We have already installed retractable awnings, which are appropriate to the period of the building. This maintenance program, usually provided by Grinnell, consists of regular inspections, cleaning, adjustment, and maintenance of the awnings. This ensures that the awnings remain in good condition and repair.

3. *Painting* (yearly) $ 3,190.00
This is a budget item for annual painting, which will include general touch up, and normally sanding and repainting of certain areas on an annual basis. We find that this work is necessary on south-facing surfaces, especially, and for areas of the common area and second floor which require regular attention to ensure attractiveness and preservation of the sub-surfaces.

4. *Maintenance and Cleaning* (current cost $500/mo) $ 6,000.00
This is an on-going budget item for bi-weekly inspections by TKC and vendor personnel to inspect all exterior and common areas, and perform cleaning, minor repairs to hardware, screens, doors, windows, roofing, minor caulking and touch up painting, and includes regular oversight of all regular vendors, contractors, and their on-going work.

5. *General. Repairs* (to include Electrical, Plumbing, Brick Maint. etc.) $ 4,737.47
This is an on-going budget item which incorporates general preventative maintenance and repair to both common area and tenant-occupied building systems, including but not limited to electrical, plumbing, HVAC, roof, walls and storefronts (including historic brick maintenance and grout repair.)

Annual Total: $ 17,587.47

SALE, that property in Los Angeles County, California, described as:
The Northerly 30 feet of Lot(s) 6 in Block "D" of Watkyn's and Martin Subdivision, in the City of South Pasadena, County of Los Angeles, State of California, as per map recorded in Book 11 Page(s) 75 of Miscellaneous Records, in the Office of the County Recorder of said County. Except any portion thereof included in Meridian Avenue.

Exhibit B

CITY COUNCIL MEETING 4/18/79

Min. Vol. 19 Page 104 Meeting Dated April 18, 1979

CHC-CITY LANDMARK MISSION ARROYO HOTEL NUMBER 26

The Mission Arroyo Hotel was unanimously designated as City Landmark No. 26.

(Arnold, Swan)

MISSION ARROYO HOTEL BUILDING
PRINCIPLES OF RESTORATION

Background

The Mission Arroyo Hotel Building, located at the northwest corner of Meridian Avenue and Mission Street, is a Vernacular building constructed in 1923. The building was originally the Hotel Mission upstairs, and retail shops on the ground floor. The building is a City of South Pasadena Landmark, is listed on the California State Historical Inventory Survey, and is located in the Mission West National Register Historic District.

Restoration Principles

Our partnership, Mission Arroyo, LLC, acquired the property in 2002. We completed exterior restoration work on the masonry, bulkheads and storefronts, replaced the roof, installed appropriate awnings which revealed the transom glass panels, and restored many of the double-hung second floor windows in an effort to maintain the building in accordance with the Secretary of the Interior's Standards for Rehabilitation, as well as the Briefs and Bulletins (the "Standards.") According to the Standards,

> "Rehabilitation" is defined as "the process of returning a property to a state of utility, through repair or alteration, which makes possible an efficient contemporary use while preserving those portions and features of the property which are significant to its historic, architectural, and cultural values."

For easy reference, the ten guiding principles of restoration are attached as an exhibit.

Moving forward, we shall continue restorative work on the building, and maintain it in accordance with the Standards. Our basic objectives are to:

1. Continue restoration of basic building systems (including but not limited to roof, exterior walls, mechanical, storefronts) to ensure short-and long-term preservation of the property; and

2. Maintain remaining interior historic fabric.

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Exhibit C

Background:

Pursuant to the request of the Cultural Heritage Committee, we have done additional research on certain aspects of the building and the maintenance program, and are providing this Addendum to our earlier application.

I. <u>Rehab/Restoration-Completed to Date</u> (to be maintained over the life of the contract)

We understand that the Mill's Act program is not retroactive and that the tax savings we accrue over the next ten years is not to serve as a reimbursement for work completed prior to the contract. Much of the capital rehabilitation/restoration work needed on the building as of yet, has already been completed prior to the filing of this application. Thus, we include the following rehab/restoration costs *Completed to Date* to serve as an example of the time, energy, and money that will continue to be put into the building over the course of its lifetime, as our major goal is to preserve and maintain the value of this historic property. There is also no doubt that many, if not all of these areas will require continuous maintenance over the life of the Mill's Act contract.

1. *Exterior Restoration and Painting*: Removal of all old paint, lead abatement and painting as directed, completed by Dick Speer Painting.	$ 31,748.00
2. *Awnings*: Awning production, installation and lettering, completed by Pasadena Awning Company.	$ 13,731.00
3. *Miscellaneous Work*: Remove & dispose old awnings and replace transom glass as needed, completed by M & M Construction Group.	$ 3,845.00
4. *Re-Roofing*: Install new Class A Built-Up roof system, replace dry rotted decking, and install new HVAC sheet metal pans on HVAC platforms, completed by Richter Roofing Company.	$ 10,660.00
5. *Flashing*: Install new metal flashing along the façade of building to protect the roof membrane, completed by Renaissance Raingutters.	$ 2,642.00
6. *Planning & Consulting*: Project Coordination, drafting services, blueprints, pictures, and consulting, completed by The Kutzer Company and Dahl Architects.	$ 8,722.67
Total:	**$ 71,348.67**

II. <u>Rehab/Restoration-Planned</u> (expected to be maintained over the life of the contract)

1. *Awnings*: Awning production & installation for rear balcony and stairs to be completed by Pasadena Awning Company.	$ 2,925.00
2. *Carpet & Floors*: Installation of carpet and refinishing of hardwood floors in all common areas to be completed by Avalon Flooring.	$ 2,070.00
3. *Air Conditioning*: Installation of (5) Bryant, heat pump a/c heat systems to be completed by Connor Air Conditioning. *Please Note: Estimate DOES NOT include the cost of electrical or equipment wiring, decorative equipment fencing, smoke or fire detectors or alarms, mechanical or structural engineering or drawings, or third party duct testing or certification.	$ 31,860.00
4. *Painting*: Painting of exterior surfaces and interior stairway and lobby to be completed by Fino Painting & Decorating.	$ 3,190.00
5. *Wood Restoration/Protection:* Repair and protect all interior common area wood surfaces including two handrails, twenty three wooden steps, boarders and trims, and threshold.	$ 2,340.00
6. *Exterior Brick Repointing/Repair:* Remove over-caulking between bricks, minimize ghosting effect of previous mortar and caulking repairs, mitigate old smoke stains, restore areas above 950, 952 and 954, remove unused anchors, patch and color holes, spot repoint missing mortar.	$ 18,750.00
Total:	**$ 61,135.00**

III. Annual Estimated Maintenance (expected over the life of the contract)

In order to maintain the building in compliance with the Secretary of the Interior's standards and to generally preserve the property we anticipate the following approximate **annual** expenditures as based on our *2005 Year-to Date General Ledger*, and experience with similar historic buildings.

1. *Wood Fixture Maintenance* (yearly) — $ 2,340.00
This is a budget item for annual maintenance on the woodwork in the building. We plan to focus on different areas each year on a rotating basis, including windows, floors, staircase, and moldings. Most of this work would be done by experienced contractors such as USA Metal and California Restoration and Waterproofing.

2. *Awning Maintenance* (current cost $110/mo) — $ 1,320.00
We have already installed retractable awnings, which are appropriate to the period of the building. This maintenance program, usually provided by Grinnell, consists of regular inspections, cleaning, adjustment, and maintenance of the awnings. This ensures that the awnings remain in good condition and repair.

3. *Painting* (yearly) — $ 3,190.00
This is a budget item for annual painting, which will include general touch up, and normally sanding and repainting of certain areas on an annual basis. We find that this work is necessary on south-facing surfaces, especially, and for areas of the common area and second floor which require regular attention to ensure attractiveness and preservation of the sub-surfaces.

4. *Maintenance and Cleaning* (current cost $500/mo) — $ 6,000.00
This is an on-going budget item for bi-weekly inspections by TKC and vendor personnel to inspect all exterior and common areas, and perform cleaning, minor repairs to hardware, screens, doors, windows, roofing, minor caulking and touch up painting, and includes regular oversight of all regular vendors, contractors, and their on-going work.

5. *General. Repairs* (to include Electrical, Plumbing, Brick Maint. etc.) — $ 4,737.47
This is an on-going budget item which incorporates general preventative maintenance and repair to both common area and tenant-occupied building systems, including but not limited to electrical, plumbing, HVAC, roof, walls and storefronts (including historic brick maintenance and grout repair.)

Annual Total: **$ 17,587.47**

MILLS ACT – PROGRESS REPORT REQUEST

March 6, 2025

APPLICANT / OWNER:
Anil Hanuman & Aswini Padmanabhan
303 Meridian Avenue
South Pasadena, CA 91030

PROJECT LOCATION: **303 Meridian Avenue (APN: 5317-034-001)**

Dear Applicant/Owner:

The City of South Pasadena entered into a Mills Act Contract for the property located at 303 Meridian Avenue on December 19, 2007. As part of the ongoing due diligence required for all Mills Act Contracts, staff is investigating the status of your Mills Act Contract with the City. Per South Pasadena Municipal Code (SPMC) Section 2.68(b)(1)(D)(vi), evidence of tasks completed as stipulated in the Mills Act Contract shall be provided to the City every three (3) years.

Please submit a signed letter by **April 6, 2025** that contains a copy of the Mills Act Contract, the Rehabilitation & Maintenance Plan, and a progress report on all rehabilitation and maintenance tasks that were stipulated in your Mills Act Contract. The progress report shall contain the following:

- An itemized list of all work completed to date.
- Photo documentation of the completed work; both "before" and "after" conditions.
- Copies of any building permits issued in conjunction with the work.

Costs of the work or receipts is not currently required, but may be requested depending on the status of the rehabilitation/maintenance efforts.

If you have any questions regarding this letter, please contact the Planning Division at (626) 403-7220 or via email at askplanning@southpasadenaca.gov.

Sincerely,

Michael Donovan
Associate Planner

B

Mills Act Progress Report

3/21/2025

We have continued to restore and improve on the original Mills act agreement. Following the maintenance plan, we have refinished the original hardwood floors in 2016. We have repainted the interior to preserve its authenticity. Per the original plan, we removed the damaged concrete driveway and installed historically appropriate permeable pavers as a replacement, and constructed a new historically appropriate entrance path using Saltillo and Spanish tiles that complement the home's original tilework. We replaced coping and tile around the swimming pool as well as the tile installation. We plan on installing a Spanish-style pizza oven to the dining patio. We are scheduled to replace the deteriorating plaster of the existing pool with a white Pebble Fina product, as well as add an external spa to the existing pool using all materials to complement the style that has been laid out in front.

We continue to maintain roof and drainage maintenance, window, door, and wood maintenance and repairing when needed. We installed a security system in 2012, and are currently installing an automatic irrigation system. We regularly schedule termite and pest control.

Please reach out to us if you have any further questions or concerns.

Sincerely,

Anil Hanuman

Aswini Padmanabhan

SUMMARY OF COMPLETED WORK

REHABILITATION PLAN

A. Remove Inappropriate Alterations of the Past

Incomplete

1. Demo 1960s Family Room addition
2. Demo non-historic Bath and Kitchen remodels
3. Demo 1970 wall approx 3 ft inside north and east property line
4. Demo non-historic stairway to Bonus Room above Garage
5. Strip paint from exterior and interior doors, windows, baseboards and hardware

B. Upgrades for Health & Safety Codes

1. Electrical - Remove inoperable knob & tube wiring; add new panel and sub-panel and rewire entire house.
2. New Plumbing - new meter/main line; all copper plumbing.
3. Seismic Retrofit – house bolting
4. Install dual HVAC system
5. Pool fence

C. Repair Deteriorated Materials and Features

EXTERIOR

1. Repair tile roof with period appropriate cement between layers
2. Prep/paint- to harmonize with historic period
3. Repair front door
4. Replace wood windows, screens to match original
5. ~~Replace front-facing staircase to Bonus Room above Garage~~
6. Repair plaster inside Garage & install insulation
7. ~~Install "head of Zeus" Fountain w/ original tile in east patio enclosure~~.

INTERIOR

8. Repair and plaster deteriorating walls
9. Install period tile in bathrooms
10. Install period appropriate bathroom sinks, toilets and hardware.

Complete 11. Restore hardwood floors.

Incomplete 12. Restore light fixtures

Incomplete 13. Install Saltillo tile in Kitchen

Complete 14. Paint and/or wallpaper with period appropriate colors and patterns

D. Replace Missing Features

Incomplete

1. Replace flip switches with period appropriate push button models
2. Replace missing hardware on doors and windows
3. Replace missing light fixtures with duplicates of originals

E. Alterations for Modern Use

Complete ~~1. Replace Driveway~~

Complete ~~2. Replace coping & tile around Swimming Pool~~

Incomplete 3. Kitchen – Cabinetry to match Monterey furniture from 1920s,Viking dishwasher, garbage disposer, granite countertops, 1920s repro hardware, period light fixtures

4. Install Bathroom fans

~~5. Complete tile installation around Swimming Pool and Patio~~

F. Protect and Maintain Existing Historic Materials and Features

Ongoing 1. Roof and drainage maintenance (yearly inspection and repair as needed)
Ongoing 2. Window, door and wood maintenance and repair (as needed)
3. Inspect and refinish protective surfaces as needed (Paint contractors won't guarantee pint jobs for more than five years, usually much less)
Ongoing 4. Termite inspection and repair (at least every five years)
5. Mold inspection and abatement
6. Update/install automatic irrigation system to allow for proper maintenance
Complete 7. Install security system
Ongoing ~~8. Landscape maintenance (bimonthly gardening service to maintain appearance)~~
9. Tree trimming (to protect house)
10. HVAC service
11. Plumbing service
Ongoing 12. Pest control

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
303 MERIDIAN AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 20 day of December 2007, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Eric and Beth Romero ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 303 Meridian Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On April 27, 1984, the Prospect Circle District, of which 303 Meridian is a contributor, was determined eligible for listing in the National Register by a consensus through the Section 106 process that resulted from a California Department of Transportation survey, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating 303 Meridian a Historic District Property that is listed on the California Register, pursuant to the terms and provisions of Section 2.73A-16.5a of the South Pasadena Municipal Code;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 20, 2007, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

See attached C & D

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in

that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Eric and Beth Romero (aka Elizabeth Romero)
303 Meridian Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than twenty (20) days after the parties execute this Agreement, the Agreement shall be recorded, by the City Clerk, in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

TO ALL APPLICANTS

Employees of the City of South Pasadena will give every possible assistance to anyone who desires to utilize the remedies provided by the City's Zoning Ordinance. However, the burden of proof is on the applicant to make the showing necessary before any of the described permits can be granted. Also there is no guarantee, expressed or implied, that any permit will be granted by whatever agency or individual has authority in the matter.

The applicant shall understand also that each matter must be carefully investigated and, after a staff investigation has been made or a public hearing has been held, the staff's recommendation or decision may be contrary to a position taken in any preliminary discussions.

The staff is not permitted to assist applicants or any opponents of any applicant in preparing arguments for or against a request.

I have read the foregoing and understand that I HAVE THE BURDEN OF PROOF in the matter arising under the application made by me.

Page 1 of 3

*NRHP Status Code: 2S2

*Resource Name or # (Assigned by recorder): Prospect Circle District

D1. Historic Name: Prospect Circle District

D2. Common Name:

*D3. Detailed Description (Discuss overall coherence of the district, its setting, visual characteristics, and minor features. List all elements of district.):

The Prospect Circle District is located on the northwest border of the city of South Pasadena adjacent to the Arroyo Seco Freeway. The district is comprised of approximately 27 contributing residences, a contributing wall with local significance and eight non-contributing resources. It is characterized by one and two story single family residences built between 1924 and 1954, with eight houses built after 1950 in post-war Modern styles. Period Revival styles predominate; with a majority of Spanish Colonial Revival styles followed by Tudor, Colonial and Monterey Revival. Monterey porches are a favored element on many homes. Lots are generally large and irregular in shape and driveways are steep since houses are sited on a steep gradient reflecting the geography of the district that comprisss part of Columbia Hill. All but three of the homes were developed on Tract 2164, the others on a replat of the early Bradley tract. These homes appear to have been included in the Prospect Circle District because their architectural styles and date of construction accord with those of the other district residences. In addition these houses feature historic Arroyo Stone walls along the property frontage and up driveways. Similar walls are seen on the opposite side of the street and continue up Columbia Hill. Homes in the Prospect Circle District are landscaped with specimen trees and lawns. Sidewalks with contractor stamps visible separate the front yards from the easements and the streets. Auto garages are sited at the rear of each lot and are reached by side driveways with paved walks, pathways or graceful garden stairways leading to front entry landings. Historic single-lantern streetlights are featured along Prospect Circle. The historic cobblestone wall operates as a retaining wall along driveways and in front of three surveyed properties - 450, 460 and 506 Orange Grove Avenue.

*D4. Boundary Description (Describe limits of district and attach map showing boundary and district elements.):

Beginning at the southeast corner of the lot at 524 Orange, then westerly to the southwest corner of the lot, then northerly along Orange Grove from 514 to 300 Orange Grove Avenue, the turning east to include 909 Oliver Street, then proceeding south to include 303 Meridian Avenue, then south to Buena Vista Street to include properties on the north side of Buena Vista Street from 902-930; then crossing Prospect Circle Avenue to encompass properties on Prospect Circle numbering 400 to 495.

*D5. Boundary Justification:

Boundaries of the district were determined in a City of South Pasadena Historic Resources survey done in 1984 on the basis of stylistic cohesiveness. The boundaries of the present district are identical. Eight buildings built since that survey resulted from lot splits or demolition of the original residences with subsequent new construction on identical lots. These eight residences were not evaluated on the 1984 survey, but have been evaluated for the present survey.

*D6. Significance: Theme: Residential Building, Area: South Pasadena
Period of Significance: 1924-1954 Applicable Criteria: (Discuss district's importance in terms of its historical context as defined by theme, period of significance, and geographic scope. Also address the integrity of the district as a whole.)

Prospect Circle District is significant within the theme Residential Building, South Pasadena, California, 1924-1956, as an example of the values and choices of upper middle-income homeowners who desired to adopt a suburban life style. Some were easterners coming to California as health-seekers or retirees and others wished to leave the metropolitan areas and live a life suitable to their means. Since land was available and relatively inexpensive, builders could offer houses that represented gracious living in a healthful climate in a small city that could offer suburban amenities and easy access to larger metropolitan areas for cultural and social events. Builders used period styles that suggested the romantic aspects of the California past such as Spanish Colonial or Mediterranean Revival, or buyers could choose Colonial Revival to remind them of the nation's historic past

The district has maintained almost total integrity; and warrants a 2S2 Status Code The prevalence of Period Revival architectural styles, the high degree of integrity, and the development of the district within a relatively few years in the middle decades of the 1920s give Prospect Circle District a high degree of cohesiveness. Homes are well kept and landscaping is utilized to emphasize the hillside character of the lots. Prospect Circle appears an apt designation for the District whose hillside geography and elevation allowed for expansive views from Orange Grove Avenue. To take advantage of this siting, outdoor Monterey porches are a prominent feature of the residences along Orange Grove Drive. The historic Arroyo Stone wall a historic element that references the Arroyo Culture, the work of artists and writers who first settled along the Arroyo Seco waterway in the last years of the 19th century, is also a significant feature of the district. The wall was given a 5S2 designation: individual property eligible for local listing or designation.

The district was determined eligible for listing in the National Register on April 27, 1984 by a consensus through Section 106 process that resulted from a California Department of Transportation survey project

REHABILITATION/MAINTENANCE PLAN

Having previously restored a Craftsman house in Pasadena, we were not only familiar with but determined to carefully follow Rehabilitation Standards and Guidelines for the Treatment of Historic Properties established by the Secretary of Interior. The goal being not only to restore the character and design integrity of the property at 303 Meridian, but to redeem its rightful place as one of the jewels of the Prospect Circle Historic District, listed on the California Register since April, 1987.

That task has been and will continue to be a tall order. When we purchased the property, it was uninhabitable and included several additions and appurtenances that were inappropriate to historic appearance of the house and neighborhood. The photos in Appendix B, which documents pre-existing conditions, show clearly that a great deal of work had to be done before we could move in, particularly in that we had two small children and another expected very soon.

In the last two years, we have been able to completely restore the exterior and remove non-historic "remuddling" dating from the 1960s in both the interior and around the exterior. The interior has been rehabilitated with a combination of current and period-appropriate kitchen and bath conveniences and appurtenances common in historic renovations.

Perhaps most important from a preservation perspective, was removing a poorly constructed, unattractive Family Room of about 500 s.f. that had been added to the northwest corner of the house in 1966. In the process, we restored the west Living Room wall that had been cut through to provide access to the Family Room. The swimming pool from the 1960s has been retained, but a high wall that both conflicted with community character and reduced usable yard space was demolished and replaced with a more open wrought iron fence and landscaping.

As will be clear when reviewing the cost breakdowns, our Rehabilitation/Restoration and ongoing Maintenance Plan is much more extensive than necessary to qualify for substantial property tax savings. Nevertheless, the full plan is outlined below to facilitate review for preservation appropriateness. Where individual tasks fell into more than one of the applicable criteria specified by the South Pasadena Cultural Heritage Commission (see below), we listed it under the category that best described the majority of the work.

Note: Rehab/Maintenance items that have been crossed out in the plan below have been or will be still completed, but are not included in the Expense and Tax Calculations because they might not qualify as preservation maintenance expenses under local criteria for Mills Act tax reassessment.

REHABILITATION PLAN

A. Remove Inappropriate Alterations of the Past

1. Demo 1960s Family Room addition
2. Demo non-historic Bath and Kitchen remodels
3. Demo 1970 wall approx 3 ft inside north and east property line
4. Demo non-historic stairway to Bonus Room above Garage
5. Strip paint from exterior and interior doors, windows, baseboards and hardware

B. Upgrades for Health & Safety Codes

1. Electrical - Remove inoperable knob & tube wiring; add new panel and sub-panel and rewire entire house.
2. New Plumbing - new meter/main line; all copper plumbing.
3. Seismic Retrofit – house bolting
4. Install dual HVAC system
5. Pool fence

C. Repair Deteriorated Materials and Features

EXTERIOR

1. Repair tile roof with period appropriate cement between layers
2. Prep/paint- to harmonize with historic period
3. Repair front door
4. Replace wood windows, screens to match original
5. ~~Replace front-facing staircase to Bonus Room above Garage~~
6. Repair plaster inside Garage & install insulation
7. ~~Install "head of Zeus" Fountain w/ original tile in east patio enclosure~~.

INTERIOR

8. Repair and plaster deteriorating walls
9. Install period tile in bathrooms
10. Install period appropriate bathroom sinks, toilets and hardware.
11. Restore hardwood floors.
12. Restore light fixtures
13. Install Saltillo tile in Kitchen
14. Paint and/or wallpaper with period appropriate colors and patterns

D. Replace Missing Features

1. Replace flip switches with period appropriate push button models
2. Replace missing hardware on doors and windows
3. Replace missing light fixtures with duplicates of originals

E. Alterations for Modern Use

1. ~~Replace Driveway~~
2. ~~Replace coping & tile around Swimming Pool~~
3. Kitchen – Cabinetry to match Monterey furniture from 1920s,Viking dishwasher, garbage disposer, granite countertops, 1920s repro hardware, period light fixtures
4. Install Bathroom fans
5. ~~Complete tile installation around Swimming Pool and Patio~~

F. Protect and Maintain Existing Historic Materials and Features

1. Roof and drainage maintenance (yearly inspection and repair as needed)
2. Window, door and wood maintenance and repair (as needed)
3. Inspect and refinish protective surfaces as needed (Paint contractors won't guarantee pint jobs for more than five years, usually much less)
4. Termite inspection and repair (at least every five years)
5. Mold inspection and abatement
6. Update/install automatic irrigation system to allow for proper maintenance
7. Install security system
8. ~~Landscape maintenance (bimonthly gardening service to maintain appearance)~~
9. Tree trimming (to protect house)
10. HVAC service
11. Plumbing service
12. Pest control

SCHEDULE B
TEN YEAR REHAB/MAINTENANCE COSTS

(Although most of the work below has been completed, the costs of separate tasks listed below are approximates, not separated by these categories in contractor receipts. Invoices are available, however to document total investments in materials and labor.)

A. Remove Inappropriate Alterations of the Past

1.	Demo 1960s Family Room addition	$5,256
2.	Demo non-historic Bath and Kitchen remodels	2,530
3.	Demo 1970 wall approx 3 ft inside north and east property line (includes hauling & disposal	4,554
4.	Strip paint from exterior and interior doors, windows, baseboards and hardware	18,000

B. Upgrades for Health & Safety Codes

1.	Electrical - Remove inoperable knob & tube wiring; add new panel, sub-panel and rewire entire house	20,275
2.	New Plumbing - new meter/main line; all copper plumbing.	13,800
3.	Seismic Retrofit – house bolting	5,400
4.	Install dual HVAC system	14,000
5.	Pool fence	4,000

C. Repair Deteriorated Materials and Features

EXTERIOR

1.	Repair tile roof with period appropriate cement between layers	21,975
2.	Prep/paint- to harmonize with historic period (excludes stripping)	22,000
3.	Repair front door	1,200
4.	Replace wood windows, screens to match original	4,000
5.	Repair plaster inside Garage & install insulation	3,500
6.	Restoration & repair of doors, windows, screens, baseboards and beams	31,500*

INTERIOR

7.	Repair and plaster deteriorating walls (includes mold abatement)	6,000
8.	Install period tile in bathrooms (mtrls & labor for five bathrooms)	34,039
9.	Install period appropriate bathroom sinks, toilets and hardware	10,311
10.	Restore hardwood floors	8,960
11.	Restore light fixtures	2,875
12.	Install Saltillo tile in Kitchen	2,500
13.	Paint with period appropriate colors	19,000

D. Replace Missing Features

1.	Replace flip switches with period appropriate push button models	1,459
2.	Replace missing hardware on doors and windows	3,000
3.	Replace 13 missing 1920s light fixtures (exterior and interior) with duplicates of originals: 13 @ estimated average cost of $450 each	5,950

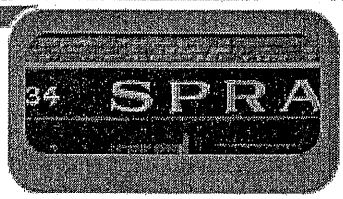
E. Alterations for Modern Use

1. Kitchen – Cabinetry to match Monterey furniture from 1920s; ~~Viking dishwasher, garbage disposer; granite countertops;~~ 1920s repro hardware; period light fixtures	48,500**
2. Install Bathroom fans	1,125

F. Protect and Maintain Existing Historic Materials and Features

1. Roof & drainage maintenance (yearly inspection, repair as needed)	2,500
2. Window, door and wood maintenance and repair (as needed)	5,000
3. Inspect and refinish protective surfaces as needed (Paint contractors won't guarantee paint jobs more than five years, usually much less)	40,000
4. Termite inspection and repair	4,500
5. Mold inspection and abatement	2,500
6. Update/install automatic irrigation system for proper maintenance	4,000
7. Install Security System	1,500
	$373,979

$37,398/yr.



Additional Property Owner Maintenance Investments***

Replace front-facing staircase to Bonus Room above Garage	10,000
Install "head of Zeus" Fountain w/ original tile in east patio enclosure	6,800
Replace Driveway	13,000
Replace coping & tile around Swimming Pool	7,800
Complete tile installation around Swimming Pool and Courtyard	17,000
Viking dishwasher, garbage disposer; granite countertops	6,000
Landscape maintenance (bimonthly gardening service to maintain appearance	14,400
	$75.000

NOTE:
Items in blue are not included in tax reassessment calculations.
Items in red are expenses that have been amended from earlier submission.
* Erroneously omitted in earlier submission
** Reduced by $6,000 to eliminate cost of dishwasher, garbage disposer and granite couintertops from tax reassessment calculations.

THE STANDARDS

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.

2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.

3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.

4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.

5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.

6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.

7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.

8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction will be undertaken in a such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Guidelines for Rehabilitation-->
HISTORICAL OVERVIEW - PRESERVING - rehabilitating - RESTORING - RECONSTRUCTING
main - credits - email

9.38 Historical buildings.

(a) General. The standards and procedures established by this article shall apply in all aspects to a historical building except that as a means to preserve original architectural elements and facilitate restoration, a historical building may, in addition, comply within the special provisions set forth in this section.

(b) Unburned Clay Masonry or Adobe. Existing or re-erected walls of adobe construction shall conform to the following:

(1) Unreinforced adobe masonry walls shall not exceed a height or height-to-thickness ratio of 5 for exterior bearing walls and must be provided with a reinforced bond beam at the top, interconnecting all walls. Minimum beam depth shall be six inches and a minimum width of eight inches less than the wall width.

Minimum wall thickness shall be eighteen inches for exterior bearing walls and ten inches for adobe partitions. No adobe structure shall exceed one story in height unless the historic evidence indicates a two-story height. In such cases the height-to-thickness ratio shall be the same as above for the first floor based on the total two-story height and the second floor wall thickness shall not exceed the ratio 5 by more that twenty percent. Bond beams shall be provided at the roof and secondfloor levels.

(2) Foundation footings shall be reinforced concrete under newly reconstructed walls and shall be fifty percent wider than the wall above, soil conditions permitting, except that the foundation wall may be four inches less in width than the wall above if a rock, burned brick, or stabilized adobe facing is necessary to provide authenticity.

(3) New or existing unstabilized brick and adobe brick masonry shall have an average compressive strength of two hundred twenty-five pounds per square inch when tested in accordance with ASTM designation C 67. One sample out of five may have a compressive strength of not less than one hundred eighty eight pounds per square inch. Unstabilized brick may be used where existing bricks are unstabilized and where the building is not susceptible to flooding conditions or direct exposure. Adobe may be allowed a maximum value of three pounds per square inch for shear with no increase for lateral forces.

(4) Mortar may be of the same soil composition and stabilization as the brick in lieu of cement mortar.

(5) Nominal tension stresses due to seismic forces normal to the wall may be neglected if the wall meets thickness requirements and shear values allowed by this subsection.

(c) Archaic Materials. Allowable stresses for archaic materials not specified in this code shall be based on substantiating research data or engineering judgment, subject to the department's satisfaction.

(d) Alternative Materials and SHBC Advisory Review. Alternative materials, design or methods of construction will be considered as set forth in section 9.40(d) of this article. In addition, when a request for an alternative proposed design, material or method of construction is being considered, the department may file a written request for an opinion to the State Historical Building Code Advisory Board for its consideration, advice or findings in accordance with the SHBC. (Ord. No. 1912, § 1.)

CITY OF SOUTH PASADENA
HISTORIC PROPERTY TAX ADJUSTMENT WORKSHEET

Street Address 303 Meridian Avenue, South Pasadena, 91030
(NUMBER, STREET, CITY & ZIP CODE OF PROPERTY)

STEP 1: DETERMINE ANNUAL INCOME OF PROPERTY

ANNUAL PROPERTY INCOME	CURRENT	EXPLANATION
1. Monthly Rental Income	*$7,500*	*Even if property is owner-occupied, an estimated monthly rental income is needed as a basis for this worksheet formula. Remember to include all potential sources of income (i.e., filming, advertising, photoshoots and/or billboard rentals, etc.)*
2. Annual Rental Income	90,000	**Line item #1 x 12 months**

STEP 2: CALCULATE ANNUAL OPERATING EXPENSES

ANNUAL OPERATING EXPENSE	CURRENT	EXPLANATION
3. Insurance	1,814	*Fire, liability, etc.*
4. Utilities	9,950	*Water, gas, electric.*
5. Maintenance*	37,398	*Maintenance includes: Painting, plumbing, electrical, gardening, cleaning, mechanical, heating repairs and structural repairs. Provide breakdown on separate sheet.*
6. Management	12,000	
7. Other Operating Expenses	1,500	*Security, services, etc. Provide breakdown on separate sheet.*
8. TOTAL EXPENSES **	62,662	*Add lines 3 through 7.*

STEP 3: DETERMINE ANNUAL NET INCOME

NET OPERATING INCOME	CURRENT	EXPLANATION
9. NET TOTAL	**27,338**	*Line 2 minus line 8.*

If you are calculating for commercial or income property, remember to provide the following back-up documentation where applicable:

1) Rent roll (include rent for on-site manager's unit as income if applicable).
2) Maintenance records (provide detailed break-down- **all costs should be recurring annually**).
3) Management expenses (include expense of on-site manager's unit and 5% off site management fee; and describe other management costs- provide breakdown on separate sheet).

**Annual operating expenses do NOT include mortgage payments or property taxes.

HISTORICAL PROPERTY TAX ADJUSTMENT WORKSHEET (CONTINUED)

STEP 4: DETERMINE CAPITALIZATION RATE

CAPITALIZATION RATE	CURRENT	EXPLANATION
10. Interest Component	4.5%	*As determined by the State Board of Equalization for 2007.*
11. Historic Property Risk Component	4%	**Single-family home = 4%** *All other property = 2%.*
12 Property Tax Component	1%	*.01 times the assessment ratio of 100%*
13. Amortization Component (Reciprocal of life of property)	5%	*If the life of the improvements is 20 years, use 100 x 1/20 = 5%.*
14. TOTAL = CAPITALIZATION RATE	14.5%	*Add lines 3 through 7.*

STEP 5: CALCULATE NEW ASSESSED VALUE

NEW ASSESSED VALUE	CURRENT	EXPLANATION
15. Mills Act Assessed Value	188,538	*Line 9 divided by line 14* *Example: Line 9 ÷.145 (14.5%)*

STEP 6: DETERMINE ESTIMATED TAX REDUCTION

NEW TAX ASSESSMENT	CURRENT	EXPLANATION
16. Current Tax	13,649	*General tax levy only – do **not** include voted indebtedness or direct assessments.*
17. Tax Under Mills Act	1,885	*Line 15 x .01.*
18. ESTIMATED TAX REDUCTION	11,764	*Line 16 minus line 17.*

2025 PROGRESS REPORT

Peter Schou

1040 Stratford Ave.

South Pasadena, CA 91030

April 1, 2025

Michael Donovan

Associate Partner

City Of South Pasadena

Dear Mr. Donovan,

This is in response to your letter of March 6, 2025.

Here are the projects completed to date pertaining to our Mills Act contract with

South Pasadena:

Rehabilitation Items:

1) Retrofitting. Completed by Sylvis Seismic Safety in November 2010. See attached permit issued by South Pasadena for the work.
2) Replacement of lock on front door. See attached photo.
3) Exterior painting. Partial painting of property in 2012 and 2014. Complete painting of the exterior in July 2019. This separately involved extensive repair of wooden rafters in June 2019. See attached documents from Star West Construction and Quality House Painting Inc.
4) New roof. Complete reroofing of building including the garage in 2011. This included replacement of skylight as well as replacement of dry rotted wood and extensive rehabilitation of wooden rafters. It also included repair of roof above the porch. Please see attached permit issued for the work.

5) Replacement of entire fence on the north side of the property in 2012. Replacement of entire fence on east side of the property. See attached photos.
6) Sprinkler system on Oxley and Stratford parkways replaced as part of turf removal Project in May 2018. Received approval and rebate from City of South Pasadena.

Maintenance Items:

1) Complete fumigation, including tenting of property in December 2010. Local spot treatment in 2016 and 2018, including replacement of termite infested posts in 2018.
   Complete fumigation by Foss Termite Control, 3/23/22. See attached invoice.
2) General Maintenance of Roof 2/15/22. See attached invoice from Hull Bros.

Additional documentation can be provided if needed.

Kind Regards,

Peter Schou

STAR WEST CONSTRUCTION

Proposal

Tom Spencer/ Star West Construction
59 E. Montecito, Sierra Madre Ca.
(626) 394 7558
Lic # 752214

To:
Peter Schou
1040 Stratford
Pasadena, Ca
323 899 3480

Date: 6/23/19

Description of work

North side of house

1) Repair 2" x 10" with Abatron/ screws.
2) Remove existing rafter tails (3) and install 3 new rafter tails sistered alongside existing (original) rafter tails.
3) Cut off one rafter tail.

Garage (north)

4) Replace the end of beam 6" x 5 ½" x 10"
5) Repair 2" x 8" rafter tail top with Abatron.

Garage (east)

6) Remove existing rafter tails (2) and install 2 new rafter tails sistered alongside existing (original) rafter tails.
7) Replace ½" x 48" x 5" style at fence. (pine)
8) Replace 1'2" (or 3/8") x 12" x 48" privacy panel at gate entry.

Back door (house)

9) Remove existing rafter tail (1) and install 1 new rafter tail sistered alongside existing (original) rafter tail.

Garage (south)

10) Repair top/ends of 6" x 6" beams (all) with Abatron.

House (south)

11) Repair five 4" x 8" beam tops and ends with Abatron.
12) Replace 14" of one 2" x 10" eave end.

House (front)

13) Repair two 10" x 10" beam tops/ends with Abatron.
14) Repair two 4" x 6" beam ends/tops with Abatron.

Roof (facing front of house)

15) Repair three 4" x 6" beam ends/tops with Abatron.

Note: 1) Rafter tails replaced will be redwood.
2) 6" x 5 ½" x 10" beam end replaced (#4) will be Doug Fir.
3) 2" X 10" x 14" eave end replaced (#12) will be Doug Fir.

All wood replaced/Abatroned will be primed.

Note: Additional damage to trim/facia or structure not evident upon initial inspection discovered upon removal of wood to do repairs will be repaired and billed as an extra. Minor extra repairs excluded upon discretion of contractor.

Total; $1500 initial-- $1400 on July 15th.

I hereby propose to furnish labor and materials – complete in accordance with the above specification. Payment to be made immediately upon completion of the work.
All material is guaranteed to be as specified. All work to be completed in a workmanlike manner according to standard practices. This proposal subject to acceptance within 21 days and is void thereafter at the option of the undersigned.
Authorized signature: Tom Spencer Date: _____

ACCEPTANCE OF PROPOSAL

Office Hours

7:30 am to 5:00 pm Monday through Thursday
7:30 am to 4:00 pm Friday

Inspection Requirements

Inspection and approval shall be made by the City of South Pasadena Building Division ***before*** the new roof covering is applied.

It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the City of South Pasadena shall be liable for expenses entailed in the removal or replacement of any material required to allow inspection.

Dumpster Requirements

A separate permit is required to be obtained from the City of South Pasadena Public Works Department for dumpsters located in the public right-of-way.

Dumpsters can only be set from the company the City contracts with for refuse disposal. Contact the Public Works Department for additional information at (626) 403-7240 for additional information.

Roofing Requirements

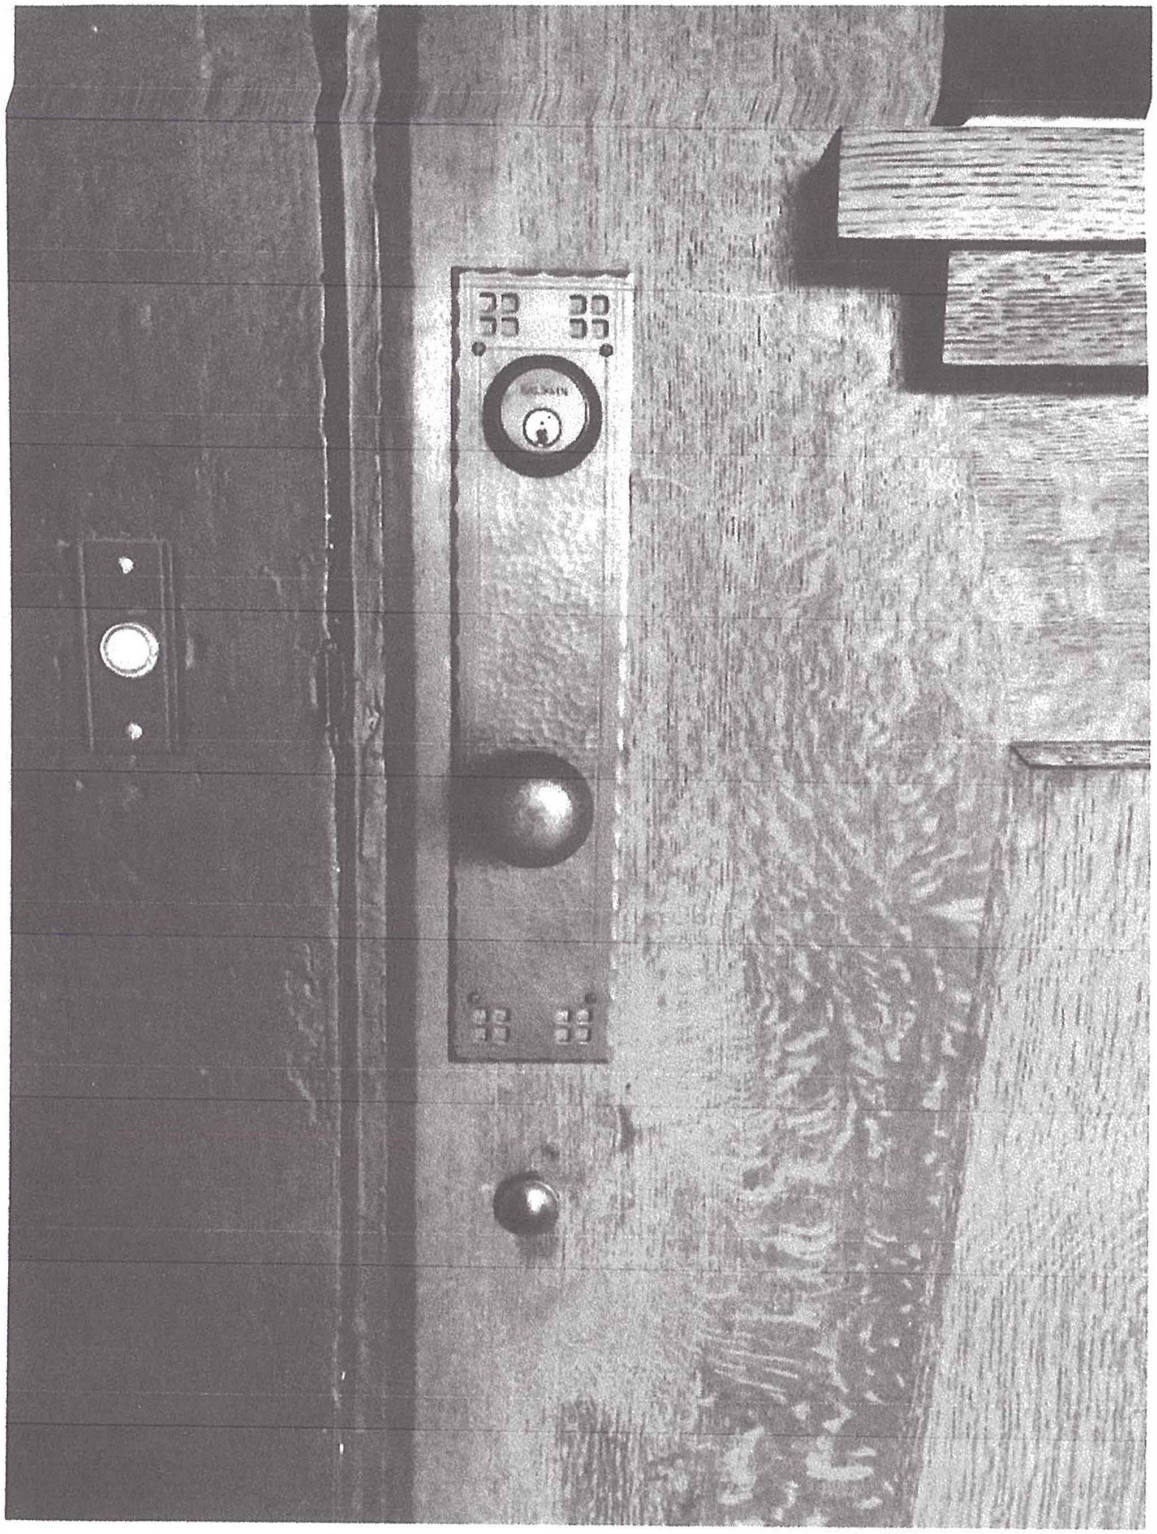
Roofing materials and methods of application shall comply with the manufacturer's installation requirements and the following guidelines. The building official ***may*** allow existing roof coverings to remain when inspection by the City of South Pasadena Building Division ***prior to covering*** reveals the following:

a) There is only one existing roof covering on the structure. A maximum of two existing roof coverings ***may*** be permitted when the original roof covering(s) are any combination of wood or asphalt shingle, and the roof slopes at 4-and-12 or greater. **Only one roof covering is permitted on Unreinforced Masonry Buildings.**

b) The structural design is sufficient to sustain the weight of an additional roof.

c) The existing roof is securely attached to the deck.

d) The visible roof covering is still sound and/or the exposed roof deck is not rotted and is structurally sound.



e) Existing insulation located immediately below the roof covering is not water soaked.

Plywood Installation and Nailing Requirements

Where plywood is installed over existing spaced sheathing, plywood panel joints shall occur over a rafter. Nails shall be spaced 12" on center at each rafter.

Where panel edges that are parallel to the rafters do not occur over a rafter, nails shall be driven at 6 inches on center maximum spacing along each such edge and through the sheathing boards.

SUMMARY OF COMPLETED WORK

Rehab/Maintenance Projects planned over next 10 years

RECEIVED
JAN 09 2009
CITY OF SOUTH PASADENA
PLANNING AND BUILDING DEPT

Rehabilitation Items

- Retrofitting (7,400)
- Exterior painting (8,000)
- Rehab of porch roof (5,000)
- Replacement of lock on front door and exterior light to more period appropriate style (1,000)

Maintenance Items

- New roof, when needed (23,780+)
- Replace part of fence (2,000)
- Sprinkler system on lawn strips next to street, west and south sides (2,000)
- Repair rim of pool (1,000)
- Ongoing termite inspections/repair (3,135)

Description of how items meet Secretary of the Interior's Standards for Rehabilitation

Rehabilitation Items

✓ • **Retrofitting** (7,400)

"Recommended - Repairing the structural system by augmenting or upgrading individual parts or features. For example, weakened structural members such as floor framing can be paired with a new member, braced, or otherwise supplemented and reinforced."*

Retrofitting of the building will be done according to the Secretary of the Interior's Standards and Guidelines. The existing structural system of the building will be repaired and/or upgraded to protect the structure from earthquake damage.

"Not Recommended - Upgrading the building structurally in a manner that diminishes the historic character of the exterior, such as installing strapping channels or removing a decorative cornice; or damages interior features or spaces.

Replacing a structural member or other feature of the structural system when it could be augmented and retained."*

The retrofit will not be done in such a manner that diminishes the character of the exterior.

✓ • **Exterior painting** (8,000)

"Recommended - Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective

coatings.

Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required.

Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (handscraping and handsanding), then repainting.

Applying compatible paint coating systems following proper surface preparation.

Repainting with colors that are appropriate to the historic building and district.

*Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary."**

The exterior of the building will be repainted, when necessary according to the Secretary of the Interior's Standards and Guidelines. Surfaces will be periodically inspected to determine if repainting is necessary. When the building requires a new coat of paint, proper preparation techniques will be used (as described in the guidelines) and period/style-appropriate colors will be chosen.

"Not Recommended - Stripping paint or other coatings to reveal bare wood, thus exposing historically coated surfaces to the effects of accelerated weathering.

Removing paint that is firmly adhering to, and thus, protecting wood surfaces.

Using destructive paint removal methods such as a propane or butane torches, sandblasting or waterblasting. These methods can irreversibly damage historic woodwork.

Using thermal devices improperly so that the historic woodwork is scorched.

Failing to neutralize the wood thoroughly after using chemicals so that new paint does not adhere.

Allowing detachable wood features to soak too long in a caustic solution so that the wood grain is raised and the surface roughened.

Failing to follow manufacturers' product and application instructions when repainting exterior woodwork.

Using new colors that are inappropriate to the historic building or district.

*Failing to undertake adequate measures to assure the protection of wood features."**

RECEIVED
JAN 09 2009
CITY OF SOUTH PASADENA
PLANNING AND BUILDING DEPT

When the building is repainted, no destructive paint removal techniques will be used and inappropriate color choices will not be implemented.

✓ • **Rehab of porch roof** (5,000)

"Recommended - Identifying, retaining, and preserving entrances--and their functional and decorative features--that are important in defining the overall historic character of the building such as doors, fanlights, sidelights, pilaster, entablatures, columns, balustrades, and stairs."*

Rehabilitation of the porch roof is part of an overall intention to retain and preserve the front porch and to repair the historic elements as needed to prevent irreversible deterioration.

"Not Recommended - Removing or radically changing entrances and porches which are important in defining the overall historic character of the building so that, as a result, the character is diminished."*

The front porch and entrance of the building are important character-defining features and will not be removed or radically changed.

✓ • **Replacement of lock on front door and exterior light to more period appropriate style** (1,000)

"Architectural metal features--such as cast iron facades, porches, and steps; sheet metal cornices, siding, roofs, roof cresting and storefronts; and cast or rolled metal doors, window sash, entablatures, and hardware--are often highly decorative and may be important in defining the overall historic character of the building."*

The existing, non-historic front door hardware will be replaced with new hardware that is style/period appropriate. The existing hardware is shown below.

Figure 1. Existing, non-historic front door hardware

RECEIVED
JAN 09 2009
CITY OF SOUTH PASADENA
BUILDING AND BUILDING DEPT

Maintenance Items

✓ • **New roof, when needed** (23,780+)

"Recommended - Replacing in kind an entire feature of the roof that is to deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature.
Examples can include a large section of roofing, or a dormer or chimney.

*If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered."**

The roof material is not historic or original to the building, but will likely require repair/replacement within the next ten years. The replacement material used will be compatible with what is existing. There is also a large skylight that needs to be rebuilt and was not included in the estimate

*"Not recommended - Removing a feature of the roof that is unrepairable, such as a chimney or dormer, and not replacing it; or replacing it with a new feature that does not convey the same visual appearance."**

No historic features of the roof will be removed, apart from the skylight when it is repaired or rebuilt if necessary.

✓ • **Replace part of fence** (2,000)

Replacement of a portion of the fence is considered routine maintenance and meets the Secretary of the Interior's Standards and Guidelines. This repair will not destroy any historic features.

✓ • **Sprinkler system on lawn strips next to street, west and south sides** (2,000)

Installation of a sprinkler system will assist with maintenance of the landscape and does not violate any of the Secretary of the Interior's Standards and Guidelines.

✗ • **Repair rim of pool** (1,000)

Repair of the rim of the pool is considered routine maintenance and does not violate any of the Secretary of the Interior's Standards and Guidelines.

✓ • **Ongoing termite inspections/repair** (3,135)

Ongoing termite inspections are considered routine preventative maintenance that will help protect the building from termite damage and this practice does not violate any of the Secretary of the Interior's Standards and Guidelines. A recent inspection revealed termite/dry rot that needs to be repaired.

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 16th day of September 2009, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Peter Schou and Sally Howard ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1040 Stratford Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On July 2, 2008, the City Council of the City of South Pasadena adopted Resolution No. 6990, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on September 16, 2009, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance

COPY

of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City determines Owner have breached any of the conditions or covenants of the Agreement

COPY

or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural

COPY

and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Peter Schou and Sally Howard
1040 Stratford Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's

COPY

fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

DEFINITIONS
Words used in multiple sections of this document are defined below and other words are defined in Sections 3, 11, 13, 18, 20 and 21. Certain rules regarding the usage of words used in this document are also provided in Section 16.

(A) **"Security Instrument"** means this document, which is dated APRIL 21, 2008 together with all Riders to this document.
(B) **"Borrower"** is PETER SCHOU AND SALLY HOWARD, HUSBAND AND WIFE AS COMMUNITY PROPERTY WITH RIGHT OF SURVIVORSHIP

Borrower's address is 1040 STRATFORD AVE, SOUTH PASADENA, CA 91030

. Borrower is the trustor under this Security Instrument.
(C) **"Lender"** is BANK OF AMERICA, N.A.

Lender is a NATIONAL BANKING ASSOCIATION
organized and existing under the laws of THE UNITED STATES OF AMERICA

RP SH

4660770455 Rag

COPY

Lender's address is 21000 NW EVERGREEN PKWY, HILLSBORO, OR 971247121

Lender is the beneficiary under this Security Instrument.
(D) "Trustee" is PRLAP, INC.

(E) "Note" means the promissory note signed by Borrower and dated APRIL 21, 2008
The Note states that Borrower owes Lender NINE HUNDRED FIFTY FIVE THOUSAND TWO HUNDRED FIFTY AND 00/100 Dollars
(U.S. $ 955,250.00) plus interest. Borrower has promised to pay this debt in regular Periodic Payments and to pay the debt in full not later than MAY 01, 2038
(F) "Property" means the property that is described below under the heading "Transfer of Rights in the Property."
(G) "Loan" means the debt evidenced by the Note, plus interest, any prepayment charges and late charges due under the Note, and all sums due under this Security Instrument, plus interest.
(H) "Riders" means all Riders to this Security Instrument that are executed by Borrower. The following Riders are to be executed by Borrower (check box as applicable):

☐ Adjustable Rate Rider	☐ Condominium Rider	☐ Second Home Rider
☐ Balloon Rider	☐ Planned Unit Development Rider	☐ 1-4 Family Rider
☐ VA Rider	☐ Biweekly Payment Rider	☐ Other(s) [specify]

(I) "Applicable Law" means all controlling applicable federal, state and local statutes, regulations, ordinances and administrative rules and orders (that have the effect of law) as well as all applicable final, non-appealable judicial opinions.
(J) "Community Association Dues, Fees, and Assessments" means all dues, fees, assessments and other charges that are imposed on Borrower or the Property by a condominium association, homeowners association or similar organization.
(K) "Electronic Funds Transfer" means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, computer, or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account. Such term includes, but is not limited to, point-of-sale transfers, automated teller machine transactions, transfers initiated by telephone, wire transfers, and automated clearinghouse transfers.
(L) "Escrow Items" means those items that are described in Section 3.
(M) "Miscellaneous Proceeds" means any compensation, settlement, award of damages, or proceeds paid by any third party (other than insurance proceeds paid under the coverages described in Section 5) for: (i) damage to, or destruction of, the Property; (ii) condemnation or other taking of all or any part of the Property; (iii) conveyance in lieu of condemnation; or (iv) misrepresentations of, or omissions as to, the value and/or condition of the Property.
(N) "Mortgage Insurance" means insurance protecting Lender against the nonpayment of, or default on, the Loan.
(O) "Periodic Payment" means the regularly scheduled amount due for (i) principal and interest under the Note, plus (ii) any amounts under Section 3 of this Security Instrument.
(P) "RESPA" means the Real Estate Settlement Procedures Act (12 U.S.C. Section 2601 et seq.) and its implementing regulation, Regulation X (24 C.F.R. Part 3500), as they might be amended from time to time, or any additional or successor legislation or regulation that governs the same subject matter. As used in this Security Instrument, "RESPA" refers to all requirements and

0808751603

COPY

restrictions that are imposed in regard to a "federally related mortgage loan" even if the Loan does not qualify as a "federally related mortgage loan" under RESPA.
(Q) "Successor in Interest of Borrower" means any party that has taken title to the Property, whether or not that party has assumed Borrower's obligations under the Note and/or this Security Instrument.

TRANSFER OF RIGHTS IN THE PROPERTY

This Security Instrument secures to Lender: (i) the repayment of the Loan, and all renewals, extensions and modifications of the Note; and (ii) the performance of Borrower's covenants and agreements under this Security Instrument and the Note. For this purpose, Borrower irrevocably grants and conveys to Trustee, in trust, with power of sale, the following described property located in the COUNTY of LOS ANGELES :

[Type of Recording Jurisdiction] [Name of Recording Jurisdiction]

[City] , California 91030-3412 [Zip Code]

TOGETHER WITH all the improvements now or hereafter erected on the property, and all easements, appurtenances, and fixtures now or hereafter a part of the property. All replacements and additions shall also be covered by this Security Instrument. All of the foregoing is referred to in this Security Instrument as the "Property."

BORROWER COVENANTS that Borrower is lawfully seised of the estate hereby conveyed and has the right to grant and convey the Property and that the Property is unencumbered, except for encumbrances of record. Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay when due the principal of, and interest on, the debt evidenced by

COPY

the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S. currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any

08 0756981

COPY

time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

The Funds shall be held in an institution whose deposits are insured by a federal agency, instrumentality, or entity (including Lender, if Lender is an institution whose deposits are so insured) or in any Federal Home Loan Bank. Lender shall apply the Funds to pay the Escrow Items no later than the time specified under RESPA. Lender shall not charge Borrower for holding and applying the Funds, annually analyzing the escrow account, or verifying the Escrow Items, unless Lender pays Borrower interest on the Funds and Applicable Law permits Lender to make such a charge. Unless an agreement is made in writing or Applicable Law requires interest to be paid on the Funds, Lender shall not be required to pay Borrower any interest or earnings on the Funds. Borrower and Lender can agree in writing, however, that interest shall be paid on the Funds. Lender shall give to Borrower, without charge, an annual accounting of the Funds as required by RESPA.

If there is a surplus of Funds held in escrow, as defined under RESPA, Lender shall account to Borrower for the excess funds in accordance with RESPA. If there is a shortage of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the shortage in accordance with RESPA, but in no more than 12 monthly payments. If there is a deficiency of Funds held in escrow, as defined under RESPA, Lender shall notify Borrower as required by RESPA, and Borrower shall pay to Lender the amount necessary to make up the deficiency in accordance with RESPA, but in no more than 12 monthly payments.

Upon payment in full of all sums secured by this Security Instrument, Lender shall promptly refund to Borrower any Funds held by Lender.

4. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

COPY

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 4.

Lender may require Borrower to pay a one-time charge for a real estate tax verification and/or reporting service used by Lender in connection with this Loan.

5. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee and Borrower further agrees to generally assign rights to insurance proceeds to the holder of the Note up to the amount of the outstanding loan balance. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee and Borrower further agrees to generally assign rights to insurance proceeds to the holder of the Note up to the amount of the outstanding loan balance.

08 0756981

COPY

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. Occupancy. Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

0807501681

COPY

8. Borrower's Loan Application. Borrower shall be in default if, during the Loan application process, Borrower or any persons or entities acting at the direction of Borrower or with Borrower's knowledge or consent gave materially false, misleading, or inaccurate information or statements to Lender (or failed to provide Lender with material information) in connection with the Loan. Material representations include, but are not limited to, representations concerning Borrower's occupancy of the Property as Borrower's principal residence.

9. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions authorized under this Section 9.

Any amounts disbursed by Lender under this Section 9 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

If this Security Instrument is on a leasehold, Borrower shall comply with all the provisions of the lease. If Borrower acquires fee title to the Property, the leasehold and the fee title shall not merge unless Lender agrees to the merger in writing.

10. Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan, Borrower shall pay the premiums required to maintain the Mortgage Insurance in effect. If, for any reason, the Mortgage Insurance coverage required by Lender ceases to be available from the mortgage insurer that previously provided such insurance and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to obtain coverage substantially equivalent to the Mortgage Insurance previously in effect, at a cost substantially equivalent to the cost to Borrower of the Mortgage Insurance previously in effect, from an alternate mortgage insurer selected by Lender. If substantially equivalent Mortgage Insurance coverage is not available, Borrower shall continue to pay to Lender the amount of the separately designated payments that were due when the insurance coverage ceased to be in effect. Lender will accept, use and retain these payments as a non-refundable loss reserve in lieu of Mortgage Insurance. Such loss reserve shall be non-refundable, notwithstanding the fact that the Loan is ultimately paid in full, and Lender shall not be required to pay Borrower any interest or earnings on such loss reserve. Lender can no longer require loss reserve payments if Mortgage Insurance coverage (in the amount and for the period that Lender requires) provided by an insurer selected by Lender again becomes available, is obtained, and Lender requires separately designated payments toward the premiums for Mortgage Insurance. If Lender required Mortgage Insurance as a condition of making the Loan and Borrower was required to make separately designated payments toward the premiums for Mortgage Insurance, Borrower shall pay the premiums required to maintain Mortgage Insurance in effect, or to provide a non-refundable loss reserve, until Lender's requirement for Mortgage Insurance ends in accordance with any written agreement between Borrower and Lender providing for such termination or until termination is required by Applicable Law. Nothing in this Section 10 affects Borrower's obligation to pay interest at the rate provided in the Note.

20080475698

COPY

Mortgage Insurance reimburses Lender (or any entity that purchases the Note) for certain losses it may incur if Borrower does not repay the Loan as agreed. Borrower is not a party to the Mortgage Insurance.

Mortgage insurers evaluate their total risk on all such insurance in force from time to time, and may enter into agreements with other parties that share or modify their risk, or reduce losses. These agreements are on terms and conditions that are satisfactory to the mortgage insurer and the other party (or parties) to these agreements. These agreements may require the mortgage insurer to make payments using any source of funds that the mortgage insurer may have available (which may include funds obtained from Mortgage Insurance premiums).

As a result of these agreements, Lender, any purchaser of the Note, another insurer, any reinsurer, any other entity, or any affiliate of any of the foregoing, may receive (directly or indirectly) amounts that derive from (or might be characterized as) a portion of Borrower's payments for Mortgage Insurance, in exchange for sharing or modifying the mortgage insurer's risk, or reducing losses. If such agreement provides that an affiliate of Lender takes a share of the insurer's risk in exchange for a share of the premiums paid to the insurer, the arrangement is often termed "captive reinsurance." Further:

(a) Any such agreements will not affect the amounts that Borrower has agreed to pay for Mortgage Insurance, or any other terms of the Loan. Such agreements will not increase the amount Borrower will owe for Mortgage Insurance, and they will not entitle Borrower to any refund.

(b) Any such agreements will not affect the rights Borrower has - if any - with respect to the Mortgage Insurance under the Homeowners Protection Act of 1998 or any other law. These rights may include the right to receive certain disclosures, to request and obtain cancellation of the Mortgage Insurance, to have the Mortgage Insurance terminated automatically, and/or to receive a refund of any Mortgage Insurance premiums that were unearned at the time of such cancellation or termination.

11. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such Miscellaneous Proceeds shall be applied in the order provided for in Section 2.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or

08 0756831

COPY

loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

All Miscellaneous Proceeds that are not applied to restoration or repair of the Property shall be applied in the order provided for in Section 2.

12. Borrower Not Released; Forbearance By Lender Not a Waiver. Extension of the time for payment or modification of amortization of the sums secured by this Security Instrument granted by Lender to Borrower or any Successor in Interest of Borrower shall not operate to release the liability of Borrower or any Successors in Interest of Borrower. Lender shall not be required to commence proceedings against any Successor in Interest of Borrower or to refuse to extend time for payment or otherwise modify amortization of the sums secured by this Security Instrument by reason of any demand made by the original Borrower or any Successors in Interest of Borrower. Any forbearance by Lender in exercising any right or remedy including, without limitation, Lender's acceptance of payments from third persons, entities or Successors in Interest of Borrower or in amounts less than the amount then due, shall not be a waiver of or preclude the exercise of any right or remedy.

13. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Subject to the provisions of Section 18, any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind (except as provided in Section 20) and benefit the successors and assigns of Lender.

14. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected

20080245063

COPY

from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

15. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

16. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

17. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

18. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 18, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given in accordance with Section 15 within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

19. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums

COPY

which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

20. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower pursuant to Section 22 and the notice of acceleration given to Borrower pursuant to Section 18 shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section 20.

21. Hazardous Substances. As used in this Section 21: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

COPY

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

22. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to bring a court action to assert the non-existence of a default or any other defense of Borrower to acceleration and sale. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may invoke the power of sale and any other remedies permitted by Applicable Law. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 22, including, but not limited to, reasonable attorneys' fees and costs of title evidence.

If Lender invokes the power of sale, Lender shall execute or cause Trustee to execute a written notice of the occurrence of an event of default and of Lender's election to cause the Property to be sold. Trustee shall cause this notice to be recorded in each county in which any part of the Property is located. Lender or Trustee shall mail copies of the notice as prescribed by Applicable Law to Borrower and to the other persons prescribed by Applicable Law. Trustee shall give public notice of sale to the persons and in the manner prescribed by Applicable Law. After the time required by Applicable Law, Trustee, without demand on Borrower, shall sell the Property at public auction to the highest bidder at the time and place and under the terms designated in the notice of sale in one or more parcels and in any order Trustee determines. Trustee may postpone sale of all or any parcel of the Property by public announcement at the time and place of any previously scheduled sale. Lender or its designee may purchase the Property at any sale.

Trustee shall deliver to the purchaser Trustee's deed conveying the Property without any covenant or warranty, expressed or implied. The recitals in the Trustee's deed shall be prima facie evidence of the truth of the statements made therein. Trustee shall apply the proceeds of the sale in the following order: (a) to all expenses of the sale, including, but not limited to, reasonable Trustee's and attorneys' fees; (b) to all sums secured by this Security Instrument; and (c) any excess to the person or persons legally entitled to it.

23. Reconveyance. Upon payment of all sums secured by this Security Instrument, Lender shall request Trustee to reconvey the Property and shall surrender this Security Instrument and all notes evidencing debt secured by this Security Instrument to Trustee. Trustee shall reconvey the Property without warranty to the person or persons legally entitled to it. Lender may charge such person or persons a reasonable fee for reconveying the Property, but only if the fee is paid to a third party (such as the Trustee) for services rendered and the charging of the fee is permitted under Applicable Law. If the fee charged does not exceed the fee set by Applicable Law, the fee is conclusively presumed to be reasonable.

24. Substitute Trustee. Lender, at its option, may from time to time appoint a successor trustee to any Trustee appointed hereunder by an instrument executed and acknowledged by Lender

1966 0 8 0 7 0 5 5 0 9 8

COPY 15

and recorded in the office of the Recorder of the county in which the Property is located. The instrument shall contain the name of the original Lender, Trustee and Borrower, the book and page where this Security Instrument is recorded and the name and address of the successor trustee. Without conveyance of the Property, the successor trustee shall succeed to all the title, powers and duties conferred upon the Trustee herein and by Applicable Law. This procedure for substitution of trustee shall govern to the exclusion of all other provisions for substitution.

25. Statement of Obligation Fee. Lender may collect a fee not to exceed the maximum amount permitted by Applicable Law for furnishing the statement of obligation as provided by Section 2943 of the Civil Code of California.

The undersigned Borrower requests that a copy of any Notice of Default and any Notice of Sale under this Security Instrument be mailed to the Borrower at the address set forth above. A copy of any Notice of Default and any Notice of Sale will be sent only to the address contained in this recorded request. If the Borrower's address changes, a new request must be recorded.

BY SIGNING BELOW, Borrower accepts and agrees to the terms and covenants contained in this Security Instrument and in any Rider executed by Borrower and recorded with it.

RESOLUTION NO. 6990

A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF SOUTH PASADENA, CALIFORNIA,
DESIGNATING THE HUNTZINGER HOUSE
LOCATED AT 1040 STRATFORD AVENUE AS A
CULTURAL HERITAGE LANDMARK
(LANDMARK NO. 50)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance #2004 (commonly known as the "Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Commission to register the Huntzinger House at 1040 Stratford Avenue as a landmark; and

WHEREAS, the research and documentation amply demonstrates the qualifications of the property for landmark designation; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (A) (3) ["Designation Procedure"] of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, and received public comment; and

WHEREAS, the accredited architectural historian recently determined in a report that the Huntzinger House appears eligible for listing on the National Register of Historic Places; and

WHEREAS, the Commission findings included a determination that the house has an extremely high degree of integrity; and

WHEREAS, based on the evidence presented in the application materials, sub-committee research, on-site inspection and public testimony, the Cultural Heritage Commission voted to recommend designation of this property on May 15, 2008 and forwarded the recommendation to the City council; and

WHEREAS, the City Council held a public hearing on the proposed designation on July 2, 2008 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council makes the following findings based on the nomination and supporting materials and the information and testimony provided by the public, that it meets the Criteria for a landmark designation pursuant to Subsection (a) (2) "Designation Criteria" of the above Ordinance Section, as follows:

a. ***Its character, interest, and value as part of the heritage of the community;***
This 1910 residence is an excellent and intact example of Craftsman Style. Its character greatly contributes to the surrounding Stratford Avenue neighborhood and the City of South Pasadena. Particularly important in its value as part of community heritage, the design excellence of the home was featured in Gustav Stickley's magazine *The Craftsman.*

b. ***Its identification with a person who significantly contributed to the culture of the city;***
Built for Harvey Walter Huntzinger, a civil engineer and South Pasadena City Treasurer during the city's early social, cultural and economic prominence, the property is closely associated with one of the city's important civic personages. Further biographical information on Huntzinger is provided in Tim Gregory's research report on the property.

c. ***Its exemplification of a particular type in a neighborhood.***
With its shingled exterior, horizontal emphasis, deep covered porch exposed rafters, and use of local stone and brick. 1040 Stratford is a shining example of the Craftsman bungalow aesthetic. *The Craftsman* called 1040 Stratford "A California Bungalow of Stone and Shingle Worth Studying, Both in Design and Interior Finish."

d. ***Its identification as the work of a person or persons whose work has influenced the heritage of the city, state or United States.***
1040 Stratford was designed and built by the Los Angeles firm of Edward E. Sweet Designing and Building Company. The firm specialized in Craftsman bungalows and many of the company's designs were built around Southern California, with a large concentration in South Pasadena. In addition to building services, Sweet's company also published pattern books. *Sweet's Bungalows* was published by the California Printing Company in 1912. Further information about Edward Sweet is provided in Tim Gregory's research report.

SECTION 2. Pursuant to the provisions of the California Environmental Quality Act, Public Resources Code Section 21000 et. seq. ("CEQA") , the State's CEQA Guidelines, and application materials, the City Council hereby finds that the herein project is categorically exempt pursuant to guideline Section 15303 (e) (Class 31) which exempts from further environmental review a project that consists of preserving a historical resource.

SECTION 3. The City Council approves the designation of 1040 Stratford Avenue as an Official South Pasadena Historic Landmark.

SECTION 4. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 2nd day of July, 2008.

Philip C. Putnam, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 2nd day of July, 2008, by the following vote:

AYES: Cacciotti, Schneider, Sifuentes, Ten and Mayor Putnam

NOES: None

ABSENT: None

ABSTAINED: None

EXHIBIT "C"

1040 Stratford Avenue Mills Act Application

Rehab/Maintenance Projects planned over next 10 years

Rehabilitation Items

- Retrofitting
- Replacement of lock on front door and exterior light fixtures to more period appropriate style
- Exterior painting
- New roof
- Correction of cracked arroyo stone cap that surrounds primary structure to prevent water intrusion into wood structural elements
- Repair and/or replace cracked portions of concrete in front entrance walkway, matching existing color and texture as close as possible

Maintenance Items

- Ongoing termite inspections/repair

RECEIVED
MAY 28 2009
CITY OF SOUTH PASADENA
PLANNING AND BUILDING DEP

Description of how items meet Secretary of the Interior's Standards for Rehabilitation

Rehabilitation Items

- **Retrofitting**

"Recommended - Repairing the structural system by augmenting or upgrading individual parts or features. For example, weakened structural members such as floor framing can be paired with a new member, braced, or otherwise supplemented and reinforced."*

Retrofitting of the building will be done according to the Secretary of the Interior's Standards and Guidelines. The existing structural system of the building will be repaired and/or upgraded to protect the structure from earthquake damage.

"Not Recommended - Upgrading the building structurally in a manner that diminishes the historic character of the exterior, such as installing strapping channels or removing a decorative cornice; or damages interior features or spaces.

Replacing a structural member or other feature of the structural system when it could be augmented and retained."*

The retrofit will not be done in such a manner that diminishes the character of the exterior. Bolting and other fasteners will be chosen that minimize impact to historic fabric.

COPY

- Replacement of lock on front door and exterior lights to more period appropriate style

*"Architectural metal features--such as cast iron facades, porches, and steps; sheet metal cornices, siding, roofs, roof cresting and storefronts; and cast or rolled metal doors, window sash, entablatures, and hardware--are often highly decorative and may be important in defining the overall historic character of the building."**

The existing, non-historic front door hardware will be replaced with new hardware that is style/period appropriate. The existing hardware is shown below.

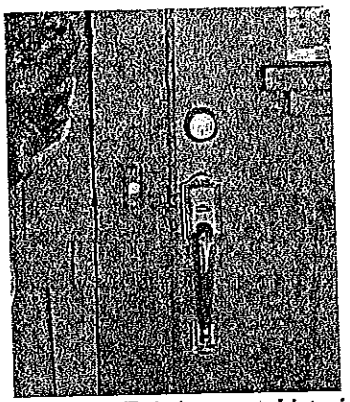

Figure 1. Existing, non-historic front door hardware

- Exterior painting

"Recommended - Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings.

Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required.

Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (handscraping and handsanding), then repainting.

Applying compatible paint coating systems following proper surface preparation.

Repainting with colors that are appropriate to the historic building and district.

*Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary."**

The exterior of the building will be repainted, when necessary according to the Secretary of the Interior's Standards and Guidelines. Surfaces will be periodically inspected to determine

COPY

if repainting is necessary. When the building requires a new coat of paint, proper preparation techniques will be used (as described in the guidelines) and period/style-appropriate colors will be chosen.

"Not Recommended - Stripping paint or other coatings to reveal bare wood, thus exposing historically coated surfaces to the effects of accelerated weathering.

Removing paint that is firmly adhering to, and thus, protecting wood surfaces.

Using destructive paint removal methods such as a propane or butane torches, sandblasting or waterblasting. These methods can irreversibly damage historic woodwork.

Using thermal devices improperly so that the historic woodwork is scorched.

Failing to neutralize the wood thoroughly after using chemicals so that new paint does not adhere.

Allowing detachable wood features to soak too long in a caustic solution so that the wood grain is raised and the surface roughened.

Failing to follow manufacturers' product and application instructions when repainting exterior woodwork.

Using new colors that are inappropriate to the historic building or district.

*Failing to undertake adequate measures to assure the protection of wood features."**

When the building is repainted, no destructive paint removal techniques will be used and inappropriate color choices will not be implemented.

- <u>New roof</u>

  "Recommended - Replacing in kind an entire feature of the roof that is to deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature.
  Examples can include a large section of roofing, or a dormer or chimney.

  *If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered."**

  The roof material is not historic or original to the building, but will likely require repair/replacement within the next ten years. The replacement material used will be compatible with what is existing. There is also a large skylight that needs to be rebuilt and was not included in the estimate

COPY

*"Not recommended - Removing a feature of the roof that is unrepairable, such as a chimney or dormer, and not replacing it; or replacing it with a new feature that does not convey the same visual appearance."**

No historic features of the roof will be removed, apart from the skylight when it is repaired or rebuilt if necessary.

- **Concrete Work**

Recommended - The existing concrete cap that tops the arroyo stone around the perimeter of the building has several cracks that should be treated to prevent water infiltration.

The existing curving concrete walkway in the front yard has numerous cracks. It is recommended that the cracks be patched or cracked sections replaced with material that matches as close as possible to the existing with respect to color and texture.

According to the Secretary's Standards the concrete elements will be repaired rather than replaced where possible.

Maintenance Items

- **Ongoing termite inspections/repair**

Ongoing termite inspections are considered routine preventative maintenance that will help protect the building from termite damage and this practice does not violate any of the Secretary of the Interior's Standards and Guidelines. A recent inspection revealed termite/dry rot that needs to be repaired.

***Note: Above quoted material is taken from The Secretary of the Interior's Standards and Guidelines for Rehabilitation**

COPY

Schedules and Reporting System

Schedules for Completion for Rehabilitation and Maintenance Items

1) Termite work to be done by June 2009.

2) Retrofitting and concrete cap repair to be done by June 2010.

3) Front door lock replacement and installation of light fixtures to be done by 2011.

4) Roof replacement (if needed) to be done by December 2016.

5) Painting to be done (if needed) by June 2018.

6) Concrete walkway to be done by 2019.

Reporting

The owners will provide a written update to the City every 2.5 years that details progress on the rehabilitation plan, starting November 2010. Photographs and a copy of the respective permit (if required) will be submitted for completed projects.

Michael Donovan and Dean Flores
City of South Pasadena
Planning & Building Department
1414 Mission Street
South Pasadena, CA 91030

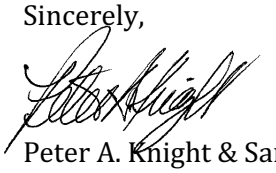
July 7, 2025

Dear Mr. Donovan and Mr. Flores:

Accompanying this letter are all the requested materials for the Mills Act progress update for our home, 851 Lyndon Street, the Wynyate Estate.

Debi Howell-Ardila assisted us in the preparation of these materials. (As you know, in 2009/2010, Debi prepared our original Mills Act application and rehabilitation plans.)

The Mills Act program has been a great help to us. We've completed everything in our work plan except for one project (due to the need to divert those resources elsewhere, in fire/life safety upgrades for the property; when a fire broke out on our property, we learned the hard way that it could not be accessed by emergency vehicles).



Our completed, capitalized projects have included:

1. Structural upgrades and seismic retrofitting and repairs
2. Repairs to the roof, which was leaking extensively, and re-sheathing in code-compliance cedar shingles
3. Repairs and repainting of deteriorated wood features and sheathing on the exterior
4. Repairs and stabilization of river stone walkway and stairs

We realize that maintaining and preserving a historic property is challenging, but it is a challenge we have embraced, as we hope is evident from this report.

Thank you in advance for your consideration.

Sincerely,

Peter A. Knight & Samantha Knight

Project Objective, Mills Act Contract, 851 Lyndon Street

This document responds to the City of South Pasadena (City) requests for a Mills Act Progress Report for 851 Lyndon Street in South Pasadena (Assessor's Parcel Number 5317-006-001).

In accordance with the City's request, this Mills Act Progress Report includes the following:

1. An itemized list of Mills Act Work Items completed to date, with current work plan status
    a. This information is provided in **Table 1**; all work items have been completed (and several areas of the house have required second and third rounds of rehabilitation, repairs, and repainting) except for Work Item #6 ("Reconstruct west-elevation chimney")

2. Receipts documenting the financial investment in the property
    a. **Available receipts are provided in Appendix A**.
        i. The property owners have made a due-diligence effort to locate and account for each receipt.
    b. Overall, the investment made in the property under the Mills Act Work Plan exceeds the amount originally forecast for the Mills Act, though Work Item #6 was not completed due to other costly, high-priority repairs.

3. Photo documentation of the completed work; both "before" and "after" conditions
    a. Available before and after photos are provided in Appendix A.1.
4. Copies of any building permits issued in conjunction with the work
    a. Available permits are provided in Appendix A.2.
5. Records showing the current assessed value of the property from the Los Angeles County Tax Assessor's office

In addition, this progress report presents background and context on the historic landmark, known as the Wynyate Estate, the original Mills Act contract, and the property owners' status report to the City in 2015.

Property Overview

Constructed in 1887, 851 Lyndon Street, known as the Wynyate Estate, was designed by architect W.R. Norton for Donald Graham, South Pasadena's first mayor, and his wife Margaret Collier Graham, a well-known literary figure. Wynyate was among South Pasadena's earliest properties listed on the National Register of Historic Places and is City of South Pasadena Landmark No. 6. The property is a highly intact, rare example of a late 19th-century Victorian-style residence in South Pasadena. The property occupies a hillside parcel overlooking South Pasadena and includes a guest house, garage, tennis court, pool, and front and backyard.

The local landmark designation, prepared in 1972, follows this memo as Appendix E.

Mills Act Background and Work Plan

In 2009, when property owners Peter and Samantha Knight purchased 851 Lyndon Street as the primary residence for their family, the property had suffered from years of deferred maintenance. The complex, high-pitched roof leaked in multiple locations, and previous repairs had not addressed underlying issues. The use of composition shingles had also diminished the integrity of one of the property's signature characteristics, of the prominent, high-pitched, wood-shake roof. With the help of the Mills Act, the Knights were able to use a fire-resistant Cedar-shake shingle for the roof, to restore the appearance while offering a higher level of fire retardance.

Deferred maintenance had also led to the advanced deterioration of wood shingles, framing, and sheathing throughout the exterior, due to exposure and termite damage over time. The property had also never been structurally retrofitted; its footings were not pinned to the foundation, creating a hazard in the event of an earthquake. Other issues included failing concrete stairs and river-rock retaining walls, site drainage issues, inoperable wood-sash windows, cracking interior plaster, due to site settling issues, and mature trees that created safety issues due to lack of maintenance.

Following the repairs to wood sheathing and features, the Knights repainted in a period-appropriate color palette. Since this time, the Knights have re-painted the property two additional times.

The Knights initially applied for a Mills Act Historic Property Contract in 2009. At the time, with the City's Cultural Heritage Ordinance out of date, the City Council deferred a vote on the application and asked the Cultural Heritage Commission to refine and strengthen its Mills Act program.

In 2017, following years of community outreach and consultation with the City Council and City planners, the Cultural Heritage Commission provided the updated Cultural Heritage Ordinance to the City Council for review and adoption. In terms of the Mills Act, the ordinance included expanded requirements for applicants; one of the most salient was the requirement for overall financial parity between the projected investment in the historic property and the estimated tax savings over the 10-year contract period.

In an acknowledgment of the exceptional investment required to maintain historic properties, the Mills Act in South Pasadena allows compliant contracts to run in perpetuity, a policy that is standard practice for cities with enacted Mills Act programs and for Certified Local Governments in California.

As of 2009, however, before the new ordinance was adopted, 851 Lyndon Street still needed a significant investment to stop the deterioration of its character-defining features and to ensure its structural stability. With this in mind, the Knights reapplied for the Mills Act in 2010, with an ambitious plan for the rehabilitation, preservation, and maintenance of this important landmark in South Pasadena.

In the adopted Mills Act contract, the projected investment in Wynyate exceeded the estimated tax savings by a significant amount. The contract included six capitalized projects: (1) structural upgrades/retrofitting, (2) re-roofing and structural repairs to roof system, (3) exterior wood siding repairs, (4) re-painting exterior, (5) repairs/stabilization of historic concrete stairs, and (6) reconstruction of west-elevation chimney). Among these, only the final project was not completed, due to other high-priority needs. In addition, following a fire on the property (during which emergency vehicles were unable to access the site, due to the narrow and sharply curved driveway), the Knights invested in widening the driveway and reconsidered adding an operable chimney to the property, in light of the present-day fire hazards.

The Knight's Mills Act workplan also included 11 noncapitalized projects, all of which have been completed. In addition, the property has needed other emergency and time-sensitive upgrades over time. These include the fire-life safety upgrades referenced above (widening the driveway to accommodate emergency vehicles) and installing an independent sewer line. These projects are described in Table 1.

With the help of the Mills Act, the extraordinary investment made by the Knights in South Pasadena Landmark #6, the Wynyate Estate, will help ensure that this nearly 140-year-old Victorian treasure continues to survive and thrive in South Pasadena for generations to come.

Mills Act Workplan Progress

In accordance with the City's request, Table 1 provides an overview of (1) each Mills Act Work Plan Item; (2) the associated scope of work; (3) original schedule; (4) current status (as of 6/2025); and (5) estimated cost. Available receipts, before and after images, and building permits follow this memo as Appendices A, A.1, and A.2.

All associated Work Item numbers are noted in photo captions for ease of review.

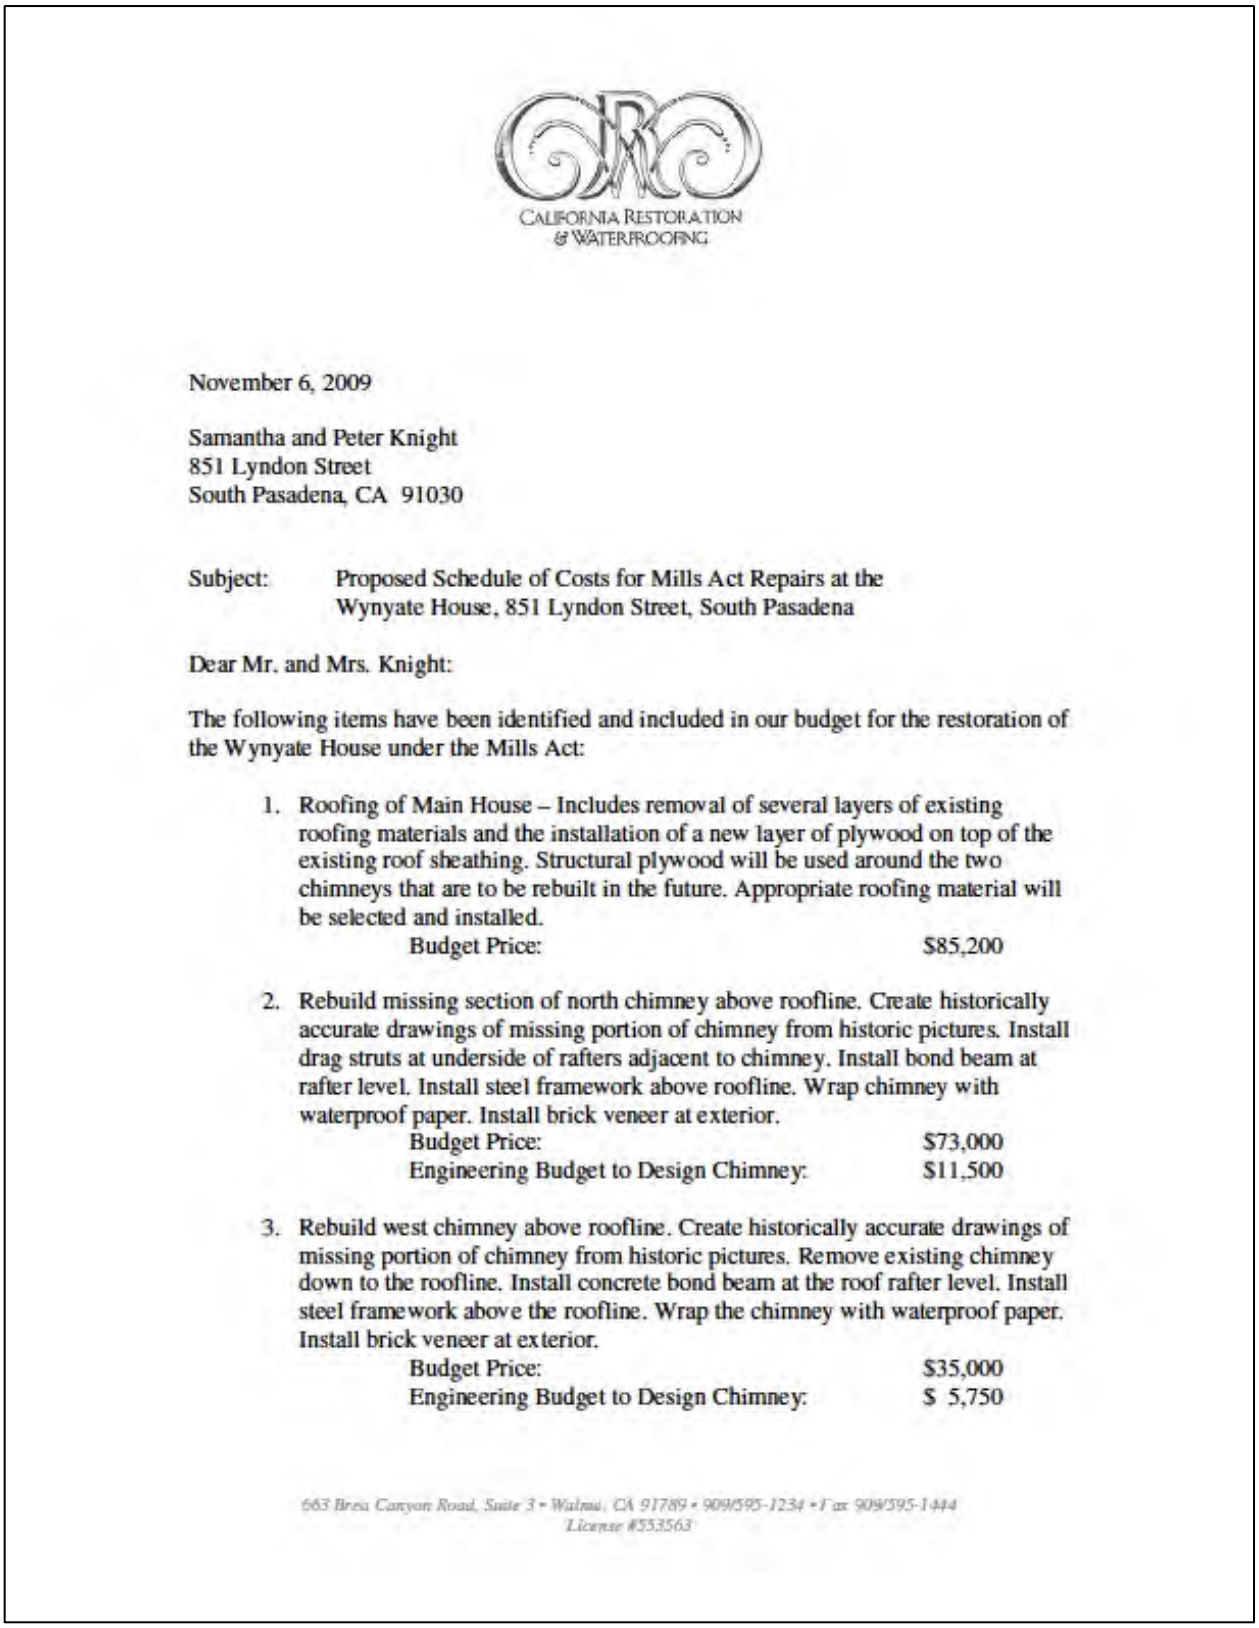
Work Item #	Mills Act Work Plan, Scope of Work	Original Schedule	Current Status (as of 6/2025)	Cost	Images	Building Permits
1.	Main House, structural upgrades and retrofitting The property was not secured to its foundations and footings; structural upgrades involved retrofitting piers, footings, and posts in basement	2010	**Complete**	Work Items #1, #2, and #3 cost $253,563 (see Appendix A for available receipt)	See Appendix A.1 for available before and after images	See Appendix A.2 for available building permits
2.	Main House, dry rot and termite mitigation	2010	**Complete**	Work Items #1, #2, and #3 cost $253,563 (see Appendix A for available receipt)	See Appendix A.1 for available before and after images	See Appendix A.2 for available building permits
3.	Main House, roofing system Structural repairs and roof system overhaul. This included (1) the removal of multiple layers of composition shingles, which had accumulated over many decades; (2) structural repairs to damaged roof rafters and wood; and (3) re-sheathing in a code-compliant, historically compatible wood-shake shingles	2010	**Complete**	Work Items #1, #2, and #3 cost $253,563 (see Appendix A for available receipt)	See Appendix A.1 for available before and after images	See Appendix A.2 for available building permits
4.	Main House, Repairing/repainting exterior	2010	**Complete**	Originally estimated at $34,500	See Appendix A.1 for available before and after images	See Appendix A.2 for available building permits

Work Item #	Mills Act Work Plan, Scope of Work	Original Schedule	Current Status (as of 6/2025)	Cost	Images	Building Permits
5.	Stabilize and repair historic concrete stairs and stream-rock border This feature was included in the original National Register of Historic Places nomination for Wynyate as historically significant. However, erosion of the soil surrounding the stairs had contributed to the separation of the low-stone wall from the concrete stairs and to the cracking and failure of the historic concrete.	2014	**Complete (in 2013)**	Originally estimated at $36,580	See Appendix A.1 for available before and after images	See Appendix A.2 for available building permits
6.	Reconstruct west-elevation chimney This partial-length chimney on the west elevation (not visible from public right-of-way) would be reconstructed from documentary evidence and brought back to its original appearance	2019	Postponed due to other high priority projects	Originally estimated at $40,750	N/A	N/A
7.	Maintenance: Maintenance: Dry rot & termite mitigation	Annual	On schedule, ongoing	N/A	N/A	N/A
8.	Maintenance: Roof inspections and repairs as needed	Triannual inspection	On schedule, ongoing	N/A	N/A	N/A
9.	Maintenance: Paint inspection and repairs as needed	Triannual inspection	On schedule, ongoing	$15,500 (partial total; available payment records in Appendix A)	N/A	N/A



Work Item #	Mills Act Work Plan, Scope of Work	Original Schedule	Current Status (as of 6/2025)	Cost	Images	Building Permits
10.	Non-Capitalized Expenses, Original Mills Act: Emergency mitigation of drainage, reconstruction of retaining wall steps at guest house	2009	**Complete**	Originally estimated at $28,765		
11.	Non-Capitalized Expenses, Original Mills Act: Repairs to north porch roof, main house	2010	**Complete**	Originally estimated at $9,105		
12.	Non-Capitalized Expenses, Original Mills Act: Newell post repairs, entry, main house	2010	**Complete**	Originally estimated at $1,167		
13.	Non-Capitalized Expenses, Original Mills Act: Exterior siding, wooden backing repairs	2010	**Complete**	Originally estimated at $1,072		
14.	Non-Capitalized Expenses, Original Mills Act: Exterior brick veneer repairs, main house	2010	**Complete**	Originally estimated at $1,186		
15.	Non-Capitalized Expenses, Original Mills Act: Landscape/hardscape maintenance including but not limited to the following: • Removal of dead tree • Removal and replacement of two diseased Oak trees	2010	**Complete**	$297,853 (partial total; available payment records in Appendix A)	N/A	N/A

Work Item #	Mills Act Work Plan, Scope of Work	Original Schedule	Current Status (as of 6/2025)	Cost	Images	Building Permits
16.	Non-Capitalized Expenses, Original Mills Act: Repairs to Guest House roof	2011	**Complete**	Originally estimated at $12,190		
17.	Non-Capitalized Expenses, Original Mills Act: Repairs and re-roofing garage	2011	**Complete**	Originally estimated at $9,625		
18.	Non-Capitalized Expenses, Original Mills Act: Foundation upgrade, Guest House	2010	**Complete**	Originally estimated at $7,800		
19.	Non-Capitalized Expenses, Original Mills Act: Repainting Guest House	2014	**Complete**	Originally estimated at $2,485		
20.	Non-Capitalized Expenses, Original Mills Act: Repainting Garage	2014	**Complete**	Originally estimated at $1,800		
21.	Other Non-Capitalized Expenses: • Installation of independent sewer line • Widening driveway turn to facilitate access to the site by firetrucks and emergency. Recently, when a fire broke out on the property grounds, South Pasadena Fire Department emergency vehicles could not access the site due to the narrow, sharp driveway curve.	N/A	**Complete**	$46,819 (partial total; available payment records in Appendix A)

CALIFORNIA RESTORATION
& WATERPROOFING

November 6, 2009

Samantha and Peter Knight
851 Lyndon Street
South Pasadena, CA 91030

Subject: Proposed Schedule of Costs for Mills Act Repairs at the Wynyate House, 851 Lyndon Street, South Pasadena

Dear Mr. and Mrs. Knight:

The following items have been identified and included in our budget for the restoration of the Wynyate House under the Mills Act:

1. Roofing of Main House – Includes removal of several layers of existing roofing materials and the installation of a new layer of plywood on top of the existing roof sheathing. Structural plywood will be used around the two chimneys that are to be rebuilt in the future. Appropriate roofing material will be selected and installed.
   Budget Price: $85,200

2. Rebuild missing section of north chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Install drag struts at underside of rafters adjacent to chimney. Install bond beam at rafter level. Install steel framework above roofline. Wrap chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $73,000
   Engineering Budget to Design Chimney: $11,500

3. Rebuild west chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Remove existing chimney down to the roofline. Install concrete bond beam at the roof rafter level. Install steel framework above the roofline. Wrap the chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $35,000
   Engineering Budget to Design Chimney: $ 5,750

663 Brea Canyon Road, Suite 3 • Walnut, CA 91789 • 909/595-1234 • Fax 909/595-1444
License #553563

Figure 2. Original Estimate and Schedule, Work Items #1, 2, and 3 (California Restoration and Waterproofing, David Charlebois), page 2 of 3

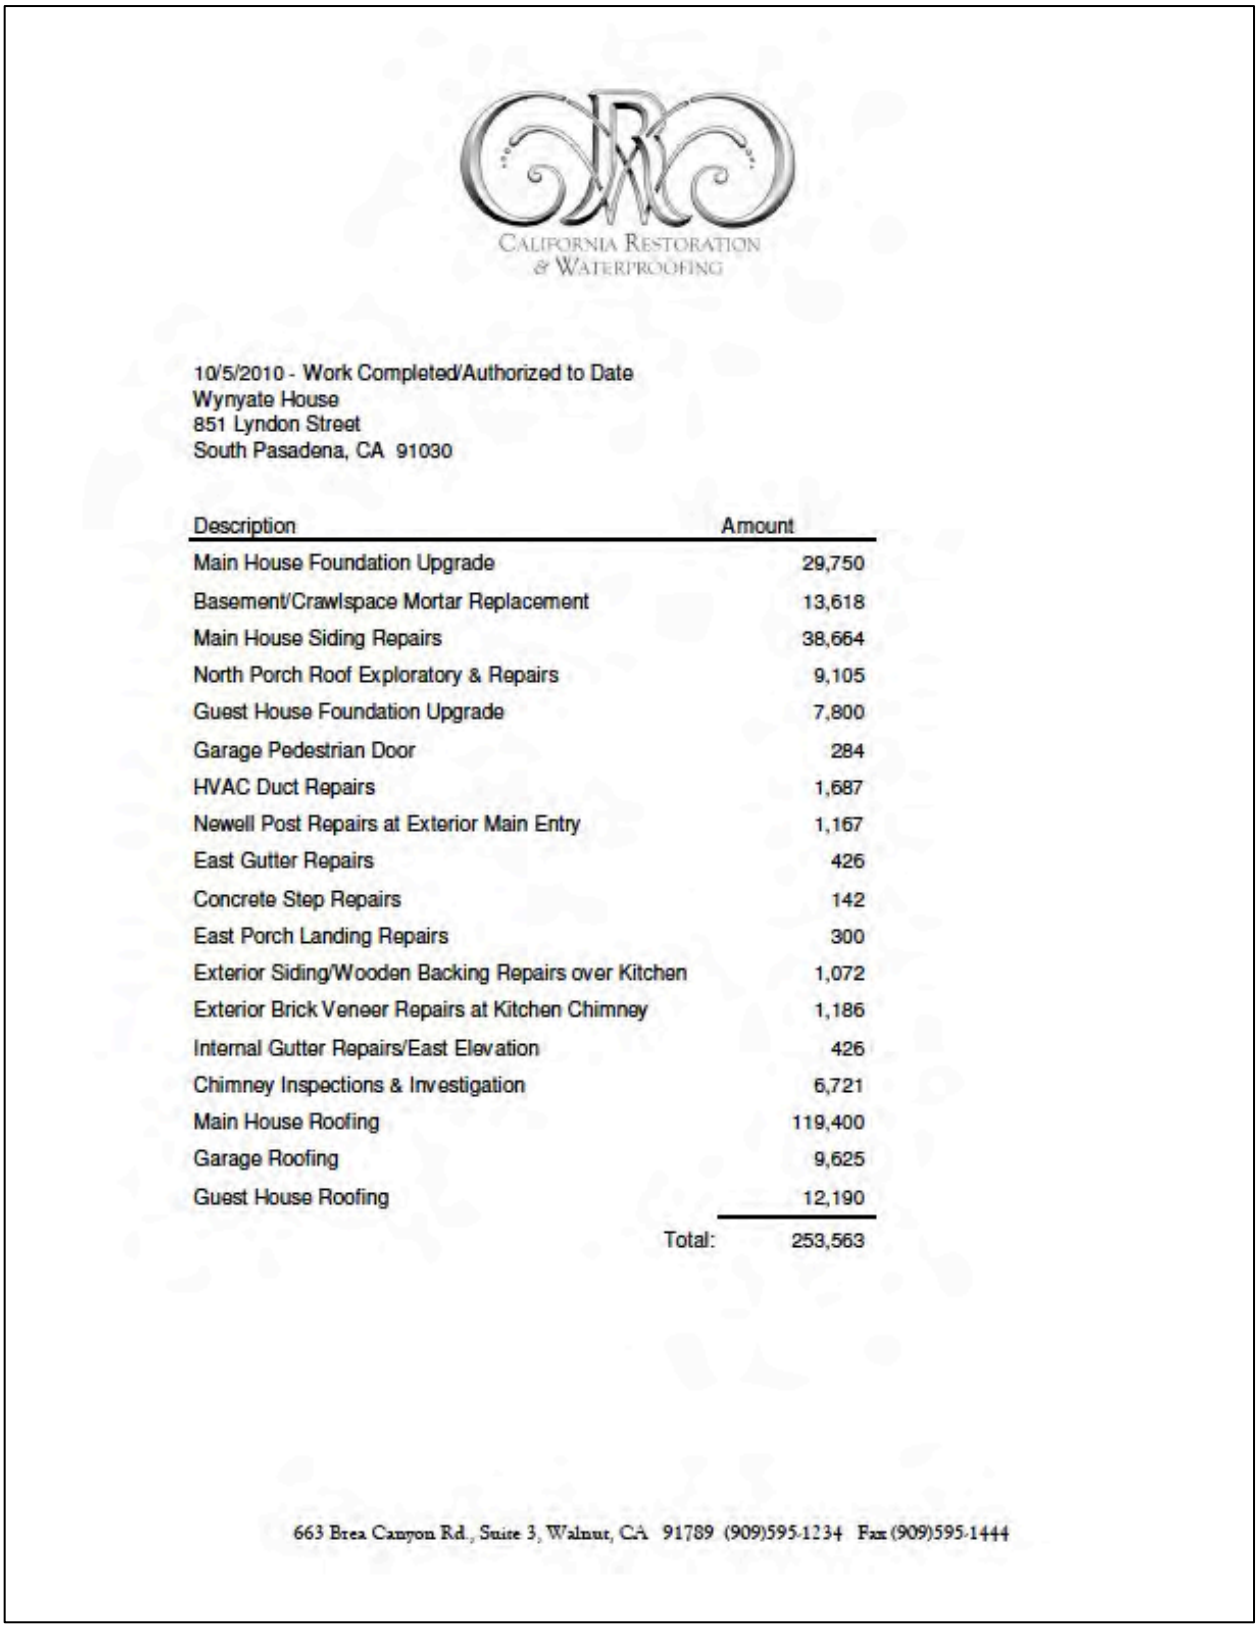
4. Selected repairs to historic concrete/rock stairs and pathway at northeast corner of lot (from sidewalk below to the driveway above). Structurally underpin approximately 30 lineal feet of rock sidewall at the mid-span down side of the staircase. This would be done below grade and would not be visible when completed. This will reduce the migration and slippage of the walkway. Remove and replace the grossly mismatched patches of the past with colored and textured concrete. Stabilize the loose and spalling pieces of historic concrete walking surface where practicable. Fill in open and failed mortar joints along the sides of the walking path and stairs.
   Budget Price: $36,580

5. Main house foundation repairs and improvements at crawlspace. Add blocking between studs and add plywood shear panels over the cripple walls. Add selected foundation bolting. Replace single brick piers. Other repairs as discovered.
   Budget Price: $29,750

6. Selected basement and crawlspace mortar replacement at brick foundation walls. Cut out mortar where it is found to have disintegrated into a powdering condition. Install new mortar to approximate the original in strength, color and texture.
   Budget Price: $13,618

Total Budget: $290,398

We look forward to working with you.



Respectfully,

CALIFORNIA RESTORATION & WATERPROOFING

David D. Charlebois
President

EXTERIOR SPECIALISTS

PETER AND SAMANTHA KNIGHT
851 LYNDON ST.
SOUTH PASADENA, CA 91030

JOB AREAS: EXTERIOR HOUSE, GARAGE, AND GUEST HOUSE.

WOOD SIDING AND SHINGLES
1. HAND WASH ALL EXTERIOR WOOD SIDING AND SHINGLES TO REMOVE DIRT.
2. HAND SAND WOOD SIDING AND SHINGLES TO REMOVE LOOSE AND PEELING PAINT.
3. PRIME ALL WOOD SURFACES AS REQUIRED WITH SHERWIN WILLIAMS EXTERIOR WOOD PRIMER.
4. REPAIR DAMAGED WOODWORK WITH INJECTED EPOXY.
5. RE-PRIME ALL REPAIRED WOODWORK.
6. CAULK ALL JOINTS AS NEEDED.
7. FINISH COAT WOOD SIDING AND SHINGLES WITH TWO (2) COATS OF SHERWIN WILLIAMS EXTERIOR PAINT.

WINDOWS AND WOOD TRIM
1. HAND SAND ALL WOOD TRIM TO REMOVE PEELING PAINT.
2. REMOVE ALL LOOSE WINDOW PUTTY AND REPLACE WITH "DAP 33" WINDOW GLAZING.
3. PRIME ALL WOOD SURFACES AS REQUIRED WITH SHERWIN WILLIAMS EXTERIOR WOOD PRIMER.
4. REPAIR DAMAGED WOODWORK WITH INJECTED EPOXY.
5. RE-PRIME ALL REPAIRED WOODWORK.
6. LIGHTLY HAND SAND ALL WINDOWS AND WOOD TRIM WITH 150-GRIT SANDPAPER.
7. CAULK ALL JOINTS AS REQUIRED.
8. FINISH COAT WINDOWS AND WOOD TRIM WITH TWO (2) COATS OF SHERWIN WILLIAMS EXTERIOR SEMIGLOSS ENAMEL.

NOTES
1. AREAS WITH HEAVILY PEELING AND "ALLIGATORED" PAINT WILL REQUIRE THE USE OF A HEAT GUN.
2. CARPENTRY TO BE BILLED SEPARATELY AT $28 HR. PLUS MATERIALS.
3. PROTECT ALL BUSHES FROM PAINT OVERSPRAY.
4. LEAVE ALL AREAS NEAT AND CLEAN.

LABOR AND MATERIALS:

HOUSE	$34,500.00
GUEST HOUSE	$2,450.00
GARAGE	$1,800.00

THANK YOU,

CHRIS JONES

LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Signature: Roy Leach Date: 4/19/2010

WORKER'S COMPENSATION DECLARATION

I hereby affirm under penalty of perjury one of the following declarations:

☐ I have and will maintain a certificate of consent to self-insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

☑ I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are listed in the left column of this application.

☐ I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and I agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

Signature: Roy Leach Date: 4/19/2010

CONSTRUCTION LENDING AGENCY

See the back of this form for required statement

AUTHORIZATION OF ENTRY

I certify that I have read this application and state that the information given is correct. I agree to comply with all federal and state laws and city ordinances relating to building construction, and I authorize a representative of this City to enter upon the property for which I have applied for this permit for the purpose of making inspections.

Revised Mills Act Application, Wynyate
Schedule and Reporting System

Overview of Schedule:

1.	Structural upgrades and retrofitting, main house	Completed, 2010
2.	Dry rot & termite mitigation, main house	Completed, 2010
3.	Roofing system, main house: structural repairs and re-roof with historically compatible, code-compliant wood shingles	Completed, 2010
4.	Repairing/repainting exterior of main house	Completed, 2010
5.	Stabilize and repair historic concrete stairs and stream-rock border	By 2014
6.	Reconstruct west-elevation chimney replacement of primary residence roof system	By 2019
7.	Maintenance: Dry rot & termite mitigation (Primary residence, guest house & garage)	Annual inspection
8.	Maintenance: Roof inspections and repairs as needed (Primary residence, guest house & garage)	Triannual inspection
9.	Maintenance: Paint inspection and repairs as needed (Primary residence, guest house & garage)	Triannual inspection

Reporting System:

Wynyate owners, Samantha and Peter Knight, will provide written updates to the City of South Pasadena every two years, documenting progress and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

Revised Mills Act Application, Wynyate
Summary of Costs

1.	Capitalized Expenses	Amount	Schedule
	A. Structural upgrades and retrofitting, main house	$ 43,368	2010
	B. Re-roofing and structural repairs, main house roof	$ 119,400*	2010
	C. Siding repairs, main house exterior	$ 38,664	2010
	D. Re-painting exterior	$ 34,500	2010
	E. Repairs and stabilization, historic concrete stairs	$ 36,580†	2014
	F. Reconstruction, historic west-elevation chimney	$ 40,750‡	2019
	Revised Total, Capitalized Expenses:	**$ 313,262**	

Total represents a $150,194 increase over original plan costs.

2.	Non-Capitalized Expenses	Amount	Schedule
	A. Emergency mitigation of drainage, reconstruction of retaining wall steps at guest house	$ 28,765	2009
	B. Repairs to north porch roof, main house	$ 9,105††	2010
	C. Newell post repairs, entry, main house	$ 1,167††	2010
	D. Exterior siding, wooden backing repairs	$ 1,072††	2010
	E. Exterior brick veneer repairs, main house	$ 1,186††	2010
	F. Landscape maintenance	$ 5,916	2010
	G. Repairs to Guest House Roof	$ 12,190	2011
	H. Repairs and re-roofing, Garage	$ 9,625	2011
	I. Foundation upgrade, guest house	$ 7,800	2010
	J. Repainting, Guest House	$ 2,485	2014
	K. Repainting, Garage	$ 1,800	2014
	Total, Non-Capitalized Expenses:	**$ 81,111**	

3.	**Total Out-of-Pocket Investment in Wynyate:**	**$ 394,373**
4.	**Total Estimated Tax Savings, 10-year period:**	**$ 214, 511**
5.	**Average Annual Cost to the City of South Pasadena:**	**$ 3,399**

* Originally budgeted for $85,200. This work has been completed by David Charlebois.

† New rehabilitation/preservation project, not included in original financial analysis.

‡ New rehabilitation/preservation project, not included in original financial analysis.

†† While involving character-defining features, these work efforts, which have already been completed, are not capitalized. Each represents an area of concern in need of immediate repairs, as identified by David Charlebois in site inspections; work completed by Charlebois in 2010.

Revised Mills Act Application, Wynyate Estate, 851 Lyndon Street, South Pasadena
Rehabilitation and Preservation Work Plan

Area A: Primary Residence

Feature	Character-Defining?	Proposed Treatment	Schedule	Standards Compliance*
1. Structural System ▪ Damaged brick piers around lintel ▪ Unreinforced, makeshift structural post ▪ Wood posts unsecured to footings & piers	No	1. Contractor to make foundation repairs and improvements at crawlspace. Add blocking between studs and add plywood shear panels over the cripple walls. Add selected foundation bolting. Replace single brick piers. 2. Contractor to make selected repairs to basement and crawlspace mortar at brick foundation walls. Cut out mortar where disintegrated, install new mortar to approximate the original in strength, color and texture.	2010 - completed 2010 - completed	Repair according to industry standards and applicable building codes.
2. Roofing System	Yes (configuration, pitch, and original wood shingles on west elevation dormer); sheathed in non-original composition shingles	1. Remove multiple layers of comp shingles. Repair underlying structure. Install new layer of plywood over existing roof sheathing. 2. Re-roof with period-compatible, code-compliant shingles.	2010 (moved up due to severe leaking issues) – completed 2010 - completed	Recommended rehabilitation treatment guidelines: 1. Identify, retain, preserve: Identify "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas…chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning."

* The recommended treatment approach for Wynyate is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties,* National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
2. Roofing System (con't)	Yes	3. Structural plywood will be used around the two chimneys that are to be rebuilt in the future.	2010 - completed	2. Protect and retain: "Cleaning of gutters and downspouts and replacing deteriorated flashing. Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to ensure that materials are free from insect infestation. … Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration." 3. Repair: "Repairing a roof by reinforcing the historic materials which comprise roof features. Repairs will also generally include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features when there are surviving prototypes such as cupola louvers, dentils, dormer roofing; or slates, tiles, or wood shingles on a main roof." 4. Replace: "Replacing in kind an entire feature of the roof that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. Examples can include a large section of roofing, or a dormer or chimney. If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered."
3. Paint and Exterior Repairs ▪ Cracking and peeling paint (west elevation), gable face (south elevation), and east elevation wall on façade	Yes	1. Contractor to provide owners with a palette of period-appropriate colors for repainting. 2. Cracked and peeling paint to be removed with Peel Away, lightly hand-sanded, primed, and set with two coats of paint.	2010 - completed 2010 - completed	Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting.

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
3. Paint & Exterior Repairs (con't) Repainting Exterior	Yes	3. Exterior of residence to be repainted in period-appropriate color. Where necessary, paint removal will be carried out by the gentlest means possible.	2010 - completed	Recommended rehabilitation treatment guidelines (con't): Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."
4. West-Elevation Chimney	Yes	1. Using documentary evidence, qualified contractor will reconstruct west-elevation chimney. Work efforts will include the following tasks: • Create historically accurate drawings of missing portion of chimney from historic pictures. • Remove existing chimney down to the roofline. • Install concrete bond beam at the roof rafter level. • Install steel framework above the roofline. • Wrap the chimney with waterproof paper. • Install brick veneer at exterior.	By 2019	Reconstruction, Secretary of the Interior's Standards: 1. Reconstruction will "depict vanished or non-surviving portions of a property when documentary and physical evidence is available to permit accurate reconstruction with minimal conjecture, and such reconstruction is essential to the public understanding of the property." 2. Measures will be taken to ensure that remaining historic materials, features, and spatial relationships are preserved. 3. Reconstruction will be based on "the accurate duplication of historic features and elements substantiated by documentary or physical evidence rather than on conjectural designs or the availability of different features from other historic properties." The reconstructed partial chimney will re-create the original features in materials, design, and texture. 4. Reconstructed features "will be clearly identified as a contemporary re-creation." 5. "Designs that were never executed historically will not be constructed." The historic appearance of the features to be reconstructed will be extensively researched and documented prior to any work efforts.

Area B: Guest House and Garage				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Roof	No (not capitalized expense)	1. Garage to be re-roofed and guest house roof to be repaired.	2011	Non-character defining; not a qualifying expense under Mills Act. Qualified contractor to provide repairs to industry standards.
Area C: Hardscaping				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Historic concrete stairs and low stream-rock border (northeast corner of property)	Yes	1. In order to stop movement and separation of stream rock border from cement sidewalk, and the splitting of concrete stairs, the stream-rock border will be underpinned with poured concrete (in increments, to approximately 16" below surface) to provide support. 2. Large, loose portions of cracked, loose concrete will be removed and re-epoxied in place. 3. Incompatible patches will be removed and replaced with concrete mix that more closely matches the historic concrete. 4. Where tree roots have lifted and displaced stairs at the bottom of the walkway, contractor will, in conjunction with an arborist, study the possibility of removing the stair, cutting root (without killing the tree), and re-setting the stair at the proper angle.	By 2014 By 2014 By 2014 By 2014	Recommended treatment approach: "Repair of historic concrete may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."

Area D: Landscaping				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Topography and Terrain	Yes (not capitalized expense)	Drainage issue currently being mitigated	2009 - completed	Not a qualifying expense; work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Protecting and maintaining buildings and sites by providing proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape." "Minimizing disturbance of terrain around buildings or elsewhere on the site, thus reducing the possibility of destroying or damaging important landscape features."
Mature Trees Issue: Mature Trees (overdue for trimming; need cabling)	Yes (not capitalized expense)	Prune and lace: Ash tree over garage, California Oak trees at the north end of the parking courtyard, California Live Oak trees at north end of pool, and Eucalyptus tree at south side of driveway. Saw off dead Eucalyptus tree at south end of tennis court. Cable pine trees on north-east sides; deadwood of Ash tree to be removed and lightened for safety.	2010 - completed	"Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**[1]
1. Exterior Wood Cladding and Paint	Yes	1. Tri-annual paint inspection and maintenance/re-painting as necessary	2014, 2017, 2019	Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."
2. Wood framing and sheathing	Yes	1. Annual inspections to ensure mitigation of dry rot and termite damage 2. Additional areas of concern to be addressed as found.	2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019	Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the Treatment of Historic Properties. This treatment will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind."[2] Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems…by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."

[1] The recommended treatment approach for Wynyate is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, excerpts describing treatment guidelines are drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties,* US Department of the Interior, National Park Service, Washington, DC. WYNYATE ESTATE, MILLS ACT APPLICATION
APPENDIX A
SUPPORTING DOCUMENTATION

CALIFORNIA RESTORATION
& WATERPROOFING

November 6, 2009

Samantha and Peter Knight
851 Lyndon Street
South Pasadena, CA 91030

Subject: Proposed Schedule of Costs for Mills Act Repairs at the Wynyate House, 851 Lyndon Street, South Pasadena

Dear Mr. and Mrs. Knight:

The following items have been identified and included in our budget for the restoration of the Wynyate House under the Mills Act:

1. Roofing of Main House – Includes removal of several layers of existing roofing materials and the installation of a new layer of plywood on top of the existing roof sheathing. Structural plywood will be used around the two chimneys that are to be rebuilt in the future. Appropriate roofing material will be selected and installed.
   Budget Price: $85,200

2. Rebuild missing section of north chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Install drag struts at underside of rafters adjacent to chimney. Install bond beam at rafter level. Install steel framework above roofline. Wrap chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $73,000
   Engineering Budget to Design Chimney: $11,500

3. Rebuild west chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Remove existing chimney down to the roofline. Install concrete bond beam at the roof rafter level. Install steel framework above the roofline. Wrap the chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $35,000
   Engineering Budget to Design Chimney: $ 5,750

663 Brea Canyon Road, Suite 3 ▪ Walnut, CA 91789 ▪ 909/595-1234 ▪ Fax 909/595-1444
License #553563

4. Selected repairs to historic concrete/rock stairs and pathway at northeast corner of lot (from sidewalk below to the driveway above). Structurally underpin approximately 30 lineal feet of rock sidewall at the mid-span down side of the staircase. This would be done below grade and would not be visible when completed. This will reduce the migration and slippage of the walkway. Remove and replace the grossly mismatched patches of the past with colored and textured concrete. Stabilize the loose and spalling pieces of historic concrete walking surface where practicable. Fill in open and failed mortar joints along the sides of the walking path and stairs.
   Budget Price: $36,580

5. Main house foundation repairs and improvements at crawlspace. Add blocking between studs and add plywood shear panels over the cripple walls. Add selected foundation bolting. Replace single brick piers. Other repairs as discovered.
   Budget Price: $29,750

6. Selected basement and crawlspace mortar replacement at brick foundation walls. Cut out mortar where it is found to have disintegrated into a powdering condition. Install new mortar to approximate the original in strength, color and texture.
   Budget Price: $13,618

Total Budget: $290,398

We look forward to working with you.

Respectfully,

CALIFORNIA RESTORATION & WATERPROOFING

David D. Charlebois
President

EXTERIOR SPECIALISTS

PETER AND SAMANTHA KNIGHT
851 LYNDON ST.
SOUTH PASADENA, CA 91030

JOB AREAS: EXTERIOR HOUSE, GARAGE, AND GUEST HOUSE.

WOOD SIDING AND SHINGLES

1. HAND WASH ALL EXTERIOR WOOD SIDING AND SHINGLES TO REMOVE DIRT.
2. HAND SAND WOOD SIDING AND SHINGLES TO REMOVE LOOSE AND PEELING PAINT.
3. PRIME ALL WOOD SURFACES AS REQUIRED WITH SHERWIN WILLIAMS EXTERIOR WOOD PRIMER.
4. REPAIR DAMAGED WOODWORK WITH INJECTED EPOXY.
5. RE-PRIME ALL REPAIRED WOODWORK.
6. CAULK ALL JOINTS AS NEEDED.
7. FINISH COAT WOOD SIDING AND SHINGLES WITH TWO (2) COATS OF SHERWIN WILLIAMS EXTERIOR PAINT.

WINDOWS AND WOOD TRIM

1. HAND SAND ALL WOOD TRIM TO REMOVE PEELING PAINT.
2. REMOVE ALL LOOSE WINDOW PUTTY AND REPLACE WITH "DAP 33" WINDOW GLAZING.
3. PRIME ALL WOOD SURFACES AS REQUIRED WITH SHERWIN WILLIAMS EXTERIOR WOOD PRIMER.
4. REPAIR DAMAGED WOODWORK WITH INJECTED EPOXY.
5. RE-PRIME ALL REPAIRED WOODWORK.
6. LIGHTLY HAND SAND ALL WINDOWS AND WOOD TRIM WITH 150-GRIT SANDPAPER.
7. CAULK ALL JOINTS AS REQUIRED.
8. FINISH COAT WINDOWS AND WOOD TRIM WITH TWO (2) COATS OF SHERWIN WILLIAMS EXTERIOR SEMI-GLOSS ENAMEL.

NOTES

1. AREAS WITH HEAVILY PEELING AND "ALLIGATORED" PAINT WILL REQUIRE THE USE OF A HEAT GUN.
2. CARPENTRY TO BE BILLED SEPARATELY AT $28 HR. PLUS MATERIALS.
3. PROTECT ALL BUSHES FROM PAINT OVERSPRAY.
4. LEAVE ALL AREAS NEAT AND CLEAN.

LABOR AND MATERIALS:

HOUSE	$34,500.00
GUEST HOUSE	$2,450.00
GARAGE	$1,800.00

THANK YOU,

CHRIS JONES

To Whom It May Concern:

Please accept my apologies for the lateness of this report. Per our contract Samantha and I wanted to report on what what we have done thus far on our rehabilitation efforts at Wynyate.

The following scheduled maintenance and repair items were completed in 2010 —the details of which were part of our initial application. I include them in summary below:

1. Structural upgrades and retrofitting, main house
2. Dry rot and termite mitigation, main house
3. Roofing system, main house: structural repairs and re-roof with historically compatible, code compliant wood shingles.
4. Repairing/repainting exterior of main house.

In April of 2013 we commenced work on the historic concrete stairs with low stream-rock border. The work was completed by John R. Walker Construction under the guidelines laid out in our contract:

> 1. In order to stop movement and separation of stream rock border from cement sidewalk, and the splitting of concrete stairs, the stream rock border will be underpinned with poured concrete (in increments, to approximately 16" below surface.) to provide support.
>
> 2. Large, loose portions of cracked, loose concrete will be removed and re-exposed in place.
>
> 3. Incompatible patches will be removed and replaced with concrete mix that more closely matches the historic concrete.
>
> 4. Where tree roots have lifted and displaced stairs at the bottom of the walkway, contractor will in conjunction with an arborist study the possibility of removing the stair, cutting the root, (without killing the tree), and re-setting the stair at the proper angle.

The Standards Compliance for the project states:

> *"Repair of historic concrete may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary,*

duplication of historic materials and detailing should be as exact as possible to assure that repair is functionally and aesthetically acceptable."

The project was completed in May 0f 2013. Please see accompanying before and after photos. If you have any questions or concerns please don't hesitate to contact us at the phone numbers above. Thank you for your consideration and continued support for our rehabilitation efforts.

Best regards,

Peter and Samantha Knight

NOMINATION FORM FOR OFFICIAL HISTORICAL REGISTER

I. IDENTIFICATION #6

Name of building or site (condensed legal description):
"WYNYATE" (Welsh for vineyard)

Address (or location description):
851 Lyndon Street, South Pasadena

Date of construction (if known): 1887

Architect: W. R. Norton

Builder: J. J. Hall

Original owner: Donald M. Graham and Margaret Collier Graham

Significant intermediate owners: Miss Jennie Collier (sister of Mrs. Graham) 1910-1918 Mrs. Martha Mohr (sister of Mrs. Graham), 1918-1933; Mrs. Helen Collier Hill Wishart, 1933-1950; Mr. John Haufe, 1950-1959; Mrs. T. Piper, 1959-1964.

Intermediate significant uses if any:

Present owner: Mr. and Mrs. Wolfgang Klebel

Original use: Private residence

Present use: Private residence

II. DESCRIPTION (See enclosed page)

Style or period: Victorian

Construction materials: Redwood, stained
Brick work in cellar

Additions or modifications: 1909 - front porch enlarged; 1950-59 - porte-cochere removed, bathrooms and kitchen remodeled, large west sliding door added, north parlor window changed, vines removed and exterior painted grey and white.

Significant features (exterior): Rewiring; winding steps leading from street to front door; sundial part way up steps; crest with date 1887 is under eaves on east side; shingles of fish scale design completely cover second and third floors. Porches have lattice work; Romeo & Juliet balcony at northwest corner.

Significant features (interior): Intercommunication system (removed 1950-59) including speaking tubes and burglar alarm. High ceilings handsome moldings typical of period.

photograph or snapshot

Present condition:

Exterior: Excellent - gray and white paint

Interior: Excellent

Site: Excellent

Type of neighborhood (residential, commercial, etc.):
Residential

III. PRESERVATION STATUS

Is structure threatened with demolition or alteration by either public or private action?
Explain:
Site is directly in path of State proposed Long Beach Freeway (Meridian route)

IV. REASONS FOR INTEREST OR SIGNIFICANCE

Note any federal, state or county surveys or other recognition.

Architectural: Period? Style? Architect? Comments: Was one of first pretentious houses in South Pasadena. Fine example of elegant Victorian style and is one of few remaining of this period in the city.

Historical: Personages, social events, influences on history.

Comments: House was built by first mayor of South Pasadena, Donald M. Graham, whose wife, Margaret Collier Graham was well-known writer and literary figure in late 19th and early 20th century. "Wynyate" was frequently visited by such celebrities as John Muir, Mary Austin, Charles F. Lummis, Charles Dwight Willard, etc.

Other: Objects of natural, aesthetic or cultural significance. Botanical or geological

Comments: House occupies beautiful site overlooking town of South Pasadena in foreground and San Gabriel mountains to the north. Stone pine trees, live oaks, toyon cover the slopes; lemon eucalyptus tree planted by John Muir on hill above home to west. Some of the original large yellow rose bushes are still growing.

Cultural Heritage Commission

Between 1887 and 1950 few changes were made in the residence - the only significant one being the remodelling of the front porch apparently done in 1909. The growth of trees and shrubs and vines covering the house changed its appearance greatly, but the house remained essentially the same until it was sold by Mrs. Wishart to Mr. John Haufe. Mr. Haufe extensively remodelled the kitchen, installed the large sliding glass doors on the west side of the house, made two closets into bathrooms, and rewired the house. The porte-cochere was removed (the supports had been damaged) and changes were made on the east side as a result. The large north wall of windows on the first floor parlor was replaced by one single large pane.

Between 1959 and 1964 the southeast corner of the first floor was remodelled to include the porch, and the steps were changed.

Since 1964 extensive interior remodelling has been done. The third floor cupola covered porch was glazed in. In 1971, it was re-landscaped and a swimming pool was added on the west side. The large live oak, planted on the northwest corner in 1888, had to be removed in 1971.

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
851 LYNDON STREET
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 15th day of December 2010, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Peter and Samantha Knight ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 851 Lyndon Street, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is listed on the National Register of Historic Places and identified as City Landmark No. 6, attached hereto marked "Exhibit B". The Victorian-style residence was designed by architect W.R. Norton. It was the home of Donald M. Graham (South Pasadena's first mayor) and Graham's wife, Margaret Collier Graham who was a well-known writer and literary figure;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 15, 2010 and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The City desires not to renew this Agreement in five (5) years. The City shall serve written notice of non-renewal in

advance of the annual renewal date in year 5 of this Agreement. The City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date in the fifth year. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

5

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Peter and Samantha Knight
851 Lyndon Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of it's contractor, subcontractor, agent, employee or other person acting on it's behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

Cultural Heritage Commission

NOMINATION FORM FOR OFFICIAL HISTORICAL REGISTER

I. IDENTIFICATION #6

Name of building or site (condensed legal description):
"WYNYATE" (Welsh for vineyard)

Address (or location description):
851 Lyndon Street, South Pasadena

Date of construction (if known): 1887

Architect: W. R. Norton

Builder: J. J. Hall

Original owner: Donald M. Graham and Margaret Collier Graham

Significant intermediate owners: Miss Jennie Collier (sister of Mrs. Graham) 1910-1918 Mrs. Martha Mohr (sister of Mrs. Graham) 1918-1933; Mrs. Helen Collier Hill Wishart, 1933-1950; Mr. John Haufe, 1950-1959; Mrs. T. Piper, 1959-1964.
Intermediate significant uses if any:

Present owner: Mr. and Mrs. Wolfgang Klebel

Original use: Private residence

Present use: Private residence

II. DESCRIPTION (See enclosed page)
Style or period: Victorian

Construction materials: Redwood, stained
Brick work in cellar

Additions or modifications: 1909 - front porch enlarged; 1950-59 - porte-cochere removed, bathrooms and kitchen remodeled, large west sliding door added, north parlor window changed, vines removed and exterior ~~[illegible]~~ painted grey and white.
Significant features (exterior): Rewiring; winding steps leading from street to front door; sundial part way up steps; crest with date 1887 is under eaves on east side; shingles of fish scale design completely cover second and third floors. Porches have lattice work; Romeo & Juliet balcony at northwest corner.
Significant features (interior):
Intercommunication system (removed 1950-59) including speaking tubes and burglar alarm. High ceilings handsome moldings typical of period.

"WYNYATE" - Description Page

Between 1887 and 1950 few changes were made in the residence - the only significant one being the remodelling of the front porch apparently done in 1909. The growth of trees and shrubs and vines covering the house changed its appearance greatly, but the house remained essentially the same until it was sold by Mrs. Wishart to Mr. John Haufe. Mr. Haufe extensively remodelled the kitchen, installed the large sliding glass doors on the west side of the house, made two closets into bathrooms, and rewired the house. The porte-cochere was removed (the supports had been damaged) and changes were made on the east side as a result. The large north wall of windows on the first floor parlor was replaced by one single large pane.

Between 1959 and 1964 the southeast corner of the first floor was remodelled to include the porch, and the steps were changed.

Since 1964 extensive interior remodelling has been done. The third floor cupola covered porch was glazed in. In 1971, it was re-landscaped and a swimming pool was added on the west side. The large live oak, planted on the northwest corner in 1888, had to be removed in 1971.

Revised Mills Act Application, Wynyate
Schedule and Reporting System

Overview of Schedule:

1.	Structural upgrades and retrofitting, main house	Completed, 2010
2.	Dry rot & termite mitigation, main house	Completed, 2010
3.	Roofing system, main house: structural repairs and re-roof with historically compatible, code-compliant wood shingles	Completed, 2010
4.	Repairing/repainting exterior of main house	Completed, 2010
5.	Stabilize and repair historic concrete stairs and stream-rock border	By 2014
6.	Reconstruct west-elevation chimney replacement of primary residence roof system	By 2019
7.	Maintenance: Dry rot & termite mitigation (Primary residence, guest house & garage)	Annual inspection
8.	Maintenance: Roof inspections and repairs as needed (Primary residence, guest house & garage)	Triannual inspection
9.	Maintenance: Paint inspection and repairs as needed (Primary residence, guest house & garage)	Triannual inspection

Reporting System:

Wynyate owners, Samantha and Peter Knight, will provide written updates to the City of South Pasadena every two years, documenting progress and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

Revised Mills Act Application, Wynyate
Summary of Costs

1.	Capitalized Expenses	Amount	Schedule
	A. Structural upgrades and retrofitting, main house	$ 43,368	2010
	B. Re-roofing and structural repairs, main house roof	$ 119,400*	2010
	C. Siding repairs, main house exterior	$ 38,664	2010
	D. Re-painting exterior	$ 34,500	2010
	E. Repairs and stabilization, historic concrete stairs	$ 36,580†	2014
	F. Reconstruction, historic west-elevation chimney	$ 40,750‡	2019
	Revised Total, Capitalized Expenses:	**$ 313,262**	

Total represents a $150,194 increase over original plan costs.

2.	Non-Capitalized Expenses	Amount	Schedule
	A. Emergency mitigation of drainage, reconstruction of retaining wall steps at guest house	$ 28,765	2009
	B. Repairs to north porch roof, main house	$ 9,105††	2010
	C. Newell post repairs, entry, main house	$ 1,167††	2010
	D. Exterior siding, wooden backing repairs	$ 1,072††	2010
	E. Exterior brick veneer repairs, main house	$ 1,186††	2010
	F. Landscape maintenance	$ 5,916	2010
	G. Repairs to Guest House Roof	$ 12,190	2011
	H. Repairs and re-roofing, Garage	$ 9,625	2011
	I. Foundation upgrade, guest house	$ 7,800	2010
	J. Repainting, Guest House	$ 2,485	2014
	K. Repainting, Garage	$ 1,800	2014
	Total, Non-Capitalized Expenses:	**$ 81,111**	
3.	**Total Out-of-Pocket Investment in Wynyate:**	**$ 394,373**	
4.	**Total Estimated Tax Savings, 10-year period:**	**$ 214, 511**	
5.	**Average Annual Cost to the City of South Pasadena:**	**$ 3,399**	

* Originally budgeted for $85,200. This work has been completed by David Charlebois.

† New rehabilitation/preservation project, not included in original financial analysis.

‡ New rehabilitation/preservation project, not included in original financial analysis.

†† While involving character-defining features, these work efforts, which have already been completed, are not capitalized. Each represents an area of concern in need of immediate repairs, as identified by David Charlebois in site inspections; work completed by Charlebois in 2010.

Revised Mills Act Application, Wynyate Estate, 851 Lyndon Street, South Pasadena
Rehabilitation and Preservation Work Plan

Area A: Primary Residence

Feature	Character-Defining?	Proposed Treatment	Schedule	Standards Compliance*
1. Structural System ▪ Damaged brick piers around lintel ▪ Unreinforced, makeshift structural post ▪ Wood posts unsecured to footings & piers	No	1. Contractor to make foundation repairs and improvements at crawlspace. Add blocking between studs and add plywood shear panels over the cripple walls. Add selected foundation bolting. Replace single brick piers. 2. Contractor to make selected repairs to basement and crawlspace mortar at brick foundation walls. Cut out mortar where disintegrated, install new mortar to approximate the original in strength, color and texture.	2010 - completed 2010 - completed	Repair according to industry standards and applicable building codes.
2. Roofing System	Yes (configuration, pitch, and original wood shingles on west elevation dormer); sheathed in non-original composition shingles	1. Remove multiple layers of comp shingles. Repair underlying structure. Install new layer of plywood over existing roof sheathing. 2. Re-roof with period-compatible, code-compliant shingles.	2010 (moved up due to severe leaking issues) – completed 2010 - completed	Recommended rehabilitation treatment guidelines: 1. Identify, retain, preserve: Identify "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas...chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning."

