	Councilmember	Jon Primuth
	Councilmember	Omari Ferguson
PLEDGE OF ALLEGIANCE:	Councilmember	Michael A. Cacciotti

CLOSED SESSION ANNOUNCEMENTS

1. CLOSED SESSION ANNOUNCEMENTS

PUBLIC COMMENT GUIDELINES

The City Council welcomes public input. Members of the public may comment on a non-agenda subject under the jurisdiction of the City Council or on an agenda item. Members of the public will have three minutes to address the City Council, however, the Mayor and City Council may adjust the time allotted, as needed.

Public Comments received in writing will not be read aloud at the meeting, but will be part of the meeting record. Written public comments will be uploaded to the City website for public viewing under Additional Documents. When submitting a public comment, please make sure to include the following:
1) Name (optional), and
2) Agenda item you are submitting public comment on.
3) Submit by no later than 12:00 p.m., on the day of the City Council meeting. Correspondence received after this time will be distributed the following business day.

PLEASE NOTE: The Mayor may exercise the Chair's discretion, subject to the approval of the majority of the City Council, to adjust public comment time limit to less than three minutes, as needed.

Pursuant to State law, the City Council may not discuss or take action on issues not on the meeting agenda, except that members of the City Council or staff may briefly respond to statements made or questions posed by persons exercising public testimony rights (Government Code Section 54954.2). Staff may be asked to follow up on such items.

PUBLIC COMMENT

2. PUBLIC COMMENT - GENERAL (NON-AGENDA ITEMS)

General Public Comment will be limited to 30 minutes at the beginning of the agenda. If there are speakers remaining in the queue, they will be heard at the end of the meeting. Only Speakers who submit a Public Comment card within the first 30 minutes of Public Comment period will be queued up to speak.

PRESENTATIONS

3. MERCHANT MINUTE - CHUCK'S APPLIANCES

CHANGES TO THE AGENDA

4. REORDERING OF, ADDITIONS, OR DELETIONS TO THE AGENDA

CONSENT CALENDAR

OPPORTUNITY TO COMMENT ON CONSENT CALENDAR

Items listed under the Consent Calendar are considered by the City Manager to be routine in nature and will be enacted by one motion unless a public comment has been received or Councilmember requests otherwise, in which case the item will be removed for separate consideration. Any motion relating to an ordinance or a resolution shall also waive the reading of the ordinance or resolution and include its introduction or adoption as appropriate.

5. **CONSIDERATION OF THE APPROVAL OF PREPAID WARRANTS IN THE AMOUNT OF $1,058,251.45; GENERAL CITY WARRANTS IN THE AMOUNT OF $2,592,932.37; ONLINE PAYMENTS IN THE AMOUNT OF $145,780.06; VOIDS IN THE AMOUNT OF ($196,386.25); PAYROLL IN THE AMOUNT OF $849,496.63.**

   Recommendation
   It is recommended that the City Council approve the Warrants as presented.

6. **CONSIDERATION OF APPROVAL OF THE CITY COUNCIL REGULAR CITY COUNCIL MEETING MINUTES FOR MAY 7, 2025 AND MAY 21, 2025**

   Recommendation
   It is recommended that the City Council approve the minutes from the Regular City Council Meetings held on May 7, 2025 and May 21, 2025.

7. **ADOPTION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, AMENDING ARTICLE 7 (DEFINITIONS) OF CHAPTER 36 (ZONING) OF THE SOUTH PASADENA MUNICIPAL CODE TO AMEND THE DEFINITION OF "CITY ENGINEER"**

   Recommendation
   It is recommended that the City Council adopt the ordinance amending Title 7 (Definitions) of Chapter 36 (Zoning) of the South Pasadena Municipal Code to amend the definition of "City Engineer."

8. **CONSIDERATION TO APPROVE THE SECOND AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH LAKEVIEW CONSULTING, LLC., FOR TEMPORARY STAFFING SERVICES, AT A COST OF $78,000, FOR A NEW TOTAL NOT-TO-EXCEED AMOUNT OF $126,000, AND EXTENDING THE AGREEMENT THROUGH SEPTEMBER 31, 2025**

   Recommendation
   It is recommended that the City Council consider approving the proposed second Amendment to the Professional Services Agreement with Lakeview Consulting, LLC., in the amount of $78,000, for continued temporary staffing services and amending the scope of work to include Senior Consultant services for a payroll system audit, for a new total not-to-exceed compensation amount of $126,000, and extending the agreement through September 31, 2025.

9. **CONSIDERATION OF APPROVAL OF AN AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH WBCP INC., FOR RECRUITMENT SEARCH SERVICES, IN THE AMOUNT NOT TO EXCEED OF $10,400, FOR A NEW TOTAL CONTRACT AMOUNT OF $56,000**

   Recommendation
   It is recommended that the City Council consider approval of the proposed amendment to the professional services agreement with WBCP Inc., to amend the compensation for recruitment search services and add the recruitment services for a Chief City Clerk, in an amount not to exceed of $10,400, for a new total contract amount of $56,000.

10. CONSIDERATION OF ADOPTION OF A RESOLUTION AUTHORIZING SIGNATORIES ON CITY BANKING ACCOUNTS AND RELATED BANKING DOCUMENTS AND ADOPTION OF A RESOLUTION AUTHORIZING SIGNATORIES ON THE CITY'S LOCAL AGENCY INVESTMENT FUND ACCOUNT

Recommendation

It is recommended that the City Council consider:

1. Adopting the proposed resolution authorizing signatures on the City's bank accounts; and
2. Adopting the proposed resolution authorizing signatures on the City's Local Agency Investment Fund (LAIF) account.

11. CONSIDERATION OF ENTERING INTO AND APPROVING THE EXECUTION OF PURCHASE AND SALE AGREEMENTS WITH THE STATE OF CALIFORNIA, DEPARTMENT OF TRANSPORTATION FOR THE PURCHASE OF TWELVE SR 710 SURPLUS RESIDENTIAL PROPERTIES LOCATED IN THE CITY OF SOUTH PASADENA AND AUTHORIZE THE CITY MANAGER TO TAKE ALL NECESSARY ACTIONS RELATED THERETO

Recommendation

It is recommended that the City Council consider entering into and approving the execution of purchase and sale agreements with the State of California, Department of Transportation for the purchase of 12 unoccupied properties in the form negotiated and finalized by the City Attorney and the City Manager, and authorize the City Manager to execute the purchase and sale agreements and take all actions necessary thereto for the purchase, including but not limited to, the opening of escrow and the payment of the deposit required under the agreements.

12. CONSIDERATION OF APPOINTMENT TO PUBLIC WORKS INFRASTRUCTURE COMMISSION FOR PARTIAL TERM

Recommendation

It is recommended by Mayor Braun that the City Council appoint Ryan Jones to the Public Works Infrastructure Commission for a partial-term ending on December 31, 2026.

13. CONSIDERATION OF APPROVAL OF A PROFESSIONAL SERVICES AGREEMENT WITH ITERIS, INC., FOR TRAFFIC ENGINEERING AND ITS SUPPORT SERVICES RELATED TO THE NORTH-SOUTH CORRIDOR INTELLIGENT TRANSPORTATION SYSTEM (ITS) DEPLOYMENT PROJECT IN A NOT TO EXCEED AMOUNT OF $73,787.00

Recommendation

It is recommended that the City Council consider approval of a Professional Services Agreement (PSA) with Iteris, Inc., to provide traffic engineering and ITS support services to support the City's North-South Corridor Intelligent Transportation System (ITS) Deployment Project, Project No. 002002 (2020-02), Federal Project No. RABA01-5071(024), in a not-to-exceed amount of $73,787.00

14. CONSIDERATION TO THE PURCHASE OF A 2025 CHEVROLET TAHOE AS A POLICE DEPARTMENT COMMAND AND RESPONSE VEHICLE AND APPROVE

CONTRACTS RELATED TO THE UPFITTING OF THE VEHICLE FOR A TOTAL NOT TO EXCEED $111,118.00

Recommendation

It is recommended that the City Council:

1. Award a contract to Chevrolet of Montebello for the purchase of a new 2025 Chevrolet Tahoe to be used as a command and response vehicle in the amount of $60,063.37; and
2. Award a contract to Hom Communications in the amount of $28,948.43 for the purchase and installation of emergency equipment; and
3. Award a contract to Motorola Solutions Inc in the amount of $21,102.80 for the purchase of 2 Motorola APX8500 police radios.

PUBLIC HEARING

15. CONSIDERATION OF ADOPTION OF A RESOLUTION CONFIRMING AN ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE LIGHTING AND LANDSCAPING MAINTENANCE DISTRICT (LLMD) FOR FISCAL YEAR 2025-2026

Recommendation

It is recommended that the City Council, after receiving Public Hearing testimony, adopt the attached resolution confirming the annual levy and collection of assessments for the Lighting and Landscaping Maintenance District (LLMD) for Fiscal Year (FY) 2025-2026.

16. CONSIDERATION OF THE PROPOSED AMENDMENT TO THE CITY'S LAND USE AND OPEN SPACE ELEMENTS OF THE GENERAL PLAN, THE 2021-2029 (6TH CYCLE) HOUSING ELEMENT OF THE GENERAL PLAN AND THE DOWNTOWN SPECIFIC PLAN; AND INTRODUCTION OF AN ORDINANCE TO AMEND SOUTH PASADENA MUNICIPAL CODE (SPMC) CHAPTER 36 (ZONING) AND SOUTH PASADENA ZONING MAP TO PROPOSE NEW HEIGHT LIMITS, DENSITY ADJUSTMENTS, AND OTHER DEVELOPMENT STANDARD ADJUSTMENTS TO FACILITATE HOUSING AND IMPLEMENT HOUSING ELEMENT PROGRAMS

Recommendation

It is recommended that the City Council conduct a public hearing and take the following actions:

1. Adopt a resolution amending the Land Use and Open Space Elements of the General Plan (Attachment 1),
2. Adopt a resolution conditionally amending the 2021-2029 (6th Cycle) Housing Element of the General Plan (Attachment 2),
3. Adopt a resolution amending the Downtown Specific Plan (Attachment 3),
4. Introduce and waive full reading of an ordinance amending Chapter 36 of the South Pasadena Municipal Code (Zoning Code) and the Zoning Map and request the City Attorney read the ordinance by title only (Attachment 4), and
5. Finding the actions in compliance with the California Environmental Quality Act (CEQA) via an Addendum to the General Plan's Program Environmental Impact Report (PEIR) and as statutorily exempt.

17. PUBLIC HEARING ON THE PROPOSED SOLID WASTE RATES AND ADOPTION OF

A RESOLUTION ESTABLISHING A NEW SOLID WASTE RATE ADJUSTMENT FORMULA AND APPROVING THE SOLID WASTE RATES FOR THE COLLECTION, TRANSFER, TRANSPORTATION, RECYCLING, PROCESSING, AND DISPOSAL OF SOLID WASTE, INCLUDING ORGANIC WASTE, COMMENCING AUGUST 1, 2025, AND MAKING A DETERMINATION OF EXEMPTION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

Recommendation

It is recommended that the City Council conduct a public hearing on the proposed solid waste rate adjustment changes and determine whether there is a majority protest against the proposed changes and if no majority protest exists, adopt a resolution establishing the new solid waste rate adjustment formula and maximum service rates effective August 1, 2025. If a majority protest exists, the City Council should discuss and direct staff on how to proceed with the next steps.

ACTION/ DISCUSSION

18. CONSIDERATION OF AUTHORIZATION TO ISSUE A REQUEST FOR QUALIFICATIONS TO SEEK A PUBLIC-PRIVATE PARTNERSHIP P3 MODEL FOR THE REDEVELOPMENT, OPERATION AND MAINTENANCE OF THE ARROYO SECO GOLF COURSE

Recommendation

Staff recommends that the City Council review and provide direction regarding the proposed Request for Qualifications (RFQ) process for identifying a private partner to redevelop, operate and maintain the Arroyo Seco Golf Course (ASGC). Specifically, staff seeks City Council input on whether to proceed with a formal release of the RFQ.

19. DISCUSSION AND DIRECTION RELATED TO A PROPOSAL FOR A VINTAGE AND CRAFT MARKET BY SOUTH PAS VINTAGE AND HODGSON'S ANTIQUES IN THE PUBLIC RIGHT OF WAY ON MERIDIAN AVENUE, BETWEEN MISSION AND EL CENTRO STREETS

Recommendation

Staff is requesting that the City Council review the proposal from South Pas Vintage and Hodgson's Antiques (Vintage) regarding a monthly Vintage and Craft Market (Market) and provide direction to staff.

20. STATUS REPORT OF THE CITY'S ACTIVE MILLS ACT CONTRACTS AND DISCUSSION AND DIRECTION ON THE REPORT'S RECOMMENDATIONS

Recommendation

Staff recommends the City Council receive and file the report and provide direction.

Group 1:

Staff recommends that the property owners submit a new Rehabilitation & Restoration Plan that outlines potential new work items to be carried out for the property over the next 10 years. The new work plan would be brought to the Cultural Heritage Commission for review, comment, and recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal.

Group 2:
Staff recommends that these contracts be brought to the Cultural Heritage Commission as an update for review and comment.

Group 3:
Staff recommends that these properties be given 1 year to provide an updated Rehabilitation & Restoration Plan that identifies when the remaining tasks will be completed. These updated work plans shall then be brought to the Cultural Heritage Commission for review, comment, and a recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal. If a property owner does not provide an updated work plan within the year provided, then Staff will recommend to the City Council the Mills Act Contract associated with such property be cancelled pursuant to SPMC Section 2.68(b)(1)(D)(ix).

21. CONSIDERATION OF AN APPROPRIATION OF $23,188.78 FROM THE ARROYO SECO GOLF COURSE RESERVE FUNDS FOR THE PURCHASE OF AN EVO 74" REAR DISCHARGE ZERO TURN MOWER

Recommendation
It is recommended that the City Council consider an appropriation of $23,188.78 from the Arroyo Seco Golf Course Reserve Funds to the Arroyo Seco Golf Course, Account No. 295-8040-8043-8520-000 to be used for the purchase of a 74" Rear Discharge Zero Turn Mower (Mower) with a Battery Charger. The total cost of the Mower will be partially offset by a $15,000 trade-in voucher provided to the City of South Pasadena by the South Coast Air Quality Management District (AQMD).

22. REVIEW AND DISCUSSION OF RECOMMENDATIONS OF REVISIONS TO THE CITY'S TREE ORDINANCE IN CHAPTER 34 OF THE SOUTH PASADENA MUNICIPAL CODE

Recommendation
It is recommended that City Council review and provide feedback on recommended revisions to the South Pasadena Municipal Code Chapter 34 Trees and Shrubs (Tree Ordinance) and direct staff to draft an updated tree ordinance to be presented to City Council at a future meeting.

23. CONSIDERATION OF A RESOLUTION ESTABLISHING TWO NEW EMPLOYEE CLASSIFICATIONS, JOB DESCRIPTIONS AND SALARY RANGES; APPROVING THE RECLASSIFICATION OF AN EXISTING POSITION; APPROVING SALARY RANGE ADJUSTMENT FOR ONE POSITION; AND APPROVING THE ALLOCATION OF FUNDS FROM MULTIPLE FUNDS AND VACANT POSITIONS TO SUPPORT THE PERSONNEL REQUESTS

Recommendation
It is recommended that the City Council consider adoption of the proposed Resolution to:
1. Approve and establish the job classification and salary range for the Procurement Contracts Administrator;
2. Approve and establish the job classification and salary range for the Information Technology and Systems Manager;

3. Approve the updated salary range for the Chief City Clerk position;
4. Approve the reclassification of the Administrative Secretary position in the City Manager's Office to an Executive Assistant;
5. Approve the allocation of funds from the vacant Management Analyst position to the Information Technology and Systems Manager;
6. Approve the allocation of funds from the vacant Permit Technician to the Information Technology and Systems Manager;
7. Approve the allocation of funds from vacant Maintenance Worker II position as an offset to the Special/Enterprise Funds contribution to these positions to support the changes.

24. CONSIDERATION OF THE AWARD OF A SIX YEAR MAINTENANCE CONTRACT TO PIPE TEC, INC. FOR SANTIARY SEWER CLEANING AND CLOSED-CIRCUIT TELEVISION (CCTV) INSPECTION SERVICES IN THE AMOUNT NOT-TO-EXCEED OF $4,600,000 BETWEEN FISCAL YEARS 2025-2026 AND FISCAL YEARS 2030-2031, WITH THE OPTION TO EXTEND THE CONTRACT FOR TWO ADDITIONAL TWO-YEAR EXTENSIONS

Recommendation

It is recommended that the City Council:

1. Award a six year maintenance contract to Pipe Tec, Inc. (Contractor) to provide sanitary sewer cleaning and closed-circuit television (CCTV) inspection services to the City for a not-to-exceed amount of $4,600,000 between Fiscal Years 2025-2026 and Fiscal Year 2030-2031, with the option to extend the contract twice for an additional two fiscal years per extension, subject to a Consumer Price Index (CPI) increase to the rates and contract value in each fiscal year;
2. Authorize the City Manager to finalize and enter into a maintenance agreement with Pipe Tec, Inc. in the form approved by the City Attorney and City Manager and execute any related documents; and
3. Reject all other proposals received.

25. CONSIDERATION TO REVIEW PROPOSED LOCATION OPTIONS FOR THE PLACEMENT OF A THRONE LAB RESTROOM AND PROVIDE DIRECTION TO STAFF REGARDING THE PREFERRED SITE

Recommendation

It is recommended that the City Council review the proposed location options for the placement of a Throne Lab restroom and provide direction to staff regarding the preferred site.

26. PRESENTATION AND DISCUSSION REGARDING SOUTH PASADENA POLICE DEPARTMENT'S USE AND COMPLIANCE REVIEW OF FLOCK SAFETY AUTOMATED LICENSE PLATE READER (ALPR) SYSTEM

Recommendation

It is recommended that the City Council receive an informational presentation regarding the South Pasadena Police Department's use of Flock Safety Automated License Plate Reader technology and discuss the continued deployment of the system in support of regional public safety efforts

PUBLIC COMMENT - CONTINUED

27. CONTINUED PUBLIC COMMENT - GENERAL

This time is reserved for speakers in the Public Comment queue not heard during the first 30 minutes of Item No. 2. No new speakers will be accepted at this time.

COMMUNICATIONS

28. COUNCILMEMBER COMMUNICATIONS

The time allotted to speak per Councilmember is three minutes. Additional time will be allotted at the end of the City Council meeting agenda, if necessary.

29. CITY MANAGER COMMUNICATIONS

City Council Agenda Report

ITEM NO. 5

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: William Castrillon, Budget & Purchasing Manager
Tatiana Fernandez, Management Analyst

SUBJECT: **CONSIDERATION OF THE APPROVAL OF PREPAID WARRANTS IN THE AMOUNT OF $1,058,251.45; GENERAL CITY WARRANTS IN THE AMOUNT OF $2,592,932.37; ONLINE PAYMENTS IN THE AMOUNT OF $145,780.06; VOIDS IN THE AMOUNT OF ($196,386.25); PAYROLL IN THE AMOUNT OF $849,496.63.**

Recommendation
It is recommended that the City Council approve the Warrants as presented.

Executive Summary

Prepaid Warrants:

Warrant # 321491-321524: **$489,202.14**

ACH: **$569,049.31**

Voids: **($0)**

General City Warrants

Warrant # 321525-321690: **$1,932,917.03**

ACH: **$660,015.34**

Voids: **($196,386.25)**

Payroll Period Ending 06/20/2025: **$849,496.63**

Online Payments: **$145,780.06**

Total: $4,450,074.26

Key Performance Indicators and Strategic Plan
This item is in line with the Finance Department's Key Performance Indicators identified in the Fiscal Year 2024-2025 Budget. The Accounts Payable process is completely digital and routed via a workflow process. This cuts down staff time significantly, as well as streamlines a previously strenuous process. This process also falls in line with the City's environmental strategies by reducing the amount of paper used.

Explanation of Terms
Warrant – Directs the Finance Department to pay a sum of money out of the City's funds to bearer of claim/invoice (named individual, company) also known as a payable. The warrants (payments) are only released after City Council approval.

Warrant Summary – Summarizes all of the payments prepared during a specific cycle. The beginning of the cycle is the period after the last set of warrants were approved by Council and released as payment. The end of the cycle is the last date of invoice processing. All the warrants for the current cycle are summarized and the detail of warrants provided to Council for review and approval.

Prepaid Warrant List - A Prepaid Warrant directs the Finance Department to pay a sum of money out of the City's funds to bearer of claim/invoice (named individual, company) also known as a payable. The Prepaid Warrants (payments) are released prior to City Council approval, however reported to City Council as a Prepaid. Prepayments are generally time sensitive and would incur additional charges if not paid within a specific time frame.

General City Warrant List – Detailed listing of all payments made for a specific cycle. The beginning of the cycle is the period after the last set of warrants were approved by Council and released as payment. The end of the cycle is the last date of invoice processing.
Online Payments – Payments made online. These are typically for time sensitive utilities, credit card payments, and sometimes require the use of the payee's portal (SCE, So Cal Gas, Amazon, etc.).

Voids – Checks that were issued and voided. Examples of such instances would be lost checks that were mailed out. Checks that were on a warrant that did not get approved by Council.

Payroll – All payments made related to payroll, such as payroll taxes, retirement benefits, CalPERS, Garnishments, payroll etc.

Good afternoon,

The presenter cancelled the class and we would like to void the check. The check was issued to Savage training group, check # 321474, in the amount of $710.00. I will return the check via interoffice mail.

Thank you,

Jeanette

City Council Agenda Report

ITEM NO. 6

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Hector Gomez, Chief City Clerk

SUBJECT: **CONSIDERATION OF APPROVAL OF THE CITY COUNCIL REGULAR CITY COUNCIL MEETING MINUTES FOR MAY 7, 2025 AND MAY 21, 2025**

Recommendation
It is recommended that the City Council approve the minutes from the Regular City Council Meetings held on May 7, 2025 and May 21, 2025.

Executive Summary
Attached for the City Council's consideration and approval are meeting minutes, and hereby included as attachments to this staff report.

Background
The City Clerk's Division is responsible for producing meeting minutes for the City Council meetings. Meeting minutes serve as the official record of actions taken by the City at the direction of the City Council.

Fiscal Impact
There is no fiscal impact; budgeted staff completes this work.

Key Performance Indicators and Strategic Plan
This item aligns with the Management Services Department's Key Performance Indicator to provide quick access to information and accountability, ensuring public transparency.

Attachment:
Attachment No. 1 - May 7, 2025 Regular City Council Meeting Minutes
Attachment No. 2 - May 21, 2025 Regular City Council Meeting Minutes

A motion was made by Councilmember Cacciotti and seconded by Mayor Pro Tem Rossi to approve Item No. 18, as presented. The motion carried 5-0, by the following vote:

AYES: Cacciotti, Ferguson, Primuth, Rossi, Mayor Braun
NOES: None.
ABSENT: None.
ABSTAINED: None.

Resolution No. 7903 was adopted.

ACTION/DISCUSSION

19. CONSIDERATION OF APPROVAL OF APPROPRIATIONS FOR FISCAL YEAR 2024-2025

Recommendation

It is recommended that the City Council consider the approval of the following appropriations for Fiscal Year 2024-2025

1. Appropriate $774,009 in General Funds to Account No. 103-2010-2501-8161-001 to fully fund the City's Insurance expenses for the FY 2024-2025;
2. Appropriate $120,000 from Water Enterprise Funds and $30,000 from Sewer Enterprise Funds to Account No. 101-2030-2032-8150-000 to fully fund the expenses incurred for the respective enterprise divisions;
3. Appropriate $16,000 in General Funds to Account No. 101-5010-5011-8180-000 to align with the revenues received by the Fire Department for plan check services;
4. Appropriate a total of $82,500 in General Funds to fully fund the costs of the expenses incurred by the City as a result of the January 2025 Windstorm and Fire Emergency, in the following accounts: $8,100 to Account No. 101-6010-6410-8020-000, $22,500 to Account No. 215-6010-6115-8180-000, $19,200 to Account No. 215-6010-6310-8170-000, $19,400 to Account No. 215-6010-6310-8180-000, and $13,300 to Account No. 215-6010-6310-8184-000;
5. Appropriate $113,100 in General Funds to Account No. 101-6010-6601-8120-000 to fully fund emergency repairs to the Senior Center and City Hall buildings; and
6. Appropriate $23,000 in General Funds to Account No. 101-6010-6601-8180-000 to fully fund emergency cleaning services costs incurred by the City.

William Castrillon, Budget and Purchasing Manager; and Ted Gerber, Public Works Director, gave a presentation and responded to questions from the City Council.

COUNCIL MOTION AND ACTION

A motion was made by Councilmember Cacciotti and seconded by Councilmember Ferguson to approve Item No. 19, as presented. The motion carried 5-0, by the following vote:

AYES: Cacciotti, Ferguson, Primuth, Rossi, Mayor Braun
NOES: None.
ABSENT: None.
ABSTAINED: None.

20. CONSIDERATION OF ADOPTION OF A RESOLUTION APPROVING THE FIRST AMENDED AND RESTATED EXCLUSIVE SOLID WASTE HANDLING AGREEMENT WITH ARAKELIAN ENTERPRISES, INC. (DBA ATHENS SERVICES) AND AUTHORIZING STAFF TO INITIATE A PROPOSITION 218 PUBLIC HEARING; AND APRROVE A LETTER AGREEMENT WITH ATHENS SERVICES RELATED TO THE PAUSE ON THE ANNUAL RATE ADJUSTMENT

Recommendation

It is recommended that the City Council:

1. Adopt a Resolution that: (a) approves the first amended and restated agreement with Athens Services for Exclusive Solid Waste Handling services (Amended Agreement) in the final form approved by the City Attorney and City Manager; and directs staff to proceed and schedule a Proposition 218 (Prop 218) public hearing to consider the proposed solid waste rate adjustment changes and provide notice of the public hearing; and
2. Approve a letter agreement with Athens Services regarding a pause on the July 1, 2025 annual rate adjustment until the conclusion of a Prop 218 public hearing and authorize the City Manager to sign and transmit the same.

Arpy Kasparian, Environmental Services and Sustainability Manager, gave a presentation and responded to questions from the City Council.

AYES:	Cacciotti, Ferguson, Primuth, Mayor Braun
NOES:	Rossi
ABSENT:	None.
ABSTAINED:	None.

PUBLIC COMMENT – CONTINUED

24. CONTINUED PUBLIC COMMENT - GENERAL

None.

COMMUNICATIONS

25. COUNCILMEMBERS COMMUNICATIONS

Councilmember Ferguson made a motion to bring the Rental Housing Program back on the agenda for discussion. The motion failed for lack of a second.

Councilmember Cacciotti spoke regarding his recent attendance at the Gold Line Construction Authority meeting, at the district award event hosted by Judy Chu, at the senior luncheon, at the Police Officer promotion ceremony.
Councilmember Cacciotti motioned to direct staff to look into the AB2766 Fund for a potential incentive program to assist staff with paying for public transportation. Councilmember Primuth Seconded.

Mayor Pro Tem Rossi spoke regarding her attendance at the Police Officer promotion ceremony and her meeting with Metro.

Mayor Pro Tem Rossi motioned to direct staff to look into additional tenant protections around properties that are being sold and giving additional times for tenants. Councilmember Ferguson Seconded.

Mayor Braun highlighted the Library Master Plan survey, the "Mission at Twilight" event on June 22, the Women's Club scholarships, the Oneonta Club scholarships, the district award event hosted by Judy Chu, The Chinese American club, and the South Pasadena Preservation Foundation. She went on to thank Barbara E. for her work at the nature park, Bruce and Diana K. for their work picking up trash throughout the city. She thanked city staff and the City Council for their work.

26. CITY MANAGER COMMUNICATIONS

None.

ADJOURNMENT

There being no further matters, Mayor Braun adjourned the meeting at 10:40 P.M. to Wednesday, June 4, 2025 at 7:00 P.M. in the City Council Chambers.

City Council Agenda Report

ITEM NO. 7

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Roxanne Diaz, City Attorney

SUBJECT: **ADOPTION OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, AMENDING ARTICLE 7 (DEFINITIONS) OF CHAPTER 36 (ZONING) OF THE SOUTH PASADENA MUNICIPAL CODE TO AMEND THE DEFINITION OF "CITY ENGINEER"**

Recommendation

It is recommended that the City Council adopt the ordinance amending Title 7 (Definitions) of Chapter 36 (Zoning) of the South Pasadena Municipal Code to amend the definition of "City Engineer."

Background

At the City Council meeting of June 18, 2025, the City Council introduced the ordinance amending the definition of City Engineer. The ordinance will revise the definition to define the City Engineer as the person designated by the City to fill that role and allow the City Manager flexibility in the recruitment for a new Public Works Director.

Analysis

California's Business and Professions Code provides that each city shall have at least one licensed engineer that is designated as the person responsible for professional engineer work for each branch of professional engineering practiced in any department of the city. Generally, this person is designated as the City Engineer, however, that person does not need to be the Public Works Director. Cities comply with this requirement in a variety of ways -- namely by designating a public works staff member as the City Engineer or having contract engineering firms take that role when doing work for the City. Revising this definition will allow the City, through the City Manager, to assign the role of City Engineer to one of the professional engineers on staff as appropriate. The proposed ordinance states that the City Engineer is the "person designated by the City as the City Engineer for the City." The proposed revision of this definition aligns with the current recruitment for a Public Works Director which does not require that a candidate be registered with the state as a professional engineer, although it is highly desirable.

Fiscal Impact

There is no fiscal impact in adopting this ordinance.

City Council Agenda Report

ITEM NO. 8

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: William Castrillon, Budget and Purchasing Manager
Alma Medina, Assistant to the City Manager

SUBJECT: **CONSIDERATION TO APPROVE THE SECOND AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH LAKEVIEW CONSULTING, LLC., FOR TEMPORARY STAFFING SERVICES, AT A COST OF $78,000, FOR A NEW TOTAL NOT-TO-EXCEED AMOUNT OF $126,000, AND EXTENDING THE AGREEMENT THROUGH SEPTEMBER 31, 2025**

Recommendation

It is recommended that the City Council consider approving the proposed second Amendment to the Professional Services Agreement with Lakeview Consulting, LLC., in the amount of $78,000, for continued temporary staffing services and amending the scope of work to include Senior Consultant services for a payroll system audit, for a new total not-to-exceed compensation amount of $126,000, and extending the agreement through September 31, 2025.

Executive Summary

The Finance Department continues to experience staffing vacancies in key leadership positions. To maintain operational stability and compliance with financial reporting requirements, the City has engaged Lakeview Consulting, LLC., to provide Interim Accounting Manager/Controller services. Most recently, staff engaged Lakeview Consulting, LLC., to provide a proposal for a payroll system audit to be conducted by a Senior Consultant from the firm. Staff is recommending approval of an amendment to the existing agreement to extend and amend the scope of work to include the proposed payroll system audit, through September 31, 2025, and to increase the total compensation by $78,000. This will ensure uninterrupted financial oversight while recruitment for permanent staff continues and will provide the assistance needed in the Finance Department in resolving payroll matters.

Background

The City entered into an agreement with Lakeview Consulting, LLC., to provide interim Accounting Manager/Controller services following the departure of key staff in the Finance Department. These services have been essential in maintaining the City's financial operations, including oversight of accounting functions, audit coordination, and preparation of financial statements. Due to ongoing vacancies in the department, continued interim support is requested to ensure operational continuity and compliance with financial regulations and reporting requirements. Aside from the currently provided staffing services, staff is recommending the amendment of the scope of work to include the services of a Senior

Consultant to perform a payroll system audit for internal assessment purposes to identify inefficiencies or discrepancies.

Analysis
Lakeview Consulting has delivered consistent, high-quality interim support to the Finance Department. The existing agreement is set to expire before permanent staff are expected to be hired. To avoid a gap in critical financial leadership and operational knowledge, staff recommends extending the term of the agreement through September 31, 2025. The amendment would also increase the contract amount by $78,000, which is projected to be sufficient to cover continued services based on current usage levels.

Of the proposed $78,000 amendment amount, $30,000 is designated to the newly proposed scope of work for the payroll system audit and $48,000 is for the continued temporary staffing services for Accounting Manager/Controller.

The proposed scope of the payroll system audit includes:

1. Review of current payroll workflow
2. Evaluation of internal controls
3. Identify potential risks and provide recommendations
4. Review the system accuracy
5. Sample test transactions
6. Interview employees
7. System enhancement review

The City will receive a formal report with the detailed procedures performed and resulting findings. The purpose of a payroll system audit is to ensure accuracy and compliance, detecting and preventing fraud, enhancing financial accuracy while also increasing operational efficiency through findings and recommendations.

Retaining a known and effective consultant during this transitional period and needed assessment reduces the risk of operational delays and ensures that the City's financial responsibilities, including upcoming audit and budget processes, are met in a timely and professional manner.

Fiscal Impact
If approved, the proposed amendment will be included in the Finance Department's proposed Fiscal Year 2025-2026 budget in Account No. 101-3010-3041-8020-000.

Attachment:
Attachment No. 1 - Proposed Second Amendment
Attachment No. 2 - First Amendment
Attachment No. 3 - Professional Services Agreement

SECOND AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT FOR CONSULTANT SERVICES

THIS AMENDMENT ("Amendment") is made on this 16th day of July 2025, by and between the CITY OF SOUTH PASADENA ("CITY") and LAKEVIEW CONSULTING, LLC. ("CONSULTANT').

RECITALS

WHEREAS, on May 19, 2025, the CITY and CONSULTANT entered into an Agreement for PROFESSIONAL SERVICES ("Agreement") for CONSULTANT to perform Interim Accounting Manager-Controller services for the City; and

WHEREAS, the original Agreement was in the amount of $30,000, for the Scope of Services; and

WHEREAS, on June 18th, 2025, the City and Consultant executed an amendment to increase the total contract in an amount not to exceed $18,000 and extend the term of the agreement through July 31, 2025, bringing the aggregate total of Agreement and this Amendment being a sum total of $48,000; and

WHEREAS, the CITY desires to execute an Amendment to increase the total contract in an amount not to exceed $78,000 and extend the term of the agreement through September 31, 2025, and amend the scope of work to include payroll system audit services. The aggregate total of Agreement and this Amendment is a sum total of $126,000; and

NOW THEREFORE, THE CITY AND THE CONSULTANT AGREE AS FOLLOWS:

1. That Section 3.1 "Scope of Services" is amended to include services for a payroll system audit, and include attached proposal, Exhibit A.

2. That Section 3.4 "Maximum Amount" of the Agreement is hereby amended to read as follows:
   "Maximum Amount": The highest total compensation and cost payable to CONSULTANT by CITY under this agreement. The Maximum Amount under this Agreement is One-Hundred Twenty-Six Thousand Dollars ($126,000).

3. That Section 3.6 “Termination Date” of the Agreement is hereby amended to read as follows:
   “Termination Date”: September 31, 2025

4. All other terms, conditions, and provisions of the Agreement to the extent not modified by this Amendment, shall remain in full force and effect.

South Pasadena, CA 91030

Subject: Proposal for Payroll System Audit – Agreed-Upon Procedures Engagement

Engagement Objective

This project is being undertaken voluntarily by the City for internal assessment purposes. Lakeview Consulting will perform specific agreed-upon procedures designed in coordination with the City. At the conclusion of the engagement, a final written report will be submitted to the Office of the City Manager, detailing the procedures performed and our findings.

If we encounter any limitations during the engagement, we will inform the City Manager or designee and document those limitations in our final report. The report will also note that if additional procedures had been performed, other findings might have emerged.

Compensation and Timeline

- Project Fee: $30,000
- Project Start Date: July 14, 2025
- Project Duration: 6 weeks total
  - Weeks 1–5: Fieldwork and desk work
  - Week 6: Report preparation and delivery to management

All work will be conducted efficiently and collaboratively, with a focus on delivering actionable insights and practical recommendations.

City Responsibilities

To support a successful engagement, the City will provide:
1. Access to all relevant payroll data and documentation;
2. Timely responses to information requests during the review period;
3. Access to personnel for interviews or clarifications;
4. A signed management representation letter at the conclusion, confirming responsibility for payroll controls and accuracy.

Scope of Work – Agreed-Upon Procedures

1. Payroll Workflow Review – Analyze the full payroll process from timecard submission through disbursement, including benefits payment and ledger reconciliation.
2. Internal Control Evaluation – Review internal control mechanisms over payroll processing, accounting, and reconciliation functions.
3. Risk Identification and Recommendations – Identify control weaknesses or process gaps that may allow errors to occur and go undetected, and provide recommendations to mitigate such risks.
4. System Accuracy Review – Evaluate payroll computations in the City's Springbrook system to confirm accuracy for wages and benefits.
5. Sample Transaction Testing – Select multiple pay periods and trace payroll processing from start to finish across departments, confirming proper ledger entry and account usage.
6. Employee Interviews – Engage payroll staff to identify any past payroll issues, understand resolutions implemented, and assess the robustness of corrective actions.
7. System Enhancement Review – If appropriate, suggest alternate or supplementary tools that could integrate with Springbrook to strengthen payroll operations.

Lead Consultant

Yazminda Gray, Senior Consultant, will oversee the project. She brings a wealth of public sector consulting experience, including operational audits, process improvement strategies, and financial systems analysis. Her collaborative approach ensures that recommendations are both realistic and tailored to the City's operational environment.

Deliverables

- A formal report detailing procedures performed and resulting findings
- Recommendations for process and control enhancements
- Strategic system integration suggestions (if applicable)

Conclusion

We appreciate the opportunity to partner with the City of South Pasadena in conducting this critical review of its payroll systems. Lakeview Consulting, LLC is committed to delivering high-quality insights that foster operational integrity, compliance, and improved service delivery.

Should this proposal meet your expectations, we are ready to proceed with an engagement letter and project scheduling. Please contact us at (925) 303-6122 or Admin@Lakeviewconsultancy.com with any questions or further instructions.

Sincerely,

Jonathon Davis

PROFESSIONAL SERVICES AGREEMENT FOR CONSULTANT SERVICES

(City of South Pasadena / Lakeview Consulting, LLC.)

1. IDENTIFICATION

This PROFESSIONAL SERVICES AGREEMENT ("Agreement") is entered into by and between the City of South Pasadena, a California municipal corporation ("City"), and Lakeview Consulting, LLC. ("Consultant").

2. RECITALS

2.1. City has determined that it requires the following professional services from a consultant: Interim Accounting Manager-Controller

2.2. Consultant represents that it is fully qualified to perform such professional services by virtue of its experience and the training, education and expertise of its principals and employees. Consultant further represents that it is willing to accept responsibility for performing such services in accordance with the terms and conditions set forth in this Agreement.

2.3. Consultant represents that it has no known relationships with third parties, City Council members, or employees of City which would (1) present a conflict of interest with the rendering of services under this Agreement under Government Code Section 1090, the Political Reform Act (Government Code Section 81000 *et seq.*), or other applicable law, (2) prevent Consultant from performing the terms of this Agreement, or (3) present a significant opportunity for the disclosure of confidential information.

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions herein contained, City and Consultant agree as follows:

3. DEFINITIONS

3.1. "Scope of Services": See Exhibit A

3.2. "Agreement Administrator": The Agreement Administrator for this project is Todd Hileman, City Manager. The Agreement Administrator shall be the principal point of contact at the City for this project. All services under this Agreement shall be performed at the request of the Agreement Administrator. The Agreement Administrator will establish the timetable for completion of services and any interim milestones. The City reserves the right to change this designation upon written notice to Consultant.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

3.3. "Approved Fee Schedule": Consultant's compensation rates are set forth in the fee schedule attached hereto as Exhibit B and incorporated herein by this reference. This fee schedule shall remain in effect for the duration of this Agreement unless modified in writing by mutual agreement of the parties.

3.4. "Maximum Amount": The highest total compensation and costs payable to Consultant by City under this Agreement. The Maximum Amount under this Agreement is Thirty Thousand Dollars ($30,000.00).

3.5. "Commencement Date": May 19, 2025

3.6. "Termination Date": June 30, 2025

4. TERM

The term of this Agreement shall commence at 12:00 a.m. on the Commencement Date and shall expire at 11:59 p.m. on the Termination Date unless extended by written agreement of the parties or terminated earlier under Section 18 ("Termination") below. Consultant may request extensions of time to perform the services required hereunder. Such extensions shall be effective if authorized in advance by City in writing and incorporated in written amendments to this Agreement.

5. CONSULTANT'S DUTIES

5.1. **Services**. Consultant shall perform the services identified in the Scope of Services. The City shall have the right to request, in writing, changes in the Scope of Services. Any such changes mutually agreed upon by the parties, and any corresponding increase or decrease in compensation, shall be incorporated by written amendment to this Agreement.

5.2. **Coordination with City**. In performing services under this Agreement, Consultant shall coordinate all contact with City through its Agreement Administrator.

5.3. **Budgetary Notification**. Consultant shall notify the Agreement Administrator, in writing, when fees and expenses incurred under this Agreement have reached eighty percent (80%) of the Maximum Amount. Consultant shall concurrently inform the Agreement Administrator, in writing, of Consultant's estimate of total expenditures required to complete its current assignments before proceeding, when the remaining work on such assignments would exceed the Maximum Amount.

5.4. **Business License.** Consultant shall obtain and maintain in force a City business license for the duration of this Agreement.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

5.5. **Professional Standards.** Consultant shall perform all work to the standards of Consultant's profession and in a manner reasonably satisfactory to City. Consultant shall keep itself fully informed of and in compliance with all local, state, and federal laws, rules, and regulations in any manner affecting the performance of this Agreement, including all Cal/OSHA requirements, the conflict-of-interest provisions of Government Code § 1090 and the Political Reform Act (Government Code § 81000 et seq.).

5.6. **Avoid Conflicts.** During the term of this Agreement, Consultant shall not perform any work for another person or entity for whom Consultant was not working at the Commencement Date if such work would present a conflict interfering with performance under this Agreement. However, City may consent in writing to Consultant's performance of such work.

5.7. **Appropriate Personnel.** Consultant has, or will secure at its own expense, all personnel required to perform the services identified in the Scope of Services. All such services shall be performed by Consultant or under its supervision, and all personnel engaged in the work shall be qualified to perform such services. Josette Reina-Luken shall be Consultant's project administrator and shall have direct responsibility for management of Consultant's performance under this Agreement. No change shall be made in Consultant's project administrator without City's prior written consent.

5.8. **Substitution of Personnel.** Any persons named in the proposal or Scope of Services constitutes a promise to the City that those persons will perform and coordinate their respective services under this Agreement. Should one or more such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of the City. If the City and Consultant cannot agree to the substitution of key personnel, the City may terminate this Agreement for cause.

5.9. **Permits and Approvals.** Consultant shall obtain, at its sole cost and expense, all permits and regulatory approvals necessary for Consultant's performance of this Agreement. This includes, but shall not be limited to, professional licenses, encroachment permits and building and safety permits and inspections.

5.10. **Notification of Organizational Changes.** Consultant shall notify the Agreement Administrator, in writing, of any change in name, ownership or control of Consultant's firm or of any subcontractor. Change of ownership or control of Consultant's firm may require an amendment to this Agreement.

5.11. **Records.** Consultant shall maintain all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to City under this Agreement for a minimum of three (3) years, or for any longer period required by law, from the date of final payment to Consultant under this Agreement. All such documents shall be made available for inspection, audit, and/or copying at any time during regular business hours, upon oral or written requests of the City. In addition, pursuant to Government

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

Code Section 8546.7, if the amount of public funds expended under this Agreement exceeds ten thousand dollars, all such documents and this Agreement shall be subject to the examination and audit of the State Auditor, at the request of City or as part of any audit of City, for a period of three (3) years after final payment under this Agreement.

6. SUBCONTRACTING

6.1. **General Prohibition.** This Agreement covers professional services of a specific and unique nature. Except as otherwise provided herein, Consultant shall not assign or transfer its interest in this Agreement or subcontract any services to be performed without amending this Agreement.

6.2. **Consultant Responsible.** Consultant shall be responsible to City for all services to be performed under this Agreement.

6.3. **Identification in Fee Schedule.** All subcontractors shall be specifically listed and their billing rates identified in the Approved Fee Schedule, Exhibit B. Any changes must be approved by the Agreement Administrator in writing as an amendment to this Agreement.

6.4. **Compensation for Subcontractors.** City shall pay Consultant for work performed by its subcontractors, if any, only at Consultant's actual cost plus an approved mark-up as set forth in the Approved Fee Schedule, Exhibit B. Consultant shall be liable and accountable for all payments, compensation, and federal and state taxes to all subcontractors performing services under this Agreement. The City shall not be liable for any payment, compensation, or federal and state taxes for any subcontractors.

7. COMPENSATION

7.1. **General.** City agrees to compensate Consultant for the services provided under this Agreement, and Consultant agrees to accept payment in accordance with the Fee Schedule in full satisfaction for such services. Compensation shall not exceed the Maximum Amount. Consultant shall not be reimbursed for any expenses unless provided for in this Agreement or authorized in writing by City in advance.

7.2. **Invoices.** Consultant shall submit to City an invoice, monthly or as otherwise agreed to by the Agreement Administrator, for services performed pursuant to this Agreement. Each invoice shall identify the Maximum Amount, the services rendered during the billing period, the amount due for the invoice, and the total amount previously invoiced. All labor charges shall be itemized by employee name and classification/position with the firm, the corresponding hourly rate, the hours worked, a description of each labor charge, and the total amount due for labor charges.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

7.3. **Taxes.** City shall not withhold applicable taxes or other payroll deductions from payments made to Consultant except as otherwise required by law. The consultant shall be solely responsible for calculating, withholding, and paying all taxes.

7.4. **Disputes.** The parties agree to meet and confer at mutually agreeable times to resolve any disputed amounts contained in an invoice submitted by the Consultant.

7.5. **Additional Work.** Consultant shall not be reimbursed for any expenses incurred for work performed outside the Scope of Services unless prior written approval is given by the City through a fully executed written amendment. Consultant shall not undertake any such work without prior written approval of the City.

7.6. **City Satisfaction as Precondition to Payment.** Notwithstanding any other terms of this Agreement, no payments shall be made to Consultant until City is satisfied that the services are satisfactory.

7.7. **Right to Withhold Payments.** If Consultant fails to provide a deposit or promptly satisfy an indemnity obligation described in Section 11, City shall have the right to withhold payments under this Agreement to offset that amount.

8. PREVAILING WAGES

Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. Consultant shall defend, indemnify, and hold the City, tis elected officials, officers, employees, and agents free and harmless form any claim or liability arising out of any failure or alleged failure of Consultant to comply with the Prevailing Wage Laws.

9. OWNERSHIP OF WRITTEN PRODUCTS

All reports, documents or other written material ("written products" herein) developed by Consultant in the performance of this Agreement shall be and remain the property of City without restriction or limitation upon its use or dissemination by City except as provided by law. Consultant may take and retain copies of such written products as desired, but no such written products shall be the subject of a copyright application by Consultant.

10. RELATIONSHIP OF PARTIES

10.1. **General.** Consultant is, and shall at all times remain as to City, a wholly independent contractor.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

10.2. **No Agent Authority.** Consultant shall have no power to incur any debt, obligation, or liability on behalf of the City or otherwise to act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Consultant or any of Consultant's employees, except as set forth in this Agreement. Consultant shall not represent that it is, or that any of its agents or employees are, in any manner employees of City.

10.3. **Independent Contractor Status.** Under no circumstances shall Consultant or its employees look to the City as an employer. Consultant shall not be entitled to any benefits. City makes no representation as to the effect of this independent contractor relationship on Consultant's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Consultant specifically assumes the responsibility for making such a determination. Consultant shall be responsible for all reports and obligations including, but not limited to social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation, and other applicable federal and state taxes.

10.4. **Indemnification of CalPERS Determination.** In the event that Consultant or any employee, agent, or subcontractor of Consultant providing services under this Agreement claims or is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for CalPERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

11. INDEMNIFICATION

11.1 **Definitions.** For purposes of this Section 11, "Consultant" shall include Consultant, its officers, employees, servants, agents, or subcontractors, or anyone directly or indirectly employed by either Consultant or its subcontractors, in the performance of this Agreement. "City" shall include City, its officers, agents, employees and volunteers.

11.2 **Consultant to Indemnify City.** To the fullest extent permitted by law, Consultant shall indemnify, hold harmless, and defend City from and against any and all claims, losses, costs or expenses for any personal injury or property damage arising out of or in connection with Consultant's alleged negligence, recklessness or willful misconduct or other wrongful acts, errors or omissions of Consultant or failure to comply with any provision in this Agreement.

11.3 **Scope of Indemnity.** Personal injury shall include injury or damage due to death or injury to any person, whether physical, emotional, consequential or otherwise, Property damage shall include injury to any personal or real property. Consultant shall not be required to indemnify City for such loss or damage as is caused by the sole active negligence or willful misconduct of the City.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

11.4 **Attorneys Fees.** Such costs and expenses shall include reasonable attorneys' fees for counsel of City's choice, expert fees and all other costs and fees of litigation. Consultant shall not be entitled to any refund of attorneys' fees, defense costs or expenses in the event that it is adjudicated to have been non-negligent.

11.5 **Defense Deposit.** The City may request a deposit for defense costs from Consultant with respect to a claim. If the City requests a defense deposit, the Consultant shall provide it within 15 days of the request.

11.6 **Waiver of Statutory Immunity.** The obligations of Consultant under this Section 11 are not limited by the provisions of any workers' compensation act or similar act. Consultant expressly waives its statutory immunity under such statutes or laws as to City.

11.7 **Indemnification by Subcontractors.** Consultant agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this Section 11 from each and every subcontractor or any other person or entity involved in the performance of this Agreement on Consultant's behalf.

11.8 **Insurance Not a Substitute.** City does not waive any indemnity rights by accepting any insurance policy or certificate required pursuant to this Agreement. Consultant's indemnification obligations apply regardless of whether or not any insurance policies are determined to be applicable to the claim, demand, damage, liability, loss, cost or expense.

12. INSURANCE

12.1. **Insurance Required.** Consultant shall maintain insurance as described in this section and shall require all of its subcontractors, consultants, and other agents to do the same. Approval of the insurance by the City shall not relieve or decrease any liability of Consultant Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

12.2. **Documentation of Insurance.** The City will not execute this agreement until it has received a complete set of all required documentation of insurance coverage. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant's obligation to provide them. Consultant shall file with City:

- Certificate of Insurance, indicating companies acceptable to City, with a Best's Rating of no less than A:VII showing. The Certificate of Insurance must include the following reference: Interim Accounting-Manager-Controller.
- Documentation of Best's rating acceptable to the City.
- Original endorsements effecting coverage for all policies required by this Agreement.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

- City reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of the right to exercise later.

12.3. **Coverage Amounts.** Insurance coverage shall be at least in the following minimum amounts:

• Professional Liability Insurance:	$1,000,000 per occurrence, $2,000,000 aggregate
• General Liability:	
• General Aggregate:	$2,000,000
• Products Comp/Op Aggregate	$2,000,000
• Personal & Advertising Injury	$1,000,000
• Each Occurrence	$1,000,000
• Fire Damage (any one fire)	$ 100,000
• Medical Expense (any 1 person)	$ 10,000
• Workers' Compensation:	
• Workers' Compensation	Statutory Limits
• EL Each Accident	$1,000,000
• EL Disease - Policy Limit	$1,000,000
• EL Disease - Each Employee	$1,000,000
• Automobile Liability	
• Any vehicle, combined single limit	$1,000,000

Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured

12.4. **General Liability Insurance.** Commercial General Liability Insurance shall be no less broad than ISO form CG 00 01. Coverage must be on a standard Occurrence form. Claims-Made, modified, limited or restricted Occurrence forms are not acceptable.

12.5. **Worker's Compensation Insurance.** Consultant is aware of the provisions of Section 3700 of the Labor Code which requires every employer to carry Workers' Compensation (or to undertake equivalent self-insurance), and Consultant will comply with such provisions before commencing the performance of the work of this Agreement. If such insurance is underwritten by any agency other than the State Compensation Fund, such agency shall be a company authorized to do business in the State of California. If Consultant has no employees while performing services under

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

this Agreement, workers' compensation policy is not required, but Consultant shall execute a declaration that it has no employees.

12.6. **Professional Liability Insurance or Errors & Omissions Coverage.** The deductible or self-insured retention may not exceed $50,000. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of the work. Coverage shall be continued for two years after the completion of the work by one of the following: (1) renewal of the existing policy; (2) an extended reporting period endorsement; or (3) replacement insurance with a retroactive date no later than the commencement of the work under this Agreement.

12.7. **Claims-Made Policies.** If any of the required policies provide coverage on a claims-made basis the Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work. Claims-Made Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work. If coverage is canceled or non-renewed and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Consultant must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.

12.8. **Additional Insured Endorsements.** The City, its City Council, Commissions, officers, and employees of South Pasadena must be endorsed as an additional insured for each policy required herein, other than Professional Errors and Omissions and Worker's Compensation, for liability arising out of ongoing and completed operations by or on behalf of the Consultant. Consultant's insurance policies shall be primary as respects any claims related to or as the result of the Consultant's work. Any insurance, pooled coverage or self-insurance maintained by the City, its elected or appointed officials, directors, officers, agents, employees, volunteers, or consultants shall be non-contributory. All endorsements shall be signed by a person authorized by the insurer to bind coverage on its behalf. General liability coverage can be provided using an endorsement to the Consultant's insurance at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37.

12.9. **Failure to Maintain Coverage.** In the event any policy is canceled prior to the completion of the project and the Consultant does not furnish a new certificate of insurance prior to cancellation, City has the right, but not the duty, to obtain the required insurance and deduct the premium(s) from any amounts due the Consultant under this Agreement. Failure of the Consultant to maintain the insurance required by this Agreement, or to comply with any of the requirements of this section, shall constitute a material breach of this Agreement.

12.10. **Notices.** Contractor shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; (3) or the deductible or self-insured retention is increased. Consultant shall provide no less than 30 days' notice of any cancellation or material change to policies required by this Agreement. The consultant shall provide proof that cancelled or expired policies of insurance have been renewed or replaced with other policies

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

providing at least the same coverage. Such proof will be furnished at least two weeks prior to the expiration of the coverages. The name and address for Additional Insured Endorsements, Certificates of Insurance and Notices of Cancellation is City of South Pasadena, Attn: Tina Lopez, Human Resources & Risk Manager, South Pasadena, CA 91030.

12.11. **Consultant's Insurance Primary.** The insurance provided by Consultant, including all endorsements, shall be primary to any coverage available to City. Any insurance or self-insurance maintained by the City and/or its officers, employees, agents or volunteers, shall be in excess of Consultant's insurance and shall not contribute with it.

12.12. **Waiver of Subrogation.** Consultant hereby waives all rights of subrogation against the City. Consultant shall additionally waive such rights either by endorsement to each policy or provide proof of such waiver in the policy itself.

12.13. **Report of Claims to City.** Consultant shall report to the City, in addition to the Consultant's insurer, any and all insurance claims submitted to Consultant's insurer in connection with the services under this Agreement.

12.14. **Premium Payments and Deductibles.** Consultant must disclose all deductibles and self-insured retention amounts to the City. The City may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within retention amounts. Ultimately, City must approve all such amounts prior to execution of this Agreement.

City has no obligation to pay any premiums, assessments, or deductibles under any policy required in this Agreement. Consultant shall be responsible for all premiums and deductibles in all of Consultant's insurance policies. The amount of deductibles for insurance coverage required herein are subject to City's approval.

12.15. **Duty to Defend and Indemnify.** Consultant's duties to defend and indemnify City under this Agreement shall not be limited by the foregoing insurance requirements and shall survive the expiration of this Agreement.

13. MUTUAL COOPERATION

13.1. **City Cooperation in Performance.** City shall provide Consultant with all pertinent data, documents and other requested information as is reasonably available for the proper performance of Consultant's services under this Agreement.

13.2. **Consultant Cooperation in Defense of Claims.** If any claim or action is brought against City relating to Consultant's performance in connection with this Agreement,

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

Consultant shall render any reasonable assistance that City may require in the defense of that claim or action.

14. NOTICES

Any notices, bills, invoices, or reports required by this Agreement shall be deemed received on: (i) the day of delivery if delivered by hand, facsimile or overnight courier service during Consultant's and City's regular business hours; or (ii) on the third business day following deposit in the United States mail if delivered by mail, postage prepaid, to the addresses listed below (or to such other addresses as the parties may, from time to time, designate in writing).

15. SURVIVING COVENANTS

The parties agree that the covenants contained in paragraph 5.11 (Records), paragraph 10.4 (Indemnification of CalPERS Determination), Section 11 (Indemnity), paragraph 12.8 (Claims-Made Policies), paragraph 13.2 (Consultant Cooperation in Defense of Claims), and paragraph 18.1 (Confidentiality) of this Agreement shall survive the expiration or termination of this Agreement, subject to the provisions and limitations of this Agreement and all otherwise applicable statutes of limitations and repose.

16. TERMINATION

16.1. **City Termination.** City may terminate this Agreement for any reason on fifteen (15) calendar days' written notice to Consultant. Consultant agrees to cease all work under this Agreement on or before the effective date of any notice of termination. All City

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

data, documents, objects, materials or other tangible things shall be returned to City upon the termination or expiration of this Agreement.

16.2. **Consultant Termination.** Consultant may terminate this Agreement for a material breach of this Agreement upon fifteen (15) days' notice.

16.3. **Compensation Following Termination.** Upon termination, Consultant shall be paid based on the work satisfactorily performed at the time of termination. In no event shall Consultant be entitled to receive more than the amount that would be paid to Consultant for the full performance of the services required by this Agreement. The City shall have the benefit of such work as may have been completed up to the time of such termination.

16.4. **Remedies.** City retains any and all available legal and equitable remedies for Consultant's breach of this Agreement.

17. INTERPRETATION OF AGREEMENT

17.1. **Governing Law.** This Agreement shall be governed and construed in accordance with the laws of the State of California.

17.2. **Integration of Exhibits.** All documents referenced as exhibits in this Agreement are hereby incorporated into this Agreement. In the event of any material discrepancy between the express provisions of this Agreement and the provisions of any document incorporated herein by reference, the provisions of this Agreement shall prevail. This instrument contains the entire Agreement between City and Consultant with respect to the transactions contemplated herein. No other prior oral or written agreements are binding upon the parties. Amendments hereto or deviations here from shall be effective and binding only if made in writing and executed on by City and Consultant.

17.3. **Headings.** The headings and captions appearing at the commencement of the sections hereof, and in any paragraph thereof, are descriptive only and for convenience in reference to this Agreement. Should there be any conflict between such heading, and the section or paragraph thereof at the head of which it appears, the language of the section or paragraph shall control and govern in the construction of this Agreement.

17.4. **Pronouns.** Masculine or feminine pronouns shall be substituted for the neuter form and vice versa, and the plural shall be substituted for the singular form and vice versa, in any place or places herein in which the context requires such substitution(s).

17.5. **Severability.** If any term or provision of this Agreement or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, then such term or provision shall be amended to, and solely to the extent necessary to, cure such invalidity or unenforceability, and shall be enforceable in its amended form. In such event, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

unenforceable, shall not be affected, and each term and provision of this Agreement shall be valid and be enforced to the fullest extent permitted by law.

17.6. **No Presumption Against Drafter.** Each party had an opportunity to consult with an attorney in reviewing and drafting this agreement. Any uncertainty or ambiguity shall not be construed for or against any party based on attribution of drafting to any party.

18. GENERAL PROVISIONS

18.1. **Confidentiality.** All data, documents, discussion, or other information developed or received by the Consultant for performance of this Agreement are deemed confidential and Consultant shall not disclose it without prior written consent by City. The City shall grant such consent if disclosure is legally required. All City data shall be returned to City upon the termination or expiration of this Agreement.

18.2. **Conflicts of Interest.** Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid, nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. The consultant further agrees to file, or shall cause its employees or subcontractor to file, a Statement of Economic Interest with the City's Filing Officer if required under state law in the performance of the services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer, or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

18.3. **Non-assignment.** Consultant shall not delegate, transfer, subcontract or assign its duties or rights hereunder, either in whole or in part, without City's prior written consent, and any attempt to do so shall be void and of no effect. City shall not be obligated or liable under this Agreement to any party other than Consultant.

18.4. **Binding on Successors.** This Agreement shall be binding on the successors and assigns of the parties.

18.5. **No Third-Party Beneficiaries.** Except as expressly stated herein, there is no intended third-party beneficiary of any right or obligation assumed by the parties.

18.6. **Time of the Essence.** Time is of the essence for each and every provision of this Agreement.

Docusign Envelope ID: 927345B5-C52C-49E4-A0AB-0C2790DCFE73

18.7. **Non-Discrimination.** Consultant shall not discriminate against any employee or applicant for employment because of race, sex (including pregnancy, childbirth, or related medical condition), creed, national origin, color, disability as defined by law, disabled veteran status, Vietnam veteran status, religion, age (40 and above), medical condition (cancer-related), marital status, ancestry, or sexual orientation. Employment actions to which this provision applies shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; or in terms, conditions or privileges of employment, and selection for training. The consultant agrees to post in conspicuous places, available to employees and applicants for employment, the provisions of this nondiscrimination clause.

18.8. **Waiver.** No provision, covenant, or condition of this Agreement shall be deemed to have been waived by City or Consultant unless in writing signed by one authorized to bind the party asserted to have consented to the waiver. The waiver by City or Consultant of any breach of any provision, covenant, or condition of this Agreement shall not be deemed to be a waiver of any subsequent breach of the same or any other provision, covenant, or condition.

18.9. **Excused Failure to Perform.** Consultant shall not be liable for any failure to perform if Consultant presents acceptable evidence, in City's sole judgment, that such failure was due to causes beyond the control and without the fault or negligence of Consultant.

18.10. **Remedies Non-Exclusive.** Each right, power and remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise shall be cumulative and shall be in addition to every other right, power, or remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise. The exercise, the commencement of the exercise, or the forbearance from the exercise by any party of any one or more of such rights, powers or remedies shall not preclude the simultaneous or later exercise by such party of any or all of such other rights, powers or remedies.

18.11. **Attorneys' Fees.** If legal action shall be necessary to enforce any term, covenant or condition contained in this Agreement, the prevailing party shall be entitled to an award of reasonable attorneys' fees and costs expended in the action.

18.12. **Venue.** The venue for any litigation shall be Los Angeles County, California and Consultant hereby consents to jurisdiction in Los Angeles County for purposes of resolving any dispute or enforcing any obligation arising under this Agreement.

TO EFFECTUATE THIS AGREEMENT, the parties have caused their duly authorized representatives to execute this Agreement on the dates set forth below.

Billable hourly rate of $150 per hour for offsite work and/or $200 per hour for onsite work (travel expenses included in the onsite rate).

City Council Agenda Report

ITEM NO. 9

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Alma Medina, Assistant to the City Manager

SUBJECT: **CONSIDERATION OF APPROVAL OF AN AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT WITH WBCP INC., FOR RECRUITMENT SEARCH SERVICES, IN THE AMOUNT NOT TO EXCEED OF $10,400, FOR A NEW TOTAL CONTRACT AMOUNT OF $56,000**

Recommendation

It is recommended that the City Council consider approval of the proposed amendment to the professional services agreement with WBCP Inc., to amend the compensation for recruitment search services and add the recruitment services for a Chief City Clerk, in an amount not to exceed of $10,400, for a new total contract amount of $56,000.

Executive Summary

Staff is recommending approval of an amendment to the professional services agreement with WBCP, Inc., for recruitment search services, in the amount not to exceed of $10,400 for a new total contract amount of $56,000. The City is currently working with the firm for the recruitment of a Public Affairs Manager, an Accounting Manager-Controller and two Engineering positions. Recently, the current Chief City Clerk resigned from the position and there is a vacancy in the City Clerk Division. Staff requests approval to this amendment to be able to recruit for the vacant Chief City Clerk positions as soon as possible and make payment to the firm.

Background

The City has several important vacancies and has been proactive in retaining recruitment firms to pursue qualified candidates for these positions. On April 2025, the City entered into a professional services agreement with WBCP, Inc., to conduct the recruitment search for the Public Affairs Manager position, in the amount not to exceed of $15,400. On June 18, 2025, the City Council approved an amendment to include the Accounting Manager- Controller and two engineer positions to the scope of work. After the recent resignation of the Chief City Clerk, there is a need to engage WBCP, Inc., for the recruitment of a new Chief City Clerk. There is an urgent need to begin recruitment efforts immediately to avoid any prolonged vacancy that could disrupt critical city operations. The firm has demonstrated an understanding of our needs and is well-positioned to identify and attract high-caliber candidates. Staff is recommending approval of the proposed amendment to add to the scope of work to add to Chief City Clerk recruitment, in the amount not to exceed of $10,400, for a new total contract amount of $56,000.

Analysis

Chief City Clerk Recruitment

The Chief City Clerk position is a Division Manager position and is responsible for budgeting, planning, personnel, customer service, records management and overall management of the City Clerk Division. With this position being vacant, the current Deputy City Clerk will undertake an Acting Chief City Clerk capacity as the recruitment process takes place. The prolonged vacancy of this position can lead to operational inefficiencies in the public-facing Division.

Given current market conditions, this particular position has proven to be difficult to fill through conventional recruitment efforts in the past. Partnering with WBCP, Inc. for this recruitment will enable the City to access a broader and more qualified pool of candidates through targeted outreach and specialized vetting.

Given the scope and significance of these positions, it is imperative to initiate a professional and comprehensive recruitment process as soon as possible. The City does not have internal resources available to manage a recruitment of this scale within the necessary timeframe.

WBCP, Inc., has already been engaged with the City and is familiar with our organizational culture and leadership needs. Amending the existing contract to include the additional recruitment will allow us to streamline efforts, reduce onboarding time for the firm, and ensure an efficient and coordinated approach to filling both critical vacancies.

Alternatives

The City Council does have the option to not approve the proposed amendment. If not approved, the recruitment effort would have to be undertaken by City Staff, which will take longer than if done with a firm, as we do not have such expertise within the agency at the moment.

Fiscal Impact

If approved, the proposed amendment will be included in the proposed Fiscal Year 2025-2026 budget, in Account No. 101-2030-2034-8020-000 (Human Resources- Special Department Expense).

Attachment:

Attachment No. 1 - Proposed Amendment

Attachment No. 2 - First Amendment

Attachment No. 3 - Professional Services Agreement

SECOND AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT FOR RECRUITMENT SEARCH SERVICES

THIS AMENDMENT ("Amendment") is made on this 16TH day of July 2025, by and between the CITY OF SOUTH PASADENA ("CITY") and WBCP, INC. ("CONSULTANT').

RECITALS

WHEREAS, on April 21, 2025, the CITY and CONSULTANT entered into an Agreement for PROFESSIONAL SERVICES ("Agreement") for CONSULTANT to perform Recruitment Services for a Public Affairs Manager for the City; and

WHEREAS, the original Agreement was in the amount of $15,400, for Recruitment Services for a Public Affairs Manager; and

WHEREAS, on June 18, 2025 the City and Consultant entered into an amendment to increase the total contract in an amount not to exceed $30,200, for a new aggregate total of Agreement and Amendments sum total of $45,600, and amend the scope of work to include Recruitment Services for a Accounting Manager- Controller and two engineering positions; and

WHEREAS, the City and Consultant desires to execute a second Amendment to increase the total contract in an amount not to exceed $10,400, for a new aggregate total of Agreement and Amendments sum total of $56,000, and amend the scope of work to include Recruitment Services for a Chief City Clerk position; and

NOW THEREFORE, THE CITY AND THE CONSULTANT AGREE AS FOLLOWS:

1. That Section 1 "Services " is amended to include Chief City Clerk Position, and include the attached Proposal, Exhibit A .

2. That Section 2 "Payment" of the Agreement is hereby amended to read as follows:
   "The amount of the contract shall not exceed $56,000."

3. All other terms, conditions, and provisions of the Agreement to the extent not modified by this Amendment, shall remain in full force and effect.

I. COVER LETTER

July 1, 2025

1414 Mission St,
South Pasadena,
CA 91030

RE: City of South Pasadena - Chief City Clerk Recruiting Services

It is our pleasure to submit this proposal for recruitment services to secure your ideal candidate to serve as the Chief City Clerk of the City of South Pasadena. **WBCP has worked on many similar recruitments, and we look forward to the opportunity to partner with your organization on this critical position!**

We trust our proposal will showcase our client-focused recruitment process and will act as a testament that we are passionate about what we do to make our clients happy.

WBCP, Inc. was selected, through a national request for proposal process, as the sole-source vendor for executive recruitment services through a national competitive process conducted by the National Association of Counties (NACo) under the Public Promise Procurement (PPP) program. This cooperative purchasing agreement, with San Diego County serving as the Lead Public Agency (LPA), allows public sector organizations across the U.S. to satisfy competitive procurement requirements and contract directly with WBCP—without the delays or added costs of a traditional RFP process. The PPP/LPA partnership ensures that organizations can engage WBCP quickly, compliantly, and with confidence in the value and quality of service delivered. **Learn more here: https://wbcpinc.com/naco.**

It has been proven that great employees are looking for great employers, not just a paycheck. WBCP provides a broader perspective to recruitment services – going beyond securing the ideal candidate – we brand your organization as an employer of choice. We use eye-catching marketing materials, innovative search practices, and responsive and respectful communications with your applicants and stakeholders.

WBCP is talented at working with you to identify the strengths, challenges, and opportunities of this job, the ideal candidate, and your community and organizational culture. WBCP will work with your stakeholders to design a recruitment strategy that will include a customized engagement process. We will have a series of meetings, discussions, stakeholder interviews, and survey(s) to get to know you, the organization, the community, the culture, and the applicable staff.

My team and I know the California candidate marketplace and have many clients in your region, such as **the County of Los Angeles, County of Orange, County of San Bernardino, City of Pasadena, City of Riverside, City of Long Beach, and City of Culver City (just to name a few).** We have exceptional experience successfully recruiting for similar positions, with several recent notable recruitments including, but not limited to:

- **City Clerk, City of Roseville, CA**
- **City Clerk, City of Solvang, CA**
- **City Clerk, City of Livermore, CA**
- **Deputy City Clerk, City of Petaluma, CA**

To see a full list of our clients and successful recruitments, visit: https://tinyurl.com/3j9bdd79

We have over two decades of experience in public sector executive search services and have provided direct search services through WBCP since 2004. WBCP's executive recruiters are all highly personable and have unique backgrounds that make them well-equipped to take on your recruitments, as you will read their biographies in this proposal. WBCP now has offices in California, Oregon, Washington, and Texas.

I. COVER LETTER

Recruiting top talent has become the number-one topic among administrators. New and innovative recruitment strategies are critical to identifying and securing candidates with a deep understanding of how to assess and meet community needs and address future challenges. WBCP understands the complexity of community leadership, and we are prepared to provide a thorough, complete, and fair recruitment process to provide a diverse applicant pool. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** In fact, we are often selected and told that we bring a larger, more qualified and diverse groups of candidates than they have ever received from past professional recruiters.

Clients also choose our firm over others because of our ability to work with your support staff and stakeholder group (including boards, appointed/elected officials, and engaged constituents), manage all details of a recruitment process, and secure great candidates. Our dedication and commitment to the client are complemented by our deep understanding and ability to effectively navigate challenging political climates.

Our clients have great things to say about the quality of the service we provide and the amazing candidates we find them, In fact, many of our clients are return customers. Please feel comfortable reaching out to these organizations to get their feedback directly.

DIVERSITY

63%

of WBCP candidates placed in positions come from a diverse background

Lastly, we love what we do, and we are passionate about finding exceptional candidates who are also passionate about serving others. WBCP's staff are driven and desire to exceed client expectations. I appreciate your consideration in retaining our services and hope to have an opportunity to work with you in the future.

II. BACKGROUND & QUALIFICATIONS.....

RECRUITING WITH DIVERSITY IN MIND

Since partnering with the country's largest network of diversity job boards, ***we have seen a 21% increase in diverse applicants and a 13% increase*** *in diverse candidates placed in positions with our clients. This demonstrates WBCP's dedication to expanding outreach and removing barriers to apply, ensuring access to a highly qualified and diverse applicant pool.*

600 Diversity Job Boards:

When you post a job with WBCP, it is automatically shared across 600 diversity job boards, maximizing reach and ensuring access to a wide and inclusive pool of talent. We also utilize the largest diversity database with over 160 million resumes and 15,000 community based organization contacts to expand our search.

LinkedIn:

As LinkedIn recruiters, we have access to over 1 Billion profiles, allowing us to evaluate candidates' backgrounds, education, experience, licensure, and more.

AI:

WBCP also leverages AI tools to gather additional information to effectively reach future applicants and candidates contact information for emails and phone numbers.

WBCP understands the complexities of meeting the needs of a diverse community, and we provide a thorough, complete, and fair recruitment process.

II. BACKGROUND & QUALIFICATIONS.....

WHY CHOOSE WBCP

Proven Expertise:

- **Over 20 Years in Business and 100+ Years of Experience:** With over a century of combined experience, our recruitment professionals excel in public service sectors, including cities, counties, utilities, special districts, joint powers authorities, and non-profits. Our proven track record ensures expertise tailored to your needs.

- **100% Success Rate:** In 2024, we achieved a 100% success rate, successfully filling every position we managed including partial and full scope services from engineering, planning, finance, health and human services, legal, legislative, hard-to-fill civil service positions, and many more! We deliver results no matter what the challenge.

Employer Recognition: WBCP has been recognized as Oregon's TOP 100 EMPLOYERS.

HR Teams Trust Us: We simplify the recruitment process, managing every detail so HR teams can focus on other priorities. From sourcing candidates to scheduling interviews and providing updates, our seamless approach saves time, reduces stress, and ensures results.

Strategic Marketing and Advertising: Our marketing team designs targeted campaigns using diverse, cost-effective channels powered by AI. These campaigns maximize reach while staying within budget and include:

- Diverse Applicant Pools: Access to over 600 diversity-focused job boards, 15,000 diversity affiliations, and 120 million resumes ensures diversity is integral to our process.
- LinkedIn Recruiter Expertise: With access to 230 million U.S. profiles, we connect you with top-tier talent.
- AI-Driven Talent Acquisition: Advanced AI strategies enhance efficiency and uncover new candidate engagement opportunities.

Trusted Partners and Culture Cultivators: We go beyond finding candidates by building trust with your team and stakeholders. Our tailored strategies align top talent with your organizational culture, ensuring a collaborative and thoughtful recruitment process.

Recruiting with Competencies: Ensures a fair, measurable, and effective hiring process. This strategic approach helps identify the client's needs and then assesses candidates on the critical skills and behaviors for success.
Benefits:

- Fairness: Focuses on role-specific competencies.
- Measurability: Provides objective evaluation criteria.
- Better Matches: Aligns talent with organizational and cultural needs.
- Equitable: Reduces bias with standardized assessments.

Recruiting with competencies delivers high-quality, measurable solutions that ensure the best candidates for your team's success and cultural alignment.

Timely and effective background and Reference Checks: WBCP partners with a trusted third party for thorough background checks and relies on a 30-year public safety veteran, retired as a police chief, and an expert in employee investigations, to conduct expert reference verifications. This ensures accuracy, professionalism, and confidence in every hiring decision.

Guaranteed Satisfaction: We stand behind our work with a 12-24 month guarantee. If the initial placement doesn't work out, we will conduct a replacement search at no additional consulting fee, ensuring lasting value for your investment.

IV. WBCP KEY STAFF.....

WENDI BROWN
Lead Consultant/ Sr. Executive Recruiter

I am the President of WBCP, with over 20 years of experience in marketing and advertising and combine this with my background in recruiting to successfully place hard-to-fill, management, and executive positions. My team and I are passionate about helping organizations improve their recruitment services, place great talent, conduct department assessments, redesign antiquated processes, revise job descriptions, conduct salary and benchmark studies, and more. I have worked in various industries – advertising and public relations, national real estate franchisor, global manufacturing – and I have worked with nonprofit and public sector organizations since 1999. Formerly, I was an internal Human Resources Consultant for the County of Orange, California, providing countywide communications, human resources, executive search, and recruiter training services to the Assistant Chief Executive Office/Human Resources Director and, at that time, 25 decentralized departments, with 17,000 employees, serving a community of 300,000. I have a Bachelor's of Science in Business Administration with an emphasis in Marketing from Colorado Technical University; have earned several certificates in Project Management, Global Business, Marketing, and Human Resources; and working toward a Master's in Management at Southern Oregon University

RICHARD KUHNS
Vice President of Recruiting & Culture

Richard Kuhns is a retired County Administrative Officer with over 28 years of experience in the Public Sector. He is currently the VP of Recruiting and Organizational Culture for WBPC. Richard began his career in Law Enforcement, transferring his focus to Administration where he served as the Director of Housing and Community Action, Behavioral Health, General Services, and Solid Waste. Richard has a "find a way, to find a way" mentality. With his vast knowledge and experience in the Public Sector he has an intuitive understanding of working with government leaders, policy makers, and the public. Richard achieved a Bachelor of Science in Business Management, a Master of Arts in Behavioral Science with an emphasis in Conflict Resolution and Negotiations, and a Doctorate in Clinical Psychology. For the past three years Richard has worked as an Executive Recruiter and Behavioral Health Consultant. As a Consultant, he worked with several Northern California Counties creating and implementing the newly state mandated 24/7 Mobile Crisis. He has now focused his time and efforts on assisting WBCP clients in finding and securing the top candidate for your organization.

IV. WBCP KEY STAFF

TERRI MAUS-NISICH
Sr. Executive Recruiter

Terri Maus-Nisich holds a pivotal role as one of our Senior Executive Recruiters, leveraging her extensive background as a distinguished leader in local government. With a local government career spanning over 40 years, Terri's journey includes transformative roles within the County of Santa Barbara, where she ascended from Parks Director to Assistant County Executive Officer, overseeing vital municipal and health/human service departments. Her remarkable impact encompasses leadership in Homeless Services, Communications, and Emergency Management, driving community engagement, disaster recovery, and support for vulnerable populations. Before her tenure in Santa Barbara, Terri spent 15 years with the City of Santa Clarita in roles ranging from analyst to Deputy City Manager. Throughout her remarkable career, Terri prioritized strategic planning, organizational development, and innovative problem-solving, garnering numerous awards. She holds a Bachelor's Degree from UC Santa Barbara, a Masters of Public Administration from Cal State Northridge, and a graduate certificate from Harvard University's JFK School of Government.

LAUREN GERSON
Executive Recruiter

Lauren Gerson is a seasoned Executive Recruiter at WBCP, where she draws on over 15 years of experience in career services, customer relations, and operations. Her recruiting expertise extends across various industries, with notable success in health and human services, utilities, and finance. Lauren has helped organizations across multiple states fill hard-to-hire positions at every level, from individual contributors to executives. Lauren's diverse professional journey began in operations and events management, where she honed her expertise in human resources, business management, and regulatory compliance. She later transitioned to career services, and prior to joining WBCP, worked with a career coaching company helping job-seekers better leverage their skills and overcome barriers to employment. Lauren holds a Bachelor's degree in Philosophy from Whittier College. She brings a unique perspective to her role, and is committed to making a positive impact both professionally and personally. With her unwavering dedication and client-centric focus, Lauren continues to drive success and excellence in executive recruitment at WBCP.

IV. WBCP KEY STAFF

LEVI KUHLMAN
Executive Recruiter

Levi Kuhlman is an Executive Recruiter at WBCP, and an experienced professional with a multifaceted career spanning across executive recruitment, real estate, and entrepreneurship. He has worked extensively with local municipalities, special districts, and not-for-profit organizations across the Western region, with a focus in California, Oregon, and Idaho. Levi has conducted many successful recruitments in various industries including planning, rent stabilization and housing, engineering, finance, city management, transportation and transit, community development, building and safety, public safety, risk management, and information technology. Levi serves as a skilled and diplomatic liaison, earning a reputation for his personalized approach to recruiting. Before joining the ranks of WBCP, he advocated on behalf of tenants, landlord, and clients. With a diverse skill set and a commitment to excellence, Levi continues to make significant contributions to WBCP, his clients, and broadening the professional community one recruitment at a time.

V. RECRUITMENT STRATEGY / PHASES.....

WBCP knows how to customize your search strategy to meet your unique recruitment needs. We customize your recruitment based on the specific needs, target audience, and challenges for each recruitment; however, below is a baseline approach for most recruitments.

CLIENT & STAKEHOLDER MEETINGS

We require the Client and/or Search Committee, and other stakeholders identified by the Client, be involved in the initial and final phases of this recruitment. These are critical phases to ensure we obtain a clear sense of the priorities and the successful hire of the right candidate. WBCP will meet with various stakeholders as warranted by the Client and the level of the position in the organization. These meetings will allow us an opportunity to gather information and gain knowledge about the organization, community, and unique aspects of the recruitment to design the ideal candidate professional profile, advertising materials, and strategic approach

FEEDBACK OUTCOME / TIMELINE DEVELOPMENT

Following the Client/stakeholder meetings, we will develop a detailed timeline for the recruitment along with a proposed advertising plan for approval.

CREATIVE DEVELOPMENT

Immediately following the client feedback activities, we will draft the competencies for the recruitment and advertising material/recruitment brochure for the Client's review. This information will summarize what was learned from Client-related interviews and will be used to advertise the opening.

MARKETING STRATEGY & IMPLEMENTATION

WBCP will execute a customized marketing/ad plan once the job announcement is created. An ad plan could include the following (based on assumptions), and will be customized based on information gathered in Phase I:

DIGITAL ADVERTISING WITH DIVERSITY IN MIND

WBCP utilizes digital advertising to obtain diverse applicant pools, leveraging local and national job boards, associations, and social media. In partnership with a diversity platform, our postings reach up to 600 local employment and diversity websites, connecting across 15,000+ community organizations and niche sites, tapping into a job bank of 2 million resumes. Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.

EMAIL & DIRECT MAIL ADVERTISING

In addition to tapping into WBCP's existing pool of potential applicants, we have the capability to access various professional lists. We actively seek out additional lists through associations, contacts, and other strategic channels.

SOURCING/HEADHUNTING

WBCP employs a proactive approach by reaching out to targeted individuals and cultivating new connections through referrals from reputable sources. As a LinkedIn recruiter, we harness the power of over 350 million profiles to identify and engage with ideal candidates. Additionally, WBCP utilizes cutting-edge AI tools for precise Boolean searches, enabling us to uncover niche candidates effectively.

COMMUNICATION WITH CLIENT

We will provide weekly updates on the progress of this search unless the client prefers more or less frequent communications. We tailor our communications in accordance with our Client's needs.

VI. SCOPE OF WORK

- Facilitate initial kick-off meeting with Client and other meetings that may include Executive Leadership, staff, community, and other stakeholders to assist with identifying the ideal candidate profile.
- Assist Client hiring authority/stakeholders in modifying the job description (as needed), and develop a recruitment announcement, marketing materials, and advertising plan for the recruitment.
- Attend all other meetings and engagements as needed or identified by the Client.
- Implement advertising plan including: publication, sourcing/headhunting, direct mail, and other online and email marketing efforts.
- Provide timely updates and progress reports to the client regarding search services; every two weeks or as Client identifies is needed.

VII. RECRUITMENT TIMELINE.....

BELOW IS A SAMPLE OF AN EXECUTIVE SEARCH TIMELINE THAT WBCP WILL CUSTOMIZE FOR THIS RECRUITMENT

Week 1:

- Secure services with search firm, WBCP, Inc.
- WBCP: review search parameters and recruiting processes with Client
  - Interview with hiring authority and other stakeholders for competencies
  - Identification of advertising venues and ideal candidate prospects
  - Calls, meetings, or coordination with other stakeholders for information gathering

Weeks 1 + 2:

- Develop and approvals: recruitment process, deadlines, ad plan and strategy, recruitment timeline and brochure
- Print coordination (if applicable)

Weeks 2 + 3:

- **OPEN RECRUITMENT AND AD PLAN:** Implement marketing plan and direct mail (if applicable)
- Timeline may be extended if direct mail piece is included (i.e., print/postage)

Weeks 4, 5, + 6:

- Receive applications – WBCP may receive applications (if using our applicant tracking system) and/or receive updates from clients on the results of the recruitment.

Weeks 7 + 8:

- **CLOSE RECRUITMENT AND ADVERTISING**

X. COST SHEET / TIMELINE POLICY.....

WBCP will not limit the number of hours we work on a recruitment, rather we charge a flat rate and will spend the time necessary to ensure we are successful. Consulting fees will be billed once the position is open for applications and the advertising campaign has been launched.

SERVICE COST PER RECRUITMENT

CHIEF CITY CLERK

Description of Services/Deliverables:	Inclusive Rate per Recruitment:
Consulting Services: Phases I-II in the proposal's recruitment strategy/phases section.	$5,900 (flat rate)
Expenses Include: Document shipping fees/delivery charges to facilitate virtual meetings; brochure/graphic design ($950); marketing and advertising which may include: print and postage (if applicable); online job boards; social media; sourcing; and may include flat fee pricing for: LinkedIn $395, InMails $300, Circa Diversity Job Boards $295, Zoom Info $299. These expenses will be billed based on what is expended and based on the needs of the client/recruitment.	Up to $4,500 (not to exceed)

Cost and Timeline Policy

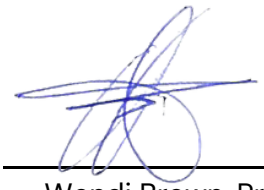
To ensure the success and efficiency of our recruitment services, the following policies regarding cost and timelines are in place:

1. **Timeline Development:** Timelines provided to our clients are valid for **10 business days**. If a timeline is not secured or confirmed within this period, it may no longer be available. In such cases, the timeline may be reassigned to another client, and a revised timeline will be provided.

These policies ensure clarity, fairness, and high-quality outcomes for all parties involved.

XI. OTHER

INSURANCE



WBCP and its sub-consultants have reviewed the contractual agreement and the Insurance Requirements. If selected, WBCP will execute said agreement and will provide the required insurance documents. WBCP will submit certificates of insurance as evidence of the required coverage limits. Insurance policies include: liability, errors and omissions, workers compensation, and vehicle insurance.

CONFIDENTIALITY SAFEGUARDS

Confidentiality is paramount in the work we do. We ensure that the client and candidate information we receive, and conversations with our client (and certainly discussions in closed session) are kept confidential. There are several physical safeguards we have in place including: locked and alarmed office space, password, and encryption protected information on our computers and servers, multiple backup systems. As information is shared with our client, we discuss the importance of confidentiality and why it is important to the candidates they are considering but also brands the organization appropriately. We also ask candidates who are interviewed to keep candidate information confidential, as they may see or meet a candidate during the process. We emphasize that confidentiality is not just until the recruitment is completed, and a candidate is hired, confidentiality is in perpetuity. Leaked information is not a reputation that a client wants to receive, as this could deter future applicants from applying.

ORGANIZATIONAL DIVERSITY STATEMENT

WBCP embraces cross-cultural diversity and we are committed to equitable treatment and elimination of discrimination in all its forms at all organizational levels and throughout all consulting practices, including search services. We strive to reach diverse groups of people to inform them of leadership opportunities. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** We will make extensive efforts to attract a qualified applicant pool that represents a broad range of gender and ethnically diverse individuals.

FIRST AMENDMENT TO PROFESSIONAL SERVICES AGREEMENT FOR RECRUITMENT SEARCH SERVICES

THIS AMENDMENT ("Amendment") is made on this 18TH day of June 2025, by and between the CITY OF SOUTH PASADENA ("CITY") and WBCP, INC. ("CONSULTANT').

RECITALS

WHEREAS, on April 21, 2025, the CITY and CONSULTANT entered into an Agreement for PROFESSIONAL SERVICES ("Agreement") for CONSULTANT to perform Recruitment Services for a Public Affairs Manager for the City; and

WHEREAS, the original Agreement was in the amount of $15,400, for Recruitment Services for a Public Affairs Manager; and

WHEREAS, the CITY desires to execute an Amendment to increase the total contract in an amount not to exceed $30,200, for a new aggregate total of Agreement and Amendments sum total of $45,600, and amend the scope of work to include Recruitment Services for a Accounting Manager- Controller and two engineering positions; and

NOW THEREFORE, THE CITY AND THE CONSULTANT AGREE AS FOLLOWS:

1. That Section 1 "Services " is amended to include Accounting Manager-Controller and Two Engineer Positions, and include the attached Proposals, Exhibit A .

2. That Section 2 "Payment" of the Agreement is hereby amended to read as follows:
   "The amount of the contract shall not exceed $45,600."

3. All other terms, conditions, and provisions of the Agreement to the extent not modified by this Amendment, shall remain in full force and effect.

RE: City of South Pasadena - Accounting Manager-Controller Recruiting Services

It is our pleasure to submit this proposal for recruitment services to secure your ideal candidate to serve as the Accounting Manager-Controller of the City of South Pasadena. **WBCP has worked on many similar recruitments, and we look forward to the opportunity to partner with your organization on this critical position!**

We trust our proposal will showcase our client-focused recruitment process and will act as a testament that we are passionate about what we do to make our clients happy.

Exciting news! WBCP has partnered with the National Association of Counties (NACo) and its Public Promise Procurement (PPP) Program to offer a game-changing solution. With our new streamlined service, you can piggyback on the County of San Diego's Master Service Cooperative Agreement, saving you time, money, and effort. This opportunity is available nationwide for cities, counties, special districts, nonprofits, state agencies, and educational institutions. If this is something that is of interest for this or future procurement processes, please visit our site at: **https://wbcpinc.com/naco/**

It has been proven that great employees are looking for great employers, not just a paycheck. WBCP provides a broader perspective to recruitment services – going beyond securing the ideal candidate – we brand your organization as an employer of choice. We use eye-catching marketing materials, innovative search practices, and responsive and respectful communications with your applicants and stakeholders.

WBCP is talented at working with you to identify the strengths, challenges, and opportunities of this job, the ideal candidate, and your community and organizational culture. WBCP will work with your stakeholders to design a recruitment strategy that will include a customized engagement process. We will have a series of meetings, discussions, stakeholder interviews, and survey(s) to get to know you, the organization, the community, the culture, and the applicable staff.

My team and I know the California candidate marketplace and have many clients in your region, such as **the County of Los Angeles, County of Orange, County of San Bernardino, City of Pasadena, City of Riverside, City of Long Beach, and City of Culver City (just to name a few).** We have exceptional experience successfully recruiting for similar positions, with several recent notable recruitments including, but not limited to:

- **Internal Audit Manager, City of Pasadena, CA (active)**
- **Assistant Auditor-Controller, County of Monterey, CA (active)**
- **Division Chief - Auditor Controller, County of San Joaquin, CA**
- **City Auditor, City of Sacramento, CA**
- **Audit Supervisor, County of Santa Barbara, CA**
- **Lead Internal Auditor, County of Santa Barbara, CA**
- **Accountant-Auditor, County of Santa Barbara, CA**

To see a full list of our clients and successful recruitments, visit: https://tinyurl.com/3j9bdd79

We have over two decades of experience in public sector executive search services and have provided direct search services through WBCP since 2004. WBCP's executive recruiters are all highly personable and have unique backgrounds that make them well-equipped to take on your recruitments, as you will read their biographies in this proposal. WBCP now has offices in California, Oregon, Washington, and Texas.

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

I. COVER LETTER

Recruiting top talent has become the number-one topic among administrators. New and innovative recruitment strategies are critical to identifying and securing candidates with a deep understanding of how to assess and meet community needs and address future challenges. WBCP understands the complexity of community leadership, and we are prepared to provide a thorough, complete, and fair recruitment process to provide a diverse applicant pool. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** In fact, we are often selected and told that we bring a larger, more qualified and diverse groups of candidates than they have ever received from past professional recruiters.

Clients also choose our firm over others because of our ability to work with your support staff and stakeholder group (including boards, appointed/elected officials, and engaged constituents), manage all details of a recruitment process, and secure great candidates. Our dedication and commitment to the client are complemented by our deep understanding and ability to effectively navigate challenging political climates.

DIVERSITY

63%

of WBCP candidates placed in positions come from a diverse background

Our clients have great things to say about the quality of the service we provide and the amazing candidates we find them, In fact, many of our clients are return customers. Please feel comfortable reaching out to these organizations to get their feedback directly.

Lastly, we love what we do, and we are passionate about finding exceptional candidates who are also passionate about serving others. WBCP's staff are driven and desire to exceed client expectations. I appreciate your consideration in retaining our services and hope to have an opportunity to work with you in the future.

II. BACKGROUND & QUALIFICATIONS

RECRUITING WITH DIVERSITY IN MIND

Since partnering with the country's largest network of diversity job boards, ***we have seen a 21% increase in diverse applicants and a 13% increase*** *in diverse candidates placed in positions with our clients. This demonstrates WBCP's dedication to expanding outreach and removing barriers to apply, ensuring access to a highly qualified and diverse applicant pool.*

600 Diversity Job Boards:

When you post a job with WBCP, it is automatically shared across 600 diversity job boards, maximizing reach and ensuring access to a wide and inclusive pool of talent. We also utilize the largest diversity database with over 160 million resumes and 15,000 community based organization contacts to expand our search.

LinkedIn:

As LinkedIn recruiters, we have access to over 1 Billion profiles, allowing us to evaluate candidates' backgrounds, education, experience, licensure, and more.

AI:

WBCP also leverages AI tools to gather additional information to effectively reach future applicants and candidates contact information for emails and phone numbers.

WBCP understands the complexities of meeting the needs of a diverse community, and we provide a thorough, complete, and fair recruitment process.

WBCP

Streamline and Satisfy the RFP Process to receive recruiting on demand. Reach out to WBCP today for more information.

II. BACKGROUND & QUALIFICATIONS

WHY CHOOSE WBCP

Proven Expertise:

- **Over 20 Years in Business and 100+ Years of Experience:** With over a century of combined experience, our recruitment professionals excel in public service sectors, including cities, counties, utilities, special districts, joint powers authorities, and non-profits. Our proven track record ensures expertise tailored to your needs.

- **100% Success Rate:** In 2024, we achieved a 100% success rate, successfully filling every position we managed including partial and full scope services from engineering, planning, finance, health and human services, legal, legislative, hard-to-fill civil service positions, and many more! We deliver results no matter what the challenge.

Employer Recognition: WBCP has been recognized as Oregon's TOP 100 EMPLOYERS.

HR Teams Trust Us: We simplify the recruitment process, managing every detail so HR teams can focus on other priorities. From sourcing candidates to scheduling interviews and providing updates, our seamless approach saves time, reduces stress, and ensures results.

Strategic Marketing and Advertising: Our marketing team designs targeted campaigns using diverse, cost-effective channels powered by AI. These campaigns maximize reach while staying within budget and include:

- Diverse Applicant Pools: Access to over 600 diversity-focused job boards, 15,000 diversity affiliations, and 120 million resumes ensures diversity is integral to our process.
- LinkedIn Recruiter Expertise: With access to 230 million U.S. profiles, we connect you with top-tier talent.
- AI-Driven Talent Acquisition: Advanced AI strategies enhance efficiency and uncover new candidate engagement opportunities.

Trusted Partners and Culture Cultivators: We go beyond finding candidates by building trust with your team and stakeholders. Our tailored strategies align top talent with your organizational culture, ensuring a collaborative and thoughtful recruitment process.

Recruiting with Competencies: Ensures a fair, measurable, and effective hiring process. This strategic approach helps identify the client's needs and then assesses candidates on the critical skills and behaviors for success.

Benefits:

- Fairness: Focuses on role-specific competencies.
- Measurability: Provides objective evaluation criteria.
- Better Matches: Aligns talent with organizational and cultural needs.
- Equitable: Reduces bias with standardized assessments.

Recruiting with competencies delivers high-quality, measurable solutions that ensure the best candidates for your team's success and cultural alignment.

Timely and effective background and Reference Checks: WBCP partners with a trusted third party for thorough background checks and relies on a 30-year public safety veteran, retired as a police chief, and an expert in employee investigations, to conduct expert reference verifications. This ensures accuracy, professionalism, and confidence in every hiring decision.

Guaranteed Satisfaction: We stand behind our work with a 12-24 month guarantee. If the initial placement doesn't work out, we will conduct a replacement search at no additional consulting fee, ensuring lasting value for your investment.

IV. WBCP KEY STAFF

WENDI BROWN
Lead Consultant/ Sr. Executive Recruiter

I am the President of WBCP, with over 20 years of experience in marketing and advertising and combine this with my background in recruiting to successfully place hard-to-fill, management, and executive positions. My team and I are passionate about helping organizations improve their recruitment services, place great talent, conduct department assessments, redesign antiquated processes, revise job descriptions, conduct salary and benchmark studies, and more. I have worked in various industries – advertising and public relations, national real estate franchisor, global manufacturing – and I have worked with nonprofit and public sector organizations since 1999. Formerly, I was an internal Human Resources Consultant for the County of Orange, California, providing countywide communications, human resources, executive search, and recruiter training services to the Assistant Chief Executive Office/Human Resources Director and, at that time, 25 decentralized departments, with 17,000 employees, serving a community of 300,000. I have a Bachelor's of Science in Business Administration with an emphasis in Marketing from Colorado Technical University; have earned several certificates in Project Management, Global Business, Marketing, and Human Resources; and working toward a Master's in Management at Southern Oregon University

RICHARD KUHNS
Vice President of Recruiting & Culture

Richard Kuhns is a retired County Administrative Officer with over 28 years of experience in the Public Sector. He is currently the VP of Recruiting and Organizational Culture for WBPC. Richard began his career in Law Enforcement, transferring his focus to Administration where he served as the Director of Housing and Community Action, Behavioral Health, General Services, and Solid Waste. Richard has a "find a way, to find a way" mentality. With his vast knowledge and experience in the Public Sector he has an intuitive understanding of working with government leaders, policy makers, and the public. Richard achieved a Bachelor of Science in Business Management, a Master of Arts in Behavioral Science with an emphasis in Conflict Resolution and Negotiations, and a Doctorate in Clinical Psychology. For the past three years Richard has worked as an Executive Recruiter and Behavioral Health Consultant. As a Consultant, he worked with several Northern California Counties creating and implementing the newly state mandated 24/7 Mobile Crisis. He has now focused his time and efforts on assisting WBCP clients in finding and securing the top candidate for your organization.

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

IV. WBCP KEY STAFF

TERRI MAUS-NISICH
Sr. Executive Recruiter

Terri Maus-Nisich holds a pivotal role as one of our Senior Executive Recruiters, leveraging her extensive background as a distinguished leader in local government. With a local government career spanning over 40 years, Terri's journey includes transformative roles within the County of Santa Barbara, where she ascended from Parks Director to Assistant County Executive Officer, overseeing vital municipal and health/human service departments. Her remarkable impact encompasses leadership in Homeless Services, Communications, and Emergency Management, driving community engagement, disaster recovery, and support for vulnerable populations. Before her tenure in Santa Barbara, Terri spent 15 years with the City of Santa Clarita in roles ranging from analyst to Deputy City Manager. Throughout her remarkable career, Terri prioritized strategic planning, organizational development, and innovative problem-solving, garnering numerous awards. She holds a Bachelor's Degree from UC Santa Barbara, a Masters of Public Administration from Cal State Northridge, and a graduate certificate from Harvard University's JFK School of Government.

LAUREN GERSON
Executive Recruiter

Lauren Gerson is a seasoned Executive Recruiter at WBCP, where she draws on over 15 years of experience in career services, customer relations, and operations. Her recruiting expertise extends across various industries, with notable success in health and human services, utilities, and finance. Lauren has helped organizations across multiple states fill hard-to-hire positions at every level, from individual contributors to executives. Lauren's diverse professional journey began in operations and events management, where she honed her expertise in human resources, business management, and regulatory compliance. She later transitioned to career services, and prior to joining WBCP, worked with a career coaching company helping job-seekers better leverage their skills and overcome barriers to employment. Lauren holds a Bachelor's degree in Philosophy from Whittier College. She brings a unique perspective to her role, and is committed to making a positive impact both professionally and personally. With her unwavering dedication and client-centric focus, Lauren continues to drive success and excellence in executive recruitment at WBCP.

IV. WBCP KEY STAFF

LEVI KUHLMAN
Executive Recruiter

Levi Kuhlman is an Executive Recruiter at WBCP, and an experienced professional with a multifaceted career spanning across executive recruitment, real estate, and entrepreneurship. He has worked extensively with local municipalities, special districts, and not-for-profit organizations across the Western region, with a focus in California, Oregon, and Idaho. Levi has conducted many successful recruitments in various industries including planning, rent stabilization and housing, engineering, finance, city management, transportation and transit, community development, building and safety, public safety, risk management, and information technology. Levi serves as a skilled and diplomatic liaison, earning a reputation for his personalized approach to recruiting. Before joining the ranks of WBCP, he advocated on behalf of tenants, landlord, and clients. With a diverse skill set and a commitment to excellence, Levi continues to make significant contributions to WBCP, his clients, and broadening the professional community one recruitment at a time.

V. RECRUITMENT STRATEGY / PHASES

WBCP knows how to customize your search strategy to meet your unique recruitment needs. We customize your recruitment based on the specific needs, target audience, and challenges for each recruitment; however, below is a baseline approach for most recruitments.

PHASE I

CLIENT & STAKEHOLDER MEETINGS

We require the Client and/or Search Committee, and other stakeholders identified by the Client, be involved in the initial and final phases of this recruitment. These are critical phases to ensure we obtain a clear sense of the priorities and the successful hire of the right candidate. WBCP will meet with various stakeholders as warranted by the Client and the level of the position in the organization. These meetings will allow us an opportunity to gather information and gain knowledge about the organization, community, and unique aspects of the recruitment to design the ideal candidate professional profile, advertising materials, and strategic approach

FEEDBACK OUTCOME / TIMELINE DEVELOPMENT

Following the Client/stakeholder meetings, we will develop a detailed timeline for the recruitment along with a proposed advertising plan for approval.

CREATIVE DEVELOPMENT

Immediately following the client feedback activities, we will draft the competencies for the recruitment and advertising material/recruitment brochure for the Client's review. This information will summarize what was learned from Client-related interviews and will be used to advertise the opening.

PHASE II

MARKETING STRATEGY & IMPLEMENTATION

WBCP will execute a customized marketing/ad plan once the job announcement is created. An ad plan could include the following (based on assumptions), and will be customized based on information gathered in Phase I:

DIGITAL ADVERTISING WITH DIVERSITY IN MIND

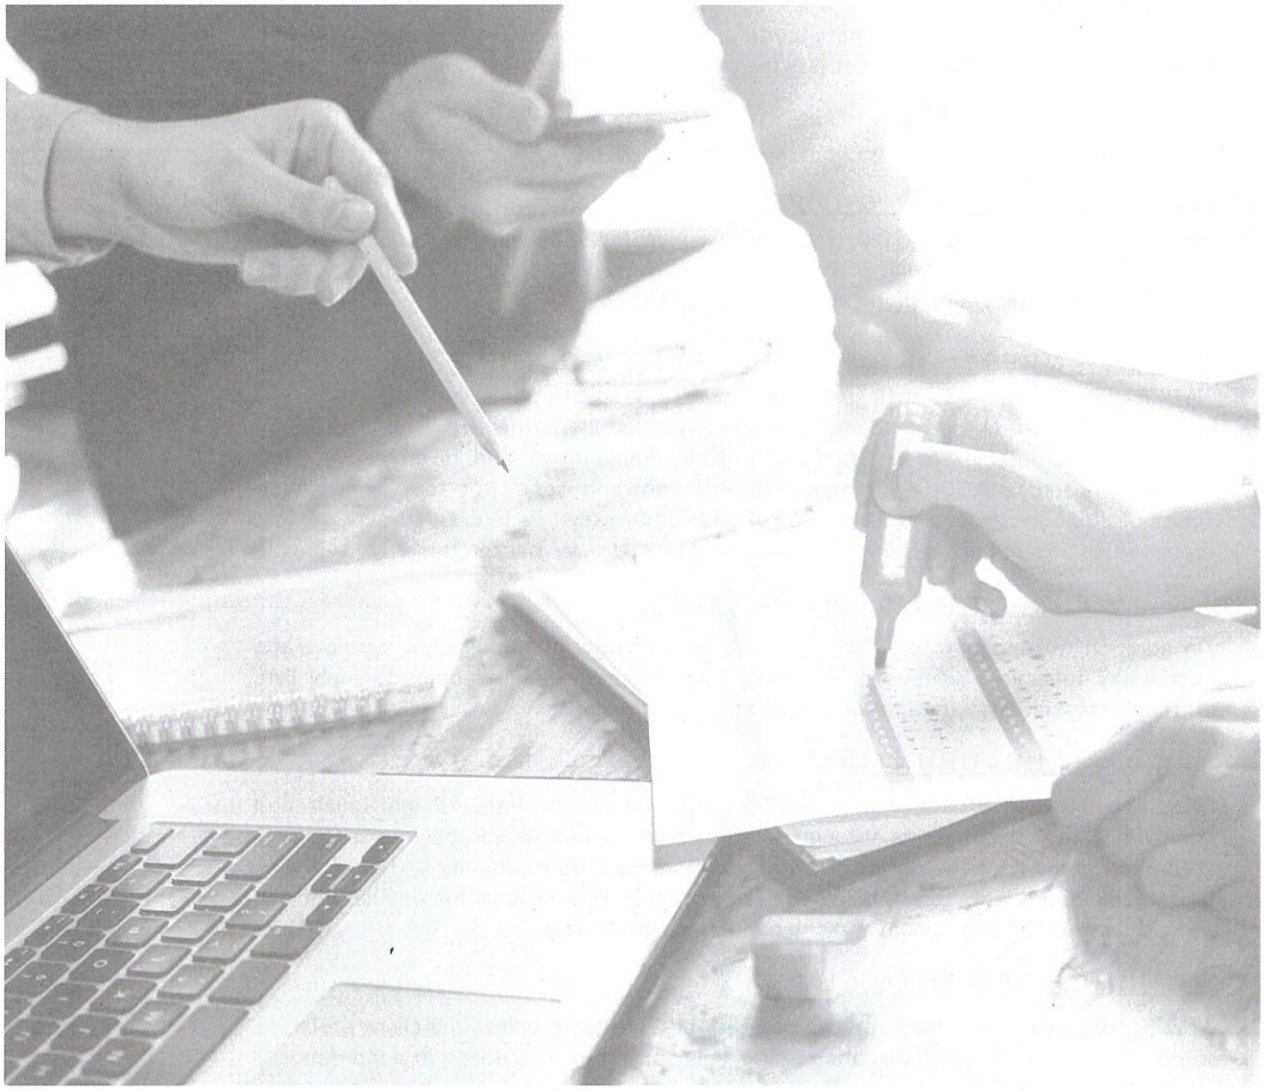
WBCP utilizes digital advertising to obtain diverse applicant pools, leveraging local and national job boards, associations, and social media. In partnership with a diversity platform, our postings reach up to 600 local employment and diversity websites, connecting across 15,000+ community organizations and niche sites, tapping into a job bank of 2 million resumes. Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.

EMAIL & DIRECT MAIL ADVERTISING

In addition to tapping into WBCP's existing pool of potential applicants, we have the capability to access various professional lists. We actively seek out additional lists through associations, contacts, and other strategic channels.

SOURCING/HEADHUNTING

WBCP employs a proactive approach by reaching out to targeted individuals and cultivating new connections through referrals from reputable sources. As a LinkedIn recruiter, we harness the power of over 350 million profiles to identify and engage with ideal candidates. Additionally, WBCP utilizes cutting-edge AI tools for precise Boolean searches, enabling us to uncover niche candidates effectively.



COMMUNICATION WITH CLIENT

We will provide weekly updates on the progress of this search unless the client prefers more or less frequent communications. We tailor our communications in accordance with our Client's needs.

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

VI. SCOPE OF WORK

- Facilitate initial kick-off meeting with Client and other meetings that may include Executive Leadership, staff, community, and other stakeholders to assist with identifying the ideal candidate profile.
- Assist Client hiring authority/stakeholders in modifying the job description (as needed), and develop a recruitment announcement, marketing materials, and advertising plan for the recruitment.
- Attend all other meetings and engagements as needed or identified by the Client.
- Implement advertising plan including: publication, sourcing/headhunting, direct mail, and other online and email marketing efforts.
- Provide timely updates and progress reports to the client regarding search services; every two weeks or as Client identifies is needed.

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

VII. RECRUITMENT TIMELINE

BELOW IS A SAMPLE OF AN EXECUTIVE SEARCH TIMELINE THAT WBCP WILL CUSTOMIZE FOR THIS RECRUITMENT

Week 1:

- Secure services with search firm, WBCP, Inc.
- WBCP: review search parameters and recruiting processes with Client
  - Interview with hiring authority and other stakeholders for competencies
  - Identification of advertising venues and ideal candidate prospects
  - Calls, meetings, or coordination with other stakeholders for information gathering

Weeks 1 + 2:

- Develop and approvals: recruitment process, deadlines, ad plan and strategy, recruitment timeline and brochure
- Print coordination (if applicable)

Weeks 2 + 3:

- **OPEN RECRUITMENT AND AD PLAN:** Implement marketing plan and direct mail (if applicable)
- Timeline may be extended if direct mail piece is included (i.e., print/postage)

Weeks 4, 5, + 6:

- Receive applications – WBCP may receive applications (if using our applicant tracking system) and/or receive updates from clients on the results of the recruitment.

Weeks 7 + 8:

- **CLOSE RECRUITMENT AND ADVERTISING**

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

X. COST SHEET / TIMELINE POLICY

WBCP will not limit the number of hours we work on a recruitment, rather we charge a flat rate and will spend the time necessary to ensure we are successful. Consulting fees will be billed once the position is open for applications and the advertising campaign has been launched.

SERVICE COST PER RECRUITMENT

ACCOUNTING MANAGER-CONTROLLER

Description of Services/Deliverables:	Inclusive Rate per Recruitment:
Consulting Services: Phases I-II in the proposal's recruitment strategy/phases section.	$5,900 (flat rate)
Expenses Include: Document shipping fees/delivery charges to facilitate virtual meetings; brochure/graphic design ($950); marketing and advertising which may include: print and postage (if applicable); online job boards; social media; sourcing; and may include flat fee pricing for: LinkedIn $395, InMails $300, Circa Diversity Job Boards $295, Zoom Info $299. These expenses will be billed based on what is expended and based on the needs of the client/recruitment.	Up to $4,500 (not to exceed)

Cost and Timeline Policy

To ensure the success and efficiency of our recruitment services, the following policies regarding cost and timelines are in place:

1. **Timeline Development:** Timelines provided to our clients are valid for **10 business days**. If a timeline is not secured or confirmed within this period, it may no longer be available. In such cases, the timeline may be reassigned to another client, and a revised timeline will be provided.

These policies ensure clarity, fairness, and high-quality outcomes for all parties involved.

Docusign Envelope ID: C47F5D9A-4795-4A02-AA0E-ADE6197D2842

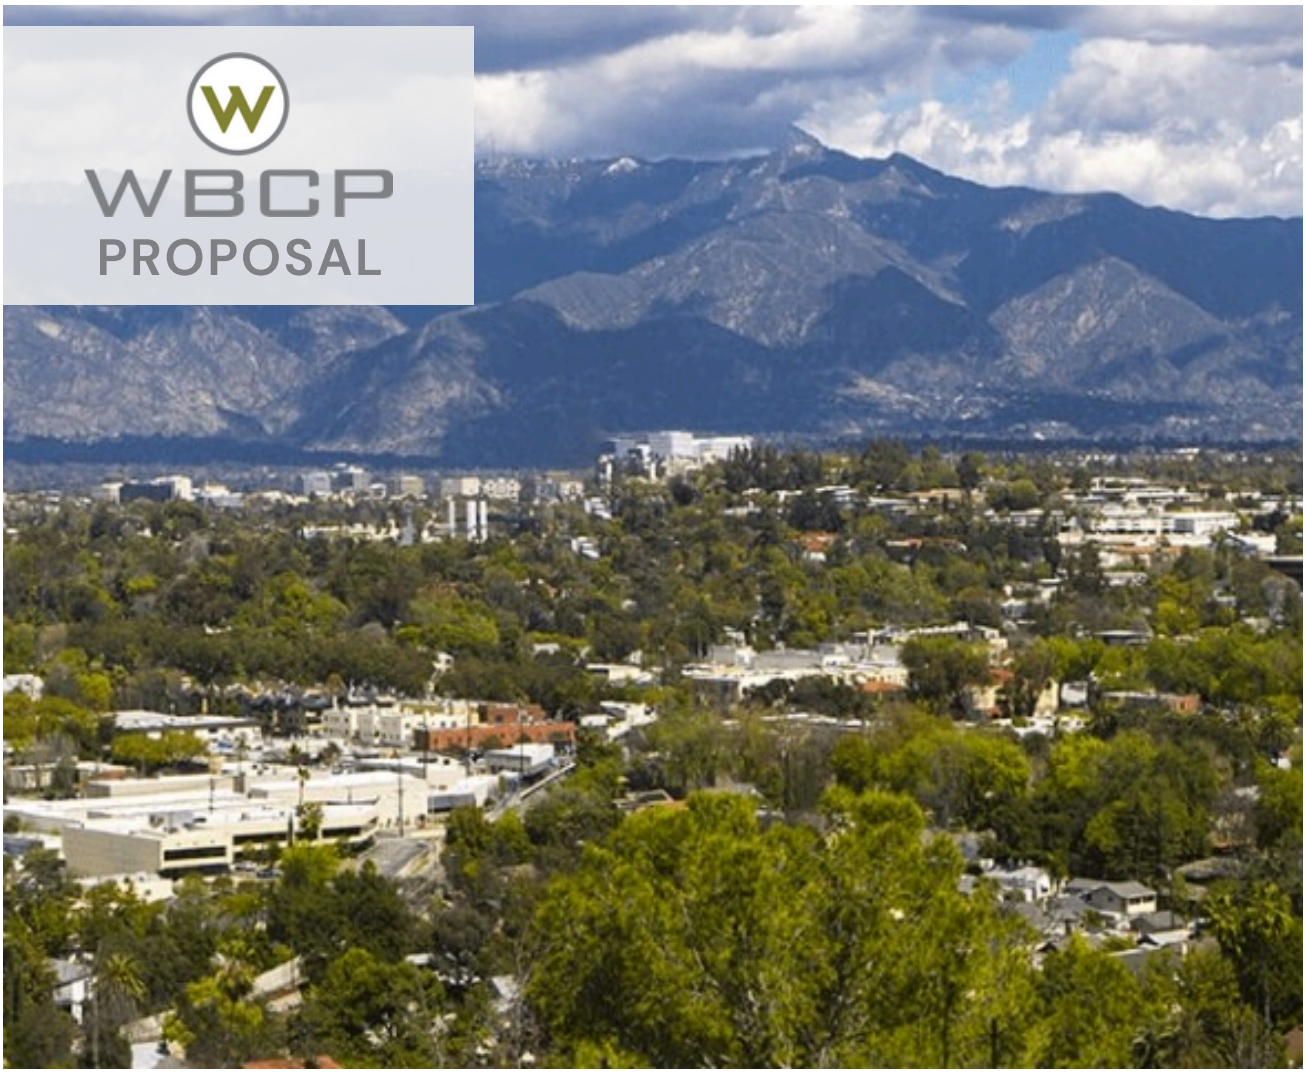
XI. OTHER

INSURANCE

WBCP and its sub-consultants have reviewed the contractual agreement and the Insurance Requirements. If selected, WBCP will execute said agreement and will provide the required insurance documents. WBCP will submit certificates of insurance as evidence of the required coverage limits. Insurance policies include: liability, errors and omissions, workers compensation, and vehicle insurance.

CONFIDENTIALITY SAFEGUARDS

Confidentiality is paramount in the work we do. We ensure that the client and candidate information we receive, and conversations with our client (and certainly discussions in closed session) are kept confidential. There are several physical safeguards we have in place including: locked and alarmed office space, password, and encryption protected information on our computers and servers, multiple backup systems. As information is shared with our client, we discuss the importance of confidentiality and why it is important to the candidates they are considering but also brands the organization appropriately. We also ask candidates who are interviewed to keep candidate information confidential, as they may see or meet a candidate during the process. We emphasize that confidentiality is not just until the recruitment is completed, and a candidate is hired, confidentiality is in perpetuity. Leaked information is not a reputation that a client wants to receive, as this could deter future applicants from applying.



ORGANIZATIONAL DIVERSITY STATEMENT

WBCP embraces cross-cultural diversity and we are committed to equitable treatment and elimination of discrimination in all its forms at all organizational levels and throughout all consulting practices, including search services. We strive to reach diverse groups of people to inform them of leadership opportunities. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** We will make extensive efforts to attract a qualified applicant pool that represents a broad range of gender and ethnically diverse individuals.

I. COVER LETTER

JUNE 5, 2025

Josette Reina-Luken
1414 Mission St,
South Pasadena, CA 91030

RE: City of South Pasadena - Engineering Series Recruiting Services

It is our pleasure to submit this proposal for recruitment services to secure your ideal candidates to serve as engineering professionals for the City of South Pasadena. **WBCP has worked on many Engineering recruitments, and we look forward to the opportunity to partner with your organization on this critical position!**

We trust our proposal will showcase our client-focused recruitment process and will act as a testament that we are passionate about what we do to make our clients happy.

Exciting news! WBCP has partnered with the National Association of Counties (NACo) and its Public Promise Procurement (PPP) Program to offer a game-changing solution. With our new streamlined service, you can piggyback on the County of San Diego's Master Service Cooperative Agreement, saving you time, money, and effort. This opportunity is available nationwide for cities, counties, special districts, nonprofits, state agencies, and educational institutions. If this is something that is of interest for this or future procurement processes, please visit our site at: **https://wbcpinc.com/naco/**

It has been proven that great employees are looking for great employers, not just a paycheck. WBCP provides a broader perspective to recruitment services – going beyond securing the ideal candidate – we brand your organization as an employer of choice. We use eye-catching marketing materials, innovative search practices, and responsive and respectful communications with your applicants and stakeholders.

WBCP is talented at working with you to identify the strengths, challenges, and opportunities of this job, the ideal candidate, and your community and organizational culture. WBCP will work with your stakeholders to design a recruitment strategy that will include a customized engagement process. We will have a series of meetings, discussions, stakeholder interviews, and survey(s) to get to know you, the organization, the community, the culture, and the applicable staff.

My team and I know the California candidate marketplace and have many clients in your region, such as the **County of Los Angeles, County of Orange, County of San Bernardino, City of Pasadena, City of Riverside, City of Long Beach, and City of Culver City (just to name a few).** We have exceptional experience successfully recruiting for similar positions, with several recent notable recruitments including, but not limited to:

- **Principal Engineer & Engineering Series, San Rafael Sanitation District, CA**
- **Multiple Engineering/Project Management Roles, City of Petaluma, CA**
- **Multiple Engineering Positions, City of Fort Worth, TX (active)**
- **Senior Engineer, Environmental/Water Utilities, City of Roseville, CA**

To see a full list of our clients and successful recruitments, visit: https://tinyurl.com/3j9bdd79

We have over two decades of experience in public sector executive search services and have provided direct search services through WBCP since 2004. WBCP's executive recruiters are all highly personable and have unique backgrounds that make them well-equipped to take on your recruitments, as you will read their biographies in this proposal. WBCP now has offices in California, Oregon, Washington, Texas, and Colorado.

I. COVER LETTER

Recruiting top talent has become the number-one topic among administrators. New and innovative recruitment strategies are critical to identifying and securing candidates with a deep understanding of how to assess and meet community needs and address future challenges. WBCP understands the complexity of community leadership, and we are prepared to provide a thorough, complete, and fair recruitment process to provide a diverse applicant pool. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** In fact, we are often selected and told that we bring a larger, more qualified and diverse groups of candidates than they have ever received from past professional recruiters.

Clients also choose our firm over others because of our ability to work with your support staff and stakeholder group (including boards, appointed/elected officials, and engaged constituents), manage all details of a recruitment process, and secure great candidates. Our dedication and commitment to the client are complemented by our deep understanding and ability to effectively navigate challenging political climates.

