AGENDA TRANSMITTAL

MEETING DATE: March 7, 2023

CITY AGENDA ITEM: Accept the Investment Report for the Quarter Ending December 31, 2022.

FISCAL IMPACT: No fiscal impact; informational only.

STRATEGIC PLAN: Ensure Fiscal Solvency; Provide Good Governance.

BACKGROUND: Each quarter it is necessary to produce an Investment Report showing how all City, Housing Authority, Successor Agency and Suisun-Solano Water Authority’s available cash is invested, in terms of the type of investment, what institution it is invested in, and current value and interest earnings.

STAFF REPORT: The total cash and investments (per amount) equaled to \$45,871,697 for the period ending December 31, 2022. In summary, the cash and investment portfolio consist of the following governmental funds:

SSWA 2019 Series Bond Proceeds	\$573, 204
Energy Conservation Project-ENGIE	\$376,042
Debt Service Reserves	\$1,434,369
General Fund	\$8,786,697
Trust/Fiduciary Funds	\$1,086,718
All Other Funds	\$23,614,667
Total	\$45,871,697

In terms of return on our investment managed by PFM Asset Management LLC, the current yield to maturity at cost is 1.80% with an average life of 821 days. The average Local Agency Investment Fund (LAIF) return for the current quarter is 1.98%. For additional detail, please refer to the PFM Managed Account summary Statement attached to this staff report. As of December 31, 2022, the Par Value of investment managed by PFM Asset Management is \$22,821,136.

According to PFM’s quarterly report, the U.S. economy is characterized by high inflation that show signs of slowing and expectations for a modest yet broad economic downturn. The Federal Reserve projections show rate hikes slowing, ending in 2023.

Recent market volatility has caused most fixed-income investors to experience significant unrealized losses. Unrealized gains or losses are the difference between the current market value of an investment and it’s carrying value on the books, usually measured by amortized cost (or under some accounting treatments, original purchase cost).

The recent surge in unrealized losses occurred primarily because interest rates rose sharply in 2022,

noting that fixed-income security prices and therefore market values move inversely to interest rates.

Unrealized losses reflect market values at a point in time and will vary day-to-day. However, losses are only monetized, or “realized,” when a security is sold. If fixed-income investments are held to maturity, unrealized losses dissipate, and the full principal is returned at maturity. So, while unrealized losses reflect the value of each asset if it were sold at today’s prices, outside of a permanent impairment, unrealized losses could be thought of as temporary, if the intent is to hold to maturity.

As can be seen in the Pie Chart on the last page of the attached Investment Report, nearly 80% of the cash (other than cash in checking accounts) is invested in federally insured CD’s, US Treasuries, Agency Notes, Commercial Paper, Corporate Notes or LAIF, all of which generate modest yields.

STAFF RECOMMENDATION: It is recommended that the Council/Authority accept the Quarter Ending December 31, 2022, Financial Officer’s Investment Report.

AGENDA TRANSMITTAL

MEETING DATE: March 7, 2023

CITY AGENDA ITEM: Council Adoption of Resolution No. 2023-__ : Approving the Design and Budget for Prosperity Garden Park and Authorizing the City Manager to Proceed with the Project.

FISCAL IMPACT: Prosperity Garden Park will be funded by American Rescue Plan Act (ARPA) in the amount of \$375,000, State of California Funding in the amount of \$780,000, and Park Development Funds in the amount of \$111,900, for a total development cost of \$1,266,900 including a 7% contingency. There is an add alternate play structure item in the amount of \$85,000 that would be funded by the Park Development Fund.

STRATEGIC PLAN: Enhance Environment.

BACKGROUND: The former Suisun City Community Garden ceased to exist in 2016. The garden was located at the corner of Lotz Way and Civic Center Drive. The garden was not well maintained and did not have purposeful planning or management during its existence. During the September 15, 2021, Recreation, Parks, Marina, and Arts Commission (RPMA) meeting, the commission voted to support the community garden project and asked that \$375,000 of ARPA funding be dedicated to that project. This request was approved by the City Council as one of the priority projects funded by ARPA.

During the October 5, 2021 City Council meeting, this project was supported by the council and provided the Recreation, Parks, and Marina Department direction to move forward with planning the project. On March 10, 2022, RPMA recommended entering into a contract with Melton Design Group. The Melton Design Group contract was approved during the March 29, 2022, City Council Meeting. The contract approved was for the design plan and project coordination of Prosperity Garden Park in the amount of \$121,750 and authorizing the City Manager to approve change orders up to 10% of the original contract amount. The Melton Design contract is included in the overall cost of the project.

STAFF REPORT: Prosperity Garden Park will be located on city owned property that was once part of a plan to become a street. That idea never came to fruition and the land has been vacant ever since. Ironically, the name of the street that was never built was Prosperity Lane, which leads to naming this project Prosperity Farm. This property sits adjacent to the McCoy Creek Bike Trail Phase 3, which will connect this area to the majority of the city by walking or riding a bicycle. This piece of property is approximately 1.9 acres and will consist of a neighborhood park as well as a community garden. The surrounding neighborhood has never had a community park of their own. If they want to participate in park activities, they are forced to travel to either Hall Park or Heritage Park which are both approximately 1 mile away.

The garden will showcase a secure perimeter, a vegetative screen to protect the homes adjacent to the garden, restrooms, storage, covered patio for instructional classes, a walkway lined with a trellis, a fountain, and an orchard. The garden also features pollinator plants, as well as a composting area along with several small and large garden plots and incorporates raised beds for people needing access off of the ground. There is space purposely left vacant between the garden and the orchard to allow for future development of a larger orchard or adding more garden plots.

The operation of the garden will be conducted by a yet to be established garden club. Those individuals who wish to utilize the garden will be part of the Suisun Garden Club and as such, will assist the city by keeping the area clean. Plot rentals will help pay for necessary costs of the garden operation and the idea is to keep the operation and maintenance a community lead effort. The Recreation, Parks, and Marina Department recognizes that Public Works Maintenance Division does not have the capacity to take on a new park areas maintenance needs. With that in mind came the decision for a community led garden club and a low to no maintenance park area.

Community gardens can mitigate some of the problems that plague urban areas. They can be a beneficial addition to many communities by increasing the availability of nutritious foods, strengthening community ties, reducing environmental hazards, reducing food miles and creating a more sustainable system. Community gardens can help reduce negative environmental impacts by promoting sustainable agriculture; reducing food transportation costs and reducing water runoff. Humans, plants and animals can all benefit from urban agriculture since it creates habitats and improves the ecology of the area.

Community gardens:

- Help improve air and soil quality
- Increase biodiversity of plants and animals
- Reduce “food miles” that are required to transport nutritious food
- Can replace impervious structures and improve water infiltration
- Can reduce neighborhood waste through composting
- Positively impact the urban micro-climate

Poor nutrition and obesity are both challenges to low-income neighborhoods. Low accessibility to nutritious foods can cause health problems to residents located in food deserts. The addition of gardens to these areas may improve nutrition and increase the consumption of fruits and vegetables.

Community gardens also:

- Increase access to fresh foods
- Improve food security
- Increase physical activity through garden maintenance activities
- Improve dietary habits through education
- Increase fruit and vegetable intake
- Reduce risk of obesity and obesity-related diseases
- Improve mental health and promote relaxation

STAFF RECOMMENDATION: It is recommended that the City Council Adopt Resolution No. 2023-__: Approving the Design and Budget for Prosperity Garden Park and Authorizing the City Manager to Proceed With the Project.