* The recommended treatment approach for Wynyate is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
2. Roofing System (con't)	Yes	3. Structural plywood will be used around the two chimneys that are to be rebuilt in the future.	2010 - completed	2. Protect and retain: "Cleaning of gutters and downspouts and replacing deteriorated flashing. Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to ensure that materials are free from insect infestation. ... Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration." 3. Repair: "Repairing a roof by reinforcing the historic materials which comprise roof features. Repairs will also generally include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features when there are surviving prototypes such as cupola louvers, dentils, dormer roofing; or slates, tiles, or wood shingles on a main roof." 4. Replace: "Replacing in kind an entire feature of the roof that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. Examples can include a large section of roofing, or a dormer or chimney. If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered."
3. Paint and Exterior Repairs ▪ Cracking and peeling paint (west elevation), gable face (south elevation), and east elevation wall on façade	Yes	1. Contractor to provide owners with a palette of period-appropriate colors for repainting. 2. Cracked and peeling paint to be removed with Peel Away, lightly hand-sanded, primed, and set with two coats of paint.	2010 - completed 2010 - completed	Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting.

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
3. Paint & Exterior Repairs (con't) Repainting Exterior	Yes	3. Exterior of residence to be repainted in period-appropriate color. Where necessary, paint removal will be carried out by the gentlest means possible.	2010 - completed	Recommended rehabilitation treatment guidelines (con't): Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."
4. West-Elevation Chimney	Yes	1. Using documentary evidence, qualified contractor will reconstruct west-elevation chimney. Work efforts will include the following tasks: • Create historically accurate drawings of missing portion of chimney from historic pictures. • Remove existing chimney down to the roofline. • Install concrete bond beam at the roof rafter level. • Install steel framework above the roofline. • Wrap the chimney with waterproof paper. • Install brick veneer at exterior.	By 2019	Reconstruction, Secretary of the Interior's Standards: 1. Reconstruction will "depict vanished or non-surviving portions of a property when documentary and physical evidence is available to permit accurate reconstruction with minimal conjecture, and such reconstruction is essential to the public understanding of the property." 2. Measures will be taken to ensure that remaining historic materials, features, and spatial relationships are preserved. 3. Reconstruction will be based on "the accurate duplication of historic features and elements substantiated by documentary or physical evidence rather than on conjectural designs or the availability of different features from other historic properties." The reconstructed partial chimney will re-create the original features in materials, design, and texture. 4. Reconstructed features "will be clearly identified as a contemporary re-creation." 5. "Designs that were never executed historically will not be constructed." The historic appearance of the features to be reconstructed will be extensively researched and documented prior to any work efforts.

Area B: Guest House and Garage				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Roof	No (not capitalized expense)	1. Garage to be re-roofed and guest house roof to be repaired.	2011	Non-character defining; not a qualifying expense under Mills Act. Qualified contractor to provide repairs to industry standards.
Area C: Hardscaping				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Historic concrete stairs and low stream-rock border (northeast corner of property)	Yes	1. In order to stop movement and separation of stream rock border from cement sidewalk, and the splitting of concrete stairs, the stream-rock border will be underpinned with poured concrete (in increments, to approximately 16" below surface) to provide support.	By 2014	Recommended treatment approach: "Repair of historic concrete may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."
		2. Large, loose portions of cracked, loose concrete will be removed and re-epoxied in place.	By 2014	
		3. Incompatible patches will be removed and replaced with concrete mix that more closely matches the historic concrete.	By 2014	
		4. Where tree roots have lifted and displaced stairs at the bottom of the walkway, contractor will, in conjunction with an arborist, study the possibility of removing the stair, cutting root (without killing the tree), and re-setting the stair at the proper angle.	By 2014	

Area D: Landscaping				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Topography and Terrain	Yes (not capitalized expense)	Drainage issue currently being mitigated	2009 - completed	Not a qualifying expense; work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Protecting and maintaining buildings and sites by providing proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape." "Minimizing disturbance of terrain around buildings or elsewhere on the site, thus reducing the possibility of destroying or damaging important landscape features."
Mature Trees Issue: Mature Trees (overdue for trimming; need cabling)	Yes (not capitalized expense)	Prune and lace: Ash tree over garage, California Oak trees at the north end of the parking courtyard, California Live Oak trees at north end of pool, and Eucalyptus tree at south side of driveway. Saw off dead Eucalyptus tree at south end of tennis court. Cable pine trees on north-east sides; deadwood of Ash tree to be removed and lightened for safety.	2010 - completed	"Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."

Revised Mills Act Application, Wynyate Estate, 851 Lyndon Street, South Pasadena
Maintenance Plan

Area A: Primary Residence				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance[1]**
1. Exterior Wood Cladding and Paint	Yes	1. Tri-annual paint inspection and maintenance/re-painting as necessary	2014, 2017, 2019	Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."
2. Wood framing and sheathing	Yes	1. Annual inspections to ensure mitigation of dry rot and termite damage 2. Additional areas of concern to be addressed as found.	2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019	Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the Treatment of Historic Properties. This treatment will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind."[2] Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems...by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."

[1] The recommended treatment approach for Wynyate is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, excerpts describing treatment guidelines are drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*, US Department of the Interior, National Park Service, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

In S.J. Kelley, ed., *Standards for Preservation and Rehabilitation* (American Society for Testing and Materials): pp. 7-22.

Area B: Guest House and Garage				
Feature	**Character-Defining?**	**Proposed Treatment**	**Schedule**	**Standards Compliance**
Wood framing and sheathing	No	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found.	2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019	Not a qualifying expenses; not character-defining features.
Area C: Hardscaping				
Historic concrete stairs and low stream-rock border (northeast corner of property)	Yes	1. Annual inspections to monitor any additional movement and separation of stream rock border from cement sidewalk.	2011, 2012, 2013	Recommended treatment approach: "Repair of historic concrete may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."
Area D: Landscaping				
Landscaping and Mature Trees	Yes (not capitalized expense at this time)	Annual maintenance of mature trees and landscaping	2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019	"Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."

WYNYATE ESTATE, MILLS ACT APPLICATION
APPENDIX A
SUPPORTING DOCUMENTATION

28

CALIFORNIA RESTORATION
& WATERPROOFING

November 6, 2009

Samantha and Peter Knight
851 Lyndon Street
South Pasadena, CA 91030

Subject: Proposed Schedule of Costs for Mills Act Repairs at the Wynyate House, 851 Lyndon Street, South Pasadena

Dear Mr. and Mrs. Knight:

The following items have been identified and included in our budget for the restoration of the Wynyate House under the Mills Act:

1. Roofing of Main House – Includes removal of several layers of existing roofing materials and the installation of a new layer of plywood on top of the existing roof sheathing. Structural plywood will be used around the two chimneys that are to be rebuilt in the future. Appropriate roofing material will be selected and installed.
   Budget Price: $85,200

2. Rebuild missing section of north chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Install drag struts at underside of rafters adjacent to chimney. Install bond beam at rafter level. Install steel framework above roofline. Wrap chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $73,000
   Engineering Budget to Design Chimney: $11,500

3. Rebuild west chimney above roofline. Create historically accurate drawings of missing portion of chimney from historic pictures. Remove existing chimney down to the roofline. Install concrete bond beam at the roof rafter level. Install steel framework above the roofline. Wrap the chimney with waterproof paper. Install brick veneer at exterior.
   Budget Price: $35,000
   Engineering Budget to Design Chimney: $ 5,750

663 Brea Canyon Road, Suite 3 • Walnut, CA 91789 • 909/595-1234 • Fax 909/595-1444
License #553563

RECORDER'S MEMO:
POOR RECORD IS DUE TO
QUALITY OF ORIGINAL DOCUMENT

4. Selected repairs to historic concrete/rock stairs and pathway at northeast corner of lot (from sidewalk below to the driveway above). Structurally underpin approximately 30 lineal feet of rock sidewall at the mid-span down side of the staircase. This would be done below grade and would not be visible when completed. This will reduce the migration and slippage of the walkway. Remove and replace the grossly mismatched patches of the past with colored and textured concrete. Stabilize the loose and spalling pieces of historic concrete walking surface where practicable. Fill in open and failed mortar joints along the sides of the walking path and stairs.
   Budget Price: $36,580

5. Main house foundation repairs and improvements at crawlspace. Add blocking between studs and add plywood shear panels over the cripple walls. Add selected foundation bolting. Replace single brick piers. Other repairs as discovered.
   Budget Price: $29,750

6. Selected basement and crawlspace mortar replacement at brick foundation walls. Cut out mortar where it is found to have disintegrated into a powdering condition. Install new mortar to approximate the original in strength, color and texture.
   Budget Price: $13,618

Total Budget: $290,398

We look forward to working with you.

Respectfully,

CALIFORNIA RESTORATION & WATERPROOFING

David D. Charlebois

EXTERIOR SPECIALISTS

Peter and Samantha Knight
851 Lyndon St.
South Pasadena, CA 91030

Job Areas: Exterior house, garage, and guest house.

Wood Siding and Shingles
1. Hand wash all exterior wood siding and shingles to remove dirt.
2. Hand sand wood siding and shingles to remove loose and peeling paint.
3. Prime all wood surfaces as required with Sherwin Williams exterior wood primer.
4. Repair damaged woodwork with injected epoxy.
5. Re-prime all repaired woodwork.
6. Caulk all joints as needed.
7. Finish coat wood siding and shingles with two (2) coats of Sherwin Williams exterior paint.

Windows and Wood Trim
1. Hand sand all wood trim to remove peeling paint.
2. Remove all loose window putty and replace with "Dap 33" window glazing.
3. Prime all wood surfaces as required with Sherwin Williams exterior wood primer.
4. Repair damaged woodwork with injected epoxy.
5. Re-prime all repaired woodwork.
6. Lightly hand sand all windows and wood trim with 150-grit sandpaper.
7. Caulk all joints as required.
8. Finish coat windows and wood trim with two (2) coats of Sherwin Williams exterior semi-gloss enamel.

Notes
1. Areas with heavily peeling and "alligatored" paint will require the use of a heat gun.
2. Carpentry to be billed separately at $28 hr. plus materials.
3. Protect all bushes from paint overspray.
4. Leave all areas neat and clean.

Labor and Materials:		
	House	$34,500.00
	Guest House	$2,450.00
	Garage	$1,800.00

Thank you,

Chris Jones

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

---

1. Project Background

This document provides the required materials for a Mills Act Historic Property Contract renewal for 919 Palm Avenue, the 1903 Charles Gibbs Adams House, South Pasadena (APN #5313-008-023). This renewal was prepared for the current owners, Molly and Bobby Urso, by South Pasadena-based historic preservation consultant Debi Howell-Ardila, MHP.

The original Mills Act application process for 919 Palm Avenue took place in 2012. In April 2012, the previous owners of the residence, Brian and Cynthia Knight, submitted a Letter of Intent to apply to the Mills Act to the City of South Pasadena (City). The Cultural Heritage Commission (CHC) reviewed the letter and formed a subcommittee to assist in the process. Based on the landmark's importance and the number of urgent repairs, rehabilitation, restoration, and ongoing maintenance required, the CHC encouraged the owners to move forward with a Mills Act application.

The CHC subcommittee consisted of James McLane, AIA, and Debi Howell-Ardila (author of this renewal). At the time, this landmark had suffered from deferred maintenance and extensive deterioration of historic materials and character-defining features, in particular the wood sheathing (shingles and clapboard) and architectural details on the exterior.

In late 2012, the Mills Act application was approved by the CHC and adopted by the City Council. The first term of the 10-year Mills Act contract extended from 2013 through 2022. Due to the Mills Act tax abatement, the previous owners completed many (though not all) of the items in the original workplan.

The most significant, and urgently needed projects undertaken included repairs and repainting of the wood cladding on the exterior of the house, including shingles and clapboard siding, as well as the restoration of architectural details. In addition, historic landscaping and hardscaping were restored, and the garage was stabilized. Through the Mills Act, the condition and appearance of this important district contributor were greatly improved.

In late 2022, 919 Palm Avenue changed hands when the Ursos purchased the property as their principal family residence. With the original 10-year Mills Act Workplan set to end, the Ursos retained Ms. Howell-Ardila to assist with a renewal of the Mills Act contract.

With the property turning 120 years old in 2023, a number of critical preservation/rehabilitation/repair projects, as well as the ongoing maintenance plan, are in need of completion. The Mills Act property tax abatement will help the property owners continue completing these high-priority projects and ensure the

long-term preservation of this important property. As owners of a Mills Act property and designated City landmark, the Ursos understand the importance of ensuring that all repair, maintenance and rehabilitation projects follow the City guidelines and the *Secretary of the Interior's Standards for the Treatment of Historic Properties*.

This application renewal includes the following sections: (1) Project Background and Overview of Historic Landmark; (2) Overview of Original Mills Act Workplan, 2013-2022; (3) Updated Mills Act Workplan, 2023-2032; (4) Photographic Overview of Existing Conditions. Appendices following this application contain: (1) the 2012 Mills Act Application for 919 Palm Avenue; (2) 2014 and 2018 Mills Act progress reports, prepared by the previous owners for the City; and (3) photographic overview of existing conditions.

Overview of Historic Landmark

The residence at 919 Palm Avenue is included on the South Pasadena Register of Cultural Resources (which includes formally designated properties and districts) and the South Pasadena Inventory of Cultural Resources (which includes eligible properties and districts not yet formally designated). (Pursuant to the California Environmental Quality Act, both eligible and designated properties are to be treated as historical resources.)

In terms of the inclusion on the Register of Cultural Resources, the property is a designated contributor to the El Centro – Indiana – Palm Historic District, adopted by the City Council on July 21, 1993. Including some of the oldest residential blocks in South Pasadena, the El Centro – Indiana – Palm Historic District retains a significant concentration of Craftsman-style architecture as well as turn-of-the-century hipped-roof cottages and examples of period-eclectic styles, including Colonial Revival, English Revival, Spanish Colonial Revival, Shingle, and American Foursquare-style residences. The residence at 919 Palm Avenue is the anchor of the district on the 900 block of Palm and is one of relatively few American Foursquare-style homes in the historic district.

In terms of the Inventory of Cultural Resources, in addition to being historically significant as a contributor to a designated historic district, 919 Palm Avenue is also individually eligible for the Register of Cultural Resources as a landmark for its distinctive and intact American Foursquare architectural style.

In addition, 919 Palm Avenue is significant for its association with Charles Gibbs Adams, a prominent landscape architect. Adams lived in the house with his mother, Caroline, and sister, Rachel, from 1903, when the house was built, until his death in 1953. Adams was a pioneering landscape architect in the region, as well as a prolific writer and early proponent of using native plantings in landscaping. His commissions included work for major movie stars during the 1920s and 1930s, the gardens at Hearst Castle, the Virginia Robinson estate, the Los Angeles County Arboretum, as well as work for numerous school districts in the greater Los Angeles area.

2. Overview of Mills Act Workplan, 2013-2022

The Mills Act Workplan approved by the City for 919 Palm Avenue included six projects that were capitalized in the original application:

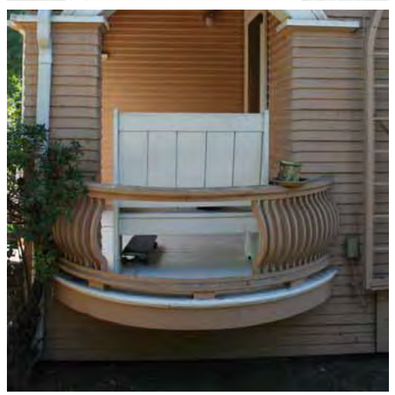
1. Exterior cladding and architectural detail repairs
2. Exterior paint repairs
3. Exterior door and window repairs
4. Masonry system repairs
5. Roofing system upgrade and repairs
6. Structural system upgrades and repairs

The first two items, exterior cladding and architectural detail repairs and exterior paint repairs, were completed between 2013 and 2014. The third item appears to have been partially completed, with some window repairs and replacement of window screens, as well as repairs to the exterior door. Some of the windows slated for repairs, including the leaded-glass windows on the north elevation, do not appear to have been repaired.

It is the understood that the advent of the Covid-19 pandemic delayed completion of the remaining tasks—namely, masonry system repairs, upgrades and repairs to the roof (including replacement of asbestos shingles with a fire-retardant cedar shingles), and structural system upgrades and repairs.

The original workplan also included four ongoing maintenance plan items:

1. Maintenance, pruning trees and plantings, landscaping (ongoing inspection)
2. Maintenance, masonry inspection and repairs as needed, hardscape (annual inspection)
3. Maintenance, wood framing inspection, termite mitigation, garage (annual inspection)
4. Maintenance, paint inspection and repairs as needed, main residence (tri-annual inspection)



In terms of reporting, the previous owners were scheduled to present progress updates to the City every two years. Prior to commencement of work efforts requiring a Certificate of Appropriateness (COA) as defined in the Municipal Code, COAs were to be obtained as needed to obtain CHC input.

The previous owners provided two progress updates, in 2014 and in 2018. These reports are appended to this memo.

As the second 10-year term commences, the new owners of 919 Palm Avenue are planning to complete all remaining projects, to continue with implementation of the Mills Act maintenance plan, and to add new items to the Mills Act Workplan to address additional necessary repairs and upgrades (these items are addressed below in Section 3).

Table 1 provides a visual overview and summary of the original Mills Act Workplan and projects completed to date.

Table 1. Progress Overview, Mills Act Workplan, 2013 to 2022

#	Original Mills Act Work Plan Description, Capitalized Expenses	Scheduled Completion Date	Project Completed?	Notes	Overview, 2012, Before Mills Act	Overview, 2014, After Mills Act
1	Exterior cladding and architectural detail repairs 1. Repair leaded glass window, north elevation 2. Repair front porch flooring 3. Repair damaged exterior shingles 4. Repair damaged exterior clapboards 5. Repair columns in attic dormer 6. Recreate missing front porch balconette rail 7. Recreate missing crawlspace vent screens 8. Replace or remove rain gutters	2013	Yes, with minor exceptions No Yes Yes Yes Yes Yes Partially	Work completed under the Mills Act to this property's exterior wood cladding and architectural details significantly improved the condition and appearance of the property and restored key character-defining features. Original Mills Act Workplan included triannual inspection, repairs, repainting as needed. As of 2023, ongoing repair issues remain due to the age and scale of the property. Property inspection recommended repainting and repairs of exterior wood and installation of rain gutters/downspouts, in particular over entranceways and walkways, to move water away from building and foundation.	  	  

#	Original Mills Act Work Plan Description, Capitalized Expenses	Scheduled Completion Date	Project Completed?	Notes	Overview, 2012, Before Mills Act	Overview, 2014, After Mills Act
2	Exterior paint repairs	2014	Yes	Work completed under the Mills Act restored extensive areas of deteriorated wood cladding (shingles and clapboard) and spalling paint; issues remain due to the age and scale of the property. Original Mills Act Workplan included triannual inspection, repairs, repainting as needed. As of 2023, ongoing repair issues remain due to the age and scale of the property.	  	  

#	Original Mills Act Work Plan Description, Capitalized Expenses	Scheduled Completion Date	Project Completed?	Notes	Overview, 2012, Before Mills Act	Overview, 2014, After Mills Act
3	Exterior door and window repairs	2016	Partially completed	Some windows, including the cracked stained-glass window on the north elevation, have not yet been repaired	Item not documented in progress updates	Item not documented in progress updates
4	Masonry system repairs Protect and maintain brick entry stair Protect and maintain brick foundation Protect and maintain brick chimney	2019	No	2022 property inspection noted need for repairs and repointing of historic brick. Brick entry stair and foundation exhibit signs of deterioration and failing mortar. Chimney is not operational; inspection showed signs of structural instability/collapse on chimney interior on first floor.	Item not documented in progress updates	Item not documented in progress updates
5	Roofing system upgrade and repairs Original approach and scope: "The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with cedar shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was cedar shingle. During construction it would be appropriate to remove the several extraneous roof vents."	2020	No	2022 property inspection noted asbestos composition shingles on roof (15 years old, installed in 2007)	Item not documented in progress updates	Item not documented in progress updates
6	Structural system upgrades and repairs	2022	No	Structural upgrades and repairs scheduled for late 2022/early 2023 by new owners	Item pending completion by new owners as of January 2023	Item pending completion by new owners as of January 2023

3. Updated Mills Act Workplan, 2023-2032

The following five items are recommended for the updated Mills Act Workplan for 919 Palm Avenue:

1. Structural system upgrades and repairs
2. Exterior cladding repairs, repainting, and re-sealing (on house and on garage)
3. Window rehabilitation and repairs
4. Roofing system upgrade and repairs
5. Masonry system (brick driveway, retaining wall, hardscaping, patio, and brick chimney)

Based on existing conditions and the ongoing need for repairs/resealing of the extensive amounts of wood exterior cladding, the updated Mills Act Workplan retains the previous maintenance plan items:

1. Maintenance, masonry inspection and repairs as needed, hardscape (annual inspection)
2. Maintenance, wood framing inspection, termite mitigation, garage (annual inspection)
3. Maintenance, paint inspection and repairs as needed, main residence (tri-annual inspection)

In terms of reporting, the owners will present progress updates to the City every two years. Progress reports will include detailed work descriptions, photographs of work areas, before and after project is completed, and copies of permits and CoAs (if required).

Prior to commencement of work efforts requiring a Certificate of Appropriateness (CoA) as defined in the City's Cultural Heritage Ordinance (codified in Municipal Code Article IVH), CoAs were to be obtained as needed to obtain CHC input. In accordance with Section 2.65(D) and 2.65(E), some exceptions exist for minor projects (which are reviewed by the CHC chair without need for a full hearing and CoA).

Should the City or CHC subcommittee wish to visit the property to view the property and workplan priorities, the owners would be glad to accommodate a site walk. In addition, the owners will adhere to any updates to the Mills Act reporting requirements that might be instituted by the City or CHC.

Table 2 provides an overview of the updated Mills Act Workplan along with the schedule for completion.

Each project, as well as the corresponding Standards-compliant treatment approach, is described in more detail in this application.

Table 2. Summary of Updated Mills Act Workplan, 2023 to 2032[1]

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
1	Structural system upgrades and repairs	2023	Original MA Workplan and additional areas in need of repairs and retrofitting	2022 Property Inspection noted need for the following items: Brick foundation walls missing grout and show signs of deterioration Cripple walls need retrofitting; gapped and open areas along foundation need screens Posts and girders need retrofitting; evidence of leaning post; add T straps at post and girder junctures Subflooring shows signs of active leaking from kitchen; needs repairs; duct work is in contact with soil Wiring should be properly secured to framing; at present, areas of conduit are laying on soil; open junction boxes need to be enclosed in junction box to prevent shocks and failure of splice	**IDENTIFY** **Recommended:** Identifying, retaining, and preserving structural systems--and individual features of systems--that are important in defining the overall historic character of building, such as above-grade stone foundation walls, or loadbearing brick or stone walls. **Not Recommended:** (1) Removing, covering, or radically changing features of structural systems which are important in defining overall historic character; (2) Demolishing a loadbearing masonry wall that could be augmented and retained, and replacing it with a new wall (i.e., brick or stone), using the historic masonry only as an exterior veneer; (3) Leaving known structural problems untreated such as deflection of beams, cracking and bowing of walls. **PROTECT AND MAINTAIN** **Recommended:** Protecting and maintaining the structural system by cleaning the roof gutters and downspouts; replacing roof flashing; keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation. **Not Recommended:** Failing to provide proper building maintenance so that deterioration of the structural system results. Causes of deterioration include subsurface ground movement, vegetation growing too close to foundation walls, improper grading, fungal rot, and poor interior ventilation that results in condensation. **REPAIR** **Recommended:** Replacing in kind--or with substitute material--those portions or features of the structural system that are either extensively deteriorated or are missing when there are surviving prototypes such as cast iron columns, roof rafters or trusses, or sections of loadbearing walls. **Not Recommended:** Using substitute material that does not equal the loadbearing capabilities of the historic material and design or is otherwise physically or chemically incompatible.
2	Exterior cladding repairs, repainting, and re-sealing (on house and on garage)	2025	New MA Workplan	Part of ongoing Mills Act Maintenance Plan, which requires tri-annual paint inspection and maintenance/re-painting as necessary Peeling and chipped paint, gaps, cracks, openings and damaged wood are evident throughout exterior, in particular on south and west elevations	**IDENTIFY** **Recommended:** Identifying, retaining, and preserving wood features that are important in defining the overall historic character of the building such as siding, cornices, brackets, window architraves, and doorway pediments; and their paints, finishes, and colors. **Not Recommended:** (1) Removing or radically changing wood features which are important in defining the overall historic character; (2) removing a major portion of the historic wood from a facade instead of repairing or replacing only the deteriorated wood, then reconstructing the facade with new material in order to achieve a uniform or "improved" appearance; (3) Stripping historically painted surfaces to bare wood, then applying clear finishes or stains in order to create a "natural look." **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining wood features by providing proper drainage; (2) Retaining coatings such as paint that help protect wood from moisture/ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings; (3) Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required; (4) Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting; (5) Using with care electric hot-air guns on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting; (6) Using chemical strippers primarily to supplement other methods such as handscraping, handsanding and the above-recommended thermal devices; (7) Repainting with colors that are appropriate to the historic building; (8) Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary. **Not Recommended:** (1) Failing to identify, evaluate, and treat the causes of wood deterioration, including faulty flashing, leaking gutters, cracks and holes in siding, deteriorated caulking in joints and seams, plant material growing too close to wood surfaces, or insect or fungus infestation; (2) Stripping paint or other coatings to

[1] The recommended treatment approach for 919 Palm Avenue is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from National Park Service, Department of the Interior, Washington, DC. 1995. *The Secretary of the Interior's Standards for Rehabilitation, with Guidelines for Rehabilitating, Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings*. In accordance with CEQA Guidelines, a project that has been determined to conform with the Secretary's Standards is generally considered to be a project that will not cause a significant adverse impact and material impairment. If a project meets the Secretary's Standards, the project can, in most cases, be considered categorically exempt from CEQA and qualify for a Notice of Exemption.

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					reveal bare wood, thus exposing historically coated surfaces to the effects of accelerated weathering; (3) Removing paint that is firmly adhering to, and thus, protecting wood surfaces; (4) Using destructive paint removal methods such as a propane or butane torches, sandblasting or waterblasting. These methods can irreversibly damage historic woodwork; (5) Failing to undertake adequate measures to assure the protection of wood features. **REPAIR** **Recommended:** Repairing wood features by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. **Not Recommended:** (1) Replacing an entire wood feature such as a cornice or wall when repair of the wood and limited replacement of deteriorated or missing parts are appropriate; (2) Using substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the wood feature or that is physically or chemically incompatible. **REPLACE** **Recommended:** Replacing in kind an entire wood feature that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. **Not Recommended:** Removing a feature that is unrepairable and not replacing it; or replacing it with a new feature that does not convey the same visual appearance.
3	Exterior window repairs	2027	New MA Workplan	Some windows, including the cracked stained-glass window on the north elevation, are broken and/or inoperable; missing screens noted throughout; gaps and cracks around window frames need caulking/sealing and repainting; wood frames need termite inspection, remediation, and repairs where necessary	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** (1) Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building; (2) Such features can include frames, sash, muntins, glazing, sills, heads, moldings; (3) Conducting an in-depth survey of the conditions of existing windows early in rehabilitation planning so that repair and upgrading methods and possible replacement options can be fully explored. **Not Recommended:** (1) Removing or radically changing windows which are important in defining the historic character of the building; (2) Changing the number, location, size or glazing pattern of windows, through cutting new openings, blocking-in windows, and installing replacement sash that do not fit the historic window opening; (3) Changing the historic appearance of windows through the use of inappropriate designs, materials, finishes, or colors; (4) Replacing windows solely because of peeling paint, broken glass, stuck sash, and high air infiltration. These conditions, in themselves, are no indication that windows are beyond repair. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining the wood and architectural metal which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems; (2) Making windows weathertight by re-caulking and replacing or installing weatherstripping. These actions also improve thermal efficiency; (3) Evaluating the overall condition of materials to determine whether more than protection and maintenance are required, i.e. if repairs to windows and window features will be required. **Not Recommended:** (1) Failing to provide adequate protection of materials on a cyclical basis so that deterioration of the window results; (2) Retrofitting or replacing windows rather than maintaining the sash, frame, and glazing; (3) Failing to undertake adequate measures to assure the protection of historic windows. **REPAIR** **Recommended:** Repairing window frames and sash by patching, splicing, consolidating or otherwise reinforcing. **Not Recommended:** (1) Replacing an entire window when repair of materials and limited replacement of deteriorated or missing parts are appropriate; (2) Failing to reuse serviceable window hardware such as brass sash lifts and sash locks; (3) Using substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the window or that is physically or chemically incompatible. **REPLACE** **Recommended:** (1) Replacing in kind an entire window that is too deteriorated to repair using same sash/pane configuration and other design details; (2) Designing and installing new windows when the historic windows (frames, sash and glazing) are completely missing. The replacement windows may be an accurate restoration using historical, pictorial, and physical documentation; or be a new design that is compatible with the window openings and the historic character of the building.

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					Not Recommended: (1) Removing a character-defining window that is unrepairable and blocking it in; or replacing it with a new window that does not convey the same visual appearance; (2) Creating a false historical appearance because the replaced window is based on insufficient historical, pictorial, and physical documentation; (3) Introducing a new design that is incompatible with the historic character of the building.
4	Roofing system upgrade and repairs	2029	Original MA Workplan and additional repairs	Property inspection noted asbestos composition shingles on roof installed in 2007; add to scope of work installation of spark arrestor at chimney cap; inspection noted absence of spark arrestor/rain cap to prevent entrance of the elements and wildlife; flashings are currently covered over; all roof vents and projections need re-sealing as part of routine maintenance; install gutters or downspouts, in particular over entranceways and walkways, to move water away from foundation and building; install splashblocks or extensions to carry water away and keep from pooling near foundation and building	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** (1) Identifying, retaining, and preserving roofs--and their functional and decorative features--that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features, such as cupolas, cresting chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning. **Not Recommended:** (1) Radically changing, damaging, or destroying roofs which are important in defining the overall historic character of the building so that, as a result, the character is diminished; (2) Removing a major portion of the roof or roofing material that is repairable, then reconstructing it with new material in order to create a uniform, or "improved" appearance. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining a roof by cleaning the gutters and downspouts and replacing deteriorated flashing; (2) Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to insure that materials are free from insect infestation; (3) Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration; (4) Protecting a leaking roof with plywood and building paper until it can be properly repaired. **Not Recommended:** (1) Failing to clean and maintain gutters and downspouts properly so that water and debris collect and cause damage; (2) Allowing roof fasteners, such as nails and clips to corrode so that roofing material is subject to accelerated deterioration; (3) Permitting a leaking roof to remain unprotected so that accelerated deterioration of historic building materials--masonry, wood, plaster, paint and structural members--occurs. **REPAIR** **Recommended:** Repairing a roof by reinforcing the historic materials which comprise roof features.. **Not Recommended:** (1) Replacing an entire roof feature such as a cupola or dormer when repair of the historic materials and limited replacement of deteriorated or missing parts are appropriate; (2) Using a substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the roof or that is physically or chemically incompatible.
5	Masonry system repairs Brick driveway, retaining wall, hardscaping, patio, and brick chimney	2031	Original MA Workplan and additional repairs	Additional repairs to character-defining masonry and brick hardscaping is needed, in particular along the retaining walls fronting the sidewalk and driveway, which shows signs of mortar failure, chipping, and deterioration Chimney is not operational; inspection showed signs of structural instability/collapse on chimney interior on first floor	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** Identifying, retaining, and preserving masonry features that are important in defining the overall historic character of the building such as walls, brackets, railings, cornices, window architraves, door pediments, steps, and columns; and details such as tooling and bonding patterns, coatings, and color. **Not Recommended:** (1) Removing or radically changing masonry features which are important in defining the overall historic character of the building; (2) Applying paint or other coatings such as stucco to masonry that has been historically unpainted or uncoated to create a new appearance; (3) Radically changing the type of paint or coating or its color. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining masonry by providing proper drainage so that water does not stand on surfaces or accumulate; (2) Cleaning masonry surfaces with the gentlest method possible, such as low pressure water and detergents, using natural bristle brushes; (3) Evaluating the overall condition of the masonry to determine whether more than protection and maintenance are required, that is, if repairs will be necessary; (4) Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields; furnishings such as lights, fences, or benches; (5) Protecting and maintaining buildings and sites by providing proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape. **Not Recommended:** (1) Failing to evaluate and treat the various causes of mortar joint deterioration such as leaking roofs or gutters, differential settlement of the building, capillary action, etc.; (2) Sandblasting brick or stone surfaces using dry or wet grit or other abrasives. These methods erode the surface of the material and accelerate deterioration; (3) Cleaning with chemical products that damage masonry; (4) Applying high pressure water cleaning methods that will damage historic masonry and the mortar joints; (5) Using methods of removing paint which are destructive to masonry, such as sandblasting, application of caustic solutions, or high

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					pressure waterblasting; (6) Failing to maintain adequate site drainage so that buildings and site features are damaged or destroyed; or alternatively, changing the site grading so that water no longer drains properly. **REPAIR** **Recommended:** (1) Repairing masonry features by repointing mortar joints where there is deterioration such as disintegrating mortar, cracks in mortar joints, loose bricks, damp walls, or damaged plasterwork; (2) Removing deteriorated mortar by carefully hand-raking the joints; (3) Duplicating old mortar in strength, composition, color, and texture; (4) Duplicating old mortar joints in width and in joint profile; (5) Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of masonry features. **Not Recommended:** (1) Removing nondeteriorated mortar from sound joints, then repointing the entire building to achieve a uniform appearance; (2) Using electric saws and hammers rather than hand tools; (3) Repointing with mortar of high portland cement content (unless it is the content of the historic mortar). This can often create a bond that is stronger than the historic material and can cause damage; (4) Repointing with a synthetic caulking compound; (5) Changing the width or joint profile when repointing; (6) Patching concrete without removing the source of deterioration; (7) Applying waterproof, water repellent, or non-historic coatings such as stucco to masonry as a substitute for repointing and masonry repairs. Coatings are frequently unnecessary, expensive, and may change the appearance of historic masonry as well as accelerate its deterioration.

Appendix B: Photographic Overview Of Features And Issues 21

OVERVIEW OF SCHEDULE

1. Exterior cladding and architectural detail repairs	By 2013
2. Exterior paint repairs	By 2014
3. Exterior door and window repairs	By 2016
4. Masonry system repairs	By 2019
5. Roofing system upgrade and repairs	By 2020
6. Structural system upgrades and repairs	By 2022
7. Maintenance: Pruning and maintenance, trees and plantings, landscaping	Ongoing inspection
8. Maintenance: masonry inspection and repairs as needed, hardscape	Annual inspection
9. Maintenance: Wood framing inspection, termite mitigation, garage	Annual inspection
10. Maintenance: Paint inspection and repairs as needed, main residence	Tri-annual inspection

REPORTING SYSTEM

The Charles Gibbs Adams House owners, Brian and Cynthia Knight, will provide written updates to the City of South Pasadena every two years, documenting progess and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Exterior cladding and architectural detail repairs, main residence	$32,992	2013
B. Exterior paint repairs, main residence	$18,500	2014
C. Exterior door and window repairs, main residence	$18,117	2016
D. Hardscape repairs, masonry and woodwook, front garden	$16,700	2018
E. Masonry system upgrades and repairs, main residence	$11,710	2019
F. Roofing system repairs, main residence	$70,000	2020
G. Structural system upgrades and repairs, main residence	$53,150	2022
TOTAL CAPITALIZED EXPENSES		**$224,994**

NON-CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Landscape, recreate historic planting scheme and irrigation	$15,000	2011-22
B. Structural system upgrades and repairs, garage	$9,575	2015
C. Exterior cladding repairs, garage	$905	2015
D. Exterior door and window repairs, garage	$3,760	2015
E. Hardscape repairs, water feature, back garden	$3,825	2017
F. Interior cladding and architectural detail repairs, main residence	$30,215	2021
TOTAL NON-CAPITALIZED EXPENSES		**$63,280**

TOTAL OUT-OF-POCKET INVESTMENT IN 919 PALM AVENUE	**$284,449**
TOTAL ESTIMATED TAX SAVINGS, 10-YEAR PERIOD	**$99,105**
AVERAGE ANNUAL COST TO THE CITY OF SOUTH PASADENA	**$1,388**

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Exterior cladding and architectural details 1. Repair damaged leaded glass window in the north elevation 2. Repair front porch flooring 3. Repair damaged exterior shingles 4. Repair damaged exterior clapboards 5. Repair columns in attic dormer 6. Recreate missing front porch balconette railing 7. Recreate missing/altered crawlspace vent screens 8. Replace or remove rain gutters	Yes	1. Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing. 2. Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards. 3. Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 4. Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 5. Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 6. Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting. 7. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match. 8. The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the facial will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.	2013
B. Exterior paint and protective coatings 1. Protect and maintain exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2014

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
C. Exterior doors and windows 1. Protect and maintain the front door 2. Protect and maintain the front screen door 3. Repair attic window 4. Repair sunroom windows 5. Recreate missing wood-framed window screens	Yes	1. The existing original finish on the entry door will be maintained and protected. Currently, the beveled glass window is loose and will be secured. 2. The existing wood and metal screen door is sagging. The door will be re-hung. 3. Inspect and identify cause of the window's movement within the wall plane. The least invasive repairs will be made to the frame, sash and casing in order to stabilize the window. The window itself will not be removed or radically altered. Repairs will be made to the frame, sash and casing by patching, splicing, consolidating or otherwise reinforcing. Any material replacement will be made in kind. Repairs will be made prior to exterior painting. 4. At an unknown date the windows in the second story sunroom on the south elevation were replaced with those in a newer style sliding wood sash type. The original wood windows were stored onsite. The original windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. Broken glass panes will be replaced in-kind and the windows will be given a general overhaul to ensure their long-term preservation. Any repair to the window frames, sashes or casings will be made by patching, splicing, consolidating or otherwise reinforcing. Following rehabilitation the original windows will be reinstalled. The windows will be painted in a color harmonizing with the paint palette of the house. 5. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.	2016
D. Masonry systems 1. Protect and maintain the brick entry stair 2. Protect and maintain the brick foundation 3. Protect and maintain brick chimney	Yes	1. Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters. 2. Re-point the exterior brick foundation. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Following re-pointing the earth around the foundation will be graded to provide drainage so that water is not allowed to stand on flat, horizontal surfaces. 3. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2019
E. Roofing systems 1. Replace roof shingles	Yes	1. The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with cedar shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was cedar shingle. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove the several extraneous roof vents.	2020

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
F. Interior finishes and architectural details 1. Repair interior pocket door 2. Repair chimney firebox and flue 3. Restore and refinish mantle woodwork 4. Restore and refinish interior wood trim 5. Restore and refinish interior wood doors	Yes (not a capitalized expense)	1. A major interior character defining feature located between foyer and living room – the pocket door is off its track and does not function properly. Repair of the pocket door will likely require the removal of interior lath and plaster in order to access the door hardware. After the track is realigned the lath and plaster will be replaced in-kind and finished and repainted to match the room. 2. Brick in the firebox is loose, the mortar is decomposed and the flue is inoperable – inspect and identify causes of flue and firebox deterioration. Repair masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. 3-5. In some places the original existing wood finish is cracking and in other areas the finish has been painted over. Existing original finishes will be protected and maintained. In areas where original finish has been covered paint will be removed using the gentlest means necessary followed be re-finishing to match original.	2021
G. Structural systems 1. Stabilize foundation 2. Stabilize and repair downstairs sub-flooring/floors	No	1. The existing brick foundation is spalling in areas – inspect and identify solution to stabilized foundation. The stabilization solution should not alter the historic character existing foundation. Any stabilization effort will attempt to maintain and protect the existing brick work. Replacements would match existing in details such as tooling and bonding patterns, and color. Repair according to industry standards and applicable building codes. 2. Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface. Repair according to industry standards and applicable building codes.	2022

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Structural 1. Repair garage beams and joists	No (not a capitalized expense)	1. Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed. Repair according to industry standards and applicable building codes.	2015
B. Exterior cladding 1. Repair garage siding	Yes (not a capitalized expense)	1. Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2015
C. Exterior doors and windows 1. Repair garage barn doors and track hardware	Yes (not a capitalized expense)	1. The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.	2015

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 3: HARDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Masonry systems 1. Protect and maintain brick driveway and retaining wall 2. Protect and maintain brick hardscaping / brick patio, fireplace, and paths (front and rear garden)	Yes	1. The brick retaining wall at the drive way was damaged at an unknown date (likely by repeated car strikes). Other sections of the brick retaining wall were inappropriately repaired; these alterations will be undone and repaired in and appropriate manner. The drive way is also in need of maintenance. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. 2. While much of the garden hardscaping is extant much of it is in need of re-pointing. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017
B. Woodwork systems 1. Replace front garden fences and gates	Yes	1. Original wood fence and gate are gone. Original sample material was found during pruning and initial clearing of overgrown landscape. These samples were saved and will be used to match both construction type, design and finish color.	2017
C. Masonry and plumbing systems 1. Repair back garden water feature	Yes (not a capitalized expense)	1. The water feature no longer functions. It is the focal point of the rear garden. Broken or missing brick will be replaced in-kind. Water supply and drainage will be reestablished; any demolition to the existing materials will be kept to a minimum and will be replaced in-kind. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. The concrete lining will be matched in color and texture. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 4: LANDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Trees and plantings 1. Restore historic landscaping	Yes (not a capitalized expense)	1. Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams. Work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2011-2022

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

MAINTENANCE PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Exterior cladding and paint	Yes (not a capitalized expense)	1. Tri-annual paint inspection and maintenance/re-painting as necessary. Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."	2015, 2018, 2021

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Wood framing and sheathing	Yes (not a capitalized expense)	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found. Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the treatment of Historic Properties. This treament will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind." Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems... by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 3: HARDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Historic brick driveway, driveway apron, walkways, water feature, and outdoor fireplace	Yes (not a capitalized expense)	1. Annual inspections to monitor any additional movement and separation of bricks from mortar. Recommended treatment approach: "Repair of historic masonry may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 4: LANDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Landscaping and trees	Yes (not a capitalized expense)	1. Ongoing maintenance of trees and landscaping. "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include... vagetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

NOTES: MAINTENANCE PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. COST ESTIMATE: CALIFORNIA RESTORATION & WATERPROOFING GENERAL CONTRACTORS

September 29, 2012

Brian Knight
919 Palm Avenue
South Pasadena, CA 91030

Description	Amount
Repair brick entry stair	$950
Repair brick foundation	$2,180
Repair front door	$2,412
Repair front screen door	$275
Repair damaged leaded glass window	$1,520
Repair front porch flooring	$3,117
Repair damaged exterior shingles	$7,140
Repair damaged exterior clapboards	$5,325
Repair attic window	$1,930
Repair columns in attic dormer	$1,820
Recreate missing front porch balconette railing	$2,750
Repair sunroom windows	$7,300
Recreate missing/altered crawlspace vent screens	$320
Recreate missing woo-framed window screens	$6,200
Repair brick driveway and reating wall	$3,200
Repair brick hardscaping	$8,700
Repair water feature	$3,825
Repair interior pocket door	$2,315
Repair garage barn doors and tracks	$3,760
Repair garage siding	$905
Repair garage structure	$9,575
Recreate garden fence and gate	$4,800
Stabilize and repair downstairs sub-flooring	$5,150
Repair brick chimney	$8,580
Repair chimney firebox and flue	$6,400
Replace roof shingles	$70,000
Stabilize foundation	$48,000
Replace rain gutters	$11,000
Restore and refinish mantle woodwork	$3,400
Restore and refinish interior wood trim	$13,000
Restore and refinish interior wood doors	$5,100

919 PALM AVENUE, SOUTH PASADENA, CA 91030: RESTORATION, REHABILITATION, AND MAINTENANCE PLAN

ITEM	YEAR OF WORK	TYPE OF WORK	COST ESTIMATE	DESCRIPTION
1	2013	Protect and maintain the brick entry stair	950	Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters.
2	2013	Protect and maintain the brick foundation	2,180	Re-point the exterior brick foundation. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Following re-pointing the earth around the foundation will be graded to provide drainage so that water is not allowed to stand on flat, horizontal surfaces.
3	2013	Protect and maintain the front door	2,412	The existing original finish on the entry door will be maintained and protected. Currently, the beveled glass window is loose and will be secured.
4	2013	Protect and maintain the front screen door	275	The existing wood and metal screen door is sagging. The door will be re-hung.
5	2014	Protect and maintain all windows		The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.
6	2014	Repair damaged leaded glass window in the north elevation	1,520	Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing.
7	2014	Repair front porch flooring	3,117	Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards.
8	2014	Repair damaged exterior shingles	7,140	Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting.
9	2015	Repair damaged exterior clapboards	5,325	Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting.
10	2015	Repair attic window	1,930	Inspect and identify cause of the window's movement within the wall plane. The least invasive repairs will be made to the frame, sash and casing in order to stabilize the window. The window itself will not be removed or radically altered. Repairs will be made to the frame, sash and casing by patching, splicing, consolidating or otherwise reinforcing. Any material replacement will be made in kind. Repairs will be made prior to exterior painting.
11	2015	Repair columns in attic dormer	1,820	Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting.
12	2015	Recreate missing front porch balconette railing	2,750	Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting.
13	2016	Protect and maintain exterior paint		Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district.

RESTORATION, REHABILITATION, AND MAINTENANCE PLAN

California Restoration & Waterproofing
1518 Arrow Hwy, Suite C, La Verne, CA 91750 Phone (909)595-1234 Fax (909)595-1444

919 PALM AVENUE, SOUTH PASADENA, CA 91030: RESTORATION, REHABILITATION, AND MAINTENANCE PLAN

ITEM	YEAR OF WORK	TYPE OF WORK	COST ESTIMATE	DESCRIPTION
14	2016	Repair sunroom windows	7,300	At an unknown date the windows in the second story sunroom on the south elevation were replaced with those in a newer style sliding wood sash type. The original wood windows were stored onsite. The original windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. Broken glass panes will be replaced in-kind and the windows will be given a general overhaul to ensure their long-term preservation. Any repair to the window frames, sashes or casings will be made by patching, splicing, consolidating or otherwise reinforcing. Following rehabilitation the original windows will be reinstalled. The windows will be painted in a color harmonizing with the paint palette of the house.
15	2016	Recreate missing/altered crawlspace vent screens	320	Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.
16	2016	Recreate missing wood- framed window screens	6,200	Recreate missing window screens based on existing. Surviving wood-framed screens will be used as a prototype to guide the overall form and detailing of the missing screens. Replacement screens will be crafted from wood, as are the existing, and attached in a fashion similar to original. The wood-framed screens will be painted in a color harmonizing with the paint palette of the house.
17	2017	Recreate landscaping		Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams.
18	2017	Protect and maintain brick driveway and retaining wall	3,200	The brick retaining wall at the drive way was damaged at an unknown date (likely by repeated car strikes). Other sections of the brick retaining wall were inappropriately repaired; these alterations will be undone and repaired in and appropriate manner. The drive way is also in need of maintenance. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.
19	2017	Protect and maintain brick hardscaping / brick patio, fireplace, and paths (front and rear garden)	8,700	While much of the garden hardscaping is extant much of it is in need of re-pointing. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.
20	2018	Repair water feature	3,825	The water feature no longer functions. It is the focal point of the rear garden. Broken or missing brick will be replaced in-kind. Water supply and drainage will be reestablished; any demolition to the existing materials will be kept to a minimum and will be replaced in-kind. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. The concrete lining will be matched in color and texture. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.
21	2018	Repair interior pocket door	2,315	A major interior character defining feature located between foyer and living room – the pocket door is off its track and does not function properly. Repair of the pocket door will likely require the removal of interior lath and plaster in order to access the door hardware. After the track is realigned the lath and plaster will be replaced in-kind and finished and repainted to match the room.
22	2018	Repair garage barn doors and tracks	3,760	The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.
23	2018	Repair garage siding	905	Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.
24	2018	Repair garage structure	9,575	Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed.

RESTORATION, REHABILITATION, AND MAINTENANCE PLAN

California Restoration & Waterproofing
1518 Arrow Hwy, Suite C, La Verne, CA 91750 Phone (909)595-1234 Fax (909)595-1444

919 PALM AVENUE, SOUTH PASADENA, CA 91030: RESTORATION, REHABILITATION, AND MAINTENANCE PLAN

ITEM	YEAR OF WORK	TYPE OF WORK	COST ESTIMATE	DESCRIPTION
25	2019	Replace garden fences and gates	4,800	Original wood fence and gate are gone. Original sample material was found during pruning and initial clearing of overgrown landscape. These samples were saved and will be used to match both construction type, design and finish color
26	2019	Stabilize and repair downstairs sub-flooring/floors	5,150	Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface.
27	2020	Replace and modernize backyard irrigation system with xeriscape drip system		Existing galvanized irrigation system is no longer working. Existing system will be removed and replaced with copper and PVC system employing low-flow and drip irrigation spray heads and valves.
28	2020	Install attic Insulation		Improve energy efficiency of existing mechanical systems by installing insulation and radiant barrier and proper ventilation in the attic. Currently there is NO insulation in the entire house.
29	2021	Protect and maintain brick chimney	8,580	Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.
30	2021	Repair chimney firebox and flue	6,400	Brick in the firebox is loose, the mortar is decomposed and the flue is inoperable – inspect and identify causes of flue and firebox deterioration. Repair masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.
31	2022	Replace roof shingles	70,000	the existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with asphalt composition shingles in a color appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing shingle was dark green in color. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove the several extraneous roof vents.
32	2022	Stabilize foundation	48,000	The existing brick foundation is spalling in areas – inspect and identify solution to stabilized foundation. The stabilization solution should not alter the historic character existing foundation. Any stabilization effort will attempt to maintain and protect the existing brick work. Replacements would match existing in details such as tooling and bonding patterns, and color.
33	2022	Replace or remove rain gutters	11,000	The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the facial will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.
34	2023	Restore and Refinish mantle woodwork	3,400	In some places the original existing wood finish is cracking and in other areas the finish has been painted over. Existing original finishes will be protected and maintained. In areas where original finish has been covered paint will be removed using the gentlest means necessary followed be re-finishing to match original.
35	2023	Restroe and refinish interior wood trim	13,000	In some places the original existing wood finish is cracking and in other areas the finish has been painted over. Existing original finishes will be protected and maintained. In areas where original finish has been covered paint will be removed using the gentlest means necessary followed be re-finishing to match original.
36	2023	Restore and refinish interior wood doors	5,100	In some places the original existing wood finish is cracking and in other areas the finish has been painted over. Existing original finishes will be protected and maintained. In areas where original finish has been covered paint will be removed using the gentlest means necessary followed be re-finishing to match original.
37	2023	Rebuild and restore garage electrical system		
38	2023	Rebuild and restore garden electrical and lighting systems		
39	Annually	Maintenance - Plumbing system		
40	Annually	Maintenance - Electrical system		
41	Annually	Maintenance - HVAC system		
42	Annually	Maintenance - Structural		
43	Bi-annually	Maintenance - exterior finishes		
44	Monthly	Maintenance - landscaping		
45	2014	Repair damaged glass in dining room window		Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing.

To BRIAN KNIGHT	Date 9/25/12
Address 919 PALM AV, S. PASADENA 91030	
Job Address	
Home Phone (626) 823-0150	Work Phone
Cell Number	Email / Fax

All services checked below are covered under this contract.

- ☐ **PRESSURE WASH** – Hydraulic water machine is used to remove dirt, loose paint, smog & mildew.
- ☑ **MASK & COVER** – Areas not to be painted will be masked, covered and protected against overspray and splatter. Openings to be covered as needed using plastic to help eliminate paint dust from entering inside the home.
- ☐ **TRENCH** – Trench out dirt 4"-6" around perimeter to extend paint below soil level.
- ☑ **SCRAPE & SAND** – Scrape and sand loose and peeling paint to ensure proper paint adhesion.
- ☑ **CAULKING** – Caulk cracks in wood joints aud between stucco and wood to seal out moisture.
- ☑ **WINDOW GLAZING** – Remove loose sash putty in windows, prime and re-glaze.
- ☐ **STUCCO CRACKS** – Stucco patch as necessary and seal with an elastomeric coating.
- ☑ **WOOD CRACKS** – Repair wood cracks with "Bondo" all purpose household putty.
- ☑ **PRIME** – Highest quality primers are applied to wood, metal and new stucco as required.
- ☑ **CLEAN-UP** – Work will be completed in a clean and professional manner. Trash is removed and clean-up is performed daily and upon completion of the job.
- ☑ **INSPECTION** – A complete inspection is performed with the customer to ensure your satisfaction. Final touch-ups are completed before we leave your project.

EXCLUSIONS

MISCELLANEOUS

- ☑ Top Quality paint - We proudly use the best quality Benjamin Moore, Dunn Edwards, Sherwin Williams
- ☑ Fully Insured & Bonded - Complete Coverage (Worker's Comp, Property Damage & Liability) is provided to protect our clients & employees.
- ☑ Written Guarantee - Full 5 year warrantee
- ☑ Plants - In order to provide the best quality paint job we ask that plants be pruned away from areas to be painted.
- ☑ Colors - The price stated herein shall include _____ samples. In order to provide the best value to our clients all color and sheen decisions must be made by the owner prior to our crew's arrival. Color changes are subject to additional charge.

ALL PAINT, LABOR, MATERIALS & WARRANTY ARE INCLUDED.

JOB AREAS HOUSE & GARAGE (FULL EXTERIOR) $ _____

APPROXIMATE COMPLETION TIME 3-4 WEEKS $ OPTIONS

TOTAL EIGHTEEN THOUSAND FIVE HUNDRED DOLLARS $ 18500.00

Progress payments made weekly. Balance is to be paid to the crew leader on the last day of work.

Contractor: CHRIS JONES **Date** 9/25/12

Estimated start date FALL 2012 **Proposal is good for** 90 **days**

I agree to have the above work done at the above price or cost and have read and understand the information front & back of this agreement.

Signed: _____ **Date:** _____

You, the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction.

919 PALM AVENUE; 1910

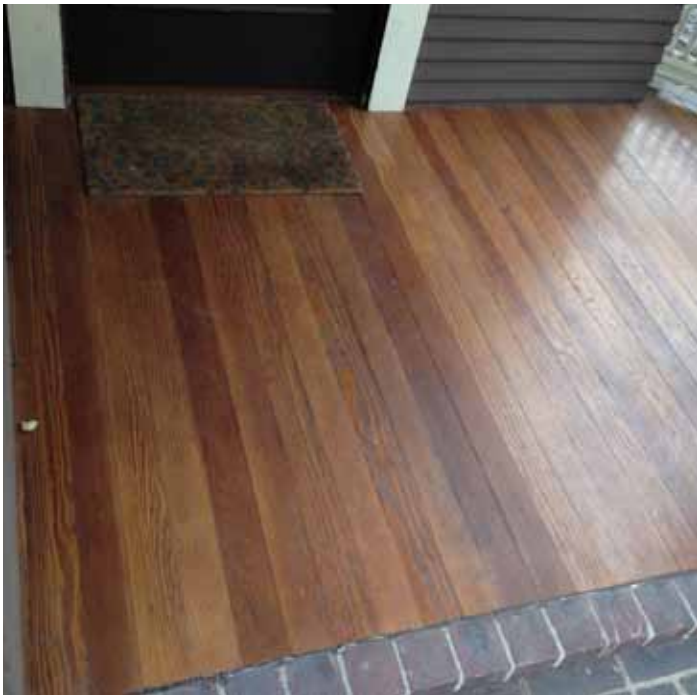
MILLS ACT PROGRESS REPORT 2012-2018

REHABILITATION AND PRESERVATION PLAN

The following **CAPITALIZED** expense items have been completed per the rehabilitation and preservation plan:

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Exterior wood cladding and architectural details 1. Repair front porch flooring 2. Repair damaged exterior shingles 3. Repair damaged exterior clapboards 4. Repair columns in attic dormer 5. Recreate missing front porch balconette railing 6. Recreate missing/altered crawlspace vent screens	Yes	1. Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards. 2. Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 3. Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 4. Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 5. Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting. 6. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.	2013 COMPLETED
B. Exterior paint and protective coatings 1. Preserve and restore exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2014 COMPLETED

All work completed adheres to the standards set forth in the Secretary of the Interior's Standards for the Treatment of Historic Properties.



The new exterior paint palette is based on the original colors applied to the house based on physical samples found on site and historic photographs of the house.

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.z

The following **NON-CAPITALIZED** expense items have been completed per the rehabilitation and preservation plan:

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Structural 1. Repair garage beams and joists	No (not a capitalized expense)	1. Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed. Repair according to industry standards and applicable building codes.	2015 COMPLETED
B. Exterior cladding 1. Repair garage siding	Yes (not a capitalized expense)	1. Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2015 COMPLETED
C. Exterior doors and windows 1. Repair garage barn doors and track hardware	Yes (not a capitalized expense)	1. The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.	2015 COMPLETED

All work completed adheres to the standards set forth in the Secretary of the Interior's Standards for the Treatment of Historic Properties.

The new exterior paint palette is based on the original colors applied to the house based on physical samples found on site and historic photographs of the house.

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. AREA 4: LANDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Trees and plantings 1. Restore historic landscaping	Yes (not a capitalized expense)	1. Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams. Work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2011-2022 ONGOING

SUMMARY OF COMPLETED WORK

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Exterior wood cladding and architectural details 1. Repair front porch flooring 2. Repair damaged exterior shingles 3. Repair damaged exterior clapboards 4. Repair columns in attic dormer 5. Recreate missing front porch balconette railing 6. Recreate missing/altered crawlspace vent screens	Yes	1. Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards. 2. Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 3. Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 4. Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 5. Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting. 6. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.	2013 COMPLETE
B. Exterior paint and protective coatings 1. Preserve and restore exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2014 COMPLETE

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
C. Exterior doors and windows 1. Protect and maintain the front door 2. Protect and maintain the front screen door 3. Repair attic window 4. Repair sunroom windows 5. Remove non-original screens and replace with new tomatch the originals 6. Repair damaged leaded glass window in the north elevation	Yes	1. The existing original finish on the entry door will be maintained and protected. Currently, the beveled glass window is loose and will be secured. 2. The existing wood and metal screen door is sagging. The door will be re-hung. 3. Inspect and identify cause of the window's movement within the wall plane. The least invasive repairs will be made to the frame, sash and casing in order to stabilize the window. The window itself will not be removed or radically altered. Repairs will be made to the frame, sash and casing by patching, splicing, consolidating or otherwise reinforcing. Any material replacement will be made in kind. Repairs will be made prior to exterior painting. 4. At an unknown date the windows in the second story sunroom on the south elevation were replaced with those in a newer style sliding wood sash type. The original wood windows were stored onsite. The original windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. Broken glass panes will be replaced in-kind and the windows will be given a general overhaul to ensure their long-term preservation. Any repair to the window frames, sashes or casings will be made by patching, splicing, consolidating or otherwise reinforcing. Following rehabilitation the original windows will be reinstalled. The windows will be painted in a color harmonizing with the paint palette of the house. 5. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match. 6. Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing.	2016 INCOMPLETE
D. Masonry systems 1. Protect and maintain the brick entry stair 2. Preserve, restore, and reinforce the brick foundation 3. Protect and maintain brick chimney	Yes	1. Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters. 2. Re-point the exterior brick foundation. Following re-pointing the earth around the foundation will be graded to provide drainage so that water is not allowed to stand on flat, horizontal surfaces. 3. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2019 INCOMPLETE
E. Roofing systems 1. Replace roof shingles 2. Replace or remove rain gutters	Yes	1. The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with code-compliant cedar shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was cedar shingle. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove the several extraneous roof vents. 2. The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the facial will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.	2020 INCOMPLETE

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
F. Structural systems 1. Stabilize foundation 2. Stabilize and repair downstairs sub-flooring/floors	No	1. The existing brick foundation is spalling in areas – inspect and identify solution to stabilized foundation. The stabilization solution should not alter the historic character existing foundation. Any stabilization effort will attempt to maintain and protect the existing brick work. Replacements would match existing in details such as tooling and bonding patterns, and color. Repair according to industry standards and applicable building codes. 2. Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface. Repair according to industry standards and applicable building codes.	2022 INCOMPLETE

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Structural 1. Repair garage beams and joists	No (not a capitalized expense)	1. Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed. Repair according to industry standards and applicable building codes.	2015 COMPLETE
B. Exterior cladding 1. Repair garage siding	Yes (not a capitalized expense)	1. Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2015 COMPLETE
C. Exterior doors and windows 1. Repair garage barn doors and track hardware	Yes (not a capitalized expense)	1. The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.	2015 COMPLETE

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 3: HARDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Masonry systems 1. Protect and maintain brick driveway and retaining wall 2. Protect and maintain brick hardscaping / brick patio, fireplace, and paths (front and rear garden)	Yes	1. The brick retaining wall at the drive way was damaged at an unknown date (likely by repeated car strikes). Other sections of the brick retaining wall were inappropriately repaired; these alterations will be undone and repaired in and appropriate manner. The drive way is also in need of maintenance. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. 2. While much of the garden hardscaping is extant much of it is in need of re-pointing. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017 INCOMPLETE
B. Masonry and plumbing systems 1. Repair back garden water feature	Yes (not a capitalized expense)	1. The water feature no longer functions. It is the focal point of the rear garden. Broken or missing brick will be replaced in-kind. Water supply and drainage will be reestablished; any demolition to the existing materials will be kept to a minimum and will be replaced in-kind. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. The concrete lining will be matched in color and texture. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017 INCOMPLETE

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 4: LANDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Trees and plantings 1. Restore historic landscaping	Yes (not a capitalized expense)	1. Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams. Work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2011-2022 COMPLETE

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

MAINTENANCE PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
1. Exterior cladding and paint	Yes (not a capitalized expense)	1. Tri-annual paint inspection and maintenance/re-painting as necessary. Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."	2015, 2018, 2021

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
1. Wood framing and sheathing	Yes (not a capitalized expense)	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found. Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the treatment of Historic Properties. This treament will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind." Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems... by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 3: HARDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
1. Historic brick driveway, driveway apron, walkways, water feature, and outdoor fireplace	Yes (not a capitalized expense)	1. Annual inspections to monitor any additional movement and separation of bricks from mortar. Recommended treatment approach: "Repair of historic masonry may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 4: LANDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
1. Landscaping and trees	Yes (not a capitalized expense)	1. Ongoing maintenance of trees and landscaping. "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include... vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

NOTES: MAINTENANCE PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

Table 2. Summary of Updated Mills Act Workplan, 2023 to 2032[1]

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
1	Structural system upgrades and repairs INCOMPLETE	2023	Original MA Workplan and additional areas in need of repairs and retrofitting	2022 Property Inspection noted need for the following items: Brick foundation walls missing grout and show signs of deterioration Cripple walls need retrofitting; gapped and open areas along foundation need screens Posts and girders need retrofitting; evidence of leaning post; add T straps at post and girder junctures Subflooring shows signs of active leaking from kitchen; needs repairs; duct work is in contact with soil Wiring should be properly secured to framing; at present, areas of conduit are laying on soil; open junction boxes need to be enclosed in junction box to prevent shocks and failure of splice	**IDENTIFY** **Recommended:** Identifying, retaining, and preserving structural systems--and individual features of systems--that are important in defining the overall historic character of building, such as above-grade stone foundation walls, or loadbearing brick or stone walls. **Not Recommended:** (1) Removing, covering, or radically changing features of structural systems which are important in defining overall historic character; (2) Demolishing a loadbearing masonry wall that could be augmented and retained, and replacing it with a new wall (i.e., brick or stone), using the historic masonry only as an exterior veneer; (3) Leaving known structural problems untreated such as deflection of beams, cracking and bowing of walls. **PROTECT AND MAINTAIN** **Recommended:** Protecting and maintaining the structural system by cleaning the roof gutters and downspouts; replacing roof flashing; keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation. **Not Recommended:** Failing to provide proper building maintenance so that deterioration of the structural system results. Causes of deterioration include subsurface ground movement, vegetation growing too close to foundation walls, improper grading, fungal rot, and poor interior ventilation that results in condensation. **REPAIR** **Recommended:** Replacing in kind--or with substitute material--those portions or features of the structural system that are either extensively deteriorated or are missing when there are surviving prototypes such as cast iron columns, roof rafters or trusses, or sections of loadbearing walls. **Not Recommended:** Using substitute material that does not equal the loadbearing capabilities of the historic material and design or is otherwise physically or chemically incompatible.
2	Exterior cladding repairs, repainting, and re-sealing (on house and on garage) INCOMPLETE	2025	New MA Workplan	Part of ongoing Mills Act Maintenance Plan, which requires tri-annual paint inspection and maintenance/re-painting as necessary Peeling and chipped paint, gaps, cracks, openings and damaged wood are evident throughout exterior, in particular on south and west elevations	**IDENTIFY** **Recommended:** Identifying, retaining, and preserving wood features that are important in defining the overall historic character of the building such as siding, cornices, brackets, window architraves, and doorway pediments; and their paints, finishes, and colors. **Not Recommended:** (1) Removing or radically changing wood features which are important in defining the overall historic character; (2) removing a major portion of the historic wood from a facade instead of repairing or replacing only the deteriorated wood, then reconstructing the facade with new material in order to achieve a uniform or "improved" appearance; (3) Stripping historically painted surfaces to bare wood, then applying clear finishes or stains in order to create a "natural look." **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining wood features by providing proper drainage; (2) Retaining coatings such as paint that help protect wood from moisture/ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings; (3) Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required; (4) Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting; (5) Using with care electric hot-air guns on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting; (6) Using chemical strippers primarily to supplement other methods such as handscraping, handsanding and the above-recommended thermal devices; (7) Repainting with colors that are appropriate to the historic building; (8) Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary. **Not Recommended:** (1) Failing to identify, evaluate, and treat the causes of wood deterioration, including faulty flashing, leaking gutters, cracks and holes in siding, deteriorated caulking in joints and seams, plant material growing too close to wood surfaces, or insect or fungus infestation; (2) Stripping paint or other coatings to

[1] The recommended treatment approach for 919 Palm Avenue is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from National Park Service, Department of the Interior, Washington, DC. 1995. *The Secretary of the Interior's Standards for Rehabilitation, with Guidelines for Rehabilitating, Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings*. In accordance with CEQA Guidelines, a project that has been determined to conform with the Secretary's Standards is generally considered to be a project that will not cause a significant adverse impact and material impairment. If a project meets the Secretary's Standards, the project can, in most cases, be considered categorically exempt from CEQA and qualify for a Notice of Exemption.

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					reveal bare wood, thus exposing historically coated surfaces to the effects of accelerated weathering; (3) Removing paint that is firmly adhering to, and thus, protecting wood surfaces; (4) Using destructive paint removal methods such as a propane or butane torches, sandblasting or waterblasting. These methods can irreversibly damage historic woodwork; (5) Failing to undertake adequate measures to assure the protection of wood features. **REPAIR** **Recommended:** Repairing wood features by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. **Not Recommended:** (1) Replacing an entire wood feature such as a cornice or wall when repair of the wood and limited replacement of deteriorated or missing parts are appropriate; (2) Using substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the wood feature or that is physically or chemically incompatible. **REPLACE** **Recommended:** Replacing in kind an entire wood feature that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. **Not Recommended:** Removing a feature that is unrepairable and not replacing it; or replacing it with a new feature that does not convey the same visual appearance.
3	Exterior window repairs	2027	New MA Workplan	Some windows, including the cracked stained-glass window on the north elevation, are broken and/or inoperable; missing screens noted throughout; gaps and cracks around window frames need caulking/sealing and repainting; wood frames need termite inspection, remediation, and repairs where necessary	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** (1) Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building; (2) Such features can include frames, sash, muntins, glazing, sills, heads, moldings; (3) Conducting an in-depth survey of the conditions of existing windows early in rehabilitation planning so that repair and upgrading methods and possible replacement options can be fully explored. **Not Recommended:** (1) Removing or radically changing windows which are important in defining the historic character of the building; (2) Changing the number, location, size or glazing pattern of windows, through cutting new openings, blocking-in windows, and installing replacement sash that do not fit the historic window opening; (3) Changing the historic appearance of windows through the use of inappropriate designs, materials, finishes, or colors; (4) Replacing windows solely because of peeling paint, broken glass, stuck sash, and high air infiltration. These conditions, in themselves, are no indication that windows are beyond repair. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining the wood and architectural metal which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems; (2) Making windows weathertight by re-caulking and replacing or installing weatherstripping. These actions also improve thermal efficiency; (3) Evaluating the overall condition of materials to determine whether more than protection and maintenance are required, i.e. if repairs to windows and window features will be required. **Not Recommended:** (1) Failing to provide adequate protection of materials on a cyclical basis so that deterioration of the window results; (2) Retrofitting or replacing windows rather than maintaining the sash, frame, and glazing; (3) Failing to undertake adequate measures to assure the protection of historic windows. **REPAIR** **Recommended:** Repairing window frames and sash by patching, splicing, consolidating or otherwise reinforcing. **Not Recommended:** (1) Replacing an entire window when repair of materials and limited replacement of deteriorated or missing parts are appropriate; (2) Failing to reuse serviceable window hardware such as brass sash lifts and sash locks; (3) Using substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the window or that is physically or chemically incompatible. **REPLACE** **Recommended:** (1) Replacing in kind an entire window that is too deteriorated to repair using same sash/pane configuration and other design details; (2) Designing and installing new windows when the historic windows (frames, sash and glazing) are completely missing. The replacement windows may be an accurate restoration using historical, pictorial, and physical documentation; or be a new design that is compatible with the window openings and the historic character of the building.

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					Not Recommended: (1) Removing a character-defining window that is unrepairable and blocking it in; or replacing it with a new window that does not convey the same visual appearance; (2) Creating a false historical appearance because the replaced window is based on insufficient historical, pictorial, and physical documentation; (3) Introducing a new design that is incompatible with the historic character of the building.
4	Roofing system upgrade and repairs	2029	Original MA Workplan and additional repairs	Property inspection noted asbestos composition shingles on roof installed in 2007; add to scope of work installation of spark arrestor at chimney cap; inspection noted absence of spark arrestor/rain cap to prevent entrance of the elements and wildlife; flashings are currently covered over; all roof vents and projections need re-sealing as part of routine maintenance; install gutters or downspouts, in particular over entranceways and walkways, to move water away from foundation and building; install splashblocks or extensions to carry water away and keep from pooling near foundation and building	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** (1) Identifying, retaining, and preserving roofs--and their functional and decorative features--that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features, such as cupolas, cresting chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning. **Not Recommended:** (1) Radically changing, damaging, or destroying roofs which are important in defining the overall historic character of the building so that, as a result, the character is diminished; (2) Removing a major portion of the roof or roofing material that is repairable, then reconstructing it with new material in order to create a uniform, or "improved" appearance. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining a roof by cleaning the gutters and downspouts and replacing deteriorated flashing; (2) Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to insure that materials are free from insect infestation; (3) Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration; (4) Protecting a leaking roof with plywood and building paper until it can be properly repaired. **Not Recommended:** (1) Failing to clean and maintain gutters and downspouts properly so that water and debris collect and cause damage; (2) Allowing roof fasteners, such as nails and clips to corrode so that roofing material is subject to accelerated deterioration; (3) Permitting a leaking roof to remain unprotected so that accelerated deterioration of historic building materials--masonry, wood, plaster, paint and structural members--occurs. **REPAIR** **Recommended:** Repairing a roof by reinforcing the historic materials which comprise roof features.. **Not Recommended:** (1) Replacing an entire roof feature such as a cupola or dormer when repair of the historic materials and limited replacement of deteriorated or missing parts are appropriate; (2) Using a substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the roof or that is physically or chemically incompatible.
5	Masonry system repairs Brick driveway, retaining wall, hardscaping, patio, and brick chimney	2031	Original MA Workplan and additional repairs	Additional repairs to character-defining masonry and brick hardscaping is needed, in particular along the retaining walls fronting the sidewalk and driveway, which shows signs of mortar failure, chipping, and deterioration Chimney is not operational; inspection showed signs of structural instability/collapse on chimney interior on first floor	**IDENTIFY, RETAIN, AND PRESERVE** **Recommended:** Identifying, retaining, and preserving masonry features that are important in defining the overall historic character of the building such as walls, brackets, railings, cornices, window architraves, door pediments, steps, and columns; and details such as tooling and bonding patterns, coatings, and color. **Not Recommended:** (1) Removing or radically changing masonry features which are important in defining the overall historic character of the building; (2) Applying paint or other coatings such as stucco to masonry that has been historically unpainted or uncoated to create a new appearance; (3) Radically changing the type of paint or coating or its color. **PROTECT AND MAINTAIN** **Recommended:** (1) Protecting and maintaining masonry by providing proper drainage so that water does not stand on surfaces or accumulate; (2) Cleaning masonry surfaces with the gentlest method possible, such as low pressure water and detergents, using natural bristle brushes; (3) Evaluating the overall condition of the masonry to determine whether more than protection and maintenance are required, that is, if repairs will be necessary; (4) Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields; furnishings such as lights, fences, or benches; (5) Protecting and maintaining buildings and sites by providing proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape. **Not Recommended:** (1) Failing to evaluate and treat the various causes of mortar joint deterioration such as leaking roofs or gutters, differential settlement of the building, capillary action, etc.; (2) Sandblasting brick or stone surfaces using dry or wet grit or other abrasives. These methods erode the surface of the material and accelerate deterioration; (3) Cleaning with chemical products that damage masonry; (4) Applying high pressure water cleaning methods that will damage historic masonry and the mortar joints; (5) Using methods of removing paint which are destructive to masonry, such as sandblasting, application of caustic solutions, or high

#	Description of Mills Act Workplan Effort	Proposed Schedule	New or Original MA Workplan?	Notes on Scope of Work	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
					pressure waterblasting; (6) Failing to maintain adequate site drainage so that buildings and site features are damaged or destroyed; or alternatively, changing the site grading so that water no longer drains properly. **REPAIR** **Recommended:** (1) Repairing masonry features by repointing mortar joints where there is deterioration such as disintegrating mortar, cracks in mortar joints, loose bricks, damp walls, or damaged plasterwork; (2) Removing deteriorated mortar by carefully hand-raking the joints; (3) Duplicating old mortar in strength, composition, color, and texture; (4) Duplicating old mortar joints in width and in joint profile; (5) Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of masonry features. **Not Recommended:** (1) Removing nondeteriorated mortar from sound joints, then repointing the entire building to achieve a uniform appearance; (2) Using electric saws and hammers rather than hand tools; (3) Repointing with mortar of high portland cement content (unless it is the content of the historic mortar). This can often create a bond that is stronger than the historic material and can cause damage; (4) Repointing with a synthetic caulking compound; (5) Changing the width or joint profile when repointing; (6) Patching concrete without removing the source of deterioration; (7) Applying waterproof, water repellent, or non-historic coatings such as stucco to masonry as a substitute for repointing and masonry repairs. Coatings are frequently unnecessary, expensive, and may change the appearance of historic masonry as well as accelerate its deterioration.

MILLS ACT CONTRACT

RECORDING REQUESTED BY:

MILLS ACT CONTRACT FOR
PROPERTY LOCATED AT
919 PALM AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

COPY

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 19th day of December 2012, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Brian Knight ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 919 Palm Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is located in the City's El Centro-Indiana-Palm Avenue Historic District, which was designated by the South Pasadena City Council on July 21, 1993, attached hereto marked "Exhibit B";

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 19, 2012 and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The City desires not to renew this Agreement in five (5) years. The City shall serve written notice of non-renewal in advance of the annual renewal date in year 5 of this Agreement. The City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date

in the fifth year. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City

determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further

declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Brian Knight
919 Palm Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of it's contractor, subcontractor, agent, employee or other person acting on it's behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or

restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

DEFINITIONS

Words used in multiple sections of this document are defined below and other words are defined in Sections 3, 11, 13, 18, 20 and 21. Certain rules regarding the usage of words used in this document are also provided in Section 16.

(A) **"Security Instrument"** means this document, which is dated MARCH 26, 2012, together with all Riders to this document.
(B) **"Borrower"** is BRIAN KNIGHT AND CYNTHIA KNIGHT, HUSBAND AND WIFE AS COMMUNITY PROPERTY

Borrower is the trustor under this Security Instrument.
(C) **"Lender"** is AMERISAVE MORTGAGE CORPORATION

Lender is a GEORGIA CORPORATION organized and existing under the laws of GEORGIA
Lender's address is ONE CAPITAL PLAZA, 3350 PEACHTREE ROAD, STE. 1000, ATLANTA, GEORGIA 30326

(D) **"Trustee"** is FIDELITY NATIONAL TITLE COMPANY, A CALIFORNIA CORPORATION 17911 VON KARMAN AVE., SUITE 300, IRVINE, CALIFORNIA 92614

(E) **"MERS"** is Mortgage Electronic Registration Systems, Inc. MERS is a separate corporation that is acting solely as a nominee for Lender and Lender's successors and assigns. **MERS is the beneficiary under this Security Instrument.** MERS is organized and existing under the laws of Delaware, and has an address and telephone number of P.O. Box 2026, Flint, MI 48501-2026, tel. (888) 679-MERS.
(F) **"Note"** means the promissory note signed by Borrower and dated MARCH 26, 2012

The Note states that Borrower owes Lender THREE HUNDRED EIGHTY-FOUR THOUSAND ONE HUNDRED FIFTY AND 00/100 Dollars (U.S. $ 384,150.00) plus interest. Borrower has promised to pay this debt in regular Periodic Payments and to pay the debt in full not later than APRIL 1, 2032

(G) "Property" means the property that is described below under the heading "Transfer of Rights in the Property."

(H) "Loan" means the debt evidenced by the Note, plus interest, any prepayment charges and late charges due under the Note, and all sums due under this Security Instrument, plus interest.

(I) "Riders" means all Riders to this Security Instrument that are executed by Borrower. The following Riders are to be executed by Borrower [check box as applicable]:

☐ Adjustable Rate Rider	☐ Planned Unit Development Rider
☐ Balloon Rider	☐ Biweekly Payment Rider
☐ 1-4 Family Rider	☐ Second Home Rider
☐ Condominium Rider	☐ Other(s) [specify]

(J) "Applicable Law" means all controlling applicable federal, state and local statutes, regulations, ordinances and administrative rules and orders (that have the effect of law) as well as all applicable final, non-appealable judicial opinions.

(K) "Community Association Dues, Fees, and Assessments" means all dues, fees, assessments and other charges that are imposed on Borrower or the Property by a condominium association, homeowners association or similar organization.

(L) "Electronic Funds Transfer" means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, computer, or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account. Such term includes, but is not limited to, point-of-sale transfers, automated teller machine transactions, transfers initiated by telephone, wire transfers, and automated clearinghouse transfers.

(M) "Escrow Items" means those items that are described in Section 3.

(N) "Miscellaneous Proceeds" means any compensation, settlement, award of damages, or proceeds paid by any third party (other than insurance proceeds paid under the coverages described in Section 5) for: (i) damage to, or destruction of, the Property; (ii) condemnation or other taking of all or any part of the Property; (iii) conveyance in lieu of condemnation; or (iv) misrepresentations of, or omissions as to, the value and/or condition of the Property.

(O) "Mortgage Insurance" means insurance protecting Lender against the nonpayment of, or default on, the Loan.

(P) "Periodic Payment" means the regularly scheduled amount due for (i) principal and interest under the Note, plus (ii) any amounts under Section 3 of this Security Instrument.

(Q) "RESPA" means the Real Estate Settlement Procedures Act (12 U.S.C. §2601 et seq.) and its implementing regulation, Regulation X (24 C.F.R. Part 3500), as they might be amended from time to time, or any additional or successor legislation or regulation that governs the same subject matter. As used in this Security Instrument, "RESPA" refers to all requirements and restrictions that are imposed in regard to a "federally related mortgage loan" even if the Loan does not qualify as a "federally related mortgage loan" under RESPA.

(R) "Successor in Interest of Borrower" means any party that has taken title to the Property, whether or not that party has assumed Borrower's obligations under the Note and/or this Security Instrument.

TRANSFER OF RIGHTS IN THE PROPERTY

The beneficiary of this Security Instrument is MERS (solely as nominee for Lender and Lender's successors and assigns) and the successors and assigns of MERS. This Security Instrument secures to Lender: (i) the repayment of

the Loan, and all renewals, extensions and modifications of the Note; and (ii) the performance of Borrower's covenants and agreements under this Security Instrument and the Note. For this purpose, Borrower irrevocably grants and conveys to Trustee, in trust, with power of sale, the following described property located in the

COUNTY of LOS ANGELES :

[Type of Recording Jurisdiction] [Name of Recording Jurisdiction]

SEE LEGAL DESCRIPTION ATTACHED HERETO AND MADE A PART HEREOF AS EXHIBIT "A".

which currently has the address of 919 PALM AVENUE

[Street]

SOUTH PASADENA ; California 91030 ("Property Address"):

[City] [Zip Code]

TOGETHER WITH all the improvements now or hereafter erected on the property, and all easements, appurtenances, and fixtures now or hereafter a part of the property. All replacements and additions shall also be covered by this Security Instrument. All of the foregoing is referred to in this Security Instrument as the "Property." Borrower understands and agrees that MERS holds only legal title to the interests granted by Borrower in this Security Instrument, but, if necessary to comply with law or custom, MERS (as nominee for Lender and Lender's successors and assigns) has the right: to exercise any or all of those interests, including, but not limited to, the right to foreclose and sell the Property; and to take any action required of Lender including, but not limited to, releasing and canceling this Security Instrument.

BORROWER COVENANTS that Borrower is lawfully seised of the estate hereby conveyed and has the right to grant and convey the Property and that the Property is unencumbered, except for encumbrances of record. Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay when due the principal of, and interest on, the debt evidenced by the Note and any prepayment charges and late charges due under the Note. Borrower shall also pay funds for Escrow Items pursuant to Section 3. Payments due under the Note and this Security Instrument shall be made in U.S. currency. However, if any check or other instrument received by Lender as payment under the Note or this Security Instrument is returned to Lender unpaid, Lender may require that any or all subsequent payments due under the Note and this Security Instrument be made in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality, or entity; or (d) Electronic Funds Transfer.

Payments are deemed received by Lender when received at the location designated in the Note or at such other location as may be designated by Lender in accordance with the notice provisions in Section 15. Lender may return any payment or partial payment if the payment or partial payments are insufficient to bring the Loan current. Lender

may accept any payment or partial payment insufficient to bring the Loan current, without waiver of any rights hereunder or prejudice to its rights to refuse such payment or partial payments in the future, but Lender is not obligated to apply such payments at the time such payments are accepted. If each Periodic Payment is applied as of its scheduled due date, then Lender need not pay interest on unapplied funds. Lender may hold such unapplied funds until Borrower makes payment to bring the Loan current. If Borrower does not do so within a reasonable period of time, Lender shall either apply such funds or return them to Borrower. If not applied earlier, such funds will be applied to the outstanding principal balance under the Note immediately prior to foreclosure. No offset or claim which Borrower might have now or in the future against Lender shall relieve Borrower from making payments due under the Note and this Security Instrument or performing the covenants and agreements secured by this Security Instrument.

2. Application of Payments or Proceeds. Except as otherwise described in this Section 2, all payments accepted and applied by Lender shall be applied in the following order of priority: (a) interest due under the Note; (b) principal due under the Note; (c) amounts due under Section 3. Such payments shall be applied to each Periodic Payment in the order in which it became due. Any remaining amounts shall be applied first to late charges, second to any other amounts due under this Security Instrument, and then to reduce the principal balance of the Note.

If Lender receives a payment from Borrower for a delinquent Periodic Payment which includes a sufficient amount to pay any late charge due, the payment may be applied to the delinquent payment and the late charge. If more than one Periodic Payment is outstanding, Lender may apply any payment received from Borrower to the repayment of the Periodic Payments if, and to the extent that, each payment can be paid in full. To the extent that any excess exists after the payment is applied to the full payment of one or more Periodic Payments, such excess may be applied to any late charges due. Voluntary prepayments shall be applied first to any prepayment charges and then as described in the Note.

Any application of payments, insurance proceeds, or Miscellaneous Proceeds to principal due under the Note shall not extend or postpone the due date, or change the amount, of the Periodic Payments.

3. Funds for Escrow Items. Borrower shall pay to Lender on the day Periodic Payments are due under the Note, until the Note is paid in full, a sum (the "Funds") to provide for payment of amounts due for: (a) taxes and assessments and other items which can attain priority over this Security Instrument as a lien or encumbrance on the Property; (b) leasehold payments or ground rents on the Property, if any; (c) premiums for any and all insurance required by Lender under Section 5; and (d) Mortgage Insurance premiums, if any, or any sums payable by Borrower to Lender in lieu of the payment of Mortgage Insurance premiums in accordance with the provisions of Section 10. These items are called "Escrow Items." At origination or at any time during the term of the Loan, Lender may require that Community Association Dues, Fees, and Assessments, if any, be escrowed by Borrower, and such dues, fees and assessments shall be an Escrow Item. Borrower shall promptly furnish to Lender all notices of amounts to be paid under this Section. Borrower shall pay Lender the Funds for Escrow Items unless Lender waives Borrower's obligation to pay the Funds for any or all Escrow Items. Lender may waive Borrower's obligation to pay to Lender Funds for any or all Escrow Items at any time. Any such waiver may only be in writing. In the event of such waiver, Borrower shall pay directly, when and where payable, the amounts due for any Escrow Items for which payment of Funds has been waived by Lender and, if Lender requires, shall furnish to Lender receipts evidencing such payment within such time period as Lender may require. Borrower's obligation to make such payments and to provide receipts shall for all purposes be deemed to be a covenant and agreement contained in this Security Instrument, as the phrase "covenant and agreement" is used in Section 9. If Borrower is obligated to pay Escrow Items directly, pursuant to a waiver, and Borrower fails to pay the amount due for an Escrow Item, Lender may exercise its rights under Section 9 and pay such amount and Borrower shall then be obligated under Section 9 to repay to Lender any such amount. Lender may revoke the waiver as to any or all Escrow Items at any time by a notice given in accordance with Section 15 and, upon such revocation, Borrower shall pay to Lender all Funds, and in such amounts, that are then required under this Section 3.

Lender may, at any time, collect and hold Funds in an amount (a) sufficient to permit Lender to apply the Funds at the time specified under RESPA, and (b) not to exceed the maximum amount a lender can require under RESPA. Lender shall estimate the amount of Funds due on the basis of current data and reasonable estimates of expenditures of future Escrow Items or otherwise in accordance with Applicable Law.

RESOLUTION NO. 6180

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING PORTIONS OF EL CENTRO - INDIANA - PALM AVENUES AS AN OFFICIAL CULTURAL HISTORIC DISTRICT

WHEREAS, Section 2.73A-14. Landmarks and Historic Districts of the South Pasadena Municipal Code establishes procedures for registering historic districts; and

WHEREAS, the Cultural Heritage Commission having duly received a nomination form to register an historic district for the area bounded by Palm Avenue on the east, El Centro Street on the south, Indiana Avenue on the west and Pico Alley on the north; more specifically including all residences on both sides of Palm Avenue in the 900 block, all residences on both sides of El Centro Street in the 500 block, all residences on both sides of Indiana Court in the 500 block and all residences on the east side of Indiana Avenue in the 900 block plus one residence (921) on the west side of Indiana Avenue; and

WHEREAS, the Commission complied with the pertinent and applicable provisions of Subsection (A) (3) (Designation Procedure) and made findings of fact pursuant to Subsection (A) (2) (Designation Criteria for Districts); and

WHEREAS, the Commission forwarded a recommendation to the City Council to approve the proposed historic district; and

WHEREAS, the City Council held a public hearing on the proposed designation on July 7, 1993 and received public testimony; and

WHEREAS, the area qualifies as a district by reason of the following applicable subsections:

(a) Its character, interest or value as a part of the heritage of the community;

(d) Its exemplification of a particular architectural style of an era of history of the City (including Foursquare, Craftsman, pattern book kit houses, and period revival styles);

(g) Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials or craftsmanship; and

(l) Its significance as a distinguishable neighborhood or area whose components may lack individual distinction; and

(m) More than 50% plus one of all affected owners of parcels within the proposed district have consented in writing to such designation.

NOW, THEREFORE, be it resolved by the City Council of the City of South Pasadena the following:

1. Designation of the above-described properties as the EL CENTRO - INDIANA - PALM HISTORIC DISTRICT.

2. The map as set forth in Exhibit A hereto attached and made a part of, as the official boundaries of the historic district.

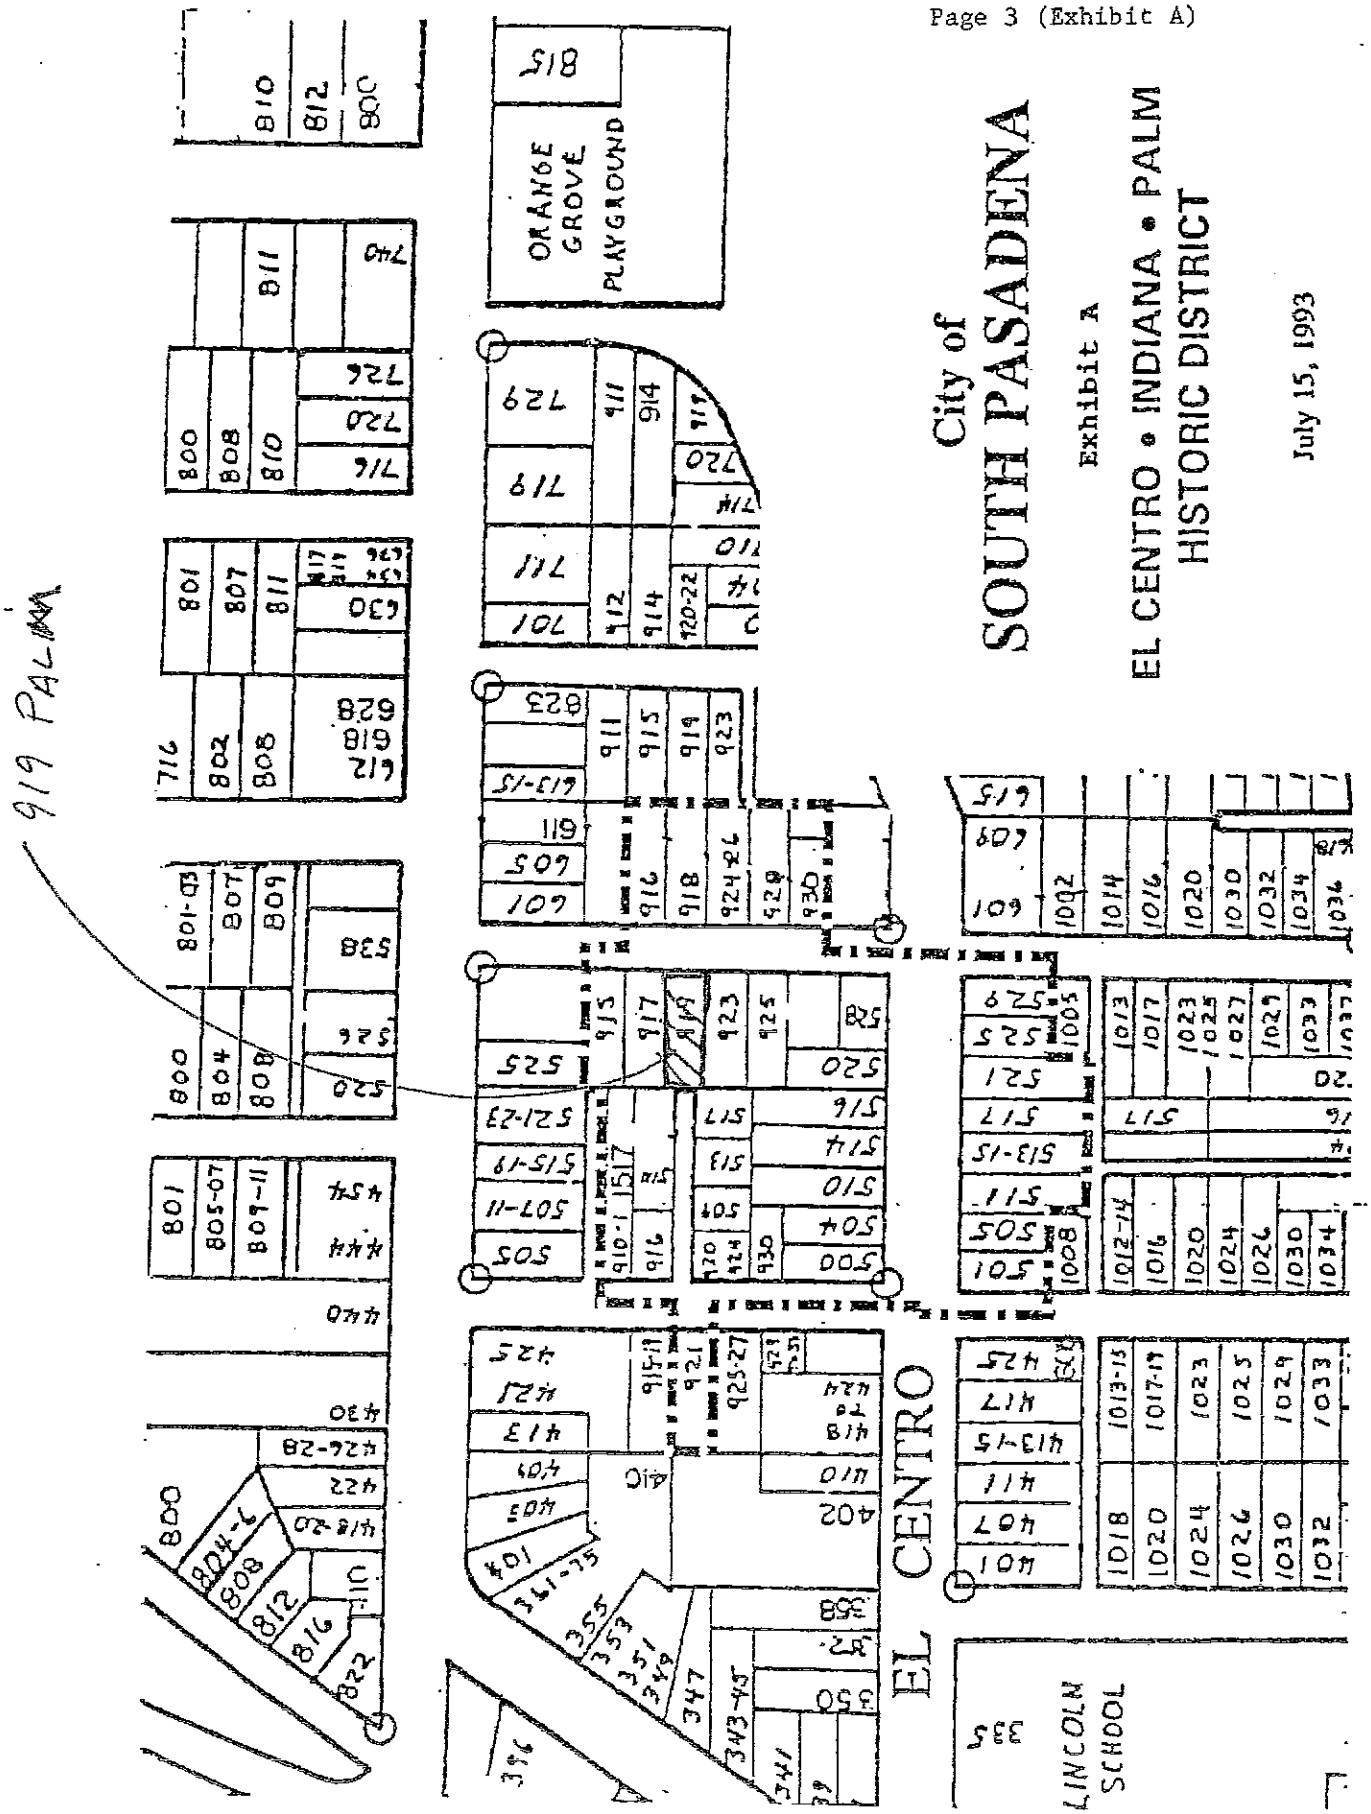
PASSED, APPROVED AND ADOPTED on July 21, 1993.

James C. Hodge, Jr., Mayor
City of South Pasadena

ATTEST:

Jeannine A. Gregory, City Clerk

I HEREBY CERTIFY that the foregoing resolution was adopted by the City Council of the City of South Pasadena at a regular meeting held on the 21st day of July, 1993, by the following vote:



AYES: Richards, Knapp, Zee and Mayor Hodge

NOES: None

ABSENT: Woollacott

Jeannine A. Gregory, City Clerk

RESOLUTION NO. 6180
Page 3 (Exhibit A)

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Exterior wood cladding and architectural details 1. Repair front porch flooring 2. Repair damaged exterior shingles 3. Repair damaged exterior clapboards 4. Repair columns in attic dormer 5. Recreate missing front porch balconette railing 6. Recreate missing/altered crawlspace vent screens	Yes	1. Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards. 2. Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 3. Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 4. Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 5. Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting. 6. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.	2013
B. Exterior paint and protective coatings 1. Preserve and restore exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2014

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
C. Exterior doors and windows 1. Protect and maintain the front door 2. Protect and maintain the front screen door 3. Repair attic window 4. Repair sunroom windows 5. Remove non-original screens and replace with new tomatch the originals 6. Repair damaged leaded glass window in the north elevation	Yes	1. The existing original finish on the entry door will be maintained and protected. Currently, the beveled glass window is loose and will be secured. 2. The existing wood and metal screen door is sagging. The door will be re-hung. 3. Inspect and identify cause of the window's movement within the wall plane. The least invasive repairs will be made to the frame, sash and casing in order to stabilize the window. The window itself will not be removed or radically altered. Repairs will be made to the frame, sash and casing by patching, splicing, consolidating or otherwise reinforcing. Any material replacement will be made in kind. Repairs will be made prior to exterior painting. 4. At an unknown date the windows in the second story sunroom on the south elevation were replaced with those in a newer style sliding wood sash type. The original wood windows were stored onsite. The original windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. Broken glass panes will be replaced in-kind and the windows will be given a general overhaul to ensure their long-term preservation. Any repair to the window frames, sashes or casings will be made by patching, splicing, consolidating or otherwise reinforcing. Following rehabilitation the original windows will be reinstalled. The windows will be painted in a color harmonizing with the paint palette of the house. 5. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match. 6. Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing.	2016
D. Masonry systems 1. Protect and maintain the brick entry stair 2. Preserve, restore, and reinforce the brick foundation 3. Protect and maintain brick chimney	Yes	1. Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters. 2. Re-point the exterior brick foundation. Following re-pointing the earth around the foundation will be graded to provide drainage so that water is not allowed to stand on flat, horizontal surfaces. 3. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2019
E. Roofing systems 1. Replace roof shingles 2. Replace or remove rain gutters	Yes	1. The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with code-compliant cedar shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was cedar shingle. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove the several extraneous roof vents. 2. The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the facial will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.	2020

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
F. Structural systems 1. Stabilize foundation 2. Stabilize and repair downstairs sub-flooring/floors	No	1. The existing brick foundation is spalling in areas - inspect and identify solution to stabilized foundation. The stabilization solution should not alter the historic character existing foundation. Any stabilization effort will attempt to maintain and protect the existing brick work. Replacements would match existing in details such as tooling and bonding patterns, and color. Repair according to industry standards and applicable building codes. 2. Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface. Repair according to industry standards and applicable building codes.	2022

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Structural 1. Repair garage beams and joists	No (not a capitalized expense)	1. Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed. Repair according to industry standards and applicable building codes.	2015
B. Exterior cladding 1. Repair garage siding	Yes (not a capitalized expense)	1. Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2015
C. Exterior doors and windows 1. Repair garage barn doors and track hardware	Yes (not a capitalized expense)	1. The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.	2015

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 3: HARDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Masonry systems 1. Protect and maintain brick driveway and retaining wall 2. Protect and maintain brick hardscaping / brick patio, fireplace, and paths (front and rear garden)	Yes	1. The brick retaining wall at the drive way was damaged at an unknown date (likely by repeated car strikes). Other sections of the brick retaining wall were inappropriately repaired; these alterations will be undone and repaired in and appropriate manner. The drive way is also in need of maintenance. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. 2. While much of the garden hardscaping is extant much of it is in need of re-pointing. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017
B. Masonry and plumbing systems 1. Repair back garden water feature	Yes (not a capitalized expense)	1. The water feature no longer functions. It is the focal point of the rear garden. Broken or missing brick will be replaced in-kind. Water supply and drainage will be reestablished; any demolition to the existing materials will be kept to a minimum and will be replaced in-kind. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. The concrete lining will be matched in color and texture. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 4: LANDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
A. Trees and plantings 1. Restore historic landscaping	Yes (not a capitalized expense)	1. Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams. Work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2011-2022

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

MAINTENANCE PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Exterior cladding and paint	Yes (not a capitalized expense)	1. Tri-annual paint inspection and maintenance/re-painting as necessary. Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."	2015, 2018, 2021

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Wood framing and sheathing	Yes (not a capitalized expense)	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found. Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the treatment of Historic Properties. This treament will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind." Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems... by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 3: HARDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Historic brick driveway, driveway apron, walkways, water feature, and outdoor fireplace	Yes (not a capitalized expense)	1. Annual inspections to monitor any additional movement and separation of bricks from mortar. Recommended treatment approach: "Repair of historic masonry may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 4: LANDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE *(Drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Landscaping and trees	Yes (not a capitalized expense)	1. Ongoing maintenance of trees and landscaping. "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include... vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

NOTES: MAINTENANCE PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

"Exhibit D"

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

REHABILITATION PLAN & FINANCIAL ANALYSIS

OVERVIEW OF SCHEDULE

1. Exterior cladding and architectural detail repairs	By 2013
2. Exterior paint repairs and repainting	By 2014
3. Exterior door and window repairs	By 2016
4. Masonry system repairs	By 2019
5. Roofing system upgrade and repairs	By 2020
6. Structural system upgrades and repairs	By 2022
7. Maintenance: Pruning and maintenance, trees and plantings, landscaping	Ongoing inspection
8. Maintenance: masonry inspection and repairs as needed, hardscape	Annual inspection
9. Maintenance: Wood framing inspection, termite mitigation, garage	Annual inspection
10. Maintenance: Paint inspection and repairs as needed, main residence	Tri-annual inspection

REPORTING SYSTEM

The Charles Gibbs Adams House owners, Brian and Cynthia Knight, will provide written updates to the City of South Pasadena every two years, documenting progress and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Exterior cladding and architectural detail repairs, main residence	$32,992	2013
B. Exterior paint repairs and repainting, main residence	$18,500	2014
C. Exterior door and window repairs, main residence	$18,117	2016
D. Masonry system upgrades and repairs, main residence	$11,710	2019
E. Roofing system repairs, new code-compliant cedar shingles, main residence	$70,000	2020
F. Structural system upgrades and repairs, main residence	$53,150	2022
TOTAL CAPITALIZED EXPENSES		**$204,469**

NON-CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Landscape, recreate historic planting scheme and irrigation	$15,000	2011-22
B. Structural system upgrades and repairs, garage	$9,575	2015
C. Exterior cladding repairs, garage	$905	2015
D. Exterior door and window repairs, garage	$3,760	2015
E. Hardscape repairs, water feature, back garden	$3,825	2017
F. Hardscape repairs, masonry and woodwook, front garden	$16,700	2018
TOTAL NON-CAPITALIZED EXPENSES		**$49,765**

TOTAL OUT-OF-POCKET INVESTMENT IN 919 PALM AVENUE	**$254,234**
TOTAL ESTIMATED TAX SAVINGS, 10-YEAR PERIOD	**$86,306**
AVERAGE ANNUAL COST TO THE CITY OF SOUTH PASADENA	**$1,388**

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Exterior wood cladding and architectural details 1. Repair front porch flooring 2. Repair damaged exterior shingles 3. Repair damaged exterior clapboards 4. Repair columns in attic dormer 5. Recreate missing front porch balconette railing 6. Recreate missing/altered crawlspace vent screens	Yes	1. Floor boards are splintered, have dry-rot, or are otherwise damaged. Replace damaged boards in-kind. Following repairs the boards will be painted to protect the wood. Paint should match the surrounding boards. 2. Repair damaged exterior shingles (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 3. Repair damaged exterior clapboards (including removal of extraneous vents as well as drain lines on rear elevation and under the sunroom) – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 4. Columns will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 5. Recreate missing balusters based on existing. Surviving rails will be used as prototypes to guide the overall form and detailing of the missing balusters. Replacement balusters will be crafted from wood, as are the existing, and attached to the balconette in a fashion similar to original. Repairs will be made prior to exterior painting. 6. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match.	2013
B. Exterior paint and protective coatings 1. Preserve and restore exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding, particularly for the second story shingles. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2014

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
C. Exterior doors and windows 1. Protect and maintain the front door 2. Protect and maintain the front screen door 3. Repair attic window 4. Repair sunroom windows 5. Remove non-original screens and replace with new tomatch the originals 6. Repair damaged leaded glass window in the north elevation	Yes	1. The existing original finish on the entry door will be maintained and protected. Currently, the beveled glass window is loose and will be secured. 2. The existing wood and metal screen door is sagging. The door will be re-hung. 3. Inspect and identify cause of the window's movement within the wall plane. The least invasive repairs will be made to the frame, sash and casing in order to stabilize the window. The window itself will not be removed or radically altered. Repairs will be made to the frame, sash and casing by patching, splicing, consolidating or otherwise reinforcing. Any material replacement will be made in kind. Repairs will be made prior to exterior painting. 4. At an unknown date the windows in the second story sunroom on the south elevation were replaced with those in a newer style sliding wood sash type. The original wood windows were stored onsite. The original windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. Broken glass panes will be replaced in-kind and the windows will be given a general overhaul to ensure their long-term preservation. Any repair to the window frames, sashes or casings will be made by patching, splicing, consolidating or otherwise reinforcing. Following rehabilitation the original windows will be reinstalled. The windows will be painted in a color harmonizing with the paint palette of the house. 5. Missing and/or altered crawlspace vent screens will be recreated based on the one surviving original existing vent (north east elevation, nearest the balconette). The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match. 6. Broken glass panes will be replaced in-kind and the lead caning will be given a general overhaul to ensure the long-term preservation of the window. Any repair to the window frame, sash or casing will be made by patching, splicing, consolidating or otherwise reinforcing.	2016
D. Masonry systems 1. Protect and maintain the brick entry stair 2. Preserve, restore, and reinforce the brick foundation 3. Protect and maintain brick chimney	Yes	1. Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters. 2. Re-point the exterior brick foundation. Following re-pointing the earth around the foundation will be graded to provide drainage so that water is not allowed to stand on flat, horizontal surfaces. 3. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2019
E. Roofing systems 1. Replace roof shingles 2. Replace or remove rain gutters	Yes	1. The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with code-compliant cedar shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was cedar shingle. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove the several extraneous roof vents. 2. The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the facial will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.	2020

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
F. Structural systems 1. Stabilize foundation 2. Stabilize and repair downstairs sub-flooring/floors	No	1. The existing brick foundation is spalling in areas – inspect and identify solution to stabilized foundation. The stabilization solution should not alter the historic character existing foundation. Any stabilization effort will attempt to maintain and protect the existing brick work. Replacements would match existing in details such as tooling and bonding patterns, and color. Repair according to industry standards and applicable building codes. 2. Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface. Repair according to industry standards and applicable building codes.	2022

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Structural 1. Repair garage beams and joists	No (not a capitalized expense)	1. Roof joists and cross beam has deteriorated and will need replacement. Roof structure is currently held in place with unbraced 4x4 posts. Joists have sagged significantly. New composition roofing and substrate will be installed. Repair according to industry standards and applicable building codes.	2015
B. Exterior cladding 1. Repair garage siding	Yes (not a capitalized expense)	1. Three inch shiplap siding has deteriorated significantly on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2015
C. Exterior doors and windows 1. Repair garage barn doors and track hardware	Yes (not a capitalized expense)	1. The barn door sliding hardware no longer functions correctly. Repair of the hardware will require removal and restoration of the track and wheels.	2015

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 3: HARDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Masonry systems 1. Protect and maintain brick driveway and retaining wall 2. Protect and maintain brick hardscaping / brick patio, fireplace, and paths (front and rear garden)	Yes	1. The brick retaining wall at the drive way was damaged at an unknown date (likely by repeated car strikes). Other sections of the brick retaining wall were inappropriately repaired; these alterations will be undone and repaired in and appropriate manner. The drive way is also in need of maintenance. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. 2. While much of the garden hardscaping is extant much of it is in need of re-pointing. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017
B. Masonry and plumbing systems 1. Repair back garden water feature	Yes (not a capitalized expense)	1. The water feature no longer functions. It is the focal point of the rear garden. Broken or missing brick will be replaced in-kind. Water supply and drainage will be reestablished; any demolition to the existing materials will be kept to a minimum and will be replaced in-kind. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. The concrete lining will be matched in color and texture. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods.	2017

REHABILITATION AND PRESERVATION PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 4: LANDSCAPE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Trees and plantings 1. Restore historic landscaping	Yes (not a capitalized expense)	1. Grounds of the property have suffered significantly from long-term neglect; so much so that only bulbs survive. A new planting plan, inspired by the documented work of Charles Gibbs Adams, is proposed. The proposed plantings will be guided by the hardscape (paths, patio, outdoor fireplace, fountain, and fencing) and make use of the existing bulbs. Additional plants will be added, as described above, based on documented work of Mr. Adams. Work underway. Guiding provisions of the Secretary of the Interior's Standards to be followed include: "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2011-2022

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Charles Gibbs Adams House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

MAINTENANCE PLAN: 919 PALM AVENUE, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Exterior cladding and paint	Yes (not a capitalized expense)	1. Tri-annual paint inspection and maintenance/re-painting as necessary. Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."	2015, 2018, 2021

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Wood framing and sheathing	Yes (not a capitalized expense)	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found. Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the treatment of Historic Properties. This treament will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind." Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems... by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 3: HARDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Historic brick driveway, driveway apron, walkways, water feature, and outdoor fireplace	Yes (not a capitalized expense)	1. Annual inspections to monitor any additional movement and separation of bricks from mortar. Recommended treatment approach: "Repair of historic masonry may consist of either patching the historic material or filling in with new material work to match the historic material. If replacement is necessary, duplication of historic materials and detailing should be as exact as possible to assure a repair that is functionally and aesthetically acceptable."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

AREA 4: LANDSCAPING

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties)*	SCHEDULE
1. Landscaping and trees	Yes (not a capitalized expense)	1. Ongoing maintenance of trees and landscaping. "Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include... vegetation such as trees, shrubs, fields, or herbaceous plant material; landforms such as terracing, berms or grading; furnishings such as lights, fences, or benches; decorative elements such as sculpture, statuary or monuments..." "Preserving important landscape features, including ongoing maintenance of historic plant material."	2012, 2013, 2014,2015, 2016, 2017, 2018, 2019, 2020, 2021

2025 PROGRESS REPORT

Progress Report

April 15, 2025

Owner:

Manyu Gao

18921 Bentley Place

Rowland Heights, CA 91748

Project Location: 325 Monterey Road (APN: 5311-012-037)

Dear Community Development Department,

I purchased the house on October 24, 2024. After received the request on late March, 2025, I contacted the previous owner's son, Sergio Santino, who was also in charge of the project construction team in Rehabilitation and Maintenance Plan. He was not aware of the progress report and the rehabilitation plan from 2009 to 2012. He did the maintenance and repairs of the house, but there were no building permits, no records of before and after photos from 2009 to 2012. Therefore, I will provide the most recent look of the house to prepare the report. Photos of the previous documentations of the house come from the website of the house, but some of them have no clear date and I use them only for references.

Sincerely,

Manyu Gao

Building Exterior

Wall Panels, Metals, Paint and Doors Conditions 2009

1. Holes in metal from previous fixtures &fittings
2. Inappropriate, surface-mounted electrical conduit on all elevations
3. Cracked/chipped glass
4. Detached aluminum corner cover
5. Non-original hanger rod mounted above windows
6. Detached aluminum corner cover
7. Damage due to “volunteer” trees & shrubs that have grown too close to the building
8. Textured coating patches
9. Paint investigation: Multiple paint layers including a thick coat of white sanded paint finish with at least 4 layers of colored finishes underneath.
    - The original green was a lighter green tone (Benjamin Moore# 2145-20)
    - The original white is a slightly off-white tone (Benjamin Moore OC-131)
    - Window and door frames were painted a mid-tone grey blue (Benjamin Moore #HC-159)
    - Original photographs indicate exterior door were significantly darker than the grey blue and avocado green
    - Some areas that were historically painted green are white
10. Based on the evidence shown in historic photographs, all original glazed exterior doors have been removed and replaced with inappropriate hollow-core flush wood doors

Wall Panels, Metals, Paint and Doors Conditions 2025

1. All exterior paint finishes on the aluminum wall have been carefully removed
2. Following paint removal, the exposed aluminum panels have been inspected
3. Holes on the exposed aluminum surfaces have been patched and fixed
4. Cracked/chipped glass have been replaced
5. Detached aluminum corner cover has been realigned
6. Explored wirings, conduits, hangar rod and other inappropriate fixtures have been removed
7. Trees & shrubs that have grown too close to the building have been removed
8. The look of the exterior wall is showing the airplane aluminum looking

Rehabilitation have not been done:

1. After removal the existing paint, the wall surface have not been painted to the historic photographs using colors that match the historic finishes; window frames have been painted a mid-tone grey and doors have been painted a light blue
2. The exterior door from the east entrance have been replaced with a glazed door; the door from the south entrance is still a wood door.

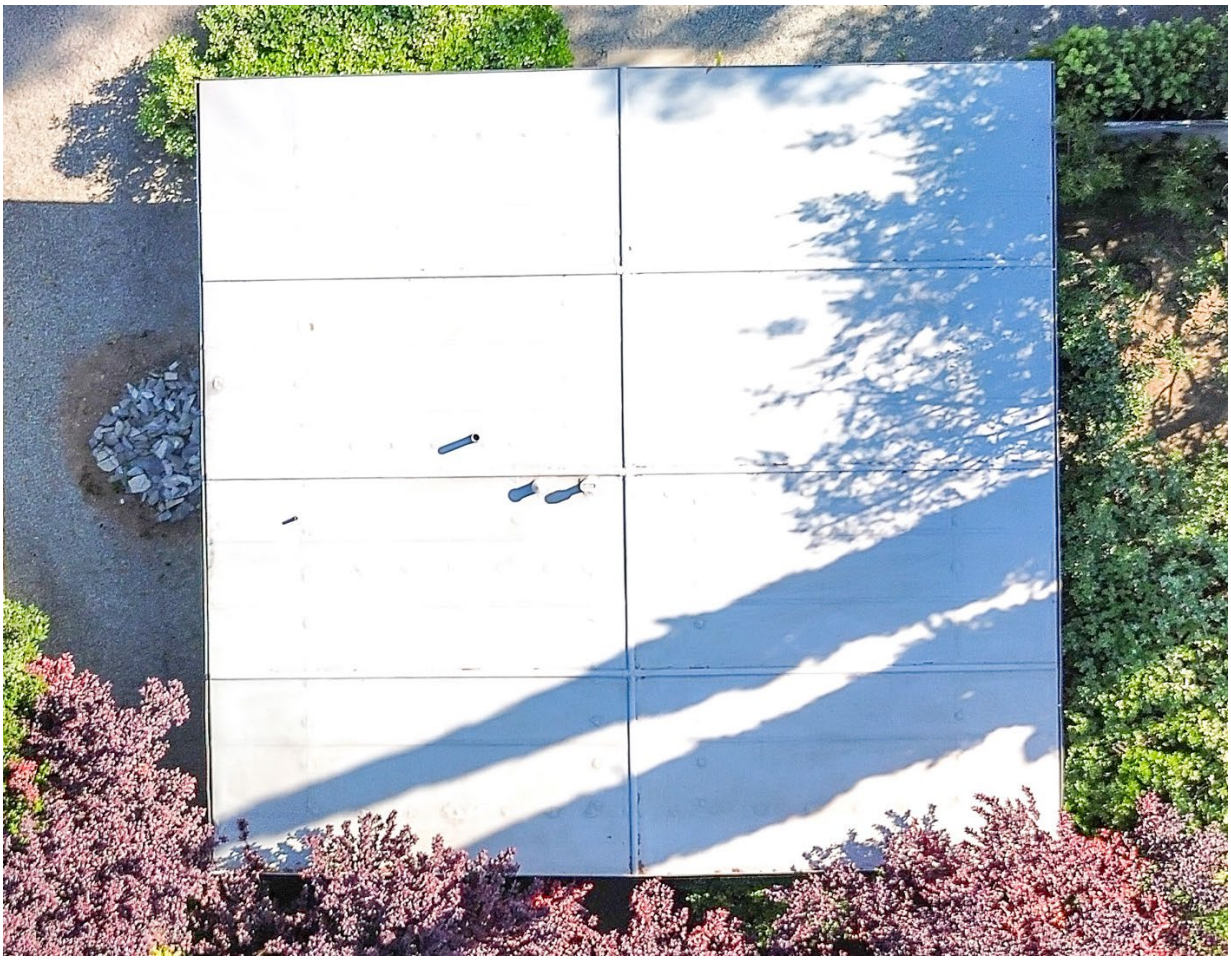
Photos courtesy of the new owner, south elevation living room windows and entrance door, April 2025.

Photos courtesy of the new owner, east elevation dining room windows and entrance door, April 2025.

Roof Condition 2009



1. The roof is similar to its walls, employing aluminum-cardboard composite panels, and a coated, single-ply roof membrane is present above the panels
2. The roof has a shallow pitch with gutters located at the east and west ends
3. The roof is not insulated
4. Supplemental posts have been added to support the eaves at the eastern corners
5. Branches from “volunteer” tree have led to a damaged and displaced eave at the northeast corner of the building
6. Sagging soffit at the south east corner. The sagging appears to be a delamination of the aluminum sheet from the cardboard core as opposed to the whole panel sagging
7. Gutters clogged with leaves and other debris
8. Water staining is present at the ceilings within the building and leakage has been reported

Roof Condition 2025

1. Damaged panels have been repaired
2. Existing gutters have been cleaned and repaired
3. Branches that damage the roof have been removed
4. Water staining and leakage problem have been solved
5. A layer of Gaco silicone monolithic membrane applied over the aluminum panels

Photos courtesy of the Fleet House website, roof panels, Discovery, Restoration and Landmarked 2009-2015.

Photos courtesy of the new owner, roof panels, April 2025.

Building Interior

Kitchen Condition 2009

1. Inappropriate modern plumbing fixture
2. Wear on the sink and countertop surfaces
3. Changes to original finishes including paint scheme and flooring

Kitchen Condition 2025

1. Retained all existing historic features including cabinets, cabinet handles and cupboards
2. Reglazed sink, replaced faucet with period appropriate
3. Repaired countertop, refinished aluminum edge
4. Strip painted from the original hardware and re-installed
5. Old floor was removed and installed appropriate flooring based on documented evidence
6. Replaced old appliances with new gas appliance of the stove
7. Replaced old refrigerator with new one

Photos courtesy of the new owner, kitchen interior, April 2025.

Photos courtesy of the new owner, kitchen interior, April 2025.

Bathroom Condition 2009

1. water damage to wall panels above the bathtub
2. corrosion of steel window
3. deteriorated tub finish, sealant and shower door
4. inappropriate modern plumbing fixtures
5. deteriorated floor and wall finishes
6. inefficient water heater

Bathroom Condition 2025

1. Repaired water damaged wall
2. Corrosion of steel window has been fixed, plumbing fixtures and shower door have replaced
3. Repainted all the walls, ceiling and floor
4. Curtain rods have been removed
5. Holes on the wall panel have been repaired
6. Replaced water heater

Photos courtesy of the new owner, bathroom interior, April 2025.

Living Room Condition 2009

1. Minor staining of the ceiling
2. Deteriorated carpet
3. Inappropriate blinds
4. Non-functioning air conditioning and heat
5. Existing electrical outlets & covers needed to replace
6. Replace built-in stereo system speaker in living room

Living Room Condition 2009

1. Removed old carpet
2. Repainted all the walls, ceiling and floor
3. Removed curtain rods and repaired holes in the wall panels.
4. Central air-conditioning with cooling and heating function has been installed
5. Replaced outlets & covers
6. Added smoke detectors

Rehabilitation have not been done:

1. Built-in stereo system speaker hasn't been replaced

Photos courtesy of the new owner, living room interior, April 2025.

Photos courtesy of the new owner, living room interior, April 2025.

Photos courtesy of the new owner, bedroom 1 interior, April 2025.

Photos courtesy of the new owner, bedroom 2 interior, April 2025.

Site Condition 2009

1. Overgrown trees and brushes located close to house
2. Displaced and broken concrete pavers
3. Non-original features such as brick planter box and gravel drive
4. Moveable aluminum enclosure is over 50% deteriorated
5. Remove damaged aluminum panel “garden wall”, salvage garden storage locker
6. Remove gravel to south of house
7. Remove and salvage precast concrete pavers
8. Remove deteriorate concrete driveway
9. Remove painter box
10. Remove landscape steps to west of house
11. Clear unwanted planting and weeds

Site Condition 2025

1. Removed and trimmed overgrown trees and brushes damaging the house
2. Broken concrete pavers have been replaced
3. Brick planter box and gravel drive have not been removed
4. Half of the aluminum panel “garden wall” has been removed, the rest and the storage locker are still exist
5. The painter box has been removed
6. Landscape steps to the west of house has been removed
7. New mailbox as signage
8. Concrete wall facing the street painted with smooth stucco
9. Unwanted planting and weeds have been cleared
10. Installed new xeriscape garden and plantings
11. Installed new bamboo wall fencing to the west of house, new tree wall fencing to the south of the house

Rehabilitation have not been done:

1. Install new aluminum panel “garden wall” in modified location. Reinstall salvaged garden storage locker, provide new wood deck
2. Gravel to the south of house have not been removed
3. Install grass and concrete hardscape to the east of house
4. Re-install salvaged precast concrete pavers in gravel as pathway to west and north of house
5. Install new driveway
6. Install new lawn
7. Install new landscape steps at new location to west of house
8. Install new concrete block wall.
9. New wood benches and wood deck

TITLE

Mills Act Contract - City of So. Pas + Martha Sactuno

4/4

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 17th day of December 2014, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Martha Santino ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 325 Monterey Road , South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 51 , attached hereto marked "Exhibit B". The home was a prototype model for postwar prefabricated housing. Henry Dreyfuss, the principal designer of the residence, was a world renowned industrial designer. The Fleet House is considered an "educational treasure". It is one of only two prototypes that were built and the only one of its type to be built in an aircraft factory using aircraft technology and materials. It was designed specifically for the Southern California climate and is the only one of its type in the City of South Pasadena or in existence anywhere else;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 17, 2014 and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. For the first five years of the Agreement only, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this

Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The maximum term of this Agreement, including any automatic renewals, shall not exceed 15 years from the effective date. The automatic renewal provision shall not apply to add an additional year to the Agreement after the initial five years of the term. If the City desires within the first five years not to automatically renew this Agreement, City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date within the first five years. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena (including the specific recommendations of the Cultural Heritage Commission), attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with

the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Martha Santino
430 S Greenwood Avenue
Pasadena, CA 91107

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of

whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

(Rev. 11/17/04)

RESOLUTION NO. 7051

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ADDING 325 MONTEREY ROAD TO THE CITY'S CULTURAL HERITAGE INVENTORY AND DESIGNATING THE "FLEET HOUSE" AS A CULTURAL HERITAGE LANDMARK (LANDMARK NO. 51)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance No. 2004 ("Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Commission to register the "Fleet House" located at 325 Monterey Road as a landmark; and

WHEREAS, the research and documentation provided by Commission members Glen Duncan and John Lesak amply demonstrate the qualifications of the property to be a designated Landmark; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, an accredited architectural historian has documented the "Fleet House" on the statewide standardized format, the California State Department of Parks and Recreation's DPR 523A Form; and

WHEREAS, the Cultural Heritage Commission ("CHC") voted to recommend designation of this property on May 25, 2006 and forwarded the recommendation to the City Council; and

WHEREAS, the City Council held a public hearing on the proposed designation on May 20, 2009 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Based on the evidence presented in the Staff Report, Minutes and other record of proceeding, the City Council hereby approves the addition of 325 Monterey Road to the South Pasadena Inventory of Historic Resources, and designates the "Fleet House" as official Historic Landmark Number 51.

SECTION 2. The City Council considered the designation criteria contained in the Cultural Heritage Ordinance as follows:

1. ***Its character, interest, and value as part of the heritage of the community***
   This unique dwelling was a prototype model for postwar prefabricated housing constructed in the Consolidated Vultee Aircraft factory in Downey California in 1949 (Consolidated Vultee later became Convair Corporation, then General Dynamics). Henry Dreyfuss, a principal designer of the residence, was not only a world renowned industrial designer with offices in South Pasadena and New York City, but he also resided at 500 Columbia Street in South Pasadena. The building thus serves as an educational treasure marking local cultural and technological contributions to the world at large and at the same time standing as an irreplaceable example of one local talent's prodigious creative output.

2. ***Its exemplification of a particular architectural style of an era of history of the city***
   A number of federal programs were set in motion to meet the enormous postwar demand for housing and jobs. The Henry Dreyfuss-Consolidated Vultee Aircraft model prefab home at 325 Monterey Rd is the product of one such effort- the Guaranteed Market Program of 1946. Designed in the contemporary/International Style by Henry Dreyfuss and Architect Edward Barnes, it bears close affinity to the Southern California Case Study houses of the same era. It was one of only two prototypes that were built and the only one of its type to be built in an aircraft factory using aircraft technology and materials. It was designed specifically for the Southern California climate and is the only one of its type in the city of South Pasadena or in existence anywhere else, for that matter.

3. ***Its identification as the work of a person whose work has influenced the heritage of the city, the State of California and the United States***
   Henry Dreyfuss, designer of the Consolidated Vultee-built, prefabricated model home for Southern California Homes, Inc., was one of a handful of industrial designers who led a paradigm shift in

American and international design. The previous pattern was to bring in designers to pretty-up or decorate products that had already been conceived and developed by engineers and manufacturers. Dreyfuss, and a few others, such as Raymond Loewy, pioneered in coalescing design, engineering and manufacturing at the conceptual stage of product development.

By the 1960s and at least through the 1970s, virtually every American home and office contained Dreyfuss designed products. They included dial, pushbutton and princess telephones, fountain pens, typewriters, clocks, sewing machines, air conditioners, refrigerators, irons, razors and Polaroid cameras. He was a design consultant for airplanes, including the Lockheed Super Constellation; for ocean liners, including the SS Independence and the SS Constitution; and for trains, including the 20th Century Limited.

4. ***Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials and craftsmanship***
The following are excerpts from an article in Arts and Architecture (Sept, 1947): "The house…is built of extraordinary material that is strong, lightweight and economical. Its design takes every advantage of mass production techniques and is planned with a real understanding of the living needs of the average American family." Henry Dreyfuss added, "The house is...an example of how mass production products must be designed. For on this house first rate minds in every field were focused. We as designers made every effort to work with the company, not over them. Aircraft engineers, chemists, production designers all contributed, and in a real sense governed the final design as much as we did."

SECTION 3. The City Council directs the City Clerk to file the appropriate designation with the Los Angeles County Registrar-Recorder/County Clerk's office.

PASSED, APPROVED AND ADOPTED ON this 20th day of May, 2009.

David Sifuentes, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 20th day of May, 2009, by the following vote:

AYES: Cacciotti, Putnam, Schneider, Ten and Mayor Sifuentes

NOES: None

ABSENT: None

ABSTAINED: None

INTRODUCTION

The Fleet Home is a 1-story, single-family residence designed in a simple, pre-fabricated Mid-Century Modern style. The square-plan building is constructed of lightweight, honeycombed cardboard and sheet aluminum composite panels that are covered with a sand and stucco finish. Designed by industrial designer Henry Dreyfuss and architect Edward L. Barnes, with landscape by Garret Ekbo, the prefabricated building was built in the Consolidated Vultee Aircraft Corporation's factory and transported to its current site in 1947.

The Fleet Home is a unique example of mid-century prefabrication technology. While it's masterful design and association with transformative ideas (mass-produced housing) and patterns of history (post World War II residential development) make the building historically significant, its materials and construction are a historic preservation challenge. After all, there are not many sixty-year old buildings with walls and roof made of cardboard and sheet aluminum.

The following document outlines rehabilitation and preservation priorities for the building and is intended to serve as Part 2 of the Mills Act application. The plan describes the existing conditions of the house, outlines proposed rehabilitation treatments, includes applicable guidelines from the Secretary of the Interior's Standards & Guidelines for the Rehabilitation of Historic Properties, and provides a preliminary cost estimate of repairs.

THE FLEET HOME - HISTORY AND DESCRIPTION

In the late 1940s, famed industrial designer Henry Dreyfuss, architect Edward Larrabee Barnes, and various aircraft designers collaborated on the "Vultee", a prototype prefabricated aluminum structure. Built in the Consolidated Vultee Aircraft Company factory and transported to its current site at 325 Monterey Street in South Pasadena, the building is the only house known to be pre-assembled in an aircraft factory. The building's walls and roof are composed entirely of lightweight, honeycombed cardboard and sheet aluminum composite panels. The panels were originally used in the construction of bulkheads for World War II bomber aircraft.

Dreyfuss, a celebrity designer, is best known for his signature designs of the rotary-dial telephone for Bell Laboratories and the Honeywell circular wall thermostat. Dreyfus's fascination with assembly-line production (from his design work for mass production in the 1930s) was critical to the development of the Vultee. The structure took full advantage of assembly line production, reducing the on-site building of components by using pre-assembled wall sections.

Barnes was at the beginning of a notable architecture career when he collaborated with Dreyfus. The two men worked on the design out of Dreyfus' studio in South Pasadena. Barnes contributed an innovative scheme to break up the repetition of houses, problematic in contemporary developments such as Levittown, with moveable L-shaped patio walls.

The Vultee program was sold to Southern California Homes, Inc. The house is currently referred to as the Fleet Home, after Reginald Fleet, owner of Southern California Homes. To promote sales of the unusual home, Fleet actually lived in the house for a year with his family, offering it as a model of modern living. Unfortunately despite the favorable press, sales never got off the ground and only two prototypes were made.

The history and significance of the Fleet Home is covered in other documents. These include:

- "House in a Factory by Henry Dreyfuss, Designer, and Edward L. Barnes, Architect." Arts & Architecture , September, 1947, Pages 31-39. This important source contains a description of the house with plans and construction details, as well as original photographs by Julius Shulman, which are used as reference throughout this report.
- Local Landmark designation report completed by Jeffery Head, Architectural Historian
- California Historical Resource Status Department of Parks and Recreation (DPR) form (primary record form) which includes an architectural description, photograph and conditions assessment, completed by Page & Turnbull, Inc.
- Other publications and online sources including:
  - "Henry Dreyfuss, Industrial Designer, The Man in the Brown Suit" by Russell Flinchum (Rizzoli, 1997).
  - "Snatched from Oblivion" Article in Metropolismag.com. Posted by Jeffery Head, October 11, 2006 http://www.metropolismag.com/story/20061011/snatched-from-oblivion
- Numerous articles and advertisements in the Los Angeles Times chronicling the house from 1948 to 1950

In 2006, the property was put up for sale. Dilapidated and texture-coated to the point that the panelized construction was no longer discernable, the Fleet house was offered as a tear-down on a parcel that could be re-developed into a significantly larger home. Fortunately, architectural historian and journalist Jeffrey Head recognized the structure's significance. Working with the Los Angeles Conservancy's Modern Committee, the property was submitted to receive local landmarked status while in escrow. Despite the property owner's objections, the Landmarks Subcommittee of the South Pasadena Cultural Heritage Commission recommended the Fleet Home for local landmark status, a recommendation agreed to by the whole Commission.

The process was aided by open-minded buyers, Sonia and Sergio Santino, who agreed to keep and rehabilitate the Fleet Home and integrate it into any future development on the property. On May 20, 2009, the Fleet Home was designated South Pasadena's 51st Cultural Heritage Landmark.

THE SECRETARY OF THE INTERIOR'S STANDARDS FOR REHABILITATION

The Secretary of the Interior is responsible for establishing standards for all programs under Departmental authority and for advising Federal agencies on the preservation of historic properties listed in or eligible for listing in the National Register of Historic Places.

The Standards for Rehabilitation (codified in 36 CFR 67 for use in the Federal Historic Preservation Tax Incentives program) address the most prevalent treatment. "Rehabilitation" is defined as "the process of returning a property to a state of utility, through repair or alteration, which makes possible an efficient contemporary use while preserving those portions and features of the property which are significant to its historic, architectural, and cultural values."