Our clients have great things to say about the quality of the service we provide and the amazing candidates we find them, In fact, many of our clients are return customers. Please feel comfortable reaching out to these organizations to get their feedback directly.

DIVERSITY

63%

of WBCP candidates placed in positions come from a diverse background

Lastly, we love what we do, and we are passionate about finding exceptional candidates who are also passionate about serving others. WBCP's staff are driven and desire to exceed client expectations. I appreciate your consideration in retaining our services and hope to have an opportunity to work with you in the future.

Best Regards,

Wendi Brown | Founder/President, WBCP, INC.

WHY CHOOSE WBCP

Proven Expertise:

- **Over 20 Years in Business and 100+ Years of Experience:** With over a century of combined experience, our recruitment professionals excel in public service sectors, including cities, counties, utilities, special districts, joint powers authorities, and non-profits. Our proven track record ensures expertise tailored to your needs.

- **100% Success Rate:** In 2024, we achieved a 100% success rate, successfully filling every position we managed including partial and full scope services from engineering, planning, finance, health and human services, legal, legislative, hard-to-fill civil service positions, and many more! We deliver results no matter what the challenge.

Employer Recognition: WBCP has been recognized as Oregon's TOP 100 EMPLOYERS.

HR Teams Trust Us: We simplify the recruitment process, managing every detail so HR teams can focus on other priorities. From sourcing candidates to scheduling interviews and providing updates, our seamless approach saves time, reduces stress, and ensures results.

Strategic Marketing and Advertising: Our marketing team designs targeted campaigns using diverse, cost-effective channels powered by AI. These campaigns maximize reach while staying within budget and include:

- Diverse Applicant Pools: Access to over 600 diversity-focused job boards, 15,000 diversity affiliations, and 120 million resumes ensures diversity is integral to our process.
- LinkedIn Recruiter Expertise: With access to 230 million U.S. profiles, we connect you with top-tier talent.
- AI-Driven Talent Acquisition: Advanced AI strategies enhance efficiency and uncover new candidate engagement opportunities.

Trusted Partners and Culture Cultivators: We go beyond finding candidates by building trust with your team and stakeholders. Our tailored strategies align top talent with your organizational culture, ensuring a collaborative and thoughtful recruitment process.

Recruiting with Competencies: Ensures a fair, measurable, and effective hiring process. This strategic approach helps identify the client's needs and then assesses candidates on the critical skills and behaviors for success.

Benefits:

- Fairness: Focuses on role-specific competencies.
- Measurability: Provides objective evaluation criteria.
- Better Matches: Aligns talent with organizational and cultural needs.
- Equitable: Reduces bias with standardized assessments.

Recruiting with competencies delivers high-quality, measurable solutions that ensure the best candidates for your team's success and cultural alignment.

Timely and effective background and Reference Checks: WBCP partners with a trusted third party for thorough background checks and relies on a 30-year public safety veteran, retired as a police chief, and an expert in employee investigations, to conduct expert reference verifications. This ensures accuracy, professionalism, and confidence in every hiring decision.

WBCP STATISTICS

WBCP is a 100% woman-owned business. Staff and consultants are a diverse mix of gender/ethnicity
Age ranges from 24 - 70+

IV. WBCP KEY STAFF

WENDI BROWN
Lead Consultant/ Sr. Executive Recruiter

I am the President of WBCP, with over 20 years of experience in marketing and advertising and combine this with my background in recruiting to successfully place hard-to-fill, management, and executive positions. My team and I are passionate about helping organizations improve their recruitment services, place great talent, conduct department assessments, redesign antiquated processes, revise job descriptions, conduct salary and benchmark studies, and more. I have worked in various industries – advertising and public relations, national real estate franchisor, global manufacturing – and I have worked with nonprofit and public sector organizations since 1999. Formerly, I was an internal Human Resources Consultant for the County of Orange, California, providing countywide communications, human resources, executive search, and recruiter training services to the Assistant Chief Executive Office/Human Resources Director and, at that time, 25 decentralized departments, with 17,000 employees, serving a community of 300,000. I have a Bachelor's of Science in Business Administration with an emphasis in Marketing from Colorado Technical University; have earned several certificates in Project Management, Global Business, Marketing, and Human Resources; and working toward a Master's in Management at Southern Oregon University

RICHARD KUHNS
Vice President of Recruiting & Culture

Richard Kuhns is a retired County Administrative Officer with over 28 years of experience in the Public Sector. He is currently the VP of Recruiting and Organizational Culture for WBPC. Richard began his career in Law Enforcement, transferring his focus to Administration where he served as the Director of Housing and Community Action, Behavioral Health, General Services, and Solid Waste. Richard has a "find a way, to find a way" mentality. With his vast knowledge and experience in the Public Sector he has an intuitive understanding of working with government leaders, policy makers, and the public. Richard achieved a Bachelor of Science in Business Management, a Master of Arts in Behavioral Science with an emphasis in Conflict Resolution and Negotiations, and a Doctorate in Clinical Psychology. For the past three years Richard has worked as an Executive Recruiter and Behavioral Health Consultant. As a Consultant, he worked with several Northern California Counties creating and implementing the newly state mandated 24/7 Mobile Crisis. He has now focused his time and efforts on assisting WBCP clients in finding and securing the top candidate for your organization.

IV. WBCP KEY STAFF

TERRI MAUS-NISICH
Sr. Executive Recruiter

Terri Maus-Nisich holds a pivotal role as one of our Senior Executive Recruiters, leveraging her extensive background as a distinguished leader in local government. With a local government career spanning over 40 years, Terri's journey includes transformative roles within the County of Santa Barbara, where she ascended from Parks Director to Assistant County Executive Officer, overseeing vital municipal and health/human service departments. Her remarkable impact encompasses leadership in Homeless Services, Communications, and Emergency Management, driving community engagement, disaster recovery, and support for vulnerable populations. Before her tenure in Santa Barbara, Terri spent 15 years with the City of Santa Clarita in roles ranging from analyst to Deputy City Manager. Throughout her remarkable career, Terri prioritized strategic planning, organizational development, and innovative problem-solving, garnering numerous awards. She holds a Bachelor's Degree from UC Santa Barbara, a Masters of Public Administration from Cal State Northridge, and a graduate certificate from Harvard University's JFK School of Government.

LAUREN GERSON
Executive Recruiter

Lauren Gerson is a seasoned Executive Recruiter at WBCP, where she draws on over 15 years of experience in career services, customer relations, and operations. Her recruiting expertise extends across various industries, with notable success in health and human services, utilities, and finance. Lauren has helped organizations across multiple states fill hard-to-hire positions at every level, from individual contributors to executives. Lauren's diverse professional journey began in operations and events management, where she honed her expertise in human resources, business management, and regulatory compliance. She later transitioned to career services, and prior to joining WBCP, worked with a career coaching company helping job-seekers better leverage their skills and overcome barriers to employment. Lauren holds a Bachelor's degree in Philosophy from Whittier College. She brings a unique perspective to her role, and is committed to making a positive impact both professionally and personally. With her unwavering dedication and client-centric focus, Lauren continues to drive success and excellence in executive recruitment at WBCP.

IV. WBCP KEY STAFF

LEVI KUHLMAN
Executive Recruiter

Levi Kuhlman is an Executive Recruiter at WBCP, and an experienced professional with a multifaceted career spanning across executive recruitment, real estate, and entrepreneurship. He has worked extensively with local municipalities, special districts, and not-for-profit organizations across the Western region, with a focus in California, Oregon, and Idaho. Levi has conducted many successful recruitments in various industries including planning, rent stabilization and housing, engineering, finance, city management, transportation and transit, community development, building and safety, public safety, risk management, and information technology. Levi serves as a skilled and diplomatic liaison, earning a reputation for his personalized approach to recruiting. Before joining the ranks of WBCP, he advocated on behalf of tenants, landlord, and clients. With a diverse skill set and a commitment to excellence, Levi continues to make significant contributions to WBCP, his clients, and broadening the professional community one recruitment at a time.

V. RECRUITMENT STRATEGY / PHASES.....

WBCP knows how to customize your search strategy to meet your unique recruitment needs. We customize your recruitment based on the specific needs, target audience, and challenges for each recruitment; however, below is a baseline approach for most recruitments.

CLIENT & STAKEHOLDER MEETINGS

We require the Client and/or Search Committee, and other stakeholders identified by the Client, be involved in the initial and final phases of this recruitment. These are critical phases to ensure we obtain a clear sense of the priorities and the successful hire of the right candidate. WBCP will meet with various stakeholders as warranted by the Client and the level of the position in the organization. These meetings will allow us an opportunity to gather information and gain knowledge about the organization, community, and unique aspects of the recruitment to design the ideal candidate professional profile, advertising materials, and strategic approach

FEEDBACK OUTCOME / TIMELINE DEVELOPMENT

Following the Client/stakeholder meetings, we will develop a detailed timeline for the recruitment along with a proposed advertising plan for approval.

CREATIVE DEVELOPMENT

Immediately following the client feedback activities, we will draft the competencies for the recruitment and advertising material/recruitment brochure for the Client's review. This information will summarize what was learned from Client-related interviews and will be used to advertise the opening.

MARKETING STRATEGY & IMPLEMENTATION

WBCP will execute a customized marketing/ad plan once the job announcement is created. An ad plan could include the following (based on assumptions), and will be customized based on information gathered in Phase I:

DIGITAL ADVERTISING WITH DIVERSITY IN MIND

WBCP utilizes digital advertising to obtain diverse applicant pools, leveraging local and national job boards, associations, and social media. In partnership with a diversity platform, our postings reach up to 600 local employment and diversity websites, connecting across 15,000+ community organizations and niche sites, tapping into a job bank of 2 million resumes. Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.

EMAIL & DIRECT MAIL ADVERTISING

In addition to tapping into WBCP's existing pool of potential applicants, we have the capability to access various professional lists. We actively seek out additional lists through associations, contacts, and other strategic channels.

SOURCING/HEADHUNTING

WBCP employs a proactive approach by reaching out to targeted individuals and cultivating new connections through referrals from reputable sources. As a LinkedIn recruiter, we harness the power of over 350 million profiles to identify and engage with ideal candidates. Additionally, WBCP utilizes cutting-edge AI tools for precise Boolean searches, enabling us to uncover niche candidates effectively.

COMMUNICATION WITH CLIENT

We will provide weekly updates on the progress of this search unless the client prefers more or less frequent communications. We tailor our communications in accordance with our Client's needs.

VI. SCOPE OF WORK

- Facilitate initial kick-off meeting with Client and other meetings that may include Executive Leadership, staff, community, and other stakeholders to assist with identifying the ideal candidate profile.
- Assist Client hiring authority/stakeholders in modifying the job description (as needed), and develop a recruitment announcement, marketing materials, and advertising plan for the recruitment.
- Attend all other meetings and engagements as needed or identified by the Client.
- Implement advertising plan including: publication, sourcing/headhunting, direct mail, and other online and email marketing efforts.
- Provide timely updates and progress reports to the client regarding search services; every two weeks or as Client identifies is needed.

VII. RECRUITMENT TIMELINE

BELOW IS A SAMPLE OF AN EXECUTIVE SEARCH TIMELINE THAT WBCP WILL CUSTOMIZE FOR THIS RECRUITMENT

Week 1:

- Secure services with search firm, WBCP, Inc.
- WBCP: review search parameters and recruiting processes with Client
  - Interview with hiring authority and other stakeholders for competencies
  - Identification of advertising venues and ideal candidate prospects
  - Calls, meetings, or coordination with other stakeholders for information gathering

Weeks 1 + 2:

- Develop and approvals: recruitment process, deadlines, ad plan and strategy, recruitment timeline and brochure
- Print coordination (if applicable)

Weeks 2 + 3:

- **OPEN RECRUITMENT AND AD PLAN:** Implement marketing plan and direct mail (if applicable)
- Timeline may be extended if direct mail piece is included (i.e., print/postage)

Weeks 4, 5, + 6:

- Receive applications – WBCP may receive applications (if using our applicant tracking system) and/or receive updates from clients on the results of the recruitment.

Weeks 7 + 8:

- **CLOSE RECRUITMENT AND ADVERTISING**

X. COST SHEET / TIMELINE POLICY.....

WBCP will not limit the number of hours we work on a recruitment, rather we charge a flat rate and will spend the time necessary to ensure we are successful. Consulting fees will be billed once the position is open for applications and the advertising campaign has been launched.

SERVICE COST FOR 2 RECRUITMENTS

ENGINEERING ASSISTANT, ASSOCIATE CIVIL ENGINEER OR SENIOR CIVIL ENGINEER (2 VACANCIES)

Description of Services/Deliverables:	Inclusive Rate per Recruitment:
Consulting Services: Phases I-II in the proposal's recruitment strategy/phases section.	Position 1: $5,900 +Position 2: $5,900 =**$11,800 (flat rate)**
Expenses Include: Document shipping fees/delivery charges to facilitate virtual meetings; brochure/graphic design ($950); marketing and advertising which may include: print and postage (if applicable); online job boards; social media; sourcing; and may include flat fee pricing for: LinkedIn $395, InMails $300, Circa Diversity Job Boards $295, Zoom Info $299. These expenses will be billed based on what is expended and based on the needs of the client/recruitment.	Position 1: Up to $4,500 + Position 2: Up to $4,500 = **$9,000** -*$1,000 discount Up to $8,000 (direct expenses not-to-exceed)

*This discount is offered exclusively for a combined recruitment.

Cost and Timeline Policy

To ensure the success and efficiency of our recruitment services, the following policies regarding cost and timelines are in place:

1. **Timeline Development:** Timelines provided to our clients are valid for **10 business days**. If a timeline is not secured or confirmed within this period, it may no longer be available. In such cases, the timeline may be reassigned to another client, and a revised timeline will be provided.

These policies ensure clarity, fairness, and high-quality outcomes for all parties involved.

XI. OTHER

INSURANCE

WBCP and its sub-consultants have reviewed the contractual agreement and the Insurance Requirements. If selected, WBCP will execute said agreement and will provide the required insurance documents. WBCP will submit certificates of insurance as evidence of the required coverage limits. Insurance policies include: liability, errors and omissions, workers compensation, and vehicle insurance.

CONFIDENTIALITY SAFEGUARDS

Confidentiality is paramount in the work we do. We ensure that the client and candidate information we receive, and conversations with our client (and certainly discussions in closed session) are kept confidential. There are several physical safeguards we have in place including: locked and alarmed office space, password, and encryption protected information on our computers and servers, multiple backup systems. As information is shared with our client, we discuss the importance of confidentiality and why it is important to the candidates they are considering but also brands the organization appropriately. We also ask candidates who are interviewed to keep candidate information confidential, as they may see or meet a candidate during the process. We emphasize that confidentiality is not just until the recruitment is completed, and a candidate is hired, confidentiality is in perpetuity. Leaked information is not a reputation that a client wants to receive, as this could deter future applicants from applying.

ORGANIZATIONAL DIVERSITY STATEMENT

WBCP embraces cross-cultural diversity and we are committed to equitable treatment and elimination of discrimination in all its forms at all organizational levels and throughout all consulting practices, including search services. We strive to reach diverse groups of people to inform them of leadership opportunities. **Upon our 2024 year-end review, we found that over the last three years 63% of our placed candidates came from diverse backgrounds.** We will make extensive efforts to attract a qualified applicant pool that represents a broad range of gender and ethnically diverse individuals.

Administering Agency:

Contract No. _____

Contract Description: **Recruitment Services for Public Affairs Manager**

PROFESSIONAL SERVICES CONTRACT

THIS PROFESSIONAL SERVICES CONTRACT ("Contract") is made at South Pasadena, California, as of April 21,2025, by and between the City of South Pasadena ("Client"), and WBCP Inc. ("Contractor") (together, "Parties", individual "Party"), who agree as follows:

1. **Services** Subject to the terms and conditions set forth in this Contract, Contractor shall provide the services described in Exhibit A. Contractor shall provide said services at the time, place, and in the manner specified in Exhibit A.

2. **Payment** Client shall pay Contractor for services rendered pursuant to this Contract at the time and in the amount set forth in Exhibit B. The payments specified in Exhibit B shall be the only payment made to Contractor for services rendered pursuant to this Contract. Contractor shall submit invoices in thirds after key milestones are conducted: after the recruitment advertising is live, after the shortlist, and after background and references are conducted.. **The amount of the contract shall not exceed $15,400.**

3. **Term** This Contract shall commence on April 21, 2025 All services required to be provided by this Contract shall be completed and ready for acceptance no later than the **Contract Termination Date** of: June 30, 2025.

4. **Facilities, Equipment and Other Materials** Contractor shall, at its sole cost and expense, furnish all facilities, equipment, and other materials which may be required for furnishing services pursuant to this Contract.

5. **Exhibits** All exhibits referred to herein and attached hereto are incorporated herein by this reference.

6. **Electronic Signatures** The Parties acknowledge and agree that this Contract may be executed by electronic signature, which shall be considered as an original signature for all purposes and shall have the same force and effect as an original signature. Without limitation, "electronic signature" shall include faxed or emailed versions of an original signature or electronically scanned and transmitted versions (e.g., via pdf) of an original signature.

7. **Time for Performance** Time is of the essence. Failure of Contractor to perform any services within the time limits set forth in Exhibit A, or elsewhere in this Contract, shall constitute material breach of this contract. Contractor shall devote such time to the performance of services pursuant to this Contract as may be reasonably necessary for the satisfactory performance of Contractor's obligations pursuant to this Contract. Neither Party shall be considered in default of this Contract to the extent performance is prevented or delayed by any cause, present or future, which is beyond the reasonable control of the Party.

8. **Liquidated Damages**

Liquidated Damages are presented as an estimate of an intangible loss to the Client. It is a provision that allows for the payment of a specified sum should Contractor be in breach of contract. Liquidated Damages ☐**shall apply** ☒**shall not apply** to this contract. Liquidated Damages applicable to this contract are incorporated in Exhibit E, attached hereto.

9. **Relationship of Parties**

A. **Independent Contractor**

In providing services herein, Contractor, and the agents and employees thereof, shall work in an independent capacity and as an independent contractor and not as agents or employees of Client. Contractor acknowledges that it customarily engages independently in the trade, occupation, or business as that involved in the work required herein. Further, the Parties agree that Contractor shall perform the work required herein free from the control and direction of Client, and that the nature of the work is outside the usual course of Client's business. In performing the work required herein, Contractor shall not be entitled to any employment benefits, Workers' Compensation, or other programs afforded to Client employees. Contractor shall hold Client harmless and indemnify Client against such claim by its agents or employees. Client makes no representation as to the effect of this independent contractor relationship on Contractor's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Contractor specifically assumes the responsibility for making such determination. Contractor shall be responsible for all reports and obligations including but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, workers' compensation and other applicable federal and state taxes.

B. **No Agent Authority** Contractor shall have no power to incur any debt, obligation, or liability on behalf of Client or otherwise to act on behalf of Client as an agent. Neither Client nor any of its agents shall have control over the conduct of Contractor or any of Contractor's employees, except as set forth in this Contract. Contractor shall not represent that it is, or that any of its agents or employees are, in any manner employees of Client.

C. **Indemnification of CalPERS Determination** In the event that Contractor or any employee, agent, or subcontractor of Contractor providing service under this Contract is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of Client, Contractor shall indemnify, defend, and hold harmless Client for all payments on behalf of Contractor or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of Client.

10. **Assignment and Subcontracting** Except as specifically provided herein, the rights, responsibilities, duties and services to be performed under this Contract are personal to Contractor and may not be transferred, subcontracted, or assigned without the prior written consent of Client. Contractor shall not substitute or replace any personnel for those specifically named herein or in its proposal without the prior written consent of Client.

Contractor shall cause and require each transferee, subcontractor, and assignee to comply with the insurance provisions set forth herein, to the extent such insurance provisions are required of Contractor under this Contract. Failure of Contractor to so cause and require such compliance by each transferee, subcontractor, and assignee shall constitute a material breach of this Contract, and, in addition to any other remedy available at law or otherwise, shall serve as a basis upon which Client may elect to suspend payments hereunder, or terminate this Contract, or both.

Docusign Envelope ID: AFD49F62-4631-454D-9936-DC35F8E7B940

11. **Licenses, Permits, Etc.** Contractor represents and warrants to Client that Contractor shall, at its sole cost and expense, obtain or keep in effect at all times during the term of this Contract, any licenses, permits, and approvals which are legally required for Contractor to practice its profession at the time the services are performed.

12. **Mutual Indemnification**

Each party (the "Indemnifying Party") agrees to indemnify, defend, and hold harmless the other party, its officers, agents, employees, and assigns (collectively, the "Indemnified Party") from and against any and all claims, demands, liabilities, judgments, awards, losses, damages, costs, expenses (including reasonable attorneys' fees and court costs), or other claims (collectively, "Claims") arising out of or resulting from:

For Contractor: WBCP's performance of recruitment services under this Agreement, but only to the extent such Claims are caused by the negligence, willful misconduct, or breach of contractual obligations by WBCP or its employees, agents, or subcontractors.

For the Client: The Client's actions, omissions, or decisions under this Agreement, but only to the extent such Claims are caused by the negligence, willful misconduct, or breach of contractual obligations by the Client or its employees, officers, agents, or representatives.

In the event of concurrent negligence or fault of both parties, the Indemnifying Party's obligation shall be limited to its proportionate share of fault as determined by a court of competent jurisdiction or mutually agreed upon by the parties.

Intellectual Property Claims. Contractor shall also indemnify the Client for any claims that work performed under this Agreement infringes upon any third-party intellectual property rights. If such work is found to infringe, Contractor shall, at its own expense, (i) procure the right for the Client to use the work, or (ii) replace it with a noninfringing equivalent, satisfactory to the Client.

Control of Defense. Each party shall have the right to participate in or assume the defense of any claim at its own expense. The Indemnifying Party shall not settle any claim without the prior written consent of the Indemnified Party, which shall not be unreasonably withheld.

1. **Standard of Performance** Contractor shall perform all services required pursuant to this Contract in the manner and according to the standards observed by a competent practitioner of the profession in which Contractor is engaged in the geographical area in which Contractor practices its profession. All products of whatsoever nature which Contractor delivers to Client pursuant to this Contract shall be prepared in a substantial first class and workmanlike manner and conform to the standards or quality normally observed by a person practicing in Contractor's profession.

2. **Prevailing Wage and Apprentices** To the extent made applicable by law, performance of this Contract shall be in conformity with the provisions of California Labor Code, Division 2, Part 7, Chapter 1, commencing with section 1720 relating to prevailing wages which must be paid to workers employed on a public work as defined in Labor Code section 1720, et seq., and shall be in conformity with Title 8 of the California Code of Regulations section 200 et seq., relating to apprenticeship. Where applicable:
    - Contractor shall comply with the provisions thereof at the commencement of services to be provided herein, and thereafter during the term of this Contract. A breach of the requirements of this section shall be deemed a material breach of this contract. Applicable

Docusign Envelope ID: AFD49F62-4631-454D-9936-DC35F8E7B940

prevailing wage determinations are available on the California Department of Industrial Relations website at http://www.dir.ca.gov/OPRL/PWD.

- Contractor and all subcontractors must comply with the requirements of Labor Code section 1771.1(a) pertaining to registration of contractors pursuant to section 1725.5. Registration and all related requirements of those sections must be maintained throughout the performance of the Contract.
- Contracts to which prevailing wage requirements apply are subject to compliance monitoring and enforcement by the Department of Industrial Relations. Contractor and each subcontractor must furnish certified payroll records to the Labor Commissioner at least monthly.
- Client is required to provide notice to the Department of Industrial Relations of any public work contract subject to prevailing wages within five (5) days of award.

3. **Accessibility** It is the policy of Client that all Client services, programs, meetings, activities and facilities shall be accessible to all persons, and shall comply with the provisions of the Americans With Disabilities Act and Title 24, California Code of Regulations. To the extent this Contract shall call for Contractor to provide Client contracted services directly to the public, Contractor shall certify that said direct services are and shall be accessible to all persons.

4. **Nondiscriminatory Employment** Contractor shall not discriminate in its employment practices because of race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, sex or sexual orientation, or any other legally protected category, in contravention of the California Fair Employment and Housing Act, Government Code section 12900 et seq.

5. **Drug-Free Workplace** Senate Bill 1120, (Chapter 1170, Statutes of 1990), requires recipients of State grants to maintain a "drug-free workplace". Every person or organization awarded a contract for the procurement of any property or services shall certify as required under Government Code Section 8355-8357 that it will provide a drug-free workplace.

6. **Political Activities** Contractor shall in no instance expend funds or use resources derived from this Contract on any political activities.

7. **Financial, Statistical and Contract-Related Records:**

A. **Books and Records** Contractor shall maintain statistical records and submit reports as required by Client. Contractor shall also maintain accounting and administrative books and records, program procedures and documentation relating to licensure and accreditation as they pertain to this Contract. All such financial, statistical and contract- related records shall be retained for five (5) years or until program review findings and/or audit findings are resolved, whichever is later. Such records shall include but not be limited to bids and all supporting documents, original entry books, canceled checks, receipts, invoices, payroll records, including subsistence, travel and field expenses, together with a general ledger itemizing all debits and credits.

B. **Inspection** Upon reasonable advance notice and during normal business hours or at such other times as may be agreed upon, Contractor shall make all of its books and records, including general business records, available for inspection, examination or copying, to Client, or to the State Department of Health Care Services, the Federal Department of Health and Human Services, the Controller General of the United States and to all other authorized federal and state agencies, or their duly authorized representatives.

Docusign Envelope ID: AFD49F62-4631-454D-9936-DC35F8E7B940

C. **Audit** Contractor shall permit the aforesaid agencies or their duly authorized representatives to audit all books, accounts or records relating to this Contract, and all books, accounts or records of any business entities controlled by Contractor who participated in this Contract in any way. All such records shall be available for inspection by auditors designated by County or State, at reasonable times during normal business hours. Any audit may be conducted on Contractor's premises or, at Client's option, Contractor shall provide all books and records within fifteen (15) days upon delivery of written notice from Client. Contractor shall promptly refund any moneys erroneously charged..

8. **Termination**

A. A material breach, as defined pursuant to the terms of this Contract or otherwise, in addition to any other remedy available at law or otherwise, shall serve as a basis upon which Client may elect to immediately suspend payments hereunder, or terminate this Contract, or both, without notice.

B. If Contractor fails to timely provide in any manner the services materials and products required under this Contract, or otherwise fails to promptly comply with the terms of this Contract, or violates any ordinance, regulation or other law which applies to its performance herein, Client may terminate this Contract by giving **five (5) calendar days written notice to Contractor.**

C. Either Party may terminate this Contract for any reason, or without cause, by giving **thirty (30) calendar days written notice** to the other, which notice shall be sent by registered mail in conformity with the notice provisions, below. In the event of termination not the fault of Contractor, Contractor shall be paid for services performed to the date of termination in accordance with the terms of this Contract. Contractor shall be excused for failure to perform services herein if such performance is prevented by acts of God, strikes, labor disputes or other forces over which Contractor has no control.

D. Client, upon giving **thirty (30) calendar days written notice** to Contractor, shall have the right to terminate its obligations under this Contract at the end of any fiscal year if Client or the State of California, as the case may be, does not appropriate funds sufficient to discharge Client's obligations coming due under this contract.

In the event this Contract is terminated:

A. Contractor shall deliver copies of all writings prepared by it pursuant to this Contract. The term "writings" shall be construed to mean and include: handwriting, typewriting, printing, photostatting, photographing, and every other means of recording upon any tangible thing any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combinations thereof.

B. Client shall have full ownership and control of all such writings delivered by Contractor pursuant to this Contract.

C. Client shall pay Contractor the reasonable value of services rendered by Contractor to the date of termination pursuant to this Contract not to exceed the amount documented by Contractor and approved by Client as work accomplished to date; provided, however, that in no event shall any payment hereunder exceed the amount of the Contract specified in Exhibit B, and further provided, however, Client shall not in any manner be liable for lost profits which might have been made by Contractor had Contractor completed the services required by this Contract. In this regard, Contractor shall furnish to Client such financial information as in the judgment of Client is necessary to determine the reasonable value of the services rendered by Contractor. The foregoing is cumulative and does not affect any right or remedy, which Client may have in law or equity.

Intellectual Property Contractor will not publish or transfer any materials produced or resulting from activities supported by this Contract without the express written consent of Client. All reports, original drawings, graphics, plans, studies and other data and documents, in whatever form or format, assembled or prepared by Contactor or Contractor's subcontractors, consultants, and other agents in connection with this Contract are "works made for hire" (as defined in the Copyright Act, 17 U.S.C. Section 101 et seq., as amended) for Client, and Contractor unconditionally and irrevocably transfers and assigns to Client all right, title, and interest, including all copyrights and other intellectual property rights, in or to the 'works made for hire." Unless required by law, Contractor shall not publish, transfer, discuss, or disclose any of the above-described works made for hire or any information gathered, discovered, or generated in any way through this Contract, without Client's prior express written consent. To the extent Client provides any of its own original photographs, diagrams, plans, documents, information, reports, computer code and all recordable media together with all copyright interests thereto, to Contractor during this Contract, such information shall remain the property of Client, and upon fifteen (15) days demand therefor, shall be promptly delivered to Client without exception.

9. **Waiver** One or more waivers by one Party of any major or minor breach or default of any provision, term, condition, or covenant of this Contract shall not operate as a waiver of any subsequent breach or default by the other Party.

10. **Conflict of Interest** Contractor certifies that no official or employee of Client, nor any business entity in which an official of Client has an interest, has been employed or retained to solicit or aid in the procuring of this Contract. In addition, Contractor agrees that no such person will be employed in the performance of this Contract unless first agreed to in writing by Client. This includes prior Client employment in accordance with Clients's Personnel Code.

11. **Entirety of Contract** This Contract contains the entire Contract of Client and Contractor with respect to the subject matter hereof, and no other contract, statement, or promise made by any Party, or to any employee, officer or agent of any Party, which is not contained in this Contract, shall be binding or valid.

12. **Alteration** No waiver, alteration, modification, or termination of this Contract shall be valid unless made in writing and signed by all Parties, except as expressly provided in Section 20, Termination.

13. **Governing Law and Venue** This Contract is executed and intended to be performed in the State of California, and the laws of that State shall govern its interpretation and effect. The venue for any legal proceedings regarding this Contract shall be the City of South Pasadena, State of California. Each Party waives any federal court removal and/or original jurisdiction rights it may have.

14. **Compliance with Applicable Laws** Contractor and any subcontractors shall comply with any and all federal, state and local laws, codes, ordinances, rules and regulations which relate to, concern of affect the services or type of services to be provided by this Contract.

15. **Additional Contractor Responsibilities**
    A. To the extent Contractor is a mandated reporter of suspected child and/or dependent adult abuse and neglect, it shall ensure that its employees, agents, volunteers, subcontractors, and independent contractors are made aware of, understand, and comply with all reporting requirements. Contractor shall immediately notify Client of any incident or condition resulting in injury, harm, or risk of harm to any child or dependent adult served under this Contract.
    B. Contractor will immediately notify Client of any active complaints, lawsuits, licensing or regulatory investigations, reports of fraud or malfeasance, or criminal investigations regarding

Docusign Envelope ID: AFD49F62-4631-454D-9936-DC35F8E7B940

its operations. Contractor agrees to work cooperatively with Client in response to any investigation commenced by Client with regard to this Contract or the clients served herein, including providing any/all records requested by Client related thereto.

C. Contractor shall employ reasonable background check procedures on all employees, prospective employees, volunteers and consultants performing work involving direct contact with minor children or dependent adults under this Contract, including fingerprinting and criminal records checks, sexual offender registry checks, and reference checks, including both personal and professional references.

16. **Confidentiality** Contractor, its employees, agents and or subcontractors may come in contact with documents that contain information regarding matters that must be kept confidential by Client, including personally identifiable patient or client information. Even information that might not be considered confidential for the usual reasons of protecting non-public records should be considered by Contractor to be confidential.

Contractor agrees to maintain confidentiality of information and records as required by applicable federal, state, and local laws, regulations and rules and recognized standards of professional practice.

Notwithstanding any other provision of this Contract, Contractor agrees to protect the confidentiality of any confidential information with which Contractor may come into contact in the process of performing its contracted services. This information includes but is not limited to all written, oral, visual and printed patient or client information, including but not limited to: names, addresses, social security numbers, date of birth, driver's license number, case numbers, services provided, social and economic conditions or circumstances, agency evaluation of personal information, and medical data.

Contractor shall not retain, copy, use, or disclose this information in any manner for any purpose that is not specifically permitted by this Contract. Violation of the confidentiality of patient or client information may, at the option of Client, be considered a material breach of this Contract.

17. **Notification** Any notice or demand desired or required to be given hereunder shall be in writing and deemed given when personally delivered or deposited in the mail, postage prepaid, and addressed to the Parties as follows:

Name: Todd Hileman
Address: 1414 Mission Street
City, St, Zip: South Pasadena, CA 91030

INSURANCE REQUIREMENTS

Insurance. Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by Contractor, its agents, representatives, or employees. Coverage shall be at least as broad as:

1. **Commercial General Liability CGL:** Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **$2,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than **$1,000,000** per accident for bodily injury and property damage. The Automobile Liability policy shall be endorsed to include Transportation Pollution Liability insurance MCS-90, covering materials to be transported by Contractor pursuant to the contract.
3. **Workers' Compensation:** Insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than **$1,000,000** per accident for bodily injury or disease.

4. If Contractor maintains broader coverage and/or higher limits than the minimums shown above, Client requires and shall be entitled to the broader coverage and/or the higher limits maintained by Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to Client.

City Council Agenda Report

ITEM NO. 10

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: William Castrillon, Budget and Purchasing Manager

SUBJECT: **CONSIDERATION OF ADOPTION OF A RESOLUTION AUTHORIZING SIGNATORIES ON CITY BANKING ACCOUNTS AND RELATED BANKING DOCUMENTS AND ADOPTION OF A RESOLUTION AUTHORIZING SIGNATORIES ON THE CITY'S LOCAL AGENCY INVESTMENT FUND ACCOUNT**

Recommendation

It is recommended that the City Council consider:

1. Adopting the proposed resolution authorizing signatures on the City's bank accounts; and
2. Adopting the proposed resolution authorizing signatures on the City's Local Agency Investment Fund (LAIF) account.

Background

Periodically, as staff leaves City employment and/or new staff are hired, the City Council is asked to adopt a resolution authorizing staff to access city-owned bank and investment accounts is to formally designate specific city employees with the legal authority to manage, access, and conduct transactions on behalf of the city. This resolution ensures transparency, accountability, and compliance with financial regulations by clearly identifying who is authorized to handle public funds. It also provides financial institutions with official documentation required to grant access and process transactions, helping to safeguard the city's assets and reduce the risk of unauthorized access or fraud.

Analysis

By adopting the attached resolution, the City Council gives authority and permission to add, Nick Kimball, Assistant City Manager/ Chief Financial Officer, signatory authority and authorization authority for the City of South Pasadena's (City) bank accounts, Local Agency Investment Fund (LAIF) and related banking documentation, in addition to the currently authorized individuals. As of today, the Budget and Purchasing Manager and Assistant to the City Manager, have such authority, along with the Mayor and City Treasurer. With the recent onboarding of the Assistant City Manager/ Chief Financial Officer, another signatory needs to be added. The new resolutions will update the signatory and authorized representatives to reflect new staff. The bank requires action from the City Council to document approval of these changes.

Fiscal Impact
There is no fiscal impact associated with adoption of these resolutions.

Public Notification
The public was made aware that this item by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on the City's website.

RESOLUTION NO.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, AUTHORIZING INVESTMENT OF MONIES IN THE LOCAL AGENCY INVESTMENT FUND

WHEREAS, Pursuant to California Government Code, Chapter 730 of the statutes of 1976 Section 16429.1 was added to create a Local Agency Investment Fund in the State Treasury for the deposit of money of a local agency for purposes of investment by the State Treasurer; and

WHEREAS, the City of South Pasadena does hereby find that the deposit and withdrawal of money of the Local Agency Investment Fund in accordance with the provisions of Government Code Section 16429.1 for the purpose of investment as stated therein as in the best interests of the City of South Pasadena.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council does hereby authorize the deposit and withdrawal of the City of South Pasadena monies in the Local Agency Investment Fund in the State Treasury in accordance with the provisions of Government Code Section 16429.1 for the purpose of investment as stated therein, and verification by the State Treasurer's Office of all banking information provided in that regard.

SECTION 2. The following City of South Pasadena Officers or their successors in Office shall be authorized to order the deposit or withdrawal of monies in the Local Agency Investment Fund:

Assistant City Manager/ Chief Financial Officer	Nick Kimball
Budget and Finance Manager	William Castrillon
Assistant to the City Manager	Alma Medina
City Treasurer	Zhen Tao

SECTION 3. The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

City Council Agenda Report

ITEM NO. 11

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Roxanne Diaz, City Attorney

SUBJECT: **CONSIDERATION OF ENTERING INTO AND APPROVING THE EXECUTION OF PURCHASE AND SALE AGREEMENTS WITH THE STATE OF CALIFORNIA, DEPARTMENT OF TRANSPORTATION FOR THE PURCHASE OF TWELVE SR 710 SURPLUS RESIDENTIAL PROPERTIES LOCATED IN THE CITY OF SOUTH PASADENA AND AUTHORIZE THE CITY MANAGER TO TAKE ALL NECESSARY ACTIONS RELATED THERETO**

Recommendation

It is recommended that the City Council consider entering into and approving the execution of purchase and sale agreements with the State of California, Department of Transportation for the purchase of 12 unoccupied properties in the form negotiated and finalized by the City Attorney and the City Manager, and authorize the City Manager to execute the purchase and sale agreements and take all actions necessary thereto for the purchase, including but not limited to, the opening of escrow and the payment of the deposit required under the agreements.

Background

In July 2022, the City transmitted to Caltrans a letter of interest to purchase certain surplus properties from Caltrans. At that time, the purchase process was governed by certain legislation commonly known as SB 381.

SB 381 provided that the City could purchase certain vacant historic surplus properties at the acquisition price paid by Caltrans and then sell them in their “as is” condition at fair market value. Under SB 381, all the proceeds from the sales are to be used for the development of affordable housing at a ratio of three affordable units to every one property purchased. Accordingly, in September 2024, the City completed the purchase of five historic properties from Caltrans. Thereafter, in conjunction with the City’s real estate broker, Dave Knight and Associates, the properties were marketed for sale and escrow closed on all five properties in December 2024.

SB 381, however, treated vacant non-historic surplus properties differently. While the City was able to purchase the properties at the acquisition price paid by Caltrans, the properties were required to be rehabilitated by the City at the City’s cost and then rented or sold at an affordable price. The issue, however, was that the acquisition cost coupled with the estimated rehabilitation costs made it economically infeasible not only to rehabilitate the property but more importantly to sell or rent the properties at an affordable price. Therefore, the City sought

a legislative solution and Assembly Bill 1038, sponsored by Assemblymember Mike Fong, and supported by then Senator Anthony Portantino, was signed into law on September 22, 2024 (“AB 1038”).

AB 1038 removed the distinction between historic and non-historic properties and now under newly enacted Government Code Section 54239.6, the City is authorized to sell all unoccupied property it purchases from Caltrans to market-rate buyers and use the proceeds for the creation of affordable housing at the previous ratio of three affordable units for every one property purchased. This is the identical process the legislature provided for the City of Pasadena.

The City can now move forward with the purchase of all but one of the remaining properties offered to the City, of which there are thirteen in total. Of those thirteen, one property located on Glendon Way was the subject of litigation. While that litigation was resolved, there remains a lis pendens recorded on the property, which has delayed its sale to the City. A lis pendens is a public notice that a property has a pending lawsuit attached to it. Accordingly, there are twelve properties currently being offered to the City.

Analysis

As state above, the City can move forward with the purchase of twelve surplus properties from Caltrans under AB 1038. The sales price for these properties is the original acquisition price with no adjustment for inflation as show in the table below (collectively "Surplus Properties"):

Property Address	Purchase Price
1131 Columbia (historic)	$62,500
215 Fairview (vacant)	$31,265
302 Fairview	$22,750
529 Prospect	$321,000
530 Orange Grove	$310,000
534 Orange Grove	$42,000
535 Meridian	$550,000
901 Bonita Drive	$20,700
540 Prospect	$33,500
1037 & 1039 Grevelia	$28,000
808 Valley View	$34,000
822 Valley View	$34,300

Under Government Code Section 54239.6(b), the Surplus Properties can be resold at fair market value in their “as-is” condition. The City is required to use the sale proceeds to finance the production or acquisition of three affordable housing units for every one property sold. The City's current proposed affordable housing project with the Related Companies for 51 units at the southeast corner of El Centro Street and Mound Avenue can likely satisfy this requirement.

The Purchase and Sale Agreements require a $1,000 deposit into escrow that is non-refundable should escrow not close. After the full execution of the agreements, there is a 60-day “Inspection Period” to allow the City to conduct any additional tests, inspections, etc., as

the City deems appropriate. Notwithstanding, the agreements are clear that the City takes the Surplus Properties “as is” without any warranties or representations regarding their condition.

Staff is requesting that if the City Council is inclined to move forward, that its approval of the agreements is in the form negotiated and finalized by the City Attorney and the City Manager in order to allow the City Attorney’s office to work with Caltrans on any revisions or clarifications to the agreements, including the exhibits. A sample agreement is included as Attachment 1. In addition, Staff is requesting authorization to the City Manager to take all actions necessary to facilitate the purchase including the opening of escrow and the payment of the $1,000 deposit for each property.

Fiscal Impact
The amount of $12,000 is currently what is required to move forward with the purchase and sale agreements and open escrow. The total purchase price including the deposit if $1,490,015. Prior to the close of escrow, Staff will return to the City Council to seek final approval of the purchase and at the time, we will identify the source of funding.

Attachment No. 1 - Sample Form of Purchase and Sale Agreement (2025)

STATE ROUTE 710 SALES PROGRAM
PURCHASE AND SALE AGREEMENT

THIS PURCHASE AND SALE AGREEMENT ("**Agreement"**) is entered into as of _____, 2025 by and between the State of California, Department of Transportation (**"Caltrans"**) and the City of South Pasadena, (**"Purchaser"**), a Municipal Corporation.

Recitals

A. Caltrans owns the real property located in Los Angeles County, California commonly known as: INSERT PROPERTY ADDRESS and more particularly described as set forth in ***Exhibit "A"*** , respectively, attached hereto (**"Property"**).

B. The parties wish to provide terms and conditions for Purchaser's purchase of the Property from Caltrans. The State Route 710 Sales Program described in Government Code section 54235 et seq. (the "**Act"**) and Title 21 Public Works Division 2 Department of Transportation, Chapter 9.5 (the **"Regulations"**) provide for the offering of State-owned, surplus residential properties to the City of South Pasadena at the Minimum Sales Price pursuant to 21 CCR § 1483, for the purpose of providing affordable housing to low- and moderate-income households. Purchaser and Caltrans acknowledge the Property is subject to the terms of this Agreement, the aforementioned law and regulations, and the Declaration of Covenants, Conditions, and Restrictions (**CC&Rs**), as defined below, to be recorded against the Property upon the close of escrow hereunder.

NOW, THEREFORE, in consideration of the foregoing premises, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

SECTION 1. PURCHASE AND SALE

1.01 Purchase and Sale. Caltrans shall sell the Property to Purchaser, and Purchaser shall purchase the Property from Caltrans pursuant to the terms, limitations and conditions stated in this Agreement in accordance with the Act, the Regulations and other applicable laws, rules, and regulations (collectively, **"Applicable Laws"**).

1.02 Conditions Precedent to Effectiveness. This Agreement shall not become effective unless and until all the following conditions precedent are satisfied on or before the sixtieth (60) calendar day from the date Caltrans' sends this Agreement to Purchaser:

A. Purchaser shall have: (1) executed and returned two original executed counterparts of this Agreement via certified mail, return receipt requested, to Caltrans and sent a copy thereof to the Escrow Holder, and (2) deposited with Escrow Holder the entire Down Payment contemplated by Section 2.02(A) below;

B. Caltrans thereafter executes this Agreement and delivers a fully executed copy hereof to Escrow Holder; and

A failure of any such conditions to timely occur shall, without further notice or action, result in the full and immediate termination of any offer, obligation, liability or agreement of Caltrans to or with Purchaser or any other person with respect to the Property, whether hereunder or otherwise, immediately upon the expiration of such 60-day period, and Caltrans shall thereafter be free to offer, market and sell the Property to other persons, or otherwise dispose of the same, as Caltrans may, in its sole and absolute discretion determine.

1.03 Information/Prior Due Diligence. Purchaser hereby expressly acknowledges and agrees:

A. that it is a sophisticated real estate purchaser and/or investor;
B. that it is fully familiar with and understands the Applicable Laws and the CC&Rs, and the risks and obligations associated therewith and imposed on Purchaser and on the Property thereby, including the purchase thereof under this Agreement, and has had the same explained to it by its independent legal counsel and other advisors;
C. that during the Inspection Period permitted under this Agreement: (A) Purchaser will have full access to the Property and all documents, data, reports and information related thereto requested by Purchaser, and will have the opportunity to undertake and perform any and all additional due diligence, investigation, surveys, reports and studies, with respect thereto, including without limitation the current and past physical and environmental condition of the Property, the condition of title thereto, the compliance thereof with any applicable building codes, permits, approvals, agreements or encumbrances affecting the same (including Applicable Laws), the value thereof, the use, operation, management or occupancy thereof and/or the suitability for Purchaser's intended use thereof, and all other matters referenced in Section 9 below, and (B) Purchaser has obtained any and all financing commitments necessary or desirable to purchase, repair and/or rehabilitate the Property; and
D. that with the aid of such independent experts, contractors, consultants, advisors and professionals (including independent legal counsel and accountants) that it deems necessary, appropriate or desirable, Purchaser will, prior to the Closing Date hereof, evaluate and assess the Property and conduct such independent inquiry, feasibility investigation, inspections and due diligence with respect thereto as Purchaser and/or its advisors deem necessary, advisable or desirable, and will fully and unconditionally approve of and satisfy itself as to the same. As a result, there shall be no further access to the Property except as set forth in this Agreement and no further feasibility, inspection or similar rights or contingencies with respect to the purchase of the Property.
E. Notwithstanding anything herein to the contrary, until the date that is sixty (60)

SAMPLE

days after the execution of this Agreement by both parties (Inspection Period), upon reasonable notice but without any contingencies hereunder, Purchaser may access the Property and conduct non-invasive inspection, investigations, tests, observations, inquiries and studies as Purchaser deems appropriate. Purchaser shall promptly pay all expenses arising out of such inspections and other work on or about the Property prior to the Closing Date and shall not allow any mechanic's or materialmen's liens to be recorded on the Property (or promptly cause to be removed or bonded over any such liens if recorded on the Property). Purchaser shall promptly repair any damage to the Property caused by Purchaser's investigations. Purchaser shall coordinate with Caltrans any entry on the Property, execute a waiver and indemnity in the form customarily required by Caltrans prior to entry on Caltrans' property and follow applicable health and safety protocols as reasonably required by Caltrans. Following such period, upon Caltrans' reasonable consent and conditions, Purchaser may obtain access to the Property for a limited number of entries.

F. Purchaser shall promptly notify Caltrans during the Inspection Period of any matters discovered in its review of the Property that would cause Purchaser to terminate this Agreement. If within ten days of such notice, Caltrans notifies Purchaser in writing that it will cure such matters, then Caltrans shall have the opportunity to cure such matters fourteen (14) days prior to the Closing Date. Purchaser has the right to terminate if Caltrans does not agree to cure or if the cure is not completed fourteen (14) (days) prior to the Closing Date. Purchaser has a right to inspect the Property to determine that the discoveries have been cured to its satisfaction. Upon any such termination, Escrow Holder shall remit the deposit to Purchaser.

SECTION 2. PURCHASE PRICE

2.01 Purchase Price. The purchase price for the Property shall be [INSERT SALE PRICE] (the **"Purchase Price"**).

2.02 Payment. The Purchase Price shall be paid by Purchaser in cash, lawful money of the United States as set forth below, time being of the essence thereof:

A. **Deposit.** Immediately upon the execution of this Agreement, Purchaser shall deposit with Escrow Holder the sum of **One Thousand Dollars ($1,000.00)** (the "**Deposit**") in the form of a cashier's check, wire transfer or other immediately available funds. The entire Deposit shall be applicable to the Purchase Price, without interest, shall be non-refundable except as may be expressly set forth in this Agreement, and shall constitute liquidated damages to Caltrans in the event of Purchaser's default in acquiring the Property. Time is of the essence in making the Deposit into escrow, and as provided above is a condition precedent to the effectiveness of this Agreement.

B. **Cash at Close.** One (1) day prior to the close of Escrow (or by 1:00 p.m. of the

SAMPLE

close of escrow for funds delivered by wire transfer) the Purchaser shall deposit the balance of the Purchase Price in the amount of [INSERT BALANCE OF PURCHASE PRICE] (the **"Cash Balance"**) with Escrow Holder in the form of a cashier's check, wire transfer or other immediately available funds for delivery to Caltrans upon close of escrow hereunder.

2.03 Acknowledgement. [Deleted.]

2.04 No Seller Financing. Purchaser acknowledges this Agreement is not a financing agreement and neither Caltrans nor any other governmental agency or department has at any time made any representations, warranties, promises or undertakings, express or implied, to provide any financing or other assistance with respect to all or any portion of the Purchase Price or any other obligations of Purchaser hereunder or with respect to the Property, or with respect to any repair, rehabilitation, updating or other activity contemplated by Purchaser with respect thereto. Purchaser has performed all due diligence regarding obtaining funding and/or financing with respect to the Property, including the purchase thereof hereunder, as provided in Section 1.03 above, and has satisfied itself as to the same.

2.05 Change in Financial Condition. If either: (i) Purchaser ultimately fails to secure funds for the Purchase Price in the timeframe specified herein, or (ii) the financial condition of the Purchaser changes prior to Close of Escrow so that it is unable to purchase the Property, then in either such event Purchaser shall be in default under this Agreement and Caltrans shall be entitled to exercise its rights and remedies pursuant to Section 12.02 below.

2.06 Bonds, Taxes and Assessments. Subject to the specific proration provisions set forth in Section 3.05 below, all real property taxes, supplemental taxes, special taxes, bonds and/ or assessments which are liens on or levied with respect to the Property shall be assumed by Purchaser at close of escrow without reduction of or adjustment to the Purchase Price.

SECTION 3. ESCROW

3.01 Opening. The purchase and sale of the Property shall be consummated by means of Escrow No. _____(a single escrow) which has opened with _____ Title Company, _____, Suite_____, _____, CA, _____, Attn:_____Escrow Officer, email _____, Phone (___) ____-_____, Fax (___) _____-_____ ("**Title Company**" or "**Escrow Holder").**

3.02 Closing. The closing shall occur upon the recording of the Director's Deed for the Property, and shall occur when the conditions set forth in Article 5 below have all been satisfied or waived, but in no event later than **5:00 pm**_____, 2025 [the one hundred twentieth (120th) calendar day after the full execution of this Agreement]; provided, however, Caltrans shall, upon receipt of written request prior to such date

SAMPLE

grant a one-time thirty (30) calendar day extension to close escrow, (such date, as may be extended, being the **"Closing Date"**).

If at any time prior to the Closing Date, the Property becomes occupied, whether legally or illegally, Caltrans shall notify the Purchaser and Purchaser shall have 30 days to decide whether to proceed with the purchase of the Property. If the 30 days falls outside the Closing Date, the Closing Date shall be extended 10 days past the 30-day expiration. If Purchaser declines to proceed with the purchase of the Property due to the legal or illegal occupation of the Property, this Agreement shall terminate pursuant to the terms hereof. Upon any such termination, Escrow Holder shall remit the deposit to Purchaser.

3.03 Instructions. This Agreement shall to the extent applicable, also act as escrow instructions. The parties agree to execute any additional escrow instructions required by the Escrow Holder provided the same shall be consistent with the terms of this Agreement and shall provide that as between the parties, in the event there are any inconsistencies between such supplemental instructions and this Agreement, the terms of this Agreement shall prevail. Escrow Holder is hereby designated the "real estate reporting person" for purposes of Section 6045 of the Internal Revenue Code of 1986, as amended, and Treasury Reg. 1.6045-4, and any instructions or settlement statements prepared by Escrow Holder shall so provide. Escrow Holder shall be responsible for filing any Form 1099-S with the Internal Revenue Service.

3.04 Costs. Charges and expenses incurred in connection with the closing hereunder shall be borne by the parties as follows:

A. Purchaser shall pay all: (A) escrow fees, (B) recording fees, (C) transfer taxes, (D) title insurance premiums and fees (whether for ALTA or CLTA coverage), endorsement coverage and survey costs, and (E) any other real estate transaction fees involved in this transaction;
B. If applicable, Purchaser shall pay for and obtain any city/county required inspections and/or occupancy permits, whether required for closing the sale/escrow transaction or not. Caltrans shall provide Purchaser access to the Property as necessary to comply with this provision; and
C. Each party shall bear their own legal, tax and professional fees and costs.

3.05 Prorations. All real property taxes, special taxes, assessments, bonds, and all other similar charges imposed or levied upon the Property by any governmental agency or special district, organization or body and any other obligations related to the Property shall be prorated at close as of the Closing Date. With respect to any prorations based upon an estimation, if and when the tax, assessment or other charge related thereto is segregated by the appropriate agency or other persons, within fifteen (15) days thereof, the parties shall adjust said prorations, as necessary, based on such final segregation and pay any such adjustment to the appropriate party. The provisions of this Section 3.05 shall survive the close of escrow and the delivery and recordation of the Director's Deed and CC&Rs hereunder.

SAMPLE

3.06 Escrow Deposits. On or before the Closing Date, the parties shall make the following deposits into Escrow:

A. **By Caltrans**. At least one (1) business day prior to such closing, Caltrans shall deposit the following documents with Escrow Holder:

(i) an original **Director's Deed** for the Property duly executed by Caltrans and properly acknowledged and otherwise in recordable form, to be recorded in the Official Records of Los Angeles County, California against the Property described therein at close;

(ii) a counterpart original of the **CC&Rs** for the Property duly executed by Caltrans, and the Monitoring Entity properly acknowledged and otherwise in recordable form to be recorded in the Official Records of Los Angeles County, California against the Property described therein at close immediately following the recordation of the Director's Deed for the Property and prior to any financing obtained by Purchaser and to any other encumbrances or agreements being recorded at close with respect to such Property;

(iii) such Non-Foreign Affidavits pursuant to Sections 1445 and/or 7701 of the Internal Revenue Code, as amended, and such California Form 590s pursuant to applicable sections of the California Revenue and Taxation Code, as necessary to comply with such laws and close escrow hereunder, each in form and content reasonably satisfactory to Purchaser and Caltrans;

(iv) such other agreements or documents reasonably necessary from Caltrans to close escrow as may be expressly provided for herein.

B. **By Purchaser.** At least one (1) business day prior to such closing, Purchaser shall deposit the following funds and documents with Escrow Holder:

(i) the **Cash Balance** as provided in Subsection 2.02(b) above;

(ii) a counterpart original of the **CC&Rs** for the Property executed by Purchaser, properly acknowledged and otherwise in recordable form to be recorded in the Official Records of Los Angeles County, California against the Property described therein at close immediately following the recordation of the Director's Deed for such Property and prior to any financing obtained by Purchaser and to any other encumbrances or agreements being recorded at close with respect to such Property;

(iii) all other sums due from Purchaser as provided herein, including without limitation Purchaser's share of closing costs under Section 3.04 above, in the form of wire transfer or other immediately available funds;

SAMPLE

(iv) to the extent Purchaser is an entity, certified copies of Purchaser's organizational documents and/or other entity resolutions or other authorizing documents authorizing the execution and delivery of this Agreement and the other documents and agreements contemplated herein, the consummation of all transactions contemplated hereby, and authorizing those persons signing on behalf of Purchaser to bind Purchaser; and

(v) such other agreements, documents, or funds reasonably necessary from Purchaser to close escrow as provided for herein.

3.07 **Cancelling Escrow.** Caltrans may unilaterally cancel escrow if Purchaser fails to comply with Section 3.06(b) and/or Purchaser defaults after opening escrow but before close of escrow and such failure to comply or default is not remedied or cured within three (3) business days of Caltrans providing notice to Purchaser of such failure or default.

SECTION 4. AGREEMENTS

4.01 **California Transportation Commission Approval and Governing Body Approval.** Purchaser understands and agrees that Caltrans' obligation to sell and convey the Property to Purchaser hereunder is subject to Caltrans first obtaining the written approval of the California Transportation Commission (**"CTC"**) to this Agreement and the sale of the Property hereunder prior to the Closing Date (the **"CTC Approval"**). In the event the CTC fails to approve the sale, all monies deposited into escrow hereunder by Purchaser will be refunded without interest. Caltrans makes no representations, assurances, or warranties, express or implied, concerning the CTC's timely or ultimate approval of this sale.

If applicable, Caltrans understands and agrees that, despite any provision in this Agreement to the contrary, Purchaser's obligation to purchase and accept the Property from Caltrans hereunder is subject to Purchaser first obtaining the written approval of its governing body to this Agreement and the purchase of the Property hereunder prior to the Closing Date. In the event the governing body fails to approve the sale, all monies deposited into escrow hereunder by Purchaser shall be refunded without interest. Purchaser makes no representations, assurances, or warranties, express or implied, concerning the timely or ultimate approval of this sale by its governing body.

4.02 **Leases.** [Deleted.]

4.03 **Covenants, Conditions and Restrictions**.

A. Purchaser acknowledges the purchase of the Property shall be subject to a declaration of covenants, conditions, and restrictions as required by Government Code section 54235 et seq. and the Regulations and agrees that Purchaser and its successors in interest shall be bound by the same. Therefore, prior to close, the parties hereto shall execute a Declaration of Covenants, Conditions and

SAMPLE

Restrictions agreement in substantially the form of ***Exhibit "C"*** attached hereto (the **"CC&Rs"**) with respect to the Property, which shall, among other things impose certain ongoing restrictions on the use and occupancy of such Property, as well as imposing various limitations on the subsequent resale of such Property both as to whom it may be sold and the amount of equity or other compensation the Purchaser is entitled to retain upon such subsequent transfer. The CC&Rs shall be recorded immediately following the recordation of the Director's Deed for such Property and shall not be subordinated to any financing obtained by Purchaser with respect to such Property or any other agreements recorded against or otherwise first affecting the Property at close of escrow, except as authorized by the CC&Rs. After recordation, the original recorded CC&Rs for the Property shall be returned (mailed) by the Recorder's Office directly to Caltrans, who shall retain possession thereof. The CC&Rs shall constitute covenants and equitable servitudes that run with the land and shall bind Purchaser and all subsequent owners, lessees, occupants, lenders, encumbrancers, and others holding any interest in, lien on or claim to the Property. Purchaser agrees not to challenge or attempt to terminate, limit, or otherwise alter or amend the CC&Rs. The agreements of Purchaser under this Section 4.03 shall survive the close of escrow and the delivery and recordation of the Director's Deed and the CC&Rs hereunder.

B. **Historical Covenants**

☐ This Property is not subject to Historical Covenants.

☐ This Property is subject to Historical Covenants attached as Exhibit "__" to protect the historic value and characteristics of the Property. The Historical Covenants are in addition to the CC&Rs described in Section 4.03 A.

4.04 Title.

A. **Generally.** Purchaser understands and agrees that the right, title, and interest in the Property to be conveyed hereunder shall not exceed that currently vested in Caltrans (after taking into account any and all rights that may be reserved by Caltrans pursuant to the Director's Deed, the CC&Rs or any other agreement contained in or contemplated by this Agreement related to such Property), and that Caltrans will furnish no policy of title insurance with respect to the sale of the Property hereunder. If a policy of title insurance, endorsement or survey coverage is desired, Purchaser may obtain the same at Purchaser's sole expense, provided, however, in no event or circumstance shall obtaining any such title, endorsement or survey coverage) constitute any basis for extending the Closing Date contemplated hereunder. No later than ten business days prior to the expiration of the Inspection Period, Purchaser shall notify Caltrans in writing of its objection to any matter in the preliminary title report or on a survey. Caltrans shall have five business days to notify Purchaser of its election to cure the matter or not, and the absence of any notice shall be deemed an election not to cure the matter. Purchaser shall have the right to terminate this Agreement prior to the expiration of the Inspection Period if Caltrans does not agree to cure such matter, or if Caltrans agrees to but fails to cure the matter on or prior to Closing, then Purchaser shall have the right to terminate at such time. Upon any such termination, Escrow

SAMPLE

Holder shall remit the deposit to Purchaser.

B. **Permitted Encumbrances.** At close of escrow hereunder the Property shall be conveyed to Purchaser by a Director's Deed in substantially the form of ***Exhibit "A"*** hereto (a **"Director's Deed"**), with title to the Property being subject to all of the following exceptions and matters (collectively, the **"Permitted Exceptions"**): (1) a lien to secure payment of real estate taxes, supplemental taxes, and special taxes, bonds and assessments; (2) any reservations or limitations contained in the Director's Deed or any prior deed(s) relating to the Property; (3) the CC&Rs; (4) all title exceptions and other matters shown in the preliminary report for such Property other than any items Caltrans has agreed to cure; (5) any and all other matters apparent from a physical inspection thereof and/or that might be revealed by a survey other than any items Caltrans has agreed to cure; and (6) all other matters created by or with the consent or knowledge of Purchaser, or otherwise disclosed or contemplated in this Agreement. Caltrans shall not have, and does not assume, any liability or obligation whatsoever for any encumbrances or other title matters affecting the Property, or the amendment, removal, or other disposition thereof, provided, however, Caltrans agrees not to encumber the Property or enter into any leases, licenses, and other occupancy agreements with respect to the Property ("Leases") during the Escrow Period without the consent of Purchaser.

4.05 Operation during Escrow Period. During the period commencing with the effectiveness of this Agreement until the close of escrow hereunder or termination of this Agreement, Caltrans will continue to operate the Property in substantially the same manner as operated as of the date of this Agreement and will not do, cause, or allow anything to be done with respect to the Property that would materially change, alter or modify the current operation of the Property as a vacant property without the prior written consent of Purchaser, which consent shall not be unreasonably withheld or delayed; provided, however, Caltrans shall not under any circumstances be responsible for or have any obligation or liability with respect to any such change, alteration or modification to the extent the same is caused by any tenant or occupant of a Property or any other person without Caltrans' consent or knowledge, or to the extent the same is otherwise beyond Caltrans' reasonable control. Additionally, notwithstanding the foregoing, Caltrans shall be entitled, at its election and without notice to or obtaining the consent of Purchaser, to take any and all actions and make any and all decisions with respect to the Property as Caltrans deems necessary or desirable, in its sole and absolute discretion, in addressing any emergency relating to the Property or the safety of any occupant thereof, making a Property compliant with applicable laws, and/or keeping and maintaining a Property in a safe and habitable condition.

4.06 Purchaser's Agreements. With respect to the period prior to the close of escrow Purchaser acknowledges and agrees as follows:

A. **No Changes.** Purchaser shall have no right to take any action with respect to the Property, including, without limitation changing, renewing or terminating any zoning designations, permits, approvals, certificates or other entitlements related thereto (or applying for any such new matters), giving any notices with respect to or otherwise amending or terminating any Leases related thereto, or making or

undertaking any repairs, alterations or additions to the Property and/or any improvements located thereon, in each case without the prior written consent of Caltrans, which may be conditioned or withheld in Caltrans' sole and absolute discretion.

B. **Restrictions.** Purchaser shall not use or take any actions, or permit or suffer its agents, employees, contractors or consultants (collectively, **"Agents"**) to use or take actions, with respect to the Property in a manner which would in any way: (i) interfere with any activities thereon, or the use or occupancy thereof; (ii) constitute a nuisance or result in waste; (iii) result in the cancellation of any insurance being maintained by or on behalf of Caltrans or any tenants, in the increase in the premiums for any such insurance or in the increase of any of Caltrans' other costs; or (iv) damage any improvements or personalty located thereon.

C. **Compliance with Laws Generally.** Purchaser and its Agents shall not enter any Property, nor shall they take any action with respect thereto (or permit or suffer anything to be done in, on or about the Property) which will in any manner violate any title conditions, maps, entitlements, permits, consents, agreements, Leases or any laws, ordinances, governmental rules or regulations now or hereafter in effect with respect thereto and/or the conduct of any activities thereon by Caltrans or any occupants.

D. **Liens.** Purchaser shall at all times keep the Property and Caltrans free from any liens and claims arising out of any and all actions taken, work and labor performed, materials or services furnished and/or damages or personal injuries caused by or on behalf of Purchaser in connection with any activity of Purchaser and/or its Agents with respect to the Property, whether occurring prior to or after the date hereof. Caltrans may require Purchaser to post, at Purchaser's sole cost and expense, a lien release bond or other undertaking, statutory or otherwise, in such amount as necessary to properly bond around any claim filed against Caltrans and/or the Property with respect to such activities (occurring prior to the close of escrow) of Purchaser or its Agents. The bonding obligations of Purchaser under this Subsection 4.06(d) shall be absolute and unconditional and shall survive the close of escrow and the delivery and recordation of the Director's Deed and CC&Rs hereunder and/or the expiration, revocation, or termination of this Agreement.

E. **Compliance with the Act & Regulations**. Purchaser shall at all times comply with the requirements of the Act and the Regulations.

SECTION 5. CONDITIONS TO CLOSE

5.01 Conditions to Purchaser's Obligation to Close. The matters set forth in this Section 5.01 are conditions precedent to the close of escrow by Purchaser as contemplated in this Agreement, and the same may be declared satisfied or waived by Purchaser. In the event any such condition fails to be satisfied in accordance with the terms hereof through no fault of either party, Purchaser shall have the option of either: (i) waiving such condition and proceeding to close without adjustment of the Purchase Price or any of the other terms of this Agreement, or (ii) terminating this Agreement, in which case the

Deposit shall be refunded to Purchaser without interest, and neither party shall have any further rights, liabilities or obligations hereunder except paying their respective share of escrow costs incurred up to such date and observing those obligations expressly stated herein as surviving the termination of this Agreement.

A. **Title.** At closing, the Property shall be conveyed to the Purchaser pursuant to a Director's Deed subject to all the Permitted Exceptions applicable to such Property as contemplated by Section 4.04 hereof.
B. **CTC Approval and Governing Body Approval.** By the Closing Date, the CTC Approval shall and any governing body approval (if applicable) have been unconditionally obtained as contemplated by Section 4.01 hereof.
C. **Documents and Funds.** By the Closing Date, the escrow deposits referenced in Section 3.06(a) above shall have all been made by Caltrans, and the Escrow Holder shall be irrevocably committed to record the Director's Deed in the Official Records of Los Angeles County, California.
D. **Representations/Covenants.** At close: (i) all the representations of Caltrans contained in this Agreement shall be materially true and correct, and (ii) Caltrans shall have materially complied with its covenants contained in this Agreement.

5.02 Conditions to Caltrans' Obligation to Close. The matters set forth in this Section 5.02 are conditions precedent to the close of escrow by Caltrans as contemplated in this Agreement, and the same may be declared satisfied or waived by Caltrans. In the event any such condition fails to be satisfied in accordance with the terms hereof through no fault of either party, Caltrans shall have the option of either: (i) waiving such condition and proceeding to close without adjustment of the Purchase Price or any of the other terms of this Agreement, or (ii) terminating this Agreement, in which case the Deposit shall be refunded to Purchaser without interest, and neither party shall have any further rights, liabilities or obligations hereunder except paying their respective share of escrow costs incurred up to such date and observing those obligations expressly stated herein as surviving the termination of this Agreement.

A. **Balance of Purchase Price.** By the Closing Date, Purchaser shall have deposited the entire Cash Balance of the Purchase Price with Escrow Holder as provided in Section 2.02(b) hereof.
B. **CTC Approval.** By the Closing Date, the CTC Approval shall have been unconditionally obtained as contemplated by Section 4.01 hereof.
C. **Documents and Funds.** By the Closing Date, the escrow deposits referenced in Section 3.06(b) above shall have all been made by Purchaser and Escrow Holder shall be irrevocably committed to:
    (i) disburse the Cash Balance to Caltrans,
    (ii) record the Director's Deed, and CC&Rs immediately thereafter as contemplated herein, in the Official Records of Los Angeles County, California, and

SAMPLE

(iii) deliver to Caltrans a fully executed counterpart original any other appropriate documents as contemplated by Section 3.06(b).

D. **Representations/Covenants.** At close: (i) all the representations of Purchaser contained in this Agreement shall be materially true and correct, and (ii) Purchaser shall have materially complied with its covenants contained in this Agreement.

SECTION 6. POSSESSION

Possession of the Property shall be delivered to Purchaser on the Closing Date subject to the Permitted Exceptions applicable to the Property.

SECTION 7. BROKERS

7.01 Caltrans. Caltrans has retained **Veterans Realty Group** to act as a Consultant in connection with the sale of the Property hereunder, and any compensation due to **Veterans Realty Group** in connection with the transactions contemplated by this Agreement shall be paid by Caltrans.

7.02 No Other Brokers. Except for Caltrans' retention of **Veterans Realty Group** above, each party hereby represents and warrants to the other party that no broker, finder, real estate agent or other person has been retained by it or is entitled to any commission, finder's fee or other compensation resulting from any action on its part with respect to the sale of the Property to Purchaser. Purchaser and Caltrans each agree to indemnify, defend, and hold the other and the Property harmless from and against any real estate brokerage commissions or finder's fees, and all costs and expenses (including attorneys' fees and costs) of investigating and defending any such claims, payable or alleged to be payable to any other persons in connection with this Agreement which such indemnifying party may have engaged or is claimed or alleged to have engaged. This section does not prohibit Purchaser from obtaining a broker at his/her own expense. The representations, warranties, indemnification, and other obligations set forth in this Section 7.02 shall survive the close of escrow and the delivery and recordation of the Director's Deed and the CC&Rs and/or the expiration, revocation, or termination of this Agreement.

SECTION 8. REPRESENTATIONS & WARRANTIES

8.01 By Caltrans. Caltrans hereby makes the following representations and warranties to Purchaser:

A. Authority. Subject to obtaining the CTC Approval, Caltrans has all requisite power and authority to enter into, deliver and perform this Agreement and all the other agreements contemplated herein and to be executed in connection herewith, and the person(s) executing this Agreement and all other agreements contemplated herein on behalf of Caltrans have been properly authorized to sign on behalf of and bind Caltrans in connection with performing the transactions contemplated herein.

SAMPLE

B. Binding. Subject to obtaining the CTC Approval, this Agreement and all documents to be executed by Caltrans as provided herein, as of the date of execution shall, subject to the operation of any bankruptcy or similar laws, be the legal, valid and binding obligations of Caltrans.

C. Information. Except as otherwise set forth in this Agreement, Caltrans has no actual constructive knowledge of any information affecting the Property that had, has or would have a material effect on Purchaser's ability to use and operate the Property as contemplated by Purchaser. Caltrans has provided to Purchaser all material and factual information requested by the Purchaser and/or as required by law concerning the Property that is in Caltrans' possession, custody and control.

D. Compliance with the Act and Regulations: Caltrans conduct in this sales transaction has been in compliance with the Act and corresponding Regulations.

E. Claims. There is no claim, action, suit, arbitration, proceeding (including condemnation proceedings) or any investigation by or before any court or arbitration body, any governmental, administrative or regulatory authority, or any other body pending or, to Caltrans's knowledge, threatened with respect to the Property (collectively, "Allegations"). Caltrans is not aware of any basis or reason for any such Allegations. There is no order, judgment or decree of any court or arbitration body, any governmental, administrative or regulatory authority, or any other body, against Caltrans with respect to the Property or the sales transaction contemplated by this Agreement.

F. No Violation. Neither the execution and delivery of this Agreement, nor the performance by Caltrans of the sales transaction contemplated hereby, will contravene, conflict with, or result in a breach of any agreement, law, regulation, writ, injunction or decree of any court or governmental authority applicable to Caltrans or by which any of its properties is bound. Except for CTC Approval, Caltrans is not required to obtain any consent or authorization in order to complete the sales transaction contemplated by this Agreement.

G. Right to Purchase. Except pursuant to this Agreement, no third party has an option, right of first offer, right of first refusal, or other similar right to purchase the Property that currently remains in effect.

H. Environmental Matters. As requested by Purchaser and/or mandated by law, Caltrans has provided or made available for review copies of any material documents in its possession, custody and control of Caltrans regarding environmental condition of the Property ("Environmental Materials"). Except as set forth in the Environmental Materials, Caltrans is not aware of the existence of any Hazardous Substances (defined in Section 10 below) attributable to or affecting the Property. There have been no settlements reached by or with any third parties alleging the presence, disposal, release or threatened release of any Hazardous Substances from the use or operation of the Property.

I. Leases. The Property is not subject to any Leases, tenancy and/or similar

SAMPLE

agreements conferring any right, title or interest in the Property to a third party.

J. Contracts. Other than as disclosed in the title reports provided by the Title Company and this Agreement, there are no agreements affecting the Property.

Each of the representations made by Caltrans in this Agreement shall be true and correct on the date hereof, and shall be deemed to be made again as of the close of escrow provided for herein, and shall then be true and correct in all material respects. Caltrans shall promptly provide written notice to Purchaser of any developments or information that would make the representations set forth above untrue. The representations and warranties set forth in this Section 8.01 shall expressly survive the close of escrow as described in Section 13.12 below.

8.02 By Purchaser. Purchaser and the specific parties signing this Agreement on behalf of Purchaser hereby makes the following representations and warranties to Caltrans:

A. Organization. Purchaser is a public body, corporate and politic duly organized, validly existing and in good standing under the laws of the State of California which has the power and authority to enter into this Agreement and to consummate the transactions contemplated hereby.
B. Authority. Subject to obtaining governing body approval, Purchaser has all requisite power and authority to enter into, deliver, and perform this Agreement and all the other agreements contemplated herein and to be executed in connection herewith, and the person(s) executing this Agreement and the other agreements contemplated herein on behalf of Purchaser have been properly authorized to sign on behalf of and bind Purchaser in connection with performing the transactions contemplated herein.
C. Binding. This Agreement and all documents to be executed by Purchaser as contemplated hereunder shall, subject to the operation of any applicable bankruptcy or similar laws, be the legal, valid and binding obligations of Purchaser, and shall not materially violate any law, agreement, order or decree to which Purchaser is a party or is subject.
D. Litigation. There are no pending or threatened, suits or actions affecting Purchaser which would materially affect Purchaser's ability to enter into or perform its obligations under this Agreement or the documents executed in connection herewith.
E. Information / Compliance. All applications, information, financial statements, and other materials provided by Purchaser or its Agents to Caltrans pursuant to or in connection with the Act, the Regulations and or this Agreement are true, correct and not materially misleading; and Purchaser is in compliance with the Act and the Regulations as relates to the Property and the purchase thereof under this Agreement.
F. No Bankruptcy. Purchaser is not the subject of any pending or threatened bankruptcy proceedings, whether voluntary or involuntary.

Each of the representations and warranties made by Purchaser in this Agreement, or on

SAMPLE

any document or instrument delivered pursuant hereto shall be true and correct on the date hereof, and shall be deemed to be made again as of close of escrow provided for herein, and shall then be true and correct in all material respects. The representations and warranties of Purchaser contained in this Section 8.02 shall survive the close of escrow and the delivery and recordation of the Director's Deed and CC&Rs.

SECTION 9. "AS-IS", WAIVERS AND RELEASE

Purchaser acknowledges and agrees that, except as set forth in this Agreement, neither Caltrans nor any of its respective employees, agents, managers, members, partners, officers, interest holders, attorneys, contractors or consultants, including without limitation the California Department of Housing and Community Development **("HCD")**, (Caltrans and such other persons being collectively, the **"Seller Parties"**) have made or are making, and specifically negate and disclaim making, any representations, warranties, guaranties, promises, covenants or assurances of any kind or character, whether express, implied, written, oral, past, present or future concerning or with respect to the Property, or the condition or status thereof, including without limitation, the suitability for any purpose or the profitability of owning and operating the Property; the value thereof; the existence or non-existence of any patent or latent defects affecting the same; the physical or environmental condition or status thereof (including without limitation the existence of any mold, lead paint, radon gas or other environmental health hazards); the rental or other income generated thereby; the expenses or costs associated therewith; the size and square footage of the parcel or the improvements located thereon, the age or condition of the such improvements, or the location of property lines or setbacks (or the location of the improvements with respect thereto); the zoning thereof; the condition of title thereto; the existence, necessity or satisfaction of any local, state or federal approvals, permits or certificates for the entitlement, ownership, operation, use or occupancy thereof as contemplated by Purchaser or any tenants, occupants or any future owners thereof; the feasibility of or cost associated with obtaining any such approvals; the compliance of the Property with any and all applicable local, state or federal laws, codes and ordinances; or any other matter.

Purchaser further acknowledges that Purchaser, with the help of its independent experts, contractors, consultants, professionals (including independent legal counsel and accountants), and advisors, prior to the Closing Date, will conduct its independent feasibility, investigation, and due diligence inquiry as described in Section 1.03 above with respect to the Property and will fully satisfy itself as to all matters relating thereto. Except for the representations and warranties of Caltrans set forth in this Agreement, Purchaser is relying solely and exclusively on such independent due diligence in executing this Agreement and purchasing the Property hereunder, and not on any representations, warranties, guaranties, promises, covenants or assurances of any kind or character by Caltrans or any other Seller Parties; and the Property is being purchased "**AS-IS" / "WHERE-IS"** at close in its present condition with all defects and faults, both patent and latent, whether known or unknown, presently existing or that may hereafter arise.

Effective on the Closing Date, Purchaser hereby fully and expressly releases Caltrans, HCD

and all of the other Seller Parties and their respective agents, employees, attorneys, consultants, successors and assigns from any and all demands, claims, liabilities, amounts, actions, costs, judgments, expenses and damages (including, without limitation, attorneys' fees, witness fees and court costs) related to or arising from the Property, or the condition or status of thereof or any other matter relating thereto, including without

limitation the matters referenced in the first paragraph of this Section 9, (collectively, the "**Released Matters"**); and Purchaser hereby covenants not to sue, and hereby fully and expressly waives and relinquishes any and all rights and remedies Purchaser may have against, Caltrans, HCD and the other Seller Parties and their respective agents, employees, attorneys, consultants, successors and assigns, or any of them, at law, in equity or otherwise, related to or arising from the Released Matters. However, nothing contained herein shall release or be deemed to release Caltrans from claims arising from its fraud or a breach of any representation or warranty by Caltrans contained in this Agreement (the "Preserved Matters"). Preserved Matters shall not be considered Released Matters. Purchaser acknowledges and agrees that the release, waiver and discharge given by Purchaser hereunder to Caltrans, HCD and the other released parties extends to all Released Matters described above, whether known or unknown, foreseen or unforeseen, patent or latent, which Purchaser may now or hereafter have against Caltrans, HCD or such other persons; and in connection with such release, waiver and discharge, Purchaser hereby expressly waives the benefit of the provisions of California Civil Code Section 1542, which provides as follows:

> **"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY."**

Purchaser has read this Section 9, has had the effect and content thereof explained to Purchaser by independent legal counsel, and fully understands and appreciates the same. Purchaser understands and acknowledges that, among other things, the consequence of this waiver of California Civil Code section 1542 is that even if Purchaser should eventually discover any claims or suffer any losses or damages arising from the Released Matters, Purchaser would not be able to make any claim against Caltrans, HCD or the other released persons with respect thereto. Purchaser acknowledges that these consequences apply even as to claims, losses or damages resulting from the Released Matters that may exist as of the date of this Agreement or in the future, but which Purchaser does not know exist, or does not anticipate, and which, if known or anticipated, would materially affect Purchaser's decision to execute this Agreement. The waivers, releases, covenants not to sue and discharges contained in this Section 9 are a material portion of the consideration to Caltrans in agreeing to enter into this Agreement and shall survive the close of escrow and the delivery and recordation of Director's Deed and the CC&Rs in perpetuity.

SECTION 10. <u>INDEMNIFICATION</u>

SAMPLE

Following the closing of the transaction contemplated herein, except as provided below, Purchaser shall, at its sole cost and expense, indemnify, defend and hold Caltrans and its officers, agents, employees, attorneys and consultants, including without limitation, HCD, and their respective successors and assigns (collectively, the **"Indemnified Parties"**), free and harmless from and against any and all liabilities, demands, claims and costs (including remediation, reimbursement or contribution costs or claims), damages, losses, and expenses (including and without limitation to attorneys' fees, legal expenses and court costs, and consultant's fees, and investigation and remediation costs) of whatever kind or nature incurred or suffered by, or threatened against, any Property or any Indemnified Party(ies) resulting from or arising out of or by reason of any matter pertaining to the condition or status of the Property, including without limitation, the existence of any Hazardous Substances or Hazardous Substance Conditions in, on, under or about the Property (collectively, "Claims"). Except as provided below, this indemnity is intended to address any and all liability for which Caltrans may now or at any time hereafter be partially or entirely responsible in connection with the contamination, environmental or physical condition or status of any Property, including the prior operation thereof, due to its mere ownership or operation of such Property. As used in this Agreement, the term **"Hazardous Substance"** shall mean any substance whose nature and/or quantity of existence, use, manufacture, disposal or effect, render it subject to federal, state, or local regulation, investigation, remediation or removal as potentially injurious to public health or welfare, including the Comprehensive Environmental Response Compensation and Liability Act or Resource Conservation and Recovery Act as now in effect; and the term **"Hazardous Substance Condition"** shall mean the existence in, on, under or about the Property of a hazardous substance that requires remediation, removal, mitigation and/or other action pursuant to applicable law. This indemnification shall in no event apply to (i) Claims to which Caltrans representations and warranties apply, (ii) any Claims involving Caltrans' willful misconduct, gross negligence or fraud, and (iii) any Claims relating to challenges to Caltrans' acquisition or disposition of the Property.

Purchaser's indemnification and defense of any matters contemplated in this Section 10 for or on behalf of the Property or any Indemnified Parties shall be made by counsel reasonably acceptable to the Indemnified Parties; shall commence immediately upon any such claim or matter being made, threatened, or asserted against Indemnified Parties or the Property without the necessity of the Indemnified Parties first contesting or defending the same, suffering or incurring any loss or adverse disposition, or otherwise taking or failing to take any other action; and shall apply to all such matters regardless of any action, failure or negligence of the Indemnified Parties, it being the express intent that the indemnification, defense and hold harmless obligations of this Section 10 apply to all matters referenced herein except to the extent caused by the gross negligence or willful misconduct of the Indemnified Parties. In the event Purchaser refuses to initiate or continue pursuing to completion any such defense or other obligations hereunder, Indemnitee shall be entitled to undertake, assume, and/or conclude the same, all at Purchaser's sole cost and expense, with counsel selected by Indemnitee. The obligations of Purchaser under this Section 10 shall be absolute and unconditional, and shall survive the close of escrow and the delivery and recordation of the Director's Deed and the

SAMPLE

CC&Rs.

SECTION 11. CASUALTY/CONDEMNATION

In the event any casualty or condemnation proceeding occurs or is commenced with respect to the Property after the effectiveness hereof but prior to the close of escrow, Caltrans shall notify Purchaser of the same in writing within ten (10) business days after Caltrans has knowledge of the same, and either of the following shall occur:

(A) If Purchaser does not elect to cancel within seven (7) business days after receipt of such notice by Purchaser, the parties shall continue to proceed under this Agreement and close without adjustment to the Purchase Price or any of the other provisions of this Agreement, in which event upon the close of escrow, Caltrans shall assign to Purchaser all of its interest in any such insurance or condemnation proceeds, compensation, award, or other payments or relief resulting from such casualty or condemnation proceedings; or

(B) If Purchaser elects to cancel, and Purchaser provides written notification to Caltrans of its election to terminate this Agreement within such 7-day period, then this Agreement shall terminate, the Deposit shall be returned to Purchaser without interest, and Caltrans shall retain all proceeds, compensation, awards, payments and other benefits or relief related to such casualty and condemnation with respect to the Property.

SECTION 12. REMEDIES

12.01 Of Purchaser. If the closing does not occur as a result of Caltrans' default under this Agreement, then, provided Purchaser is not in default hereunder, Purchaser may, at its election proceed with either of the following mutually exclusive alternatives as its sole and exclusive remedy:

A. Terminate the Agreement, whereupon: (1) the Deposit shall be returned to Purchaser without interest, (2) Purchaser may seek reimbursement from Caltrans of any and all hard third-party costs and expenses incurred by Purchaser in connection the investigation of the Property or the negotiation and execution of this Agreement, as evidenced by invoices delivered to Caltrans, up to the maximum aggregate amount of fifteen thousand Dollars ($15,000), and (3) neither party shall have any further obligation or liability to the other under this Agreement except for provisions of this Agreement which expressly state that they shall survive the termination of this Agreement; or

B. File in a court of competent jurisdiction an action for specific performance to cause Caltrans to convey the Property to Purchaser in accordance with the terms and conditions of this Agreement; but Purchaser shall not be entitled to recover

SAMPLE

any monetary damages (whether compensatory, consequential, exemplary, punitive or other) from Caltrans in connection with such default other than seeking its reasonable attorneys' fees in connection with such action.

PURCHASER ACKNOWLEDGES AND AGREES THAT THE LIMITATIONS ON REMEDIES AGAINST CALTRANS SET FORTH IN THIS SECTION 12.01 ARE A MATERIAL INDUCEMENT FOR CALTRANS TO ENTER INTO THIS AGREEMENT, AND PURCHASER AGREES THAT SUCH LIMITATIONS ARE REASONABLE AND ENFORCEABLE IN ACCORDANCE WITH THEIR TERMS.

12.02 Of Caltrans. LIQUIDATED DAMAGES. PURCHASER AND CALTRANS AGREE THAT SHOULD PURCHASER FAIL TO COMPLETE THE PURCHASE OF THE PROPERTY AS HEREIN PROVIDED BY REASON OF DEFAULT OF PURCHASER, THE PARTIES HERETO, BY INITIALING THIS SECTION 12.02 IN THE SPACE PROVIDED BELOW, AGREE THAT IT WOULD BE IMPRACTICAL OR EXTREMELY DIFFICULT TO ASCERTAIN OR FIX ACTUAL DAMAGES TO CALTRANS AS A RESULT OF SUCH FAILURE OR DEFAULT BY PURCHASER, THAT UNDER THE CIRCUMSTANCES EXISTING AS OF THE DATE OF THIS AGREEMENT THE ENTIRE DEPOSIT PROVIDED FOR IN SECTION 2.02(A) ABOVE IS A REASONABLE ESTIMATE OF CALTRANS' DAMAGES, AND THAT AS CALTRANS' SOLE AND EXCLUSIVE REMEDIES ON ACCOUNT OF SUCH BREACH, CALTRANS SHALL BE ENTITLED TO: (1) RETAIN SAID DEPOSIT AS LIQUIDATED DAMAGES FOR SUCH BREACH BY PURCHASER AND (2) TERMINATE THIS AGREEMENT. THE PAYMENT OF SUCH AMOUNT AS LIQUIDATED DAMAGES IS NOT INTENDED AS A FORFEITURE OR PENALTY, BUT IS INTENDED TO CONSTITUTE LIQUIDATED DAMAGES TO CALTRANS PURSUANT TO CALIFORNIA CIVIL CODE SECTIONS 1671, 1676 AND 1677.

THE PROVISIONS HEREOF RELATE ONLY TO CALTRANS' DAMAGES FOR PURCHASER'S DEFAULTS IN ITS AGREEMENT TO PURCHASE THE PROPERTY AS PROVIDED HEREIN. NOTHING CONTAINED HEREIN SHALL LIMIT OR PRECLUDE, OR BE DEEMED TO LIMIT OR PRECLUDE, THE EXERCISE OR ENFORCEMENT BY CALTRANS OF ANY RIGHTS WHICH EXPRESSLY SURVIVE THE TERMINATION OF THIS AGREEMENT.

Purchaser's Initials: _____ Caltrans' Initials: _____

SECTION 13. MISCELLANEOUS

13.01 Headings. This Agreement shall be construed as a whole, and the subject headings of the paragraphs and subparagraphs of this Agreement are included for convenience only and shall not affect the construction or interpretation of any of its provisions or define the provisions in the portions of this Agreement to which they pertain.

13.02 Assignment. Purchaser may not assign this Agreement, or any portion hereof or any of its rights or interests hereunder, without the express prior written consent of Caltrans, which consent may be conditioned or withheld in Caltrans' sole and absolute discretion, except as set forth herein. Purchaser may, without Caltrans' consent, but upon notice to Caltrans and Escrow Holder, assign any or all of its rights in, to or under this

Agreement to an entity or instrumentality that is wholly controlled by Purchaser. No such assignment (regardless of whether consented to by Caltrans) shall relieve or release Purchaser from any of its obligations hereunder. As a condition to the effectiveness of such assignment, all assignees shall execute an assumption agreement reasonably acceptable to Caltrans under which the proposed assignee agrees to fully assume and be bound by all the terms of this Agreement to be observed or performed by Purchaser.

Caltrans shall be free to assign this Agreement, or any portion hereof or any of its rights or interests hereunder, without the consent or approval of Purchaser.

13.03 Entire Agreement / Amendment. This Agreement (including all exhibits and schedules hereto and other agreements referenced herein) constitute the entire agreement between the parties pertaining to the subject matter contained herein and supersede all prior written or oral agreements, representations and understandings of the parties relating to the subject matter herein. There are no representations, agreements, arrangements, or understandings, oral or written, relating to the subject matter which are not fully expressed herein. No supplement, modification or amendment of this Agreement shall be binding unless executed in writing by all the parties hereto.

This Agreement does not affect the enforceability of other written contracts related to the use and resale of the Property or to preserving the historic nature of the Property.

13.04 Counterparts. This Agreement may be executed simultaneously in one or more identical counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument. This Agreement shall be fully effective and binding on all parties hereto, as if one or more copies thereof had been executed by all the parties hereto, when all the parties have executed identical counterparts hereof, even though no single counterpart has been executed by all the parties hereto.

13.05 Binding / Successor & Assigns. Except to the extent assignment hereof is prohibited, this Agreement shall be binding on, and shall inure to the benefit of, the parties hereto and their successors and assigns.

13.06 Attorneys' Fees. If any legal action, arbitration or other proceeding is brought by either party involving a dispute between the parties arising out of the interpretation or enforcement of any condition or provision hereof, or by reason of any breach arising hereunder or the sale of the Property, the prevailing party shall be entitled to recover its reasonable attorneys' fees, court costs and expert witness fees incurred in such action or proceeding in addition to any other relief to which such party may be entitled.

13.07 Further Acts. Each party agrees to perform any further acts and execute and deliver any documents that may be reasonably necessary to carry out the provisions in this Agreement.

13.08 Limited Third-Party Beneficiaries. Subject to the remainder of this Section 13.08,

SAMPLE

this Agreement is for the sole benefit of the parties hereto and there are no third-party beneficiaries, intended or otherwise. Notwithstanding the foregoing, HCD and the other Seller Parties (and other released persons) are intended third-party beneficiaries of Section 9 hereof, and HCD and the other Indemnified Parties are intended third party beneficiaries of Section 10 hereof.

13.09 Notices. All notices, requests, demands, and other communications required or desired under this Agreement shall be in writing and shall be given by any of the following methods: (i) personal service at the address set forth below, (ii) email transmission in the manner set forth below, or (iii) depositing such notice in the United States mail postage prepaid, addressed to the other as follows:

Caltrans
Division of Right of Way – SR-710, MS6
100 South Main Street
Los Angeles, CA 90012

City of South Pasadena
1414 Mission Street
South Pasadena, CA 91030

Any notice given by personal service shall be deemed given when received, as verified by a written receipt or proof of service. Any notice given by email transmission shall be deemed given when transmitted, as evidenced by printed email; and any notice given by regular mail shall be deemed given on the fifth (5th) business day after its deposit in the United States mail postage prepaid.

Either party may change its address for purposes of this paragraph by giving the other party written notice of the new address to the other party at the address contained herein.

13.10 Governing Law. This Agreement has been prepared, negotiated, and entered into in the State of California and shall be governed by, construed and enforced in accordance with the internal laws of the State of California and according to its fair meaning, and not in favor of or against any party. Any action or proceeding relating or arising out of this Agreement shall be filed, if a State action, in the Superior Court of the State of California for the County of Los Angeles.

13.11 Severability. If any provision of this Agreement, or the application thereof to any person or circumstance, is held invalid or unenforceable by any court or arbitrator, it is the intent of the parties that all the other provisions of this Agreement, and the application of such provision to persons or circumstances other than those as to which it is invalid or unenforceable, shall be construed to be fully valid, enforceable and binding on the parties to the fullest extent permitted by law.

SAMPLE

13.12 Survival / No Merger. All covenants, representations, warranties, and other agreements under this Agreement which are expressly stated herein as surviving the close of escrow shall survive the close of escrow and the delivery and recordation of the Director's Deed and the CC&Rs in perpetuity, and shall not merge with or into the Director's Deed or the CC&Rs (or be terminated, limited or otherwise affected thereby).

13.13 Time is of the Essence. Time is of the essence of this Agreement in respect to all provisions of this Agreement that specify a time for performance, including the closing of escrow provided for herein, and failure to comply with this provision shall be a material breach of this Agreement.

13.14 Days / Saturdays, Sundays, and Holidays. Unless otherwise expressly stated, all time periods referred to herein shall be deemed to mean calendar days. If any date by which an election or a notice shall be given, or by which an action shall be taken, hereunder falls on a Saturday, Sunday, federal or state holiday, then the date by which such election or notice shall be given or such action shall be taken is extended to 5:00 p.m. on the next business day following such Saturday, Sunday, federal or state holiday.

13.15 Waiver. Waiver by one party of the performance of any covenant, condition or promise shall not invalidate this Agreement, nor shall it be a waiver by such party of such covenant, condition or promise in the future or of any other covenant, condition, or promise hereunder. Any waiver, to be effective, shall be express, in writing and signed by the waiving party, and shall be delivered to the other party. The exercise by a party of any remedy provided in this Agreement or at law shall not prevent the exercise by that party of any other remedy provided in this Agreement or at law.

13.16 Construction. As used in this Agreement, the masculine, feminine, or neuter gender and the singular or plural numbers shall each be deemed to include the other whenever the context so indicates. Each party hereto acknowledges and agrees that each has had independent counsel review and participated in the negotiation and drafting of this Agreement, and each hereby fully waives the application of any law, statute or rule of construction or interpretation, including without limitation California Civil Code Section 1654, to the effect that any ambiguities are to be construed against the drafting party.

13.17 Exhibits. All exhibits and schedules attached to this Agreement are hereby incorporated by reference herein and specifically made a part of this Agreement.

City Council Agenda Report

ITEM NO. 12

DATE: July 16, 2025

FROM: Janet Braun, Mayor

PREPARED BY: Hector Gomez, Chief City Clerk

SUBJECT: **CONSIDERATION OF APPOINTMENT TO PUBLIC WORKS INFRASTRUCTURE COMMISSION FOR PARTIAL TERM**

Recommendation

It is recommended by Mayor Braun that the City Council appoint Ryan Jones to the Public Works Infrastructure Commission for a partial-term ending on December 31, 2026.

Executive Summary

At the beginning of every Mayoral term, appointments are made to various commissions, boards, committees, and regional groups for the calendar year. On February 5, 2025, the City Council approved the Mayor's recommended appointments for regional boards. The proposed recommended appointment is for an unexpected vacancy on the Public Works Infrastructure Commission.

Background

The South Pasadena Municipal Code (SPMC) Section 2.23(a) states that, “Unless otherwise specified in this article, all boards and commissions shall consist of five adult members, all board and commission members to be appointed by the mayor of the city with at least three affirmative votes of the city council.” Vacancies other than by expiration of a term shall be filled by the mayor, with approval of the city council, for the unexpired portion of the term SPMC Section 2.26(a). In this case, the term for the vacant position that Mr. Jones will fill, expires on December 31, 2026.

The City has continued community outreach to solicit applications to fill these and other advisory body vacancies. Existing unscheduled vacancies and vacancies occurring in 2025 have been posted on the City’s website consistent with the Maddy Act. For residents interested in serving on a City advisory body, the application is available on the City website or in the City Clerk’s Office.

Fiscal Impact

Cost for onboarding, training, and conducting commission meetings have been accounted for in department budgets.

City Council Agenda Report

ITEM NO. 13

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: H. Ted Gerber, Former Public Works Director
Michael Vartanians, Acting Co-Director of Public Works
Bassam AL-Beitawi, Transportation Program Manager

SUBJECT: **CONSIDERATION OF APPROVAL OF A PROFESSIONAL SERVICES AGREEMENT WITH ITERIS, INC., FOR TRAFFIC ENGINEERING AND ITS SUPPORT SERVICES RELATED TO THE NORTH-SOUTH CORRIDOR INTELLIGENT TRANSPORTATION SYSTEM (ITS) DEPLOYMENT PROJECT IN A NOT TO EXCEED AMOUNT OF $73,787.00**

Recommendation

It is recommended that the City Council consider approval of a Professional Services Agreement (PSA) with Iteris, Inc., to provide traffic engineering and ITS support services to support the City's North-South Corridor Intelligent Transportation System (ITS) Deployment Project, Project No. 002002 (2020-02), Federal Project No. RABA01-5071(024), in a not-to-exceed amount of $73,787.00

Executive Summary

This item considers approval of a Professional Services Agreement (Attachment 1) with Iteris, Inc. for the company to assist with traffic signal coordination and other related tasks for the City's North-South Corridor Intelligent Transportation System (ITS) Deployment Project (Project).

Background

At the June 18th, 2025 City Council meeting, an amendment to the existing Professional Services Agreement (PSA) with KOA Corporation was approved for engineering design services to support the City's North-South Corridor Intelligent Transportation System (ITS) Deployment Project, Project No. 002002 (2020-02), Federal Project No. RABA01-5071(024). That item adjusted the scope and fee for KOA's professional services agreement in order to align the consultant's tasks with the design needs of the Project, specifically to focus the designer's efforts on delivering construction plans and specifications. Updates to the Project include addressing curb, ramp, catch basin, and bulb-out modifications at locations along Fair Oaks Avenue and Huntington Drive to improve pedestrian and/or bicycle access, and coordinate future improvements of other roadways including Mission Street and Columbia Street that have been contemplated in other design planning efforts, such as the Toole Design charrettes. There were also elements of the Project scope that were being removed from KOA to be serviced by an alternate vendor, including as the traffic signal coordination work. Iteris is the alternate vendor that is proposed to assume the traffic signal coordination work to

support the Project.

Fiscal Impact
In 2021 KOA Corporation was awarded a PSA for Engineering Design Services for the North-South Corridor Intelligent Transportation System Deployment Project No. 2020-02, Federal Project No. RABA01-5071(024) for a not-to exceed amount of $867,331.00. Considering the 88.53% federal share, the original Project budget allocation in the 2021 staff report consisted of: $450,000 from the Capital Growth Fund 255, $9,343,563 from the Rogan Grant Fund 214, $1,410,000 from the Designated General Fund Reserve for the Rogan match (which was referred to as Fund 104 in the staff report, however, is programmed as Fund 108).

On June 18, 2025 City Council approved an amendment to the existing PSA increasing the not-to-exceed amount to $1,137,574.00.

The North-South Corridor (Fair Oaks) ITS Deployment project account has budgeted $1,269,977.80 for Fiscal Years 2025-2026. This amount is a result of a carry over from FY 24-25 of 1,089,977.80 and appropriation of new funding of $180,000.00.

To date, KOA has spent $344,459.46 of the $1,137,547.00 contract resulting in a remainder of $793,114.54 on the contract.

A task order was awarded to NV5 for staff augmentation services for this project with a not-to-exceed amount of $180,000.00.

After considering the potential of spending a maximum of $793,114.54 and $180,000 the North-South corridor (Fair Oaks) ITS Deployment project will have a remaining unencumbered balance of $296,863.26.

Funding for the Iteris PSA will be available from the remaining balance under the North-South Corridor (Fair Oaks) ITS Deployment Project Account No. 400-9000-9010-9161-000. This task order will be paid by Funds 108, 214 and 255 as follows $7,577.93 from Fund 108, $65,323.63 from Fund 214 and $885.44 from Fund 255.

Key Performance Indicators and Strategic Plan
This item is related to street improvement goals in the City Council's 2025 compilation of priorities, number 2(a).

Commission Review and Recommendation
This Project has been discussed at multiple meetings of the former Mobility and Infrastructure Transportation Commission throughout its development.

Public Notification
The public was made aware that this item was to be considered this evening by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on the City’s website.

Environmental Analysis
As the Project is in the planning and design phase, California Environmental Quality Act (CEQA) analysis is currently being conducted as part of another vendor's scope of work.

Attachment:
Attachment 1 - Professional Services Agreement with Iteris, Inc.

PROFESSIONAL SERVICES AGREEMENT
FOR CONSULTANT SERVICES

(City of South Pasadena / Iteris, Inc.)

1. IDENTIFICATION

This PROFESSIONAL SERVICES AGREEMENT ("Agreement") is entered into by and between the City of South Pasadena, a California municipal corporation ("City"), and **Iteris, Inc.** ("Consultant").

2. RECITALS

2.1. City has determined that it requires the following professional services from a consultant: **Traffic Engineering and ITS Support Services for the Fair Oaks Ave. North-South ITS Deployment Project.**

2.2. Consultant represents that it is fully qualified to perform such professional services by virtue of its experience and the training, education and expertise of its principals and employees. Consultant further represents that it is willing to accept responsibility for performing such services in accordance with the terms and conditions set forth in this Agreement.

2.3. Consultant represents that it has no known relationships with third parties, City Council members, or employees of City which would (1) present a conflict of interest with the rendering of services under this Agreement under Government Code Section 1090, the Political Reform Act (Government Code Section 81000 *et seq.*), or other applicable law, (2) prevent Consultant from performing the terms of this Agreement, or (3) present a significant opportunity for the disclosure of confidential information.

NOW, THEREFORE, for and in consideration of the mutual covenants and conditions herein contained, City and Consultant agree as follows:

3. DEFINITIONS

3.1. "Scope of Services": **see Exhibit A**

3.2. "Agreement Administrator": The Agreement Administrator for this project is **Michael Vartanians, Co-Director of Public Works.** The Agreement Administrator shall be the principal point of contact at the City for this project. All services under this Agreement shall be performed at the request of the Agreement Administrator. The Agreement Administrator will establish the timetable for completion of services and any interim milestones. City reserves the right to change this designation upon written notice to Consultant.

3.3. "Approved Fee Schedule": Consultant's compensation rates are set forth in the fee schedule attached hereto as Exhibit B and incorporated herein by this reference. This fee schedule shall remain in effect for the duration of this Agreement unless modified in writing by mutual agreement of the parties.

3.4. "Maximum Amount": The highest total compensation and costs payable to Consultant by City under this Agreement. The Maximum Amount under this Agreement is Seventy Three Thousand and Seven Hundred Eighty Seven Dollars ($73,787).

3.5. "Commencement Date": July 16, 2025.

3.6. "Termination Date": **Until determined to be complete by the City of South Pasadena Public Works Director.**

4. TERM

The term of this Agreement shall commence at 12:00 a.m. on the Commencement Date and shall expire at 11:59 p.m. on the Termination Date unless extended by written agreement of the parties or terminated earlier under Section 18 ("Termination") below. Consultant may request extensions of time to perform the services required hereunder. Such extensions shall be effective if authorized in advance by City in writing and incorporated in written amendments to this Agreement.

5. CONSULTANT'S DUTIES

5.1. **Services**. Consultant shall perform the services identified in the Scope of Services. City shall have the right to request, in writing, changes in the Scope of Services. Any such changes mutually agreed upon by the parties, and any corresponding increase or decrease in compensation, shall be incorporated by written amendment to this Agreement.

5.2. **Coordination with City**. In performing services under this Agreement, Consultant shall coordinate all contact with City through its Agreement Administrator.

5.3. **Budgetary Notification**. Consultant shall notify the Agreement Administrator, in writing, when fees and expenses incurred under this Agreement have reached eighty percent (80%) of the Maximum Amount. Consultant shall concurrently inform the Agreement Administrator, in writing, of Consultant's estimate of total expenditures required to complete its current assignments before proceeding, when the remaining work on such assignments would exceed the Maximum Amount.

5.4. **Business License.** Consultant shall obtain and maintain in force a City business license for the duration of this Agreement.

5.5. **Professional Standards.** Consultant shall perform all work to the standards of Consultant's profession and in a manner reasonably satisfactory to City. Consultant

shall keep itself fully informed of and in compliance with all local, state, and federal laws, rules, and regulations in any manner affecting the performance of this Agreement, including all Cal/OSHA requirements, the conflict of interest provisions of Government Code § 1090 and the Political Reform Act (Government Code § 81000 et seq.).

5.6. **Avoid Conflicts.** During the term of this Agreement, Consultant shall not perform any work for another person or entity for whom Consultant was not working at the Commencement Date if such work would present a conflict interfering with performance under this Agreement. However, City may consent in writing to Consultant's performance of such work.

5.7. **Appropriate Personnel.** Consultant has, or will secure at its own expense, all personnel required to perform the services identified in the Scope of Services. All such services shall be performed by Consultant or under its supervision, and all personnel engaged in the work shall be qualified to perform such services. Shirjeel Muhammad, shall be Consultant's project administrator and shall have direct responsibility for management of Consultant's performance under this Agreement. No change shall be made in Consultant's project administrator without City's prior written consent.

5.8. **Substitution of Personnel.** Any persons named in the proposal or Scope of Services constitutes a promise to the City that those persons will perform and coordinate their respective services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence upon written approval of City. If City and Consultant cannot agree as to the substitution of key personnel, City may terminate this Agreement for cause.

5.9. **Permits and Approvals.** Consultant shall obtain, at its sole cost and expense, all permits and regulatory approvals necessary for Consultant's performance of this Agreement. This includes, but shall not be limited to, professional licenses, encroachment permits and building and safety permits and inspections.

5.10. **Notification of Organizational Changes.** Consultant shall notify the Agreement Administrator, in writing, of any change in name, ownership or control of Consultant's firm or of any subcontractor. Change of ownership or control of Consultant's firm may require an amendment to this Agreement.

5.11. **Records.** Consultant shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to City under this Agreement for a minimum of three (3) years, or for any longer period required by law, from the date of final payment to Consultant under this Agreement. All such documents shall be made available for inspection, audit, and/or copying at any time during regular business hours, upon oral or written request of City. In addition, pursuant to Government Code Section 8546.7, if the amount of public funds expended under this Agreement exceeds ten thousand dollars, all such documents and this Agreement shall

be subject to the examination and audit of the State Auditor, at the request of City or as part of any audit of City, for a period of three (3) years after final payment under this Agreement.

6. SUBCONTRACTING

6.1. **General Prohibition.** This Agreement covers professional services of a specific and unique nature. Except as otherwise provided herein, Consultant shall not assign or transfer its interest in this Agreement or subcontract any services to be performed without amending this Agreement.

6.2. **Consultant Responsible.** Consultant shall be responsible to City for all services to be performed under this Agreement.

6.3. **Identification in Fee Schedule.** All subcontractors shall be specifically listed in the Scope of Work, Exhibit A, and their billing rates identified in the Approved Fee Schedule, Exhibit B. Any changes must be approved by the Agreement Administrator in writing as an amendment to this Agreement.

6.4. **Compensation for Subcontractors.** City shall pay Consultant for work performed by its subcontractors, if any, only at Consultant's actual cost plus an approved mark-up as set forth in the Approved Fee Schedule, Exhibit B. Consultant shall be liable and accountable for any and all payments, compensation, and federal and state taxes to all subcontractors performing services under this Agreement. City shall not be liable for any payment, compensation, or federal and state taxes for any subcontractors.

7. COMPENSATION

7.1. **General.** City agrees to compensate Consultant for the services provided under this Agreement, and Consultant agrees to accept payment in accordance with the Fee Schedule in full satisfaction for such services. Compensation shall not exceed the Maximum Amount. Consultant shall not be reimbursed for any expenses unless provided for in this Agreement or authorized in writing by City in advance.

7.2. **Invoices.** Consultant shall submit to City an invoice, on a monthly basis or as otherwise agreed to by the Agreement Administrator, for services performed pursuant to this Agreement. Each invoice shall identify the Maximum Amount, the services rendered during the billing period, the amount due for the invoice, and the total amount previously invoiced. All labor charges shall be itemized by employee name and classification/position with the firm, the corresponding hourly rate, the hours worked, a description of each labor charge, and the total amount due for labor charges.

Invoices shall be submitted electronically to PWAP@southpasadenaca.gov

7.3. **Taxes.** City shall not withhold applicable taxes or other payroll deductions from payments made to Consultant except as otherwise required by law. Consultant shall be solely responsible for calculating, withholding, and paying all taxes.

7.4. **Disputes.** The parties agree to meet and confer at mutually agreeable times to resolve any disputed amounts contained in an invoice submitted by Consultant.

7.5. **Additional Work.** Consultant shall not be reimbursed for any expenses incurred for work performed outside the Scope of Services unless prior written approval is given by the City through a fully executed written amendment. Consultant shall not undertake any such work without prior written approval of the City.

7.6. **City Satisfaction as Precondition to Payment.** Notwithstanding any other terms of this Agreement, no payments shall be made to Consultant until City is satisfied that the services are satisfactory.

7.7. **Right to Withhold Payments.** If Consultant fails to provide a deposit or promptly satisfy an indemnity obligation described in Section 11, City shall have the right to withhold payments under this Agreement to offset that amount.

8. PREVAILING WAGES

Consultant is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. Consultant shall defend, indemnify, and hold the City, tis elected officials, officers, employees, and agents free and harmless form any claim or liability arising out of any failure or alleged failure of Consultant to comply with the Prevailing Wage Laws.

9. OWNERSHIP OF WRITTEN PRODUCTS

All reports, documents or other written material ("written products" herein) developed by Consultant in the performance of this Agreement shall be and remain the property of City without restriction or limitation upon its use or dissemination by City except as provided by law. Consultant may take and retain copies of such written products as desired, but no such written products shall be the subject of a copyright application by Consultant.

10. RELATIONSHIP OF PARTIES

10.1. **General.** Consultant is, and shall at all times remain as to City, a wholly independent contractor.

10.2. **No Agent Authority.** Consultant shall have no power to incur any debt, obligation, or liability on behalf of City or otherwise to act on behalf of City as an agent. Neither City nor any of its agents shall have control over the conduct of Consultant or any of Consultant's employees, except as set forth in this Agreement. Consultant shall not represent that it is, or that any of its agents or employees are, in any manner employees of City.

10.3. **Independent Contractor Status.** Under no circumstances shall Consultant or its employees look to the City as an employer. Consultant shall not be entitled to any benefits. City makes no representation as to the effect of this independent contractor relationship on Consultant's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Consultant specifically assumes the responsibility for making such a determination. Consultant shall be responsible for all reports and obligations including, but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, and workers' compensation, and other applicable federal and state taxes.

10.4. **Indemnification of CalPERS Determination.** In the event that Consultant or any employee, agent, or subcontractor of Consultant providing services under this Agreement claims or is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of the City, Consultant shall indemnify, defend, and hold harmless City for the payment of any employee and/or employer contributions for CalPERS benefits on behalf of Consultant or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of City.

11. INDEMNIFICATION

11.1 **Definitions.** For purposes of this Section 11, "Consultant" shall include Consultant, its officers, employees, servants, agents, or subcontractors, or anyone directly or indirectly employed by either Consultant or its subcontractors, in the performance of this Agreement. "City" shall include City, its officers, agents, employees and volunteers.

11.2 **Consultant to Indemnify City.** To the fullest extent permitted by law, Consultant shall indemnify, hold harmless, and defend City from and against any and all claims, losses, costs or expenses for any personal injury or property damage arising out of or in connection with Consultant's alleged negligence, recklessness or willful misconduct or other wrongful acts, errors or omissions of Consultant or failure to comply with any provision in this Agreement.

11.3 **Scope of Indemnity.** Personal injury shall include injury or damage due to death or injury to any person, whether physical, emotional, consequential or otherwise, Property damage shall include injury to any personal or real property. Consultant shall not be required to indemnify City for such loss or damage as is caused by the sole active negligence or willful misconduct of the City.

11.4 **Attorneys Fees.** Such costs and expenses shall include reasonable attorneys' fees for counsel of City's choice, expert fees and all other costs and fees of litigation. Consultant shall not be entitled to any refund of attorneys' fees, defense costs or expenses in the event that it is adjudicated to have been non-negligent.

11.5 **Defense Deposit.** The City may request a deposit for defense costs from Consultant with respect to a claim. If the City requests a defense deposit, Consultant shall provide it within 15 days of the request.

11.6 **Waiver of Statutory Immunity.** The obligations of Consultant under this Section 11 are not limited by the provisions of any workers' compensation act or similar act. Consultant expressly waives its statutory immunity under such statutes or laws as to City.

11.7 **Indemnification by Subcontractors.** Consultant agrees to obtain executed indemnity agreements with provisions identical to those set forth here in this Section 11 from each and every subcontractor or any other person or entity involved in the performance of this Agreement on Consultant's behalf.

11.8 **Insurance Not a Substitute.** City does not waive any indemnity rights by accepting any insurance policy or certificate required pursuant to this Agreement. Consultant's indemnification obligations apply regardless of whether or not any insurance policies are determined to be applicable to the claim, demand, damage, liability, loss, cost or expense.

12. INSURANCE

12.1. **Insurance Required.** Consultant shall maintain insurance as described in this section and shall require all of its subcontractors, consultants, and other agents to do the same. Approval of the insurance by the City shall not relieve or decrease any liability of Consultant Any requirement for insurance to be maintained after completion of the work shall survive this Agreement.

12.2. **Documentation of Insurance.** City will not execute this agreement until it has received a complete set of all required documentation of insurance coverage. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant's obligation to provide them. Consultant shall file with City:

- Certificate of Insurance, indicating companies acceptable to City, with a Best's Rating of no less than A:VII showing. The Certificate of Insurance must include the following reference: **Traffic Engineering and ITS Support Services for the Fair Oaks Ave. North-South ITS Deployment Project.**
- Documentation of Best's rating acceptable to the City.
- Original endorsements effecting coverage for all policies required by this Agreement.

- City reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of the right to exercise later.

12.3. **Coverage Amounts.** Insurance coverage shall be at least in the following minimum amounts:

• Professional Liability Insurance:	$2,000,000 per occurrence, $2,000,000 aggregate
• General Liability:	
• General Aggregate:	$2,000,000
• Products Comp/Op Aggregate	$2,000,000
• Personal & Advertising Injury	$2,000,000
• Each Occurrence	$2,000,000
• Fire Damage (any one fire)	$ 100,000
• Medical Expense (any 1 person)	$ 10,000
• Workers' Compensation:	
• Workers' Compensation	Statutory Limits
• EL Each Accident	$1,000,000
• EL Disease - Policy Limit	$1,000,000
• EL Disease - Each Employee	$1,000,000
• Automobile Liability	
• Any vehicle, combined single limit	$1,000,000

Any available insurance proceeds broader than or in excess of the specified minimum insurance coverage requirements or limits shall be available to the additional insured. Furthermore, the requirements for coverage and limits shall be the greater of (1) the minimum coverage and limits specified in this Agreement, or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named insured

12.4. **General Liability Insurance.** Commercial General Liability Insurance shall be no less broad than ISO form CG 00 01. Coverage must be on a standard Occurrence form. Claims-Made, modified, limited or restricted Occurrence forms are not acceptable.

12.5. **Worker's Compensation Insurance.** Consultant is aware of the provisions of Section 3700 of the Labor Code which requires every employer to carry Workers' Compensation (or to undertake equivalent self-insurance), and Consultant will comply with such provisions before commencing the performance of the work of this Agreement. If such insurance is underwritten by any agency other than the State Compensation Fund, such agency shall be a company authorized to do business in the State of California.

12.6. **Automobile Liability Insurance.** Covered vehicles shall include owned if any, non-owned, and hired automobiles and, trucks.

12.7. P**rofessional Liability Insurance or Errors & Omissions Coverage.** The deductible or self-insured retention may not exceed $50,000. If the insurance is on a Claims-Made basis, the retroactive date shall be no later than the commencement of the work. Coverage shall be continued for two years after the completion of the work by one of the following: (1) renewal of the existing policy; (2) an extended reporting period endorsement; or (3) replacement insurance with a retroactive date no later than the commencement of the work under this Agreement.

12.8. **Claims-Made Policies.** If any of the required policies provide coverage on a claims-made basis the Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work. Claims-Made Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract of work. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Consultant must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.

12.9. **Additional Insured Endorsements.** The City, its City Council, Commissions, officers, and employees of South Pasadena must be endorsed as an additional insured for each policy required herein, other than Professional Errors and Omissions and Worker's Compensation, for liability arising out of ongoing and completed operations by or on behalf of the Consultant. Consultant's insurance policies shall be primary as respects any claims related to or as the result of the Consultant's work. Any insurance, pooled coverage or self-insurance maintained by the City, its elected or appointed officials, directors, officers, agents, employees, volunteers, or consultants shall be non-contributory. All endorsements shall be signed by a person authorized by the insurer to bind coverage on its behalf. General liability coverage can be provided using an endorsement to the Consultant's insurance at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37.

12.10. **Failure to Maintain Coverage.** In the event any policy is canceled prior to the completion of the project and the Consultant does not furnish a new certificate of insurance prior to cancellation, City has the right, but not the duty, to obtain the required insurance and deduct the premium(s) from any amounts due the Consultant under this Agreement. Failure of the Consultant to maintain the insurance required by this Agreement, or to comply with any of the requirements of this section, shall constitute a material breach of this Agreement.

12.11. **Notices.** Contractor shall provide immediate written notice if (1) any of the required insurance policies is terminated; (2) the limits of any of the required policies are reduced; (3) or the deductible or self-insured retention is increased. Consultant shall

provide no less than 30 days' notice of any cancellation or material change to policies required by this Agreement. Consultant shall provide proof that cancelled or expired policies of insurance have been renewed or replaced with other policies providing at least the same coverage. Such proof will be furnished at least two weeks prior to the expiration of the coverages. The name and address for Additional Insured Endorsements, Certificates of Insurance and Notices of Cancellation is: **City of South Pasadena, Attn: Risk Management, 1414 Mission St., South Pasadena, CA 91030. Telephone: (626) 403-7230.**

12.12. **Consultant's Insurance Primary.** The insurance provided by Consultant, including all endorsements, shall be primary to any coverage available to City. Any insurance or self-insurance maintained by City and/or its officers, employees, agents or volunteers, shall be in excess of Consultant's insurance and shall not contribute with it.

12.13. **Waiver of Subrogation.** Consultant hereby waives all rights of subrogation against the City. Consultant shall additionally waive such rights either by endorsement to each policy or provide proof of such waiver in the policy itself.

12.14. **Report of Claims to City.** Consultant shall report to the City, in addition to the Consultant's insurer, any and all insurance claims submitted to Consultant's insurer in connection with the services under this Agreement.

12.15. **Premium Payments and Deductibles.** Consultant must disclose all deductibles and self-insured retention amounts to the City. The City may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within retention amounts. Ultimately, City must approve all such amounts prior to execution of this Agreement.

City has no obligation to pay any premiums, assessments, or deductibles under any policy required in this Agreement. Consultant shall be responsible for all premiums and deductibles in all of Consultant's insurance policies. The amount of deductibles for insurance coverage required herein are subject to City's approval.

12.16. **Duty to Defend and Indemnify.** Consultant's duties to defend and indemnify City under this Agreement shall not be limited by the foregoing insurance requirements and shall survive the expiration of this Agreement.

13. MUTUAL COOPERATION

13.1. **City Cooperation in Performance.** City shall provide Consultant with all pertinent data, documents and other requested information as is reasonably available for the proper performance of Consultant's services under this Agreement.

13.2. **Consultant Cooperation in Defense of Claims.** If any claim or action is brought against City relating to Consultant's performance in connection with this Agreement,

Consultant shall render any reasonable assistance that City may require in the defense of that claim or action.

