aquatics Center, as well as operations and maintenance costs for all 10 dual chargers.

**Requested Action / Suggested Motions:** Pass a Motion authorizing and directing the Mayor to execute an Agreement with Blink Network, LLC for an amount of $97,316.90 for the purchase of 10 dual Level 2 electric vehicle chargers, freight, and operations and maintenance for 10 years.

**Responsible Staff Member:** Sara Letton, Sustainability Coordinator, and Anush Nejad, Public Works Director

**Reviewed and Approved By:** Susan Blankenship, City Clerk Heather Stroud, City Attorney Olga Tikhomirova, Finance Director Joe Irvin, City Manager

**Attachments:**

01 - Staff Report - Agreement with Blink Network LLC for EV Chargers.docx
02 - Agreement with Blink.pdf
03-Blink Network Terms and Conditions.pdf

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title: Agreement with Blink Network, LLC for Electric Vehicle Chargers, Operations & Maintenance, and Management Platform**

**Location:** Citywide

**Responsible Staff Member:** Sara Letton, Sustainability Coordinator, and Anush Nejad, Public Works Director

**Background:** California is leading the way in the transition to lessen the climate impacts of the transportation sector by initiating both government fleet zero emissions mandates and commercial retail light duty electric mandates for the electric vehicle sector.

Gavin Newsom's Executive Order N-79-20 states that 100% of new passenger vehicles and trucks sold in the state of California must be zero emission by 2035. The California Air Resources Board has developed regulations and strategies to achieve this in a technologically and cost-effective manner. Numerous state and local grant and incentive programs have been developed to support this mandate. Some federal programs also help support the transition to zero emission.

Climate goals of the City include a 59.2% reduction from 2018 greenhouse gas levels by 2030. On April 20, 2021, City Council adopted a Light Duty Fleet Transition Plan to help achieve these ambitious greenhouse gas reductions. A phased approach was proposed, and was based on technology and marketplace availability, and focused on light duty vehicle procurement first. To accomplish these goals, the City plans to install electric vehicle charging infrastructure to encompass future departmental needs. On the fleet side, charging infrastructure should be in place when fleet vehicles are procured. On the public side, the city seeks to support the scaling of EV charging infrastructure to provide good service to our residents and guests. Both efforts are a way to support the drawdown of climate warming gases from our transportation sector (roughly one-third of community-wide greenhouse gas emissions).

This contract establishes a relationship with a firm that will furnish, operate, and maintain charging infrastructure as project sites are designed and built. In addition, the selected firm will help identify grant funding opportunities and provide expertise and feedback to the Sustainability Coordinator and Public Works departments as more EV charging projects are developed.

**Issue and Discussion:** In winter of 2024 the city issued a Request for Proposal for vendors to provide proposals to "Furnish, (Install), Operate, and Maintain EV Chargers" for public use, and a separate, very similar process and RFP for fleet side EV Chargers. The City requested either or both of two options from the proposers for either furnishing the equipment, where the city retains ownership of the equipment (Option 1) and/or installing the equipment through a leasing agreement (Option 2), where the vendor owns, operates and maintains the equipment.

Ten vendors submitted proposals for the Fleet Charging RFP. Six vendors submitted proposals for the Public Charging RFP. Several vendors proposed to both RFPs. Vendors were invited to propose a charger lease option and/or a city ownership option (as described above). Most vendors proposed Option 1, for the city ownership option.

A review team of three city staff, including City Manager's Office, Finance Department and Public Works reviewed both sets of proposals, and the same three vendors were ranked highest across both pools of proposals. Those vendors were interviewed by the review team. References were called and interviewed. Based on the proposals and subsequent interviews, Blink was ranked Number 1. Blink has the longest company history and experience and determined that Blink offers a conservative and low risk option considering the desired length of this contract arrangement.

Proposers to RFP 02-28-24-1 Fleet EV Charging

| Vendor/Proposer Name | Evaluator #1 Total Score | Evaluator #2 Total Score | Evaluator #3 Total Score | TOTAL SCORE | RANKING |

| Real City | 65 | 59 | dq | 124 | 6 |

The city desires to have a Master Agreement for purchasing fleet and public-facing chargers, with the first two projects outlined and funded as a first task order in this contract. As future projects are developed and funding is identified, additional task orders will be added under this contract.

The attached Master Agreement outlines how Blink will provide EV chargers to the city on a project-by-project basis, as funding allows. This contract includes a price sheet, effective for ten (10) years. The pricing will be adjusted annually based on the San Francisco Bay Area, Consumer Price Index (CPI). The Full Product Line Offering includes various types of charger units, including Type II, DC Fast Chargers, and pedestal and wall mounted units.

Operations, Management and Maintenance ("O & M") is an annual cost on a per-charger basis. With this O & M agreement, Blink is obligated to fully address all issues that affect the functionality of the units, will maximize uptime, and could include a full unit replacement at no cost to the city if necessary. Blink is incentivized in this contract to provide grant guidance when such funding will allow the city to advance an EV charger project faster. The contract includes Blink's sophisticated charger management software platform. This provides instant insight into the repair status of the units, collects and reports on extensive data including carbon offsets and individual vehicle usage, and it allows Staff to update the rates on the public-facing chargers as desired.

Blink will provide Apple Pay, Google Pay, and credit card payment options for the public-facing chargers. A user can swipe a credit card on the credit card reader or tap to pay to activate the charging session, with no need to download an app. Blink will charge all users a fee based on the City's rate structure (to be adopted in near future) plus applicable taxes and retain 8% of the Session Transaciton Fee as a Processing Fee. All Net Session Fees will be remitted to the City in accordance with Blink's standard Network Terms and Conditions posted on their webpage: https://blinkcharging.com/legal/blink-network-terms-and-conditions (Attachment 3).

Blink's software identifies individual vehicles and verifies their status using RFID or the Blink app. At future fleet EV charging sites, Blink's software has the ability for credential checking and can seamlessly allow vehicles to charge on a given charger and tracks/reports the Kilowatt Hour (kwh) transferred to the vehicles. Members of the public will not be able to charge on a fleet charger unless this is configured for on the backend. As such, the software is sophisticated and allows for flexible use of chargers with high security, should the City desire to use the chargers in flexible ways. The software also provides sophisticated load management. For example, this allows the City to avoid costly demand charges or too much energy demand on a given transformer. It is all configurable to the City's needs and interests.

This contract includes the City's first two projects: the purchase of seven dual Level 2 charging stations (14 ports) for installation at the Bellamy Parking Garage at Heavenly Village and the purchase of 3 dual stations (6 ports) for the brand-new Multigenerational Recreation and Aquatics Center. The stations will be installed on the first floor of the garage, on the north side, and will include two parking places with one charger (2 ports) addressing ADA access needs. The Bellamy Garage renovation project identifies 10 additional EV charging ports (5 dual chargers) that could be installed in the future as demand dictates and which will likely necessitate a transformer upgrade. Guests seeking to charge their vehicles at the garage must pay separately for parking via the general garage parking management system. The chargers for the new Rec Center will be on the west side of the new parking lot and installation is planned for September 2025.

The City will approve future task orders for purchase of additional chargers as funding allows. The Bellamy Garage and new Rec Centr design work is complete, thus, this request for the purchase of this first set of dual port chargers and the annual O & M costs. As design work is completed and funding is identified for future fleet and public charging projects, staff will return to Council with additional requests for funding.

**Financial Implications:** EV charging projects will have two CIP accounts: 1) public facing charging and 2) fleet charging. Expenses from public facing charging projects once built will shift to an enterprise fund. Doing this will allow the city to recuperate some of the project costs over time (and help pay for future EV projects) through a rate set by Council, which will be brought to Council later this summer. The rates will be incorporated into the Master Fee Schedule annually and will be adjusted either based on CPI or by usage and will take into account energy costs.

Purchase of the seven dual chargers is being split between the remaining funding in the Bellamy Parking Garage renovation project contract account 520-05320-48030 (up to $48,000), and a portion of $450,000 funding in the Parking Garage Account 52005320-46110, Machinery and Equipment allocated for the access and revenue control system upgrade. The cost is $57,109.15 for the chargers. Staff recommends an annual for the O & M agreement at $9367.68 for all seven chargers for the first year, up to 10 years, which is considered the useful life of the units. O & M costs will track the CPI through time. The total for year one will be $68,226.83, which includes a freight charge.

Purchase of 3 dual chargers has been budgeted under the Multigenerational Recreation and Aquatics Center Project account 301-60018-48030. The cost is $24,475.35 for the chargers. Staff recommends an annual for the O & M agreement at $4014.72 for all three chargers, up to 10 years, which is considered the useful life of the units. O & M costs will track the CPI through time. The total for year one will be $29,090.07, which includes a freight charge.

The total for the 10 dual chargers, freight charges, and O & M in this first task order is $97,316.90.

**Environmental Considerations:** This is not a project subject to review under the California Environmental Quality Act (CEQA) under CEQA guidelines section 15378A(b)(2) (continuing administrative or maintenance activities, such as purchase for supplies).

**Policy Implications:** The project supports the City's *Strategic Priorities*:

- 1.4 Transportation via "electrification of the transportation system is a top priority."
- 1.5 Carbon Neutrality to "pursue opportunities for electrification, including transitioning fleet vehicles to electric and building robust EV charging infrastructure by 2025."

The project advances the City's *Climate Action Plan*:

- EDT-1, Promote and incentivize EVs and EV chargers: "Evaluate the potential incentives to convert fleets to EVs."

The project supports community GHG emissions reductions, contributing to the science-based emissions reductions target established in *Resolution No. 2022-088*.

# City of South Lake Tahoe

# Master Agreement

# FOR

# EV CHARGING STATION PROJECT

# PWC C-098-2024

THIS AGREEMENT is made and entered into this _____ day of _____, 2024, by and between the City of South Lake Tahoe, a political subdivision of the State of California, herein designated "City", and Blink Network, LLC, herein designated as "Vendor/Contractor."

WITNESSETH, that the City and the Contractor, in consideration of the mutual covenants hereafter set forth, agree as follows:

## ARTICLE 1 — THE WORK

Contractor agrees to provide electric vehicle charging stations ("EV Charging Stations") and furnish all labor, tools, equipment, facilities, materials, transportation and services necessary to perform and complete, in a good and workmanlike manner, operations, management, maintenance, software for data collection, revenue collection and remittance for the **EV Charging Stations, and other services specified in the Proposals in Attachment A**.

As required pursuant to the Contract Documents (the "Work"). The Work is based on approved Task Orders.

## ARTICLE 2 — COMMENCEMENT AND COMPLETION

The Work to be performed under this Master Agreement (herein referred to agreement) shall commence at the time as specified in the Notice to Proceed, and the Contractor shall diligently undertake the performance of the obligations as set forth in the Contract Documents (California Department of Transportation Standard Specifications, City of South Lake Tahoe Public Improvement and Engineering Standards (PIES), and future Design Plan) and as outlined in each approved Task Order.

The City and the Contractor recognize that time is of the essence of this Agreement and that the City will suffer financial loss if the Work is not completed within the time specified herein, plus any extensions thereof allowed in accordance with the Contract Documents. The City and Contractor also recognize the delays, expense, and difficulties involved in proving the actual loss

suffered by the City if the Work is not completed within the Contract Time. This Master Agreement has a term of ten (10) years.

## ARTICLE 3 — CONTRACT PRICE

The City agrees to pay, and the Contractor agrees to accept, in current funds for the performance of the Work pursuant to the Contract Documents, the Contract Sum for the completion of the Work in accordance with the Contract Documents, Scope of Services, as shown in Attachment B, and individual Task Orders.

Compensation for each authorized Task Order shall be based upon the unit prices stated in Attachment A. Unit prices paid by the City may change depending on actual quantities or units of work completed in accordance with each authorized Task Orders.

## ARTICLE 4 — PREVAILING WAGES

Pursuant to the provisions of California Labor Code, Sections 1770 to 1780, inclusive thereof, the Contractor, and any subcontractor, of any tier, shall pay not less than the prevailing rate of per diem wages as determined by the Director of the California Department of Industrial Relations.

In compliance with Senate Bill 854 and the California Labor Code, this project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractors must submit their certified payroll records directly to the Division of Labor Standards Enforcement Compliance Monitoring Unit through the electronic certified payroll reporting (eCPR) system, as well as to the City.

Pursuant to the provisions of California Labor Code Section 1773.2, the Contractor is hereby advised that copies of the prevailing rate of per diem wages and a general prevailing rate for holidays, Saturdays and Sundays and overtime work in the locality in which the Work is to be performed for each craft, classification, or type of worker required to execute the Contract, are on file in the City's office. The Contractor agrees that not less than said prevailing rates shall be paid to workers employed on this public works contract as required by Labor Code Section 1774. These rate determinations are found on the State of California Department of Industrial Relations' website at: http://www.dir.ca.gov/dlsr/DPreWageDetermination.htm. Furthermore, the project has received federal funding and is required to meet Federal wage determinations which can be found at: http://www.wdol.gov/wdol/scafiles/davisbacon/ca9.dvb .

## ARTICLE 5 — CONTRACT DOCUMENTS

**The Agreement includes and incorporates by reference the Contract Documents for the Project, which consists of the following documents, in addition to this Agreement:**

(a) Contractor's Scope of Service and Proposals.
(b) Fee Schedule.
(c) Payment Schedule.
(d) Insurance Certificates and Endorsements.

(e) Anti-Lobbying Certification.
(f) Debarment and Suspension Certification.
(g) Task Order Template.
(h) Task Order 1.
(i) The Standard Specifications of the State of California, Department of Transportation, dated 2023; the Standard Plans of the State of California, Department of Transportation, dated 2023, and the South Lake Tahoe Public Improvement and Engineering Standards, where applicable; and
(j) Permits from other agencies as may be required by law.

## ARTICLE 6 — WORKERS' COMPENSATION

Contractor shall take out and maintain during the life of the Agreement, adequate and sufficient workers' compensation insurance for all Contractor's employees employed at the site of improvements, and, if any Work is sublet, Contractor shall require each subcontractor similarly to provide workers' compensation insurance for all of the latter's employees, unless such employees are covered by the protection afforded by Contractor, all in accordance with the Contract Documents. If any class of employees engaged in Work under this contract at the site of the Project is not protected under workers' compensation law, Contractor shall provide, and shall cause each subcontractor to provide, adequate insurance for the protection of employees not otherwise protected. Contractor shall indemnify the City for any damage resulting to it from failure of either Contractor or any subcontractor to take out or maintain such insurance.

By its signature upon this Agreement, Contractor certifies that it has carefully reviewed and is aware of the provisions of Section 3700 of the Labor Code which requires every employer to be insured against liability for worker's compensation, or to undertake self-insurance in accordance with the provisions of the labor Code. Contractor, as a condition precedent to the commencement of its Work pursuant to the Agreement, shall comply with such provisions.

## ARTICLE 7 — INDEMNITY AND INSURANCE

To the fullest extent permitted by law, including, without limitation, Civil Code section 2782, *et seq*., and in strict accordance with the Contract Documents, Contractor shall defend, indemnify, and hold harmless the City, its officials, officers, City Council members, employees, agent, the Project Manager, the Architect/Engineer, the Project consultants, and their respective principals, officers and employees, and each of them, of and from any and all claims, demands, suits, causes of action, damages, costs, expenses, attorneys' fees, losses, or liability, in law or in equity, of every kind and nature whatsoever related to, arising out of, or in connection with, Contractor's operations to be performed under this Agreement, and as otherwise set forth in Contract Documents. The obligations of defense and indemnity set forth in this Article, and in the Contract Documents, shall not be limited by any insurance requirements or obligations pursuant

to the Contract Documents, and shall not extend to the sole negligence or willful misconduct of the City, or the active negligence of the City. The obligations arising from this Article shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity (including all duties to defend), which would otherwise exist as to a party, or person described elsewhere in the Contract Documents.

Contractor shall maintain the insurance coverage described in Attachment C, throughout the performance of the Agreement, including any maintenance, warranty and/or guarantee periods. This Agreement shall not be operative until evidence of such insurance has been provided to, and approved by, the City as to form, amount, and carrier. Contractor shall not allow any subcontractor to commence Work at the Project until subcontractor provides evidence to Contractor and City that subcontractor has obtained insurance acceptable to the City.

## ARTICLE 8 — NOTICES

Whenever any provision of the Contract Documents requires the giving of written notice, it shall be deemed to have been validly given if delivered in person to the individual for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the address listed below:

**Notices required to be given to City:**

City of South Lake Tahoe

1901 Airport Road, Suite 100

South Lake Tahoe, CA 96150

Attn: Ms. Sara Letton

**Notices required to be given to Contractor:**

Blink Network, LLC

5081 Howerton Way, Suite A

Bowie, MD 20715 Attn: Legal

Notices required to be given to any surety(ies):

_____

_____

_____

## ARTICLE 9 — MISCELLANEOUS

**9.1 Terms.** Terms used in this Agreement will have the meanings indicated in the Contract Documents.

**9.2 Assignment.** No assignment by a party hereto of any rights under or interests in the Agreement will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, moneys that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect

of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

**9.3 Successors and Assigns.** City and Contractor each binds itself, its partners, successors, assign, and legal representatives to the other party hereto, its partners, successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

**9.4 Severability.** Any provision or part of the Contract Documents held to be void or unenforceable under any law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon City and Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

**9.5 South Lake Tahoe City Code.** Contractor acknowledges that all pertinent provisions within the South Lake Tahoe City Code are incorporated by reference as though set forth in full herein, and, further, the failure of Contractor or any subcontractor, of any tier, to comply with any of its/their obligations under the Contract Documents, or the requirements of the South Lake Tahoe City Code, or any other applicable law, code, statute, or regulation, shall be deemed a material breach of the Agreement.

**9.6 Third Party Beneficiary.** Contractor expressly acknowledges the City's status as a third party beneficiary solely with respect to the performance to be rendered under each subcontract, of any tier, upon the Project, and, as a result, Contractor acknowledges that City possesses, *inter alia*, the rights enumerated within the South Lake Tahoe City Code as to the enforcement of obligations under subcontracts of any tier.

**9.7 Regulatory Requirements.** Contractor acknowledges that the Project is subject to requirements and regulations issued on behalf of various governmental and/or regulatory bodies, including, without limitation, the Lahontan Regional Water Quality Control Board and the Tahoe Regional Planning Agency, among others. Contractor agrees to fully and promptly comply with any and all requirements and regulations issued on behalf of such entities.

**9.8 Governing Law.** This Agreement and the Contract Documents shall be deemed to have been entered into in the County of El Dorado, State of California, and governed by California law. By entering into this Agreement, the Contractor consents and submits to the jurisdiction of Courts of the State of California, County of El Dorado, over any action of law, suit in equity, and/or other proceeding that may arise out of the Contract Documents.

IN WITNESS HEREOF, the said City of South Lake Tahoe, State of California, has caused this Agreement to be executed by its Mayor in its behalf, and the said Contractor has signed this Agreement the day and year first above written.

## Cellular Repeater

Please note you may or may not need a cellular repeater at your location.

Some locations, like garages and areas where the cell signal is weak may require a cellular repeater system to make sure they receive a signal. A cellular repeater captures an available signal using an antenna and then amplifies it, then repeats the signal inside the garage or area that has a weak signal.

## This Signed Document Shall Serve as a Purchase Order for the Proposed Project

Price does not include final shipping fees nor sales tax.
Cancelled or returned DCFC/Specialty product are subject to a 20% fee.
Quoted price is valid for 30 days from
Created Date.
Payment terms are NET 30 from date of invoice per standard Blink Terms and Conditions, located at https://blinkcharging.com/terms-conditions

**By signing you are committing to order the charging solution as defined.**

# ATTACHMENT C

## Payment Schedule

The City commits to providing payment according to the following payment schedule:

- 20% at the Time of Notice to Proceed (NTP) for each Task Order,
- 50% upon delivery, and
- 30% at successful completion of testing, commissioning, and acceptance.
- Operations and Maintenance shall be billed annually per Attachment B and each authorized Task Order.

**The Contractor shall invoice the City based on the above schedule.**

# ATTACHMENT D

## Insurance Requirements

1. INSURANCE COVERAGES AND AMOUNTS

(A) Insurances, as described in this Special Provision section and other related sections of the Standard Specifications, Special Provisions and the Contract Documents, shall be maintained by the Contractor for the full life of the contract including the maintenance and warranty period for any and all portions of this contract. The company or companies providing such insurance shall have no recourse against the City, and their members, directors and employees, or any of them, for payment of any premiums or assessments under such insurance.

(B) In addition to the minimum limits of liability for insurance, as required by Section 7-1.06 "Insurance," of the Standard Specifications, the following provisions shall also apply to this Project:

**Workers Compensation:**

Contractor shall take out and maintain during the life of the Agreement, workers' compensation insurance for all Contractor's employees employed at the site of improvements and if any work is sublet, Contractor shall require subcontractor similarly to provide workers' compensation insurance for all of the latter employees, unless such employees are covered by the protection afforded by Contractor. If any class of employees engaged in work under this contract at the site of the project is not protected under workers' compensation law, Contractor shall provide, and shall cause each subcontractor to provide adequate insurance for the protection of employees not otherwise protected. Contractor shall indemnify the City, the for any damage resulting to it from failure of either Contractor or subcontractor to take out or maintain such insurance.

If such insurance is underwritten by any agency other than State Compensation Fund, such agency shall be a company authorized to do business in the State of California.

Worker's Compensation Insurance shall be provided as required by any applicable law or regulation. Employer's liability insurance shall be provided in amounts not less than ONE MILLION DOLLARS (1,000,000) each accident for bodily injury by accident, ONE MILLION DOLLARS (1,000,000) policy limit for bodily injury by disease, and ONE MILLION DOLLARS (1,000,000) each employee for bodily injury by disease.

If there is an exposure of injury to Contractor's employees under the U.S. Longshoremen's and Harbor Worker's Compensation Act, the Jones Act, or under laws, regulations, or statutes applicable to maritime employees, coverage shall be included for such injuries or claims.

Each Workers' Compensation policy shall be endorsed with the following language:

Cancellation Notice – Contractor shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required polices are reduced; (3) or the deductible or self-insured retention is increased.

Contractor and its insurer(s) shall waive any right of subrogation against the City and its officials, officers, employees, agents and representatives.

Contractor shall require all subcontractors, of ay tier, to maintain adequate Workers' Compensation insurance. Certificates of Workers' Compensation shall be submitted pursuant to the Contract Documents.

**Commercial General Liability:**

In addition to all other insurance requirements as set forth in the Contract Documents, Contractor shall procure and maintain during the life of this Agreement such liability and property damage insurance and shall protect the City, the City Council and all elective and appointive boards, officers, agents and employees and contractors from any claims for damages for personal injury, including death, as well as from claims for property damages which may arise from Contractor's ongoing and completed operations under this Agreement, whether such operation be by the Contractor or by any subcontractor, or by anyone directly or indirectly employed by either Contractor or any subcontractor, and the type and amounts of such insurance shall be as follows:

Contractor shall maintain Commercial General Liability (Occurrence) insurance no less broad than ISO form CG 00 01 covering all operations by or on behalf of Contractor, and all Work under the Contract Documents, and providing insurance for bodily injury liability and property damage liability for the limits of liability indicated herein and including coverage for contractual liability insuring the obligations assumed by Contractor in this Agreement.

The limits of liability for any Commercial General Liability (Occurrence) policy shall be in amounts not less than:

- ONE MILLION DOLLARS ($1,000,000) each occurrence (combined single limit for bodily injury and property damage)
- ONE MILLION DOLLARS ($1,000,000) Personal Injury Liability
- TWO MILLION DOLLARS ($2,000,000) for Products-Completed Operations
- ONE MILLION DOLLARS ($1,000,000) General Aggregate

If the policy does not have an endorsement providing that the General Aggregate Limit applies separately, or if defense costs are included in the aggregate limits, then the required aggregate limits shall be THREE MILLION DOLLARS ($3,000,000).

**Contractor's Pollution Liability Insurance**

Contractor shall maintain Contractor's Pollutions Liability (Occurrence) insurance in an amount no less than ONE MILLION DOLLARS ($1,000,000) per pollution incident and TWO MILLION DOLLARS ($2,000,000) aggregate. Coverage must apply to pollution incidents at or from any location at which the Contractor is performing under this Agreement. Prior written consent of the City is required if the insurance has a deductible or self-insured retention in excess of $25,000.

**Cyber Liability Insurance**
Cyber Liability Insurance with limits not less than one million dollars ($1,000,000) per claim, two million dollars ($2,000,000) aggregate. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by Vendor in this agreement and shall include, but not limited to, claims involving security breach; system failure; data recovery; business interruption; cyber extortion; social engineering; infringement of intellectual property, including but not limited to infringement of copyright, trademark, trade dress, invasion of privacy violations, information theft, damage to or destruction of electronic information, release of private information, and alteration of electronic information. The policy shall provide coverage for breach response costs as well as regulatory fines and penalties, and credit monitoring expenses with limits sufficient to respond to these obligations. Vendor's policy shall be primary and shall not seek contribution from the City's coverage, shall contain a waiver of subrogation in favor of the City, and shall be endorsed to provide that City and its officers, officials, employees, agents, and volunteers are additional insureds. Any failure to comply with the reporting provisions of the policy by Vendor shall not affect coverage provided to the City. If Vendor maintains broader coverage and/or higher limits than the minimums listed above, City requires and shall be entitled to the broader coverage and/or higher limits maintained by the Vendor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to City.

**Umbrella or Excess Liability Insurance**
In addition to the insurance requirement above, Contractor shall provide Umbrella or Excess Liability Insurance in an amount no less than TEN MILLION DOLLARS ($10,000,000) based on the Commercial Liability Insurance. The umbrella or excess policy shall provide that the policy takes effect (drops down) in the event the primary limits are impaired or exhausted.

**Additional Liability Insurance:**
Contractor shall maintain automobile liability insurance covering bodily injury and property damage in an amount not less than ONE MILLION DOLLARS ($2,000,000) combined single limit for each accident.

Covered vehicles shall include owned, non-owned, and hired automobiles and trucks. Such insurance is a condition precedent of the City entering into the Agreement. To the extent this section of the Special Provisions is inconsistent with Section 7-1.05 and 7-1.06 of the Standard Specifications, the stricter of the two shall apply to this Project.

**Conformity of Coverage:**
If more than one policy is used to meet the required coverage, such as a separate umbrella policy, such policies shall be consistent with all other applicable policies used to meet these minimum requirements. For example, all polices shall be Occurrence Liability policies or all shall be Claims Made Liability policies, if approved as noted above. In no cases shall the types of policies be different.

**Endorsements:**
Each Commercial General Liability policy shall be endorsed with the following specific language (or, alternatively, separate endorsements for each separate entity identified below):

1. "The City of South Lake Tahoe, the, their respective officers, agents, employees, and volunteers are to be covered as insured for all liability arising out of the operations by or on behalf of the named insured in the performance of this Agreement."; and "The insurance provided by the Contractor, including any excess liability or umbrella form coverage, is primary coverage with respect to any insurance or self-insurance programs maintained by [CONTRACTOR] and no insurance held or owned by the City of South Lake Tahoe, shall be called upon to contribute to a Contractor loss.

   Contractor shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required polices are reduced; (3) or the deductible or self-insured retention is increased."

2. The policies shall stipulate that the insurance afforded the additional insured applies as primary insurance. Any other insurance or self-insurance maintained by the City is excess only and shall not be called upon to contribute with this insurance.

(C) The following additional conditions apply to the insurance requirements the following shall apply to this Project:

1. Within ten (10) calendar days after the Contractor has received notice from the City that the Agreement has been awarded to the Contractor and before the Work commences, Contractor shall satisfy all conditions precedent as set forth in the Contract Documents, including, without limitation, that Contractor shall submit to the City acceptable Certificates of Insurance and with original policy endorsements which specifically state the following:

   (a) The existence of the required amounts of coverage.
   (b) The effective and expiration dates of the policy.
   (c) The types of coverage provided by the policy.

2. Written statement from the agent or broker issuing the policy confirming that the required insurance(s) is an Occurrence policy.

3. The City reserves the right to review the original policy, if deemed necessary by the City to resolve any questions of coverage or exception.

4. The City may expressly allow deductive clause, which it does not consider excessive, overly broad, or harmful to the interests of the City. Regardless of the allowance of exclusion or deductions by the City, the Contractor is responsible for any deductible amount and shall warrant that the coverage provided to the City is in accordance with this Section.

5. Certificates of insurance shall be signed by a person authorized by the insurer to bind coverage on its behalf.

6. List job name on certificate of insurance under “Description of Operations.”

In the event the policy is canceled prior to the completion of the project and the Contractor does not furnish a new policy endorsement prior to cancellation, the City may obtain the required insurance and deduct the premium(s) from contract monies due the Contractor.

(D) No later than the time the Notice to Proceed is issued, or at any other time as may be directed in writing by the City, the Contractor shall provide written evidence of insurance coverages, in a form acceptable to the City (i.e., insurance certificates appropriately issued), for each supplier, subcontractor and sub-subcontractor whose initial subcontract and/or purchase order price is equal to or in excess of 5% of the Contract Sum. The insurance coverages (both as to types and amounts) to be procured by each supplier, subcontractor or sub-subcontractor performing work having a value equal to or in excess of 5% of the Contract Sum, shall meet or exceed the minimum insurance coverages as set forth in the Contract Documents, unless the City agrees, in writing, that compliance with this requirement is waived. It shall be the obligation of the Contractor to promptly provide acceptable written evidence to the City demonstrating that each supplier, subcontractor or sub-subcontractor that will perform work having a value equal to or in excess of 5% of the Contract Sum has obtained and possesses all insurance coverages in accordance with the requirements of the Contract Documents.

# ATTACHMENT E

## Anti-Lobbying Certification

**Vendor shall submit to City this certification prior to or at the time of the execution of this Agreement.**

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U. S. Code. Any person who fails to file the required certification shall be subject to a civil penalty not less than $10,000 and no more than $100,000 for such failure.

The undersigned certifies, to the best of his or her knowledge or belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement; and

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal Contract, grant, loan, cooperative Agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instruction.

## CITY OF SOUTH LAKE TAHOE

## DEBARMENT AND SUSPENSION CERTIFICATION

The undersigned (authorized official signing for the Bidder) hereby declares under penalty of perjury the following:

**1.** In accordance with section 6109 of the Public Contract Code, the bidder declares that bidder will not enter into any contract with a subcontractor who/which has been debarred pursuant to section 1771.1 or section 1777.7 of the Labor Code. No public monies shall be paid to a debarred subcontractor, and any contract entered into for public work between a prime contractor and debarred subcontractor shall be considered void as a matter of law. Any payments made to a debarred subcontractor shall be returned to Owner. The prime contractor shall be solely responsible for all payments to a debarred subcontractor. In no case shall any public money be used to pay a debarred subcontractor.

**2.** In accordance with section 10162 of the Public Contract Code, has the Bidder, any officer of the Bidder, or any employee of the Bidder who has a proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

Yes _____ No _____

If the answer is yes, explain the circumstances in the following space (use additional sheets if necessary).

**3.** In accordance with section 10232 of the Public Contract Code, has more than one final, unappealable finding of contempt of a court by a federal court has been issued against the Bidder within the immediately preceding two-year period because of the Bidder's failure to comply with an order of a federal court which orders the Bidder to comply with an order of the National Labor Relations Board? For purposes of this section, a finding of contempt does not include any finding which has been vacated, dismissed, or otherwise removed by the court because the contractor has complied with the order which was the basis for the finding.

Yes _____ No _____

If the answer is yes, explain the circumstances in the following space (use additional sheets if necessary).

**4.** In accordance with section 10285.1 of the Public Contract Code, the Bidder declares that neither the Bidder nor any subcontractor to be engaged by the Bidder has been convicted of any of the offenses referred to in this section within the preceding three (3) years. These offenses include if that Bidder or any subcontractor to be engaged by the Bidder, or any partner, member, officer, director, responsible managing officer, or responsible managing employee thereof, has been convicted by a court of competent jurisdiction of any charge of fraud, bribery, collusion, conspiracy, or any other act in violation of any state or federal antitrust law in connection with the bidding upon, award of, or performance of, any public works contract, as defined in Section 1101, with any public entity, as defined in Section 1100, including, for the purposes of this certification, The City of South Lake Tahoe.

**5. Certification Regarding Debarment and Suspension**

The undersigned (authorized official signing for _____) certifies to the best of his or her knowledge and belief, that the _____, defined as the primary participant in accordance with 45 C.F.R. Part 76, and its principals:

A. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal Department or agency;

B. have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

C. are not presently indicted or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2) of this certification; and

D. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

**By my signature which is placed below on behalf of the named Bidder, I certify, under penalty of perjury under the laws of the State of California, that I am an officer, principal or owner of the Bidder, and that the foregoing questionnaire, and all certifications and statements therein, are accurate, true and correct.**

# TASK ORDER TEMPLATE

**CITY OF SOUTH LAKE TAHOE**

**MASTER CONTRACT SERVICES AGREEMENT**

**DATED _____**

**WITH BLINK NETWORK, LLC.**

**TASK ORDER NO. ____**

**Project Title: __EV Charging Stations (EVCS) for _____**

**Contract Amount: $_____**

THIS TASK ORDER is entered into on _____, 202__ between the City of South Lake Tahoe**,** a municipal corporation ("City")**,** and Blink Inc., ("Contractor").

RECITALS

A. The City and Contractor have entered into a Master Contract Services Agreement ("Agreement") dated _____ under which the Contractor has agreed to furnish, test, commission and provide Operations and Maintenance (O&M), Management and financial transactions for Electric Vehicle Charging Stations (EVCS), perform certain professional services for the City; and

B. Pursuant to the terms of the Agreement, the City wishes Contractor to perform certain tasks as set forth in this Task Order, which constitute the Project;

NOW, THEREFORE, City and Contractor agree as follows:

## AGREEMENT

1. Scope of services. The contractor shall provide any and all of the services set forth in Exhibit A of this Task Order, dated/titled _____, as directed by the City.

_____ shall be the Project Manager for Contractor for this Task Order. Additional professional services may be performed by other Contractor staff with prior notice and approval by City.

a. City's duties. The City will:

(1) Determine the scope of services, as set forth in Exhibit A.

(2) Design and Construct the infrastructure required for installation of the EVCS.

(3) Coordinate with Liberty Utilities for Power Connections.

(3) Designate Ms. Sara Letton as the person at the City responsible for monitoring performance under this Task Order.

b. Contractor duties. The Contractor will:

(1) Furnish and deliver the number of EVCS as identified in Exhibit A, Scope of Services.
(2) Conduct Testing, Commissioning and Acceptance of EVCS for Agency Installed EVCS.
(3) Provide Operations and Maintenace (O&M) of the EVCS stations on an on-going basis for the duration of the time as identified in Exhibit A, Scope of Services.
(4) Provide Project Management and financial Transactions (for Public Facing EVCS), remit payment to the City for revenue collected based on city-approved charging rates and retain all financial records for at least seven (7) years.
(5) Provide on-going 24x7 troubleshooting support and response.
(6) Provide miscellaneous other services related to the Project and not stipulated elsewhere in this Task Order when requested by the City for optimum performance of the EVCS. A Task Order Amendment is required if these additional services cannot be performed within the Task Order budget.
(7) Connect chargers to The Blink Network, including the advantages, technology and supports as described in the Proposal.

2. Date of completion; Work hours estimate; Cost estimate and budget; Fee schedule.

With regard to each project given to Contractor that is subject to this Task Order, the time of completion, work hours estimate, cost estimate and budget and fee schedule are set forth in Exhibit A to this Task Order.

3. Authorization to proceed.

The City will give Contractor authorization to proceed with the work specified in this Task Order only after Contractor submits updated insurance certificates and endorsements, in accordance with Section 10 of the Agreement.

4. Master Agreement terms; Conflicts.

Except as expressly otherwise provided herein, all terms of the Agreement shall apply to the Contractor in the performance of work pursuant to this Task Order. If there is a conflict between this Task Order and the Agreement, this Task Order shall control.

4. Amendment of Task Order; Conflicts.

Except as provided in Section 1(b)(2) above, this Task Order may not be modified except by an Amended Task Order executed and approved in the same manner as the Task Order.

5. Signatures. The parties have executed this Task Order as of the date first written above.

**CITY OF SOUTH LAKE TAHOE**

**MASTER CONTRACT SERVICES AGREEMENT**

**DATED June 18, 2024**

**WITH BLINK NETWORK, LLC.**

**TASK ORDER NO. 1**

**Project Title: EV Charging Stations (EVCS) for Bellamy Parking Garage and the new Multi-Generational Recreation and Aquatics Center**

**Contract Amount: $97,316.90**

THIS TASK ORDER is entered into on June 18, 2024 between the City of South Lake Tahoe**,** a municipal corporation ("City")**,** and Blink Network LLC, ("Contractor").

RECITALS

A. The City and Contractor have entered into a Master Contract Services Agreement ("Agreement") dated _____June 18, 2024_____ under which the Contractor has agreed to furnish, test, commission and provide Operations and Maintenance (O&M), Management and financial transactions for Electric Vehicle Charging Stations (EVCS), perform certain professional services for the City; and

B. Pursuant to the terms of the Agreement, the City wishes Contractor to perform certain tasks as set forth in this Task Order, which constitute the Project.

NOW, THEREFORE, City and Contractor agree as follows:

## AGREEMENT

1. Scope of services. The contractor shall provide any and all of the services set forth in Exhibit A of this Task Order, dated/titled ____June 18, 2024_____, as directed by the City.

**Aaron Muellerleile** shall be the Project Manager for Contractor for this Task Order. Additional professional services may be performed by other Contractor staff with prior notice and approval by City.

a. City's duties. The City will:

(1) Determine the scope of services, as set forth in Exhibit A.

(2) Design and Construct the infrastructure required for installation of the EVCS.

(3) Coordinate with Liberty Utilities for Power Connections.

(3) Designate Ms. Sara Letton as the person at the City responsible for monitoring performance under this Task Order.

b. Contractor duties. The Contractor will:

(1) Furnish and deliver the number of EVCS as identified in Exhibit A, Scope of Services.
(2) Conduct Testing, Commissioning and Acceptance of EVCS for Agency Installed EVCS.
(3) Provide Operations and Maintenace (O&M) of the EVCS stations on an on-going basis for the duration of the time as identified in Exhibit A, Scope of Services.
(4) Provide Project Management and financial Transactions (for Public Facing EVCS), remit payment to the City for revenue collected based on city-approved charging rates, and retain all financial records for at least seven (7) years.
(5) Provide on-going 24x7 troubleshooting support and response.
(6) Provide miscellaneous other services related to the Project and not stipulated elsewhere in this Task Order when requested by the City for optimum performance of the EVCS. A Task Order Amendment is required if these additional services cannot be performed within the Task Order budget.
(7) Connect chargers to The Blink Network, including the advantages, technology and supports as described in the Proposals.

2. Date of completion; Work hours estimate; Cost estimate and budget; Fee schedule.

With regard to each project given to Contractor that is subject to this Task Order, the time of completion, work hours estimate, cost estimate and budget and fee schedule are set forth in Exhibit A to this Task Order.

3. Authorization to proceed.

The City will give Contractor authorization to proceed with the work specified in this Task Order only after Contractor submits updated insurance certificates and endorsements, in accordance with Section 10 of the Agreement.

4. Master Agreement terms; Conflicts.

Except as expressly otherwise provided herein, all terms of the Agreement shall apply to the Contractor in the performance of work pursuant to this Task Order. If there is a conflict between this Task Order and the Agreement, this Task Order shall control.

4. Amendment of Task Order; Conflicts.

Except as provided in Section 1(b)(2) above, this Task Order may not be modified except by an Amended Task Order executed and approved in the same manner as the Task Order.

5. Signatures. The parties have executed this Task Order as of the date first written above.

            1. Three (3) Type II dual port units + Three (3) annual O & M subscriptions + Freight, Taxes, Testing, Commissioning and Acceptance, according to attached proposal, Q-25388.
                a. Annual O&M: $1338.24 and will increase annually according to the CPI.
            2. Total due, payment according to Payment Schedule and including freight: **$29,090.07**.

# BLINK NETWORK TERMS AND CONDITIONS

**Last Modified: June 6, 2024**

This Blink Network, LLC ("Blink," "we," or "us") Account Agreement and its terms and conditions (the "Agreement" or "Terms and Conditions") apply between all users ("Users," "User," "you," or "your") of this website ("Website" or "Site") the Blink mobile application ("Mobile Application"), Blink Charging Stations, the Blink Network, and/or the Blink API, including but not limited to registered members, and, Blink Charging Co. (and its subsidiaries and affiliates), the owner of this Website and the Mobile Application.

By installing and operating a Blink electric vehicle ("EV") EV charger on the Blink Network; opening a Blink account and/or using a Blink-issued user card and/or using a Blink-provided user code or guest code ("Code"), and/or using the Blink networked EV charging services ("Blink Network"), you agree to the terms specified in this Agreement. These Terms and Conditions apply to the use of and (where applicable) purchase of products and services, including but not limited to use of supportive services and information posted to the Site and/or the Mobile Application. Please read these Terms and Conditions carefully, as they affect your legal rights.

Upon entering into this Agreement with Blink, you may have recently purchased a Blink Charging Station, purchased and/or were provided with one or more radio frequency identification ("RFID") card(s) and/or you may have received a Code that will allow you access to the public and/or residential Electric Vehicle ("EV") charging stations on the Blink Network (each, a "Blink Charging Station"). This Agreement applies to and is made part of each application you may submit to open an account with the Blink Network ("Blink Account"). By submitting an application to open a Blink Account, you acknowledge and consent to the Terms and Conditions of this Agreement, and to Blink's Privacy Policy (blinkcharging.com/privacy-policy), all of which may be updated from time to time without giving notice to its Users. In addition, this Agreement may be changed at any time without prior notice. All such changes shall be posted on this Website and/or on the Mobile Application. You should check the Website and/or Mobile Application for such changes frequently. Your continued access to, and use of, the Blink Charging Stations and any applicable ancillary services, including, but not limited to the use of and/or access to the Blink Network and/or the Blink's Website, API, or Mobile Application (the "Services"), after such changes are posted, conclusively demonstrates your acceptance of those changes. You acknowledge and agree that Blink may collect, on behalf of itself and/or its clients ("Hosts") non-personally identifying data relating to the usage of Blink Charging Stations and the fees charged to Users by such Hosts for access to the Blink Charging Stations. All such information may be shared by Blink with third parties at Blink's sole and absolute discretion. The way we use your information is detailed in our Privacy Policy.

**1. Fees.** You agree to pay all applicable fees ("Fees") for connecting to the network, accessing Blink Charging Stations, or those fees associated with any use of the Services, including using your RFID card(s) at a Blink Charging Station, or remotely, through a customer service agent at your request, or by using a Code or any application embedded in a smartphone or in similar technology.

**2. Permitted Use.** Use the Services solely in accordance with instructions provided to you by Blink. You hereby agree to comply with all applicable laws and regulations, as well as any policies and rules set by a Host (either the owner of the Blink Charging Station or the owner of the property on which the Blink Charging Station is located) when using Blink Charging Stations and/or Services.

**3. Statements.** You are required to promptly review your Blink statements and/or other payment method statements related to the Services (such as your credit card statement) and notify Blink's customer service in writing of any issues you might have regarding the Fees. All Fees not contested within 30 days of the corresponding statement date will be: (i) in the case of Fees not yet paid, deemed due and payable; and (ii) in the case of Fees already paid, non-refundable.

**4. Update Your Information.** You are required to promptly update your online account information, including changes to your name, email address, mailing address, telephone number, credit card information (including credit card number, expiration date, and billing address) upon the occurrence of any change to such information. Failure to update your information may result in account cancellation. You will remain liable for all Fees billed to your Blink Account until the date your Blink Account is canceled by you or Blink.

**5. Billing.** You may use an RFID card or a Code to pay Fees on any Blink Charging Station you are allowed to use (with explicit or implicit permission from the Host). When using your RFID card for payment of Fees, the Blink EV Charging Station will read your RFID card or accept your Code, and a record of your transaction will be created. Fees will be charged to your Blink Account in accordance with the price configured by the Host and/or Blink for that specific Blink Charging Station. It is your responsibility to be made aware of the prices charged to your Blink Account and/or to your credit card. Make sure to keep your RFID card or Code secure, if you or any other person uses your RFID card or Code at a Blink Charging Station, you agree to pay the Fees specified thereof. You agree that Blink may share with its Hosts or another duly authorized party, any information specified in this Blink Account Agreement regarding your usage and payments for the purposes of processing and collecting fees and enforcing Blink Network's policies and related contractual obligations.

**6. Charging Fees.** Our Fees are charged: (i) by kilowatt-hour ("kWh") of energy dispensed to the vehicle; or (ii) by the time the vehicle is plugged into the Blink Charging Station rounded up to thirty-second intervals or 1-hour intervals, depending on the specific Blink Charging Station; or (iii) by a flat fee for the total session ("session-based rate"), depending on the location of the Blink Charging Station. Blink maintains an updated schedule of pricing rates by region on the Blink Network website (https://blinkcharging.com/drivers/pricing/). Additionally, certain Blink Charging Stations charge a non-refundable occupancy fee for cars plugged into the Blink Charging Station after the charging session has ended.

**7. Authorization Hold, Fees, and Charges.** Although you provide your credit card information when you apply for an RFID card or when you request a Code, your credit card will not be charged until you utilize a Blink Charging Station. Blink reserves the right to place an authorization hold of up to $100 on the provided payment method (the "**Authorization Hold**"). This Authorization Hold is temporary, and you will only be billed for the Fees incurred at the conclusion of your charging session. Please be advised that it may take up to seven (7) days for your financial institution to release the Authorization Hold.

**8. Collection**. In the event that payment on your credit card is declined, Blink may suspend or terminate your account. In addition, Blink may institute collection proceedings against you for all outstanding and unpaid balances, including all fees, costs or other expenses (including, without limitation, reasonable attorney fees) incurred by Blink in connection with its collection efforts.

**9. RFID Card Replacement.** If your RFID card fails to operate for reasons other than abuse or improper use and you return it to the Blink Customer Service Center, a replacement will be sent to you at no additional charge. If your RFID card is lost or stolen, please report the loss or theft immediately by accessing your Blink Account and updating the appropriate status, or, if you do not have access to the internet, inform Blink Customer Service immediately (see contact information at the end of this document). You remain liable for all Fees initiated with your RFID card or Blink Code until you have notified Blink that your RFID card has been lost or stolen. Blink Codes are good for use within three (3) days of purchase and are non-refundable.

**10. Information.** You agree that the information on your Service usage may be used by Blink to analyze averages, trends, and other anonymous patterns of usage, as per the Blink Privacy Policy as provided on the Blink Website. You agree that Blink may access your Blink Account your Blink Charger and/or your residential charger (if applicable) for service-related or data collection purposes and that Blink may share non-personally identifiable data with third parties in connection with government grants, private agreements, and/or other contractual obligations.

**11. Public Nature of Charging Stations**. By connecting your EV Charger to the Blink Network, unless you specifically request otherwise in writing, you are granting access to the EV Charger to all Blink members and guests. Such access is limited to utilizing the EV Charger for charging purposes.

## A. INTELLECTUAL PROPERTY

**1. Trademarks.** "BlinkCharging.com," "Blink Network," "Blink," and all logos related to the Services are either trademarks or registered trademarks of Blink or third parties. You may not copy, imitate or use them without Blink's prior written consent. Included in our intellectual property are all page headers, custom graphics, button icons, and scripts are service marks, trademarks, and/or trade dress of Blink. You may not copy, imitate, or use them without our prior written consent. All right, title and interest in and to the Blink website, any content thereon, the Services, the technology related to the Services, and any and all technology and any content created or derived from any of the preceding is the exclusive property of Blink and its licensors. BLINK is a U.S. and European Union registered trademark and service mark of Blink Charging Co. All other brand names, product names, or trademarks belong to their respective holders.

**2. Limited License.** If you are using Blink's software such as an API, developer's toolkit or other software application (the "Software") that you have downloaded to your computer, device, or other platform, then Blink is granting you a revocable, non-exclusive, non-transferable license to use the Software in accordance with the Blink licensing agreements. You may not rent, lease or otherwise transfer your rights in the Software to a third-party. You must comply with any use requirements and restrictions Blink may place on the Software and Services at Blink's sole discretion. If you do not comply with Blink's use requirements and restrictions you will be liable for all resulting damages suffered by you, Blink and third parties. Blink may change or discontinue any of the Software with or without notice to you.

**a. If your EV Charger is connected to the Blink Network, for the price agreed to between yourself and Blink, Blink grants you a revocable, non-exclusive, non-transferable license to use the Network and underlying Software in accordance with these Terms and Conditions.**

**b. You agree not to alter, reproduce, adapt, distribute, display, publish, reverse engineer, translate, disassemble, decompile or otherwise attempt to create any source code that is derived from the Software**. You acknowledge that all rights, title, and interest to the Software and Network are owned by Blink. Any third-party software application you use on Blink's website is subject to the license you agreed to with the third-party that provides you with their software. Blink does not own, control nor have any responsibility or liability for any third-party software application you elect to use on the Blink website and/or in connection with the Services.

**3. Restricted Activities.** In connection with your use of the Services or in the course of your interactions with Blink, other users, or third parties, you will not: Breach this Agreement, or any other agreement or policy that you have agreed to with Blink, or:

4.

a. Violate any law, statute, ordinance, or regulation;

b. Infringe on Blink's or any third-party's copyright, patent, trademark, trade secret or other intellectual property rights, or rights of publicity or privacy;

c. Act in a manner that is defamatory, trade libelous, threatening or harassing;

d. Provide false, inaccurate or misleading information;

e. Send what we reasonably believe to be potentially fraudulent funds;

f. Refuse to cooperate in an investigation or provide confirmation of your identity or any Information you provide to us;

g. Control an Account that is linked to another Account that has engaged in any of these Restricted Activities;

h. Take any action that imposes an unreasonable or disproportionately large load on our infrastructure; facilitate any viruses, Trojan horses, worms or other computer programming routines that may damage, detrimentally interfere with, surreptitiously intercept or expropriate any system, data or Information; use an anonymizing proxy; use any robot, spider, other automatic device, or manual process to monitor or

copy our website without our prior written permission; or use any device, software or routine to bypass our robot exclusion headers, or interfere or attempt to interfere with our website, mobile App, Blink API, or the Services;

i. Take any action that may cause us to lose any of the services from our Internet service providers, payment processors, or other suppliers;

j. Circumvent any Blink Policy or determinations about your Account such as temporary or indefinite suspensions or other limitations or restrictions, including, but not limited to, engaging in the following actions: attempting to create new or additional Account(s) when an Account has been restricted, suspended or otherwise limited; creating new or additional Accounts using Information that is not your own (e.g. name, address, email address, etc.); or using someone else's Account;

k. Harass or threaten our employees, agents, or other users.

**B. DISCLAIMER OF WARRANTIES**. YOUR USE OF THE SERVICES IS AT YOUR SOLE RISK. THE SERVICES IS PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS. BLINK EXPRESSLY DISCLAIMS ALL WARRANTIES OF ANY KIND, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. BLINK MAKES NO WARRANTY THAT (i) THE SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS, OR (ii) THE OPERATION OF THE SERVICES WILL BE UNINTERRUPTED, TIMELY, SECURE, OR ERROR-FREE.

**C. LIMITATION OF LIABILITY**. YOU EXPRESSLY UNDERSTAND AND AGREE THAT BLINK SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES, INCLUDING BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS, GOODWILL, USE, DATA OR OTHER INTANGIBLE LOSSES (EVEN IF BLINK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES), ARISING OUT OF OR IN ANY MANNER CONNECTED WITH THE USE OR PERFORMANCE OF THE SERVICES.

**D. Indemnity.** You agree to indemnify, protect, and hold harmless: (i) Blink and its directors, officers, employees, agents and distributors, and (ii) Hosts, and their respective directors, officers, employees and agents (collectively, the "Indemnified Parties") from all liability for any loss, damage or injury to persons or property arising from or related to your misuse or misapplication of the Services or otherwise for your negligence or misconduct.

To the maximum extent allowed by law, you agree to, and hereby do, release the Indemnified Parties from all liability for loss, damage, or injury whatsoever, known or unknown, arising out of or in any manner connected with the use or performance of the Services. You agree that none of the Indemnified Parties will incur any obligation or liability for any such loss, damage or injury to the maximum extent allowable by law. Your sole and exclusive remedy against the Indemnified Parties will be the replacement of any defective RFID card(s). Notwithstanding anything to the contrary herein, Blink's liability arising from Services and/or Blink Charging Stations shall not exceed the total Fees you have paid to Blink for the Services provided hereunder.

SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF CERTAIN WARRANTIES OR THE LIMITATION OR EXCLUSION OF LIABILITY FOR DIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES. ACCORDINGLY, PARTS OF, OR THE ENTIRE DISCLAIMER, LIMITATIONS, AND RELEASE MAY NOT APPLY TO YOU.

**E. AGREEMENT TO ARBITRATE.** You and Blink each agree that any and all disputes or claims that have arisen or may arise between you and Blink, including without limitation federal and state statutory claims, common law claims, and those based in contract, tort, fraud, misrepresentation or any other legal theory, shall be resolved exclusively through final and binding arbitration, rather than in court, except that you may assert claims in small claims court, if your claims qualify and so long as the matter remains in such court and advances only on an individual (non-class, non-representative) basis. This Agreement to Arbitrate is intended to be broadly interpreted. The Federal Arbitration Act governs the interpretation and enforcement of this Agreement to Arbitrate.

YOU AND BLINK AGREE THAT EACH OF US MAY BRING CLAIMS AGAINST THE OTHER ONLY ON AN INDIVIDUAL BASIS AND NOT AS A PLAINTIFF OR CLASS MEMBER IN ANY PURPORTED CLASS OR REPRESENTATIVE ACTION OR PROCEEDING. UNLESS BOTH YOU AND BLINK AGREE OTHERWISE, THE ARBITRATOR(S) MAY NOT CONSOLIDATE OR JOIN MORE THAN ONE PERSON'S OR PARTY'S CLAIMS AND MAY NOT OTHERWISE PRESIDE OVER ANY FORM OF A CONSOLIDATED, REPRESENTATIVE, OR CLASS PROCEEDING. ALSO, THE ARBITRATOR(S) MAY AWARD RELIEF (INCLUDING MONETARY, INJUNCTIVE, AND DECLARATORY RELIEF) ONLY IN FAVOR OF THE INDIVIDUAL PARTY SEEKING RELIEF AND ONLY TO THE EXTENT NECESSARY TO PROVIDE RELIEF NECESSITATED BY THAT PARTY'S INDIVIDUAL CLAIM(S). ANY RELIEF AWARDED CANNOT AFFECT OTHER BLINK USERS.

Arbitration is more informal than a lawsuit in court. Arbitration uses a neutral arbitrator or arbitrators instead of a judge or jury, and court review of an arbitration award is very limited. However, the arbitrator(s) can award the same damages and relief on an individual basis that a court can award to an individual. The arbitrator(s) also must follow the terms of this Agreement as a court would. All issues are for the arbitrator(s) to decide, except that issues relating to arbitrability, the scope or enforceability of this Agreement to Arbitrate, or the interpretation of subsection (a) of this Agreement to Arbitrate ("Prohibition of Class and Representative Actions and Non-Individualized Relief"), shall be for a court of competent jurisdiction to decide.

The arbitration will be conducted by the American Arbitration Association ("AAA") under its rules and procedures, including the AAA's Consumer Arbitration Rules (as applicable), as modified by this Agreement to Arbitrate. The AAA's rules are available at www.adr.org. A party who intends to seek arbitration must first send to the other, by certified mail, a completed form Notice of Dispute ("Notice"). The Notice to Blink should be sent to Blink, Attn: Legal Department, Re: Notice of Dispute, 407 Lincoln Rd., Suite 704, Miami Beach, Fl 33139. Blink will send any Notice to you to the physical address we have on file associated with your Account; it is your responsibility to keep your physical address up to date. All information called for in the Notice must be provided including a description of the nature and basis of the claims the party is asserting and the relief sought. If you and Blink are unable to resolve the claims described in the Notice within 30 days after the Notice is sent, you or Blink may initiate arbitration proceedings. A form for initiating arbitration proceedings is available on the AAA's website at www.adr.org. The arbitration shall be held in Miami-Dade County, Florida. If the value of the relief sought is $10,000 or less, you or Blink may elect to have the arbitration conducted by telephone or based solely on written submissions, which election shall be binding on you and Blink subject to the discretion of the arbitrator(s) to require an in-person hearing, if the circumstances warrant. In cases where an in-person hearing is held, you and/or Blink may attend by telephone, unless the arbitrator(s) require otherwise. Any settlement offer made by you or Blink shall not be disclosed to the arbitrator(s). The arbitrator(s) will decide the substance of all claims in accordance with applicable law, including recognized principles of equity, and will honor all claims of privilege recognized by law. The arbitrator(s) shall not be bound by rulings in prior arbitrations involving different Blink Users but is/are bound by rulings in prior arbitrations involving the same Blink user to the extent required by applicable law. The award of the arbitrator(s) shall be final and binding, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

Payment of all filing, administration, and arbitrator fees will be governed by the AAA's rules unless otherwise stated in this Agreement to Arbitrate. With the exception of any of the provisions in subsection (a) of this Section if a court decides that any part of this Section is invalid or unenforceable, the other parts of this Section shall still apply. If a court decides that any of the provisions in subsection (a) of this Section is invalid or unenforceable, then the entirety of this Section shall be null and void. The remainder of the User Agreement will continue to apply.

IF YOU ARE A NEW USER, YOU CAN CHOOSE TO REJECT THIS AGREEMENT TO ARBITRATE ("OPT-OUT") BY MAILING US A WRITTEN OPT-OUT NOTICE ("OPT-OUT NOTICE"). THE OPT-OUT NOTICE MUST BE POSTMARKED NO LATER THAN 30 DAYS AFTER THE DATE YOU ACCEPT THE USER AGREEMENT FOR THE FIRST TIME. YOU MUST MAIL THE OPT-OUT NOTICE TO BLINK, ATTN: LEGAL DEPARTMENT, 605 LINCOLN RD., 5TH FLOOR, MIAMI BEACH, FL 33139.

The Opt-Out Notice should include the subject line "Opt-Out" and the body must include your name, address, phone number, and the email address(es) used to log into Blink account(s) to which the opt-out

applies. This procedure is the only way you can opt out of the Agreement to Arbitrate. If you opt out of the Agreement to Arbitrate, all other parts of the Agreement, including all other provisions of this Section will continue to apply. Opting out of this Agreement to Arbitrate has no effect on any previous, other, or future arbitration agreements that you may have with us. If you opt out of arbitration, we reserve the right to terminate our relationship with you. If you opt-out, any disputes arising out of our relationship will be governed in accordance with the laws of the State of Florida without regard to conflict of laws. By opting out of the Arbitration Agreement you expressly agree to submit to the jurisdiction and proper venue of the competent state or federal courts located in Miami-Dade County, Florida.

Notwithstanding any provision in the Agreement to the contrary, you and Blink agree that if we make any amendment to this Agreement to Arbitrate (other than an amendment to any notice address or website link provided herein) in the future, that amendment shall not apply to any claim that was filed in a legal proceeding against Blink prior to the effective date of the amendment. The amendment shall apply to all other disputes or claims governed by the Agreement to Arbitrate that have arisen or may arise between you and Blink. We will notify you of amendments to this Agreement to Arbitrate by posting the amended terms on BlinkCharging.com at least 30 days before the effective date of the amendments and by providing notice through email. If you do not agree to these amended terms, you may close your account within the thirty-day period, and you will not be bound by the amended terms.

**BLINK PRO MEMBERSHIP ACCOUNT AND BILLING TERMS**

Once you upgrade to a Pro account, you will be unable to downgrade to a Blink Plus membership. The Blink Pro Membership Account is the default membership for any Blink Members signing up after August 11, 2020. In addition to the Blink Pro Membership Account-specific terms, it is subject to all of the Terms and Conditions of a Blink Plus Membership. With your new Blink Pro Membership Account, you will be able to pre-load funds to your account. The dollar value that you load onto your Blink account is a prepayment for charging your vehicle at any charger on our Network. We recommend upgrading to the Blink Pro Membership account to make it easier for you to charge with us and to make your relationship with us more rewarding. Unless otherwise required by law or permitted by this Agreement, the dollar value you load onto your Blink Pro Membership Account is non-refundable and may not be redeemed for cash. The value on your Blink Pro Membership Account is not insured by the Federal Deposit Insurance Corporation (FDIC), nor does it earn interest.

The Blink Pro Membership Account is not targeted towards, nor intended for use by, anyone under the age of 15. If you are between the ages of 15 and 18, you may only sign up for a Blink Pro Membership Account under the supervision of a parent or legal guardian who agrees to be bound by this Agreement.

**1. Loading Value on Your Pro Account.** In the United States and Canada, you can load value on your Blink Card by going online to BlinkCharging.com or calling (888) 998.2546. There may be a delay from the time you pay the amount to be loaded onto your account and those funds being available for use. You may not have more than $500 in value loaded to your account at any time, and no more than $2,000 may be associated with your account in a single day. This means that the activity on your account cannot exceed $2,000 over the course of a day. There is a minimum amount that you may load on your account at any given time, and that amount is typically $5. We may change any of these amounts at any time without notice to you.

If you use a credit or debit card to reload your account, prior to charging your credit or debit card, an authorization process will occur for the amount of your purchase or reload transaction (“Transaction”). The authorization process will validate the credit or debit card number, status, available credit or funds and billing information to ensure that it matches what the bank or card company has on file. Your bank or Blink may attempt to contact you for additional information prior to authorizing the Transaction amount. For credit cards, once an authorization is received, you may notice a decrease in your available credit line. Your bank may hold this dollar amount from your credit line or available balance for a short period of time determined by the policy of your bank before your Transaction is fulfilled. For debit cards, your bank may pre-authorize a charge to your deposit or checking account and place a temporary hold on the funds before your Transaction is fulfilled. Regardless of whether you use a credit or debit card, your card will be charged only upon fulfillment of your Transaction. If your Transaction is cancelled, Blink will request an authorization reversal on your behalf. Reversal times may vary. We recommend contacting your bank or credit card company to learn about their authorization and authorization reversal policies.

All amounts loaded onto your account are denominated in the currency of the country in which it was sold (the “base currency”). When you make a purchase in a different country, the Transaction total is converted from the currency of that country (the “local currency”) to the base currency and deducted from your account balance. No fees or other charges are made to your account for the currency conversion. However, note that your bank or card provider may charge you a separate fee if you are using a credit or debit card or other accepted payment method to load your account outside of the U.S. Blink does not receive any portion of, and does not have any control over, any such fee. Although the actual balance of your account is kept in the base currency, the balance shown on your receipt will be in the local currency of the store location. Transactions that occur on our website are denominated in U.S. dollars. Currency conversions are based on currency exchange rates applicable on the date of the Transaction.

You can reload online or over the phone, to make reloading your account easier, you can link a payment method to your Blink account (which you can access at BlinkCharging.com) and reload either manually online when you choose or set up auto-reload. With automatic reload, you simply set the reload balance at which you want to trigger the reload to your account. We will charge the credit or debit card associated with your account or you can provide us with new payment information. We will send you an email confirming the automatic reload Transaction terms and bill your credit card or debit card according to the schedule and/or amount you have selected. We will also send you an email after each reload to let you know your Blink Card has been reloaded. You can change your reload preferences at any time, but changes may take up to twenty-four (24) hours to take effect. To discontinue the automatic reload feature, you must log-in to your Blink account at least twenty-four (24) hours before the next scheduled reload. Once the dollar value is loaded, the Transaction cannot be reversed.

**2. Low Balance.** Blink reserves the right to reject a charging session if a Blink Pro Membership Account member’s balance reaches $0. Until the member’s account has been reloaded, that member will be unable to utilize any Blink charging stations or charging stations on the Blink Network.

If a Blink Pro Membership Account member’s balance reaches $0 in the middle of a charging session, Blink will utilize the user’s credit or debit card associated with their account to cover the cost of the charging session. The charging session continues unimpeded until stopped by the Member. Immediately following the charging session in which the balance falls below $0 the credit or debit card associated with the Member’s account will be charged. The member will be emailed a receipt of the transaction. If a Blink Pro Membership Account member’s credit card on file is not active and the charge session continues the Member will be notified of the negative balance on their account. The Member’s account will be temporarily suspended until the Member adds funds to their account and clears the negative balance. At any time if member’s credit card is not active, the user will not be able to load money onto their prepaid account until they provide a valid credit or debit card.

**3. Fees and Expiration of Card Balances.** We do not charge any activation, service, dormancy or inactivity fees in connection with your account. Your account has no expiration date nor does the value on your account ever expire.

**4. Receipts and Transaction History.** When you use your account, a receipt will be made available. The receipt will indicate that the purchase was made using your account and will provide the remaining balance of your account. Please check your online Transaction history regularly to ensure that your Transaction history and account balance are correct. You can check the balance of your account or review recent Transactions on your account at BlinkCharging.com We may also send you statements of activity on your Blink Pro Membership Account.

**5. Billing Errors, Corrections.** We will correct the balance of your account if we believe that a clerical, billing, or accounting error occurred. If you have questions regarding your Transaction history or any correction, or if you wish to dispute any Transaction or correction that has been applied to your account, please call Customer Service. Assuming you provide sufficient details, we will review your claim and tell you what we find. We will correct any error promptly after we finish our review. If we do not find any error, we will explain what we found. We have no obligation to review or correct any billing error unless you provide us sufficient notice for us to review your claim within sixty (60) days of the date of the Transaction in question.

**6. Fraud Associated with Your Blink Account or Account Balance.** We will not accept any account charges or will limit use of any account or account balance, if we reasonably believe that the use is unauthorized, fraudulent or otherwise unlawful, and we consider such action appropriate to limit our risk. Blink has no liability to you for any third-party fraud or unlawful activity associated with any Blink account or account balance.

**7. Registration, Liability for Unauthorized Transactions.** To register for the Blink Pro Membership Account visit BlinkCharging.com or download the Blink Mobile app. When registering for the Blink Pro Membership Account, you agree that you will: (i) provide complete and accurate information about yourself; and (ii) update such information if it changes. If you do not provide or update such information, or if we have reasonable grounds to suspect that you have not provided or updated such information, we shall have the right, in our sole and absolute discretion, to disable your account. If you believe your account has been disabled in error, please call customer service. You are responsible for: (a) the accuracy of all information that you provide to us; and (b) maintaining the confidentiality and security of your account information.

You should treat your Blink Account or the Blink Pro Membership Account and RFID card like cash and not disclose your Blink Account or the Blink Pro Membership Account or RFID card information to anyone. If your Blink RFID Card or Blink Account or the Blink Pro Membership Account information is lost or stolen, anyone who obtains possession of either may use your account. You are responsible for all transactions on your account, including unauthorized transactions. However, if your RFID card is lost, stolen or destroyed, your RFID card can be replaced with the balance remaining on it at the time you contact us. Your registered RFID card and balance is protected from the time you notify us. We will freeze the remaining balance on your Blink account or the Blink Pro Membership Account at the time you notify us, a new RFID card will be issued, and the proper security measures will be taken to protect your account.

**8. Using the Blink Website, API, or Mobile Applications.** You may access and use Blink's Website, API, and Mobile Application to obtain information regarding Blink Charging Station locations and other content and features that Blink may make available. The use of the Blink Website, API, and Mobile Application is subject to these Terms and Conditions and the Blink Privacy Policy. You are responsible for all use of the Blink Website, API, and Mobile Applications under your username. You acknowledge and agree that Blink may modify the Blink Website, API, and mobile applications in any way and at any time, with or without notice. You further acknowledge and agree that, while Blink has attempted to provide accurate information on the Blink Website, API, and Mobile Application, such information may change frequently and in no event will Blink be responsible for the accuracy, usefulness or completeness of any information, materials or other content on or related to the Blink Website, API, or Mobile Apps, nor does it warrant that any such information, materials, or other content is the most current version thereof.

**9. Offers from Third-Party Organizations.** From time to time, you may receive offers via your Blink Account or the Blink Pro Membership Account from other organizations ("Third Party Organizations"). Acceptance and performance under such offers are strictly between you and those Third-Party Organizations. Blink does not assume responsibility for any performance by these organizations, and you agree: (i) to look solely to the Third-Party Organizations, and (ii) to release Blink from any liability, with respect to any offers you might accept from such Third-Party Organizations or their affiliates. These Third-Party Organizations conduct business for themselves and are not part of the Blink business. As such, you should always make sure to review their terms of service and privacy policies so that you may better understand what is being offered, what is expected of you and what may be done with any personally identifying information you provide to them.

**10. Termination.** Either Party may terminate this Agreement at any time and for any reason. If you wish to terminate your Blink Account and this Agreement, you must notify Blink in writing. Following any termination, you shall remain responsible for any and all unpaid Fees associated with your Blink Account or the Blink Pro Membership Account. If such unpaid charges are not promptly remitted, you may become liable for additional service charges, fees or penalties, and you may be subject to collection actions for any unpaid balance. If you are a charging station operator and you wish to terminate this Agreement your charging station will be removed from the Blink Network.

**11. Bay Area Air Quality Management District EVSE Deployment Program Participants.** Participants in the Bay Area Air Quality Management District ("DISTRICT") Electric Vehicle Supply Equipment ("EVSE") Deployment Program ("Program") with Blink, hereby expressly agree and acknowledge the following:

1.

a. You purchased or leased a Vehicle that is registered in your name and at an address located within the DISTRICT's jurisdiction;

b. You purchased EVSE that is installed at the same address as the Vehicle is registered;

c. You obtained permits and any other required approvals from the local governing agency for the installation of your EVSE;

d. You agreed to operate your Vehicle and EVSE for a minimum of three years;

e. You provide your charging usage data to Blink and DISTRICT for Program evaluation purposes;

f. You allow Blink or DISTRICT to notify the local utility of the address where the EVSE is installed;

g. You allow Blink or DISTRICT to inspect the location where EVSE was installed;

h. Individuals may only participate in the Program once and you are not already receiving funding from the DISTRICT for participation in the Program though another Program contract provider;

i. Participation in the Residential EVSE Reporting Component of the Program is voluntary;

j. "Vehicle," under this subheading, shall mean a plug-in electric vehicle that was purchased or leased on or after December 1, 2010, with a gross vehicle rating below 14,000 pounds; and

k. "Participant," under this subheading, shall mean a person that, lives in the Bay Area during the term of the Program, and has to the knowledge of Blink, complied with the foregoing Program Residential EVSE Reporting Component requirements.

**HOST-SPECIFIC TERMS AND CONDITIONS**

**1. PROVIDER'S RESPONSIBILITIES AND AGREEMENTS**

**1.1 Network Operation.** The Provider shall be responsible for: (i) provisioning, operating, maintaining, administering, and supporting the Blink Network infrastructure (but excluding Hosts' EVSEs and infrastructure for transmitting data from Networked EVSE to any Blink Network operations center); (ii) provisioning, operating, maintaining, administering, and supporting the Network Web Portals; (iii) acquisition and registration of new Blink Account Holders, administration and support of Blink Accounts and provisioning the support services for Users embodied in the Blink Services, and (iv) using commercially reasonable efforts to comply with all applicable laws and regulations governing, restricting or otherwise pertaining to the use, distribution, export or import of data, products, services and/or technical data whether such information or data relates to either the Host or Users in connection with the Blink Network.

**1.2 Purchased Blink Services.** The Provider shall make the Purchased Blink Services available to Host for each Networked EVSE listed on the invoice to which these Terms apply during the Subscription Term. The Provider represents and warrants that: (i) it has the power and authority to enter into and be bound by these Terms, (ii) the Blink Services shall perform materially in accordance with the Documentation, (iii) it will provide all support for Purchased Blink Services and technical support and maintenance for all Software Applications as set forth in the Documentation, including, without limitation, Upgrades and will use commercially reasonable efforts to make the support services and the Purchased Blink Services available 24 hours a day, 7 days a week, 365 days per year, except for planned downtime, (iv) except as otherwise set forth herein, the functionality of the Blink Services shall not materially decrease during the Subscription Term, and (v) it will use commercially reasonable efforts to ensure that it does not transmit to

Host any Malicious Code (excepting Malicious Code transmitted to Provider by Host). Host's exclusive remedy for a breach of any of the foregoing shall be as provided in Section 7.4 and Section 7.5 as set forth below.

**1.3 Limitations On Responsibility.** Neither Provider, its distributors nor any of its other authorized representatives shall be responsible for, or makes any representation or warranty to Host with respect to the following: (i) specific location(s) or number of Networked EVSE now, or in the future, owned, operated and/or installed by hosts other than Host, or the total number of Networked EVSE that comprise the Blink Network; (ii) continuous availability of electrical service to any Networked EVSE; (iii) continuous availability of any wireless or cellular communications network or internet service provider network not operated by Provider; (iv) availability of or interruption of the Blink Network attributable to unauthorized intrusions; (v) EVSE that are not registered and activated with the Blink Network, and (vi) the continued availability of any Google services incorporated for use with the Blink Services; provided that, if Google ceases to make the Google Application Programming Interface ("API") or any similar program available on reasonable terms for the Blink Services, the Provider shall make commercially reasonable efforts to replace the Google API or such similar program with products providing similar functionalities if such products are available upon terms which the Provider, in its reasonable discretion, believes are commercially reasonable; and provided further that, if Google ceases to make the Google API or similar program available, or available on reasonable terms for the Blink Services, the Provider may cease providing such features without entitling Host to any refund, credit or other compensation.

**1.4 Disclaimer Of Warranty.** EXCEPT AS OTHERWISE EXPRESSLY SET FORTH HEREIN, THE PROVIDER NOR ANY OF ITS DISTRIBUTORS OR OTHER AUTHORIZED REPRESENTATIVES, AS APPLICABLE, MAKES ANY WARRANTIES OF ANY KIND, WHETHER EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AND HEREBY EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY FOR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.

## 2. HOST RESPONSIBILITIES AND AGREEMENTS

**2.1 General.** Host shall be solely responsible for: (i) the purchase and installation of Host's EVSE and other electrical vehicle charging products; (ii) registration with and activation of Host's EVSE on the Blink Network through a Network Web Portal, including, without limitation, keeping current Host's contact information, email address for the receipt of notices hereunder, billing address for invoices and payment of Host's Net Session Fees due under these Terms; (iii) determining the pricing (including all applicable Taxes and Regulatory Charges) for any services accessed by Users through Host's Networked EVSE that are designated Commercial EVSEs and any conditions limiting access thereof, (iv) if a Networked EVSE is moved from its registered Host Location, Host shall notify Provider and so that Provider may update the registered Host Location of the Networked EVSE on the appropriate Network Web Portal within five (5) business days of making any such change(s); (v) provisioning and installation of appropriate signage that clearly and prominently identifies and, where appropriate, provides directions to the Host Property Locations so that they may be easily located by Users; (vi) designation of each Networked EVSE as either a Commercial EVSE or a Free EVSE; (vii) keeping Networked EVSE and Host Property Locations(s) clean and free of graffiti, unauthorized advertising, debris and other materials that would obscure, block access or otherwise detract from or cast a negative light on the reputation of the Provider; (viii) the maintenance, service, repair and/or replacement of Host's Networked EVSE as needed, whether purchased from Provider or otherwise; (ix) assuring the accessibility, lighting and other factors pertaining to the safety of Users while utilizing the EVSEs not directly related to the design or manufacture of the EVSEs themselves.

**2.2 Representations And Warranties Of Host.** Host represents and warrants to the Provider, its distributors and other authorized representatives that: (i) Host has the power and authority to enter into and be bound by these Terms and to install the EVSEs and any other electrical vehicle charging products to be registered and activated on the Blink Network at the Host Location(s); (ii) Host assumes all responsibility that the electrical usage consumed by any of Host's Networked EVSE does not violate or otherwise conflict with the terms and conditions of any applicable electrical purchase or other agreement including, without limitation, any lease, to which Host is a party; and (iii) Host will comply with all applicable laws and regulations in performance of its obligations and duties hereunder.

**2.3 Further Agreements Of Host Made In Connection With Registration Of Evse On The Blink Network And Use Of Blink Services**. Host further acknowledges and agrees with the Provider and its distributors and authorized representatives, as applicable, as follows: (i) Host will not remove, conceal or cover the Blink Marks or any other markings, labels, legends, trademarks, or trade names installed or placed on the Networked EVSE or any peripheral equipment for use in connection with the Networked EVSE for so long as such EVSEs are Networked EVSE; (ii) Host shall comply with, and shall have responsibility for and cause all other persons accessing or using Network Web Portals to comply with, all of the rules, regulations and policies of the Provider, as well as other networks and computer systems used to access Network Web Portals, whether operated by Host, its suppliers or others and Host agrees to indemnify and hold the Provider, Blink, and their respective distributors and authorized representatives, directors, shareholders, officers, agents, employees, permitted successors and assigns harmless from any third party notices, allegations, claims, suits or proceedings (each, a "Claim") resulting from Host's use of Network Web Portals and the Blink Services in violation of the terms of this Section 2.3; (iii) Host shall: (A) use its commercially reasonable efforts to prevent unauthorized access to Purchased Blink Services, (B) use the Purchased Blink Services only in accordance with the Documentation and applicable laws and government regulation, (C) shall not sell, resell, rent or lease the Purchased Blink Services, (D) shall not interfere with or disrupt the integrity of the Blink Network, the Blink Services or any third party data contained therein, and (E) shall not attempt to gain unauthorized access to the Blink Network or the Blink Services or their related systems or networks. All data collected by the Provider in connection with the operation of the Blink Network shall be owned by the Provider and Host acknowledges and agrees that Host shall have no right of access or the use of such data for any purpose other than the management of Host's Networked EVSE while registered with the Blink Network. Host agrees to comply with the privacy policy set forth on host.blinknetwork.com.

**3. SESSION FEES AND PAYMENT FOR PURCHASED BLINK SERVICES**

**3.1 Session Fees.** Host shall have sole authority to determine a User's Session Fees (which shall include all applicable Taxes and Regulatory Charges) applicable to Host's Networked EVSE.

**3.2 Session Transaction Fees.** In exchange for the Provider collecting Session Fees on behalf of the Host, the Host hereby authorizes the Provider to deduct from all Session Fees collected a Session Processing Fee in the amount equal to 8% of the Session Fee, or as such fees may be updated from time to time in accordance herewith.

**3.3 Payment To Host Of Net Session Fees.** The Provider shall remit all Net Session Fees to Host not more than fifteen (15) days after the end of each calendar month to the address provided by Host to Provider. Host expressly agrees that the Provider has the right to offset any balances owed by Host to Provider whether for Subscription Fees (as defined below) and/or Equipment purchase price pursuant to any purchase order executed by Host or a party authorized to execute on behalf of Host with the Net Session Fees collected by Provider. Provider shall have no obligation to notify Host of such offset but may do so upon the request of Host.

**3.4 Subscription Fees.** Host shall pay the annual Subscription Fee of $240 per Gen 1, IQ200 Kiosk and Advanced, $144 per IQ200 Smart and $360 IQ200 Dual Networked EVSE, or as such fees may be updated from time to time in accordance herewith, in accordance with the applicable purchase order and within 15 days of the start of any renewal term. Except as otherwise specified herein, (i) Subscription Fees are quoted in and payable in U.S. Dollars, (ii) Subscription Fees are based on Blink Services to which Host has subscribed and not on Host's actual usage of such services, (iii) payment obligations are non-cancelable and are non-refundable, and (iv) Subscriptions are non-transferable. Subscription Fees are based on annual periods that begin on the date of the Subscription start date and end each annual anniversary thereafter.

**3.5 Overdue Subscription Fees.** If any invoiced Subscription Fees are not received by the Provider by the due date, then such charges: (i) may accrue late interest at the rate of one and one-half percent (1.5%) of the outstanding balance per quarter, or the maximum rate permitted by law, whichever is lower, from the date such payment was due until paid, and (ii) the Provider may condition future Subscription renewals and new Subscriptions on payment terms other than those set forth herein.

**3.6 Acceleration And Suspension Of Blink Services.** If any amount owing by Host under these Terms for Subscription Fees for Purchased Blink Services or under any other agreement between the Provider (or an Affiliate of Provider) and Host is more than thirty (30) days overdue (or, in the event that Host has authorized the Provider to charge the amount owing to Host's credit card and payment under such credit card has been declined, more than 5 days has passed since Host has received notice from the Provider of such event), the Provider may, without otherwise limiting the Provider's rights or remedies, accelerate Host's unpaid fee obligations under such agreements so that all such obligations become immediately due and payable, and suspend the use by Host of the Purchased Blink Services until such amounts are paid in full.

**3.7 Taxes And Regulatory Charges.** Unless required by law or otherwise stated herein, Session Processing Fees do not include any taxes, levies, duties or similar governmental assessments of any nature, including, but not limited to, value added, sales, local, city, state or federal taxes ("Taxes") or any fees or other assessments levied or imposed by any governmental regulatory agency ("Regulatory Charges"). Host is responsible for the payment of all Taxes and Regulatory Charges hereunder in connection with Purchased Blink Services, Session Fees and Session Processing Fees; provided, that the Provider is solely responsible for all Taxes and Regulatory Charges assessable based on the Provider's income, property and employees. Where the Provider is required by law to collect and/or remit the Taxes or Regulatory Charges for which Host is responsible, the appropriate amount shall be invoiced to Host and deducted by the Provider from Session Fees, unless Host has otherwise provided the Provider with a valid tax or regulatory exemption certificate or authorization from the appropriate taxing or regulatory authority.

## 4. PROPRIETARY RIGHTS

**4.1 Reservation Of Rights.** Subject to the limited rights granted expressly hereunder, Provider reserves all right, title and interest in and to the Blink Services, including all related Intellectual Property Rights. No rights are granted to Host hereunder except as expressly set forth herein. Provider shall have a royalty-free, worldwide, transferable, sublicensable, irrevocable perpetual license to use or incorporate in the Blink Services any suggestions, enhancement requests, recommendations or other feedback provided by Hosts or Users relating to the Blink Services.

**4.2 Restrictions On Use.** Host shall not: (i) create derivative works based on the Blink Services, (ii) copy, frame or mirror any part or content of the Blink Services, (iii) reverse engineer any EVSE or Software Application, or (iv) access the Blink Network, any Network Web Portal or the Blink Services in order to (A) build a competitive product or service, or (B) copy any features, functions, interface, graphics or "look and feel" of any Network Web Portal or the Blink Services.

### 4.3 GRANT OF LIMITED LICENSE FOR BLINK MARKS

**4.3.1 License Grant.** Host is granted under these Terms the nonexclusive privilege of displaying Blink Marks during the Subscription Term in connection with the Networked EVSE installed by Host. Host warrants that it shall not use any of the Blink Marks for any products other than the Networked EVSE at the Host Property Locations(s). Provider may provide trademark usage guidelines with respect to Host's use of the Blink Marks which will be made available on a Network Web Portal, in which case Host thereafter must comply with such guidelines. If no such guidelines are provided, then for each initial use of the Blink Mark, Host must obtain Provider's prior written consent, which shall not be unreasonably withheld or delayed, and after such consent is obtained, Host may use the Blink Mark in the approved manner. The Blink Marks may not be used under these Terms as a part of the name under which Host's business is conducted or in connection with the name of a business of Host, provided that Host shall be under no obligation to exercise the license granted hereunder. Host agrees it will not list Provider or use the Blink Marks in conjunction with the name or mark of a competitor of Provider. Notwithstanding anything to the contrary contained in this Section, Host shall not obscure or partially obscure any Blink Marks placed on Host's EVSE.

**4.3.2 No Registration Of Blink Marks By Host.** Host will not take any action, directly or indirectly, to register or apply for or cause to be registered or applied in Host's favor or in the favor of any third party any Blink Marks or any patent, trademark, service mark, copyright, trade name, domain name or registered design that is substantially similar to a patent, trademark, service mark, copyright, trade name

or registered design of Blink or the Provider, or that is licensed to, connected with or derived from confidential, material or proprietary information imparted to or licensed to Host by Blink or the Provider.

**4.3.3 Use Of Blink Marks By Host On The Internet.** Host shall be entitled to use the Blink Marks to promote the Blink Network on Host-owned websites and through the internet advertising of Host, provided, that Host is limited to using the Blink Marks in connection with the Internet as follows: (i) the use must be in compliance with local rules regarding advertising of the Networked EVSE and the Blink Network on the Internet; (ii) no license is granted to use or register any domain name containing “Blink” or the Blink Marks; and (iii) Host will at all times indicate that each of the Blink Marks is a mark of Provider and used under license, as appropriate. Host agrees to allow the limited use of its name and/or logo in Provider’s standard investor/shareholder presentation materials.

**4.3.4 Termination And Cessation Of Use Of Blink Marks.** Upon termination of the Subscription Term, Host and its Affiliates will immediately discontinue all use and display of the name “Blink” and the Blink Marks.

**5. INDEMNIFICATION**

**5.1 Indemnification Of Host By Provider.** Provider shall defend at its expense any third party notices, allegations, claims, suits, or proceedings (“Claim”) against Host to the extent alleging that the use of any of the Blink Services as permitted hereunder or the Blink Marks as furnished hereunder infringes or misappropriates the Intellectual Property Rights of any third party, and to pay costs and damages finally awarded in any such suit or agreed to by Provider in settlement with such third party (including reasonable attorney’s fees and expenses), provided that Provider is notified promptly in writing of the suit and at Provider’s request and at its expense is given control of said suit and all requested reasonable assistance for defense of same. Provider agrees that it shall not settle any Claim unless Host, as applicable, is unconditionally released from any liability as part of any settlement. This indemnity does not extend to any suit based upon any infringement or alleged infringement of any Intellectual Property Rights by the combination of a product (including the Blink Services) furnished by Provider with other elements not furnished by Provider if such infringement would have been avoided by the use of the Blink product (including in conjunction with the Provider-furnished Blink Services) alone.

**5.2 Indemnification Of The Provider By Host.** Host shall defend the Provider, its distributors, authorized agents, directors, shareholders, officers, agents, employees, permitted successors, and assigns against any Claim (i) as a result of Host’s negligence or willful misconduct or (ii) alleging that Host’s use of the Blink Network or Blink Services in violation of these Terms infringes or misappropriates the Intellectual Property Rights of any third party or violates applicable law, and to pay costs and damages finally awarded in any such suit or agreed to by Host in settlement with such third party (including reasonable attorney’s fees and expenses), provided that Host is notified promptly in writing of the suit and at Host’s request and at its expense is given control of said suit and all requested reasonable assistance for defense of same. Host agrees that it shall not settle any Claim unless Provider, its distributors, and/or other authorized representatives, as applicable, are unconditionally released from any liability as part of any settlement.

**5.3 Limitation Of Liability.** Except for liability for indemnification against third party claims for infringement or misappropriation of intellectual property rights, Provider’s aggregate liability under these Terms shall not exceed the aggregate Subscription Fees paid by Host to the Provider in the calendar year prior to the event giving rise to the Claim. THE FOREGOING DOES NOT LIMIT HOST’S PAYMENT OBLIGATIONS FOR THE PURCHASED BLINK SERVICES.

**5.4 Exclusion Of Consequential And Related Damages.** REGARDLESS OF WHETHER ANY REMEDY SET FORTH HEREIN FAILS IN ITS ESSENTIAL PURPOSE OR OTHERWISE, IN NO EVENT WILL THE PROVIDER, ITS AFFILIATES OR THEIR RESPECTIVE DISTRIBUTORS OR OTHER AUTHORIZED REPRESENTATIVES BE LIABLE FOR ANY LOST REVENUE OR PROFIT, LOST OR DAMAGED DATA, BUSINESS INTERRUPTION, LOSS OF CAPITAL, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES, HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY OR WHETHER ARISING OUT OF THE USE OF OR INABILITY TO USE THE BLINK NETWORK, ANY BLINK SERVICES, THESE TERMS OR OTHERWISE OR BASED ON ANY EXPRESSED, IMPLIED OR CLAIMED WARRANTIES BY HOST NOT SPECIFICALLY SET FORTH IN

THESE TERMS AND EVEN IF THE PROVIDER, ITS AFFILIATES OR THEIR RESPECTIVE DISTRIBUTORS, OTHER AUTHORIZED REPRESENTATIVES, SUPPLIERS OR LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATION OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO ALL HOSTS.

**5.5 Exclusive Remedy**. The foregoing states the indemnifying party's sole liability to, and the indemnified party's exclusive remedy against, the other party with respect to any Claim described in this Section.

**5.6 Electrical, Cellular And Internet Service Interruptions.** None of the Provider, its Affiliates, any of their respective distributors, other authorized representatives, or Host shall have any liability whatsoever to the other with respect to damages, including but not limited to data loss caused by: (i) electrical, wireless, cellular and/or internet outages, interruptions, power surges, brown-outs, utility load management or any other similar electrical service interruptions whatever the cause; (ii) interruptions in wireless or cellular service linking Networked EVSE to the Blink Network; (iii) interruptions attributable to unauthorized Blink Network intrusions; or (iv) interruptions in services provided by any internet service provider.

**6. TERM AND TERMINATION**

**6.1 Term.** These Terms shall become effective on the date of Provider's acceptance of the purchase order and issuance of an invoice and continues until all automatic renewals have been terminated or otherwise have expired.

**6.2 Term Of Purchased Subscriptions.** Subscriptions purchased by Host commence on the start date specified in the purchase order and shall continue for the applicable Subscription Term specified therein for each Subscription or until the Purchased Blink Services provided pursuant to any Subscription are otherwise terminated, changed or canceled by the Provider or Host pursuant to the terms and conditions set forth herein.

**6.3 Automatic Renewal Of Subscriptions.** All purchased Subscriptions shall be automatically renewed for a period equal to that of the expiring Subscription, unless either party gives the other notice of non-renewal at least sixty (60) days prior to the scheduled expiration date for the relevant Subscription Term. The per-unit pricing for any renewal term shall be equal to the per-unit pricing of the prior term unless the Provider shall have given Host notice to the email address for the Host Account that Host has provided hereunder of any increase in pricing for Subscriptions at least seventy-five (75) days prior to the end of such expiring Subscription, in which case the price increase shall be effective upon renewal and thereafter.

**6.4 TERMINATION**

**6.4.1 BY THE PROVIDER.** The Subscription Term and the Purchased Blink Services furnished hereunder may be suspended or terminated: (i) after thirty (30) days written notice to Host that it is in material breach of any of Host's obligations under these Terms, and Host shall have failed to cure such breach prior to the expiration of said thirty (30) day period, provided however that if Host cures its default within thirty (30) days of such suspension or termination, the suspension or termination of Purchased Blink Services shall be restored and these Terms shall continue in effect, (ii) Host becomes the subject of a petition in bankruptcy or any other proceeding related to insolvency, receivership, liquidation or an assignment for the benefit of creditors, (iii) upon the determination by any regulatory body that the subject matter of these Terms is subject to any governmental regulatory authorization or review if such authorization or review results in an order of suspension or an order that materially increases the costs to Provider of providing the services; or (iv) upon 60 days written notice to Host.

**6.4.2 BY HOST.** The Subscription Term may be terminated by Host for cause: (i) upon thirty (30) days written notice given to the Provider alleging a material breach of these Terms and the alleged breach remains uncured at the expiration of such thirty-day period, or (ii) the Provider becomes the subject of a petition in bankruptcy or any other proceeding related to insolvency, receivership, liquidation or an assignment for the benefit of creditors. These Terms may be terminated by Host upon the voluntary deactivation and removal from registration via the applicable Network Web Portal of all Networked EVSE

owned by Host from the Blink Network, at which time these Terms shall terminate effective immediately; provided, that Host shall not be entitled to any refund of Subscription Fees as a result of such termination and shall be required to pay any remaining annual fees for any remaining months in the then- current term or renewal term.

**6.5 Refund Or Payment Upon Termination**. Upon any termination of the Subscription Term for cause by Host pursuant to Section 7.4.2(i) or (ii) or the election of the Provider to terminate the Subscription Term pursuant to Section 7.4.1(iii) or (iv), the Provider shall refund to Host the pro-rata portion of any pre-paid Subscription Fees for the remainder of the applicable Subscription Term for all Subscriptions after the effective date of termination. Upon any termination for cause by the Provider pursuant to Section 7.4(i)(i) or (ii) or upon the voluntary removal from registration and activation of all of Host's Network EVSEs from the Blink Network, Host shall pay any unpaid Subscription Fees covering the remainder of the Subscription Term. In no event shall any termination relieve Host of any liability for the payment of Subscription Fees or Session Processing Fees for any period prior to the termination date.

**7. WAIVER.** The failure of either Party at any time to require performance by the other Party of any obligation hereunder will in no way affect the full right to require such performance at any time thereafter. The waiver by either Party of a breach of any provision hereof will not constitute a waiver of the provision itself. The failure of either Party to exercise any of its rights provided in these Terms will not constitute a waiver of such rights. No waiver will be effective unless in writing and signed by an authorized representative of the Party against whom such waiver is sought to be enforced. Any such waiver will be effective only with respect to the specific instance and for the specific purpose given.

**8. FORCE MAJEURE.** Except with respect to payment obligations, neither the Provider nor Host will be liable for failure to perform any of its obligations hereunder due to causes beyond such party's reasonable control and occurring without its fault or negligence (a "Force Majeure Event"). A Force Majeure Event will include, but not be limited to, fire, flood, earthquake or other natural disaster (irrespective of such party's condition of any preparedness therefore); war, embargo; riot; strike; labor action; any lawful order, decree, or other directive of any government authority that prohibits a party from performing its obligations under these Terms; material shortages; shortage of transport; and failures of suppliers to deliver material or components in accordance with the terms of their contracts.

**9. APPLICABLE LAW.** These Terms will be construed, and performance will be determined, according to the laws of the State of Florida without reference to such state's principles of conflicts of law (the "Applicable Law") and the state and federal courts of Florida shall have exclusive jurisdiction over any claim arising under these Terms.

**10. WAIVER OF JURY TRIAL.** Each Party hereby waives any right to jury trial in connection with any action or litigation arising out of these Terms.

**11. SURVIVAL.** Those provisions dealing with the Intellectual Property Rights of Provider, Proprietary Rights, limitations of liability and disclaimers, restrictions of warranty, Applicable Law and those other provisions which by their nature or terms are intended to survive the termination of these Terms will remain in full force and effect as between the Parties hereto as contemplated hereby.

**12. SEVERABILITY.** Except as otherwise specifically provided herein, if any term or condition of these Terms or the application thereof to either Party will to any extent be determined jointly by the Parties or by any judicial, governmental or similar authority, to be invalid or unenforceable, the remainder of these Terms, or the application of such term or provision to these Terms, the Parties or circumstances other than those as to which it is determined to be invalid or unenforceable, will not be affected thereby. If, however such invalidity or unenforceability will, in the reasonable opinion of either Party cause these Terms to fail of its intended purpose and the Parties cannot by mutual agreement amend these Terms to cure such failure, either Party may terminate these Terms for cause as provided herein above.

**13. ACCESS.** Host may not access the Blink Services if Host is a direct competitor of Provider without Provider's prior written consent. In addition, Host may not access the Blink Services for purposes of monitoring the availability, performance or functionality of Blink Services, or any other benchmarking or competitive purpose.

**14. NO AGENCY OR PARTNERSHIP CREATED BY THESE TERMS.** Provider, in the performance of these Terms, is an independent contractor. In performing its obligations under these Terms, Provider shall maintain complete control over its employees, its subcontractors and its operations. No partnership, joint venture or agency relationship is intended by Provider and any Host to be created by these Terms. Host expressly agrees and acknowledges that Provider shall have the right to provide the Blink Services to any third party, including without limitation, competitors of Host. All of these Terms are binding on the signatory to the Quote and/or the business entity it represents. The signatory represents that it has authority to bind the entity on behalf of whom it signs.

**15. MISCELLANEOUS.** Nothing in these Terms is intended to obligate or commit Provider to provide any services other than as set forth herein. The invoice and purchase order relating to these Terms may be executed in two or more counterparts (including scanned and/or electronic copies and/or electronic signatures), all of which together shall be considered a single instrument. These Terms (including any exhibits) constitutes the entire agreement, and supersedes all prior agreements and understandings (both written and oral) of the parties hereto with respect to the subject matter hereof, and cannot be amended or otherwise modified except in writing executed by the parties hereto. These Terms shall be binding upon and shall inure to the benefit of the parties and their respective successors and assigns. Nothing contained in the Agreement, whether expressed or implied, is intended to give or shall be construed as giving anyone other than the parties and the named Host and their successors or assigns any rights under these Terms. These Terms may be assigned by Provider to a parent, a wholly-owned subsidiary, an affiliate, any entity with which it might merge, or to any successor-in-interest without notice to Host.

**Meeting Date:** June 18, 2024
**Agenda Item #:**5

**Agenda Item:**

Senate Bill 1 Road Maintenance and Rehabilitation Account Project List for FY24/25

**Executive Summary:** For the City to be eligible for the RMRA funds, the City must submit a list of proposed projects to the California Transportation Commission (CTC) no later than July 1, 2024. The project(s) must be approved in the Cityâ€™s annual budget adoption or amended into the budget prior to submission to the CTC. As such, staff is requesting the attached resolution be adopted for the following roadway rehabilitation projects in the FY 24/25 Capital Improvement Plan. Proposed road segments for the FY 24/25 SB-1 RMRA Funding are as follows: 1. Pioneer Trail Pedestrian Improvement Project Ph II (Pioneer Trail from Larch Ave. to Ski Run Blvd.) 2. Tahoe Valley Stormwater Greenbelt Improvement Project Ph II (Barton Ave from 3rd St. to 4th St.) 3. 2025 Road Rehabilitation Project (5th St., 7th St., 10th St., 11th St., 12th St., 13th St., Anita Dr., Dunlap Dr., Eloise Ave., Hazel Dr., James Ave., Patricia Ln.) 4. Heavenly Village Way (US 50 to Montreal Rd.) 5. Palmira Avenue (Carson Ave to River Drive) The RMRA funding will be utilized to pave one or more of these proposed road segments in the 2025 construction season.

**Requested Action / Suggested Motions:** Pass a Resolution adopting a List of Projects for the Fiscal Year 2024/2025 Funded by SB 1: The Road Repair and Accountability Act of 2017 and in-part with Fiscal Year 2024-25 Road Maintenance and Rehabilitation Account revenues.

