Suggested Action:

Consider approving a resolution authorizing the City Manager to execute a Construction Services Contract in the amount of \$259,677.00 with La Banda LLC for the Strickland Storm Sewer Repair Project. (Hartline)

Background:

Background: City Council approved funding for the Strickland Storm Sewer Repair Project in the 2024-2025 Capital Improvement Project (CIP) budget. The scope of work consists of improvements to several storm sewer pipes that drain into the Strickland channel from Strickland Avenue, Heatherington Dr., and Middleton Circle. The project includes the stream section between Blair Oaks Drive and FM 423. The sections of pipe to be replaced were originally installed using corrugated metal pipe which has corroded and failed in numerous locations. The failed piping has caused sinkholes in some locations (see attached photos). This damaged pipe will be replaced with concrete pipe during this project. The work includes mobilization, demolition of existing corrugated storm sewer pipes, removal and replacement of grouted rock riprap, fence removal, fence reinstallation/reconstruction, sidewalk removal and replacement, erosion and sediment control and the installation of approximately 600 feet of concrete sewer pipe and headwalls. The project will also include video inspection of pipes before and after construction. The project bids were opened on November 18, 2025 and the lowest responsible bidder was La Banda LLC at a cost of \$259,677.00. Teague Nall and Perkins, Inc., the Project Design Engineer, analyzed the bid tabulations and found no anomalies. Naim Khan with The Colony indicated that La Banda is currently performing satisfactory work on a larger and more complex street reconstruction project for the city and is doing good work on this project. Based on the information provided, Teague Nall and Perkins recommends approval of the contract with this company. See attached Engineering Recommendation Letter for additional information. With approval, the project is anticipated to start construction in March 2026 with an estimated completion in December 2026. RE: Recommendation of Award
Strickland Storm Sewer Repairs
BID # 69-26-01
tnp No.: CLY 25108

Dear Ron:

The City of The Colony, Texas accepted bids on November 18, 2025 for the Strickland Storm Sewer Repairs project. The project consists of improvements to the storm sewer system which drains into the channel approximately parallel to Strickland Avenue between Blair Oaks Drive and FM 423.

The City received five bids, and TNP prepared a bid tabulation and analyzed the bid results. The table below lists the bidders and their bid totals from lowest to highest as well as the Engineer's Estimate:

Bidder:	Total Bid:
La Banda, LLC	\$ 259,677.00
Patriot Civil, LLC	\$ 316,581.00
Quality Excavation	\$ 325,992.00
Capko Concrete Structures, LLC	\$ 366,930.00
RNO Construction, LLC	\$ 390,320.00
Engineer's Estimate	\$ 355,800.00

Per the bid data shown above, La Banda, LLC is the apparent low bidder for this project. We have analyzed the bid tabulation and found no anomalies. TNP received a reference from Naim Khan, P.E., Senior Engineer with the City, stating that La Banda is currently performing satisfactory work on a larger and more complex project for the City. Based on the information above and the reference from Mr. Khan, **we recommend awarding the bid contract to La Banda, LLC** for the contract amount of **\$ 259,677.00**.

Feel free to contact us if you have any questions.

TO:	Mayor and City Council, City Manager
DATE SUBMITTED:	12/26/2025
MEETING DATE:	01/06/2026
SUMMARY OF REQUEST:	Consider approving a resolution authorizing the City Manager to submit an application for the Texas Parks and Wildlife Department (TPWD) Boating Access Grant Program for the West Shore Kayak Launch

Background:

The Boating Access Grant Program awards federal grant funds for projects that provide public access to waterways. The Texas Parks and Wildlife Department acts as the pass-through entity by partnering with local governments to provide 75% funds (25% City match) for new construction, renovation or redevelopment of public boat ramps and support facilities that provide benefits to recreational boaters. We would work with MHS, who as you know, successfully managed the grant for West Shore Park, and who recently helped us apply for another recreational grant.