Initially developed by the Secretary of the Interior to determine the appropriateness of proposed project work on registered properties within the Historic Preservation Fund grant-in-aid program, the Standards for Rehabilitation have been widely used over the years--particularly to determine if a rehabilitation qualifies as a Certified Rehabilitation for Federal tax purposes. In addition, the Standards have guided Federal agencies in carrying out their historic preservation responsibilities for properties in Federal ownership or control; and State and local officials in reviewing both Federal and nonfederal rehabilitation proposals. They have also been adopted by historic district and planning commissions across the country.

The intent of the Standards is to assist the long-term preservation of a property's significance through the preservation of historic materials and features. The Standards pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and interior of the buildings. They also encompass related landscape features and the building's site and environment, as well as attached, adjacent, or related new construction. To be certified for Federal tax purposes, a rehabilitation project must be determined by the Secretary to be consistent with the historic character of the structure(s), and where applicable, the district in which it is located.

As stated in the definition, the treatment "rehabilitation" assumes that at least some repair or alteration of the historic building will be needed in order to provide for an efficient contemporary use; however, these repairs and alterations must not damage or destroy materials, features or finishes that are important in defining the building's historic character. For example, certain treatments--if improperly applied--may cause or accelerate physical deterioration of the historic building. This can include using improper repointing or exterior masonry cleaning techniques, or introducing insulation that damages historic fabric. In almost all of these situations, use of these materials and treatments will result in a project that does not meet the Standards. Similarly, exterior additions that duplicate the form, material, and detailing of the structure to the extent that they compromise the historic character of the structure will fail to meet the Standards.

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

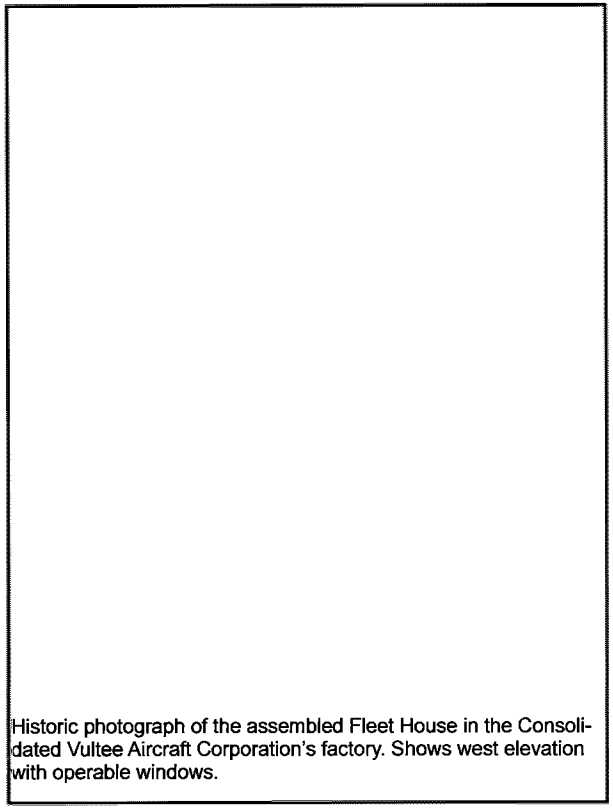
1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.



6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

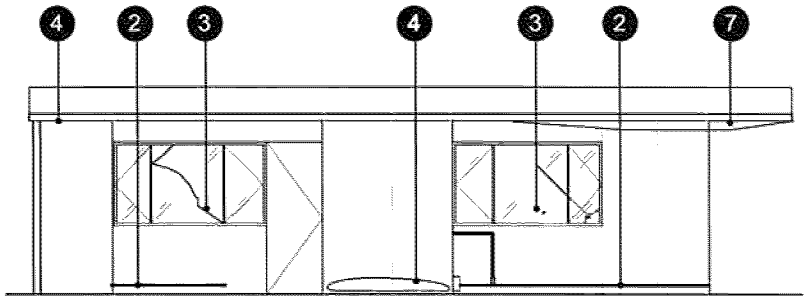
BUILDING EXTERIOR

- WALL PANELS
- PAINT
- ROOF
- DOORS
- WINDOWS

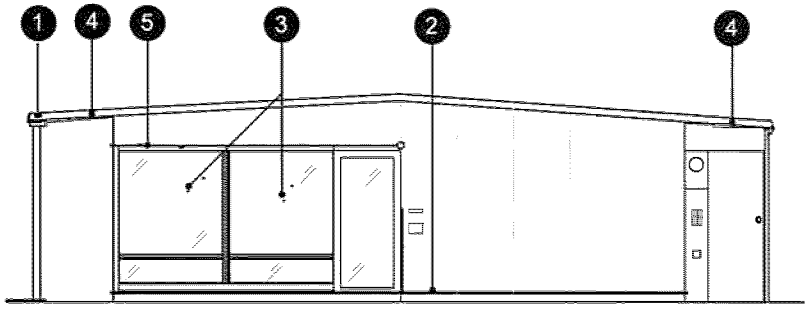
BUILDING EXTERIOR - WALL PANELS



EXISTING CONDITIONS

Visual assessment of the prefabricated aluminum wall panels revealed the following conditions which need to be addressed:

1. Holes in metal from previous fixtures & fittings
2. Inappropriate, surface-mounted electrical conduit on all elevations
3. Cracked/chipped glass
4. Delaminating, bulging and bowing aluminum skin
5. Non-original hanger rod mounted above windows
6. Detached aluminum corner cover
7. Damage due to "volunteer" trees & shrubs that have grown too close to the building (see Building Site).
8. Textured coating patches



TREATMENTS

- Carefully strip all exterior paint finishes using gentlest means possible (see Building Exterior – Paint).
- Following paint removal, inspect the exposed aluminum.
- Patch holes in the aluminum with compatible resin-based filler. Sample installation of fillers will be mocked-up, so that the most appropriate material can be selected. Given the nature of the panels, we likely will be looking to the automobile and airplane industries for repair materials. We foresee researching / testing epoxy, polyester, and fiberglass patching materials.
- Based upon our inspection, in areas of suspected panel delamination (separation between the aluminum skin and the cardboard core), drill small holes and inject adhesive; apply pressure to surface to realign aluminum skin.
- Remove conduits, hangar rod and other inappropriate fixtures/fittings; fill holes; relocate wiring to the original pathways built into the panels themselves (see historic lower panel section drawing, right)
- As found feasible, straighten and re-attach aluminum corner cover or install new cover to match existing.

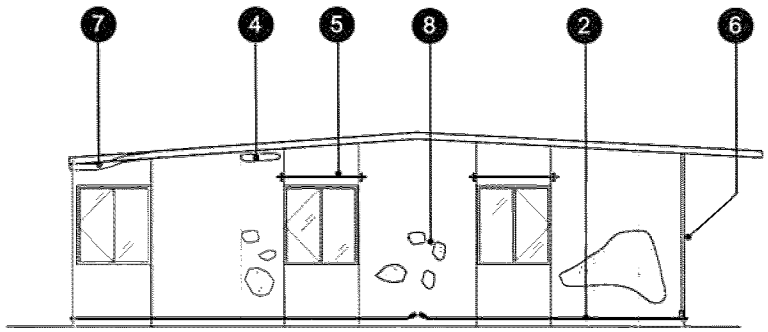
2

Contemporary photograph of inappropriate electrical conduits adjacent to the south entrance.

BUILDING EXTERIOR-METALS

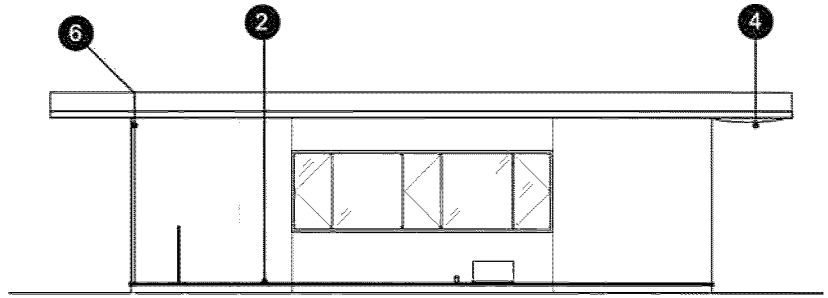
EXISTING CONDITIONS



Visual assessment of the prefabricated aluminum wall panels revealed the following conditions which need to be addressed:

1. Holes in metal from previous fixtures & fittings
2. Inappropriate, surface-mounted electrical conduit on all elevations
3. Cracked/chipped glass
4. Delaminating, bulging and bowing aluminum skin
5. Non-original hanger rod mounted above windows
6. Detached aluminum corner cover
7. Damage due to "volunteer" trees & shrubs that have grown too close to the building (see Building Site).
8. Textured coating patches

APPLICABLE STANDARDS



Paraphrasing, the *Secretary of the Interior's Standards & Guidelines for Rehabilitating Historic Properties* recommend the following for the treatment of exterior architectural metal:

- Cleaning metals to remove corrosion or soiling before repainting.
- Applying appropriate paint or coating after cleaning in order to decrease the corrosion rate of the alloy.
- Repairing architectural metal features by patching, splicing, or otherwise reinforcing; and limited replacement in kind - or with a compatible substitute material - of extensively deteriorated or missing parts when there are surviving prototypes.

NORTH ELEVATION

Section from the historic blue prints illustrating anchoring system.

BUILDING EXTERIOR - PAINT

EXISTING CONDITIONS

Currently the Fleet House is covered in a sanded white paint meant to imitate stucco, with green accents surrounding the windows, which are painted in the same shade. Though the current color scheme follows the basic design of the historic color scheme, the stucco finish is innapropriate and the subtelties of color evident in historic photographs has been lost.

Comparisons of various views of the house formed the basis for a paint investigation, discussed on the following page.

Comparative contemporary photograph showing the east elevation.

Comparative historic photograph showing the east elevation.

Comparative historic photograph showing the south elevation entrance and patio space.

Comparative contemporary photograph showing the south elevation living room windows.

Comparative historic photograph showing the south elevation living room windows.

Comparative contemporary photograph showing the south east corner.

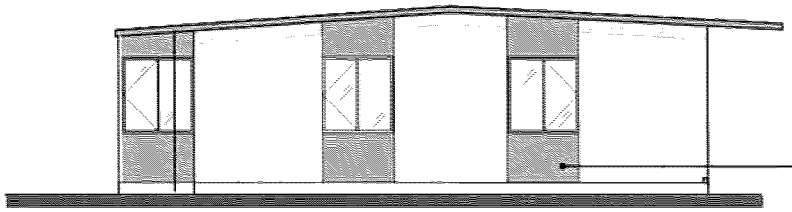
Comparative historicphotograph showing the south east corner.

BUILDING EXTERIOR - PAINT

PAINT INVESTIGATION

An investigation of exterior finishes was conducted. Small areas of exterior paint throughout the structure were removed to observe original paint layers and colors. Chemical paint removal was also field-tested using non-acidic chemical strippers that are compatible with aluminum. The investigation revealed the following:

- Multiple paint layers including a thick coat of white sanded paint finish with at least 4 layers of colored finishes underneath.
  - The original green was a lighter green tone (Benjamin Moore# 2145-20)\
  - The original white is a slightly off-white tone (Benjamin Moore OC-131)
  - Window and door frames were painted a mid-tone grey-blue (Benjamin Moore # HC-159)
  - Original photographs indicate exterior doors were significantly darker than the grey blue and avocado green
  - Some areas that were historically painted green are white



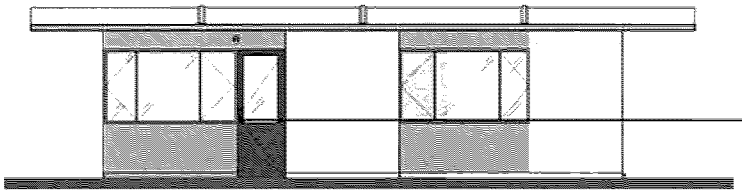
TREATMENTS

- Strip exterior finishes using aluminum compatible methylene chloride ("Aircraft Remover") and non-scratching plastic scrapers
- Assess metal condition and treat holes according to recommendations outlined for exterior metal (see *Building Exterior – Metals*)
- Repaint wall surface according to historic photographs using colors that match the historic finishes
- Repaint windows and doors to match original colors
- As found feasible, straighten and re-attach aluminum corner cover or install new cover to match existing.

APPLICABLE STANDARD

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatment of exterior paint:

- Repainting with colors that are appropriate to the historic building



NORTH ELEVATION

0 2 4 8 FT

Contemporary photograph of the north paint invetigation area.

EAST ELEVATION

0 2 4 8 FT

Contemporary photograph of the east paint invetigation area.

SOUTH ELEVATION

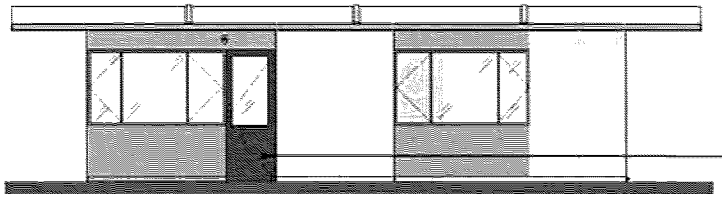
0 2 4 8 FT

Contemporary photograph of the south paint investigation with color swatch for comparison.

BUILDING EXTERIOR - DOORS

EXISTING CONDITIONS

Based on evidence shown in historic photographs, all the original glazed exterior doors have been removed and replaced with inappropriate modern hollow-core flush wood doors.



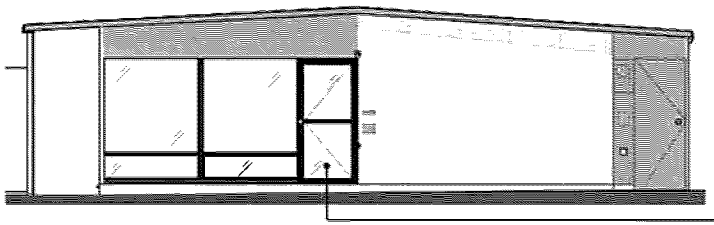
TREATMENTS

- Replace the existing south elevation door with a glazed door to match the historic documentation.
- Replace the existing east elevation door with a historically appropriate partially-glazed door to match the historic documentation.

APPLICABLE STANDARDS

The *Secretary of the Interior's Gudielines for Rehabilitation* recommend the following treatment of missing exterior features:

- Designing and installing a new feature when the historic feature is completely missing. It may be an accurate restoration using historical, pictorial, and physical documentation.



EAST ELEVATION

0 2 4 8 FT

Comparative contemporary photograph of the east entrance.

Comparative historic photograph of the east entrance.

SOUTH ELEVATION

0 2 4 8 FT

Comparative contemporary photograph of the south entrance.

Comparative historic photograph of the south entrance.

BUILDING EXTERIOR - ROOF

EXISTING CONDITIONS

Extant Construction is described as follows:

- The fleet house roof is similar in construction to its walls, employing aluminum-cardboard composite panels. The roof panels are approximately 1-inch thicker than the wall panels.
- Currently, a coated, single-ply roof membrane is present above the panels.
- Three equally-spaced ridges are present atop the roof. We believe the ridges are structural in nature; however, exploratory demolition is required to determine the exact nature of the construction and whether or not the ribs are original to the building.
- The roof has a shallow pitch with gutters located at the east and west ends.
- The roof is not insulated.
- Supplemental posts have been added to support the eaves at the eastern corners

Visual assessment of the roof revealed the following conditions:

- Branches from "volunteer" tree have led to a damaged and displaced eave at the northeast corner of the building.
- Sagging soffit at the south east corner. The sagging appears to be a delamination of the aluminum sheet from the cardboard core as opposed to the whole panel sagging.
- Gutters clogged with leaves and other debris.
- Water staining is present at on ceilings within the building (especially at the underside of the living room ceiling) and leakage has been reported by the building's tenant. It is likely that panel seams are open below the roof membrane – or – that the aluminum sheet facing is punctured. Possible open seams causing leakage to the interior.
- The building tenant reports unregulated interior temperature due to lack of insulation.

Contemporary photograph of one of the roof ridges.

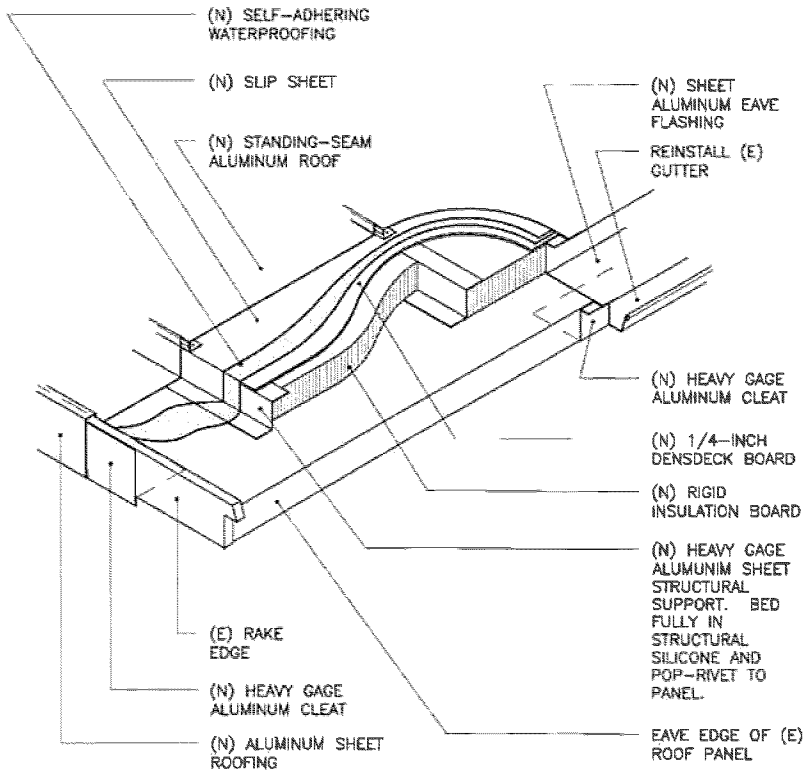
Contemporary photograph of the clogged gutters.

Contemporary overall photograph of the roof.

BUILDING EXTERIOR-ROOF

EXISTING CONDITIONS

- Additional Investigation & Design:
- Inspection openings at the damaged eave to determine condition of cardboard core.
- Inspection opening to determine the nature of roof "ribs"
- Removal of existing roofing to determine condition of upper aluminum sheet facing.
- Structural testing of composite panel sample (taken from damaged eave or damaged fence)
- Structural analysis of roof to determine need for additional roof structure – removal of supplemental roof post is desired.



TREATMENTS

- Repair damaged northeast eave or replace damaged northeast eave in-kind using new aluminum composite sandwich panel similar to the existing construction.
- Install new sheet aluminum roof covering.
- Depending upon structural analysis, install insulation and integral supplemental structural support. Refer to conceptual detail.
- Clean and repair existing gutters

APPLICABLE STANDARDS

The Secretary of the Interior's Guidelines for Rehabilitation recommend the following treatment of historic roofs:

- Protecting and maintaining a roof by cleaning and maintaining the gutters and downspouts.
- Repairing a roof by reinforcing the historic materials which comprise roof features.
- Replacing in kind an entire feature of the roof that is too deteriorated to repair.

AXONOMETRIC DRAWING OF CONCEPTUAL ROOF REHABILITATION

Contemporary photograph of sagging soffits and supportive roof post in the southeast corner.

Contemporary photograph of sagging soffits and supportive roof post in the southeast corner.

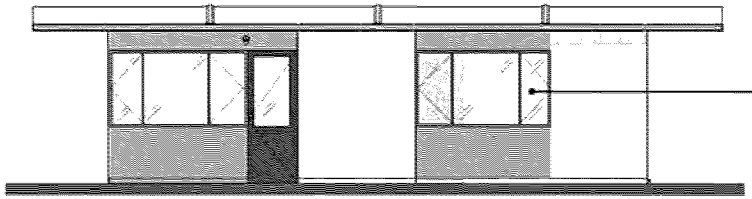
Contemporary photograph of the clogged gutters.

BUILDING EXTERIOR-WINDOWS

EXISTING CONDITIONS

An assessment of the steel windows revealed the following conditions:

- Peeling paint and exposed metal at Protecting steel sash and window frames.
- Holes/chips in the plate glass windows of the south elevation.
- Broken window panes on both windows of the east elevation.

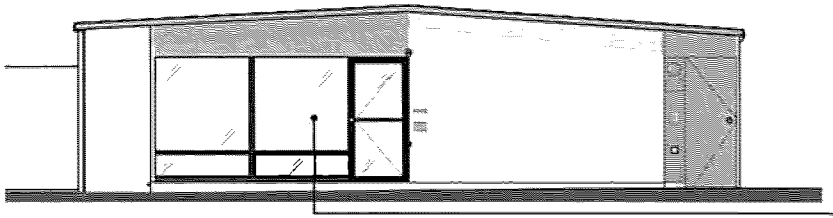


TREATMENTS

- Strip existing paint from steel windows and repaint using historically appropriate colors (see *Building Exterior – Paint*)
- Replace chipped and cracked glass panes with new.
- Clean and oil hardware and ensure operability.

APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatment of historic windows:



- Identifying, retaining and preserving windows – and their functional and decorative features – that are important to defining the overall historic character of the building.
- Protecting and maintaining the wood and architectural metals which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems.

BUILDING INTERIOR

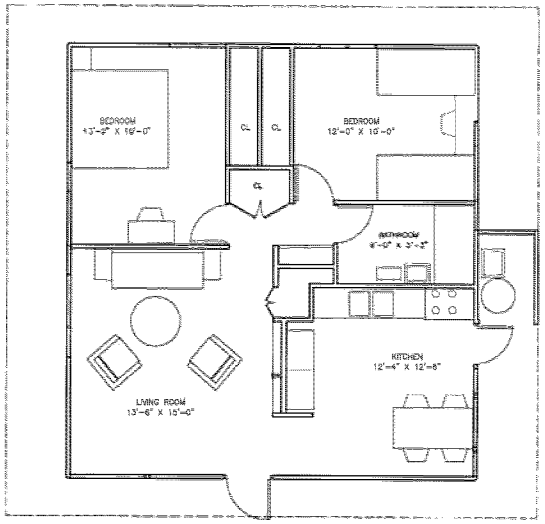
- KITCHEN
- BATHROOM
- LIVING ROOM
- MECHANICAL
- LIGHTING
- PLUMBING

BUILDING INTERIOR-KITCHEN

EXISTING CONDITIONS

The kitchen of the Fleet Home is little changed since its construction in 1949, as evidenced by a photograph from the period (center, right). Original cabinets, cupboards, counter tops and sink are extant and contribute to the overall historic character of the space. An assessment of the kitchen revealed the following conditions:

- Inappropriate modern plumbing fixture.
- Wear on the sink and countertop surfaces
- Changes to original finishes including paint scheme and flooring.



TREATMENTS

- Retain all existing historic features including cabinets, cabinet handles and cupboards.
- Reglaze sink, replace faucet with period appropriate.
- Repair countertop, refinish aluminum edge.
- Strip paint from original hardware and re-install.
- Conduct further investigation of finishes to determine original paint scheme.
- Remove existing flooring and install appropriate flooring based on documented evidence.
- Replace existing appliances with new Energy Star rated appliance more in character (and scale) of the original stove and refrigerator

APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of historic interior spaces:

- Identifying, retaining and preserving windows – and their functional and decorative features – that are important to defining the overall historic character of the building.

FLOOR PLAN

Comparative contemporary photograph of the kitchen interior.

Historic photograph of the kitchen interior.

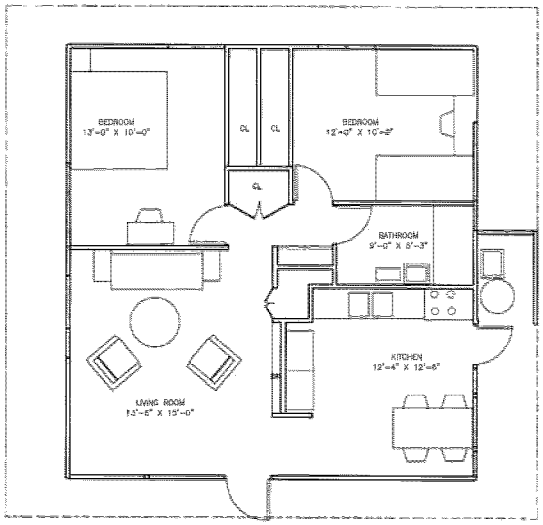
Comparative contemporary photograph of the kitchen interior.

BUILDING INTERIOR-BATHROOM

EXISTING CONDITIONS

The bathroom of the Fleet Home retains its historic configuration and features many original features including it's bathtub, sink area hardware and mirror, and built-in shelves (see historic photo). An assessment of the bathroom revealed the following conditions:

- Water damage to wall panels above the bathtub.
- Corrosion of steel window
- Deteriorated tub finish, sealant and shower door
- Inappropriate modern plumbing fixtures
- Deteriorated floor and wall finishes



TREATMENTS

- Retain all existing historic features.
- Repair or replace in kind water damaged wall panels
- Reglaze and reseal seal tub and shower
- Improvements to plumbing fixtures and shower door will take into account historically appropriate design.
- Conduct further investigation of finishes to determine original paint scheme.
- Remove existing flooring and install appropriate flooring based on documented evidence.
- Remove existing flooring and install appropriate flooring based on documented evidence.

APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of historic interior spaces:

- Identifying, retaining and preserving windows – and their functional and decorative features – that are important to defining the overall historic character of the building.

FLOOR PLAN

Comparative historic photograph of the bathroom interior.

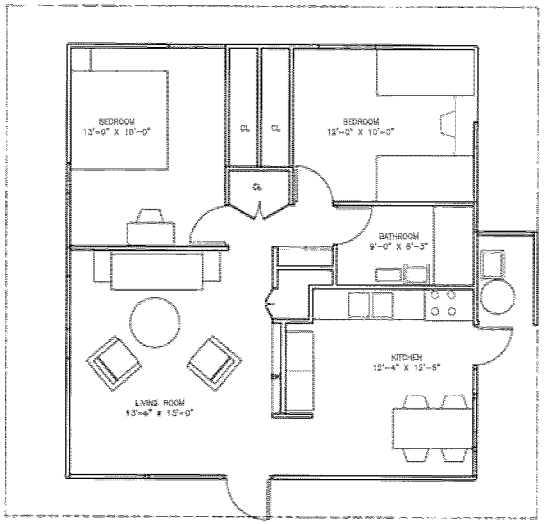
Comparative contemporary photograph of the bathroom interior.

BUILDING INTERIOR-LIVING ROOM

EXISTING CONDITIONS

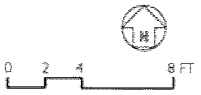
The living room of the Fleet Home is its largest interior space and retains its historic features intact. These include full height steel windows, a built-in wood shelving unit, and a built-in cabinet and speaker. An assessment of the living room revealed the following conditions:

- Minor staining of the ceiling
- Deteriorated carpet
- Inappropriate blinds



TREATMENTS

- Repaint and restore original appearance of ceiling and walls
- Replace floor covering with wood
- Remove curtain rods and repair holes in wall panel



APPLICABLE STANDARDS

The *Secretary of the Interior's Gudielines for Rehabilitation* recommend the following treatments of historic interior spaces:

- Identifying, retaining and preserving windows – and their functional and decorative features – that are important to defining the overall historic character of the building.

FLOOR PLAN

Contemporary photograph of the living room interior.

Comparative historic photograph of the living room interior.

Comparative contemporary photograph of the living room interior.

BUILDING INTERIOR-MECHANICAL

EXISTING CONDITIONS

- Non-functioning air conditioning and heat.

TREATMENTS

The following treatments are planned:

- Pending formal design, provide new HVAC with free standing heat-pump and new fan unit.

APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of historic mechanical systems:

- Identifying, retaining, and preserving visible features of early mechanical systems that are important in defining the overall historic character of the building such as radiators, vents, grilles, plumbing fixtures, switch plates, and lights

BUILDING ELECTRICAL/LIGHTING

EXISTING CONDITIONS

- Inappropriate wiring and conduit on exterior of building.
- Outdated wiring, outlets and inappropriate lighting

TREATMENTS

The following treatments are planned:

- Remove surface-mounted conduit and re-rout new wiring through original pathways built into aluminum panels.
- Replace bathroom light fixture
- Replace existing electrical outlets & covers
- Replace built-in stereo system speakers in living room
- Replace under cabinet lighting in kitchen
- Add smoke detectors

APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of historic electrical systems:

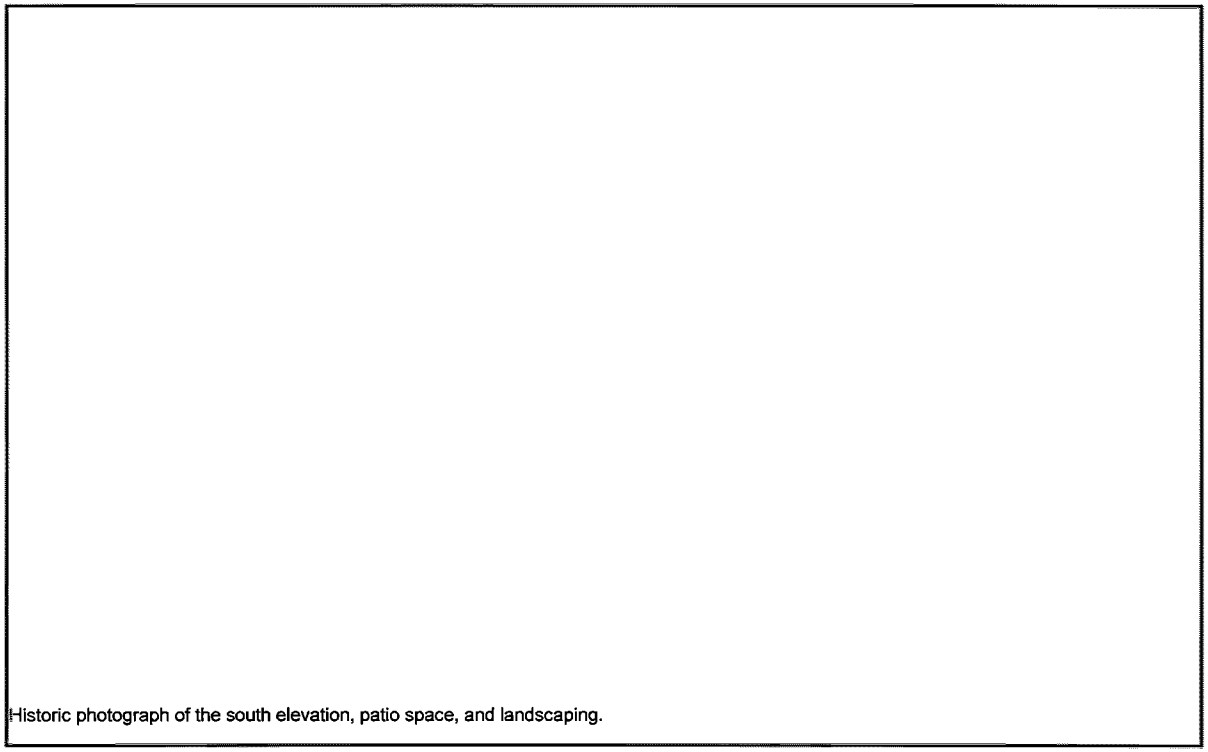
- Identifying, retaining, and preserving visible features of early mechanical systems that are important in defining the overall historic character of the building such as radiators, vents, grilles, plumbing fixtures, switch plates, and lights

BUILDING INTERIOR-PLUMBING

EXISTING CONDITIONS

- Inefficient water heater

TREATMENTS



The following treatments are planned:

- Replace with new water heater.

APPLICABLE STANDARDS

The *Secretary of the Interior's Gudielines for Rehabilitation* recommend the following treatments of historic plumbing::

- Identifying, retaining, and preserving visible features of early mechanical systems that are important in defining the overall historic character of the building such as radiators, vents, grilles, plumbing fixtures, switch plates, and lights

Historic photograph of the south elevation, patio space, and landscaping.

SITE

- SITE
- EXISTING LANDSCAPE
- PROPOSED LANDSCAPE
- PATIO WALL

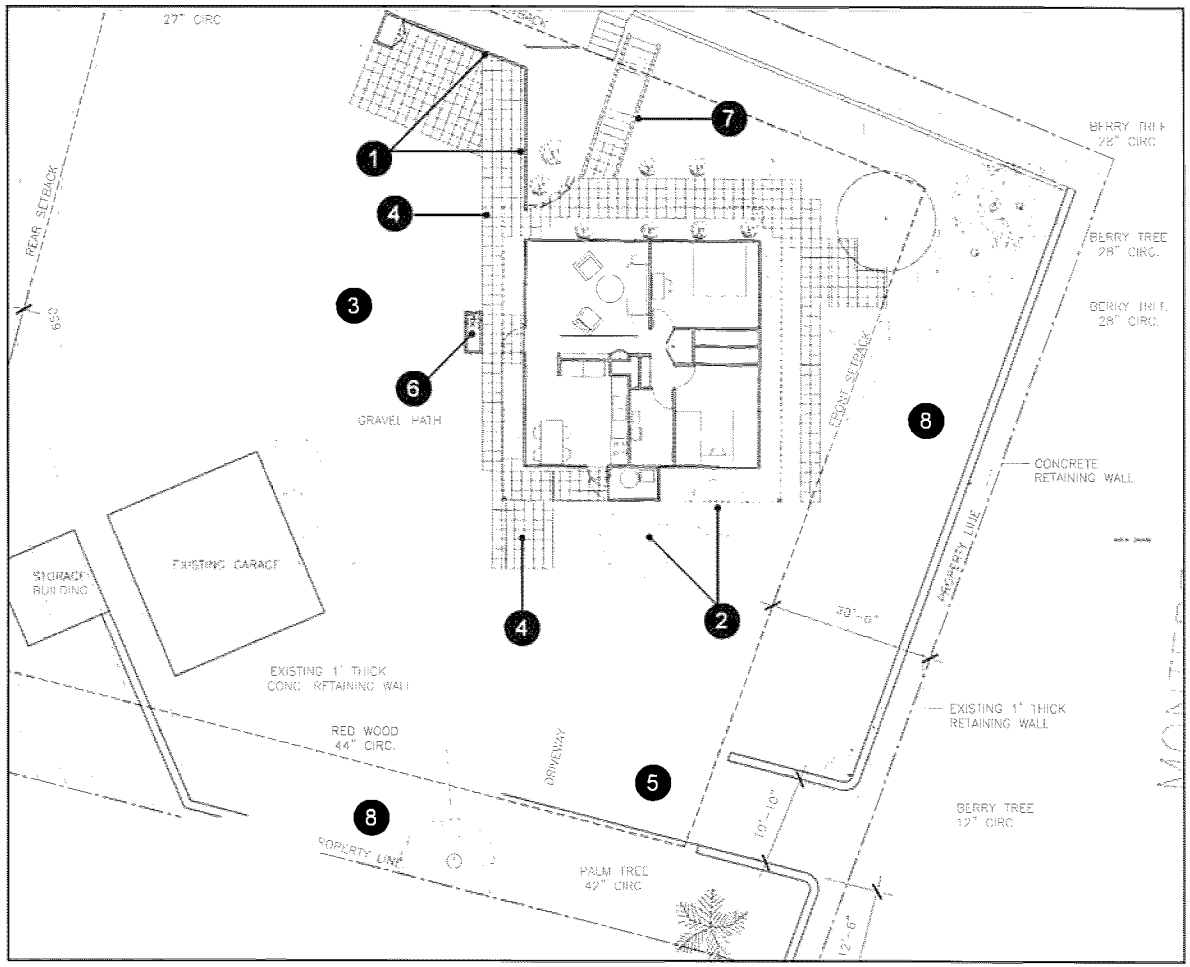
SITE

EXISTING CONDITIONS

The Fleet Home landscape contains many original features including paving, plantings and aluminum garden enclosure. An assessment of the site revealed the following conditions:

- Overgrown trees and brush located close to house
- Displaced and broken concrete pavers
- Non-original features such as brick planter box and gravel drive
- Moveable aluminum enclosure is over 50% deteriorated

TREATMENTS: DEMOLITION



The following treatments are planned:

1. Remove damaged aluminum panel "garden wall". Salvage garden storage locker.
2. Remove trees damaging house.
3. Remove gravel to south of house
4. Remove and salvage precast concrete pavers
5. Remove deteriorated concrete driveway
6. Remove planter box
7. Remove landscape steps to west of house
8. Clear unwanted planting and weeds

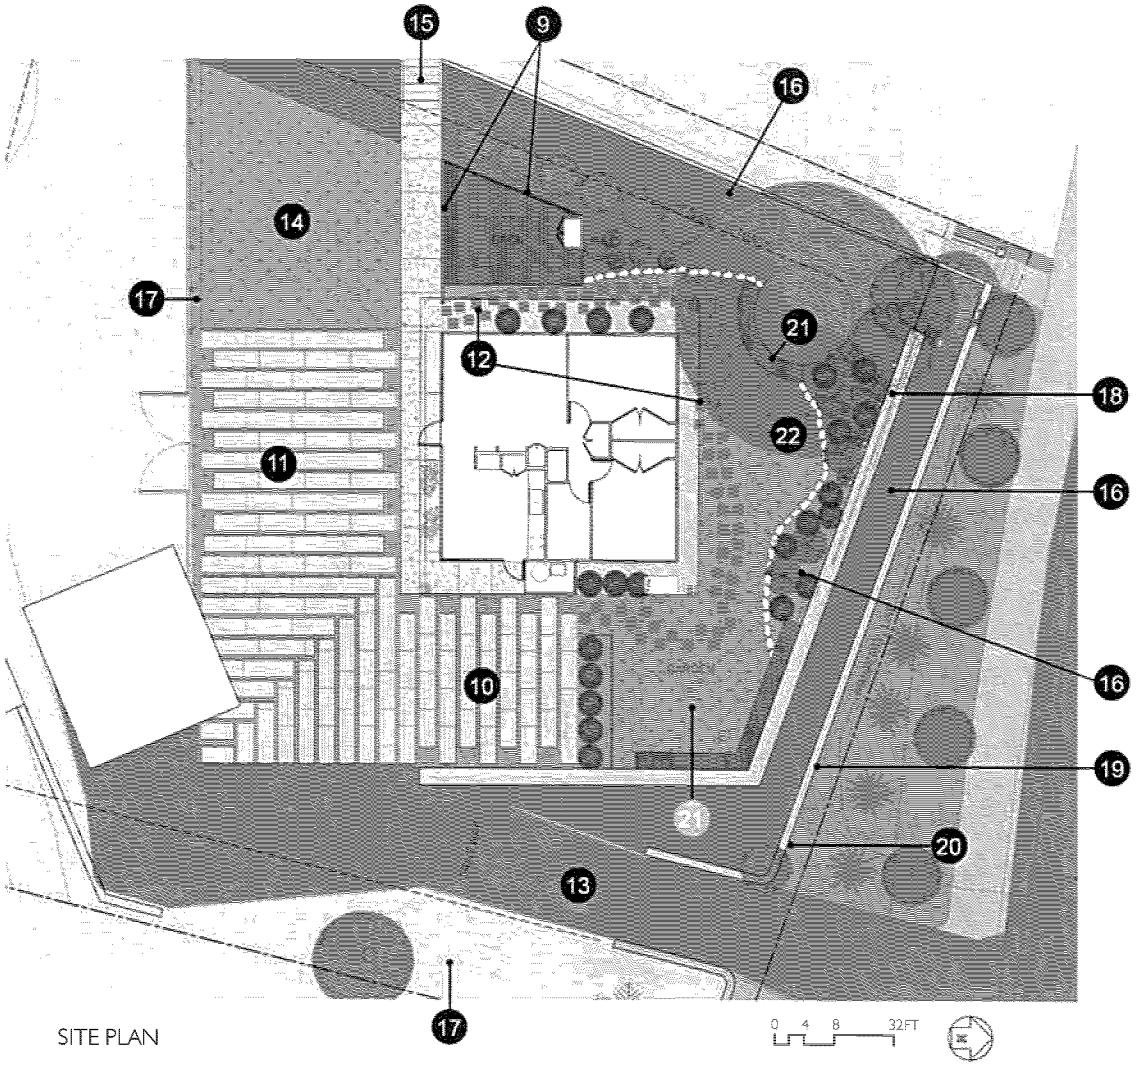
APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of site:

- Identifying, retaining and preserving original features that are important to defining the overall historic character of the building.

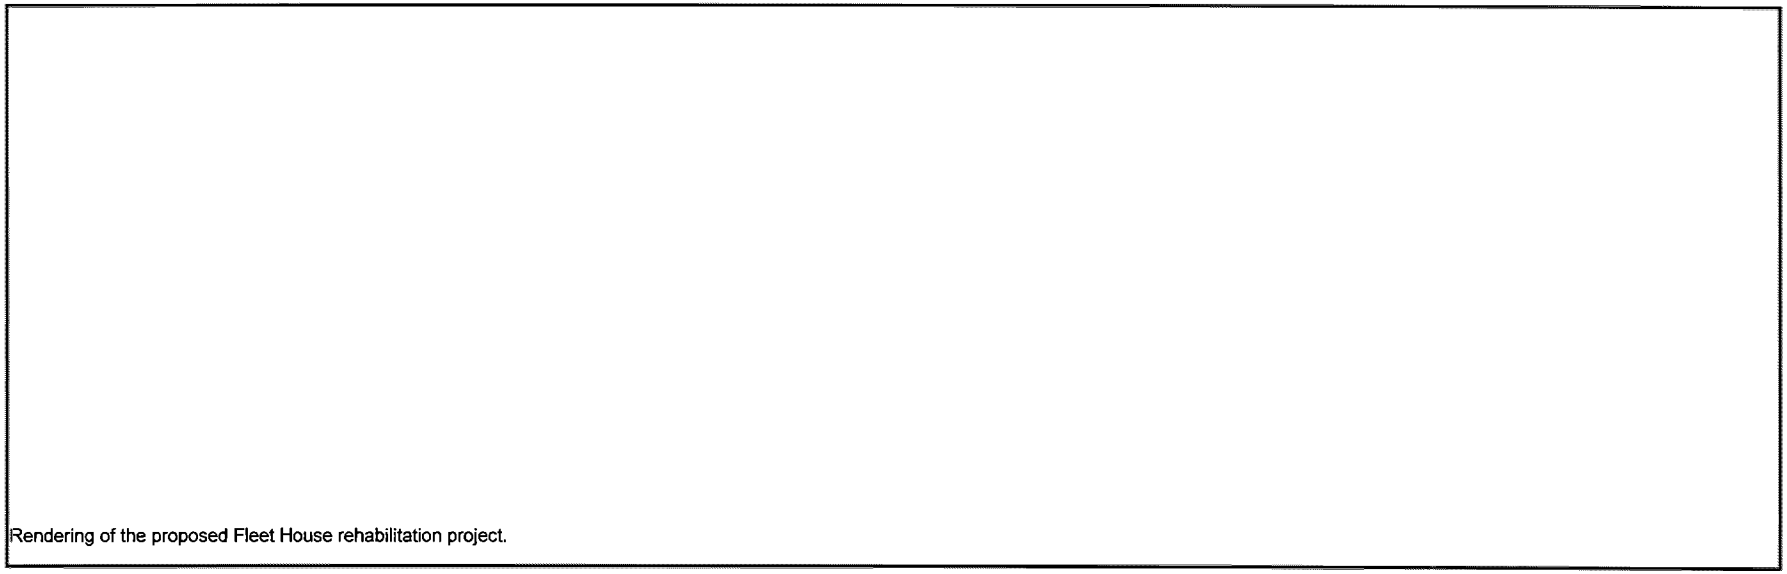
SITE PLAN

SITE-PROPOSED LANDSCAPE



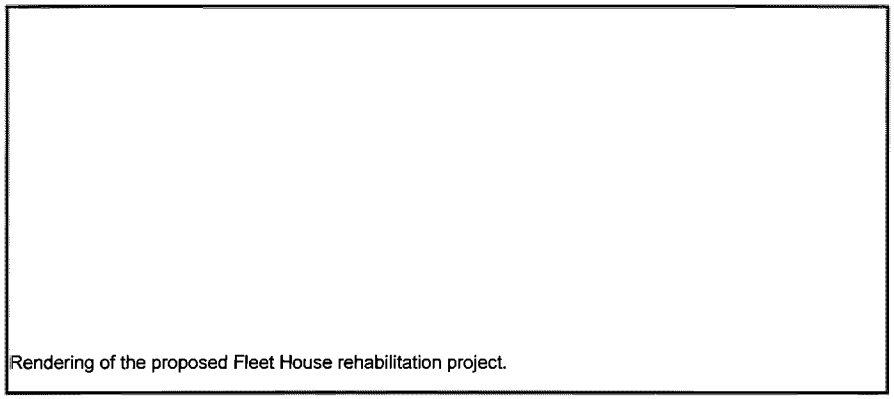
TREATMENTS: REHABILITATION

9. Install new aluminum panel "garden wall" in modified location. Re-install salvaged garden storage locker. Provide new wood deck.
10. Install new gravel and concrete hardscape to east of house
11. Install grass and concrete hardscape to south of house
12. Re-install salvaged precast concrete pavers in gravel as pathway to west and north of house
13. Install new concrete driveway
14. Install new lawn
15. Install new landscape steps at new location to west of house
16. Install new xeriscape garden and plantings
17. Install new "vine wall" fencing to west of garage
18. Install new concrete block wall. Face street side with smooth stucco and house side with Boston Ivy
19. Re-face existing concrete retaining wall with smooth stucco
20. New signage
21. New wood benches
22. New wood deck

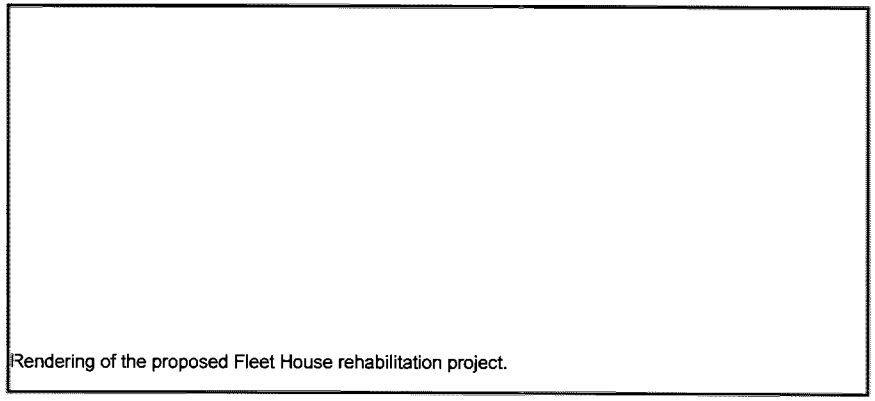


APPLICABLE STANDARDS

The *Secretary of the Interior's Guidelines for Rehabilitation* recommend the following treatments of site:



- Identifying, retaining and preserving original features that are important to defining the overall historic character of the building.



SITE PLAN

Rendering of the proposed Fleet House rehabilitation project.

Rendering of the proposed Fleet House rehabilitation project.

Rendering of the proposed Fleet House rehabilitation project.

MAINTENANCE

MAINTENANCE PLAN

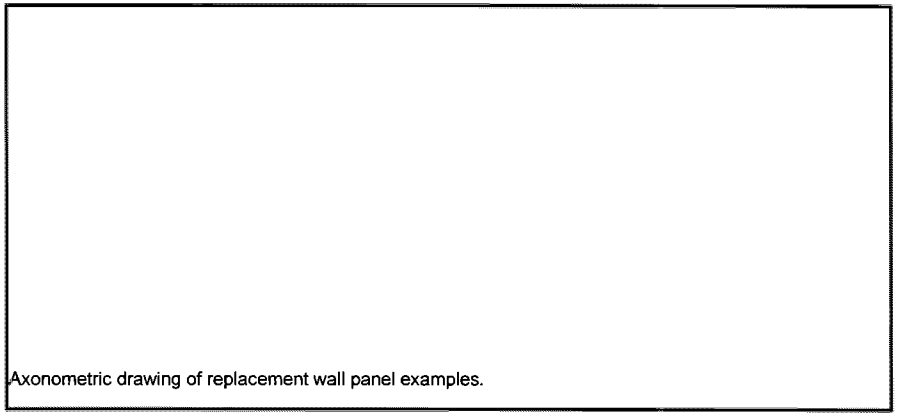
The bulk of the funding and effort at the 325 Monterey Street site is to return the Fleet House to its original feeling of mid-century modern "cool". Once the building and grounds have been fully rehabilitated, the following maintenance will occur:

- Annual inspection & touch-up of paint coating
- Systems maintenance & commissioning
- Cleaning of interior finishes
- Regular upkeep of landscape and grounds

SCHEDULE

- Rehabilitation work to be complete by 2012
- Regular maintenance work to continue through life of contract

REPORTING



Once the Rehabilitation effort is complete (prior to Fall 2012), the Applicant will submit a report documenting the completed work. The Rehabilitation Report will contain a narrative of the procedures used to rehabilitate the building supplemented with photographic documentation of the work performed.

Subsequent to the rehabilitation effort, the Applicant will provide a brief statement confirming on-going maintenance on a tri-annual basis.

EXHIBIT D

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

SUBJECT: Mills Act Contract
PROJECT ADDRESS: 325 Monterey Road

Dear Ms. Santino,

NOTICE IS HEREBY GIVEN THAT on November 20, 2014, the City of South Pasadena Cultural Heritage Commission (CHC) recommended that the City Council enter into a Mills Act Contract regarding the rehabilitation of a property you own at 325 Monterey Road.

The CHC recommended that the Mills Act contract omit the HVAC equipment and conduit removal from the plan and that a notice of non-renewal shall be imposed after year 5.

If you have any questions regarding this notice, please contact me at (626) 403-7220.

Sincerely,

John Mayer
Senior Planner

PROPERTY ADDRESS:

844 Monterey Road

2025 PROGRESS REPORT

Glen and Fiona Eddy
844 Monterey Road
South Pasadena
CA 91030

March 22nd, 2025

Dear Michael Donovan and the South Pasadena Planning Division,

Thank you for your recent letter regarding the **Mills Act Progress Report** for **844 Monterey Road.**

We are really enjoying taking good care of our historic home. Attached is our progress report to date.

We would like to note that we started the Mills Act contract process in 2014 however It did not go in to full effect until 2016 because the City of South Pasadena was delayed in sending in their report by the 3rd February 2015- Please refer to the correspondence below from us and John Mayer.

In spite of this we are pleased to say that we have managed to stick to the timeline as prescribed with a few rearrangements because of urgent structural needs.

We pushed forward the following:

* New roofs on garage and main house.
* The sink hole slurry fill under the 1950's addition.
* The Fireplace was supposed to be just repointing but turned in to a rebuild of the fire box.

Here is what still needs to be completed:

* Heat pump - Estimate attached in photo report
* Front porch stabilization - Estimate Available if needed
* Hard scape - Advice from Alpha Structure - in Progress

We are also continually researching the architect, S.Tilden Norton, and the original owners of the Washburn House and how interconnected they were in the history of LA and South Pasadena.

Looking forward to our continued work on the Washburn House

Sincerely,

Fiona and Glen Eddy

WASHBURN HOUSE

844 Monterey Road

Rehabilitation and Preservation Plan

Area 1: Primary Residence

A: Exterior door and window repairs

1. Front door hardware: **Completed** pg. 9

B. Exterior cladding and architectural details

1. Repair damaged exterior shingles: **Completed** pg.10
2. Repair damaged exterior clapboards: **Completed** pg. 10
3. Repair damaged exterior beams: **Completed** pg.16
4. Repair damaged crawlspace vents: **Completed** pg. 8
5. Repair damaged decorative wood guardrail posts: **Completed** pg. 7

C. Structural system upgrades and repairs

1. Stabilize and repair foundation: **Completed** pg.3
2. Stabilize and repair sub-floor in addition: **Completed** pg.3

D. Masonry system upgrades and repairs

1. Protect and maintain brick chimney: **Completed** pg.4 & 6
2. Rebuild concrete front porch: **In Progress** - estimate available

E. Roofing systems

1. Replace roof shingles: **Completed** pg. 5
2. Replace or remove rain gutters: **In Progress** Repaired & painted pg.13

F. Exterior paint repairs and repainting

1. Preserve and restore exterior paint: **Completed & Ongoing** pg.8
2. Protect and maintain all windows: **Completed** pg.9

G. Plumbing systems upgrades and repairs

1. Replace main sewer line to the house: **Completed -** Replaced before Mills Act

H. HVAC system upgrades

1. Current central forced air cooling and heating system is older and is reaching it's useful lifespan: **Estimate attached - In progress** pg.17 & 18

AREA 2: Garage

A. **Exterior cladding and architectural and details**

2. Repair garage siding: **Completed & Ongoing** pg.12

B. Exterior paint repairs and repainting

1. Preserve and restore exterior paint: **Completed & Ongoing** pg.11

AREA 3: GARDENS

A. **Site Drainage and stormwater runoff**

2. Mitigate storm water runoff: **Completed** pg. 13

B. Replace irrigation system

1. Upgrade irrigation system: **Completed** pg. 13 - Installed micro-drip

C. Hardscape repairs, masonry and woodwork

1. Replace wood fencing (front, rear and side gardens): **Completed & in progress** pg.14 & 15

2. Repair and replace concrete hardscaping (front and rear gardens): **In progress** - Plans Available if needed

3.

MAINTENANCE PLAN

AREA 1: PRIMARY RESIDENCE

1. Exterior door and window repairs: **Completed & Ongoing** pg.17

2. Exterior cladding and paint: **Completed & Ongoing** pg.11 & 17

3. Wood framing and sheathing: **Completed & Ongoing** pg.11,16 & 17

AREA 2: GARAGE

1. **Exterior cladding and paint: Completed & Ongoing** pg.12

AREA 3: GARDENS

1. Landscaping and trees: **Completed & Ongoing** pg. 15

Item 1.
Email from John Mayer 18 February 2015 confirming change of start date to a year later.

John Mayer 18 February 2015 at 13:14

RE: 844 Monterey Mills Act

To: Glen Edd

Hi Glen. Its not your fault that the contract missed the deadline, so you can just shift everything back by one year.

See More from Glen Edd

Found in Sent - Earthlink Mailbox

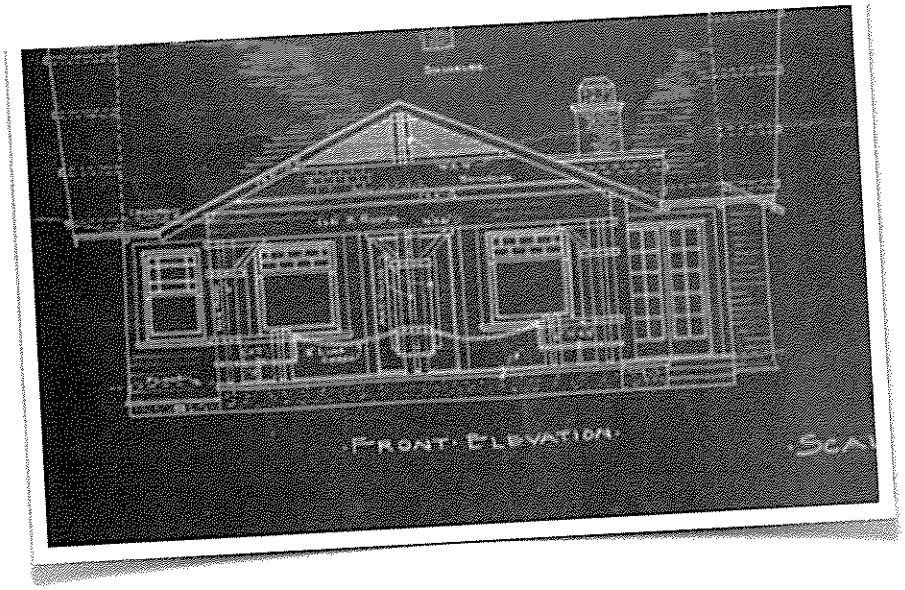
Glen Eddy 18 February 2015 at 13:12

844 Monterey Mills Act

To: John Mayer

Hi John,

I spoke to the county legal people and understand that the contract was probably recorded after the deadline so will not go into effect until 2016.



My question is how it would effect the schedule of rehabilitation work? Does the whole thing get shoved back a year or do we try stick to the dates as stated in the contract?

Also as far as reporting, I understand that the first report on work would be due 2 years after the date the contract is recorded, which would be January 2017. I still have not received the contract from the county so I guess this is a little hypothetical. . Maybe this will all be cleared up when the contract arrives.

Many thanks,

Glen and Fiona Eddy

EMERGENCY SLURRY FILL STABILIZATION

SCOPE OF WORK SUMMARY:

The stabilization of undermined foundation and existing pier hole using a concrete slurry backfill. Additionally replace the existing post and pier footing located in the center of the hole supporting the beam / subfloor support above.

INCLUDES:

- Planning complete and permits pulled. (Owner to reimburse actual permitting fees)
- Excavate loose soil and debris from pier hole area
- Bench as required for slurry stabilization
- Fill void using concrete slurry mixture
- Replace existing posts and pier footing with new 4x4 post
- Haul construction debris from the site leaving crawl space cleaner than it was found

EXCLUDES:

City permit and plan check fees, cosmetic work of any kind, deputy and/or special inspection fees or testing, or additional scopes of work. See Notes, Terms and Conditions.

Contract price: $11,996.00 Down Payment $100.00

Schedule of payments:

Amount:	Due on
$ 3750.00	Commence Construction
$ 3750.00	Excavation/Piers Complete
$ 3750.00	Slurry and Post Complete
$ 646.00	Complete

*The total contract price above includes a 3% cash or check payment discount.

Payment C.O.D. upon pay schedule items being complete

The down payment may not exceed $ 1,000.00 or 10 percent of the contract price, whichever is less.

Owner shall pay Engineer/Contractor the fixed sum listed above as Contract Price for the work performed under this contract, subject to additions and deductions pursuant to change orders agreed upon in writing by the parties.

Date of Plans
Email dpeasley@earthlink.net

We hereby propose to furnish the materials and perform the labor necessary for the completion of Fireplace/Chimney work.

The following work is needed to make fireplace/chimney safe for use and code compliant.

Fireplace Place large plastic at work area for protection. Clean and remove existing damaged firebox/ side walls, floor and rear firewall, sweep and clean firebox throat, smoke shelf and breastplate removing all loose debris. Reline throat, smoke shelf and breastplate with chamber coat (high heat mortar). To seal/ create surface for safe use. Install new firebox (sidewalls, floor, rear firewall) using Pacific Clay firebrick with new black clamps and new ash dump door.

Chimney Flue System Erect scaffold and chimney area, sweep and clean unlined brick chimney flue system, removing all loose debris, reline entire flue system with thermacrete ceramic flue sealant (applied in shotcrete applicant with 4oz nozzle) in order to construct entire flue system for safe use.

Chimney Stack Mortar Repaint Remove existing old mortar joints to a depth of 1.25 inches wash and vacuum clean, repoint with chemical colored mortar (finish mortar joints in same architectural detail as original).

Labor and Materials: $12,800

Note- If gas line is desired, separate billing by Sooner Plumbing

All material is guaranteed to be as specified, and the above work to be performed in accordance with the drawings and specifications submitted for above work and completed in a substantial workmanlike manner for the sum of Dollars $ 12,800

With payments to be made as follows: 50% deposit, balance due upon completion

Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workmen's Compensation and Public Liability insurance, all of which will be taken out by M&R Masonry.

Respectfully submitted Marcus Ramirez

Per M&R Masonry

Note – This proposal may be withdrawn by us if not accepted within ____ days

ACCEPTANCE OF PROPOSAL

AGREEMENT

Owner: Mr. Glen Eddy 626 376-6583
Job Address: 844 Monterey Road South Pasadena, Ca 91030 gleneddy@earthlink.net

Install new heating and cooling system:

Existing equipment removed and recycled. New furnace or fan coil installed in attic, and suspended from rafters to minimize noise and vibration. Furnace or fan coil inserted into attic via existing attic access or return grill opening, and connected to existing electrical connection. Gas line modified to comply with code requirements with flex line and shut-off valve. New flue installed if furnace. Furnace or fan coil connected to new Puron style cooling coil and new supply and return plenums. Condensate drain lines installed and connected to new cooling coil and drained outside of house into organic material. New safety/secondary pan installed under cooling coil/fan coil with new drain lines. New Puron (R410A) air conditioner or heat pump condenser installed in code compliant location on a new pad. New copper refrigerant lines installed between new indoor coil and new outdoor unit. New R6 insulated flexible fiberglass ducting connected from supply plenum to all supply registers, and return grille. Inside of the supply flexible fiberglass ductwork we will install manual air balancing dampers for air flow adjustments to provide for more even temperatures and maximum customer comfort. A new Wifi enabled digital, programmable thermostat to be installed to control the system. Start, test, run and complete air balancing. Installed to manufacturers specifications, and city building code.

Installation notes: 1. Condenser to be relocated. 2. Enlarge existing return to accommodate air flow requirements.

EQUIPMENT

OPTION ONE-GAS/ELECTRIC: Two Stage A/C and single stage heat
A/C: Carrier Performance Series 4 ton two stage 24TPA7 and matching Puron cooling coil.
FURNACE: Carrier Deluxe Ultra Low Nox 58CU furnace

Office Hours

7:30 am to 5:00 pm Monday through Thursday

7:30 am to 4:00 pm Friday

Inspection Requirements

Roofing Requirements

Roofing materials and methods of application must comply with the manufacturer's installation requirements and the following provisions. The building official may allow existing roof coverings to remain when inspection by the City of South Pasadena Building Division personnel indicates the following:

a) There is only one existing roof covering on the structure. A maximum of two existing roof coverings may be permitted when the existing roof coverings are any combination of wood or asphalt shingle, and the roof slopes at 4 units in 12 units or greater.

Only one roof covering is permitted on Unreinforced Masonry Buildings.

b) The structural design is sufficient to sustain the weight of an additional roof.

c) The existing roof is securely attached to the deck.

d) The visible roof coverings still sound and/or the exposed roof deck is not rotted and is structurally sound.

e) Existing insulation located immediately below the roof covering is not water soaked.

Dumpster Requirements

A separate permit is required to maintain a dumpster in the City of South Pasadena Public Works Department for dumpsters located in the public right-of-way.

Dumpsters can only be set from the company the City contracts with for refuse disposal. Contact the Public Works Department for additional information at (626) 403-7240 for additional information.

Plywood Installation and Nailing Requirements

Where plywood is installed on existing spaced sheathing, all wood panel joints shall occur over a rafter. Nails shall be spaced 12" on center at each rafter.

Where panel edges that are parallel to the rafters do not occur over a rafter, nails shall be driven at 6 inches on center maximum spacing along each such edge and through the sheathing boards.

TITLE

Mills Act Contract - City So. Pas. + Glen + Fiona Eddy

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 17th day of December 2014, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Glen and Fiona Eddy ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 844 Monterey Road, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 40 , attached hereto marked "Exhibit B". The Washburn House was designed for the Reverend James F. Washburn and his wife, Josephine. The Washburns were prominent leaders in the Holiness Church of Aimee Semple McPherson. They moved to South Pasadena in 1904. Mrs. Washburn authored a book at 844 Monterey Road that chronicled their work in the Holiness Church from 1880 to 1911. The Washburn's youngest son (Bliss Washburn) designed and built the home in 1910. The Washburn House is considered a fine example of a custom-designed Craftsman bungalow. Although there was a small addition added to the back of the house, its overall historic appearance remains intact;

(iv) City and Owners, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 17, 2014 and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. For the first five years of the Agreement only, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this

Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The maximum term of this Agreement, including any automatic renewals, shall not exceed 15 years from the effective date. The automatic renewal provision shall not apply to add an additional year to the Agreement after the initial five years of the term. If the City desires within the first five years not to automatically renew this Agreement, City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date within the first five years.. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena (including the specific recommendations of the Cultural Heritage Commission, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with

the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Glen and Fiona Eddy
844 Monterey Road
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of

whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

ALSO EXCEPT THAT PORTION IN MONTEREY ROAD AS DESCRIBED IN A DEED TO THE COUNTY OF LOS ANGELES, RECORDED ON FEBRUARY 19, 1970 AS INSTRUMENT NO 2857, OFFICIAL RECORDS.

APN 5315-018-021

RESOLUTION 6498

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING 844 MONTEREY ROAD (THE WASHBURN HOUSE) AS AN OFFICIAL SOUTH PASADENA HISTORIC LANDMARK (LANDMARK #40)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code (commonly known as the "Cultural Heritage Ordinance 2004") authorizes the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as Landmarks; and

WHEREAS, the Community Development staff and Commission have duly prepared a nomination form to register the Washburn House located at 844 Monterey Road; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (A)(3) ["Designation Procedure"] of the above Ordinance Section, in that it visited the site, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the Commission made findings of fact pursuant to Subsection (A)(2) ["Designation Procedure"] of the above Ordinance Section, as follows:

The property qualifies as a landmark by reason of the following applicable subsections:

(a) Its character, interest or value as part of the heritage of the community.

(b) Its identification with a person who contributed to the culture and development of the City, the state of California and the United States.

(d) Its exemplification of a particular architectural style of an era of history of the City.

WHEREAS, based on the evidence presented in the application materials, the designation being categorically exempt, sub-committee research, on-site inspection and public testimony, the Commission voted to recommend designation of this property on January 30, 1997 and forwarded the recommendation to the City Council; and

WHEREAS, the City Council held a public hearing on the proposed designation on August 6, 1997, and received public testimony.

NOW THEREFORE, be it resolved the South Pasadena City Council designates the Washburn House at 844 Monterey Road as South Pasadena Historic Landmark No. 40, based on the above-mentioned findings.

PASSED, APPROVED and ADOPTED this 6th day of August, 1997.

PAUL W. S. ZEE, MAYOR

ATTEST:

JEANNINE A. GREGORY, CITY CLERK

I hereby certify that the foregoing resolution was adopted by the City Council of the City of South Pasadena at a regular scheduled meeting held on the 6th of August, 1997.

AYES: Saeta, Knapp, Cohen, Emory and Mayor Zee

Appendix B: Photographic Overview Of Features And Issues 17

OVERVIEW OF SCHEDULE

1. Exterior door and window repairs	By 2015
2. Exterior cladding and architectural detail repairs	By 2016
3. Structural system upgrades and repairs	By 2017
4. Masonry system upgrades and repairs	By 2018
5. Roofing system repairs	By 2019
6. Exterior paint repairs and repainting	By 2020
7. Plumbing system upgrades and repairs	By 2021
8. Maintenance: Paint inspection and repairs as needed, main residence	Tri-annual inspection
9. Maintenance: Termite inspection and eradication as needed, main residence	Annual inspection
10. Maintenance: Paint inspection and repairs as needed, garage	Annual inspection
11. Maintenance: Pruning and maintenance, trees and plantings, gardens	Ongoing inspection

REPORTING SYSTEM

The Washburn House owners, Glen and Fiona Eddy, will provide written updates to the City of South Pasadena every two years, documenting progress and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

SUMMARY OF COSTS AND TAX SAVINGS

CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Exterior door and window repairs, primary residence	$5,000	2015
B. Exterior cladding and architectural details, primary residence	$5,000	2016
C. Structural system upgrades and repairs, primary residence	$11,000	2017
D. Masonry system upgrades and repairs, primary residence	$2,500	2018
E. Roofing system repairs, primary residence	$20,000	2019
F. Exterior paint repairs and repainting, primary residence	$15,000	2020
G. Plumbing system upgrades and repairs	$13,000	2021
H. Exterior cladding and architectural details, garage	$4,000	2023
J. Exterior paint repairs and repainting, garage	$4,000	2023
TOTAL CAPITALIZED EXPENSES		**$79,500**

NON-CAPITALIZED EXPENSES	AMOUNT	SCHEDULE
A. Replace HVAC system, primary residence	$9000	2022
D. Replace irrigation system, gardens	$4,000	2023
E. Hardscape repairs, masonry and woodwork, gardens	$12,000	2024
TOTAL NON-CAPITALIZED EXPENSES		**$25,000**

TOTAL OUT-OF-POCKET INVESTMENT IN 844 MONTEREY ROAD	**$104,500**
TOTAL ESTIMATED TAX SAVINGS, 10-YEAR PERIOD	**$73,057**
AVERAGE ANNUAL COST TO THE CITY OF SOUTH PASADENA	**$1,655**

REHABILITATION AND PRESERVATION PLAN: 844 MONTEREY ROAD, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Exterior door and window repairs 1. Front door hardware is damaged	Yes	2. Original brass front door escutcheon plate is missing three pyramid-head screws which will need to be replaced in-kind.	2015
B. Exterior cladding and architectural details 1. Repair damaged exterior shingles 2. Repair damaged exterior clapboards 3. Repair damaged exterior beams 4. Repair damaged crawlspace vents 5. Repair damaged decorative wood guardrail posts.	Yes	1. Repair damaged exterior shingles – replace in-kind with shingles that match the texture of existing. Care will be taken to ensure spacing pattern around existing shingles is continued. Repairs will be made prior to exterior painting. 2. Repair damaged exterior clapboards – replace in-kind by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. Repairs will be made prior to exterior painting. 3. Ridge beams will be adjusted into their original position and stabilized. Repairs will be made to the columns by patching, splicing, consolidating or otherwise reinforcing. Repairs will be made prior to exterior painting. 4. Missing and/or altered crawlspace vent screens will be recreated based on the surviving originals. The surviving example will serve as a prototype to guide the overall form and detailing of the missing vent screens. Replacement vent screens will be crafted from wood and metal, as are the existing, and attached to the façade in a fashion similar to surviving example. Repairs will be made following exterior painting and will be painted to match. 5. Decorative heavy chain guardrail posts have deteriorated and will need replacing. Repair and replacement of damaged and missing posts with in-kind material is required.	2016
C. Structural system upgrades and repairs 1. Stabilize and repair foundation 2. Stabilize and repair sub-floor in addition	 No No (not a capitalized expense)	1. The existing concrete pier foundation is no longer functional due to ground subsidence – inspect and identify solution to stabilize foundation. The stabilization solution should not alter the historic character of the existing foundation. Any stabilization effort will attempt to maintain and protect the concrete foundation. Repair according to industry standards and applicable building codes. 2. Douglas Fir subfloor/floor material has a significant number of loose boards that need to be braced from below. Metal strapping and plywood substrate between floor joists will be necessary to create a stable floor surface. Repair according to industry standards and applicable building codes.	2017
D. Masonry system upgrades and repairs 1. Protect and maintain brick chimney 2. Rebuild concrete front porch	Yes	1. Secure loose bricks and re-point mortar. Re-pointing mortar should be softer or more permeable than the masonry units and no harder or more impermeable than the historic mortar to prevent damage to the masonry units. Deteriorated mortar will be removed carefully, hand-raking the joints to avoid damaging the masonry. The strength, composition, color, and texture of old mortar will be matched. Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of masonry features when there are surviving prototypes such as terra-cotta brackets or stone balusters. 2. The concrete front porch has significant cracking due to ground movement. Replacing in-kind the entire porch that is too deteriorated to repair using the physical evidence as a model to reproduce the feature.	2018

REHABILITATION AND PRESERVATION PLAN: 844 MONTEREY ROAD, SOUTH PASADENA, CA 91030

AREA 1 (CON'T.): PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
E. Roofing systems 1. Replace roof shingles 2. Replace or remove rain gutters	Yes No	1. The existing roof singles are nearing the end of their use life. The extant roof shingles will be replaced with code-compliant composition shingles appropriate for the historic building and district. Based on evidence found on-site it appears that the original roofing material was asphalt composition. This is consistent with the architectural style and era of construction. During construction it would be appropriate to remove any extraneous roof vents. 2. The extant rain gutters were added to the house at an unknown date. The gutters, as they appear now, are not in keeping with the architecture of the house. The existing gutters will be replaced with a design more in keeping with the architectural character of the building. Before replacing the gutters the fascia will be inspected to identify features that may be used to guide the accurate reproduction on the original gutter system. If no evidence is located to establish the original design, the rain gutters will be replaced by a new design that is compatible with the remaining character-defining features of the historic building. The new design will take into account the size, scale, and material of the historic building itself and will be clearly differentiated so that a false historical appearance is not created.	2019
F. Exterior paint repairs and repainting 1. Preserve and restore exterior paint 2. Protect and maintain all windows	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district. 2. The glazing putty on several windows is dried and cracked and some panes are loose. Windows will be inspected to identify those that need re-glazing and, where necessary, failed compound will be removed and new glazing compound installed. The new glazing putty will be painted to match the sash and mullions.	2020
G. Plumbing systems upgrades and repairs 1. Replace main sewer line to house	No	1. Main sewer line from property line to city connection has root infiltration at several points along the line. Because of the location underneath Monterey Road a replacement line will need to be sheathed in.	2021
H. HVAC system upgrades 1. Current central forced air cooling and heating system is older an is reaching its useful lifespan.	No (Not a capitalized expense)	1. The HVAC system is older and inefficient. The new replacement mechanical system will be installed so that it causes the least alteration possible to the building's floor plan, the exterior elevations, and the least damage to the historic building material. If needed, additional adequate structural support for new mechanical equipment will be installed. Particular care will be taken not to obscure, radically change, damage, or destroy character-defining features in the process of rehabilitation work to make the building more energy efficient.	2022

REHABILITATION AND PRESERVATION PLAN: 844 MONTEREY ROAD, SOUTH PASADENA, CA 91030

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Exterior cladding and architectural details 1. Repair garage siding	Yes	1. Board and Batten siding has deteriorated on the south and west-facing elevation. Repair and replacement of damaged and missing siding with in-kind material is required.	2023
B. Exterior paint repairs and repainting 1. Preserve and restore exterior paint	Yes	1. Inspection of exterior painted wood surfaces determined repainting is necessary. Damaged and deteriorated paint will be taken down to the next sound layer using the gentlest method possible. Hand-scraping and hand-sanding are preferable to mechanized scraping or sanding. Electric hot-air guns may be used on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting. Chemical strippers may be used to supplement other methods. Following surface preparation the exterior will be repainted with colors that are appropriate to the historic building and district.	2023

REHABILITATION AND PRESERVATION PLAN: 844 MONTEREY ROAD, SOUTH PASADENA, CA 91030

AREA 3: GARDENS

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
A. Site Drainage and stormwater runoff 1. Mitigate stormwater runoff	No (not a capitalized expense)	1. In concert with an existing French drain which carries stormwater runoff from the west side of the lot and daylights it into a percolation zone in the front garden, the new roof gutter and downspout system will carry rainwater to the front garden, sufficiently downslope and away from the building.	2019
B. Replace irrigation system 1. Upgrade irrigation system	No (not a capitalized expense)	1. The current irrigation system is old and will be updated to accomodate the latest water-saving and xeriscaping irrigation methods. Driplines, low-flow emitters and sprayers along with a multi-program timer and weather-sensors will be installed to facilitate healthy plant growth and water conservation.	2024
C. Hardscape repairs, masonry and woodwork 1. Replace wood fencing (front, rear, and side gardens) 2. Repair and replace concrete hardscaping (front and rear garden)	No (not a capitalized expense)	1. The wood fence in the front garden and side- and back yards are reaching the end of their use life. Replacement will be done using in-kind materials. 2. While much of the garden concrete path is extant much of it is severely cracked and will need to be repaired and replaced. Replacing the concrete paths in kind will use the existing physical evidence as a model to guide the new work.	2023

NOTES: REHABILITATION AND PRESERVATION PLAN
The recommended treatment approach for the Washburn House is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from the Secretary of the Interior's Standards for the Treatment of Historic Properties, National Park Service, US Department of the Interior, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

MAINTENANCE PLAN: 844 MONTEREY ROAD, SOUTH PASADENA, CA 91030

AREA 1: PRIMARY RESIDENCE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE
1. Exterior door and window repairs	No	1. All double-hung sash windows have broken sash cords and are inoperable in their current condition. Repair will include replacement in kind--or with compatible substitute material--of those parts that are either extensively deteriorated or are missing.	2015
2. Exterior cladding and paint	Yes (not a capitalized expense)	1. Tri-annual paint inspection and maintenance/re-painting as necessary. Recommended rehabilitation treatment guidelines: 1. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building."	2015, 2018, 2021
3. Wood framing and sheathing	Yes (not a capitalized expense)	1. Annual inspections to ensure mitigation of dry rot and termite damage; additional areas of concern to be addressed as found. Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the treatment of Historic Properties. This treament will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind." Recommended rehabilitation treatment guidelines: Protect and maintain: "Protecting and maintaining the structural systems... by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024

AREA 2: GARAGE

FEATURE	CHARACTER-DEFINING?	PROPOSED TREATMENT AND STANDARDS COMPLIANCE (Drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties*)	SCHEDULE

			* Labor allowance for a 2 man crew to re-work doors windows and misc carpentry needed on garage at back of property.				
					Bid Item Totals:		**5,276.00**
	Bid Item:	**20**	**WATERPROOFING**				
2700.000		2710	Waterproofing/tie-in east side of house (trellis)	allowance	1.00	250.000000	250.00
			* Waterproofing of trellis on east side of house.				
					Bid Item Totals:		**250.00**
	Bid Item:	**22**	**ROOFING**				
7300.000		7300	ROOFING	BID	1.00	9,820.000000	9,820.00
			* The existing roof on this home and detached garage is a single layer of 30 year dimensional composition shingle that is near the end of it's life. The shingles are losing their granules on the south facing sides of the roof and the exposed fiberglass is wearing thin enough to percolate water. The shingles might stay waterproofed for another year but I recommend replacing the roof as soon as possible. To remove the existing edge flashing and ridge, cut back the existing single layer of roofing flush to the roof eaves, install all new edge, chimney and vent flashing, and install a Certainteed Landmark 50 year dimensional composition shingle roof over the existing layer. There are 3 existing low pitched roofs attached to the house and garage that have recent modified bitumen roofs that are still in great condition and are not included in the above re-roof estimate.				
7300.000		7300	ROOFING	BID	1.00	3,640.000000	3,640.00
					Bid Item Totals:		**13,460.00**

All services checked below are covered under this contract.

- ☐ PRESSURE WASH – Hydraulic water machine is used to remove dirt, loose paint, smog & mildew.
- ☒ MASK & COVER – Areas not to be painted will be masked, covered and protected against overspray and splatter. Openings to be covered as needed using plastic to help eliminate paint dust from entering inside the home.
- ☐ TRENCH – Trench out dirt 4"-6" around perimeter to extend paint below soil level.
- ☒ SCRAPE & SAND – Scrape and sand loose and peeling paint to ensure proper paint adhesion.
- ☒ CAULKING – Caulk cracks in wood joints and between stucco and wood to seal out moisture.
- ☒ WINDOW GLAZING – Remove loose sash putty in windows, prime and re-glaze.
- ☐ STUCCO CRACKS – Stucco patch as necessary and seal with an elastomeric coating.
- ☒ WOOD CRACKS – Repair wood cracks with "Bondo" all purpose household putty.
- ☒ PRIME – Highest quality primers are applied to wood, metal and new stucco as required.
- ☒ CLEAN-UP – Work will be completed in a clean and professional manner. Trash is removed and clean-up is performed daily and upon completion of the job.
- ☒ INSPECTION – A complete inspection is performed with the customer to ensure your satisfaction. Final touch-ups are completed before we leave your project.

Exhibit 01: Chimney damage

Pointing has deteriorated and has fallen out or been partially removed from between bricks, exposing bricks up to 1 and a half inches deep, and mortar has been partially replaced in some areas with unsuitable material.

Exhibit 02: Shingle siding condition - west elevation.

Shingles are cracked and beginning to curl at the edges, paint has deteriorated and no longer protects the wood.

Exhibit 03: Clapboard siding damage

Paint has deteriorated in some areas and wood is no longer protected. Evidence of damaged clapboards under peeling paint.

Exhibit 04: Current state of paint - west elevation

Paint is peeling in places and is in need of repair.

Exhibit 05: Concrete front porch damage

Front porch is cracked down the center for its entire length of approximately 20 feet, and has been partially repaired with unsuitable materials.

Exhibit 06: Front porch header beam damage

Paint has peeled from beams and revealed evidence of wood damage beneath.

Exhibit 07: Foundation condition and subsidence

A sink hole of approximately 15 feet wide and five feet deep has opened under the 1949 addition, caused by water intrusion through an animal burrough or possibly an old spring, which has been sealed with cement. The sides of the hole are beginning to undermine the outer foundation.

Exhibit 08: Foundation condition and subsidence

A central pier of the foundation of the 1949 addition has subsided and tipped into the sink hole, causing the sill to be unsupported in the center of the structure.

Exhibit 09: Damaged concrete front entry path

Concrete path is cracked and pot holed and there is some plant and grass intrusion into the surface.

Exhibit 10: Damaged crawlspace vent

Crawlspace vents have been damaged and partially replaced with unsuitable materials.

EXHIBIT D

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Glen and Fiona Eddy
844 Monterey Road
South Pasadena, CA 91030

SUBJECT: Mills Act Contract
PROJECT ADDRESS: 844 Monterey Road

Dear Mr. and Mrs. Eddy,

NOTICE IS HEREBY GIVEN THAT on November 20, 2014, the City of South Pasadena Cultural Heritage Commission (CHC) recommended that the City Council enter into a Mills Act Contract regarding the rehabilitation of your property at 844 Monterey Road.

The CHC recommended that Mills Act contract address the following issues:

- The maintenance plan should include exterior paint and repair for the house and garage,
- The maintenance plan should address storm water control to include roof runoff, gutters, rain water leaders, French drains, storm water dispersal to the appropriate means of treatment,
- Omit floor repair for the rear addition from the capitalized expenses and
- Total of capitalized expenses should meet or exceed the estimated tax savings.
- Automatic renewal of the Mills Act contract should end after five years.
- The maintenance plans shall be reviewed by the Commission prior to the starting work.

If you have any questions regarding this notice, please contact me at (626) 403-7220.

Sincerely,

John Mayer
Senior Planner

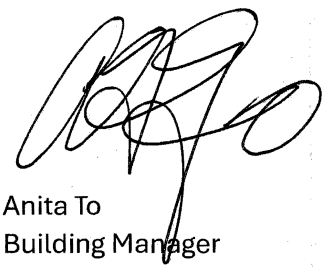
2025 PROGRESS REPORT

City of South Pasadena
Community Development department
1414 Mission Street
South Pasadena, Ca. 91030

April 1, 2025

Dear Community Development,



I have enclosed a summary of the restoration and preservation with supporting documents that have been done since the Mills Act contract was approved in 2014.

We have plan to restore Building D's wood trims and windows later this year (2025).

Please let me know if you need further clarification and information.

Thank you for your attention.

Sincerely,

Anita To

PAID CK # 1609.

Mr. Vincent Tsoi
Ms. Anita To

Reference: 1414 Fair Oaks

Dear Vincent and Anita,

Listed below are the hours and expenses incurred to date at your project.

Monday July 21: Remove aluminum covers over window and sills= **5 hrs.**
(Paid check # 2430 for $175. (5 x $35))

Monday July 28: Scribed in new beam support lumber on side of split interior roof joist and thru bolted. Applied first coat of Bondo to smooth out the seams, sprayed bleach and brushed mold stains on the ceiling material = **8 hrs.**

Tuesday July 29: Sanded and applied 2nd. coat of Bondo to wood joists, sanded and scarped the rear exposed beam and applied Bondo to those areas. Surveyed rooted out plywood over rear window with Michael and decided to replace plywood. **8 hrs.**

Wednesday July 30th: Sanded primed interior beam, sanded and applied more Bondo to the rear exposed beam, removed and replaced damaged plywood over rear window with new, primed and bondo'd on the edges for extra protection. **8 hrs.**
(Paid check # 388 for $ 840.(24 x $35.))

Thursday Aug.14th: Pull glass stops for glass removal then demolished existing wood sill and window mullions. **8 hrs.**

Friday Aug. 15th thu Monday Aug. 18th: Fit and installed new window sills, vertical mullions, and glass stops at all window locations around building. Stained all sides and edges of all new sills and frames. **32 hrs.**
Paid check # 2444 for $ 1,400. (40 x $35.))

Tuesday Aug 19th thru Wed. Aug. 20th: Cut, stained, and installed or tacked all window stops. Installed new door jambs and re-hung existing door at South patio. Installed new window sill and mullion adjacent to installed door. **16 hrs.**

Friday Aug. 22 thru Sunday Aug. 24th: Removed Anita's stair treads and replaced with new lumber and hardware. Stained all sides of new treads. **24 hrs**
Paid check # 2447 for $ 1,400. (40x$35.))

Total of Hours Paid To Date (109 hours) = $ 3,815.

Materials Purchased at Home Depot = $ 781.90

Grand Total To Date: $ 4,596.90

San Gabriel, California 91775

September 17, 2014

Mr. Vincent Tsoi
Ms. Anita To
Mr. Michael Ni

Reference: 1414 Fair Oaks: **INVOICE #2**

Dear Vincent and Anita,

Listed below are the hours and expenses incurred from Monday Aug. 25th thru Tuesday, September 16th.

Monday Aug. 25: Completed bolting down Anita's stair treads and applied 2nd. coat of stain. Started demo of Michael's stairs. **8 hrs.**

Tuesday Aug. 26: Finished demo and started to cut & fit Michael's new stair treads. = **8 hrs.**

Wednesday Aug. 27: Completed installation of Michael's stair treads and applied first coat of stain.= **8 hrs.**

Thursday Aug.28: Sanded, patched, and started applying stain to small trellis before Michael stopped Kevin and decided to replace the old lumber. Applied 2nd. coat of stain to Anita's stair treads. Cleaned up the trash behind building.= **8 hrs.**

Friday Aug.29: Patch header/beam over windows on North side of building and apply first coat of stain. Apply second coat of stain to Michael's stair treads.= **8 hrs.**

Cell (310)990-9449 Fax (626) 703-4526

Wednesday Sept.3: Clean up on site and throw debris in dumpster. Set glass stops behind the glass subcontractor and start final coat of interior stain on windows.= **8 hrs.**

Thursday Sept.4: Apply final coast of stain to the exterior of the new windows, demo small trellis, and unload and stack the delivered trellis lumber in Vincent's office. **8 hrs.**

Friday Sept.5: Complete small trellis demo and apply first coat of stain to newly delivered small trellis lumber. Install posts and cross beams for small trellis.= **8 hrs.**

Saturday Sept.6: Built small trellis over entry and applied second coast of stain. **8 hrs.**

Monday Sept.8: Sorted thru new lumber and pulled out twisted 2 x3's. Stain the remaining 2 x 3's. = **8 hrs.**

Tuesday Sept.9: Unloaded replacement lumber and stained new lumber. Started installing posts for large trellis.= **8 hrs.**

Wednesday Sept.10: Set 2 x 12 joist beams and blocking. Start 2 x 3 layout= **8 hrs.**

Thursday Sept.11: Set 2x3 trellis lumber and block.= **8 hrs.**

Friday Sept. 12: Finish installation, blocked out the ends of trellis per Michael's direction and cleaned up the jobsite/work area.= **8 hrs.**

Monday Sept. 15: Install finish stain on all trellis members and complete jobsite cleanup. Started layout for Anita's bench = **8 hrs.**

Tuesday Sept. 16: Built Anita's bench and installed. Cut back rotted posts & beams and stained materials twice.= **8 hrs.**

Total of Hours Paid To Date (128 hours @ $35.) = $ 4,480.

Materials Purchased at Home Depot = $256.99

Grand Total To Date: $ 4,736.99

Sincerely:

Gordon Construction

TITLE

Mills Act Contract - Cty So. Pas + Fair Oaks Prof. Group

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 17th day of December 2014, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Fair Oaks Professional Group, Inc. ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1414 Fair Oaks Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 46 , attached hereto marked "Exhibit B". The Mid-Century Modern "garden-office" complex was designed by Whitney R. Smith and his partners Wayne R. Williams, Garrett Eckbo, and John Kariotis. Whitney R. Smith is considered one of Southern California's most prolific and influential Mid-Century Modern architects. Award-winning landscape architect Garrett Eckbo designed the landscaping at 1414 Fair Oaks Avenue. He was renowned for his innovative postwar landscape designs throughout Southern California;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 17, 2014 and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. For the first five years of the Agreement only, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The maximum term of this Agreement, including any automatic renewals, shall not exceed 15 years from the effective date. The automatic renewal provision shall not apply to add an additional year to the Agreement after the initial five years of the term. If the City desires within the first five years not to automatically renew this Agreement, City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date within the first five years.. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena (including the specific recommendations of the Cultural Heritage Commission), attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement. The Owner shall provide written updates to

the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Fair Oaks Professional Group
c/o: Anita To
1414 Fair Oaks Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of

whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

The above numbered report (including any supplements or amendments thereto) is hereby modified and/or supplemented to reflect the following legal description:

LEGAL DESCRIPTION

Parcel 1:

That portion of Lot 1 of a subdivision of a portion of Lot 11 in Block A of the Marengo Tract, in the City of South Pasadena, in the County of Los Angeles, State of California, as per map recorded in book 11 page 125 of maps, in the office of the county recorder of said county, described as follows:

Beginning at the northwest corner of said lot; thence along the north line of said lot, north 89° 55' 30" east 190 feet more or less, to a point that is distant thereon south 89° 55' 30" west 40.98 feet from the northeast corner of said lot; thence along a straight line which if prolonged would pass through a point in the southerly line of said lot distant thereon north 89° 56' east 190 feet from the southwest corner of said lot, south 47' west 194.88 feet, more or less, to the northeast corner of the land described in the deed to Donald D. Adams and wife, recorded March 28, 1948 as instrument no. 883 in book 22876 page 442 official records, in the office of the county recorder of said county, said corner being in the northerly line of the south 150 feet of said lot; thence along said northerly line south 89° 56' west 190 feet, more or less, to the west line of said lot; thence along said west line north 0° 47' east 194.86 feet, more or less, to the point of beginning.

Except the north 10 feet thereof.

Also except the north 100 feet of the west 100 feet of the remainder of said land.

Parcel 2:

The north 110 feet of the west 100 feet of Lot 1 of a subdivision of a portion of Lot 11, Block "A", Marengo Tract, in the City of South Pasadena, County of Los Angeles, State of California, as per map recorded in book 11 page 125 of maps, in the office of the county recorder of said county.

Excepting therefrom the northerly 10 feet thereof.

RESOLUTION NO. 6763

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING 1414 FAIR OAKS AVENUE (SMITH & WILLIAMS BUILDING) AS AN OFFICIAL SOUTH PASADENA HISTORIC LANDMARK (LANDMARK NO. 46).

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance #2004 (commonly known as the "Cultural Heritage Ordinance") authorized the Cultural Heritage Commission (the "Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared by the Commission to register the property located at 1414 Fair Oaks Avenue also known as the Smith & Williams Building; and

WHEREAS, the research and documentation submitted by subcommittee members Steven Friedman and Glen Duncan amply demonstrates the qualifications of the property for landmark designation; and

WHEREAS, the intent of the Commission's landmark recommendation is to give the property owner maximum adaptive reuse flexibility in any future interior alterations; and

WHEREAS, landmark designation will streamline the approval process for proposed changes in that alterations to designated landmarks require approval only by the Cultural Heritage Commission and not also by the Design Review Board; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (A)(3) ["Designation Procedure"] of the above referenced Ordinance Section in that it visited the site, mailed notices, held a duly noticed public hearing, and received public comment; and

WHEREAS, the Commission made findings of fact pursuant to Subsection (a) (2) ["Designation Procedure"] of the above referenced Ordinance Section, as follows:

(A.) *Its character, interest or value as a part of the heritage of the community.*

Since its very early years, South Pasadena has served as a creative incubator community for an incredible number of successful and pioneering businesses. Smith & Williams, and Community Facilities Planners, their unique collaboration of major architects, engineers, landscape architects, city planners and designers were responsible for over 40 major projects and served as a virtual "school" for design and planning professionals who succeeded in

enriching South Pasadena and Southern California for many decades. Several are still active and continue to pass on the legacy of the unique collaboration that this building both fostered and symbolized.

Successful "graduates" the Smith & Williams Community Facilities Planners include Doug Ewing, Lee Hershberger, Bob Metcalf, Carey Jenkins, Mal Bert, Glen Small, Franklin Thornton, William Bigelow, Bill Rudolph and dozens of others.

(C.) *Its association with a person or persons who significantly contributed to local culture and development of the area and State of California.*

Smith and Williams and many of the designers and professionals who collaborated with "Community Facilities Planners" are major influences in contemporary design. They include Garrett Eckbo, Robert Meyerhof, Phillip Patterson, Stuart Denker, Simon Eisner, A. Quincy Jones, Victor Gruen & Associates, Kariotis & Kesler, Edgardo Contini and Joseph Amestoy.

(D.) *Its exemplification of a particular architectural type in a neighborhood;*

The building embodies the design culture of the early modern era. South Pasadena has few early modern buildings of note; The Smith & Williams Building is undoubtedly the most significant.

(E.) *Its exemplification of the best remaining architectural type in a neighborhood;*

Other than the Smith & Williams Building, the two most significant early modern buildings in the neighborhood are office buildings at 1517 Fair Oaks and at 1631 Huntington drive, both constructed as bridges above street level parking. Both were also products of Smith & Williams and Community Facilities Planners, but neither are nearly as architecturally or culturally important as the one Smith & Williams built as a home for the consortium.

(F.) *Its identification as the work of a person or persons whose work has influenced the heritage of the city, state or United States;*

Whit Smith & Wayne Williams, Garrett Eckbo and John Kariotis, the four professionals who designed the Smith & Williams facility, are all leaders in early modernism who influenced decades of design professionals in their respective fields.

(G.) *Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, detail, materials or craftsmanship.*

The innovative structure was an immediate architectural sensation in the modernist era, capturing several major design awards, including an:

- ***Award of Excellence, Pasadena Chapter, AIA. 1959***
- ***Honor Award,: Nov.12 1963, Southern California Chapter, AIA***
- ***Grand Prix Award from the City of Los Angeles and the SouthernCalifornia Chapter, AIA, Sept. 1, 1967.*** **Cited as "One of the most significant buildings erected in the LA area since 1947."** (Presented at celebration of the 186th Birthday of the City of LA and signed by Los Angeles Mayor Sam Yorty and E.A. Killingsworth, President, Southern California Chapter, AIA); and

WHEREAS, based on the evidence presented in the application materials, the designation being categorically exempt from the California Environmental Quality Act, sub-committee research, on-site inspection and public testimony, the Cultural Heritage Commission voted to recommend designation of this property on October 16, 2003 and forwarded the recommendation to the City council; and

WHEREAS, the City Council held a public hearing on the proposed designation on November 19, 2003 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DOES HEREBY FIND, DETERMINE, AND RESOLVE AS FOLLOWS:

Section 1. The City Council approves the designation of 1414 Fair Oaks Avenue as an Official South Pasadena Historic Landmark; and

Section 2. The City Council directs the City Clerk to file the appropriate designation with the Los Angeles County Clerk's Office.

PASSED, APPROVED, AND ADOPTED this 19th day of November 2003, by the following vote:

Michael A. Cacciotti, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Stephen P. Pfahler, Interim City Attorney

I HEREBY CERTIFY the foregoing Resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 19th day of November 2003, by the following vote:

AYES:	Margrave, Saeta, Stamps, Ten & Mayor Cacciotti
NOES:	None
ABSENT:	None
ABSTAINED:	None

Sally Kilby, City Clerk

Exhibit C

Mills Act Application – Smith & Williams Building, 1414 S. Fair Oaks Ave., South Pasadena

Rehabilitation and Restoration Plan[1]

Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Metal canopy	Metal canopy structure overhead of Buildings A, C, and D	Yes	Alternatives, to be explored through further testing, for consideration, in order of preference: 1. Remove, sandblast, galvanize or coat original expanded metal panels, and reinstall. 2. Replace in-kind (may not be technically feasible due to lack of manufacturing process). 3. Replace with visually similar material that recalls the pattern and texture of the original.	Recommended rehabilitation treatment guidelines (based on Entrances and Porches section): **Protect and Maintain** architectural metals that comprise entrances and porches through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems. Evaluate the overall condition of materials to determine whether more than protection and maintenance are required, that is, repairs to entrance and porch features will be necessary. **Repair** entrances and porches by reinforcing the historic materials. Repair will also generally include the limited replacement in kind—or with compatible substitute material—of those extensively deteriorated or missing parts of repeated features where there are surviving prototypes. **Replace** in-kind an entire entrance or porch that is too deteriorated to repair—if the form and detailing are still evident—using the physical evidence as a model to reproduce the feature. If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered.	Treatment of the metal canopy will be completed by 2024 The Owner will apply for and receive approval of a Certificate of Appropriateness (CofA) prior to initiating treatment on the canopy.
Wood canopy (central)	Wood canopy over central walkway	Yes	Reconstruct missing canopy using documentary photos	Design for the Replacement of Missing Historic Features Design and install a new wood feature when the historic feature is completely missing. It may be an accurate restoration using historical, pictorial, and physical documentation.	2022 or later

[1] All work will follow the Secretary of the Interiors Standards for Rehabilitation unless otherwise noted. The basic guidelines for Rehabilitation are: 1) Identification, retention and preservation of character-defining materials and features; 2) Protection and retention of character-defining materials and features; 3) Stabilization; 4) Repair; 5) Limited in-kind replacement where necessary. Kay D. Weeks and Anne E Grimmer, "Secretary of the Interiors Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings," (Washington DC: National Park Service, US Department of the Interior, 1995).

Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Wood window frames and mullions	Buildings A and D	Yes	Remove sheet metal covering and repair or replace wood frames, sash and mullions in kind.	Recommended rehabilitation treatment guidelines **Protect and Maintain** the wood which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, limited paint removal, and re-application of protective coating systems (paint). Making windows weathertight by re-caulking and replacing or installing weatherstripping. These actions also improve thermal efficiency. **Repair** window frames and sash by patching, splicing, consolidating or otherwise reinforcing. Such repair may also include replacement in-kind—or with compatible substitute material—of those parts that are either extensively deteriorated or are missing when there are surviving prototypes such as sash, sills, muntins, and surrounds. **Replace** in-kind an entire window that is too deteriorated to repair using the same sash and pane configuration and other design details. If using the same kind of material is not technically or economically feasible when replacing windows deteriorated beyond repair, then a compatible substitute material may be considered.	Building C and B completed (2014) Repairs to Building A and D windows will be completed by 2020 (regardless of tenant turnover) The Owner will apply for and receive approval of a Certificate of Appropriateness (CofA) prior to initiating window repair work.
Hardscape	Concrete block retaining wall at north edge of property	Yes	Repair damaged concrete block retaining wall at sidewalk. Replace custom integrally colored red blocks in kind. Maintain planting by cutting back, and remove invasive roots, adding root screens, to mitigate block damage in future.	Recommended rehabilitation treatment guidelines: **Repair** features of the landscape by reinforcing the historic materials. Repair will also generally include the replacement in kind—or with a compatible substitute material—of those extensively deteriorated or missing parts of features when there are surviving prototypes. **Replace** in-kind an entire feature of the landscape that is too deteriorated to repair—when the overall form and detailing are still evident—use the physical evidence as a model to guide the new work. If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered.	To be completed in conjunction with landscape plan to begin in 2015

Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Landscape	Throughout property	Yes	Implement City approved (2006) phased landscape plan to original Garret Eckbo specifications and design. See attached landscape plan by Orange Street Studio.	Recommended rehabilitation treatment guidelines **Identify, retain, and preserve** buildings and their features as well as features of the site that are important in defining its overall historic character. Retain the historic relationship between buildings and the landscape. Preserve important landscape features, including ongoing maintenance of historic plant material.	Phase 1 (completed 2006) Phase 2 (2015) Phase 3 (2016) Phase 4 (2017) Phase 5 (2018)

Mills Act Application – Smith & Williams Building, 1414 S. Fair Oaks Ave., South Pasadena

Maintenance Plan[2]

Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Light fixtures	Hanging globe fixtures throughout property	Yes	Repair or replace broken fixtures in kind as needed.	Recommended rehabilitation treatment guidelines: • Replace in-kind an entire feature of the building or site that is too deteriorated to repair if the overall form and detailing are still evident. • Physical evidence from the deteriorated feature should be used as a model to guide the new work. • If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered.	Replace as needed
Wood features	Window frames; lintels and sills; stairs; canopy structures	Yes	Annual inspection to mitigate deterioration from weathering, dry rot and termite damage. Repair and paint as needed. Treatment to include: Use wood filler to repair damage, sand and paint. Prior to initiating repairs, a maintenance and repair plan for the wood features will be prepared and executed by a Qualified Preservation Contractor. The plan and credentials of the contractor shall then be submitted to the CHC Chair or designee for review and approval in the first year of the maintenance cycle, prior to implementing repairs. If the basic approach and procedures in the plan changes over time, the revisions will be submitted to the CHC Chair or designee for review and approval.	Recommended rehabilitation treatment guidelines: • Evaluate the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary. • Inspect painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. • Remove damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand scraping and hand sanding), then repainting.	Inspect annually, repair as needed

[2] All work will follow the Secretary of the Interiors Standards for Rehabilitation unless otherwise noted. The basic guidelines for Rehabilitation are: 1) Identification, retention and preservation of character-defining materials and features; 2) Protection and retention of character-defining materials and features; 3) Stabilization; 4) Repair; 5) Limited in-kind replacement where necessary. Kay D. Weeks and Anne E Grimmer, "Secretary of the Interiors Standards for the Treatment of Historic Properties with Guidelines for Preserving, Rehabilitating, Restoring and Reconstructing Historic Buildings," (Washington DC: National Park Service, US Department of the Interior, 1995).

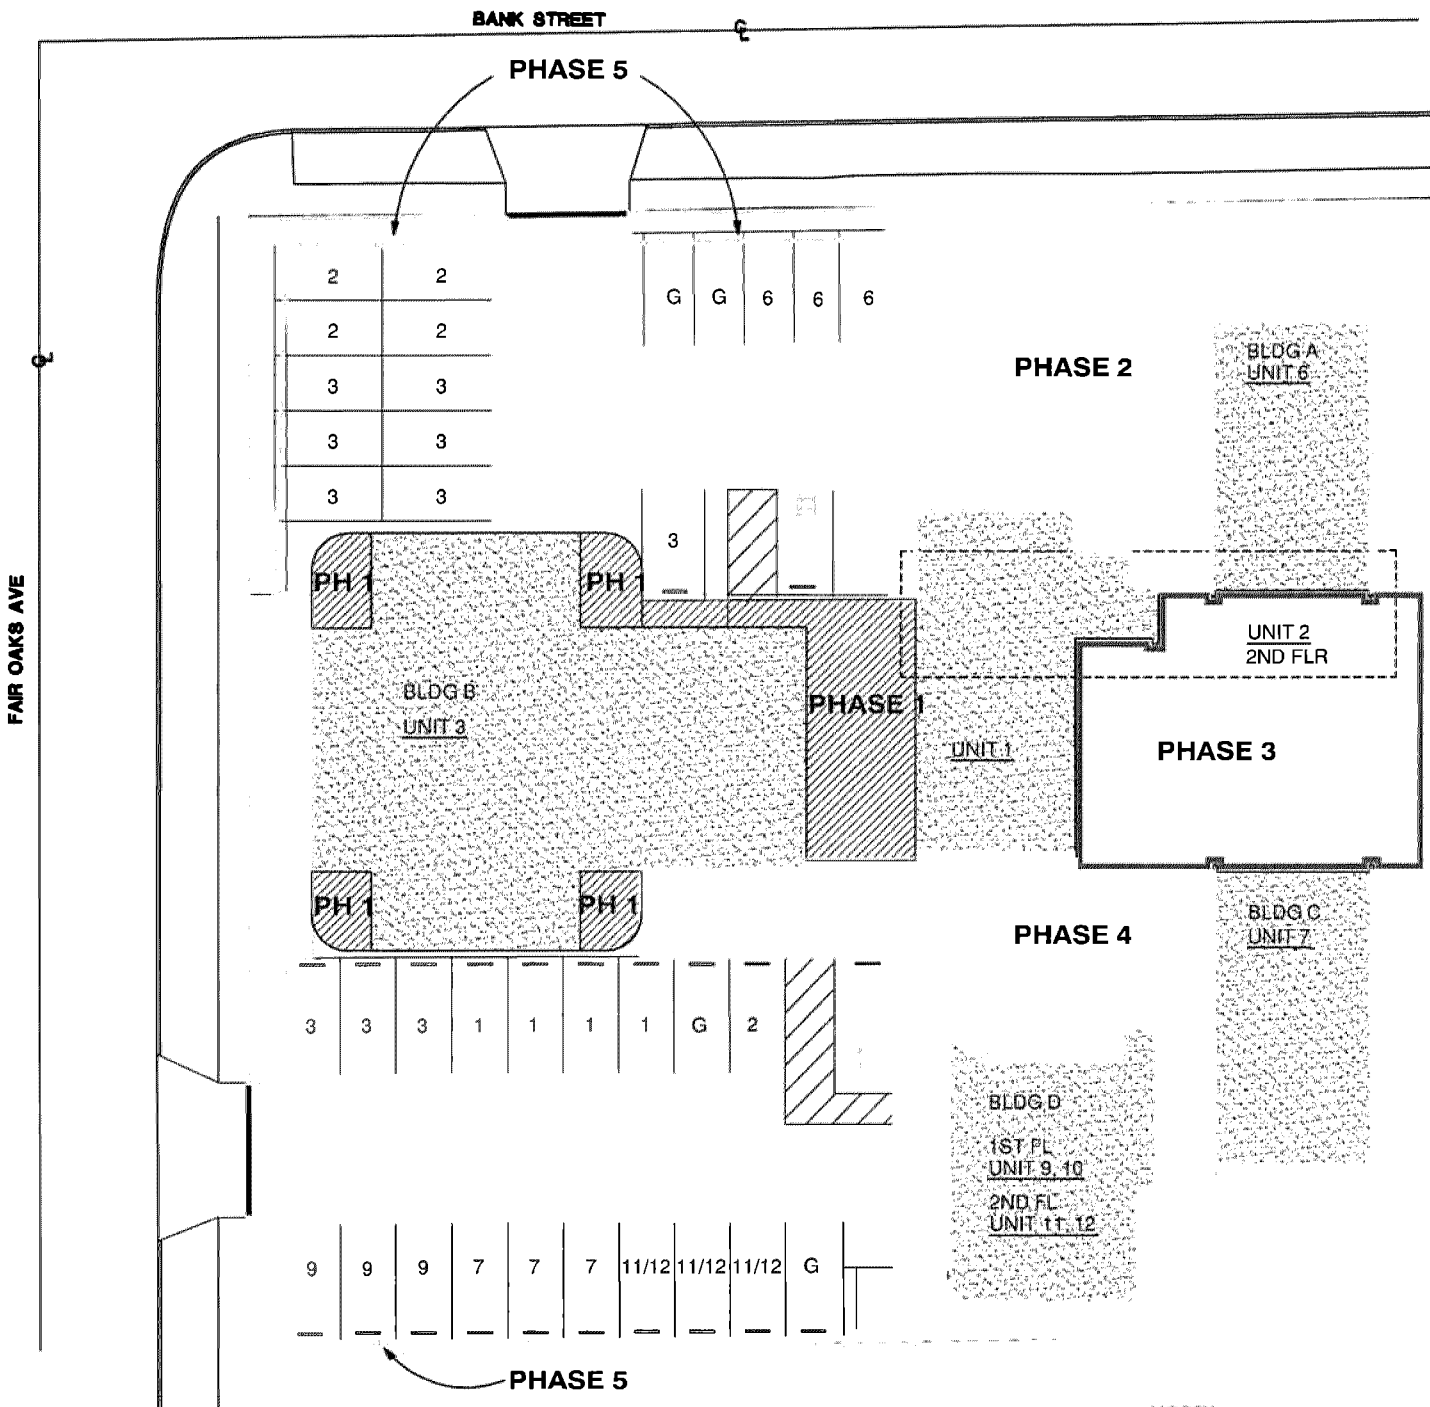
Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Exterior cement plaster cladding	All buildings	Yes	Repair and paint as needed. Treatment to include: Remove bio growth or plant overgrowth, patch plaster if necessary. A maintenance and repair plan for the exterior cement plaster cladding will be prepared and executed by a Qualified Preservation Contractor. The plan and credentials of the contractor shall be submitted to the CHC Chair or designee for review and approval in the first year of the maintenance cycle, prior to implementing repairs. If the basic approach and procedures in the plan changes over time, the revisions will be submitted to the CHC Chair or designee for review and approval.	Recommended rehabilitation treatment guidelines: • Repair stucco by removing the damaged material and patching with new stucco that duplicates the old in strength, composition, color, and texture. • Clean stucco with the gentlest method possible, such as low pressure water and detergents, using natural bristle brushes. • Applying compatible paint coating systems following proper surface preparation. • Repainting with colors that are historically appropriate to the building and district.	Inspect annually, repair as needed
Metal truss system	Truss support for second floor of building A	Yes	Repair and paint as needed. Treatment to include: Scrape loose paint and surface rust, prime and paint.	Recommended rehabilitation treatment guidelines: • Protect and maintain architectural metals from corrosion. • Clean architectural metals, when appropriate, to remove corrosion prior to repainting or applying other appropriate protective coatings. • Use the gentlest cleaning methods for cast iron, wrought iron, and steel—hard metals—in order to remove paint buildup and corrosion. • Apply appropriate paint or other coating systems after cleaning in order to decrease the corrosion rate of metals or alloys. • Repaint with colors that are appropriate to the historic building.	Inspect annually, repair as needed
Roof	All buildings	Yes	Repair as needed. Original scuppers should be preserved. Treatment to include: Remove leaves and debris annually. Clean gutters and drains annually.	Recommended rehabilitation treatment guidelines: • Protect and maintain roof by cleaning the gutters and downspouts and replacing deteriorated flashing. • Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to ensure that materials are free from insect infestation.	Inspect annually, repair as needed

Feature	Location	Character-Defining Feature	Scope of Work and Proposed Treatment	Standards Compliance	Schedule
Hardscape	Exposed aggregate poured in place concrete pavers, concrete slab and brick pavers throughout property	Yes	Repair concrete pavers or replace in kind as needed. Replace wood spacers as needed. Treatment to include: If replacement is necessary, match color of concrete and size of aggregate to seamlessly integrate new pavers with original pavers.	Recommended rehabilitation treatment guidelines: • Replace in-kind an entire feature of the building or site that is too deteriorated to repair if the overall form and detailing are still evident. • Physical evidence from the deteriorated feature should be used as a model to guide the new work. • If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered.	Repair or replace as needed
Landscape	Throughout property	Yes	Follow maintenance recommendations in Landscape Plan. Treatment to include: Observe and prune trees annually. Maintain and trim planting to prevent overgrowth. Keep planting away from buildings and remove ivy from exterior walls.	Recommended rehabilitation treatment guidelines: • Retain the historic relationship between buildings and the landscape. • Preserve important landscape features, including ongoing maintenance of historic plant material. • Provide continued protection of historic building materials and plant features through pruning and vegetation management. • Replace deteriorated or damaged landscape features in-kind.	As needed
Irrigation	Throughout property	No	Monitor water spray from irrigation system to prevent tidelines and bio growth on cement plaster cladding.	Recommended rehabilitation treatment guidelines: • Provide proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape.	As needed

Landscape Restoration Plan

The landscape plan, prepared by Orange Street Studio, was approved by the City of South Pasadena in 2006. The plan was completed in reference to the original design by the renowned landscape architect Garret Eckbo (1910-2000).

The landscape of the property was designed around various courtyards and generous open spaces. The majority of the landscape is covered by a metal canopy which provides shade and a cooler ambient temperature. The central courtyard originally had a built-in fountain and wood benches. However, the fountain was filled in by the prior owners making it non-functional. The courtyards and the walkways have brick, pebbles or concrete paving throughout the property. The paving design includes redwood edging. Much of the paving and edging will require replacement or restoration due to vegetation overgrowth and damage occasioned by roots.



The landscape on this property was neglected by previous owners for many years. Many of the original plants were replaced, allowed to die or overgrow their original design.

The landscape design is a major character component of this property. Garret Eckbo's design enhances the architects Smith and Williams' theme of integrating the indoors with the outdoors. The courtyards between the buildings on the property provide ample lights. The walkways and landscaping that surrounds these courtyards promote a visual and physical connection with the environment.

The following is only a summary of the landscape plan. Please refer to the full landscape plane set for details.

Landscape Plan Summary:

- New groundcover along the perimeter of the property
- Identify existing plant species in order to find matching new plants
- Plant new trees and plants according to plan
- Clear existing vines and ivy on the west side of the property
- Restore fountain in the central courtyard
- Replace chain link fence on the west side of the property with wrought iron fence to match the existing fence on the south parking lot
- Replace damaged and rotted wooden edging with pressure-treated redwood edging around the planting areas throughout the project
- New irrigation
- New lighting
- Add boulders per historic photos
- Remove brick to restore the planting areas

Summary of Estimated Costs

	Capitalized Expenses	Amount Estimate as of 2014	Schedule
1	Metal Canopy: Remove, sandblast, galvanize or coat original expanded metal panels and reinstall.	$87,980	2024
2	Scaffoldings or lift rental for metal canopy restoration	$5000	
3	Hardscape/Landscape: restoration and preservation per approved plan	$115,235	2015-2018
4	Wood window frames and Mullions: Remove sheet metal covering and repair or replace wood frames, sash and mullions in kind. Building A&D, Unit 1&2. Estimate base on repair expense in 2014 on Building 7.	$73,000	2020
5	Wood feature: Wood Canopy over central walkway	$50,000	2022
	Total of Estimated Capitalized Expense	**$331,215**	

Reporting System:

One of the owners of Smith & Williams Building, Anita To, will provide written updates to the City of South Pasadena every two years, documenting progress and providing updates on the Rehabilitation, Preservation and Maintenance Plans.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and compies of permits and COAs (if required).

EXHIBIT D

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Vincent Tsoi, President
Fair Oaks Professional Group, Inc.
1414 Fair Oaks Avenue
South Pasadena, CA 91030

SUBJECT: Mills Act Contract
PROJECT ADDRESS: 1414 Fair Oaks Avenue (Smith & Williams Building)

Dear Mr Tsoi,

NOTICE IS HEREBY GIVEN THAT on November 20, 2014, the City of South Pasadena Cultural Heritage Commission (CHC) recommended that the City Council enter into a Mills Act Contract regarding the rehabilitation of your corporation's property at 1414 Fair Oaks Avenue.

The CHC recommended that Mills Act contract include the following:

- Treatment of metal canopy to be completed by year 2024 instead of an unspecified date after 2022. The owner must first obtain a Certificate of Appropriateness approval for the owners' plans to rehabilitate the canopy.
- All wood framed windows to be repaired by year 2020 instead of the unknown dates of when tenants move out. The owner must first obtain a Certificate of Appropriateness about how the wood framed windows will be repaired.
- Prior to starting work on the maintenance/repair of wood features and cement plaster cladding, the owner shall submit a detailed maintenance and repair plan that's prepared and performed by a qualified preservation contractor with credentials. The maintenance/repair plan and contractors' credentials shall be first reviewed by the Chairperson of the Commission

If you have any questions regarding this notice, please contact me at (626) 403-7220.

Sincerely,

John Mayer
Senior Planner

325 Oaklawn Avenue

2025 PROGRESS REPORT

Brian and Jenny Bright
325 Oaklawn Ave.
South Pasadena, CA 91030
3/30/2025

Mr. Donovan and Members of the South Pasadena Cultural Heritage Commission
1414 Mission St.
South Pasadena, CA 91030
Attention: Michael Donovan, Associate Planner

Re: Mills Act Contract re 325 Oaklawn Ave.

Dear Mr. Donovan and Members of the South Pasadena Cultural Heritage Commission:

Thank you again for your support in the restoration of the historic Mitchell House at 325 Oaklawn Ave. We are writing to give you an update on our Mills Act progress as required under Section 8 of the Mills Act Contract. Attached is a summary table and power point explaining the status of each of the items in the Rehabilitation & Maintenance Plan.

Currently, we are working with the planning department for Item 7 in the table "Chimney and Fireplace: Demolish and reconstruct existing unsafe (previously rebuilt in 1991) chimney to its original configuration based on historic photographs, cleaning flues, repair firebox, reconstruct damaged outer hearth". This is a big job and has a few dependent items. We hope to begin work on it in the next few months, assuming no issues in the permitting process.

Prior to commencement of work:

"Since it is unknowable at this time as to which of the following items might be undertaken, and in what order, it is not possible to forecast or introduce a factor for escalation of the costs below into the future at this time. As implied the sequencing of the contemplated scope of work may also evolve over time due changing views with respect to prioritizing."

We will continue to keep you updated of our progress. Thank you again for partnering with us in working to preserve one of our City's historic resources.

Sincerely,

Brian and Jenny Bright

Item Number	Feature and Treatment	Capitalized Costs	Current Status	Area	Character Defining Feature	Standards
	Division 1 — General Requirements					
	Historic Architectural Services, as estimated and cumulative over 10 years	n/a		Throughout	n/a	
	Structural Engineering Services, estimated	n/a		Throughout	n/a	
	Division 2 — Site Construction					
1	Exterior Subterranean Sewer Pipe: Replace the existing root infested sewer line from rear of house to the main sewer in Fremont to the West to prevent potential damage to the structure.	n/a	Completed 2018	Rear Yard	No	Repairs according to industry standards and applicable building codes.
2	Site Drainage: Correct site drainage issues around the house and garage causing flooding during rains and potential damage to structure, install French drain system.	$3,500	Completed 2019	Rear Yard	No	Protect and Maintain
	Landscaping:					
3	Rear Yard at Fremont: Install new plant material and irrigation at rear yard behind Greene and Greene wall/fence to better camouflage second fencing that is closer to the house. Prune shrubs and trees on Parkway to better expose the Greene and Greene wall/fence so it can be enjoyed by the public from Fremont.	$3,600	Completed 2019	Rear Property Line	No	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
4	Front Yard: Restore front yard landscaping by installing more historically appropriate plant materials based on historic photographs and evidence from comparable homes of age and architectural style. Also rework existing irrigation system to prevent further damage from excessive irrigation moisure on the foundation	$6,000	Completed 2020	Front Yard	Yes	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
	Division 3 — Concrete					
5	Seismic Retrofit to prevent damage to the structure: Anchor existing wood framed structure to existing concrete foundations, repair existing concrete stem walls, Ed Sylvis Seismic Safety $6,000 less $3,000 grant from Earthquake Brace and Bolt Program.	$3,000	Completed 2017	Foundation	No	Repairs according to industry standards and applicable building codes.
6	Concrete Porches Beneath Soft Stories: Significant staining, pitting and cracking of the slabs and stairs is present along with soild erosion beneath. Slabs to be repoured and finished in the original trowell method used during construction in 1910. Original scoring lines will be recreated as they were. Erosion beneath the porches to be shored up and compacted to properly support the slabs.	$18,000	Completed 2019	Front and Side Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 4 — Masonry					
7	Chimney and Fireplace: Demolish and reconstruct existing unsafe (previously rebuilt in 1991) chimney to its original configuration based on historic photographs, cleaning flues, repair firebox, reconstruct damaged outer hearth, Douglas Masonry	$30,000	In Process	South Ext Residence	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
8	Original Greene and Greene Designed Wall and Fence at Rear on Fremont: repair and replace missing and damaged stone and clinker brick, repointing as needed, see wood lattice repairs under Division 6, Douglas Masonry	$5,000	Completed 2019	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 5 — Metals					

9	**Sheet-metal: Fabricate and install custom protective copper caps for exposed portions of beams, rafter tails, and lookouts, Morrison Sheet Metal**	**$4,500**	**In Process**	**Roof Detail Ext**	**Yes**	**"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."**
10	Downspouts: Repair as necessary, Morrison Sheet Metal	$1,500	Completed 2023	Ext Residence	Yes	Protect and Maintain
	Division 6 — Wood and Plastics					
	Exterior:					
11	Restore Dining Room Bay and East Wall Damage Caused by Wind Blowing over Frontyard Tree: includes reconstructing and recovering roof, replacing damaged barn shingles, and damaged structural barge rafter at roof, Peter Matthiessen Builders. $16,000 less $9000 insurance settlement	$7,000	Completed 2017	Front Residence Ext	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
12	Wood Lattice at Greene and Greene Designed Wall and Fence at Fremont: Reconstruct original lattice fence work saving as much of the historic fabric as possible, replacing deteriorated portions with new custom milled wood to match, staining wood.	$5,000	Completed 2019	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
13	Rafter Tails, Lookouts and Beams: Repair all exposed and deteriorated rafter tails and beam ends sized and shaped to match original construction, while some have been repaired under past ownership, repairs or inconsistent in matching the size and shape of the originals.	$7,500	Completed 2023	Roof Detail Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
14	**East/Street Elevation: Wood Trellis - reconstruct original wood trellis based upon historic photographs as install at front elevation with custom milled wood.**	**$6,000**	**In Process**	**Front Residence Ext**	**Yes**	**"Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken."**
15	Wood Framing of Front Porch - repair or replace wood that is currently structurally compromised by past termite and dry rot damage.	$7,000	Completed 2023	Front Residence Ext	Yes	"Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken."
	Interior:					
16	Wood Head/Horizontal Door and Window Casings: Install new interior door and window head casings where the original extensions have been cut off by previous owners, the exaggerated extension of the head casing is typical of the architect G. L. Stimson's work and an important character defining feature, requires custom milled wood.	n/a	TBD	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
17	Wood Fireplace Mantle: Reconstruct missing original wood mantle and firebox surround, design is to be based on surviving examples in other homes of the period designed by G. L. Stimson and clues that may be remnant after the existing is removed, requires custom milled wood.	n/a	TBD	Living Room Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 7 — Thermal and Moisture Protection					

18	Remove and replace existing deteriorated roof coverings, replace existing three-tab composition shingles on upper roof with wood shingles as originally constructed, Re-roof with Grade One Red Cedar Fire-treated Class B 18 Wood Shingles, replace existing sheet roofing on lower roofs replicating historic rolled edge detailing. 72# mineral surface cap sheet to achieve Class A fire rating, all included in cost, Campagna Roofing.	$43,000	Base roof completed 2023, CeDUR roof details in 2026 after chimney repair	Residence, Porte Cochere and detached garage Roof	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
19	Source or custom mill and replace wood siding shingles, as needed, as they are reaching end of life.	$15,000	Completed 2023	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 8 — Doors and Windows					
20	Windows: Remove existing 26 X 42 "modern" jalousie windows (6 count) at regional service porch, replace with traditional custom fabricated wood sash and historically appropriate hardware.	$8,000	Completed 2018	North and West Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
21	Windows: Refit all existing windows as required, replace broken glass and broken or missing sash cords and hardware(7 count), install traditional bronze leaf weather stripping where damaged or missing (34 count).	$4,000	Completed 2022	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
22	Insect Screens(34 Count): Refit existing or missing traditional wood framed insect screen, custom fabricate and install missing wood insect screens, all screens to have traditional copper bronze insect screening, includes new traditional hardware.	$4,000	Completed 2018	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 9 — Finishes					
	Interior:					
23	First Floor and Stairs: *In conjunction with the overall exterior work*, wood doors and windows, casings and sash, carefully strip of existing paint and refinish with a stained and clear finish to match original, Benjamin Gonzalez	$6,000	Completed 2017	First Floor and Stairs Int	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
24	Interior wood paneling and base moldings : Carefully strip of existing paint and refinish with a stained and clear finish to match original, Benjamin Gonzalez	n/a	Completed 2017	Throughout Int	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
25	New Wood Head Casings Installed Under Division 6: Apply stain and clear finish to match original interior woodwork, Benjamin Gonzalez	n/a	TBD	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
26	Walls & Ceilings: Preparation and painting of all interior plaster surfaces, re-create the original plaster textured finishes, Brandlin Painting	n/a	Completed 2018	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Exterior:					
27	Paint - Wood Shingle Siding, Window Sash and Door Trim, Roof Eaves and Rafter Tails, Lookouts and Beams: Thoroughly prepare and refinish all exterior wood elements as listed, Brandlin Painting	$39,000	Completed 2023	Ext Residence Throughout	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
	Division 10 — Specialties					
	Not applicable at this time				n/a	
	Division 11 — Equipment					
	Not applicable				n/a	
	Division 12 — Furnishings					
	Not applicable at this time				n/a	
	Division 13 — Special Construction					

28	Wall at Fremont: Replace current wood fencing, which visually detracts from the historic Greene and Greene fencing at the sidewalk, with a camouflaged traffic sound mitigation wall. Landscaping and irrigation will be installed between the historic fencing and sound wall to help enhance public viewing of the Greene and Greene fencing on Fremont.	$28,000	Completed 2019	Rear Property Line	No	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
	Division 14 — Conveying Systems Not applicable				n/a	
	Division 15 — Mechanical (Includes Plumbing and HVAC)					
	Plumbing: Not applicable at this time as the entire residence has been re-plumbed including new hot and cold water distribution piping along with interior waste system since acquisition by current owners, existing vintage plumbing fixtures were retained	0	Completed 2015		n/a	
	HVAC: Not applicable at this time as a new 2 zone system heating and air conditioning system has been installed replacing the previous gravity heating system since acquisition by current owners	0	Completed 2015		n/a	
	Division 16 — Electrical Not applicable at this time as the entire residence has been rewired including an upgraded electrical service since acquisition by current owners	0	Completed 2015		n/a	
	Maintenance Inspections as Outlined Below(24) $250 each	$6,000				
	TOTAL Capitalized and Non-Capitalized	$260,600				
	GRAND TOTAL					

Photo Documentation of Mills Act Progress

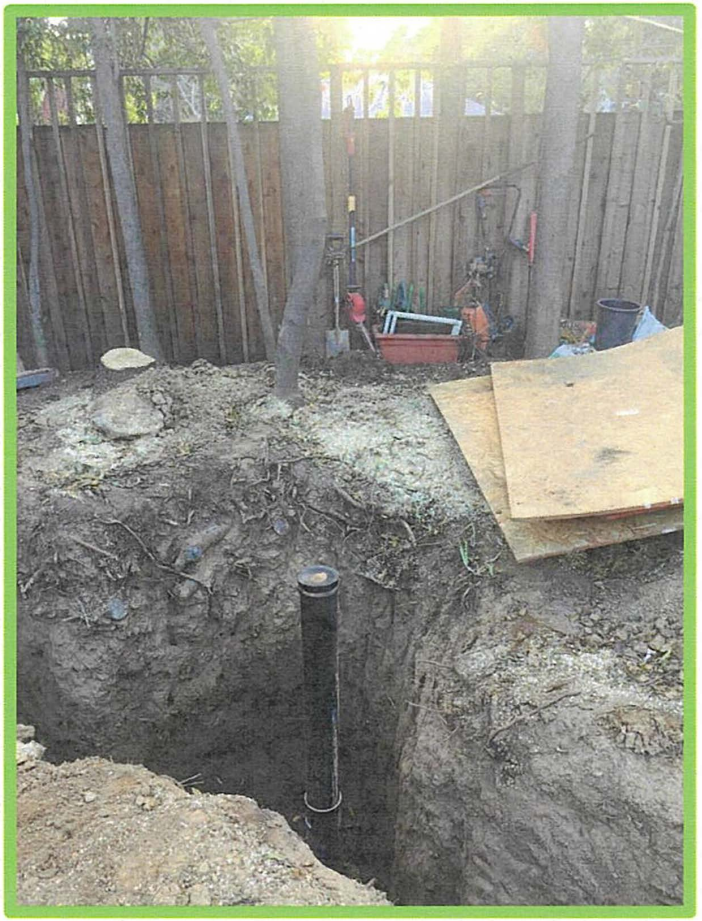
South Pasadena, CA 91030

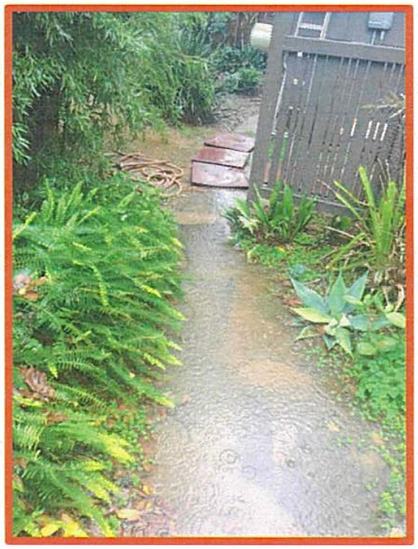


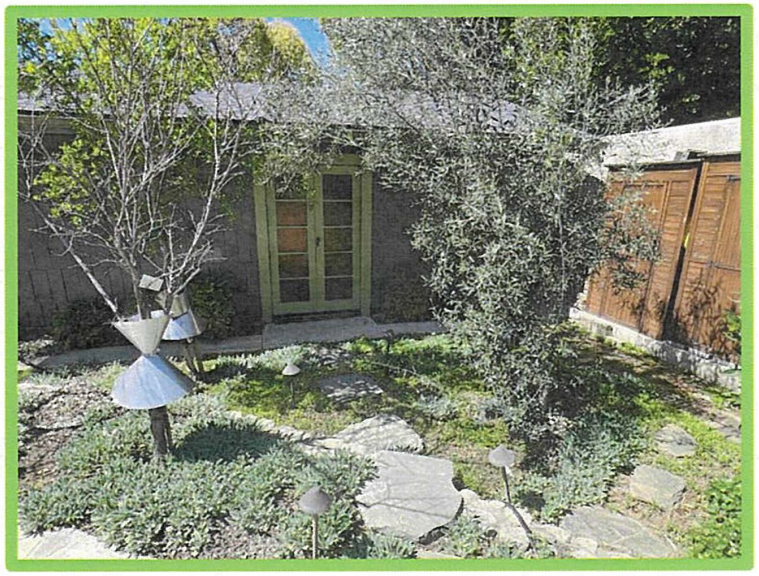
Pictures outlined in green are post restoration and in red are pre restoration.

Division 2 — Site Construction

Item 1: Exterior Subterranean Sewer Pipe: Replace the existing root infested sewer line from rear of house to the main sewer in Fremont to the West to prevent potential damage to the structure.

Area: Rear Yard
Current Status: **Completed 2018**
Not Capitalized

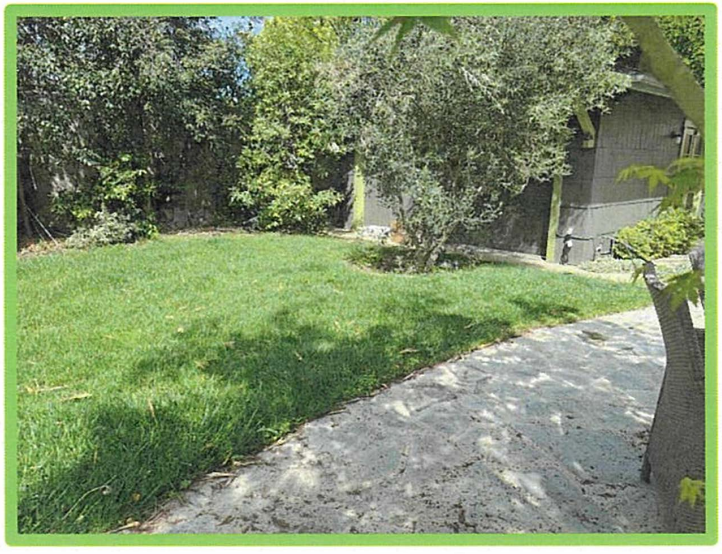


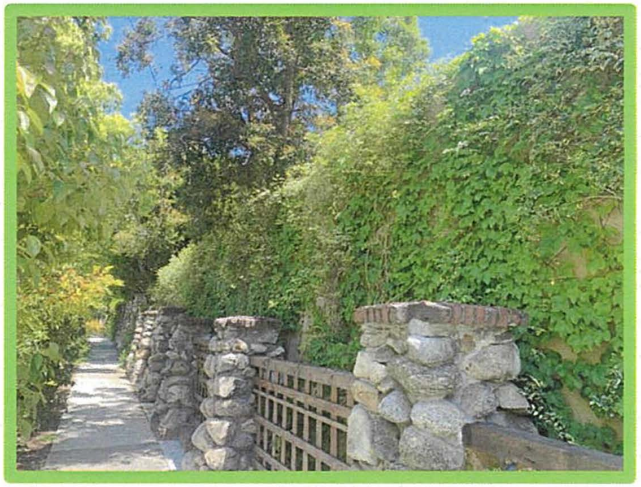


Division 2 — Site Construction

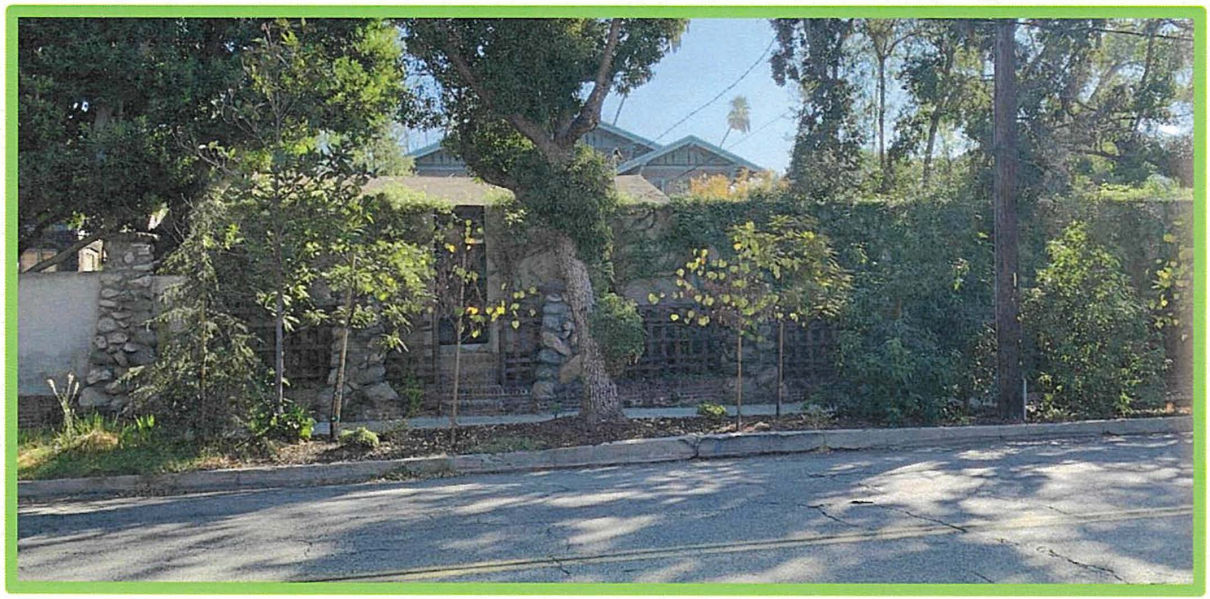
Item 2: Site Drainage: Correct site drainage issues around the house and garage causing flooding during rains and potential damage to structure, install French drain system.