**Responsible Staff Member:** Stephen Anderjack, Associate Civil Engineer

**Reviewed and Approved By:** Anush Nejad, Director of Public Works Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance Heather Stroud, City Attorney Joe Irvin, City Manager

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Senate Bill 1 Road Maintenance and Rehabilitation Account Project List for FY24/25**

**Location:** Citywide

**Responsible Staff Member:** Stephen Anderjack, Associate Civil Engineer (530) 542-6033

**Background:** In April 2017, the State passed Senate Bill 1 (SB 1), increasing the State's Gas Tax. "This act presents a balance of new revenues and reasonable reforms to ensure efficiency, accountability, and performance from each dollar invested to improve California's transportation system."

SB 1 creates the Road Maintenance and Rehabilitation Account (RMRA) and the Road Maintenance and Rehabilitation Program (RMRP). Programs funded by this account include the Local Partnership Program (LPP), the Active Transportation Program (ATP), the State Highway Operation and Protection Program (SHOPP), and Local Streets and Roads apportionments.

SB 1 states that "it is the intent of the Legislature that the Department of Transportation and local governments are held accountable for the efficient investment of public funds to maintain the public highways, streets, and roads, and are accountable to the people through performance goals that are tracked and reported."

Under SB 1 the City is eligible to receive funds for local streets and road rehabilitation and maintenance from the RMRA. The funds are a census-based apportionment and subject to certain eligibility requirements. According to the latest estimate of the State FY 24/25 RMRA apportionment for Cities (Attachment A), the City is eligible to receive approximately $554,898 in FY 24/25.

**Issue and Discussion:** For the City to be eligible for the RMRA funds, the City must submit a list of proposed projects to the California Transportation Commission (CTC) no later than July 1, 2024. The project(s) must be approved in the City's annual budget adoption or amended into the budget prior to submission to the CTC. As such, staff is requesting the attached resolution be adopted for the following tentative roadway rehabilitation projects in the FY 24/25 Capital Improvement Plan.

1. Pioneer Trail Pedestrian Improvement Project Ph II (Pioneer Trail from Larch Ave. to Ski Run Blvd.)
2. Tahoe Valley Stormwater Greenbelt Improvement Project Ph II (Barton Ave from 3rd St. to 4th St.)

3. 2025 Road Rehabilitation Project (5th St., 7th St., 10th St., 11th St., 12th St., 13th St., Anita Dr., Dunlap Dr., Eloise Ave., Hazel Dr., James Ave., Patricia Ln.)
4. Heavenly Village Way (US 50 to Montreal Rd.)
5. Palmira Avenue (Carson Ave to River Drive)

The proposed construction will typically include grinding 3-4" of asphalt and replacing it with new asphalt, based on pavement boring testing and sub-base evaluation. This rehabilitation technique should provide a 20-year life extension to the roadways. The selected projects, based on overall funding capacity, will commence summer of 2025 and will be completed by fall of 2025.

The streets selected for this program are consistent with the City's 5-year paving plan for 2025. Each of these streets has low Pavement Condition Index (PCI) ratings. Coordination with the utility providers has also occurred and no utility work is expected in these areas.

The amount of funds received through SB 1 is limited and will be insufficient to cover paving of entire length of these streets. These funds will be added to the overall project budget and will supplement the paving portion of the project. The Department expects that these funds will pave approximately 2,500 lane feet of roadway. The exact street to be paved with these funds will be determined in the future and will be dependent on additional funding allocation for the projects.

**Financial Implications:** RMRA funds have no match requirement but must be used for road rehabilitation or they will be rescinded back to the State. The City will utilize the $554,898 worth of RMRA funding to pave streets within the multiple proposed project areas.

**Environmental Considerations:** This project is considered roadway rehabilitation and will not extend the boundaries of the existing roadways. As such, the project is exempt from Tahoe Regional Planning Agency (TRPA) permits and the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15301(c) (Existing Facilities). All applicable best management practices will be utilized to protect air and water quality during construction.

**Policy Implications:** The use of these funds to supplement paving on these projects is consistent with the City's Strategic Plan 2021-2026. It aligns with goal 1.4 Transportation by rehabilitating city-owned streets. The use of these funds is also consistent with goal 5.3, Infrastructure and Maintenance. These funds help maintain City roadway infrastructure and are available on an annual basis with no requirements other than submitting an annual expenditure report. These funds are very sustainable and should continue to be available in future years

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

## Adopting a List of Projects for the Fiscal Year 2024/2025 Funded by SB 1: The Road Repair and Accountability Act of 2017

### BACKGROUND

A. Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide.

B. SB 1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year.

C. The City must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement.

D. The City will receive an estimated $554,898 in RMRA funding in the Fiscal Year 2024-25 from SB 1.

E. This is the eighth year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1.

F. The City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list.

G. The City used a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the communities priorities for transportation investment.

H. The funding from SB 1 will help the City maintain and rehabilitate two roads throughout the City this year and one to two similar projects into the future.

I. The 2018 California Statewide Local Streets and Roads Needs Assessment found that the City's streets and roads are in an "at-risk" condition and this revenue will help us increase the overall quality of our road system and over the next decade will bring our streets and roads into a "at-risk" condition.

J. The SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials, and practices, will have significant positive co-benefits statewide.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Declares the foregoing recitals are true and correct.
2. Adopts the following list of newly proposed projects will be funded in-part with Fiscal Year 2024-25 Road Maintenance and Rehabilitation Account revenues:

| Title | Description | Location | Component | Priority Status | Est. Schedule | | Useful Life | | Assembly | Senate |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | Start | Finish | Min | Max | | |
| Pioneer Trail Pedestrian Improvement Ph II | Project will include rehabilitation of existing pavement | Pioneer Trail (Larch Ave. to Ski Run Blvd.) | Con | New 24/25 | 7/25 | 10/25 | 20 | 20 | 5 | 1 |
| Tahoe Valley Stormwater Greenbelt Improvement Project Ph II | Project will include rehabilitation of existing pavement | Barton Ave (3rd St. to 4th St.) | Con | New 24/25 | 7/25 | 10/25 | 20 | 20 | 5 | 1 |
| 2025 Road Rehab Project | Project will include rehabilitation of existing pavement | 5th St., 7th St., 10th St., 11th St., 12th St., 13th St., Anita Dr., Dunlap Dr., Eloise Ave., Hazel Dr., James Ave., Patricia Ln. | Con | New 24/25 | 7/25 | 10/25 | 20 | 20 | 5 | 1 |
| Heavenly Village Way | Project will include rehabilitation of existing pavement | US 50 to Montreal Rd. | Con | New 24/25 | 7/25 | 10/25 | 20 | 20 | 5 | 1 |
| Palmira Avenue | Project will include rehabilitation of existing pavement | Carson Ave. to River Dr. | Con | New 24/25 | 7/25 | 10/25 | 20 | 20 | 5 | 1 |

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**6

**Agenda Item:** Amendment to American Rescue Plan Act of 2021 (ARPA) Funding Budget Appropriations

**Executive Summary:** On January 6th, 2022 the U.S. Department of the Treasury issued the Final Rule for the State and Local Fiscal Recovery Funds (SLFRF) program. The final rule provides state and local governments with increased flexibility to pursue a wider range of uses, as well as greater simplicity so the government can focus on responding to the crisis in the communities and maximizing the impact of their funds. In addition to several expansions to the statutory categories of uses, it provided the option to elect a standard allowance for revenue loss rather than calculating revenue loss through the formula. Under this option, Treasury presumes that up to $10 million in revenue has been lost due to the public health emergency and recipients are permitted to use that amount (not to exceed the award amount) to fund â€œgovernment services.â€ On February 1, 2022, the City Council through Resolution 2022-019, electing the provision of a â€œstandard allowanceâ€ for the allocated to the City $5,309,994 to spend on government services through the period of performance. Due to the timing requirements for ARPA funding obligation and spending, staff is proposing to transfer $482,655 in unspent and/or unobligated ARPA funding to the Bijou Park Creek Restoration Capital Improvement Program (CIP) project account 301-40051 to ensure compliance with ARPA rules. The proposed reallocations is within the allowed provision of revenue loss.

**Requested Action / Suggested Motions:** Pass a Resolution authorizing Fiscal Year 2023-2024 budget amendments for reallocating American Rescue Plan Act (ARPA) funding, consistent with the requirements of statutory category C, Revenue Loss for the provision of government services, and approving additional budget transfers for active Capital Improvement Projects.

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance

**Reviewed and Approved By:** Susan Blankenship, City Clerk Heather Stroud, City Attorney

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title: Amendment to American Rescue Plan Act of 2021 (ARPA) Funding Budget Appropriations**

**Location:** Citywide

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance (530) 542-7431

**Background:** The American Rescue Plan Act (ARPA) of 2021 was signed into law by President Biden on March 11, 2021. The City of South Lake Tahoe was provided a total of $5,309,994 in funding. The City elected the provision of a "standard allowance" with the option to spend this funding on government services through the period of performance. All ARPA funds must be allocated (fully obligated, with contracts awarded) by the end of 2024 and projects closed out and funds fully expended by the end of 2026.

**Issue and Discussion:** Through the most recent June 4, 2024, council meeting, the City Council appropriated a total of $5,209,994 for thirteen different projects. A total of $482,655 from several of these projects remains unspent and unobligated due to project completions or delays and is proposed to be reallocated to the Bijou Park Creek Restoration project. All projects are listed below with their statuses and the proposed reallocation of funding.

1. Long Term Rental Incentive Pilot Program – appropriated $500,000 on October 19, 2021. $109,207 remains unspent. The project is active, no changes are proposed.
2. Services Center Maintenance/Repair – appropriated $80,000 on December 4, 2021. $49,663 remains unspent. The project is active, no changes are proposed.
3. Renovations and Improvement of Skate Park - appropriated $250,000 on January 4, 2022. $176,125 remains unspent. The project is active, no changes are proposed.
4. Bike Trail Network Improvements - appropriated $50,000 on January 4, 2022. $35,597 remains unspent. The project is active, no changes are proposed.
5. Planning and studies for the Greenway Phase 1 Bike Trail Project - appropriated $200,000 on January 4, 2022 and $56,038 on June 7, 2022. $173,544 remains unspent. The project is active, no changes are proposed.
6. Broadband Study and Deployment - appropriated $400,000 on February 1, 2022 (of which $204,657 in project savings was reallocated to Bijou Park Connector in the FY 2023-2024 adopted budget). A total of $296,975 in budget savings from this project, including already reallocated amount remains unspent. Proposing to reallocate the total unspent amount of $296,975 to the Bijou Park Creek Restoration project. The Bijou Park Connector project will not have a contract awarded by the end of 2024.

7. Solar Trash Compacting - appropriated $50,000 on March 15, 2022. $541 remains unspent. The project is closed. Proposing to reallocate the remaining amount to the Bijou Park Creek Restoration project.
8. Bijou Park Recreation Improvements to the BMX Track - appropriated $35,000 on March 15, 2022. $35,000 remains unspent. The project is still in the planning phase and the contract is not anticipated to be awarded by the end of 2024. This project will likely require additional funding. Staff is requesting to reallocate ARPA funding from this project to the Bijou Park Creek Restoration project and replace it with $35,000 from General Fund Undesignated Excess Reserves to ensure the project is progressing as planned.
9. Small Business Sustainability Loan Forgiveness - appropriated $377,500 on March 15, 2022. $139 remains unspent. Proposing to reallocate the remaining amount to the Bijou Park Creek Restoration project.
10. REACH code development - appropriated $50,000 on April 5, 2022. Funds are fully expended, not changes are requested.
11. STPUD Fire Hydrants - appropriated $300,000 on May 17, 2022. Funds are fully expended, not changes are requested.
12. Ski Run Park Infrastructure - appropriated $150,000 on June 7, 2022. This project's expense for park's ADA improvements were charged to a different CIP project account due to compliance requirements. The full amount of funding remains unspent. Proposing to reallocate the full amount to the Bijou Park Creek Restoration project.
13. Recreation Center Construction project - appropriated $2,711,457 on September 26, 2023. Funds are fully spent, not changes are requested.

Additionally, $100,000 for the previously approved Art Program project remains unallocated in the General Fund's fund balance. The project is currently in the bidding phase and the contract awards are anticipated by the end of 2024.

A total of $482,655 will be reallocated to the Bijou Park Creek Restoration project. This project is currently undergoing the design phase with the construction award for a portion of the overall project (Rockwood to Blackwood Drainage Improvements) anticipated in August 2024. Of the additional $300,000 funding allocated to this project from the Cannabis revenue fund during mid-year budget review process, $204,657 is proposed to be moved to the Bijou Park Connector project that is losing the same amount of ARPA funding to the Bijou Park Creek Restoration project in this reallocation process. Since the Connector project is not anticipated to have a contract awarded by the end of 2024 when ARPA funding needs to be obligated, the requested funding swap will help to comply with ARPA's federal spending requirements.

**Financial Implications:** The attached resolution will reallocate unspent or unobligated total amount of $482,655 from several previously approved projects to account 301-40051 Bijou Park Creek Restoration project that is nearing the award phase. Of the $300,000 amount allocated to the Restoration project during the mid-year budget review from the Cannabis revenue fund, $204,657 will be transferred to the Bijou Park Connector project that is losing time-sensitive ARPA funding. Additionally, staff is requesting to replace ARPA funding transferred from the Bijou Park Recreation Improvement to the BMX Track project with the $35,000 funding from the General Fund Undesignated Excess Reserves.

**Environmental Considerations:** Budget amendments to fund the Bijou Park Creek Restoration project that is still in design is not approval of a project requiring review under California Environmental Quality Act ("CEQA") section 15352.

**Policy Implications:** Consistent with City's Financial Policies and City Council priorities.

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

**Authorizing Fiscal Year 2023-2024 budget amendments for reallocating American Rescue Plan Act (ARPA) funding, consistent with the requirements of statutory category C, Revenue Loss for the provision of government services, and approving additional budget transfers for active Capital Improvement Projects**

A. The City of South Lake Tahoe was allocated a total of $5,309,994 in funding from the American Rescue Plan (ARPA).

B. On February 1, 2022, the City Council adopted Resolution 2022-019 electing the provision of a "standard allowance" of up to $10 million provided in the U.S. Department of the Treasury Final Rule to spend on government services through the period of performance, for the allocated ARPA funding.

C. Through June 4, 2024 council meeting, the City Council appropriated a total of $5,209,994 for the following projects:

1. Long Term Rental Incentive Pilot Program - $500,000 on October 19, 2021
2. Services Center Maintenance/Repair - $80,000 on December 4, 2021
3. Renovations and Improvement of skate park - $250,000 on January 4, 2022
4. Bike Trail Network Improvements - $50,000 on January 4, 2022
5. Planning and studies for the Greenway Phase 1 Bike Trail Project - $200,000 on January 4, 2022 and $56,038 on June 7, 2022
6. Broadband Study and Deployment - $400,000 on February 1, 2022 (of which $204,657 in project savings was reallocated to Bijou Park Connector in the FY 2023-2024 adopted budget)
7. Solar Trash Compacting - $50,000 on March 15, 2022
8. Bijou Park Recreation Improvements to the BMX Track - $35,000 on March 15, 2022
9. Small Business Sustainability Loan forgiveness - $377,500 on March 15, 2022
10. REACH code development - $50,000 on April 5, 2022
11. STPUD Fire Hydrants - $300,000 on May 17, 2022
12. Ski Run Park Infrastructure - $150,000 on June 7, 2022
13. Recreation Center Construction project - $2,711,457 on September 26, 2023

A balance of $100,000 earmarked for the Art Program project remains unallocated.

D. All ARPA funds must be allocated (obligated with contracts awarded) by the end of 2024 and projects closed out and funds fully expended by the end of 2026.

E. ARPA Funding in several projects listed above remains unspent and/or unobligated due to project delays or completion. Staff proposes to reallocate the total amount of $482,655 from several of these projects currently budgeted in Fiscal Year 2023-2024 or located in the General Fund fund balance in the following way:

1. Long Term Rental Incentive Pilot Program - $500,000

i. Account 320-30003
ii. $109,207 unspent
iii. No changes

2. Services Center Maintenance/Repair – $80,000
    i. Account 301-60017
    ii. $49,663 unspent
    iii. No changes
3. Renovations and Improvement of skate park - $250,000
    i. Account 301-60075
    ii. $176,125 unspent
    iii. No Changes
4. Bike Trail Network Improvements - $50,000
    i. Account 301-50051
    ii. $35,597 unspent
    iii. No Changes
5. Planning and studies for the Greenway Phase 1 Bike Trail Project - $200,000
    i. Account 301-50041
    ii. $173,544 unspent
    iii. No Changes
6. Broadband Study and Deployment - $400,000
    i. Account 301-60076
    ii. $296,975 unspent
    iii. Change reallocation of $204,657 in project savings from Bijou Park Connector, account 301-50037 approved in the FY 2023-2024 adopted budget, and reallocate the remaining Broadband project savings of $92,318, for a total of $296,975 to Bijou Park Creek Restoration project, account 301-40051.
7. Solar Trash Compacting - $50,000
    i. In General Fund fund balance
    ii. $541 unspent
    iii. Reallocate to Bijou Park Creek Restoration project, account 301-40051
8. Bijou Park Recreation Improvements to the BMX Track - $35,000
    i. Account 301-60066
    ii. $35,000 unspent
    iii. Reallocate to Bijou Park Creek Restoration project, account 301-40051
    iv. Replace ARPA funding with funds from General Fund Undesignated Excess Reserves.
9. Small Business Sustainability Loan forgiveness – $377,500
    i. In General Fund fund balance
    ii. $139 unspent
    iii. Reallocate to Bijou Park Creek Restoration project, account 301-40051
10. REACH code development - $50,000
    i. Account 100-03110
    ii. Fully spent, no changes
11. STPUD Fire Hydrants - $300,000
    i. Account 301-60077
    ii. Fully spent, no changes
12. Ski Run Park Infrastructure - $150,000
    i. Account 301-60078
    ii. Reallocate to Bijou Park Creek Restoration project, account 301-40051
13. Recreation Center Construction project - $2,711,457
    i. Account 301-60018

ii. Fully spent, no changes

14. Art Program - $100,000
    i. In General Fund fund balance
    ii. $100,000 unobligated and unspent, no changes

F. Due to accumulation of additional ARPA funding in the Bijou Park Creek Restoration project, staff is requesting to reallocate $204,657 of the $300,000 budgeted transfer allocated to this project during FY 2023-2024 mid-year budget review process, to the Bijou Park Connector project, account 301-50037 that is losing the same amount in ARPA funding.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Authorizes a transfer of the unobligated and/or unspent ARPA funding as shown in the table below:

| Fund/Account | Description | Revenue (Increase) Decrease | Expense Increase (Decrease) |
|---|---|---|---|
| 301-60076-36375 | Reallocate ARPA revenue from Broadband Study Project | $296,975 | |
| 301-60076-42020 | Reallocate ARPA expense from Broadband Study Project | | ($92,318) |
| 301-60076-50014 | Reallocate ARPA expense from Broadband Study Project | | ($204,657) |
| 301-50037-36304 | Reallocate ARPA revenue from Bijou Park Creek Connector | $204,657 | |
| 301-50037-42020 | Reallocate ARPA expense from Bijou Park Creek Connector | | ($204,657) |
| 100-01956-50014 | Allocate ARPA revenue from General Fund Solar Trash Compacting and Small Business Sustainability Loan Forgiveness projects budget savings | | $680 |
| 301-60066-36375 | Reallocate ARPA revenue from Bijou Park Recreation Improvements to the BMX Track project | $35,000 | |
| 301-60066-48030 | Reallocate ARPA expense from Bijou Park Recreation Improvements to the BMX Track project | | ($35,000) |
| 100-01956-50014 | Replace APRA funding revenue in 301-60066 projects account with General Fund Undesignated Excess Reserves | | $35,000 |
| 301-60066-36300 | Replace ARPA funding revenue with General Fund Undesignated Excess Reserves funding | ($35,000) | |

| | | | |
|---|---|---|---|
| 301-60066-48030 | Replace ARPA funded expense with General Fund funds | | $35,000 |
| 301-60078-36300 | Reallocate ARPA revenue from Ski Run Park Infrastructure project | $150,000 | |
| 301-60078-48030 | Reallocate ARPA expense from Ski Run Park Infrastructure project | | ($150,000) |
| 301-40051-36375 | Reallocate ARPA revenue to Bijou Park Creek Restoration project | ($482,655) | |
| 301-40051-48030 | Reallocate ARPA expense to Bijou Park Creek Restoration project | | $482,655 |
| 301-40051-36373 | Reallocate Transfer in from Cannabis from Bijou Park Creek Restoration project | $204,657 | |
| 301-40051-48030 | Reallocate expense from Bijou Park Creek Restoration project | | ($204,657) |
| 301-50037-36373 | Reallocate Transfer in from Cannabis to Bijou Park Connector project | ($204,657) | |
| 301-50037-48010 | Reallocate expense to Bijou Park Connector project | | $204,657 |

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**7

**Agenda Item:** Ski Run Park Donation Acceptance

**Executive Summary:** In June 2021, the City and Friends of Ski Run entered into a Memorandum of Understanding to establish a general framework to collaborate on the construction, maintenance, funding, and operations of Ski Run Park. The Friends of Ski Run purchased the parcel at 1195 Ski Run Blvd in 2021, with the intent to construct a community park and donate it to the City. Since that time, Friends of Ski Run have raised funds, developed construction plans, obtained permits and constructed the park. Construction of the park is nearly complete and the City Council will consider acceptance of the land and park improvements

**Requested Action / Suggested Motions:** Pass a Resolution authorizing and directing the City Manager to accept Grant Deed and accept donation, valued at $175,000, of Ski Run Community Park for dedicated use as a public park from SkiRunPark LLC, upon completion of park improvements and passing inspections.

**Responsible Staff Member:** Hilary Roverud, Assistant City Manager

**Reviewed and Approved By:** Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance Heather Stroud, City Attorney

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title:** Ski Run Park Donation Acceptance

**Location:** 1195 Ski Run Blvd

**Responsible Staff Member:** Hilary Roverud, Assistant City Manager

**Background:** In June 2021, the City and Friends of Ski Run entered into a Memorandum of Understanding to establish a general framework for a collaborative working relationship and define the respective roles and responsibilities of the Parties for the construction, maintenance, funding, and operations of Ski Run Park.

The Friends of Ski Run created an entity called SkiRunPark, LLC and purchased the parcel at 1195 Ski Run Blvd in 2021, with the intent to construct a community park and donate it to the City. Since that time, Friends of Ski Run have raised funds, developed construction plans, obtained permits and constructed the park.

**Issue and Discussion:** Construction of Ski Run Community Park is nearly complete and it will be open to the public once final items are addressed and the ownership is transferred to the City. Inspections have been conducted by the City Building Division and Parks Division staff to ensure compliance with construction and safety regulations.

The attached resolution would authorize the City Manager to accept the donation of the land and park improvements to the City once final construction items have been addressed and the improvements signed off by the Building Official and Director of Parks and Recreation.

A narrative appraisal of the park land and improvements has been conducted by Benjamin Johnson, MAI and is attached. Appraised value is $175,000.

**Financial Implications:** With donation of the Ski Run Community Park, the City will acquire an asset with appraised value of $175,000. The City will be responsible for ongoing maintenance of the park, which is estimated to have an annual cost of $10,000 in staff and operational expenses.

**Environmental Considerations:** Adoption of a resolution to authorize the City Manager to accept a grant deed is not a “project” subject to review under the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15378(b)(2) (continuing administrative or maintenance activities, such as purchases for supplies).

**Policy Implications:** This action is consistent with Strategic Plan priority 2.1 which directs the City to “enhance the quality and quantity of Parks & Recreation opportunities for residents and visitors while prioritizing the construction of parks, recreation facilities and trails to support and maximize the highest community benefit that provides access for all.”

# MEMORANDUM OF UNDERSTANDING
# REGARDING SKI RUN PARK

This **Memorandum of Understanding** ("**MOU**") is entered into this 15th day of June, 2021 ("**Effective Date**") by and between the City of South Lake Tahoe, a municipal corporation ("**City**") and Friends of Ski Run, a California non-profit public benefit corporation ("**Friends**"). The parties to this MOU are sometimes referred to as each, a "**Party**" and collectively, the "**Parties**."

**WHEREAS,** SkiRunPark LLC recently acquired a certain unimproved real property with Assessor Parcel Number 027-161-30-100, commonly known as 1195 Ski Run Blvd., South Lake Tahoe CA 96150 ("**Property**") for $45,000.

**WHEREAS,** Friends is a nonprofit public benefit corporation that is tax exempt under Internal Revenue Code Section 501(c)(3) and organized to beautify, market, and facilitate activities and economic development in the Ski Run Blvd. area of South Lake Tahoe.

**WHEREAS,** SkiRunPark LLC is a California limited liability company associated with Friends and established in May 2021 to acquire the Property.

**WHEREAS,** SkiRunPark LLC desires to donate the Property to the City, and the City desires to accept the donation pursuant to California Government Code section 37350, for use as a community park ("**Ski Run Park**").

**WHEREAS,** the City and Friends desire to cooperate and collaborate in order to improve and develop the Property as Ski Run Park.

**NOW, THEREFORE,** in order to advance their mutual objectives and commence a collaborative process with respect to the development of Ski Run Park, the City and Friends agree as follows:

**1. Purpose of MOU.** The purpose of this MOU is to establish a general framework for a collaborative working relationship and define the respective roles and responsibilities of the Parties for the construction, maintenance, funding, and operations of Ski Run Park.

**2. General Relationship of the Parties.** The City and Friends shall work collaboratively to identify and implement improvements related to the construction, maintenance, and preservation of Ski Run Park, and/or programs and activities occurring thereon ("**Projects**"). The City and Friends shall also cooperate on public outreach and/or community assessments related to potential Projects and the ongoing operations of Ski Run Park.

**3. Responsibilities of Friends**.

3.1. Advisory Role. Friends shall serve as a community advisor to the City with respect to any proposed Projects and the construction and operations of Ski Run Park.

3.2. Fundraising. Friends is authorized, but is not obligated to, solicit and raise funds on an initial and ongoing basis to support the design, construction, maintenance, and operation of Ski Run Park. Notwithstanding any provision of this MOU to the contrary, any and all funds received by Friends (through donations, grants, or otherwise) shall remain the property of and shall be solely under the control of Friends, and Friends shall retain sole authority over its own operations and decision making, including, without limitation, the extent of its participation in any Project or fundraising activities.

DocuSign Envelope ID: B1470E72-1151-48FF-B18D-8B43AC29B5D9

3.3. Volunteers. In cooperation with the City, Friends may provide volunteers to carry out the development and maintenance of Ski Run Park as set forth in this MOU. Such persons shall be managed and supervised by Friends, shall be qualified to perform the duties to which they are assigned, shall not be compensated for such services, and shall be required to follow the City's volunteer policies and sign a volunteer waiver of liability on a form to be provided by the City. Friends may not hire or pay for contract services for maintenance or improvements at Ski Run Park without the prior consent of the City.

**4. Responsibilities of City.**

4.1. Ownership and Maintenance. The City shall be responsible for the ownership, operation, and maintenance of Ski Run Park, including, without limitation, the payment of all taxes, utilities and costs incident thereto. Although the City intends to collaborate with Friends in good faith regarding any proposed Projects, the City shall retain the authority to approve Projects and maintain and operate Ski Run Park in its sole and absolute discretion.

4.2. Access. The City shall grant Friends, and its directors, officers, employees, contractors, subcontractors and consultants, a nonexclusive license to enter upon and use Ski Run Park in connection with the relationship contemplated by this MOU.

4.3. Coordination and Communication. The City shall provide a staff person who shall serve as the primary contact for coordination and direction of City obligations under this MOU. Said staff person shall be the City's Parks and Recreation Director unless a different contact person is designated by the City.

**5. Limitations Of Liability.**

5.1. Consequential Damages. Notwithstanding any provision in this MOU to the contrary, the each Party agrees not to assert against the other Party any claim, demand or suit for consequential, incidental, indirect or special damages arising from any aspect of the performance or nonperformance of the activities contemplated under this MOU, and the each Party waives any such claim, demand or suit against the other Party.

5.2. Exclusivity. The provisions of this section constitute each Party's exclusive liability and each Party's sole remedy with respect to the activities contemplated by this MOU, and each Party hereby expressly and knowingly releases the other Party from any further liability.

**6. Notices.** Any notice required to be given under this MOU shall be in writing and either served personally or sent prepaid, first class mail. Any such notice shall be addressed to the other party at the address set forth below. Notice shall be deemed communicated within 48 hours from the time of mailing if mailed as provided in this section.

If to City: Parks and Recreation Director
City of South Lake Tahoe
1180 Rufus Allen Blvd.
South Lake Tahoe, CA 96150

Provide a copy to: City Attorney

South Lake Tahoe, CA 96150

DocuSign Envelope ID: B1470E72-1151-48FF-B18D-8B43AC29B5D9

If to Friends: Friends of Ski Run
Rachel Carlson
1202 Ski Run Blvd.
South Lake Tahoe, CA 96150

**7. Assignment.** This MOU is personal to Friends. As such, Friends has no right to assign any part of this MOU, or any part of its obligations under this MOU in whole or in part. Friends may not grant concessions in or upon Ski Run Park without the prior written approval of the City.

**8. Non-Liability for Breach.** This MOU is a preliminary expression of mutual cooperation and intent. It is not intended to be a binding contract and is not enforceable against either Party, nor against any elective or appointive board, commission, member, officer, employee, director, volunteer or other agent of either Party.

**9. Term.** The term of this MOU will commence as of the Effective Date and shall continue for five (5) years ("**Term**") unless earlier terminated as provided herein or extended by the mutual agreement of City and Friends. Notwithstanding the foregoing, this MOU shall terminate upon any of the following: (1) execution by the parties of a subsequent agreement related to Ski Run Park; or (2) at least thirty (30) days written notice by either Party to the other of such Party's intent to terminate the MOU.

**10. No Agency Relationship.** The relationship between the City and Friends and their respective agents, volunteers, directors, or employees as provided herein shall be that of an independent contractor. No agency, joint powers agreement, or other relationship is created or intended to be created by this MOU.

**11. Good Faith.** Friends and the City shall use their good faith best efforts to do, or cause to be done, all things reasonably necessary or advisable to carry out the terms and conditions of this MOU.

**12. Waiver.** Waiver of a breach or default under this MOU shall not constitute a continuing waiver of a subsequent breach of the same or any other provision under this MOU.

**13. Controlling Law; Venue**. This MOU and all matters relating to it shall be governed by the laws of the State of California. Any action brought relating to this MOU shall be held exclusively in the Superior Courts in the County of El Dorado, South Lake Tahoe Division.

**14. Amendments.** This MOU may be modified or amended only by a written document executed by both Friends and the City and approved as to form by the City Attorney.

**15. Severability.** If any term or portion of this MOU is held to be invalid, illegal or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this MOU shall continue in full force and effect.

**16. Counterparts.** This MOU may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original for all purposes, but all of which together shall constitute one and the same instrument.

Devin Middlebrook
Skirunpark, LLC

***Re: A Narrative Appraisal of the Hypothetical As Complete Ski Run Community Park located at 1195 Ski Run Boulevard, South Lake Tahoe, El Dorado County, California***

Dear Mr. Middlebrook:

This is in response to your request for an appraisal of the real property located 1195 Ski Run Boulevard in South Lake Tahoe, El Dorado County, California that is presently in the process of being improved with the Ski run Community Park. The property may be further identified as El Dorado County Assessor's Parcel Number 027-161-030-000. El Dorado County Records indicate the subject owner as SkiRunPark, LLC

The subject property was previously improved with a motel. Safeway purchased the property in 1999 and subsequently demolished the improvements, banked the existing TRPA development resources (Land Coverage and TAU's that were converted to CFA) and then transferred the vast majority of the development rights off the site. As part of the approval to transfer the development rights from the site, the property was deed restricted to prohibit the transfer back of land coverage, CFA or TAUs to the subject site. Subsequently, the subject property was purchased by the current owners in 2021 for the proposed development of a community park. In 2022, the City of South Lake Tahoe and TRPA approved the proposed use. The permit specifically authorizes the construction of a day-use area (Ski Run Community Park). The parcel is located in the Tourist Core Area Plan Town Center Mixed-Use District and is zoned as Tourist. Day-use areas are allowed in the district.

Subsequent to the approval for development of the Ski Run Community Park, TRPA authorized modification of the prior deed restrictions to allow for land coverage to be returned to the portion of the property mapped as Land Capability District 5 District for use in development and operation of the Ski Run Community Park.

The property is presently under development with a community park and the Client has requested that this appraisal be predicted upon the hypothetical condition that the park is 100% complete per approvals, plans and specifications as of the relevant date of valuation.

The current owner plans to donate the property to the City of South Lake Tahoe at completion of construction. This appraisal is being prepared for the purpose of estimating the Hypothetical as Complete Market Value of the subject property as of a current date of valuation. The intended use of this appraisal is to assist the Client and The City of South Lake Tahoe with estimating the as complete value in connection with a proposed donation of the subject property, once 100% complete. Any other use of this appraisal report requires the prior written authorization of this appraisal firm. This firm is not responsible for unauthorized use of the appraisal report.

This appraisal is prepared in a narrative report format. A narrative appraisal report is intended to comply with the reporting requirements set forth under Standards Rule 2-2(a) of the *Uniform Standards of Professional Appraisal Practice* for a narrative appraisal report. As such, it presents only summary discussions of the data, reasoning and analyses that are used in the appraisal process to develop the appraiser's opinion of value. Supporting documentation concerning the data, reasoning and analyses is retained in this appraiser's file. The depth of the discussion contained in the report is specific to the needs of the client and for the intended use as stated herein.

I attest to have the knowledge and experience necessary to complete this appraisal assignment. No one other than the undersigned prepared the analyses, conclusions and opinions concerning real estate that are set forth in the accompanying appraisal report.

After careful consideration of all data available, and upon thorough personal investigation of the subject property and the comparable properties analyzed, it is my opinion that the Hypothetical As Complete Market Value of the subject property, as of June 3, 2024 is as follows:

**FINAL HYPOTHETICAL AS COMPLETE MARKET VALUE CONCLUSION** **$175,000**
**(100% complete per plans, specifications and approvals)**

Respectfully Submitted,

Benjamin Q Johnson

## SUMMARY OF SALIENT FACTS AND IMPORTANT CONCLUSIONS

| | |
|---|---|
| **Assessor's Parcel Number** | 027-161-030-000 |
| **Property Address** | 1195 Ski Run Boulevard, South Lake Tahoe, El Dorado County, California |
| **Owner of Record** | SkiRunPark, LLC |
| **Total Land Area** | 0.574± acres (25,003± square feet) |
| **Existing Land Coverage** | 1,447± square feet (existing at completion of construction) |
| **Existing CFA** | 256± square feet (banked) |
| **Improvements** | Streetscape along Ski Run Boulevard and Community Park that is Partially Completed |
| **Zoning** | Tourist Core Area Plan<br>TSC-MUC (Tourist Center Mixed-Use Corridor) |
| **Highest and Best Use** | Open Space/Day Use/Combined with adjacent parcel for density |
| **Flood Zone** | Flood Zone X |
| **Interest Appraised** | 100% Fee Simple |
| **Date of Valuation** | June 3, 2024 |
| **Date of Completion of Report** | June 6, 2024 |

**FINAL HYPOTHETICAL AS COMPLETE MARKET VALUE CONCLUSION** **$175,000**
**(100% complete per plans, specifications and approvals)**

## PURPOSE OF APPRAISAL

This appraisal was prepared for the purpose of estimating the Hypothetical As Complete Market Value of the 100% fee simple interest in the subject property as of a current date of valuation.

## INTENDED USERS OF APPRAISAL

The client of this appraisal is the property owner, Skirunpark, LLC.

## INTENDED USERS OF APPRAISAL

The intended users of this report are Skirunpark, LLC and the City of South Lake Tahoe.

## INTENDED USE OF APPRAISAL

The intended use of this appraisal is to assist the Client and The City of South Lake Tahoe with estimating the as complete value of the subject property in connection with a proposed donation of the subject property, once 100% complete, to the City of South Lake Tahoe. Any other use of this appraisal report requires the prior written authorization of this appraisal firm. This firm is not responsible for unauthorized use of the appraisal report.

## SCOPE OF APPRAISAL

This is a narrative appraisal which has been prepared in conformance with the requirements of the *Uniform Standards of Professional Appraisal Practice* as promulgated by the Appraisal Standards Board of the Appraisal Foundation.

Preparation of the following report included:

- Identification and analysis of area and neighborhood data;
- Review of TRPA file data related to the subject property;
- Review of proposed plans for the subject property;
- Inspection and analysis of the subject property;
- Completion of a Highest and Best Use Analysis;
- Research, analysis and inspection of comparable sales;
- Verification of sales data;
- Completion of a Sales Comparison Approach Analysis;
- Final Market Value Conclusion;
- Preparation of a narrative appraisal report.

## MARKET VALUE DEFINED

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1) Buyer and seller are typically motivated;
2) Both parties are well informed or well advised, and acting in what they consider their own best interests;
3) A reasonable time is allowed for exposure in the open market;
4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.[1]

## DATE OF VALUATION

The date of valuation of this report is June 3, 2024, the date of my most recent physical inspection of the subject property.

## PROPERTY RIGHTS APPRAISED

This appraisal report addresses the 100% fee simple interest of the subject property.

## DATE OF INSPECTION

The subject property and the neighborhood in which it is situated was inspected by Benjamin Q. Johnson on various dates in May and June of 2024. The most recent inspection occurred on June 3, 2024.

[1] Rules and Regulations, Federal Register, Vol. 55, No. 165, Page 34696, 12CFR Part 34.42(f)

## DATE OF COMPLETION OF REPORT

This report was completed on June 6, 2024.

## HYPOTHETICAL CONDITION

This appraisal has been prepared predicated up a Hypothetical Condition. The use of the hypothetical condition has a material effect on the conclusions reached herein.

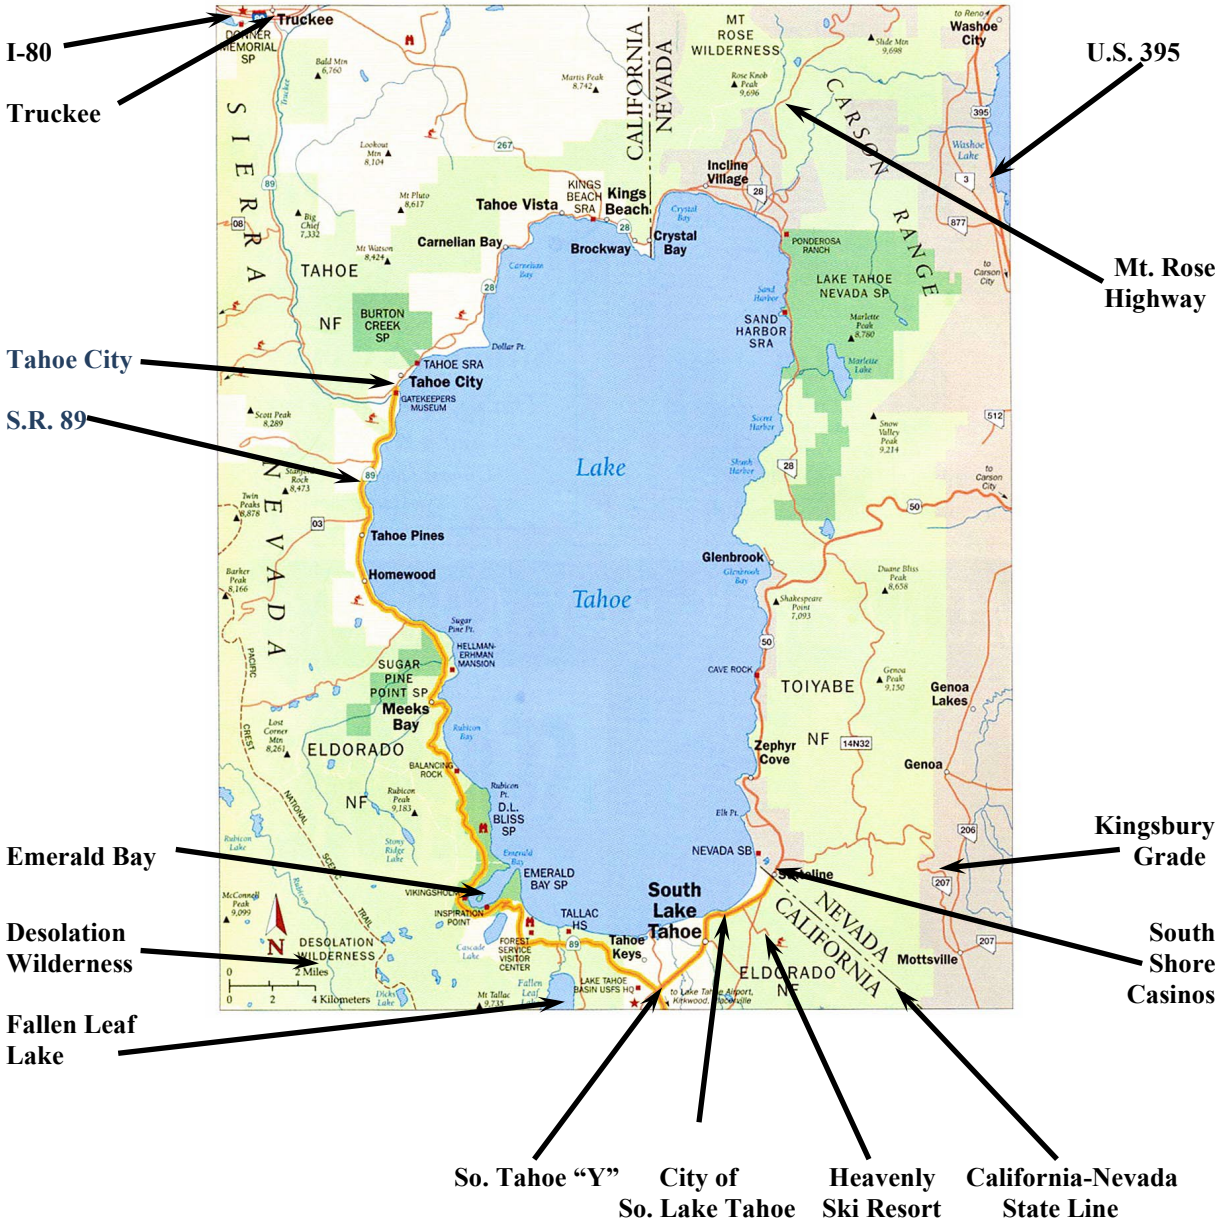
**Definition:**

> Hypothetical Condition: "A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of the analysis."[2]
>
> The Hypothetical Condition utilized for this assignment is as follows:

The subject is presently being developed with a community park including play equipment, turf, gathering space, mural wall, climbing boulder, hill slide, swings, benches, and a community table. The project also includes enhancing a historically non-functioning stream environment zone that is located on the parcel.

[2] Source: USPAP 2024-2025 Edition, Definitions; The Appraisal Foundation, Page 4.

The site plan for the project under development is presented as follows:



The improvements are presently under construction and expected to be completed in the summer of 2024. The full set of plans are included in the addenda to this appraisal and incorporated by reference herein. This appraisal is predicated upon the assumption the improvements presently being constructed are 100% complete as of the relevant date of valuation in accordance with the plans, specifications and approvals. The Client has requested the use of this Hypothetical Condition as it will reflect the condition of the property at the time it is expected to be donated to the City of South Lake Tahoe upon completion.

## REGIONAL MAP

North

# AREA MAP
## Lake Tahoe Basin

## AREA DESCRIPTION

The Lake Tahoe Basin is situated in the Sierra Nevada on the Nevada-California border, approximately 200 miles northeast of San Francisco and approximately 40 miles southwest of Reno. An estimated two-thirds of Lake Tahoe lies within California and approximately one-third lies within Nevada. The maximum elevation of the lake level is legally regulated at 6,229.10 feet. Many of the surrounding mountain peaks exceed 10,000 feet. Lake Tahoe is 21½ miles long and 12 miles wide. It has a 71± mile shoreline and a maximum depth of 1,645 feet. The surface covers 190 square miles, and the lake contains more than 122 million acre-feet of water. Lake Tahoe is the tenth deepest lake in the world and the second clearest in the United States. The unique recreational amenity provided by the lake itself and the dramatic prospect offered by the surrounding mountains attract millions of tourists each year.

The U. S. Forest Service owns more than 70% of the land area within the Lake Tahoe Basin. Private ownerships are estimated to control less than 20% of the land within the Basin. Most of the remaining land is owned either by state or local governments. Because so much of the land within the Basin is under public ownership, it is available to the general public for a wide variety of recreational utilizations.

There are approximately 1,100 residential lakefront parcels in the Lake Tahoe Basin, which are distributed across the following Nevada and California counties:

| | |
|---|---|
| El Dorado County, Nevada | 21% |
| Washoe County, Nevada | 14% |
| El Dorado County, California | 36% |
| El Dorado County, California | 29% |
| Carson City County, Nevada | Less than 1% |

**Climate**

The Lake Tahoe Basin enjoys an average of 273 fair days each year. It has an average annual precipitation of 35.5 inches at lake level and an average annual snowfall of 217 inches. During the winter months, the average high temperature is in the mid 40° F with lows in the mid to high 20° F. Average summer daytime temperature is around 80°F with lows in the mid to low 50°F. Lake temperatures range from approximately 41.9° at its coldest to 65.7° at its warmest in August. Because of the relatively moderate weather patterns, the Lake Tahoe Basin is a popular year-round destination resort.

**Access**

Several major highways serve the Lake Tahoe area. U.S. Highway 50 provides direct access to the south shore from Sacramento, entering the Basin at Echo Summit. From the City of South Lake Tahoe, this highway runs north along the east shore of the lake to Spooner Summit, and then descends the eastern slope of the Carson Range of the Sierra Nevada to its intersection with U.S. Highway 395 and Interstate 580, just south of Carson City, Nevada.

Interstate 80, which connects San Francisco to Reno and other points east, passes approximately 15 miles north of Lake Tahoe. Access to Lake Tahoe from Interstate 80 is by means of two state highways, both heading in a southerly direction from their intersection with Interstate 80 at Truckee, California. California State Route 89 provides direct access to Tahoe City on the west shore of Lake Tahoe. From Tahoe City, State Route 89 continues southerly along the west shore and joins U.S. Highway 50 in South Lake Tahoe. From the South Lake Tahoe/Meyers area, State Route 89 leaves U.S. Highway 50 and crosses Luther Pass to its intersection with California State Route 88 in Hope Valley and its intersection with U. S. Highway 395 near Coleville in Mono County, California. From Interstate 80, California State Route 267 provides direct access to Kings Beach on the north shore of Lake Tahoe near the Nevada state line.

The Mount Rose Highway provides direct access to Incline Village, Nevada and the north shore of Lake Tahoe from Interstate 580, which lies to the east. Interstate 580 runs along the western shelf of the Great Basin directly east of the Sierra Nevada Mountains from Reno to south Carson City and connects with U.S. Highway 395 at both ends. U.S. Highway 395 extends from southern California through Oregon and Washington to the Canadian border. From Incline Village, Nevada, State Route 28 runs westerly and then southerly along the shoreline of Lake Tahoe, terminating at Tahoe City, California. Nevada State Route 28 also runs easterly and then southerly along the Eastern Shore of Lake Tahoe, until it connects with U.S. Highway 50 near Spooner Summit.

Finally, access to the south shore area is also available by way of Kingsbury Grade, which is a state-maintained road. It extends westerly from the Carson Valley over Daggett Pass and terminates at its intersection with U.S. Highway 50 in Stateline, Nevada just north of the California/Nevada state line. In the Carson Valley, Kingsbury Grade is easily accessible from U.S. Highway 395 and from Nevada State Route 88.

All of the highways located within the Basin are two-lane, two-way, asphalt-paved roadways, with the exception of portions of U. S. Highway 50, which expands to a four-lane roadway. The winter maintenance of the roadways in the Lake Tahoe Basin is very good, with most highways remaining open throughout the winter months. The roadways most susceptible to winter closures are State Route 89 through Emerald Bay, the Mount Rose Highway at Mount Rose Summit, and Kingsbury Grade.

In summary, the Lake Tahoe Basin is easily accessible by automobile, particularly from the major metropolitan areas of northern California and northern Nevada.

**Commercial Transportation**

While transportation into the Lake Tahoe Basin is primarily by private auto, it is also serviced by various bus lines and commercial airlines. The south shore is serviced by the

Lake Tahoe Airport, which is located adjacent to U.S. Highway 50 at the south end of the City of South Lake Tahoe. This airport, which is operated by the City, offers an 8,542 foot runway, tie-down facilities, a terminal building and hangar storage. This airport has a modern instrumentation system to better facilitate landing in adverse weather. It does not currently offer commercial air service.

The west and north shores are served by the Truckee-Tahoe Airport. This airport is located adjacent to State Route 267, just southeast of the town of Truckee, California, and approximately 15 miles north of Kings Beach, California. Scheduled commercial air service is not available at this airport.

The entire Lake Tahoe Basin is also serviced by the Reno-Tahoe International Airport. This airport has service by 10 airlines with more than 76 daily flights that serve 24 non-stop destinations. Regularly scheduled bus and limousine service is available from this airport to various portions of the Lake Tahoe Basin.

**Tahoe Regional Planning Agency (TRPA)[3]**

Lake Tahoe and the surrounding land areas that comprise the lake's watershed are generally referred to as the Lake Tahoe Basin. Land use within the Lake Tahoe Basin is strictly regulated by the Tahoe Regional Planning Agency (TRPA). It is important that the reader have at least a basic understanding of the TRPA.

The popularity of the Lake Tahoe Basin has created an altered watershed. The positive economic effects of popularity are shadowed by conditions that have the potential to harm Lake Tahoe water resources. Planning land use to accommodate economic growth and vitality ensures that protective measures are taken to maintain a healthy watershed.

[3] www.trpa.org

The TRPA was created initially in 1969 as a bi-state agency via concurrent legislation adopted by California and Nevada and by Congress and signed by the President. The original legislation was dramatically modified when amended by the states and Congress in 1980. Under the 1980 amended statute, all activities with a potential for an impact on the environment of the Tahoe Region must be reviewed and approved by the TRPA based on a determination that there will be no negative impact or violation of adopted environmental threshold carrying capacities of the Region.

The *Tahoe Regional Planning Compact* calls for the Regional Plan to establish a balance between the natural environment and the human-made environment. The Plan emphasizes an improvement in the quality of development in the Region and in the quality of the natural environment.

*Environmental Thresholds Carrying Capacities* set environmental goals and standards for the Lake Tahoe Basin and indirectly define the capacity of the Region to accommodate additional land development. Land development may negatively affect attainment of an environmental threshold. Special efforts, such as mitigation measures, must be taken to reduce impacts.

*The Regional Plan Goals and Policies* document presents the overall approach to meeting the thresholds. A key component of the Plan is the land use element. The land use element of the Plan identifies the fundamental philosophies directing land use and development in the Lake Tahoe Basin. It addresses topics like suitable development locations; maintenance of the environmental, social, physical, and economic wellbeing of the Region; and coordination with local, state, and federal requirements.

*The Land Use Element of the Lake Tahoe Regional Plan* includes the following sub-elements: land use, housing, noise, natural hazards, air quality, water quality, and community design. The Land Use sub-elements intend to establish land use goals and policies that will

ensure the desired equilibrium and attain and maintain the environmental thresholds within a specific time schedule.

A number of regulations are needed to implement and enforce policies identified in the Plan. The TRPA Regulatory Code compiles all of the laws and ordinances needed to implement the Goals and Policies.

In implementing its Regional Plan and Ordinances which regulate the nature, types, and amount of land uses which may be permitted on lands within the Tahoe Basin, the TRPA limits the amount of Commercial Floor Area, impervious land coverage, and Tourist Accommodation Units which may exist within the Lake Tahoe Basin.

According to TRPA "Commercial Floor Area (CFA) is a unique development right needed to build commercial establishments in the Tahoe Region. CFA is defined as the gross square footage of floor area within the outer wall of a commercial building including facilities such as decks that are designated for commercial use under a TRPA permit. CFA does not include stairwells and airshafts; areas outside the building including parking areas/structures, driveways, outside stairways; accessory uses such as pro shops at golf courses; temporary projects; and the area of play in areas such as an indoor tennis court (additional detail in Code Section 50.6.1). CFA was created in response to the need to better manage growth in a way that promotes environmental gain, encourages environmentally beneficial redevelopment of "legacy" development, directs growth into Centers, and removes development from sensitive lands.

There is a finite amount of CFA which is allocated, by TRPA through the Regional Plan and local jurisdictions, primarily through an adopted Area Plan or Community Plan. CFA can be existing CFA if it was already located on a parcel developed before January 1, 1987 (grandfathered), or can be additional CFA, or bonus CFA. Additional CFA is used for commercial areas constructed pursuant a TRPA compliant approval on or after January 1987 or the conversion of legally existing or approved floor area from noncommercial use to

commercial use (exceptions listed in Code Section 50.6.1.B.1 and 2). Allocations of CFA on sensitive lands are largely not allowed (Code Section 50.6.1.C.1-2).

Much like CFA, the amount of impervious ground coverage, more commonly referred to as land coverage, allowed within the Lake Tahoe Basin is strictly regulated. Land coverage is defined by the TRPA as:

> A man-made structure, improvement or covering, either created before February 10, 1972 or created after February 10, 1972 pursuant to either TRPA Ordinance No. 4, as amended, or other TRPA approval, that prevents normal precipitation from directly reaching the surface of the land underlying the structure, improvement or covering. Such structures, improvements and coverings include but are not limited to roofs, decks, surfaces that are paved with asphalt, concrete or stone, roads, streets, sidewalks, driveways, parking lots, tennis courts, and patios. A structure, improvement or covering shall not be considered as land coverage if it permits at least 75 percent of normal precipitation directly to reach the ground and permits growth of vegetation on the approved species list.

The maximum amount of land coverage allowed on a parcel is determined by the TRPA. Land coverage is a marketable development right that can be sold within the Lake Tahoe Basin under a complex set of rules and regulations.

Like CFA and land coverage, the number of Tourist Accommodation Units (TAUs) allowed within the Lake Tahoe Basin is strictly regulated. A TAU is defined in Chapter 90 of the TRPA Code of Ordinances as "A Unit, with one or more bedrooms and with or without cooking facilities, primarily designed to be rented by the day or week and occupied on a temporary basis." TAUs are a marketable development right and can be sold within the Lake Tahoe Basin.

It should be noted that the Lake Tahoe Regional Plan Update to the 1987 Regional Plan was approved by the TRPA Board on December 12, 2012. The update retains the regulatory framework from the existing 1987 Regional Plan, while making targeted amendments to accelerate threshold attainment and respond to current conditions. One of the many goals in the Regional Plan Update is to streamline the planning and permitting process by implementation of Area Plans. Through the establishment of Area Plans, local government agencies have become more active in the permitting process on a parcel level basis, while the TRPA has focused their efforts on regional priorities.

Overall, TRPA's rules and regulations greatly restrict the development potential of properties located within the Lake Tahoe Basin.

**Tourism**

Tourism is the basic industry of the Lake Tahoe Basin, with most visitors drawn to the area by the numerous outdoor recreational opportunities available, the gaming and the natural scenic beauty. The principal recreation market is comprised of four of California's ten Metropolitan Statistical Areas. These areas have an estimated combined population in excess of 10,000,000. In addition, the surrounding California non-metropolitan areas have a population of more than 2,000,000 people. Based on cell phone tracking data collected by the Tahoe Transportation District, there are as many as 24 million visitors to the Tahoe Basin each year, with approximately 40% of those visitors in the area for a day trip[4].

Summer outdoor recreational opportunities include fishing, water skiing, bicycling, swimming, horseback riding, golfing, river rafting, hiking and backpacking, boating, and sightseeing. There are numerous public beaches, campgrounds, and picnic areas distributed around the perimeter of the lake. These are generally operated by local governments, state governments or the U.S. Forest Service. In several areas of the Lake Tahoe Basin, paved

[4] Memoranda from Cynthia Albright, Stantec, to Carl Hasty, Director, Tahoe Transportation District, dated May 2, 2016 and August 22, 2016.

scenic bike paths have been developed, and others are planned for the future. Public golf courses are located at Tahoe City, Kings Beach, Incline Village, Glenbrook, and in the South Lake Tahoe area.

Also distributed around the shore of Lake Tahoe are numerous marinas, most of which offer a complete line of power and sailboat rentals, as well as water skis and equipment. Several of these marinas operate regularly scheduled or charter boat cruises around the lake, including dinner, sunset, and cocktail cruises.

Adjacent to the western perimeter of the Lake Tahoe Basin is Desolation Wilderness. This pristine backcountry encompasses more than 100 square miles and 80 separate lakes, most of which offer excellent seasonal fishing. Desolation Wilderness is one of the most popular wilderness areas in the United States.

Winter outdoor recreational opportunities include skiing/snowboarding, ice skating, sledding, snow shoeing, and snowmobiling. The Lake Tahoe area has the largest concentration of ski resorts in the world, including 15 major resorts. Lake Tahoe's winter economy is reliant upon winter weather conditions, as ski resorts are a major source of tourism during the months of December through mid-April. Winter tourism in the Lake Tahoe Basin can be affected by drought years where the snowpack is well below average. As a result, most area ski resort operators now use sophisticated snowmaking equipment to assure themselves of an early ski season in late November or early December and as a hedge against a potential dry winter. In years when the snowpack is only average to below average at area ski resorts, snow making capabilities help to maintain the slopes and business volume at reasonable levels.

Legalized gaming also attracts thousands of tourists each year. The major concentration of hotel/casinos is located at the southeast end of the lake at Stateline, Nevada. The four major hotel/casinos at this location include Harrah's, Harvey’s, Hard Rock, and

MontBleu. The total number of guestrooms in these four facilities is approximately 2,293. At the north end of the lake, the Hyatt Lake Tahoe Hotel-Casino is located in Incline Village. There are additional casino facilities located in Crystal Bay, including the Biltmore, the Crystal Bay Club and Jim Kelly's Nugget.

The lodging market within the Tahoe Basin is somewhat seasonal. The summer season is the busiest time of year due to the cool summer temperatures, numerous outdoor activities, and the casinos. Occupancy levels in the overall market during July and August are approximately 80% to 90%. The winter months are also a busy time of year, with the highest occupancy levels on the weekends and holiday weekends. However, during the shoulder months of October, November, most of December, part of April, May, and the first half of June, occupancy levels typically drop.

**Population/Demographics**

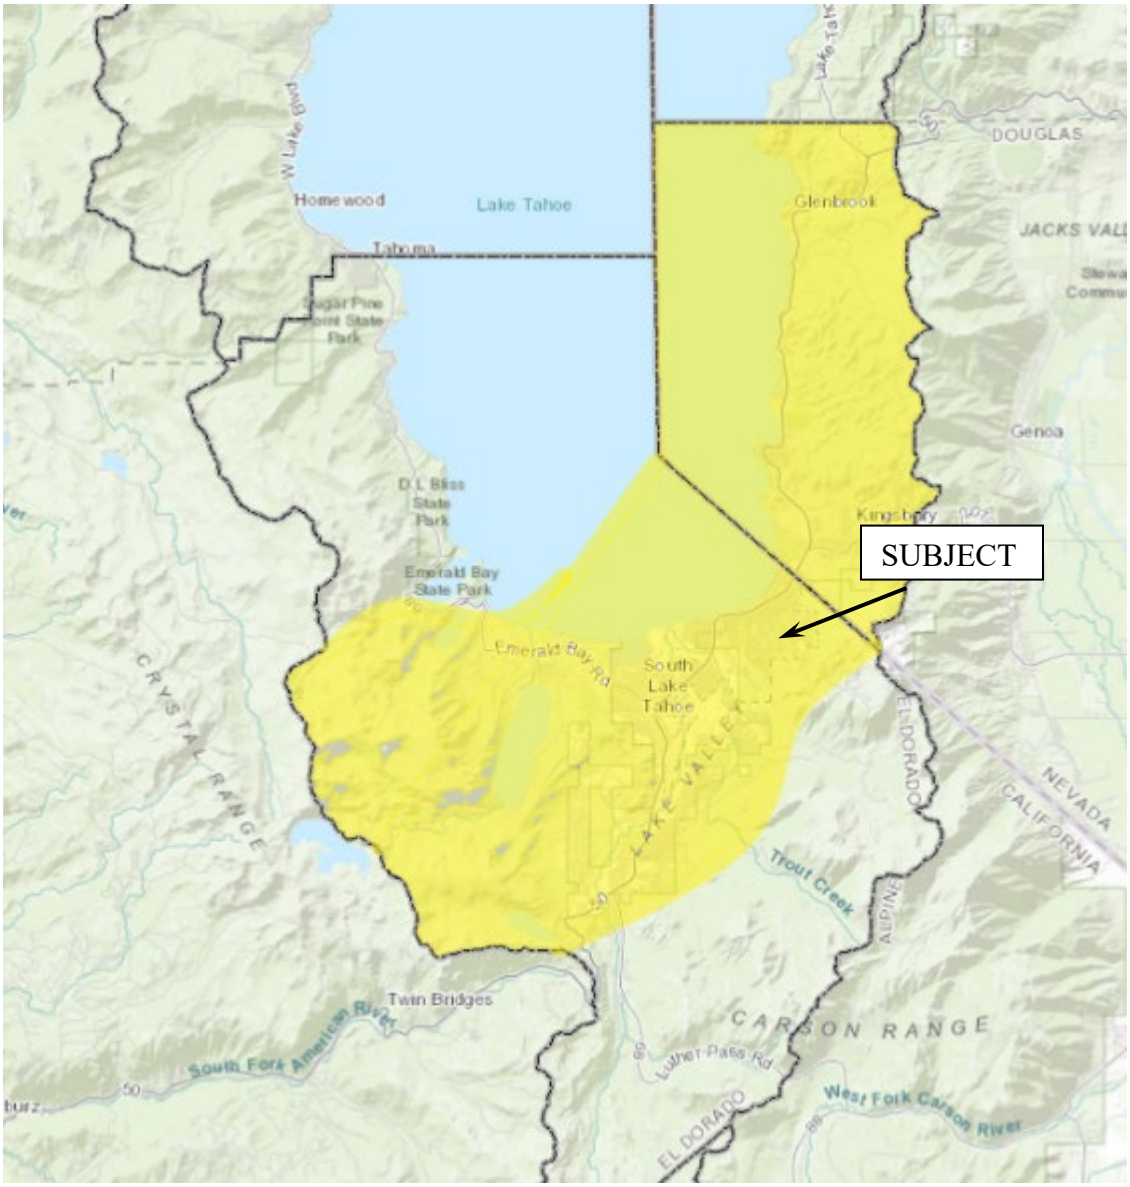
The Lake Tahoe is home to an estimated 54,000 year-round residents, yet a majority of private property owners are part-time residents. During the summer months the population is greater than 65,000. The last census count in 2020 listed a population of 51,842 people which was a 3.5% decrease from the 2010 census (53,709). Population growth in the basin is limited, in part due to restrictions on residential development, high housing costs as well as limits on job opportunities. The population is generally older in age when compared to either California or Nevada as a whole. Based on information from the American Community Survey in 2015 35.7% of the population was between the ages of 18-44 with 47.4% of the population aged 45 and older.

**Residential Real Estate Market**

The COVID-19 pandemic has had an acute impact on the housing market in the Tahoe Basin with sales and sale prices showing substantial increases beginning in July of 2020. The Lake Tahoe residential real estate market has benefited from the ability to work remotely and buyer's desire to live in less populated areas with an abundance of recreational offerings,

while still being within driving distance of the San Francisco Bay Area. Data from sales in the region show that individuals working in the tech industry represent approximately one third of homebuyers in the current market.

There are four Multiple Listing Services in the Lake Tahoe Region. The primary areas within the Lake Tahoe Basin which are covered by each service are as follows:



| | |
|---|---|
| South Tahoe Association of Realtors (STAR) | South Lake Tahoe (California) |
| Northern Nevada Regional MLS (NNRMLS) | South/South East Shore (Nevada) |
| Tahoe Sierra MLS | West Shore/North Shore (California) |
| Incline Village MLS | Incline Village (Nevada) |

Each region around Lake Tahoe has unique differences with their respective residential real estate offerings. Relevant facts and statistical information for the subject's region will be shown in the following section of this report.

**Conclusion**

In summary, the Lake Tahoe Basin is considered to be one of the most diversified year-round recreational resort areas in the western United States. Its dramatic setting, the pristine clarity of its waters, its favorable climate and its many varied recreational attractions endow it with unique characteristics.

## SOUTH SHORE LAKE TAHOE MAP

## SOUTH SHORE LAKE TAHOE DESCRIPTION

The subject's larger neighborhood is the South Shore portion of Lake Tahoe. The area is defined as the portion of the Lake Tahoe Basin extending from Emerald Bay and Meyers, California to the west and Glenbrook, Nevada to the east. A majority of the South Shore population is concentrated in the City of South Lake Tahoe which is the only incorporated town in the Lake Tahoe Basin. The focal points of the neighborhood are the Stateline tourist core area located on the Nevada side of the California-Nevada state line and the Heavenly Gondola area located just south of the casinos and the Highway 50 core as it extends to the west into South Lake Tahoe. The neighborhood incorporates two governmental jurisdictions. The northeasterly portion of the neighborhood is governed by the policies of Douglas County and the State of Nevada. The more southwesterly portion of the neighborhood is governed by the policies of the State of California, El Dorado County and the City of South Lake Tahoe. However, because of the close orientation of this area towards the Stateline tourist core, the entire neighborhood forms a homogeneous economic unit which distinguishes it from other adjacent areas.

Four major hotel/casinos are situated at the heart of the neighborhood. These include Harrah's, Harvey's, Ballys and the Golden Nugget Hotel. These four major hotel/casinos have a cumulative total of 2,293 hotel rooms and provide top name entertainment, gaming, gift shops, restaurants and other entertainment opportunities. In 2019 Harveys announced major capital improvements for 2019/2020 which totaled more than $41 million. These improvements included renovation of all 519 hotel rooms in the Lake Tower which was completed in the third quarter of 2020. The improvements also included new balcony suites, a new casino bar and lounge and the completion of Gordon Ramsay's Hell's Kitchen restaurant.

In June of 2019 Eldorado Resorts announced they were purchasing Caesars Entertainment in a cash-and-stock deal. The merger was completed on July 20, 2020. Eldorado Resorts owned MontBleu and Caesars Entertainment currently owns Harrah's and

Harveys. To satisfy federal antitrust enforcers, Eldorado Resorts announced in April of 2020 that it entered into a definitive agreement to sell MontBleu to Twin River Worldwide Holdings, now Bally's Corporation. This transaction was finalized in the first quarter of 2021. El Dorado Resorts (now operating as Caesar's Entertainment) has indicated they plan to make significant capital and operation upgrades to their newly Tahoe properties (Harrah's and Harvey's) over the coming years. Furthermore, MontBleu was recently rebranded Bally's Lake Tahoe. Capital improvement plans for this property are currently under development which will enhance the property and complement the Tahoe South Events Center which is under construction adjacent to the property. Hard Rock was purchased by Fertitta Entertainment and rebranded as a Golden Nugget in September of 2023, with the new ownership group indicating they plan to spend in the range of $200 million to renovate the property in the coming years.

Additionally, on the California side of the state line, there is a 399-room property called, formerly an Embassy Suites, that was sold in October 2021 for $86 million to Sodalite Tahoe Hotel LLC and was recently renovated and reopened as Margaretville Resort in the fourth quarter of 2023.

The Heavenly Ski Resort gondola, which opened in December 2000, is located approximately one block south of the Stateline casinos. The area between the casinos and Lake Tahoe is developed with the 18-hole championship Edgewood-Tahoe Golf Course and the new Edgewood Lodge (opened in June 2017). To the north of the golf course, there is a concentration of apartments, duplexes, and single-family residences.

The remainder of the subject neighborhood outside of the Stateline tourist core is developed with facilities oriented toward serving the tourist trade generated by the Nevada casinos, Heavenly Mountain Resort, and Lake Tahoe. The U.S. Highway 50 corridor, on the California side, is developed almost exclusively with motels and commercial facilities catering to the tourist trade. A portion of this section along the U.S. Highway 50 corridor on

the California side of the state line is a former redevelopment area that was completed between 2000 and 2005. The redevelopment project involved the Marriott timeshare and quarter share hotels, the Shops at Heavenly Village, Heavenly Gondola and Cecil's Fountain Plaza. At maximum capacity, the Gondola can carry 3,000 people an hour up the mountain and an equal number down the mountain. The gondola provides direct access to Heavenly Mountain Resort in the winter and to hiking trails in other seasons.

Heavenly Mountain Resort, reportedly incorporating one of the largest total acreages of any ski resort in the Western United States, is located at the southeast end of the subject neighborhood. In addition to the Gondola, access to the California side of Heavenly Ski Resort is via Ski Run Boulevard. The skiable terrain within the resort has a vertical drop of 3,500 feet with its longest run being 5.5 miles. Heavenly Mountain Resort was purchased in 2002 by Vail Resorts, the owner of five major ski resorts in Colorado. Since purchasing Heavenly in 2002, Vail Resorts has invested tens of millions of dollars in capital improvements to Heavenly Mountain Resort. Some of the capital improvements have already occurred with new restaurants, express chairs, etc. It should also be noted that Vail purchased Northstar Resort in 2010 and Kirkwood Mountain Resort in 2012.

In the subject neighborhood, U.S. Highway 50 (Lake Tahoe Boulevard) is a two-way, four-lane asphalt paved roadway, leading into the South Lake Tahoe area from Sacramento, California and points west. Also, U.S. Highway 50 connects South Lake Tahoe to Carson City, Nevada and other areas to the northeast. Portions of U.S. Highway 50 are improved with sidewalks, curbs, and gutters. The highway also incorporates a center turn lane and major intersections incorporate traffic signals. Pioneer Trail is the other major thoroughfare serving the subject neighborhood. This is a two-way, two-lane asphalt-paved roadway running to the east of U.S. Highway 50 and connects the Meyers area with the Stateline area. During the peak tourist season, traffic on U.S. Highway 50 in the subject neighborhood can become heavily congested. The US 50/South Shore Community Revitalization Project aims to reduce the congestion in the Stateline area of US 50 by redirecting the traffic around the

tourist core area at Stateline to achieve a pedestrian, bike, and transit-oriented corridor. In November of 2018 the Tahoe Transportation District secured approval of the final Environmental Impact Statement from the TRPA Governing Board, which will allow the project to move forward. The planning process began in January of 2019. Alternative B was selected which will route traffic from a new Pioneer Trail intersection, west of the existing intersection, proceeding south of the Village Center, Heavenly Village, and casinos, to end at a new two-lane roundabout at the existing US 50 intersection.

**Population**

The population of the South Shore area as of the 2020 Census is 36,065. A breakdown of the population from 2010 to 2020 is presented as follows:

| | Population | | |
|---|---|---|---|
| **Area** | **2010 Census** | **2015** | **2020 Census** |
| South Lake Tahoe Region | 36,170 | 34,770 | 36,065 |

SOURCE: South Shore Region Housing Needs and Opportunities – Oct 2019/US Census Bureau

As indicated, the population of the Lake Tahoe Region declined from 2010 to 2015 and has currently grown back to 2010 levels. About 83% of the South Shore population lives in California and about 66% lives within the City of South Lake Tahoe.

**Schools**

The South Lake Tahoe Unified School District operates four public elementary schools, one middle school and high school on the California side of South Lake Tahoe. There is also an alternative Continuation High School. The Douglas County School District operates a public elementary school and high school on the Nevada side of South Lake Tahoe. There was also a middle school that operated until 2008/2009 school year due to declining enrollment. Schol enrollment has been exhibiting a downward trend on the South Shore in the recent past due primarily to the high cost of living for a family.

**Employment/Wages**

About 26,880 jobs are in the South Shore region as of 2019[5]. A majority of these jobs are located on the California side. Many jobs in the area are seasonal with the peak being the summer months of June-August. The summer tourist season increases seasonal job availability by about 3,300 jobs and the winter ski season increases seasonal jobs by about 1,000.

The average wage in the South Shore area is $39,210. The largest sector of employment in the South Shore area is Accommodation and Food Services which account for 38% of jobs. The second largest sector is Administration and Support, Waste Management and Remediation which accounts for just over 10% of area jobs. All other sectors account for small portions of the area jobs.

The following table and graphs contain the historical labor market statistics for the City of South Lake Tahoe, which is the only incorporated town in the Tahoe Basin.

[5] South Shore Region Housing Needs and Opportunities Report Oct 2019

| City of South Lake Tahoe Employment Data | | | | |
|---|---|---|---|---|
| Year | Labor Force | Employed | Unemployed | Unemployme Rate (1) |
| 2010 | 12,000 | 10,400 | 1,600 | 13.40% |
| 2011 | 11,800 | 10,300 | 1,500 | 12.9% |
| 2012 | 11,600 | 10,400 | 1,300 | 11.2% |
| 2013 | 11,600 | 10,500 | 1,100 | 9.4% |
| 2014 | 11,700 | 10,800 | 900 | 7.7% |
| 2015 | 11,600 | 10,900 | 700 | 6.3% |
| 2016 | 11,800 | 11,200 | 600 | 5.3% |
| 2017 | 11,800 | 11,300 | 500 | 4.1% |
| 2018 | 12,500 | 11,900 | 500 | 4.2% |
| 2019 | 12,700 | 12,200 | 500 | 4.0% |
| 2020 | 13,000 | 11,500 | 1,400 | 10.9% |
| 2021 | 13,700 | 12,900 | 800 | 6.0% |
| 2022 | 13,100 | 12,700 | 400 | 3.1% |
| 2023 – Dec | 13,100 | 12,600 | 500 | 4.1% |

(1) Calculated based on non-rounded figures Source: California Employment

As indicated, the City's unemployment rate is presently 4.1 which indicated a very healthy labor market. The economy of the Lake Tahoe Basin is subject to seasonal fluctuations, with the heaviest tourist trade occurring during the summer and winter months.

**Development**

Over the last approximate 30 years, government officials and the general public have recognized a need to rehabilitate many of the older commercial corridors within the Tahoe Basin, particularly in South Lake Tahoe. Since the early 1990s, there have been many new buildings constructed, some of which involved assistance from government entities. At the present time there are various projects that have been constructed or are proposed. Some of the larger redevelopment projects at Lake Tahoe that have been constructed and are proposed are set out as follows:

**Highlight of Recent Projects/Proposed Projects**

The Chateau at Heavenly Village is an 11.53± acre site located adjacent to Harvey's Resort Hotel and Casino, on the south shore California side of the lake. The plans call for a convention center, two condominium hotels, specialty retail space, subterranean parking, nightclub, and a health spa. Owens Realty Mortgage (recently merged with Ready Capital) constructed 23,000± square feet of specialty retail space, which opened in the summer of 2014. The first phase retail achieved a stabilized occupancy and the second phase that consists of 30 residential condominiums (known and Zalanta) and about 20,000 square feet of specialty retail space was completed in May of 2017. The residential inventory has been sold.

Edgewood Tahoe has completed construction of a new resort hotel along the ninth hole of the Edgewood Golf Course, which is north of the casinos and extends along the lake shore and is called the Edgewood Tahoe Lodge. This resort features 154 luxury lodging units and accessory amenities of a restaurant, lounge, spa, etc. The hotel opened in June 2017.

The Tahoe Beach Club is located at the terminus of Kahle Drive in Stateline, Nevada. The owners commenced construction on the first phase of 143 single family townhome units along the shores of Lake Tahoe in August 2016. The first phase of the project includes 46 units and a luxury clubhouse and fitness center of approximately 30,000 square feet. All of the units in the first phase of the development have been completed and sold. The developer reports to presently have contracts with 20% deposits for almost all of the units under construction in Phase 2 and completed the first eight plex in December of 2023.

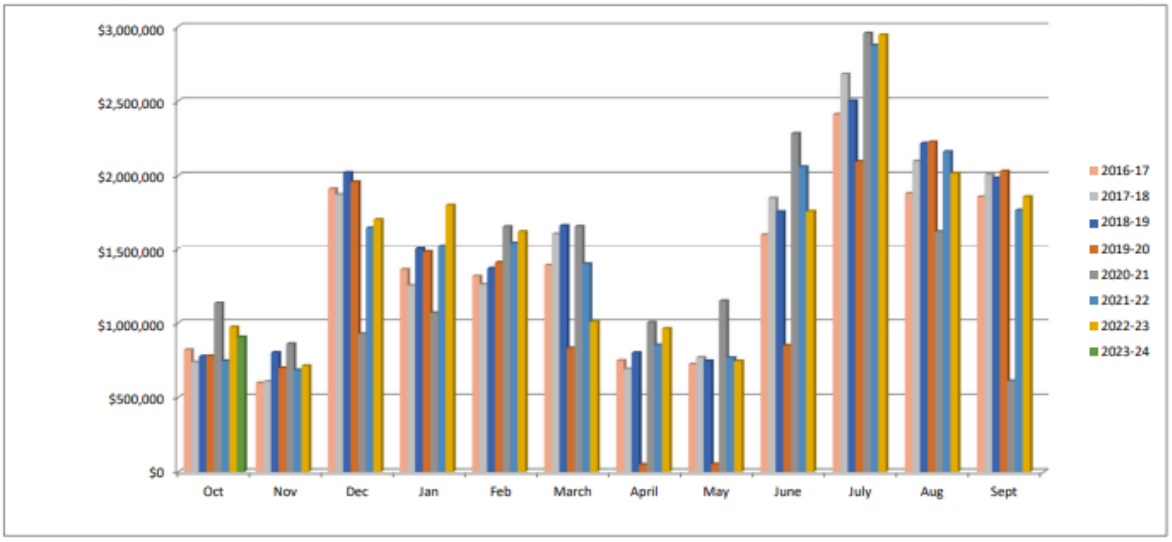
Bijou Market was formerly the Knights Inn, located at the corner of Herbert and Lake Tahoe Boulevard. The Knights Inn was sold and demolition commenced in the summer of 2017. A Whole Foods 365 Store of about 17,500± square feet was constructed on the site and opened in November of 2019. Additionally, other retail components in the center include Chase Bank, Panda Express, Chipotle and Five Guys.

Gondola Vista is a 20-unit townhouse development on a four-acre site that was recently completed at 30 Lake Parkway Drive under the Heavenly Mountain Gondola to the east of the Tourist Core. Residences range in size from 2,870± to 3,616± square feet. Construction commenced in the summer of 2017 and was completed in the second quarter of 2019. Currently finished units are available as vacation rentals.

323 Residences is located on Tramway Drive near Daggett Summit on the east shore of Lake Tahoe. The property is located about 0.5± miles from the Stagecoach Lodge of Heavenly Mountain Resort. The property includes a concrete foundation and skeleton structure of three levels of a proposed five level building. The property was foreclosed on by Bank of America in March of 2012 and resold in the spring of 2015. The project plans to include 49 residential condominiums and is presently under construction.

Sierra Colina is a 44 unit attached and detached residential subdivision located to the south of Lake Village that commenced vertical construction in the spring of 2018. This site remains under development in a phased development approach. The finished inventory has been well received in the market.

The Tahoe South Event Center is a project is a recently completed138,000 square foot 6,000 seat center for performances, trade shows, ice shows and sporting events. The center is located in the current parking lot of Ballys Casino on the corner of Highway 50 and Lake Parkway in Stateline, Nevada. On March 25, 2020, the TRPA's Governing Board unanimously approved the $100 million project. Douglas County approved the center in April of 2020 and the Tahoe Douglas Visitors Authority. The project broke ground in July of 2020 with horizontal infrastructure improvements. The building was completed and opened in September of 2023.



**Tourist Accommodations**

The lodging market within the Tahoe Basin is very seasonal. The summer season is the busiest time of year due to the cool summer temperatures, numerous outdoor activities, and the casinos. Occupancy levels in the overall market during July and August are approximately 80% to 90%. The winter months are also a busy time of year, with the highest occupancy levels on the weekends and holiday weekends. However, during the shoulder months of October, November, most of December, part of April, May, and the first half of June, occupancy levels typically drop significantly.

The Transient Occupancy Tax Collected, which is a percentage of total revenue from hotel rooms and vacation rentals, for South Lake Tahoe is presented as follows[6]:

**City of South Lake Tahoe**
**TOT Collected**
**(Excluding audit collections and 2% Measure P TOT)**

| | Oct | Nov | Dec | Jan | Feb | March | April | May | June | July | Aug | Sept | Year to Date Total |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 2016-17 | $819,179 | $596,552 | $1,909,793 | $1,358,224 | $1,313,140 | $1,385,566 | $747,178 | $722,225 | $1,602,262 | $2,410,778 | $1,878,524 | $1,856,492 | $16,599,915 |

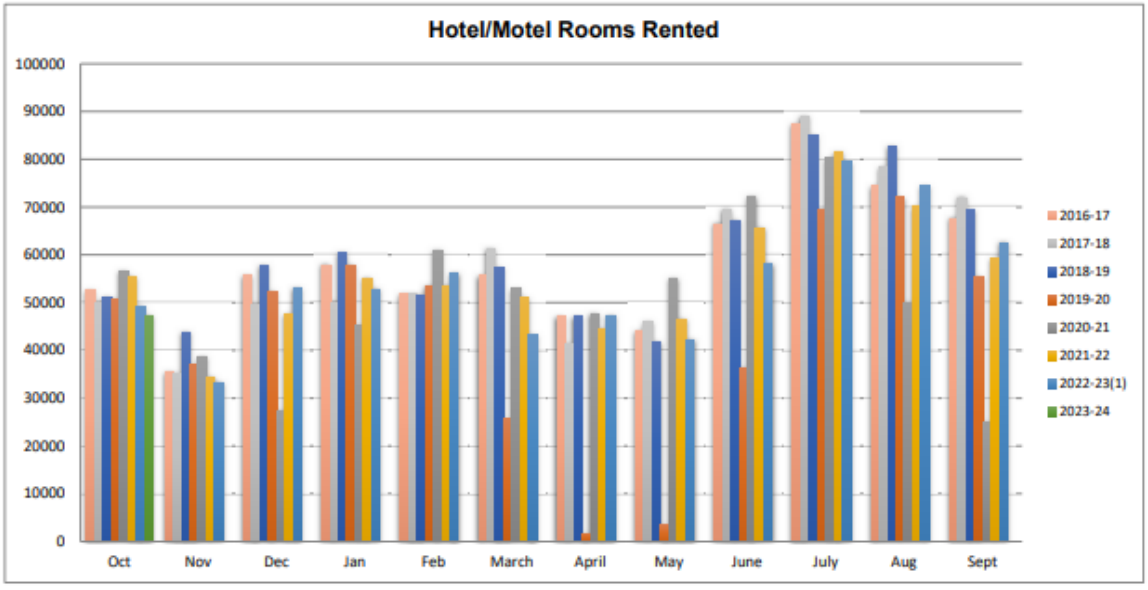
[1] August and September 2021 reflect loss of TOT due to Caldor fire.



[6] Latest available data.

As indicated, there had been an increasing trend in TOT revenue in South Lake Tahoe from 2016-17to 2018-19. Revenues drastically dropped in March of 2020 due to the COVID-19 pandemic when stay at home orders were given. With many restrictions lifting in June 2020, the TOT revenue started to rebound and was 48% of what it was in June of the prior year. TOT revenues have been relatively stable in the last two years.

The number of hotel room nights rented in South Lake Tahoe from the 2016-17 fiscal year to current is presented as follows:

**City of South Lake Tahoe**
**Rooms Rented**

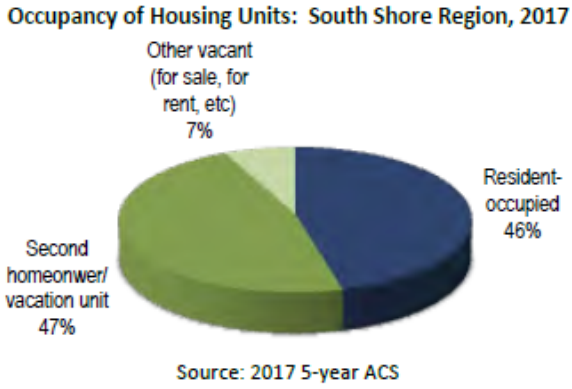
| | Oct | Nov | Dec | Jan | Feb | March | April | May | June | July | Aug | Sept | Year to Date Total |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 2016-17 | 52,485 | 35,490 | 55,715 | 57,917 | 51,771 | 55,719 | 47,012 | 43,964 | 66,485 | 87,416 | 74,401 | 67,608 | 695,983 |
| 2017-18 | 50,057 | 35,157 | 49,640 | 50,056 | 51,774 | 61,383 | 41,315 | 45,832 | 69,390 | 89,070 | 78,397 | 71,955 | 694,026 |
| 2018-19 | 51,115 | 43,850 | 57,807 | 60,319 | 51,675 | 57,424 | 47,020 | 41,658 | 67,046 | 85,023 | 82,754 | 69,244 | 714,935 |
| 2019-20 | 50,619 | 36,938 | 52,338 | 57,754 | 53,535 | 25,684 | 1,738 | 3,571 | 36,328 | 69,277 | 71,988 | 55,306 | 515,076 |
| 2020-21 | 56,518 | 38,692 | 27,451 | 45,181 | 60,917 | 52,912 | 47,625 | 54,890 | 72,032 | 80,244 | 50,100 | 25,008 | 611,570 |
| 2021-22 | 55,285 | 34,462 | 47,622 | 55,046 | 53,547 | 51,131 | 44,389 | 46,416 | 65,457 | 81,515 | 70,089 | 59,175 | 664,134 |
| 2022-23[1] | 49,244 | 33,334 | 53,118 | 52,803 | 56,145 | 43,335 | 47,226 | 42,204 | 58,047 | 79,431 | 74,414 | 62,535 | 651,836 |
| 2023-24 | 47,224 | | | | | | | | | | | | 47,224 |

[1]March 2023 room occupancy was impacted by severe winter storms and weather-related travel restrictions.

As indicated, the number of room nights rented is highest in June, July, August and September and is lowest April, May and November. Room nights rented followed the same trend as the TOT revenue as a result of the COVID-19 pandemic. Total room nights declined slightly in the 22/23 fiscal year.

In general, the older motels in the Tahoe Basin are most affected by the seasonal demand base. These facilities have been achieving occupancy levels as low as 30% to 35% annually, or less. On the other hand, the higher quality lodging properties that are well managed are able to achieve much higher annual occupancies.

**Marinas/Gaming**



There are also numerous marinas along the shores of Lake Tahoe, most of which offer a complete line of power and sailboat rentals, as well as water skis and equipment. Several of these marinas operate regularly scheduled or charter boat cruises around the lake, including dinner, sunset, and cocktail cruises.

Due to strict environmental standards, it is highly unlikely that a new marina would be approved within the Lake Tahoe Basin. Accordingly, the existing marinas operate with low vacancy factors during the summer months. During the winter months, Tahoe marinas either cease or greatly scale back operations.

Legalized gaming also attracts thousands of tourists each year. The major concentration of hotel/casinos is located at the southeast end of the lake at Stateline, Nevada. The four major hotel/casinos at this location include Harrah's, Harvey's, Golden Nugget, and Ballys. Until 2010, Bill's Casino was owned by Harrah's. Harrah's sold it to an investor that has since remodeled it for CVS Pharmacy and other smaller tenants. The former casino building is adjacent to Harrah's. Gaming revenue in the Tahoe Basin has been depressed over the last two decades. This is primarily attributable to Indian gaming in northern California and lack of capital expenditures for remodel or renovation. In discussions with gaming operators and developers, any redevelopment plans in the future will feature gaming as an amenity, but not the main attraction.

**Housing Market**

The supply of housing units in the South Shore Region is about 32,150. 81% of these units are located on the California side. The occupancy of these units is summarized as follows, based on data reported in the South Shore Region Housing Needs and Opportunities Report.

In 2019 about 46% of the housing units are resident occupied and about 47% are used as second homes of vacation homes.

The majority of housing units are detached single family homes which comprise of about 75% of the stock. Multifamily units are about 18% of the stock and about 6% are mobile homes. A majority of the housing units are older, with very limited new construction over the last 30 years due to the growth limitations implemented by the TRPA in 1987. Due to the age of many of the housing units there is a high proportion of them in fair to poor condition. The below chart summarizes the year built of the housing stock in the South Shore Region.

Age of Units: 2019

| | South Shore |
|---|---|
| Since 2010 | 3% |
| 2000-2009 | 7% |
| 1990-1999 | 7% |
| 1980-1989 | 10% |
| 1970-1979 | 33% |
| Prior to 1970 | 40% |
| Estimated Units | 32,150 |

**Residential Real Estate Market**

From 2002 to mid-2006, the residential real estate market experienced significant appreciation. Between 2006 and 2007, the real estate market began to exhibit signs of softening. In 2008 through 2011, the market experienced a significant downturn, which paralleled trends throughout the country. In 2013, residential prices began to appreciate and that has continued through 2022. The South Lake Tahoe Board of Realtors has collected the following data for the California side of the Lake Tahoe Basin.:

**El Dorado County Portion of Lake Tahoe Basin**
**Single-Family Residential Sales**

| Year | Number of Sales | Median Sale Price | % Change | Median Sale Price/SF | % Change | Average Sales Price | % Change | Average Sales Price/SF | % Change | Total Sales Volume | % Change | Average Marketing Time |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 2007 | 379 | $450,000 | | $311.80 | | $587,800 | | $349.29 | | $222,776,075 | | 154 Days |
| 2008 | 358 | $407,000 | -9.6% | $271.89 | -12.8% | $517,817 | -11.9% | $289.98 | -17.0% | $185,378,602 | -16.8% | 170 Days |
| 2009 | 449 | $319,000 | -21.6% | $219.72 | -19.2% | $421,983 | -18.5% | $236.85 | -18.3% | $198,470,217 | 7.1% | 158 Days |
| 2010 | 514 | $319,500 | 0.2% | $198.85 | -9.5% | $414,606 | -1.7% | $217.20 | -8.3% | $213,107,415 | 7.4% | 165 Days |

Total sales volume in the area greatly increased in 2020 due to demand generated by the COVID-19 pandemic. Sales volume increased by 69.5% on the California side of South Shore, and by 62.8% on the Nevada side. High demand and low supply have driven average prices up in 2021 and 2022. Real estate agents indicate the number of sales and sales volume is beginning to decrease due in part to a lack of available supply of units for sale and partly due to the high prices being out of the range of a portion of the buyer pool. Most agents indicate that they feel prices have stabilized at the present time due to headwinds created by higher interest rates and general economic uncertainty.

**Conclusion**

In summary, the South Shore area's population is concentrated in the City of South Lake Tahoe on the California side and the Stateline areas on the Nevada side. A majority of the area jobs are in the hospitality sector. A number of projects have been recently completed in the area with will upgrade the "Tahoe Experience," particularly for the more affluent destination resort visitor. Additional proposed redevelopment projects are moving forward with the goal of promoting year-round economic vitality. The Tahoe region has seen a high number of new market participants emanating from the California metropolitan areas. The ability to work remotely in a recreational and outdoor setting is one of the primary motivations of the new buyers driving the market. In 2023, the housing market showed signs of stabilizing and the number of sales has decreased and price appreciation moderating due to higher interest rates and general economic uncertainty.

## SUBJECT PROPERTY IDENTIFICATION AND DESCRIPTION

| | |
|---|---|
| **Assessor's Parcel Number** | 027-161-030-000 |
| **Property Address** | 1195 Ski Run Boulevard, South Lake Tahoe, El Dorado County, California |
| **Owner of Record** | SkiRunPark, LLC |
| **Land Area** | 0.574± acres (25,003± square feet) |
| **Improvements** | Streetscape along Ski Run Boulevard and Community Park presently being constructed on-site |

**Legal Description**

The Land Described Herein Is Situated In The State Of California, County Of Eldorado, City Of South Lake Tahoe, And Is Described As Follows:

Lots 1, 2 ,3 ,23 and 24, Block 28, of Bijou Park Addition, filed December 31, 1932, in Book A of Maps, at Page 18, El Dorado Records.

| | |
|---|---|
| **Property Shape** | Irregular |

**Property Dimensions**[8]

| | |
|---|---|
| Ski Run Boulevard Frontage | 200± feet |
| Spruce Avenue Frontage | 150± feet |
| Willow Avenue Frontage | 100± feet |

**Land Coverage**

The Bailey system is applied to all commercial and multi-family properties and all residential properties that were improved prior to July 1, 1987 in the Lake Tahoe Basin. The US Forest Service and TRPA developed the Bailey land capability system in the early 1970s based primarily on the official USDA soils maps for the Tahoe Region. Each soil type was assigned to a land capability class ranging from 1 to 7, with capability 1 being the most environmentally fragile and sensitive to development. Wherever land was found to be influenced by a stream or high groundwater, it was assigned to capability 1b, also known as Stream Environment Zone, or SEZ.

TRPA and the Natural Resource Conservation Service have continued to survey soil types around Lake Tahoe and are updating the original Bailey classifications. Applying for a

[8] The North and East Parcel dimensions are based upon data from the El Dorado County Assessor's Office and are assumed to be correct.

Land Capability Verification is often the best way to find out how much coverage is allowed on residences built before 1987 and on all commercial and multi-family parcels.

| Lands Located in Land Capability District | Base Coverage |
|---|---|
| 1a, 1b, 1c | 1% |
| 2 | 1% |
| 3 | 5% |
| 4 | 20% |
| 5 | 25% |
| 6, 7 | 30% |

As applied by TRPA and other regulatory agencies, the Bailey system prohibits new development on all capability 1 through 3 parcels, and restricts the amount of coverage (i.e., pavement and building footprint) that can be placed on capability 4 through 7 parcels. For parcels with Bailey scores 1 through 3, TRPA created a program for the transfer of development rights to other, less sensitive parcels. In this way, development can be moved away from the most sensitive areas and property owners can still realize value from their land.

The subject property is located in potion of Class 1B and Class 5 soils. The subject property was previously improved with a motel. Safeway purchased the property in 1999 and subsequently demolished the improvements, banked the existing TRPA development resources (Land Coverage and TAU's that were converted to CFA) and then transferred the vast majority of the development rights off the site. As part of the approval to transfer the development rights from the site, the property was deed restricted to prohibit the transfer back of land coverage, CFA or TAUs to the subject site. Subsequently, the subject property was purchased by the current owners in 2021 for the proposed development of a community park. In 2022, the City of South Lake Tahoe and TRPA approved the proposed use. The permit specifically authorizes the construction of a day-use area (Ski Run Community Park). The parcel is located in the Tourist Core Area Plan Town Center Mixed-Use District and is zoned as Tourist. Day-use areas are allowed in the district. The project application and plan set are contained within TRPA and City of South Lake Tahoe File # 22-004.

Subsequent to the approval for development of the Ski Run Community Park, TRPA authorized modification of the prior deed restrictions to allow for land coverage to be returned to the portion of the property mapped as Land Capability District 5 District for use in development and operation of the Ski Run Community Park.

TRPA's records reflect the Subject Property has the following land coverage rights appurtenant to the site at the present time:

| Development Right | Land Capability | Verified Physical Inventory | Remaining Base Allowable / Potential | Remaining Banked Quantity |
|---|---|---|---|---|
| | | | | |
| Coverage (hard) - ft2 | Bailey 5 | 23 | 0 | 1,115 |
| Coverage (hard) - ft2 | Bailey 1b | | 0 | 309 |

In aggregate, the subject has 1,447± square feet of allowable land coverage.

The proposed coverage for the development of Ski Run Community Park is presented as follows:

| | Proposed Coverage |
|---|---|
| Concrete Paving | 298 SF |
| Permeable Pavers | 634 SF |
| CIP Concrete Band | 335 SF |
| Miscellaneous Structures | 180 SF |
| Total New Coverage | 1,447 SF |

This existing available land coverage of 1,147± square feet is equal to the proposed land coverage of 1,447± square feet.

This report is predicated upon the hypothetical condition that the Ski Run Community Park, that is presently under development, is 100% complete pursuant to approvals, plans and specifications as of the date of valuation.

**Hazardous Materials**

During the course of my on-site inspection of the subject property, I found no evidence suggesting the existence of hazardous substances. However, it should be noted that the undersigned is not qualified to detect hazardous waste and/or toxic materials. The value estimates derived in this report are based upon the assumption that there is no soil or water contamination or hazardous materials stored on the subject property.

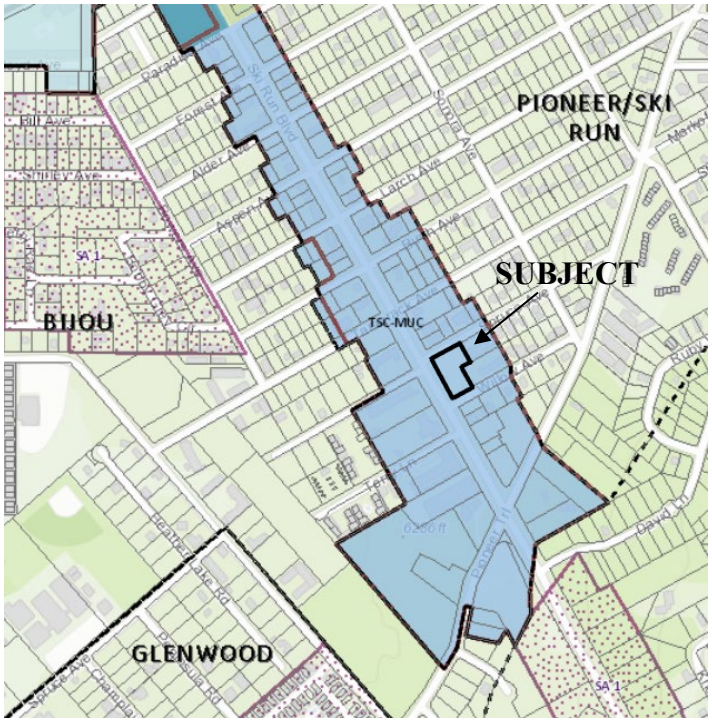
**Tourist Accommodation Units (TAUs) / Residential Units of Use (RUUs)**

Like CFA and land coverage, the number of Tourist Accommodation Units (TAUs) and Residential Units of Use (RUUs) allowed within the Lake Tahoe Basin is strictly regulated. TAUs refers to the number of units in a hotel, motel, timeshare, bed and breakfast, or inn that can be rented by the day or week and occupied on a temporary basis (Ch. 90 Definitions, TRPA Code of Ordinances). RUUs refer to the number of residential units that can be occupied. TAUs and RUU's are a marketable development right and can be sold within the Lake Tahoe Basin.