14. NOTICES

Any notices, bills, invoices, or reports required by this Agreement shall be deemed received on: (i) the day of delivery if delivered by hand, facsimile or overnight courier service during Consultant's and City's regular business hours; or (ii) on the third business day following deposit in the United States mail if delivered by mail, postage prepaid, to the addresses listed below (or to such other addresses as the parties may, from time to time, designate in writing).

15. SURVIVING COVENANTS

The parties agree that the covenants contained in paragraph 5.11 (Records), paragraph 10.4 (Indemnification of CalPERS Determination), Section 11 (Indemnity), paragraph 12.8 (Claims-Made Policies), paragraph 13.2 (Consultant Cooperation in Defense of Claims), and paragraph 18.1 (Confidentiality) of this Agreement shall survive the expiration or termination of this Agreement, subject to the provisions and limitations of this Agreement and all otherwise applicable statutes of limitations and repose.

16. TERMINATION

16.1. **City Termination.** City may terminate this Agreement for any reason on five calendar days' written notice to Consultant. Consultant agrees to cease all work under this Agreement on or before the effective date of any notice of termination. All City data, documents, objects, materials or other tangible things shall be returned to City upon the termination or expiration of this Agreement.

16.2. **Consultant Termination.** Consultant may terminate this Agreement for a material breach of this Agreement upon 30 days' notice.

16.3. **Compensation Following Termination.** Upon termination, Consultant shall be paid based on the work satisfactorily performed at the time of termination. In no event shall Consultant be entitled to receive more than the amount that would be paid to Consultant for the full performance of the services required by this Agreement. The City shall have the benefit of such work as may have been completed up to the time of such termination.

16.4. **Remedies.** City retains any and all available legal and equitable remedies for Consultant's breach of this Agreement.

17. INTERPRETATION OF AGREEMENT

17.1. **Governing Law.** This Agreement shall be governed and construed in accordance with the laws of the State of California.

17.2. **Integration of Exhibits.** All documents referenced as exhibits in this Agreement are hereby incorporated into this Agreement. In the event of any material discrepancy between the express provisions of this Agreement and the provisions of any document incorporated herein by reference, the provisions of this Agreement shall prevail. This instrument contains the entire Agreement between City and Consultant with respect to the transactions contemplated herein. No other prior oral or written agreements are binding upon the parties. Amendments hereto or deviations herefrom shall be effective and binding only if made in writing and executed on by City and Consultant.

17.3. **Headings.** The headings and captions appearing at the commencement of the sections hereof, and in any paragraph thereof, are descriptive only and for convenience in reference to this Agreement. Should there be any conflict between such heading, and the section or paragraph thereof at the head of which it appears, the language of the section or paragraph shall control and govern in the construction of this Agreement.

17.4. **Pronouns.** Masculine or feminine pronouns shall be substituted for the neuter form and vice versa, and the plural shall be substituted for the singular form and vice versa, in any place or places herein in which the context requires such substitution(s).

17.5. **Severability.** If any term or provision of this Agreement or the application thereof to any person or circumstance shall, to any extent, be invalid or unenforceable, then such term or provision shall be amended to, and solely to the extent necessary to, cure such

invalidity or unenforceability, and shall be enforceable in its amended form. In such event, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected, and each term and provision of this Agreement shall be valid and be enforced to the fullest extent permitted by law.

17.6. **No Presumption Against Drafter.** Each party had an opportunity to consult with an attorney in reviewing and drafting this agreement. Any uncertainty or ambiguity shall not be construed for or against any party based on attribution of drafting to any party.

18. GENERAL PROVISIONS

18.1. **Confidentiality.** All data, documents, discussion, or other information developed or received by Consultant for performance of this Agreement are deemed confidential and Consultant shall not disclose it without prior written consent by City. City shall grant such consent if disclosure is legally required. All City data shall be returned to City upon the termination or expiration of this Agreement.

18.2. **Conflicts of Interest.** Consultant maintains and warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for Consultant, to solicit or secure this Agreement. Further, Consultant warrants that it has not paid nor has it agreed to pay any company or person, other than a bona fide employee working solely for Consultant, any fee, commission, percentage, brokerage fee, gift or other consideration contingent upon or resulting from the award or making of this Agreement. Consultant further agrees to file, or shall cause its employees or subcontractor to file, a Statement of Economic Interest with the City's Filing Officer if required under state law in the performance of the services. For breach or violation of this warranty, City shall have the right to rescind this Agreement without liability. For the term of this Agreement, no member, officer, or employee of City, during the term of his or her service with City, shall have any direct interest in this Agreement, or obtain any present or anticipated material benefit arising therefrom.

18.3. **Non-assignment.** Consultant shall not delegate, transfer, subcontract or assign its duties or rights hereunder, either in whole or in part, without City's prior written consent, and any attempt to do so shall be void and of no effect. City shall not be obligated or liable under this Agreement to any party other than Consultant.

18.4. **Binding on Successors.** This Agreement shall be binding on the successors and assigns of the parties.

18.5. **No Third-Party Beneficiaries.** Except as expressly stated herein, there is no intended third-party beneficiary of any right or obligation assumed by the parties.

18.6. **Time of the Essence.** Time is of the essence for each and every provision of this Agreement.

18.7. **Non-Discrimination.** Consultant shall not discriminate against any employee or applicant for employment because of race, sex (including pregnancy, childbirth, or related medical condition), creed, national origin, color, disability as defined by law, disabled veteran status, Vietnam veteran status, religion, age (40 and above), medical condition (cancer-related), marital status, ancestry, or sexual orientation. Employment actions to which this provision applies shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; or in terms, conditions or privileges of employment, and selection for training. Consultant agrees to post in conspicuous places, available to employees and applicants for employment, the provisions of this nondiscrimination clause.

18.8. **Waiver.** No provision, covenant, or condition of this Agreement shall be deemed to have been waived by City or Consultant unless in writing signed by one authorized to bind the party asserted to have consented to the waiver. The waiver by City or Consultant of any breach of any provision, covenant, or condition of this Agreement shall not be deemed to be a waiver of any subsequent breach of the same or any other provision, covenant, or condition.

18.9. **Excused Failure to Perform.** Consultant shall not be liable for any failure to perform if Consultant presents acceptable evidence, in City's sole judgment, that such failure was due to causes beyond the control and without the fault or negligence of Consultant.

18.10. **Remedies Non-Exclusive.** Each right, power and remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise shall be cumulative and shall be in addition to every other right, power, or remedy provided for herein or now or hereafter existing at law, in equity, by statute, or otherwise. The exercise, the commencement of the exercise, or the forbearance from the exercise by any party of any one or more of such rights, powers or remedies shall not preclude the simultaneous or later exercise by such party of any or all of such other rights, powers or remedies.

18.11. **Attorneys' Fees.** If legal action shall be necessary to enforce any term, covenant or condition contained in this Agreement, the prevailing party shall be entitled to an award of reasonable attorneys' fees and costs expended in the action.

18.12. **Venue.** The venue for any litigation shall be Los Angeles County, California and Consultant hereby consents to jurisdiction in Los Angeles County for purposes of resolving any dispute or enforcing any obligation arising under this Agreement.

TO EFFECTUATE THIS AGREEMENT, the parties have caused their duly authorized representatives to execute this Agreement on the dates set forth below.

EXHIBIT A

Scope of Work

Consultant Name

Task Name: Traffic Engineering and ITS Support Services for the Fair Oaks Ave. North-South ITS Deployment Project.

TASK 1. FIELD INVENTORY

Iteris will perform a detailed field review of all the existing infrastructure at the 12 intersections along the Fair Oaks Ave corridor. Iteris staff will open pull boxes, note the condition of conduits, and assess the details of traffic signal cabinets, including controller types, firmware, detectors, wiring, and model numbers, and any other elements such as wireless radios, transit signal priority (TSP) equipment, and assessment of existing Traffic Management Centers hardware and software. Iteris will use a combination of programs called Fast Field and Visio to create unique inventory forms for each project intersection. Once fieldwork has been completed and all the information has been cataloged, the forms will be submitted to the City for review.

Deliverables

- **Draft and Final Existing Conditions**
- **Communications Infrastructure and Connectivity Map (PDF)**

TASK 2. ITS AND TRAFFIC SIGNAL DESIGN REVIEW

Based on the findings in Task 1 and the review of the primary consultant's design, Iteris will make recommendations on any necessary revisions based on the needs of the City, including but not limited to:

- **Traffic signal cabinet**
- **ADA curb ramps**
- **Signal wiring**
- **Pull boxes and lids**
- **Pedestrian detection system**
- **Traffic signal poles and signal heads**
- **Yellow signal head backplates and 12" vehicle heads (Caltrans Intersections)**
- **Traffic signal controller hardware and software**
- **Closed Circuit TV (CCTV) System**
- **Emergency vehicle preemption (EVP) and transit signal priority (TSP) System**
- **Video detection system (VDS)**
- **Communication infrastructure, including wireless communication, fiber optics (FO), splice enclosures, ethernet switches, and other relevant equipment**

Iteris anticipates that the City will provide Fair Oaks ITS Improvement PS&E and North-South Draft Fair-Oaks PS&E documentation, which the other consultant is currently working on. Iteris will ensure that all proposed improvements meet the latest industry standards and technologies to meet current and future needs as well as interoperability. Iteris will provide a detailed analysis of the proposed revisions and guide the City in making informed decisions. The proposed recommendations will be presented to the City to ensure they align with its vision and future programs.

Deliverables

- **Draft and Final Recommendations Matrix**

TASK 3. SIGNAL TIMING DOCUMENTS

Iteris will review the existing timing along the corridor and prepare revised coordinated timing plans as part of this task. Iteris anticipates that the City will provide the following:

- **Existing Traffic Signal Timing Sheets**
- **All Synchro Files currently being worked on**
- **Counts conducted for this project**

Iteris will create implementation-ready timing sheets for the City's Traffic Signal Maintenance crew. Immediately following implementation, Iteris will conduct fine-tuning in the field to monitor signal cycling at each intersection and traffic progression along the corridors.

Deliverables

- **Revised Coordinated Timing Plans**
- **Signal Timing Fine Tuning**

EXHIBIT B

Project Fees and Hourly Billing Rates

2 Cost Estimate and Terms

The following table presents the Iteris' firm fixed fee to conduct the scope of work presented.

TASKS	COST
Task 1: Field Inventory	$18,259
Task 2: ITS and Traffic Signal Design Review	$17,887
Task 3: Signal Timing Documents	$37,141
ODC	$500
Total Fixed Fee	**$73,787**

City Council Agenda Report

ITEM NO. 14

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Brian Solinsky, Chief of Police
Davit Ghazaryan, Management Analyst

SUBJECT: **CONSIDERATION TO THE PURCHASE OF A 2025 CHEVROLET TAHOE AS A POLICE DEPARTMENT COMMAND AND RESPONSE VEHICLE AND APPROVE CONTRACTS RELATED TO THE UPFITTING OF THE VEHICLE FOR A TOTAL NOT TO EXCEED $111,118.00**

Recommendation

It is recommended that the City Council:

1. Award a contract to Chevrolet of Montebello for the purchase of a new 2025 Chevrolet Tahoe to be used as a command and response vehicle in the amount of $60,063.37; and
2. Award a contract to Hom Communications in the amount of $28,948.43 for the purchase and installation of emergency equipment; and
3. Award a contract to Motorola Solutions Inc in the amount of $21,102.80 for the purchase of 2 Motorola APX8500 police radios.

Background

The Urban Areas Security Initiative (UASI) was founded by the Department of Homeland Security (DHS) following the September 11, 2001 attacks, providing state and local agencies with federal grants through the Homeland Security Grant Program (HSGP). Managed by the Federal Emergency Management Agency (FEMA), the UASI program assists in funding densely populated urban areas that are at high risk for acts of terrorism. Through financial assistance, the UASI program addresses the planning, organization, equipment, and training needs of areas that are targets for various threats, including cyberattacks, threats to soft targets and crowded venues, and threats from violent domestic extremists. The funds provided by UASI aid in protecting, mitigating, responding to and recovering from threats or acts of terrorism in these densely populated urban areas.

In April 2024, the South Pasadena Police Department (SPPD) received $111,118 through the DHS, FEMA FY 2023 UASI Grant Program to purchase a Mobile Incident Command and Response Vehicle for the Watch Commander, including new radio equipment and the vehicle's general upfitting (Attachment 1). As a result, federal assistance will be provided in the form of a reimbursement for purchasing equipment to support the regional Homeland Security goal. There is no cash or in-kind match required for this grant.

Analysis

According to FEMA, the purchase of electric vehicles using UASI grant funds is not permitted, as electric vehicles are not included in the Authorized Equipment List (AEL). The AEL defines allowable purchases that directly support the program's goals and mission deliverables.
Additionally, as part of our responsibilities under UASI funding, the Department must be prepared to deploy beyond South Pasadena, including to regions where electric charging infrastructure may be limited or entirely unavailable. This is especially critical during natural disasters, regional emergencies, or mutual aid responses.

To address this operational limitation, the Department proposes the acquisition of a gas-powered Chevrolet Tahoe for use a command and response that can also be utilized as by watch commanders on a daily basis. In evaluating vehicle options for this essential assignment, the Department prioritized the following features that ensure reliability, extended range, and rapid deployment capability during major incidents:

- Reliable performance across varied terrains, locations, events, and weather conditions
- Extended range and rapid refueling, allowing uninterrupted operation without reliance on local charging stations
- High payload and cargo capacity to transport essential equipment, supplies, and tactical resources
- Spacious interior to accommodate command operations and multiple passengers when needed
- Ease of upfitting for lights, radios, mobile command centers, and other emergency technology
- Durability for 24/7 shift use and sustained operations during large-scale or long-duration events

The Chevrolet Tahoe offers a powerful and adaptable platform for mobile incident command vehicles, due to its spacious interior, and ability to be upfitted with the necessary technology and equipment for effective incident management. A gas-powered Chevrolet Tahoe is well-suited for operations that demand specific capabilities. Its ability to run for extended periods without needing recharging is especially vital during emergencies or long-duration missions. Moreover, the Tahoe's gas engine delivers the reliability and performance needed for urban operations, ensuring dependable performance during high-demand situations, such as patrols, community events, and extended critical incident responses.

The Chevrolet Tahoe stands out as the ideal choice for the Department's needs, due to its law enforcement-specific design, which offers superior cargo capacity, elevated ride height, and enhanced visibility which are features well-suited for field supervision. It has a strong track record of reliability in fleet use and is widely compatible with law enforcement upfit packages. While the Ford Expedition and Dodge Charger are its primary market competitors, the Tahoe offers a more balanced combination of utility and maneuverability than the bulkier Expedition, and significantly greater cargo space and operational versatility than the Dodge Charger.

To ensure compliance with UASI grant requirements and the City's procurement policies and to identify the most cost-effective vendor, the Department solicited three competitive quotes from authorized Chevrolet dealers. These quotes were submitted to the City of Los Angeles, which serves as the Department's pass-through agency for UASI funding. Following their review, the lowest and most cost-efficient bid was selected and approved for purchase (see Attachment 3). The vehicle bids are summarized below:

Bidder	***Amount***
1. Sierra Chevrolet and Ram	$60,659.41
2. Camino Real Chevrolet	$
3. Chevrolet of Montebello	$60,063.37

The radio equipment for the vehicle, which consists of 2 APX8500 digital radios, will be purchased from Motorola Solutions Inc., a sole-source provider. Vehicle upfitting will be completed by Hom Communications, an existing Police Department vendor selected through a prior three-bid process.

Fiscal Impact
On September 18, 2024, the City Council approved an appropriation of $111,118 to the Homeland Security Grant account number 274-4010-4019-8520 (Machinery and Equipment). The City of South Pasadena will receive grant funding in the amount of $111,118 from the FY 2023 UASI Grant Program. No local matching funds are required for grant funds to be received.

Commission Review and Recommendation
This item was not reviewed by the Public Safety Commission.

Environmental Analysis
The item is exempt from the California Environmental Quality Act (CEQA) pursuant to State CEQA Guidelines Section 15061 (b)(3), the "Common Sense" Exemption that CEQA applies only to projects which have the potential for causing a significant effect on the environment. The subject vehicle complies with all South Coast Air Quality Management District rules and regulations for engine emissions and clean air standards in the South Coast Air Basin.

City Council Agenda Report

ITEM NO. 15

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: H. Ted Gerber, Former Public Works Director
Michael Vartanians, Acting Co-Director of Public Works

SUBJECT: **CONSIDERATION OF ADOPTION OF A RESOLUTION CONFIRMING AN ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR THE LIGHTING AND LANDSCAPING MAINTENANCE DISTRICT (LLMD) FOR FISCAL YEAR 2025-2026**

Recommendation

It is recommended that the City Council, after receiving Public Hearing testimony, adopt the attached resolution confirming the annual levy and collection of assessments for the Lighting and Landscaping Maintenance District (LLMD) for Fiscal Year (FY) 2025-2026.

Executive Summary

On June 4, 2025, the City Council adopted Resolution No. 7907 approving the Engineer's Report, declaring the intention to levy and collect the assessments, and set the Public Hearing for the LLMD on this evening's July 16, 2025, at 7:00 p.m. At this evening's meeting, City Council may confirm the levy and collection of assessments for the FY 2025-2026 by adopting the Resolution in Attachment 1. Attachment 2 includes the Engineer's Report.

Background

A Landscape and Lighting Maintenance District (LLMD), established under the authority of California Streets and Highways Code, is a tool for cities to provide a structured and sustainable funding mechanism for the ongoing maintenance and operation of public landscaping, street lighting, and related improvements within a specific area. LLMDs enable cities or local agencies to levy annual assessments on benefiting properties to pay for services such as maintenance of parks, greenbelts, medians, and trees; operation and maintenance of streetlights and traffic signals; installation and upkeep of irrigation systems, trails, and public open spaces; and enhanced streetscape amenities that improve neighborhood aesthetics and safety, among other items.

The City's LLMD provides approximately $900,000 in revenues that is used exclusively for maintenance costs within the LLMD boundaries. The revenue is collected through the County Assessor's Office as part of the property tax rolls. The LLMD estimated cost for FY 2025-2026 is $1,746,347. The LLMD assessments provide annual funds for the maintenance and operation of traffic signals, streetlights, median landscaping, street tree trimming, and tree removals and replacements.

The first step requires the authorization to prepare an Engineer's Report, which contains the engineering study and details of the assessments and methodologies that are needed to submit the assessments to the County Assessor's Office. On May 21st, 2025, the City Council approved Resolution No. 7907 authorizing the preparation of the Engineer's Report for the FY 2025-2026 LLMD Assessment.

On June 4, 2025, the City Council adopted Resolution No. 7907 approving the Engineer's Report, declaring the intention to levy and collect the assessments, and setting the Public Hearing for the LLMD on July 16, 2025, at 7:00 p.m.

The maintenance costs are distributed equitably assessing properties in accordance with special benefits received. The City Council has previously approved the methodology for the assessments and staff will continue with the same methodology this year. Revenues generated by the proposed assessment district will partially cover the maintenance cost within the LLMD service area, which coincide with the City boundaries. The remainder of the expenses must be supplemented with other funding or reduced by eliminating some of the current LLMD services.

Analysis

Assessments are computed based on the number of equivalent single-family dwelling units (EDU) in the LLMD. The equivalent dwelling unit calculation is adjusted for commercial, vacant, and multi-residential property in a manner detailed on pages six (6) through eight (8) in the Engineer's Report, provided in Attachment 2. Local benefits are divided into four zones depending upon the type of street lighting in the neighborhood.

- Zone 1 - properties are adjacent to major thoroughfares, which are served by higher levels of lighting compared to residential areas.
- Zone 2 - properties are primarily residential served by streetlights owned and maintained by the City.
- Zone 3 - properties are primarily residential served by streetlights owned and maintained by Southern California Edison.
- Zone 4 - properties are in areas without local street lighting, and which pay no local benefit assessment.

The annual assessment rates for a single-family property in each of these zones are as follows:

<u>Assessment ($/EDU)</u>

- Zone 1 Benefits
    - City Wide: $71.26
    - Local: $25.86
    - Total: $97.12

- Zone 2 Benefits
    - City Wide: $71.26
    - Local: $32.83
    - Total: $104.09

- Zone 3 Benefits

    - City Wide: $71.26
    - Local: $7.66
    - Total: $78.92

- Zone 4 Benefits
    - City Wide: $71.26
    - No Local Benefit
    - Total: $71.26

Properties owned by the City (parks, municipal facilities, etc.), the South Pasadena Unified School District, the State (Caltrans properties), or the U.S. Government (post office) are exempt from LLMD assessments.

As a result of Proposition 218 (Prop 218), the City cannot increase the proposed assessments without going through a public ballot process. The City Council has supported staff's recommendation to rely on an exemption of Prop 218 (passed in 1997), that allows the renewal of the LLMD assessments, provided the rates are not changed. If the assessment rates are changed, then the balloting requirements under Prop 218 must be fulfilled.

In January 2017, a ballot to increase assessments was performed. The final tally of the vote was 60.9% opposed and 39.1% in favor of the new assessments. As a result, assessment rates remained unchanged. In the FY 2025-2026 report, there is no proposed change to the assessments, and this was supported by Council during last year's FY 2024-2025 budget development discussions.

The attached resolution confirms the annual levy and approves the collection of assessments to fund LLMD costs. In August 2025, the City's consultant, DTA Finance will submit the proposed assessments to the Los Angeles County (County) Assessor's Office. Attachment 1 includes the proposed resolution and Attachment 2 includes a draft of the Engineer's Report.

Fiscal Impact
The LLMD estimated cost for FY 2025-2026 is $1,746,347 (refer to page four of the Engineer's Report). Since the revenue generated through the LLMD is approximately $900,000, a transfer from the General Fund is required to cover the shortfall. Funding to cover the shortfall is included in the FY 2025-2026 Proposed Budget.

The cost for consulting services of DTA Finance to prepare the required Engineer's Report, and other related administrative duties, is included in the Public Works workplan and annual operating budget.

Key Performance Indicators and Strategic Plan
This item is related to the annual assessment process for lighting and landscaping maintenance revenue and is not associated with a specific Council Priority.

Commission Review and Recommendation
This item was not reviewed by a City Commission

Public Notification
The public was made aware that this item was to be considered this evening by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on

the City's website. A public hearing notice was published in the South Pasadena Review on June 6, 2025. A copy of the attached Engineer's Report is available for viewing on the City's website.

Environmental Analysis
The action being considered does not constitute a "project" within the meaning of the California Environmental Quality Act ("CEQA"), pursuant to CEQA Guidelines section 15378(a) as it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect change in the environment.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, CONFIRMING A DIAGRAM AND THE FISCAL YEAR 2025-2026 ANNUAL LEVY AND COLLECTION OF ASSESSMENTS FOR CERTAIN MAINTENANCE IN AN EXISTING LIGHTING AND LANDSCAPING MAINTENANCE DISTRICT PURSUANT TO THE PROVISIONS OF DIVISION 15, PART 2 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA

WHEREAS, the City Council of the City of South Pasadena ("City Council"), California, has previously formed a Street Lighting and Landscaping Maintenance District pursuant to the terms and provision of the "Landscaping and Lighting Act of 1972," Division 15, Part 2 of the Streets and Highways Code of the State of California (the "Act"), in what is known and designated as the City of South Pasadena Street Lighting and Landscaping Maintenance District (District) for Fiscal Year 2025-2026; and

WHEREAS, on June 4, 2025, the City Council by resolution approved the Engineer's Report and adopted the Resolution of Intention for the annual levy and collection of assessments for Fiscal Year 2025-2026 to provide for the costs and expenses necessary for continued maintenance of improvements within said District to set a time and place for a Public Hearing on July 16, 2025 at 7:00 p.m.; and

WHEREAS, the proposed assessment rates for Fiscal Year 2025-2026 shall not increase over the assessments rates levied in Fiscal Year 2024-2025; and

WHEREAS, the City Clerk provided notice of the time and place for the public hearing in accordance with law on all matters relating to said annual levy of the proposed assessment; and

WHEREAS, the City Council held a full and fair public hearing regarding protests and objections to the levy and collection of assessments within the District for fiscal year commencing July 1, 2025 and ending June 30, 2026; and

WHEREAS, at the public hearing, all interested persons were afforded the opportunity to hear and be heard regarding protests and objections to the levy and collection of the proposed assessments against parcels of real property within the District. The City Council considered all oral and written statements, protests and communications made or filed by interested persons.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. That the above recitals are all true and correct and incorporated herein by reference as if set forth in full.

SECTION 2. The assessment is in compliance with the provisions of the Act, and the City Council has complied with all laws pertaining to the levy of an annual assessment pursuant to the Act.

SECTION 3. All oral and written protests and objections filed, and not withdrawn, are overruled and denied.

SECTION 4. That the estimates of costs, the assessment diagram, the assessments, and all other matters, as set forth in the Engineer's Report, pursuant to the Act as submitted and on file in the office of the City Clerk, are hereby approved, adopted by this City Council and hereby confirmed.

SECTION 5. That the maintenance work of improvements contemplated by the Resolution of Intention and described in the Engineer's Report shall be performed pursuant to law.

SECTION 6. The adoption of this Resolution constitutes the levy of the assessment for the fiscal year commencing July 1, 2025 and ending June 30, 2026.

SECTION 7. The County Auditor of Los Angeles County shall enter on the County Assessment Roll the amount of the Assessment and said Assessment shall then be collected at the same time and in the same manner as the County taxes are collected.

SECTION 8. That the City has previously established a special fund known as:

CITY OF SOUTH PASADENA
LIGHTING AND LANDSCAPING MAINTENANCE DISTRICT

into which the City shall place all monies collected by the Tax Collector pursuant to the provisions of the resolution and the law and said transfer shall be made and accomplished as soon as said monies have been made available to the City.

SECTION 9. That the City Clerk is hereby ordered and directed to file a certified copy of the diagram and assessment roll with the Auditor-Controller of

the County of Los Angeles, together with a certified copy of this Resolution upon its adoption.

SECTION 10. That a certified copy of the assessment and diagram shall be filed in the Office of the City Engineer, with a duplicate copy on file in the Office of the City Clerk and be open for public inspection.

SECTION 11. The City Clerk of the City of South Pasadena shall certify to the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

PASSED, APPROVED AND ADOPTED ON this 16th day of July, 2025.

Janet Braun, Mayor

ATTEST:

Hector Gomez,
Chief City Clerk

APPROVED AS TO FORM:

Roxanne Diaz, City Attorney

APPENDIX B ASSESSMENT DIAGRAM

I INTRODUCTION

This report (the "Engineer's Report") provides an analysis of the financial and administrative obligations of the Street Lighting and Landscaping Maintenance District ("District") of the City of South Pasadena (the "City").

This Engineer's Report is prepared at the direction of the City of South Pasadena and pursuant to the Landscaping and Lighting Act of 1972 ("1972 Act"), which is Part 2 of Division 15 of the Streets and Highways Code of the State of California; and in compliance with Article XIIID added to the California Constitution in November 1996 through the passage of Proposition 218 by voters of the State of California.

In calculating the assessment for Fiscal Year ("FY") 2025-2026, this report examines the current fiscal year's financial obligations and contains the following sections:

a. Plans and specifications of the Improvements;
b. An estimate of the costs of the Improvements;
c. Assessment methodology;
d. Assessment diagram;
e. Assessment roll;
f. Limitations of Report; and
g. Certifications

II PLANS AND SPECIFICATIONS

The facilities, which have been constructed within the City of South Pasadena, and those which may be subsequently constructed, will be operated, serviced, and maintained as generally described as follows:

DESCRIPTION OF IMPROVEMENTS
FOR THE CITY OF SOUTH PASADENA
STREET LIGHTING AND LANDSCAPING MAINTENANCE DISTRICT
FISCAL YEAR 2025-2026

The proposed improvements for Fiscal Year 2025-2026 may be generally described as the continued maintenance and operation of streets and sidewalks within the Assessment District, including the construction, operation, servicing and maintenance of landscaping, lighting and appurtenant facilities, including but not limited to, personnel, electrical energy, utilities such as water, materials, contracting services, and other items necessary for the satisfactory operation of these services described as follows:

- Landscaping and Appurtenant Facilities: Landscaping, planting, shrubbery, trees, irrigation systems, hardscapes, fixtures, sidewalk and curb and gutter maintenance adjacent to street trees, and appurtenant facilities, in public street and sidewalk rights-of-way, including parkways, medians and dedicated easements within the boundary of said Assessment District.
- Lighting and Appurtenant Facilities: Poles, fixtures, bulbs, conduits, equipment including guys, anchors, posts and pedestals, metering devices and appurtenant facilities as required to provide safety lighting and traffic signals in public street and sidewalk rights-of-way and easements within the boundaries of said Assessment District. Servicing of the Southern California Edison Company-owned lights shall be furnished by Southern California Edison Company or its successors or assignees and shall be adequate for the intended purpose. Rates for power and maintenance shall be authorized by the Public Utilities Commission, State of California.

Maintenance means the furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the landscaping, public lighting facilities and appurtenant facilities, including repair, removal or replacement of all or part of any of the landscaping, public lighting facilities or appurtenant facilities providing for the life, growth, health and beauty of the landscaping, including cultivation, irrigation, trimming, spraying, fertilizing and treating for disease or injury; the removal of trimmings, rubbish, debris and other solid waste; and the cleaning, sandblasting and painting of walls and other improvements to remove or cover graffiti.

Servicing means the furnishing of water for the irrigation of the landscaping and the maintenance of any of the public lighting facilities or appurtenant facilities and the furnishing of electric current or energy, gas, or other illuminating agent for the public

lighting facilities, or for the lighting or operation of landscaping or appurtenant facilities.

The plans and specifications for the improvements, showing the general nature, location, and the extent of the improvements, are on file in the office of the City Clerk and are incorporated herein by reference.

III ESTIMATES OF COSTS

Estimated costs, as provided by the City, for Fiscal Year 2025-2026 for the construction, operation, servicing and maintenance of the landscaping and lighting facilities described in Section 2 are shown in the following table.

Table 1: Estimate of Cost

Land Use Category	Local (Zones 1-3)	Citywide (Zone 1-4)	District Total
Landscape Maintenance			
Street Tree Maintenance, Removal, and Replacement	$0	$770,188	$770,188
Median Landscape Maintenance	$0	$153,000	$153,000
Total Landscape Maintenance	***$0***	***$923,188***	***$923,188***
Street Lighting and Traffic Signals[1,2]			
Major Thoroughfare Street Lighting[2,3]	$60,474	$181,421	$241,895
City-Owned Street Lighting	$100,790	$0	$100,790
Edison-Owned Street Lighting	$60,474	$0	$60,474
Street Lighting Subtotal	$221,738	$181,421	$403,159
Traffic Signals	$0	$420,000	$420,000
Total Street Lighting & Traffic Signals	***$221,738***	***$601,421***	***$823,159***
Total Costs	***$221,738***	***$1,524,609***	***$1,746,347***
Revenue			
Assessment Revenue FY 2025-2026	$164,263	$734,011	$898,274
Non-Assessed Benefit Amount [1]	$57,475	$790,598	$848,073
Total Revenue	***$221,738***	***$1,524,609***	***$1,746,347***

[1] The City is currently levying the maximum assessment of $71.26 per EDU and any shortfall in costs is funded through the City's General Fund.

Notes:

1. Street tree maintenance costs include City staff costs and contracted costs for street tree maintenance and street tree related sidewalk repair.
2. Street lighting costs include City staff costs and electricity. The street lighting total ($403,159) is allocated 60% to Major Thoroughfare ($241,895), 25% to City-Owned ($100,790) and 15% to Edison-Owned ($60,474).
3. Major Thoroughfare street lighting costs ($241,895) are allocated 25% to Local Zone 1 ($60,474) and 75% to Citywide ($181,421).
4. Administrative costs include City staff costs and contracted costs to manage the District and process the annual assessment levy.

A Fund Balance

The 1972 Act requires that a special fund be set up for the revenues and expenditures of the District. Funds raised by assessment shall be used only for the purpose as stated herein. A

contribution to the District by the City may be made to reduce assessments or to fund costs which are greater than revenue from the assessments, as the City Council deems appropriate. Any balance or deficit remaining on July 1 must be carried over to the next fiscal year. Estimated beginning and ending fund balances for Fiscal Year 2025-2026 are shown in the following table:

Table 2: Fund Balance

Description	Amount
Fiscal Year 2024-2025	
Beginning Balance (July 1, 2024)	$23,407
Revenue	$910,062
Expenditures	($1,703,153)
Contribution from Other Sources	$769,684
Estimated Ending Balance (June 30, 2025)	$0
Fiscal Year 2025-2026	
Estimated Beginning Balance (July 1, 2025)	$0
Revenue	$910,062
Expenditures	($1,746,347)
Contribution from General Fund	$836,285
Estimated Ending Balance (June 30, 2026)	$0

IV ASSESSMENT METHODOLOGY

Street and Highways Code Section 22573 requires that maintenance assessments be levied according to benefit rather than according to assessed value. This section states that "the net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

The 1972 Act permits the designation of areas of benefit within any individual assessment district if "by reason of variations in the nature, location, and extent of the improvements, the various areas will receive different degrees of benefit from the improvements." (Sec. 22574). Thus, the 1972 Act requires the levy of a true "assessment" rather than a "special tax."

A Impact of Proposition 218

In November 1996, the voters of California adopted Proposition 218, which has been codified as Articles XIIIC and XIIID of the California Constitution. Proposition 218 imposed a number of substantive and procedural requirements on taxes, assessments, and property-related fees imposed by local governments in California.

- "Grandfathered" Assessments: Since the District Assessments were imposed prior to November 5, 1996, they are "grandfathered" under Article XIIID, Section 5(a) of the Constitution, which permits the continuation of assessments existing prior to the effective date of Proposition 218 so long as the assessments are imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems or vector control. Since 1997, the City elected to proceed with the "grandfathering" of the District which has allowed the annual renewal of the District Assessments at the rates that existed when Proposition 218 went into effect. Any increase above such rates must be in compliance with Proposition 218 and requires property-owner approval.
- Maintenance Cost Inflation: There has been an increase of cost to provide services over the years which have increased the District expenditures. However, the revenues have stayed the same due to the Proposition 218 limitations. As a result, the street light, traffic signal, and tree maintenance have been deferred. In addition, due to combined drought and aging forestry, staff has observed a substantial number of dead and diseased trees along with an increase in the number of claims due to fallen tree branches. As District operations and maintenance costs have increased, either maintenance has been deferred or the City's General Fund has been used to subsidize a portion of the costs. For Fiscal Year 2025-2026, it is estimated that the revenue shortfall for the District will be approximately $836,285.

- Fiscal Year 2017/18 Proposed Assessment Rate Increase. In an attempt to generate additional revenues and eliminate the General Fund subsidy, the City proposed to form a new assessment District that would replace the existing assessment District if approved by property owners within the District by way of an assessment balloting procedure in compliance with Proposition 218. In January 2017, property owners were asked to vote in favor of, or against, the new District with increased rates that would be sufficient to cover District costs, as well as a built-in annual inflation factor to allow rate escalation to match up with cost inflation. The property owners did not vote in favor of the new District and the existing District remains in place.

B Equivalent Dwelling Unit Assessment Methodology

The Equivalent Dwelling Unit method uses the single-family home as the basic unit of assessment. A single-family home equals one Equivalent Dwelling Unit (EDU). Every other land-use is converted to EDU's based on an assessment formula appropriate for the City. Multi-family and condominium parcels are converted to EDU's based on the number of dwelling units on each parcel of land. Commercial and Industrial parcels are converted to EDU's based on the lot size of each parcel of land.

- Single-Family Residential: The single-family parcel has been selected as the basic unit for calculation of the benefit assessments. This basic unit shall be called an Equivalent Dwelling Unit ("EDU"). Parcels designated as single family residential per the Los Angeles County land-use code are assessed 1 EDU.
- Multi-Family Residential: Multi-family uses, as well as condominiums, are given a factor of 0.80 EDU per dwelling unit. Based on data from representative cities in Southern California, the multi-family residential factor of 80 percent is determined by the statistical proportion of relative trip generation from diverse types of residential uses, in combination with population density per unit.
- Commercial/Industrial: Commercial/Industrial properties are designated as commercial, industrial, recreational, institutional, or miscellaneous uses per the Los Angeles County land-use codes. In converting improved Commercial/Industrial properties to EDUs, the factor used is the City of South Pasadena's average single family residential lot size of 7,500 square feet, or 5.808 dwelling units per acre. The Commercial/Industrial parcels will be assessed 5.808 EDU for the first acre or any portion thereof, and then 25% of 5.808 EDUs (1.452) for every additional acre or portion thereof, as the utilization of that portion of non-residential property greater than one acre is reduced and will be treated as vacant land. The minimum number of EDUs per parcel will be 1 EDU.
- Vacant Property: Vacant property is described as parcels with no improved structures. Property values in a community increase when public infrastructure is in place, improved, operable, safe, clean, and maintained, all properties, including vacant parcels, receive benefits as this is the basis of their value. Based upon the opinions of professional appraisers, appraising current market property values for

real estate in Southern California, the land value portion of a property typically ranges from 20 to 30 percent; in South Pasadena, we find that the average is about 50 percent. Additionally, the utilization of vacant property is significantly less than improved property and vacant property has a traffic generation rate of 0. Therefore, vacant property will be assessed at the rate of 25 percent of improved property.

- Vacant Residential: Parcels defined as single family residential parcels which do not have structures on the parcels are assessed 25% of a single-family dwelling. The parcels will be assessed 0.25 EDU per parcel.
- Vacant Non-Residential: Parcels defined as parcels which are not single-family residential, and which do not have structures on the parcel are assessed based upon the acreage of the parcel. The parcels will be assessed at the rate of 25% of the developed non-residential properties, or 1.452 EDU per acre or any portion thereof, with a minimum of 0.25 EDU per parcel.

Landlocked parcels and small parcels are not assessed; nor are public streets, public properties, utility easements, right-of-way, public schools, public parks, and common areas.

C EDU Rates by Land Use

The land-use category for each parcel is based on the Los Angeles County Assessor's Roll. A summary of EDU Rates by Land Use is shown below.

Table 3: EDU Rates by Land Use

Land Use Category	EDU Rates
0 Non-Assessed	0.00 EDU per Parcel
1 Single-Family Residential ("SFR")	1.00 EDU per Dwelling Unit
2 Multi-Family Residential / Condominiums	0.80 EDU per Dwelling Unit
3 Commercial / Industrial [1]	5.808 EDU per Acre for the first Acre plus 1.452 EDU per Acre for each additional Acre
4 Vacant – Residential	0.25 EDU per Parcel
5 Vacant – Non-Residential	1.452 EDU per Acre [3]

Note:
1. Based on the average size for SFR lots in the City of 7,500 SF which equals 5.808 Dwelling Units / Acre.
2. First acre, minimum 1.00 EDU per Parcel
3. Minimum 0.25 EDU per Parcel

D Inventory of Assessed Parcels

Information from the Los Angeles County Assessor's Roll, Assessor's Parcel Maps, and the City of South Pasadena's Planning Department was utilized to create the inventory of parcels in the District. The total number of assessed parcels; residential units; commercial, industrial, and vacant acreage and calculated EDUs for each land use category are shown in the following table:

Table 4: Inventory of Assessed Parcels

Land Use Category	No. of Parcels	Dwelling Units	Acres	EDUs
1 Single-Family Residential ("SFR")	4,379	4,379	N/A	4,379.00
2 Multi-Family Residential/Condominiums	2,040	6,523	N/A	5,218.40
3 Commercial / Industrial	323	N/A	121.61	650.35
4 Vacant – SFR	185	N/A	N/A	46.25
5 Vacant – Non-SFR	19	N/A	3.48	6.41
District Totals	**6,946**	**10,902**	**125.09**	**10,300.41**

E District Benefits

Parcels within the District receive benefit from the maintenance and operation of District improvements. Benefits received by parcels within the District are described below:

- Landscaping: All parcels in the City receive benefit from the landscaping maintenance funded by the District. The City maintains trees and miscellaneous shrubbery throughout the City. The trees and shrubbery are located within the public street and sidewalk rights-of-way, including in medians and parkways.

  The trees and shrubbery provide an aesthetically pleasing environment, shade, beautification, air purification and sound attenuation. These positive attributes increase the desirability of, and are special and direct benefits to, all properties throughout the City. Furthermore, trees and landscaping, if well maintained, provide beautification, shade, and enhancement of the desirability of the surroundings.

- Lighting: The proper functioning of street lighting is imperative for the welfare and safety of the public and property throughout the City. Proper maintenance and servicing of the street lighting system benefits properties within the District by providing proper illumination for ingress and egress and safe traveling at night.

  Improved security, fuel conservation, protection of property from crime and vandalism, and reduction of traffic accidents, are special and direct benefits to all properties within the City; lighting benefits are related to public safety and property protection and therefore increase desirability.

- Traffic Signals: The proper functioning of traffic signals is imperative for the welfare and safety of the public and property throughout the City. Proper operation and

maintenance of the traffic signal system is imperative to public convenience, orderly traffic flow, enhanced congestion management, and safety.

The City operates and maintains the traffic signal network and related components, including 30+ traffic signals and multiple pedestrian crossing devices.

The City costs to administer the maintenance and operations of the improvements, including administration of the District, also provide benefit to all properties in the District.

F Types of Benefit

There are two types of benefits that parcels receive from the maintenance and operation of the improvements as described below.

- Citywide Benefits: Benefits which are received by all taxable parcels in the City are considered to be Citywide Benefits, and the associated costs of these benefits are spread equally, based on Equivalent Dwelling Units, to all parcels within the District.

  The maintenance of street trees and leaf debris removal, sidewalk, curb and gutter repair adjacent to trees throughout the City, medians on Huntington Drive, Monterey Avenue and Fair Oaks are Citywide Benefits. All of the landscaping maintenance budget is attributed to Citywide Benefits and is assessed to all parcels in the District.

  Street lighting on the major thoroughfares provide Citywide Benefits, as all property in the City derive benefit from the convenience, safety and protection of people and property they provide. 75% of the Major Thoroughfare Street Lighting budget is attributed to Citywide Benefits and is assessed to all parcels in the District.

- Local Benefits: Benefits which are not received by all parcels in the City are considered to be Local Benefits, and the associated costs of these benefits are spread equally, based on Equivalent Dwelling Units, to only those parcels within the District receiving such benefits.

  Parcels that receive their local street lighting from the Edison-owned streetlights within the City receive the same amount of Local Benefit and the budget for the Edison street light system is assessed equally, based on Equivalent Dwelling Units, to those parcels only.

  Similarly, parcels that receive their local street lighting from the City-owned street lights within the City receive the same amount of Local Benefit and the budget for the City street light system is assessed equally, based on Equivalent Dwelling Units, to those parcels only.

  Parcels that receive their local street lighting from the major thoroughfare streetlights receive the same amount of Local Benefit and 25% of the budget for the major thoroughfare street light system is allocated to such benefit, the amount of which is assessed equally, based on Equivalent Dwelling Units, to those parcels only.

G Zones of Benefit

There are two types of benefits that parcels receive from the maintenance and operation of the improvements as described below.

- Zone 1: This zone consists of all property which is adjacent to the major thoroughfares in the District. Local Benefit received from the major thoroughfare streetlights, equal to 25% of the major thoroughfare street lighting budget is allocated to Zone 1 parcels.
- Zone 2: This zone consists primarily of residential property which is served by the City street lighting system. Local Benefit received from the City street lights, equal to 100% of the City street lighting budget is allocated to Zone 2 parcels.
- Zone 3: This zone consists primarily of residential property which is served by the Edison street lighting system. Local Benefit received from the Edison street lights, equal to 100% of the Edison street lighting budget, is allocated to Zone 3 parcels.
- Zone 4: This zone consists of parcels which do not have Local Benefits from street lighting and, therefore, receive only the Citywide Benefits.

H EDUs per Zone

Citywide Benefits are allocated to all assessable parcels in the City pro rata based on the total number of Citywide EDUs. Local Benefits are allocated to parcels in their respective Zones pro rata based on the total number of Zone EDUs. The distribution of EDUs per Zone is shown below.

Table 5:EDUs per Zone

Benefit Zone	EDUs
Zone 1 (Major Thoroughfare Parcels)	2,020.070
Zone 2 (Residential Property - City Owned Lights)	2,052.686
Zone 3 (Residential Property - Edison Owned Lights)	5,826.753
Zone 4 (No Local Benefits - Citywide Benefits Only)	400.900
Total	**10,300.409**

I Citywide Benefit

All parcels within the City receive Citywide Benefits. The total amount of Citywide Benefits is shown in the following table:

Table 6: Citywide Benefit

Budget Item	Benefit Amount
Street Tree Maintenance, Removal, and Replacement	$770,188
Median Landscape Maintenance	$153,000
Major Thoroughfare Street Lighting	$181,421
Traffic Signals	$420,000
Total Citywide Benefit	**$1,524,609**

J Citywide Benefit per EDU

The calculated assessment rate and the maximum assessment rate for Citywide Benefits are shown below:

Table 7: Citywide Benefit per EDU

Budget Item	Benefit Amount
Total Citywide Benefit	$1,524,609
Divided by Total Citywide EDUs	÷ 10,300.41
Calculated Citywide Benefit Per EDU	$148.01
Maximum Citywide Benefit Per EDU [1]	**$71.26**

[1] Amount established at time of formation of the District.

K Local Benefit

Parcels located within each Zone receive Local Benefits for their specific Zone. The total amount of Local Benefits for each Zone are shown below:

Table 8: Local Benefit

Budget Item	Zone 1	Zone 2	Zone 3	Zone 4	Local Total
Major Thoroughfare	$60,474	$0	$0	$0	$60,474
City-Owned System	$0	$100,790	$0	$0	$100,790
Edison-Owned System	$0	$0	$60,474	$0	$60,474
Total Local Benefit	**$60,474**	**$100,790**	**$60,474**	**$0**	**$221,738**

L Local Benefit per EDU

The calculated assessment rate and the maximum assessment rate for Local Benefits for each Zone are shown in the following table:

Table 9: Local Benefit per EDU

Budget Item	Zone 1	Zone 2	Zone 3	Zone 4
Total Local Benefit:	$60,474	$100,790	$60,474	$0
Divided by Total Zone EDUs	÷ 2,020.07	÷ 2,052.69	÷ 5,826.75	÷ 400.90
Calculated Local Benefit Per EDU	$29.94	$49.10	$10.38	$0.00
Maximum Local Benefit Per EDU [1]:	**$25.86**	**$32.83**	**$7.66**	**$0.00**

[1] Amounts established at time of formation of the District

M Assessment Summary

The calculated assessment amount and the maximum assessment amount for each Zone, including both Citywide Benefits and Local Benefits are shown in the following table:

Table 10: Assessment Summary by Zone

Description	Zone 1	Zone 2	Zone 3	Zone 4	Total
Calculated Citywide Benefit Assessment	$298,999	$303,827	$862,443	$59,339	$1,524,608
Calculated Local Benefit Assessment	$60,474	$100,790	$60,474	$0	$221,738
Total Calculated Benefit Assessment:	**$359,473**	**$404,617**	**$922,917**	**$59,339**	**$1,746,346**
Maximum Citywide Benefit Assessment	$143,951	$146,275	$415,216	$28,569	$734,011
Maximum Local Benefit Assessment	$52,240	$67,389	$44,635	$0	$164,264
Total Maximum Benefit Assessment	**$196,191**	**$213,664**	**$459,851**	**$28,569**	**$898,275**
Non-Assessed Benefit Assessment	**$163,283**	**$190,953**	**$463,066**	**$30,770**	**$848,072**

N Assessment Rates

The calculated assessment rates and the maximum assessment rate for each Zone, including both Citywide Benefits and Local Benefits, are shown in the following table.

Table 11: Assessment Rate per EDU by Zone

Description	Zone 1	Zone 2	Zone 3	Zone 4
Calculated Citywide Rate Per EDU	$148.01	$148.01	$148.01	$148.01
Calculated Local Rate Per EDU	$29.94	$49.10	$10.38	$0.00
Total Calculated Rate Per EDU:	$177.95	$197.11	$158.39	$148.01
Maximum Citywide Rate Per EDU [1]	$71.26	$71.26	$71.26	$71.26
Maximum Local Rate Per EDU [1]	$25.86	$32.83	$7.66	$0.00
Total Maximum Rate Per EDU [1]:	**$97.12**	**$104.09**	**$78.92**	**$71.26**
Non-Assessed Rate Per EDU:	**$80.83**	**$93.03**	**$79.47**	**$76.75**

[1] Amounts established at time of formation of the District.

V ASSESSMENT DIAGRAM

The boundaries of the District are coterminous with the boundaries of the City of South Pasadena. A diagram showing the exterior boundaries of the District and the lines and dimensions of each lot or parcel of land within the District has been submitted to the office of the City Clerk of the City of South Pasadena, and is included in Appendix B herein.

VI ASSESSMENT ROLL

The assessment set forth for each parcel is shown on the Assessment Roll for the District, included herein as Appendix A, as "Assessment Roll for City of South Pasadena, Street Lighting & Landscaping Maintenance District, Fiscal Year 2025-2026."

The Assessment Roll lists all parcels within the boundaries of the District as shown on the Assessment Diagram and on the last equalized roll of the Assessor of the County of Los Angeles, which is by reference made part of this report along with the proposed assessment amount for each benefiting parcel.

VII LIMITATIONS OF REPORT

The conclusions, calculations and recommendations in this report assume that all information and data provided to DTA Municipal Solutions by the City of South Pasadena was true and correct. Such data includes, but is not limited to: City budget data, parcel and property information, and the assessment methodology and authorized uses as described in the prior year Engineer's Report.

VIII CERTIFICATIONS

1. I, the _____ of the City of South Pasadena, California, hereby certify that the foregoing assessment, in the amounts set forth in the Assessment Roll included with this Engineer's Report, with the diagram attached to it, was filed with me on _____.

_____ _____, 2025
City Clerk, City of South Pasadena Date

2. DTA has prepared this Engineer's Report and does herby certify that the amounts set forth in Table 1 under Engineer's Cost Estimate herein, and the individual assessment amounts shown in the Assessment Roll included with this Engineer's Report, have been computed in accordance with the order of the City of South Pasadena, as expressed by its Resolution No. _____ duly adopted by the City Council on _____.

City Council Agenda Report

ITEM NO. 16

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Erika Ramirez, Community Development Director
Dean Flores, Acting Planning Manager

SUBJECT: **CONSIDERATION OF THE PROPOSED AMENDMENT TO THE CITY'S LAND USE AND OPEN SPACE ELEMENTS OF THE GENERAL PLAN, THE 2021-2029 (6TH CYCLE) HOUSING ELEMENT OF THE GENERAL PLAN AND THE DOWNTOWN SPECIFIC PLAN; AND INTRODUCTION OF AN ORDINANCE TO AMEND SOUTH PASADENA MUNICIPAL CODE (SPMC) CHAPTER 36 (ZONING) AND SOUTH PASADENA ZONING MAP TO PROPOSE NEW HEIGHT LIMITS, DENSITY ADJUSTMENTS, AND OTHER DEVELOPMENT STANDARD ADJUSTMENTS TO FACILITATE HOUSING AND IMPLEMENT HOUSING ELEMENT PROGRAMS**

Recommendation

It is recommended that the City Council conduct a public hearing and take the following actions:

1. Adopt a resolution amending the Land Use and Open Space Elements of the General Plan (Attachment 1),
2. Adopt a resolution conditionally amending the 2021-2029 (6th Cycle) Housing Element of the General Plan (Attachment 2),
3. Adopt a resolution amending the Downtown Specific Plan (Attachment 3),
4. Introduce and waive full reading of an ordinance amending Chapter 36 of the South Pasadena Municipal Code (Zoning Code) and the Zoning Map and request the City Attorney read the ordinance by title only (Attachment 4), and
5. Finding the actions in compliance with the California Environmental Quality Act (CEQA) via an Addendum to the General Plan's Program Environmental Impact Report (PEIR) and as statutorily exempt.

Executive Summary

This item recommends amendments to the City's General Plan Land Use and Housing Elements (and Land Use Map), the Downtown Specific Plan (DTSP), SPMC Chapter 36 (Zoning) and the official Zoning Map to implement Housing Element programs that support multi-family housing throughout the city. These changes include updated height and development standards, consistent with Measure SP, approved by the voters in November 2024. Measure SP authorizes the City Council to adopt appropriate height limits needed to meet the City's state-mandated Regional Housing Need Assessment (RHNA) and maintain Housing Element certification with the California Department of Housing and Community

Development (HCD). The proposal also includes refinements to the Housing Opportunity Overlay District to align densities with RHNA allocations across income levels, informed by further analysis and community feedback.

Below is a summarized list of the proposed amendments:

- General Plan – Align maximum heights of 45', 50' 60' or 70' and minimum density requirements as proposed in the Downtown Specific Plan (DTSP) Resolution and Zoning Ordinance; reflect proposed changes in the Land Use map
- Housing Element - Revise Tables VI-51 (now referred to as VI-53) and Table VI-52 (now referred to as VI-44) to remove calculation errors and remove sites that are unnecessary and to generally demonstrate RHNA compliance along with related information updates and consistency edits. (Note, that these amendments would only take effect once the Housing and Community Development Department (HCD) finds the amended Housing Element in compliance with State Housing Element Law).
- Downtown Specific Plan (DTSP) - in Fair Oaks Corridor Zone, allow a density of 90 du/acre (reduced from 110 du/acre) and a maximum height of 70 feet; amend the portion of the Mixed Use Core Zone on Mission Street west of Orange Grove Avenue to allow a density of 50 du/acre (instead of 70 du/acre) with a maximum height of 50 feet; allow a maximum height of 60 feet for remaining properties in the Mixed Use Core Zone with a density of 70 du/acre; revise applicable development standards and update the DTSP map and other associated figures accordingly
- Zoning Code and Zoning Map - Modification of the maximum allowable height (using a concept known as height averaging) and other development standards in the Mixed-Use Overlay Zone and Housing Opportunity Overlay (HOO) Zone, modifying the boundary of the HOO zone by removing the majority of the RM-zoned properties (while maintaining all of the RH-zoned properties) in the Ostrich Farm area and maintaining most of the RM-zoned properties (while maintaining all of the RH-zoned properties) along Huntington Drive; establishing a CF-50 zoning district to allow higher intensity multifamily housing on certain religious congregation or private school sites that are larger than two acres; and revising the Zoning Map accordingly to show all of the affected areas and referencing their maximum allowable densities and heights.

Multiple outreach efforts and public hearings were held from January - June 2025 that helped the Planning Commission make their formal recommendations to City Council on the proposed amendments. Feedback from these meetings has been incorporated into the proposed amendments, which have also been informed by ongoing analysis and review of the data and by the work of the Planning Commission sub-committee which has provided research and analysis, while working with staff and the consultants. Lastly, an Addendum to the Environmental Impact Report for the General Plan and Downtown Specific Plan Update & 2021–2029 Housing Element Implementation Programs has been prepared in compliance with the California Environmental Quality Act, although the actions are also exempt from CEQA pursuant to a recently enacted statutory exemption.

Background

Current Zoning and Project Initiation

In May 2023, the City adopted the 6th Cycle Housing Element, which included programs to increase residential capacity and facilitate affordable housing production. Since then, the City Council has adopted several ordinances to implement these programs by increasing allowable

residential densities, including affordable units, in targeted areas.

In 2023, a Mixed-Use Overlay was established for commercial zones along the city's corridors, permitting residential and mixed-use projects at densities up to 70 dwelling units per acre (du/acre). Later that year in October, The Downtown Specific Plan (DTSP) was adopted creating two new zones:

- **Mixed-Use Core Zone** (Mission Street and some adjacent streets): up to 70 du/acre
- **Fair Oaks Avenue Zone:** up to 110 du/acre.

In 2024, the City increased residential densities in the RM (Residential Medium Density) and RH (Residential High Density) zones:

- RM: from 14 to 30 du/acre
- RH: from 24 to 45 du/acre

Subsequently, in 2024, the City created the Housing Opportunity Overlay (HOO) Zone, which was applied to selected areas within the RM and RH zones. The HOO Zone was established in locations near the Ostrich Farm, along the length of Huntington Drive, and the southern part of Fair Oaks Avenue. It permits residential development at a density of up to 70 du/acre, subject to additional applicable standards.

Because of the previous citywide cap on building heights of 45 feet, the Council was unable to adopt heights limits exceeding 45 feet when these increased densities were established. As a result, all zones permitting densities of 50 du/acre or more- including the RM, RH, Mixed Use Overlay, DTSP, and HOO- remain limited to a 45-foot maximum building height. The Housing Element identified that future development may require greater heights (estimated at up to 84 or 110 feet) to accommodate increased densities, particularly along Fair Oaks Avenue, but these projections were not based on detailed modeling or feasibility analysis.

Pursuant to SPMC Section 36.620.030, amendments to the General Plan, Specific Plans, and Zoning Code/Map must follow established procedures. The City Council's adoption of the Housing Element- specifically Program 2.n (Citywide Height Limit Ballot Initiative) and 3.n (Zoning Changes)- demonstrated intent to initiate the height and development standard amendments, to support allowing for 50 dwelling units/acre or more, which are included in this item. Program 2.n the City to revise height standards within 120 days of voter approval of Measure SP. Program 3.n, already partially implemented through prior zoning code updates, is now being advanced further through this proposed set of amendments.

These amendments are necessary to align height limits and development standards with the increased densities, complete implementation of Housing Element programs, support RHNA compliance, and guide context-sensitive housing development across the City.

Community Outreach and Planning Commission Recommendation

In order to provide multiple opportunities to communicate with and hear from the community following the approval of Measure SP, the Community Development Department, together with its consultants, the Arroyo Group, developed and implemented an extensive outreach plan over the months of January through June.

On January 14 and 23, 2025, the City hosted two community listening sessions. These listening sessions included am informational portion, educating attendees on the current status

of the Measure SP implementation and other relevant updates from the Community Development Department. Additionally, these community listening sessions gave residents an opportunity to ask questions and leave comments regarding the Housing Element and Measure SP. Where applicable, City staff was able to answer questions and provide clarification to residents' inquiries. Longer written responses were later prepared and posted on the Department's website.

On February 1, 2025, the City hosted a walking tour in the Downtown Mission Street and Fair Oaks areas. During this walking tour, the planning team shared local examples of higher density and heights, visited new multifamily and mixed-use developments in the City, and visited the sites of proposed/approved housing developments and suitable sites included in the Housing Element. City staff and stakeholders discussed appropriate densities and heights in different areas as well as development standards that make higher heights and densities possible and palatable.

A second walking tour took place on February 15, 2025, in the Ostrich Farm and Huntington Drive areas. This walking tour covered the same topics as the first walking tour within the different contexts of these areas. Each walking tour was attended by approximately 40 stakeholders, including City Councilmembers and Planning Commissioners. Valuable feedback was collected during these walking tours and incorporated into the open houses held in February.

On February 18, 2025, the City hosted an open house to showcase the analysis prepared in regard to height limits in conjunction with housing density. The open house visuals included boards explaining the process, maps of the current and proposed zoning and density, examples of height studies conducted on development scenarios in the Huntington Drive, Ostrich Farm, Fair Oaks, and Mission Street areas, and an interactive board for participants to weigh in on their priorities as they related to density and height.

A second open house was held on March 18, 2025, this time focusing on current development standards that may factor into the challenges of developing housing, including: setbacks, stepbacks, building breaks, parking location, open space, and minimum unit sizes. The session featured a presentation, real-time polling activity to gauge reactions to the standards and a Q&A session. Both open houses were attended by approximately 40 stakeholders.

On March 26, 2025, the Planning Commission and City Council hosted a joint study session on Measure SP Implementation, to hear additional public comments and get feedback and direction for preparation of the draft amendments to the Land Use Element, Housing Element, Downtown Specific Plan, and Zoning Code.

On April 29, 2025, the Planning Commission held its initial public hearing on the proposed amendments. Following review and public input, the Commission continued the hearing to May 7, 2025. The Commission requested the Arroyo Group and staff, consider alternative scenarios of the proposed adjustments to maximum heights, densities, and boundary of the HOO Zone. The public hearing was continued with further Planning Commission deliberations and public input opportunities on May 20, 2025, June 10, 2025, and June 24, 2025. An open house on June 16, 2025 provided the community an opportunity to review the Commission's draft recommendations to City Council. At a continued public hearing meeting held on June 24, 2025, the Commission adopted four Resolutions recommending approval of the proposed amendments to the City Council.

Analysis
The primary objective of the proposed project is to adjust maximum allowable building heights and residential densities (dwelling units per acre) in targeted areas of the city. As summarized in Attachment 5, the final recommendations reflect an iterative process informed by public input, development scenario testing by the Arroyo Group, and detailed review by the Planning Commission over the course of several public meetings, beginning with the March 26 Study Session and concluding with the Commission's formal recommendation on June 24, 2025.

The Commission carefully evaluated existing conditions across affected areas, including downtown districts, Huntington Drive and the Ostrich Farm area. Based on this analysis, the majority of RM-zoned properties in the Ostrich Farm and portions of Huntington Drive were removed from the Housing Opportunity Overlay (HOO) Zone. The Commission also emphasized aligning height limits with allowed densities across all areas, resulting in the following standards:

- Areas with a maximum density of 70 units/acre - 60 ft. max height
- Areas with a maximum density of 90 units/acre - 70 ft. max height
- Areas with a maximum of density of 50 units/acre - 50 ft. max height
- Areas with a maximum density of 30 units/acre - 45 ft. max height

Additionally, the Planning Commission recommended allowing residential development on certain religious congregation and private school sites, subject to the following criteria:

- Sites in the CF zone larger than two acres: up to 50 du/ac, or
- Sites in the DTSP Civic zone larger than one acre:
- Rezone non-sanctuary properties to Mixed-Use Core (70 du/ac)

These recommendations are reflected in the proposed amended Zoning Map (Exhibit B of Attachment 4), which illustrates each area's zoning designation along with corresponding maximum densities and building heights.

Housing Element Amendment

As noted above, a formula error in Housing Element Table VI-51 (now known as Table VI-53) led to an overestimation of the zoning needed to meet the City's RHNA allocation by income category. The table incorrectly signaled a need for additional high-density zoning to demonstrate compliance. In response, the City proceeded with rezoning actions to secure HCD certification of the Housing Element. As a result, the City's current residential development capacity significantly exceeds RHNA requirements, creating a buffer that is larger than necessary.

Further review also identified discrepancies in the assumed probability of development for certain sites. While the narrative stated a 30% assumption, the calculation used only 8%, effectively lowering the projected capacity. In addition, the total number of units reflected in the table did not align with totals reported elsewhere in the document due to the absence of a summarized total. These combined errors further contributed to the conclusion that additional zoning was required and which was undertaken to obtain HCD certification.

The draft Housing Element amendment will correct these issues by applying a more realistic development probability of 7.5% over the eight-year planning period—consistent with the prior 8% assumption—and now includes a total that aligns with the RHNA compliance summary

(Table VI-44). The current process to revise height limits presents an opportunity to “right-size” allowable density, better aligning it with RHNA obligations and reducing the surplus buffer. Additional related updates to the Housing Element are provided in Exhibits A (Summary of Changes) and B (Full Amendment) of Attachment 2. As noted above, the Housing Element amendments would only become effective at such time as the required HCD review process has been completed, and HCD finds that the amended Housing Element substantially complies with Housing Element Law, which is also known as HCD certification.

General Plan Amendment

To maintain internal consistency among General Plan elements, corresponding updates to the Land Use Element are required as a result of the proposed Housing Element amendments. As noted in the Executive Summary, the Planning Commission’s recommendations generally align maximum allowable residential densities with corresponding height limits in specific zoning areas and their associated General Plan land use designations. Accordingly, the proposed General Plan Amendment includes the following changes:

- Allowing up to 60' in building height in the Mixed-Use Core and HOO Zone
- Allowing up to 50 units/acre and 50' building height on Mission Street, west of Orange Grove Avenue
- Allowing up to 90 units/acre in the Fair Oaks Corridor with a maximum building height of 70'
- Allowing up to 50 units/acre and 50' in building height for properties in the Civic land use designation (so long as they meet the aforementioned zoning requirements),
- An updated Land Use map consistent with the proposed Zoning Map Amendment
- Other minor associated edits throughout

These general plan amendments would take effect when the Zoning Ordinance and Zoning Map amendments are effective, in order to allow, among other things, the new height standards to become effective in furtherance of Housing Element Program 2.n.

DTSP, Zoning Code, and Zoning Map Amendments

To implement the proposed adjustments to maximum allowable density and building height, amendments to the Downtown Specific Plan (DTSP), Zoning Code, and Zoning Map are required. Attachments 3 and 4 include the draft DTSP Resolution and zoning ordinance for these amendments. In addition to updating allowable densities and heights, the resolution and ordinance also include related modifications to development standards necessary to support the proposed changes.

A Planning Commission subcommittee, composed of Commissioners Claypool and Gallatin, collaborated with staff and the Arroyo Group to evaluate and recommend updates to existing standards. Proposed adjustments include, but are not limited to: minimum setbacks, stepbacks, building articulation, private and common open space, minimum site landscaping, and parking requirements. These revised standards would apply to the DTSP zones (Mixed-Use Core and Fair Oaks Corridor), as well as the RM, RH, Mixed-Use Overlay, and Housing Opportunity Overlay (HOO) zones. The full list of proposed development standard amendments are incorporated into the attached DTSP Resolution and zoning ordinance as well as a summary table being provided as Attachment 6.

The Zoning Map is also proposed to be updated to reflect the locations of all affected areas. For reference, the current Zoning Map is provided as Attachment 7, and the proposed map is included as Exhibit B of Attachment 4 and as Attachment 8. The proposed changes include the following:

- Clearly delineating the zoning districts' maximum allowable densities with corresponding maximum allowable heights in the "Legend" area of the document
- Allowing housing on certain CF-zoned properties (as mentioned previously) and showing their locations on the map
- Modifying the boundaries of the HOO Zone by removing the many of the RM-zoned properties along Ostrich Farm area while maintaining most of the RM-zoned properties along Huntington Drive
- Including the boundary of the Historic Business District and location of existing Historic Landmarks for reference

Economic Feasibility and RHNA Capacity Buffer

A key consideration in the Planning Commission's recommendations was ensuring that the proposed adjustments would support economically feasible development. The Arroyo Group prepared multiple iterations of an Economic Feasibility Memorandum, with the most recent version included as Attachment 8. The memorandum incorporates a 7.5% development probability for Housing Element sites over the eight-year planning period and includes prototypical development models aligned with the Commission's recommended standards.

As noted above, the proposed amendments—supported by the feasibility analysis—result in a projected surplus of 641 units beyond the City's RHNA requirements, as shown in Table VI-44 of the Housing Element Amendment. Of these, 118 units (10.2%) are allocated to the lower-income category, which is anticipated to meet HCD expectations if the City Council adopts the recommended changes.

Findings

The required Municipal Code findings for each proposed amendment can be found in their corresponding resolution or ordinance in Attachments 1-4.

Alternatives

As an alternative to the recommendation, the City Council may consider:

1. Revising the draft recommendations, introduce the ordinance, and approve the resolutions with any applicable revisions,
2. Continue the public hearing, and direct staff to modify any requested information or run additional development scenarios

Fiscal Impact

Upon adoption of the proposed amendments, staff time would be required to implement the updated General Plan, Downtown Specific Plan, Zoning Code, and Zoning Map. These costs are included in Community Development's operating budget for fiscal year 2024-5 and

proposed budget of fiscal year 2025-26. Additionally, any future development projects as a result of the proposed amendments will have to pay their respective permit and development impact fees.

Key Performance Indicators and Strategic Plan
This project supports the following priority in the Strategic Plan:

Priority 5: Plan for affordable housing to comply with state mandates and respond to community needs.

Commission Review and Recommendation
As mentioned earlier in the report, the Planning Commission initially opened the public hearing on this item on April 29, 2025 and continued the hearing multiple times on May 7th, May 20th, June 10th and June 24th. On June 24, 2025, in a 6-0 vote, the Planning Commission passed four resolutions (one for the General Plan Amendment, Housing Element Amendment, DTSP Amendment, and Zoning Code/Zoning Map Amendment) to recommend that the City Council adopt each amendment as presented in Attachments 1-4 of this staff report.

Public Notification
A public notice for this Public Hearing was published in the South Pasadena Review on July 4, 2025 as required by law. The public was also made aware of this public hearing through its inclusion in the legally publicly noticed agenda, posted physically at City Hall on the City's website, City social media posts, and via email sent to a list of interested parties.

Environmental Analysis
The policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Environmental Assessment (EA) prepared for the Housing Element, and adopted by the City Council on May 30, 2023, and the changes are within the scope of that analysis.

Further, the policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Program Environmental Impact Report (PEIR) for the General Plan and Downtown Specific Plan Update and 2021-2029 Housing Element Implementation Programs, which was certified by the Council on September 27, 2023. Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Based on the analysis and information contained in the Addendum to the PEIR, included as Attachment 10 to the staff report presented herein, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed Amendments indicates that there are no new significant environmental impacts associated with implementation of height, density and development standards to support housing development. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed, and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents. The amendments to these policy documents are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage, as reflected in the certified Housing Element. Therefore, an addendum to the PEIR

has been prepared in compliance with CEQA.

This Project also qualifies for a recently enacted CEQA exemption for housing element implementation, as codified in Public Resources Code Section 21080.085, and adopted as part of SB 131 which took immediate effect. This exemption provides as follows:

"21080.085 (a) This division [CEQA] does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code."

Section 65583 (c) implementation actions, although referred to in the exemption as rezoning, are broadly defined to include, but are not limited to:

- making make sites available during the planning period with appropriate zoning and development standards to accommodate RHNA needs for all income levels that could not be accommodated on sites identified in the sites inventory,
- assisting in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.
- removing governmental and nongovernmental constraints for development of housing for all income levels

The Project includes consistency amendments among the various interrelated documents (General Plan, Housing Element, Downtown Specific Plan, and Zoning) that are within the scope of, and contemplated by programs under Section 65583 (c).

With respect to tribal consultation, the proposed adjustments to height, density, and other standards have no impact on tribal cultural resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of tribal cultural resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any tribal cultural resources as listed above. Although not required pursuant to CEQA, the City invited tribal consultation pursuant to SB 19. The Gabrieleño Band of Mission Indians - Kizh Nation requested consultation. The Tribe and the City engaged in consultation, and the Tribe requested mitigation related to tribal monitoring for any ground disturbing activities associated with the Project. However, this Project involved policy and planning decisions with no ground disturbance contemplated, thus there is no ground monitoring to be monitored, and there would not be any unanticipated discovery of tribal cultural resources or human remains. In the future, specific development projects would be reviewed for CEQA applicability and compliance, and based on the environmental review process undertaken, tribal monitoring of related ground disturbances, and protocols for unanticipated discovery of tribal cultural resources or human remains may be required or added as a mitigation. Further, all projects are subject to existing laws related to discovery and treatment of human remains.

Additionally, during the June 24, 2025 Planning Commission meeting a resident, Mr. Ed Elsner, provided a public comment that questioned the environmental review of the Housing Opportunity Overlay zone with a 70 dwelling units per acre allowed density. Mr. Elsner referred to comments he made on the Program EIR for the General Plan and Downtown Specific Plan Update and Housing Element Implementation Programs related to Housing Element Table VI-51 (now Table VI-53) assumptions and responses to those comments regarding the City's intent to correct the table through a future amendment process, which is

part of this current project effort. However, when the City Council adopted the Housing Opportunity Overlay zone in March 2024, in order to implement the housing element and obtain HCD certification, the City Council found that the rezoning action was exempt from CEQA, pursuant to Government Code Section 65759. This determination was based on the action being taken to bring the General Plan into compliance with state law and a court order related to the Housing Element litigation. Further, an Environmental Assessment was prepared and adopted for the Housing Element, pursuant to the special provisions of Government Code Section 65759, and the Housing Overlay zone implemented the housing element. The City filed a notice of exemption related to adoption of the Housing Opportunity Overlay zone, and the CEQA challenge period has long since expired. Therefore, CEQA review of the Housing Opportunity Overlay has been completed, and the implementation actions contemplated as part of this Project result in scaling back the Housing Opportunity Overlay Zone on certain RM properties, and thus would have lesser impacts, including any impacts to views or vistas, than under current regulations.

RESOLUTION NO. __

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ADOPTING A GENERAL PLAN AMENDMENT TO IMPLEMENT THE 2021-2029 (6TH CYCLE) HOUSING ELEMENT AND RELATED ACTIONS

WHEREAS, Sections 65300 *et. seq.* of the California Government Code requires each city and county to adopt a comprehensive, long-term General Plan for the physical development of land within its jurisdiction and Sphere of Influence; and

WHEREAS, Sections 65580 *et. seq.* of the California Government Code requires each city and county to periodically prepare and update its Housing Element in its General Plan. The City of South Pasadena received the Regional Housing Needs Allocation (RHNA) numbers from the Southern California Association of Government in 2019, in conjunction with the requirement that the City update its Housing Element for the 6th Cycle (2021-2029); and

WHEREAS, on May 30, 2023, the City Council adopted the Environmental Assessment (EA) prepared for the 2021-2029 (6th Cycle) Housing Element ("Housing Element") and then adopted the Housing Element; and

WHEREAS, certain further actions were necessary to obtain a determination from the State Department of Housing and Community Development (HCD) that the Housing Element substantially complied with Housing Element Law; and,

WHEREAS, the City completed the necessary actions and on July 29, 2024, HCD found the City's Housing Element to substantially comply with State Housing Element Law; and,

WHEREAS, on September 27, 2023, the City Council adopted the Program Environmental Impact Report prepared for the General Plan Update and the Downtown Specific Plan and 2021-2029 Housing Element Implementation Programs Project; and

WHEREAS, the City has continued to work diligently to implement Housing Element programs, including adopting a new General Plan, Downtown Specific Plan, and rezoning; and

WHEREAS, Housing Element Program 2.n called for the City to place a ballot initiative before the voters of South Pasadena to consider removing the 45-foot building height limit in certain parts of the City, and on November 5, 2024, South Pasadena residents approved said measure with the results being certified by the City Council on December 18, 2025, thus enabling amendments to the General Plan, Downtown Specific Plan, and the South Pasadena Zoning Code consistent with the adopted Housing Element; and

WHEREAS, on February 1 and February 15, 2025, the City conducted walking tours to familiarize residents and public officials with the areas under consideration for revised building height limits and development standards, with staff receiving feedback and suggestions from the community on potential changes to both the South Pasadena Municipal Code and Downtown Specific Plan, as well as the Housing Element, with approximately 40 residents in attendance at each event; and

WHEREAS, on February 18, 2025, the City conducted an open house to showcase the analysis prepared in regard to height limits in conjunction with housing density, with maps showing areas in which the City proposed to increase height and exhibits showing examples of conceptual development scenarios in areas that included Huntington Drive, Ostrich Farm, Fair Oaks Avenue, and Mission Street, with staff receiving feedback from the approximately 40 residents who attended; and

WHEREAS, on March 11, 2025, a subcommittee of two Commissioners was formed to study in-depth the assumptions and methodology involved in the proposed amendments; and

WHEREAS, on March 18, 2025, the City conducted a second open house, this time focusing on current development standards that may present challenges to housing development including setbacks, stepbacks, building breaks, parking location, open space, and minimum unit sizes, with staff receiving feedback from the approximately 40 participants who attended; and

WHEREAS, on March 26, 2025, a joint City Council and Planning Commission study session was held wherein additional public comment and feedback from both the Planning Commission and the City Council were received regarding potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the Zoning Code found in the South Pasadena Municipal Code, and the City's Zoning Map; and

WHEREAS, On April 8, 2025, the Planning Commission subcommittee that was convened to study the assumptions and methodologies upon which potential amendments would be based reported to the full Planning Commission, resulting in further feedback to staff with the subcommittee continuing to work with staff to prepare a recommendation for future consideration by the Planning Commission; and

WHEREAS, on April 29, 2025, the Planning Commission held a duly noticed Public Hearing, wherein the Planning Commission received a staff presentation and staff report on potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map ("proposed project" or "project"; received public testimony; and held Planning

Commission discussion. Thereafter, the Planning Commission continued the Public Hearing to May 7, 2025; and

WHEREAS, on May 7, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrected maps and exhibits, including a density/height summary table and received public testimony. Thereafter, the Planning Commission continued the public hearing to May 20, 2025; and

WHEREAS, on May 20, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrections to the zoning map and density/height summary table, received public testimony and gave direction to staff and the City's consultant for additional information and scenarios related to the density and height amendments. Thereafter, the Planning Commission continued the public hearing to June 10, 2025; and

WHEREAS, on June 10, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received an updated density and height table of density based on recommendations and suggestions from the Planning Commission, received the updated Housing Element inventory zoning scenarios with corresponding Zoning Maps, received updated development standards table prepared by the Subcommittee and staff; resumed its discussion and provided preliminary recommendations to Staff in preparation for a community meeting to be held on June 16, 2025. Thereafter, the Planning Commission continued the public hearing to June 24, 2025; and

WHEREAS, on June 16, 2025, the Planning Commission held a community meeting to received input from the community and stakeholders regarding the Planning Commission's preliminary recommendations related to density, height and development standards in order to implement the Housing Element programs; and

WHEREAS, on June 24, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received a staff presentation and staff report on the amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map based on the Planning Commission's previous discussion and direction; received a summary of the comments received at the June 16, 2025 community meeting; received public testimony; and held Planning Commission discussion and provided further direction to staff. Thereafter, the Planning Commission adopted a Resolution to recommend that the City Council adopt a General Plan Amendment to implement the Housing Element; and

WHEREAS, on July 16, 2025, the City Council held a duly noticed Public Hearing, wherein the City Council received a staff presentation and staff report on the proposed General Plan Amendment, as well as amendments to the Housing

Element and Downtown Specific Plan and a Zoning Text Amendment and Zoning Map Amendment, as it relates to height, density and development standards in the City's zoning and overlay districts in order to implement the Housing Element. The City Council received public testimony and all interested persons had an opportunity to, and did, testify in this matter. Thereafter, the City Council asked questions and deliberated; and

WHEREAS, all legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES HEREBY RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. Recitals. The above recitals are hereby declared to be true and correct and are incorporated herein as if set forth in full.

SECTION 2. Findings. Based upon substantial evidence presented to the City Council during the Public Hearing, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council finds:

A. All necessary Public Hearings and opportunities for public testimony and comment have been conducted in compliance with applicable law;

B. That the proposed General Plan Amendment (GPA) is consistent with the Housing Goals and residential densities prescribed in the 2021-2029 (6th Cycle) Housing Element and other General Plan elements.

SECTION 3. California Environmental Quality Act (CEQA). The policies and implementation documents that were adopted and now proposed for the amendment were analyzed in the Environmental Assessment (EA) prepared for the Housing Element, and adopted by the City Council on May 30, 2023, and the changes are within the scope of that analysis. Further, the policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Program Environmental Impact Report (PEIR) for the General Plan and Downtown Specific Plan Update and 2021-2029 Housing Element Implementation Programs, which was certified by the Council on September 27, 2023. Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Based on the analysis and information contained in the Addendum to the PEIR, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed amendments indicates that there are no new significant

environmental impacts associated with implementation of height, density and development standards to support housing development. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed, and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents. The amendments to these policy documents, are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage, as reflected in the Housing Element.

Therefore, the City Council adopts the July 2025 addendum to the PEIR. Further, on a separate and independent basis, the City Council finds that the project is exempt from CEQA pursuant to recently enacted Public Resources Code Section 21080.085, which provides that CEQA does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code. Section 65583(c) implementation actions, although referred to in the exemption as rezoning, are broadly defined to include, but are not limited to: making make sites available during the planning period with appropriate zoning and development standards to accommodate RHNA needs for all income levels that could not be accommodated on sites identified in the sites inventory; assisting in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households; removing governmental and nongovernmental constraints for development of housing for all income levels. The project includes consistency amendments among the various interrelated documents (General Plan, Housing Element, Downtown Specific Plan, and Zoning) that are within the scope of, and contemplated by programs under Section 65583 (c). Also, the actions included in the project reflect implementation of the Housing Element in light of Measure SP, and implementation of other Housing Element programs contemplated under Section 65583(c).

SECTION 4. General Plan Amendment Findings. South Pasadena Municipal Code Section 36.620.070(A) provides that a General Plan Amendment may be approved only if certain findings are met. Accordingly, based upon substantial evidence, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council makes the following findings:

A. The General Plan Amendment is internally consistent with the actions, goals, objectives, and policies of the General Plan as well as programs contained in the 2021-2029 (6th Cycle) Housing Element with the amendments of July 16, 2025. Specifically, the project is consistent with the following:

Housing Element Program 2.n: Citywide Height Limit Ballot Initiative.

Housing Element Program 3.n:	Zoning Changes.
General Plan Policy P5.8:	Support the reduction of governmental and regulatory constraints, and advocate for the production of affordable housing.

Given that the General Plan Amendment would implement changes to support heights and building standards in support of, and consistent with, the Housing Element as amended on July 16, 2025, the City Council makes this finding.

B. The General Plan Amendment would not be detrimental to the public interest, health, safety, convenience or general welfare of the City because it would further implement the adopted 2021-2029 Housing Element as amended on July 16, 2025, specifically the rezoning necessary to implement new building heights enabled by the voter approval of Measure SP in November 2024. This supports Housing Element Programs 2.n (Citywide Height Limit Ballot Initiative) and 3.n (Zoning Changes). Therefore, the City Council can make this finding.

Furthermore, the General Plan Land Use Map would be amended to reduce the area covered by the Housing Opportunity (HO) Overlay by removing the overlay from applying to RM zoning districts identified on the current Zoning Map except for certain RM zoned parcels along Huntington Drive, and adding a new CF-50 designation to applicable properties to allow higher intensity multifamily housing on certain religious congregation or private school sites that are larger than two acres. Such revisions would not impact the development suitability of the affected areas, and would not impact the physical constraints, access, the provision of utilities, or the compatibility of adjacent land uses in the affected areas, and, in conjunction with related Housing Element Amendment of July 16, 2025, would ensure internal consistency related to land use densities. Therefore, the City Council makes this finding.

SECTION 5. Based upon the foregoing, the City Council herby adopt the General Plan Amendment, including updating the General Plan Land Use Map, as set forth in Exhibit A and Exhibit B to this Resolution, to implement the necessary changes to the General Plan consistent with the Housing Element Amendment of July 16, 2025 and the Housing Element Housing Programs as permitted by Measure SP.

SECTION 6. This Resolution shall be effective on the date that the Ordinance entitled “An Ordinance of the City of South Pasadena Amending Chapter 36 (Zoning) of the South Pasadena Municipal Code as it Related to Height, Density and Development Standards in the City’s Zoning and Overlay

Districts and Amending the City's Zoning Map to Implement the City's 2021-2029 (6th Cycle) Housing Element" becomes effective.

PASSED, APPROVED, AND ADOPTED on this 16th day of August, 2025.

EXHIBIT A

GENERAL PLAN AMENDMENT

In Chapter 3, Sub-section C (Urban Form), 2. Corridors, Mission Street and Fair Oaks (Downtown Specific Plan), the following shall be amended:

6. Infills along Mission Street—New infill along Mission will be up to 50 feet in height calculated using average building height along Mission Street west of Orange Grove Avenue or up to 60 feet in height calculated using average building height in the Mixed Use Core Zone east of Orange Grove Avenue, keeping the pedestrian scale of Mission Street. To enable buildings to create a fabric that is contrasting to the one on Fair Oaks, building frontage along Mission will allow the creation of courts and yards directly facing the sidewalk, enabling a more porous fabric.

7. Infills along Fair Oaks Avenue—The plan envisions various mixed-use infill developments along Fair Oaks Avenue. These infills will be up to 70 feet in height calculated using average building height, with active ground floors lining the sidewalks. In order to ensure that the form and character of these new buildings is not monolithic, a number of standards and guidelines are provided as part of this vision to enable contextually sensitive development.

In Chapter 3, Sub-section C (Urban Form), 3. Neighborhood Centers, the following shall be amended:

C. Huntington Drive and Fremont Avenue

This center has a mix of one, two, and three-story office, retail, and residential buildings. These buildings are placed next to each other along the edge of a wide sidewalk, many with active storefronts that engage the pedestrian, with the one exception of a supermarket store. The parking lot for the supermarket store interrupts the walking experience along Huntington Drive. The supermarket stores and parking area offer redevelopment opportunity for an appropriately scaled mixed use project with active neighborhood serving retail or cafes at street level. Parking should be located away from the street~~s~~ edge.

Streetscape and lighting improvements would enhance the comfort and safety~~,~~ of the walking experience. Portions of the neighborhood lack access to a park within a 10-minute walk. The islands and turn lanes make crossing the intersection at Huntington Drive and Fair

Oaks Avenue confusing. The City should examine the feasibility of consolidating and repurposing the excess traffic islands at the corner of Fair Oaks Avenue and Huntington Drive as one large public open space, which would also simplify the traffic flow and pedestrian crossing experience. Public views to the San Gabriel Mountains to the north should be protected by careful massing setbacks at street corners that open up the vistas. The proposed protected bike lane along Fair Oaks in the Downtown area~~,~~ could be extended south to Huntington Drive.

In Chapter 3, Sub-section D (Planning Designations), the following shall be amended:

D. Planning Designations

Neighborhood
The physical size of the neighborhood is defined by a five-minute walk from its center to edge~~.~~ with primarily residential uses with the basic needs of daily life met by uses in close proximity. Streets form a connected network, providing alternate routes that help to disperse traffic, and are equitable for vehicles, pedestrians, and bicyclists. Diversity in the type, size, and disposition of buildings, streets, and open spaces creates many options in environments, experiences, functions, uses, prices, and populations.

Very Low Intensity: This land use classification permits detached single-family homes and is characterized by lots over 10,000 square feet.
Scale: House-scale.
Intensity: Max 3 units/acre.
Height: 1-2 stories.

Low Intensity: This land use classification permits detached single-family~~-~~homes and is characterized by lots of 5,000 to 10,000 square feet.
Scale: House-scale.
Intensity: Max 5 units/acre.
Height: 1-2 stories.

Medium Intensity: This land use classification permits attached housing types, such as courtyard housing, townhomes, bungalow court, and multiplexes, including single-family homes on smaller lots.
Scale: House-scale. Attached, semi-detached, and detached buildings.
Intensity: Max 30 units/acre and up to 70 units/acre in the Housing Opportunity Overlay (HOO).

Height: Up to 45 feet in height or up to 60 feet in height in the HOO calculated using average building height.
High Intensity: This land use classification permits multi-family residential development. It is intended to identity and conserve existing concentrations of such development in the city. These areas are characterized by multi-story apartments and condominiums.
Scale: House-scale and some block-scale buildings. Attached, semi-detached, and detached buildings.
Intensity: Max 45 units/acre and up to 70 units/acre in the Housing Opportunity Overlay (HOO).
Height: Up to 45 feet in height or up to 60 feet in height in the HOO calculated using average building height.
Housing Opportunity Overlay: This land use classification permits multi-family residential development and is applied to higher-density corridors and community centers where higher density projects are appropriate. Multi-story apartment and condominium developments are appropriate for this land use designation.
Scale: Medium to large scale multi-family buildings.
Intensity: Max 70 units/acre.
Height: 60 feet calculated using average building height

Mixed Use Core
Encourages a wide range of building types based on neighborhood characteristics that house a mix of functions, including commercial, entertainment, office, and housing. South Pasadena's mixed-use areas are distinctive with varying context and building types.

Downtown is a Citywide destination where people work, live, shop, and play. It is accessible from across the city by multiple forms of transportation. Downtown is characterized by mid-rise mixed-use buildings placed close to the sidewalk to create a thriving pedestrian environment which is supported by high quality streetscapes and public spaces. The downtown area supports continued reinvestment and context sensitive intensification that enhance housing choices and promotes local businesses. Range of open spaces and walkable streets and alleys weave together the various downtown assets.

Community centers along Huntington Drive are located at key intersections and serve daily needs of multiple neighborhoods. Some larger sites can be developed with urban residential mixed-uses in a walkable environment. The massing of new development should respect the adjacent stable residential neighborhood.

The Ostrich Farm area is along the western edge of the city and faces the Arroyo Park. Ostrich Farm area currently has a mix of stable office, industrial, and urban residential uses. Many of the commercial

uses support the local creative industry. Redevelopment of these sites should maintain and enhance the creative industries and businesses while allowing for residential development on upper floors.
Intensity: Max 70 units/acre, or 50 units/acre on Mission Street west of Orange Grove Avenue
Height: 60 feet calculated using average building height, or 50 feet calculated using average building height on Mission Street west of Orange Grove Avenue

Fair Oaks Corridor

The Fair Oaks Corridor is the major north-south connector with direct drop-off from the 110 freeway. The corridor is a gateway into the City and downtown area. The 100 feet wide corridor has a collection of medium and large sized parcels and has large 3 and 4 story buildings that form continuous street frontage. The corridor is home to several significant retail anchors. The larger parcels are developed with auto-oriented uses and present a significant opportunity for reinforcing historic development patterns while allowing much needed affordable housing in the city. The typical lot depths are around 165 feet and the frontage parcels on the east side back on to an established single-family neighborhood.
Scale: Block-scale buildings with house scale buildings providing contextual response to established residential neighborhoods.
Intensity: Max 90 units/acre.
Height: 70 feet calculated using average building height.

Civic

Public or quasi-public in operation, civic buildings and spaces are the cornerstone of neighborhoods and a symbolic reflection of South Pasadena's values and aspirations. The civic buildings may operate in the fields of the arts, culture, education, recreation, government, transit, security, health, and safety. Since public buildings represent a collective identity, their design should set them apart from more conventional private buildings. Civic building sites should be located within or adjacent to a civic space, or at the terminated vista of a significant thoroughfare. These places are easily accessible by foot or automobile and have formal access points that address the street.

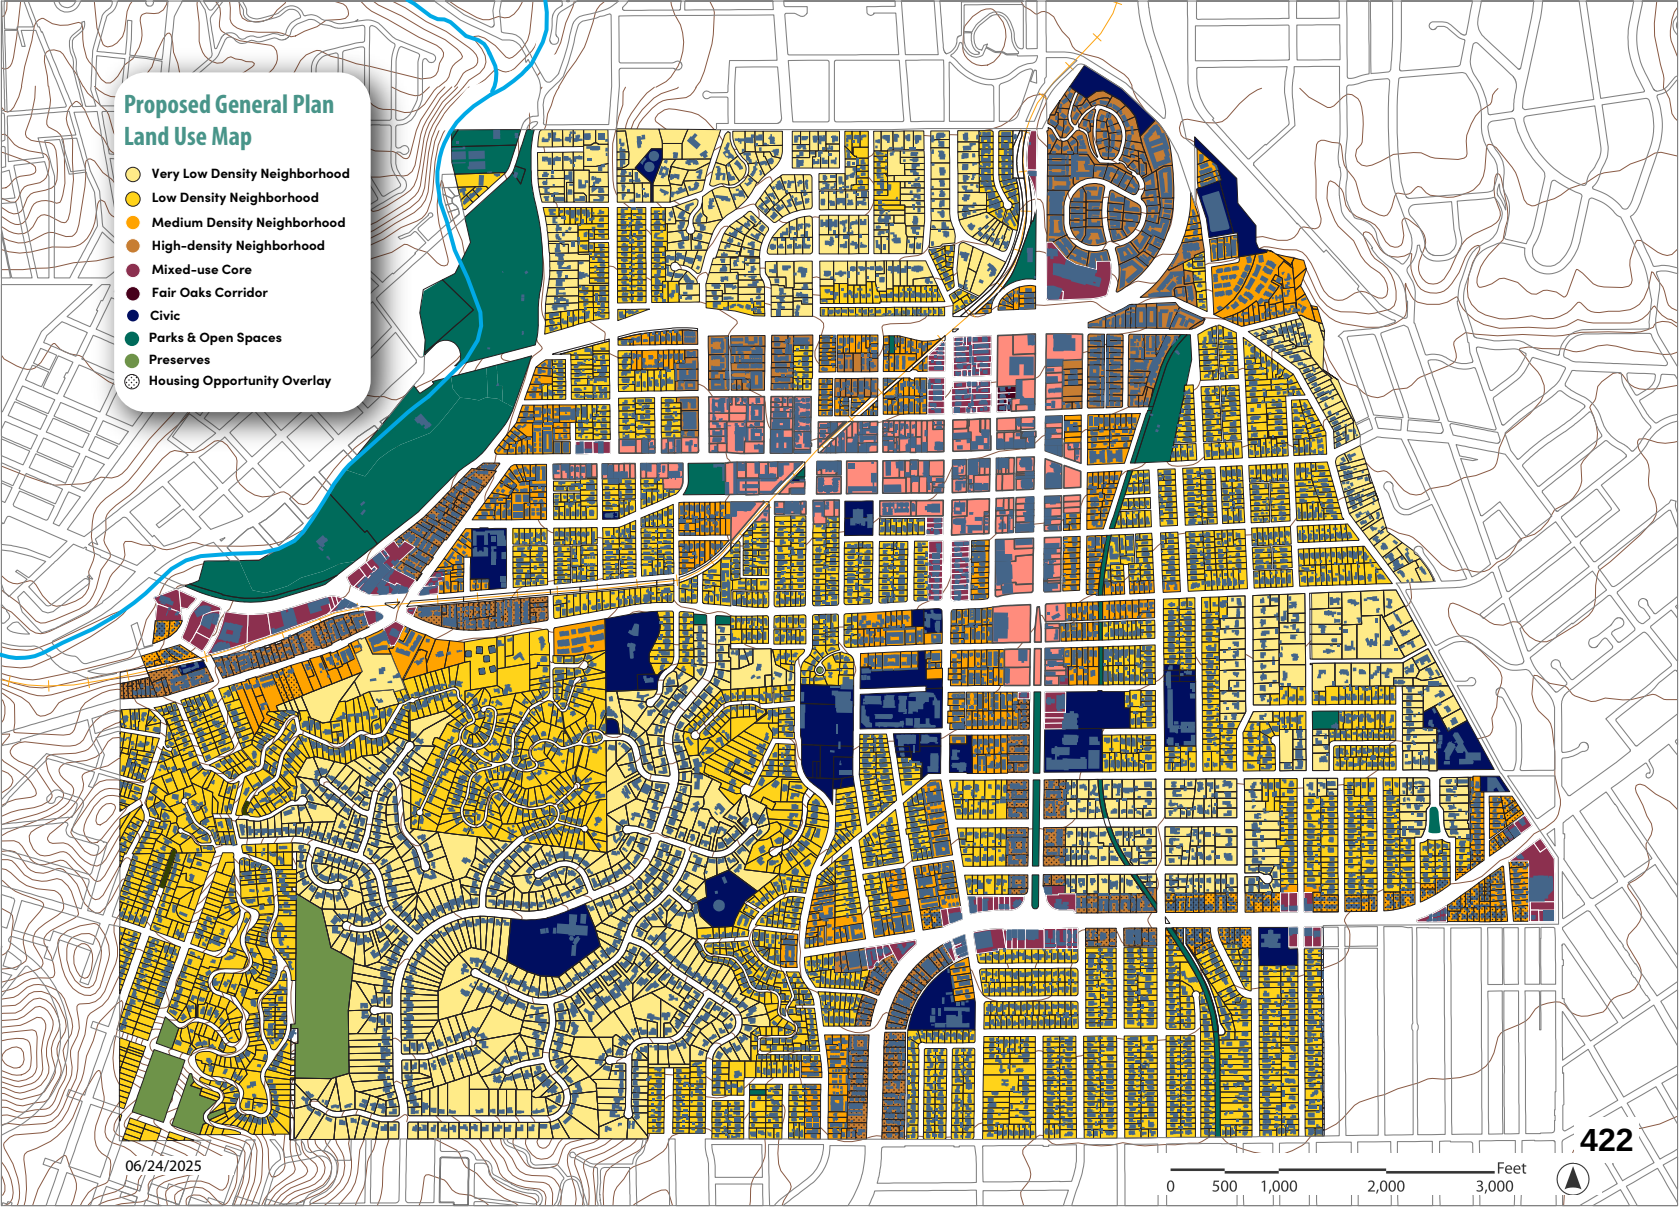
Within the Civic land use designation, certain large properties are designated for residential uses, such as multi-family residential development. When residential uses are permitted through the implementing zoning, the following applies:

Scale: House-scale and some block-scale buildings. Attached, semi-detached, and detached buildings.
Intensity: Max 50 units/acre.
Height: 50 feet.

Except for the residential uses on the designated parcels set forth in the zoning code and zoning map, residential uses are not typically permitted or encouraged unless specifically allowed by state law.

Parks & Open Space
Lands designated for public recreation and leisure and visual resources and can range from neighborhood tot lots and pocket parks, to urban squares and plazas, and from playgrounds to large regional parks.

Preserves
Undeveloped areas within the hills adjacent to existing established single-family residences. The Preserves are natural areas designated for preservation of flora, fauna, geological, natural, historical, or similar features of scientific or educational value, and/or outstanding scenic beauty.



In Chapter 8, Sub-section D (Standards), the following shall be amended:

The 1998 General Plan recommended 4 acres of park and recreational facilities per 1,000 residents. Currently, the City provides 4.7 acres per 1,000 residents, exceeding the 1998 General Plan's recommendation. South Pasadena has no development requirement to provide public open space. Park fees are collected when land is subdivided. However, as South Pasadena is generally built out, there are few opportunities for land subdivision, so park fees are not a reliable source of revenue.

While South Pasadena does not require public open space in new development, the City does require private open space in new residential projects. This private open space is provided in the form of balconies, patios, and minimum yards, or setbacks (front, side, and rear), and a limitation on the percentage of a lot that can be covered by a building. Open space requirements are set forth in the Zoning Code and in the Downtown Specific Plan.

RESOLUTION NO. __

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA CONDITIONALLY ADOPTING A HOUSING ELEMENT AMENDMENT TO THE 2021-2029 (6TH CYCLE) HOUSING ELEMENT

WHEREAS, Sections 65300 *et. seq.* of the California Government Code requires each city and county to adopt a comprehensive, long-term, General Plan for the physical development of land within its jurisdiction and Sphere of Influence; and

WHEREAS, Sections 65580 *et. seq.* of the California Government Code requires each city and county to periodically prepare and update its Housing Element in its General Plan. Accordingly, the City of South Pasadena received the Regional Housing Needs Allocation (RHNA) numbers from the Southern California Association of Government in 2019, in conjunction with the requirement that the City update its Housing Element for the 6th Cycle (2021-2029); and

WHEREAS, certain further actions were necessary to obtain a determination from the State Department of Housing and Community Development (HCD) that the 2021-2029 (6th Cycle) Housing Element ("Housing Element") substantially complied with Housing Element Law; and

WHEREAS, the City completed the necessary actions and on July 29, 2024, HCD found the City's Housing Element to substantially comply with State Housing Element Law; and

WHEREAS, on May 30, 2023, the City Council adopted the Environmental Assessment (EA) prepared for the Housing Element and then adopted the Housing Element; and

WHEREAS, on September 27, 2023, the City Council adopted the Program Environmental Impact Report (PEIR) prepared for the General Plan Update and the Downtown Specific Plan and 2012-2029 Housing Element Implementation Programs Project; and

WHEREAS, on May 29, 2024, the City Council adopted Resolution No. 7851 making findings pursuant to Government Code Section 65583.2(g) that existing uses of nonvacant sites does not constitute an impediment to additional residential development during the period covered by the 2021-2029 Housing Element; and

WHEREAS, the City has continued to work diligently to implement Housing Element programs, including adopting a new General Plan, Downtown Specific Plan, and rezoning; and

WHEREAS, Housing Element Program 2.n called for the City to place a ballot initiative before the voters of South Pasadena to consider removing the 45-foot building height limit in certain parts of the City, and on November 5, 2024, South Pasadena residents approved said measure with the results being certified by the City Council on December 18, 2025, thus enabling amendments to the Housing Element, General Plan, Downtown Specific Plan, and the South Pasadena Municipal Code consistent with the adopted Housing Element; and

WHEREAS, on February 1 and February 15, 2025, the City conducted walking tours to familiarize residents and public officials with the areas under consideration for revised building height limits and development standards, with staff receiving feedback and suggestions from the community on potential changes to both the South Pasadena Municipal Code and Downtown Specific Plan as well as the Housing Element, with approximately 40 residents in attendance at each event; and

WHEREAS, on February 18, 2025, the City conducted an open house to showcase the analysis prepared in regard to height limits in conjunction with housing density, with maps showing areas in which the City proposed to increase height and exhibits showing examples of conceptual development scenarios in areas that included Huntington Drive, Ostrich Farm, Fair Oaks Avenue, and Mission Street, with staff receiving feedback from the approximately 40 residents who attended; and

WHEREAS, on March 11, 2025, Planning Commission Chair appointed a sub-committee of two Commissioners to study in-depth the assumptions and methodology involved in the proposed amendments; and

WHEREAS, on March 18, 2025, the City conducted a second open house, this time focusing on current development standards that may present challenges to housing development including setbacks, stepbacks, building breaks, parking location, open space, and minimum unit sizes, with staff receiving feedback from the approximately 40 participant who attended; and

WHEREAS, on March 26, 2025, a joint City Council and Planning Commission study session was held wherein additional public comment and feedback from both the Planning Commission and the City Council were received regarding potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code (Chapter 36 of the South Pasadena Municipal Code), and the City's Zoning Map; and

WHEREAS, On April 8, 2025, the Planning Commission sub-committee that was convened to study the assumptions and methodologies upon which potential amendments would be based, reported to the full Planning Commission, resulting in further feedback to staff as to how to proceed, with the sub-committee continuing to work with staff to prepare a recommendation for future consideration by the Planning Commission; and

WHEREAS, on April 29, 2025, the Planning Commission held a duly noticed Public Hearing, wherein the Planning Commission received a staff presentation and staff report on potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map ("proposed project" or "project"); received public testimony; and held Planning Commission discussion. Thereafter, the Planning Commission continued the Public Hearing to May 7, 2025; and

WHEREAS, on May 7, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrected maps and exhibits, including a density/height summary table and received public testimony. Thereafter, the Planning Commission continued the public hearing to May 20, 2025; and

WHEREAS, on May 20, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrections to the zoning map and density/height summary table, received public testimony and gave direction to staff and the City's consultant for additional information and scenarios related to the density and height amendments. Thereafter, the Planning Commission continued the public hearing to June 10, 2025; and

WHEREAS, on June 10, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received an updated density and height table of density based on recommendations and suggestions from the Planning Commission, received the updated Housing Element inventory zoning scenarios with corresponding Zoning Maps, received updated development standards table prepared by the Subcommittee and staff; resumed its discussion and provided preliminary recommendations to Staff in preparation for a community meeting to be held on June 16, 2025. Thereafter, the Planning Commission continued the public hearing to June 24, 2025; and

WHEREAS, on June 16, 2025, the Planning Commission held a community meeting to received input from the community and stakeholders regarding the Planning Commission's preliminary recommendations related to density, height and development standards in order to implement the Housing Element programs; and

WHEREAS, on June 24, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received a staff presentation and staff report on the amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map based on the Planning Commission's previous discussion and direction; received a summary of the comments received at the June 16, 2025 community meeting; received public testimony; and held Planning Commission discussion and provided further direction to staff. Thereafter, the Planning Commission adopted a Resolution to recommend

that the City Council adopt a Housing Element Amendment to the 2021-2029 (6th Cycle) Housing Element; and

WHEREAS, on July 16, 2025, the City Council held a duly noticed Public Hearing, wherein the City Council received a staff presentation and staff report on the proposed Amendment to the Housing Element, as well as amendments to the General Plan and Downtown Specific Plan and a Zoning Text Amendment and Zoning Map Amendment, as it relates to height, density and development standards in the City's zoning and overlay districts in order to implement the Housing Element. The City Council received public testimony and all interested persons had an opportunity to, and did, testify in this matter. Thereafter, the City Council asked questions and deliberated; and

WHEREAS, all legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES HEREBY RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. Recitals. The above recitals are hereby declared to be true and correct and are incorporated herein as if set forth in full.

SECTION 2. Findings. Based upon substantial evidence, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council Planning Commission finds:

A. All necessary Public Hearings and opportunities for public testimony and comment have been conducted in compliance with applicable law;

B. That the proposed Housing Element (HE) Amendment is consistent with the Housing Goals and policies in the current 2021-2029 (6th Cycle) Housing Element and other General Plan elements.

SECTION 3. California Environmental Quality Act (CEQA). The policies and implementation documents that were adopted and now proposed for the amendment were analyzed in the Environmental Assessment (EA) prepared for the Housing Element, and adopted by the City Council on May 30, 2023, and the changes are within the scope of that analysis. Further, the policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Program Environmental Impact Report (PEIR) for the General Plan and Downtown Specific Plan Update and 2021-2029 Housing Element Implementation Programs, which was certified by the Council on September 27, 2023. Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the

conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Based on the analysis and information contained in the Addendum to the PEIR, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed amendments indicates that there are no new significant environmental impacts associated with implementation of height, density and development standards to support housing development. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed, and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents. The amendments to these policy documents, are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage, as reflected in the Housing Element.

Therefore, the City Council adopts the July 2025 addendum to the PEIR. Further, on a separate and independent basis, the City Council finds that the project is exempt from CEQA pursuant to recently enacted Public Resources Code Section 21080.085, which provides that CEQA does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code. Section 65583(c) implementation actions, although referred to in the exemption as rezoning, are broadly defined to include, but are not limited to: making make sites available during the planning period with appropriate zoning and development standards to accommodate RHNA needs for all income levels that could not be accommodated on sites identified in the sites inventory; assisting in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households; removing governmental and nongovernmental constraints for development of housing for all income levels. The project includes consistency amendments among the various interrelated documents (General Plan, Housing Element, Downtown Specific Plan, and Zoning) that are within the scope of, and contemplated by programs under Section 65583 (c). Also, the actions included in the project reflect implementation of the Housing Element in light of Measure SP, and implementation of other Housing Element programs contemplated under Section 65583(c).

SECTION 4. General Plan Amendment Findings. South Pasadena Municipal Code Section 36.620.070(A) provides that a General Plan Amendment may be approved only if certain findings are met. Accordingly, based upon substantial evidence, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council makes the following findings:

A. The Housing Element Amendment is internally consistent with the actions, goals, objectives, and policies of the General Plan with the amendments of July 16, 2025 as well as programs contained in the 2021-2029 (6th Cycle) Housing

Element that was adopted on May 30, 2023 and. Specifically, the project is consistent with the following:

Housing Element Program 2.n:	Citywide Height Limit Ballot Initiative.
Housing Element Program 3.n:	Zoning Changes.
General Plan Policy P5.8:	Support the reduction of governmental and regulatory constraints, and advocate for the production of affordable housing.

Given that the Housing Element Amendment would serve to demonstrate compliance with the Regional Housing Needs Assessment by updating and correcting data, and would facilitate changes in the implementation documents in support of appropriate heights and building standards consistent with the remaining General Plan Elements, the City Council makes this finding.

B. The Housing Element Amendment would not be detrimental to the public interest, health, safety, convenience or general welfare of the City because it is a component of the general plan policy changes and rezoning necessary to provide housing needed by the community. Specifically, the Amendment supports implementation of new building heights enabled by the voter approval of Measure SP in November 2024, which results were certified on December 18, 2024. The Amendment retains the Housing Plan that was certified by the State, with updates that continue to foster an environment that supports housing, including updates for consistency with actions already taken by the City to increase development intensity and adopt processes and requirements that facilitate and streamline the permit process as required by State law. Therefore, the City Council makes this finding.

SECTION 5. The City Council hereby finds, pursuant to Government Code Section 65583.2(g):

A. The existing uses on the nonvacant sites identified in the site inventory to accommodate the regional housing needs allocation ("RHNA") are likely to be discontinued during the planning period and therefore do not constitute an impediment to planned residential development on the sites during the planning period.

B. The inventory sites relied upon to meet the City's RHNA allocation for lower income housing allow for development densities of at least 30 dwelling units per acre default density pursuant to Government Code Section 655893.2(c)(3)(b), with many such sites allowing up to 70 or 90 dwelling units per acre.

C. Detailed analyses of the sites included in Housing Element provide evidence that the existing uses are likely to be discontinued and are not

impediments to the planned residential uses of the sites. In addition, a multi-factor analysis was completed for the numerous parcels included in updated Table VI-53 (formerly Table VI-51), to demonstrate that a sufficient number of sites would be redeveloped during the course of the planning period to accommodate well in excess of the RHNA allocation, resulting in a buffer of approximately 31% (or 641 units) beyond the RHNA requirements of 2,067 units.

D. The updated Table VI-53 analysis takes into account current zoning, existing units, the maximum allowed density under the Housing Element with zoning implementation actions, historic considerations, commercial utilization, date of construction of existing structures, and proximity to transit, to analyze the potential for redevelopment, and as noted above shows a significant buffer beyond the City's RHNA allocations.

SECTION 6. Based on the foregoing the City Council hereby conditionally adopts the Amendments to the 2021-2029 (6th Cycle) Housing Element, as set forth in the Amended Housing Element, attached hereto as Exhibit B.

SECTION 7. Effective Date. The amendments to the Housing Element contemplated within this Resolution shall become effective only at such time as the California Department of Housing and Community Development (HCD) has completed its review of the amendments pursuant to Government Code Section 65585, and has considered any HCD review findings, and HCD issues findings that the Amended Housing Element is in substantial compliance with Housing Element Law. The City's previously adopted and certified Housing Element shall remain in full force and effect until such time as HCD issues findings that the Amended Housing Element is in substantial compliance with Housing Element Law.

SECTION 8. The City Council does hereby authorize and direct the City Manager and Community Development Director to make any technical or clerical revisions or clarifications to the Amendment to the Housing Element as may be required by HCD in order to obtain an HCD finding of substantial compliance with Housing Element Law.

HOUSING ELEMENT AMENDMENT SUMMARY OF CHANGES

Section	Page Number(s)	Description of Change
6.1 Executive Summary	4-5	Summary of changes that have been made to the Housing Element, for the draft amended version released for public review on July 10th, 2025.
6.1 Executive Summary	5	Added text discussing recent community engagement efforts undertaken as part of the Housing Element process. Discusses the successful ballot initiative, outreach events, and study sessions.
6.1 Executive Summary	18	Removed programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone. Per the last adopted Housing Element, the Affordable Housing Overlay is not required to meet the City's RHNA.
6.1 Executive Summary	21	Edit to Program 2.n – Citywide Height Limit Ballot Initiative to reflect the passage of the ballot measure and inform about the language of Measure SP.
6.1 Executive Summary	21-22	Removing language from Program 3.a - Rezone and Redesignate Sites to Meet RHNA, such as lowering the density of the DTSP FOC from 110 du/ac to 90 du/ac. Adding "and on large, underutilized sites" language.
6.1 Executive Summary	22	Removing language from Program 3.b - Mixed-Use Developments and Adaptive Re-Use to reduce densities in the DTSP zone from 70 to 110 du/ac down to 50 to 90 du/ac.
6.2 Introduction	41-43	Added text discussing recent community engagement efforts undertaken as part of the Housing Element process. Discusses the successful ballot initiative, town halls, open houses, listening sessions, walking tours, Planning Commission subcommittee, and a joint City Council and Planning Commission study session.
6.3 Housing Needs Assessment	58	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.4 Fair Housing Assessment	82	Mention of Measure SP and Measure SP implementation.
6.4 Fair Housing Assessment	84	Addition of text directing readers to Section 6.2.4 of the Housing Element for more detailed information on the outreach undertaken for the Housing Element in 2024 and 2025.
6.4 Fair Housing Assessment	90	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.4 Fair Housing Assessment	107	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.5 Housing Constraints	145	Removal of mentions of program 2.j – General Plan Affordable Housing Overlay.

Section	Page Number(s)	Description of Change
6.6 Housing Development Resources	163	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.6 Housing Development Resources	180	Updated Table VI-44 Comparison of Site Capacity and RHNA to reflect the updated capacity based on changes to methodology. The "Entitled and Pipeline Sites" category is completely new to this table.
6.6 Housing Development Resources	181	Clarifying text added to the Constructed Units section, regarding the income level of the units. New section of text introducing the site category for Entitled and Pipeline/Pending Units.
6.6 Housing Development Resources	182	New table listing all entitled and pipeline sites that are being counted towards the RHNA.
6.6 Housing Development Resources	184	Addition of text in the Available Sites section, clarifying the new methodology for the site capacity. Removal of methodology text that no longer applies. Additional housing capacity is targeted for the following areas: Downtown Specific Plan, a Mixed-Use Overlay on parcels zoned CG, CO and BP, and Housing Opportunity Overlay on certain parcels zoned RH.
6.6 Housing Development Resources	184-185	Addition of text related to methodology for vacant sites in the City's single-family residential zones. These sites are located within the Altos de Monterey Residential (AM), Residential Estate (RE), and Residential Low-Density (RS) zoning districts.
6.6 Housing Development Resources	185-186	Removal of methodology text that is no longer relevant.
6.6 Housing Development Resources	188	Amendment of the general plan land use category and zoning for some parcels in Table VI-46 Vacant Sites That Allow Residential Development for Moderate and Above-Moderate
6.6 Housing Development Resources	195	Additional text added to the Accessory Dwelling Unit Potential section, including updated ADU building permit counts from 2022-2024.
6.6 Housing Development Resources	195	An updated analysis of Accessory Dwelling Unit Potential for the July 2025 Housing Element. This updated analysis finds a 2021-2029 projected ADU capacity of 390 units.
6.6 Housing Development Resources	197	Removal of Market Trends text.

Section	Page Number(s)	Description of Change
6.6 Housing Development Resources	199-200	Updating of text in Table VI-50 Representative Projects on Non-Vacant Sites in South Pasadena to match the most recent City knowledge on the status of these projects. Addition of Carrows site project.
6.6 Housing Development Resources	203	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.6 Housing Development Resources	204	Removal of mentions of the Affordable Housing Overlay Zone. Small text addition. Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.6 Housing Development Resources	206-207	Entire Table VI-52 Sites Suitable to Address the Lower-Income RHNA updated to turn some former suitable sites into entitled or pipeline sites, such as sites 3, 10, 11, and 14. Adjusted capacity of Suitable Site 9 down as part of the site is now within the DTSP MUC 50 du/ac zone, instead of the full site being classified as DTSP MUC 70 du/ac.
6.6 Housing Development Resources	212-213	Addition of methodology text for the "Other High-Density Sites" category to meet the RHNA. Completely new addition.
6.6 Housing Development Resources	214-237	Entire Table VI-53 Other Redevelopable Sites Anticipated Capacity Analysis renamed and updated to reflect the new methodology in Section 6.6. These sites do not include suitable sites or entitled/pipeline sites. A total line has been added at the bottom of Table VI-53.
6.6 Housing Development Resources	240-241	Removal of text from the Additional Capacity Through Rezoning section that is no longer relevant. No longer reflective of the Housing Element's current methodology.
6.6 Housing Development Resources	242	Removal of Comparison of Site Inventory with RHNA section text. This text and table have been replaced by Table VI-44.
6.8 Housing Plan and Quantified Objectives	272-273	Removal of mentions of programs 2.j – General Plan Affordable Housing Overlay and 2.k – Affordable Housing Overlay Zone.
6.8 Housing Plan and Quantified Objectives	275-276	Removal of text related to Program 2.n – Citywide Height Limit Ballot Initiative that is no longer relevant. Edit to Program 2.n – Citywide Height Limit Ballot Initiative to reflect the passage of the ballot measure and inform about the language of Measure SP.
6.8 Housing Plan and Quantified Objectives	277	Removing language from Program 3.a - Rezone and Redesignate Sites to Meet RHNA, such as lowering the density of the DTSP FOC from 110 du/ac to 90 du/ac. Adding "and on large, underutilized sites" language.
6.8 Housing Plan and Quantified Objectives	277	Removing language from Program 3.b - Mixed-Use Developments and Adaptive Re-Use to reduce densities in the DTSP zone from 70 to 110 du/ac down to 50 to 90 du/ac.

Section	Page Number(s)	Description of Change
Appendix A: Sites Exhibits	A1-1	Removal of two mentions of unnecessary maps.
Appendix A: Sites Exhibits	A1-2 – A1-17	Addition of new updated site inventory maps, matching the capacity tables in the Housing Element.
Appendix A: Sites Exhibits	A1-18 – A1-37	Removal of old site inventory maps that are no longer accurate.
Appendix A: Sites Exhibits	A1-38	Edit to title for suitable sites exhibits. Only including sites suitable to accommodate the lower income RHNA.
Appendix A: Sites Exhibits	A1-39	Clarification for Site 2, entire capacity of site is not assumed.
Appendix A: Sites Exhibits	A1-40	Removal of site 3 from suitable sites list. It is now a pipeline site, included in the Housing Element Table VI-45 Entitled and Pipeline Projects.
Appendix A: Sites Exhibits	A1-42	Clarification regarding density assumed on site 5. Density assumed on the site is lower than the max allowed due to the site's unusual shape.
Appendix A: Sites Exhibits	A1-45	Amendments to site 8's proposed zoning, general plan land use, and density.
Appendix A: Sites Exhibits	A1-46	Amendments to site 9's proposed zoning and general plan land use. Adjusted capacity of Suitable Site 9 down as part of the site is now within the DTSP MUC 50 du/ac zone, instead of the full site being classified as DTSP MUC 70 du/ac.
Appendix A: Sites Exhibits	A1-47	Removal of site 10 from suitable sites list. It is now a pipeline site, included in the Housing Element Table VI-45 Entitled and Pipeline Projects.
Appendix A: Sites Exhibits	A1-48	Removal of site 11 from suitable sites list. It is now a pipeline site, included in the Housing Element Table VI-45 Entitled and Pipeline Projects.
Appendix A: Sites Exhibits	A1-49	Amendments to site 12's proposed zoning, general plan land use, density, and realistic/net units.
Appendix A: Sites Exhibits	A1-50	Amendments to site 13's proposed zoning, general plan land use, density, and realistic/net units.
Appendix A: Sites Exhibits	A1-51	Removal of site 14 from suitable sites list. It is now a pipeline site, included in the Housing Element Table VI-45 Entitled and Pipeline Projects.
Appendix A: Sites Exhibits	A1-52	Addition of text related to site study conducted for the site to determine capacity. Amendments to site 15's proposed zoning, general plan land use, and density.

Section	Page Number(s)	Description of Change
Appendix B: Summary of Public Participation	B1-18 – B1-20; B1-35	Addition of detailed information regarding recent public engagement efforts undertaken throughout the Housing Element process. These efforts include a ballot measure SP town hall, a ballot measure SP open house, two community listening sessions, two walking tours, two open houses, two study sessions, four Planning Commission meetings, and one Planning Commission Community Meeting.