Area: Rear Yard
Current Status: **Completed 2019**



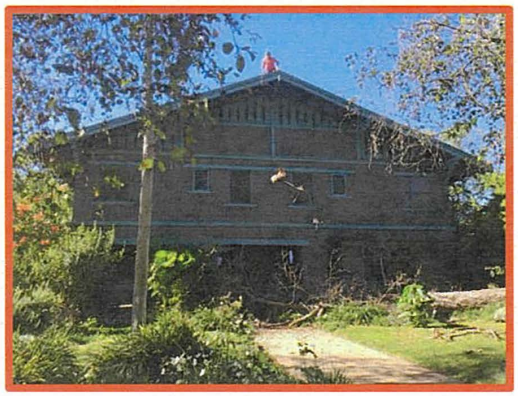


Division 2 — Site Construction - Landscaping

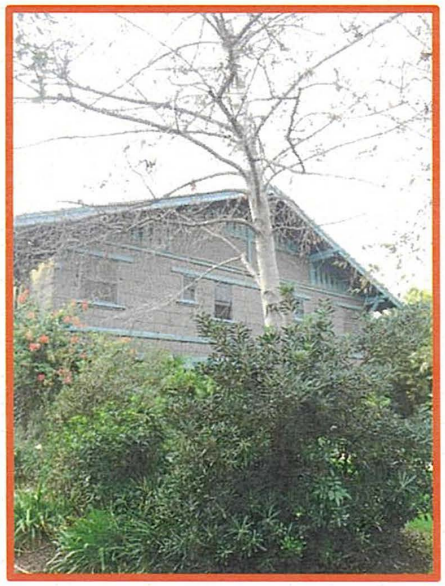


Item 3: Rear Yard at Fremont: Install new plant material and irrigation at rear yard behind Greene and Greene wall/fence to better camouflage second fencing that is closer to the house. Prune shrubs and trees on Parkway to better expose the Greene and Greene wall/fence so it can be enjoyed by the public from Fremont.

Area: Rear Yard
Current Status: **Completed 2019**

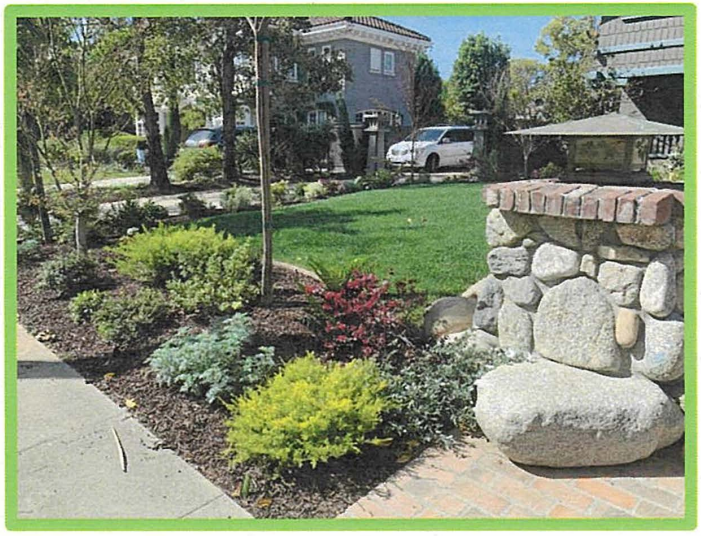


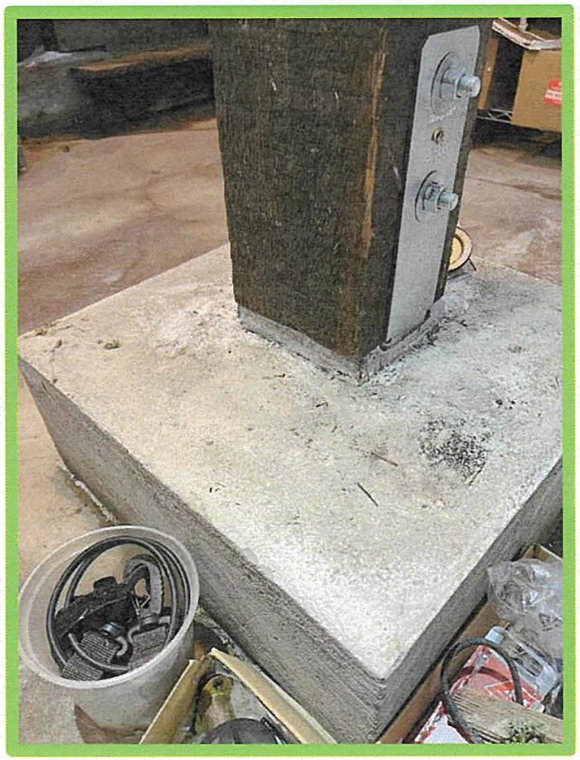
Division 2 — Site Construction - Landscaping

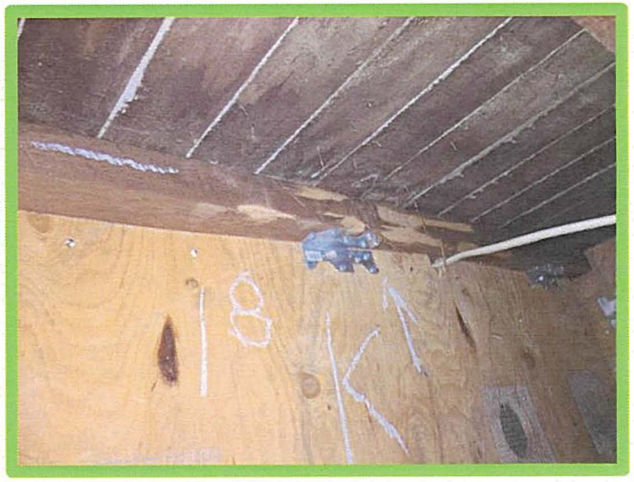


Item 4: Front Yard: Restore front yard landscaping by installing more historically appropriate plant materials based on historic photographs and evidence from comparable homes of age and architectural style. Also rework existing irrigation system to prevent further damage from excessive irrigation moisture on the foundation

Area: Front Yard
Current Status: **Completed 2020**







Division 3 — Concrete

Item 5: Seismic Retrofit to prevent damage to the structure: Anchor existing wood framed structure to existing concrete foundations, repair existing concrete stem walls.

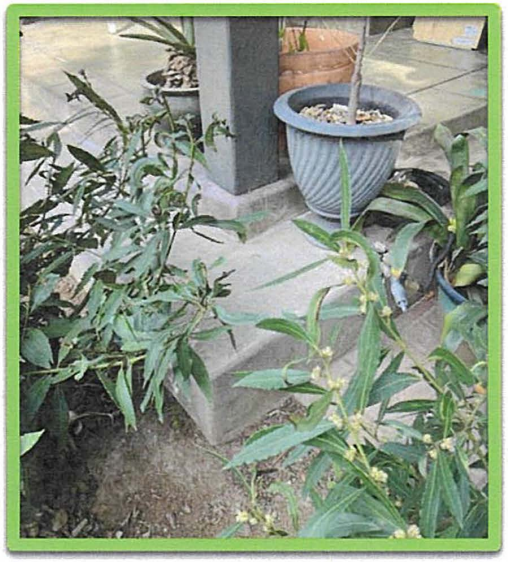
Area: Foundation
Current Status: **Completed 2017**

Division 3 — Concrete

Item 6: Concrete Porches Beneath Soft Stories: Significant staining, pitting and cracking of the slabs and stairs is present along with soil erosion beneath. Slabs to be re-poured and finished in the original trowel method used during construction in 1910. Original scoring lines will be recreated as they were. Erosion beneath the porches to be shored up and compacted to properly support the slabs.

Area: Front and Side Residence exterior

Current Status: **Completed 2019**



Division 4 — Masonry

Item 7: Chimney and Fireplace: Demolish and reconstruct existing unsafe (previously rebuilt in 1991) chimney to its original configuration based on historic photographs, cleaning flues, repair firebox, reconstruct damaged outer hearth.

Area: South Ext Residence
Current Status: **In Process**

Project was delayed due to Covid. Original capitalized cost was set at 30K. An architect and engineer were hired and the project was permitted by the City. We could not find a contractor to execute it as planned for less than 150K. Contractors informed us it was unnecessarily over engineered. We had to start over with a new plan and met with Jeff Nott from Nott and Associates and he referred us back to Douglas Masonry. They scoped out a reasonably priced (<50K) bid and have been in the process of obtaining a new permit, meeting with the South Pasadena planning department as recently as 3/26/25.

30 North Raymond Avenue. Ste. 705, Pasadena. Cal. 91103
License 877947

Bright Residence: Construction Preliminary Budget - Chimney Replacement
325 Oaklawn Avenue, South Pasadena CA 91030

BID CONFIRMATION

TO: Jenny Bright 10-17-24
bizzybrights@gmail.com
325 Oaklawn Ave.
South Pasadena, CA 91030

JOB ADDRESS: Residence, same as above

This bid **INCLUDES** labor and materials to provide the following work:

CHIMNEY

Remove existing chimney down to top of the shoulder, saving brick to be cleaned and reused for veneer. Purchase building permit.

Pour concrete bond beam. Install metal anchor bolts and plate. Build new chimney in same shape and style as original per L.A. Standard detail with steel studs and metal flues. Install plywood, waterproof, lath, and plaster. Purchase additional brick to match as needed.

Saw cut original brick for veneer and install brick on chimney to match original. Build top of chimney detail as per the old photograph provided by owner.

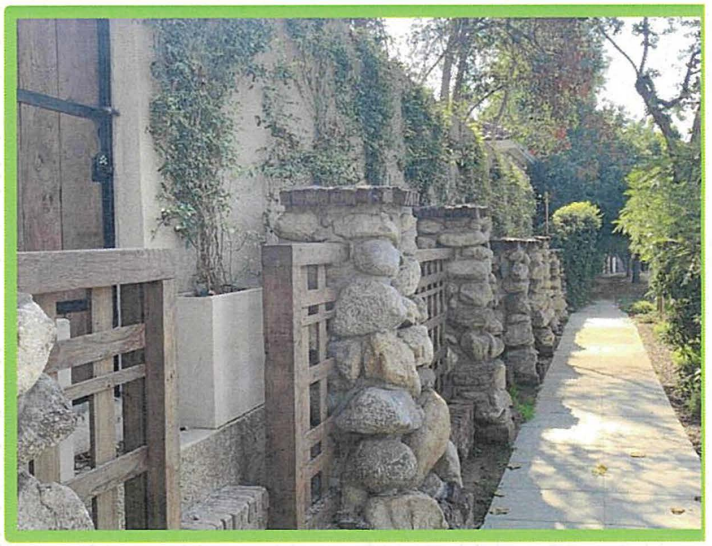
Clean out remaining mortar joints on chimney and regrout with dark gray mortar. Install metal bracing from chimney to roof as per code. Install spark arrestor rain cap.

COST: $41,000.00

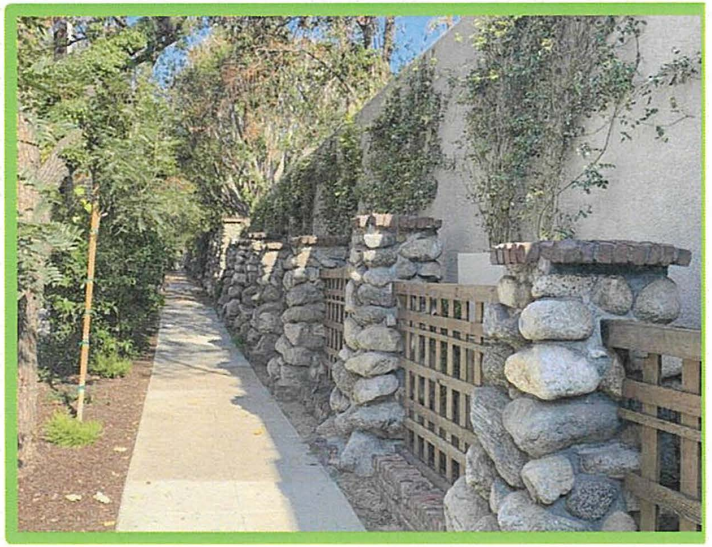
Option: Remove existing chimney to the *second* shoulder (about 4 feet more down)
COST: an additional $4,000.00

This bid specifically **EXCLUDES**: any work on roof; interior plaster repairs; painting, smoke detectors; landscaping; sprinkler repairs.

Division 4 — Masonry



Item 8: Original Greene and Greene Designed Wall and Fence at Rear on Fremont: repair and replace missing and damaged stone and clinker brick, repointing as needed, see wood lattice repairs under Division 6.

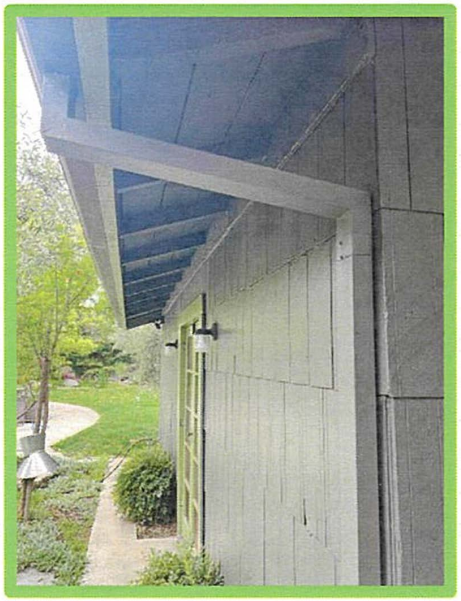


Area: Rear Property Line
Current Status: **Completed 2019**

Division 5 — Metals

Item 9: Sheet-metal: Fabricate and install custom protective copper caps for exposed portions of beams, rafter tails, and lookouts.

Area: Roof Detail Ext
Current Status: **In Process**

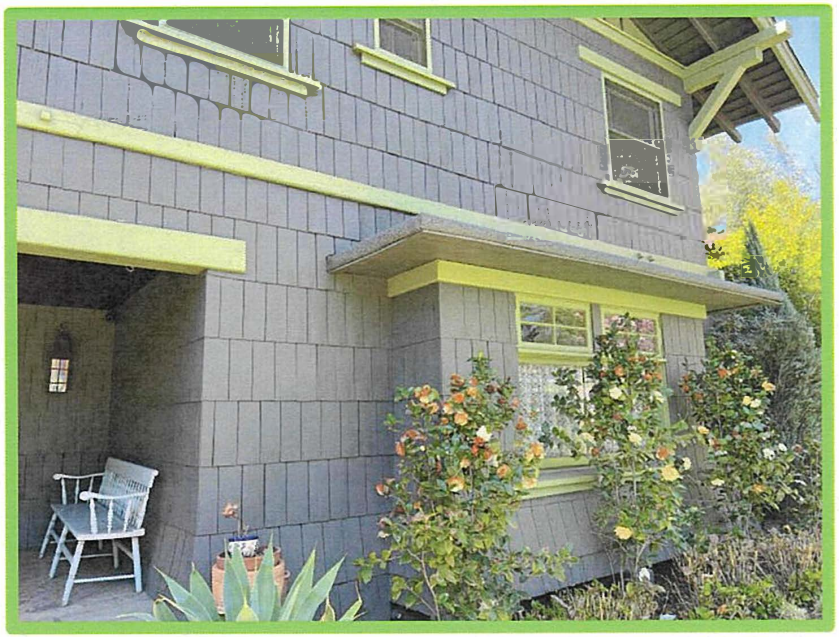


Project was dependent on paint, rafter repair, and roof replacement getting done. Copper is being sourced with work to begin in Summer of 2025.

Division 5 — Metals

Item 10: Downspouts: Repair as necessary.

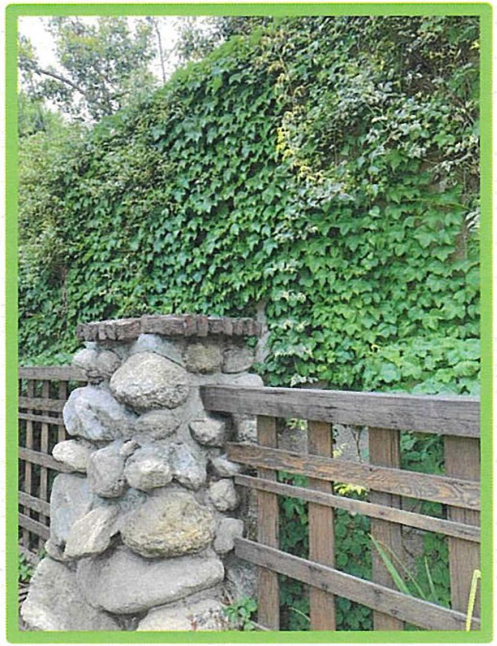
Area: Ext Residence
Current Status: **Completed 2023**



Division 6 — Wood and Plastics -Exterior

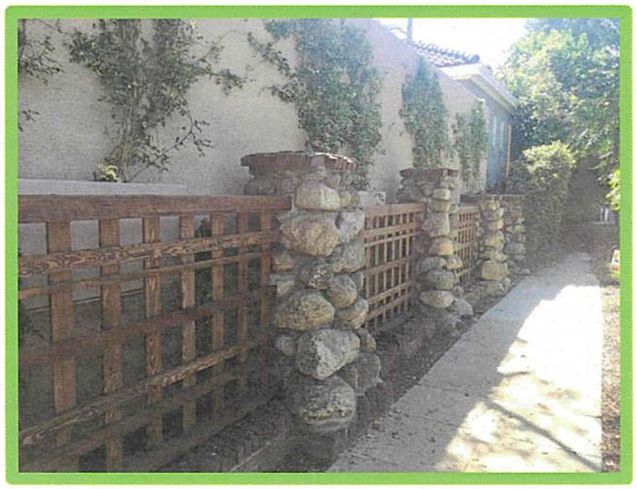
Item 11: Restore Dining Room Bay and East Wall Damage Caused by Wind Blowing over Front yard Tree: includes reconstructing and recovering roof, replacing damaged barn shingles, and damaged structural barge rafter at roof.

Area: Front Residence Ext
Current Status: **Completed 2017**

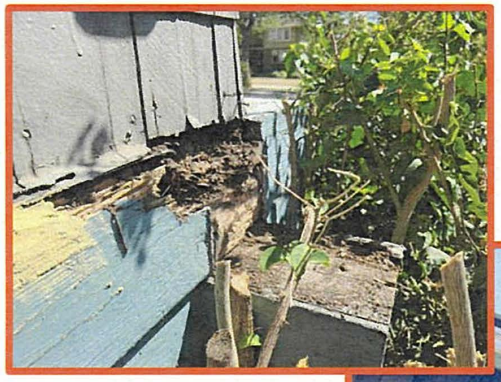


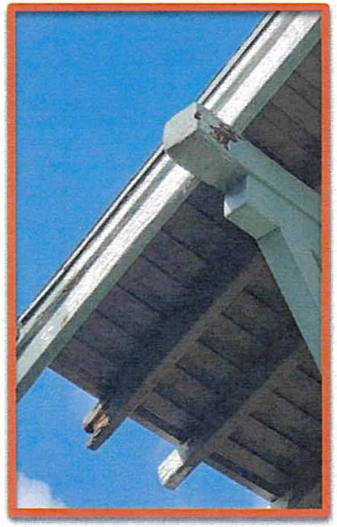
Division 6 — Wood and Plastics - Exterior

Item 12: Wood Lattice at Greene and Greene Designed Wall and Fence at Fremont: Reconstruct original lattice fence work saving as much of the historic fabric as possible, replacing deteriorated portions with new custom milled wood to match, staining wood.

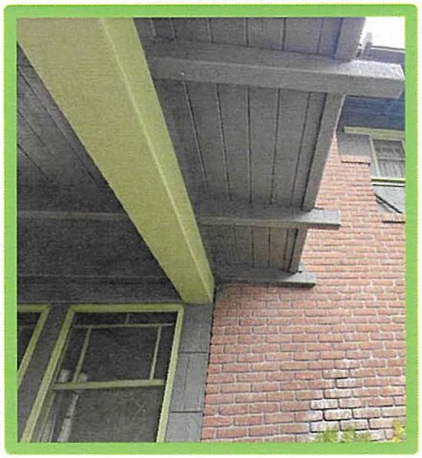


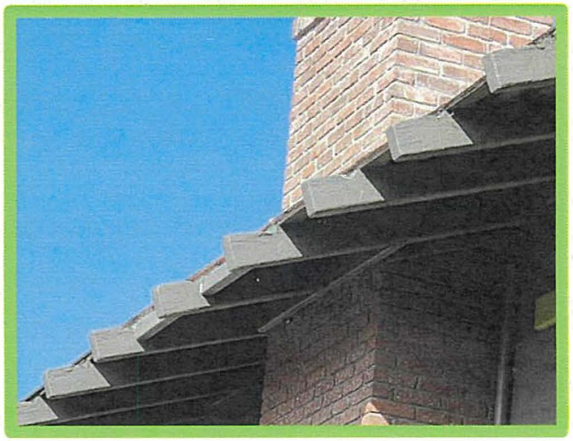
Area: Rear Property Line
Current Status: **Completed 2019**





Division 6 — Wood and Plastics - Exterior





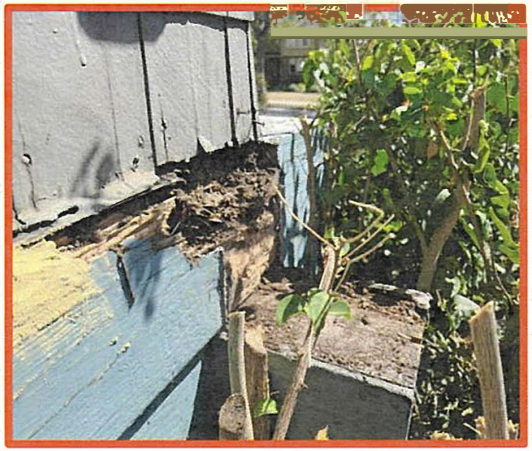
Item 13: Rafter Tails, Lookouts and Beams: Repair all exposed and deteriorated rafter tails and beam ends sized and shaped to match original construction, while some have been repaired under past ownership, repairs or inconsistent in matching the size and shape of the originals.

Area: Roof Detail Ext
Current Status: **Completed 2023**

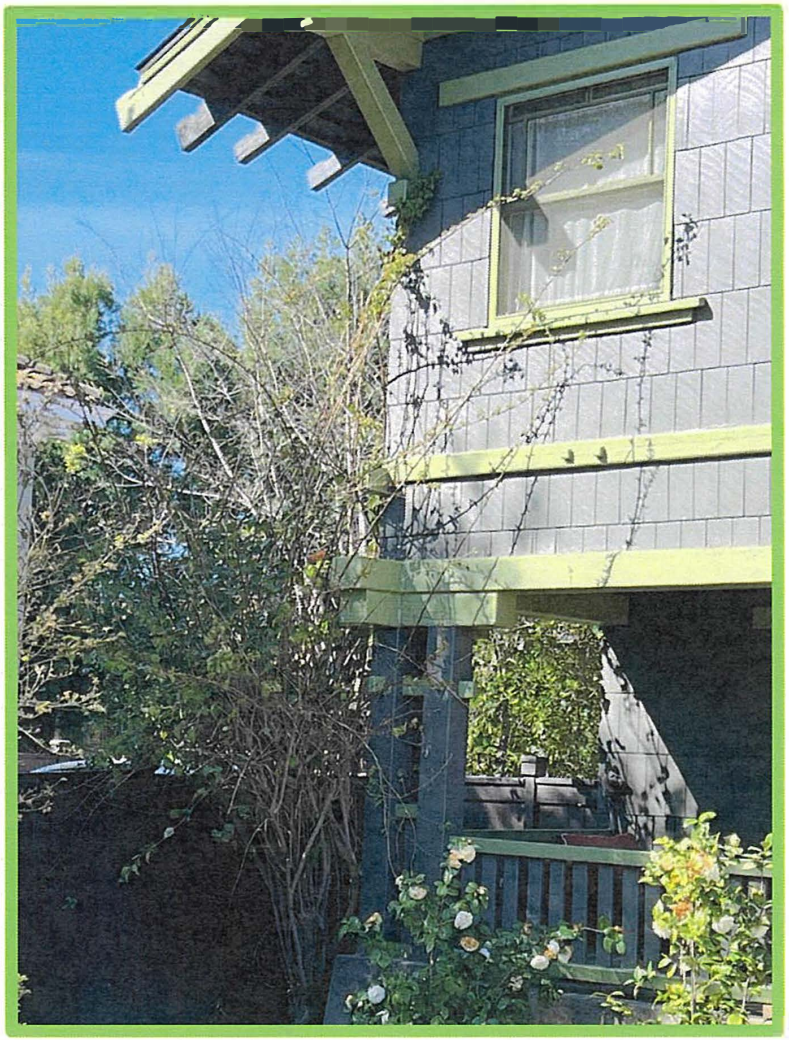
Division 6 — Wood and Plastics - Exterior

Item 14: East/Street Elevation: Wood Trellis - reconstruct original wood trellis based upon historic photographs as install at front elevation with custom milled wood.

Area: Front Residence Ext
Current Status: **In Process**



Project was dependent on completion of paint and rafter repair. Will be completed with copper rafter tail work in spring / summer 2025.



Division 6 — Wood and Plastics - Exterior

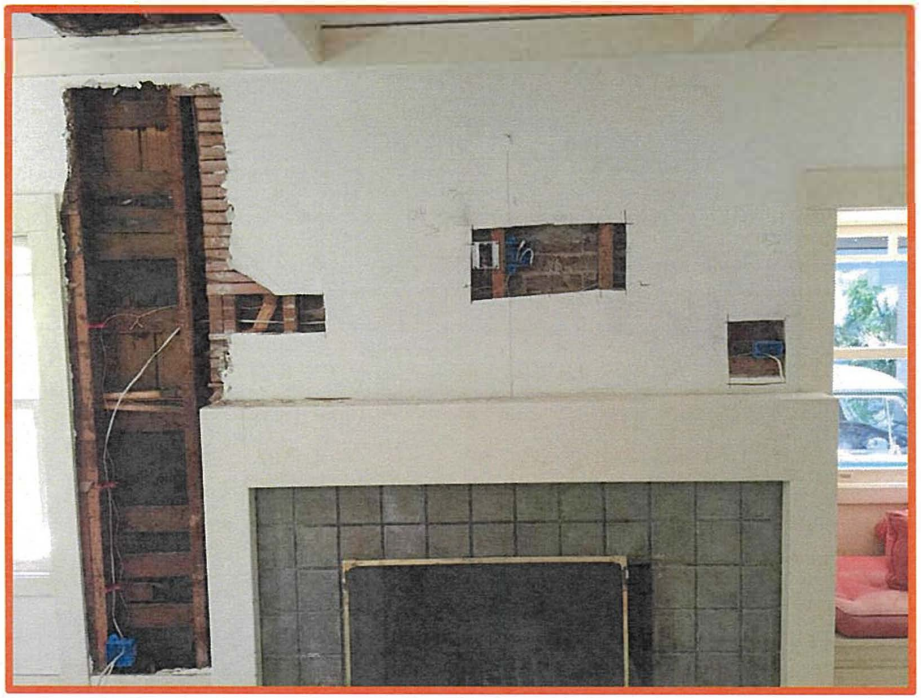
Item 15: Wood Framing of Front Porch - repair or replace wood that is currently structurally compromised by past termite and dry rot damage.

Area: Front Residence Ext
Current Status: **Completed 2023**

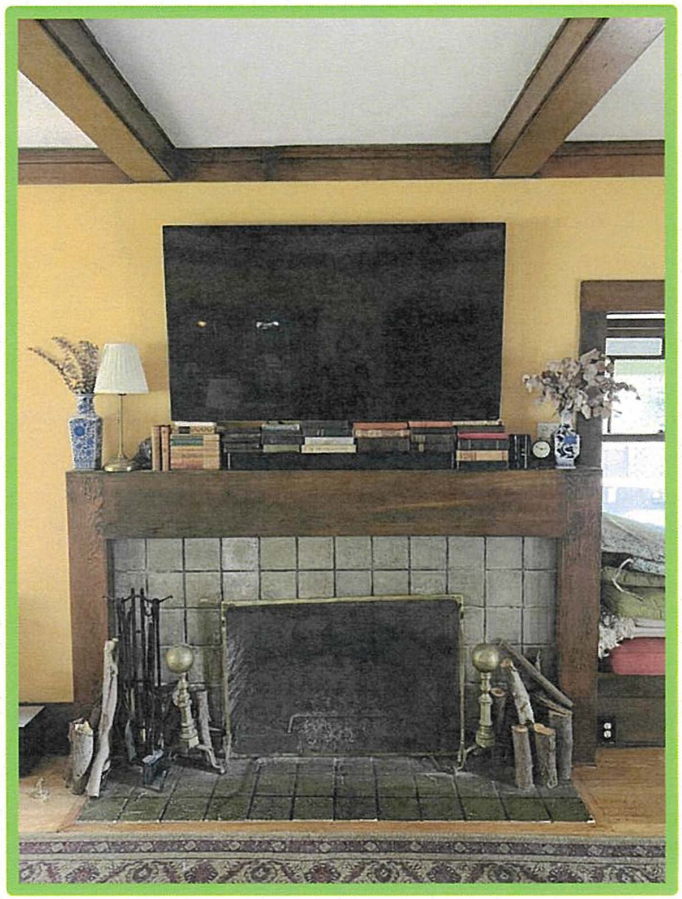
Division 6 — Wood and Plastics - Interior

Item 16: Wood Head/Horizontal Door and Window Casings: Install new interior door and window head casings where the original extensions have been cut off by previous owners, the exaggerated extension of the head casing is typical of the architect G. L. Stimson's work and an important character defining feature, requires custom milled wood.

Area: Throughout Int
Current Status: **TBD**
Not Capitalized



This is not capitalized per Mills Act, and has been put on hold.



Division 6 — Wood and Plastics - Interior

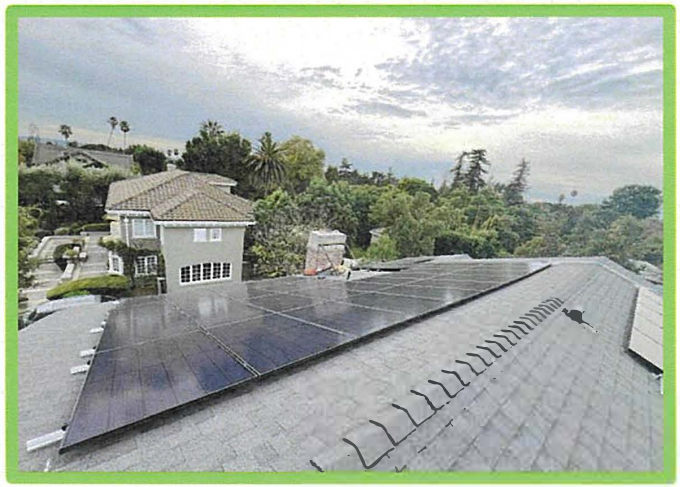
Item 17: Wood Fireplace Mantle: Reconstruct missing original wood mantle and firebox surround, design is to be based on surviving examples in other homes of the period designed by G. L. Stimson and clues that may be remnant after the existing is removed, requires custom milled wood.

Area: Living Room Int
Current Status: **TBD**
Not Capitalized

This is not capitalized per Mills Act, and has been put on hold. We will be investigating what is under the mantle as no original pictures of it have been found.

Division 7 — Thermal and Moisture Protection

Item 18: Remove and replace existing deteriorated roof coverings, replace existing three-tab composition shingles on upper roof with wood shingles as originally constructed, Re-roof with Grade One Red Cedar Fire-treated Class B 18 Wood Shingles, replace existing sheet roofing on lower roofs replicating historic rolled edge detailing.

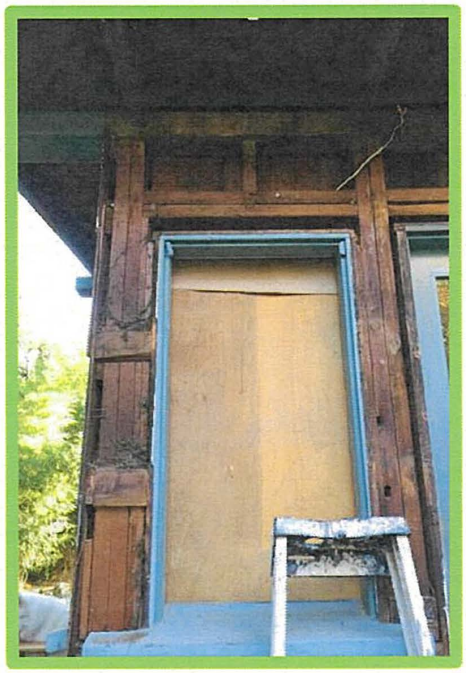


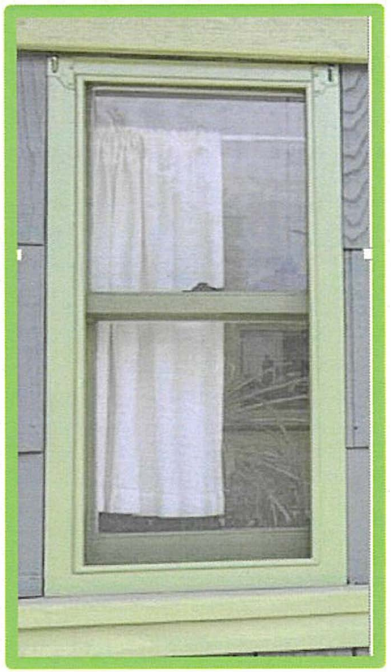
Area: Residence, Porte Cochere and detached garage Roof
Current Status: **Base roof completed 2023, CeDUR roof detail in 2026 after chimney repair**

Division 7 — Thermal and Moisture Protection

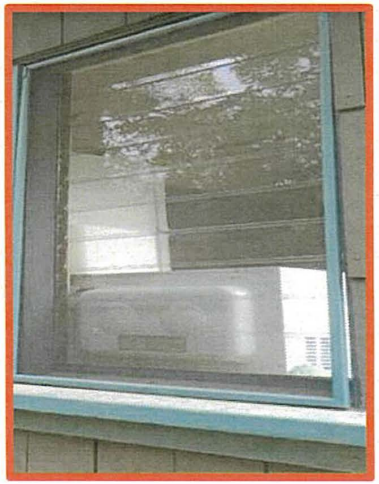
Item 19: Source or custom mill and replace wood siding shingles, as needed, as they are reaching end of life.

Area: Throughout
Current Status: **Completed 2023**

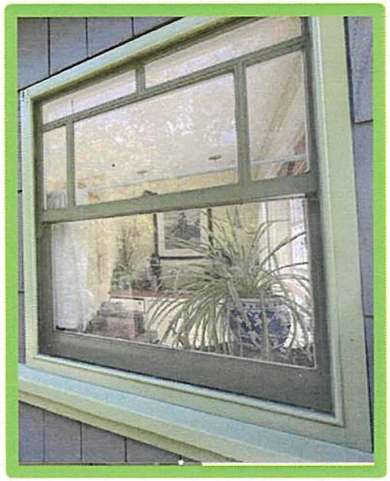




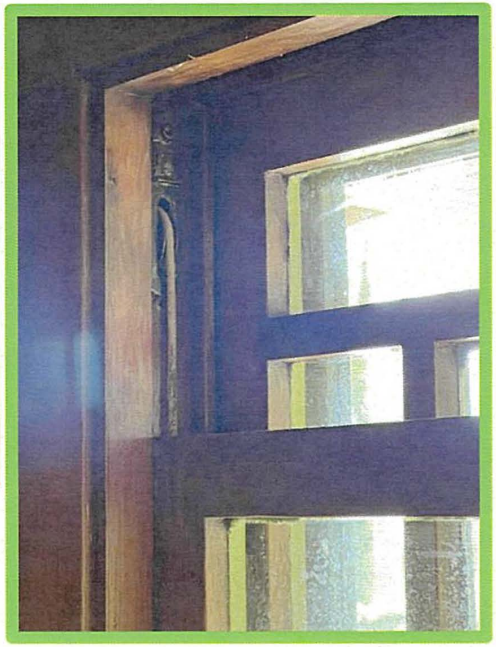
Division 8 — Doors and Windows

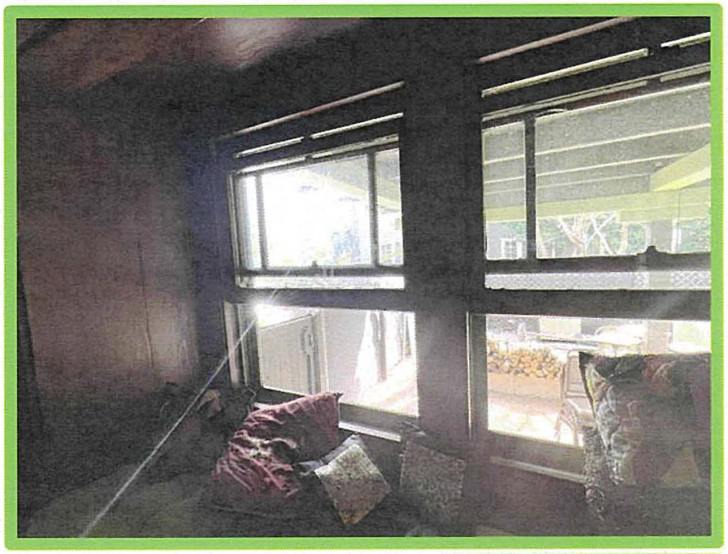


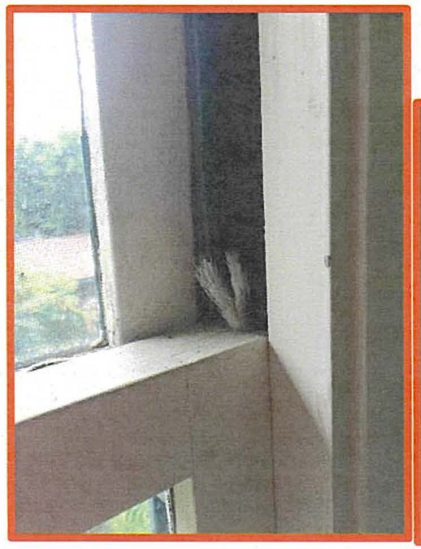
Item 20: Windows: Remove existing 26 X 42 "modern" jalousie windows (6 count) at regional service porch, replace with traditional custom fabricated wood sash and historically appropriate hardware.

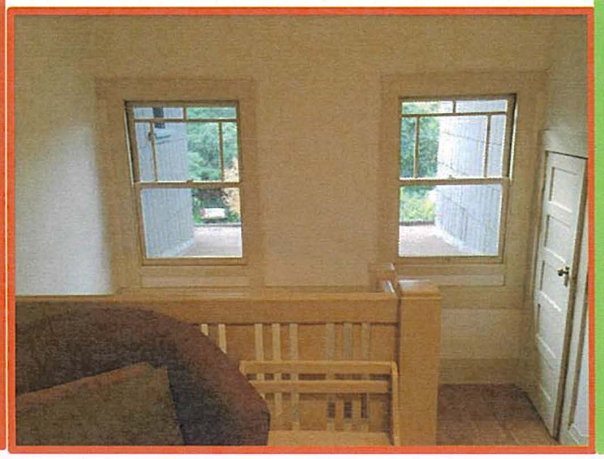


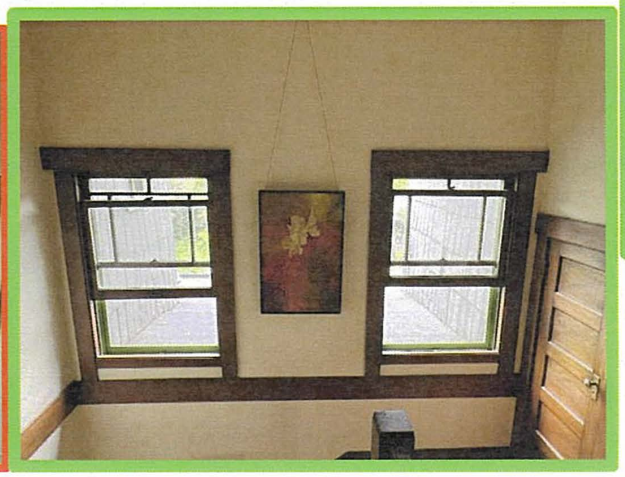
Area: North and West
Residence Ext
Current Status: **Completed 2018**





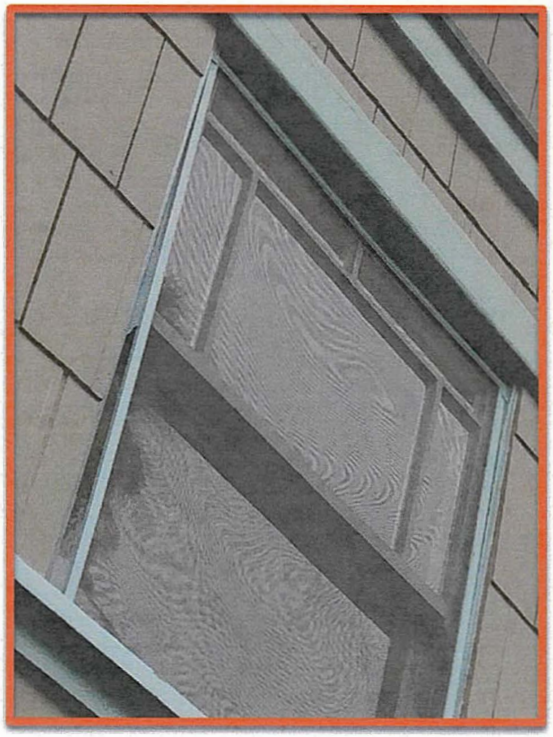




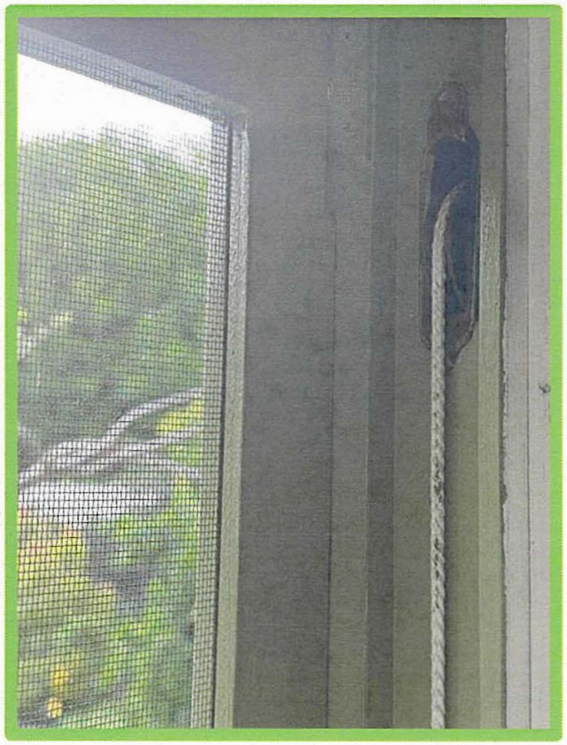


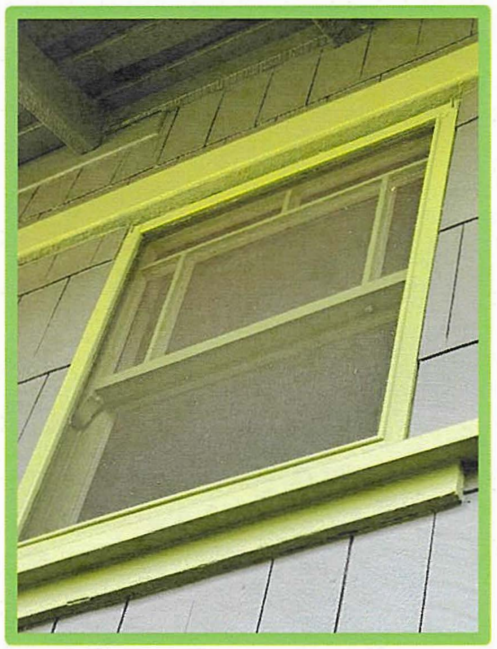
Division 8 — Doors and Windows

Item 21: Windows: Refit all existing windows as required, replace broken glass and broken or missing sash cords and hardware(7 count), install traditional bronze leaf weather stripping where damaged or missing (34 count).



Area: Ext Residence Throughout
Current Status: **Completed 2022**

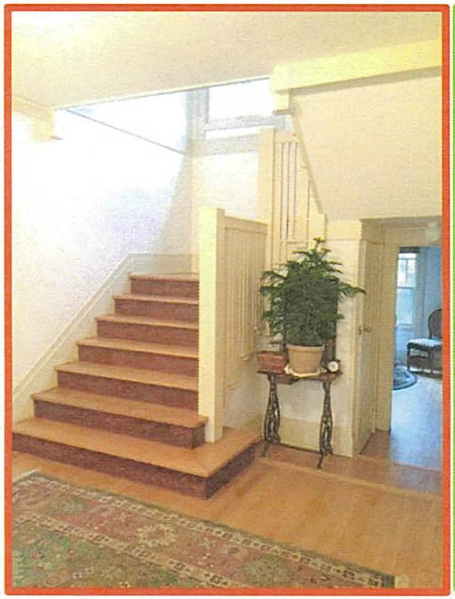


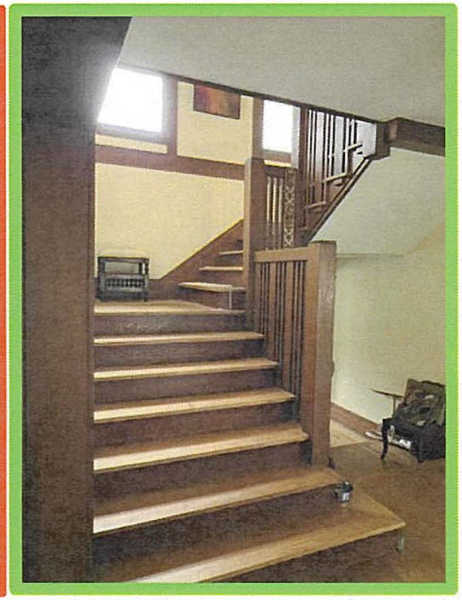


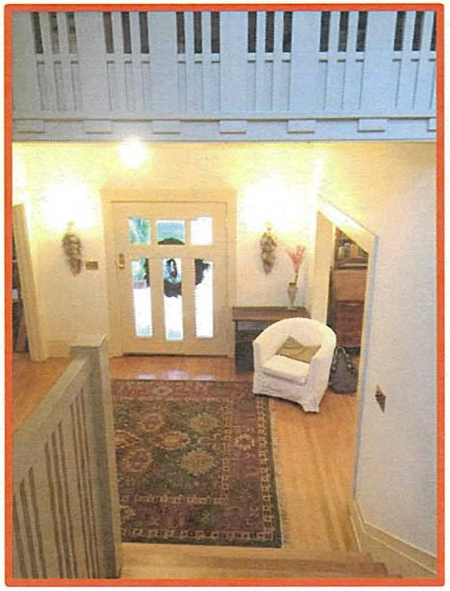
Division 8 — Doors and Windows

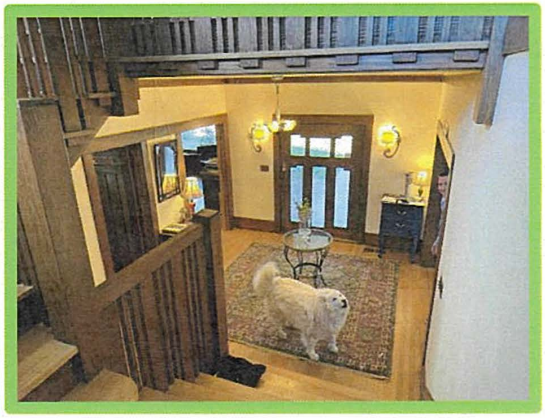
Item 22: Insect Screens(34 Count): Refit existing or missing traditional wood framed insect screen, custom fabricate and install missing wood insect screens, all screens to have traditional copper bronze insect screening, includes new traditional hardware.

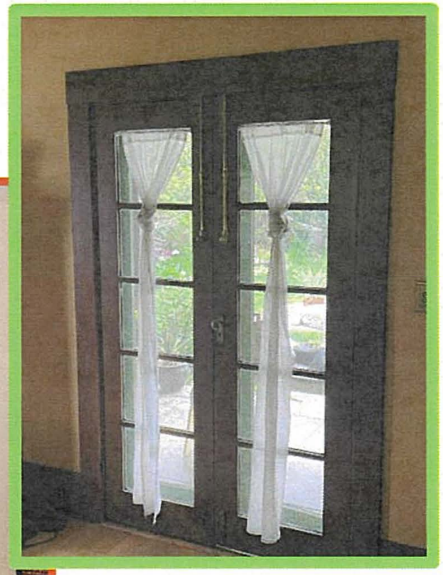
Area: Ext Residence Throughout
Current Status: **Completed 2022**

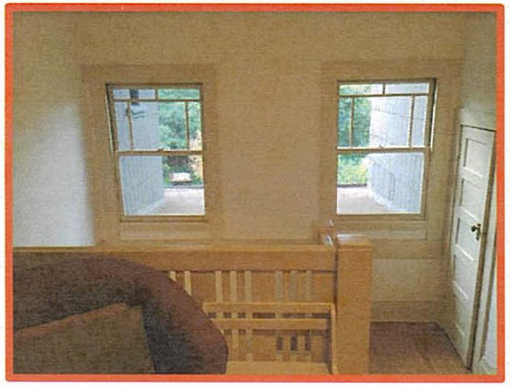


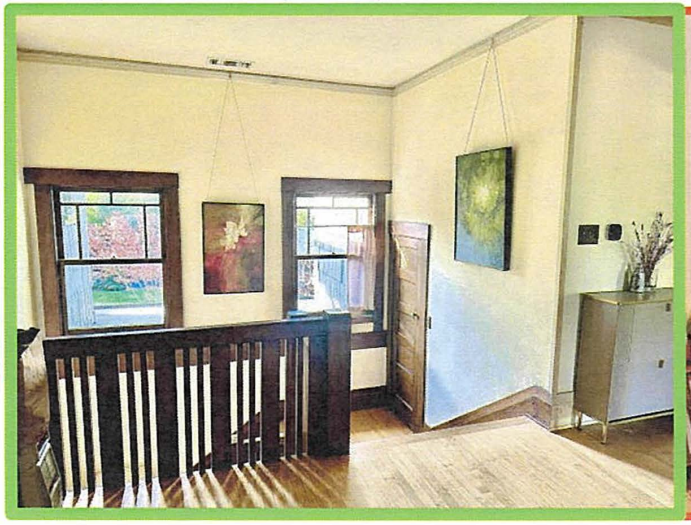












Division 9 — Finishes - Interior

Item 23: First Floor and Stairs: In conjunction with the overall exterior work, wood doors and windows, casings and sash, carefully strip of existing paint and refinish with a stained and clear finish to match original.

Area: First Floor and Stairs Int
Current Status: **Completed 2017**

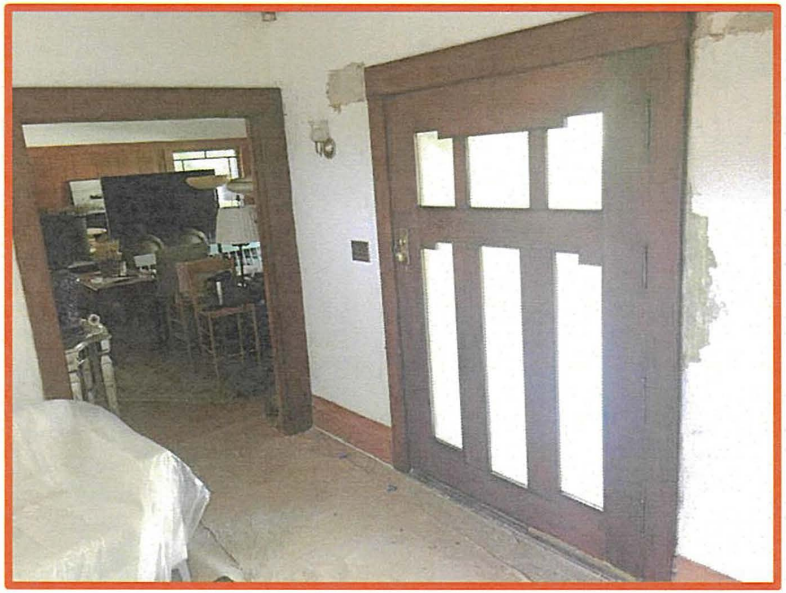
Division 9 — Finishes - Interior

Item 24: Interior wood paneling and base moldings : Carefully strip of existing paint and refinish with a stained and clear finish to match original.

Area: Throughout Int
Current Status: **Completed 2017**
Not Capitalized

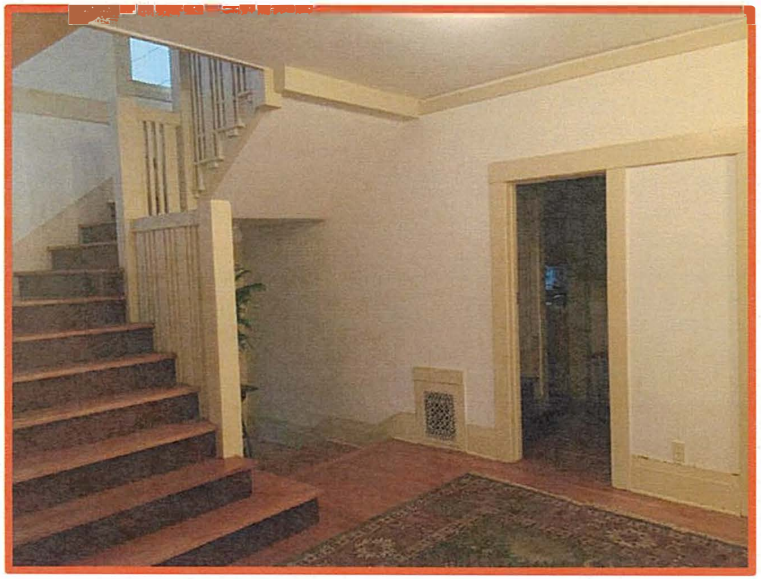
Division 9 — Finishes - Interior

Item 25: New Wood Head Casings Installed Under Division 6: Apply stain and clear finish to match original interior woodwork.

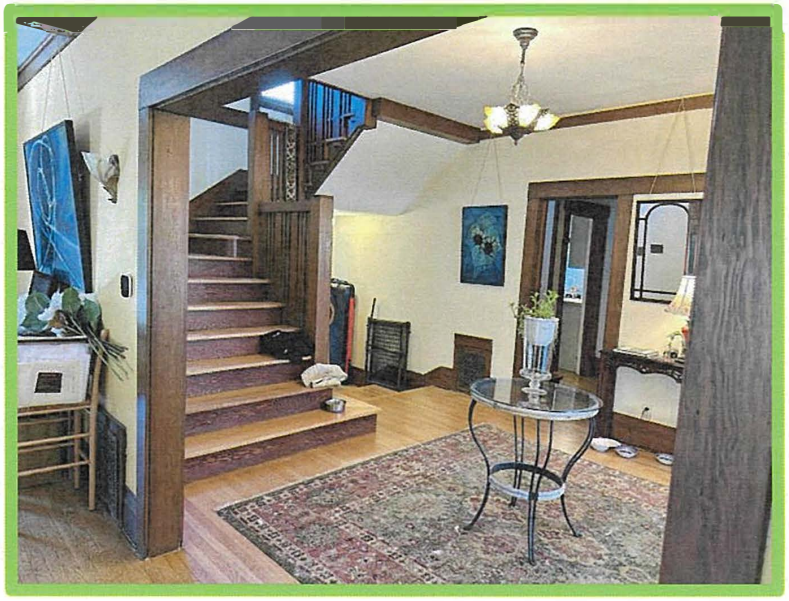


Area: Throughout Int
Current Status: **TBD**
Not Capitalized

This is not capitalized per Mills Act, and has been put on hold.

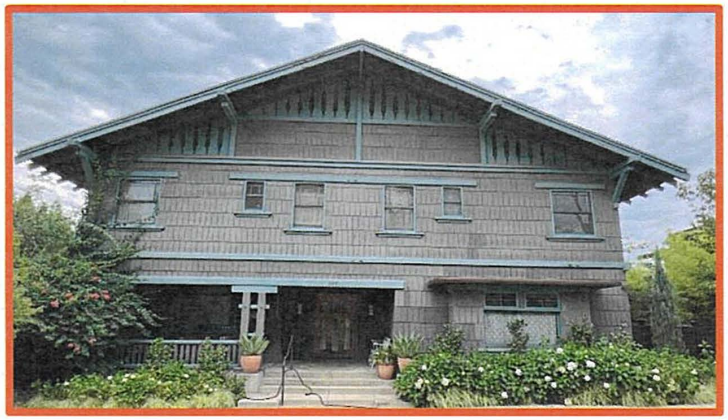


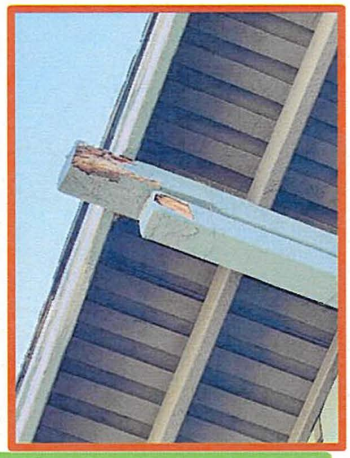
Division 9 — Finishes - Interior

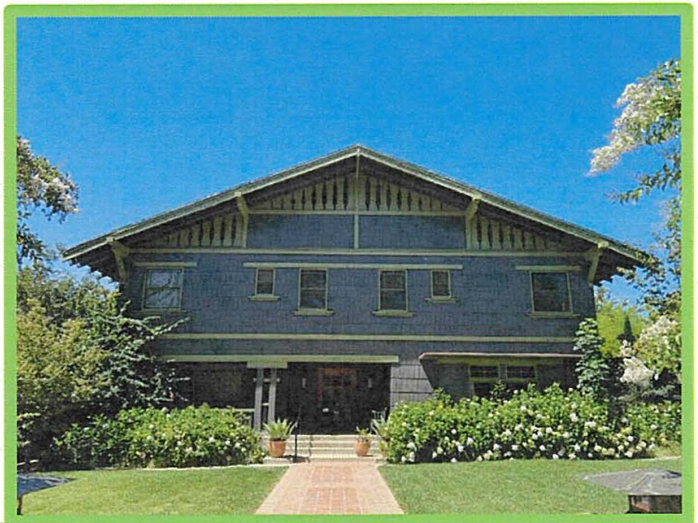


Item 26: Walls & Ceilings: Preparation and painting of all interior plaster surfaces, re-create the original plaster textured finishes.

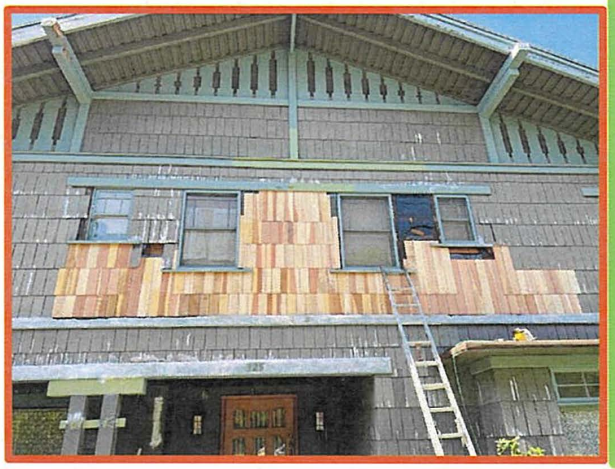
Area: Throughout Int
Current Status: **Completed 2017**



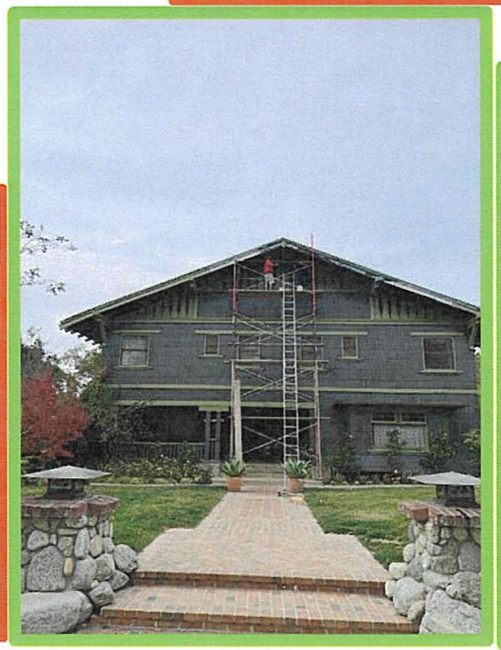




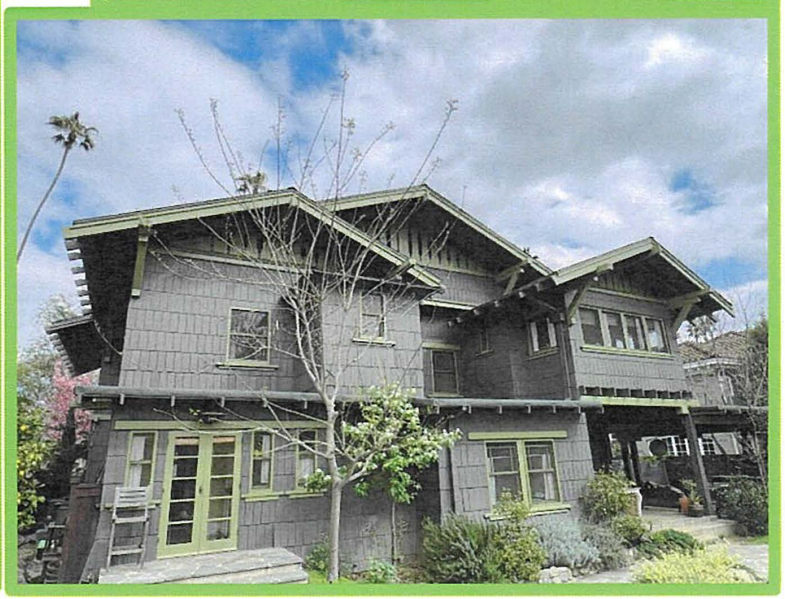
Division 9 — Finishes - Exterior

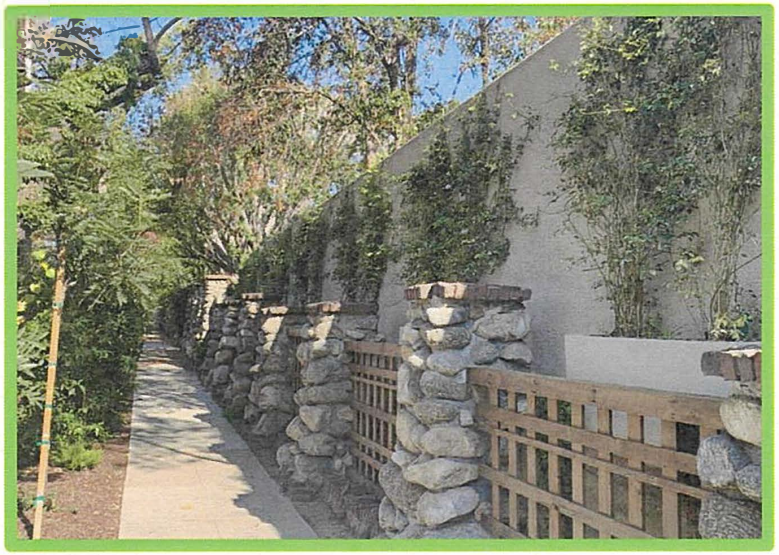


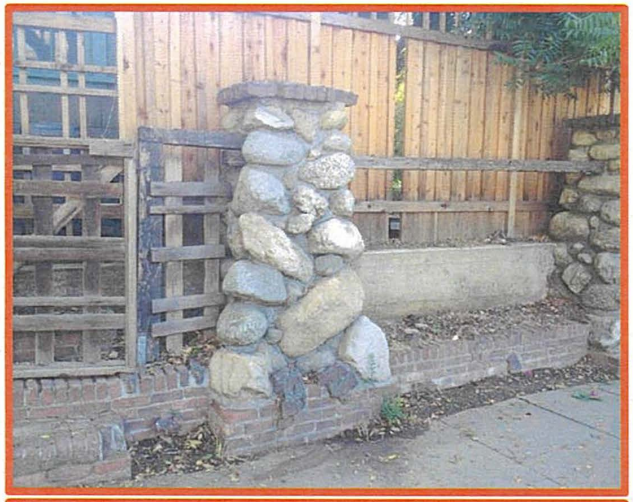
Item 27: Paint - Wood Shingle Siding, Window Sash and Door Trim, Roof Eaves and Rafter Tails, Lookouts and Beams: Thoroughly prepare and refinish all exterior wood elements as listed.

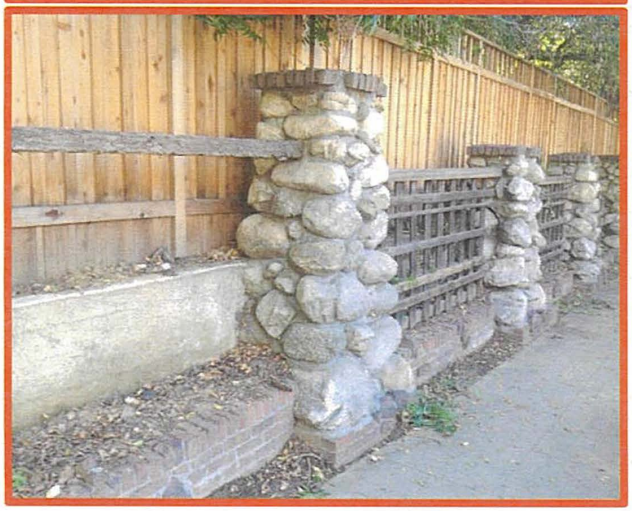


Area: Ext Residence Throughout
Current Status: **Completed 2023**

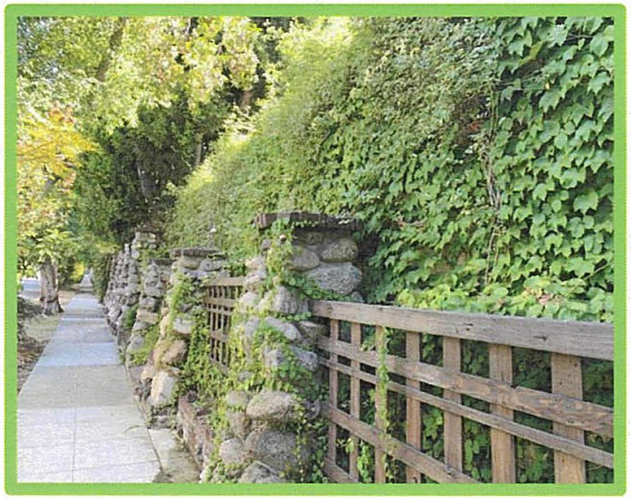




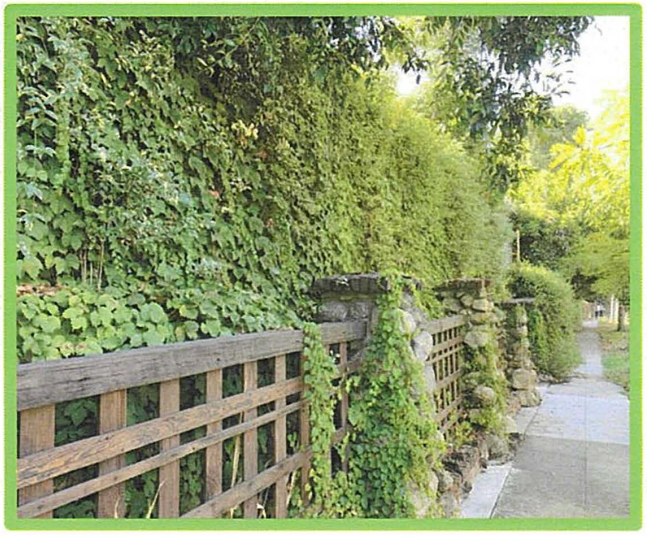




Division 13 — Special Construction



Item 28: Wall at Fremont: Replace current wood fencing, which visually detracts from the historic Greene and Greene fencing at the sidewalk, with a camouflaged traffic sound mitigation wall. Landscaping and irrigation will be installed between the historic fencing and sound wall to help enhance public viewing of the Greene and Greene fencing on Fremont.



Area: Rear Property Line
Current Status: **Completed 2019**

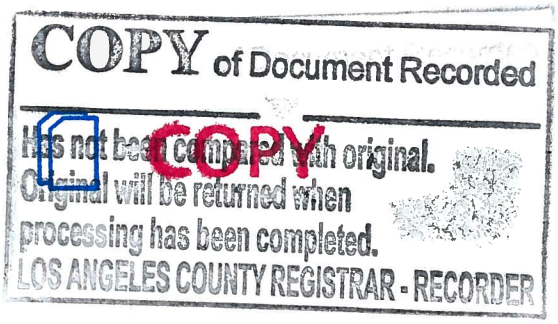
SUMMARY OF COMPLETED WORK

	Item Number	Feature and Treatment	Capitalized Costs	Current Status	Area	Character Defining Feature	Standards
		Division 1 — General Requirements					
		Historic Architectural Services, as estimated and cumulative over 10 years	n/a		Throughout	n/a	
		Structural Engineering Services, estimated	n/a		Throughout	n/a	
		Division 2 — Site Construction					
✓	1	Exterior Subterranean Sewer Pipe: Replace the existing root infested sewer line from rear of house to the main sewer in Fremont to the West to prevent potential damage to the structure.	n/a	Completed 2018	Rear Yard	No	Repairs according to industry standards and applicable building codes.
✓	2	Site Drainage: Correct site drainage issues around the house and garage causing flooding during rains and potential damage to structure, install French drain system.	$3,500	Completed 2019	Rear Yard	No	Protect and Maintain
		Landscaping:					
✓	3	Rear Yard at Fremont: Install new plant material and irrigation at rear yard behind Greene and Greene wall/fence to better camouflage second fencing that is closer to the house. Prune shrubs and trees on Parkway to better expose the Greene and Greene wall/fence so it can be enjoyed by the public from Fremont.	$3,600	Completed 2019	Rear Property Line	No	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
✓	4	Front Yard: Restore front yard landscaping by installing more historically appropriate plant materials based on historic photographs and evidence from comparable homes of age and architectural style. Also rework existing irrigation system to prevent further damage from excessive irrigation moisure on the foundation	$6,000	Completed 2020	Front Yard	Yes	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
		Division 3 — Concrete					
✓	5	Seismic Retrofit to prevent damage to the structure: Anchor existing wood framed structure to existing concrete foundations, repair existing concrete stem walls, Ed Sylvis Seismic Safety $6,000 less $3,000 grant from Earthquake Brace and Bolt Program.	$3,000	Completed 2017	Foundation	No	Repairs according to industry standards and applicable building codes.
✓	6	Concrete Porches Beneath Soft Stories: Significant staining, pitting and cracking of the slabs and stairs is present along with soild erosion beneath. Slabs to be repoured and finished in the original trowell method used during construction in 1910. Original scoring lines will be recreated as they were. Erosion beneath the porches to be shored up and compacted to properly support the slabs.	$18,000	Completed 2019	Front and Side Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		Division 4 — Masonry					
X	7	Chimney and Fireplace: Demolish and reconstruct existing unsafe (previously rebuilt in 1991) chimney to its original configuration based on historic photographs, cleaning flues, repair firebox, reconstruct damaged outer hearth, Douglas Masonry	$30,000	In Process	South Ext Residence	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
✓	8	Original Greene and Greene Designed Wall and Fence at Rear on Fremont: repair and replace missing and damaged stone and clinker brick, repointing as needed, see wood lattice repairs under Division 6, Douglas Masonry	$5,000	Completed 2019	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		Division 5 — Metals					

X	9	**Sheet-metal: Fabricate and install custom protective copper caps for exposed portions of beams, rafter tails, and lookouts, Morrison Sheet Metal**	**$4,500**	**In Process**	**Roof Detail Ext**	**Yes**	**"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."**
✓	10	Downspouts: Repair as necessary, Morrison Sheet Metal	$1,500	Completed 2023	Ext Residence	Yes	Protect and Maintain
		Division 6 — Wood and Plastics					
		Exterior:					
✓	11	Restore Dining Room Bay and East Wall Damage Caused by Wind Blowing over Frontyard Tree: includes reconstructing and recovering roof, replacing damaged barn shingles, and damaged structural barge rafter at roof, Peter Matthiessen Builders. $16,000 less $9000 insurance settlement	$7,000	Completed 2017	Front Residence Ext	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
✓	12	Wood Lattice at Greene and Greene Designed Wall and Fence at Fremont: Reconstruct original lattice fence work saving as much of the historic fabric as possible, replacing deteriorated portions with new custom milled wood to match, staining wood.	$5,000	Completed 2019	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
✓	13	Rafter Tails, Lookouts and Beams: Repair all exposed and deteriorated rafter tails and beam ends sized and shaped to match original construction, while some have been repaired under past ownership, repairs or inconsistent in matching the size and shape of the originals.	$7,500	Completed 2023	Roof Detail Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
X	14	**East/Street Elevation: Wood Trellis - reconstruct original wood trellis based upon historic photographs as install at front elevation with custom milled wood.**	**$6,000**	**In Process**	**Front Residence Ext**	**Yes**	**"Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken."**
✓	15	Wood Framing of Front Porch - repair or replace wood that is currently structurally compromised by past termite and dry rot damage.	$7,000	Completed 2023	Front Residence Ext	Yes	"Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken."
		Interior:					
X	16	Wood Head/Horizontal Door and Window Casings: Install new interior door and window head casings where the original extensions have been cut off by previous owners, the exaggerated extension of the head casing is typical of the architect G. L. Stimson's work and an important character defining feature, requires custom milled wood.	n/a	TBD	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
X	17	Wood Fireplace Mantle: Reconstruct missing original wood mantle and firebox surround, design is to be based on surviving examples in other homes of the period designed by G. L. Stimson and clues that may be remnant after the existing is removed, requires custom milled wood.	n/a	TBD	Living Room Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		Division 7 — Thermal and Moisture Protection					



✓ ✗	18	Remove and replace existing deteriorated roof coverings, replace existing three-tab composition shingles on upper roof with wood shingles as originally constructed, Re-roof with Grade One Red Cedar Fire-treated Class B 18 Wood Shingles, replace existing sheet roofing on lower roofs replicating historic rolled edge detailing. 72# mineral surface cap sheet to achieve Class A fire rating, all included in cost, Campagna Roofing.	$43,000	Base roof completed 2023, CcDUR roof details in 2026 after chimney repair	Residence, Porte Cochere and detached garage Roof	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
✓	19	Source or custom mill and replace wood siding shingles, as needed, as they are reaching end of life.	$15,000	Completed 2023	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		Division 8 — Doors and Windows					
✓	20	Windows: Remove existing 26 X 42 "modern" jalousie windows (6 count) at regional service porch, replace with traditional custom fabricated wood sash and historically appropriate hardware.	$8,000	Completed 2018	North and West Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
✓	21	Windows: Refit all existing windows as required, replace broken glass and broken or missing sash cords and hardware(7 count), install traditional bronze leaf weather stripping where damaged or missing (34 count).	$4,000	Completed 2022	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
✓	22	Insect Screens(34 Count): Refit existing or missing traditional wood framed insect screen, custom fabricate and install missing wood insect screens, all screens to have traditional copper bronze insect screening, includes new traditional hardware.	$4,000	Completed 2018	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		Division 9 — Finishes					
		Interior:					
✓	23	First Floor and Stairs: *In conjunction with the overall exterior work*, wood doors and windows, casings and sash, carefully strip of existing paint and refinish with a stained and clear finish to match original, Benjamin Gonzalez	$6,000	Completed 2017	First Floor and Stairs Int	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
✓	24	Interior wood paneling and base moldings : Carefully strip of existing paint and refinish with a stained and clear finish to match original, Benjamin Gonzalez	n/a	Completed 2017	Throughout Int	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
✗	25	New Wood Head Casings Installed Under Division 6: Apply stain and clear finish to match original interior woodwork, Benjamin Gonzalez	n/a	TBD	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."

MILLS ACT CONTRACT

RECORDING REQUESTED BY
City of South Pasadena

WHEN RECORDED – MAIL TO:
City of South Pasadena
1414 Mission Street
South Pasadena, CA 91030

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
325 OAKLAWN AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 21st day of September 2016, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Brian and Jenny Bright ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 325 Oaklawn Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the Oaklawn Historic District, attached hereto marked "Exhibit B". This District is considered an excellent representative example of upper middle class residential development in the early decades of the 20th century in the Los Angeles region. According to previous historic surveys, the houses in this District exhibit a consistently high level of architectural quality with minimal alterations. It is distinguished for its uniformity of integrity, density, and period. Renowned architects Charles and Henry Greene (the Greene Brothers) were involved in enhancing Oaklawn's primary gateways, designing the concrete bridge and waiting station, and other features that that architectural historians consider as "unusual and extraordinary". In 1910, G. Lawrence Stimson, whose architectural work is compared favorably to the Greene Brothers, designed the historic home at 325 Oaklawn Avenue for Thomas and Linda Mitchell;

(iv) City and Owners, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on September 21, 2016 and shall remain in effect for a ~~term of ten~~ (10) years thereafter.

CERTIFIED COPY
THIS IS A TRUE AND CERTIFIED COPY OF THE DOCUMENT ON FILE IN THE OFFICIAL RECORDS OF THE CITY OF SOUTH PASADENA
City Clerk
09/22/16
Date
*This certification appears in blue ink with an original signature and bears the seal of the City of South Pasadena.

2. AUTOMATIC RENEWAL. For the first five years of the Agreement only, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The maximum term of this Agreement, including any automatic renewals, shall not exceed 15 years from the effective date. The automatic renewal provision shall not apply to add an additional year to the Agreement after the initial five years of the term. If the City desires within the first five years not to automatically renew this Agreement, City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date within the first five years.. If the Owner desires in any year not to renew this Agreement, the Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Government Code Section 502850, may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants,

reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Brian and Jenny Bright
325 Oaklawn Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner

hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

RESOLUTION NO. 7128

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING A HISTORIC DISTRICT THAT INCLUDES ALL PROPERTIES ON OAKLAWN AVENUE, 430 STRATTON LANE, THE OAKLAWN PARK, THE OAKLAWN BRIDGE AND THE WAR MEMORIAL BUILDING

WHEREAS, Section 2.62 of the South Pasadena Municipal Code Ordinance No. 2004 ("Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as historic districts; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Commission to initiate a historic district designation for Oaklawn Avenue that includes: all residences and structures located on both sides of Oaklawn Avenue between Columbia Street to the north, Fair Oaks Avenue to the southeast, 430 Stratton Lane, the Oaklawn Portals at the north end of Oaklawn (at Columbia Street), wall and fence structures along Fremont Avenue and Columbia Street, the Oaklawn Avenue parkway with existing trees, the Oaklawn Bridge and Waiting Station, Oaklawn Park, and the War Memorial building (the "Oaklawn Historic District"); and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owners, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the Cultural Heritage Commission ("CHC") voted to adopt CHC Resolution No. 10-01, which is a recommendation to the City Council to approve the proposed historic district; and

WHEREAS, the City Council held a public hearing on the proposed designation on May 5, 2010 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Based on the evidence presented at the public hearing, on the evidence contained in the Staff Report, CHC Minutes and other records of proceedings, the City Council considered the applicable designation criteria contained in the Cultural Heritage Ordinance and makes the following findings:

(a.) ***Its character, interest, and value as part of the heritage of the community:*** The historic district context for the Oaklawn historic district is residential development in the Oaklawn Park Tract in South Pasadena 1900-1912. The Oaklawn District is an excellent, representative example of upper middle class residential tract development that occurred in the San Gabriel Valley during the first decades of the 20th century. The tract's location, on the south border of Pasadena not far from Orange Grove Boulevard's "Millionaire's Row" and adjacent to the Pacific Electric Railway's Pasadena Short Line, was a key factor in the tract's promotion and development. The involvement of the Greene brothers in establishing the neighborhood's design, feeling and association was another important element in defining the uniqueness of the district. The identity of the district results from the interrelationship of its resources, which conveys a visual sense of the overall history of tract development within the City of South Pasadena and the region.

(c.) ***Its identification with a person, persons or groups who significantly contributed to the culture and development of the city, the state or the United States***

(f.) ***Its identification as the work of a person or persons whose work has influenced the heritage of the city, the state or the United States:***

The South Pasadena Realty and Improvement Company was the initial developer of the Oaklawn Park neighborhood. In 1904-05, the company hired architects Charles and Henry Greene to design gates and fences for the Columbia Street Entrance of the Oaklawn development. Soon after, in 1906, the Greenes were hired to design a bridge connecting the neighborhood to Fair Oaks Avenue over the railroad right-of-way and an accompanying waiting station for passengers of the Pacific Electric Railway.

Charles Sumner Greene and Henry Mather Greene studied architecture at the Massachusetts Institute of Technology, receiving their degrees in 1891. In 1893, following apprenticeships with noted architectural firms in Boston, the brothers joined their parents in Pasadena. By the fall of 1894, the Greene brothers had opened their architectural practice. During a four-month visit to England, Scotland and Europe in 1901, Charles Greene became greatly interested in the English Arts and Crafts Movement - an interest that was to have a profound effect on the direction the firm took upon his return.

The years 1902-1910 were highly productive for the firm, with residential design the primary focus. Approximately 150 projects were completed during this period, including examples of their finest work such as the Blacker House (1907) and the Gamble House (1908). Charles and Henry Greene are widely considered to have brought high-art aesthetics and exquisite craftsmanship to the Arts and Crafts

Movement in the early part of the 20th century. Their work continues to be exhibited worldwide and is included in decorative arts collections in museums in the United States and throughout Europe.

In 1907 local newspapers announced sale of the northern portion of Oaklawn to G. Lawrence Stimson, the son of wealthy real estate developer S.W. Stimson. Mr. Stimson's name is associated with a number of houses constructed in the northern end of Oaklawn as his name appears as the architect of record on the buildings' building permits. Stimson enjoyed a flourish architectural career in his own right, credited with design of many distinguished residences in Pasadena and South Pasadena, including the Wrigley mansion on Orange Grove Avenue in Pasadena.

(g.) ***Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, detail, materials or craftsmanship:***

The Oaklawn District represents an excellent example of upper middle class residential tract development that occurred in small cities throughout Southern California during the early decades of the 20th century. The district's architectural character is a mixture of Craftsman, Colonial Revival, Tudor Revival and English Revival styles with several dwellings exhibiting Mediterranean, Mission Revival or Prairie influences. These styles are a representative cross-section of designs popular from 1900 through 1912 as interpreted in residential architecture. Houses contributing to the district exhibit a consistently high level of architectural quality and minimal alterations.

(m.) ***With respect to the designation of a historic district, not less than fifty percent plus one of all affected owners of the proposed historic district must consent to such designation. Each parcel or lot shall be entitled to only one vote per parcel or lot. By way of example only, if the proposed historic district were composed of twenty parcels, then eleven property owners would be required to consent to the designation:***

Out of the 30 parcels in the Oaklawn Historic District, 17 property owners supported the nomination for district nomination.

SECTION 2. Based on the aforementioned findings, the City Council hereby approves the designation of the Oaklawn Historic District, along with the map as set forth in Exhibit "A" attached hereto and made a part thereof, as the official boundaries of the Oaklawn Historic District.

SECTION 3. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 15th day of September, 2010.

Richard D. Schneider, M.D., Mayor

ATTEST:

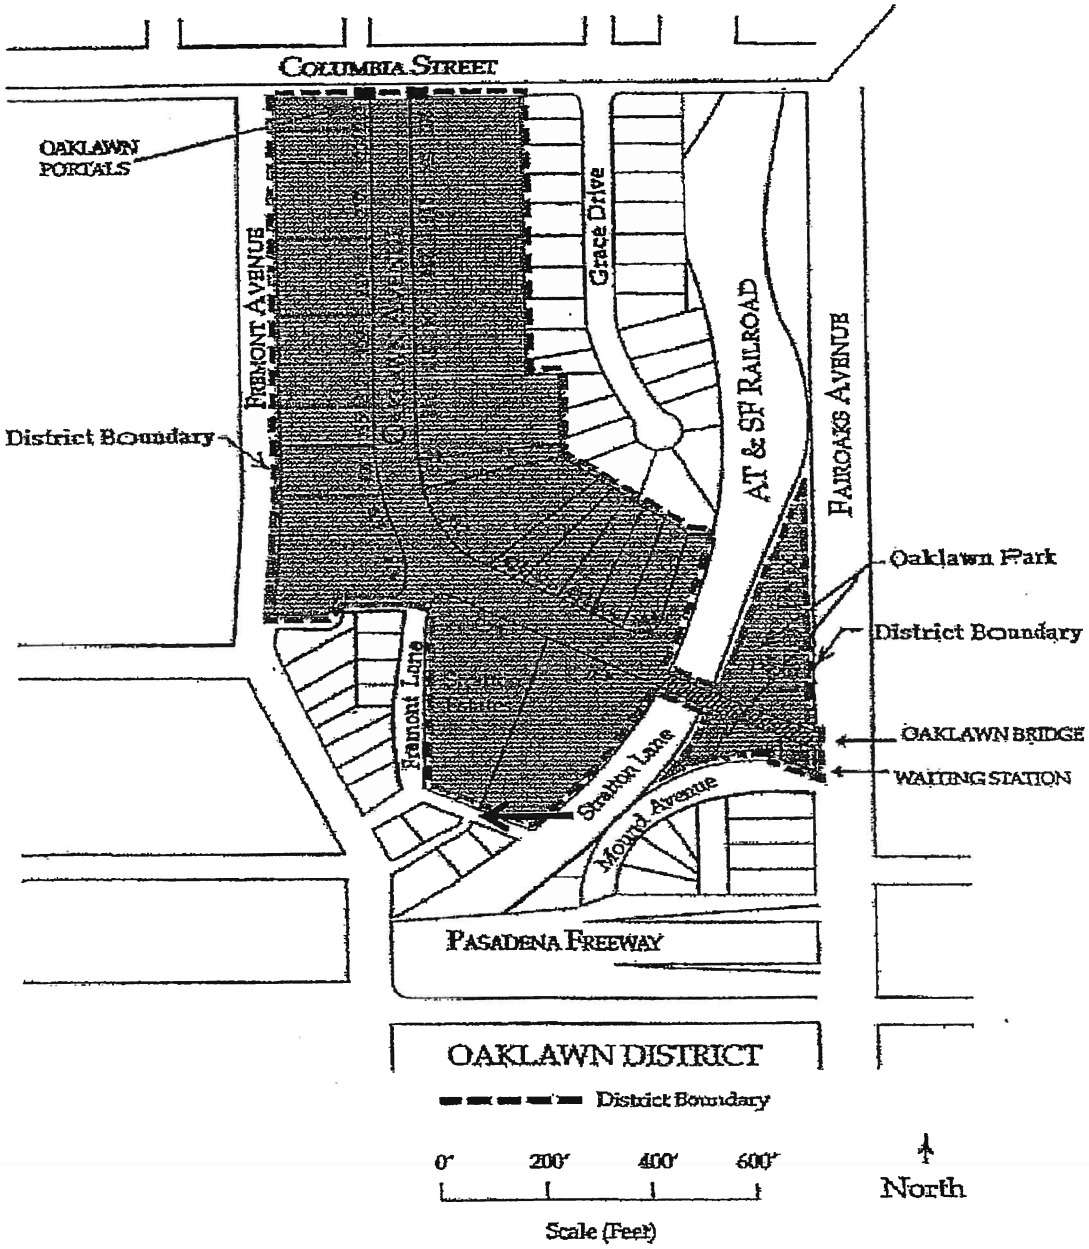
Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 15th day of September, 2010, by the following vote:

AYES: Cacciotti, Putnam, Sifuentes, Ten and Mayor Schneider



NOES: None

ABSENT: None

ABSTAINED: None

EXHIBIT "C"

Feature and Treatment	Cost	Completed By Date	Area	Character Defining Feature	Standards
Division 1 — General Requirements					
Historic Architectural Services, as estimated and cumulative over 10 years	n/a	n/a	Throughout	n/a	
Structural Engineering Services, estimated	n/a	n/a	Throughout	n/a	
Division 2 — Site Construction					
Exterior Subterranean Sewer Pipe: Replace the existing root infested sewer line from rear of house to the main sewer in Fremont to the West to prevent potential damage to the structure.	n/a	2017	Rear Yard	No	Repairs according to industry standards and applicable building codes.
Site Drainage: Correct site drainage issues around the house and garage causing flooding during rains and potential damage to structure, install French drain system	$3,500	2019	Rear Yard	No	Protect and Maintain
Landscaping:					
Rear Yard at Fremont: Install new plant material and irrigation at rear yard behind Greene and Greene wall/fence to better camouflage second fencing that is closer to the house. Prune shrubs and trees on Parkway to better expose the Greene and Greene wall/fence so it can be enjoyed by the public from Fremont.	$3,600	2018	Rear Property Line	No	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
Front Yard: Restore front yard landscaping by installing more historically appropriate plant materials based on historic photographs. Also rework existing irrigation system to prevent further damage from excessive irrigation moisure on the foundation	$6,000	2021	Front Yard	Yes	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
Division 3 — Concrete					
Seismic Retrofit to prevent damage to the structure: Anchor existing wood framed structure to existing concrete foundations, repair existing concrete stem walls, Ed Sylvis Seismic Safety $6,000 less $3,000 grant from Earthquake Brace and Bolt Program.	$3,000	2017	Foundation	No	Repairs according to industry standards and applicable building codes.
Concrete Porches Beneath Soft Stories: Significant staining, pitting and cracking of the slabs and stairs is present along with soild erosion beneath. Slabs to be repoured and finished in the original trowell method used during construction in 1910. Original scoring lines will be recreated as they were. Erosion beneath the porches to be shored up and compacted to properly support the slabs.	$18,000	2020	Front and Side Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Division 4 — Masonry					
Chimney and Fireplace: Demolish and reconstruct existing unsafe (previously rebuilt in 1991) chimney to its original configuration based on historic photographs, cleaning flues, repair firebox, reconstruct damaged outer hearth, Douglas Masonry	$30,000	2017	South Ext Residence	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
Original Greene and Greene Designed Wall and Fence at Rear on Fremont: repair and replace missing and damaged stone and clinker brick, repointing as needed, see wood lattice repairs under Division 6, Douglas Masonry	$5,000	2018	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."

Division 5 — Metals

Sheet-metal: Fabricate and install custom protective copper caps for exposed portions of beams, rafter tails, and lookouts, Morrison Sheet Metal	$4,500	2018	Roof Detail Ext	Yes	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided."
Downspouts: Repair as necessary, Morrison Sheet Metal	$1,500	2018	Ext Residence	Yes	Protect and Maintain

Division 6 — Wood and Plastics

Exterior:

Restore Dining Room Bay and East Wall Damage Caused by Wind Blowing over Frontyard Tree: includes reconstructing and recovering roof, replacing damaged barn shingles, and damaged structural barge rafter at roof, Peter Matthiessen Builders. $16,000 less $9000 insurance settlement	$7,000	2016	Front Residence Ext	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
Wood Lattice at Greene and Greene Designed Wall and Fence at Fremont: Reconstruct original lattice fence work saving as much of the historic fabric as possible, replacing deteriorated portions with new custom milled wood to match, staining wood	$5,000	2018	Rear Property Line	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Rafter Tails, Lookouts and Beams: Repair all exposed and deteriorated rafter tails and beam ends sized and shaped to match original construction, while some have been repaired under past ownership, repairs or inconsistent in matching the size and shape of the originals	$7,500	2018	Roof Detail Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved." "Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be
East/Street Elevation: Wood Trellis - reconstruct original wood trellis based upon historic photographs as install at front elevation with custom milled wood.	$6,000	2020	Front Residence Ext	Yes	"Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features
Wood Framing of Front Porch - repair or replace wood that is currently structurally compromised by past termite and dry rot damage.	$7,000	2020	Front Residence Ext	Yes	

Interior:

Wood Head/Horizontal Door and Window Casings: Install new interior door and window head casings where the original extensions have been cut off by previous owners, the exaggerated extension of the head casing is typical of the architect G. L. Stimson's work and an important character defining feature, requires custom milled wood	n/a	2017	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Wood Fireplace Mantle: Reconstruct missing original wood mantle and firebox surround, design is to be based on surviving examples in other homes of the period designed by G. L. Stimson and clues that may be remnant after the existing is removed, requires custom milled wood	n/a	2017	Living Room Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."

Division 7 — Thermal and Moisture Protection

Remove and replace existing deteriorated roof coverings, replace existing three-tab composition shingles on upper roof with wood shingles as originally constructed, Re-roof with Grade One Red Cedar Fire-treated Class B 18 Wood Shingles, replace existing sheet roofing on lower roofs replicating historic rolled edge detailing. 72# mineral surface cap sheet to achieve Class A fire rating, all included in cost, Campagna Roofing	$43,000	2018	Residence, Porte Cochere and detached garage Roof	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
Source or custom mill and replace wood siding shingles, as needed, as they are reaching end of life.	$15,000	2025	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Division 8 — Doors and Windows					
Windows: Remove existing 26 X 42 "modern" jalousie windows (6 count) at regional service porch, replace with traditional custom fabricated wood sash and historically appropriate hardware.	$8,000	2017	North and West Residence Ext	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Windows: Refit all existing windows as required, replace broken glass and broken or missing sash cords and hardware(7 count), install traditional bronze leaf weather stripping where damaged or missing (34 count).	$4,000	2017	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Insect Screens(34 Count): Refit existing or missing traditional wood framed insect screen, custom fabricate and install missing wood insect screens, all screens to have traditional copper bronze insect screening, includes new traditional hardware	$4,000	2017	Ext Residence Throughout	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Division 9 — Finishes					
Interior:					
First Floor and Stairs: *In conjunction with the overall exterior work*, wood doors and windows, casings and sash, carefully strip of existing paint and refinish with a stained and clear finish to match original, Benjamin Gonzalez	$6,000	2017	First Floor and Stairs Int	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
New Wood Head Casings Installed Under Division 6: Apply stain and clear finish to match original interior woodwork, Benjamin Gonzalez	n/a	2017	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Walls & Ceilings: Preparation and painting of all interior plaster surfaces, re-create the original plaster textured finishes, new paint colors to be based upon evidence of original historic colors, Brandlin Painting	n/a	2018	Throughout Int	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
Exterior:					
Paint - Wood Shingle Siding, Window Sash and Door Trim, Roof Eaves and Rafter Tails, Lookouts and Beams: Thoroughly prepare and refinish all exterior wood elements as listed, Brandlin Painting	$39,000	2020	Ext Residence Throughout	Yes	"Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible."
Division 10 — Specialties					
Not applicable at this time				n/a	
Division 11 — Equipment					
Not applicable				n/a	
Division 12 — Furnishings					

Not applicable at this time			n/a	
Division 13 — Special Construction				
Wall at Fremont: Replace current wood fencing, which visually detracts from the historic Greene and Greene fencing at the sidewalk, with a camouflaged traffic sound mitigation wall. Landscaping and irrigation will be installed between the historic fencing and sound wall to help enhance public viewing of the Greene and Greene fencing on Fremont.	$28,000			"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
		2017 Rear Property Line	No	
Division 14 — Conveying Systems				
Not applicable			n/a	
Division 15 — Mechanical (Includes Plumbing and HVAC)				
Plumbing: Not applicable at this time as the entire residence has been re-plumbed including new hot and cold water distribution piping along with interior waste system since acquisition by current owners, existing vintage plumbing fixtures were retained	0		n/a	
HVAC: Not applicable at this time as a new 2 zone system heating and air conditioning system has been installed replacing the previous gravity heating system since acquisition by current owners	0		n/a	
Division 16 — Electrical				
Not applicable at this time as the entire residence has been rewired including an upgraded electrical service since acquisition by current owners	0		n/a	
Maintenance Inspections as Outlined Below(24) $250 each	$6,000			
TOTAL	$260,600			

1.)Reporting System and Schedule

Brian and Jennifer Bright, the property owners, will provide written reports to the City every 2 years documenting Rehabilitation/Preservation and Maintenance Progress. Permits and COA's will be obtained when required and provided in their biannual reports.

2.)Standards Compliance

As required due to its status as a contributing resource in the Historic Oaklawn Landmark District, any restoration or maintenance work at the Mitchell Residence detailed here will be in accordance with the Secretary of Interior Standards for the Treatment of Historic Properties outlined below.

Secretary of Interior Standards for the Treatment of Historic Properties

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

3.)Summary of Costs

Costs: Budget Estimate Related to Restoration/Preservation of the Mitchell Residence
Current Owners and Mills Act Applicants: Brian and Jennifer Bright

The following information is derived from a variety of sources. It's based on currently observed defective conditions and various observations of these and other conditions as related to the preservation and restoration of the historic Mitchell Residence. The information is organized in the format established by the Construction Specifications Institute (CSI) intended to formally organize all aspects of information related to a building for planning and construction purposes. At this stage of the project certain elements of contemplated and recommended work will not conveniently fall into only one of the following divisions; in that case they may be positioned under the heading that seems most appropriate. The sequential division numbers that are not "used" (designated "not applicable") in the following outline are retained at this time as place holders reserved in the case of evolving circumstances and requirements in connection with this project.

As indicated above the following includes budget cost estimates which are for planning purposes. Whenever it is intended to pursue a particular project/"scope" item, a detailed scope of work and specifications may be developed specific to that undertaking. Well experienced and qualified contractors, trades people, or artisans appropriate to that particular task should be identified. Once they are knowledgeable as to the work involved, they are the best source for detailed cost information. While the costs below tend to be more "broad brush" at this time, it's thought that they realistically reflect the scope items and they should be adequate for capital planning purposes.

As the author of this report has often said, the appropriate cost for performing any of the following work is that presented by an experienced and qualified contractor or others experienced in doing the necessary work at a given point in time. Since it is unknowable at this time as to which of the following items might be undertaken, and in what order, it is not possible to forecast or introduce a factor for escalation of the costs below into the future at this time. As implied the sequencing of the contemplated scope of work may also evolve over time due changing views with respect to prioritizing.

It will be noted that there may be other less significant items that may be recommended or added, and that well may be optional, but however proposed with a sense of addressing restoration and preservation of the historic integrity of the Mitchell Residence. One such item as an example may be the replacement of modern plastic electrical cover plates in all of the historic spaces with vintage brass cover plates. There may be other items of a similar nature yet to be considered.

CSI MASTERFORMAT (1995 Edition)

Note: Before November 2004, the MasterFormat was composed of 16 Divisions as follows. We've deliberately chosen to continue using this earlier, simpler, format as being more appropriate to the nature of this historic structure.

4.) Detail Costs, Schedule/Sequence and Rehabilitation/Preservation Plan

RE: Mills Act Contract Agreement for
207 Oaklawn Avenue, South Pasadena, California

Dear Ms. Harding:

This letter serves to notify the County Assessor's Office that the City of South Pasadena has entered into a Mills Act Contract Agreement with property owners, Michael and Jamie Lesnever, for the property located at 207 Oaklawn Avenue, in the City of South Pasadena.

In accordance with the Agreement, approved by the South Pasadena City Council on December 21, 2016, this notification and attached signed Mills Act Contract Agreement are being forwarded to your office for review and to adjust the tax assessment for the above-mentioned property (325 Oaklawn Avenue) as a Mills Act property. Please note that Paragraph 2 and Paragraph 3 contain language that ends the annual renewal after the fifth year of the contract.

If you need additional documentation or confirmation on this matter, please contact me at (626) 403-7228 or by e-mail at jmayer@southpasadenaca.gov.

Thank you for your assistance.

Sincerely,

John Mayer

TITLE

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 21st day of December 2016, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Michael Lesnever and Jamie Lesnever ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 207 Oaklawn Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the Oaklawn Historic District, attached hereto marked "Exhibit B". The Oaklawn Historic District is considered an excellent representative example of upper middle class residential development in the early decades of the 20th century in the Los Angeles region. According to previous historic surveys, the houses in this District exhibit a consistently high level of architectural quality with minimal alterations. It is distinguished for its uniformity of integrity, density, and period. Renowned architects Charles and Henry Greene (the Greene Brothers) were involved in enhancing Oaklawn's primary gateways, designing the concrete bridge and waiting station, and other features that that architectural historians consider as "unusual and extraordinary". In 1912, G. Lawrence Stimson, whose architectural work is compared favorably to the Greene Brothers, designed the historic Colonial Revival style home at 207 Oaklawn Avenue for himself and his family;

(iv) City and Owners, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 21, 2016 and shall remain in effect for a term of ten (10) years thereafter.

CERTIFIED COPY
THIS IS A TRUE AND CERTIFIED COPY OF THE DOCUMENT
ON FILE IN THE OFFICIAL RECORDS OF
THE CITY OF SOUTH PASADENA
Deputy City Clerk 12/22/2016 Date
*This certification appears in blue ink with an original signature and bears the seal of the City of South Pasadena.

2. AUTOMATIC RENEWAL. For the first five years of the Agreement only, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. The maximum term of this Agreement, including any automatic renewals, shall not exceed 15 years from the effective date. The automatic renewal provision shall not apply to add an additional year to the Agreement after the initial five years of the term. If the City desires within the first five years not to automatically renew this Agreement, City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date within the first five years. The basis for determining whether the City will issue a Notice of Non-Renewal shall include, but not be limited to: the owner has provided substantial evidence that, although progress has been made towards meeting certain obligations of the contract, the owner cannot fulfill the remaining requirements of the contract due to reasons beyond the owner's control; or, the property has been successfully rehabilitated for continued occupancy or adaptive reuse; or, the Character-Defining Features of the property have been preserved and are expected to remain in good aesthetic composition with a reasonable level of routine maintenance and upkeep, or the property has been completely restored in accordance with the plans that were approved with a Certificate of Appropriateness. A Notice of Non-Renewal, which shall run with the land and be binding on all successors in interest, shall be recorded against the property stating the revised date of termination of Agreement.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serves timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner is entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement. The Owner shall provide written updates to the City every two years to document the progress on the rehabilitation/preservation plan. The updates shall confirm that preservation tasks are being completed in accordance with the time line stipulated herein. Such evidence shall include, but not be limited to photographs (before and after), applicable building permits, receipts of labor and materials.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owners: Michael and Jamie Lesnever
207 Oaklawn Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or

conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the

additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

EXHIBIT "A"

Legal Description

For APN/Parcel ID(s): 5317-014-021

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SOUTH PASADENA, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA AND IS DESCRIBED AS FOLLOWS:

s17THE NORTH 13 FEET OF LOT 51 AND ALL OF LOT 52 OF TRACT NO. 139, IN THE CITY OF SOUTH PASADENA, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 14 PAGES 6 AND 7 OF MAPS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

RESOLUTION NO. 7128

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING A HISTORIC DISTRICT THAT INCLUDES ALL PROPERTIES ON OAKLAWN AVENUE, 430 STRATTON LANE, THE OAKLAWN PARK, THE OAKLAWN BRIDGE AND THE WAR MEMORIAL BUILDING

WHEREAS, Section 2.62 of the South Pasadena Municipal Code Ordinance No. 2004 ("Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as historic districts; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Commission to initiate a historic district designation for Oaklawn Avenue that includes: all residences and structures located on both sides of Oaklawn Avenue between Columbia Street to the north, Fair Oaks Avenue to the southeast, 430 Stratton Lane, the Oaklawn Portals at the north end of Oaklawn (at Columbia Street), wall and fence structures along Fremont Avenue and Columbia Street, the Oaklawn Avenue parkway with existing trees, the Oaklawn Bridge and Waiting Station, Oaklawn Park, and the War Memorial building (the "Oaklawn Historic District"); and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owners, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the Cultural Heritage Commission ("CHC") voted to adopt CHC Resolution No. 10-01, which is a recommendation to the City Council to approve the proposed historic district; and

WHEREAS, the City Council held a public hearing on the proposed designation on May 5, 2010 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Based on the evidence presented at the public hearing, on the evidence contained in the Staff Report, CHC Minutes and other records of proceedings, the City Council considered the applicable designation criteria contained in the Cultural Heritage Ordinance and makes the following findings:

(a.) ***Its character, interest, and value as part of the heritage of the community:*** The historic district context for the Oaklawn historic district is residential development in the Oaklawn Park Tract in South Pasadena 1900-1912. The Oaklawn District is an excellent, representative example of upper middle class residential tract development that occurred in the San Gabriel Valley during the first decades of the 20th century. The tract's location, on the south border of Pasadena not far from Orange Grove Boulevard's "Millionaire's Row" and adjacent to the Pacific Electric Railway's Pasadena Short Line, was a key factor in the tract's promotion and development. The involvement of the Greene brothers in establishing the neighborhood's design, feeling and association was another important element in defining the uniqueness of the district. The identity of the district results from the interrelationship of its resources, which conveys a visual sense of the overall history of tract development within the City of South Pasadena and the region.

(c.) ***Its identification with a person, persons or groups who significantly contributed to the culture and development of the city, the state or the United States***

(f.) ***Its identification as the work of a person or persons whose work has influenced the heritage of the city, the state or the United States:***

The South Pasadena Realty and Improvement Company was the initial developer of the Oaklawn Park neighborhood. In 1904-05, the company hired architects Charles and Henry Greene to design gates and fences for the Columbia Street Entrance of the Oaklawn development. Soon after, in 1906, the Greenes were hired to design a bridge connecting the neighborhood to Fair Oaks Avenue over the railroad right-of-way and an accompanying waiting station for passengers of the Pacific Electric Railway.

Charles Sumner Greene and Henry Mather Greene studied architecture at the Massachusetts Institute of Technology, receiving their degrees in 1891. In 1893, following apprenticeships with noted architectural firms in Boston, the brothers joined their parents in Pasadena. By the fall of 1894, the Greene brothers had opened their architectural practice. During a four-month visit to England, Scotland and Europe in 1901, Charles Greene became greatly interested in the English Arts and Crafts Movement - an interest that was to have a profound effect on the direction the firm took upon his return.

The years 1902-1910 were highly productive for the firm, with residential design the primary focus. Approximately 150 projects were completed during this period, including examples of their finest work such as the Blacker House (1907) and the Gamble House (1908). Charles and Henry Greene are widely considered to have brought high-art aesthetics and exquisite craftsmanship to the Arts and Crafts

Movement in the early part of the 20th century. Their work continues to be exhibited worldwide and is included in decorative arts collections in museums in the United States and throughout Europe.

In 1907 local newspapers announced sale of the northern portion of Oaklawn to G. Lawrence Stimson, the son of wealthy real estate developer S.W. Stimson. Mr. Stimson's name is associated with a number of houses constructed in the northern end of Oaklawn as his name appears as the architect of record on the buildings' building permits. Stimson enjoyed a flourish architectural career in his own right, credited with design of many distinguished residences in Pasadena and South Pasadena, including the Wrigley mansion on Orange Grove Avenue in Pasadena.

(g.) ***Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, detail, materials or craftsmanship:***

The Oaklawn District represents an excellent example of upper middle class residential tract development that occurred in small cities throughout Southern California during the early decades of the 20th century. The district's architectural character is a mixture of Craftsman, Colonial Revival, Tudor Revival and English Revival styles with several dwellings exhibiting Mediterranean, Mission Revival or Prairie influences. These styles are a representative cross-section of designs popular from 1900 through 1912 as interpreted in residential architecture. Houses contributing to the district exhibit a consistently high level of architectural quality and minimal alterations.

(m.) ***With respect to the designation of a historic district, not less than fifty percent plus one of all affected owners of the proposed historic district must consent to such designation. Each parcel or lot shall be entitled to only one vote per parcel or lot. By way of example only, if the proposed historic district were composed of twenty parcels, then eleven property owners would be required to consent to the designation:***

Out of the 30 parcels in the Oaklawn Historic District, 17 property owners supported the nomination for district nomination.

SECTION 2. Based on the aforementioned findings, the City Council hereby approves the designation of the Oaklawn Historic District, along with the map as set forth in Exhibit "A" attached hereto and made a part thereof, as the official boundaries of the Oaklawn Historic District.

SECTION 3. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 15th day of September, 2010.

Richard D. Schneider, M.D., Mayor

ATTEST:

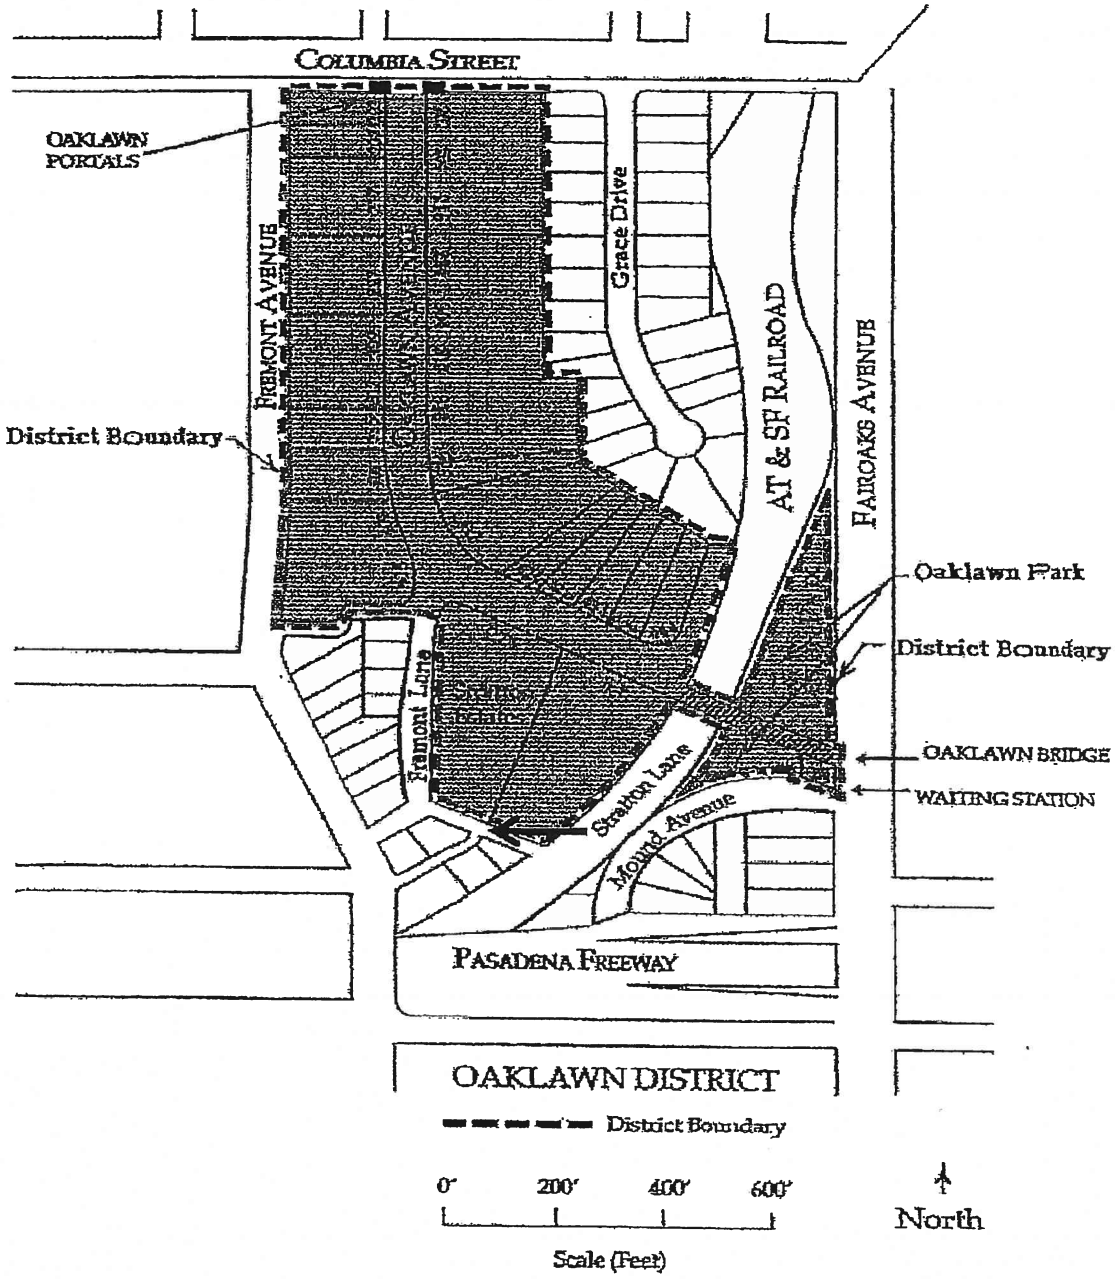
Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 15th day of September, 2010, by the following vote:

AYES: Cacciotti, Putnam, Sifuentes, Ten and Mayor Schneider



NOES: None

ABSENT: None

ABSTAINED: None

Proposed Oaklawn Historic District

Feature and Treatment	Cost	Compounded Annual Increase (5%/Yr)	Expanded Cost	Completed by Date	Area	Character defining feature	Standards
Division 01 - General Requirements							
01A: Historic Architectural Services	n/a			n/a	Throughout	n/a	
01B: Structural Engineering Services	n/a			n/a	Throughout	n/a	
01C: Landscape Architectural Services	n/a			n/a	Throughout	n/a	
Division 02 - Site Construction							
02A: Exterior Subterranean Sewer Pipe: Replace the "excessively aged" 1912 cast iron sewer pipe line from the rear of the house to the main city sewer in Fremont Ave to the West to prevent potential damage to the structure and contamination of the soil. Camera inspection reveals heavy deformation from rusting and indications of cast iron rot.	$ 17,000	0%	**$0.00***	2022	Rear Yard	No	Repairs according to industry standards and applicable building codes.
02B: Repair existing damaged Exterior Subterranean clay area drains causing flooding during rains and potential damage to structures, install additional drains as necessary to correct site drainage issues.	$ 3,500	0%	**$0.00***	2022	Rear and Side Yards	No	Protect and Maintain
02C: Irrigation: Replace existing corroded/leaking galvanized steel irrigation system to prevent water damage to structure; new irrigation system to incorporate greywater utilization for the reuse of household grey water to support adequate watering of the nine (9) significant trees on the property, and in particular the prominent and highly visible 100 year old Redwood tree in the front yard which is suffering/dying in the setting of ongoing higher temperatures and drought/watering restrictions, combined with the current lack of a functional irrigation system on the property. This item is prioritized due to high risk of death of the significant Redwood Tree.	$ 15,000	0%	**$0.00***	2017	Front, Side and Rear Yards	No	Protect and Maintain (structure and significant trees)
02D: Landscaping in public view: Restore Front yard landscaping for public enjoyment based on historical photos available, including historically-appropriate plantings on the newly-replaced (previously missing) rose ladders installed by current owners on the front of the house per historic photographs.	$ 3,000	0%	**$0.00***	2025	Front Yard	Yes	"The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided." and "The replacement of missing features (rose ladders" shall be substantiated by documentary, physical, or pictoral evidence."
Division 03 - Concrete							
03A: Repour modified concrete stairs at rear patio and reconstruct the missing concrete and stucco piers per historic photograph. Stairs to be poured and finished using the original trowel method used during construction in 1912.	$ 6,000	62.89%	$ 9,773	2026	Rear of Residence	Yes	"Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
03B: Rear Patio: Repair, or replace as necessary, damaged Rear concrete patio. Slab to be repoured and finished in the original trowel method used during construction in 1912. Original scoring lines to be recreated as they were.	$ 9,000	55.13%	$ 13,962	2025	Rear Yard	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
03C:Seismic Retrofit to prevent damage to the structure: bolt perimeter walls of structure to foundation as per LADBS.	$ 5,485	5.00%	$ 5,759	2017	Foundation	No	Repairs according to industry standards and applicable building codes.
Division 04 - Masonry							
04A: Original Greene and Greene Designed Historical Wall at Rear Property line: reconstruct the missing Arroyo River Rock Pylon to match the surrounding historic pylons in visual qualities and material. Current owners already removed overgrown non-historic vegatation to improve public viewing.	$ 3,000	55.13%	$ 4,654	2025	Rear Property Line at Fremont	Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
04B: Front Brick walkway and Patio: Repair broken and/or buckled sections of the original front brick walkway and front patio, flipping bricks where feasible for reuse of nonbroken side to retain historic bricks where feasible, and repointing as needed. Eliminates unsightly disrepair in highly visible front of home, as well as eliminates tripping hazard at front access.	$ 5,000	55.13%	$ 7,757	2025	Front of Residence	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved." "Deteriorated historic features shall be repaired rather than replaced."
04C: Repair or Replace failing garage foundation, currently a 1915 brick foundation. Garage was S Pas permit 1561 9/29/15, G Lawrence Stimson Co. Proposal for repair by Boston Brick and Stone.	$ 22,000	40.71%	$ 30,956	2023	Garage, Fremont View	No	Repairs according to industry standards and applicable building codes.

EXHIBIT "C"

Feature and Treatment	Cost	Compounded Annual Increase (5%/Yr)	Expanded Cost	Completed by Date	Area	Character defining feature	Standards
Division 05 - Metals							
05A: Downspouts: Replace, where missing, the distinctive angular and curved sections and hoppers of the metal downspouts via custom sheet-metal fabrication to match the orginials still in place and per historic photos. Restore original configuration of displaced downspout on rear of structure per historic photograph.	$ 4,500	5.00%	$ 4,725	2017	Roof Detail and West/Rear Elevation	Yes	"Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
05B: Metal gutters: Repair as necessary all rain gutters and feeder tubes through the soffits to protect structure from potential water damage.	$ 1,500	5.00%	$ 1,575	2017	Roof Detail	No	Protect and Maintain
05C: Distinctive Front Entry Portico: Repair sheet metal where rusted, cracked and/or buckled. Repaint to protect and maintain from future weather-related damage.	$ 2,500	10.25%	$ 2,756	2018	Front Residence Exterior	Yes	"Deteriorated historic features shall be repaired rather than replaced." Protect and mainain.
Division 06 - Wood and Plastics							
06A: East/Street Elevation: Repair, repaint and Reinstall the original existing 18 exterior wood shutters to the front and side façades of the main house, per historic photographs (shutters removed by previous owner and currently stored in the basement). Repair and reuse original historic hardware as available, and fabricate or purchase matching reproduction hardware where original is missing or broken beyond repair.	$ 4,500	27.63%	$ 5,743	2021	Front ResidenceExterior	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
06B: Wood framing in the historic Garage: Remove or replace wood beams structrually compromised by termite and dry rot damage.	$ 10,000	47.75%	$ 14,775	2024	Detached Garage facing Fremont Ave	No	Repairs according to industry standards and applicable building codes.
06C: Wooden soffits of residence: Repair or replace wood where damaged by water intrusion, old termite damage and dry rot.	$ 3,000	10.25%	$ 3,308	2018	Roof Detail	Yes	"Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
06D: Reconstruct lost pergola/rose trellis from the rear of the house to the garage, using extant footings in the concrete patio as guide to scale and location of pergola columns. Design to be based on other survival examples of period designed by G.L. Simpson	$ 8,000	62.89%	$ 13,031	2026	Rear Yard	Yes	" Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
Current owners commissioned custom reconstruction and installation of the missing 2 of 4 Front/East Elevation Rose ladders per historic photograph	n/a			n/a	Front Residence Exterior	Yes	"Replacement of missing features shall be substantiated by documentary, physical or pictoral evidence.
Division 07 - Thermal and Moisture Protection							
07A: Roofing: Remove and prpperly dispose of the numerous layers of deterioated roof coverings. Replace existing three-tab composition shingles with cedar shakes or similar as orignally constructed based on physical evidence (original roof remains under many layers of re-roofing). Rivas Roofing.	$ 42,000	15.76%	$ 48,620	2019	Residence, Rear Patio, and Detached Garage	Yes	"Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
Division 08 - Doors and Windows							
08A: Original Garage Doors: Repair and restore original large Garage doors(2) in preparation for custom reinstallation in the highly visible garage facing Fremont Ave. Will require wood repair as well as custom glass repair. Doors currently stored in back yard after removal from garage decades ago by previous owners. Fabricate custom historically appropriate hardware where missing to restore functionality.	$ 4,000	47.75%	$ 5,910	2024	Garage on Fremont at Rear of Property	Yes	Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."
08B:Insect screens: Repair and restore where available (23) and reconstruct where missing (31) wooden window screens. Existing original wood screens will require hand scraping of 100 year-old deteriorating paint layers, cleaning, wood glue and hardener where appropriate, repainting, and rescreening with historically-appropriate metal screening.	$ 5,425	10.25%	$ 5,981	2018		Yes	"Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence."
08C: Repair original wood windows to restore functional use as originally intended, ensuring original glass is protected and retained whenever feasible. Replace broken or missing glass where needed. Install weather stipping to windows and doors (54 count). Replace broken or missing sash cords (5). Repair window hardware such as locks and latches to restore functional use, and replace any missing hardware with matching materials. Window Repair and Restoration, Inc.	$ 9,470	10.25%	$ 10,441	2018		Yes	Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved."

Feature and Treatment	Cost	Compounded Annual Increase (5%/Yr)	Expanded Cost	Completed by Date	Area	Character defining feature	Standards
Division 09 - Finishes							
09A: Exterior Stucco: Replacement of the deteriorated exterior stucco, as the visual and physical integrity of the historic stucco has been so compromised by prior incompatible and ill-conceived repairs that patching could not correct the current poor condition, which includes entirely missing sections, large cracks, and multiple different textures prominent and visible in the public view. New stucco to duplicate the original as closely as possible in design, color and texture. No sandblasting to be used per Secretary of the Interior Standards. Panda Plastering, Inc.	$ 29,000	21.55%	$ 35,250	2020	Exterior Residence Throughout	Yes	"Chemical treatments, such as sandblastings, that cause damage to historic maternals shall not be used."
09B: Exterior Paint: Repainting of non-stucco surfaces to include window sashes, trim, eaves and beams, rear porch and same on the detached garage. Due to extensive paint deterioration and peeling, gentle hand scraping down to a layer of paint integrity will be required throughout in preparation. No sandblasting or chemical preparation to be employed. Also requires hand-scraping of old globs of paint on historic glass of windows where prior attempts at repainting did not prep panes properly to protect them.	$ 26,000	27.63%	$ 33,183	2021	Exterior Residence Throughout	Yes	"Chemical treatments, such as sandblasting, that cause damage to historic maternals shall not be used."
Division 10 - Specialties							
Not applicable at this time							
Division 11 - Equipment							
Garage Door Opener/Track System: Custom reinstallation of the original 1915 Wooden sliding Garage doors (2), for both public viewing enjoyment from Fremont, as well as functional utiilization providing access to the garage for off-street parking, as property lacks driveway. Reinstallation will require door restoration under Division 08, as well as removal of prior wooden modifications to garage opening previously made by prior owners to accommodate installation of a smaller "swing-out" ridged metal garage door, as well as fabrication and installation of a customated sliding automated door opener system to allow for automated operation of the original manual sliding doors. Removal and disposal of current "swing out" ridged metal garage door.	$ 4,000	47.75%	$ 5,910	2024	Detached Garage facing Fremont Ave	Yes	"Material and features from the restoration period will be retained and preserved."
Division 12 - Furnishings							
Not appliciable							
Division 13 - Special Construction							
Not appliciable							
Division 14 - Conveying Systems							
Not appliciable							
Division 15 - Mechanical							
Plumbing: Not applicable at this time as the entire residence has been re-plumbed since aquisition by current ownders including new hot and cold water distribution, new tankless water heater for energy conservation, new interior waste system, and incorporation of greywater piping for reuse of household water. Original plumbing fixtures were preserved and retained. An original clawfoot bathtub stored in the backyard for several decades since removal was restored and reinstalled by the current owners.	$ -			n/a			
HVAC: Not applicable at this time as a new energy efficient 2 zone system heating and air conditioning system has been installed since acquisition by the current owners, replacing the previous gravity heating system. Distinctive features and finishes were incorported, such as the original decorative metal grates and louvers are preserved and retained in their original function.	$ -			n/a			
Division 16 - Electrical							
Not applicable at this time as the entire residence has been rewired including an upgraded electrical service panel since acquisition by current owners. Distinctive features and finishes such as original push switches and original brass coverplates were preserved and retained.	$ -			n/a			
Total:	**$ 242,880**		**$ 264,069**				

**Included for informational purposes, owners will undertake stated repairs outside of the Mills Act contract*

Maintenance Schedule

207 Oaklawn Ave. South Pasadena

Feature	Character Defining?	Proposed Treatment	Schedule	Standards Compliance
Trees and Landscaping	Yes	Annual maintenance of mature trees and landscaping	2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026	Protect and Maintain
Drainage	No	Annual inspection and repair of drainage systems, to ensure water does not collect in an area that can damage the property or structures.	2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026	Protect and Maintain
Roofing	Yes	Tri annual inspection and maintenance as necessary	2021, 2024	Protect and Maintain
Fireplace	Yes	Tri annual inspection and maintenance, repair as necessary	2021, 2024	Protect and Maintain
Wood-destroying Pests	No	Every 5 years inspect and treat as needed for wood-destroying pests	2022	Protect and Maintain

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.
2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.
4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.
5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.
6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.
7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.
8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.
10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

2025 PROGRESS REPORT

Mills Act – Progress Report

Babak Zahabizadeh & Aleta Blanc (Applicants/Owners)
929 Buena Vista Street
South Pasadena, CA 91030

April 3, 2025

Attn: Tatianna Marin
City of South Pasadena
Community Development Department
1414 Mission Street
South Pasadena, CA 91030

Project Location:

929 Buena Vista Street, South Pasadena, CA 91030 (APN: 5317-035-004)

Dear Tatianna Marin,

In response to your request dated March 3, 2025, we have compiled a list of our rehabilitation and maintenance projects. This progress report includes a numerical list of projects with photo documentation of the completed work including "before" and "after" conditions and any related building permits as applicable.

1. Crown & Bay Windows Rehabilitation Above Primary Bedroom

This project was precipitated by an urgent need to repair damage caused by a leak and cracks above the primary bedroom. Over the course of a month, the crown above the primary bedroom was fully rehabilitated to its original condition. The project also included complete restoration of the primary bedroom bay windows directly below the crown.

The work required rebuilding a wall section of the bay roof area including demolition of existing wood trim in order to repair and replace these wood surfaces. New Tyvek waterproof paper and copper flashing were installed to protect the house from deterioration. Additionally, new gable roof edges were rebuilt and the gentlest methods possible were used to restore the crown to its original and unique design (#1, #2, #8, & #9 of Proposed Project & Description).

AFTER

3. Rehabilitation of East (Meridian Avenue) Side of House

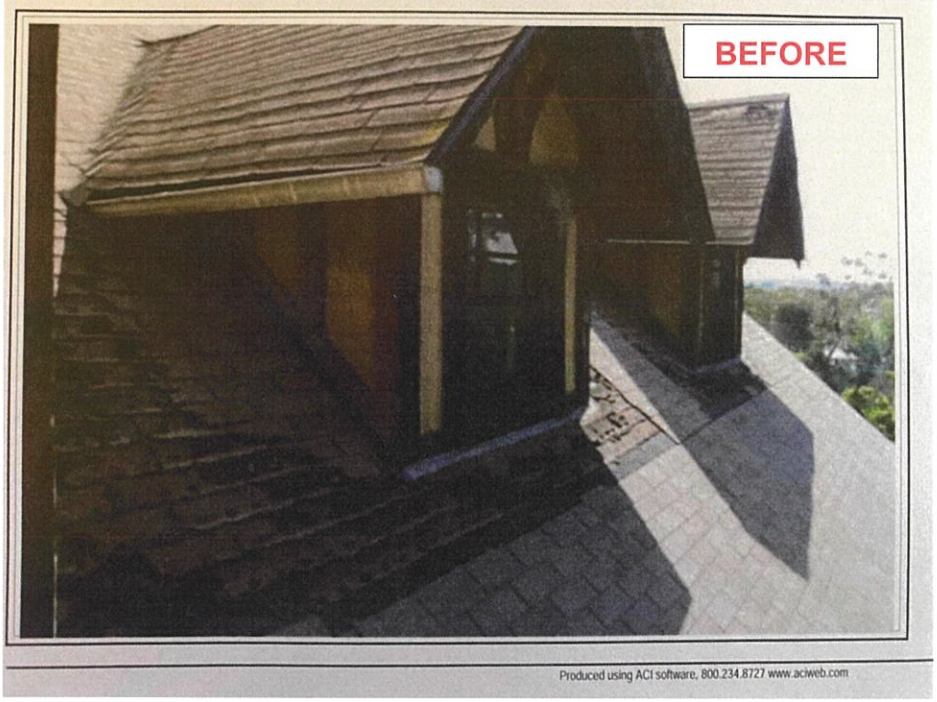
We completed a full rehabilitation of the east side of the house facing Meridian Avenue. We repaired, reframed, replaced, and repainted exterior carpentry (#1, #2, #8, & #9 of Proposed Project & Description). The work required extensive scaffolding and labor to replace all damaged half-timber repair and rebuild seven windows, window casings, window flashings, and window screens (#3 of Proposed Project & Description). New Tyvek waterproof paper and copper flashing were installed to protect the house from deterioration. All shingles and beams were replaced (#1, #2, #8, & #9 of Proposed Project & Description).

For the paint and stucco work, new stucco was installed and second/third floor shims wall and roof overhang. Due to the size requirements, fabrication and special milling was required. The rehabilitation of this side of the house took approximately five weeks.

4. Rehabilitation of Southwest (Rear) Side of the House

Similar to Paragraph 3 above, we completed a full rehabilitation of the southwest (rear) side of the house. We repaired, reframed, replaced, and repainted exterior carpentry. (#1, #2, #8, & #9 of Proposed Project & Description). The work required extensive scaffolding and labor to replace all damaged half-timber, shingles, repair and rebuild eleven windows, window casings, window flashings, and window screens. These windows were also rebuilt with new cords for proper operation (#3 of Proposed Project & Description).

All damaged exterior wood replaced including gable horizontal box, roof facia and overhang. Replaced missing facia crown molding and top missing ball. New Tyvek waterproof paper and copper flashing were installed to protect the house from deterioration.



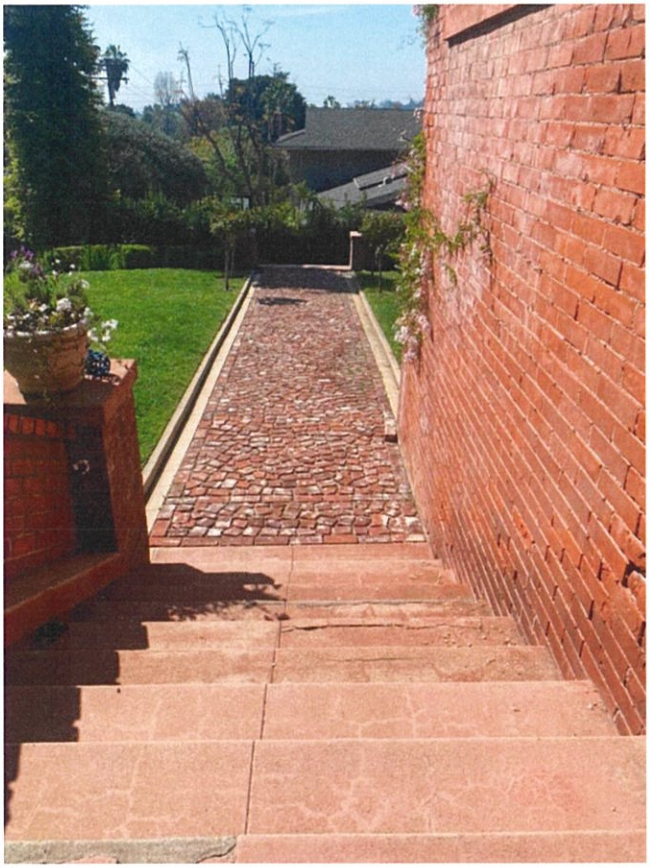
For the paint and stucco work, new stucco was installed and second/third floor shims wall and roof overhang. Due to the size requirements, fabrication and special milling was required.

We rebuilt all eight screen doors and eight screen windows for the attached sunroom on the first floor of this side of the house. All were refitted to ensure proper operation. Carpentry repairs to split timber trim outside of the sunroom.

The rehabilitation of this side of the house took approximately six weeks.