Previously this property was verified with 28 TAU's and 1RUU (TRPA File No 990697). These units were demolished in the late 1990s and the development rights were converted to 12,352 sf of CFA and banked on the site with the intention of transferring off-site the banked CFA Rights, a portion of which were intended to be transferred to the Safeway Property located at 1040 Johnson Boulevard for use in a planned expansion and renovation of the supermarket. It is my understating that the subject property does not have currently have any TAUs or RUUs appurtenant to the site.

**Commercial Floor Area (CFA)**

Commercial Floor Area (CFA) is an entitlement in the Tahoe Basin. CFA is defined by TRPA as the gross square footage of floor area within the outer wall of a commercial building, not including stairwells and airshafts (Ch. 90 Definitions, TRPA Code of Ordinances). The square footage of other facilities related to the commercial building, including but not limited to decks that are designated for commercial use under a permit, shall be considered CFA.



In previous years, the Community Plans had a CFA pool available that was administered by the respective counties in the Basin. All of the available CFA within these pools has already been allocated to commercial development projects. Therefore, any new development that requires CFA must be purchased in the open market from property owners that control a banked supply of CFA that originated from commercial structures that have subsequently been demolished.

When the former motel located in the subject property was demolished, the property owner converted the TAU/ERU rights. The TAU/ERU rights were converted to 12,352± square feet of CFA and banked on the site in January of 2000. Subsequently, in three separate transfers, 12,096± square feet of CFA was transferred off the subject site. These three

transfers occurred in 2000, 2005 and 2006[9]. The subject has 256± square feet of CFA remaining banked on the subject site (12,352± square feet of banked CFA less 12,096± square feet that was subsequently transferred off the site). Conditions of the three transfers of the CFA rights from the subject site effectively preclude CFA rights from being transferred back to the subject site.

**Zoning**

| | |
|---|---|
| TRPA/City of South Lake Tahoe | Tourist Core Area Plan |
| Zoning District | TSC-MUC (Tourist Center Mixed Use Corridor) |

Land use in the Lake Tahoe Basin is regulated by both the Tahoe Regional Planning Agency and local city and county authorities. The subject property is located within the Tourist Core Area Plan which was approved by the City of South Lake Tahoe on October 14,

[9] 2,643± square feet of CFA was transferred to APN 027-180-19. 8,284± square feet of CFA was transferred to APN 023-430-30 and 1,169± square feet of CFA was transferred to APN 026-221-33.

2013 and by the TRPA Governing Board on November 20, 2012. The planning statement for Tourist Core Area Plan indicates that it "encourages general improvement of the built environment. It provides a framework that will change the existing conditions into opportunities for redevelopment with a focus on achieving on the ground environmental improvements consistent with the City's General Plan and environmental threshold goals of the 2012 regional plan."

The subject property is located with the area designated Tourist Center Mixed Use Corridor (TSC-MUC). "This district is intended to support Ski Run Boulevard as a multi-modal, mixed-used corridor with a wide array of uses that encourage pedestrian activity. Permissible uses include a rich mixture of employment services, professional offices, commercial, public service, recreation, tourist accommodation and residential organized around an aesthetically-pleasing pedestrian environment." Permissible uses include tourist accommodation, retail commercial, entertainment, restaurants, recreation and mixed-use residential development." Economic allowed uses are summarized as follows:

**Residential**

- Employee Housing
- Multiple Family Dwelling
- Single Family Dwelling (includes condominiums)

**Tourist Accommodation**

- Hotel, Motel, Other Transient Dwelling Units
- Bed & Breakfast Facilities
- Timesharing

**Retail Commercial**

- General Retail and Personal Services
- Nursery
- Eating and Drinking Places

**Service Commercial**

- Healthcare Services
- Professional Offices

**General Public Service**

- Daycare Centers/Preschool

- Government Offices
- Local Public Health and Safety Facilities
- Social Services Organizations

**Recreation**

- Day Use Areas

In addition, Resource Management and Open Space uses are also allowed. Various other uses are allowed with a Special Use Permit. The minimum lot size is 10,000± square feet, with a minimum lot width of 80± feet and a minimum lot depth of 100± feet. The maxim density for employee housing family is 15 units per acre. The maximum allowable density with multi-person dwellings is 25 units per acres. The maximum density for tourist accommodation units (dwelling units/acre) is 40 units. The maximum building height is 56 feet with a maximum of four stories. The front yard setback is 20 feet (from back of curb), the side street setback is 20 feet (from back of curb) and the rear yard setback is 10 feet. The effect of zoning on the subject property will be discussed in the Highest and Best Use section of this report.

The subject is presently approved to be developed with a public park, which is classified as a Day Use Area. The zoning code defines Day Use Area as "Land or premises, other than Participant Sports Facilities, designated by the owner to be used by individuals or the general public, for a fee or otherwise, for outdoor recreation purposes on a daily basis such as regional and local parks, picnic sites, vista points, snow play areas, rafting facilities, and playgrounds."

**Approvals**

The subject property has approvals from the City of South Lake Tahoe and TRPA as part of File # 22-004 for constructing a community park that will be donated to the City. The proposed project is the construction of a community park including play equipment, turf, gathering space, mural wall, climbing boulder, hill slide, swings, benches, and a community table. The project also includes enhancing a historically non-functioning stream environment zone that is located on the parcel.

On June 15, 2021, The City accepted the donation and entered into a Memorandum of Understanding with the Friends of Ski Run, a California non-profit public benefit corporation, to collaboratively identify and implement improvements related to the construction, maintenance, and preservation of the community park. Upon completion, the City is responsible for the operation and maintenance of the park and will be given fee title to the property.

**Topography**

The majority of the property enjoys basically level topography and is at street grade.

**Flood Zone**

According to the Federal Emergency Management Agency's Flood Insurance Map Community Panel Number 06017C0380F effective April 3, 2012, the subject property is located in Flood Zone X. Flood Zone X refers to areas which are determined to be outside of the flood plain. Federal flood insurance is not required for properties located within Flood Zone X.

**Earthquake Zone**

According to the most recent Edition of the Uniform Building Code, the subject property is located in Seismic Risk Zone 3. This zone encompasses areas which have a number of local faults and where there is a relatively strong probability of moderate to strong seismic activity. I have not seen any hazard maps relating to the subject ownership specifically and could find no evidence that the property would experience any greater seismic activity than is typical for the area.

**Access and Exposure**

The subject parcel has approximately 200± feet of frontage along Ski Run Boulevard. This is a secondary commercial artery that is the main route from U.S. Highway 50 to the Heavenly Mountain Resort's California Base Lodge. The subject parcel also has 150± feet of frontage along Spruce Avenue and 100± feet of frontage along Willow Avenue. Both Spruce Avenue and Willow Avenue are paved two-lane, two-way residential streets. Overall, the subject is considered to have good access and good exposure.

**Utilities**

All utilities, including electricity, natural gas, water, sewer, telephone, and cable television, are immediately available to the subject property.

**Surrounding Development**

Surrounding development is primarily single-family residences, apartment buildings, vacant lots and various commercial properties including restaurants and hotels/motels along Ski Run Boulevard. The Heavenly Ski Resorts California Base Lodge is located just under a mile from the subject. Lake Tahoe and the Ski Run Marina are located a mile to the north of the subject and the Stateline Casinos are about 1.5 miles away. Overall, the subject property is located in a fairly central location with many popular attractions in the South Lake Tahoe area a short distance away.

**Easements, Encumbrances and Restrictions**

The subject property is encumbered with deed restrictions as a result of TRPA's approval to bank and transfer land coverage and commercial floor area off the subject site. These restrictions are discussed in greater detail herein.

I was not provided with a preliminary title report for the subject property. This appraisal is predicated upon the assumption that aside from the aforementioned deed restrictions, the subject is not materially affected by any exceptions to title that are not typical similar properties in the subject neighborhood.

**Parking**

As part of the development of Ski Run Community Park, one new ADA parking space along Ski Run Boulevard was installed. There is on-street parking available within the City right-of-way along Ski Run Boulevard, Spruce Avenue and Willow Avenue. The community park is intended to serve the surrounding residential neighborhood, and it is expected that most visitors will either bike or walk to the community park. Additionally, there is a transit stop located on Ski Run Boulevard in front of the proposed community park.

**Best Management Practices (BMP)**

The TRPA permit for the subject's proposed project has been conditioned to require the permittee to submit BMP plans with the Building Application for review by the Planning Division, Parks and Recreation Department and Stormwater Coordinator. It is assumed that in the hypothetical 100% complete state that the subject will be BMP compliant.

**Encroachments**

Based on my inspection, the subject property does not appear to be affected by any encroachments.

**Subject's Sales History**

The subject property was purchased by the current owners on June 11, 2021 (Document 39208) for $45,000. The Grantor was Safeway, Inc. The Grantee was Skirunpark, LLC. The Client provided a copy of the purchase and sale agreement and presented this purchased to be between a willing buyer and a willing seller. The property was vacant at the time of sale. At the time of sale, the subject property had 332± square feet of allowable land coverage. It is the understanding of the undersigned that this small amount of land coverage was required to remain on the subject site for use in existing streetscape and cannot be transferred from the subject site. Subsequent to the sale, the deed restrictions related to the transferring additional coverage to the subject site were modified by TRPA to allow for up to 1,447± square feet of land overage on the subject site and this coverage was

transferred to the property. Therefore, the subject was materially enhanced subsequent to the June 11, 2021 sale of the property and the sale price is not probative of the current market value of the property.

Previous to the June 11, 2021 sale of the subject property, the property was owned by Safeway Inc. since 1999. Subsequent to the sale in 1999 the subject's prior improvements were demolished and the site was restored to a natural state. Almost all of the subject's banked land coverage and Commercial Floor Area was transferred off the site in 2000 to 2006. Prior to the 1999 sale the property was sold in 1990 for a reported sale price of $172,500.

To the best of the knowledge of the undersigned, the subject property is not presently listed for sale on the open market, nor has it been at any point in the proceeding 12-months.

**Tax and Assessment Data (2023-24)**

The subject's 2023-2023 assessed values and resulting real property taxes are as follows:

ORIG ASMT: 027-161-030-000 K. E. Coleman, MBA

According to the El Dorado County Treasures Office, as of the date of valuation of this report, there are no unpaid property taxes owing against the either subject property.

Following the enactment of Proposition 13 in the State of California, the assessed value of a property is equivalent to the Assessor's opinion of its taxable value as of a base year, plus annual increases not to exceed 2%.

**Summary**

The subject property involves a 0.574± acre (25,003± square foot) parcel located at 1195 Ski Run Boulevard in the City of South Lake Tahoe. The parcel involves basically level topography and is at street grade. The parcel is located in the Tourist Center Mixed Use District along Ski Run Boulevard between Spruce Avenue and Willow Avenue. The surrounding development is primarily single-family residences, apartment buildings, vacant lots and various commercial properties including restaurants to the north along Ski Run Boulevard. The subject property has had almost all its land coverage and development resources transferred off the site and the property has been deed restricted to effectively prevent land coverage or other development resources from being transferred back to the site. The subject was purchased in 2021 for development of a Community Park and TRPA modified the existing deed restrictions to allow for transfer of land coverage back to the site that was necessary for construction of the approved public park on the site.

Overall, the subject property is considered to feature a desirable location in the central portion of town with direct access from Ski Run Boulevard however, most economic uses of the site are precluded by the deed restrictions against the property resulting from the past transfer of land coverage and development resources from the site.

**IMPROVEMENTS UNDER CONSTRUTION**
**Ski Run Community Park**

The subject is presently being developed with a community park including play equipment, turf, gathering space, mural wall, climbing boulder, hill slide, swings, benches, and a community table. The project also includes enhancing a historically non-functioning stream environment zone that is located on the parcel.

The site plan for the project under development is presented as follows:

The improvements are presently under construction and expected to be completed in the summer of 2024.

The total expected cost for development of the park is summarized as follows

| Budget Item | | UPDATE DEC 2023 |
|---|---|---|
| | | |
| *Design Phase Subtotal* | | 0 |

## HIGHEST AND BEST USE ANALYSIS

Highest and best use is defined as the most reasonable and probable use that supports the highest present value of the vacant land and/or improved property, as defined, as of the effective date of valuation. Implicit in this definition is that highest and best use must be physically possible, legally permissible, economically feasible and maximally productive. In this analysis the subject site, in its hypothetical as improve state is being addressed. The highest and best use analysis as if vacant will be considered first, followed by the highest and best use in the hypothetical as complete.

**As Vacant**

The subject site involves a 25,003± square foot site located at 1195 Ski Run Boulevard. The property has 200± feet of frontage along Ski Run Boulevard, 150± feet of frontage along Spruce Avenue and 100± feet of frontage along Willow Avenue. The subject property involves basically level topography. The subject is located in class 1B soils. The property enjoys very good access and exposure. All utilities are reasonably available to the subject site. The property is located along the U.S. Highway 50 commercial corridor with surrounding development including commercial, tourist accommodation, retail and recreation uses. Overall, the site is physically suitable for development.

*Legally Permissible*

With respect to legally permissible uses, the subject property is located within the Tourist Core Area Plan. The planning statement for "The Tourist Core Area Plan indicates that it encourages general improvement of the built environment. It provides a framework that will change the existing conditions into opportunities for redevelopment with a focus on achieving on the ground environmental improvements consistent with the City's General Plan and environmental threshold goals of the 2012 regional plan."

The subject property is located with the area designated Tourist Center Mixed Use Corridor (TSC-MUC). This district is "This district is intended to support Ski Run Boulevard

as a multi-modal, mixed-used corridor with a wide array of uses that encourage pedestrian activity. Permissible uses include a rich mixture of employment services, professional offices, commercial, public service, recreation, tourist accommodation and residential organized around an aesthetically-pleasing pedestrian environment." Permissible uses include tourist accommodation, retail commercial, entertainment, restaurants, recreation and mixed-use residential development." Economic allowed uses are summarized as follows:

**Residential**

- Employee Housing
- Multiple Family Dwelling
- Single Family Dwelling (includes condominiums)

**Tourist Accommodation**

- Hotel, Motel, Other Transient Dwelling Units
- Bed & Breakfast Facilities
- Timesharing

**Retail Commercial**

- General Retail and Personal Services
- Nursery
- Eating and Drinking Places

**Service Commercial**

- Healthcare Services
- Professional Offices

**General Public Service**

- Daycare Centers/Preschool
- Government Offices
- Local Public Health and Safety Facilities
- Social Services Organizations

**Recreation**

- Day Use Areas

In addition, Resource Management and Open Space uses are also allowed. Various other uses are allowed with a Special Use Permit. The minimum lot size is 10,000± square feet, with a minimum lot width of 80± feet and a minimum lot depth of 100± feet. The maxim density for employee housing family is 15 units per acre. The maximum allowable density with multi-person dwellings is 25 units per acres. The maximum density for tourist

accommodation units (dwelling units/acre) is 40 units. The maximum building height is 56 feet with a maximum of four stories.

Overall, based upon the current zoning, it would appear that the property could be developed with a variety of tourist accommodation, residential, retail and professional office utilizations.

The subject property has approvals from the City of South Lake Tahoe and TRPA as part of File # 22-004 for constructing a community park that will be donated to the City. The proposed project is the construction of a community park including play equipment, turf, gathering space, mural wall, climbing boulder, hill slide, swings, benches, and a community table. The project also includes enhancing a historically non-functioning stream environment zone that is located on the parcel.

On June 15, 2021, The City accepted the donation and entered into a Memorandum of Understanding with the Friends of Ski Run, a California non-profit public benefit corporation, to collaboratively identify and implement improvements related to the construction, maintenance, and preservation of the community park. Upon completion, the City is responsible for the operation and maintenance of the park.

The subject has been deed restricted concurrent with various transfers of land coverage and development resources from the site in 2000 to 2006 and as a result new transfers of land coverage and development resources are not allowed. Additionally, a 2024 deed restriction modifies the prior 2000 to 2006 deed restrictions to allow for the proposed and approved public park use of the property.

Due to the very limited land coverage, the existing deed restrictions being modified conditioned on the approved public park use, the very small amount of CFA appurtenant to

the stie and the lack of on-site parking, the ability to use the site for anything other than the approved recreation use would be speculative.

In conclusion, based upon a careful review and analysis, it is my opinion that the highest and best use of the subject site as vacant is for assemblage with an adjacent parcel to provide density for future development or for allowable recreation uses.

**Hypothetical As Complete**

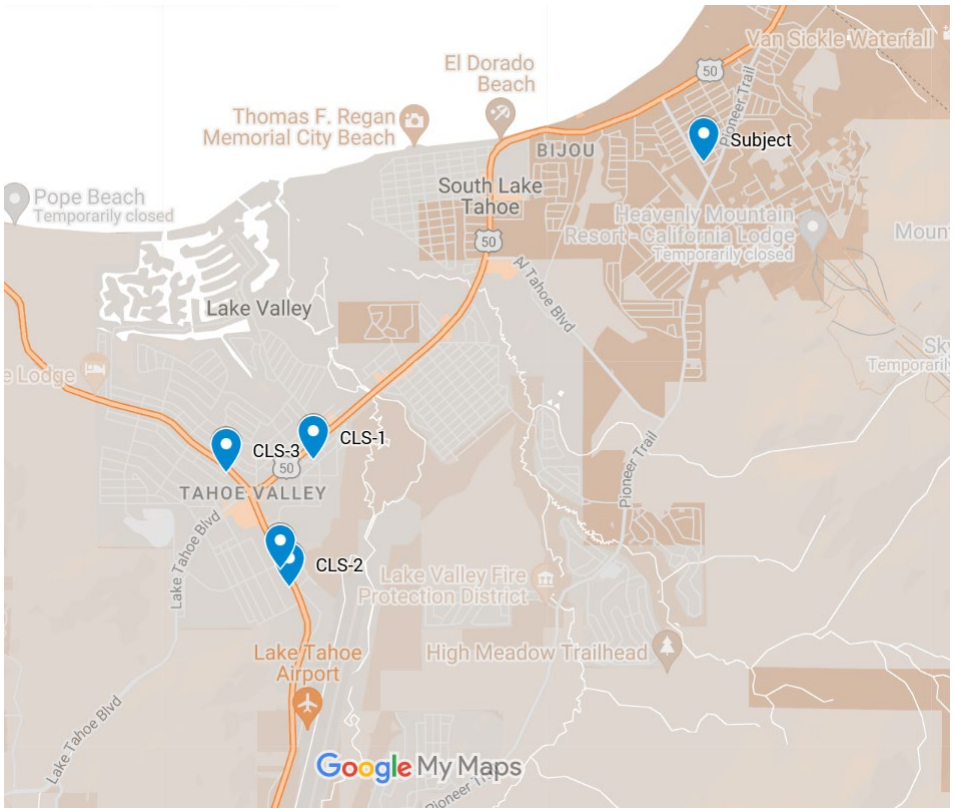
In its hypothetical as complete state, the subject property will be improved with a community park as summarized herein. The park will not have any buildings structures or on-site parking. The ability to generate revenue from the park would be very limited and any revenue generated would likely be less than the operating and maintenance costs of the property.

The potential market for purchase of a public park is extremely limited and the most likely buyer would be a municipality. The park improvements, in their hypothetical as complete state, are likely not of significant value to a prospective purchaser. Overall, the highest and best use as improved is for assemblage with an adjacent parcel to provide density for future development or for allowable recreation purposes.

## INTRODUCTION TO VALUATION ANALYSIS

To establish the Market Value of the subject site, I have considered all three approaches to value: the Income Approach, the Cost Approach, and the Sales Comparison Approach. As land is not typically valued based on its income generating potential, the Income approach will not be used in this analysis. As the subject property is vacant, the Cost Approach is not an applicable method by which to value the subject property. Therefore, the only appropriate method by which to value the subject property is the Sales Comparison Approach. The Sales Comparison Approach is based on the principle of substitution, which holds that the value of the subject property tends to be set by the price that would be paid to acquire a substitute property of similar utility and desirability.

The subject's park improvements are not considered to contribute materially to the Market Value of the subject site due to the speculative nature of generating positive net income or producing value for a prospective buyer of the property. The highest and best use of the property is for open space or day use areas or to combine with an adjacent parcel for density. The existing improvements contribute, at most, nominally towards the highest and best use of the subject property.



To establish an estimate of the Market Value of the subject property, I researched land sales in the South Lake Tahoe area. All comparables that were found were investigated, analyzed and compared to the subject property. In the Sales Comparison Approach, I will analyze the land sales based on the sale price per square foot of total land area basis.

The sales data is set forth on the following chart and sale profile sheets.

**COMPARABLE SALES CHART**

| Sale No. | Property Identification/APN | Sale Date | Sale Price | Total Land Area/ Land Coverage/ Percentage Land Coverage to Total Land Area | TRPA Development Resources | | Price Per Square Foot of Land Area |

**Comments:** . As part of the Tahoe Valley Area Plan, the comparable property is eligible for up to 70% land coverage and possible bonuses in commercial floor area. However, any land coverage above the base of 30% will require land coverage rights to be transferred to the site. The comparable features primarily level topography at street grade. All utilities are in close proximity/installed to the property. The comparable has an irregular site which would make economic development of the site on a stand-along basis difficult. The surrounding development is comprised primarily of highway retail, medical facilities and offices, and single and multi-family development. The quality of development ranges from fair to good. It is noted that Third Street is the primary street connecting Barton Memorial Hospital to Lake Tahoe Boulevard. The sale price was based on an appraisal.

**COMPARABLE LAND SALES DISCUSSION AND COMPARISON**
**Price Per square foot of land area**

Four comparables have been profiled and presented. The total sale prices range from $50,000 to $430,000. The sales range in price per square foot of land area from $4.59 to $9.87.

**Sale CLS-1** is the sale of a 10,890± square foot vacant site at the corner of Barton Avenue and Third Street in South Lake Tahoe. The comparable had 3,267± square feet of base allowable land coverage. The comparable had an irregular shape that would make standalone development of the parcel challenging. The parcel is located in Class 7 soils and within the Tahoe Valley Area Plan. The comparable sold for $50,000, which equates to a price per square foot of land area of $4.59.

In comparison to the subject property, upward adjustments are necessary for the comparable's older date of sale in 2019, since which time the market has appreciated, and the inferior shape of the comparable. On the other hand, a downward adjustment is made for the comparable's smaller land area. All else equal there is typically an inverse relationship between price per square foot and total land area. An additional downward adjustment is necessary for the comparable's greater land coverage to land area ratio.

Overall, CLS-1's sale price of $4.59 per square foot of land area is considered to be a slightly low indication of value for the subject property.

**Sale CLS-2** is the sale of a 43,600± square foot vacant site on the west side of Emerald Bay Road between D and F Streets in South Lake Tahoe. The comparable had 13,104± square feet of base allowable land coverage at the time of sale. The parcel is located in Class 7 soils and within the Bonanza plan area statement. The comparable sold for $269,000, which equates to a price per square foot of land area of $6.17.

In comparison to the subject property, upward adjustments are necessary for the comparable's date of sale in 2020, since which time the market has appreciated. An additional upward adjustment is made for the comparable's larger site size. All else equal, there is an inverse relationship between site size and price per square foot. On the other hand, downward adjustments are necessary for the comparable's superior highway frontage and the comparable's superior land coverage to land area ratio.

Overall, CLS-2's sale price of $6.17 per square foot of land area is considered to be a good indication of value for the subject property.

**Sale CLS-3** is the sale of a 21,780± square foot vacant site (at the time of sale) at the corner of 5th Street and Emerald Bay Road in South Lake Tahoe. The comparable had 6,534± square feet of base allowable land coverage at the time of sale. The parcel was developed subsequent to the sale. The parcel is located in Class 7 soils and within the Tahoe Valley Area Plan. The comparable sold for $230,000, which equates to a price per square foot of land area of $10.56.

In comparison to the subject property, an upward adjustment is made for the comparables date of sale in 2020. On the other hand, downward adjustments are necessary for the comparable's superior highway frontage and the comparable's superior land coverage to land area ratio.

Overall, CLS-3's sale price of $10.56 per square foot of land area is considered to be a high indication of value for the subject property.

**Sale CLS-4** is the sale of a 46,560± square foot vacant site at the corner of D Street and Emerald Bay Road in South Lake Tahoe. The comparable had 13,068± square feet of base allowable land coverage at the time of sale. The parcel is located in Class 7 soils and within the Tahoe Valley Area Plan. The comparable sold for $430,000, which equates to a price per square foot of land area of $9.87.

In comparison to the subject property, an upward adjustment is necessary for the comaprable's larger site size. On the other hand, downward adjustments are necessary for the comparable's superior highway frontage and the comparable's superior land coverage to land area ratio.

Overall, CLS-4's sale price of $9.87 per square foot of land area is considered to be a slightly high indication of value for the subject property.

**Summary and Final Reconciliation**

Overall, based on the comparable sales, and with consideration given to the subject's location, zoning, base allowable land coverage percentage, the existing park improvements and the existing deed restrictions, the comparable sales support a value of $6.00 to 8.00 per square foot of land area. Multiplying this range by the subject's land area of 25,003± square feet of land area results in an indicated value range of $150,018 to $200,024.

With consideration given to the positive and negative aspects of the subject property, the comparable sales identified, it is my opinion that the Market Value of the subject property, in its hypothetical as complete state, as of June 3, 2024, is $175,000.

**FINAL MARKET VALUE CONCLUSION** **$175,000**
(hypothetical as complete per plans, specifications and approvals)

## EXPOSURE TIME ANALYSIS

Exposure time is defined in the Uniform Standards of Professional Appraisal Practice as "The length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of appraisal; a retrospective estimate based upon an analysis of past events assuming a competitive and open market."

In general, properties listed for sale at a price above market value will require an extended exposure time. Conversely, properties listed for sale at a price below market value will usually require a relatively short exposure time. Based on the speculative highest and best use of the subject property and the very limited pool of potential buyers who may be interested in the subject site, it is my opinion that a reasonable exposure time for this property is 12 to 24 months.

**EXPOSURE TIME** **12 to 24 Months**

## APPRAISER'S CERTIFICATION

Each of the undersigned does hereby certify that, unless otherwise noted in this appraisal report:

I have made a personal inspection of the property that is the subject of this report.

I have no present or contemplated future interest in the real estate that is the subject of this appraisal report.

I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

I have provided professional valuation services within the three years prior to date of acceptance of this assignment.

To the best of my knowledge and belief, the statements of fact contained in this appraisal report, upon which the analysis, opinions and conclusions herein are based, are true and correct.

This report sets forth all the limiting conditions (imposed by the terms of my assignment or by the undersigned) affecting the analysis, opinions and conclusions contained in this report.

This appraisal report has been made in conformity and is subject to the requirements of the Code of Professional Ethics of the Appraisal Institute and the Uniform Standards of Professional Appraisal Practice of the Appraisal Foundation.

My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

My engagement in this assignment was not contingent upon developing or reporting predetermined results.

No one other than the undersigned prepared the analyses, conclusions and opinions concerning real estate that are set forth in this appraisal report.

The undersigned has not provided any professional valuation services in relation to the property that is subject of this appraisal within the three years prior to the issuance of this appraisal.

The Appraisal Institute conducts a mandatory program of continuing education for its designated members. As of the date of this report, Benjamin Q. Johnson has completed the requirements under the continuing education program of the Appraisal Institute.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

Respectfully Submitted,

Benjamin Q Johnson

Benjamin Q. Johnson, MAI
California Certified General Appraiser

# STANDARD ASSUMPTIONS AND LIMITING CONDITIONS

The acceptance of this appraisal assignment and the completion of the appraisal report submitted herewith are contingent upon the following assumptions and limiting conditions.

## LIMITS OF LIABILITY

This report was prepared by Johnson Valuation Group, Ltd. All opinions, recommendations, and conclusions expressed during the course of this assignment are rendered by the staff of Johnson Valuation Group, Ltd., as employees, not as individuals. The liability of Johnson Valuation Group, Ltd. and its employees and associates is limited to the client only and to the fee actually received by the appraisal firm. There is no accountability, obligation, or liability to any third party. If the appraisal report is disseminated to anyone other than the client, the client shall make such party or parties aware of all limiting conditions and assumptions affecting the appraisal assignment. Neither the appraisers nor the appraisal firm is in any way to be responsible for any costs incurred to discover or correct any physical, financial and/or legal deficiencies of any type present in the subject property. In the case of limited partnerships or syndication offerings or stock offerings in real estate, the client agrees that in the event of a lawsuit brought by a lender, a partner or part owner in any form of ownership, a tenant or any other party, the client will hold the appraiser(s) and the appraisal firm completely harmless in such action with respect to any and all awards or settlements of any type in such lawsuits.

## COPIES, PUBLICATION, DISTRIBUTION AND USE OF REPORT

Possession of this report or any copy thereof does not carry with it the right of publication, nor may it be used for any purpose or any function other than its intended use, as stated in the body of the report. The appraisal fee represents compensation only for the analytical services provided by the appraiser(s). The appraisal report remains the property of the appraisal firm, though it may be used by the client in accord with these assumptions and limiting conditions.

This appraisal is to be used only in its entirety, and no part is to be used without the whole report. All conclusions and opinions concerning the analysis as set forth in the report were prepared by the appraiser(s) whose signature(s) appears on the appraisal report, unless it is indicated that one or more of the appraisers was acting as "Review Appraiser." No change of any item in the report shall be made by anyone other than the appraiser(s). The appraiser(s) and the appraisal firm shall bear no responsibility for any such unauthorized changes.

## CONFIDENTIALITY

Except as provided for subsequently, neither the appraiser(s) nor the appraisal firm may divulge the analyses, opinions or conclusions developed in the appraisal report, nor may they give a copy of the report to anyone other than the client or his designee as specified in writing. However, this condition does not apply to any requests made by the Appraisal Institute for purposes of confidential ethics enforcement. Also, this condition does not apply to any order or request issued by a court of law or any other body with the power of subpoena.

## INFORMATION SUPPLIED BY OTHERS

Information (including projections of income and expenses) provided by informed local sources, such as government agencies, financial institutions, Realtors, buyers, sellers, property owners, bookkeepers, accountants, attorneys, and others is assumed to be true, correct and

reliable. No responsibility for the accuracy of such information is assumed by the appraiser(s). Neither the appraiser(s) nor the appraisal firm is liable for any information or the work product provided by subcontractors. The client and others utilizing the appraisal report are advised that some of the individuals associated with Johnson Valuation Group, Ltd. are independent contractors and may sign the appraisal report in that capacity. The comparable data relied upon in this report has been confirmed with one or more parties familiar with the transaction or from affidavit or other sources thought reasonable. To the best of our judgment and knowledge, all such information is considered appropriate for inclusion. In some instances, an impractical and uneconomic expenditure of time would be required in attempting to furnish absolutely unimpeachable verification. The value conclusions set forth in the appraisal report are subject to the accuracy of said data. It is suggested that the client consider independent verification as a prerequisite to any transaction involving a sale, a lease or any other commitment of funds with respect to the subject property.

**TESTIMONY, CONSULTATION, COMPLETION OF CONTRACT FOR APPRAISAL SERVICE**

The contract for each appraisal, consultation or analytical service is fulfilled and the total fee is payable upon completion of the report. The appraisers(s) or those assisting in the preparation of the report will not be asked or required to give testimony in court or in any other hearing as a result of having prepared the appraisal, either in full or in part, except under separate and special arrangements at an additional fee. If testimony or a deposition is required, the client shall be responsible for any additional time, fees and charges, regardless of the issuing party. Neither the appraiser(s) nor those assisting in the preparation of the report is required to engage in post- appraisal consultation with the client or other third parties, except under a separate and special arrangement and at an additional fee.

**EXHIBITS AND PHYSICAL DESCRIPTIONS**

It is assumed that the improvements and the utilization of the land are within the boundaries of the property lines of the property described in the report and that there is no encroachment or trespass unless noted otherwise within the report. No survey of the property has been made by the appraiser(s) and no responsibility is assumed in connection with such matters. Any maps, plats, or drawings reproduced and included in the report are there to assist the reader in visualizing the property and are not necessarily drawn to scale. They should not be considered as surveys or relied upon for any other purpose, nor should they be removed from, reproduced or used apart from the report.

**TITLE, LEGAL DESCRIPTIONS, AND OTHER LEGAL MATTERS**

No responsibility is assumed by the appraiser(s) or the appraisal firm for matters legal in character or nature. No opinion is rendered as to the status of title to any property. The title is presumed to be good and merchantable. The property is appraised as if free and clear, unless otherwise stated in the appraisal report. The legal description, as furnished by the client, his designee or as derived by the appraiser(s), is assumed to be correct as reported. The appraisal is not to be construed as giving advice concerning liens, title status, or legal marketability of the subject property.

**ENGINEERING, STRUCTURAL, MECHANICAL, ARCHITECTURAL CONDITIONS**

This appraisal should not be construed as a report on the physical items that are a part of any property described in the appraisal report. Although the appraisal may contain information about these physical items (including their adequacy and/or condition), it should be clearly understood that this information is only to be used as a general guide for property valuation and not as a complete or detailed report on these physical items. The appraiser(s) is not a

construction, engineering, or architectural expert, and any opinion given on these matters in this report should be considered tentative in nature and is subject to modification upon receipt of additional information from appropriate experts. The client is advised to seek appropriate expert opinion before committing any funds to the property described in the appraisal report.

Any statement in the appraisal regarding the observed condition of the foundation, roof, exterior walls, interior walls, floors, heating system, plumbing, insulation, electrical service, all mechanicals, and all matters relating to construction is based on a casual inspection only. Unless otherwise noted in the appraisal report, no detailed inspection was made. For instance, the appraiser is not an expert on heating systems, and no attempt was made to inspect the interior of the furnace. The structures were not investigated for building code violations, and it is assumed that all buildings meet the applicable building code requirements unless stated otherwise in the report.

Such items as conditions behind walls, above ceilings, behind locked doors, under the floor, or under the ground are not exposed to casual view and, therefore, were not inspected, unless specifically so stated in the appraisal. The existence of insulation, if any is mentioned, was discovered through conversations with others and/or circumstantial evidence. Since it is not exposed to view, the accuracy of any statements regarding insulation cannot be guaranteed.

Because no detailed inspection was made, and because such knowledge goes beyond the scope of this appraisal, any comments on observed conditions given in this appraisal report should not be taken as a guarantee that a problem does not exist. Specifically, no guarantee is given as to the adequacy or condition of the foundation, roof, exterior walls, interior walls, floors, heating systems, air conditioning systems, plumbing, electrical service, insulation, or any other detailed construction matters. If any interested party is concerned about the existence, condition, or adequacy of any particular item, we would strongly suggest that a mechanical and/or structural inspection be made by a qualified and licensed contractor, a civil or structural engineer, an architect or other experts. This appraisal report is based on the assumption that there are no hidden, unapparent or apparent conditions on the property or improvements which would materially alter the value as reported. No responsibility is assumed for any such conditions or for any expertise or engineering to discover them. All mechanical components are assumed to be in operable condition and standard for the properties of the subject type. Conditions of heating, cooling, ventilating, electrical and plumbing equipment are considered to be commensurate with the condition of the balance of the improvements unless otherwise stated. No judgment is made in the appraisal as to the adequacy of insulation, the type of insulation, or the energy efficiency of the improvements or equipment which is assumed to be standard for the subject's age, type and condition.

**TOXIC MATERIALS AND HAZARDS**

Unless otherwise stated in the appraisal report, no attempt has been made to identify or report the presence of any potentially toxic materials and/or condition such as asbestos, urea formaldehyde foam insulation, PCBs, any form of toxic waste, polychlorinated biphenyl, pesticides, lead-based paints or soils or ground water contamination on any land or improvements described in the appraisal report. Before committing funds to any property, it is strongly advised that appropriate experts be employed to inspect both land and improvements for the existence of such potentially toxic materials and/or conditions. If any potentially toxic materials and/or conditions are present on the property, the value of the property may be adversely affected and a re-appraisal at an additional cost may be necessary to estimate the effects of such circumstances.

**SOILS, SUB-SOILS, AND POTENTIAL HAZARDS**

It is assumed that there are no hidden or unapparent conditions of the soils or sub-soil which would render the subject property more or less valuable than reported in the appraisal.

No engineering or percolation tests were made and no liability is assumed for soil conditions. Unless otherwise noted, the land and the soil in the area being appraised appeared to be firm, but no investigation has been made to determine whether or not any detrimental sub-soil conditions exist. Neither the appraiser(s) nor the appraisal firm is liable for any problems arising from soil conditions. These appraisers strongly advise that, before any funds are committed to a property, the advice of appropriate experts be sought.

If the appraiser(s) has not been supplied with a termite inspection report, survey or occupancy permit, no responsibility is assumed and no representation is made for any costs associated with obtaining same or for any deficiencies discovered before or after they are obtained.

Neither the appraiser(s) nor the appraisal firm assumes responsibility for any costs or for any consequences arising from the need or lack of need for flood hazard insurance. An Agent for the Federal Flood Insurance Program should be contacted to determine the actual need for flood hazard insurance.

**ARCHEOLOGICAL SIGNIFICANCE**

No investigation has been made by the appraiser and no information has been provided to the appraiser regarding potential archeological significance of the subject property or any portion thereof. This report assumes no portion of the subject property has archeological significance.

**LEGALITY OF USE**

This appraisal report assumes that there is full compliance with all applicable federal, state and local environmental regulations and laws, unless non-compliance is stated, defined and considered in the appraisal report. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless a non-conformity has been stated, defined and considered in the appraisal report. It is assumed that all required licenses, consents, or other legislative or administrative authority from any local, state or national government, private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.

**COMPONENT VALUES**

Any distribution of the total value between the land and improvements, between partial ownership interests or any other partition of total value applies only under the stated use. Moreover, separate allocations between components are not valid if this report is used in conjunction with any other analysis.

**COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT**

The Americans with Disabilities Act ("ADA") became effective January 26, 1992. It is assumed that the property is in direct compliance with the various detailed requirements of the ADA.

**AUXILIARY AND RELATED STUDIES**

No environmental or impact studies, special market studies or analyses, special highest and best use studies or feasibility studies have been requested or made by the appraiser(s) unless otherwise specified in an agreement for services and so stated in the appraisal report.

**DOLLAR VALUES AND PURCHASING POWER**

The estimated market value set forth in the appraisal report and any cost figures utilized are applicable only as of the date of valuation of the appraisal report. All dollar amounts are based on the purchasing power and price of the dollar as of the date of value estimates.

**ROUNDING**

Some figures presented in this report were generated using computer models that make calculations based on numbers carried out to three or more decimal places. In the interest of simplicity, most numbers have been rounded. Thus, these figures may be subject to small rounding errors.

**QUANTITATIVE ANALYSIS**

Although this analysis employs various mathematical calculations to provide value indications, the final estimate is subjective and may be influenced by our experience and other factors not specifically set forth in this report.

**VALUE CHANGE, DYNAMIC MARKET, ALTERATION OF ESTIMATE BY APPRAISER**

All values shown in the appraisal report are projections based on our analysis as of the date of valuation of the appraisal. These values may not be valid in other time periods or as conditions change. Projected mathematical models set forth in the appraisal are based on estimates and assumptions which are inherently subject to uncertainty and variations related to exposure, time, promotional effort, terms, motivation, and other conditions. The appraiser(s) does not represent these models as indicative of results that will actually be achieved. The value estimates consider the productivity and relative attractiveness of a property only as of the date of valuation set forth in the report.

In cases of appraisals involving the capitalization of income benefits, the estimate of market value, investment value or value in use is a reflection of such benefits and of the appraiser's interpretation of income, yields and other factors derived from general and specific client and market information. Such estimates are as of the date of valuation of the report, and are subject to change as market conditions change.

This appraisal is an estimate of value based on analysis of information known to us at the time the appraisal was made. The appraiser(s) does not assume any responsibility for incorrect analysis because of incorrect or incomplete information. If new information of significance comes to light, the value given in this report is subject to change without notice. The appraisal report itself and the value estimates set forth therein are subject to change if either the physical or legal entity or the terms of financing are different from what is set forth in the report.

**ECONOMIC AND SOCIAL TRENDS**

The appraiser assumes no responsibility for economic, physical or demographic factors which may affect or alter the opinions in this report if said economic, physical or demographic factors were not present as of the date of value of this appraisal. The appraiser is not obligated to predict future political, economic or social trends.

**EXCLUSIONS**

Furnishings, equipment, other personal property and value associated with a specific business operation are excluded from the value estimate set forth in the report unless otherwise indicated. Only the real estate is included in the value estimates set forth in the report unless otherwise stated.

**SUBSURFACE RIGHTS**

No opinion is expressed as to the value of subsurface oil, gas or mineral rights or whether the property is subject to surface entry for the exploration or removal of such materials, except as is expressly stated.

**PROPOSED IMPROVEMENTS, CONDITIONED VALUE**

It is assumed in the appraisal report that all proposed improvements and/or repairs, either on-site or off-site, are completed in an excellent workmanlike manner in accord with plans, specifications or other information supplied to these appraisers and set forth in the appraisal report, unless otherwise explicitly stated in the appraisal. In the case of proposed construction, the appraisal is subject to change upon inspection of the property after construction is completed. The estimate of market value is as of the date specified in the report. Unless otherwise stated, the assumption is made that all improvements and/or repairs have been completed according to the plans and that the property is operating at levels projected in the report.

**MANAGEMENT OF PROPERTY**

It is assumed that the property which is the subject of the appraisal report will be under typically prudent and competent management which is neither inefficient nor superefficient.

**FEE**

The fee for any appraisal report, consultation, feasibility or other study is for services rendered and, unless otherwise stated in the service agreement, is not solely based upon the time spent on any assignment.

**LEGAL EXPENSES**

Any legal expenses incurred in defending or representing ourselves concerning this assignment will be the responsibility of the client.

**CHANGES AND MODIFICATIONS**

The appraiser(s) reserves the right, at the cost of the client, to alter statements, analyses, conclusions, or any value estimates in the appraisal if any new facts pertinent to the appraisal process are discovered which were unknown on the date of valuation of this report.

**DISSEMINATION OF MATERIAL**

Neither all nor any part of the contents of this report shall be disseminated to the general public through advertising or sales media, public relations media, new media or other public means of communication without the prior written consent and approval of the appraiser(s).

**The acceptance and/or use of the Appraisal Report by the client or any third party constitutes acceptance of the Assumptions and Limiting Conditions set forth in the preceding paragraphs. The appraiser's liability extends only to the specified client, not to subsequent parties or users. The appraiser's liability is limited to the amount of the fee received for the services rendered.**

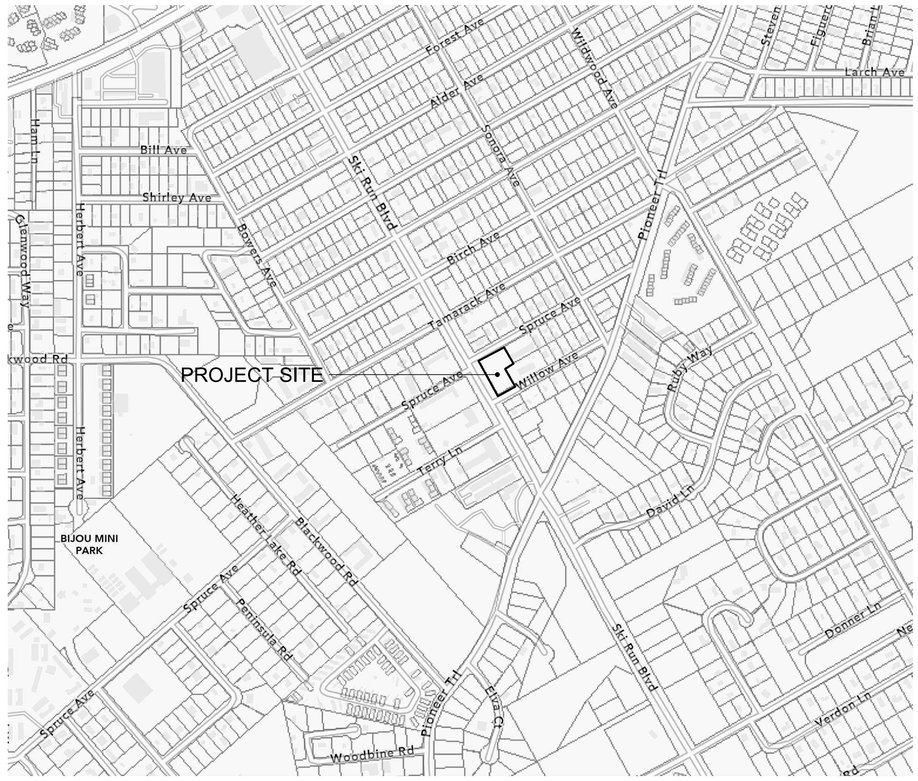
### Project Description

Once the location of the Slalom Inn, a fenced empty lot at the corner of Willow Avenue and Ski Run Boulevard will soon be a neighborhood pocket park thanks to the generous donation to the Friends of Ski Run.

The Safeway Corporation bought the aging Slalom Inn to use its associated development rights in 1999 when they built the new South Lake Tahoe Safeway at Johnson and Lake Tahoe Boulevards (the existing Safeway was smaller and located near where the current gas station is located). They then tore down the motel and the .57 acre corner lot has remained vacant since then.



The parcel is subject to deed restrictions that it be "restored and maintained in as natural a state as possible" and that prohibit the transfer back of commercial floor area to the parcel, such that it has limited potential uses and is a good candidate for park use.

Three families make up The Friends of Ski Run, and they closed escrow on the parcel Friday, June 11 under their newly created entity called Ski Run Park LLC. They are now donating the property to the City of South Lake Tahoe for use as a community park. The property donation was made possible by Wynn and Lauren Ruji, Lincoln and Galena Else, Chris and Victoria McNamara, and Corey and Marina Rich. They have been diligently advocating for this project for six years as they recognized the need for a gathering place for the neighborhood.

On June 15, 2021, the South Lake Tahoe City Council accepted the donation. Creating a park will support the City Council's strategic priority of developing "a park or community garden in every neighborhood". The two parties have negotiated a Memorandum of Understanding (MOU) to set forth their mutual objectives and responsibilities with respect to the proposed Ski Run Park.

## REVEGETATION NOTES

1. All areas disturbed by construction activities shall be revegetated if not shown improved with another material. Additional revegetation may be required beyond what is shown on plans.

2. A minimum of two inches (2") of topsoil shall be placed on all disturbed areas. Topsoil shall include all of the organic-rich layer of soil immediately under the duff layer. Topsoil shall be stored with minimal handling and no compaction, and it should not be mixed with spoil material.

3. Disturbed areas that are compacted or have experienced heavy vehicle and equipment use shall be plowed with a ripper or other deep tillage implement where feasible to a depth of 6"-12". Soil may be loosened with a backhoe bucket equipped with cutting teeth if loosening is done such that clods remain and soil is not pulverized or inverted. Following soil loosening, all further equipment traffic shall be eliminated from the planting area.

4. Areas should be irrigated by a low-flow irrigation system approximately once every three (3) weeks. The goal for all revegetated areas is to minimize irrigation needs and discontinue the need for irrigation after a maximum of three (3) growing seasons.

5. Following seeding and planting, all revegetation areas shall be mulched with pine needles. Pine needles shall be applied evenly to the entire area to a depth of one inch (1") if applied by blower or two inches (2") if applied by hand.

6. Revegetation seed mix shall be the "Sierra Wildflower Blend" by Comstock Seed.

## FERTILIZER AND IRRIGATION MANAGEMENT

1. Landscape maintenance and management shall be consistent with Chapter 12 of the TRPA Home Landscaping Guide for Lake Tahoe and Vicinity.

2. Drip irrigation to establish all perennials, shrubs, and trees will be required for an establishment period of 3 years, after which the irrigation can be removed at the owner's discretion. Apply ½" of water per day only on weekdays during the growing season during the morning hours of the day, no later than 10am.

3. Use phosphorus free slow release fertilizer only for all perennial and shrub areas. Use phosphorus free fertilizer such as SummerSet 10-0-3 or approved equal at a rate 1/2 to 3/4 pounds per 1000 sf during each application.

4. For tree fertilization use "Jobe's Tree Stakes" or approved equal which are specially formulated to maintain good tree health. Fertilizer shall not be spread over existing vegetation or outside the limit of disturbance.

5. Fertilizer shall be applied twice per year; once during early June or late May depending on weather when plants have come out of dormancy, and once late in late September or early October depending on weather, but before the first frost. Avoid using weedkiller / fertilizer combinations that can damage trees and shrubs.

6. All proposed shrubs, perennials, and trees are native or adaptive native plants to the Tahoe Basin as outlined in on Table 1 of the TRPA Home Landscaping Guide. Therefore these plants will require very little fertilizer long term to sustain their health. The plants will require regular fertilizer applications during their establishment period (3 years).

## IRRIGATION NOTES

1. Contractor to provide exact layout of laterals, emitters and spray heads for a design build irrigation system as approved. Drip irrigation shall be installed to establish all perennials, shrubs, and trees will be required.

2. Contractor shall install all equipment necessary for the irrigation system including backflow preventer, wiring, and irrigation controller. Field verify pressure upstream side of the backflow preventer prior to ordering materials or starting any installation and notify owner's representative of the static pressure.

## GENERAL NOTES

1. Insight Land Surveying prepared the survey for this project. It has been reformatted for use in and for preparation of these documents. All discrepancies should be brought to the attention of the Landscape Architect for immediate resolution. Landscape Architect is not responsible for errors or omissions associated with preparation or documentation of survey.
2. Contractor will determining means and methods for construction. These drawings may indicate a limit of proposed improvements, limits of site demolition, etc. for delineation of expected extents of disturbance, however, final impact shall be determined in the field. Should limits of disturbance exceed boundaries defined in drawings, Contractor shall contact Landscape Architect for resolution.
3. Contractor is responsible for repairing all work disturbed by construction outside of limit lines defined on drawings or through his/her means and methods and General Conditions to a condition acceptable to the owner at no additional cost.
4. Contractor is responsible for protecting all existing conditions, improvements, utilities, etc. to remain. Any damages shall be repaired to a condition acceptable to the owner at no additional cost.
5. Contact the local underground utility service locator for utility locates and identification prior to commencing work and maintain in field throughout construction unless indicated or directed otherwise.
6. Verify plant protection, BMPs, existing improvement to remain, and Contractor site control measures are in place prior to commencing with construction. Do not proceed with construction if not in compliance and maintained throughout.
7. No work shall commence until all necessary permits have been obtained from the City and other appropriate agencies.

## GRADING NOTES

ESTIMATED EARTHWORK QUANTITIES:
CUT: 0 C.Y. EXPORT: 0 C.Y.
FILL: 80 C.Y. IMPORT: 80 C.Y.

1. Existing grades shall be disturbed as little as possible to retain natural drainage on site as was previously restored by others.
2. No cut or fill slopes may be steeper than 2:1 (h:v) maximum.
3. Fill slopes shall be compacted to a relative compaction of 90 percent of maximum dry density.
4. Any area to receive fill shall be prepared by scarifying to a minimum depth of 6", moistened or dried to near optimum moisture and compacted to a relative density of 90% before placing additional fill. prior to placing of any fill material, the area shall be approved by the public works inspector. should adverse soil conditions be encountered, stabilization techniques shall be approved by a change order.
5. All paths of travels shall comply with the requirements of title 24, building standards of the california administrative code in regards to providing access to the physically disabled.
6. Maximum pavement slopes are as follows:
   Parking areas: 2% maximum handicap parking
   Pathways and routes of travel: 5% maximum, 2% cross slope

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

## Authorizing Acceptance of a Donation of Land and Improvements for a Public Park Located at 1195 Ski Run Blvd

**BACKGROUND**

A. On June 15, 2021 the City and Friends of Ski Run entered into a Memorandum of Understanding to establish a general framework for a collaborative working relationship and define the respective roles and responsibilities of the Parties for the construction, maintenance, funding, and operations of Ski Run Park.

B. The Friends of Ski Run created an entity called SkiRunPark, LLC to purchase the parcel at 1195 Ski Run Blvd in 2021 and has constructed the Ski Run Community Park.

C. On June 3, 2024, an appraisal valued the land and improvements, presuming completion of the park in accordance with plans, at $175,000.

D. The City Attorney and Finance Director have reviewed and found that the requirements of the City's Donation, Sponsorship and Naming Rights Policy for acceptance of land designated for a public park have been met and a public benefit will be enjoyed by acquisition of this land.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Resolves that the above recitals are true and a substantive part of this resolution.

2. Authorizes and directs the City Manager to sign the acceptance on the Grant Deed attached hereto as Exhibit A and accept the donation of Ski Run Community Park for dedicated use as a public park from the SkiRunPark, LLC, upon completion of park improvements and passing inspections.

Adopted by the City of South Lake Tahoe City Council on June 18, 2024 by the following vote:

# City of South Lake Tahoe
# Report to City Council

## Meeting Date: June 18, 2024

**Title:** Professional Services Agreement with Lumos & Associates for Planning and Design Feasibility Services for the Stateline Complete Streets Project

**Location:** Stateline Area: Generally, the area from U.S. Highway 50 north to Lakeshore Boulevard, bounded by Park Avenue to the west and Stateline Avenue to the east.

**Responsible Staff Members:** Jason Burke, Complete Streets Program Manager

**Background:** There is a notable and widespread lack of pedestrian and cyclist improvements along Stateline Avenue from U.S. Highway 50 to Lakeshore Boulevard that potentially create conflicts between various mobility types within this area. Parking is often unstructured, and many informal parking areas in the road shoulder areas are bare dirt, creating erosion and sediment issues along with safety and mobility challenges within the area. Underground drainage systems need to be updated, in coordination with other underground utility providers in the project area, including South Tahoe Public Utility District (STPUD), Lakeside Park Association water company, Liberty Energy and Southwest Gas for pressurized gas lines. Many hotels in the area rely on head-in street parking within the public right-of-way, which is required to meet City minimum parking standards in some situations. These parking patterns will need to be assessed in order to develop feasible multimodal connectivity solutions for pedestrians, cyclists, and micro-mobility (electric scooter) users, along with the horse-drawn carriages and relatively new shuttles operating in the area. This feasibility and planning agreement will enable a well-qualified team of outreach and design professionals to work with the community and decision makers to develop feasible conceptual designs for active transportation upgrades. These improvement design concepts will be developed with considerable stakeholder outreach to find solutions that can best accommodate the needs of existing tourism and hotel businesses, residents, and all types of mobility mode users.

Tourist Core Are Plan, Active Transportation Plan, recently presented Bicycle Advisory Committee (BAC) list of prioritized projects, 2023-2028 Strategic Plan, Active Transportation Plan, and adopted CIP budget provide support for developing multimodal connectivity solutions to improve the safety and appeal for active transportation options in the Stateline Complete Streets project area, focused on the Stateline Avenue Corridor for U. S. Highway 50 (Lake Tahoe Boulevard) down to Lakeshore Blvd with broader connectivity and circulation needs extending from the end of the Linear Park, through Park Avenue, Pine Boulevard, Lakeshore Drive and Stateline Avenue. On October 4, 2022, the City Council approved Resolution 2022-130, authorizing staff to submit a grant application in the amount of $450,000 to the Caltrans Sustainable Transportation Planning Grant Program. This grant application was submitted on March 9, 2023, and the City received notice in August 2023 that the application was unsuccessful in seeking this additional design funding. In the interest of advancing the project to be more competitive for implementation funding, staff has issued an RFP to utilize a variety of existing allocated City funds and will seek to obtain additional funding as the project design feasibility work progresses.

**Issue and Discussion:** The process for solicitation, advertisement and selection of the professional design consultant team followed the City's purchasing and procurement policies by issuing a widespread Request for Proposals (RFP) for planning and design feasibility services April 4, 2024, notifying all qualified vendors via the City of South Lake Tahoe web posting on PlanetBids. There were 53 prospective firms who took interest in the project, and the city received four written proposals. The review panel consisted of City staff from the Public Works Department, Development Services Department, Finance Department along with outside agency staff from the Lake Park Association water company and Tahoe Regional Planning Agency, who carefully evaluated the written proposals to determine if they were responsive and ranked the written proposal based on the ranking criteria stated in the RFP. Based on the results of the written review, two firms were selected to interview on May 21, 2024 to further discuss the project and their teams' approach and qualifications. The interview panel ranked the two firms and ultimately selected a team lead by Lumos & Associates based on their responses to questions regarding details of the work described in the RFP and relevant information for the project.

**Financial Implications:** The planning and feasibility services contract with Lumos & Associates will be partially funded through existing funding ($100,000) allocated to the Stateline Complete Streets project in the Capital Improvement Program account 301-50045-42030 (Technical Services). The circulation study area for this project encompasses the broader Stateline Area, on the lake side of U.S. Highway 50, extending from the end of Linear Park Bike Path (Pioneer Trail/U.S. Highway 50) through the Lakeside Park community including Park Avenue, Pine Boulevard, Lakeshore Boulevard and Stateline Avenue (see Map). This task in the attached professional services agreement will evaluate circulation and parking needs within the larger project area in order to work with City residents, businesses and property owners to develop solutions that improve broader connectivity and safety in the larger Lakeside Park area connecting to the existing terminus of Linear Park, then focus on specific design solutions for Stateline Avenue. This circulation study, which will consider one-way options or even partial road closures, will inform later efforts to improve circulation patterns on Stateline Avenue, Park Avenue and Lakeshore Boulevard, which are yet unfunded.

In order to fund the parking and traffic counts, to establish volumes and needs, residual funding ($152,829) for engineering study and design of the Linear Park Bike Path uncompleted final leg to Park Avenue will be transferred from account to 301-50008-48010 (Technical Studies) in order to advance connectivity planning in this broader study area. Additional tasks in the RFP will need additional funding, and pending approval of the upcoming Capital Improvement Program, the City may opt to fund the additional Task outlined in the RFP to advance this project to the full extent of the services noted in the RFP to complete 30% preferred alternative concepts and designs after extensive community and decision maker outreach and engagement.

**Environmental Considerations:** Projects consisting of only feasibility or planning studies for possible future actions for which the City has not approved, adopted or funded are Statutorily Exempt from full California Environmental Quality Act (CEQA) review under CEQA Guidelines section15262 (Feasibility and Planning Studies) and Categorically Exempt under section 15305, Class 6 (Information Collection). The feasibility analysis, preparation of conceptual alternatives, parking and circulation studies to inform the development of a potential future preferred project. Once the feasibility studies and public outreach to review alternatives and focus on a preferred concept, any potential project design will be subject to additional CEQA review once the alternatives are vetted with the public and decision makers to define the potential scope of the Complete Streets improvements.

**Policy Implications:** The Project is consistent with the vision for transportation improvements included in the Tourist Core Area Plan and regional Active Transportation Plan and advances the City Council Strategic Priorities and Goals, specifically:

- **Action Item 1.4 (Transportation)** to prioritize implementation complete streets projects and evaluate city-wide parking management strategies and identify options to prioritize alternative modes of transportation for major connecting arterials building in the US 50 Safety Project.
- **Action Item 2.3 (Connectivity)** to facilitate implementation of trail infrastructure prioritizing the connection of bicycle and walking trails from neighborhoods to the Greenway and other new and existing trails systems.
- **Action Item 5.3 (Infrastructure and Maintenance)** by actively seeking funding to develop sustainable infrastructure projects, based on the prioritized capital improvement project list.

The project will also provide greenhouse gas reduction benefits, providing progress on Action #WB-1 of the 2020 Climate Action Plan: Improve bicycle and pedestrian networks.

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

**Authorization for the Reallocation of Funds from the Linear Park Bike Path Project to the Stateline Complete Streets Project and Approval of a Professional Services Agreement with Lumos & Associates for the City for Planning and Design Feasibility Services for the Stateline Avenue Complete Streets Project**

## BACKGROUND

A. The Stateline Avenue Complete Streets Project has been identified as a priority project tin the Tourist Core Area Plan, Bicycle Advisory Committee list of prioritized projects, Active Transportation Plan and adopted Capital Improvement Program (CIP).

B. The City Council appropriated $100,000 for the initiation of the Stateline Area Complete Streets project during the August 23, 2022, City Council meeting as a part of the City's adopted CIP.

C. The Linear Park Bike path project has $152,829 in remaining funds for Engineering Study and Design (Account 301-50008-48010) to evaluate options to connect the Linear Park Bike Path through the Stateline Area.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Authorizes the Director of Finance to transfer the remaining Linear Park Bike Path funds totaling $152,829 from 301-50008-48010 to 301-50045-48010.
2. Authorizes the Director of Finance to transfer the $100,000 in the Stateline Avenue Complete Streets Project Account (301-50045) from 42030 (Technical Services) to 48010 (Engineering Study and Design) for consistency purposes.
3. Authorizes and directs the Mayor to execute a Professional Services Agreement with Lumos & Associates for Design Feasibility Services for the Stateline Avenue Complete Streets Project in the amount of $227,200.

Adopted by the City of South Lake Tahoe City Council on June 18, 2024 by the following vote:
Yes:
No:

**CITY OF SOUTH LAKE TAHOE**

# PROFESSIONAL SERVICES AGREEMENT

This Agreement is made and entered into as of the 18th day of June 2024 by and between the **City of South Lake Tahoe**, a municipal corporation ("City") and Lumos & Associates (Consultant").

## RECITALS

A. Consultant is specially trained, experienced and competent to perform the special services which will be required by this Agreement.

B. Consultant possesses the skill, experience, ability, background, certification and knowledge to provide the services described in this Agreement on the terms and conditions described herein.

C. City desires to retain Consultant to render professional services as set forth in this Agreement.

## AGREEMENT

1. Scope of Services. Consultant shall perform the services set forth in this agreement and shall provide said services at the time, place, and in the manner specified in this agreement. Consultant shall have no power or authority by this Agreement to bind City in any respect.

   The Consultant agrees that it has satisfied itself by its own investigation and research regarding the conditions affecting the work to be done and labor and materials needed, and that its decision to execute this Contract is based on such independent investigation and research.

   All services provided by Consultant pursuant to this Agreement will be provided in accordance with the terms set forth in the **Exhibit A, "Scope of Services,"** attached hereto and incorporated herein by reference. **Exhibit B, "Compensation Schedule,"** attached hereto and incorporated herein by reference, outlines the fees and compensation which shall be paid pursuant to this Agreement.

2. Term/Time of Performance. The services by Consultant are to commence upon the execution of the Agreement and continue for 18 months from time award.

3. Compensation. Compensation to be paid to Consultant shall be in accordance with the Schedule set forth in **Exhibit B** which is attached hereto and incorporated herein by reference. In no event shall Consultant's compensation, including travel and out-of-pocket expenses, exceed $ 227,200 without additional written authorization from City. Payment by City under this Agreement shall not be deemed a waiver of defects, even if such defects were known to City at the time of payment. Payment is contingent upon compliance with all terms and conditions of this Agreement, as set forth herein. Consultant shall obtain prior written authorization from the City Project Manager for any costs in excess of budgeted amounts for each line item, task, or obligation under the Scope of Services.

4. Method of Payment. Consultant shall submit monthly billings to City describing the work performed during the preceding month. Consultant's bills shall include a brief description of the services performed, the date the services were performed, the number of hours spent and by whom, the applicable hourly rate, and a description of any reimbursable expenditures. City shall pay Consultant no later than 30 days after approval of the monthly invoice by City staff.

5. Extra Work. At any time during the term of this Agreement, City may request that Consultant perform extra work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, extra work without prior written authorization from City.

6. Termination. This Agreement may be terminated by City or Consultant immediately for cause or without cause upon thirty days (30) days written notice of termination. Upon termination, Consultant shall be entitled to compensation for services performed up to the effective date of termination, and City shall be entitled to all work performed to that date.

   Termination, revocation, or expiration of this Agreement shall not release either party from liability resulting from an event which occurred prior to such termination, revocation or expiration.

7. Ownership of Documents.
   All plans, studies, documents and other writings, including working notes and internal documents, prepared by and for Consultant, its officers, employees

and agents and subcontractors in the course of implementing this Agreement, shall become the property of City upon payment to Consultant for such work, and City shall have the sole right to use such materials in its discretion without further compensation to Consultant or to any other party. Consultant shall, at Consultant's expense, provide such reports, plans, studies, documents and other writings to City upon written request. All documents prepared by Consultant are confidential and shall be maintained to preserve their confidential nature. Release of any such documents to third parties shall only be made upon written consent of City.

8. Consultant's Books and Records.

a. Consultant shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services, or expenditures and disbursements charged to City for a minimum period of three (3) years, or for any longer period required by law, from the date of final payment to Consultant for services provided pursuant to this Agreement.

b. Consultant shall maintain all documents and records which demonstrate performance under this Agreement for a minimum period of three (3) years, or for any longer period required by law, from records shall be available at Consultant's address indicated for the date of termination or completion of this Agreement.

c. Any records or documents required to be maintained pursuant to this Agreement shall be made available for inspection or audit, at any time during regular business hours, upon written request by the City Manager, City Attorney, City Auditor or a designated representative of these officers. Copies of such documents shall be provided to City for inspection at City offices when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the receipt of notices in this Agreement.

d. Where City has reason to believe that such records or documents may be lost or discarded due to dissolution, disbandment or termination of Consultant's business, City may, by written request by any of the above-named officers, require that custody of the records be given to City and that the records and documents be maintained at City offices. Access to such records and documents

shall be granted to any party authorized by Consultant, Consultant's representatives, or Consultant's successor-in-interest.

9. Independent Contractor. It is understood that Consultant, in the performance of the work and services agreed to be performed, shall act as and be an independent contractor and shall not act as an agent or employee of City. Consultant shall obtain no rights to retirement benefits or other benefits which accrue to City's employees, and Consultant hereby expressly waives any claim it may have to any such rights. All employees, agents, contractors or subcontractors hired or retained by Consultant are employees, agents, contractors or subcontractors of Consultant and not of the City.

City is not required to make any deductions or withholdings form the compensation payable to Consultant under the provisions of this Contract, and is not required to issue W-2 Forms for income and employment tax purposes for any of Consultant's assigned personnel. Any third party persons employed by Consultant shall be entirely and exclusively under the direction, supervision, and control of Consultant. Consultant hereby indemnifies and holds City harmless from any and all claims that may be made against City based upon any contention by any third party that an employer-employee relationship exists by reason of this Contract.

10. Interest of Consultant. Consultant, (and principals, associates and professional employees of consultant) covenants and represents that it does not now have any investment or interest in real property and shall not acquire any interest, direct or indirect, in the area covered by this Agreement or any other source of income, interest in real property or investment which would be affected in any manner or degree by the performance of Consultant's services hereunder. Consultant further covenants and represents that in the performance of its duties hereunder no person having any such interest shall perform any services under this Agreement.

Consultant is not a designated employee within the meaning of the Political Reform Act because Consultant:

a. Will conduct research and arrive at conclusions with respect to his/her rendition of information, advice, recommendation or counsel independent of the control and direction of City or of any City official, other than normal agreement monitoring; and,

b. Possesses no authority with respect to any city decision beyond rendition of information, advice, recommendation or counsel. [FPPC Reg. 18700(a)(2)].

11. Professional Ability of Consultant. City has relied upon the professional training and ability of Consultant to perform the services hereunder as a material inducement to enter into this Agreement. Consultant shall therefore provide properly skilled professional and technical personnel to perform all services under this Agreement. All work performed by Consultant under this Agreement shall be in accordance with applicable legal requirements and shall meet the standard of quality ordinarily to be expected of competent professionals in Consultant's field of expertise.

12. Compliance with Laws. Consultant shall comply with all applicable federal, state, regional and local laws, codes, ordinances and regulations in carrying out his/her duties under this Agreement. Consultant shall observe and comply with all applicable laws, ordinances, regulations and codes of federal, state and local governments, and shall commit no trespass on any public or private property in performing any of the work authorized by this Agreement. The City, its officials, officers, elected officials, appointed officials and employees shall not be liable at law or in equity as a result of any failure of Consultant to comply with this section.

    In the event it is determined that the Consultant is required to pay prevailing wages for the work performed under this Agreement, the Consultant shall pay all penalties and wages as required by law.

13. Licenses. Consultant represents and warrants to City that it has all licenses, permits, qualifications, insurance and approvals of whatsoever nature which are legally required of Consultant to practice its profession. Consultant represents and warrants to City that Consultant shall, at its sole cost and expense, keep in effect or obtain at all times during the term of this Agreement, any licenses, permits, insurance and approvals which are legally required of Consultant to practice its profession. Consultant shall maintain a City of South Lake Tahoe business license at all times services are performed under this Agreement. Consultant acknowledges that payments made pursuant to this Agreement may be withheld until this provision has been satisfied.

14. Indemnity. Consultant hereby agrees to and shall indemnify and hold harmless City, its elected and appointed boards, officers, agents, employees and volunteers from and against any liability for any and all claims, demands, actions, losses, damages and injuries, direct or indirect (including any and all costs and expenses in connection therein), arising out of this Agreement or caused in any way by Consultant's negligent performance of this Agreement or its breach of its obligations contained in this Agreement, except for any such claims arising out of the negligence or willful misconduct of the City.

Consultant agrees to defend City from and against any and all losses, damages, claims costs and fees arising out Consultant's negligent acts, errors, omissions, regarding this Agreement, the Consultant's work under this Agreement, or the consultant's Scope of Work.

City does not, and shall not, waive any rights against Consultant which it may have by reason of the aforesaid hold harmless agreement, because of the acceptance by City, or the deposit with City by Consultant, of any of the insurance policies hereinafter set forth.

This hold harmless agreement by Consultant shall apply to all damages and claims for damages, or alleged to have been suffered, by reason of any of the aforesaid operation of Consultant or any subcontractor, regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

Consultant further waives any and all rights to any type of express or implied indemnity or right of contribution from the City for any liability, claims, demands, costs, charges and expenses and causes of action of whatsoever arising out of or in any way connected with this Agreement, and consultant's work under this Agreement.

15. Insurance Requirements.

a. Consultant, at Consultant's own cost and expense, shall procure and maintain, for the duration of the contract, the following insurance policies.

i. Workers' Compensation Coverage. Consultant shall maintain Workers' Compensation Insurance and Employer's Liability Insurance for his/her employees in accordance with the laws of the State of California. In addition, Consultant shall require each subcontractor to similarly maintain Workers' Compensation Insurance and Employer's Liability Insurance in accordance with the laws of the State of California for all of the subcontractor's employees. Any notice of cancellation of all Workers' Compensation policies must be received by City at least thirty (30) days prior to such change. Consultant shall provide thirty (30) days written notice of nonrenewal of any Workers' Compensation policies. The insurer shall agree to

waive all rights of subrogation against City, its officers, agents, employees and volunteers for losses arising from work performed by Consultant for City.

ii. Commercial General Liability Coverage. Consultant shall maintain commercial general liability insurance no less broad than ISO form CG 00 01 in an amount not less than one million dollars ($1,000,000) per occurrence for bodily injury, personal injury and property damage. Coverage must be made on the standard Occurrence form. Claims-Made forms are not acceptable without prior written consent of City. City of South Lake Tahoe must be endorsed as an additional insured for liability arising out of ongoing operation by on behalf of Consultant. If a commercial general liability insurance form or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to the work to be performed under this Agreement or the general aggregate limit shall be at least twice the required occurrence limit.

iii. Automobile Liability Coverage. Consultant shall maintain automobile liability insurance covering bodily injury and property damage for all activities of the Consultant arising out of or in connection with the work to be performed under this Agreement, including coverage for owned, hired and non-owned vehicles, in an amount of not less than one million dollars ($1,000,000) combined single limit for each occurrence.

iv. Professional Liability Coverage. Consultant shall maintain professional errors and omissions liability insurance for protection against claims alleging negligent acts, errors or omissions which may arise from Consultant or by its employees, or subcontractors. The amount of this insurance shall not be less than one million dollars ($1,000,000) on a claims-made annual aggregate basis, or a combined single-limit per occurrence basis.

b. Endorsements. Each general liability and automobile liability insurance policy shall be with insurers possessing a AM Best's rating of no less than A:VII and shall be endorsed with the following specific language:

i. City, its elected or appointed officers, officials, employees, agents and volunteers are to be covered as additional insured's under Consultant's General Liability and Automobile Liability policies with respect to liability arising out of this Agreement and/or work performed by or on behalf of the Consultant, including materials, parts or equipment furnished in connection with such work or operations.

ii. This policy shall be considered primary insurance as respects City, its elected or appointed officers, officials, employees, agents and volunteers. Any insurance maintained by City, including any self-insured retention City may have, shall be considered excess insurance only and shall not contribute with it.

iii. This insurance shall act for each insured and additional insured as though a separate policy had been written for each, except with respect to the limits of liability of the insuring Consultant.

iv. The insurer waives all rights of subrogation against City except for Consultant's Professional Liability and Employers' Liability policies, its elected or appointed officers, officials, employees or agents.

v. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to City, its elected or appointed officers, officials, employees, agents or volunteers.

vi. No policies of insurance carried by Consultant shall be suspended, voided, canceled, or changed in coverage or in limits except after thirty (30) days written notice to the City Attorney by Certified Mail.

c. Deductibles and Self-Insured Retentions. The Consultant shall be responsible for all deductibles in all of Consultant's insurance policies. The amount of deductibles for insurance coverage required herein shall be reasonable and approved by the City Attorney.

d. Certificates of Insurance. Consultant shall provide certificates of insurance with original endorsements to City as evidence of the

insurance coverage required herein. Consultant shall not commence work under this contract until all insurance required under this section has been approved by City as to form, amount and carrier, nor shall Consultant allow any subcontractor to commence work on any subcontract until all similar insurance required and reasonably consistent limits of the subcontractor has been so obtained and approved. Certificates of insurance shall contain no exclusions unless negotiated with the City Attorney and approved, in writing, by the City Attorney.

16. Notices. Any notice required to be given under this Agreement shall be in writing and either served personally or sent prepaid, first class mail. Any such notice shall be addressed to the other party at the address set forth below. Notice shall be deemed communicated within 48 hours from the time of mailing if mailed as provided in this section.

If to City: City of South Lake Tahoe
1901 Lisa Maloff Way
South Lake Tahoe, CA 96150

Provide a copy to: City Attorney's Office
City of South Lake Tahoe
1901 Lisa Maloff Way, Suite 300
South Lake Tahoe, CA 96150

If to Consultant: Aaron Brusatori, PE, Group Manager
3840 El Dorado Hills Blvd., Suite 301
El Dorado Hills, CA 95762

Provide a copy to: Tim Russell, PE, Engineering Director
308 N. Curry Street, Suite 200
Carson City, NV 89703

17. Assignment and Subcontracting. The parties recognize that a substantial inducement to City for entering into this Agreement is the professional reputation, experience and competence of Consultant. Assignments of any or all rights, duties or obligations of the Consultant under this Agreement will be permitted only with the express consent of City. Consultant shall not subcontract any portion of the work to be performed under this Agreement without the written authorization of City. If City consents to such subcontract, Consultant shall be fully responsible to City for all acts or omissions of the subcontractor. Nothing in the Agreement shall create any contractual relationship between City and subcontractor nor shall it create any obligation

on the part of City to pay or to see to the payment of any monies due to any such subcontractor other than as otherwise required by law.

18. Waiver. Waiver of a breach or default under this Agreement shall not constitute a continuing waiver of a subsequent breach of the same or any other provision under this Agreement.

19. Dispute Resolution. Any dispute concerning this Agreement will be first submitted to the City Manager or his designee for resolution. If no resolution is reached, such dispute shall be submitted to the City Council. The decision of the City Council shall be final and shall be appealable only to the El Dorado Superior Court pursuant to California Code of Civil Procedure §1094.5, and as provided by law.

20. Controlling Law Venue. This Agreement and all matters relating to it shall be governed by the laws of the State of California and any action brought relating to this Agreement shall be held exclusively in the Superior Courts in the County of El Dorado, South Lake Tahoe Division.

21. Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any Consultant or person, other than the independent contractors hired in accordance with Consultant's standard business practice, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid nor has it agreed to pay any Consultant or person, other than a bona fide employee working solely for Consultant or an independent contractor hired as discussed above, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

22. Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, disability, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination.

23. Drug-Free Workplace Certification. By signing this Agreement, Consultant hereby certifies under penalty of perjury under the laws of the State of California that the Consultant will comply with the requirements of the Drug-

Free Workplace Act of 1990 (Government Code Section 8350, et seq.) and will provide a drug-free work place by taking the following actions:

a. Publish a statement notifying employees that unlawful manufacture, distribution dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by Government Code Section 8355 (a).

b. Establish a Drug-Free Awareness Program as required by Government Code Section 8355(b) to inform employees about all of the following:

   i. The dangers of drug abuse in the workplace;
   ii. The person's or organization's policy of maintaining a drug-free workplace;
   iii. Any available counseling, rehabilitation and employee assistance program; and
   iv. Penalties that may be imposed upon employees for drug abuse violations.

c. Provide, as required by Government Code Section 8355(c), that every employee who performs grant activities under this Agreement:

   i. Will receive a copy of the Consultant's drug-free policy statement; and
   ii. Will agree to abide by the terms of the Consultant's statement as a condition of employment on this Agreement.

Failure to comply with these requirements may result in suspension of payments under this Agreement or termination of the Agreement, or both, and Consultant may be ineligible for award of any future City agreements if City determines that any of the following has occurred: the Consultant (1) has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

24. Anti-Lobbying Certification. Consultant shall submit to City the Anti-Lobbying Certification contained in **Exhibit C**. Further, Consultant shall require that the language of the certification in **Exhibit C** be included in all contracts or subcontracts entered into in connection with this Agreement and that all Consultants and contractors shall certify and disclose accordingly.

25. Debarment, Suspension, Ineligibility and Voluntary Exclusion. By signing this Agreement, Consultant assures that neither it nor its principals, is presently debarred, suspended, proposed for debarment, declared ineligible, or

voluntarily excluded from participating in covered transactions by any Federal department or agency.

26. Americans with Disabilities Act. By signing this Agreement, Consultant assures the City that it complies with the American with Disabilities Act (ADA) of 1990, (42 U.S.C. 12101, et. seq.), which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to ADA.

27. Amendments. This Agreement may be modified or amended only by a written document executed by both Consultant and City and approved as to form by the City Attorney.

28. Severability. If any term or portion of this Agreement is held to be invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this Agreement shall continue in full force and effect.

29. Entire Agreement. This Agreement constitutes the complete and exclusive statement of Agreement between City and Consultant. All prior written and oral communications, including correspondence, drafts, memoranda, and representations, are superseded in total by this Agreement.

30. Execution. This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

31. Time is of the Essence. Time is of the essence for this Agreement.

32. Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and to bind each respective party.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the date first written above.

**EXHIBIT A**

**SCOPE OF SERVICES**

## Task 1 – Project Management, Public Engagement, and Agency Coordination

The success of this project will be dependent upon our ability to successfully engage with stakeholders, the public and decision makers to communicate ideas and extract and receive constructive comments from each. Our team has extensive experience facilitating, managing and conducting meetings and outreach. Our team including Lumos, Design Workshop, WBA, LSC, and GPA will participate in our outreach meetings, so that subject matter experts are available to hear concerns and provide valuable responses. Our team is prepared to engage with stakeholders and the public.

Project Management will be provided by Aaron Brusatori, PE. Aaron will be the single point of contact for the City. He will perform regular check in calls with the City to keep them apprised of progress and challenges. He will prepare monthly status reports to be submitted with invoices. Lumos will schedule and facilitate all meetings. We will prepare agendas, sign in sheets, presentations, graphics and minutes. Each meeting will be conducted at a City facility.

Lumos will employ a layered approach to Public Engagement. We will first develop ideas and concepts for review and vetting by our team, providing each expert opportunity to shape the project. The best of these ideas will advance to discussion with City Staff.

After we have completed circulation and parking studies, we will engage stakeholders. Prepared with this information we will conduct an initial stakeholder meeting to understand their concerns and vision for the project.

We will include an on-site meeting with stakeholders where up to three specific cross sections can be evaluated in the field with the project team. We will use temporary paint or other markings, depending upon weather conditions, to show the proposed improvement limits including; sidewalks, bike lanes, motorized vehicle lane(s) and landscape areas, as applicable.

This Show-me effort has proven successful in clarifying the improvements so that those impacted most will be able to visualize on the ground the improvements.

We will take what we learn from the stakeholder on-site meeting to further improve the conceptual designs for the next layer, public engagement.

We will improve the conceptual exhibits and conduct a public meeting at a City of South Lake Tahoe venue. The meeting will be noticed in public places, with outreach sent directly to community organizations and groups. We will present the concepts and listen to the concerns, comments, and ideas from the meeting for further refinement of the conceptual designs.

The refined concepts will then be presented to the TAC, and City Planning Commission for comments and then to the City Council for selection of a preferred alternative. The public will have the opportunity at these meetings to voice their concerns during the final selection process.

A selection of the project team will be available to meet with funding, regulatory and partner agencies to ensure the selected alternative can be approved. We anticipate engaging with TRPA, and the State of California Lahontan Regional Water Quality Control Board, and others who may be identified though development of our conceptual alternatives and the preliminary environmental review of those alternatives.

### DELIVERABLES

- *Meetings | We will prepare agendas, graphics, sign in sheet, and prepare meeting minutes. We will set up, take down, and conduct the meetings for the proposed meetings schedule showcased below.*
- *Public Outreach Materials | We will prepare flyers containing meeting notice and select graphics to engage the public and generate interest.*
- *Status Reports, invoices and Check-in calls | We will perform biweekly check in calls with the City project manger. We will prepare and submit monthly project status reports and invoices*

| Meeting Descriptions and Target Group |
|---|
| *Meeting 1: Kickoff Meeting* |
| *Meeting 2: Communicate Project Intensions* |
| *Meeting 3: Preliminary Concepts* |
| *Meeting 4: Land Capability, Coverage, Land-use Encroachments, and Depth to ground water* |
| *Meeting 5: Conceptual Alternatives Review* |
| *Meeting 6: On-Site Review of Three Sections* |
| *Meeting 7: Present Concepts and Receive Feedback* |
| *Meeting 8: Lahontan Regional Water Quality* |
| *Meeting 9: Present Conceptual Alternatives* |
| *Meeting 10: Present Conceptual Alternatives & Select Preferred Alternative* |

**Key**

*CSLT Staff* *Stakeholders* *TRPA* *Public*
*Agency* *City Council* *Planning Commission*

** City of South Lake Tahoe to provide venue for public meetings*

## Task 2 – Constraints Analysis/Concepts Alternatives

Lumos will provide planning context by assembling, reviewing, and summarizing relevant planning documents, including (but not limited to) the 2016 TRPA Linking Tahoe Active Transportation Plan, the TRPA/ TMPO Lake Tahoe Complete Street Resource Guide, the Tourist Core Area Plan, Lakeside Park Plan Area Statement, TRPA Main Street Management Plan, Environmental Improvement Program (EIP) projects located in the vicinity of the Project Area, and others.

We will utilize engineering studies and utility systems maps as well as new information collected with this project including a drainage study, circulation study, parking study, CCTV inspections of underground storm drain and sanitary sewer and field surveying. This information will be utilized to identify constraints and develop concept alternatives.

A drainage study will be prepared to determine impacts from proposed changes in impervious areas. The study will identify the size of water quality features and underground conduits based upon City Standards. Water quality features may include vegetated basins, which have been observed to perform well in the area. On a more regional basis, reestablishing the marsh area between Lakeshore Boulevard and Sunrise Lane may be considered in the drainage study.

### *Utility Coordination*

Utility coordination efforts will begin with requests for systems maps. The utility locations shown on those maps will be plotted on a basemap. Because the utility provider maps are typically schematic in nature the actual location of the underground infrastructure will be identified by field efforts. Field efforts will start with location of the underground infrastructure using Ground Penetrating Radar (GPR). The operator will walk the work area and paint on the paved surface the locations of utilities and the approximate depth from the surface. These painted locations and depths will later be collected by land survey crews to accurately locate the utility alignments on the basemap. Utilities with shallow depth of coverage will be noted for subsequent potholing efforts if needed.

Conditions of the underground infrastructure will be evaluated through communications with each utility provider. For gravity systems such as storm drainage and sanitary sewer, we can use CCTV inspection to determine pipe condition. Underground utilities that are identified for upgrade and or replacement by the utility provider or from CCTV inspections will be noted on the basemap. We will initiate discussions of the undergrounding of overhead utilities with the utility owners, such as Liberty.

The existing 36” CPM storm drain in Stateline Avenue extends from Pine Blvd. to the shoreline of Lake Tahoe. We will explore the feasibility of extending the storm drain up Stateline Avenue to Lake Tahoe Blvd with drop inlets to reduce surface flow. We will evaluate the capacity of the existing basins to handle additional flows from this project. To reduce surface drainage flows over sidewalks, drainage from behind the proposed sidewalk(s) will be conveyed using thru sidewalk curb drains.

Underground infiltration chambers will be considered due to a lack of available property for storm water quality facilities. We would look into locating these east of Azure Ave. due to the higher infiltration rates and greater depth of groundwater, TRPA has mapped infiltration rates of 12.8 inches/hour in this area. Due to limited right-of-way in this corridor, we will consider the use of underground hydrodynamic separators for storm water pre-treatment.

There is a linear basin along Pine Street, south of the Alpen Rose Inn and another basin at Park Avenue and Pine Blvd which can be evaluated to determine if they have additional capacity to treat any increases in project runoff. Utilizing existing infrastructure would reduce the number of basin areas requiring perpetual maintenance. There may also be a stream environmental zone restoration opportunity to reestablish the marsh between Lakeshore Blvd. and Sunrise Lane as another storm water pretreatment area. It is our understanding that this grassy area was previously a wet marsh, which treated storm water runoff before reaching the lake. Over the years, this area has filled in and is no longer functioning as a pretreatment area. While restoring the marsh, it could be beautified with low-growing native vegetation.

### *Surveying - Topographic Survey and Right-of-Way*

A project base map will be created using a combination of photogrammetry and ground collected survey field shots. The project will be surveyed at a point density and accuracy intended to verify and densify existing topographic information, that Lumos has performed on adjacent projects. The base map will be presented at 40 scale with a 1- foot contour interval, consistent with National Map Accuracy Standards. Field shots will be obtained at critical locations such as building corners, roadways, surface evidence of utilities, including paint marks from GPR efforts to locate underground utilities, and sanitary sewer and storm drain lines and manhole dips. All relevant site features such as fences,

vegetation, bollards, electrical poles and equipment, landscape and curbs will be located. Existing trees within the project area 6 inches and greater will be located and shown on the base map.

Right of Way efforts will start with research of record maps and title reports, provided by the City of South Lake Tahoe, to determine existing ROW. Our team has performed several land surveying projects adjacent to the proposed project and understands that existing monumentation is infrequent and property corners will need to be determined based upon field surveys and lines of occupation. We will collect field data with our topographic efforts to determine the existing right of way. We will prepare record(s) of survey to memorialize the right of way and set monuments and or corners as necessary.

## Geotechnical Investigation

Lumos will perform a geotechnical investigation to characterize the soils in the areas proposed for storm infiltration facilities and pedestrian/roadway improvements. This investigation will include laboratory testing to determine existing structural sections, the R Values of underlying soil, soil strength and to confirm percolation rates and TRPA soils analysis. Structural sections will be recommended for various traffic index values and recommendations will be made for any retaining walls constructed with the project.

## Environmental Constraints

GPA will complete an Environmental Constraints Memorandum for use in the overall alternatives analysis. GPA would first review the design components of each alternative in order to prepare an abbreviated project description for each alternative. GPA would then establish the existing conditions of the project area through a review of relevant plans such as the City of South Lake Tahoe Tourist Core Area Plan, City of South Lake Tahoe Drainage Master Plan, the City of South Lake Tahoe Parking Management Plan, and any other relevant environmental documentation. GPA would conduct database searches for potential environmental concerns, such as cultural and biological resources, and create a map using Geographic Information Systems that identifies the size and proximity of environmental constraints within the project area. In addition to providing a summary of key environmental constraints, the memorandum would also include an estimated schedule and cost associated with environmental clearance for each alternative. The purpose of this memorandum would be to provide the City with a clear understanding of the environmental requirements for each alternative prior to selection of the preferred alternative.

Upon preliminary review of the project, GPA anticipates that the project may qualify for a statutory exemption for CEQA under Senate Bill (SB) 922 if no new right-of-way is required. SB 922 applies to "pedestrian and bicycle facilities that improve safety, access, or mobility, including new facilities, within the public right-of-way" and "the maintenance, repair, relocation, replacement, or removal of any utility infrastructure" associated with the project. If the project qualifies for an exemption under SB 922, no technical studies for the purpose of CEQA would be required and the only recommended environmental documentation would be a Notice of Exemption. If right-of-way is required, GPA would provide a recommendation for the level of CEQA documentation after 30 percent design has been completed.

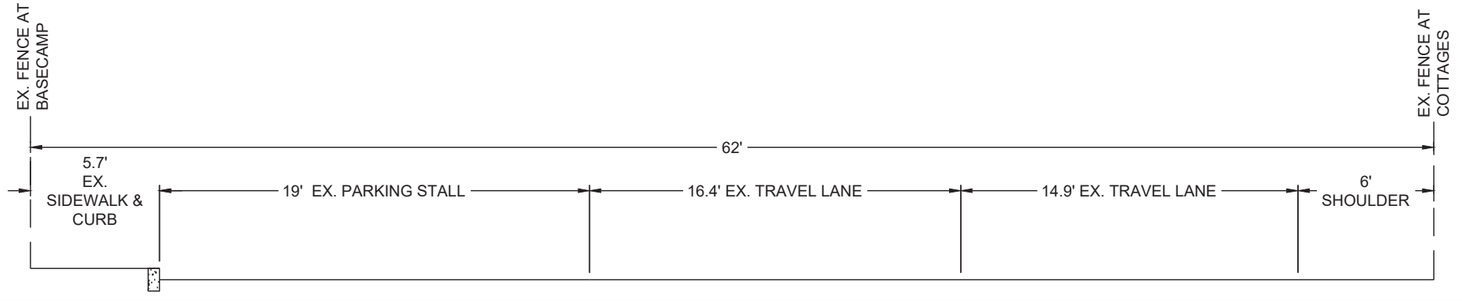
## *Conceptual Alternatives*

We have reviewed existing traffic counts and have found that at this time, the volumes do not prohibit a one-way circulation option. We have prepared two exhibits that shows in concept a potential complete streets cross section and plan view of Stateline Avenue including one way circulation which does not require right of way acquisition. We will further develop conceptual alternatives based upon the data we collect, and the studies performed. (Detailed in Exhibit A, on page 25.)

We will utilize the information gathered, as described above, including the Circulation Study and Parking Study performed in Task 3, to further clarify the project constraints. With this information, we will engage stakeholders including business owners, and owners and the Lakeside Park Association (Under Task 1) to solicit thoughts, and opinions and visions they have of this project.

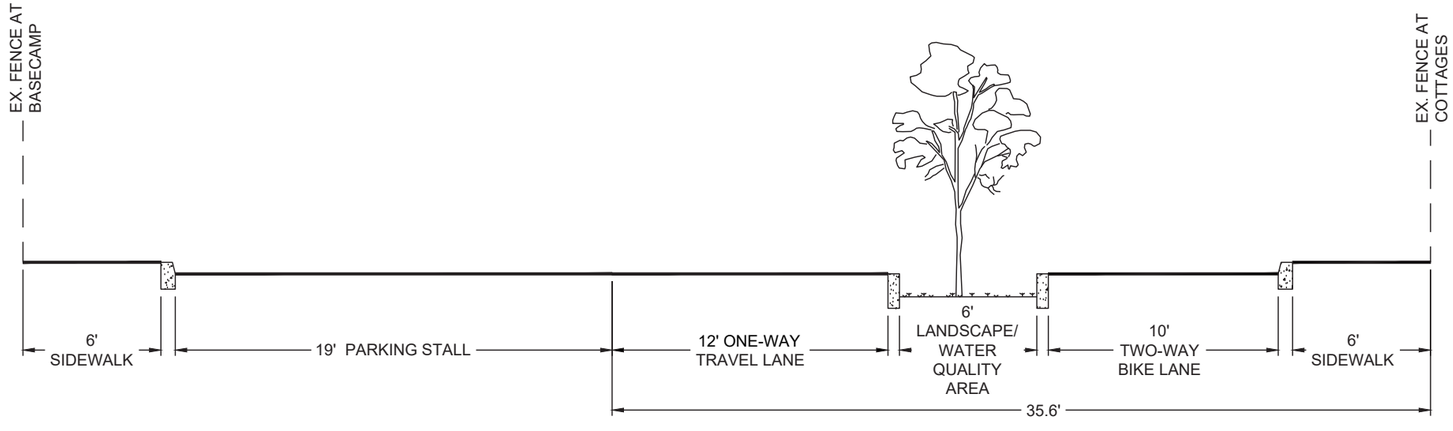
With a better understanding of the project constraints, we will develop up to five conceptual alternatives and a table of benefits and challenges of each. The alternatives and tables will be presented in a Preliminary Design Memorandum. We will conduct a meeting with City Staff to evaluate each alternative. We will listen to comments and determine which three will be advanced. The three selected conceptual alternatives will be refined for subsequent presentation to the public, the Planning Commission and City Council.

### DELIVERABLES



- *Topographic Survey and Right of Way Basemp*
- *Existing utility basemap*
- *Preliminary Drainage Study*
- *Geotechnical Report*
- *Design Constraints Memorandum*
- *Conceptual Design Illustrative Exhibits*
- *Conceptual Design Alternatives*
- *Plan View 20 Scale*
- *Cross Sections 10 Scale*

**Exhibit A** (Exhibit is displayed on an 11x17" page for best viewing)



**Stateline Avenue > Cedar Avenue to Manzanita Avenue** | *Aerial Imagery October 2023, Lumos & Associates*

## Existing Section

## Potential Section

## Task 3 – Circulation and Parking Study

The Stateline area of South Lake Tahoe California and Stateline Nevada is a unique area for transportation and circulation. A large visitor population stays in the big hotel/casinos in the area with winter recreation at Heavenly Ski area and summer recreation at Lake Tahoe and in the surrounding mountains. In addition, several venues hold large events throughout the year. This area has been studied many times with the intent to improve the circulation of cars and facilitate movement of people without cars. There is a traffic signal at US 50 intersection with Stateline Avenue as well as at Park Avenue. Stateline Avenue has minimal or no sidewalks or pedestrian area. There is also parking provided along Stateline Avenue in different locations including parallel, head in, and diagonal parking. Stateline Avenue is the most direct route for Stateline hotel guest to access Lake Tahoe. During the process of improving access along Stateline Avenue for pedestrians and bicyclists, there may need to be changes to the vehicle traffic and parking. In order to evaluate the possible alternatives including one-way vehicle traffic or no vehicle traffic on sections of Stateline Avenue the following task would be performed.

### *Circulation Study (Traffic Study)*

Intersection counts will be collected during a summer afternoon peak hour at the following locations. Note one-way sections of Stateline would effect many other roadways and intersections in the area. So the list of study intersections extends beyond Stateline Avenue in all directions.

- US 50/Stateline Avenue
- Stateline Avenue/Cedar Avenue
- Stateline Avenue/Manzanita Avenue
- Stateline Avenue/Pine Boulevard
- US 50/Park Lane
- Park Lane/Stateline Avenue
- Park Lane/Cedar Avenue
- Park Lane/Manzanita Avenue
- US 50/Lake Parkway
- Lake Parkway/Edgewood
- Lake Parkway/Hard Rock driveway

Counts will be reviewed to determine if any adjustment factor should be applied based on the time of year or event situation. Then baseline (existing) traffic volumes will be presented for all intersections. US 50 and Park Lane is known to be a poorly functioning intersection and likely the only intersection in the area that may need and could accommodate additional turn lanes. Therefore US 50/Park Lane will be evaluated for new turn lane.

The traffic counts will also be used to determine the Traffic Index for calculating appropriate structural sections for the future street.

### *Parking Study*

The next step would be to review recent parking counts in the area. LSC conducted parking counts in this area for a recent study at the Tahoe Blue Events Center. This count will be reviewed to determine if the data can be used or if new data will need to be collected. If new parking usage data is needed it would be collected in the summer, hourly from 1:00pm to 9:00pm along Stateline Avenue as well as along all intersecting roadways between Stateline Avenue and Park Lane. Next the amount of parking available along Stateline Avenue will be inventoried. For each business and residence along Stateline a basic parking calculation will be performed to determine the parking demand. The parking demand will be compared to the parking supply to determine any surplus or parking deficiencies. The results of the parking analysis will be another tool to evaluate the possible alternatives for Stateline Avenue including moving, rearranging, or removing parking. Parking management will be a significant piece of this project. Creative solutions will be analyzed based on the data collected. Limited parking in the area, residential and commercial parking needs, and spill over from paid parking on the Nevada side will be considered when developing parking options. A neighborhood parking permit program will be evaluated to see if it would solve some of the parking issues.

### *Alternatives Evaluations*

With the traffic and parking baselines established, project scenarios will be evaluated. Evaluation criteria include the following.

- vehicle circulation
- intersection level of service
- roadway capacity
- pedestrian access
- bicycle access and connections with existing trails
- transit service and access
- truck access and service driveways at Harvey's business driveway access and parking impacts
- qualitative discussion of impacts during large events

Reports will be prepared to present the Circulation Study and Parking Study. The conclusions from the circulation and parking alternatives evaluation will be used with the alternatives analysis performed in Task 2.

**DELIVERABLES**

- *Circulation Study – Draft and Final Report*
- *Parking Study – Draft and Final Report*

## Task 4 – Stateline Avenue Preliminary Plans / Estimates (30%)

Our team will advance the Alternative that is selected by the City Council to 30% plans. Lumos will prepare 30% plans incorporating the baseline survey and right of way information and incorporate any comments received from the City Council on the preferred alternative. We will include lane configuration and horizontal geometry, underground utility location, signage and striping, pavement structural sections, streetlight spacing, landscape architecture, and traffic signal integration.

The following critical design elements will be included on the plans:

- Identification of utilities to be replaced, upgraded or installed
- Identification of potential utility conflicts and incorporation of all utility relocation design requirements
- Right of Way and easement identification to clearly delineate work that may occur within existing public areas and areas where easement acquisition will be required
- Any areas of environmental concern
- Identification of roadway structural sections based upon soils information and Traffic Index

The 30% plans will provide sufficient detail on all design elements to allow for preparation of the 30% cost estimate and subsequent environmental review. Lumos will calculate quantities from the plans. We will research current unit costs from internal records as well as review recent published public works projects. We will then project unit costs based upon the expected year of construction.

