---

**Board of Health members**

The public is invited to attend. Parking and meeting rooms are accessible for persons with disabilities. Questions or additional information about the board meeting may be obtained by contacting the Board Clerk at 425.339.5210; Email [SHD-BoardClerk@snoco.org](mailto:SHD-BoardClerk@snoco.org). To request reasonable accommodations, please contact the Board Clerk by the Friday prior to the board meeting. It's customary at each regular meeting of the full Board to include an assigned period for public comment from individuals present at the meeting. Generally, the public comment occurs near the beginning of the meeting and comments are limited to no more than three minutes per person. The Chair of the board may, as circumstances require at each meeting, reduce the time allotted to individuals or reduce the overall time assigned for public comments.

 [Draft Minutes - December 9, 2025](#)

**Snohomish County Board of Health**  
**Board of Health Minutes**  
**December 9, 2025**

The regular meeting was held in the auditorium of the Rucker Building and via Zoom conference call/video.

**Members Present**

Megan Dunn, Chair  
Heather Logan, Vice Chair  
Janet Anderberg  
Lisa George  
Summer Hammons  
Dale Kaemingk  
Desmond Skubi  
Mindy Woods

**Members Absent**

Jared Mead

**Call to Order**

The regular meeting of the Board of Health was called to order using a hybrid setting at 3:00 p.m. by Ms. Megan Dunn.

**Comings and Goings**

Desmond Skubi arrived at 3:13 p.m.

**Roll Call**

Roll call was taken by Clerk of the Board Sarah Buker who reported there was a quorum present.

**Approval of Agenda Contents and Order**

It was moved by Heather Logan and seconded by Mindy Woods to approve the agenda contents and order.  
The motion passed unanimously.

**Approval of Minutes of October 14, 2025**

It was moved by Heather Logan and seconded by Mindy Woods to approve the minutes of the regular meeting of October 14, 2025. The motion passed unanimously.

**Approval of Minutes of November 4, 2025**

It was moved by Mindy Woods and seconded by Heather Logan to approve the minutes of the special meeting of November 4, 2025. The motion passed unanimously.

**Public Comment**

Megan Dunn opened the floor for public comment. Kerri Lonergan-Dreke provided comment regarding unpermitted food vendors. No one else from the public volunteered to speak and Megan Dunn closed the public comment period.

## Action

*Proclamation 25-09 Recognizing Heather Logan for her Service on the Board of Health (SR 25-034)*

Ms. Nicole Thomsen read aloud the proclamation. Board members expressed their appreciation for Heather Logan's public service.

It was moved by Mindy Woods and seconded by Janet Anderberg to approve Proclamation 25-09. The motion passed unanimously with one abstention (Heather Logan).

## Director's Report

Department Director Kim Van Pelt provided an update including:

- Federal litigation
- Strategic plan
  - Agreed to provide quarterly strategic plan progress
- Opioid settlement
- Foundation Public Health Services
- Unpermitted food vendors update
- 90-day progress as new director

## Briefings

*Financial Update (SR 25-035; Theresa Bengtson)*

Finance Manager Theresa Bengtson provided an update regarding the 2025-2026 biennial budget, historical and projected trends of funding, and known and potential impacts for funding sources. Board members discussed need for deeper understanding funding complexities and sustainability planning and expressed support for the creation of a financial workgroup with consultant for funding sustainability.

*Year in Review (SR 25-036; Department Staff)*

Staff presented accomplishments across divisions:

- Board actions: Record number of ordinances adopted (8 in 2025).
- Office of the Director: Strategic plan finalized; building remodel completed; major outreach campaigns (MMR, flu).
- Environmental Health: 4,300 food inspections; improved permit turnaround; expanded Savvy Septic program.
- Prevention Services: STI clinic success; immunization outreach doubled; TB program milestones; chronic disease initiatives.

*Intersection of Public Health and Equity (SR 25-037; Nicole Thomsen)*

Public Affairs, Planning, and Policy Manager Nicole Thomsen and Health Equity Policy Analyst Helen Wong shared a presentation on equity initiatives, partnerships, and workforce diversity efforts with an emphasis on community trust and culturally-responsive services.

## Old Business

## New Business

## Information Items

*Upcoming Meetings*

Chair Dunn reviewed the dates of the next Board of Health meetings, noting the January meeting is cancelled (due to member appointments). Next meetings: February 10, 2026, and March 10, 2026.

**Adjournment**

The meeting was adjourned at 4:50 p.m.