AFTER

BEFORE



BEFORE
Produced using ACI software, 800.234.8727 www.aciweb.com

6. Rehabilitation & Installation of Original Window

We rebuilt a window, window casings, window flashings, and window screen where it was missing. This window was also rebuilt for proper operation (#3 of Proposed Project & Description).

SUMMARY OF COMPLETED WORK

Section II Schedule and Reporting System

Project	Year	
1. Installation of Fire Alarm System	2018	Incomplete
2. Geotechnical and Engineering Analysis of Ground Site Conditions	2018	
3. West Brick Staircase, Rebuild Foundation and Walls, Repairs and Structural Stabilization, Engineering Analysis	2018	
4. Improve Site Drainage, West Elevation	2018	
5. Waterproof West Basement Wall below Grade	2018	
6. Rebuild West Terrace Deck above West Stairs	2019	
7. Front Stairs to Main Entry & Adjacent Corner Foundation, Repairs and Structural Stabilization and Engineering Analysis	2019	
8. Roof Replacement and Gutter Repairs	2021	COMPLETE
9. Repair Shingle Siding (to include as-needed carpentry repairs)	2023	COMPLETE
10. Wash and Stain/Paint Wood Shingles	2023	COMPLETE

Noncapitalized/As Needed Repairs:

1. Abate Exterior Wood Trim
2. Carpentry Repairs to Dormers, Eaves, Split Timber Trim, etc.
3. Repairs to Doors and Windows
4. Indoor Swimming Pool Enclosure
    a. Engineering Analysis
    b. Repair Concrete Ceiling and Walls
    c. Repair Exterior Foundation beneath East, South and West Walls
    d. Repairs to Brick Wall and Buttresses
    e. Inject Cementitious Grout between Walls and Brick Veneer
5. Remove North Elevation Organ Tower and Restore Original Siding and Features
    a. This task is pending (1) detailed engineering analysis on the structural stability of the tower vis-à-vis the residence; (2) adequate documentary evidence on which to base reconstruction plans and design; (3) CHC input and a Certificate of Appropriateness for reconstruction plans.

Section II Schedule and Reporting System (con't)

Reporting System:

The property owners of the Torrance-Childs Residence will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates on the Mills Act work plan and associated studies.

Per the CHC request, the property owners will also provide a simple site plan at the first CHC hearing on their Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

*This certification appears in blue ink with an original signature and bears the seal of the City of South Pasadena.

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 20th day of December 2017, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Babak Zahabizadeh and Aleta M. Blanc ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 929 Buena Vista Street, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 41, attached hereto marked "Exhibit B". The English Tudor Revival-Craftsman style house was constructed in 1902 by William C. Crowell and designed by architect Charles Wesley Buchanan for Mrs. Emma B. Childs. The house is commonly known as the Torrance-Childs Residence and also as the Rose Hedge House for its former extensive rose gardens. The home has been occupied by several notable people including Mrs. Childs, the widow of George W. Childs whom was the editor for *The Philadelphia Ledger* and a known philanthropist. Jared Sidney Torrance, the founder of the City of Torrance became the home's second owner in 1910. The home's third owner was William Bertrand Stevens, the former Bishop of the Episcopalian Diocese of Los Angeles;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on December 20, 2017 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(e)(5) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specific herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. CONFORMANCE WITH NATIONAL STANDARDS. The contract agreement is to assist in the Preservation of the qualifying property; therefore, Restoration and Rehabilitation of the property and all work associated with thereto shall be subject to comply with the recommendations of the Cultural Heritage Commission and, shall conform to the rules and regulations of the State of California Office of Historic Preservation (Department of Parks and Recreation) and the United States Secretary of the Interior's Standards for the Treatment of Historic Properties, attached hereto marked "Exhibit D". Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement.

5. INSPECTIONS. The owner shall agree to allow periodic examination of the interior and exterior of the premises by the County Assessor, the Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to verify the owner's compliance with the contract agreement, and to provide any information requested to ensure compliance with the contract agreement. During the term of this Agreement, after five years, and every five years thereafter, the City, County of Los Angeles, or City and County shall have the option to inspect the premises to determine the property owner's compliance with the contract Agreement.

6. REPORTS. The owner shall agree to submit evidence to the City in accordance with the reporting schedule specified in the Mills Act Contract (and at a minimum every three years) to confirm that Preservation tasks were completed in accordance with the time line stipulated in this Agreement..

7. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

8. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

9. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

10. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

11. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

12. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

13. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

14. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Babak Zahabizadeh & Aleta M. Blanc
929 Buena Vista Street
South Pasadena, California 91030

15. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

16. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

17. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

18. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

19. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

20. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

21. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

22. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

23. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

24. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

RESOLUTION 6530

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING 929 BUENA VISTA STREET, COMMONLY KNOWN AS THE TORRANCE-CHILDS HOUSE, AS AN OFFICIAL SOUTH PASADENA HISTORIC LANDMARK (LANDMARK #41)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code (commonly known as the "Cultural Heritage Ordinance 2004) authorizes the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as Landmarks; and

WHEREAS, the Community Development staff and Commission have duly prepared a nomination form to register 929 Buena Vista Street; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (A)(3) ["Designation Procedure"] of the above Ordinance Section in that it visited the site, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the Commission made findings of fact pursuant to Subsection (A)(2) ["Designation Procedure"] of the above Ordinance Section as follows:

The property qualifies as a landmark by reason of the following applicable subsections:

(A) Its character, interest or value as part of the heritage of the community.

(C) Its identification with a person, persons or groups who significantly contributed to the culture and development of the city, state or United States.

(D) Its exemplification of a particular architectural style of an era of history of the city.

(E) Its exemplification of the best remaining architectural type in a neighborhood.

(F) Its identification as the work of a person or persons whose work has influenced the heritage of the city, state or the United States.

(G) Its embodiment of elements of outstanding attention to architectural design, engineering, detail, materials, or craftsmanship.

WHEREAS, based on the documentary evidence collected by Glen Duncan and David Melford, the designation being categorically exempt, sub-committee research, on-site inspection and public testimony, the Commission voted to recommend designation of this property on June 18, 1998 and forwarded the recommendation to the City Council; and

WHEREAS, the City Council held a public hearing on the proposed designation on July 15, 1998 and received public testimony.

NOW THEREFORE, be it resolved the South Pasadena City Council designates 929 Buena Vista Street, commonly known as the Torrance-Childs House, as South Pasadena Historic Landmark No. 41, based on the above-mentioned findings.

PASSED, APPROVED and **ADOPTED** this 15th day of July, 1998.

Wallace N. Emory
WALLACE N. EMORY, MAYOR

ATTEST:

Sonja M. Hansen
for JEANNINE A. GREGORY, CITY CLERK

I hereby certify that the foregoing resolution was adopted by the City Council of the City of South Pasadena at a regular scheduled meeting held on the 15th of July, 1998.

AYES: Cohen, Knapp, Saeta, Zee and Mayor Emory
NOES: None
ABSENT: None

Sonja M. Hansen

CITY OF SOUTH PASADENA

AGENDA MEMORANDUM

COUNCIL AGENDA:	July 15, 1998
TO:	City Council
VIA:	Sean Joyce, City Manager SS
VIA:	Gay Forbes, Community Development Director
FROM:	Maree Hoeger, Assistant Planner
SUBJECT:	Proposed Designation of Cultural Heritage Landmark Designation at 929 Buena Vista Street (Torrance-Childs House)

Background

On June 18, 1998, the Cultural Heritage Commission concluded its consideration of the proposed designation of 929 Buena Vista Street (Torrance-Childs House) as an official Cultural Heritage Landmark. After thorough review, the Commission determined that the property satisfies all of the qualifications for landmark status as required by South Pasadena Municipal Code Section 2.73A-14 (Attached for reference). On July 1, 1998, the City Council set the public hearing date for tonight's meeting to consider designating 929 Buena Vista Street a Cultural Heritage Landmark.

Discussion

The Torrance-Childs House is a thirty-five room English Tudor Revival Residence built in 1902. The proposal to designate 929 Buena Vista Street (Torrance-Childs House) a Cultural Heritage Landmark was initiated by the Cultural Heritage Commission. A Commission Sub-Committee conducted extensive research on the residence. A Landmark Sub-Committee Report was prepared and includes findings to support the recommendation for landmark designation (Attached for reference).

The Torrance-Childs House satisfies the list of standards for designation of landmarks as identified in Ordinance No. 2004. The following is a list of landmark designation criteria satisfied by the Torrance-Childs House and corresponding findings made by the Sub-Committee:

AGENDA ITEM 13

(A) Its character, interest or value as a part of the heritage of the community;	The house is featured on many postcards; it was influential in advancing South Pasadena's growing reputation as a premier residential community in the early part of the 20th Century.
(C) Its identification with a person, persons or groups who significantly contributed to the culture and development of the city, state or United States;	The house was built for Mrs. Childs, widow of noted philanthropist and editor of the Philadelphia Ledger; Mrs. Childs was a close friend President Garfield's wife. The second owner, Jared Torrance, founded the City of Torrance, and established the Pasadena Electric Company.
(D) Its exemplification of a particular architectural style of an era of history of the city;	Built in 902 by William C. Cromwell, the house is a 35-room English Tudor Revival Residence that it still largely intact.
(E) Its exemplification of the best remaining architectural type in a neighborhood;	The house maintains many of the original architectural and design elements, including the gas and electric fixtures, servants quarters, indoor swimming pool, and grand staircase. The residence remains the best such example of English Tudor Revival Style in the neighborhood, and possibly the entire City.
(F) Its identification as the work of a person or persons whose work has influenced the heritage of the city, state or the United States;	At the turn of the century, the English Tudor Revival Style became a primary influence in the emerging American reaction against elaborate Victorian decorative detailing.
(G) Its embodiment of elements of outstanding attention to architectural design, engineering, detail, materials, or craftsmanship.	From exterior ironwork with a rose motif to detailed interior and English Tudor Revival style exterior features, the house reflects superior design and construction.

Recommendation

It is recommended that the City Council approve landmark designation of 929 Buena Vista Street.

LANDMARK SUBCOMMITTEE REPORT

Torrance-Childs House, 929 Buena Vista Street

The Torrance-Childs House, also known as "Rose Hedge" was built in 1902 by William C. Crowell. Charles W. Buchanan was the architect of the 35-room English Tudor Revival Residence that is largely intact. It has eight fireplaces, and elevator, indoor swimming pool, chapel and a grand staircase with beautiful stained glass windows above the landing between first and second floors. Third floor servants quarters and storage areas are virtually unchanged after almost 100 years. Original gas/electric fixtures and communication system are also intact.

The current owners have indicated their approval and have signed the attached nomination application prepared by this subcommittee.

Based on the evidence presented in application materials and on-site inspection, we highly recommend that the Commission proceed with a public hearing pursuant to recommending landmark designation of this property by the City Council. Our findings relate to the following applicable subsections of the Cultural Heritage Ordinance:

(a) **Character, interest or value as part of the heritage of the community.** The residence is one of the finest estate properties in the City. It was featured on many colorful post cards and helped advance South Pasadena's growing reputation in the early part of the Twentieth Century as a premier residential community.

(c) **Identification with a person, persons or groups who significantly contributed to the culture of the City, state or United States.** Built in 1902 for Emma Childs, widow of noted philanthropist and editor of the Philadelphia Ledger. Mrs. Childs was a close friend of Lucretia Garfield and likely influenced the President's widow to build a house next door.

Jared Sidney Torrance, the second owner, founded the City of Torrance, established the Pasadena Electric Company and was director of over 140 business enterprises nationwide.

The third owner, the Right Reverend William Bertrand Stevens, was bishop of the Los Angeles Diocese of the Episcopal Church

(d) **Exemplification of a particular architectural style of an era of the City's history;**

(e) **Its exemplification of the best remaining architectural type in a neighborhood; and**

(f) **Identification as the work of a person or persons whose work influenced the heritage of the City.**

At the turn of the century, before the Craftsman Style had emerged as the definitive architectural mode of the period, English Tudor Revival Style became a primary influence in the emerging American reaction against elaborate Victorian decorative detailing. Designed by a major architect, for a socially prominent family, this excellent example was most likely a key influence in local architectural development. It is perhaps the best such example in South Pasadena

(g) **Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials and craftsmanship.** From exterior ironwork with the rose motif to above-described interior and exterior features, the residence reflects truly superior design and construction craftsmanship.

GLEN DUNCAN

DAVID MELFORD

Resolution of the South Pasadena Cultural Heritage Commission

Re: Designation of the Torrance-Childs House at 929 Buena Vista Street as an official South Pasadena Historic Landmark

WHEREAS The Torrance-Childs House, also known as "Rose Hedge" was built in 1902 by William C. Crowell.Charles W. Buchanan was the architect of the 35-room English Tudor Revival Residence that is largely intact. It has eight fireplaces, and elevator, indoor swimming pool, chapel and a grand staircase with beautiful stained glass windows above the landing between first and second floors. Third floor servants quarters and storage areas are virtually unchanged after almost 100 years. Original gas/electric fixtures and communication system are also intact.

WHEREAS Section 2.73A-14 of the South Pasadena Municipal Code Ordinance # 2004 (commonly known as the "Cultural Heritage Ordinance") authorizes the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as Landmarks; and

WHEREAS the property owners have indicated their approval and have signed a duly prepared nomination form to register the Torrance Childs House, located at 929 Buena Vista Street; and

WHEREAS the Commission has complied with the applicable provisions of Subsection (A) (3) ["Designation Procedure"] of the above Ordinance Section in that it visited the site, mailed notices, held a duly noticed public hearing, and received public comment; and

WHEREAS the Commission made findings of fact pursuant to Subsection (A) (2) ["Designation Procedure"] of the above Ordinance Section,as follows:

The property qualifies as a landmark by reason of the following applicable subsections:

(a) **Character, interest or value as part of the heritage of the community.** The residence is one of the finest estate properties in the City. It was featured on many colorful postcards and helped advance South Pasadena's growing reputation in the early part of the Twenteth Century as a premier residential community.

(c) **Identification with a person, persons or groups who significantly contributed to the culture of the City, state or United States.** Built in 1902 for Emma Childs, widow of noted philanthropist and editor of the Philadelphia Ledger. Mrs. Childs was a close friend of Lucretia Garfield and likely influenced the President's widow to build a house next door. Jared Sidney Torrance, the second owner, founded the City of Torrance, established the Pasadena Electric Company and was director of over 140 business enterprises nationwide.

The third owner, the Right Reverend William Bertrand Stevens, was bishop of the Los Angeles Diocese of the Episcopal Church.

(d) **Exemplification of a particular architectural style of an era of the City's history;**

(e) **Exemplification of the best remaining architectural type in a neighborhood;**

(f) **Identification as the work of a person or persons whose work influenced the heritage of the City.** At the turn of the century, before the Craftsman Style had emerged as the definitive architectural mode of the period, English Tudor Revival Style became a primary influence in the emerging American reaction against elaborate Victorian decorative detailing. Designed by a major architect, for a socially prominent family, this excellent example was most likely a key influence in local architectural development. It is perhaps the best such example in South Pasadena.

(g) **Embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials and craftsmanship.** From exterior ironwork with the rose motif to above-described interior and exterior features, the residence reflects truly superior design and construction craftsmanship.

WHEREAS, based on the evidence presented by application materials, subcommittee validation, on-site inspection, public testimony and evaluation by qualified architectural historians, the Commission voted to recommend designation of this property and made the above findings of fact on June 18,1997;

NOW THEREFORE, be it resolved that the Commission recommend to the South Pasadena City Council the registration of 929 Buena Vista Street, also known as "Rose Hedge" and "The Torrance-Childs House," as South Pasadena Historic Landmark # 41.

Section I Project Background

Constructed between 1902 and 1904, the Torrance-Childs Residence is a distinctive, highly intact English Tudor Revival-Craftsman Residence in South Pasadena. The residence was designed by Indiana-born architect Charles Wesley Buchanan and constructed by William C. Crowell for Mrs. Emma B. Childs. Mrs. Childs was the widow of George W. Childs, a well-known philanthropist and editor of *The Philadelphia Ledger*. The residence became known as the "Rose Hedge House" for its expansive rose gardens, which extended southward from the home toward the present-day Arroyo Parkway (State Route 110). The original large-scale parcel was divided into smaller lots in 1912, 1956, and 1962. Remnants of the original estate grounds include an extant brick staircase in the southwest portion of the parcel.

In 1910, Mrs. Childs sold 929 Buena Vista Street to Jared Sidney Torrance, the original owner of The Pasadena Electric Company and founder of the City of Torrance. Torrance's interest in the technological innovations of the day is reflected in the intact master switch panel in the living room, from which Torrance could operate lights throughout the house. The home's third owner, William Bertrand Stevens, Bishop of the Episcopalian Diocese of Los Angeles, was responsible for the addition of the organ tower, extant on the north (primary) elevation of the house, constructed in circa 1931.

By the early 1990s, the Torrance-Childs Residence lay directly adjacent to the proposed Caltrans 710 expansion. The home had suffered from deferred maintenance and deterioration. It was during this time, in 1997, that Bobby Zahabizadeh and Aleta Blanc purchased the home. While raising their two children in the grand old property, Bobby and Aleta found the time to undertake numerous repair and rehabilitation projects. In 1998, they nominated their home as a historic landmark in South Pasadena. The Torrance-Childs Residence is now local landmark #41.

In addition, the Torrance-Childs Residence is a contributor to the Buena Vista Historic District. In 1978, the Buena Vista Historic District was formally found eligible for the National Register of Historic Places through consensus with the State Historic Preservation Officer; the State Historic Resources Inventory indicates a status code of "2D" for the property. Therefore, the historic district and its contributors, including the Torrance-Childs Residence, are also listed and designated on the California Register of Historical Resources.

In July 2016, Bobby and Aleta filed a letter of intent to apply for the Mills Act with the City of South Pasadena. At the September 2016 meeting of the Cultural Heritage Commission (CHC),

commissioners agreed that the property was an ideal candidate for the Mills Act and the property owners should proceed with an application.

In the summer of 2017, Bobby and Aleta hired historic preservation contractor David Charlebois and structural engineer Melvyn Green to conduct site inspections and prepare a list of critical stabilization, repair, and rehabilitation projects for the Torrance-Childs Residence.

The initial list included 21 projects at an estimated total of $1.7 million (including estimated construction costs, equipment, overhead, and contingency fees). This total represents 146 percent of the home's total assessed value for 2016-2017 ($1.16 million).

In October 2017, the property owners attended a CHC meeting to present their proposed approach for a Mills Act work plan and to hear feedback from the CHC.

In order to incentivize urgently needed repairs without overburdening the owners, the property owners proposed that the first 10-year term include the most critical repairs (primarily related to structural stabilization), as determined by Mr. Charlebois, Mr. Green, and Debi Howell-Ardila, the preservation specialist assisting the property owners with their application. These repairs are described in this memo.

In late October, the CHC attended a site walk with the property owners and Ms. Howell-Ardila in order to view the repair and rehabilitation items to be included in the Mills Act work plan. Recommendations for the application were made, with the agreement that the final application would be brought forward at the November CHC meeting.

As a result of the CHC recommendations, the following changes were made to the application:

1. Photo documentation of existing conditions was added; this documentation is included as Appendix A;

2. A high-priority project for installation of a fire alarm system was added;

3. A simple site plan will be submitted to the CHC when the property owners bring their first Mills Act project to the CHC for review and comment.

It is understood that the work plan and priorities might evolve over time, given the number of critical repairs needed. For this reason, the enclosed document lists repairs that will not be "capitalized" (included in the financial analysis) in the first 10-year period of the Mills Act. These additional repairs will be completed on an as-needed basis through the first 10-year contract period and/or included in the second 10-year contract.

Section II Schedule and Reporting System

Project	Year
1. Installation of Fire Alarm System	2018
2. Geotechnical and Engineering Analysis of Ground Site Conditions	2018
3. West Brick Staircase, Rebuild Foundation and Walls, Repairs and Structural Stabilization, Engineering Analysis	2018
4. Improve Site Drainage, West Elevation	2018
5. Waterproof West Basement Wall below Grade	2018
6. Rebuild West Terrace Deck above West Stairs	2019
7. Front Stairs to Main Entry & Adjacent Corner Foundation, Repairs and Structural Stabilization and Engineering Analysis	2019
8. Roof Replacement and Gutter Repairs	2021
9. Repair Shingle Siding (to include as-needed carpentry repairs)	2023
10. Wash and Stain/Paint Wood Shingles	2023

Noncapitalized/As Needed Repairs:

1. Abate Exterior Wood Trim
2. Carpentry Repairs to Dormers, Eaves, Split Timber Trim, etc.
3. Repairs to Doors and Windows
4. Indoor Swimming Pool Enclosure
    a. Engineering Analysis
    b. Repair Concrete Ceiling and Walls
    c. Repair Exterior Foundation beneath East, South and West Walls
    d. Repairs to Brick Wall and Buttresses
    e. Inject Cementitious Grout between Walls and Brick Veneer
5. Remove North Elevation Organ Tower and Restore Original Siding and Features
    a. This task is pending (1) detailed engineering analysis on the structural stability of the tower vis-à-vis the residence; (2) adequate documentary evidence on which to base reconstruction plans and design; (3) CHC input and a Certificate of Appropriateness for reconstruction plans.

Section II Schedule and Reporting System (con't)

Reporting System:

The property owners of the Torrance-Childs Residence will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates on the Mills Act work plan and associated studies.

Per the CHC request, the property owners will also provide a simple site plan at the first CHC hearing on their Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained as required by the owners.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

Section III Description of Work Plan and Priorities

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

	Proposed Project & Description	Est. Cost	Priority
1.	Installation of Fire Alarm System	TBD	Urgent
2.	Geo-Technical Studies and Engineering Evaluation Soils samples are to be taken at points around the property in order to analyze the subsurface conditions and issues to assist the engineer in the planning and design of foundation repairs and long-term stabilization.	$ 13,300	Urgent
2.	West Brick Staircase, Rebuild Foundation/Walls, Repairs Engineering Evaluation Reconstruction: Carefully photograph, measure, and draw existing conditions and provide documentation for accurate reconstruction. Shore up basement directly below stairs. Disassemble section of the stairs from the terrace level at the first floor down to the mid-landing. Salvage all materials possible for appropriate reuse. Disassembly includes the brick railings, sidewalls, concrete steps and foundations. Excavate for new foundations and compact soil. Form, set rebar, and pour new concrete foundations, sidewalls, and supports. Cover sidewalls with original brick veneer. Rebuild brick railings, lintels, steps, and other incidental concrete details. (Photos illustrate west elevation brick staircase.)	$105,750 $ 16,350	Urgent Urgent

Section III Description of Work Plan and Priorities (continued)

	Proposed Project & Description	Est. Cost	Priority
3.	Improve Site Drainage along West Elevation Excavate and install a sump pit, pump, and new drain lines along the west elevation.	$ 26,250	Urgent
4.	Waterproof West Basement Wall Below Grade Excavate along west basement along with site drainage work to expose the mid section of west basement wall. Clean wall, patch holes and cracks. Install a waterproof membrane, protection board, and backfill.	$ 29,100	Urgent
5.	Rebuild West Terrace Deck above West Stairs This project involves the cracked and damaged section of the terrace at the west elevation at the top of the west brick stairs and over the basement below. The work includes shoring the deck and walls, removing the concrete deck, installing new steel supports, pouring a concrete deck, waterproofing the deck and pouring a new topping to approximate the original in color and pattern.	$ 73,000	High
6.	Front Stairs, Main Entry & Adjacent Corner Foundation Engineering Evaluation Front Stairs, eastern portion of north elevation. Photograph and note existing conditions for accurate reconstruction. Carefully remove the large sandstone steps and set them aside. Remove the stone piers. Trench and pour a new concrete foundation. Reset the sandstone steps aligned so that the upper step is the same height as the covered concrete walkway. Engineering study for repairs at stairs is also estimated. Front entrance, western portion. This item includes repairs to the corner of the house at the west end of the front stairs discussed above. Strengthen foundation to resist settlement and repair cracks in brick wall at this corner. Engineering evaluation for repairs at the corner of house is also included.	$ 34,300 $ 3,500	Urgent Urgent
7.	Roof Replacement and Gutter Repairs	$ 218,250	High
8.	Repair Shingle Siding Remove damaged shingle siding where it occurs at all elevations. Spot replace the deteriorated waterproof paper beneath the removed shingles. Install new shingles in a pattern and of a kind to blend the old and new materials.	$ 37,000	High
9.	Wash and Stain/Paint Wood Shingles	$ 24,500	High

Section III Description of Work Plan and Priorities (continued)

Non-Capitalized Projects: Repairs to be carried out on an as-needed basis. To be completed after structural stabilization or during next contract term.

	Proposed Project & Description	Est. Cost	Priority
1.	Abate Exterior Wood Trim Abate exterior wood trim to remove lead paint using the gentlest methods possible	$ 112,350	Medium
2.	Carpentry Repairs at Dormers, Eaves & Split Trim Various carpentry repairs at trim details at each elevation (other than doors & windows)	$ 154,250	Medium
3.	Repairs at Doors and Windows Various carpentry repairs at doors and windows including refitting for proper operation, reinforcing corners where loose, replacing frames in-kind where they are too damaged to be repaired, and re-screening.	$ 201,000	Medium
4.	Indoor Swimming Pool Structure and Enclosure		
	a. Engineering Analysis for items b through d	$ 32,250	Medium
	b. Repair Concrete Ceiling and Walls Provide scaffolding as needed for access to interior ceiling and arches. Epoxy inject ceiling and wall cracks. Remove spalled sections of concrete beams and at outer walls. Grind concrete at perimeter of spalls to form square edges. Clean exposed rebar and double prime. Patch prepared spalls with concrete/mortar.	$ 76,250	Medium
	c. Repair Exterior Foundation beneath East, South and West Walls Excavate at perimeter of walls for a below grade foundation bond beam to wrap around the three walls. Set rebar, form, and pour bond beam.	$ 54,100	Medium
	d. Repairs to Brick Wall and Buttresses Disassemble misaligned bricks at arches and buttresses where necessary. Salvage all bricks for reuse. Remove roots from behind bricks where exposed. Reset removed bricks with veneer ties. Re-point where needed with mortar custom mixed to blend in strength, color and texture with the adjacent original materials.	$ 87,550	Medium
	e. Inject Cementitious Grout between Walls and Brick Veneer Inject cementitious grout in the uneven void between the concrete exterior walls and the brick veneer.	$ 43,800	Medium

Section III Description of Work Plan and Priorities (continued)

Non-Capitalized Projects: Repairs to be carried out on an as-needed basis. To be completed after structural stabilization or during next contract term.

Proposed Project & Description	Est. Cost	Priority
5. Disassemble North Organ Tower and Restore Original Siding and Features	$ 87,840	Low
c. This task is pending (1) detailed engineering analysis on the structural stability of the tower vis-à-vis the residence; (2) adequate documentary evidence on which to base reconstruction plans and design; (3) CHC input and a Certificate of Appropriateness for reconstruction plans.		

Section IV Financial Analysis

	Proposed Project & Description	Est. Cost	Schedule
1.	Installation of Fire Alarm System	TBD	2018
2.	Geo-Technical Studies and Engineering Evaluation	$ 13,300	2018
3.	West Brick Staircase, Rebuild Foundation/Walls, Repairs	$105,750	2018
	Engineering Evaluation	$ 16,350	2018
4.	Improve Site Drainage along West Elevation	$ 26,250	2018
5.	Waterproof West Basement Wall Below Grade	$ 29,100	2018
6.	Rebuild West Terrace Deck above West Stairs	$ 73,000	2019
7.	Front Stairs, Main Entry & Adjacent Corner Foundation	$ 34,300	2019
	Engineering Evaluation	$ 3,500	2019
8.	Roof Replacement and Gutter Repairs	$218,250	2021
9.	Repair Shingle Siding (includes as-needed carpentry repairs)	$ 37,000	2023
10.	Wash and Stain/Paint Wood Shingles	$ 24,500	2023

Total Investment in Torrance-Childs Residence:	**$ 581,300**
Total Tax Savings for Owners (10-year period)	**$ 147,496**
Average Annual Cost to the City of South Pasadena:	**$2,337**

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

NOTICE OF DECISION
RECOMMENDATION OF MILLS ACT CONTRACT

December 7, 2017

APPLICANT/OWNER:	Babak Zahabizadeh & Aleta Blanc 929 Buena Vista Street South Pasadena, CA 91030		
PROJECT #:	**2080-MIL (Mills Act Application)**		
PROJECT LOCATION:	**929 Buena Vista Street, South Pasadena, CA 91030 (APN: 5317-035-004)**		
HISTORIC NAME:	Torrance-Childs Residence, "Rose Hedge House" (CITY LANDMARK # 41)		
HISTORIC RATING:	2D	**HISTORIC DISTRICT:**	Buena Vista District
YEAR OF BUILT:	1902	**ZONING:**	RE, Residential Estate

Dear Mr. Zahabizadeh and Ms. Blanc:

NOTICE IS HEREBY GIVEN THAT on November 16, 2017 the City of South Pasadena Cultural Heritage Commission ("CHC") recommended that the City Council enter into a Mills Act Contract regarding the rehabilitation of your property located at 929 Buena Vista Street.

In making their decision, the CHC recommended that the Restoration Work Plan include the following:

1. The applicant add an electrical engineering analysis.
2. The applicant add interior photographic documentation.
3. A site plan be provided with the geotechnical report.

The Mills Act Contract for your historic property will be considered by the City Council at their December 20, 2017 meeting held in the Council Chamber across the courtyard from City Hall.

If you have any questions regarding this notice, please contact me at (626) 403-7220.

Sincerely,

Edwar Sissi, Assistant Planner

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

	Proposed Scope of Work and Description	*Est. Cost*
1.	Restore cracks in the clinker brick cladding, Clean and repoint lime mortar and cement between the bricks and stone (including house exterior walls, garage, and perimeter walls) *Remove all cracked and broken bricks, replace them with structurally sound bricks that match the existing.* *Examine the existing bed and head joints between the bricks for mortar that has failed and remove and replace the failed mortar only. If the mortar has turned to powder it should be removed to a depth where it has some integrity.* *A sample section of the interior wall in garage and exterior walls will be restored at the beginning of this project to be used as a benchmark for the remaining work.*	$ 60,880.00
2.	Clean and repoint lime mortar and cement between the bricks and stone at the chimney *Includes scaffolding construction to access the chimney and repoint exterior portion above the roof.*	$ 8,800.00

Replace wooden garage doors + windows
Paint wood trim — 14,000
Repair leaking roof garden room — 5000
Repair damaged garden room + ceiling walls - 5000

3.	Reinforce the garage opening and install a steel beam to ensure seismic stability *Engineer, remove and replace the brick above the garage door with a structurally engineered design.*	$ 14,900.00	N/C
4.	Restore backyard paving and front walkway *Demo approximately 370-square feet of existing brick patio including 2-steps and landing and install new brick in pattern including high desert flagstone sections to mimic the existing deck.*	$12,500.00	N/C
5.	Restore/replace deteriorated exterior wood doors *Replace two sets of French doors on the back of the house, matching design, stain, and finish of the existing doors.*	$4,200.00	done
6.	Restore, wax, and touch up interior wood paneling and ceiling beams in the foyer and living room *Hardwax paneling and beams to match existing finish.*	$900.00	N/C
7.	Restore terracotta floor tiles in the bathroom *Replace two cracked tiles to match existing tiles and seal.*	$250.00	done
	Maintenance:		
8.	Install copper plumbing from the street to the house *Replace main water line from meter to house with 1" copper line, trench and refill.*	$2,800.00	done.

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
320 GRAND AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 27th day of November 2019, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and William and Teresa Sherman ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 320 Grand Avenue, South Pasadena, California, Assessor's Parcel Number 5317-040-008 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 54 known as the Koebig House, designated a local landmark on December 5, 2018, attached hereto marked "Exhibit B". The English Revival style house featuring high pitched roofs, open gables and dormers, and local stone and bricks. The house was constructed in 1927 and was designed by a nationally known architect, H. Roy Kelley, for an orthopedic surgeon, Walter C.S. Koebig. In February 1929, the house was featured in *House Beautiful* magazine as the winner of the "small house" competition. The magazine described the house as "...has a straightforward simplicity that is very delightful and a beautifully textured wall surface obtained by the use of small pieces of stratified rock, ranging in color from warm buff to brown, and selected brick roughly laid." In 1931, Kelley was appointed by President Hoover to the Presidential Advisory Commission on Home Building. In 1937, *Life* magazine commissioned Kelley to design a "model home for all the nation.";

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2020 and shall remain in effect for a minimum period of ten (10)

years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specific herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may

be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner

shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: William and Teresa Sherman
320 Grand Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Landmark Nomination

RESOLUTION NO. 7591

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING 320 GRAND AVENUE, KNOWN AS THE KOEBIG HOUSE, AS A HISTORIC CITY LANDMARK (LANDMARK NUMBER 54)

WHEREAS, Section 2.62 of the South Pasadena Municipal Code, Ordinance No. 2315 ("Cultural Heritage Ordinance") authorizes the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as Landmarks; and

WHEREAS, on April 5, 2018, the Planning Division received an application for Landmark designation for the Historic home located at 320 Grand Avenue, historically known as the "Koebig House"; and

WHEREAS, on April 19, 2018, at the regularly scheduled CHC meeting, the CHC reviewed the request of Landmark Designation and appointed the Landmark Subcommittee ("Subcommittee") with two Commission members; and

WHEREAS, on May 15, 2018, the Subcommittee met with the property owners at the subject site to tour the property; and

WHEREAS, on August 8, 2018, the Subcommittee formalized their findings and notified Staff of their request to carry the Landmark nomination to the full CHC for the Commission's formal vote on the recommendation to City Council for Designation; and

WHEREAS, on September 20, 2018, the CHC formalized their recommendation to the City Council for designation of the Koebig House as a City Landmark by a unanimous vote of 4-0, with one CHC member absent; and

WHEREAS, on October 4, 2018, the CHC provided notice to the City Council via the City's Clerk's office of the Commission's formal recommendation to have the Koebig House designated as a City Landmark by the City Council of South Pasadena; and

WHEREAS, on October 17, 2018, the City Council of the City of South Pasadena held a duly noticed regularly scheduled meeting to set a date certain for the public hearing of the Landmark Designation at the regularly scheduled City Council Meeting on December 5, 2018.

WHEREAS, on December 5, 2018, the City Council of South Pasadena held a duly noticed regularly scheduled meeting to provide a public hearing and receive public testimony on the proposed Landmark Designation of the Koebig House located at 320 Grand Avenue.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. That the above recitals are all true and correct.

SECTION 2. The City Council has determined that the criteria standards as outlined in the Cultural Heritage Ordinance, Section 2.63(B), have been satisfactorily met for the eligibility of Landmark listing based upon the recommendation of applicable criteria by the Cultural Heritage Commission:

3. **Its identification (such as the residence, ownership, or place of occupation, etc.) with a person, persons or groups who significantly contributed to the culture and development of the City, State, or United States.**
   The original owner of the home was Dr. Walter C.S. Koebig. Dr. Koebig was a noted orthopedic surgeon in California in the first half of the 20th century. Among his accomplishments, he held a prominent position in the state health and development department of physical training work in the schools, and was the head of the corrective work in the Los Angeles City Schools.

4. **Its exemplification of a particular architectural style of an era of history of the City.**
   While there are several other homes on South Grand Avenue designed in the Tudor Revival style, the Koebig House is singular in its brick construction and evocation of and English Cotswold Cottage located on a slightly raised site. These characteristics cause the home to, literally and figuratively, rise above the other 1920s period revival homes in the neighborhood.

6. **Its identification as the work of a person or persons whose work has influenced the heritage of the City, the State, or the United States.**
   The Koebig House was designed by H. Roy Kelly, whom had a long, award-winning career as an architect based in Southern California. Kelley's design for this house captured first place in House Beautiful magazine's first "small house" competition in 1929. He served on the architectural advisory board of Good Housekeeping magazine from 1931 to 1938 and was commissioned by Life magazine in 1937 to design a model home for the entire nation. Kelley served on the architectural advisory committees for the Bel-Air Estates and the Palos Verdes Estates and in 1931 he was appointed to the Presidential Advisory Commission on

Home Building by Herbert Hoover. His work helped popularize ranch-style and mid-century modern homes in the West.

7. **Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, detail, materials, or craftsmanship.**
Both inside and out, the Koebig House exhibits thoughtful attention to architectural design, detail, materials, and craftsmanship. The placement of bricks and clinkers making up the exterior facades of the home was carefully considered to maximize the charm, character and texture of the house. This attention to detail was continued in the construction of the rear patio, planter beds and retaining walls, as well as the decorative wrought iron gates and original light fixtures. The home features rarely seen details such as the vertically placed "combers" over the upper windows and the oriel window with its leaded glass consisting of diamond-shaped lights. Use of quality materials, attention to detail and outstanding workmanship are apparent on the home's interior as well. In the foyer and living room, original dark mahogany paneling and "hand adzed" (chilled) ceiling beams are intact, as are much of the original tile and fixtures in the bathrooms.

SECTION 3. The City Council considered the designation criteria contained in the Cultural Heritage Ordinance and makes the following findings as required in Section 2.63(A) based upon the recommendation of the Cultural Heritage Commission:

a. **That the designation of Landmark or Historic District is consistent with one or more of the purposes set forth in Section 2.58B; and**
Designation of the Koebig House as a city landmark is consistent with the purpose of the Cultural Heritage Ordnance in that it will preserve, maintain, and safeguard the city's heritage and character as embodied and reflected in the site and structures that serve as significant reminders of the city's social, educational, cultural and architectural history; encourage maintenance and preservation of areas that are associated with a historic event, activity, or persons that contribute to the historic character of landmarks and historic structures; preserve diverse and harmonious architectural styles, reflecting phases of the city's history; and encourage public knowledge, understanding, and appreciation of our cultural and environmental heritage. Therefore this finding can be made.

b. **That the Landmark or Historic District meets one or more of the criteria for designation listed in Section 2.63(B); and**
The proposed landmark meets criteria 3, 4, 6 and 7 for landmark designation listed in subsection 2.63(b) of the South Pasadena Municipal Code. Therefore, this finding can be made.

c. **That the Landmark or Historic District possesses Historic Integrity of Location, design, setting, materials, workmanship, feeling, or association.**
The proposed landmark exhibits a high degree of integrity, as it has had only minimal alterations since its construction 90 years ago. Therefore, this finding can be made.

SECTION 4. Based on the evidence presented in the Staff Report, testimony received during the public hearing, minutes, other records of proceeding, and its findings herein, the City Council hereby approves the designation of 320 Grand Avenue, historically known as the Koebig House, as official Historic Landmark Number 54.

SECTION 5. That this Resolution shall take effect immediately upon its adoption.

SECTION 6. The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

PASSED, APPROVED AND ADOPTED ON this 5th day of December, 2018.

Richard D. Schneider, M.D., Mayor

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

	Proposed Scope of Work and Description	*Est. Cost*
1.	Restore cracks in the clinker brick cladding, Clean and repoint lime mortar and cement between the bricks and stone (including house exterior walls, garage, and perimeter walls) *Remove all cracked and broken bricks, replace them with structurally sound bricks that match the existing.* *Examine the existing bed and head joints between the bricks for mortar that has failed and remove and replace the failed mortar only. If the mortar has turned to powder it should be removed to a depth where it has some integrity.* *A sample section of the interior wall in garage and exterior walls will be restored at the beginning of this project to be used as a benchmark for the remaining work.*	$ 60,880.00
2.	Clean and repoint lime mortar and cement between the bricks and stone at the chimney *Includes scaffolding construction to access the chimney and repoint exterior portion above the roof.*	$ 8,800.00

3.	Reinforce the garage opening and install a steel beam to ensure seismic stability *Engineer, remove and replace the brick above the garage door with a structurally engineered design.*	$ 14,900.00
4.	Restore backyard paving and front walkway *Demo approximately 370-square feet of existing brick patio including 2-steps and landing and install new brick in pattern including high desert flagstone sections to mimic the existing deck.*	$12,500.00
5.	Restore/replace deteriorated exterior wood doors *Replace two sets of French doors on the back of the house, matching design, stain, and finish of the existing doors.*	$4,200.00
6.	Restore, wax, and touch up interior wood paneling and ceiling beams in the foyer and living room *Hardwax paneling and beams to match existing finish.*	$900.00
7.	Restore terracotta floor tiles in the bathroom *Replace two cracked tiles to match existing tiles and seal.*	$250.00
	Maintenance:	
8.	Install copper plumbing from the street to the house *Replace main water line from meter to house with 1" copper line, trench and refill.*	$2,800.00
	Total investment in Rehabilitation and Maintenance:	**$105,230.00**
	Potential Mills Act Property Tax Savings over 10-year period*:	**$51,917.60**
	Potential Cost to the City of South Pasadena (10 years):	**$8,306.80**

Standards for Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

209 Beacon Avenue

2025 PROGRESS REPORT

March 24, 2025

City of South Pasadena
Community Development Department
1414 Mission Street
South Pasadena, CA 91030
Attn: Tatianna Marin

Re: Mills Act Progress Report for 209 Beacon Ave.

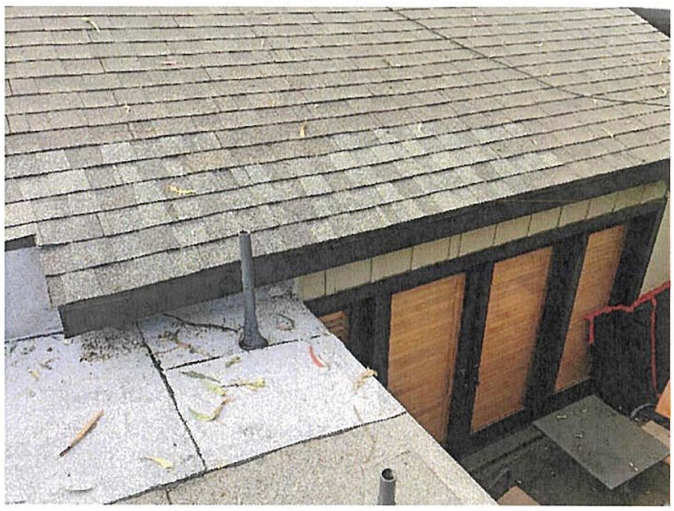
Dear Ms. Marin,

Thank you for your March 3, 2025 letter requesting a progress report for our Mills Act property located at 209 Beacon Avenue. Since we assumed ownership of the property in March 2021, we have undertaken the following work in accordance with our Mills Act contract:

1. <u>Roof system repairs and waterproofing:</u>
   a. In connection with purchasing the house in 2021, we conducted a roof inspection in addition to the general inspection, which included the roof.

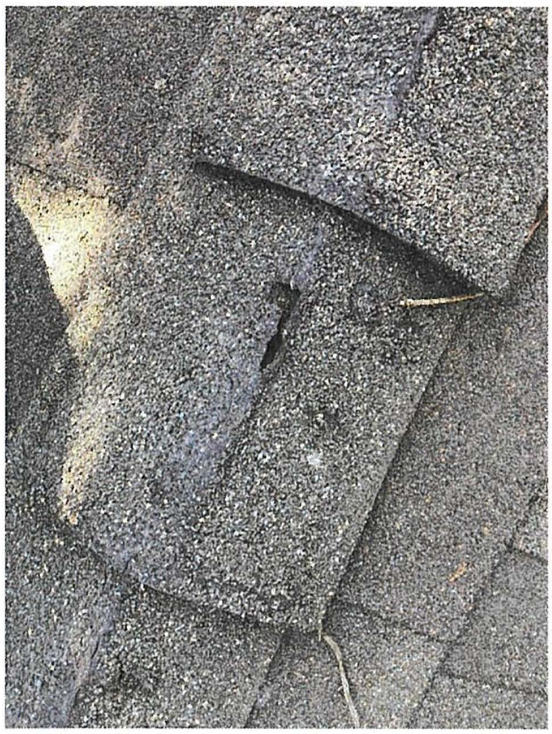
   b. In 2021 we undertook a general roof overhaul in line with the above inspections including:
      i. Replacing transition areas of flat roof sections where we were told there had been previous water intrusion.

Before:



After:

      ii. Replacing the shingles to 'tie into' the new flat roof sections.



Before:
(Unfortunately we do not have a Before photo for this work)

After:

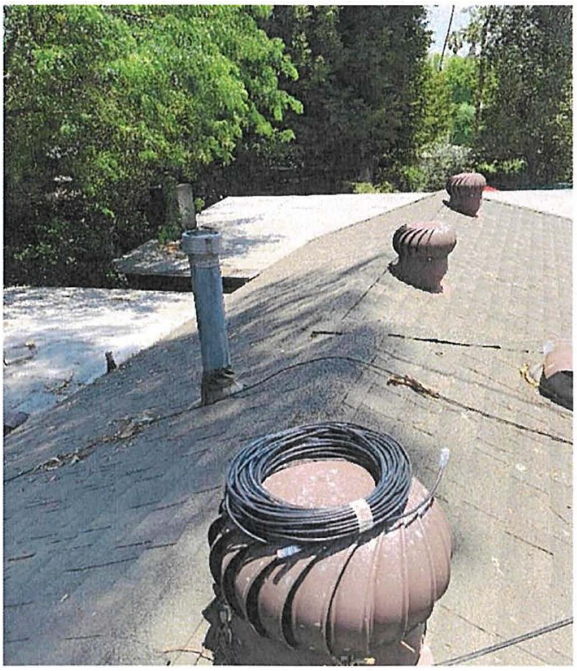
iii. Installing all new shingles along the hip and ridge caps of the roof.

Before:

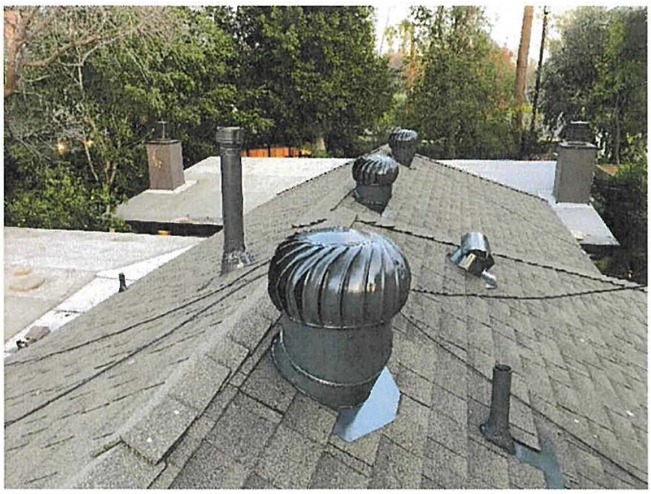
After:

iv. Replacing siding and torch down around chimneys.

Before:



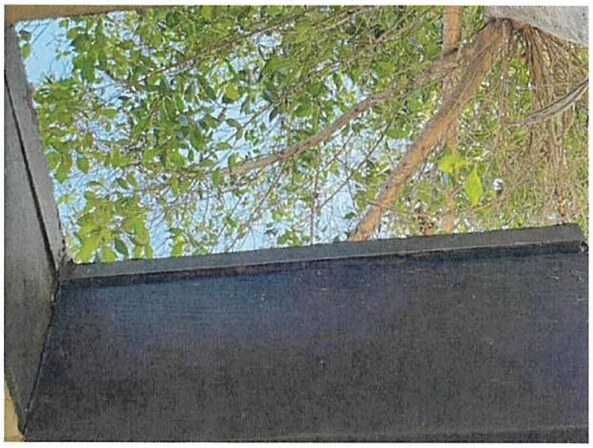
After:



v. Resealed/repainted pipes, vents with weather proof paint.

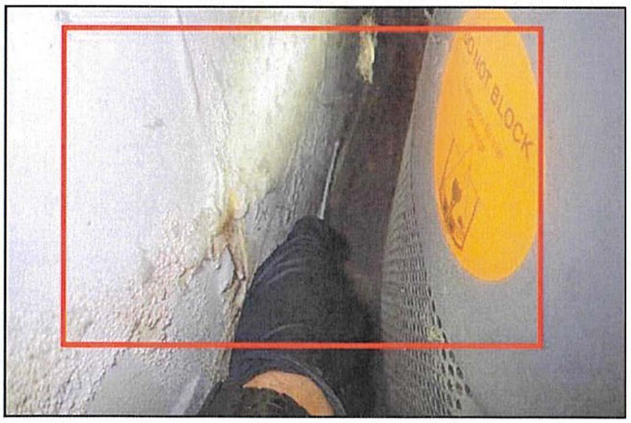
Before:

After:

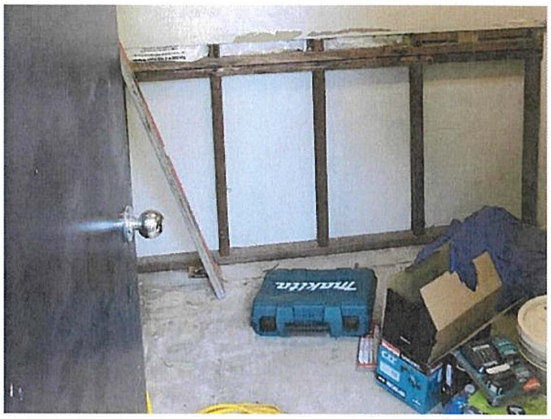


vi. Replacing 3 feet of damaged drip edge in studio.

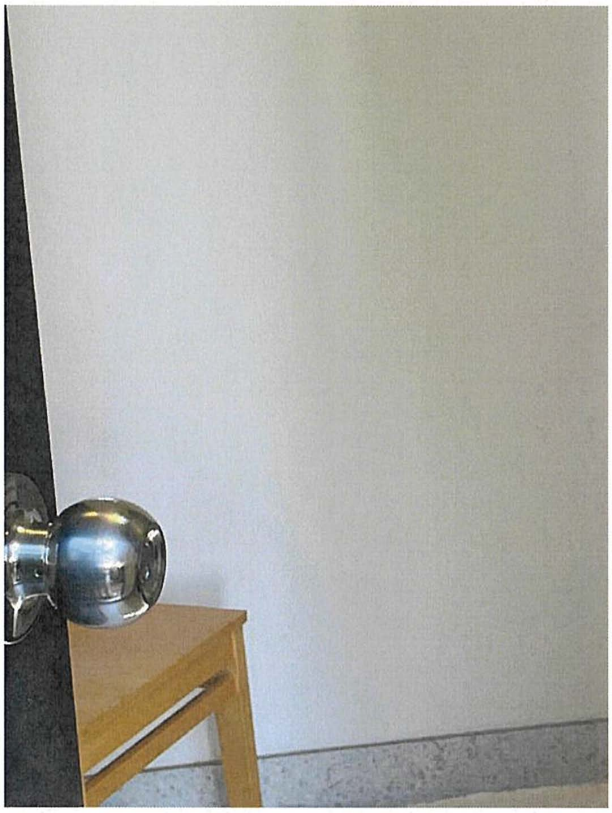
Before:



After:

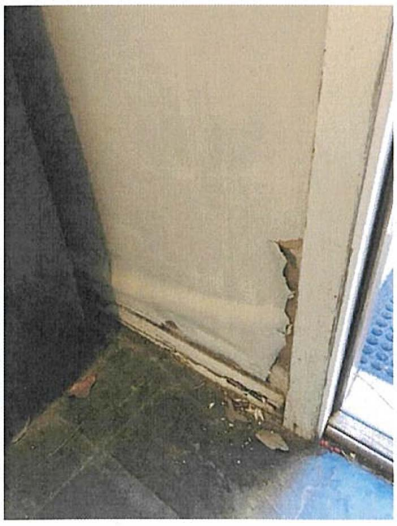


c. *Mold remediation in laundry room*. In connection with purchasing the house in 2021, we had the property mold-tested, and mold was discovered in the laundry room. No other mold was detected, including in any of the bedrooms. We engaged a mold remediation company to remove the mold in the laundry room (air scrubbing, HEPA vacuuming, drywall removal, applying anti-microbial agents, etc.). A separate service was engaged to mold test after the remediation, and the test came back clean. We also fixed the leak in the master shower which may have caused the water damage/mold problem in the laundry room.



Before:

After:

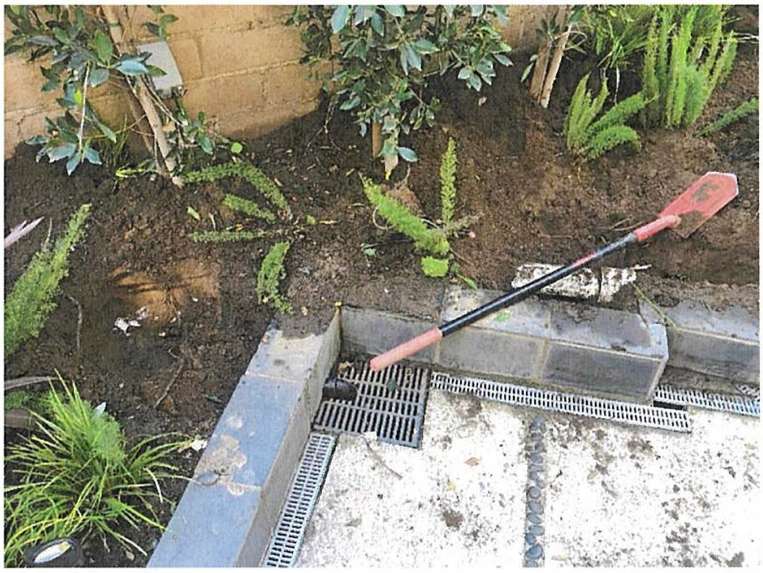


And After:

d. *Mitigating water intrusion; site drainage improvements and moving water away from the foundation*.

   i. In 2021 we waterproofed the laundry room, including replacing old plywood and stucco paper with in-kind material as well as adding new flashing and waterproofing material. See 1.c. above for photos. Additionally:

Before:



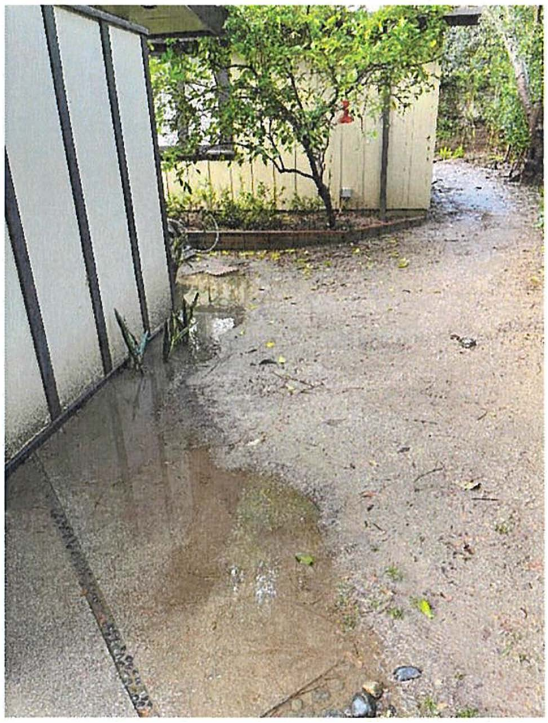
After:

ii. In 2021 we added a French drain on the south side outside of the laundry room to catch water from the patio. (Unfortunately we do not have photos of the French drain.)

iii. In 2021 we replaced the broken sump pump on the south side of the property that helps carry water from the drainage system to the street.

iv. In 2023, we re-sloped the ground of the patio outside the laundry room so that water would flow away from the house. We used slate tile to match the existing patio and fixed broken slate tile where needed on the south side of the property.

Before:



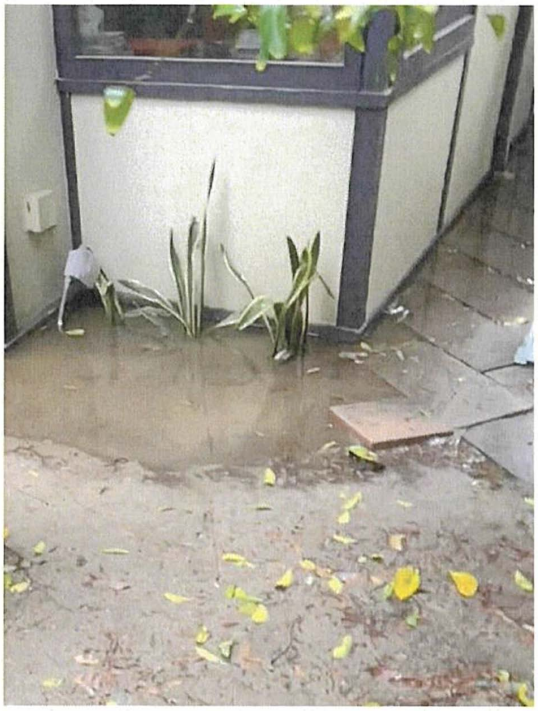
After:

v. We spoke to multiple contractors about mitigating water intrusion into the house. In 2024, we engaged a plumber to hydrojet and camera all existing drainage to remove blockages.

vi. We then hired a contractor and based on their recommendations, we re-sloped the ground on the north and west sides of the house so that water now moves away from the building.

Before:
The water would flow towards the house.

After:
Water now flows away from the house and towards the drainage.



vii. We removed or capped existing sprinklers along the side of the house outside of the bedrooms as they were spraying water onto the wood of the house and the foundation.

viii. We added a new drainage system to tie into existing drainage all along the north and west side of the house, including adding additional pipes, trench drains, and catch basins.

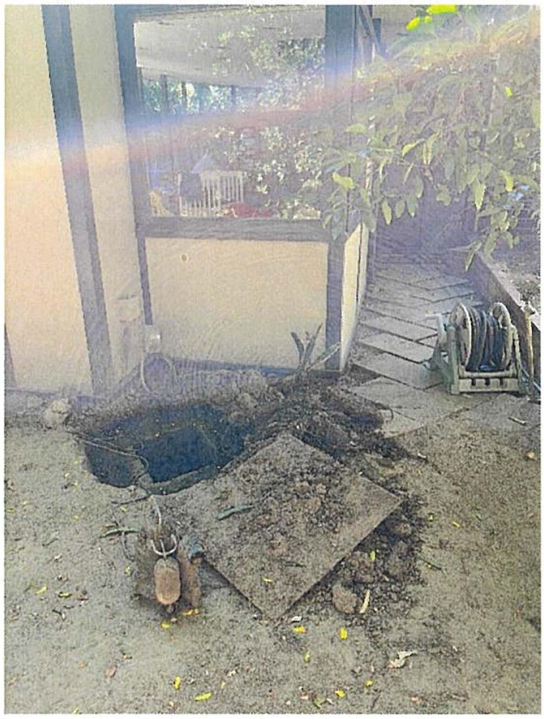
Before:

Again, water flowed towards the house.

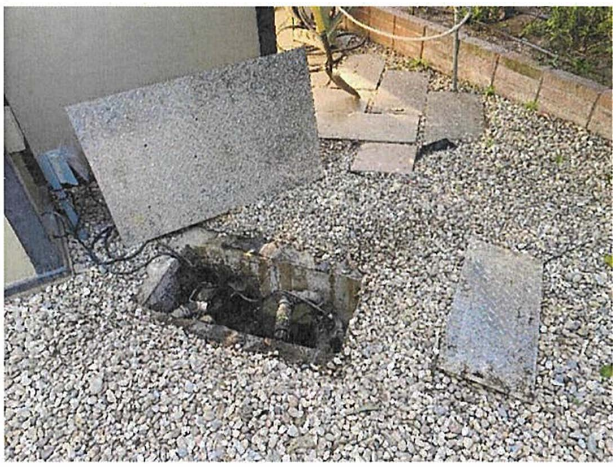
After:

Sample photo of pipes underground, before dirt was replaced.

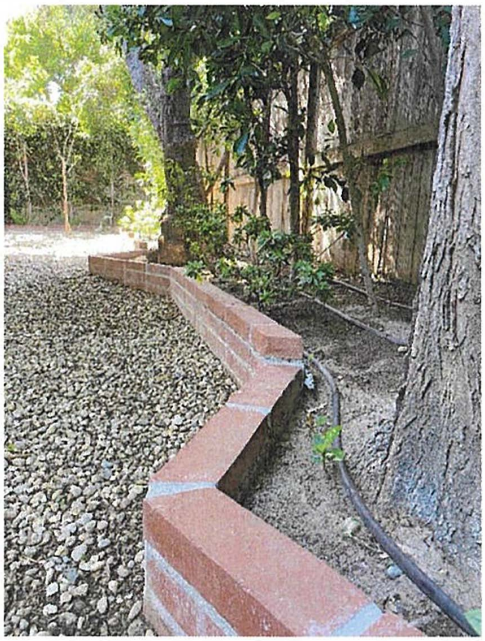
And After:



And After (note dry gravel by house):



ix. We also discovered a broken sump pump and drainage pit on the north side of the house which we replaced and expanded, respectively, and now it successfully takes water away from the house.



Before:

After:

x. We added a low brick wall around the edge of the north side of the yard (matching the style and materials of the existing planter) to reduce water flow during storms and help with the drainage.

2. Termite inspections/mitigation – In connection with purchasing the house in 2021, we did a termite inspection and discovered the presence of termites. We had the house tented and fumigated. To the extent that there was termite damage on the sheathing, starter boards and eaves we repaired it with in-kind materials. The previous owners had already done the bulk of this work, replacing termite-damaged sheathing, starter boards and eaves where needed, as well as repairing the interior spaces affected by water intrusion and repainting (as noted in the Rebecca Thompson report dated March 9, 2021 (the "2021 Chair Report")).

3. Roof inspections and repairs as needed - Since purchasing the house, we've had the roof inspected:
   a. After the extreme rainfall of the 2022-23 winter season we hired a roofing contractor to do another inspection. He did patching for the main house and studio where he found issues. (We had multiple contractors come out).
   b. In Feb 2024, the roofing contractor came out again to inspect the roof in the studio and patch around the skylight.

4. Paint inspection and repairs as needed:
   a. We repaired the cladding/siding along the patio outside of the laundry room in 2023, both along the wall with the doorway and the wall with the electricity panel, using in-kind materials for the wood and color-matching the paint. We also fixed the obvious join that Chair Thompson had flagged in the 2021 Chair Report.

Before:

After:

5. Landscape/foliage removal and management –
   a. In 2021, prior to moving in, we removed the overgrown vines that had been allowed to completely cover the back side of the house and part of the roof. Since then we have kept these vines away from the building.

   b. In 2021, we repaired the hardscaping on the driveway, adding missing wood (matching the existing wood) in between the hardscaping:

Before:

After:

Before (close up):

After (close up):

   c. We engage a weekly landscaping service to remove debris, prune foliage, etc.

d. In 2021 we engaged the services of a tree trimming company to do a trim of the large Eucalyptus tree in the rear of the property.

e. In 2024, we converted sprinklers to drip irrigation in the planter outside of one of the bedrooms, in front of the studio and by the dining room to keep sprinklers from spraying water on the wood by the house and studio. We replaced the sprinklers along the north side of the property with drip irrigation as well for water conservation and in the case of the agaves by the dining room, to better support those plants that need less water.

f. In 2024 we also added gravel around the north and east side of the property to replace the lawn and reduce water usage, as well as help water drain away and limit dirt flowing into the drainage system.

Sincerely,
Yvonne Shay and Nick Towle

SUMMARY OF COMPLETED WORK

Section II Schedule and Reporting System

	Project	Year
✓	1. Main House & Studio: Roof system repairs and waterproofing	2020
✓	2. Main House & Studio: Carpentry/Repairs to wood features and repainting	2021
Incomplete	3. Main House: Repairs/reconstruction of north elevation door and wood screen	2023
Incomplete	4. Studio: Geotechnical Stabilization to corner of Studio	2025
✓	5. Maintenance: Termite inspections/mitigation (Primary residence and Studio)	Annual inspection
✓	6. Maintenance: Roof inspections and repairs as needed (Primary residence and Studio)	Triannual inspection
✓	7. Maintenance: Paint inspection and repairs as needed (Primary residence and Studio)	Triannual inspection

Noncapitalized/As Needed Repairs:

✓	1. Landscaping/foliage removal and management	Ongoing

Reporting Schedule

The property owners of the Smith/Wilson Residence will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
209 BEACON AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 27th day of November 2019, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Mark and Gail Wilson ("Owners").

WILSON

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 209 Beacon Avenue, South Pasadena, California, Assessor's Parcel Number 5317-006-001 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is identified as City Landmark No. 52 known as the Whitney R. Smith House and Studio, designated a local landmark on April 20, 2011, attached hereto marked "Exhibit B". The Smith Residence and Studio represents one of South Pasadena's outstanding Mid-Century Modern homes, as well as the post-World War II quest by modern architects to redefine the ideal contemporary home. The house was constructed in circa 1900 as a hipped-roof garage that was converted to a guesthouse circa 1907. In 1936, Whitney Rowland Smith and his wife Virginia purchased the guesthouse and began expanding it to a three-bedroom Mid-Century Modern style home. In keeping with the principle of Mid-Century Modern design, the home was designed with a high degree of indoor-outdoor integration. The current-day landscape retains a variety of mature trees dating to the early 20th century, as well as an outdoor fireplace/incinerator, located in the lot's southeast corner, which dates to circa 1900. The home served as Smith's principal residence until his retirement circa 1988, after 50 years of architectural practice in Southern California;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2020 and shall remain in effect for a minimum period of ten (10)

years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specific herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in

this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Mark and Gail Wilson
209 Beacon Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Landmark Designation

RESOLUTION NO. 7155

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING THE WHITNEY R. SMITH HOUSE AND STUDIO AT 209 BEACON AVENUE A CULTURAL HERITAGE LANDMARK (LANDMARK NO. 52)

WHEREAS, Section 2.62 of the South Pasadena Municipal Code, Ordinance No. 2004 ("Cultural Heritage Ordinance"), authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a landmark nomination form and report ("the nomination") was prepared by architectural historian and preservation consultant, Deborah Howell-Ardila and has been submitted to the Commission for consideration of the Whitney R. Smith House and Studio located at 209 Beacon Avenue ("the property") as a local landmark; and

WHEREAS, on February 17, 2011, the Commission reviewed the nomination and initiated the landmark designation process; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, and received public comment; and

WHEREAS, the Commission found that the research and documentation contained in the nomination amply demonstrate the qualifications of the property to be a designated landmark; and

WHEREAS, on March 17, 2011, the Commission held a public hearing and voted to forwarded its recommendation to the City Council; and

WHEREAS, on April 20, 2011, the City Council held a public hearing on the proposed designation and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council considered the designation criteria contained in the Cultural Heritage Ordinance and makes the following findings:

1. ***The City Council finds that this resource is identified with a person whose work has influenced the heritage of the city, the State of California and the United States;***

During a career spanning more than five decades, Whitney R. Smith designed dozens of commissions throughout Southern California, for which he earned numerous local and national awards and mentions. Several projects illustrate particularly well Smith's career-long objective of combining modern design, meticulous craftsmanship, planning (on the level of the neighborhood as well as the site), and landscape architecture in all projects, regardless of scale or budget. By the early 1940s and throughout the post World War II era, Smith's many commissions were widely published and praised in national architectural periodicals as well as shelter magazines, including: *Arts and Architecture, Progressive Architecture, Architectural Record, Architectural Forum, New York Times, Los Angeles Times, Sunset Magazine, House and Garden, Better Homes and Gardens.*

Smith's commissions through the years reflects the significance of his contribution to the emergence of Southern Californian modernism including: the Unitarian Church in Pasadena, civic centers in Santa Ana and Buena Park, the San Luis Obispo Mission Plaza, the North Campus Student Union and Canyon Recreation Center at UCLA, Westridge School in Pasadena, the Central Power Building at the California Institute of Technology, tract housing in Reseda, the Mutual Housing Cooperative in Crestwood Hills, as well as many other commercial, civic, educational, and industrial commissions, and numerous residential projects, from the well-designed Minimum House, tailored to the restraints of a small urban lot, to large-scale custom-made homes.

2. ***The City Council finds that this resource is identified as the work of a person or persons whose work has influenced the heritage of the city, the state and the United States;***

Whitney R. Smith applied the same design principles he used in all of his projects, and are reflected in his residence and studio at 209 Beacon Avenue consisting of: quality materials, simply treated; exquisite craftsmanship and detailing; integration with the outdoors and site-specific planning; total design, including planning and landscaping; and a unique interpretation of the modern design, filtered through regional identity and precedent.

3. ***The City Council finds that this resource is the embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials and craftsmanship.***

The Whitney R. Smith Residence and Studio represent outstanding and historically significant examples of Mid-Century Modernism in South Pasadena. Part of this movement, as seen in the Smith Residence, included the use of an open plan, designed specifically for the "servantless" family; expandability, as the family and its budget grew; complete integration with and focus toward the outdoors; and aesthetic effect achieved through the use of good, simply treated materials and a high level of attention to detail and craftsmanship. 209 Beacon Avenue reflects Smith's innovative proposal for integrating home and garden, a central concern for modern American architects in the postwar period.

Smith also served as the home's contractor, and the quality of his craftsmanship is apparent in features such as the butted-glass windows marking the north and south corners of the façade, as well as the seamlessness of the broad fascia and wide overhanging eaves that are the focal point of the façade design. The ingenuity of Smith's design is further reflected in the livability and expansiveness of the residence, whose narrow urban lot, measuring 63 by 122 feet, was occupied only by converted garage when Smith purchased it in 1936. In addition to its significance as an outstanding example of Mid-Century Modern design, the Smith Residence reflects a distinct era in postwar American architectural history, during which modern architects were actively engaged in re-defining notions of the ideal contemporary home.

SECTION 2. Based on the evidence presented in the Staff Report, Minutes, other record of proceeding, and its findings herein, the City Council hereby approves the designation of the "Whitney R. Smith House and Studio" at 209 Beacon Avenue as official Historic Landmark Number 52.

SECTION 3. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 20th day of April, 2011.

Mike Ten, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 20th day of April, 2011, by the following vote:

6. Maintenance: Roof inspections and repairs as needed (Primary residence and Studio)	Triannual inspection
7. Maintenance: Paint inspection and repairs as needed (Primary residence and Studio)	Triannual inspection

Noncapitalized/As Needed Repairs:

1. Landscaping/foliage removal and management	Ongoing

Reporting Schedule

The property owners of the Smith/Wilson Residence will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (COA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and COAs (if required).

Section IV Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. Main House/Studio: Roof system repairs/waterproofing	$60,200	2020
2. Main House/Studio: Repairs/carpentry work and repainting	$52,700	2020
3. Repairs/reconstruction of north elevation door/wood screen	$10,300	2023
4. Studio: Geotechnical Stabilization to corner of Studio	$26,200	2025

Total Investment in Smith/Wilson Residence:	**$ 149,400**
Total Tax Savings for Owners (10-year period)	**$ 137,000**
Average Annual Cost to the City of South Pasadena:	**$2,199**

Section III Description of Work Plan and Priorities

Work efforts described in these plans will comply with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Additional photos are included in Appendix A.

Proposed Project & Description	Est. Cost	Priority

1. Main House & Studio: Roof system repairs and waterproofing $60,200 High
   Re-roofing, flashing repairs, mitigating water intrusion, site drainage improvements and moving water away from foundation, repairing areas on the interior with water penetration, mold, and damage. Task includes repairs/in-kind replacement of termite-damaged sheathing, starter boards and eaves where needed as well as mold mitigation and cleaning on character-defining interior spaces affected by water intrusion and repainting.

Figure 1: Overview of issues and areas in need of repair and waterproofing

2. Main House & Studio: Wood repairs and re-painting $ 52,700 High

Repairs and in-kind replacement where necessary of deteriorated wood exterior sheathing, roof rafter tails, fascia, and trim. This is the second highest priority for both the house and studio. Areas with the most advanced deterioration will be targeted first. Repairs will include character-defining wood sheathing on bedroom wings and window framing (re-finishing), re-painting to match existing. Roof wood features are addressed in Work Plan Item #1 above. If necessary, any replacement of character-defining materials and features will be in-kind to match existing exactly in materials, appearance, finishes/texture, and size/profile. All prep work will be undertaken in compliance with the *Secretary's Standards* (**no power washing or machine sanding** will be used for character-defining materials and features; hand-sanding and gentlest means possible will be used to prep surfaces for painting and refinishing).

Figure 1. Overview of wood elements and features in need of repair/replacement

Figure 2. Overview of areas in need of repainting and refinishing following repairs

3. Main House: Repairs/reconstruction of door and wood screen $ 10,300 Medium

Character-defining door, hardware, and modular wood-screen door will be repaired and reconstructed to match existing. Door is secondary entrance located on north elevation.

Figure 3. Overview of secondary entrance door and wood screen door

4. Stabilization of Studio Foundation and Concrete/Stair Repairs $26,200 High

Work effort includes mitigation to prevent or minimize further damage to Studio by soil settlement and root penetration from mature Fichus tree, which is integrated in the Studio building on the southern corner. Work efforts will include repairs to concrete and stair and new retaining wall around base of Fichus tree. All materials and features will match existing in appearance.

Figure 5. Overview of Studio

Exhibit "D"

Standards for Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

PROPERTY ADDRESS:

915 Palm Avenue

2025 PROGRESS REPORT

Section II Schedule and Reporting System

Project	Completion By Year
Complete ✓ 1. Front entrance porch: Clinker brick post supports and wall repairs	2022
✓ 2. Exterior walls: wood shingles repair/in-kind replacement and repainting (to include removal of non-contributing sheathing on south elevation & replacement with compatible wood-shingles matching the original)	2024
✓ 3. South Elevation: repairs/potential in-kind replacement of wood-frame windows	2024
Incomplete (4.) Roof features: re-create rafter tail and repairs/repainting to bargeboards	2026
5. Maintenance: Termite inspections/mitigation	Annual inspection
6. Maintenance: Roof inspections and repairs as needed	Triannual inspection
7. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Noncapitalized Projects

1. New garage in back of lot (Residence currently does not have a garage; the lot extends an extra parcel to the back and will accommodate a Standards-compliant new garage)	2019-2021

Reporting System:

The property owners of 915 Palm Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance. This will include a CoA for the new garage to be constructed in the rear of the parcel.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs (where required). It is anticipated that CoAs will be required for all major efforts included in the Mills Act workplan.

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
915 PALM AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 27th day of November 2019, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Stefani Williams and ~~Dino~~ ROBERT D PIERONE II Pierone ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 915 Palm Avenue, South Pasadena, California, Assessor's Parcel Number 5313-008-025 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the El Centro-Indiana-Palm District, attached hereto marked "Exhibit B". The El Centro-Indiana-Palm District, located west of the City's original commercial center, was the city's first designated residential historic district. This district has a high concentration of the late 19th and early 20th century buildings. Architecturally, the buildings chronicle the evolution of design from the Queen Anne through the revival styles;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2020 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specific herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this Agreement.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this Agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and

may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Stefani Williams and Dino Pierone
915 Palm Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner

agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

Exhibit "B"

City Council Resolution for

Historic District Designation

RESOLUTION NO. 6180

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING PORTIONS OF EL CENTRO - INDIANA - PALM AVENUES AS AN OFFICIAL CULTURAL HISTORIC DISTRICT

WHEREAS, Section 2.73A-14. Landmarks and Historic Districts of the South Pasadena Municipal Code establishes procedures for registering historic districts; and

WHEREAS, the Cultural Heritage Commission having duly received a nomination form to register an historic district for the area bounded by Palm Avenue on the east, El Centro Street on the south, Indiana Avenue on the west and Pico Alley on the north; more specifically including all residences on both sides of Palm Avenue in the 900 block, all residences on both sides of El Centro Street in the 500 block, all residences on both sides of Indiana Court in the 500 block and all residences on the east side of Indiana Avenue in the 900 block plus one residence (921) on the west side of Indiana Avenue; and

WHEREAS, the Commission complied with the pertinent and applicable provisions of Subsection (A) (3) (Designation Procedure) and made findings of fact pursuant to Subsection (A) (2) (Designation Criteria for Districts); and

WHEREAS, the Commission forwarded a recommendation to the City Council to approve the proposed historic district; and

WHEREAS, the City Council held a public hearing on the proposed designation on July 7, 1993 and received public testimony; and

WHEREAS, the area qualifies as a district by reason of the following applicable subsections:

(a) Its character, interest or value as a part of the heritage of the community;

(d) Its exemplification of a particular architectural style of an era of history of the City (including Foursquare, Craftsman, pattern book kit houses, and period revival styles);

RESOLUTION NO. 6180
Page 2

(g) Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials or craftsmanship; and

(l) Its significance as a distinguishable neighborhood or area whose components may lack individual distinction; and

(m) More than 50% plus one of all affected owners of parcels within the proposed district have consented in writing to such designation.

NOW, THEREFORE, be it resolved by the City Council of the City of South Pasadena the following:

1. Designation of the above-described properties as the EL CENTRO - INDIANA - PALM HISTORIC DISTRICT.

2. The map as set forth in Exhibit A hereto attached and made a part of, as the official boundaries of the historic district.

PASSED, APPROVED AND ADOPTED on July 21, 1993.

James C. Hodge, Jr., Mayor
City of South Pasadena

ATTEST:

Jeannine A. Gregory, City Clerk

I HEREBY CERTIFY that the foregoing resolution was adopted by the City Council of the City of South Pasadena at a regular meeting held on the 21st day of July, 1993, by the following vote:

AYES: Richards, Knapp, Zee and Mayor Hodge

NOES: None

ABSENT: Woollacott

Restoration Work Plan

&

Financial Analysis

Section II Schedule and Reporting System

Project	Completion By Year
1. Front entrance porch: Clinker brick post supports and wall repairs	2022
2. Exterior walls: wood shingles repair/in-kind replacement and repainting (to include removal of non-contributing sheathing on south elevation & replacement with compatible wood-shingles matching the original)	2024
3. South Elevation: repairs/potential in-kind replacement of wood-frame windows	2024
4. Roof features: re-create rafter tail and repairs/repainting to bargeboards	2026
5. Maintenance: Termite inspections/mitigation	Annual inspection
6. Maintenance: Roof inspections and repairs as needed	Triannual inspection
7. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Noncapitalized Projects

1. New garage in back of lot (Residence currently does not have a garage; the lot extends an extra parcel to the back and will accommodate a Standards-compliant new garage)	2019-2021

Reporting System:

The property owners of 915 Palm Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance. This will include a CoA for the new garage to be constructed in the rear of the parcel.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs (where required). It is anticipated that CoAs will be required for all major efforts included in the Mills Act workplan.

Section IV Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. Front entrance porch: Clinker brick post supports	$20,000	2022
2. Exterior walls: wood shingle repair/replacement & repainting	$25,000	2024
3. South Elevation: wood-frame window repair/in-kind replacement	$15,000	2024
4. Roof: re-creating notch detail, repair/replace bargeboards	$15,000	2026

Total Historic Preservation Investment in 915 Palm Avenue:	**$ 75,000**
Total Tax Savings for Owners (10-year period)	**$ 67,000**
Average Annual Cost to the City of South Pasadena:	**$1,070**

Section III Description of Work Plan and Priorities

Work efforts described in these plans will comply with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Additional photos are included in Appendix A.

Proposed Project & Description	Est. Cost	Priority
1. Front Entrance Porch: Clinker Brick post supports and porch wall	$20,000	High

Clinker brick is failing, due to mortar deterioration and age as well as lack of a structural system. Work efforts will include documentation of materials and removal of temporary wood buttresses and character-defining bricks and installation of new structural support for posts. Repair and in-kind replacement of deteriorated clinker bricks and re-assembly.

Figure 1: Overview of issues, clinker brick porch features

Proposed Project & Description	Est. Cost	Priority
2. Exterior Walls: Repair/in-kind replacement of wood shingles	$ 25,000	High

Repairs and in-kind replacement where necessary of deteriorated wood shingles. This is the second highest priority for the house. If necessary, any replacement of wood shingles will be in-kind to match existing in materials, appearance/patterning, finishes/texture, and size/profile.

Treatment approach will include the gentlest methods possible—**contractors will not use power-washing or machine sanding** for any character-defining features on the house. Gentlest means possible, including hand-sanding rather than machine sanding, will also be used in prepping for repainting of the exterior.

This project includes removal of non-character-defining panel sheathing on the south elevation and replacement with compatible wood shingles to match the rest of the house.

Figure 2. Overview of wood shingles in need of repair/replacement and repainting

Proposed Project & Description	Est. Cost	Priority
3. South Elevation Exterior, Wood-frame windows	$ 15,000	Medium

Repair/rehabilitate and/or in-kind replacement of south elevation windows, to match existing in materials, appearance, finishes, window framing thickness and profile. Re-weather stripping (if original windows are repaired), and repainting.

All prep work will be undertaken in compliance with the *Secretary's Standards*. **No machine-sanding or power-washing** will be used for exterior materials or any character-defining features; hand-sanding and gentlest means possible will be used to prep surfaces for painting and refinishing).

Figure 3. South elevation windows in need of repairs/in-kind replacement

Proposed Project & Description	Est. Cost	Priority
4. Roof features: re-creating notch detail, repair/replace bargeboards	$15,000	Medium

Reconstruct missing notch detail; repair/in-kind replacement of bargeboards where needed. Repaint wood rafters, trim, bargeboards to ensure all wood is finished and sealed.

Treatment approach will include the gentlest methods possible—**contractors will not use power-washing or machine sanding** for any character-defining features on the house. Gentlest means possible, including hand-sanding rather than machine sanding, will also be used in prepping for repainting of the exterior.

Figure 4. Roof features – bargeboard and decorative rafter tail to be re-created and repaired

Exhibit "D"

Standards for Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

925 Palm Avenue

2025 PROGRESS REPORT

Christina and Derek Vaughn

925 Palm Avenue South Pasadena, California 91030

(p) 626.399.3833 (e) chezvaughan@gmail.com

Mills Act Contract No. 2019-11-007

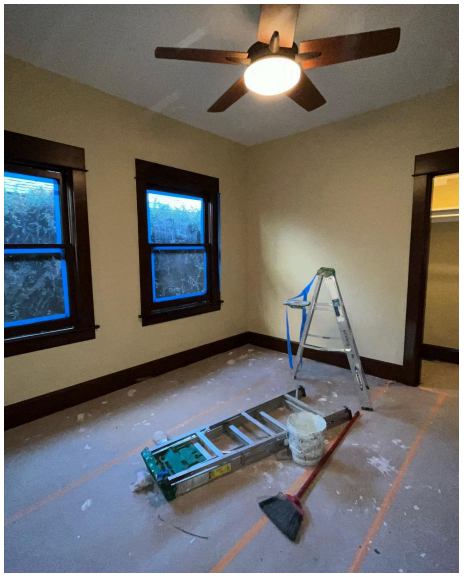
Dear Mr. Donovan,

This letter serves to update the City of South Pasadena regarding the progress report of our Mills Act Contract dated December 3, 2019.

Following the approval of our Mills Act Contract with the City of South Pasadena, my husband and I immediately began to plan an elaborate renovation of our 1903 Craftsman home, including plans to rehabilitate all items mentioned in the Mills Act.

We completed these renovations in 2023 after receiving permits from the City of South Pasadena through our General Contractor, Mike O'Neill. We began renovations in October, 2021. Please refer to city records to view these permits as my husband and I do not have copies of them.

Below is a list of the required items, all of which were completed during the renovation process which ended in 2023. All work with the exception of the termite inspection/mitigation was supervised and completed by Mike O'Neill, General Contractor.



Project Completion By Year
1. 2022 - House, exterior: repairs/carpentry work and repainting of wood sheathing
2. 2022 - House, exterior: repairs/repainting of wood-frame windows (interior and exterior)
3. 2023 - OPTIONAL: Garage: repainting of wood sheathing Optional
4. March 2025 - Maintenance: Termite inspections/mitigation Annual inspection
5. 2022 - Maintenance: Roof inspections and repairs as needed Triannual inspection - New Roof
6. 2022 Maintenance: Paint inspection and repairs - Triannual inspection Entire house painted.
7. 2022 - Front Porch Columns were leveled. The front porch had been leaning since we purchased the home in 1999 and this was part of the renovation.
8. 2022 - Entire plumbing system redone for entire house.
9. 2022 - Repiped water line to the street.
10. 2022 - Updated electric panel and added a new one.
11. 2022 - Repiped all interior plumbing
12. 2022 - Removed dangerous original heating system from 1903
13. 2025 - Rebuilt garden stone retaining wall

Please see attached photos for confirmation. Please do not hesitate to contact us if you require any further information. We are grateful to have had the opportunity to receive this Mills Act and we have enjoyed preserving and renovating our home.

Please provide follow-up information for how we renew our Mills Act for the next 10 years beginning in 2029.

Best Regards,

Christina and Derek Vaughan

SUMMARY OF COMPLETED WORK

2. Schedule and Reporting System

	Project	Completion By Year
COMPLETE	1. House, exterior: repairs/carpentry work and repainting of wood sheathing	2022
COMPLETE	2. House, exterior: repairs/repainting of wood-frame windows	2025
	3. OPTIONAL: Garage: repainting of wood sheathing	Optional
	4. Maintenance: Termite inspections/mitigation	Annual inspection
	5. Maintenance: Roof inspections and repairs as needed	Triannual inspection
	6. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Reporting System:

The property owners of 925 Palm Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance for each project included in these plans.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input.

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
925 PALM AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 3rd day of December 2019, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Christina and Derek Vaughan ("Owners").

VAUGHAN

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 925 Palm Avenue, South Pasadena, California, Assessor's Parcel Number 5313-008-021 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the El Centro-Indiana-Palm District, attached hereto marked "Exhibit B". The El Centro-Indiana-Palm District, located west of the City's original commercial center, was the city's first designated residential historic district. This district has high concentration of the late 19th and early 20th century buildings. Architecturally, the buildings chronicle the evolution of design from the Queen Anne through the revival styles;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2020 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specific herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and

may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Christina and Derek Vaughan
925 Palm Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner

agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Historic District Designation

RESOLUTION NO. 6180

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DESIGNATING PORTIONS OF EL CENTRO - INDIANA - PALM AVENUES AS AN OFFICIAL CULTURAL HISTORIC DISTRICT

WHEREAS, Section 2.73A-14. Landmarks and Historic Districts of the South Pasadena Municipal Code establishes procedures for registering historic districts; and

WHEREAS, the Cultural Heritage Commission having duly received a nomination form to register an historic district for the area bounded by Palm Avenue on the east, El Centro Street on the south, Indiana Avenue on the west and Pico Alley on the north; more specifically including all residences on both sides of Palm Avenue in the 900 block, all residences on both sides of El Centro Street in the 500 block, all residences on both sides of Indiana Court in the 500 block and all residences on the east side of Indiana Avenue in the 900 block plus one residence (921) on the west side of Indiana Avenue; and

WHEREAS, the Commission complied with the pertinent and applicable provisions of Subsection (A) (3) (Designation Procedure) and made findings of fact pursuant to Subsection (A) (2) (Designation Criteria for Districts); and

WHEREAS, the Commission forwarded a recommendation to the City Council to approve the proposed historic district; and

WHEREAS, the City Council held a public hearing on the proposed designation on July 7, 1993 and received public testimony; and

WHEREAS, the area qualifies as a district by reason of the following applicable subsections:

(a) Its character, interest or value as a part of the heritage of the community;

(d) Its exemplification of a particular architectural style of an era of history of the City (including Foursquare, Craftsman, pattern book kit houses, and period revival styles);

RESOLUTION NO. 6180
Page 2

(g) Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, materials or craftsmanship; and

(l) Its significance as a distinguishable neighborhood or area whose components may lack individual distinction; and

(m) More than 50% plus one of all affected owners of parcels within the proposed district have consented in writing to such designation.

NOW, THEREFORE, be it resolved by the City Council of the City of South Pasadena the following:

1. Designation of the above-described properties as the EL CENTRO - INDIANA - PALM HISTORIC DISTRICT.

2. The map as set forth in Exhibit A hereto attached and made a part of, as the official boundaries of the historic district.

PASSED, APPROVED AND ADOPTED on July 21, 1993.

James C. Hodge, Jr., Mayor
City of South Pasadena

ATTEST:

Jeannine A. Gregory, City Clerk

I HEREBY CERTIFY that the foregoing resolution was adopted by the City Council of the City of South Pasadena at a regular meeting held on the 21st day of July, 1993, by the following vote:

AYES: Richards, Knapp, Zee and Mayor Hodge

NOES: None

ABSENT: Woollacott

Restoration Work Plan

&

Financial Analysis

2. Schedule and Reporting System

Project	Completion By Year
1. House, exterior: repairs/carpentry work and repainting of wood sheathing	2022
2. House, exterior: repairs/repainting of wood-frame windows	2025
3. OPTIONAL: Garage: repainting of wood sheathing	Optional
4. Maintenance: Termite inspections/mitigation	Annual inspection
5. Maintenance: Roof inspections and repairs as needed	Triannual inspection
6. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Reporting System:

The property owners of 925 Palm Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance for each project included in these plans.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input.

3. Description of Work Plan and Priorities

Work efforts described in these plans will comply with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*.

Proposed Project & Description	Est. Cost	Priority
1. House, exterior, all elevations:	$27,060	High

Original wood-siding on each elevation is in need of repairs/repainting. Some junctures between wood planks, in particular at house corners, show signs of deterioration and failure. If needed, unstable wood planks will be re-fastened in an unobtrusive fashion and patched to match existing in all aspects of appearance. If necessary, any replacement of wood siding will be in-kind to match existing in materials, appearance/patterning, finishes/texture, and size/profile. Paint color to match existing.

Treatment approach will include the gentlest methods possible—**contractors will not use power-washing or machine sanding** for any character-defining features. Gentlest means possible, including hand-sanding, will be used in prepping for repainting of the exterior.

Original horizontal wood-siding, southeast corner of house

Detail, horizontal wood-siding, areas in need of repair and repainting, south elevation

Proposed Project & Description	Est. Cost	Priority
2. House, Wood-frame windows	$ 16,300	High

Repairs/rehabilitation and repainting of wood-frame windows and wood framing. Should any new materials/framing be needed, replacement materials will match existing in materials, appearance, finishes, thickness and profile.

All prep work will be undertaken in compliance with the *Secretary's Standards*. **No machine-sanding or power-washing** will be used for exterior materials or any character-defining features; hand-sanding and gentlest means possible will be used to prep surfaces for painting and refinishing).

Original wood-frame windows; many inoperable, repainting/repairs needed

4. Mills Act Work Plan, Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. House, exterior: repairs and repainting of exterior siding	$ 27,060	2022
2. House, exterior: repairs/repainting of wood-frame windows	$ 16,300	2025
Optional (not included in capitalized expenses):		
3. Garage, exterior: repairs/repainting of wood sheathing	$ 6,720	Optional

Total Historic Preservation Investment in 925 Palm Avenue:	**$ 43,360**
Total Tax Savings for Owners (10-year period)	**$ 38,730**
Average Annual Cost to the City of South Pasadena:	**$ 618**

4. Mills Act Work Plan, Financial Analysis

Exhibit "D"

Standards for Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Re: Mills Act - Progress Report
1506 Rollin Street (APN: 5319-004-013)

Dear Mr. Michael Donovan

Please see attached documents showing below

-An itemized list of all work completed to date

See letter from Mike O'Neill, our general contractor's letters dated December 12, 2023 and March 21, 2025

-Photo documentation of the completed work; both "before" and "after" conditions

We did not purposely keep the photos of before conditions. However, please see attached Mills Act Letter of Intent dated Feb. 18, 2020 and inspection report in 2017

For photos of after conditions, please see attached photos taken on March 21, 2025

-Copies of any building permits issued in conjunction with the work

Our general contractor Mike O'Neill helped us to apply any building permits needed, if any, and we are not in possession of them, if any.

TO: City of South Pasadena

FROM: Mike O'Neill

I am the General Contractor writing this report on behalf of the owners of 1506 Rollin Street, South Pasadena, CA 91030, that performed the work in accordance with Mills Act Rehabilitation & Maintenance List Scope of Work Proposal.

- The original wood windows and French doors were restored by 2021 at a cost of $5,800.
- The non-original sliding aluminum windows on the east side of the house with wood windows identical to the original windows by 2021 at a cost of $4,200.
- The damaged siding and shingles were restored, and the house was repainted by 2022 at a cost of $12,400.
- The split rafter and roof frame were repaired by 2023 for a cost of $1,200.

The above highlighted work was all done within the timeframes specified in Section II of the Mills Act Application Rehabilitation & Maintenance List Scope of Work Proposal.

The next work that is required by 2024 will be foundation reinforcement, this will include bolting the walls per state requirement, and excavating the 18" crawlspace to provide plumbing.

Thank you,

MIKE O'NEILL

Mills Act Application, 1506 Rollin Street, South Pasadena

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

Proposed Scope of Work and Description	***Est. Cost***
Restore original wood windows and French doors *All preparatory work will be undertaken in compliance with the Secretary of Interior's Standards. All surfaces to be treated with the gentlest means possible.*	$ 5,800
Replace non-original sliding aluminum windows on the east side of the house with wood windows identical to the original ones *Match design, stain, and finish of the existing wood windows.*	$ 4,200
Restore damaged siding and shingles and repaint the house *Wood elements shall be restored and may be replaced in-kind only if deteriorated beyond repair. Damaged or deteriorated paint shall be removed using the gentlest method possible (preferably hand-scraping or hand-sanding). The color shall be period-appropriate.*	$ 12,400
Repair and reinforce the roof frame *The Building Inspection Report identifies a number of issues related to the roof frame to be addressed: split rafter above the kitchen; split purlin wall at the front of the home; undersized ridge board.* *Restore to ensure structural stability.*	$ 1,200

Reinforce foundation, including bolting the walls per state requirement, and excavating the 18" crawlspace to provide access to plumbing *Foundation repairs and expanding the crawlspace according to industry standards and applicable building codes.*	$ 4,150
Repair cracks in the concrete porch and stone porch wall *Remove failing mortar in the joints between the stones. Restore the vertical crack in the stone portion of the porch wall.* *Repair / recreate the 50-foot concrete wall cup and 595 sq. ft. of the porch floor. Repair of historic concrete may consist of either patching the historic material or filling it with new material to match the historic material and detailing.*	$ 2,700
Repair damaged driveway *Driveway is considered to be a character-defining feature of the Rollin Craftsman Cluster Historic District landscaping.* *Repair and replace concrete in-kind.*	$ 2,735
Inspect the chimney, repair cracks or restore to the original appearance if possible *The Building Inspection Report identifies cracks inside the chimney and recommends additional inspection. The exterior of the chimney was stuccoed (probably, in 1990), with its footing not reaching the ground level – see a photo attached. It is possible that originally the chimney was built of Arroyo river stone, same as used for the porch wall and the fireplace mantel. If this original stone chimney proves to be intact under the stucco, the home owner is willing to restore it back to the original condition.* *Chimney Level-2 inspection* *Cracks repair and structural reinforcement* *or Potential chimney restoration*	4,000 $ $ $

Replace outdated plumbing and electricity	$ 4,500
Maintenance:	
Annual termite inspection	$
Fumigation treatment, if needed	$

[1] This is only a preliminary estimate, final tax adjustments are conducted by the Los Angeles County Assessor's Office.

SUMMARY OF COMPLETED WORK

Mills Act Application, 1506 Rollin Street, South Pasadena

Section II: Rehabilitation Plan, Maintenance List, and Reporting System

	Proposed Scope of Work	***Year***
Complete ↓	✓ Restore original wood windows and French doors	2021
	✓ Replace non-original sliding aluminum windows on the east side of the house with wood windows identical to the original ones	2021
	✓ Restore damaged siding and shingles and repaint the house	2022
	✓ Repair roof frame including a split rafter	2023
	✓ Reinforce foundation, including bolting the walls per state requirement, and excavating the 18" crawlspace to provide access to plumbing	2024
	Repair cracks in the concrete porch and stone porch wall	2025
	Repair damaged driveway	2025
	Inspect the chimney, repair cracks or restore to the original appearance if possible	2026
	Replace outdated plumbing and electricity	2028
	Maintenance:	
	Check wood structure for termites and treat if necessary	Annually

MILLS ACT CONTRACT

South Pasadena
Contract No. 2020-059
Council Approved 11/04/2020

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 2nd day of December 2020, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Li Li and Shen Chong ("Owners") Wife + Husband
(First name: Li, Last name: Li. Owner) (First name: Shen Last name: Chong. Husband)

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1506 Rollin Street, South Pasadena, California, Assessor's Parcel Number 5319-004-013 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the Rollin Craftsman District, attached hereto marked "Exhibit B". The Rollin Craftsman District, consists of five properties situated along the eastern end of the 1500 block of Rollin Street between Fremont Avenue and Fair Oaks Avenue. The prevailing architectural pattern of the five properties are modestly-sized single-story single-family Craftsman residences. The prevailing material palette and character-defining features of the District consist of front porches with brick, stone, or wood piers, wood shingles, wood siding, overhanging eaves, projecting rafters, tripartite windows, and transom lights.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2021 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specified herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement. Owner shall obtain approval from the Chair of the Cultural Heritage Commission prior to start of work of said items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the

preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Li Li and Shen Chong
1506 Rollin Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land

condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Historic District Designation

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

RESOLUTION NO. 7659

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING A HISTORIC DISTRICT THAT INCLUDES FIVE CONTRIBUTING PROPERTIES LOCATED AT 1500, 1506, 1507, 1510, AND 1512 ROLLIN STREET

WHEREAS, on August 22, 2017, the City received a request from a representative of the property owners in the eligible Rollin Craftsman Cluster for designating the historic district, consisting of five contributing properties located at 1500, 1506, 1507, 1510, and 1512 Rollin Street (Assessor's Parcel Numbers 5319-004-014, -013, -012, and -011, and 5319-005-018); and

WHEREAS, on March 5, 2018, an application formally requesting the designation of the Rollin Craftsman Cluster historic district was received, with four property owners signing the application with the fifth property owner providing signature on February 13, 2020; and

WHEREAS, Section 2.62 of the South Pasadena Municipal Code (SPMC) Ordinance No. 2004 ("Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as historic districts; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it formed a subcommittee to review the merits of the requested designation, visited the site, attempted diligently and in good faith to meet with the property owners; and

WHEREAS, on April 17, 2020, City of South Pasadena Planning and Building Department published a legal notice in compliance with state law concerning the designation of the Rollin Craftsman Cluster in the *South Pasadena Review*, a local newspaper of general circulation, regarding the City of South Pasadena Cultural Heritage Commission public hearing of April 30, 2020. In addition, on April 16, 2002, a public hearing notice was mailed to property owners within the proposed district and within a 300-foot radius of the proposed district, indicating the date and time of the public hearing at the Cultural Heritage Commission meeting for designation of the historic district; and

WHEREAS, on April 30, 2020, the Cultural Heritage Commission conducted a duly noticed public hearing, at which time public testimony was taken concerning the proposed designation of the Rollin Craftsman Cluster and voted 4-0 recommending designation to the City Council.

WHEREAS, on May 22, 2020, City of South Pasadena Planning and Building Department published a legal notice in compliance with state law concerning the designation of the Rollin Craftsman Cluster in the *South Pasadena Review*, a local newspaper of general circulation, regarding the City of South Pasadena City Council on public hearing of June 3, 2020. In addition, on May 21, 2020, a public hearing notice was mailed to property owners within the

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

proposed district and within a 300-foot radius of the proposed district, indicating the date and time of the public hearing at the City Council meeting for designation of the historic district; and

WHEREAS, the June 3, 2020 City Council meeting was postponed to June 10, 2020, and on June 10, 2020, the City Council continued the project to the next City Council meeting on June 17, 2020; and

WHEREAS, on June 17, 2020, the City Council conducted a duly noticed public hearing, at which time public testimony was taken concerning the proposed designation of the Rollin Craftsman Cluster, and considered the designation of the Rollin Craftsman Cluster Historic District.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. ENVIRONMENTAL REVIEW FINDINGS

The City Council has determined that the proposed project is Categorically Exempt from the provisions of the California Environmental Quality Act (CEQA), under the "common sense exemption," Section 15016(b)(3), which states that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be understood with certainty that there is no possibility that the designation of a historic district could have a significant effect on the environment, and therefore, is not subject to CEQA.

SECTION 2. DESIGNATION OF HISTORIC DISTRICT FINDINGS

Based on the evidence presented at the public hearing, on the evidence contained in the City Council Staff Report, the Cultural Heritage Commission Staff Report and associated attachments, and other records of proceedings, the City Council considered the applicable designation criteria contained in the Cultural Heritage Ordinance and makes the following findings, pursuant to SPMC Section 2.63(a)(2) for designation of the Rollin Craftsman Cluster Historic District:

(A) That the designation of landmark or historic district is consistent with one or more of the purposes set forth in SPMC 2.58B; and

The designation of the proposed Rollin Craftsman Cluster Historic District is consistent with the purpose of the Cultural Heritage Ordinance for identification, protection, enhancement, and preservation of structures, sites, and areas that represent the City's heritage and character. The proposed district represents the early 20th Century residential development theme. The homes constructed from the late 19th to the early 20th century represent some of the earliest building stock, and development and settlement patterns of the City. Thus, the designation of the proposed historic district will help promote the City's sense of place as it will preserve, maintain, and safeguard the City's heritage and

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

character, will reflect the phases of the City's history, and will foster pride in the ownership of the City's historic resources.

(B) That the landmark or historic district meets one or more of the criteria for designation listed in subsection (b) of this section; and

The proposed historic district qualifies for designation under Criteria (1), (4), (7), and (11). The homes in the proposed district represent an important period in South Pasadena's history when its architectural character began to develop in the early 20th century, and reflect the early development and settlement patterns in the City. As described in the Context Statement Report, homes constructed from the late 19th to the early 20th century represent some of the earliest building stock in South Pasadena. These homes characterize Craftsman style architecture that arose from the late 19th century English Arts and Crafts movement. Character-defining features of Craftsman style architecture homes includes "stained wood, wide overhanging eaves, balconies, terraces extending the living space outdoors" that represent the goals of the Arts and Crafts movement for "simplicity of design, hand craftsmanship, and relationship of the building to the climate and landscape." The homes in the proposed historic district have minor alterations but are acceptable as the district as a whole continues to convey its integrity and significance of the early 20th Century residential development theme.

(C) That the landmark or historic district possesses historic integrity of location, design, setting, materials, workmanship, feeling, or association.

The proposed historic district possesses historic integrity of location, design, setting, materials, workmanship, and feeling as all five homes within the proposed district are contributors to the significance of the historic district. The homes are modestly sized, one-story containing character-defining features typical of Craftsman architecture such as front porches with brick, stone, or wood piers and walls, wood shingle siding, extended overhang eaves, and projecting rafters. Thus, the district is an excellent representative of Craftsman architectural style homes, and reflects the design principles of the early 20th century Arts and Crafts movement.

SECTION 3. ADDITIONAL FINDINGS FOR HISTORIC DISTRICT

In addition to the findings in Section 2 above, the City Council also make the following findings as required for designation of historic district pursuant to SPMC Section 2.63(a)(4).

(A) The proposed district boundaries are appropriate because a significant concentration, linkage, or continuity of sites, buildings, structures, or objects united historically or aesthetically by plan or physical development are present within the district. A district derives its importance from being a unified entity or a theme, even though it may be composed of a wide variety of resources (organized around a theme). Thematic districts are not required to have physical or contiguous boundaries.

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

The proposed district boundaries are appropriate because it is reflective of a particular period of growth and development in the City. As described in the City's 2002 Historic Survey report, the proposed district is "small cluster of 5 contributing properties" along the 1500 block of Rollin Street, between Fremont Avenue and Fair Oaks Avenue. The homes are single-story single-family residences with Craftsman architectural style that share common setbacks, lot sizes, architectural styles, and period of development.

(B) The identity of the district results from the interrelationship of its resources which conveys a visual sense of the overall historic environment or is an arrangement of historically or functionally related properties.

The City's 2002 Historic Survey identified the proposed district as a potential historic district for the City as 5S1 (not eligible for National Register, but of local interest because the resource is listed or eligible for listing under local ordinance). The 2002 Historic Survey described this district as "[T]his small cluster of 5 contributing properties is located along the 1500 block of Rollin street, between busy Fremont Avenue to the west and Fair Oaks Avenue to the east. The single-family dwellings are one story in height, Craftsman in design and were built between 1890 and 1914. They share common setbacks, lot sizes, architectural styles, and period of development. This small grouping is reflective of a particular period of growth and development within the community."

The five homes in the proposed district were built before World War I with a significant gap of over 10 years before adjacent houses were built. The immediate neighbors to the west and to the east were built starting from the mid-1920s. There are other Craftsman structures to the west, adjacent to Fremont Avenue (house at 1417 Rollin Street and Woman's Club at 1424 Fremont Ave.). However, the 2002 Historic Survey suggested allocating them to the larger potential High School Neighborhood.

Because of this timeframe, this little cluster falls under the Early 20th Century Residential Development context theme covering 1900-1919 (per 2014 Citywide Historic Context Statement). The period of 1920-1929 is covered under another context theme, 1920s Growth. Including more properties into the cluster would require the district to represent two different context themes.

(C) The district contains a number of contributing resources that add to the historic architectural qualities or historic associations for which a district is significant because they existed during the period of significance and possess historic integrity reflecting the district's character at that time.

The proposed district contains five modestly sized, one-story Craftsman architectural style homes with a high degree of integrity that represent the height of the Arts and Crafts movement. All five homes are contributors to the historic district. These homes were built between 1890 and 1914 and have minor alterations, but are acceptable as the district because the whole continues to convey its integrity and significance of the early 20th Century residential development theme. Overall, the district's character is an excellent

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

representative of an important period in South Pasadena's history and reflect the early development and settlement patterns in the City.

(D) With respect to the designation of a local district that is not listed on the California Register of Historical Resources, but was identified in a local survey, not less than 60 percent of all affected owners of the proposed historic district must consent to such designation. Each parcel or lot shall be entitled to only one vote per parcel. By way of example only, if the proposed historic district were composed of 20 parcels, then the owners of 12 parcels would be required to consent to the designation.

As described in the City's 2002 Historic Survey report, the proposed district is "small cluster of 5 contributing properties" along the 1500 block of Rollin Street, between Fremont Avenue and Fair Oaks Avenue. On March 5, 2018, all five-property owners in the district signed an application requesting the City to designate the potential Rollin Craftsman Cluster district identified in the 2002 Historic Survey as a local historic district. Therefore, the signed application was considered as 100% consent to designation of the proposed historic district.

(E) With respect to the designation of a historic district that is listed on the California Register of Historical Resources, not less than 50 percent plus one of all affected owners of the proposed historic district must consent to such designation. Each parcel or lot shall be entitled to only one vote per parcel. By way of example only, if the proposed historic district were composed of 20 parcels, then 11 property owners would be required to consent to the designation.

As stated in the City's 2002 Historic Survey report, the proposed district was identified as 5S1 (not eligible for National Register, but of local interest because the resource is listed or eligible for listing under local ordinance).

SECTION 4. RECORD OF PROCEEDING

The documents and other materials that constitute the record of the proceedings upon which the Planning Commission's decision is based, which include, but are not limited to, the environmental documents, staff reports, as well as all materials that support the staff reports for the proposed project, and are located in the Planning and Building Department of the City of South Pasadena at 1414 Mission Street, South Pasadena, CA 91030. The custodian of these documents is the City Clerk of the City of South Pasadena.

SECTION 5. DETERMINATION

Based on the aforementioned findings, the City Council hereby approves the designation of the Rollin Craftsman Cluster Historic District, along with the map as set forth in Exhibit "A" attached hereto and made a part thereof, as the official boundaries of the Rollin Craftsman Cluster Historic District.

DocuSign Envelope ID: F36DFBE2-8BAA-469C-A18B-C528D57519EE

SECTION 6. CERTIFICATION OF THE RESOLUTION

The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

SECTION 7. FILING WITH THE COUNTY CLERK

The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 17th day of June, 2020.

Restoration Work Plan

&

Financial Analysis

Mills Act Application, 1506 Rollin Street, South Pasadena

Section II: Rehabilitation Plan, Maintenance List, and Reporting System

Proposed Scope of Work	***Year***
Restore original wood windows and French doors	2021
Replace non-original sliding aluminum windows on the east side of the house with wood windows identical to the original ones	2021
Restore damaged siding and shingles and repaint the house	2022
Repair roof frame including a split rafter	2023
Reinforce foundation, including bolting the walls per state requirement, and excavating the 18" crawlspace to provide access to plumbing	2024
Repair cracks in the concrete porch and stone porch wall	2025
Repair damaged driveway	2025
Inspect the chimney, repair cracks or restore to the original appearance if possible	2026
Replace outdated plumbing and electricity	2028
Maintenance:	
Check wood structure for termites and treat if necessary	Annually

Reporting System:

The property owners of 1506 Rollin Street will provide written updates to the City of South Pasadena every three years, documenting progress and providing updates and photos on the Mills Act work plan.

Certificates of Appropriateness (CoA) will be obtained by property owners for major work efforts, as required by the City of Pasadena Cultural Heritage Ordinance. The CoA may be needed for the restoration of the river stone chimney.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs.

Mills Act Application, 1506 Rollin Street, South Pasadena

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

Proposed Scope of Work and Description	***Est. Cost***
Restore original wood windows and French doors *All preparatory work will be undertaken in compliance with the Secretary of Interior's Standards. All surfaces to be treated with the gentlest means possible.*	$ 7,800
Replace non-original sliding aluminum windows on the east side of the house with wood windows identical to the original ones *Match design, stain, and finish of the existing wood windows.*	$ 8,500
Restore damaged siding and shingles and repaint the house *Wood elements shall be restored and may be replaced in-kind only if deteriorated beyond repair. Damaged or deteriorated paint shall be removed using the gentlest method possible (preferably hand-scraping or hand-sanding). The color shall be period-appropriate.*	$19,300
Repair and reinforce the roof frame *The Building Inspection Report identifies a number of issues related to the roof frame to be addressed: split rafter above the kitchen; split purlin wall at the front of the home; undersized ridge board.* *Restore to ensure structural stability.*	$4,500

Reinforce foundation, including bolting the walls per state requirement, and excavating the 18" crawlspace to provide access to plumbing *Foundation repairs and expanding the crawlspace according to industry standards and applicable building codes.*	$13,800
Repair cracks in the concrete porch and stone porch wall *Remove failing mortar in the joints between the stones. Restore the vertical crack in the stone portion of the porch wall.* *Repair / recreate the 50-foot concrete wall cup and 595 sq. ft. of the porch floor. Repair of historic concrete may consist of either patching the historic material or filling it with new material to match the historic material and detailing.*	$39,100
Repair damaged driveway *Driveway is considered to be a character-defining feature of the Rollin Craftsman Cluster Historic District landscaping.* *Repair and replace concrete in-kind.*	$7,900
Inspect the chimney, repair cracks or restore to the original appearance if possible *The Building Inspection Report identifies cracks inside the chimney and recommends additional inspection. The exterior of the chimney was stuccoed (probably, in 1990), with its footing not reaching the ground level – see a photo attached. It is possible that originally the chimney was built of Arroyo river stone, same as used for the porch wall and the fireplace mantel. If this original stone chimney proves to be intact under the stucco, the home owner is willing to restore it back to the original condition.* *Chimney Level-2 inspection* *Cracks repair and structural reinforcement* *or Potential chimney restoration*	 $250 $10,000 *$28,000*

Replace outdated plumbing and electricity	$16,200
Maintenance:	
Annual termite inspection	*$150*
Fumigation treatment, if needed	*$ 6,000*

Total investment in Rehabilitation (Maintenance not included): **$127,350**

Potential Mills Act Property Tax Savings over a 10-year period[1]: **$119,070**

Potential Cost to the City of South Pasadena over a 10-year period: **$30,958.20**

Exhibit "D"

Standards of Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

PROPERTY ADDRESS:

1545 Ramona Avenue

2025 PROGRESS REPORT

Joanne Heyler
1545 Ramona Ave
South Pasadena, CA 91030

April 6, 2025

Michael Donovan, Associate Planner
Community Development Department
City of South Pasadena
1414 Mission Street
South Pasadena, CA 91030

Dear Mr. Donovan,

I am writing in order to comply with the City's request for an update on progress on the work described in my Mills Act contract on my Ramona Ave home.

I am requesting an extension to the due diligence request and to the contract overall:

While the City indicates a contract commencement date of December 2, 2020, note that due to a city clerical error (a missing page in the copy the city provided to me), there was a delay in recording the contract with LACO and in my obtaining the property tax reduction associated with Mills Act contracts. As a result, the tax reduction was not effectuated until 2023. I can provide further detail and proof to the city upon request.

The work done so far on my home is:

Preparation for hardscape replacement/repair, and garage rebuild: a property survey, and interviews with designers and contractors and obtaining estimates from same.

There will be significant progress on Mills Act contract items over the next year. I expect to be under contract with architects/designers/contractors for the outdoor portions of the required work shortly.

Sincerely,

Joanne Heyler

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
1545 RAMONA AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

South Pasadena
Contract No. 2020-060
Council Approved 11/04/2020

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 2nd day of December 2020, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Joanne Hayler ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1545 Ramona Avenue, South Pasadena, California, Assessor's Parcel Number 5319-025-032 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to a designated historic district known as the Ramona Craftsman District, attached hereto marked "Exhibit B". The Ramona District which consists of 19 properties built between 1907 and 1915. The District includes all parcels on both sides of Ramona Avenue between Rollin and Oak Streets. The prevailing architectural pattern of the properties are Craftsman residences. The prevailing material palette and character defining features of the District consist of gable roofs, corbels, wood shingles, wood siding, double hung windows, dormers and front porches.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2021 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specified herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement. Owner shall obtain approval from the Chair of the Cultural Heritage Commission prior to start of work of said items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the

preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Joanne Heyler
1545 Ramona Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land

condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Historic District Designation

RESOLUTION 6471

RESOLUTION OF THE SOUTH PASADENA CITY COUNCIL APPROVING THE DESIGNATION OF PROPERTIES ON THE 1500 BLOCK OF RAMONA AVENUE AND 1222 OAK STREET AS A LOCAL CULTURAL HERITAGE HISTORIC DISTRICT

WHEREAS, Section 2.73a-14 of the South Pasadena Municipal Code, Ordinance 2004, commonly known as the Cultural Heritage Ordinance ("Ordinance") authorizes the Cultural Heritage Commission ("Commission") to recommend to the City Council the designation of appropriate sites as historic districts; and

WHEREAS, the Commission duly received a nomination form pursuant to designation of a district including all parcels on both sides of Ramona Avenue between Rollin and Oak Streets (inclusive of the following addresses: 1501, 1505, 1509, 1511, 1519, 1521, 1522, 1524, 1525, 1528, 1529, 1531, 1532, 1534, 1535, 1537, 1541 and 1545 Ramona Avenue) plus 1222 Oak Street and properties owned by Holy Family Catholic Church; and

WHEREAS, the Commission has complied with the pertinent and applicable provisions of Subsection (A)(3) ["Designation Procedure"] of the Ordinance; and

WHEREAS, the area qualifies as a district under the following applicable Designation Criteria codified under Section 2.73A-14, A2 of the Ordinance;

(a) *Its character interest or value as a part of the heritage of the community.* The district is a prime example of a Southern California neighborhood of California bungalows from the early part of the twentieth century. The majority of houses were built between 1907 and 1915, the height of the period of California Craftsman Architecture. That architectural movement presented an innovation in American architecture, establishing both a new style, with its creative use of wood, and new housing type, the bungalow.

File # 1281.3

(b) *Its identification with people and groups who significantly contributed to the culture and development of the City, State of California or the U.S.* Several of the homes were built for the United Lodge of Theosophists. Leaders of the group included Robert Crosbie (1537 Ramona Avenue), LA Times writer; John Garrigues (1534 Ramona Avenue), Treasurer of Sun Oil; advertising executive H. Wescott Clough and his wife, Grace (1532 Ramona Avenue); and William R. Law (1541 Ramona Avenue), an attorney.

(c) *Its exemplification of a particular architectural style of an era of history of the City* [See information above, under (a)].

(d) *Its identification as the work of a person whose work influenced the heritage of the City, the State of California or the U.S.* Twelve residences in district were early and significant work of G. Lawrence. Stimson. Although never a certified architect, Stimson is noted for his excellent design sense and technical innovation (including electrically controlled central heating). Buildings he designed that have been determined National Register eligible include the Wrigley mansion on Orange Grove and ten houses on Oaklawn in South Pasadena. In this prospect district, Stimson built all Ramona Avenue houses south of number 1524.

(e) *Its embodiment of elements of outstanding attention to architectural design, engineering, detail, materials or craftsmanship. See above statement under Section (d).*

\\\

\\\

\\\

(f) *Its significance as a neighborhood or area whose components may lack individual distinction.* This block of Ramona Avenue represents a significant and distinguishable entity in the context of the area and of the City of South Pasadena. Its human scale, attractive historic streetscape, and overall integrity reflects a well-kept neighborhood that has "aged in place" virtually unchanged for over fifty years.

(g) *More than 50% plus one of all affected owners of parcels within the proposed district have consented in writing to the designation.*

WHEREAS, no opposition has been forthcoming regarding any properties; and

WHEREAS, no testimony, evidence or documentation refuting historic significance (based on Cultural Heritage Ordinance criteria) has been introduced at any point in the Commission review process regarding any structure in the proposed district; and

WHEREAS, the Commission unanimously voted to recommend designation based on the application materials, on-site inspections, public testimony, and based on documentation submitted by the applicants, by Commission members and by an architectural historian hired to research the proposed district; and

WHEREAS, a Memorandum of Understanding (MOU) has been executed by the Holy Family Catholic Church and the Ramona Avenue Neighbors regarding the proposed Ramona Avenue Historic District. Within the MOU, is the understanding that the Church would not oppose the District creation as long as the Church-owned properties were excluded from the original Cultural Heritage Commission recommendation.

NOW THEREFORE BE IT RESOLVED, that the City Council of the City of South Pasadena determines as follows:

SECTION I. No testimony, evidence or documentation refuting historic significance (based on Cultural Heritage Ordinance criteria) has been introduced at any point in the City Council's review process regarding any structure in the proposed district.

SECTION II. The City Council makes the above findings to support the designation based on the application materials, on-site inspections, public testimony, and based on documentation submitted by the applicants, by Commission members and by an architectural historian hired to research the proposed district, as part of the environmental analysis for the Vision Project.

SECTION III. The City Council hereby approves of the above-described properties as the Ramona Avenue Historic District, as shown on Exhibit "A" attached.

PASSED, APPROVED and **ADOPTED** this 15th day of May, 1997.

PAUL W. S. ZEE, MAYOR

Restoration Work Plan

&

Financial Analysis

Mills Act Application, 1545 Ramona Avenue, South Pasadena

Section II: Rehabilitation Plan, Maintenance List, and Reporting System

Proposed Scope of Work	***Year***
Restoring damaged shingles and broken trim at the attic room windows	2021
Restoring water-damaged wood trim on the back of the house at the sun room, beneath the master balcony	2021
Repairing tripartite entry doors and sun room French doors on the south side of the house	2021
Repainting the house using period appropriate color to make it compatible with the style of the Ramona Craftsman Historic District	2022
Repairing cracks in exterior concrete steps and paving	2025
Restoring stucco on the basement walls	2025
Examining sloped/uneven floors on the second floor and repair as needed	2026
Examining cracks and/or mortar deterioration in the fireplace	2026
Replacing outdated knob and tube electric wiring and ungrounded three prong receptacles on the second floor with modern wiring to ensure safety	2028
Rebuilding the garage to make it more compatible with the style of the house	2029

Maintenance:

Check wood structure for termites and treat if necessary	Annually

Reporting System:

The property owners of 1545 Ramona Avenue will provide written updates to the City of South Pasadena every three years, documenting progress and providing updates and photos on the Mills Act work plan.

Certificates of Appropriateness (CoA) will be obtained by property owners for major work efforts, as required by the City of Pasadena Cultural Heritage Ordinance. The CoA may be needed for the rebuilding of the one-car garage.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs.

Mills Act Application, 1545 Ramona Avenue, South Pasadena

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

Proposed Scope of Work and Description	***Est. Cost***
Restoring damaged shingles, broken trim at the attic room windows, water-damaged wood trim on the back of the house at the sun room *All preparatory work will be undertaken in compliance with the Secretary of Interior's Standards. All surfaces to be treated with the gentlest means possible. Wood elements shall be restored and may be replaced in-kind only if deteriorated beyond repair.*	$11,700
Repainting the house using period appropriate color to make it compatible with the style of the Ramona Craftsman Historic District. *Damaged or deteriorated paint shall be removed using the gentlest method possible (preferably hand-scraping or hand-sanding).*	$27,400
Repairing tripartite entry doors and sun room French doors on the south side of the house *The doors and hardware need to be adjusted to ensure operability. The hardware may be replaced in-kind only if deteriorated beyond repair.*	$2,100

Repairing cracks in exterior concrete steps and paving Restoring stucco on the basement walls to match the finish *1,085 sq. ft. of driveway and walkways have multiple cracks and are partially damaged beyond repair. Driveways and walkways are considered to be character-defining features of the Ramona Avenue Craftsman District landscaping. New concrete shall match original in tone and texture.* *Non-original steps to the sun-porch to be rebuilt according to the Building Code standards and to match original tone and texture.*	$55,700
Repair sloped/uneven floors on the second floor *Ensure structural stability.*	$5,200
Examining cracks and/or mortar deterioration in the fireplace with a qualified, licensed chimney expert and repair as needed to ensure safety. *The Building Inspection Report and recommends additional inspection of the 3-story brick chimney that was restored after the earthquake in 1988.* *Chimney inspection* *Allowance for potential chimney restoration*	 $650 TBD
Replacing outdated knob and tube electric wiring and ungrounded three prong receptacles on the second floor with modern wiring to ensure safety *Bring the electric wiring up to the Building Code.*	$17,500
Rebuilding the garage to make it more compatible with the style of the house *The original one-car garage was demolished prior to 1951. The new 20' x 20' two-car garage was built in 1955. A patio was added in 1962 and enclosed in 2003. A combination of wood and plastic siding is crumbling, and sliding doors are not compatible with the style of the house. The homeowner would like to restore a one-car garage based on its original outline (see the Sanborn Map attached.)*	$35,000

Maintenance:	
Annual termite inspection ($350) Fumigation treatment, if needed	$ 8,000

Total investment in Rehabilitation and Maintenance: **$163,250**

(without an allowance for potential chimney restoration)

Potential Mills Act Property Tax Savings over a 10-year period[1]: **$146,370**

Potential Cost to the City of South Pasadena over a 10-year period: **$38,056.20**

[1] This is only a preliminary estimate, final tax adjustments are conducted by the Los Angeles County Assessor's Office.

Exhibit "D"

Standards of Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

PROPERTY ADDRESS:

704 Meridian Avenue

2025 PROGRESS REPORT

April 2, 2025

City of South Pasadena
Community Development Department
1414 Mission Street
South Pasadena, CA 91030

RE: Mills Act – Progress Report Request

To Whom It May Concern,

I am writing to provide an update on the Mills Act Rehabilitation & Maintenance Plan for the property located at 704 Meridian Ave in South Pasadena, as per the City's request dated March 6, 2025.

The garage structural retrofit project commenced in late 2022 and was successfully completed in early 2024. This endeavor, however, proved to be both more time-consuming and expensive than initially anticipated due to the specific structural engineering requirements involved. Ultimately, the final cost was nearly three times the original estimate of $25,000.

At this time, no additional work outlined in the rehabilitation and maintenance plan has been initiated. The resources and efforts devoted to the garage project, combined with the joyous occasion of welcoming another new family member last year, have temporarily delayed progress. Nevertheless, it remains our earnest intention to proceed with the next stages of the plan at the earliest opportunity.

For your reference, Attachment A includes an itemized summary of the completed work, along with detailed photographs showcasing the conditions before and after the project. Copies of permit issued and inspection record have also been provided.

Please feel free to reach out if further information is needed.

Best regards,

Andrew Kao

COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

South Pasadena
Contract No. 2020-062
Council Approved 11/04/2020

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 2nd day of December 2020, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Rachelle Andrews and Andrew Kao ("Owners").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 704 Meridian Avenue, South Pasadena, California, Assessor's Parcel Number 5315-013-041 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a contributor to the North of Mission Historic District. The North of Mission Historic District was determined eligible for the National Register by the Keeper on March 31, 1983.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2021 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specified herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "B" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement. Owner shall obtain approval from the Chair of the Cultural Heritage Commission prior to start of work of said items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "C".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of

this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief

against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Rachelle Andrews and Andrew Kao
704 Meridian Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void

upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

2023

10-Year Work Plan, 704 Meridian Avenue, South Pasadena

Rehabilitation Treatment Approach: Standards and Guidelines

All work efforts will be guided by the rehabilitation treatment guidelines: (1) Identify, Retain, and Preserve; (2) Stabilize; (3) Protect and Maintain; (4) Repair; (5) Limited, In-Kind Replacement

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
Exterior					
Garage	Yes	**Condition:** Poor **Repairs:** Structural stabilization and retrofitting; mitigation of termite and dry rot damage to wood framing and sheathing; removal, repairs, and re-sheathing of roof	Termite mitigation and dry rot removal will be carried out according to the Secretary of the Interior's Standards for the Treatment of Historic Properties. This mitigation will seek to "stabilize, consolidate, and conserve existing historic materials" and will "replace minimum amount of fabric necessary and match materials in-kind."[1] Recommended rehabilitation treatment guidelines: 1. Protect and maintain: "Protecting and maintaining the structural systems…by keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation."	2022 Biannnual termite inspection	$ 25,000 To include input by a historic preservation professional
Windows, wood-frames, surrounds and sills Window screens on north elevation	Yes No (nonoriginal feature)	**Condition:** Good (isolated repairs needed) **Repairs:** (1) Rehabilitation of historic windows to include (but not necessarily be limited to): repair of cracked/broken glazing; repair of non-operational double-hung windows, including replacement of missing sash cords where needed; re-weathering stripping/re-sealing where needed; and repainting windows and	Windows and their functional and decorative features shall be repaired according to the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Recommended treatment guidelines: 1. Identify, retain, and preserve: "Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building. Such features can include frames, sash, muntins, glazing, sills, heads, hoodmolds, panelled or decorated jambs and moldings, and interior and exterior shutters and blinds. 2. Stabilize: "Stabilizing deteriorated or damaged windows as a preliminary measure, when necessary, prior to undertaking appropriate preservation work." 3. Protect and maintain: "Protecting and maintaining the wood and architectural metals which comprise	2023 (initial repairs); 2024 (wood-frame screens) Biannual maintenance (2024, 2026, 2028, 2030)	$ 25,000 (window rehab/repairs) $ 5,000 (wood-frame screens, north elevation) To be completed by contractor with experience in historic preservation

* Unless otherwise noted, all quoted material describing recommended treatment approaches is drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties,* "Rehabilitation Treatment," US Department of the Interior, National Park Service, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

In S.J. Kelley, ed., *Standards for Preservation and Rehabilitation* (American Society for Testing and Materials): pp. 7-22.

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
		window frames in period-appropriate palette (2) Removal of nonoriginal aluminum-frame window screens with wood-frame screens along north elevation	the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems." "Making windows weather tight by re-caulking and replacing or installing weather-stripping. These actions also improve thermal efficiency." 4. Repair: "Repairing window frames and sash by patching, piecing-in, consolidating or otherwise reinforcing them using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment." 5. Limited Replacement In-Kind: "Replacing in kind extensively deteriorated or missing parts of windows when there are surviving prototypes such as frames, sash, sills, glazing, and hoodmolds. The new work should match the old in material, design, color, and texture; and be unobtrusively dated to guide future research and treatment."		
Roof, Main House Brick chimney, south elevation	Yes (configuration, pitch, original ornamental details where extant); sheathed in nonoriginal composition shingles	**Condition:** Good overall **Repairs:** Re-roofing, to include removal of solar panels on north elevation; tear-off; repairs as needed to roof system structure; installation of plywood decking; re-sheathing of roof with composition shingles; reinstallation of solar panels Concurrent with roof repairs, refasten/reinforce chimney. For historic brick, repoint to match existing and repair/replace brick in-kind where needed.	Recommended rehabilitation treatment guidelines: 1. Identify, retain, preserve: Identify "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas... chimneys, & weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning." 2. Protect and retain: "Cleaning of gutters and downspouts and replacing deteriorated flashing. Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to ensure that materials are free from insect infestation. ... Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration." 3. Repair: "Repairing a roof by reinforcing the historic materials which comprise roof features. Repairs will also generally include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features when there are surviving prototypes such as cupola louvers, dentils, dormer roofing; or slates, tiles, or wood shingles on a main roof.	2025 (reroof and roof repairs, repairs/ refastening of brick chimney) Triannual inspection	$ 40,000 To be completed by contractor with experience in historic preservation

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
Exterior walls, wood sheathing	Yes	**Condition:** Good/Fair **Repairs:** Repairs/patching or in-kind replacement of areas of damaged and deteriorated wood siding, including but not limited to areas along the base of the residence and the north elevation; resealing and repainting in period-appropriate palette	The exterior wood sheathing of the building will be repaired as necessary and repainted, according to the *Secretary's Standards.* Recommended rehabilitation treatment guidelines: 1. Identify, retain, and preserve: "Identifying, retaining/preserving wood features that are important in defining the historic character of the building such as siding, cornices, brackets, window architraves, and doorway pediments; and their paints, finishes, and colors." 2. Stabilize: "Stabilizing deteriorated or damaged wood as a preliminary measure, when necessary, prior to undertaking appropriate preservation work." 3. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building… Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary." 4. Repair: "Repairing, stabilizing, and conserving fragile wood using well-tested consolidants, when appropriate. Repairs should be physically and visually compatible and identifiable upon close inspection for future research. Repairing wood features by patching, piecing-in, or otherwise reinforcing the wood using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment." 5. Limited Replacement in Kind: "Replacing in kind extensively deteriorated or missing parts of wood features when there are surviving prototypes such as brackets, molding, or sections of siding. New work should match the old in material, design, color, and texture; and be unobtrusively dated to guide future research and treatment."	2028 Biannual inspection	$ 40,000 To be completed by contractor with experience in historic preservation

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
			Not Recommended: "Replacing an entire wood feature such as a column or stairway when limited replacement of deteriorated and missing parts is appropriate. Using replacement material that does not match the historic wood feature; or failing to properly document the new work."		
Main entrance, wood entrance door, hardware, and leaded-glass light	Yes	**Condition:** Good/fair (isolated repairs needed) **Repairs:** Original front door has inoperable/ill-fastened hardware and leaded-glass window in need of cleaning/conservation	Recommended treatment guidelines: 1. Identify, retain, and preserve: Identifying elements of "entrances and porches--and their functional and decorative features--that are important in defining the overall historic character of the building." 2. Protect and maintain: "Protecting and maintaining the masonry, wood, and architectural metals that comprise entrances and porches through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems." 3. Repair: "Repairing entrances and porches by reinforcing the historic materials. Repair will also generally include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of repeated features where there are surviving prototypes such as balustrades, cornices, entablatures, columns, sidelights, and stairs."	2029	$ 10,000 To be completed by contractor with experience in historic preservation

Exhibit "C"

Standards of Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

2025 PROGRESS REPORT

ARROYO VISTA INN

City of South Pasadena
Community Development Department
1414 Misson Street
South Pasadena, CA 91030

Response to Mills Act Progress Report Request (Arroyo Vista Inn, 335 Monterey Road, South Pasadena, CA 91030)

I am writing in response to your request for the Mills Act progress report regarding our contract with the City of South Pasadena in 2023. Between 2022 and 2024, we have undertaken various rehabilitation and maintenance projects to preserve and enhance the property. However, the sequence of these projects has been adjusted due to the following priorities.

Ensuring the safety and comfort of our guests remains our highest priority. Initially, our parking lot was paved with lattice brick pavers, which had developed numerous holes, posing a significant safety hazard. Given this concern, we prioritized the installation of a new, smooth paver parking lot to create a safer environment. We engaged Keystone Paving company for the work, and the total cost of the project exceeded $100,000. Though it is costly, it significantly improved safety, functionality and aesthetics of the park lot.

Additionally, during the heavy rains of 2023, we experienced roof leaks that affected the comfort of our guests. To address this issue, we initiated a roof repair project, total cost was $9000 to prevent further damage and ensure a comfortable stay for our visitors.

From 2023 to the present, alongside several smaller maintenance projects, the two major completed projects aligned with our Mills Act contract are:

1. Installation of a new parking lot with smooth pavers to improve safety. $100,000
2. Repairing the roof to address leaks caused by heavy rainfall. $9000

Should you require any receipts or documentation related to these improvements, we are happy to provide them upon request.

Please let us know if further information is needed.

Sincerely,

3/31/2025

Janice Lupien

SUMMARY OF COMPLETED WORK

2. Schedule and Reporting System

Project		Completion Year
Incomplete	1. Windows rehabilitation/repairs, all elevations: glazing, wood-frames, surrounds and sills	2023
Complete ✓	2. Residence roof: Re-roofing, to include removal of sheathing; repairs as needed to roof system structure; re-sheathing of roof with composition shingles; repairs and carpentry work to address failing/deteriorated wood rafters, fascia, and framing	2025
TBD	3. Main entrance porch: Repairs/reinforcement of porch supports	2025
	4. Site: geotechnical study to identify plan for site remediation/stabilization	2028
	5. OPTIONAL - Site: repairs/reinforcement of arroyo stone wall and wine cellar	TBD
	6. Maintenance: Termite inspections/mitigation	Biannual inspection
	7. Maintenance: Roof inspections and repairs as needed	Triannual inspection
	8. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Reporting System:

The property owner of the Ezra & Ida Thompson House will provide annual written updates to the City of South Pasadena in the final quarter of the calendar year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance for each project included in these plans. Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input.