Lumos will identify land coverage and calculate changes with the proposed project. This information will be utilized to verify Land Capability with TRPA. We will submit our findings to TRPA for review and concurrence.

To memorialize the efforts made to adopt the preferred alternative, we will prepare a Preliminary Design Report. This Preliminary Design Report will discuss the needs and goals, design standards, alternatives considered and the recommendations of the selected alternative. The design report will include discussion of construction issues, ADA compliance, Caltrans coordination, water quality, and future utility coordination efforts. We will include preliminary environmental review and identification of resources which will need additional study with the preparation of the CEQA/NEPA document.

**DELIVERABLES**

- *30% Design drawings*
- *30% Cost Estimate*
- *TRPA Applications*
- *Preliminary Design Report*

## Task 5 – Pre-Acquisition Services

Businesses will be reluctant to support any project that takes right of way or street parking from their parcel unless there is a clear benefit to their operations. During the initial phase we will define the existing right of way and utilize the parking study to determine the parking needs for the businesses. Our goal will be to help develop a collaborate strategy working with the City, business owners, and other stakeholders to develop win-win solutions for the business owner and the traveling public. This may include off street parking for businesses at different locations, limiting the overall design to one side of the street to allow for parking, or acquiring the area necessary for the project and paying the potential damages to the businesses caused by the project.

For each of the various alternatives, We will prepare a preliminary ROW estimate to support the overall project budget and alternative selection process.

**DELIVERABLES**

- *Review of conceptual alternatives*
- *Preliminary ROW estimate for each alternative*

**EXHIBIT B**

**SCHEDULE OF CHARGES AND TIMELINE**

Stateline Avenue Complete Streets – Budget Projection
July 2024 – October 2024

Cash Flow - July - October

| Task | July | August | September | October |
|---|---|---|---|---|
| Project Management | $ 10,000 | $ 10,000 | $ 10,000 | $ 10,000 |
| Public Engagement and Agency Coordination | $ 4,500 | $ 25,000 | $ 1,500 | $ 1,500 |
| Surveying | $ 8,000 | $ 42,000 | $ 31,200 | $ - |
| Utility Coordination & Location | $ 3,000 | $ - | $ 16,500 | $ - |
| Studies | | | | |
| Circulation Study | $ 5,000 | $ 9,000 | $ 9,000 | $ 9,000 |
| Parking Study | $ 4,000 | $ 6,000 | $ 6,000 | $ 6,000 |
| Drainage (Deferred) | | | | |
| Geotechical (Deferred) | | | | |
| Monthly Total | $ 34,500 | $ 92,000 | $ 74,200 | $ 26,500 |
| | | | **Total Thru October** | **$ 227,200** |

The above cash flow projection shown above is for partial fulfillment of the scope of services described in pages 19 – 26 of our proposal. Billing rates for Lumos and Associates will be consistent with our 2024 Fee Schedule (attached).

We anticipate the following effort in the first four months of this project:

- Project Management
  - Contracting with the Team members
  - Coordination
  - Check in calls and status reports
- Public Engagement and Agency Coordination
  - Project kickoff meeting with city staff
  - Initiation of project webpage
  - Initial stakeholder outreach
  - Stakeholder meeting
- Surveying
  - Boundary research and calculations
  - Boundary resolution
  - Aerial survey and ground shots, limited to key areas
- Utility Coordination & Location
  - Procurement of utility provider system maps for the Project Area
  - Dispatch of GPR crew to mark locations of underground utilities
- Studies
  - Circulation Study to cover Planning Area
  - Parking Study – adjacent to Stateline Avenue, Project Area
  - Drainage – Deferred
  - Geotechnical – Deferred

| Engineering | Per Hour |

| Copy & Print Services | Cost + 15% |
| Mileage (per mile) | 0.75 |

- Fees for prevailing wage rate projects are available upon request.
- Map filing, checking, consulting, and other fees paid on behalf of the client shall be billed at cost plus fifteen percent (15%).
- Overtime hours will be billed at 1.5 times the standard rate where applicable.
- Survey and Field crew billing rates include standard field survey equipment and truck up to 30 mile radius, after which mileage rates apply
- Fees for depositions and testimony will be billed at two (2) times the standard billing rates

**These rates apply to services rendered through December 31, 2024. Services provided after this date will be invoiced according to the Standard Fee Schedule in effect at that time.**

## EXHIBIT C

### ANTI-LOBBYING CERTIFICATION

**Consultant shall submit to City this certification prior to or at the time of the execution of this Agreement.**

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U. S. Code. Any person who fails to file the required certification shall be subject to a civil penalty not less than $10,000 and no more than $100,000 for such failure.

The undersigned certifies, to the best of his or her knowledge or belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement; and

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instruction.

Consultant:
Tim Russell, PE, Engineering Director

**COPYRIGHT 2000, AMS SERVICES INC.**

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**9

**Agenda Item:** Amendment No. 2 to Agreement with Wildscape Engineering, Inc. for Additional Design Services for the Upper Bijou Park Creek Watershed Restoration Project

**Executive Summary:** The Upper Bijou Park Creek Watershed Restoration Project is a watershed-scale project seeking to address water quality and flooding issues in a phased approach in order to provide treatment for urban runoff from roadways, commercial and residential areas in an approximately 850-acre watershed that discharges to Lake Tahoe via the Ski Run Marina. The City completed Phase 1 in 2018 with the redevelopment of the Knights Inn hotel, replacing the failing storm drain infrastructure with new storm water treatment basins and conveyance system integrated in the Whole Foods/Southwest Corner redevelopment project. The City is currently in Phase 2 of the project, focused on the large upper watershed area that is subject to historic flooding, development impacts in SEZ areas, and water quality issues. On June 15, 2021, the City Council approved Resolution 2021-046, which authorized staff to apply for Lake Tahoe Restoration Reauthorization Act funding from the U.S. Forest Service, accepted the grant funds, and appropriated the $750,000 in grant revenue. On June 7, 2022, the City Council approved Resolution 2022-066, which authorized a grant amendment for the project to increase the funding from the US Forest Services by an additional $1,000,000 with 12% ($120,000) of City Matching funds. On September 7, 2021, the City Council approved a contract with Wildscape Engineering, Inc. for professional services to complete the environmental document, plans, specifications, and estimates and property acquisition services for this project for a not to exceed the amount of $460,906.69, plus $7,500 in contingency budget. On March 14, 2023, the City Council passed a motion authorizing Amendment 1 to the professional services agreement with Wildscape Engineering, Inc. for additional services related to the project for a total not-to-exceed contract amount of $483,320.69. During the project, additional services that were originally unforeseen and outside the original scope of work arose. These include additional surveying and hydraulic modeling needs for a property recently acquired by the City for the project, supplemental potholing of existing utilities, changes to the design plans that were not originally anticipated, Caltrans technical reports to support design of the Osgood Basin Expansion, additional wetland delineation for an expanded project area south of Shirley Avenue, and minor project management services. The total cost for the additional services is $54,863.40 for a total not-to-exceed contract amount of $538,184.09.

**Requested Action / Suggested Motions:** Pass a Motion authorizing and directing the Mayor to execute Amendment No. 2 to the Agreement with Wildscape Engineering, Inc. for additional design services for the Upper Bijou Park Creek Watershed Restoration Project for the amount of $54,863.40 for a total not-to-exceed contract amount of $538,184.09.

**Responsible Staff Member:** Jason Burke, Complete Streets Program Manager and Brianna Greenlaw, Associate Civil Engineer

# City of South Lake Tahoe
Report to **City Council**

**Meeting Date: June 18, 2024**

**Title: Amendment No. 2 to Agreement with Wildscape Engineering, Inc. for Additional Design Services for the Upper Bijou Park Creek Watershed Restoration Project**

**Location:** Bijou Park Creek Watershed

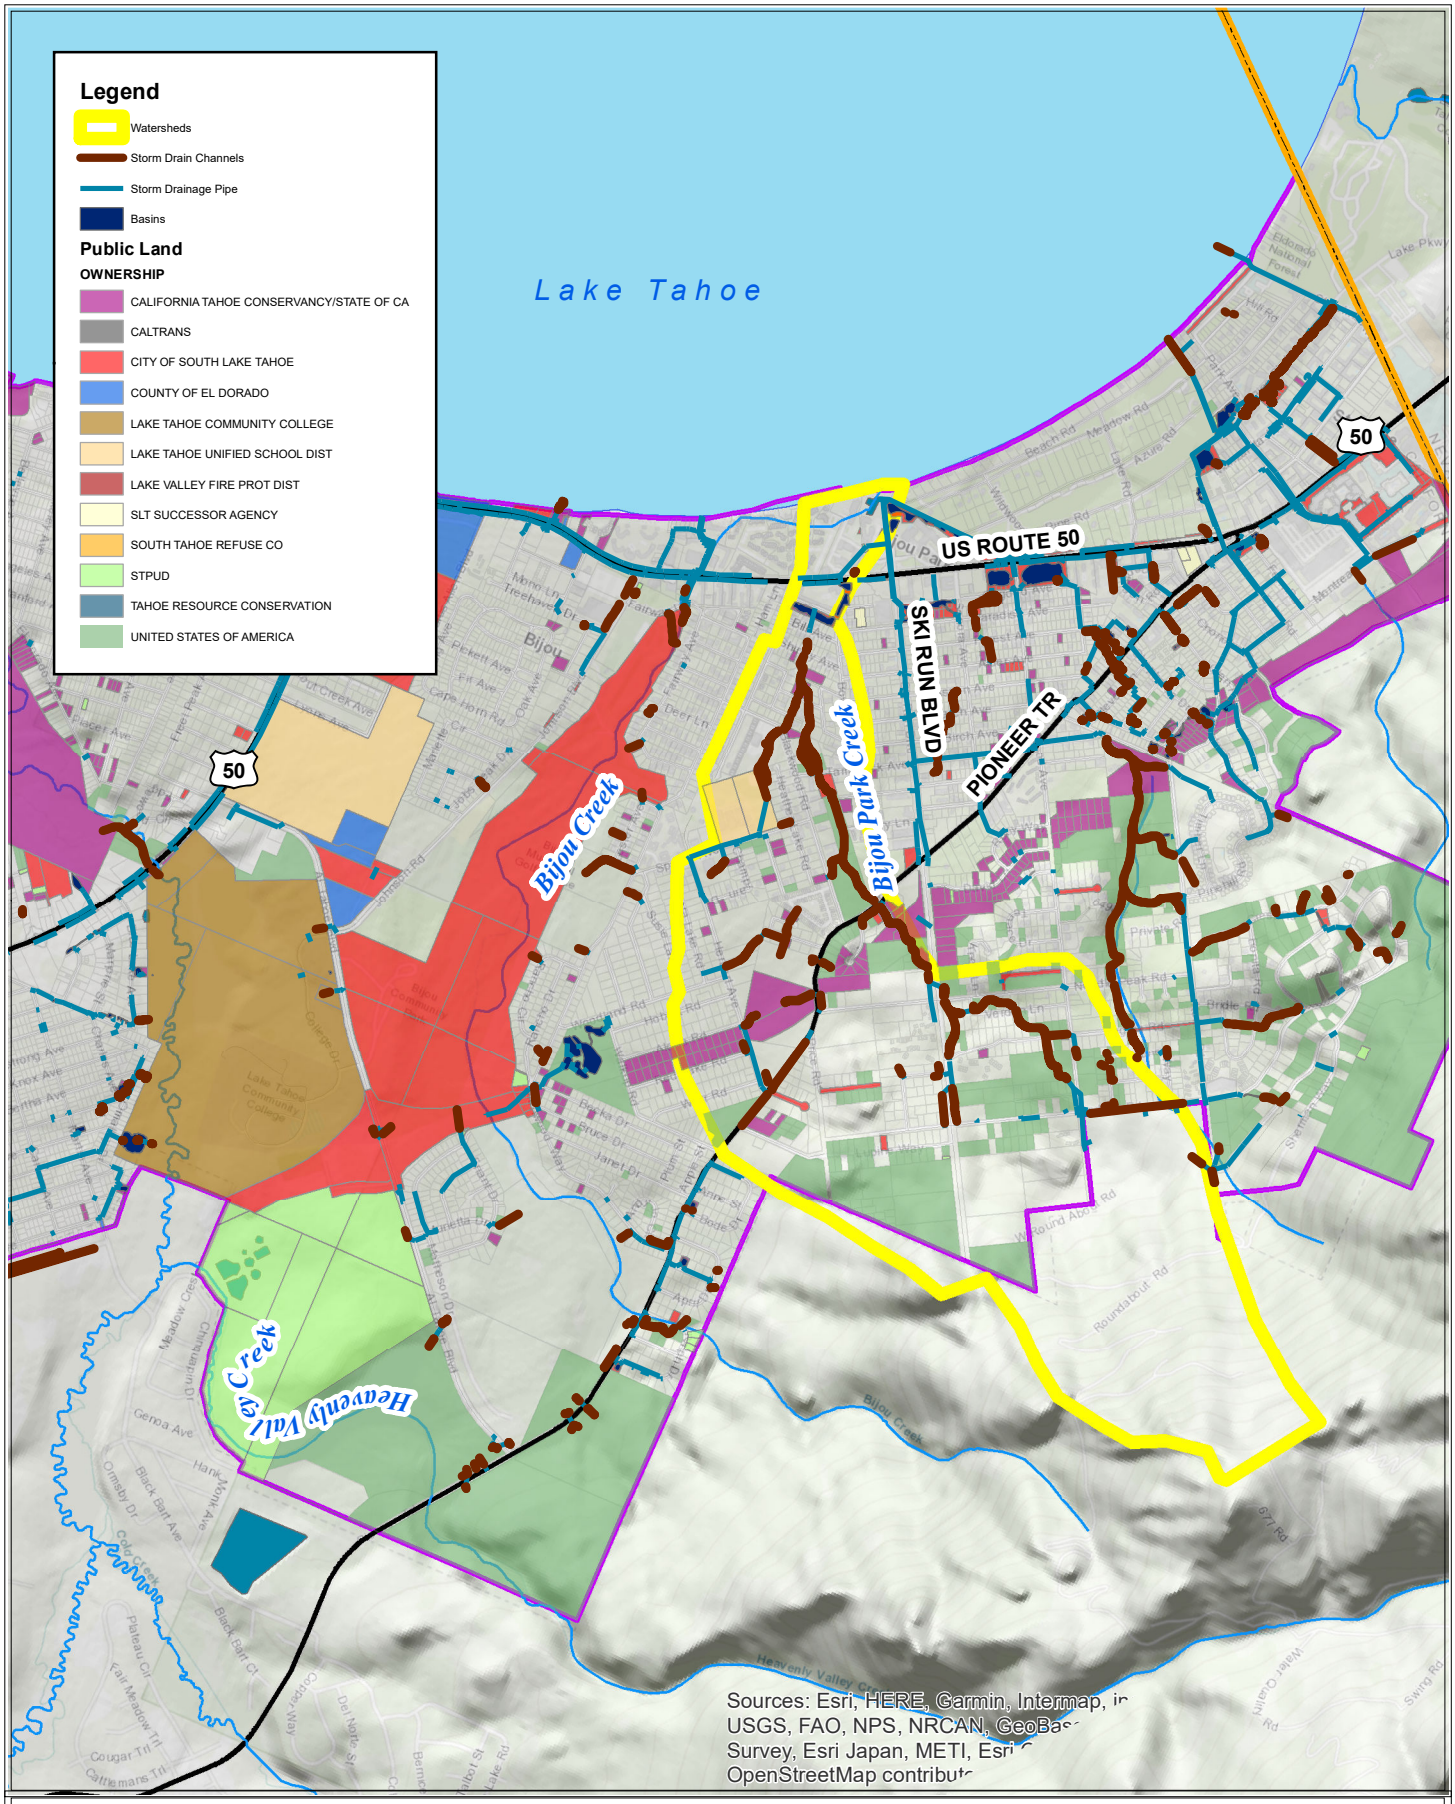
**Responsible Staff Member:** Jason Burke, Complete Streets Program Manager, and Brianna Greenlaw, Associate Civil Engineer

**Background:** The Upper Bijou Park Creek Watershed Restoration Project (Project) is a watershed-scale project seeking to address water quality and flooding issues in a phased approach in order to provide treatment for urban runoff from roadways, commercial and residential areas in an approximately 850-acre watershed that discharges to Lake Tahoe via the Ski Run Marina. (See Attachment 2 Project Location Map.) The City completed Phase 1 in 2018 with the redevelopment of the Knights Inn hotel, replacing the failing storm drainpipe with new stormwater treatment basins and conveyance system integrated in the new Wholefoods/Southwest Corner redevelopment project. The City is currently in Phase 2 of the project, focused on the large upper watershed area that is subject to historic flooding, development impacts in SEZ areas, and water quality issues. The upper watershed project includes plans to restore SEZ and floodplain areas, provide drainage solutions to support future active transportation improvements focused on the Bijou Community School and phase 1c of the Dennis Machida Memorial Greenway Trail, and include distributed natural treatment systems to reduce sediment and nutrients loads in urban runoff that has the potential to impact Lake Tahoe.

On June 15, 2021, the City Council approved Resolution 2021-046, which authorized staff to apply for Lake Tahoe Restoration Reauthorization Act funding from the U.S. Forest Service, accepted the grant funds, and appropriated the $750,000 in grant revenue. On June 7, 2022, the City Council approved Resolution 2022-066, which authorized a grant amendment for the project to increase the funding from the US Forest Services by an additional $1,000,000 with 12% ($120,000) of City Matching funds.

On September 7, 2021, the City Council approved a contract with Wildscape Engineering, Inc. for professional services to complete the environmental document, plans, specifications, and estimates and property acquisition services for this project for a not to exceed the amount of $460,906.69, plus $7,500 in contingency budget. (See Attachment 3 for Original Agreement.) On March 14, 2023, the City Council passed a motion authorizing Amendment 1 to the professional services agreement with Wildscape Engineering, Inc. for additional services related to the project for a total not-to-exceed contract amount of $483,320.69. (See Attachment 4 for Amendment 1 to the Agreement.)

**Issue and Discussion:** Wildscape Engineering has been working on all the project's tasks in their scope of services. During the project, additional services that were originally unforeseen and outside the original scope of work arose. These include additional surveying and hydraulic modeling needs for a property recently acquired by the City for the project, supplemental potholing of existing utilities, changes to the design plans that were not originally anticipated, Caltrans technical reports to support design of the Osgood Basin Expansion, additional wetland delineation for an expanded project area south of Shirley Avenue, and minor project management services. City staff has reviewed the additional services request and concurs with the extra work. The total cost for the additional services is $54,863.40 for a total not-to-exceed contract amount of $538,184.09. (See Attachment 5 for Amendment 2 to the Agreement.)



**Financial Implications:** The City has received total grant funds in the amount of $1,750,000 from the US Forest Service. Additionally, the City has allocated $120,000 in Undesignated General Funds as a matching component. Therefore, the current total budget for the project is $1,870,000, with $486,321 allocated for planning, engineering, and design and $1,266,679 allocated for construction.

Staff is proposing to transfer $54,863.40 from the construction phase to the planning, engineering, and design phase to finish the design of the overall watershed project and construction of the Rockwood to Blackwood portion of the project before the grant expires in 2026. Approval from the Forest Service staff has been obtained. The new distribution of the funds will be:

Engineering Design - Account 301-40051-48020: $538,184.09
Right of Way and Construction - Account 301-40051-48030: $1,211,815.91

**Environmental Considerations:** After completing all public noticing and review period required by relevant state laws, the Planning Commission adopted the CEQA Initial Study/Mitigated Negative Declaration for the Project on November 19, 2020 (SCH # 202090564). On May 16, 2024, the Planning Commission adopted an addendum to the CEQA Initial Study/Mitigated Negative Declaration for the Project.

**Policy Implications:** Completing the engineering designs and permitting will develop a project included in the Pollutant Load Reduction Plan to reduce fine sediment particles and nutrients in urban runoff, as required by the Lake Tahoe TMDL. The project will also seek to mitigate drainage and flooding issues along Blackwood Avenue and around the Bijou Elementary school, as identified in the recently updated Drainage Master Plan. In accordance with Strategic Priority 5.5 (Fiscal Sustainability, Resiliency & Transparency), staff recommends that the City Council approve this agreement, which is primarily grant funded and will help achieve Strategic Priority 5.3 (Infrastructure and Maintenance) to develop sustainable capital improvement infrastructure projects.

# CITY OF SOUTH LAKE TAHOE
# PROFESSIONAL SERVICES AGREEMENT

This Agreement is made and entered into as of the 7th day of September 2021 by and between the **City of South Lake Tahoe**, a municipal corporation ("City") and Wildscape Engineering, Inc.("Consultant").

## RECITALS

A. Consultant is specially trained, experienced and competent to perform the special services which will be required by this Agreement.

B. Consultant possesses the skill, experience, ability, background, certification and knowledge to provide the services described in this Agreement on the terms and conditions described herein.

C. City desires to retain Consultant to render professional services as set forth in this Agreement.

## AGREEMENT

1. Scope of Services. Consultant shall perform the services set forth in this agreement and shall provide said services at the time, place, and in the manner specified in this agreement. Consultant shall have no power or authority by this Agreement to bind City in any respect.

   The Consultant agrees that it has satisfied itself by its own investigation and research regarding the conditions affecting the work to be done and labor and materials needed, and that its decision to execute this Contract is based on such independent investigation and research.

   All services provided by Consultant pursuant to this Agreement will be provided in accordance with the terms set forth in the **Exhibit A, "Bijou Park Creek Watershed Restoration Project Phase 2 Engineering Services Scope,"** attached hereto and incorporated herein by reference. **Exhibit B, "Compensation Schedule,"** attached hereto and incorporated herein by reference, outlines the fees and compensation which shall be paid pursuant to this Agreement.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

2. Term/Time of Performance. The services by Consultant are to commence upon the execution of the Agreement and continue for four years.

3. Compensation. Compensation to be paid to Consultant shall be in accordance with the Schedule set forth in **Exhibit B** which is attached hereto and incorporated herein by reference. In no event shall Consultant's compensation, including travel and out-of-pocket expenses, exceed **$460,906.69** without additional written authorization from City. Payment by City under this Agreement shall not be deemed a waiver of defects, even if such defects were known to City at the time of payment. Payment is contingent upon compliance with all terms and conditions of this Agreement, as set forth herein. Consultant shall obtain prior written authorization from the City Project Manager for any costs in excess of budgeted amounts for each line item, task, or obligation under the Scope of Services.

4. Method of Payment. Consultant shall submit monthly billings to City describing the work performed during the preceding month. Consultant's bills shall include a brief description of the services performed, the date the services were performed, the number of hours spent and by whom, the applicable hourly rate, and a description of any reimbursable expenditures. City shall pay Consultant no later than 30 days after approval of the monthly invoice by City staff.

5. Extra Work. At any time during the term of this Agreement, City may request that Consultant perform extra work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, extra work without prior written authorization from City.

6. Termination. This Agreement may be terminated by City or Consultant immediately for cause or without cause upon thirty days (30) days written notice of termination. Upon termination, Consultant shall be entitled to compensation for services performed up to the effective date of termination, and City shall be entitled to all work performed to that date.

   Termination, revocation, or expiration of this Agreement shall not release either party from liability resulting from an event which occurred prior to such termination, revocation or expiration.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

7. Ownership of Documents.
All plans, studies, documents and other writings, including working notes and internal documents, prepared by and for Consultant, its officers, employees and agents and subcontractors in the course of implementing this Agreement, shall become the property of City upon payment to Consultant for such work, and City shall have the sole right to use such materials in its discretion without further compensation to Consultant or to any other party. Consultant shall, at Consultant's expense, provide such reports, plans, studies, documents and other writings to City upon written request. All documents prepared by Consultant are confidential and shall be maintained to preserve their confidential nature. Release of any such documents to third parties shall only be made upon written consent of City.

8. Consultant's Books and Records.

a. Consultant shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services, or expenditures and disbursements charged to City for a minimum period of three (3) years, or for any longer period required by law, from the date of final payment to Consultant for services provided pursuant to this Agreement.

b. Consultant shall maintain all documents and records which demonstrate performance under this Agreement for a minimum period of three (3) years, or for any longer period required by law, from records shall be available at Consultant's address indicated for the date of termination or completion of this Agreement.

c. Any records or documents required to be maintained pursuant to this Agreement shall be made available for inspection or audit, at any time during regular business hours, upon written request by the City Manager, City Attorney, City Auditor or a designated representative of these officers. Copies of such documents shall be provided to City for inspection at City offices when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the receipt of notices in this Agreement.

d. Where City has reason to believe that such records or documents may be lost or discarded due to dissolution, disbandment or termination of Consultant's business, City may, by written request by

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

any of the above-named officers, require that custody of the records be given to City and that the records and documents be maintained at City offices. Access to such records and documents shall be granted to any party authorized by Consultant, Consultant's representatives, or Consultant's successor-in-interest.

9. Independent Contractor. It is understood that Consultant, in the performance of the work and services agreed to be performed, shall act as and be an independent contractor and shall not act as an agent or employee of City. Consultant shall obtain no rights to retirement benefits or other benefits which accrue to City's employees, and Consultant hereby expressly waives any claim it may have to any such rights. All employees, agents, contractors or subcontractors hired or retained by Consultant are employees, agents, contractors or subcontractors of Consultant and not of the City.

City is not required to make any deductions or withholdings form the compensation payable to Consultant under the provisions of this Contract, and is not required to issue W-2 Forms for income and employment tax purposes for any of Consultant's assigned personnel. Any third party persons employed by Consultant shall be entirely and exclusively under the direction, supervision, and control of Consultant. Consultant hereby indemnifies and holds City harmless from any and all claims that may be made against City based upon any contention by any third party that an employer-employee relationship exists by reason of this Contract.

10. Interest of Consultant. Consultant, (and principals, associates and professional employees of consultant) covenants and represents that it does not now have any investment or interest in real property and shall not acquire any interest, direct or indirect, in the area covered by this Agreement or any other source of income, interest in real property or investment which would be affected in any manner or degree by the performance of Consultant's services hereunder. Consultant further covenants and represents that in the performance of its duties hereunder no person having any such interest shall perform any services under this Agreement.

Consultant is not a designated employee within the meaning of the Political Reform Act because Consultant:

a. Will conduct research and arrive at conclusions with respect to his/her rendition of information, advice, recommendation or counsel independent of the control and direction of City or of any City official, other than normal agreement monitoring; and,

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

b. Possesses no authority with respect to any city decision beyond rendition of information, advice, recommendation or counsel. [FPPC Reg. 18700(a)(2)].

11. Professional Ability of Consultant. City has relied upon the professional training and ability of Consultant to perform the services hereunder as a material inducement to enter into this Agreement. Consultant shall therefore provide properly skilled professional and technical personnel to perform all services under this Agreement. All work performed by Consultant under this Agreement shall be in accordance with applicable legal requirements and shall meet the standard of quality ordinarily to be expected of competent professionals in Consultant's field of expertise.

12. Compliance with Laws. Consultant shall comply with all applicable federal, state, regional and local laws, codes, ordinances and regulations in carrying out his/her duties under this Agreement. Consultant shall observe and comply with all applicable laws, ordinances, regulations and codes of federal, state and local governments, and shall commit no trespass on any public or private property in performing any of the work authorized by this Agreement. The City, its officials, officers, elected officials, appointed officials and employees shall not be liable at law or in equity as a result of any failure of Consultant to comply with this section.

In the event it is determined that the Consultant is required to pay prevailing wages for the work performed under this Agreement, the Consultant shall pay all penalties and wages as required by law.

13. Licenses. Consultant represents and warrants to City that it has all licenses, permits, qualifications, insurance and approvals of whatsoever nature which are legally required of Consultant to practice its profession. Consultant represents and warrants to City that Consultant shall, at its sole cost and expense, keep in effect or obtain at all times during the term of this Agreement, any licenses, permits, insurance and approvals which are legally required of Consultant to practice its profession. Consultant shall maintain a City of South Lake Tahoe business license at all times services are performed under this Agreement. Consultant acknowledges that payments made pursuant to this Agreement may be withheld until this provision has been satisfied.

14. Indemnity. Consultant hereby agrees to and shall indemnify and hold harmless City, its elected and appointed boards, officers, agents, employees and volunteers from and against any liability for any and all claims, demands, actions, losses, damages and injuries, direct or indirect (including any and all

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

costs and expenses in connection therein), arising out of this Agreement or caused in any way by Consultant's negligent performance of this Agreement or its breach of its obligations contained in this Agreement, except for any such claims arising out of the negligence or willful misconduct of the City. Consultant agrees to defend City from and against any and all losses, damages, claims costs and fees arising out Consultant's negligent acts, errors, omissions, regarding this Agreement, the Consultant's work under this Agreement, or the consultant's Scope of Work.

City does not, and shall not, waive any rights against Consultant which it may have by reason of the aforesaid hold harmless agreement, because of the acceptance by City, or the deposit with City by Consultant, of any of the insurance policies hereinafter set forth.

This hold harmless agreement by Consultant shall apply to all damages and claims for damages, or alleged to have been suffered, by reason of any of the aforesaid operation of Consultant or any subcontractor, regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

Consultant further waives any and all rights to any type of express or implied indemnity or right of contribution from the City for any liability, claims, demands, costs, charges and expenses and causes of action of whatsoever arising out of or in any way connected with this Agreement, and consultant's work under this Agreement.

15. Insurance Requirements.

a. Consultant, at Consultant's own cost and expense, shall procure and maintain, for the duration of the contract, the following insurance policies.

i. Workers' Compensation Coverage. Consultant shall maintain Workers' Compensation Insurance and Employer's Liability Insurance for his/her employees in accordance with the laws of the State of California. In addition, Consultant shall require each subcontractor to similarly maintain Workers' Compensation Insurance and Employer's Liability Insurance in accordance with the laws of the State of California for all of the subcontractor's employees. Any notice of cancellation of all Workers' Compensation policies must be received by City at least thirty (30) days prior to such change. Consultant shall provide thirty (30) days written notice of nonrenewal of any

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

Workers' Compensation policies. The insurer shall agree to waive all rights of subrogation against City, its officers, agents, employees and volunteers for losses arising from work performed by Consultant for City.

ii. Commercial General Liability Coverage. Consultant shall maintain commercial general liability insurance no less broad than ISO form CG 00 01 in an amount not less than one million dollars ($1,000,000) per occurrence for bodily injury, personal injury and property damage. Coverage must be made on the standard Occurrence form. Claims-Made forms are not acceptable without prior written consent of City. City of South Lake Tahoe must be endorsed as an additional insured for liability arising out of ongoing operation by on behalf of Consultant. If a commercial general liability insurance form or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to the work to be performed under this Agreement or the general aggregate limit shall be at least twice the required occurrence limit.

iii. Automobile Liability Coverage. Consultant shall maintain automobile liability insurance covering bodily injury and property damage for all activities of the Consultant arising out of or in connection with the work to be performed under this Agreement, including coverage for owned, hired and non-owned vehicles, in an amount of not less than one million dollars ($1,000,000) combined single limit for each occurrence.

iv. Professional Liability Coverage. Consultant shall maintain professional errors and omissions liability insurance for protection against claims alleging negligent acts, errors or omissions which may arise from Consultant or by its employees, or subcontractors. The amount of this insurance shall not be less than one million dollars ($1,000,000) on a claims-made annual aggregate basis, or a combined single-limit per occurrence basis.

b. Endorsements. Each general liability and automobile liability insurance policy shall be with insurers possessing a AM Best's rating of no less than A:VII and shall be endorsed with the following specific language:

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

i. City, its elected or appointed officers, officials, employees, agents and volunteers are to be covered as additional insured's under Consultant's General Liability and Automobile Liability policies with respect to liability arising out of this Agreement and/or work performed by or on behalf of the Consultant, including materials, parts or equipment furnished in connection with such work or operations.

ii. This policy shall be considered primary insurance as respects City, its elected or appointed officers, officials, employees, agents and volunteers. Any insurance maintained by City, including any self-insured retention City may have, shall be considered excess insurance only and shall not contribute with it.

iii. This insurance shall act for each insured and additional insured as though a separate policy had been written for each, except with respect to the limits of liability of the insuring Consultant.

iv. The insurer waives all rights of subrogation against City except for Consultant's Professional Liability and Employers' Liability policies, its elected or appointed officers, officials, employees or agents.

v. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to City, its elected or appointed officers, officials, employees, agents or volunteers.

vi. No policies of insurance carried by Consultant shall be suspended, voided, canceled, or changed in coverage or in limits except after thirty (30) days written notice to the City Attorney by Certified Mail.

c. Deductibles and Self-Insured Retentions. The Consultant shall be responsible for all deductibles in all of Consultant's insurance policies. The amount of deductibles for insurance coverage required herein shall be reasonable and approved by the City Attorney.

d. Certificates of Insurance. Consultant shall provide certificates of insurance with original endorsements to City as evidence of the insurance coverage required herein. Consultant shall not commence work under this contract until all insurance required under this section has been approved by City as to form, amount and carrier, nor shall Consultant allow any subcontractor to

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

commence work on any subcontract until all similar insurance required and reasonably consistent limits of the subcontractor has been so obtained and approved. Certificates of insurance shall contain no exclusions unless negotiated with the City Attorney and approved, in writing, by the City Attorney.

16. Notices. Any notice required to be given under this Agreement shall be in writing and either served personally or sent prepaid, first class mail. Any such notice shall be addressed to the other party at the address set forth below. Notice shall be deemed communicated within 48 hours from the time of mailing if mailed as provided in this section.

South Lake Tahoe, CA 96150

If to Consultant:

Provide a copy to:

17. Assignment and Subcontracting. The parties recognize that a substantial inducement to City for entering into this Agreement is the professional reputation, experience and competence of Consultant. Assignments of any or all rights, duties or obligations of the Consultant under this Agreement will be permitted only with the express consent of City. Consultant shall not subcontract any portion of the work to be performed under this Agreement without the written authorization of City. If City consents to such subcontract, Consultant shall be fully responsible to City for all acts or omissions of the subcontractor. Nothing in the Agreement shall create any contractual relationship between City and subcontractor nor shall it create any obligation on the part of City to pay or to see to the payment of any monies due to any such subcontractor other than as otherwise required by law.

18. Waiver. Waiver of a breach or default under this Agreement shall not constitute a continuing waiver of a subsequent breach of the same or any other provision under this Agreement.

19. Dispute Resolution. Any dispute concerning this Agreement will be first submitted to the City Manager or his designee for resolution. If no resolution is reached, such dispute shall be submitted to the City Council. The decision of

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

the City Council shall be final and shall be appealable only to the El Dorado Superior Court pursuant to California Code of Civil Procedure §1094.5, and as provided by law.

20. Controlling Law Venue. This Agreement and all matters relating to it shall be governed by the laws of the State of California and any action brought relating to this Agreement shall be held exclusively in the Superior Courts in the County of El Dorado, South Lake Tahoe Division.

21. Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any Consultant or person, other than the independent contractors hired in accordance with Consultant's standard business practice, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid nor has it agreed to pay any Consultant or person, other than a bona fide employee working solely for Consultant or an independent contractor hired as discussed above, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

22. Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, disability, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination. Consultant shall also comply with all relevant provisions of City's Minority Business Enterprise program, Affirmative Action Plan, or other related programs or guidelines currently in effect or hereinafter enacted.

23. Drug-Free Workplace Certification. By signing this Agreement, Consultant hereby certifies under penalty of perjury under the laws of the State of California that the Consultant will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350, et seq.) and will provide a drug-free work place by taking the following actions:
    a. Publish a statement notifying employees that unlawful manufacture, distribution dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by Government Code Section 8355 (a).

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

b. Establish a Drug-Free Awareness Program as required by Government Code Section 8355(b) to inform employees about all of the following:

   i. The dangers of drug abuse in the workplace;
   ii. The person's or organization's policy of maintaining a drug-free workplace;
   iii. Any available counseling, rehabilitation and employee assistance program; and
   iv. Penalties that may be imposed upon employees for drug abuse violations.

c. Provide, as required by Government Code Section 8355(c), that every employee who performs grant activities under this Agreement:

   i. Will receive a copy of the Consultant's drug-free policy statement; and
   ii. Will agree to abide by the terms of the Consultant's statement as a condition of employment on this Agreement.

Failure to comply with these requirements may result in suspension of payments under this Agreement or termination of the Agreement, or both, and Consultant may be ineligible for award of any future City agreements if City determines that any of the following has occurred: the Consultant (1) has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

24. Anti-Lobbying Certification. Consultant shall submit to City the Anti-Lobbying Certification contained in **Exhibit C**. Further, Consultant shall require that the language of the certification in **Exhibit C** be included in all contracts or subcontracts entered into in connection with this Agreement and that all Consultants and contractors shall certify and disclose accordingly.

25. Debarment, Suspension, Ineligibility and Voluntary Exclusion. By signing this Agreement, Consultant assures that neither it nor its principals, is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

26. Americans with Disabilities Act. By signing this Agreement, Consultant assures the City that it complies with the American with Disabilities Act (ADA) of 1990, (42 U.S.C. 12101, et. seq.), which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to ADA.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

27. Amendments. This Agreement may be modified or amended only by a written document executed by both Consultant and City and approved as to form by the City Attorney.

28. Severability. If any term or portion of this Agreement is held to be invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this Agreement shall continue in full force and effect.

29. Entire Agreement. This Agreement constitutes the complete and exclusive statement of Agreement between City and Consultant. All prior written and oral communications, including correspondence, drafts, memoranda, and representations, are superseded in total by this Agreement.

30. Execution. This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

31. Time is of the Essence. Time is of the essence for this Agreement.

32. Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and to bind each respective party.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the date first written above.

**Re: Phase 2 Scope for Final Engineering Design, Planning and Permitting Services for the Bijou Park Creek Watershed Restoration Project**

Dear Mr. Burke,

Respectfully submitted is our updated Final Engineering Design and Planning Services Scope for the second phase of the Bijou Park Creek Watershed Restoration Project. Wildscape Engineering, Inc. is pleased and excited to continue to provide professional engineering and related services to develop and advance the stormwater collection, conveyance, and treatment improvements for the Bijou Park Creek Watershed to final construction documents and permits.

Please contact me if you have questions or need additional information. Our entire team looks forward to continuing on this important project.

Sincerely,

Carol Beahan, PE, QSD, President

# I. INTRODUCTION

We are pleased to provide this update to the Phase 2 scope and costs for the continuation of the Bijou Park Creek Restoration Project (Project) for the City of South Lake Tahoe. **Wildscape Engineering Inc. (Wildscape Engineering)** will proceed with the same team of design and environmental experts that were originally contracted for both Phase 1 and Phase 2. Together with our sub-consultants, **Northwest Hydraulic Consultants (NHC), Nevada Tahoe Conservation District (NTCD), Catalyst Environmental Solutions Corporation (Catalyst), Insite Land Surveys, Western Botanical Services, Interwest Consulting Group, and Lynn Barnett & Associates** we have decades of experience and several implemented projects in the Tahoe Region, including direct experience in the Bijou Park Creek watershed from the Heavenly Ski Resort headwaters to the lower urbanized drainages. We are cognizant of the need to design facilities that will be reliable over the long term and easy to access and maintain. We also recognize the threat of unintended consequences, such as raising water tables in locations where drainage problems do not currently exist.

# II. SCOPE OF WORK UNDERSTANDING

## OVERVIEW

The 850-acre Bijou Park Creek watershed represents a highly altered watershed due to the diversion of the headwaters of Keller Canyon at Heavenly Valley Ski Resort into it. The artificial expansion of the watershed has greatly increased peak flows, which directly leads to flooding problems in the lower watershed, particularly in the vicinity of Bill and Shirley Avenues. Early development of the low-lying properties in or adjacent to SEZs such as along Blackwood Avenue and in the vicinity of Woodbine have only exacerbated the problems. Phase 1 aimed for water quality improvements and flood alleviation via various means and locations listed here and carried through 30% designs and CEQA document. The Project Team will continue to refine the designs through 60, 90 and 100 percent detail, complete the appropriate NEPA environmental document and special studies, and be open and flexible to change as new information and priorities emerge.

30% Project List

- Needle Peak Localized Treatment
- Shirley to Whole Foods
- Osgood Expansion
- Ski Run Blvd Diversion
- Pioneer Crossing Culvert
- Bijou Park Creek SEZ Enhancement
- Upper Bijou Park Creek
- Keller Canyon Bypass
- Bijou School Frontage Drainage Improvements
- Rockwood to Blackwood Drainage Improvements
- Aloha Basin

## PROJECT WORK TASKS AND APPROACH

The following Project Work Tasks are a composite of those listed in the RFP #02-01-2019 altered to reflect the later phases of design and with modifications to better inform and guide stakeholders, develop a legally-defensible NEPA document, acquire the necessary land use permissions, and develop fully executable and sound plans, specifications, and cost estimates for 65, 90, and 100% designs.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

## TASK 1. PROJECT MANAGEMENT, OUTREACH, PUBLIC MEETINGS, AND COORDINATION

### 1.1 TAC, Public, and Client Meeting Continued Coordination and Participation, Project Management

The Project Manager will coordinate directly with the City of South Lake Tahoe (City) Project Manager and the design team members to schedule, prepare for, and facilitate all design team meetings, property owners' meetings, public meetings, and Technical Advisory Committee (TAC) meetings. We will prepare all draft meeting agendas, presentations, public outreach materials (meeting letters & notices), sign-in sheets, plan sheets, materials samples, etc. for the City's review prior to finalizing and displaying/sharing in the various meeting forums.

This task includes time to coordinate with concurrent project efforts in the vicinity of Bijou Park Creek including the California Tahoe Conservancy's Greenway Project, Southwest Gas and South Tahoe Public Utility District utility line upgrades and the Pioneer Trail Pedestrian Improvement Project.

This task includes time to prepare for and participate in 60% and 90% Design Review Meetings with City staff and TAC members. Under this task, we will produce high quality exhibits to help portray the design development information, amenity features, and planning stages to the attendees at the various meetings stated above.

### 1.2 Phase 2 Kick Off Meeting

We propose as part of Task 1 to conduct a Phase 2 Kick Off meeting in the field with the City and Design Team to review existing conditions, 30% designs, and proposed design changes. This meeting will specifically discuss evaluating the capacity and inner workings of the Wildwood Basin and Overflow to accommodate potential changes to the location of Keller Bypass.

### 1.3 Planning Commission and City Council Meetings

There is a critical need to keep both the Planning Commission and City Council appraised of milestones, accomplishments, and deliverables. The regularly scheduled meetings of these bodies provide an opportunity to solicit feedback from both the council and commission members as well as the general public in short workshop-type agenda items. Our Project Manager will lay out and reach agreement with the City Project Manager the key design deliverables that should be presented in this way to these committees to streamline the Major Design Review process and Catalyst and key team members will present to the City Planning Commission and City Council the NEPA documents for discussion and adoption.

## TASK 2. SITE SURVEYING

Some supplemental surveying of existing stormdrain infrastructure is required to refine the 30% designs moving into 60% detail and evaluate proposed changes. For example, inlet elevations of the recently installed culvert crossings at Pioneer Trail and Charlesworth Court will be surveyed in order to accurately show current conditions on the plans. Additional survey data will be collected on Spruce Avenue infrastructure to inform the Bijou School Frontage Drainage Improvement designs and on Sonora Avenue down to Osgood Basin in order to inform designs for the potential revised Keller Clean Water Bypass alignment down Sonora rather than Ski Run.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

In order to fine tune the Bijou Park Creek hydraulic model completed during Phase 1 that was based on available LiDAR topographic data and therefore didn't fully capture the current channel and floodplain details, we propose conducting a Total Station topographic survey of the Bijou Park creek channel and floodplain within the project limits. Wildscape and NTCD engineers will conduct the survey and consult with NHC and the landowner and key stakeholder, USDA Forest Service Lake Tahoe Basin Management Unit (LTBMU) to ensure all key channel and floodplain data is collected in sufficient detail.

### 2.1 Supplemental Survey for Stormdrain Design and Bijou Park Creek Hydraulic Model Refinement

Supplemental surveying will be conducted to capture additional existing pipe inverts including a full utility survey/dip for Keller Bypass, additional survey data for Bijou School, the recently installed pipeworks at Pioneer Crossing and areas along Blackwood to support detailed design development.

To develop a more comprehensive and accurate hydraulic model to inform restoration designs for Bijou Park Creek a Total Station survey will be conducted to collect the channel longitudinal profile, representative cross-sections, and cross-valley berms to sufficiently define the HEC-RAS 2-D surface, adjacent pavement elevations, and key drainage inputs. This effort will facilitate a more accurate hydraulic assessment of the channel capacity, determine any potential flood risk to adjacent property or infrastructure and help refine stream restoration designs of the Bijou Park Creek Restoration project, the Rockwood to Blackwood outfall, and improvements where the creek crosses Tamarack Ave and Warner Salas Dr.

Property boundary surveys will be conducted for up to five parcels by licensed Land Surveyor, Chip Brejc of Insite Land Surveys to support lot line adjustments, easements and/or real property acquisitions necessary to construct the project.

### 2.2 Utility Coordination and Identification

This task will build off the utility information collected and incorporated in the 30% plans and where conflicts may be unavoidable, we will work cooperatively with the various utilities to perform potholing using high accuracy GPS or land surveying instruments for recording and documenting in order to precisely determine elevations and any necessary avoidance measures.

**Task 2 Deliverables**:

- All survey control and survey data points as CAD files.
- Electronic and hardcopies of updated Topographic Base Map

## TASK 3. HYDROLOGIC AND HYDRAULIC ANALYSIS

Hydrologic and hydraulic analysis will continue building off of the efforts completed during Phase 1 in order to investigate new alternatives introduced during the later stages of 30% design and support design development as it moves through 60% and 90% detail levels.

### 3.1 Hydrology and Hydraulics Study for Revised Keller Bypass and Wildwood Basin

Recent comments received from the City upon review of the 30% designs included a request to explore the feasibility of an alternative route for the Keller Clean Water Bypass project. Up to three alternatives will be explored that utilize streets other than Ski Run for the bypass. Determining the feasibility of alternative routes and a possible alternative outlet (the Wildwood Basin outlet instead of the Osgood Basin outlet) will require

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

further hydraulic analysis, an additional site visit, and continued consultation with the City. There is already a substantial amount of information related to the hydraulics in this area so further exploration should be minimal.

### 3.2 Updates to PLRM

Since sediment removal is a key objective of this project, the PLRM will be updated as the project progresses to evaluate the impacts of the proposed design on water quality. The team will provide technical support to the City Project Manager to update the models as designs are further developed.

### 3.3 Bijou Park Creek 2-Dimensional Hydraulic Model

As discussed in Task 2.1 further refinement to SEZ design features is needed and will require further development of a 2-dimensional hydraulic model with the additional creek and floodplain field survey data collected under Task 2.

The development of the 2-dimensional hydraulic model involves pulling the field survey and LiDAR topographic data into a digital elevation model, applying appropriate Manning's n values based on creek and floodplain cover/condition, establishing boundary conditions, and calibrating if possible, using any known stage-discharge relationships. Once operational and calibrated the model will be used to infer existing and future hydraulic conditions under scenarios corresponding with up to two restoration design alternatives. Results from the hydraulic modeling that will inform design development include modeled stage-discharge relationships across the project site, shear stresses induced on the stream channel, banks and floodplain, and flow velocities and preferential flow paths through the floodplain improvement areas.

### 3.4 Osgood to Wildwood to Lake Hydraulic Analysis (NEW TASK)

Based on previous hydraulic analysis of the Wildwood Basin overflow capacity, NHC will estimate the maximum amount of flow to be diverted into the expanded Osgood Basin and provide recommendations on the hydraulic design of the diversion into the expanded basin. Our design and water resource engineers will analyze the expanded Osgood basin outlet pipe capacity at various tailwater elevations in Wildwood to check that the proposed design will not cause any backwatering into Osgood basin.

**Task 3 Deliverables**:

- Supplemental Hydrology and Hydraulics Report with figures and appendices.

## TASK 4. ENVIRONMENTAL DOCUMENTS

*Preparation of environmental documents will be led by Catalyst. Under this task, Catalyst will base their approach on their expert knowledge of NEPA guidance, and other associated applicable policies and guidelines. While the CEQA has been completed some final steps are required to complete NEPA.*

### 4.1 Updates to Proposed Project Description for NEPA and CEQA

Catalyst and Wildscape have discussed NEPA compliance with USFS to determine the preferred path forward. The USFS has indicated that the Project may be processed as a Categorical Exclusion, in which case, USFS would complete NEPA internally and Catalyst would provide USFS staff with supporting documentation as-requested.

### 4.2 CEQA Compliance – Addendum to the MND

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

Catalyst will prepare an Addendum for the CEQA Mitigated Negative Declaration (MND) to analyze potential impacts of the Keller Clean Water Bypass Project design. Under CEQA Guidelines Section 15164, the responsible agency (City of South Lake Tahoe) must prepare an addendum to an adopted MND if only minor technical changes or additions are necessary or none of the conditions described in Section 15162 calling for Environmental Impact Report (EIR) have occurred.

The following outline demonstrates how the addendum could be structured and the contents to be included:

- Introduction
- Summary of Proposed Project
- Proposed Modification to the Mitigated Negative Declaration and Basis for an Addendum
- Project Description
- Analysis of Potential Environmental Impacts Associated with the Proposed Modification
- Conclusions
- List of Preparers
- References

The addendum need not be circulated for public review but can be included in or attached to the final adopted negative declaration.

### 4.3 Tribal Notification Letter and Section 106 Letters

Catalyst will prepare a draft tribal engagement letter and submit to USFS for review/edit. We will finalize the letter and resubmit to USFS. In the event that a Tribe wishes to engage in government-to-government consultation, Catalyst will support USFS in this consultation and memorialize the exchange with notes and records.

### 4.4 Baseline Cultural Assessment and Report

Coordinate and perform the required cultural resource surveys required by USFS. We will build off the CHRIS records search findings and work with USFS to determine additional data needs for known cultural resources. If field data is required, we will prepare a survey protocol memorandum and submit to USFS for review/comment to ensure the proposed protocols satisfy Section 106 and NEPA requirements. We will coordinate/perform the surveys in coordination with USFS and will memorialize the data collected with field notes, pictures, and GPS data. We will develop a draft technical memorandum that reports the survey findings and submit to USFS for review/comment. We will finalize this technical memorandum based on USFS comments and incorporate the results/findings into the NEPA document.

### 4.5 Botanical and Jurisdictional Waters Surveys on USFS Lands

Based on the urban nature of the project area, USFS will not require any wildlife surveys (per communication with USFS biologist, Shay Zanetti on July 22, 2021), therefore, we assume no Endangered Species Act consultation would be required either. Catalyst will coordinate the required botanical surveys required by USFS. Julie Etra of WBS will coordinate/perform surveys for resident vegetative communities. Botanical surveys will be performed during the appropriate seasonal survey windows and will memorialize the data collected with field notes, pictures, and GPS data. The team will develop a draft technical memorandum that reports the survey findings and submit to USFS for review/comment. We will finalize this technical memorandum based on USFS comments and incorporate the results/findings into the NEPA document.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

Invasive plants will be identified as part of the botanical survey and a standalone Invasive Plant and Monitoring Plan per LTBMU requirements will be produced to support final design and construction.

Catalyst will coordinate with WBS, who will also perform a jurisdictional delineation (JD) of potential waters of the U.S. per the Clean Water Act. We will develop a wetlands/JD survey protocol memorandum and submit to USFS for review/comment. We will coordinate/perform the survey while inventorying the project area's vegetation/botanical resources and will memorialize the data collected with field notes, pictures, and GPS data. We will develop a draft technical memorandum that reports the delineation's findings and submit to USFS for review/comment. We will finalize this technical memorandum based on USFS comments and incorporate the results/findings into the NEPA document.

### 4.6 NEPA Categorical Exclusion Support

Catalyst will support USFS in the preparation of a Categorical Exclusion and will provide requested technical documents and clarifications regarding the ECD/MND. We will participate in up to three calls with the USFS IDT to discuss the ECD/MND, baseline info, and impacts. It is assumed that USFS will prepare the Categorical Exclusion and perform the necessary consultations, and that no new technical analysis is required for the Categorical Exclusion beyond what has been prepared for the ECD/MND.

**Task 4 Deliverables**

- Submittal of one (1) CEQA MND Addendum
- Submittal of one (1) Draft, Final Tribal Engagement Letters
- Submittal of one (1) Cultural Resources Technical Memorandum
- Submittal of one (1) Botanical/Vegetation Technical Memorandum
- Submittal of one (1) Invasive Plant Survey and Monitoring Report

## TASK 5. LICENSE AGREEMENTS AND SPECIAL USE PERMITS

### 5.1 License Agreements and Special Use Permits

The team will coordinate with the public agencies other than the City of South Lake Tahoe, for the parcels identified in the 30 percent plans for project improvements, as necessary to begin the permitting process. All public parcels advantageous to restoration and stormwater treatment have been identified and mapped in the 30 percent plans and the team will generate a list and figures unique to each owner for submission. Public parcels are typically preferred for stormwater improvements and restoration work as the cost to the project is much lower than acquiring private parcels. To conduct project activities on California Tahoe Conservancy (CTC) parcels, the City must enter a license agreement with CTC that details the use of the land, the benefits to the public, and the long-term maintenance. A similar process is required for USFS-owned parcels; Special Use Permits must be applied for an obtained to use the parcel for project activities.

We will reach out to key staff at the CTC and USFS to discuss the use of these parcels for the Project and prepare the necessary documents such as an alternatives evaluations and special use permit applications for each desired parcel. We have experience finalizing both license agreements and special use permits with both agencies and a strong relationship with the key personnel at the CTC and the USFS. NTCD will lead this task and work with City staff as necessary to complete it.

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

### 5.2 TRPA Land Capability Verification

The TRPA Land Capability designations incorporated in the 30% plans will be further assessed if required for permitting the individual proposed projects. Our team will coordinate and conduct TRPA Land Capability Verification analysis on property within the City rights-of-way, land acquisitions (should there be any), and assist the City with resolving surface coverage related permit conditions that may be required within the TRPA permit for the project. We will include existing condition and proposed conditions Land Capability Study calculation summary tables on the project construction plans.

### Real Property acquisitions

The preliminary plans have largely avoided the use of any private parcels not already acquired by the City of SLT to implement the preferred alternatives, however as we move through 60% design development, a few private parcels will require easement acquisitions, including the private road and 1 to 2 of the individual lots within the Mobile Home Park on Blackwood. There is also the possibility of a private property acquisition and/or a lot line adjustment for a parcel in the lower portion of the watershed to enable the most beneficial design.

This is also a critical piece of the Special Use Permit application which often requires an analysis of acquiring private parcels versus using federal parcels. We will compile necessary information on any private parcels using the El Dorado County Assessor's website and the Tahoe Regional Planning Agency website. Useful information would include site coverage, land capability, any existing deed restrictions, assessed value, and recent sale value, if applicable. Using this information, we will evaluate if deed restrictions, conservation easements, or land swaps are a viable solution and preferentially pursue those options over full acquisition. If the analysis reveals that full acquisition is the best path forward, the team will reach out to the private property owners to discuss the project and potential purchase of the property. We will prepare one page outline that describes the Project and its benefits to the watershed and potential sellers. We will inform the property owners of their rights related to California Code of Civil Procedure as well as the rights of the City to use eminent domain if negotiations fail; however, we will continue negotiations as long as possible to secure the necessary properties. We will prepare any documents required for real property acquisition including offer letters, purchase and sale agreements, easement acquisition agreements, appraisal reports, warrant reports, and property acquisition reports for each property.

NTCD has extensive experience working with private property owners to implement restoration and water quality projects and will lead the outreach and coordination for this task. NTCD's previous experience has involved a variety of landowner agreements and acquisitions. We also have Interwest Consulting Group and Lynn Barnett and Associates to assist with appraisals, purchase agreements, and title, escrow, and closing. Both firms have extensive experience with public agencies and real property acquisitions in the Lake Tahoe Basin.

### 5.3 Appraisals

The team of Interwest and Lynn Barnett & Associates will be provided preliminary title reports, appraisals, and applicable environmental reports such as Phase I ESA's and as applicable Phase II ESA An appraisal of each property identified for acquisition will be completed in conformance with federal and state policy. Each property owner will be contacted by the consulting firm and given the opportunity to accompany the

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

appraiser during the appraisal. The City's Project Manager will also be given the opportunity to attend. We will prepare an appraisal report containing at a minimum, the following information:

- The purpose and function of the appraisal, including limiting factors and conditions;
- A description of the physical characteristics of the property being acquired in addition to the highest and best use of the property;
- A discussion of all relevant and reliable approaches to value. In most cases this will necessitate the use of the sales comparison approach only;
- A description of comparable sales relied on in the determination of value;
- A statement of the value of the property rights to be acquired, including damages to the remainder;
- A signed certification of the appraiser and the effective dated of the valuation.

Assumption: The costs provided assume one (1) full property acquisition with one residential housing unit requiring relocation of occupants being displaced and two (2) partial take acquisitions with no displacements requiring relocation assistance. Any additional acquisitions will cost $15,000 each and any additional relocation beyond one household will cost $7,500 per household.

### 5.4 Acquisition

Acquisition services may include making contacts with property owners of all subject parcels for the purpose of negotiating purchase price of real property or easements. Consultant will assume the responsibility of coordination and management of the negotiation process. Services will include the following;

- Preparing the offer letter and other related documents based on the appraised and accepted fair market value;
- Statement that City may take property by eminent domain for full or partial acquisitions in the event negotiations fail;
- Notification in accordance with California Code of Civil Procedure Section 1263.025 that the property owner is entitled to obtain an independent appraisal, and should the property owner elect to do so, City will pay for the actual reasonable costs up to $5,000: the independent appraisal shall be conducted by an appraiser licensed by the Office of Real Estate Appraisers;
- Summary Statement Relating to the Purchase of Real Property or Interest therein;
- Purchase and Sale Agreement or Easement Acquisition Agreement for Public Purposes, as applicable;
- Preparing the purchase agreement and conveyance documents;
- Delivering offer letter and conveyance documents to the City and Caltrans for review and approval;
- Making City requested changes as appropriate;
- Meeting with property owners to discuss the project in general, reviewing easement exhibits and legal descriptions, confirming property owner and occupant information and delivering and explaining the official first written offer;
- Maintaining follow-up contact information for property owners;
- Receiving and responding to property owner inquires either verbally or in writing and making record of such correspondence;
- Maintaining contact reports for each parcel;

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

- Continuing negotiations with property owners until agreement is reached; and
- Transmitting signed agreements to the City promptly for acceptance and processing.

### 5.5 Title, Escrow, and Closing

We will assume responsibility to ensure all closings are completed in a timely manner by continuing coordination with the Title Company handling the escrows. We will work closely with the Title Company to ensure quality title is obtained. Services will include:

- Reviewing the updated title. The City will obtain updated preliminary title reports for review.
- Opening escrow, deposit funds and documents, prepare escrow instructions and monitor closing of escrows.
- Assisting the Title Company with releasing any liens, mortgages, or encumbrances of record.
- Preparing warrant requests to the City with proper supporting documentation including recommended resolutions to escrow related issues.
- Coordinating the clearing of tax requirements and assessments.
- Attending all meetings and facilitating all closings.
- Ensuring final title policies only contain exceptions that the City is willing to accept.
- Submitting a completed property acquisition report for each property, including transfer of all pertinent related documents to the City.

## TASK 6. PERMITTING

The Project Manager and key task leaders all have experience applying for and acquiring resource agency, TRPA, and City and County permits for their respective stormwater, recreation, and wetland/river restoration projects. We work cooperatively with these agencies to gain their input early on in order to incorporate agency expectations and needs within the designs as is practical, in essence, “pre-mitigate” our designs and streamline the permit acquisition process.

### 6.1 TRPA Permit

The Bijou Park Creek Restoration Project is a Lake Tahoe EIP Project (EIP Number 01.01.01.0118) and therefore will need to obtain an EIP Project Permit from the Tahoe Regional Planning Agency. During the development of the Project, the appropriate TRPA EIP Planner will be involved as a member of the Technical Advisory Committee (TAC) and will therefore have input throughout the design process. The 90% design documents will address any TRPA comments from the 60% TAC meeting and meet all requirements identified for the TRPA Permit. Utilizing the extensive work done for the NEPA/CEQA process, the Team will complete a TRPA Initial Environmental Checklist for submission with the 90% Permit Application. After obtaining a draft TRPA permit, the Team will review the contents and review the draft permit with the City so that the Design Documents can be finalized, and all regulatory requirements are conveyed to any potential bidders. For the final permit approval, the Team will send a representative to the Hearings Officer or Governing Board if necessary. The Team has successfully permitted more than 20 Lake Tahoe EIP Projects, has a good relationship with the TRPA staff, and is well versed in the TRPA process.

### 6.2 404/401/1600 Permitting

As laid out in the environmental document, the project, specifically the SEZ and wetland restoration elements will require most if not all of the resource agency’ permits listed below:

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

Clean Water Act (CWA) Section 401 WQ Certification – State Water Resources Control Board

CWA Section 402, NPDES Permit - Lahontan Regional Water Quality Control Board

CWA Section 404 Permit (Dredge and Fill) – US Army Corps of Engineers

1600 Streambed Alteration Agreement Permit – California Department of Fish and Wildlife

ESA Section 7 Consultation – US Fish and Wildlife Service

Under this task our team will conduct the necessary consultations and develop the draft and final application packages working in close collaboration with the design engineers between 60% and 90% design development and submit in the required order to acquire the necessary permissions to construct. Information, mapping, and data from the surveys conducted under Task 4 will be incorporated into the permit applications. This task includes time to meet with resource agency representatives on site as needed to bring them up to speed on the site setting and need and discuss recommended measures to incorporate into the designs.

Assumptions: As stated under Section 4 no wildlife surveys will be required per Shay Zanetti at USDA Forest Service Lake Tahoe Basin Management Unit.

### 6.3 Stormwater Pollution Prevention Plans (SWPPPs)

A Draft and Final Stormwater Pollution Prevention Plan or SWPPP for up to three construction packages as described under 7.1 below will be developed to comply with the Tahoe Basin Construction Permit and Lahontan RWQCB Basin Plan. The Wildscape Team will apply its extensive experience in drafting approved SWPPPs for drainage, utility, highway, and restoration projects in and around the Tahoe basin to produce up to three well-organized, site-specific Draft and Final SWPPPs that will meet all regulatory requirements and be easily adopted and applied during construction.

**Task Deliverables:**

- Up to three (3) Draft SWPPPs
- Up to three (3) Final SWPPPs

## TASK 7. 60% DESIGN LEVEL PS&E DOCUMENTS

### 7.1 60% Plans and Technical Specifications

Incorporating comments from the City and the TAC and any identified mitigation measures or special conditions through the CEQA/NEPA process the design team will develop and present 60% design drawings, specifications, and preliminary costs to the City for review. In order to facilitate different timelines for the projects solely within USDA Forest Service lands versus those within City ROW and/or other public and private property the 60% design effort through 100% will develop up to three (3) individual plan sets and technical specification packages so that they can be bid and constructed independently. It is anticipated that one set will cover Forest Service property project elements, and one will cover the Keller Canyon Bypass Project element either as a standalone project or in combination with all other project elements.

The team will coordinate closely with the City of South Lake Tahoe to discuss alternatives when investigating major changes that arise from comments on the 30 percent plans. The plans and specifications will include construction information on all major features similar to the 30% submittal, including a title sheet, sheet index, general notes sheet, site plan with existing utilities and infrastructure, grading plan and profile sheets, pipeline

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

centerline and hydraulic grade line profile sheets, temporary and permanent erosion control and BMPs, revegetation, and detail sheets. Additional design elements if not already identified during 30% design development include temporary access routes, stockpile and staging areas, and cut/fill quantities by habitat type (sufficient to initiate draft permit applications and environmental compliance documents).

All project work will be designed to minimize existing habitat disturbance, soil compaction, and infrastructure impacts.

A 60% Technical Specifications package will be developed in parallel with the plans to clearly direct the Contractor on items including but not limited to bid breakdowns, material types, installation procedures, workmanship, work restrictions, warranties, payment methods, etc. The Technical Specifications will adhere to City standards and code requirements.

### 7.2 60% Landscaping and Revegetation Plans and Specifications

At 60% design development additional plan sheets will be incorporated to include maintenance access, trail elements, fencing, and revegetation. SEZ restoration and natural areas will be stabilized with biotechnical treatments using native materials, seeding, and mulching and the design engineers will be supported by the restoration ecologist in order to incorporate site appropriate designs and specifications. There may be limited areas requiring containerized plantings and irrigation along trail connections that will be developed by the landscape designer.

### 7.3 Draft Project Design Report

In order to ensure confidence in the design plans the team will develop a Draft Project Design report that summarizes the methodologies and data used to develop the design PS&E and any decisions made to modify or move away from elements agreed upon during 30% preliminary designs. The Draft SWPPPs under Task 6.3 will be developed and submitted to the City for review at this time.

### 7.4 NEPA/CEQA Mitigation Design Requirements

As stated earlier, we often approach design development already knowing and integrating what will be required by the resource agencies, however this task will provide time to revisit any project modifications or additions that are to be folded into the plans to meet NEPA/CEQA requirements.

### 7.5 Plan Proof Field Visit

This is an excellent opportunity to field truth the plans with the City Project Manager and mark up and make any necessary edits to avoid unforeseen surprises or issues at 90% design or even during construction. This will be a critical and worthwhile step in the design process.

### 7.6 60% Engineer's Estimate

Starting with the 30% cost estimate, we will incorporate the additional changes and detail developed during 60% design, including more refined quantities for earthwork and material import. Using a combination of recent real construction cost data in the Tahoe region, local supplier and vendor quotes and RS Means we will develop costs to 60% detail.

**Task 7 Deliverables:**

- Up to 3 sets of 60% Admin Draft PS&E for City Review and to take to Plan Proof Field Visit
- Up to 3 sets of 60% Draft PS&E for stakeholder circulation

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

- Up to 3 Draft SWPPPs

## TASK 8. 90% PS&E

The design team will build upon the approved 60% PS&E and incorporate input from the City and stakeholders to advance to 90% PS&E.

### 8.1 90% Plans and Technical Specifications

The design team will build upon the approved 60% PS&E (up to 3 sets as described under 7.1) to continue to add details for construction including but not limited to:

- Detail call-out identifiers corresponding to details in detail sheets; and proofed to confirm callouts correspond correctly
- Any refinements to the grading plans, profile sheets, utility, electrical, traffic control plans, etc.
- Any edits as a result of the 60% TAC Design review
- Any edits as a result of additional resource agency or stakeholder review and input.

The Draft SWPPPs will also be updated to incorporate any additional information discovered between 60% and 90% and significant changes to the plans that require changes to the temporary erosion control and water quality protection measures or dewatering approaches. 90% Design Report

In order to maintain continuity through the design development process, the Draft Project Design report will be updated to report on any significant changes to the designs between 60% and 90% to accommodate information gained while field trothing and from City, TAC and other resource agency review and comment

### 8.2 90% Engineers Estimate

The 60% Engineer's estimate will be further refined based on the edits/additions made to the plans and specifications through the 90% development

**Task 8 Deliverables:**

- Up to 3 sets 90% Admin Draft PS&E for City Review
- Up to 3 sets 90% Draft PS&E for stakeholder circulation
- Up to 3 Final SWPPPs

## TASK 9. 100% BID DOCUMENTS

Under this task the design team will make any final changes and add any necessary detail as a result of City and TAC review and input on the 90% PS&E in order to product up to three sets of 100% stamped plans and technical specifications. The Engineer's Estimate will be reviewed in great detail taking into consideration the current bidding environment (i.e., Contractor availability, local economy, etc.) and final refinements will be made to ensure an accurate cost estimate that will be well within the acceptable margins of error. With our extensive bench of professional civil engineers, we have the ability to do extensive internal QA/QC of all bid documents prior to submitting to the City, which will result in clear and comprehensive plans and specifications facilitating streamlined construction and preventing unnecessary costly change orders.

**Task 9 Deliverables:**

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

- Up to 3 sets of 100% Admin Draft PS&E for City Review
- Up to 3 sets of 100% Stamped PS&E
- Responses to Questions during Bid Advertisement and Selection

## TASK 10. BID ASSISTANCE

### 10.1 Provide responses to bidder's questions

The proposed Project Manager and several key team members have assisted public agencies and non-profit organizations on similar large projects in developing bid advertisements, bid packages, and supporting Contractor selection. This includes quickly responding to questions and requests for information and developing any addendums as needed on a short time frame.

**Task 10 Deliverables:**

- Draft and City Resident Engineer Approved Responses
- Bid Addenda Sections

## TASK 11. CONSTRUCTION ENGINEERING (CE)

The Project Manager and supporting staff have served as Engineer of Record and provided construction oversight on several similar construction projects. Therefore, our team is fully capable of providing Construction Engineering, including reviewing, and responding to material submittals, change order (CO) requests, and RFIs on a timely basis. We will work with the City Resident Engineer to provide draft written responses and sometimes detailed figures or plan amendments for their review prior to providing to the Contractor. We understand that COs and RFIs can often come in sporadically and require fast response times in order to avoid any delays to the Contractor. Given our local presence and experience we can ensure the City that we would be responsive and effective in all these cases to ensure quality construction continues unimpeded.

### 11.1 Respond to Request for Information and Change Orders

Wildscape Engineering would be able to provide timely responses to Contractor submitted Requests for Information (RFIs) and Change Order (CO) submittals. We would review and provide draft responses for City review within an agreed upon short time frame in order to prevent any delays to construction and would discuss with the City Project Manager and/or Engineer or Record if not Wildscape, all Change Order requests in order to protect the City's interests.

### 11.2 Submittal Review and Response

This task provides time to review Contractor submittals, shop drawings and material samples and provide draft and final responses in coordination with the City Project Manager and/or Engineer of Record if not Wildscape. The formal response template will be provided to the City for review and acceptance and will cover a range of responses likely including "Reviewed No Exceptions Taken", "Provide Additional Information", Make Noted Corrections and Resubmit".

**Task 11 Deliverables:**

- Draft and City Resident Engineer Approved Responses to RFIs and CO Requests
- Revisions to Plans if necessary

DocuSign Envelope ID: 6451047F-FB10-4621-BF31-20B4B8FA8E05

### ANTI-LOBBYING CERTIFICATION

**Consultant shall submit to City this certification prior to or at the time of the execution of this Agreement.**

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U. S. Code. Any person who fails to file the required certification shall be subject to a civil penalty not less than $10,000 and no more than $100,000 for such failure.

The undersigned certifies, to the best of his or her knowledge or belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement; and

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instruction.

**City of South Lake Tahoe**
**Amendment No. 1 to Bijou Park Creek Watershed Restoration Project, Phase 2 Engineering Services Professional Services Agreement with Wildscape Engineering, Inc. (C-106-2021)**

The Professional Services Agreement entered into on September 7, 2021, between the City of South Lake Tahoe, a municipal corporation ("CITY") and **Wildscape Engineering, Inc.** ("Consultant") is hereby amended as set forth below.

The Contract is hereby revised to add the following.

1. Scope of Services. In addition to the Scope of Services specified within the original Professional Services Agreement, dated September 7, 2021, to the Professional Services Agreement adds the work described within **Exhibit A, Scope of Services, Budget Augment and Line Item Reassignment** attached hereto and incorporated herein by reference.

2. Compensation. Compensation to be paid to the CONSULTANT, is $22,414, as described in **Exhibit A, Scope of Services**. In no case shall CONSULTANT compensation for work completed under this Amendment exceed the amended amount of $483,320.69, without written authorization from the CITY. Payment by the CITY under this Agreement shall not be deemed a waiver of defects, even if such defects were known to the CITY at the time of payment.

IN WITNESS WHEREOF, the parties have caused this Amendment No. 1 to Professional Services Agreement with Wildscape Engineering to be executed on March 14, 2023.

November 7, 2022

Mr. Jason Burke
Stormwater Program Coordinator
Public Works Department, City of South Lake Tahoe
1740 D Street
South Lake Tahoe, CA 96150

**Subject**: **Budget Augment and Line Item Reassignment Request for Bijou Park Creek Phase 2 Restoration Project**

To: Jason Burke,

The following details our budget augment request and line item re-assignment for the Bijou Park Creek Phase 2 Restoration Project. Attachment 1 provides the updated cost spreadsheet reflecting our proposed changes.

Existing Task Budget Increases

**Subtask 1.1 Project Management, Outreach, Public Meetings, and Coordination:** As a result of an extended project timeline and additional management required for USDA Forest Service coordination on the Bijou Park Creek SEZ restoration project and land/easement acquisitions, this includes an additional 24 hours of Project Management to manage the project into Spring 2023. **Augment Cost: $3,600**

**Subtask 2.1 Supplemental Survey**: Partway through the project the contracted surveyor, Insite Land Surveys requested to be removed from the project in order to focus solely on smaller efforts. In response, Wildscape hired another consultant and the design team developed marked up survey maps. The Wildscape Project Manager and CAD technician coordinated and met on site with the new surveyor to provide an orientation to the project and review survey needs. Due to the extensive number of individual sites and need to recheck prior survey control and add additional survey control the direct cost of surveying also increased per below. This includes additional hours for the Project Manager, CAD Technician and NTCD staff engineer to provide surveyor with additional information. **Augment Cost: $3,438**

**Direct Survey Costs:** New surveyor, Terra Graphic hired to substitute for Insite Land Surveyors. Increased effort due to the number of project sites requiring survey and finding prior survey control and adding in additional survey control. **Augment Cost: $5,000**

**Subtask 7.1 60% Plans and Technical Specifications** The Design team will incorporate City of South Lake Tahoe markups received in late July including adding more detail to the plan and profile sheets once the additional surveying described above is completed and updating details to target installations that require less maintenance. All edits/additions to the project sheets will be re-assembled into the three separate 60% plan sets, 1) Bijou Park Creek Watershed Improvement Project, (2) Bijou Park Creek SEZ Restoration Project, and 3) Keller Clean Water Bypass Project. The team will also update the technical specifications to follow the City's template and protocol once sample or template

specifications are provided more closely by the City. These additional hours will allow for the team to conduct a second and more targeted 60% PS&E round. **Cost: $8,088**

New Task Budget

**Phase I Environmental Site Assessment for 3707 Blackwood Road:** In support of the appraisal and easement acquisition negotiations, a Phase 1 ESA was requested and performed by A&M Environmental Services in summer 2022. **Cost: $2,300**

Line Item Re-Assignment

**Task 5.1 License Agreements and Special Use Permits Line Item Re-Assignment**

At the time a Special Use Agreement draft was needed, NTCD staff were unavailable so the Wildscape Project Manager stepped in to develop the draft and final submittal. Hours were re-assigned as follows:

Moved all of NTCD staff hours over to Wildscape Project Manager column for a net change of -$12.00. **Cost: -$12.00**

**Total Change Order Request: $22,414.00** for a Total Budget Change Order from $460,906.69 to $483,320.69.

.

Wildscape Engineering, Inc.

**TERMS AND CONDITIONS**

The conditions contained in the existing Contract Agreement signed and dated September 10, 2021 will apply to this Change Order.

**APPROVAL TO PROCEED**

The work can be initiated with a letter of authorization, through acknowledgment of this Scope of Work by signing a copy of this Scope below, or by Purchase Order issued to Wildscape Engineering, Inc.

**City of South Lake Tahoe**
**Amendment No. 2 to Bijou Park Creek Watershed Restoration Project, Phase 2 Engineering Services Professional Services Agreement with Wildscape Engineering, Inc. (C-106-2021)**

The Professional Services Agreement entered into on September 7, 2021, between the City of South Lake Tahoe, a municipal corporation ("CITY") and Wildscape Engineering, Inc. ("CONSULTANT") is hereby amended as set forth below.

The Contract is hereby revised to add the following,

1. Scope of Services. In addition to the Scope of Services specified within the original Professional Services Agreement, dated September 7, 2021, to the Professional Services Agreement adds the work described within **Exhibit A, Scope of Services, Budget Augment and Line Item Reassignment** attached hereto and incorporated herein by reference.

2. Compensation. Compensation to be paid to the CONSULTANT, is $54,863.40, as described in **Exhibit A, Scope of Services**. In no case shall CONSULTANT compensation for work completed under this Amendment exceed the amended amount of $538,184.09, without written authorization from the CITY. Payment by the CITY under this Agreement shall not be deemed a waiver of defects, even if such defects were known to the CITY at the time of payment.

   IN WITNESS WHEREOF, the parties have caused this Amendment No. 2 to Professional Services Agreement with Wildscape Engineering to be executed on June 18, 2024.

1740 D Street
South Lake Tahoe, CA 96150

**Subject**: **Budget Augment and Line Item Reassignment Request for Bijou Park Creek Phase 2 Restoration Project**

To: Brianna Greenlaw,

The following details our current budget augment request and line item re-assignment for the Bijou Park Creek Phase 2 Restoration Project. Attachment 1 provides the updated cost spreadsheet reflecting the proposed changes.

Existing Task Budget Increases

**Subtask 1.4 Project Management, Outreach, Public Meetings, and Coordination:** Additional management efforts are needed to move the highest priority and funded project, the Rockwood to Blackwood Project, forward to final construction documents and permits. Additional coordination tasks include, but are not limited, to the following:

- Separating the specific project site plans into an individual plan set and technical specifications package.
- New topographic and property boundary surveying of the recently acquired 3707 Blackwood Road parcel where the new storm drain system will outlet.
- Additional potholing effort at 3740 Blackwood Road to determine all lateral connections that will need to be addressed as part of the upgraded storm drain system.
- Additional consultation with TRPA and Lahontan Regional Water Quality Control Board to move the project through an expedited permit process.

An additional 8 hours of Project Management by Wildscape and 6 hours by NTCD to manage the Rockwood to Blackwood project through construction bidding. **Augment Cost: $1,968.00**

**Subtask 2.3 Supplemental Potholing and Repaving to Capture Existing Utilities at all Sites**. An extensive number of project sites had existing utilities that needed to be captured in the Watershed Improvement Project 90% Plans requiring potholing and additional surveying and repaving where potholing had to be done in the paved right-of-way. Wildscape Engineering has already paid the overages in full as follows: to the Contractor, Ferguson Excavating, $5,489.02 largely for their subcontracted paving effort and to the Surveyor, TerraGraphic $1,874.38 for the multiple site surveying of utility markings and depths. Wildscape Engineering did not apply a subcontractor mark up to this cost. ***Augment Cost: $1,440 ($7363.40 Covered under Line Item Reassignment see below)***

**Subtask 2.4 3707 Blackwood Road Property Boundary and Topographic Survey:** Lumos and Associates will conduct a property boundary survey of the 3707 Blackwood Road parcel recently acquired

by the City of South Lake Tahoe in support of the final 100% designs and permitting for Rockwood to Blackwood storm drain outfall and swale which need to clearly designate the boundary between the USDA Forest Service parcel and City owned parcel.

The design engineers under this task augment will incorporate the new topographic/property boundary survey information into the final Rockwood to Blackwood plans and update the outlet swale/grading and revegetation plans to ensure the storm drain discharge reaches Bijou Park Creek SEZ without impacting the adjacent private properties to the northwest and southeast.

**Augment Cost: $594** ***($8,444 covered under Line Item Re-assignment see below)***

**3.3 Bijou Park Creek 2D Hydraulic Model Updates:** The senior water resource engineer will update and run the HEC-RAS 2D hydraulic model incorporating the new outfall designs at 3707 Blackwood Road now that the City has acquired the parcel. The engineer will also update and run proposed conditions at Upper BPC following some design adjustments that were made to ensure effectiveness and stability.

**Augment Cost: $0** ***($5,400 covered under Line Item Re-assignment see below)***

**4.7 Additional Wetland Delineation:** The expanded area south of Shirley was not captured in the original wetland delineation. It is expected to be categorized as SEZ, however for the final NEPA document a wetland delineation needs to be conducted in late May/early June 2024 by the botanist (Julie Etra of WBS**).**

**Augment Cost: $3,580**

**6.4 Additional Permitting:** Provides additional time and effort to consult with the resource agencies in order to expedite the permit process for Rockwood to Blackwood as an individual project and develop separate permit applications for the different project phases including Bijou Park Creek SEZ Enhancement and Bijou Park Creek Watershed Improvement Project.

**Augment Cost: $6,628**

**9.4 Rockwood to Blackwood Additional Potholing/Design Elements:**

Nevada Tahoe Conservation District engineers worked with the City and utility providers to create a potholing exhibit for a subcontractor to collect additional data for the final design and bid package for the Rockwood to Blackwood Drainage Improvement. NTCD will utilize the data collected from the potholing and survey at 3707 Blackwood to prepare a final design for the Rockwood to Blackwood Drainage Project for bid in 2024.

**Augment Cost: $14,600**

<u>New Task Budget</u>

**6.5 Caltrans Technical Reports for Osgood Basin Overflow:** In order to acquire permissions from Caltrans to connect to an existing Caltrans stormwater system and eliminate the need to convey stormwater across Sonora and down Osgood which is extremely challenging due to the minimal slope along this alignment, the design engineers will consult with and develop the required Caltrans technical documents. These include a targeted Hydrology and Hydraulics Study Report per Caltrans guidance to define and demonstrate the feasibility of conveying overflow from the expanded Osgood East basin to an existing outfall pipe that is connected to a Caltrans storm drain system. A Stormwater Data Report will also likely be required and completed under this task.

Wildscape Engineering, Inc.
(855)816-6593 / (530) 600-1810
www.wildscape-engineering.com

**Augment Cost: $4,846**

Line Item Reassignment Replenish

In order to move the Rockwood to Blackwood individual project to bid for construction in 2024 a survey and updated hydraulic model runs of the City acquired parcel (3707 Blackwood Rd) were needed to be expedited and so the City re-assigned Task 10 Bid Assistance and Task 11 Construction Engineering line items in the amounts of $5,949.40 and $15,258 respectively to be applied towards those efforts listed above.

This Task would replenish those two task line items so that the design team can support the City through the bidding and construction phases of the remaining projects.

Task 10 Cost: $5,949.40

Task 10 Cost: $15,258.00

**Table 1. Total New Costs**

| | | | |
|---|---|---|---|
| Subtask 1.4 | Additional Management | $1,968 | |
| Subtask 2.3 | Additional Potholing/Paving | $1,440 | $7,363.40 covered under line item reassignment |
| Subtask 2.4 | Additional Survey | $594 | $8,444 covered under line item reassignment |
| Subtask 3.3 | Additional Hydraulic Modeling | 0 | $5400 covered under line item reassignment. |
| Subtask 4.7 | Additional Wetland Delineation | $3,580 | |
| Subtask 6.4 | Additional Permitting | $6,628 | |
| Subtask 6.5 | New Caltrans technical report effort | $4,846 | |
| Subtask 9.4 | Additional Potholing efforts/designs for Rockwood to Blackwood | $14,600 | |
| Subtask 10 | Replenish borrowed Bid Support line item | $5,949.40 | |
| Subtask 11 | Replenish borrowed Bid Construction Engineering line item | $15,258.00 | |
| **TOTAL** | | **$54,863.40** | |

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**10

**Agenda Item:** Agreement with Black Eagle Consulting for Inspection, Materials Testing and Constructability Review Services for Citywide Capital Improvement Projects

**Executive Summary:** City Council will consider a contract with Black Eagle Consulting for $205,0000 for Inspection, Materials Testing and Constructability Review services for 2024 citywide capital improvement projects.

**Requested Action / Suggested Motions:** Pass a Resolution appropriating $96,000 from salary savings for construction inspection services and materials testing services for citywide capital improvement projects and authorizing and directing the Mayor to execute a contract with Black Eagle Consulting for $205,000 for inspection, materials testing and constructability reviews for 2024 citywide capital improvement projects.

**Responsible Staff Member:** Anush Nejad, Director of Public Works

**Reviewed and Approved By:** Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance Heather Stroud, City Attorney

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title:** Agreement with Black Eagle Consulting for Inspection and Materials Testing Services for Citywide Capital Improvement Program

**Project Location:** Citywide

**Responsible Staff Member:** Anush Nejad, Director of Public Works (530) 542-6031

**Background:** The 2024-25 Construction Season has several Capital Improvement Program (CIP) projects that require inspection and materials testing services. These anticipated projects are listed in the table below. The EV Charging Stations and Conolley Beach restroom projects are proposed projects in the 2024-25 CIP and require Council approval during 2024 budget process.

| **Inspection and Materials Testing Services Needed** | **Status** |
|---|---|
| 1. Annual Pavement Rehabilitation | Contract Awarded |
| 2. Tahoe Valley Stormwater and Greenbelt Improvement Project. Phase 1 | Contract Awarded |
| 3. Tahoe Valley Stormwater and Greenbelt Improvement Project. Phase 2 | Anticipated Award 8/24 |
| 4. Bijou Park Creek Project—Upper Watershed | Anticipated Award 8/24 |
| 5. Pioneer Trail Improvements—Phase II | Anticipated Award 9/24 |
| 6. Drainage Pipe Replacements | Anticipated Award 9/24 |
| **Materials Testing Services Needed** | |
| 1. Bijou Park Skate Park Renovations—Phase II | Anticipated Award 8/24 |
| 2. James and Eloise Drainage Pipe Replacement | Anticipated Award 9/24 |
| 3. Pioneer Trail HSIP Project | Anticipated Award 8/24 |
| 4. Bijou Park Connector Project | Anticipated Award 2025 |
| 5. Lakeview ADA Upgrade Project | Anticipated Award 2025 |
| 6. EV Charging Station Infrastructure (CIP approval pending) | Anticipated Award 2025 |
| 7. Conolley Beach Restroom (CIP approval pending) | Anticipated Award 2025 |

In addition, the City Inspector resigned in early May 2024. Additional resources are needed to backfill this year's construction inspection needs. The inspection and testing services represent the owner's interest and provide oversight over the inspection of various components of the project, including the acceptance of various components of the project. The inspector will provide daily, weekly, and monthly reports to the Engineering Division and test various project components. In addition, staff has identified the need for constructability reviews for several outgoing CIP projects. Constructability reviews will aid in minimizing potential conflicts during construction and potential contract change orders.

**Issue and Discussion**: After recognizing this need and discussing it with the project team, staff began soliciting proposals for inspection and materials testing services. Staff released a Request for Proposal Proposals (RFP) to the public on May 3, 2024.

Six hundred fifty (650) firms specializing in inspection and construction management services were electronically notified through Planet Bids. A pre-proposal meeting was conducted on May 13, 2024. Ten firms registered as bidders and downloaded the RFP documents. On May 24, 2024, the Department of Public Works received four (4) electronic submittals.

All submittals were distributed to the three (3) City's evaluation team members, including Public Works and Finance department staff members. Each team member evaluated and then numerically scored each proposal based on the criteria outlined in the RFP. The scores of all three evaluators were then added to achieve a cumulative score for each submittal.

*The table* below lists the scoring/ranking of the firms.

| Rank | Firm | Cumulative Score |
|---|---|---|
| **1** | Black Eagle Consulting, Inc. | 266 |
| **2** | Nicoles Consulting Engineers | 249 |
| **3** | KGS Group | 228 |
| **4** | BPR Consulting Group | 208 |

Based on the scoring Black Eagle Consulting was the top ranked firm. The staff has estimated the inspection costs, materials testing, and constructability review for the 2024 construction season and recommends a not-to-exceed amount of $205,000 for the 2024 construction season. Staff will evaluate the expenditures after the 2024 construction season and the need for an extension of inspection support service in 2025 based on the replacement of the in-house inspector/engineer. The RFP included construction projects anticipated in the 2025 season and Black Eagle scope can be expanded for the 2025 season based on the procurement policies. Staff will present the request for additional funding by early spring of 2025.

**Financial Implications:** The recommended contract amount for Black Eagle Consulting is $205,000, as shown in the table below. The cost of the inspection services will be covered by the salary savings from the vacant inspector position and unfilled associate engineer position. A total of $96,000 will be transferred from the salary savings to cover the inspection services for this year. The materials testing and constructability reviews will be charged to each project as shown in the table below. Each project has funds for the anticipated materials testing or constructability reviews.

## Anticipated 2024 Inspection, Materials Testing, and Constructability Reviews
## Estimated Level of Effort

| Inspection and Materials Testing Services | Status | Project Number | To be Paid from Salary Savings | To be Charged to Each Project | |
|---|---|---|---|---|---|
| | | | Inspection | Materials Testing | Constructability Review |
| 1. Annual Pavement Rehabilitation | Contract Awarded | 30150005-48030 | $ 25,000 | $ 28,000 | NA |
| 2. Tahoe Valley Stormwater and Greenbelt Improvement Project. Phase 1 | Contract Awarded | 30140030-48030 | $ 20,000 | $ 10,000 | NA |
| 3. Tahoe Valley Stormwater and Greenbelt Improvement Project. Phase 2 | Anticipated Award 8/24 | 30140030-48030 | $ 20,000 | $ 10,000 | NA |
| 4. Bijou Park Creek Project—Upper Watershed | Anticipated Award 8/24 | 30140051-48030 | $ 15,000 | $ 20,000 | $ 7,500 |
| 5. Pioneer Trail Improvements—Phase II | Anticipated Award 9/24 | 30150024-48030 | TBD | TBD | $ 7,500 |
| 6. Drainage Pipe Replacements | Anticipated Award 9/24 | 30140049-48030 | $ 10,000 | $ 5,000 | $ 4,000 |
| **Materials Testing Services** | | | | | |
| 1. Bijou Park Skate Park Renovations—Phase II | Anticipated Award 8/24 | 30160075-48030 | TBD | $ 5,000 | NA |
| 2. James and Eloise Drainage Pipe Replacement | Anticipated Award 9/24 | 30140053-48030 | $ 6,000 | $ 3,000 | NA |
| 3. Pioneer Trail HSIP Project | Anticipated Award 8/24 | 30150038-48030 | TBD | $ 5,000 | NA |
| 4. Bijou Park Connector Project | Anticipated Award 2025 | 30150037-48030 | TBD | TBD | TBD |
| 5. Lakeview ADA Upgrade Project | Anticipated Award 2025 | 30160051-48030 | TBD | 4000 | TBD |
| 6. EV Charging Station Infrastructure (CIP approval pending) | Anticipated Award 2025 | TBD | TBD | TBD | TBD |
| 7. Conolley Beach Restroom (CIP approval pending) | Anticipated Award 2025 | TBD | TBD | TBD | TBD |
| **Total (2024 Constrruction Season)** | **$205,000** | | $ 96,000 | $ 90,000 | $ 19,000 |

The attached resolution will appropriate $96,000 for the Inspection Services. Materials Testing and Constructability reviews anticipated for the 2024 construction season will be charged to each project. Funding for the 2025 construction season will be requested after the evaluation of 2024 expenditures and presented to the City Council for consideration in the Spring of 2025.

**Environmental Considerations:**
Environmental clearance for each of the CIP projects is completed or in the process of completion. Procurement of an inspector and materials testing is not subject to environmental clearance requirements.

**Policy Implications:**
Retaining a qualified inspector and materials testing services is essential for delivering high-quality Capital Improvement Projects. Without these services, the construction work may be compromised, affecting the quality of the work.

**CITY OF SOUTH LAKE TAHOE**

# PROFESSIONAL SERVICES AGREEMENT

This Agreement is made and entered into as of the 18th day of June 2024, by and between the **City of South Lake Tahoe**, a municipal corporation ("City") and Black Eagle Consulting (Consultant").

## RECITALS

A. Consultant is specially trained, experienced and competent to perform the special services which will be required by this Agreement.

B. Consultant possesses the skill, experience, ability, background, certification and knowledge to provide the services described in this Agreement on the terms and conditions described herein.

C. City desires to retain Consultant to render professional services as set forth in this Agreement.

## AGREEMENT

1. Scope of Services. Consultant shall perform the services set forth in this agreement and shall provide said services at the time, place, and in the manner specified in this agreement. Consultant shall have no power or authority by this Agreement to bind City in any respect.

   The Consultant agrees that it has satisfied itself by its own investigation and research regarding the conditions affecting the work to be done and labor and materials needed, and that its decision to execute this Contract is based on such independent investigation and research.

   All services provided by Consultant pursuant to this Agreement will be provided in accordance with the terms set forth in the **Exhibit A, "Scope of Services,"** attached hereto and incorporated herein by reference. **Exhibit B, "Compensation Schedule,"** attached hereto and incorporated herein by reference, outlines the fees and compensation which shall be paid pursuant to this Agreement.

2. Term/Time of Performance. The services by Consultant are to commence upon the execution of the Agreement and continue until December 31, 2025.

3. Compensation. Compensation to be paid to Consultant shall be in accordance with the Schedule set forth in **Exhibit B** which is attached hereto and incorporated herein by reference. In no event shall Consultant's compensation, including travel and out-of-pocket expenses, exceed $205,000 without additional written authorization from City. Payment by City under this Agreement shall not be deemed a waiver of defects, even if such defects were known to City at the time of payment. Payment is contingent upon compliance with all terms and conditions of this Agreement, as set forth herein. Consultant shall obtain prior written authorization from the City Project Manager for any costs in excess of budgeted amounts for each line item, task, or obligation under the Scope of Services.

4. Method of Payment. Consultant shall submit monthly billings to City describing the work performed during the preceding month. Separate invoices shall be submitted for the Inspection Services and for each project for materials testing and constructability reviews. Consultant's bills shall include a brief description of the services performed, the date the services were performed, the number of hours spent and by whom, the applicable hourly rate, and a description of any reimbursable expenditures. City shall pay Consultant no later than 30 days after approval of the monthly invoice by City staff.

5. Extra Work. At any time during the term of this Agreement, City may request that Consultant perform extra work. As used herein, "Extra Work" means any work which is determined by City to be necessary for the proper completion of the Project, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement. Consultant shall not perform, nor be compensated for, extra work without prior written authorization from City.

6. Termination. This Agreement may be terminated by City or Consultant immediately for cause or without cause upon thirty days (30) days written notice of termination. Upon termination, Consultant shall be entitled to compensation for services performed up to the effective date of termination, and City shall be entitled to all work performed to that date.
Termination, revocation, or expiration of this Agreement shall not release either party from liability resulting from an event which occurred prior to such termination, revocation or expiration.

7. Ownership of Documents.
All plans, studies, documents and other writings, including working notes and internal documents, prepared by and for Consultant, its officers, employees

and agents and subcontractors in the course of implementing this Agreement, shall become the property of City upon payment to Consultant for such work, and City shall have the sole right to use such materials in its discretion without further compensation to Consultant or to any other party. Consultant shall, at Consultant's expense, provide such reports, plans, studies, documents and other writings to City upon written request. All documents prepared by Consultant are confidential and shall be maintained to preserve their confidential nature. Release of any such documents to third parties shall only be made upon written consent of City.

8. Consultant's Books and Records.

a. Consultant shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services, or expenditures and disbursements charged to City for a minimum period of three (3) years, or for any longer period required by law, from the date of final payment to Consultant for services provided pursuant to this Agreement.

b. Consultant shall maintain all documents and records which demonstrate performance under this Agreement for a minimum period of three (3) years, or for any longer period required by law, from records shall be available at Consultant's address indicated for the date of termination or completion of this Agreement.

c. Any records or documents required to be maintained pursuant to this Agreement shall be made available for inspection or audit, at any time during regular business hours, upon written request by the City Manager, City Attorney, City Auditor or a designated representative of these officers. Copies of such documents shall be provided to City for inspection at City offices when it is practical to do so. Otherwise, unless an alternative is mutually agreed upon, the receipt of notices in this Agreement.

d. Where City has reason to believe that such records or documents may be lost or discarded due to dissolution, disbandment or termination of Consultant's business, City may, by written request by any of the above-named officers, require that custody of the records be given to City and that the records and documents be

maintained at City offices. Access to such records and documents shall be granted to any party authorized by Consultant, Consultant's representatives, or Consultant's successor-in-interest.

9. Independent Contractor. It is understood that Consultant, in the performance of the work and services agreed to be performed, shall act as and be an independent contractor and shall not act as an agent or employee of City. Consultant shall obtain no rights to retirement benefits or other benefits which accrue to City's employees, and Consultant hereby expressly waives any claim it may have to any such rights. All employees, agents, contractors or subcontractors hired or retained by Consultant are employees, agents, contractors or subcontractors of Consultant and not of the City.

City is not required to make any deductions or withholdings form the compensation payable to Consultant under the provisions of this Contract, and is not required to issue W-2 Forms for income and employment tax purposes for any of Consultant's assigned personnel. Any third party persons employed by Consultant shall be entirely and exclusively under the direction, supervision, and control of Consultant. Consultant hereby indemnifies and holds City harmless from any and all claims that may be made against City based upon any contention by any third party that an employer-employee relationship exists by reason of this Contract.

10. Interest of Consultant. Consultant, (and principals, associates and professional employees of consultant) covenants and represents that it does not now have any investment or interest in real property and shall not acquire any interest, direct or indirect, in the area covered by this Agreement or any other source of income, interest in real property or investment which would be affected in any manner or degree by the performance of Consultant's services hereunder. Consultant further covenants and represents that in the performance of its duties hereunder no person having any such interest shall perform any services under this Agreement.

Consultant is not a designated employee within the meaning of the Political Reform Act because Consultant:

a. Will conduct research and arrive at conclusions with respect to his/her rendition of information, advice, recommendation or counsel independent of the control and direction of City or of any City official, other than normal agreement monitoring; and,

b. Possesses no authority with respect to any city decision beyond rendition of information, advice, recommendation or counsel. [FPPC Reg. 18700(a)(2)].

11. Professional Ability of Consultant. City has relied upon the professional training and ability of Consultant to perform the services hereunder as a material inducement to enter into this Agreement. Consultant shall therefore provide properly skilled professional and technical personnel to perform all services under this Agreement. All work performed by Consultant under this Agreement shall be in accordance with applicable legal requirements and shall meet the standard of quality ordinarily to be expected of competent professionals in Consultant's field of expertise.

12. Compliance with Laws. Consultant shall comply with all applicable federal, state, regional and local laws, codes, ordinances and regulations in carrying out his/her duties under this Agreement. Consultant shall observe and comply with all applicable laws, ordinances, regulations and codes of federal, state and local governments, and shall commit no trespass on any public or private property in performing any of the work authorized by this Agreement. The City, its officials, officers, elected officials, appointed officials and employees shall not be liable at law or in equity as a result of any failure of Consultant to comply with this section.