---

Megan Dunn, Chair, Board of Health

---

Kimberly Van Pelt, Department Director

---

Election of chair and vice chair

---

**Background**

Snohomish County Code Section 2.300.090 states: "There is hereby established a Snohomish county board of health, as directed by RCW 70.050.035. The board of health shall annually elect a chair and vice chair from its membership. The chair shall be one of the county councilmembers and shall preside at the meetings of the board of health."

The floor will be opened to Board members to place a nomination for their nominee or nominees for Board Chair, then Vice Chair. Election of Chair and Vice Chair will be made by roll-call vote of the full Board.

**Board Authority**

Snohomish County Code Section 2.300.090 and RCW 70.050.035.

---

Resolution 26-01 regarding Foundational Public Health Services

---

**Division:**

Office of the Director; Kim Van Pelt, Director

---

**Background**

The Washington State Legislature is considering a nearly 40% reduction in funding for Foundational Public Health Services (FPHS), which would severely impact the ability of local health jurisdictions to provide essential public health protections. FPHS funding is the backbone of Washington's public health system, supporting critical services such as disease tracking and response, food and water safety, emergency preparedness, and multilingual health communications. These services are not optional - they are population-level protections performed solely by governmental public health agencies. Without stable FPHS funding, communities across Snohomish County would face delays in permitting, gaps in disease surveillance, and reduced capacity to respond to emergencies like floods, wildfires, and outbreaks.

This resolution urges the Legislature to maintain FPHS funding and correct revenue errors that support the FPHS account. FPHS investments have been transformative for Snohomish County, enabling rapid containment of a measles outbreak, real-time coordination during the December 2025 floods, and expanded customer service support across all Environmental Health programs and administrative services – including OSS permit technicians and regulatory revisions that strengthen environmental health protections. Losing this funding would dismantle these capabilities and leave our residents vulnerable to preventable health threats.

Adoption of this resolution demonstrates the Board's commitment to protecting the health and safety of Snohomish County residents and ensuring a strong, resilient public health system for the future.

**Board Authority**

RCW 70.05.060 – Powers and duties of local board of health

Snohomish County Code Chapter 2.300

**Recommended Motion**

Suggested Action: Move to approve Resolution 26-01

Description

- [Resolution 26-01 Regarding FPHS Funding](#)

SNOHOMISH COUNTY HEALTH DEPARTMENT  
RESOLUTION OF THE BOARD OF HEALTH

RESOLUTION NUMBER: 26-01

RESOLUTION SUBJECT: Foundational Public Health Services

WHEREAS, a responsive and viable governmental public health system is essential for healthy and economically vital communities across Washington; and

WHEREAS, protecting the public's health across the state is a fundamental responsibility of the state, which is accomplished through the state's governmental public health system. This system comprises the state department of health, the state board of health, local health jurisdictions, sovereign tribal nations, and Indian health programs; and

WHEREAS, Foundational Public Health Services (FPHS) are core services that the governmental public health system is responsible for providing consistently and uniformly in every community in Washington; and

WHEREAS, like public safety, public utilities, and other public infrastructure, there is a foundational level of public health services that must exist to protect the health of everyone in Washington state; and

WHEREAS, the governmental public health system in Washington provides the foundation for the larger health care framework, working to prevent illness and disease while supporting the work of community partners; and

WHEREAS, tracking, responding to, and preventing costly food and water contamination and disease outbreak-activities performed by public health is essential to protecting the public's health; and

WHEREAS, in 2019, the Legislature passed HB 1947, which codified the governmental public health system, the Foundational Public Health Services framework, and support to rebuild and transform public health in Washington State; and

WHEREAS, the Legislature has established the Foundational Public Health Services Account, and invested \$300 million in the 2026-2027 biennium to the governmental public health system to implement Foundational Public Health Services; and

WHEREAS, FPHS funding enabled Snohomish County to protect health during the December 2025 floods by enabling staffing of the County Emergency Operations Center, supporting environmental health risk monitoring, and delivering timely, multilingual safety guidance to residents. This coordination ensured continuity of essential public health services despite 100+ road closures and power outages and drove over 170,000 visits to the county's public safety hub. FPHS funding reduced disaster response fragmentation, improved the timeliness of emergency response communications, and reduced health and safety risks during the public health emergency; and