EXHIBIT B

LINK/ FULL HOUSING ELEMENT AMENDMENT

RESOLUTION NO. __

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, ADOPTING A SPECIFIC PLAN AMENDMENT TO AMEND THE DOWNTOWN SPECIFIC PLAN TO IMPLEMENT THE HOUSING ELEMENT

WHEREAS, Sections 65300 *et. seq.* of the California Government Code requires each city and county to adopt a comprehensive, long-term, General Plan for the physical development of land within its jurisdiction and Sphere of Influence; and

WHEREAS, Sections 65580 *et. seq.* of the California Government Code requires each city and county to periodically prepare and update its Housing Element in its General Plan. The City of South Pasadena received the Regional Housing Needs Allocation (RHNA) numbers from the Southern California Association of Government in 2019, in conjunction with the requirement that the City update its Housing Element for the 6th Cycle (2021-2029); and

WHEREAS, on May 30, 2023, the City Council adopted the Environmental Assessment (EA) prepared for the 2021-2029 (6th Cycle) Housing Element ("Housing Element") and then adopted the Housing Element; and

WHEREAS, certain further actions were necessary to obtain a determination from the State Department of Housing and Community Development (HCD) that the Housing Element substantially complied with Housing Element Law; and,

WHEREAS, the City completed the necessary actions and on July 29, 2024, HCD found the City's Housing Element to substantially comply with State Housing Element Law; and,

WHEREAS, on September 27, 2023, the City Council adopted the Program Environmental Impact Report (PEIR) prepared for the General Plan Update and adopted the Downtown Specific PlaN and 2021-2029 Housing Element Implementation Programs Project; and

WHEREAS, in conjunction with adoption, implementation, and certification of the City's 2021-2029 Housing Element, by the California Department of Housing and Community Development (HCD), the City Council on May 29, 2024, adopted several amendments to the DTSP as set forth in Resolution No. 7850; and

WHEREAS, Housing Element Program 2.n called for the City to place a ballot initiative before the voters of South Pasadena to consider removing the 45-foot building height limit in certain parts of the City, and on November 5, 2024, South Pasadena residents approved said measure with the results being certified by the

City Council on December 18, 2025, thus enabling amendments to the General Plan, Downtown Specific Plan, and the South Pasadena Municipal Code (SPMC) to implement the adopted Housing Element; and

WHEREAS, on February 1 and February 15, 2025, the City conducted walking tours to familiarize residents and public officials with the areas under consideration for revised building height limits and development standards, with staff receiving feedback and suggestions from the community on potential changes to both the SPMC and Downtown Specific Plan (DTSP), with approximately 40 residents in attendance at each event; and

WHEREAS, on February 18, 2025, the City conducted an open house to showcase the analysis prepared in regard to height limits in conjunction with housing density, with maps showing areas in which the City proposed to increase height and exhibits showing examples of conceptual development scenarios in areas that included Huntington Drive, Ostrich Farm, Fair Oaks Avenue, and Mission Street, with staff receiving feedback from the approximately 40 residents who attended; and

WHEREAS, on March 11, 2025, Planning Commission Chair appointed a sub-committee of two Commissioners to study in-depth the assumptions and methodology involved in the proposed amendments; and

WHEREAS, on March 18, 2025, the City conducted a second open house, this time focusing on current development standards that may present challenges to housing development including setbacks, stepbacks, building breaks, parking location, open space, and minimum unit sizes, with staff receiving feedback from the approximately 40 participants who attended; and

WHEREAS, on March 26, 2025, a joint City Council and Planning Commission study session was held wherein additional public comment and feedback from both the Planning Commission and the City Council were received regarding potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the South Pasadena Municipal Code (SPMC), and the City's Zoning Map; and

WHEREAS, On April 8, 2025, the Planning Commission sub-committee that was convened to study the assumptions and methodologies upon which potential amendments would be based reported to the full Planning Commission, resulting in further feedback to staff, with the sub-committee continuing to work with staff to prepare a recommendation for future consideration by the Planning Commission; and

WHEREAS, on April 29, 2025, the Planning Commission held a duly noticed Public Hearing, wherein the Planning Commission received a staff presentation and staff report on potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map

("proposed project" or "project"); received public testimony; and held Planning Commission discussion. Thereafter, the Planning Commission continued the Public Hearing to May 7, 2025; and

WHEREAS, on May 7, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrected maps and exhibits, including a density/height summary table and received public testimony. Thereafter, the Planning Commission continued the public hearing to May 20, 2025; and

WHEREAS, on May 20, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrections to the zoning map and density/height summary table, received public testimony and gave direction to staff and the City's consultant for additional information and scenarios related to the density and height amendments, including those impacting the Downtown Specific Plan. Thereafter, the Planning Commission continued the public hearing to June 10, 2025; and

WHEREAS, on June 10, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received an updated density and height table of density based on recommendations and suggestions from the Planning Commission, received the updated Housing Element inventory zoning scenarios with corresponding Zoning Maps, received updated development standards table prepared by the Subcommittee and staff; resumed its discussion and provided preliminary recommendations to Staff in preparation for a community meeting to be held on June 16, 2025. Thereafter, the Planning Commission continued the public hearing to June 24, 2025; and

WHEREAS, on June 16, 2025, the Planning Commission held a community meeting to received input from the community and stakeholders regarding the Planning Commission's preliminary recommendations related to density, height and development standards in order to implement the Housing Element programs; and

WHEREAS, on June 24, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received a staff presentation and staff report on the amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map based on the Planning Commission's previous discussion and direction; received a summary of the comments received at the June 16, 2025 community meeting; received public testimony; and held Planning Commission discussion and provided further direction to staff. Thereafter, the Planning Commission adopted a Resolution to recommend that the City Council adopt an Amendment to the Downtown Specific Plan to implement the Housing Element; and

WHEREAS, on July 16, 2025, the City Council held a duly noticed Public Hearing, wherein the City Council received a staff presentation and staff report on

the proposed General Plan Amendment, as well as amendments to the Housing Element and Downtown Specific Plan and a Zoning Text Amendment and Zoning Map Amendment, as it relates to height, density and development standards in the City's zoning and overlay districts in order to implement the Housing Element. The City Council received public testimony and all interested persons had an opportunity to, and did, testify in this matter. Thereafter, the City Council asked questions and deliberated; and

WHEREAS, all legal prerequisites to the adoption of this Resolution have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES HEREBY RESOLVE, DECLARE, DETERMINE, AND ORDER AS FOLLOWS:

SECTION 1. Recitals. The above recitals are hereby declared to be true and correct and are incorporated herein as if set forth in full.

SECTION 2. Findings. Based upon substantial evidence presented to the City Council during the Public Hearing, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council finds:

A. All necessary Public Hearings and opportunities for public testimony and comment have been conducted in compliance with applicable law;

B. That the proposed Specific Plan Amendment (SPA) complies with the Housing Goals and residential densities prescribed in the 2021-2029 (6th Cycle) Housing Element and General Plan element as amended on July 16, 2025.

SECTION 3. California Environmental Quality Act (CEQA). The policies and implementation documents that were adopted and now proposed for the amendment were analyzed in the Environmental Assessment (EA) prepared for the Housing Element, and adopted by the City Council on May 30, 2023, and the changes are within the scope of that analysis. Further, the policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Program Environmental Impact Report (PEIR) for the General Plan and Downtown Specific Plan Update and 2021-2029 Housing Element Implementation Programs, which was certified by the Council on September 27, 2023. Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Based on the

analysis and information contained in the Addendum to the PEIR, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed amendments indicates that there are no new significant environmental impacts associated with implementation of height, density and development standards to support housing development. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed, and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents. The amendments to these policy documents, are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage, as reflected in the Housing Element.

Therefore, the City Council adopts the July 2025 addendum to the PEIR. Further, on a separate and independent basis, the City Council finds that the project is exempt from CEQA pursuant to recently enacted Public Resources Code Section 21080.085, which provides that CEQA does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code. Section 65583(c) implementation actions, although referred to in the exemption as rezoning, are broadly defined to include, but are not limited to: making make sites available during the planning period with appropriate zoning and development standards to accommodate RHNA needs for all income levels that could not be accommodated on sites identified in the sites inventory; assisting in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households; removing governmental and nongovernmental constraints for development of housing for all income levels. The project includes consistency amendments among the various interrelated documents (General Plan, Housing Element, Downtown Specific Plan, and Zoning) that are within the scope of, and contemplated by programs under Section 65583 (c). Also, the actions included in the project reflect implementation of the Housing Element in light of Measure SP, and implementation of other Housing Element programs contemplated under Section 65583(c).

SECTION 4. Specific Plan Amendment Findings. South Pasadena Municipal Code Section 36.440.060 provides that an amendment to a Specific Plan may be approved only if certain findings are met. Accordingly, based upon substantial evidence, including public testimony and written and oral staff reports, along with the environmental documentation, the City Council makes the following findings:

A. The Specific Plan Amendment conform with the actions, goals, objectives, policies and programs of the General Plan with the amendments of July 16, 2025 as well as the 2021-2029 (6th Cycle) Housing Element with the

amendments of July 16, 2025. Specifically, the Specific Plan Amendment conforms with and is internally consistent with the following:

Housing Element Program 2.n:	Citywide Height Limit Ballot Initiative.
Housing Element Program 3.n:	Zoning Changes.
General Plan Policy P5.8:	Support the reduction of governmental and regulatory constraints, and advocate for the production of affordable housing.

The proposed Specific Plan Amendment would define two areas within the Mixed-Use Core Zone of the Downtown Specific Plan (DTSP) area, generally along Mission Street, divided by Orange Grove Avenue. Residential density in the western section of the MUC Zone would be 50 dwelling units per acre, with a maximum building height of 50 feet. Other areas along Mission Street in the Mixed-Use Core Zone would retain the existing density of 70 dwelling units per acre and would be allowed a maximum building height of 60 feet. Standards in the Fair Oaks zoning district would be amended to reduce the residential density from 110 units per acre to 90 units per acre, and the maximum building height would be reduced from 110 feet to 70 feet consistent with the Housing Element Amendment of July 16, 2025. The existing language referring to buildings of more than 45-feet tall would be removed for all zoning districts. Height in these areas would be calculated using average building height, except for properties in the National Register Historic District.

Given that the Specific Plan Amendment would implement changes to support the heights and building standards consistent with the Housing Element as amended on July 16, 2025, the City Council makes this finding.

SECTION 5. Based upon the foregoing, the City Council herby adopts the Amendment to the Downtown Specific Plan, as set forth in Exhibit A and Exhibit B to this Resolution.

SECTION 6. This Resolution shall be effective on the date that the Ordinance entitled “An Ordinance of the City of South Pasadena Amending Chapter 36 (Zoning) of the South Pasadena Municipal Code as it Related to Height, Density and Development Standards in the City’s Zoning and Overlay Districts and Amending the City’s Zoning Map to Implement the City’s 2021-2029 (6th Cycle) Housing Element” becomes effective.

PASSED, APPROVED, AND ADOPTED on this 16th day of August, 2025.

EXHIBIT A

DOWNTOWN SPECIFIC PLAN AMENDMENT

Section 1. Section 1 ("Two Distinct Districts") of Paragraph B ("Key Ideas of the Vision") of Part A, 2 ("Vision") of the DTSP is amended to read as follows:

"1 Two Distinct Districts—The vision sees the study area as two distinct districts that are adjacent and complimentary to one another. Both districts have a clear historic center with commercial and retail uses surrounded by single and multi-family neighborhood fabric. The Mission Street District (Mixed-Use Core) is centered on the light rail station, and standards differentiate the residentially-focused area west of Orange Grove Avenue from the central business district to the east. The Fair Oaks Avenue District is centered on the Fair Oaks Avenue-/Mission sStreet intersection. Both Mission Street and Fair Oaks Avenue are enhanced in this vision."

Section 2. Subsection 1 ("Various Infills along Fair Oaks Avenue") and Subsection 2 ("Various Infills along Mission Street") of Section 3 ("Private Projects with Municipal Collaboration") of Paragraph C ("Catalytic Projects") of Part A, 2 ("Vision") of the DTSP is amended to read as follows:

"1. Various Infills along Fair Oaks Avenue—The plan envisions various mixed-use infill developments along Fair Oaks Avenue. These infills will be up to 4 to 6 stories tall, 70 feet in height calculated using average building height, with active ground floors lining the sidewalks. In order to ensure that the form and character of these new buildings is not monolithic, a number of standards and guidelines are provided as part of this vision to enable contextually sensitive development.

2. Various Infills along Mission Street—New infill Development along Mission Street will be up to 4 to 5 stories tall have a maximum height of 50 feet in height calculated using average building height in the area west of Orange Grove Avenue with a two-story base with active ground floor, keeping the existing scale of Mission Street development. To enable new buildings to preserve the historic two-story context of Mission Street, building frontage along Mission Street will have a two-story base. The massing for additional floors will provide a stepback of six feet. Infill building east of Orange Grove Avenue will have a maximum height of 60 feet calculated using average building height."

Section 3. The narrative entitled "Existing Conditions" under Subsection ("Our Prosperous Community") of Part B ("Policy") of the DTSP is amended to read as follows:

“Existing Conditions

Fair Oaks Avenue is an existing high-traffic, north-south arterial that is well-positioned to capture latent retail demand of the surrounding market. Larger parcels along Fair Oaks Avenue are better able to accommodate a mixed-use program. Larger parcels also offer enough flexibility to accommodate physical requirements of national retailers as well as creative and tech office users, who generally prefer larger floors plates. The proposed higher intensity residential/commercial mixed-use development, enhances the likelihood of future development ~~feasibility~~.

Mission Street is notable for its pedestrian-friendly “Main Street” character, with an existing collection of small, locally-owned businesses. The existing Metro A Line light rail station provides a critical link to the countywide transit system as well as a convenient link to Downtown Los Angeles, enhancing the area’s desirability for multi-family residential development. It also opens up the area to a wider retail audience, as Downtown South Pasadena is only a station or two away from residents of Pasadena as well as ~~the~~ a number of Downtown Los Angeles neighborhoods, such as Chinatown, Little Tokyo, and the Arts District.

~~Key limiting factors to achieving a vibrant mixed-use downtown include the lack of a daytime population as well as the citywide 45-foot height limit.~~ The lack of a significant daytime population in ~~the~~ downtown South Pasadena area poses a significant challenge to sustaining a critical mass of retail and dining establishments, and most businesses find it difficult to survive on just weekend and night-time patrons alone. ~~The 45-foot height limit, on the other hand, effectively limits mixed-use development capacity to a maximum of three stories. This is due to the fact that most national retailers expect ceiling heights of 16 to 24 feet, leaving, at most, 29 feet for residential or office uses above, which generally require 10 to 15 feet of height per story (including thickness of floors). As such, most new developments with ground floor retails would only be able to reasonably accommodate three full stories. This limited development capacity hampers financial feasibility of new projects.~~

Therefore, if the City is to support the transformation of Downtown South Pasadena into a vibrant urban district, there must be a concerted effort to introduce higher density nodes within Downtown South Pasadena that includes residents, office space, ~~as well~~ and other non-retail ~~destinations~~ uses. This will ensure that the City can effectively leverage the value capture potential of new development while providing a greater chance that new retailers can flourish.

This strategy provides a framework for the City to take advantage of the aforementioned strengths to address the key limitations described above, improving the vibrancy of Downtown South Pasadena, while enhancing the city’s overall fiscal health and quality of life.

Update for 2025 Amendment: In November 2024, South Pasadena voters approved Measure SP, which eliminated the citywide 45-foot height cap. Height limits in this document were increased as appropriate to support the base densities of this plan and are sensitive to the context of surrounding development."

Section 4. Section C2.2 ("Regulating Plan") of Chapter 2 ("Zones and Regulating Plan") of Part C ("Code") of the DTSP is amended to read as follows:

"C.2.2 REGULATING PLAN

A. Purpose and Establishment of Regulating Plan

This section establishes the regulating plan, Figure C2.1, as the map that identifies and implements the various intentions and principles of the Downtown Plan. Table C2.1 defines the zoning districts, overlays and standards for site development, design and land use through the following:

1 Zoning Districts: Each zoning district is allocated standards in the following areas:

- Building Placement;
- Allowed Building Types;
- Allowed Frontage Types;
- Building Height and Size;
- Allowed Encroachments into Required Yards;
- Parking Placement and Site Access;
- Recommended Parking; and
- Allowed Land Uses

2 Shopfront Frontage Overlay: This overlay requires buildings to have shopfront frontage and a minimum floor-to-ceiling height. This requirement is to establish a consistent building street wall and accommodate ground floor live work, commercial, retail or other such non-residential activity on streets where the vision expects active, pedestrian-oriented streetscapes. Setbacks shall be 0 to 5 ft. maximum and the ground floor height shall be 15 ft. floor to floor.

~~3 Mission Street Height Overlay: This overlay allows maximum building height up to 2 stories (maximum 26 feet) along the rear frontage of the lot. Within the overlay area, the frontage lots along Mission Street back up to side yards of existing residential development. Proposed development should focus greater building mass along the Mission Street frontage with a contextual two-story massing along the rear frontage of the lot~~.

3 ~~4~~ Historic District Overlay: Any development on parcels located within the Mission West/ Historic Business and North of Mission Historic Districts will need to comply with the Secretary of Interior's Standards and Guidelines for the treatment of historic properties and subject to review by the Cultural Heritage Commission.

4 ~~5~~ Regulating Plan Diagram: Each zoning district and overlay established by the Downtown Code is identified on Figure C2.1 to show the boundaries of each zoning district, overlays, and the parcels within each boundary. Figure C2.1 is established as the zoning atlas for all property within the Downtown Code boundaries.

5. Any project located on a site included in either Table VI-52 or Table VI-53 of the Adopted 2021-2029 Housing Element that reserves at least 20% of the residential units reserved for lower income households, shall a) be processed through a ministerial approval process, b) qualify for priority processing as compared to other projects processed by the Community Development Department, and c) be exempt from and not subject to the Public Art Program and Public Art Development requirements of Divisions 36.390 and 36.395 of Article 3 of Chapter 36 of the City Code."

Section 5. Figure C2.1 ("Downtown Regulating Plan") shall be replaced with the figure in Exhibit B to this Resolution.

Section 6. Section C4.3 ("Mixed Use Core Zone") of Chapter 4 ("Development Standards") of Part C ("Code") of the DTSP is amended to read as follows:

C4 DEVELOPMENT STANDARDS (PAGES 108-109)

C4.3 MIXED-USE CORE ZONE

A. Purpose

The Mixed-Use Core Zone permits community serving retail, office, cultural, and transit-oriented residential mixed-uses. ~~with between 20 and 70 dwelling units per acre~~ For properties located east of Orange Grove Avenue, density of between 20 and 70 dwelling units per acre shall be permitted and the maximum height shall be 60 feet calculated using average building height. For properties located along Mission Street west of Orange Grove Avenue, and properties in the National Register Historic District, density of between 20 and 50 dwelling units per acre shall be permitted and the maximum height shall be 50 feet calculated using average building height. Uses include small-scale commercial activities

that are typically located along the main street. The standards in this zone are intended to promote a walkable, diverse, and well-connected area.

B. Zoning Designations

Within the Mixed-Use Core Zone, there are two zoning designations. The Mixed-Use Core-70 (MUC-70) includes the properties located east of Orange Grove Avenue, which have a density of between 20 and 70 dwelling units per acre and a maximum height of 60 feet. The Mixed-Use Core-50 includes the properties located along Mission Street west of Orange Grove Avenue, which have a density of between 20 and 50 dwelling units per acre and a maximum height of 50 feet. Any property in the National Register Historic District shall have a density of up to 50 dwelling units per acre and a maximum height of 50 feet.

C~~B~~. Building Placement

Setback	
Primary Street	~~0 to 15 ft. max~~ 0 to 5 ft, except as permitted by Frontage Type size requirements
Side Street	~~0 to 15 ft. max~~ 0 to 5 ft, except as permitted by Frontage Type size requirements
Side Yard	0 ft.
Rear (with alley)	5 ft. min
Rear (no alley)	10 ft. min

~~**Massing Stepback**~~	
F~~ront~~	~~8 ft. min above 3 stories~~
O~~ver 4 stories (w/density bonus)~~	~~10 ft. min. above 3 stories~~
R~~ear~~	~~20 ft. min above 3 stories~~

D~~C~~. Frontages and Encroachments

i. Allowed Frontages

- Arcade
- Gallery
- Shopfront
- Lightcourt
- Forecourt
- Stoop
- Dooryard
- Porch
- Frontyard

ii Encroachments: Architectural features, and signs may encroach into the required setbacks subject to the following requirements:

<table>
<tr><td rowspan="3">Description</td><td colspan="5">Encroachment</td></tr>
<tr><td colspan="4">Horizontal</td><td>Vertical</td></tr>
<tr><td>Front</td><td>Side St.</td><td>Rear</td><td>Side</td><td rowspan="5">min. 8 ft. clear</td></tr>
<tr><td>Arcade, gallery, awning</td><td colspan="2">6 ft. max</td><td rowspan="3">min. 5 ft. from PL</td><td>not allowed</td></tr>
<tr><td>Balcony</td><td colspan="2">4 ft. max</td><td rowspan="2">min. 5 ft. from PL</td></tr>
<tr><td>Bay window</td><td colspan="2">4 ft. max on upper floors only</td></tr>
<tr><td>Eave</td><td colspan="2">2 ft. max</td><td>min. 3 ft. from PL</td><td>min. 3 ft. from PL</td></tr>
</table>

E. ~~D.~~ Allowed Building Types, Height and Site Size

Allowed Building Types	Minimum		Maximum	
	Stories/Feet	Site W/D	Stories/Feet	Site W/D
Stacked Flats	2/25	125/100	4/45 5/ZD*	200/200
Flex Building	2/25	~~125~~ 125/100	~~4/45~~(1) ZD*	200/150
Liner	1/18	100/100	~~4/45~~ (1) ZD*	200/200
Hybrid court	2/25	125/125	~~4/45~~ (1) ZD*	200/200
Court	1~~/18~~ 2/25	125/125	~~3/35~~ (1) ZD*	200/200
Live-work	1~~/18~~ 2/25	70/95	2~~/25~~ 3/45	200/150
Rowhouse	1~~/18~~ 2/25	90/95	2/25 3/35	150/150
Rowhouse or Bungalow Court	1/18	125/125	2/25	150/150
Duplex,multiplex	1/18	50/95	2/25	150/150
S~~ingle Family~~	1~~/18~~	4~~0/80~~	2~~/30~~	8~~0/150~~

W=Building site width along primary frontage;
D=Building site depth perpendicular to primary frontage.

(1) There are no maximum stories for the following building types: Flex Building, Liner, Hybrid Court and Court. The maximum height is governed by the applicable zoning designation (See ZD*)

ZD*- Height is governed by the applicable zoning designation described in C4.3.B above. If the property is in National Register Historic District, the density is up to 50 dwelling units per acre and the maximum height is 50 feet.

	Ground Floor	~~Upper Stories~~
Interior floor to floor height	15 ft. min	~~8 ft. min.~~

F ~~E~~. Parking

i Pursuant to Section 21155 of the California Public Resources Code, there shall be no minimum parking requirement for any residential, commercial, or other development project if the project is located within one-half mile of a major transit stop. The Metro A Line station qualifies as a Major Transit Stop.

ii Recommended Parking

a Residential uses	Studio ~~or 1 bedroom~~	0.50 ~~1~~ space per unit
	1 bedroom	1 space per unit
	2+ bedroom	1.5 spaces per unit
b Non-residential uses		2 spaces per 1,000 sq.ft.

iii Parking Placement: If on-site parking is provided, the location of parking spaces/areas shall be located within the setback areas set forth below and shall comply with the following: ~~then it shall be located in compliance with the following requirements:~~ (1) Located to the rear of the building on the ground level or underground, and (2) shall not be located above the ground level or within 30 feet of the front or side street property line.

Setback

Primary street	min. 30 ft. for surface or garage parking
Side street	min. 30 ft. ~~15 ft.~~ for surface or garage parking
Side property	min. 5 ft. for surface parking; otherwise, per building setback requirements
Rear property	min. 5 ft. for surface parking; otherwise, per building setback requirements

Parking may be placed within setback areas below grade.

~~F. Standards for Buildings Exceeding 45 feet in Height~~
~~1. For any building above 45 feet in height, the minimum lot width shall be 100 feet and the minimum lot depth shall be 100 feet.~~
~~2. For any building above 45 feet in height, the minimum dimension of a courtyard enclosed by a building on all sides shall be 40 feet.~~
~~3. For any building above 45 feet in height, the minimum dimension of a courtyard open on one side shall be a minimum of 35 feet.~~
~~4. For any portion of a building above 45 feet in height, the minimum space between two adjacent buildings shall be 30 feet.~~
~~5. Roof tops with amenities shall be counted as part of the common open space of a building.~~

~~6. Building heights in excess of 45 feet are subject to State Density Bonus concessions and waivers. See SPMC § 36.370.030~~

~~**G. Minimum Unit Size**~~

~~Residential units shall be no less than 450 square feet.~~

Section 7. The figures in Section C4.3 ("Mixed Use Core Zone") of Chapter 4 ("Development Standards") of Part C ("Code") of the DTSP on page 108 shall be revised to be consistent with the newly revised text. The figure on page 109 depicting a project with state density bonus shall be deleted.

Section 8. Section C4.4 ("Fair Oaks Avenue Zone") of Chapter 4 ("Development Standards") of Part C ("Code") of the DTSP is amended to read as follows:

"C4.4 FAIR OAKS AVENUE ZONE

A. Purpose

The Fair Oaks Zone permits regional and community serving retail, office, cultural and residential mixed-uses with between 20 and ~~110~~ 90 dwelling units per acre. The maximum height shall be 70 feet. Uses include larger-scale commercial uses that are typically located along this busy commercial street. The standards in this zone are intended to promote a walkable, diverse, and well-connected area. The buildings located along the edges that back-up to residential districts require very careful residential scale massing and articulation."

B. Building Placement

Setback	
Primary Street	~~0 to 15 ft. max~~ 0 to 5 ft.
Side Street	~~0 to 15 ft. max~~ 0 to 5 ft.
Side Yard	0 ft.
Rear (with alley)	5 ft. min
Rear (no alley)	10 ft. min

~~**Massing Stepback**~~	
~~Front~~	~~10 ft. min above 3 stories~~
~~Over 4 stories~~	~~10 ft. min. above 3 stories~~

~~(w/density bonus)~~	
~~Rear~~	~~20 ft. min above 3 stories~~

C. Frontages and Encroachments

I. Allowed Frontages

- Arcade
- Gallery
- Shopfront
- Lightcourt
- Forecourt
- Stoop
- Dooryard
- Porch

ii Encroachments: Architectural features, and signs may encroach into the required setbacks subject to the following requirements.

Description	Encroachment				
	Horizontal				Vertical
	Front	Side St.	Rear	Side	
Arcade, gallery, awning	6 ft. max		min. 5 ft. from PL	not allowed	min. 8 ft. clear
Balcony	4 ft. max			min. 5 ft. from PL	
Bay window	4 ft. max on upper floors only				
Eave	2 ft. max		min. 3 ft. from PL	min. 3 ft. from PL	

D. Allowed Building Types, Height and Site Size

Allowed Building Types	Minimum		Maximum	
	Stories/Feet	Site W/D	Stories/Feet	Site W/D
Stacked Flats	2/25	125/100	~~4/45~~ (1)/70	200/200
Flex Building	2/25	125/100	~~4/45~~ (1)/70	200/150
Liner	1/18	100/100	~~4/45~~ (1)/70	200/150
Hybrid court	2/25	125/125	~~4/45~~ (1)/70	200/200
Court	1/18	125/125	~~3/45~~ 5/60	200/200
Live-work	1/18	70/95	~~3/45~~ 4/50	200/150
Rowhouse	1/18	90/95	3/35	200/150
~~Rowhouse or Bungalow Court~~	~~1/18~~	~~50/85~~	~~3/35~~	~~150/150~~
~~Duplex/multiplex~~	~~1/18~~	~~50/95~~	~~3/35~~	~~150/150~~
W=Building site width along primary frontage; D=Building site depth perpendicular to primary frontage. (1)There are no maximum stories for the following building types: Stacked Flats, Flex Building, Liner and Hybrid Court.				

	Ground Floor	~~Upper Stories~~
Interior floor to floor height	15 ft. min	~~8 ft. min.~~

E. Parking

i Pursuant to Section 21155 of the California Public Resources Code, there shall be no minimum parking requirement for any residential, commercial, or other development project if the project is located within one-half mile of a major transit stop. The Metro A Line station qualifies as a Major Transit Stop.

ii Recommended Parking

a Residential uses Studio ~~or 1 bedroom~~	0.50 ~~1~~ space per unit
1 bedroom	1 space per unit
2+ bedroom	1.5 spaces per unit

b Non-residential uses 2 spaces per 1,000 sq.ft.

iii Parking Placement: If on-site parking is provided, the location of parking spaces/areas shall be located within the setback areas set forth below and shall comply with the following: ~~then it shall be located in compliance with the following requirements:~~ (1) Located to the rear of the building on the ground level or underground, and (2) shall not be located above the ground level or within 30 feet of the front or side street property line.

Setback

Primary street min. 30 ft. for surface or garage parking
Side street min. 30 ft. ~~15 ft.~~ for surface or garage parking
Side property min. 5 ft. for surface parking; otherwise, per building setback requirements
Rear property min. 5 ft. for surface parking; otherwise, per building setback requirements

Parking may be placed within setback areas below grade.

~~F. Standards for Buildings Exceeding 45 feet in Height~~

~~1. For any building above 45 feet in height, the minimum lot width shall be 100 feet and the minimum lot depth shall be 100 feet.~~
~~2. For any building above 45 feet in height, the minimum dimension of a courtyard enclosed by a building on all sides shall be 40 feet.~~
~~3. For any building above 45 feet in height, the minimum dimension of a courtyard open on one side shall be a minimum of 35 feet.~~
~~4. For any portion of a building above 45 feet in height, the minimum space between two adjacent buildings shall be 30 feet.~~
~~5. Roof tops with amenities shall be counted as part of the common open space of a building.~~
~~6. Building heights in excess of 45 feet are subject to State Density Bonus concessions and waivers. See SPMC § 36.370.030~~

~~**G. Minimum Unit Size**~~

~~Residential units shall be no less than 450 square feet.~~"

Section 9. The figures in Section C4.4 ("Fair Oaks Corridor") of Chapter 4 ("Development Standards") of Part C ("Code") of the DTSP on page 110 shall be revised to be consistent with the newly revised text. The figure on page 111 depicting a project with state density bonus shall be deleted.

****

C4 DEVELOPMENT STANDARDS (ADD AFTER PAGE 111)

Section 9. A new section C.4.5 entitled "Housing Element" shall be added to Chapter 4 ("Development Standards") of Part C ("Code") of the DTSP to read as follows:

"**C.4.5 HOUSING ELEMENT**

In compliance with State law, any property that is included in the 2021-2029 Housing Element Tables VI- 52 or VI-53 shall require a minimum density of 20 dwelling units per acre."

Section 10. The current definition of "Building Height set for in Subsection C11.1 ("Definitions of General Terms" of Chapter 11 ("Definitions") shall be deleted and subsequently amended to read as follows:

"Building Height. ~~Building Height. The vertical extent of a building measured in stories to the eave of the highest story, not including a raised basement or a habitable attic. Height limits do not apply to masts, belfries, clock towers, chimney flues, and similar structures. Building height shall be measured from the average grade of the fronting thoroughfare.~~ Building Height shall have the same meaning and measuring conventions as set forth in South Pasadena Municipal Code Section 36.300.040."

ADDITIONAL AMENDMENTS WILL BE MADE TO VARIOUS PAGES OF THE DTSP AND WILL BE PROVIDED VIA AN ADD DOC

EXHIBIT B

FIGURE C2.1 - DOWNTOWN REGULATING PLAN

TO BE ADDED

ORDINANCE NO.____

AN ORDINANCE OF THE CITY OF SOUTH PASADENA AMENDING CHAPTER 36 (ZONING) OF THE SOUTH PASADENA MUNICIPAL AS IT RELATES TO HEIGHT, DENSITY AND DEVELOPMENT STANDARDS IN THE CITY'S ZONING AND OVERLAY DISTRICTS AND AMENDING THE CITY'S ZONING MAP TO IMPLEMENT THE CITY'S 2021-2029 (6TH CYCLE) HOUSING ELEMENT

WHEREAS, on May 30, 2023, the City Council adopted the Environmental Assessment (EA) prepared for the 2021-2029 (6th Cycle) Housing Element ("Housing Element") and then adopted the Housing Element;

WHEREAS, on September 27, 2023, the City Council adopted the Program Environmental Impact Report (PEIR) prepared for the General Plan Update and the Downtown Specific Plan, and the Housing Element Implementation Programs Project;

WHEREAS, on July 29, 2024, the California Housing and Community Development Department issued a findings letter indicating that the City's Housing Element, is in substantial compliance with State Law;

WHEREAS, the City has continued to work diligently to implement Housing Element programs, including adopting a new General Plan, Downtown Specific Plan, and rezoning;

WHEREAS, Housing Element Program 2.n called for the City to place a ballot initiative before the voters of South Pasadena to consider removing the 45-foot building height limit in certain parts of the City, and on November 5, 2024, South Pasadena residents approved said measure with the results being certified by the City Council on December 18, 2025, thus enabling amendments to the General Plan, Downtown Specific Plan, and the South Pasadena Zoning Code consistent with the adopted Housing Element;

WHEREAS, on February 1 and February 15, 2025, the City conducted walking tours to familiarize residents and public officials with the areas under consideration for revised building height limits and development standards, with staff receiving feedback and suggestions from the community on potential changes to both the South Pasadena Municipal Code and Downtown Specific Plan, with approximately 40 residents in attendance at each event;

WHEREAS, on February 18, 2025, the City conducted an open house to showcase the analysis prepared in regard to height limits in conjunction with housing density, with maps showing areas in which the City proposed to increase height and exhibits showing examples of conceptual development scenarios in areas that included Huntington Drive, Ostrich Farm, Fair Oaks Avenue, and Mission Street, with staff receiving feedback from the approximately 40 residents who attended;

WHEREAS, on March 11, 2025, Planning Commission Chair appointed a subcommittee of two Commissioners to study in-depth the assumptions and methodology involved in the proposed amendments;

WHEREAS, on March 18, 2025, the City conducted a second open house, this time focusing on current development standards that may present challenges to housing development including setbacks, stepbacks, building breaks, parking location, open space, and minimum unit sizes, with staff receiving feedback from the approximately 40 participant who attended;

WHEREAS, on March 26, 2025, a joint City Council and Planning Commission study session was held wherein additional public comment and feedback from both the Planning Commission and the City Council was were received regarding potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code (Chapter 36), and the City's Zoning Map;

WHEREAS, on April 8, 2025, the Planning Commission subcommittee that was convened to study the assumptions and methodologies upon which potential amendments would be based, reported to the full Planning Commission, resulting in further feedback to staff as to how to proceed, with the subcommittee continuing to work with staff to prepare a recommendation for future consideration by the Planning Commission;

WHEREAS, on April 29, 2025, the Planning Commission held a duly noticed Public Hearing, wherein the Planning Commission received a staff presentation and staff report on potential amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map ("proposed project" or "project"); received public testimony; and held Planning Commission discussion. Thereafter, the Planning Commission continued the Public Hearing to May 7, 2025;

WHEREAS, on May 7, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrected maps and exhibits, including a density/height summary table and received public testimony. Thereafter, the Planning Commission continued the public hearing to May 20, 2025;

WHEREAS, on May 20, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission resumed its discussion, received corrections to the zoning map and density/height summary table, received public testimony and gave direction to staff and the City's consultant for additional information and scenarios related to the density and height amendments. Thereafter, the Planning Commission continued the public hearing to June 10, 2025;

WHEREAS, on June 10, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received an updated density and height table of density based on recommendations and suggestions from the Planning Commission, received the updated Housing Element inventory zoning scenarios with corresponding Zoning Maps, received updated development standards table prepared by the subcommittee and staff; resumed its discussion and provided preliminary recommendations to Staff in preparation for a community meeting to be held on June 16, 2025. Thereafter, the Planning Commission continued the public hearing to June 24, 2025;

WHEREAS, on June 16, 2025, the Planning Commission held a community meeting to received input from the community and stakeholders regarding the Planning Commission's preliminary recommendations related to density, height and development standards in order to implement the Housing Element programs;

WHEREAS, on June 24, 2025, the Planning Commission continued its Public Hearing, wherein the Planning Commission received a staff presentation and staff report on the amendments to the General Plan, Housing Element, Downtown Specific Plan, the City's Zoning Code and the City's Zoning Map based on the Planning Commission's previous discussion and direction; received a summary of the comments received at the June 16, 2025 community meeting; received public testimony; and held Planning Commission discussion and provided further direction to staff. Thereafter, the Planning Commission adopted a Resolution to recommend that the City Council adopt a zoning text amendment and zoning map amendment to amend Chapter 36 (Zoning) of the South Pasadena Municipal Code to implement the Housing Element;

WHEREAS, on July 16, 2025, the City Council held a duly noticed Public Hearing, wherein the City Council received a staff presentation and staff report on the proposed Ordinance implementing a Zoning Text Amendment and Zoning Map Amendment, as well as amendments to the General Plan, Housing Element and Downtown Specific Plan, as it relates to height, density and development standards in the City's zoning and overlay districts in order to implement the Housing Element. The City Council received public testimony and all interested persons had an opportunity to, and did, testify in this matter. Thereafter, the City Council asked questions and deliberated; and

WHEREAS, all legal prerequisites to the adoption of this Ordinance have occurred.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES ORDAIN AS FOLLOWS:

SECTION 1. Recitals. The facts set forth in the recitals of this Ordinance are true and correct and incorporated herein as if set forth in full.

SECTION 2. Findings. Based upon substantial evidence presented, including public testimony and written and oral staff reports, and the environmental documentation, the City Council finds:

A. All necessary public hearings and opportunities for public testimony and comment have been conducted in compliance with applicable law;

B. The proposed Zoning Text and Map Amendment is consistent with the actions, goals, objectives, policies and programs of the General Plan and the Amendment to the Housing Element, as such documents have been amended and updated in conjunction with this Ordinance. Specifically, the proposed Zoning Text Amendment is internally consistent with the actions, goals, objectives, policies and programs of the General Plan, with the amendments of July 16, 2025 and the July 16, 2025 Amendment to the Housing Element. Specifically, Housing Element Program 2.n: Citywide Height Limit Ballot Initiative; Housing Element Program 3.n: Zoning Changes; and General Plan Policy P5.8: Support the reduction of governmental and regulatory constraints, and advocate for the production of affordable housing. Given that this Zoning Text and Map Amendment implements changes to support heights and building and development standards in support of, and consistent with, the Housing Element, the City Council makes this finding.

C. The Zoning Text and Map Amendment would not be detrimental to the public interest, health, safety, convenience or general welfare of the City because it would achieve consistency with the Housing Element and the July 16, 2025 Amendment to the Housing Element, specifically the rezoning necessary to implement new building heights as part of the Measure SP implementation process. This supports Housing Element Programs 2.n (Citywide Height Limit Ballot Initiative) and 3.n (Zoning Changes). In addition, the implementation of the amendment further supports the general welfare of the City by focusing growth into specific areas where residents will have access to services and public transportation. The General Plan supports mixed-use, walkable neighborhoods, and provides the development capacity to accommodate projected future growth along with the housing programs identified in the Housing Element. Therefore, the City Council hereby makes this finding.

D. The proposed Zoning Map Amendment is physically suitable for the requested zoning designations and anticipated land uses because the proposed amendments related to height, density and development standards allow for development of the areas amended on the proposed map. Therefore, the City Council makes this finding.

SECTION 3. California Environmental Quality Act (CEQA). The policies and implementation documents that were adopted and now proposed for amendment were analyzed in the Program Environmental Impact Report (PEIR) for the General Plan and Downtown Specific Plan Update and 2021-2029 Housing Element Implementation Programs, which was certified by the Council on September 27, 2023. Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Based on the analysis and information contained in the Addendum to the PEIR, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed amendments indicates that there are no new significant environmental impacts associated with implementation of height, density and development standards to support housing development. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed, and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents. The amendments to these policy documents, are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage, as reflected in the Housing Element.

Therefore, the City Council adopts the July 2025 addendum to the PEIR. Further, on a separate and independent basis, the City Council finds that the project is exempt from CEQA pursuant to recently enacted Public Resources Code Section 21080.085, which provides that CEQA does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code. The actions included in the Project reflect implementation of the Housing Element in light of Measure SP, and implementation of other Housing Element programs contemplated under Section 65583(c).

SECTION 4. The City Council hereby amends various sections of Chapter 36 (Zoning) of the South Pasadena Municipal Code to incorporate the text changes set forth in Exhibit A, attached hereto and incorporated herein by reference, with all sections of Chapter 36 that have no amendments identified in Exhibit A remaining in effect without amendment.

SECTION 5. The City Council hereby adopts the Amended Zoning Map attached hereto as Exhibit B, and incorporated herein by reference.

SECTION 6. If any section subsection, subdivision, paragraph, sentence, clause or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by any court of competent jurisdiction, or contravened by reason of any preemptive legislation, the remaining sections and/or provisions of this Ordinance shall remain valid. The City Council hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, paragraph, sentence, clause or phrase hereof, regardless of the fact that any one or more section(s) or provision(s) may be declared invalid or unconstitutional or contravened via legislation.

SECTION 7. The City Clerk shall certify to the passage of this Ordinance and shall cause the same to be published in the manner prescribed by law, and this Ordinance shall become effective 30 days following its adoption.

PASSED, APPROVED AND ADOPTED ON this 20th day of August, 2025

ZONING TEXT AMENDMENT

36.220.020 Purposes of Residential Zoning Districts.

Different residential zoning districts are intended to provide for a variety of housing opportunities through new construction, and the maintenance of existing homes and neighborhoods. The purposes of the individual residential zoning districts and the manner in which they are applied are as follows:

A. RE (Residential Estate) district. The RE zoning district applies to areas appropriate for detached, single-family residential homes on large estate parcels. The allowable residential density is a maximum of three dwelling units per acre. The RE zoning district is consistent with the Very Low Density Neighborhood land use designation of the General Plan.

B. RS (Residential Single-Family) district. The RS zoning district is intended for areas appropriate for the development of detached, single-family homes. The allowable residential density is a maximum of five dwelling units per acre. The RS zoning district is consistent with the Low Density Neighborhood land use designation of the General Plan.

C. RM (Residential Medium Density) district. The RM zoning district applies to areas appropriate for a variety of housing types. Typical residential land uses include single-family bungalow courts, courtyard housing, townhomes, duplexes, triplexes, multiplexes, and other attached dwellings on smaller lots. The allowable residential density ranges from 5.1 to 30 dwelling units per acre, except that any property in the RM district that is also included on the Housing Element Table ~~VI-50~~ VI-52 or ~~VI-51~~ VI-53 shall require a minimum density of 20 dwelling units per acre. Up to 70 dwelling units per acre are allowed for properties located within the Housing Opportunity (HO) Overlay District. The RM zoning district is consistent with the Medium Density Neighborhood land use designation of the General Plan.

D. RH (Residential High Density) district. The RH zoning district is intended for areas appropriate for high density attached dwelling units, including courtyard housing, townhouses, condominiums, and apartments. The allowable residential density ranges from 30.1 to 45 dwelling units per acre. Up to 70 dwelling units per acre are allowed for properties located within the Housing Opportunity (HO) Overlay District. The RH zoning district is consistent with the High Density Neighborhood land use designation of the General Plan.

Table 2-3 Residential District General Development Standards.

TABLE 2-3. RESIDENTIAL DISTRICT GENERAL DEVELOPMENT STANDARDS				
	Requirement by Zoning District (1)			
Development Feature	**RE**	**RS**	**RM**	**RH**
Minimum lot size	Minimum area and width for parcels proposed in new subdivisions.			

TABLE 2-3. RESIDENTIAL DISTRICT GENERAL DEVELOPMENT STANDARDS				
	Requirement by Zoning District (1)			
Development Feature	**RE**	**RS**	**RM**	**RH**
Area	12,500 sf	10,000 sf	10,000 sf	10,000 sf
Width	75 ft; 85 ft for a corner lot	50 ft; 60 ft for a corner lot	60 ft; 80 ft for a corner lot	70 ft
Residential density	Maximum number of dwelling units allowed in a project. The actual number of units allowed will be determined by the City through subdivision or land use permit approval, as applicable.			
Allowable density	Maximum of 3 du/acre	Maximum of 5 du/acre	5.1 to 30 du/acre (2)	30.1 to 45 du/acre (3)
Setbacks	Minimum and, where noted, maximum setbacks required. See SPMC 36.300.030 for setback measurement, allowed projections into setbacks, and specific exceptions to setbacks.			
Front	25% of lot depth, with a minimum of 25 ft, and a maximum requirement of 35 ft		~~20 ft~~ 10 ft	~~15 ft~~ 7.5 ft
Front exception	If 60 percent or more of the lots on the same block face have structures with front setbacks different from the above, the required front setback shall be the average of the existing front setbacks, provided that no more than 45 feet shall be required in the RE district, and 35 ft shall be required elsewhere.		~~An additional minimum 5 ft setback from the property line shall be provided for every story above the second story.~~	
Sides, each	10% of lot width	10% of lot width, 4 ft minimum	4 ft An additional minimum 1 ft ~~4 ft~~ setback from the property line shall be provided for each ~~every additional~~ story above the second story. (i.e. 3 story building = 5 ft; 4 story building = 6 ft, etc.)	4 ft ~~8 ft minimum~~; An additional 1 ft ~~10 ft minimum~~ setback from the property line shall be provided for each story above the second story. (i.e. 3 story building = 5 ft; 4 story building = 6 ft, etc.)
Side, street side	20% of lot width, to a maximum requirement of 15 ft		~~15~~ 10 ft minimum	

TABLE 2-3. RESIDENTIAL DISTRICT GENERAL DEVELOPMENT STANDARDS				
	Requirement by Zoning District (1)			
Development Feature	**RE**	**RS**	**RM**	**RH**
Rear	25 ft		15 ft minimum; or 5 ft minimum abutting an alley	15 ft. minimum; or 5 ft. minimum abutting an alley ~~20 ft minimum; 22 ft minimum setback shall be provided for each additional story above the second story.~~
Garage	An attached garage shall be set back a minimum of 10 ft from the front of the main structure		N/A	
Accessory structures	As required for primary structures, except that: • A structure of 120 sf or less may be placed within a required side or rear setback, but not a front setback or in front of the frontmost dwelling unit on the lot; • A detached garage or carport or other accessory residential structure shall be located at least 5 ft from a side and/or rear property line, except if the required side yard setback for the dwelling/s is less than 5 ft, in which case the lesser side yard setback may be used for a detached garage or carport only. Such structures cannot be located in the front setback or in front of the frontmost dwelling unit on the lot; • Accessory structures shall be located at or beyond the required street-facing side yard setback for the dwelling/s, except if the Director determines that a lesser setback can be approved using the Administrative Use Permit process detailed in SPMC 36.350.170(C)(3)(e);		See SPMC 36.350.170 (Residential Uses—Accessory Residential Structures)	
	• Private residential recreational facilities shall be located at least 5 ft from a side and/or rear property line and cannot be located in the front setback, or in front of the frontmost dwelling unit on the lot or in the

Development Feature	**RE**	**RS**	**RM**	**RH**
	street-facing side setback of a corner lot. See also SPMC 36.350.170 (Residential Uses—Accessory Residential Structures).			
Building separation	10 ft between structures on the same site.		Minimum distances shall comply with Fire Code requirements but in no case shall be less than 10 ft.	
Lot coverage	Maximum percentage of total lot area that may be covered by structures.			
	40%		N/A	
Floor area ratio requirement	0.35		N/A	N/A
Height limit	Maximum allowable height of structures in other than hillside areas (see SPMC 36.340 (Hillside Protection) for height limits in hillside areas). See SPMC 36.300.040 (Height Limits and Exceptions) for height measurement requirements. See also SPMC 36.350.170 (Residential Uses—Accessory Residential Structures).			
Maximum height	35 ft (no height averaging)		45 ft (no height averaging) For properties located in the HO Overlay District, the maximum height is 60 feet calculated using average building height (See, SPMC 36.300.040.E)	
Multiple story exception	No portion of a structure shall encroach through a 45 degree angle projected perpendicularly from the front property line toward the rear property line. See Figure 2-1 in this division. Building height in addition to the above limits may be authorized by design review (SPMC 36.410.040) to accommodate dormer windows and/or uninhabitable roof structures where appropriate to the architectural style of the dwelling.		N/A

	Requirement by Zoning District (1)			
Development Feature	**RE**	**RS**	**RM**	**RH**
OPEN SPACE (4)				
Minimum Total Combined Useable Open Space per Residential Unit (Common and Private Combined)	N/A		200 sf per unit, minimum ~~As required by SPMC 36.350.190 (Multifamily Project Standards)~~	
Common Open Space Required	N/A		50% minimum of the total required open space; 1,000 sf minimum; Up to 25% of the required common open space may be indoor common open space such as fitness rooms, resident lounges and similar or typical facilities. Mail rooms and leasing offices and associated areas do not count towards the required common open space.	
Dimensions of Private Open Space	N/A		~~Private open space areas shall have a minimum dimension of eight feet on any side, and a configuration that would accommodate a rectangle of at least 100 square feet.~~ If individual balconies, ground floor patios, porches, or similar private open space are provided to meet the area requirements, such areas shall have minimum dimensions of 8 ft width and 6 ft depth.	
Dimensions of Common Open Space	N/A		Common open space areas shall have a minimum dimension of 20 feet on any side.	
Dimensions of Outdoor Common Open Space and Landscaping Requirement			Outdoor common open space shall have a minimum dimension of 20 feet in two directions. In addition, a minimum 20% of outdoor common open space shall be landscaped that may count	

TABLE 2-3. RESIDENTIAL DISTRICT GENERAL DEVELOPMENT STANDARDS				
	Requirement by Zoning District (1)			
Development Feature	**RE**	**RS**	**RM**	**RH**
			toward the minimum Site Landscaping requirement.	
Landscaping	As required by SPMC 36.330 (Landscaping Standards)			
Parking	As required by SPMC 36.310 (Parking and Loading), unless such development qualifies for an exception to providing parking under provisions of State law			
Signs	As required by SPMC 36.320 (Signs)			

Notes:

(1) Altos de Monterey exceptions. The standards and requirements for development within the Altos de Monterey (AM) overlay zoning district are different from those in this table; see SPMC 36.250.030.

(2) Up to 70 dwelling units per acre allowed for properties located within the HO Overlay District. See SPMC 36.220.050.

(3) Up to 70 dwelling units per acre allowed for properties located within the HO Overlay District. See SPMC 36.220.050.

(4) As it pertains to the RM and RH Zoning District, the development standards related to open space as set forth in SPMC 36.350.190(C) (Multifamily Project Standards) shall apply in the RM and RH Zoning District, except to the extent the standard has been modified by the specific provisions in this Table 2-3.

Table 2-5 Commercial District General Development Standards.

Table 2-6 Mixed Use Overlay District Development Standards.

TABLE 2-6. MIXED USE OVERLAY DISTRICT DEVELOPMENT STANDARDS		
Development Feature	**Requirement**	**Notes**
DEVELOPMENT INTENSITY		
Minimum Size or Area	20,000 sf	Minimum area for parcels proposed for new subdivisions.
Minimum Lot Frontage	80 ft	Minimum width for parcels proposed for new subdivisions.
Density Range for Residential	52 to 70 du/ac	
Maximum Lot Coverage	70%	
Minimum Residential Unit Size	~~Studio—450 sf~~ ~~One-bedroom—750 sf~~ ~~Two-bedroom—900 sf~~	
NONRESIDENTIAL USES		
Location	Nonresidential uses are required along the street frontage in the areas described in the General Plan for development within a Corridor, District, or Neighborhood Centers.	
BUILDING HEIGHT AND FORM		
Maximum Height	60 feet calculated using average building height (See, SPMC 36.300.040.E ~~45 ft~~	DRAFT LANGUAGE-SUBJECT TO REVISION Nonhabitable building features such as chimneys, cupolas, flagpoles, monuments, steeples, pitched roofs, ~~roof screens,~~ screened equipment, roof access stairs, elevator rooms and shafts, elevator overruns and similar structures or projections shall be counted towards the average building height. ~~covering no more than 10% of the top floor roof area may exceed the maximum height by up to 8 ft.~~
Maximum Stories	~~4~~	
Maximum Floor Area by Story	~~Up through second story—100%~~ ~~Third story—90%~~ ~~Fourth story—80%~~	~~The standard refers to the percentage relative to the ground floor building footprint area~~

TABLE 2-6. MIXED USE OVERLAY DISTRICT DEVELOPMENT STANDARDS		
Development Feature	**Requirement**	**Notes**
Maximum Façade Length ~~Building Length~~	~~150 ft~~ 100 ft	A minimum building break of 10 feet wide by 10 feet deep is required so as to prevent façade lengths longer than 100 feet.
BUILDING RELATIONSHIP TO STREET		
Minimum Building Frontage	60%	
Maximum Elevation of Building Entry Above the Street/Sidewalk Level and Maximum Recess Below the Street/Sidewalk Level	2 ft	Entries into individual residential units may be located up to 4 feet above the street/sidewalk level
Minimum Ground Floor Height	12 ft	
NONRESIDENTIAL USE GROUND FLOOR BUILDING DESIGN		
Maximum Blank Wall Length	25 ft	
Minimum Glazing	50%	
Minimum Tenant Space Width	25 ft	
Minimum Number of Entries	1 per 100 lineal ft	
Minimum Wall Plane Articulation	To/from window/door—minimum 6 inches To/from column/other feature—minimum 18 inches	Windows, door, columns, and other features shall be recessed or project forward to provide the respective minimum differential from the wall plane
Signs	As required by SPMC 36.320 (Signs)	
SETBACKS FOR NONRESIDENTIAL		
Front—Ground Floor	Per the underlying zoning district	~~May be increased to 15 ft where outdoor uses or small plazas are provided directly in front of the nonresidential use~~
Side—Ground Floor	Per the underlying zoning district	
Rear	~~Per the underlying zoning district~~ 15 ft	
SETBACKS FOR RESIDENTIAL		
Front—Ground Floor	5 ft in CG District 7.5 ft in other than CG District ~~20 ft minimum~~	

TABLE 2-6. MIXED USE OVERLAY DISTRICT DEVELOPMENT STANDARDS		
Development Feature	**Requirement**	**Notes**
Side	4 ft; An additional 1 ft. setback shall be provided for each story above the second story. (i.e. 3 story building = 5 ft; 4 story building = 6 ft, etc.). ~~10 ft minimum for first two floors~~ ~~15 ft minimum from property line for third floor and above~~	~~For any property adjacent to an RE or RS district, the minimum setback for the first and second stories shall be 20 ft, and any story above the second story shall be set back a minimum distance of 25 ft from the property line.~~
Rear	10 ft; or 5 ft abutting an alley ~~20 ft minimum for first two floors~~ ~~25 ft minimum for third floor and above~~	~~For any property adjacent to an RE or RS district, the minimum setback for the first and second stories shall be 30 ft, and any story above the second story shall be set back a minimum distance of 35 ft from the property line.~~
~~**SETBACKS—GENERAL**~~		
~~Setback From Access Driveway~~	~~5 ft minimum~~	
~~Distance Between Buildings~~	~~As required by the Fire Code, but in no instance less than 10 ft~~	
PARKING, LOCATION AND DESIGN (1)		
Site Access/Driveway Location	The location of site access/driveways shall be prioritized as follows: (1) From an alleyway, (2) From a side street, or (3) If the previous two locations are infeasible as determined by the Director, then access from the front shall be limited to a maximum 24-ft wide driveway.	
Location of Parking Spaces/Areas	The location of parking spaces/areas shall be limited as follows: (1) Located to the rear of the building on the ground level or underground, and (2) Shall not be located above the ground level or within 30 feet of ~~within~~ the front or side street	

TABLE 2-6. MIXED USE OVERLAY DISTRICT DEVELOPMENT STANDARDS		
Development Feature	**Requirement**	**Notes**
	property line ~~setback areas.~~, and (3) Parking may be placed within setback areas below grade.	
Number of Spaces for Nonresidential Uses	As required by SPMC 36.310 (Parking and Loading)	Shared parking or a reduction in parking subject to approval of a parking study—SPMC 36.310.060. Within one-half mile of a high-quality transit station, no parking minimums shall apply for any use except for hotels, motels, bed and breakfast inns, and similar transient lodging facilities per Government Code Section 65863.2.
Number of Spaces for Residential Uses	Studio—0.50 space One-bedroom—1 space Two-bedroom—1.5 ~~2~~ spaces Guest Space—not required ~~0.25 per unit~~	~~Guest spaces are not required if nonresidential spaces are available during non-operational hours.~~ Parking is reduced, not required, for qualifying development projects within one-half mile of a major transit stop ~~high-quality transit station,~~ as defined in Government Code Section 65863.2.
Design of Surface or Structure Parking	As required by SPMC 36.310 (Parking and Loading)	Unless modified by standards herein
LANDSCAPING AND OPEN SPACE		
Minimum Site Landscaping	20% MAY BE SUBJECT TO FURTHER DISCUSSION	~~Exclusive of areas on the site providing useable open space for residential uses.~~ ~~Improved rooftop areas can be counted toward open space.~~
Minimum Driveway and Parking Area Side Landscaping	5 ft	
Minimum Total Combined Useable Open Space per	~~300 sf/du~~ 150 sf/du	Improved rooftop open space, balconies, and indoor common

TABLE 2-6. MIXED USE OVERLAY DISTRICT DEVELOPMENT STANDARDS		
Development Feature	**Requirement**	**Notes**
Residential Unit (Common and Private Combined)		spaces can be counted toward usable open space.
Common Open Space Requirements	1,000 sf area minimum 25 ft minimum depth and width 50% minimum of the "Minimum Total Combined Useable Open Space" requirement above; 1,000 sf minimum; a minimum of 20 feet in two directions.	Up to 25% of the required common open space may be indoor common open space such as fitness rooms, resident lounges and similar or typical facilities. Mail rooms and leasing offices and associated areas do not count towards the required common open space. A minimum of 20% of outdoor common open space shall be landscaped with pervious plant materials that are permanently maintained and irrigated and may count toward the minimum Site Landscaping requirement. Outdoor open space shall comply with SPMC Section 36.180.D.1 (General Landscape Standards)
Private Open Space Requirements	Less than 50% of the total required open space. Private Open Space shall be 8 ft in width and 6ft in depth to count towards the area requirements ~~No private open space is required for individual units.~~	~~If~~ ~~i~~ Individual balconies, ground floor patios, porches, or similar private open space ~~are~~ may be provided to meet the area requirements, ~~for a residential unit, such area shall have minimum dimensions of 6 ft width and 4 ft depth.~~
Notes: (1) Guest parking spaces shall be clearly marked for guest parking only and are encouraged to be evenly dispersed throughout the development site. Signs shall be provided at appropriate locations to direct visitors to guest parking locations		

36.240.030 Special Purpose District Land Uses and Permit Requirements.

A. CF and OS Districts. Table 2-7 identifies the uses of land allowed by this Zoning Code in each special purpose zoning district, and the zoning approval required to establish each use, in compliance with SPMC 36.210.030 (Allowable Land Uses and Permit Requirements).

Note: where the last column in the tables ("Specific Use Regulations") includes a section number, the regulations in the referenced section apply to the use; however, provisions in other sections of this Zoning Code may also apply.

B. DTSP District. Land uses in the DTSP zoning district are as permitted in the Downtown Specific Plan.

C. HFSP District. Land uses in the HFSP zoning district are as permitted in the Holy Family Specific Plan.

D. CF-50 District.

1. Purpose. The CF-50 District is intended to provide opportunities for higher intensity multi-family housing on religious congregation or private school sites that are larger than two acres and designated CF-50.

2. Applicability. The CF-50 District shall consist of those parcels designated CF-50 on the City's Zoning Map.

3. Allowable Density and Height. Maximum 50 dwelling units per acre with a maximum height of up to 50 feet (no height averaging).

4. Allowable land uses and development standards. Allowable land uses shall be as in the CF District, except that multi-family residential development is permitted. Multi-family residential uses shall be subject to the Mixed Use Overlay District Development Standard of SPMC 36.230.050(D) and Table 2-6, except for the maximum height limit.

Table 2-7 Allowed uses and Permit Requirements for Special Purpose Zoning Districts.

Notes:

(1) See Article 7 for land use definitions.

(2) Residential development with a density between 20 and 30 dwelling units per acre is allowed on Assessor Parcel No. 5314-003-083 pursuant to the 2021-2029 (6th Cycle) Housing Element. Any project on this parcel that includes at least 20 percent of the residential units reserved for lower income households shall (a) be processed through a ministerial approval process, (b) qualify for priority processing as compared to other projects processed by the Community Development Department, and (c) be exempt from and not subject to the Public Art Program and Public Art Development requirements of SPMC 36.390 and 36.395.

(3) See also, 36.240.030(D) pertaining to the CF-50 District.

36.250.050 Housing Opportunity (HO) Overlay District.

A. Purpose. The HO Overlay District is intended to implement the City's goals and objectives for higher intensity development in the RM and RH zones along certain corridors, consistent with the City's housing element ~~as adopted on May 30, 2023.~~

B. Applicability. The HO Overlay District shall be applied on the Zoning Map to the areas shown as Housing Opportunity Overlay on the Land Use Map of the General Plan.

C. Allowable density. Maximum of 70 dwelling units per acre.

D. Maximum height. The maximum height is 60 feet calculated using average building height (See, SPMC 36.300.040.E)

E~~D~~. Allowable land uses and development standards. New land uses shall comply with all applicable requirements in Division 36.220 (Residential Zoning Districts) consistent with the Planning Designations outlined in the General Plan. The Residential Only standards found in Table 2-6 (Mixed Use Overlay District Development Standards) of SPMC 36.230.050(D) shall apply to multifamily residential development located within the HO Overlay District.

Table 3-1. Allowed Projections Into the Setbacks

TABLE 3-1. ALLOWED PROJECTIONS INTO SETBACKS			
Projecting Feature	Allowed Projection into Specified Setback		
	Front	Side	Rear
Sills, cornices, roof overhang or eaves	No closer than 30 inches to a lot line; provided, that the lowest edge of the feature is at least eight feet above ground level.		
Chimney, bay window, greenhouse window	24 inches for no more than 10% of the length of the building wall from which it projects, or a maximum length of 10 feet, whichever is less; but no closer than 30 inches to a side lot line.		
Stoops, ~~B~~balconi~~es~~y, deck, or porch, which may be roofed but is otherwise unenclosed~~:~~ ~~stoops~~	~~0 feet~~ 8 feet, but no closer than 30 inches to a lot line.	36 inches for a deck if its walking surface is 30 inches or less above grade. 36 inches for another projecting feature if it extends along no more than 10% of the length of the building wall from which it projects, or a maximum length of 10 feet, whichever is less. In no case shall a feature project closer than 30 inches to a side lot line.	8 feet ~~For stoops, 8 feet, but no closer than 30 inches to a lot line.~~
Uncovered steps or landings up to 36 inches in height	36 inches in width, up to 10 feet in length.		

TABLE 3-1. ALLOWED PROJECTIONS INTO SETBACKS			
Projecting Feature	Allowed Projection into Specified Setback		
	Front	Side	Rear
Miscellaneous equipment attached to the structure	24 inches. Attached equipment shall not be located less than three feet to any lot line and shall not be located in the front yard setback.		
Note: Air conditioning (HVAC) units may be permitted if located outside the front setback, and may be located in the side yard setback provided the equipment is not located closer than three feet to any lot line. Such equipment shall be fully screened when it is located in a street side yard. HVAC equipment located on rooftops in single-family residential districts (RE, AM and RS zones) shall require approval by the Planning Commission Chair.			

36.300.040 Height Limits and Exceptions.

Each structure shall comply with the height limits of this section, except for fences and walls, which are instead subject to the provisions of SPMC 36.300.050 (Walls, Fences and Hedges).

A. Maximum height of structures. No structure shall exceed the height limit established by the applicable zoning district in Article 2 (Zoning Districts, Allowable Land Uses, and Zone-Specific Standards).

B. Height Averaging. In the DTSP District (except for properties in the National Register Historic District), the Housing Opportunity Overlay District and the Mixed Use Overlay District, the maximum allowable height of a structure is calculated using average building height. (See, SPMC 36.300.040.E)

C~~B.~~ Height measurement. The maximum allowable height shall be measured as the vertical distance from the existing grade of the site to an imaginary plane located the allowed number of feet above and parallel to the grade. See Figure 3-4. “Existing grade” shall be established by the Director, consistent with parcels in the immediate vicinity, and shall not be, nor have been artificially raised to gain additional building height.

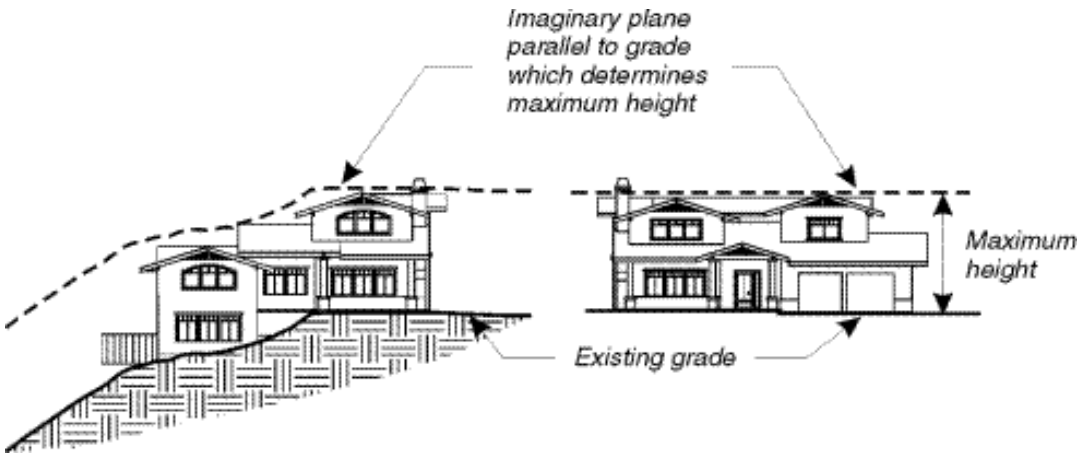

Figure 3-4. Height Measurement

D~~C~~. Height limitations at intersections/sight visibility. A structure or landscaping, excluding existing trees, shall not exceed a height of 36 inches in areas where vehicular or pedestrian traffic lines of sight may be impacted, as established by the Public Works Director. Planting of parkway trees shall be in compliance with SPMC 31.48(d)(2).

E. Calculation of average building height. Height averaging may be used in the calculation of height provided that the average height of all portions of the building shall not exceed the height limit of the district and the highest point shall not exceed 10 feet above the height limit of the district. All roofed portions of the building, including overhangs, porches, and galleries shall be included. In the case of a flat roof is proposed that includes a parapet perimeter wall, the height of that entire roof area shall be measured to the top of the parapet wall.

The height averaging calculation shall be shown in graphic and tabular form on the Site Plan.

36.310.040 Number of Parking Spaces Required.

TABLE 3-6. PARKING REQUIREMENTS BY LAND USE	
Land Use Type:	**Number of Parking Spaces Required***
Manufacturing, Processing, and Warehousing	
General manufacturing, industrial, and processing uses	2.5 spaces for each 1,000 sf.
Recycling facilities	6 spaces for large collection facilities; as determined by Conditional Use Permit approval for other facilities.
Research and development, offices and laboratories	3 spaces for each 1,000 sf.
Warehouses, distribution centers, and storage facilities	2 spaces for each 1,000 sf.
Recreation, Education, and Public Assembly	
Child day care facilities	
Child day care center	1 space per employee, plus 1 space per 5 children.
Large family day care home	1 space per employee, in addition to required residential spaces.
Small family day care home	As required for the single-family dwelling (see the parking requirements for residential uses).
Commercial recreation activities: Ball courts, outdoor or indoor	3 spaces for each court, plus 4 spaces for each 1,000 sf of floor area for each additional use.
Indoor recreation/fitness centers	
Arcades	4 spaces for each 1,000 sf.
Bowling alleys	3 spaces for each lane.
Health/fitness clubs	4 spaces for each 1,000 sf plus 1 space for each employee.

TABLE 3-6. PARKING REQUIREMENTS BY LAND USE	
Land Use Type:	**Number of Parking Spaces Required***
Pool and billiard rooms	2 spaces for each table, plus required space for each additional use (e.g., restaurant, bar).
Skating rinks	10 spaces for each 1,000 sf of skating area.
Libraries, museums, art galleries	2 spaces for each 1,000 sf.
Recreation, Education, and Public Assembly (cont'd)	
Outdoor Recreation Facilities Golf course Miniature golf Driving range Equestrian facilities	Parking spaces determined per parking plan approved by review authority.
Public assembly uses (e.g., religious facilities, cinemas, performance theaters, meeting halls, and membership organizations)	1 space for each 4 fixed seats (see SPMC 36.310.040(F) for instructions on how to calculate bench or bleacher seating), and 1 space for every 40 sf of gross assembly area, classrooms, meeting rooms, etc., exclusive of areas of fixed seats and their access aisles. For day care facilities in conjunction with a public assembly use, see the parking requirement for "child day care facilities."
Schools (private)	
Elementary, junior high/middle school	1.5 spaces for each classroom, plus 5 spaces for each 1,000 sf of assembly area in an auditorium.
High school	1 space for each 5 students plus 1 space for each employee.
Specialized education and training schools	5 spaces for each 1,000 sf.
Private colleges and universities	5 spaces for each 1,000 sf.
Special needs educational and training facilities	As determined by the review authority based on a parking study by a professional traffic engineer or qualified parking consultant.
Studio for dance, art, etc.	5 spaces for each 1,000 sf.
Residential Uses (1)	
Accessory dwelling unit	See SPMC 36.350.200(H).
Duplex	4 spaces within a garage or carport, plus 1 guest space. (3)
Live/work unit	2 spaces for each 1,000 sf of combined floor area.
Mixed-use development	As required for each individual land use.
Multifamily dwelling, condominiums and other attached dwellings	Studio - 0.50 space 1 bedroom - 1 space 2 or more bedrooms - 1.5 spaces

TABLE 3-6. PARKING REQUIREMENTS BY LAND USE	
Land Use Type:	**Number of Parking Spaces Required***
	Guest spaces - not required (1)(3) ~~1 bedroom unit—1 space;~~ ~~2 bedrooms and/or greater—2 spaces within a garage or carport for each unit, plus 1 guest space per each 2 units. (1), (3)~~
Organizational house	1 space for each bed.
Residential Uses (cont'd)	
Senior citizen residential	
Assisted living and group homes	0.5 space for each residential unit, plus 1 space for each 4 units for guests and employees.
Independent living	1 covered space for each unit, plus 1 uncovered guest parking space for each 10 units.
Single-family housing	2 covered spaces. (2), (3), (4)
Retail Trade	
Appliances, building materials, furniture, and hardware stores	2 spaces for each 1,000 sf.
Automobile, mobile home, vehicle, machinery and parts sales	1 space for each 1,000 sf, including outdoor display area.
Bars/nightclubs/dancing establishments	1 space for each 30 sf of dance floor area; 1 space for each 100 sf of bar/nightclub area.
Convenience stores	4 spaces for each 1,000 sf.
Gas stations (including multi-use stations)	2 spaces for each 1,000 sf plus 3 spaces for each service bay.
Grocery stores	4 spaces for each 1,000 sf.
Multi-tenant retail site or building (2 or more uses)	4 spaces for each 1,000 sf.
Restaurant—Not part of multi-tenant retail site or building	
New use occupying new space more than 1,200 sf.	10 spaces for each 1,000 sf.
New use occupying existing space of 1,200 sf or less.	No new parking required.
Outdoor dining	No parking required.
Take-out with customer tables	20 spaces for each 1,000 sf.
Take-out service only (e.g., delicatessens)	4 spaces for each 1,000 sf.
Restaurant—Within multi-tenant retail site or building	See requirement for "Multi-tenant retail site or building."

TABLE 3-6. PARKING REQUIREMENTS BY LAND USE	
Land Use Type:	**Number of Parking Spaces Required***
Retail sales and services	1 space for each 500 sf.
Services	
Banks and financial services	4 spaces for each 1,000 sf of financial customer service area, plus 3 spaces per 1,000 sf of office space.
Services (cont'd)	
Bed and breakfast inns	1 space for each guest room, and 1 space for each 2 employees, plus 2 parking spaces for the residents.
Copy and reproduction centers	2 spaces for each 1,000 sf.
Consumer products—repair and maintenance	4 spaces for each 1,000 sf.
Equipment rental	1 space for each 300 sf of floor area, plus 1 space for each 1,500 sf of outdoor use area.
Hotels and motels	1 space for each guest room, and 1.5 spaces for each multi-room suite; plus 1 space for each 20 guest rooms and 10 spaces for each 1,000 sf of conference meeting room area.
Kennels and animal boarding	1 space for each 1,000 sf.
Laundromats	4 spaces for each 1,000 sf.
Medical services	
Clinics, medical/dental offices	4 spaces for each 1,000 sf.
In-patient drug treatment facilities	1 space for each 3 beds, plus 1 for each employee.
Hospitals	1 space for each patient bed, plus 2 for each 1,000 sf of office area, plus required spaces for ancillary uses as determined by the review authority.
Medical/dental labs	3 spaces for each 1,000 sf.
Mortuary	1 space for each 4 fixed seats (see subsection (F) of this section for instructions on how to calculate bench seating), and 1 space for each 40 sf of gross public assembly area.
Offices, administrative, corporate	3 spaces for each 1,000 sf.
Personal services	8 spaces for each 1,000 sf.
Vehicle repair and maintenance	
Repair garage	2 spaces for each 1,000 sf.
Self-service vehicle washing	3 spaces for each washing stall.
Full-service vehicle washing	2 spaces for each 3 employees on largest shift, plus 4 spaces for each 1,000 sf of

TABLE 3-6. PARKING REQUIREMENTS BY LAND USE	
Land Use Type:	**Number of Parking Spaces Required***
	store/lounge area, with a minimum of 3 spaces.
Veterinary clinics and hospitals	3 spaces for each 1,000 sf, plus 1 space for each 1,000 sf of boarding area.
Transportation and Communications	
Truck and freight terminals	1 space for each 400 sf of freight area, plus 1 space for each 100 sf of office/lobby area.

Notes:

(1) Guest parking spaces shall be clearly marked for guest parking only and ~~shall~~ are encouraged to be evenly dispersed throughout the development site. Signs shall be provided at appropriate locations to direct visitors to guest parking locations.

(2) On a lot requiring a Hillside Development Permit, a minimum of three spaces shall be provided, with two covered. The Planning Commission may authorize one of the three spaces to be in tandem. One additional space shall be provided for each 1,000 square feet of floor area or fraction thereof above 3,000 square feet.

(3) The requirement of two covered spaces may be waived by the Director for the alteration of a residential unit that is listed on the City's Cultural Heritage Inventory as defined by SPMC 2.64, provided the circumstances listed under SPMC 36.360.090(F)(1) apply.

(4) The City shall maintain compliance with Government Code Section 65863.3 regarding single-family residential parking.

* The actual parking requirements for all uses subject to a Conditional Use Permit (CUP) or Administrative Use Permit (AUP) (refer to SPMC 36.230, Table 2-4 Commercial Zoning Districts—Allowed Uses and Permit Requirements for Commercial and Business Park Districts) are reviewed on a case-by-case basis via the CUP/AUP entitlement process. The listed parking requirements are the minimum; the CUP/AUP process may determine that additional parking is required. Reductions in required parking can only be approved via the variance process (SPMC 36.410.080) and, per the 1983 Initiative, variances for parking are limited to a maximum of five percent of the required number of spaces.

36.310.080 Parking Design Standards.

A. Location of parking areas. Required off-street parking shall be located on the same parcel as the uses served or on a contiguous parcel, or within 400 feet of the proposed use it is intended to serve. When a proposed off-street parking spaces are provided on a separate parcel from the use, a recorded covenant running with the land, recorded by the owner of the parking lot, guaranteeing that the required parking will be maintained exclusively for the use or activity served for the duration of the use or activity approved in a form acceptable to the City Attorney.

B. Access to parking areas and parking spaces.

1. Access to parking lots. Parking lots shall be designed to prevent access at any point other than at designated access drives.

2. Parking space location. Parking spaces shall not be located within 10 feet of an access driveway, measured from the property line. See Figure 3-17.

Figure 3-17. Queuing Area

3. Internal maneuvering area. Parking areas shall provide suitable maneuvering room so that vehicles enter the street in a forward direction, except for single-family homes and duplexes.

C. Access to adjacent sites. Applicants for nonresidential developments are encouraged to provide shared vehicle and pedestrian access to adjacent nonresidential properties for convenience, safety and efficient circulation. A joint access agreement guaranteeing the continued availability of the shared access between the properties and running with the land shall be recorded by the owners of the abutting properties, as approved by the Director.

D. Parking space and lot dimensions.

1. Parking spaces.

a. Residential spaces. Parking spaces within carports and garages shall have minimum interior dimensions of 20 feet in length by 10 feet in width for each vehicle.

b. Tandem parking spaces. Tandem parking spaces shall be a minimum 35 feet in length by 8.5 ~~10~~ feet in width, and a maximum of 42 feet in length and 12 feet in width.

(1) Within multi-family districts, tandem parking spaces may be assigned to a single unit, and may count toward the requirement for covered spaces, but may not count as a guest space.

(2) Within single-family districts, tandem parking may count toward the requirement for covered spaces with the approval of an Administrative Use Permit where property is developed with a single-family home, where current parking requirements are not met, and there is no space available for the required standard size garage (20' x 20'). In determining whether it is impractical or unfeasible to provide a standard size garage (20' x 20'), the Director shall consider if such required parking will result in an inefficient site plan, a development pattern that is inconsistent with surrounding development, or the loss of the property's only available private outdoor living area, and whether the following conditions exist:

a. The property is substandard in size, less than 10,000 square feet,

b. The property is substandard in width, less than 50 feet wide, or

c. The property contains the following features:

i. protected heritage trees,

ii. a home listed on the City's Inventory of Historic Resources, or

iii. physical features that would make it impractical or unfeasible to provide the standard size garage.

(3) Within non-residential districts, tandem parking may be provided for all of the required parking spaces where authorized through Parking Use Permit approval, provided an attendant is on duty during the hours of parking lot operation.

2. Parking lot aisles. Drive aisles within parking areas shall be designed and constructed in compliance with the following standards.

a. Aisle width. Parking area aisles shall comply with the minimum dimensional requirements in Table 3-7.

b. Visibility. Drive aisles shall be designed and located so that adequate visibility is ensured for pedestrians, bicyclists, and motorists when entering individual parking spaces, circulating within a parking facility, and entering or leaving a parking facility.

TABLE 3-7. PARKING SPACE AND DRIVE AISLE DIMENSIONS

Angle of Parking	Minimum Dimensions		
	Parking Space Depth	Parking Space Width	Aisle Width (1)
0 degrees -- Parallel parking ~~(e.g. tandem or parallel parking)~~	24 ft	8.5 ft ~~8.6 ft~~ (2) (3)	12 ft
0 degrees --Tandem parking	35 ft	8.5 ft	24 ft
30 to 45 degrees	19 ft	8.5 ft ~~9 ft~~ (2) (3)	13 ft
46 to 60 degrees	21 ft	8.5 ft ~~9 ft~~ (2) (3)	18 ft
61 to 90 degrees	18 ft (4)	8.5 ft ~~9 ft~~ (2) (3)	24 ft

Notes:

(1) The Director may require greater aisle widths where slopes or other obstructions are encountered.

(2) Each parking space that is adjoined on either side of its longer dimension by a fence, wall, partition, column, post, or similar obstruction, and the obstruction is located less than 14 feet from the access aisle measured along the length of the stall, shall have its minimum width increased by at least 10 inches on the side of the obstruction. Exception: The 10-inch increase is not required if columns or posts are set back 18 inches from the drive aisle.

(3) The width can be 7.5 ft for all spaces exceeding one space per residential unit and 25% max of the provided non-residential spaces.

(4) The depth can be 15 ft for all spaces exceeding one space per residential unit and 25% max of the provided non-residential spaces.

E. Curbing and wheel stops.

1. Curbing. Continuous concrete curbing at least six inches high and six inches wide shall be provided along the edges of parking spaces adjacent to fences, walls, other structures, and landscaping.

a. Alternative barrier designs may be approved by the Director.

b. Parking spaces adjacent to landscaped areas or other obstructions shall incorporate an additional curbing width of 12 inches (for a total of 18 inches) to provide a place to stand while exiting and entering vehicles.

c. Curbing shall be placed within the parking space a minimum of two feet from the front of the space.

2. Wheel stops. Wheel stops other than continuous concrete curbing shall be prohibited except in work areas, and parking areas not open to the public.

3. Bumper overhang. To increase the parking lot landscaped area, a maximum of two feet of the parking stall depth may be landscaped with low-growth, hearty materials in lieu of paving, allowing a two-foot bumper overhang while maintaining the required parking dimensions.

F. Directional arrows and signs.

1. Parking spaces, aisles, approach lanes and maneuvering areas shall be clearly marked with directional arrows and lines to ensure the safe and efficient flow of vehicles.

2. The Director may require the installation of traffic signs in addition to directional arrows to ensure the safe and efficient flow of vehicles in a parking facility.

G. Grades of driveways and parking areas. The grades of driveways and parking areas shall comply with the standards in Municipal Code Section 31.35, and the following requirements.

1. Driveways. Driveways shall not exceed a maximum grade of 15 percent measured along the driveway centerline. Where there is a change in the slope of the driveway, it shall be demonstrated that vehicles will be able to pass over the change in slope without interference with an average vehicle's undercarriage.

2. Parking areas. Parking areas shall have a maximum grade of 6.6 percent ~~seven percent~~, measured in any direction.

H. Landscaping. Parking area landscaping shall be provided in compliance with Division 36.330 (Landscaping Standards).

I. Lighting. Parking areas within non-residential areas shall have lighting that provides adequate illumination for security and safety. Lighting standards shall be energy-efficient and in scale with the height and use of the on-site structures, and shall not exceed a maximum height of 16 feet. All illumination, including security lighting, shall be directed downward, away from adjacent properties and public rights-of-way. Lighting location shall take into account the location and expected mature characteristics of on-site landscape materials.

~~J. Residential guest parking. Guest parking for multi-family residential uses shall be designated and restricted for the exclusive use of the guests with appropriate signs and pavement marking~~s.

J ~~K~~. Striping and identification. Parking spaces shall be clearly outlined with four-inch wide lines painted on the surface of the parking facility. Circulation aisles, approach lanes, and turning areas shall be clearly marked with directional arrows and lines to ensure safe traffic movement.

K~~L~~. Surfacing. Parking spaces, driveways, and maneuvering areas shall be paved and permanently maintained.

36.350.190 Residential Uses—Multi-family Project Standards.

A. Purpose. The provisions of this Section are intended to:

1. Provide multi-family project residents with adequate private and common open space;

2. Encourage multi-family projects to incorporate courtyard open space design; and

3. Parking shall not be placed ~~Discourage on site parking~~ along the front building elevation or adjacent to the street so that buildings, rather than parking lots or garages, address the street and public view.

B. Applicability. These provisions apply to new or remodeled multi-family projects (50 percent or more of building area remodeled).

C. Open space requirements. All multi-family residential projects~~ except duplexes~~ shall provide permanently maintained outdoor open space for~~ each~~ dwelling unit~~s~~ (private space), and for all residents (common space).

1. Area required. ~~Private open space shall be provided at a ratio of 200 square feet per dwelling unit. Common open space shall be provided based on the size of the project, as follows.~~

~~TABLE 3-11. MULTI-FAMILY COMMON OPEN SPACE~~		
~~Project size~~	~~Common Open Space Required~~	~~Private Open Space Required~~
~~3 to 4 units~~	~~200 sf~~	~~200 sf per unit~~
~~5 to 10 units~~	~~500 sf~~	
~~11 to 30 units~~	~~1,000 sf~~	
~~31 and more units~~	~~2,000 sf~~	

Refer to Table 2-3 and Table 2-6 for Common and Private Open Space requirements.

2. Configuration of open space.

a. Location on site. Required open space areas:

(1) Shall be located adjacent to the primary entrance;

(2) Shall be provided as continuous, usable site elements, which shall not include setback areas but may be contiguous to required setbacks; and

(3) Private open space shall be at the same level as, and immediately accessible from, a kitchen, dining room, family room, master bedroom, or living room within the unit. Variations from these dimensional and locational standards may be allowed where it can be shown that the required private open space meets the intent and purpose of this Section. Provision of private open space shall not reduce the common open space requirements of this Section.

~~b. Dimensions. All open space areas shall be of sufficient size to be usable by residents.~~

~~(1) Private open space areas shall have a minimum dimension of eight feet on any side, and a configuration that would accommodate a rectangle of at least 100 square feet.~~

~~(2) Common open space areas shall have a minimum dimension of 20 feet on any side.~~

b ~~c.~~ Elevation. A minimum of 60 percent of the required common open space shall be located at grade or the level of the first habitable floor.

c ~~d~~. Uncovered areas required. At least 33 percent of the perimeter of the private open space of each unit, or 100 percent of the roof of the open space of each unit, shall be open to the outdoors. Reference to this requirement shall be included in the Covenants, Conditions, and Restrictions of any common interest development.

3. Allowed uses. Required common open space:

a. Shall be available for passive and active outdoor recreational purposes for the enjoyment of all residents of each multi-family project; and

b. Shall not include driveways, setbacks, public or private streets, or utility easements where the ground surface cannot be used appropriately for open space, parking spaces, or other areas primarily designed for other operational functions.

4. Maintenance and control of common open space. Required common open space shall be controlled and permanently maintained by the owner of the property or by a homeowners' association. Provisions for control and maintenance shall be included in any property covenants of common interest developments.

5. Surfacing. Open space areas shall be surfaced with any practical combination of lawn, paving, decking, concrete, or other serviceable material.

6. Landscaping. The applicant shall submit a landscape plan for approval. Landscape design, installation, and maintenance shall comply with Division 36.330 (Landscaping Standards).

7. Slope. Required open space areas shall not exceed a slope of 10 percent.

D. Facility and design requirements.

1. Accessory structures. Accessory structures and uses (e.g., car washing areas, bicycle storage, garages, laundry rooms, recreation facilities, etc.) shall incorporate a design, including materials and colors, similar to the dwelling units, and shall be located in an efficient manner in compliance with this Subsection.

2. Front façade. At least 50 percent of the front façade of all buildings fronting public streets shall be habitable space. A project shall have at least one private entry into the façade adjacent to the right-of-way, with the entry at or within five feet of the finished grade.

3. Front yard paving. No more than 45 percent of the total area of the front yard setback shall be paved for walkways, driveways, and other hardcover pavement.

4. Laundry facilities. All residential developments with five or more dwelling units shall provide common laundry facilities, except developments with facilities provided within each unit.

a. Keyed access. Laundry facilities shall be provided with keyed access for "tenants only."

b. Location. The facilities shall be evenly dispersed throughout the multi-family project and easily accessible to all tenants.

5. Outdoor lighting. Outdoor lighting shall be installed and maintained along all vehicular access ways and major walkways, in compliance with Section 36.300.090 (Outdoor Lighting). The lighting shall be directed onto the driveways and walkways within the development and

away from adjacent properties. Lighting of at least one foot candle shall also be installed and maintained within all covered and enclosed parking areas and shall be screened to minimize glare onto public sidewalks. All proposed lighting shall be shown on the required landscape plan.

6. Storage area. Each dwelling unit shall be provided a minimum of 100 cubic feet of lockable storage area with a minimum dimension of 30 inches, outside of the dwelling unit; provided that these storage areas shall not be visible from a public street.

7. Television antennas. Dwelling units shall not have exterior television antennas other than satellite dishes less than 39 inches in diameter. A single common, central antenna may be allowed, with underground cable service to all dwelling units. This restriction shall be included in any property covenants of a common interest development.

8. Solid waste recycling. Each project shall incorporate innovative designs, both interior and exterior, to make solid waste recycling more convenient and accessible to the occupants.

~~**36.375.080 Streamlined State Density Bonus Review.**~~

~~A. Purpose. For projects including on-site inclusionary units as required herein, the following design incentives process offers an alternative, streamlined State density bonus process. Design incentives are intended to encourage architectural designs that are well-conceived, thoughtfully detailed, consistent with the character of the City and compatible with the zoning district in which they are located.~~

~~B. Applicability. Design incentives may be requested for any project that provides all required inclusionary units on site and for which a density bonus is requested pursuant to SPMC 36.370, provided the site is located in:~~

~~1. Any mixed-use zoning district; or~~

~~2. Any multifamily residential district.~~

~~C. Consistent architectural design approach. To qualify for design incentives pursuant to this section, the applicant shall demonstrate that the proposed project supports a clear and consistent architectural design that includes the following:~~

~~1. Required standards. The project application shall include a narrative that explains the architectural design approach and how the project meets the following standards:~~

~~a. Stepbacks.~~

~~i. Front and corner building facades. A minimum 10-foot stepback above the third story, or above the second story for properties located on Mission Street, to reduce bulkiness and perceived height from street level;~~

~~ii. Side building facades. A minimum 10-foot stepback above the third story, or above the second story for properties located on Mission Street, along property lines that are adjacent to a residential district with a lower density or historic property. Notwithstanding, balconies open on at least two sides may project into the stepback area provided the balcony is at least five feet from the side property line;~~

~~iii. Rear building facades. A minimum 10-foot stepback above the third story, or above the second story for properties located on Mission Street, if the proposed~~

building is located within 10 feet of the rear property line of a parcel that is directly adjacent to a residential district with a lower density;

iv. Stepbacks may be reduced if the size of the parcel makes the stepbacks infeasible or such stepbacks are not consistent with the surrounding context as determined by the Director.

b. Terraces and balconies on properties adjacent to a single-family residential use. For properties located adjacent to a single-family residential use, terraces and balconies facing the single-family residential use shall be prohibited above the ground level. Roof terraces shall be located toward the front of the building and at least 10 feet from the edge of the building facing the single-family residential use and shall provide an eight-foot-high sound wall along the single-family facing elevation with a 10-foot-long return on each side of the roof terrace.

c. Three-hundred-sixty-degree architectural design. The project shall have consistent design features or patterns that render it as unique with all elevations designed at the same level of architectural detail and articulation as the front elevation.

d. A signature architectural element that is described in the application. Some examples include but are not limited to: a signature element that identifies the building and relates to its location in the City; a courtyard or open space pattern is visible from the street; a prominent corner feature.

e. Ground-floor facades. Building facades shall avoid blank walls and long expanses without variation in form and design treatment as follows:

i. For mixed-use projects, the ground floor of commercial street facades shall be comprised of at least 75 percent openings in walls such as storefront windows and doors with transparent glazing. Facade variation achieved through form, materials and details is essential, with an emphasis on the ground-floor treatment experienced by pedestrians.

ii. For 100 percent residential projects, the ground floor front facade shall include direct entrances into units and articulation that indicates separate units.

2. Encouraged design features. The applicant should consider incorporating the following features as appropriate to support the request for design incentives in the project application:

a. Higher floor-to-floor height for commercial portion of mixed-use project with 16 to 18 feet considered to be desirable.

b. Higher floor-to-ceiling heights in residential units.

c. Leveraging of additional height to reduce overall site coverage and increase open space.

D. Design incentives. Projects that demonstrate a consistent architectural design approach per subsection (C) of this section shall be entitled to the following incentives, without requirement for feasibility studies or other analysis:

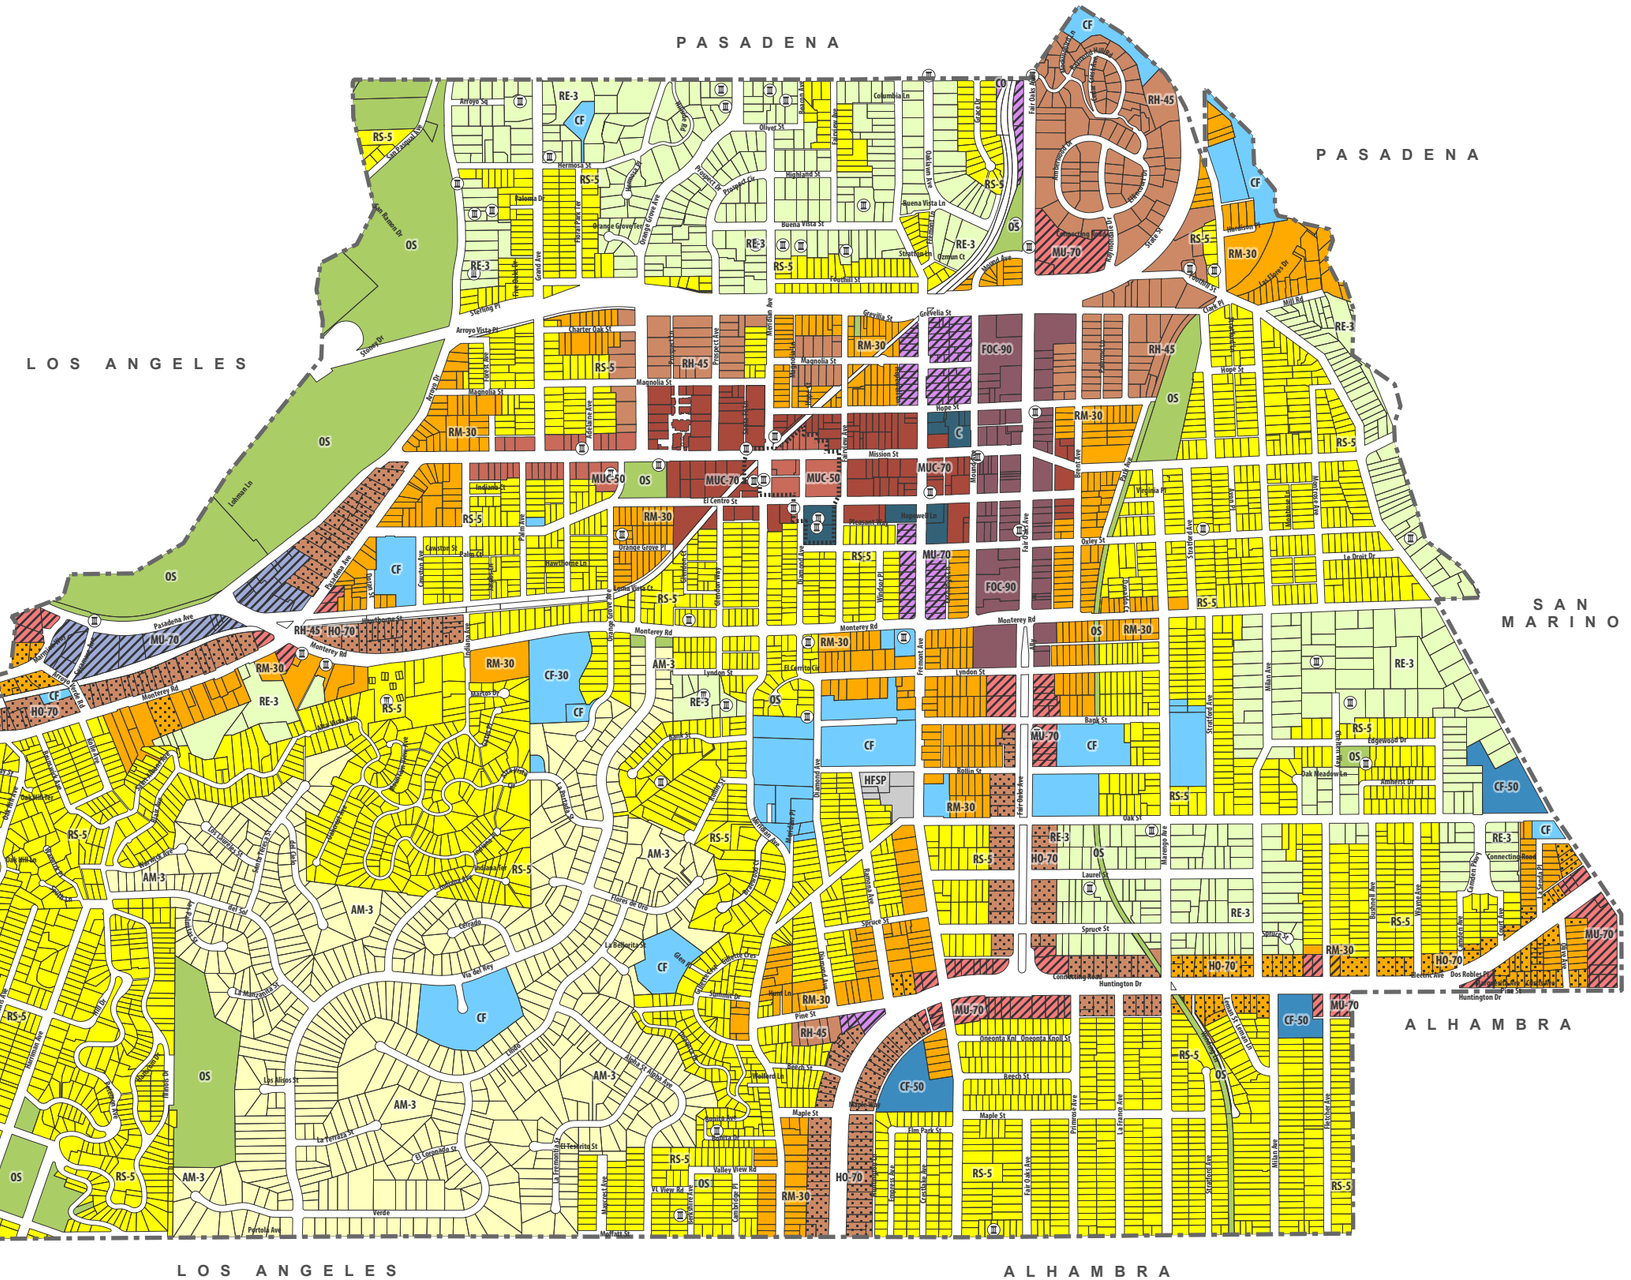
1. Height increase and height averaging. If requested in the project application, a height increase, using measurement based on height averaging, that facilitates the provision of features per subsection (C) of this section shall be approved with no further studies or analysis required as part of the submittal as follows:

a. For projects in mixed-use zoning districts on Mission Street where there is a predominance of historic resources. An increase of one additional story, with an average

maximum project height not to exceed five feet above the limit of the underlying zoning district; provided, that no portion of the building may exceed 10 feet above the height limit of the underlying zoning district.

b. For projects in other mixed-use zoning districts. An increase of one additional story, with an average maximum project height not to exceed 15 feet above the limit of the underlying zoning district; provided, that no portion of the building may exceed 20 feet above the height limit of the underlying zoning district.

c. For projects in multifamily residential districts. An increase of one additional story, with a maximum average height not to exceed 10 feet above the limit of the underlying zoning district provided no portion of the building may exceed 15 feet above the height limit of the underlying zoning district.



For purposes of this incentive, nonoccupiable architectural projections, including elevator shafts and stairwells, shall be permitted to exceed the adjusted height limit as necessary to comply with building code requirements.

2. Reduced minimum unit size. Notwithstanding SPMC 36.375.070, the floor area of inclusionary units may be up to 10 percent smaller than the market rate units in the project.

3. Parking reduction. The applicant may request to calculate parking for the residential portion of the property at one-half space per bedroom, with studios considered to be one-bedroom units for the purpose of this requirement. Fractional units shall be rounded up to the next whole unit.

1. All boundaries approximate. See zoning map for details.
2. Under current regulations, 8' projections above the height limit are allowed only in the MU and HO Overlays.
3. 3/26 and 4/29 proposed height regulations allowed for 8' nonhabitable projections and 10' stairwells and elevator shafts above the height limit.
4. Height averaging allowed, with the maximum for any individual point in the building 10 feet above the number given below.
5. No projections allowed above the maximum for any individual point in the building.
6. Except Suitable Housing Sites, which remain in the HO Overlay in all scenarios.

South Pasadena Zoning Code
Development Standards correlating to Building Height
Tuesday, June 3, 2025
Article Article 2 Zoning Districts, Allowable Land Uses, and Zone-Specific Standards
Division 36.220.040 Residential Zoning District General Development Standards; 36.300.040 Height Limits and Exceptions, Downtown Specific Plan
Development Standard Building Height

Zoning District	Building Height (and form)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(HO) Housing Opportunity Overlay	Refer to Mixed-Use Overlay			
(MU) Mixed-Use Overlay	Maximum Height	45 ft	60 ft	60 ft
		Nonhabitable building features such as chimneys, cupolas, flagpoles, monuments, steeples, roof screens, equipment, and similar structures covering no more than 10% of the top floor roof area may exceed the maximum height by up to 8 ft.		Remove and add to "Building Height" exceptions in Section 36.300.040
	Maximum Stories	4 stories		Remove
	Maximum Floor Area by Story	Up through secondstory—100% Third story—90% Fourth story—80%		Remove*
		The standard refers to the percentage relative to the ground-floor building footprint area		Remove*
	Maxmum Building Length	150 ft	Apply to Primary Street Frontage only with the following note: Spaces between buildings must be interrupted by a break of at least 20 feet wide at all levels of the building, or at least 15% of the site width on the second level and above. The break must be at least 50 feet deep beyond the required front setback. For sites west of Monterey Rd/Pasadena Ave., must be interrupted by a break of at least 30 feet, with the first 55 feet depth from the first property line located along the ground level, and the remainder of the depth located on and above the second level.	Remove* or Rename "Maximum Façade Length" and require a building break of 10 feet wide by 10 feet deep ~~every 100 feet~~ ...SO AS TO PREVENT FACADE LENGTHS LONGER THAN 100 FEET
	Maximum Elevation of Building Entry Above the Street/Sidewalk Level and Maximum Recess Below the Street/Sidewalk Level	2 ft.	*Apply to Main Building entry only with the folowing note:* Entries into individual residential units may be located up to 6 feet above the street/sidewalk level	Entries into individual residential units may be located up to 4 feet above the street/sidewalk level
	Minimum Ground Floor Height	12 ft		

Zoning District	Building Height (and form)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
36.300.040 Height Limits and Exceptions				
	A. Maximum height of structures.	No structure shall exceed the height limit established by the applicable zoning district in Article 2 (Zoning Districts, Allowable Land Uses, and Zone-Specific Standards). Because of a 1983 City of South Pasadena initiative, no commercial, office, manufacturing, or residential building shall exceed a height of 45 feet, and no Conditional Use Permit or Variance shall be granted to exceed 45 feet.		No structure shall exceed the height limit established by the applicable zoning district in Article 2 (Zoning Districts, Allowable Land Uses, and Zone-Specific Standards).
	B. Height measurement.	The maximum allowable height shall be measured as the vertical distance from the existing grade of the site to an imaginary plane located the allowed number of feet above and parallel to the grade. See Figure 3-4. "Existing grade" shall be established by the Director, consistent with parcels in the immediate vicinity, and shall not be, nor have been artificially raised to gain additional building height.	*Add the following:* 1.For projects that provide on-site deed-restricted affordable housing housing units, height averaging may be used in the calculation of height provided that the average height of all portions of the building containing residential uses shall not exceed the height limit of the district and the highest point shall not exceed 10 feet above the height limit of the district.	The maximum allowable height shall be measured as the vertical distance from the existing grade of the site to an imaginary plane located the allowed number of feet above and parallel to the grade. See Figure 3-4. "Existing grade" shall be established by the Director, consistent with parcels in the immediate vicinity, and shall not be, nor have been artificially raised to gain additional building height.
	C. Height limitations at intersections / sight visibility.	A structure or landscaping, excluding existing trees, shall not exceed a height of 36 inches in areas where vehicular or pedestrian traffic lines of sight may be impacted, as established by the Public Works Director. Planting of parkway trees shall be in compliance with SPMC 31.48(d)(2).		Make sure this Section does not result in all street intersection corners chamfering the buildable area. Maintain the 100% corner that currently exists throughout the City in many places
	Height exceptions	Not codified	New Section 36.300.040.D: Nonhabitable building features covering no more than 10% of the top floor roof area such as chimneys, cupolas, flagpoles, monuments, steeples, pitched roofs, screened equipment, parapets and similar structures may exceed the maximum height by up to 8 ft. and stairwells and elevator shafts may exceed the maximum height by up to 10 feet.	D. Height Exceptions. Nonhabitable building features such as masts, belfries, clock towers, chimneys, cupolas, flagpoles, monuments, steeples, roof screens, equipment, and similar structures covering no more than 10% of the top floor roof area may exceed the height limit by up to 8 ft. Roof access stairs, elevator rooms and shafts, and elevator overruns may exceed the height limit by up to 10 ft.

due to height averaging

Article — Article 2 Zoning Districts, Allowable Land Uses, and Zone-Specific Standards
Division — 36.220.040 Residential Zoning District General Development Standards; 36.300.030 Setback Measurement and Exceptions; Downtown Specific Plan
Development Standard — Setbacks

Zoning District or Code Section	Setbacks (and Stepbacks)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(RM) Residential Medium Density	Front	20 ft		10 ft
	Front Exception	An additional minimum 5 ft setback from the property line shall be provided for every story above the second story.		REMOVE*
	Sides, each	10% of lot width, 4 ft minimum		4 ft
		An additional minimum 4 ft setback from the property line shall be provided for every additional story above the second story.		An additional 1 ft setback shall be provided for each story above the second story. (3 story building = 5 ft, 4 story building = 6 ft, etc.)
	Side, street side	15 ft. minimum		10 ft
	Rear	15 ft minimum; or 5 ft minimum abutting an alley		
(RH) Residential High Density	Front	15 ft		7.5 ft
	Front Exception	An additional minimum 5 ft setback from the property line shall be provided for every story above the second story.		REMOVE*
	Sides, each	8 ft. minimum		4 ft
		10 ft minimum setback from the property line shall be provided for each story above the second story.		An additional 1 ft setback shall be provided for each story above the second story. (3 story building = 5 ft, 4 story building = 6 ft, etc.)
	Side, street side	15 ft. minimum		7.5 ft
	Rear	20 ft minimum; 22 ft minimum setback shall be provided for each additional story above the second story.		15 ft; or 5 ft abutting an alley

Zoning District or Code Section	Setbacks (and Stepbacks)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(CG) Commercial General	Front	None Required		
	Sides, each	15 ft if adjacent to an RS district; none required otherwise.		None Required
	Street Side	None required		
	Rear	None, except if adjacent to an alley 5 ft, or if adjacent to a RS district 25 ft		None Required
(CO) Commercial Office	Front	25 ft on Fremont St. between the 110 freeway and Monterey Rd., 20 ft required otherwise.		10 ft
	Sides, each	15 ft if adjacent to an RS district; none required otherwise.		4 ft; An additional 1 ft setback shall be provided for each story above the second story. (3 story building = 5 ft, 4 story building = 6 ft, etc.)
	Street Side	None required		
	Rear	None, except if adjacent to an alley 5 ft, or if adjacent to a RS district 25 ft		
(BP) Business Park	Front	25 ft	25 ft; however, no required setback for residential lobbies or amenities or commercial uses	None required
	Sides, each	15 ft if adjacent to an RS district; none required otherwise.		None required
	Street Side	None required		
	Rear	None required		

Zoning District or Code Section	Setbacks (and Stepbacks)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(HO) Housing Opportunity Overlay	Refer to Mixed-use Overlay District			
(MU) Mixed-Use Overlay	**Setbacks for Non-Residential**			
	Front - Ground Floor	Per the underlying zoning district		
		May be increased to 15 ft where outdoor uses or small plazas are provided directly in front of the nonresidential use		Remove
	Side - Ground Floor	Per the underlying zoning district		
	Rear	Per the underlying zoning district		15 ft
	Setbacks for Residential			
	Front - Ground Floor	20 ft minimum	10 ft minimum on "Connector" or "Access," streets or 15 ft minimum on "Thoroughfare" streets as designated in the General Plan	5 ft in CG District 7.5 ft in other than CG District
	Side	10 ft minimum for first two floors 15 ft minimum from property line for third floor and above	5 ft minimum for first two floors 2 ft additional for each floor above the second	4 ft; An additional 1 ft setback shall be provided for each story above the second story. (3 story building = 5 ft, 4 story building = 6 ft, etc.)
		For any property adjacent to an RE or RS district, the minimum setback for the first and second stories shall be 20 ft, and any story above the second story shall be set back a minimum distance of 25 ft from the property line.	For any property line adjacent to an RE, RS or RM district: 10 ft minimum for first two floors 2 ft additional for each floor above the second	Remove*
	Rear	20 ft minimum for first two floors 25 ft minimum from property line for third floor and above		10 ft; or 5 ft abutting an alley
		For any property adjacent to an RE or RS district, the minimum setback for the first and second stories shall be 30 ft, and any story above the second story shall be set back a minimum distance of 35 ft from the property line.	For any property line adjacent to an RE, RS or RM district: First two floors: Minimum of 15 ft or 5' if abutting an alley. 45-degree inward angle above a line 15 feet above the property line shared with RE or RS	Remove*
	Setbacks - General			Remove
	Setback From Access Driveway	5 ft minimum		Remove
	Distance Between Buildings	As required by the Fire Code, but in no instance less than 10 ft		Remove*

Zoning District or Code Section	Setbacks (and Stepbacks)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
36.300.030 Setback Measurement and Exceptions				
	Subsection B. Exemption from setback requirements			
	Subsection C.4 Measurement of setbacks > Corner traffic visibility setbacks	Corner traffic visibility setbacks. All structures and landscaping over 36 inches in height on corner lots shall be set back from the center of the adjacent intersection a minimum of 75 feet, as required by Section 36.300.040.C.		Remove in DTSP, Mission Street, Fair Oaks, Fremont, and Huntington Drive. (*Contact Public Works Director for clarification*)
	Subsection D. Setback exceptions > Balcony, deck, or porch, which may be roofed but is otherwise unenclosed	Front: 0 ft		Add stoops to the list; 8 feet, no closer than 30 inches to a lot line, or as permitted by the Frontage Type within the DTSP area.

Zoning District or Code Section	Setbacks (and Stepbacks)	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
Downtown Specific Plan (DTSP)				
Mixed Use Core	Primary Street	0 to 15 ft. max.		0' to 5' setback, except as permitted by Frontage Type size requirements
	Side Street	0 to 15 ft. max.		0' to 10' setback, except as permitted by Frontage Type size requirements
	Side Yard	0 ft.		
	Rear (with alley)	5 ft. minimum		
	Rear (no alley)	10 ft. minimum		
	Massing Stepback			
	Front	8 ft. min. above 3 stories		Remove*
	Over 4 Stories (w/density bonus)	10 ft. min. above 3 stories		Remove*
	Rear	20 ft. min. above 3 stories		Remove*
Fair Oaks Corridor	Primary Street	0 to 15 ft. max.		0' to 5' setback
	Side Street	0 to 15 ft. max.		0' to 10' setback
	Side Yard	0 ft.		
	Rear (with alley)	5 ft. minimum		
	Rear (no alley)	10 ft. minimum		
	Massing Stepback		Modify for Fair Oaks	
	Front	10 ft. min. above 3 stories		Remove*
	Over 4 Stories (w/density bonus)	10 ft. min. above 3 stories		Remove*
	Rear	20 ft. min. above 3 stories		Remove*
~~Storefront~~ (Shopfront) Overlay		This overlay requires buildings to have shopfront frontage and a minimum floor-to-ceiling height. This requirement is to accommodate ground floor live-work, commercial, retail or other such non-residential activity on streets where the vision expects active, pedestrian-oriented streetscapes.		Correct the naming from Storefont to Shopfront; Add a 0' to 5' setback allowance; 15 ft. floor-to-floor ground floor height; This requirement is to establish a consistent building street wall and accommodate ground floor live-work, commercial, retail or other such non-residential activity on streets where the vision expects active, pedestrian-oriented streetscapes.

Article Article 2 Zoning Districts, Allowable Land Uses, and Zone-Specific Standards
Division 36.220.040 Residential Zoning District General Development Standards.
Development Standard Open Space

Zoning District	Open Space	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(RM) Residential Medium Density	Total Combined Usable Open Space	(not codified)		200 sf per unit, minimum
	Private Open Space	200 sf per unit; Private open space areas shall have a minimum dimension of eight feet on any side, and a configuration that would accommodate a rectangle of at least 100 square feet.		If individual balconies, ground floor patios, porches, or similar private open space are provided to meet the area requirements, such area shall have minimum dimensions of 8 ft width and 6 ft depth.
	Common Open Space	Common open space areas shall have a minimum dimension of 20 feet on any side.		50% minimum of the total required Open Space; 1,000sf minimum; Up to 25% of the required Common Open Space may be indoor common open space like fitness rooms, resident lounges, etc. Mail rooms and Leasing offices and assocaited areas do not count; Outdoor Common Open Space shall have a minimum dimension of 20 feet in two directions; A minimum 20% of Outdoor Common Open Space shall be landscaped adn count toward the minimum site requirement
	3 to 4 units	200 sf		
	5 to 10 units	500 sf		
	11 to 30 units	1,000 sf		
	31 and more units	2,000 sf		
(RH) Residential High Density	Total Combined Usable Open Space	(not codified)		Same as RM District
	Private Open Space	200 sf per unit; Private open space areas shall have a minimum dimension of eight feet on any side, and a configuration that would accommodate a rectangle of at least 100 square feet.		
	Common Open Space	Common open space areas shall have a minimum dimension of 20 feet on any side.		
	3 to 4 units	200 sf		
	5 to 10 units	500 sf		
	11 to 30 units	1,000 sf		
	31 and more units	2,000 sf		
(CG) Commercial General	None Required			
(CO) Commercial Office	None Required			
(BP) Business Park	None Required			

2-56

Zoning District	Open Space	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(HO) Housing Opportunity Overlay	Per Mixed-Use Overlay District			
(MU) Mixed-Use Overlay	Minimum Total Combined Usable Open Space per Residential Unit (Common and Private Combined)	300 sf/du	200 sf per unit	150 sf per unit, minimum
		Improved rooftop open space, balconies, and indoor common spaces can be counted toward usable open space.		(refer to revised requirements below)
	Common Open Space Requirements	1,000 sf area minimum 25 ft minimum depth and width	Note revised to: Improved rooftop open space and balconies can be counted toward usable open space. Common indoor recreational and gathering spaces may be counted toward usable open space, up to a maximum of one-third of the requirement. with pervious plant materials that are permanently maintained and irrigated	50% minimum of the total required Open Space; 1,000sf minimum; Up to 25% of the required Common Open Space may be indoor common open space like fitness rooms, resident lounges, etc. Mail rooms and Leasing offices and assocaited areas do not count; Outdoor Common Open Space shall have a minimum dimension of 20 feet in two directions; A minimum 20% of Outdoor Common Open Space shall be landscaped adn count toward the minimum site requirement Outdoor Common Open Space shall comply with 36.350.180.D.1 General Landscape Standards
	Private Open Space Requirements	No private open space is required for individual units		Remove
		If individual balconies, ground floor patios, porches, or similar private open space are provided for a residential unit, such area shall have minimum dimensions of 6 ft width and 4 ft depth.		If individual balconies, ground floor patios, porches, or similar private open space are provided to meet the area requirements, such area shall have minimum dimensions of 8 ft width and 6 ft depth.
	Minimum Site Landscaping	20%	*No change to requirement, but removal of note:* "Exclusive of areas on the site providing useable open space for residential uses. Improved rooftop areas can be counted toward open space."	Remove "*Exclusive of areas on the site providing useable open space for residential uses. Improved rooftop areas can be counted toward open space.*" Add a requirement that 75% of established setbacks shall be landscaped to discourage impervious materials. Add language that landscaped Common Open Space and established setback areas may be attributed to the total requirement

Zoning District	Open Space	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
Downtown Specific Plan (DTSP)				
Mixed Use Core	Private Open Space			
	Stacked Flats, Flex Building, Liner	Private open space is required for each residential unit and shall be no less than 50 s.f. with a minimum dimension of five (5) feet in each direction.		Required for 50% of units; no less than 50 s.f. with a minimum dimensions of 8 ft width and 6 ft depth.
	Hybrid Court, Court, Live-Work, Rowhouse, Duplex / Multiplex	100 sf. minimum with a minimum dimension of eight (8) feet in each direction		Required for 50% of units; no less than 50 s.f. with minimum dimensions of 8 ft width and 6 ft depth.
	Rosewalk and Bungalow Court	400 sf. minimum with a minimum dimension of twenty (20) feet in each direction		Required for each unit; 200 sf. minimum with minimum dimensions of ten (10) feet in each direction
	Single Family Residence	300 sf. minimum with a minimum dimension of fifteen (15) feet in each direction		Required for each unit; 400 sf. minimum with minimum dimensions of fifteen (15) feet in each direction
	Shared Open Space			
	Stacked Flats, Flex Building, Liner	The primary shared common space is the rear or side yard designed as a courtyard. Courtyards can be located on the ground or on a podium and must be open to the sky. Side yards can also be formed to provide outdoor patios connected to ground floor commercial uses.		The primary shared **outdoor** common space is **the front**, rear, or side yard designed as a courtyard. Courtyards can be located on the ground or on a podium and must be open to the sky. Side yards can also be formed to provide outdoor patios connected to ground floor commercial uses.
	Courtyard width/depth/height ratio	1:1:1	Add minimum 25-foot width requirement to the width/depth/height ratio	1:1:1.5; 25-foot width and depth, minimum
	Standards for Buildings Exceeding 45 feet in Height	For any building above 45 feet in height, the minimum dimension of a courtyard enclosed by a building on all sides shall be 40 feet.	Simplify requirements and reduce minimum dimensions	Remove
		For any building above 45 feet in height, the minimum dimension of a courtyard open on one side shall be a minimum of 35 feet.	Simplify requirements and reduce minimum dimensions	Remove
Fair Oaks Corridor	Same as Mixed-Use Core

Development Standard Parking

Zoning District / Code Section	Parking	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(RM) Residential Medium Density	Multi-family dwelling, condominiums and other attached dwellings	1 bedroom unit—1 space; 2 bedrooms and/or greater—2 spaces within a garage or carport for each unit, plus 1 guest space per each 2 units. (1), (3)	1.15 to 1.25 parking ratio	Studio—0.50 space One-bedroom—1 space Two or more bedrooms—1.5 spaces Guest Spaces - not required
(RH) Residential High Density				
(CG) Commercial General	Refer to Mixed Use Overlay			
(CO) Commercial Office	Refer to Mixed Use Overlay			
(BP) Business Park	Refer to Mixed Use Overlay			
(HO) Housing Opportunity Overlay	Refer to Mixed Use Overlay			

Zoning District / Code Section	Parking	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
(MU) Mixed-Use Overlay	Site Access / Driveway Location	The location of site access/driveways shall be prioritized as follows: (1) From an alleyway, (2) From a side street, or (3) If the previous two locations are infeasible as determined by the Director, then access from the front shall be limited to a maximum 24-ft wide driveway.		
	Location of Parking Spaces / Area	The location of parking spaces/areas shall be limited as follows: (1) Located to the rear of the building or underground, and (2) Shall not be located within the front or side street setback areas.		The location of parking spaces/areas shall be limited as follows: (1) Located to the rear of the building on the ground level or underground, and (2) Shall not be located above the ground level or within 30 feet of the front or side street property line. (3) Parking may be placed within setback areas below grade;
		Shared parking or a reduction in parking subject to approval of a parking study—SPMC 36.310.060. Within one-half mile of a high-quality transit station, no parking minimums shall apply for any use except for hotels, motels, bed and breakfast inns, and similar transient lodging facilities per Government Code Section 65863.2.		
	Number of Spaces for Residential Uses	Studio—0.50 space One-bedroom—1 space Two-bedroom—2 spaces Guest Space—0.25 per unit	1.15 to 1.25 parking ratio	Studio—0.50 space One-bedroom—1 space Two or more bedrooms—1.5 spaces Guest Spaces - not required
		Guest spaces are not required if non-residential spaces are available during non-operational hours. Parking is reduced, not required, for qualifying development projects within one-half mile of a high-quality transit station, as defined in Government Code Section 65863.2.		