In the event it is determined that the Consultant is required to pay prevailing wages for the work performed under this Agreement, the Consultant shall pay all penalties and wages as required by law.

13. Licenses. Consultant represents and warrants to City that it has all licenses, permits, qualifications, insurance and approvals of whatsoever nature which are legally required of Consultant to practice its profession. Consultant represents and warrants to City that Consultant shall, at its sole cost and expense, keep in effect or obtain at all times during the term of this Agreement, any licenses, permits, insurance and approvals which are legally required of Consultant to practice its profession. Consultant shall maintain a City of South Lake Tahoe business license at all times services are performed under this Agreement. Consultant acknowledges that payments made pursuant to this Agreement may be withheld until this provision has been satisfied.

14. Indemnity. Consultant hereby agrees to and shall indemnify and hold harmless City, its elected and appointed boards, officers, agents, employees and volunteers from and against any liability for any and all claims, demands, actions, losses, damages and injuries, direct or indirect (including any and all

costs and expenses in connection therein), arising out of this Agreement or caused in any way by Consultant's negligent performance of this Agreement or its breach of its obligations contained in this Agreement, except for any such claims arising out of the negligence or willful misconduct of the City. Consultant agrees to defend City from and against any and all losses, damages, claims costs and fees arising out Consultant's negligent acts, errors, omissions, regarding this Agreement, the Consultant's work under this Agreement, or the consultant's Scope of Work.

City does not, and shall not, waive any rights against Consultant which it may have by reason of the aforesaid hold harmless agreement, because of the acceptance by City, or the deposit with City by Consultant, of any of the insurance policies hereinafter set forth.

This hold harmless agreement by Consultant shall apply to all damages and claims for damages, or alleged to have been suffered, by reason of any of the aforesaid operation of Consultant or any subcontractor, regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

Consultant further waives any and all rights to any type of express or implied indemnity or right of contribution from the City for any liability, claims, demands, costs, charges and expenses and causes of action of whatsoever arising out of or in any way connected with this Agreement, and consultant's work under this Agreement.

15. Insurance Requirements.

a. Consultant, at Consultant's own cost and expense, shall procure and maintain, for the duration of the contract, the following insurance policies.

i. Workers' Compensation Coverage. Consultant shall maintain Workers' Compensation Insurance and Employer's Liability Insurance for his/her employees in accordance with the laws of the State of California. In addition, Consultant shall require each subcontractor to similarly maintain Workers' Compensation Insurance and Employer's Liability Insurance in accordance with the laws of the State of California for all of the subcontractor's employees. Any notice of cancellation of all Workers' Compensation policies must be received by City

at least thirty (30) days prior to such change. Consultant shall provide thirty (30) days written notice of nonrenewal of any Workers' Compensation policies. The insurer shall agree to waive all rights of subrogation against City, its officers, agents, employees and volunteers for losses arising from work performed by Consultant for City.

ii. Commercial General Liability Coverage. Consultant shall maintain commercial general liability insurance no less broad than ISO form CG 00 01 in an amount not less than one million dollars ($1,000,000) per occurrence for bodily injury, personal injury and property damage. Coverage must be made on the standard Occurrence form. Claims-Made forms are not acceptable without prior written consent of City. City of South Lake Tahoe must be endorsed as an additional insured for liability arising out of ongoing operation by on behalf of Consultant. If a commercial general liability insurance form or other form with a general aggregate limit is used, either the general aggregate limit shall apply separately to the work to be performed under this Agreement or the general aggregate limit shall be at least twice the required occurrence limit.

iii. Automobile Liability Coverage. Consultant shall maintain automobile liability insurance covering bodily injury and property damage for all activities of the Consultant arising out of or in connection with the work to be performed under this Agreement, including coverage for owned, hired and non-owned vehicles, in an amount of not less than one million dollars ($1,000,000) combined single limit for each occurrence.

iv. Professional Liability Coverage. Consultant shall maintain professional errors and omissions liability insurance for protection against claims alleging negligent acts, errors or omissions which may arise from Consultant or by its employees, or subcontractors. The amount of this insurance shall not be less than one million dollars ($1,000,000) on a claims-made annual aggregate basis, or a combined single-limit per occurrence basis.

b. Endorsements. Each general liability and automobile liability insurance policy shall be with insurers possessing an AM Best's rating of no less than A:VII and shall be endorsed with the following specific language:

i. City, its elected or appointed officers, officials, employees, agents and volunteers are to be covered as additional insured's under Consultant's General Liability and Automobile Liability policies with respect to liability arising out of this Agreement and/or work performed by or on behalf of the Consultant, including materials, parts or equipment furnished in connection with such work or operations.

ii. This policy shall be considered primary insurance as respects City, its elected or appointed officers, officials, employees, agents and volunteers. Any insurance maintained by City, including any self-insured retention City may have, shall be considered excess insurance only and shall not contribute with it.

iii. This insurance shall act for each insured and additional insured as though a separate policy had been written for each, except with respect to the limits of liability of the insuring Consultant.

iv. The insurer waives all rights of subrogation against City except for Consultant's Professional Liability and Employers' Liability policies, its elected or appointed officers, officials, employees or agents.

v. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to City, its elected or appointed officers, officials, employees, agents or volunteers.

vi. No policies of insurance carried by Consultant shall be suspended, voided, canceled, or changed in coverage or in limits except after thirty (30) days written notice to the City Attorney by Certified Mail.

c. Deductibles and Self-Insured Retentions. The Consultant shall be responsible for all deductibles in all of Consultant's insurance policies.

The amount of deductibles for insurance coverage required herein shall be reasonable and approved by the City Attorney.

d. Certificates of Insurance. Consultant shall provide certificates of insurance with original endorsements to City as evidence of the insurance coverage required herein. Consultant shall not commence work under this contract until all insurance required under this section has been approved by City as to form, amount and carrier, nor shall Consultant allow any subcontractor to commence work on any subcontract until all similar insurance required and reasonably consistent limits of the subcontractor has been so obtained and approved. Certificates of insurance shall contain no exclusions unless negotiated with the City Attorney and approved, in writing, by the City Attorney.

16. Notices. Any notice required to be given under this Agreement shall be in writing and either served personally or sent prepaid, first-class mail. Any such notice shall be addressed to the other party at the address set forth below. Notice shall be deemed communicated within 48 hours from the time of mailing if mailed as provided in this section.

If to City: City of South Lake Tahoe
1901 Lisa Maloff Way
South Lake Tahoe, CA 96150

Provide a copy to: City Attorney's Office
City of South Lake Tahoe
1901 Lisa Maloff Way, Suite 300
South Lake Tahoe, CA 96150

If to Consultant: Black Eagle Consulting, Inc.
Shaun Smith, PE
4010 Technology Way, Suite D
Carson City, NV 89706

17. Assignment and Subcontracting. The parties recognize that a substantial inducement to City for entering into this Agreement is the professional reputation, experience and competence of Consultant. Assignments of any or all rights, duties or obligations of the Consultant under this Agreement will be permitted only with the express consent of City. Consultant shall not subcontract any portion of the work to be performed under this Agreement without the written authorization of City. If City consents to such subcontract, Consultant shall be fully responsible to City for all acts or omissions of the

subcontractor. Nothing in the Agreement shall create any contractual relationship between City and subcontractor nor shall it create any obligation on the part of City to pay or to see to the payment of any monies due to any such subcontractor other than as otherwise required by law.

18. Waiver. Waiver of a breach or default under this Agreement shall not constitute a continuing waiver of a subsequent breach of the same or any other provision under this Agreement.

19. Dispute Resolution. Any dispute concerning this Agreement will be first submitted to the City Manager or his designee for resolution. If no resolution is reached, such dispute shall be submitted to the City Council. The decision of the City Council shall be final and shall be appealable only to the El Dorado Superior Court pursuant to California Code of Civil Procedure §1094.5, and as provided by law.

20. Controlling Law Venue. This Agreement and all matters relating to it shall be governed by the laws of the State of California and any action brought relating to this Agreement shall be held exclusively in the Superior Courts in the County of El Dorado, South Lake Tahoe Division.

21. Prohibited Interests. Consultant maintains and warrants that it has not employed nor retained any Consultant or person, other than the independent contractors hired in accordance with Consultant's standard business practice, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid, nor has it agreed to pay any Consultant or person, other than a bona fide employee working solely for Consultant or an independent contractor hired as discussed above, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

22. Equal Opportunity Employment. Consultant represents that it is an equal opportunity employer, and it shall not discriminate against any subcontractor, employee or applicant for employment because of race, religion, color, national origin, disability, ancestry, sex or age. Such non-discrimination shall include, but not be limited to, all activities related to initial employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff or termination.

23. Drug-Free Workplace Certification. By signing this Agreement, Consultant hereby certifies under penalty of perjury under the laws of the State of California that the Consultant will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350, et seq.) and will provide a drug-free workplace by taking the following actions:

a. Publish a statement notifying employees that unlawful manufacture, distribution dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations, as required by Government Code Section 8355 (a).

b. Establish a Drug-Free Awareness Program as required by Government Code Section 8355(b) to inform employees about all of the following:

   i. The dangers of drug abuse in the workplace;
   ii. The person's or organization's policy of maintaining a drug-free workplace;
   iii. Any available counseling, rehabilitation and employee assistance program; and
   iv. Penalties that may be imposed upon employees for drug abuse violations.

c. Provide, as required by Government Code Section 8355(c), that every employee who performs grant activities under this Agreement:

   i. Will receive a copy of the Consultant's drug-free policy statement; and
   ii. Will agree to abide by the terms of the Consultant's statement as a condition of employment on this Agreement.

Failure to comply with these requirements may result in suspension of payments under this Agreement or termination of the Agreement, or both, and Consultant may be ineligible for award of any future City agreements if City determines that any of the following has occurred: the Consultant (1) has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

24. Anti-Lobbying Certification. Consultant shall submit to City the Anti-Lobbying Certification contained in **Exhibit C**. Further, Consultant shall require that the language of the certification in **Exhibit C** be included in all contracts or subcontracts entered into in connection with this Agreement and that all Consultants and contractors shall certify and disclose accordingly.

25. Debarment, Suspension, Ineligibility and Voluntary Exclusion. By signing this Agreement, Consultant assures that neither it nor its principals, is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.

26. Americans with Disabilities Act. By signing this Agreement, Consultant assures the City that it complies with the American with Disabilities Act (ADA) of 1990, (42 U.S.C. 12101, et. seq.), which prohibits discrimination on the basis of disability, as well as all applicable regulations and guidelines issued pursuant to ADA.

27. Amendments. This Agreement may be modified or amended only by a written document executed by both Consultant and City and approved as to form by the City Attorney.

28. Severability. If any term or portion of this Agreement is held to be invalid, illegal, or otherwise unenforceable by a court of competent jurisdiction, the remaining provisions of this Agreement shall continue in full force and effect.

29. Entire Agreement. This Agreement constitutes the complete and exclusive statement of Agreement between City and Consultant. All prior written and oral communications, including correspondence, drafts, memoranda, and representations, are superseded in total by this Agreement.

30. Execution. This Agreement may be executed in several counterparts, each of which shall constitute one and the same instrument and shall become binding upon the parties when at least one copy hereof shall have been signed by both parties hereto. In approving this Agreement, it shall not be necessary to produce or account for more than one such counterpart.

31. Time is of the Essence. Time is of the essence for this Agreement.

32. Authority to Enter Agreement. Consultant has all requisite power and authority to conduct its business and to execute, deliver, and perform the Agreement. Each party warrants that the individuals who have signed this Agreement have the legal power, right, and authority to make this Agreement and to bind each respective party.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed on the date first written above.

**RE: REQUEST FOR PROPOSALS, ON-CALL INSPECTION AND MATERIALS TESTING 2024-2025**

Dear City of South Lake Tahoe Selection Committee:

As Regional Vice President of Black Eagle Consulting, LLC (BEC), an RMA Company, I'm pleased to submit the following Statement of Qualifications (SOQ) to provide inspection, materials testing, and constructibility review services. **For more than 27 years, BEC has provided unmatched geotechnical engineering, materials testing and inspection services to the Lake Tahoe Basin, Northern California** and our northern Nevada community. We have a long-standing history working in the Tahoe Basin and look forward to partnering with the City of South Lake to lead this community through a long history of successful projects. Our company is dedicated to our core values: Quality - Integrity - Accountability. These words create the foundation for all of the services that we provide.

## QUALITY: A HIGH LEVEL OF VALUE AND DEGREE OF EXCELLENCE.

At BEC, quality is achieved by providing experienced and certified personnel to our clients. Each design/construction project is made up of multiple complex phases. We carefully review the project schedule, break down each phase, and assign the most qualified individuals to each critical path item. As you review our resumes of key personnel, you will see our unmatched depth and breadth of qualifications.

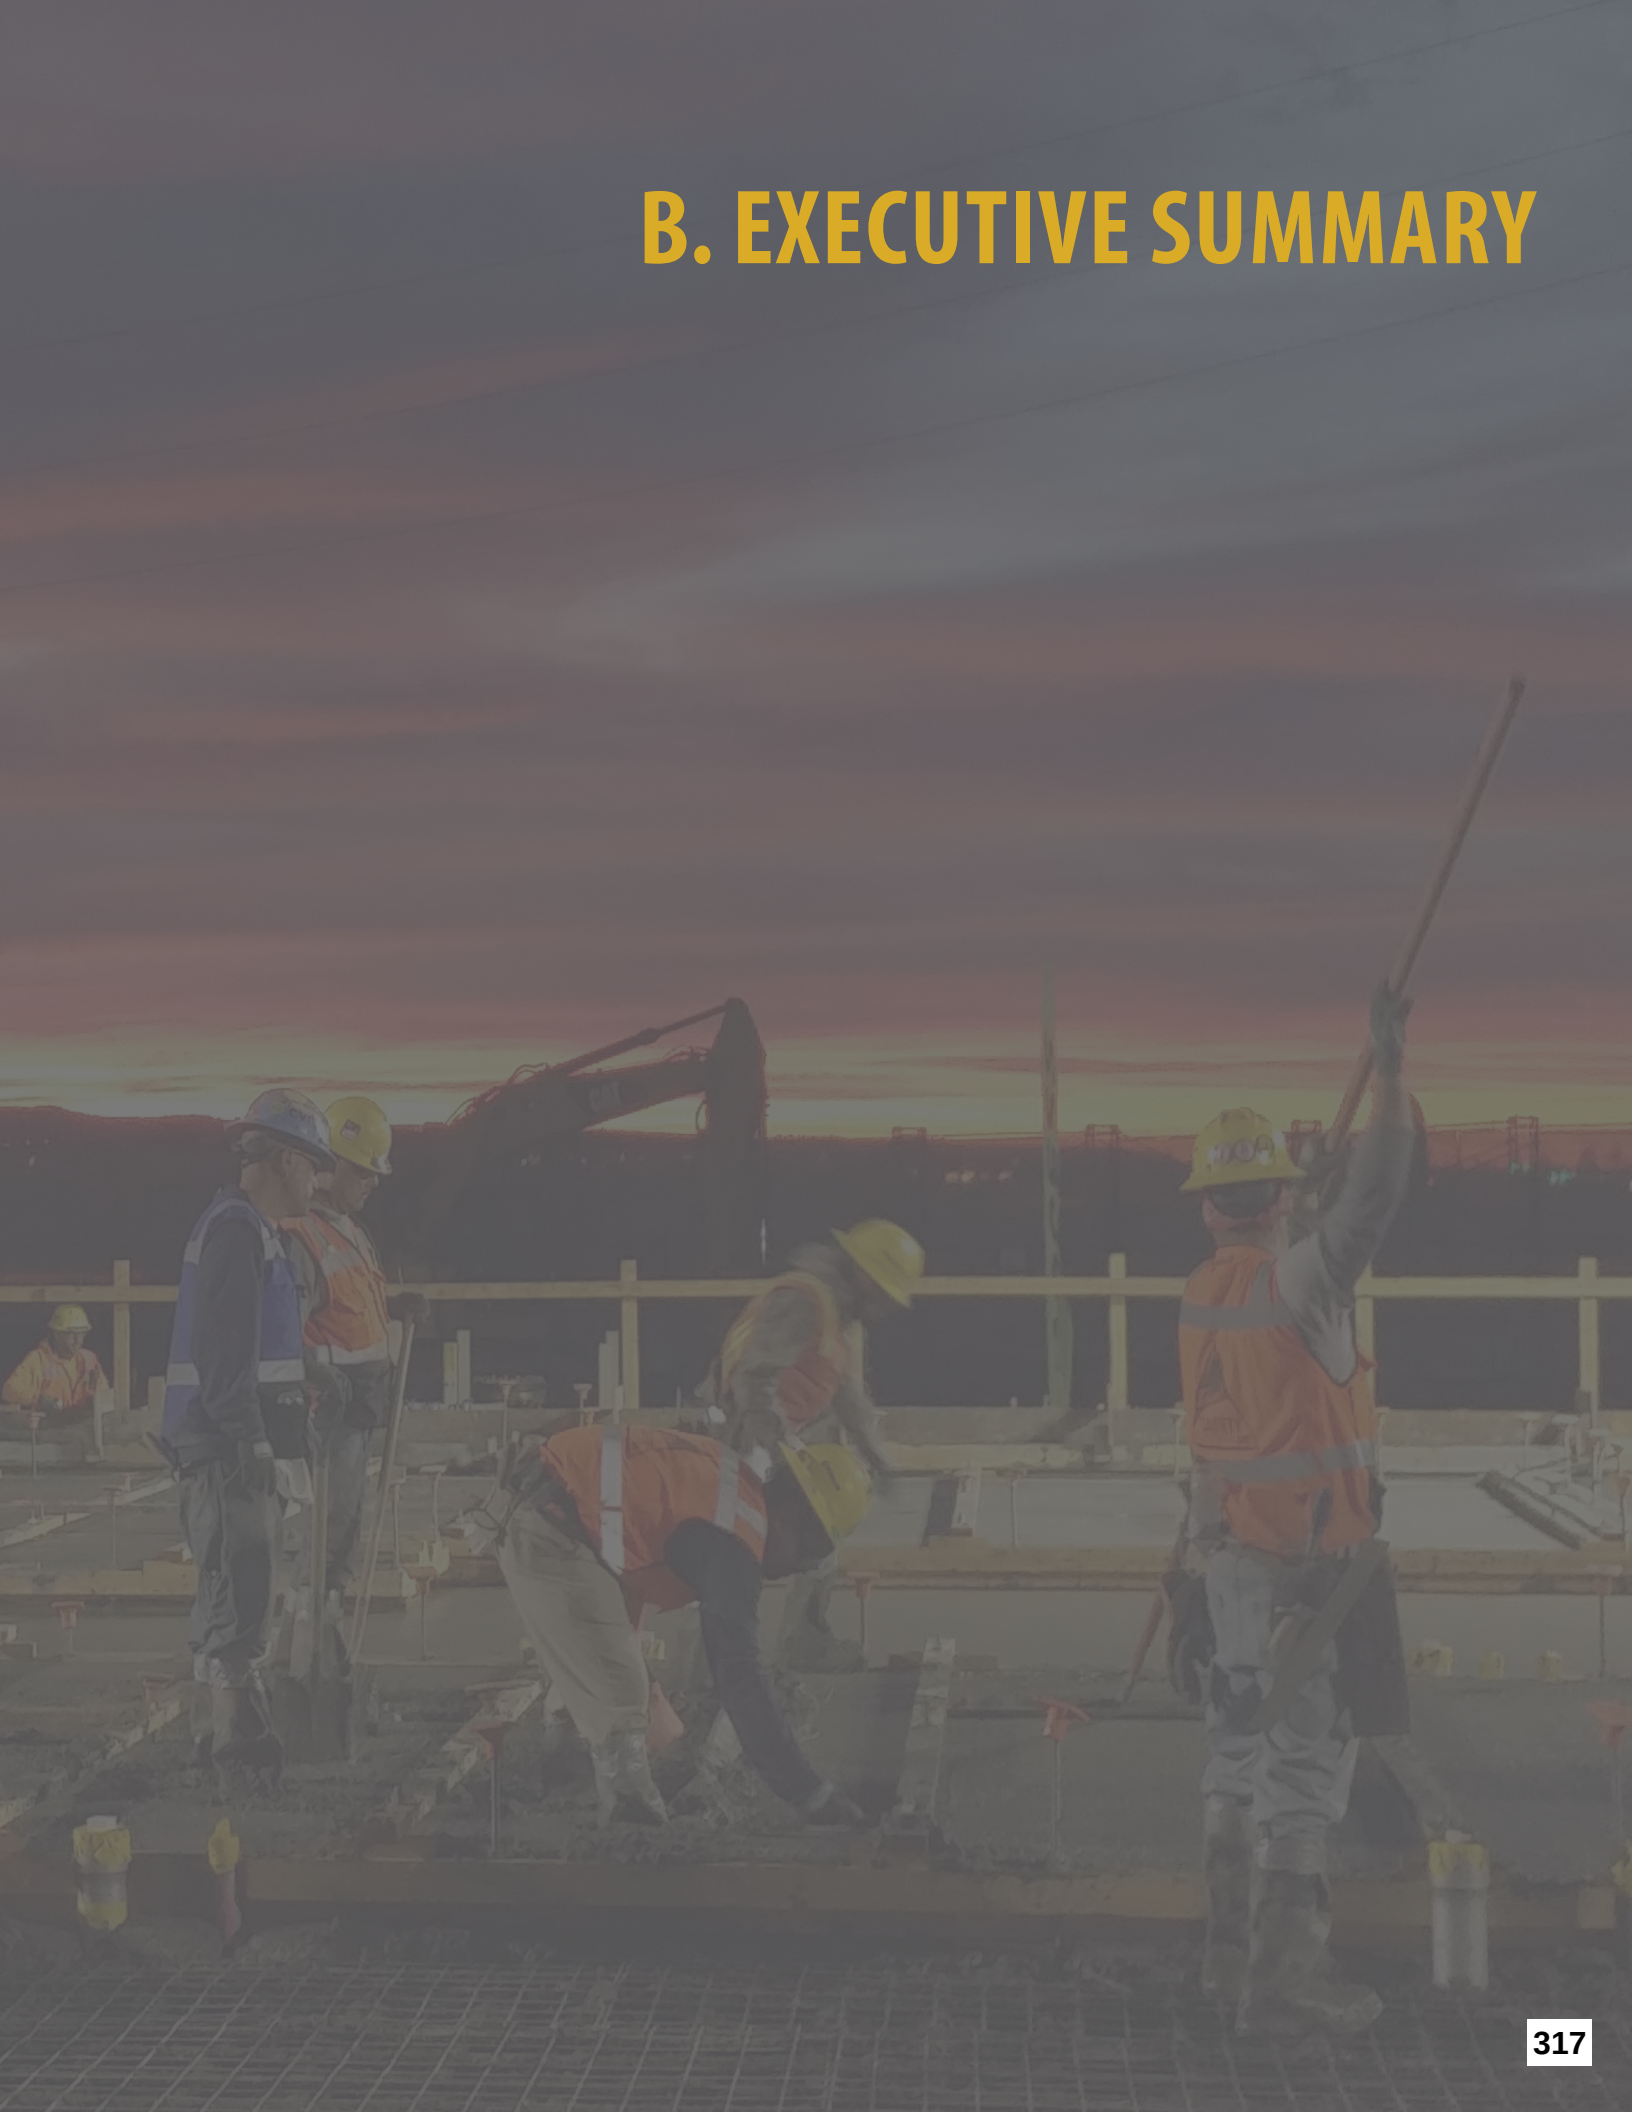
## INTEGRITY: FIRM ADHERENCE TO A CODE.

In the specialized world of construction inspection and materials testing, integrity is imperative. Owners, operators, architects, engineers, and contractors rely on us to provide an unbiased interpretation of site conditions, construction materials, and project specifications. Our job is to verify, document, and communicate construction activities and code compliance. We stand by our long history of providing these services with integrity at the forefront of our processes.

## ACCOUNTABILITY: AN OBLIGATION OR WILLINGNESS TO ACCEPT RESPONSIBILITY FOR ONE'S ACTIONS.

As individual members of a larger team, BEC understands the importance of accountability. We strive to provide responsible, accurate and reliable services to our clients. However, in the unlikely event that an unacceptable action or error occurs, we will accept responsibility and do our best to quickly resolve the situation.

As a company, we are extremely interested in continuing our relationship with the City on upcoming construction projects. We are committed to supporting the City Engineering Department's vision of "safeguarding life, health, property, and public welfare through review, design, bid, and construction of public improvement projects." Our goal is to provide the requested on-call materials testing and construction inspection services necessary tosuccessfully deliver outstanding projects on time and on budget. The City has been a fantastic partner throughout our 27-year history; we enjoy working with the public works team to help produce a safe and sustainable City. The Proposal shall remain valid for a period of not less than 120 calendar days from the date of submittal.



Sincerely,

Shaun A. Smith

*Shaun A. Smith, P.E., LEED AP*
Regional Vice President

# B. EXECUTIVE SUMMARY

# B. EXCEUTIVE SUMMARY

## Black Eagle Consulting, LLC

**BEC** is looking forward to leading the City of South Lake Tahoe's 2024-2025 on-call inspection and materials testing services. These services fit our company mission to **"Apply our expertise in geotechnical engineering and construction services to support our clients' projects while enriching the development of our community."**

## Local Experience

Our 27-year history in the region and our recent project experience with the City of South Lake Tahoe and other local public agencies makes BEC the clear choice. Due to our ongoing work with the City, BEC is intimately familiar with all local regulations and sister agency requirements. We understand that our inspectors are an extension of the City of South Lake Tahoe and they will work closely with the City and the public to compassionately resolve concerns that arise during construction activities.

Our recent experience includes but is not limited to:

- 2022 TO 2024 CITY OF SOUTH LAKE TAHOE ON-CALL, SOUTH LAKE TAHOE ROAD REHABILITATION
- YOSEMITE NATIONAL PARK, REPAIRS ON WAWONA ROAD
- CA FLAP NEC 40(1) DONNER PASS ROAD
- FLINT ROAD RECONSTRUCTION
- SOUTH CARSON COMPLETE STREETS PROJECT
- TAHOE CITY SIDEWALK AND BIKE TRAIL
- EAST LONG STREET 2021 PAVEMENT RECONSTRUCTION

## Experienced Team

Similar to the projects listed above, our team fully understands the scope of this assignment. BEC will provide, at a minimum, one fully qualified and certified project inspector who will coordinate daily with the on-site contractors, materials testers, and the City Engineer's representative. Our inspector(s) will be dedicated full-time to this assignment and will be on-site to prepare daily field reports related to multiple ongoing construction projects. Inspection services include, but are not limited to, construction progress coordination, materials testing coordination, review of contractors' requests for information (RFIs), and review of construction change orders (CCOs).

In addition to construction inspection, BEC will also provide on-call materials testing and constructability review services, as requested. Our local in-house California Professional Engineer (PE), Shaun Smith, has 27 years of civil design and construction management experience and is available as needed for constructability and project fee estimate reviews. Shaun will also be supported by Tyler Hough, Quality Control Division Manager; Lindsey Smith, PE, Laboratory Manager; Richard Machado, Project Inspector/Project Manager; and Damian Branco, Construction Inspector.

All of these services dovetail nicely into our existing contract with the City to provide materials testing services for the 2024-2025 construction seasons. To deliver consistency and efficiency, our on-site inspector will coordinate with the City's Designated Representative to synchronize all additional materials testing and constructability review assignments.

BEC has the expertise, ability, and available senior staff to provide all the construction inspection, materials testing, and constructability review services required for this project. Our team is eager to begin work!

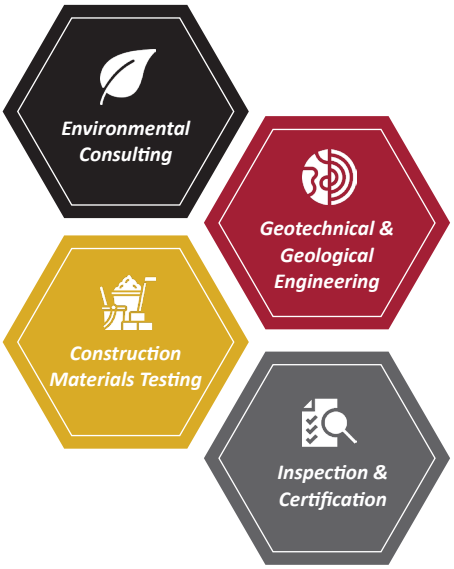
# C. COMPANY HISTORY, BACKGROUND, AND EXPERIENCE

# C. COMPANY HISTORY, BACKGROUND, AND EXPERIENCE

## BLACK EAGLE CONSULTING, LLC an RMA COMPANY

**BEC** is a Nevada firm that has **two offices located at 1345 Capital Boulevard, Suite A, Reno, Nevada 89502, and 3839 North Carson Street, Suite 101, Carson City, Nevada 89706. BEC Materials Testing Lab is 10 minutes from the project site.** BEC provides geotechnical engineering, laboratory materials testing, and construction inspection/testing services to Northern Nevada and Eastern California communities. **In February 2024, BEC was acquired by RMA Companies, a national provider of geotechnical and special inspections consulting services with similar values and a strong mission to provide best-in-class services.**

BEC provides on-site sampling/testing and in-house laboratory materials testing. In October 1997, our founders launched BEC with a desire to establish and grow long-term client relationships based on **Quality – Integrity – Accountability.** These guiding principles, coupled with our strong technical and construction background, assure that BEC's design and construction services are practical and cost-effective while guaranteeing quality and project performance. Over our **27-year history,** we have developed an experienced, detail-oriented team able to provide our clients with an excellent standard of technical ability and professional service. Our key personnel have worked together as a team for many years. **Our staff presently consists of 57 highly qualified and certified employees, including civil engineers, geologists, inspectors, laboratory technicians and field material technicians.** All employees live locally, report daily to our respective offices, and are immediately available to provide services. We are well versed in all geotechnical and materials aspects of geotechnical design, construction inspection, and materials testing for street rehabilitation, public buildings and public and private infrastructure projects.



Because BEC maintains such a diverse staff, we are very flexible with respect to the types of services we can provide. BEC can provide any of the following in-house services individually or as a package, depending on project requirements: Construction inspection and testing, including International Code Council (ICC) and non-destructive examination inspections; materials engineering and testing; geotechnical/geological and construction engineering consultation.

Our quality control project managers, engineers and field testers have extensive knowledge of the City's Design and Construction Standards, Standard Specifications for Public Works Construction ("Orange Book"), and International Building Code (IBC) 1704 Special Inspection requirements. We can provide thorough and timely review of concrete and asphalt mix designs, construction material submittals, laboratory data and project-specific geotechnical reports. **Our inspection and testing staff is available 24 hours a day, 7 days a week to ensure that projects are constructed under optimum conditions (i.e., low traffic times) to help them remain on schedule and on budget.**

Our staff includes personnel with vast experience in materials engineering and testing. **BEC has complete soils, concrete, and asphalt concrete testing laboratories in Reno and Carson City as well as three mobile labs.** Our testing laboratories maintain state-of-the-art equipment and full certification through American Association of State Highway Transportation Officials (AASHTO) Resource for all testing required. All materials sampling will be performed by Nevada Alliance for Quality Transportation Construction (NAQTC) and American Concrete Institute (ACI)-certified staff members who are well-versed in proper sampling techniques. All sampling is done in strict accordance with applicable American Society for Testing and Materials (ASTM), the Nevada Department of Transportation (NDOT) Standard Specification for Road and Bridge Construction (Silver Book), Standard Specifications for Public Works Construction (Orange Book), ACI and NAQTC standards.

# C. COMPANY HISTORY, BACKGROUND, AND EXPERIENCE

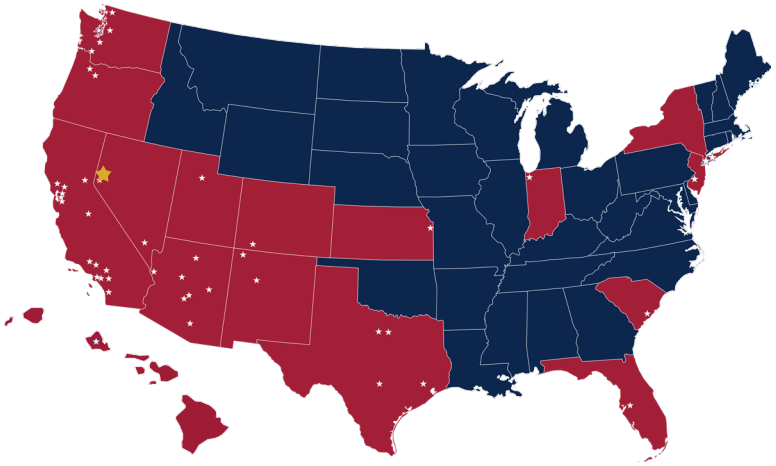
## FIRM INFORMATION

BEC is part of a diverse set of consulting engineering firms that offer services in construction materials engineering, laboratory materials testing and certification, construction inspection and quality management, environmental consulting, engineering geology, and geotechnical engineering. **Our passion for high-end service** drives constant innovation and investment in developing world-class lab facilities and interactive management technologies.

We serve from our 40-plus offices located in 16 states and are ranked on ENR's Top 500 list alongside the nation's top firms. The competitive spirit that lives in every member of **our team ensures that we consistently deliver our best results** through high-quality technical expertise and devotedly responsive interactions with our clients. We pride ourselves on our proactive solutions and attentive communication in every projec

Over the course of our history, **BEC has developed long-standing positive relationships** with the agencies and firms we interact with, establishing clear lines of communication and complete team integration. We act as an extension of our clients' staff and are fully invested in the successful outcome of their projects. Our clients trust us to act in their best interest by providing superior levels of quality with strict adherence to their budgets and schedules.

With a 60+ year history, BEC and the RMA Companies have a passion for high-end services, constant innovation, and investment in developing world-class laboratory facilities and interactive management technologies. Each member of our staff is committed to service, innovation, and the success of our clients.



Today, we have grown to employ nearly 1,500 of the industry's brightest engineers, geologists, technicians, inspectors, and construction professionals. **BEC has the capacity to undertake the project and services for the City of South Lake Tahoe in conformity with the requirements of the RFP.**

# C. COMPANY HISTORY, BACKGROUND, AND EXPERIENCE

For this specific project, we will focus on the services required, which is special inspection and include our materials testing in case the lab is needed during the course of the project.

## SPECIAL INSPECTION

Our special inspection personnel rely on a substantial amount of project experience and certifications that allow BEC to provide these services on literally any type of construction project. Our inspectors maintain ACI, NAQTC, and ICC certifications for each available category as well as American Welding Society (AWS), and American Society for Nondestructive Testing (ASNT) certifications. Each Level II inspector has in excess of 40 hours of classroom training and 1,900 hours of field experience, as required by ASNT and BEC's NDT Procedures Manual. Our professionals are certified in ultrasonic testing (UT), radiographic testing (RT), magnetic particle testing (MT), and dye penetrant testing (PT). BEC has a comprehensive and rigorous NDT training and certification program that is administered by our retained Level III certified inspector. We have the most comprehensive and respected inspection and testing qualifications in the region. This combination of technical expertise and construction experience allows BEC to provide construction inspection services with a practical view and great attention to technical detail. The result is a project that is constructed per plans and specifications, on time and in budget, and most importantly, that will perform as intended.

Our technicians/inspectors are well-versed in all facets of construction, from simple roadways to highly technical buildings and bridge structures. BEC personnel are familiar with local contractors, various materials plants, and construction materials. They also possess vast knowledge of general construction methods practiced in northern Nevada and construction specifications outlined by the IBC, the Orange Book, NDOT, and Caltrans. Our construction inspection capabilities include:

- ✓ Inspection, testing, and sampling of construction materials, including native subgrade, structural fill, sub-base, aggregate base, pipe bedding, structural backfill, Portland cement concrete (PCC), post-tension slabs, PCC pavement (PCCP), asphalt concrete, grout, mortar and other construction materials by NAQTC-certified testers/inspectors.
- ✓ Field inspection and sampling of PCC and PCCP for mix design verification to include slump, air content, mix and ambient temperatures, unit weight, yield, casting of concrete beams for flexural strength, and concrete cylinders for compressive strength testing by ACI-certified technicians.
- ✓ Field sampling and observation of asphalt paving operations, including pre-paving check of the planned paving surface, verification of lay down temperatures and mat thickness, nuclear density testing to establish rolling patterns, sampling of hot-mix for laboratory testing, and coring of pavement to check in-place thickness, compaction, and air voids (mix design verification).
- ✓ Inspection, testing and sampling of construction materials from source plants and hot-plant calibration.
- ✓ Special inspection by ICC, AWS, Certified Welding Inspector (CWI) and ASNT certified inspectors with capabilities of inspecting reinforced concrete, pre- and post-tensioned concrete, reinforced masonry, field and shop structural steel and welding (UT and RT), high-strength bolting, anchor proof load testing, fireproofing, fire resistive penetration, roofing, seismic nailing, seismic restraints, residential/commercial building inspection and floor flatness/floor levelness (FF/FL).
- ✓ Non-destructive testing and inspection including UT, MT, PT, and radiographic (x-ray) inspection.
- ✓ Review and approval of contractor pay estimates.
- ✓ Inspection of dedicated improvements to ensure conformance with project drawings and specifications as well as NDOT, Orange Book and Douglas County specifications.
- ✓ Project documentation, including daily inspection reports, applicable testing reports, quantity calculations, and punch list items.

## MATERIALS TESTING

Our laboratory and field materials technicians maintain Nevada Alliance for Quality Transportation Construction (NAQTC) and American Concrete Institute (ACI) certifications. BEC has complete soils, concrete, and asphalt concrete testing laboratories in Reno, Nevada, and Carson City, Nevada, and we can also equip mobile laboratories for remote sites. Our testing laboratory maintains state-of-the-art testing equipment, including an asphalt ignition furnace, kneading compactor (R-Value), Direct Shear machine, etc., and accredited certification through the American Association of State Highway Transportation Officials (AASHTO), Materials Reference Laboratory (AMRL), California Department of Transportation (Caltrans), and the Cement and Concrete Reference Laboratory (CCRL). Our laboratory and field technicians possess a thorough understanding of the Standard Specifications for Public Works Construction (SSPWC or the Orange Book), the American Society for Testing and Materials (ASTM), AASHTO, and Nevada Department of Transportation (NDOT) testing policies and procedures.

BEC has performed special inspection services on some of the largest projects constructed in northern Nevada, including the I-580 Freeway, Tesla Gigafactory, Switch Tahoe-Reno Citadel Campus, Google Data Center Campus, multiple University of Nevada, Reno (UNR) and State Public Works Division (SPWD) projects, and numerous casino and event center developments.

BEC prides itself on being able to provide accurate laboratory test results in a timely manner to allow construction to proceed uninterrupted.

## COMPREHENSIVE LABORATORY CAPABILITIES

BEC maintains the most comprehensive laboratory resources available. Our laboratories have sample receiving areas and are equipped with moist curing rooms, fume hoods, compressed air, deionized water, and other general utilities required for certified facilities.

Our moist curing rooms are walk-in storage units with controlled temperature and relative humidity. Our asphalt laboratories are at the cutting edge of the latest technologies performing mix design tests utilizing the Gyratory compactor and rut testing of asphalt mixes utilizing the Hamburg wheel tracking device.

Our universal tension / compression machines run from 60k pounds to 600k pounds and are fully instrumented and equipped to test up to a number 18 reinforcing steel bars. Our laboratories are ISO 17025 accredited and approved to test mechanical couplers, and welded splices and hoops for columns used in construction.

All of our laboratories comply with the requirements for laboratory facilities detailed in ASTM E-329 and are inspected bi-annually by the Cement and Concrete Reference Laboratory (CCRL) and the American Association of State Highway and Transportation Officials Materials Reference Laboratory (AMRL) of the National Bureau of Standards.

# C. COMPANY HISTORY, BACKGROUND, AND EXPERIENCE

BEC actively participates in the Reference Sample Program (RSP) offered by the CCRL, the AMRL, and Caltrans. The Reference Sample Program (RSP) is an integral part of 23 CFR 637 B and evaluates laboratory equipment, testing practices, technician competence, and the accuracy and reproducibility of test results using reference or control samples. To maintain Caltrans accreditation, laboratories must participate in all RSP rounds involving a test method they actively carry accreditation for. Our certified testing laboratories are also recognized as a soils and physical materials testing agency by additional agencies:

- AASHTO
- CCRL
- FAA
- USACE
- DSA
- CRRC
- ISO
- AAP
- A2LA
- AAMA
- ASTM
- OSHPD/HCAI
- Various DOTs
- and many more.

## MOBILE LABORATORIES

In addition to our permanent and satellite laboratory facilities, BEC owns a fleet of 15 self-sufficient and customizable mobile laboratories. They operate autonomously with internal power and water, allowing them to be relocated to different project sites throughout the duration of a project, maximizing their efficiency. These self-sufficient units are like mobile workhorses, ready to tackle construction challenges wherever they're needed. These customizable laboratories can be fully staffed and equipped with all the necessary amenities to support any project. This can include computers with Wi-Fi capability, scanners, telephones, and any additional office equipment as needed. These labs can provide on-site concrete testing as well as sieve analysis, compaction testing of concrete and structural strength tests.

### BIO
Mr. Smith is a Civil Engineer with over 27 years of design and construction project management experience in northern Nevada. His background and previous work experience include civil engineering design, project management and business development. Mr. Smith has a wealth of design knowledge in working with both public and private sector clients. Mr. Smith is a licensed professional engineer in Nevada and California, and in 2007 he was recognized as the American Society of Civil Engineers, Truckee Meadows Branch, Young Engineer of the Year. Mr. Smith is an active member of the American Society of Civil Engineers, American Public Works Association and the Associated General Contractors of America. As Regional Vice President, it is his responsibility to assure that projects are completed on time, within budget, and to the highest quality and accuracy standards.

# RICHARD MACHADO

## PROJECT INSPECTOR/PROJECT MANAGER

### BIO

Mr. Machado possesses over 11 years of construction experience, with 6 years of inspection and testing experience. Mr. Machado is proficient in sampling and testing soils, PCC, and asphalt concrete, inspecting roadway projects for conformance with project specifications; and developing and completing punch-list items near the end of construction. Additionally, Mr. Machado's duties include working in the laboratory performing materials testing of aggregates, soils, concrete, and asphalt concrete. As a Project Manager, Mr. Machado is responsible for coordinating projects to include attending Preconstruction Meetings as well as post-construction documentation.

# TYLER HOUGH

## QUALITY CONTROL DIVISION MANAGER

### BIO

Mr. Hough has over 21 years of construction inspection and testing experience, mainly on large infrastructure projects such as RTC, Storey County Industrial Center, and NDOT. Mr. Hough is proficient in the following: sampling and testing soils, PCC, and asphalt concrete; inspecting roadway projects for conformance with project specifications; and executing punch-list items near the end of construction. Additionally, Mr. Hough's responsibilities include project management, reviewing and approving field technicians' daily field reports, preparing cost estimates for clients, and ensuring accurate invoicing to clients. Mr. Hough oversees the laboratory's process and procedure to perform materials testing of aggregates, soils, concrete, and asphalt concrete and distribution of information to clients.

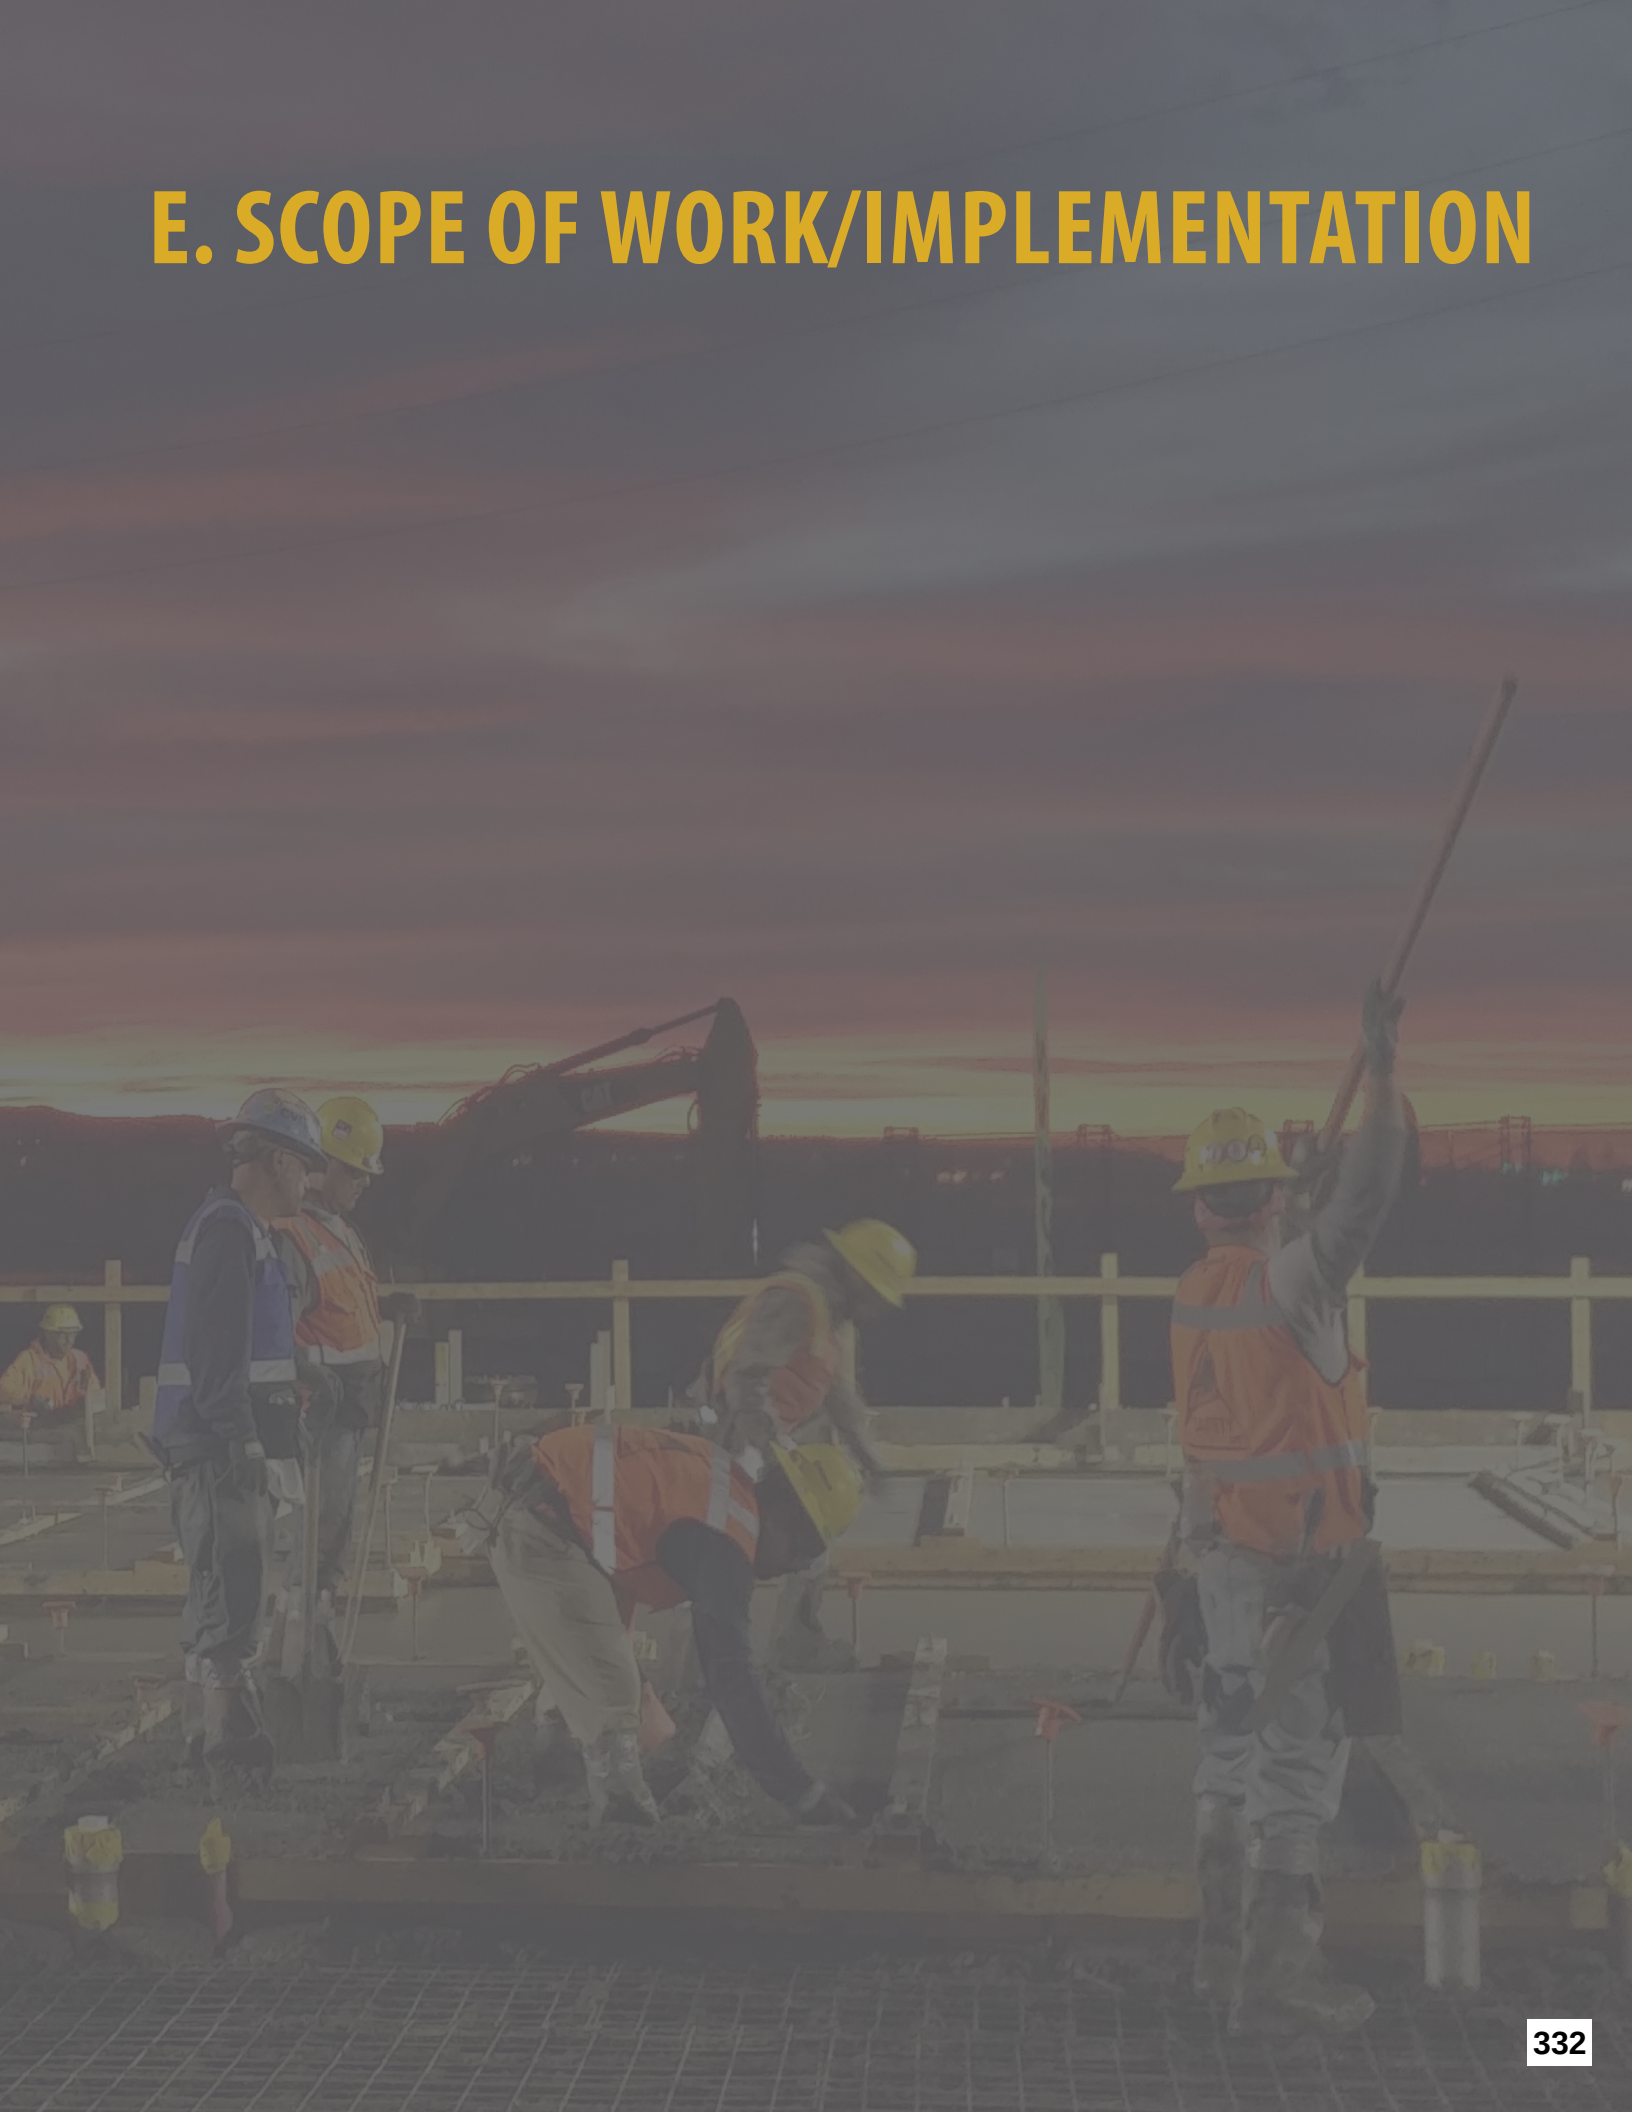
# D. PROJECT INSPECTOR AND PROJECT TEAM

# D. PROJECT INSPECTOR AND PROJECT TEAM

BEC has the best team in place to service the City of South Lake Tahoe Public Works Department for the on-call inspection and materials testing services. In addition to being thoroughly familiar with the project from our work performing the geotechnical inspection and report, we have the most experienced and trusted special inspectors. Through the previous on-call contract, our team had developed a strong working relationship with the City. Lastly, we have performed special inspection on many projects that are multi-storied and large, greater than 69,000 sq ft. We have the capacity, experience, and capability to ensure your project gets built to code and goes smoothly.

## KEY PERSONNEL

**Shaun Smith, P.E., LEED AP - Principal-in-Charge/Project Engineer** | Mr. Smith is a civil engineer with 27 years of design, EOR, and project management experience. His background and previous work experience include civil engineering design, project management and inspection/testing. Mr. Smith has a wealth of design knowledge in working with both public and private sector clients. Mr. Smith is an active member of the University of Nevada (UNR) College of Engineering Advisory Board. As President, it is his responsibility to assure that projects are completed on time, within budget, and to the highest quality and accuracy standards.



**Rich Machado, NAQTC, ACI - Project Inspector/Project Manager** | Mr. Machado possesses over 11 years of construction experience, with 5 years of inspection and testing experience with BEC. Mr. Machado is proficient in sampling and testing soils, PCC, and asphalt concrete; inspecting roadway projects for conformance with project specifications; and developing and completing punch-list items near the end of construction. Additionally, Mr. Machado's duties include working in the laboratory performing materials testing of aggregates, soils, concrete, and asphalt concrete. Mr. Machado is responsible for coordinating projects to include attending preconstruction meetings as well as post-construction documentation.

**Tyler Hough, NAQTC, ACI - Quality Control Division Manager** | Mr. Hough is the Quality Control Division Manager and has more than 20 years of experience. He holds eight ICC certifications, three NAQTC certifications and an ACI certification. He is responsible for all facets of construction testing and inspection from earthwork through building erection. He is responsible for managing projects to ensure the contract plans, specifications, schedule and budget are being met. He will also be in the field performing the special inspections.

**Lindsey Smith, P.E., NAQTC - Laboratory Manager** | Ms. Smith possesses a Bachelor of Science in Civil Engineering and a Master of Business Administration from the University of Nevada, Reno. Ms. Smith manages the materials testing laboratory. She is responsible for coordination, data review, and report generation of the laboratory materials testing operations. Ms. Smith is also responsible for training of laboratory personnel, maintaining calibration records for all laboratory equipment, and maintaining laboratory accreditations with NDOT, AASHTO, AMRL, CCRL, and the Army Corp of Engineers. Ms. Smith will be the Laboratory Materials Testing Manager on this project.

**Damian Branco - Construction Inspector** | Mr. Branco possesses over 3 years of construction experience. Mr. Branco is just 1 semester away from obtaining his bachelor's degree in construction management from Western Nevada College. Mr. Branco is proficient in sampling and testing soils, PCC, and asphalt concrete; inspecting roadway projects for conformance with project specifications; and keeping accurate and complete document control. Additionally, Mr. Branco's duties include working in the laboratory performing materials testing of aggregates, soils, concrete, and asphalt concrete.

# E. SCOPE OF WORK/IMPLEMENTATION

# E. SCOPE OF WORK/IMPLEMENTATION

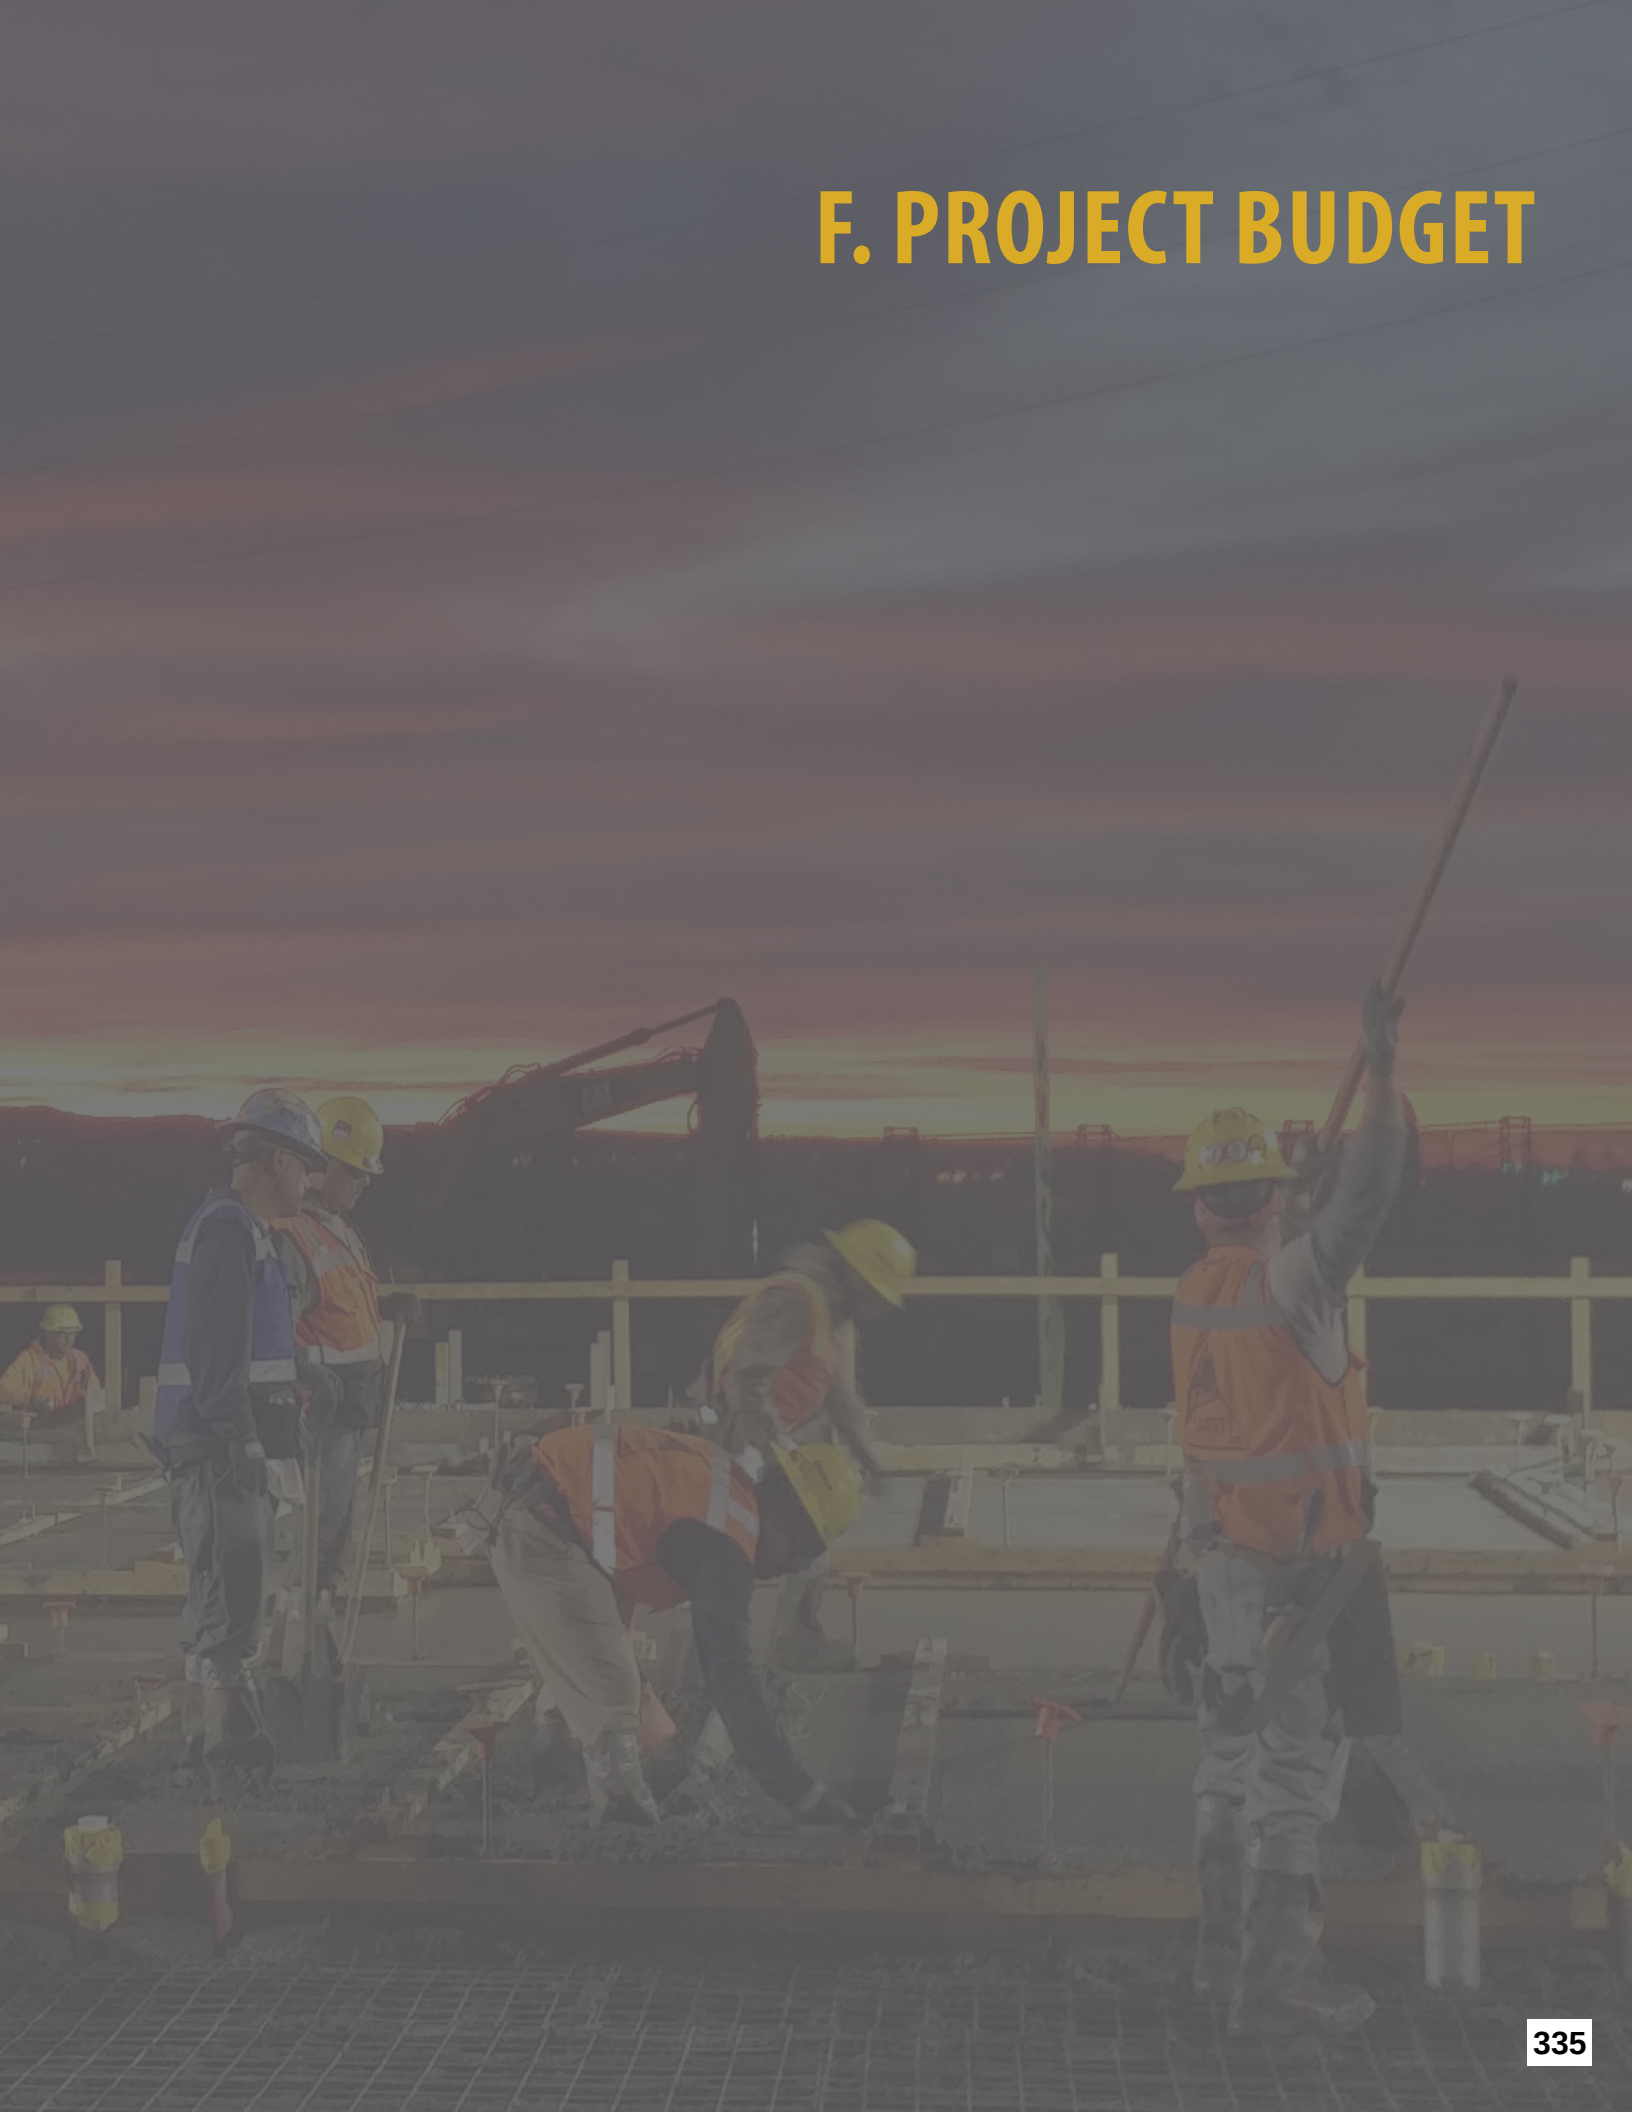
Upon awarded completion this project our first step would be to call a meeting with the City of South Lake Tahoe, full-time site inspector, materials tester(s) and our in-house California registered professional engineer. During this meeting, we would discuss the details, roles and responsibilities of each position. This is where we would cater our professional services to an outline best fitted to the City of South Lake Tahoe already in place programs and procedures. After we have a clear understanding of the roles and responsibilities of all parties involved, we will start our day-to-day business.

At the start of each project, we will start off with a thorough plan and specification review to better understand each project. During this process we will pick through the plans with a skilled eye to check for potential complications or conflicts that could be encountered during construction. We will then meet with the design team and the South Lake Tahoe city engineer to discuss any potential issues that we have found during plan review. During this process we will prepare a projected testing matrix, bid item matrix and quantity tracking log that our project inspector will update throughout the duration of each project.

In addition to our standard plan and specification review. BEC can provide a detailed constructability review on an as needed basis as directed by the City of South Lake Tahoe. This constructability review will be led by Shaun Smith who possesses his California PE and has over 27 years' experience in civil engineering with 18 years of that being in civil design and 9 years in Geotech engineering and materials inspection. Shaun will coordinate this review directly with the City of Southlake Engineering manager and the design engineers.

As we enter into the start of construction our full-time inspector, Richard Machado, and The City of South Lake representative will call a pre-construction meeting with the contractor to discuss the construction activities. At this meeting we will talk about the submittal review process, pay applications, quantity tracking, RFI procedures, traffic control plans, BMP's, work hours, scheduling inspections, three week look ahead, potential change orders and scheduling of weekly construction meetings.

As construction starts, our full-time inspector and/or The City of South Lake Inspector will coordinate on a daily basis on contract activities within the basin. During the day-to-day activities, our inspector will observe and document each activity that is being performed by the contractor. Some of the activities will include but are not limited to inspection of traffic control devices, documentation to the general public on road closures, daily inspection of BMP's and SWPPP requirements, inspection of material deliveries, scheduling of materials tester, assuring materials are tested and accepted per the project specifications and sampling and testing frequencies, employee interviews for prevailing wage requirements per the California labor code, change order tracking, inspection of construction procedures meets the project specifications and details, daily coordination with contractors, coordination with utility jurisdictions, review of billing, perform final job walks, develop a final punch list, project closeout documentation, etc.



With Richard Machado spending the last three construction seasons working directly with the City of South Lake Tahoe we feel that Richard is the most qualified and knowledgeable for this position. Richard has an outstanding history of great documentation control and reporting. Rich's communication skills and outgoing demeanor to dealing with the general public, contractors, engineering staff and utility owners is beyond impressive. We will not be disappointed with the results. Richard has over 10 years of construction inspection experience three of them as the QC manager for 3D Concrete and seven of them as a materials inspector/project manager with BEC Richard has completed his training for his QSP certification and is currently enrolled to complete the test required and posses this certification by mid-July of 2024. With Rich having his permanent residence in Minden Nevada he is just a short 25–30-minute drive to South Lake Tahoe. Rich will be available 24/7 for emergencies and readily available to act fast in any circumstances.

# E. SCOPE OF WORK/IMPLEMENTATION

In addition to Richard Machado, we will have Tyler Hough and Damian Branco as a backup full time inspector/tester on an as needed basis during peak construction, vacations and emergencies. Tyler possesses over 21 years in materials inspection and testing experience with the mast majority managing heavy civil infostructure projects. Damian Branco possesses three years of construction experience of that three years Damian has worked for BEC as a materials inspector for one year and two years with Environmental Protection Services. Damian has been a full-time college student and a full-time employee the last three years and is only two courses away of obtaining his bachelor's degree in construction management. Damian has completed his training for his QSP certification and is currently enrolled to complete the test required and possess this certification by mid-July of 2024. Tyler and Damian's documentation control as well has his personal demeanor is beyond outstanding. Tyler and Damian will also be available 24/7 for emergencies and readily available to act fast in any circumstances.

**With BEC having over 25 certified inspectors and testers, we will have inspectors and testers ready and available 24 hours a day, 7 days a week for any circumstances that this job may bring.**

# F. PROJECT BUDGET

# F. PROJECT BUDGET

On-site full-time inspector - Weekly all-inclusive rate = $6,400.00*
(40 Hours per week)

On-site tester all-inclusive hourly rate = $160.00/hr*

Constructibility review all-inclusive hourly rate = $160.00/hr*

*This weekly all-inclusive rate accounts for equipment, travel time, vehicle and millage. Overtime will be billed at a 1.25 multiplier per hour of our all-inclusive prevailing wage rate.

*Please note, the aforementioned all-inclusive prevailing wage rate reflects El Dorado County, California's, predetermined rate increase through December 31, 2025.
Laboratory rates will be billed at our standard rates for service attached.

**LABORATORY RATES**

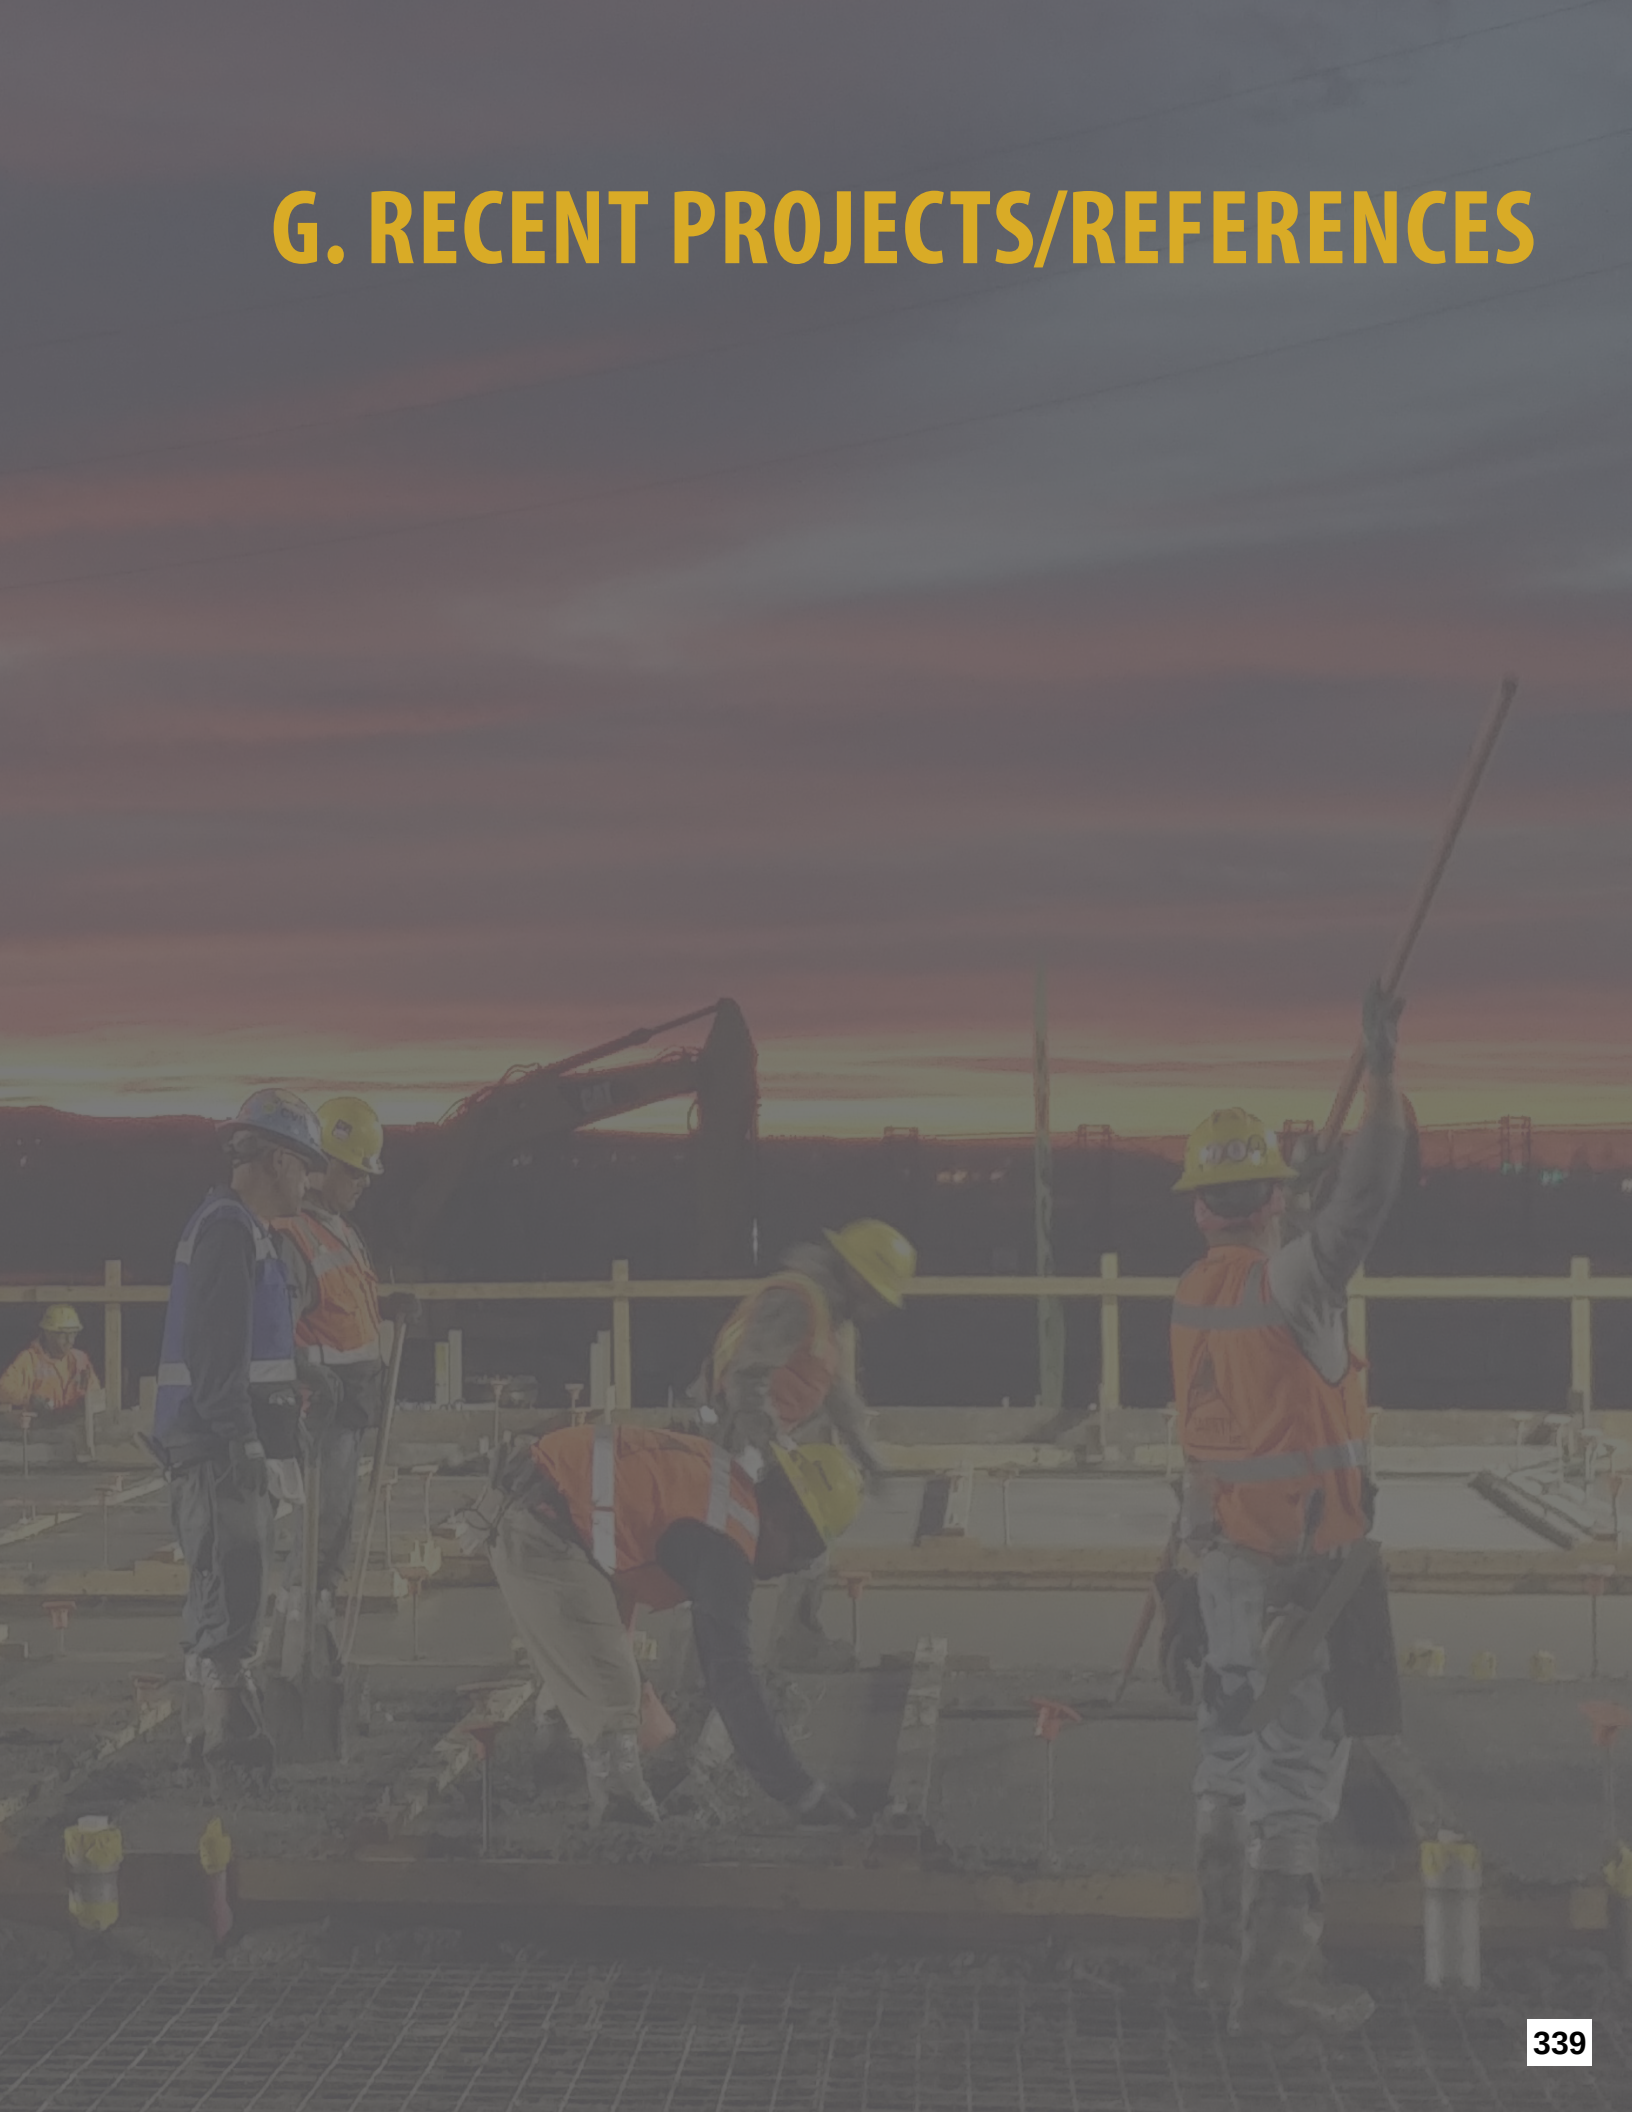
| **TESTS** | | **UNIT PRICE** |
|---|---|---|
| **SOILS TESTING:** | | |
| Moisture Content (ASTM D 2216) | | $ 25.00/test |
| Moisture Content and Dry Density (ASTM D 2937) | | $ 50.00/test |
| Atterberg Limit (ASTM D 4318) | | $100.00/test |
| Minus 200 Wash (ASTM D 1140) | | $ 80.00/test |
| Standard Sieve Analysis | | $110.00/test |
| Hydrometer Analysis minus No. 10 (ASTM D 422) | | $225.00/test |
| Soil Specific Gravity (ASTM D 854) | | $ 95.00/test |
| R-Value, Untreated Field Sample (ASTM D 2844) | | $300.00/test |
| ¾" Batching | **add** | $35.00/test |
| Consolidation, 4 points & 1 Rebound Point (ASTM D 2435) | | $350.00/test |
| Direct Shear, UU, CU, CD (ASTM D 3080) | | $350.00/test |
| Unconfined Compression (ASTM D 2166) | | $100.00/test |
| Durability Index | | $150.00/test |
| California Bearing Ratio | | $700.00/test |
| Resistivity (Miller Soil Box) | | $100.00/test |
| Standard Proctor Compaction (ASTM D 698) | | |
| Method A or B (4-inch mold) or Method C (6-inch mold) | | $175.00/test |
| Modified Proctor Compaction (ASTM D 1557) | | |
| Method A or B (4-inch mold) or Method C (6-inch mold) | | $185.00/test |
| Compaction Check Point (4-inch or 6-inch mold) | | $ 60.00/test |
| Rock Correction (ASTM D 4718) | | $ 95.00/test |
| Harvard Miniature (Nev T-101) | | $250.00/test |
| Expansion Index | | $180.00/test |

# F. PROJECT BUDGET

| | |
|---|---|
| **AGGREGATE TESTING:** | |
| Standard Sieve Analysis | $110.00/test |
| Atterberg Limit (ASTM D 4318) | $100.00/test |
| Moisture Content (ASTM D 2216) | $ 25.00/test |
| Specific Gravity Fine Aggregate with Absorption (ASTM C 128) | $ 95.00/test |
| Specific Gravity Coarse Aggregate with Absorption (ASTM C 127) | $ 95.00/test |
| Clay Lumps and Friable Particles (ASTM C 142) | $ 90.00/test |
| Flat and Elongated Particles (CRD 119, 120) | $ 80.00/test |
| Fractured Faces (Nev T-230) | $ 80.00/test |
| Sand Equivalent (ASTM D 2419) | $125.00/test |
| Cleanness Test of Aggregate | $125.00/test |
| Organic Impurities (ASTM C 40) | $ 75.00/test |
| Dry Unit Weight of Aggregate (ASTM C 29) | $ 60.00/test |
| Sodium Soundness of Aggregate (ASTM C 88) | $ 95.00/fraction |
| Los Angeles Rattler, 1.5 inch minus aggregate size (ASTM C 131) and Los Angeles Rattler, greater than 1.5-inch aggregate size (ASTM C 535) | $300.00/test |
| **PORTLAND CEMENT TESTING:** | |
| Compression of Concrete Cylinder (ASTM C 39) | $ 25.00/ea. |
| Compression of Grout Cylinder (UBC 24-28) | $ 25.00/ea. |
| Compression of Mortar Cylinder (UBC 24-22) | $ 25.00/ea. |
| Compression of Cored Concrete (ASTM C 42) | $ 50.00/ea. |
| Compression of Shotcrete per Core | $100.00/ea. |
| Flexural Strength of Concrete Beams (ASTM C 78, C 293) | $100.00/ea. |
| Splitting Tensile Strength of Concrete Cylinder (ASTM C 496) | $ 55.00/ea. |
| **MASONRY TESTING:** | |
| Compression of Masonry Unit (ASTM C 140) (Set of 3) | $210.00/set |
| Compression of Masonry Prism (ASTM C 1314) | $150.00/ea. |
| Shrinkage (Set of 3) | $450.00/set |
| Moisture (Set of 3) | $120.00/set |
| **ASPHALT CONCRETE TESTING:** | |
| Bitumen Content by Ignition | $120.00/test |
| Asphalt Gradation | $100.00/test |
| Marshall Stability and Flow, Compaction and Unit Weight (ASTM D 1559) | $230.00/test |
| Maximum Theoretical Specific Gravity (ASTM D 2041) | $100.00/test |
| Unit Weight of Asphalt Cores (ASTM D 2726) | $ 40.00/ea. |
| Hveem Compaction and Stability | $130.00/ea. |
| Hot Mix Asphalt Mix Design | P.O.R.* |
| CTB Mix Design | P.O.R.* |
| **MISCELLANEOUS:** | |
| Mobile Asphalt/Soils Testing Laboratory | P.O.R.* |
| Special Handling | $ 75.00/hour |
| Rush Charge | 50% Additional Charge |
| Fireproofing | $ 75.00/test |

# F. PROJECT BUDGET

**ADDITIONAL INFORMATION**



Laboratory test unit prices are based upon the average running time required for each test. Special research, sample or equipment preparation or laboratory consulting will be based upon hourly personnel charges.

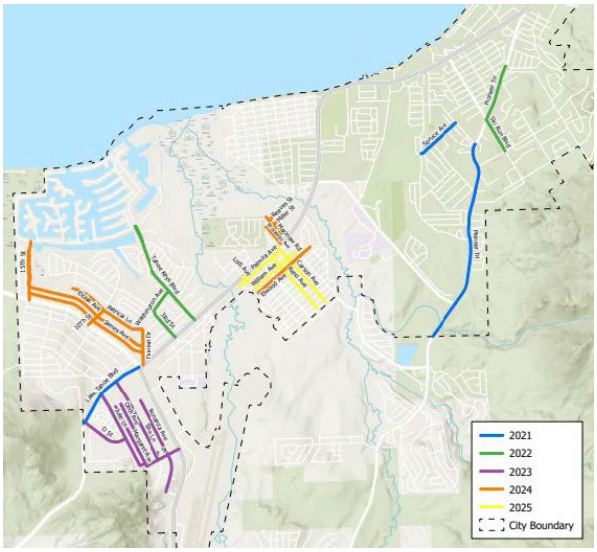
Any specialized testing not covered by this fee schedule will be developed or subcontracted out under BEC supervision. Costs for these tests will be time-and-materials. When applicable, subcontractors' fees will be invoiced at cost plus ten (10) percent.

All samples will be discarded thirty (30) days after submission of our report, unless otherwise directed by the client. Upon request, Black Eagle Consulting, LLC. will deliver samples to the client, shipping collect on delivery, or will store them for an agreed charge.

** Price on request*

# G. RECENT PROJECTS/REFERENCES

# G. RECENT PROJECTS/REFERNCES



## CITY OF SOUTH LAKE TAHOE ON-CALL, SOUTH LAKE TAHOE ROAD REHABILITATION

### SOUTH LAKE TAHOE, CA

CLIENT NAME
City of South Lake Tahoe

CONTACT
Randy Carlson

PHONE
530.542.6033

In 2022, BEC performed the underground utility infrastructure for the South Lake Tahoe Recreation and Aquatic Center site. We were specifically involved with the bedding and backfilling of the electrical trenches and transformer pads. We coordinated with the local City of South Lake Tahoe utility inspectors, took soil samples, performed lab testing and overall, quality assurance. 2022 also saw the Tahoe Keys Road Rehabilitation project where AC placement, density testing and sampling and coring, lab testing and quality assurance were performed by BEC.

In 2023, BEC performed inspection and testing services for the Road Rehabilitation and Pioneer Trail Emergency AC Patchwork project (PWC 23-30150005-04) that addressed the repaving of D Street from Lake Tahoe Boulevard to Julie Lane; Julie Lane to F Street; Margaret Avenue from Delta to F Street; Dedi Avenue from Delta to F Street; Delta Street from Tata Lane to Julie Lane; B Street from Tata Lane to Julie Lane; and Ski Run Boulevard from Pioneer to Saddle Road.

We performed quality assurance, PCC placement, AC densities, sampling and lab testing services for the Barton Avenue to 2nd Street Drainage project. This City project #301-40054-01.

The Lake Tahoe Boulevard Class 1 Bicycle Trail Project also fell under this on call. BEC did the quality assurance, PCC Placement, materials testing, and performed AC placement density testing, sampling and coring for the bike path on the subgrade, aggregate base. We also worked on the electrical utility work for bike path lights.

# YOSEMITE NATIONAL PARK, REPAIRS ON WAWONA ROAD

During the winter of 2020, BEC provided materials testing, inspections, and 1704 SI services for the above-referenced project. BEC's certified field technicians and inspectors performed density testing on native subgrade, trench backfill/fill materials for the storm drains, and the AB for asphalt paving. BEC's certified special inspectors inspected and documented the following: masonry headwalls, grout encasements within the rock anchors, and conducted pull-testing on rock anchors. Grout samples were obtained by BEC's certified field technicians and returned to BEC's nationally accredited Carson City, NV, laboratory for compressive strength testing. Additionally, asphalt samples were obtained and tested for extraction, sieve analysis, and theoretical specific gravity. Further, AB samples were obtained and tested for maximum density, sieve analysis, and Atterberg limit tests. All aforementioned testing was performed by certified laboratory technicians.

# CA FLAP NEC 40(1) DONNER PASS ROAD

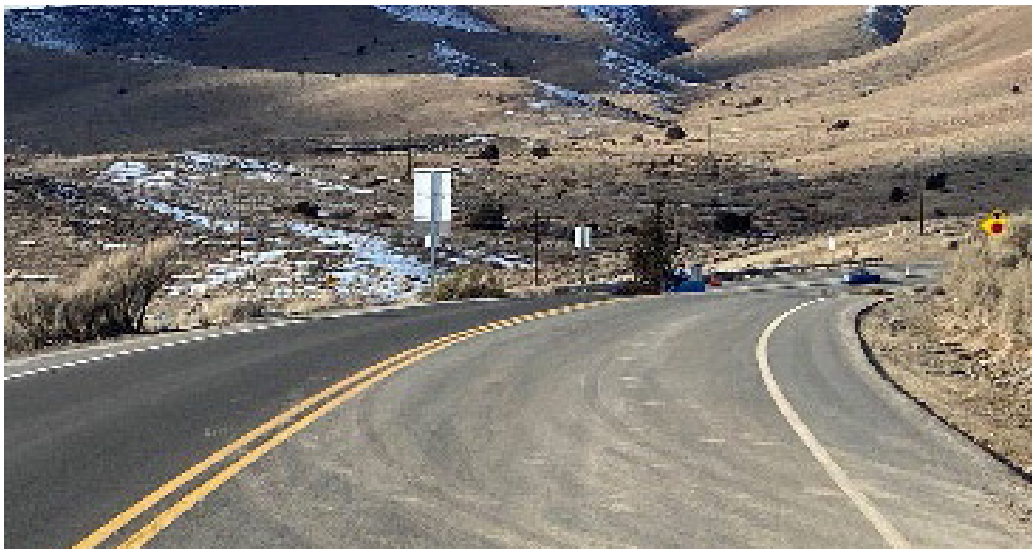
## SODA SPRINGS, CA

CLIENT NAME
Carson City Public Works

CONTACT
Nick Herback

PHONE
775.309.9354

BEC provided full-time (FT) materials testing and inspection services for the above-referenced FHWA project which rehabilitated asphalt pavement and widened 6.54 miles of roadway shoulders for bike lanes from Exit 174 on Interstate 80 in Soda Springs to the Truckee City limits, CA. Per FP-14 specifications, our certified field technicians and inspectors performed FT materials testing services during asphalt paving as well as materials testing, inspections, and 1704 SI documentation. Specifically, they performed density testing of AB, native subgrade, and shoulder materials while also obtaining asphalt core samples to be tested for in-place density. All samples were delivered certified field to our nationally accredited laboratory in Reno, NV, for certified technicians to perform sieves, Proctors, Atterberg limit tests on utility backfill/AB/native subgrade/fill materials; extraction by ignition, gradation, theoretical maximum specific gravity, and Marshall properties on asphalt samples; asphalt cores were tested for thickness and in-place air voids; and PCC cylinders were tested for compressive strength.



# FLINT ROAD RECONSTRUCTION

## CARSON CITY, NV

CLIENT NAME
Carson City Public Works

CONTACT
Brian Elder, PE

PHONE
775.283.7586

This project involved the reconstruction of Flint Road located between US Highway 50 (US 50) and Eastgate Siding Road in Carson City, NV. Certified special inspectors and field technicians performed on-site materials testing to include density testing of roadway AB materials and obtained hot-mix asphalt samples and cores during paving and returned to our nationally accredited Carson City, NV, laboratory for testing. Certified laboratory technicians performed: sieve analysis, Atterberg limits, and maximum density (Proctor) testing on AB materials; bituminous ratio, maximum specific gravity and gradation testing on hot-mix asphalt; and in-place density, and thickness tests on asphalt cores.

# SOUTH CARSON COMPLETE STREETS PROJECT

## CARSON CITY, NV

CLIENT NAME
Carson City Public Works

CONTACT
Brian Elder, PE

PHONE
775.283.7586

The South Carson Complete Streets Project renovated areas of Carson City, accommodating sustainable economic growth, and enhanced the city's quality of life by providing safer travel opportunities for pedestrians, cyclists and motorists as well as creating a more aesthetically pleasing and inviting gateway into Nevada's state capital. The overall project encompassed complete street improvements from Fifth Street to 1,400 feet north of the Carson City I-580 Freeway terminus (Appion Way), as well as significant upgrades and expansion to critical utility infrastructure along the corridor. New sidewalks and a paved multi-use path were added for pedestrians. The project limits extended approximately 2.5 miles and had a project construction cost of $20 million.

BEC was the geotechnical Engineer-of-Record for this project. The firm provided permitting, geotechnical investigation, and final design reporting. In addition, BEC contracted with Carson City Public Works to complete Independent Assurance testing on this project. Our duties included density testing of backfill material during installation of electrical conduit; water piping; and storm drain and sanitary sewer gravity lines. In addition, BEC provided field testing during earthwork operations; aggregate base placement; PCC placement; cement treated base operation; and asphalt paving. Laboratory material testing included sieve analyses, Atterberg limits, modified Proctors, fractured faces, sand equivalents, cleanness values, specific gravity and absorptions, resistance to wear, and R-values to characterize the soil and aggregate sources. In addition, hot-mix asphalt samples were taken and tested for extraction by ignition, gradation, theoretical maximum specific gravity, and Marshall properties along with concrete cylinder compressive strength testing related to PCC site improvements.