WHEREAS, FPHS funding allowed Snohomish County to rapidly detect and contain a January 2026 measles outbreak before widespread transmission occurred. This was achieved through immediate activation of an Incident Management Team, real-time coordination with neighboring counties and the state, and timely public communication that reduced

misinformation. Without FPHS support, delays in response would have increased the risk of disease spread in schools, healthcare settings, and neighboring jurisdictions, leading to higher costs and preventable illness; and

WHEREAS, FPHS funding supports critical epidemiology and surveillance work in Snohomish County, enabling the Health Department to track and respond to sexually transmitted infections (STIs). In the first half of 2024 alone, Snohomish County reported over 1,000 chlamydia cases, 200 gonorrhea cases, and 20 syphilis cases. FPHS-funded staff ensure data-driven interventions that break transmission cycles and protect vulnerable populations, including pregnant women and newborns. Without this funding, the county would lack the capacity to understand disease burden and would be limited in its ability to implement effective prevention strategies; and

WHEREAS, FPHS funding has strengthened Environmental Health in Snohomish County by expanding customer service support across the division's programs and administrative services, including On-Site Sewage (OSS) permit technicians, and enabling regulatory revisions that improve environmental health protections. These enhancements ensure timely permitting responsive service and modernized regulations that safeguard water quality, food safety, and community health; and

WHEREAS, Foundational Public Health Services funds have allowed the Health Department to prepare for disease outbreaks by having an adequate number of staff available to respond; and

WHEREAS, without maintaining ongoing, stable, and dedicated funding for core public health services, our communities are left unprepared for emergencies like hazardous air from wildfires, vulnerable to the spread of communicable diseases like measles, and unprotected from health threats such as contaminated drinking water; and

WHEREAS, supporting core public health services today is critical to keeping communities healthy, strong, and resilient to threats and emergencies for future generations.

NOW, THEREFORE, BE IT RESOLVED, the Snohomish County Board of Health calls on the Washington State Legislature to recognize that public health is essential and maintain Foundational Public Health Services funding and fix vapor tax errors that support the Foundational Public Health Services Account, to support core services in all communities and allow public health to continue to rebuild its statewide system with added efficiency.

ADOPTED this \_\_\_\_ day of February 2026

## Tuberculosis (TB) is a bacterial infection.

Most people with TB have it in their lungs. But it can infect any part of the body.

Antibiotics can cure TB.

## TB isn't easily spread.

You have to spend a lot of time close to a person with active TB disease to catch it.

TB isn't easily spread outdoors because air flows freely and sunlight kills the bacteria.

## TB isn't spread when people:

Share clothes.

Share utensils.

Hug, kiss or have sex.

## TB is uncommon in the U.S.

About 20 TB cases occur in Pierce County each year.

## Active TB disease symptoms:

- Coughing 3 weeks or more.

- Fever.
- Fatigue.
- Night sweats.

- Weight loss.
- Coughing up blood.

## People at highest risk for TB:

Live with a person with active TB disease.

Travel to or were born where TB is common.

Have a health problem.

Ordinance 26-01 related to sewer connections

---

**Division:**

Environmental Health; JR Myers, Assistant Director

---

**Background**

State regulations governing on-site sewage systems (OSS) allow local boards of health to require connection to a public sewer system when necessary to protect public health, safety, and the environment, and in certain cases when required by local comprehensive plans or development regulations. The Growth Management Act (GMA) generally limits the extension of urban services into rural areas, allowing such extensions only in narrow circumstances necessary to address basic public health, safety, and environmental protection.

Snohomish County Code similarly restricts sewer extensions outside of urban growth areas (UGAs), except when required by the Health Department or a state agency. While the Board of Health already holds this authority under state law, the Board has identified the need to clearly delegate decision-making authority to the Health Officer and to codify criteria governing when public sewer connections may be required for new development outside of UGAs.

This ordinance amends Chapter 5.05 of the Snohomish County Board of Health Code to add a definition for Urban Growth Areas (UGAs) and to delegate authority from the Board of Health to the Health Officer to require connection to a public sewer system under limited, clearly defined circumstances when outside the UGA. The ordinance clarifies existing authority under WAC 246-272A-0025 and ensures consistency with state law, the Growth Management Act (GMA), and county land use regulations.

**Board Authority**

RCW 70.05.060 (3) Enact such local rules and regulations as are necessary in order to preserve, promote and improve the public health and provide for the enforcement thereof.

WAC 246-272A-0025(3) Local boards of health may require a new development to connect to a public sewer system to protect public health.

WAC 246-272A-0025(4) Local boards of health shall require new development or a development with a failing OSS to connect to a public sewer system if it is required by the comprehensive land use plan or development regulations.

