Strategic Planning/Capital Planning Discussion

motion / recommendation

background

The City Commission met on July 14th to begin the strategic planning/capital planning process. Mayor Anderson introduced a spreadsheet to categorize projects into two groups: planned funding within 1-5 years and long term planning for 6-25 years. The spreadsheet also included many potential funding sources.

The City Commission had a healthy discussion about the process and many of the major funding sources and projects. At the conclusion of the meeting the Commission was tasked with, "...identifying projects for a 5-year plan and 6-25-year plan, address cost/budget for specific projects, and then identify strategy to address funding deficit to discuss at next work session," to prepare for the next work session.

Attached are the documents provided at the previous meeting to serve as a guide for the discussion.