# TAHOE CITY SIDEWALK AND BIKE TRAIL OPTION X, SR 89 AND SR 28 INTERSECTION

## CARSON CITY, NV

CLIENT NAME
Carson City Public Works

CONTACT
Nick Herback

PHONE
775.309.9354

The Tahoe City Sidewalk and Bike Trail project included 0.4 miles of bike path construction, broken into three separate locations. The project also included 0.25 miles of sidewalk construction at three different locations. The addition of 0.25 miles of lighting infrastructure improvements along West Lake Boulevard was also included. There were 700 tons of asphalt concrete pavement and 800 sq yds of concrete sidewalk for the project. The project tied into the existing Truckee River Bridge project. BEC provided materials testing and inspection and 1704 inspection for this federal highway project.

# EAST LONG STREET 2021 PAVEMENT RECONSTRUCTION

## CARSON CITY, NV

CLIENT NAME
Carson City Public Works

CONTACT
Brian Elder

PHONE
775.283.7362

Beginning in August of 2021, BEC provided materials testing and inspection services for the reconstruction of East Long Street in Carson City, Nevada. For this work, BEC performed inspection and density testing of subgrade and aggregate base, inspection for bedding and backfill of utilities, testing of concrete placement, and inspection and testing of asphalt pavement patching. All laboratory testing was performed at BEC's Carson City which included compressive strength for concrete cylinders; bituminous ratios, sieve analysis and maximum specific gravity for asphalt samples; and Atterberg limits, proctor curves and sieve analysis for soil samples.

# PLYMOUTH DRIVE ROAD RECONSTRUCTION

**RENO, NV**

CLIENT NAME
Herback General Engineering

CONTACT
Jake Melvin (Former Employee)

PHONE
775.267.6800

The Plymouth Drive Road Reconstruction project involved installing approximately 36,000-sf of pulverizing and repaving, pavement striping, aggregate V-ditches, concrete curbs, valley gutters, and related appurtenances.

BEC provided materials testing and inspection for this reconstruction project. BEC did sampling and testing for the pulverization and grading of the existing roadway, testing for the compaction of the aggregate base prior to asphalt concrete (AC) placement, and sampling and testing for the subgrade material. Site utilities included density testing for bedding and backfill for the 72-inch storm drain manhole, 18-inch reinforced concrete pipe storm drain, and for the culvert, corrugated metal pipe remove and replace. BEC sampled asphalt concrete, established rolling patterns checked density of the hot-mix asphalt materials, and extracted six 4-inch diameter cores for the compacted AC and backfilled the areas with non-shrink grout. BEC performed laboratory testing on soil samples for plasticity index tests, modified proctor curves, and sieve analyses to characterize the native subgrade, pulverized existing AC/AB, and import materials; concrete cylinders tested for compressive strength; and hot-mix samples tested for extraction by the ignition test method, gradation after ignition, flow/stability, and maximum theoretical specific gravity.

# ATTACHMENTS

## Debarment and Suspension Certification

The undersigned (authorized official signing for the Bidder) hereby declares under penalty of perjury the following:

**1.** In accordance with section 6109 of the Public Contract Code, the bidder declares that bidder will not enter into any contract with a subcontractor who/which has been debarred pursuant to section 1771.1 or section 1777.7 of the Labor Code. No public monies shall be paid to a debarred subcontractor, and any contract entered into for public work between a prime contractor and debarred subcontractor shall be considered void as a matter of law. Any payments made to a debarred subcontractor shall be returned to Owner. The prime contractor shall be solely responsible for all payments to a debarred subcontractor. In no case shall any public money be used to pay a debarred subcontractor.

**2.** In accordance with section 10162 of the Public Contract Code, has the Bidder, any officer of the Bidder, or any employee of the Bidder who has a proprietary interest in the Bidder, ever been disqualified, removed, or otherwise prevented from bidding on, or completing a federal, state, or local government project because of a violation of law or a safety regulation?

Yes _____ No X

If the answer is yes, explain the circumstances in the following space (use additional sheets if necessary).

**3.** In accordance with section 10232 of the Public Contract Code, has more than one final, unappealable finding of contempt of a court by a federal court has been issued against the Bidder within the immediately preceding two-year period because of the Bidder's failure to comply with an order of a federal court which orders the Bidder to comply with an order of the National Labor Relations Board? For purposes of this section, a finding of contempt does not include any finding which has been vacated, dismissed, or otherwise removed by the court because the contractor has complied with the order which was the basis for the finding.

Yes _____ No X

If the answer is yes, explain the circumstances in the following space (use additional sheets if necessary).

**4.** In accordance with section 10285.1 of the Public Contract Code, the Bidder declares that neither the Bidder nor any subcontractor to be engaged by the Bidder has been convicted of any of the offenses referred to in this section within the preceding three (3) years. These offenses include if that Bidder or any subcontractor to be engaged by the Bidder, or any partner, member, officer, director, responsible managing officer, or responsible managing employee thereof, has been convicted by a court of competent jurisdiction of any charge of fraud, bribery, collusion, conspiracy, or any other act in violation of any state or federal antitrust law in connection with the bidding upon, award of, or performance of, any public works contract, as defined in Section 1101, with any public entity, as defined in Section 1100, including, for the purposes of this certification, The City of South Lake Tahoe.

**5. Certification Regarding Debarment and Suspension**

The undersigned (authorized official signing for Black Eagle Consulting, LLC ) certifies to the best of his or her knowledge and belief, that the company , defined as the primary participant in accordance with 45 C.F.R. Part 76, and its principals:

A. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal Department or agency;

B. have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

C. are not presently indicted or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2) of this certification; and

D. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.

**By my signature which is placed below on behalf of the named Bidder, I certify, under penalty of perjury under the laws of the State of California, that I am an officer, principal or owner of the Bidder, and that the foregoing questionnaire, and all certifications and statements therein, are accurate, true and correct.**

Date: 05/21/2024 Bidder's Signature: Shaun A. Smith

# BUSINESS AUTO COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section **V** – Definitions.

**SECTION I – COVERED AUTOS**

Item Two of the Declarations shows the "autos" that are covered "autos" for each of your coverages. The following numerical symbols describe the "autos" that may be covered "autos". The symbols entered next to a coverage on the Declarations designate the only "autos" that are covered "autos".

**A. Description Of Covered Auto Designation Symbols**

| Symbol | Description Of Covered Auto Designation Symbols | |
|---|---|---|
| **1** | Any "Auto" | |
| **2** | Owned "Autos" Only | Only those "autos" you own (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" you acquire ownership of after the policy begins. |
| **3** | Owned Private Passenger "Autos" Only | Only the private passenger "autos" you own. This includes those private passenger "autos" you acquire ownership of after the policy begins. |
| **4** | Owned "Autos" Other Than Private Passenger "Autos" Only | Only those "autos" you own that are not of the private passenger type (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to power units you own). This includes those "autos" not of the private passenger type you acquire ownership of after the policy begins. |
| **5** | Owned "Autos" Subject To No-fault | Only those "autos" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "autos" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged. |
| **6** | Owned "Autos" Subject To A Compulsory Uninsured Motorists Law | Only those "autos" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "autos" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement. |
| **7** | Specifically Described "Autos" | Only those "autos" described in Item Three of the Declarations for which a premium charge is shown (and for Covered Autos Liability Coverage any "trailers" you don't own while attached to any power unit described in Item Three). |
| **8** | Hired "Autos" Only | Only those "autos" you lease, hire, rent or borrow. This does not include any "auto" you lease, hire, rent or borrow from any of your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households. |
| **9** | Non-owned "Autos" Only | Only those "autos" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "autos" owned by your "employees", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs. |

© Insurance Services Office, Inc., 2011

| | | |
|---|---|---|
| **19** | Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only | Only those "autos" that are land vehicles and that would qualify under the definition of "mobile equipment" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged. |

**B. Owned Autos You Acquire After The Policy Begins**

**1.** If Symbols **1, 2, 3, 4, 5, 6** or **19** are entered next to a coverage in Item Two of the Declarations, then you have coverage for "autos" that you acquire of the type described for the remainder of the policy period.

**2.** But, if Symbol **7** is entered next to a coverage in Item Two of the Declarations, an "auto" you acquire will be a covered "auto" for that coverage only if:

**a.** We already cover all "autos" that you own for that coverage or it replaces an "auto" you previously owned that had that coverage; and

**b.** You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

**C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos**

If Covered Autos Liability Coverage is provided by this Coverage Form, the following types of vehicles are also covered "autos" for Covered Autos Liability Coverage:

**1.** "Trailers" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.

**2.** "Mobile equipment" while being carried or towed by a covered "auto".

**3.** Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:

**a.** Breakdown;

**b.** Repair;

**c.** Servicing;

**d.** "Loss"; or

**e.** Destruction.

**SECTION II – COVERED AUTOS LIABILITY COVERAGE**

**A. Coverage**

We will pay all sums an "insured" legally must pay as damages because of "bodily injury" or "property damage" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of a covered "auto".

We will also pay all sums an "insured" legally must pay as a "covered pollution cost or expense" to which this insurance applies, caused by an "accident" and resulting from the ownership, maintenance or use of covered "autos". However, we will only pay for the "covered pollution cost or expense" if there is either "bodily injury" or "property damage" to which this insurance applies that is caused by the same "accident".

We have the right and duty to defend any "insured" against a "suit" asking for such damages or a "covered pollution cost or expense". However, we have no duty to defend any "insured" against a "suit" seeking damages for "bodily injury" or "property damage" or a "covered pollution cost or expense" to which this insurance does not apply. We may investigate and settle any claim or "suit" as we consider appropriate. Our duty to defend or settle ends when the Covered Autos Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

**1. Who Is An Insured**

The following are "insureds":

**a.** You for any covered "auto".

**b.** Anyone else while using with your permission a covered "auto" you own, hire or borrow except:

**(1)** The owner or anyone else from whom you hire or borrow a covered "auto".

This exception does not apply if the covered "auto" is a "trailer" connected to a covered "auto" you own.

© Insurance Services Office, Inc., 2011

**(2)** Your "employee" if the covered "auto" is owned by that "employee" or a member of his or her household.

**(3)** Someone using a covered "auto" while he or she is working in a business of selling, servicing, repairing, parking or storing "autos" unless that business is yours.

**(4)** Anyone other than your "employees", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "employees", while moving property to or from a covered "auto".

**(5)** A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "auto" owned by him or her or a member of his or her household.

**c.** Anyone liable for the conduct of an "insured" described above but only to the extent of that liability.

**2. Coverage Extensions**

**a. Supplementary Payments**

We will pay for the "insured":

**(1)** All expenses we incur.

**(2)** Up to $2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

**(3)** The cost of bonds to release attachments in any "suit" against the "insured" we defend, but only for bond amounts within our Limit of Insurance.

**(4)** All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $250 a day because of time off from work.

**(5)** All court costs taxed against the "insured" in any "suit" against the "insured" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "insured".

**(6)** All interest on the full amount of any judgment that accrues after entry of the judgment in any "suit" against the "insured" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

**b. Out-of-state Coverage Extensions**

While a covered "auto" is away from the state where it is licensed, we will:

**(1)** Increase the Limit of Insurance for Covered Autos Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "auto" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

**(2)** Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "auto" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

**B. Exclusions**

This insurance does not apply to any of the following:

**1. Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the "insured".

**2. Contractual**

Liability assumed under any contract or agreement.

But this exclusion does not apply to liability for damages:

**a.** Assumed in a contract or agreement that is an "insured contract", provided the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement; or

**b.** That the "insured" would have in the absence of the contract or agreement.

**3. Workers' Compensation**

Any obligation for which the "insured" or the "insured's" insurer may be held liable under any workers' compensation, disability benefits

 © Insurance Services Office, Inc., 2011 

or unemployment compensation law or any similar law.

**4. Employee Indemnification And Employer's Liability**

"Bodily injury" to:

**a.** An "employee" of the "insured" arising out of and in the course of:

**(1)** Employment by the "insured"; or

**(2)** Performing the duties related to the conduct of the "insured's" business; or

**b.** The spouse, child, parent, brother or sister of that "employee" as a consequence of Paragraph **a.** above.

This exclusion applies:

**(1)** Whether the "insured" may be liable as an employer or in any other capacity; and

**(2)** To any obligation to share damages with or repay someone else who must pay damages because of the injury.

But this exclusion does not apply to "bodily injury" to domestic "employees" not entitled to workers' compensation benefits or to liability assumed by the "insured" under an "insured contract". For the purposes of the Coverage Form, a domestic "employee" is a person engaged in household or domestic work performed principally in connection with a residence premises.

**5. Fellow Employee**

"Bodily injury" to:

**a.** Any fellow "employee" of the "insured" arising out of and in the course of the fellow "employee's" employment or while performing duties related to the conduct of your business; or

**b.** The spouse, child, parent, brother or sister of that fellow "employee" as a consequence of Paragraph **a.** above.

**6. Care, Custody Or Control**

"Property damage" to or "covered pollution cost or expense" involving property owned or transported by the "insured" or in the "insured's" care, custody or control. But this exclusion does not apply to liability assumed under a sidetrack agreement.

**7. Handling Of Property**

"Bodily injury" or "property damage" resulting from the handling of property:

**a.** Before it is moved from the place where it is accepted by the "insured" for movement into or onto the covered "auto"; or

**b.** After it is moved from the covered "auto" to the place where it is finally delivered by the "insured".

**8. Movement Of Property By Mechanical Device**

"Bodily injury" or "property damage" resulting from the movement of property by a mechanical device (other than a hand truck) unless the device is attached to the covered "auto".

**9. Operations**

"Bodily injury" or "property damage" arising out of the operation of:

**a.** Any equipment listed in Paragraphs **6.b.** and **6.c.** of the definition of "mobile equipment"; or

**b.** Machinery or equipment that is on, attached to or part of a land vehicle that would qualify under the definition of "mobile equipment" if it were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged.

**10. Completed Operations**

"Bodily injury" or "property damage" arising out of your work after that work has been completed or abandoned.

In this exclusion, your work means:

**a.** Work or operations performed by you or on your behalf; and

**b.** Materials, parts or equipment furnished in connection with such work or operations.

Your work includes warranties or representations made at any time with respect to the fitness, quality, durability or performance of any of the items included in Paragraph **a.** or **b.** above.

Your work will be deemed completed at the earliest of the following times:

**(1)** When all of the work called for in your contract has been completed;

**(2)** When all of the work to be done at the site has been completed if your

© Insurance Services Office, Inc., 2011

contract calls for work at more than one site; or

**(3)** When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

**11. Pollution**

"Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

**a.** That are, or that are contained in any property that is:

**(1)** Being transported or towed by, handled or handled for movement into, onto or from the covered "auto";

**(2)** Otherwise in the course of transit by or on behalf of the "insured"; or

**(3)** Being stored, disposed of, treated or processed in or upon the covered "auto";

**b.** Before the "pollutants" or any property in which the "pollutants" are contained are moved from the place where they are accepted by the "insured" for movement into or onto the covered "auto"; or

**c.** After the "pollutants" or any property in which the "pollutants" are contained are moved from the covered "auto" to the place where they are finally delivered, disposed of or abandoned by the "insured".

Paragraph **a.** above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts if:

**(1)** The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and

**(2)** The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraphs **6.b.** and **6.c.** of the definition of "mobile equipment".

Paragraphs **b.** and **c.** above of this exclusion do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

**(a)** The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and

**(b)** The discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

**12. War**

"Bodily injury" or "property damage" arising directly or indirectly out of:

**a.** War, including undeclared or civil war;

**b.** Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

**c.** Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

**13. Racing**

Covered "autos" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. This insurance also does not apply while that covered "auto" is being prepared for such a contest or activity.

**C. Limit Of Insurance**

Regardless of the number of covered "autos", "insureds", premiums paid, claims made or vehicles involved in the "accident", the most we will pay for the total of all damages and "covered pollution cost or expense" combined resulting from any one "accident" is the Limit Of Insurance for Covered Autos Liability Coverage shown in the Declarations.

 © Insurance Services Office, Inc., 2011 

All "bodily injury", "property damage" and "covered pollution cost or expense" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "accident".

No one will be entitled to receive duplicate payments for the same elements of "loss" under this Coverage Form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

**SECTION III – PHYSICAL DAMAGE COVERAGE**

**A. Coverage**

**1.** We will pay for "loss" to a covered "auto" or its equipment under:

**a. Comprehensive Coverage**

From any cause except:

**(1)** The covered "auto's" collision with another object; or

**(2)** The covered "auto's" overturn.

**b. Specified Causes Of Loss Coverage**

Caused by:

**(1)** Fire, lightning or explosion;

**(2)** Theft;

**(3)** Windstorm, hail or earthquake;

**(4)** Flood;

**(5)** Mischief or vandalism; or

**(6)** The sinking, burning, collision or derailment of any conveyance transporting the covered "auto".

**c. Collision Coverage**

Caused by:

**(1)** The covered "auto's" collision with another object; or

**(2)** The covered "auto's" overturn.

**2. Towing**

We will pay up to the limit shown in the Declarations for towing and labor costs incurred each time a covered "auto" of the private passenger type is disabled. However, the labor must be performed at the place of disablement.

**3. Glass Breakage – Hitting A Bird Or Animal – Falling Objects Or Missiles**

If you carry Comprehensive Coverage for the damaged covered "auto", we will pay for the following under Comprehensive Coverage:

**a.** Glass breakage;

**b.** "Loss" caused by hitting a bird or animal; and

**c.** "Loss" caused by falling objects or missiles.

However, you have the option of having glass breakage caused by a covered "auto's" collision or overturn considered a "loss" under Collision Coverage.

**4. Coverage Extensions**

**a. Transportation Expenses**

We will pay up to $20 per day, to a maximum of $600, for temporary transportation expense incurred by you because of the total theft of a covered "auto" of the private passenger type. We will pay only for those covered "autos" for which you carry either Comprehensive or Specified Causes Of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "auto" is returned to use or we pay for its "loss".

**b. Loss Of Use Expenses**

For Hired Auto Physical Damage, we will pay expenses for which an "insured" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or agreement. We will pay for loss of use expenses if caused by:

**(1)** Other than collision only if the Declarations indicates that Comprehensive Coverage is provided for any covered "auto";

**(2)** Specified Causes Of Loss only if the Declarations indicates that Specified Causes Of Loss Coverage is provided for any covered "auto"; or

**(3)** Collision only if the Declarations indicates that Collision Coverage is provided for any covered "auto".

However, the most we will pay for any expenses for loss of use is $20 per day, to a maximum of $600.

**B. Exclusions**

**1.** We will not pay for "loss" caused by or resulting from any of the following. Such "loss" is excluded regardless of any other cause or

© Insurance Services Office, Inc., 2011

event that contributes concurrently or in any sequence to the "loss".

**a. Nuclear Hazard**

**(1)** The explosion of any weapon employing atomic fission or fusion; or

**(2)** Nuclear reaction or radiation, or radioactive contamination, however caused.

**b. War Or Military Action**

**(1)** War, including undeclared or civil war;

**(2)** Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

**(3)** Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

**2.** We will not pay for "loss" to any covered "auto" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. We will also not pay for "loss" to any covered "auto" while that covered "auto" is being prepared for such a contest or activity.

**3.** We will not pay for "loss" due and confined to:

**a.** Wear and tear, freezing, mechanical or electrical breakdown.

**b.** Blowouts, punctures or other road damage to tires.

This exclusion does not apply to such "loss" resulting from the total theft of a covered "auto".

**4.** We will not pay for "loss" to any of the following:

**a.** Tapes, records, discs or other similar audio, visual or data electronic devices designed for use with audio, visual or data electronic equipment.

**b.** Any device designed or used to detect speed-measuring equipment, such as radar or laser detectors, and any jamming apparatus intended to elude or disrupt speed-measuring equipment.

**c.** Any electronic equipment, without regard to whether this equipment is permanently installed, that reproduces, receives or transmits audio, visual or data signals.

**d.** Any accessories used with the electronic equipment described in Paragraph **c.** above.

**5.** Exclusions **4.c.** and **4.d.** do not apply to equipment designed to be operated solely by use of the power from the "auto's" electrical system that, at the time of "loss", is:

**a.** Permanently installed in or upon the covered "auto";

**b.** Removable from a housing unit which is permanently installed in or upon the covered "auto";

**c.** An integral part of the same unit housing any electronic equipment described in Paragraphs **a.** and **b.** above; or

**d.** Necessary for the normal operation of the covered "auto" or the monitoring of the covered "auto's" operating system.

**6.** We will not pay for "loss" to a covered "auto" due to "diminution in value".

**C. Limits Of Insurance**

**1.** The most we will pay for:

**a.** "Loss" to any one covered "auto" is the lesser of:

**(1)** The actual cash value of the damaged or stolen property as of the time of the "loss"; or

**(2)** The cost of repairing or replacing the damaged or stolen property with other property of like kind and quality.

**b.** All electronic equipment that reproduces, receives or transmits audio, visual or data signals in any one "loss" is $1,000, if, at the time of "loss", such electronic equipment is:

**(1)** Permanently installed in or upon the covered "auto" in a housing, opening or other location that is not normally used by the "auto" manufacturer for the installation of such equipment;

**(2)** Removable from a permanently installed housing unit as described in Paragraph **b.(1)** above; or

**(3)** An integral part of such equipment as described in Paragraphs **b.(1)** and **b.(2)** above.

 © Insurance Services Office, Inc., 2011 

**2.** An adjustment for depreciation and physical condition will be made in determining actual cash value in the event of a total "loss".

**3.** If a repair or replacement results in better than like kind or quality, we will not pay for the amount of the betterment.

**D. Deductible**

For each covered "auto", our obligation to pay for, repair, return or replace damaged or stolen property will be reduced by the applicable deductible shown in the Declarations. Any Comprehensive Coverage deductible shown in the Declarations does not apply to "loss" caused by fire or lightning.

**SECTION IV – BUSINESS AUTO CONDITIONS**

The following conditions apply in addition to the Common Policy Conditions:

**A. Loss Conditions**

**1. Appraisal For Physical Damage Loss**

If you and we disagree on the amount of "loss", either may demand an appraisal of the "loss". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "loss". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

**a.** Pay its chosen appraiser; and

**b.** Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

**2. Duties In The Event Of Accident, Claim, Suit Or Loss**

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

**a.** In the event of "accident", claim, "suit" or "loss", you must give us or our authorized representative prompt notice of the "accident" or "loss". Include:

**(1)** How, when and where the "accident" or "loss" occurred;

**(2)** The "insured's" name and address; and

**(3)** To the extent possible, the names and addresses of any injured persons and witnesses.

**b.** Additionally, you and any other involved "insured" must:

**(1)** Assume no obligation, make no payment or incur no expense without our consent, except at the "insured's" own cost.

**(2)** Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "suit".

**(3)** Cooperate with us in the investigation or settlement of the claim or defense against the "suit".

**(4)** Authorize us to obtain medical records or other pertinent information.

**(5)** Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

**c.** If there is "loss" to a covered "auto" or its equipment, you must also do the following:

**(1)** Promptly notify the police if the covered "auto" or any of its equipment is stolen.

**(2)** Take all reasonable steps to protect the covered "auto" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.

**(3)** Permit us to inspect the covered "auto" and records proving the "loss" before its repair or disposition.

**(4)** Agree to examinations under oath at our request and give us a signed statement of your answers.

**3. Legal Action Against Us**

No one may bring a legal action against us under this Coverage Form until:

**a.** There has been full compliance with all the terms of this Coverage Form; and

**b.** Under Covered Autos Liability Coverage, we agree in writing that the "insured" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "insured's" liability.

 © Insurance Services Office, Inc., 2011 

**4. Loss Payment – Physical Damage Coverages**

At our option, we may:

**a.** Pay for, repair or replace damaged or stolen property;

**b.** Return the stolen property, at our expense. We will pay for any damage that results to the "auto" from the theft; or

**c.** Take all or any part of the damaged or stolen property at an agreed or appraised value.

If we pay for the "loss", our payment will include the applicable sales tax for the damaged or stolen property.

**5. Transfer Of Rights Of Recovery Against Others To Us**

If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "accident" or "loss" to impair them.

**B. General Conditions**

**1. Bankruptcy**

Bankruptcy or insolvency of the "insured" or the "insured's" estate will not relieve us of any obligations under this Coverage Form.

**2. Concealment, Misrepresentation Or Fraud**

This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other "insured", at any time, intentionally conceals or misrepresents a material fact concerning:

**a.** This Coverage Form;

**b.** The covered "auto";

**c.** Your interest in the covered "auto"; or

**d.** A claim under this Coverage Form.

**3. Liberalization**

If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

**4. No Benefit To Bailee – Physical Damage Coverages**

We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

**5. Other Insurance**

**a.** For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Covered Autos Liability Coverage this Coverage Form provides for the "trailer" is:

**(1)** Excess while it is connected to a motor vehicle you do not own; or

**(2)** Primary while it is connected to a covered "auto" you own.

**b.** For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

**c.** Regardless of the provisions of Paragraph **a.** above, this Coverage Form's Covered Autos Liability Coverage is primary for any liability assumed under an "insured contract".

**d.** When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

**6. Premium Audit**

**a.** The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

 © Insurance Services Office, Inc., 2011 

**b.** If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

**7. Policy Period, Coverage Territory**

Under this Coverage Form, we cover "accidents" and "losses" occurring:

**a.** During the policy period shown in the Declarations; and

**b.** Within the coverage territory.

The coverage territory is:

**(1)** The United States of America;

**(2)** The territories and possessions of the United States of America;

**(3)** Puerto Rico;

**(4)** Canada; and

**(5)** Anywhere in the world if a covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less,

provided that the "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada, or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

**8. Two Or More Coverage Forms Or Policies Issued By Us**

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us applies to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

**SECTION V – DEFINITIONS**

**A.** "Accident" includes continuous or repeated exposure to the same conditions resulting in "bodily injury" or "property damage".

**B.** "Auto" means:

**1.** A land motor vehicle, "trailer" or semitrailer designed for travel on public roads; or

**2.** Any other land vehicle that is subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged.

However, "auto" does not include "mobile equipment".

**C.** "Bodily injury" means bodily injury, sickness or disease sustained by a person, including death resulting from any of these.

**D.** "Covered pollution cost or expense" means any cost or expense arising out of:

**1.** Any request, demand, order or statutory or regulatory requirement that any "insured" or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

**2.** Any claim or "suit" by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

"Covered pollution cost or expense" does not include any cost or expense arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

**a.** That are, or that are contained in any property that is:

**(1)** Being transported or towed by, handled or handled for movement into, onto or from the covered "auto";

**(2)** Otherwise in the course of transit by or on behalf of the "insured"; or

**(3)** Being stored, disposed of, treated or processed in or upon the covered "auto";

**b.** Before the "pollutants" or any property in which the "pollutants" are contained are moved from the place where they are accepted by the "insured" for movement into or onto the covered "auto"; or

**c.** After the "pollutants" or any property in which the "pollutants" are contained are moved from the covered "auto" to the place where they are finally delivered, disposed of or abandoned by the "insured".

© Insurance Services Office, Inc., 2011

Paragraph **a.** above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "pollutants" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "auto" or its parts, if:

**(1)** The "pollutants" escape, seep, migrate or are discharged, dispersed or released directly from an "auto" part designed by its manufacturer to hold, store, receive or dispose of such "pollutants"; and

**(2)** The "bodily injury", "property damage" or "covered pollution cost or expense" does not arise out of the operation of any equipment listed in Paragraph **6.b.** or **6.c.** of the definition of "mobile equipment".

Paragraphs **b.** and **c.** above do not apply to "accidents" that occur away from premises owned by or rented to an "insured" with respect to "pollutants" not in or upon a covered "auto" if:

**(a)** The "pollutants" or any property in which the "pollutants" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "auto"; and

**(b)** The discharge, dispersal, seepage, migration, release or escape of the "pollutants" is caused directly by such upset, overturn or damage.

**E.** "Diminution in value" means the actual or perceived loss in market value or resale value which results from a direct and accidental "loss".

**F.** "Employee" includes a "leased worker". "Employee" does not include a "temporary worker".

**G.** "Insured" means any person or organization qualifying as an insured in the Who Is An Insured provision of the applicable coverage. Except with respect to the Limit of Insurance, the coverage afforded applies separately to each insured who is seeking coverage or against whom a claim or "suit" is brought.

**H.** "Insured contract" means:

**1.** A lease of premises;

**2.** A sidetrack agreement;

**3.** Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

**4.** An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

**5.** That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another to pay for "bodily injury" or "property damage" to a third party or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement; or

**6.** That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "employees", of any "auto". However, such contract or agreement shall not be considered an "insured contract" to the extent that it obligates you or any of your "employees" to pay for "property damage" to any "auto" rented or leased by you or any of your "employees".

An "insured contract" does not include that part of any contract or agreement:

**a.** That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

**b.** That pertains to the loan, lease or rental of an "auto" to you or any of your "employees", if the "auto" is loaned, leased or rented with a driver; or

**c.** That holds a person or organization engaged in the business of transporting property by "auto" for hire harmless for your use of a covered "auto" over a route or territory that person or organization is authorized to serve by public authority.

**I.** "Leased worker" means a person leased to you by a labor leasing firm under an agreement between you and the labor leasing firm to perform duties related to the conduct of your business. "Leased worker" does not include a "temporary worker".

**J.** "Loss" means direct and accidental loss or damage.

**K.** "Mobile equipment" means any of the following types of land vehicles, including any attached machinery or equipment:

 © Insurance Services Office, Inc., 2011 

**1.** Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

**2.** Vehicles maintained for use solely on or next to premises you own or rent;

**3.** Vehicles that travel on crawler treads;

**4.** Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

**a.** Power cranes, shovels, loaders, diggers or drills; or

**b.** Road construction or resurfacing equipment such as graders, scrapers or rollers;

**5.** Vehicles not described in Paragraph **1., 2., 3.** or **4.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

**a.** Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well-servicing equipment; or

**b.** Cherry pickers and similar devices used to raise or lower workers; or

**6.** Vehicles not described in Paragraph **1., 2., 3.** or **4.** above maintained primarily for purposes other than the transportation of persons or cargo. However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

**a.** Equipment designed primarily for:

**(1)** Snow removal;

**(2)** Road maintenance, but not construction or resurfacing; or

**(3)** Street cleaning;

**b.** Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

**c.** Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting or well-servicing equipment.

However, "mobile equipment" does not include land vehicles that are subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged. Land vehicles subject to a compulsory or financial responsibility law or other motor vehicle insurance law are considered "autos".

**L.** "Pollutants" means any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

**M.** "Property damage" means damage to or loss of use of tangible property.

**N.** "Suit" means a civil proceeding in which:

**1.** Damages because of "bodily injury" or "property damage"; or

**2.** A "covered pollution cost or expense";

to which this insurance applies, are alleged.

"Suit" includes:

**a.** An arbitration proceeding in which such damages or "covered pollution costs or expenses" are claimed and to which the "insured" must submit or does submit with our consent; or

**b.** Any other alternative dispute resolution proceeding in which such damages or "covered pollution costs or expenses" are claimed and to which the insured submits with our consent.

**O.** "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

**P.** "Trailer" includes semitrailer.

**THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.**

# BLANKET ADDITIONAL INSURED – PRIMARY AND NON-CONTRIBUTORY WITH OTHER INSURANCE

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

**PROVISIONS**

**1.** The following is added to Paragraph **A.1.c.**, **Who Is An Insured**, of **SECTION II – COVERED AUTOS LIABILITY COVERAGE**:

This includes any person or organization who you are required under a written contract or agreement between you and that person or organization, that is signed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, to name as an additional insured for Covered Autos Liability Coverage, but only for damages to which this insurance applies and only to the extent of that person's or organization's liability for the conduct of another "insured".

**2.** The following is added to Paragraph **B.5.**, **Other Insurance** of **SECTION IV – BUSINESS AUTO CONDITIONS**:

Regardless of the provisions of paragraph a. and paragraph **d.** of this part **5. Other Insurance,** this insurance is primary to and non-contributory with applicable other insurance under which an additional insured person or organization is the first named insured when the written contract or agreement between you and that person or organization, that is signed by you before the "bodily injury" or "property damage" occurs and that is in effect during the policy period, requires this insurance to be primary and non-contributory.

© 2016 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

# COMMERCIAL GENERAL LIABILITY COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations, and any other person or organization qualifying as a Named Insured under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word "insured" means any person or organization qualifying as such under Section **II** – Who Is An Insured.

Other words and phrases that appear in quotation marks have special meaning. Refer to Section **V** – Definitions.

**SECTION I – COVERAGES**

**COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY**

**1. Insuring Agreement**

**a.** We will pay those sums that the insured becomes legally obligated to pay as damages because of "bodily injury" or "property damage" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "bodily injury" or "property damage" to which this insurance does not apply. We may, at our discretion, investigate any "occurrence" and settle any claim or "suit" that may result. But:

**(1)** The amount we will pay for damages is limited as described in Section **III** – Limits Of Insurance; and

**(2)** Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages **A** or **B** or medical expenses under Coverage **C**.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

**b.** This insurance applies to "bodily injury" and "property damage" only if:

**(1)** The "bodily injury" or "property damage" is caused by an "occurrence" that takes place in the "coverage territory";

**(2)** The "bodily injury" or "property damage" occurs during the policy period; and

**(3)** Prior to the policy period, no insured listed under Paragraph **1.** of Section **II** – Who Is An Insured and no "employee" authorized by you to give or receive notice of an "occurrence" or claim knew that the "bodily injury" or "property damage" had occurred, in whole or in part. If such a listed insured or authorized "employee" knew, prior to the policy period, that the "bodily injury" or "property damage" occurred, then any continuation, change or resumption of such "bodily injury" or "property damage" during or after the policy period will be deemed to have been known prior to the policy period.

**c.** "Bodily injury" or "property damage" which occurs during the policy period and was not, prior to the policy period, known to have occurred by any insured listed under Paragraph **1.** of Section **II** – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim, includes any continuation, change or resumption of that "bodily injury" or "property damage" after the end of the policy period.

**d.** "Bodily injury" or "property damage" will be deemed to have been known to have occurred at the earliest time when any insured listed under Paragraph **1.** of Section **II** – Who Is An Insured or any "employee" authorized by you to give or receive notice of an "occurrence" or claim:

**(1)** Reports all, or any part, of the "bodily injury" or "property damage" to us or any other insurer;

**(2)** Receives a written or verbal demand or claim for damages because of the "bodily injury" or "property damage"; or

**(3)** Becomes aware by any other means that "bodily injury" or "property damage" has occurred or has begun to occur.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**e.** Damages because of "bodily injury" include damages claimed by any person or organization for care, loss of services or death resulting at any time from the "bodily injury".

**2. Exclusions**

This insurance does not apply to:

**a. Expected Or Intended Injury**

"Bodily injury" or "property damage" expected or intended from the standpoint of the insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

**b. Contractual Liability**

"Bodily injury" or "property damage" for which the insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages:

**(1)** That the insured would have in the absence of the contract or agreement; or

**(2)** Assumed in a contract or agreement that is an "insured contract", provided that the "bodily injury" or "property damage" occurs subsequent to the execution of the contract or agreement. Solely for the purposes of liability assumed in an "insured contract", reasonable attorneys' fees and necessary litigation expenses incurred by or for a party other than an insured will be deemed to be damages because of "bodily injury" or "property damage", provided that:

**(a)** Liability to such party for, or for the cost of, that party's defense has also been assumed in the same "insured contract"; and

**(b)** Such attorneys' fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

**c. Liquor Liability**

"Bodily injury" or "property damage" for which any insured may be held liable by reason of:

**(1)** Causing or contributing to the intoxication of any person;

**(2)** The furnishing of alcoholic beverages to a person under the legal drinking age or under the influence of alcohol; or

**(3)** Any statute, ordinance or regulation relating to the sale, gift, distribution or use of alcoholic beverages.

This exclusion applies only if you are in the business of manufacturing, distributing, selling, serving or furnishing alcoholic beverages. For the purposes of this exclusion, permitting a person to bring alcoholic beverages on your premises, for consumption on your premises, whether or not a fee is charged or a license is required for such activity, is not by itself considered the business of selling, serving or furnishing alcoholic beverages.

**d. Workers' Compensation And Similar Laws**

Any obligation of the insured under a workers' compensation, disability benefits or unemployment compensation law or any similar law.

**e. Employer's Liability**

"Bodily injury" to:

**(1)** An "employee" of the insured arising out of and in the course of:

**(a)** Employment by the insured; or

**(b)** Performing duties related to the conduct of the insured's business; or

**(2)** The spouse, child, parent, brother or sister of that "employee" as a consequence of Paragraph **(1)** above.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the injury.

This exclusion does not apply to liability assumed by the insured under an "insured contract".

**f. Pollution**

**(1)** "Bodily injury" or "property damage" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants":

**(a)** At or from any premises, site or location which is or was at any time owned or occupied by, or rented or loaned to, any insured. However, this subparagraph does not apply to:

**(i)** "Bodily injury" if sustained within a building and caused by smoke, fumes, vapor or soot produced by or originating from equipment that

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

is used to heat, cool or dehumidify the building, or produced by or originating from equipment that is used to heat water for personal use by the building's occupants or their guests;

**(ii)** "Bodily injury" or "property damage" for which you may be held liable, if you are a contractor and the owner or lessee of such premises, site or location has been added to your policy as an additional insured with respect to your ongoing operations performed for that additional insured at that premises, site or location and such premises, site or location is not and never was owned or occupied by, or rented or loaned to, any insured, other than that additional insured; or

**(iii)** "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire";

**(b)** At or from any premises, site or location which is or was at any time used by or for any insured or others for the handling, storage, disposal, processing or treatment of waste;

**(c)** If such "pollutants" are or were at any time transported, handled, stored, treated, disposed of, or processed as waste by or for:

**(i)** Any insured; or

**(ii)** Any person or organization for whom you may be legally responsible;

**(d)** At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are performing operations if the "pollutants" are brought on or to the premises, site or location in connection with such operations by such insured, contractor or subcontractor. However, this subparagraph does not apply to:

**(i)** "Bodily injury" or "property damage" arising out of the escape of fuels, lubricants or other operating fluids which are needed to perform the normal electrical, hydraulic or mechanical functions necessary for the operation of "mobile equipment" or its parts, if such fuels, lubricants or other operating fluids escape from a vehicle part designed to hold, store or receive them. This exception does not apply if the "bodily injury" or "property damage" arises out of the intentional discharge, dispersal or release of the fuels, lubricants or other operating fluids, or if such fuels, lubricants or other operating fluids are brought on or to the premises, site or location with the intent that they be discharged, dispersed or released as part of the operations being performed by such insured, contractor or subcontractor;

**(ii)** "Bodily injury" or "property damage" sustained within a building and caused by the release of gases, fumes or vapors from materials brought into that building in connection with operations being performed by you or on your behalf by a contractor or subcontractor; or

**(iii)** "Bodily injury" or "property damage" arising out of heat, smoke or fumes from a "hostile fire"; or

**(e)** At or from any premises, site or location on which any insured or any contractors or subcontractors working directly or indirectly on any insured's behalf are or were at any time performing operations to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants".

**(2)** Any loss, cost or expense arising out of any:

**(a)** Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**(b)** Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "pollutants".

**g. Aircraft, Auto Or Watercraft**

"Bodily injury" or "property damage" arising out of the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft owned or operated by or rented or loaned to any insured. Use includes operation and "loading or unloading".

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage" involved the ownership, maintenance, use or entrustment to others of any aircraft, "auto" or watercraft that is owned or operated by or rented or loaned to any insured.

This exclusion does not apply to:

**(1)** A watercraft while ashore on premises you own or rent;

**(2)** A watercraft you do not own that is:

**(a)** 50 feet long or less; and

**(b)** Not being used to carry any person or property for a charge;

**(3)** Parking an "auto" on, or on the ways next to, premises you own or rent, provided the "auto" is not owned by or rented or loaned to you or the insured;

**(4)** Liability assumed under any "insured contract" for the ownership, maintenance or use of aircraft or watercraft;

**(5)** "Bodily injury" or "property damage" arising out of:

**(a)** The operation of machinery or equipment that is attached to, or part of, a land vehicle that would qualify as "mobile equipment" under the definition of "mobile equipment" if such land vehicle were not subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged; or

**(b)** The operation of any of the machinery or equipment listed in Paragraph **f.(2)** or **f.(3)** of the definition of "mobile equipment"; or

**(6)** An aircraft that is:

**(a)** Chartered with a pilot to any insured;

**(b)** Not owned by any insured; and

**(c)** Not being used to carry any person or property for a charge.

**h. Mobile Equipment**

"Bodily injury" or "property damage" arising out of:

**(1)** The transportation of "mobile equipment" by an "auto" owned or operated by or rented or loaned to any insured; or

**(2)** The use of "mobile equipment" in, or while in practice for, or while being prepared for, any prearranged racing, speed, demolition, or stunting activity

**i. War**

"Bodily injury" or "property damage" arising out of:

**(1)** War, including undeclared or civil war;

**(2)** Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

**(3)** Insurrection, rebellion, revolution, usurped power, or action taken by governmental authority in hindering or defending against any of these.

**j. Damage To Property**

"Property damage" to:

**(1)** Property you own, rent, or occupy, including any costs or expenses incurred by you, or any other person, organization or entity, for repair, replacement, enhancement, restoration or maintenance of such property for any reason, including prevention of injury to a person or damage to another's property;

**(2)** Premises you sell, give away or abandon, if the "property damage" arises out of any part of those premises;

**(3)** Property loaned to you;

**(4)** Personal property in the care, custody or control of the insured;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**(5)** That particular part of real property on which you or any contractors or subcontractors working directly or indirectly on your behalf are performing operations, if the "property damage" arises out of those operations; or

**(6)** That particular part of any property that must be restored, repaired or replaced because "your work" was incorrectly performed on it.

Paragraphs **(1)**, **(3)** and **(4)** of this exclusion do not apply to "premises damage". A separate limit of insurance applies to "premises damage" as described in Paragraph **6.** of Section **III** – Limits Of Insurance.

Paragraph **(2)** of this exclusion does not apply if the premises are "your work" and were never occupied, rented or held for rental by you.

Paragraphs **(3)**, **(4)**, **(5)** and **(6)** of this exclusion do not apply to liability assumed under a sidetrack agreement.

Paragraph **(6)** of this exclusion does not apply to "property damage" included in the "products-completed operations hazard".

**k. Damage To Your Product**

"Property damage" to "your product" arising out of it or any part of it.

**l. Damage To Your Work**

"Property damage" to "your work" arising out of it or any part of it and included in the "products-completed operations hazard".

This exclusion does not apply if the damaged work or the work out of which the damage arises was performed on your behalf by a subcontractor.

**m. Damage To Impaired Property Or Property Not Physically Injured**

"Property damage" to "impaired property" or property that has not been physically injured, arising out of:

**(1)** A defect, deficiency, inadequacy or dangerous condition in "your product" or "your work"; or

**(2)** A delay or failure by you or anyone acting on your behalf to perform a contract or agreement in accordance with its terms.

This exclusion does not apply to the loss of use of other property arising out of sudden and accidental physical injury to "your product" or "your work" after it has been put to its intended use.

**n. Recall Of Products, Work Or Impaired Property**

Damages claimed for any loss, cost or expense incurred by you or others for the loss of use, withdrawal, recall, inspection, repair, replacement, adjustment, removal or disposal of:

**(1)** "Your product";

**(2)** "Your work"; or

**(3)** "Impaired property";

if such product, work, or property is withdrawn or recalled from the market or from use by any person or organization because of a known or suspected defect, deficiency, inadequacy or dangerous condition in it.

**o. Personal And Advertising Injury**

"Bodily injury" arising out of "personal and advertising injury".

**p. Electronic Data**

Damages arising out of the loss of, loss of use of, damage to, corruption of, inability to access, or inability to manipulate "electronic data".

However, this exclusion does not apply to liability for damages because of "bodily injury".

**q. Unsolicited Communication**

"Bodily injury" or "property damage" arising out of any actual or alleged violation of any law that restricts or prohibits the sending, transmitting or distributing of "unsolicited communication".

**r. Access Or Disclosure Of Confidential Or Personal Information**

"Bodily injury" or "property damage" arising out of any access to or disclosure of any person's or organization's confidential or personal information.

**s. Asbestos**

**(1)** "Bodily injury" or "property damage" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of asbestos, asbestos fibers or products containing asbestos, provided that the "bodily injury" or "property damage" is caused or contributed to by the hazardous properties of asbestos.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**(2)** "Bodily injury" or "property damage" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapors, soot, fumes, acids, alkalis, chemicals and waste, and that are part of any claim or "suit" which also alleges any "bodily injury" or "property damage" described in Paragraph **(1)** above.

**(3)** Any loss, cost or expense arising out of any:

**(a)** Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, asbestos, asbestos fibers or products containing asbestos; or

**(b)** Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, asbestos, asbestos fibers or products containing asbestos.

**t. Employment-Related Practices**

"Bodily injury" to:

**(1)** A person arising out of any:

**(a)** Refusal to employ that person;

**(b)** Termination of that person's employment; or

**(c)** Employment-related practice, policy, act or omission, such as coercion, demotion, evaluation, reassignment, discipline, failure to promote or advance, harassment, humiliation, discrimination, libel, slander, violation of the person's right of privacy, malicious prosecution or false arrest, detention or imprisonment applied to or directed at that person, regardless of whether such practice, policy, act or omission occurs, is applied or is committed before, during or after the time of that person's employment; or

**(2)** The spouse, child, parent, brother or sister of that person as a consequence of "bodily injury" to that person at whom any of the employment-related practices described in Paragraph **(a)**, **(b)**,or **(c)** above is directed.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the "bodily injury".

Exclusions **c.** through **n.** do not apply to "premises damage". A separate limit of insurance applies to "premises damage" as described in Paragraph **6.** of Section **III** – Limits Of Insurance.

**COVERAGE B – PERSONAL AND ADVERTISING INJURY LIABILITY**

**1. Insuring Agreement**

**a.** We will pay those sums that the insured becomes legally obligated to pay as damages because of "personal and advertising injury" to which this insurance applies. We will have the right and duty to defend the insured against any "suit" seeking those damages. However, we will have no duty to defend the insured against any "suit" seeking damages for "personal and advertising injury" to which this insurance does not apply. We may, at our discretion, investigate any offense and settle any claim or "suit" that may result. But:

**(1)** The amount we will pay for damages is limited as described in Section **III** – Limits Of Insurance; and

**(2)** Our right and duty to defend end when we have used up the applicable limit of insurance in the payment of judgments or settlements under Coverages **A** or **B** or medical expenses under Coverage **C**.

No other obligation or liability to pay sums or perform acts or services is covered unless explicitly provided for under Supplementary Payments.

**b.** This insurance applies to "personal and advertising injury" caused by an offense arising out of your business but only if the offense was committed in the "coverage territory" during the policy period.

**2. Exclusions**

This insurance does not apply to:

**a. Knowing Violation Of Rights Of Another**

"Personal and advertising injury" caused by or at the direction of the insured with the knowledge that the act would violate the rights of another and would inflict "personal and advertising injury".

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

This exclusion does not apply to "personal injury" caused by malicious prosecution.

**b. Material Published With Knowledge Of Falsity**

"Personal and advertising injury" arising out of oral or written publication, including publication by electronic means, of material, if done by or at the direction of the insured with knowledge of its falsity.

**c. Material Published Or Used Prior To Policy Period**

**(1)** "Personal and advertising injury" arising out of oral or written publication, including publication by electronic means, of material whose first publication took place before the beginning of the policy period; or

**(2)** "Advertising injury" arising out of infringement of copyright, "title" or "slogan" in your "advertisement" whose first infringement in your "advertisement" was committed before the beginning of the policy period.

**d. Criminal Acts**

"Personal and advertising injury" arising out of a criminal act committed by or at the direction of the insured.

**e. Contractual Liability**

"Personal and advertising injury" for which the insured has assumed liability in a contract or agreement. This exclusion does not apply to liability for damages:

**(1)** That the insured would have in the absence of the contract or agreement; or

**(2)** Because of "personal injury" assumed by you in a contract or agreement that is an "insured contract", provided that the "personal injury" is caused by an offense committed subsequent to the execution of the contract or agreement. Solely for the purposes of liability assumed by you in an "insured contract", reasonable attorneys' fees and necessary litigation expenses incurred by or for a party other than an insured will be deemed to be damages because of "personal injury", provided that:

**(a)** Liability to such party for, or for the cost of, that party's defense has also been assumed by you in the same "insured contract"; and

**(b)** Such attorneys' fees and litigation expenses are for defense of that party against a civil or alternative dispute resolution proceeding in which damages to which this insurance applies are alleged.

**f. Breach Of Contract**

"Advertising injury" arising out of a breach of contract.

**g. Quality Or Performance Of Goods - Failure To Conform To Statements**

"Advertising injury" arising out of the failure of goods, products or services to conform with any statement of quality or performance made in your "advertisement".

**h. Wrong Description Of Prices**

"Advertising injury" arising out of the wrong description of the price of goods, products or services stated in your "advertisement".

**i. Intellectual Property**

"Personal and advertising injury" arising out of any actual or alleged infringement or violation of any of the following rights or laws, or any other "personal and advertising injury" alleged in any claim or "suit" that also alleges any such infringement or violation:

**(1)** Copyright;

**(2)** Patent;

**(3)** Trade dress;

**(4)** Trade name;

**(5)** Trademark;

**(6)** Trade secret; or

**(7)** Other intellectual property rights or laws.

This exclusion does not apply to:

**(1)** "Advertising injury" arising out of any actual or alleged infringement or violation of another's copyright, "title" or "slogan" in your "advertisement"; or

**(2)** Any other "personal and advertising injury" alleged in any claim or "suit" that also alleges any such infringement or violation of another's copyright, "title" or "slogan" in your "advertisement".

**j. Insureds In Media And Internet Type Businesses**

"Personal and advertising injury" caused by an offense committed by an insured whose business is:

**(1)** Advertising, "broadcasting" or publishing;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**(2)** Designing or determining content of websites for others; or

**(3)** An Internet search, access, content or service provider.

However, this exclusion does not apply to Paragraphs **a.(1)**, **(2)** and **(3)** of the definition of "personal injury".

For the purposes of this exclusion:

**(1)** Creating and producing correspondence written in the conduct of your business, bulletins, financial or annual reports, or newsletters about your goods, products or services will not be considered the business of publishing; and

**(2)** The placing of frames, borders or links, or advertising, for you or others anywhere on the Internet will not, by itself, be considered the business of advertising, "broadcasting" or publishing.

**k. Electronic Chatrooms Or Bulletin Boards**

"Personal and advertising injury" arising out of an electronic chatroom or bulletin board the insured hosts or owns, or over which the insured exercises control.

**l. Unauthorized Use Of Another's Name Or Product**

"Personal and advertising injury" arising out of the unauthorized use of another's name or product in your e-mail address, domain name or metatag, or any other similar tactics to mislead another's potential customers.

**m. Pollution**

"Personal and advertising injury" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "pollutants" at any time.

**n. Pollution-Related**

Any loss, cost or expense arising out of any:

**(1)** Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "pollutants"; or

**(2)** Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to,or assessing the effects of, "pollutants".

**o. War**

"Personal and advertising injury" arising out of:

**(1)** War, including undeclared or civil war;

**(2)** Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

**(3)** Insurrection, rebellion, revolution, usurped power, or action taken by governmental authority in hindering or defending against any of these.

**p. Unsolicited Communication**

"Personal and advertising injury" arising out of any actual or alleged violation of any law that restricts or prohibits the sending, transmitting or distributing of "unsolicited communication".

**q. Access Or Disclosure Of Confidenital Or Personal Information**

"Personal and advertising injury" arising out of any access to or disclosure of any person's or organization's confidential or personal information.

**r. Asbestos**

**(1)** "Personal and advertising injury" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of asbestos, asbestos fibers or products containing asbestos, provided that the "personal and advertising injury" is caused or contributed to by the hazardous properties of asbestos.

**(2)** "Personal and advertising injury" arising out of the actual or alleged presence or actual, alleged or threatened dispersal of any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapors, soot, fumes, acids, alkalis, chemicals and waste, and that are part of any claim or "suit" which also alleges any "personal and advertising injury" described in Paragraph **(1)** above.

**(3)** Any loss, cost or expense arising out of any:

**(a)** Request, demand, order or statutory or regulatory requirement that any insured or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

assess the effects of, asbestos, asbestos fibers or products containing asbestos; or

**(b)** Claim or suit by or on behalf of any governmental authority or any other person or organization because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, asbestos, asbestos fibers or products containing asbestos.

**s. Employment-Related Practices**

"Personal injury" to:

**(1)** A person arising out of any:

**(a)** Refusal to employ that person;

**(b)** Termination of that person's employment; or

**(c)** Employment-related practice, policy, act or omission, such as coercion, demotion, evaluation, reassignment, discipline, failure to promote or advance, harassment, humiliation, discrimination, libel, slander, violation of the person's right of privacy, malicious prosecution or false arrest, detention or imprisonment applied to or directed at that person, regardless of whether such practice, policy, act or omission occurs, is applied or is committed before, during or after the time of that person's employment; or

**(2)** The spouse, child, parent, brother or sister of that person as a consequence of "personal injury" to that person at whom any of the employment-related practices described in Paragraph **(a)**, **(b)**, or **(c)** above is directed.

This exclusion applies whether the insured may be liable as an employer or in any other capacity and to any obligation to share damages with or repay someone else who must pay damages because of the "personal injury".

## COVERAGE C – MEDICAL PAYMENTS

### 1. Insuring Agreement

**a.** We will pay medical expenses as described below for "bodily injury" caused by an accident:

**(1)** On premises you own or rent;

**(2)** On ways next to premises you own or rent; or

**(3)** Because of your operations;

provided that:

**(a)** The accident takes place in the "coverage territory" and during the policy period;

**(b)** The expenses are incurred and reported to us within one year of the date of the accident; and

**(c)** The injured person submits to examination, at our expense, by physicians of our choice as often as we reasonably require.

**b.** We will make these payments regardless of fault. These payments will not exceed the applicable limit of insurance. We will pay reasonable expenses for:

**(1)** First aid administered at the time of an accident;

**(2)** Necessary medical, surgical, X-ray and dental services, including prosthetic devices; and

**(3)** Necessary ambulance, hospital, professional nursing and funeral services.

### 2. Exclusions

We will not pay expenses for "bodily injury":

**a. Any Insured**

To any insured, except "volunteer workers".

**b. Hired Person**

To a person hired to do work for or on behalf of any insured or a tenant of any insured.

**c. Injury On Normally Occupied Premises**

To a person injured on that part of premises you own or rent that the person normally occupies.

**d. Workers' Compensation And Similar Laws**

To a person, whether or not an "employee" of any insured, if benefits for the "bodily injury" are payable or must be provided under a workers' compensation or disability benefits law or a similar law.

**e. Athletics Activities**

To a person injured while practicing, instructing or participating in any physical exercises or games, sports, or athletic contests.

**f. Products-Completed Operations Hazard**

Included within the "products-completed operations hazard".

**g. Coverage A Exclusions**

Excluded under Coverage **A**.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**SUPPLEMENTARY PAYMENTS**

**1.** We will pay, with respect to any claim we investigate or settle, or any "suit" against an insured we defend:

**a.** All expenses we incur.

**b.** Up to $2,500 for the cost of bail bonds required because of accidents or traffic law violations arising out of the use of any vehicle to which the Bodily Injury Liability Coverage applies. We do not have to furnish these bonds.

**c.** The cost of bonds to release attachments, but only for bond amounts within the applicable limit of insurance. We do not have to furnish these bonds.

**d.** All reasonable expenses incurred by the insured at our request to assist us in the investigation or defense of the claim or "suit", including actual loss of earnings up to $500 a day because of time off from work.

**e.** All court costs taxed against the insured in the "suit". However, these payments do not include attorneys' fees or attorneys' expenses taxed against the insured.

**f.** Prejudgment interest awarded against the insured on that part of the judgment we pay. If we make an offer to pay the applicable limit of insurance, we will not pay any prejudgment interest based on that period of time after the offer.

**g.** All interest on the full amount of any judgment that accrues after entry of the judgment and before we have paid, offered to pay, or deposited in court the part of the judgment that is within the applicable limit of insurance.

These payments will not reduce the limits of insurance.

**2.** If we defend an insured against a "suit" and an indemnitee of the insured is also named as a party to the "suit", we will defend that indemnitee if all of the following conditions are met:

**a.** The "suit" against the indemnitee seeks damages for which the insured has assumed the liability of the indemnitee in a contract or agreement that is an "insured contract";

**b.** This insurance applies to such liability assumed by the insured;

**c.** The obligation to defend, or the cost of the defense of, that indemnitee, has also been assumed by the insured in the same "insured contract";

**d.** The allegations in the "suit" and the information we know about the "occurrence" or offense are such that no conflict appears to exist between the interests of the insured and the interests of the indemnitee;

**e.** The indemnitee and the insured ask us to conduct and control the defense of that indemnitee against such "suit" and agree that we can assign the same counsel to defend the insured and the indemnitee; and

**f.** The indemnitee:

**(1)** Agrees in writing to:

**(a)** Cooperate with us in the investigation, settlement or defense of the "suit";

**(b)** Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the "suit";

**(c)** Notify any other insurer whose coverage is available to the indemnitee; and

**(d)** Cooperate with us with respect to coordinating other applicable insurance available to the indemnitee; and

**(2)** Provides us with written authorization to:

**(a)** Obtain records and other information related to the "suit"; and

**(b)** Conduct and control the defense of the indemnitee in such "suit".

So long as the above conditions are met, attorneys' fees incurred by us in the defense of that indemnitee, necessary litigation expenses incurred by us and necessary litigation expenses incurred by the indemnitee at our request will be paid as Supplementary Payments. Notwithstanding the provisions of Paragraph **2.b.(2)** of Section **I** – Coverages – Coverage **A** – Bodily Injury And Property Damage Liability or Paragraph **2.e.** of Section **I** – Coverages – Coverage **B** – Personal And Advertising Injury Liability, such payments will not be deemed to be damages for "bodily injury", "property damage" or "personal injury", and will not reduce the limits of insurance.

Our obligation to defend an insured's indemnitee and to pay for attorneys' fees and necessary litigation expenses as Supplementary Payments ends when:

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**a.** We have used up the applicable limit of insurance in the payment of judgments, settlements or medical expenses; or

**b.** The conditions set forth above, or the terms of the agreement described in Paragraph **f.** above, are no longer met.

**SECTION II – WHO IS AN INSURED**

**1.** If you are designated in the Declarations as:

**a.** An individual, you and your spouse are insureds, but only with respect to the conduct of a business of which you are the sole owner.

**b.** A partnership or joint venture, you are an insured. Your members, your partners, and their spouses are also insureds, but only with respect to the conduct of your business.

**c.** A limited liability company, you are an insured. Your members are also insureds, but only with respect to the conduct of your business. Your managers are insureds, but only with respect to their duties as your managers.

**d.** An organization other than a partnership, joint venture or limited liability company, you are an insured. Your "executive officers" and directors are insureds, but only with respect to their duties as your officers or directors. Your stockholders are also insureds, but only with respect to their liability as stockholders.

**e.** A trust, you are an insured. Your trustees are also insureds, but only with respect to their duties as trustees.

**2.** Each of the following is also an insured:

**a.** Your "volunteer workers" only while performing duties related to the conduct of your business, or your "employees", other than either your "executive officers" (if you are an organization other than a partnership, joint venture or limited liability company) or your managers (if you are a limited liability company), but only for acts within the scope of their employment by you or while performing duties related to the conduct of your business. However, none of these "employees" or "volunteer workers" are insureds for:

**(1)** "Bodily injury" or "personal injury":

**(a)** To you, to your partners or members (if you are a partnership or joint venture), to your members (if you are a limited liability company), to a co-"employee" while in the course of his or her employment or performing duties related to the conduct of your business, or to your other "volunteer workers" while performing duties related to the conduct of your business;

**(b)** To the spouse, child, parent, brother or sister of that co-"employee" or "volunteer worker" as a consequence of Paragraph **(1)(a)** above;

**(c)** For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraph **(1)(a)** or **(b)** above; or

**(d)** Arising out of his or her providing or failing to provide professional health care services.

Unless you are in the business or occupation of providing professional health care services, Paragraphs **(1)(a)**, **(b)**, **(c)** and **(d)** above do not apply to "bodily injury" arising out of providing or failing to provide first aid or "Good Samaritan services" by any of your "employees" or "volunteer workers", other than an employed or volunteer doctor. Any such "employees" or "volunteer workers" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

**(2)** "Property damage" to property:

**(a)** Owned, occupied or used by;

**(b)** Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by;

you, any of your "employees", "volunteer workers", any partner or member (if you are a partnership or joint venture), or any member (if you are a limited liability company).

**b.** Any person (other than your "employee" or "volunteer worker"), or any organization, while acting as your real estate manager.

**c.** Any person or organization having proper temporary custody of your property if you die, but only:

**(1)** With respect to liability arising out of the maintenance or use of that property; and

**(2)** Until your legal representative has been appointed.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**d.** Your legal representative if you die, but only with respect to duties as such. That representative will have all your rights and duties under this Coverage Part.

**e.** Any person or organization that, with your express or implied consent, either uses or is responsible for the use of a watercraft that you do not own that is:

**(1)** 50 feet long or less; and

**(2)** Not being used to carry any person or property for a charge.

**3.** Any organization you newly acquire or form, other than a partnership, joint venture or limited liability company, and of which you are the sole owner or in which you maintain an ownership interest of more than 50%, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

**a.** Coverage under this provision is afforded only until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier;

**b.** Coverage **A** does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and

**c.** Coverage **B** does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

For the purposes of Paragraph **1.** of Section **II** – Who Is An Insured, each such organization will be deemed to be designated in the Declarations as:

**a.** An organization, other than a partnership, joint venture or limited liability company; or

**b.** A trust;

as indicated in its name or the documents that govern its structure.

**4.** Any person or organization that is a premises owner, manager or lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" that:

**a.** Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

**b.** Arises out of the ownership, maintenance or use of that part of any premises leased to you.

The insurance provided to such premises owner, manager or lessor is subject to the following provisions:

**a.** The limits of insurance provided to such premises owner, manager or lessor will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

**b.** The insurance provided to such premises owner, manager or lessor does not apply to:

**(1)** Any "bodily injury" or "property damage" that occurs, or "personal and advertising injury" caused by an offense that is committed, after you cease to be a tenant in that premises; or

**(2)** Structural alterations, new construction or demolition operations performed by or on behalf of such premises owner, manager or lessor.

**5.** Any person or organization that is an equipment lessor and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage", or "personal and advertising injury" that:

**a.** Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed, subsequent to the signing of that contract or agreement; and

**b.** Is caused, in whole or in part, by your acts or omissions in the maintenance, operation or use of equipment leased to you by such equipment lessor.

The insurance provided to such equipment lessor is subject to the following provisions:

**a.** The limits of insurance provided to such equipment lessor will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

**b.** The insurance provided to such equipment lessor does not apply to any "bodily injury" or "property damage" that occurs, or "personal and advertising injury" caused by an offense that is committed, after the equipment lease expires.

No person or organization is an insured with respect to the conduct of any current or past partnership, joint

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

venture or limited liability company that is not shown as a Named Insured in the Declarations. This paragraph does not apply to any such partnership, joint venture or limited liability company that otherwise qualifies as an insured under Section **II** – Who Is An Insured.

**SECTION III – LIMITS OF INSURANCE**

**1.** The Limits of Insurance shown in the Declarations and the rules below fix the most we will pay regardless of the number of:

**a.** Insureds;

**b.** Claims made or "suits" brought; or

**c.** Persons or organizations making claims or bringing "suits".

**2.** The General Aggregate Limit is the most we will pay for the sum of:

**a.** Medical expenses under Coverage **C**;

**b.** Damages under Coverage **A**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard"; and

**c.** Damages under Coverage **B**.

**3.** The Products-Completed Operations Aggregate Limit is the most we will pay under Coverage **A** for damages because of "bodily injury" and "property damage" included in the "products-completed operations hazard".

**4.** Subject to Paragraph **2.** above, the Personal And Advertising Injury Limit is the most we will pay under Coverage **B** for the sum of all damages because of all "personal injury" and "advertising injury" sustained by any one person or organization.

**5.** Subject to Paragraph **2.** or **3.** above, whichever applies, the Each Occurrence Limit is the most we will pay for the sum of:

**a.** Damages under Coverage **A**; and

**b.** Medical expenses under Coverage **C**;

because of all "bodily injury" and "property damage" arising out of any one "occurrence".

For the purposes of determining the applicable Each Occurrence Limit, all related acts or omissions committed in providing or failing to provide first aid or "Good Samaritan services" to any one person will be deemed to be one "occurrence".

**6.** Subject to Paragraph **5.** above, the Damage To Premises Rented To You Limit is the most we will pay under Coverage **A** for damages because of "premises damage" to any one premises. The Damage To Premises Rented To You Limit will be:

**a.** The amount shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part; or

**b.** $300,000 if no amount is shown for the Damage To Premises Rented To You Limit in the Declarations of this Coverage Part.

**7.** Subject to Paragraph **5.** above, the Medical Expense Limit is the most we will pay under Coverage **C** for all medical expenses because of "bodily injury" sustained by any one person.

The Limits of Insurance of this Coverage Part apply separately to each consecutive annual period and to any remaining period of less than 12 months, starting with the beginning of the policy period shown in the Declarations, unless the policy period is extended after issuance for an additional period of less than 12 months. In that case, the additional period will be deemed part of the last preceding period for purposes of determining the Limits of Insurance.

**SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**

**1. Bankruptcy**

Bankruptcy or insolvency of the insured or of the insured's estate will not relieve us of our obligations under this Coverage Part.

**2. Duties In The Event Of Occurrence, Offense, Claim Or Suit**

**a.** You must see to it that we are notified as soon as practicable of an "occurrence" or an offense which may result in a claim. To the extent possible, notice should include:

**(1)** How, when and where the "occurrence" or offense took place;

**(2)** The names and addresses of any injured persons and witnesses; and

**(3)** The nature and location of any injury or damage arising out of the "occurrence" or offense.

**b.** If a claim is made or "suit" is brought against any insured, you must:

**(1)** Immediately record the specifics of the claim or "suit" and the date received; and

**(2)** Notify us as soon as practicable.

You must see to it that we receive written notice of the claim or "suit" as soon as practicable.

**c.** You and any other involved insured must:

**(1)** Immediately send us copies of any demands, notices, summonses or legal papers received in connection with the claim or "suit";

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**(2)** Authorize us to obtain records and other information;

**(3)** Cooperate with us in the investigation or settlement of the claim or defense against the "suit"; and

**(4)** Assist us, upon our request, in the enforcement of any right against any person or organization which may be liable to the insured because of injury or damage to which this insurance may also apply.

**d.** No insured will, except at that insured's own cost, voluntarily make a payment, assume any obligation, or incur any expense, other than for first aid, without our consent.

**e.** The following provisions apply to Paragraph **a.** above, but only for purposes of the insurance provided under this Coverage Part to you or any insured listed in Paragraph **1.** or **2.** of Section **II** – Who Is An Insured:

**(1)** Notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known to you (if you are an individual), any of your partners or members who is an individual (if you are a partnership or joint venture), any of your managers who is an individual (if you are a limited liability company), any of your "executive officers" or directors (if you are an organization other than a partnership, joint venture, or limited liability company), any of your trustees who is an individual (if you are a trust) or any "employee" authorized by you to give notice of an "occurrence" or offense.

**(2)** If you are a partnership, joint venture, limited liability company or trust, and none of your partners, joint venture members, managers or trustees are individuals, notice to us of such "occurrence" or offense must be given as soon as practicable only after the "occurrence" or offense is known by:

**(a)** Any individual who is:

**(i)** A partner or member of any partnership or joint venture;

**(ii)** A manager of any limited liability company;

**(iii)** An executive officer or director of any other organization; or

**(iv)** A trustee of any trust;

that is your partner, joint venture member, manager or trustee; or

**(b)** Any employee authorized by such partnership, joint venture, limited liability company, trust or other organization to give notice of an "occurrence" or offense.

**(3)** Notice to us of such "occurrence" or offense will be deemed to be given as soon as practicable if it is given in good faith as soon as practicable to your workers' compensation insurer. This applies only if you subsequently give notice to us of the "occurrence" or offense as soon as practicable after any of the persons described in Paragraph **e.(1)** or **(2)** above discovers that the "occurrence" or offense may result in sums to which the insurance provided under this Coverage Part may apply.

However, if this policy includes an endorsement that provides limited coverage for "bodily injury" or "property damage" or pollution costs arising out of a discharge, release or escape of "pollutants" which contains a requirement that the discharge, release or escape of "pollutants" must be reported to us within a specific number of days after its abrupt commencement, this Paragraph **e.** does not affect that requirement.

**3. Legal Action Against Us**

No person or organization has a right under this Coverage Part:

**a.** To join us as a party or otherwise bring us into a "suit" asking for damages from an insured; or

**b.** To sue us on this Coverage Part unless all of its terms have been fully complied with.

A person or organization may sue us to recover on an agreed settlement or on a final judgment against an insured; but we will not be liable for damages that are not payable under the terms of this Coverage Part or that are in excess of the applicable limit of insurance. An agreed settlement means a settlement and release of liability signed by us, the insured, and the claimant or the claimant's legal representative.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**4. Other Insurance**

If valid and collectible other insurance is available to the insured for a loss we cover under Coverages **A** or **B** of this Coverage Part, our obligations are limited as described in Paragraphs **a.** and **b.** below.

As used anywhere in this Coverage Part, other insurance means insurance, or the funding of losses, that is provided by, through or on behalf of:

**(i)** Another insurance company;

**(ii)** Us or any of our affiliated insurance companies, except when the Non cumulation of Each Occurrence Limit provision of Paragraph **5.** of Section **III** – Limits Of Insurance or the Non cumulation of Personal and Advertising Injury Limit provision of Paragraph **4.** of Section **III** – Limits of Insurance applies because the Amendment – Non Cumulation Of Each Occurrence Limit Of Liability And Non Cumulation Of Personal And Advertising Injury Limit endorsement is included in this policy;

**(iii)** Any risk retention group; or

**(iv)** Any self-insurance method or program, in which case the insured will be deemed to be the provider of other insurance.

Other insurance does not include umbrella insurance, or excess insurance, that was bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

As used anywhere in this Coverage Part, other insurer means a provider of other insurance. As used in Paragraph **c.** below, insurer means a provider of insurance.

**a. Primary Insurance**

This insurance is primary except when Paragraph **b.** below applies. If this insurance is primary, our obligations are not affected unless any of the other insurance is also primary. Then, we will share with all that other insurance by the method described in Paragraph **c.** below, except when Paragraph **d.** below applies.

**b. Excess Insurance**

**(1)** This insurance is excess over:

**(a)** Any of the other insurance, whether primary, excess, contingent or on any other basis:

**(i)** That is Fire, Extended Coverage, Builder's Risk, Installation Risk or similar coverage for "your work";

**(ii)** That is insurance for "premises damage";

**(iii)** If the loss arises out of the maintenance or use of aircraft, "autos" or watercraft to the extent not subject to any exclusion in this Coverage Part that applies to aircraft, "autos" or watercraft;

**(iv)** That is insurance available to a premises owner, manager or lessor that qualifies as an insured under Paragraph **4.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies; or

**(v)** That is insurance available to an equipment lessor that qualifies as an insured under Paragraph **5.** of Section **II** – Who Is An Insured, except when Paragraph **d.** below applies.

**(b)** Any of the other insurance, whether primary, excess, contingent or on any other basis, that is available to the insured when the insured is an additional insured, or is any other insured that does not qualify as a named insured, under such other insurance.

**(2)** When this insurance is excess, we will have no duty under Coverages **A** or **B** to defend the insured against any "suit" if any other insurer has a duty to defend the insured against that "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

**(3)** When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

**(a)** The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

**(b)** The total of all deductible and self-insured amounts under all that other insurance.

**(4)** We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**c. Method Of Sharing**

If all of the other insurance permits contribution by equal shares, we will follow this method also. Under this approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

**d. Primary And Non-Contributory Insurance If Required By Written Contract**

If you specifically agree in a written contract or agreement that the insurance afforded to an insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such insured which covers such insured as a named insured, and we will not share with that other insurance, provided that:

**(1)** The "bodily injury" or "property damage" for which coverage is sought occurs; and

**(2)** The "personal and advertising injury" for which coverage is sought is caused by an offense that is committed;

subsequent to the signing of that contract or agreement by you.

**5. Premium Audit**

**a.** We will compute all premiums for this Coverage Part in accordance with our rules and rates.

**b.** Premium shown in this Coverage Part as advance premium is a deposit premium only. At the close of each audit period we will compute the earned premium for that period and send notice to the first Named Insured. The due date for audit and retrospective premiums is the date shown as the due date on the bill. If the sum of the advance and audit premiums paid for the policy period is greater than the earned premium, we will return the excess to the first Named Insured.

**c.** The first Named Insured must keep records of the information we need for premium computation, and send us copies at such times as we may request.

**6. Representations**

By accepting this policy, you agree:

**a.** The statements in the Declarations are accurate and complete;

**b.** Those statements are based upon representations you made to us; and

**c.** We have issued this policy in reliance upon your representations.

The unintentional omission of, or unintentional error in, any information provided by you which we relied upon in issuing this policy will not prejudice your rights under this insurance. However, this provision does not affect our right to collect additional premium or to exercise our rights of cancellation or nonrenewal in accordance with applicable insurance laws or regulations.

**7. Separation Of Insureds**

Except with respect to the Limits of Insurance, and any rights or duties specifically assigned in this Coverage Part to the first Named Insured, this insurance applies:

**a.** As if each Named Insured were the only Named Insured; and

**b.** Separately to each insured against whom claim is made or "suit" is brought.

**8. Transfer Of Rights Of Recovery Against Others To Us**

If the insured has rights to recover all or part of any payment we have made under this Coverage Part, those rights are transferred to us. The insured must do nothing after loss to impair them. At our request, the insured will bring "suit" or transfer those rights to us and help us enforce them.

**9. When We Do Not Renew**

If we decide not to renew this Coverage Part, we will mail or deliver to the first Named Insured shown in the Declarations written notice of the nonrenewal not less than 30 days before the expiration date.

If notice is mailed, proof of mailing will be sufficient proof of notice.

**SECTION V – DEFINITIONS**

**1.** "Advertisement" means a notice that is broadcast or published to the general public or specific market segments about your goods, products or services for the purpose of attracting customers or supporters. For the purposes of this definition:

**a.** Notices that are published include material placed on the Internet or on similar electronic means of communication; and

**b.** Regarding websites, only that part of a website that is about your goods, products or services for the purposes of attracting customers or supporters is considered an advertisement.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**2.** "Advertising injury":

**a.** Means injury caused by one or more of the following offenses:

**(1)** Oral or written publication, including publication by electronic means, of material in your "advertisement" that slanders or libels a person or organization or disparages a person's or organization's goods, products or services, provided that the claim is made or the "suit" is brought by a person or organization that claims to have been slandered or libeled, or that claims to have had its goods, products or services disparaged;

**(2)** Oral or written publication, including publication by electronic means, of material in your "advertisement" that:

**(a)** Appropriates a person's name, voice, photograph or likeness; or

**(b)** Unreasonably places a person in a false light; or

**(3)** Infringement of copyright, "title" or "slogan" in your "advertisement", provided that the claim is made or the "suit" is brought by a person or organization that claims ownership of such copyright, "title" or "slogan".

**b.** Includes "bodily injury" caused by one or more of the offenses described in Paragraph **a.** above.

**3.** "Auto" means:

**a.** A land motor vehicle, trailer or semitrailer designed for travel on public roads, including any attached machinery or equipment; or

**b.** Any other land vehicle that is subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged.

However, "auto" does not include "mobile equipment".

**4.** "Bodily injury" means:

**a.** Physical harm, including sickness or disease, sustained by a person; or

**b.** Mental anguish, injury or illness, or emotional distress, resulting at any time from such physical harm, sickness or disease.

**5.** "Broadcasting" means transmitting any audio or visual material for any purpose:

**a.** By radio or television; or

**b.** In, by or with any other electronic means of communication, such as the Internet, if that material is part of:

**(1)** Radio or television programming being transmitted;

**(2)** Other entertainment, educational, instructional, music or news programming being transmitted; or

**(3)** Advertising transmitted with any of such programming.

**6.** "Coverage territory" means:

**a.** The United States of America (including its territories and possessions), Puerto Rico and Canada;

**b.** International waters or airspace, but only if the injury or damage occurs in the course of travel or transportation between any places included in Paragraph **a.** above; or

**c.** All other parts of the world if the injury or damage arises out of:

**(1)** Goods or products made or sold by you in the territory described in Paragraph **a.** above;

**(2)** The activities of a person whose home is in the territory described in Paragraph **a.** above, but is away for a short time on your business; or

**(3)** "Personal and advertising injury" offenses that take place through the Internet or similar electronic means of communication;

provided the insured's responsibility to pay damages is determined in a "suit" on the merits in the territory described in Paragraph **a.** above, or in a settlement we agree to.

**7.** "Electronic data" means information, facts or programs stored as or on, created or used on, or transmitted to or from computer software (including systems and applications software), hard or floppy disks, CD-ROMs, tapes, drives, cells, data processing devices or any other media which are used with electronically controlled equipment.

**8.** "Employee" includes a "leased worker". "Employee" does not include a "temporary worker".

**9.** "Executive officer" means a person holding any of the officer positions created by your charter, constitution, bylaws or any other similar governing document.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**10.** "Good Samaritan services" means any emergency medical services for which no compensation is demanded or received.

**11.** "Hostile fire" means a fire which becomes uncontrollable or breaks out from where it was intended to be.

**12.** "Impaired property" means tangible property, other than "your product" or "your work", that cannot be used or is less useful because:

**a.** It incorporates "your product" or "your work" that is known or thought to be defective, deficient, inadequate or dangerous; or

**b.** You have failed to fulfill the terms of a contract or agreement;

if such property can be restored to use by the repair, replacement, adjustment or removal of "your product" or "your work" or your fulfilling the terms of the contract or agreement.

**13.** "Insured contract" means:

**a.** A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for "premises damage" is not an "insured contract";

**b.** A sidetrack agreement;

**c.** Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

**d.** An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

**e.** An elevator maintenance agreement;

**f.** That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another party to pay for "bodily injury", "property damage" or "personal injury" to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph **f.** does not include that part of any contract or agreement:

**(1)** That indemnifies a railroad for "bodily injury" or "property damage" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

**(2)** That indemnifies an architect, engineer or surveyor for injury or damage arising out of:

**(a)** Preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

**(b)** Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage; or

**(3)** Under which the insured, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in Paragraph **(2)** above and supervisory, inspection, architectural or engineering activities.

**14.** "Leased worker" means a person leased to you by a labor leasing firm under an agreement between you and the labor leasing firm, to perform duties related to the conduct of your business. "Leased worker" does not include a "temporary worker".

**15.** "Loading or unloading" means the handling of property:

**a.** After it is moved from the place where it is accepted for movement into or onto an aircraft, watercraft or "auto";

**b.** While it is in or on an aircraft, watercraft or "auto"; or

**c.** While it is being moved from an aircraft, watercraft or "auto" to the place where it is finally delivered;

but "loading or unloading" does not include the movement of property by means of a mechanical device, other than a hand truck, that is not attached to the aircraft, watercraft or "auto".

**16.** "Mobile equipment" means any of the following types of land vehicles, including any attached machinery or equipment:

**a.** Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

**b.** Vehicles maintained for use solely on or next to premises you own or rent;

**c.** Vehicles that travel on crawler treads;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**d.** Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

**(1)** Power cranes, shovels, loaders, diggers or drills; or

**(2)** Road construction or resurfacing equipment such as graders, scrapers or rollers;

**e.** Vehicles not described in Paragraph **a.**, **b.**, **c.** or **d.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

**(1)** Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment; or

**(2)** Cherry pickers and similar devices used to raise or lower workers;

**f.** Vehicles not described in Paragraph **a.**, **b.**, **c.** or **d.** above maintained primarily for purposes other than the transportation of persons or cargo.

However, self-propelled vehicles with the following types of permanently attached equipment are not "mobile equipment" but will be considered "autos":

**(1)** Equipment designed primarily for:

**(a)** Snow removal;

**(b)** Road maintenance, but not construction or resurfacing; or

**(c)** Street cleaning;

**(2)** Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

**(3)** Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well servicing equipment.

However, "mobile equipment" does not include any land vehicle that is subject to a compulsory or financial responsibility law, or other motor vehicle insurance law, where it is licensed or principally garaged. Such land vehicles are considered "autos".

**17.** "Occurrence" means:

**a.** An accident, including continuous or repeated exposure to substantially the same general harmful conditions; or

**b.** An act or omission committed in providing or failing to provide first aid or "Good Samaritan services" to a person, unless you are in the business or occupation of providing professional health care services.

**18.** "Personal and advertising injury" means "personal injury" or "advertising injury".

**19.** "Personal injury":

**a.** Means injury, other than "advertising injury", caused by one or more of the following offenses:

**(1)** False arrest, detention or imprisonment;

**(2)** Malicious prosecution;

**(3)** The wrongful eviction from, wrongful entry into, or invasion of the right of private occupancy of a room, dwelling or premises that a person occupies, provided that the wrongful eviction, wrongful entry or invasion of the right of private occupancy is committed by or on behalf of the owner, landlord or lessor of that room, dwelling or premises;

**(4)** Oral or written publication, including publication by electronic means, of material that slanders or libels a person or organization or disparages a person's or organization's goods, products or services, provided that the claim is made or the "suit" is brought by a person or organization that claims to have been slandered or libeled, or that claims to have had its goods, products or services disparaged; or

**(5)** Oral or written publication, including publication by electronic means, of material that:

**(a)** Appropriates a person's name, voice, photograph or likeness; or

**(b)** Unreasonably places a person in a false light.

**b.** Includes "bodily injury" caused by one or more of the offenses described in Paragraph **a.** above.

**20.** "Pollutants" mean any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**21.** "Premises damage" means:

**a.** With respect to the first paragraph of the exceptions in Exclusion **j.** of Section **I** – Coverage **A** – Bodily Injury And Property Damage Liability, "property damage" to any premises while rented to you for a period of seven or fewer consecutive days, including the contents of such premises; or

**b.** With respect to the exception to Exclusions **c.** through **n.** in the last paragraph of Paragraph **2.** of Section **I** – Coverage **A** – Bodily Injury And Property Damage Liability, "property damage" to any premises while rented to you for a period of more than seven consecutive days, or while temporarily occupied by you with permission of the owner, caused by:

**(1)** Fire;

**(2)** Explosion;

**(3)** Lightning;

**(4)** Smoke resulting from fire, explosion or lightning; or

**(5)** Water.

But "premises damage" under this Paragraph **b.** does not include "property damage" to any premises caused by:

**(1)** Rupture, bursting, or operation of pressure relief devices;

**(2)** Rupture or bursting due to expansion or swelling of the contents of any building or structure caused by or resulting from water; or

**(3)** Explosion of steam boilers, steam pipes, steam engines or steam turbines.

**22.** "Products-completed operations hazard":

**a.** Includes all "bodily injury" and "property damage" occurring away from premises you own or rent and arising out of "your product" or "your work" except:

**(1)** Products that are still in your physical possession; or

**(2)** Work that has not yet been completed or abandoned. However, "your work" will be deemed completed at the earliest of the following times:

**(a)** When all of the work called for in your contract has been completed.

**(b)** When all of the work to be done at the job site has been completed if your contract calls for work at more than one job site.

**(c)** When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

**b.** Does not include "bodily injury" or "property damage" arising out of:

**(1)** The transportation of property, unless the injury or damage arises out of a condition in or on a vehicle not owned or operated by you, and that condition was created by the "loading or unloading" of that vehicle by any insured;

**(2)** The existence of tools, uninstalled equipment or abandoned or unused materials; or

**(3)** Products or operations for which the classification, listed in the Declarations or in a policy Schedule, states that products-completed operations are subject to the General Aggregate Limit.

**23.** "Property damage" means:

**a.** Physical injury to tangible property, including all resulting loss of use of that property. All such loss of use will be deemed to occur at the time of the physical injury that caused it; or

**b.** Loss of use of tangible property that is not physically injured. All such loss of use will be deemed to occur at the time of the "occurrence" that caused it.

For the purposes of this insurance, "electronic data" is not tangible property.

**24.** "Slogan":

**a.** Means a phrase that others use for the purpose of attracting attention in their advertising.

**b.** Does not include a phrase used as, or in, the name of:

**(1)** Any person or organization, other than you; or

**(2)** Any business, or any of the premises, goods, products, services or work, of any person or organization, other than you.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**25.** "Suit" means a civil proceeding in which damages because of "bodily injury", "property damage" or "personal and advertising injury" to which this insurance applies are alleged. "Suit" includes:

**a.** An arbitration proceeding in which such damages are claimed and to which the insured must submit or does submit with our consent; or

**b.** Any other alternative dispute resolution proceeding in which such damages are claimed and to which the insured submits with our consent.

**26.** "Temporary worker" means a person who is furnished to you to substitute for a permanent "employee" on leave or to meet seasonal or short-term workload conditions.

**27.** "Title" means a name of a literary or artistic work.

**28.** "Unsolicited communication" means any communication, in any form, that the recipient of such communication did not specifically request to receive.

**29.** "Volunteer worker" means a person who is not your "employee", and who donates his or her work and acts at the direction of and within the scope of duties determined by you, and is not paid a fee, salary or other compensation by you or anyone else for their work performed for you.

**30.** "Your product":

**a.** Means:

**(1)** Any goods or products, other than real property, manufactured, sold, handled, distributed or disposed of by:

**(a)** You;

**(b)** Others trading under your name; or

**(c)** A person or organization whose business or assets you have acquired; and

**(2)** Containers (other than vehicles), materials, parts or equipment furnished in connection with such goods or products.

**b.** Includes:

**(1)** Warranties or representations made at any time with respect to the fitness, quality, durability, performance or use of "your product"; and

**(2)** The providing of or failure to provide warnings or instructions.

**c.** Does not include vending machines or other property rented to or located for the use of others but not sold.

**31.** "Your work":

**a.** Means:

**(1)** Work or operations performed by you or on your behalf; and

**(2)** Materials, parts or equipment furnished in connection with such work or operations.

**b.** Includes:

**(1)** Warranties or representations made at any time with respect to the fitness, quality, durability, performance or use of "your work"; and

**(2)** The providing of or failure to provide warnings or instructions.

**THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.**

# XTEND ENDORSEMENT FOR ARCHITECTS, ENGINEERS AND SURVEYORS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

**GENERAL DESCRIPTION OF COVERAGE** – This endorsement broadens coverage. However, coverage for any injury, damage or medical expenses described in any of the provisions of this endorsement may be excluded or limited by another endorsement to this Coverage Part, and these coverage broadening provisions do not apply to the extent that coverage is excluded or limited by such an endorsement. The following listing is a general coverage description only. Read all the provisions of this endorsement and the rest of your policy carefully to determine rights, duties, and what is and is not covered.

**A.** Non-Owned Watercraft – 75 Feet Long Or Less

**B.** Who Is An Insured – Unnamed Subsidiaries

**C.** Who Is An Insured – Retired Partners, Members, Directors And Employees

**D.** Who Is An Insured – Employees And Volunteer Workers – Bodily Injury To Co-Employees, Co-Volunteer Workers And Retired Partners, Members, Directors And Employees

**E.** Who Is An Insured – Newly Acquired Or Formed Limited Liability Companies

**F.** Blanket Additional Insured – Controlling Interest

**G.** Blanket Additional Insured – Mortgagees, Assignees, Successors Or Receivers

**H.** Blanket Additional Insured – Governmental Entities – Permits Or Authorizations Relating To Premises

**I.** Blanket Additional Insured – Governmental Entities – Permits Or Authorizations Relating To Operations

**J.** Incidental Medical Malpractice

**K.** Medical Payments – Increased Limit

**L.** Amendment Of Excess Insurance Condition – Professional Liability

**M.** Blanket Waiver Of Subrogation – When Required By Written Contract Or Agreement

**N.** Contractual Liability – Railroads

**PROVISIONS**

**A. NON-OWNED WATERCRAFT – 75 FEET LONG OR LESS**

**1.** The following replaces Paragraph **(2)** of Exclusion **g.**, **Aircraft, Auto Or Watercraft**, in Paragraph **2.** of **SECTION I – COVERAGES – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY**:

**(2)** A watercraft you do not own that is:

**(a)** 75 feet long or less; and

**(b)** Not being used to carry any person or property for a charge;

**2.** The following replaces Paragraph **2.e.** of **SECTION II – WHO IS AN INSURED**:

**e.** Any person or organization that, with your express or implied consent, either uses or is responsible for the use of a watercraft that you do not own that is:

**(1)** 75 feet long or less; and

**(2)** Not being used to carry any person or property for a charge;

**B. WHO IS AN INSURED – UNNAMED SUBSIDIARIES**

The following is added to **SECTION II – WHO IS AN INSURED**:

Any of your subsidiaries, other than a partnership or joint venture, that is not shown as a Named Insured in the Declarations is a Named Insured if:

**a.** You are the sole owner of, or maintain an ownership interest of more than 50% in, such subsidiary on the first day of the policy period; and

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**b.** Such subsidiary is not an insured under similar other insurance.

No such subsidiary is an insured for "bodily injury" or "property damage" that occurred, or "personal and advertising injury" caused by an offense committed:

**a.** Before you maintained an ownership interest of more than 50% in such subsidiary; or

**b.** After the date, if any, during the policy period that you no longer maintain an ownership interest of more than 50% in such subsidiary.

For purposes of Paragraph **1.** of Section **II** – Who Is An Insured, each such subsidiary will be deemed to be designated in the Declarations as:

**a.** A limited liability company;

**b.** An organization other than a partnership, joint venture or limited liability company; or

**c.** A trust;

as indicated in its name or the documents that govern its structure.

**C. WHO IS AN INSURED – RETIRED PARTNERS, MEMBERS, DIRECTORS AND EMPLOYEES**

The following is added to Paragraph **2.** of **SECTION II – WHO IS AN INSURED**:

Any person who is your retired partner, member, director or "employee" that is performing services for you under your direct supervision, but only for acts within the scope of their employment by you or while performing duties related to the conduct of your business. However, no such retired partner, member, director or "employee" is an insured for:

**(1)** "Bodily injury":

**(a)** To you, to your current partners or members (if you are a partnership or joint venture), to your current members (if you are a limited liability company) or to your current directors;

**(b)** To the spouse, child, parent, brother or sister of that current partner, member or director as a consequence of Paragraph **(1)(a)** above;

**(c)** For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraph **(1)(a)** or **(b)** above; or

**(d)** Arising out of his or her providing or failing to provide professional health care services.

Unless you are in the business or occupation of providing professional health care services, Paragraphs **(1)(a)**, **(b)**, **(c)** and **(d)** above do not apply to "bodily injury" arising out of providing or failing to provide first aid or "Good Samaritan services" by any of your retired partners, members, directors or "employees", other than a doctor. Any such retired partners, members, directors or "employees" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

**(2)** "Personal injury":

**(a)** To you, to your current or retired partners or members (if you are a partnership or joint venture), to your current or retired members (if you are a limited liability company), to your other current or retired directors or "employees" while in the course of his or her employment or performing duties related to the conduct of your business, or to your other "volunteer workers" while performing duties related to the conduct of your business;

**(b)** To the spouse, child, parent, brother or sister of that current or retired partner, member, director, "employee" or "volunteer worker" as a consequence of Paragraph **(2)(a)** above;

**(c)** For which there is any obligation to share damages with or repay someone else who must pay damages because of the injury described in Paragraph **(2)(a)** or **(b)** above; or

**(d)** Arising out of his or her providing or failing to provide professional health care services.

**(3)** "Property damage" to property:

**(a)** Owned, occupied or used by; or

**(b)** Rented to, in the care, custody or control of, or over which physical control is being exercised for any purpose by;

you, any of your retired partners, members or directors, your current or retired "employees" or "volunteer workers", any current partner or member (if you are a partnership or joint venture), or any current member (if you are a limited liability company) or current director.

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**D. WHO IS AN INSURED – EMPLOYEES AND VOLUNTEER WORKERS – BODILY INJURY TO CO-EMPLOYEES, CO-VOLUNTEER WORKERS AND RETIRED PARTNERS, MEMBERS, DIRECTORS AND EMPLOYEES**

The following is added to Paragraph **2.a.(1)** of **SECTION II – WHO IS AN INSURED**:

Paragraphs **(1)(a)**, **(b)** and **(c)** above do not apply to "bodily injury" to a current or retired co-"employee" while in the course of the co-"employee's" employment by you or performing duties related to the conduct of your business, or to "bodily injury" to your other "volunteer workers" or retired partners, members or directors while performing duties related to the conduct of your business.

**E. WHO IS AN INSURED – NEWLY ACQUIRED OR FORMED LIMITED LIABILITY COMPANIES**

The following replaces Paragraph **3.** of **SECTION II – WHO IS AN INSURED**:

**3.** Any organization you newly acquire or form, other than a partnership or joint venture, and of which you are the sole owner or in which you maintain an ownership interest of more than 50%, will qualify as a Named Insured if there is no other similar insurance available to that organization. However:

**a.** Coverage under this provision is afforded only:

**(1)** Until the 180th day after you acquire or form the organization or the end of the policy period, whichever is earlier, if you do not report such organization in writing to us within 180 days after you acquire or form it; or

**(2)** Until the end of the policy period, when that date is later than 180 days after you acquire or form such organization, if you report such organization in writing to us within 180 days after you acquire or form it;

**b.** Coverage **A** does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization; and

**c.** Coverage **B** does not apply to "personal and advertising injury" arising out of an offense committed before you acquired or formed the organization.

For the purposes of Paragraph **1.** of Section **II** – Who Is An Insured, each such organization will be deemed to be designated in the Declarations as:

**a.** A limited liability company;

**b.** An organization other than a partnership, joint venture or limited liability company; or

**c.** A trust;

as indicated in its name or the documents that govern its structure.

**F. BLANKET ADDITIONAL INSURED – CONTROLLING INTEREST**

**1.** The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that has financial control of you is an insured with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" that arises out of:

**a.** Such financial control; or

**b.** Such person's or organization's ownership, maintenance or use of premises leased to or occupied by you.

The insurance provided to such person or organization does not apply to structural alterations, new construction or demolition operations performed by or on behalf of such person or organization.

**2.** The following is added to Paragraph **4.** of **SECTIO N II – WHO IS AN INSURED**:

This paragraph does not apply to any premises owner, manager or lessor that has financial control of you.

**G. BLANKET ADDITIONAL INSURED – MORTGAGEES, ASSIGNEES, SUCCESSORS OR RECEIVERS**

The following is added to **SECTION II – WHO IS AN INSURED**:

Any person or organization that is a mortgagee, assignee, successor or receiver and that you have agreed in a written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to its liability as mortgagee, assignee, successor or receiver for "bodily injury", "property damage" or "personal and advertising injury" that:

**a.** Is "bodily injury" or "property damage" that occurs, or is "personal and advertising injury" caused by an offense that is committed,

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

subsequent to the signing of that contract or agreement; and

**b.** Arises out of the ownership, maintenance or use of the premises for which that mortgagee, assignee, successor or receiver is required under that contract or agreement to be included as an additional insured on this Coverage Part.

The insurance provided to such mortgagee, assignee, successor or receiver is subject to the following provisions:

**a.** The limits of insurance provided to such mortgagee, assignee, successor or receiver will be the minimum limits that you agreed to provide in the written contract or agreement, or the limits shown in the Declarations, whichever are less.

**b.** The insurance provided to such person or organization does not apply to:

**(1)** Any "bodily injury" or "property damage" that occurs, or any "personal and advertising injury" caused by an offense that is committed, after such contract or agreement is no longer in effect; or

**(2)** Any "bodily injury", "property damage" or "personal and advertising injury" arising out of any structural alterations, new construction or demolition operations performed by or on behalf of such mortgagee, assignee, successor or receiver.

**H. BLANKET ADDITIONAL INSURED – GOVERNMENTAL ENTITIES – PERMITS OR AUTHORIZATIONS RELATING TO PREMISES**

The following is added to **SECTION II – WHO IS AN INSURED**:

Any governmental entity that has issued a permit or authorization with respect to premises owned or occupied by, or rented or loaned to, you and that you are required by any ordinance, law, building code or written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" arising out of the existence, ownership, use, maintenance, repair, construction, erection or removal of any of the following for which that governmental entity has issued such permit or authorization: advertising signs, awnings, canopies, cellar entrances, coal holes, driveways, manholes, marquees, hoist away openings, sidewalk vaults, elevators, street banners or decorations.

**I. BLANKET ADDITIONAL INSURED – GOVERNMENTAL ENTITIES – PERMITS OR AUTHORIZATIONS RELATING TO OPERATIONS**

The following is added to **SECTION II – WHO IS AN INSURED**:

Any governmental entity that has issued a permit or authorization with respect to operations performed by you or on your behalf and that you are required by any ordinance, law, building code or written contract or agreement to include as an additional insured on this Coverage Part is an insured, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" arising out of such operations.

The insurance provided to such governmental entity does not apply to:

**a.** Any "bodily injury", "property damage" or "personal and advertising injury" arising out of operations performed for the governmental entity; or

**b.** Any "bodily injury" or "property damage" included in the "products-completed operations hazard".

**J. INCIDENTAL MEDICAL MALPRACTICE**

**1.** The following replaces Paragraph **b.** of the definition of "occurrence" in the **DEFINITIONS** Section:

**b.** An act or omission committed in providing or failing to provide "incidental medical services", first aid or "Good Samaritan services" to a person, unless you are in the business or occupation of providing professional health care services.

**2.** The following replaces the last paragraph of Paragraph **2.a.(1)** of **SECTION II – WHO IS AN INSURED**:

Unless you are in the business or occupation of providing professional health care services, Paragraphs **(1)(a)**, **(b)**, **(c)** and **(d)** above do not apply to "bodily injury" arising out of providing or failing to provide:

**(a)** "Incidental medical services" by any of your "employees" who is a nurse, nurse assistant, emergency medical technician, paramedic, athletic trainer, audiologist, dietician, nutritionist,

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

occupational therapist or occupational therapy assistant, physical therapist or speech-language pathologist; or

**(b)** First aid or "Good Samaritan services" by any of your "employees" or "volunteer workers", other than an employed or volunteer doctor. Any such "employees" or "volunteer workers" providing or failing to provide first aid or "Good Samaritan services" during their work hours for you will be deemed to be acting within the scope of their employment by you or performing duties related to the conduct of your business.