Zoning District / Code Section	Parking	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
	Design of Surface or Structure Parking	As required by SPMC 36.310 (Parking and Loading)		
	(1) Guest parking spaces shall be clearly marked for guest parking only and shall be evenly dispersed throughout the development site. Signs shall be provided at appropriate locations to direct visitors to guest parking locations.			(1) Guest parking spaces shall be clearly marked for guest parking only and **are encouraged to be** evenly dispersed throughout the development site. Signs shall be provided at appropriate locations to direct visitors to guest parking locations.
	(3) The requirement of two covered spaces may be waived by the Director for the alteration of a residential unit that is listed on the City's Cultural Heritage Inventory as defined by SPMC Section 2.58, provided the circumstances listed under SPMC Section 36.360.090(F)(1) apply.			
36.350.180 Residential Uses – Courtyard Housing				
	A.1.d. Semi-subterranean parking garage…	A semi-subterranean parking garage that does not extend more than 30 inches above grade may be built to a side property line but shall not project into the required rear setback. An area equal to the area of the required side setback that is occupied by the garage shall be provided as common open space at grade level in the courtyard area.		**Apply to all Zoning Districts, no matter the type of housing configuration.** A semi-subterranean parking garage that does not extend more than 30 inches above grade may be built to a side property line but shall not project into the required rear setback. An area equal to the area of the required side setback that is occupied by the garage shall be provided as **Common Open Space ~~at grade level in the courtyard area.~~** **The exposed 30 inches of garage shall not be visible from the public way and shall be masked by plantings, residential stoops, steps up to the established finish floor, etc.**

Zoning District / Code Section	Parking	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
36.350.190 Residential Uses – Multifamily Project Standards				
	A. Purpose	3. Discourage on-site parking along the front building elevation or adjacent to the street so that buildings, rather than parking lots or garages, address the street and public		3. Parking shall not be placed along the front building elevation or adjacent to the street so that buildings, rather than parking lots or garages, address the street and public view.
36.310.100 Bicycle Parking				
	Provisions	A.1. Multi-family uses shall provide bicycle parking spaces equal to 10 percent of the required vehicle spaces. Bicycle parking shall be distributed throughout the project.		A.1. Multi-family uses shall provide bicycle parking spaces equal to 10 percent of the required vehicle spaces **based Zoning District prior to utilization of State Density Bonus Law**. Bicycle parking shall be distributed throughout the project.
	Design and devices	B.2.b. Each bicycle space shall be a minimum of two feet in width and six feet in length, and have a minimum of seven feet of overhead clearance.		B.2.b. Each bicycle space shall be a minimum of two feet in width and six feet in length, and have a minimum of seven feet of overhead clearance. **Exceptions can be made for the use of premanufactured storage systems that may hang on the wall or provide a stacked configuration**

Zoning District / Code Section	Parking	Current Standard	Arroyo Group / Staff Recommended Modification	Planning Commission Subcommittee Recommended Modification
36.310.080 Parking Design Standards				
	Location of Parking areas	Required off-street parking shall be located on the same parcel as the uses served or on a contiguous parcel, or within 400 feet of the proposed use it is intended to serve. When a proposed off-street parking spaces are provided on a separate parcel from the use, a recorded covenant running with the land, recorded by the owner of the parking lot, guaranteeing that the required parking will be maintained exclusively for the use or activity served for the duration of the use or activity approved in a form acceptable to the City Attorney		
	Parking space and lot dimensions	b.Tandem parking spaces. Tandem parking spaces shall be a minimum 35 feet in length by 10 feet in width, and a maximum of 42 feet in length and 12 feet in width.		b.Tandem parking spaces. Tandem parking spaces shall be a minimum 35 feet in depth by 8.5 feet in width, and a maximum of 42 feet in depth and 12 feet in width.
	Table 3-7 Parking Space and Drive Aisle Dimensions			
	Parking Space for 0 degree Angle of Parking for tandem or parallel parking Depth Width Aisle	Depth 24 ft Width 8.6 ft Aisle 12 ft		Remove tandem space and create it's own requirements; Parallel Spaces - Change 8.6 ft to 8.5 ft Tandem Spaces Depth 35 ft Width 8.5 ft Aisle 24 ft
	Parking Space Width for all degrees of Angle of Parking	9 ft		8.5 ft Add footnote to permit 7.5 ft for all spaces exceeding one space per residential unit and 25% max of the provided non-residential spaces
	Obstructions	(2) Each parking space that is adjoined on either side of its longer dimension by a fence, wall, partition, column, post, or similar obstruction, and the obstruction is located less than 14 feet from the access aisle measured along the length of the stall, shall have its minimum width increased by at least 10 inches on the side of the obstruction.		Exception: The 10-inch increase is not required if columns are set back 18 inches from the drive aisle
	G. Grades of driveways and parking areas.	2. Parking areas. Parking areas shall have a maximum grade of seven percent, measured in any direction.		2. Parking areas. Parking areas shall have a maximum grade of 6.66 percent, measured in any direction.
		Garage speed ramp slope (not codified)		Garage speed ramps are limited to 15% slope, max.

Memorandum

To: City of South Pasadena

From: BAE Urban Economics and The Arroyo Group

Date: June 2025

Re: Analysis and Recommendations for Amendments to Standards for Multi-family Housing Development to Implement Programs in the Housing Element

Introduction

This memorandum is prepared in response to the California Department of Housing and Community Development (HCD) request of the City to "closely evaluate the impacts of development standards and make adjustments as appropriate to address constraints on housing supply and costs, financial feasibility, and ability to encourage and facilitate maximum densities." Ultimately, the goal is to better understand which development standards are the most impactful in terms of feasibility outcomes in order to provide recommendations to ameliorate barriers to housing construction.

Key Questions

- Do **existing development standards** such as maximum height, setback/stepbacks, open space requirements, and other regulations achieve densities and buildouts that are both physically and financially feasible?

- If the answer is **"no"**, what regulatory changes and development standard updates may be needed to ensure that the development of housing is both physically and financially feasible?

- **Which development standard updates in particular** might improve physical and financial feasibility in the most impactful way?

Approach

The Arroyo Group conducted massing studies on one potential development site on Huntington Drive and one potential development site in Ostrich Farm. The massing studies were first conducted to determine the heights required to accommodate and facilitate housing

development, assuming typical development standards for mixed-use and multifamily housing development. Later, the massing studies were iterated upon to assess the financial and physical impacts of various levels of compliance with, or modifications to, the City's current development standards, while keeping density constant.

Both sites are governed by the standards of the Mixed-Use Overlay, which also apply to the Housing Opportunity Overlay. These two overlays, together with the Downtown Specific Plan (DTSP), represent the City's high-density growth areas, with densities of at least 50 du/acre. A base density of 70 du/acre was used for these analyses. Areas within the DTSP were not analyzed, given the City's experience processing development applications, including concession and waiver requests, which more readily highlight DTSP development standards that appear to constrain development.

Compliance with Inclusionary Housing Ordinance

All tested prototypes comply with the City's existing Inclusionary Housing Ordinance (IHO). For rental projects consisting of ten (10) or more units, this requires a minimum of 15 percent of dwelling units be provided at below-market-rate rents (7.5 percent of units affordable to extremely or very-low income households, and 7.5 percent of units affordable to lower-income households). For ownership projects with 10 or more units, this requires a minimum of 15 percent of dwelling units be affordable to moderate-income households. Given the affordability requirements associated with the City's IHO, rental projects are assumed to automatically qualify for a (minimum) 25 percent density bonus under California State Density Bonus Law, while ownership projects are assumed to qualify for a 10 percent density bonus. The bonus units have been included in the prototypes.

It is important to note that because density bonus projects will accommodate more units than the base density allows, they are eligible for concessions and waivers from development standards, including height limits. The number of concessions allowed is based on the percentage and affordability level of the affordable units. A rental project which provides the minimum number of affordable units required by the City's IHO qualifies for one concession. A developer may also request a waiver from any standard that physically precludes bonus densities from being achieved.

HCD's requirement is that the City's development standards (before any concessions and waivers) not pose a constraint to achieving the maximum base densities; a section of this memorandum is dedicated to demonstrating this. However, for financial feasibility, density bonus projects are analyzed, with use of up to one concession, if necessary.

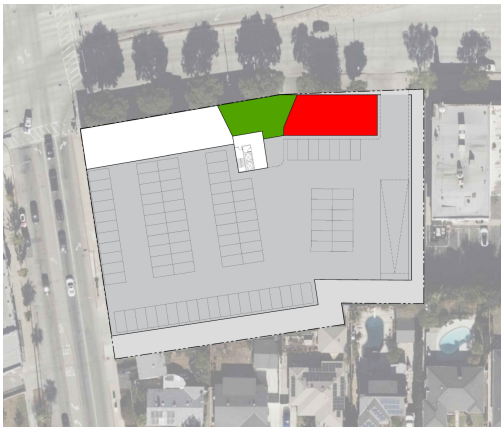
Recent studies have indicated that the City's existing Inclusionary Housing Ordinance is financially feasible for both multifamily rental and condominium projects. The studies made this determination based on housing prototypes which would allow for densities of 70 dwelling units per acre, residential parking ratios of 1.0 spaces per unit located in ground-floor

structures, no ground-floor commercial space, and circulation efficiencies of 85 percent. To the extent that existing development standards may challenge the achievement of these metrics, adjusting these standards will enable developers to meet Inclusionary Housing Ordinance requirements with fewer waivers.

Alignment with Local Market Conditions
BAE worked closely with the Project Team to ensure that prototypes aligned with local market conditions to the extent possible under existing and proposed development standards.

Average unit sizes for the rental prototypes, modeled on the Huntington Drive site, ranged from 795 to 887 square feet per unit, with average unit sizes more limited by height, stepback and setback standards than by density. This yielded a unit mix in which one-bedrooms comprised the largest share of unit sizes, followed by two-bedrooms. Average unit sizes for the condominium prototypes, modeled on the Ostrich Farm site, were slightly higher, ranging from 986 to 1,013 square feet. Two-bedrooms comprised the largest share of unit sizes for condominiums.

The analysis also assumes that both rental and condominium prototypes are served by structured and/or subterranean parking, with parking ratios averaging 1.15 spaces per dwelling unit for rental projects, and 1.50 spaces per dwelling unit for condominiums. These ratios are typical for new-construction projects and meet required ratios under State Law and/or the City's streamlined density bonus incentives.



POTENTIAL CONSTRAINTS TESTED

The Consultant Team tested the following development standards for potential physical and economic constraints.

- *Height Restrictions*
  As a starting point, the consultant team tested the extent to which the existing height limit of 45 feet in the Mixed Use Overlay would result in a building prototype that is both physically and financially feasible. To achieve a building prototype that achieved the desired density within four stories, unit sizes were smaller than the prevailing market standard, as well as expensive parking treatments that were entirely subterranean. This constraint could be lifted by increasing the height limit, which is newly possible after the passage of Measure SP.

Ground floor on a four-story building with subterranean parking

Ground floor on a five-story building with first floor and subterranean parking

- *Setback Impacts*
  Setback and related requirements in South Pasadena are noticeably more restrictive than in other similar communities. The City's existing frontage requirements stipulate that nonresidential uses are required along street frontages in the Mixed-Use Overlay. If ground-floor residential space is provided, a 20-foot front setback is required. Side setbacks are 15 feet for buildings of three stories or more, or 25 feet adjacent to single-family residential districts. Rear setbacks are 25 feet for buildings of three stories or more, or 35 feet adjacent to single-family residential districts. Setbacks could be reduced to levels more consistent with adjacent communities.

- *Stepback Impacts*
  Next, the consultant team analyzed the extent to which existing stepback requirements (in the City's streamlined density bonus review process) may be impacting financial feasibility. Specifically, the team tested the impact of the upper (fourth or fifth) floor being "stepped back" at least ten feet from the lower floors, reducing the amount of leasable residential space. If a substantial impact was found, the City could remove all stepback requirements or relax them by requiring them in fewer locations.

- *Other Impacts*
  Building Breaks. The Mixed-Use Overlay currently restricts the length of any building to 150 feet, whether or not the building is located along a street frontage, and irrespective of whether the frontage is primary or not. The consultant team explored ways to introduce more flexibility into this standard, for example, by allowing for a longer building along secondary roads such as Fremont, but maintaining the break along Huntington.

FEASIBILITY OVERVIEW

As described above, The Arroyo Group formulated a series of prototypes evaluating the physical effects of various combinations of current and potential relaxed or removed development standards. To evaluate the financial feasibility of these physical prototypes, BAE created a series of static pro forma models structured to calculate the yield-on-cost, which compares stabilized Net Operating Income (NOI) to total development cost.[1] For condominiums, the pro forma models are structured to calculate the Residual Land Value (RLV). Land residuals equivalent to the typical sale price for land among recent comparable sales can indicate a financially feasible project. Table 1 below displays the feasibility results for each rental prototype.

- **The presence of a 45-foot height limit ("H-Base") presents a constraint to feasibility at the indicated density,** as shown in Table 1 below. This is due in large part due the expensive subterranean parking treatments required by the need to utilize the full ground-floor for residential space.

- **Raising the permissible height and removing standards which prohibit the creation of ground-floor parking podiums ("H-Height Only") improves feasibility when compared to the H-Base scenario.**
  However, compliance with existing development standards such as stepbacks and setback requirements still constrains financial feasibility, in large part due to reduced circulation efficiencies and the loss of net leasable area.

- **Combining a height increase with significant relaxation of one development standard and modest relaxation of a second ("H-Height+1", "H-Height+2") improves feasibility even further when compared to H-Base.**
  For example, removing the 10-foot stepback requirement on upper floors provides approximately 9,000 square feet of additional leasable area, translating into larger unit sizes and a greater share of two-and-three bedroom units most desired by the community.

- **Combining a height increase with significant relaxations of multiple development standards ("H-Package") will improve feasibility the most when compared to H-Base.**
  This package reflects the Planning Commission subcommittee recommendations which includes greater setback reductions and slightly different building break and parking location requirements than "H-Height+1" and "H-Height+2."

[1] For the purposes of this analysis, a development pro forma that shows a yield-on-cost spread of 100 basis points or above over the capitalization rate indicates a feasible project. Prototypes are considered "marginally feasible" when feasibility could be improved through a combination of reduced costs, returns, or other assumptions.

Table 2 below displays the feasibility results for ownership prototypes, which perform in a similar manner as the rental prototypes.

- Height increases, even when combined adjusting multiple development standards (O-Height+2), are not necessarily sufficient to overcome marginal financial feasibility.

- Similar to the Huntington Drive prototype, removing the stepback requirement is one of the more impactful levers at the City's disposal. The Planning Commission subcommittee recommendations "O-Package" combine the development standard adjustments in "O-Height+2" with elimination of stepback requirements and other changes which achieve likely financial feasibility.

Table 1: Feasibility by Scenario – Huntington Drive

	H-Base	H-Height Only	H – Height+1	H – Height+2	H - Package
Description/ Physical Feasibility	**-Complies with existing height limit of 45 feet** -Complies with setback, stepback, lot coverage, building form, and landscaping requirements	**-Increase height limit.** -Complies with setback, stepback, and other requirements. -Does not comply with lot coverage, landscaping.	**-Increase height limit.** **-Removes stepback** requirement + **-Relaxes building form** requirement for areas not on Huntington -Does not comply with lot coverage, landscaping.	**-Increase height limit.** **-Relaxes stepback** requirement + **-Relaxes building form** requirement to apply to upper floors only -Does not comply with lot coverage, landscaping	-**Increase height limit, plus:** **-Remove stepback** req. **-Relax building form** req. **-Reduce setbacks** -**Eliminate max. lot coverage** -**Relax open space and landscaping** standards -**Reduce minimum unit size** -Apply parking location requirements
Financial Feasibility/ Yield on Cost	4.43% Not Feasible (13 bp over cap)	4.96% Not Feasible (66 bp over cap)	5.10% Marginally Feasible (80 bp over cap)	5.10% Marginally Feasible (80 bp over cap)	5.10% Marginally Feasible (80 bp over cap)
Key Takeaways	No prototype with a height limit of 45 feet is financially feasible under current market conditions.	Raising the height limit by one additional story does not help achieve financial feasibility if still complying with existing development standards.	Combining the height increase with a relaxing of stepback requirements yields a project that is marginally feasible.	Relaxing building form standards also improves feasibility, similar to the previous alternative.	The comprehensive suite of recommendations from the Planning Commission subcommittee achieves a similar feasibility outcome as H-Height+1 and H-Height+2.

Note: The prototypes incorporate a proposed change to minimum unit size to 450 square feet, consistent with the DTSP, and assume reduced open space requirements of 189-295 sf/du.

Table 2: Feasibility by Scenario – Ostrich Farm

	O – Height+2	O - Package
Description/ Physical Feasibility	**-Increase height limit.** **-Relaxes setback** requirement + **-Relaxes building form** -Does not comply with lot coverage, landscaping, and open space requirements.	-**Increase height limit, plus:** **-Remove stepback** req. **-Relax building form** req. **-Reduce setbacks** -**Eliminate max. lot coverage** -**Relax open space and landscaping** standards -**Reduce minimum unit size** **-**Apply parking location requirements
Financial Feasibility	Marginally Feasible	Likely Feasible
Key Takeaways	Combining a height increase with relaxing the setback requirement yields a project that is marginally feasible. This project requires six stories.	Removing the stepback requirement in addition to relaxing the setback requirement also improves feasibility, as well as improves circulation efficiency. It also allows the density to be accommodated in five stories, enabling a more cost-effective construction type.

Note: The prototypes incorporate a proposed change to minimum unit size to 450 square feet, consistent with the DTSP, and assume reduced open space requirements of 200-240 sf/du.

Recommended "Package" for Improving Physical and Financial Feasibility

The Huntington Drive and Ostrich Farm sites are comparatively generous with respect to parcel size, lot dimension, and do not require lot assembly. Feasibility outcomes noted above could prove more challenging on smaller sites with additional constraints. For this reason, it is important to provide a variety of development standard relaxations which may prove to be of greater use in different situations.

The following recommendations below for standards in the Mixed-Use and Housing Opportunity Overlays, derived from physical and financial feasibility testing, are recommended for inclusion into a package for consideration that will address HCD concerns and comments, as well as align with community values.

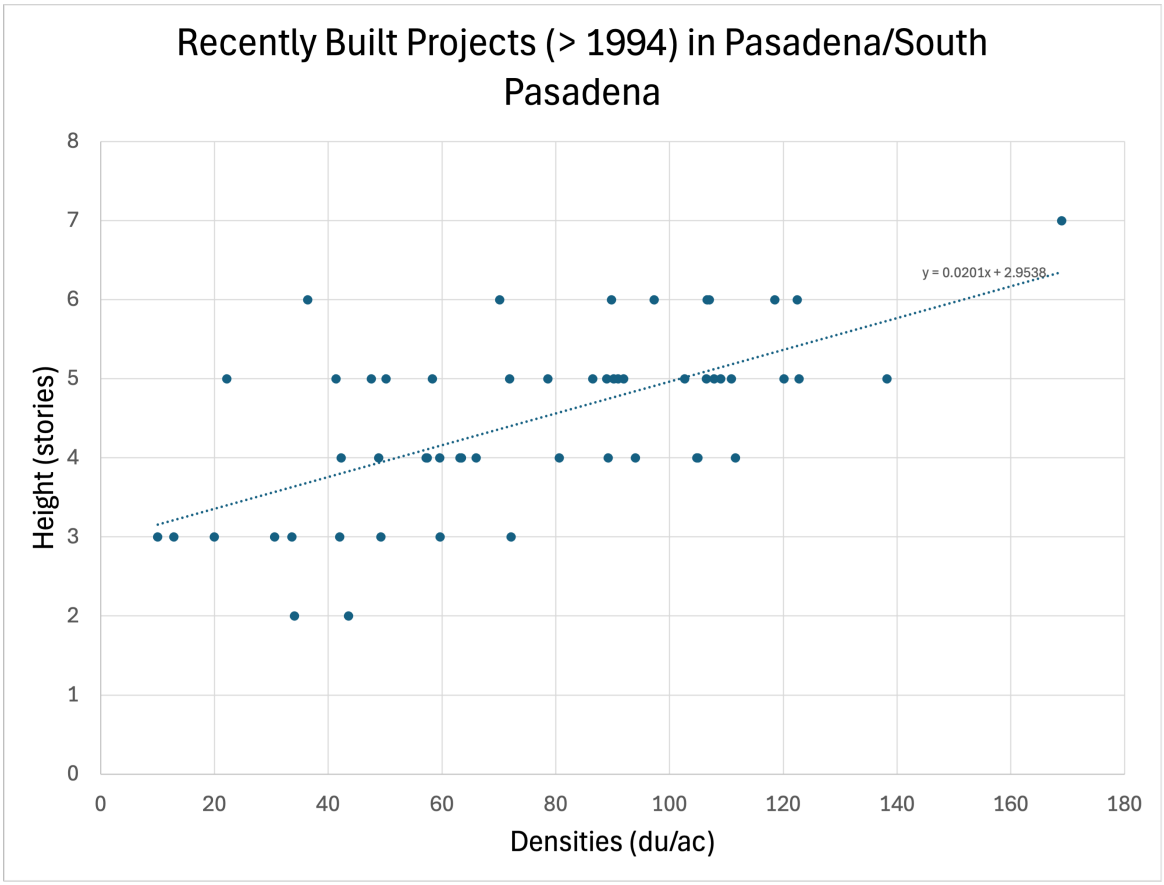
Height Limit Modifications are Recommended as Follows:
Increase height limit to a minimum of 55 feet, allowing heights of at least 60 feet with density bonus concession.
Allow height averaging.

The prototypes demonstrate that heights of at least 59 feet must be allowed to accommodate inclusionary housing/density bonus projects of 77-88 du/ac in a financially feasible manner. A 59-foot height corresponds to a comfortable five-story mixed-use development (15-foot-tall commercial ground floor, four 10.5-foot-tall residential floors, and a 2-foot parapet). Non-habitable projections such as mechanical equipment, pitched roofs, etc. are assumed to be allowed above the height limit.

While density bonus projects require approximately 60 feet, HCD only requires that base development standards accommodate the base density. The Arroyo Group also ran physical feasibility analyses on these two sites without any density bonuses, assuming application of the rest of the recommended development standard package. These analyses found that base densities would require heights of 49 feet for Huntington Drive and 53 feet for Ostrich Farm, if height averaging is used in the calculation.[2] Density bonus projects could then use a concession to achieve heights of 60 feet, or greater, if needed.

A maximum average height of 55 feet accommodates four-story mixed-use projects, such as the Huntington Drive base density study, as well as those with a combination of four- and five-story elements, as seen in the Ostrich Farm base density study. This height limit would also generally accommodate a five-story, 100% residential project (e.g. 12-foot-tall ground floor, four 10-foot-tall upper floors, and a 2-foot parapet).

[2] Height averaging is calculated as the average height of all portions of the building containing residential units (i.e. not podium levels).



Huntington Drive base density study:
49’ avg height, 59’ max height

Ostrich Farm base density study:
53’ avg height, 58’ max height

The Arroyo Group also reviewed the heights and densities of multifamily and mixed-use projects built in the last 30 years in Pasadena (which has had high-density zoning since 1994) and South Pasadena. 45 of 54 projects (83%) were five stories or less. The historical trendline projects that 70 du/acre can be accommodated in 4.4 stories, and density bonus projects of up to 100 du/acre can be accommodated within 5.0 stories.

Source: The Arroyo Group, 2025

Setback Requirement Updates are Recommended as Follows:

- *Front, ground-floor residential: 5 ft in CG district, 10 ft in other zones*
- *Front, ground-floor commercial or amenity: 0 – 10 feet*
- *Side: 4 ft minimum for first two floors, 1 ft additional for each floor above the second*
- *Rear: 10 ft minimum, or 5 ft minimum adjacent to alley*

Compliance with setback requirements, including the 20-foot front setback for residential uses, and large side and rear setbacks, pose significant challenges to physical and financial feasibility. The multifamily prototype is challenged by a significant reduction in leasable residential space. During the March 18, 2025, open house, community members expressed a willingness to reduce setback requirements to typical ranges experienced in other communities.

Stepback Requirement Updates are Recommended as Follows:
Eliminate stepback requirements, and develop building articulation requirements through future objective design standards.

Stepback requirements often generate inefficient floor plates on floors affected by the stepback. In the case of the Ostrich Farm prototype, eliminating stepback requirements also allowed for the reduction of the height of the building by one floor on half of the building.

Maximum Lot Coverage and Landscaping Updates are Recommended as Follows:
Eliminate the 70% maximum lot coverage requirement. Relax landscaping standards to: a) allow open spaces to count toward the minimum 20% of site area requirement, b) define landscaping to be able to work on high-density sites, and/or c) change landscaping requirements to require a portion of common open spaces and setbacks be landscaped.

Compliance with 70% maximum lot coverage requirement and 20% landscaping requirements, exclusive of required open space, effectively preclude ground-floor podium parking structures, which reduce costs significantly when compared to subterranean parking. They also reduce leasable space. Lot coverage requirements are not appropriate for dense mixed-use and multifamily development and should be eliminated.

Open Space Requirement Updates are Recommended as Follows:
Reduce required open space to 150 to 200 sf/du per unit.

Compliance with existing Open Space requirements (300 sf/du exclusive of landscaped area) has not been possible given physical constraints. As such, the financial impact of reducing and/or maintaining open space requirements has not been quantified. Additionally, none of the iterations were able to achieve 300 sf/du, even accounting for balconies (not pictured) and including potentially landscaped areas within common open spaces and a limited amount of indoor common recreational space. A requirement of 150 to 200 sf/du is definitely achievable,

with the exact amount depending on specific definitions, including whether interior recreational spaces can count toward the requirement.

Building Break Requirement Updates are Recommended as Follows:

Relax building break requirements in one or more of the following ways:

1. *Apply maximum 150-foot building length to primary frontages only. Require the building break to be a minimum of 20 feet wide. West of the intersection of Monterey Road, Pasadena Avenue and Mission Street, require or establish incentives for wider building breaks which preserve pedestrian views to the hillside.*
2. *In addition to #1, allow building break to occur on the second floor and above only, with a minimum break of 15% of the lot width.*
3. *Replace the current maximum building length regulation with a maximum façade length of 100 feet, with a 10'x10' break in between façade segments.*

Currently, all buildings are limited to a maximum 150-foot length, requiring less efficient buildings with multiple circulation cores and a loss of leasable area and also prohibiting efficient ground-floor podium parking layouts. Building break requirements should instead focus on street-facing facades, principally on the primary street. For the Huntington Drive scenario, "H-Height+1," "H-Height+2" and "H-Package" all use slightly different building break requirements (#1, #2 and #3). While each of the three options have slightly different financial feasibility impacts, all three are feasible when combined with the other elements of this package.

MARKET ANALYSIS APPENDIX

Assumptions: Market / Financial Analysis

Market Conditions

BAE utilized CoStar to identify local market conditions including average unit size, asking rents, parking ratios, capitalization rates, and other factors. BAE also utilized Redfin to analyze sales of condominiums and townhomes over the most recent 12 month period.

Key Financial Feasibility Assumptions

The information on key assumptions below provide detail on the methodology used for this study to derive total development costs and project values. Developers vary somewhat in the categorization of various project costs, and therefore may describe different cost figures for individual categories. Any variation in the specific costs described below would not likely affect the findings of this analysis provided that the total development costs shown for each of the following proformas are consistent with total development costs for similar projects.

Hard Costs: Hard costs are the costs associated with the physical construction of a building, including all construction materials and labor. For the multifamily rental prototype, this analysis uses a hard cost assumption of roughly $350.00 per square foot of built space, while condominium construction assumes $375.00 per square foot. All pro formas included use a parking hard cost assumption of $50,000 per podium space, and $75,000 per subterranean space.

Soft Costs: This analysis assumes that soft costs are equal to 20 percent of hard costs. This soft cost estimate includes engineering, architecture, financing, and CEQA costs. It also includes City cost-recovery fees for planning, permitting, and entitlements, but does not include impact fees. Impact fees are a separate line item, discussed following.

Impact Fees: Impact fees incorporated into the pro-forma analysis include the South Pasadena School District Impact Fee (multifamily attached), Park Impact Fee, Growth Impact Fee, and Public Art Development Fee for market-rate units.

Market-Rate Residential Rents: This analysis assumes that rental rates for market-rate units will command a premium compared to current rental rates for recently constructed multifamily rental developments in the project area. The analysis assumes that market-rate rents for these prototypes will be approximately $5.70/sf/month for studio units; $4.86/sf/month for one-bedroom units; $4.75/sf/month for two-bedroom units; and $3.85/sf/month for three-bedroom units.

Affordable Residential Rents: The affordable rental rates used in this analysis are based on the income limits published in the California Department of Housing and Community

Development (HCD) 2024 State Income Limits for Los Angeles County. Affordable rents by income category (extremely low income, very low income, low income, etc.) are based on a percentage of the published income limits per HUD guidelines, and include a utility allowance based on published schedules from the Los Angeles County Development Authority.

Capitalization Rate: The capitalization rate is defined as the net operating income that a property generates divided by the estimated value of the property. Capitalization rates are a common metric used to estimate the value of a rental property based on its net operating income, and they vary by property type, location, and other property-specific characteristics. This analysis uses a 4.30 percent capitalization rate to value multifamily rental properties, based on a survey of CoStar.

   - *F. No Impact. 9*

ADDENDUM TO THE
PROGRAM ENVIRONMENTAL IMPACT REPORT
FOR
General Plan and Downtown Specific Plan Update & 2021–2029 Housing Element Implementation Programs

Purpose

This Addendum is prepared to augment the previously adopted Program Environmental Impact Report (PEIR) that was certified by the City Council of the City of South Pasadena on September 18, 2023 for the General Plan and Downtown Specific Plan Update & 2021–2029 Housing Element Implementation Programs (henceforth referred to as the "GP/DTSP/ZC"). The previously adopted PEIR is hereinafter referred to as "the PEIR". This Addendum, together with the above-mentioned PEIR, serves as the environmental review of the proposed project, known generally as the **GP/DTSP/ZC/ZM Amendments** (collectively the "Amendments"), ("GP": encompassing amendments to two General Plan Elements, the Land Use Element and the Housing Element; "DTSP", the Downtown Specific Plan; and ZC, South Pasadena Municipal Code Chapter 36 (Zoning) and more fully described below, as required pursuant to the provisions of the California Environmental Quality Act (CEQA), Public Resources Code Section 21000 *et seq.* and the State and CEQA Guidelines.

Pursuant to the provisions of CEQA and the State and local CEQA Guidelines, the City of South Pasadena is the Lead Agency and is charged with the responsibility of deciding whether or not to approve the proposed Amendments. As part of the decision-making process, the City is required to review and consider the potential environmental effects that could result from the modification of the project analyzed in the previously adopted PEIR.

1. The Previously Approved Project

The PEIR was previously prepared for the General Plan and Downtown Specific Plan Update & 2021–2029 Housing Element Implementation Programs ("GP/DTSP/ZC"), which was approved and certified by the City Council on September 27, 2023.

2. The Previous PEIR

The PEIR analyzed the potential environmental impacts of the GP/DTSP/ZTA. The PEIR determined that, as a growth-inducing set of planning policies, each of the environmental categories examined as relevant to the City could have potentially significant impacts. With respect to those potentially significant impacted areas and resources, the PEIR identified feasible mitigation measures for most impacts, for example grading and construction monitoring measures. However, it was determined that unavoidable significant adverse impacts would result in the categories of Aesthetics, Air Quality, Cultural Resources, Greenhouse Gas Emissions, Noise, and Population and Housing. A Statement of Overriding Considerations (SOC) was adopted together with certification of the PEIR on September 27, 2023.

3. Actions Subsequent to the Adoption of the PEIR

Subsequent to the certification of the PEIR on September 27, 2023, and the approval of GP/DTSP/ZC the City now desires to make modifications and revisions to the policy documents in order to complete the zoning following the voters' approval of Measure SP in the November 2024 election, which repealed a 1983 ballot initiative's restrictions on heights citywide, allowing the Council to set new height limits that are consistent with allowable densities.

Accordingly, this Addendum to the PEIR was prepared to consider the impacts associated with the modifications and changes to these policy documents. This Addendum focuses on the changes between the project as previously evaluated and approved, and the modifications that are now recommended for adoption.

4. Project Changes Addressed in this Addendum

The General Plan Land Use Element, the 6th Cycle General Plan Housing Element, the Downtown Specific Plan, and amendments to the Zoning Ordinance to implement the policies as set forth in these documents were previously adopted following certification of the PEIR that analyzed the proposed actions and their potential for environmental impacts under CEQA.

At this time, following the voters' approval of Measure SP, the City Council is authorized to establish density and height thresholds commensurate with the intent of the Housing Element, and to modify density and development standards in order to be more consistent with the RHNA. The Amendments included in the current project would slightly reduce the density in areas within the DTSP (the National Register Historic District and Mission Street West of Orange Grove from 70 dwelling units (du)/acre to 50 du/acre, and Fair Oaks - Downtown from 110 du/acre to 90 du/acre), increase residential density at certain large congregational and private school sites to 50 du/acre, and reduce the area in the RM zone covered by the Housing Overlay Zone, while increasing heights in zoning districts with densities of more than 50 du/acre and in all districts within the DTSP. The proposed heights, which are based on feasibility analysis completed by project consultants, are as follows:

Maximum Density	Maximum Height
50 du/acre	50 feet
70 du/acre	60 feet
90 du/acre	70 feet

The certified Housing Element considered larger height increases at the time of the original project, which could not be implemented due to the 1983 ballot measure restrictions, which have now been repealed. Further, under current regulations, projects utilizing the provisions of State Density Bonus Law very likely could have been entitled to heights that are similar to those that would be allowed by the proposed height regulations.

The following summarizes the proposed Amendments in this project:

1. GP Land Use Element
   Sync proposed heights for consistency with the Zoning Code and DTSP amendments, and other consistency revisions.

2. GP Housing Element
   Correct Table VI-51 (which is now Table VI-53 in the Housing Element Amendments) regarding RHNA compliance; minor updates to other sections including describing public outreach related to the amendment process.
   a. The Executive Summary and Section 6.2.4 (Public Participation) have been updated to reflect the additional public participation in the amendment process.
   b. Table VI-51 (now proposed Table VI-53) is replaced with a corrected listing of sites, with assumptions explaining the capacity-estimation formula. The correction better aligns the sites identified for RHNA compliance with the PEIR assumptions, and scales back the number of properties, including by removing many properties zoned RM that were previously included, except for some along Huntington Drive.
   c. Program 2.n has been updated with a note on Ballot Measure SP, which was approved by voters to remove the citywide height cap.
   d. Programs 2.j and 2.k are being removed from the element because they were superseded by Program 3.a, which has been implemented.

3. Downtown Specific Plan
New heights; adjust densities in the Fair Oaks Avenue Zone and western end of Mission Street; ; remove references to 1983 Ballot Initiative restrictions; update various development standards to enhance development potential and project design elements, including, but not limited to:

- *private and shared open space standards*
- *courtyard standards*
- *parking design standards*
- *height standards for the use districts as noted above*
- *setbacks*
- *building placement*

4. Zoning Code:
Adjust Mixed-Use Overlay District Development Standards including heights; add height for Housing Opportunity Overlay Zone; clarify rooftop features that may exceed height limits and allow height averaging , add a CF-50 zoning district to allow higher intensity multi-family housing on religious congregation and private school sites larger than two acres in size; and adjustment to various development standards including:

- *residential and commercial setbacks*
- *residential private and common open space requirements and minimum*

dimensions

- *mixed-use lot size and dimension standards,*
- *mixed-use height and height averaging, façade length, and entry design standards, residential use setback standards, parking location and design standards, common and private open space standards and requirements,*
- *allowances for projections into setbacks for stoops*

5. Zoning Map: Reduce the area covered by the Housing Opportunity Overlay Zone by removing the overlay from applying to RM zoning districts identified on the current Zoning Map except for certain RM zoned parcels along Huntington Drive, and adding new CF-50 designation to applicable properties.

5. Required Findings for Use of an Addendum

Section 15164 of the State CEQA Guidelines states that an Addendum to an earlier Mitigated Negative Declaration or EIR shall be prepared if some changes or additions are necessary to the previously adopted document, but none of the conditions described in Section 15162 calling for preparation of a subsequent Mitigated Negative Declaration or EIR have occurred. Section 15162 of the State CEQA Guidelines identifies the conditions that require preparation of a subsequent EIR. A proposed change in a project will require preparation of a subsequent environmental document if:

A. The change in the project is substantial.

Substantial changes in the project are those that would require major revision of the previous environmental document due to the involvement of new significant environmental effects, or if a substantial increase in the severity of previously identified significant effects has occurred.

B. The circumstances under which the project is undertaken have substantially changed.

Substantial changes in circumstances are those defined as those that would require major revisions of the previous environmental document in order to describe and analyze new significant environmental effects, or any changes that would cause a substantial increase in the severity of the previously identified significant effects.

C. New information of substantial importance, which was not known and could have not been known, with the exercise of reasonable diligence at the time the previous environmental document was approved, shows:

(1) The project will have one or more significant effects not discussed in the previous environmental document;

(2) The significant effects previously examined will be substantially more severe than identified in the previous environmental document;

(3) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponent declines to adopt the mitigation measures or alternatives; or

(4) Mitigation measures or alternatives that are considerably different from those analyzed in the previous environmental document would substantially reduce one or more significant effects on the environment, but the project proponent declines to adopt the mitigation measures or alternatives.

If none of the above conditions are met, the City may prepare an Addendum in order to make minor changes to the previously certified Environmental Impact Report and to document the City's analysis as to why no further environmental review is required.

In performing the required analysis and determining that the criteria is met for use of an addendum, this Addendum relies on use of a Modified Environmental Checklist Form, as suggested in Section 15063(d)(3) of the State CEQA Guidelines. Section 7 of this document contains the Modified Environmental Checklist Form and explains the basis for each response to the questions on that Form. This Addendum has evaluated each of the changes to the GP/DTSP/ZTA between the adoption of these documents in September 2023 and the current proposed height, density and development standards to support housing development now presented and measures the impacts of those changes against the checklist of questions presented in Section 7 of this document.

Based on this analysis and the information contained in this Addendum, there is no evidence that the proposed project requires major changes to the PEIR. Comparison of the previous project with the proposed Amendments project indicates that there are no significant new environmental impacts associated with implementation of Amendments. In addition, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed and there is no evidence of new or more severe environmental impacts arising out of the Amendments to the policy documents. The Amendments to these policy documents are considered in the same context of compliance with the City's Regional Housing Needs Assessment (RHNA), as it has been allocated to require planning for additional housing development amid a statewide housing shortage.

6. Evaluation of Environmental Impacts

As indicated above, the Modified Environmental Checklist Form included in Section 7 of this Addendum was used to identify the potential environmental effects of the proposed project changes. Each project change was referenced against the standard environmental categories listed in Appendix G of the State CEQA Guidelines. A summary of the reasons why an Addendum is appropriate in this situation, are set forth below:

GP Land Use Element
The proposed height maximums in the Amendments project are consistent with, or lower than, the contemplated heights in the adopted Housing element, and comparable to what could be achieved through density bonus law, and thus are within the range anticipated in the PEIR. The heights were not included in the adopted General Plan because doing so was precluded by the

restrictions of the 1983 Ballot Initiative, which has now been superseded by Measure SP, as adopted by the voters. Although specific increased heights are proposed, buildings of similar height could have been entitled through State Density Bonus Law, which larger multi-family residential and mixed-use projects would be eligible for in light of the City's inclusionary housing requirements. Meeting the City's 15% inclusionary housing requirement would make projects with 10 or more units eligible for density bonus, including the potential for concession or waivers of development standards, including height limitation. Thus the Amendments, while clarifying and establishing seemingly more generous height standards, do not substantially change potential building height that could be allowed under current regulations. In the Fair Oaks Corridor and western portion of Mission Street, densities are proposed to be lowered. Therefore, there are no environmental impacts that were not reviewed and accounted for in the PEIR anticipated from the proposed revisions to the General Plan Land Use Element.

2. GP Housing Element

The Amendments do not propose to substantially change any of the Housing Element programs, and in particular does not increase the level of housing production that might be anticipated as a result of the policies contained in the document. Accordingly, the project would not increase the level of potential environmental impacts studied in the PEIR. The main purpose of the housing element amendment is to address inaccuracies in the data used to verify RHNA compliance, which resulted in an obligation to rezone more land area at higher densities than required. The proposed data table revisions are based on parcel-level data evaluated through a GIS-based program, which has accurately calculated potential unit construction at the allowable densities, including densities now proposed to be reduced in two areas within the Downtown Specific Plan, and the new CF-50 zoning. Therefore, there are no environmental impacts that were not reviewed and accounted for in the PEIR anticipated from the proposed revisions to the Housing Element.

3. Downtown Specific Plan (DTSP)

The proposed height maximums in the Amendments are consistent with the adopted allowable densities and are within the range anticipated in the PEIR. The heights were not included in the adopted DTSP because doing so was precluded by the restrictions of the 1983 Ballot Initiative, which has now been superseded by Measure SP as approved by voters. In the Fair Oaks Corridor and western portion of Mission Street, densities are proposed to be lowered. Additionally, standards are proposed to be amended in order to improve the ability of architects and developers to design projects that provide maximum residential capacity while meeting design goals of the DTSP conforming to the form-based plan. These development standards on their own would be exempt from environmental review, and would clearly not result in any environmental impacts. Therefore, there are no environmental impacts that were not reviewed and accounted for in the PEIR anticipated from the proposed revisions to the General Plan Land Use Element.

4. Zoning Code:

.

The proposed changes to the Mixed-Use Overlay Zone comprise the bulk of the proposed changes to the Zoning Ordinance included in this project, however revisions to zoning text for other zones and overlay zones, including RM, RH, CO, CG, BP, and Housing Opportunity Overlay Zone) are proposed. Most of these changes adjust standards for building design in order to improve the ability of architects and developers to propose projects that maximize residential uses, including changes to open space, setbacks, projections, parking, as well as revisions related to the measurement of height. These changes on their own would be exempt from the requirements of CEQA. There are no proposed changes to the current density of 70 du/acre, and the associated height of 60 feet is within the level anticipated in the PEIR but not adopted due to the previous citywide cap on height limits. Therefore, there are no environmental impacts that were not reviewed and accounted for in the PEIR anticipated from the proposed revisions to the Zoning Ordinance.

5. Zoning Map: Reduce the area covered by the Housing Opportunity Overlay Zone by removing the overlay from applying to RM zoning districts identified on the current Zoning Map, except for certain RM parcels along Huntington Drive that remain in the Housing Opportunity Overlay Zone.

The proposed map revision will effectively reduce maximum density on the parcels involved, which will be subject to the requirements of the RM (Medium Density) Zoning District, except for certain RM properties along Huntington Drive. Therefore, the reduced development potential on those RM parcels will not result in any potential environmental impacts that were not reviewed and accounted for in the PEIR. Further the new CF-50 designation contemplates development that could be accommodated under state law, and thus will not have significant impacts.

In summary, comparison of the previous project with the Amendments indicate that there are no new significant environmental impacts associated with implementation of height, density and development standards to support housing development. Furthermore, there is no substantial evidence that the circumstances under which the project is undertaken have substantially changed and there is no evidence of new or more severe environmental impacts arising out of the proposed changes to the policy documents.

However, this Project also qualifies for a recently enacted CEQA exemption for housing element implementation, as codified in Public Resources Code Section 21080.085. This exemption provides as follows:

> 21080.085 (a) This division [CEQA] does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the Government Code.

Section 65583 (c) implementation actions, although referred to in the exemption as rezoning, are broadly defined to include, but are not limited to:

- making make sites available during the planning period with appropriate zoning and development standards to accommodate RHNA needs for all income levels that could not be accommodated on sites identified in the sites inventory,

- assisting in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

- removing governmental and nongovernmental constraints for development of housing for all income levels

The Project includes consistency amendments among the various interrelated documents (General Plan, Housing Element, Downtown Specific Plan, and Zoning) that are within the scope of, and contemplated by programs under Section 65583 (c).

7. Modified Environmental Checklist Form

This Checklist Form is used to compare the anticipated environmental effects of the project with those disclosed in the previous PEIR and to review whether any of the conditions set forth in Section 15162 of the State CEQA Guidelines requiring preparation of a subsequent environmental document are met. The Form is used to review the potential environmental effects of the proposed project for each of the following areas:

- Aesthetics
- Agriculture and Forestry Resources
- Air Quality
- Biological Resources
- Cultural Resources
- Energy
- Geology and Soils
- Greenhouse Gas Emissions
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Land Use and Planning
- Mineral Resources
- Noise
- Population and Housing
- Public Services
- Recreation
- Transportation
- Tribal Cultural Resources
- Utilities and Service Systems
- Wildfire
- Mandatory Findings of Significance

Because the PEIR determined that the areas of Agricultural and Forestry Resources and Mineral Resources were not present for analysis in the City, this Addendum also removes those categories as part of the environmental analysis.

There are six possible responses to each of the questions included on the Form:

A. Substantial Change in Project Requiring Major Revision of Previous EIR.

This response is used when the project has changed to such an extent that major revisions of the previous EIR are required due to the involvement of new significant environmental effects or an increase in the severity of the previously identified significant effects.

B. Substantial Change in Circumstances under which Project is Undertaken Requiring Major Revision of Previous EIR.

This response is used when the circumstances under which the project is undertaken have changed to such an extent that major revisions of the previous EIR are required because such changes would result in the project having new significant environmental effects or would substantially increase the severity of the previously identified significant effects.

C. New Information of Substantial Importance Showing New or Greater Significant Effects Than Identified in Previous EIR.

This response is used when new information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified, shows that the project would have a new significant environmental effect or more severe significant effect than identified in the previous EIR.

D. New Information of Substantial Importance Showing Ability to Substantially Reduce Significant Impacts Identified in Previous EIR.

This response is used when new information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified, shows:

(1) The significant environmental effects of the project could be substantially reduced through imposition of mitigation measures or alternatives that although previously found to be infeasible are in fact now feasible, but the project proponent declines to adopt them; or

(2) The significant environmental effects of the project could be substantially reduced through imposition of mitigation measures or alternatives that are considerably different from those analyzed in the previous EIR, but the project proponent declines to adopt them.

E. Less Than Significant Impact/No Changes or Circumstances and No New Information That Would Require the Preparation of a New EIR.

This response is used when: (1) the potential impact of the project is determined to be below known or measurable thresholds of significance and would not require mitigation; or (2) there are no changes in the project or circumstances and no new information that would require the preparation of a new EIR and/or EIR pursuant to Public Resources Code Section 21166 and Section 15162 of the State CEQA Guidelines.

F. No Impact.

This response is used when the proposed project does not have any measurable environmental impact.

The Form, and accompanying evaluation of the responses, provide the information and analysis upon which the City of South Pasadena makes its determination that no subsequent environmental document is required for the [insert name of project].

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
1. AESTHETICS. Would the project:						
a) Have a substantial adverse effect on a scenic vista?						X
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?						X
c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?						X
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?						X

The proposed adjustments to heights, density and standards were reviewed in relation to the previously approved project in terms of Aesthetics. However, these impacts were considered in the PEIR and nothing contained in the Amendments alters the type, level or severity of impact in terms of Aesthetics because they do not result in any conflicting zoning regulations governing scenic quality nor would the adjustments adversely affect day or nighttime views in the area as the adjustments are limited to changes in existing standards, and are not introducing any new standards. Further, under current regulations, projects utilizing the provisions of State Density Bonus Law very likely could have been entitled to heights that are similar to those that would be allowed by the proposed height regulations, and thus the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Therefore, the City finds:

A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred;

B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and

C. None of the proposed project changes would significantly affect this environmental resource.

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
3. AIR QUALITY. Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:						
a) Conflict with or obstruct implementation of the applicable air quality plan?						X
b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?						X
c) Expose sensitive receptors to substantial pollutant concentrations?						X
d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?						X
The proposed adjustments to height, density, and other standards have no impact on air quality resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of air quality because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts to any criteria pollutant, or other emissions relating to air quality. Thus the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
4. BIOLOGICAL RESOURCES. Would the project:						
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
b) Have substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?						X
c) Have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?						X
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?						X
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?						X
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?						X

The proposed adjustments to height, density, and other standards have no impact on biological resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of biological resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts to any protected wetlands, wildlife corridors, or any adopted ordinances, plans, or other local adopted plans related to biological resources. Therefore, the City finds:

A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred;

B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and

C. None of the proposed project changes would significantly affect this environmental resource.

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
5. CULTURAL RESOURCES. Would the project:						
a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?						X
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5 ?						X
c) Disturb any human remains, including those interred outside of formal cemeteries?						X

The proposed adjustments to height, density, and other standards have no impact on cultural resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of cultural resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts to any historical or cultural resources relating to human remains. Thus the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Therefore, the City finds:

A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred;

B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and

C. None of the proposed project changes would significantly affect this environmental resource.

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
6. ENERGY. Would the project:						
a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation?						**X**
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?						
The proposed adjustments to height, density, and other standards have no impact on energy. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of energy resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of energy resources or any state or local plan for renewable energy or energy efficiency. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
7. GEOLOGY AND SOILS. Would the project:						
a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:						X
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.						X
ii) Strong seismic ground shaking?						X
iii) Seismic-related ground failure, including liquefaction?						X
iv) Landslides?						X
b) Result in substantial soil erosion or the loss of topsoil?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?						X
d) Be located on expansive soil, as defined in Table 18-1B of the Uniform Building Code (1994), creating substantial risks to life or property?						X
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?						X
f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?						X
The proposed adjustments to height, density, and other standards have no impact on geological and soils resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of geological and soils resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts to impacts of the geological or soils resources listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
8. GREENHOUSE GAS EMISSIONS. Would the project:						
a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?						X
b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on greenhouse gas emissions. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of greenhouse gases because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of the generation of GHG emissions. Thus the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
9. HAZARDS AND HAZARDOUS MATERIALS. Would the project:						
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?						X
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?						X
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one quarter mile of an existing or proposed school?						X
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?						X
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?						X
g) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?						X
The proposed adjustments to height, density, and other standards have no impact on hazards and hazardous materials. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of hazards/hazardous materials because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of the hazards/hazardous materials listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would affect this environmental resource.						
10. HYDROLOGY AND WATER QUALITY. Would the project:						
a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?						X
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?						X
c) Substantially alter the existing drainage pattern of the site or area including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would:						X
i) result in substantial erosion or siltation on- or off-site;						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
ii) substantially increase the rate or amount of surface runoff in a manner which would result in flooding on-or off-site;						X
iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or						X
iv) impede or redirect flood flows?						X
d) In flood hazard, tsunami, or seiche zones risk release of pollutants due to project inundation?						X
e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?						X
The proposed adjustments to height, density, and other standards have no impact on hydrology and water quality. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of hydrology and water quality because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts to impacts of the hydrology and water quality listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
11. LAND USE AND PLANNING. Would the project:						
a) Physically divide an established community?						X
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on land use and planning. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of land use and planning because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to physically dividing and established community nor conflict with any land use plan, policy, or regulation as listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; C. None of the proposed project changes would significantly affect this environmental resource.						
13. NOISE. Would the project result in:						
a) Generation of substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?						X
b) Generation of excessive groundborne vibration or groundborne noise levels?						X
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on noise. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of noise because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of noise levels listed above. Thus, the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
14. POPULATION AND HOUSING. Would the project:						
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?						X
b) Displace substantial numbers of existing people or housing, necessitating the construction of the replacement housing elsewhere?						X
The proposed adjustments to height, density, and other standards have no impact on population and housing. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of population and housing because the proposal is limited to adjusting existing development standards and residential density which will further align with the density allowances as stipulated in the City's adopted Housing Element (2021-2029). Thus the impacts were fully disclosed in the PEIR and addressed by the statement of overriding considerations adopted for that project. Further, with the housing element update, excess capacity beyond what is required to meet RHNA requirements has been scaled back. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
15. PUBLIC SERVICES						
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:						
i) Fire protection?						X
ii) Police protection?						X
iii) Schools?						X
iv) Parks?						X
v) Other public facilities?						X
The proposed adjustments to height, density, and other standards have no impact on public services. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of public services because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any public services as listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
16. RECREATION.						
a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?						X
The proposed adjustments to height, density, and other standards have no impact on recreation. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of recreation because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any aspect of recreation as listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would significantly affect this environmental resource.						
17. TRANSPORTATION/TRAFFIC. Would the project:						
a) Conflict with a program, plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?						**X**
b) Conflict or be inconsistent with CEQA Guidelines § 15064.3 subdivision (b)?						**X**
c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?						**X**
d) Result in inadequate emergency access?						**X**

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on transportation or traffic. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of traffic/transportation because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any transportation/traffic issues as listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred. B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified. C. None of the proposed project changes would affect this environmental resource.						
18. TRIBAL CULTURAL RESOURCES. Would the project:						
a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code § 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:						X
i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k), or						X
ii) A Resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code § 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code § 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on tribal cultural resources. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of tribal cultural resources because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any tribal cultural resources as listed above. Although not required pursuant to CEQA, the City invited tribal consultation pursuant to SB 19. The Gabrieleño Band of Mission Indians - Kizh Nation requested consultation. The Tribe and the City engaged in consultation, and the Tribe requested mitigation related to tribal monitoring for any ground disturbing activities associated with the Project. However, this Project involved policy and planning decisions with no ground disturbance contemplated, thus there is no ground monitoring to be monitored, and there would not be any unanticipated discovery of tribal cultural resources or human remains. In the future, specific development projects would be reviewed for CEQA applicability and compliance, and based on the environmental review process undertaken, tribal monitoring of related ground disturbances, and protocols for unanticipated discovery of tribal cultural resources or human remains may be required or added as a mitigation. Further, all projects are subject to existing laws related to discovery and treatment of human remains. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred. B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified. C. None of the proposed project changes would affect this environmental resource.						
19. UTILITIES AND SERVICE SYSTEMS. Would the project:						
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?						X
b) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?						X
c) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
d) Generate solid waste in excess of state or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?						X
e) Comply with federal, state, and local management and reduction statues and regulations related to solid waste?						X
The proposed adjustments to height, density, and other standards have no impact on utilities and services systems. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of tribal utilities and services systems because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any utilities and services systems as listed above. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would affect this environmental resource.						
20. WILDFIRES. If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:						
a) Substantially impair an adopted emergency response plan or emergency evacuation plan? b) Due to slope, prevailing winds and other factors, exacerbate wildfire risks, and thereby expose project occupants to pollutant concentrations from a wildfire or the uncontrolled spread of wildfires? c) Require to installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment? d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact
The proposed adjustments to height, density, and other standards have no impact on wildfires. However, these impacts were considered in the PEIR and nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of wildfires because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to wildfires as none of the properties affected by this are located in high-fire areas. Therefore, the City finds: A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred; B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and C. None of the proposed project changes would affect this environmental resource.						
21. MANDATORY FINDINGS OF SIGNIFICANCE.						
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?						X
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?						X
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?						X

Issues and Supporting Information Sources	Substantial Change in Project Requiring Major EIR Revisions	Substantial Change in Circumstances Requiring Major EIR Revisions	New Information Showing New or Greater Significant Effects than Previous EIR	New Information Showing Ability to Reduce, but not Eliminate Significant Effects in Previous EIR	Less than Significant Impact/No Changes or New Information Requiring Preparation of an EIR	No Impact

The proposed adjustments to height, density, and other standards have no impact to the items listed in the Mandatory Findings of Significance. However, these impacts were considered in the PEIR where a Statement of Overriding Considerations was prepared and adopted. Nothing contained in the proposed Amendments alters the type, level or severity of impact in terms of cumulatively considerable means because the proposal is limited to adjusting existing development standards and residential density which, in of itself, do not directly relate to adverse impacts of any items as listed above. Therefore, the City finds:

A. Substantial changes in the project and project circumstances resulting in new significant effects or a substantial increase in the severity of previously identified significant effects have not occurred;

B. New information of substantial importance with respect to this environmental resource/impact resulting in new significant effects or a substantial increase in the severity of previously identified effects has not been identified; and

C. None of the proposed project changes would significantly affect this environmental resource.

Covina, CA 91723

Re: Native American Consultation, Pursuant to Senate Bill 18, Government Code §65352.3 and §65352.4, Measure SP Implementation Project, Los Angeles County

Dear Mr. Salas:

The City of South Pasadena (City) is amending its General Plan, Downtown Specific Plan (DTSP), Zoning Code, and Zoning Map as part of the effort to implement the City's Housing Element. This project is subject to Senate Bill (SB) 18. As such, the Native American Heritage Commission (NAHC) provided your contact information for consultation purposes under SB 18.

Regional Setting/Project Location/Background

The City of South Pasadena is located in Los Angeles County, on the western edge of the San Gabriel Valley, approximately five miles northeast of downtown Los Angeles. Exhibit 1 (attached) provides a map of the City's location in the regional context of Southern California. The project includes all territory within the South Pasadena City limits. The City adopted its current Housing Element on May 30, 2023, and the document was certified by the State on July 29, 2024. In order to implement the Housing Element's programs and policies, the City adopted a new General Plan and Downtown Specific Plan (DTSP) in October 2023. Zoning Code amendments were also adopted in support of the Housing Element and General Plan.

Project Description

The proposed project would continue to implement Housing Element Programs. In November 2024, South Pasadena voters approved Measure SP. This measure removed the existing 45-foot building height limit in certain areas of the City and allowed new height limits to be established in areas where the City seeks to increase housing production near transit and shopping. The City also seeks to correct errors in the Housing Element and General Plan capacity table that exceed the City's housing obligations under the Regional Housing Needs Allocation (RHNA). The project would reduce residential densities and building heights in certain areas identified in the Housing Element, in an effort to be more consistent with the City's RHNA obligation. The proposed project is summarized below:

- General Plan Land Use Element: Synchronize proposed building heights for consistency with the Zoning Code and DTSP amendments.

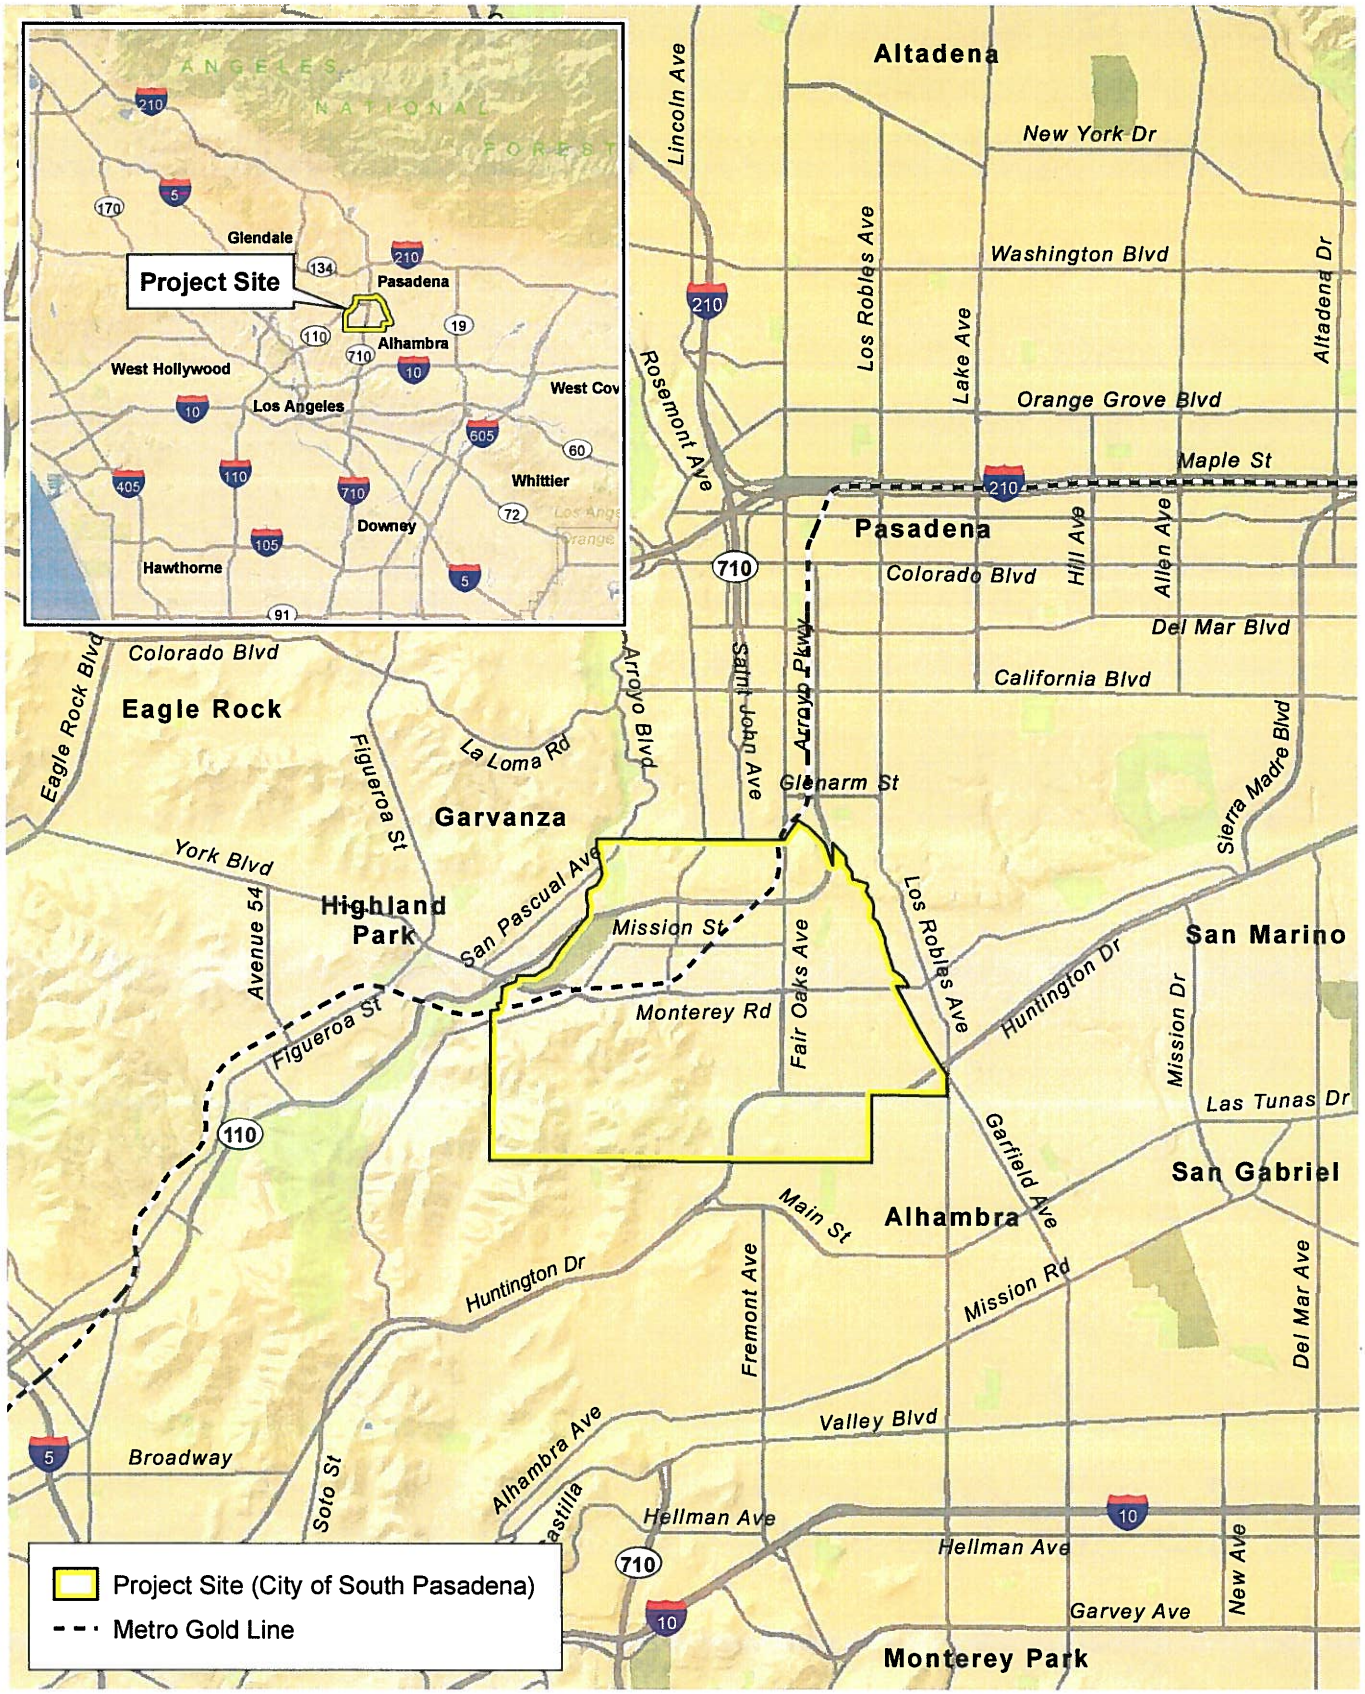
- Housing Element: Correct Table IV-51 regarding RHNA compliance, and minor updates to other sections, including public outreach, related to the proposed amendment.
- Downtown Specific Plan: Specify building heights and adjust densities along Fair Oaks Avenue, the western portion of Mission Street and National Register Historic District area; remove courtyard minimum dimensions and additional restrictions for buildings exceeding 45 feet in height; and remove remaining references to the 1983 Ballot Initiative that restricted building height to 45 feet.
- Zoning Ordinance: Adjust standards in Mixed-Use Overlay District Development Standards including heights; clarify rooftop features that may exceed height limits; revise stepbacks required as part of the streamlined density bonus review process in the inclusionary housing section.
- Zoning Map Amendment: Reduce the area covered by the Housing Opportunity Overlay Zone

The General Plan Amendment and Specific Plan Amendment would reduce building heights and residential densities for certain areas listed in the Housing Element. Residential and Commercial land use designations would not change, although certain heights and densities would be reduced.

SB18 Consultation Request

This letter serves as formal notification of the project and to invite consultation with your tribe under SB18. An addendum to the previously certified Program Environmental Impact Report is being prepared for the project. Since a Negative Declaration or Mitigated Declaration will not be prepared, the project is not subject to Assembly Bill 52 consultation under CEQA. Under the law, tribes identified by the NAHC are provided 90 days from receiving notification to request consultation with the City. A shorter timeframe can also be agreed to by the tribe.

Your participation in the local planning process is important. If you wish to consult with the City on this project, please contact Dean Flores, Acting Planning Manager at your earliest convenience. Mr. Flores may be reached by email at dflores@southpasadenaca.gov. Correspondence may also be sent to the following:



Mr. Robert (Dean) Flores; Acting Planning Manager
City of South Pasadena
1414 Mission Street
South Pasadena, CA 91030

If you have any questions or would like to discuss this Project further, you can reach me by telephone at 626.403.7228.

Sincerely,

Robert (Dean) Flores, Acting Planning Manager
City of South Pasadena

City Council Agenda Report

ITEM NO. 17

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Anteneh Tesfaye, Acting Public Works Co-Director
Arpy Kasparian, Environmental Services & Sustainability Manager

SUBJECT: **PUBLIC HEARING ON THE PROPOSED SOLID WASTE RATES AND ADOPTION OF A RESOLUTION ESTABLISHING A NEW SOLID WASTE RATE ADJUSTMENT FORMULA AND APPROVING THE SOLID WASTE RATES FOR THE COLLECTION, TRANSFER, TRANSPORTATION, RECYCLING, PROCESSING, AND DISPOSAL OF SOLID WASTE, INCLUDING ORGANIC WASTE, COMMENCING AUGUST 1, 2025, AND MAKING A DETERMINATION OF EXEMPTION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT**

Recommendation

It is recommended that the City Council conduct a public hearing on the proposed solid waste rate adjustment changes and determine whether there is a majority protest against the proposed changes and if no majority protest exists, adopt a resolution establishing the new solid waste rate adjustment formula and maximum service rates effective August 1, 2025. If a majority protest exists, the City Council should discuss and direct staff on how to proceed with the next steps.

Executive Summary

The Public Hearing is for the purpose of hearing testimony and considering adoption of previously proposed solid waste rates to be billed by the City's exclusive franchise waste hauler, Arakelian Enterprises, Inc. (dba Athens Services) ("Athens Services").

Background

Senate Bill (SB) 1383 requires the City to comply with new state law which requires jurisdictions to implement organics collection services for all waste customers, among other requirements. While the City approved an agreement in December 2024, an additional amendment was required to address the high diversion requirements of SB 1383. On May 21, 2025, staff proposed and Council approved an amended and restated agreement (Amended Agreement) which addresses high diversion requirements by transitioning the City's waste collection services from a two-stream collection system to a three-stream collection system.

The Amended Agreement adds a third waste stream to all waste customers with no immediate changes to rates. In addition, the Amended Agreement:

- waives the annual rate adjustments for all rates for the scheduled July 1, 2025 and July 1, 2026 rate adjustments (i.e. freeze all rates until the scheduled increase on July 1,

2027);
- modifies the annual rate adjustment formula from using the regional Consumer Price Index (CPI) to using the national 'Trash' CPI + 1%;
- increases the contract length from a seven-year (7) rolling term to a ten-year (10) rolling term;
- the City agrees to not issue a Notice of Intent to Wind Down for five years starting with the amendment effective date; and
- updates the bulky item pick-up service to a curbside program for all residential customers.

Additional information, including details on the new curbside bulky item pick-up service, can be found in the May 21, 2025 City Council Staff Report (Attachment 3).

Analysis

Proposition 218 Public Hearing

The implementation of the Amended Agreement is contingent upon the culmination of proceedings relating to Proposition 218 (holding a noticed public hearing and no majority protest) and the City Council's approval of the rates set forth in the Amended Agreement.

Proposition 218, which was passed by the voters in November 1996, added Articles XIII C and XIII D to the California Constitution. Article XIII D governs fees imposed by local governments for property-related services (property-related fees) and imposes procedural requirements for increasing property-related fees. Prior to increasing a property-related fee, Article XIII D requires a local government to mail notice of a required public hearing on the proposed rate increase to the record owners of all properties receiving the service for which the fee is charged not less than 45 days prior to the date of the public hearing. Although the Amended Agreement does not propose any changes to the current property-related fees, the proposed change to the annual rate adjustment formula (using Trash CPI +1% instead of CPI) triggers these procedural requirements.

At the public hearing, the local government must consider all oral and written protests against the proposed rate increases (in this case, the proposed changes to the annual rate adjustment formula). Pursuant to Article XIII D and the Proposition 218 Implementation Act, the record owners of the parcels subject to the property-related fee, and any tenants who are directly responsible for paying the fee, may file written protests against the proposed rate increases. However, only one written protest per parcel, filed by an owner or tenant of the parcel, will be counted in calculating a majority protest. At the conclusion of the public hearing, if there are written protests submitted (and not withdrawn) against the proposed rate changes that represent a majority of the parcels that receive the service for which the fee is charged, a majority protest will exist, and the local government may not approve the rate change.

The City currently provides solid waste services to approximately 5,517 parcels, which means it must receive written protests representing 2,759 or more of the parcels to prevent the City from approving the proposed rate changes. If no majority protest exists, then the City Council is requested to adopt a resolution (Attachment 1) establishing the new solid waste rate adjustment formula effective on August 1, 2025, which will be subject to annual rate adjustments beginning July 1, 2027 through July 1, 2029, in accordance with the Amended Agreement, without holding another public hearing under Proposition 218. If a majority protest exists, then the City Council is requested to discuss and direct staff on how to proceed with the next steps.

On May 21, 2025, the City Council adopted a Resolution directing staff to provide notice of a public hearing to consider the new solid waste rates. Accordingly, "A Notice of Public Hearing on Proposed Adjustments to the Maximum Service Rates for Solid Waste Services" (Attachment 2), which includes information regarding the proposed changes to the solid waste services and annual rate adjustment formula, requirements of Senate Bill 1383, the scheduled public hearing, and instructions on how to protest the proposed rate changes was developed.

Accordingly, on May 30, 2025, which was at least 45 days prior to the scheduled public hearing, the notices were mailed to the record owners of parcels receiving solid waste collection services and ratepayers who are not property owners but are directly responsible for paying the solid waste collection service charges. The most current assessor's parcel roll from the Los Angeles County Assessor's office was utilized for a direct mailing of the notice to each parcel record owner. Additionally, to the extent a tenant, rather than a property owner is the solid waste customer, a notice was mailed to the tenant utilizing the service address obtained through Athens Services.

The written protests are being collected by the City Clerk's Office and will be presented to the City Council at the public hearing. Written protests may also be submitted at the public hearing. If there is no majority protest at the conclusion of the public hearing, the new annual rate adjustment formula can be implemented with City Council approval.

Transition to Three-Stream Collection System

Upon a successful Prop 218 hearing, Athens services will begin procurement of new containers and vehicles. The new curbside bulky item service will become effective on Monday, July 21. City Staff and Athens Services will conduct extensive outreach to all waste customers regarding the new waste streams, new bulky item services, and deployment of new containers including, but not limited to:

- **Waste Assessments for Commercial and Multifamily Properties:** Athens Services will deploy Recycling Coordinators to conduct in-person, door-to-door waste assessments for commercial and multifamily accounts. During these assessments, on-site managers will receive flyers with information on the new three-stream collection system, deployment of recycling carts, and subscription to organics services. Recycling Coordinators will assess their current waste practices and recommend a service level to fit their individual needs. Athens will also offer training for employees at commercial properties and assist in applying for an organics waiver if eligible. Multifamily properties will receive information on the new bulky item services and a guide with email/signage templates for tenants describing the changes in waste collection. In-person assessments will be followed up with phone and email correspondence.

- **Letters to Residential and Commercial Customers:** Letters will be mailed to all waste customers in late July explaining the transition to a three-stream system, what to expect with new containers, and information on the new curbside bulky item program. The letters will include a list of frequently asked questions and a sorting cheat sheet.

- **Postcards to Manual Barrel Service Customers:** From mid-August to late-September, customers in single-family homes with manual barrel service will receive a postcard in the mail with information on the arrival of their new barrels and disposal of their old barrels. Customers will have the opportunity during this time to select their custom

combination of barrels (minimum one barrel of each color, up to seven total barrels). These postcards will also be available at City Hall and other City facilities and events.

- **Billing Inserts:** Customers will receive reminders with their Athens bills before deployment of their new containers. Instructions on how to dispose their current containers (if customers choose to do so) will also be provided.

- **Additional Outreach:** In addition to the in-person and mailed outreach described above, City staff and Athens will provide information through all social media avenues and will create webpages that house frequently asked questions and copies of all outreach materials. Lastly, City and Athens representatives will demonstrate new sorting practices at City and community events including, commission meetings, Chamber of Commerce presentations, the City's Summer Concert Series, etc.

- **Deployment of New Containers:** Deployment of commercial and multifamily recycling and organics containers will tentatively begin in September 2025. New manual service barrels for single-family homes will tentatively begin in November 2025.

Fiscal Impact
There is no General Fund impact associated with this item. If approved by the City Council, residential and commercial refuse rates, which are paid by customers directly to Athens, will remain at the January 1, 2025 rate schedule until the July 1, 2027 annual rate adjustment.

Key Performance Indicators and Strategic Plan
This item is in line with Task 4a of the City's Strategic Plan: Implement Climate Action Plan for environmental initiatives. It also aligns with the City's Green Action Plan, Goal III, to divert organics from landfill and to implement the requirements of Senate Bill 1383.

Commission Review and Recommendation
This item was not reviewed by a commission; however, the proposed terms were discussed at-length by the City Athens Negotiations Working Group consisting of City staff and two Councilmembers.

Public Notification
As described above, a public notification in line with holding a public hearing was conducted in relation to this item.

Environmental Analysis
City staff has evaluated the approval of the Amended Agreement and the proposed rate adjustments for purposes of compliance with the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) (CEQA) and the California CEQA Guidelines and has determined that approval of the Amended Agreement and proposed rate adjustments are intended to implement State mandated requirements of the California Senate Bill (SB) 1383, Short-lived Climate Pollutant Reduction Act of 2016. Pursuant to CEQA Guidelines Section 15308, Class 8, "Actions by Regulatory Agencies for Protection of the Environment," these actions are exempt from further review under CEQA. The development and implementation of the amended services is a requirement of the California Department of Resources Recycling and Recovery (CalRecycle) and is exempt from CEQA because it is an action pursuant to a regulatory requirement to assure the protection of the environment and involves procedures for protection of the environment. Furthermore, the amended services apply to the City's

existing volume of generated solid waste, where there is no expansion of use, and is therefore exempt from the CEQA analysis based on State CEQA Guidelines requirements under Section 21084 of the Public Resources Code, in accordance with Article 19, Section 15301, Class (1) "existing facilities."

Attachment 1_Prop 218 Resolution.pdf
Attachment 2_Prop 218 Public Hearing Notice.pdf
Attachment 3_May 21, 2025 City Council Staff Report.pdf

RESOLUTION NO.____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, FINDING THAT NO MAJORITY PROTEST EXISTS IN ACCORDANCE WITH ARTICLE XIII D OF THE CALIFORNIA CONSTITUTION, APPROVING RATE ADJUSTMENTS TO THE CITY'S CHARGES FOR THE COLLECTION, TRANSFER, TRANSPORTATION, RECYCLING, PROCESSING, AND DISPOSAL OF SOLID WASTE, INCLUDING ORGANIC WASTE, COMMENCING AUGUST 1, 2025, AND MAKING A DETERMINATION OF EXEMPTION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

RECITALS:

WHEREAS, pursuant to California Public Resources Code Section 40059(a)(1) and Sections 16.5 and 16.6 of the South Pasadena Municipal Code, on May 21, 2025, the City Council approved an amended solid waste Exclusive Franchise Agreement (Amended Agreement) with Arakelian Enterprises, Inc. (dba Athens Services) ("Athens"), a copy of which is on file in the office of the City Clerk, to add services in order to bring the City into compliance with applicable law, including Senate Bill 1383 (SB 1383), the Short-lived Climate Pollutant Reduction Act, and the SB 1383 Regulations, which require jurisdictions to provide organic waste collection services for solid waste handling services; and

WHEREAS, implementation of an SB 1383 program will result in additional costs being incurred by Athens, and in order to compensate Athens for its additional costs, Athens has requested the City Council to adjust the annual rate adjustment formula for the maximum rates of the fee for the collection, transfer, transportation, recycling, processing, composting and disposal of solid waste, including organic waste and nonorganic waste ("Solid Waste Services) for all premises in the City (single-family premises, multi-family premises, and commercial premises) in accordance with the Maximum Service Rates set forth in Exhibit 1 of the approved Amended Agreement and Exhibit A, attached hereto and incorporated herein by reference, and to approve annual adjustments to the Maximum Service Rates for inflation in accordance with the Amended Agreement (the "Proposed Rate Adjustments"); and

WHEREAS, City staff previously recommended that the City Council consider the Proposed Rate Adjustments following a public hearing held and noticed in accordance with the requirements of Section 6 of Article XIII D of the California Constitution ("Article XIII D") (also known as Proposition 218) and the Proposition 218 Omnibus Implementation Act (Government Code Section 53750, et seq.) ("Implementation Act"); and

WHEREAS, the City identified the parcels upon which the fee for Solid Waste Services is imposed the "Identified Parcels") and calculated the proposed Maximum Service Rates for the Identified Parcels; and

WHEREAS, in accordance with Article XIII D and the Implementation Act, the City provided written notice (the "Notice") by mail of the time and place of a public hearing on the Proposed Rate Adjustments to the record owner of each Identified Parcel and any tenant directly responsible for the payment of the fee for Solid Waste Services, which Notice included the Proposed Rate Adjustments, the basis upon which the proposed rates were calculated, the reason for the Proposed Rate Adjustments, and the date, time, and location of a public hearing on the Proposed Rate Adjustments; and

WHEREAS, pursuant to Article XIII D, the Notice was mailed not less than 45 days prior to the public hearing on the Proposed Rate Adjustments; and

WHEREAS, on July 16, 2025, the City Council held a public hearing on the Proposed Rate Adjustments in accordance with Article XIII D; and

WHEREAS, any owner of an Identified Parcel and any tenant that is directly responsible for the payment of the fee for Solid Waste Services could submit a written protest against the Proposed Rate Adjustments. However, only one written protest per parcel, filed by an owner or a tenant of the parcel, shall be counted in calculating a majority protest; and

WHEREAS, at the public hearing, the City Council considered all oral testimony, written materials, and written protests concerning the Proposed Rate Adjustments, and at the close of the public hearing, the City Council determined that there were not written protests against the Proposed Rate Adjustments submitted (and not withdrawn) representing a majority of the Identified Parcels, and therefore there was not a majority protest filed against the Proposed Rate Adjustments; and

WHEREAS, the City Council now desires to approve the Proposed Rate Adjustments; and

WHEREAS, City staff has evaluated the entering into of the Agreement and approval of the Proposed Rate Adjustments for purposes of compliance with the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) (CEQA) and the California CEQA Guidelines and has determined that approval of the Agreement and Proposed Rate Adjustments are intended to implement State mandated requirements of the California Senate Bill (SB) 1383, Short-lived Climate Pollutant Reduction Act of 2016. Pursuant to CEQA Guidelines Section 15308, Class 8, “Actions by Regulatory Agencies for Protection of the Environment,” these actions are exempt from further review under CEQA. The development and implementation of the amended services is a requirement of the California Department of Resources Recycling and Recovery (CalRecycle) and is exempt from CEQA because it is an action pursuant to a regulatory requirement to assure the protection of the environment and involves procedures for protection of the environment. Furthermore, the amended services apply to the City’s existing volume of generated solid waste, where there is no expansion of use, and is therefore exempt from the CEQA analysis based on State CEQA Guidelines requirements under Section 21084 of the Public Resources Code, in accordance with Article 19, Section 15301, Class (1) "existing facilities."

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA AS FOLLOWS:

Section 1. The above recitals are true and correct and incorporated herein as if set forth in full.

Section 2. The Maximum Service Rates described in Exhibit A are hereby approved and shall become effective August 1, 2025.

Section 3. In addition, on July 1, 2027, July 1, 2028, and July 1, 2029, without holding additional public hearings under Proposition 218, each cost component of the Maximum Service Rates (the Operations Component and Disposal Component) is subject to annual automatic inflation adjustments as described herein. The Operations Component may be adjusted by an amount not to exceed the percentage change in the Consumer Price Index for Trash & Garbage Collection, U.S. City Average (Trash CPI) for the immediately previous 12-month period (March through February) plus one percent (+1%). For purposes of the adjustment, the Trash CPI is the Consumer Price Index for Trash and Garbage Collection (Series ID: CUUR0000SEHGO2) U.S. City Average (not seasonally adjusted) as maintained and published by the United States Bureau of Labor Statistics, or its successor index. Also, the Disposal Component may be adjusted in proportion to the increase or decrease in costs as determined by the percentage change in gate rates or tipping fees (including but not limited to all taxes and surcharges) at the appropriate facility(ies) not to exceed the percentage change in the Trash CPI +1%, as described above. Therefore, on each July 1st from 2027 through 2029, each rate may be adjusted by an amount not to exceed the percentage change in the Trash CPI +1% as described above. The City shall provide, or cause to be provided, written notice each year to the record property owners of parcels receiving Solid Waste Services and tenants who are directly responsible for paying the fee for Solid Waste Services at least thirty (30) days in advance of each annual inflationary increase taking effect.

Section 4. The City Council concurs with staff's CEQA determination set forth in the recitals.

Section 5. The City Clerk's Office of the City of South Pasadena shall certify the passage and adoption of this resolution and its approval by the City Council and shall cause the same to be listed in the records of the City.

Section 6. This Resolution shall take effect immediately upon its adoption.

PASSED, APPROVED AND ADOPTED by the City Council of the City of South Pasadena on this 16th day of July 2025.

Janet Braun,
Mayor

ATTEST:

Mark Perez,
Deputy City Clerk

APPROVED AS TO FORM:

Roxanne Diaz,
City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena, California, at a regular meeting held on the 16th day of July, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAINED:

Mark Perez,
Deputy City Clerk

EXHIBIT A
MAXIMUM SERVICE RATES

*Rates may escalate on July 1, 2027, July 1, 2028, and July 1, 2029

WWW.SOUTHPASADENACA.GOV

NOTICE OF PUBLIC HEARING IN CONNECTION WITH PROPOSED ADJUSTMENTS TO THE MAXIMUM SERVICE RATES FOR SOLID WASTE SERVICES

Dear City of South Pasadena Customer/Owner of Record:

This notice is to inform you of a public hearing on proposed rate adjustments due to the implementation of a third waste stream/source-separated recycling collection services in the City of South Pasadena.

PUBLIC HEARING

NOTICE IS HEREBY GIVEN that on **Wednesday, July 16, 2025, at 7:00 p.m.**, or as soon thereafter as the matter may be heard, the City Council of the City of South Pasadena will hold a public hearing in the Council Chambers of City Hall, 1424 Mission Street, South Pasadena, CA 91030, to consider approving proposed adjustments to the Maximum Service Rates ("Rates") for the collection, transfer, transportation, recycling, processing, and disposal of solid waste ("Solid Waste Services").

The public hearing will be conducted in accordance with California Constitution Article XIII D, Section 6 (also known as Proposition 218). This notice is being sent to record owners of properties in the City that are subject to the Rates and to tenants that are directly responsible for paying for Solid Waste Services. As a result, you may receive duplicates of this notice.

Please check the agenda for the July 16, 2025 City Council meeting once it is posted on the City's website for additional information about how you can participate in the public hearing. Currently, members of the public have the option to participate in City Council meetings in person or virtually via Zoom or written public comment.

THE PROPOSED ADUSTMENTS TO THE MAXIMUM SERVICE RATES -- CHANGES TO THE ANNUAL RATE ADJUSTMENT FORMULA

The City currently contracts with a private solid waste hauler, Arakelian Enterprises, Inc. (dba Athens Services) ("Athens"), to provide Solid Waste Services. On May 21, 2025, the City Council approved a first amended and restated agreement ("Amended Agreement") with Athens to add a third waste stream/source-separated recycling services to the current Solid Waste Services. The Amended Agreement will help ensure that the City complies with State law, including Senate Bill (SB)1383, the Short-Lived Climate Pollutant Reduction Act, and the SB 1383 Regulations, which require the City to provide organic waste collection services and meet organic waste processing requirements.

In connection with the City's current agreement with Athens, on October 2, 2024, following a public hearing, the City Council approved initial Rate increases effective on January 1, 2025, and a formula for adjusting the Rates on July 1, 2025, July 1, 2026, July 1, 2027 and July 1, 2028 without the need to hold additional public hearings. **The Amended Agreement will add a third waste stream/source-separated recycling collection services for all Solid Waste customers without an immediate increase to Rates.** Instead, the City is proposing a change in the current annual rate adjustment formula to cover the cost of providing the added recycling collection services. If the proposed Rate

adjustments are approved by City Council, Rates will not be adjusted on July 1, 2025 and July 1, 2026. In addition, the Rates may be adjusted on July 1, 2027, July 1, 2028, and July 1, 2029 using the new annual rate adjustment formula without holding additional public hearings. The Amended Agreement will not become effective unless the City Council approves the proposed Rate adjustments.

The current Rates and proposed Rates for additional optional recycling collection services are shown on the attached chart. Each Rate applies to a specific type and frequency of service, and is calculated by adding together the Operations Component, Disposal Component (if applicable), and the Franchise Fee Component. The Operations Component includes Athens' costs of collecting and transporting Solid Waste, the Disposal Component includes Athens' per ton costs of processing and disposing of Solid Waste, and the Franchise Fee Component is calculated as ten percent (10%) of the Rate.

If the new annual rate adjustment formula is approved by the City Council, on July 1, 2027, July 1, 2028, and July 1, 2029, without holding additional public hearings, the Operations Component may be adjusted by an amount not to exceed the percentage change in the Consumer Price Index for Trash and Garbage Collection (Trash CPI) for the immediately previous 12-month period (March through February) plus one percent (1%). For purposes of the adjustment, the Trash CPI is the Consumer Price Index for Trash and Garbage Collection Series ID: CUUR0000SEHGO2, Not Seasonally Adjusted, U.S. City Average as maintained and published by the United States Bureau of Labor Statistics, or its successor index. Also, the Disposal Component may be adjusted in proportion to the increase or decrease in costs as determined by the percentage change in gate rates or tipping fees (including but not limited to all taxes and surcharges) at the appropriate facility(ies) not to exceed the percentage change in the Trash CPI plus one percent (+1%), as described above. Therefore, on each July 1st from 2027 through 2029, each Rate may be adjusted by an amount not to exceed the percentage change in the Trash CPI plus one percent (+1%), as described above.

PROPOSED CHANGES TO SOLID WASTE SERVICES

Single-Family Customers (1-4 units) with Manual Barrel Collection Service will see no immediate changes to their current solid waste rates. In addition, the July 1, 2025 and July 1, 2026 annual rate adjustments will be waived and there will be no increases to Rates until the annual rate adjustment on July 1, 2027, which will use the new annual rate adjustment formula as described above. If the Amended Agreement becomes effective, Athens will provide these customers with a minimum of one thirty-two (32) gallon black barrel (for solid waste), one thirty-two (32) gallon blue barrel (for recyclables), one thirty-two (32) gallon green barrel (for organics), and up to four additional barrels, any combination of black, blue, or green, for a maximum of seven (7) barrels total. Additional Rates for barrels after seven are shown in the attached chart. The timeline of new barrel deployment is dependent upon approval of the proposed Rate adjustments. More information regarding new barrel deployment, old barrel collection, and new three-stream collection services will be provided to all customers prior to any changes.

Single-Family, Multi-Family, and Commercial Customers with Automated Bin (Dumpster) Service will see no immediate changes to their current solid waste rates. In addition, the July 1, 2025 and July 1, 2026 annual rate adjustments will be waived and there will be no increases to Rates until the annual rate adjustment on July 1, 2027, which will use the new annual rate adjustment formula as described above. If the Amended Agreement becomes effective, Athens will provide these customers with one ninety-six (96) gallon blue cart for recyclable materials, serviced one time per week, in addition to their current solid waste services. If these customers choose to increase the service level for recycling collection services by volume or frequency, additional Rates will apply as shown in the attached chart. These customers will also still be required to subscribe to organics collection services as required under the City's current agreement with Athens and the South Pasadena Municipal Code (Ch. 16, Art. 5). The timeline of new blue cart deployment is dependent upon approval of the proposed Rate adjustments. More information regarding new blue cart deployment and new three-stream collection services will be provided to all customers prior to any changes.

To view the complete current rate schedules, visit www.SouthPasadenaCA.gov.

If the proposed Rate adjustments are not approved, and the Amended Agreement does not become effective, Solid Waste Services will continue to be provided in accordance with the City's existing agreement with Athens. In addition, the Rates may be adjusted on July 1, 2025, July 1, 2026, July 1, 2027, and July 1, 2028 in accordance with the formula for adjusting Rates that the City Council approved on October 2, 2024.

PUBLIC HEARING AND PROTEST PROCESS

At the public hearing, the City Council will hear and consider all objections or protests to the proposed Rate adjustments. Any record owner of property subject to the Rates and any tenant that is directly liable for paying for Solid Waste Services (each, a "customer") may submit a written protest against the proposed Rate adjustments. If a parcel has more than one customer, only one written protest against the proposed Rate adjustments will be counted in determining the existence of a majority protest against the proposed Rate adjustments. A majority protest against the proposed Rate adjustments will exist if at the end of the public hearing, there are written protests submitted (and not withdrawn) by a majority of the customers subject to the proposed Rate adjustments. The City Council cannot adopt the proposed Rate adjustments if a majority protest exists.

How to Submit a Written Protest. To be counted in determining the existence of a majority protest against the proposed Rate adjustments, a protest must: (1) be in writing, (2) identify the parcel subject to the proposed Rate adjustments (by assessor's parcel number or service street address), (3) state opposition to the proposed Rate adjustments, and (4) include the name and original signature of the customer submitting the protest.

Written protests may be delivered in person to the City Clerk during the public hearing. Written protests may also be submitted prior to the public hearing by mail or personal delivery to the Office of the City Clerk at 1414 Mission Street, South Pasadena, CA 91030. Protests that are mailed or delivered to the Office of the City Clerk must be received (not postmarked) at City Hall prior to 12:00 p.m. on July 16, 2025 to be counted. Emailed and faxed protests will not be accepted.

If you have any questions regarding the proposed Rate adjustments or would like to view the current rate schedule, please contact the City of South Pasadena Public Works Department at (626) 403-7240 or visit www.SouthPasadenaCA.gov.

CITY OF SOUTH PASADENA
PROPOSED SCHEDULE OF RATES
Rates may escalate on July 1, 2027, July 1, 2028, and July 1, 2029

RECYCLABLE MATERIALS COLLECTION
Effective August 1, 2025

All customers receive Recyclable Materials Collection as part of their Solid Waste Collection Service. Single-family customers with automated bin service, multi-family customers, and commercial customers who wish to increase their Recycling Collection Services may add the services listed below for an additional fee.

FOR SINGLE-FAMILY, MULTI-FAMILY, AND COMMERCIAL CUSTOMERS WITH AUTOMATED BIN COLLECTION

Waste Type	*For additional Recyclable Materials Collection Only.*
Container Type	*Option of 96-gallon Cart, 1.5 yard, 2 yard, 3 yard, 4 yard, 6 yard Bin*
Frequency	*Option of 1x, 2x, 3x, 4x, 5x, or 6x Collections per week*

City Council Agenda Report

ITEM NO. 20

DATE: May 21, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: H. Ted Gerber, Public Works Director
Arpy Kasparian, Environmental Services & Sustainability Manager

SUBJECT: **CONSIDERATION OF ADOPTION OF A RESOLUTION APPROVING THE FIRST AMENDED AND RESTATED EXCLUSIVE SOLID WASTE HANDLING AGREEMENT WITH ARAKELIAN ENTERPRISES, INC. (DBA ATHENS SERVICES) AND AUTHORIZING STAFF TO INITIATE A PROPOSITION 218 PUBLIC HEARING; AND APRROVE A LETTER AGREEMENT WITH ATHENS SERVICES RELATED TO THE PAUSE ON THE ANNUAL RATE ADJUSTMENT**

Recommendation

It is recommended that the City Council:

1. Adopt a Resolution that: (a) approves the first amended and restated agreement with Athens Services for Exclusive Solid Waste Handling services (Amended Agreement) in the final form approved by the City Attorney and City Manager; and directs staff to proceed and schedule a Proposition 218 (Prop 218) public hearing to consider the proposed solid waste rate adjustment changes and provide notice of the public hearing; and
2. Approve a letter agreement with Athens Services regarding a pause on the July 1, 2025 annual rate adjustment until the conclusion of a Prop 218 public hearing and authorize the City Manager to sign and transmit the same.

Executive Summary

Senate Bill (SB) 1383 requires the City to comply with new state law which requires jurisdictions to implement organics collection services for all waste customers, among other requirements. While the City approved an agreement in December 2024, an additional amendment is required to address the high diversion requirements of SB 1383. City staff continued negotiations with Athens Services regarding this requirement, which can be implemented with the addition of collection services for a third waste stream (blue container). On April 28, 2025, staff presented the proposed terms of an amendment to the current agreement and received direction from Council to proceed with an amendment with the following terms:

1. Waive the annual rate adjustments for all rates for the scheduled July 1, 2025 and July 1, 2026 rate adjustments, i.e. freeze all rates until the scheduled increase on July 1, 2027.
2. Modify the annual rate adjustment formula from using the regional Consumer Price Index (CPI) to using the national 'Trash' CPI + 1%.

3. Increase the contract length from a seven-year (7) rolling term to a ten-year (10) rolling term.
4. The City will agree to not issue a Notice of Intent to Wind Down for five years starting with the amendment effective date.

City staff are proposing and recommending approval of an amended and restated agreement (Attachment 1). In addition to the addition of a third waste stream and the terms outlined above, the proposed Amended Agreement also includes modifications to Bulky Item collection services to improve accessibility of the service to customers.

The effectiveness of the Amended Agreement is contingent upon the City Council's approval of the proposed rate escalation adjustments in the absence of a majority protest following a Prop 218 public hearing, which must be held at least 45 days after a notice is mailed to the public. City staff recommend approval of a resolution setting the Prop 218 public hearing date on July 16, 2025, or such other date selected by the City Manager (Attachment 2).

Lastly, staff recommends approval of a letter memorializing the agreement between the City and Athens Services to pause the July 1, 2025 annual rate adjustment until the Proposition 218 public hearing is held (Attachment 3).

Background
City staff worked with the City's franchise waste hauler, Athens Services, from 2022 - 2024 to update the Exclusive Solid Waste Handling Agreement (Current Agreement) to accommodate the additional services required by SB 1383. The Current Agreement was approved by City Council on October 2, 2024. On December 18, 2024, the City conducted a Prop 218 public hearing and there was no majority protest. Accordingly, the Current Agreement went into effect on January 1, 2025 and included a two-container collection service – black containers for non-organic solid waste mixed with recyclables and green containers for organic waste. While rates are typically adjusted by Athens each July 1 (Annual Rate Adjustment), the Current Agreement required an additional adjustment to rates on January 1, 2025.

Per SB 1383 regulations, all jurisdictions with a two-container collection service must send its black container material (non-organic solid waste mixed with recyclables) to a high-diversion organic waste processing facility. A high-diversion organic waste processing facility must meet an organics recovery efficiency rate of 75% by 2025 (50% in 2022). If a facility fails to meet this standard, it may not be used as a destination facility for black container material in a two-container collection system, and doing so may subject a jurisdiction to enforcement action. Alternatively, a jurisdiction may implement a three-container collection service where recyclables and organics are source-separated from other solid waste. With the extremely limited availability of approved high-diversion facilities in the state, transitioning to a three-container collection service in the City would be the most appropriate avenue for compliance.

At the December 18, 2024 public hearing, Council directed additional negotiations with Athens to address the high diversion requirements of SB 1383. In January 2025, Athens and a City Athens Negotiations Working Group (Working Group) - comprised of City staff and two City Councilmembers - began meeting to negotiate a transition to a three-container system in which each single-family-home residential customer would receive at minimum one green container for organic waste, one blue container for recyclable materials, and one black container for all other solid waste (up to seven barrels total for single-family-home residential customers).

The Working Group met with Athens Services several times between January and April 2025 to negotiate the terms for adding a third waste stream/blue container for recyclables. Considering the recent significant rate increases taking effect January 1, 2025, the Working Group pursued an option to extend services with minimal impact on ratepayers. On April 28, 2025, staff presented the proposed terms of an amendment to the current agreement and received direction from Council to proceed with an amendment with the following terms:

1. Freeze all rates at the January 1, 2025 rate schedule for all customers for two years, i.e. no annual rate adjustments on July 1, 2025 and July 1, 2026. The next rate adjustment would take place on July 1, 2027.
2. Modify the annual rate adjustment formula from using the "Consumer Price Index, All Urban Consumers, Los Angeles/Long Beach/Anaheim area" (CPI) to using the "Consumer Price Index for Trash & Garbage Collection, U.S. City Average" (Trash CPI) plus 1%.
3. Extend the current seven-year rolling term to a ten-year rolling term.
4. The City will agree to not issue a Notice of Intent to Wind Down for five years starting with the amendment effective date.

In addition, the Working Group used this opportunity to request modifications to the Bulky Item collection services to improve the accessibility of this service to customers.

Analysis

Proposed Annual Rate Adjustment Freeze

The proposed rate freeze on July 1, 2025 and 2026 provides South Pasadena ratepayers stability during current volatile market conditions. With the proposed Amended Agreement, the scheduled annual rate adjustments for July 1, 2025 and July 1, 2026 will be waived and rates will continue at the January 1, 2025 schedule until July 1, 2027.

Proposed Modification to Rate Adjustment Formula (CPI to Trash CPI + 1%)

Both the current and proposed CPI indices are published monthly by the U.S. Bureau of Labor Statistics. The CPI index used in the Current Agreement with Athens accounts for residential homes and the cost of household goods (e.g., milk, bread, eggs). This index does not represent trash industry cost escalation, and as a result, the actual operating costs of waste hauling outpace the rate adjustments based on 'household' CPI. The Trash CPI measures the direct costs of goods and services in the waste industry. Moreover, to add the services of a third waste stream as required by SB 1383, Athens will need to incur significant capital expenses, including the purchase of an additional Mother Truck, an additional Mini Class C Rear Loader, and four additional manual barrel service pick-up trucks. In addition, since the manual barrel service pick-up trucks contain only two compartments for two waste streams, the routes for single-family-home customers will now need to be conducted twice in order to pick up the third waste stream separately. The additional 1% rate escalator covers these increased labor, operational, and equipment costs of the third waste stream.

Proposed Changes to Contract Term Length

The additional time on the term length and the prohibition that the City does not terminate the Agreement for five years enables Athens to recoup their capital investments and the loss of the rate freeze over time. For market comparison, many peer cities which have agreements

with Athens use Trash CPI + 1% for the annual cost escalation and are bound by a minimum 10-year rolling term (with one city having a rolling term as long as 30 years). These peer cities include Azusa, Covina, Downey, Glendora, Norwalk, Sierra Madre, South El Monte, and more. Transitioning to a new collection service model citywide (procuring new trucks and barrels, deploying new barrels and bins citywide, getting residential and commercial customers on board and compliant with new waste disposal practices/procedures) will take several years. During this transition period, it is proposed that neither party will issue a Notice of Intent to Wind Down for five years starting the amendment effective date.

Modifications to Bulky Item Collection Services

In the Current Agreement, Athens provides four free Senior Citizen Dumpster Weeks and four free Dumpster Days for all residents on an annual basis to discard bulky items. Residents who wish to discard bulky items outside of these events must pay an additional fee per item. The lack of available locations in the City to host the Dumpster Day events has resulted in cancellations of the event. In addition, only those residents who have the means to transport bulky items to the event location are able to use this service (except senior citizens who have a curbside program). In order to address these issues, the Working Group worked with Athens to modify these services. The proposed Amended Agreement includes a free quarterly curbside bulky item pick-up program that would allow all residential customers, including multifamily customers, to request one free bulky item pick-up for up to five items per calendar quarter. This service will be provided on a “use it or lose it” basis and will completely replace the Senior Citizen Dumpster Weeks and Dumpster Days.

New Containers

Upon a successful Prop 218 public hearing and per SB 1383 regulations, Athens will procure and deploy new standardized 32-gallon barrels to all single-family-home customers. The new barrels will have wheels, lids, and handles that will make lifting into service trucks easier and safer. Single-family-home customers will have the opportunity to choose up to a total of 7 barrels – minimum one green barrel for organics (yard waste and food scraps), one blue barrel for recyclables, and one black barrel for all other solid waste. Athens will also collect and recycle old trash barrels if customers choose to discard their old barrels. Under the Amended Agreement, commercial and multi-family customers would receive one 96-gallon recycle/blue cart serviced one time per week as part of their regular collection service. Athens will conduct waste assessments for commercial and multi-family customers to assess service levels to ensure new containers meet their needs. All containers will have standard labeling indicating what is and is not acceptable in the container. It is estimated that the manufacturing of the new barrels will take 16-18 weeks and the deployment will take approximately 6-8 weeks.

Outreach and Education

City staff and Athens Services will work together to provide extensive public outreach and education regarding the new waste streams, new services, and deployment of new containers. Outreach plans include two to three direct mailers to all addresses in the City describing the changes in waste services, a webpage containing informational materials and FAQs, social content, physical flyers at all City facilities, etc. In addition, Athens representatives will be conducting waste assessments for commercial and multi-family customers.

Proposition 218

The implementation of the Amended Agreement is contingent upon the culmination of proceedings relating to Prop 218 (holding a noticed public hearing and no majority protest) and the City Council's approval of the rates set forth in the Amended Agreement. The public hearing must be held at least 45 days after notice is mailed to property owners and customers (Attachment 4). City staff recommends approval of a resolution setting the Prop 218 public hearing date to July 16, 2025, or such other date selected by the City Manager.

Next Steps

1. Upon Council's approval of the proposed Amended Agreement and resolution, City staff will provide all ratepayers mailed notices of a Prop 218 public hearing to occur on July 16, 2025.
2. Upon a successful Prop 218 public hearing, Athens will begin procurement of new residential barrels, commercial recycling carts, and additional collection vehicles. Athens will conduct waste assessments for all commercial and multi-family customers. Manufacturing of barrels may take 16-18 weeks and collection vehicles will take approximately 90 days.
3. New residential barrel and commercial and multi-family bin and cart deployment will begin with extensive outreach and education provided to all account holders. Deployment will take approximately 6-8 weeks. Athens will remove and dispose/recycle customer's old barrels as part of the deployment process.
4. Staff will continue SB 1383 implementation and education regarding new collection services, among other state-mandated requirements.

Fiscal Impact
Residential, multi-family, and commercial solid waste rates are paid by customers directly to Athens, therefore, there is no direct cost to the City being considered in this item. If approved by the City Council, residential and commercial refuse rates will see no changes, and no annual rate adjustments will be made for the years 2025 and 2026. In addition, on July 1, 2027, solid waste rates will be adjusted by the percent change in Trash CPI + 1%.

Key Performance Indicators and Strategic Plan
This item is related to infrastructure solid waste collection goals in the City Council's 2025 compilation of priorities, number 2(g).

Commission Review and Recommendation
This item was not reviewed by a commission; however, the proposed terms were discussed at-length by the City Athens Negotiations Working Group consisting of City staff and two Councilmembers.

Public Notification
The public was made aware that this item was to be considered this evening by virtue of its inclusion on the legally publicly noticed agenda, posting of the same agenda and reports on the City's website.

Environmental Analysis
City staff has evaluated the entering into of the proposed Exclusive Franchise Agreement and approval of the proposed terms for purposes of compliance with the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) (CEQA) and the California CEQA Guidelines and has determined that approval of the Exclusive Franchise Agreement and

proposed terms are intended to implement State mandated requirements of the California Senate Bill (SB) 1383, Short-lived Climate Pollutant Reduction Act of 2016. Pursuant to CEQA Guidelines Section 15308, Class 8, “Actions by Regulatory Agencies for Protection of the Environment,” these actions are exempt from further review under CEQA. The development and implementation of the amended services is a requirement of the California Department of Resources Recycling and Recovery (CalRecycle) and is exempt from CEQA because it is an action pursuant to a regulatory requirement to assure the protection of the environment and involves procedures for protection of the environment. Furthermore, the amended services apply to the City’s existing volume of generated solid waste, where there is no expansion of use, and is therefore exempt from the CEQA analysis based on State CEQA Guidelines requirements under Section 21084 of the Public Resources Code, in accordance with Article 19, Section 15301, Class (1) "existing facilities."

FIRST AMENDED AND RESTATED EXCLUSIVE SOLID WASTE HANDLING AGREEMENT

This **FIRST AMENDED AND RESTATED EXCLUSIVE SOLID WASTE HANDLING AGREEMENT** ("Agreement") is dated as of May 21, 2025, by and between the **City of South Pasadena** ("City"), a general law city and municipal corporation, and Arakelian Enterprises, Inc. (dba Athens Services), a California corporation ("Contractor"), for the collection, transportation, recycling, processing, composting, and disposal of solid waste, recyclables, and organic materials.

RECITALS

A. The Legislature of the State of California, by enactment of the California Integrated Waste Management Act of 1989 ("AB 939"), has declared that it is in the public interest to authorize and require local agencies to make adequate provision for the disposal of all solid waste within their jurisdictions.

B. Pursuant to California Public Resources Code Section 40059(a)(1), the City Council of the City of South Pasadena has determined that the public health, safety, and welfare require that an exclusive franchise agreement be awarded to a qualified solid waste enterprise for Solid Waste Handling Services within the City limits.

C. City previously entered a franchise agreement, Exclusive Solid Waste Handling Agreement, dated October 2, 2024 ("2024 Agreement") and it is the desire of the parties by entering this First Amended and Restated Exclusive Solid Waste Handling Agreement to restate existing obligations and add three-Container Collection services, in order to bring City into compliance with Applicable Law.

D. City and Contractor are mindful of the provisions of the laws governing the safe Collection, Transport, Recycling, and Disposal of Solid Waste, including AB 939, the Resource Conservation and Recovery Act ("RCRA"), and the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"). City and Contractor desire to leave no doubts as to their respective roles, and to memorialize that by entering into this Agreement. City is not thereby becoming an "arranger" or a "generator" as those terms are used in CERCLA, and that it is Contractor, not City, who is "arranging for" the Collection, Transport for Disposal, Composting, and Recycling of municipal Solid Waste in the City which may contain hazardous substances. City and Contractor understand and agree that it is Contractor, and not City, who will arrange to collect Solid Waste, that City has not, and, by this Agreement does not, instruct Contractor on its Collection methods, nor supervise the Collection process, nor do the Parties intend to place title to such Solid Waste in City, but rather intend that whatever, if any, title in and to such Solid Waste that otherwise might exist in or with City in the absence of this Agreement is hereby transferred to Contractor, and further that if Contractor gains title to such Solid Waste it is by operation of law and agreement with its Customers and is not the result of this Agreement.

E. City and Contractor are mindful of recent laws adopted by the State of California, with which the City must comply, intended to divert recyclables and organic materials from being landfilled. AB 341 mandates that commercial waste generators arrange for recycling services. AB 1826 mandates that commercial waste generators recycle their organic waste. AB 1594 excludes organic material from being counted as Alternative Daily Cover (ADC). SB 1383 Regulations require jurisdictions to provide organic waste collection services.

F. City and Contractor further desire to confirm that Contractor has agreed to indemnify the City in connection with any claims relating to the inadvertent or intentional Collection, Transportation

and/or Disposal of Hazardous Substances that may occur in connection with Contractor's performance under this Agreement. Contractor has agreed, as part of this Agreement, to provide such services as are necessary or desirable to ensure City complies with the requirements of AB 939 and Public Resources Code Section 40000, *et seq.*

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained in this Agreement, the Parties hereby agree as follows**:**

1 Definitions

For the purpose of this Agreement, the definitions contained in this Article 1 apply unless otherwise specifically stated. When not inconsistent with the context, words used in the present tense include the future, words in the plural include the singular, and words in the singular include the plural. The meaning of terms or words not defined in this Article will be as commonly understood in the solid waste collection services industry when the common understanding is uncertain. In the event of a conflict between a definition in this Agreement and a definition in Title 14 California Code of Regulations Section 18982, the definition in Section 18982 shall control.

1.1 AB 341

"AB 341" means the California Jobs and Recycling Act of 2011 (Chapter 476, Statues of 2011 [Chesbro, AB 341]), as it may be amended from time to time. AB 341 requires businesses, defined to include Commercial or public entities that generate more than 4 cubic yards of Solid Waste per week or Multi-Family Premises, to arrange for Recycling services and requires jurisdictions to implement a Commercial Solid Waste Recycling program.

1.2 AB 827

"AB 827" means State of California Assembly Bill No. 827 approved October 2, 2019, as it may be amended from time to time. AB 827 requires businesses that are mandated to recycle under AB 341 ("MCR") and/or mandated to recycle organics under AB 1826 ("MOR") or SB 1383 and that provide customers access to the business, to provide customers with a recycling bin and/or organics collection bin for those waste streams that is visible, easily accessible, and adjacent to each bin or container for trash.

1.3 AB 939

"AB 939" means the California Integrated Waste Management Act of 1989 (CIWMA), currently codified as California Public Resources Code Section 40000 et seq. as it may be amended from time to time.

1.4 AB 1826

"AB 1826" means the Organic Waste Recycling Act of 2014 (Chapter 727, Statutes of 2014) as it may be amended from time to time. AB 1826 requires each jurisdiction, on and after January 1, 2016, to implement an organic waste recycling program to divert from the landfill organic waste from businesses. Each business meeting specific Organic Waste or Solid Waste generation thresholds phased in over time, is required to arrange for Organic Waste Recycling services.

1.5 Agreement

"Agreement" means this first amended and restated agreement between the City of South Pasadena and Arakelian Enterprises, Inc, for Exclusive Solid Waste Handling Services including all exhibits and attachments, and any amendments.

1.6 Applicable Law

"Applicable Law" means all Federal, State, County of Los Angeles ("County"), and local laws, regulations, rules, orders, judgments, decrees, permits, approvals, or other requirement of any governmental agency having jurisdiction over the Collection, Transportation, Processing, and Disposal of Solid Waste.

1.7 Automated Collection Service

"Automated Collection Service" means Collection of Solid Waste, by automated Collection vehicles including side, rear, and/or front-loading vehicles, from Containers supplied by the Contractor and stored in, and

returned to, a location determined by Contractor on that Customer's Premises but in no event in the City's public right-of-way.

1.8 Back-Haul

"Back-haul" means generating and transporting Recyclable Materials or Organic Waste by the Waste Generator to a destination owned and operated by Waste Generator using the generator's own employees and equipment.

1.9 Barrel

"Barrel" means a plastic Container with a separate lid, with wheels, and with a capacity of approximately thirty-two (32) gallons, supplied by Contractor for the deposit and Collection of Solid Waste and manually serviced by a Collection vehicle.

1.10 Bin

"Bin" means a metal or plastic waste Container designed or intended to be mechanically serviced by a commercial front-end loader vehicle, supplied by Contractor. It shall be designed to hold from one (1) to six (6) cubic yards of material with the lid properly closed.

1.11 Biohazardous or Biomedical Waste

"Biohazardous or Biomedical Waste" means any waste which may cause disease or reasonably be suspected of harboring pathogenic organisms; included is waste resulting from the operation of medical clinics, hospitals, and other facilities processing wastes which may consist of, but are not limited to, human and animal parts, contaminated bandages, pathological specimens, hypodermic needles, sharps, contaminated clothing, and surgical gloves.

1.12 Black Container

"Black Container" has the same meaning as in 14 CCR Section 18982(a)(28) and shall be used for the storage and collection of Black Container Waste, excluding Source Separated Green Container Organic Waste and Source Separated Blue Container Waste.

1.13 Black Container Waste

"Black Container Waste" means Solid Waste that is collected in a Black Container that is part of a three-Container Solid Waste Handling Service that prohibits the placement of Organic Waste in the Black Container as specified in 14 CCR Sections 18984.1(a), or as otherwise defined in 14 CCR Section 17402(a)(6.5).

1.14 Blue Container

"Blue Container" has the same meaning as in 14 CCR Section 18982(a)(5) and shall be used for the storage and collection of Source Separated Blue Container Waste.

1.15 Bulky Items

"Bulky Items" means large and small household appliances, furniture, carpets, mattresses, White Goods, clothing, tires, and other similar Solid Waste and oversized yard waste such as tree trunks and large branches if no larger than two (2) feet in diameter and four (4) feet in length and similar large items discarded from Customer Premises. Bulky Items do not include Excluded Waste, car bodies, car parts, tires, Construction and Demolition Debris or (except for appliances/White Goods described above) items that cannot reasonably be moved with equipment of the type which, pursuant to industry standards, would normally be carried in a truck Collecting Bulky Items. In the event a question arises as to whether a specific item, or

category of items meets the definition of Bulky Items, the Contractor shall be responsible for determining whether said definition shall apply.

1.16 Bus Stop Barrel Collection

"Bus Stop Barrel Collection" means emptying the bus stop Barrel(s) and Collecting Solid Waste therein, supplying the new Barrel liner, and replacing the Barrel liner.

1.17 Business Day

"Business Day" means any Monday through Friday, excluding any Holidays.

1.18 C&D Processing Facility

"C&D Processing Facility" means any facility that is designed, operated, and legally permitted for the purpose of receiving and Processing C&D.

1.19 California Code of Regulations or CCR

"California Code of Regulations" or "CCR" means the State of California Code of Regulations, as amended from time to time. CCR references in this chapter are preceded with a number that refers to the relevant title of the CCR (e.g., "14 CCR" refers to Title 14 of CCR).

1.20 CalRecycle

"CalRecycle" means California's Department of Resources Recycling and Recovery, which is the department designated with responsibility for developing, implementing, and enforcing SB 1383 regulations on cities (and others).

1.21 Cart

"Cart" means a plastic container with a hinged lid and wheels serviced by an automated or semi-automated truck with a capacity of no less than thirty-two (32) gallons and no greater than one hundred and one (101) gallons. Cart sizes vary depending on the manufacturer, and any reference to Cart sizes in this Agreement is an approximation.

1.22 CERCLA

"CERCLA" means the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. §§ 9601 et seq., as may be amended and regulations promulgated thereunder.

1.23 City

"City" shall mean the City of South Pasadena including any Premises which may be annexed and thereby added to the City limits following the Effective Date.

1.24 City Facility

"City Facility(ies)" means any building or other site owned or leased by the City or otherwise used regularly and significantly by the City for municipal business and the space therein occupied by more than seventy-five percent (75%) by employees or contractors of the City.

1.25 Collect, Collection, or Collecting

"Collect," "Collection," or "Collecting**"** means to take physical possession of, Transport, and remove Solid Waste from Premises.

1.26 Commercial Business or Commercial

"Commercial Business" or "Commercial" means a firm, partnership, proprietorship, joint stock company, corporation, or association, whether for-profit or nonprofit, strip mall, industrial facility, or a Multi-Family Premises, or as otherwise defined in 14 CCR Section 18982(a)(6). A multi-family residential dwelling that consists of fewer than five units is not a commercial business for the purposes of this Agreement.

1.27 Commercial Edible Food Generators

"Commercial Edible Food Generators" includes a Tier One or a Tier Two Commercial Edible Food Generator as defined in 14 CCR Section 18982(a)(73) and (a)(74). For the purposes of this definition, Food Recovery Organizations and Food Recovery Services are not Commercial Edible Food Generators pursuant to 14 CCR Section 18982(a)(7).

1.28 Community Composting

"Community Composting" means any activity that composts Green Waste, agricultural material, Food Scraps, alone or in combination, and the total amount of feedstock and Compost on-site at any one time does not exceed one hundred (100) cubic yards and seven hundred and fifty (750) square feet as specified in 14 CCR Section 17855(a)(4); or as otherwise defined in 14 CCR Section 18982(a)(8).

1.29 Compactor

"Compactor" means any Bin or Roll-Off Box that has a compaction mechanism, whether stationary or mobile.

1.30 Compost or Composting

"Compost" or "Composting" has the same meaning as in 14 CCR Section 17896.2(a)(4), as may be amended from time to time, and means the product resulting from the controlled biological decomposition of Organic Waste that are Source Separated from the municipal waste stream, or which are separated at a centralized facility.

1.31 Construction and Demolition Debris or C&D

"Construction and Demolition Debris," "C&D Debris," or "C&D" means any Solid Waste generated at a Premises that is directly related to construction or demolition activities. These activities include, but are not limited to, construction, demolition, remodeling, grading, land clearing, or renovation on any Residential Premises, Commercial, institutional, or industrial building, road, driveway, walkway, or other structure. C&D Debris includes but is not limited to concrete, asphalt paving, asphalt roofing, lumber, gypsum board, rock, soil, and metal.

1.32 Consumer Price Index (CPI)

"Consumer Price Index (CPI)" means the Consumer Price Index for All Urban Consumers (Series ID: CUURS49ASA0) All Items, Los Angeles-Long Beach-Anaheim, CA (not seasonally adjusted) as may be amended or renamed and replaced from time to time by the United States Bureau of Labor Statistics, or an equivalent index approved by mutual agreement in the event said index is no longer published.

1.33 Consumer Price Index for Trash and Garbage Collection (Trash CPI)

"Consumer Price Index for Trash and Garbage Collection (Trash CPI)" means the Consumer Price Index for Trash and Garbage Collection (Series ID: CUUR0000SEHGO2) U.S. City Average (not seasonally adjusted) as may be amended or renamed and replaced from time to time by the United States Bureau of Labor Statistics,

or an equivalent index approved by mutual agreement in the event said index is no longer published, and is used to calculate the Maximum Service Rates as it pertains to this Agreement.

1.34 Container

"Container" means any and all types of receptacles used for Solid Waste Handling Services, including Barrels, Bins, Carts, and Roll-Off Boxes.

1.35 Container Contamination or Contaminated Container

"Container Contamination" or "Contaminated Container" means a Container, regardless of color, that contains Prohibited Container Contaminants or contaminants otherwise defined in 14 CCR Section 18982(a)(55) or Excluded Waste.

1.36 Contamination Fee

"Contamination Fee" means an amount charged by Contractor to Customers to offset Contractor's additional costs or diminished revenue due to Prohibited Container Contaminants.

1.37 Contractor

"Contractor" shall mean Arakelian Enterprises, Inc. or any party permitted pursuant to the terms hereof to become the successor or assignee thereof.

1.38 Customer

"Customer" means any Person receiving and billed for services provided by Contractor under this Agreement, within the City.

1.39 Disposal or Dispose

"Disposal" or "Dispose" means the ultimate disposition of Solid Waste Collected by the Contractor at a permitted landfill or other permitted Solid Waste Disposal Facility, as defined in California Public Resources Code 40192.