MILLS ACT CONTRACT

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
335 MONTEREY ROAD
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 2nd day of December 2020, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Janice Lupien ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 335 Monterey Road, South Pasadena, California, Assessor's Parcel Number 5311-012-010 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is a designated City landmark, Landmark No. 47 – Burwood House, attached hereto marked "Exhibit B". The Burwood House was built in 1910. The architect, Lester S. Moore, is recognized as one of Southern California's earliest noted architects. His career in Los Angeles spanned from 1895 until shortly before his death in 1924. Burwood is the most significant surviving example of Moore's work in South Pasadena. The original five-acre property was on a wooded hillside and is a major contributor to the architectural and historic context of the Monterey Road Neighborhood. Character defining features to the property consist of a wooden cellar door and cooling chamber leading to a retaining wall and into hillside.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2021 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner

1414 Mission Street
South Pasadena, California 91030

Owner: Janice Lupien
335 Monterey Road
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

City Council Resolution for

Historic District Designation

Board and was listed in the local directory as a farmer. Ida was active in the Women's Improvement Association.

Important character-defining features specific to neighborhood context and the original agricultural use of the property include:

- **An extensive system of arroyo stone retaining walls along Monterey Road frontage, up the winding driveway and south of the residence.**
- **Wooden cellar door and cooling chamber (wine cellar/root cellar) leading through retaining wall and into hillside.**

(D.) Its exemplification of a particular architectural style of an era of history of the city;

The Craftsman Style, just beginning to hold sway in local residential development, predominates, although it also evidences Classical influences particularly Greek Revival, that were still popular, particularly in larger homes and public buildings. It is a particularly well-preserved example of this transition from classical to the modern, twentieth century American response to the Arts and Crafts movement now known as Craftsman.

(F). Its identification as the work of a person whose work has influence the heritage of the City and the State of California.

Although little is known about his early life and education, Lester S. Moore, the architect of the 335 Monterey Road property, is recognized as one of Southern California's earliest noted architects. His career in the Los Angeles area spanned the period from about 1895 until shortly before his death in 1924.

An extensive list of Moore's work, abridged in the Tim Gregory's attached house history, indicates the architect's thorough familiarity and experience in a number of styles becoming popular following the turn of the 20th century. Moore first specialized in Mission Revival, then Craftsman, and later in period revival styles that gained acceptance after WWI. He also designed everything from single-family residences and multi-unit apartment houses to all kinds of public buildings. Previous to his work on the Thompson house, Moore had designed a studio residence and art gallery along the Arroyo Seco in South Pasadena for Franz Bischof, one of Southern California's premier *Plein Air* and studio painters. Unfortunately, that very significant structure was demolished years ago and Burwood is the most significant surviving example of Moore's work in South Pasadena.

WHEREAS, the Commission findings included a determination that the Burwood House has an extremely high degree of integrity; and

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 18th day of January, 2006, by the following vote:

AYES: Cacciotti, Margrave, Putnam, Ten and Mayor Stamps

4. Mills Act Work Plan, Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. Windows rehabilitation/repairs, all elevations: glazing, wood-frames, surrounds and sills	$ 65,000	2023
2. Residence roof: Re-roofing, to include removal of sheathing; repairs as needed to roof system structure; re-sheathing of roof with composition shingles; to include carpentry work and repainting of wood framing, roof rafters, and fascia boards	$ 85,000	2025
3. Main entrance porch: Repairs/reinforcement of porch supports	$ 35,000	2025
4. Site: geotechnical study, site stabilization	$ 39,000	2028
5. OPTIONAL - Site: repairs/reinforcement of arroyo stone wall and wine cellar (study only; amount not capitalized in financial analysis)	*$ 45,000*	*TBD*

Total Investment in 335 Monterey Road:	**$ 224,000**
Total Tax Savings for Owners (10-year period)	**$ 224,000**
Average Annual Cost to the City of South Pasadena:	**$ 5,501**

10-Year Work Plan, 335 Monterey Road, South Pasadena

Rehabilitation Treatment Approach: Standards and Guidelines

All work efforts will be guided by the rehabilitation treatment guidelines: (1) Identify, Retain, and Preserve; (2) Stabilize; (3) Protect and Maintain; (4) Repair; (5) Limited, In-Kind Replacement

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
Exterior					
Windows, wood-frames, surrounds and sills	Yes	**Condition:** Good **Repairs:** (1) Rehabilitation of historic windows to include (but not necessarily be limited to): repair of poorly sealing windows and nonoperational hardware; re-weather stripping/re-sealing where needed; and repainting windows and window frames in period-appropriate palette	Windows and their functional and decorative features shall be repaired according to the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Recommended treatment guidelines: 1. Identify, retain, and preserve: "Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building. Such features can include frames, sash, muntins, glazing, sills, heads, hoodmolds, panelled or decorated jambs and moldings, and interior and exterior shutters and blinds. 2. Stabilize: "Stabilizing deteriorated or damaged windows as a preliminary measure, when necessary, prior to undertaking appropriate preservation work." 3. Protect and maintain: "Protecting and maintaining the wood and architectural metals which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems." "Making windows weather tight by re-caulking and replacing or installing weather-stripping. These actions also improve thermal efficiency." 4. Repair: "Repairing window frames and sash by patching, piecing-in, consolidating or otherwise reinforcing them using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment."	2023 Biannual maintenance as needed (2025, 2027, 2029)	$ 65,000 To be completed by contractor with experience in historic preservation

* Unless otherwise noted, all quoted material describing recommended treatment approaches is drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties,* "Rehabilitation Treatment," US Department of the Interior, National Park Service, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance*	Repair/ Maintenance Schedule	Estimated Cost
			"Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building… Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary." 4. Repair: "Repairing, stabilizing, and conserving fragile wood using well-tested consolidants, when appropriate. Repairs should be physically and visually compatible and identifiable upon close inspection for future research. Repairing wood features by patching, piecing-in, or otherwise reinforcing the wood using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment." 5. Limited Replacement in Kind: "Replacing in kind extensively deteriorated or missing parts of wood features when there are surviving prototypes such as brackets, molding, or sections of siding. New work should match the old in material, design, color, and texture; and be unobtrusively dated to guide future research and treatment." Not Recommended: "Replacing an entire wood feature such as a column or stairway when limited replacement of deteriorated and missing parts is appropriate. Using replacement material that does not match the historic wood feature; or failing to properly document the new work."		
Main Entrance Porch, wood columns	Yes	**Condition:** Fair/Poor **Repairs:** Mitigation of termite and dry rot damage to wood	Recommended treatment guidelines: 1. Identify, retain, and preserve: Identifying elements of "entrances and porches--and their functional and decorative features--that are important in defining the overall historic character of the building."	2025 Biannnual termite inspection	$ 35,000 To be completed by contractor with historic preservation experience

PROPERTY ADDRESS:

1016 Orange Grove Avenue

2025 PROGRESS REPORT

2. Schedule and Reporting System

Project	Completion Year
1. Seismic retrofitting of unfastened, stone foundation	2023 INCOMPLETE
2. Repairs/in-kind replacement of wood-framed windows; on back elevation, replacement of non-original aluminum-sliding window with wood-framed window	2023 COMPLETE
3. For roof, repairs to/replacement of damaged roof beam and associated repairs and reinforcement of roof system	2025 INCOMPLETE
4. Repairs/patching or in-kind replacement of wood exterior elements, including horizontal wood siding, vertical planks, wood shingles; resealing and repainting in period-appropriate palette; repairs/carpentry work	2027 COMPLETE
5. Maintenance: Termite inspections/mitigation	Annual inspection
6. Maintenance: Roof inspections and repairs as needed	Triannual inspection
7. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Noncapitalized Projects

1. Relocation of front steps to original location at center of house
   (to be based on documentary evidence and subject to Certificate of Appropriateness)

2. Correcting unpermitted renovations on upper story and updating assessment (previous owner disclosed to the current owner that some upstairs attic space was converted to upstairs bedrooms and living space on an unpermitted basis. No plans are available for any previous work. The current owner intends to submit design plans for approval, make changes to the unpermitted space to comply with building code, and correct the assessment)

3. Replacement/upgrade of antiquated sewer line

Reporting System

The property owner of 1016 Orange Grove Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance for each project included in these plans. Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input.

RE: Mills Act Contract Agreement for
1016 Orange Grove Avenue, South Pasadena, California
(APN: 5315-019-037)

Dear Legal Services Section:

This letter serves to notify the County Assessor's Office that the City of South Pasadena has entered into a Mills Act Contract Agreement with property owner, Michael Klaus, for the property located at 1016 Orange Grove Avenue in the City of South Pasadena.

The Mills Act Contract Agreement was approved by the South Pasadena City Council on October 6, 2021 and will be effective January 1, 2022. The City of South Pasadena requests that the Los Angeles County Assessor's Office accept the enclosed documents for your records and reassess the property at 1016 Orange Grove Avenue, South Pasadena, California (APN: 5315-019-037) as a Mills Act property. The recorded Mills Act Contract Agreement is attached for your review.

If you need additional documentation or confirmation on this matter, please contact me at (626) 403-7227 or via email at mchang@southpasadenaca.gov.

Thank you for your assistance.

Sincerely,

Matt Chang
Planning Manager

MILLS ACT CONTRACT
FOR
THE PROPERTY LOCATED AT
1016 ORANGE GROVE AVENUE
SOUTH PASADENA, CA 91030
COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 21st day of December 2021, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Michael Klaus ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1016 Orange Grove Avenue, South Pasadena, California, Assessor's Parcel Number 5315-019-037 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) The Historic Property is Historic Landmark No. 57 designated on 5/19/2021, resolution attached hereto, marked "Exhibit B". It is known as the "Orange Grove Schoolhouse" and was originally built in 1885 and relocated to the current place in 1908. It represents the early years of South Pasadena's development; it belongs to a very limited stock of surviving civic properties from the 1880s; it is a fine example of the transitional Late Victorian/Craftsman architectural style. Overall, the Orange Grove Schoolhouse is significant by its character, interest and value as a part of the heritage of the community.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on January 1, 2022 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one year for each anniversary date of the Agreement unless otherwise specified herein.

3. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

4. STANDARDS FOR HISTORIC PROPERTY.

a. Owner shall rehabilitate, preserve and maintain the historically significant characteristics of the Historic Property. Attached hereto, marked as Exhibit "C" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which shall apply to such property throughout the term of this agreement. Owner shall obtain approval from the Chair of the Cultural Heritage Commission prior to start of work of said items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historic Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as Exhibit "D".

5. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(v), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

6. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the County Assessor, State Office of Historic Preservation, State Board of Equalization, and the City, as may be necessary to determine Owners' compliance with the terms and conditions of this agreement.

7. PROVISION OF COMPLIANCE INFORMATION. The owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the owner shall agree to provide to the City on the third anniversary date of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

8. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the owner or the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

9. BINDING EFFECT OF CONTRACT. This Agreement shall be binding on all successors-in interest of the owner to the benefits and burdens of this Agreement. The contract shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

In the event of a breach by Owner under the provisions of this agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach.

Should owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Michael Klaus
1016 Orange Grove Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner

agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

City Council Resolution for

Historic Landmark Designation

DocuSign Envelope ID: 1F91016E-0548-4641-B492-0058D4206494

CITY OF SOUTH PASADENA
RESOLUTION NO. 7719

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING 1016 ORANGE GROVE AVENUE, KNOWN AS THE ORANGE GROVE SCHOOLHOUSE (LANDMARK NO. 57)

WHEREAS, Section 2.62 of the South Pasadena Municipal Code, Ordinance No. 2315 ("Cultural Heritage Ordinance") authorizes the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, on November 23, 2020, the Planning Division received a Landmark nomination report and request from the property owner's representative, Debi Howell-Ardila or the house located at 1016 Orange Grove Avenue, known as "Orange Grove Schoolhouse" (Assessor's Parcel Number 5315-019-037); and

WHEREAS, on February 18, 2021, at the regularly scheduled Commission meeting, the Commission reviewed the request of Landmark designation and appointed the Landmark Subcommittee ("Subcommittee") of two Commission members; and

WHEREAS, on February 25, 2021, the Subcommittee conducted a virtual site meeting with the homeowners to tour the property; and

WHEREAS, on March 31, 2021, the Subcommittee formalized their findings and notified staff of their request to carry the Landmark nomination to the full Commission for the Commission's formal vote on the recommendation to City Council for designation; and

WHEREAS, on April 15, 2021, the Commission formalized their recommendation to the City Council for designation of the Orange Grove Schoolhouse as a Historic Landmark by a vote of 4-0-1, one member absent; and

WHEREAS, on May 19, 2021, the City Council of South Pasadena held duly noticed regularly scheduled meeting to provide a public hearing and received public testimony on the proposed Landmark Designation of the Orange Grove Schoolhouse located at 1016 Orange Grove Avenue.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. ENVIRONMENTAL REVIEW FINDINGS

The City Council has determined that the proposed project is Categorically Exempt from the provisions of the California Environmental Quality Act (CEQA), under the "common sense

DocuSign Envelope ID: 1F91016E-0548-4641-B492-0058D4206494

exemption," Section 15016(b)(3), which states that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be understood with certainty that there is no possibility that the designation of a historic landmark could have a significant effect on the environment, and therefore, is not subject to CEQA.

SECTION 2. DESIGNATION OF HISTORIC LANDMARK FINDINGS

Based on the evidence presented at the public hearing, on the evidence contained in the City Council staff report, the Cultural Heritage Commission staff report and associated attachments, and other records of proceedings, the City Council considered the applicable designation criteria contained in the Cultural Heritage Ordinance and makes the following findings, pursuant to SPMC Section 2.63(a)(2) for designation of the Orange Grove Schoolhouse located at 1016 Orange Grove Avenue:

(A) That the designation of landmark or historic district is consistent with one or more of the purposes set forth in SPMC 2.58B; and

The designation of 1016 Orange Grove Avenue as the Historic Landmark is consistent with the purpose of the Cultural Heritage Ordinance for identification, protection, enhancement, and preservation of structures, sites, and areas that represent the City's heritage and character. As the Cultural Heritage Commission report states, the Orange Grove Schoolhouse represents one of the very few remaining city's civic buildings from the founding years. Over years, it had multiple uses and location such as its intended use as a school, an orphanage, a duplex, and a single family residence. Thus, the designation of the proposed Historic Landmark will help promote the City's sense of place as it will preserve, maintain, and safeguard the City's heritage and character, will reflect the phases of the City's history, and will foster pride in the ownership of the City's historic resources.

(B) That the landmark or historic district meets one or more of the criteria for designation listed in subsection (b) of this section; and

The proposed Historic Landmark qualifies for designation under Criterion (1), *"Its character, interest or value as a part of the heritage of the community."* When the Orange Grove Schoolhouse was constructed in 1885, South Pasadena's School district was less than 10 years old. When the City of South Pasadena incorporated in 1888, the population was approximately 500. Two years later, the population had doubled in size. As stated in the Cultural Heritage Commission report, the Schoolhouse provided multiple uses for the city as it continued to grow. It served early settlers and families as a school as well as a gathering place for community events and meetings.

The lot currently occupied by the Orange Grove Schoolhouse originally formed part of the holdings of the San Gabriel Orange Growers Association. In 1906, the land was subdivided and platted as the McCament Tract, with narrow, residential-sized lots. Shortly after, four of these lots were joined for use by the South Pasadena School District, allowing the final relocation of the Schoolhouse for the use of the Boy's and Girl's Aid Society. Although the city continued to expand, the Orange Grove Schoolhouse remained one of South Pasadena's very few institutional

DocuSign Envelope ID: 1F91016E-0548-4641-B492-0058D4206494

properties.

(C) That the landmark or historic district possesses historic integrity of location, design, setting, materials, workmanship, feeling, or association.

The proposed Historic Landmark possesses historic integrity of location, design, setting, materials, workmanship, and feeling. The Orange Grove Schoolhouse style elements represent transition from the Late Victorian to Craftsman style and can be clearly identified in the building. The building has a high-pitched hipped roof with clipped gable ends and shallow boxed eaves. The walls are clad with horizontal wood shiplap siding with wood corner-boards and coursed wood shingles in gable apexes. A partial length porch elevated on a wood staircase, with a shallow hipped roof with a clipped gable, simple wood posts, and low wood railing, adorns the front elevation. Single and paired wood windows with attenuated window frames are seen throughout all elevations. Underneath the windows and the porch, the façade is sheathed with vertical wood plank siding and diamond patterned wood screens. As decades passed, different uses required very minor alterations such as the removal of the school bell and Late Victorian-style roof tower, reconfiguration of primary entrance, and changes to some windows and doors. However, the extant building retains historic integrity and a majority of its character-defining features. Thus, the home is an excellent representative of the Late Victorian and Craftsman architectural style that clearly reflects the original use and design.

SECTION 3. ADDITIONAL FINDINGS FOR HISTORIC LANDMARK

In addition to the findings in Section 2 above, the City Council also makes the findings as required for designation of historic landmark pursuant to SPMC Section 2.63(a), based upon the recommendation of the Cultural Heritage Commission, that the proposed Historic Landmark qualifies for designation under criterion (1) of SPMC Section 2.63(b):

1. Its character, interest or value as a part of the heritage of the community;

The Orange Grove Schoolhouse was originally constructed in 1885 and was designed by architects Clinton B. Ripley and Harry Ridgeway. It represents the transitional Late Victorian/Craftsman style that both were common in South Pasadena at the time it was constructed. The building was originally located on El Centro and Fairview Avenue, and was moved to El Centro Street and Pasadena Avenue (to the site of present-day Arroyo Vista Elementary School, then known as Lincoln Park School) in 1888. The Schoolhouse is a direct representation of the City's growing need for public facilities in the 1880s as the city expanded, it was simultaneously used for town meetings, church services and social gatherings. The building was used by the Boy's and Girl's Aid Society since 1908, when it was relocated to its current location, until 1918, when it was converted into residential use. As stated in the report, the Orange Grove Schoolhouse is a representation of the very few surviving civic properties from the 1880s period in South Pasadena.

DocuSign Envelope ID: 1F91016E-0548-4641-B492-0058D4206494

SECTION 4. RECORD OF PROCEEDING

The documents and other materials that constitute the record of the proceedings upon which the City Council's decision is based, which include, but are not limited to, the staff reports, as well as all materials that support the staff reports for the proposed designation, are located in the Planning and Building Department of the City of South Pasadena at 1414 Mission Street, South Pasadena, CA 91030. The custodian of these documents is the City Clerk of the City of South Pasadena.

SECTION 5. DETERMINATION

Based on the evidence presented in the staff report, testimony received during the public hearing, minutes, other records of proceeding, and its findings herein, the City Council hereby approves the designation of 1016 Orange Grove Avenue, known as the Orange Grove Schoolhouse, as official Historic Landmark Number 57.

SECTION 6. CERTIFICATION OF THE RESOLUTION

The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

SECTION 7. FILING WITH THE COUNTY CLERK

The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 19th day of May 2021.

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

Constructed in circa 1885, the Orange Grove Schoolhouse is a transitional Late Victorian/Craftsman style property originally used as one of South Pasadena's earliest public schoolhouses. This early institutional use is clearly reflected in the scale, setback, and character of the property. Roughly square in plan, the Orange Grove Schoolhouse is 1 1/2 stories in height and elevated on a concrete foundation. The building is capped with a prominent, relatively high-pitched, hipped roof with ridge line. Below the boxed roof eaves is a continuous band of thin, vertical wood planks. The exterior displays wood shiplap siding with simple wood corner-posts.

In terms of the property's Late Victorian-style elements, the mass and scale of the property, its high-pitched roof form, the roofline treatment (e.g., the use of shallow, boxed eaves instead of wide, sheltering eaves with extended rafter tails), along with attenuated window-frames and shapes, point to its late nineteenth-century date of construction. (In contrast, the Craftsman style emphasized the horizontal axis through low pitched roof, wide eaves with rafter tails, and more prominent window framing and treatment. The incorporation of wood horizontal siding and simple wood porch supports and features, reflect the Craftsman era of design.) (See Continuation Sheet, p. 3)

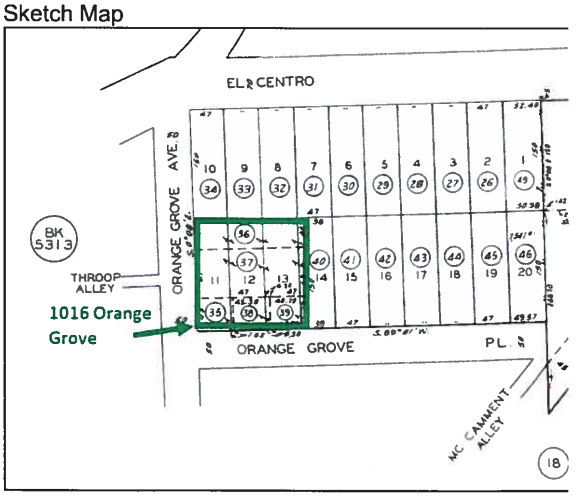
B3. Original Use: *Public schoolhouse* B4. Present Use: *Single-family Residence*
***B5. Architectural Style:** *Transitional Late Victorian-Craftsman style*
***B6. Construction History:** (Construction date, alterations, and date of alterations): *Constructed circa 1885*
Due to its early date of construction, a limited number of building permits are available for this property. According to available secondary sources and visual observation, the property was constructed in circa 1885. The building was originally located on El Centro (originally Center) Street and Fairview (originally Oak Hill) Avenue and relocated on two occasions: first, in circa 1888, to the site of present-day Arroyo Vista Elementary School (then known as Lincoln Park School), then to its present location in 1908. While the property does not occupy its original location, the character, setting, and feeling of its present setting are compatible with and similar to the original location on El Centro Street. Alterations include: interior remodel (including lowering ceilings from 12 to 10 feet) (date unknown); conversion of schoolhouse to use as a duplex and single-family residence (circa 1918); reconfiguration of primary entrance (prior to conversion of the schoolhouse to residential use, the entrance stairs were roughly centered on the façade rather than located on the north side; date unknown); removal of a Late Victorian-style roof tower and some ornamentation on the gables (date unknown); changes to window/door openings on front and rear elevation (date unknown); installation of aluminum-frame windows and a secondary entrance on rear elevation (date unknown)

***B7. Moved?** ☐No ■Yes ☐Unknown **Date:**_____ **Original Location:** *El Centro (Center) and Fairview (Oak Hill)*
***B8. Related Features:** None



B9a. Architect/Builder: *Ripley & Ridgeway* b. Builder: *Ripley & Ridgeway*
***B10. Significance: Context/Theme:** *"Town Settlement & Late 19th Century Development"* **Area:** *Institutional Dev.*
Period of Significance: *1885-1918* **Property Type:** *Single-family Residence* **Applicable Criteria:** *Landmark Criterion 1*
(Discuss importance in terms of historical or architectural context as defined by theme, period, and geographic scope. Also address integrity)

The Orange Grove Schoolhouse is eligible for local Criterion 1 of the South Pasadena Cultural Heritage Ordinance. As a rare, surviving example of one of South Pasadena's first schoolhouses, from the City's founding years, 1016 Orange Grove Avenue has significant value and interest as part of the heritage of South Pasadena. Some alterations have been made over time, as the schoolhouse was converted to residential use in 1918. However, the extant building retains historic integrity and a majority of its character-defining features, including the large-scale lot, mass and scale, high/medium-pitched hipped and clipped gable roof, and attenuated window shapes/sizes reflecting the original institutional use and the transitional Late Victorian/Craftsman style.

***P3a. Description (continued):**

On the west elevation, the primary façade features a partial-length porch, elevated on a wood staircase. The concrete porch is capped with a shallow hipped roof and projecting, clipped-gable wing on the south. Vertical wood planks, with a dark wood-colored stain, face the porch ceiling. Simple wood bargeboards trim the gable of the projecting wing; a simple square vent pierces the gable apex. The gable is faced with wood shingles. The porch roof rests on simple wood porch supports and beams. A low, wood-post railing frames the porch and entrance stairs.

The entrance consists of a simple wood door set in a wood frame. The entrance is flanked by paired wood-frame, one-over-one double-hung windows as well as two-over-two, wood-frame, double-hung lights. The window shape, as noted previously, is attenuated, with thin wood mullions dividing the lights. Below the front porch, vertical wood-plank siding, with diamond-patterned screens enclosed with wood frames, sheathes the elevated foundation of the property.

The side elevations (on the north and south) continue the materials and design of the façade, with a slightly projecting wing framed by corner-boards. Fenestration on the side elevations consists primarily of one-over-one wood-framed windows set in simple wood surrounds. As on the façade's projecting wing, the gable apex is faced with coursed wood shingles. Below the windows, walls are sheathed in vertical wood facing, accented with diamond-patterned wood planks.

Located along the northern elevation, a concrete driveway leads to a concrete-clad parking lot. The rear elevation continues the design of the façade, with walls primarily sheathed in shiplap wood siding, accented with wood corner-boards. Fenestration varies on this elevation, with a bank of attenuated, wood-framed windows along the southern portion of the elevation and some nonoriginal aluminum-frame sliders and lights. A raised back porch, framed with a simple wood-post railing, and secondary entrance are located on the back elevation. On the second story, the clipped gable apex displays a non-original wood-frame window. The basement is accessed via several concrete stairs on the rear elevation.

From the sidewalk, the property is accessed via a concrete walkway bisecting the lawn. Mature trees, including several palm trees in the rear parking lot, enhance the property. A small non-original sheltered trellis and table, with brick post supports and accents, are located in the southeastern corner of the property. Alterations to the property include a non-original garage door and tile paving of a portion of the entry path. In good repair, the residence is otherwise highly intact and enhanced by mature trees and landscaping.

Appendix D: Mills Act Work Plan Matrix

1. Project Background

This Mills Act Historic Property Contract application is for the single-family residence at 1016 Orange Grove Avenue, South Pasadena (APN 5315-019-037). Constructed in circa 1885, 1016 Orange Grove Avenue is a transitional Late Victorian/Craftsman-style property constructed as one of South Pasadena's earliest public schoolhouses.

This early institutional use is still reflected in the property's scale/mass, setbacks, and overall character. Originally located on El Centro and Fairview Avenue, the small schoolhouse was moved to its current location in 1908.

The property has been in residential use since 1918.

According to South Pasadena historian Jane Apostol and documents on file with the South Pasadena Public Library History Room, the Orange Grove Schoolhouse was designed by Ripley and Ridgeway for a cost of $1,550.[1] The schoolhouse was used "not only for classes, but for town meetings, church services, and social gatherings. Soon after South Pasadena incorporated in 1888, voters passed bond issues to enlarge the Center Street schoolgrounds and put up a more substantial building."[2]

In 1908, following another bond measure for school construction, the Orange Grove Schoolhouse was moved to its present location, at 1016 Orange Grove Avenue, to serve as the Boys' and Girls' Aid Society.

The Orange Grove Schoolhouse is included in the California State Historic Resources Inventory with a "5S2" California Historic Resources Status Code (individually eligible for local listing through Section 106 SHPO concurrence) and the South Pasadena Inventory of Cultural Resources: with "5S3" California Historic Resources Status Code ("appears individually eligible for local listing through survey").

In late 2020, the property owner, Michael Klaus, with the help of local preservation specialist Debi Howell-Ardila, MHP, prepared a landmark nomination for the property for designation on the South Pasadena Register of Landmarks. The nomination is being considered by the Cultural Heritage Commission in tandem with this application.

In summary, as one of South Pasadena's earliest schoolhouses, the Orange Grove Schoolhouse represents the City's early growth and expansion in the founding years of the 1880s. In this era, settlement grew rapidly; when this property was constructed in 1885, it served not only as a schoolhouse but also as a civic space for gatherings and meetings. South Pasadena retains very few civic/institutional properties from the City's founding years. As such, 1016 Orange Grove Avenue represents one of South Pasadena's earliest and most intact 19th-century institutional properties.

[1] Information and research assistance on the property's history as the Orange Grove Schoolhouse was provided by Ms. Olivia Radbill, City of South Pasadena Public Library, Local History Collection.

[2] Apostol, Jane. 1987. "South Pasadena: A Centennial History" (South Pasadena Public Library).

As established in South Pasadena's *Citywide Historic Context Statement*, the Orange Grove Schoolhouse fits within the context, "Town Settlement and Late 19th Century Development (1870-1899)," under the theme of Institutional Development.

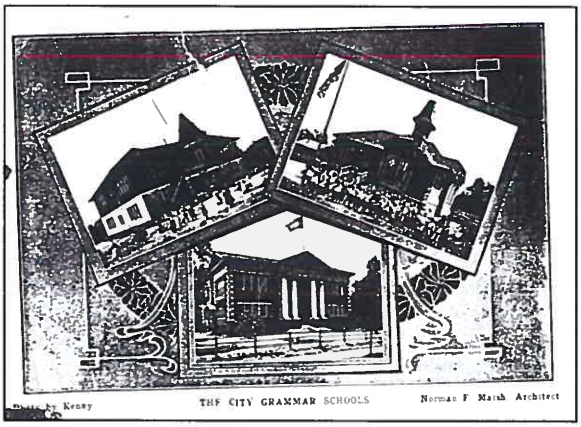
As described in the context statement, properties eligible under the context of Town Settlement and Late 19th Century Development:

> represent early resources in the City's history that are associated with post-rancho settlement and the establishment of South Pasadena as a City. Resources eligible under this context may include buildings (residential, commercial, and industrial), along with landscape features and parks. There may also be remnant features such as retaining walls and outbuildings that have important associations with a building or site that is no longer extant.[3]

Given the rarity of properties reflecting this era in the City's history, eligibility standards and integrity thresholds established in the *Citywide Historic Context Statement* allow for a higher degree of alteration and relocation. As noted in the study's section on integrity considerations:

> Properties from this period are rare and represent some of the earliest development in South Pasadena; therefore, a greater degree of alteration may be acceptable. ... Due to the importance and rarity of resources from this period, a property may remain eligible if it has been relocated. In general, relocated properties should retain their orientation and relationship to the street, along with sufficient architectural features to convey their significance.[4]

The Orange Grove Schoolhouse meets all of the eligibility standards included in the *Citywide Historic Context Statement* for eligibility under this context and theme.



In January 2021, the property owner filed a Letter of Intent to apply for the Mills Act. In February 2021, the Letter of Intent was discussed by the Cultural Heritage Commission (CHC) and subcommittee members, Chair Rebecca Thompson and Vice Chair Mark Gallatin, attended a remote site visit to tour the property and inspect the proposed Mills Act workplan items.

With the Orange Grove Schoolhouse over 135 years old, a number of critical preservation/rehabilitation and repair projects are needed for the property. The Mills Act property tax abatement would help the owner complete these projects and ensure the long-term preservation of this important property. The proposed Mills Act workplan priorities are:

1. Seismic retrofitting of stone foundation;
2. For roof, repairs to/replacement of damaged roof beam/sagging roof line and associated repairs and reinforcement of roof system;
3. Repairs/in-kind replacement (where needed) of original wood-framed windows; on back elevation, replacement of non-original aluminum-sliding windows with wood-framed windows
4. For exterior of house, repairs/refinishing of varied, distinctive wood features, including horizontal wood siding, vertical planks at the foundation and banding below roof-wall juncture, and wood shingles in gable apexes.

[3] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 82.
[4] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 86.

This application reflects all feedback and suggestions provided by the CHC to date, as well as all additional materials required by the City. Section 2 provides an overview of the application schedule and reporting system; Sections 3 and 4 present the Description of Work Plan and Priorities and the Financial Analysis.

Appendices include photographs (Appendix A), the original Letter of Intent (Appendix B), and documentation for the financial analysis (Appendix C). In addition, for ease of review by the City and CHC members, and for ease of use by the property owners as they begin implementing the plans, Appendix D provides an overview matrix showing all Mills Act workplan items, their status as character-defining features, recommended treatment approach, proposed schedule, and cost estimates.

As the owner of a distinctive and unique historic property, Mr. Klaus understands the importance of ensuring that all repair, maintenance and rehabilitation projects follow the City guidelines and the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Each project, as well as the corresponding Standards-compliant treatment approach, is described in more detail in this application.

2. Schedule and Reporting System

Project	Completion Year
1. Seismic retrofitting of unfastened, stone foundation	2023
2. Repairs/in-kind replacement of wood-framed windows; on back elevation, replacement of non-original aluminum-sliding window with wood-framed window	2023
3. For roof, repairs to/replacement of damaged roof beam and associated repairs and reinforcement of roof system	2025
4. Repairs/patching or in-kind replacement of wood exterior elements, including horizontal wood siding, vertical planks, wood shingles; resealing and repainting in period-appropriate palette; repairs/carpentry work	2027
5. Maintenance: Termite inspections/mitigation	Annual inspection
6. Maintenance: Roof inspections and repairs as needed	Triannual inspection
7. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Noncapitalized Projects

1. Relocation of front steps to original location at center of house (to be based on documentary evidence and subject to Certificate of Appropriateness)

2. Correcting unpermitted renovations on upper story and updating assessment (previous owner disclosed to the current owner that some upstairs attic space was converted to upstairs bedrooms and living space on an unpermitted basis. No plans are available for any previous work. The current owner intends to submit design plans for approval, make changes to the unpermitted space to comply with building code, and correct the assessment)

3. Replacement/upgrade of antiquated sewer line

Reporting System

The property owner of 1016 Orange Grove Avenue will provide annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance for each project included in these plans. Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input.

3. Description of Work Plan and Priorities

Work efforts described in these plans will comply with the *Secretary of the Interior's Standards for the Treatment of Historic Properties*.

Proposed Project & Description	Est. Cost	Priority
1. Structural Retrofitting	$65,000	High

The house will be structurally retrofitted according to industry standards and applicable building codes. A qualified contractor will reinforce elements in need of stabilization; stabilize and re-create positive base for unfastened structural posts.

Overview of basement and stream-rock structural foundation, existing conditions

Section 3 Description of Work Plan and Priorities (continued)

Proposed Project & Description	Est. Cost	Priority
2. Roof system repairs/beam repairs	$45,000	High

On the rear elevation, the roof line, to the right of the ridge line, shows signs of sagging. Repairs include evaluating structure of roof system and beams and making repairs and structural reinforcement where needed. Work will be planned to avoid any character-defining features. Should any character-defining features—such as details of roof eaves, fascia boards, or roof shape/form—be removed, destroyed, or obstructed in the repairs, those features will be replaced in-kind to match existing in appearance.

Secretary's Standards treatment approach for changes to roof include: identify, retain, and preserve "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas...chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning."

Overview of roof shape/form on rear elevation, existing conditions and repair issues; the area of sagging as shown on the exterior and interior appears in the lower left and right, respectively

Section 3 Description of Work Plan and Priorities (continued)

Proposed Project & Description	Est. Cost	Priority
3. Exterior walls, wood features and elements	$75,000	Med/Low

The exterior includes a variety of character-defining wood features, including horizontal wood siding, vertical plank foundation sheathing, vertical plank banding, wood shingles in gable apexes, and wood framing and applied ornament. Some of the wood features are in need of repairs, carpentry work, and/or in-kind replacement and repainting. Some junctures between wood planks, in particular at house corners and near service boxes, show signs of deterioration. If needed, unstable wood planks will be re-fastened in an unobtrusive fashion and patched to match existing in all aspects of appearance. If necessary, any replacement of wood siding will be in-kind to match existing in materials, appearance/patterning, finishes/texture, and size/profile. Paint color to either match existing or reflect a period-appropriate palette.

Treatment approach will include the gentlest methods possible—**contractors will not use power-washing or machine sanding** for any character-defining features. Cracked and peeling paint to be removed with Peel Away, lightly hand-sanded, primed, and set with two coats of paint.

Overview of exterior wall wood features and elements, existing conditions and repair issues

Section 3 Description of Work Plan and Priorities (continued)

Proposed Project & Description	Est. Cost	Priority
4. Window repairs/rehabilitation	$ 25,000	Low

Rehabilitation of historic windows to include (but not necessarily be limited to): repair of cracked/broken glazing; repair of non-operational double-hung windows, including replacement of missing sash cords where needed; re-weathering stripping/re-sealing where needed; window frames, surrounds and sills will be prepped and repainted in a period-appropriate palette.

Replacement of nonoriginal aluminum-frame window screens with wood-frame screens on east elevation.

Treatment approach will include the gentlest methods possible, for window removal, glazing repairs, and repainting—**contractors will not use power-washing or machine sanding** for any character-defining features. Gentlest means possible, including hand-sanding, will be used in prepping for repainting of the exterior. Work will be planned and directed by a contractor with experience in historic preservation.

Overview of original, wood-frame windows and wood (and aluminum) screens

4. Mills Act Work Plan, Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. Structural Retrofitting	$65,000	2023
2. Window rehabilitation; replacement of non-original aluminum frame windows	$25,000	2023
3. Roof system repairs/roof beam reinforcement and repairs	$45,000	2025
4. Exterior wood features (horizontal wood siding, vertical plank sheathing and banding, wood shingles and molding)	$75,000	2027
Total Investment in 1016 Orange Grove Avenue:	**$ 210,000**	
Total Tax Savings for Owners (10-year period)	**$ 126,000**	
Average Annual Cost to the City of South Pasadena:	**$ 3,287**

Re: Mills Act Letter of Intent – 1016 Orange Grove Avenue

Dear Cultural Heritage Commission:

I am writing to express my interest in applying for the Mills Act for my home at 1016 Orange Grove Avenue, South Pasadena. The home is one of South Pasadena's original schoolhouses, and I am separately seeking a landmark designation for the home.

I purchased the home in August and have begun making a number of necessary repairs, some anticipated and many unanticipated (such as recent costly rodent proofing and plumbing repairs, following termite fumigation and wood repairs at the end of August). In my excitement to move to South Pasadena and become part of this community, I underestimated the extent of maintenance issues ahead of me on a 110-year old house, and support with the Mills Act would go a long way in ensuring that I can undertake all the projects that are needed to make the home safe for living and preserve an important part of South Pasadena's history.

As an example, one immediate project, which I have discussed with Nott & Associates, is retrofitting of the foundation. The current foundation is made of original stone masonry and lacks proper bracing and anchoring, and I would like to complete a proper seismic retrofitting to protect the architectural integrity of the house and minimize any further settlement. Other necessary upgrades include repairs to the exterior siding, replacement and repairs of the windows and repair or replacement of a roof beam.

Over time, I also plan to replace the fence in the front yard and improve the landscaping to retain the character and charm of this historic property.

Should the Cultural Heritage Commission approve my request to move forward with a Mills Act application, I would welcome the opportunity to show you the home and provide more information on the tasks that I have in mind for inclusion in the application.

Sincerely,

Michael Klaus

Michael Klaus

Mills Act Work Plan Matrix

10-Year Work Plan, 1016 Orange Grove Avenue, South Pasadena

Rehabilitation Treatment Approach: Standards and Guidelines*

All work efforts will be guided by the rehabilitation treatment guidelines: (1) Identify, Retain, and Preserve; (2) Stabilize; (3) Protect and Maintain; (4) Repair; (5) Limited, In-Kind Replacement

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance	Repair/ Maintenance Schedule	Estimated Cost
1. Structural Retrofitting (house is not currently structurally retrofitted)	No	**Condition:** Fair **Repairs:** *Reinforce elements in need of stabilization; stabilize and re-create positive base for unfastened structural posts	Recommended rehabilitation treatment guidelines: Repair according to industry standards and applicable building codes	2023	$65,000
2. Windows	Yes	**Condition:** Good (isolated repairs needed) **Repairs:** (1) Rehabilitation of historic windows to include (but not necessarily be limited to): repair of cracked/broken glazing; repair of non-operational double-hung windows, including replacement of missing sash cords where needed; re-weathering stripping/re-sealing where needed; and repainting windows and window frames in period-appropriate palette (2) Removal of nonoriginal aluminum-frame window screens with wood-frame screens along north elevation	Windows and their functional and decorative features shall be repaired according to the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Recommended treatment guidelines: 1. Identify, retain, and preserve: "Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building. Such features can include frames, sash, muntins, glazing, sills, heads, hoodmolds, panelled or decorated jambs and moldings, and interior and exterior shutters and blinds. 2. Stabilize: "Stabilizing deteriorated or damaged windows as a preliminary measure, when necessary, prior to undertaking appropriate preservation work." 3. Protect and maintain: "Protecting and maintaining the wood and architectural metals which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint	2023	$ 25,000 To be completed by contractor with experience in historic preservation

* Unless otherwise noted, all quoted material describing recommended treatment approaches is drawn from the *Secretary of the Interior's Standards for the Treatment of Historic Properties,* "Rehabilitation Treatment," US Department of the Interior, National Park Service, Washington, DC. Available at: http://www.nps.gov/history/hps/tps/standguide.

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance[1]	Repair/ Maintenance Schedule	Estimated Cost
			removal, and re-application of protective coating systems." "Making windows weather tight by re-caulking and replacing or installing weather-stripping. These actions also improve thermal efficiency." 4. Repair: "Repairing window frames and sash by patching, piecing-in, consolidating or otherwise reinforcing them using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment." 5. Limited Replacement In-Kind: "Replacing in kind extensively deteriorated or missing parts of windows when there are surviving prototypes such as frames, sash, sills, glazing, and hoodmolds. The new work should match the old in material, design, color, and texture; and be unobtrusively dated to guide future research and treatment."		
3. Roof System Repairs	Yes (configuration, pitch, original ornamental details where extant); sheathed in nonoriginal composition shingles	**Condition:** Overall good (with some sagging in the rear elevation right of the ridge line) **Repairs:** *Reinforce & repair roof system where needed, with focus on rear-elevation beam and sagging areas of the roofline; any adjacent roof features or elements will be repaired/replaced in kind where needed following repairs to roof system	Recommended rehabilitation treatment guidelines: 1. Identify, retain, preserve: Identify "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas...chimneys, & weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning." 2. Repair: "Repairing a roof by reinforcing the historic materials which comprise roof features. Repairs will also generally include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features when there are surviving prototypes." 3. Replace: "Replacing in kind an entire feature of the roof that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. Examples can include a large section of roofing, or a dormer or chimney. If using the same kind of material is not technically or economically feasible, then a compatible substitute material may be considered."	2025	$45,000 To be completed by contractor with experience in historic preservation

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance	Repair/ Maintenance Schedule	Estimated Cost
4. Exterior wood features (horizontal wood siding, vertical plank foundation sheathing and banding, wood shingles in gable apexes, wood molding ornament)	Yes	**Condition:** Good/Fair **Repairs:** Repairs/patching or in-kind replacement of areas of damaged and deteriorated wood siding; resealing and repainting in period-appropriate palette	The exterior wood sheathing of the building will be repaired as necessary and repainted, according to the *Secretary's Standards*. Recommended rehabilitation treatment guidelines: 1. Identify, retain, and preserve: "Identifying, retaining/preserving wood features that are important in defining the historic character of the building such as siding, cornices, brackets, window architraves, and doorway pediments; and their paints, finishes, and colors." 2. Stabilize: "Stabilizing deteriorated or damaged wood as a preliminary measure, when necessary, prior to undertaking appropriate preservation work." 3. Protect and Maintain: "Retaining coatings such as paint that help protect the wood from moisture and ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings. Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required. Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting. Applying compatible paint coating systems following proper surface preparation. Repainting with colors that are appropriate to the historic building... Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary." 4. Repair: "Repairing, stabilizing, and conserving fragile wood using well-tested consolidants, when appropriate. Repairs should be physically and visually compatible and identifiable upon close inspection for future research. Repairing wood features by patching, piecing-in, or otherwise reinforcing the wood using recognized preservation methods. The new work should be unobtrusively dated to guide future research and treatment."	2027	$ 75,000 To be completed by contractor with experience in historic preservation

Feature / Issue	Character-Defining?	Condition / Repair	Recommended Treatment / Standards Compliance	Repair/ Maintenance Schedule	Estimated Cost
			5. Limited Replacement in Kind: "Replacing in kind extensively deteriorated or missing parts of wood features when there are surviving prototypes such as brackets, molding, or sections of siding. New work should match the old in material, design, color, and texture; and be unobtrusively dated to guide future research and treatment." Not Recommended: "Replacing an entire wood feature such as a column or stairway when limited replacement of deteriorated and missing parts is appropriate. Using replacement material that does not match the historic wood feature; or failing to properly document the new work."		

Exhibit "D"

Standards of Rehabilitation

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

TITLE(S)

MILLS ACT CONTRACT

THIS MILLS ACT CONTRACT ("Agreement") is made and entered into this 6th day of November 2024, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Girvigian MR & Bauman K Trust ("Owner").

RECITALS

(i) California Government Code Section 50280 et seq., authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 203 Oaklawn Avenue, South Pasadena, California, Assessor's Parcel Number 5317-014-015 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) As set forth in South Pasadena Municipal Code Section 2.68(b)(1)(B), the Historic Property is a contributor to the Oaklawn Historic District. The Oaklawn Historic District represents upper middle-class tract development that occurred throughout Southern California during the early decades of the 20th century. The district's architectural character is a mixture of Craftsman, Colonial Revival, Tudor Revival, and English Revival styles. Several residences also exhibit characteristics of Mediterranean, Mission Revival, and Prairie styles;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of

Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code and to carry out the purposes of Article 12 (commencing with Section 50280) of Chapter 1, Part 1, of Division 1 of Title 5 of the California Government Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on November 6, 2024 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one (1) year for each anniversary date of the Agreement unless otherwise specified herein.

3. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the Owner of the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

4. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

5. STANDARDS FOR HISTORIC PROPERTY. During the term of this Agreement, the Historic Property shall be subject to the following conditions, requirements, and restrictions:

a. Owner shall rehabilitate, preserve and maintain the historically significant Characteristics of the Historic Property. Attached hereto, marked as "Exhibit B" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which Owner shall carry out shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the applicable provisions of the South Pasadena Municipal Code (See, Article IVH of the South Pasadena Municipal Code) and shall obtain any applicable permits necessary to protect, preserve, restore and rehabilitate the Historic Property so as to maintain its historical significance.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the City, the State Office of Historic Preservation of the Department of Parks and Recreation, the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historical Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as "Exhibit C".

6. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(vi), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or

initiated before the Contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

7. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the County of Los Angeles Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this Agreement.

8. PROVISION OF COMPLIANCE INFORMATION. The Owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the Owner shall agree to provide to the City on the third year of the term of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

9. BINDING EFFECT OF AGREEMENT. This Agreement shall be binding on all successors-in interest of the Owner to the benefits and burdens of this Agreement. The Agreement shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 et seq., may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 4 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 et seq., described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement. In the event of a breach by Owner under the provisions of this Agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this Agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach. Should Owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this Agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this Agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property. Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument. City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Community Development Director
1414 Mission Street

South Pasadena, California 91030

Owner: Girvigian M R & Bauman K Trust
c/o Michael Raymond Girvigian, Trustee
203 Oaklawn Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and/or maintenance of the Historic Property and/or Owner's activities in connection with the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property. This indemnification includes, without limitation, the payment of all penalties, fines, judgments, awards, attorney's fees and related costs or expenses, and the reimbursement of legal expenses and costs incurred by the City, its elected officials, employees or agendas. Owner's obligation to indemnify shall survive the termination, cancellation or expiration of this Agreement.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever. A successor in interest shall have the same rights and obligations under the Agreement as the original owner who entered into the Agreement.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent

preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California. Venue shall be in Los Angeles County.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will prevent the portion of land condemned or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, if the City Council determines that the condemnation or acquisition frustrates the purpose of this Agreement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be canceled and this Agreement shall be deemed null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition. In such event, no cancellation fee is imposed as set forth in Government Code Section 50286. If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to this Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than twenty (20) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, by a written instrument executed by the parties that is thereafter recorded in the Office of the County Recorder of the County of Los Angeles.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within 180 days of entering into this Agreement.

[SIGNATURES ON NEXT PAGE]

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

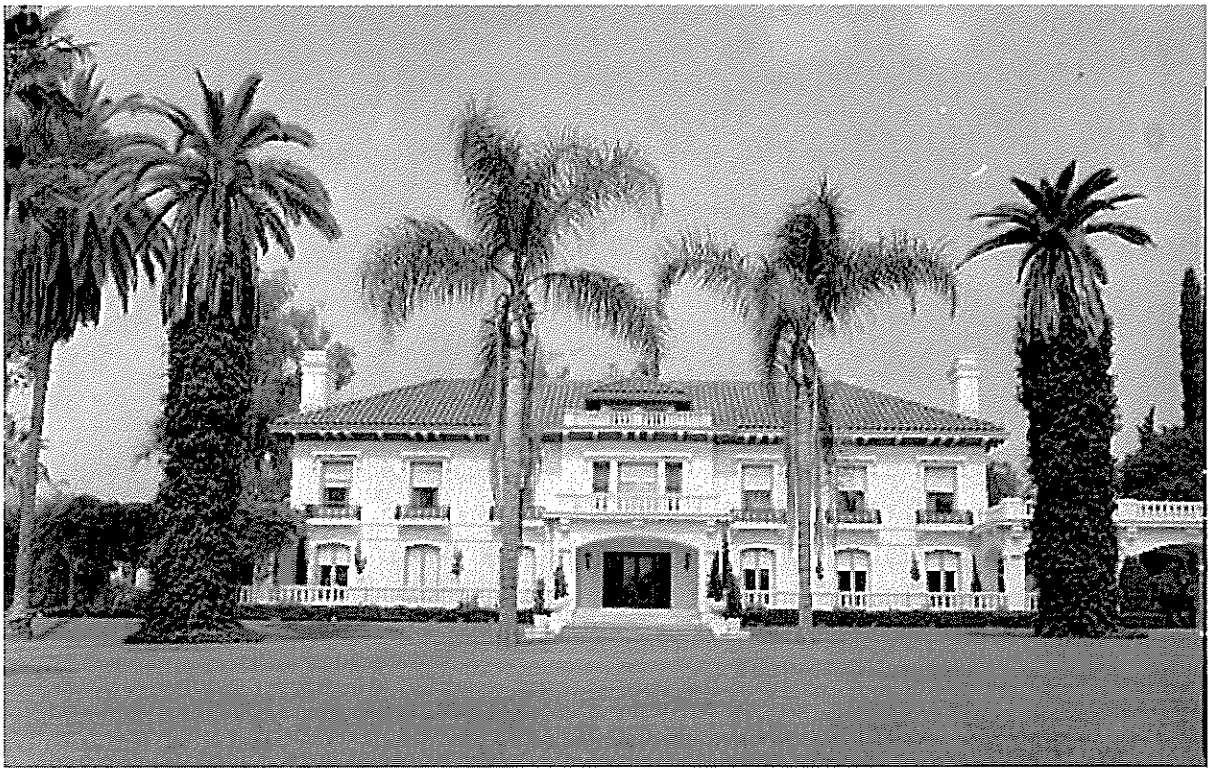
Prepared for: Michael Girvigian

Prepared by: Marina Khrustaleva



August, 2024

Mills Act Application, 203 Oaklawn Avenue, South Pasadena

Background

The two-story house was designed in 1912 by architect George Lawrence Stimson and built under the supervision of his father, developer George Woodbury Stimson. The cost of the construction was estimated as $18,000. The elder Stimson lived in our house for several years after it was built. The younger lived next door, at 207 Oaklawn Avenue (this house was awarded with a Mill's Act contract, as well as several other properties in the district).

The house represents the Italian Renaissance Revival style. It became a smaller version of the house that George Stimson originally designed for himself at 391 S Orange Grove Boulevard in Pasadena, now known as the Wrigley Mansion or the Tournament of Roses headquarters. That house was under construction from 1906 to 1914; supposedly, Stimson Sr. found it too big for him and sold it to chewing gum magnate William Wrigley Jr. and his wife Ada.

Wrigley Mansion, 1956

The character-defining features of the house at 203 Oaklawn Avenue include symmetrical massing, a flat roof with a balustrade, an overhanging dented cornice, vertical double-hung windows around the house, and smooth stucco. The east (front) elevation features a projecting middle portion. A central window on the second floor is surrounded by a decorative plaster framing with a segmental arch broken pediment. A prominent porch with a balustrade is supported with a combination of massive square posts and Tuscan columns. There are two wide wood entry doors with large glazing and decorative metal grills, and an elevated three-step porch landing. The north (side) elevation features a recessed loggia with a triple arch facing a curved driveway with two approaches from Columbia Street. A two-car garage is facing Fremont Avenue.

The property is abutting Columbia Street on the north and Fremont Avenue on the west. Two sides of the block along Columbia Street and Fremont Avenue are surrounded by a solid wall with massive Arroyo stone posts designed by Charles and Henry Greene. Seventeen of these stone posts belong to the subject property. One of two entry portals serving as pedestrian gates on the west side of Oaklawn Avenue is located on the public right-of-way, outside of the property boundaries.

The interior of the house has been minimally altered and preserved original decorative features: mahogany wood paneling, stairs, fireplace mantels, window shutters, and ceiling beams in the foyer and living room. The dining room is adorned with hand-painted wallpaper by Mildred Bryant Brooks. She was an acclaimed etching artist and lived at 1837 Monterey Road in South Pasadena. She was famous for creating murals in private homes in the 1950s; her other surviving work can be seen at the Blinn House, the headquarters of Pasadena Heritage, at 160 N Oakland Avenue in Pasadena. Most likely, the murals appeared here after 1954 when the previous owner, Willard John Stone Jr., conducted a number of home improvements.

The house has not undergone any major remodel or serious restoration since it was built. Based on the building permits, alterations included:

- 1928 – adding a one-story sun parlor to the north-west corner of the house;
- 1940 – building an interior elevator shaft (elevator later removed);

- 1946 – termite repair;
- 1960 – building an attached wrap-around rear patio along west and south sides of the house; constructing a swimming pool; interior kitchen remodel; partial electrical and plumbing upgrade;
- 1961 – interior remodel of the utility area in the garage (a bathroom and a dressing room); replacing garage doors;
- 1988 – adding a workshop to the garage;
- 1989 – foundation maintenance (seismic retrofit);
- 2005 – building an exterior elevator shaft on the south (side) elevation.

Reroofing work on the house and the garage was done in 1961, 1973, 1978, and 1990.

As a result of the building age, which is 112 years old, there is significant deferred maintenance. Several features require historically accurate renovations to ensure structural stability and authenticity of the house.

Mills Act Application, 203 Oaklawn Avenue, South Pasadena

Section II: Rehabilitation Plan, Maintenance List, and Reporting System

Proposed Scope of Work	***Year***
Repair rotten wood at the main roof, remove cap sheet, install new torch down modified bitumen roofing material with Title 24 rating. Repair flashing around the chimney.	2025
Repair framing members in the attic to address water intrusion around the chimney stack.	2025
Tear off 1350 sq. ft. shingle roof at the southwest patio, repairs to rotten wood, install new composite shingle roofing material.	2025
Tear off 260 sq. ft. roof on the front porch, repairs to damaged framing and gutter system, install new torch down bitumen roofing material.	2025
Repair leaking garage roof	2025
Repair existing metal gutters to return to normal function.	2025
Repair non-reinforced lime and sand mortar chimney to ensure safety while using the fireplaces.	2025
Obtain the Structural Pest Control report and treat wood structure for termite damage as needed.	2025
Install 85-lineal feet of 4-inch drainpipe to address the visible drainage issues on the property.	2026
Replace damaged cast iron drains in crawl space exterior.	2026
Repair concrete walls with Arroyo stone posts along the northern and western property lines to avoid public hazard.	2026
Replace outdated plumbing with all new waters and drains to 6 baths (including garage bath) and 1 kitchen.	2027
Examine sloped/uneven floors on the second floor and repair as needed.	2028
Repair fire boxes and flue systems in 3 fireplaces to ensure safety, based on the inspection report.	2028

Restore 41 existing windows and exterior doors to return normal operation and paint touch up.	2029
Repair a staircase skylight to ensure operability.	2029
Restore plaster on the exterior walls.	2029
Repaint the house using historically appropriate color.	2029
Partially replace foundation at the southwest patio. Repair cracks in the concrete deck and block porch wall.	2030
Repair cracks in exterior concrete steps and clinker brick paving.	2030
Reinforce the garage opening and install a steel beam to ensure seismic stability.	2031
Replace non-original overweight garage door and an outdated opening mechanism with a modern lightweight garage door of historically appropriate design.	2031
Interior features – not a part of the Mill's Act application:	
Replace outdated knob and tube electric wiring and ungrounded three prong receptacles with modern wiring to ensure safety, including new 200 Amp service, 4 sub panels, all new grounded circuits and lighting, arc fault breakers and smoke and carbon dioxide sensors.	2027
Remove 3 gravity furnaces and existing asbestos ducting including asbestos mitigation.	2028
Restore, wax, and touch up interior wood paneling, stairs, fireplace mantels, window shutters, and ceiling beams in the foyer and living room.	2032
Protect hand-painted wallpaper by artist Mildred Bryant Brooks in the dining room and restore cracks.	2032
Repair water-damaged plaster from roof leaks and provide associated painting.	2032

Reporting System:

The property owners of 203 Oaklawn Avenue will provide written updates to the City of South Pasadena every three years, documenting progress and providing updates and photos on the Mills Act work plan.

Certificates of Appropriateness (CoA) will be obtained by property owners if any major exterior work triggers the threshold of by the City of South Pasadena Cultural Heritage Ordinance. Building permits will be obtained all types of work requiring permits.

Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs.

Mills Act Application, 203 Oaklawn Avenue, South Pasadena

Section III: Cost Estimate of Rehabilitation/Maintenance Plan

All work efforts described in these plans will be carried out in accordance with the *Secretary of the Interior's Standards for the Treatment of Historic Properties.* Architects and/or contractors leading work efforts will have demonstrated historic preservation experience and will meet the *Secretary of the Interior's Professional Qualifications Standards* in their respective fields.

Proposed Scope of Work and Description	***Est. Cost, $***
Repair rotten wood at the main roof, remove cap sheet, install new torch down modified bitumen roofing material with Title 24 rating. Repair flashing around the chimney. *All preparatory work will be undertaken in compliance with the Secretary of Interior's Standards. All surfaces to be treated with the gentlest means possible.*	43,300.00
Repair framing members in the attic to address water intrusion around the chimney stack. *Wood elements shall be restored and may be replaced in-kind only if deteriorated beyond repair.*	5,300.00
Tear off 1350 sq. ft. shingle roof at the southwest patio, repairs to rotten wood, install new composite shingle roofing material.	22,050.00
Tear off 260 sq. ft. roof on the front porch, repairs to damaged framing and gutter system, install new torch down bitumen roofing material.	7,500.00
Repair leaking garage roof	8,700.00
Repair existing metal gutters to return to normal function.	3,800.00

Obtain the Structural Pest Control report and treat wood structure for termite damage as needed (fumigation treatment)	11,000.00
Install 85-lineal feet of 4-inch drainpipe to address the visible drainage issues on the property.	13,021.00
Replace damaged cast iron drains in crawl space exterior.	3,200.00
Repair concrete walls with Arroyo stone posts along the northern and western property lines to avoid public hazard. *Examine existing joints between the stones and block for mortar that has failed or can be expected to fail in the next two years. Remove those blocks, stone and joints with the re-pointing method. Replace blocks with identical sound blocks. Replace missing stones with local Arroyo stones of matching size.*	28,000.00
Replace outdated plumbing with all new waters and drains to 6 baths (including garage bath) and 1 kitchen.	58,000.00
Examine sloped/uneven floors on the second floor and repair as needed. *Ensure structural stability.*	5,200.00
Repair non-reinforced lime and sand mortar chimney to ensure safety while using the fireplaces. Repair fire boxes and flue systems in 3 fireplaces to ensure safety, based on the inspection report.	54,636.00
Restore 41 existing windows and exterior doors to return normal operation and paint touch up. *Windows, entry doors, and hardware need to be adjusted to ensure operability. The hardware may be replaced in-kind only if deteriorated beyond repair.*	12,500.00
Repair a staircase skylight to ensure operability.	1,350.00
Restore plaster on the exterior walls. Repaint the house using historically appropriate color. *Damaged or deteriorated paint shall be removed using the gentlest method possible (preferably hand-scraping or hand-sanding).*	35,700.00
Partially replace foundation at the southwest patio. Repair cracks in the concrete deck and block porch wall. *New concrete shall match original in tone and texture.*	19,287.00

Repair cracks in exterior concrete steps and clinker brick paving. *New concrete shall match original in tone and texture. Level brick paving and use matching salvaged bricks where possible.*	15,200.00
Reinforce the garage opening and install a steel beam to ensure seismic stability. Replace non-original overweight garage door and an outdated opening mechanism with a modern lightweight garage door of historically appropriate design.	5,640.00

Total investment in Rehabilitation and Maintenance: **$353,384**
(without an allowance for potential chimney restoration)

Potential Mills Act Property Tax Savings over a 10-year period[1]: **$198,900**

Potential Cost to the City of South Pasadena over a 10-year period: **$51,714**

[1] This is only a preliminary estimate, final tax adjustments are conducted by the Los Angeles County Assessor's Office.

EXHIBIT C

REHABILITATION STANDARDS

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

TITLE(S)

MILLS ACT CONTRACT

THIS MILLS ACT CONTRACT ("Agreement") is made and entered into this 6th day of November 2024, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Emerling-Ballenger Revocable Trust ("Owner").

RECITALS

(i) California Government Code Section 50280 et seq., authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possesses fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1209 Indiana Avenue, South Pasadena, California, Assessor's Parcel Number 5314-010-061 ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) As set forth in South Pasadena Municipal Code Section 2.68(b)(1)(B), the Historic Property is a Designated Historic Landmark (No. 60). The property is characterized as an outstanding example of the Craftsman theme/Swiss Chalet subtheme;

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code and to carry out the purposes of Article 12 (commencing with Section 50280) of Chapter 1, Part 1, of Division 1 of Title 5 of the California Government Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. The Agreement shall be effective and commence on November 6, 2024 and shall remain in effect for a minimum period of ten (10) years, unless the property owner is issued a notice of non-renewal as provided in Section 2.68(b)(1)(E)(v) of the South Pasadena Municipal Code.

2. AUTOMATIC RENEWAL. Unless a notice of non-renewal is issued, this Agreement shall automatically be extended by one (1) year for each anniversary date of the Agreement unless otherwise specified herein.

3. NON-RENEWAL. If recommended by the Commission and approved by the City Council, a notice of non-renewal may be issued six (6) years into the duration of this Agreement. The procedure for notice of non-renewal by the Owner of the City shall be in accordance with Government Code Section 50282 as it may be amended from time to time.

4. APPEAL OF NOTICE OF NON-RENEWAL. The property owner shall have the right (per Government Code Section 50282) to appeal a notice of non-renewal to the City Council.

5. STANDARDS FOR HISTORIC PROPERTY. During the term of this Agreement, the Historic Property shall be subject to the following conditions, requirements, and restrictions:

a. Owner shall rehabilitate, preserve and maintain the historically significant Characteristics of the Historic Property. Attached hereto, marked as "Exhibit B" and incorporated herein by this reference is a list of those items for rehabilitation, restoration and maintenance planned for preservation of the Historic Property and a timeline for completion, which Owner shall carry out shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the applicable provisions of the South Pasadena Municipal Code (See, Article IVH of the South Pasadena Municipal Code) and shall obtain any applicable permits necessary to protect, preserve, restore and rehabilitate the Historic Property so as to maintain its historical significance.

b. Owner shall additionally and where necessary, restore and rehabilitate the property according to the rules and regulations of the City, the State Office of Historic Preservation of the Department of Parks and Recreation, the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and the State Historical Building Code and shall maintain the entire property according to minimum standards and conditions, attached hereto, marked as "Exhibit C".

6. LIMITATIONS. Under Section 2.68(b)(1)(C)(iii)–(vi), the estimated tax benefit will not be used for: (1) any maintenance or alteration work that was previously completed or initiated before the Contract is approved, unless it can be shown that the completed work was necessary in the interest of the public health or safety following involuntary damage or destruction caused by fire, act of nature, or any other casualty; (2) routine maintenance work except for

exemplary or exceptional properties that have financially burdensome maintenance requirements; (3) work within the interior of a Historic Property unless the Cultural Heritage Commission determines an exception should be made; and (4) landscaping work unless it will be used for specific landscape features that were identified as part of the official landmark nomination.

7. INSPECTIONS. The Owner shall allow reasonable inspections, by prior appointment given a minimum of at least 24 hours in advance, of the interior and exterior of the Historic Property by representatives of the County of Los Angeles Assessor, State Office of Historic Preservation, State Board of Equalization and the City, as may be necessary to determine Owner's compliance with the terms and conditions of this Agreement.

8. PROVISION OF COMPLIANCE INFORMATION. The Owner hereby agrees to furnish the City with any and all information requested by the City which may be reasonable and necessary to determine compliance with the terms and provisions of this Agreement. In addition, the Owner shall agree to provide to the City on the third year of the term of this Agreement and every third year thereafter a report describing the preservation tasks that are in progress and have been completed pursuant to this Agreement.

9. BINDING EFFECT OF AGREEMENT. This Agreement shall be binding on all successors-in interest of the Owner to the benefits and burdens of this Agreement. The Agreement shall stipulate escrow instructions that require a review and re-evaluation of the property every three years.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 et seq., may cancel this Agreement if City determines that the Owner has breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the significance criteria under which it was designated. City may also cancel this Agreement if it determines Owner has failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 5 of this Agreement. The City may also cancel this Agreement if, upon consultation with the State of California Office of Historic Preservation, the preservation, rehabilitation, or restoration becomes infeasible due to damage caused by natural disaster. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 et seq., described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement. In the event of a breach by Owner under the provisions

of this Agreement, City shall give written notice to Owner by registered or certified mail to the address stated in this Agreement, which notice shall specifically identify the alleged breach and the proposed action which City recommends to Owner to cure said alleged breach. Owner shall hereafter have sixty (60) days within which to cure such breach to the reasonable satisfaction of the City. Upon completion by Owner of the cure of the breach, City shall withdraw its notice of breach. Should Owner not cure such breach within the time period specified above, then City may, without further notice, declare a default under the terms of this Agreement and may bring any action necessary to specifically enforce the obligations of Owner arising out of the terms of this Agreement, apply to any court, state or federal, for injunctive relief against any violation by Owner or apply for such other relief as may be appropriate. City may at its sole discretion extend the 60-day cure period. Such extension must be in writing.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subjects the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property. Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument. City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Community Development Director
1414 Mission Street
South Pasadena, California 91030

Owner: Emerling-Ballenger Revocable Trust

c/o Michael Roy Emerling and Ruth Lorraine Ballenger
1209 Indiana Avenue
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agrees to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of its contractor, subcontractor, agent, employee or other person acting on its behalf which relate to the use, operation, capital improvement and/or maintenance of the Historic Property and/or Owner's activities in connection with the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property. This indemnification includes, without limitation, the payment of all penalties, fines, judgments, awards, attorney's fees and related costs or expenses, and the reimbursement of legal expenses and costs incurred by the City, its elected officials, employees or agendas. Owner's obligation to indemnify shall survive the termination, cancellation or expiration of this Agreement.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever. A successor in interest shall have the same rights and obligations under the Agreement as the original owner who entered into the Agreement.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California. Venue shall be in Los Angeles County.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will prevent the portion of land condemned or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, if the City Council determines that the condemnation or acquisition frustrates the purpose of this Agreement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be canceled and this Agreement shall be deemed null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition. In such event, no cancellation fee is imposed as set forth in Government Code Section 50286. If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to this Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than twenty (20) days after the parties execute this Agreement, the Owner or Owner's agent shall record this Agreement in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, by a written instrument executed by the parties that is thereafter recorded in the Office of the County Recorder of the County of Los Angeles.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The City shall provide written notice of this Agreement to the State Office of Historic Preservation within 180 days of entering into this Agreement.

[SIGNATURES ON NEXT PAGE]

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

EXHIBIT A

LEGAL DESCRIPTION

EXHIBIT A

The land referred to is situated in the County of Los Angeles, City of South Pasadena, State of California, and is described as follows:

Parcel 1:

Those portions of Lots 9 and 10 of Thomas Green's Subdivision of South Pasadena Highlands, in the City of South Pasadena, California of Los Angeles, State of California, as per map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said County, described as follows:

Beginning at a point on the east line of said Lot 9, distant northerly thereon 50 feet from the southeast corner of said Lot 9, Thence westerly parallel with the southerly line of Monterey Road 125 feet to the west line of said Lot 10; Thence northerly along said west line 25 feet to a point on said line, distant northerly thereon 75 feet from southwest corner of said Lot 10; Thence easterly in a direct line to the point of beginning.

Parcel 2:

Those portions of Lots 9, 10 and 23 of Thomas Green's subdivision of South Pasadena Highlands, in the City of South Pasadena, County of Los Angeles, State of California, as per Map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said county; Also that portion of Belleview Avenue vacated, all described as follows:

Beginning at the intersection of the center line of Belleview Avenue 50 feet wide, as shown on said map, with the easterly prolongation of the south line of said Lot 23; Thence westerly along said prolongation and south line, 150 feet to the southerly prolongation of the west line of said Lot 10; Thence northerly along said prolongation and west line 100 feet to a point on said west line, distant northerly thereon 50 feet from the southwest corner of said Lot 10; Thence easterly parallel with the south line of Monterey Road 150 feet to said center line of Indiana Avenue; Thence southerly along said center line 100 feet to the point of beginning.

Parcel 3:

Those portions of Lots 11 and 23 of Thomas Green's subdivision of South Pasadena Highlands, in the City of South Pasadena, County of Los Angeles, State of California, as per Map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said County, described as follows:

Beginning at the southwest corner of said Lot 11; Thence southerly along the southerly prolongation of the west line of said Lot 11, a distance of 50 feet to the south line of said Lot 23; Thence easterly along said south line 50 feet to the southerly prolongation of the east line of said Lot 11; Thence northerly along said prolongation and east line 125 feet to the south line of the land described in the Deed to Carl Block, ET UX., recorded July 29, 1939 as Instrument No. 24, in Book 16793 Page 171 official records of said county; Thence westerly along said

1. Project Background

This Mills Act Historic Property Contract application is for the single-family residence at 1209 Indiana Avenue, South Pasadena (Assessor's Parcel Number 5314-010-061). Located near the base of Monterey Hills, north of Monterey Road, the property was constructed in 1911 for Charles Clark Gates and his family. As noted in the 2014 *City of South Pasadena Citywide Historic Context Statement*, the property is a textbook example of the Craftsman architectural style, Swiss Chalet subtype.[1] Highly intact on the exterior and interior, the Gates Residence meets the eligibility criteria for an individual local landmark as described in the 2014 *City of South Pasadena Citywide Historic Context Statement.*[2]

Roughly square in plan, 1209 Indiana Avenue occupies a slanted, hillside parcel; the home is set back by a raised lawn and berm. Two stories in height, the home rests on a raised concrete foundation and is capped with a prominent, medium-pitched, front-gable roof. As is typical for the Craftsman-Chalet style, much of the decorative detailing of the building centers on the character and detailing of the roof eaves. Features include wide overhanging eaves resting on triangular knee braces with turned, multi-color posts, decoratively carved bargeboards, and a low wood screen displaying perforations forming geometric patterns. The second story extends slightly beyond the first, with banded wood molding and carved faux purlins highlighting the division between second and first stories and emphasizing the horizontal axis. Exterior sheathing materials consist primarily of wood shingles and some horizontal wood siding.

A partial length porch occupies the southern portion of the façade; the porch is elevated on low, concrete steps and sheltered beneath a flat roof with extended eaves, accented with faux purlins/rafter tails and intricately carved bolsters. The porch roof rests on decorative, turned wood columns with square post supports. A low wall with turned posts fronts the patio. Off the patio, a single wood door with one large, central light with metal framing provides access to the residence.

The property's Craftsman-Swiss Chalet style elements are seen in a variety of features, including the mass and scale of the property; the generous use of wood, including in exterior shingles, siding, and decorative accents at the roof eaves and front porch; the prominent, medium-pitched roof form; the roofline treatment (e.g., the use of wide eaves); screen with geometric perforations below the roof gable; grouped, multi-light wood-framed windows, among other features.

The side elevations of the residence mirror the fenestration patterns and materials seen on the façade. The north elevation displays grouped wood-framed windows (including tripartite two-over-three frame casements and three-over-two double-hung windows) and a varied wall plane, with a square two-story

[1] Additional information on the life and local presence of the Gates family is provided in the accompanying landmark nomination application for 1209 Indiana Avenue.

[2] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement.* Available at: https://www.southpasadenaca.gov/government/departments/planning-and-building/planning-division. Accessed 30 April 2021.

projection and a one-story bay window providing depth. Along the concrete foundation of the home on the north elevation are several basement-level openings with simple wood frames.

Similarly, the south elevation wall plane is broken up by a one-story projection with wood-framed windows, capped with decorative wood eaves. The rear elevation exhibits a small, square addition, also clad in wood shingles. A secondary entrance elevated on concrete steps is also located at the rear elevation. In the westernmost portion of the parcel is concrete patio and a concrete-clad retaining wall. Mature landscaping and trees further enhance the property. The property is in good repair overall. Alterations appear to be minimal and include a small, low addition on the rear elevation and potentially a second-story remodel that resulted in the addition of some small windows on the side and rear elevations.

A photographic overview of the property can be viewed in Appendix A, which presents the original landmark nomination for the property.

Summary of Landmark Eligibility

South Pasadena Landmark Criterion 4: Its exemplification of a particular architectural style of an era of history of the City)

As noted in South Pasadena's *Citywide Historic Context Statement*, which utilized a photo of 1209 Indiana Avenue to illustrate the features of the style, the property is an intact, textbook example of the Swiss Chalet/Craftsman architectural style. The property is eligible for local landmark listing under Criterion 4 of the Cultural Heritage Ordinance. The property displays all of the character-defining features identified as key for the Craftsman theme/Swiss Chalet subtheme in the *Citywide Historic Context Statement*:

- Rectangular plan and compact, 2-story massing
- Flat, usually symmetrical primary façade
- Moderately pitched front gable roof with wide, overhanging eaves/rake, and exposed rafter tails
- Wood shingle, horizontal wood siding
- Wide porch, recessed or projecting
- Second-story balcony with plank railing, usually with decorative cut-outs
- Divided light casement or double hung wood windows
- Decorative brackets and bargeboards

In addition, with few visible alterations, the property meets the integrity threshold defined in the *Citywide Historic Context Statement.*

An outgrowth of the Arts and Crafts movement, the Swiss Chalet style is a subtype of the Craftsman architectural style, which dominated residential design in South Pasadena (and beyond) through the early 20th century. As noted in the *Citywide Historic Context Statement*, South Pasadena

> retains intact streets and neighborhoods, along with prominent individual examples, illustrating the importance of Arts and Crafts architecture and the role it played in residential development in the early 20th century. Southern California, and Pasadena in particular, was a center of the American Arts and Crafts movement; the philosophy, aesthetics, and major proponents and practitioners all influenced South Pasadena.[3]

[3] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 111.

The *Citywide Historic Context Statement* provides additional context for this variant of the Craftsman style:

> The Swiss Chalet style – constructed primarily of stained wood, in which wide overhanging eaves and balconies helped integrate the outdoors as part of the living space – was compatible with the goals of the Arts and Crafts movement. The Chalet style Craftsman house usually consists of a single, rectangular two-story volume covered by front-facing gable roof. The primary façade is typically symmetrical and frequently features a wide porch topped by a second-story balcony. Porches and balconies usually have plank railings with decorative cutouts. Brackets and bargeboards are usually more decorative than those found in other variations of Craftsman architecture.[4]

During CHC review of the landmark nomination, 1209 Indiana Avenue was found to meet the eligibility standards for local landmark designation under the "Architecture & Design" context, "Craftsman" theme, and "Swiss Chalet style" subtheme of the *Citywide Historic Context Statement*. The nomination was forwarded to City Council for adoption of the designation resolution (presently scheduled for July 2024).

The property's principal character-defining features are as follows:

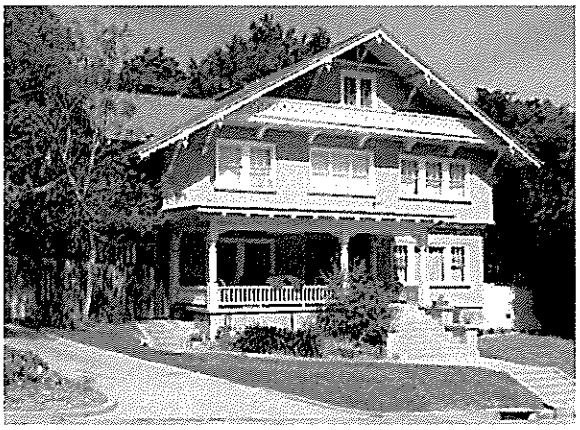
- Large, hillside lot and setback from the street
- Two-story mass and generally symmetrical design composition
- Complex roof form and detailing, with prominent medium-pitched front gable, with wide overhanging eaves resting on carved triangular knee braces with turned posts and purlins/dentils; roof eaves have uneven rakes, with a lower, longer expanse on the south elevation
- Elevated, partial-length porch with decorative wood posts, vertical, wood-plank ceiling, and low wood railing
- Sheathing materials, such as horizontal wood siding, wood shingles
- Grouped, multi-light wood-frame windows, with three-over-two and fixed panes on façade

As noted in this Mills Act application and the accompanying landmark nomination, the Gates Residence reflects all of these characteristics.

In addition, the home has few exterior or interior alterations, easily retaining its historic integrity in all seven areas: location, design, setting, workmanship, materials, association, and feeling.

[4] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 273.

Figure 1 South Pasadena *Citywide Historic Context Statement*, with the Gates Residence at 1209 Indiana Avenue as intact example of Swiss Chalet architectural style



Sub-Theme: Swiss Chalet Style

The Swiss Chalet style - constructed primarily of stained wood, in which wide overhanging eaves and balconies helped integrate the outdoors as part of the living space - was compatible with the goals of the Arts and Crafts movement. The Chalet style Craftsman house usually consists of a single, rectangular two-story volume covered by a front-facing gable roof. The primary façade is typically symmetrical and frequently features a wide porch topped by a second-story balcony. Porches and balconies usually have plank railings with decorative cutouts. Brackets and bargeboards are usually more decorative than those found in other variations of Craftsman architecture.

Character-defining features include:

- Rectangular plan and compact, 2-story massing
- Flat, usually symmetrical primary façade
- Moderately pitched front gable roof with wide, overhanging eaves and rake, and exposed rafter tails
- Wood shingle, horizontal wood siding, or cement plaster exterior wall finish, sometimes in combination
- Wide porch, recessed or projecting
- Second-story balcony with plank railing, usually with decorative cut-outs
- Divided light casement or double hung wood windows, sometimes with diamond-patterned lights
- Decorative brackets and bargeboards

Summary of Mills Act Application Steps Completed

In January 2024, the property owners prepared and submitted a landmark nomination package to the City of South Pasadena. This landmark nomination was subsequently approved by the Cultural Heritage Commission (CHC) with a recommendation to forward to City Council for approval and addition to the City's Register of Local Landmarks.

In January 2024, the property owners also filed a Letter of Intent to apply for the Mills Act, which was subsequently discussed at the Cultural Heritage Commission (CHC) hearing. The CHC favorably reviewed the Letter of Intent and created a subcommittee for the landmark designation to tour the property and offer input on the proposed landmark nomination and Mills Act workplan items. Commissioners Kris Morrish and Conrado Lopez attended a remote site visit to tour the property and inspect the proposed Mills Act workplan items. In May 2024, a separate CHC subcommittee for the Mills Act application was formed, consisting of commissioners Jeremy Ding and Scott Severson.

With the Gates Residence over 113 years old, a number of critical preservation/rehabilitation and repair projects are needed for the property. The Mills Act property tax abatement would help the owners complete these projects and ensure the long-term preservation of this important property. The proposed Mills Act workplan priorities are:

1. Roof System: repairs to roof structure, to mitigate leaking; re-sheathing 2027
2. Exterior Wood: repairs/carpentry work and repainting of wood elements, including wood siding and shingles, roof eaves, and balcony railing; resealing and repainting in period-appropriate palette 2030
3. Retaining Wall: Geotechnical evaluation and stabilization plan 2033

The application also describes additional projects that will be needed in a long-term preservation plan for the home (but have not been added as capitalized expenses in the Mills Act workplan).

This application reflects all feedback and suggestions provided by the CHC to date. Section 2 provides an overview of the application schedule and reporting system; Sections 3 and 4 present the Description of Work Plan and Priorities and the Financial Analysis.

Appendices include the original Letter of Intent (Appendix A), photographic overview of issues (Appendix B), the original Landmark Nomination (Appendix C), and documentation for the financial analysis (Appendix D).

As the owners of a distinctive historic property, the applicants understand the importance of ensuring that all repair, maintenance and rehabilitation projects follow the City guidelines and the *Secretary of the Interior's Standards for the Treatment of Historic Properties*. Each project, as well as the corresponding Standards-compliant treatment approach, is described in more detail in this application.

2. Schedule and Reporting System

Project	Completion Year
1. Roof System: repairs to roof structure, to mitigate leaking; re-sheathing	2027
2. Exterior Wood: repairs/carpentry work and repainting of wood elements, including wood siding and shingles, roof eaves, and balcony railing; resealing and repainting in period-appropriate palette	2030
3. Retaining Wall: Geotechnical evaluation and stabilization plan	2033
4. Maintenance: Termite inspections/mitigation	Annual inspection
5. Maintenance: Roof inspections and repairs as needed	Triannual inspection
6. Maintenance: Paint inspection and repairs as needed	Triannual inspection

Noncapitalized Projects

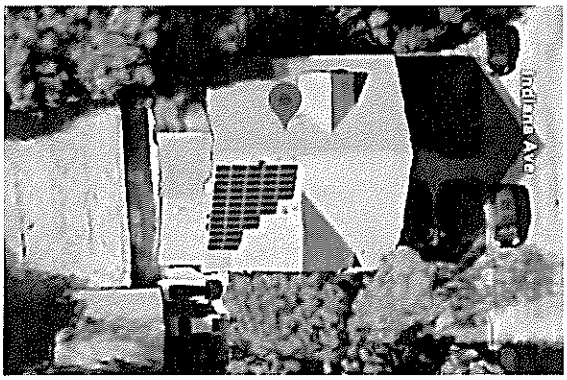
1. Plumbing repairs and modernization
2. HVAC/heating system upgrades

Reporting System

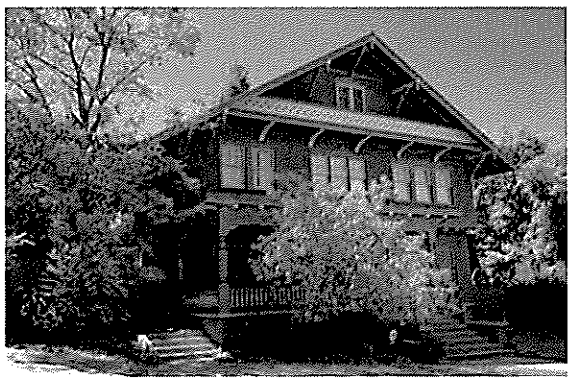
The property owners of 1209 Indiana Avenue will provide bi-annual written updates to the City of South Pasadena in the final quarter of the year, documenting progress and providing updates and photographs on the Mills Act work plan.

Prior to commencement of work efforts, Certificates of Appropriateness (CoA) will be obtained by the property owners as required by the City of South Pasadena Cultural Heritage Ordinance. Progress reports will include detailed work descriptions, photographs of work completed, and copies of permits and CoAs/CHC guidance and input as applicable.

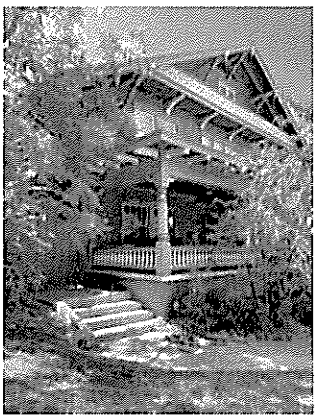
3. Description of Work Plan and Priorities



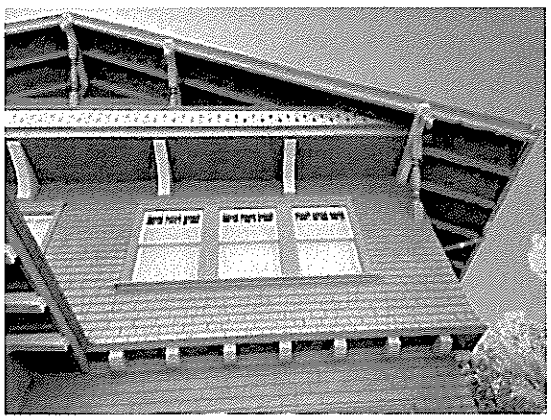
Work efforts described in these plans will comply with the *Secretary of the Interior's Standards for the Treatment of Historic Properties.*



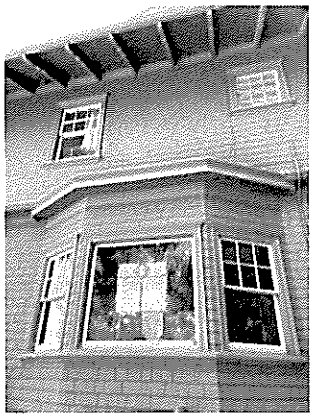
Proposed Project & Description	Est. Cost	Priority
1. Main Residence, Re-Roof, Repairs, and Carpentry	$75,000	High



Remove/replace composition shingles. Address water leaks in house, repair underlying roof system and structure where needed. Uninstall and re-install solar panels on south elevation. In areas of the roof line with wood features, repairs and carpentry work to address any damaged or deteriorated wood rafters and eaves, fascia, and other wood framing. If needed, replacement of any wood features will be made to match existing in materials, appearance, patterning, finishes/texture, and size/profile. Paint color to either match existing or reflect a period-appropriate palette.



No power-washing will be used for exterior materials or character-defining features. Cracked and peeling paint to be removed with Peel Away, lightly hand-sanded, primed, and set with two coats of paint. *Secretary's Standards* treatment approach: identify, retain, and preserve "the functional and decorative features that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features such as cupolas...chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning."



Overview of prominent, low-pitched roof (façade)

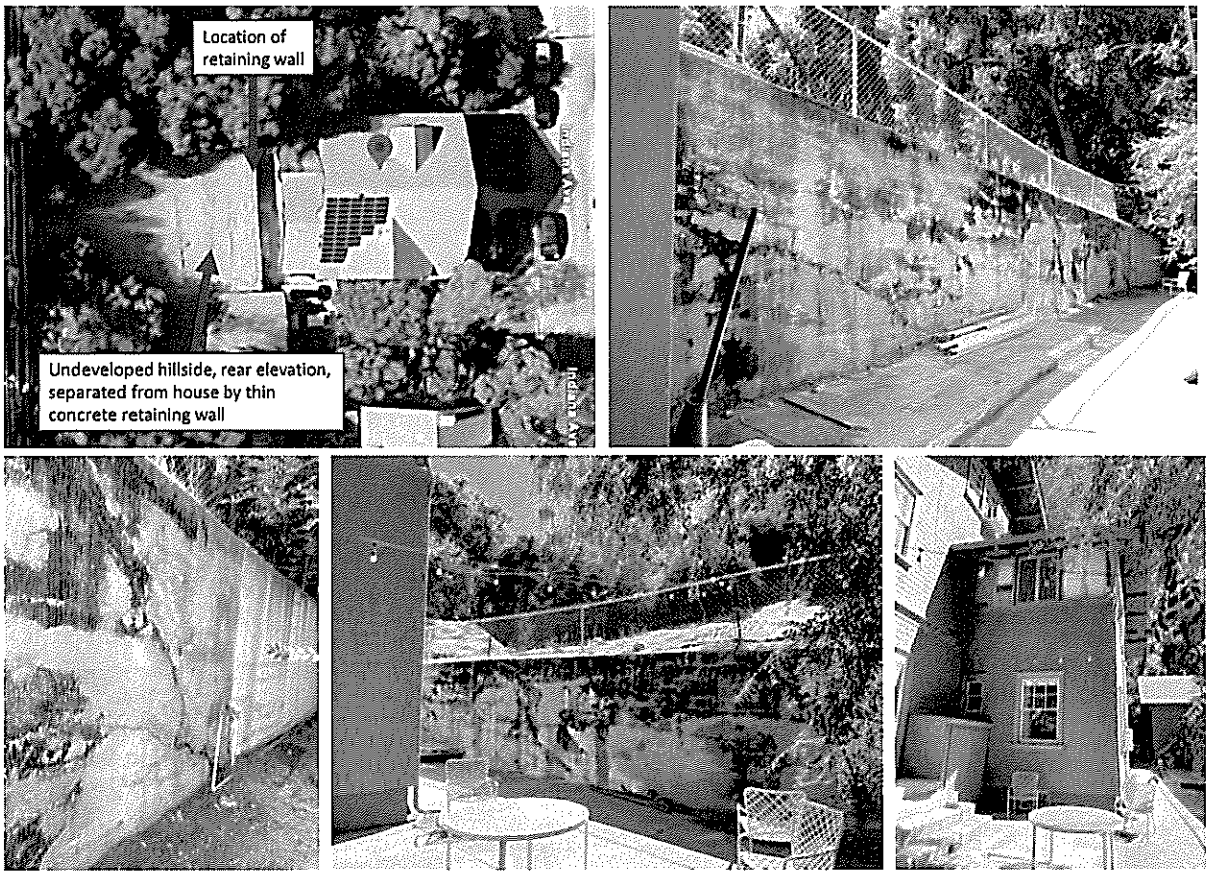
Section 3 Description of Work Plan and Priorities (continued)

Proposed Project & Description	Est. Cost	Priority
2. Exterior Wood: repairs/carpentry work and repainting of wood elements including shingles, roof eaves, and balcony railing; repainting in period-appropriate palette	$65,000	High

Original wood shingles and exterior wood features on each elevation are in need of repairs and limited carpentry work. Remove damaged shingle siding where it occurs at all elevations. Spot replace any deteriorated waterproof paper beneath the removed shingles. Install new shingles in a pattern and of a kind to blend the old and new materials. Wash and stain/repaint wood shingles. Where necessary, any replacement of wood shingles and features will be in-kind to match existing in materials, appearance/patterning, finishes/texture, and size/profile. Treatment approach will include the gentlest methods possible—**contractors will not use power-washing or machine sanding** for any character-defining features. Gentlest means possible will be used in prepping for repainting of the exterior.

Overview of wood shingles and features

Section 3 Description of Work Plan and Priorities (continued)



Proposed Project & Description	Est. Cost	Priority
3. Geotechnical Evaluation for Site	$ 50,000	Medium

With its hillside parcel and raised, undeveloped lot directly adjacent to the west, the retaining wall on the western portion of the property shows signs of failure. Settlement and water run-off from the hillside are causing slow-moving damage, including cracks and spalling, to the concrete retaining wall, which is located several feet from the west elevation of the house. Under this item, a geotechnical evaluation will be prepared by a structural engineer meeting the qualifications set forth in the South Pasadena Cultural Heritage Ordinance to recommend a plan for repairs, reinforcement, and/or reconstruction of part or all of the western elevation retaining wall.

The geotechnical evaluation would also propose remediation/mitigation measures to stabilize the site. Any work efforts recommended as a result of the study would be optional or included in the second 10-year Mills Act term for the property.

All work will be completed according to industry standards and applicable building codes; project design and implementation will avoid direct or indirect impacts to character-defining features.

Overview of damaged concrete retaining wall and proximity to west elevation of residence

4. Mills Act Work Plan, Financial Analysis

Proposed Project & Description	Est. Cost	Schedule
1. Roof System: repairs to roof structure; re-sheathing	$ 75,000	2027
2. Exterior Wood: repairs/carpentry work and repainting of wood elements, including wood siding and shingles, roof eaves, and balcony railing; resealing and repainting in period-appropriate palette	$ 65,000	2030
3. Retaining Wall: Geotechnical evaluation and stabilization plan	$ 50,000	2033
Owner's Total Investment in 1209 Indiana Avenue:	**$ 190,000**	
Total Tax Savings for Owners (10-year period)	**$ 186,787**	
Average Annual Cost to the City of South Pasadena:	**$ 4,836**

Letter of Intent, August 2023

Michael Emerling and Ruth Ballenger

1209 Indiana Avenue
South Pasadena, California 91030
(p) 626.824.1913 (e) mikeE@alumni.caltech.edu

Matt Chang, Planning Manager; Mark Gallatin, Chair, Cultural Heritage Commission
City of South Pasadena Planning & Building Department
1414 Mission Street
South Pasadena, CA 91030

August 27, 2023

Dear Mr. Chang and Mr. Gallatin:

We are writing to express our interest in applying for the Mills Act for our home at 1209 Indiana Avenue, South Pasadena (APN #5314-010-061), an intact Chalet-Craftsman Bungalow constructed in 1911. Our understanding is that our home is listed on the South Pasadena Inventory of Cultural Resources but has not yet been formally designated on the Register of Cultural Resources. This finding of individual landmark eligibility for our property was confirmed in 2015 through the City of South Pasadena Historic Resources Survey update, which assigned a California Historical Resources status code of "5S3" to the property.

Since purchasing the home in 2006, it has served as our family's primary residence. Over the years, we have invested time and resources to maintain our home in good repair. However, several issues have emerged recently that ideally need attention soon, in particular due to the rains we experienced in 2023 (and with the upcoming El Nino weather pattern predicted for 2023/2024). Some of the issues include recent leaks in the roof which were particularly pronounced during the rains this last year. These leaks are evidenced by recent damage in the wood detailing in the front of the structure. Additionally, an existing retaining wall at the west side of our property, separating our house from a sloped, undeveloped hill sitting above the wall, shows signs of cracking and potential failure. During heavy rains, the wall does not prevent all water from passing through to our property, which is concerning for the site overall as well as for the distinctive wood shingles on our exterior walls, which extend down to the concrete foundation.

We understand that our residence needs to be designated on the Register to qualify for the Mills Act program. To complete the landmark nomination, and to make sure our Mills Act workplan meets the City's requirements, we have asked local preservation specialist Debi Howell-Ardila to prepare both applications. She has conducted a site visit and started a literature review for the property; based on this, Debi has shared her opinion that our home qualifies for designation as a distinctive, intact Chalet-Craftsman Bungalow and that, given the repair, rehabilitation, maintenance items needed, our home would be a very strong candidate for a potential Mills Act contract.

We do understand that this Letter of Intent arrives late in the year to submit a Mills Act application (we just learned of the program recently), but we wonder if the City and CHC have discretion to expedite review of our application for this year. The Mills Act would help us address the pressing issues before us (repair/replace the roof to stop the leaks and wood damage, to study the best method for mitigating potential flowing water damage to the structure and address the retaining wall, and to plan for the rehabilitation/repairs and repainting of the wonderful original wood features on the exterior of our house), but we are concerned about waiting another year before being able to address these issues. The Mills Act program and property tax abatement would serve as a great help as we continue to maintain our property and address these time-sensitive issues.

Following this letter, you'll find a brief overview of the existing conditions of the façade of our house, along with a few images of the retaining wall and exterior materials overall. Thank you for your consideration. We look forward to hearing from you on next steps, and whether an expedited application process for 2023 might be possible.

Sincerely,

Michael Emerling and Ruth Ballenger

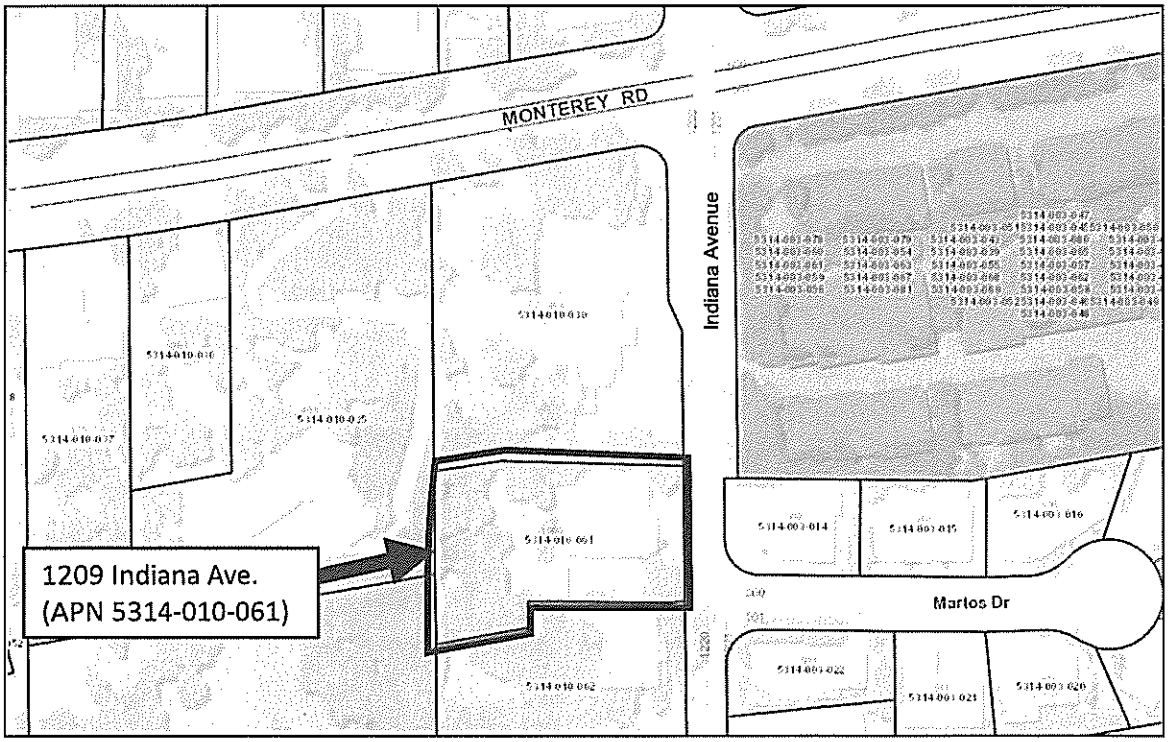
Landmark Designation Application, January 2024



South Pasadena Cultural Heritage Commission

Landmark/Historic District Nomination Form

A. Property Identification

Name of building or site	Gates Residence
Property address	1209 Indiana Avenue, South Pasadena
Current ownership	Michael Emerling and Ruth Ballenger
Owner address	1209 Indiana Avenue, South Pasadena, California
Legal description	Assessor's Parcel Number 5314-010-061
Date of construction	1911 (Source: City of South Pasadena Citywide Historic Resources Survey)
Original Owner	Charles Clark Gates
Architect/Builder	N/A
Original use	Single-family residence
Present use	Single-family residence
Other significant ownership	N/A

Figure 1 Property Location, 1209 Indiana Avenue, South Pasadena

Source: Los Angeles County Tax Assessor Records, modified by author

B. Property Description

Architectural style/period: Craftsman architectural style, Swiss Chalet subtype

Construction materials: Wood-frame construction, sheathed in horizontal wood siding and wood shingles

Historic Status/survey code: (1) **South Pasadena Inventory of Cultural Resources**: "5S3" California Historic Resources Status Code ("appears individually eligible for local listing through survey"); identified as individually eligible in all three City of South Pasadena historic resource surveys, as recently as 2015

Summary of Character-Defining Features:

- Large, hillside lot and setback from the street
- Two-story mass and generally symmetrical design composition
- Complex roof form and detailing, with prominent medium-pitched front gable, with wide overhanging eaves resting on carved triangular knee braces with turned posts and purlins/dentils; roof eaves have uneven rakes, with a lower, longer expanse on the south elevation
- Elevated, partial-length porch with decorative wood posts, vertical, wood-plank ceiling, and low wood railing
- Sheathing materials, such as horizontal wood siding, wood shingles
- Grouped, multi-light wood-frame windows, with three-over-two and fixed panes on façade

Narrative description, including significant exterior and interior architectural features:

Constructed in 1911, 1209 Indiana Avenue is a highly intact, textbook example of a Craftsman-Swiss Chalet style single-family residence in South Pasadena.

Roughly square in plan, 1209 Indiana Avenue occupies a slanted, hillside parcel; the home is set back by a raised lawn and berm. Two stories in height, the home rests on a raised concrete foundation and is capped with a prominent, medium-pitched, front-gable roof. As is typical for the Craftsman-Chalet style, much of the decorative detailing of the building centers on the character and detailing of the roof eaves. Features include wide overhanging eaves resting on triangular knee braces with turned, multi-color posts, decoratively carved bargeboards, and a low wood screen displaying perforations forming geometric patterns. The second story extends slightly beyond the first, with banded wood molding and carved faux purlins highlighting the division between second and first stories and emphasizing the horizontal axis.

Exterior sheathing materials consist primarily of wood shingles and some horizontal wood siding.

A partial length porch occupies the southern portion of the façade; the porch is elevated on low, concrete steps and sheltered beneath a flat roof with extended eaves, accented with faux purlins/rafter tails and intricately carved bolsters. The porch roof rests on decorative, turned wood columns with square post supports. A low wall with turned posts fronts the patio. Off the patio, a single wood door with one large, central light with metal framing provides access to the residence.

The property's Craftsman-Swiss Chalet style elements are seen in a variety of features, including the mass and scale of the property; the generous use of wood, including in exterior shingles, siding, and decorative accents at the roof eaves and front porch; the prominent, medium-pitched roof form; the roofline

treatment (e.g., the use of wide eaves); screen with geometric perforations below the roof gable; grouped, multi-light wood-framed windows, among other features.

The side elevations of the residence mirror the fenestration patterns and materials seen on the façade. The north elevation displays grouped wood-framed windows (including tripartite two-over-three frame casements and three-over-two double-hung windows) and a varied wall plane, with a square two-story projection and a one-story bay window providing depth. Along the concrete foundation of the home on the north elevation are several basement-level openings with simple wood frames.

Similarly, the south elevation wall plane is broken up by a one-story projection with wood-framed windows, capped with decorative wood eaves.

The rear elevation exhibits a small, square addition, also clad in wood shingles. A secondary entrance elevated on concrete steps is also located at the rear elevation. In the westernmost portion of the parcel is concrete patio and a concrete-clad retaining wall.

Mature landscaping and trees further enhance the property. The property is in good repair overall. Alterations appear to be minimal and include a small, low addition on the rear elevation and potentially a second-story remodel that resulted in the addition of some small windows on the side and rear elevations.

The photographs below provide a visual overview of the property and its existing conditions.

Additions/modifications

Based on available data and visual inspection of the property, 1209 Indiana Avenue has few visible alterations and appears highly intact from its 1911 date of construction and period of significance.

Given that 1209 Indiana Avenue originally belonged to a larger parcel facing Monterey Road (499 Monterey Road), a limited number of building permits are available for the property. To date, no primary sources (including building permits or other documentation) have been identified to confirm the original date of construction or original owner; the Los Angeles County Tax Assessor lists a date of 1911 as the date of construction.

Available sources, along with visual observation, indicate the following alterations:

- Pre-1930: Addition of small two-story wing on rear elevation (source, Sanborn Fire Insurance Company map)
- 1939: Construction of two-car garage (extant, noncontributing) (source, building permit #6887)
- 1962: Electrical upgrades (source, building permit #49267)
- 1979: Re-roof (source, building permit, number illegible)
- 1992: Plumbing upgrades (source, building permit #013589)
- 1996: Re-roof (source, building permit #017781)
- 2002: Electrical upgrades/repairs (source, building permit #20555)
- 2008: Mechanical upgrades/repairs (source, building permit #016215)
- 2010: Electrical upgrades/repairs (source, building permit #026379)
- 2014: Electrical upgrades/repairs (source, building permit #034084)
- Unknown date: Some windows on the second story appear nonoriginal and might have been added with an attic conversion (source, visual observations; permits not available)

Ownership History

The original (and longest) owner of 1209 Indiana Avenue was Charles Clark Gates and his wife Pearl, who resided in the home for nearly 40 years, from 1911 until their deaths in 1950 and 1951, respectively. Gates was the nephew of well-known local philanthropist and lumber magnate Peter Goddard Gates, who bought property and settled in South Pasadena with his four brothers in the early 1900s.[1] Wealthy, retired lumber manufacturers, the Gates brothers built a large estate around the area of 1209 Indiana Avenue, along Monterey Road, including a park, orchards, stables, tennis courts, and "even its own fire station."[2] Based out of this large family complex at Monterey Road and "Gates Place" (as Indiana Avenue was named in the early twentieth century), South Pasadena became a summer getaway as well as home base for the extended Gates family members.

Born in Illinois in 1879, Charles Clark Gates and his wife Pearl moved to South Pasadena in 1911 from St. Louis, Missouri.[3] The residence at 1209 Indiana Avenue originally formed part of a larger parcel extending north to 499 Monterey Road, which is still occupied by a large Swiss Chalet-style home originally belonging to members of the Gates family, including Charles Clark Gates' parents, Mr. and Mrs. Albert Hawkins

Gates.[4] The parcels were divided at an unknown date, after 1950, into separate lots in a configuration that mirrors the present property lines.

Once they arrived in South Pasadena, Charles and Pearl Gates quickly became part of the small, local social scene, with their travels, social engagements, and family milestones amply covered in the local newspapers of the day. Following in the family footsteps, Charles Clark Gates also worked in the lumber industry, as an executive in the family's lumber company, which included mills and branches in Arkansas (specializing in yellow pine and oak), Louisiana, and Alabama. In the obituary for Albert Hawkins Gates, who passed away in South Pasadena in 1914, the *Forrest City Times* of Forrest City, Arkansas, noted that Mr. Gates had been president of the Gates Lumber Company, based in Wilmar, Arkansas, and had accumulated a "fortune in the lumber mills, and had extensive interests on the Pacific coast."[5]

The homes of the Gates estate faced Monterey Road (including 499, 509, and 515 Monterey, among which only 499 Monterey is extant) and extended north along Indiana Avenue (including the extant residences at 1209 and 1215 Indiana Avenue, both of which were constructed in 1911). Until 1924, when the Gates brothers subdivided a large portion of the land extending northward, "Indiana Avenue" was named "Gates Place," as noted above. The home at 1209 Indiana Avenue occupies a parcel that was originally part of a tract known as "Thomas Green's Subdivision of South Pasadena Highlands," filed in 1887. Prior to the Gates family arrival in the early 1900s, Gates Place/Indiana Avenue was known as "Belleview Avenue." (The small cul-de-sac "Gates Place" that survives northeast of 1209 Indiana Avenue continues to reflect the family's early presence in the neighborhood.)

In terms of the family, one of Peter Goddard Gates' best known philanthropic gifts was to the California Institute of Technology, in the form of a $200,000 donation in 1917 to establish the Gates Chemical Laboratories.[6] Peter G. Gates passed away in 1925 at the age of 69; his nephew Charles was among the recipients of bequests made in the elder Gates' will.[7] In reaction to Gates' death, Arthur Fleming, chair of the California Institute of Technology board of trustees, commented that "Pasadena and the California Institute of Technology [have lost] a valuable friend. Ever interested in those things which he believed essential to the welfare of his country, he gave generously to the case of education."[8]

In terms of Charles Clark Gates' career, in addition to his role in the family's lumber manufacturing business, he and two of the Gates relatives, Don S. and Don F., launched an ambitious venture in 1919 in cattle grazing. The acquisition also made the Gates "among the largest holders of cattle grazing acreage in America," with a controlling interest in the Tehachapi Cattle Company, which owned thousands of head of cattle spanning 150,000 acres from Bakersfield to the Tehachapi Mountains.[9] By 1940, Charles Clark Gates had retired. In 1942, he was among a group of business leaders honored as "Quarter Century Boys" in the Rotary Club of Los Angeles.[10] The Gates' had three children, Albert D., Edith E., and Louise, all of whom were residents of 1209 Indiana Avenue during the Gates family tenure in the home.

Discussion of Criteria 3 and 6

As discussed above, 1209 Indiana Avenue is a surviving remnant of the Gates family estate, which included stately Craftsman-style homes at 499, 509, and 515 Monterey Road, and northward along present-day Indiana Avenue (known until the mid-1920s as "Gates Place"). Until at least 1950, 1209 Indiana Avenue formed part of one unified parcel with 499 Monterey Road. The east side of Indiana Avenue and parcels extending northward also appear to have belonged to the Gates family estate (though no buildings along the east appear extant).

Extant remnants of the Gates family estate include 499 Monterey Road, 1209 Indiana Avenue, and 1215 Indiana Avenue (which was owned by Don F. Gates and constructed in 1911, during a time when most of the surrounding hillside property belonged to the Gates family).

Although the residence at 1209 Indiana Avenue is associated with Charles Clark Gates, and the Gates family was well-known in early twentieth-century South Pasadena, the strength of the association and Gates' own professional achievements are not such that they confer eligibility on 1209 Indiana Avenue itself, as a single property, under Criterion 3 ("identification with a person, persons or groups who significantly contributed to the culture and development of the City, state or United States") or Criterion 6 ("identification as the work of a person or persons whose work has influenced the heritage of the City, the state or the United States"). Research has not indicated that, on his own, Charles Clark Gates, while he was a successful entrepreneur and lumber manufacturer in the family business, "significantly contributed to the culture and development" of South Pasadena or the heritage of the City.

While research on the Gates family and its South Pasadena estate is beyond the present scope, it is recommended that subsequent research consider possible eligibility as an historic district for 1209 and 1215 Indiana Avenue and 499 Monterey Road as the surviving elements of the Gates family estate.

C. Discussion of Designation Criteria

Please indicate rationale for qualification under one or more criteria in Section 2.63(B) of the South Pasadena Cultural Heritage Commission

South Pasadena Landmark Criterion 4: Its exemplification of a particular architectural style of an era of history of the City)

As noted in South Pasadena's *Citywide Historic Context Statement*, which utilized a photo of 1209 Indiana Avenue to illustrate the features of the style, the property is an intact, textbook example of the Swiss Chalet/Craftsman architectural style. The property is eligible for local landmark listing under Criterion 4 of the Cultural Heritage Ordinance. The property displays all of the character-defining features identified as key for the Craftsman theme/Swiss Chalet subtheme in the *Citywide Historic Context Statement*:

- Rectangular plan and compact, 2-story massing
- Flat, usually symmetrical primary façade
- Moderately pitched front gable roof with wide, overhanging eaves/rake, and exposed rafter tails
- Wood shingle, horizontal wood siding
- Wide porch, recessed or projecting
- Second-story balcony with plank railing, usually with decorative cut-outs
- Divided light casement or double hung wood windows
- Decorative brackets and bargeboards

In addition, with few visible alterations, the property meets the integrity threshold defined in the *Citywide Historic Context Statement.*

An outgrowth of the Arts and Crafts movement, the Swiss Chalet style is a subtype of the Craftsman architectural style, which dominated residential design in South Pasadena (and beyond) through the early 20th century. As noted in the *Citywide Historic Context Statement*, South Pasadena

> retains intact streets and neighborhoods, along with prominent individual examples, illustrating the importance of Arts and Crafts architecture and the role it played in residential development in the early 20th century. Southern California, and Pasadena in particular, was a center of the American Arts and Crafts movement; the philosophy, aesthetics, and major proponents and practitioners all influenced South Pasadena.[11]

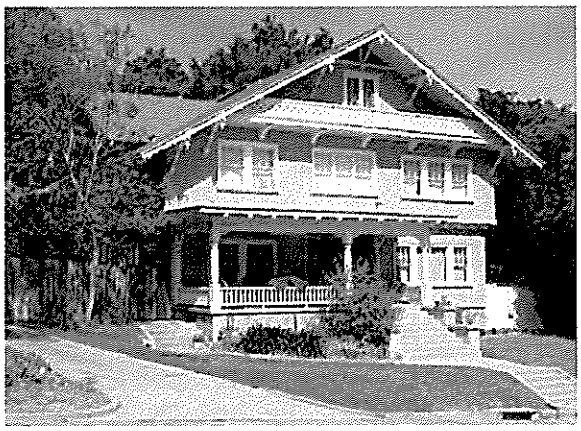
The *Citywide Historic Context Statement* provides additional context for this variant of the Craftsman style:

> The Swiss Chalet style – constructed primarily of stained wood, in which wide overhanging eaves and balconies helped integrate the outdoors as part of the living space – was compatible with the goals of the Arts and Crafts movement. The Chalet style Craftsman house usually consists of a single, rectangular two-story volume covered by front-facing gable roof. The primary façade is typically symmetrical and frequently features a wide porch topped by a second-story balcony. Porches and balconies usually have plank railings with decorative cutouts. Brackets and bargeboards are usually more decorative than those found in other variations of Craftsman architecture.[12]

[11] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 111.

[12] City of South Pasadena, Planning and Building Department. 2014. *South Pasadena Citywide Historic Context Statement*, p. 273.

Figure 23 South Pasadena *Citywide Historic Context Statement*, with the Gates Residence at 1209 Indiana Avenue as intact example of Swiss Chalet architectural style



Sub-Theme: Swiss Chalet Style

The Swiss Chalet style - constructed primarily of stained wood, in which wide overhanging eaves and balconies helped integrate the outdoors as part of the living space - was compatible with the goals of the Arts and Crafts movement. The Chalet style Craftsman house usually consists of a single, rectangular two-story volume covered by a front-facing gable roof. The primary façade is typically symmetrical and frequently features a wide porch topped by a second-story balcony. Porches and balconies usually have plank railings with decorative cutouts. Brackets and bargeboards are usually more decorative than those found in other variations of Craftsman architecture.

Character-defining features include:

- Rectangular plan and compact, 2-story massing
- Flat, usually symmetrical primary façade
- Moderately pitched front gable roof with wide, overhanging eaves and rake, and exposed rafter tails
- Wood shingle, horizontal wood siding, or cement plaster exterior wall finish, sometimes in combination
- Wide porch, recessed or projecting
- Second-story balcony with plank railing, usually with decorative cut-outs
- Divided light casement or double hung wood windows, sometimes with diamond-patterned lights
- Decorative brackets and bargeboards

Swiss Chalet: Extant Example

1209 Indiana Avenue, Gates Estate

Source: Historic Resources Group, 2014, City of South Pasadena Citywide Historic Context Statement, p. 273

In summary, as demonstrated in this nomination, 1209 Indiana Avenue meets the eligibility standards for local landmark designation under the "Architecture & Design" context, "Craftsman" theme, and "Swiss Chalet style" subtheme of the *Citywide Historic Context Statement.*

The property's principal character-defining features are as follows:

- Large, hillside lot and setback from the street
- Two-story mass and generally symmetrical design composition
- Complex roof form and detailing, with prominent medium-pitched front gable, with wide overhanging eaves resting on carved triangular knee braces with turned posts and purlins/dentils; roof eaves have uneven rakes, with a lower, longer expanse on the south elevation
- Elevated, partial-length porch with decorative wood posts, vertical, wood-plank ceiling, and low wood railing
- Sheathing materials, such as horizontal wood siding, wood shingles
- Grouped, multi-light wood-frame windows, with three-over-two and fixed panes on façade

D. Present Condition

Exterior Good/fair

The exterior shows some signs of deteriorated wood sealants and features (such as the porch wall with geometric cut-outs on the second-story balcony), wood shingles and sheathing, in particular at wall joints and in some areas along the building foundation. In addition, the property requires repairs to the roof to remedy leaking. The distinctive carved, decorative features of the roof line, including brackets, bargeboards, purlins, rafters, and porch banister, will require *Secretary's Standards*-compliant treatment and refinishing in the next several years, in order to protect and retain this character-defining feature. Some of the windows need repairs/repainting.

Interior Good/fair

The interior retains original wood-plank floors, pocket doors, and other built-in features.

Site Good/Fair

The west portion of the parcel is marked by a concrete retaining wall, which marks the division of the residence and the undeveloped hillside lot extending west. The concrete retaining wall shows signs of cracking and water penetration and is in need of a geotechnical study and plan for stabilization.

Neighborhood context The residence at 1209 Indiana Avenue represents a highly intact, distinctive example of the Swiss Chalet/Craftsman architectural style. The property is located in the foothills of South Pasadena and originally formed part of the Gates family estate, which spanned Monterey Road, from 499 to 515 Monterey, and extended north on Indiana Avenue.

E. Proponents

Michael Emerling and Ruth Ballenger, owners
Deborah Howell-Ardila, MHP, Historic Preservation Specialist

F. Owner Consent

(Although individual properties may be designated as South Pasadena historic landmarks or parcels within historic districts without owner consent, every effort should be made to inform owners of the advantages and opportunities designate and to secure owner support.) If you, as owners, support the designation of your property as a landmark or a parcel in a historic district, please so signify in the space below:

I/we certify that I/we am/are the owners of the property being hereby nominated for designation as a landmark or as a parcel within a historic district under the Cultural Heritage Ordinance of the City of South Pasadena, California and herby consent to said designation of the property as a landmark or parcel within a historic district.

ORDER NO. : 2607148080-56

EXHIBIT A

The land referred to is situated in the County of Los Angeles, City of South Pasadena, State of California, and is described as follows:

Parcel 1:

Those portions of Lots 9 and 10 of Thomas Green's Subdivision of South Pasadena Highlands, in the City of South Pasadena, California of Los Angeles, State of California, as per map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said County, described as follows:

Beginning at a point on the east line of said Lot 9, distant northerly thereon 50 feet from the southeast corner of said Lot 9, Thence westerly parallel with the southerly line of Monterey Road 125 feet to the west line of said Lot 10; Thence northerly along said west line 25 feet to a point on said line, distant northerly thereon 75 feet from southwest corner of said Lot 10; Thence easterly in a direct line to the point of beginning.

Parcel 2:

Those portions of Lots 9, 10 and 23 of Thomas Green's subdivision of South Pasadena Highlands, in the City of South Pasadena, County of Los Angeles, State of California, as per Map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said county; Also that portion of Belleview Avenue vacated, all described as follows:

Beginning at the intersection of the center line of Belleview Avenue 50 feet wide, as shown on said map, with the easterly prolongation of the south line of said Lot 23; Thence westerly along said prolongation and south line, 150 feet to the southerly prolongation of the west line of said Lot 10; Thence northerly along said prolongation and west line 100 feet to a point on said west line, distant northerly thereon 50 feet from the southwest corner of said Lot 10; Thence easterly parallel with the south line of Monterey Road 150 feet to said center line of Indiana Avenue; Thence southerly along said center line 100 feet to the point of beginning.

Parcel 3:

Those portions of Lots 11 and 23 of Thomas Green's subdivision of South Pasadena Highlands, in the City of South Pasadena, County of Los Angeles, State of California, as per Map recorded in Book 26 Page 1 of Miscellaneous Records, in the office of the County Recorder of said County, described as follows:

Beginning at the southwest corner of said Lot 11; Thence southerly along the southerly prolongation of the west line of said Lot 11, a distance of 50 feet to the south line of said Lot 23; Thence easterly along said south line 50 feet to the southerly prolongation of the east line of said Lot 11; Thence northerly along said prolongation and east line 125 feet to the south line of the land described in the Deed to Carl Block, ET UX., recorded July 29, 1939 as Instrument No. 24, In Book 16793 Page 171 official records of said county; Thence westerly along said

17

south line 50 feet to the west line of said Lot 11; Thence southerly along said west line 75 feet to the point of beginning.

EARTHQUAKE COVERAGE OFFER

Your residential property insurance policy does not cover earthquake damage to your home or its contents.

To cover earthquake damage to your home and its contents you need to purchase a separate earthquake insurance policy. The coverage provided by an earthquake insurance policy is different from, and typically more limited than, the coverage provided by your residential property insurance policy.

California law requires insurance companies to offer earthquake insurance in conjunction with a residential property insurance policy. If you do not accept the offer of earthquake insurance below within 30 days of the mailing of this notice, your insurance company shall presume that you have not accepted this offer of earthquake insurance.

You may purchase earthquake insurance coverage on the following terms:

		LIMITS:
A.	**Amount of Dwelling/Building Coverage Limit:**	$ 1,962,700
B.	**Deductible:**	15% / $ 294,405
C.	**Contents Coverage Limit:**	$ 5,000*
D.	**Additional Living Expenses Coverage Limit:**	$ 1,500*
E.	**Estimated Annual Premium:**	$ 3,796.00

The deductible represents the amount of damage your covered property must incur before the earthquake insurance coverage begins. If your covered loss is less than the applicable deductible, you may not receive any payment.

If you choose not to accept this offer within the 30-day period, you may apply for earthquake coverage at a later date.

Your insurance company contracts with the California Earthquake Authority (CEA) to offer earthquake insurance to its customers. For an additional premium, you can choose CEA coverage options such as higher limits for Contents or Additional Living Expenses, increased building code upgrade limits, or a lower deductible. You can also choose to buy certain CEA coverages separately.

Contact your insurance agent or your insurance company to obtain details regarding this offer of earthquake insurance and other coverage options.

EXHIBIT C

REHABILITATION STANDARDS

The Secretary of the Interior

Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and the environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Notices of Nonrenewal

RESOLUTION NO. 7184

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ISSUING A NOTICE OF NON-RENEWAL TO THE PROPERTY OWNERS OF 1535 RAMONA AVENUE TO END THE ANNUAL RENEWAL OF A MILLS ACT CONTRACT

WHEREAS, on December 30, 2003, a Mills Act Contract ("Contract") was made and entered into on the 30th day of December, 2003 by and between the City of South Pasadena, California, ("City"), and Susan Carter Soohoo and Jon Soohoo ("Owners") for property located at 1535 Ramona Avenue ("Historic Property"); and

WHEREAS, City and Owners, for their mutual benefit, entered into this Contract both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code; and

WHEREAS, the Contract required the Owners to preserve and maintain the characteristics of historical significance of the Historic Property in accordance with Exhibit C of that Contract which set forth a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of the Contract; and

WHEREAS, Paragraph 9 of the Contract allows the City to request any and all information which the City deems necessary or advisable to determine compliance with the terms and provisions of the Contract; and

WHEREAS, on January 10, 2011, staff sent a letter to the Owners requesting a signed statement itemizing all the work that was accomplished under their Mills Act Contract to date, and to provide evidence that the work was completed by submitting photographs and/or copies of building permits; and

WHEREAS, South Pasadena Municipal Code (SPMC) Section 2.66(b) allows the Cultural Heritage Commission ("Commission") to make recommendations to the City Council on the Contract; and

WHEREAS, on May 19, 2011, upon receiving no communication from the Owners regarding the status of the Contract and the Planning staff's confirmation that three of the sixteen restoration tasks were completed, the Commission recommended that the City Council issue a Notice of Non-Renewal of the Contract; and

WHEREAS, California Government Code Article 12, Section 50282(a) allows the City to cancel the renewal of the Contract in any year provided that the City serve written Notice of Non-Renewal of the Contract at least 60 days prior to the renewal date.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Based on the evidence presented in the staff report, testimony received during the public hearing, minutes, and other record of proceeding, the City Council hereby terminates the annual renewal of the Contract with the Owners of 1535 Ramona Avenue.

SECTION 2. The City Council directs the City Manager to issue a Notice of Non-Renewal to the Owners in a letter sent by registered mail and that the Owners receive such notice no later than October 31, 2011 (60 days prior to Contract's termination date).

PASSED, APPROVED AND ADOPTED ON this 19th day of October, 2011.

Mike Ten, Mayor

Attn: Delphina Perry-Harding
500 W. Temple Street
Los Angeles, CA 90012

RE: Mills Act Contract Agreement for
909 Lyndon Street, South Pasadena, California

Dear Ms. Harding:

This letter serves to notify the County Assessor's Office that the City of South Pasadena has issued a Notice of Non-Renewal related to a Mills Act contract agreement with current property owner, Richard W. Petty, for the property located at 909 Lyndon Street, in the City of South Pasadena. In accordance with California Government Code Article 12, Section 50282(a), the City is stopping the annual renewal of the Mills Act contract agreement with the property owner of 909 Lyndon Street. The City is serving written notice of the non-renewal to the property owners of 909 Lyndon Street more than sixty (60) days prior to the annual renewal date of October 11, 2012. The reasons for the Notice of Non-Renewal may be found in the attached City Council Resolution.

This notification and attached City Council Resolution are being forwarded to your office for review and to adjust the tax assessment for the above-mentioned property (909 Lyndon Street) so that in 10 years, the City will receive the full amount of its share of the property tax based on its taxable value at that time.

If you need additional documentation or confirmation on this matter, please contact me at (626) 403-7228 or by e-mail at jmayer@ci.south-pasadena.ca.us.

Sincerely,

John Mayer
Senior Planner

RESOLUTION NO. 7231

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ISSUING A NOTICE OF NON-RENEWAL TO THE PROPERTY OWNERS OF 909 LYNDON STREET TO END THE ANNUAL RENEWAL OF A MILLS ACT CONTRACT

WHEREAS, On October 11, 2001, a Mills Act Contract ("Contract") was made and entered into on the 11th day of October , 2001, by and between the City of South Pasadena, California, ("City"), and Eric and Karen Steen Family Trust, ("Owners") for property located at 909 Lyndon Street ("Historic Property"); and

WHEREAS, City and Owners, for their mutual benefit, entered into this Contract both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code; and

WHEREAS, The Contract required the Owners to preserve and maintain the characteristics of historical significance of the Historic Property in accordance with that Contract, which set forth a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of the Contract; and

WHEREAS, Paragraph 9 of the Contract allows the City to request any and all information that the City deems necessary or advisable to determine compliance with the terms and provisions of the Contract; and

WHEREAS, On January 10, 2011, staff sent a letter to the Owners requesting a signed statement itemizing all the work that was accomplished under their Mills Act contract to date, and to provide evidence that the work was completed by submitting photographs and/or copies of building permits; and

WHEREAS, South Pasadena Municipal Code (SPMC) Section 2.66(b) allows the Cultural Heritage Commission ("Commission") to make recommendations to the City Council on the Contract; and

WHEREAS, On April 19, 2012, upon receiving communication from the Owners regarding the status of the Contract and the Planning staff's confirmation that the restoration tasks were completed, the Commission determined that the Contract resulted in a great benefit to the City and the Historic Property, determined that this is an

appropriate time to sunset the Contract, and recommended that the City Council issue a Notice of Non-Renewal of the Contract; and

WHEREAS, California Government Code Article 12, Section 50282(a) allows the City to cancel the renewal of the Contract in any year provided that the City serve written Notice of Non-Renewal of the Contract at least 60 days prior to the renewal date.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Based on the evidence presented in the staff report, testimony received during the public hearing, minutes, and other record of proceeding, the City Council hereby terminates the annual renewal of the Contract with the current owner of 909 Lyndon Street (Mr. Richard Petty).

SECTION 2. The City Council directs the City Manager to issue a Notice of Non-Renewal to the current owner in a letter sent by registered mail and that the current owner receive such notice no later than August 12, 2012 (60 days prior to Contract's termination date).

PASSED, APPROVED AND ADOPTED ON this 11th day of July 2012.

TOTAL:								**$ 13,551.85**	**$ 135,518.50**	

Recommendation

Group 1: Full Compliance

- Staff recommends that the property owners submit a new Rehabilitation & Restoration Plan that outlines potential new work items to be carried out for the property over the next 10 years. The new work plan would be brought to the Cultural Heritage Commission for review, comment, and recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal.

Group 2: Partial Compliance / Within 10 Year Term

- Staff recommends that these contracts be brought to the Cultural Heritage Commission as an update for review and comment.

Group 3: Non-Compliant / Outside 10 Year Term

- Staff recommends that these properties be given 1 year to provide an updated Rehabilitation & Restoration Plan that identifies when the remaining tasks will be completed. These updated work plans shall then be brought to the Cultural Heritage Commission for review, comment, and a recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal. If a property owner does not provide an updated work plan within the year provided, then Staff will recommend to the City Council the Mills Act Contract associated with such property be cancelled pursuant to SPMC Section 2.68(b)(1)(D)(ix).

City Council Agenda Report

ITEM NO. 21

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Lucy Hakobian, Community Services Director

SUBJECT: **CONSIDERATION OF AN APPROPRIATION OF $23,188.78 FROM THE ARROYO SECO GOLF COURSE RESERVE FUNDS FOR THE PURCHASE OF AN EVO 74" REAR DISCHARGE ZERO TURN MOWER**

Recommendation

It is recommended that the City Council consider an appropriation of $23,188.78 from the Arroyo Seco Golf Course Reserve Funds to the Arroyo Seco Golf Course, Account No. 295-8040-8043-8520-000 to be used for the purchase of a 74" Rear Discharge Zero Turn Mower (Mower) with a Battery Charger. The total cost of the Mower will be partially offset by a $15,000 trade-in voucher provided to the City of South Pasadena by the South Coast Air Quality Management District (AQMD).

Executive Summary

Since assuming management of the Arroyo Seco Golf Course (ASGC) in 2010, Donovan Bros Golf, LLC (Donovan) has prioritized revitalizing the facility, including investments in outdated equipment. One critical area in need of modernization are the turf maintenance, mowers and machines. One of the mowers is a Toro Greensmaster 3000, which is now outdated and inefficient by modern standards. A cost analysis of available gas and diesel mower models revealed a wide price range, $15,999.96 to $40,738.60. While these models offer varying levels of performance, they also carry ongoing fuel and maintenance cost and do not align with the City's sustainability goals. In support of environmentally responsible practices, the City applied for and successfully secured a $15,000 incentive from AQMD toward the purchase of an electric rough mower. The incentive requires the trade-in of the current Toro model. The selected electric mower, which includes a 220V battery charger, is priced at $34,049.99 plus tax. After applying the AQMD incentive, the net cost to the City is $23,188.78

Background

Over the past fifteen years, the City has made numerous capital investments that have significantly enhanced both the functionality and sustainability of ASGC. These improvements include the acquisition of an all electric E-Z-Go cart, additional ball pickers, electric mowers, blowers, edgers, trimmers, and most recently an aerator. Collectively, these upgrades have contributed to improved turf care, increased energy efficiency, and enhanced guest experience. Despite these advancements, maintaining the high-quality standards of the course's greens and fairways requires ongoing investment in modern, efficient maintenance equipment. As existing equipment ages and technology continues to evolve, it is essential that the City remain proactive in acquiring the tools necessary to support optimal course

management and playability.

Analysis
Currently, the City owns a Toro Greenmaster 3000, a gas-powered, ride-on greens mower designed for precision mowing on golf course greens. While it can be used on tees and other fine turf areas with proper settings, the unit is now considered outdated in terms of both technology and environmental performance. In alignment with the City's ongoing focus on sustainability and performance, replacing the Toro mower with a modern electric precision mower is both timely and appropriate. Notably, ASGC became the first golf course in the nation to establish an American Green Zone Alliance by converting all gas and diesel-powered equipment to electric alternatives-demonstrating a long-standing commitment to environmentally responsible practices. To evaluate the most suitable replacement, staff conducted a cost comparison across various companies and mower models. The comparison below outlines pricing and key features of available options:

Model	Vendor #1	Vendor #2	Vendor #3	Horsepower
Gas Model Exmark Laser 72"	$23,098.60	$15,999.96	$18,314	25-35 hp
Diesel Model Exmark Laser 72"	$34,249	$40,738.60	N/A	25-35 hp
Electric 74"	$34,099.99 Less $15,000 AQMD incentive Battery Charger $509.99 Subtotal $19,559.98 Tax $3628.80 Total cost to City $23,188.78	N/A	N/A	35 hp

Fiscal Impact
If approved, this purchase will be funded through the Arroyo Seco Golf Course Fund Balance (non-General Fund) in the amount of $23,188.78 with an appropriation to Account No. 295-8040-8042-8520-000. The ASGC Fund Balance is approximately $2.9 million, therefore, there are sufficient funds to cover the proposed cost.

Key Performance Indicators and Strategic Plan
This item aligns with the City Council Priorities, specifically Infrastructure Priority (2)K, which emphasizes continued efforts to advance electrification and sustainable/alternative energy options.

City Council Agenda Report

ITEM NO. 22

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Michael Vartanians, Acting Public Works Co-Director

Danielle Garcia, Management Analyst

SUBJECT: **REVIEW AND DISCUSSION OF RECOMMENDATIONS OF REVISIONS TO THE CITY'S TREE ORDINANCE IN CHAPTER 34 OF THE SOUTH PASADENA MUNICIPAL CODE**

Recommendation

It is recommended that City Council review and provide feedback on recommended revisions to the South Pasadena Municipal Code Chapter 34 Trees and Shrubs (Tree Ordinance) and direct staff to draft an updated tree ordinance to be presented to City Council at a future meeting.

Executive Summary

Staff have identified several challenges in administering South Pasadena's current Tree Ordinance, including ambiguous definitions, unclear removal criteria, and a permitting process that lacks efficiency and transparency. Based on a review of neighboring cities' practices, commission feedback, and recent application trends, staff recommend the following ordinance revisions to streamline permitting, clarify tree protections, and strengthen enforcement in support of the City's urban forest sustainability goals.

1. Align ordinance with City's existing Water-Efficient Landscape Ordinance and State standards.
2. Include language on optimal seasonal timing for trimming "protected tree" species.
3. Clearly distinguish heritage trees from the "protected tree" category.
4. Create a category of "protected" trees that align to the species of trees the City has adopted by resolution 7360 to be considered native. Revise tree trimming & removal permits to only be required for this category of "protected" trees.
5. Limit tree removal/trimming notification letters to cases when the Director denies an application and an appeal is filed or for instances when the removal/trimming is associated with land development.
6. Integrate additional removal criteria to address fire risk and insurance factors.
7. Eliminate removal criteria related to the unreasonable hardship to property owner by denial of the permit (34.11(a)(2)).
8. Eliminate removal criteria related to the replacement trees being of greater value or

benefit (34.11(a)(4)).

9. Revise the number of required replacement trees for all tree removal applications. Allow flexibility in replacement size and require replacement trees to be “protected” species only.
10. Revise the ordinance to ensure that fees related to appeals for tree related permits are incurred by the appellant.
11. Revise ordinance to eliminate subjective criteria in violation assessments, enabling staff to apply enforcement consistently and fairly.
12. Amend the ordinance to exempt the City and its contractors from the requirement to obtain tree removal or trimming permits.