**3.** The following replaces the last sentence of Paragraph **5.** of **SECTION III – LIMITS OF INSURANCE**:

For the purposes of determining the applicable Each Occurrence Limit, all related acts or omissions committed in providing or failing to provide "incidental medical services", first aid or "Good Samaritan services" to any one person will be deemed to be one "occurrence".

**4.** The following exclusion is added to Paragraph **2.**, **Exclusions**, of **SECTION I – COVERAGES – COVERAGE A – BODILY INJURY AND PROPERTY DAMAGE LIABILITY**:

**Sale Of Pharmaceuticals**

"Bodily injury" or "property damage" arising out of the violation of a penal statute or ordinance relating to the sale of pharmaceuticals committed by, or with the knowledge or consent of the insured.

**5.** The following is added to the **DEFINITIONS** Section:

"Incidental medical services" means:

**a.** Medical, surgical, dental, laboratory, x-ray or nursing service or treatment, advice or instruction, or the related furnishing of food or beverages; or

**b.** The furnishing or dispensing of drugs or medical, dental, or surgical supplies or appliances.

**6.** The following is added to Paragraph **4.b.**, **Excess Insurance**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

This insurance is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to any of your "employees" for "bodily injury" that arises out of providing or failing to provide "incidental medical services" to any person to the extent not subject to Paragraph **2.a.(1)** of Section **II** – Who Is An Insured.

**K. MEDICAL PAYMENTS – INCREASED LIMIT**

The following replaces Paragraph **7.** of **SECTION III – LIMITS OF INSURANCE**:

**7.** Subject to Paragraph **5.** above, the Medical Expense Limit is the most we will pay under Coverage **C** for all medical expenses because of "bodily injury" sustained by any one person, and will be the higher of:

**a.** $10,000; or

**b.** The amount shown in the Declarations of this Coverage Part for Medical Expense Limit.

**L. AMENDMENT OF EXCESS INSURANCE CONDITION – PROFESSIONAL LIABILITY**

The following is added to Paragraph **4.b.**, **Excess Insurance**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis, that is Professional Liability or similar coverage, to the extent the loss is not subject to the professional services exclusion of Coverage **A** or Coverage **B**.

**M. BLANKET WAIVER OF SUBROGATION – WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT**

The following is added to Paragraph **8.**, **Transfer Of Rights Of Recovery Against Others To Us**, of **SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS**:

If the insured has agreed in a written contract or agreement to waive that insured's right of recovery against any person or organization, we waive our right of recovery against such person or organization, but only for payments we make because of:

**a.** "Bodily injury" or "property damage" that occurs; or

**b.** "Personal and advertising injury" caused by an offense that is committed;

subsequent to the signing of that contract or agreement.

# TOTAL AGGREGATE LIMIT OTHER THAN PROJECTS AND DESIGNATED PROJECT AND LOCATION AGGREGATE LIMITS

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

**SCHEDULE – LIMITS OF INSURANCE AND DESIGNATED PROJECTS AND LOCATIONS**

**LIMITS OF INSURANCE**

| | |
|---|---|
| **Total Aggregate Limit (Other Than Projects and Products-Completed Operations)** | **$** 2,000,000 |
| **Designated Location Aggregate Limit (Other Than Products-Completed Operations)** | **$** 2,000,000 |
| **Designated Project Aggregate Limit (Other Than Products-Completed Operations)** | **$** 2,000,000 |
| **General Aggregate Limit (Other Than Products-Completed Operations)** | **$** 2,000,000 |

**Designated Projects:**
Each "project" for which you have agreed, in a written contract which is in effect during this policy period, to provide a separate General Aggregate Limit, provided that the contract is signed by you before the "bodily injury" or "property damage" occurs.

**Designated Locations:**
All locations listed in Item 3. of the Common Policy Declarations or in any Master Pac Account Exposure Endorsement included in this policy.

**PROVISIONS**

1. The General Aggregate Limit (Other Than Products-Completed Operations) shown in the Declarations is replaced by the Limits of Insurance shown in the Schedule – Limits Of Insurance And Designated Projects And Locations.
2. The following replaces Paragraph **1.** of **SECTION III – LIMITS OF INSURANCE**:

1. The Limits of Insurance shown in the Declarations or the Schedule – Limits Of Insurance And Designated Projects And Locations, whichever apply, and the rules below fix the most we will pay regardless of the number of:
   - **a.** Insureds;
   - **b.** Claims made or "suits" brought;

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

**c.** Persons or organizations making claims or bringing "suits"; or

**d.** "Projects" or "locations".

**3.** The following replaces Paragraph **2.** of **SECTION III – LIMITS OF INSURANCE**:

**2. a.** The Total Aggregate Limit shown in the Schedule – Limits Of Insurance And Designated Projects And Locations is the most we will pay for the sum of all amounts under the Designated Location Aggregate Limit and all amounts under the General Aggregate Limit. This includes:

**(1)** Damages under Coverage **A**, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard";

**(2)** Damages under Coverage **B**; and

**(3)** Medical expenses under Coverage **C**.

**b.** The Designated Project Aggregate Limit shown in the Schedule – Limits Of Insurance And Designated Projects And Locations applies and is further subject to all of the following provisions:

**(1)** The Designated Project Aggregate Limit is the most we will pay for the sum of:

**(a)** Damages under Coverage **A** because of "bodily injury" and "property damage" caused by "occurrences"; and

**(b)** Medical expenses under Coverage **C** for "bodily injury" caused by accidents;

that can be attributed only to operations at a single "project".

**(2)** The Designated Project Aggregate Limit applies separately to each "project".

**(3)** The Designated Project Aggregate Limit does not apply to damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard". Instead, the Products-Completed Operations Aggregate Limit described in Paragraph **3.** below applies to such damages.

**(4)** The Designated Project Aggregate Limit does not apply to damages under Coverage **B**. Instead, the General Aggregate Limit described in Paragraph **2.d.** below applies to such damages.

**(5)** Any payments made for damages or medical expenses to which the Designated Project Aggregate Limit applies will reduce the Designated Project Aggregate Limit for the applicable "project". Such payments will not reduce the Total Aggregate Limit, the General Aggregate Limit described in Paragraph **2.d.** below, the Designated Project Aggregate Limit for any other "project" or the Designated Location Aggregate Limit.

**c.** Subject to the Total Aggregate Limit described in Paragraph **2.a.** above, the Designated Location Aggregate Limit shown in the Schedule – Limits Of Insurance And Designated Projects And Locations applies and is further subject to all of the following provisions:

**(1)** The Designated Location Aggregate Limit is the most we will pay for the sum of:

**(a)** Damages under Coverage **A** because of "bodily injury" and "property damage" caused by "occurrences"; and

**(b)** Medical expenses under Coverage **C** for "bodily injury" caused by accidents;

that can be attributed only to operations at a single "location".

**(2)** The Designated Location Aggregate Limit applies separately to each "location".

**(3)** The Designated Location Aggregate Limit does not apply to damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard". Instead, the Products-Completed Operations Aggregate Limit described in Paragraph **3.** below applies to such damages.

**(4)** The Designated Location Aggregate Limit does not apply to damages under Coverage **B**. Instead, the General Aggregate Limit described in

© 2017 The Travelers Indemnity Company. All rights reserved.
Includes copyrighted material of Insurance Services Office, Inc. with its permission.

Paragraph **2.d.** below applies to such damages.

**(5)** Any payments made for damages or medical expenses to which the Designated Location Aggregate Limit applies will reduce:

**(a)** The Total Aggregate Limit; and

**(b)** The Designated Location Aggregate Limit for the applicable "location".

Such payments will not reduce the General Aggregate Limit described in Paragraph **2.d.** below, the Designated Project Aggregate Limit or the Designated Location Aggregate Limit for any other "location".

**d.** Subject to the Total Aggregate Limit described in Paragraph **2.a.** above, the General Aggregate Limit shown in the Schedule – Limits Of Insurance And Designated Projects And Locations applies and is further subject to all of the following provisions:

**(1)** The General Aggregate Limit is the most we will pay for the sum of:

**(a)** Damages under Coverage **A** because of "bodily injury" and "property damage" caused by "occurrences", and medical expenses under Coverage **C** for "bodily injury" caused by accidents, that cannot be attributed only to operations at a single "project" or a single "location"; and

**(b)** Damages under Coverage **B**.

**(2)** The General Aggregate Limit does not apply to damages for "bodily injury" or "property damage" included in the "products-completed operations hazard". Instead, the Products-Completed Operations Aggregate Limit described in Paragraph **3.** below applies to such damages.

**(3)** Any payments made for damages or medical expenses to which the General Aggregate Limit applies will reduce:

**(a)** The Total Aggregate Limit; and

**(b)** The General Aggregate Limit.

Such payments will not reduce the Designated Project Aggregate Limit for any "project" or the Designated Location Aggregate Limit for any "location".

**4.** The following replaces Paragraph **3.** of **SECTION III – LIMITS OF INSURANCE**:

**3.** The Products-Completed Operations Aggregate Limit shown in the Declarations is the most we will pay under Coverage **A** for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard". Any payments made for such damages will not reduce the Total Aggregate Limit, the General Aggregate Limit, the Designated Project Aggregate Limit for any "project" or the Designated Location Aggregate Limit for any "location".

**5.** The following is added to the **DEFINITIONS** Section:

"Location" means any designated location shown in the Schedule – Limits Of Insurance And Designated Projects and Locations that is owned by or rented to you. For the purposes of determining the applicable aggregate limit of insurance, each "location" that includes a premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway or waterway, or by a right-of-way of a railroad, will be considered a single "location".

"Project" means any designated project shown in the Schedule – Limits Of Insurance And Designated Projects And Locations that is away from premises owned by or rented to you and at which you are performing operations pursuant to a contract or agreement. For the purposes of determining the applicable aggregate limit of insurance, each "project" that includes a premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway or waterway, or by a right-of-way of a railroad, will be considered a single "project".

# WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

**Policy Number:** 57WEOL64HF8 **Endorsement Number:**
**Effective Date:** 03/01/2024 Effective hour is the same as stated on the Information Page of the policy.
**Named Insured and Address:** BLACK EAGLE CONSULTING LLC
12130 SANTA MARGARITA CT
RANCHO CUCAMONGA CA 91730

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule.

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

**SCHEDULE**

Any person or organization for whom you are required by contract or agreement to obtain this waiver from us. Endorsement is not applicable in KY, NH, NJ or for any MO construction risk

Countersigned by _____
Authorized Representative

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**

**City Council**

**June 18, 2024**

## Authorizing Agreement with Black Eagle Consulting and Transferring Budget Salary Saving for Inspection Services for the 2024 Capital Improvement Projects

**BACKGROUND**

A. The City's Inspector/Resident Engineer resigned on May 3, 2024, and the Public Works Department does not have adequate staffing to manage both the design and construction inspections for the 2024 construction season.

B. After recognizing this need, the Public Works Department began soliciting proposals for inspection, additional materials testing, and constructability review services. Staff released a Request for Proposal Proposals (RFP) to the public on May 3, 2024.

C. The evaluation team, comprised of Public Works and Finance Department staff, ranked Black Eagle Consulting as the highest ranked firm to provide the required services.

D. The Public Works Department-approved annual budget includes cost savings that would cover the 2024 Inspection Services. Other services for materials testing and constructability reviews will be charged to each project and additional funding allocation is not required.

E. Inspection, Material testing, and constructability reviews are essential and necessary for proper construction of CIP projects.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Authorizes the transfer of $96,000 from the following Accounts to Account 100-03210-42025 (Contract Services):
    a. $12,600 from Account 245-03210-41015
    b. $84,400 from Account 100-03210-41015

2. Authorizes and directs the Mayor to execute an Agreement with Black Eagle Consulting for a not to exceed amount of $205,000.

Adopted by the City of South Lake Tahoe City Council on June 18, 2024, by the following vote:

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**11

**Agenda Item:** Ordinance - Amendments to South Lake Tahoe City Code Chapter 4.150 (Refuse and Garbage) to Implement Residential 3-Cart System for Solid Waste, Recyclables, and Yard Trimmings (Second Reading)

**Executive Summary:** The proposed ordinance would amend City Code chapter 4.150 (Refuse and Garbage) to implement the residential 3-cart system for solid waste, recyclables, and organic waste, and to make other changes for consistency with the new Franchise Agreement with South Tahoe Refuse executed on August 22, 2023. It also makes other updates for consistency with state law and current practice. The proposed ordinance would be effective on September 15, 2024, consistent with the delivery of carts to residences. On June 4, 2024, City Council passed a motion to hold a first reading (by title only) and refer second reading and adoption to June 18, 2024.

**Requested Action / Suggested Motions:** Pass an Ordinance amending South Lake Tahoe City Code chapter 4.150 (Refuse and Garbage) to implement residential 3-cart system for solid waste, recyclables, and yard trimmings.

**Responsible Staff Member:** Heather Stroud, City Attorney

**Reviewed and Approved By:** Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title: Ordinance – Amendments to South Lake Tahoe City Code Chapter 4.150 (Refuse and Garbage) to Implement Residential 3-Cart System for Solid Waste, Recyclables, and Yard Trimmings (Second Reading)**

**Location:** Citywide

**Responsible Staff Member:** Heather Stroud, City Attorney (530) 542-6046

**Background:**
The proposed ordinance would amend City Code chapter 4.150 (Refuse and Garbage) to implement the residential 3-cart system for solid waste, recyclables, and organic waste, and to make other changes for consistency with the new Franchise Agreement with South Tahoe Refuse executed on August 22, 2023. It also makes other updates for consistency with state law and current practice.

The 3-cart system is required by Senate Bill 1383 (SB 1383). In September 2016, Governor Brown signed into law SB 1383, which is intended to reduce organic waste disposal by 75 percent and increase edible food recover by 20 percent by 2025. SB 1383 requires all cities and counties statewide to implement a mandatory organic recycling ordinance by January 1, 2022. In November 2020, the California Department of Resources Recycling and Recovery (CalRecycle) adopted regulations to implement SB 1383. The state anticipates that these requirements will reduce at least 4 million metric tons of greenhouse gas emissions annually by 2030.

The Public Works Director presented a summary of SB 1383 requirements to City Council on June 1, 2021. The City Council adopted Ordinance No. 2021-1157 on November 2, 2021, to partially implement the state organic waste recycling requirements. However, moving to the required 3-cart system was not feasible before updating the Franchise Agreement with South Tahoe Refuse, which completed in August 2023. Under the Franchise Agreement, the carts for collection of solid waste, recycling, and yard trimmings will be delivered to residences by September 15, 2024.

On June 4, 2024, City Council passed a motion to hold a first reading (by title only) and refer second reading and adoption to June 18, 2024.

**Issue and Discussion:**
As of January 1, 2022, CalRecycle's regulations implementing SB 1383 required each jurisdiction to adopt a mandatory organic waste recycling ordinance. The proposed ordinance attached to this staff report is intended to complete the City's obligations to meet this requirement.

The ordinance:

- Requires residential customers (including single-family and multi-family up to four units) to use the three carts to be provided by South Tahoe Refuse for solid waste, recyclables, and yard trimmings, and to place the carts at the property line adjacent to the street no earlier than 6:00am on collection day with the following exceptions:
    - Allows residential customers to obtain an additional cart for solid waste for an additional charge.
    - Allows residential customers to share carts for recyclables and yard trimmings.
    - Allows residential customers with an existing bear box to continue to use their own container for solid waste within the bear box for collection.
- Allows multi-residential properties of five or more units to comply with either the residential requirements above or the commercial requirements.
    - Allows for application for a physical space waiver upon evidence that the premises lacks adequate space for the containers otherwise required.

Under the Franchise Agreement, South Tahoe Refuse is required to provide bear-resistant carts for residential solid waste.

**Financial Implications:**
Implementation costs of this ordinance within the City of South Lake Tahoe include the capital improvements South Tahoe Refuse is making such as semi-automated collection vehicles and purchasing the residential carts. An independent report by Crowe LLP to the Solid Waste Joint Powers Authority, dated Oct. 20, 2023, indicates that South Tahoe Refuse will need to raise its rates by 10.16 percent over the next two years (2025 and 2026) to cover the increased costs of organic waste collection. South Tahoe Refuse has proposed to spread out the costs over two years to mitigate the impact of the rate increase. A rate increase application will be considered by the Solid Waste Joint Powers Authority and City Council later this year.

**Environmental Considerations:**
The proposed ordinance is exempt from review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines sections 15061(b)(3) (common sense exemption that CEQA does not apply to projects where it can be seen with certainty that there is no possibility that the action may have a significant effect on the environment), 15307 (actions by regulatory agencies for protection of natural resources), and 15308 (actions by regulatory agencies for protection of the environment). The proposed ordinance would implement state law organic waste recycling requirements and reduce greenhouse gas emissions.

**Policy Implications:**
The proposed ordinance is consistent with the City's adopted Climate Action Plan, specifically Actions WA-2 (Promote reductions in organic waste and landfill diversion), and WA-3 (Implement waste and climate change education program). Additionally, the ordinance advances the City's Strategic Plan 2023-2028, specifically Goal 3.4 (Waste Management and Stewardship), Action 2 (Include "bear proof" trash containers in Franchise Agreement update with STR).

# Ordinance 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

# An Ordinance Amending Chapter 4.150 (Refuse and Garbage) of the South Lake Tahoe City Code to Implement Residential 3-Cart System for Solid Waste, Recyclables, and Yard Trimmings

## FINDINGS

A. Senate Bill 1383, the Short-Lived Climate Pollutant Reduction Act of 2016, required the California Department of Resources Recycling and Recovery (CalRecycle) to develop regulations to reduce organics in landfills as a source of methane. As adopted by CalRecycle, these SB 1383 regulations place requirements on multiple entities including cities, residential households, commercial businesses, commercial edible food generators, haulers, self-haulers, food recovery organizations, and food recovery services to support achievement of statewide organic waste disposal reduction targets. The SB 1383 regulations also required the implementation of a residential 3-cart system for collection of solid waste, recyclables, and organic waste.

B. The SB 1383 regulations required cities to adopt and enforce an ordinance or other enforceable mechanism to implement relevant provisions of the SB 1383 regulations by January 1, 2022.

C. On October 1, 2021, the City of South Lake Tahoe applied for a high-elevation waiver from some of the SB 1383 regulations including residential food waste collection, which CalRecycle granted because all of the land within the City is over 4,500 feet in elevation.

D. On November 2, 2021, the City Council adopted Ordinance No. 2021-1157, to partially implement the requirements of the SB 1383 regulations; however, moving to the required 3-cart system was not feasible before updating the Franchise Agreement with South Tahoe Refuse to account for the capital costs of moving to semi-automated collection trucks and purchasing the residential carts.

E. On August 22, 2023, the City Council passed Resolution No. 2023-076, approving an exclusive Franchise Agreement with South Tahoe Refuse for Solid Waste, Recycling, and Organics Services.

F. This Ordinance completes the City's implementation of the SB 1383 requirements applicable to the City of South Lake Tahoe, and also includes other clean-up amendments for consistency with state law and current practice.

**Now, Therefore, the City Council of City of South Lake Tahoe does ordain as follows:**

SECTION 1. Chapter 4.150 (Refuse and Garbage) of the South Lake Tahoe City Code is hereby amended to read in its entirety as follows:

## Chapter 4.150

## SOLID WASTE, RECYCLING, AND ORGANIC MATERIALS

Sections:

Article I. In General

4.150.010 Definitions.
4.150.020 Purpose and intent of chapter.
4.150.025 Appeals.

Article II. Collection and Disposal Services

4.150.030 Provision for and supervision by city.
4.150.040 Persons authorized to collect, dispose of, and process discarded materials.

Article III. Collection and Disposal Requirements and Standards

**Division 1. Generally**

4.150.080 Vehicles used to transport discarded materials.
4.150.090 Collection and disposal – Duty of owner or occupant.
4.150.100 Collection and disposal – Contract for service.
4.150.110 Residential containers.
4.150.120 Multiresidential containers.
4.150.130 Commercial containers.
4.150.140 Determination of sufficient container size/collection frequency.
4.150.150 Mandatory collection for repeat offenders (commercial and residential).
4.150.160 Mandatory multiplier for repeat offenders.
4.150.170 Frequency of disposal.
4.150.180 Storage.
4.150.190 Bulky items.
4.150.200 Exception – Vacant establishments.
4.150.210 Placement of residential containers for collection purposes.
4.150.220 Placement of commercial containers for collection purposes.
4.150.230 Placement of multiresidential containers for collection purposes.
4.150.240 Removal of containers from public view.
4.150.250 Owner's responsibility for other refuse.
4.150.260 Standards and responsibilities regarding dumpsters.

**Division 2. Residential Units and Commercial Establishments**

4.150.270 Required use of authorized collection.

4.150.280 Access to receptacles for collection purposes.
4.150.300 Liability for payment of fees.
4.150.310 Billing and collection – Discounts – Penalty for delinquent payments.
4.150.320 Fee a civil debt.
4.150.330 Mandatory collection areas.
4.150.340 Liability for payment of fees – Mandatory collection.
4.150.350 Billing cycle and penalty for delinquent payments.
4.150.360 Discontinuation of service.
4.150.370 Lien for 180-day delinquencies.
4.150.390 Exemptions.

Article IV. Prohibited Acts and Enforcement

4.150.400 Collection or disposal by unauthorized persons.
4.150.410 Placement of discarded materials in receptacle or upon land of another.
4.150.420 Placement of containers on vacant lots.
4.150.430 Placement for collection of items other than discarded materials.
4.150.440 Littering public or private property.
4.150.450 Burning refuse.
4.150.460 Rendering of fat, distillation of bones, etc.
4.150.470 Bringing discarded materials into the city.
4.150.480 Storing of discarded materials inside buildings.
4.150.490 Connection of water or electrical services prior to issuance of permit.
4.150.500 Disclosure required upon sale of real property.
4.150.505 Compliance inspections.
4.150.510 Violations of chapter declared a nuisance.

Article V. Recycling Regulations

**Division 1. Generally**

4.150.520 Purpose and intent of article.
4.150.530 Collection of discarded materials by other than exclusive franchisee prohibited.
4.150.540 Removal of recyclable materials from existing state-authorized buyback centers prohibited.
4.150.610 Development of materials recovery facility prohibited.

**Division 2. Recycling Organic Waste**

4.150.620 Requirements for residential organic waste recycling.
4.150.630 Requirements for commercial organic waste recycling.
4.150.640 Requirements for food recovery organizations and services.

For state law authorizing city to enter into solid waste disposal contracts, see H. and S.C. § 4250. As to solid waste generally, see H. and S.C. §§ 4100 to 4520. As to depositing, throwing, etc., handbills on public property, see SLTCC 6.05.030. As to depositing or placing handbills in vehicles, see SLTCC 6.05.040. As to distributing, throwing, etc., on private property, see SLTCC 6.05.050. As to restrictions on outdoor fires, see SLTCC 5.05.010. As to required clearing of brush, vegetation, etc., around buildings and structures and along roadways, see SLTCC 5.05.020 to 5.05.040. As to abandoned, wrecked, dismantled or inoperative vehicles, see SLTCC 4.45.010 to 4.45.160.

## Article I. In General

### 4.150.010 Definitions.

For the purpose of this chapter, the following words and phrases shall have the meanings ascribed to them by this section, except where the context clearly indicates a different meaning, as follows:

“Bear box” means a metal container used at a residential property which is intended to store discarded materials until collection day, and which includes a locking mechanism to prevent bear access.

“Bin” means a container with a hinged and tight-fitting lid and wheels designed to be mechanically serviced by a commercial collection vehicle, and that is designed to hold from one to six cubic yards of material with the lid properly closed.

“Bulky items” means large items of solid waste such as appliances, furniture, auto parts, trees and other oversize waste.

“Cardboard” means a thin, stiff, pasteboard made of paper pulp, used for making cartons and signs.

“Carpet” means a thick, heavy covering for a floor, usually made of wool, or synthetic fiber.

“Cart” means a plastic container with a hinged and tight-fitting lid and wheels that is serviced by an automated or semi-automated collection vehicle, is provided by the city’s franchisee, and which has a capacity of at least 20 and not more than 95 gallons, and is used for collection of solid waste, recyclable materials, or organic materials from commercial or residential premises.

“Collection” means the complete operation of gathering together and transporting to the point of disposal or processing any solid waste, recyclable, bulky item, or organic waste materials.

“Collection fees” means the fees established as provided by law for the collection, disposal, and processing of discarded materials.

“Commercial container” means a container supplied by the franchisee to any person subscribing or receiving solid waste service and constructed of metal, plastic or other suitable material in such a fashion as to be watertight.

“Commercial premises” means that portion of any building or other premises which is not a residence, residential unit or housekeeping unit.

“Compactor” means any container which has a compaction mechanism, whether stationary or mobile.

“Container” means a city-approved receptacle for collection of solid waste, recyclable materials, or organic materials and includes bins, carts, compactors, open-top roll-off boxes, customer owned containers, and drop boxes.

“Construction and demolition debris (C&D)” means materials generated by or resulting from construction or demolition-related activities, including building, construction, deconstruction, demolition, excavation, grading, improvement, land clearing, reconstruction, remodeling, and renovation, such as discarded building materials, packaging, debris, and rubble resulting from construction, alteration, remodeling, repair, or demolition operations on an pavements, excavation projects, houses, commercial buildings, or other structures, excluding excluded waste. Construction and demolition debris includes rocks, soils, tree remains, and other yard trimmings which result from land clearing or land development operations in preparation for construction.

“Curbside” means as near but in no event more than five feet, from the property line that abuts a paved public street or in the event the property does not abut a paved public street, where the property abuts a public street, alley, right-of-way or easement and in the case of a commercial location in the service alley of a commercial or institutional entity.

“Customer owned container” means a 20-32 gallon plastic can owned by the owner or occupant and used for the collection of additional recyclable materials or organic materials or for collection of solid waste in a bear box.

“Discarded materials” means recyclable materials, organic materials, and solid waste placed by a customer in a container for the purposes of collection.

“Disposal” means the complete operation of disposing of solid waste.

“Drop box” means a container with a capacity of 10 to 40 cubic yards that is serviced by a roll-off collection vehicle.

“Edible food” means food intended for human consumption.

“Excluded waste” means hazardous substance, hazardous waste, infectious waste, designated waste, volatile, corrosive, biomedical, infectious, biohazardous, and toxic substances or material, waste that the city or franchisee reasonably believes would as a result of or upon disposal, be a violation of local, state, or federal law, regulation, or ordinance, including land use restrictions or conditions, waste that cannot be disposed of in class III landfills, waste that in the city or franchisee’s reasonable opinion would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose the city or franchisee to potential liability; but not including de minimis volumes or concentrations of waste of a type normally found in residential solid waste after implementation of programs for the safe collection, recycling, treatment, and disposal of batteries and paint in compliance with sections 41500 and 41082 of the California Public Resources Code, as may be amended from time to time. Excluded waste does not include used motor oil and filters, or household batteries when properly placed for collection.

“Food recovery organization” means an entity that engages in the collection or receipt of edible food from commercial edible food generators and distributes that edible food to the public for human consumption either directly or through other entities, including food banks, nonprofit charitable organizations, and nonprofit charitable temporary food facilities, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

“Food recovery service” means a person or entity that collects and transports edible food from a commercial edible food generator to a food recovery organization or other entities for human consumption, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

“Food waste” means food scraps, including fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, and eggshells.

“Franchisee” means any person that has entered into a franchise agreement with the city to collect, remove, transport, process or dispose of solid waste or recyclables or compostables, or to operate any solid waste facility.

“Household hazardous waste (HHW)” means any substance or mixture that, if improperly handled, may be damaging to human health and well-being or a threat to the environment. HHW includes but is not limited to flammables, combustibles, poisons, toxics, oxidizers, corrosives, compressed gas, oil,

antifreeze, explosives and radioactive materials as well as any other hazardous waste as defined in Health and Safety Code Section 25117 and the Hazardous Waste Management Reform Act of 1995.

“Litter” is any quantity of improperly discarded solid waste, including but not limited to discarded furniture and appliances, overflowing residential and commercial trash cans, pieces of lumber and scrap metal left at a construction site, uncontainerized paper such as fast food packages, candy wrappers, cigarette butts, and/or plastic, glass, trash, debris, rubbish, refuse, garbage or junk parts and scrap materials.

“Littering” is the improper discarding, dropping or scattering of small quantities of waste matter ordinarily carried on or about the person, including but not limited to beverage containers and enclosures, packaging, wrappers, wastepaper, newspapers and magazines, in any place other than a place or container maintained for the lawful disposal thereof, including waste matter which escapes or is allowed to escape from a vehicle, container, receptacle or package.

“Medical waste” means that waste which is generated or produced, as a result of the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production of testing of biological products, including but not limited to the accumulation of property containing home-generated sharps waste.

“Multiresidential” means two or more residential units located in a single building or a unified group of buildings, and shall include, but not be limited to, two or more units located in a planned unit development, an apartment complex or a mobile home park.

“Nuisance” means the existence or accumulation, without the authority of the city of South Lake Tahoe, of litter, trash, manure, rubbish, scrap materials, junk parts, garbage, or refuse of any kind upon private or public property; provided, however, that said refuse is visible to the occupants of an adjacent or nearby parcel or real property, or to the users of any right-of-way.

“Organic waste” means waste containing material originating from living organisms and their metabolic waste products, including food, green material, landscape and pruning waste, organic textiles and carpets, lumber, wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges, as defined in Section 18982(a)(46) of Title 14 of the California Code of Regulations, as may be amended from time to time.

“Owner” shall conclusively be deemed to be the person to whom the taxes on the property assessed as shown on the last equalized assessment roll of the county or, alternatively, from such other records of the county assessor or tax collector as contain more recent information.

“Recyclables” or “recyclable material” means materials which are reused or processed or are in the future reused or processed into a form suitable for reuse through reprocessing or remanufacture, consistent with the requirements of the California Integrated Waste Management Act. The term “recyclable material” includes paper newsprint, printed matter, pasteboard, paper containers, cardboard, glass, aluminum, PET, HDPE, and other plastics, beverage containers, transformable and compostable materials, used motor oil, automotive batteries, antifreeze, latex paint, brick and stone in reusable size and condition, and such other material designated by the city council, or designated as recyclables by the California Integrated Waste Management Board, or other agency with jurisdiction.

“Recycle” or “recycling” means the process of collecting, sorting, cleansing, treating and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused or reconstituted products which meet the quality standards necessary to be used in the marketplace.

“Repeat offender” means a second offense violation of this chapter occurring within one year at the same site.

“Residential unit” means a room or combination of rooms in a single building designed for human living, sleeping, eating and sanitary uses by a single family and their servants and nonpaying guests, and having cooking facilities. There may be more than one residential use in a single building. A mother-in-law unit is considered an additional residential unit.

“Rubbish” means all nonputrescible waste matter, whether combustible or noncombustible, except hazardous waste and medical waste.

“Sharps waste” means any device having acute rigid corners, edges, or protuberances capable of cutting or piercing, including, but not limited to, hypodermic needles, hypodermic needles with syringes, blades, needles with attached tubing, syringes contaminated with biohazard waste, acupuncture needles, and root canal files. Broken glass items, such as Pasteur pipettes and blood vials contaminated with biohazard waste or any item capable of cutting or piercing that is contaminated with trauma scene waste.

“Single-family unit” means a dwelling which receives individual solid waste and/or curbside recycling service.

“Solid waste” means solid waste as defined in California Public Resources Code, Division 30, Part 1, Chapter 2, Section 40191 and implementing regulations. Excluded from the definition of solid waste are excluded waste, C&D, source-separated recyclable materials, edible food if it is recovered and not discarded, source-separated organic materials, and radioactive waste. Notwithstanding any provision to the contrary, solid waste may include de minimis volumes or concentrations of waste of a type and amount normally found in residential solid waste after implementation of programs for the safe collection, recycling, treatment, and disposal of household hazardous waste in compliance with Sections 41500 and 41802 of the California Public Resources Code as may be amended from time to time. Solid waste includes salvageable materials only when such materials are included for collection in a solid waste collection container not source-separated from solid waste at the site of generation.

“Source-separated recyclables” means nonputrescible material, including paper, books, magazines, cardboard, box board, plastic, metal, glass, and other similar materials authorized by the city for collection by the franchisee that is separated by the generator from other waste material for the purpose of reuse or recycling, by placing the recyclables in separate containers, or by binding them separately; the recyclable material is returned to the economic mainstream in the form of raw material for new, reused or reconstituted products which meet the quality standards necessary to be used in the marketplace.

“Special wastes” means any designated wastes, as defined in 23 California Code of Regulations, Section 2522, and special handling waste generated by industrial facilities or processes, but shall not include “hazardous waste” as defined herein. Special wastes shall include asbestos, sewage sludge, water treatment sludge, drilling mud, grease waste, contaminated soils, shredder waste, agricultural waste, filter cake/dewatered sludge, spent catalyst fines, refinery ash and byproducts; except where any such wastes are deemed to be hazardous waste.

“Tier one commercial edible food generator” means a supermarket with gross annual sales of $2,000,000 or more, grocery store with a total facility size equal or greater to 10,000 square feet, food service provider, food distributor, or wholesale food vendor, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

“Tier two commercial edible food generator” means a restaurant with 250 or more seats or a total facility size equal or greater than 5,000 square feet, hotel with an on-site food facility and 200 or more rooms, health facility with an on-site food facility and 100 or more beds, large venue, large event, state agency with a cafeteria with 250 or more seats or total facility size equal to or greater than 5,000 square feet, and local education agency with an on-site food facility, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

“Transfer station” means those facilities, franchised by the city of South Lake Tahoe pursuant to this chapter, utilized to receive solid waste or recyclable material, temporarily store, separate, convert, or otherwise process the materials in solid wastes or to transfer the solid wastes directly from smaller to larger vehicles for transport.

“Yard trimmings” means a type of organic waste including green trimmings, grass, weeds, leaves, prunings, branches, dead plants, brush, tree trimmings, dead trees, small pieces of unpainted and untreated wood, and other types of organic waste resulting from normal yard and landscaping maintenance.

**4.150.020 Purpose and intent of chapter.**

The city council, after several public discussions and hearings, makes the following findings of fact, thereby declaring its purpose:

A. A substantial portion of the homes, apartments and other residential units within the city are owned by nonresidents.

B. A substantial portion of the residential units are occupied for short periods by persons on vacations.

C. The owners or occupiers of many residential units have not made arrangements for the collection of discarded materials.

D. Discarded material from such residential units either:

1. Accumulates at such premises;

2. Is deposited in the streets or upon private or public property within the city; or

3. Is disposed of by depositing it in containers of other persons within the city. Any of such methods of disposal creates and constitutes a nuisance.

E. Many residents of the city who do not arrange for collection of discarded materials often allow discarded materials to accumulate for long periods of time and thereby create a nuisance.

F. The public health, safety and welfare of the citizens of and visitors to the city require that the accumulation, collection, removal and disposal of discarded materials from residential units within the city must be handled in a manner for the greatest good and least possible inconvenience, cost and maintenance to the city and the citizens thereof.

G. The periodic collection, removal and disposal of discarded materials from all residential units within the city benefits all owners, occupants or persons in possession, charge or control of all such units where such accumulates and requires removal therefrom on a regular periodic basis; and that all such owners, occupants or persons in possession, charge or control of all such units within the city should be made liable for the payment of the fees for such collection, removal and disposal irrespective of the actual use of the discarded materials collection services provided by the city.

H. Multiresidential units and commercial businesses within the city, including motels and hotels, need to provide adequate removal of discarded materials so as to fully comply with health codes and other governmental regulations.

**4.150.025 Appeals.**
An appeal from any determination made pursuant to the provisions of this chapter may be appealed pursuant to Chapter 2.35 SLTCC.

## Article II. Collection and Disposal Services

**4.150.030 Provision for and supervision by city.**
The city shall provide for the collection and disposal or processing of discarded materials from all premises required to be served within the city. Such provision may be made either by letting a contract for such collection and removal or otherwise. The city or, if collection and removal services are contracted for, the franchisee, shall have charge and supervision of such collection and removal and shall prescribe and establish routes and days for collection of discarded materials from the various parts of the city so as to conform to the provisions of this chapter and may change the same from time to time. When such routes or days of collection are established or changed, not less than 10 days prior to the effect of such change, notice thereof shall be given to all parties concerned.

**4.150.040 Persons authorized to collect, dispose of, and process discarded materials.**
The city and its duly authorized agents, servants and employees of any franchisee with whom the city may at any time enter into a contract therefor, and the agents, servants and employees of franchisee, while any such contract shall be in force, shall have the exclusive right and obligation to collect and dispose of or process discarded materials from all premises in the city.

This chapter shall not prohibit anyone licensed to do business in the city of South Lake Tahoe, during the course of performing the contracted duties, from collecting and disposing of C&D from a job upon which they are working in compliance with all applicable laws, ordinances and regulations then in effect. Individuals may not enter into a contract with anyone other than the city's duly authorized agents for the collection, disposal, and/or processing of discarded materials from premises within the city. This does not preclude individuals or businesses from legally disposing of discarded materials from their own properties or properties which they manage pursuant to contract.

## Article III. Collection and Disposal Requirements and Standards

### Division 1. Generally

**4.150.080 Vehicles used to transport discarded materials.**
A. Every vehicle used for the collection, removal or transportation of discarded materials and C&D shall be so designed and equipped as to prevent the escape or loss of any refuse, rubbish and debris while being transported. Whenever discarded materials or C&D is transported in an unenclosed vehicle, the container shall be so designed and equipped as to prevent the escape or loss of any such discarded materials or C&D while being so transported. Loads of tree trimmings, bushes or shrubs may be transported in open-bodied vehicles provided the material be securely tied in place to prevent scattering along the streets and alleys. Tree limbs shall be confined within the limits of the vehicle bed and shall not extend over the sides or extend beyond the tailgate of the vehicle.

B. It shall be unlawful for any person authorized to collect discarded materials or C&D to maintain any collecting vehicle in an unclean, filthy or leaky condition or to keep such vehicle standing in any street

or alley of the city longer than necessary for the actual work of collection or to conduct collection or removal in any but a sanitary manner and by sanitary methods.

**4.150.090 Collection and disposal – Duty of owner or occupant.**
Each person owning improved premises in the city, and each person occupying or having charge or control of improved premises in the city shall, in accordance with the terms of this chapter and all applicable state and federal regulations, make available for collection and disposal, or if a nonresidential commercial business provide legal access to collection and disposal of all discarded material which has accumulated on such premises, on the appointed day and at the appointed time, except where weather conditions prevent such collection and disposal.

**4.150.100 Collection and disposal – Contract for service.**
For services outside the provisions of this chapter, individuals or businesses may contract with the city or the city's franchisee; provided, such services shall be offered and accepted according to the rate schedule applicable thereto.

**4.150.110 Residential containers.**
Each person owning a residential unit up to and including a fourplex, and each person occupying or having charge or control of such premises, shall have the obligation to contract for collection service for each and every unit of property and provide for collection and disposal of all discarded materials originating upon such premises in three carts for each residential unit to include one cart each for solid waste, source-separated recyclables, and yard trimmings. Owners or occupants may request an additional cart for solid waste for an additional charge. Residential units may share carts for recyclables and yard trimmings so long as both residential units have solid waste carts. Residential units that have bear boxes existing as of August 22, 2023, may elect to continue to use a customer owned container to be serviced from the bear box instead of a cart for solid waste.

Each owner shall place and/or direct its tenants to place source-separated recyclable materials in the applicable container; place yard trimmings in the applicable container; and place solid waste in the applicable container; and shall not place prohibited container contaminants in containers and not place materials designated for the yard trimmings or recyclable materials containers in the solid waste containers.

Bulky items shall be collected at additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside on the arranged day of collection at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for collection, and shall be removed from public view by 6:00 p.m. on the day designated for collection, unless containers are housed in approved shelters. In the event a bulky item is placed in view of the general public without scheduled collection, the city manager or the county health officer shall order the franchisee to collect said item at the property owner's expense.

Customers may exercise the option to deliver such bulky items directly to the transfer station at transfer station rates, or otherwise properly dispose of such bulky items.

**4.150.120 Multiresidential containers.**
Each person owning, or having charge or control of, a multiresidential property of five units or greater shall place for collection and disposal all discarded materials originating on such premises in a suitable container or containers, and may elect to be serviced either with residential containers as described in SLTCC 4.150.110 or commercial containers as described in SLTCC 150.130.

Bulky items shall be collected at an additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside at the property line adjacent

to a public street no earlier than 6:00 p.m. of the day prior to the day designated for collection, and shall be removed from public view by 6:00 p.m. on the day designated for collection, unless containers are housed in approved shelters on the arranged day of collection. In the event a bulky item is placed in view of the general public without scheduled collection, the city manager or the county health officer shall order the franchisee to collect said item at the property owner's expense. Customers may exercise the option to deliver such bulky items directly to the transfer station at transfer station rates, or otherwise properly dispose of such bulky items.

**4.150.130 Commercial containers.**

Each person owning, or having charge or control of, a commercial premises shall place for collection and disposal all discarded materials originating on such premises in a suitable container or containers consisting of either carts for solid waste and recyclables and a bin for organic waste, or one or more compactors sufficient to accommodate the type and amount of discarded materials generated at such commercial establishment. Lids must remain closed at all times, except when discarded materials are being added or removed from the container. Size of container and frequency of collection shall be determined by the type and amount of discarded materials generated, so that collection occurs as often as good sanitary practice and applicable state and federal law require.

Frequency of collection shall be at least once per week for commercial establishments generating food waste. Collection for commercial establishments not generating food waste shall be either regularly scheduled or on an as-needed basis, unless as-needed collection is determined by the city manager or the county health officer to constitute a health hazard. Contents of the container shall not extend above the rim of the container.

Bulky items shall be collected at an additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside at the property line adjacent to public street no earlier than 6:00 p.m. of the day prior to the day designated for collection, and shall be removed from public view by 6:00 p.m. on the day designated for collection, unless containers are housed in approved shelters on the arranged day of collection. In the event a bulky item is placed in view of the general public without scheduled collection, the city manager or the county health officer shall order the franchisee to collect said item at the property owner's expense.

Customers may exercise the option to deliver bulky items directly to the transfer station for transfer station rates, or properly dispose of such bulky items.

**4.150.140 Determination of sufficient container size/collection frequency.**

In the event a multiresidential or commercial property is determined to constitute a nuisance because of blowing debris originating from the container, or the container is determined to be insufficient to contain discarded materials generated, or is determined to be a hazard to the public health or is otherwise in violation of health codes, the city manager or the county health officer may order a change in the size of container, and/or increase the frequency of collection, as well as any other alternatives set forth in SLTCC 4.150.150(A) through (I), at the expense of the person owning or having charge or control of said property.

**4.150.150 Mandatory collection for repeat offenders (commercial and residential).**

No person owning or possessing any multiresidential dwelling or owning or possessing any single-family dwelling, or industrial, commercial or business premises or structure, shall allow or permit any excess discarded materials, rubbish, or waste to collect and accumulate upon or in the premises or structure in a manner that creates a nuisance.

During intervals between collection or disposal, the storage, accumulation, collection, keeping, handling or maintaining of discarded materials on premises where produced shall be performed in

such a manner as to prevent the harboring and breeding of rodents, insects and other vermin and to take adequate precautions to prevent ready access to the waste by animals; as to prevent objectionable odors in the ambient air; as not to constitute a fire hazard; and as not to result in such unsightliness as to result in the depreciation of value of adjacent property or the comfortable enjoyment of life thereon.

If the city manager finds and determines that during the intervals between collection or disposal, accumulation of discarded materials results in a nuisance and thus is contrary to the public health and welfare of the city, and/or the property owner has failed to adequately provide for appropriate collection and/or storage pursuant to this chapter, mandatory commercial or increased residential collection service shall be imposed for minimum of one year. Further, the city manager may impose one or more of the following corrective enforcement actions for a minimum of one year:

A. Increasing the size of the container;

B. Increasing the frequency of collection service;

C. Ordering the removal of trailers, pickup trucks, dump trucks and storage containers under the nuisance abatement procedure pursuant to Chapter 4.40 SLTCC;

D. Mandating safety-approved dumpsters with tight-fitting lids;

E. Mandating dumpster “skirting” for containers;

F. Mandating relocation of dumpster;

G. Mandating “controlled access” lids to prevent animal disturbances;

H. Mandating bear-proof containers for repeat violators of single-family residences and multiresidential properties not using safety-approved dumpsters; and/or

I. Any other enforcement action deemed reasonable and appropriate by the city manager.

**4.150.160 Mandatory multiplier for repeat offenders.**
The collection of discarded materials from all hotels, hotel/resorts, motels, motels converted to residential units, inns, time-share condominiums and motor inns may be based upon a motel multiplier of 0.10 cubic yards, per motel unit, per week to determine a minimum level of collection service.

The collection of discarded materials from all multiresidential units may be based upon a multiresidential multiplier of 0.40 cubic yards, per residential unit, per week to determine a minimum level of collection service.

Nothing in this section is intended to prevent any arrangement, or the continuance of an existing arrangement, under which payments to the franchisee for collection service are made by a tenant or tenants, or any agent, on behalf of the owner. However, any such arrangement will not affect the owner’s obligation as provided herein.

**4.150.170 Frequency of disposal.**
Collection of solid waste shall be made at least once a week from single-family residences and multiresidential units, or as many times per week as the city manager may order.

No more than one week’s accumulation of solid waste or food waste shall be kept or permitted to remain upon any commercial premises in the city.

At the minimum, there shall be at least one collection per week from restaurants; cafes; diners; hamburger stands; coffee shops; coffee houses; fast food places; grocery stores; vegetable, meat, poultry or fish markets, or fresh drink stands; and any other commercial establishment generating food waste.

**4.150.180 Storage.**
No person shall store discarded materials in trucks, trailers, vans, delivery wagons, pickup trucks, truck trailers or dump trucks, or any other unapproved storage containers for more than 48 hours.

**4.150.190 Bulky items.**
All bulky items (nonhazardous) left at curbside will be picked up by the franchisee during regularly scheduled route days and the account holder will be billed accordingly.

**4.150.200 Exception – Vacant establishments.**
The owner or person in possession, charge or control of any commercial establishment shall not be required to subscribe to services provided by a franchisee during such periods as the establishment is vacant and not generating or accumulating discarded materials. Nor shall commercial establishments in residential units with a business license be subject to additional mandatory commercial collection.

**4.150.210 Placement of residential containers for collection purposes.**
Suitable containers for residential service, up to and including a fourplex, shall be placed in such a manner as not to be readily visible from public streets; provided, that during the time fixed for collection from the premises, containers shall be placed for collection as follows:

A. Carts and customer owned containers shall be placed at the property line adjacent to a public street no earlier than 6:00 a.m. on the day designated for collection, and shall be removed from public view by 6:00 p.m. on the day designated for collection, except for approved customer owned containers which may remain in a bear box for solid waste collection. During snow removal conditions, franchisee is only required to service bear boxes where a direct path of access at least 36 inches wide has been cleared of snow from the public street to the bear box.B. During snow removal conditions, franchisee shall return of containers to a location 10 feet outside of the right-of-way to avoid interference with or damage from city snow removal operations, so long as a path of access at least 36 inches wide has been cleared of snow from the public street to a point 10 feet outside of the right-of-way.

C. During snow removal conditions, customers shall provide a clear path for the return of containers to a point 10 feet outside of the right-of way.

D. Shelter or housing for containers shall not be constructed or installed until approved by the city planning division.

**4.150.220 Placement of commercial containers for collection purposes.**
Suitable containers for commercial service, other than safety-approved dumpsters, shall be placed in such a manner as not to be readily visible from public streets; provided, that during the time fixed for collection from the premises, containers are placed for collection in such a manner as previously approved by franchisee.

Commercial containers shall be placed at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for collection, and shall be removed from public view by 6:00 p.m. on the day designated for collection, unless containers are housed in approved shelters. Franchisee personnel shall be responsible for the return of containers to the front property line.

During  snow removal conditions, customer shall provide and maintain a clear path for the retrieval and return of containers to a point 10 feet outside of the right-of-way. Shelter or housing for commercial dumpsters shall not be constructed or installed until approved by the city planning division.

Containers which have become so damaged as to be no longer suitable for use, which no longer have tight-fitting lids, and are so designated by franchisee, the city manager, or the county health officer shall be replaced by the resident and/or business owner with a suitable container.

**4.150.230 Placement of multiresidential containers for collection purposes.**
Multiresidential premises of five units or greater shall comply with either SLTCC 4.150.210 or 4.150.220, depending on whether the owner has elected to use residential containers or commercial containers.

**4.150.240 Removal of containers from public view.**
All residential, including multiresidential, and commercial containers, other than safety-approved dumpsters, shall be removed from public view not later than 6:00 p.m. on the appointed day of collection; provided, however, that containers within shelters or housing approved in accordance with SLTCC 4.150.210(D) shall be within such shelters or housing not later than 6:00 p.m. on the appointed day of collection.

**4.150.250 Owner's responsibility for other refuse.**
The collection and disposal of any refuse which is excepted from collection and disposal by franchisee shall be the sole responsibility of the owner upon whose property such refuse originates. The owner will not leave such refuse at the front property line or in such a manner as to be readily visible from the public street.

**4.150.260 Standards and responsibilities regarding dumpsters.**
A. Standards. The American National Standard Safety Requirements for the Stability of Refuse Bins (hereinafter known as Standards) is hereby adopted and incorporated in the South Lake Tahoe city code by reference. A full and complete copy of the requirements is on file in the South Lake Tahoe city clerk's office and in the business office of South Tahoe Refuse Company located at 2140 Ruth Avenue, South Lake Tahoe, CA.

B. Responsibilities. The following responsibilities shall apply:

1. Manufacturer Responsibility. It shall be the responsibility of the manufacturer of refuse bins to design and construct newly manufactured refuse bins in conformance with Sections 3 and 5 of the Standards.

Newly manufactured refuse bins shall have a permanent identification of the name of the manufacturer and either the date of manufacture or a code traceable to the date of manufacture.

A statement attesting to compliance with this standard shall also be provided on the permanent identification.

The manufacturer of refuse bins shall inform purchasers of the refuse bins of the applicable requirements of this standard.

2. Retrofitter Responsibility. It shall be the responsibility of persons who retrofit or modify refuse bins to modify or reconstruct in-service bins in conformance with Sections 3 and 5 of the Standards.

3. Owner Responsibility. It shall be the responsibility of the owner of refuse bins to ensure that refuse bins are modified or retrofitted to meet the requirements of the Standards.

It shall be the responsibility of the owner of refuse bins to ensure that the only refuse bins that are in conformance with Sections 3 and 5 of the Standards are used.

The owner of refuse bins shall inform the customer of necessary safety precautions and requirements associated with the use of the bins including, but not limited to, the requirements specified in subsections (B)(3)(a) through (d) of this section:

a. Refuse bins shall be placed on a hard, level, weather-resistant surface.

b. Refuse bins shall be loaded uniformly, with no refuse extending beyond the internal volume of the bin.

c. All safety features for stability shall be used, such as fasteners (where required) to secure the refuse bin to a stationary object.

d. The customer shall inform the owner of the refuse bins of any damage, defect or malfunction of the refuse bin.

The owners shall train their employees in the use, handling and placement of refuse bins so as to be in conformance with the requirements of these Standards.

4. Franchisee Responsibility. The franchisee shall train its employees in the use, handling and placement of refuse bins so as to be in conformance with the requirements of these Standards. The franchisee shall inform the owner of the refuse bins of any damage, defect or malfunction of the refuse bin.

5. Franchisee Employee Responsibility. The employee of the franchisee shall return the refuse bins to their original location after unloading. If the location of the refuse bins is not a hard, level, weather-resistant surface, the employee of the franchisee shall notify the customer and the owner.

6. Customer Responsibility. The customer shall be responsible for ensuring that a hard, level, weather-resistant surface is provided for the placement of refuse bins.

The customer shall ensure that refuse bins used are placed on the customer’s premises in conformance with the applicable requirements of the Standards.

## Division 2. Residential Units and Commercial Establishments

### 4.150.270 Required use of authorized collection.

Each person owning one or more improved residential units or commercial premises in the city, and each person occupying or having charge or control of improved residential or commercial premises in the city, shall make available for collection, not less than once each week on the appointed day and at the appointed time, all discarded material which has accumulated on such premises. Each person who is an owner, occupant or person in possession, charge or control of a parcel of property upon which there exists a residential unit or commercial enterprise shall subscribe to and use, and shall dispose of all discarded material through, the regular collection and disposal service of the city or its authorized franchisee.

**4.150.280 Access to receptacles for collection purposes.**
Each person required by the provisions of this chapter to accept mandatory collection and disposal services shall provide reasonable access to containers on the appointed day of collection. Periods of inclement weather shall not excuse any such person from affording such reasonable access to containers.

**4.150.300 Liability for payment of fees.**
Each owner, occupant or person in possession, charge or control of a parcel of property upon which there exists a residential unit or commercial enterprise within the city is hereby made liable for the payment of the collection fees levied against such premises for required collection services, irrespective of the actual use of the collection services provided by the city or its authorized franchisee. Services made available to those premises required to receive such services shall be considered as services utilized. It shall be the duty of the owner of such premises to provide for payment of the collection fees. It shall be the duty of the franchisee to bill separately each residential unit.

Nothing in this section shall prevent an arrangement for the continuance of an existing arrangement under which payments of collection fees are made by a tenant or tenants or any agent on behalf of the owner. Any such arrangement will not affect the owner's obligation to the city or its authorized franchisee.

**4.150.310 Billing and collection – Discounts – Penalty for delinquent payments.**
Collection fees shall be billed and paid in advance on a monthly, bi-monthly, or quarterly basis. Payment shall be due upon, and shall become delinquent after, the fifteenth day following the date of billing. Notwithstanding the above, each person who receives a bill for quarterly service shall have the option of paying for service through the end of the year billed.

A finance charge of one and one-half percent of the amount of the fee shall be added at the end of each month following the delinquency date.

**4.150.320 Fee a civil debt.**
The collection fee shall be a civil debt owed by the owner, occupant or person in possession, charge or control of the real property and/or structures of a residential unit or commercial enterprise. In the event that any civil action to enforce the collection of the collection fee is brought in any court, the prevailing party shall be entitled to reasonable attorney's fees to be determined by the court. The prevailing party shall be the party in whose favor final judgment is entered.

**4.150.330 Mandatory collection areas.**
A mandatory collection area is established and shall consist of the current incorporated city limits of the city of South Lake Tahoe within the Lake Tahoe basin, county of El Dorado, state of California.

**4.150.340 Liability for payment of fees – Mandatory collection.**
Each owner, occupant or person in possession, charge or control of any collection premises located in a mandatory collection area is hereby made liable jointly and severally for the payments of the solid waste collection, processing and disposal fees levied against such premises for required solid waste collection, processing and disposal services, irrespective of the actual use of the service provided by the district or grantee. Services made available to those premises required to receive service shall be considered as services utilized. It shall be the duty of the owner of such premises to provide for the payment of the services.

**4.150.350 Billing cycle and penalty for delinquent payments.**
Solid waste collection fees may be billed and paid in advance on a monthly, bi-monthly, or quarterly basis. Payment shall be due upon, and shall become delinquent 15 days after, the date of any billing. A finance charge and late payment penalty as permitted by law shall be added at the end of each month following the delinquency date.

**4.150.360 Discontinuation of service.**
The city may direct the franchisee to discontinue service for any customer whose account remains unpaid for 60 days after the date of billing as long as the customer has received a notice on a form approved by the city manager or his/her designee stating that service will be discontinued 15 days from the date of the notice if payment is not made by that time. Upon payment of the delinquent fees, collection shall resume on the next regularly scheduled collection day. Fees shall continue to be assessed and billed notwithstanding that service has been discontinued and notice of same shall be included in the form sent to the customer.

**4.150.370 Lien for 180-day delinquencies.**
Mandatory collection fees authorized pursuant to these articles, which remain unpaid for a period of 180 days or more, after the date upon which they were billed, may be collected thereafter by the franchisee as provided herein.

A. Once a year the franchisee shall cause to be prepared a report of delinquent fees. The city planning commission shall fix a time, date and place for a public hearing for the report and any objections or protests thereto.

B. The commission shall cause notice of the hearing to be mailed, by certified mail, return receipt requested to the landowners listed on the report as well as publication of notice of the hearing in a newspaper of general circulation as well as posted pursuant to law not less than 30 days prior to the date of the hearing.

C. At the hearing, the commission shall hear any objections or protests of landowners liable for delinquent fees. The commission may make such revisions or corrections to the report as is deemed just and thereafter the report shall be forwarded to the city council for confirmation. Notice of the hearing to confirm the report shall be mailed to the landowners listed on the report.

D. The delinquent fees set forth in the report as confirmed shall constitute a special assessment against the respective parcels of land and are a lien of the property for such delinquent fees. A certified copy of the confirmed report shall be filed with the county auditor and/or county recorder’s office on or before August 10th, for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation of the office of the county recorder of the county in which the property is situated with a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes. All laws applicable to the levy, collection and enforcement of ad valorem property taxes shall be applicable to such lien, except that if the real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide purchaser for value has been created and attaches thereon, prior to the date on which the first installment of such taxes should become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquency fees, as confirmed relating to such property, shall be transferred to the unsecured roll for collection or a private collection agency.

**4.150.390 Exemptions.**

A. The provisions of this article shall not apply to any of residential units or commercial enterprises which are not connected to water and electric power and where water or electric power cannot be provided to such premises without action by a public utility or mutual water company; provided, that such exemption shall terminate upon reconnection of water and electric power.

B. Provisions of this article shall not apply to any commercial enterprise which fully suspends its operation due to the seasonal nature of its particular business.

C. Provisions of this article shall not apply to any home business which operates fully out of a residential property, complies with business license requirements and does not exceed residential discarded material limitations.

D. Exemption from the mandatory collection may be granted to nonresidential and non-food-producing businesses which submit a waste management plan to the city analyzing the business waste stream, and documenting: (1) the ability to recycle or reuse more than 50 percent of that waste stream; (2) the ability to source separate organic waste from other waste and either recycle its organic waste on site or self-haul its own organic waste for recycling. Any business that received an exemption from mandatory collection under this subsection (D) prior to January 1, 2022, and desires to maintain its exemption from mandatory collection shall submit a new request to the city containing the information required by this subsection prior to January 31, 2022.

Any person claiming an exemption pursuant to subsection (A) or (B) of this section shall file a statement under oath or under penalty of perjury with the city removal franchisee stating the facts upon which exemption is claimed and, in the absence of such statement substantiating the claim, such person shall be liable for the payment of the collection fees required by this article.

The removal franchisee, after giving notice of not less than 10 days and a reasonable opportunity for hearing to any person claiming an exemption pursuant to this section, may revoke any exemption granted upon information that the person is not entitled to the exemption as provided herein.

## Article IV. Prohibited Acts and Enforcement

**4.150.400 Collection or disposal by unauthorized persons.**

No person, other than those persons permitted by the terms of this chapter, shall collect, dispose of, or process discarded materials, for commercial gain, in, along or over any public street, alley or highway in the city. No two or more owners of separate properties shall organize to jointly or collectively remove discarded materials from their respective properties.

**4.150.410 Placement of discarded materials in receptacle or upon land of another.**

No person shall place discarded materials upon the land of another, or in the container of another, or upon premises other than those from which the discarded materials originated, for the purpose of making such discarded materials available for collection and disposal. This section shall not prohibit the deposit of discarded materials at a duly permitted transfer station.

**4.150.420 Placement of containers on vacant lots.**

No person shall place a container, including dumpsters, upon a vacant lot or any site from which the discarded material was not originally generated. This includes property owned, leased, or rented by the person generating the discarded material.

**4.150.430 Placement for collection of items other than discarded materials.**
No person shall place for collection and disposal, or place in public view, any item other than discarded materials or bulky items.

Neither the city, nor its authorized franchisee, shall collect or dispose of any item other than discarded materials or bulky items; provided, that this section shall not prohibit the deposit and disposal of any item at a duly permitted transfer station.

**4.150.440 Littering public or private property.**
No person shall throw, place, scatter, dump or otherwise deposit any refuse or other waste in or upon the private property of another. No person shall throw, place, scatter, dump or otherwise deposit any refuse or other waste in or upon any public property.

**4.150.450 Burning refuse.**
No person shall burn refuse within the city unless such act complies with all applicable laws of each and every jurisdictional agency.

**4.150.460 Rendering of fat, distillation of bones, etc.**
No person shall render any meat, grease, fat, offal, bones, animals, animal parts, animal substances, garbage, fish or parts of fish, or distill bones or reduce refuse, offal or dead animals or operate or conduct any plant or establishment for the distillation of bones, or the rendering of fat, or further reduction of refuse, offal or dead animals.

**4.150.470 Bringing discarded materials into the city.**
No person shall bring into or cause to be brought into the city any discarded materials or receive or possess any discarded materials brought into the city from beyond the city limits; provided, that the provisions of this section shall not apply to discarded materials being transported directly to, and received at, a duly permitted transfer station.

**4.150.480 Storing of discarded materials inside buildings.**
No person shall keep or maintain any discarded materials inside any building in violation of any provision of law.

**4.150.490 Connection of water or electrical services prior to issuance of permit.**
No person shall connect or cause to be connected to any residential unit not then receiving such services any water or electrical service without first obtaining from the city manager a permit therefor. Such permit shall be issued by the city manager upon request of any person without fee. Collection fees shall be charged for service to such residential unit upon the issuance of such a permit or occupancy of such unit, whichever first occurs. The sole purpose of the permit required by this section is to advise the city manager that the residential unit should be charged collection fees, and such permit shall not authorize the connection of any water or electrical services to any premises in violation of any other provision of law.

**4.150.500 Disclosure required upon sale of real property.**
No person shall sell, or act as an agent for the purpose of selling, any parcel of real property without first disclosing, in writing, the amount or amounts, if any, of unpaid collection fees due and owing for collection services made available to such parcel of real property.

**4.150.505 Compliance inspections.**
The city or its agent may enter a commercial premises or common areas of a multiresidential property of five or more units to conduct a compliance inspection of any collection container or collection vehicle load, and may enter a transfer, processing, or disposal facility to conduct a compliance

inspection. Compliance inspections may be performed without prior notice during normal business hours.

**4.150.510 Violations of chapter declared a nuisance.**
All violations of any portion of this chapter are hereby declared to be a nuisance and may be abated as such in the manner provided by law. Additionally and alternatively, violations of any portion of this chapter are subject to administrative citations and fines under Chapter 2.30 SLTCC.

## Article V. Recycling Regulations

### Division 1. Generally

**4.150.520 Purpose and intent of article.**
The purpose and intent of this article is to establish by ordinance:

A. The goal of recycling at least 50 percent, by weight, of the city of South Lake Tahoe's waste;

B. To require that the city of South Lake Tahoe develop and maintain a substantial, comprehensive, coordinated, and integrated recycling system for the efficient, cost-effective and environmentally sound disposal of waste;

C. To require the development and implementation of a solid waste management plan for the city of South Lake Tahoe;

D. To help preserve the quality of the environment for city of South Lake Tahoe residents by preserving resources, conserving energy, and reducing waste;

E. To improve the city of South Lake Tahoe's economy by creating useful and rewarding jobs for its residents; and

F. To protect and promote the health, safety, and well-being of the city of South Lake Tahoe residents.

**4.150.530 Collection of discarded materials by other than exclusive franchisee prohibited.**
No hauler or disposal company other than franchisee or its appropriately authorized designee shall in any way collect discarded materials from any location within the city limits.

**4.150.540 Removal of recyclable materials from existing state-authorized buyback centers prohibited.**
No individual, company or entity other than franchisee, or its authorized designee, shall be authorized to remove recyclable materials from any state-authorized buyback center. Said locations, for purposes of clarity of this regulation, are identified as follows:

Ruth Avenue Recycling Center.

Nothing in this section shall be construed to limit any individual, company or entity other than franchisee from developing additional recycling sites; provided applicable zoning, building, fire and other requirements of local and state regulatory agencies are met.

**4.150.610 Development of materials recovery facility prohibited.**
No person, company or entity shall develop or create any type of materials recovery facility (MRF) without review and approval by the city council to ensure consistency with the county integrated waste management plan during the term the ordinance codified in this chapter remains in effect.

## Division 2. Recycling Organic Waste

### 4.150.620 Requirements for residential organic waste recycling.

A. Owners and occupants of single-family units and multiresidential properties of four or less units shall:

1. Subscribe to the city's organic waste collection service for organic waste generated, except for food waste and food-soiled paper; and

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container in accordance with SLTCC 4.150.110.

B. Owners of multiresidential properties of five or more units who have not received a de minimis waiver or physical space waiver shall:

1. Subscribe to the city's organic waste collection service;

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container in accordance with SLTCC 4.150.120;

3. Annually provide information to tenants about organic waste recovery requirements and about proper sorting of organic waste;

4. Provide educational information within 14 days of occupation of the premises to new tenants that describes requirements to keep organic waste separated and the location of containers and the rules governing their use at the property; and

5. Provide access for the city or its agent to the property during all inspections conducted under SLTCC 4.150.505 to confirm compliance with the requirements of this division.

C. De Minimis Waiver.

1. Owners of multiresidential properties of five or more units may request a de minimis waiver from some or all of the requirements of this section by submitting the following information:

a. The requirements requested to be waived;

b. Documentation that either: (a) the multiresidential property's total solid waste collection service is two cubic yards or more per week and source separated organic waste subject to collection comprises less than 20 gallons per week; or (b) the multiresidential property's total solid waste collection service is less than two cubic yards per week and source separated organic waste subject to collection comprises less than 10 gallons per week.

2. A de minimis waiver granted by the city will be effective for five years unless circumstances change such that the thresholds are exceeded, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in this subsection (C).

D. Physical Space Waiver.

1. Owners of multiresidential properties of five or more units may request a physical space waiver from some or all of the requirements of this section by submitting documentation from the franchisee, a licensed architect, or a licensed engineer demonstrating that the premises lacks adequate space for the organic waste container that would otherwise be required.

2. The city manager may grant a physical space waiver based on the information submitted in addition to any evidence from city staff justifying the waiver. A physical space waiver granted by the city will be effective for five years unless the portion of the premises where containers are stored is reconfigured, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in subsection (D)(1).

**4.150.630 Requirements for commercial organic waste recycling.**

A. Owners and operators of commercial businesses generating more than two cubic yards of solid waste per week and have not received a physical space waiver shall arrange for organic waste recycling services, including food waste, consisting of at least one of the following:

1. Source separating organic waste from other waste and subscribing to a basic level of organic waste recycling services that includes collection and recycling of organic waste, including food waste;

2. Recycling organic waste on site or self-hauling organic waste, including food waste, for recycling; or

3. Subscribing to an organic waste recycling service that may include mixed waste processing that specifically recycles organic waste, including food waste; and

4. For owners and operators of commercial businesses complying with this subsection (A) through means other than subscribing to an organic waste recycling service provided by the city's franchisee, an annual report shall be provided to the city by October 1st of each year to certify compliance through on-site recycling or self-hauling. Annual reports shall include the following information for the preceding 12-month period of June 30th to July 1st:

a. The name of the owner and operator for the commercial business;

b. The name and address for the commercial business; and

c. The volume in cubic yards or gallons, measured by the size of the containers in use, of organic waste recycled on site, through self-hauling including the destination(s), or by other means.

B. In addition to the applicable requirements of subsection (A) of this section, owners and operators of commercial businesses not granted an exemption from mandatory collection under SLTCC 4.150.390 and who have not received a de minimis waiver or physical space waiver shall:

1. Subscribe to the city's organic waste collection service;

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container for collection;

3. Provide labeled containers for the collection of organic waste, except for food waste and food-soiled paper, if any is generated by the business or its customers, in all indoor and outdoor areas where disposal containers are provided for customers, except in restrooms;

4. Prohibit employees from placing materials in a container not designated for those materials, to the extent practical through measures such as education, training, and inspection;

5. Periodically inspect the organic waste container for contamination and take corrective measures when contamination is found including reminding employees not to place materials in a container not designated for those materials;

6. Annually provide information to employees, contractors, tenants, and customers about organic waste recovery requirements and about proper sorting of organic waste;

7. Provide education information before or within 14 days of occupation of the premises to new tenants that describes requirements to keep organic waste materials, except for food waste, separated and the location of containers and the rules governing their use; and

8. Provide access to the city or its agent to its properties during all inspections conducted under SLTCC 4.150.505 to confirm compliance with the requirements of this division.

C. In addition to the applicable requirements of subsections (A) and (B) of this section, owners and operators of tier one commercial edible food generators shall:

1. Arrange to recover the maximum amount of edible food that would otherwise be disposed;

2. Contract with food recovery organizations or food recovery services for collection or acceptance of self-hauled edible food for food recovery;

3. Allow the city or agent to access the premises and review records pursuant to Section 18991.4 of Title 14 of the California Code of Regulations, as may be amended from time to time; and

4. Keep records that include the following information as required by Section 18991.4 of Title 14 of the California Code of Regulations, as may be amended from time to time:

a. A list of each food recovery service or organization that collects or receives the generator’s edible food pursuant to contract;

b. A copy of all such contracts;

c. A record of the following information for each contracted food recovery service or food recovery organization:

i. Name, address, and contact information;

ii. Types of food that will be collected or self-hauled;

iii. Established frequency that food will be collected or self-hauled; and

iv. Quantity of food, measured in pounds recovered per month, collected or self-hauled.

D. Commencing on January 1, 2024, owners and operators of tier two commercial edible food generators shall:

1. Comply with the requirements for tier one commercial edible food generators in this section; and

2. For large venue or large event operators not providing food services, but allowing for food to be provided by others, require food facilities operating at the large venue or large event to comply with the requirements for tier one commercial edible food generators in this section.

E. De Minimis Waiver.

1. Owners and operators of commercial businesses may request a de minimis waiver from some or all of the requirements subsections (A) and (B) of this section by submitting the following information:

a. The requirements requested to be waived;

b. Documentation that either: (a) the commercial business's total solid waste collection service is two cubic yards or more per week and source separated organic waste subject to collection comprises less than 20 gallons per week; or (b) the commercial business's total solid waste collection service is less than two cubic yards per week and source separated organic waste subject to collection comprises less than 10 gallons per week.

2. A de minimis waiver granted by the city will be effective for five years unless circumstances change such that the thresholds are exceeded, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in this subsection (E).

F. Physical Space Waiver.

1. Owners and operators of commercial businesses may request a physical space waiver from some or all of the requirements of subsections (A) and (B) of this section by submitting documentation from the franchisee, a licensed architect, or a licensed engineer demonstrating that the premises lacks adequate space for the organic waste container that would otherwise be required.

2. The city manager may grant a physical space waiver based on the information submitted in addition to any evidence from city staff justifying the waiver. A physical space waiver granted by the city will be effective for five years unless the portion of the premises where containers are stored is reconfigured, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in subsection (F)(1).

**4.150.640 Requirements for food recovery organizations and services.**

A. Owners and operators of food recovery services maintaining their principal place of business within the city and having a contract with commercial edible food generators to collect or receive edible food directly shall:

1. Report to the city the total pounds of edible food recovered for the previous calendar year from tier one and tier two commercial edible food generators with which the food recovery service has contracted, no later than October 1st of each year for the preceding 12-month period of June 30th to July 1st; and

2. Maintain the following records:

a. Name, address, and contact information for each commercial food generator from which edible food is collected;

b. Quantity, measured in pounds per month, of edible food collected from each commercial edible food generator;

c. Quantity, measured in pounds per month, of edible food transported to each food recovery organization; and

d. Name, address, and contact information for each food recovery organization to which the food recovery service transports edible food.

B. Owners and operators of food recovery organizations maintaining their principal place of business within the city and having a contract to collect or receive edible food directly shall:

1. Report to the city the total pounds of edible food recovered for the previous calendar year from tier one and tier two commercial edible food generators with which the food recovery service has contracted, no later than October 1st of each year for the preceding 12-month period of June 30th to July 1st; and

2. Maintain the following records:

a. Name, address, and contact information for each commercial food generator from which edible food is received;

b. Quantity, measured in pounds per month, of edible food received from each commercial edible food generator; and

c. Name, address, and contact information for each food recovery service from which edible food is received.

SECTION 2. If any section, subsection, sentence, clause, or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision will not affect the validity of the remaining portions of this Ordinance. The City Council declares that it would have passed this Ordinance and each and every section, subsection, sentence, clause, or phrase not declared invalid or unconstitutional without regard to whether any portion of the Ordinance would be subsequently declared invalid or unconstitutional.

SECTION 3. The City Council finds that adoption of the proposed Ordinance is exempt from review under the California Environmental Quality Act (CEQA) under CEQA Guidelines sections 15061(b)(3) (common sense exemption that CEQA does not apply to projects where it can be seen with certainty that there is no possibility that the action may have a significant effect on the environment), 15307 (Actions by Regulatory Agencies for Protection of Natural Resources) and 15308 (Actions by Regulatory Agencies for Protection of the Environment) because it is an action taken by the City in its regulatory capacity, as authorized by state law, to protect the environment. Adopting the proposed Ordinance would protect the environment by implementing the state law organic waste recycling requirements and reduce greenhouse gas emissions.

SECTION 4. The City Clerk is directed to certify this Ordinance and cause it to be published in the manner required by law.

SECTION 5. This Ordinance shall become effective on September 15, 2024.

Article II. Collection and Disposal Services

4.150.030 Provision for and supervision by city.
4.150.040 Persons authorized to collect, ~~and~~ dispose of, and process discarded materials~~refuse~~.

Article III. Collection and Disposal Requirements and Standards

**Division 1. Generally**

4.150.080 Vehicles used to transport ~~refuse~~discarded materials.
4.150.090 Collection and disposal – Duty of owner or occupant.
4.150.100 Collection and disposal – Contract for service.
4.150.110 Residential ~~refuse~~ containers.
4.150.120 Multiresidential ~~refuse~~ containers.
4.150.130 Commercial ~~refuse~~ containers.
4.150.140 Determination of sufficient container size/collection frequency.
4.150.150 Mandatory collection for repeat offenders (commercial and residential).
4.150.160 Mandatory multiplier for repeat offenders.
4.150.170 Frequency of disposal.
4.150.180 Storage.
4.150.190 Bulky items.
4.150.200 Exception – Vacant establishments.
4.150.210 Placement of residential containers for collection purposes.
4.150.220 Placement of commercial containers for collection purposes.
4.150.230 Placement of multiresidential containers for collection purposes.
4.150.240 Removal of containers from public view.
4.150.250 Owner's responsibility for other refuse.
4.150.260 Standards and responsibilities regarding dumpsters.

**Division 2. Residential Units and Commercial Establishments**

4.150.270 Required use of authorized collection.
4.150.280 Access to receptacles for collection purposes.
~~4.150.290 Increase in rates for failure to provide access.~~
4.150.300 Liability for payment of fees.
4.150.310 Billing and collection – Discounts – Penalty for delinquent payments.
4.150.320 Fee a civil debt.
4.150.330 Mandatory collection areas.
4.150.340 Liability for payment of fees – Mandatory collection.
4.150.350 Billing cycle and penalty for delinquent payments.

4.150.360 Discontinuation of service.
4.150.370 Lien for 180-day delinquencies.
4.150.390 Exemptions.

Article IV. Prohibited Acts and Enforcement

4.150.400 Collection or disposal by unauthorized persons.
4.150.410 Placement of discarded materials~~refuse~~ in receptacle or upon land of another.
4.150.420 Placement of ~~refuse~~ containers on vacant lots.
4.150.430 Placement for collection of items other than ~~refuse~~discarded materials.
4.150.440 Littering public or private property.
4.150.450 Burning refuse.
4.150.460 Rendering of fat, distillation of bones, etc.
4.150.470 Bringing ~~refuse~~ discarded materials into the city.
4.150.480 Storing of ~~refuse or waste~~discarded materials inside buildings.
4.150.490 Connection of water or electrical services prior to issuance of permit.
4.150.500 Disclosure required upon sale of real property.
4.150.505 Compliance inspections.
4.150.510 Violations of chapter declared a nuisance.

Article V. Recycling Regulations

**Division 1. Generally**

4.150.520 Purpose and intent of article.
4.150.530 Collection of ~~general refuse~~discarded materials by other than exclusive franchisee prohibited.
4.150.540 Removal of recyclable materials from existing state-authorized buyback centers prohibited.
~~4.150.550 Reporting requirements.~~
~~4.150.560 Compliance with local, state and federal regulations.~~
~~4.150.570 Disposal of unmarketable recyclable materials.~~
~~4.150.580 Recyclable materials of city—No fee for processing.~~
~~4.150.590 Indemnification of city by those engaged in recycling activities.~~
~~4.150.600 No vesting of rights, entitlements or rights to operate recycling facilities shall be recognized prior to effective date of ordinance.~~
4.150.610 Development of materials recovery facility prohibited.

**Division 2. Recycling Organic Waste**

4.150.620 Requirements for residential organic waste recycling.
4.150.630 Requirements for commercial organic waste recycling.
4.150.640 Requirements for food recovery organizations and services.

For state law authorizing city to enter into ~~garbage and refuse~~solid waste disposal contracts, see H. and S.C. § 4250. As to ~~garbage and refuse~~solid waste generally, see H. and S.C. §§ 4100 to 4520. As to depositing, throwing, etc., handbills on public property, see SLTCC 6.05.030. As to depositing or placing handbills in vehicles, see SLTCC 6.05.040. As to distributing, throwing, etc., on private property, see SLTCC 6.05.050. As to restrictions on outdoor fires, see SLTCC 5.05.010. As to required clearing of brush, vegetation, etc., around buildings and structures and along roadways, see SLTCC 5.05.020 to 5.05.040. As to abandoned, wrecked, dismantled or inoperative vehicles, see SLTCC 4.45.010 to 4.45.160.

## Article I. In General

**4.150.010 Definitions.**

For the purpose of this chapter, the following words and phrases shall have the meanings ascribed to them by this section, except where the context clearly indicates a different meaning, as follows:

"Bear box" means a metal container used at a residential property which is intended to store discarded materials until collection day, and which includes a locking mechanism to prevent bear access.

"Bin" means a container with a hinged and tight-fitting lid and wheels designed to be mechanically serviced by a commercial collection vehicle, and that is designed to hold from one to six cubic yards of material with the lid properly closed.

"Bulky ~~waste/furniture~~ items" means large items of solid waste such as appliances, furniture, auto parts, trees and other oversize waste.

"Cardboard" means a thin, stiff, pasteboard made of paper pulp, used for making cartons and signs.

"Carpet" means a thick, heavy covering for a floor, usually made of wool, or synthetic fiber.

"Cart" means a plastic container with a hinged and tight-fitting lid and wheels that is serviced by an automated or semi-automated collection vehicle, is provided by the city's franchisee, and which has a capacity of at least 20 and not more than 95 gallons, and is used for collection of solid waste, recyclable materials, or organic materials from commercial or residential premises.

"Collection" means the complete operation of gathering together and transporting to the point of disposal or processing any ~~garbage, refuse, rubbish, and~~ solid waste, recyclable, ~~transformable~~ bulky item, or ~~compostable~~ organic waste materials.

"Collection fees" means the fees established as provided by law for the collection, disposal, and processing of discarded materials.

"Commercial container" means a container supplied by the franchisee to any person subscribing or receiving ~~refuse~~ solid waste service and constructed of metal, plastic or other suitable material in such a fashion as to be watertight.

"Commercial premises" means that portion of any building or other premises which is not a residence, residential unit or housekeeping unit.

"Compactor" means any container which has a compaction mechanism, whether stationary or mobile.

~~"Compost pile" means a pile, pit or layer of compost.~~

~~"Compostable" means a mixture of garbage, refuse and rubbish that is composed solely of matter which is capable of decaying or decomposing and which is used as a fertilizer or soil amendment for gardening and landscaping including vegetable, yard, and wood wastes.~~

"Container" means a city-approved receptacle for collection of solid waste, recyclable materials, or organic materials and includes bins, carts, compactors, open-top roll-off boxes, customer owned containers, and drop boxes~~a consumer, commercial or recycling container. Consumer containers shall be supplied by the person subscribing or receiving refuse service and shall be a container specifically designed, manufactured and distributed for the sole purpose of use as a consumer refuse/trash receptacle and shall be of a watertight, metallic or plastic construction with smooth interiors and with suitable bales or handles and with watertight fitting covers; or other similar container(s) as specifically approved jointly~~

~~by the franchisee and the city. The capacity of each such container shall not exceed 32 gallons nor exceed 50 pounds of weight. A plastic bag of sufficient strength may be used and not filled to more than 75 percent of capacity and shall contain only organic waste, excluding food waste, and shall be securely tied at the opening; or a paper bag baled from a mechanical compactor. In lieu of or in addition to such containers, persons may contract with the franchisee agent to provide commercial containers, prepaid bags or cart service or other disposal containers or processes which the franchisee agent may provide or approve in the future, including, but not limited to, containers for recyclable and/or salvageable materials~~.

"Construction and demolition debris (C&D)" means materials generated by or resulting from construction or demolition-related activities, including building, construction, deconstruction, demolition, excavation, grading, improvement, land clearing, reconstruction, remodeling, and renovation, such as discarded building materials, packaging, debris, and rubble resulting from construction, alteration, remodeling, repair, or demolition operations on an pavements, excavation projects, houses, commercial buildings, or other structures, excluding excluded waste. Construction and demolition debris includes rocks, soils, tree remains, and other yard trimmings which result from land clearing or land development operations in preparation for construction.

"Curbside" means as near but in no event more than five feet, from the property line that abuts a paved public street or in the event the property does not abut a paved public street, where the property abuts a public street, alley, right-of-way or easement and in the case of a commercial location in the service alley of a commercial or institutional entity.

"Customer owned container" means a 20-32 gallon plastic can owned by the owner or occupant and used for the collection of additional recyclable materials or organic materials or for collection of solid waste in a bear box.

"Discarded materials" means recyclable materials, organic materials, and solid waste placed by a customer in a container for the purposes of collection.

"Disposal" means the complete operation of disposing of ~~refuse~~solid waste.

"Drop box" means a container with a capacity of 10 to 40 cubic yards that is serviced by a roll-off collection vehicle.

"Edible food" means food intended for human consumption.

"Excluded waste" means hazardous substance, hazardous waste, infectious waste, designated waste, volatile, corrosive, biomedical, infectious, biohazardous, and toxic substances or material, waste that the city or franchisee reasonably believes would as a result of or upon disposal, be a violation of local, state, or federal law, regulation, or ordinance, including land use restrictions or conditions, waste that cannot be disposed of in class III landfills, waste that in the city or franchisee's reasonable opinion would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose the city or franchisee to potential liability; but not including de minimis volumes or concentrations of waste of a type normally found in residential solid waste after implementation of programs for the safe collection, recycling, treatment, and disposal of batteries and paint in compliance with sections 41500 and 41082 of the California Public Resources Code, as may be amended from time to time. Excluded waste does not include used motor oil and filters, or household batteries when properly placed for collection.

"Food recovery organization" means an entity that engages in the collection or receipt of edible food from commercial edible food generators and distributes that edible food to the public for human consumption either directly or through other entities, including food banks, nonprofit charitable organizations, and nonprofit charitable temporary food facilities, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

"Food recovery service" means a person or entity that collects and transports edible food from a commercial edible food generator to a food recovery organization or other entities for human consumption, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

"Food waste" means food scraps, including fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, and eggshells.

"Franchisee" means any person that has entered into a franchise agreement with the city to collect, remove, transport, process or dispose of solid waste or recyclables or compostables, or to operate any solid waste facility.

~~"Garbage" means putrescible animal or vegetable matter, and containers used for storage. "Garbage" does not include source-separated recyclables or green waste.~~

~~"Green waste" means compostable material including but not limited to grass, weeds, leaves, pine needles, tree trimmings, plants, shrubbery, prunings, and such other similar materials which are generated in the maintenance of yards, gardens or landscaping, and which are separated by the generator from other solid waste materials for the purpose of recycling or composting.~~

"Household hazardous waste (HHW)" means any substance or mixture that, if improperly handled, may be damaging to human health and well-being or a threat to the environment. HHW includes but is not limited to flammables, combustibles, poisons, toxics, oxidizers, corrosives, compressed gas, oil, antifreeze, explosives and radioactive materials as well as any other hazardous waste as defined in Health and Safety Code Section 25117 and the Hazardous Waste Management Reform Act of 1995.

"Litter" is any quantity of improperly discarded solid waste, including but not limited to discarded furniture and appliances, overflowing residential and commercial trash cans, pieces of lumber and scrap metal left at a construction site, uncontainerized paper such as fast food packages, candy wrappers, cigarette butts, and/or plastic, glass, trash, debris, rubbish, refuse, garbage or junk parts and scrap materials.

"Littering" is the improper discarding, dropping or scattering of small quantities of waste matter ordinarily carried on or about the person, including but not limited to beverage containers and enclosures, packaging, wrappers, wastepaper, newspapers and magazines, in any place other than a place or container maintained for the lawful disposal thereof, including waste matter which escapes or is allowed to escape from a vehicle, container, receptacle or package.

"Medical waste" means that waste which is generated or produced, as a result of the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production of testing of biological products, including but not limited to the accumulation of property containing home-generated sharps waste.

"Multiresidential" means two or more residential units located in a single building or a unified group of buildings, and shall include, but not be limited to, two or more units located in a planned unit development, an apartment complex or a mobile home park.

"Nuisance" means the existence or accumulation, without the authority of the city of South Lake Tahoe, of litter, trash, manure, rubbish, scrap materials, junk parts, garbage, or refuse of any kind upon private or public property; provided, however, that said refuse is visible to the occupants of an adjacent or nearby parcel or real property, or to the users of any right-of-way.

"Organic waste" means waste containing material originating from living organisms and their metabolic waste products, including food, green material, landscape and pruning waste, organic textiles and carpets, lumber, wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges, as defined in Section 18982(a)(46) of Title 14 of the California Code of Regulations, as may be amended from time to time.

"Owner" shall conclusively be deemed to be the person to whom the taxes on the property assessed as shown on the last equalized assessment roll of the county or, alternatively, from such other records of the county assessor or tax collector as contain more recent information.

"Recyclables" or "recyclable material" means materials which are reused or processed or are in the future reused or processed into a form suitable for reuse through reprocessing or remanufacture, consistent with the requirements of the California Integrated Waste Management Act. The term "recyclable material" includes paper newsprint, printed matter, pasteboard, paper containers, cardboard, glass, aluminum, PET, HDPE, and other plastics, beverage containers, transformable and compostable materials, used motor oil, automotive batteries, antifreeze, latex paint, brick and stone in reusable size and condition, and such other material designated by the city council, or designated as recyclables by the California Integrated Waste Management Board, or other agency with jurisdiction.

"Recycle" or "recycling" means the process of collecting, sorting, cleansing, treating and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused or reconstituted products which meet the quality standards necessary to be used in the marketplace.

~~"Recycling container" means a container, which is provided to a residential, commercial or industrial waste collection customer for the sole purpose of containing recyclable materials that are source-separated from the nonrecyclable portion of the waste stream.~~

~~"Refuse" shall mean and include all other accumulations of waste matter or materials emanating from an establishment and shall include paper, cardboard, tin cans, ashes, yard clippings, wood, glass, and cloth, plastic not otherwise recyclable and similar items of waste from homes, offices and places of business. Refuse shall not be construed to include waste materials from major demolitions, construction or remodeling, or sod, dirt or debris.~~

~~"Refuse collection fees" means the fees established as provided by law for the collection and disposal of refuse.~~

"Repeat offender" means a second offense ~~refuse~~ violation of this chapter occurring within one year at the same site.

"Residential unit" means a room or combination of rooms in a single building designed for human living, sleeping, eating and sanitary uses by a single family and their servants and nonpaying guests, and having cooking facilities. There may be more than one residential use in a single building. A mother-in-law unit is considered an additional residential unit.

"Rubbish" means all nonputrescible waste matter, whether combustible or noncombustible, except hazardous waste and medical waste.

"Sharps waste" means any device having acute rigid corners, edges, or protuberances capable of cutting or piercing, including, but not limited to, hypodermic needles, hypodermic needles with syringes, blades, needles with attached tubing, syringes contaminated with biohazard waste, acupuncture needles, and root canal files. Broken glass items, such as Pasteur pipettes and blood vials contaminated with biohazard waste or any item capable of cutting or piercing that is contaminated with trauma scene waste.

"Single-family unit" means a dwelling which receives individual ~~refuse~~ solid waste and/or curbside recycling service.

"Solid waste" means solid waste as defined in California Public Resources Code, Division 30, Part 1, Chapter 2, Section 40191 and implementing regulations. Excluded from the definition of solid waste are excluded waste, C&D, source-separated recyclable materials, edible food if it is recovered and not discarded, source-separated organic materials, and radioactive waste. Notwithstanding any provision to the contrary, solid waste may include de minimis volumes or concentrations of waste of a type and amount normally found in residential solid waste after implementation of programs for the safe collection, recycling, treatment, and disposal of household hazardous waste in compliance with Sections 41500 and 41802 of the California Public Resources Code as may be amended from time to time. Solid waste includes salvageable materials only when such materials are included for collection in a solid waste collection container not source-separated from solid waste at the site of generation.

"Source-separated recyclables" means nonputrescible material, including paper, books, magazines, cardboard, box board, plastic, metal, glass, and other similar materials authorized by the city for collection by the franchisee that is separated by the generator from other waste material for the purpose of reuse or recycling, by placing the recyclables in separate containers, or by binding them separately; the recyclable material is returned to the economic mainstream in the form of raw material for new, reused or reconstituted products which meet the quality standards necessary to be used in the marketplace.

"Special wastes" means any designated wastes, as defined in 23 California Code of Regulations, Section 2522, and special handling waste generated by industrial facilities or processes, but shall not include "hazardous waste" as defined herein. Special wastes shall include asbestos, sewage sludge, water treatment sludge, drilling mud, grease waste, contaminated soils, shredder waste, agricultural waste, filter cake/dewatered sludge, spent catalyst fines, refinery ash and byproducts; except where any such wastes are deemed to be hazardous waste.

"Tier one commercial edible food generator" means a supermarket with gross annual sales of $2,000,000 or more, grocery store with a total facility size equal or greater to 10,000 square feet, food service provider, food distributor, or wholesale food vendor, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

"Tier two commercial edible food generator" means a restaurant with 250 or more seats or a total facility size equal or greater than 5,000 square feet, hotel with an on-site food facility and 200 or more rooms, health facility with an on-site food facility and 100 or more beds, large venue, large event, state agency with a cafeteria with 250 or more seats or total facility size equal to or greater than 5,000 square feet, and local education agency with an on-site food facility, as defined in Section 18982(a) of Title 14 of the California Code of Regulations, as may be amended from time to time.

"Transfer station" means those facilities, franchised by the city of South Lake Tahoe pursuant to this chapter, utilized to receive solid waste or recyclable material, temporarily store, separate, convert, or otherwise process the materials in solid wastes or to transfer the solid wastes directly from smaller to larger vehicles for transport.

~~"Waste" means the useless, unused, unwanted or discarded material resulting from normal community activities, or materials which by their presence may injuriously affect the health, safety and comfort of persons and depreciate property values in the vicinity thereof. "Waste" shall include, but not be limited to, garbage, putrescible organic material, rubbish, offal, swill, animal excreta, rubble, plaster or other waste resulting from the demolition, burning, alteration or construction of building or structures.~~ "Yard trimmings" means a type of organic waste including green trimmings, grass, weeds, leaves, prunings,

branches, dead plants, brush, tree trimmings, dead trees, small pieces of unpainted and untreated wood, and other types of organic waste resulting from normal yard and landscaping maintenance.

**4.150.020 Purpose and intent of chapter.**
The city council, after several public discussions and hearings, makes the following findings of fact, thereby declaring its purpose:

A. A substantial portion of the homes, apartments and other residential units within the city are owned by nonresidents.

B. A substantial portion of the residential units are occupied for short periods by persons on vacations.

C. The owners or occupiers of many residential units have not made arrangements for the collection of ~~garbage, rubbish and waste material~~discarded materials.

D. ~~Garbage, rubbish and waste material~~Discarded material from such residential units either:

1. Accumulates at such premises;

2. Is deposited in the streets or upon private or public property within the city; or

3. Is disposed of by depositing it in containers of other persons within the city. Any of such methods of disposal creates and constitutes a nuisance.

E. Many residents of the city who do not arrange for collection of ~~garbage, rubbish and waste material~~discarded materials often allow ~~garbage, rubbish and waste material~~discarded materials to accumulate for long periods of time and thereby create a nuisance.

F. The public health, safety and welfare of the citizens of and visitors to the city require that the accumulation, collection, removal and disposal of ~~garbage, rubbish and waste material~~discarded materials from residential units within the city must be handled in a manner for the greatest good and least possible inconvenience, cost and maintenance to the city and the citizens thereof.

G. The periodic collection, removal and disposal of ~~garbage, rubbish and waste material~~discarded materials from all residential units within the city benefits all owners, occupants or persons in possession, charge or control of all such units where such accumulates and requires removal therefrom on a regular periodic basis; and that all such owners, occupants or persons in possession, charge or control of all such units within the city should be made liable for the payment of the fees for such collection, removal and disposal irrespective of the actual use of the ~~garbage, rubbish and waste material~~discarded materials collection services provided by the city.

H. Multiresidential units and commercial businesses within the city, including motels and hotels, need to provide adequate removal of ~~refuse~~ discarded materials so as to fully comply with health codes and other governmental regulations.

**4.150.025 Appeals.***
An appeal from any determination made pursuant to the provisions of this chapter may be appealed pursuant to Chapter 2.35 SLTCC.

* Code reviser's note: Ord. 1105 adds the provisions of this section as Section 4.150.030. The section has been editorially renumbered to prevent duplication of numbering.

## Article II. Collection and Disposal Services

**4.150.030 Provision for and supervision by city.**
The city shall provide for the collection and disposal or processing of ~~refuse~~ discarded materials from all premises required to be served within the city. Such provision may be made either by letting a contract for such collection and removal or otherwise. The city or, if collection and removal services are contracted for, the ~~removal~~ franchisee, shall have charge and supervision of such collection and removal and shall prescribe and establish routes and days for collection ~~and removal~~ of ~~refuse~~ discarded materials from the various parts of the city so as to conform to the provisions of this chapter and may change the same from time to time. When such routes or days of collection are established or changed, not less than 10 days prior to the effect of such change, notice thereof shall be given to all parties concerned.

**4.150.040 Persons authorized to collect, ~~and~~ dispose of, and process ~~refuse~~discarded materials.**
The city and its duly authorized agents, servants and employees of any franchisee with whom the city may at any time enter into a contract therefor, and the agents, servants and employees of franchisee, while any such contract shall be in force, shall have the exclusive right and obligation to collect and dispose of or process ~~refuse~~ discarded materials from all premises in the city.

This chapter shall not prohibit anyone licensed to do business in the city of South Lake Tahoe, during the course of performing the contracted duties, from collecting and disposing of ~~debris~~ C&D from a job upon which ~~he/she is~~they are working in compliance with all applicable laws, ordinances and regulations then in effect. Individuals ~~, not businesses,~~ may not enter into a contract with anyone other than the city's duly authorized agents for the collection, ~~and/or~~ disposal, and/or processing of ~~refuse~~ discarded materials from premises within the city. This does not preclude individuals or businesses from legally disposing of ~~refuse~~ discarded materials from their own properties or properties which they manage pursuant to contract.

## Article III. Collection and Disposal Requirements and Standards

### Division 1. Generally

**4.150.080 Vehicles used to transport ~~refuse~~discarded materials.**
A. Every ~~refuse, garbage and debris hauling~~ vehicle used for the collection, removal or transportation of ~~refuse, rubbish and debris~~discarded materials and C&D shall be so designed and equipped as to prevent the escape or loss of any refuse, rubbish and debris while being transported. Whenever ~~refuse, garbage and debris~~discarded materials or C&D is transported in an unenclosed vehicle, the container ~~in which the refuse, garbage and debris is transported~~ shall be so designed and equipped as to prevent the escape or loss of any such ~~refuse, garbage and debris~~discarded materials or C&D while being so transported. Loads of tree trimmings, bushes or shrubs may be transported in open-bodied vehicles provided the material be securely tied in place to prevent scattering along the streets and alleys. Tree limbs shall be confined within the limits of the vehicle bed and shall not extend over the sides or extend beyond the tailgate of the vehicle.

B. It shall be unlawful for any person authorized to collect ~~refuse, garbage and debris~~discarded materials or C&D to maintain any collecting vehicle in an unclean, filthy or leaky condition or to keep such vehicle standing in any street or alley of the city longer than necessary for the actual work of collection or to conduct collection or removal in any but a sanitary manner and by sanitary methods.

**4.150.090 Collection and disposal – Duty of owner or occupant.**
Each person owning improved premises in the city, and each person occupying or having charge or control of improved premises in the city shall, in accordance with the terms of this chapter and all applicable state and federal regulations, make available for collection and disposal, or if a nonresidential commercial business provide legal access to collection and disposal of all ~~refuse~~ discarded material which

has accumulated on such premises, on the appointed day and at the appointed time, except where weather conditions prevent such collection and disposal.

**4.150.100 Collection and disposal – Contract for service.**
For services outside the provisions of this chapter, individuals or businesses may contract with the city or the city's franchisee; provided, such services shall be offered and accepted according to the rate schedule applicable thereto.

**4.150.110 Residential ~~refuse~~ containers.**
Each person owning a residential unit up to and including a fourplex, and each person occupying or having charge or control of such premises, shall have the obligation to contract for collection service for each and every unit of property and provide for collection and disposal of all discarded materials~~refuse~~ originating upon such premises in ~~suitable containers.~~three carts for each residential unit to include one cart each for solid waste, source-separated recyclables, and yard trimmings. Owners or occupants may request an additional cart for solid waste for an additional charge. Residential units may share carts for recyclables and yard trimmings so long as both residential units have solid waste carts. Residential units that have bear boxes existing as of August 22, 2023, may elect to continue to use a customer owned container to be serviced from the bear box instead of a cart for solid waste. ~~A suitable container is defined as a safety-approved dumpster or a 32-gallon or less trash can, not to exceed a loaded weight of 50 pounds with a tight-fitting lid, capable of completely containing all refuse stored within. Tied, watertight plastic bags may be used only for organic waste, except food waste. Food waste may be commingled with other waste in the dumpster or 32-gallon or less trash can.~~

~~In the event a residential refuse container is determined to be unsuitable because it no longer adequately contains refuse and repeatedly overflows, fails to adequately prevent animal intrusion or constitutes a hazard to public health, the city attorney, his/her designee, or the county health officer may order the resident to replace such container.~~

Each owner shall place and/or direct its tenants to place source-separated recyclable materials in the applicable container; place yard trimmings in the applicable container; and place solid waste in the applicable container; and shall not place prohibited container contaminants in containers and not place materials designated for the yard trimmings or recyclable materials containers in the solid waste containers.