1.40 Disposal Facility(ies) or Site(s)

"Disposal Facility(ies)" or "Disposal Site(s)" means the facility or facilities utilized for the ultimate Disposal of Solid Waste Collected by the Contractor.

1.41 Diversion or Diverted

"Diversion" or "Diverted" means any combination of waste prevention (source reduction), Recycling, reuse and Composting activities that reduces Solid Waste Disposed at landfills.

1.42 Dwelling Unit

"Dwelling Unit" means a building or a portion thereof, designated for residential occupation by one individual or a group of two or more individuals living together as a domestic unit.

1.43 Edible Food

"Edible Food" means food intended for human consumption, or as otherwise defined in 14 CCR Section 18982(a)(18). For the purposes of this Agreement, Edible Food is not Solid Waste if it is recovered and not discarded. Nothing in this Agreement requires or authorizes the recovery of Edible Food that does not meet the food safety requirements of the California Retail Food Code (California Health and Safety Code §§ 113700 *et seq*.).

1.44 Effective Date

"Effective Date" has the meaning set forth in Section 4.3 of this Agreement.

1.45 Environmental Laws

"Environmental Laws" means the National Environmental Policy Act (NEPA), the California Environmental Quality Act (CEQA), the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 USC §9601 et seq.; the Resource Conservation and Recovery Act, 42 USC §6902 et seq.; the Federal Clean Water Act, 33 USC §1251 et seq.; the Toxic Substances Control Act, 15 USC §1601 et seq.; the Occupational Safety and Health Act, 29 USC §651 et seq.; the California Hazardous Waste Control Act, California Health and Safety Code §25100 et seq.; the California Toxic Substances Control Act, California Health and Safety Code §25300 et seq.; the Porter-Cologne Water Quality Control Act, California Water Code §13000 et seq.; the Safe Drinking Water and Toxic Enforcement Act, California Health and Safety Code §25249.5 et seq.; as currently in force or as hereafter amended, and all rules and regulations promulgated thereunder.

1.46 Excluded Waste

"Excluded Waste" means Hazardous Substances, Hazardous Waste, Medical Waste, Biohazardous or Biomedical Waste, Universal Waste, infectious waste, designated waste, volatile, corrosive, regulated radioactive waste, and toxic substances or material that facility operator(s), which receive materials from the City and its generators, reasonably believe(s) would, as a result of or upon acceptance, Transfer, Processing, or Disposal, be a violation of local, State, or Federal law, regulation, or ordinance, including: land use restrictions or conditions, waste that cannot be Disposed of in Class III Landfills or accepted at the facility by permit conditions, waste that in Contractor's reasonable opinion would present a significant risk to human health or the environment, cause a nuisance or otherwise create or expose Contractor or City to potential liability; but not including de minimis volumes or concentrations of waste of a type and amount normally found in Single-Family or Multi-Family Solid Waste after implementation of programs for the safe Collection, Processing, Recycling, treatment, and Disposal of batteries and paint in compliance with Sections 41500 and 41802 of the California Public Resources Code.

1.47 Food Recovery

"Food Recovery" means actions to Collect and distribute food for human consumption which otherwise would be Disposed.

1.48 Food Recovery Organization

"Food Recovery Organization" means an entity that primarily engages in the Collection or receipt of Edible Food from Commercial Edible Food Generators and distributes that Edible Food to the public for Food Recovery either directly or through other entities, or as otherwise defined in 14 CCR Section 18982 (a)(25), including, but not limited to:

(1) A food bank as defined in Section 113783 of the Health and Safety Code;

(2) A nonprofit charitable organization as defined in Section 113841 of the Health and Safety code; and,

(3) A nonprofit charitable temporary food facility as defined in Section 113842 of the Health and Safety Code.

1.49 Food Recovery Service

"Food Recovery Service" means a Person or entity that Collects and Transports Edible Food from a Commercial Edible Food Generator to a Food Recovery Organization or other entities for Food Recovery, or as otherwise defined in 14 CCR Section 18982(a)(26).

1.50 Food Scraps

"Food Scraps" means discarded food that will decompose and/or putrefy and is segregated for Collection and Recycling that is accepted for Disposal and Processing by the applicable Processing facility utilized by Contractor under this Agreement. Food Scraps may include, but is not limited to, fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, and eggshells. Food Scraps excludes fats, oils, and grease when such materials are Source Separated from other Food Scraps.

1.51 Food-Soiled Paper

"Food-Soiled Paper" means compostable paper material that has come in contact with food or liquid, such as compostable paper plates, paper coffee cups, napkins, and pizza boxes. Food-Soiled Paper does not include Non-Compostable Paper.

1.52 Food Waste

"Food Waste" means Source Separated Food Scraps, Food-Soiled Paper, and 100 percent fiber-based compostable dinnerware. Food Waste is a subset of Source Separated Green Container Organic Waste as specified in Exhibit 4-1.

1.53 Franchise

"Franchise" means the exclusive right and privilege to provide Solid Waste Handling Services within the City granted by City to Contractor pursuant to the City's authority under Article 11, Section 7 of the State of California Constitution, and Section 40059 of the Public Resources Code.

1.54 Franchise Area

"Franchise Area" means all Premises within the City Limits, including Premises which may be annexed and thereby added to the City limits following the Effective Date.

1.55 Franchise Fee

"Franchise Fee" means the franchise fee set forth and more fully defined in Section 9.1 hereof.

1.56 Green Container

"Green Container" has the same meaning as in 14 CCR Section 18982 (a)(29) and shall be used for storage and Collection of Source Separated Green Container Organic Waste.

1.57 Green Waste

"Green Waste" means Solid Waste consisting of any vegetative waste generated from the maintenance or alteration of Residential, Commercial Premises including, but not limited to, grass clippings, leaves, tree trimmings, prunings, brush, weeds, flowers, herbs, and holiday trees and excluding cacti, succulents, yucca, and palm fronds; provided, it shall not include those materials which are not appropriate for Compost (such as tree trunks, more than four inches (4") in diameter or four feet (4') in length, or palm fronds).

1.58 Gross Receipts

"Gross Receipts" includes all monies, fees, charges, consideration, and revenue received by Contractor for the provision of Solid Waste Handling Services carried out by or on behalf of Contractor pursuant to this

Agreement. Gross Receipts includes the amounts collected from monthly Customer charges for the Collection of Solid Waste, any Franchise Fees or other fees imposed and collected pursuant to this Agreement, and amounts collected in connection with Temporary Services. Notwithstanding any provision to the contrary in this Agreement, Gross Receipts shall not include revenues received by Contractor from the sale of Recyclable Materials or other materials Diverted from Disposal, Compost or Organics-derived products or energy, grants, cash awards or rebates. Amounts collected as Contractor's "Recycling Revenue Sharing" and paid to City as specified in Section 9.2 shall be deducted from Gross Receipts.

1.59 Hauler

"Hauler" means the entity to whom the City Council shall have awarded a contract, or shall have been otherwise authorized to receive, Collect, carry, haul, Transport, and Dispose of any and all Solid Waste within the City.

1.60 Hauler Route

"Hauler Route" means the designated itinerary or sequence of stops for each segment of the Contractor's routes in the City.

1.61 Hazardous Substance

"Hazardous Substance" means any of the following: (a) any substances defined, regulated or listed (directly or by reference) as "Hazardous Substances", "hazardous materials", "Hazardous Waste", "toxic waste", "pollutants" or "toxic substances" or similarly identified as hazardous to human health or the environment, in or pursuant to (i) the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 USC §9601 et seq. (CERCLA); (ii) the Hazardous Materials Transportation Act, 49 USC §1802, et seq.; (iii) the Resource Conservation and Recovery Act, 42 USC §6901 et seq.; (iv) the Clean Water Act, 33 USC §1251 et seq.; (v) California Health and Safety Code §§25115-25117, 25249.8, 25281, 25316, 25501 and 25501.1; (vi) the Clean Air Act, 42 USC §7901 et seq.; and (vii) California Water Code §13050; (b) any substances defined, regulated or listed by any amendments, rules or regulations promulgated thereunder to such enumerated statutes or acts currently existing or hereafter enacted; and (c) any other hazardous or toxic substance, material, chemical, waste or pollutant identified as hazardous or toxic or regulated under any other applicable Federal, State or local environmental laws currently existing or hereafter enacted, including, without limitation, friable asbestos, polychlorinated biphenyl's ("PCBs"), petroleum, natural gas and synthetic fuel products, and by-products.

1.62 Hazardous Waste

"Hazardous Waste" means all Hazardous Substances and substances defined as Hazardous Waste, acutely Hazardous Waste, or extremely Hazardous Waste by the State of California in Health and Safety Code §25110.02, §25115, and §25117 or in the future amendments to or recodifications of such statutes or identified and listed as Hazardous Waste by the US Environmental Protection Agency (EPA), pursuant to the Federal Resource Conservation and Recovery Act (42 USC §6901 et seq.), all future amendments thereto, and all rules and regulations promulgated thereunder.

1.63 High Diversion Organic Waste Processing Facility

"High Diversion Organic Waste Processing Facility" means a facility that is in compliance with the reporting requirements of 14 CCR Section 18815.5(d) and meets or exceeds an annual average mixed waste organic content recovery rate of 50 percent between January 1, 2022, and December 31, 2024, and 75 percent after January 1, 2025, as calculated pursuant to 14 CCR Section 18815.5(e) for organic waste received from the mixed waste organic collection stream as defined in 14 CCR Section 17402(a)(11.5); or as otherwise defined in 14 CCR Section 18982(a)(33).

1.64 Holiday

"Holiday" means New Years' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

1.65 Household Hazardous Waste

"Household Hazardous Waste" ("HHW") means waste resulting from products purchased by the general public for household use which, because of its quantity, concentration or physical, chemical or infectious characteristics, may pose a substantial known or potential hazard to human health or the environment when improperly treated, Disposed or otherwise managed, or, in combination with other Solid Waste, may be infectious, explosive, poisonous, caustic, toxic, or exhibit any of the characteristics of ignitability, corrosivity, reactivity, or toxicity as per 22 CCR Section 66261.3.

1.66 Invalidation Action

"Invalidation Action" means any event or action the result of which City is unable (i) by operation of Applicable Law, (ii) a valid majority protest pursuant to Proposition 218, or (iii) final and conclusive legal challenge, to approve or implement the establishment or adjustment of any Maximum Service Rate(s) that would otherwise be due and payable to Contractor under this Agreement, in whole or in part, but for such event or action.

1.67 Large Event

"Large Event" as defined in 14 CCR Section 18982(a)(38) means an event, including, but not limited to, a sporting event or a flea market, that charges an admission price, or is operated by a local agency, and serves an average of more than 2,000 individuals per day of operation of the event, at a location that includes, but is not limited to, a public, nonprofit, or privately owned park, parking lot, golf course, street system, or other open space when being used for an event.

1.68 Large Venue

"Large Venue" as defined in 14 CCR Section 18982(a)(39) means a permanent venue facility that annually seats or serves an average of more than 2,000 individuals within the grounds of the facility per day of operation of the venue facility. For purposes of 14 CCR, Division 7, Chapter 12 and this Agreement, a large venue facility includes, but is not limited to, a public, nonprofit, or privately owned or operated stadium, amphitheater, arena, hall, amusement park, conference or civic center, zoo, aquarium, airport, racetrack, horse track, performing arts center, fairground, museum, theater, or other public attraction facility. For purposes of 14 CCR, Division 7, Chapter 12 and this Agreement, a site under common ownership or control that includes more than one Large Venue that is contiguous with other Large Venues in the site, is a single Large Venue.

1.69 Local Education Agency

"Local Education Agency" means a school district, charter school, or county office of education that is not subject to the control of city or county regulations related to Solid Waste.

1.70 Manual Barrel Collection Service

"Manual Barrel Collection Service" means manual Collection of Solid Waste from Barrels supplied by the Contractor that includes the movement by Contractor's employees of Barrels from the Customer's backyard, side yard, driveway, garage, or other location approved by Contractor, and returned to, such location on that Customer's Premises, but in no event in the City's public right-of-way.

1.71 Materials Recovery Facility

"Materials Recovery Facility" or "MRF" means a facility where Solid Waste (not including Source Separated Green Container Organic Waste) or Recyclables are sorted or separated for the purposes of Recycling, Processing or Composting.

1.72 Maximum Service Rate(s)

"Maximum Service Rate(s)" means the maximum amount that Contractor may charge for the services listed in Exhibit 1 of this Agreement, as such exhibit and amounts may be amended or adjusted in accordance with the provisions of this Agreement.

1.73 Medical Waste

"Medical Waste" means any Solid Waste that is generated or has been used in the diagnosis, treatment, or immunization of human beings or animals, or research pertaining thereto, and shall include, but not be limited to, biomedical, biohazardous and medical waste, or other Solid Waste resulting from medical activities or services as defined by any State or Federal law or regulation, all as currently enacted or subsequently amended.

1.74 Mulch

"Mulch" means a layer of material applied on top of soil, and, for the purposes of this Agreement, Mulch shall conform with the following conditions, or conditions as otherwise specified in 14 CCR Section 18993.1(f)(4):

(1) Meets or exceeds the physical contamination, maximum metal concentration, and pathogen density standards for land application specified in 14 CCR Section 17852(a)(24.5) (A)(1) through (3).

(2) Was produced at one or more of the following types of facilities: a. A compostable material handling operation or facility as defined in 14 CCR Section 17852(a)(12), that is permitted or authorized under 14 CCR, Division 7, other than a chipping and grinding operation or facility as defined in 14 CCR Section 17852(a)(10); b. Transfer/Processing Facility or Transfer/Processing operation as defined in 14 CCR Section 17402(a)(30) and (31), respectively, that is permitted or authorized under 14 CCR, Division 7; or, c. a Solid Waste landfill as defined in Pub. Res. Code Section 40195.1.

1.75 Multi-Family or Multi-Family Premises

"Multi-Family" or "Multi-Family Premises" means a Premise with five (5) or more Dwelling Units.

1.76 Municipal Code

"Municipal Code" means the South Pasadena Municipal Code.

1.77 Non-Collection Notice

"Non-Collection Notice" means a form developed by Contractor and approved by the City to notify Customers of the reason for non-collection of materials set out by the Customer for Collection by Contractor pursuant to this Agreement.

1.78 Non-Compostable Paper

"Non-Compostable Paper" includes, but is not limited to, paper that is coated in a plastic material that will not breakdown in the Composting process, or as otherwise defined in 14 CCR Section 18982(a)(41).

1.79 Non-Organic Recyclables

"Non-Organic Recyclables" means non-putrescible and non-hazardous recyclable wastes, including, but not limited to bottles, cans, metals, plastics and glass, or as otherwise defined in 14 CCR Section 18982(a)(43).

1.80 Organic Waste or Organics

"Organic Waste" or "Organics" means Solid Waste containing material originating from living organisms and their metabolic waste products, including, but not limited to, Food Waste, Green Waste, organic textiles and carpets, lumber, wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges, or as otherwise defined in 14 CCR Section 18982(a)(46), excluding animal carcasses not eaten on the Premises such as small rodents (e.g., mice and rats).

1.81 Overflow

"Overflow" means excess Solid Waste (i) placed inside a Container that prevents the lid on the Container from being completely closed (i.e., lid remains open greater than forty-five (45) degrees) or excess materials placed on top of or around a Container and (ii) could potentially result in excess materials spilling/dislodging during collection activity by Contractor's vehicles.

1.82 Overweight

"Overweight" means Solid Waste placed in a Container used for Collection services in excess of the manufacturer's recommended weight capacity for that Container.

1.83 Owner

"Owner" means the Person holding the legal title to the real property constituting the Premises to which Solid Waste Handling Services is to be provided under this Agreement or the Person holding legal title to the Disposal site, depending upon the context used in this Agreement.

1.84 Person

"Person" means any individual, firm, association, organization, partnership, corporation, business trust, joint venture, the United States, the State, the County, towns, cities, and special purpose districts.

1.85 Premises

"Premises" means any land, building, and/or structure within the City limits where Solid Waste is generated or accumulated.

1.86 Process, Processed, or Processing

"Process," "Processed," or "Processing" means the controlled separation, recovery, volume reduction, conversion, or Recycling of Solid Waste including, but not limited to, organized, manual, automated, or mechanical sorting, the use of vehicles for spreading of waste for the purpose of recovery, and/or includes the use of conveyor belts, sorting lines, or volume reduction equipment.

1.87 Prohibited Container Contaminants

"Prohibited Container Contaminants" means any of the following: (i) discarded materials placed in any Blue Container that are not identified as acceptable Source Separated Blue Container Waste for such Container; (ii) discarded materials placed in any Green Container that are not identified as acceptable for Source Separated Green Container Organic Waste for such Container; (iii) discarded materials placed in any Black Container that are acceptable Source Separated Blue Container Waste to be placed in a Blue Container or acceptable Source Separated Green Container Organic Waste to be placed in a Green Container; (iv) to the extent not encompassed in the foregoing, discarded materials placed in any Container not identified by

Contractor or City as acceptable for such Containers; and (v) Excluded Waste. Contamination shall be determined by Contractor's visual or digital inspection.

1.88 Public Works Director

"Public Works Director" means the Director of Public Works for the City of South Pasadena or his/her designee.

1.89 Recyclables or Recyclable Materials

"Recyclables" or "Recyclable Materials" means Solid Waste consisting of any material which retains useful properties and can be reclaimed after the production or consumption process. "Recyclables" or "Recyclable Materials" include Source Separated Non-Organic Recyclables and Source Separated Blue Container Organic Waste.

1.90 Recycle or Recycling

"Recycle" or "Recycling" means the process of Collecting, sorting, cleaning, treating and reconstituting materials that would otherwise become waste and returning those materials to the economic mainstream in the form of raw materials for new, reused, or reconstituted products that meet the quality standards to be used in the marketplace. Recycling does not include Transformation as defined in Public Resources Code Section 40201.

1.91 Recovered Organic Waste Products

"Recovered Organic Waste Products" means products made from California, landfill-diverted, recovered Organic Waste Processed in a permitted or otherwise authorized facility, or as otherwise defined in 14 CCR Section 18982(a)(60).

1.92 Renewable Natural Gas or RNG

"Renewable Natural Gas" or "RNG" means gas derived from Organic Waste that has been Diverted from a landfill and processed at an in-vessel digestion Facility that is permitted or otherwise authorized by 14 CCR to recover Organic Waste, as defined in 14 CCR Section 18982(a)(62).

1.93 Residential or Residential Premises

"Residential" or "Residential Premises" means all Single-Family Premises.

1.94 Roll-Off Box

"Roll-Off Box" means Solid Waste Collection Containers of ten (10) cubic yards or larger, including Compactors.

1.95 Route Review

"Route Review" means a visual inspection of Containers along a Hauler Route as specified in Section 5.13.1 of the Agreement.

1.96 SB 1383

"SB 1383" means Senate Bill 1383 of 2016 approved by the Governor on September 19, 2016, which added Sections 39730.5, 39730.6, 39730.7, and 39730.8 to the Health and Safety Code, and added Chapter 13.1 (commencing with Section 42652) to Part 3 of Division 30 of the Public Resources Code, establishing methane emissions reduction targets in a statewide effort to reduce emissions of short-lived climate pollutants, as amended, supplemented, superseded, and replaced from time to time.

1.97 SB 1383 Regulations

"SB 1383 Regulations" means or refers to, for the purposes of this Agreement, the Short-Lived Climate Pollutants: Organic Waste Reductions regulations developed by CalRecycle and adopted in 2020 that created 14 CCR, Division 7, Chapter 12 and amended portions of regulations of 14 CCR and 27 CCR as amended from time to time.

1.98 Self-Haul, Self-Hauler, or Self-Hauling

"Self-Haul," "Self-Hauler," or "Self-Hauling" means a Person, who hauls Solid Waste, Recyclable Materials, or Organic Waste, that he or she has generated to an appropriate Processing facility. Self-Hauler also includes a Person who Back-Hauls.

1.99 Seniors

"Seniors" means a resident sixty-two years of age or older.

1.100 SFD-A or SFD-A Premises

"SFD-A" or "SFD-A Premises" means Single-Family Premises receiving Automated Collection Service as specified in Section 5.8.

1.101 Single-Family Premises

"Single-Family Premises" means Premises with fewer than five (5) Dwelling Units.

1.102 Solid Waste

"Solid Waste" has the same meaning as defined in the California Public Resources Code Section 40191, which includes all discarded putrescible and nonputrescible solid, semisolid, and liquid wastes, including garbage, trash, refuse, rubbish, C&D, industrial waste, Bulky Items, and any other discarded solid, semisolid, and liquid waste permitted to be Disposed of at a Class III landfill and which are included within the definition of "Nonhazardous Solid Waste" set forth in the California Code of Regulations, as it may be amended from time to time. Solid Waste includes Recyclable Materials and Organic Waste, unless specified otherwise in the Agreement, but does not include Excluded Waste.

1.103 Solid Waste Handling Services

"Solid Waste Handling Services" means the Collection, Transfer, Transportation, Recycling, Processing, and Disposal of Solid Waste.

1.104 Source Separated

"Source Separated" means materials that have been separated or kept separate from the waste stream, at the point of generation, for the purpose of additional sorting or Processing those materials for Recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products, which meet the quality standards necessary to be used in the marketplace, or as otherwise defined in 14 CCR Section 17402.5(b)(4). For the purposes of this Agreement, Source Separated shall include separation of materials by the generator, property Owner, property Owner's employee, property manager, or property manager's employee into different Containers for the purposes of Collection and/or Processing. Black Container Waste, Source Separated Blue Container Waste, and Source Separated Green Container Organic Waste are separated for the purposes of Collection and/or Processing.

1.105 Source Separated Blue Container Organic Waste

"Source Separated Blue Container Organic Waste" means Source Separated Organic Waste that can be placed in a Blue Container that is limited to the Collection of that Organic Waste and Source Separated Non-Organic Recyclables, or as otherwise specified in 14 CCR Section 17402(a)(26.7).

1.106 Source Separated Blue Container Waste

"Source Separated Blue Container Waste" means Source Separated Blue Container Organic Waste and Source Separated Non-Organic Recyclables that can be placed in a Blue Container that is limited to the Collection of that waste, consistent with three-Container Collection service as described in 14 CCR Section 18894.1(a) and (d) and meets the requirements established by the Contractor as set forth in Exhibit 4-2, as may be amended upon mutual agreement of City and Contractor.

1.107 Source Separated Green Container Organic Waste

"Source Separated Green Container Organic Waste" means Source Separated Organic Waste that can be placed in a Green Container that is limited to the Collection of that Organic Waste, consistent with three-Container Collection service as described in 14 CCR Section 18984.1(a) and (d) and meets the requirements established by the Contractor as set forth in Exhibit 4-1, as may be amended from time to time upon mutual agreement of City and Contractor.

1.108 State

"State" means the State of California.

1.109 Street Sweeping Service

"Street Sweeping Service" means the services specified in Section 6.4 of this Agreement.

1.110 Term

"Term" has the meaning ascribed in Section 4 of this Agreement.

1.111 Temporary Service

"Temporary Service" means Solid Waste Handling Services provided by Contractor on an as needed and temporary basis to any Premises within the City in conjunction with construction, demolition, cleanup, or other projects, and by use of temporarily placed Bins or Roll-Off Boxes.

1.112 Tier One Commercial Edible Food Generators

"Tier One Commercial Edible Food Generator" as defined in 14 CCR Section 18982(a)(73) means a Commercial Edible Food Generator that is one of the following, each as defined in 14 CCR Section 18982(a)(73):

A. Supermarket.

B. Grocery Store with a total facility size equal to or greater than 10,000 square feet.

C. Food Service Provider.

D. Food Distributor.

E. Wholesale Food Vendor.

1.113 Tier Two Commercial Edible Food Generators

"Tier Two Commercial Edible Food Generator" as defined in 14 CCR Section 18982(a)(74) means a Commercial Edible Food Generator that is one of the following, each as defined in 14 CCR Section 18982(a)(74):

A. Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 square feet.

B. Hotel with an on-site food facility and 200 or more rooms.

C. Health facility with an on-site food facility and 100 or more beds.

D. Large Venue.

E. Large Event.

F. A State agency with a cafeteria with 250 or more seats or total cafeteria facility size equal to or greater than 5,000 square feet.

G. A Local Education Agency with an on-site food facility.

1.114 Tipping Fees

"Tipping Fees" means the all-inclusive costs or charges imposed by a properly permitted Disposal Site, MRF, or Organic Waste Processing facility for Disposal or Processing of Solid Waste.

1.115 Transfer

"Transfer" means the act of transferring Solid Waste Collected by Contractor from Contractor's Collection vehicles into larger vehicles at a transfer facility for Transport to other facilities for Processing or Disposing of such materials.

1.116 Transportation or Transport

"Transportation" or "Transport" means the act of delivering Solid Waste from one location to another.

1.117 Transformation

"Transformation" means incineration, pyrolysis, distillation, or biological conversion other than Composting. Transformation does not include biomass conversion.

1.118 Universal Waste

"Universal Waste" means those Hazardous Wastes identified as universal wastes in 22 CCR Section 66261.9, including but not limited to: fluorescent bulbs and tubes; household batteries (e.g. D. AA, button-type, etc.); non-empty aerosol cans; electronic devices (e.g. televisions, computer monitors, cell phones, radios, video cassette recorders, etc.); and mercury containing devices (e.g. thermometers, thermostats, gauges, etc.), and generated by a Single-Family or Multi-Family residence. Universal Waste does not include any waste generated in the course of operating a business at a residence or business generated waste.

1.119 Waste Generator

"Waste Generator" means the Owner or occupant of Premises whose act initially produces Solid Waste that is subject to regulation under Federal, State, or local regulations.

1.120 White Goods

"White Goods" means discarded enameled household appliances, such as refrigerators, freezers, stoves, washer/dryers, water heaters, dishwashers, trash compactors and similar items.

1.121 Workday

"Workday" means any day, Monday through Saturday, which is not a Holiday as set forth in Section 1.61 of this Agreement.

2 Representation and Warranties of Contractor and City

2.1 Mutual Cooperation

City and Contractor will reasonably cooperate in good faith with all efforts by each other to meet City's Diversion and other compliance requirements imposed by Applicable Law. In this regard, City's obligations include, without limitation, making such petitions and applications as may be reasonably requested by Contractor for time extensions in meeting Diversion goals, or other exceptions from the terms of Applicable Laws, and to agree to authorize such changes to Contractor's Recycling, Organic Waste, or Solid Waste programs as may be reasonably requested by Contractor in order to achieve minimum annual CalRecycle Diversion as required of the City under Public Resources Code Section 41780.

2.2 Diversion

Contractor shall implement the Diversion programs set forth in this Agreement such that City will achieve minimum annual CalRecycle Diversion as required of City under Public Resources Code Section 41780. In this regard, Contractor agrees that it shall provide, undertake and perform the following at its sole cost and expense, in addition to any other Agreement requirement:

a. Assist City in responding to inquiries from CalRecycle or any other regulatory agency relating to this Agreement;

b. Assist City in preparing for, and participating in, CalRecycle's biannual review of City's Source Reduction and Recycling Element (SRRE) pursuant to Public Resources Code Section 41825;

c. Assist City in applying for any extension, including under Public Resources Code Section 41820, if so, directed by City;

d. Assist City in any hearing conducted by CalRecycle, or any other regulatory agency, relating to City's compliance with Applicable Law relating to this Agreement;

e. Assist City with the development of and implementation of a public awareness and education program that is consistent with City's SRRE and Household Hazardous Waste Element, as well as any related requirements of the Applicable Law;

f. Provide City with Recycling, source reduction, and other technical assistance as may be needed to comply with the Applicable Law;

g. Be responsible for and pay, any fees, penalties or other costs imposed against City by CalRecycle, and indemnify and hold harmless City from and against any fines, penalties, or other liabilities, levied against it for violation of the Diversion requirements, set forth in Public Resources Code Section 41780 to the extent arising from or in any way related to Contractor's performance of its obligations under this Agreement.

2.3 Exception

Notwithstanding other provisions of this Agreement, Contractor's obligations in this Article 2 will not extend to any loss, cost, liability, fine, penalty, damage, action, suit, duty, obligation, requirement, nonperformance, or noncompliance relating to, arising or resulting from, acts or omissions (i) not within the control of Contractor, (ii) constituting the active negligence, willful misconduct, material breach of this Agreement, or violation of law on the part of City, its officers or employees, (iii) in connection with the nonuse of a High Diversion Organic Waste Processing Facility for materials deposited in Black Containers prior to the Effective Date, or (iv) as limited by Public Resources Code Section 40059.1.

3 Conditions Governing Services Provided by Contractor

3.1 Grant of Exclusive Agreement

City hereby grants to Contractor, and Contractor accepts, on the terms and conditions set forth herein, an exclusive Franchise within the corporate limits of the City. The Franchise granted to Contractor shall be the exclusive right and privilege to Collect, Transfer, Transport, handle, Process, Recycle, and Dispose of in a lawful manner, all Solid Waste, Recyclable Materials, Organic Waste (including Green Waste and Food Waste), and C&D Debris accumulating in the City in accordance with the City's Municipal Code, for the Term of and within the scope set forth in this Agreement; provided, however, that if it has not done so, City shall, within five (5) days after the Effective Date, issue notice concerning C&D exclusivity hereunder in compliance with Public Resources Code Section 49520 and the exclusive right and privilege to Collect, Transfer, Transport, handle, Process, Recycle, and Dispose C&D Debris in the City shall commence on the earliest date permissible in compliance with Public Resources Code Section 49520.

3.1.1 Annexation

If during the term of the Agreement, additional territory within or adjacent to the City is acquired by City through annexation, subject to the requirements of Public Resources Code Section 49520, Contractor agrees to provide Solid Waste Handling Services in such annexed area in accordance with the provisions and Maximum Service Rates set forth in this Agreement.

3.2 Recyclable Materials and Organic Waste Discarded by Customer

Any Person may sell Recyclable Materials or Organic Waste or donate Recyclable Materials or Organic Waste to Persons other than Contractor, provided: (1) the Recyclable Materials or Organic Waste must be Source Separated from and not mixed with other Solid Waste; and (2) the seller/donor may not pay the buyer/donee any consideration for Collecting, Processing or Transporting such Recyclable Materials or Organic Waste. A discount or reduction in the price for Collection, Disposal and/or Recycling services for any form of un-segregated or segregated Solid Waste is not a sale or donation of Recyclable Materials or Organic Waste and such Solid Waste does not qualify for this exception. However, once the Recyclable Materials or Organic Waste have been placed in the Collection Container and the Container set out for Collection, the Recyclable Materials or Organic Waste is subject to Contractor's Franchise.

3.3 Exclusions of Exclusivity

The following are excluded from the Franchise:

3.3.1 Specialized Recyclable Materials

If Contractor is unable or unwilling to Collect and Process for Diversion Excluded Waste and/or waste to which a third party is able to sell or donate as specified in Section 3.2.

3.3.2 Byproduct of Food and Beverage Processing

Under AB 3036 (2018), certain byproducts from the Processing of food or beverages from agricultural or industrial sources, provided they are Source Separated and used as animal feed, are exempted from this Agreement. Entities requesting exemption must apply to the City and be any of the following: registered pursuant to Section 110460 of the Health and Safety Code or be exempted from registration pursuant to Section 110480 of the Health and Safety Code, or be a beer manufacturer as defined in Section 23012 of the Business and Professions Code, or a distilled spirits manufacturer as defined in Section 23015 of the Business and Professions Code.

3.3.3 Gardening or Landscape Services

Green Waste removed from a Premises by a gardening, landscaping, or tree trimming company as an incidental part of a total service offered by that company rather than as a hauling service are exempted from the Franchise.

3.3.4 Community Composting

Any Person performing Community Composting.

3.3.5 Structural Work Under a Proper Building Permit

Any Person permitted to Collect, Transport and Dispose of building material residue resulting from structural work under a proper building permit issued by the City as provided in Municipal Code Section 16.5 or a successor section.

3.4 South Pasadena Municipal Code

The provisions of the Municipal Code relating to Collection, Transfer, Transportation, handling, Processing, Recycling and Disposal are hereby incorporated into and made a part of this Agreement, and whenever the provisions of the Municipal Code conflict with the terms of this Agreement, the terms of the Municipal Code shall supersede the provisions of this Agreement, provided, for the avoidance of doubt Contractor's obligations will not extend to any loss, cost, liability, fine, penalty, damage, action, suit, duty, obligation, requirement, nonperformance, or noncompliance relating to, arising or resulting from, acts or omissions (i) not within the control of Contractor, (ii) constituting the active negligence, willful misconduct, material breach of this Agreement, or violation of law on the part of City, its officers or employees, (iii) in connection with the nonuse of a High Diversion Organic Waste Processing Facility for materials deposited in Black Containers prior to the Effective Date, or (iv) as limited by Public Resources Code Section 40059.1. In the event of a change in the Municipal Code, Section 15.2 (Change in Law) shall apply.

3.5 Prior Agreements

This Agreement amends and restates, and as a result, supersedes and replaces in its entirety all prior agreements or understandings between the City and the Contractor including the 2024 Agreement. In the event this Agreement is deemed null, void and of no force or effect by a court of competent jurisdiction, the agreements and understandings in force or effect prior to the Effective Date herein, shall apply.

4 Term

4.1 Term

This Agreement shall become effective on the Effective Date and continue and through and including the close of business on July 31, 2035 ("Expiration Date"); provided, however that beginning August 1, 2026, and each August 1 thereafter, automatic one-year extensions shall be applied to the Expiration Date (each an "Automatic Extension") so that the term of this Agreement shall thereafter remain at a constant ten (10) years (as may be extended, "Term").

4.2 Wind Down of Term

4.2.1 Notice of Intent to Wind Down

No earlier than five (5) years after the Effective Date, either party may issue a written notice of intent to cancel the Automatic Extension ("Notice of Intent to Wind Down"). The Notice of Intent to Wind Down may be issued by either party without cause.

4.2.2 Meet and Confer Period

The terminating party hereunder ("Terminating Party") shall host a minimum of two (2) negotiation sessions with the non-terminating party ("Non-Terminating Party") within ninety (90) days of the date upon which the Notice of Intent to Wind Down is received by Non-Terminating Party ("Meet and Confer Period"). The purpose of the Meet and Confer Period is to provide negotiation sessions to discuss, in good faith, rescission of the Notice of Intent to Wind Down in exchange for an amendment(s) to the Agreement. City and Contractor may, but are not obligated to, meet more frequently than required, provided that no such conferences shall act to extend or delay the Meet and Confer Period unless expressly agreed to in writing by the Parties.

4.2.3 Notice of Effective Wind-Down

No later than the end of the Meet and Confer Period, if the Terminating Party elects to cancel the Automatic Extension, the Terminating Party must deliver written notice to the Non-Terminating Party that it has concluded efforts to meet and confer in good faith and the Automatic Extension is canceled ("Notice of Effective Wind-Down"). Upon Notice of Effective Wind-Down, the Agreement will remain in full force and effect for a ten (10) year fixed term beginning on the date upon which the Notice of Intent to Wind Down was received by the Non-Terminating Party, unless sooner terminated pursuant to this Agreement.

4.2.4 Effectiveness

Notwithstanding any provision in this Agreement to the contrary, the cancellation of the Automatic Extension shall not become effective if (i) City and Contractor mutually agree to approve and execute an amendment to this Agreement as provided herein; (ii) the Terminating Party fails to hold the minimum number of good faith negotiation sessions during the Meet and Confer Period, provided that the Non-Terminating Party has not unreasonably postponed or delayed the scheduling of such sessions; or (iii) the Terminating Party fails to issue its Notice of Effective Wind-Down within the ninety-day period prescribed herein. Further, if the City issues notices to Contractor hereunder, the notices must be approved in advance by a majority vote of City Council.

4.3 Effective Date

This Agreement is hereby deemed effective when all of the following have occurred: (i) signing and delivery of this Agreement on behalf of the individual(s) authorized to bind Contractor hereto; (ii) approval of the Agreement by the City Council; (iii) this Agreement has been signed and delivered on behalf of the City by the individual(s) authorized to enter this Agreement on the City's behalf; (iv) the culmination of any

proceedings relating to Proposition 218, resulting in the approval by City Council of the Maximum Service Rates specified in Exhibit 1; and (v) the City Attorney indicates and delivers in writing its approval of this Agreement as to form.

5 Collection Services Provided by Contractor

5.1 Standard of Services

The scope of services to be performed by Contractor pursuant to this Agreement shall include the furnishing of all labor, supervision, equipment, materials, supplies, and all other items necessary to perform all requirements of this Agreement. The scope of services to be performed by Contractor pursuant to this Agreement shall be accomplished in a manner so that Customers are provided Solid Waste Handling Services and other services described in this Agreement at all times in accordance with local industry practice in similarly situated jurisdictions.

5.2 Commingling of Materials

Contractor shall not commingle Source Separated Black Container Waste, Source Separated Blue Container Waste, or Source Separated Green Container Organic Waste in any vehicles when Collected by Contractor unless otherwise approved by the Public Works Director, which shall not be unreasonably denied, conditioned, or delayed. Contractor shall not be deemed to have violated this Section where such materials were commingled prior to Collection by Customer or where the Container contains Prohibited Container Contaminants.

5.3 Collection of C&D

Contractor shall not be required to remove C&D Debris in the ordinary course of the Customer's regular Solid Waste Collection. Customers will be required to enter into separate Collection arrangements with Contractor for the Collection of such C&D Debris; provided, separate arrangements are not required for Customers that put out C&D Debris for Collection by Contractor if the work generating C&D Debris is minor in nature and is performed individually by Customer; provided, further, that such materials meet the volume and weight restrictions applicable to regular Collection of Solid Waste.

5.4 Collection Hours

Collection service must be provided, commencing no earlier than 7:00 a.m. and terminating no later than 5:00 p.m., Monday through Friday, and between the hours of 7:00 a.m. and 12:00 p.m., Saturday, except for Holidays in accordance with Section 10.2.2. The hours, day, or both of Collection may be extended due to extraordinary circumstances or conditions with the prior verbal or written consent of the City.

5.5 Collection Schedule and Routes

The schedule and routes for Solid Waste Collection shall be subject to approval of the Public Works Director, whose approval shall not be unreasonably denied, conditioned, or delayed. Contractor shall prepare and transmit to the Public Works Director a Solid Waste Collection, Bus Stop Barrel Collection, Street Sweeping Service, and City garage sweeping service schedule, together with a map of the Collection and Sweeping Service districts within the City.

5.6 Title to Solid Waste

Except as provided otherwise under Applicable Law, title to Solid Waste Collected by Contractor shall pass to Contractor at the time said materials are placed in Contractor's Collection vehicle and such title shall pass to parties that subsequently receive such materials upon deposit from Contractor.

5.7 Residential Collection Service System

5.7.1 Frequency and Scheduling of Service

Residential Collection service must be provided at minimum one (1) time per week for Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, and Source Separated Black

Container Waste on a scheduled route basis. Residential Collection service must be scheduled so that all Customers receive Collection service for all Customer Barrels or Bins on the same Workday unless the Public Works Director permits otherwise upon the request of Contractor.

5.7.2 Determination of Type of Service

Except as specified in this Agreement, Contractor shall determine the appropriate service type (Automated Collection Service for SFD-A Premises and Manual Barrel Collection Service for all other Residential Premises) and Container size, type, frequency, and quantity for each Customer, subject to reasonable disapproval of City. Designation of a Residential Premises as a SFD-A Premises by Contractor shall be subject to the reasonable disapproval of City and City shall make the final determination as to any disputes between Customer and Contractor arising from the provision of Automated Collection Service for SFD-A Premises.

5.7.3 Residential Manual Barrel Collection Service

5.7.3.1 Default Service

Contractor shall provide Manual Barrel Collection Service to all Residential Premises, excluding SFD-A Premises, whose Solid Waste is properly containerized in Solid Waste Barrels. As a default, Customers must receive, at minimum, one thirty-two (32) gallon green Barrel for Source Separated Green Container Organic Waste, one thirty-two (32) gallon blue Barrel for Source Separated Blue Container Waste, one thirty-two (32) gallon black Barrel for Source Separated Black Container Waste, and up to four additional Solid Waste Barrels, any combination of black, blue, or green, for a maximum seven (7) Barrels total, for Manual Barrel Collection Services. Extra Barrels, in addition to the default service, shall be subject to additional charge in accordance with Exhibit 1.

5.7.3.2 Supply and Placement of Residential Manual Barrels

Barrels shall be supplied by the Contractor and stored in, and returned to, a location on the Customer's Premises mutually and reasonably agreed to between Contractor and that Customer, but in no event in the City's public right-of-way.

5.7.3.3 Uncontainerized Materials

Notwithstanding any provision in this Agreement to the contrary, (i) Customers using Manual Barrel Collection Service may place clean cardboard next to their blue Barrels and (ii) Food-Soiled cardboard must be placed inside the green Barrel; provided in each case, cardboard is flattened and stacked neatly. All other Solid Waste must be placed inside Customer's Barrels. Contractor shall not be required to Collect any other Solid Waste that is not placed inside a Barrel or Collect any Barrel that is Overflowing or Overweight.

5.7.3.4 Rates for Residential Manual Barrel Collection Service

Contractor shall provide Residential Customers with Manual Barrel Collection Service at the Maximum Service Rates specified in Exhibit 1.

5.7.4 SFD-A Premises

SFD-A Premises shall receive Collection services, including Automated Collection Service, in accordance with Section 5.8.

5.8 Automated Collection Service System, for Commercial Premises, Including Multi-Family Premises, and SFD-A Premises

5.8.1 Provision of Service

Contractor shall provide Solid Waste Collection services to Customers at Commercial Premises, including Multi-Family Premises, and to SFD-A Premises with Containers supplied by the Contractor. Contractor shall perform waste assessments at all Commercial Premises, including Multi-Family Premises, and at all SFD-A Premises in the City to determine the appropriate number and size of Containers and Collection frequency for Solid Waste.

5.8.2 Default Service

Contractor shall determine the appropriate Container size, type, frequency, and quantity for each Customer; provided that, as a default, Customers will receive one 64-gallon Cart for Source Separated Green Container Organic Waste, one 96-gallon Cart for Source Separated Blue Container Waste, and one 1.5-cubic yard Bin for Source Separated Black Container Waste. The appropriate Container size, type, frequency, and quantity for each Customer of Collection will be determined by Contractor, subject to reasonable disapproval of City, following a waste assessment. However, Container size, type, frequency, and quantity must be sufficient to comply with Applicable Law and such that no Solid Waste needs to be placed outside the Collection Container.

5.8.3 Location and Emptying of Containers

Contractor shall place Containers to ensure that the flow of traffic is not impeded. Contractor shall determine the Container location, provided that if City determines the Collection location is a nuisance or safety concern, City shall make the final determination as to where Containers shall be stored on Premises, and from where they will be Collected. Contractor shall replace empty Containers to their original location with gates or doors of enclosures secured after Collection is completed. A Bin shall be considered properly located for Collection if it is feasibly accessible by Contractor's front-loading Collection vehicles. A Cart shall be considered properly located for Collection if it is feasibly accessible by Contractor's side-loading Collection vehicles. Contractor shall not be required to Collect any Solid Waste that is not placed inside a Container or Collect any Container that is Overflowing or Overweight.

5.8.4 Automated Collection Service

Contractor shall use Automated Collection Service to Collect Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, and Source Separated Black Container Waste from all Commercial Customers, including Multi-Family Customers, and from all SFD-A Customers. Contractor shall not Collect Source Separated Green Container Organic Waste from Commercial Customers, including Multi-Family Customers, that have been granted a waiver by the City. Contractor shall Collect all Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, and Source Separated Black Container Waste that is properly placed in Bins or Carts from all Commercial Customers, including Multi-Family Customers, and all SFD-A Customers at minimum one (1) time per week, or more frequently if needed to handle the amount of Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, and/or Source Separated Black Container Waste generated at the Premises, or to safeguard public health and safety. Contractor shall provide all Commercial Customers, including Multi-Family Customers, and SFD-A Customers with Automated Collection Service at the Maximum Service Rates specified in Exhibit 1.

5.9 Intentionally Omitted

5.10 Temporary Bin and Roll-Off Box Collection Service

The Contractor shall offer temporary Bin Collection service and temporary Roll-Off Box Collection service to Residential and Commercial Premises, including Multi-Family Premises, for the Collection of Solid Waste or C&D Debris. The Contractor shall deliver and Collect temporary Bins and Roll-Off Boxes at the direction of the Customer. Temporary Bins and Roll-Off Boxes shall be free of graffiti and in good repair and must be clearly marked and identifiable as belonging to the Contactor. In placing temporary Bins and Roll-Off Boxes, the Contractor shall not impede the flow of traffic. The designated Collection location, if disputed by the Customer or the Contractor, shall be determined by the City. Additionally, if in the City's opinion the location of an existing Collection location is inappropriate for aesthetic or safety reasons, City may require the Customer and/or Contractor to relocate the Collection location. Temporary Bin and temporary Roll-Off Box Collection service may require the Customer to obtain a City encroachment permit.

Contractor shall deliver loads of concrete, dirt or any other recoverable material to facilities that recover such materials. Contractor may charge no more than the Maximum Service Rates set forth in Exhibit 1 plus the actual Processing/Disposal cost per ton (net of any rebate for Recyclables).

5.11 Bulky Item Pick-Up Service

Except to the extent such service is provided in accordance with Section 6.6, Contractor shall provide Bulky Item pick-up service to all Customers in accordance with the rates specified in Exhibit 1.

5.12 Transportation, Disposal and Processing Service

Contractor shall Transport all Solid Waste that is Collected in City to a lawfully permitted Transfer facility, Materials Recovery Facility, Processing facility, or Disposal Facility. Source Separated Green Container Organic Waste shall be Transported to and Processed at an Organic Waste Processing facility. Recyclable Materials shall be Transported to and Processed at a Materials Recovery Facility. All other properly deposited Solid Waste shall be Transported to a facility which shall divert materials into Recyclables that can be Processed for recovery, and/or a facility for Solid Waste for Disposal at a landfill. For the avoidance of doubt, Contractor shall not be required to Transport Black Container Waste to a High Diversion Organic Waste Processing Facility. Notwithstanding any provision in this Agreement to the contrary, Contractor shall determine the facilities utilized under this Agreement subject to change by City as provided in Section 15.1 or in the event of public health or safety emergencies.

Contractor shall notify the City in writing each year on or before July 1st to identify all the facilities to which the Contractor will Transport Solid Waste. Contractor shall ensure that, at a minimum, all materials shall be weighed upon delivery to a Processing facility, Materials Recovery Facility or Composting facility, as applicable, and all weight and related delivery information recorded. For those facilities it operates, Contractor will permit visitation by City upon reasonable advance notice during normal operating hours and shall ensure that all scales are regularly maintained, accurate, and in compliance with Applicable Laws. Contractor shall ensure Disposal of any and all residue remaining from the Processing of Recyclable Materials and any non-processable materials in accordance with Applicable Law.

5.13 Contamination Monitoring

Contractor shall meet the SB 1383 Regulations contamination monitoring requirements by complying with Sections 5.13.1 or 5.13.2 as specified below.

5.13.1 Route Reviews

Contractor shall, at its sole expense, on an annual basis, commencing with the quarter after the Effective Date occurs, conduct Contractor Route Reviews for Prohibited Container Contaminants, in a manner

consistent with and as defined in 14 CCR Section 18984.5(b), in a manner deemed safe by Contractor. Containers may be randomly selected along Hauler Routes. Contractor shall develop a hauler review methodology in compliance with 14 CCR Section 18984.5(b) and submit it to City not more than annually upon the request of City.

5.13.2 Facility Waste Evaluations

Contractor shall, at its sole expense, at least twice per calendar year but no more than quarterly, commencing with the quarter after the Effective Date occurs, conduct waste evaluations that meet the requirements of 14 CCR Section 18984.5(c) with respect to waste delivered to a Contractor-owned or -controlled facility, or with respect to information otherwise accessible to Contractor that permits it to perform characterization studies in accordance with Applicable Law. City maintains the right to observe, or hire a third party to observe, the waste evaluations. Contractor shall develop a waste evaluation methodology in compliance with 14 CCR Section 18984.5(c), including corrective actions that shall be taken by Contractor in the event of Contamination of greater than twenty-five percent (25%), and submit it to City not more than annually upon the request of City. Waste evaluations shall occur in two (2) distinct seasons of the calendar year. Contractor shall maintain records required under 14 CCR Section 18984.6 related to its compliance hereunder. Reports shall be provided to the City upon request.

5.13.3 Contamination Protocols

Upon finding Prohibited Container Contaminants in a Container, Contractor shall follow the protocols set forth in this Section.

1. **Record Keeping.** The driver or other Contractor representative shall record each event of identification of Prohibited Container Contaminants in a written log or in the on-board computer system including date, time, Customer's address, type of Container (Black, Blue, or Green Container); and may maintain photographic evidence.
2. **First and Second Events.** Upon the first and second discoveries of Prohibited Container Contaminants in a Customer's Container within a given calendar year starting January 1, with the first calendar year starting on January 1, 2025, Contractor will Collect the contaminated waste if safe to do so and treat the waste as Black Container Waste for handling and billing purposes. Contractor shall provide the Customer a "Courtesy Pick-Up Notice." The Courtesy Pick-Up Notice shall: (i) inform the Customer of the observed presence of Prohibited Container Contaminants; (ii) include the date and time the Prohibited Container Contaminants were observed; (iii) include information on the Customer's requirement to properly separate materials into the appropriate Containers, and the accepted and prohibited materials for Collection in the Black Container, Blue Container, and/or Green Container; (iv) inform the Customer of the courtesy pick-up of the contaminated waste on this occasion with information that with a third and fourth discovery of Prohibited Container Contaminants, the Customer may be charged a Contamination Fee for each contaminated Container as described in Exhibit 1; (v) inform the Customer that with a fifth and any subsequent discoveries of Prohibited Container Contaminants, the Customer may be charged a Contamination Fee for each contaminated Container, and Contractor may increase the size of the Customer's Container or require an additional Container(s); and, (vi) may include photographic evidence. Contractor shall leave the Courtesy Pick-Up Notice attached to or adhered to the Customer's contaminated Containers; at the Premises' door or gate; or, subject to City's approval, may deliver the notice by mail, e-mail, text message, or other electronic message. Contractor shall attempt to contact the Customer if it appears Customer does not have the appropriate level of service for proper Collection of Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, or Source

Separated Black Container Waste. Contractor shall report issuance of Courtesy Pick-Up Notices to the City in accordance with Section 8.2.7.

3. **Third and Fourth Events.** Upon the third and fourth discoveries of Prohibited Container Contaminants within a given calendar year starting January 1, Contractor will Collect the contaminated waste if safe to do so and treat the waste as Black Container Waste for handling and billing purposes. Contractor shall provide Customer a "Contamination Fee Notice." The Contamination Fee Notice shall: (i) inform the Customer of the observed presence of Prohibited Container Contaminants; (ii) include the date and time the Prohibited Container Contaminants were observed; (iii) include information on the Customer's requirement to properly separate materials; (iv) indicate that the Customer will be charged a Contamination Fee as described in Exhibit 1 on their next bill; (v) inform the Customer that with a fifth and any subsequent discoveries of Prohibited Container Contaminants, the Customer may be charged a Contamination Fee for each contaminated Container and Contractor may increase the size of the Customer's Container or require an additional Container(s); and, (vi) include, for any assessed Contamination Fee, digital/visual documentation of Contractor's discovery of Prohibited Container Contaminants. Contractor shall leave the Contamination Fee Notice attached to or adhered to the Customer's contaminated Containers; at the Premises' door or gate; or, subject to City's approval, may deliver the notice by mail, e-mail, text message, or other electronic message. Contractor shall attempt to contact the Customer if it appears Customer does not have the appropriate level of service for proper Collection of Source Separated Green Container Organic Waste, Source Separated Blue Container Waste, or Source Separated Black Container Waste. Contractor shall report issuance of Contamination Fee Notices to City in accordance with Section 8.2.7.

4. **Five or More Events.** Upon each of the fifth and any subsequent discoveries of Prohibited Container Contaminants within a given calendar year starting January 1, Contractor will Collect the contaminated waste in the contaminated Container(s) if safe to do so, treat the waste as Black Container Waste for Handling and billing purposes, and charge a Contamination Fee for each event. Contractor shall provide Customer a "Contamination Fee Notice" as described above. Upon five (5) Business Days' notice to City and the Customer, Contractor may (i) increase the size of the customer's Container, require additional Containers to accommodate excessive Prohibited Container Contaminants, or increase collection frequency; (ii) impose a Contamination Fee equal to fees for a period of six (6) months or until the Customer has demonstrated Prohibited Container Contaminants are not in Containers for a period of three (3) consecutive months; and/or (iii) provide notice that Contractor has recommended that City commence any applicable code enforcement action against the Customer. City will consult with Contractor and consider, and pursue as applicable, appropriate legal remedies against offending Customers in order to secure discontinuance of the Prohibited Container Contaminants. All City costs of such action shall be recovered from the offending Customers.

5. **Disputes.** If a Customer disputes, in writing, an assessment of a Contamination Fee within thirty (30) days of the assessment, Contractor will temporarily halt any such assessment and Contractor may request a ruling by the Public Works Director to resolve the dispute. A request by Contractor to the Public Works Director to render a decision on any such dispute must be filed within ten (10) Business Days of receipt of a Customer's written dispute, and Contractor must include written documentation and digital/visual evidence of ongoing overall problems. Upon receipt of such documentation, the Public Works Director will adjudicate the dispute within ten (10) Business Days, and the Public Works Director's decision resolving the dispute between the Customer and Contractor will be final.

5.14 Education and Outreach

5.14.1 City-Specific Website

Contractor shall maintain a City-specific website that fully explains the Contractor's services, the Maximum Service Rates specified in Exhibit 1, the Diversion options available, and allows Customers to submit service changes, inquiries, or complaints. The website must describe and promote the use of the available services for Source Separated Black Container Waste, Source Separated Blue Container Waste, and Source Separated Green Container Organic Waste and include information pertaining to SB 1383 compliance including waiver information and location and contact information of City's Food Recovery Organizations. Contractor will ensure that information provided on the website is maintained and up to date. Content will include proper Container set out, educational materials, newsletters, and program descriptions.

5.14.2 Lists of Acceptable Materials (Website)

Contractor shall maintain an accurate list on its website of acceptable materials for deposit in Containers, by type, as appropriate to encourage source separation.

5.14.3 Education and Outreach Materials

Contractor shall provide education and outreach activities and create and disseminate educational materials to Customers as required by, and in conformance with, Applicable Law, including 14 CCR Section 18985.1. In accordance with the foregoing, Contractor will provide regularly scheduled notices, education materials, billing inserts, or other information disseminated to Customers as required by Applicable Law. Contractor shall maintain records of its education and outreach activities and provide this information upon request to City. All educational materials and informative literature shall be printed and made available in English, Spanish, and Mandarin. City has a shared responsibility to cooperate with Contractor with respect to the education and outreach activities and creation and dissemination of educational materials hereunder.

5.14.4 Available Services Notice and Information

At least annually, Contractor must publish and distribute (by mail or electronically) a notice to all Customers regarding the full range of services offered. The notice must contain at a minimum (i) Contractor's local customer service phone number and website (ii) procedures for properly filling and setting out Containers, (iii) instructions as to what materials may or may not be placed in Containers, (iv) the days when Solid Waste Collection services will be provided and Holidays when Collection Services will not be provided, (v) how to select Container sizes to maximize Diversion, (vi) the fees for overage and contamination in the event of non-compliance, (vii) Bulky Item Collection services, and (viii) the dates and locations of Free Compost Giveaway Days. The notice must be provided in English, Spanish, and Mandarin and must be distributed by Contractor no later than February 1st of each calendar year.

5.15 Edible Food Recovery Support

5.15.1 Identification of Commercial Edible Food Generators

No later than January 1, 2025, and annually every January 1 thereafter, Contractor shall assist City in identifying Customers that meet the definition of Tier One or Tier Two Commercial Edible Food Generator and provide to City a list of such Customers, which shall include the following information: Customer name, service address, contact information, Tier One or Tier Two classification, and type of business.

5.15.2 Identification of Edible Food Recovery Organizations

To support City's efforts to promote Edible Food Recovery programs Contractor shall maintain, and update annually each January 1, a list of Food Recovery Organizations and Food Recovery Services and information

about Edible Food Recovery on Contractor's website, which is specific to City and shall provide a link to information about City's Edible Food Recovery programs on Contractor's website.

5.15.3 Maintain and Promote Listings

Contractor shall cooperate with and assist City with the distribution of information to Commercial Edible Food Generators and Food Recovery Organizations regarding City's Edible Food Recovery programs.

5.16 Provision of Recovered Organic Waste Products

Contractor shall assist City in procuring sufficient quantities of Compost or Mulch, at composition levels to be determined by Contractor, to allow City to meet the City's required annual per capita procurement of products produced in accordance with 14 CCR Section 18993.1, at no cost, with such per capita procurement amounts prorated during any partial calendar year starting January 1 under this Agreement. Contractor shall comply with the recordkeeping and verification requirements of 14 CCR Section 18993.2. Upon request of City, Contractor will meet and confer with City to discuss an amendment intended to establish a program that would be designed to assist the City in securing sufficient quantities of California-derived Renewable Natural Gas, if commercially available to Contractor, to meet the City's required annual per capita procurement of products produced in accordance with 14 CCR Section 18993.1.

5.17 Emergency or Disaster Recovery Service

In the event of a tornado, major storm, earthquake, fire, natural disaster, or other natural disaster or similar emergency event, Contractor agrees to (ii) provide disaster recovery support to a reasonable degree, upon request by City and (ii) the City may grant the Contractor a variance from regular routes and schedules, which will not be withheld unreasonably. In the event Contractor receives a variance, Contractor must advise the City when it is anticipated that normal routes and schedules can be resumed. The City will make an effort through the local news media to inform the public when regular services may be resumed. For work performed hereunder, which may include the hauling of debris; special handling such as burrito wrapping (tarping a load with plastic to prevent debris from escaping); temporary storage of debris where feasible; additional Disposal; use of different facilities; and documentation of debris type, weight, and Diversion, Contractor will receive additional and reasonable compensation, above the normal compensation contained in this Agreement, to cover the costs of all documented expenses based on Contractor's actual costs plus a reasonable profit provided Contractor has first secured written authorization and approval from City.

6 Other City Services

6.1 City Public Facilities Collection

Contractor shall Collect, Transport, Recycle, Process, and/or Dispose of all Solid Waste produced by City at City Facilities without charge to the City.

6.2 City Special Events Collection

Contractor shall Collect, Transport, Recycle, Process, and/or Dispose of all Solid Waste produced at City's annual Fourth of July celebration and up to ten (10) other, annual special events, as reasonably requested by City, such as concerts in the park, farmer's market (provided the market is operated by the City or a non-profit corporation) and similar community celebrations without charge to the City.

6.3 City Bus Stop Barrel Collection

Contractor shall Collect, Transport, and Dispose of Solid Waste deposited in Barrels at City bus stops at the locations and by the schedule set forth in Exhibit 2, without charge to the City or Customer. The times, days, and Barrel locations specified in Exhibit 2 may be modified from time-to-time upon request of Contractor, upon approval of the Public Works Director, whose agreement shall not be unreasonably denied. Contractor shall empty the bus stop Barrel(s), supply the new Barrel liner, and replace the Barrel liner. Contractor shall remove any Solid Waste outside of the Barrel(s) at the bus stop and pressure wash as needed.

Notwithstanding any provision in this Agreement to the contrary and starting on the Effective Date, Contractor shall provide Bus Stop Barrel Collection without charge to City or Customers, provided that upon any notice as specified in Section 4.2 Contractor shall bill the City its then-existing rates for Bus Stop Barrel Collection set forth in Exhibit 1. Thereafter, Contractor shall invoice the City on the first Business Day of each month for Bus Stop Barrel Collection services rendered during the preceding month.

6.4 City Street Sweeping Service

Contractor shall provide Street Sweeping Service within City in accordance with Exhibit 3.

6.5 Compost Giveaway Events

Beginning January 1, 2025, at no additional cost to City or Customers, Contractor shall host two (2) "Compost Giveaway" events per calendar year, offering free Compost to Customers. Contractor shall host each event at a time and location mutually agreeable between the City and Contractor. During the event, Contractor shall distribute literature on SB 1383 compliance. All literature distributed at the event shall be printed and made available in English, Spanish, and Mandarin.

6.6 Free Bulky Item Collection Program

At no charge to City or Customer, Contractor shall provide one (1) curbside Bulky Item pick-up for up to five (5) Bulky Items per calendar quarter per Customer at Single Family, SFD-A, and Multi-Family Premises. Such service will be provided on a "use it or lose it" basis each calendar quarter. Customer or its representative shall notify Contractor at least one (1) Business Day in advance of scheduling the no-charge curbside Bulky Item pick-up. Collection shall be scheduled for the next regularly scheduled Collection day after receipt of a request or thereafter upon mutual agreement of Customer and Contractor. Any additional or expedited Bulky Item pick-ups shall be done in accordance with Section 5.11. Further, Contractor may collect Bulky Items from multiple jurisdictions on a single Collections route and, if so, will report to City tonnage utilizing a "volumetrics" methodology consistent with Contractor's practices in similarly situated jurisdictions.

6.7 Holiday Tree Collection

Contractor shall provide Holiday tree Collection for all Residential Premises, including SFD-A Premises, and Multi-Family Premises. Holiday trees must be placed at the curb or near a Customer's Container(s) for Collection during the three-week Collection period beginning January 2nd each calendar year during the term of this Agreement. Contractor must deliver the Collected Holiday trees to an appropriate facility for Disposal and/or Processing. This annual service will be provided at no additional charge to the Customer. Contractor is not required to divert Holiday Trees with tinsel, flocking, or ornaments.

7 Customer Billings, Charges, and Rates

7.1 Billings for Collection Services

Contractor is responsible for the billing and collection of payments for all services provided under this Agreement. Contractor shall bill Residential Customers, excluding SFD-A Customers, quarterly in advance for all services and Commercial Customers and SFD-A Customers monthly in advance for all services. The amount charged to Customers for all services shall not exceed the Maximum Service Rates established in Exhibit 1, as such rates may be adjusted under this Agreement.

7.2 Partial Month Service

If, during a month, a Customer is added or deleted, Contractor's billing will be pro-rated based on the weekly service rate (i.e., the service rate established in Exhibit 1 divided by four (4) times the number of actual weeks in the month that service was provided to the Customer).

7.3 Production of Invoices

Contractor shall prepare, mail, or electronically transmit, and collect bills (or shall issue written receipts for cash payments) for services provided by Contractor under this Agreement. Billing shall not be permitted more than fifteen (15) days prior to the initiation of Collection service period. Bills shall not be subject to late notification or charges until thirty (30) days following the closing day of the service period. Contractor shall include a customer service e-mail address and phone number on all billing notices. Contractor shall accept payment by check, credit card or ACH debit. Billings shall include sufficient space on the statement to accommodate up to twenty (20) typed characters as specified by the City. City shall have the right to revise the billing format, provided that reasonable notice is given. Where it has been determined that a Customer has overpaid for service for any reason, Contractor must provide the Customer a credit against future invoices or a refund (where the account is closing or as selected by the Customer, and where the refund amount exceeds the lesser of the regular invoicing amount or $200) within thirty (30) days of such determination.

7.4 Late Fees

Contractor may assess Customers a late payment fee of ten percent (10%) of the outstanding balance of any invoice after sixty (60) days, plus interest on the outstanding balance not to exceed an annual rate of twelve percent (12%). Such fees will be assessed if the outstanding balance is Five Dollars ($5.00) or greater.

7.5 Delinquent Service Accounts

The Contractor may discontinue service to a Customer who is delinquent in paying for services rendered no earlier than sixty (60) days after the last day of the billing period or that date on which the billing for the service period is delivered to the Customer, whichever is later. For this purpose, delivery of the billing shall include the date such billing is deposited by to Contractor into the U.S. Mail or delivered electronically. The Contractor shall notify the Customer and the Public Works Director or designee in writing of its intent to discontinue service not less than ten (10) Business Days before such discontinuation shall occur.

7.6 Annual City Approval of Maximum Service Rates

On or before May 1, 2027, and annually each May 1 during the Term of this Agreement, the Contractor shall notify the Public Works Director of the annual rate adjustments to the affected Maximum Service Rates. No later than each June 1, City shall notify Contractor of City's agreement or disagreement with Contractor's calculation of Maximum Service Rates. Any such agreement or disagreement shall occur at the administrative level.

7.7 Adjustments to Maximum Service Rates

Beginning on July 1, 2027, and each July 1 thereafter during the Term, Contractor shall, subject to compliance with all provisions of Section 7.8 and each subpart therein, receive an annual adjustment to the Maximum Service Rates as set forth in Exhibit 1.

7.8 Annual Rate Adjustment Formula

Each of the Maximum Service Rates provided by this Agreement consists of the Operations Component and the Disposal Component.

7.8.1 Operations Component

The Operations Component includes Contractor's then-current operational rate to Collect all Solid Waste, including Recyclable Materials and Organic Waste, from all Customers described in Section 5 according to the terms set forth in this Agreement. Also included in the Operations Component is Contractor's then-current operational rate to Transport all Solid Waste to the appropriate facility(ies). For the rate year beginning July 1, 2027 and each July 1 thereafter, the Operations Component is to be adjusted in proportion to the percentage change in Trash CPI for the immediately previous twelve-month period (March through February) plus one percent (+1%).

7.8.2 Disposal Component

The Disposal Component shall be based on the per ton costs incurred by Contractor for Disposal and Processing of all Solid Waste, including gate rates or Tipping Fees (inclusive but not limited to all taxes and surcharges) to Dispose and/or Process Solid Waste at the appropriate facility(ies). The Disposal Component is to be adjusted in proportion to the increase or decrease in costs as determined by the percentage change in gate rates or Tipping Fees (inclusive but not limited to all taxes and surcharges) at the appropriate facility(ies). Such Disposal Component adjustment shall not exceed the percentage change in Trash CPI for the immediately previous twelve-month period (March through February) plus one percent (+1%), as described above.

7.9 Special Rate Adjustment

In the event circumstances beyond the control of Contractor impose or generate extraordinary cost in the performance of the Agreement, including but not limited to unanticipated increases in Disposal and operational costs in excess of Trash CPI plus one percent (+1%), Contractor may petition City to determine if an adjustment in compensation is warranted to avoid undue financial hardship on Contractor. For each request, Contractor shall prepare a schedule documenting the extraordinary costs. Such request shall be prepared in a form acceptable to City with support for assumptions made by Contractor in preparing the estimate of extraordinary costs. City shall review Contractor's request and, in City's sole judgment, make the final determination on the adjustment, provided, however, that approval of such request not be unreasonably withheld. Further, the Parties agree that if Contractor uses a Disposal Facility other than the San Bernardino County landfill system, subject to City approval, then increases or decreases in the Tipping Fee portion of the Disposal Component for such alternate Disposal Site may be adjusted in excess of the percentage change in the Trash CPI plus one percent (+1%), in accordance with this Section 7.9.

7.10 Proposition 218

7.10.1 Hearing Procedures

At the City's election, in the City's sole discretion and without admitting the applicability of Proposition 218 (California Constitution Article XIII D) to the rates specified in Exhibit 1, City may determine to comply with

the hearing and other requirements of Proposition 218 and the Proposition 218 Omnibus Implementation Act ("Proposition 218") with respect to the City's adjustment of the rates required to be paid by Customers.

7.10.2 Rate Invalidation Procedures

Within thirty (30) days of an Invalidation Action, City must provide written notice to Contractor identifying such action, with a written justification explaining why City is prohibited or disallowed from establishing, implementing, or adjusting Maximum Service Rate(s), in whole or in part ("Invalidation Notice"). Upon Contractor's receipt of an Invalidation Notice, Contractor will present an accounting of the amounts otherwise due and payable to Contractor but for the Invalidation Action. City and Contractor shall immediately meet and confer and agree to discuss (i) revisions to the schedule of Maximum Service Rates or City payment that may be acceptable to Contractor and/or (ii) adjustments to the services and programs in order to provide minimum State mandated services and programs within the then existing schedule of Maximum Service Rates ("Response Actions"). City and Contractor will negotiate in good faith and will not unreasonably withhold agreement to such Response Actions. If City and Contractor do not reach an agreement within sixty (60) days of the Contractor's receipt of the Invalidation Notice, or as extended by mutual agreement of the parties, Contractor may, notwithstanding Sections 4.1 and 4.2, terminate this Agreement at any time without cause or penalty, provided that termination shall not be effective until at least thirty (30) days' after Contractor issues a written notice of termination. During such period, Contractor will cooperate with City to transition services to City or its designee. Contractor's rights hereunder are in addition to any other rights of Contractor upon the invalidation of any Maximum Service Rate(s) that would otherwise be due and payable to Contractor.

8 Recordkeeping and Reporting

8.1 Recordkeeping

8.1.1 Accounting Records

Contractor shall maintain financial statements and other relevant information consistent with generally accepted business practices pertaining to Collection services provided under this Agreement, prepared on an accrual basis. The City retains the right, upon reasonable notice, to inspect and audit Contractor's financial statements and records with respect to services provided pursuant to this Agreement to confirm compliance and the calculation of Maximum Service Rates pursuant to Section 7 (Customer Billings, Charges, and Rates) and Section 9 (Fees Paid to City). The Parties acknowledge and agree that Contractor's financial information and records constitute proprietary information and trade secrets of Contractor. All financial information provided to City shall be held strictly confidential and not publicly disclosed, to the maximum extent permitted by law, and City shall use its best efforts to prevent any such disclosure. In the event that the audit concludes that Contractor is not in compliance and such non-compliance is material, which shall mean any underpayments greater than $50,000 or more as adjusted annually each July 1 by CPI, Contractor shall reimburse the City for the full cost of the audit plus any underpayments discovered during the audit.

8.1.2 Records Preservation

Contractor shall keep and preserve, during the Term of this Agreement, and for a period of not less than five (5) years following expiration or other termination hereof (or such longer time period if required by Applicable Law), full, complete, and accurate records, including all cash, billing and Disposal records, as indicated in the Agreement.

8.1.3 Materials Records

Contractor must maintain records of the quantities of (i) Residential, including, SFD-A, Multi-Family and Commercial Solid Waste Collected and Disposed under the terms of this Agreement, (ii) Recyclable Materials, by type, Collected, purchased, Processed, sold, donated or given for no compensation, and residue Disposed under the terms of this Agreement, (iii) Organic Waste by type, Collected, purchased, Processed, sold, donated or given for no compensation, and residue Disposed under the terms of this Agreement, and (iv) Construction and Demolition Debris Collected and Disposed under the terms of this Agreement.

8.1.4 Senate Bill 1383 Implementation Record

Notwithstanding any provision in this Agreement to the contrary, Contractor shall prepare and maintain the records identified in 14 CCR Section 18995.2(f), arising from the Organic Waste Collection services performed by Contractor and assist City in reporting such information.

8.1.5 Other Records

Contractor must maintain all other records reasonably related to provision of Solid Waste Handling Services and compliance with AB 939, AB 341, AB 1826, SB 1383, and all Applicable Laws, whether or not specified in this Agreement.

8.1.6 Access to Records

Contractor shall provide City with business hours access to and any necessary training for use of a Contractor-hosted recordkeeping system in order to validate Contractor performance in accordance with the Organic Waste program. City reserves the right to require Contractor to periodically submit all reports

and information by electronic means in a format approved by the City. The City also reserves the right to require Contractor to transfer Customer data periodically electronically to a City-selected web-based software platform.

8.2 Quarterly Reporting

Quarterly reports must be submitted no later than 5 p.m. PT on the last day of the month following the end of quarter in which the receipts are collected and must be provided electronically using software acceptable to the City. If the last day of the month falls on a day that City is closed or a Holiday, then the report will be due on the next Business Day. Quarterly reports to City must include:

8.2.1 Franchised Tonnage and Service Data

Contractor must report the number of unique Residential, including SFD-A, Commercial and Multi-Family Dwelling accounts serviced, tonnage of Solid Waste Collected and Processed for Diversion broken down by Container type, and residual amounts from Recycling and Organic Waste Diversion operations that are landfilled. Quantities and accounts should be broken down by Single-Family Premise (excluding SFD-A Premises), SFD-A Premise, Multi-Family Premise, Commercial Premise, and City Service Collection services. Reports must have tonnage assigned appropriately to Residential and Commercial generators.

8.2.2 Franchise Fee Payment Reporting

The report must include an accounting of Contractor's Gross Receipts received during the preceding quarter and the calculated Franchise Fee.

8.2.3 Overweight Vehicle Reporting

The quarterly report must include a summary total of all instances of Overweight Collection vehicles. This summary must include the number of Overweight vehicle instances expressed as a percentage of the total number of Collection vehicle loads transported during the reported quarter.

8.2.4 Non-Collection

The quarterly report must include a summary of each service unit receiving a Non-Collection Notice in the previous quarter.

8.2.5 On-Hold

The quarterly report must include each service unit that was not billed in the previous quarter due to vacation hold, vacancy etc.

8.2.6 Collection Overage Charges

The quarterly report must include each service unit incurring a charge for a Solid Waste Overage in the previous quarter.

8.2.7 Contamination Reporting

To the extent required by Applicable Law, the quarterly report must include a summary of all instances of qualifying contamination under the procedures in Section 5.13. This summary must include the total number of accounts where contamination occurred (where Courtesy Pick-Up Notices were issued), the total number of Contamination Fee Notices issued by Contractor to Customers, a list of accounts where such notices occurred, and the total number of instances where Collection Container size or Collection frequency was increased specifically due to contamination. Within twenty (20) Business Days of request by City, Contractor will provide copies of the Contamination Fee Notices and the digital documentation of Prohibited Container Contaminants.

8.2.8 Customer Service Log

The quarterly report must include the Customer service log collected from the previous quarter as required in Section 10.3.2 of this Agreement.

8.2.9 Data Transfer

If required by City, Contractor shall submit all reports by electronic means in a format compatible with the City's computers and software. At Contractor's expense, Contractor will provide City with business hours access to and any necessary training for use of a Contractor-hosted records systems in order to obtain and transfer Customer data.

8.3 Annual Reporting

An annual report must be submitted no later than 5 p.m. PT on March 1, 2025 and each March 1st thereafter for the previous calendar year. If March 1st falls on a day that City is closed, then the report will be due on the next Business Day. Annual reports must be provided electronically in software acceptable to the City. Annual reports shall summarize all information provided in the Quarterly Reports for the previous calendar year. In addition, the annual report shall include the following:

8.3.1 Organic Waste Data

Contractor shall provide an annual report of the information identified in 14 CCR Section 18994.2.

8.3.2 Financial Report

The number of Single-Family (including SFD-A), Commercial and Multi-Family service units provided with Collection Services by service type, Container size, frequency of service and current billing rate including any additional services, the Contractor's Gross Receipts for each type of service unit, and the amount received for the sale of Recyclable Materials.

8.3.3 Education and Outreach Report

Contractor shall document all education and outreach activities conducted throughout the calendar year including, but not limited to, City event participation, school visits, site visits and waste assessments completed, bill inserts distributed, and tours and other activities related to the provision of Collection Services.

8.3.4 Property Damage and Personal Injury

A description of all cases of property damage and personal injury that have occurred while providing services for City pursuant to this Agreement in the immediate past calendar year.

8.3.5 Traffic Citations

A copy or description of all traffic citations received while providing services for City pursuant to this Agreement in the immediate past calendar year.

8.3.6 Collection Container and Vehicle Inventory

An updated complete inventory of Collection Containers by type and size, and an updated complete inventory of Collection vehicles including for each vehicle: make, model, year, license number, identification number and ownership, route number, date purchased, vehicle type, and tare weight.

8.3.7 Customer Service Log

A copy of the Customer service log, including a summary of the type and number of complaints and their resolution. Copies of a written record of all calls related to missed pick-ups and responses to such calls.

8.3.8 Summary Narrative

A summary narrative of problems encountered with Collection and Processing activities and actions taken. Indicate type and number of notices left at Customer locations. Indicate instances of property damage or injury, significant changes in operation, market factors, publicity conducted, needs for publicity, and similar information. Include description of Processed material loads rejected for sale, reason for rejection and disposition of load after rejection.

8.4 CalRecycle Reports

Contractor will prepare and submit annual reports to CalRecycle (the "Electronic Annual Report" or EAR), that includes, but is not limited to, supplying required data for preparation of the reports and completing all required data input in CalRecycle's reporting system. In the event that CalRecycle requires City to report an "Implementation Schedule" to comply with Applicable Law, Contractor will provide assistance to City in preparing a report, including Contractor's policies and procedures related to compliance with Applicable Law and how Recycling or Organics are Collected, a description of the geographic area, routes, list of addresses served and a method for tracking contamination, copies of Route Reviews, copies of notices, violations, education and enforcement actions issued, and copies of educational materials, flyers, brochures, newsletters, website, and social media. CalRecycle reports shall be provided to the City for review and approval no less than thirty (30) days prior to the report due date.

9 Fees Paid to City

9.1 Franchise Fee

In consideration of the rights provided to Contractor herein and as set forth in Section 3.1 of this Agreement, for the entire Term of this Agreement, Contractor shall pay City, in accordance with Section 9.4, a Franchise Fee of ten percent (10%) of all Gross Receipts received by Contractor under this Agreement. The Franchise Fee may be adjusted by resolution of the City Council. In the event the City adjusts the Franchise Fee, the City shall adjust the Maximum Service Rates by a commensurate amount to reimburse Contractor for additional Franchise Fee costs.

9.2 Recycling Revenue Sharing

On a quarterly basis (within forty-five (45) days after each quarter), Contractor shall remit (or cause the operator of the MRF at which Contractor deposits Solid Waste Collected within the City) to City twenty-five percent (25%) of the net revenue generated from sales of Recyclable Materials Collected by Contractor within the City. For purposes of this Section, net revenue shall mean Gross Receipts generated from such sale minus any amount paid to the users of the Recyclable Materials as incentives to divert materials. Contractor shall, on an annual basis, provide to the City a report describing the quantity of Recyclable Materials, the dollar value of those sold and the net revenue paid to the City, and explain the reasons, therefor.

9.3 Solid Waste Handling Fee

Commencing on December 1, 2031, and on each seventh anniversary thereafter, provided neither party has given Notice of Intent to Wind-Down as provided in Section 4.2, Contractor shall remit to City an amount equal to $84,782.90, as adjusted herein, to be used toward facilitating City's Solid Waste Handling operations ("Solid Waste Handling Fee"). The Solid Waste Handling Fee shall be adjusted in proportion to the percentage change in the CPI for the seven (7) previous twelve-month periods (March through February). Upon any notice as provided in Section 4.2, this Section 9.3 shall be of no further force or effect and Contractor shall not be obligated to pay any further fees under this Section 9.3

9.4 Time and Method of Payment; Late Fees

Fees owed to City shall be computed and paid based on Gross Receipts received each calendar quarter. Contractor shall prepare and mail such remittance on a quarterly basis to the Finance Director, and such remittance must be delivered or postmarked no later than forty-five (45) days following the end of each quarter.

Contractor shall pay interest on all unpaid, undisputed fees at the rate of six percent (6%) per annum from the date the fees were due and payable to the date actually paid.

If a delay is due to extenuating circumstances, Contractor must request approval in writing from the Public Works Director at least five (5) Business Days prior to the date on which fees and reports are due. City shall contact Contractor within three (3) Business Days of receiving request for submission delay as to whether delay shall be permitted.

9.5 Disputes

In the event of any disputes between the Contractor and the City with respect to the fees described in this Section 9, the City shall provide the Contractor with written objection within 180 days of the receipt of the report described in Section 8.2.2, indicating the portion of the report that is disputed and providing all reasons then known to the City for its objection to or disagreement with such amount. All amounts paid may be subject to independent financial audit and recompilation by the City. If, after a financial audit, such

recompilation indicates an underpayment or if an underpayment is determined by agreement, mediation, legal proceeding or otherwise, Contractor shall pay to City the amount of the underpayment, with interest thereof at the rate set forth in Section 9.1 from the date the underpayment amount was due to the City. If the objection was in good faith and the underpayment exceeds three percent (3%), Contractor shall reimburse City for all reasonable costs and expenses incurred in connection with the dispute within ten (10) Workdays of receipt of written notice from City that such is the case. If, the review indicates an overpayment, City shall notify Contractor in writing of the amount of the overpayment. Contractor may offset the amounts next due following receipt of such notice by the amount specified therein. Nothing contained in this subsection shall limit the authority of any authorized officer of the City or any other governmental agency to raise a further objection to any amount billed by the Contractor pursuant to an audit conducted pursuant to Applicable Law.

10 Quality of Performance of Contractor

10.1 City-Contractor Meetings

The Parties shall meet and confer at least once per quarter, upon the request of any Party, to discuss any matters arising from or relating to the Agreement as determined by the requesting Party.

10.2 Collection Performance Standards

10.2.1 Hours of Collection

The collection of Solid Waste shall only occur between the hours of 7:00 a.m. and 5:00 p.m., Monday through Friday and between the hours of 7:00 a.m. and 12:00 p.m., Saturday. Collection services will not take place on Sundays. Collection earlier than 7:00 a.m. may be authorized upon written approval of the Public Works Director; provided, that Contractor gives written notice to the affected Customers at least ten (10) days prior to the earlier Collection. To the extent reasonably possible, Collections on each route shall commence at the same point, at the same time and follow the same route each time Collections are made.

10.2.2 Holiday Service

The City observes New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day as legal holidays. Contractor is not required to provide Collection services or maintain office hours on these designated Holidays. In any week in which one of these Holidays falls on a Workday, Residential Collection Services for the Holiday and each Workday thereafter will be delayed one Workday for the remainder of the week with normally scheduled Friday Collection Services being performed on Saturday.

10.2.3 Accessibility

Contractor must Collect all Collection Containers that are readily accessible to Contractor's crew and vehicles and not blocked. However, Contractor may provide "push services" and "stinger/scout truck services" as necessary at the Maximum Service Rates set forth in Exhibit 1. Push services include, but are not limited to, dismounting from the Collection vehicle, moving the Collection Containers from their storage location for Collection and returning the Collection Containers back to their storage location. Stinger/scout truck services provide for the retrieval of Collection Containers from locations with accessibility constraints that make Containers difficult or impossible to access using regular trash collection trucks.

10.2.4 Manner of Collection

The Contractor must Collect Solid Waste with as little disturbance as possible and must leave any Container in an upright position at the same point it was Collected without obstructing alleys, roadways, driveways, sidewalks, or mailboxes. Contractor's employees providing Collection Service must follow the regular walk for pedestrians while on private property and may not trespass nor cross property to the adjoining Premises unless the occupant or owner of both properties has given permission. Care should be taken to prevent damage to property, including flowers, shrubs, and other plantings.

10.3 Contractor's Customer Service

10.3.1 Customer Service Representative and Performance Standards

All service inquiries and complaints will be directed to Contractor. A representative of Contractor must be available to answer inquiries and receive complaints during normal business hours. All service complaints will be handled by Contractor in a prompt and efficient manner. In the case of a dispute between Contractor and a Customer, the matter will be reviewed, and a decision made by the Public Works Director.

Contractor shall maintain a local telephone number and maintain telephone listings in the directories of the telephone companies servicing Customers in the name by which the firm is most commonly known.

Contractor shall not repeatedly allow Customer service calls to be put on hold for longer than two minutes.

Contractor shall not repeatedly allow Customer service calls to ring more than ten (10) times.

Contractor's Customer service representatives will treat all Customers in a friendly and courteous manner.

Contractor's Customer service representatives will be fully knowledgeable about this Agreement and the services provided hereunder.

10.3.2 Customer Service Log

Contractor shall maintain a written record of all service requests and complaints received, including the name, address, and telephone number of the Customer, a description of the service requests and/or complaints, the time the service request and/or complaint was received, the action taken in response to the service request/complaint, and the time the responsive action was taken. Contractor shall provide City with a copy of the written Customer Service Log as described in Section 8.3.7.

10.3.3 Complaints and Claims

In the event any Customer reports to the Public Works Director a complaint or claim has not been resolved to the Customer's reasonable satisfaction, the Public Works Director may require Contractor to present a detailed report outlining the nature of the complaint and remedies proposed or action taken to resolve the complaint or claim. If, in the reasonable opinion of the Public Works Director, Contractor's remedies proposed and action taken are insufficient to resolve adequately the complaint or claim, then the Public Works Director may require Contractor to carry-out an alternative reasonable remedy process intended to resolve the complaint or claim. The remedies will be carried out at no cost whatsoever to City, unless otherwise specified by the Public Works Director. For those complaints related to repair or replacement of Collection Containers, the appropriate Sections of this Agreement will apply.

10.3.4 Missed Collections

For those complaints related to missed Collections, where Containers are properly and timely set out, that are received by 12:00 noon on a Workday, Contractor will return to the Service Unit address and Collect the missed materials before leaving the City for the day. For those complaints related to missed Collections that are received after 12:00 noon on a Workday, Contractor will have until the end of the following Workday to resolve the complaint.

10.4 Collection Vehicle Requirements

10.4.1 General

Contractor shall provide vehicles that are sufficient in number and capacity to efficiently perform the work required by this Agreement.

10.4.2 Reserve Equipment

Contractor shall have available to it, at all times, reserve Collection equipment which can be put into service and operation so as to prevent an interruption of services Citywide. Such reserve equipment must correspond in size and capacity to the equipment used by the Contractor to perform the contractual duties.

10.4.3 Appearance

Contractor shall paint each vehicle periodically (including performing all necessary body work), as frequently as necessary to keep clean and in good repair. Contractor shall mark the rear, and both sides of each vehicle

with the Contractor's name, telephone number, and a vehicle number in letters contrasting sharply with the color of the truck and not less than six (6) inches in height. Contractor shall maintain each vehicle in a clean and sanitary condition both inside and out.

10.4.4 Maintenance

Contractor shall perform all scheduled maintenance functions upon Collection vehicles in accordance with the manufacturer's specifications and schedule. Contractor shall repair, or arrange for the repair of, all its vehicles and equipment for which repairs are needed because of accident, breakdown, or any other cause to maintain all equipment in a safe and operable condition. Contractor shall keep accurate records of all Collection vehicles maintenance and repair, recorded according to date and mileage, including signed verifications that repairs and maintenance has been properly performed, and shall make such records available to City upon request.

10.4.5 Emissions

Contractor's Collection vehicles shall comply with all rules and regulations of the South Coast Air Quality Management District, California Air Resources Board, and any other air-quality regulatory body that may be in authority during the Term of this Agreement.

10.4.6 Noise

Contractor’s vehicles using compaction mechanisms during the stationary compaction process shall not exceed a noise level of seventy-five (75) decibels (dB) twenty-five (25) feet from the Collection vehicle measured at an elevation of five (5) feet above ground level. Contractor shall submit to City, upon City's request, a certificate of vehicle noise level testing, by an independent testing entity, for any Collection vehicle which City or Contractor has received more than two complaints from different Customers regarding excessive noise in a twelve-month period.

10.4.7 Safety

Each vehicle used for Collecting, Transporting, Transferring, handling, Processing, or Disposing of Solid Waste shall be equipped with an audible warning device that is activated when the vehicle is backing up.

10.4.8 Litter Abatement and Minimization of Spills

Each truck shall be constructed and used so that Solid Waste, oil, grease or other fluids or liquids will not blow, fall or leak out of the truck onto the street. All Solid Waste shall be Transported by means of vehicles equipped with water-tight bodies fitted with close fitting metal covers. If any Solid Waste is dropped or spilled in Collecting, Transferring or Transporting, it shall be immediately cleaned up. A broom and shovel shall be carried on each truck at all times for this purpose. Any equipment oil, grease or any other fluids or liquids spilled must be covered immediately with an absorptive material and removed from the street surface. Contractor must notify the City’s Public Works Director within two (2) hours of any spills resulting from Contractor’s operations or equipment. When necessary, Contractor must apply a suitable cleaning agent and cleaning technique to the street surface to provide adequate cleaning as approved by the City’s Public Works Director to be compliant with the City’s stormwater permit. If required by Applicable Law, Contractor shall undertake any reporting and/or assist in the reporting related to any spill. If Contractor has not cleaned up such droppings or spill within a reasonable time then all expenses incurred by City in the collection and disposal of any such spilled or dropped Solid Waste, oil, grease or other fluids or liquids shall be paid to City, on demand, by Contractor.

10.4.9 Inspection of Vehicles

Contractor shall inspect each Collection vehicle daily to ensure that all equipment is operating properly. Collection vehicles that are not operating properly shall be removed from service until repaired and operating properly.

Contractor shall regularly inspect each Collection vehicle to ensure it meets the requirements of the California Vehicle Code. Upon request of the Public Works Director, Contractor shall provide to the City copies of its Biannual Inspection of Terminal ("BIT") inspection reports (including all attachments) to City within thirty (30) days of its receipt of such reports. Upon request of the Public Works Director, Contractor shall furnish City a written inventory of all equipment, including Collection vehicles used in providing service pursuant to this Agreement. This inventory shall list all equipment by manufacturer, ID number, date of acquisition, type, and capacity. Contractor shall make its BASIC Score as derived by the Federal Motor Carrier Safety Administration available to City upon request by the Public Works Director. City may cause or require any Collection vehicle used in performance of this Agreement to be inspected and tested at any time and in such manner as may be appropriate to determine that the vehicle is being maintained in compliance with the provisions of this Agreement.

The Chief of Police, Public Works Director or City Manager may authorize the removal of any vehicle from service if said vehicle is found to be in noncompliance with the California Vehicle Code. Vehicles shall not be returned to service until duly authorized by the Chief of Police or the Public Works Director.

10.4.10 Vehicle Certification

For each Collection vehicle used in the performance of services under this Agreement, Contractor must obtain a certificate of compliance (smog check) issued pursuant to Part 5 of Division 26 of the California Health and Safety Code (Section 43000 and following) and regulations promulgated thereunder and/or a safety compliance report issued pursuant to Division 14.8 of the California Vehicle Code (Section 34500 and following) and the regulations promulgated thereunder, as applicable to the vehicle. Contractor must maintain copies of such certificates and reports and must make such certificates and reports available for inspection upon request by the Public Works Director.

10.5 Containers

10.5.1 New Barrels for Residential Manual Barrel Collection Service

Contractor is required and shall provide new Barrels (Black, Blue, and Green) to all Customers receiving Residential Manual Barrel Collection Service. Contractor shall, in good faith, make efforts to diligently provide the new Barrels to Customers without undue delay beginning as of the Effective Date and shall coordinate with the City in that effort, including determining a reasonable and timely delivery schedule for all new Barrels subject to availability.

Subsequent to the delivery of the new Barrels, Contractor will provide one-time free pick-up of Barrels currently in use by Customers (“Used Barrels”). Contractor and City shall coordinate and agree as to when and how the pick-up will be accomplished and how noticing will be provided to Customers. If Customer authorizes the pick-up of the Used Barrels, Contractor shall Recycle or properly Dispose such Used Barrels. Contractor shall also Collect Solid Waste in any Used Barrels at the time of pick-up.

10.5.2 Container Collection; Tagging

Contractor shall only be required to Collect Containers that are delivered by Contractor and comply with SB 1383. Contractor will not Collect Containers that are not supplied by Contractor. Contractor shall “tag” any Containers set for Collection that are not supplied by Contractor and do not comply with SB 1383.

10.5.3 Ownership of Collection Containers

Ownership of Collection Containers distributed by Contractor is vested in Contractor.

10.5.4 Container Labeling Requirements

Contractor shall, in accordance with 14 CCR Section 18984.8, imprint or place a label on the body or lid of each new Container that has been provided by Contractor to a Customer that includes language or graphic images, or both, indicating the primary materials accepted and the primary materials prohibited in that Container. The imprint or label shall include Contractor company name and telephone number.

10.5.5 Container Color Requirements

Notwithstanding any provision in this Agreement to the contrary, all Containers provided by Contractor to Customers must comply with the color requirements specified in 14 CCR Section 18984.7 under the timelines and requirements of such section. Containers shall be colorfast and resistant to fading as a result of weathering or ultraviolet degradation, and the lids and bodies shall be uniform for each Container type, as follows: (i) Black Container bodies and lids shall be black; (ii) Green Container bodies and lids shall be green; and (iii) Blue Container bodies and lids shall be blue. Hardware such as hinges and wheels on the Containers may be a different color than specified herein.

10.5.6 Handling of Collection Containers

All Collection Containers shall be placed upright. Containers shall not be placed or thrown on streets, alleys, highways, or adjoining property. Contractor and Contractor's agents or employees shall not cause Collection Containers to be thrown from the truck to the pavement or parkway, or in any other way break or damage or roughly handle the same. Any claim for damage to Containers, resulting from misuse or rough handling of the Containers by Contractor, shall be presented to Contractor by Customer. Contractor shall make a decision concerning settlement within five (5) Business Days after receipt of such claim.

10.5.7 Repair of Collection Containers

Contractor is responsible for repair of Collection Containers. Within five (5) Workdays of notification by City or Customer of the need for such repairs, Contractor must repair the Collection Container or if necessary, remove the Collection Container for repairs and deliver a replacement Collection Container to the Customer. Collection Container repair also includes the removal of graffiti from the Collection Container.

10.5.8 Replacement of Collection Containers

Contractor's employees must avoid damage to Collection Containers by unnecessary rough treatment. Any Collection Container damaged by the Contractor must be replaced by Contractor, at Contractor's expense, within five (5) Workdays at no cost or inconvenience to the Customer. Contractor shall replace up to one (1) lost, destroyed, or stolen Barrel per calendar year at no charge to the Customer unless such loss or destruction is caused by Customer. Contractor will be compensated for the cost of all other replacements at the Maximum Service Rates set forth in Exhibit 1. Contractor must deliver a replacement Collection Container to Customer within five (5) Workdays.

10.5.9 Container Exchange

Upon notification to Contractor by City or Customer that a change in their Collection Containers is required, or if Contractor deems a change is necessary to provide services in accordance with Applicable Law subject to City disapproval, Contractor must deliver such Collection Containers to such Customer within five (5) Workdays. Contractor is allowed to charge the Customer for the cost of exchanges in accordance with the appropriate "Collection Container Exchange" service rate set forth in Exhibit 1 as may be adjusted by City

under this Agreement. Additional Collection Containers or different size Collection Containers are subject to the applicable Maximum Service Rate set forth in Exhibit 1.

10.5.10 Newly Painted Bins and Roll-Off Containers

Contractor shall supply newly painted Bins and Roll-Off Containers in good condition which comply with Collection Container specifications in Section 10.5. If any changes to these specifications are adopted after the Effective Date that results in Contractor being required to replace Collection Containers before they have been fully depreciated, Contactor will be eligible for additional compensation in accordance with Section 15.1.

10.5.11 Bin and Roll-Off Signage, Painting, and Cleaning

All metal Bins and Roll-Offs of any service type furnished by Contractor must be either painted or galvanized. All metal or plastic Bins and Roll-Offs must display Contractor's name, Contractor's customer service telephone number, and the number of the Bin or Roll-Off and must be kept in a clean and sanitary condition. Bins and Roll-Offs should be free of dents and newly painted at the start of this Agreement and painted as needed to maintain an orderly appearance throughout the Term of the Agreement, but not less frequently than once every three (3) calendar years. Bins and Roll-Offs may be subject to periodic, unscheduled inspections by City and determination as to sanitary condition will be made by City.

10.5.12 Safety Markings

All Collection equipment used by Contractor must have appropriate safety markings including, but not limited to, highway lighting, flashing, and warning lights, clearance lights, and warning flags. All such safety markings must be in accordance with the requirements of the California Vehicle Code, as may be amended from time to time.

10.6 Personnel

10.6.1 General Requirements

Contractor must employ and assign qualified personnel to perform all services required under this Agreement.

In providing services for City, Contractor shall not discriminate against any employee or applicant for employment because of race, creed, color, national origin, sex or sexual orientation. Contractor shall take affirmative action to ensure such non-discrimination. Contractor shall post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause. Contractor shall, in all solicitation or advertisements for employees placed by or on behalf of Contractor, state that qualified applications will receive consideration for employment without regard to race, creed, color, national origin, sex or sexual orientation.

City may request the transfer of any employee of Contractor who materially violates any provision of this Agreement, or who is wanton, negligent, or discourteous in the performance of his or her duties under this Agreement.

Contractor's field operations personnel are required to wear a clean uniform shirt bearing Contractor's name. Contractor's employees, who normally come into direct contact with the public, including drivers, must bear some means of individual photographic identification such as a name tag or identification card.

Each driver of a Collection vehicle must at all times carry a valid California driver's license and all other required licenses for the type of vehicle that is being operated.

Subject to written notice by City, Contractor may be required to submit to the Chief of Police, for fingerprinting, all employees involved in Collecting, Hauling or Disposal of Solid Waste, subject to any conditions imposed by Contractor's Labor Agreement.

Contractor's employees, officers, and agents may not identify themselves or in any way represent themselves as being employees or officials of City.

10.6.2 Route Supervisor

Contractor must assign a qualified supervisor to be in charge of the Collection service within the City and must provide the name of that individual in writing to the Public Works Director no later than January 1, 2025, and any other time the individual in that position changes. The supervisor must be available to the Public Works Director through the use of telecommunication equipment at all times that Contractor is providing Collection services. In the event the supervisor is unavailable due to illness or vacation, Contractor must designate an acceptable substitute who will be available and who has the authority to act in the same capacity as the Route Supervisor.

10.6.3 Contract Manager

Contractor must designate an individual who serves the function equivalent to a "Contract Manager" and must provide the name of that individual in writing to City no later than January 1, 2025 and any other time the individual in that position changes. The Contract Manager must be available to the City through the use of telecommunications equipment at all times that Contractor is providing Collection services in the City. The Contract Manager must provide City with an emergency phone number where the Contract Manager can be reached outside of normal business hours.

11 Insurance and Performance Bond

11.1 Insurance Policies

Contractor must secure and maintain throughout the Term of this Agreement insurance as described in this Section 11 against claims for personal injury or damages to property which may arise from or in connection with Contractor's performance of work or services hereunder or the actions or inactions of Contractor in connection with Contractor's performance. Contractor's performance of work or services includes performance by Contractor's employees, agents, representatives, and subcontractors. City does not, and shall not, waive any rights against Contractor which it may have by reason of the hold harmless and indemnity agreements or the deposit by Contractor of the insurance policies described in this Section. The insurance required is in addition to and separate from any other obligations contained in this Agreement.

11.2 Minimum Scope of Insurance

Insurance coverage must be at least this broad:

1. Insurance Services Office Form No. GL 0002 (Ed. 1/96) covering Comprehensive General Liability and Insurance Services Office Form No. GL 0404 covering Broad Form Comprehensive General Liability; or Insurance Services Office Commercial General Liability coverage ("occurrence" form CG 0001), including X, C, U where applicable.
2. Insurance Services Office Form No.CA 0001 (Ed. 12/93) covering Automobile Liability, code 1 "any auto", or code 2 "owned autos" and endorsement CA 0025. Coverage must also include code 8, "hired autos" and code 9 "non-owned autos".
3. Workers' Compensation insurance as required by the California Labor Code and Employers Liability Insurance.
4. Environmental Pollution Liability Insurance.

11.3 Minimum Limits of Insurance

Contractor must maintain insurance limits no less than:

11.3.1 Comprehensive General Liability

$5,000,000 combined single limit per occurrence for bodily injury, personal injury, and property damage. If Commercial General Liability insurance with a general aggregate limit is used, either the general aggregate limit will apply separately to this Agreement, or the general aggregate limit must be $10,000,000. The required limits can be satisfied with an umbrella/excess liability policy.

11.3.2 Automobile Liability

$5,000,000 combined single limit per accident for bodily injury and property damage.

11.3.3 Workers' Compensation and Employers Liability

Workers' Compensation limits as required by the California Labor Code and Employers Liability limits of $1,000,000 per accident.

11.3.4 Environmental Pollution Liability

$5,000,000 per occurrence and $10,000,000 aggregate. Should coverage be claims made, coverage shall continue for five (5) years following the termination of this Agreement or should coverage be cancelled, tail or run-off coverage shall be purchased by Contractor for no less than five (5) calendar years. Coverage shall

include bodily injury or property damage arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of pollutants resulting from Contractor's operations.

11.4 Deductibles and Self-Insured Retention

Any deductibles or self-insured retention must be declared to City's risk manager and approved by the City. Should City form a reasonable belief that Contractor may be unable to pay any deductibles or self-insured retentions, Contractor must procure a bond guaranteeing payment of losses and related investigations, claim administration and defense expenses in an amount specified by City's risk manager.

11.5 Endorsements

The policies are to contain, or be endorsed to contain, the following provisions:

11.5.1 General Liability, Automobile and Environmental Liability Coverage

1. City, its elected officials, officers, employees, agents, and contractors are to be covered as additional insureds as respects: Liability arising out of activities performed by, or on behalf of, Contractor; products and completed operations of Contractor; premises owned, leased, or used by Contractor; and automobiles owned, leased, hired, or borrowed by Contractor. The coverage must contain no special limitations on the scope of protection afforded to City, its elected officials, officers, employees, agents, and contractors.
2. Contractor's insurance coverage must be primary insurance as respects City, its elected officials, officers, employees, agents, and contractors. Any insurance, or self-insurance maintained by City will be in excess of Contractor's insurance and will not contribute with it.
3. Any failure to comply with reporting provisions of the policies will not affect coverage provided to City, its elected officials, officers, employees, agents, or contractors.
4. Coverage must State that Contractor's insurance will apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.
5. The automobile liability policy shall be endorsed to delete the pollution and/or the asbestos exclusion and add the Motor Carrier Act endorsement (MCS-90), TL 1005, TL 1007 and/or other endorsements required by Federal or State authorities.

All Coverage. Each insurance policy required by this Agreement must be endorsed to state that coverage may not be canceled except after thirty (30) calendar days (ten (10) days in the event of cancellation for non-payment) prior written notice has been given to City. Moreover, Contractor will not order the cancellation of any required insurance policy or change in insurance policy limits without thirty (30) days prior written notice to City by Contractor.

11.6 Acceptability of Insurers

Insurance is to be placed with insurers authorized to do business in the State of California and with an A.M. Best rating of A-/VII or better.

11.7 Verification of Coverage

Contractor must furnish City with certificates of insurance and with original endorsements affecting coverage required by this Agreement. The certificates and endorsement for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates and endorsements are to be received and approved by the City before work commences. City reserves the right to require complete, certified copies of all required insurance policies at any time. Contractor must furnish

City with a new certificate of insurance and endorsements on each renewal of coverage or change of insurers.

Proof of insurance must be mailed to the following address, or any subsequent address as may be directed by the City:

City of South Pasadena
Attn: Risk Manager
1414 Mission Street
South Pasadena, CA 91030

11.8 Subcontractors

Contractor must include all other companies and subcontractors providing services on behalf of Contractor at its request under this Agreement in the City as additional insureds under its policies or subcontractors and other companies must obtain separate certificates and endorsements. All coverages for companies and subcontractors shall be subject to all of the requirements stated herein. For the avoidance of doubt, facility operators and subhaulers are not considered subcontractors.

11.9 Modification of Insurance Requirements

The insurance requirements provided in this Agreement may be modified or waived by City's risk manager, in writing, upon the request of Contractor if City's risk manager determines such modification or waiver is in the best interest of City considering all relevant factors, including exposure to City.

11.10 Rights of Subrogation

All required insurance policies must preclude any underwriter's rights of recovery or subrogation against City with respect to matters related to Contractor's performance of its obligations under this Agreement, with the express intention of the Parties being that the required insurance coverage protects both Parties as the primary coverage for any and all losses covered by the above-described insurance. Contractor must ensure that any companies issuing insurance to cover the requirements contained in this Agreement agree that they will have no recourse against City for payment or assessments in any form on any policy of insurance. The clauses 'Other Insurance Provisions' and 'Insured Duties in the Event of an Occurrence, Claim or Suit' as it appears in any policy of insurance in which City is named as an additional insured will not apply to City.

11.11 Failure to Maintain Insurance

Should Contractor fail to obtain or maintain insurance as required by this Agreement, Contractor shall have seven (7) days to cure the defect, during which time, City shall have the option, but not the obligation to, at Contractor's sole expense obtain replacement insurance coverage during said cure period at Contractor's expense. Should Contractor fail to correct this defect within such time-frame, City shall have the option to terminate this Agreement immediately. The notice shall provide the date of termination.

12 Hold Harmless and Indemnification

12.1 Defense and Indemnity of Third-Party Claims/Liability

Contractor shall indemnify, defend with legal counsel approved by City, and hold harmless City, its officers, elected officials, agents, employees and volunteers ("City Indemnitees") from and against all liability including, but not limited to, any claim, demand, action, penalty, proceeding or suit in law or equity of any kind (including, but not limited to, injury to and death of any person and damage to property, or for contribution or indemnity claimed by third parties), loss, damage, expense, cost (including without limitation reasonable legal counsel fees, expert fees and all other costs and fees of litigation) of every nature to the extent arising out of or in connection with (i) Contractor's negligence, recklessness or willful misconduct in the performance of work hereunder or its failure to comply with any of its obligations contained in the Agreement, or (ii) the failure of Contractor to comply with any Applicable Laws (including, without limitation Environmental Laws, ordinances and regulations, and/or applicable permits and licenses), or (iii) the acts of the Contractor in performing services under this Agreement for which strict liability is imposed by law.

12.2 Nonwaiver

City does not waive, nor shall be deemed to have waived, any indemnity, defense or hold harmless rights under this section because of the acceptance by City, or the deposit with City, of any insurance certificates or policies described in Section 11.

12.3 Diversion Indemnification

Contractor agrees to hold the City harmless and indemnify and defend (with counsel reasonably approved by City), from and against all fines or penalties imposed by CalRecycle on the City to the extent Diversion requirements set forth in Public Resources Code Section 41780 are not met by City and if the lack in meeting such requirements are attributable to the failure of Contractor to implement and operate the Diversion programs required by this Agreement or solely due to Contractor-caused delays in providing information that prevents Contractor or the City from submitting reports to regulators in a timely manner. In the event CalRecycle provides an administrative process to challenge the imposition of a compliance order or a fine or fines, Contractor will be responsible for engaging any consultants or attorneys necessary to represent City in any challenge at Contractor's sole cost and expense (with counsel reasonably approved by City). Any funds expended by Contractor, pursuant to this subsection, for fines and expenses (including consultant fees, attorneys' fees and costs) shall not be passed on to Customers as part of a rate increase or otherwise.

12.4 Hazardous Substances Indemnification

Contractor agrees to indemnify, defend (with counsel reasonably approved by City), protect and hold harmless the City Indemnitees from and against any and all claims, damages, demands, actions and causes of action (including administrative proceedings), suits, losses, costs and expenses (including but not limited to attorneys' fees and costs), penalties, fines, judgments or liabilities of any kind whatsoever resulting, arising from or attributable to the actions of Contractor, including removal action or response action undertaken pursuant to CERCLA or the Carpenter-Presley-Tanner Hazardous Substance Account Act of 1981, with respect to Solid Waste or Household Hazardous Waste Collected, Transported and/or Disposed of or handled by Contractor at Disposal Sites selected by Contractor. The foregoing indemnity is intended to operate as an agreement pursuant to Section 107(e) of CERCLA and Section 25364 of the Health & Safety Code to defend, protect, hold harmless and indemnify the City Indemnitees from all forms of liability under CERCLA and the Carpenter-Presley-Tanner Hazardous Substance Account Act of 1981.

12.5 Consideration

It is specifically understood and agreed that the consideration inuring to Contractor for the execution of this Agreement consists of the promises, payments, covenants, rights, and responsibilities contained in this Agreement.

12.6 Obligation

This Agreement obligates Contractor to comply with the foregoing indemnification and release provisions; however, the collateral obligation of providing insurance must also be complied with as set forth in this Agreement.

12.7 Subcontractors

Contractor must require all subcontractors performing work in the City to enter into a contract containing the insurance provisions set forth in Section 11 in which the subcontractor fully indemnifies City in accordance with this Agreement.

12.8 Exception

Notwithstanding other provisions of this Agreement to the contrary, Contractor's obligation to indemnify, hold harmless and defend City Indemnitees will not extend to any liability including, but not limited to, any claim, demand, action, penalty, proceeding or suit in law or equity of any kind (including, but not limited to, injury to and death of any person and damage to property, or for contribution or indemnity claimed by third parties), loss, damage, expense, cost (including without limitation reasonable legal counsel fees, expert fees and all other costs and fees of litigation) of every nature relating to, arising or resulting from, acts or omissions (i) not within the control of Contractor, (ii) constituting the active negligence, willful misconduct, material breach of this Agreement, or violation of law on the part of City Indemnitees, (iii) in connection with the nonuse of a High Diversion Organic Waste Processing Facility for materials deposited in Black Containers prior to the Effective Date, or (iv) as limited by Public Resources Code Section 40059.1.

12.9 Uncontrollable Circumstances

If either Party is prevented from or delayed in performing its duties under this Agreement by circumstances beyond its control, whether or not foreseeable, including, without limitation, acts of terrorism, landslides, lightning, forest fires, storms, floods, severe weather, freezing, earthquakes, other natural disasters, the threat of such natural disasters, pandemics (or threat of same), quarantines, civil disturbances, acts of the public enemy, wars, blockades, public riots, strikes, lockouts, or other labor disturbances, acts of government or governmental restraint or other causes, whether of the kind enumerated or otherwise, that are not reasonably within the control of the affected Party, then the affected Party will be excused from performance hereunder during the period of such disability.

1. The Party claiming excuse from performance must promptly notify the other Party when it learns of the existence of such cause, including the facts constituting such cause, and when such cause has terminated.
2. The interruption or discontinuance of services by a Party caused by circumstances outside of its control will not constitute a default under this Agreement.

12.10 Damage by Contractor

If Contractor's employees or subcontractors cause any injury, damage, or loss to City property, including but not limited to City streets or curbs, excluding normal wear and tear, Contractor must reimburse City for City's cost of repairing or replacing such injury, damage, or loss. Such reimbursement is not in derogation of

any right of City to be indemnified by Contractor for any such injury, damage, or loss. With the prior written approval of City, Contractor may repair the damage at Contractor's sole cost and expense. Any injury, damage or loss to private property caused by the negligent or willful acts or omissions of Contractor to private property must be repaired or replaced by Contractor at Contractor's sole expense.

13 Transition to Next Service Provider

If the transition of Collection services to another company occurs through expiration, termination, default or otherwise, Contractor shall cooperate fully with City and any subsequent contractors to ensure an orderly transition. Such cooperation shall include, but not be limited to, the transfer of non-proprietary computer data, files and tapes; providing non-proprietary routing information, billing and service information, Customer lists and other operating records needed to service all properties covered by this Agreement; providing a complete inventory of all Collection Containers; coordinating Collection of materials set out in new Containers if new Containers are provided for a subsequent agreement and providing other reports and data required by this Agreement.

Contractor shall provide City with detailed route sheets containing service names and addresses, billing names and addresses, monthly rate and service levels (number and size of Containers and pick-up days) at least thirty (30) days prior to the transition date, and provide an updated list two weeks before the transition and a final list of changes the day before the transition. In addition, Contractor shall be responsible for coordinating transfer immediately after Contractor's final pick-ups, so as not to disrupt service.

Contractor shall cooperate in good faith with City and new service provider in scheduling exchanges of Contractor's Containers with Containers provided by the new service provider so as to assure that customers neither need to find storage for two sets of Containers nor go without a Container for an inconvenient length of time; provided, Contractor is not under any obligation to permit the continued use of its Containers upon the start of services by any new service provider.

14 Default of Agreement

14.1 Default

City may terminate this Agreement by giving Contractor thirty (30) days advance written notice upon the happening of any one of the following events.

1. Any assignment of this Agreement by Contractor without complying with the requirements of Section 16.1.

2. Contractor takes the benefit of any present or future insolvency statute, or makes a general assignment for the benefit of creditors, or files a voluntary petition in bankruptcy (court) or a petition or answer seeking an arrangement for its reorganization or the readjustment of its indebtedness under the Federal bankruptcy laws or under any other law or statute of the United States or any State thereof, or consent to the appointment of a receiver, trustee or liquidator of all or substantially all of its property; or

3. By order or decree of a court, Contractor is adjudged bankrupt or an order is made approving a petition filed by any of its creditors or by any of the stockholders of Contractor, seeking its reorganization or the readjustment of its indebtedness under the Federal bankruptcy laws or under any law or statute of the United States or of any state thereof, provided that if any such judgment or order is stayed or vacated within sixty (60) calendar days after the entry thereof, any notice of default will be and become null, void and of no effect; unless such stayed judgment or order is reinstated in which case, such default will be deemed immediate; or

4. By, or pursuant to, or under the authority of any legislative act, resolution or rule or any order or decree of any court or governmental board, agency or officer having jurisdiction, a receiver, trustee, or liquidator takes possession or control of all or substantially all of the property of Contractor, and such possession or control continues in effect for a period of sixty (60) calendar days; or

5. Contractor has defaulted by failing or refusing to pay in a timely manner the monies due City and such default is not cured within thirty (30) calendar days of receipt of written notice by City to do so; or

6. Contractor has defaulted by allowing any final judgment for the payment of money owed to City to stand against it unsatisfied and such default is not cured within thirty (30) calendar days of receipt of written notice by City to do so; or

7. Contractor has frequently, regularly or repetitively defaulted in the performance of any of the covenants and conditions required herein to be kept and performed by Contractor, and is therefore, a “habitual violator.” In order to be deemed a “habitual violator” such violations must have occurred and been noticed to Contractor in writing not less frequently than three (3) times in any twenty-four-month period.

14.2 Discontinuance of Work

Upon receipt of a default action, the Contractor shall promptly discontinue all affected work (unless the notice directs otherwise) and deliver, license or sublicense, or otherwise make available to the City within thirty (30) Business Days of said termination action all finished or unfinished documents and materials produced or procured under this Agreement, which shall become City property upon date of such

termination in accordance with reasonable terms and conditions, including measures required to protect the Contractor with respect to any of its licensors. The Contractor agrees to execute any documents necessary for the City to perfect, memorialize, or record the City's ownership of rights provided herein within thirty (30) calendar days of said termination.

14.3 Survival

The rights and remedies of the Parties provided in this section shall not be exclusive and in addition to any other rights and remedies provided by law or under this Agreement.

15 Modification to the Agreement

15.1 City-Directed Change (Facilities; Containers)

City may request changes as specified in Section 5.12 and/or Section 10.5.9 as may from time-to-time be necessary and desirable for the public health and welfare. City agrees to adjust Maximum Service Rates and modify this Agreement to reflect additional costs borne by Contractor. When such modifications are requested, City and Contractor will negotiate in good faith, a reasonable and appropriate compensation adjustment for any increase or decrease in the services or other obligations required of Contractor due to any modification in the Agreement under this Section 15.1. City and Contractor will not unreasonably withhold agreement to such compensation adjustment for any increase or decrease in the services or other obligations required of Contractor. Should agreement between City and Contractor on compensation adjustment not be reached within six (6) months of the change request, or other period as agreed upon by both Parties, City and Contractor agree to submit the compensation adjustment to binding arbitration as described in Section 15.3.

15.2 Change in Law

In the event any change in Applicable Law materially alters the obligations of Contractor, then the affected Maximum Service Rates, as established in Exhibit 1 of this Agreement, will be adjusted as provided herein. Nothing contained in this Agreement will require any Party to perform any act or function contrary to law. City and Contractor agree to enter into good faith negotiations regarding modifications to this Agreement which may be required in order to implement changes in the interest of the public welfare or due to change in law, including applicable case-law. When such modifications are made to this Agreement, City and Contractor will negotiate in good faith, a reasonable and appropriate compensation adjustment for any increase or decrease in the services or other obligations required of Contractor due to any change in law or under this Section 15.2. City and Contractor will not unreasonably withhold agreement to such compensation adjustment or other obligations required of Contractor. Should agreement between City and Contractor on compensation adjustment not be reached within six (6) months of the change request, or other period as agreed upon by both Parties, City and Contractor agree to submit the compensation adjustment to binding arbitration as described in Section 15.3.

15.3 Arbitration

Arbitration shall be conducted by a single arbitrator. If, within twenty (20) days from the receipt of a request to arbitrate (or such longer period mutually agreed to by the Parties), the Parties are unable to agree on an arbitrator, then a single arbitrator shall be appointed pursuant to the Commercial Arbitration Rules of the American Arbitration Association, which shall govern any arbitration requested under this provision. Each Party shall bear its own costs and expenses of any arbitration. Each Party shall pay one-half of the costs of the arbitrator.

16 Other Agreement of the Parties

16.1 Assignment

No assignment of this Agreement or any right occurring under this Agreement may be made in whole or in part by Contractor without the express prior written consent of the City Council, which shall not be unreasonably conditioned, delayed, or denied. In the event of any assignment approved by the City Council, the assignee must fully assume all the liabilities of Contractor by way of an assignment and assumption agreement. Notwithstanding the above, an assignment to an affiliate of Contractor may be undertaken upon notice to City Manager, but without the requirement for its approval. For purposes of this provision, "affiliate" means any person or legal entity that, directly or indirectly, controls, is controlled by, or is under common control with Contractor.

The use of a subcontractor to perform services under this Agreement will not constitute delegation of Contractor's duties provided that Contractor has received prior written authorization from the Public Works Director to subcontract such services and the Public Works Director has approved a subcontractor who will perform such services. Contractor will be responsible for directing the work of Contractor's subcontractors and any compensation due or payable to Contractor's subcontractor will be the sole responsibility of Contractor. The Public Works Director will have the right to require the removal of any approved subcontractor for reasonable cause.

16.2 Permits, Licenses, and Chamber Membership

Contractor shall obtain, at its own expense, all permits and licenses required by law or ordinance and maintain same in full force and effect throughout the term of this Agreement. Contractor must provide proof of such permits, licenses or approvals and must demonstrate compliance with the terms and conditions of such permits, licenses, and approvals upon the request of the Public Works Director. The Contractor must have a valid City of South Pasadena Business License throughout the term of the Agreement. Contractor shall maintain an active Chamber of Commerce membership.

16.3 Laws to Govern

The law of the State of California governs the rights, obligations, duties and liabilities of City and Contractor under this Agreement and governs the interpretation of this Agreement.

17 General Provisions

17.1 Consent to Jurisdiction

The Parties agree that any litigation between City and Contractor concerning or arising out of this Contract must be filed and maintained exclusively in the Superior Courts of Los Angeles County, State of California, or in the United States District Court for the Central District of California to the fullest extent permissible by law. Each Party consents to service of process in any manner authorized by California law.

17.2 Compliance with Laws

In the performance of this Agreement, Contractor must comply with all Applicable Laws, including, without limitation, the South Pasadena Municipal Code. City shall provide written notice to Contractor of any planned amendment of the South Pasadena Municipal Code that would substantially affect the performance of Contractor's services pursuant to this Agreement. Such notice must be provided at least thirty (30) calendar days prior to the City Council's approval of such an amendment.

17.3 Independent Contactor

In the performance of services pursuant to this Agreement, Contractor is an independent contractor and not an officer, agent, servant, or employee of City. Contractor will have exclusive control of the details of the services and work performed and over all Persons performing such services and work. Contractor is solely responsible for the acts and omissions of its officers, agents, employees, contractors, and subcontractors, if any. Neither Contractor nor its officers, employees, agents, contractors, shall obtain any rights to any benefits that accrue to City employees.

17.4 Entire Agreement

This Agreement and the attached Exhibits constitute the entire Agreement and understanding between the Parties, and the Agreement will not be considered modified, altered, changed, or amended in any respect unless in writing and signed by the Parties.

17.5 Severability

Except as specified in Section 3.5, if any provision of this Agreement or the application of it to any Person or situation is to any extent held invalid or unenforceable, the remainder of this Agreement and the application of such provisions to Persons or situations other than those as to which it is held invalid or unenforceable, will not be affected, will continue in full force and effect, and will be enforced to the fullest extent permitted by law.