The Boat Access Grant Program is administered through two phases:

Phase 1: Planning & Design Grant – to complete all pre-construction compliance requirements and receive a Notice to Proceed with Construction from the Federal agency.

Phase 2: Construction Grant – to complete project elements approved through the Phase 1, Planning and Design Grant.

Budget:

When West Shore Park was originally designed, the kayak launch was included in the overall plan. Due to funding limitations at the time, the kayak launch was designated as a Phase II project. In the FY 25–26 Lake Parks budget, \$150,000 was approved, which is sufficient to construct the trail as currently designed. However, we would like to explore potential design enhancements, such as incorporating a boardwalk-style structure in place of the proposed decomposed granite (DG), to reduce long-term maintenance costs. Any modifications would be contingent upon USACE and TPWD approvals, but regardless, our goal is to maximize the Grant opportunities available.

Re: Bid No. 69-26-02: Phase 15 Streets Reconstruction – Low Bidder Referral Letter

Dear Mr. Hartline:

Bids for the Phase 15 Streets Reconstruction project were opened on Thursday, November 13, 2025, at the City of The Colony. Bids were received from Five (5) different bidders and ranged from high bid of \$5,473,715.00 to a low bid at \$4,659,936.10. ANA Site Construction (ANA) was the apparent low bidder. The City of The Colony (City) asked Halff Associates, Inc. (Halff) to review the qualifications and references of the apparent low bidder. In response to this request, Halff personnel reached out to three (3) municipality references that had similar project scope, scale and contract price to the Phase 15 Streets Reconstruction project and received a response back from the City of Celina, City of Plano, and City of Sanger about ANA's quality of the construction services, safety compliance and overall satisfaction.

Halff personnel spoke with Tyler Ratliff, Senior Construction Inspector for the City of Celina. Mr. Ratliff discussed ANA's performance on a paving, drainage, water, and sewer rehabilitation project and he stated ANA adhered to project deadlines and were "communicative, very responsive, and reliable." He mentioned ANA's workmanship on the paving and drainage structures were well executed and no change orders were requested. Mr. Ratliff also noted that ANA worked well with the homeowners and operated safely on site. He stated that the City of Celina has hired ANA many times in the past and would hire them again.

Halff contacted Husain Hamza, Senior Engineer for the City of Plano. Mr. Hamza discussed ANA's performance on their Water Rehabilitation Project for Cross Creek East No. B and he stated that ANA "handled the work professionally with minimum guidance." He noted that ANA worked well with homeowners, finished the scope of work on schedule, and were prompt to solve issues when they arose on site. Mr. Hamza highlighted the work performed on the drainage structures to be well constructed and stated he would hire ANA again.

Halff personnel spoke with Jim Bolz, Director of Public Works for the City of Sanger. Mr. Bolz discussed ANA's performance on the I-35 Utility Relocations project and he stated they were prompt and performed very well. He mentioned ANA's workmanship for water and sewer relocations was thorough and handled professionally, especially when working with the surrounding business owners and city officials. Mr. Bolz noted there were only a few change orders initiated by the ANA due to no fault of their own and that the

project deadlines were met well before schedule. When asked if he would rehire this contractor, he stated the City of Sanger has used ANA on multiple projects and “promotes them to others when given the chance.”

Section 252.043 in the Local Government Code states if competitive sealed bids are received, the contract must be awarded to the lowest responsible bidder or to the bidder who provides goods or services at the best value for the municipality. After considering the purchase price and reputation of the bidders, Halff has determined that ANA Site Construction is the lowest responsible bidder.

Should you have any questions or comments regarding the statements recorded in this letter please feel free to call me at (817) 764-7446.