SNOHOMISH COUNTY BOARD OF HEALTH  
Snohomish County, Washington

## ORDINANCE NO. BOH26-01

RELATING TO PUBLIC SEWER CONNECTION REQUIREMENTS; ADDING A NEW DEFINITION AND NEW SECTION TO CHAPTER 5.05 OF THE BOARD OF HEALTH CODE

WHEREAS, WAC 246-272A-0025(3) provides that local boards of health may require a new development to connect to a public sewer system to protect public health; and

WHEREAS, WAC 246-272A-0025(4) provides that local boards of health shall require new development or a development with a failing on-site sewage system to connect to a public sewer system if it is required by the comprehensive land use plan or development regulations; and

WHEREAS, as the Washington State Legislature recognized in the Growth Management Act, chapter 36.70A RCW (GMA), that generally cities are the units of government most appropriate to provide urban governmental services; and

WHEREAS, the State Legislature also recognized in RCW 36.70A.110(4) and implementing regulations in WAC 365-196-320(1)(c), that the extension of urban governmental services, such as sanitary sewer systems, to rural areas, is allowed in those limited circumstances necessary to protect basic public health, safety, and the environment, and only when such services are financially supportable at rural densities and do not permit urban development; and

WHEREAS, the Snohomish County Code in Section 30.29.110 recognizes that connection to a public sewer is generally prohibited outside of an Urban Growth Area except when required by the Snohomish County Health Department or a state agency; and

WHEREAS, the Snohomish County Board of Health ("Board of Health") aims to ensure that any requirement for new development or a development with a failing on-site sewage system to connect to public sewer systems, whether inside or outside of urban growth areas, is consistent with applicable state and local rules and regulations; and

WHEREAS, delegating the authority granted to the Board of Health under WAC 246-272A-0025(3) and (4) to the Snohomish County Health Officer or their representative, allows for timely and consistent public health decision making based on established criteria and unique elements of each development proposal; and

ORDINANCE NO. BOH26-01  
RELATING TO PUBLIC SEWER CONNECTION  
REQUIREMENTS; ADDING A NEW DEFINITION  
AND NEW SECTION TO CHAPTER 5.05  
Page 1 of 1

1            WHEREAS, under RCW 70.05.060(3) the Board of Health has authority to enact  
2 such local rules and regulations as necessary in order to preserve, promote, and  
3 improve the public health and provide for the enforcement thereof; and  
4

5            WHEREAS, the Board of Health has determined that updating the existing  
6 Snohomish County Board of Health Code to formally delegate this authority to the  
7 Health Officer, or their representative, and to adopt criteria for when a public sewer  
8 connection may be required for new development outside of the urban growth areas, is  
9 necessary to effectively communicate the local rules and regulations to the people of  
10 Snohomish County;

11            NOW, THEREFORE, BE IT ORDAINED:

12            Section 1. A new section is added to Chapter 5.05 of the Snohomish County  
13 Board of Health Code to read:

14            **5.05.050      Definitions.**

15            In addition to the definitions found in WAC 246-272A-0010, the following shall apply to  
16 this title:

17            "Urban Growth Areas" or "UGAs" means those areas designated by the county after  
18 consultation with cities, where urban growth will be encouraged and supported  
19 by public facilities and services. The urban growth areas include areas and densities  
20 sufficient to permit the urban growth that is projected to occur in the county for a 20-  
21 year period. Urban growth refers to growth that makes intensive use of land for the  
22 location of buildings, structures, and impermeable surfaces to such a degree as to be  
23 incompatible with the primary use of such land for the production of food, other  
24 agricultural products or fiber, or the extraction of mineral resources.

25            Section 2. A new section is added to Chapter 5.05 of the Snohomish County  
26 Board of Health Code to read:

27            **5.05.100      Connection to public sewer system.**

28            A. *Purpose.* The purpose of this section is to delegate authority from the board of  
29 health to the health officer, under WAC 246-272A-0025, and establish criteria  
30 under which the health officer may require new development located outside of  
31 the urban growth area to connect to a public sewer system.

32            B. *Authority delegated.*

33            1. The board of health delegates its authority under WAC 246-272A-0025(3) to  
34 the health officer to decide when to require a new development to connect to a  
35 public sewer system when necessary to protect public health, safety, and the

1 environment. The health officer may only allow connection upon finding that the  
2 criteria in subsection (C) have been met.