17.6 Right to Require Performance

The failure of any Party at any time to require performance by the other Party of any provision of this Agreement will in no way affect the right of the other Party thereafter to enforce same. Nor will waiver of any breach of any provision of this Agreement be taken or held to be a waiver of any succeeding breach of such provision or as a waiver of any provision itself.

17.7 All Prior Agreements Superseded

This Agreement incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained in this Agreement and the Parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, it is agreed that no deviation from the terms of this Agreement will be predicated upon any prior representations or agreements, whether oral or written.

17.8 Amendments to Agreement

This Agreement may not be changed, modified, amended or waived, except in writing and as approved by Contractor and the City Council.

17.9 Headings

Headings in this document are for convenience of reference only and are not to be considered in any interpretation of this Agreement.

17.10 Exhibits

Each Exhibit referred to in this Agreement forms an essential part of this Agreement. Each such Exhibit is a part of this Agreement, and each is incorporated by this reference.

17.11 Waiver

Waiver by City or Contractor of any breach for violation of any term covenant or condition of this Agreement will not be deemed to be a waiver of any other term, covenant or condition or any subsequent breach or violation of the same or of any other term, covenant, or condition. The subsequent acceptance by City of any fee, tax, or any other monies which may become due from Contractor to City will not be deemed to be a waiver by City of any breach for violation of any term, covenant, or condition of this Agreement.

17.12 Prohibition Against Gifts

Contractor represents that Contractor is familiar with City's prohibition against the acceptance of any gift by a City officer or designated employee. Contractor may not offer any City officer or designated employee any gifts prohibited by the City.

17.13 Point of Contact

The day-to-day dealings between Contractor and City will be between Contractor and the Public Works Director, or his or her designee.

17.14 City Representative

Whenever this Agreement requires the City to take any action, the City Council designates the Public Works Director to take such action on behalf of the City, unless another individual or entity is otherwise specified in this Agreement or unless the City Council designates actions to different Persons or itself. The Public Works Director may designate individual(s) to administer and monitor the provisions of this Agreement.

17.15 Notices

All notices required or provided for in this Agreement shall be provided to the Parties at the following addresses, by personal delivery or deposit in the U.S. Mail, postage prepaid, registered or certified mails, addressed as specified below. Notices delivered personally shall be deemed received upon receipt; mailed notice (registered or certified) shall be deemed received five (5) days after deposit. A Party may change the address to which notice is given by giving notice and provided herein.

As to the City:

City of South Pasadena
1414 Mission Street
South Pasadena, CA 91030
Attn: Public Works Director, Ted Gerber
Email: PWAdmin@southpasadenaca.gov
Phone: (626) 403-7240

As the Contractor: Athens Services
14048 Valley Blvd.
City of Industry, CA 91746
Attn: Steven Librenjak
Email: SLibrenjak@AthensServices.com
Phone: (626) 934-4696

Notice by City to Contractor of a Collection or other Customer problem or complaint may be given to Contractor orally by telephone at Contractor's local office with confirmation sent to Contractor via email by the end of the Workday.

17.16 Signatures

(a) Counterparts. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument.

(b) Scanned Signatures. In the event that any signature is delivered by facsimile transmission or submitted electronically as a scanned image (i.e., files with .pdf, .tiff or .jpeg extensions), such signature shall create a valid and binding obligation of the Party executing (or on whose behalf such signature is executed) with the same force and effect as if such facsimile or scanned signature page were an original thereof.

(c) Digital/Electronic Signatures. This Agreement may be executed through the use of digital or electronic signatures provided they meet the requirements of the Electronic Signatures in Global and National Commerce (ESIGN) Act and the California Uniform Electronic Transactions Act (UETA) and are produced using a City-approved method. The presence of an electronic signature on this document shall be construed as the Parties' consent to do business electronically.

[Signature page(s) follow]

IN CONCURRENCE AND WITNESS WHEREOF, City and Contractor have executed this Agreement as of May 21, 2025.

Exhibit 3: Sweeping Services

1. Street Sweeping Services, Approved Sweeping Plan

Contractor shall provide Street Sweeping Services at City streets in public rights of way and other areas within the City, as specified herein, in accordance with the schedule, times, and routes provided in Exhibit 3-A ("Approved Sweeping Plan") without charge to City or Customers. Except as provided in this Exhibit 3 or the Approved Sweeping Plan, Contractor will perform Street Sweeping Services on a bi-weekly basis.

2. Changes to Approved Sweeping Plan

Contractor may request modifications to the Approved Sweeping Plan, subject to the approval of the Public Works Director, whose approval shall not be unreasonably conditioned, delayed, or denied. Further, prior to the start of any new Street Sweeping Service schedule or route, as approved by the Public Works Director, Contractor shall, at Contractor's own expense, provide a written notice to be included, by City, as an insert with regular billings to notify each affected Customer of the day or days of the week on which streets will be swept. The notice shall contain the day or days of the week upon which Solid Waste Collections and Street Sweeping Services will be made, the name, address and telephone number of Contractor, and other information and be provided to each Customer affected unit not less than fourteen (14) days prior to the change of any Street Sweeping Service schedule. Contractor shall also cause the schedule and route of the new Street Sweeping Service to be published twice in a responsible newspaper of local circulation once each week for two (2) successive weeks immediately prior to the change in the Solid Waste Collection and Street Sweeping Service schedule or route in a district. The published schedule and route shall contain the same information as the written notice outlined above and shall clearly indicate the precise area involved in the change.

3. Downtown Sweeping Service

Contractor shall perform Street Sweeping Service three (3) times every week between the hours of 5:00 am and 7:00 am within the City's Downtown area in accordance with the Approved Sweeping Plan.

4. City Parking Lot Sweeping Service

Street Sweeping Service shall include sweeping for the City's seven (7) parking lots specified in the Approved Sweeping Plan (collectively, "City Parking Lots"). Contractor shall sweep the parking lots at minimum one (1) time every other week at the schedule and route set forth in the Approved Street Sweeping Plan, or other frequency as agreed by Contractor and the Public Works Director. Contractor shall also Collect Solid Waste and supply and replace Container liners at any and all City Containers at the City Parking Lots two (2) times per week, or other frequency as agreed by Contractor and the Public Works Director, and pressure wash the parking lot one (1) time per calendar year at times and days approved by the Public Works Director, and in accordance with applicable stormwater regulations. Service shall also include removing any Solid Waste outside of the Containers and the Transportation and Disposal of Solid Waste Collected while providing the services hereunder.

5. City Garage Sweeping Service

Street Sweeping Service shall including sweeping for the City's "Mission Meridian" parking garage specified in the Approved Sweeping Plan. Contractor shall sweep the garage at least one (1) time per week, Collect Solid Waste, supply and replace Container liners at the three (3) parking garage Containers two (2) times per week or other frequency as agreed by Contractor and the Public Works Director, and pressure wash the parking garage one (1) time per calendar year at times and days approved by the Public Works Director and in accordance with applicable stormwater regulations. Service shall also include removing any Solid Waste

outside of the Containers and the Transportation and Disposal of Solid Waste Collected while providing the services hereunder.

6. Other Associated Work

If circumstances exist that require work similar to but not specifically provided for in this Exhibit, City may request Contractor to perform such other associated work ("OAW"). When Contractor performs OAW, the labor, materials, and equipment used in the performance of such work shall be subject to the prior written approval of City and Contractor. Examples of OAW include but are not limited to performance of special sweeps, flood clean-up, street sanitation for parades and celebrations, City requested clean-up services, additional porter services, emergency call-outs, pressure washing, bus shelter clean-up, increases in the frequency or amount of Street Sweeping Service, and any contingency where sweeper and supporting sweeper equipment could assist in a particular instance. Contractor shall be reimbursed for such services at its then-current hourly rates.

7. Equipment

Contractor shall use such standard heavy street sweeping equipment as is necessary to clean the City areas of paper, dirt, rocks, leaves and debris. Contractor shall also maintain all equipment. Equipment should be clean and in good mechanical condition, uniformly painted and numbered. In cases of equipment failure or operator failure which precludes the sweeping of scheduled streets during their posted time frames, Contractor shall make every reasonable effort to provide services during the scheduled time frames. Should the equipment or operator failure be of such a duration that the regularly scheduled street sweeping of a posted street is not able to be swept during the designated time frames, Contractor shall sweep those neglected (not swept during the designated time frames) streets during the first available opportunity.

8. Contractor/City Communication

Contractor shall establish and maintain an office and have an authorized supervisor as the point of contact for communications with City for street sweeping. Contractor's office shall have a twenty-four (24) hour telephone service and a responsible individual in charge seven (7) days a week to receive all requests for emergency service, which are forwarded by City. Contractor shall respond and provide emergency service within three (3) hours from the time a call is placed by the City. Requests for routine service or complaint issues shall be resolved expeditiously within the following twenty-four (24) hour period.

9. Disposal and Recycling of Materials

Contractor shall Transport and Dispose of all sweeping materials in accordance with all City, County, State, and Federal requirements. To the extent possible, Contractor shall Divert or Compost all street sweepings from landfills. Contractor shall report on a monthly basis the tonnage of sweepings Collected and the tonnage Disposed of at a Composting or Recycling center and the name and address of the facility. Upon City's request, Contractor shall also provide City with the pertinent information from the Composting or Recycling facility certifying the percentage of material Processed that is Disposed at landfill and where material is sent after Collection and Processing at the facility.

10. Hazardous Waste

Contractor shall not be required to remove any Hazardous Waste from the street surface. If, in the course of performing Street Sweeping Services, any suspected Hazardous Waste is encountered, Contractor shall immediately report the location to the City, and any other responsible agency.

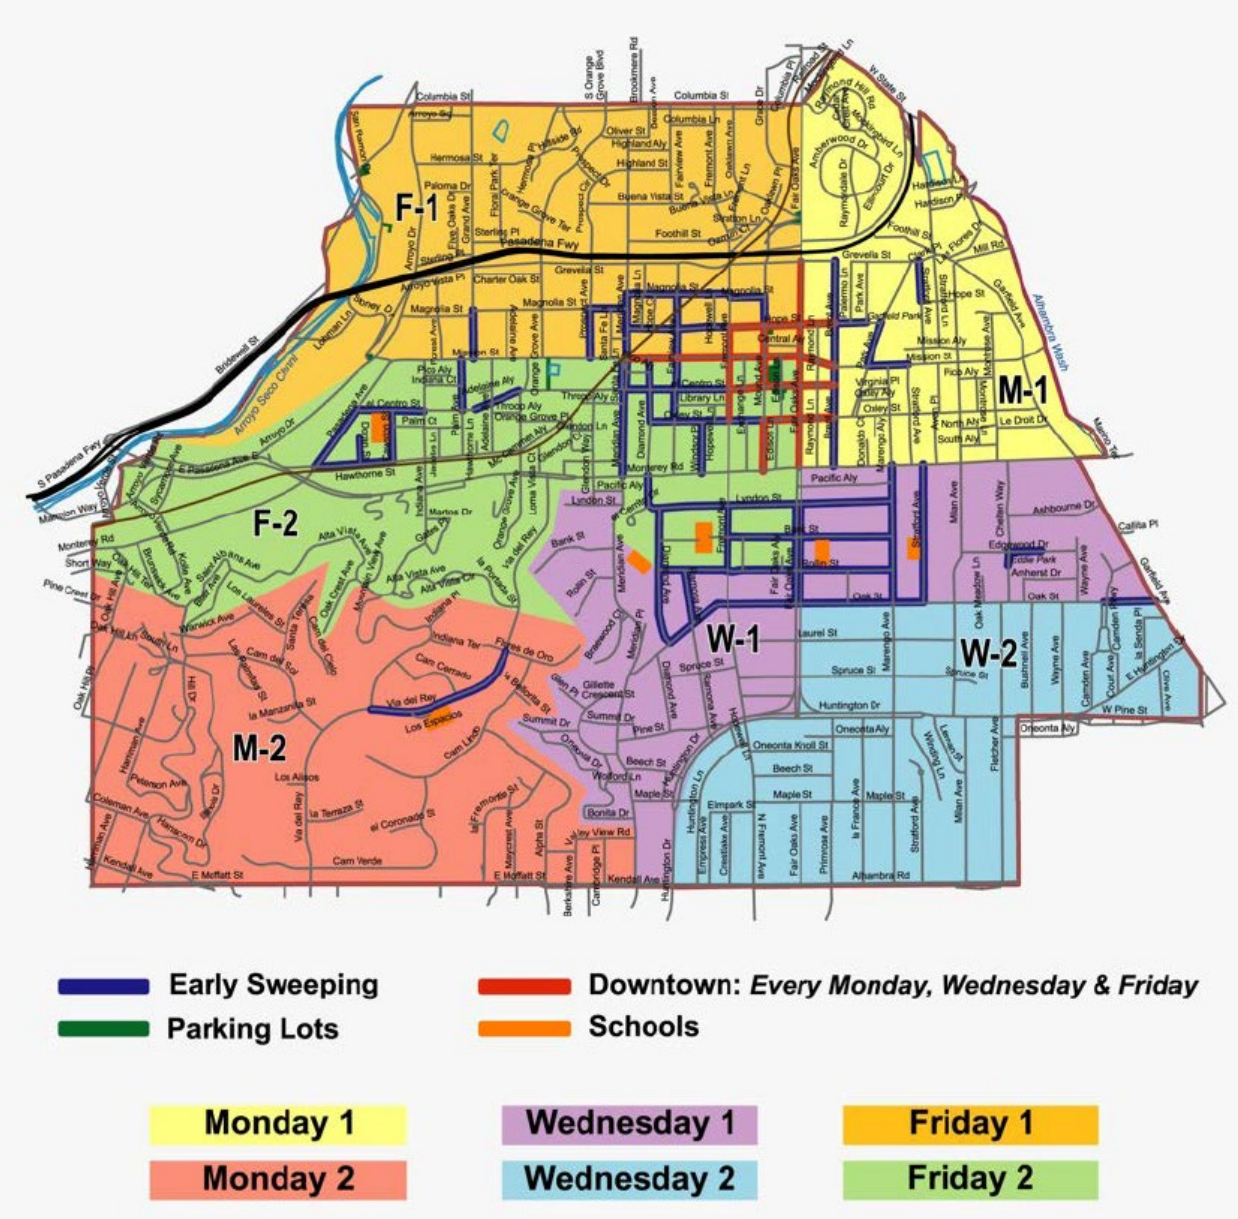
11. Damage

Contractor shall report without delay any damage to City equipment, City property or private property. The Contractor shall be liable for damages solely caused by his/her actions. Any repairs and associated cost resulting from Contractor-caused damage shall be the responsibility of the Contractor.

12. Water for Dust Control

City shall provide sufficient water for use of sweeping operations to maintain a near dustless condition. Water for this use will be made available by the City at no cost to Contractor. Contractor is to coordinate with the Public Works Director in advance to identify the regular location(s) for water access. Access to water/hydrants without a meter is prohibited. If Contractor obtains water from a provider that is not the City, Contractor is responsible for obtaining and paying for the water except in such circumstances where the City no longer provides water to Contractor at no cost to Contractor, in which case the City will reimburse Contractor for the cost of procuring water from the City or a replacement provider, as applicable.

13. Wind-Down of Certain City Sweeping Services



Notwithstanding any provision in this Agreement to the contrary, upon any notice specified in Section 4.2 of the Agreement, Contractor shall bill the City its then-existing rates, as listed in Exhibit 1, for services specified in Sections 4 (City Parking Lot Sweeping Service) and 5 (City Garage Sweeping Service) of this Exhibit. Thereafter, Contractor shall invoice the City on the first Business Day of each month for City parking lot and City garage sweeping services rendered during the preceding month. If City is unable, by operation of Applicable Law, to pay Contractor's then-existing hourly rates applicable for services hereunder, retroactively or prospectively, Contractor shall be entitled to a rate adjustment in accordance with Section 7.9 of the Agreement for the amounts that Contractor would have received but for operation of Applicable Law.

14. Prevailing Wage

Notwithstanding any provision in the Agreement to the contrary, the provision of Street Sweeping Services without charge to City is not subject to payment of prevailing wages or related laws, regulations, or policies ("Prevailing Wage Law"). In the event, the Prevailing Wage Law applies to Street Sweeping Services, retroactively or prospectively, Contractor shall be entitled to a rate adjustment in accordance with Section 7.9 of the Agreement for the provision of Street Sweeping Services in accordance with the Prevailing Wage Law.

Exhibit 3-A: Approved Sweeping Plan

City Street Sweeping Route Map and Schedule

Sweeping shall occur between 7:00 am and 12:00 pm except areas designated for "Early Sweeping" which shall occur between 5:00 am and 7:00 am.

Exhibit 4-1:
LIST OF ACCEPTABLE SOURCE SEPARATED GREEN CONTAINER ORGANIC WASTE MATERIALS
(subject to change)

GREEN WASTE

- Flower and hedge trimmings
- Grass clippings
- Leaves and branches
- Weeds
- Lumber*
- Scrap wood*
- Plywood*

**Not painted or treated*

FOOD SCRAPS

- Bread, rice, and pasta
- Cheese and dairy
- Coffee grounds and filters
- Fruits and vegetables
- Flowers and herbs
- Meat, bones, and poultry
- Seafood and soft shells
- Pet food (nonmedicated)

FOOD-SOILED PAPER*

- Food-stained paper
- Paper egg cartons
- Paper napkins
- kitchen paper towels
- Pizza boxes
- Plates
- To-go boxes (no coating)
- Wood and fiber-based utensils

**Must be 100% fiber-based. No materials with - p*
wax, or bioplastic coating, liner, or laminate.

UNACCEPTED ITEMS

- All plastics
- Cacti, succulents, and yucca
- Compostable plastics (bioplastics)
- Coffee cups and pods
- Fats, oils, and grease
- Food stickers (please remove from items)
- Gloves
- Hard shells (clams, mussels, oysters)
- Medication
- Palm fronds
- Paper napkins with cleaning chemicals
- Paper towels with cleaning chemicals
- Parchment and wax paper
- Pet waste
- Rocks and soil
- Rubber bands and twist ties
- Tea bags
- Textiles
- Tissues and wet wipes

Exhibit 4-2:
LIST OF ACCEPTABLE SOURCE SEPARATED BLUE CONTAINER WASTE MATERIALS
(subject to change)

PLASTICS

** Keep caps on plastic beverage containers*

- Plastics number 1 (PET) as bottles or clamshells
- Plastics numbers 2 (HDPE)
- Plastics numbers 5 (PP)
- Recyclable plastics include, but are not limited to:
  - Beverage & detergent jugs
  - Food containers
  - Soda, juice, & water bottles

METALS

- Aluminum foil & pie tins (clean)
- Scrap metal
- Steel cans, dishware, etc.
- Tin & aluminum cans

PAPER (clean & dry)

- Envelopes
- File folders (paper only)
- Junk mail & magazines
- Newspaper
- Paper (white & mixed color)
- Paper grocery bags
- Telephone books
- Acceptable (but may not be recycled)
  - Cereal boxes (no plastic insert)
  - Egg cartons (paper only & clean)
  - Frozen food boxes
  - Soup, milk, & juice cartons

CARDBOARD (or similar)

- Cardboard & corrugated boxes
- Pizza boxes (clean sections only)

GLASS

** No window glass, porcelain, or non-food related glass. Customers to remove caps/lids.*

- Amber, green, & mixed-color glass
- Clear food glass jars
- Soda, tea, & liquor bottles

No Liquids or Food in Recyclables

RESOLUTION NO. 2025-__

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, APPROVING THE FIRST AMENDED AND RESTATED EXCLUSIVE SOLID WASTE HANDLING AGREEMENT BETWEEN THE CITY OF SOUTH PASADENA AND ARAKELIAN ENTERPRISES, INC. (DBA ATHENS SERVICES), DIRECTING STAFF TO SCHEDULE A PUBLIC HEARING TO CONSIDER PROPOSED RATE ADJUSTMENTS TO THE CITY'S CHARGES FOR THE COLLECTION, TRANSFER, TRANSPORTATION, RECYCLING, PROCESSING, AND DISPOSAL OF SOLID WASTE, INCLUDING ORGANIC WASTE, AND TO PROVIDE NOTICE OF THE PUBLIC HEARING IN ACCORDANCE WITH CALIFORNIA CONSTITUTION ARTICLE XIII D, AND MAKING A DETERMINATION OF EXEMPTION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT

RECITALS:

WHEREAS, the Legislature of the State of California, by enacting the California Integrated Waste Management Act of 1989, as amended (California Public Resources Code Section 40000 *et seq*.), has declared that it is in the public interest to authorize and require local agencies to make adequate provisions for solid waste handling within their respective jurisdictions; and

WHEREAS, the City Council has enacted Chapter 16 of the South Pasadena Municipal Code (Organic and Nonorganic Waste) to establish standards for the collection, transfer, transportation, recycling, processing, and disposal of solid waste, including organic waste and nonorganic waste ("Solid Waste Services"), and the awarding of franchise agreements for Solid Waste Services; and

WHEREAS, pursuant to California Public Resources Code Section 40059(a)(1) and Sections 16.5 and 16.6 of the South Pasadena Municipal Code, the City is authorized to grant an exclusive franchise to a qualified solid waste enterprise for Solid Waste Services within the City without competitive bidding; and

WHEREAS, the City previously entered into an Exclusive Solid Waste Handling agreement with Arakelian Enterprises, Inc. (dba Athens Services) ("Athens") dated October 2, 2024 (the "2024 Agreement"); and

WHEREAS, following good faith negotiations, the City and Athens desire to enter into a new First Amended and Restated Exclusive Solid Waste Handling Agreement ("Amended Agreement"), a copy of which is on file in the office of the City Clerk, which will supersede and replace the 2024 Agreement, in order to modify the services in order to bring the City into compliance with applicable law, including Senate Bill 1383, the Short-lived Climate Pollutant Reduction Act, and the SB 1383 Regulations, which require jurisdictions to provide organic waste collection services; and

WHEREAS, as required by the public health, safety and well-being, the City Council desires to approve the Amended Agreement; and

WHEREAS, the City Council is authorized pursuant to California Health and Safety Code Section 5471 to prescribe, revise and collect rates and charges for Solid Waste Services; and

WHEREAS, implementation of a modified SB 1383 program will result in additional costs being incurred by Athens, and in order to compensate Athens for its additional costs, Athens has requested the City Council to adjust the maximum rates for Solid Waste Services for all premises in the City (single-family premises, multi-family premises, and commercial premises) in accordance with the Maximum Service Rates set forth in Exhibit 1 to the proposed Amended Agreement (the "Proposed Rate Adjustments") and to modify the formulas for increasing the Maximum Rates on July 1, 2027, July 1, 2028, and July 1, 2029 (the "Proposed Formula Adjustments"); and

WHEREAS, City staff recommends that the City Council consider the Proposed Rate Adjustments and Proposed Formula Adjustments following a public hearing held and noticed in accordance with the requirements of Article XIII D, Section 6 of the California Constitution (also known as Proposition 218) and the Proposition 218 Omnibus Implementation Act (Government Code Section 53750, *et seq*.) ("Implementation Act"); and

WHEREAS, the City Council desires to initiate proceedings to consider the Proposed Rate Adjustments and the Proposed Formula Adjustments; and

WHEREAS, the proposed Amended Agreement provides that it will not become effective until after the culmination of any proceedings relating to Proposition 218, resulting in the approval by the City Council of the Maximum Service Rates set forth in Exhibit 1 of the Amended Agreement and the Proposed Formula Adjustments; and

WHEREAS, City staff has evaluated the entering into of the proposed Amended Agreement and approval of the Proposed Rate Adjustments and Proposed Formula Adjustments for purposes of compliance with the California Environmental Quality Act (Public Resources Code Section 21000 *et seq*.) (CEQA) and the California CEQA Guidelines and has determined that approval of the Amended Agreement and Proposed Rate Adjustments and Proposed Formula Adjustments are intended to implement State mandated requirements of the California Senate Bill (SB) 1383, Short-lived Climate Pollutant Reduction Act of 2016. Pursuant to CEQA Guidelines Section 15308, Class 8, "Actions by Regulatory Agencies for Protection of the Environment," these actions are exempt from further review under CEQA. The development and implementation of the modified services is a requirement of the California Department of Resources Recycling and Recovery (CalRecycle) and is exempt from CEQA because it is an action pursuant to a regulatory requirement to assure the protection of the environment, and involves procedures for protection of the environment. Furthermore, the modified services apply to the City's existing volume of generated solid waste, where there is no expansion of use, and is therefore exempt from the CEQA analysis based on State CEQA Guidelines

requirements under Section 21084 of the Public Resources Code, in accordance with Article 19, Section 15301, Class (1) "existing facilities."

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA AS FOLLOWS:

Section 1. The above recitals are true and correct and incorporated herein as if set forth in full.

Section 2. The City Council hereby approves the Amended Agreement and authorizes the City Manager to execute the Amended Agreement in substantially the form on file with the City Clerk, with such changes as deemed necessary or appropriate by the City Manager or City Attorney, and authorizes the City Manager to do all things necessary and proper to implement this resolution.

Section 3. The City Council hereby directs staff to proceed with mailing notice of a public hearing on the Proposed Rate Adjustments and Proposed Formula Adjustments, to be held on July 16, 2025, or such other date selected by the City Manager, in accordance with the requirements of Article XIII D, Section 6 of the California Constitution and the Implementation Act.

Section 4. The City Council concurs with staff's CEQA determination set forth in the recitals.

Section 5. The City Clerk shall certify to the adoption of this resolution and shall cause a certified resolution to be filed in the book of original resolutions.

PASSED, APPROVED AND ADOPTED by the City Council of the City of South Pasadena on this 21st day of May 2025.

Re: Customer billings for the period of July 1, 2025 through September 30, 2025

This letter memorializes the agreement between the City of South Pasadena ("City") and Arakelian Enterprises Inc. dba Athens Services ("Athens") with respect to customer billings for the period of July 1, 2025 through September 30, 2025.

Relevant Facts

As currently drafted, the First Amended and Restated Exclusive Solid Waste Handling Agreement ("Amended Agreement") becomes effective upon "the culmination of any proceedings relating to Proposition 218, resulting in the approval by City Council of the Maximum Service Rates specified in Exhibit 1." As of the date of this letter, the City's Proposition 218 proceedings have not commenced but are planned to proceed, with a public hearing to be held on or around July 16, 2025.

At the same time, under the existing Exclusive Solid Waste Handling Agreement, dated October 2, 2024 ("Current Agreement"), between the City and Athens, Athens is entitled to an annual rate adjustment ("2025 Rate Adjustment") effective July 1, 2025, which is prior to the earliest date that the Amended Agreement could become effective. The Maximum Service Rates specified in Exhibit 1 of the Amended Agreement waives the 2025 Rate Adjustment.

Resolution

To avoid a situation where, on July 1, 2025, Athens bills customers under the Current Agreement, which includes the 2025 Rate Adjustment, only for the Amended Agreement to take effect on or around July 16, 2025, which waives the 2025 Rate Adjustment, the City and Athens agree that the 2025 Rate Adjustment will not be included in the July 1, 2025 billings, and instead will be included in billings beginning October 1, 2025, *but only* if the Amended Agreement has not become effective by that date. This means rate adjustments effective July 1, 2025, will accrue from that date but will not be billed until October 1, 2025 should the Amended Agreement not become effective by that date. If the Amended Agreement becomes

effective by October 1, 2025, the 2025 Rate Adjustment will be waived and customers will not be billed at all for the 2025 Rate Adjustment. Instead, customers will be billed in accordance with the Maximum Service Rates set forth in Exhibit 1 to the Amended Agreement.

Please indicate Athens' acknowledgement of, and agreement with, the foregoing by executing this letter as provided below and returning an executed copy to me.

Thank you for your cooperation. Please contact us if you have any questions.

Sincerely,

_____

H. Ted Gerber
Public Works Director
City of South Pasadena

By acknowledges and agrees to the terms of this letter.

NOTICE OF PUBLIC HEARING

ON PROPOSED ADJUSTMENTS TO THE MAXIMUM SERVICE RATES FOR SOLID WASTE SERVICES

July 16, 2025
7:00 p.m.

City Hall Council Chambers
1424 Mission Street.
South Pasadena, CA 91030

CITY OF SOUTH PASADENA
1414 MISSION STREET, SOUTH PASADENA, CA 91030
TEL: (626) 403-7210 ▪ FAX: (626) 403-7211
WWW.SOUTHPASADENACA.GOV

NOTICE OF PUBLIC HEARING IN CONNECTION WITH PROPOSED ADJUSTMENTS TO THE MAXIMUM SERVICE RATES FOR SOLID WASTE SERVICES

Dear City of South Pasadena Customer/Owner of Record:

This notice is to inform you of a public hearing on proposed rate adjustments due to the implementation of a third waste stream/source-separated recycling collection services in the City of South Pasadena.

PUBLIC HEARING

NOTICE IS HEREBY GIVEN that on **Wednesday, July 16, 2025, at 7:00 p.m.**, or as soon thereafter as the matter may be heard, the City Council of the City of South Pasadena will hold a public hearing in the Council Chambers of City Hall, 1424 Mission Street, South Pasadena, CA 91030, to consider approving proposed adjustments to the Maximum Service Rates ("Rates") for the collection, transfer, transportation, recycling, processing, and disposal of solid waste ("Solid Waste Services").

The public hearing will be conducted in accordance with California Constitution Article XIII D, Section 6 (also known as Proposition 218). This notice is being sent to record owners of properties in the City that are subject to the Rates and to tenants that are directly responsible for paying for Solid Waste Services. As a result, you may receive duplicates of this notice.

Please check the agenda for the July 16, 2025 City Council meeting once it is posted on the City's website for additional information about how you can participate in the public hearing. Currently, members of the public have the option to participate in City Council meetings in person or virtually via Zoom or written public comment.

THE PROPOSED ADUSTMENTS TO THE MAXIMUM SERVICE RATES -- CHANGES TO THE ANNUAL RATE ADJUSTMENT FORMULA

The City currently contracts with a private solid waste hauler, Arakelian Enterprises, Inc. (dba Athens Services) ("Athens"), to provide Solid Waste Services. On May 21, 2025, the City Council approved a first amended and restated agreement ("Amended Agreement") with Athens to add a third waste stream/source-separated recycling services to the current Solid Waste Services. The Amended Agreement will help ensure that the City complies with State law, including Senate Bill (SB)1383, the Short-Lived Climate Pollutant Reduction Act, and the SB 1383 Regulations, which require the City to provide organic waste collection services and meet organic waste processing requirements.

In connection with the City's current agreement with Athens, on October 2, 2024, following a public hearing, the City Council approved initial Rate increases effective on January 1, 2025, and a formula for adjusting the Rates on July 1, 2025, July 1, 2026, July 1, 2027 and July 1, 2028 without the need to hold additional public hearings. **The Amended Agreement will add a third waste stream/source-separated recycling collection services for all Solid Waste customers without an immediate increase to Rates.** Instead, the City is proposing a change in the current annual rate adjustment formula to cover the cost of providing the added recycling collection services. If the proposed Rate

adjustments are approved by City Council, Rates will not be adjusted on July 1, 2025 and July 1, 2026. In addition, the Rates may be adjusted on July 1, 2027, July 1, 2028, and July 1, 2029 using the new annual rate adjustment formula without holding additional public hearings. The Amended Agreement will not become effective unless the City Council approves the proposed Rate adjustments.

The current Rates and proposed Rates for additional optional recycling collection services are shown on the attached chart. Each Rate applies to a specific type and frequency of service, and is calculated by adding together the Operations Component, Disposal Component (if applicable), and the Franchise Fee Component. The Operations Component includes Athens' costs of collecting and transporting Solid Waste, the Disposal Component includes Athens' per ton costs of processing and disposing of Solid Waste, and the Franchise Fee Component is calculated as ten percent (10%) of the Rate.

If the new annual rate adjustment formula is approved by the City Council, on July 1, 2027, July 1, 2028, and July 1, 2029, without holding additional public hearings, the Operations Component may be adjusted by an amount not to exceed the percentage change in the Consumer Price Index for Trash and Garbage Collection (Trash CPI) for the immediately previous 12-month period (March through February) plus one percent (1%). For purposes of the adjustment, the Trash CPI is the Consumer Price Index for Trash and Garbage Collection Series ID: CUUR0000SEHGO2, Not Seasonally Adjusted, U.S. City Average as maintained and published by the United States Bureau of Labor Statistics, or its successor index. Also, the Disposal Component may be adjusted in proportion to the increase or decrease in costs as determined by the percentage change in gate rates or tipping fees (including but not limited to all taxes and surcharges) at the appropriate facility(ies) not to exceed the percentage change in the Trash CPI plus one percent (+1%), as described above. Therefore, on each July 1st from 2027 through 2029, each Rate may be adjusted by an amount not to exceed the percentage change in the Trash CPI plus one percent (+1%), as described above.

PROPOSED CHANGES TO SOLID WASTE SERVICES

Single-Family Customers (1-4 units) with Manual Barrel Collection Service will see no immediate changes to their current solid waste rates. In addition, the July 1, 2025 and July 1, 2026 annual rate adjustments will be waived and there will be no increases to Rates until the annual rate adjustment on July 1, 2027, which will use the new annual rate adjustment formula as described above. If the Amended Agreement becomes effective, Athens will provide these customers with a minimum of one thirty-two (32) gallon black barrel (for solid waste), one thirty-two (32) gallon blue barrel (for recyclables), one thirty-two (32) gallon green barrel (for organics), and up to four additional barrels, any combination of black, blue, or green, for a maximum of seven (7) barrels total. Additional Rates for barrels after seven are shown in the attached chart. The timeline of new barrel deployment is dependent upon approval of the proposed Rate adjustments. More information regarding new barrel deployment, old barrel collection, and new three-stream collection services will be provided to all customers prior to any changes.

Single-Family, Multi-Family, and Commercial Customers with Automated Bin (Dumpster) Service will see no immediate changes to their current solid waste rates. In addition, the July 1, 2025 and July 1, 2026 annual rate adjustments will be waived and there will be no increases to Rates until the annual rate adjustment on July 1, 2027, which will use the new annual rate adjustment formula as described above. If the Amended Agreement becomes effective, Athens will provide these customers with one ninety-six (96) gallon blue cart for recyclable materials, serviced one time per week, in addition to their current solid waste services. If these customers choose to increase the service level for recycling collection services by volume or frequency, additional Rates will apply as shown in the attached chart. These customers will also still be required to subscribe to organics collection services as required under the City's current agreement with Athens. The timeline of new blue cart deployment is dependent upon approval of the proposed Rate adjustments. More information regarding new blue cart deployment and new three-stream collection services will be provided to all customers prior to any changes.

To view the complete current rate schedules, visit www.SouthPasadenaCA.gov.

PUBLIC HEARING AND PROTEST PROCESS

At the public hearing, the City Council will hear and consider all objections or protests to the proposed Rate adjustments. Any record owner of property subject to the Rates and any tenant that is directly liable for paying for Solid Waste Services (each, a "customer") may submit a written protest against the proposed Rate adjustments. If a parcel has more than one customer, only one written protest against the proposed Rate adjustments will be counted in determining the existence of a majority protest against the proposed Rate adjustments. A majority protest against the proposed Rate adjustments will exist if at the end of the public hearing, there are written protests submitted (and not withdrawn) by a majority of the customers subject to the proposed Rate adjustments. The City Council cannot adopt the proposed Rate adjustments if a majority protest exists.

How to Submit a Written Protest. To be counted in determining the existence of a majority protest against the proposed Rate adjustments, a protest must: (1) be in writing, (2) identify the parcel subject to the proposed Rate adjustments (by assessor's parcel number or service street address), (3) state opposition to the proposed Rate adjustments, and (4) include the name and original signature of the customer submitting the protest.

Written protests may be delivered in person to the City Clerk during the public hearing. Written protests may also be submitted prior to the public hearing by mail or personal delivery to the Office of the City Clerk at 1414 Mission Street, South Pasadena, CA 91030. Protests that are mailed or delivered to the Office of the City Clerk must be received (not postmarked) at City Hall prior to 12:00 p.m. on July 16, 2025 to be counted. Emailed and faxed protests will not be accepted.

If you have any questions regarding the proposed Rate adjustments or would like to view the current rate schedule, please contact the City of South Pasadena Public Works Department at (626) 403-7240 or visit www.SouthPasadenaCA.gov.

CITY OF SOUTH PASADENA
PROPOSED SCHEDULE OF RATES
Rates may escalate on July 1, 2027, July 1, 2028, and July 1, 2029

MANUAL BARREL COLLECTION (Solid Waste + Recyclables + Organics)

SINGLE-FAMILY (1 UNIT)

Waste Type	*For Solid Waste, Recyclable Materials, and Organic Waste Collection*
Container Type	*Customers will be provided up to seven 32-gallon Barrels and can choose a mix of Black Barrels (for Solid Waste), Blue Barrels (for Recyclable Materials), and Green Barrels (for Organic Waste) with a minimum of one Barrel of each color. Additional Barrels, after seven, require additional fees. There is no change in rate for having less than seven Barrels.*

Attachment No. 5

Amendment to Exclusive Solid Waste Handling Services Agreement

May 21, 2025

South Pasadena Public Works

City of SOUTH PASADENA

Background

- Senate Bill 1383 requires jurisdictions to provide organics collection services to all residents and businesses.
- A new agreement went into effect with a special rate adjustment for all customers on January 1, 2025.
- Athens and a City Athens Negotiations Working Group conducted additional negotiations to address the high diversion requirements of SB 1383.
- Focus: provide additional services and comply with SB 1383 with minimal immediate financial impact to ratepayers.
- City staff are proposing new amended and restated Agreement for approval and recommend approval of a resolution setting the Proposition 218 public hearing date to July 16, 2025.

Proposed Amended Agreement

City Council provided direction to proceed with an amendment with the following terms:

- ✓ Add recycling/blue collection service (third waste stream) for all customers.
- ✓ Freeze all rates at the January 1, 2025 rate schedule for all customers until July 1, 2027.
- ✓ Modify the annual rate adjustment formula from using CPI to using Trash CPI plus 1%.
- ✓ Extend the current seven-year rolling term to a ten-year rolling term.
- ✓ The City will agree to not issue a Notice of Intent to Wind Down for five years.

Modifications to Bulky Item Pick-Up Services:

- ✓ Provide all residential customers with one free curbside bulky item pick-up (for up to 5 items) per calendar quarter
- ✓ Replaces Senior Citizen Weeks and Dumpster Days
- ✓ Addresses issues with event locations, accessibility, and safety

3-Stream Implementation - Fleet

Fleet for 2-Stream System:

- (2) Commercial Front Loaders
- (2) Mother Trucks
- (1) Scout Truck
- (1) Mini Class C Rear Loader*
- (8) Manual Service Pick-up Trucks

4x
Commercial and
Mother Trucks

1x
(1) Green
Rear Loader

1x
Scout Truck

8x
Manual Service
Pick-up Trucks

Fleet for 3-Stream System:

- (2) Commercial Front Loaders
- (3) Mother Trucks*
- (1) Scout Truck
- (2) Mini Class C Rear Loaders*
- (12) Manual Service Pick-up Trucks*

5x
Commercial and
Mother Trucks

2x
(1) Blue
(1) Green
Rear Loaders

1x
Scout Truck

12x
Manual Service
Pick-up Trucks

*Vehicles to be added to fleet.

3-Streamline Implementation: Containers

Residential

- Up to 7 barrels per customer (minimum 1 black, 1 blue, 1 green)
- 29,986 (32-gallon) barrels to be deployed
- Recycle existing containers

Multi-Family/Commercial

- One 96-gallon recycle cart, serviced once per week

All containers will have standard labeling indicating what is and is not acceptable in the container.

Proposed Amendments

CPI → Trash CPI + 1%

- Current CPI measures the costs of consumer goods, which does not reflect the direct costs of the waste industry.
- Costs of goods and services will continue to evolve in the waste industry, and the Trash index measures those direct costs.
- To add the services of a third waste stream, Athens will need to incur significant capital expenses. The additional 1% covers these labor, operational, and equipment costs.

7 Year Rolling Term → 10 Year Rolling Term

- Enables Athens to recoup their capital investments and the loss of the rate freeze over time.
- Peer Cities with Trash CPI + 1% and minimum 10 year rolling term include Azusa, Covina, Downey, Glendora, Norwalk, Sierra Madre, South El Monte, and more.

Rate Freeze and Adjustments

Next Steps

1. Prop 218 Public Hearing for changes to annual rate adjustment formula on July 16, 2025. Staff to mail Prop 218 Public Hearing Notices at least 45 days before the hearing.
2. Upon successful Prop 218 hearing, Athens to begin procurement and waste assessments.
    - Manufacturing of barrels may take 16-18 weeks and collection vehicles will take approximately 90 days.
3. New residential barrel and commercial and multi-family bin and cart deployment will begin with extensive outreach and education provided to all account holders.
    - Deployment will take approximately 6-8 weeks.
    - Athens will remove and dispose/recycle customer's old barrels as part of the deployment process.

Questions

City Council Agenda Report

ITEM NO. 18

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Todd Hileman, City Manager
Lucy Hakobian, Community Services Director

SUBJECT: **CONSIDERATION OF AUTHORIZATION TO ISSUE A REQUEST FOR QUALIFICATIONS TO SEEK A PUBLIC-PRIVATE PARTNERSHIP P3 MODEL FOR THE REDEVELOPMENT, OPERATION AND MAINTENANCE OF THE ARROYO SECO GOLF COURSE**

Recommendation

Staff recommends that the City Council review and provide direction regarding the proposed Request for Qualifications (RFQ) process for identifying a private partner to redevelop, operate and maintain the Arroyo Seco Golf Course (ASGC). Specifically, staff seeks City Council input on whether to proceed with a formal release of the RFQ.

Executive Summary

The ASGC, a 27.8-acre municipal facility originally constructed in the 1950's, remains a valued asset for the South Pasadena community and the broader region. The site includes an 18-hole par-3 course, driving range, clubhouse, mini golf, putting green, pro shop amenities, and continues to serve the public well. The City of South Pasadena (City) recently completed a Comprehensive Plan prepared by Forrest Richardson Golf Course Architects, which outlines major improvements designed to enhance the guest experience, expanding programming opportunities, and ensure the facility's long-term sustainability. The purpose of the RFQ is to identify experienced and financially qualified private entities to partner with the City in delivering these improvements and operate the facility under a long-term lease, for a proposed term not to exceed 20 years.

Background

Since 2011, the ASGC has operated under a fee-for-service management model. In recent years, the City has undertaken a series of strategic efforts to evaluate the future of the facility and explore opportunities for long-term revitalization. Key initiatives to date include:

- Completion of the Comprehensive Plan-The City engaged Forrest Richardson Golf Course Architects to develop a comprehensive renovation and improvement plan for the ASGC.
- Public Engagement-Extensive outreach was conducted, including community surveys and public meetings, to gather feedback and align the plan with community priorities.
- Independent Market Analysis-The City retained Pro-Forma Advisors LLC to perform a market study and prepare a financial feasibility model to assess potential redevelopment scenarios.

The Comprehensive Plan proposes a series of capital improvements to modernize the facility and enhance its appeal and usability. Major proposed improvements include:

- Reconstruction of the driving range to incorporate Top Tracer technology for an enhanced, interactive practice and entertainment experience.
- Renovation and redesign of the 18-hole par-3 course layout to enhance playability, aesthetics, and overall golfer experience.
- Expansion of the mini golf course.
- Construction of a new clubhouse designed to accommodate up to 150 guests, featuring an event space, restaurant, restrooms and outdoor entertainment areas.
- Upgrades to parking areas and public amenities.
- Construction of a new maintenance facility.

Analysis

RFQ Overview

The purpose of the RFQ is to identify qualified, experienced and capable organizations interested in partnering with the City to potentially redevelop, operate and maintain the ASGC. The RFQ seeks respondents who can:

- Redevelop, operate and maintain the entire ASGC complex;
- Make a significant capital investment aligned with the Comprehensive Plan;
- Demonstrate a strong track record of operational excellence in managing comparable public recreation/golf facilities;
- Commit to sustainable, inclusive, and community-focused practices.

Qualified respondents will be invited to submit detailed information regarding financial capacity and organizational structure, relevant operational experience, vision for the future of the ASGC, conceptual proposals for capital improvements, suggested lease terms, and proposed phasing of redevelopment.

This is a qualifications-based process and is intended to assess interest and capability. It is not a solicitation for formal development proposals at this stage yet. The initial phase would be to bring a team on board to help the City staff and Council evaluate opportunities and business concepts as outlined in the City Council goals adopted on February 19, 2025. The next phase, should Council ultimately decide to move in that direction, would be to assess a financial partnership to facilitate the redevelopment of the course, building, and amenities.

Public-Private Partnership P-3 Approach

Given the scale and estimated cost of these improvements, staff is requesting City Council consider a P-3 model. This approach would allow the City to:

- Leverage private investment to support capital improvements.
- Reduce financial risk to the City by sharing costs and responsibilities.
- Ensure professional, long-term management and maintenance of the facility.
- Promote operational efficiency and innovation through experienced private-sector partners.
- Support a sustainable and community-serving amenity for current and future generations.

Fiscal Impact

There is no immediate fiscal impact associated with the release of the RFQ. Future partnership agreements are expected to include capital investment commitments from the

selected private partner and may result in a reduction in the City's long-term maintenance and operational costs. Final financial terms will be subject to negotiation and brought forward to City Council for review and final approval.

Key Performance Indicators and Strategic Plan
This item aligns with City Council Priority #2d-Insfrastructure, which calls for the exploration of funding sources to support the maintenance and enhancement of City assets.

OVERVIEW

SUMMARY

The City of South Pasadena (City) is seeking Qualification Statements from experienced and qualified organizations to redevelop, operate, and maintain the Arroyo Seco Golf Course (ASGC), an 18-hole course with related amenities such as the driving range, putting green, mini golf, clubhouse, pro-shop, and maintenance facility. The City is seeking a proven developer/ operator with an outstanding reputation, financial stability, demonstrated expertise, strong operational capacity, and a track record of excellence. The City values partners with experienced, proactive teams who are dedicated to delivering high-quality guest experience and committed to immediate and ongoing improvements. This Request for Qualifications (RFQ) invites organizations to demonstrate their capabilities, vision, and commitment to improving and operating ASGC.

KEY DATES

Release Date: DATE, 2025
Qualifications Statement Submittal Due: DATE, 2025
Selection and Notification of Qualified Candidates: DATE, 2025

QUALIFICATIONS STATEMENT INFORMATION

Qualifications Statements should be comprehensive and clearly outlined. Instructions for what to include in your submission are detailed herein.

POINT OF CONTACT

This RFQ Official Point of Contact is:

GENERAL INFORMATION

COMMUNITY PROFILE

The City of South Pasadena (City) is a charming community, situated only six miles from downtown Los Angeles. Called the City of Trees, the area is known for its stunning homes, unique small businesses, and top-quality schools. South Pasadena's diverse population of about 26,000 occupies a mere 3.44 square miles of flatlands and hillsides on the west side of the San Gabriel Valley. This small-town atmosphere makes South Pasadena one of California's most desirable locations.

More than 100 acres of parks and playgrounds blanket its landscape, and more than 21,000 trees adorn its streets. The quiet, historical character of its attractive neighborhoods is a testament to the preservationist efforts of residents in protecting both its architectural and natural beauty. The City enjoys a low crime rate and the benefits of a close-knit, participation-oriented community. Its busiest street, Fair Oaks Avenue, is an important link in the original Route 66 and remains a vital thoroughfare today. A Gold Line station provides a light rail connection to downtown Los Angeles and the regional transportation system. Mission Street and its vicinity are dotted by fine restaurants, downtown lofts, and unique shops.

The City's Community Services Department is responsible for managing City-owned properties and leases, including the Arroyo Seco Golf Course, Arroyo Seco Racquet Club, San Pascual Stables, South Pasadena Batting Cages, South Pasadena Community Garden and Iron Works Historical Museum.

Importantly, South Pasadena benefits from its location in the strong Los Angeles metropolitan market area. The current population within a 20-minute drive time from ASGC is estimated at 1.13 million residents.

ARROYO SECO GOLF COURSE

The ASGC facility is a 27.8-acre facility constructed and opened in the mid-1950's. The facility includes an 18-hole Par 3 golf course, 28 hitting bay driving range, a 9-hole miniature golf course, a 7500 sq. ft. clubhouse with a restaurant, golf shop, starters office and a 135-space parking lot. Over 100,000 visitors frequent ASGC on an annual basis. The property has many trees and has always been recognized as one of the most scenic golf venues in Los Angeles County.

A redevelopment program has recently been completed for ASGC. The plan comprises reconfiguration and renovation of the 18-hole par-3 golf course, upgrade of the practice range with Top Tracer or equivalent technology, a 9-hole expansion of the mini golf course, clubhouse improvements and other facility improvements. A comprehensive plan for the renovation of ASGC has been prepared by Forrest Richardson Golf Course Architects.

INVITATION TO SUBMIT QUALIFICATIONS FOR REDEVELOPING, OPERATING, AND MAINTAINING THE ARROYO SECO GOLF COURSE COMPLEX

The City is requesting Qualifications Statements from qualified organizations interested in making a significant investment to redevelop, operate, and maintain the ASGC. The City recognizes that the redevelopment of ASGC may involve several phases. The phasing schedule is subject to further evaluation and negotiation. Through this process, the City is seeking to establish a public-private partnership to support the long-term success and sustainability of the facility.

ARROYO SECO GOLF COURSE COMPREHENSIVE PLAN

DRAFT

The Comprehensive Plan undertaken by the City for ASGC was conducted by Forrest Richardson Golf Course Architects. The Plan was developed based on assessment by a qualified architectural team, supported by consultants in agronomy, range development, golfer trends, biological resources and civil engineering. The public was extremely active in responding to on-line surveys and in-person meetings throughout the process of planning. While the City is open to alterations, the Comprehensive Plan vision/programming represents the City's preferred plan for ASGC. Additionally, the City prefers continuity to have capital improvements led by the primary consultants assigned to the Comprehensive Plan. These considerations will weigh heavily in the City's evaluation and assessment of determining qualified entities. With the development of the Comprehensive Plan. The City also retained an independent, expert golf industry consultant - Pro-Forma Advisors, LLC – to complete a market analysis and develop a Pro-Forma for the proposed redevelopment project. All documents related to the Golf Comprehensive Plan and the Pro-Forma can be found here: https://d3n9y02raazwpg.cloudfront.net/southpasadena/faf8893e-de95-11ef-a9e2-005056a89546-e0713190-0589-4e1b-bc72-899f24a0a17c-1740096260.pdf

DEVELOPER / OPERATOR SERVICES

CAPITAL IMPROVEMENTS

In accordance with the recently finished ASGC Master Plan, complete capital improvements for the various components of the plan are listed below. Again, the improvements may be completed in multiple development phases.

- Add a new entrance to the golf course with additional parking.
- Reconstruct and modernize the driving range with Tracer technology-based entertainment bay format, new poles and nets, and new lighting. Range may double as an additional outdoor community event space.
- Construct a new clubhouse designed to accommodate up to 150 guests, featuring an event space with a restaurant, restrooms, and outdoor entertainment area.
- Update the existing 9-hole mini golf and add an additional 9 holes.
- Reconfigure and renovate the 18-hole par-3 course, including new tees, reconstructed greens and turf reduction to enhance playability, aesthetics, and overall golfer experience.
- Relocate and construct a new maintenance facility.
- Complete a new irrigation system, lighting and perimeter fencing.
- Improve public spaces, including public putting commons, view hills and patios.

OPERATIONS

Operate and provide maintenance services to ensure optimal performance and high guest satisfaction.

- Golf Course.
- Driving range.
- Putting green.
- Mini golf.
- Clubhouse.
- Pro shop.
- Restaurant.
- Maintenance facility.
- Landscape management.

BUSINESS SUPPORT

Establish system, procedures, protocols to support and optimize business results.

- Information Technology.
- Controls and Security.
- Finance, budgeting, accounting and all other administration.
- Marketing and Sales.
- Personnel/human resources.

LANDSCAPE MANAGEMENT

Maintain course conditions and land infrastructure in a first-class manner to ensure both proper stewardship of the golf course land and high levels of guest satisfaction with course conditions. Additionally, ASGC is proud to be part of the American Green Zone Alliance, transitioning our entire fleet to all-electric for a cleaner, more sustainable future.

- Management of grass, plants, and trees.
- Management of irrigation plans, systems and equipment.

DRAFT

- Management and maintenance of cart paths, signage, fencing, and lighting.
- Maintenance and operation of landscape equipment.

ENVIRONMENTAL MANAGEMENT

Ensure proper stewardship of land and other environmental resources consistent with rules and regulations, compatible with the course's setting.

- Integrated pest management program.
- Landscape IPM program.
- Weed management guidelines.
- Zero Waste Plan.

LEGAL AND COMPLIANCE MATTERS

Operate in compliance with all relevant laws, regulations, policies and rules.

- Historical preservation.
- Records and reporting.
- Insurance requirements.
- Laws, policies, regulations, guidelines.

AGREEMENT STRUCTURE

The City is identifying the structure, terms and duration of the next generation agreement for operation of ASGC. Since 2011, the course has been operated under a fee for service management agreement. The City anticipates operation of the ASGC complex would be in the form of a long-term lease agreement not to exceed 20 years. As significant capital investment is needed, the agreement would be structured to share risk and performance proceeds between the City and developer/operator. Respondents are requested to include a proposed lease term structure, level of capital investment, and lease duration (in number of years) within their Statement of Qualifications.

QUALIFICATIONS STATEMENT INSTRUCTIONS

Please include in your Qualification Statement: your company information, experience, and other items. Limit your submission to no more than 20 pages (not including financial report appendix).

COVER LETTER

Please provide a cover letter including:

- A brief narrative that explains why your firm is qualified to perform this work.
- Firm profile including current courses under management, lease or ownership background, years of experience and history.
- Mission and business philosophy - both as a service provider and an employer.
- Ownership structure.
- Geographic and/or market focus.

EXPERIENCE

The City is looking for companies with experience in the following areas. Provide a description of your experience in each of the areas listed below, supported by relevant examples of the properties where you provided these services:

- Completion of major golf and support facility capital improvements.
- Operation and management of high-quality 18-hole golf courses.

DRAFT

- Federal, state or municipal properties in a park setting, with a minimum of 5 such properties over the last five years.
- As a tenant under a lease agreement or as a management company.
- Junior golf programs.
- Managing all components of a golf course, including golf course maintenance, golf operations, pro shop merchandising, food & beverage operations, instruction & programming, janitorial service, land management, human resources, construction management and improvement projects.

COMPANY PROFILE

- Provide, as an appendix, the latest fiscal year-end annual reports, including financial statement, balance sheet and cash flow statement.
- Summarize your key competitive advantages and core competencies.
- Include an organization chart for your corporate office, as well as a typical organization chart for golf course property operations.
- Discuss examples of major capital improvement projects undertaken at other golf courses under your operation with substantial capital investments in exchange for a long-term lease or a private public partnership.

PRELIMINARY PLANS AND FEEDBACK

- Indicate your interest level if this contract is offered as a lease.
- Provide a preliminary outline of capital improvements you would propose in the first phase of redevelopment. Include a brief description, estimated timetable and estimated budget for each component of phase one.
- Indicate the level of capital investment your firm would be capable of and interested in making if you were selected as the City's partner in the redevelopment and lease operation of ASGC.
- Describe how you would recommend structuring capital investment (investment level, capital recovery mechanism and other agreement terms).

ANTICIPATED TIMELINE AND INSTRUCTIONS

Anticipated Timeline listed below, all due by 12:00 noon on their respective due dates

- Release Date: DATE 2025
- Virtual Mandatory Meeting: DATE, 2025
- Deadline to Receive Technical Questions: DATE, 2025
- Optional Site Visits: DATE, 2025
- Qualifications Statement Submittal Due: DATE, 2025
- Interviews with Potential Candidates: DATE, 2025
- Selection and Notification of Qualified Candidates (if applicable): DATE, 2025

SUBMISSION INSTRUCTIONS

Only electronically submitted responses will be accepted. All Qualifications Statements become the property of the City of South Pasadena. The City will not furnish any pre-selection information concerning the status of a submission other than an acknowledgement that the submission was received.

Submit Qualifications Statement to:
Lucy Hakobian
Community Services Director

DRAFT

Lhakobian@southpasadenaca.gov

SELECTION PROCESS

This is a Request for Qualifications (RFQ) only and is not a formal Request for Proposal (RFP). Information obtained from submissions may be used to pre-qualify and select firms for a subsequent RFP process, if necessary. The City may also have the option to negotiate an agreement with a vendor selected through the RFQ process without issuing a formal RFP. If the City conducts an RFP and selection process, it may request additional information as needed. As the sole and final decision-maker, the City reserves the right to terminate this process at any time and for any reason. A future contract will address customary terms and conditions relating to the services. The City discloses that it is a city agency, and the future contract will address requirements related to municipal law and the City's procurement processes and requirements. Responses to RFQ may not be confidential and may be subject to Public Records Act disclosure.

DRAFT

City Council Agenda Report

ITEM NO. 19

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Lucy Hakobian, Community Services Director

SUBJECT: **DISCUSSION AND DIRECTION RELATED TO A PROPOSAL FOR A VINTAGE AND CRAFT MARKET BY SOUTH PAS VINTAGE AND HODGSON'S ANTIQUES IN THE PUBLIC RIGHT OF WAY ON MERIDIAN AVENUE, BETWEEN MISSION AND EL CENTRO STREETS**

Recommendation

Staff is requesting that the City Council review the proposal from South Pas Vintage and Hodgson's Antiques (Vintage) regarding a monthly Vintage and Craft Market (Market) and provide direction to staff.

Executive Summary

The purpose of this staff report is to evaluate a request from the Vintage to host a recurring Market on the public right-of-way. The proposed event would occur one Saturday each month along Meridian Avenue, between Mission Street and El Centro Street. This report assesses the feasibility of the proposed event, analyzes potential impacts on the community and public infrastructure, and examines how comparable jurisdictions manage similar uses of the public right-of-way.

Background

In September 2023, Samara and Robert Hodgson (Applicant) approached the City with a proposal to host an outdoor monthly "Vintage and Craft Market" named South Pas Flea Market. The Market featured a curated selection of 30-50 vendors, invited to participate by registering and paying for a space. These vendors typically offer vintage goods and attend on a recurring monthly basis. Following a review of the proposal, the City Manager at the time approved the Market to operate as a pilot program to promote economic development and encourage community engagement efforts. There were no fees associated with this pilot program; however staff did obtain insurance and business license verification form the Applicant for the vendors. While initial concerns were raised by local businesses and potential impacts on their operations, those issues were addressed during the pilot period. The pilot program launched in September 2023 and concluded in December 2024. The hours of operation were from 9:00 a.m. to 3:00 p.m. on the third Saturday of the month (street closures by 7:00 a.m. and reopening streets at 4:00 p.m.) It should be noted that food vendors were not part of the pilot program.

Analysis

In December 2024, the Applicant submitted a proposal requesting permission to operate within the public right-of-way to host a Market on the third Saturday of each month, from 10:00 a.m. to 5:00 p.m., with street closures commencing at 8:00 a.m. and reopening at 6:00 p.m. As part of the proposal, the Applicant is offering a 5% commission of all vendor sales to the City in addition to collection and remittance of applicable sales taxes. Vendor revenue is estimated to average between $500-$1,000 per day. Further information regarding commission and sales tax included in Applicant's attached proposal. Key components to the Applicant's business plan include:

- Approximately 50 curated vendors
- 3-5 reputable food vendors carefully selected to avoid competition with nearby businesses
- Estimated attendance of 2,000-3,000 visitors throughout the day
- Traffic Control Plan for the street closure
- Waste management services provided through Athens
- Rental of ADA-compliant restrooms and handwash stations
- No current need for electrical power; however the Applicant is requesting access to City power if needed in the future

Currently, the City does not have any regulations in place governing the temporary use of, and/or encroachment on the City's public right of way for the operation of the proposed Market or other similar types of events. The City does have a "Co-Sponsorship Policy" but that policy prohibits co-sponsorship of activities that serve to enhance private businesses. Among recurring events that utilize public streets, the closest comparable example is the weekly Farmer's Market operated by the South Pasadena Chamber of Commerce (Chamber), which is a non-profit organization. However, the Farmer's Market operates in partnership with the City pursuant to an agreement between the parties and the City requires the Chamber to contract with a certified market operator. The Farmer's Market is also regulated under state law, and pursuant to the agreement, the City receives 7% of the market's sales.

As stated, if approved, the proposed Market would occur on the third Saturday of each month and take place in the same location as the Farmer's Market. The proposal includes a request to include food vendors. If the City Council considers moving forward, the Market would be responsible for providing the following:

- Event coordination and vendor management
- Obtaining the necessary health department permit for food vendors through Los Angeles County Health Department
- Securing required business license from all vendors through the City's Finance Department
- Securing a Certificate of Insurance from all vendors and the event organizer
- Developing and paying for a Traffic Control Plan, to be approved by the City
- Obtaining an encroachment permit and other permits or fees related to the closure of the City's public right-of-way

Below is staff's analysis outlining both the benefits and challenges associated with this request:

Benefits:

- Economic development-Supports local entrepreneurship and contributes to the vibrancy of the downtown district
- Support of small businesses-Opportunities for business visibility and growth

Challenges:

- The identified location is a busy intersection, so the Market may interfere with the city's walkability
- Liability/Risk Management-Potential legal and safety risks associated with activity on public right-of-way, which is to be mitigated through the requirement of proper insurance and indemnification to the City
- Setting a precedent-Approval may lead to similar requests from other businesses increasing administrative workload
- Aesthetic and Maintenance Concerns- May lead to visual clutter and could distract from the area's appearance and functionality
- Public Opposition-Nearby property owners or resident concerns about noise, crowding, or loss of public space
- Operation Hours-Proposed hours of operation are 10:00 a.m.-5:00 p.m. which extend beyond the pilot program's original hours from 9:00 a.m.-3:00 p.m. These extended hours may raise concerns, as they may negatively impact surrounding businesses in the vicinity
- The lack of a City regulatory process for this type of temporary use or special event. If this is approved, staff recommends that the City Council provide direction in the future for the development of a policy governing the temporary use of, and/or encroachment on the City's public right of way for the operation of similar events.

The Applicant was informed of alternative options, including the possibility of renting City facilities such as the Community Room or the War Memorial Building. However, they expressed a preference for an outdoor venue and were not interested in hosting the event indoors.

As discussed further below, events where attendance is projected to be in the hundreds or thousands of people, City streets will be closed and City resources and cost (such as staff time) will be incurred, and are generally handled through a temporary use or special event process. In reviewing the City's municipal code, there is a provision for temporary use permits (See Section 36.410.050 entitled "Temporary Use Permit"). However, the purpose and focus of Section 36.410.050 is to allow short-term activities that may not meet the standards of the applicable zoning district-essentially temporary "land uses" that occur on private property such as a "parking lot sale" in a lot adjacent to an existing business.

And while there is a specific provision for special events such as auctions, car washes, carnivals, fairs, festivals, flea markets, rummage sales, and other uses, in the context of the purpose of Section 36.410.50, these would be "special events" that take place on private property in conjunction with an existing use. Accordingly, the City does not have an ordinance or other regulations that govern the type of event being proposed, which is located on public property and requires the closure of the public right-of-way.

Staff reached out to jurisdictions to understand how they manage similar requests. As shown int he table below, the cities that allows these types of events on the public right-of-way have a formalized permit process. The information gathered is summarized as follows:

Agency	Allow for-profit business to host an event with street closure	Notes	Fees
Alhambra	Yes	Treated as a Special Event. Application gets routed to all city departments and based on the need, it may impose fees on equipment, staffing, etc. Certificate of Insurance is at least $5 million.	TUP $685
Monterey Park	Yes	Allows for outdoor dining, sidewalk vending, TUP, Special Event Permits, and Encroachment Permits. It is not encouraged however they can process these types of applications. In the last 5 years, no requests have been submitted.	Encroachment Permits/Streets Opening Fee $287.53 Traffic Control Fee $145.32 Temporary Encroachment $220.06 Special Event Permit $650
Monrovia	Yes	Applicant responsible for all associated staffing (fully burdened rates) and operation costs and the cost of any conditions approved. Applicant must obtain written approval from all businesses and/or residents affected by the proposed street closure. The requirement discourages large-scale for profit event.	Police Department fees: Fully burdened rate of officers, certified traffic plan, private security, traffic barriers Fire Department fees: Special activity permit and pay inspection fees Public Works fees: Event staffing, street sweeping, waste disposal, street closure set up/tear down
Rosemead	Yes	Treated as a Special Event. Fees include daily permit fees, outdoor festival fee; and fully burdened staffing fees based on needs.	Daily permit fees range from $336 to $637; Outdoor festival fee $532; Fully burdened hourly rate for staff
Sierra Madre	No	Allows encroachment permits for outdoor dining and sidewalk vending only.	
San Gabriel	No	Only hosted a Farmer's Market however that was on city property	
San Marino	No	Allows encroachment permit for outdoor dining only	

If the City Council desires to move forward on the Applicant's proposal, Community Services can establish an interim process for the closure of the public right-of-way to allow for the Market to occur. This process would include but would not be limited to: submission of a site plan, including a plan for traffic safety equipment, a traffic control plan and sanitation plan (trash and restroom facilities); ensure that vendors have a business license and health department permits (if applicable) and the vendors hold the city harmless from any liability; require the Applicant to execute an indemnification agreement and provide a certificate of liability insurance naming the City as an additional insured; and require the Applicant to submit applications for any permits that would be applicable for the Market such as an Encroachment Permit. This process can also include a refundable clean-up deposit to ensure that City property has been cleaned and restored to the same condition as existed prior to the event and provide the reimbursement and recovery of costs incurred by the City related to or necessitated by the Market.

Fiscal Impact
The City currently does not have a special event permitting process for use of the public right-of-way for the Market or similar events proposed solely by private business or entities. However, the City will incur costs related to staff time to oversee the process in allowing the Market to occur as well as costs related to oversight of the Market on the day of the event. While there is not a formal fee structure in place, the City should be reimbursed for its costs so that the event is cost-neutral for the City or as otherwise determined by the City Council.

Commission Review and Recommendation
This item was not reviewed by a Commission.

Attachment No. 1 - Vintage and Craft Market

Vintage and Craft Market

A Monthly Market Proposal for a regular basis market.

By: South Pas Vintage and Hodgson's Antiques

Mission Statement

Our ultimate goal for the South Pas Flea is to bring vintage and craft lovers to the city of South Pasadena. Our parent company Hodgson's Antiques has been in business here in South Pasadena since 1971 and they have seen many craft and antique fairs in this city. We hope to bring those events back to the city of South Pasadena. Mission St was once known for its vintage and antique shops and is a community filled with artists, therefore we believe that this market fits into the city culture. We believe we have experienced a strong positive feedback from the local community and residents and would love to make this a continuous event for the City of South Pasadena!

We understand that the lucrative and small town feel is very important to us residents for many reasons. The wrong crowd can change the safety and enjoyability of our town but we believe that we will attract the right crowd with this niche market.

We intend to make this market a highly desired and a lucrative market place for people to shop, gather and enjoy their day. This market would bring people that typically wouldn't do business in South Pasadena to our small town which can mean an increase in business for everyone. We personally have already experienced this with the regular farmers market on Thursdays as well as with any additional events, and we hope to add to that once a month!

FINANCIALS

Our proposal for the financial agreement with the City of South Pasadena.

We propose that all transactions are conducted at controlled booths on behalf of the South Pas Flea. No transactions will be conducted at vendor booths.

We can contribute 5% of all vendor sales to the City for allowing us to close the streets in addition to collecting sales tax for the city.

Financials Continued

On average our vendors earn between $500-$1,000 a day. Some vendors earn more than $1,500. We have a large continued vendor following meaning the money is worth the effort.

With the current layout on El Centro and Meridian, we can fit around 70 booths.

The following slide will present examples of how much money 5% can bring in for the city.

COMMISSION EXAMPLES AT 5% COMMISSION ON SALES

lOW RANGE IS $500 IN SALES AND HIGH END IS $1,000 IN SALES.

EXAMPLE #1: 50 VENDORS

$1,250-$2,500 IN COMMISSION

Example #2: 40 Vendors

$1,000-$2,000

Example #3: 25 Vendors

$625-$1,250

Sales Tax Collected for Vendors

EXAMPLE #1: 50 VENDORS

$1,250-$2,500 IN COMMISSION **plus $2,625-$5250 in Sales Tax**

Example #2: 40 Vendors

$1,000-$2,000 in commission plus **$2,100-$4,200 in Sales Tax**

Example #3: 25 Vendors

$625-$1,250 in commission plus **$1312.50-$2,625 in Sales Tax**

How Sales will be Collected

All sales will be collected by South Pas Flea Staff at designated booths. No sales will be conducted at individual booths to ensure each booth pays commission and tax on each sale.

The golden Standard

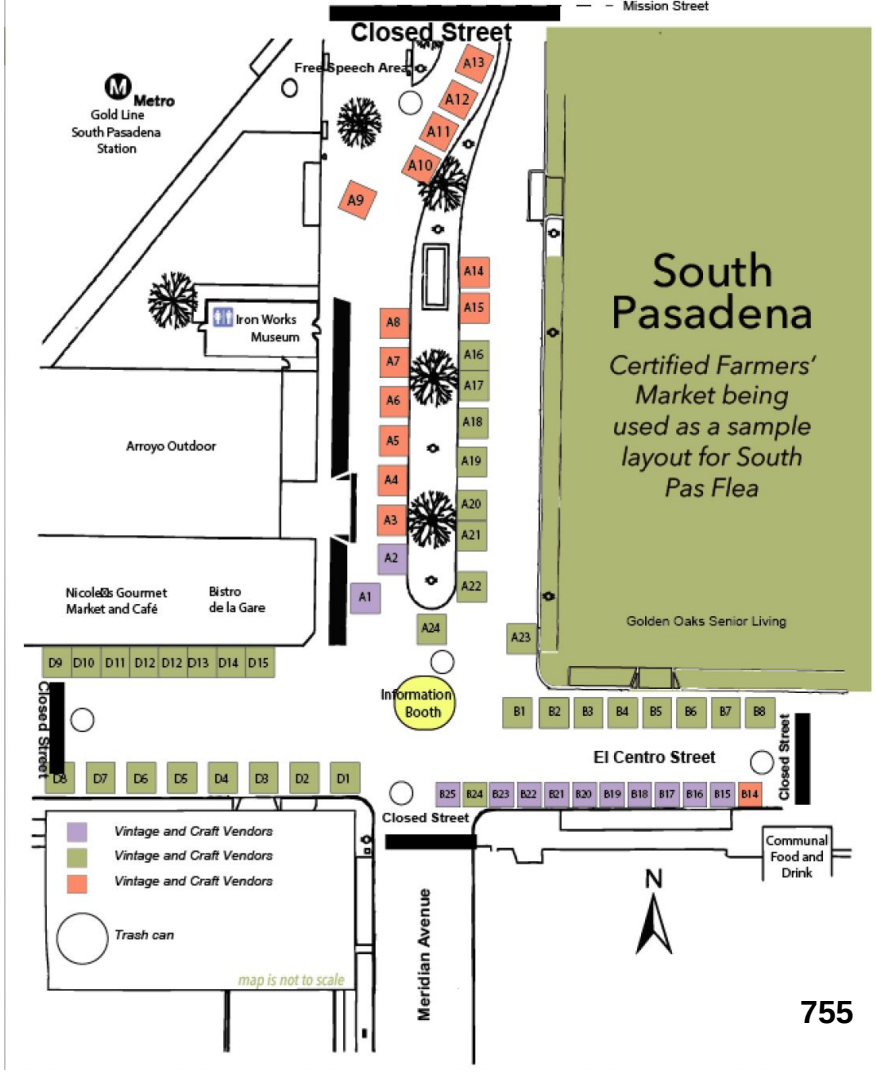
This is not a swap meet and we will not be aiming for that culture or environment. Every vendor is hand selected and the criteria is vintage clothing (early 2000's and older), antiques, vintage and antique home goods, plants, artists prints or originals, and any items that are hand crafted or created by the person selling it. Nothing can be mass produced or unethically sourced.

Booths will be curative, attractive and family friendly.

See the following slides for reference…

NORMANDIE

West Side Story
$15 SOUTHERN



When (one Saturday/month),

- 3rd Saturday each month from 10 am - 5 pm
- Vendors need about 1.5-2 hours to set up and about 1 hour after to close down.

Where:Map

Meridian and El Centro where the farmers market currently is- minus going down the southern side of Meridian and not passing the Golden Oaks Driveway

Where: Example from Eclectic Music Festival 2022

Number and type of vendors

- Pre-screened vendors to ensure they are selling family friendly and sustainable items which include vintage clothing, vinyls, antiques and collectibles, jewelry, candles and many other small or hand made items.
  - Approximately 3-5 permitted and reputable food vendors that do not conflict with local brick and mortar businesses for example no coffee, sandwiches, boba, etc.
- Approximately about 50 vendors.

Anticipated number of attendees

Between 2-3k people throughout the day.

Street Closures

We will use pacific traffic control. They are already being used by the farmers market.

PTC Pacific Traffic Control, Inc.

Trash and clean up

We will use Athens trash bins. We will also place trash cans around the market for people to throw their things away and ensure that the streets are left clean after markets with a clean up crew.

Toilets

We rent ADA toilets and handwashing stations from GR Roll off services.

Power

We do not anticipate needing any power. The market will run during daylight hours from 10-5.

- Should there ever be a need for power, If possible, we would like to use city power but we anticipate using daylight for most of the events. There may be a few months toward the beginning and end of the year that may require supplemental lighting.

Parking

- Public transit would be highly encouraged. Since this event would be off of the Gold Line we would promote for attendees to use the Metro as much as possible.

- For those who are driving, because our market will be held on a Saturday, parking would be directed to the Metro lot off of mission and meridian, which is free on the weekends. This will help keep residential street parking open.

Inclusion of Local Businesses and Residents

- We intend to ask businesses to promote or to try and/or sell items at the event for a free or reduced cost booth. Any business that fits the Sustainable, handmade, vintage and antique theme is welcome to join.
- For example: Arroyo Outdoor has participated each month by putting small pots and their ATM out for customers. Raices, who is no longer in business, was selling soap and other products at our events. We have a handful of South Pasadena residents that join the market to sell their crafts or goods. We would not aim to compete with local businesses and their models but rather include them.

Business Support

We have started going to local businesses to get a signature of their approval. So far we have approval signatures from the following people:

- Hodgson’s Antiques
- South Pas Vintage
- La Monarca
- Jeweled Universe
- Radhika Restaurant
- Old Focals
- Teamorrow
- Alexander Building:Abe Oheb
- Raices
- Historical Museum
- Nicole’s Gourmet
- Kaldis Coffee

SOUTH PAS FLEA

We're planning a vintage clothing and arts and craft market for every 3rd Saturday of the month.

Our vendors will include vintage clothing vendors which is a huge market in and around the world right now. We will also have artisans and crafters selling at our market during this event which includes jewelry, painters, candles, and any other hand crafted item.

This will mean we will have to close the streets on Meridian and El Centro for the market every 3rd Saturday of the month. We understand this may be a lot to ask of most of you but we assure you we will try and make this beneficial for everyone. For example, coffee vendors, food vendors and any other direct competition to your business will not be allowed at the market. We also allow you to set up a free booth if you choose for your direct business.

The layout and plan would be exactly the same as the South Pasadena Farmers Market.

We need business support and community support to get this market going.

The following sheet is a petition showing your support to close the streets once a month on the 3rd Saturday of the month between 7 am - 5 pm.

This will bring lots of business and walking traffic to our businesses which would be huge for our community and business community. We understand if you have hesitations and concerns and will try to accommodate your needs as much as we can.

Respectfully,

South Pas Vintage

City Council Agenda Report

ITEM NO. 20

DATE: July 16, 2025

FROM: Todd Hileman, City Manager

PREPARED BY: Erika Ramirez, Community Development Director
Dean Flores, Acting Planning Manager
Michael Donovan, Associate Planner

SUBJECT: **STATUS REPORT OF THE CITY'S ACTIVE MILLS ACT CONTRACTS AND DISCUSSION AND DIRECTION ON THE REPORT'S RECOMMENDATIONS**

Recommendation
Staff recommends the City Council receive and file the report and provide direction.

Group 1:
Staff recommends that the property owners submit a new Rehabilitation & Restoration Plan that outlines potential new work items to be carried out for the property over the next 10 years. The new work plan would be brought to the Cultural Heritage Commission for review, comment, and recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal.

Group 2:
Staff recommends that these contracts be brought to the Cultural Heritage Commission as an update for review and comment.

Group 3:
Staff recommends that these properties be given 1 year to provide an updated Rehabilitation & Restoration Plan that identifies when the remaining tasks will be completed. These updated work plans shall then be brought to the Cultural Heritage Commission for review, comment, and a recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal. If a property owner does not provide an updated work plan within the year provided, then Staff will recommend to the City Council the Mills Act Contract associated with such property be cancelled pursuant to SPMC Section 2.68(b)(1)(D)(ix).

Executive Summary
This report serves as a summary to City Council on the status of all active Mills Act Contracts within the City of South Pasadena. A Mills Act Contract is an agreement between the City and the property owner. The contract requires that the property owner complete specific restoration and rehabilitation tasks, as submitted in the proposed Rehabilitation & Restoration Plan ("work plan") reviewed by the Cultural Heritage Commission (CHC). In return, for the duration of 10 years and beyond, the property owner receives a reduction in their property tax bill with the agreement that those property tax savings be reinvested into the property and fund

the approved improvements. This report serves as a status report to City Council for each Mills Act Contract. However, the current property tax savings for each property are unavailable. The Los Angeles County Assessor's office cannot issue valuation letters at this time due to a backlog of work resulting from the recent wildfires. Staff has categorized the active Mills Act contracts into 3 separate groups regarding their adherence to their respective contracts - full compliance, partial compliance, and non-compliance - with recommendations for each. Staff will continue collaborating with the CHC in reviewing the active Mills Act Contracts and preparing recommendations to City Council on each one.

Background

Pursuant to South Pasadena Municipal Code (SPMC) Section 2.68(b)(1)(E)(vi), an annual report shall be provided to City Council on the progress of all active Mills Act Contracts. Due to the many changes in staff over the years, the City has not been able to maintain consistent review of active Mills Act Contracts. As a result, the City Council directed staff to provide an update for all active Mills Act Contracts.

On March 6, 2025, letters were mailed out to 24 of the 26 property owners with an active Mills Act Contract requesting a progress report on all items listed on their respective work plans. Two Mills Act Contracts - 203 Oaklawn and 1209 Indiana Ave - were approved last year in October 2024 thus were not requested to provide a status update.

On June 4, 2025, a follow-up letter was mailed out to all property owners requesting additional information.

All 24 property owners have responded and submitted Progress Reports. Please see Attachment 1 for a list and summary of all active Mills Act Contracts. Attachment 2 is a compiled list of all Progress Reports and their Mills Act Contracts.

Analysis

The term for each contract is a minimum of 10 years, unless the property owner is issued a notice of nonrenewal pursuant to SPMC Section 2.68(b)(1)(E)(v). All of the City's Mills Act Contracts include language stating that, on the anniversary date of each contract- or other date as specified- one year shall be automatically added to the initial term unless a notice of nonrenewal is issued. As part of the criteria used in approving a Mills Act Contract, property owners are expected to complete the tasks outlined in their work plan within the first 10 years. This ensures compliance with the financial investment requirement under SPMC Section 2.68(C)(i), which states that "*[t]he estimated tax benefit is not expected to exceed the applicant's proposed financial investment in the cultural resource over the first 10 years of the contract*". Most of the work plans specify the timeline for completing each task within the 10 year period.

The list of active Mills Act Contracts span from the year 2000 to 2024. Staff has divided the active contracts into three groups - Group 1: Full Compliance (Attachment 3), Group 2: Contracts in Partial Compliance (Attachment 4), and Group 3: Non-Compliant Contracts (Attachment 5).

Group 1: Full Compliance

In this group there are three properties that have completed all tasks outlined in their respective work plans - 800 Fair Oaks Avenue, 1040 Stratford Avenue, and 925 Palm Avenue.

These contracts are still active and continue to receive a property tax reduction.

Recommendation
Staff recommends that the property owners submit a new Rehabilitation & Restoration Plan that outlines potential new work items to be carried out for the property over the next 10 years. The new work plan would be brought to the Cultural Heritage Commission for review, comment, and recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal.

Group 2: Contracts in Partial Compliance
This group consists of two subcategories. The first subcategory includes properties still within the initial 10 year term of their contract and have not yet completed all tasks outlined in their respective work plans. The second subcategory consists of properties that have submitted modified work plans thus extending their work plan schedules, but have not yet completed all tasks outlined in their respective work plans. The first subcategory consists of 11 properties and the second subcategory consists of 5 properties.

Recommendation:
Staff recommends that these contracts be brought to the Cultural Heritage Commission as an update for review and comment.

Group 3: Non-Compliant Contracts
This group consists of properties that have eclipsed the initial 10 year term of their contract and have not completed all tasks outlined in their respective work plans. Some of the properties in this group have completed most of their work items, but are non-compliant because they did not complete all the work items within the initial 10 year term.

Recommendation:
Staff recommends that these properties be given 1 year to provide an updated Rehabilitation & Restoration Plan that identifies when the remaining tasks will be completed. These updated work plans shall then be brought to the Cultural Heritage Commission for review, comment, and a recommendation to City Council on whether to continue to renew the contracts or issue a notice of nonrenewal. If a property owner does not provide an updated work plan within the year provided, then Staff will recommend to the City Council the Mills Act Contract associated with such property be cancelled pursuant to SPMC Section 2.68(b)(1)(D)(ix).

In the past, City Council has issued a notice of nonrenewal for a property that completed all their tasks outlined under their contract and for a property that did not complete their tasks or submit a progress report. 909 Lyndon Street received a notice in 2012 and 1535 Ramona Avenue received a notice in 2011. A nonrenewal was issued for 909 Lyndon Street after all tasks outlined in their work plan had been completed and 1535 Ramona Avenue received a nonrenewal because the property owners did not complete all the tasks outlined in their contract and did not submit a progress report. The notices can be found in Attachment 6.

Alternatives
As an alternative to staff's recommendation, the City Council may direct staff to bring all active Mills Act Contracts to the Cultural Heritage Commission for review, comment, and

recommendation to City Council.

Fiscal Impact
A summary of each contracts estimated financial impact over its initial 10 year term is provided in Attachment 1. The total average annual cost to the City for all 26 contracts is estimated at $77,541.85, resulting in a projected total cost of $775,418.50 over the full 10-year period. At this time, Staff is unable to provide further financial analysis beyond the initial 10-year term, as current property valuations under the Mills Act are not available from the Los Angeles County Assessor's Office. Staff has contacted both the property owners and the County Assessor's Office to obtain Mills Act valuation letters. The County has indicted that requests will not be fulfilled until at least August due to a backlog caused by recent wildfire response efforts. Property owners are also in the process of submitting their own copies of the valuation letters.

Further information, resources, and time will be required to provide a comprehensive financial analysis of each active contract.

Key Performance Indicators and Strategic Plan
Each Mills Act Application provides an initial 10 year work schedule that includes the estimated cost of each work item and the date that such work item is expected to be completed. Older applications did not include a work schedule, but did include a work plan that outlined the proposed work. Additionally, applicants should be providing progress reports in accordance with the reporting schedule specified in the Mills Act Contract. Lastly, pursuant to SPMC Section 2.68(b)(1)(E)(vi), the Cultural Heritage Commission shall prepare a report of its review of current Mills Act contracts as part of its annual report to City Council.

Commission Review and Recommendation
This report serves as an informational summary of all active Mills Act Contracts within the city at the request of City Council. Staff will continue to work with the Cultural Heritage Commission and provide annual reports of all active Mills Act Contracts for their review and recommendation to City Council pursuant to SPMC Section 2.68(b)(1)(E)(vi).

Summary of Mills Act Contracts

City of South Pasadena
Recorded Mills Act Contracts

Number	Address	APN	Case No.	Status Code	Landmark No.	Year Built	Year Approved	Avg. Annual Cost to City over initial 10 years	Total Cost to City over initial 10 years	Status
1	2031 Berkshire Ave	5310-017-004	-	5B1	39	1914	2/16/2000 Modified work plan approved in 2018	$ 2,849.00	$ 28,490.00	16 of 18 tasks complete. 2 items remain to be completed in 2025 and 2027.
2	919 Columbia Street	5317-006-004	-	2S	48	1885	2006-05-17	$ 3,500.00	$ 35,000.00	15 of 20 tasks complete. No expected date of completion.
3	800 Fair Oaks Ave	5318-014-009	0849-MIL	5S1	49	1911	2006-12-28	$ 5,094.00	$ 50,940.00	Complete
4	1001 Buena Vista Street	5317-009-025	0852-MIL	1B	4	1905	2006-11-15 Modified work plan submitted in 2018	$ 4,261.00	$ 42,610.00	21 of 27 tasks complete. Acquisition of southern portion of lot from CalTrans pushed back 2018 work plan timeline.
5	950-966 Mission Street	5315-021-001	0540-MIL	1D	26	1923	2006-12-28	$ 2,510.85	$ 25,108.50	4 of 6 tasks complete.
6	303 Meridian Ave	5317-034-001	-	3D		1927	2007-12-20	$ 3,263.00	$ 32,630.00	10 of approx. 40 tasks complete.
7	1040 Stratford Ave	5318-019-038	-	4B	50	1910	2009-09-16	$ 3,500.00	$ 35,000.00	Complete
8	851 Lyndon Street	5314-020-015	-	1S	6	1887	2010-12-20 Modified work plan submitted in 2016	$ 3,399.00	$ 33,990.00	5 of 6 tasks complete. Last item postponed due to other high priority projects.
9	919 Palm Ave	5313-008-023	-	5B1		1903	2012-12-19 Modified work plan submitted in 2023	$ 1,500.00	$ 15,000.00	6 of 12 tasks completed in original 10 year Work Plan. 2023 Renewal Work Plan includes 5 tasks. It carries over some of the unfinished work and proposes new work.
10	325 Monterey Road	5311-012-037	-		51	1947	2014-12-17	$ 1,378.00	$ 13,780.00	19 of 28 tasks complete. No permits were issued for completed work. Contract set to expire in 2029.
11	844 Monterey Road	5315-018-021	-	5D3	40	1908	2014-12-17 Work plan pushed back two years	$ 1,655.00	$ 16,550.00	18 of 22 tasks complete.
12	1414 Fair Oaks Ave	5320-005-023	1765-MIL	5S1	46	1960	2014-12-17	$ 2,900.00	$ 29,000.00	3 of 5 tasks complete. Contract expires 2029-12-17.
13	325 Oaklawn Ave	5317-014-005	-	3B		1908	2016-09-21	$ 3,500.00	$ 35,000.00	21 of 28 tasks complete.
14	207 Oaklawn Ave	5317-014-021	-	2D		1912	2016-12-21	$ 3,426.00	$ 34,260.00	21 of 24 tasks complete.
15	929 Buena Vista Street	5317-035-004	2080-MIL	2D	41	1902	2017-12-20	$ 2,343.00	$ 23,430.00	3 of 10 tasks complete.
16	320 Grand Ave	5317-040-008	2019-11-005	2B2	54	1927	2019-11-27	$ 830.00	$ 8,300.00	5 of 8 tasks complete.
17	209 Beacon Ave	5317-006-001	2019-11-004	4S2	52	1900	2019-11-27	$ 2,199.00	$ 21,990.00	5 of 7 tasks complete.
18	915 Palm Ave	5313-008-025	2019-11-006	5D1		1907	2019-11-27	$ 1,070.00	$ 10,700.00	3 of 4 tasks complete.
19	925 Palm Ave	5313-008-021	2019-11-007	5D1		1903	2019-12-03	$ 618.00	$ 6,180.00	Complete
20	1506 Rollin Street	5319-004-013	2020-059	5D1		1914	2020-12-02	$ 3,095.00	$ 30,950.00	5 of 9 tasks complete. Remaining tasks to be completed in 2025-2028.
21	1545 Ramona Ave	5319-025-032	2020-060	3B		1911	2020-12-02	$ 3,805.00	$ 38,050.00	Contract delayed to 2023. No work complete, applicant requesting extension.
22	704 Meridian Ave	5315-013-041	2020-062	2D		1912	2020-12-02	$ 2,051.00	$ 20,510.00	1 of 5 tasks complete (2022-2025). 2 tasks to be completed in 2028-2029.
23	335 Monterey Road	5311-012-010	2020-061	5S3	47	1910	2020-12-02	$ 5,501.00	$ 55,010.00	1 of 3 tasks complete (2023-2025). 1 task to be completed in 2028.
24	1016 Orange Grove Ave	5315-019-037	2383-MIL	5S1	37	1913	2021-12-21	$ 3,287.00	$ 32,870.00	2 of 4 tasks complete.
25	203 Oaklawn Ave	5317-014-015	MIL24-0001	2D		1911	2024-11-06	$ 5,171.00	$ 51,710.00	Progress Report to be submitted end of year.
26	1209 Indiana Ave	5314-010-061	MIL24-0002	5S1	60	1911	2024-11-06	$ 4,836.00	$ 48,360.00	Progress Report to be submitted end of year.
TOTAL:								**$ 77,541.85**	**$ 775,418.50**

1. Overview of 2031 Berkshire Avenue Mills Act Contract

This document responds to the City of South Pasadena (City) request dated March 6, 2025, for a Mills Act Progress Report for 2031 Berkshire Avenue in South Pasadena (Assessor's Parcel Number 5310-017-004). In accordance with that request, this Mills Act Progress Report provides a description of each work item included in the original Rehabilitation and Maintenance Plan, approved in February 2000, for 2031 Berkshire Avenue, as well as additional work items undertaken, and ongoing rehabilitation, repair, and maintenance activities needed for the property.

The property owners for 2031 Berkshire Avenue are up to date and in good standing with their Mills Act contract and workplan; overall, they have taken proactive steps to keep the City and Cultural Heritage Ordinance updated and informed as their workplans have evolved over time.

The following section presents an overview and chronology for the Mills Act contract and landmark designation of 2031 Berkshire Avenue.

On 5 March 1997, 2031 Berkshire Avenue (the Mabel Packard House) was designated individually as a City of South Pasadena Landmark #39, as codified in Resolution 6452. Constructed in 1914, the Mabel Packard House represents a Craftsman-style residence and distinctive artist's studio, with interior features (such as the unusual, two-story living room with large, north-facing window) called out as character-defining in the landmark designation. (One hundred years after its construction, in 2014, the Mabel Packard House was cited in South Pasadena's *Citywide Historic Context Statement* as an example of the City's early 20th century residential development and the Arts and Crafts architectural style. A photo of 2031 Berkshire Avenue is featured on page 111 of the *Citywide Historic Context Statement* to illustrate the typical character-defining features of the Craftsman style.)

As of 2025, the property continues to display all of the character-defining features identified as key for the Craftsman architectural style in the *Citywide Historic Context Statement*. Over the years, the property owners often opened up the Mabel Packard Home for architectural tours and events, in order to enhance awareness of South Pasadena's historic heritage.

In February 2000, following adoption of the landmark designation for 2031 Berkshire Avenue, the property owners at the time, Glen Duncan and Patricia Pierce, entered into a Mills Act Historic Property Contract with the City. South Pasadena's guidelines and requirements for the Mills Act program are included in South Pasadena Municipal Code (SPMC) Section 2.68 ("Historic Preservation Incentives").

In 2012, Mr. Glen Duncan, who is a renowned, long-time preservationist in South Pasadena, former Chair of the Cultural Heritage Commission, and former President of the South Pasadena Preservation Foundation, among his many accomplishments and contributions to South Pasadena, provided an update to the City on all work that had been completed to date, all projects that had not been completed (and why), and all projects that were upcoming for completion.

In 2018, Mr. Duncan requested an emergency modification to the 2031 Berkshire Avenue Mills Act workplan to cover time-sensitive repairs; this request was approved by the Cultural Heritage Commission. The changes to the workplan related to adding work efforts (including the in-kind replacement of deteriorated exterior wood-shingle siding and replacement of a failing wood structural beam for the property's distinctive pergola, which is also called out in the original landmark nomination). These emergency repairs are documented in Table 2 below.

On March 6, 2025, the City requested a Mills Act progress report, to include the following information from the property owners of 2031 Berkshire Avenue:

1. An itemized list of all Mills Act work items completed to date
    a. This information is provided in **Table 1 below** (which shows the original workplan items as well as ongoing preservation, rehabilitation, and repair work items, including those approved on an emergency basis by the Cultural Heritage Commission in 2018)
2. Photo documentation of the completed work; both "before" and "after" conditions
    a. Current photos are provided in Appendix A
    b. Historic, "before" photos, however, **are not available**
        i. This type of photo documentation was not part of the original Mills Act contract, and is not required under the previous or current Cultural Heritage Ordinance
        ii. Moving forward, the property owners will endeavor to document "before" and "after" photos for any Mills Act-related work efforts
3. Copies of any **building permits** issued in conjunction with the work
    a. **A records request has been filed** with the City, but building permits have not yet been received.
    b. Once the building permits are provided, all those that are relevant to the Mills Act workplan **will be provided to the City as Appendix C** to this memo.

It is worth noting that, when the 2031 Berkshire Avenue Mills Act Contract was originally adopted, the City's Cultural Heritage Ordinance did not explicitly restrict or prohibit interior rehabilitation/repair work efforts for inclusion on Mills Act Contracts. Thus, the original contract included several workplan items related to interior projects. In the case of the Mabel Packard House, the original landmark designation does identify a number of interior character-defining features; according to SPMC Section 2.68, interior features identified as character defining in a landmark designation can be included in the Mills Act.

In addition to describing the original workplan items, this Mills Act Progress Report includes upcoming and ongoing rehabilitation, repair, and maintenance activities.

2. Mills Act Workplan Progress Report, 2000 – 2025

Table 1 provides an overview and summary of the original Mills Act workplan, including all projects completed to date, the changes to the plans over time, the emergency modification approved in 2018, and upcoming, ongoing maintenance, rehabilitation, and repair work efforts.

Following Table 1, Table 2 provides an overview of the *Secretary of the Interior's Standards for the Treatment of Historic Properties* (*Secretary's Standards*) as they relate to identified and potential future repair, rehabilitation, and maintenance activities that will be needed for the landmark property.

Appendix A provides a visual overview of existing conditions for the Mabel Packard House, with a focus on the Mills Act workplan; work item numbers are noted in photo captions for ease of review. Work efforts for Items 5 (basement waterproofing), 6 (replumbing), and 7 (new sprinkler system) were completed in accordance with industry standards and City zoning code; these items do not appear in photographic overview. Appendix B provides the original 2000 Mills Act application for the property.

Table 1. Progress Update, Mills Act Workplan, 2000 - 2025

Work Item #	Mills Act Workplan Item	Status	Scope of Work
1.	Remove/replace driveway	Completed in 2004	Old buckled driveway strips were removed, tree roots cut back, and new driveway strips installed in conjunction with redesign of front and rear yards. Pebbles installed in driveway median in 2010.
2.	Rehabilitate/remodel first-floor bathroom	Completed in 2003	Original Craftsman-appropriate bathroom fixtures, cabinetry, and appearance had been lost in previous remodels. All non-original fixtures and deteriorated plaster removed. Pedestal sink returned, period-appropriate cabinetry, fixtures, and flooring installed.
3.	Rehabilitate/remodel second-floor bathroom	Completed in 2003	Failing and deteriorated materials and finishes (including but not limited to linoleum, plaster walls, and cabinetry) replaced with period-appropriate equivalents. Included stripping wall and floor and installing new lath and plaster on walls and ceiling and new period-appropriate fixtures and flooring.
4.	New HVAC system	Completed in 2003	HVAC system and ductwork replaced
5.	Basement waterproofing	Completed in two stages, 2003 and 2010	Work efforts included an initial attempt to waterproof basement by installing a sump pump and moisture-retarding paint on walls; when these methods were ineffective, subsequent work efforts included three major corrective measures, in accordance with an

Work Item #	Mills Act Workplan Item	Status	Scope of Work
			assessment by a qualified structural engineer: (1) bolding the house to the foundation; (2) removing a non-original side entrance that contributed to the structural instability of the house; and (3) actively mitigate basement flooding. Steps included excavation beneath basement walls and their reconstruction with moisture-sealing concrete. A new exterior drainage system diverting excess water away from the foundation and into a sump pump was also installed.
6.	Replumbing (all copper)	Completed in 2003	Approximately 75 percent of plumbing was retrofitted to copper pipes, in two stages—first round in 2003, second round in 2010.
7.	New sprinkler system (front and back)	Completed in 2003	New system installed in 2003, in advance of landscaping improvements
8.	Reinforce masonry fireplace, add air source	Not completed (see notes in scope of work)	Subsequent to adoption of the Mills Act in 2000, a structural engineer concluded that reinforcement was not necessary for the fireplace, in light of the other, more foundation structural upgrades carried out in 2010.
9.	Insulate, waterproof drywall; finish carpentry in studio	Completed in 2007	Structural repairs, weather and waterproofing and carpentry repairs completed to studio; work efforts included adding an exterior concrete perimeter apron to move water away from foundation; resurfacing concrete slab with vapor barrier to prevent water seepage; insulating walls, new drywall, and carpentry repairs around doors and windows. Restoration of steel-frame window system.
10.	Rehabilitate and refinish hardwood flooring	Completed in 2015	Oak, maple, and Douglas Fir flooring throughout the house had been stained and warped; signs of termite damage were also evident in several places. Flooring was rehabilitated and refinished, with some in-kind replacements where wood was too deteriorated to repair.
11.	Landscaping and exterior lighting	Completed in 2004 and 2010	A variety of landscaping improvements and exterior lighting upgrades completed, including removal of a high hedge at sidewalk and the addition of compatible drought-tolerant plantings that enhance and show the

Work Item #	Mills Act Workplan Item	Status	Scope of Work
			character of the Mabel Packard House from the public right-of-way.
12.	Front porch rehabilitation (see emergency modification details in scope of work)	From 2012 updated plans; completed in 2018; will need to be redone by 2027	A water main leak under the front porch resulted in a settlement crack in the masonry support for the poured-concrete porch slab. This slab itself was cracked, with the front half sloping forward approximately one inch. The pergola and railings were dismantled (and a sagging, deteriorated pergola beams replaced) and the concrete slab was patched and repaired. Broken sections of the concrete sidewalk repaired. This work item included an emergency modification to replace the heavy timbers/structural beams of the front-porch pergola; addition was approved by CHC and City of South Pasadena for inclusion on Mills Act workplan, 17 May 2018. As of 2025, masonry cracks remain evident and will need repairs and repatching within the next two years.
13.	Exterior Painting and Repair (see emergency modification details in scope of work)	From 2012 updated plans; completed in 2018; repainting scheduled for 2025	Exterior of the house and studio repainting in period-appropriate palette. Roof rafter tails, exterior wood sheathing, and stucco (on south and west elevations of studio) restored and repaired in areas with deterioration. This work item included an emergency addition covering the in-kind replacement of exterior wood shingle siding as needed due to advanced fungal-induced rot and deterioration; this was approved as an emergency modification of the original Mills Act workplan by CHC and City of South Pasadena for inclusion on Mills Act workplan, 17 May 2018. As of 2025, repainting and some carpentry repairs are needed for the house and studio.
14.	Reconstruct rear pergola	Completed in 2009	The rear pergola was severely deteriorated due to termite damage; wood beams and columns were reconstructed according to the originals.
15.	Termite and pest control	Completed in 2003 and 2008 (ongoing maintenance effort)	Spot application of treatments applied to wood features, sheathing, and framing members. With a subsequent reinfestation, full tenting was required and took place in 2008.

Work Item #	Mills Act Workplan Item	Status	Scope of Work
			Ongoing termite mitigation, including periodic inspections and repairs/treatment, and tenting as needed, remains an important part of the maintenance plan for the home.
16.	Garage extension (code-compliance issue)	Completed in 2011	To bring the garage floor area into compliance with zoning standards, the front of the garage was replicated and rebuilt five-feet closer to the front of the property. This was not a qualifying, capitalized expense for the Mills Act.
17.	Landscape maintenance	Completed in 2010	Ongoing landscape maintenance tasks have included the removal of three dead or unstable Eucalyptus trees on the south elevation (2010). Mature trees added to property in accordance with South Pasadena Tree Ordinance.
18.	Replace chain-link fence along driveway with wood Craftsman-style fence	Completed in 2011	1970s era chain-link fence removed and replaced with more compatible wood, Craftsman-style fence and gate.

Table 2. Guidelines for Secretary's Standards Compliance[1]

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
STRUCTURAL SYSTEM UPGRADES AND REPAIRS	IDENTIFY **Recommended:** Identifying, retaining, and preserving structural systems--and individual features of systems--that are important in defining the overall historic character of building, such as above-grade stone foundation walls, or loadbearing brick or stone walls. **Not Recommended:** (1) Removing, covering, or radically changing features of structural systems which are important in defining overall historic character; (2) Demolishing a loadbearing masonry wall that could be augmented and retained, and replacing it with a new wall (i.e., brick or stone), using the historic masonry only as an exterior veneer; (3) Leaving known structural problems untreated such as deflection of beams, cracking and bowing of walls. PROTECT AND MAINTAIN **Recommended:** Protecting and maintaining the structural system by cleaning the roof gutters and downspouts; replacing roof flashing; keeping masonry, wood, and architectural metals in a sound condition; and ensuring that structural members are free from insect infestation. **Not Recommended:** Failing to provide proper building maintenance so that deterioration of the structural system results. Causes of deterioration include subsurface ground movement, vegetation growing too close to foundation walls, improper grading, fungal rot, and poor interior ventilation that results in condensation. REPAIR **Recommended:** Replacing in kind--or with substitute material--those portions or features of the structural system that are either extensively deteriorated or are missing when there are surviving prototypes such as cast iron columns, roof rafters or trusses, or sections of loadbearing walls. **Not Recommended:** Using substitute material that does not equal the loadbearing capabilities of the historic material and design or is otherwise physically or chemically incompatible.

[1] The recommended treatment approach for 2031 Berkshire Avenue is rehabilitation. The basic guidelines for rehabilitation are: (1) Identification, retention and preservation of character-defining materials and features; (2) Protection and retention of character-defining features; (3) Stabilization; (4) Repair; (5) Limited in-kind replacement where necessary. Unless otherwise noted, all excerpts describing treatment guidelines are drawn from National Park Service, Department of the Interior, Washington, DC. 1995. *The Secretary of the Interior's Standards for Rehabilitation, with Guidelines for Rehabilitating, Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings*. In accordance with CEQA Guidelines, a project that has been determined to conform with the Secretary's Standards is generally considered to be a project that will not cause a significant adverse impact and material impairment.

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
EXTERIOR CLADDING REPAIRS, REPAINTING, AND RE-SEALING (ON HOUSE AND ON GARAGE)	IDENTIFY **Recommended:** Identifying, retaining, and preserving wood features that are important in defining the overall historic character of the building such as siding, cornices, brackets, window architraves, and doorway pediments; and their paints, finishes, and colors. **Not Recommended:** (1) Removing or radically changing wood features which are important in defining the overall historic character; (2) removing a major portion of the historic wood from a facade instead of repairing or replacing only the deteriorated wood, then reconstructing the facade with new material in order to achieve a uniform or "improved" appearance; (3) Stripping historically painted surfaces to bare wood, then applying clear finishes or stains in order to create a "natural look." PROTECT AND MAINTAIN **Recommended:** (1) Protecting and maintaining wood features by providing proper drainage; (2) Retaining coatings such as paint that help protect wood from moisture/ultraviolet light. Paint removal should be considered only where there is paint surface deterioration and as part of an overall maintenance program which involves repainting or applying other appropriate protective coatings; (3) Inspecting painted wood surfaces to determine whether repainting is necessary or if cleaning is all that is required; (4) Removing damaged or deteriorated paint to the next sound layer using the gentlest method possible (hand-scraping and hand sanding), then repainting; (5) Using with care electric hot-air guns on decorative wood features and electric heat plates on flat wood surfaces when paint is so deteriorated that total removal is necessary prior to repainting; (6) Using chemical strippers primarily to supplement other methods such as handscraping, handsanding and the above-recommended thermal devices; (7) Repainting with colors that are appropriate to the historic building; (8) Evaluating the overall condition of the wood to determine whether more than protection and maintenance are required, that is, if repairs to wood features will be necessary. **Not Recommended:** (1) Failing to identify, evaluate, and treat the causes of wood deterioration, including faulty flashing, leaking gutters, cracks and holes in siding, deteriorated caulking in joints and seams, plant material growing too close to wood surfaces, or insect or fungus infestation; (2) Stripping paint or other coatings to reveal bare wood, thus exposing historically coated surfaces to the effects of accelerated weathering; (3) Removing paint that is firmly adhering to, and thus, protecting wood surfaces; (4) Using destructive paint removal methods such as a propane or butane torches, sandblasting or waterblasting. These methods can irreversibly damage historic woodwork; (5) Failing to undertake adequate measures to assure the protection of wood features. REPAIR **Recommended:** Repairing wood features by patching, piecing-in, consolidating, or otherwise reinforcing the wood using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of features where there are surviving prototypes such as brackets, molding, or sections of siding. **Not Recommended:** (1) Replacing an entire wood feature such as a cornice or wall when repair of the wood and limited replacement of deteriorated or missing parts are appropriate; (2) Using substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the wood feature or that is physically or chemically incompatible.

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
	Replace **Recommended:** Replacing in kind an entire wood feature that is too deteriorated to repair--if the overall form and detailing are still evident--using the physical evidence as a model to reproduce the feature. **Not Recommended:** Removing a feature that is unrepairable and not replacing it; or replacing it with a new feature that does not convey the same visual appearance.
EXTERIOR WINDOW REPAIRS	Identify, Retain, and Preserve **Recommended:** (1) Identifying, retaining, and preserving windows--and their functional and decorative features--that are important in defining the overall historic character of the building; (2) Such features can include frames, sash, muntins, glazing, sills, heads, moldings; (3) Conducting an in-depth survey of the conditions of existing windows early in rehabilitation planning so that repair and upgrading methods and possible replacement options can be fully explored. **Not Recommended:** (1) Removing or radically changing windows which are important in defining the historic character of the building; (2) Changing the number, location, size or glazing pattern of windows, through cutting new openings, blocking-in windows, and installing replacement sash that do not fit the historic window opening; (3) Changing the historic appearance of windows through the use of inappropriate designs, materials, finishes, or colors; (4) Replacing windows solely because of peeling paint, broken glass, stuck sash, and high air infiltration. These conditions, in themselves, are no indication that windows are beyond repair. PROTECT AND MAINTAIN **Recommended:** (1) Protecting and maintaining the wood and architectural metal which comprise the window frame, sash, muntins, and surrounds through appropriate surface treatments such as cleaning, rust removal, limited paint removal, and re-application of protective coating systems; (2) Making windows weathertight by re-caulking and replacing or installing weatherstripping. These actions also improve thermal efficiency; (3) Evaluating the overall condition of materials to determine whether more than protection and maintenance are required, i.e. if repairs to windows and window features will be required. **Not Recommended:** (1) Failing to provide adequate protection of materials on a cyclical basis so that deterioration of the window results; (2) Retrofitting or replacing windows rather than maintaining the sash, frame, and glazing; (3) Failing to undertake adequate measures to assure the protection of historic windows. REPAIR **Recommended:** Repairing window frames and sash by patching, splicing, consolidating or otherwise reinforcing. **Not Recommended:** (1) Replacing an entire window when repair of materials and limited replacement of deteriorated or missing parts are appropriate; (2) Failing to reuse serviceable window hardware such as brass sash lifts and sash locks; (3) Using substitute material for

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
	the replacement part that does not convey the visual appearance of the surviving parts of the window or that is physically or chemically incompatible. Replace **Recommended:** (1) Replacing in kind an entire window that is too deteriorated to repair using same sash/pane configuration and other design details; (2) Designing and installing new windows when the historic windows (frames, sash and glazing) are completely missing. The replacement windows may be an accurate restoration using historical, pictorial, and physical documentation; or be a new design that is compatible with the window openings and the historic character of the building. **Not Recommended:** (1) Removing a character-defining window that is unrepairable and blocking it in; or replacing it with a new window that does not convey the same visual appearance; (2) Creating a false historical appearance because the replaced window is based on insufficient historical, pictorial, and physical documentation; (3) Introducing a new design that is incompatible with the historic character of the building.
ROOFING SYSTEM UPGRADE AND REPAIRS	IDENTIFY, RETAIN, AND PRESERVE **Recommended:** (1) Identifying, retaining, and preserving roofs--and their functional and decorative features--that are important in defining the overall historic character of the building. This includes the roof's shape, such as hipped, gambrel, and mansard; decorative features, such as cupolas, cresting chimneys, and weathervanes; and roofing material such as slate, wood, clay tile, and metal, as well as its size, color, and patterning. **Not Recommended:** (1) Radically changing, damaging, or destroying roofs which are important in defining the overall historic character of the building so that, as a result, the character is diminished; (2) Removing a major portion of the roof or roofing material that is repairable, then reconstructing it with new material in order to create a uniform, or "improved" appearance. PROTECT AND MAINTAIN **Recommended:** (1) Protecting and maintaining a roof by cleaning the gutters and downspouts and replacing deteriorated flashing; (2) Roof sheathing should also be checked for proper venting to prevent moisture condensation and water penetration; and to insure that materials are free from insect infestation; (3) Providing adequate anchorage for roofing material to guard against wind damage and moisture penetration; (4) Protecting a leaking roof with plywood and building paper until it can be properly repaired. **Not Recommended:** (1) Failing to clean and maintain gutters and downspouts properly so that water and debris collect and cause damage; (2) Allowing roof fasteners, such as nails and clips to corrode so that roofing material is subject to accelerated deterioration; (3) Permitting a leaking roof to remain unprotected so that accelerated deterioration of historic building materials--masonry, wood, plaster, paint and structural members--occurs.

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
	REPAIR **Recommended:** Repairing a roof by reinforcing the historic materials which comprise roof features.. **Not Recommended:** (1) Replacing an entire roof feature such as a cupola or dormer when repair of the historic materials and limited replacement of deteriorated or missing parts are appropriate; (2) Using a substitute material for the replacement part that does not convey the visual appearance of the surviving parts of the roof or that is physically or chemically incompatible.
MASONRY SYSTEM REPAIRS **(INCLUDING CONCRETE PORCH, BRICK, CHIMNEY, AND OTHER FEATURES)**	IDENTIFY, RETAIN, AND PRESERVE **Recommended:** Identifying, retaining, and preserving masonry features that are important in defining the overall historic character of the building such as walls, brackets, railings, cornices, window architraves, door pediments, steps, and columns; and details such as tooling and bonding patterns, coatings, and color. **Not Recommended:** (1) Removing or radically changing masonry features which are important in defining the overall historic character of the building; (2) Applying paint or other coatings such as stucco to masonry that has been historically unpainted or uncoated to create a new appearance; (3) Radically changing the type of paint or coating or its color. PROTECT AND MAINTAIN **Recommended:** (1) Protecting and maintaining masonry by providing proper drainage so that water does not stand on surfaces or accumulate; (2) Cleaning masonry surfaces with the gentlest method possible, such as low pressure water and detergents, using natural bristle brushes; (3) Evaluating the overall condition of the masonry to determine whether more than protection and maintenance are required, that is, if repairs will be necessary; (4) Identifying, retaining, and preserving buildings and their features as well as features of the site that are important in defining its overall historic character. Site features may include circulation systems such as walks, paths, roads, or parking; vegetation such as trees, shrubs, fields; furnishings such as lights, fences, or benches; (5) Protecting and maintaining buildings and sites by providing proper drainage to assure that water does not erode foundation walls; drain toward the building; or damage or erode the landscape. **Not Recommended:** (1) Failing to evaluate and treat the various causes of mortar joint deterioration such as leaking roofs or gutters, differential settlement of the building, capillary action, etc.; (2) Sandblasting brick or stone surfaces using dry or wet grit or other abrasives. These methods erode the surface of the material and accelerate deterioration; (3) Cleaning with chemical products that damage masonry; (4) Applying high pressure water cleaning methods that will damage historic masonry and the mortar joints; (5) Using methods of removing paint which are destructive to masonry, such as sandblasting, application of caustic solutions, or high pressure waterblasting; (6) Failing to maintain adequate site drainage so that buildings and site features are damaged or destroyed; or alternatively, changing the site grading so that water no longer drains properly. REPAIR

Repair, Rehabilitation, or Maintenance Activity	Guidelines for Compliance with *Secretary's Standards for Rehabilitation*
	Recommended: (1) Repairing masonry features by repointing mortar joints where there is deterioration such as disintegrating mortar, cracks in mortar joints, loose bricks, damp walls, or damaged plasterwork; (2) Removing deteriorated mortar by carefully hand-raking the joints; (3) Duplicating old mortar in strength, composition, color, and texture; (4) Duplicating old mortar joints in width and in joint profile; (5) Repairing masonry features by patching, piecing-in, or consolidating the masonry using recognized preservation methods. Repair may also include the limited replacement in kind--or with compatible substitute material--of those extensively deteriorated or missing parts of masonry features. **Not Recommended:** (1) Removing nondeteriorated mortar from sound joints, then repointing the entire building to achieve a uniform appearance; (2) Using electric saws and hammers rather than hand tools; (3) Repointing with mortar of high portland cement content (unless it is the content of the historic mortar). This can often create a bond that is stronger than the historic material and can cause damage; (4) Repointing with a synthetic caulking compound; (5) Changing the width or joint profile when repointing; (6) Patching concrete without removing the source of deterioration; (7) Applying waterproof, water repellent, or non-historic coatings such as stucco to masonry as a substitute for repointing and masonry repairs. Coatings are frequently unnecessary, expensive, and may change the appearance of historic masonry as well as accelerate its deterioration.

MILLS ACT CONTRACT

MILLS ACT AGREEMENT

THIS AGREEMENT ("Agreement") is made and entered into this 16th day of Feb., 2000, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and James Glen Duncan and Patricia A. Pierce, ("Owners").

RECITALS

(i) California Government Code §50280, et seq., authorizes cities to enter into contracts with the owners of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owners possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at the 2031 Berkshire Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On March 5, 1997, the City Council of the City of South Pasadena adopted its Resolution No. 6452, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owners, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owners, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on Feb. 16, 2000, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owners desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance of the annual renewal date of this Agreement as follows: Owners must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non

renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owners of a notice of non-renewal from the City, Owners may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owners serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owners are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owners shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owners shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owners to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owners shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owners shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards of Rehabilitation, the State Board of Equalization, and the City, as may be necessary to determine Owners' compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owners shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City, following a duly noticed public hearing as set forth in California Government Code §50280, et seq., may cancel this Agreement if City determines Owners have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historical property. City may also cancel this Agreement if it determines Owners have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owners shall be subject to payment of those cancellation fees set forth in California Government Code §§50280, et seq. described herein. Upon cancellation, Owners shall pay a cancellation fee equal to twelve and one-half percent (12 ½%) of the current fair market value of the property as determined by the County Assessor as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owners shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owners if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owners hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owners hereby declare their specific intent that the covenants, reservations, and restrictions as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owners' successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restrictions expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owners hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owners hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owners.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Planning Director
1414 Mission Street
South Pasadena, California 91030

Owners: James Glen Duncan and Patricia A. Pierce

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of the their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owners agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owners or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owners hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been caused by, reason of Owners' activities in connection with the Historic Property. This hold harmless provision applies to all damages and claims for damages suffered, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in this Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representatives, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or

of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owners agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to this Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owners or Owners' agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS WHEREOF, City and Owners have executed this Agreement on the day and year first above written.

Subject: Mills Act Contract Agreement – 2031 Berkshire Avenue, South Pasadena

To: Office of the County Assessor, Pasadena Regional Office

This letter serves to notify the County Assessor's Office that the City of South Pasadena has entered into a Mills Act Contract Agreement with property owners, James Glen Duncan and Patricia Pierce, for the property located at 2031 Berkshire Avenue, South Pasadena. In accordance with the Agreement, approved by the South Pasadena City Council on February 16, 2000, this notification and attached signed Mills Act Contract Agreement are being forwarded to your office for review and to adjust the tax assessment for 2031 Berkshire Avenue as a Mills Act property.

If you need any additional documentation or confirmation on this matter, please contact me at (626) 403-7228.

Sincerely,

Maree Hoeger

REHABILITATION PLAN & FINANCIAL ANALYSIS

SCHEDULE A

Mills Act Documentation - 2031 Berkshire Avenue

MAINTENANCE

REHAB/RESTORATION PROJECTS TO BE COMPLETED

See attached estimate from Verdugo & Associates. Projects will be undertaken over the life of the Mills Act contract. First year budget (10% of total estimate of $115,240) =$11,524.)

- Remove and replace driveway
- Rehab/remodel first floor bathroom
- Rehab/remodel second floor bathroom
- New HVAC system
- Basement waterfroofing
- Replumbing (all copper)
- Sprinkler system (front and rear)
- Reinforce masonry fireplace, add air source
- Insulate, waterproof, drywall finish carpentry in studio
- Rehab and refinish hardwood flooring

- Landscaping and exterior lighting (Separate estimate for $3,500: first year budget = $350)

OTHER MAINTENANCE

- Gardening (current cost = $1.000)
- Cleaning (current cost = $1.000)
- Misc. Repairs (est. current cost = $1.000)

SUMMARY of Year 2000 budget

Rehab, Restoration, Remodel (10% ofVerdugo estimate)	$11,524
Landscaping estimate (10%	350
Gardening	1,000
Cleaning	1,000
Total first year maintenance	$14,225

Mills Act Documentation - 2031 Berkshire Avenue

REHAB/RESTORATION PROJECT PRIORITIES

1. Replumbing (all copper) The house has a severe case of "hardening of the arteries." Existing (original 1914) galvanized pipes are almost totally dammed up with sediment. This work needs to be completed prior to bathroom rehab/remodel.

2. Rehab/remodel first floor bathroom. This bathroom suffered an insensitive remodel (cheap 1960s blue ceramic sink, tub & toilet). Objective is to return it to give it a Craftsman Style makeover.

3. Rehab/remodel second floor bathroom. This bathroom also suffered indignities of 1960s remodel, but original cabinetry is intact. Proposed remodel will be in a Japo-Craftsman motif, demonstrating the influence of traditional Japanese design on our own Craftsman Movement.

4. Rehab and complete sprinkler system (front and rear). Current front yard system is only partially functional. Rear has to be hand watered.

5. Reinforce masonry fireplace, add air source. This is not a major priority, but poor-drawing fireplace can be corrected with a minimum of expense.

6. Basement waterproofing. I have installed a sump pump to keep basement fairly dry, but I would like to prevent the seepage experienced in heavy rain years before they return.

7. New HVAC system/electrical upgrade. Existing gravity-fed furnace is on its last legs from basement water seepage in years of heavy rain. It will have to be replaced but I hope to be able to get by for another year or two. When we do, we'll go with a complete HVAC unit. We can survive without air conditioning, but who wants to?

8. Remove and replace driveway. The Eucalyptus tree roots along the south property line have mangled the current driveway. It's barely usable, but we can live with it until funds are available to correct the problem. It will probably be completed in conjunction with the project below.

9. Landscaping and exterior lighting. This is more of a cosmetic problem than those listed above, but also contributes to neighborhood beautification.

10. Insulate, waterproof, drywall finish carpentry in studio. Rear studio work will have to wait until most of the major jobs in and around the house are completed.

11. Rehab and refinish hardwood flooring. A major part of restoring the interior Craftsman aesthetic, but last on this list for practical reasons. In addition to the above list, I will also be doing a lot of painting, stripping, plastering and refinishing. I certainly don't want to be doing this after floors have been refinished.