Bulky items ~~such as car parts, white goods (i.e., stoves, washers, dryers, etc.), furniture (i.e., mattresses), etc.,~~ shall be collected at additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside on the arranged day of collection at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for ~~refuse~~ collection, and shall be removed from public view by 6:00 p.m. on the day designated for ~~refuse~~ collection, unless containers are housed in approved shelters. In the event a bulky item is placed in view of the general public without scheduled collection, the city ~~attorney, his/her designee,~~manager or the county health officer shall order the ~~refuse company~~franchisee to collect said item at the property owner's expense.

Customers may exercise the option to deliver such bulky items directly to the transfer station at transfer station rates, or otherwise properly dispose of such bulky items.

**4.150.120 Multiresidential ~~refuse~~ containers.**
Each person owning, or having charge or control of, a multiresidential property of five units or greater shall place for collection and disposal all ~~refuse~~ discarded materials originating on such premises in a suitable container or containers, and may elect to be serviced either with residential containers as described in SLTCC 4.150.110 or commercial containers as described in SLTCC 150.130. ~~A suitable~~

~~container for a multiresidential property of five units or greater is defined as a safety-approved dumpster. Frequency of collection is to be determined by the amount of refuse generated so that collection occurs not less than once per week and as often as good sanitary practice and applicable state and federal law require.~~

~~A multiresidential property with fewer than five units may be required to provide a safety-approved dumpster if the city attorney, his/her designee, or the county health officer determines that individual 32-gallon cans are insufficient to provide proper refuse disposal. Size of container and frequency of collection are to be determined by the amount of refuse generated so that collection occurs not less than once per week and as often as good sanitary practice and applicable state and federal law require.~~

Bulky items ~~such as car parts, white goods (i.e., stoves, washers, dryers, etc.), furniture (i.e., mattresses), etc.,~~ shall be collected at an additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for ~~refuse~~ collection, and shall be removed from public view by 6:00 p.m. on the day designated for ~~refuse~~ collection, unless containers are housed in approved shelters on the arranged day of collection. In the event a bulky item is placed in view of the general public without scheduled collection, the city ~~attorney, his/her designee,~~manager or the county health officer shall order the ~~refuse company~~franchisee to collect said item at the property owner's expense. Customers may exercise the option to deliver such bulky items directly to the transfer station at transfer station rates, or otherwise properly dispose of such bulky items.

**4.150.130 Commercial ~~refuse~~ containers.**

Each person owning, or having charge or control of, a commercial premises shall place for collection and disposal all discarded materials originating on such premises in a s~~S~~uitable container or containers ~~for nonresidential commercial establishments shall be defined as~~ consisting of either carts for solid waste and recyclables and a bin for organic waste, or one or more compactors ~~a minimum 32-gallon garbage can or safety-approved dumpster, with lid,~~ sufficient to accommodate the type and amount of ~~refuse~~ discarded materials generated at such commercial establishment. Lids must remain closed at all times, except when ~~refuse is~~discarded materials are being added or removed from the container. Size of container and frequency of collection shall be determined by the type and amount of ~~refuse~~ discarded materials generated, so that collection occurs as often as good sanitary practice and applicable state and federal law require.

Frequency of collection shall be at least once per week for commercial establishments generating food waste. Collection for commercial establishments not generating ~~non~~food waste shall be either regularly scheduled or on an as-needed basis, unless as-needed collection is determined by the city ~~attorney, his/her designee~~manager~~,~~ or the county health officer to constitute a health hazard. Contents of the container shall not extend above the rim of the container.

Bulky items ~~such as car parts, white goods (i.e., stoves, washers, dryers, etc.), furniture (i.e., mattresses), etc.,~~ shall be collected at an additional charge to the customer. Bulky items must remain out of sight from the general public view, and shall only be placed at curbside at the property line adjacent to public street no earlier than 6:00 p.m. of the day prior to the day designated for ~~refuse~~ collection, and shall be removed from public view by 6:00 p.m. on the day designated for ~~refuse~~ collection, unless containers are housed in approved shelters on the arranged day of collection. In the event a bulky item is placed in view of the general public without scheduled collection, the city ~~attorney, his/her designee,~~manager or the county health officer shall order the ~~refuse company~~franchisee to collect said item at the property owner's expense.

Customers may exercise the option to deliver bulky items directly to the transfer station for transfer station rates, or properly dispose of such bulky items.

**4.150.140 Determination of sufficient container size/collection frequency.**
In the event a multiresidential or commercial property is determined to constitute a nuisance because of blowing debris originating from the container, or the container is determined to be insufficient to contain ~~refuse~~discarded materials generated, or is determined to be a hazard to the public health or is otherwise in violation of health codes, the city ~~attorney~~manager~~, her/his designee,~~ or the county health officer may order a change in the size of container, and/or increase the frequency of collection, as well as any other alternatives set forth in SLTCC 4.150.150(A) through (I), at the expense of the person owning or having charge or control of said property.

**4.150.150 Mandatory collection for repeat offenders (commercial and residential).**
No person owning or possessing any multiresidential dwelling or owning or possessing any single-family dwelling, or industrial, commercial or business premises or structure, shall allow or permit any excess ~~refuse~~discarded materials, ~~or~~ rubbish, or waste to collect and accumulate upon or in the premises or structure ~~for a period of time longer than allowed by law~~in a manner that creates a nuisance.

During intervals between collection or disposal, the storage, accumulation, collection, keeping, handling or maintaining of ~~refuse~~discarded materials ~~waste~~ on premises where produced shall be performed in such a manner as to prevent the harboring and breeding of rodents, insects and other vermin and to take adequate precautions to prevent ready access to the waste by animals; as to prevent objectionable odors in the ambient air; as not to constitute a fire hazard; and as not to result in such unsightliness as to result in the depreciation of value of adjacent property or the comfortable enjoyment of life thereon.

If ~~it is found and determined~~ the city manager finds and determines that during the intervals between collection or disposal, accumulation of ~~refuse~~discarded materials ~~waste~~ results in a nuisance and thus is contrary to the public health and welfare of the city, and/or the property owner has failed to adequately provide for appropriate ~~refuse~~ collection and/or storage pursuant to this chapter, mandatory commercial or increased residential collection service shall be imposed for minimum of one year. Further, ~~at the direction of~~ the city manager~~, or the city manager's designee,~~ may impose one or more of the following corrective enforcement actions ~~are available for imposition~~ for a minimum of one year ~~or longer~~:

A. Increasing the size of the ~~dumpster~~container; ~~and/or~~

B. Increasing the frequency of ~~the pickup~~collection service; ~~and/or~~

C. Ordering the removal of trailers, pickup trucks, dump trucks and storage containers under the nuisance abatement procedure pursuant to Chapter 4.40 SLTCC; ~~and/or~~

D. Mandating safety-approved dumpsters with tight-fitting lids; ~~and/or~~

E. Mandating dumpster "skirting" for containers; ~~and/or~~

F. Mandating relocation of dumpster; ~~and/or~~

G. Mandating "controlled access" lids to prevent animal disturbances; ~~and/or~~

H. Mandating bear-proof ~~refuse~~ containers for repeat violators of single-family residences and multiresidential properties not using safety-approved dumpsters; and/or

I. Any other enforcement action deemed reasonable and appropriate by the city manager ~~or his/her designee~~.

**4.150.160 Mandatory multiplier for repeat offenders.**
The collection of ~~refuse, garbage and rubbish~~discarded materials from all hotels, hotel/resorts, motels, motels converted to residential units, inns, time-share condominiums and motor inns may be based upon a motel multiplier of 0.10 cubic yards, per motel unit, per week to determine a minimum level of collection~~refuse~~ service.

The collection of ~~refuse, garbage and rubbish~~discarded materials from all multiresidential units may be based upon a multiresidential multiplier of 0.40 cubic yards, per residential unit, per week to determine a minimum level of ~~refuse~~ collection service.

Nothing in this section is intended to prevent any arrangement, or the continuance of an existing arrangement, under which payments to the franchisee for ~~garbage~~ collection service are made by a tenant or tenants, or any agent, on behalf of the owner. However, any such arrangement will not affect the owner's obligation as provided herein.

**4.150.170 Frequency of disposal.**
Collection of ~~refuse~~ solid waste shall be made at least once a week from single-family residences and multiresidential units, or as many times per week as the city manager ~~or the city manager's designee~~ may order.

No more than one week's accumulation of ~~refuse, garbage and rubbish~~solid waste or food waste shall be kept or permitted to remain upon any commercial premises in the city.

At the minimum, there shall be at least one collection per week from restaurants; cafes; diners; hamburger stands; coffee shops; coffee houses; fast food places; grocery stores; vegetable, meat, poultry or fish markets, or fresh drink stands; and any other commercial establishment generating food waste.

**4.150.180 Storage.**
No person shall store discarded materials ~~refuse, garbage or rubbish will be allowed to be stored~~ in trucks, trailers, vans, delivery wagons, pickup trucks, truck trailers or dump trucks, or~~and~~ any other unapproved storage containers for more than 48 hours.

**4.150.190 Bulky items.**
All bulky items (nonhazardous) left at curbside will be picked up by the franchisee during regularly scheduled route days and the account holder will be billed accordingly.

**4.150.200 Exception – Vacant establishments.**
The owner or person in possession, charge or control of any commercial establishment shall not be required to subscribe to services provided by a franchisee during such periods as the establishment is vacant and not generating or accumulating ~~solid waste, garbage or refuse~~discarded materials. Nor shall commercial establishments in residential units with a business license be subject to additional mandatory commercial collection.

**4.150.210 Placement of residential containers for collection purposes.**
Suitable containers for residential service, up to and including a fourplex, shall be placed in such a manner as not to be readily visible from public streets; provided, that during the time fixed for collection from the premises, ~~receptacles and plastic bags~~containers shall be placed for collection as follows:

A. ~~Residential containers~~Carts and customer owned containers shall be placed at the property line adjacent to a public street no earlier than 6:00 a.m. on the day designated for ~~refuse~~ collection, and shall be removed from public view by 6:00 p.m. on the day designated for ~~refuse~~ collection, ~~unless containers are housed in approved shelters~~except for approved customer owned containers which may remain in a bear box for solid waste collection. During snow removal conditions, franchisee is only required to

service bear boxes where a direct path of access at least 36 inches wide has been cleared of snow from the public street to the bear box.

B. ~~Refuse company personnel~~During snow removal conditions, franchisee shall ~~be responsible for the~~ return of containers to a location ~~20 feet back from the front property line~~ 10 feet outside of the right-of-way to avoid interference with or damage from city snow removal operations, so long as a path of access at least 36 inches wide has been cleared of snow from the public street to a point 10 feet outside of the right-of-way.

C. During ~~periods of heavy snow~~snow removal conditions, customers shall provide a clear path for the return of containers to a point ~~20 feet from said property line~~ 10 feet outside of the right-of way.

~~D. Containers which have become so damaged as to be no longer suitable for use, which no longer have tight-fitting lids, and are so designated by refuse company personnel, the city attorney, his/her designee, or the county health officer, shall be replaced by the customer with a suitable container.~~

~~E~~D. Shelter or housing for ~~refuse receptacles as well as commercial dumpsters~~ containers shall not be constructed or installed until approved by the city planning division.

**4.150.220 Placement of commercial containers for collection purposes.**
Suitable containers for commercial service, other than safety-approved dumpsters, shall be placed in such a manner as not to be readily visible from public streets; provided, that during the time fixed for collection from the premises, containers are placed for collection in such a manner as previously approved by franchisee.

Commercial containers shall be placed at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for ~~refuse~~ collection, and shall be removed from public view by 6:00 p.m. on the day designated for ~~refuse~~ collection, unless containers are housed in approved shelters. ~~Refuse company~~Franchisee personnel shall be responsible for the return of containers to the front property line. During ~~periods of heavy~~ snow removal conditions, ~~residents~~customer shall provide and maintain a clear path for the retrieval and return of containers to a point ~~20 feet behind the property line~~ 10 feet outside of the right-of-way. Shelter or housing for commercial dumpsters shall not be constructed or installed until approved by the city planning division.

Containers which have become so damaged as to be no longer suitable for use, which no longer have tight-fitting lids, and are so designated by ~~refuse company personnel~~franchisee, the city ~~attorney, his/her designee~~manager, or the county health officer shall be replaced by the resident and/or business owner with a suitable container.

**4.150.230 Placement of multiresidential containers for collection purposes.**
~~Suitable containers for m~~Multiresidential ~~service~~premises of five units or greater shall comply with either SLTCC 4.150.210 or 4.150.220, depending on whether the owner has elected to use residential containers or commercial containers.~~, up to and including a fourplex, shall be placed in such a manner as not to be readily visible from public streets; provided, that during the time fixed for collection from the premises, receptacles and plastic bags shall be placed for collection as follows:~~

~~A. Multiresidential containers shall be placed at the property line adjacent to a public street no earlier than 6:00 p.m. of the day prior to the day designated for refuse collection, and shall be removed from public view by 6:00 p.m. on the day designated for refuse collection, unless containers are housed in approved shelters.~~

~~B. Refuse company personnel shall be responsible for the return of containers to a location 20 feet back from the front property line.~~

~~C. During periods of heavy snow, customers shall provide and maintain a clear path for the return of containers to a point 20 feet from said property line.~~

~~D. Containers which have become so damaged as to be no longer suitable for use, which no longer have tight-fitting lids, and are so designated by refuse company personnel, the city attorney, his/her designee, or the county health officer shall be replaced by the customer with a suitable container.~~

~~E. Shelter or housing for multiresidential refuse receptacles shall not be constructed or installed until approved by the city planning division.~~

**4.150.240 Removal of containers from public view.**
All residential, including multiresidential, and commercial ~~refuse~~ containers, other than safety-approved dumpsters, shall be removed from public view not later than 6:00 p.m. on the appointed day of collection; provided, however, that ~~refuse~~ containers within shelters or housing approved in accordance with SLTCC 4.150.210(~~E~~D) shall be within such shelters or housing not later than 6:00 p.m. on the appointed day of collection.

**4.150.250 Owner's responsibility for other refuse.**
The collection and disposal of any refuse which is excepted from collection and disposal by ~~the refuse company~~franchisee shall be the sole responsibility of the owner upon whose property such refuse originates. The owner will not leave such refuse at the front property line or in such a manner as to be readily visible from the public street.

**4.150.260 Standards and responsibilities regarding dumpsters.**
A. Standards. The American National Standard Safety Requirements for the Stability of Refuse Bins (hereinafter known as Standards) is hereby adopted and incorporated in the South Lake Tahoe city code by reference. A full and complete copy of the requirements is on file in the South Lake Tahoe city clerk's office and in the business office of South Tahoe Refuse Company located at 2140 Ruth Avenue, South Lake Tahoe, CA.

B. Responsibilities. The following responsibilities shall apply:

1. Manufacturer Responsibility. It shall be the responsibility of the manufacturer of refuse bins to design and construct newly manufactured refuse bins in conformance with Sections 3 and 5 of the Standards.

Newly manufactured refuse bins shall have a permanent identification of the name of the manufacturer and either the date of manufacture or a code traceable to the date of manufacture.

A statement attesting to compliance with this standard shall also be provided on the permanent identification.

The manufacturer of refuse bins shall inform purchasers of the refuse bins of the applicable requirements of this standard.

2. Retrofitter Responsibility. It shall be the responsibility of persons who retrofit or modify refuse bins to modify or reconstruct in-service bins in conformance with Sections 3 and 5 of the Standards.

3. Owner Responsibility. It shall be the responsibility of the owner of refuse bins to ensure that refuse bins are modified or retrofitted to meet the requirements of the Standards.

It shall be the responsibility of the owner of refuse bins to ensure that the only refuse bins that are in conformance with Sections 3 and 5 of the Standards are used.

The owner of refuse bins shall inform the customer of necessary safety precautions and requirements associated with the use of the bins including, but not limited to, the requirements specified in subsections (B)(3)(a) through (d) of this section:

a. Refuse bins shall be placed on a hard, level, weather-resistant surface.

b. Refuse bins shall be loaded uniformly, with no refuse extending beyond the internal volume of the bin.

c. All safety features for stability shall be used, such as fasteners (where required) to secure the refuse bin to a stationary object.

d. The customer shall inform the owner of the refuse bins of any damage, defect or malfunction of the refuse bin.

The owners shall train their employees in the use, handling and placement of refuse bins so as to be in conformance with the requirements of these Standards.

4. ~~Refuse~~ Franchisee Responsibility. The ~~refuse~~ franchisee shall train its employees in the use, handling and placement of refuse bins so as to be in conformance with the requirements of these Standards. The ~~refuse~~ franchisee shall inform the owner of the refuse bins of any damage, defect or malfunction of the refuse bin.

5. ~~Refuse~~ Franchisee Employee Responsibility. The employee of the ~~refuse~~ franchisee shall return the refuse bins to their original location after unloading. If the location of the refuse bins is not a hard, level, weather-resistant surface, the employee of the ~~refuse~~ franchisee shall notify the customer and the owner.

6. Customer Responsibility. The customer shall be responsible for ensuring that a hard, level, weather-resistant surface is provided for the placement of refuse bins.

The customer shall ensure that refuse bins used are placed on the customer's premises in conformance with the applicable requirements of the Standards.

## Division 2. Residential Units and Commercial Establishments

### 4.150.270 Required use of authorized collection.

Each person owning one or more improved residential units or commercial premises in the city, and each person occupying or having charge or control of improved residential or commercial premises in the city, shall make available for collection, not less than once each week on the appointed day and at the appointed time, all ~~refuse~~discarded material which has accumulated on such premises. Each person who is an owner, occupant or person in possession, charge or control of a parcel of property upon which there exists a residential unit or commercial enterprise shall subscribe to and use, and shall dispose of all ~~refuse~~ discarded material through, the regular ~~refuse~~ collection and disposal service of the city or its authorized ~~removal~~ franchisee.

### 4.150.280 Access to receptacles for collection purposes.

Each person required by the provisions of this chapter to accept mandatory ~~refuse~~ collection and disposal services shall provide reasonable access to ~~refuse receptacles~~containers on the appointed day of collection. Periods of inclement weather shall not excuse any such person from affording such reasonable access to ~~refuse receptacles~~containers.

~~**4.150.290 Increase in rates for failure to provide access.**~~
~~In the event that a person fails to comply with SLTCC 4.150.280, the removal franchisee may increase the rate for the collection and removal of refuse for that person by the total sum of 10 percent over the then-established rate for the month in which such noncompliance occurs. Upon cessation of the violation of SLTCC 4.150.280, the rate shall be reduced to the previously established rate.~~

**4.150.300 Liability for payment of fees.**
Each owner, occupant or person in possession, charge or control of a parcel of property upon which there exists a residential unit or commercial enterprise within the city is hereby made liable for the payment of the ~~refuse~~ collection fees levied against such premises for required ~~refuse~~ collection services, irrespective of the actual use of the ~~refuse~~ collection services provided by the city or its authorized ~~removal~~ franchisee. Services made available to those premises required to receive such services shall be considered as services utilized. It shall be the duty of the owner of such premises to provide for payment of the ~~refuse~~ collection ~~and disposal~~ fees. It shall be the duty of the franchisee to bill separately each residential unit.

Nothing in this section shall prevent an arrangement for the continuance of an existing arrangement under which payments of ~~refuse~~ collection fees are made by a tenant or tenants or any agent on behalf of the owner. Any such arrangement will not affect the owner's obligation to the city or its authorized ~~removal~~ franchisee.

**4.150.310 Billing and collection – Discounts – Penalty for delinquent payments.**
~~Refuse c~~Collection fees shall be billed and paid in advance on a monthly, bi-monthly, or quarterly basis. Payment shall be due upon, and shall become delinquent after, the fifteenth day following the date of billing. Notwithstanding the above, each person who receives a bill for quarterly service shall have the option of paying for service through the end of the year billed.

A finance charge of one and one-half percent of the amount of the fee shall be added at the end of each month following the delinquency date.

**4.150.320 Fee a civil debt.**
The ~~refuse~~ collection fee shall be a civil debt owed by the owner, occupant or person in possession, charge or control of the real property and/or structures of a residential unit or commercial enterprise. In the event that any civil action to enforce the collection of the ~~refuse~~ collection fee is brought in any court, the prevailing party shall be entitled to reasonable attorney's fees to be determined by the court. The prevailing party shall be the party in whose favor final judgment is entered.

**4.150.330 Mandatory collection areas.**
A mandatory collection area is established and shall consist of the current incorporated city limits of the city of South Lake Tahoe within the Lake Tahoe basin, county of El Dorado, state of California.

**4.150.340 Liability for payment of fees – Mandatory collection.**
Each owner, occupant or person in possession, charge or control of any collection premises located in a mandatory collection area is hereby made liable jointly and severally for the payments of the solid waste collection, processing and disposal fees levied against such premises for required solid waste collection, processing and disposal services, irrespective of the actual use of the service provided by the district or grantee. Services made available to those premises required to receive service shall be considered as services utilized. It shall be the duty of the owner of such premises to provide for the payment of the services.

**4.150.350 Billing cycle and penalty for delinquent payments.**
Solid waste collection fees may be billed and paid in advance on a monthly, bi-monthly, or quarterly basis. Payment shall be due upon, and shall become delinquent 15 days after, the date of any billing. A finance charge and late payment penalty as permitted by law shall be added at the end of each month following the delinquency date.

**4.150.360 Discontinuation of service.**
The city may direct the franchisee to discontinue service for any customer whose account remains unpaid for 60 days after the date of billing as long as the customer has received a notice on a form approved by the city manager or his/her designee stating that service will be discontinued 15 days from the date of the notice if payment is not made by that time. Upon payment of the delinquent fees, collection shall resume on the next regularly scheduled collection day. Fees shall continue to be assessed and billed notwithstanding that service has been discontinued and notice of same shall be included in the form sent to the customer.

**4.150.370 Lien for 180-day delinquencies.**
Mandatory collection fees authorized pursuant to these articles, which remain unpaid for a period of 180 days or more, after the date upon which they were billed, may be collected thereafter by the franchisee as provided herein.

A. Once a year the franchisee shall cause to be prepared a report of delinquent fees. The city planning commission shall fix a time, date and place for a public hearing for the report and any objections or protests thereto.

B. The commission shall cause notice of the hearing to be mailed, by certified mail, return receipt requested to the landowners listed on the report as well as publication of notice of the hearing in a newspaper of general circulation as well as posted pursuant to law not less than 30 days prior to the date of the hearing.

C. At the hearing, the commission shall hear any objections or protests of landowners liable for delinquent fees. The commission may make such revisions or corrections to the report as is deemed just and thereafter the report shall be forwarded to the city council for confirmation. Notice of the hearing to confirm the report shall be mailed to the landowners listed on the report.

D. The delinquent fees set forth in the report as confirmed shall constitute a special assessment against the respective parcels of land and are a lien of the property for such delinquent fees. A certified copy of the confirmed report shall be filed with the county auditor and/or county recorder's office on or before August 10th, for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation of the office of the county recorder of the county in which the property is situated with a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes. All laws applicable to the levy, collection and enforcement of ad valorem property taxes shall be applicable to such lien, except that if the real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide purchaser for value has been created and attaches thereon, prior to the date on which the first installment of such taxes should become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquency fees, as confirmed relating to such property, shall be transferred to the unsecured roll for collection or a private collection agency.

**4.150.390 Exemptions.**
A. The provisions of this article shall not apply to any of residential units or commercial enterprises which are not connected to water and electric power and where water or electric power cannot be

provided to such premises without action by a public utility or mutual water company; provided, that such exemption shall terminate upon reconnection of water and electric power.

B. Provisions of this article shall not apply to any commercial enterprise which fully suspends its operation due to the seasonal nature of its particular business.

C. Provisions of this article shall not apply to any home business which operates fully out of a residential property, complies with business license requirements and does not exceed residential discarded material~~refuse~~ limitations.

D. Exemption from the mandatory collection may be granted to nonresidential and non-food-producing businesses which submit a waste management plan to the city analyzing the business waste stream, and documenting: (1) the ability to recycle or reuse more than 50 percent of that waste stream; (2) the ability to source separate organic waste from other waste and either recycle its organic waste on site or self-haul its own organic waste for recycling. Any business that received an exemption from mandatory collection under this subsection (D) prior to January 1, 2022, and desires to maintain its exemption from mandatory collection shall submit a new request to the city containing the information required by this subsection prior to January 31, 2022.

Any person claiming an exemption pursuant to subsection (A) or (B) of this section shall file a statement under oath or under penalty of perjury with the city removal franchisee stating the facts upon which exemption is claimed and, in the absence of such statement substantiating the claim, such person shall be liable for the payment of the ~~refuse~~ collection fees required by this article.

The removal franchisee, after giving notice of not less than 10 days and a reasonable opportunity for hearing to any person claiming an exemption pursuant to this section, may revoke any exemption granted upon information that the person is not entitled to the exemption as provided herein.

## Article IV. Prohibited Acts and Enforcement

### 4.150.400 Collection or disposal by unauthorized persons.

No person, other than those persons permitted by the terms of this chapter, shall collect, ~~and/or~~ dispose of, or process ~~refuse~~discarded materials, for commercial gain, in, along or over any public street, alley or highway in the city. No two or more owners of separate properties shall organize to jointly or collectively remove ~~refuse~~discarded materials from their respective properties.

### 4.150.410 Placement of ~~refuse~~discarded materials in receptacle or upon land of another.

No person shall place ~~refuse~~discarded materials upon the land of another, or in the ~~refuse receptacle~~container of another, or upon premises other than those from which ~~refuse~~the discarded materials originated, for the purpose of making such ~~refuse~~discarded materials available for collection and disposal. This section shall not prohibit the deposit of ~~refuse~~discarded materials at a duly permitted transfer station.

### 4.150.420 Placement of ~~refuse~~ containers on vacant lots.

No person shall place ~~refuse or a refuse receptacle~~a container, including dumpsters, upon a vacant lot or any site from which the ~~refuse~~discarded material was not originally generated. This includes property owned, leased, or rented by the person generating the ~~refuse~~discarded material.

### 4.150.430 Placement for collection of items other than ~~refuse~~discarded materials.

No person shall place for collection and disposal, or place in public view, any item other than ~~refuse~~discarded materials~~,~~ or bulky items ~~or other waste, including cardboard or any other paper product and carpeting, carpet pads and associated flooring materials~~.

Neither the city, nor its authorized franchisee, shall collect or dispose of any item other than ~~refuse or other waste~~discarded materials or bulky items; provided, that this section shall not prohibit the deposit and disposal of any item at a duly permitted transfer station.

**4.150.440 Littering public or private property.**
No person shall throw, place, scatter, dump or otherwise deposit any refuse or other waste in or upon the private property of another. No person shall throw, place, scatter, dump or otherwise deposit any refuse or other waste in or upon any public property.

**4.150.450 Burning refuse.**
No person shall burn refuse within the city unless such act complies with all applicable laws of each and every jurisdictional agency.

**4.150.460 Rendering of fat, distillation of bones, etc.**
No person shall render any meat, grease, fat, offal, bones, animals, animal parts, animal substances, garbage, fish or parts of fish, or distill bones or reduce refuse, offal or dead animals or operate or conduct any plant or establishment for the distillation of bones, or the rendering of fat, or further reduction of refuse, offal or dead animals.

**4.150.470 Bringing ~~refuse~~discarded materials into the city.**
No person shall bring into or cause to be brought into the city any ~~refuse~~discarded materials or receive or possess any ~~refuse~~discarded materials brought into the city from beyond the city limits; provided, that the provisions of this section shall not apply to ~~refuse~~discarded materials being transported directly to, and received at, a duly permitted transfer station.

**4.150.480 Storing of ~~refuse or waste~~discarded materials inside buildings.**
No person shall keep or maintain any ~~refuse or other waste~~discarded materials inside any building in violation of any provision of law.

**4.150.490 Connection of water or electrical services prior to issuance of permit.**
No person shall connect or cause to be connected to any residential unit not then receiving such services any water or electrical service without first obtaining from the city manager ~~or his/her designee~~ a permit therefor. Such permit shall be issued by the city manager ~~or his/her designee~~ upon request of any person without fee. ~~Refuse c~~Collection fees shall be charged for service to such residential unit upon the issuance of such a permit or occupancy of such unit, whichever first occurs. The sole purpose of the permit required by this section is to advise the city manager ~~or his/her designee~~ that the residential unit should be charged ~~refuse~~ collection fees, and such permit shall not authorize the connection of any water or electrical services to any premises in violation of any other provision of law.

**4.150.500 Disclosure required upon sale of real property.**
No person shall sell, or act as an agent for the purpose of selling, any parcel of real property without first disclosing, in writing, the amount or amounts, if any, of unpaid collection fees due and owing for ~~refuse~~ collection services made available to such parcel of real property.

**4.150.505 Compliance inspections.**
The city or its agent may enter a commercial premises or common areas of a multiresidential property of five or more units to conduct a compliance inspection of any collection container or collection vehicle load, and may enter a transfer, processing, or disposal facility to conduct a compliance inspection. Compliance inspections may be performed without prior notice during normal business hours.

**4.150.510 Violations of chapter declared a nuisance.**
All violations of any portion of this chapter are hereby declared to be a nuisance and may be abated as such in the manner provided by law. Additionally and alternatively, violations of any portion of this chapter are subject to administrative citations and fines under Chapter 2.30 SLTCC.

## Article V. Recycling Regulations

### Division 1. Generally

**4.150.520 Purpose and intent of article.**
The purpose and intent of this article is to establish by ordinance:

A. The goal of recycling at least 50 percent, by weight, of the city of South Lake Tahoe's waste;

B. To require that the city of South Lake Tahoe develop and maintain a substantial, comprehensive, coordinated, and integrated recycling system for the efficient, cost-effective and environmentally sound disposal of waste;

C. To require the development and implementation of a solid waste management plan for the city of South Lake Tahoe;

D. To help preserve the quality of the environment for city of South Lake Tahoe residents by preserving resources, conserving energy, and reducing waste;

E. To improve the city of South Lake Tahoe's economy by creating useful and rewarding jobs for its residents; and

F. To protect and promote the health, safety, and well-being of the city of South Lake Tahoe residents.

**4.150.530 Collection of ~~general refuse~~discarded materials by other than exclusive franchisee prohibited.**
No ~~refuse~~ hauler or disposal company other than ~~the exclusive~~ franchisee ~~of the city~~ or its appropriately authorized designee shall in any way collect ~~refuse~~ discarded materials ~~or remove refuse placed in refuse disposal containers~~ from any location within the city limits. ~~No individual, company or entity other than city's exclusive franchisee may remove recyclable materials from refuse disposal containers once said material has been placed in those containers.~~

**4.150.540 Removal of recyclable materials from existing state-authorized buyback centers prohibited.**
No individual, company or entity other than ~~city's exclusive~~ franchisee, or its authorized designee, shall be authorized to remove recyclable materials from any state-authorized buyback center. Said locations, for purposes of clarity of this regulation, are identified as follows:

Ruth Avenue Recycling Center.

Nothing in this section shall be construed to limit any individual, company or entity other than ~~city's exclusive~~ franchisee from developing additional recycling sites; provided applicable zoning, building, fire and other requirements of local and state regulatory agencies are met.

~~**4.150.550 Reporting requirements.**~~
~~Any individual, company or entity engaging in the recycling materials must, prior to the commencement of such activities, obtain a permit from the city manager or his/her designee and any other city required permits and/or licenses. The permit will be issued when permitee provides the names, addresses and~~

telephone numbers of the owners/operators of recycling enterprise, the type of materials to be collected, the collection area, the market to which the materials collected will be shipped, and the method of such shipment. Thereafter, on a monthly basis, reports shall be submitted to the city manager who provides a detailed accounting of the following information:

A. The physical location of the recyclable materials operation;

B. The certified weight of the volumes of each product taken to market;

C. The market to which each of the materials was sent, along with the method of shipment;

D. An accounting (by weight) by geographical area (jurisdiction) from which the recyclables were collected.

On an annual basis, a compilation of the information provided to the city through the required monthly reporting process as specified herein, shall be provided to the city on a schedule to be determined by the city manager or his/her designee. All required information will be considered proprietary and not available for public information. Failure to provide required information will result in the revocation of this permit. Permit fee will cover reasonable costs of administration.

**4.150.560 Compliance with local, state and federal regulations.**

All individuals, companies or entities engaged in the collection of recyclable materials shall adhere to all applicable local, state and federal regulations in carrying out their operations. Such compliance shall include but not necessarily be limited to conducting operations from a location which has been approved by all applicable governmental entities for such use and utilizing appropriate recyclable material handling and hauling practices. To the extent that any recycling operation, by virtue of its size or nature, may become subject to laws relating to the provision of workers' compensation benefits, or other similar regulatory authority, the recycling operator shall comply with all such laws in existence.

**4.150.570 Disposal of unmarketable recyclable materials.**

Any recyclable materials collected by any individual, company or entity which cannot be stored or sustained in accordance with all applicable health, safety, fire, building, and visual codes and/or standards shall be turned over to the transfer station of the city's exclusive refuse franchisee and all applicable disposal fees shall be paid.

Anyone engaging in the disposal of such materials in any manner other than that described within this section shall be guilty of an infraction.

**4.150.580 Recyclable materials of city – No fee for processing.**

Any and all recycling collection services are subject to payment of a five percent franchise fee to the city if any fee is charged to the customers for service collection. Fee shall be based on gross revenue as reported on the annual city business licenses. In the event no fee is charged by the collection service, the city council may either waive the franchise fee or require that the collection service provide similar services to city facilities without charge.

**4.150.590 Indemnification of city by those engaged in recycling activities.**

Any person, company or entity engaged in recycling activities which requires removal and transport of recyclable materials over city rights-of-way shall obtain an encroachment permit from the public works department in accordance with Chapter 7.05 SLTCC, and any such encroachment permit issued shall be subject to the customary hold harmless and indemnity provisions established by city ordinance as contained in Chapter 7.05 SLTCC.

~~**4.150.600 No vesting of rights, entitlements or rights to operate recycling facilities shall be recognized prior to effective date of ordinance.**~~
~~No person, company or entity shall be deemed by the city council to have developed any legal, nonconforming use, vested right or entitlement to engage in recycling operations by virtue of commencement of recycling prior to the effective date of the ordinance codified in this chapter. No recycling operator, irrespective of the date of commencement of their recycling activities, shall be exempt from the requirements and regulations established by this article. Any person or business currently operating a recycling collection service shall obtain required permits within 60 days of the adoption of the ordinance codified in this chapter.~~

**4.150.610 Development of materials recovery facility prohibited.**
No person, company or entity shall develop or create any type of materials recovery facility (MRF) without review and approval by the city council to ensure consistency with the county integrated waste management plan during the term the ordinance codified in this chapter remains in effect.

## Division 2. Recycling Organic Waste

**4.150.620 Requirements for residential organic waste recycling.**
A. Owners and occupants of single-family units and multiresidential properties of four or less units shall:

1. Subscribe to the city's organic waste collection service for organic waste generated, except for food waste and food-soiled paper; and

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container in accordance with SLTCC 4.150.110.

B. Owners of multiresidential properties of five or more units who have not received a de minimis waiver or physical space waiver shall:

1. Subscribe to the city's organic waste collection service;

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container in accordance with SLTCC 4.150.120;

3. Annually provide information to tenants about organic waste recovery requirements and about proper sorting of organic waste;

4. Provide educational information within 14 days of occupation of the premises to new tenants that describes requirements to keep organic waste separated and the location of containers and the rules governing their use at the property; and

5. Provide access for the city or its agent to the property during all inspections conducted under SLTCC 4.150.505 to confirm compliance with the requirements of this division.

C. De Minimis Waiver.

1. Owners of multiresidential properties of five or more units may request a de minimis waiver from some or all of the requirements of this section by submitting the following information:

a. The requirements requested to be waived;

b. Documentation that either: (a) the multiresidential property's total solid waste collection service is two cubic yards or more per week and source separated organic waste subject to collection comprises less than 20 gallons per week; or (b) the multiresidential property's total solid waste collection service is less than two cubic yards per week and source separated organic waste subject to collection comprises less than 10 gallons per week.

2. A de minimis waiver granted by the city will be effective for five years unless circumstances change such that the thresholds are exceeded, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in this subsection (C).

D. Physical Space Waiver.

1. Owners of multiresidential properties of five or more units may request a physical space waiver from some or all of the requirements of this section by submitting documentation from the franchisee, a licensed architect, or a licensed engineer demonstrating that the premises lacks adequate space for the organic waste container that would otherwise be required.

2. The city manager may grant a physical space waiver based on the information submitted in addition to any evidence from city staff justifying the waiver. A physical space waiver granted by the city will be effective for five years unless the portion of the premises where containers are stored is reconfigured, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in subsection (D)(1).

**4.150.630 Requirements for commercial organic waste recycling.**

A. Owners and operators of commercial businesses generating more than two cubic yards of solid waste per week and have not received a physical space waiver shall arrange for organic waste recycling services, including food waste, consisting of at least one of the following:

1. Source separating organic waste from other waste and subscribing to a basic level of organic waste recycling services that includes collection and recycling of organic waste, including food waste;

2. Recycling organic waste on site or self-hauling organic waste, including food waste, for recycling; or

3. Subscribing to an organic waste recycling service that may include mixed waste processing that specifically recycles organic waste, including food waste; and

4. For owners and operators of commercial businesses complying with this subsection (A) through means other than subscribing to an organic waste recycling service provided by the city's franchisee, an annual report shall be provided to the city by October 1st of each year to certify compliance through on-site recycling or self-hauling. Annual reports shall include the following information for the preceding 12-month period of June 30th to July 1st:

a. The name of the owner and operator for the commercial business;

b. The name and address for the commercial business; and

c. The volume in cubic yards or gallons, measured by the size of the containers in use, of organic waste recycled on site, through self-hauling including the destination(s), or by other means.

B. In addition to the applicable requirements of subsection (A) of this section, owners and operators of commercial businesses not granted an exemption from mandatory collection under SLTCC 4.150.390 and who have not received a de minimis waiver or physical space waiver shall:

1. Subscribe to the city's organic waste collection service;

2. Participate in the city's organic waste collection service by placing organic waste generated, except for food waste and food-soiled paper, in a separate container for collection;

3. Provide labeled containers for the collection of organic waste, except for food waste and food-soiled paper, if any is generated by the business or its customers, in all indoor and outdoor areas where disposal containers are provided for customers, except in restrooms;

4. Prohibit employees from placing materials in a container not designated for those materials, to the extent practical through measures such as education, training, and inspection;

5. Periodically inspect the organic waste container for contamination and take corrective measures when contamination is found including reminding employees not to place materials in a container not designated for those materials;

6. Annually provide information to employees, contractors, tenants, and customers about organic waste recovery requirements and about proper sorting of organic waste;

7. Provide education information before or within 14 days of occupation of the premises to new tenants that describes requirements to keep organic waste materials, except for food waste, separated and the location of containers and the rules governing their use; and

8. Provide access to the city or its agent to its properties during all inspections conducted under SLTCC 4.150.505 to confirm compliance with the requirements of this division.

C. In addition to the applicable requirements of subsections (A) and (B) of this section, owners and operators of tier one commercial edible food generators shall:

1. Arrange to recover the maximum amount of edible food that would otherwise be disposed;

2. Contract with food recovery organizations or food recovery services for collection or acceptance of self-hauled edible food for food recovery;

3. Allow the city or agent to access the premises and review records pursuant to Section 18991.4 of Title 14 of the California Code of Regulations, as may be amended from time to time; and

4. Keep records that include the following information as required by Section 18991.4 of Title 14 of the California Code of Regulations, as may be amended from time to time:

a. A list of each food recovery service or organization that collects or receives the generator's edible food pursuant to contract;

b. A copy of all such contracts;

c. A record of the following information for each contracted food recovery service or food recovery organization:

i. Name, address, and contact information;

ii. Types of food that will be collected or self-hauled;

iii. Established frequency that food will be collected or self-hauled; and

iv. Quantity of food, measured in pounds recovered per month, collected or self-hauled.

D. Commencing on January 1, 2024, owners and operators of tier two commercial edible food generators shall:

1. Comply with the requirements for tier one commercial edible food generators in this section; and

2. For large venue or large event operators not providing food services, but allowing for food to be provided by others, require food facilities operating at the large venue or large event to comply with the requirements for tier one commercial edible food generators in this section.

E. De Minimis Waiver.

1. Owners and operators of commercial businesses may request a de minimis waiver from some or all of the requirements ~~of this section~~subsections (A) and (B) of this section by submitting the following information:

a. The requirements requested to be waived;

b. Documentation that either: (a) the commercial business's total solid waste collection service is two cubic yards or more per week and source separated organic waste subject to collection comprises less than 20 gallons per week; or (b) the commercial business's total solid waste collection service is less than two cubic yards per week and source separated organic waste subject to collection comprises less than 10 gallons per week.

2. A de minimis waiver granted by the city will be effective for five years unless circumstances change such that the thresholds are exceeded, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in this subsection (E).

F. Physical Space Waiver.

1. Owners and operators of commercial businesses may request a physical space waiver from some or all of the requirements of subsections (A) and (B) of this section by submitting documentation from the franchisee, a licensed architect, or a licensed engineer demonstrating that the premises lacks adequate space for the organic waste container that would otherwise be required.

2. The city manager may grant a physical space waiver based on the information submitted in addition to any evidence from city staff justifying the waiver. A physical space waiver granted by the city will be effective for five years unless the portion of the premises where containers are stored is reconfigured, in which case the city will rescind the waiver. An applicant may reapply prior to the expiration of its waiver by providing the required information in subsection (F)(1).

**4.150.640 Requirements for food recovery organizations and services.**

A. Owners and operators of food recovery services maintaining their principal place of business within the city and having a contract with commercial edible food generators to collect or receive edible food directly shall:

1. Report to the city the total pounds of edible food recovered for the previous calendar year from tier one and tier two commercial edible food generators with which the food recovery service has

contracted, no later than October 1st of each year for the preceding 12-month period of June 30th to July 1st; and

2. Maintain the following records:

a. Name, address, and contact information for each commercial food generator from which edible food is collected;

b. Quantity, measured in pounds per month, of edible food collected from each commercial edible food generator;

c. Quantity, measured in pounds per month, of edible food transported to each food recovery organization; and

d. Name, address, and contact information for each food recovery organization to which the food recovery service transports edible food.

B. Owners and operators of food recovery organizations maintaining their principal place of business within the city and having a contract to collect or receive edible food directly shall:

1. Report to the city the total pounds of edible food recovered for the previous calendar year from tier one and tier two commercial edible food generators with which the food recovery service has contracted, no later than October 1st of each year for the preceding 12-month period of June 30th to July 1st; and

2. Maintain the following records:

a. Name, address, and contact information for each commercial food generator from which edible food is received;

b. Quantity, measured in pounds per month, of edible food received from each commercial edible food generator; and

c. Name, address, and contact information for each food recovery service from which edible food is received.

LEGAL PUBLICATION

CITY OF SOUTH LAKE TAHOE
SUMMARY OF PROPOSED ORDINANCE

NOTICE IS HEREBY GIVEN that on June 4, 2024, the City of South Lake Tahoe City Council waived first reading, read by title and referred to second reading and adoption at the June 18, 2024, City Council meeting the following ordinance:

**"An Ordinance Amending Chapter 4.150 (Refuse and Garbage) of the South Lake Tahoe City Code to Implement Residential 3-Cart System for Solid Waste, Recyclables, and Yard Trimmings"**

City Attorney's Summary of Ordinance:

"This ordinance would amend Chapter 4.150 of the South Lake Tahoe City Code to implement the residential 3-cart system for solid waste, recyclables, and yard trimmings in compliance with state law and the City's franchise agreement with South Tahoe Refuse, executed on August 22, 2023. The ordinance generally requires residential customers to use the three carts to be provided by South Tahoe Refuse, and to place the carts at the property line adjacent to the street no earlier than 6:00am on collection day. The ordinance also allows multi-residential properties of five or more units to comply with either the residential 3-cart requirements or the requirements applicable to commercial customers, and allows for application for a physical space waiver upon evidence that a multi-residential or commercial premises lacks adequate space for the containers otherwise required."

A copy of the proposed ordinance in its entirety is available for review at the City Clerk's Office or by contacting the City Clerk.

02 - Resolution - Excusing Absences.docx

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title: Excusing Mayor Pro Tem John Friedrich from Attending City Council Meetings on May 21, June 4, and June 18 Due to Illness**

**Location:** "Citywide"

**Responsible Staff Member:** Heather Stroud, City Attorney (530) 542-6046

**Background:** Under California Government Code section 36513, "[i]f a councilmember is absent without permission from all regular city council meetings for 60 days consecutively from the last regular meeting he or she attended, his or her office becomes vacant and shall be filled as any other vacancy." Mayor Pro Tem Friedrich has been unable to attend the last three City Council meetings due to illness. The May 21 meeting was cancelled due to lack of a quorum of councilmembers available to participate within the jurisdiction.

**Issue and Discussion:** Staff recommends adopting a resolution to excuse Mayor Pro Tem Friedrich's absences, as he has been ill and unable to attend meetings since the last meeting he attended remotely on May 7, 2024. If no action were taken, his seat would be considered vacated 60 days from that date on July 6, 2024. Adoption of this resolution will avoid the absences being "without permission" such that this council seat is not vacated while Mayor Pro Tem Friedrich is recovering from illness.

**Financial Implications:** This action has no fiscal implications.

**Environmental Considerations:** This action is not a "project" requiring environmental review under the California Environmental Quality Act ("CEQA") under CEQA Guidelines sections 15372(b)(2) (continuing administrative activities such as personnel-related actions) and 15378(b)(5) (organizational or administrative activities that will not result in direct or indirect physical changes in the environment).

**Policy Implications:** The proposed resolution would excuse Mayor Pro Tem Friedrich's absences from three City Council meetings due to illness, avoiding a vacant seat and the need to appoint a person to fill the seat until the election in November 2024.

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18, 2024**

## Excusing Mayor Pro Tem John Friedrich from Attending City Council Meetings on May 21, June 4, and June 18 Due to Illness

**BACKGROUND**

A. Under California Government Code section 36513, "[i]f a councilmember is absent without permission from all regular city council meetings for 60 days consecutively from the last regular meeting he or she attended, his or her office becomes vacant and shall be filled as any other vacancy."

B. The last regular city council meeting Mayor Pro Tem John Friedrich was able to attend was on May 7, 2024.

C. Mayor Pro Tem Friedrich has been unable to attend the last three City Council meetings on May 21, June 4, and June 18 due to illness. The May 21 meeting was cancelled due to lack of a quorum of councilmembers available to participate within the jurisdiction.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

Finds that Mayor Pro Tem Friedrich is excused from attending the regular City Council meetings on May 21, 2024, June 4, 2024, and June 18, 2024, due to illness.

Adopted by the City of South Lake Tahoe City Council on June 18, 2024 by the following vote:
Yes:
No:
Absent:
Abstain:

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**13

**Agenda Item:** Approval of City Salary Table

**Executive Summary:** The proposed Resolution approves City Salary Table in accordance with 2 California Code of Regulations section 570.5 and CalPERS requirements that the City Council duly approve and adopt publicly available pay schedules that include the effective date.

**Requested Action / Suggested Motions:** Pass a Resolution approving the City Salary Table in compliance with the California Code of Regulations and CalPERS requirements.

**Responsible Staff Member:** Ember Buckman, Human Resources Manager

**Reviewed and Approved By:** Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance Heather Stroud, City Attorney

**Attachments:**

01-Staff Report Approval of City Salary Tables.docx
02-Resolution Approval City Salary Table.docx
03 - City of South Lake Tahoe Salary Table 06 04 2024 (Exh A to Reso).pdf

# City of South Lake Tahoe
Report to **City Council**

**Meeting Date:** June 18, 2024

**Title:** Approval of City Salary Table

**Location:** Citywide

**Responsible Staff Member:** Ember Buckman, Human Resources Manager (530) 542-6050

**Background:**
Title 2 of the California Code of Regulations section 570.5 and the California Public Employees' Retirement System (CalPERS) mandate that publicly available pay schedules must be officially approved and adopted by the employer's governing body in compliance with relevant public meeting laws. The adopted pay schedules must also include an effective date and the date of any revisions.

**Issue and Discussion:**
The City is required to adhere to CCR 570.5 and CalPERS regulations. To fulfill this obligation, the City Council must approve the final version of the City Salary Table whenever changes are made to it. The attached salary table includes preapproved revisions and essential information such as the effective date and date of revision, which are mandatory as per CCR 570.5 and CalPERS.

The goal is to publish this salary table on the City's website in line with CCR 570.5 and CalPERS regulations.

**Financial Implications:** There are no financial consequences associated with approving the City Salary Table.

**Environmental Considerations:** Approval of the City Salary table is not a project subject to review under the California Environmental Quality Act (CEQA) under CEQA Guidelines section 15378(b)(2) (continuing administrative activities such as personnel-related actions).

**Policy Implications:** Approval of the City Salary Table complies with the California Code of Regulations and CalPERS requirements.

# Resolution 2024-XXX

**Adopted by the City of South Lake Tahoe**
**City Council**

**June 18. 2024**

**Approving the City Salary Table in compliance with the California Code of Regulations and CalPERS requirements**

## BACKGROUND

A. Title 2 of California Code of Regulations, section 570.5 (CCR 570.5) and the California Public Employees Retirement System (CalPERS) require publicly available Salary Tables to be duly approved by the City Council and include an effective date including any revisions.

B. To comply with CCR 570.5 and CalPERS requirements, the City Salary Tables is being brought to the City Council for approval.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Approves City salary table attached hereto as Exhibit A

Adopted by the City of South Lake Tahoe City Council on June 18, 2024, by the following vote:

Yes:
No:
Absent:
Abstain:

_____ Date:_____
Cody Bass, Mayor

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:** 14

**Agenda Item:** Defensible Space Ordinance (Second Reading)

**Executive Summary:** City Council will consider a proposed ordinance to define and create a mechanism to enforce defensible space requirements. The defensible space requirements are established through California Public Resource Code 4291 as minimum requirements for residents living in any mountainous area of which all South Lake Tahoe is. Enforcement will include a mechanism for warning, citing and eventually abating individual's lots who remain out of compliance with minimum standards. South Lake Tahoe is a community in the wildland urban interface that requires property owners to provide 100 feet of defensible space or to their property line, whichever is closer. In some cases, it can also require the owner of a neighboring lot to mitigate fuels if their property is within 100 feet of a structure. City Council has adopted the California Board of Forestry's Fire Severity Map which designates most of the city as being a "Very High" fire hazard zone further enforcing PRC 4392 requirements. Adoption of this ordinance gives the Fire Chief or his/her designee the ability to enforce defensible space requirements. The First Reading of this ordinance was presented to Council on June 4th, 2024. The Council voted 4-0 in favor of the ordinance. Councilmember Friedrich was absent.

**Requested Action / Suggested Motions:** Pass an Ordinance to Establish a Hazardous Vegetation and Combustible Material Abatement Program, and Similar Vegetation Management and Defensible Space Requirements.

**Responsible Staff Member:** Kim George, Fire Marshal and Jim Drennan, Fire Chief

**Reviewed and Approved By:** Susan Blankenship, City Clerk Olga Tikhomirova, Director of Finance Heather Stroud, City Attorney

**Attachments:**

01-Staff Report-Second Reading.docx
02-Ordinance.docx

**City of South Lake Tahoe**
**Report to City Council**

**Meeting Date: June 18, 2024**

**Title:** Ordinance to Establish a Hazardous Vegetation and Combustible Material Abatement Program, and Similar Vegetation Management and Defensible Space Requirements (Second Reading)

**Location:** Citywide

**Responsible Staff Member:** Kim George, Fire Marshal

**Background:** Catastrophic wildfires pose an urgent threat to lives, properties, and resources in California. Climate change, an epidemic of dead and dying trees, a century of fire exclusion, and the proliferation of new homes in the wildland-urban interface magnify this threat and place substantially more people and property at risk than in preceding decades. Due to these circumstances as well as our experiences here locally with the Caldor Fire, the Tamarack Fire, the Emerald Fire as well as the Angora Fire, South Lake Tahoe Fire Rescue is proposing to add additional defensible space requirements to the City Code to comport with updated California and El Dorado County guidelines and recommendations.

**Issue and Discussion:** Sections 51182 and 51189 of the Government Code, Section 4291 of the Public Resources Code, and AB 3074 outline defensible space requirements for mountainous areas of California. South Lake Tahoe is predominantly designated with the Cal Fire Hazard Severity Map as Very High which also requires defensible space minimums. This ordinance adopts these requirements, including in part, those set forth in AB 3074 which will potentially require Zone 0 by the end of 2024. Zone 0 would require homeowners to maintain a space within 5 feet of the structure which has no vegetation or material that would propagate fire.

**Financial Implications:** There is no direct financial implication to the city associated with this ordinance.

**Environmental Considerations:** This Ordinance is exempt from review under the California Environmental Quality Act (CEQA) under CEQA Guidelines 15301(h) (maintenance of existing landscaping and native growth) and 15304(i) (fuels management activities within 100 feet of structures to reduce the volume of flammable vegetation where the public agency having the fire protection responsibility has determined that 100 feet of fuel clearance is required due to extra hazardous fire conditions).

**Policy Implications:** The proposed ordinance is designed to both protect the health and safety of persons and property in the city as well as require fire hardening measures to mitigate increasing homeowners insurance rates city-wide.

# Ordinance 2024-XXX

## Adopted by the City of South Lake Tahoe City Council

## June 18, 2024

### An Ordinance Amending the South Lake Tahoe City Code to Add Chapter 5.30 (Hazardous Vegetation and Defensible Space) to Establish a Hazardous Vegetation and Combustible Material Abatement Program and Vegetation Management and Defensible Space Requirements

**FINDINGS**

A. As part of the ongoing effort to establish a hazardous vegetation and combustible material abatement program in City of South Lake Tahoe and in accordance with applicable law, the Fire Chief has recommended abatement of the growth and/or accumulation of weeds, grasses, shrubs, dormant brush, slash, tree limbs, hazardous vegetation and combustible materials on all improved parcels and designated unimproved parcels within the city and maintenance of those parcels to prevent vegetation from growing back.

B. In furtherance of the ongoing effort to establish a hazardous vegetation and combustible material abatement program, the city also requires vegetation management and defensible space requirements as set forth herein.

C. The City Council finds and declares that the uncontrolled growth and/or accumulation of weeds, grasses, hazardous vegetation and combustible materials or obstructions on sidewalks, streets, and on lands or lots within the city is dangerous or injurious to neighboring property and the health, safety, and welfare of residents of the city. Such growth and accumulation constitute a public nuisance in that it creates fire hazards, reduces the value of private property, promotes blight and deterioration, invites plundering, constitutes an unattractive nuisance and creates a hazard to the health, safety, and general welfare of the public.

D. It is the intent of the City Council that this chapter shall apply to the abatement of the growth and/or accumulation of weeds, grasses, shrubs, dormant brush, slash, tree limbs, hazardous vegetation and combustible materials on all improved parcels and designated unimproved parcels within the city and maintenance of those parcels to prevent vegetation from growing back.

E. All parcels in the city have been identified and designated as being within either a State Responsibility Area (SRA) or Local Responsibility Area (LRA) Moderate, High or Very High Fire Hazard Severity Zone by the California Department of Forestry and Fire Protection (CAL FIRE) in accordance with the most current edition of the Fire and Resource Assessment Program (FRAP) Map. The City is located in a mountainous region of Northern California. The City is an established community that intermingles with the natural environment which is at significant risk of a catastrophic wildfire.

F. Catastrophic wildfire events pose a serious threat to the preservation of public peace, health and safety within any wildland urban interface and intermix communities. The proper implementation and enforcement of hazardous fuel regulations and landscaping requirements have been proven to reduce the impact from destructive wildfires through the mitigation of hazardous fuel conditions around homes and roadways.

G. Wildfires with extreme fire behavior are occurring more often and growing larger. Eighteen of the 20 most destructive wildland fires in the State of California have occurred between 2002-2022. The city in particular has a history of destructive wildfires. These include the 2002 Gondola Fire, 2007 Angora Fire, 2016 Emerald Fire and the 2021 Caldor Fire, which all threatened the city. Climate change stressors, such as increased average air temperature, precipitation variability, reduced snowpack, drought, and tree mortality, will lead to an increased frequency of large wildfires that will create adverse impacts on the city.

H. Of paramount importance to the City and the residents of the City is the protection of lives and property from the threat of fire and the safety of fire and law enforcement personnel during wildfires.

I. During periods of drought and declared “fire seasons” the City generally has a dry, arid climate conducive to wildfires. Many of the City’s native and non-native plant species can be highly combustible during both drought and normal dry periods that have contributed to significant wildfires.

J. The City has difficult topography, terrain, and weather conditions that exacerbate the fire danger and that can create significant challenges for firefighters attempting to suppress wildfires. Many communities and individual residential, commercial, and industrial structures in the city are located in areas

that are at significant risk from wildfires due to their close proximity to steep topographical conditions that allow for rapid fire spread that can overwhelm the available firefighting resources in the City.

K. It is the purpose of this chapter to establish a hazardous vegetation and combustible material abatement program that protects the lives and property of the residents of the City.

L. It is the City Council's intent to make a fire safe community, thus giving residents better opportunities for affordable fire insurance.

M. California Public Resource Code section 4291 and Government Code section 51182 both establish that a minimum defensible space clearance of no less than 100 feet is required around structures to protect them from the threat of a wildfire. Due to the city's steep terrain, weather conditions, age of the structure, limited roadways to allow concurrent emergency vehicle access and public evacuation, limited water supply for fire protection, and hazardous vegetation present within the community and individual properties, the City Council finds that additional clearance beyond 100 feet may be required, on a case by case basis, around structures to significantly reduce the risk of transmission of flame or heat sufficient to ignite the structure where extra hazardous fire conditions exist. No other feasible mitigation measures to reduce the risk of ignition or spread of wildfire to the structure is present as many of these structures are existing and no other practical measures would adequately reduce this risk.

N. The City has the legal authority to adopt the provisions contained in this chapter as specified below:
    a. California Fire Code (CFC) Title 24, Part 9, Chapter 3, section 304.1.2, and Chapter 49 (Requirements for Wildland-Urban Interface Fire Areas), as locally adopted with amendments, provides minimum standards to increase the ability of a structure to resist the intrusion of flame or burning embers.
    b. California Code of Regulations Title 14, Division 1.5, Chapter 7, Subchapter 3, section 1299, and California Code of Regulations Title 19 section 3.07.
    c. California Public Resources Code section 4291 and California Government Code section 51182, as amended, requires a person or entity that owns, leases, controls, operates, or maintains a building or structure in, upon, or adjoining a mountainous area, forest-covered lands, brush-covered lands, grass covered lands, or land that is covered

with flammable material, to maintain defensible space of 100 feet from each side and from the front and rear of the structure, and which provides for required fuel modification so as to ensure that a wildfire burning under average weather conditions would be unlikely to ignite the structure on the property.

d. California Government Code section 39501 et seq provides that the city may compel the person or entity that owns, leases, occupies a building, ground or lot to remove weeds from buildings or grounds and adjacent sidewalks. If the person compelled by the city defaults, after notice prescribed by the city, it may authorize the removal or destruction of the weeds at that person's expense by a city officer. The city may prescribe a procedure for the removal or destruction and make the expense a lien upon the buildings or grounds.

e. California Civil Code section 1102.19, provides that on and after July 1, 2021, a seller of a real property in the city, and subject to this chapter, and that is located in a high or very high fire hazard severity zone, shall provide to the buyer documentation stating that the property is in compliance with Section 4291 of the California Public Resources Code or local vegetation management ordinances prior to the close of escrow. The seller shall also provide the buyer information on the local agency from which a copy of that documentation may be obtained prior to the close of escrow.

**Now, therefore, the City Council of the City of South Lake Tahoe does ordain as follows**:

SECTION 1. Chapter 5.30 is hereby added to the South Lake Tahoe City Code to read as follows:

## CHAPTER 5.30. HAZARDOUS VEGETATION AND DEFENSIBLE SPACE

This chapter shall be known as the Hazardous Vegetation and Defensible Space Ordinance. The purpose of this chapter is to provide for the removal of hazardous vegetation and combustible materials situated in the incorporated areas of the city so as to reduce the potential for fire and to promote the safety and welfare of the community.

### Section. 5.30.010. Conflict of Ordinances.

A. The operation of this chapter shall in no way change or diminish the application of other sections in this code dealing with like or similar matters.

B. In any case where a provision of this or any other chapter is found to be in conflict with a provision of any zoning, building, fire safety, or health ordinance or any other section of the code, including fines, the provision which establishes the higher standard for the promotion and protection of the health and safety of the people shall prevail.

C. It is not intended by this chapter to repeal, abrogate, annul, or in any way impair or interfere with existing provisions of other laws or ordinances or with private restrictions placed upon property by covenant, deed, or other private agreement.

**Section. 5.30.020. Definitions.**

For the purposes of this chapter, the following words and phrases shall have the meanings ascribed to them by this section.

“Abate” or “abatement” shall mean an act used to remove, destroy, eliminate, seize, impound, or any action taken to mitigate a public nuisance.

“Abatement costs” means the cost of staff time based on weighted salary consisting of base pay plus benefits; actual cost of mobilization, removal, disposal, of waste, weeds, grasses, hazardous vegetation and combustible materials, and actual cost to repair or abate hazardous conditions.

“Accumulation of weeds, grasses, hazardous vegetation, and combustible materials” means allowing the growth or accumulation of weeds, grasses, hazardous vegetation and/or the accumulation of combustible materials as defined below.

“At risk population facilities” means pre-schools, public and private primary and secondary schools, before and after school care centers with 12 or more students, daycare centers with 12 or more children, group homes, and assisted living residential or congregate care facilities with 12 or more residents.

“Biomass” shall mean all green waste material generated during a fuel treatment project. Biomass includes, without limitation, all grass, weeds, vegetation, and tree trimmings.

“City emphasis area” means an area designated by the city for focused, proactive inspections.

“Combustible material” means the accumulation of garbage, rubbish, waste, or material of any kind other than hazardous vegetation that is flammable and endangers the public safety by creating a fire hazard.

“Critical infrastructure” means a use or facility classified within one or more of the following categories: (1) essential services facilities, (2) at-risk populations facilities, (3) hazardous materials and solid waste facilities.

“Defensible space” means the buffer that responsible person(s) is(are) required to create on their property between a structure and the plants, brush and trees or other items surrounding the structure that could ignite in the event of a fire.

“Enforcement official” means the Fire Chief of South Lake Tahoe Fire Rescue.

“Essential services facilities” means public safety, emergency response, emergency medical, designated emergency shelters, communications, public utility plant facilities and equipment, and government operations facilities.

“Fire chief” means the Fire Chief of South Lake Tahoe Fire Rescue.

“Fire hazard” shall mean any condition, arrangement, act, or omission which:

1. Increases, or may cause an increase of hazard or menace of fire to a greater degree than that customarily recognized as normal by persons in the public service regularly engaged in preventing, suppressing, or extinguishing fire; or

2. May obstruct, delay, hinder, or interfere with the operations of a fire department or the egress of occupants in the event of fire.

“Garbage” includes, but is not limited to, the following: Waste resulting from the handling of edible foodstuffs or resulting from decay, and solid or semisolid putrescible waste, and all other mixed, non-recyclable wastes which are generated in the day-to-day operation of any business, residential, governmental, public, or private activity, and may include paper, plastic, or other synthetic material, food, or beverage containers.

“Hardwood” generally indicates trees which have broad leaves—deciduous trees (such as oak, alder, dogwood, and madrone).

“Hazardous materials and solid waste facilities” means any facility that could, if adversely impacted, release hazardous materials or waste in sufficient amounts during a hazard event that would create harm to people, the environment and property.

“Hazardous vegetation” shall mean any vegetation that is combustible and endangers the public safety by creating a fire hazard. Hazardous vegetation includes material that in its natural state will readily ignite, burn, and transmit fire from native or landscape plants to any structure or other vegetation. Hazardous vegetation includes, but is not limited to, dry grass and leaves, brush, weeds, green waste, dead or dying trees, low-hanging branches, litter, or other flammable vegetation that create a fire hazard. Hazardous vegetation shall not include a commercial agricultural crop that is being actively grown and managed by a responsible person.

“Improved parcel” means a portion of land of any size, the area of which is determined by the Assessor's maps and records and may be identified by an Assessor's parcel number upon which a structure is located.

“Ladder fuels” means fuels that can carry a fire vertically between or within combustible material or hazardous vegetation.

“Outbuilding” means a building that is less than 120 square feet in size and not used for human habitation. For purposes of this chapter, an outbuilding is not a structure.

“Responsible person(s)” means an owner, tenant, occupant, lessor, manager, licensee, political subdivision, local government agency or other person having control over a structure or parcel of land or, to the fullest extent allowed by law, the parent or legal guardian of any person under 18 years who have done any act for which a penalty may be imposed under this chapter, or any other person required to comply with the provisions of the code and, any other lien holder, secured party, or other person who has properly recorded a security interest or other appropriate document evidencing an interest in the property, which has been recorded in the official records of the county of El Dorado.

“Rubbish” includes, but is not limited to, non-putrescible wastes, such as paper, cardboard, grass clippings, tree, or shrub trimmings, leaves and needles, wood chips used in landscaping or within five feet of a structure, bedding, crockery, rubber tires, construction waste and similar waste materials.

“Slash” means the woody debris remaining on the ground after fuels management work: Slash including but not limited to treetops, branches, bark, chunks, cull logs, uprooted stumps, and uprooted trees.

“Softwood” means the wood from a conifer (such as pine, cedar, fir, or spruce) as distinguished from that of broadleaved trees.

“Structure” means buildings which qualify for occupancy classification and use designation per the city building code.

“Unimproved parcel” means land of any size, the area of which is determined by the Assessor's maps and records and may be identified by an Assessor's parcel number upon which no structure is located.

“Vegetation” means plants considered collectively, especially those found in a particular area or habitat. For the purposes of this chapter any tree less than six inches in diameter is considered vegetation.

“Waste” means all putrescible and non-putrescible solid, semi-solid, and liquid wastes, including residential, commercial, and municipal garbage, trash, refuse, paper, rubbish, ashes, industrial wastes, construction, and demolition debris, discarded home and industrial appliances, manure, vegetable or animal solid and semi-solid wastes, and other discarded solid wastes and semisolid wastes.

“Weeds” include any of the following:

1. Weeds which bear seeds of a downy or wingy nature.

2. Weeds and grasses which attain such growth as to become, when dry, a fire menace to adjacent improved parcel.

3. Poison oak and poison ivy when the conditions of growth are such as to constitute a menace to the public health.

4. Dry grass, stubble, brush, or other flammable vegetation which endangers the public safety by creating a fire hazard.

5. Vegetation that is not pruned or is otherwise neglected so as to attain such large growth as to become, when dry, a fire menace to adjacent property.

“Wildfire risk area” refers to lands that are covered with grass, grain, brush, or forest, whether privately or publicly owned, which is so situated or is of such inaccessible location that a fire originating upon it would present an abnormally difficult job of suppression or would result in great or unusual damage through fire or such areas designated by the enforcement official.

**Section. 5.30.030. Prohibited Conduct.**

A responsible person shall not dump, nor permit the dumping of weeds, grasses, hazardous vegetation, refuse, or other combustible material, nor shall a responsible person permit the accumulation of weeds, grasses, hazardous vegetation, refuse, or other combustible material on that responsible person's property or on any other property so as to constitute a fire hazard.

**Section. 5.30.040. Duty to Remove and Abate Hazardous Vegetation and Combustible Material.**

A. Prior to the close of any real estate transaction subject to Civil Code section 1102.19 within the city, the seller of any real property shall obtain a defensible space inspection report from an enforcement official that the property is in compliance with this chapter and provide that report to the buyer at or before the close of escrow. If the property inspected is found not in compliance with this chapter the responsible person(s) will need to perform the necessary wildfire protection measures as specified within the inspection report and have the property inspected again prior to escrow or the buyer shall agree to achieve compliance within 120 days as specified in this chapter. If an enforcement official is unable to provide a defensible space inspection report at the time of escrow, the buyer shall request a report from an enforcement official stating the property is in compliance with this chapter within 120 days after the close of escrow, unless otherwise approved by the enforcement official. Nothing in this

subsection, including the existence of an agreement between a buyer and a seller, shall limit the ability of the enforcement official to enforce the provisions of this chapter.

B. All persons who own, lease, control, operate or maintain any improved parcel(s), shall comply with the following requirements:

1. Maintain defensible space as described in California Code of Regulations title 14, division 1.5, chapter 7, subchapter 3, section 1299.03, as amended, and as otherwise described by this chapter, which is adjacent to each side of a building or structure, but not beyond the property line except as provided in this chapter, and must be cleared of hazardous vegetation, or combustible material, as set forth in this chapter.

2. Consistent with hazardous vegetation and defensible space treatment objectives, steps should be taken to minimize erosion by maintaining a noncombustible perimeter around any structure in accordance with the following requirements:

   a. Combustible materials, including woody vegetation, wooden borders for infiltration systems, or stored flammable items such as firewood and lumber, shall not be permitted near any structure, attached deck, stairs, and the area under any attached deck and stair landing in accordance with the distance requirements set forth in California Code of Regulations title 14, division 1.5, chapter 7, subchapter 3, section 1299.03; Government Code sections 51182, 51186, and 51189; and Public Resources Code section 4291.

   b. All organic materials, such as pine needles and woody vegetation, shall be routinely removed near any structure, attached deck, stairs, and the area under any attached deck and stair landing in accordance with the distance requirements set forth in California Code of Regulations title 14, division 1.5, chapter 7, subchapter 3, section 1299.03; Government Code sections 51182, 51186, and 51189; and Public Resources Code section 4291.

   c. Use rock or non-combustible mulch or well irrigated herbaceous vegetation to stabilize the soil within 5 feet of any structure, attached deck, stairs, and the area under any attached deck and stair landing.

   d. Mature trees are permitted.

3. A greater clearance distance up to 300 feet shall be required when the inspection report by the enforcement official, and supported by the enforcement official, includes documented information that the clearing is necessary to significantly reduce the risk of transmission of flame or heat

sufficient to ignite the structure, and there is no other feasible mitigation measure possible to reduce the risk of ignition or spread of wildfire to the structure.

4. The responsible person(s) who perform hazardous vegetation management activities that remove or dispose of vegetation is required to comply with all federal, state, or local environmental protection laws and obtain permits when necessary. Environmental protection laws include, but are not limited to, threatened and endangered species, water quality, air quality, and cultural/archeological resources.

5. When a structure is less than 100 feet from a property line and hazardous vegetation on an adjacent parcel presents a fire hazard for the structure the responsible person of the parcel where the fire hazard exists shall be responsible for removing the fire hazard in that area on that responsible person's land when it is within 100 feet of the structure. The determination for appropriate clearance distances will be made based upon a visual inspection of the parcel and shall consider all factors that place the property or structure(s) at risk from an approaching fire. These factors shall include local weather conditions, fuel type(s), topography, and the environment where the property or structure(s) is located.

6. The enforcement official may designate improved parcels and unimproved parcels adjacent to all roads and driveways as necessary for the safe ingress and egress to the area served by the road or emergency vehicle access and assess the current condition of fuels on the parcel as a fire hazard which must be treated or abated. Once such designation is made, the responsible person shall within a reasonable time ensure that such parcels comply with the following:

   a. All vegetation along roads and driveways shall be maintained to an unobstructed vertical clearance height of no less than 15 feet to allow for the passage of emergency vehicles.

   b. All ladder fuels shall be cleared to a minimum width of a ten feet wide strip of land beyond the road or driveway. Additional clearance width beyond ten feet may be required by the enforcement official when documented information shows that the clearance is necessary to significantly reduce the risk of transmission of flame or heat that can obstruct the road or driveway.

C. Critical Infrastructure sites shall comply with the following requirements:

1. Essential service and at-risk population structures and accessory buildings 120 square feet in size or larger that support the operations of the facility shall comply with this chapter.

2. Individual aboveground LP-gas and flammable liquid storage tanks greater than 2,000 gallons water capacity shall comply with the following defensible space clearance requirements:

   a. A minimum 50 foot clearance on all sides of the tank when the capacity is between 2,001 and 30,000 gallons.

   b. A minimum 75 foot clearance on all sides of the tank when the capacity is between 30,001 and 70,000 gallons.

   c. A minimum 100 foot clearance on all sides of the tank when the capacity exceeds 70,000 gallons.

   d. Regardless of capacity storage tanks shall have ten feet of clearance to bare mineral soil, or other approved non-combustible surface, and no hazardous vegetation underneath and around the immediate exterior of the tank.

   e. Storage tanks shall comply with the defensible space requirements described in this chapter between ten feet and 100 feet of the tank exterior.

3. Lumber yards, agro-industrial, solid waste and woodworking facilities subject to the requirements found in California Fire Code chapter 28 shall comply with the following defensible space clearance requirements:

   a. The storage of wood chips, hogged materials, fines, compost, solid biomass, feedstock and waste, agro-industrial and recycle facilities, with individual storage piles greater than 2,500 cubic feet in size, shall comply with the defensible space requirements found in this chapter. Storage piles shall be separated a minimum of 30 feet.

   b. Cold decks of unfinished logs, and exterior finished lumber storage areas, greater than 8,333 cubic feet in size, shall comply with the defensible space clearance requirements found in this chapter when they are in use for greater than 180 calendar days. Storage piles shall be separated a minimum of 100 feet.

4. Free standing photovoltaic systems and equipment shall comply with the defensible space clearance requirements:

   a. A minimum ten foot clearance to bare mineral soil, or other approved non-combustible surface, for clusters of panels not exceeding 1,500 square feet of combined panel area.

b. A minimum 30 foot clearance to bare mineral soil, or other approved non-combustible surface, for clusters of panels greater than 1,500 square feet of combined panel area.
c. Clusters shall be separated a minimum of 20 feet.

5. Telecommunication facilities determined by the enforcement official to serve as a critical infrastructure site during an emergency, shall comply with the following defensible space clearance requirements:

a. A minimum 30 foot clearance for telecommunication towers.

b. A minimum 100 foot clearance as described in this chapter around accessory buildings 120 square feet in size or larger that support the operations of the facility.

6. Public and private water distribution system storage tanks and pumping facilities shall have a minimum 30 feet clearance from hazardous vegetation around and adjacent to such facilities as described in this chapter.

7. The minimum clearance requirements described in this section may be modified by the enforcement official when topographical, environmental, and hazardous vegetation conditions present on the parcel limit the ability of the responsible party to fully comply with this chapter.

8. For the purpose of applying this section the defensible space clearance requirements described do not extend beyond the property line when the responsible party does not own the adjoining parcel of land, except as set forth in section 5.30.040(B)(5).

**Section. 5.30.050. Violation.**

A. Any responsible person who violates a provision of this chapter or fails to comply therewith or with any of the requirements thereof, shall be subject to remedies available under this chapter and/or state law, including administrative citations under chapter 2.30 of this code. Whenever in this code any act or omission is made unlawful, it shall include causing, maintaining, permitting, aiding, abetting, suffering, or concealing the fact of such act or omission.

B. The imposition of any fines prescribed herein shall not preclude abatement of any violation enforced through this chapter by the enforcement official or institution of any other civil or criminal legal proceedings.

C. Nothing in this chapter shall be interpreted to preclude an enforcement official from informally encouraging compliance with this code or other applicable laws.

Informal oral or written requests to encourage compliance are encouraged, as are attempts to informally negotiate or mediate issues relating to compliance.

**Section. 5.30.060. Enforcement Officials.**

The enforcement official shall have the authority and powers necessary to determine whether an administrative violation of the code exists and the authority to take appropriate action to gain compliance with the provisions of the code. The enforcement official shall further have authority to issue notices and orders, the power to inspect public and private property, recommend abatement, and use the administrative remedies that are available under the code.

**Section. 5.30.070. Inspection.**

An enforcement official, or personnel acting under their direction, may enter upon private or public property whenever necessary to enforce or administer the provisions of this chapter pursuant to an inspection warrant issued under Code of Civil Procedure section 1822.50 et seq or with consent of a responsible person legally authorized to provide such consent.

**Section. 5.30.080. Enforcement Procedure.**

A. Initial notice of duty to remove and abate waste, hazardous vegetation and combustible material.

1. The enforcement official may mail written notice to any owner citywide when inspection of the parcel reveals a violation of this chapter, or when a complaint alleging violation(s) of this chapter is received by the enforcement official. stating that all waste, hazardous vegetation and combustible material located on such parcel must be removed and or abated as specified in section 5.30.040 on or before the date specified in such notice.

B. Notice of Violation and Order to Correct.

1. The enforcement official may commence proceedings to enforce the provisions of this chapter when a violation is identified due to the failure of a responsible person for a parcel to remove and abate all waste, hazardous vegetation and combustible material as required pursuant to this chapter.

2. Enforcement proceedings are commenced by the mailing of a Notice of Violation and Order to Correct in the manner prescribed as follows: The enforcement official shall mail the Notice of Violation and Order to Correct to each owner of the parcel as determined based on the last equalized assessment roll available on the date of mailing of the hazard abatement

notice, to which the violation pertains. Notification may also be accomplished by posting the Notice of Violation and Order to Correct on the property if the owner's mailing address is not available or not current.

3. The contents of the Notice of Violation and Order to Correct shall include the following:

   a. A description of the property by reference to the Assessor's parcel number as used in the records of the County Assessor, and by reference to the common name of a street or road upon which the property abuts, if the property abuts upon a road or street;

   b. A statement that there are hazardous vegetation, combustible materials, or other fire hazard condition upon the property that must be abated;

   c. A request that such hazardous vegetation, and/or combustible materials be removed or abated by the date specified in the notice, which shall be no less than 15 calendar days following the mailing or posting of the notice;

   d. A statement that if such hazardous vegetation, and/or combustible materials are not removed or abated by the property owner by the specified date that such materials may be removed under authority of the city, and the costs of such removal and abatement may be made a legal charge against the owner or owners of the property, a lien imposed on and recorded against the property in the amount of such costs, and such costs referred to the County Auditor for collection together with property taxes on such property pursuant to the provisions of Government Code section 39501 through 39588;

   e. A statement referencing the right of the property owner to appeal the issuance of the notice pursuant to section 5.30.100 herein;

   f. With respect to notices which are posted, a title which reads "Notice of Violation and Order to Correct to Remove Weeds, Grass, Hazardous Vegetation, Waste and/or Other Combustible Materials," the letters of the foregoing title to be not less than one inch in height;

   g. Notices which are posted shall be conspicuously posted in front of the property, or if the property has no frontage upon a road or street, then upon a portion of the property nearest to a road or a street most likely to give actual notice to the owner. Notices shall be posted not more than 100 feet in distance apart upon property with

more than 200 feet of frontage, and at least one notice shall be posted on each parcel with 200 or less feet of frontage;

h. Such notice also will be sent by certified mail to the property owner of such parcel as her or his name appears on the last equalized assessment roll and to the address shown on such assessment roll.

**Section 5.30.090. Service of Notices.**

Whenever a notice is required to be given under this chapter and unless specifically provided otherwise, it shall be served pursuant to the process set out in chapter 4.40.080, et seq.

**Section 5.30.100. Appeals Procedure.**

Any person or entity who is adversely affected by the Notice of Violation and Order to Correct specified in section 5.30.080 may appeal such notice to the enforcement official within 20 calendar days of the postmark on the hazard abatement notice by filing a written appeal with the enforcement official. Timely appeal shall stay any further action for removal or abatement until the date set for hearing, unless the weeds, hazardous vegetation, waste, or combustible material at issue presents an imminent fire hazard within 100 feet of any structure. The enforcement official shall set the matter for hearing before a hearing officer. The enforcement official shall notify the appellant by certified mail of the date and time set for such hearing, at least 15 days prior to said date. If the appellant resides outside the city, such notice of hearing shall be mailed to the appellant at least 20 days prior to the date set for the hearing. The hearing shall be conducted in accordance with the procedures set forth in section 4.40.090, et seq. of this code.

**Section. 5.30.110. Penalty – Infraction.**

A. Notwithstanding the provisions of any other section of this code, violation of any of the provisions of this chapter, or failure to comply with any of the regulatory requirements of this chapter, is an infraction.

B. Payment of the fine shall not excuse the failure to correct the violation nor shall it bar further enforcement action by the city.

**Section. 5.30.120. Seasonal Designation or Reoccurring Public Nuisance.**

In the case of a parcel containing a fire hazard where it has been necessary for the city to abate the nuisance in two consecutive years, and the fire hazard is seasonal or recurring, the city declares such a parcel to be a seasonal public nuisance. As to such parcels constituting a seasonal public nuisance, the enforcement official, or her/his designee may mail notice to the responsible person(s) of the property at the address that appears upon the current assessment roll. If the nuisance is not abated by the

responsible person(s) within the time specified, the city may proceed to abate the property and recover costs for doing so.

**Section. 5.30.130. Abatement and Summary Abatement**

Any condition caused, maintained, or permitted to exist in violation of any provisions of this code may be abated by the city pursuant to the procedures set forth in chapter 4.40 of the code.

SECTION 2. If any section, subsection, sentence, clause, or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision will not affect the validity of the remaining portions of this Ordinance. The City Council declares that it would have passed this Ordinance and each and every section, subsection, sentence, clause, or phrase not declared invalid or unconstitutional without regard to whether any portion of the Ordinance would be subsequently declared invalid or unconstitutional.

SECTION 3: The City Council finds that this Ordinance is exempt from review under the California Environmental Quality Act (CEQA) under CEQA Guidelines 15301(h) (maintenance of existing landscaping and native growth) and 15304(i) (fuels management activities within 100 feet of structures to reduce the volume of flammable vegetation where the public agency having the fire protection responsibility has determined that 100 feet of fuel clearance is required due to extra hazardous fire conditions).

SECTION 4. The City Clerk is directed to certify this Ordinance and cause it to be published in the manner required by law.

SECTION 5. This Ordinance shall become effective 30 days following its adoption.

LEGAL PUBLICATION

CITY OF SOUTH LAKE TAHOE
SUMMARY OF PROPOSED ORDINANCE

NOTICE IS HEREBY GIVEN that on June 4, 2024, the City of South Lake Tahoe City Council waived first reading, read by title and referred to second reading and adoption at the June 18, 2024, City Council meeting the following ordinance:

**" An Ordinance Amending the South Lake Tahoe City Code to Add Chapter 5.30 (Hazardous Vegetation and Defensible Space) to Establish a Hazardous Vegetation and Combustible Material Abatement Program and Vegetation Management and Defensible Space Requirements "**

City Attorney's Summary of Ordinance:

"This ordinance would require the removal of hazardous vegetation and combustible materials to reduce the potential for fire. Specifically, the ordinance prohibits allowing the accumulation of weeds, grasses, hazardous vegetation, refuse, or other combustible material, requires a defensible space inspection report from the city prior to closing any real estate transaction, and requires maintenance of defensible space adjacent to structures including use of rock or non-combustible mulch within 5 feet of a structure and maintenance of defensible space up to the property line within 100 feet of a structure, unless a larger clearance area is required. The ordinance provides for inspections and enforcement, including abatement."

A copy of the proposed ordinance in its entirety is available for review at the City Clerk's Office or by contacting the City Clerk.

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**15

**Agenda Item:** Direct Charge for Mello-Roos Special Tax for Community Facilities District No. 1995-1 for Fiscal Year 2024-2025

**Executive Summary:** In 1995, the City Council created Community Facilities District (CFD) No 1995-1 to fund public facilities related to the first redevelopment project at Ski Run Boulevard and Highway 50. Timeshare owners are not required to pay Transient Occupancy Tax when they use their interval time. To address this shortfall, the City established a Community Facilities District comprised solely of the Embassy Vacation Resort (EVR), currently called the Hilton Vacation Club Lake Tahoe Resort South, and its timeshare owners. Property owners within the District, which are the timeshare owners, must pay an annual Mello-Roos assessment with their property tax to the County. The revenue was used to fund public improvements that benefit the assessed property.

**Requested Action / Suggested Motions:** Pass a Resolution authorizing certification of direct charge for Mello-Roos Special Tax for Community Facilities District No. 1995-1 for Fiscal Year 2024-2025.

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance

**Reviewed and Approved By:** Susan Blankenship, City Clerk Heather Stroud, City Attorney

# City of South Lake Tahoe
Report to **City Council**

## Meeting Date: June 18, 2024

**Title:** **FY 2024-2025 Direct Charge for Mello-Roos Special Tax for Community Facilities District No. 1995-1**

**Location:** Citywide

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance (530) 542-7431

**Background:** In 1995, the City Council created Community Facilities District (CFD) No 1995-1 to fund public facilities related to the first redevelopment project at Ski Run Boulevard and Highway 50. Timeshare owners are not required to pay TOT when they use their interval time. To address this shortfall, the City established a Community Facilities District comprised solely of the Embassy Vacation Resort (EVR), currently called the Lake Tahoe Vacation Resort by Diamond Resorts, and its timeshare owners. Property owners within the District, which are the timeshare owners, must pay an annual Mello-Roos assessment with their property tax to the County. The revenue was used to fund public improvements that benefit the assessed property.

**Issue and Discussion:** Each year the City Council is required to certify to El Dorado County the amount of the CFD 1995-1 Mello-Roos assessment to be included on the property tax rolls. This annual certification is in accordance with established City policy and State law. The revenue from the Mello-Roos assessment is included in the annual budget for payment of redevelopment debt and maintenance of services provided through the General Fund.

There are three components to the assessment each year. First, the Facilities Special Tax is collected to pay for the public improvements installed. It is a fixed rate of $43.00 per year. Second, the Basic Services Special Tax Part (i) is collected to fulfill developer obligations under the Disposition and Development Agreement and it is a fixed rate of $1.50 per year.

The third component is the Basic Services Special Tax Part (ii), which is used to pay for maintenance of the improvements and for the provisions of General Fund services to the property. This assessment increases each year in accordance with the Consumer Price Index (CPI).

**Financial Implications:** Last year the assessment for Basic Services Special Tax Part (ii) was $7.10 per owner, this year it will increase to $7.36. The rate stated for Basic Services Special Tax Part (ii) has increased by 3.67% based on the annual percentage change for the previous year in the San Francisco, Oakland, Hayward, California Consumer Price Index.

The total special assessment levy for CFD 1995-1 for fiscal year 2024-2025 will be approximately $273,035.

**Environmental Considerations:** This action is categorically exempt from review under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15301 (Existing Facilities).

**Policy Implications:** None.

# Resolution 2024-XXX

## Adopted by the City of South Lake Tahoe City Council

## June 18, 2024

## Authorizing Certification of FY 2024/2025 Direct Charge for Mello-Roos Special Tax Community Facilities District No. 1995-1

**BACKGROUND**

A. The City of South Lake Tahoe Community Facilities District No. 1995-1 authorizes the City of South Lake Tahoe to levy certain special taxes to pay for identified facilities and services, as set forth in "A Resolution of the City Council of the City of South Lake Tahoe of Formation of Community Facilities District and to Levy a Special Tax," Resolution No. 1995-95.

B. The special taxes, fees, or assessments for Fiscal Year 2024/2025 need to be certified for placement on the Secured Property Tax Bills for El Dorado County, California.

C. In accordance with Community Facility District No. 1995-1, the maximum rate for Basic Services Special Tax Part (ii) has been increased by 3.67% based on the annual percentage change from the Consumer Price Index for the San Francisco-Oakland-Hayward, CA area.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the City Council of the City of South Lake Tahoe:

1. Certifies the special taxes for CFD 1995-1 for FY 2024/2025 as follows:

| | |
|---|---|
| Facilities Special | $43.00 |
| Basic Services Special Tax Part (i) | $1.50 |
| Basic Services Special Tax Part (ii) | $7.36 |

2. Authorizes the Mayor of the City of South Lake Tahoe to execute the attached Annual Certification of Direct Charge for said CFD 1995-1 special tax for fiscal year 2024/2025.

Adopted by the City of South Lake Tahoe City Council on June 18, 2024 by the following vote:

FY 2024/2025 ANNUAL CERTIFICATION OF DIRECT CHARGE

As agreed by City of South Lake Tahoe CFD 1995-1 , hereinafter referred to as "District", and El Dorado County, hereinafter referred to as "County", in paragraph 12 of the "Agreement for Collection of Special Taxes, Fees, and Assessments", the District hereby certifies that the special taxes, fees, or assessments listed below, to be placed on the County's Secured Property Tax bills by the District, meet the requirements of Proposition 218 that added Articles XIIIC and XIIID to the State Constitution.

The District agrees to defend, indemnify and hold harmless the County, the Board of Supervisors, the Auditor-Controller, its officers and employees, from litigation over whether the requirements of Proposition 218 were met with respect to such special taxes, fees, or assessments.

If any judgement is entered against any indemnified party as a result of not meeting the requirements of Proposition 218 for such special taxes, fees, or assessments, the District agrees that the county may offset the amount of any judgement paid by an indemnified party from any monies collected by the County on the behalf of the District, including property taxes, special taxes, fees, or assessments.

# City of South Lake Tahoe

**Agenda Item Executive Summary**

Joe Irvin, City Manager

**Meeting Date:** June 18, 2024
**Agenda Item #:**16

**Agenda Item:** Annual Special Tax for Community Facilities District 2001-1 Series 2015 Special Tax Refunding Bonds for Fiscal Year 2024-2025

**Executive Summary:** in 2001, the South Tahoe Redevelopment Agency ("the Agency") Board of Directors established Community Facilities District No 2001-1 to fund public facilities related to the Park Avenue (Heavenly Village) redevelopment project. The Agency issued bonds to pay for the public improvements associated with the project. These improvements included Park Avenue, Bellamy Court and Fern Road improvements, streetscape and public plaza improvements and stream environment zone restoration.

**Requested Action / Suggested Motions:** Acting as the South Tahoe Redevelopment Successor Agency, Pass a Resolution Establishing the Annual Special Tax for Community Facilities District 2001-1 (Park Avenue Project) Series 2015 Special Tax Refunding Bonds (Heavenly Village) for Fiscal Year 2024-2025.

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance

**Reviewed and Approved By:** Susan Blankenship, City Clerk Heather Stroud, City Attorney

**Attachments:**

# City of South Lake Tahoe
Report to **Redevelopment Successor Agency**

## Meeting Date: June 18, 2024

**Title:** **Annual Special Tax for Community Facilities District 2001-1 Series 2015 Special Tax Refunding Bonds for Fiscal Year 2024/2025**

**Location:** Citywide

**Responsible Staff Member:** Olga Tikhomirova, Director of Finance, (530) 542-7431

**Background:** In 2001, the South Tahoe Redevelopment Agency ("the Agency") Board of Directors established Community Facilities District No 2001-1 to fund public facilities related to the Park Avenue (Heavenly Village) redevelopment project. The Agency issued bonds to pay for the public improvements associated with the project. These improvements included Park Avenue, Bellamy Court and Fern Road improvements, streetscape and public plaza improvements and stream environment zone restoration. The proceeds of the special tax may be used to pay for the following costs:

1. Payment of principal and interest on the outstanding bonded indebtedness;
2. Necessary replenishment of bond reserve funds or other reserve funds;
3. Payment of costs and expenses on authorized public facilities (Parking Garage);
4. Repayment of advances and loans, if appropriate;
5. Payment of the District's administrative costs

**Issue and Discussion:** This annual certification is in accordance with established Agency policy and State law. The revenue from the Mello-Roos assessment is included in the annual budget for payment of South Tahoe Redevelopment Successor Agency Community Facilities District No. 2001-1 debt.

The specific rate and amount of the tax to be collected to fund the costs and expenses for the upcoming fiscal year for this District was determined and established in the Rate and Method of Apportionment of Special Tax adopted by the Agency Board on July 17, 2002.

The parcels included in the assessment are the Heavenly Valley Gondola; the eight commercial parcels; each quarter share of the Marriott Grand Residence and each weekly time-share of the Marriott Timber Lodge.

The original bonds were refunded in February 2007 and again in 2015. The annual special tax levies on the parcel holders remained the same, and the annual debt service savings resulting from the refunding are used to augment the previously fixed annual amount of $190,000 surplus special tax revenues available to pay debt service on the South Tahoe Joint Powers Parking Financing Authority Parking Revenue Bonds, 2013 Series A until their payoff in January 2024, and for other allowable uses thereafter. In connection with the refunding, the South Tahoe Redevelopment

Successor Agency and the South Tahoe Joint Powers Financing Authority amended the Parking Facility Agreement to allow the Agency at its discretion to transfer more than the previously fixed amount.

**Financial Implications:** The total special tax assessment to be levied on the 2024/2025 Tax Roll will be approximately $921,091. The assessments will pay for costs associated with the Mello-Roos district, including bonded debt service of $513,581 and administrative costs $81,527.

The balance of special taxes remaining after payment of all Mello-Roos debt service and administrative costs, will be used to pay for other costs permissible under the 2001-1 CFD Rate and Method (RMA) of Apportionment of Special Tax, and is estimated to total $325,983.

**Environmental Considerations:** This is not a “project” subject to review under the California Environmental Quality Act (CEQA) Guidelines section 15378(b)(2) (continuing administrative or maintenance activities, such as purchases for supplies).

**Policy Implications:** None.

# Resolution 2024-XXX

**Adopted by the Governing Board of the**
**South Tahoe Redevelopment Successor Agency**

**June 18, 2024**

**Establishing Annual Special Tax for Community Facilities District No. 2001-1 (Park Avenue Project), Series 2015 Special Tax Refunding Bonds (Heavenly Village) for Fiscal Year 2024/2025**

## BACKGROUND

A. The Governing Board of the South Tahoe Successor Agency, (hereinafter referred to as the "legislative body"), has initiated proceedings, held a public hearing, conducted an election and received a favorable vote from the qualified electors relating to the levy of a special tax in a community facilities district, all as authorized pursuant to the terms and provisions of the "Mello-Roos Community Facilities Act of 1982", being Chapter 2.5, Part 1, Division 2, Title 5 of the Government Code of the State of California. This Community Facilities District shall hereinafter be referred to as "District".

B. This legislative body, by Ordinance as authorized by Section 53340 of the Government Code of the State of California, has authorized the levy of a special tax to pay for costs and expenses related to said Community Facilities District, and this legislative body is desirous to establish the specific rate of the special tax to be collected for the next fiscal year.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, BE IT RESOLVED**, that the Governing Board of the South Tahoe Redevelopment Successor Agency:

1. Establishes and determines that the calculation of the specific rates and amount of the special tax to be collected to pay for the costs and expenses for the next fiscal year (2024/2025) for the referenced District is set forth in the attached, referenced and incorporated Exhibit "A".
2. Certifies that the rate as set forth above does not exceed the amount as previously authorized by Ordinance of this legislative body and is not in excess of that as previously approved by the qualified electors of the District, and is exempt from Proposition 218, Section XIIID of the California State Constitution.
3. Certifies that the proceeds of the special tax shall be used to pay, in whole or in part, the costs of the following:

    i. Payment of principal of and interest on any outstanding authorized bonded indebtedness;
    ii. Necessary replenishment of bond reserve funds or other reserve funds;
    iii. Payment of costs and expenses of authorized public facilities;

iv. Repayment of advances and loans, if appropriate.
v. Payment of District administrative costs.

4. Certifies that the proceeds of the special taxes shall be used as set forth above and shall not be used for any other purpose.
5. Directs that the special tax shall be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and same procedure and sale in cases of any delinquency for ad valorem taxes and authorizes the Tax Collector to deduct reasonable administrative costs incurred in collecting any said special tax.
6. Directs all monies above collected shall be paid into the Community Facilities District funds, including any bond fund and reserve fund.
7. Directs the Auditor of the County to enter in the next County assessment roll on which taxes will become due, opposite each lot or parcel of land effected in a space marked "public improvements, special tax" or by any other suitable designation, the installment of the special tax, and for the exact rate and amount of said tax, reference is made to the attached Exhibit "A".
8. Directs the County Auditor to then, at the close of the tax collection period, promptly render to this Agency a detailed report showing the amount and/or amounts of such special tax installments, interest, penalties and percentages so collected and from what property collected, and also provide a statement of any percentages retained for the expense of making any such collection.

PASSED, APPROVED, AND ADOPTED THIS 18th DAY OF JUNE 2024.

I, Susan Blankenship, Secretary of the South Tahoe Redevelopment Successor Agency, County of El Dorado, State of California do hereby certify that the foregoing Resolution No. 2024-XXX was regularly adopted by the Governing Board of said South Tahoe Successor Agency at a regular meeting of said Board held on the 18th day of June 2024, by the following vote:

Yes:
Noes:
Absent:
Abstained:

_____
Cody Bass, Board Chair
South Tahoe Redevelopment Successor Agency

Susan Blankenship, Secretary
South Tahoe Redevelopment Successor Agency

*The presence of electronic signature certifies that the foregoing is a true and correct copy as approved by the South Tahoe Redevelopment Successor Agency.*

Exhibit “A”

SOUTH TAHOE REDEVELOPMENT AGENCY
COMMUNITY FACILITIES DISTRICT NO. 2001-1 (PARK AVENUE PROJECT)
SERIES 2015 SPECIAL TAX REFUNDING BONDS (HEAVENLY VILLAGE)
2024/2025 CHARGE DETAIL REPORT

Parcel identification, for each lot or parcel within the District, shall be the parcel as shown on the El Dorado County Assessor's map for the year in which this Report is prepared.

Approval of this exhibit (The 2024/2025 Charge Detail Report is on file in the City Clerk’s office) as submitted or as amended confirms the Rate and Method of Apportionment of Special Tax and the tax rate to be levied against each eligible parcel and thereby constitutes the approved levy of Special Taxes for Fiscal Year 2024/2025. Said listing of parcels to be assessed shall be submitted to the County Auditor/Controller and included on the property tax roll for each parcel in Fiscal Year 2024/2025. If any parcel submitted for collection is identified by the County Auditor/Controller to be an invalid parcel number, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor/Controller. The tax amount to be levied and collected for the resubmitted parcel or parcels shall be based on the Rate and Method of Apportionment of Special Tax and tax rate approved for Community Facilities District No. 2001-1 (Park Avenue Project), Series 2015.