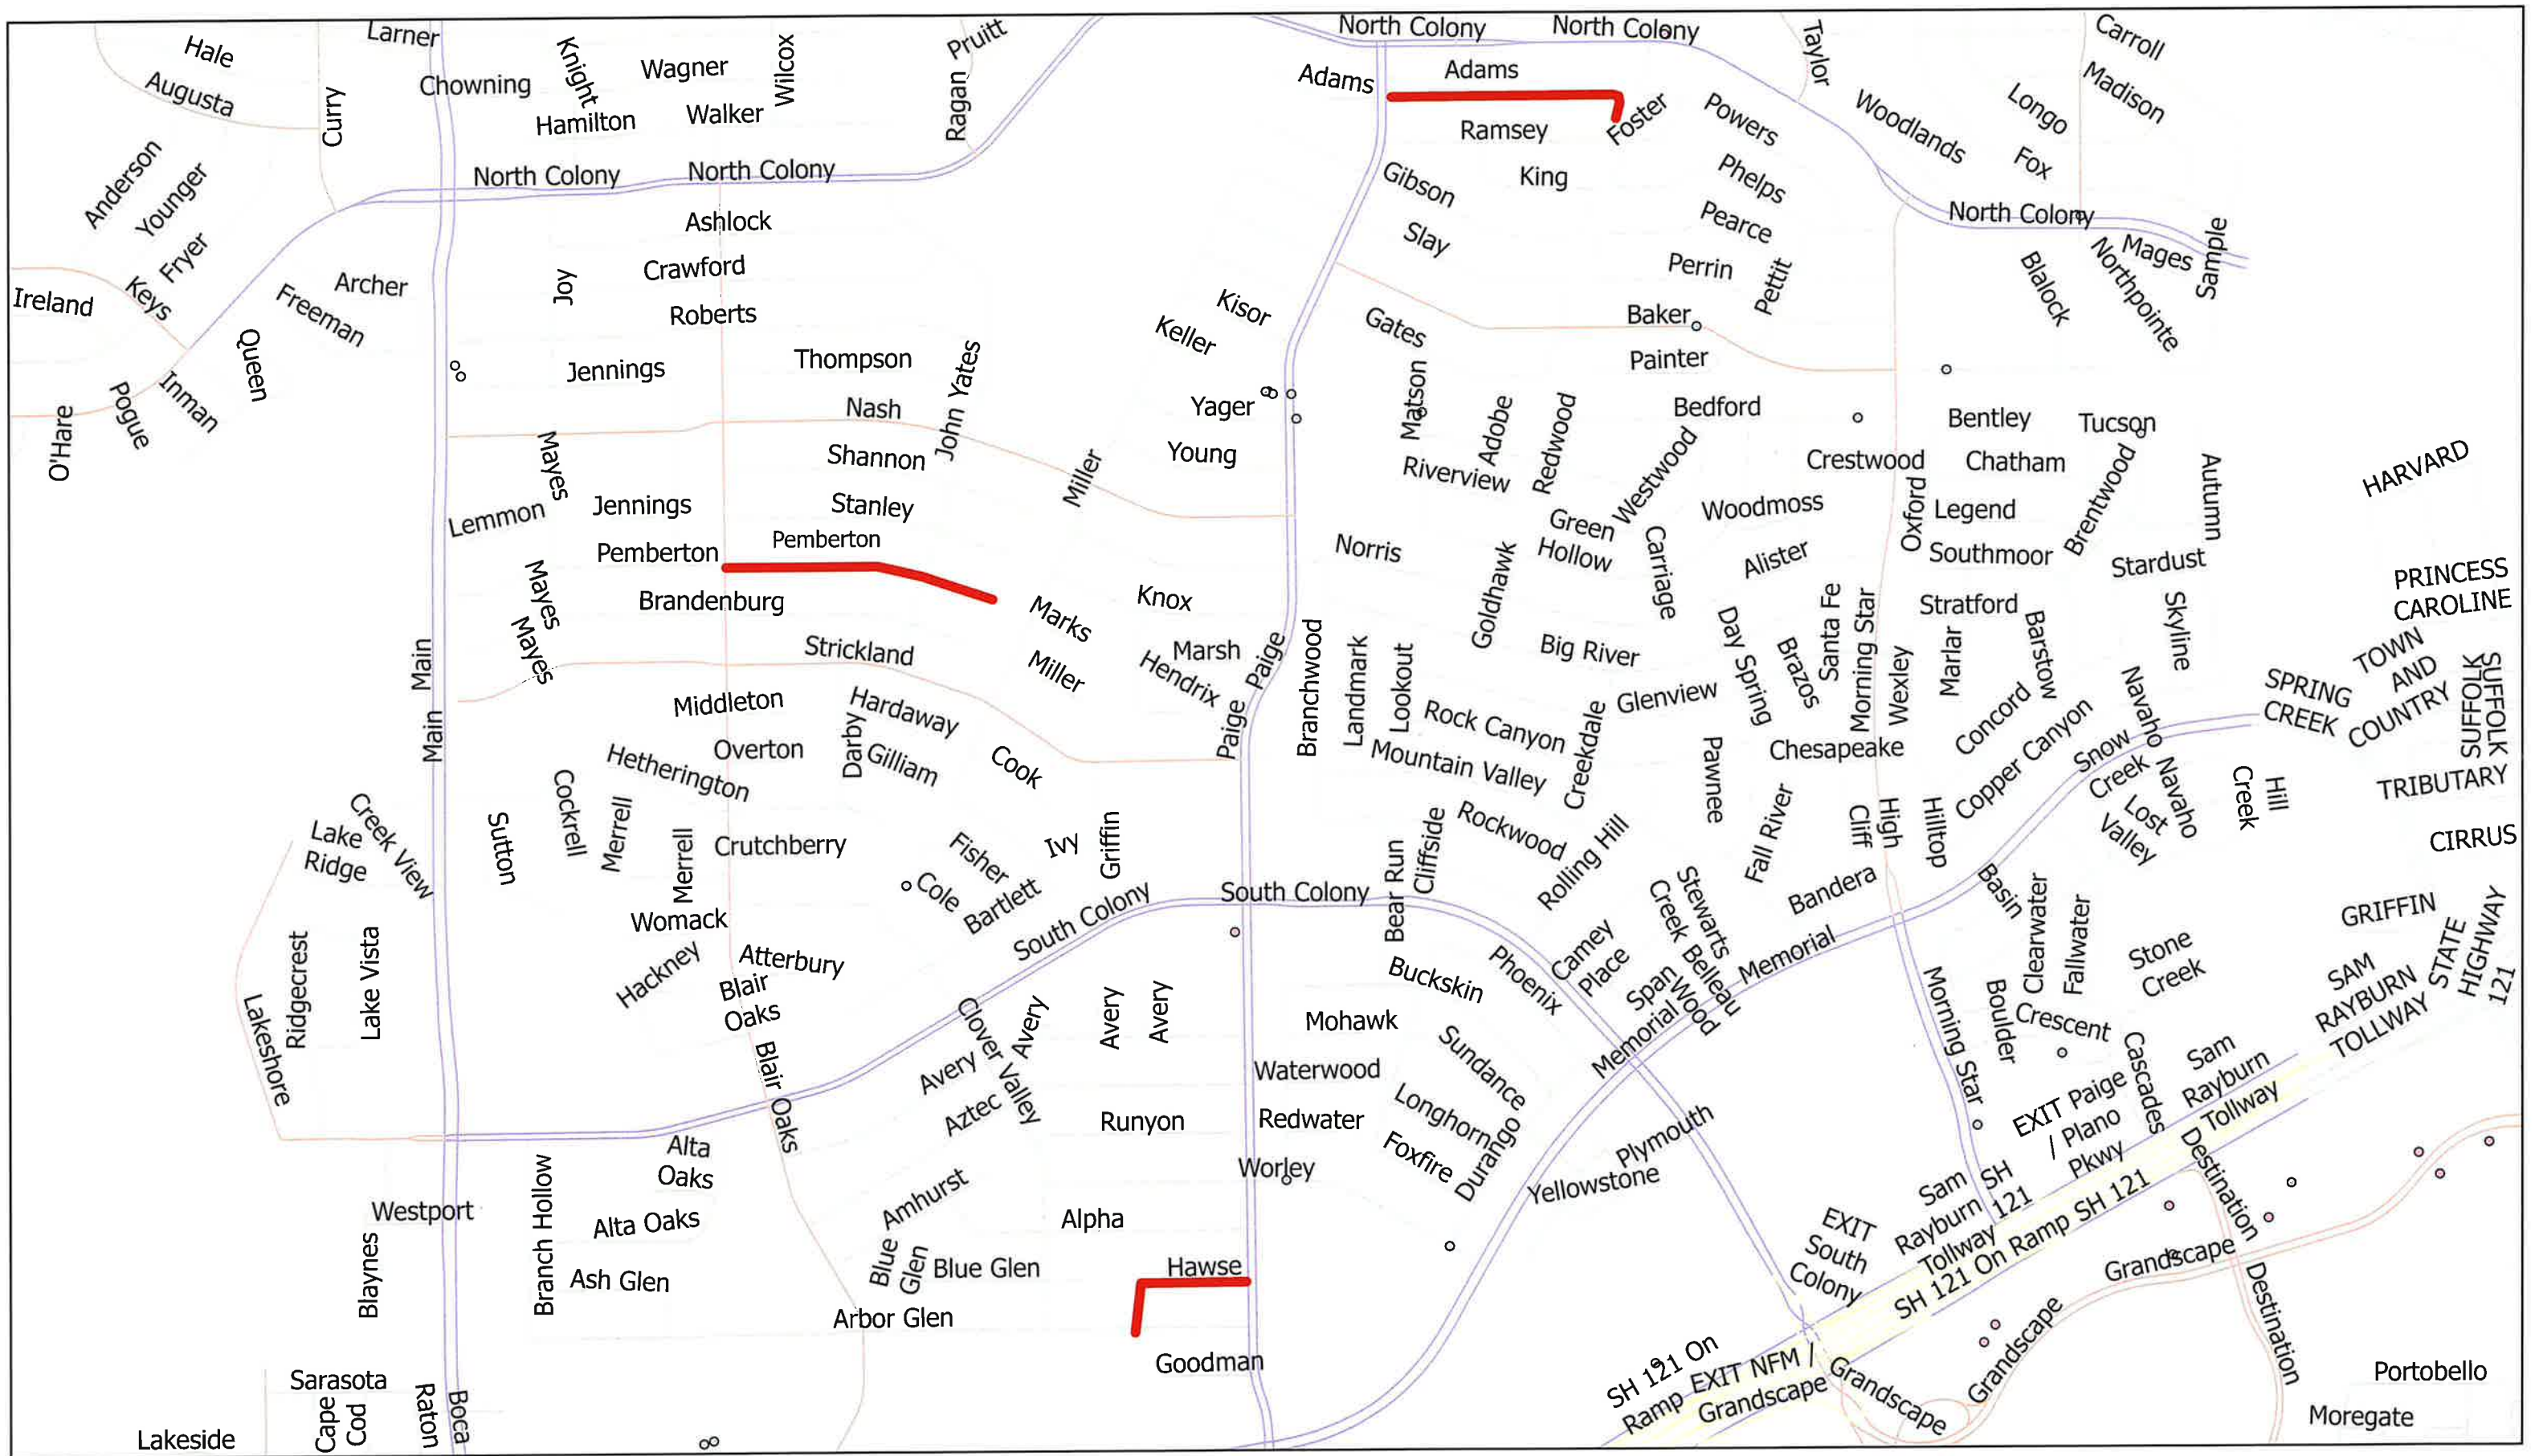

Sincerely,

HALFF