3  
4 2. The board of health delegates its authority under WAC 246-272A-0025(4) to  
5 the health officer to require new development or development with a failing on-  
6 site sewage system to connect to a public sewer system when required by the  
7 Snohomish County comprehensive land use plan or development regulations.

8  
9 C. *Criteria for requiring public sewer connection for new development (OSS) outside*  
10 *of an urban growth area when necessary to protect public health, safety, and the*  
11 *environment.* The health officer may require a new development located outside  
12 of the urban growth area to connect to a public sewer system upon finding all of  
13 the following criteria have been met:

- 14 1. the connection is necessary to protect basic public health and safety;
- 15 2. the connection is necessary to protect the environment;
- 16 3. public sewer system services are financially supportable and will not permit  
17 urban development in conflict with the Snohomish County comprehensive  
18 land use plan or development regulations;
- 19 4. the public sewer provider allows the sewer connection and has adequate  
20 public sewer services available within 200 feet from where the existing  
21 building drain connects to the existing building sewer, or where no building  
22 drain exists, within 200 feet from where the sewer line begins, as measured  
23 along the usual or most feasible route of access;
- 24 5. the real property upon which the new development is proposed abuts an  
25 urban growth area; and
- 26 6. an on-site sewage system (OSS) fully conforming to the requirements of this  
27 title cannot be designed and/or installed.

28  
29 D. *Issuance of health officer decision.* Any decision of the health officer under this  
30 section shall be in writing and shall demonstrate how the requirements of this  
31 section have been met.

32  
33 E. *Independence of agency decisions.* A decision by the health officer requiring  
34 connection to a public sewer system does not guarantee, imply, or influence any  
35 decision made by the Snohomish County Department of Planning and  
36 Development Services or any other applicable local, state, tribal or federal  
37 agency with permitting or regulatory authority.

38  
39 Section 3. Severability. If any provision of this ordinance or its application to any  
40 person or circumstance is held invalid, the remainder of the ordinance or the application  
41 of the provision to other persons or circumstances is not affected.