2025 PROGRESS REPORT

Shirin Karimi and Mike Webb
919 Columbia St
South Pasadena CA
4/4/2025

City of South Pasadena Planning Division
Mills Act – Progress Report
Community Development Department
1414 Mission St.
South Pasadena CA, 91030

Dear City of South Pasadena Planning Division:

In response to your letter please find a list of completed work, rehabilitation, and maintenance at 919 Columbia Street. Please refer to the photos on the following page in reference to the work completed thus far. Also, please acknowledge that we purchased the property in 2015 and have been working on projects previously outlined in the agreement.

Upgrading for Health and Safety Codes

1. New sewer connections
2. New Gas service
3. New Plumbing
4. New Electrical service
5. Seismic Upgrade and bolting

Repairing Deteriorated Materials and Features

1. Porch Repair – replacement of wood
2. Windows – repair/recreate windows to full function
3. Strip most paint and restore woodwork to original finish – wood molding, pocket doors, stairs
4. Restored hardwood floors
5. Restore custom fireplace surrounds
6. Restore most period lighting fixtures
7. Miscellaneous – Interior Window/Transom, Wood fixtures, Repair and Rehabilitate Stained Glass windows

Alterations for Modern Use:

1. Bathroom 1 – restore fixtures such as installing an original clawfoot tub from another bathroom and install a period appropriate vanity and lighting.
2. Bathroom 2 – update master by removing superfluous appliances and adding a period appropriate vanity and convert a dressing space to a closet.
3. Bathroom 3 – restore/replace fixtures
4. Kitchen – Install cabinetry and appliances. Create a pantry area to make functional.

Preservation Priorities

1. Installed landscape plan – landscaped exterior, installed proper surface drainage, driveway, gates, planting
2. Updated irrigation system
3. Landscape maintenance
4. Termite treatment and inspections

We have more to do to preserve and rehabilitate this wonderful home. Our priority was to make it functional for a modern family. We will continue to preserve, maintain, and love the historic merit of 919 Columbia Street. We anticipate that our next projects will include refurbishing exterior mill work, replacing damaged exterior wood and siding, and painting the home.

Sincerely,

Shirin Karimi and Mike Webb

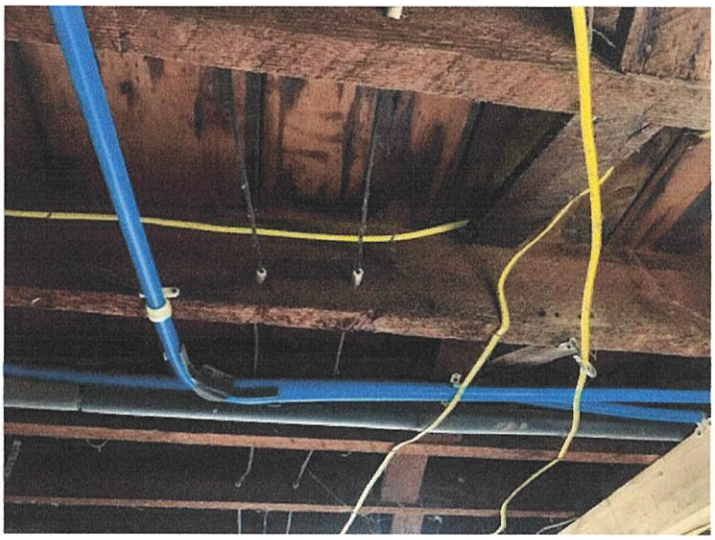
Upgrading for Health and Safety:

Exterior sewer lines:

Gas Service:

New Gas Meter/service

New Plumbing throughout house:



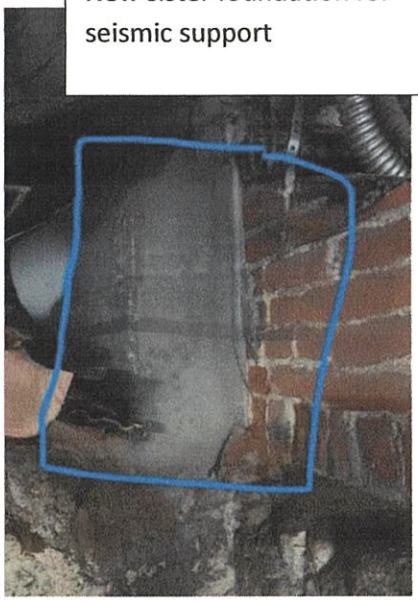
New Electrical Service:

New Meter/Panel

New Electrical wiring

Seismic Upgrade and Bolting:

Replacement work of old foundation



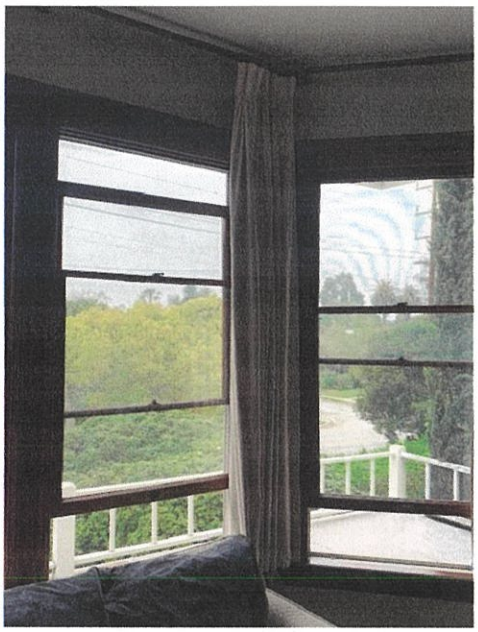
Replacement work of old foundation

New sister foundation for seismic support

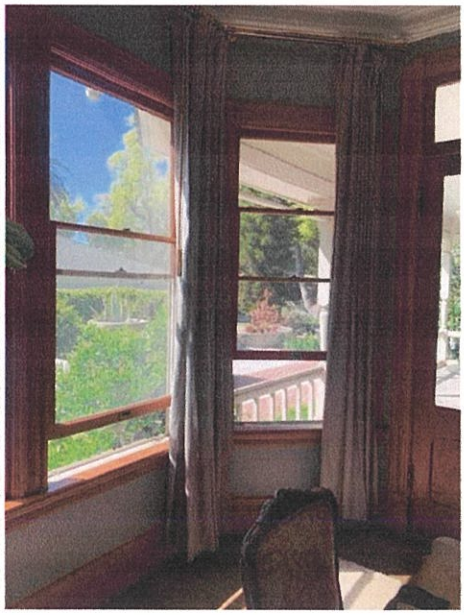
New foundation for seismic support

Seismic Upgrade and Bolting

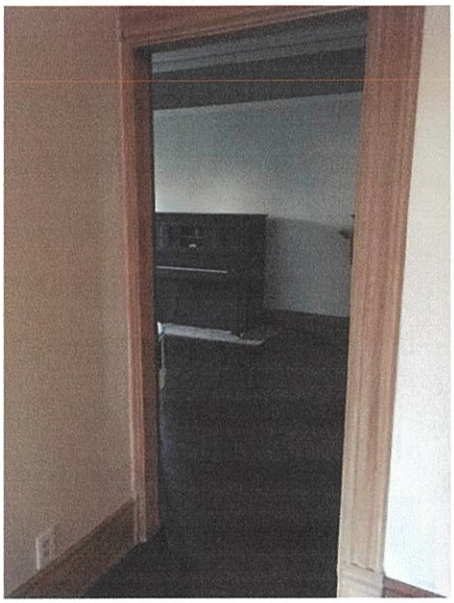
Porch Repair:

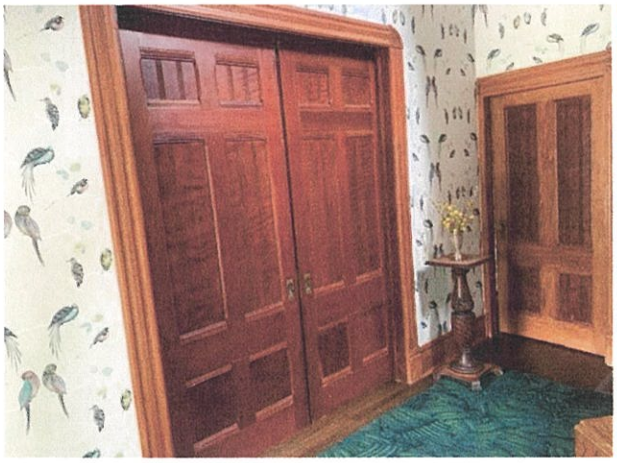


Replaced rotted wood, porch steps, railings



Window Rehabilitation/Repair – functioning double hung windows:

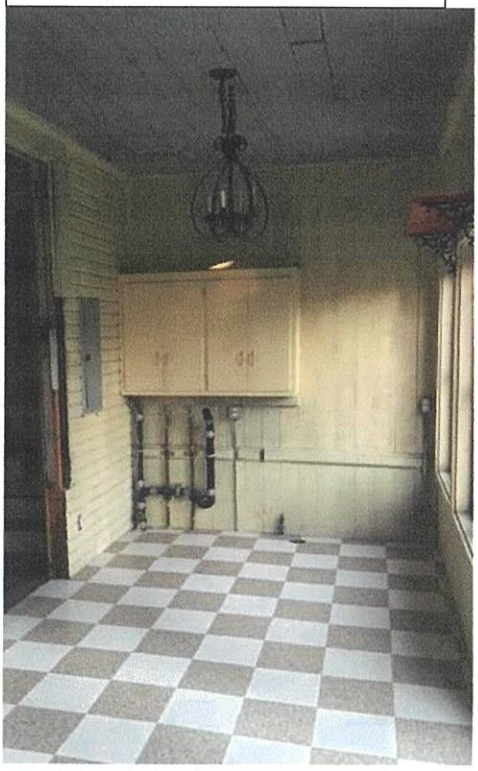


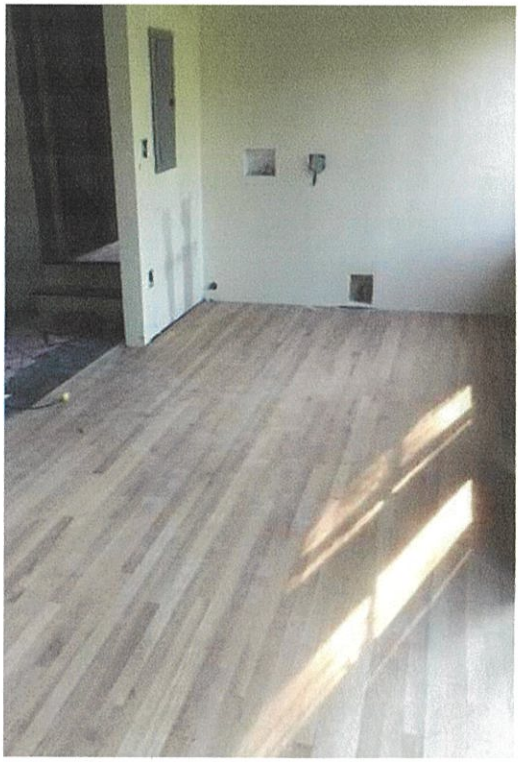


Strip and Repair Woodwork to original (pocket door repair):

Before front hallway woodwork

After front hallway woodwork – repaired pocket doors, restored wood – opposite side in dining room





After front hallway woodwork – restored wood on railing, front door, windows

Restore/Repair hardwood Floors:

Before – back of kitchen flooring

After – back of kitchen flooring

Restored wood flooring in living and dining rooms

Restore Fireplaces:

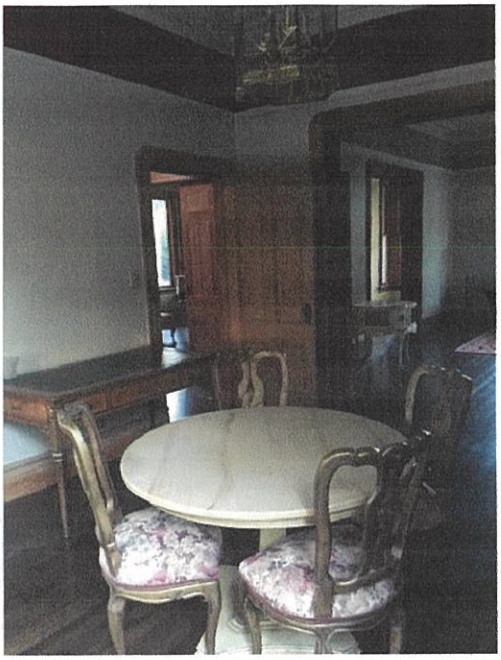
Before

After

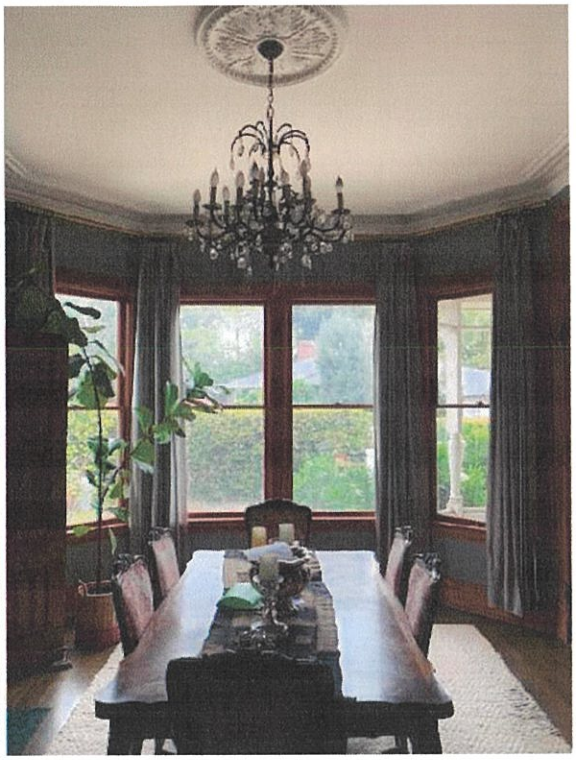
Before

After

Before



After



Restore Period Lighting Fixtures:

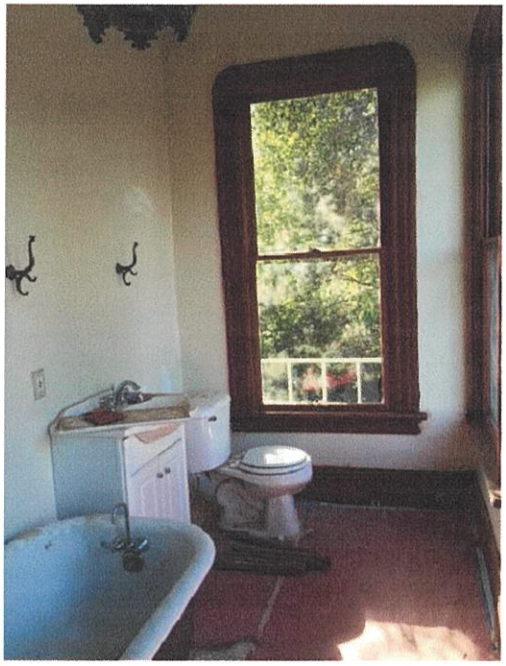
Before – Lighting and dining room

After – lighting and dining room

After – lighting and living room

Miscellaneous – Interior Window/Transom, Wood fixtures, Repair and Rehabilitate Stained Glass windows

After – restored and rehabilitated bowed stained-glass window



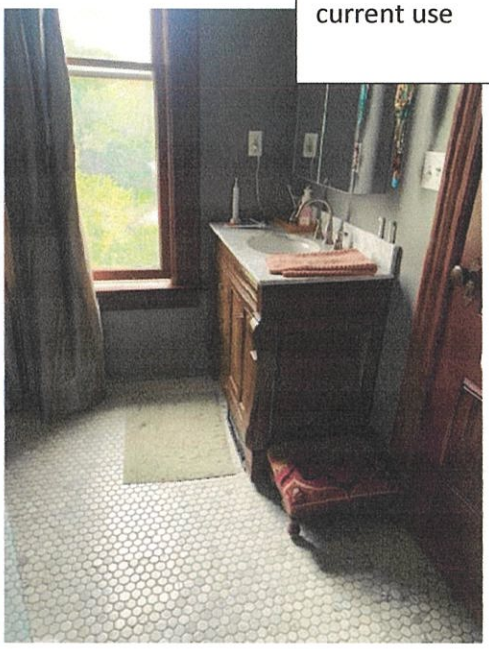
After – sourced and replaced wood door fixtures, transom hardware

Alterations for Modern Use:

Bathroom 1

Before – bathroom with mix of fixtures

After – bathroom with restored counter fixture



After – bathroom with historical fixtures

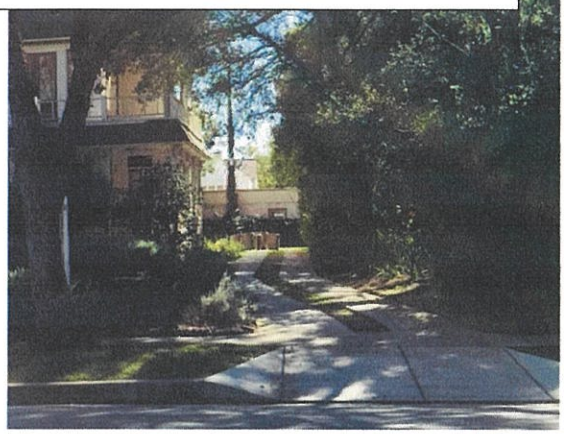
Bathroom – Master

Before – bathroom was not useable

After – bathroom updated for current use

Kitchen – update to current function

Before – kitchen with random shelving and fixtures, no fixtures



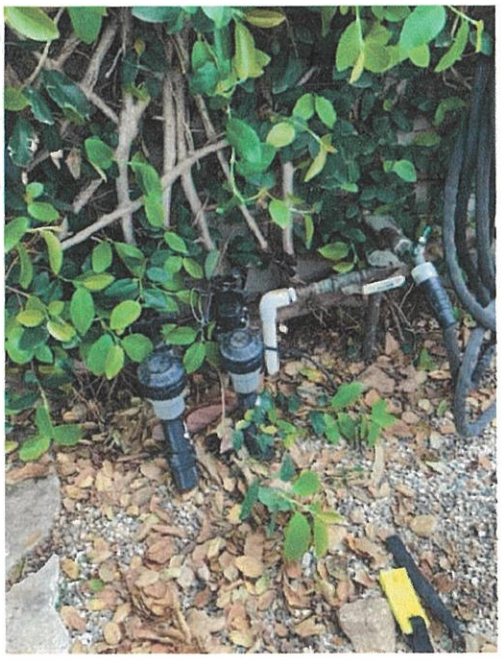
After - kitchen updated for current use, restored flooring, made livable

Preservation Priorities/Landscape:

Before – driveway, poured concrete/dirt

After – driveway, reclaimed period bricks

After – reclaimed period bricks, surface drainage added



After – period pedestrian gate

New Irrigation systems for entire property

New stone landscaping

SUMMARY OF COMPLETED WORK

REHABILITATION PLAN

Keeping in mind that this house has been vacant for over forty years, all work in the first three categories will be initiated in the first year because these tasks must be completed to make the house livable and comfortable for our parents, for whom we purchased and are rehabilitating the historic property. The exact timing of tasks within these categories will be determined by the availability of contractors and artisans to do the work and the specific requirements of the permitting process in South Pasadena. Considering these caveats, the individual tasks in each of the above five categories are listed below in the likely sequence of completion.

Phase I – Preparing the Residence for Occupancy

Upgrading for Health & Safety Codes and Current Living Standards

Complete ↓

✓ 1. New Sewer- update/replace interior and install non existing exterior connection.
✓ 2. New Gas Service - update/replace interior and install exterior meter connection.
✓ 3. New Plumbing- update/replace interior and install new meter/main.
✓ 4. New Electrical service- update/replace interior and install new panel/meter.
✓ 5. Rebuild and seismically reinforce both chimneys and flues to the five existing fireplaces (including any necessary firebox repair).

Repairing Deteriorated Materials and Features

EXTERIOR

Incomplete (1.) Roof- replace dated roof with appropriate period type roof and drainage system.
Incomplete (2.) Shingle work- repair/replace to original look per photo.
Complete ✓ 3. Porch repair- repair/replace wood on porches and stairs.
✓ 4. Windows- repair/rehabilitate/recreate windows to full function.
Incomplete 5. Prep/paint- to harmonize with historic period.

INTERIOR

Incomplete (1.) Repair/replace all deteriorating walls
Complete ✓ 2. Strip inappropriate paint and restore woodwork to original finish.
✓ 3. Restore/repair/replace (as necessary) all hardwood floors.
✓ 4. Restore custom fireplace surrounds to original character.
Incomplete (5.) Paint and/or wallpaper with period appropriate colors and patterns.
✓ 6. Restore period lighting fixtures and replace inappropriate fixtures with period appropriate fixtures.

Alterations for Modern Use

Complete ↓

✓ 1. Bathroom 1- update master and restore original fixtures.
✓ (2.) Bathroom 2- restore/replace with heritage appropriate fixtures.
✓ (3.) Bathroom 3- powder room, restore or replace fixtures.
✓ 4. Kitchen- update to current function with heritage themed cabinetry and appliances.

Phase II – Preservation Priorities

Although work on the landscape plan. sprinkler system and maintenance may begin prior to completion of all Phase One tasks. all of the work below is less critical to preparing the residence for occupancy. Likewise. replacing missing exterior features that help to define the character of the Riggins house are deferred to Phase Two. They can be undertaken after the Hurtados move in.

Replace Missing Features

√ 1. Design and install landscape plan appropriate to heritage of residence.
2. Gables- recreate/rebuild two rooftop gables to match original per photo.

Protect and Maintain Existing Historic Materials and Features

√ 1. Update/install irrigation system to allow for proper maintenance.
√ 2. Landscape maintenance (bimonthly gardening service to maintain appearance/integrity).
3. Roof and drainage maintenance (yearly inspection and repair as needed).
4. Miscellaneous maintenance and repair (as needed).
5. Inspect and refinish protective surfaces as needed.
√ 6. Termite inspection and repair (at least every five years).

** **SPECIAL NOTE:**

The following rehabilitation work is also planned and considered important. However, their completion would far exceed the limits of this proposed Mills Act contract. This work will either be completed before this proposed contract expires (with no Mills Act financial assistance), or deferred to an anticipated contract extension.

1. Recreate front porch arch trim and balustrades.
2. Seismic upgrade (e.g.. foundation bolting).
3. Design and construct period appropriate carriage house/garage with detail to match original.
4. Design and construct period appropriate driveway from curb to garage/carriage house

MILLS ACT CONTRACT

2006 - 18

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 17 day of May 2006, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and George Sokolow("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 919 Columbia Street, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On January 18, 2006, the City Council of the City of South Pasadena adopted Resolution No. 6471, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on 5/17/, 2006, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance of the annual renewal date of this Agreement as follows: Owner must serve written

notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.,* may cancel this Agreement if City determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the

standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural

and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: George Sokolow
1324 Gates Place
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's

fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

05 1598934

The West 80 feet of Lot 13, of A.O. Porter's subdivision of a part of the Porter & Green Tract, as per map recorded in book 14, page 97 of Miscellaneous Records of said County.

Except the North 20 feet thereof, conveyed to the City of South Pasadena for widening Columbia Street, by deed recorded in book 2437, page 20 of deeds.

Assessor's Parcel No: 5317-006-004

RESOLUTION NO. 6859

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA DESIGNATING THE BURWOOD HOUSE AT 919 COLUMBIA STREET AS A CULTURAL HERITAGE LANDMARK (LANDMARK NO. 48)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance #2004 (commonly known as the "Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Cultural Heritage Commission to register the house located at 919 Columbia Street as a landmark; and

WHEREAS, the research and documentation proved by Commission members Glen Duncan and John Lesak amply demonstrate the qualifications of the property for landmark designation; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the accredited architectural historian recently determined in a report that the house appears eligible for listing on the National Register of Historic Places; and

WHEREAS, the Commission made findings of fact based on the nomination and supporting materials and the information and testimony provided by the public pursuant to Subsection (a) (2) "Designation Criteria" of the above Ordinance Section, as follows:

(A.) Its character, interest or value as a part of the heritage of the community;

Built in 1885, the residence at 919 Columbia is one of the earliest homes in the area, completed three years before the City of South Pasadena was incorporated. Its location on Columbia helped to establish this area as one of the most desirable areas in the budding community and is a significant contributor to the Columbia Street historic neighborhood.

The original owner was James R. Riggins. According to records at the Mount Lowe Preservation Society, the home was purchased about 1890 by Edna Lowe Wright and her husband. Edna was one of Professor Thaddeus Lowe's daughters. Although the famous inventor and founder of the Mount Lowe Railway apparently never lived at the 919 Columbia residence, he did visit and was photographed there. It is also speculated that as a great lovers of Cycads, he was responsible for installing two Sago Palms in the front yard that had matured by the time the Gertmenians acquired the home in 1925.

(D.) Its exemplification of a particular architectural style of an era of history of the city;

The residence is an excellent example of the Queen Anne Victorian Style. Most of the key character-defining features were retained when the front facade was "modernized," presumably in the early 1920s. By 1925, a dormer and smaller second story gable and "gingerbread" detailing around the first story front porch had disappeared. The interior, although severely deteriorated by 40 years being unoccupied, is structurally sound and still has original door hardware, five original fireplaces and several dual electric and gas lighting fixtures. In the hands of owners capable and committed to restoration, The Riggins house is eminently reparable.

(G) Its embodiment of elements of outstanding attention to architectural design, engineering, detail design, detail, materials or craftsmanship;

Design detail and craftsman of the Riggins house were consistent with the best available in the mid 1880s. The home stands on a strong and intact brick foundation with redwood construction; both have remarkably held up for 120 years, at least 40 of which have been characterized by profound neglect. It exhibits great attention to detail, design, and craftsmanship, including handcrafted woodwork and intricate, custom tiled fireplaces that could have only been achieved by master craftsmen.

WHEREAS, the Commission findings included a determination that the house has an extremely high degree of integrity; and

WHEREAS, based on the evidence presented in the application materials, the designation being categorically exempt from the California Environmental Quality Act, sub-committee research, on-site inspection and public testimony, the Cultural Heritage Commission voted to recommend designation of this property on November 17, 2005 and forwarded the recommendation to the City council; and

WHEREAS, the City Council held a public hearing on the proposed designation on January 18, 2006 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA DOES HEREBY FIND, DETERMINE, AND RESOLVE AS FOLLOWS:

SECTION 1. The City Council approves the designation of 919 Columbia Street as an Official South Pasadena Historic Landmark.

SECTION 2. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 18th day of January 2006.

Odom Stamps, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Stephen P. Pfahler, Esq., City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 18th day of January 2006, by the following vote:

AYES: Cacciotti, Margrave, Putnam, Ten and Mayor Stamps

NOES: None

ABSENT: None

ABSTAINED: None

Sally Kilby, City Clerk

- Exhibit C -

SCHEDULE A - MAINTENANCE PLAN

The South Pasadena City Council designated the house as a local landmark on January 18, 2006. The property was previously listed on the California Register by virtue of detailed survey work by qualified architectural historians employed by Caltrans in conjunction with a proposed 710 Freeway EIR.

Because the local designation was based on three very specific criteria (see Appendix A) and because the house was in incredibly poor condition when we purchased it, the restoration and preservation challenge is considerable. Our determination is to restore the residence to its early glory at the turn of the 20th century, but with up-to-date kitchen and bath conveniences and appurtenances common in historic renovations and permitted within Secretary of Interior Standards for the Treatment of historic Properties – Guidelines for Rehabilitation.

More specifically, Our rehabilitation plan is based on preserving the original floor plan and spatial relationships, restoring the late 19th century period character of both the exterior and interior while upgrading the residence to modern use. In applying for landmark status immediately after we bought the residence, we fully appreciate and are committed to doing all work under the Rehabilitation Guidelines of Secretary of Interior Standards for the Treatment of Historic Properties

It was a distinguished home when it was built in 1885 and if granted, we intend nothing less in the course of our Mills Act contract. We intend to complete the work with the taste and quality that will make the home just as desirable 125 years in the future as it was 125 years in the past.

Fortunately, structural integrity, spatial arrangement, woodwork and detail design is quite high. A few important exterior features, such as a front gable dormer and "gingerbread" around the front porch, were removed, probably in the 1920s, but the basic "bones" and design details are still intact.

Although Mills Act contracts designate all preservation, repair, restoration rehabilitation and maintenance under the banner of "maintenance," apparently to emphasize the overarching premise of maintaining community heritage, we have broken our plan down into discreet categories aligning with Rehabilitation Guidelines of Secretary of Interior Standards for the Treatment of Historic Properties.

A. Upgrades for Health and Safety Codes

B. Repairing Deteriorated Materials and Features

C. Proposed Alterations for Modern Use

D. Replacing Missing Features

E. Protecting and Maintaining Existing Historic Materials and Features

REHABILITATION PLAN

Keeping in mind that this house has been vacant for over forty years, all work in the first three categories will be initiated in the first year because these tasks must be completed to make the house livable and comfortable for our parents, for whom we purchased and are rehabilitating the historic property. The exact timing of tasks within these categories will be determined by the availability of contractors and artisans to do the work and the specific requirements of the permitting process in South Pasadena. Considering these caveats, the individual tasks in each of the above five categories are listed below in the likely sequence of completion.

Phase I – Preparing the Residence for Occupancy

Upgrading for Health & Safety Codes and Current Living Standards

1. New Sewer- update/replace interior and install non existing exterior connection.
2. New Gas Service - update/replace interior and install exterior meter connection.
3. New Plumbing- update/replace interior and install new meter/main.
4. New Electrical service- update/replace interior and install new panel/meter.
5. Rebuild and seismically reinforce both chimneys and flues to the five existing fireplaces (including any necessary firebox repair).

Repairing Deteriorated Materials and Features

EXTERIOR

1. Roof- replace dated roof with appropriate period type roof and drainage system.
2. Shingle work- repair/replace to original look per photo.
3. Porch repair- repair/replace wood on porches and stairs.
4. Windows- repair/rehabilitate/recreate windows to full function.
5. Prep/paint- to harmonize with historic period.

INTERIOR

1. Repair/replace all deteriorating walls
2. Strip inappropriate paint and restore woodwork to original finish.
3. Restore/repair/replace (as necessary) all hardwood floors.
4. Restore custom fireplace surrounds to original character.
5. Paint and/or wallpaper with period appropriate colors and patterns.
6. Restore period lighting fixtures and replace inappropriate fixtures with period appropriate fixtures.

Alterations for Modern Use

1. Bathroom 1- update master and restore original fixtures.
2. Bathroom 2- restore/replace with heritage appropriate fixtures.
3. Bathroom 3- powder room, restore or replace fixtures.
4. Kitchen- update to current function with heritage themed cabinetry and appliances.

Phase II – Preservation Priorities

Although work on the landscape plan, sprinkler system and maintenance may begin prior to completion of all Phase One tasks, all of the work below is less critical to preparing the residence for occupancy. Likewise, replacing missing exterior features that help to define the character of the Riggins house are deferred to Phase Two. They can be undertaken after the Hurtados move in.

Replace Missing Features

1. Design and install landscape plan appropriate to heritage of residence.
2. Gables- recreate/rebuild two rooftop gables to match original per photo.

Protect and Maintain Existing Historic Materials and Features

1. Update/install irrigation system to allow for proper maintenance.
2. Landscape maintenance (bimonthly gardening service to maintain appearance/integrity).
3. Roof and drainage maintenance (yearly inspection and repair as needed).
4. Miscellaneous maintenance and repair (as needed).
5. Inspect and refinish protective surfaces as needed.
6. Termite inspection and repair (at least every five years).

** **SPECIAL NOTE:**

The following rehabilitation work is also planned and considered important. However, their completion would far exceed the limits of this proposed Mills Act contract. This work will either be completed before this proposed contract expires (with no Mills Act financial assistance), or deferred to an anticipated contract extension.

1. Recreate front porch arch trim and balustrades.
2. Seismic upgrade (e.g., foundation bolting).
3. Design and construct period appropriate carriage house/garage with detail to match original.
4. Design and construct period appropriate driveway from curb to garage/carriage house

Standards for Rehabilitation

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.

3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.

4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.

5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.

6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.

7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.

8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction will be undertaken in a such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 18 day of December, 2006, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Pete Kutzer ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 800-802 Fair Oaks Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On December 20, 2006, the City Council of the City of South Pasadena adopted a Resolution, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 28, 2006, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance

of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for rehabilitation and maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City

determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations

and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Fair Hope, LLC
c/o Pete Kutzer, The Kutzer Company
716 Mission Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or

restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

Fair Hope, LLC
September 1, 2006

Property Address:
800-802 Fair Oaks Avenue / 1605 Hope Street, South Pasadena, CA 91030

Legal Description: Book 1 Page 91 Parcel Maps

Exhibit A on Deed of Trust:

Real property in the City of South Pasadena, County of Los Angeles, State of California, described as follows:

PARCEL 1:

South 45 feet of Lot 10 and the North 5 feet of Lot 11 in Block "H", Raymond Villa, Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 2:

The South 50 feet of Lot 11 in Block H of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 3:

The North 5 feet of Lot 5 and all of Lot 6 in Block "H" of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 4:

That portion of Lots 7, 8 and 9 in Block "H" of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County, described as follows:

Beginning at a point on the Easterly line of said Lot 9, distant South 0° 46' West 50 feet from the Northeasterly corner of said Lot 9; thence North 0° 46' East 50.00 feet to the Northeasterly corner; thence South 88° 00' 30" West 153.00 feet to the Northwesterly corner of said Lot 7; thence along the Westerly line of said Lot 7, South 0° 46' West 43.00 feet; thence North 89° 22' 12" West 152.83 feet to the point of beginning.

— Exhibit B —

RESOLUTION NO. 6910

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING THE FAIR-HOPE BUILDING AT 800-802 FAIR OAKS AVENUE AS A CULTURAL HERITAGE LANDMARK (LANDMARK NO. 49)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance #2004 (commonly known as the "Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Cultural Heritage Commission to register the house located at 800-802 Fair Oaks Avenue as a landmark; and

WHEREAS, the research and documentation proved by Commission members Glen Duncan and John Lesak amply demonstrate the qualifications of the property for landmark designation; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the accredited architectural historian recently determined in a report that the house appears eligible for listing on the National Register of Historic Places; and

WHEREAS, the Commission made findings of fact based on the nomination and supporting materials and the information and testimony provided by the public pursuant to Subsection (a) (2) "Designation Criteria" of the above Ordinance Section, as follows:

a. ***Its character or interest or value as a part of the heritage of the community;*** The Fair Hope Building is one of the few remaining early twentieth century structures in South Pasadena's Fair Oaks corridor. Built in 1911, it was one of the largest and most significant commercial buildings erected on what was then called Palermo Avenue. Originally the ground floor was used as and automobile garage and a retail dairy depot. The South Pasadena Masonic Lodge occupied the second floor.

Well served by the Pasadena Electric "Red Cars," the stretch of Palermo Avenue between Monterey Road and State Street sported a mix of fine homes and commercial structures.

Over the next fifteen years, before Fair Oaks Avenue was designated part of U. S. Highway 66, many commercial buildings were added to the bustling streetscape. Most were one and two-story structures with retail stores and automobile dealerships and services on the first floor and offices or residences on the second floor. The streetscape also included theaters and other entertainment uses (the Ritz Theater was located just to the south of the Fair Hope Building).

*d. **Its exemplification of a particular architectural style of an era of history of the city;***
As noted in the 2003 South Pasadena Historical Resources Survey update by PCR, the Fair Hope building "incorporates characteristic elements of the Classical revival style as applied to commercial buildings in the first decades of the twentieth century (flat roof with parapet, brick construction, Doric pilasters, and recessed fenestration)."
Only moderately altered, the building retains sufficient integrity to convey its historic significance and turn-of-the century character.

*e. **Its exemplification of the best remaining architectural type in a neighborhood;***
The Classical Revival Style building, with its white glazed brick front façade and Doric pilasters on front and north facades, is unique to the South Pasadena Fair Oaks corridor.
All other examples of this architectural type that were built in the early twentieth century have been far too altered to convey that design motif.

WHEREAS, the Commission findings included a determination that the house has an extremely high degree of integrity; and

WHEREAS, based on the evidence presented in the application materials, the designation being categorically exempt from the California Environmental Quality Act, sub-committee research, on-site inspection and public testimony, the Cultural Heritage Commission voted to recommend designation of this property on November 16, 2006 and forwarded the recommendation to the City council; and

WHEREAS, the City Council held a public hearing on the proposed designation on December 20, 2006 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council approves the designation of 919 Columbia Street as an Official South Pasadena Historic Landmark.

SECTION 2. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 20th day of December, 2006.

Philip C. Putnam, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard Terzian, Esq., Interim City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 20th day of December, 2006, by the following vote:

AYES: Cacciotti, Margrave, Stamps, Ten and Mayor Putnam

NOES: None

ABSENT: None

ABSTAINED: None

FAIR HOPE BUILDING
PRINCIPLES OF RESTORATION

Background

The Fair Hope Building, located at the southeast corner of Fair Oaks Avenue and Hope Street, is a Classical Revival building constructed in 1911. The building was apparently used for auto services (L.M. Burton Autos), and later as a retail dairy store (Adohr Creamery Corporation) beginning in 1926. Local residents remember its use as a fraternal lodge in the mid 1900's. It was finally converted to retail/restaurant uses on the ground floor, and office uses on the second and newly-added third floors in the 1980's. It was included in the historical survey performed by PCR Services Corp. for the City of South Pasadena in 2003, and is eligible for listing in the California Register.

Restoration Principles

Our partnership, Fair Hope, LLC, acquired the property in 2003. We now plan to do significant restoration work on the building, in an effort to restore the building in accordance with the Secretary of the Interior's Standards for Rehabilitation (the "Standards.") According to the Standards,

> "Rehabilitation" is defined as "the process of returning a property to a state of utility, through repair or alteration, which makes possible an efficient contemporary use while preserving those portions and features of the property which are significant to its historic, architectural, and cultural values."

For easy reference, the ten guiding principles of restoration are attached as an exhibit.

Our basic objectives are to:

1. Implement restoration of basic building systems (including but not limited to roof, exterior walls, hardscape) to ensure short-and long-term preservation of the property.

2. Restore façade in a manner appropriate for the building. This will include:
   - Restoration of glazed brick façade
   - Removal of inappropriate signage and awnings
   - Installation of new, appropriate signage and awnings
   - Installation of lighting to enhance appreciation of the building at night

The Team

We have assembled an experienced and talented team to guide and implement this program. The team includes:

Dahl Architects – Dahl Architects, including Steve Dahl and Linda Hames, is serving as architect for the project.
Ray Girvigian, FAIA – Mr. Girvigian is serving as the historic consultant.
Paul Rogers – Mr. Rogers is the designer for the signage and awning program.
The Kutzer Company – The Kutzer Company is the management company for the building.
California Restoration and Waterproofing – David Charlebois is coordinating restoration work on the brick façade.

Planning and Design Documents

Design plans and documents are being submitted concurrently with this application.

– Exhibit D –

The Secretary of the Interior's Standards for Rehabilitation

The Standards (Department of Interior regulations, 36 CFR 67) pertain to historic buildings of all materials, construction types, sizes, and occupancy and encompass the exterior and the interior, related landscape features and the building's site and environment as well as attached, adjacent, or related new construction. The Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.

8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

I. Rehab/Restoration-Planned (expected to be maintained over the life of the contract)

1. *Awnings*: Awning production, installation and lettering on West and North Facades of the building.	$ 25,000.00
2. *Lighting*: Replace back alley flood lights and install various new lighting treatments around the West and North Facades of the building.	$ 15,000.00
3. *Window Film*: Window Film installation on the East and West Facings to to be completed by Solar-Gard Window Tinting.	$ 1,902.15
4. *Roofing*: New roof installation, including the removal of any existing roofing to be completed by either Central Roofing, Richter Roofing, The M & M Construction Group or Lavey Roofing.	$ 44,000.00 - $ 73,500.00
5. *Painting*: Painting of all exterior windows, doors and ladders to be completed by Fino Painting & Decorating.	$ 19,200.00
6. *Exterior Brick Restoration*: Wash, repair, and restoration of all exterior brick and grouting surfaces to be completed by either Bielski Window & Masonry Cleaning or California Restoration & Waterproofing	$ 18,795.00 - $ 54,470.00
7. *Paving*: Re-surface, re-seal, and re-stripe all parking lot areas where necessary to be completed by either Caliber Paving or Pasadena Paving, Inc.	$ 19,494.00 - $ 21,635.00
8. *Signage*: Design and installation of new exterior signage	$ 10,000.00
9. *Planning & Consulting*: Project coordination, drafting services, blueprints, pictures, and consulting, completed by Dahl Architects and Raymond Girvigian, F.A.I.A.	$ 17,000.00
Total:	**$ 170,391.15 - 237,707.15**

II. Annual Estimated Maintenance (expected over the life of the contract)

In order to maintain the building in compliance with the Secretary of the Interior's standards and to generally preserve the property we anticipate the following approximate **annual** expenditures as based on our *2005 Year-to Date General Ledger*, and experience with similar historic buildings.

1. *Awning Maintenance* (current cost $130/month) $ 1,560.00
   This maintenance program, usually provided by Grinnell Window Cleaning, consists of regular inspections, cleaning, adjustment, and maintenance of the awnings. This ensures that the awnings remain in good condition and repair.

2. *Carpet Maintenance* (current cost $400/quarterly) $ 1,600.00
   This quarterly maintenance program provided by LaDonne Carpet Cleaning, consists of the cleaning of all common area carpets including halls, elevator lobbies, and stairs. This ensures that the carpets remain in good condition and repair.

3. *Roofing* (current cost $595/twice yearly) $ 1,190.00
   This bi-yearly preventative roof maintenance program, usually provided by The M&M Construction Company, consists of the cleaning and maintenance of all roof surfaces, including but not limited to HVAC drain lines, gutters, flashings, pitch pans, pipes, etc. This ensures that the roof remains in good condition and repair.

4. *Maintenance and Repairs* (current cost $2060.36/month) $ 15,000.00
   This is an on-going budget item for bi-weekly inspections by TKC and vendor personnel to inspect all exterior and common areas, and perform cleaning, minor repairs to hardware, screens, doors, windows, roofing, minor caulking and touch up painting, and includes regular oversight of all regular vendors, contractors, and their on-going work.

5. *General Repairs* (to include Electrical, Plumbing, HVAC, etc.) $ 12,000.00
   This is an on-going budget item which incorporates general preventative maintenance and repair to both common area and tenant-occupied building systems, including but not limited to electrical, plumbing, elevators, HVAC, walls and storefronts.

Annual Total: **$ 31,350.00**

MILLS ACT CONTRACT

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 28 day of December, 2006, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Pete Kutzer ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 800-802 Fair Oaks Avenue, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On December 20, 2006, the City Council of the City of South Pasadena adopted a Resolution, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 28, 2006, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance

of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for rehabilitation and maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City

determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations

and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Fair Hope, LLC
c/o Pete Kutzer, The Kutzer Company
716 Mission Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or

restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

Legal Description of the Property
Fair Hope, LLC
September 1, 2006

Property Address:
800-802 Fair Oaks Avenue / 1605 Hope Street, South Pasadena, CA 91030

Legal Description: Book 1 Page 91 Parcel Maps

Exhibit A on Deed of Trust:

Real property in the City of South Pasadena, County of Los Angeles, State of California, described as follows:

PARCEL 1:

South 45 feet of Lot 10 and the North 5 feet of Lot 11 in Block "H", Raymond Villa, Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 2:

The South 50 feet of Lot 11 in Block H of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 3:

The North 5 feet of Lot 5 and all of Lot 6 in Block "H" of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County.

PARCEL 4:

That portion of Lots 7, 8 and 9 in Block "H" of the Raymond Villa Tract No. 1, in the City of South Pasadena, as per map recorded in Book 1 Page 91 of Maps, in the Office of the County Recorder of said County, described as follows:

Beginning at a point on the Easterly line of said Lot 9, distant South 0° 46' West 50 feet from the Northeasterly corner of said Lot 9; thence North 0° 46' East 50.00 feet to the Northeasterly corner; thence South 88° 00' 30" West 153.00 feet to the Northwesterly corner of said Lot 7; thence along the Westerly line of said Lot 7, South 0° 46' West 43.00 feet; thence North 89° 22' 12" West 152.83 feet to the point of beginning.

— Exhibit B —

RESOLUTION NO. 6910

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DESIGNATING THE FAIR-HOPE BUILDING AT 800-802 FAIR OAKS AVENUE AS A CULTURAL HERITAGE LANDMARK (LANDMARK NO. 49)

WHEREAS, Section 2.73A-14 of the South Pasadena Municipal Code Ordinance #2004 (commonly known as the "Cultural Heritage Ordinance") authorized the Cultural Heritage Commission ("the Commission") to recommend to the City Council the designation of appropriate properties as landmarks; and

WHEREAS, a duly prepared nomination form has been prepared and submitted by the Cultural Heritage Commission to register the house located at 800-802 Fair Oaks Avenue as a landmark; and

WHEREAS, the research and documentation proved by Commission members Glen Duncan and John Lesak amply demonstrate the qualifications of the property for landmark designation; and

WHEREAS, the Commission has complied with the applicable provisions of Subsection (a) (3) "Designation Procedure" of the above Ordinance Section in that it visited the site, attempted diligently and in good faith to meet with the property owner, mailed notices, held a duly noticed public hearing, received public comment; and

WHEREAS, the accredited architectural historian recently determined in a report that the house appears eligible for listing on the National Register of Historic Places; and

WHEREAS, the Commission made findings of fact based on the nomination and supporting materials and the information and testimony provided by the public pursuant to Subsection (a) (2) "Designation Criteria" of the above Ordinance Section, as follows:

a. ***Its character or interest or value as a part of the heritage of the community;*** The Fair Hope Building is one of the few remaining early twentieth century structures in South Pasadena's Fair Oaks corridor. Built in 1911, it was one of the largest and most significant commercial buildings erected on what was then called Palermo Avenue. Originally the ground floor was used as and automobile garage and a retail dairy depot. The South Pasadena Masonic Lodge occupied the second floor.

Well served by the Pasadena Electric "Red Cars," the stretch of Palermo Avenue between Monterey Road and State Street sported a mix of fine homes and commercial structures.

Over the next fifteen years, before Fair Oaks Avenue was designated part of U. S. Highway 66, many commercial buildings were added to the bustling streetscape. Most were one and two-story structures with retail stores and automobile dealerships and services on the first floor and offices or residences on the second floor. The streetscape also included theaters and other entertainment uses (the Ritz Theater was located just to the south of the Fair Hope Building).

d. ***Its exemplification of a particular architectural style of an era of history of the city;***
As noted in the 2003 South Pasadena Historical Resources Survey update by PCR, the Fair Hope building "incorporates characteristic elements of the Classical revival style as applied to commercial buildings in the first decades of the twentieth century (flat roof with parapet, brick construction, Doric pilasters, and recessed fenestration)."
Only moderately altered, the building retains sufficient integrity to convey its historic significance and turn-of-the century character.

e. ***Its exemplification of the best remaining architectural type in a neighborhood;***
The Classical Revival Style building, with its white glazed brick front façade and Doric pilasters on front and north facades, is unique to the South Pasadena Fair Oaks corridor.
All other examples of this architectural type that were built in the early twentieth century have been far too altered to convey that design motif.

WHEREAS, the Commission findings included a determination that the house has an extremely high degree of integrity; and

WHEREAS, based on the evidence presented in the application materials, the designation being categorically exempt from the California Environmental Quality Act, sub-committee research, on-site inspection and public testimony, the Cultural Heritage Commission voted to recommend designation of this property on November 16, 2006 and forwarded the recommendation to the City council; and

WHEREAS, the City Council held a public hearing on the proposed designation on December 20, 2006 and received public testimony.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The City Council approves the designation of 919 Columbia Street as an Official South Pasadena Historic Landmark.

SECTION 2. The City Council directs the City Clerk to file the appropriate designation with the office of the Los Angeles Registrar-Recorder/County Clerk.

PASSED, APPROVED AND ADOPTED ON this 20th day of December, 2006.

Philip C. Putnam, Mayor

ATTEST:

Sally Kilby, City Clerk

APPROVED AS TO FORM:

Richard Terzian, Esq., Interim City Attorney

I HEREBY CERTIFY the foregoing resolution was duly adopted by the City Council of the City of South Pasadena at a regular meeting held on the 20th day of December, 2006, by the following vote:

Project No: 0852-MIL
Project Location: 1001 Buena Vista Street (APN: 5317-009-034)
RE: Response to Mills Act – Progress Report Request

Dear Mr. Donovan,

We write in response to your letter of March 6, 2025 in which you requested a progress report on all rehabilitation and maintenance tasks that were stipulated to in the Mills Act Contract dated November 21, 2006 regarding the Garfield House property located at 1001 Buena Vista Street ("Garfield House").

By way of background, we purchased the Garfield House from Mr. Joe Henry and Ms. Melanie Ciccone in approximately April 2015, 9 years after the Mills Act contract was executed. While we have compiled the requested documentation that is in our possession, much of the work on the Mills Act Contract tasks was completed by the prior owners and our access to documentation from that period is necessarily limited to what we received from Mr. Henry and Ms. Ciccone. Fortunately, the prior owners' documentation is quite extensive.

Based on your letter and the phone call that Lori and you had in March 2025, it appears that the City of South Pasadena may not have records of past updates and discussions that we and the prior owners had with the City. We hope the following information will assist you in this regard and in performing your ongoing due diligence.

Attached as **Exhibit A** to this letter is a June 24, 2013 report that Ms. Ciccone sent to the City of South Pasadena providing an update on the Mills Act rehabilitation work on the property. That letter attached City Permits, before-and-after photos, and other documentation.

In October 2018, working through our historical preservation consultant Glen Duncan, we provided another update to the City of South Pasadena on the progress of the original Mills Act projects and on our plans for the next decade. Attached as **Exhibit B** is an October 16, 2018 email from Mr. Duncan to Darby Whipple of the City of South Pasadena attaching a 2018

Historic Property Contract Work Plan. Mr. Duncan also made an in-person presentation to the Cultural Heritage Commission in late 2018 regarding progress on the Garfield House Mills Act projects and our future plans.

As the 2013 and 2018 updates described, a significant issue for the property was the California Department of Transportation's ("CalTrans") ownership of the southernmost 54 feet of the historic Garfield House property. Between 2018 and 2021, we worked closely with the City of South Pasadena and its Cultural Heritage Commission, the South Pasadena Preservation Foundation, and CalTrans to negotiate a purchase of the property and a historical covenant that will run with the property. Attached as **Exhibit C** is an April 21, 2021 email from Howard Kuo, Right of Way agent with CalTrans, attaching the Historical Covenant, Assignment Agreement, Director's Deed, and Purchase and Sale Agreement. As you may know, CalTrans did not have a significant history of completing prior sales in South Pasadena. Completing this project required a significant outlay of time and financial resources, only some of which is reflected in the $50,000 purchase price that we paid. For example, we made a presentation to the City Manager, had numerous communications with CalTrans, incurred $3,950 for land surveying work, and spent $2,060 on lot merger fees with the City of South Pasadena. (See **Exhibit D** for invoices from the land surveyor Ray Lombera & Associates, Inc. and **Exhibit E** for the parcel merger application containing Ray Lombera's land survey and proposed lot line adjustment).

The 2013 and 2018 updates described the need to rehabilitate the brick walkway that goes from the sidewalk on Buena Vista to the house's front door. This walkway had become a significant safety hazard due to tree roots causing the bricks to become uneven. In 2021, we completed this project at a cost of $25,496.85. The invoice for this project is attached as **Exhibit F**.

The 2013 and 2018 updates also identified projects to repair the driveway, landscape the backyard, and repair and repoint the stone wall that runs along Meridian. We retained Harvest Architecture, landscape architect June Scott, and engineering firms to prepare plans for these and related projects. To date, we have paid $6,850 to Ms. Scott (see **Exhibit G** for Ms. Scott's invoices); $144,037 to Harvest Architecture (see **Exhibit H** for Harvest Architecture's invoices); $5,800 to Irvine Geotechnical (see **Exhibit I** for Irvine Geotechnical's invoices); and $6,565 to Breen Design Group (see **Exhibit J** for Breen's invoices).

The 2018 update included a number of projects, such as performing a structural and site analysis, to conduct foundation-related work, to add a French Drain to prevent structural water intrusion, and to replace the existing roof and deteriorated skylights. The structural and site analysis was completed in October 2018. Attached as **Exhibit K** is a copy of Michael Krakower and Associates' $14,600 fee statement and attached as **Exhibit L** is a copy of the resulting report. We plan to complete the remaining projects in the coming years.

Separate and apart from these projects, we have had significant expenses related to interior and exterior patching, repainting, and wood and hardware repair. Attached as **Exhibit M** are invoices related to these projects totaling $13,407.

We hope this letter and the attached materials provide you with the documentation that you need to complete your due diligence. If you have any questions or require any further information, please do not hesitate to contact us.

Sincerely,

/s/ Grant Davis-Denny

RE: Mills Act Contract for Property Located at 1001 Buena Vista Street

Dear Property Owners,

The City of South Pasadena entered into a Mills Act Contract for your property on November 15, 2006. As part of the ongoing due diligence required for all Mills Act Contracts, South Pasadena's Cultural Heritage Commission (CHC) is investigating the status of your Mills Act Contract with the City. "Exhibit B" contains the rehabilitation/maintenance plan as required under the contract.

Specifically, the CHC is evaluating the effectiveness of the City's current Mills Act Contracts. As part of this effort, the CHC is reviewing the progress made to date to rehabilitate and maintain your historic property. Please submit a signed letter within 30 days of the date of this letter that contains a progress report on all the rehabilitation and maintenance tasks that were stipulated in your Mills Act Contract (**Friday, June 28, 2013**). The progress report needs to contain the following:

- An itemized list of all work completed to date
- Photographic documentation of the completed work. Preferably showing both "before" and "after" conditions.
- Copies of any building permits issued in conjunction with the work.

Costs of the work or receipts are not currently required, but may be requested depending upon the status of the rehabilitation/maintenance efforts.

The Cultural Heritage Commission will review your case to determine whether the requirements of the Mills Contract have been fulfilled and whether enough time has lapsed for the Mills Act to be effective. The Commission will then make a recommendation to the City Council on whether to issue a "Notice of Nonrenewal". Should you have any questions, please feel free to contact me either via phone or email.

Sincerely,

John Mayer

Re: Mills Act/ Rehabilitation Report for Garfield House

Dear Mr. John Mayer,

Enclosed please find an itemized report of Rehab/Maintenance Plan. Information has been organized as follows: **House Interior, House Exterior, Landscaping, News** (landownership hiccup involving a mistaken 508 Meridian Avenue Lot/ Cal Trans property line which we hope to garner your support in reclaiming into the Original Garfield Estate), and finally work yet **To Be Completed.** Also, attached are copies of City Permits we are able to identify at this time.

I. Itemized List of All Work Completed to Date:

House Interior

Short of regular maintenance and repairs, the entire interior of the house has been renovated. This is hard to believe given the scope of the work taken on at the beginning.
This includes:

-All **Walls & Ceilings** (includes replacing, repairing, removing/demolition, plastering, dry walling, painting, historic wallpaper replacements/additions) to 1st, 2nd, and Basement levels.

-Restoration of both **Fireplaces** in Living Room & Guest Room/Lucretia Garfield's Room. Including striping & repair of enameled craftsman tile, wooden mantels and interiors.

-All Hardwood **Floors** 1st & 2nd levels. Including stripping, repairing, restoring, replacing of all water damage, termite damaged Original Oak and Fir floors. In kitchen 3 layers of linoleum removed to reveal Original Douglas Fir floor. In Basement all concrete floors *Diamond Ground* and sealed to entire 1800 sq. ft. Including custom baseboard wooden moldings milled, cut, painted throughout entire 1st & 2nd floors.

-All **Light fixtures** Inside and Outside replaced(94 in total including the Basement), either purchased or restored where possible (only 4 original fixtures remained when we took possession of the house). Extensive research in conjunction with Old Pasadena Vintage Lighting and Historic Archives consulted to assist in acquiring period appropriate fixtures.

-Entire **Kitchen, Butler's Pantry, and Bathrooms** Reclaimed & restored. All 1960's renovations deconstructed. Custom period cabinetry designed from sole existing cupboard -

6D

fabricated, painted and installed, Nickel Butler's pantry sink, Ceramic Farmhouse sink and prep sink installed,
new countertops. Original archived windows all repaired with restoration glass, original hardware. Original Doug Fir Floor and exterior beams restored. Original California Cooler repaired and put to use. Including custom reproduction white subway tile, vintage sink fixtures acquired, original tub and toilet fixtures rebuilt, re-glazed, re-plumbed, rewired to modern safety standards (following example from Gamble House and pre-existing hexagon tile bathroom floors), exhaust and venting and vintage light fixtures and glass. Linen Closet and Food Pantry custom built/rebuilt and installed using original doors, fixtures, available. Broken, damaged, missing Board and Baton paneling replaced throughout entire house.

Hardware: all existing registers and returns re=plated (Normandy Metal Refinishers) and restored to burnished brass those missing were carefully hunted down and restored in same fashion.
Otherwise, 2nd floor ceiling returns required were custom made to work with modern Heat/AC systems. All toggle switch plates, electrical receptacle covers replaced with newly restored vintage ones. All hinges (window and door) were stripped and re-lacquered. All mortise door fixtures stripped, rebuilt, re-lacquered. I shutter to count how many in total I restored!

Art Glass Skylight and Front & Workshop Doors: Skylight cleaned, sealed. Original broken stain glass replaced. Front Door Art Glass design and recovered and restored.

Basement: cleared of a century of debris; gravity heating system with asbestos ducting (removed with permits by Tempo Heating & A/C); All original River Rock and Cement wall work cleared of plaster, re-pointed, cleaned and sealed. Original cement floors patched, Diamond ground, and sealed; all original cabinetry repaired, re-screened, fir tongue & groove ceiled custom installed; additional bead board cabinetry and wall paneling installed to match original; Period Salvage Doors repaired, painted and installed; original bath fixtures and floor plan recovered, restored, re-glazed. Entire Workshop windows and doors rebuilt (13 were missing) Original Workshop door recovered and restored. Laundry reinstalled in basement Workshop area according to modern plumbing and electrical standards.

Closets: updated, restored master, re-appropriated 1904 original sunroom sliding with artglass to configure new 2nd closet for 'him' in master bedroom. Linen Closet, Food Pantry, Butlers Pantry, Basement Pantry's all rebuilt, painted, restored for use.

Pluming/Electric/HVAC: Entire House & Garage re-plumbed (w/10 yr warranty) and rewired including old venting, knob and tube wiring and outdated fixtures throughout. 200amp panel and exhaust fans where required installed including house alarm and smoke alarms; new 75 Gallon Hot water heater). Dual Zone Heating and AC installed
By Tempo Heating and AC. Copies of City Permits attached.

Attic upgrades: North & South Facing Gables re-screened and "rat proofed",
R-30 batting and loose insulation installed around A/C ducting and in any other area where ceilings or floors were exposed (Living room, Kitchen, Basement). Original 2nd floor pulley venting system rehabilitated. Skylight repaired and' lit' including 1916 Eastside addition.

Exterior

Generally speaking we have approached the exterior renovation in phases due to scope and financial burden of project. We began with wood repairs to garage, moving to roof, then paint and

60 VR

guttering* the garage. Then, we moved on to the house taking it is sections: North, West, then the South face. We are currently in a down phase on the South facing Exterior Rehab and hope to continue later this year, or Early 2014.

Garage Wood Repairs: Replaced and repaired all wood rot, termite infested rafters, cantilevers and larger supporting/decorative beams. Procured an appropriate entry door, replaced glass and all hardware. Installed new ball bearing slide for large wooden doors. Reglazed windows and repaired all broken glass.

Roof: Removed 2 layers composition shingle and original badly damaged wood shingle and sub roofing down to studs. Replaced with 1/2 osb. Plywood, installing vapor barrier and metal flashings, installation of matching (to existing house roof) composition shingles. 4 "eyebrow" balcony porch roofs needed to be replaced (striped of previous existing asphalt roofing material , install with flashing, base sheet and midified bitumen membrane, wrapped eaves with material to match existing roof installed prior to us. Saddle flashing installed at chimney and gable connections, and sealed all possible portals for animal entry. All roof vents capped with screens. Contracted by Caldwell Roof and Skylight/Kurt Caldwell, around late 2008 or 2009. Not yet able to secure copy of permit. Roofer has been contacted.

Note: Custom Scaffolding erected for each orientation of the house. (images on Cds)

House/Wood Repairs: Replaced and repaired all dry rot/termite infested/ broken missing, etc. wooden barge beams outriggers, rafter-tails, joists, broken jambs porch handrails (balcony and east porch and front porch), board and baton on South facing 1916 addition, headers, cedar shingles (extensively in South and West facing most damaged due to sun exposure). ENTIRE NORTH, WEST, AND 2/3 OF SOUTH FACE OF HOUSE COMPLETED Replace 100 year old tar paper at gables. Note some custom built metal brackets made to shore up original crossbeams, bolted in primed and painted.

Doors, Windows &Screens: Front door screen custom rebuild with bronze screen, kitchen and workshop screens rehabbed (new zinc screens and handrails installed). Original hydraulic Front door hinge rebuilt, all springs/pulls/handle/locks and hinges rehabbed. Front Door restored with Custom Art Glass, Original handle restored and installed. Repaired/ restored all window sashes. All house screens North, West and some South repaired, stabilized, rebuilt, some new due to extensive damage - most of them re-screened with zinc –all hinges restored, those broken or missing cut from metal smith and lacquered to match originals. Zinc fastening hooks rehabbed or purchased where missing and installed approx 75 screens. Approx 75 6-12inch sash hooks rehabbed and or purchased and 'treated/antiqued' where missing .

Paint:

Prep including washing, scrapping, sanding, wood sealer, epoxy, putty with primer base coat, caulking & patching with 2 final coats of paint. All windows in need or reglazing completed. Acrylic Stain color palate designed for historic homes. Wooden fascia stripped and sealed with marine enamel.

Gutters & Downspouts:

South Pasadena Gutters installed 2 diverts to roof until renovation complete to help deal with water flow and to help see where gutters and downspouts actually needed. These have been helpful. They installed a gutter and downspout on Garage and also SE corner.

60

Both diverted to newly installed area drains, unfortunately neither have lasted – the garage was not ultimately needed and the SW facing tore down in a downpour. This is going to be something that is completed after all the Wood Rehab and Paint is completed.

Chimney: cleared of invasive ivy, repaired with original fallen bricks, remotared where needed, all joints sealed, entirely resealed, and custom cap built and installed along with interior cleaning (2012)

Awnings: Pasadena Awning installed 5 custom strip (golden sunset patina) with metal frames March 2013 to select South and West Facing windows and sunroom - as seen in vintage postage of The Garfield House. We tried to match the tonality of the originals stored in garage rafters.

Pest Control: All attic, garage, house infected beams identified, sprayed, treated. Re-inspection and treatment every other year since house was purchased.

Landscaping

Backyard cleared of all bramble, debris, old stumps, weeds etc.
Classic cedar style Fence custom built and installed in back perimeter – part 1001 Buena Vista lot, part 508 Meridian Avenue South lot, with 3 gates opening to Meridian Green & Green stairway, to back patio, and to western facing side yard. Planted with: 13 Camellia bushes along fence, and 15 trees (mini fruit orchard, shade tree, decorative deciduous floral trees.
Original Greene & Greene River Rock & brick Stone decorative embankment wall and stairs revealed and repaired.

Back Patio behind *Covered Workshop* (next to garage and drive) designed, cleared, landscaped, *hardscaepd* with concrete/pea gravel and original bricks, irrigation and lighting installed as well as 38 plants, shrubs and trees; wooden compost bin constructed over pre-existing oil-pit; decorative fire wood "wall" set up to divide original cement garage floor. All dead trees and debris cleared and hauled.

Tree trimming, decorative plants, some perimeter lights installed, as well as a vegetable garden installed in the west Lawn; 30 shade plants, irrigation and garbage bin area installed along east facing drive. Lights installed at end of driveway below original brick pillars. Front beds planted with approx 40 different herbs, flowers and native plant material.

II. NEWS SINCE MILLS ACT INSTALLED

(A NOTE ON THE GARFIELD HOUSE PROPERTY LINE)

The backyard of the Garfield House features an original Greene & Greene brick and stone retaining wall where the property slopes to the south, with a pair of steps feeding into a single brick stair- and walkway, leading into the lower level.

When the house was for sale to us, we were told buy the sellers (the Chute family, who had been the owners since 1950) that the property line was below and south of the wall -though they allowed that "a small strip of land" at the lower base of the lot was owned by CalTrans.

This description was represented as fact by the listing realtor, and accepted as such not only by our own agent but, additionally, by Washington Mutual, our mortgage holder at the time of purchase, which had ordered its own inspection and appraisal.

GD

Only after living here for two years did we learn -quite by accident, and to our great consternation— that the property line actually falls *just twenty feet* from the back of the house, leaving the great stone wall along Meridian to the west, the side entrance and steps to the street, as well as the aforementioned retaining wall and stairways, disenfranchised from the house and the rest of the property. Additionally it is hard for us to comprehend that the City of South Pasadena and or the CHC would even consider granting a property line of 20 feet for an estate of this size or import.

It seems after research that the owner before us, the late Andrew Chute, was "conned" -his surviving son's term— into selling the parcel to a friend in 1962, who had represented himself to be down on his luck, and whose stated intention was to build a small house for himself or install a trailer; but he sold it instead to the Dept. of Transportation, who still hold the title.

During the fact-finding process that brought this story all to light, we were counseled that, though owned by CalTrans, the portion of the lot in question could never be utilized for any purpose other than as a portion of the Garfield property, owing to the existence and significance of the Greene & Greene architecture that would be destroyed in any other scenario. Our course of action to date, then, has been to rent the parcel in question back from the Dept. of Transportation for $50 a month; and as well we have gone on record with them that we are desirous, as we believe the City Of South Pasadena and the Cultural Heritage Commission would be, to reacquire the parcel -either by purchase or through a negotiated gifting of the deed back from the state—and have it formally reinstated into the on-going legacy of the property.

It is important to us that both the city and the board members overseeing the Mills Act properties understand that renting and maintaining said parcel is an on-going expense for us; and we expect the reacquisition, should it come to pass, to require additional investments from us down the road. To that end, we respectfully seek to enlist any help and support available from the City of South Pasadena and the Cultural Heritage Commission as we strive to move forward.

A favorable resolution in reinstating the original property lines is important to us as the homeowners and current custodians of the Garfield House, to be sure; but additionally we believe it is of paramount importance to the long-term future of this historic property.

[See attached "Replot map" and CDR exterior photos for reference to this issue.]

III. REHAB TO BE COMPLETED

1/3 of the Southern **House Exterior**, and the entire Eastern Face of the House need to be renovated, which will include: 33 screens to be rehabilitated; 6 screens to be rebuilt; all windows in Sunroom, Kitchen, and East Wing to be weatherproofed (as was done on existing windows) with brass metal flashing, along with sash hooks, and screen hooks; and all new metal hinges fabricated. All wood rot/termite damage needs to treated and replaced with appropriate cedar: joists, eaves, trim, cedar shingle.

Kitchen and Basement Entrances doorways including doors, cement slabs, stairs, re-pointing of original stone work, and sealing to be done.

All **broken window glass** to be replaced with restoration glass.

GO MP

Gutters and downspouts to be built and installed using existing broken original, along with installation of area drains in North, West and East side of house.

Remaining awnings to be built and installed once entire exterior rehab is completed.

Driveway to be removed, redesigned, and laid in using existing original brick and pebbles.

Exterior Lighting to be installed in front entrance walkways and driveway along select spots for proper (both aesthetic and safety purposed).

Original Brick Walkways to be taken up, tree roots to be trimmed back, and all reinstalled.

Landscaping to entire plot needs to addressed including removal of all old dead stumps, trees, old beds replaced, with local indigenous plant material. Including irrigation, area drainage, *hardscape* to some areas – including both design, material and installation costs.
Hillside clearing and Tree Trimming is badly needed on entire lot. All mature growth trees are overdue with TLC following counsel of Arboretum arborist. This is approximately 6 mature cedars, 2 pepper, several Laurel, Live Oak, Olive, Cheery, Pittisporum, Lark, Hong Kong Orchid, Myrtles, Cypress to name a few. Not to mention
All the mature Eucalyptus on the Cal Trans lot we are responsible for. This is a huge expense and we have only been able to manage what was absolutely necessary, opting to focus on the house renovation first. The windstorm of last year tore down several trees and 75 tree limbs at great expense. So many of the trees have sustained additional damage and require more help now than before.

Trees and landscaping on city portion (flanking East and North Facing sidewalks) Camphor and other badly damaged city trees in need to … something.

IV. PHOTOGRAPHIC DOCUMENTATION

We have collected a cross-section of photographic images of the property and house (interior and exterior) in the enclosed CDRs. We are not professional photographers and quite frankly have limited technological sophistication so there are limitations in this collection. We have focused our efforts on rehabilitating and maintaining the property and therefore do not have a large archive of before and after images. What we do have—and there are more images— you are welcome to; and we would be happy to come review them with you in person, should that be necessary. From this point forward, we will document all before work noting that so very much transformation has already happened. To our view that is the good news, hopefully you agree.

V. PERMITS

Copies of all permits we are aware of are attached.

Given the scope of this project, it is hard to feel such an overview as this does justice to the expansiveness of the work accomplished these past six years. Indeed: every surface, every light fixture –every switch plate, hinge, doorknob, floor, ceiling, and wall—has been addressed. Likewise, it is difficult to feel we can satisfactorily project the detail of the work and maintenance that lies ahead for us. But we are committed to the process, and open and available to review any of the above with you. Also know that you/CHC are welcome to come in person to see the progress.

Sincerely,

Melanie Ciccone & Joe Henry

Subject: 1001 Buena Vista St - Mill Act Update

Good Afternoon Mr. Henry:

Thank you for allowing me to photograph of your property on Wednesday; as I explained, we are trying to get an update on each of the properties for which the City has granted Mills Act contracts, your property being one. Attached is the rehabilitation/maintenance list as it was approved by the City Council. Some of these items do not require permits so we do not have a way of tracking whether they have been completed. We would like to know the status of each of the items in terms of what has been completed and any plans of work to be completed in the next two years. Please complete the following matrix and return it to me by **Friday, June 18, 2010.** If items such as restoring the hardwood floors have been completed, please attach photographs to show the work.

If you have anything else you'd like us to know regarding the status of any of the proposed work, please do so next to "Notes from owner" below the matrix.

Should you have any questions, please feel free to contact me either via phone or email.

Thank you for your time.

Sent: Tuesday, October 16, 2018 3:44 PM
To: Darby Whipple
Cc: Davis-Denny, Grant; Lori DAVIS DENNY
Subject: Revised work plan for 1001 Garfield
Attachments: 2018 HPC Work Plan.pdf

Hi Darby,

As promised Attaced is the revised work plan for the Garfield Residence 2018 HPC update.

With more detailed information on completed work from the 2006 workplace, we were able close up knowledge gaps that complicated issues in the previous draft.

You and the Commissioners will note that one item (formerly listed as task 4) has been removed and that all remaining tasks have been reprioritized and listed in order of anticipated completion dates. I will be happy to answer any questions regarding the revisions or any other issues that might occur in the review process.

I will take the lead in presenting the work plan, but both Lori and Grant Davis-Denny would like to be present for the CHC review. Could you send us a copy of the agenda so we will know what part of the evenings docket will be designated for review of the updated work plan?

-glen

Garfield Residence, 1001 Buena Vista Street

2018 Historic Property Contract Work Plan

	TASKS[1]	PRESERVATION OBJECTIVE	EXECUTION[2]
1	Structural and Site Analysis	Determine priorities for public safety while maximizing preservation of character-defining historic features	(a) Michael Krakower & Assoc. (b) $14,600 (c) Completed 10/5/18
2	Install catwalk adjacent to attic furnace (per inspector recommendation)	Correct potential health hazard	(a) Tony Hall (b) $1,850 (c) fall/winter 2018/19
3	Redirect exterior water (rain, landscape watering away from foundation (e.g., French drain?) [**Site Map Item #5]**	Protect from salt deposits (efflorescence) which would weaken foundation walls	(a) Tony Hall (b) $5,000 (c) spring/summer 2019
4	Foundation bolting around building perimeter in basement and crawlspace, and new foundation under front hallway	Significantly increase resistance to seismic forces while protecting character of basement living areas	(a) (b) $75,000 (c) summer, 2019
5	Reroof residence and replace deteriorated skylights	Replace deteriorated roofing materials; maintain exterior appearance and skylit second floor interior	(a) Van Zandt Roofing, Inc. (b) $24,650 (c) 2020
6	Remove deteriorated asphalt driveway and install period appropriate concrete (& brick) driveway (approx. 2300 sq. ft.) **[Site Map Item # 2]**	Correct public safety concern and enhance early 20th Century street appearance	(a) Boston Brick & Stone (b) $73,300 (c) winter, 2020/21

1. Tasks are listed in proposed order of priority
2. (a) = Contractor (proposed): (b) = Estimated Cost; (c) = Estimated or targeted completion date

7	Repair, rehabilitate brick walkways in front to street and driveway, including apron brick (approx. total 820 sq. ft.) **[Site Map Item #1]**	Correct public safety concern and enhance early 20th Century street appearance	(a) Boston Brick & Stone (b) $52,800 (c) winter, 2022
8	Rehabilitate, repair, and repoint stone, brick masonry wall along Meridian Ave. west boundary of current Garfield parcel **[*Site Map Items 3 & 4*]**	Historic maintenance (This item carried forward from 2006 HPC)	(a) Boston Brick & Stone (b) $37,600 (c) winter, 2023/24

NOTE: Except for sewer work and landscaping all items from the 2006 work plan have been completed by previous or present owners.

Sewer work recommended by the 2015 inspection report may require cooperation of the California Department of Transportation, which owns the southernmost 54 ft. of the Garfield estate, purchased in 1968 from a former owner. The current owners lease this property at present. They are interested in purchasing that property from CalTrans, and are awaiting a conditional offer of sale, which they expect to receive in the coming months. If that purchase is completed, the present owners anticipate undertaking the sewer work in short order.

Current owners also considered landscaping along with the propose projects listed above, but determined that the above proposed projects were more urgent and/or important than landscaping. All of the above projects have a safety component or involve integrity of historic structures or features of the property. That said, current owners are interested in undertaking a substantial landscaping project in the future.

1. Tasks are listed in proposed order of priority
2. (a) = Contractor (proposed): (b) = Estimated Cost; (c) = Estimated or targeted completion date

SUMMARY OF COMPLETED WORK

Garfield Residence, 1001 Buena Vista Street

2018 Historic Property Contract Work Plan

	TASKS[1]	PRESERVATION OBJECTIVE	EXECUTION[2]
1	Structural and Site Analysis	Determine priorities for public safety while maximizing preservation of character-defining historic features	(a) Michael Krakower & Assoc. (b) $14,600 (c) Completed 10/5/18
2	Foundation bolting around building perimeter in basement and crawlspace, and new foundation under front hallway	Significantly increase resistance to seismic forces while protecting character of basement living areas	(a) (b) ($102,385) INCOMPLETE (c) (fall/winter 2018)
3	Reroof residence and replace deteriorated skylights	Replace deteriorated roofing materials; maintain exterior appearance and skylit second floor interior	(a) (Van Zandt Roofing, Inc.) (b) $24,650 INCOMPLETE c) (fall, 2018)
4	Plumbing retrofit of waste water sewer connections and install dishwasher waste line with required air gap (per inspector rcommendations)	Correct potential health hazard and dishwasher waste line deficiency	(a) (b) INCOMPLETE (c) (fall/winter2018/19)
5	Install catwalk adjacent to attic furnace (per inspector recommedations)	Correct potential health hazard	(a) INCOMPLETE (b) (c) (fall/winter 2018/19}
6	Remove deteriorated asphalt driveway and install period appropriate concrete (& brick?) driveway (approx. 2300 sq. ft.) Site Map Item # 2	Correct public safety concern and enhance early 20th Century street appearance	(a) (Boston Brick & Stone (b) $73,300 (c) (spring/summer, 2019) INCOMPLETE

1. Tasks are listed in proposed order of priority
2. (a) = Contractor (proposed): (b) = Estimated Cost; (c) = Estimated or targeted completion date

7	Repair, rehabilitate brick walkways in front to street and driveway, including apron brick (approx. total 820 sq. ft.) [Site Map Item #1]	Correct public safety concern and enhance early 20th Century street appearance	COMPLETE (a) Boston Brick & Stone (b) $52,800 (c) (spring/summer, 2019)
8	Rehabilitate, repair, and repoint stone, brick masonry wall along Meridian Ave. west boundary of current Garfield parcel [*Site Map Items 3 & 4*]	Historic maintenance (This item carried forward from 2006 HPC)	(a) Boston Brick & Stone (b) $37,600 (c) (spring/summer, 2019) INCOMPLETE
9	Redirect exterior water (rain, landscape watering away from foundation (e.g., French drain?) [Site Map Item #5]	Protect from salt deposits (efflorescence) which would weaken foundation walls	(a) (b) INCOMPLETE (c) (spring/ summer 2019?

NOTE: Although confirmation of the extent or completion regarding a few items from the 2006 HPC remains unclear* any uncompleted items from the 2006 work plan are deemed less urgent from either a property maintenance or preservation perspective than the above numbered priorities. Any such uncompleted work from the earlier work plan will be addressed in the next HPC review (tentatively in October, 2021) or sooner if the Garfield workplan should need to be expanded or changed in the interim.

* Unconfirmed as of this date is the extent any 2006 updating of gas service, plumbing or electrical service. Any sewer update may, however, require the cooperation of the California Department or Transportation, who acquired ownership of connections to City sewer mains when they purchased the southernmost 54 ft. of the Garfield estate in 1968 from a former owner, Present owners currently lease the property from Caltrans, but do not have authority to complete recommended sewer work.

1. Tasks are listed in proposed order of priority
2. (a) = Contractor (proposed): (b) = Estimated Cost; (c) = Estimated or targeted completion date

Garfield 2006
Page 1

SCHEDULE B - COST PROJECTIONS
REHAB/MAINTENANCE PLAN

In budgeting the rehabilitation maintenance plan, we seek to restore as much of the original floor plan, spatial relationships and both interior and exterior character and integrity as is financially feasible. Economic challenges of restoring a poorly maintained and plundered Greene and Greene are absolutely mind-boggling. Attempting to repurchase original Greene & Greene fixtures or even commissioning reproductions, for example, is well beyond our means. We have instead been able to locate and install many fine, period-appropriate fixtures that help to reestablish turn-of-the-century ambience.

Likewise, expenses and estimates below reflect a much more modest, but still quite expensive rehabilitation budget. We will be employing top craftsmen and contractors using the best materials available but on a tight budget. The work may be a shade or two below museum-quality (e.g., Gamble House) connoisseurship, but will assure both the protection and integrity of craftsmanship of this important South Pasadena historic resource.

INTERIOR

Complete

1. Complete repairing , replacing deteriorated walls & ceilings
   $58,793 (including, demolition, wallpaper removal, plaster, drywall, painting & historical wallpaper reproductions 1st & 2nd Floors)
2. Strip/restore/repair/replace hardwood floors
   16,521
3. Restore/ replace lighting fixtures (75 total)
   28,045
4. *Kitchen/Butler's Pantry & 4.5 Bathrooms*
   (Remove, repair, replace, update to current standards including reproduction tile, plumbing hardware, vintage fixtures in bathrooms, custom cabinetry)
   75,615
5. *Hardware* –Replace & restore registers & returns (30), push-plates (47), brass receptacle covers (58), mortise locks (14), reproduction push button switches & cover-plates
   7,476
6. *Basement/Laundry Workshop*- remove, repair, restore plaster & wood paneling , cabinetry, paint, build cabinets, install tongue & groove ceiling, build windows/restoration glass, salvage doors, diamond grind/seal concrete floors, restore original brick, river rock, concrete supporting walls, bath
   40.761
7. *Closets*- update, restore build master closets and restore linen closet
   21,875
8. *Contractor*
   25,000

** 9. *HVAC* – Dual zone system
   24,573

Notes: circled items completed
* Extent of work undetermined
** Carried over to 2018 work plan

Garfields 2006 page 2

10. *Miscellaneous:*

a.	Insulation	3,621
b.	Window repair/37 total restoration glass	2,357
c.	Screens – 4 bronze & 3 zinc 311	
d.	Dumpster/Construction rental 3,118	

Schedule B - Mills Act Cost Estimates
1001 Buena Vista Street • page 2

EXTERIOR

Complete

1. *Wood restoration*-house & garage*
   52,282
2. *Prep/Paint* –house & garage*
   110,008
3. *Wood Repair*-existing windows & screens*
   10,496
4. *Window Screen & Doors*- build 21 & replace screen 75 original*
   13,910
5. *Roof* - Garage & House (eyebrows only)
   12,000
6. *Gutters/Downspouts*
   4,500
7. *Awnings* - recreate period per original photo
   5,000
8. *Art Glass* – repair broken skylight & restore front door panels
   2,500
9. *Fence* – design/build/ install based on original trellis
   12,589

*see Appendix B for written estimate by California Restoration & Waterproofing

UTILITIES

* 1. *New Plumbing*- update/replace (including gas & sewer) 10 yr warranty
   42,865
* 2. *New Electric* – rewire house/garage 200amp panel/exhaust fans/
   28,670
   smoke alarms

LANDSCAPING

*/** 1. *Design*
   12,376
*/** 2. *Plant material (20,000 sq. ft property plus)*
   46,257

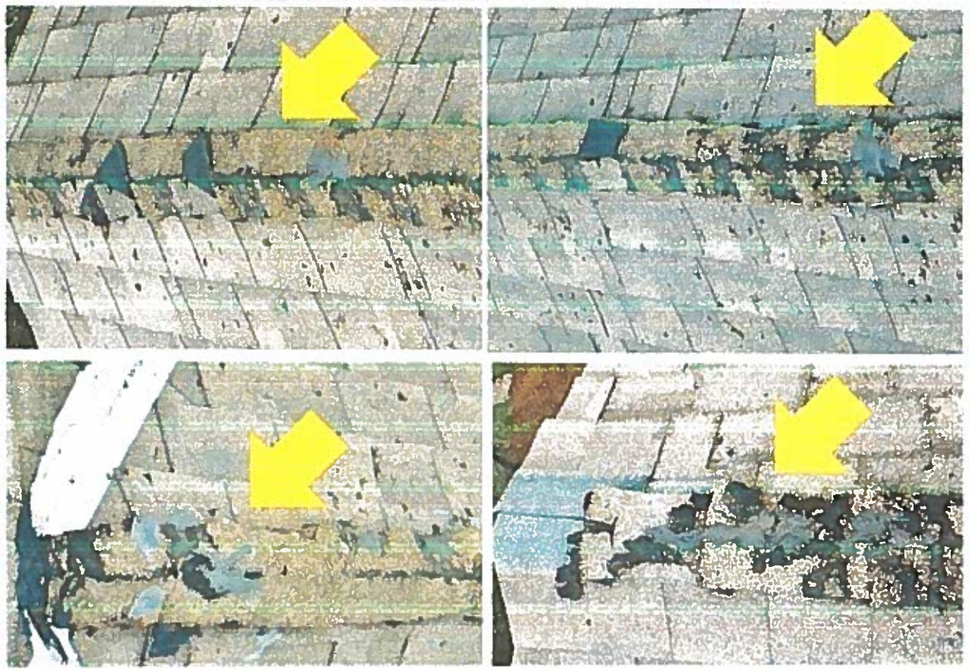
** 3. *Landscape* ~Brick/mortar repair, irrigation, drainage/lighting/removal-hauling/planting/fountain/hardscape-concrete/klinker brick/trellis/pergola 123,756

Rehabilitation/Restoration Total
$785,275

Applied to Mills Act tax reassessment $210,696
$21,070/yr

Additional Rehabilitation
Investment by Property Owner **$574,579**

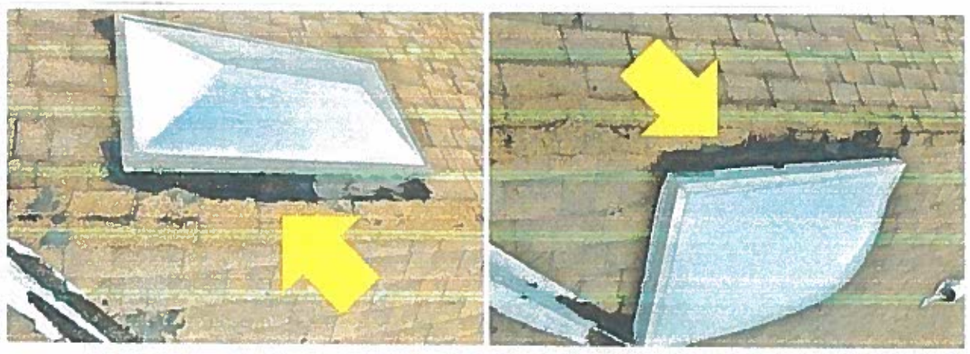
Total 10 year Rehabilitation Investment **$785,275**



ONGOING MAINTENANCE

1. Paint touch up/repainting (interior & exterior)	50,000	($5,000/yr)
2. Termite inspection and repair	12,000	($1,200/yr)
3. Landscape maintenance	39,000	$3,900/yr)
4. Miscellaneous maintenance and repair (seismic damage chimney/brick & mortar)	10,000	($1000/yr)
	$111,000	**$11,100/yr**

REHAB MAINTENANCE TO BE CAPITALIZED **$32,170/yr**



EXISTING CONDITION PHOTO-DOCUMENTATION

Task 3 – deteriorated composition shingle roofing

Not Acceptable: On the composition shingle roof the ridge caps installed at the peak of the roof are worn out and falling apart. These typically do not last as long as the rest of the roof and have to be replaced while the rest of the roof is still in serviceable condition. This roof is currently at that stage and the ridge caps need replacement at this time.

Task 3A– replace unserviceable skylights

Needs Attention: The connection of the roof to the skylights have not been properly flashed and therefore may not be not reliable installations.

Note: photos and commentary from LaRocca Inspection Report 2/23/15

EXISTING CONDITION PHOTO-DOCUMENTATION

Task 5 – Catwalk adjacent to attic furnace

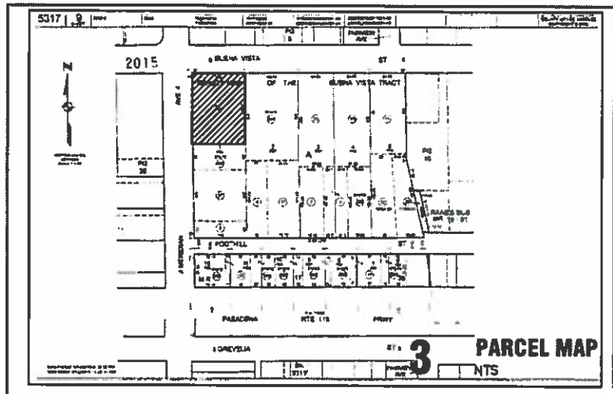
ACCESS CONDITION:

Not Acceptable: There is no cat-walk installed to access the furnace at the north side. This is a standard requirement for safe working conditions around the furnace.

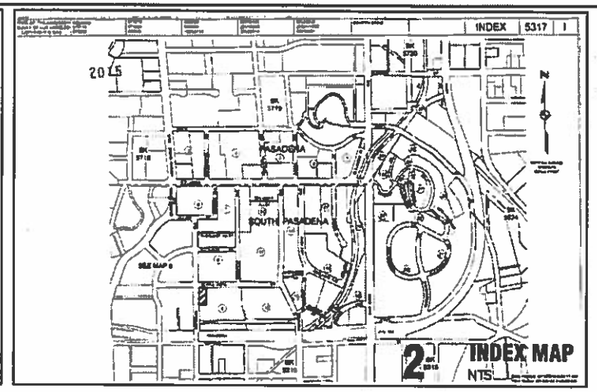
EXISTING CONDITION PHOTO-DOCUMENTATION

Task 6 – Deteriorated asphalt driveway

Task 7 – Uneven, hazardous brick walkways



EXISTING CONDITION PHOTO-DOCUMENTATION



Task 8 – Rehabilitate / repair / repoint arroyo stone and brick masonry wall

Assessor's Identification No: 5317-009-025

Dear Property Owner:

MILLS ACT NOTICE OF ASSESSED VALUE CHANGE

Your restricted historical property qualifies for assessment under the Mills Act. The Assessor is required to review the assessed values annually. By law, the Assessor must enroll the lowest among A, B, or C below. The valuation of your property has been determined as follows:

Annual Review as of January 1, 2012

A	Proposition 13 Base Year Value (Trended)	B	Estimated Current Fair Market Value	C	Mills Act Appraised Value	Enrolled Value	
Total	$2,241,270	Total	$1,700,000	Total	$484,200	Total	$484,200

If you disagree with the enrolled value, you may file an appeal with the Assessment Appeals Board. The appeal must be filed between July 2 and November 30 or within 60 days of receipt of this notice, whichever is later. Assessment appeal applications may be obtained from the Assessment Appeals Board or from the public counter at any Assessor's office. You may also request information and forms by telephone at 213.974.1471, by mail, online, or in person. The Assessment Appeals Board is located in Room B-50, Kenneth Hahn Hall of Administration, 500 W. Temple Street, Los Angeles, CA 90012-2770 and online at *http://bos.co.la.ca.us/Categories/PropertyTaxAppeals.htm*.

To read the law guiding the Assessor on the valuation of restricted historical property, see Revenue and Taxation (R&T) Code Sections 52, 110, and 439 through 439.4. The R&T Code is available online at http://www.boetaxes.ca.gov/property/Vol1and2/Rtc/part05.pdf.

If you have any questions, please contact Rebecca Demboski by telephone at (626) 258-6059 or email at rdemboski@assessor.lacounty.gov. Also, you may visit the Assessor's East District Office in South El Monte at 1190 Durfee Avenue between 7:30 A.M. and 5:00 P.M., Monday through Friday.

Sincerely,

Edward Avila

Los Angeles, CA 90012

RE: Mills Act Contract Agreement for
1001 Buena Vista Street, South Pasadena, California

Dear Mr. Woods:

This letter serves to notify the County Assessor's Office that the City of South Pasadena has entered into a Mills Act Contract Agreement with property owners, Joe Henry and Melanie Ciccone, for the property located at 1001 Buena Vista Street in the city of South Pasadena. In accordance with the Agreement, approved by the South Pasadena City Council on November 15, 2006, this notification and attached signed Mills Act Contract Agreement are being forwarded to your office for review and to adjust the tax assessment for the above-mentioned property (1001 Buena Vista Street) as a Mills Act property.

If you need additional documentation or confirmation on this matter, please contact me at (626) 403-7228 or by e-mail at jmayer@ci.south-pasadena.ca.us.

Thank you for your assistance.

Sincerely,

John Mayer

COUNTY OF LOS ANGELES

(See attached Mills Act Contract)

MILLS ACT CONTRACT

THIS CONTRACT ("Contract") is made and entered into this 21st day of November 2006, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 1001 Buena Vista, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) In 1972, the City Council of the City of South Pasadena adopted a Resolution, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on 11/21, 2006, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City

must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit B" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit C" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it

determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Joe Henry and Melanie Ciccone
1001 Buena Vista Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

Assessed Value: (Current Tax Assessment) $2,060,000

SCHEDULE C- HISTORIC PROPERTY TAX ADJUSTMENT WORKSHEET

Street Address 1000 Buena Vista Street, South Pasadena, CA 91030

STEP 1: DETERMINE ANNUAL INCOME OF PROPERTY

1.	Monthly Rental Income (Even if your property is owner-occupied an estimated monthly rental income is needed as a basis for this worksheet formula.)	$5,000
2.	Yearly Annual Rental Income	$60,000

STEP 2: CALCULATE ANNUAL OPERATING EXPENSES

3.	Insurance (fire, liability, etc.)	$4,833
4.	Utilities (Water, gas, electric)	$9,010
5.	Maintenance* (May include structural repairs, painting, plumbing, electrical, gardening, cleaning, mechanical, HVAC, historic restoration and renovation for current living standards. Detailed documentation of maintenance expenses required on separate sheets.)	$32,170
6.	Management	$5,000
7.	Other Operating Expenses (Security services, etc, Document any additional operating expenses on a separate sheet.)	$500
8.	TOTAL EXPENSES (Add lines 3 through 7)**	$51,513

STEP 3: DETERMINE ANNUAL NET INCOME

9.	Total Net Income (line 2 minus line 8)	$9,587

- Annual Operating Expenses - does NOT include mortgage payments or property taxes.
- NOTE: If you are calculating for commercial or income property, you must provide the following back-up documentation (where applicable) on separate sheets:
  - Rent roll - Include rent for on-site manager's unit as income, if possible.
  - Maintenance records - Provide detailed break-down; all costs should be recurring annually.
  - Management expenses – Include expense of on-site manager's unit or a 5% off site manger's fee; Document all other management costs.

HISTORIC PROPERTY TAX ADJUSTMENT WORKSHEET (page 2)

STEP 4: DETERMINE CAPITALIZATION RATE

10. Interest Component (As determined by the State Board of Equalization for 2006)	5.75%
11. Historic Property Risk Component (Single family home =4%; All other property = 2%)	4%
12. Property Tax Component	1%
13. Amortization Component (Reciprocal of life of property; if life of improvements is 20 years, us 100 x 1/20 = 5%)	5%
14. TOTAL CAPITALIZATION RATE	15.75%

STEP 5 CALCULATE NEW ASSESSED VALUE

15. Mills Act Assessed Value (Line 9 divided by line 14)	$53,715

STEP 6 DETERMINE ESTIMATED TAX REDUCTION

16. Current Tax (General tax levy only – do not include voted indebtedness or direct assessments.)	$23,956
17. Tax Under Mills Act (Line 15 x .010	$537
18. ESTIMATED TAX REDUCTION (Line 16 minus line 17.)	$23,419

SCHEDULE B - COST PROJECTIONS
REHAB/MAINTENANCE PLAN

In budgeting the rehabilitation maintenance plan, we seek to restore as much of the original floor plan, spatial relationships and both interior and exterior character and integrity as is financially feasible. Economic challenges of restoring a poorly maintained and plundered Greene and Greene are absolutely mind-boggling. Attempting to repurchase original Greene & Greene fixtures or even commissioning reproductions, for example, is well beyond our means. We have instead been able to locate and install many fine, period-appropriate fixtures that help to reestablish turn-of-the-century ambience.

Likewise, expenses and estimates below reflect a much more modest, but still quite expensive rehabilitation budget. We will be employing top craftsmen and contractors using the best materials available but on a tight budget. The work may be a shade or two below museum-quality (e.g., Gamble House) connoisseurship, but will assure both the protection and integrity of craftsmanship of this important South Pasadena historic resource.

INTERIOR

1. Complete repairing , replacing deteriorated walls & ceilings
   $58,793 (including, demolition, wallpaper removal, plaster, drywall, painting & historical wallpaper reproductions 1st & 2nd Floors)
2. Strip/restore/repair/replace hardwood floors
   16,521
3. Restore/ replace lighting fixtures (75 total)
   28,045
4. *Kitchen/Butler's Pantry & 4.5 Bathrooms*
   (Remove, repair, replace, update to current standards including reproduction tile, plumbing hardware, vintage fixtures in bathrooms, custom cabinetry)
   75,615
5. *Hardware* –Replace & restore registers & returns (30), push-plates (47), brass receptacle covers (58), mortise locks (14), reproduction push button switches & cover-plates
   7,476
6. *Basement/Laundry Workshop*- remove, repair, restore plaster & wood paneling , cabinetry, paint, build cabinets, install tongue & groove ceiling, build windows/restoration glass, salvage doors, diamond grind/seal concrete floors, restore original brick, river rock, concrete supporting walls, bath
   40.761
7. *Closets*- update, restore build master closets and restore linen closet
   21,875
8. *Contractor*
   25,000
9. *HVAC* – Dual zone system
   24,573

10. *Miscellaneous:*

a. Insulation 3,621
b. Window repair/37 total restoration glass 2,357
c. Screens – 4 bronze & 3 zinc
311
d. Dumpster/Construction rental
3,118

EXTERIOR

1. *Wood restoration*-house & garage*
52,282
2. *Prep/Paint* –house & garage*
110,008
3. *Wood Repair*-existing windows & screens*
10,496
4. *Window Screen & Doors*- build 21 & replace screen 75 original*
13,910
5. *Roof* - Garage & House (eyebrows only)
12,000
6. *Gutters/Downspouts*
4,500
7. *Awnings* - recreate period per original photo
5,000
8. *Art Glass* – repair broken skylight & restore front door panels
2,500
9. *Fence* – design/build/ install based on original trellis
12,589

*see Appendix B for written estimate by California Restoration & Waterproofing

UTILITIES

1. *New Plumbing*- update/replace (including gas & sewer) 10 yr warranty
42,865
2. *New Electric* – rewire house/garage 200amp panel/exhaust fans/
28,670
smoke alarms

LANDSCAPING

1. *Design*
12,376
2. *Plant material (20,000 sq. ft property plus)*
46,257

3. *Landscape* -Brick/mortar repair, irrigation, drainage/lighting/removal-hauling/planting/fountain/hardscape-concrete/klinker brick/trellis/pergola 123,756

Rehabilitation/Restoration Total
$785,275

Applied to Mills Act tax reassessment $210,696
$21,070/yr

Additional Rehabilitation
Investment by Property Owner **$574,579**

Total 10 year Rehabilitation Investment **$785,275**

ONGOING MAINTENANCE

1. Paint touch up/repainting (interior & exterior)	50,000	($5,000/yr)
2. Termite inspection and repair	12,000	($1,200/yr)
3. Landscape maintenance	39,000	$3,900/yr)
4. Miscellaneous maintenance and repair (seismic damage chimney/brick & mortar)	10,000	($1000/yr)
	$111,000	**$11,100/yr**

REHAB MAINTENANCE TO BE CAPITALIZED **$32,170/yr**

SCHEDULE A – MAINTENANCE* PLAN

The residence at 1001 Buena Vista Street was built in 1904 by Charles and Henry Greene for Lucretia Rudolph Garfield the wife of U.S. President James A.Garfield. It was designated by the South Pasadena City Council in 1972, the fourth landmark in the city.

Carefully following Secretary of Interior Standards for the Treatment of Historic Properties and Guidelines for Rehabilitation, the overarching goal is to restore the exterior and rehabilitate the Garfield House interior, with a combination of current and period appropriate kitchen and bath conveniences and appurtenances common in historic renovations

Restoration, rehabilitation and maintenance of the property present a number of challenges, however. Prior to its designation, the Garfield House exterior had been altered twice. Although perhaps not ideal, the additions did not harm its historic significance or seriously diminish its integrity. The interior had also undergone a number of remodels (primarily in the 50s and 60s) that altered its character and destroyed some historic fabric. Much more recently, just prior to its sale early this year, all Greene and Greene fixtures, both interior and exterior, were removed by former owners.

As will be more clear when reviewing the cost breakdowns in Schedule 3, the Rehabilitation/Restoration and Maintenance Plan is much more extensive than needed to merely qualify for maximum Mills Act property tax savings. Nevertheless, the full plan is outlined below to facilitate review for preservation appropriateness. Where individual tasks fell into more than one of the applicable criteria specified by the South Pasadena Cultural Heritage Commission (see below), we listed it under the category that best described the majority of the work.

REHABILITATION PLAN

Removing Inappropriate Alterations of the Past

1. Demo 1960s kitchen and adjacent laundry room (where the former butler's pantry had been located)
2. Restore original configuration of Bedroom 6
3. Strip inappropriate paint and restore woodwork to original finish
4. Strip and restore original finish of door, window and built-in cabinet hardware.

---

* (What may constitute preservation "maintenance" for a given property is determined by the Cultural Heritage Commission on a case by case basis. Restoration and rehabilitation construction activities such as structural repairs, painting, plumbing, electrical, landscaping, updating kitchen and bathrooms, and HVAC to current standards of service might be considered part of maintenance.)

Replacing Missing Features

1. Demo existing Kitchen and Laundry Room; recreate period appropriate Kitchen and Butlers Pantry with new appliances & heritage appropriate cabinetry and fixtures.
2. Rehabilitate four and a half period appropriate bathrooms, restoring original fixtures and replacing inappropriate fixtures.
3. Design and install landscape plan appropriate to heritage of residence.
4. Install period appropriate lighting fixtures throughout (interior and exterior).
5. Replace 1960s toggle switches with reproductions of original push button switches.
6. Restore and reinstall original interior doors salvaged from the basement.

Repairing Deteriorated Materials and Features

INTERIOR

1. Repair/replace all deteriorating walls.
2. Restore/repair/replace (as necessary) all hardwood floors.
3. Restore Bachelder fireplaces to original character.
4. Paint and/or wallpaper with period appropriate colors and patterns.

EXTERIOR

5. Repair and replace deteriorated and missing parts of roof drainage system.
6. Windows- repair/rehabilitate/recreate windows to full function.
7. Prep/paint- to harmonize with historic period.

Upgrading for Health & Safety Codes and Current Living Standards

1. New Sewer- update/replace interior and install non existing exterior connection.
1. New Gas Service - update/replace interior and install exterior meter connection.
2. New Plumbing- update/replace interior and install new meter/main.
3. New Electrical service- update/replace interior and install new panel/meter

Alterations for Modern Use

1. Basement renovation
2. Fencing

Protect and Maintain Existing Historic Materials and Features

1. Update/install irrigation system to allow for proper maintenance.
2. Landscape maintenance (bimonthly gardening service to maintain appearance/integrity).
3. Roof and drainage maintenance (yearly inspection and repair as needed).
4. Miscellaneous maintenance and repair (as needed).
5. Inspect and refinish protective surfaces as needed.
6. Termite inspection and repair (at least every five years).

September 29, 2006

To whom it may concern:

In support of the more detailed rehabilitation, restoration and maintenance plan required by the City, we wanted to share with you our guiding philosophy and intent.

When we had our offer accepted to purchase *The Garfield House* in South Pasadena this past January, we knew we were taking on a tremendous responsibility. Not just personally and financially (though we believe this will prove the biggest investment of our lifetime), but historically. Given that this is not only a Greene and Greene house, but one built over a hundred years ago for the former first lady, Lucretia Garfield, we are constantly reminded that this house was here long before us, and will out-live us as well. The onus of stewardship is thus part of the sensibility that guides every restoration decision.

To that end, we immediately consulted with the manager of the Gamble House and other experts as we began to plan for the interior renovations that would allow us to move ourselves and our children in by June. They helped educate us regarding the Greene brothers aesthetic (about which we already knew a fair amount), and to ascertain what made this house unique and singular from others the Greenes had designed. We also made an appointment with the Huntington Library's archival department, and were given permission to read the actual correspondence between Mrs. Garfield and the Greenes.

Slowly, like peeling back the skins of an onion, we began to get a true picture of the Garfield House as it was originally built and, as well, to understand the changes Mrs. Garfield had overseen with the east-wing addition of 1916. Additionally, and as luck would have it, the Chute Family, from whom we purchased the house, had been very meticulous in saving most every door and window that they'd changed over the 50-plus years they lived here.

Using all of these resources, we were able to re-establish much of the original footprint of the house during our interior renovation. We followed what we believe was the original aesthetic when restoring & replacing missing light fixtures (70 plus in total), switches & plates, wall colors & coverings, fireplace/s, original wood floors, casement windows their hinges, strike plates and locks, original doors, kitchen and butler's pantry cupboard design, as well as historically appropriate plumbing fixtures throughout the entire home – rebuilding that which was original and salvageable and replacing missing pieces.

Having completed the lion's share of the interior – save the restoration of every single door knob (33 in total) - there is still a tremendous amount of work and maintenance ahead. We are currently planning for the eventual restoration of the exterior, and landscaping. The blueprint is there for us, in regard to the former; and we believe that the house itself provides most of the clues we'll need to reclaim the surrounding landscape in a way that is appropriate. Given that the house, though large, is simple and rustic by design, and the motif

of stone and brick runs from the porch and chimney through exterior pillars and yard stairways, it seems clear that our goal should be the repair and restoration of those original installations, and plantings that put them in context.

In this regard, we have sought out and will continue to follow advice of restoration specialists and heritage consultants to assure that all work conforms to the Rehabilitation Guidelines of Secretary of Interior Standards for the Treatment of Historic Properties We also welcome the input of the Cultural Heritage Commission on appropriateness of our rehabilitation and maintenance plans for the property with respect to its landmark designation and neighborhood context.

We do not live in a museum and don't intend to. This house was built to nurture and sustain, and we can feel the "life" returning to it. But at the same time we are dedicated to preserving as much of the original integrity of the house as our lives can accommodate. We are confident that the house, if we listen, will tell us how to proceed.

In full consideration of the significance of the Garfield House to the City of South Pasadena, its importance in the work of architects Charles and Henry Greene, and mindful of our responsibility as stewards of the property, we are committed to an extremely ambitious and expensive restoration, rehabilitation and maintenance plan. Nevertheless, we are a working family of modest means. Only with the property tax relief provided by the Mills Act program does this extent of commitment make any kind of economic sense.

Respectfully,

Joe Henry and Melanie Ciccone
The Garfield House
1001 Buena Vista Street
South Pasadena, CA 91030

Standards for Rehabilitation

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials, features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.

3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.

4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.

5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.

6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.

7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.

8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction will be undertaken in a such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Original will be returned when
processing has been completed.
LOS ANGELES COUNTY REGISTRAR-RECORDER

06 290 344

MILLS ACT CONTRACT

DEC 29 2006

THIS CONTRACT ("Contract") is made and entered into this 22 day of December, 2006, by and between the CITY OF SOUTH PASADENA, CALIFORNIA, a municipal corporation ("City"), and Pete Kutzer ("Owner").

RECITALS

(i) California Government Code Section 50280 *et seq.*, authorizes cities to enter into contracts with the Owner of qualified historical property to provide for the use, maintenance, and restoration of such historical property so as to retain its characteristics as property of historical significance;

(ii) Owner possess fee title in and to that certain real property, together with associated structures and improvements thereon, located at 950-966 Mission Street, South Pasadena, California ("Historic Property"). A legal description of the Historic Property is attached hereto, marked as "Exhibit A" and is incorporated herein as if fully set forth;

(iii) On April 18, 1979, the City Council of the City of South Pasadena approved the designation of 950-966 Mission Street, attached hereto marked "Exhibit B" and incorporated herein as if fully set forth, thereby declaring and designating the Historic Property as a landmark pursuant to the terms and provisions of Section 2.73A-14 of the South Pasadena Municipal Code.

(iv) City and Owner, for their mutual benefit, now desire to enter into this Agreement both to protect and preserve the characteristics of historical significance of the Historic Property, and to qualify the Historic Property for an assessment of valuation pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

NOW, THEREFORE, City and Owner, in consideration of the mutual covenants and conditions contained herein, do hereby agree as follows:

1. EFFECTIVE DATE AND TERM. This Agreement shall be effective and commence on December 22, 2006, and shall remain in effect for a term of ten (10) years thereafter.

2. AUTOMATIC RENEWAL. Each year, upon the anniversary of the effective date of this Agreement (hereinafter referred to as the annual renewal date), one year shall be added automatically to the term of this Agreement, unless timely notice of non-renewal is given as provided in Paragraph 3 of this Agreement.

3. NOTICE OF NON-RENEWAL. If City or Owner desire in any year not to renew this Agreement, that party shall serve written notice of non-renewal in advance

of the annual renewal date of this Agreement as follows: Owner must serve written notice of non-renewal at least ninety (90) days prior to the annual renewal date; City must serve written notice of the non-renewal at least sixty (60) days prior to the annual renewal date. Upon receipt by Owner of a notice of non-renewal from the City, Owner may make a written protest. At any time prior to the annual renewal date, City may withdraw its notice of non-renewal.

4. EFFECT OF NOTICE OF NON-RENEWAL. If either City or Owner serve timely notice to the other of non-renewal in any year, the Agreement shall remain in effect for the balance of the term then remaining.

5. VALUATION OF PROPERTY. During the term of this Agreement, Owner are entitled to seek assessment of valuation of the Historic Property pursuant to the provisions of Chapter 3 of Part 2 of Division 1 of the California Revenue and Taxation Code.

6. PRESERVATION OF PROPERTY. Owner shall preserve and maintain the characteristics of historical significance of the Historic Property. Attached hereto marked as "Exhibit C" and incorporated herein as if fully set forth, is a list of those minimum standards and conditions for rehabilitation and maintenance, use and preservation of the Historic Property, which shall apply to such property throughout the term of this Agreement. In addition, Owner shall comply with the terms of the City's Cultural Heritage Ordinance (South Pasadena Municipal Code, Chapter 2, Article VIE), requiring Owner to maintain the Historic Property in a good state of repair and shall obtain any applicable permits to restore the Historic Property to maintain its historic and cultural significance.

7. RESTORATION OF PROPERTY. Owner shall, where necessary, restore and rehabilitate the Historic Property to conform to the rules and regulations of the Office of Historic Preservation of the State Department of Parks and Recreation, the United States Secretary of the Interior's Standards for Rehabilitation, and the State Historical Building Code, and the City of South Pasadena, attached hereto marked "Exhibit D" and incorporated herein as if fully set forth.

8. INSPECTIONS. Owner shall allow reasonable periodic examinations, by appointment, of the interior and exterior of the Historic Property by representatives of the County Assessor, the State Department of Parks and Recreation, the State Board of Equalization, and the City, as may be necessary to determine Owner's compliance with the terms and provisions of this Agreement.

9. PROVISION OF INFORMATION. Owner shall furnish the City with any and all information requested by City which City deems necessary or advisable to determine compliance with the terms and provisions of this Agreement.

10. CANCELLATION. City following a duly noticed public hearing as set forth in California Code Section 50280 *et seq.*, may cancel this Agreement if City

determines Owner have breached any of the conditions or covenants of the Agreement or has allowed the Historic Property to deteriorate to the point that it no longer meets the standards for a qualified historic property. City may also cancel this Agreement if it determines Owner have failed to restore or rehabilitate the Historic Property in the manner specified in Paragraph 7 of this Agreement. City's right to cancel this Agreement pursuant to this paragraph shall in no way limit or restrict its rights or legal remedies arising from City's Cultural Heritage Ordinance and Municipal Code.

11. CANCELLATION FEE. In the event of cancellation, Owner shall be subject to payment of those cancellation fees set forth in California Government Code Section 50280 *et seq.*, described herein. Upon cancellation, Owner shall pay a cancellation fee equal to twelve and one-half percent (12.5%) of the current fair market value of the property as determined by the County Assess as though the Historic Property were free of the contractual restriction pursuant to this Agreement. The Owner shall pay the cancellation fee to the County Auditor in the time and manner prescribed by the County Auditor.

12. ENFORCEMENT OF AGREEMENT. In lieu of and/ or in addition to any provisions to cancel this Agreement as referenced herein, City may specifically enforce, or enjoin the breach of the terms of this Agreement.

13. WAIVER. City does not waive any claim or default by Owner if City does not enforce or cancel this Agreement. All other remedies at law or in equity which are not otherwise provided for in this Agreement or in the City's regulations governing historic properties are available to City to pursue in the event there is a breach of this Agreement. No waiver by City of any breach or default under this Agreement shall be deemed to be a waiver of any other subsequent breach thereof or default hereunder.

14. BINDING EFFECT OF AGREEMENT. Owner hereby subject the Historic Property to the covenants, reservations and restrictions set forth in this Agreement. City and Owner hereby declare their specific intent that the covenants, reservations, and restriction as set forth herein shall be deemed covenants running with the land and shall pass to and be binding upon Owner's successors and assigns in title or interest to the Historic Property.

Each and every contract, deed or other instrument hereinafter executed, governing or conveying the Historic Property, or any portion thereof, shall conclusively be held to have been executed, delivered and accepted subject to the covenants, reservations and restriction expressed in this Agreement regardless of whether such covenants, reservations and restrictions are set forth in such contract, deed or other instrument.

City and Owner hereby declare their understanding and intent that the burden of the covenants, reservations and restrictions set forth herein touch and concern the land in that it restricts development of the Historic Property. City and Owner hereby further declare their understanding and intent that the benefit of such covenants, reservations

and restrictions touch and concern the land by enhancing and maintaining the cultural and historic characteristics and significance of the Historic Property for the benefit of the public and Owner.

15. NOTICE. Any notice required to be given by the terms of this Agreement shall be provided at the address of the respective parties as specified below, by personal delivery or United States mail, postage prepaid, addressed as follows:

City: City of South Pasadena
Director of Planning and Building
1414 Mission Street
South Pasadena, California 91030

Owner: Mission Arroyo, LLC
c/o Pete Kutzer, The Kutzer Company
716 Mission Street
South Pasadena, California 91030

16. EFFECT OF AGREEMENT. None of the terms, provisions or conditions of this Agreement shall be deemed to create a partnership between the parties hereto and any of their heirs, successors or assigns, nor shall such terms, provisions or conditions cause them to be considered joint ventures or members of any joint enterprise.

17. INDEMNITY OF CITY. Owner agree to protect, defend, indemnify, and shall hold City and its elected officials, officers, agents, and employees harmless from liability for claims, loss, proceedings, damages, causes of action, liability, costs or expense, including reasonable attorney's fees in connection with damage for personal injuries, including death, and claims for property damage which may arise from the direct or indirect use or operations of such Owner or those of their contractor, subcontractor, agent, employee or other person acting on his behalf which relate to the use, operation and maintenance of the Historic Property. Owner hereby agree to and shall defend the City and its elected officials, officers, agents, and employees with respect to any and all actions for damages caused by, or alleged to have been suffered, by reason of the operations referred to in this Agreement regardless of whether or not the City prepared, supplied or approved the plans, specifications or other documents for the Historic Property.

18. BINDING UPON SUCCESSORS. All of the agreements, rights, covenants, reservations, and restrictions contained in the Agreement shall be binding upon and shall inure to benefit of the parties herein, their heirs, successors, legal representative, assigns and all persons acquiring any part or portion of the Historic Property, whether by operation of law or in any manner whatsoever.

19. LEGAL COSTS. In the event legal proceedings are brought by any party or parties to enforce or restrain a violation of any of the covenants, reservations or

restrictions contained herein, or to determine the rights and duties of any party hereunder, the prevailing party in such proceeding may recover all reasonable attorney's fees to be fixed by the court, in addition to court costs and other relief ordered by the court.

20. SEVERABILITY. In the event that any of the provisions of this Agreement are held to be unenforceable or invalid by any court of competent jurisdiction, or by subsequent preemptive legislation, the validity and enforceability of the remaining provisions, or portions thereof, shall not be affected thereby.

21. GOVERNING LAW. This Agreement shall be construed and governed in accordance with the laws of the State of California.

22. EMINENT DOMAIN PROCEDURES. Upon the filing of an action in eminent domain by a public agency for the condemnation of the fee title of any land described herein or of less than fee interest which will present the portion of land condemned or other land or a portion of it which is the subject of this Agreement from being used for any authorized use, or upon the acquisition in lieu of eminent domain by a public agency for a public improvement, the portions of this Agreement by which Owner agree to preserve and to restrict the use of property described herein shall be null and void upon such filing as to the portion of the land condemned or acquired and to the additional land the use of which for an authorized purpose will be prevented as a result of condemnation or acquisition.

If, subsequent to the filing of an action in eminent domain, the proposed condemnation is abandoned by the condemning agency as to all or a portion of the land subject to the Agreement, the restrictions on the use of the property included in this Agreement shall, without further agreement of the parties, be re-instituted and the terms of this Agreement shall be in full force and effect.

23. RECORDATION. No later than thirty (30) days after the parties execute this Agreement, the Agreement shall be recorded in the Office of the County Recorder of the County of Los Angeles.

24. AMENDMENTS. This Agreement may be amended, in whole or in part, only by written-recorded instrument executed by the parties hereto.

25. NOTICE TO OFFICE OF HISTORIC PRESERVATION. The Owner or Owner's agent is required to provide written notice of this Agreement to the State Office of Historic Preservation within six (6) months of entering into this Agreement.

IN WITNESS THEREOF, City and Owner have executed this Agreement on the day and year first above written.

SARAH ADAMS
Commission # 1612087
Notary Public - California
Los Angeles County
My Comm. Expires Oct 9, 2009

Exhibit C

Background:

Pursuant to the request of the Cultural Heritage Committee, we have done additional research on certain aspects of the building and the maintenance program, and are providing this Addendum to our earlier application.

I. <u>Rehab/Restoration-Completed to Date</u> (to be maintained over the life of the contract)

We understand that the Mill's Act program is not retroactive and that the tax savings we accrue over the next ten years is not to serve as a reimbursement for work completed prior to the contract. Much of the capital rehabilitation.restoration work needed on the building as of yet, has already been completed prior to the filing of this application. Thus, we include the following rehab/restoration costs *Completed to Date* to serve as an example of the time, energy, and money that will continue to be put into the building over the course of its lifetime, as our major goal is to preserve and maintain the value of this historic property. There is also no doubt that many, if not all of these areas will require continuous maintenance over the life of the Mill's Act contract.

1. *Exterior Restoration and Painting*: Removal of all old paint, lead abatement and painting as directed, completed by Dick Speer Painting.	$ 31,748.00
2. *Awnings*: Awning production, installation and lettering, completed by Pasadena Awning Company.	$ 13,731.00
3. *Miscellaneous Work*: Remove & dispose old awnings and replace transom glass as needed, completed by M & M Construction Group.	$ 3,845.00
4. *Re-Roofing*: Install new Class A Built-Up roof system, replace dry rotted decking, and install new HVAC sheet metal pans on HVAC platforms, completed by Richter Roofing Company.	$ 10,660.00
5. *Flashing*: Install new metal flashing along the façade of building to protect the roof membrane, completed by Renaissance Raingutters.	$ 2,642.00
6. *Planning & Consulting*: Project Coordination, drafting services, blueprints, pictures, and consulting, completed by The Kutzer Company and Dahl Architects.	$ 8,722.67
Total:	**$ 71,348.67**

II. Rehab/Restoration-Planned (expected to be maintained over the life of the contract)

1. *Awnings*: Awning production & installation for rear balcony and stairs to be completed by Pasadena Awning Company.	$ 2,925.00
2. *Carpet & Floors*: Installation of carpet and refinishing of hardwood floors in all common areas to be completed by Avalon Flooring.	$ 2,070.00
3. *Air Conditioning*: Installation of (5) Bryant, heat pump a/c heat systems to be completed by Connor Air Conditioning. *Please Note: Estimate DOES NOT include the cost of electrical or equipment wiring, decorative equipment fencing, smoke or fire detectors or alarms, mechanical or structural engineering or drawings, or third party duct testing or certification.	$ 31,860.00
4. *Painting*: Painting of exterior surfaces and interior stairway and lobby to be completed by Fino Painting & Decorating.	$ 3,190.00
5. *Wood Restoration/Protection:* Repair and protect all interior common area wood surfaces including two handrails, twenty three wooden steps, boarders and trims, and threshold.	$ 2,340.00
6. *Exterior Brick Repointing/Repair:* Remove over-caulking between bricks, minimize ghosting effect of previous mortar and caulking repairs, mitigate old smoke stains, restore areas above 950, 952 and 954, remove unused anchors, patch and color holes, spot repoint missing mortar.	$ 18,750.00
Total:	**$ 61,135.00**

III. Annual Estimated Maintenance (expected over the life of the contract)

In order to maintain the building in compliance with the Secretary of the Interior's standards and to generally preserve the property we anticipate the following approximate **annual** expenditures as based on our *2005 Year-to Date General Ledger*, and experience with similar historic buildings.

1. *Wood Fixture Maintenance* (yearly) $ 2,340.00
This is a budget item for annual maintenance on the woodwork in the building. We plan to focus on different areas each year on a rotating basis, including windows, floors, staircase, and moldings. Most of this work would be done by experienced contractors such as USA Metal and California Restoration and Waterproofing.

2. *Awning Maintenance* (current cost $110/mo) $ 1,320.00