In addition to the ordinance revisions recommended above, t he following items will support the tree ordinance update and provide clearer guidance to residents as they navigate the revised process.

- Create guideline/check list to streamline permitting criteria for trimming and removal, providing clear guidelines early in the process
- Utilize existing City communication channels to promote tree care best practices
- Develop a comprehensive Urban Forest Management Plan

Background

Tree City USA

South Pasadena has been a Tree City USA community for over 25 years, reflecting its long-standing commitment to preserving the urban forest. This designation, awarded by the Arbor Day Foundation, recognizes the City’s efforts in maintaining a tree care ordinance, supporting community forestry through policy and funding, and promoting public engagement via Arbor Day observances. These actions align with the City’s broader environmental goals as outlined in its Climate Action and Green Action Plans.

Current Policies/Procedures

The City of South Pasadena has a long-standing commitment to protecting its urban forest, guided by the Tree Ordinance in the City's municipal code (Attachment 1). The ordinance outlines procedures for maintaining, removing, and replacing public and private trees to ensure a healthy, sustainable tree canopy.

In the current Tree Ordinance, trees are classified into categories— **Protected Trees** (e.g., mature native species, mature significant), **Street Trees** (located on city ROW & property), and **Heritage Trees** (noted for size, age, and cultural value)—each with specific permitting

and maintenance requirements. A permit is required for the removal of any protected, heritage, or street tree, as well as for major pruning (trimming of more than 10% of the canopy or root system).

Currently, removal applications are evaluated based on criteria such as safety risks, structural interference, arborist assessment, or if replacement would offer greater environmental value. If applications for tree removal are approved, replacement planting is required, with the number of replacement trees based on the size of the tree removed and/or if the application is associated with development. Deposit fees are collected and when replanting on-site is not feasible are forfeited by the applicant, funds are used to support city sponsored tree planting efforts.

Enforcement is handled by the Public Works Department, with Code Enforcement addressing unauthorized removals. The Natural Resources & Environmental Commission (NREC) reviews complex or appealed cases and provides recommendations to City Council or the Public Works Director. The Planning Review Authority reviews all applications associated with development projects – taking into consideration the recommendations of Public Works Director and/or NREC.

Recently, staff initiated and Council approved a resolution to amend the City's Tree Ordinance, with the goal of updating criteria related to dead or hazardous trees and better aligning the ordinance with community needs and climate resiliency efforts (Attachment 2). The changes included the following:

Section 34.11 (criteria for approving tree removal permit applications) was amended to add a new provision for non-development tree removal permits issued on or after April 1, 2025. Under this provision, the Director of Public Works may approve tree removals without public notice or a replacement plan if a certified arborist or the Director determines that the tree is dead, dying, or poses an imminent threat. In such cases, only one replacement tree is required, with the type and size determined at the Director's discretion.

Section 34.18 was added to the ordinance introducing administrative regulations. This section authorizes the City Manager to adopt administrative procedures, regulations, and guidelines to support the enforcement and implementation of Chapter 34 – Trees & Shrubs. All adopted materials will be made publicly available at City Hall or on the City's website.

Analysis

Current Challenges

While the City of South Pasadena's current Tree Ordinance has provided a valuable foundation for safeguarding the community's urban forest, staff has identified several

challenges in its day-to-day administration and inability to adapt to the changing needs of its community. The ordinance's definitions and classifications—such as what qualifies as a "protected," "significant," or "heritage" tree—can be ambiguous, leading to confusion among applicants and inconsistencies in enforcement. Similarly, the criteria for approval of applications proposing to remove trees is inconsistent with the modern challenges residents are facing, including establishing fire-ready landscapes or responding to insurance claims regarding the potential structural damage a tree poses. Staff see potential to strengthen the permitting process by making it more transparent, accessible, and efficient through clearer review criteria, defined timelines, and improved user navigation. Current replacement requirements do not always account for space limitations or species suitability, resulting in difficulties with implementation on constrained sites. Enforcement tools are limited, making it difficult to deter unauthorized removals or to ensure meaningful restitution when violations occur. Collectively, these challenges have highlighted the need for a comprehensive ordinance update that improves clarity, strengthens protections, and better aligns with both community values and contemporary environmental standards.

Ordinance Comparisons

Staff has conducted a comprehensive review of South Pasadena's existing Tree Ordinance in comparison with those of regional peer cities including Glendale, Arcadia, Sierra Madre, Claremont, La Canada, San Marino and Alhambra. The analysis aimed to address gaps and areas for improvement in the City's current code. Staff identified the following focus areas within the research: Maintenance Responsibility, Development and Land Use, Trimming and Pruning Criteria, Removal Criteria, Permitting Process and Compliance and Enforcement.

Maintenance responsibilities were found to be more explicitly defined in other cities – for example clearly outlining maintenance duties for private and public trees and providing education and guidelines to support resident compliance. Similar to South Pasadena's existing ordinance language pertaining to **development & land use**, peer cities require the submittal of tree surveys, certified arborist reports, and tree protection plans when tree removal or trimming is proposed in connection with land development activities.

Permitting requirements for **tree trimming** vary across jurisdictions. In certain cities, permits are limited to the trimming of designated native or protected species, while in others, no permit is required if the work is conducted by a certified arborist. Some municipalities restrict their permitting authority solely to trees located within the public right-of-way. To enhance clarity, reduce enforcement challenges, and promote consistent application of regulations, staff recommends the establishment of well-defined thresholds for when a trimming permit is required. These thresholds should be aligned with best practices and industry standards as outlined by the International Society of Arboriculture (ISA) and the American National Standards Institute (ANSI).

Consistent with South Pasadena's current **removal criteria**, all neighboring cities require

permits for tree removals and prioritize the protection of specific tree categories—most commonly native species, heritage trees, or mature street trees. Several jurisdictions streamline their permitting processes by exempting lower-impact species, such as fruit trees or palms, while others define protected trees using objective criteria such as trunk diameter or height. Notably, many cities emphasize California native species within their protected tree lists, and in several cases, these same species are required for use in mandatory tree replacements, reinforcing long-term canopy and habitat goals. These shared regional practices reflect a broader commitment to urban forest preservation and present an opportunity for South Pasadena to enhance its ordinance by more explicitly prioritizing native species and aligning with current ecological standards.

In contrast, **permitting** in many neighboring cities have streamlined their tree regulations by focusing enforcement on protected species, establishing clear thresholds for when permits are required, and incorporating professional oversight into the review process. Routine maintenance activities are frequently exempt from permitting requirements, thereby reducing the administrative burden on property owners while still safeguarding significant tree resources. Notably, cities such as Sierra Madre and Glendale are actively re-evaluating their ordinances to address emerging challenges related to aging tree canopies and increasing development pressures.

Enforcement & compliance practices vary, but many cities effectively manage limited staff resources by focusing on protected trees, applying clear criteria, and requiring professional oversight. This targeted approach reduces administrative burden while preserving urban canopy health. Most cities prioritize enforcement on native or otherwise protected trees, allowing staff to focus on the most impactful cases. Even with strong codes, enforcement can be resource-intensive, requiring a balanced strategy that includes education, outreach, and targeted compliance efforts.

Urban forest management emerged as a common priority across jurisdictions, either codified directly within municipal ordinances or referenced through supplemental guidelines. Emphasizing a balanced approach—moving beyond strict preservation measures to incorporate long-term canopy goals while accommodating the practical needs of development, utility maintenance, and public safety.

Additionally, a commonly cited best practice includes requiring that trimming or removal of protected trees be conducted by certified arborists or licensed contractors from a city-approved list – as seen in the City of La Canada. This standard helps ensure that tree work is performed safely, to industry best practices, and with proper insurance coverage—supporting both public safety and long-term urban forest health.

<u>Proposed Recommendations</u>

Based on a review of neighboring cities' practices, commission feedback, and recent application trends, staff recommend the following ordinance revisions to streamline permitting, clarify tree protections, and strengthen enforcement in support of the City's urban forest sustainability goals.

1. **Align ordinance with City's existing Water-Efficient Landscape Ordinance and State standards** —for example, by promoting sustainable site design and water conservation staff can support climate goals and provide consistency for applicants.
2. **Include language on optimal seasonal timing for trimming "protected tree" species,** aiming to promote healthy growth and minimize environmental impact. For example, specifying appropriate oak tree trimming during the dry summer months to reduce the risk of disease, aligning with local climate conditions and best practices.
3. **Clearly distinguish heritage trees from the "protected tree" category** , ensuring consistent tailored protections and management standards.
4. **Create a category of "protected" trees that align to the species of trees the City has adopted by Resolution 7360 (Attachment 3) to be considered native.** Revise tree trimming & removal permits to only be required for this category of "protected" trees. For example, focusing on native Southern California trees (i.e., Coast Live Oak, Toyon).
5. **Limit tree removal/trimming notification letters to cases when the Director denies an application and an appeal is filed or for instances when the removal/trimming is associated with land development.** For example, notifying only when decisions are contested or escalated, not for routine approvals that align with established criteria.
6. **Integrate additional removal criteria to address fire risk and insurance factors.** For example, incorporating language that aligns with State laws that require building defensible space for fire safety on properties.
7. **Eliminate removal criteria related to the unreasonable hardship to property owner by denial of the permit (34.11(a)(2)).**
8. **Eliminate removal criteria related to the replacement trees being of greater value or benefit (34.11(a)(4)).**
9. **Revise the number of required replacement trees for all tree removal applications. Allow flexibility in replacement size and require replacement trees to be "protected" species only.** For example, consider capping the replacement requirement at three trees, to be planted as minimum 24-inch box specimens, and selected from the City's "protected tree" species list. The recommended number of replacement trees is listed in the table below.

NOT ASSOCIATED WITH DEVELOPMENT PROJECT	**ASSOCIATED WITH DEVELOPMENT PROJECT**
One replacement tree shall be required for each tree removed with a caliper **between 0-16 inches.**	**Two replacement trees** shall be required for each tree removed with a caliper **between 0-16 inches.**
Two replacement trees shall be required for each tree removed with a caliper of **more than 16 inches and less than or equal to 32 inches**.	**Four replacement trees** shall be required for each tree removed with a caliper of **more than 16 inches and less than or equal to 32 inches.**

Three replacement trees shall be required for each tree removed with a caliper of **more than 32 inches.**	**Six replacement trees** shall be required for each tree removed with a caliper of **more than 32 inches.**

10. **Revise the ordinance to ensure that fees related to appeals for tree related permits are incurred by the appellant.** For example, if a resident appeals a tree removal decision – that resident would be responsible for the appeal fee instead of the property owner who submitted the original application.
11. **Revise ordinance to eliminate subjective criteria in violation assessments, enabling staff to apply enforcement consistently and fairly.** For example, remove ambiguous language on protected trees to provide clear, measurable standards that staff can uniformly enforce.
12. **Amend the ordinance to exempt the City and its contractors from the requirement to obtain tree removal or trimming permits.** This exemption would enable timely removal of hazardous trees that pose immediate public safety risks and avoid delays to previously approved capital improvement projects.

In addition to the ordinance revisions recommended above, the following items will support the tree ordinance update and provide clearer guidance to residents as they navigate the revised process.

- **Create guideline/check list to streamline permitting criteria for trimming and removal, providing clear guidelines early in the process** – for example, through an online checklist to help applicants understand requirements and submit complete applications.
- **Utilize existing City communication channels to promote tree care best practices**—for example, creating a social media campaign for seasonal trimming reminders aimed at oaks and other native trees listed on the “protected tree” species list.
- **Develop a comprehensive Urban Forest Management Plan** that establishes a long-term, holistic approach to tree canopy preservation including, but not limited to, tree planting, maintenance, species selection and risk reduction.

Fiscal Impact

There is no fiscal impact in providing direction to staff on updating this ordinance.

Commission Review and Recommendation

This item was reviewed by the Natural Resources & Environmental Commission (NREC) (Attachment 4), Public Safety Commission, and Public Works Infrastructure Commission during their regular meetings in May and June. The Public Safety and Public Works Infrastructure Commissions concurred with the feedback provided to staff by NREC and the proposed changes to the ordinance laid out in the staff recommendations. NREC held a special meeting for a final review and recommendation of the revisions listed in this report.

CHAPTER 34
TREES AND SHRUBS*

Sections:

34.1 Definitions.

34.2 Maintenance of trees on private property.

34.3 Maintenance of trees on public property.

34.4 Tree protection required in connection with development activity.

34.5 Tree trimming permit applications.

34.6 Procedure for consideration of tree trimming/removal applications.

34.7 Criteria for approving tree trimming permit applications.

34.8 Appeals of tree trimming permit decisions.

34.9 Tree removal permit applications.

34.10 Procedure for consideration of tree trimming/removal applications.

34.11 Criteria for approving tree removal permit applications.

34.12 Tree removal and replacement plans.

34.12-5 Replacement tree requirements.

34.13 Appeals of tree removal permit decisions.

34.14 Exemptions.

34.15 Obstruction.

34.16 Violations.

34.17 Penalties.

34.18 Administrative regulations.

* Prior legislation: Ords. 1991, 2051, 2126, 2188, 2191 and 2237.

* For state law as to “Tree Planting Act of 1931,” see Sts. & H C.A., §§ 22000 to 22202. As to “Park and Playground Act of 1909,” see Gov. C.A., §§ 38000 to

38213.
As to hitching animals to trees, see § 5.12 of this Code. As to collection of brush, tree, etc., trimmings and stumps, see § 16.14. As to removal of trees from parks, see § 21.7.

34.1 Definitions.
As used in this chapter:

(a) "Caliper" means the diameter of the trunk of a tree measured at four feet above natural grade. In the case of multi-trunked trees, "caliper" is the sum of each trunk measured at four feet above the grade.

(b) "Certified arborist" means a professional in tree care industry who has received their arborist certification through the International Society of Arboriculture.

(c) "City arborist" means a certified arborist designated by the director.

(d) "Commission" means the natural resources and environmental commission (NREC).

(e) "Damage" means any action taken which causes injury, disfigurement or death of a tree.

(f) "Deadwood" means limbs, branches or a portion of a tree void of green leaves during a season of the year when green leaves should be present.

(g) "Development" shall be defined per the city zoning code, SPMC 36.700.020.

(h) "Director" means public works director.

(i) "Drip line" means a series of points formed by the vertical dripping of water from the outermost branches and leaves of a tree.

(j) "Front yard" means that portion of private property as designated in the city zoning code.

(k) "Heritage tree" means a tree of historical value because it is a South Pasadena historical landmark. A heritage tree may be located on private or public property.

(l) "Intentional violation" means a violation of this chapter (Trees and Shrubs) that is committed by any person or entity who has actual or presumed knowledge of, or who has previously violated, its provisions. A commercial certified

arborist/tree trimmer, a real estate developer, a general contractor, or anyone who has previously filed an application for a tree trimming or tree removal permit in the city shall be presumed to know the provisions of this chapter.

(m) "ISA" means the International Society of Arboriculture.

(n) "Mature tree" means any variety of tree that has a caliper of at least four inches or more.

(o) "Native species tree" means any species of tree native to Southern California as defined by ordinance or resolution adopted by the city council.

(p) "Oak tree" means species of tree of the genus Quercus.

(q) "Planning review authority" means the individual or official city body (director of planning and building, design review board, cultural heritage commission, planning commission or city council) identified by the city zoning code as having responsibility and authority to review and approve or disapprove the development permit applications described in Article 6 of the city zoning code (Zoning Code Administration).

(r) "Protected shrub" means a woody plant that is over 16 feet in height, which has one or more trunk(s) equal to or greater than a four-inch diameter.

(s) "Protected tree" means a heritage tree, mature oak tree, mature native species tree, significant tree, or protected shrub.

(t) "Protection" means the safeguarding of trees through proper treatment.

(u) "Real estate developer" means a person or entity that is engaged in the business of constructing or rehabilitating commercial or residential structures within the city for sale or lease to third parties.

(v) "Removal" means uprooting, cutting or severing of the main trunk of a tree.

(w) "Shrub" means a woody plant that is less than 16 feet in height and may be multi-stemmed.

(x) "Significant tree" means any variety of tree that has a caliper of one foot or more.

(y) "Standard of care" means compliance with ANSI standards for tree care, irrigation, and maintenance, including trimming of foliage for tree or shrub.

(z) "Tree" means a woody perennial usually having one dominant trunk and a

mature height greater than 16 feet.

(aa) "Trimming" means cutting into the live wood of a tree or shrub to remove limbs and/or branches.

(bb) "ANSI" means American National Standards Institute. (Ord. No. 2328, § 1 (part), 2019.)

34.2 Maintenance of trees on private property.
Private property owners shall be responsible for the maintenance of trees on their property in accordance with the standard of care described in SPMC 34.1(y).

Pruning of oak trees and other trees should be limited to the removal of deadwood and the correction of potentially hazardous conditions as evaluated by a qualified certified arborist and approved by the director through the city's tree trimming permitting process. All pruning should be done in accordance with ISA pruning standards. (Ord. No. 2328, § 1 (part), 2019.)

34.3 Maintenance of trees on public property.
The public works department shall be responsible for the maintenance of trees on public property including but not limited to public rights-of-way and public parks. The public works department shall prepare and implement the annual work plan for the maintenance of trees on public property. The adjacent property owner or tenant is responsible for irrigation of parkway trees in accordance with Chapter 31 SPMC. (Ord. No. 2328, § 1 (part), 2019.)

34.4 Tree protection required in connection with development activity.
(a) Development must not interfere with tree standard of care. Irrigation should be administered to replace any soil moisture lost due to site excavation and a tree should continue to receive the amount of irrigation needed to thrive.

(b) Development shall not cause any physical damage to the limbs, bark, crown, or where the roots join the stem.

(c) No grading shall occur within the drip line of a protected tree. All work conducted within the protected drip line area should be accomplished only with hand tools and all activity within this area should be kept to a minimum to minimize soil compaction. This area should not be subjected to incidental construction work or to disposal of construction debris, including but not limited to paint, plaster or chemical solutions.

(d) Natural or preconstruction grade should be maintained per the recommendations of the city arborist in accordance with ANSI standards. At no

time during or after construction should soil be in contact with the trunk of any tree above natural grade.

(e) No structure shall be located nor shall any construction requiring a permit occur within six feet of the trunk of a protected tree. No building, structure, wall or impervious paving shall be constructed within the drip line of any mature oak tree. Limited exceptions may be allowed by the director and documented on the permit.

(f) Any required trenching should be routed to minimize root damage and cutting of roots should be avoided by placing pipes and cables above or below uncut roots. (Ord. No. 2328, § 1 (part), 2019.)

34.5 Tree trimming permit applications.

(a) A tree trimming permit shall be required if:

(1) More than 10 percent of the live foliage or limbs of a mature oak tree or mature native species tree will be removed within a 12-month period; or

(2) More than 20 percent of the live foliage or limbs of any heritage tree will be removed within a 12-month period.

(b) Any person applying for a tree trimming permit shall file with the director an application in writing on a form furnished by the director. The application shall contain the following information:

(1) The name and residence or business address of the applicant;

(2) The location and description of the property on which the trees are located;

(3) A description of the proposed work including the reason for tree trimming. Photographs may be provided as exhibits, if desired;

(4) The name and state contractor's license number of the person who will perform the work. Permits shall only be issued to persons possessing a C-27 or C-61 (D-49) state contracting license;

(5) Additional information as the director may require.

(c) The application shall be accompanied by a nonrefundable fee in an amount established by resolution of the city council. (Ord. No. 2328, § 1 (part), 2019.)

34.6 Procedure for consideration of tree trimming/removal applications.

(a) For tree trimming permit applications associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the property to be developed. Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director. The notification process may be waived if noticing associated with the development is being sent as required by the planning review authority and such notice specifically identifies the proposed trimming of trees.

(2) The director, after considering the application pursuant to the criteria set forth in SPMC 34.7, and any comments received from interested residents, shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree trimming application. The director's recommendations and conditions of approval shall be considered advisory to the planning review authority's decision associated with the development.

(3) When tree trimming permits associated with development are referred to the commission, the commission shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree trimming application. The commission's recommendations and conditions of approval shall be advisory to the planning review authority decision associated with the development.

(4) Tree trimming associated with development shall only be conditionally approved subject to the applicant receiving their development building permit and paying all fees associated with the tree trimming as established by resolution of the city council. Upon the planning review authority's approval of the development application and applicable conditions of approval, and payment of all required fees, the applicant shall be issued a tree trimming permit.

(b) For tree trimming permit applications not associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director.

(2) Upon expiration of the 15-day period, the application shall be reviewed by the director, who shall, after considering the application pursuant to the criteria set forth in SPMC 34.7, and any comments received from interested residents, approve, conditionally approve, or deny the application. The decision of the director shall be made in writing and provided to the applicant and to any interested persons who commented on the application.

(3) The decision of the director shall take effect 15 calendar days after the date of mailing of the decision to the applicant and any interested persons to allow for the filing of any appeals. Unless the director's decision is appealed to the commission, upon payment of all fees associated with the tree trimming as established by resolution of the city council, the applicant shall be issued a tree trimming permit.

(c) The director may refer any application for a tree trimming permit to the commission for any of the following reasons:

(1) The city receives reasonable objections during the notification period; or

(2) An appeal of the director's decision has been filed in accordance with this chapter; or

(3) At the discretion of the director.

Should the application be referred to the commission, the commission shall make its recommendation (if the permit application is associated with development) or decision (if the permit application is not associated with development) during a noticed public meeting. A decision of the commission shall not take effect until 15 calendar days after the date of the public meeting have elapsed to allow for the filing of an appeal. (Ord. No. 2328, § 1 (part), 2019.)

34.7 Criteria for approving tree trimming permit applications.

(a) A tree trimming permit may be issued in either of the following instances:

(1) Where a written determination has been made by a certified arborist that the excess foliage or limbs of the tree pose a reasonable risk of injury or harm to persons or property or are substantially interfering with the structural integrity or the use of an existing structure (including, but not limited to, a fence or wall) and there is no feasible and reasonable alternative to mitigate the interference; or

(2) Where a written determination has been made by a certified arborist,

after a visual inspection or scientific evaluation, that the limbs proposed to be trimmed are diseased or damaged. The director or commission may waive the requirement for a certified arborist's written statement when the proposed limbs to be trimmed can reasonably be determined to be dead by a layperson's visual inspection, or when, after conducting an inspection of the tree, the director determines that the tree poses an obvious and imminent threat to life or property. (Ord. No. 2328, § 1 (part), 2019.)

34.8 Appeals of tree trimming permit decisions.

(a) Appealing Tree Trimming Permit Decisions Associated with Development.

(1) Tree trimming decisions associated with development are advisory to the planning review authority as a condition of approval of development. The applicant may appeal any development decision and conditions of approval pursuant to the appeal process set forth in the zoning code.

(b) Appealing Tree Removal Permit Applications Not Associated with Development.

(1) The applicant or any interested party may appeal the decision of the director to the commission by filing an appeal in writing submitted to the commission staff liaison within 15 calendar days after the date of decision of the director.

(2) Decisions of the commission may be appealed to the city council by filing such appeal in writing submitted to the city clerk within 15 calendar days after the date of decision of the commission. The appeal shall specifically identify the grounds upon which the appeal will be taken and summarize the facts and points of law in support of the appeal.

(c) The appellant shall be responsible for all actual costs, including staff time, associated with any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.9 Tree removal permit applications.

(a) Any person applying for a tree removal permit shall file with the director an application in writing on a form furnished by the director. The application shall contain the following information:

(1) The name and residence or business address of the applicant;

(2) The location or description of the property on which the proposed trees are to be removed;

(3) A description of the proposed work including the reason for tree removal. Photographs may be included as exhibits, if desired;

(4) A tree removal and replacement plan in accordance with this chapter;

(5) The name and state contractor's license number of the person who will perform the work. Permits shall only be issued to persons possessing a C-27 or C-61 (D-49) state contracting license;

(6) Additional information as the director may require. This information may include, but is not limited to, a list obtained from the county assessor of the names of the owners of all parcels within a 100-foot radius of the property upon which the trees are to be removed or trimmed.

(b) In addition to the application requirements of subsection (a) of this section, tree removal applications associated with development shall include all of the following:

(1) An arborist report prepared by a certified arborist;

(2) Project narrative;

(3) The proposed development plan depicting the actual and proposed location of structures, topography and existing trees, whether to be retained or proposed for removal;

(4) Site plan with elevations showing before and after sight lines of the properties landscaping and trees;

(5) Any other information the director or commission deems necessary for reviewing the tree removal application.

(c) The application shall be accompanied by a nonrefundable fee in an amount established by resolution of the city council. (Ord. No. 2328, § 1 (part), 2019.)

34.10 Procedure for consideration of tree trimming/removal applications.
(a) For tree removal permit applications associated with development:

(1) The applicant shall be responsible for all fees associated with the tree removal application review and processing in accordance with the fees established by resolution of the city council.

(2) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such

property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director. The notification process may be waived if noticing associated with the development is being sent as required by the planning review authority and such notice specifically identifies the proposed removal of trees.

(3) The director, after considering the application pursuant to the criteria set forth in SPMC 34.11 and any comments received from interested residents, shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree removal application. The director's recommendations and conditions of approval shall be considered advisory to the planning review authority's decision associated with the development.

(4) When tree removal permits associated with development are referred to the commission, the commission shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree removal application. The commission's recommendations and conditions of approval shall be advisory to the planning review authority decision associated with the development.

(5) Tree removals associated with development shall only be conditionally approved subject to the applicant receiving their development building permit, paying all fees associated with the tree removal as established by resolution of the city council, and paying a deposit for the required replacement trees, in an amount sufficient to cover the cost of all required replacement trees, as determined by the city's arborist. Upon the planning review authority's approval of the development application and satisfaction of all conditions of approval, and payment of all required fees, the applicant shall be issued a tree removal permit. Upon the applicant's proof to city's satisfaction that the applicant has complied with the approved tree replacement plan, the city shall reimburse applicant's replacement tree deposit. Should applicant fail to plant any replacement tree in accordance with the approved replacement tree plan, the city shall retain the amount of the replacement tree deposit necessary to cover the cost to plant any required replacement trees in alternative locations within the city (public right-of-way, park, etc.), as permitted by this chapter.

(b) For tree removal permit applications not associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director.

(2) Upon expiration of the 15-day period, the application shall be reviewed by the director, who shall, after considering the application pursuant to the criteria set forth in SPMC 34.11, and any comments received from interested residents, approve, conditionally approve, or deny the application. The decision of the director shall be made in writing and provided to the applicant and to any interested persons who commented on the application.

(3) The decision of the director shall take effect 15 calendar days after the date of mailing of the decision to the applicant and any interested persons to allow for the filing of any appeals. The applicant shall be issued a tree removal permit following its payment of all fees associated with the tree removal as established by resolution of the city council and payment of a deposit sufficient to cover the cost of all required replacement trees as determined by the city's arborist, unless the director's decision is appealed to the commission. Upon the applicant's proof to the city's satisfaction that the applicant has complied with the approved tree replacement plan, the city shall reimburse applicant's replacement tree deposit. Should the applicant fail to plant any replacement tree in accordance with the approved replacement tree plan, the city shall retain the amount of the replacement tree deposit necessary to cover the cost to plant any required replacement trees in alternative locations within the city (public right-of-way, park, etc.), as permitted by this chapter.

(c) The director may refer any tree removal permit to the commission for decision for any of the following reasons:

(1) The applicant is proposing to remove three or more healthy nonnative significant trees; or

(2) The applicant is proposing to remove any healthy significant oak trees or significant native species trees; or

(3) The applicant is proposing to remove any heritage tree; or

(4) The city receives reasonable objections during the notification period;

or

(5) An appeal of the director's decision has been filed in accordance with this chapter; or

(6) At the discretion of the director.

Should the application be referred to the commission, the commission shall make its recommendation (if the application is associated with development) or decision (if the application is not associated with development) during a noticed public meeting. A decision of the commission shall take effect 15 calendar days after the date of public meeting to allow for the filing of any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.11 Criteria for approving tree removal permit applications.

(a) Subject to the imposition of conditions pursuant to subsection (b) of this section, a tree removal permit may be issued in any one of the following instances:

(1) Where the tree poses a reasonable risk of injury or harm to persons or property or is substantially interfering with the structural integrity or the use of an existing structure (including, but not limited to, a fence or wall), swimming pool, or building and there is no feasible and reasonable alternative to mitigate the interference.

(2) Where, upon taking into account the size, shape, topography and existing trees upon the lot, the denial of the permit would create an unreasonable hardship on the property owner. Redesign of any proposed development as an alternative to removal of an existing protected tree does not create an unreasonable hardship.

(3) Where a written determination has been made by a certified arborist, after a visual inspection or scientific evaluation, that the tree is so diseased or damaged that it is no longer viable or is a threat to persons or property, including to other trees. The director or commission may waive the requirement for a certified arborist's written statement when the tree can reasonably be determined to be dead by a layperson's visual inspection or when, after conducting an inspection of the tree, the director determines that the tree poses an obvious and imminent threat to life or property.

(4) For the removal of a significant or mature tree, where the proposed replacement tree(s) are of greater value or provide greater benefits than the tree proposed for removal.

(b) A tree removal permit may be conditioned upon the replacement or transplanting of the tree either on or off site. Such replacement or transplanting shall be subject to the following provisions:

(1) Designation by the director or the commission of the number, size, species, and location of replacement tree(s) proposed for removal, the significance of the tree(s) on the lot as viewed from a public right-of-way, the size of the lot, and the number of existing trees on the lot.

(2) Because of its size and/or significance, a single tree proposed to be removed may be required to be replaced with multiple trees. If the subject property cannot accommodate multiple trees, alternative locations within the city (public right-of-way, park, etc.) may be designated.

(3) If a replacement tree is required, the property owner must agree to accept the conditions of replacement by his or her signature on the permit application and make the replacement tree deposit (per SPMC 34.10(a)(5) or (b)(3)) before issuance of the permit.

(4) When the work designated in the permit is completed, the applicant shall contact the public works department for an inspection of the work. Any tree removal will require complete removal and grinding of the stump and backfilling of the hole.

(5) Should a designated replacement or transplanted tree not survive for a period of two years, the applicant shall be required to replace it with another tree or pay to the city the full cost of replacing the tree at a location to be determined by the city.

(6) Where the permit allows or requires the replacement or transplanting of tree(s), the director or commission may, in their discretion, as an alternative to subsection (b)(5) of this section, require the applicant to post a bond or surety for a five-year period against the survival of the tree(s). The amount of the bond or surety shall be in accordance with the “Guide for Plant Appraisal” (ISA publication, most recent edition).

(7) Unless otherwise stated in the conditions of approval, the tree removal permit shall be valid for a period of one year with the planting of any new trees on the applicant’s property to occur during the next planting season as determined by ANSI standards and local climate conditions.

(c) Notwithstanding subsections (a) and (b) of this section and SPMC 34.10(b), in

the case of an application for a tree removal permit not associated with development, if a determination has been made by either a certified arborist or the director that the tree to be removed is dead, dying, or is so diseased or damaged that it is no longer viable such that it poses an obvious and imminent threat to life or property, the director has authority to issue the tree removal permit and require only one replacement tree for each removed tree. In determining the type and size of the replacement tree, the director has discretion to determine the type and size of the replacement tree and SPMC 34.12(a) shall not apply and no replacement plan or notice is required unless requested by the director. This subsection shall apply to any permit issued on or after April 1, 2025. (Ord. No. 2328, § 1 (part), 2019; Ord. No. 2398, § 1, 2025.)

34.12 Tree removal and replacement plans.
Tree removal and replacement plans shall contain the following information:

(a) A drawing of the property which shows the location and species of all existing protected trees;

(b) A site plan showing the proposed development, including all existing and proposed structures, including the topography of the site, in accordance with SPMC 34.9(b);

(c) The tree species and trunk caliper of all trees to be removed;

(d) The reason for removal. Any trees proposed for removal due to poor health or condition shall have the condition of the tree documented in a written report prepared and signed by a certified arborist;

(e) A second drawing of the property after the proposed tree removal which shows remaining trees and all proposed replacement trees. The replacement tree sizes and species must be clearly identified; and

(f) A certified arborist review of the tree plan, if required by the director. The certified arborist shall be contracted and managed by the city and all fees incurred shall be the responsibility of the property owner. (Ord. No. 2328, § 1 (part), 2019.)

34.12-5 Replacement tree requirements.
The number of replacement trees is determined by the size of the existing tree(s) approved for removal, unless otherwise determined by the director in accordance with this chapter.

(a) Listed below are the replacement tree requirements for permitted tree

removal not associated with development:

(1) For replacement of significant trees, one 24-inch box replacement tree shall be required for each 10-inch increment of the caliper of the existing tree proposed for removal, or portion thereof. For example:

i. One 24-inch box replacement tree shall be required for each tree removed with a caliper of less than 10 inches.

ii. Two 24-inch box replacement trees shall be required for each tree removed with a caliper of between 10 and 20 inches.

iii. Three 24-inch box replacement trees shall be required for each tree removed with a caliper of between 20 and 30 inches.

iv. Four 24-inch box replacement trees shall be required for each tree removed with a caliper of between 30 and 40 inches; and so forth.

(2) For replacement of mature oak trees, mature native species trees, and heritage trees, two 24-inch box native species replacement trees shall be required for each 10-inch increment of the caliper of the existing tree proposed for removal, or portion thereof. For example:

i. Two 24-inch box native species replacement trees shall be required for each tree removed with a caliper of less than 10 inches.

ii. Four 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 10 and 20 inches.

iii. Six 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 20 and 30 inches.

iv. Eight 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 30 and 40 inches; and so forth.

(b) Listed below are the replacement tree requirements for permitted tree removals associated with development:

(1) For replacement of significant trees, one 24-inch box replacement tree shall be required for each six-inch increment of the caliper of the existing tree proposed for removal, or portion thereof. For example:

i. One 24-inch box replacement tree shall be required for each tree removed with a caliper of less than six inches.

ii. Two 24-inch box replacement trees shall be required for each tree removed with a caliper of between six and 12 inches.

iii. Three 24-inch box replacement trees shall be required for each tree removed with a caliper of between 12 and 18 inches.

iv. Four 24-inch box replacement trees shall be required for each tree removed with a caliper of between 18 and 24 inches; and so forth.

(2) For replacement of mature oak trees, mature native species trees, and heritage trees, two 24-inch box native species replacement trees shall be required for each six-inch increment of the diameter of the existing tree proposed for removal, or portion thereof. For example:

i. Two 24-inch box native species replacement trees shall be required for each tree removed with a caliper of less than six inches.

ii. Four 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between six and 12 inches.

iii. Six 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 12 and 18 inches.

iv. Eight 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 18 and 24 inches; and so forth. (Ord. No. 2328, § 1 (part), 2019.)

34.13 Appeals of tree removal permit decisions.

(a) Appealing Tree Removal Permit Applications Associated with Development. Tree removal decisions associated with development are advisory to the planning review authority as a condition of approval of development. An applicant may appeal any development decision and its conditions of approval pursuant to the appeal process set forth in the zoning code.

(b) Appealing Tree Removal Permit Applications Not Associated with Development. The applicant or any interested party may appeal the decision of the director to the commission by filing an appeal in writing submitted to the commission staff liaison within 15 calendar days after the date of decision of the director. Decisions of the commission may be appealed to the city council by filing such appeal in writing submitted to the city clerk within 15 calendar days after the date of decision of the commission. The appeal shall specifically identify the grounds upon which the appeal will be taken and summarize the facts and

points of law in support of the appeal.

(c) If a tree removal is granted for a tree on the basis of imminent threat to life or property, the decision will be considered final and is not appealable.

(d) The applicant shall be responsible for all actual costs, including staff time, associated with any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.14 Exemptions.

(a) No permit is required for the removal or trimming of a tree damaged by storm, fire, or other natural disaster which has been determined by the director, police chief, fire chief, or code enforcement officer to be dangerous to life or property.

(b) No permit is required when the fire department has deemed the trimming or removal of the tree(s) is critical to providing an effective firebreak.

(c) Public utility companies required to trim or remove trees, upon submittal of a letter to the director or their designee outlining the specific trees along with reasons for removal or trimming, shall be exempt from the provisions of this chapter.

(d) The city and its contractors will not be required to obtain permits, but shall otherwise comply with this chapter.

(e) No permit is required for the removal of shrubs, other than protected shrubs.

(f) No permit is required for trimming of any tree other than those species and sizes specified in SPMC 34.5(a). (Ord. No. 2328, § 1 (part), 2019.)

34.15 Obstruction.

(a) It is unlawful for any person, firm or corporation owning, leasing, occupying, having charge or control of any lot or premises in the city to keep or maintain thereon any tree, shrub or plant, or portion thereof, that interferes with or obstructs the free passage of pedestrians along or upon adjacent public sidewalks or of vehicles along or upon adjacent public rights-of-way.

(b) Every fence, sign, wall, hedge, tree, shrub or planting located within 75 feet of the point of intersection of the centerlines of streets or within 75 feet of the point of intersection of the centerline of a street and a railroad right-of-way that is more than 36 inches in height measured from the nearest adjacent public street level and that, in the opinion of the director, constitutes an obstruction to

the clear view of motorists on the streets is declared to be a public nuisance; provided, however, that nothing in this section shall be deemed to apply to a wall, building or structure that has been or that may be constructed under a permit issued by the building department of the city.

(c) A violation of this section does not exempt a property owner from having to otherwise comply with the permit requirements of this chapter. (Ord. No. 2328, § 1 (part), 2019.)

34.16 Violations.

(a) It is unlawful for any person to harm by any means, damage or cause to be damaged any tree located within the city, or fail to comply with the standards of care described in SPMC 34.1(y) for any tree located on their property or in an adjacent parkway.

(b) It is unlawful for any person to remove or transplant any protected tree from any property within the city unless a tree removal permit is first obtained from the city.

(c) It is unlawful for any person to trim more than 20 percent of the live foliage or limbs of any heritage tree located within the city within any 12-month period, or cause the same to be done, without first obtaining a tree trimming permit from the city.

(d) It is unlawful for any person to trim more than 10 percent of the live foliage or limbs of any mature oak tree or a mature native species tree located within the city within any 12-month period, or cause the same to be done, without first obtaining a tree trimming permit from the city.

(e) It is unlawful for any person to remove any tree from the parkway area between a sidewalk or private property line and street curb without first obtaining a tree removal permit from the city. (Ord. No. 2328, § 1 (part), 2019.)

34.17 Penalties.

Any person violating any of the provisions of this chapter is guilty of a misdemeanor, except, at the discretion of the city prosecutor, the violation may be reduced to an infraction. Persons violating any of the provisions of this chapter shall be subject to the following:

(a) Penalties for any person who unintentionally violates the provisions of this chapter shall be as follows:

(1) The standard inspection fee; and

(2) Double the required tree removal or trimming permit fee; and

(3) Planting double the number of replacement trees required pursuant to SPMC 34.12-5.

(b) Penalties for an intentional violation of this chapter not associated with development shall be as follows:

(1) The penalties described in subsection (a) of this section; and

(2) The payment of a tree replacement fee in an amount up to, but not to exceed double, the value of the destroyed, removed, or damaged tree. The city arborist shall determine the value of the destroyed, removed, or damaged tree by using the most recent edition of the ISA Guide for Plant Appraisal.

(c) Penalties for an intentional violation in connection with development or anticipated future development on the property shall be the penalties described in subsections (a) and (b) of this section and, in addition, the city manager may, in his or her discretion, refer the violation to the city prosecutor for criminal charges or to the planning commission for public hearing. The burden of proof shall be on the city to demonstrate that there is clear and convincing evidence to a reasonable certainty that there is an intentional violation. The planning commission, after considering all of the evidence, may impose the additional penalty of prohibiting the issuance of building or construction-related permits for a period up to five years from the date of the violation for the property upon which the violation occurred.

In determining whether a building permit may be issued with regard to the aforementioned prohibition, the planning commission shall consider whether the tree violation appears to be in furtherance of a development, as evidenced in the extent of tree damage, removal, damage to the root system, and/or excessive trimming of trees within the buildable area of a property; oral or written admissions; actions taken despite prior warnings; notices of violations; and the number and size of the damaged and/or removed trees.

Intentional violations in the context of development or anticipated development of property shall require the planning commission to determine whether restitution trees are to be planted on the property on which the violation occurred or on public land with costs paid to the city for tree selection, planting and maintenance, or a combination of both. The restitution trees shall be subject to either of the survival guarantees described in SPMC 34.11(b)(5) or (6).

For purposes of this section, the violation shall be presumed to have occurred on the date the city has actual knowledge of the violation, and the violator shall have the burden of proving an earlier commencement date, if entitlement to an earlier date is claimed.

Notwithstanding the aforementioned prohibition, building or construction-related permits may be issued if, in the opinion of the director of planning and building, they are necessary for the preservation of public health, safety or welfare.

(d) Payment of any penalty and planting of replacement trees shall occur within 60 calendar days of the date the violator was directed to take such action by the director. If the violator does not complete planting of replacement trees within the allotted time, the director may procure and plant the requisite replacement trees, and the violator shall be responsible for reimbursing the city for such additional costs. Reimbursement is due and payable within 30 calendar days of the city's issuance of a billing statement.

If payment of the penalty or reimbursement costs is not received by the city in 60 calendar days, the city manager can instruct that the outstanding obligation be collected in any of the following manners:

(1) A civil action in the name of the city, in any court of competent jurisdiction; or

(2) Use of a debt collection agency; or

(3) A lien on the subject property.

(e) All penalties and additional costs related to a tree violation must be paid to the city prior to its issuance of building or construction-related permits unless, in the opinion of the director of planning and building, such permits are necessary for the preservation of public health, safety or welfare. (Ord. No. 2328, § 1 (part), 2019.)

34.18 Administrative regulations.

To implement and enforce this chapter, the city manager or his designee may adopt administrative procedures, regulations and guidelines consistent with the provisions of this chapter. These administrative procedures, regulations and guidelines shall have the force and effect of law and may be relied upon by the parties to determine their rights and responsibilities under this chapter. Such administrative procedures, regulations and guidelines shall be posted at City Hall or on the city's website or made available by the city when so adopted. (Ord.

No. 2398, § 2, 2025.)

34.1 Definitions.
As used in this chapter:

(a) "Caliper" means the diameter of the trunk of a tree measured at four feet above natural grade. In the case of multi-trunked trees, "caliper" is the sum of each trunk measured at four feet above the grade.

(b) "Certified arborist" means a professional in tree care industry who has received their arborist certification through the International Society of Arboriculture.

(c) "City arborist" means a certified arborist designated by the director.

(d) "Commission" means the natural resources and environmental commission (NREC).

(e) "Damage" means any action taken which causes injury, disfigurement or death of a tree.

(f) "Deadwood" means limbs, branches or a portion of a tree void of green leaves during a season of the year when green leaves should be present.

(g) "Development" shall be defined per the city zoning code, SPMC 36.700.020.

(h) "Director" means public works director.

(i) "Drip line" means a series of points formed by the vertical dripping of water from the outermost branches and leaves of a tree.

(j) "Front yard" means that portion of private property as designated in the city zoning code.

(k) "Heritage tree" means a tree of historical value because it is a South Pasadena historical landmark. A heritage tree may be located on private or public property.

(l) "Intentional violation" means a violation of this chapter (Trees and Shrubs) that is committed by any person or entity who has actual or presumed knowledge of, or who has previously violated, its provisions. A commercial certified arborist/tree trimmer, a real estate developer, a general contractor, or anyone who has previously filed an application for a tree trimming or tree removal permit in the city shall be presumed to know the provisions of this chapter.

(m) "ISA" means the International Society of Arboriculture.

(n) "Mature tree" means any variety of tree that has a caliper of at least four inches or more.

(o) "Native species tree" means any species of tree native to Southern California as defined by ordinance or resolution adopted by the city council.

(p) "Oak tree" means species of tree of the genus Quercus.

(q) "Planning review authority" means the individual or official city body (director of planning and building, design review board, cultural heritage commission, planning commission or city council) identified by the city zoning code as having responsibility and authority to review and approve or disapprove the development permit applications described in Article 6 of the city zoning code (Zoning Code Administration).

(r) "Protected shrub" means a woody plant that is over 16 feet in height, which has one or more trunk(s) equal to or greater than a four-inch diameter.

(s) "Protected tree" means a heritage tree, mature oak tree, mature native species tree, significant tree, or protected shrub.

(t) "Protection" means the safeguarding of trees through proper treatment.

(u) "Real estate developer" means a person or entity that is engaged in the business of constructing or rehabilitating commercial or residential structures within the city for sale or lease to third parties.

(v) "Removal" means uprooting, cutting or severing of the main trunk of a tree.

(w) "Shrub" means a woody plant that is less than 16 feet in height and may be multi-stemmed.

(x) "Significant tree" means any variety of tree that has a caliper of one foot or more.

(y) "Standard of care" means compliance with ANSI standards for tree care, irrigation, and maintenance, including trimming of foliage for tree or shrub.

(z) "Tree" means a woody perennial usually having one dominant trunk and a mature height greater than 16 feet.

(aa) "Trimming" means cutting into the live wood of a tree or shrub to remove limbs and/or branches.

(bb) "ANSI" means American National Standards Institute. (Ord. No. 2328, § 1 (part), 2019.)

34.2 Maintenance of trees on private property.
Private property owners shall be responsible for the maintenance of trees on their property in accordance with the standard of care described in SPMC 34.1(y).

Pruning of oak trees and other trees should be limited to the removal of deadwood and the correction of potentially hazardous conditions as evaluated by a qualified certified arborist and approved by the director through the city's tree trimming permitting process. All pruning should be done in accordance with ISA pruning standards. (Ord. No. 2328, § 1 (part), 2019.)

34.3 Maintenance of trees on public property.
The public works department shall be responsible for the maintenance of trees on public property including but not limited to public rights-of-way and public parks. The public works department shall prepare and implement the annual work plan for the maintenance of trees on public property. The adjacent property owner or tenant is responsible for irrigation of parkway trees in accordance with Chapter 31 SPMC. (Ord. No. 2328, § 1 (part), 2019.)

34.4 Tree protection required in connection with development activity.
(a) Development must not interfere with tree standard of care. Irrigation should be administered to replace any soil moisture lost due to site excavation and a tree should continue to receive the amount of irrigation needed to thrive.

(b) Development shall not cause any physical damage to the limbs, bark, crown, or where the roots join the stem.

(c) No grading shall occur within the drip line of a protected tree. All work conducted within the protected drip line area should be accomplished only with hand tools and all activity within this area should be kept to a minimum to minimize soil compaction. This area should not be subjected to incidental construction work or to disposal of construction debris, including but not limited to paint, plaster or chemical solutions.

(d) Natural or preconstruction grade should be maintained per the recommendations of the city arborist in accordance with ANSI standards. At no time during or after construction should soil be in contact with the trunk of any tree above natural grade.

(e) No structure shall be located nor shall any construction requiring a permit

occur within six feet of the trunk of a protected tree. No building, structure, wall or impervious paving shall be constructed within the drip line of any mature oak tree. Limited exceptions may be allowed by the director and documented on the permit.

(f) Any required trenching should be routed to minimize root damage and cutting of roots should be avoided by placing pipes and cables above or below uncut roots. (Ord. No. 2328, § 1 (part), 2019.)

34.5 Tree trimming permit applications.

(a) A tree trimming permit shall be required if:

(1) More than 10 percent of the live foliage or limbs of a mature oak tree or mature native species tree will be removed within a 12-month period; or

(2) More than 20 percent of the live foliage or limbs of any heritage tree will be removed within a 12-month period.

(b) Any person applying for a tree trimming permit shall file with the director an application in writing on a form furnished by the director. The application shall contain the following information:

(1) The name and residence or business address of the applicant;

(2) The location and description of the property on which the trees are located;

(3) A description of the proposed work including the reason for tree trimming. Photographs may be provided as exhibits, if desired;

(4) The name and state contractor’s license number of the person who will perform the work. Permits shall only be issued to persons possessing a C-27 or C-61 (D-49) state contracting license;

(5) Additional information as the director may require.

(c) The application shall be accompanied by a nonrefundable fee in an amount established by resolution of the city council. (Ord. No. 2328, § 1 (part), 2019.)

34.6 Procedure for consideration of tree trimming/removal applications.

(a) For tree trimming permit applications associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the property to be developed.

Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director. The notification process may be waived if noticing associated with the development is being sent as required by the planning review authority and such notice specifically identifies the proposed trimming of trees.

(2) The director, after considering the application pursuant to the criteria set forth in SPMC 34.7, and any comments received from interested residents, shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree trimming application. The director's recommendations and conditions of approval shall be considered advisory to the planning review authority's decision associated with the development.

(3) When tree trimming permits associated with development are referred to the commission, the commission shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree trimming application. The commission's recommendations and conditions of approval shall be advisory to the planning review authority decision associated with the development.

(4) Tree trimming associated with development shall only be conditionally approved subject to the applicant receiving their development building permit and paying all fees associated with the tree trimming as established by resolution of the city council. Upon the planning review authority's approval of the development application and applicable conditions of approval, and payment of all required fees, the applicant shall be issued a tree trimming permit.

(b) For tree trimming permit applications not associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director.

(2) Upon expiration of the 15-day period, the application shall be reviewed by the director, who shall, after considering the application pursuant to the criteria set forth in SPMC 34.7, and any comments received from interested

residents, approve, conditionally approve, or deny the application. The decision of the director shall be made in writing and provided to the applicant and to any interested persons who commented on the application.

(3) The decision of the director shall take effect 15 calendar days after the date of mailing of the decision to the applicant and any interested persons to allow for the filing of any appeals. Unless the director's decision is appealed to the commission, upon payment of all fees associated with the tree trimming as established by resolution of the city council, the applicant shall be issued a tree trimming permit.

(c) The director may refer any application for a tree trimming permit to the commission for any of the following reasons:

(1) The city receives reasonable objections during the notification period; or

(2) An appeal of the director's decision has been filed in accordance with this chapter; or

(3) At the discretion of the director.

Should the application be referred to the commission, the commission shall make its recommendation (if the permit application is associated with development) or decision (if the permit application is not associated with development) during a noticed public meeting. A decision of the commission shall not take effect until 15 calendar days after the date of the public meeting have elapsed to allow for the filing of an appeal. (Ord. No. 2328, § 1 (part), 2019.)

34.7 Criteria for approving tree trimming permit applications.

(a) A tree trimming permit may be issued in either of the following instances:

(1) Where a written determination has been made by a certified arborist that the excess foliage or limbs of the tree pose a reasonable risk of injury or harm to persons or property or are substantially interfering with the structural integrity or the use of an existing structure (including, but not limited to, a fence or wall) and there is no feasible and reasonable alternative to mitigate the interference; or

(2) Where a written determination has been made by a certified arborist, after a visual inspection or scientific evaluation, that the limbs proposed to be trimmed are diseased or damaged. The director or commission may waive the requirement for a certified arborist's written statement when the

proposed limbs to be trimmed can reasonably be determined to be dead by a layperson's visual inspection, or when, after conducting an inspection of the tree, the director determines that the tree poses an obvious and imminent threat to life or property. (Ord. No. 2328, § 1 (part), 2019.)

34.8 Appeals of tree trimming permit decisions.

(a) Appealing Tree Trimming Permit Decisions Associated with Development.

(1) Tree trimming decisions associated with development are advisory to the planning review authority as a condition of approval of development. The applicant may appeal any development decision and conditions of approval pursuant to the appeal process set forth in the zoning code.

(b) Appealing Tree Removal Permit Applications Not Associated with Development.

(1) The applicant or any interested party may appeal the decision of the director to the commission by filing an appeal in writing submitted to the commission staff liaison within 15 calendar days after the date of decision of the director.

(2) Decisions of the commission may be appealed to the city council by filing such appeal in writing submitted to the city clerk within 15 calendar days after the date of decision of the commission. The appeal shall specifically identify the grounds upon which the appeal will be taken and summarize the facts and points of law in support of the appeal.

(c) The appellant shall be responsible for all actual costs, including staff time, associated with any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.9 Tree removal permit applications.

(a) Any person applying for a tree removal permit shall file with the director an application in writing on a form furnished by the director. The application shall contain the following information:

(1) The name and residence or business address of the applicant;

(2) The location or description of the property on which the proposed trees are to be removed;

(3) A description of the proposed work including the reason for tree removal. Photographs may be included as exhibits, if desired;

(4) A tree removal and replacement plan in accordance with this chapter;

(5) The name and state contractor's license number of the person who will perform the work. Permits shall only be issued to persons possessing a C-27 or C-61 (D-49) state contracting license;

(6) Additional information as the director may require. This information may include, but is not limited to, a list obtained from the county assessor of the names of the owners of all parcels within a 100-foot radius of the property upon which the trees are to be removed or trimmed.

(b) In addition to the application requirements of subsection (a) of this section, tree removal applications associated with development shall include all of the following:

(1) An arborist report prepared by a certified arborist;

(2) Project narrative;

(3) The proposed development plan depicting the actual and proposed location of structures, topography and existing trees, whether to be retained or proposed for removal;

(4) Site plan with elevations showing before and after sight lines of the properties landscaping and trees;

(5) Any other information the director or commission deems necessary for reviewing the tree removal application.

(c) The application shall be accompanied by a nonrefundable fee in an amount established by resolution of the city council. (Ord. No. 2328, § 1 (part), 2019.)

34.10 Procedure for consideration of tree trimming/removal applications.

(a) For tree removal permit applications associated with development:

(1) The applicant shall be responsible for all fees associated with the tree removal application review and processing in accordance with the fees established by resolution of the city council.

(2) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such property owners shall be given 15 calendar days from the date of mailing within which to comment on the application. All comments shall be made in writing and submitted to the director. The notification process may be

waived if noticing associated with the development is being sent as required by the planning review authority and such notice specifically identifies the proposed removal of trees.

(3) The director, after considering the application pursuant to the criteria set forth in SPMC 34.11 and any comments received from interested residents, shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree removal application. The director's recommendations and conditions of approval shall be considered advisory to the planning review authority's decision associated with the development.

(4) When tree removal permits associated with development are referred to the commission, the commission shall provide the planning review authority with recommendations and conditions of approval associated with the proposed tree removal application. The commission's recommendations and conditions of approval shall be advisory to the planning review authority decision associated with the development.

(5) Tree removals associated with development shall only be conditionally approved subject to the applicant receiving their development building permit, paying all fees associated with the tree removal as established by resolution of the city council, and paying a deposit for the required replacement trees, in an amount sufficient to cover the cost of all required replacement trees, as determined by the city's arborist. Upon the planning review authority's approval of the development application and satisfaction of all conditions of approval, and payment of all required fees, the applicant shall be issued a tree removal permit. Upon the applicant's proof to city's satisfaction that the applicant has complied with the approved tree replacement plan, the city shall reimburse applicant's replacement tree deposit. Should applicant fail to plant any replacement tree in accordance with the approved replacement tree plan, the city shall retain the amount of the replacement tree deposit necessary to cover the cost to plant any required replacement trees in alternative locations within the city (public right-of-way, park, etc.), as permitted by this chapter.

(b) For tree removal permit applications not associated with development:

(1) Upon receipt of the completed application, the director shall cause notice to be sent by first-class mail to property owners and tenants of property located within a 100-foot radius of the subject property. Such property owners shall be given 15 calendar days from the date of mailing

within which to comment on the application. All comments shall be made in writing and submitted to the director.

(2) Upon expiration of the 15-day period, the application shall be reviewed by the director, who shall, after considering the application pursuant to the criteria set forth in SPMC 34.11, and any comments received from interested residents, approve, conditionally approve, or deny the application. The decision of the director shall be made in writing and provided to the applicant and to any interested persons who commented on the application.

(3) The decision of the director shall take effect 15 calendar days after the date of mailing of the decision to the applicant and any interested persons to allow for the filing of any appeals. The applicant shall be issued a tree removal permit following its payment of all fees associated with the tree removal as established by resolution of the city council and payment of a deposit sufficient to cover the cost of all required replacement trees as determined by the city's arborist, unless the director's decision is appealed to the commission. Upon the applicant's proof to the city's satisfaction that the applicant has complied with the approved tree replacement plan, the city shall reimburse applicant's replacement tree deposit. Should the applicant fail to plant any replacement tree in accordance with the approved replacement tree plan, the city shall retain the amount of the replacement tree deposit necessary to cover the cost to plant any required replacement trees in alternative locations within the city (public right-of-way, park, etc.), as permitted by this chapter.

(c) The director may refer any tree removal permit to the commission for decision for any of the following reasons:

(1) The applicant is proposing to remove three or more healthy nonnative significant trees; or

(2) The applicant is proposing to remove any healthy significant oak trees or significant native species trees; or

(3) The applicant is proposing to remove any heritage tree; or

(4) The city receives reasonable objections during the notification period; or

(5) An appeal of the director's decision has been filed in accordance with this chapter; or

(6) At the discretion of the director.

Should the application be referred to the commission, the commission shall make its recommendation (if the application is associated with development) or decision (if the application is not associated with development) during a noticed public meeting. A decision of the commission shall take effect 15 calendar days after the date of public meeting to allow for the filing of any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.11 Criteria for approving tree removal permit applications.

(a) Subject to the imposition of conditions pursuant to subsection (b) of this section, a tree removal permit may be issued in any one of the following instances:

(1) Where the tree poses a reasonable risk of injury or harm to persons or property or is substantially interfering with the structural integrity or the use of an existing structure (including, but not limited to, a fence or wall), swimming pool, or building and there is no feasible and reasonable alternative to mitigate the interference.

(2) Where, upon taking into account the size, shape, topography and existing trees upon the lot, the denial of the permit would create an unreasonable hardship on the property owner. Redesign of any proposed development as an alternative to removal of an existing protected tree does not create an unreasonable hardship.

(3) Where a written determination has been made by a certified arborist, after a visual inspection or scientific evaluation, that the tree is so diseased or damaged that it is no longer viable or is a threat to persons or property, including to other trees. The director or commission may waive the requirement for a certified arborist's written statement when the tree can reasonably be determined to be dead by a layperson's visual inspection or when, after conducting an inspection of the tree, the director determines that the tree poses an obvious and imminent threat to life or property.

(4) For the removal of a significant or mature tree, where the proposed replacement tree(s) are of greater value or provide greater benefits than the tree proposed for removal.

(b) A tree removal permit may be conditioned upon the replacement or transplanting of the tree either on or off site. Such replacement or transplanting shall be subject to the following provisions:

(1) Designation by the director or the commission of the number, size, species, and location of replacement tree(s) proposed for removal, the significance of the tree(s) on the lot as viewed from a public right-of-way, the size of the lot, and the number of existing trees on the lot.

(2) Because of its size and/or significance, a single tree proposed to be removed may be required to be replaced with multiple trees. If the subject property cannot accommodate multiple trees, alternative locations within the city (public right-of-way, park, etc.) may be designated.

(3) If a replacement tree is required, the property owner must agree to accept the conditions of replacement by his or her signature on the permit application and make the replacement tree deposit (per SPMC 34.10(a)(5) or (b)(3)) before issuance of the permit.

(4) When the work designated in the permit is completed, the applicant shall contact the public works department for an inspection of the work. Any tree removal will require complete removal and grinding of the stump and backfilling of the hole.

(5) Should a designated replacement or transplanted tree not survive for a period of two years, the applicant shall be required to replace it with another tree or pay to the city the full cost of replacing the tree at a location to be determined by the city.

(6) Where the permit allows or requires the replacement or transplanting of tree(s), the director or commission may, in their discretion, as an alternative to subsection (b)(5) of this section, require the applicant to post a bond or surety for a five-year period against the survival of the tree(s). The amount of the bond or surety shall be in accordance with the “Guide for Plant Appraisal” (ISA publication, most recent edition).

(7) Unless otherwise stated in the conditions of approval, the tree removal permit shall be valid for a period of one year with the planting of any new trees on the applicant’s property to occur during the next planting season as determined by ANSI standards and local climate conditions.

(c) Notwithstanding subsections (a) and (b) of this section and SPMC 34.10(b), in the case of an application for a tree removal permit not associated with development, if a determination has been made by either a certified arborist or the director that the tree to be removed is dead, dying, or is so diseased or damaged that it is no longer viable such that it poses an obvious and imminent

threat to life or property, the director has authority to issue the tree removal permit and require only one replacement tree for each removed tree. In determining the type and size of the replacement tree, the director has discretion to determine the type and size of the replacement tree and SPMC 34.12(a) shall not apply and no replacement plan or notice is required unless requested by the director. This subsection shall apply to any permit issued on or after April 1, 2025. (Ord. No. 2328, § 1 (part), 2019; Ord. No. 2398, § 1, 2025.)

34.12 Tree removal and replacement plans.
Tree removal and replacement plans shall contain the following information:

(a) A drawing of the property which shows the location and species of all existing protected trees;

(b) A site plan showing the proposed development, including all existing and proposed structures, including the topography of the site, in accordance with SPMC 34.9(b);

(c) The tree species and trunk caliper of all trees to be removed;

(d) The reason for removal. Any trees proposed for removal due to poor health or condition shall have the condition of the tree documented in a written report prepared and signed by a certified arborist;

(e) A second drawing of the property after the proposed tree removal which shows remaining trees and all proposed replacement trees. The replacement tree sizes and species must be clearly identified; and

(f) A certified arborist review of the tree plan, if required by the director. The certified arborist shall be contracted and managed by the city and all fees incurred shall be the responsibility of the property owner. (Ord. No. 2328, § 1 (part), 2019.)

34.12-5 Replacement tree requirements.
The number of replacement trees is determined by the size of the existing tree(s) approved for removal, unless otherwise determined by the director in accordance with this chapter.

(a) Listed below are the replacement tree requirements for permitted tree removal not associated with development:

(1) For replacement of significant trees, one 24-inch box replacement tree shall be required for each 10-inch increment of the caliper of the existing

tree proposed for removal, or portion thereof. For example:

i. One 24-inch box replacement tree shall be required for each tree removed with a caliper of less than 10 inches.

ii. Two 24-inch box replacement trees shall be required for each tree removed with a caliper of between 10 and 20 inches.

iii. Three 24-inch box replacement trees shall be required for each tree removed with a caliper of between 20 and 30 inches.

iv. Four 24-inch box replacement trees shall be required for each tree removed with a caliper of between 30 and 40 inches; and so forth.

(2) For replacement of mature oak trees, mature native species trees, and heritage trees, two 24-inch box native species replacement trees shall be required for each 10-inch increment of the caliper of the existing tree proposed for removal, or portion thereof. For example:

i. Two 24-inch box native species replacement trees shall be required for each tree removed with a caliper of less than 10 inches.

ii. Four 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 10 and 20 inches.

iii. Six 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 20 and 30 inches.

iv. Eight 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 30 and 40 inches; and so forth.

(b) Listed below are the replacement tree requirements for permitted tree removals associated with development:

(1) For replacement of significant trees, one 24-inch box replacement tree shall be required for each six-inch increment of the caliper of the existing tree proposed for removal, or portion thereof. For example:

i. One 24-inch box replacement tree shall be required for each tree removed with a caliper of less than six inches.

ii. Two 24-inch box replacement trees shall be required for each tree removed with a caliper of between six and 12 inches.

iii. Three 24-inch box replacement trees shall be required for each tree removed with a caliper of between 12 and 18 inches.

iv. Four 24-inch box replacement trees shall be required for each tree removed with a caliper of between 18 and 24 inches; and so forth.

(2) For replacement of mature oak trees, mature native species trees, and heritage trees, two 24-inch box native species replacement trees shall be required for each six-inch increment of the diameter of the existing tree proposed for removal, or portion thereof. For example:

i. Two 24-inch box native species replacement trees shall be required for each tree removed with a caliper of less than six inches.

ii. Four 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between six and 12 inches.

iii. Six 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 12 and 18 inches.

iv. Eight 24-inch box native species replacement trees shall be required for each tree removed with a caliper of between 18 and 24 inches; and so forth. (Ord. No. 2328, § 1 (part), 2019.)

34.13 Appeals of tree removal permit decisions.

(a) Appealing Tree Removal Permit Applications Associated with Development. Tree removal decisions associated with development are advisory to the planning review authority as a condition of approval of development. An applicant may appeal any development decision and its conditions of approval pursuant to the appeal process set forth in the zoning code.

(b) Appealing Tree Removal Permit Applications Not Associated with Development. The applicant or any interested party may appeal the decision of the director to the commission by filing an appeal in writing submitted to the commission staff liaison within 15 calendar days after the date of decision of the director. Decisions of the commission may be appealed to the city council by filing such appeal in writing submitted to the city clerk within 15 calendar days after the date of decision of the commission. The appeal shall specifically identify the grounds upon which the appeal will be taken and summarize the facts and points of law in support of the appeal.

(c) If a tree removal is granted for a tree on the basis of imminent threat to life or property, the decision will be considered final and is not appealable.

(d) The applicant shall be responsible for all actual costs, including staff time, associated with any appeals. (Ord. No. 2328, § 1 (part), 2019.)

34.14 Exemptions.

(a) No permit is required for the removal or trimming of a tree damaged by storm, fire, or other natural disaster which has been determined by the director, police chief, fire chief, or code enforcement officer to be dangerous to life or property.

(b) No permit is required when the fire department has deemed the trimming or removal of the tree(s) is critical to providing an effective firebreak.

(c) Public utility companies required to trim or remove trees, upon submittal of a letter to the director or their designee outlining the specific trees along with reasons for removal or trimming, shall be exempt from the provisions of this chapter.

(d) The city and its contractors will not be required to obtain permits, but shall otherwise comply with this chapter.

(e) No permit is required for the removal of shrubs, other than protected shrubs.

(f) No permit is required for trimming of any tree other than those species and sizes specified in SPMC 34.5(a). (Ord. No. 2328, § 1 (part), 2019.)

34.15 Obstruction.

(a) It is unlawful for any person, firm or corporation owning, leasing, occupying, having charge or control of any lot or premises in the city to keep or maintain thereon any tree, shrub or plant, or portion thereof, that interferes with or obstructs the free passage of pedestrians along or upon adjacent public sidewalks or of vehicles along or upon adjacent public rights-of-way.

(b) Every fence, sign, wall, hedge, tree, shrub or planting located within 75 feet of the point of intersection of the centerlines of streets or within 75 feet of the point of intersection of the centerline of a street and a railroad right-of-way that is more than 36 inches in height measured from the nearest adjacent public street level and that, in the opinion of the director, constitutes an obstruction to the clear view of motorists on the streets is declared to be a public nuisance; provided, however, that nothing in this section shall be deemed to apply to a wall, building or structure that has been or that may be constructed under a permit issued by the building department of the city.

(c) A violation of this section does not exempt a property owner from having to otherwise comply with the permit requirements of this chapter. (Ord. No. 2328, § 1 (part), 2019.)

34.16 Violations.

(a) It is unlawful for any person to harm by any means, damage or cause to be damaged any tree located within the city, or fail to comply with the standards of care described in SPMC 34.1(y) for any tree located on their property or in an adjacent parkway.

(b) It is unlawful for any person to remove or transplant any protected tree from any property within the city unless a tree removal permit is first obtained from the city.

(c) It is unlawful for any person to trim more than 20 percent of the live foliage or limbs of any heritage tree located within the city within any 12-month period, or cause the same to be done, without first obtaining a tree trimming permit from the city.

(d) It is unlawful for any person to trim more than 10 percent of the live foliage or limbs of any mature oak tree or a mature native species tree located within the city within any 12-month period, or cause the same to be done, without first obtaining a tree trimming permit from the city.

(e) It is unlawful for any person to remove any tree from the parkway area between a sidewalk or private property line and street curb without first obtaining a tree removal permit from the city. (Ord. No. 2328, § 1 (part), 2019.)

34.17 Penalties.

Any person violating any of the provisions of this chapter is guilty of a misdemeanor, except, at the discretion of the city prosecutor, the violation may be reduced to an infraction. Persons violating any of the provisions of this chapter shall be subject to the following:

(a) Penalties for any person who unintentionally violates the provisions of this chapter shall be as follows:

(1) The standard inspection fee; and

(2) Double the required tree removal or trimming permit fee; and

(3) Planting double the number of replacement trees required pursuant to SPMC 34.12-5.

(b) Penalties for an intentional violation of this chapter not associated with development shall be as follows:

(1) The penalties described in subsection (a) of this section; and

(2) The payment of a tree replacement fee in an amount up to, but not to exceed double, the value of the destroyed, removed, or damaged tree. The city arborist shall determine the value of the destroyed, removed, or damaged tree by using the most recent edition of the ISA Guide for Plant Appraisal.

(c) Penalties for an intentional violation in connection with development or anticipated future development on the property shall be the penalties described in subsections (a) and (b) of this section and, in addition, the city manager may, in his or her discretion, refer the violation to the city prosecutor for criminal charges or to the planning commission for public hearing. The burden of proof shall be on the city to demonstrate that there is clear and convincing evidence to a reasonable certainty that there is an intentional violation. The planning commission, after considering all of the evidence, may impose the additional penalty of prohibiting the issuance of building or construction-related permits for a period up to five years from the date of the violation for the property upon which the violation occurred.

In determining whether a building permit may be issued with regard to the aforementioned prohibition, the planning commission shall consider whether the tree violation appears to be in furtherance of a development, as evidenced in the extent of tree damage, removal, damage to the root system, and/or excessive trimming of trees within the buildable area of a property; oral or written admissions; actions taken despite prior warnings; notices of violations; and the number and size of the damaged and/or removed trees.

Intentional violations in the context of development or anticipated development of property shall require the planning commission to determine whether restitution trees are to be planted on the property on which the violation occurred or on public land with costs paid to the city for tree selection, planting and maintenance, or a combination of both. The restitution trees shall be subject to either of the survival guarantees described in SPMC 34.11(b)(5) or (6).

For purposes of this section, the violation shall be presumed to have occurred on the date the city has actual knowledge of the violation, and the violator shall have the burden of proving an earlier commencement date, if entitlement to an earlier date is claimed.

Notwithstanding the aforementioned prohibition, building or construction-related permits may be issued if, in the opinion of the director of planning and building, they are necessary for the preservation of public health, safety or welfare.

(d) Payment of any penalty and planting of replacement trees shall occur within 60 calendar days of the date the violator was directed to take such action by the director. If the violator does not complete planting of replacement trees within the allotted time, the director may procure and plant the requisite replacement trees, and the violator shall be responsible for reimbursing the city for such additional costs. Reimbursement is due and payable within 30 calendar days of the city's issuance of a billing statement.

If payment of the penalty or reimbursement costs is not received by the city in 60 calendar days, the city manager can instruct that the outstanding obligation be collected in any of the following manners:

(1) A civil action in the name of the city, in any court of competent jurisdiction; or

(2) Use of a debt collection agency; or

(3) A lien on the subject property.

(e) All penalties and additional costs related to a tree violation must be paid to the city prior to its issuance of building or construction-related permits unless, in the opinion of the director of planning and building, such permits are necessary for the preservation of public health, safety or welfare. (Ord. No. 2328, § 1 (part), 2019.)

34.18 Administrative regulations.

To implement and enforce this chapter, the city manager or his designee may adopt administrative procedures, regulations and guidelines consistent with the provisions of this chapter. These administrative procedures, regulations and guidelines shall have the force and effect of law and may be relied upon by the parties to determine their rights and responsibilities under this chapter. Such administrative procedures, regulations and guidelines shall be posted at City Hall or on the city's website or made available by the city when so adopted. (Ord. No. 2398, § 2, 2025.)

ORDINANCE NO. 2398

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, AMENDING CHAPTER 34 (TREES AND SHRUBS) RELATED TO THE PROCESS FOR OBTAINING TREE REMOVAL PERMITS FOR DEAD OR DYING TREES AND THE TREE REPLACEMENT REQUIREMENT

THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DOES ORDAIN AS FOLLOWS:

SECTION 1. Section 34.11 (Criteria for approving tree removal permit applications) of Chapter 34 (Trees and Shrubs) is hereby amended by adding a new paragraph "c" to read as follows:

"(c) Notwithstanding paragraphs (a) and (b) herein and Section 34.10(b), in the case of an application for a tree removal permit not associated with development, if a determination has been made by either a certified arborist or the Director that the tree to be removed is dead, dying, or is so diseased or damaged that it is no longer viable such that it poses an obvious and imminent threat to life or property, the Director has authority to issue the tree removal permit and require only one replacement tree for each removed tree. In determining the type and size of the replacement tree, the Director has discretion to determine the type and size of the replacement tree and Section 34.12-5(a) shall not apply and no replacement plan or notice is required unless requested by the Director. This paragraph (c) shall apply to any permit issued on or after April 1, 2025."

SECTION 2. A new Section 34.18 (Administrative Regulations) shall be added to Chapter 34 (Trees and Shrubs) to read as follows:

"**34.18. Administrative regulations.**

To implement and enforce this Chapter 34, the City Manager or his designee may adopt administrative procedures, regulations and guidelines consistent with the provisions of this Chapter 34. These administrative procedures, regulations and guidelines shall have the force and effect of law and may be relied upon by the parties to determine their rights and responsibilities under this chapter. Such administrative procedures, regulations and guidelines shall be posted at City Hall or on the city's website or made available by the city when so adopted."

SECTION 3. The City Council declares that should any provision, section, paragraph, sentence, or word of this Ordinance be rendered or declared invalid by any final court action in a court of competent jurisdiction, or by reason of any preemptive legislation, the remaining provisions, sections, paragraphs, sentences and words of this Ordinance shall remain in full force and effect.

SECTION 4. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published in the manner prescribed by law, and this Ordinance shall become effective 30 days following its adoption.

PASSED, APPROVED AND ADOPTED on this 21st day of May, 2025.

Janet Braun, Mayor

ATTEST:

Hector Gomez, Chief City Clerk

APPROVED AS TO FORM:

Roxanne Diaz, City Attorney

CITY OF SOUTH PASADENA

CITY CLERK'S DIVISION

CERTIFICATION OF ORDINANCE

STATE OF CALIFORNIA)

COUNTY OF LOS ANGELES) SS

CITY OF SOUTH PASADENA)

I, Hector Gomez, Chief City Clerk of the City of South Pasadena, do hereby certify that Ordinance No. 2398, was duly and regularly approved and adopted at a Regular meeting of the City Council on this 21st day of May, 2025, by the following votes as the same appears on file and of record in the Office of the City Clerk.

AYES: Cacciotti, Ferguson, Primuth, Rossi, Mayor Braun

NOES: None.

ABSENT: None.

ABSTAIN: None.

Hector Gomez, Chief City Clerk

RESOLUTION NO. 7360

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ESTABLISHING A LIST OF PROTECTED NATIVE TREES, ADDING DROUGHT TOLERANT TREES AND RESCINDING RESOLUTION NO. 6509

WHEREAS, on December 3, 1997, Resolution No. 6509, was adopted by City Council to establish a list of protected native tree species; and

WHEREAS, the native tree list required updating; and

WHEREAS, a new list of drought tolerant trees was created due to the drought in California; and

WHEREAS, the City of South Pasadena's Natural Resources and Environmental Commission has reviewed the list of protected native trees and recommends the City Council update the list and add a list of drought tolerant trees.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council hereby adopts the attached updated list of protected native and drought tolerant trees and rescinds Resolution No. 6509.

SECTION 2. The City Council of the City of South Pasadena hereby finds that the following species of trees are native Southern California for purposes of protection and regulations as specified in the South Pasadena Municipal Code.

Common Name	Scientific Name
Coast Live Oak *	Quercus agrifolia
Holly Oak *	Quercus ilex
Southern Live Oak *	Quercus virginiana
Scrub Oak *	Quercus berberidifolia
Canyon Live Oak *	Quercus chrysolepis
Engelmann Oak *	Quercus engelmannii
California Black Oak *	Quercus kelloggii
Interior Live Oak *	Quercus wislizeni
California Bay Laurel *	Umbellularia californica

Desert Willow *	Chilopsis linearis
Catalina Ironwood *	Lyonothamnus floribundus asplenifolius
California Sycamore *	Platanus racemosa
Toyon *	Heteromeles arbutifolia
So. California Black Walnut *	Juglans californica
Hollyleaf Cherry *	Prunus ilicifolia

* *California Native*

SECTION 3. The City Council of the City of South Pasadena hereby finds that the following species of trees are drought tolerant tree species for purposes of water conservation.

Common Name	**Scientific Name**
Fruitless Olive Tree	Olea europaea 'Majestic Beauty'
Shoestring Acacia	Acacia stenophylla
Incense Cedar	Calocedrus decurrens
Fruitless Sweetgum	Liquidambar styraciflua 'Rotundiloba'
Golden Trumpet Tree	Tabebuia chrysotricha
Willow Pittosporum	Pittosporum phillyraeoides
Pink Trumpet Tree	Tabebuia impetiginosa
Chinese Hackberry	Celtis sinensis
'Pink Dawn' or 'Morning Cloud'	Chitalpa tashkentensis
Chinese Fringe Tree	Chionanthus retusus
Paperbark Tree	Melaleuca quinquenervia
Australian Bottle Tree	Brachychitons
Blue Palo Verde	Parkinsonia florida
Desert Museum Palo Verde	Cercidium x 'Desert Museum'
African Sumac	Rhus lancea
Australian Willow	Geijera parviflora
Flaxleaf Paperbark	Melaleuca linarifolia
Chinese Pistache	Pistacia chinensis
Blue Atlas Cedar	Cedrus atlantica
Crape Myrtle	Lagerstroemia indica
Western Redbud	Cercis occidentalis
Strawberry Tree	Arbutus Marina
Fan-Tex Ash	Fraxinus velutina 'Rio Grande'
Sweet Bay	Laurus nobilis
Afghan Pine	Pinus eldarcia
Columbia Plane Tree	Platanus 'Columbia'
Ornamental Pear	Pyrus 'Chanticleer'
California Pepper	Schinus molle
Saw-Leaf Zelkova	Zelkova serrate

SECTION 4. The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

PASSED, APPROVED AND ADOPTED ON this 2nd day of July, 2014.

Marina Khubesrian, M.D., Mayor

ATTEST:

Evelyn G. Zneimer, City Clerk
(seal)

APPROVED AS TO FORM:

Richard L. Adams II, City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena, California, at a regular meeting held on the 2nd day of July, 2014, by the following vote:

AYES: Cacciotti, Joe, Mahmud, Schneider, and Mayor Khubesrian

NOES: None

ABSENT: None

ABSTAINED: None

MAINTENANCE OWNERSHIP

MAINTENANCE RESPONSIBILITY

	SOUTH PASADENA	SIERRA MADRE	ARCADIA	ALHAMBRA	GLENDALE	LA CANADA	SAN MARINO	CLAREMONT
ALL CITIES RESPONSIBLE FOR CITY OWNED TREES	✓	✓	✓	✓	✓	✓	✓	✓
PRIVATELY OWNED TREES RESPONSIBLE OF PROPERTY/ TREE OWNER	✓	✓	✓	✓	✓	✓	✓	✓
RESPONSILITY OF ADVISORY BODIES / COMMISSIONS VARY BY CITY	Established maintenance standards in code and reviews tree permit appeals.	Advisory panel for the city council and staff on urban forest management.	Advises the City Council and reviews the annual City-owned tree inventory and master plan.	Not addressed in the code.	Not addressed in the code.	Develops a five-year Capital Improvement Project Plan targeting future urban forest management needs.	Interprets code application in some cases, advises on preservation policy, and enforces tree regulations.	Recommends care for trees on city-owned and private undeveloped properties and maintains a list of native trees species.

MAINTENANCE RESPONSIBILITY

PRESENT CHALLENGES

MAINTENANCE GUIDELINES

- Code acts as a guideline for residents on maintenance standards but does not enforce them.
- Community struggles with how to maintain trees and be compliant with code requirements.

IMPROVEMENTS

MAINTENANCE GUIDELINES

- Provide information to the public on the best practices of maintaining common species of trees.
- Social media posts notifying residents of the upcoming trimming season.

DEVELOPMENT & LAND USE

DEVELOPMENT & LAND USE

	SOUTH PASADENA	SIERRA MADRE	ARCADIA	ALHAMBRA	GLENDALE	LA CANADA	SAN MARINO	CLAREMONT
TREE PROTECTION MITIGATION MEASURES	✓	✓	✓	✓	✓	✓	✓	✓ For work on City property only.
TREE REPLACEMENT PLAN OR ARBORIST REPORT REQUIRED	Note that protected species and tree classifications vary per City Arborist report and removal/ replacement plan required for every species of tree.	Tree survey is required [as part of permit process]. Must enter mitigation agreement with City.	Tree replacement plan [required for every protected tree approved for removal].	Not addressed in the code.	Tree replacement plan and arborist report.	Site plan and replacement plan required.	Tree restoration and protection plan required.	Not addressed in the code.
TREE REPLACEMENT REQUIREMENT	Double the normal replacement requirement .	Replaced within 1 year of removal by a minimum of 1 tree of the same species or suitable alternatives.	Replacement based on higher value or cost, plus planting. Type & replacement decided by director.	If violation occurs: Required number of replacement trees shall be double the standard provision.	One or more trees planted as a mitigation measure [replacing protected indigenous].	Tress must be replaced onsite. The size of replacement based on size of protected tree removed.	Heritage and oak trees replaced with equivalent species.	Not addressed in the code.

REPLACEMENT PLANS & ARBORIST REPORTS MAY INCLUDE: TREE SPECIES, AESTHETIC ASSESSMENT, MITIGATION RECOMMENDATIONS, HEALTH EVALUATION, TREE DIAMETER, REPLACEMENT CRITERIA

MITIGATION MEASURES MAY INCLUDE: ESTABLISHING TREE PROTECTION ZONE (TPZ), ONGOING IRRIGATION, UTILIZATION OF HANDTOOLS ROOT PROTECTION ZONE, AVOID WORK IN DRIPLINE, SUFFICIENT GUARDS OR PROTECTOR

DEVELOPMENT & LAND USE

PRESENT CHALLENGES

ENFORCEMENT

- Current code language sets an unclear expectation for the interrelation between development and tree protection

URBAN FOREST MANAGEMENT

- The city lacks long term goals and pathway for the preservation of the urban forest

IMPROVEMENTS

ENFORCEMENT

- Aligning the code with the City's and State's current standards and expectations for development

URBAN FOREST MANAGEMENT

- Create measurable benchmarks for the maintenance and enhancement of the city's urban forest through a Comprehensive Management Plan:
  - Addressing the planting of new trees
  - Removing dead/hazardous trees
  - Conducting reforestation in city owned properties
  - Establish tree species guidelines for various corridors throughout the City.
  - Explore planting fire-resistant trees in high severity zones.

TRIMMING & PRUNING CRITERIA

TRIMMING & PRUNING CRITERIA

	SOUTH PASADENA	SIERRA MADRE	ARCADIA	ALHAMBRA	GLENDALE	LA CANADA	SAN MARINO	CLAREMONT
PERMIT REQUIRED	✓ Required for all mature oak trees, mature native trees and heritage trees.	✓ Required for all street tree and protected tree [both associated and unassociated with development project].	Permit is not required. Trimming of a protected tree guided by ISA/ANSI standards. Property owners additionally require consultation and written confirmation from Certified Arborist.	✓ Permit not required for routine trimming, trees located on side/rear yards of private property, fruit trees, any palm tree, and removal of dead wood.	✓ Permit required for protected indigenous trees – including arborist report.	✓ Any Certified arborists and tree trimmer required to be selected from City's official list.	✓ Includes mention of contracting license C-27 or C-61.	Permit is not required for trees on private property.
ISA/ANSI STANDARDS MENTION OR GUIDELINES	✓ **>10%** of the live foliage of a mature oak tree or mature native species tree **>20%** of live foliage of any heritage tree	✓ Required for "substantial trimming" – defined as **>25%** of the live grown of a street or protected tree	✓	May require residents to enter an agreement to pay all costs incurred for inspection.	✓	✓	✓ **>10%** of live foliage of a mature oak tree **>20%** of live foliage of any heritage tree or established tree	✓ Included under definition of pruning.

TRIMMING & PRUNING CRITERIA

PRESENT CHALLENGES

PROVIDING CLARITY

- The current language provides unclear guidelines for both applicants and staff on permissions for tree trimming.

INDUSTRY BMP'S

- Contains a live foliage measurement standard that is difficult to apply and enforce.

IMPROVEMENTS

PROVIDING CLARITY

- Provide guidance on appropriate times of the year to trim oak species.

INDUSTRY BMP'S

- Separate the criteria for tree trimming from that of tree removal, and introduce clear, tangible guidelines early in the process to help applicants understand and comply with the requirements.

REMOVAL CRITERIA

REMOVAL CRITERIA

	SOUTH PASADENA	SIERRA MADRE	ARCADIA	ALHAMBRA	GLENDALE	LA CANADA	SAN MARINO	CLAREMONT
PERMIT REQUIRED	✓ Permit required for all trees.	✓ Required for all street trees, protected trees [both associated and unassociated with development project].	✓ Required for all protected trees.	✓ Permit required for all trees. Permit not required for trees located on side/rear yards of private property, fruit trees, and any palm tree.	✓ Permit required for protected indigenous trees – including arborist report.	✓ Required for all protected trees.	✓ Includes mention of contracting license: C-27 or C-61.	Permit not required for trees on private property. Permit required for trees located within public ROW.
PROTECTED TREE SPECIES	• Native Tree: Species native to Southern California • Oak Tree: Tree of the genus Quercus • Significant Tree: Any variety of tree that has caliper of 1ft or more	• California Scrub Oak • Coast Live Oak • Coast Scrub Oak • Engelman n Oak • Southern California Black Walnut • Western Sycamore	• Oak Trees • Sycamore Trees	• Oak Trees: Taller than 15ft or 12inch diameter • California Natives: taller than 15 ft or 12-inch diameter • Mature Trees: taller than 20ft or 24-inch diameter	• Coast Live Oak • Mesa Oak • California Sycamore • Valley Oak • Scrub Oak • California Bay	• Oak Trees • Sycamore Trees • Deodar Cedars • Any tree over 5 ft in non-residential • Any trees on public property	• Established Tree: Any tree 15ft or 6inch diameter • * Heritage Tree: Tree 15ft or 4 in diameter • Oak Tree: Any genus Quercus; 15ft or 4-inch diameter	*Maintains designated street tree list.

*** = EXTENSIVE LIST**

REMOVAL CRITERIA

	SOUTH PASADENA	SIERRA MADRE	ARCADIA	ALHAMBRA	GLENDALE	LA CANADA	SAN MARINO	CLAREMONT
ASSOCIATED FEE	Tree removal permit: **$364** Private property tree removal [removing 4+ trees]: **$504** Inspection removal fee: **$141**	No fee for tree removal permits. Commission review: **$173** Tree replacement: **Actual cost + 15% processing fee**	Tree permit fee: **Range $138 to $1,053** *Exemptions:* • No fee for tree permit applications associated w/ diseased or hazardous protected trees	Tree removal permit: **$600**	Street tree application fee: **$205** Indigenous tree application fee: **$880** Indigenous tree inspection & monitoring fee: **$513** Indigenous tree; removing a dead tree: **$94** Public works tree installation: **ranging $343 - $6,113**	Tree Removal App: **$220** Appeal Removal of City Tree**: $220 + outside costs** Appeal of Public Works & Traffic Commission City Tree Removal**: $220 +outside costs**	Tree Removal Permit ROW- **$700** Tree Removal Permit Private - **$415** Appeal of Private Tree Removal Permit - **$545 per appeal** Appeal to City Council - **$905 per appeal** Appeal to Planning Commission - **$905 per appeal**	No fee associated with tree removal permit.
TREE REPLACEMENT REQUIREMENT	1 to 2 24” box tree will be required as a replacement for each 6in increment for any tree or native species. 1 to 2 24” box tree will be required for each 10in increment for any tree or native species.	Protected Trees: 1:1 replacement; min. 24" box, same species or suitable alternative Heritage Trees (100+ yrs): 1:1 replacement with large specimen trees	Every protected tree approved for removal to be replaced with a minimum of two (2) new 24-in box trees.	Oaks/Natives: 2× 24" box per 10" lost. Mature trees: 1× 24" box per 10", similar/native species.	Mitigation trees must not exceed removed/protected tree diameters; minimum 24-inch box size unless smaller approved.	12”-23” • 1 replacement tree • 24” box size 24”-35” • 1 replacement tree • 36” box size 36” or greater • 1 replacement tree • 48” box size	4-8” • One 36” box 9-12” • Two 36” box 13-18” • Four 24” box OR two 36” box 19-36” • Eight 24” box OR four 36” box 37” or greater • Twelve 24” box OR eight	City encourages same/larger stature tree for each removed; replant next season unless site deemed non-viable.

REMOVAL CRITERIA

PRESENT CHALLENGES

ALLEVIATING THE BURDEN

The current process of removal can be lengthy and a financial burden to residents and developers.

IMPROVEMENTS

ALLEVIATING THE BURDEN

Explore language that streamlines the permitting process through:

- Reducing tree species list to only native species that require tree removal permit.
- Adjusting replacement requirements for removals.
- Clearly outline how an application can be approved/denied.
- Require notification letters for NREC appeals only.
- Provide expected permit processing schedule flow chart.

REMOVAL CRITERIA

PRESENT CHALLENGES

ADDRESSING TODAY'S CHALLENGES

As the city's canopy continues to age, the ordinance requirements and regulations are not able to keep up.

IMPROVEMENTS

ADDRESSING TODAY'S CHALLENGES

Update language to navigate today's challenges with existing/inherited trees. Addressing issues such as retaining/obtaining fire and household insurance, creating a defensible space for fire risks, and encouraging new developments while still prioritizing the longevity and sustainability of the existing urban forest.

Restructure the tree replacement fund deposits to contribute to the city's overall management of City's Urban Forest.

PERMITTING PROCESS

PERMITTING PROCESS

PRESENT CHALLENGES

CRITERIA FOR TREE REMOVAL APPROVAL

Current ordinance does not consider contemporary concerns with wildfires and insurances as it does with structural interference and risks to life, safety and property.

COMPLEX & LENGTHY PERMITTING PROCESS

The permitting process includes many decision points, documents, expenditures, stakeholders and is not easily navigated by community members.

This multi-step process can be time-consuming and may delay necessary actions, especially when urgent safety issues are involved.

IMPROVEMENTS

CRITERIA FOR TREE REMOVAL APPROVAL

Opportunity to expand current eligibility removal criteria to address these challenges.

COMPLEX & LENGTHY PERMITTING PROCESS

Streamline the permitting process to ensure native trees are protected and minimize the overhead time and costs associated with reviewing and processing a tree removal permit.

Streamlining the permitting process will also allow residents to address urgent issues in a timely manner while still adhering the City municipal code.

PERMITTING PROCESS

PRESENT CHALLENGES

FINANCIAL BURDEN ON APPLICANTS

The requirement for replacing trees can be financially burdensome, particularly for residents facing significant costs for tree removal or maintenance. Residents often pay for arborist reports, replanting and sometimes even staff time for appeals.

HIGH POTENTIAL FOR PUBLIC DISPUTES

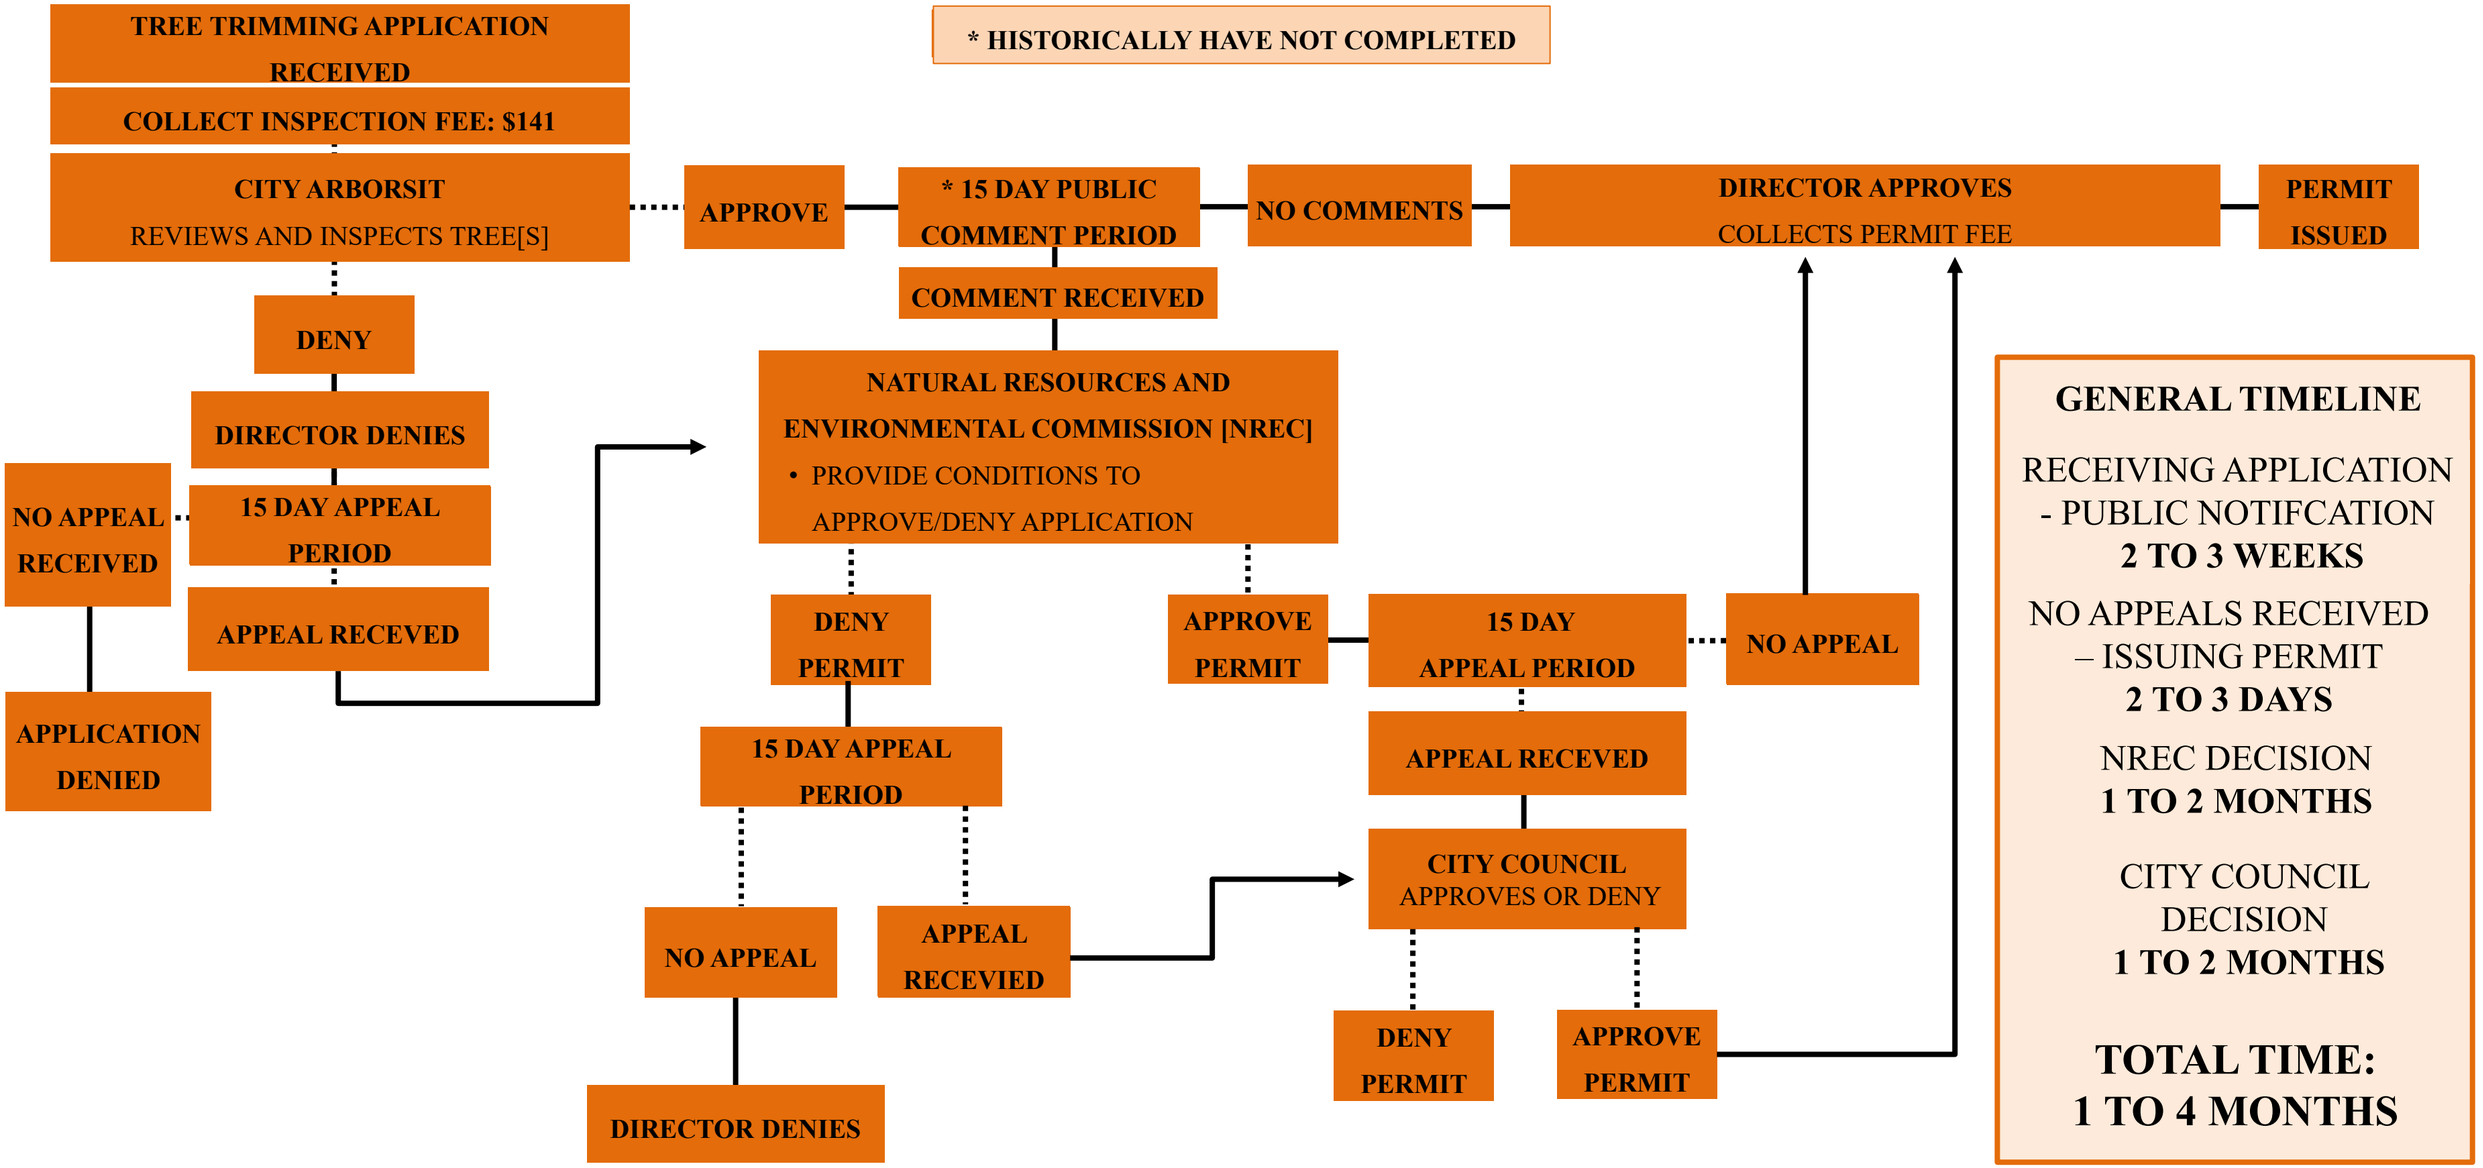
The permitting process can lead to disputes among neighbors, as seen in cases where tree removal applications have sparked controversy. These disputes can escalate, involving legal action and community tensions, highlighting the need for clearer guidelines and better communication.

IMPROVEMENTS

FINANCIAL BURDEN ON APPLICANTS

Implement lower replacement requirement.

Require 100’ radius notification letter if removal application is development related, is denied and applicant appeals Director decision or when the Director refers the decision to the NREC.



Allow 1 year for applicants to fulfill replacement requirement.

HIGH POTENTIAL FOR PUBLIC DISPUTES

Redefine when a notification letter for a tree removal is required. Additionally, correct that the appeal fee should be paid by the individual filing the appeal, not by the original applicant.

ENFORCEMENT & COMPLIANCE

ENFORCEMENT & COMPLIANCE

PRESENT CHALLENGES

LACK OF CLARITY AND TRANSPARENCY

The current enforcement criteria and violation conditions are not always clear which hinders staff in being able to consistently enforce the municipal code.

STAFF RESOURCES

The enforcement demands outweigh staff resources due to current municipal codes application to all trees.

IMPROVEMENTS

LACK OF CLARITY AND TRANSPARENCY

Remove subjective criteria allowing staff to apply violations consistently.

STAFF RESOURCES

Focusing ordinance on protected trees allowing staff to enforce municipal code without subjective interpretation.

City of SOUTH PASADENA
PUBLIC WORKS

STAFF RECOMMENDATIONS

FOCUS AREA	RECOMMENDATION
MAINTENANCE & OWNERSHIP	Staff recommends instituting more resources on best practices for common tree care. Including but not limited to notifying residents of trimming season through social media campaigns, website links, local newspapers and other standard city communication methods.
DEVELOPMENT & LAND USE	Staff recommends aligning the code with the City's and State's current standards and expectations for development. Staff additionally recommends developing a comprehensive Urban Forest Management Plan to set a more holistic approach to planting, maintenance, species selection and risk reduction.
TRIMMING/ PRUNING CRITERIA	Staff recommends integrating guidance on the optimal times of year to trim oak tree species to promote healthy growth and minimize environmental impact. Staff recommends streamlining the permit process including creating separate criteria for tree trimming from that of tree removal, and introducing clear, tangible guidelines early in the process to help applicants understand and comply with the requirements. Staff similarly recommends reviewing and revising the language related to heritage trees to distinguish them from other protected trees.

City of SOUTH PASADENA
PUBLIC WORKS

STAFF RECOMMENDATIONS

FOCUS AREA	RECOMMENDATION
REMOVAL CRITERIA	Staff recommends revising code language to streamline the tree removal process by limiting the species list to protected tree species only. Additionally consider adjusting replacement requirements, amending approval criteria, only require notification letters when Director denies applications and applicant has appealed Director decision or Director has referred decision to NREC, and provide expected permit processing schedule flow chart. Staff recommends refining language to more effectively address contemporary challenges related to existing trees. Including but not limited to: • Fire risk mitigation • Insurance implications • Facilitation of new developments • Prioritizing resilience of urban forest
PERMITTING	Staff recommends streamlining the permitting process to ensure native trees are protected and minimize the overhead time and costs associated with reviewing and processing a tree removal permit. Implement lower replacement requirement (consider models established by other cities). Require 100’ radius notification letter if removal application is development related, is denied and applicant appeals Director decision or when the Director refers the decision to the NREC. Additionally, correct that the appeal fee should be paid by the individual filing the appeal, not by the original applicant.

City of SOUTH PASADENA
PUBLIC WORKS

STAFF RECOMMENDATIONS

FOCUS AREA	RECOMMENDATION
ENFORCEMENT & COMPLIANCE	Staff recommends removing subjective criteria allowing staff to apply violations consistently. Focusing ordinance on protected trees allowing staff to enforce municipal code without subjective interpretation.

COMMISSION FEEDBACK

CITY ANALYSIS & STAFF PROPOSED RECOMMENDATIONS REVIEWED BY:

- **Natural Resources & Environmental Commission:** May 27 & July 7 [*Special Meeting*]
- **Public Safety Commission:** June 9
- **Public Works Infrastructure Commission:** June 11

Allow for **collaboration with key stakeholders** – including Fire Department, insurance companies and legal experts to help ensure the updates to the ordinance **address the modern challenges** and meets the current needs of the community.
Exploring a **timelier response time** for City to respond to **hazardous removals/trimmings**.
Stronger emphasis on **native tree replacement** – this will assist with fire mitigation and water conservation efforts the City is already undergoing.
Explore having the **replacement requirements** be flexible beyond of a minimum of 24-inch box trees.
Agree with reducing the use of subjective language and **potentially including a supplemental checklist** that is associated with the removal/trimming permitting criteria.
Include mention of the **penalties of illegal removal or trimming** earlier in the ordinance.
Appreciate how this change is about simplifying and improving the management/process of those applying for removals. Specifically, like it because it will **improve compliance** and give staff a better understanding of the existing urban canopy.

City of SOUTH PASADENA
PUBLIC WORKS

EXISTING REMOVAL CRITERIA

SOUTH PASADENA MUNICIPAL CODE CHAPTER 34

EXISTING CRITERIA [SECTION 34.11]

(1) Where the tree poses a **reasonable** risk of injury or harm to persons or property or is **substantially** interfering with the structural integrity or the use of an existing structure (including, but not limited to, a fence or wall), swimming pool, or building **and there is no feasible and reasonable alternative to mitigate the interference.**

(2) Where, upon taking into account the **size, shape, topography** and existing trees upon the lot, the denial of the permit would create an **unreasonable hardship** on the property owner. Redesign of any proposed development as an alternative to removal of an existing protected tree does not create **an unreasonable hardship**.

(3) Where **a written determination** has been made by a certified arborist, after a visual inspection or scientific evaluation, that the tree is so diseased or damaged that it is no longer viable or is a threat to persons or property, including to other trees. The director or commission may waive the requirement for a certified arborist's written statement when the tree can reasonably be determined to be dead by a layperson's visual inspection or when, after conducting an inspection of the tree, the director determines that the tree poses an **obvious and imminent threat to life or property**.

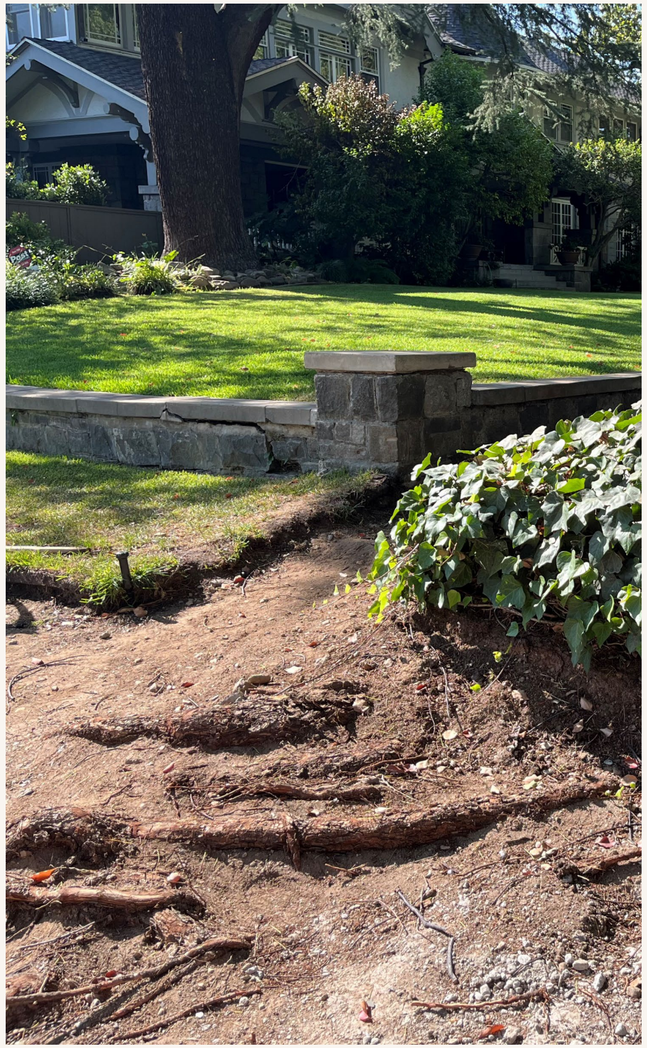
(4) For the removal of a significant or mature tree, where the proposed replacement tree(s) **are of greater value or provide greater benefits** than the tree proposed for removal.

PROPOSED REMOVAL CRITERIA

City of SOUTH PASADENA PUBLIC WORKS

SOUTH PASADENA MUNICIPAL CODE
CHAPTER 34 - TREES & SHRUBS

CRITERIA FOR PRIVATE PROPERTY OWNERS



(1) Where the tree poses a risk of injury or harm to persons or property.

(2) Where the tree is interfering with the structural integrity or the use of an existing structure.

(3) Where the tree is dead, dying, or diseased. In such cases, only one replacement tree is required.

(4) Where the tree is preventing a property owner from renewing homeowner's insurance and the property owner has provided evidence of a letter of cancellation.

(5) Where a written determination has been issued by the Fire Chief or the Chief's designee that removal of the tree is necessary to achieve or maintain the defensible-space clearance required.

City of SOUTH PASADENA
PUBLIC WORKS

STAFF RECOMMENDATIONS

1. Align ordinance with **City's existing** Water-Efficient Landscape Ordinance and **State standards**.

2. Include language on **optimal seasonal timing for trimming "protected tree"** species.

3. Clearly **distinguish heritage trees** within the "protected tree" category.

4. Redefine the **category of "protected" trees** to align with the species of trees the City has **adopted by resolution 7360** to be considered native. **Revise tree trimming & removal permits** to **only be required for this category of "protected" trees.**

5. **Limit tree removal/trimming notification letters** to cases when the Director denies an application and an appeal is filed or for instances when the removal/trimming is **associated with land development**.

6. Integrate additional removal criteria to **address fire risk and insurance factors**.

STAFF RECOMMENDATIONS

7. Eliminate **removal criteria** related to the **unreasonable hardship** to property owner by denial of the permit (34.11(a)(2)).

8. Eliminate **removal criteria** related to the **replacement trees being of greater value or benefit** (34.11(a)(4)).

9. Revise **the number of required replacement trees** for all tree removal applications. Allow **flexibility in replacement size** and require replacement trees to be “protected” species only.

10. Revise the ordinance to ensure that fees related to appeals for tree related permits are **incurred by the appellant.**

11. Revise ordinance to eliminate **subjective criteria in violation assessments**, enabling staff to apply enforcement consistently and fairly.

12. **Amend the ordinance to exempt the City and its contractors from the requirement to obtain tree removal or trimming permits.**

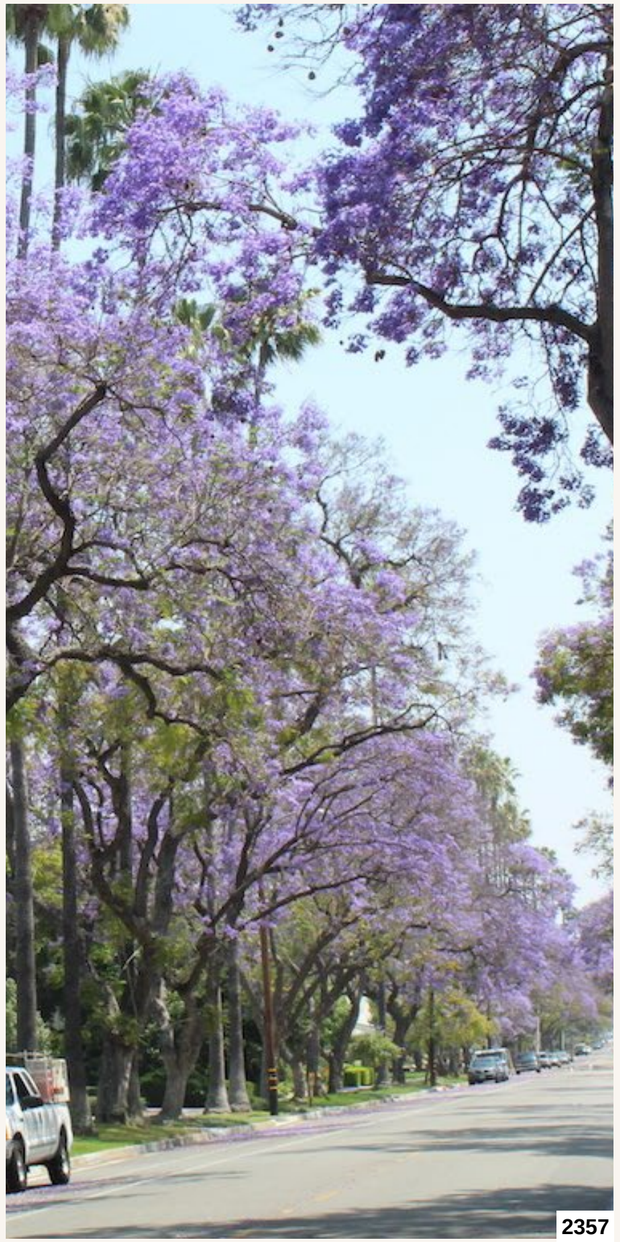
City of SOUTH PASADENA
PUBLIC WORKS

SUPPLEMENTAL RESOURCES

The goal of these items is to provide supplementary support along side the tree ordinance update and aim to improve clarity for residents as they navigate permitting.

- Create **guideline/check list to streamline permitting criteria for trimming and removal**, providing clear guidelines early in the process.

- Utilize existing **City communication** channels to **promote tree care best practices**.



- Develop a comprehensive **Urban Forest Management Plan.**

City of SOUTH PASADENA
PUBLIC WORKS

PROPOSED TIMELINE

- **MAY 27: NREC**
- **JUNE 9: Public Safety Commission**
- **JUNE 11: Public Works Commission**
- **JULY 7: NREC [Review of Final Staff Recommendations]**
- **JULY 16**: Council Update [Commission Advisement]
- **LATE SUMMER 2025**: First Reading of Draft Ordinance
- **FALL 2025**: Second Reading of Ordinance
- **WINTER 2026**: Ordinance in Effect

City Council Agenda Report

ITEM NO. 23

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Human Resources Department

SUBJECT: **CONSIDERATION OF A RESOLUTION ESTABLISHING TWO NEW EMPLOYEE CLASSIFICATIONS, JOB DESCRIPTIONS AND SALARY RANGES; APPROVING THE RECLASSIFICATION OF AN EXISTING POSITION; APPROVING SALARY RANGE ADJUSTMENT FOR ONE POSITION; AND APPROVING THE ALLOCATION OF FUNDS FROM MULTIPLE FUNDS AND VACANT POSITIONS TO SUPPORT THE PERSONNEL REQUESTS**

Recommendation

It is recommended that the City Council consider adoption of the proposed Resolution to:

1. Approve and establish the job classification and salary range for the Procurement Contracts Administrator;
2. Approve and establish the job classification and salary range for the Information Technology and Systems Manager;
3. Approve the updated salary range for the Chief City Clerk position;
4. Approve the reclassification of the Administrative Secretary position in the City Manager's Office to an Executive Assistant;
5. Approve the allocation of funds from the vacant Management Analyst position to the Information Technology and Systems Manager;
6. Approve the allocation of funds from the vacant Permit Technician to the Information Technology and Systems Manager;
7. Approve the allocation of funds from vacant Maintenance Worker II position as an offset to the Special/Enterprise Funds contribution to these positions to support the changes.

Executive Summary

As the City continues to optimize resource allocations across departments and strengthen organizational capacity, the City Manager has directed the Human Resources Division (HR) to prepare two new job classifications and descriptions.

In Finance, the current structure lacks a dedicated mid-level manager to assist city departments in procurement functions including preparation of solicitation items like request for proposals, conducting formal bids and negotiating contracts and renewal prices. The addition of the Procurement Contracts Administrator will enhance operational efficiency, allow the city to have increased purchasing power, improve service delivery, and ensure government purchasing compliance.

Based on the volume of work across all City departments, it is expected that this position will

cover a majority of its own cost through savings earned from routinely establishing a competitive bid process for ongoing service and supplies, negotiating contract prices, and taking advantage of cooperative pricing that is afforded to government agencies such as GSA and CMAS pricing schedules.

Under the direction of the Assistant City Manager, establishing an Information Technology and Systems Manager position will address a critical need in the City's overall technology plan and future direction. Currently, the City's Information Technology support and administration is completely outsourced without oversight by a city staff position that has strong technical background. In order to stay abreast of current technological trends and best practices, the City needs to have a subject matter expert to oversee and guide technological changes. This will allow the City to ensure consistent performance and integration of departmental systems at a city-wide level.

Additionally, a salary range adjustment for the existing Chief City Clerk classification is recommended based on the position becoming vacant again and a low applicant response during the previous recruitment. Increasing the current range will attract a greater number of qualified candidates. The position range difference is minimal and can be absorbed within the department's current operating budget.

Reclassification of the City Manager's Administrative Secretary to an Executive Assistant is more in line with the duties supporting the city's highest executive position given the nature of the work, handling of sensitive information, and need to work occasional evening hours. The position range difference is minimal and can be absorbed within the department's current operating budget.

Background
As part of the City's ongoing efforts to enhance organizational efficiency, service delivery, and workforce development, the City Manager has conducted a strategic review of operational and staffing needs within the City Manager and Finance Departments. This review evaluated current workloads, supervisory structures, service expectations, and recruitment and retention challenges:

Procurement Contracts Administrator: The City currently has only one position, the Budget and Purchasing Manager, that reviews department city purchasing requests. With split duties between budget and purchasing, the city lacks a dedicated classification to provide consistent support to city departments to prepare and administer city procurement documents. Often, this responsibility falls at the department head level. This has placed increased strain on upper management and limited the department's ability to know the appropriate or best means to proactively issue bids and proposals to wield its purchasing power in the market and take advantage of purchasing cooperatives. Establishing this new classification to create a dedicated purchasing function within the Finance Department reflects best practices and will enhance operational efficiency, increased capacity for competitive purchasing power, improve service delivery, and ensure government purchasing compliance across all departments.

Information Technology and Systems Manager: With ever growing and changing demands in technology, the City requires a new classification to perform complex, high-level technology oversight and strategic planning functions. The addition of the Information Technology and Systems Manager will support the City's ongoing efforts to maintain consistent and up to date technology infrastructure, improve citywide system integration, ensure alignment with city

goals and operate efficiently and securely.

Chief City Clerk - Salary Range Adjustment: The Chief City Clerk position is vacant again just after two months of bringing on the last incumbent. The prior round of recruitment efforts brought a minimal number of qualified candidates. It is the staff's recommendation to increase the position range slightly in hopes of expanding and strengthening the applicant pool.

Administrative Secretary – Reclassification: The City Manager's Administrative Secretary is being proposed as a reclassification to an Executive Assistant given the position that is being supported and the nature of the work that is being handled. This position title is generally accepted and more modernized to that of comparable roles in similar agencies. Updating the salary range is a minor difference, but more accurately reflects the scope and complexity of the position's responsibilities.

These proposed changes are aligned with the City's long-term goals of building a resilient, skilled workforce and ensuring effective delivery of essential municipal services. Funding to support these actions will be addressed through departmental budget adjustments, anticipated savings and reallocation of existing resources.

Analysis

To address operational demands and align staffing levels with service expectations, staff is proposing the creation of two new job classifications, the adjustment of an existing salary range, and one classification. These changes are intended to enhance management capacity, ensure compliance with city purchasing requirements, and support the City's recruitment and retention goals.

Each proposed action is described below with associated salary ranges and funding allocations for FY2025-26.

Procurement Contracts Administrator: This new classification will provide direct assistance to all city departments in their issuance of solicitations and negotiations of contracts. By bridging the gap between purchasing and department leadership, this position will improve communication and coordination while ensuring the efficient and cost-effective acquisition of necessary materials and services.

Proposed Salary Range:

FY2025-26 $106,500 - $142,718

Funding Source:

Fund 101 - 68%

Fund 500 - 20%

Fund 210 - 12%

Information Technology and Systems Manager:

This new classification will provide the necessary expertise to guide the city's technological needs and supply an integrated and secure IT roadmap for all departments. Critical to the city's ongoing operations, this position is vital to ensure the city's data and information needs in a reliable and secure environment.

Proposed Salary Range:

FY2025-26 $121,188 - $162,413

Funding Source:

Fund 101 - 68%,

Fund 500 - 20%

Fund 210 - 12%

Chief City Clerk:

Resulting in a greater applicant pool, this range will enhance the City's ability to recruit and retain qualified management-level staff with the necessary expertise in city clerk administration, City Council and commission packet compilation, records retention, city staff coordination and public interaction/customer service requests.

Current Salary Range:

$106,500 - $142,718

Proposed Salary Range:

FY2025-26 $113,000 - $151,433

Funding Source:

Fund 101 – 100%

Administrative Secretary Reclassification:

Reclassification of the City Manager's Administrative Secretary to a more appropriate position title given the position's responsibility.

Administrative Secretary Current Salary Range:

$58,152 - $72,100

Executive Assistant Current Salary Range

$74,015 - $99,181

Funding Source:

Fund 101 - 100%

The estimated cost is further described in the Fiscal Impact section of this report.

Alternatives
The City Council may decide not to approve the personnel changes.

Fiscal Impact

The total annual fiscal impact of the proposed personnel actions, inclusive of salary and benefits, is estimated below for Fiscal Year 2025-26. These figures are based on projected salary placements and standard benefit rates. Final costs may vary depending on the selected candidates' experience and actual placement within the range.

Position	Estimated Annual Total Cost (Salary and benefits)	Funding Sources
Procurement Contracts Administrator	$174,759	Fund 101 - 68% ($118,836) Fund 500 - 20% ($34,952) Fund 210 - 12% ($20,971)
Information Technology and Systems Manager	$208,297	Fund 101 - 68% ($141,642) Fund 500 - 20% ($41,659) Fund 210 - 12% ($24,996)
Chief City Clerk (Range Adjustment)	$8,715 (net increase)	Fund 101 - ($14,331)
Administrative Secretary (Reclassification to Executive Assistant)	$5,616 (net increase)	Fund 101 - ($14,331)
Total Estimated Cost	$397,387	Distributed per above Allocations Fund 500- $76,611 Fund 210- $45,967 Fund 101- $274,809

Note: These costs are estimates and include base salary and benefits. The exact figures will be determined upon recruitment and placement. The vacant Management Analyst position in the City Manager's office has been budgeted at $126,293 fully burdened for the fiscal year, the vacant Permits Technician position has been budgeted at $93,691 fully burdened and the Maintenance Worker II position has been budgeted at $87,955 fully burdened. These positions will offset the distribution of costs listed above against the respective funds.

The remaining General Fund (Fund 101) funding requirement of $54,825 will come in part from the City Clerk and City Manager operating budgets in the amount of $14,331. The remaining amount of $40,494 is expected to come from savings gained by the General Fund by increasing city solicitations of service contracts and supplies and renewal of contracts. Funding for the Enterprise Fund amounts are derived in part by the elimination of the Maintenance Worker II position. The remaining amount of $34,623 is expected to come from similar procurement savings gained by Enterprise Funds. If approved, these positions will be appropriately funded in the FY2025-26 budget.

Key Performance Indicators and Strategic Plan

These items align with City Council's priority 5, to work with the City Manager and establish improved operational efficiencies.

PROCUREMENT CONTRACTS ADMINISTRATOR

TITLE: **PROCUREMENT CONTRACTS ADMINISTRATOR**

DEFINITION: Under the direction of the Assistant City Manager/CFO or their designee, the Procurement Contracts Administrator performs a wide variety of purchasing tasks including but not limited to the purchasing of goods and services such as materials, equipment, tools, parts, supplies and professional services; to consult with and assist department staff with purchasing procedures and needs; and to assist with the administration of purchasing rules, regulations, processes and procedures.

DISTINGUISHING CHARACTERISTICS:

This is a single professional classification position that receives general supervision from the Budget & Purchasing Manager.

EXAMPLES OF DUTIES:

The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address the City's needs and changing business practices.

- Review and process requisitions for accuracy and availability of funds.
- Perform all aspects of the procurement process for the Agency including but not limited to gathering and comparing information regarding price, quality, availability, and related information for varied services, equipment and materials.
- Determine appropriate method of procurement such as direct purchase, request for proposal, or formal bid.
- Prepare purchase orders.
- Process requests for proposal and conducts formal bids.
- Assist in administering purchasing rules, regulations, process and procedures.
- Administer cooperative purchasing agreements with other agencies.
- Purchase cell phones and related accessories for the Agency.
- Process leases for equipment and administers lease contracts.
- Interview vendors in person or by telephone to obtain information relative to product, price, and availability of product, service and delivery date.
- Conduct special studies and surveys, as requested.
- Maintain records of items purchased, costs, delivery and purchasing reference files.
- Coordinate purchasing activities with other departments and with outside agencies.

- Consult with departmental representatives relative to special projects, purchasing needs, procedures, complaints and concerns.
- Maintain liaison with warehouse on matters relating to substitutions, equivalents, delivery schedules, and vendor problems.
- Assist in the disposition of surplus property and equipment and materials.
- Negotiate maintenance contracts and prices.
- Provide training to departments on purchasing procedures.
- Obtain preliminary cost estimates for budget purposes.
- Prepare correspondence, reports and other materials.
- Perform bid contract administration.
- May resolve problems with defective or unacceptable goods or services.
- Build and maintain positive working relationships with co-workers, other Agency employees and the public using principles of good customer service.
- Perform related duties as assigned.

MINIMUM QUALIFICATIONS:

- Three years of experience involving the procurement of goods and services.
- Equivalent to an Associate's Degree from an accredited college or university with major course work in Business Administration, Public Administration, or related field.
- Possession and maintenance of certification as a Certified Professional Public Buyer (CPPB) through the Universal Public Procurement Certification Council (UPPCC) or an equivalent certification from a recognized Purchasing Profession Certification program is required prior to promotion to the II level.

Note: An equivalent combination of experience, education, and/or training may substitute for the listed minimum requirements.

KNOWLEDGE, SKILLS, AND ABILITIES:

- Principles, practices, and methods of purchasing within a California public agency.
- Applicable laws and regulations pertaining to bidding procedures and purchasing operations.
- Price and cost analysis techniques.
- Business writing and report preparation.
- Use of the English language, grammar and punctuation.
- Basic mathematics.
- Modern office equipment including word processing, database and spreadsheet applications.
- Principles and practices of customer service.

- Evaluate quality and price of products and to judge suitability of goods and alternatives offered.
- Maintain accurate records and controls.
- Interpret and explain Agency purchasing policies.
- Operate a computer using word processing, business software and other office equipment.
- Communicate clearly and concisely, both orally and in writing.
- Establish and maintain effective working relationships with those contacted in the course of work.

WORKING CONDITIONS AND PHYSICAL DEMANDS:

Standard office setting with some travel to various locations to supervise/advise employees and/or attend meetings; the employee will frequently sit at a desk and in meetings for a long period of time; frequently twist to reach equipment and perform simple grasping and fine manipulation to write and use keyboard and other office equipment. Occasionally lift and move up to 35 pounds.

INFORMATION TECHNOLOGY & SYSTEMS MANAGER

TITLE: **INFORMATION TECHNOLOGY & SYSTEMS MANAGER**

DEFINITION: Under the direction of the Assistant City Manager/CFO or their designee, the Information Technology & Systems Manager Supervises and manages the Information Technology (IT) Division; provides highly technical and responsible staff assistance in the areas of information systems, management, and organization.

DISTINGUISHING CHARACTERISTICS:

This is a single professional classification position that receives general supervision from the Assistant City Manager/CFO.

EXAMPLES OF DUTIES:

The following duties are typical for this classification. Incumbents may not perform all of the listed duties and/or may be required to perform additional or different duties from those set forth below to address the City's needs and changing business practices.

- Develop and implement goals, objectives, policies and priorities relating to the City's network, applications, telephone, Wi-Fi and security systems
- Supervise subordinate personnel and /or outsourced IT Contractors who perform system administration, network administration, programming and help desk operations
- Maintain and support Public Safety Communication center
- Recommend overall automation priorities, coordinate systems and programming studies and procedural development
- Analyze the computer information system needs of City departments and develop systems to fulfill those needs
- Evaluate the effectiveness of current systems and procedures; administer and maintain vendor contract agreements
- Coordinate with the Finance Director the best order of implementation and progress of the IT Division
- Set both short and long-term goals
- Perform studies of hardware and software and make recommendations for the purchasing or leasing of new equipment or hiring of new personnel; exhibit outstanding interpersonal and communication skills with the demonstrated ability to translate complex IT terminology and concepts into understandable laypersons terms
- Prepare and administer the Division budget
- Select, supervise, train and evaluate subordinate personnel and/or contractors
- Perform other related duties as assigned.

MINIMUM QUALIFICATIONS:

- Five (5) years' experience of a progressively responsible nature in information systems and operations including significant supervisory experience.
- Equivalent to four (4) years of college work or a Bachelor of Science degree from an accredited college or university in computer science or related field.
- Due to the performance of field duties, the ability to operate a City vehicle may be required; therefore, a valid California Class C Driver's License and acceptable driving record at time of appointment and throughout employment in the position is required.

Note: An equivalent combination of experience, education, and/or training may substitute for the listed minimum requirements.

KNOWLEDGE, SKILLS, AND ABILITIES:

- Research techniques, methods and procedures.
- Principles and techniques of systems development, computer programming and processing; computer networking, information systems for local government applications.
- Computer methods and techniques and systems procedure analysis and design.
- Principles of supervision, training and performance evaluation.
- Management principles; budget preparation and control.
- Plan, assign, supervise and review system analysis, design and programming activities and computer operations.
- Supervise, train and evaluate professional, technical and clerical personnel.
- Analyze complex problems and develop valid conclusions.
- Communicate effectively both orally and in writing.

WORKING CONDITIONS AND PHYSICAL DEMANDS:

Standard office environment that requires extended sitting, mobility in the field at construction sites with potential exposure to dangerous machinery and potential physical harm, ability to lift and carry up to 25 pounds, and perform other similar actions during the course of the workday. May be exposed to conditions such as dust, fumes, odors, or noise. Computer terminals, copier/scanner, and other office machines are used on a daily basis.

City Council Agenda Report

ITEM NO. 24

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Michael Vartanians, Principal Engineer

SUBJECT: **CONSIDERATION OF THE AWARD OF A SIX YEAR MAINTENANCE CONTRACT TO PIPE TEC, INC. FOR SANTIARY SEWER CLEANING AND CLOSED-CIRCUIT TELEVISION (CCTV) INSPECTION SERVICES IN THE AMOUNT NOT-TO-EXCEED OF $4,600,000 BETWEEN FISCAL YEARS 2025-2026 AND FISCAL YEARS 2030-2031, WITH THE OPTION TO EXTEND THE CONTRACT FOR TWO ADDITIONAL TWO-YEAR EXTENSIONS**

Recommendation

It is recommended that the City Council:

1. Award a six year maintenance contract to Pipe Tec, Inc. (Contractor) to provide sanitary sewer cleaning and closed-circuit television (CCTV) inspection services to the City for a not-to-exceed amount of $4,600,000 between Fiscal Years 2025-2026 and Fiscal Year 2030-2031, with the option to extend the contract twice for an additional two fiscal years per extension, subject to a Consumer Price Index (CPI) increase to the rates and contract value in each fiscal year;
2. Authorize the City Manager to finalize and enter into a maintenance agreement with Pipe Tec, Inc. in the form approved by the City Attorney and City Manager and execute any related documents; and
3. Reject all other proposals received.

Executive Summary

This item considers the award of a six year maintenance contract to Pipe Tec, Inc. to provide sanitary sewer cleaning and closed-circuit television (CCTV) inspection services to the City for a not-to-exceed amount of $4,600,000 between Fiscal Years 2025-2026 and Fiscal Year 2030-2031, with the option to extend the contract twice for an additional two fiscal years per extension, subject to a Consumer Price Index (CPI) increase to the rates and contract value in each fiscal year;

Background

The City's Public Works Department is responsible for maintenance and repairs of the City's sanitary sewer systems. The award of a maintenance contract (Attachment 1) to a construction vendor for sanitary sewer maintenance services is subject to approval by the city Council as a Public Works Contract pursuant to the South Pasadena Municipal Code.

On April 10th, 2025 the city released a Request for Proposals (RFP) seeking a contractor to perform sanitary sewer cleaning and closed-circuit television (CCTV) inspection services. On

May 1st, 2025 two proposals were received with unit prices associated with various different tasks that would be involved for cleaning and CCTV inspection of various diameter sanitary sewer pipes and cleaning and CCTV inspection of sanitary sewer manholes.

In 2011 the City and the Attorney General's office reached a settlement regarding alleged violations that the City had not complied with the terms of State Water Resources Control Board Order No. 2006-0003-DWQ. As a result of the settlement the Attorney General filed a Consent Judgement (Attachment 2) as a settlement of the matter. As part of the Consent Judgement the City is required to video record 50% of the City's sewer system every year.

As part of this maintenance contract staff is recommending that the entire sanitary sewer system be cleaned and CCTV inspected in Fiscal Year 2025-2026, with subsequent years focusing on cleaning and CCTV inspecting approximately 50% of the sanitary sewer system. This approach allows staff to identify any repairs systemwide that need to be made and address them as part of either a street improvement project or an on-call sanitary sewer contract. Subsequent years will allow the City to comply with the Consent Judgement as well as allow staff to monitor any new issues that arise.

Analysis

The requested services generally include provision of all required supplies, materials, equipment, and labor for sanitary sewer maintenance services. South Pasadena Municipal Code section 2.99-29(11) allows the City Council to award contracts for services based on best value procurement and qualifications-based selection. Therefore, because a request for proposals was advertised and staff has found Pipe Tec, Inc to meet the qualifications requested by the request for proposals staff is recommending the maintenance contract be awarded to Pipe Tec, Inc.