COUNTY** 444  
HEALTH DEPARTMENT

# Requiring Sewer Connections

A Board of Health Code Update

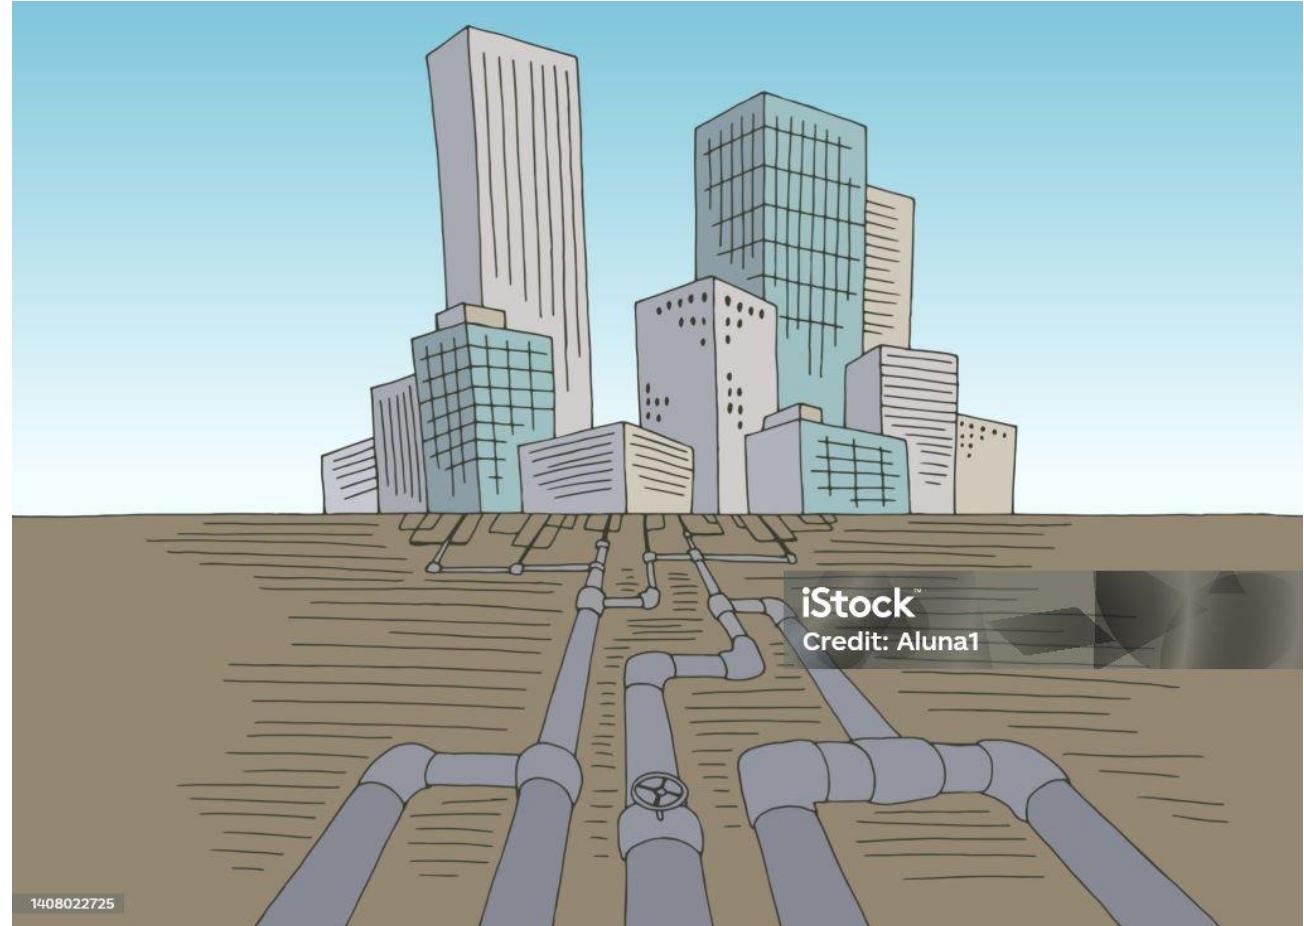

# What needs to happen

We need to update Snohomish County Board of Health Code to delegate authority to the Health Officer when requiring new construction to connect to public sewer

# Background

- Washington State Growth Management Act (GMA) prohibits sewer connections outside Urban Growth Areas (UGAs) to prevent sprawl
- Local Health Jurisdictions can require a connection to sewer in limited cases

# Section 1

## Connection to public sewer system.

(1) Upon the failure of an existing OSS within the service area of a sewer utility, the local health officer **shall**:

(a) Permit the repair or replacement of the OSS only if a **conforming OSS** can be designed and installed, excluding OSS designed in compliance with or proposing to use Table X in WAC [246-272A-0280](#); or

(b) **Require connection** to a public sewer system if the sewer utility allows the connection and has adequate public sewer services available within **200 feet** from where the existing building drain connects to the existing building sewer, or where no building drain exists, within 200 feet from where the sewer line begins, as measured along the usual or most feasible route of access.

## Translation:

The Health Officer shall permit a repair *if* conforming, or require sewer connection *if* within 200 feet and sewer utility ok

Repairs are considered 1<sup>st</sup> priority

## Section 2

### Connection to public sewer system.

(2) The owner of a structure served by an OSS permitted as a repair under Table X in WAC 246-272A-0280 **shall abandon** the OSS as specified in WAC 246-272A-0300, and connect the structure to a public sewer system when:

- (a) Connection is deemed **necessary to protect public health** by the local health officer;
- (b) An adequate public sewer becomes available within **200 feet** of the existing structure, or in cases where no building drain exists, within 200 feet from where the sewer for the building begins, as measured along the usual or most economically feasible route of access; **and**
- (c) The sewer utility allows the sewer connection.

### Translation:

An owner with a non-conforming repair shall connect if necessary for public health, available within 200 feet and sewer utility ok

# Section 3 & 4

## Connection to public sewer system.

(3) Local boards of health **may** require a **new development** to connect to a public sewer system to protect public health.

(4) Local boards of health **shall** require new development or a development with a failing OSS to connect to a public sewer system **if** it is **required** by the comprehensive land use plan or development regulations.

## Translation:

Board of Health may require new development to connect if protecting public health, or if required by comp plan

# What this means for us

- Specifically calls out “local boards of health”
- Requires the Board of Health to review applications and make land use decisions

Unnecessary procedural red tape

# Recommendation

## New ordinance to add to Title 5 (Wastewater)

1. Delegates authority over sewer connection decisions to the Health Officer (or designee)

2. Establishes specific criteria for requiring sewer connections

- E.g. risk to public health, environmental sensitivity, proximity to sewer infrastructure, etc.

3. Aligns local regulations with state laws

4. Ensures Health Officer decisions will not influence decisions made by other agencies

# Recommended Criteria

1. The connection is necessary to protect basic public health and safety;
2. The connection is necessary to protect the environment;
3. Public sewer system services are financially supportable and will not permit urban development in conflict with the Snohomish County comprehensive land use plan or development regulations;

## Recommended Criteria, Cont.

4. The public sewer provider allows the sewer connection and has adequate public sewer services available within 200 feet from where the existing building drain connects to the existing building sewer, or where no building drain exists, within 200 feet from where the sewer line begins, as measured along the usual or most feasible route of access;
5. The real property upon which the new development is proposed abuts an urban growth area; and
6. An on-site sewage system (OSS) fully conforming to the requirements of this title cannot be designed and/or installed.

Board of Health code of conduct

---

**Division:**

Office of the Director; Nicole Thomsen, Public Affairs & Policy Manager

---

**Background**

The 2025 work plan, as approved by the Board of Health, includes the adoption of the Code of Conduct by resolution. This work is required in alignment with [Snohomish County Board of Health Code 1.10.110](#), "The Board will establish a code of conduct that provides ethical standards and expectations for Board of Health members, including grounds for removal."

Following review by legal, several revisions to the draft were recommended. These include:

- Reformatting the document adding a numbering scheme.
- Expanding the purpose to add alignment with department mission, vision, and values. This resulted in de-duplicating stating values from the American Public Health Association.
- Removing inclusion and reference to the Fairness Doctrine.
- Clarifying language and focus for the items discussed in the Conflict of Interest section.

Based on edit requests by board members, an additional legal review may be necessary. Assuming no further legal review, this item is scheduled for action in March 2026.

8.1 - Assets .....	5
8.2 - E-mail .....	5
9.0 - Removal .....	5
10.0 - Points of Contact.....	5

## 1.0 - Purpose

This Code of Conduct is established pursuant to [Snohomish County Board of Health Code 1.10.110](#). The purpose is to maintain the public trust by ensuring ethical decision-making and promoting transparency and accountability. It is intended to provide a clear framework for acceptable behavior, prevent conflicts of interest, and foster a culture of integrity that reflects the County and Health Departments mission, vision, and values.

## 2.0 - Applicability

This Code of Conduct applies to members of the Snohomish County Board of Health.

- A. The Board Clerk shall:
  1. provide incoming board members with a copy of the Code of Conduct during board orientation.
  2. provide all Board members with a copy of the Code of Conduct and of the procedures for disclosing and managing conflicts once a year.
- B. Board members shall annually acknowledge receipt of the Code of Conduct in writing.

## 3.0 - Standards & Commitments

### 3.1 - Professionalism

As stewards of public trust, each Board member is expected to:

- A. Conduct themselves with self-awareness, self-respect, and professionalism;
- B. Treat all others with respect, dignity, and civility, regardless of status or position; and
- C. Refrain from engaging in hostile, intimidating, offensive, or unlawful activities or behaviors that may include discrimination, harassment, sexual harassment, or bullying.

### 3.2 - Public Health

Public health is the science and art of promoting health and preventing disease and premature death of a population by systematic efforts of society, communities, or individuals. The Board's work strives to enhance public health through a blend of health protection, health promotion, and disease prevention efforts. Board members come from a variety of disciplines and represent numerous scientific and technical areas of study and lived experiences.

## 4.0 - Conflict of Interest

No Board member shall derive any direct or indirect personal or organizational profit or gain by reason of his or her service on the Board. Board members. Board members should conduct their affairs in such a manner to avoid conflicts of interest with their duties and responsibilities as Board members.

- A. It is every Board member's obligation, in accordance with this policy, to ensure that decisions made by the Board reflect independent thinking.
- B. Board members shall affirmatively disclose any personal or organizational conflicts of interest, including, but not limited to financial interests when the matter that reflects a conflict of interest becomes a matter of Board action.
- C. Any Board member having a conflict of interest shall not vote or use his or her personal influence to address the matter. Board members with a conflict shall not be counted in determining the quorum for the matter.
- D. All conflicts disclosed to the Board shall be noted in the minutes of the meeting in which the disclosure was made. The minutes shall also note that the Board member with a conflict abstained from the vote and was not present for any discussion, as applicable, and was not included in the count for the quorum for that matter.

## 5.0 - Confidentiality

Board members may be privy to confidential financial, personnel, or health information as a result of their service on the Board. No Board member shall disclose any confidential information secured during the course of serving on the Board, included information secured during an executive session, unless disclosure is otherwise required by law.