Fiscal Impact

Funding for this maintenance contract will be comprised from the Sewer Enterprise fund 210. As discussed, the Fiscal Year 2025-2026 scope of work will include cleaning and CCTV inspecting of the entire sanitary sewer system. The cost to clean and CCTV inspect the entire sanitary sewer infrastructure in Fiscal Year 2025-2026 will be approximately $1,100,000. The approved Fiscal Year 2025-2026 budget has adequate funding in the Sewer System Repair, Rehabilitation, and Replacement Project Account 400-9000-9006-9408-000.

Subsequent years contract values are expected to be less as staff is recommending to clean and video record 50% of the city sanitary sewer system however unit prices received as part of the request for proposal shall be adjusted each fiscal year to incorporate a cost-of-living increase determined by the Consumer Price Index. Fiscal Years 2026-2027 through Fiscal Years 2030-2031 are anticipated to be as follows:

Fiscal Years 2026-2027	$600,000
Fiscal Years 2027-2028	$650,000
Fiscal Years 2028-2029	$700,000

Fiscal Years 2029-2030	$750,000
Fiscal Years 2030-2031	$800,000

The costs of this maintenance contract for Fiscal Years 2026-2027 through Fiscal Years 2030-2031 will continue to be funded by the Sewer System Repair, Rehabilitation, and Replacement Project Account 400-9000-9006-9408-000. It is anticipated that should the contract be extended the same account can continue to be used to fund this maintenance contract. However, these budgets may require adjustment by contract amendment, given available funding and/or the cost of services in future years.

Key Performance Indicators and Strategic Plan
This item is related to sanitary sewer maintenance services, and is associated with a Council Priority 2(f).

Commission Review and Recommendation
This item was not reviewed by a City Commission.

Public Notification
The public was made aware that this item was to be considered this evening by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on the City's website.

Environmental Analysis
Sanitary sewer maintenance services on existing infrastructure is exempt from the California Environmental Quality Act (CEQA) analysis based on State CEQA Guidelines Section requirements under Section 21084 of the Public Resources Code, in accordance with Article 19, Section 15301, Class 1 "existing facilities."

Attachment:
Attachment No. 1 - Proposed Maintenance Agreement with Pipe-Tec, Inc.

MAINTENANCE AGREEMENT
Providing Payment of Prevailing Wages

(City of South Pasadena / *Pipe-Tec, Inc.*)

1. IDENTIFICATION

This MAINTENANCE AGREEMENT ("Agreement") is entered into by and between the City of South Pasadena, a California municipal corporation ("City"), and ***Pipe-Tec, Inc.*** ("Contractor").

2. RECITALS

2.1. City has determined that it requires the following recurring maintenance services from a contractor: **Sanitary Sewer Cleaning and Closed-Circuit Television (CCTV) Inspection Services**

2.2. Contractor represents that it is fully qualified to perform such maintenance services by virtue of its experience and the training, education and expertise of its principals and employees. Contractor further represents that it is willing to accept responsibility for performing such maintenance services in accordance with the terms and conditions set forth in this Agreement.

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions herein contained, City and Contractor agree as follows:

3. DEFINITIONS

3.1. "Scope of Services": Such maintenance services as are set forth in the attached scope of work attached hereto as **Exhibit A** and incorporated herein by this reference.

3.2. "Agreement Administrator": The Agreement Administrator for this project is Michael Vartanians, Principal Engineer. The Agreement Administrator shall be the principal point of contact at the City for this project. All services under this Agreement shall be performed at the request of the Agreement Administrator. The Agreement Administrator will establish the timetable for completion of services and any interim milestones. City reserves the right to change this designation upon written notice to Contractor

3.3. "Cost of Services": see **Exhibit B**.

3.4. "Maximum Amount": The highest total compensation and costs payable to Contractor by City under this Agreement. The Maximum Amount under this Agreement is _____ Dollars ($_____).

3.5. "Commencement Date": [date].

3.6. "Termination Date": [Until determined to be completed by the City of South Pasadena Public Works Director, but no later than _____]

4. TERM

The term of this Agreement shall commence at 12:00 a.m. on the Commencement Date and shall expire at 11:59 p.m. on the Termination Date unless extended by written agreement of the parties or terminated earlier under Section 15 ("Termination") below.

5. CONTRACTOR'S DUTIES

5.1. **Services**. Contractor shall perform the services identified in the Scope of Services. City shall have the right to request, in writing, changes in the Scope of Services. Any such changes mutually agreed upon by the parties, and any corresponding increase or decrease in compensation, shall be incorporated by written amendment to this Agreement.

5.2. **Coordination with City**. In performing services under this Agreement, Contractor shall coordinate all contact with City through its Agreement Administrator.

5.3. **Budgetary Notification**. Contractor shall notify the Agreement Administrator, in writing, when fees and expenses incurred under this Agreement have reached eighty percent (80%) of the Maximum Amount. Contractor shall concurrently inform the Agreement Administrator, in writing, of Contractor's estimate of total expenditures required to complete its current assignments before proceeding, when the remaining work on such assignments would exceed the Maximum Amount.

5.4. **Business License.** Contractor shall obtain and maintain in force a City business license for the duration of this Agreement.

5.5. **Professional Standards.** Contractor shall perform all work to the highest standards of Contractor's profession and in a manner reasonably satisfactory to City. Contractor shall keep itself fully informed of and in compliance with all local, state, and federal laws, rules, and regulations in any manner affecting the performance of this Agreement, including all Cal/OSHA requirements, the conflict of interest provisions of Government Code § 1090 and the Political Reform Act (Government Code § 81000 et seq.).

5.6. **Appropriate Personnel.** Contractor has, or will secure at its own expense, all personnel required to perform the services identified in the Scope of Services. All such

services shall be performed by Contractor or under its supervision or by subcontractor(s) of Contractor, and all personnel engaged in the work shall be qualified to perform such services. [Name of Project Manager] shall be Contractor's project administrator and shall have direct responsibility for management of Contractor's performance under this Agreement. No change shall be made in Contractor's project administrator without City's prior written consent.

5.7. Prevailing Wages. This Agreement is subject to the prevailing wage law as more fully set forth in Section 8 (Labor Code), for all work performed under this Agreement for which the payment of prevailing wages is required under the California Labor Code. In particular, Contractor acknowledges that prevailing wage determinations are available for work performed under this Agreement.

5.8. Permits and Approvals. Contractor shall obtain, at its sole cost and expense, all permits and regulatory approvals necessary, if any, for Contractor's performance of this Agreement including, but not limited to, professional licenses and permits.

5.9. Notification of Organizational Changes. Contractor shall notify the Agreement Administrator, in writing, of any change in name, ownership or control of Contractor's firm or of any subcontractor. Change of ownership or control of Contractor's firm may require an amendment to this Agreement.

5.10. Records. Contractor shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to City under this Agreement for a minimum of three (3) years, or for any longer period required by law, from the date of final payment to Contractor under this Agreement. All such documents shall be made available for inspection, audit, and/or copying at any time during regular business hours, upon oral or written request of City. In addition, pursuant to Government Code Section 8546.7, if the amount of public funds expended under this Agreement exceeds ten thousand dollars, all such documents and this Agreement shall be subject to the examination and audit of the State Auditor, at the request of City or as part of any audit of City, for a period of three (3) years after final payment under this Agreement.

6. SUBCONTRACTING AND ASSIGNMENT

6.1. General Prohibition On Assignment. This Agreement covers services of a specific and unique nature. Except as otherwise provided herein, Contractor shall not assign or transfer its interest in this Agreement or subcontract any services to be performed without amending this Agreement.

6.2. Contractor Responsible. Contractor shall be responsible to City for all services to be performed under this Agreement.

6.3. Subcontracting. Contractor shall not subcontract any portion of the performance contemplated and provided for herein unless (1) such subcontracting is specifically described in the proposal attached hereto or (2) the City provides prior written approval. In any event, Contractor shall supervise all work subcontracted by Contractor in performing the services described in the Scope of Services and shall be responsible for all work performed by a subcontractor as if Contractor itself had performed such work. The subcontracting of any work shall not relieve Contractor from any of its obligations under this Agreement with respect to the services described in the Scope of Services. Contractor is obligated to ensure that any and all subcontractors performing any services under this Agreement shall be fully insured in all respects and to the same extent as set forth under Section 13 (Insurance), to City's satisfaction.

6.4. Compensation for Subcontractors. Contractor shall be liable and accountable for any and all payments, compensation, and federal and state taxes to all subcontractors performing services under this Agreement. City shall not be liable for any payment, compensation, or federal and state taxes for any subcontractors.

7. COMPENSATION

7.1. General. City agrees to compensate Contractor for the services provided under this Agreement, and Contractor agrees to accept payment, the Maximum Amount in full satisfaction for such services. Compensation shall not exceed the Maximum Amount. Contractor shall not be reimbursed for any expenses unless provided for in this Agreement or authorized in writing by City in advance.

7.2. Invoices. Contractor shall submit to City an invoice, on a monthly basis or as otherwise agreed to by the Agreement Administrator, for services performed pursuant to this Agreement. Each invoice shall identify the Maximum Amount, the services rendered during the billing period, the amount due for the invoice, and the total amount previously invoiced. Contractor shall include a copy of each subcontractor invoice, if any, for which reimbursement is sought in the invoice.

Invoices shall be submitted electronically to PWAP@southpasadenaca.gov

7.3. Taxes. City shall not withhold applicable taxes or other payroll deductions from payments made to Contractor except as otherwise required by law. Contractor shall be solely responsible for calculating, withholding, and paying all taxes.

7.4. Disputes. The parties agree to meet and confer at mutually agreeable times to resolve any disputed amounts contained in an invoice submitted by Contractor.

8. LABOR CODE

8.1. **Prevailing Wage Law.** Prevailing Wage Law. This Agreement is subject to the requirements of the prevailing wage laws, including, but not limited to, Labor Code Section 1720 et seq., and Labor Code Section 1770 et seq., as well as Code of Regulations, Title 8, Section 16000 et seq., which require payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. Contractor shall defend, indemnify, and hold harmless City, and its officers, employees, agents, and volunteers free and harmless from any claim or liability arising out of failure or alleged failure of Contractor to comply with such prevailing wage laws.

8.2. **Payment of Prevailing Wages.** Contractor shall pay the prevailing wage rates for all work performed under this Agreement. When any craft or classification is omitted from the general prevailing wage determinations, the Contractor shall pay the wage rate of the craft or classification most closely related to the omitted classification.

8.3. **Forfeiture.** Contractor shall forfeit as a penalty to City Two Hundred Dollars ($200.00), or any greater penalty provided in the Labor Code, for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rates for any work done under this Agreement employed in the performance of the Scope of Services by Contractor or by any subcontractor of Contractor in violation of the provisions of the Labor Code. In addition, the difference between such prevailing wage rates and the amount paid to each worker for each calendar day, or portion thereof, for which each worker was paid less than the prevailing wage rate shall be paid to each worker by Contractor.

8.4. **Apprentices.** Contractor shall comply with the provisions of Labor Code 1777.5 concerning the employment of apprentices on public works projects. Contractor shall be responsible for ensuring compliance by its subcontractors with Labor Code 1777.5.

8.5. **Payroll Records.** Pursuant to Labor Code 1776, Contractor and any subcontractor(s) shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by Contractor in connection with this Agreement. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following: (1) The information contained in the payroll record is true and correct; and (2) The employer has complied with the requirements of Labor Code 1811 and Labor Code 1815 for any work performed by his or her employees on the public works project. The payroll records shall be certified and shall be available for inspection at all reasonable hours as required by Labor Code 1776.

8.6. **8-Hour Work Day.** This Agreement is subject to 8-hour work day and wage and hour penalty laws, including, but not limited to, Labor Code 1810 and Labor Code 1813. Contractor and any subcontractor(s) of Contractor shall strictly adhere to the provisions

of the Labor Code regarding 8-hour work day and 40-hour work week requirements, and overtime, Saturday, Sunday, and holiday work. Pursuant to the Labor Code, eight hours' labor shall constitute a legal day's work. Work performed by Contractor's employees in excess of eight hours per day, and 40 hours during any one week, must include compensation for all hours worked in excess of eight hours per day, or 40 hours during any one week, at not less than one and one-half times the basic rate of pay. Contractor shall forfeit as a penalty to City $25.00, or any greater penalty set forth in the Labor Code, for each worker employed in the execution of the work by Contractor or by any subcontractor(s) of Contractor, for each calendar day during which such worker is required or permitted to the work more than eight hours in one calendar day or more than 40 hours in any one calendar week in violation of the Labor Code.

8.7. Registration with DIR. Contractor and any subcontractor(s) of Contractor shall comply with the provisions of Labor Code 1771 and Labor Code 1725.5 requiring registration with the Department of Industrial Relations (DIR).

9. OWNERSHIP OF WRITTEN PRODUCTS

All reports, documents or other written material ("written products" herein) developed by Contractor in the performance of this Agreement shall be and remain the property of City without restriction or limitation upon its use or dissemination by City except as provided by law. Contractor may take and retain copies of such written products as desired, but no such written products shall be the subject of a copyright application by Contractor.

10. RELATIONSHIP OF PARTIES

10.1. General. Contractor is, and shall at all times remain as to City, a wholly independent contractor.

10.2. No Agent Authority. Contractor shall have no power to incur any debt, obligation, or liability on behalf of City or otherwise to act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Contractor or any of Contractor's employees, except as set forth in this Agreement. Contractor shall not represent that it is, or that any of its agents or employees are, in any manner employees of City.

10.3. Independent Contractor Status. Under no circumstances shall Contractor or its employees look to the City as an employer. Contractor shall not be entitled to any benefits. City makes no representation as to the effect of this independent contractor relationship on Contractor's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Contractor specifically assumes the responsibility for making such a determination. Contractor shall be responsible for all reports and obligations including, but not limited to: social

security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation, and other applicable federal and state taxes.

10.4. Indemnification of CalPERS Determination. In the event that Contractor or any employee, agent, or subcontractor of Contractor providing services under this Agreement claims or is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of the City, Contractor shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for CalPERS benefits on behalf of Contractor or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

11. INDEMNIFICATION

11.1. Definitions. For purposes of this Section 11, "Contractor" shall include Contractor, its officers, employees, servants, agents, or subcontractors, or anyone directly or indirectly employed by either Contractor or its subcontractors, in the performance of this Agreement. "City" shall include City, its officers, agents, employees and volunteers.

11.2. Contractor to Indemnify City. To the fullest extent permitted by law, Contractor shall indemnify, hold harmless, and defend City from and against any and all claims, losses, costs or expenses for any personal injury or property damage arising out of or in connection with Contractor's alleged negligence, recklessness or willful misconduct or other wrongful acts, errors or omissions of Contractor or failure to comply with any provision in this Agreement.

11.3. Scope of Indemnity. Personal injury shall include injury or damage due to death or injury to any person, whether physical, emotional, consequential or otherwise, Property damage shall include injury to any personal or real property. Contractor shall not be required to indemnify City for such loss or damage as is caused by the sole active negligence or willful misconduct of the City.

11.4. Attorneys Fees. Such costs and expenses shall include reasonable attorneys' fees for counsel of City's choice, expert fees and all other costs and fees of litigation. Contractor shall not be entitled to any refund of attorneys' fees, defense costs or expenses in the event that it is adjudicated to have been non-negligent.

11.5. Defense Deposit. The City may request a deposit for defense costs from Contractor with respect to a claim. If the City requests a defense deposit, Contractor shall provide it within 15 days of the request.

11.6. Waiver of Statutory Immunity. The obligations of Contractor under this Section 12 are not limited by the provisions of any workers' compensation act or similar act.

Contractor expressly waives its statutory immunity under such statutes or laws as to City.

11.7. Indemnification by Subcontractors. Contractor agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this Section 12 from each and every subcontractor or any other person or entity involved in the performance of this Agreement on Contractor's behalf.

11.8. Insurance Not a Substitute. City does not waive any indemnity rights by accepting any insurance policy or certificate required pursuant to this Agreement. Contractor's indemnification obligations apply regardless of whether or not any insurance policies are determined to be applicable to the claim, demand, damage, liability, loss, cost or expense.

12. INSURANCE

12.1. Insurance Required. Contractor shall maintain insurance as described in this section and shall require all of its subcontractors, Contractors, and other agents to do the same. Approval of the insurance by the City shall not relieve or decrease any liability of Contractor. Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

12.2. Documentation of Insurance. City will not execute this agreement until it has received a complete set of all required documentation of insurance coverage. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. Contractor shall file with City:

- Certificate of Insurance, indicating companies acceptable to City, with a Best's Rating of no less than A:VII showing. The Certificate of Insurance must include the following reference: **Sanitary Sewer Cleaning and Closed-Circuit Television (CCTV) Inspection Services**
- Documentation of Best's rating acceptable to the City.
- Original endorsements effecting coverage for all policies required by this Agreement.
- City reserves the right to obtain a full certified copy of any required insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of the right to exercise later.

12.3. Coverage Amounts. Insurance coverage shall be at least in the following minimum amounts:

- Professional Liability Insurance: $2,000,000 per occurrence, $4,000,000 aggregate

- General Liability:
  - General Aggregate: $4,000,000
  - Products Comp/Op Aggregate $4,000,000
  - Personal & Advertising Injury $2,000,000
  - Each Occurrence $2,000,000
  - Fire Damage (any one fire) $ 100,000
  - Medical Expense (any 1 person) $ 10,000

- Workers' Compensation:
  - Workers' Compensation Statutory Limits
  - EL Each Accident $1,000,000
  - EL Disease - Policy Limit $1,000,000
  - EL Disease - Each Employee $1,000,000

- Automobile Liability
  - Any vehicle, combined single limit $1,000,000

Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured

12.4. General Liability Insurance. Commercial General Liability Insurance shall be no less broad than ISO form CG 00 01. Coverage must be on a standard Occurrence form. Claims-Made, modified, limited or restricted Occurrence forms are not acceptable.

12.5. Worker's Compensation Insurance. Contractor is aware of the provisions of Section 3700 of the Labor Code which requires every employer to carry Workers' Compensation (or to undertake equivalent self-insurance), and Contractor will comply with such provisions before commencing the performance of the work of this Agreement. If such insurance is underwritten by any agency other than the State Compensation Fund, such agency shall be a company authorized to do business in the State of California.

12.6. Automobile Liability Insurance. Covered vehicles shall include owned if any, non-owned, and hired automobiles and, trucks.

12.7. Claims-Made Policies. If any of the required policies provide coverage on a claims-made basis the Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work. Claims-Made Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion

of the contract of work. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.

12.8. Additional Insured Endorsements. The City, its City Council, Commissions, officers, and employees of South Pasadena must be endorsed as an additional insured for each policy required herein, for liability arising out of ongoing and completed operations by or on behalf of the Contractor. Contractor's insurance policies shall be primary as respects any claims related to or as the result of the Contractor's work. Any insurance, pooled coverage or self-insurance maintained by the City, its elected or appointed officials, directors, officers, agents, employees, volunteers, or Contractors shall be non-contributory. All endorsements shall be signed by a person authorized by the insurer to bind coverage on its behalf. General liability coverage can be provided using an endorsement to the Contractor's insurance at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37.

12.9. Failure to Maintain Coverage. In the event any policy is canceled prior to the completion of the project and the Contractor does not furnish a new certificate of insurance prior to cancellation, City has the right, but not the duty, to obtain the required insurance and deduct the premium(s) from any amounts due the Contractor under this Agreement. Failure of the Contractor to maintain the insurance required by this Agreement, or to comply with any of the requirements of this section, shall constitute a material breach of this Agreement.

12.10. Insurance Notices. Contractor shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; (3) or the deductible or self-insured retention is increased. Contractor shall provide no less than 30 days' notice of any cancellation or material change to policies required by this Agreement. Contractor shall provide proof that cancelled or expired policies of insurance have been renewed or replaced with other policies providing at least the same coverage. Such proof will be furnished at least two weeks prior to the expiration of the coverages. The name and address for Additional Insured Endorsements, Certificates of Insurance and Notices of Cancellation is: **City of South Pasadena, Attn: Risk Management, 1414 Mission Street, South Pasadena, CA 91030**.

12.11. Contractor's Insurance Primary. The insurance provided by Contractor, including all endorsements, shall be primary to any coverage available to City. Any insurance or self-insurance maintained by City and/or its officers, employees, agents or volunteers, shall be in excess of Contractor's insurance and shall not contribute with it.

12.12. Waiver of Subrogation. Contractor hereby waives all rights of subrogation against the City. Contractor shall additionally waive such rights either by endorsement to each policy or provide proof of such waiver in the policy itself.

12.13. Report of Claims to City. Contractor shall report to the City, in addition to the Contractor's insurer, any and all insurance claims submitted to Contractor's insurer in connection with the services under this Agreement.

12.14. Premium Payments and Deductibles. Contractor must disclose all deductables and self-insured retention amounts to the City. The City may require the Contractor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within retention amounts. Ultimately, City must approve all such amounts prior to execution of this Agreement.

City has no obligation to pay any premiums, assessments, or deductibles under any policy required in this Agreement. Contractor shall be responsible for all premiums and deductibles in all of Contractor's insurance policies. The amount of deductibles for insurance coverage required herein are subject to City's approval.

12.15. Duty to Defend and Indemnify. Contractor's duties to defend and indemnify City under this Agreement shall not be limited by the foregoing insurance requirements and shall survive the expiration of this Agreement.

13. MUTUAL COOPERATION

13.1. City Cooperation in Performance. City shall provide Contractor with all pertinent data, documents and other requested information as is reasonably available for the proper performance of Contractor's services under this Agreement.

13.2. Contractor Cooperation in Defense of Claims. If any claim or action is brought against City relating to Contractor's performance in connection with this Agreement, Contractor shall render any reasonable assistance that City may require in the defense of that claim or action.

14. NOTICES

Any notices, bills, invoices, or reports required by this Agreement shall be deemed received on: (i) the day of delivery if delivered by hand, facsimile or overnight courier service during Contractor's and City's regular business hours; or (ii) on the third business day following deposit in the United States mail if delivered by mail, postage prepaid, to the addresses listed below (or to such other addresses as the parties may, from time to time, designate in writing).

15. SURVIVING COVENANTS

The parties agree that the covenants contained in paragraph 5.10 (Records), paragraph 10.4 (Indemnification of CalPERS Determination), Section 11 (Indemnification), paragraph 12.7 (Claims-Made Policies), paragraph 13.2 (Contractor Cooperation in Defense of Claims), and paragraph 18.1 (Confidentiality) of this Agreement shall survive the expiration or termination of this Agreement, subject to the provisions and limitations of this Agreement and all otherwise applicable statutes of limitations and repose.

16. TERMINATION

16.1. City Termination. City may terminate this Agreement for any reason on five calendar days' written notice to Contractor. Contractor agrees to cease all work under this Agreement on or before the effective date of any notice of termination. All City data, documents, objects, materials or other tangible things shall be returned to City upon the termination or expiration of this Agreement.

16.2. Contractor Termination. Contractor may terminate this Agreement for a material breach of this Agreement upon 30 days' notice.

16.3. Compensation Following Termination. Upon termination, Contractor shall be paid based on the work satisfactorily performed at the time of termination. In no event shall Contractor be entitled to receive more than the amount that would be paid to Contractor for the full performance of the services required by this Agreement. The City shall have the benefit of such work as may have been completed up to the time of such termination.

16.4. Remedies. City retains any and all available legal and equitable remedies for Contractor's breach of this Agreement.

17. INTERPRETATION OF AGREEMENT

17.1. Governing Law. This Agreement shall be governed and construed in accordance with the laws of the State of California.

17.2. Integration of Exhibits. All documents referenced as exhibits in this Agreement are hereby incorporated into this Agreement. In the event of any material discrepancy between the express provisions of this Agreement and the provisions of any document incorporated herein by reference, the provisions of this Agreement shall prevail. This instrument contains the entire Agreement between City and Contractor with respect to the transactions contemplated herein. No other prior oral or written agreements are binding upon the parties. Amendments hereto or deviations herefrom shall be effective and binding only if made in writing and executed on by City and Contractor.

17.3. Headings. The headings and captions appearing at the commencement of the sections hereof, and in any paragraph thereof, are descriptive only and for convenience in reference to this Agreement. Should there be any conflict between such heading, and the section or paragraph thereof at the head of which it appears, the language of the section or paragraph shall control and govern in the construction of this Agreement.

17.4. Pronouns. Masculine or feminine pronouns shall be substituted for the neuter form and vice versa, and the plural shall be substituted for the singular form and vice versa, in any place or places herein in which the context requires such substitution(s).

17.5. Severability. If any term or provision of this Agreement or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, then such term or provision shall be amended to, and solely to the extent necessary to, cure such invalidity or unenforceability, and shall be enforceable in its amended form. In such event, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and each term and provision of this Agreement shall be valid and be enforced to the fullest extent permitted by law.

17.6. No Presumption Against Drafter. Each party had an opportunity to consult with an attorney in reviewing and drafting this agreement. Any uncertainty or ambiguity shall not be construed for or against any party based on attribution of drafting to any party.

18. GENERAL PROVISIONS

18.1. Confidentiality. All data, documents, discussion, or other information developed or received by Contractor for performance of this Agreement are deemed confidential and Contractor shall not disclose it without prior written consent by City. City shall grant such consent if disclosure is legally required. All City data shall be returned to City upon the termination or expiration of this Agreement.

18.2. Conflicts of Interest. Contractor maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Contractor, to solicit or secure this Agreement. Further, Contractor warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Contractor, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Contractor further agrees to file, or shall cause its employees or subcontractor to file, a Statement of Economic Interest with the City's Filing Officer if required under state law in the performance of the services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer, or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

18.3. Non-assignment. Contractor shall not delegate, transfer, subcontract or assign its duties or rights hereunder, either in whole or in part, without City's prior written consent, and any attempt to do so shall be void and of no effect. City shall not be obligated or liable under this Agreement to any party other than Contractor.

18.4. Binding on Successors. This Agreement shall be binding on the successors and assigns of the parties.

18.5. No Third-Party Beneficiaries. Except as expressly stated herein, there is no intended third-party beneficiary of any right or obligation assumed by the parties.

18.6. Time of the Essence. Time is of the essence for each and every provision of this Agreement.

18.7. Non-Discrimination. Contractor shall not discriminate against any employee or applicant for employment because of race, sex (including pregnancy, childbirth, or related medical condition), creed, national origin, color, disability as defined by law, disabled veteran status, Vietnam veteran status, religion, age (40 and above), medical

condition (cancer-related), marital status, ancestry, or sexual orientation. Employment actions to which this provision applies shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; or in terms, conditions or privileges of employment, and selection for training. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, the provisions of this nondiscrimination clause.

18.8. Waiver. No provision, covenant, or condition of this Agreement shall be deemed to have been waived by City or Contractor unless in writing signed by one authorized to bind the party asserted to have consented to the waiver. The waiver by City or Contractor of any breach of any provision, covenant, or condition of this Agreement shall not be deemed to be a waiver of any subsequent breach of the same or any other provision, covenant, or condition.

18.9. Excused Failure to Perform. Contractor shall not be liable for any failure to perform if Contractor presents acceptable evidence, in City's sole judgment that such failure was due to causes beyond the control and without the fault or negligence of Contractor.

18.10. Remedies Non-Exclusive. Each right, power and remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise shall be cumulative and shall be in addition to every other right, power, or remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise. The exercise, the commencement of the exercise, or the forbearance from the exercise by any party of any one or more of such rights, powers or remedies shall not preclude the simultaneous or later exercise by such party of any or all of such other rights, powers or remedies.

18.11. Attorneys' Fees. If legal action shall be necessary to enforce any term, covenant or condition contained in this Agreement, each party shall pay its own costs, including any accountants' and attorneys' fees expended in the action.

18.12. Venue. The venue for any litigation shall be Los Angeles County, California and Contractor hereby consents to jurisdiction in Los Angeles County for purposes of resolving any dispute or enforcing any obligation arising under this Agreement.

TO EFFECTUATE THIS AGREEMENT, the parties have caused their duly authorized representatives to execute this Agreement on the dates set forth below.

WORKER'S COMPENSATION INSURANCE ACKNOWLEDGEMENT

I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract. If any class of employees engaged in work under this contract at the site of the Project is not protected under any Worker's Compensation law, Contractor shall provide and shall cause each subcontractor to provide adequate insurance for the protection of employees not otherwise protected. Contractor shall indemnify and hold harmless City for any damage resulting from failure of either Contractor or any subcontractor to take out or maintain such insurance.

City Council Agenda Report

ITEM NO. 25

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Lucy Hakobian, Community Services Director

SUBJECT: **CONSIDERATION TO REVIEW PROPOSED LOCATION OPTIONS FOR THE PLACEMENT OF A THRONE LAB RESTROOM AND PROVIDE DIRECTION TO STAFF REGARDING THE PREFERRED SITE**

Recommendation

It is recommended that the City Council review the proposed location options for the placement of a Throne Lab restroom and provide direction to staff regarding the preferred site.

Executive Summary

The Los Angeles County Metropolitan Transportation Authority (METRO) has offered the City of South Pasadena a fully equipped Throne Lab smart restroom facility at no cost to the City as part of a broader regional effort to enhance public infrastructure and services ahead of the 2026 World Cup and the 2028 Olympic and Paralympic Games in Los Angeles. This initiative aligns with the City's ongoing commitment to improving the quality of life for residents, commuters and visitors by offering an accessible public amenity.

Background

At the May 7 meeting, the City Council approved a proposal to accept the Throne Lab unit from METRO, and directed staff to identify and present potential site options for consideration at a future meeting.

Analysis

On July 9, City staff met with METRO representatives to review the site and evaluate possible location options. Potential sites must meet specific criteria, including proximity to METRO's security cameras, accessibility from the street for servicing and clean-out, and sufficient sunlight exposure to support the unit's solar panels. Based on these considerations, the following options are being presented for City Council review:

Option 1

Located southwest of the Walking Man sculpture, this site is considered ideal as it meets all required criteria. It does not interfere with any existing utility or water lines. A tree previously located in the center of the walkway was recently removed due to poor health, creating an opportunity to reimagine the space. By relocating an existing bench and utilizing this open area, the site can accommodate the restroom unit while enhancing walkability. The surrounding space can be further improved with added foliage to create a more welcoming

and functional environment.

Option 2
Positioned immediately to the right upon exiting the A Line platform, this site would be placed above an existing water line. However, the platform is removeable, allowing access for any necessary repairs.

Fiscal Impact
If Option 1 is selected, City staff will need to address the pavement configuration, either through in-house resources or by contracting the work externally. At this time, a cost estimate is not available for this component. Aside from this, there is no immediate fiscal impact to the City for the installation or operation of the Throne lab during the program's duration, as all associated costs will be covered by METRO through mid-to-late 2028. However, post-2028, the City will be responsible for any ongoing costs should it choose to retain and operate the facility after METRO's support concludes.

City Council Agenda Report

ITEM NO. 26

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Brian Solinsky, Chief of Police
Andrew DuBois, Police Sergeant

SUBJECT: **PRESENTATION AND DISCUSSION REGARDING SOUTH PASADENA POLICE DEPARTMENT'S USE AND COMPLIANCE REVIEW OF FLOCK SAFETY AUTOMATED LICENSE PLATE READER (ALPR) SYSTEM**

Recommendation

It is recommended that the City Council receive an informational presentation regarding the South Pasadena Police Department's use of Flock Safety Automated License Plate Reader technology and discuss the continued deployment of the system in support of regional public safety efforts

Executive Summary

The South Pasadena Police Department's (SPPD) Automated License Plate Reader (ALPR) system, powered by Flock Safety (Flock), has been an important component in SPPD's multi-faceted approach in serving and protecting both the resident and business communities that call the city of South Pasadena home. Leveraging technology has been a key component of our public safety strategy, serving as a force multiplier in identifying and reporting felonious activity, dangerous vehicles, and wanted individuals entering our communities. It has also played a vital role in the recovery of missing and exploited children and adults. Flock technology, in particular, has proven to be an effective investigative and situational awareness tool in South Pasadena and the surrounding areas. Reducing crime is most effectively achieved through a collaborative, regional policing approach, and this technology supports that mission.

This report addresses concerns regarding privacy, surveillance, and data sharing by highlighting the robust legal framework set forth in California Civil Code § 1798.29 et seq Senate Bill 34 (SB 34) and Government Code § 7284, Senate Bill 54 (SB 54), which impose strict controls on data retention, sharing, and immigration-related use, and features selected Flock examples that contributed to enhanced public safety outcomes.

Background

In 2022, SPPD applied for and received approval to install ALPR cameras through a two-year

lease agreement with Flock Safety (Attachment 1). The project was funded by the Urban Area Security Initiative (UASI) using non-matching grant funds and administered through California's Homeland Security Grants Unit. UASI grants are designed to help jurisdictions build enhanced and sustainable capabilities to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

This agreement was reviewed by the Public Safety Commission and the City Council, receiving unanimous approval (Attachment 2). The system consists of fixed-position cameras strategically placed at key ingress and egress points throughout the city. These cameras capture a vehicle's license plate number and automatically cross-references it with law enforcement databases and the Department of Motor Vehicles. This enables the identification of vehicles associated with criminal investigations, missing person alerts, and other public safety concerns.

Notably, the system does not capture or analyze images of vehicle occupants. ALPR data is automatically purged after 30 days unless it is associated with an active investigation. All searches are logged and must be linked to a specific, authorized law enforcement purpose.

Analysis

Federal and state courts have consistently reviewed and held that individuals have no reasonable expectation of privacy in license plates or vehicle movements visible in public. This principle is affirmed in United States v. Knotts (1983), New York v. Class (1986), and United States v. Diaz-Castaneda (2007), making the use of ALPRs lawful under both federal and state precedent.

California Civil Code § 1798.29 et seq. (SB 34) and Government Code § 7284 (SB 54) form the legal foundation for ALPR operation in the state. SB 34 requires that any agency operating or utilizing ALPR data to implement and publicly post a usage and privacy policy (Attachment 3); restrict access to trained, authorized users; audit all access and searches; and prohibit data sharing outside of California except under narrow legal exceptions. In compliance with SB 34, the Flock system is specifically configured by default to block online access by any federal or out-of-state agency.

SB 54 restricts the use of data in immigration enforcement and prohibits sharing non-criminal history data with federal agencies. The California Department of Justice's (DOJ) bulletins 18-10-CJIS (Attachment 4) and 2023-DLE-06 (Attachment 5) reinforce these responsibilities and emphasize the need for careful user oversight and inter-agency agreements that align with state law. Every search starts with a reminder that the data in Flock is not to be used for immigration purposes (Attachment 6)

In addition to state-level safeguards, Flock Safety's platform complies with the Federal Bureau of Investigation's (FBI) Criminal Justice Information Services (CJIS) Security Policy (Attachment 7). Flock has implemented technical and administrative controls across all 16 CJIS policy areas to ensure secure handling, transmission, and storage of criminal justice information (CJI). Key safeguards include:

- Secure Cloud Storage: Flock data is hosted in AWS GovCloud, which meets federal standards for sensitive law enforcement data.
- Access Controls and Authentication: Users are assigned unique identifiers (UUIDs) with multi-factor authentication, strong password enforcement, and least-privilege access models.
- Audit Trails: All system access and activity are logged and monitored via Security Information and Event Management (SIEM) tools, with logs retained for a minimum of one year.
- Incident Response and System Integrity: Flock maintains an annually tested incident response plan, conducts vulnerability scanning, and deploys malware protection across its infrastructure.
- Personnel Screening and Training: Employees with access to CJIS data undergo fingerprint-based background checks and must complete CJIS Security Awareness Training, including social engineering and insider threat modules.
- Information Exchange Agreements: All participating agencies sign a Memoranda of Understanding (MOUs) that clearly define roles, data protections, and compliance responsibilities.

The impact on South Pasadena's community safety since the implementation of Flock on May 2, 2023, has been substantial. SPPD's Flock ALPR system has generated 354 wanted felony vehicle alerts and directly contributed to 50 arrests, which include crimes for violent felonies, property crimes, and the recovery of missing persons. The system supports real-time alerts and advanced search capabilities, such as partial vehicle descriptor queries and geofenced lookups. This functionality has been instrumental in solving cases even when full license plate information was not initially available.

Some notable examples from South Pasadena include:

- SPPD officers were alerted to a Flock notification of a vehicle connected to an assault with a deadly weapon incident involving the use of a firearm. Officers quickly located the vehicle and detained the driver. SPPD coordinated with the involved outside agency, advancing the broader investigation and ultimately removing a dangerous felon from the community.
- The SPPD was alerted by a neighboring law enforcement agency regarding a vehicle linked to three residential burglaries in their city. That agency had obtained the vehicle's license plate and received an alert indicating the vehicle had been detected by one of South Pasadena's Flock ALPR cameras.

Acting on this real-time intelligence, SPPD officers, with assistance from a police helicopter, located the vehicle within our jurisdiction. Officers successfully apprehended the driver, who, with three additional suspects, had committed a burglary at a local residence.

- A resident reported the theft of their child's bicycle. The surveillance video captured an image of the suspect and their vehicle, but not the license plate. Detectives utilized the Flock system's descriptor search to locate the vehicle based on color, make, body style, and the time of the theft. After placing a real-time alert for the suspect vehicle's license plate used in the crime, officers located and stopped the vehicle the next day after receiving a Flock alert that the vehicle had re-entered South Pasadena. The suspect, who had a lengthy criminal history record, was arrested, and the bicycle was subsequently recovered after a search warrant was served at the suspect's residence.
- After a hit-and-run incident involving a DUI suspect who collided with a city traffic signal, SPPD officers searched two Flock cameras within a defined timeframe to identify the suspect

vehicle and its license plate, leading to a successful arrest.

- In another case, officers responded to a Flock alert linked to a missing person report. The individual was found and reunited with their family.
- Flock's ALPR system is part of a national partnership with the National Center for Missing & Exploited Children (NCMEC). Since 2021, over 100 missing child cases have been resolved using Flock data, including AMBER Alerts and abductions across state lines. With over 93 percent of AMBER Alert recoveries occurring within 24 hours, Flock's real-time data and networked infrastructure significantly increase the likelihood of safe and timely recoveries.

These cases illuminate the critical role Flock ALPR data sharing plays in local and regional cases by enhancing public safety, increasing situational awareness, improving response times to crimes in progress, and expanding investigative capabilities. The technology demonstrates the effectiveness of how real-time Flock alerts and multi-agency coordination can directly lead to the apprehension of dangerous offenders, recover wanted and missing persons, and disrupt criminal activity. These partnerships illustrate the public benefit of ALPR technology beyond crime control, specifically in protecting vulnerable populations.

By securely sharing Flock ALPR data with neighboring California law enforcement agencies, we establish a regional investigative network that enhances our ability to detect, track, and respond to vehicles associated with criminal activity, even when the originating crime occurred outside of South Pasadena. Without access to shared Flock data from surrounding jurisdictions, SPPD officers would have limited ability to track or identify these suspects once they've entered or left the city.

The operational safeguards instituted by both Flock and the SPPD, coupled with adherence to state and local governance, ensure the technology is transparent, legal, accountable, fiscally responsible, and being utilized without sacrificing public safety for South Pasadena's community values.

Flock continues to adjust to the nuances of individual states' legislative restrictions on sharing and using ALPR data, including features to flag and exclude impermissible searches, and tools to help support more efficient audits of user inquiries.

In a January 31, 2024, report to California Attorney General Rob Bonta by the American Civil Liberties Union (ACLU) and the Electronic Frontier Foundation (EFF), regarding law enforcement compliance with AB 54, the SPPD was not included on the list of non-compliant law enforcement agencies.

Fiscal Impact

Should the City choose to terminate the contract, Flock Safety will assess a one-time equipment removal fee of $500.00 per device, totaling $13,500.00. In addition, the City will remain responsible for the full two-year contract amount of $78,000.00 ($39,000.00 per year). The Urban Area Security Initiative (UASI) will also require reimbursement of the $44,369.00 in grant funds previously used to support the initial deployment. The total financial impact of termination is $135,869.00, subject to final verification from Flock based on the actual termination date.

Product and Services Description

Flock Safety Platform Items	Product Description	Terms
Flock Safety Falcon ®	An infrastructure-free license plate reader camera that utilizes Vehicle Fingerprint® technology to capture vehicular attributes.	The Term shall commence upon first installation and validation of Flock Hardware.

One-Time Fees	Service Description
Installation on existing infrastructure	One-time Professional Services engagement. Includes site & safety assessment, camera setup & testing, and shipping & handling in accordance with the Flock Safety Advanced Implementation Service Brief.
Professional Services - Standard Implementation Fee	One-time Professional Services engagement. Includes site and safety assessment, camera setup and testing, and shipping and handling in accordance with the Flock Safety Standard Implementation Service Brief.
Professional Services - Advanced Implementation Fee	One-time Professional Services engagement. Includes site & safety assessment, camera setup & testing, and shipping & handling in accordance with the Flock Safety Advanced Implementation Service Brief.

FlockOS Features & Description

FlockOS Features	Description
Community Network Access	The ability to request direct access to feeds from privately owned Flock Safety Falcon® LPR cameras located in neighborhoods, schools, and businesses in your community, significantly increasing actionable evidence that clears cases.
Unlimited Users	Unlimited users for FlockOS
State Network (License Plate Lookup Only)	Allows agencies to look up license plates on all cameras opted into the Flock Safety network within your state.
Nationwide Network (License Plate Lookup Only)	With the vast Flock Safety sharing network, law enforcement agencies no longer have to rely on just their devices alone. Agencies can leverage a nationwide system boasting 10 billion additional plate reads per month to amplify the potential to collect vital evidence in otherwise dead-end investigations.
Law Enforcement Network Access	The ability to request direct access to evidence detection devices from Law Enforcement agencies outside of your jurisdiction.
Time & Location Based Search	Search full, partial, and temporary plates by time at particular device locations
License Plate Lookup	Look up specific license plate location history captured on Flock devices
Vehicle Fingerprint Search	Search footage using Vehicle Fingerprint™ technology. Access vehicle type, make, color, license plate state, missing / covered plates, and other unique features like bumper stickers, decals, and roof racks.
Insights & Analytics	Reporting tool to help administrators manage their LPR program with device performance data, user and network audits, plate read reports, hot list alert reports, event logs, and outcome reports.
ESRI Based Map Interface	Map-based interface that consolidates all data streams and the locations of each connected asset, enabling greater situational awareness and a common operating picture.
Real-Time NCIC Alerts on Flock ALPR Cameras	Receive automated alerts when vehicles entered into established databases for missing and wanted persons are detected, including the FBI's National Crime Information Center (NCIC) and National Center for Missing & Exploited Children (NCMEC) databases.
Unlimited Custom Hot Lists	Ability to add a suspect's license plate to a custom list and get alerted when it passes by a Flock camera

DocuSign Envelope ID: 74AB3B77-BB9E-4E5D-BC34-FB6C6FADAA5B

By executing this Order Form, Customer represents and warrants that it has read and agrees to all of the terms and conditions contained in the previously executed agreement. The Parties have executed this Agreement as of the dates set forth below.

City Council Agenda Report

ITEM NO. 22

DATE: November 16, 2022

FROM: Arminé Chaparyan, City Manager

PREPARED BY: Brian Solinsky, Chief of Police
Alison Wehrle, Management Analyst

SUBJECT: **Award of a Two-Year Contract with Flock Group, Inc. for Flock Camera Automated License Plate Reader Technology Services in an Amount not to Exceed $69,550**

Recommendation

It is recommended that the City Council:

1. Award a two-year contract with Flock Group, Inc. (Flock) for Automated License Plate Reader (ALPR) technology services in an amount not to exceed $69,550;
2. Authorize the City Manager to execute the agreement and future amendments to the contract, including exercise of the contract extension options; and
3. Approve an appropriation of $9,550 from Fiscal Year 2022-23 General Fund reserves to Contract Services Account Number 101-4010-4011-8180 for the two-year contract.

Background

Automated License Plate Reader (ALPR) cameras, which may be mobile or stationary, are positioned to capture objective data available through still images of the front and/or rear of vehicles and their license plates as they pass within close proximity of the cameras. The images are converted into alphanumeric characters and then compared against databases that contain identifying vehicle information associated with criminal investigations.

Flock Safety was founded in 2017, and specializes in ALPR technology for law enforcement agencies and neighborhood associations. The Flock camera system (Flock System) does not capture data or images of the vehicle's occupants, nor does it capture streaming video or audio clips. Given the parameters of the image collection, some communities have sought these types of systems to reduce the potential for negative interactions between motorists and law enforcement as the information and the means obtained is not considered intrusive or biased. The use of this technology is consistent with President Obama's Task Force on 21st Century Policing, Pillar Three – Technology and Social Media: The use of technology can improve policing practices and build community trust and legitimacy, but its implementation must be built on a defined policy framework with purposes and goals clearly delineated.

The South Pasadena Police Department (Police Department) has been deploying mobile ALPR technology since 2013. The item was originally brought before City Council at the February 20, 2013 City Council Regular Meeting and approved for purchase and implementation.

As required by California Civil Code section 1798.90.51, public agencies using ALPR technology must adopt a usage and privacy policy to ensure that the collection, use, maintenance, sharing, and dissemination of ALPR information is consistent with respect for individuals' privacy, security, and civil liberties. Civil Code Section 1798.90.55 also requires that the public agency provide an opportunity for the public to review and comment on this policy at a City Council meeting. The existing policy governing the use of ALPRs is pursuant to Police Department Duty Manual Section 430, which establishes the usage, storage, dissemination, and retention of ALPR data. The Police Department trains its personnel in the proper usage of the ALPR system and secure storage of all data associated with the system.

In 2021, the City Council directed the Public Safety Commission (PSC) to investigate the potential use of unarmed traffic enforcement. In the report provided at the PSC September 13, 2021 Regular Meeting, the PSC opined unarmed traffic enforcement was not possible given current laws. However, the PSC highlighted the benefits of technology use as an option to reduce potentially negative law enforcement contacts.

Analysis

The Flock System entails deploying purposefully placed cameras throughout the City to provide increased coverage and detailed information to law enforcement as both a crime deterrent and investigative tool.

ALPR cameras can assist law enforcement by capturing and comparing license plate data to criminal justice databases in order to detect stolen vehicles, identify wanted persons, collect evidence for criminal prosecution, and monitor Amber or Silver Alerts. When a wanted vehicle is identified, an alert is sent to the communication center and patrol officers in the field for an immediate response. Flock's integrated technology will also allow for searchable descriptors to be queried, such as the vehicle type, make, color, license plate (partial, missing, or covered plates), temporary plates, and license plate state.

To provide such service effectively, staff recommends that the service contract include deploying thirteen (13) stationary cameras to be positioned within the City at ingress and egress locations. Police Department staff have identified these locations as major thoroughfares and intersections while providing optimum effectiveness in capturing ALPR data from the public right of way. Locations were also determined from public discussions and consideration of neighboring cities and the placement of their Flock systems, in order to reduce redundancies. Flock cameras can capture up to two lanes of traffic heading in a single direction. The proposed locations are as listed as follows:

1. Fair Oaks Avenue and Columbia Street (SB)
2. Fair Oaks Avenue at the 110 Freeway (exit)
3. Fremont Avenue at Columbia Street (SB)
4. Fremont Avenue at Alhambra Road (NB)
5. Orange Grove Boulevard at Columbia Street (NB)
6. Orange Grove Boulevard at the 110 Freeway (exit)
7. Pasadena Avenue at Arroyo Verde Road (EB)
8. Huntington Drive at Garfield Avenue (EB)
9. Huntington Drive at Alhambra Road (NB)
10. Fair Oaks Avenue at Monterey Road (SB)
11. Hill Drive at Collis Avenue (EB)
12. Alpha Street at Valley View Road (SB)
13. Meridian Avenue at Kendall Drive (NB)

Flock ALPR cameras have been implemented across the nation and within local regions in more than 270 cities, including San Marino, Alhambra, Glendale, San Gabriel, Arcadia, and throughout Los Angeles County. These entities have reported significant crime reductions and performance satisfaction using Flock ALPRs. The San Marino Police Department reported a 70% reduction in larceny crimes within the first year of use. In 2021, the Huntington Beach Police Department reported 291 hits that resulted in 51 arrests. Other cities have reported an 80% reduction in burglaries or other crimes.

Several local cities have agreements to share information via the Flock System. Information sharing enhances service, reduces costs, and creates a force multiplier by utilizing hundreds of cameras instead of only the thirteen staff recommends.

At Flock's default setting, all data is permanently deleted after 30 days. It is recommended for all public agencies and staff concurs that data should be stored for up to one year. One year of storage comes at an additional price of $300 per camera annually. All data obtained is owned by the City of South Pasadena (City). Flock would not have access to view or monitor footage without the explicit permission of the City. However, Flock does have the ability to measure camera performance and image-capture quality. This is used preemptively to diagnose issues and schedule maintenance service calls.

Flock ALPR footage, data, and metadata are encrypted throughout its entire lifecycle and are therefore secure from the initial image capture point to its transfer to the cloud. The encryption, AES256-bit encryption, is the same encryption algorithm used by the National Security Agency for top-secret information and is Criminal Justice Information Services (CJIS) compliant.

The agreement with Flock is a subscription-based model which includes footage hosting, camera leasing, cellular service, maintenance, and software updates. The cost for the service is calculated per camera at $2,500 for equipment use and $300 for extended data storage of one year. A one-time $350 installation cost per camera is also

required. The Police Department can terminate the agreement prior to the completion of the initial term but is subject to a $500 per camera removal fee.

Staff evaluated other options and found the closest alternative was Vigilant Systems (Vigilant), which is owned by Motorola Solutions, Inc. While some cities in Southern California are also using Vigilant, none of them are adjacent to South Pasadena. Vigilant also requires a significant up-front cost to purchase and install the hardware, in addition to a power supply source. The Flock subscription-based service model better suits the Police Department's needs at this time and was selected for recommendation on that basis.

Fiscal Impact
The Fiscal Year 2022-23 Adopted Budget includes an appropriation of $30,000 for implementing a stationary ALPR system from the Police Department's Contract Services Account No. 101-4010-4011-8180. With the approval of a two-year contract with Flock Group, Inc., staff would anticipate another $30,000 budget allocation for the Fiscal Year 2023-24 adopted budget. If approved, this project will require the appropriation of an additional $9,550 from the Fiscal Year 2022-23 General Fund Reserves to the Contract Services Account Number 101-4010-4011-8180.

The Flock System is the only Law Enforcement-grade ALPR system which allows direct integration with AxonEvidence.com, a system the Police Department is currently using. Additionally, the Flock System is the only option on the market that would allow the Police Department to share ALPR data and information with neighboring agencies, including Alhambra Police Department, San Marino Police Department, Arcadia Police Department, and Glendale Police Department. The ability to share this data with neighboring agencies is invaluable, as many crimes are shared among the region. Flock is also the only ALPR vendor to offer a large variety of features, including: cloud storage, web-based footage retrieval, solar-powered cameras which eliminate infrastructure requirements, multi-lane capture abilities, active performance monitoring to determine image quality, and more.

Commission Review and Recommendation
On October 17, 2022, the Public Safety Commission reviewed this item. With four Commissioners present, and Vice Chair Watson and Commissioner Gee absent, the Commission voted 4-0 in favor of recommending the approval of the Flock Camera System to the City Council.

Flock Group, Inc. Service Agreement Order Form

FLOCK GROUP INC.
SERVICES AGREEMENT
ORDER FORM

This Order Form together with the Terms (as defined herein) describe the relationship between Flock Group Inc. ("**Flock**") and the customer identified below ("**Agency**") (each of Flock and Customer, a "**Party**"). This order form ("**Order Form**") hereby incorporates and includes the "GOVERNMENT AGENCY AGREEMENT" attached (the "**Terms**") which describe and set forth the general legal terms governing the relationship (collectively, the "**Agreement"**). The Terms contain, among other things, warranty disclaimers, liability limitations and use limitations.

The Agreement will become effective when this Order Form is executed by both Parties (the "**Effective Date**").

Agency: CA - South Pasadena PD **Legal Entity Name:**	**Contact Name:** Shannon Robledo
Address: 1422 Mission St South Pasadena, California 91030	**Phone:** (626) 403-7269 **E-Mail:** srobledo@southpasadenaca.gov
Expected Payment Method:	**Billing Contact:** (if different than above)

Initial Term: 24 months **Renewal Term:** 24 months	**Billing Term:** Annual payment due Net 30 per terms and conditions

Name	Price	QTY	Subtotal
Falcon	$2,500.00	13.00	$32,500.00
Professional Services - Standard Implementation Fee	$350.00	13.00	$4,550.00

(Includes one-time fees)

Year 1 Total $37,050.00

Recurring Total: $32,500.00

I have reviewed and agree to the Customer Implementation Guide on Schedule B at the end of this agreement.

By executing this Order Form, Agency represents and warrants that it has read and agrees all of the terms and conditions contained in the Terms attached. The Parties have executed this Agreement as of the dates set forth below.

GOVERNMENT AGENCY AGREEMENT

This Government Agency Agreement (this "**Agreement**") is entered into by and between Flock Group, Inc. with a place of business at 1170 Howell Mill Rd NW Suite 210, Atlanta, GA 30318 ("**Flock**") and the police department or government agency identified in the signature block of the Order Form ("**Agency**") (each a "**Party**," and together, the "**Parties**").

RECITALS

WHEREAS, Flock offers a software and hardware situational awareness solution for automatic license plates, video and audio detection through Flock's technology platform (the "**Flock Service**"), and upon detection, the Flock Services are capable of capturing audio, video, image, and recording data and can provide notifications to Agency upon the instructions of Non-Agency End User (as defined below) ("**Notifications**");

WHEREAS, Agency desires access to the Flock Service on existing cameras, provided by Agency, or Flock provided Flock Hardware (as defined below) in order to create, view, search and archive Footage and receive Notifications, including those from Non-Agency End Users of the Flock Service (where there is an investigative or bona fide lawful purpose) such as schools, neighborhood homeowners associations, businesses, and individual users;

WHEREAS, Flock deletes all Footage on a rolling thirty (30) day basis, excluding Wing Replay which is deleted after seven (7) days. Agency is responsible for extracting, downloading and archiving Footage from the Flock System on its own storage devices for auditing for prosecutorial/administrative purposes; and

WHEREAS, Flock desires to provide Agency the Flock Service and any access thereto, subject to the terms and conditions of this Agreement, solely for the awareness, prevention, and prosecution of crime, bona fide investigations by police departments, and archiving for evidence gathering ("**Permitted Purpose**").

AGREEMENT

NOW, THEREFORE, Flock and Agency agree that this Agreement, and any addenda attached hereto or referenced herein, constitute the complete and exclusive statement of the Agreement of the Parties with respect to the subject matter of this Agreement, and replace and supersede all prior agreements, term sheets, purchase orders, correspondence, oral or written communications and negotiations by and between the Parties.

1. DEFINITIONS

Certain capitalized terms, not otherwise defined herein, have the meanings set forth or cross-referenced in this Section 1.

1.1 "**Advanced Search**" means the provision of Services, via the web interface using Flock's software applications, which utilize advanced evidence delivery capabilities including convoy analysis, multi-geo search, visual search, cradlepoint integration for automatic vehicle location, and common plate analysis.

1.2 "***Agency Data***" means the data, media and content provided by Agency through the Services. For the avoidance of doubt, the Agency Data will include the Footage.

1.3 ***"Agency Generated Data"*** means the messages, text, illustrations, files, images, graphics, photos, comments, sounds, music, videos, information, content, ratings, reviews, data, questions, suggestions, other information or materials posted, uploaded, displayed, published, distributed, transmitted, broadcasted, or otherwise made available on or submitted through the Wing Suite.

1.4. "***Agency Hardware***" means the third-party camera owned or provided by Agency and any other physical elements that interact with the Embedded Software and the Web Interface to provide the Services.

1.5. "***Aggregated Data***" means information that relates to a group or category of individuals, from which any potential individuals' personal identifying information has been permanently "anonymized" by commercially available standards to irreversibly alter data in such a way that a data subject (i.e., individual person or impersonal entity) can no longer be identified directly or indirectly.

1.6 "***Authorized End User(s)***" means any individual employees, agents, or contractors of Agency accessing or using the Services through the Web Interface, under the rights granted to Agency pursuant to this Agreement.

1.7 "***Deployment Plan***" means the strategic geographic mapping of the location(s) and implementation of Flock Hardware, and/or other relevant Services required under this Agreement.

1.8 "***Documentation***" means text and/or graphical documentation, whether in electronic or printed format, that describe the features, functions and operation of the Services which are provided by Flock to Agency in accordance with the terms of this Agreement.

1.9 "***Embedded Software***" means the software and/or firmware embedded or preinstalled on the Flock Hardware or Agency Hardware.

1.10 "***Falcon Flex***" means an infrastructure-free, location-flexible license plate reader camera that enables the Agency to self-install.

1.11 "***Flock Hardware***" means the Flock cameras or device, pole, clamps, solar panel, installation components, and any other physical elements that interact with the Embedded Software and the Web Interface to provide the Flock Services.

1.12 "***Flock IP***" means the Services, the Documentation, the Embedded Software, the Installation Services, and any and all intellectual property therein or otherwise provided to Agency and/or its Authorized End Users in connection with the foregoing.

1.13 "***Flock Safety Falcon™***" means an infrastructure-free license plate reader camera that utilizes Vehicle Fingerprint™ technology to capture vehicular attributes.

1.14 "***Flock Safety Raven™***" means an audio detection device that provides real-time alerting to law enforcement based on programmed audio events such as gunshots, breaking glass, and street racing.

1.15 "***Flock Safety Sparrow™***" means an infrastructure-free license plate reader camera for residential roadways that utilizes Vehicle Fingerprint™ technology to capture vehicular attributes.

1.17 "***Footage***" means still images, video, audio and other data captured by the Flock Hardware or Agency Hardware in the course of and provided via the Services.

1.18 *"**Hotlist(s)**"* means a digital file containing alphanumeric license plate related information pertaining to vehicles of interest, which may include stolen vehicles, stolen vehicle license plates, vehicles owned or associated with wanted or missing person(s), vehicles suspected of being involved with criminal or terrorist activities, and other legitimate law enforcement purposes. Hotlist also includes, but is not limited to, national data (i.e. NCIC) for similar categories, license plates associated with AMBER Alerts or Missing Persons/Vulnerable Adult Alerts, and includes manually entered license plate information associated with crimes that have occurred in any local jurisdiction.

1.19 *"**Implementation Fee(s)**"* means the monetary fees associated with the Installation Services, as defined below.

1.20 "***Installation Services***" means the services provided by Flock for installation of Agency Hardware and/or Flock Hardware, including any applicable installation of Embedded Software on Agency Hardware.

1.21 "***Non-Agency End User(s)***" means any individual, entity, or derivative therefrom, authorized to use the Services through the Web Interface, under the rights granted to pursuant to the terms (or to those materially similar) of this Agreement.

1.22 "***Services***" or "***Flock Services***" means the provision, via the Web Interface, of Flock's software applications for automatic license plate detection, alerts, audio detection, searching image records, video and sharing Footage.

1.23 "***Support Services***" means Monitoring Services, as defined in Section 2.10 below.

1.24 "***Usage Fee***" means the subscription fees to be paid by the Agency for ongoing access to Services.

1.25 "***Web Interface***" means the website(s) or application(s) through which Agency and its Authorized End Users can access the Services, in accordance with the terms of this Agreement.

1.26 "***Wing Suite***" means the Flock interface which provides real-time access to the Flock Services, location of Flock Hardware, Agency Hardware, third-party cameras, live-stream video, Wing Livestream, Wing LPR, Wing Replay, alerts and other integrations.

1.27 "***Wing Livestream***" means real-time video integration with third-party cameras via the Flock interface.

1.28 "***Wing LPR***" means software integration with third-party cameras utilizing Flock's Vehicle Fingerprint Technology™ for license plate capture.

1.29 "***Wing Replay***" means enhanced situational awareness encompassing Footage retention, replay ability, and downloadable content from Hot Lists integrated from third-party cameras.

1.30 "***Vehicle Fingerprint™***" means the unique vehicular attributes captured through Services such as: type, make, color, state registration, missing/covered plates, bumper stickers, decals, roof racks, and bike racks.

2. SERVICES AND SUPPORT

2.1 **Provision of Access.** Subject to the terms of this Agreement, Flock hereby grants to Agency a non-exclusive, non-transferable right to access the features and functions of the Services via the Web Interface during the Term, solely for the Authorized End Users. The Footage will be available for Agency's designated administrator, listed on the Order Form, and any Authorized End Users to access and download via the Web Interface for thirty (30) days. Authorized End Users will be required to sign up for an account and select a password and username ("***User ID***"). Flock will also provide Agency with the Documentation to be used in accessing and using the Services. Agency shall be responsible for all acts and omissions of Authorized End Users, and any act or omission by an Authorized End User which, if undertaken by Agency, would constitute a breach of this Agreement, shall be deemed a breach of this Agreement by Agency. Agency shall undertake reasonable efforts to make all Authorized End Users aware of the provisions of this Agreement as applicable to such Authorized End User's use of the Services and shall cause Authorized End Users to comply with such provisions. Flock may use the services of one or more third parties to deliver any part of the Services, (such as using a third party to host the Web Interface for cloud storage or a cell phone provider for wireless cellular coverage) which makes the Services available to Agency and Authorized End Users. Warranties provided by said third party service providers are the agency's sole and exclusive remedy and Flock's sole and exclusive liability with regard to such third-party services, including without limitation hosting the Web Interface. Agency agrees to comply with any acceptable use policies and other terms of any third-party service provider that are provided or otherwise made available to Agency from time to time.

2.2 **Embedded Software License.** Subject to all terms of this Agreement, Flock grants Agency a limited, non-exclusive, non-transferable, non-sublicensable (except to the Authorized End Users), revocable right to use the Embedded Software as installed on the Flock Hardware or Agency Hardware; in each case, solely as necessary for Agency to use the Services.

2.3 **Documentation License.** Subject to the terms of this Agreement, Flock hereby grants to Agency a non-exclusive, non-transferable right and license to use the Documentation during the Term in connection with its use of the Services as contemplated herein, and under Section 2.5 below.

2.4 **Wing Suite License.** Subject to all terms of this Agreement, Flock grants Agency a limited, non-exclusive, non-transferable, non-sublicensable (except to the Authorized End Users), revocable right to use the Wing Suite software and interface.

2.5 **Usage Restrictions.**

2.5.1 **Flock IP.** The permitted purpose for usage of the Flock Hardware, Agency Hardware, Documentation, Services, support, and Flock IP are solely to facilitate gathering evidence that could be used in a lawful criminal investigation by the appropriate government agency ("***Permitted Purpose***"). Agency will not, and will not permit any Authorized End Users to, (i) copy or duplicate any of the Flock IP; (ii) decompile, disassemble, reverse engineer, or otherwise attempt to obtain or perceive the source code from which any software component of

any of the Flock IP is compiled or interpreted, or apply any other process or procedure to derive the source code of any software included in the Flock IP; (iii) attempt to modify, alter, tamper with or repair any of the Flock IP, or attempt to create any derivative product from any of the foregoing; (iv) interfere or attempt to interfere in any manner with the functionality or proper working of any of the Flock IP; (v) remove, obscure, or alter any notice of any intellectual property or proprietary right appearing on or contained within any of the Services or Flock IP; (vi) use the Services, support, Flock Hardware, Documentation, or the Flock IP for anything other than the Permitted Purpose; or (vii) assign, sublicense, sell, resell, lease, rent, or otherwise transfer, convey, pledge as security, or otherwise encumber, Agency's rights under Sections 2.1, 2.2, 2.3, or 2.4.

2.5.2. **Flock Hardware.** Agency understands that all Flock Hardware is owned exclusively by Flock, and that title to any Flock Hardware does not pass to Agency upon execution of this Agreement. Except for Falcon Flex products, which are designed for self-installation, Agency is not permitted to remove, reposition, re-install, tamper with, alter, adjust or otherwise take possession or control of Flock Hardware. Notwithstanding the notice and cure period set for in Section 6.3, Agency agrees and understands that in the event Agency is found to engage in any of the restricted actions of this Section 2.5.2, all warranties herein shall be null and void, and this Agreement shall be subject to immediate termination (without opportunity to cure) for material breach by Agency.

2.6 **Retained Rights; Ownership.** As between the Parties, subject to the rights granted in this Agreement, Flock and its licensors retain all right, title and interest in and to the Flock IP and its components, and Agency acknowledges that it neither owns nor acquires any additional rights in and to the foregoing not expressly granted by this Agreement. Agency further acknowledges that Flock retains the right to use the foregoing for any purpose in Flock's sole discretion. There are no implied rights.

2.7 **Suspension.**

2.7.1 **Service Suspension.** Notwithstanding anything to the contrary in this Agreement, Flock may temporarily suspend Agency's and any Authorized End User's access to any portion or all of the Flock IP or Flock Service if Flock reasonably determines that (a) there is a threat or attack on any of the Flock IP by Agency; (b) Agency's or any Authorized End User's use of the Flock IP disrupts or poses a security risk to the Flock IP or any other customer or vendor of Flock; (c) Agency or any Authorized End User is/are using the Flock IP for fraudulent or illegal activities; (d) Agency has violated any term of this provision, including, but not limited to, utilizing the Services for anything other than the Permitted Purpose; or (e) any unauthorized access to Flock Services through Agency's account ("***Service Suspension***"). Agency shall not be entitled to any remedy for the Service Suspension period, including any reimbursement, tolling, or credit.

2.7.2 **Service Interruption.** Services may be interrupted in the event that: (a) Flock's provision of the Services to Agency or any Authorized End User is prohibited by applicable law; (b) any third-party services required for Services are interrupted; (c) if Flock reasonably believe Services are being used for malicious, unlawful, or otherwise unauthorized use; (d) there is a threat or attack on any of the Flock IP by a third party; or (e) scheduled or

emergency maintenance ("***Service Interruption***"). Flock will make commercially reasonable efforts to provide written notice of any Service Interruption to Agency and to provide updates regarding resumption of access to Flock Services. Flock will use commercially reasonable efforts to resume providing access to the Services as soon as reasonably possible after the event giving rise to the Service Interruption is cured. Flock will have no liability for any damage, liabilities, losses (including any loss of data or profits), or any other consequences that Agency or any Authorized End User may incur as a result of a Service Interruption. To the extent that the Service Interruption is not caused by Agency's direct actions or by the actions of parties associated with the Agency, the expiration of the Term will be tolled by the duration of the Service Interruption (for any continuous suspension lasting at least one full day) prorated for the proportion of cameras on the Agency's account that have been impacted. For example, in the event of a Service Interruption lasting five (5) continuous days, Agency will receive a credit for five (5) free days at the end of the Term.

2.8 **Installation Services.**

2.8.1 ***Designated Locations.*** For installation of Flock Hardware, excluding Falcon Flex products, prior to performing the physical installation of the Flock Hardware, Flock shall advise Agency on the location and positioning of the Flock Hardware for optimal license plate image capture, as conditions and location allow. Flock may consider input from Agency regarding location, position and angle of the Flock Hardware ("***Designated Location***") and collaborate with Agency to design the Deployment Plan confirming the Designated Locations. Flock shall have final discretion on location of Flock Hardware. Flock shall have no liability to Agency resulting from any poor performance, functionality or Footage resulting from or otherwise relating to the Designated Locations or delay in installation due to Agency's delay in confirming Designated Locations, in ordering and/or having the Designated Location ready for installation including having all electrical work preinstalled and permits ready, if necessary. After installation, any subsequent changes to the Deployment Plan ("***Reinstalls***") will incur a charge for Flock's then-current list price for Reinstalls, as listed in the then-current Reinstall policy (available at https://www.flocksafety.com/reinstall-fee-schedule) and any equipment fees. For clarity, Agency will receive prior notice and provide approval for any such fees. These changes include but are not limited to re-positioning, adjusting of the mounting, re-angling, removing foliage, replacement, changes to heights of poles, regardless of whether the need for Reinstalls related to vandalism, weather, theft, lack of criminal activity in view, and the like. Flock shall have full discretion on decision to reinstall Flock Hardware.

2.8.2 ***Agency Installation Obligations.*** Agency agrees to allow Flock and its agents reasonable access in and near the Designated Locations at all reasonable times upon reasonable notice for the purpose of performing the installation work. Although Flock Hardware is designed to utilize solar power, certain Designated Locations may require a reliable source of 120V or 240V AC power. In the event adequate solar power is not available, Agency is solely responsible for costs associated with providing a reliable source of 120V or 240V AC power to Flock Hardware. Flock will provide solar options to supply power at each Designated Location. If Agency refuses recommended solar options, Agency waives any reimbursement, tolling, or credit for any suspension period of Flock Services due to low solar power. Additionally, Agency is solely responsible for (i) any permits or associated costs, and managing the permitting process of installation of cameras or AC power; (ii) any federal, state, or local taxes including property, license, privilege, sales, use, excise, gross receipts, or other similar taxes which may now or

hereafter become applicable to, measured by or imposed upon or with respect to the installation of the Flock Hardware, its use (excluding tax exempt entities), or (iii) any other supplementary cost for services performed in connection with installation of the Flock Hardware, including but not limited to contractor licensing, engineered drawings, rental of specialized equipment, or vehicles, third-party personnel (i.e. Traffic Control Officers, Electricians, State DOT-approved poles, etc., if necessary), such costs to be approved by the Agency ("***Agency Installation Obligations***"). In the event that a Designated Location for Flock Hardware requires permits, Flock may provide the Agency with a temporary alternate location for installation pending the permitting process. Once the required permits are obtained, Flock will relocate the Flock Hardware from the temporary alternate location to the permitted location at no additional cost. Without being obligated or taking any responsibility for the foregoing, Flock may pay and invoice related costs to Agency if Agency did not address them prior to the execution of this Agreement or a third party requires Flock to pay. Agency represents and warrants that it has, or shall lawfully obtain, all necessary right title and authority and hereby authorizes Flock to install the Flock Hardware at the Designated Locations and to make any necessary inspections or tests in connection with such installation.

2.8.3 ***Flock's Obligations.*** Installation of Flock Hardware shall be installed in a workmanlike manner in accordance with Flock's standard installation procedures, and the installation will be completed within a reasonable time from the time that the Designated Locations are confirmed. Upon removal of Flock Hardware, Flock shall restore the location to its original condition, ordinary wear and tear excepted. Following the initial installation of the Flock Hardware and any subsequent Reinstalls or maintenance operations, Flock's obligation to perform installation work shall cease; however, for the sole purpose of validating installation, Flock will continue to monitor the performance of Flock Hardware for the length of the Term and will receive access to the Footage for a period of seven (7) business days after the initial installation for quality control and provide any necessary maintenance. Labor may be provided by Flock or a third-party. Flock is not obligated to install, reinstall, or provide physical maintenance to Agency Hardware. Notwithstanding anything to the contrary, Agency understands that Flock will not provide installation services for Falcon Flex products.

2.8.4 ***Ownership of Hardware.*** Flock Hardware shall remain the personal property of Flock and will be removed upon the natural expiration of this Agreement at no additional cost to Agency. Agency shall not perform any acts which would interfere with the retention of title of the Flock Hardware by Flock. Should Agency default on any payment of the Flock Services, Flock may remove Flock Hardware at Flock's discretion. Such removal, if made by Flock, shall not be deemed a waiver of Flock's rights to any damages Flock may sustain as a result of Agency's default and Flock shall have the right to enforce any other legal remedy or right.

2.9 **Hazardous Conditions.** Unless otherwise stated in the Agreement, Flock's price for its services under this Agreement does not contemplate work in any areas that contain hazardous materials, or other hazardous conditions, including, without limit, asbestos, lead, toxic or flammable substances. In the event any such hazardous materials are discovered in the designated locations in which Flock is to perform services under this Agreement, Flock shall have the right to cease work immediately in the area affected until such materials are removed or rendered harmless.

2.10 **Support Services.** Subject to the payment of fees, Flock shall monitor the performance and functionality of Flock Services and may, from time to time, advise Agency on changes to the Flock Services, Installation Services, or

the Designated Locations which may improve the performance or functionality of the Services or may improve the quality of the Footage. The work, its timing, and the fees payable relating to such work shall be agreed by the Parties prior to any alterations to or changes of the Services or the Designated Locations ("***Monitoring Services***"). Flock will use commercially reasonable efforts to respond to requests for support. Flock will provide Agency with reasonable technical and on-site support and maintenance services ("***On-Site Services***") in-person or by email at support@flocksafety.com, at no additional cost. Notwithstanding anything to the contrary, Agency is solely responsible for installation of Falcon Flex products. Agency further understands and agrees that Flock will not provide monitoring services or on-site services for Falcon Flex.

2.11 **Special Terms.** From time to time, Flock may offer certain special terms related to guarantees, service and support which are indicated in the proposal and on the Order Form and will become part of this Agreement, upon Agency's prior written consent ("***Special Terms***"). To the extent that any terms of this Agreement are inconsistent or conflict with the Special Terms, the Special Terms shall control.

2.12 **Upgrades to Platform.** Flock may, in its sole discretion, make any upgrades to system or platform that it deems necessary or useful to (i) maintain or enhance (a) the quality or delivery of Flock's products or services to its agencies, (b) the competitive strength of, or market for, Flock's products or services, (c) such platform or system's cost efficiency or performance, or (ii) to comply with applicable law. Parties understand that such upgrades are necessary from time to time and will not materially change any terms or conditions within this Agreement.

3. RESTRICTIONS AND RESPONSIBILITIES

3.1 **Agency Obligations.** Flock will assist Agency Authorized End Users in the creation of a User ID. Agency agrees to provide Flock with accurate, complete, and updated registration information. Agency may not select as its User ID a name that Agency does not have the right to use, or another person's name with the intent to impersonate that person. Agency may not transfer its account to anyone else without prior written permission of Flock. Agency will not share its account or password with anyone and must protect the security of its account and password. Unless otherwise stated and defined in this Agreement, Agency may not designate Authorized End Users for persons who are not officers, employees, or agents of Agency. Authorized End Users shall only use Agency-issued email addresses for the creation of their User ID. Agency is responsible for any activity associated with its account. Agency shall be responsible for obtaining and maintaining any equipment and ancillary services needed to connect to, access or otherwise use the Services. Agency will, at its own expense, provide assistance to Flock, including, but not limited to, by means of access to, and use of, Agency facilities, as well as by means of assistance from Agency personnel to the limited extent any of the foregoing may be reasonably necessary to enable Flock to perform its obligations hereunder, including, without limitation, any obligations with respect to Support Services or any Installation Services.

3.2 **Agency Representations and Warranties.** Agency represents, covenants, and warrants that Agency will use the Services only in compliance with this Agreement and all applicable laws and regulations, including but not limited to any laws relating to the recording or sharing of video, photo, or audio content. Although Flock has no obligation

to monitor Agency 's use of the Services, Flock may do so and may prohibit any use of the Services it believes may be (or alleged to be) in violation of the foregoing.

4. CONFIDENTIALITY; AGENCY DATA

4.1 **Confidentiality.** To the extent allowable by applicable FOIA and state-specific Public Records Acts, each Party (the "***Receiving Party***") understands that the other Party (the "***Disclosing Party***") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's business (hereinafter referred to as "***Proprietary Information***" of the Disclosing Party). Proprietary Information of Flock includes non-public information regarding features, functionality and performance of the Services. Proprietary Information of Agency includes non-public data provided by Agency to Flock or collected by Flock via the Flock Hardware or Agency Hardware, to enable the provision of the Services, which includes but is not limited to geolocation information and environmental data collected by sensors . The Receiving Party agrees: (i) to take the same security precautions to protect against disclosure or unauthorized use of such Proprietary Information that the Party takes with its own proprietary information, but in no event will a Party apply less than reasonable precautions to protect such Proprietary Information, and (ii) not to use (except in performance of the Services or as otherwise permitted herein) or divulge to any third person any such Proprietary Information. Flock's use of the Proprietary Information may include processing the Proprietary Information to send Agency alerts, or to analyze the data collected to identify motion or other events. The Disclosing Party agrees that the foregoing shall not apply with respect to any information that the Receiving Party can document (a) is or becomes generally available to the public, or (b) was in its possession or known by it prior to receipt from the Disclosing Party, or (c) was rightfully disclosed to it without restriction by a third party, or (d) was independently developed without use of any Proprietary Information of the Disclosing Party. Nothing in this Agreement will prevent the Receiving Party from disclosing the Proprietary Information pursuant to any judicial or governmental order, provided that the Receiving Party gives the Disclosing Party reasonable prior notice of such disclosure to contest such order. For clarity, Flock may access, use, preserve and/or disclose the Footage to law enforcement authorities, government officials, and/or third parties, if legally required to do so or if Flock has a good faith belief that such access, use, preservation or disclosure is reasonably necessary to: (a) comply with a legal process or request; (b) enforce this Agreement, including investigation of any potential violation thereof; (c) detect, prevent or otherwise address security, fraud or technical issues; or (d) protect the rights, property or safety of Flock, its users, a third party, or the public as required or permitted by law, including respond to an emergency situation. Flock may store deleted Footage in order to comply with certain legal obligations, but such retained Footage will not be retrievable without a valid court order.

4.2 **Agency Data.** As between Flock and Agency, all right, title and interest in the Agency Data, belong to and are retained solely by Agency. Agency hereby grants to Flock a limited, non-exclusive, royalty-free, worldwide license to (i) use the Agency Data and perform all acts with respect to the Agency Data as may be necessary for Flock to provide the Flock Services to Agency, including without limitation the Support Services set forth in Section 2.10 above, and a non-exclusive, perpetual, irrevocable, worldwide, royalty-free, fully paid license to use, reproduce, modify, display, and distribute the Agency Data as a part of the Aggregated Data, (ii) disclose the Agency Data (both inclusive of any Footage) to enable law enforcement monitoring for elected law enforcement Hotlists as well

as provide Footage search access to law enforcement for investigative purposes only, and (iii) and obtain Aggregated Data as set forth below in Section 4.5. As between Agency and Non-Agency End Users that have prescribed access of Footage to Agency, each of Agency and Non-Agency End Users will share all right, title and interest in the Non-Agency End User Data. This Agreement does not by itself make any Non-Agency End User Data the sole property or the Proprietary Information of Agency. Flock will automatically delete Footage older than thirty (30) days. Agency has a thirty (30) day window to view, save and/or transmit Footage to the relevant government agency prior to its deletion. Notwithstanding the foregoing, Flock automatically deletes Wing Replay after seven (7) days, during which time Agency may view, save and/or transmit such data to the relevant government agency prior to deletion. Flock does not own and shall not sell Agency Data.

4.3 **Agency Generated Data in Wing Suite.** Parties understand that Flock does not own any right, title, or interest to third-party video integrated into the Wing Suite. Flock may provide Agency with the opportunity to post, upload, display, publish, distribute, transmit, broadcast, or otherwise make available on or submit through the Wing Suite, messages, text, illustrations, files, images, graphics, photos, comments, sounds, music, videos, information, content, ratings, reviews, data, questions, suggestions, or other information or materials produced by Agency. Agency shall retain whatever legally cognizable right, title, and interest that Agency has in Agency Generated Data. Agency understands and acknowledges that Flock has no obligation to monitor or enforce Agency's intellectual property rights to Agency Generated Data. To the extent legally permissible, Agency grants Flock a non-exclusive, perpetual, irrevocable, worldwide, royalty-free, fully paid license to use, reproduce, modify, display, and distribute the Agency Generated Data for the sole purpose of providing Flock Services. Flock does not own and shall not sell Agency Generated Data.

4.4 **Feedback.** If Agency provides any suggestions, ideas, enhancement requests, feedback, recommendations or other information relating to the subject matter hereunder, Agency hereby assigns (and will cause its agents and representatives to assign) to Flock all right, title and interest (including intellectual property rights) with respect to or resulting from any of the foregoing.

4.5 **Aggregated Data.** Flock shall have the right to collect, analyze, and anonymize Agency Data and Agency Generated Data to create Aggregated Data to use and perform the Services and related systems and technologies, including the training of machine learning algorithms. Agency hereby grants Flock a non-exclusive, worldwide, perpetual, royalty-free right (during and after the Term hereof) to use and distribute such Aggregated Data to improve and enhance the Services and for other development, diagnostic and corrective purposes, other Flock offerings, and crime prevention efforts. Parties understand that the aforementioned license is required for continuity of Services. No rights or licenses are granted except as expressly set forth herein. Flock does not sell Aggregated Data.

5. PAYMENT OF FEES

5.1.1 **Software Product Fees.** For Order Forms listing Wing Suite, Advanced Search and other software-only products, Agency will pay Flock the fees for the Initial Term (as described on the Order Form attached hereto) on or

before the 30th day from the date of invoice. For any Renewal Terms, Agency shall pay invoice on or before the 30th day from the date of renewal invoice.

5.1.2 **Hardware Product Fees.** For Order Forms listing Falcon, Sparrow, Raven and Falcon Flex products, Agency will pay Flock fifty percent (50%) of the fees for the Initial Term as set forth on the Order Form on or before the 30th day from date of invoice. Upon commencement of installation, Flock will issue an invoice for twenty-five percent (25%) of total fees, and Agency shall pay on or before 30th day following date of invoice. Upon completion of installation, Flock will issue an invoice for the remaining balance and Agency shall pay on or before 30th day following date of final invoice. Flock is not obligated to commence the Installation Services unless and until the first payment has been made and shall have no liability resulting from any delay related thereto. For any Renewal Terms, Agency shall pay the total invoice on or before the 30th day from the date of renewal invoice.

5.2 **Notice of Changes to Fees.** Flock reserves the right to change the fees or applicable charges and to institute new charges and fees on subsequent terms by providing sixty (60) days' notice prior to the end of such Initial Term or Renewal Term (as applicable) to Agency (which may be sent by email).

5.3 **Invoicing, Late Fees; Taxes.** Flock may choose to bill through an invoice, in which case, full payment for invoices must be received by Flock thirty (30) days after the receipt of invoice. If Agency is a non-tax-exempt entity, Agency shall be responsible for all taxes associated with Services other than U.S. taxes based on Flock's net income. If Agency believes that Flock has billed Agency incorrectly, Agency must contact Flock no later than sixty (60) days after the closing date on the first billing statement in which the error or problem appeared, in order to receive an adjustment or credit. Agency acknowledges and agrees that a failure to contact Flock within this sixty (60) day period will serve as a waiver of any claim Agency may have had as a result of such billing error.

6. TERM AND TERMINATION

6.1 **Term.** The initial term of this Agreement shall be for the period of time set forth on the Order Form and shall commence at the time outlined in this section below (the "***Term***"). Following the Term, unless otherwise indicated on the Order Form, this Agreement will automatically renew for successive renewal terms of the greater of one year or the length set forth on the Order Form (each, a "***Renewal Term***") unless either Party gives the other Party notice of non-renewal at least thirty (30) days prior to the end of the then-current term.

a. For Wing Suite products: the Term shall commence upon execution of this Agreement and continue for one (1) year, after which, the Term may be extended by mutual consent of the Parties, unless terminated by either Party.

b. For Falcon and Sparrow products: the Term shall commence upon first installation and validation of Flock Hardware.

c. For Raven products: the Term shall commence upon first installation and validation of Flock Hardware.

d. For Falcon Flex products: the Term shall commence upon execution of this Agreement.

e. For Advanced Search products: the Term shall commence upon execution of this Agreement.

6.2 **Termination for Convenience.** At any time during the agreed upon Term, either Party may terminate this Agreement for convenience. Termination for convenience of the Agreement by the Agency will be effective immediately. Termination for convenience by Agency will result in a one-time removal fee of $500 per Flock Hardware. Termination for convenience by Flock will not result in any removal fees. Upon termination for convenience, a refund will be provided for Flock Hardware, prorated for any fees for the remaining Term length set forth previously. Wing Suite products and Advanced Search are not subject to refund for early termination. Flock will provide advanced written notice and remove all Flock Hardware at Flock's own convenience, within a commercially reasonable period of time upon termination. Agency's termination of this Agreement for Flock's material breach of this Agreement shall not be considered a termination for convenience for the purposes of this Section 6.2.

6.3 **Termination.** Notwithstanding the termination provisions in Section 2.5.2, in the event of any material breach of this Agreement, the non-breaching Party may terminate this Agreement prior to the end of the Term by giving thirty (30) days prior written notice to the breaching Party; provided, however, that this Agreement will not terminate if the breaching Party has cured the breach prior to the expiration of such thirty (30) day period. Either Party may terminate this Agreement, without notice, (i) upon the institution by or against the other Party of insolvency, receivership or bankruptcy proceedings, (ii) upon the other Party's making an assignment for the benefit of creditors, or (iii) upon the other Party's dissolution or ceasing to do business. Upon termination for Flock's material breach, Flock will refund to Agency a pro-rata portion of the pre-paid fees for Services not received due to such termination.

6.4 **No-Fee Term.** Flock will provide Agency with complimentary access to Hotlist alerts, as further described in Section 4.2 ("***No-Fee Term***"). In the event a Non-Agency End User grants Agency access to Footage and/or notifications from a Non-Agency End User, Agency will have access to Non-Agency End User Footage and/or notifications until deletion, subject to a thirty (30) day retention policy for all products except Wing Replay, which is subject to a seven (7) day retention policy. Flock may, in their sole discretion, provide access or immediately terminate the No-Fee Term. The No-Fee Term will survive the Term of this Agreement. Flock, in its sole discretion, can determine to impose a price per No-Fee Term upon thirty (30) days' notice to Agency. Agency may terminate any No-Fee Term or access to future No-Fee Terms upon thirty (30) days' notice.

6.5 **Survival.** The following Sections will survive termination: 2.5, 2.6, 3, 4, 5, 6.4, 7.3, 7.4, 8.1, 8.2, 8.3, 8.4, 9.1 and 9.6.

7. REMEDY; WARRANTY AND DISCLAIMER

7.1 **Remedy.** Upon a malfunction or failure of Flock Hardware or Embedded Software (a "***Defect***"), Agency must notify Flock's technical support as described in Section 2.10 above. If Flock is unable to correct the Defect, Flock shall, or shall instruct one of its contractors to repair or replace the Flock Hardware or Embedded Software suffering from the Defect. Flock reserves the right in their sole discretion to refuse or delay replacement or its choice of remedy for a Defect until after it has inspected and tested the affected Flock Hardware provided that such inspection

and test shall occur within a commercially reasonable time, but no longer than seven (7) business days after Agency notifies the Flock of a known Defect. In the event of a Defect, Flock will repair or replace the defective Flock Hardware at no additional cost to Agency. Absent a Defect, in the event that Flock Hardware is lost, stolen, or damaged, Agency may request that Flock replace the Flock Hardware at a fee according to the then-current Reinstall policy (https://www.flocksafety.com/reinstall-fee-schedule). Agency shall not be required to replace subsequently lost, damaged or stolen Flock Hardware, however, Agency understands and agrees that functionality, including Footage, will be materially affected due to such subsequently lost, damaged or stolen Flock Hardware and that Flock will have no liability to Agency regarding such affected functionality nor shall the Usage Fee or Implementation Fees owed be impacted. Flock is under no obligation to replace or repair Flock Hardware or Agency Hardware.

7.2 **Exclusions.** Flock will not provide the remedy described in Section 7.1 if Agency has misused the Flock Hardware, Agency Hardware, or Service in any manner.

7.3 **Warranty.** Flock shall use reasonable efforts consistent with prevailing industry standards to maintain the Services in a manner which minimizes errors and interruptions in the Services and shall perform the Installation Services in a professional and workmanlike manner. Services may be temporarily unavailable for scheduled maintenance or for unscheduled emergency maintenance, either by Flock or by third-party providers, or because of other causes beyond Flock's reasonable control, but Flock shall use reasonable efforts to provide advance notice in writing or by e-mail of any scheduled service disruption.

7.4 **Disclaimer.** THE REMEDY DESCRIBED IN SECTION 7.1 ABOVE IS AGENCY'S SOLE REMEDY, AND FLOCK'S SOLE LIABILITY, WITH RESPECT TO DEFECTIVE EMBEDDED SOFTWARE. FLOCK DOES NOT WARRANT THAT THE SERVICES WILL BE UNINTERRUPTED OR ERROR FREE; NOR DOES IT MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM USE OF THE SERVICES. EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, THE SERVICES ARE PROVIDED "AS IS" AND FLOCK DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. THIS DISCLAIMER OF SECTION 7.4 ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE MENTIONED IN SECTION 9.6.

7.5 **Insurance.** Flock will maintain commercial general liability policies with policy limits reasonably commensurate with the magnitude of Flock's business risk. Certificates of Insurance can be provided upon request.

7.6 **Force Majeure.** Parties are not responsible or liable for any delays or failures in performance from any cause beyond their control, including, but not limited to acts of God, changes to law or regulations, embargoes, war, terrorist acts, acts or omissions of third-Party technology providers, riots, fires, earthquakes, floods, power blackouts, strikes, supply chain shortages of equipment or supplies, weather conditions or acts of hackers, internet service providers or any other third Party acts or omissions. Force Majeure includes the novel coronavirus Covid-19 pandemic, and the potential spread of variants, which is ongoing as of the date of the execution of this Agreement.

8. LIMITATION OF LIABILITY; NO FEE TERM; INDEMNITY

8.1 **Limitation of Liability.** NOTWITHSTANDING ANYTHING TO THE CONTRARY, FLOCK AND ITS SUPPLIERS (INCLUDING BUT NOT LIMITED TO ALL HARDWARE AND TECHNOLOGY SUPPLIERS), OFFICERS, AFFILIATES, REPRESENTATIVES, CONTRACTORS AND EMPLOYEES SHALL NOT BE RESPONSIBLE OR LIABLE WITH RESPECT TO ANY SUBJECT MATTER OF THIS AGREEMENT OR TERMS AND CONDITIONS RELATED THERETO UNDER ANY CONTRACT, NEGLIGENCE, STRICT LIABILITY, PRODUCT LIABILITY, OR OTHER THEORY: (A) FOR ERROR OR INTERRUPTION OF USE OR FOR LOSS OR INACCURACY, INCOMPLETENESS OR CORRUPTION OF DATA OR FOOTAGE OR COST OF PROCUREMENT OF SUBSTITUTE GOODS, SERVICES OR TECHNOLOGY OR LOSS OF BUSINESS; (B) FOR ANY INDIRECT, EXEMPLARY, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES; (C) FOR ANY MATTER BEYOND FLOCK'S ACTUAL KNOWLEDGE OR REASONABLE CONTROL INCLUDING REPEAT CRIMINAL ACTIVITY OR INABILITY TO CAPTURE FOOTAGE OR IDENTIFY AND/OR CORRELATE A LICENSE PLATE WITH THE FBI DATABASE; (D) FOR ANY PUBLIC DISCLOSURE OF PROPRIETARY INFORMATION MADE IN GOOD FAITH; (E) FOR CRIME PREVENTION; OR (F) FOR ANY AMOUNTS THAT, TOGETHER WITH AMOUNTS ASSOCIATED WITH ALL OTHER CLAIMS, EXCEED THE FEES PAID AND/OR PAYABLE BY AGENCY TO FLOCK FOR THE SERVICES UNDER THIS AGREEMENT IN THE TWELVE (12) MONTHS PRIOR TO THE ACT OR OMISSION THAT GAVE RISE TO THE LIABILITY, IN EACH CASE, WHETHER OR NOT FLOCK HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY OF SECTION 8 ONLY APPLIES TO THE EXTENT ALLOWED BY THE GOVERNING LAW OF THE STATE MENTIONED IN SECTION 9.6.

8.2 **Additional No-Fee Term Requirements.** IN NO EVENT SHALL FLOCK'S AGGREGATE LIABILITY, IF ANY, ARISING OUT OF OR IN ANY WAY RELATED TO THE COMPLIMENTARY NO-FEE TERM AS DESCRIBED IN SECTION 6.4 EXCEED $100, WITHOUT REGARD TO WHETHER SUCH CLAIM IS BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY OR OTHERWISE. Parties acknowledge and agree that the essential purpose of this Section 8.2 is to allocate the risks under the No-Fee Term described in Section 6.4 and limit potential liability given the aforementioned complimentary service, which would have been substantially higher if Flock were to assume any further liability other than as set forth herein. Flock has relied on these limitations in determining whether to provide the complementary No-Fee Term. The limitations set forth in this Section 8.2 shall not apply to claims or damages resulting from Flock's other obligations under this Agreement.

8.3 **Responsibility.** Each Party to this Agreement shall assume the responsibility and liability for the acts and omissions of its own employees, deputies, officers, or agents, in connection with the performance of their official duties under this Agreement. Each Party to this Agreement shall be liable (if at all) only for the torts of its own officers, agents, or employees.

9. INDEMNIFICATION

Agency hereby agrees to indemnify and hold harmless Flock against any damages, losses, liabilities, settlements and expenses in connection with any claim or action that arises from an alleged violation of Section 3.1, a breach of this Agreement, Agency's Installation Obligations, Agency's sharing of any data in connection with the Flock system, Flock employees or agent or Non-Agency End Users, or otherwise from Agency's use of the Services, Flock Hardware, Agency Hardware and any Embedded Software, including any claim that such actions violate any applicable law or third Party right. Although Flock has no obligation to monitor Agency's use of the Services, Flock may do so and may prohibit any use of the Services it believes may be (or alleged to be) in violation of Section 3.1 or this Agreement.

10. MISCELLANEOUS

10.1.**Compliance With Laws.** The Agency agrees to comply with all applicable local, state and federal laws, regulations, policies and ordinances and their associated record retention schedules, including responding to any subpoena request(s). In the event Flock is legally compelled to comply with a judicial order, subpoena, or government mandate, to disclose Agency Data or Agency Generated Data, Flock will provide Agency with notice.

10.2. **Severability.** If any provision of this Agreement is found to be unenforceable or invalid, that provision will be limited or eliminated to the minimum extent necessary so that this Agreement will otherwise remain in full force and effect.

10.3. **Assignment.** This Agreement is not assignable, transferable or sublicensable by either Party, without prior consent. Notwithstanding the foregoing, either Party may assign this Agreement, without the other Party's consent, (i) to any parent, subsidiary, or affiliate entity, or (ii) to any purchaser of all or substantially all of such Party's assets or to any successor by way of merger, consolidation or similar transaction.

10.4. **Entire Agreement.** This Agreement, together with the Order Form(s), the then-current Reinstall policy (https://www.flocksafety.com/reinstall-fee-schedule), Deployment Plan(s), and any attached addenda are the complete and exclusive statement of the mutual understanding of the Parties and supersedes and cancels all previous written and oral agreements, communications and other understandings relating to the subject matter of this Agreement, and that all waivers and modifications must be in a writing signed by both Parties, except as otherwise provided herein. None of Agency's purchase orders, authorizations or similar documents will alter the terms of this Agreement, and any such conflicting terms are expressly rejected. In the event of any conflict of terms found in this Agreement or any other terms and conditions, the terms of this Agreement shall prevail.

10.5. **Relationship.** No agency, partnership, joint venture, or employment is created as a result of this Agreement and Agency does not have any authority of any kind to bind Flock in any respect whatsoever. Flock shall at all times be and act as an independent contractor.

10.6.**Governing Law; Venue.** This Agreement shall be governed by the laws of the State in which the Agency is located. The Parties hereto agree that venue would be proper in the chosen courts of the State of which the Agency is

located. The Parties agree that the United Nations Convention for the International Sale of Goods is excluded in its entirety from this Agreement.

10.7.**Publicity.** Upon prior consent from Agency, Flock has the right to reference and use Agency's name and trademarks and disclose the nature of the Services provided hereunder in each case in business and development and marketing efforts, including without limitation on Flock's website.

10.8.**Export.** Agency may not remove or export from the United States or allow the export or re-export of the Flock IP or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign agency or authority. As defined in Federal Acquisition Regulation ("FAR"), section 2.101, the Services, the Flock Hardware and Documentation are "commercial items" and according to the Department of Defense Federal Acquisition Regulation ("DFAR") section 252.2277014(a)(1) and are deemed to be "commercial computer software" and "commercial computer software documentation." Flock is compliant with FAR Section 889 and does not contract or do business with, use any equipment, system, or service that uses the enumerated banned Chinese telecommunication companies, equipment or services as a substantial or essential component of any system, or as critical technology as part of any Flock system. Consistent with DFAR section 227.7202 and FAR section 12.212, any use, modification, reproduction, release, performance, display, or disclosure of such commercial software or commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.

10.9.**Headings.** The headings are merely for organization and should not be construed as adding meaning to the Agreement or interpreting the associated sections.

10.10.**Authority.** Each of the below signers of this Agreement represent that they understand this Agreement and have the authority to sign on behalf of and bind the Parties they are representing.

10.11. **Notices.** All notices under this Agreement will be in writing and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by email; the day after it is sent, if sent for next day delivery by recognized overnight delivery service; and upon receipt, if sent by certified or registered mail, return receipt requested.

South Pasadena Police Department Duty Manual Section 430 – Automated License Place Reader (ALPR)

Automated License Plate Readers (ALPRs)

430.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the capture, storage and use of digital data obtained through the use of Automated License Plate Reader (ALPR) technology.

430.2 ADMINISTRATION

The ALPR technology, also known as License Plate Recognition (LPR), allows for the automated detection of license plates. It is used by the South Pasadena Police Department to convert data associated with vehicle license plates for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. It may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

All installation and maintenance of ALPR equipment, as well as ALPR data retention and access, shall be managed by the Support Services Division Commander. The Support Services Division Commander will assign members under his/her command to administer the day-to-day operation of the ALPR equipment and data.

430.2.1 ALPR ADMINISTRATOR

The Support Services Division Commander shall be responsible for developing guidelines and procedures to comply with the requirements of Civil Code § 1798.90.5 et seq. This includes, but is not limited to (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) A description of the job title or other designation of the members and independent contractors who are authorized to use or access the ALPR system or to collect ALPR information.

(b) Training requirements for authorized users.

(c) A description of how the ALPR system will be monitored to ensure the security of the information and compliance with applicable privacy laws.

(d) Procedures for system operators to maintain records of access in compliance with Civil Code § 1798.90.52.

(e) The title and name of the current designee in overseeing the ALPR operation.

(f) Working with the Custodian of Records on the retention and destruction of ALPR data.

(g) Ensuring this policy and related procedures are conspicuously posted on the department's website.

430.3 OPERATIONS

Use of an ALPR is restricted to the purposes outlined below. Department members shall not use, or allow others to use the equipment or database records for any unauthorized purpose (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

(a) An ALPR shall only be used for official law enforcement business.

Copyright Lexipol, LLC 2021/02/12, All Rights Reserved.
Published with permission by South Pasadena Police Department

(b) An ALPR may be used in conjunction with any routine patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an ALPR.

(c) While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR-equipped cars to canvass areas around homicides, shootings and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.

(d) No member of this department shall operate ALPR equipment or access ALPR data without first completing department-approved training.

(e) No ALPR operator may access department, state or federal data unless otherwise authorized to do so.

(f) If practicable, the officer should verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.

430.4 DATA COLLECTION AND RETENTION

The Support Services Division Commander is responsible for ensuring systems and processes are in place for the proper collection and retention of ALPR data. Data will be transferred from vehicles to the designated storage in accordance with department procedures.

All ALPR data downloaded to the server should be stored for a minimum of one year (Government Code § 34090.6) and in accordance with the established records retention schedule. Thereafter, ALPR data should be purged unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a discovery request or other lawful action to produce records. In those circumstances the applicable data should be downloaded from the server onto portable media and booked into evidence.

430.5 ACCOUNTABILITY

All data will be closely safeguarded and protected by both procedural and technological means. The South Pasadena Police Department will observe the following safeguards regarding access to and use of stored data (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) All ALPR data downloaded to the mobile workstation and in storage shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date and time (Civil Code § 1798.90.52).

(b) Members approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relate to a specific criminal investigation or department-related civil or administrative action.

Copyright Lexipol, LLC 2021/02/12, All Rights Reserved.
Published with permission by South Pasadena Police Department

(c) ALPR system audits should be conducted on a regular basis.

For security or data breaches, see the Records Release and Maintenance Policy.

430.6 TRAINING

The Support Services Commander should ensure that members receive department-approved training for those authorized to use or access the ALPR system (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

430.7 POLICY

The policy of the South Pasadena Police Department is to utilize ALPR technology to capture and store digital license plate data and images while recognizing the established privacy rights of the public.

All data and images gathered by the ALPR are for the official use of this department. Because such data may contain confidential information, it is not open to public review.

430.8 RELEASING ALPR DATA

The ALPR data may be shared only with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law, using the following procedures:

(a) The agency makes a written request for the ALPR data that includes:

1. The name of the agency.
2. The name of the person requesting.
3. The intended purpose of obtaining the information.

(b) The request is reviewed by the Support Services Division Commander or the authorized designee and approved before the request is fulfilled.

(c) The approved request is retained on file.

Requests for ALPR data by non-law enforcement or non-prosecutorial agencies will be processed as provided in the Records Maintenance and Release Policy (Civil Code § 1798.90.55).

Automated License Plate Readers (ALPRs)

430.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance for the capture, storage and use of digital data obtained through the use of Automated License Plate Reader (ALPR) technology.

430.2 ADMINISTRATION

The ALPR technology, also known as License Plate Recognition (LPR), allows for the automated detection of license plates. It is used by the South Pasadena Police Department to convert data associated with vehicle license plates for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. It may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

All installation and maintenance of ALPR equipment, as well as ALPR data retention and access, shall be managed by the Support Services Division Commander. The Support Services Division Commander will assign members under his/her command to administer the day-to-day operation of the ALPR equipment and data.

430.2.1 ALPR ADMINISTRATOR

The Support Services Division Commander shall be responsible for developing guidelines and procedures to comply with the requirements of Civil Code § 1798.90.5 et seq. This includes, but is not limited to (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) A description of the job title or other designation of the members and independent contractors who are authorized to use or access the ALPR system or to collect ALPR information.

(b) Training requirements for authorized users.

(c) A description of how the ALPR system will be monitored to ensure the security of the information and compliance with applicable privacy laws.

(d) Procedures for system operators to maintain records of access in compliance with Civil Code § 1798.90.52.

(e) The title and name of the current designee in overseeing the ALPR operation.

(f) Working with the Custodian of Records on the retention and destruction of ALPR data.

(g) Ensuring this policy and related procedures are conspicuously posted on the department's website.

430.3 OPERATIONS

Use of an ALPR is restricted to the purposes outlined below. Department members shall not use, or allow others to use the equipment or database records for any unauthorized purpose (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

(a) An ALPR shall only be used for official law enforcement business.

Copyright Lexipol, LLC 2017/05/10, All Rights Reserved.
Published with permission by South Pasadena Police Department

(b) An ALPR may be used in conjunction with any routine patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an ALPR.

(c) While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR-equipped cars to canvass areas around homicides, shootings and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.

(d) No member of this department shall operate ALPR equipment or access ALPR data without first completing department-approved training.

(e) No ALPR operator may access department, state or federal data unless otherwise authorized to do so.

(f) If practicable, the officer should verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.

430.4 DATA COLLECTION AND RETENTION

The Support Services Division Commander is responsible for ensuring systems and processes are in place for the proper collection and retention of ALPR data. Data will be transferred from vehicles to the designated storage in accordance with department procedures.

All ALPR data downloaded to the server should be stored for a minimum of one year (Government Code § 34090.6) and in accordance with the established records retention schedule. Thereafter, ALPR data should be purged unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a discovery request or other lawful action to produce records. In those circumstances the applicable data should be downloaded from the server onto portable media and booked into evidence.

430.5 ACCOUNTABILITY

All data will be closely safeguarded and protected by both procedural and technological means. The South Pasadena Police Department will observe the following safeguards regarding access to and use of stored data (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) All ALPR data downloaded to the mobile workstation and in storage shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date and time (Civil Code § 1798.90.52).

(b) Members approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relate to a specific criminal investigation or department-related civil or administrative action.

(c) ALPR system audits should be conducted on a regular basis.

For security or data breaches, see the Records Release and Maintenance Policy.

Published with permission by South Pasadena Police Department

430.6 TRAINING

The Training Sergeant should ensure that members receive department-approved training for those authorized to use or access the ALPR system (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

430.7 POLICY

The policy of the South Pasadena Police Department is to utilize ALPR technology to capture and store digital license plate data and images while recognizing the established privacy rights of the public.

All data and images gathered by the ALPR are for the official use of this department. Because such data may contain confidential information, it is not open to public review.

430.8 RELEASING ALPR DATA

The ALPR data may be shared only with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law, using the following procedures:

(a) The agency makes a written request for the ALPR data that includes:
    1. The name of the agency.
    2. The name of the person requesting.
    3. The intended purpose of obtaining the information.

(b) The request is reviewed by the Support Services Division Commander or the authorized designee and approved before the request is fulfilled.

(c) The approved request is retained on file.

Requests for ALPR data by non-law enforcement or non-prosecutorial agencies will be processed as provided in the Records Maintenance and Release Policy (Civil Code § 1798.90.55).

California Department of Justice CALIFORNIA JUSTICE INFORMATION SERVICES DIVISION Joe Dominic, Chief		INFORMATION BULLETIN	
Subject: California Values Act's Database Guidance		*No.* 18-10-CJIS *Date:* 10-01-2018	*Contact for information:* CLETS Administration Section CAS@doj.ca.gov

TO: ALL CHIEFS OF POLICE, SHERIFFS, and EXECUTIVES OF CALIFORNIA LAW ENFORCEMENT AGENCIES

DATABASE GUIDANCE – Senate Bill 54

This Information Bulletin (IB) provides guidance to state and local law enforcement agencies (LEAs) on best practices regarding the governance of databases regarding Senate Bill (SB) No. 54 (De León; 2017-2018 Regular Sessions) ("the Values Act") to ensure information is limited for immigration enforcement purposes to the fullest extent practicable and consistent with federal and state law. The Values Act mandates that the Attorney General, by October 1, 2018, publish "guidance, audit criteria, and training recommendations aimed at ensuring that" databases operated by state and local law enforcement agencies "are governed in a manner that limits the availability of information therein to the fullest extent practicable and consistent with federal and state law, to anyone or any entity for the purpose of immigration enforcement." LEAs are strongly encouraged to review and update their existing database governance policies consistent with this guidance.

This IB is not intended to displace any current policies that are aligned with or provide greater protections than those included herein. Nor does the lack of a particular recommendation necessarily indicate disapproval of any policy. Rather, this IB provides some foundational recommendations and should serve as a resource to enhance current policies with respect to the Values Act's goal of ensuring that databases are governed in a manner that limits the availability of information to the fullest extent practicable and consistent with federal and state law for the purpose of immigration enforcement.

GUIDING PRINCIPLES

In enacting the Values Act, the Legislature determined that "a relationship of trust between California's immigrant community and state and local agencies is central to the public safety of the people of California." (Gov. Code, § 7284.2.) The Values Act's core purpose is to ensure effective policing and to protect the safety, well-being, and constitutional rights of all the people of California, regardless of immigration status.
The Values Act set the parameters under which LEAs may engage in "immigration enforcement." "Immigration enforcement," as defined by the Values Act, includes any efforts to investigate, enforce, or assist in the investigation or enforcement of any federal civil immigration law, and also includes any efforts to investigate, enforce, or assist in the investigation or enforcement of any federal criminal immigration law that penalizes a person's presence in, entry, reentry to, or employment in, the United States.

The Values Act generally prohibits LEAs from using agency or department moneys or personnel to investigate, interrogate, detain, detect, or arrest persons for immigration enforcement purposes, including providing personal information for that purpose. (Gov. Code, § 7284.6, subd. (a)(1)(D).) The Values Act, however,

permits LEAs to participate in law enforcement task forces, including sharing confidential information pursuant to these task forces, where the primary purpose of the task force is not immigration enforcement. (Gov. Code, § 7284.6, subd. (b)(3).) And, the Values Act permits LEAs to provide immigration authorities with information about a person's criminal history accessible through the California Law Enforcement Telecommunications System (CLETS). (Gov. Code, § 7284.6, subd. (b)(2).) The specific requirements for LEAs under the Values Act are set forth more fully in IB 2018-DLE-01, and specific data reporting requirements can be referenced in IB 18-02-CJIS.

Additional principles of state and federal law should also be used to guide LEAs in developing database governance policies that limit the availability of information for purposes of immigration enforcement. Under California law, LEAs are generally prohibited from asking a person about his or her immigration status. (Gov. Code, §7284.6, subd. (a)(1)(A).) Also, LEAs are restricted from sharing personal information about a person that is not available to the public, and that is not attached to a person's criminal history. (Gov. Code, § 7284.6, subd. (a)(1)(D), (b)(2).) Notwithstanding that prohibition, consistent with federal law, 8 U.S.C. § 1373, nothing in this IB prohibits or restricts LEAs from sending or receiving information regarding a person's immigration status or citizenship status to or from federal immigration enforcement authorities, or prohibits or restricts LEAs from maintaining information regarding a person's immigration status.[1] Federal courts have found that Section 1373 only prohibits restrictions on the sharing of immigration or citizenship status information, and not restrictions on the sharing of home and work addresses, and release dates.[2] Courts have also found 8 U.S.C. § 1373 to be unconstitutional under the Tenth Amendment of the U.S. Constitution, so LEAs should ask their counsel to monitor developments in the law.[3]

Consistent with federal and state law, this IB offers guidance on steps LEAs can take to govern the use of criminal justice information (CJI) that is non-criminal history information. Non-criminal history information contained within databases accessed through CLETS, other DOJ criminal justice information systems, as well as LEAs' individual databases should not be used for the purpose of immigration enforcement. And, any implementation of the policy recommendations in this IB should be applied to all law enforcement agencies equally, regardless of whether they are federal, state, or local law enforcement. Federal immigration authorities should not be denied access to law enforcement databases solely based on their status as a federal immigration authority, so long as they comply with the policies governing use of the databases.

GUIDANCE SURROUNDING USE OF NON-CRIMINAL HISTORY INFORMATION

All users should agree that they will not use any information for purposes of immigration enforcement, as defined in California Government Code section 7284.4, subdivision (f), with respect to an individual who does not possess a criminal history. Individuals who have a criminal history include those with a prior criminal arrest or conviction. This restriction does not impact persons with criminal records within CJI systems. Users are also not prohibited or restricted from sending to, or receiving from, federal immigration authorities, information regarding the citizenship or immigration status, lawful or unlawful, of an individual, or from requesting from federal immigration authorities information regarding a person's immigration status, maintaining such information, or exchanging such information with any other federal, state, or local government entity, pursuant to 8 U.S.C. §§ 1373 and 1644.

---

[1] 8 U.S.C. § 1373(a), (b).
[2] *United States v. California* (E.D. Cal. 2018), 314 F. Supp. 3d 1077, 1101-04; *City of Philadelphia v. Sessions* (E.D. Pa. June 6, 2018), ---F.Supp.3d ---, 2018 WL 2725503, at *35; *Steinle v. City and County of San Francisco* (N.D. Cal. 2017) 230 F.Supp.3d 994, 1015-1016.
[3] *City of Chicago v. Sessions* (N.D. Ill. July 27, 2018) --- F.Supp.3d ---, 2018 WL 3608564, at *10; *Philadelphia*, 309 F.Supp.3d at 331; *see also California*, 314 F.Supp.3d at 1101 (finding Section 1373's constitutionality "highly suspect").

LEAs are encouraged to adopt the following policies surrounding the use of non-criminal history data:

1. As part of any application, memorandum of understanding, or agreement to access any law enforcement databases, LEAs should inquire regarding the purpose for which the LEA intends to use the information contained within the database. Users who state that they will be using the information for immigration enforcement purposes should be required, as a condition for accessing the database, to agree that they will only do so for those individuals with a criminal history, or for information regarding the immigration or citizenship status of any individual. Users should likewise be required to agree they will not use non-criminal history information, aside from information regarding immigration or citizenship status, for immigration enforcement purposes.

2. Database login screens should be updated to include instruction on the proper use of the information contained in the database. Sample language is provided below:

   "Federal, state or local law enforcement agencies shall not use any non-criminal history information contained within this database for immigration enforcement purposes. This restriction does not pertain to any information that is regarding a person's immigration or citizenship status pursuant to 8 U.S.C. §§ 1373 and 1644."

3. Any policies governing the use of non-criminal history information should include the above-referenced language.

4. Any data sharing agreements, memorandums of understanding, and/or contracts between law enforcement agencies and vendors/service providers should be updated to reflect policies that prohibit the use of non-criminal history information for immigration enforcement purposes.

5. Limit, wherever possible, the collection of personal information of victims and witnesses of crime(s). Further, consider adopting retention periods no longer than is necessary to fulfill the purpose justifying collection of the information.

6. Agencies should survey their databases to determine which databases contain criminal history information, non-criminal history information, and/or both criminal history and non-criminal history information to assist with audits, training, and policy compliance.

TRAINING RECOMMENDATIONS FOR NON-CRIMINAL HISTORY INFORMATION

1. Initial security awareness training for new employees and ongoing biannual recertification should be updated to include questions to demonstrate knowledge of the updated governance policies regarding, limitations on the use of non-criminal history information for immigration enforcement purposes.

AUDIT CRITERIA FOR NON-CRIMINAL HISTORY INFORMATION

1. When internal database compliance audits are conducted, agencies should ensure database users are in compliance with policies that limit the use of non-criminal history information for immigration enforcement purposes.

2. Agencies should update internal policies regarding the reporting of misuse of non-criminal history information that is used for immigration enforcement purposes.

Sincerely,

JOE DOMINIC, Chief
California Justice Information Services Division

For XAVIER BECERRA
Attorney General

California Department of Justice CALIFORNIA JUSTICE INFORMATION SERVICES DIVISION Chris Cademarti, Acting Chief/CIO	**INFORMATION BULLETIN**	
Subject: Updated California Value's Act's Database Guidance	*No.* 23-01-CJIS *Date:* 10-27-2023	*Contact for information:* Client Services Program dojcsp@doj.ca.gov

TO: ALL CHIEFS OF POLICE, SHERIFFS, and EXECUTIVES OF CALIFORNIA LAW ENFORCEMENT AGENCIES

This Information Bulletin (IB) provides updated guidance to California state and local law enforcement agencies (collectively, California LEAs) regarding the governance of databases under Senate Bill (SB) No. 54 (De León; 2017-2018 Regular Session) ("the Values Act" or SB 54) and supplements the previous IB 18-10-CJIS. Specifically, this IB provides updated guidance regarding specific databases to ensure information is limited for immigration enforcement purposes to the fullest extent practicable and consistent with federal and state law. California LEAs are strongly encouraged to review and update their existing database governance polices consistent with this guidance and that in IB 18-10-CJIS.

1. OBLIGATIONS UNDER SB 54

As discussed more fully in IB 18-10-CJIS, California LEAs are reminded that subject to certain exceptions described below, SB 54 prohibits California LEAs from providing personal information about an individual for immigration enforcement purposes, including, but not limited to, the individual's home address or work address. (Gov. Code, § 7284.6, subd. (a)(1)(D) [emphasis added].) "Personal information" means "any information that is maintained by an agency that identifies or describes an individual, including, but not limited to, his or her name, social security number, physical description, home address, home telephone number, education, financial matters, and medical or employment history . . . ." (Civ. Code, § 1798.3, subd. (a).)

SB 54 does not prohibit California LEAs from exchanging information regarding a person's immigration status with federal immigration authorities. (Gov. Code, § 7284.6, subd. (e), citing 8 U.S.C. §§ 1373, 1644.) The disclosure of all other personal information that does not encompass information regarding a person's citizenship or immigration status, including a person's home address or work address, is prohibited from disclosure unless that information is:

> (1) publicly available; (2) provided in response to a request from immigration authorities for information about a specific person's criminal history, including previous criminal arrests, convictions, or similar criminal history information accessed through the California Law Enforcement Telecommunications System (CLETS), where otherwise permitted by state law; or (3) confidential information shared as part of a joint law enforcement task force when, among other things, the primary purpose of that task force is not immigration enforcement.

(Gov. Code, § 7284.6, subd. (a)(1)(D) and (b)(2), (3).)[1]

1 Other laws may prohibit the sharing of confidential data during a joint investigation, but they are beyond the scope of this bulletin.

2. ACCESSING DATA FROM THE CA DOJ OR THROUGH CLETS

In response to a report issued by the California State Auditor,[2] California LEAs that access data from the CA DOJ or through CLETS, and/or allow other agencies to access this data, are reminded that they should ensure that any such access complies with the limitations on information sharing set forth in SB 54. The below data and databases are identified so that California LEAs can take steps to govern the use of non-criminal history information that they may download and access to ensure that access complies with the sharing limitations set forth in SB 54.

Accessing the FBI's National Crime Information Center (NCIC) License Plate Data Extract File

Authorized law enforcement agencies can access license plate data in the FBI's NCIC system. To access this extract via Secure File Transfer, a California LEA must enter into a Memorandum of Understanding (MOU) with the CA DOJ. The MOU details requirements for usage, including the above SB 54 statutory requirements, as well as making sure the Agency is responsible for using the NCIC data for law enforcement purposes only. It also requires local databases to be updated as the FBI updates become available, ensuring that those numbers deleted from the NCIC system are also deleted from all local databases.

Additionally, the MOU outlines specific requirements to address confidentiality, use of information, data ownership and information security. If your agency is interested in being authorized to obtain the NCIC license plate data, please contact dojcsp@doj.ca.gov.

Accessing CA DOJ License Plate Data

California LEAs may obtain license plate data from the CA DOJ to be used for law enforcement purposes only. The DOJ makes three files containing license plate data available for download to authorized California LEAs via the California Law Enforcement Web (CLEW) website at https://clew.doj.ca.gov. These files are the SVS Stolen Vehicles Table, SVS Felony Vehicles Table and SVS Stolen License Plates Table (collectively referred to as the "SVS download").

In order to receive authorization to access these files, agencies must complete the CLEW License Plate Data Download Usage Agreement form and e-mail it to dojcsp@doj.ca.gov. The e-mail must be initiated by the agency head (e.g., Sheriff, Police Chief), agency CLETS coordinator, or agency security point of contact, and include the California LEAs public facing IP address on the CLEW License Plate Data Usage Agreement form. Once an agency is authorized, they will be allowed to download the above mentioned SVS Tables. Agencies must also abide by the User Terms and Conditions on CLEW, which includes notification regarding SB 54 and the restriction on using non-criminal history information for immigration enforcement purposes.

Even where the sharing of license plate data may be for a permitted purpose under SB 54, all agencies should be aware that there are strict privacy limitations on the sharing of license plate reader data under Senate Bill (SB) No. 34 (Hill; 2015-2016 Regular Session) (SB 34), and should consult Bulletin #XXXX prior to making any determination on the sharing of such information.

2 The full report is available at https://www.auditor.ca.gov/reports/2019-118/index.html.

Data Downloaded from the California Law Enforcement Website (CLEW)

In addition to the files mentioned above, California LEAs may download other data files from CLEW, including Missing Person files. The downloading and use of the data must be in compliance with SB 54. As stated above, agencies must also abide by the User Terms and Conditions on CLEW, which includes notification regarding SB 54 and the restriction on using non-criminal history information for immigration enforcement purposes.

Accessing Information through CLETS

As mentioned in IB 18-10-CJIS, and consistent with federal and state law, California LEAs need to ensure that non-criminal history information contained within databases accessed through CLETS, other DOJ criminal justice information systems, as well as California LEAs' individual databases should not be used for the purpose of immigration enforcement.

In addition to IB 18-10-CJIS, the CLETS Policies, Practices and Procedures (PPP), revised (12/19), also reaffirms that California LEAs must ensure compliance with SB 54. In accordance with the CLETS PPP, California LEAs must comply with SB 54 and cannot share non-criminal history information within the databases accessed through CLETS for immigration enforcement purposes, except for purposes consistent with 8 U.S.C. § 1373 and § 1644. (CLETS PPP, 1.6.1 (D)(2)(f).)

3. ADDITIONAL REFERENCE MATERIALS

Going forward, as your agency accesses CA DOJ file downloads or other information through CLETS, you are encouraged to regularly review your policies and usage to help ensure all applicable requirements are adhered to. As additional reference materials, the following resources are included for your consideration as well:

California Justice Information Services Division

For ROB BONTA
Attorney General

Flock Safety CJIS Compliance Overview

MARCH 1, 2024

CJIS Overview

The Criminal Justice Information Services (CJIS) Division of the US Federal Bureau of Investigation (FBI) provides state, local, and federal law enforcement and criminal justice agencies access to criminal justice information (CJI) — for example, fingerprint records and criminal histories. Law enforcement and other government agencies in the United States must ensure that their use of cloud services for the transmission, storage, or processing of CJI complies with the CJIS Security Policy, which establishes minimum security requirements and controls to safeguard CJI.

The CJIS Security Policy integrates presidential and FBI directives, federal laws, and the criminal justice community's Advisory Policy Board decisions, along with guidance from the National Institute of Standards and Technology (NIST). The Policy is periodically updated to reflect evolving security requirements.

The CJIS Security Policy defines 16 areas that private contractors such as cloud service providers must evaluate to determine if their use of cloud services can be consistent with CJIS requirements. These areas correspond closely to NIST 800-53, the foundation of Flock Safety's (Flock) security program has been built-on.

Flock Safety and CJIS Applicability

Flock's Automated License Plate Reader (ALPR) and FlockOS leverages plate number extract files from National, State, and local hotlist databases to provide real time alerting to Law Enforcement agencies.

The most common hotlist extract file used with our solutions is the National Crime Information Center (NCIC) file. This file represents vehicles of interest submitted by agencies across the US and contains license plate number and state, reason, vehicle description, and Originating Agency Identifier (ORI) number of the submitting law enforcement agency.

Flock Safety has implemented the safeguards and technologies to meet or exceed the “minimum standards of security requirements” outlined in the FBI’s CJIS Security Policy (currently v5.9.3, dated September 14, 2023). This document provides a summary of the processes and technologies implemented by Flock Safety for compliance with the FBI’s CJIS Security Policy.

CJIS data is stored and processed in Amazon’s AWS GovCloud environment.

Flock Safety and CJIS Security Policy

Flock signs the CJIS Security Addendum in states with CJIS Information Agreements. These tell state law enforcement authorities responsible for compliance with CJIS Security Policy how Flock’s cloud security controls help protect the full lifecycle of data and ensure appropriate background screening of operating personnel with access to CJI. Flock continues to work with state governments to enter into CJIS Information Agreements.

Flock has assessed the operational policies and procedures of Flock OS, and will attest to their ability in the applicable services agreements to meet FBI requirements for the use of in-scope services.

Policy Area 1—Information Exchange Agreements

As part of all Flock contracts for service, whether as part of a purchase, trial, or shared access agreement* Flock Safety and the agency sign an “Information Exchange Agreement” in the form of a Memorandum of Understanding (MOU).

This MOU represents the commitment between the agency and Flock Safety to ensure prevention of unauthorized disclosure, alteration, or misuse of the CJIS data leveraged by the law enforcement agency via the Flock Safety solution.

*An agency who has not purchased Flock Safety cameras but has access to cameras purchased by another entity

Policy Area 2—Security Awareness Training

Flock Safety employees including those that interact with CJIS data or access infrastructure that processes CJIS data complete an annual Security Awareness Training. Our training program to employees includes topics such as identifying Insider Threat, Social Engineering tactics, and specific training for teams responsible for engineering applications and infrastructure.

Policy Area 3—Incident Response

Flock Safety maintains an incident response plan that defines the roles and responsibilities of essential personnel upon detection of an incident. This plan is shared with personnel responsible for incident response and is rehearsed annually.

Policy Area 4—Auditing and Accountability

Flock Safety's Security Operation Center utilizes Amazon Guard Duty that analyzes Cloudtrail logs and has deployed Security Information and Event Management (SIEM) technology that captures relevant details including successful/unsuccessful log-on attempts to change passwords, actions by privileged users, and attempts to destroy audit logs. Audit logs include date, time, type of event, user identities, and outcomes and are retained for a period of one year.

Policy Area 5—Access Control

Flock Safety utilizes identity providers and Identify Access and Management (IdAM) policies within AWS for Account Management and enforcement of Least Privilege. These solutions provide automated system account management, auditing, and required re-authentication based on inactivity. Flock also provides options for Single Sign On that enable customers to direct governance for customer's Flock OS user accounts. Customer, employee, and resource connections are encrypted using a secured web connection, HTTPS and TLS.

Policy Area 6—Identification and Authentication

All Flock Safety users have a Universally Unique Identification (UUID-128 bit) that identifies them throughout the Flock Safety platform. This UUID is maintained throughout the lifecycle of the user's account including name change, role changes or permissions changes.

Flock Safety requires the use of secure passwords and provides multi factor authentication (MFA) solutions for authentication to the platform. Flock employees with privileged access to confidential resources within the AWS cloud environment are required to use a hardware based token.

Policy Area 7—Configuration Management

Flock Safety collaborates with AWS as our cloud infrastructure provider to align existing architecture with best practices defined by the AWS Well-Architected Framework that are designed to reduce risks around security, reliability, and operational excellence. The Well Architected Framework requires compliance with configuration benchmarks published by the Center for Internet Security (CIS). Flock is a recognized AWS partner through demonstrated adherence to AWS Well Architected Framework.

Flock maintains documentation to illustrate the data flow from products, components involved in processing and storage, integration with agency partners, integrations with commercial partners, and logical locations of infrastructure.

Policy Area 8—Media Protection

Flock Safety uses the AWS GovCloud infrastructure that is CJIS compliant for storing and processing of CJIS data. Hardware protections for storage, transport and sanitization are the responsibility of AWS as defined by the AWS shared responsibility model. AWS maintains custody of all assets until sanitized using industry accepted standards.

Policy Area 9—Physical Protection

Flock Safety utilizes AWS Services hosted within AWS Commercial, Ohio Region, and US GovCloud (US-East) data centers that are safeguarded from man-made and natural disasters at the Environmental, Perimeter, Infrastructure and Data Layers. Refer to AWS Data Center Overview for a description of implemented physical security safeguards.

Policy Area 10—Systems and Communications Protection

Flock Safety processes and stores CJIS data within the United States, within AWS GovCloud and uses AES 256 symmetric encryption, FIPS 140-2-compliant APIs and HTTPS (Transport Layer Security [TLS]) to encrypt communications.

Flock OS provides a user interface and customer portal that is offered through a separate identity provider than the identity governance platform that engineering teams use to support compute, storage, and network services.

Flock maintains logical system boundaries between cloud infrastructure, devices, and customer and administrative users. This separation is maintained through AWS Security Groups, Web Application Firewalls, and AWS Services designed to prevent and detect intrusions and denial of service attempts.

Policy Area 11—Formal Audits

Flock Safety performs routine reviews to confirm controls exist and operate effectively. SOC 2 audits are performed by an external firm annually to demonstrate compliance with general security standards. Flock signs agreements with partner agencies to enable the right to audit upon agencies request.

Policy Area 12—Personnel Security

Identification, state of residency and national fingerprint-based record checks are conducted prior to granting unescorted access to unencrypted criminal justice information. Access for users who are terminated are immediately revoked. Flock maintains an inventory of users with unescorted CJI and conducts regular reviews to validate each user's access.

Flock Safety employees that have access to CJIS data or access infrastructure that handles CJIS data undergo Security Awareness Training, sign the FBI Criminal Justice Information Services Security Addendum.

Policy Area 13—Mobile Devices

FlockOS is cloud hosted and delivered as both a web and a mobile application. Flock has collaborated with law enforcement customers to design applications that are compatible with agency requirements for Mobile Device Management, Malicious Code Protection, Device Certificates, Authentication, and Access Control.

Policy Area 14: System and Services Acquisition

Flock safety maintains an inventory of system and infrastructure resources and updates components prior to end of contract and support.

Policy Area 15: System and Information Integrity

Flock Safety has deployed tools that perform testing of software, firmware and system infrastructure for vulnerabilities and remediates vulnerabilities according to timeframes based on severity.

Flock Safety has deployed security technologies and processes to monitor system activity for indicators of attack, unauthorized connections or actions, and the introduction of malicious code. The security technologies deployed include malware protection that analyzes files for malicious code and takes mitigating actions including alerating Flock's security operations center for resolution.

Flock Safety retains customer images and audio recordings according to customers' defined retention schedule or adheres to the standard retention schedule of thirty days. We have built our platform to erase data from storage locations automatically according to defined policies.

Policy Area 16: Maintenance

Flock Safety has established a process to document changes made to system components in the environment, capture details of testing performed, and log activities performed by an administrator.

Flock Safety's CJIS infrastructure is maintained by AWS Services per the AWS Responsibility Model. AWS performs maintenance of equipment to safeguard against loss of continued operability within AWS data centers. Maintenance is carried out by qualified persons who document actions completed.

FLOCK SAFETY SYSTEM & SPPD SAFEGUARDS

Prepared for Inclusion in Staff Report

FLOCK SAFETY SYSTEM & SPPD SAFEGUARDS FACT SHEET

I. FLOCK SAFETY SYSTEM SAFEGUARDS

- Permanent Audit Logs:

  All user activity within the system is recorded and retained indefinitely, ensuring complete accountability.

- User Authentication & Access Control:

  Access is restricted by user authentication protocols, including Multi-Factor Authentication (MFA), data encryption, and tiered permission levels.

- Search Auditing:

  Every search is monitored and audited to track user activity and prevent unauthorized use.

- Required Case Number Entries:

  Requires users to enter an associated case number to validate that the search is tied to an active investigation.

- AI-Assisted Misuse Detection (In Development):

  Flock is implementing advanced AI tools to detect unusual or inappropriate system use in real time.

- Data Ownership and Control:

  Flock does not own, access, or share data collected by the South Pasadena Police Department (SPPD). Data remains under the exclusive control of SPPD.

II. SPPD OPERATIONAL SAFEGUARDS

- Documented Search Justifications:

  Each search conducted through Flock requires documentation outlining a specific investigative purpose with a case number or incident number.

- Automated Audit Trails:

  The system automatically records all search activity to ensure accountability and to facilitate auditing.

- Administrative Oversight Audits:

  Supervisory personnel conduct regular audits to verify that usage complies with Department policy and relevant legislation.

- Mandatory Training Requirements:

  All authorized personnel must complete training to ensure compliance with Senate Bill 34 (SB 34), Senate Bill 54 (SB 54), and internal departmental policies.

- 30-Day Data Retention Limit:

  SPPD maintains a strict policy that automatically deletes collected LPR data after 30 days, unless retained under a lawful exception.

- Transparency Through Public Reporting:

  In a commitment to transparency, SPPD publishes relevant Flock data to the public through its Department dashboard, which links to the Racial and Identity Profiling Act (RIPA) reporting platform, which is available at:

  https://public.tableau.com/app/profile/policestrategies/viz/SouthPasadenaPD-RIPAStops-Website/SouthPasadenaPD

- Transparency Enhancements Underway:

  SPPD recently activated the Flock Safety Transparency Portal, which is now available at:

  https://transparency.flocksafety.com/south-pasadena-ca-pd

Product and Services Description

Flock Safety Platform Items	Product Description	Terms
Flock Safety Falcon ®	An infrastructure-free license plate reader camera that utilizes Vehicle Fingerprint® technology to capture vehicular attributes.	The Term shall commence upon first installation and validation of Flock Hardware.

One-Time Fees	Service Description
Installation on existing infrastructure	One-time Professional Services engagement. Includes site & safety assessment, camera setup & testing, and shipping & handling in accordance with the Flock Safety Advanced Implementation Service Brief.
Professional Services - Standard Implementation Fee	One-time Professional Services engagement. Includes site and safety assessment, camera setup and testing, and shipping and handling in accordance with the Flock Safety Standard Implementation Service Brief.
Professional Services - Advanced Implementation Fee	One-time Professional Services engagement. Includes site & safety assessment, camera setup & testing, and shipping & handling in accordance with the Flock Safety Advanced Implementation Service Brief.

FlockOS Features & Description

FlockOS Features	Description
Community Network Access	The ability to request direct access to feeds from privately owned Flock Safety Falcon® LPR cameras located in neighborhoods, schools, and businesses in your community, significantly increasing actionable evidence that clears cases.
Unlimited Users	Unlimited users for FlockOS
State Network (License Plate Lookup Only)	Allows agencies to look up license plates on all cameras opted into the Flock Safety network within your state.
Nationwide Network (License Plate Lookup Only)	With the vast Flock Safety sharing network, law enforcement agencies no longer have to rely on just their devices alone. Agencies can leverage a nationwide system boasting 10 billion additional plate reads per month to amplify the potential to collect vital evidence in otherwise dead-end investigations.
Law Enforcement Network Access	The ability to request direct access to evidence detection devices from Law Enforcement agencies outside of your jurisdiction.
Time & Location Based Search	Search full, partial, and temporary plates by time at particular device locations
License Plate Lookup	Look up specific license plate location history captured on Flock devices
Vehicle Fingerprint Search	Search footage using Vehicle Fingerprint™ technology. Access vehicle type, make, color, license plate state, missing / covered plates, and other unique features like bumper stickers, decals, and roof racks.
Insights & Analytics	Reporting tool to help administrators manage their LPR program with device performance data, user and network audits, plate read reports, hot list alert reports, event logs, and outcome reports.
ESRI Based Map Interface	Map-based interface that consolidates all data streams and the locations of each connected asset, enabling greater situational awareness and a common operating picture.
Real-Time NCIC Alerts on Flock ALPR Cameras	Receive automated alerts when vehicles entered into established databases for missing and wanted persons are detected, including the FBI's National Crime Information Center (NCIC) and National Center for Missing & Exploited Children (NCMEC) databases.
Unlimited Custom Hot Lists	Ability to add a suspect's license plate to a custom list and get alerted when it passes by a Flock camera