## 6.0 - Open Public Meetings

Board members are reminded that meetings of the Board of Health shall be open to the public, and all persons shall be permitted to attend such meetings, except executive sessions and non-quorum working groups as authorized by the laws of the state of Washington.

## 7.0 - Representation of Board

Board members should make clear distinctions between statements made and actions engaged in as a private individual and as a representative of the Board. Members who speak on behalf of the Board shall accurately represent the official and authorized positions of the Board.

## 8.0 - County Resources

### 8.1 - Assets

Snohomish County and the Health Department have an inherent responsibility to safeguard assets and guard against improper or unauthorized use of resources intended for public benefit. No Board member shall sell, divert, convert, give away, or use any county equipment, vehicles, or other county property, real or personal, other than in the performance of his/her official duties in behalf of the county.

### 8.2 - E-mail

Board members will be issued a Snohomish County e-mail address to support public records compliance. This will be the primary method for communications between staff and board members. Board members should avoid using personal devices or email addresses to conduct Board of Health business. If a Board member uses a personal device or email address to create or receive public records, the Board member shall transfer or copy the records that are being retained to Snohomish County devices or accounts as soon as practicable.

## 9.0 - Removal

Pursuant to SCC 2.03.080, Board members may be removed by the county council for misfeasance.

## 10.0 - Points of Contact

**Board of Health Chair:** The Chair position is elected annually and is a Snohomish County Councilmember. The Chair is responsible for determining the agenda and workplan in consultation with the Board Administrator and Public Health Department Director. Any inquiries about workplan, potential board action, and requests for specific agenda ideas should be directed to the Board Chair and their staff.

**Board Administrator:** Nicole Thomsen is the Board of Health administrator. She can assist with policy questions, background, and requests for information on agenda items, Public Health Department information, etc. Email: [nicole.thomsen@snoco.org](mailto:nicole.thomsen@snoco.org)

**Board Clerk:** Sarah Baker supports members on questions related to technical assistance, stipends, reimbursements, and other administrative supports. Email: [shd-boardclerk@snoco.org](mailto:shd-boardclerk@snoco.org).

Washington state legislative update

---

**Division:**

Office of the Director; Nicole Thomsen, Public Affairs & Policy Manager

---

**Background**

The 2026 short legislative session (60 days) began January 12. This is the second year of a two-year legislative cycle, meaning that new bills are added for consideration and bills that did not pass into law by the close of the 2025 legislative session are re-activated for consideration this session. Bills not passed into law after this short session do not continue into 2027.

Significant focus for this session is on budget as estimates show a revenue shortfall of up to \$4 billion over four years. An updated revenue projection from Washington State Office of Financial Management is expected in February.

As of February 2, 2026, more than 1,200 new bills have been filed across both chambers.

Remaining key legislative dates:

- February 17: House of origin cutoff
- February 25: Policy committee of opposite chamber cutoff
- March 2: Fiscal committee of opposite chamber cutoff
- March 6: Opposite chamber cutoff
- March 12: Sine Die

Bills we are closely monitoring:

- [HB 2168 / SB 5933](#) - Facilitating the rapid sharing of overdose mapping information for overdose prevention
- [HB 2183](#) - Relating to requiring counties to develop and implement heat response plans
- [HB 2242 / SB 5967](#) - Relating to preserving access to preventive services by clarifying state authority and definitions
- [SB 6291](#) - Concerning on-site wastewater treatment system inspections
- Foundational Public Health Services account vape tax revenue fix bills to watch
  - [HB 2382](#)
  - [HB 2439](#)
  - [SB 6116](#)
  - [SB 6129](#)
- [HB 2685](#) - Concerning sharing and protection of tribal data

A complete listing of public health bills of interest are attached.

## Board of Health 2026 work plan

---

### **Division:**

Office of the Director; Nicole Thomsen, Public Affairs & Policy Manager

---

### **Background**

Each year the Board of Health (BOH) develops a work plan. The intent of this plan isn't to be prescriptive but to determine sufficient topical detail for the Board to plan and inform prioritization of topics.

2025 had a number of successes and work plan items completed including 8 ordinances and 9 proclamations adopted. A vaccination panel was also hosted at a meeting and a tour of the public health clinic.

Looking forward to 2026 a draft work plan (Exhibit A) was drafted based on conversations with health department leadership to understand their needs and anticipated requests for the coming year and initial review by BOH officers.

Emphasis of the coming year is to continue getting the Board of Health code updated and building out board procedures.

### **Board Authority**

RCW 70.05.060 – Powers and duties of local board of health and Snohomish County Code Chapter 2.300
